
(4) All floors shall be smooth and free from cracks, easily cleanable, and not slippery. All floor coverings shall be kept clean and maintained in good repair.

(5) All walls shall be smooth, easily cleanable, and sound. Lead-free paint shall be used on all painted surfaces.

(6) All areas of the birth center shall have light fixtures capable of providing at least 20 foot-candles of illumination. Additional illumination shall be available to permit observation of the patient and the newborn, cleaning, and maintenance. The light fixtures shall be maintained in working order and kept clean.

(7) Each birthing room shall have emergency lighting for use during a power outage.

(8) Each birth center shall be equipped with a scrub sink equipped with an elbow, knee, or foot control.

(9) Each birthing room shall be located on the ground level and shall provide unimpeded, rapid access to an exit of the building that will accommodate patients, newborns, emergency personnel, emergency transportation vehicles, and equipment.

(10) Each birthing room shall meet the following requirements:

(A) Have at least 180 square feet of floor space; and

(B) provide enough space for the equipment, employees, supplies, and emergency procedures necessary for the physical and emotional care of the patient and the newborn. (Authorized by and implementing K.S.A. 65-508; effective July 9, 2010.)

28-4-1314. Birth center and birthing room furnishings, equipment, and supplies.

(a) Each licensee shall provide furnishings, equipment, and other supplies in the quantity necessary to meet the needs of patients, newborns, and employees and to provide a safe, home-like environment.

(b) Each licensee shall provide the specialized furnishings, equipment, and supplies necessary for the clinical staff members to perform the clinical services offered by the birth center. No specialized clinical services shall be provided unless the birth center is equipped to allow the clinical staff members to safely perform those services.

(c) All furnishings, equipment, and supplies shall be kept clean and free from safety hazards.

(d) The furnishings shall include, at a minimum, the following:

(1) A bed or table for delivery;

(2) at least one chair; and

(3) a wall clock with a second hand.

(e) The equipment and supplies shall include, at a minimum, the following:

(1) An examination light;

(2) a sphygmomanometer;

(3) a stethoscope;

(4) a doppler unit or fetoscope;

(5) a clinical thermometer;

(6) disposable nonporous gloves in assorted sizes;

(7) an infant scale;

(8) a mechanical suction device or a bulb suction device;

(9) a tank of oxygen with a flowmeter and a mask, a cannula, or an equivalent;

(10) all necessary emergency medications and intravenous fluids with supplies and equipment for administration;

(11) resuscitation equipment for patients and newborns, which shall include resuscitation bags and oral airways;

(12) a laryngoscope and a supply of endotracheal tubes of assorted sizes appropriate for a newborn;

(13) a firm surface suitable for resuscitation;

(14) sterilized instruments for delivery, episiotomy, and repair of an episiotomy or a laceration;

(15) an infant warmer that provides radiant heat;

(16) a readily accessible emergency cart or tray for the patient and for the newborn that meets the following requirements:

(A) Is equipped for the clinical staff members to carry out the written emergency procedures of the birth center;

(B) is securely placed; and

(C) has a written log of routine maintenance;

(17) clean bed linens and towels; and

(18) emergency lighting.

(f) All equipment, furnishings, and supplies shall be used as intended and shall be securely stored when not in use to prevent injury or misuse. (Authorized by and implementing K.S.A. 65-508; effective July 9, 2010.)

28-4-1315. Maintenance. (a) Each licensee shall ensure that the building is kept clean at all times and free from accumulated dirt and from vermin infestation.

(b) Each licensee shall develop and implement a maintenance plan to ensure that all of the following conditions are met:

(1) A schedule for cleaning the birth center is established.

(2) All floors and walking surfaces are kept free of hazards, maintained in good repair, and kept clean at all times.

(3) Housekeeping services are provided to maintain a sanitary environment.

(4) Each birthing room, including equipment, is cleaned after each delivery and before reuse.

(5) The toilets, lavatories, sinks, and other facilities are clean at all times.

(6) The mops and other cleaning tools are cleaned after each use and stored in a well-ventilated place on racks.

(7) All pesticides and other poisons are used in accordance with product instructions and stored in a locked area.

(8) Safe storage for cleaning and laundry supplies is provided.

(9) Each indoor trash container is emptied, as needed, to control odor and to prevent the overflowing of contents.

(10) The methods used to dispose of trash, including biomedical waste, human tissue, and sharp instruments, are safe and sanitary.

(11) Hot and cold running water is supplied to each sink and all bathing facilities.

(12) The hot water temperature does not exceed 120 degrees Fahrenheit.

(13) Toilet paper, soap, and either paper towels or hand dryers are available in each restroom and each bathroom in the birth center. (Authorized by and implementing K.S.A. 65-508; effective July 9, 2010.)

28-4-1316. Safety. (a) Each licensee shall ensure the safety of all patients, newborns, employees, and visitors according to the following requirements:

(1) Each birth center shall have a working telephone on the premises and available for use at all times. Emergency telephone numbers shall be posted by each telephone or shall be readily accessible. These telephone numbers shall include telephone numbers for the fire department, hospital, ambulance, and police.

(2) Each exit shall be marked. No exit shall be blocked at any time.

(3) All drugs, chemicals, and medications shall be kept in locked storage and secured in specifically designated and labeled cabinets, drawers, closets, storerooms, or refrigerators and shall be made accessible only to authorized employees.

(b) Each licensee shall ensure the development and implementation of a disaster plan to provide for the evacuation and safety of patients, newborns, employees, and visitors in case of fire, tornadoes, storms, floods, power outages, and other types of emergencies specific to the geographic area in which the birth center is located.

(1) The disaster plan shall be posted in a conspicuous place in each indoor room.

(2) Each employee shall be informed of and shall follow the disaster plan.

(3) A review of the disaster plan, including fire and tornado drills, shall be conducted with the employees at least once every six months, and the date of each review shall be recorded.

(4) Fire and tornado drills shall be conducted with the employees at least quarterly, and the date of each drill shall be recorded.

(c) Heating appliances, when used, shall be used as intended, safely located, equipped with a protective barrier as needed to prevent injury, and maintained in operating condition. If combustible fuel is used, the appliance shall be vented to the outside.

(d) Each licensee shall develop and implement policies and procedures regarding the storage and handling of firearms and other weapons on the premises.

(e) Pets and any other animals shall be prohibited in the birth center, with the exception of service animals. (Authorized by and implementing K.S.A. 65-508; effective July 9, 2010.)

28-4-1317. Food service. (a) Each licensee shall ensure that the birth center has arrange-

ments to provide patients with nutritious liquids and foods. Foods may be provided by means of any of the following:

(1) Obtained from a food service establishment or a catering service licensed by the secretary of the Kansas department of agriculture;

(2) prepared on-site by employees; or

(3) provided by any patient's family for the sole use of that patient and the patient's family.

(b) All food that is designed to be served hot and is prepared on-site by employees shall be heated, maintained, and served at a temperature of at least 140 degrees Fahrenheit. A tip-sensitive thermometer shall be used to determine whether food is cooked and held at the proper temperature.

(c) Each licensee shall ensure that the food is handled and stored in a sanitary manner, which shall include meeting all of the following requirements:

(1) All perishable foods and liquids shall be continuously maintained at 41 degrees Fahrenheit or lower in the refrigerator or 0 degrees Fahrenheit or lower in a freezer. A clearly visible, accurate thermometer shall be provided in each refrigerator and in each freezer.

(2) At least one refrigerator shall be designated for only food storage.

(3) All food stored in the refrigerator shall be covered, wrapped, or otherwise protected from cross-contamination. Raw meat shall be stored in the refrigerator in a manner that prevents meat fluids from dripping on other foods. Unused, leftover perishable foods shall be dated, refrigerated immediately after service, and eaten within three days.

(4) Surfaces used for food preparation or eating shall be made of smooth, nonporous material.

(5) All table service designed for repeat use shall be made of smooth, durable, and nonabsorbent material and shall be free from cracks or chips.

(6) All nondisposable table service shall be sanitized using either a manual method or a mechanical dishwasher.

(A) If using a manual washing method, each licensee shall meet both of the following requirements:

(i) A three-compartment sink with hot and cold running water to each compartment and a drain-board shall be used for washing, rinsing, sanitizing, and air-drying.

(ii) An appropriate chemical test kit, a thermometer, or another device shall be used for testing the sanitizing solution and the water temperature.

(B) If using a mechanical dishwashing machine, each licensee shall ensure that the machine is installed and operated in accordance with the manufacturer's instructions and shall be maintained in good repair.

(d) Prepackaged, disposable formula units shall be used when newborns are not breast-fed. (Authorized by and implementing K.S.A. 65-508; effective July 9, 2010.)

28-4-1318. Laundry. Each licensee shall ensure that all of the following requirements are met: (a) If laundry is done at the birth center, the laundry sinks, appliances, and countertops or tables used for laundry shall be located in an area separate from food preparation areas and shall be installed and used in a manner that safeguards the health and safety of the patients, newborns, employees, and visitors.

(b) Space shall be provided and areas shall be designated for the separation of clean and soiled clothing, linen, and towels.

(c) If laundry facilities are not available at the birth center, all laundry shall be cleaned by a commercial laundry. (Authorized by and implementing K.S.A. 65-508; effective July 9, 2010.)

Article 14.—COLLECTION AND ANALYSIS OF WATER AND PUBLIC WATER SUPPLIES

28-14-1. Fees for analysis of samples from public water supply systems. All laboratory analyses conducted in the office of laboratory services of the Kansas department of health and environment shall require payment as specified in K.A.R. 28-14-2, except for analyses requested by department staff. The fee for any analysis not specified in K.A.R. 28-14-2 shall be based on the cost of the analysis as determined by the secretary. (Authorized by and implementing K.S.A. 65-156 and K.S.A. 2013 Supp. 75-5608; effective Jan. 1, 1966; amended, E-79-13, June 15, 1978; amended May 1, 1979; amended Nov. 1, 2002; amended June 6, 2014.)

28-14-2. Schedule of fees. Each public water supply system submitting any samples for analysis to the office of laboratory services of the Kansas department of health and environment shall receive a quarterly statement reflecting the cost of services rendered during the previous calendar quarter. Fees shall be paid to the Kansas department of health and environment within 30

days of the date on the statement. Failure to pay fees may result in denial of future analytical services until the public water supply system pays all outstanding fees.

The fee for each sample analysis shall be the following:

(a) Inorganic chemical analyses:

(1) Alkalinity	\$10.00
(2) Ammonia nitrogen	\$15.00
(3) Bromate	\$10.00
(4) Bromide	\$10.00
(5) Chlorate	\$10.00
(6) Chloride	\$10.00
(7) Chlorite	\$10.00
(8) Fluoride	\$10.00
(9) Mercury	\$18.00
(10) Metals	\$9.00
(11) Nitrate	\$10.00
(12) Nitrite	\$10.00
(13) Ortho-phosphate	\$10.00
(14) pH	\$6.00
(15) Silica	\$9.00
(16) Specific conductivity	\$8.00
(17) Sulfate	\$10.00
(18) Total dissolved solids (180° C)	\$15.00
(19) Total organic carbon (TOC)	\$20.00
(20) Total phosphate	\$10.00
(21) Total suspended solids	\$15.00
(22) Turbidity	\$10.00

(b) Organic chemical analyses:

(1) Atrazine and Alachlor	\$100.00
(2) Organochlorine pesticides and polychlorinated biphenyls screen	\$150.00
(3) Triazine pesticide screen	\$40.00
(4) Chlorinated acid pesticide screen	\$125.00
(5) Semi-volatile acid organic compound screen	\$250.00
(6) Carbamate pesticide screen	\$150.00
(7) Volatile organic compound screen including dibromochloropropane and ethylene dibromide	\$100.00
(8) Total trihalomethanes, consisting of the sum of the concentrations of trichloromethane, bromodichloromethane, dibromochloromethane, and bromoform	\$50.00
(9) Total haloacetic acids, consisting of the sum of the concentrations of monochloroacetic acid, dichloroacetic acid, trichloroacetic acid, monobromoacetic acid, and dibromoacetic acid	\$125.00

(c) Microbiological analyses: Coliform determination	\$12.00
(d) Radiochemical analyses:	
(1) Gamma isotopic	\$60.00
(2) Gross alpha	\$35.00
(3) Gross beta	\$35.00
(4) Radium-226	\$75.00
(5) Radium-228	\$75.00
(6) Radon	\$35.00
(7) Tritium	\$60.00
(8) Uranium	\$70.00

(Authorized by and implementing K.S.A. 65-156 and K.S.A. 2013 Supp. 75-5608; effective Jan. 1, 1966; amended, E-79-13, June 15, 1978; amended May 1, 1979; amended May 1, 1982; amended, T-88-13, May 18, 1987; amended May 1, 1988; amended Jan. 4, 1993; amended Nov. 1, 2002; amended June 6, 2014.)

Article 15.—APPLICATION FOR PERMITS; DOMESTIC WATER SUPPLY

28-15-18. Operation and maintenance requirements. (a) Each person that operates a public water supply system shall ensure that the system is operated, maintained, and supervised by certified personnel pursuant to K.S.A. 65-4501 through 65-4517, and amendments thereto.

(b) Each person that operates a public water supply system shall immediately notify the department and responsible local officials of any situation with the water system, including a major breakdown or serious loss of water service, that presents or could present an imminent and substantial endangerment to health.

(c) Each person that operates a community water supply system shall prepare an emergency operations plan to safeguard the water supply for the protection of the public if natural or man-made disasters occur. Each emergency operations plan shall be submitted to the secretary for review and consideration for approval to ensure that the plan is protective of public health, safety, and the environment.

(d) Newly constructed or repaired water distribution mains and finished water storage facilities shall be flushed and disinfected before use.

(e) Each community water supply system shall be operated and maintained to provide a minimum positive pressure of 20 psi (140 kN/m²) throughout the entire distribution system except under extraordinary conditions including unusual peak fire flow demand and major distribution system breaks.

(f) Each person that operates a community water supply system and each person that operates a high-risk non-community system designated by the department shall have a regular program for the detection and elimination of cross-connections and prevention of backflow and backsiphonage.

(g) Each finished water reservoir shall be covered by a permanent protective material and shall be vented and screened.

(h) Public water supply system components and protective coatings in contact with water intended for public consumption, and chemicals used in the treatment of water, shall be used to ensure the protection of public health and the environment.

(i) Each person that operates a public water supply system shall respond in writing no later than 30 days after receipt of a sanitary survey report describing how and on what schedule the system will address significant deficiencies identified in the survey. (Authorized by K.S.A. 65-171m; implementing K.S.A. 65-171h; effective May 1, 1982; amended Oct. 1, 2004; amended June 7, 2018.)

28-15-19. Disinfection of drinking water.

(a) All drinking water supplied to the public from a public water supply system shall be disinfected.

(b) A sufficient amount of chlorine shall be added to the water to maintain a chlorine residual of at least 0.2 mg/l of free chlorine or 1.0 mg/l of total chlorine throughout the entire distribution system.

(1) Failure to maintain a residual as specified in this subsection in more than five percent of measurements taken each month, in any two consecutive months, shall be a violation of this regulation.

(2) Each day the public water supply system serves water to customers, the operator shall make a determination of the chlorine residual as follows:

(A) The operator shall make a daily determination to ensure that the residual levels required by this subsection are maintained. The operator shall vary sampling locations throughout the distribution system.

(B) The operator shall record and maintain data to demonstrate to the department that the public water supply system is in compliance with the requirements of this regulation.

(3) If the chlorine residual is less than the minimum level required by this subsection, the operator shall take appropriate action to increase the chlorine residual to the level specified in this sub-

section. (Authorized by and implementing K.S.A. 65-171m; effective May 1, 1982; amended Sept. 26, 1994; amended June 7, 2018.)

Article 15a.—PRIMARY DRINKING WATER

28-15a-2. Definitions; replaced terms.

(a) For the purposes of this article and article 15 of the department's regulations, the definitions in 40 C.F.R. 141.2, as in effect on July 1, 2015, are hereby adopted by reference with the following alterations:

(1)(A) The definition of "Public water system" shall be replaced with the following:

" 'Public water supply system' means a system for the provision to the public of water for human consumption through pipes or, after August 5, 1998, other constructed conveyances, if the system has at least 10 service connections or regularly serves an average of at least 25 individuals daily at least 60 days out of the year. This term shall include the following:

"(1) Any collection, treatment, storage, and distribution facilities under control of the operator of the system and used primarily in connection with the system; and

"(2) any collection or pretreatment storage facilities not under this control that are used primarily in connection with the system.

"This term shall not include any 'special irrigation district.'

"Each public water supply system shall be deemed either a 'community water supply system' or a 'non-community water supply system.'"

(B) The term "public water supply system" shall replace the term "public water system" wherever the latter term appears in any of the text adopted in this article.

(2) The definition of "Community water system" shall be replaced with the following: " 'Community water supply system' means a public water supply system which has at least 10 service connections used by year-round residents or regularly serves at least 25 year-round residents."

The term "community water supply system" shall replace the term "community water system" wherever the latter term appears in any of the text adopted in this article.

(3) The definition of "Person" shall be replaced by the following: " 'Person' means an individual, corporation, company, institution, association, partnership, township, municipality, county, state,

or federal agency that owns, administers, operates, or maintains a public water supply system that includes a community water supply system or a non-community water supply system.”

(4) The following definitions shall be added to 40 C.F.R. 141.2:

(A) “Administrator” means administrator of the environmental protection agency.

(B) “Approved laboratory” means a laboratory certified and approved by the department to analyze water samples to determine compliance with maximum contaminant levels or to perform other required analyses.

(C) “Department” and “primacy agency” mean Kansas department of health and environment.

(D) “Distribution system” means the system of conduits and appurtenances by which a water supply is distributed to customers.

(E) “Laboratory tests” means all bacteriological, chemical, physical, or radiological tests made by either the departmental laboratory or an approved laboratory on water samples that were submitted by the operator of a public water supply system to confirm the quality of water.

(F) “Operating records and reports” means the daily record and the monthly report of data connected with the operation of the public water supply system’s facilities.

(G) “Secretary” means secretary of the Kansas department of health and environment.

(H) “Significant deficiency” means any defect in a public water supply system’s design, operation, maintenance, or administration, as well as any failure or malfunction of any system component that causes, or has the potential to cause, an unacceptable risk to health or that could affect the reliable delivery of safe drinking water.

(I) “Turbidity” means the cloudy condition of water caused by the presence of finely suspended matter, including clay, silt, plankton, and microscopic organisms, resulting in the scattering and absorption of light rays. Turbidity is measured in nephelometric turbidity units (NTU).

(b) For the purposes of this article and article 15 of the department’s regulations, the following terms and phrases appearing in the federal regulations adopted by reference in this article and article 15 of the department’s regulations shall be defined or replaced as specified in this subsection:

(1) “Must” shall be replaced by “shall.”

(2) “SDWA” means the safe drinking water act, 42 U.S.C. Sec. 300f et seq., and amendments thereto.

(3) “This part” and “part” shall be replaced by “this article” and “article.”

(4) “This subpart” and “subpart” mean that specific, named group of primary drinking water regulations in which the regulation is placed within this article. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; amended June 7, 2018.)

28-15a-3. Coverage; conditions for exclusion. The provisions of 40 C.F.R. 141.3, as in effect on July 1, 2015, are hereby adopted by reference. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; amended June 7, 2018.)

28-15a-4. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-6. Effective dates. For each requirement in any portion of a C.F.R. adopted by reference in this article of the department’s regulations with an expired effective date, completion date, or beginning compliance date, that expired date shall be replaced with the effective date of this regulation. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; amended June 7, 2018.)

28-15a-11. Maximum contaminant levels for inorganic chemicals. The provisions of 40 C.F.R. 141.11(d), as in effect on July 1, 2015, are hereby adopted by reference. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; amended June 7, 2018.)

28-15a-21. Coliform sampling. Each person that operates a public water supply system shall comply with the following monitoring and analytical requirements for coliforms:

(a) The sampling period for microbiological compliance shall be one calendar month for all public water supply systems.

(b) If a person that operates a public water supply system collecting fewer than five routine samples per month has at least one total coliform-positive sample and the department does not invalidate any of the samples, the person shall collect at least five routine samples during the next month the person provides water to the public, unless directed otherwise by the department.

(c)(1) Each person that operates a public water supply system that uses surface water as its source of supply and serves a population of 4,100 or less

shall take at least four water samples during each sampling period.

(2) Each person that operates a public water supply system that uses surface water as its source of supply and serves a population greater than 4,100 shall take water samples according to the table in subsection (d).

(3) Each person that operates a public water supply system that uses groundwater, not including groundwater under direct influence of surface water, as its source of supply and each person that operates a public water supply system that purchases water from another public water supply system shall take water samples according to the table in subsection (d).

(d) Each person that operates a public water supply system shall ensure that routine samples are collected at regular time intervals and analyzed for total coliform bacteria as specified in the following table:

Population Served	Minimum number of samples per sampling period
25 to 2,500.....	2
2,501 to 3,300.....	3
3,301 to 4,100.....	4
4,101 to 4,900.....	5
4,901 to 5,800.....	6
5,801 to 6,700.....	7
6,701 to 7,600.....	8
7,601 to 8,500.....	9
8,501 to 12,900.....	10
12,901 to 17,200.....	15
17,201 to 21,500.....	20
21,501 to 25,000.....	25
25,001 to 33,000.....	30
33,001 to 41,000.....	40
41,001 to 50,000.....	50
50,001 to 59,000.....	60
59,001 to 70,000.....	70
70,001 to 83,000.....	80
83,001 to 96,000.....	90
96,001 to 130,000.....	100
130,001 to 220,000.....	120
220,001 to 320,000.....	150
320,001 to 450,000.....	180

For each additional 150,000 in population, an additional 30 water samples shall be analyzed for each sampling period. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; amended June 7, 2018.)

28-15a-23. Inorganic chemical sampling and analytical requirements. Each person that operates a public water supply system shall comply with the sampling and analytical requirements specified in 40 C.F.R. 141.23, as in effect on July 1, 2015 and hereby adopted by reference, with the addition of the following text, which shall be added at the beginning of 40 C.F.R. 141.23(c):

“Inorganic analysis for calcium, chloride, iron, magnesium, manganese, pH, potassium, silica, sodium, specific conductance, sulfate, total alkalinity, total dissolved solids, total hardness, and total phosphorus shall be required from each community water supply system with its own source of supply and from each non-transient, non-community water supply system with its own source of supply. Each person operating a groundwater system shall take one sample at each sampling point during each compliance period. Each person operating a surface water system (or combined surface water and groundwater system) shall take one sample annually at each sampling point.” (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; amended June 7, 2018.)

28-15a-24. Requirements for sampling and analyzing organic chemicals. The provisions of 40 C.F.R. 141.24, as in effect on July 1, 2015, are hereby adopted by reference. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; amended June 7, 2018.)

28-15a-25. Analytical methods for measuring radioactivity. The provisions of 40 C.F.R. 141.25, as in effect on July 1, 2015, are hereby adopted by reference. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; amended June 7, 2018.)

28-15a-26. Frequency of monitoring for radioactivity. The provisions of 40 C.F.R. 141.26, as in effect on July 1, 2015, are hereby adopted by reference. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; amended June 7, 2018.)

28-15a-27. Alternate analytical techniques and testing methods. (a) The following documents are hereby adopted by reference:

(1) 40 C.F.R. 141.27, as in effect on July 1, 2015; and

(2) 40 C.F.R. part 141, subpart C, appendix A, as in effect on July 1, 2017 and as amended by 82 fed. reg. 34867-34870 (2017).

(b) In addition to the requirements of 40 C.F.R. 141.27 and appendix A to subpart C of part 141 as adopted in subsection (a), each person that operates a public water supply system shall ensure that the analyses of drinking water samples required by this article of the department's regulations are performed in accordance with the approved methods listed in appendix A for contaminants, disinfectant residuals, and parameters.

(c) If drinking water samples are required by this article of the department's regulations to be analyzed, each person that operates a public water supply system shall ensure that the analysis is conducted by an accredited laboratory as specified in K.A.R. 28-15-35. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; amended June 7, 2018.)

28-15a-28. Approved laboratories. The provisions of 40 C.F.R. 141.28, as in effect on July 1, 2015, are hereby adopted by reference. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; amended June 7, 2018.)

28-15a-29. Monitoring of consecutive public water supply systems. The provisions of 40 C.F.R. 141.29, as in effect on July 1, 2015, are hereby adopted by reference. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; amended June 7, 2018.)

28-15a-31. General reporting requirements. The provisions of 40 C.F.R. 141.31, as in effect on July 1, 2015, are hereby adopted by reference, except that "subpart Q of this part" shall be replaced by "K.A.R. 28-15a-201." (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; amended June 7, 2018.)

28-15a-32. Electronic reporting requirements. (a) No later than six months after written notification from the department, each person that operates a public water supply system shall meet the following requirements:

(1) Submit to the department a written acknowledgment of compliance with the electronic submission requirement; and

(2) commence the submission of all required documents, including surveys, assessments, reports, monitoring, and compliance data, by only electronic means.

(b) Each electronic submission shall be made according to the department's designated proce-

dures. (Authorized by and implementing K.S.A. 65-171m; effective June 7, 2018.)

28-15a-33. General record maintenance. The provisions of 40 C.F.R. 141.33, as in effect on July 1, 2015, are hereby adopted by reference, except that "subpart Q of this part" shall be replaced by "K.A.R. 28-15a-201." (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; amended June 7, 2018.)

28-15a-41. Special monitoring for sodium. The provisions of 40 C.F.R. 141.41, as in effect on July 1, 2015, are hereby adopted by reference, except that the last sentence of 141.41(b) shall not be adopted. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; amended June 7, 2018.)

28-15a-42. Special monitoring for corrosivity characteristics. The provisions of 40 C.F.R. 141.42, as in effect on July 1, 2015, are hereby adopted by reference, except that in paragraph (d), the text "In addition, States may require identification and reporting of other materials of construction present in distribution systems that may contribute contaminants to the drinking water, such as:" shall be replaced by the following text: "Community water supply systems shall identify whether the following construction materials are present in their distribution system and shall report to the department:". (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; amended June 7, 2018.)

28-15a-43. Prohibition on use of lead pipes, solder, and flux. The provisions of 40 C.F.R. 141.43(a) and (d) as in effect on July 1, 2015, are hereby adopted by reference, except that 40 C.F.R. 141.43(d)(2) shall be replaced with the following text:

"(d)(2) When used with respect to pipes and pipe fitting refers to pipes and pipe fittings containing not more than 0.25% lead calculated across the wetted surfaces of a pipe, pipe fitting, plumbing fitting, and fixture." (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; amended June 7, 2018.)

28-15a-60. Effective dates for maximum contaminant levels and maximum residual disinfectant levels. The provisions of 40 C.F.R. 141.60, as in effect on July 1, 2015, are hereby adopted by reference. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; amended June 7, 2018.)

28-15a-61. Maximum contaminant levels for organic contaminants. The provisions of 40 C.F.R. 141.61, as in effect on July 1, 2015, are hereby adopted by reference. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; amended June 7, 2018.)

28-15a-62. Maximum contaminant levels for inorganic contaminants. The provisions of 40 C.F.R. 141.62, as in effect on July 1, 2015, are hereby adopted by reference. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; amended June 7, 2018.)

28-15a-63. Maximum contaminant levels for microbiological contaminants. The provisions of 40 C.F.R. 141.63(c), (e), and (f), as in effect on July 1, 2015, are hereby adopted by reference, except that “subpart Q of this part” shall be replaced by “K.A.R. 28-15a-201” and “subpart Y of this part” shall be replaced by “K.A.R. 28-15a-851.” (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; amended June 7, 2018.)

28-15a-64. Maximum contaminant levels for disinfection by-products. The provisions of 40 C.F.R. 141.64, as in effect on July 1, 2015, are hereby adopted by reference. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; amended June 7, 2018.)

28-15a-65. Maximum residual disinfectant levels. The provisions of 40 C.F.R. 141.65, as in effect on July 1, 2015, are hereby adopted by reference. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; amended June 7, 2018.)

28-15a-66. Maximum contaminant levels for radionuclides. The provisions of 40 C.F.R. 141.66, as in effect on July 1, 2015, are hereby adopted by reference. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; amended June 7, 2018.)

28-15a-70. Requirements for filtration and disinfection. The provisions of 40 C.F.R. 141.70 and 40 C.F.R. 141.72 through 40 C.F.R. 141.76, as in effect on July 1, 2015, are hereby adopted by reference with the following alterations:

(a) 40 C.F.R. 141.72(a) shall be deleted.

(b) 40 C.F.R. 141.72(b)(3)(i) shall be replaced with the following text:

“A sufficient amount of chlorine shall be added to the water to maintain a chlorine residual of at

least 0.2 mg/L of free chlorine or 1.0 mg/L of total chlorine throughout the entire distribution system.

“Failure to maintain a residual as specified in 141.72(b)(3)(i) in more than five percent of measurements taken each month, in any two consecutive months, shall be a violation of this regulation and shall be reported to the department by the tenth day following the month in which the violation occurred.

“Each day the public water supply system serves water to customers, the operator shall make a measurement of the chlorine residual. The operator shall record and maintain data to demonstrate to the department that the public water supply system is in compliance with the requirements of 141.72(b)(3)(i).”

(c) 40 C.F.R. 141.74(b) and 141.75(a)(1) and (a)(2) shall be deleted.

(d) The first sentence of 40 C.F.R. 141.74(c)(3)(i) shall be deleted. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; amended June 7, 2018.)

28-15a-72. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-73. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-74. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-75. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-76. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-80. Requirements for the control of lead and copper. The provisions of 40 C.F.R. 141.80 through 141.91, as in effect on July 1, 2015, are hereby adopted by reference, except that “subpart I” shall be replaced by “K.A.R. 28-15a-80.” (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; amended June 7, 2018.)

28-15a-81. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-82. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-83. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-84. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-85. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-86. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-87. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-88. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-89. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-90. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-91. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-100. Requirements for public water supply systems using point-of-entry devices or point-of-use devices. The provisions of 40 C.F.R. 141.100, as in effect on July 1, 2015, are hereby adopted by reference with the addition of the following text:

“(f) The public water supply system shall not exceed 100 service connections. Each person that operates a public water supply system exceeding 100 service connections that wishes to install any point-of-entry devices or point-of-use devices, or both, shall submit a formal request to the department. Each person that operates a public water supply system shall not proceed with installation of these devices without written approval from the department.” (Authorized by and implementing

K.S.A. 65-171m; effective Oct. 1, 2004; amended June 7, 2018.)

28-15a-101. Use of bottled water. Each person operating a public water supply system shall ensure that the system uses bottled water only in accordance with 40 C.F.R. 141.101, as in effect on July 1, 2015 and hereby adopted by reference. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; amended June 7, 2018.)

28-15a-110. General requirements for treatment techniques. The provisions of 40 C.F.R. 141.110, as in effect on July 1, 2015, are hereby adopted by reference, except that “subpart K of this part” shall be replaced by “K.A.R. 28-15a-110 and K.A.R. 28-15a-111.” (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; amended June 7, 2018.)

28-15a-111. Treatment techniques for acrylamide and epichlorohydrin. The provisions of 40 C.F.R. 141.111, as in effect on July 1, 2015, are hereby adopted by reference. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; amended June 7, 2018.)

28-15a-130. Disinfectant residuals, disinfection by-products, and disinfection by-product precursors. The provisions of 40 C.F.R. 141.130 through 141.135, as in effect on July 1, 2015, are hereby adopted by reference with the following alterations:

(a) “Appendix A to subpart C of this part” shall be replaced by “K.A.R. 28-15a-27.”

(b) “Subpart Q of this part” shall be replaced by “K.A.R. 28-15a-201.”

(c) “Subparts U and V of this part” shall be replaced by “K.A.R. 28-15a-600 and K.A.R. 28-15a-620.” (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; amended June 7, 2018.)

28-15a-131. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-132. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-133. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-134. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-135. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-151. Requirements for consumer confidence reports. The provisions of 40 C.F.R. 141.151 through 141.155 and appendix A to subpart O of part 141, as in effect on July 1, 2015, are hereby adopted by reference with the following alterations:

(a) 40 C.F.R. 141.151(f) shall be deleted.

(b) The text in 40 C.F.R. 141.153(d)(1)(i) shall be replaced with the following: “Contaminants subject to an MCL, action level, maximum residual disinfectant level, treatment technique for regulated contaminants, and those contaminants listed in K.A.R. 28-15a-23 which are not subject to an MCL but are required to be monitored.”

(c) The text in 40 C.F.R. 141.155(c) shall be replaced with the following: “No later than the date a community water supply system is required to distribute the report to its customers, that system shall submit a copy of the report to the department, including a certification of delivery that the report has been distributed to customers and that the information is correct and consistent with the compliance monitoring data contained in the report.” (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; amended June 7, 2018.)

28-15a-152. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-153. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-154. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-155. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-170. Enhanced filtration and disinfection requirements for subpart H systems serving 10,000 or more people. The provisions of 40 C.F.R. 141.170 and 40 C.F.R.

141.172 through 141.175, as in effect on July 1, 2015, are hereby adopted by reference, except that “this subpart P” shall be replaced by “K.A.R. 28-15a-170.” (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; amended June 7, 2018.)

28-15a-172. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-173. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-174. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-175. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-201. Requirements for public notification. Each person that operates a public water supply system shall comply with 40 C.F.R. 141.201 through 141.211 and appendices A, B, and C to subpart Q of part 141, as in effect on July 1, 2015 and hereby adopted by reference, except that in 40 C.F.R. 141.201, the last sentence of the introduction shall be deleted. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; amended June 7, 2018.)

28-15a-202. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-203. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-204. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-205. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-206. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-207. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-208. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-209. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-210. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-400. Requirements for the groundwater rule. The provisions of 40 C.F.R. 141.400 through 141.405, as in effect on July 1, 2015, are hereby adopted by reference, except that “this subpart S” shall be replaced by “K.A.R. 28-15a-400.” (Authorized by and implementing K.S.A. 65-171m; effective June 7, 2018.)

28-15a-500. Requirements for enhanced filtration and disinfection for subpart H systems serving fewer than 10,000 people. (a) The following sections in 40 C.F.R. part 141, as in effect on July 1, 2015, are hereby adopted by reference, except as specified in this regulation:

- (1) 141.500 through 141.502;
- (2) 141.503(a) and 141.503(c) through (g);
- (3) 141.510 and 141.511;
- (4) 141.530;

(5) 141.531, except that the last sentence shall be deleted and replaced with the following text: “An alternative TTHM and HAA5 data set may be approved by the secretary if a system demonstrates that the alternative data set is more representative of TTHM and HAA5 levels”;

- (6) 141.532 through 141.536;
- (7) 141.540 through 141.544;
- (8) 141.550 through 141.553;
- (9) 141.560 through 141.564;
- (10) 141.570; and
- (11) 141.571.

(b) In the portions of 40 C.F.R. part 141 adopted by reference in subsection (a), the phrase “subpart T” shall be replaced by “K.A.R. 28-15a-500.” (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; amended June 7, 2018.)

28-15a-501. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-502. (Authorized by and imple-

menting K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-503. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-530. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-531. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-532. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-533. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-534. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-535. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-536. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-540. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-541. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-542. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-543. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-544. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-550. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-551. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-552. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-553. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-560. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-561. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-562. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-563. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-564. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-570. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-571. (Authorized by and implementing K.S.A. 65-171m; effective Oct. 1, 2004; revoked June 7, 2018.)

28-15a-600. Initial distribution system evaluations of the stage 2 disinfection by-products rule. The provisions of 40 C.F.R. 141.600 through 141.605, as in effect on July 1, 2015, are hereby adopted by reference, with the following alterations:

(a) "Subpart U of this part" shall be replaced by "K.A.R. 28-15a-600."

(b) "Subpart V of this part" shall be replaced by "K.A.R. 28-15a-620."

(c) "Subpart L of this part" shall be replaced by "K.A.R. 28-15a-130." (Authorized by and implementing K.S.A. 65-171m; effective June 7, 2018.)

28-15a-620. Disinfection by-products requirements of the stage 2 disinfection by-products rule. The provisions of 40 C.F.R.

141.620 through 141.629, as in effect on July 1, 2015, are hereby adopted by reference, except that "subpart V of this part" shall be replaced by "K.A.R. 28-15a-620" and "subpart L of this part" shall be replaced by "K.A.R. 28-15a-130." (Authorized by and implementing K.S.A. 65-171m; effective June 7, 2018.)

28-15a-700. Enhanced treatment for *Cryptosporidium*. The provisions of 40 C.F.R. 141.700 through 141.711 and 40 C.F.R. 141.713 through 141.722, as in effect on July 1, 2015, are hereby adopted by reference, with the following alterations:

(a) "This subpart W" shall be replaced by "K.A.R. 28-15a-700."

(b) "Subparts H, P and T of this part" shall be replaced by "K.A.R. 28-15a-70, K.A.R. 28-15-170, and K.A.R. 28-15-500." (Authorized by and implementing K.S.A. 65-171m; effective June 7, 2018.)

28-15a-851. Requirements for the revised total coliform rule. The provisions of 40 C.F.R. 141.851 through 141.861, as in effect on July 1, 2015, are hereby adopted by reference with the alterations specified in this regulation.

(a) Exclusions. The following portions of 40 C.F.R. 141.851 through 141.861 shall be excluded from adoption:

(1) 40 C.F.R. 141.854(a)(4), (b), (c), (d), (e), (f), (g), and (h);

(2) 40 C.F.R. 141.855(b), (c), (d), and (e);

(3) 40 C.F.R. 141.856(b) and (c);

(4) 40 C.F.R. 141.857(b), (c), and (d); and

(5) 40 C.F.R. 141.859(a)(2)(iii).

(b) Modifications.

(1)(A) In 40 C.F.R. 141.854(i)(2), the following text shall be deleted: "unless it meets the criteria in paragraphs (i)(2)(i) through (iii) of this section to be eligible for monitoring less frequently than monthly beginning April 1, 2016, except as provided under paragraph (c) of this section."

(B) In 40 C.F.R. 141.854(i)(3), the following text shall be deleted: "except that systems that monitor less frequently than monthly must still monitor during the vulnerable period designated by the State."

(C) In 40 C.F.R. 141.854(j), the following text shall be deleted from the first sentence: "collecting samples on a quarterly or annual frequency."

(D) In 40 C.F.R. 141.855(f), the following text shall be deleted from the first sentence: "collecting samples on a quarterly frequency."

(2)(A) “Appendix A to subpart C of part 141” shall be replaced by “K.A.R. 28-15a-27.”

(B) “Subpart H” shall be replaced by “K.A.R. 28-15a-70.” “Subparts H, P, T and W” shall be replaced by “K.A.R. 28-15a-70, K.A.R. 28-15a-170, K.A.R. 28-15a-500, and K.A.R. 28-15a-700.”

(C) “Subpart Q of this part” shall be replaced by “K.A.R. 28-15a-201.”

(D) “Subpart S” shall be replaced by “K.A.R. 28-15a-400.”

(E) “Subpart Y” shall be replaced by “K.A.R. 28-15a-851.” (Authorized by and implementing K.S.A. 65-171m; effective June 7, 2018.)

Article 16.—WATER POLLUTION CONTROL

28-16-28b. Definitions. As used in K.A.R. 28-16-28b through 28-16-28h, each of the following terms shall have the meaning specified in this regulation: (a) “Alluvial aquifer” means the sediment that is associated with and deposited by a stream and that contains water capable of being produced from a well.

(b) “Alternate low flow” means a low flow value, which is an alternate to the 7Q10 flow, that is based seasonally, hydrologically, or biologically, or a low flow determined through a water assurance district. Wherever used in this regulation in the context of mixing zones, the term shall refer to a minimum amount of streamflow occurring immediately upstream of a wastewater discharge and available, in whole or in part, for dilution and assimilation of wastewater discharges.

(c) “Antidegradation” means the regulatory actions and measures taken to prevent or minimize the lowering of water quality in surface waters of the state, including those streams, lakes, and wetlands in which existing water quality exceeds the level required for maintenance and protection of the existing uses.

(d) “Artificial sources” means sources of pollution that result from human activities and that can be abated by construction of control structures, modification of operating practices, complete restraint of activities, or any combination of these methods.

(e) “Background concentration” means the concentration of any elemental parameter listed in tables 1a, 1b, 1c, and 1d of the “Kansas surface water quality standards: tables of numeric criteria,” which is adopted by reference in K.A.R. 28-16-28e, or any elemental substance meeting

the definition of pollutant in this regulation, that occurs in a surface water immediately upstream of a point source or nonpoint source under consideration and is from natural sources. The list of background concentration determinations for classified waterbodies of the state is contained in table 1h of the “Kansas surface water quality standards: tables of numeric criteria.”

(f) “Base flow” means that portion of a stream’s flow contributed by sources of water other than precipitation runoff. Wherever used in this regulation in the context of stream classification, the term shall refer to a fair weather flow sustained primarily by springs or groundwater seepage, wastewater discharges, irrigation return flows, releases from reservoirs, or any combination of these factors.

(g) “Bioaccumulation” means the accumulation of toxic substances in plant or animal tissue through either bioconcentration or biomagnification.

(h) “Bioassessment methods and procedures” means the use of biological methods of assessing surface water quality, including field investigations of aquatic organisms and laboratory or field aquatic toxicity tests.

(i) “Bioconcentration” means the concentration and incorporation of toxic substances into body tissues from ambient sources.

(j) “Biomagnification” means the transport of toxic substances through the food chain through successive cycles of eating and being eaten and through the subsequent accumulation and concentration of these substances in higher-order consumers and predators.

(k) “Biota” means the animal and plant life and other organisms of a given geographical region.

(l) “Carcinogenic” means having the property of inducing the production of cancerous cells in organisms.

(m) “Classified surface water” means any surface water or surface water segment that supports or, in the absence of artificial sources of pollution, would support one or more of the designated uses of surface water defined in K.A.R. 28-16-28d or K.S.A. 2017 Supp. 82a-2001, and amendments thereto, and that meets the criteria for classification given in K.A.R. 28-16-28d.

(n) “Compliance schedule” means any provision in a discharge permit, license, or enforceable order issued by the department pursuant to the federal clean water act or K.S.A. 65-165 et seq., and amendments thereto, that, for the purposes of meeting water quality-based effluent limitations,

technology-based limits, and effluent limitations determined by the secretary or specified in Kansas statutes and regulations, provides a specified period of time for the construction or renovation of a wastewater treatment facility and the completion of any related scientific or engineering studies, reports, plans, design specifications, or other submittals required by the department.

(o) “Condition of acute toxicity” means any concentration of a toxic substance that exceeds the applicable acute criterion for aquatic life support specified in K.A.R. 28-16-28e or, for substances not listed in K.A.R. 28-16-28e or for mixtures of toxic substances, any concentration that exceeds 0.3 acute toxic units (TU_a), where one TU_a is equal to 100 divided by the median lethal concentration (LC_{50}). The concentration at which acute toxicity exists shall be determined through laboratory toxicity tests conducted in accordance with the EPA’s “methods for measuring the acute toxicity of effluents and receiving waters to freshwater and marine organisms.”

(p) “Condition of chronic toxicity” means any concentration of a toxic substance that exceeds the applicable chronic criterion for aquatic life support specified in K.A.R. 28-16-28e or, for substances not listed in K.A.R. 28-16-28e or for mixtures of toxic substances, any concentration that exceeds 1.0 chronic toxic unit (TU_c), where one TU_c is equal to 100 divided by inhibition concentration 25 (IC_{25}). The concentration at which chronic toxicity exists shall be determined through laboratory toxicity tests conducted in accordance with the EPA’s “short-term methods for estimating the chronic toxicity of effluents and receiving waters to freshwater organisms.”

(q) “Criterion” means any numerical element or narrative provision that represents an enforceable water quality condition specified in K.A.R. 28-16-28b through 28-16-28h.

(r) “Critical low flow” means the minimum amount of streamflow immediately upstream of a point source discharge that will be used to calculate the quantity of pollutants that the point source discharge may be permitted to discharge without exceeding water quality criteria specified in K.A.R. 28-16-28b through 28-16-28h. The critical low flow may be the 7Q10 flow or the alternate low flow as defined in this regulation.

(s) “Department” means Kansas department of health and environment.

(t) “Designated use” means any of the uses specifically attributed to surface waters of the state in

K.A.R. 28-16-28d or K.S.A. 2017 Supp. 82a-2001, and amendments thereto.

(u) “Digression” means an actual ambient concentration of a pollutant that does not meet the numeric criteria value for that pollutant.

(v) “Discharge” means the release of effluent, either directly or indirectly, into surface waters of the state.

(w) “Discharge design flow” means either of the following:

(1) The anticipated wastewater flow for the next permit cycle determined by the department for an industrial wastewater treatment facility, as defined in K.A.R. 28-16-56c; or

(2) the wastewater treatment capacity of a facility approved by the secretary for other wastewater treatment facilities or systems.

(x) “Discharger” means a person or facility that is responsible for the release of effluent into surface waters of the state.

(y) “Duration of digression” means the period of time over which pollutant concentrations can be averaged, including the time span during which aquatic life can be exposed to elevated levels of pollutants without harm.

(z) “Ecological integrity” means the natural or unimpaired structure and functioning of an aquatic or terrestrial ecosystem.

(aa) “Effluent” means the sewage or other wastewater discharged from an artificial source.

(bb) “EPA” means United States environmental protection agency.

(cc) “*Escherichia coli*” means a subset of the coliform group that is part of the normal intestinal flora in humans and animals and is a direct indicator of fecal contamination in water.

(dd) “Exceptional state waters” means any of the surface waters or surface water segments that are of remarkable quality or of significant recreational or ecological value, are listed in the surface water register as defined in this regulation, and are afforded the level of water quality protection under the antidegradation provisions of K.A.R. 28-16-28c and the mixing zone provisions of K.A.R. 28-16-28c.

(ee) “Excursion from numeric criteria value” means the digression of a pollutant exceeding its numeric criteria value beyond the designated duration of digression.

(ff) “Existing use” means any of the designated uses described in K.A.R. 28-16-28d or K.S.A. 82a-2001, and amendments thereto, known to have occurred in, or to have been made of, a surface

water or surface water segment on or after November 28, 1975.

(gg) “Federal clean water act” means the federal water pollution prevention and control act, 33 U.S.C. Section 1251 et seq., as in effect on January 1, 1998.

(hh) “Frequency of digression” means the number of times that an excursion from numeric criteria value can occur over time without impairing the designated uses of the water.

(ii) “General purpose waters” means any classified surface water that is not classified as an outstanding national resource water or an exceptional state water.

(jj) “Groundwater” means water located under the surface of the land that is or can be the source of supply for wells, springs, or seeps or that is held in aquifers or the soil profile.

(kk) “Highest attainable condition” and “HAC” mean the achievable goal of a variance, according to K.A.R. 28-16-28f(d)(5), that reflects the modified designated use and criterion, designated use, or criterion that is applicable throughout the term of a variance.

(ll) “Inhibition concentration 25” and “IC₂₅” mean a point estimate of the toxicant concentration that would cause a 25 percent reduction in a nonlethal biological measurement of the test organisms, including reproduction and growth.

(mm) “Interim criterion” means a temporary criterion.

(nn) “Interim designated use” means a temporary designated use.

(oo) “Kansas antidegradation policy,” dated August 6, 2001 and hereby adopted by reference, means the department’s written policy used to prevent or minimize the lowering of water quality in surface waters of the state.

(pp) “Kansas implementation procedures: surface water quality standards,” including appendix A, dated November 29, 2017 and hereby adopted by reference, means the department’s written procedures used for carrying out specific provisions of surface water quality standards, available upon request from the department’s division of environment.

(qq) “Maximum contaminant level” means any of the enforceable standards for finished drinking water quality specified in 40 C.F.R. 141.11, 141.13, and 141.61 through 141.66, dated July 1, 2012.

(rr) “Median lethal concentration” means the concentration of a toxic substance or a mixture

of toxic substances calculated to be lethal to 50 percent of the population of test organisms in an acute toxicity test.

(ss) “Microfibers per liter” and “μfibers/L” mean the number of microscopic particles with a length-to-width ratio of 3:1 or greater present in a volume of one liter.

(tt) “Microgram per liter” and “μg/L” mean the concentration of a substance at which one one-millionth of a gram (10^{-6} g) of the substance is present in a volume of one liter.

(uu) “Milligram per liter” and “mg/L” mean the concentration of a substance at which one one-thousandth of a gram (10^{-3} g) of the substance is present in a volume of one liter.

(vv) “Mixing zone” means the designated portion of a stream or lake where a discharge is incompletely mixed with the receiving surface water and where, in accordance with K.A.R. 28-16-28e, concentrations of certain pollutants may legally exceed chronic water quality criteria associated with the established designated uses that are applied in most other portions of the receiving surface water.

(ww) “Mutagenic” means having the property of directly or indirectly causing a mutation.

(xx) “Multiple-discharger variance” and “MDV” mean a term-limited variance for more than one discharger that is issued for a specified criterion or pollutant to achieve the highest attainable condition.

(yy) “Nonpoint source” means any activity that is not required to have a national pollutant discharge elimination system permit and that results in the release of pollutants to waters of the state. This release may result from precipitation runoff, aerial drift and deposition from the air, or the release of subsurface brine or other contaminated groundwaters to surface waters of the state.

(zz) “Numeric criteria value” means any of the values listed in tables 1a, 1b, 1c, 1d, 1g, 1h, 1i, 1j, and 1k of the “Kansas surface water quality standards: tables of numeric criteria.”

(aaa) “Outstanding national resource water” means any of the surface waters or surface water segments of extraordinary recreational or ecological significance identified in the surface water register, as defined this regulation, and afforded the highest level of water quality protection under the antidegradation provisions and the mixing zone provisions of K.A.R. 28-16-28c.

(bbb) “pH” means the common logarithm of the reciprocal of the hydrogen ion concentration

measured in moles per liter, expressed on a scale that ranges from zero to 14, with values less than seven being more acidic and values greater than seven being more alkaline.

(ccc) "Picocurie per liter" and "pCi/L" mean a volumetric unit of radioactivity equal to 2.22 nuclear transformations per minute per liter.

(ddd) "Point source" means any discernible, confined, and discrete conveyance from which pollutants are or could be discharged.

(eee) "Pollutant" means any physical, biological, or chemical conditions, substances, or combination of substances released into surface waters of the state that results in surface water pollution, as defined in this regulation.

(fff) "Pollutant minimization plan" and "PMP" mean a structured set of activities to improve processes and pollutant controls that prevent and reduce pollutant levels, including any cost-effective process for reducing pollutant levels, pollution prevention, treatment, best management practices, and other control mechanisms.

(ggg) "Potable water" means water that is suitable for drinking and cooking purposes in terms of both human health and aesthetic considerations.

(hhh) "Precipitation runoff" means the rainwater or the meltwater derived from snow, hail, sleet, or other forms of atmospheric precipitation that flows by gravity over the surface of the land and into streams, lakes, or wetlands.

(iii) "Presedimentation sludge" means a slurry or suspension of residual solid materials derived from an initial step in the production of potable water. This term shall include residual solids originating from the raw water supply used for industrial or other nonpotable water purposes, before the addition of any artificial materials not typically used in the production of potable water. The solid materials shall include sand, silt, and other easily settleable particles originating from the raw water supply.

(jjj) "Private surface water" means any freshwater reservoir or pond that is both located on and completely bordered by land under common private ownership.

(kkk) "Public swimming area" means either of the following:

(1) Any classified surface water that is posted for swimming by a federal, state, or local government that has jurisdiction over the land adjacent to that particular body of water; or

(2) any privately owned or leased body of water that is open and accessible to the public and is intended for swimming.

(lll) "Reconfiguration activities" means actions that beneficially reshape, remodel, or otherwise restructure the physical setting and characteristics of a surface water of the state.

(mmm) "Seven-day, ten-year low flow" and "7Q10 flow" mean the seven-day average low flow having a recurrence frequency of once in 10 years, as statistically determined from historical flow data. Where used in this regulation in the context of mixing zones, these terms shall refer to the minimum amount of streamflow occurring immediately upstream of a wastewater discharge and available, in whole or in part, for dilution or assimilation of wastewater discharges.

(nnn) "Site-specific criterion" means any criterion applicable to a given classified surface water segment and developed for the protection of the designated uses of that segment alone.

(ooo) "Streamflow" means the volume of water moving past a stream cross-sectional plane per unit of time.

(ppp) "Surface water pollution" and "pollution" mean any of the following:

(1) Contamination or other alteration of the physical, chemical, or biological properties of the surface waters of the state, including changes in temperature, taste, odor, turbidity, or color of the waters;

(2) discharges of gaseous, liquid, solid, radioactive, microbiological, or other substances into surface waters in a manner that could create a nuisance or render these waters harmful, detrimental, or injurious to any of the following:

(A) Public health, safety, or welfare;

(B) domestic, industrial, agricultural, recreational, or other designated uses; or

(C) livestock, domestic animals, or native or naturalized plant or animal life; or

(3) any discharge that will or is likely to exceed state effluent limitations predicated upon technology-based effluent standards or water quality-based standards.

(qqq) "Surface water register" means a list of the state's major classified surface waters, including a listing of waters recognized as outstanding national resource waters or exceptional state waters, and the surface water use designations for each classified surface water, periodically updated and published by the department pursuant to K.A.R. 28-16-28d and K.A.R. 28-16-28f. The surface water register, published as the "Kansas surface water register," is adopted by reference in K.A.R. 28-16-28g.

(rrr) “Surface water segment” means a delineated portion of a stream, lake, or wetland.

(sss) “Surface waters” means the following:

(1) Streams, including rivers, creeks, brooks, sloughs, draws, arroyos, canals, springs, seeps, and cavern streams, and any alluvial aquifers associated with these surface waters;

(2) lakes, including oxbow lakes and other natural lakes and man-made reservoirs, lakes, and ponds; and

(3) wetlands, including swamps, marshes, bogs, and similar areas that are inundated or saturated by surface water or groundwater at a frequency and a duration that are sufficient to support, and under normal circumstances that do support, a prevalence of vegetation typically adapted for life in saturated soil conditions.

(ttt) “Surface waters of the state” means all surface waters occurring within the borders of the state of Kansas or forming a part of the border between Kansas and one of the adjoining states.

(uuu) “Teratogenic” means having the property of causing abnormalities that originate from impairment of an event that is typical in embryonic or fetal development.

(vvv) “Thirty-day, ten-year low flow” and “30Q10 flow” mean the 30-day average low flow having a recurrence frequency of once in 10 years, as statistically determined from historical flow data. Where used in this regulation in the context of mixing zones, these terms shall refer to the minimum amount of streamflow occurring immediately upstream of a wastewater discharge and available, in whole or in part, for dilution or assimilation of wastewater discharges.

(www) “Toxic substance” means any substance that produces deleterious physiological effects in humans, animals, or plants.

(xxx) “Turbidity” means the cloudiness of water as measured by optical methods of nephelometry and expressed in standard nephelometric units.

(yyy) “Use attainability analysis” means a study conducted or accepted by the department that is designed to determine whether or not a surface water or surface water segment supports, or is capable of supporting in the absence of artificial sources of pollution, one or more of the designated uses defined in K.S.A. 2017 Supp. 82a-2001, and amendments thereto.

(zzz) “Variance” means a time-limited designated use and criterion that reflects the highest attainable condition as an alternative to one or more of the criteria specified in K.A.R. 28-16-28e,

as implemented by the department in accordance with K.A.R. 28-16-28f.

(aaaa) “Water-effect ratio” and “WER” mean the numerical toxicity, including median lethal concentration and inhibition concentration 25, of a chemical pollutant diluted in water from a given stream, lake, or wetland divided by the numerical toxicity of the same pollutant diluted in laboratory water.

(bbbb) “Water quality certification” means the department’s written finding that a proposed action that impacts water quality will comply with the terms and conditions of the Kansas surface water quality standards.

(cccc) “Whole-effluent toxicity limitation” means any restriction imposed by the department on the overall acute or chronic toxicity of an effluent discharged to a surface water.

(dddd) “Zone of initial dilution” means the region of a surface water in the immediate vicinity of a discharge where acute and chronic criteria may be exceeded. (Authorized by K.S.A. 2017 Supp. 65-171d and K.S.A. 65-171m; implementing K.S.A. 65-165, K.S.A. 2017 Supp. 65-171d, K.S.A. 65-171m, and K.S.A. 2017 Supp. 82a-2001; effective May 1, 1986; amended Aug. 29, 1994; amended July 30, 1999; amended Nov. 3, 2000; amended Aug. 31, 2001; amended Jan. 3, 2003; amended Oct. 24, 2003; amended Jan. 28, 2005; amended March 20, 2015; amended Feb. 23, 2018).

28-16-28c. General provisions. (a) Antidegradation.

(1) General purpose waters.

(A) Levels of water quality in surface waters of the state shall be maintained to protect the existing uses of those surface waters.

(B) For all surface waters of the state, if existing water quality is better than applicable water quality criteria established in K.A.R. 28-16-28b through 28-16-28g, that existing water quality shall be fully maintained and protected.

Water quality may be lowered only if the secretary finds, after full satisfaction of the intergovernmental coordination and public participation requirements on antidegradation contained in the “Kansas antidegradation policy,” as adopted by reference in K.A.R. 28-16-28b, that a lowering of water quality is needed to allow for important social or economic development in the geographical area in which the waters are located.

In allowing the lowering of water quality, the maintenance and protection of existing uses shall

be ensured, and the highest statutory and regulatory requirements for all new and existing point sources of pollution and all cost-effective and reasonable best management practices for nonpoint sources of pollution shall be achieved.

(2) Exceptional state waters. Wherever surface waters of the state constitute exceptional state waters, discharges shall be allowed only if existing uses and existing water quality are maintained and protected.

(3) Outstanding national resource waters. Wherever surface waters of the state constitute an outstanding national resource water, existing uses and existing water quality shall be maintained and protected. New or expanded discharges shall not be allowed into outstanding national resource waters.

(4) Threatened or endangered species. No degradation of surface water quality by artificial sources of pollution shall be allowed if the degradation will result in harmful effects on populations of any threatened or endangered species of aquatic or semiaquatic life or terrestrial wildlife or its critical habitat as determined by the secretary of the department of wildlife, parks, and tourism pursuant to K.S.A. 32-960, and amendments thereto, K.A.R. 115-15-3, or the federal endangered species act, 16 U.S.C. Section 1532 et seq., as in effect on July 1, 2012.

(5) Temporary discharges. Temporary sources of pollution meeting the requirements of subsection (d) of this regulation and K.A.R. 28-16-28e, producing only ephemeral surface water quality degradation not harmful to existing uses, may be allowed by the department.

(6) Thermal discharges. Implementation of these antidegradation provisions for thermal discharges shall be consistent with the requirements of 33 U.S.C. Section 1326, as in effect on July 1, 2012.

(7) Implementation. Implementation of these antidegradation provisions shall be consistent with the "Kansas antidegradation policy," available upon request from the department.

(b) Mixing zones.

(1) General limitations. Mixing zones shall not extend across public drinking water intakes, stream tributary mouths, or swimming or boat ramp areas, nor shall mixing zones exist in locations that preclude the normal upstream or downstream movement or migration of aquatic organisms. Mixing zones associated with separate discharges shall not overlap unless a department-approved demonstration indicates that the overlapping will not result

in a violation of the general water quality criteria specified in K.A.R. 28-16-28e or in an impairment of the existing uses of the receiving surface water. The zone of initial dilution for a mixing zone shall comprise, in terms of volume, not more than 10 percent of the mixing zone.

(2) Discharges into classified stream segments. No mixing zone within a classified stream segment, as defined in K.S.A. 2013 Supp. 82a-2001 and amendments thereto, shall extend beyond the middle of the nearest downstream current crossover point, where the main current flows from one bank to the opposite bank, or more than 300 meters downstream from the point of effluent discharge.

(3) Effluent-dominated streams. If the ratio of the receiving stream critical low flow to the discharge design flow is less than 3:1, then the mixing zone shall be the cross-sectional area or the volumetric flow of the stream during critical low flow conditions, as measured immediately upstream of the discharge during the critical low flow.

(4) Applications. Mixing zones shall be applied in accordance with paragraphs (b)(7) and (b)(8), based on the classification and designated uses of a stream segment for individual pollutants. For surface waters classified as outstanding national resource waters or exceptional state waters, or designated as special aquatic life use waters, mixing zones for specific discharges may be allowed by the secretary in accordance with paragraphs (b)(6), (b)(7), and (b)(8)(A). Mixing zones also may be allowed if there are no aquatic life criteria for an individual pollutant.

(5) Restrictions. The right to prohibit the use of mixing zones or to place more stringent limitations on mixing zones than those stipulated in paragraphs (b)(2), (3), and (13) shall be reserved by the secretary wherever site conditions preclude the rapid dispersion and dilution of effluent within the receiving surface water or if, in the judgment of the secretary, the presence of a mixing zone would unduly jeopardize human health or any of the existing uses of the receiving surface water.

(6) Outstanding national resource waters. Mixing zones may be allowed by the secretary for existing permitted discharges in surface waters re-designated as outstanding national resource waters in the "Kansas surface water register" pursuant to K.A.R. 28-16-28g but shall be evaluated on an individual permit basis to prevent the degradation of the outstanding national resource waters.

(7) Exceptional state waters. If the ratio of the receiving stream critical low flow to the discharge design flow is equal to or greater than 3:1, the mixing zone shall not exceed 25 percent of the cross-sectional area or volumetric flow of the receiving stream during critical low flow conditions, measured immediately upstream of the discharge during the critical low flow.

(8) General purpose waters.

(A) Special aquatic life use waters. If the ratio of the receiving stream critical low flow to the discharge design flow is equal to or greater than 3:1, the mixing zone shall not exceed 25 percent of the cross-sectional area or volumetric flow of the receiving stream during critical low flow conditions, measured immediately upstream of the discharge during the critical low flow.

(B) Expected aquatic life use waters. If the ratio of the receiving stream critical low flow to the discharge design flow is equal to or greater than 3:1, the mixing zone shall not exceed 50 percent of the cross-sectional area or volumetric flow of the receiving stream during critical low flow conditions, measured immediately upstream of the discharge during the critical low flow.

(C) Restricted aquatic life use waters. If the ratio of the receiving stream critical low flow to the discharge design flow is equal to or greater than 3:1, the mixing zone shall not exceed 100 percent of the cross-sectional area or volumetric flow of the receiving stream during critical low flow conditions, measured immediately upstream of the discharge during the critical low flow.

(D) Recreational uses. Mixing zones for classified surface waters designated for recreational uses may be allowed by the secretary on an individual permit basis in accordance with paragraph (b)(10).

(9) Alternate low flows. Alternate low flows may be utilized by the department as the critical low flow in the calculation of the mixing zone cross-sectional area or volumetric flow for specific water quality criteria.

(A) The 30Q10 flow for ammonia or the guaranteed minimum flow provided by a water assurance district, if applicable, shall be used by the department in the calculation of the mixing zone cross-sectional area or volumetric flow.

(B) Other alternate low flows, with a specific recurrence frequency and averaging period, shall be considered by the department if those flows will not result in excursions above aquatic life criteria more frequently than once every three years.

(C) Each proposed alternate low flow shall be subject to approval by the secretary.

(10) Alternate or site-specific mixing zones. Alternate mixing zones employing specific linear distances for mixing zones or alternate stream dilution volumes or cross-sectional areas, or both, may be allowed by the secretary. Site-specific mixing zones may be allowed if data generated from a site-specific study supports the use of an alternate mixing zone, but maintains a zone of passage for aquatic life.

(11) Discharges into classified lakes. Mixing zones shall not extend into any lake classified as an outstanding national resource water or exceptional state water, or designated as a special aquatic life use water according to K.A.R. 28-16-28d. Mixing zones in lakes designated as expected aquatic life use water or restricted aquatic life use waters may be allowed by the department if the mixing zones do not extend farther than 50 meters from the point of effluent discharge or do not comprise more than one percent of the total volume of the receiving lake as measured at the conservation pool.

(12) Discharges into classified ponds. Mixing zones shall not extend into any classified pond.

(13) Discharges into classified wetlands. Mixing zones shall not extend into any classified wetland.

(c) Special conditions. The following special conditions shall not remove the obligation to design, build, or use pollution control structures or methods to control point sources and nonpoint sources:

(1) Low flow. Any classified stream segment may be exempted by the secretary from the application of some or all of the numeric surface water criteria specified in K.A.R. 28-16-28e if stream-flow is less than the critical low flow.

(2) Effluent-created flow.

(A) For any current classified stream segment in which continuous flow is sustained primarily through the discharge of treated effluent and the segment does not otherwise meet the requirements of a classified stream in K.A.R. 28-16-28d, the discharger shall provide treatment in accordance with the federal secondary treatment regulation, 40 C.F.R. 133.102, dated July 1, 2012.

(B) This discharge shall not violate the general surface water quality criteria listed in K.A.R. 28-16-28e or impair any of the existing or attained designated uses of a downstream classified stream segment.

(C) If a use attainability analysis demonstrates that the designated uses of a surface water segment are not attainable, then the new use design-

nations for effluent-created flow shall be adopted as specified in K.A.R. 28-16-28d and approved by the EPA before serving as a basis for limitations in any new, reissued, or modified permit.

(d) Treatment requirements.

(1) All effluent shall receive appropriate minimum levels of treatment in accordance with 40 C.F.R. 122.44, dated July 1, 2012.

(2) Effluent shall receive a higher level of treatment than that stipulated in paragraph (d)(1) of this regulation, if the department determines that this higher level of treatment is needed to fully comply with the terms and conditions of subsection (a) of this regulation or K.A.R. 28-16-28e.

(e) Analytical testing. All methods of sample collection, preservation, and analysis used in applying K.A.R. 28-16-28b through 28-16-28g shall be in accordance with those methods prescribed by the department.

(f) Application of standards to privately owned reservoirs or ponds. The application of water quality standards to privately owned reservoirs or ponds shall be subject to the provisions of K.S.A. 65-171d, and amendments thereto. (Authorized by K.S.A. 2014 Supp. 65-171d, K.S.A. 2014 Supp. 82a-2010, and K.S.A. 65-171m; implementing K.S.A. 2014 Supp. 82a-2002, 82a-2003, 82a-2004, and 82a-2005; effective May 1, 1986; amended, T-87-8, May 1, 1986; amended May 1, 1987; amended Aug. 29, 1994; amended July 30, 1999; amended Aug. 31, 2001; amended Jan. 3, 2003; amended Jan. 28, 2005; amended March 20, 2015.)

28-16-28d. Surface water classification and use designation. (a) Surface water classification. Surface waters shall be classified as follows:

(1) Classified stream segments shall be those stream segments defined in K.S.A. 2017 Supp. 82a-2001, and amendments thereto.

(2) Classified surface waters other than classified stream segments shall be defined as follows:

(A) Classified lakes shall be all lakes owned by federal, state, county, or municipal authorities and all privately owned lakes that serve as public drinking water supplies or that are open to the general public for primary or secondary contact recreation.

(B) Classified wetlands shall be the following:

(i) All wetlands owned by federal, state, county, or municipal authorities;

(ii) all privately owned wetlands open to the general public for hunting, trapping, or other forms of secondary contact recreation; and

(iii) all wetlands classified as outstanding national resource waters or exceptional state waters, or designated as special aquatic life use waters according to subsection (d).

Wetlands created for the purpose of wastewater treatment shall not be considered classified wetlands.

(C) Classified ponds shall be all ponds owned by federal, state, county, or municipal authorities and all privately owned ponds that impound water from a classified stream segment as defined in paragraph (a)(1).

(b) Designated uses of classified surface waters other than classified stream segments. The designated uses of classified surface waters other than classified stream segments shall be defined as follows:

(1) "Agricultural water supply use" means the use of classified surface waters other than classified stream segments for agricultural purposes, including the following:

(A) "Irrigation," which means the withdrawal of classified surface waters other than classified stream segments for application onto land; and

(B) "livestock watering," which means the provision of classified surface waters other than classified stream segments to livestock for consumption.

(2) "Aquatic life support use" means the use of classified surface waters other than classified stream segments for the maintenance of the ecological integrity of lakes, wetlands, and ponds, including the sustained growth and propagation of native aquatic life; naturalized, important, recreational aquatic life; and indigenous or migratory semiaquatic or terrestrial wildlife directly or indirectly dependent on classified surface waters other than classified stream segments for survival.

(A) "Special aquatic life use waters" means either classified surface waters other than classified stream segments that contain combinations of habitat types and indigenous biota not found commonly in the state or classified surface waters other than classified stream segments that contain representative populations of threatened or endangered species.

(B) "Expected aquatic life use waters" means classified surface waters other than classified stream segments containing habitat types and indigenous biota commonly found or expected in the state.

(C) "Restricted aquatic life use waters" means classified surface waters other than classified

stream segments containing indigenous biota limited in abundance or diversity by the physical quality or availability of habitat, due to natural deficiencies or artificial modifications, compared to more suitable habitats in adjacent waters.

(3) “Domestic water supply use” means the use of classified surface waters other than classified stream segments, after appropriate treatment, for the production of potable water.

(4) “Food procurement use” means the use of classified surface waters other than classified stream segments for obtaining edible forms of aquatic or semiaquatic life for human consumption.

(5) “Groundwater recharge use” means the use of classified surface waters other than classified stream segments for replenishing fresh or usable groundwater resources. This use may involve the infiltration and percolation of classified surface waters other than classified stream segments through sediments and soils or the direct injection of classified surface waters other than classified stream segments into underground aquifers.

(6) “Industrial water supply use” means the use of classified surface waters other than classified stream segments for nonpotable purposes by industry, including withdrawals for cooling or process water.

(7) “Recreational use” means the use of classified surface waters other than classified stream segments for primary contact recreation or secondary contact recreation.

(A) “Primary contact recreational use for classified surface waters other than classified stream segments” means the use of classified surface waters other than classified stream segments for recreation on and after April 1 through October 31 of each year, during which a person is immersed to the extent that some inadvertent ingestion of water is probable. This use shall include boating, mussel harvesting, swimming, skin diving, water-skiing, and windsurfing.

(i) “Primary contact recreational use: swimming beach” shall apply to those classified surface waters other than classified stream segments that have posted public swimming areas. These waters shall present a risk of human illness that is no greater than 0.8 percent.

(ii) “Primary contact recreational use: public access” shall apply to those classified surface waters other than classified stream segments where full body contact can occur and that are, by law or written permission of the landowner, open to and accessible by the public. These waters shall

present a risk of human illness that is no greater than 1.0 percent.

(iii) “Primary contact recreational use: restricted access” shall apply to those classified surface waters other than classified stream segments where full body contact can occur and that are not open to and accessible by the public under Kansas law. These waters shall present a risk of human illness that is no greater than 1.2 percent.

(B) “Secondary contact recreational use for classified surface waters other than classified stream segments” means recreation during which the ingestion of classified surface waters other than classified stream segments is not probable. This use shall include wading, fishing, trapping, and hunting.

(i) “Secondary contact recreational use: public access” shall apply to classified surface waters other than classified stream segments where the surface water is, by law or written permission of the landowner, open to and accessible by the public.

(ii) “Secondary contact recreational use: restricted access” shall apply to classified surface waters other than classified stream segments where the surface water is not open to and accessible by the public under Kansas law.

(c) Designated uses of classified stream segments. The designated uses of classified stream segments shall be those defined in K.S.A. 2017 Supp. 82a-2001, and amendments thereto.

(d) Assignment of uses to surface waters.

(1) (A) Classified surface waters shall be designated for uses based upon the results of use attainability analyses conducted in accordance with K.S.A. 2017 Supp. 82a-2005, and amendments thereto. The provisions of the federal water quality standards regulation, 40 C.F.R. 131.10(g), as adopted by reference in paragraph (d)(1)(B), shall be followed.

(B) 40 C.F.R. 131.10(g), dated July 1, 2016, is hereby adopted by reference, except that the phrase “federal clean water” shall be inserted before the word “act.”

(2) Classified surface waters and their designated uses shall be identified and listed in the “Kansas surface water register,” as adopted by reference in K.A.R. 28-16-28g.

(3) The use designations for classified streams, lakes, wetlands, and ponds not listed in the surface water register shall be determined by the secretary on a case-by-case basis in accordance with paragraph (d)(1). (Authorized by K.S.A. 2017 Supp. 65-171d, 82a-2005, and 82a-2010; imple-

menting K.S.A. 2017 Supp. 65-171d, 82a-2002, 82a-2003, 82a-2004, and 82a-2005; effective May 1, 1986; amended, T-87-8, May 1, 1986; amended May 1, 1987; amended Aug. 29, 1994; amended July 30, 1999; amended Aug. 31, 2001; amended Jan. 3, 2003; amended Jan. 23, 2004; amended Jan. 28, 2005; amended March 20, 2015; amended Feb. 23, 2018.)

28-16-28e. Surface water quality criteria.

(a) Criteria development guidance. The development of surface water quality criteria for substances not listed in these standards shall be guided by water quality criteria published by the EPA. If the department finds that the criteria listed in this regulation are underprotective or overprotective for a given surface water segment, appropriate site-specific criteria may be developed and applied by the department, in accordance with K.A.R. 28-16-28f, using bioassessment methods or other related scientific procedures, including those procedures consistent with the EPA's "water quality standards handbook," second edition, as published in August 1994, or other department-approved methods.

(b) General criteria for surface waters. The following criteria shall apply to all surface waters, regardless of classification:

(1) Surface waters shall be free, at all times, from the harmful effects of substances that originate from artificial sources of pollution and that produce any public health hazard, nuisance condition, or impairment of a designated use.

(2) Hazardous materials derived from artificial sources, including toxic substances, radioactive isotopes, and infectious microorganisms derived from point sources or nonpoint sources, shall not occur in surface waters at concentrations or in combinations that jeopardize the public health or the survival or well-being of livestock, domestic animals, terrestrial wildlife, or aquatic or semi-aquatic life.

(3) Surface waters shall be free of all discarded solid materials, including trash, garbage, rubbish, offal, grass clippings, discarded building or construction materials, car bodies, tires, wire, and other unwanted or discarded materials. The placement of stone and concrete rubble for bank stabilization shall be acceptable to the department if all other required permits are obtained before placement.

(4) Surface waters shall be free of floating debris, scum, foam, froth, and other floating mate-

rials directly or indirectly attributable to artificial sources of pollution.

(5) Oil and grease from artificial sources shall not cause any visible film or sheen to form upon the surface of the water or upon submerged substrate or adjoining shorelines, nor shall these materials cause a sludge or emulsion to be deposited beneath the surface of the water or upon the adjoining shorelines.

(6) Surface waters shall be free of deposits of sludge or fine solids attributable to artificial sources of pollution.

(7) Taste-producing and odor-producing substances of artificial origin shall not occur in surface waters at concentrations that interfere with the production of potable water by conventional water treatment processes, that impart an unpalatable flavor to edible aquatic or semiaquatic life or terrestrial wildlife, or that result in noticeable odors in the vicinity of surface waters.

(8) The natural appearance of surface waters shall not be altered by the addition of color-producing or turbidity-producing substances of artificial origin.

(9) In stream segments where background concentrations of naturally occurring substances, including chlorides and sulfates, exceed the water quality criteria listed in table 1a of the "Kansas surface water quality standards: tables of numeric criteria," as adopted by reference in subsection (e), the existing water quality shall be maintained, and the newly established numeric criteria shall be the background concentration. Background concentrations shall be established using the methods outlined in the "Kansas implementation procedures: surface water quality standards," as adopted by reference in K.A.R. 28-16-28b, and available upon request from the department.

(c) Application of criteria for designated uses of surface waters.

(1) The numeric criteria in tables 1a, 1b, 1c, and 1d of the "Kansas surface water quality standards: tables of numeric criteria" shall not apply if the critical low flow is less than 0.03 cubic meter per second (1.0 cubic foot per second) for waters designated as expected aquatic life use waters and restricted aquatic life use waters, unless studies conducted or approved by the department show that water present during periods of no flow, or flow below critical low flow, provides important refuges for aquatic life and permits biological recolonization of intermittently flowing segments.

(2) The numeric criteria in tables 1a, 1b, 1c, and 1d of the “Kansas surface water quality standards: tables of numeric criteria” shall not apply if the critical low flow is less than 0.003 cubic meter per second (0.1 cubic foot per second) for waters designated as special aquatic life use waters, unless studies conducted or approved by the department show that water present during periods of no flow, or flow below critical low flow, provides important refuges for aquatic life and permits biological recolonization of intermittently flowing segments.

(3) Each digression shall be assessed by the secretary for the purposes of section 303(d) of the federal clean water act, with consideration of acceptable duration and frequency of the digression and representation of actual ambient conditions by environmental monitoring data, as specified in the “Kansas implementation procedures: surface water quality standards.”

(d) Criteria for designated uses of surface waters. The following criteria shall apply to all classified surface waters for the indicated designated uses:

(1) Agricultural water supply use. The water quality criteria for irrigation and livestock watering specified in table 1a of the “Kansas surface water quality standards: tables of numeric criteria” shall not be exceeded outside of mixing zones due to artificial sources of pollution.

(2) Aquatic life support use.

(A) Nutrients. The introduction of plant nutrients into streams, lakes, or wetlands from artificial sources shall be controlled to prevent the accelerated succession or replacement of aquatic biota or the production of undesirable quantities or kinds of aquatic life.

(B) Suspended solids. Suspended solids added to surface waters by artificial sources shall not interfere with the behavior, reproduction, physical habitat, or other factors related to the survival and propagation of aquatic or semiaquatic life or terrestrial wildlife. In the application of this provision, suspended solids associated with discharges of presedimentation sludge from water treatment facilities shall be deemed noninjurious to aquatic and semiaquatic life and terrestrial wildlife if these discharges fully meet the requirements of paragraphs (b)(6) and (8) and paragraph (d)(2)(D).

(C) Temperature.

(i) Heat of artificial origin shall not be added to a surface water in excess of the amount that will raise the temperature of the water beyond the

mixing zone more than 3° C above natural conditions. Additionally, a discharge to a receiving water shall not lower the temperature of the water beyond the mixing zone more than 3° C below natural conditions. The normal daily and seasonal temperature variations occurring within a surface water before the addition of heated or cooled water of artificial origin shall be maintained.

(ii) Temperature criteria applicable to industrial cooling water recycling reservoirs that meet the requirements for classification specified in K.A.R. 28-16-28d shall be established by the secretary on a case-by-case basis to protect the public health, safety, or the environment.

(D) Toxic substances.

(i) Conditions of acute toxicity shall not occur in classified surface waters outside of zones of initial dilution, nor shall conditions of chronic toxicity occur in classified surface waters outside of mixing zones.

(ii) Acute criteria for the aquatic life support use specified in tables 1a, 1b, and 1c of the “Kansas surface water quality standards: tables of numeric criteria” shall apply beyond the zone of initial dilution. Chronic criteria for the aquatic life support use specified in tables 1a, 1b, and 1d of the “Kansas surface water quality standards: tables of numeric criteria” shall apply beyond the mixing zone.

(iii) If a discharge contains a toxic substance that lacks any published criteria for the aquatic life support use, or if a discharge contains a mixture of toxic substances capable of additive or synergistic interactions, bioassessment methods and procedures shall be specified by the department to establish whole-effluent toxicity limitations that are consistent with paragraph (d)(2)(D)(i).

(3) Domestic water supply use.

(A) Except as provided in paragraph (d)(3)(B), the criteria listed in table 1a of the “Kansas surface water quality standards: tables of numeric criteria” for domestic water supply use shall not be exceeded at any point of domestic water supply diversion.

(B) In stream segments where background concentrations of naturally occurring substances, including chlorides and sulfates, exceed the domestic water supply criteria listed in table 1a of the “Kansas surface water quality standards: tables of numeric criteria,” due to intrusion of mineralized groundwater, the existing water quality shall be maintained, and the newly established numeric criteria for domestic water supply shall be the

background concentration. Background concentrations shall be established using the methods outlined in the “Kansas implementation procedures: surface water quality standards,” available upon request from the department.

(C) Any substance derived from an artificial source that, alone or in combination with other synthetic or naturally occurring substances, causes toxic, carcinogenic, teratogenic, or mutagenic effects in humans shall be limited to nonharmful concentrations in surface waters. Unless site-specific water quality conditions warrant the promulgation of more protective criteria under the provisions of subsection (a) of this regulation and K.A.R. 28-16-28f, maximum contaminant levels for toxic, carcinogenic, teratogenic, or mutagenic substances specified in 40 C.F.R. 141.11, 141.13, and 141.61 through 141.66, dated July 1, 2012, shall be deemed nonharmful.

(D) The introduction of plant nutrients into surface waters designated for domestic water supply use shall be controlled to prevent interference with the production of drinking water.

(4) Food procurement use.

(A) Criteria listed in table 1a of the “Kansas surface water quality standards: tables of numeric criteria” for food procurement use shall not be exceeded outside of a mixing zone due to any artificial source of pollution.

(B) Substances that can bioaccumulate in the tissues of edible aquatic or semiaquatic life or wildlife through bioconcentration or biomagnification shall be limited in surface waters to concentrations that result in no harm to human consumers of these tissues. For bioaccumulative carcinogens, surface water concentrations corresponding to a cancer risk level of less than 0.000001 (10^{-6}) in human consumers of aquatic or semiaquatic life or wildlife shall be deemed nonharmful by the department and adopted as food procurement criteria. Average rates of tissue consumption and lifetime exposure shall be assumed by the department in the estimation of the cancer risk level.

(5) Groundwater recharge use. In surface waters designated for the groundwater recharge use, water quality shall be such that, at a minimum, degradation of groundwater quality does not occur. Degradation shall include any statistically significant increase in the concentration of any chemical or radiological contaminant or infectious microorganism in groundwater resulting from surface water infiltration or injection.

(6) Industrial water supply use. Surface water quality criteria for industrial water supplies shall be determined by the secretary on a case-by-case basis to protect the public health, safety, or the environment.

(7) Recreational use.

(A) General. The introduction of plant nutrients into surface waters designated for primary or secondary contact recreational use shall be controlled to prevent the development of objectionable concentrations of algae or algal by-products or nuisance growths of submersed, floating, or emergent aquatic vegetation.

(B) Primary contact recreation for classified surface waters other than classified stream segments. A single sample maximum or a geometric mean of at least five samples collected during separate 24-hour periods within a 30-day period shall not exceed the criteria in table 1j of the “Kansas surface water quality standards: tables of numeric criteria” beyond the mixing zone.

(C) Secondary contact recreational use for classified surface waters other than classified stream segments. A single sample maximum or a geometric mean of at least five samples collected during separate 24-hour periods within a 30-day period shall not exceed the criteria in table 1j of the “Kansas surface water quality standards: tables of numeric criteria” beyond the mixing zone.

(D) Primary contact recreation for classified stream segments. At least five samples shall be collected during separate 24-hour periods within a 30-day period. A geometric mean analysis of these samples shall not exceed the criteria in table 1i of the “Kansas surface water quality standards: tables of numeric criteria” beyond the mixing zone.

(E) Secondary contact recreation for classified stream segments. The following criteria shall be in effect from January 1 through December 31 of each year:

(i) At least five samples shall be collected during separate 24-hour periods within a 30-day period.

(ii) A geometric mean analysis of the samples specified in paragraph (d)(7)(E)(i) shall not exceed the criteria in table 1i of the “Kansas surface water quality standards: tables of numeric criteria” beyond the mixing zone.

(F) Wastewater disinfection. Wastewater effluent shall be disinfected if the department determines that the discharge of nondisinfected wastewater constitutes an actual or potential threat to public health. Situations that constitute

an actual or potential threat to public health shall include instances in which there is a reasonable potential for the discharge to exceed the applicable criteria supporting the assigned recreational use designation or if a water body is known or likely to be used for either of the following:

- (i) Primary or secondary contact recreation; or
- (ii) any domestic water supply.

(8) Multiple uses. If a classified stream segment or classified surface water other than a classified stream segment is designated for more than one designated use according to K.A.R. 28-16-28d, the water quality of the classified stream segment or classified surface water other than a classified stream segment shall meet the most stringent of the applicable water quality criteria.

(e) Tables. The numeric criteria for the designated uses of classified surface waters shall be the numeric criteria specified in the department's "Kansas surface water quality standards: tables of numeric criteria," dated December 15, 2017, which is hereby adopted by reference. (Authorized by K.S.A. 2017 Supp. 65-171d, K.S.A. 65-171m, and K.S.A. 2017 Supp. 82a-2010; implementing K.S.A. 2017 Supp. 65-171d, K.S.A. 65-171m, and K.S.A. 2017 Supp. 82a-2002, 82a-2003, 82a-2004, and 82a-2010; effective May 1, 1986; amended, T-87-8, May 1, 1986; amended May 1, 1987; amended Aug. 29, 1994; amended July 30, 1999; amended Nov. 3, 2000; amended Aug. 31, 2001; amended Jan. 3, 2003; amended Oct. 24, 2003; amended Jan. 28, 2005; amended March 20, 2015; amended Feb. 23, 2018.)

28-16-28f. Administration of surface water quality standards. (a) Application of modified surface water quality standards. A modification to the surface water quality standards, the surface water register, or both, shall have no effect on the requirements of any existing enforceable discharge permit issued under K.S.A. 65-165, and amendments thereto, unless the discharge fails to meet the requirements of the permit or the secretary determines that continuation of the discharge will result in a potential or actual public health hazard or in irreversible water use impairments.

(b) Water quality certification. No action identified in this subsection shall be taken unless the department has issued a water quality certification for the following:

(1) Any action requiring a federal license or permit pursuant to the federal clean water act;

(2) any action subject to the permitting provisions of K.S.A. 65-165, and amendments thereto;

(3) any water development project subject to the provisions of K.S.A. 82a-325 et seq., and amendments thereto; and

(4) any action undertaken by any Kansas state agency that has a potential water quality impact.

(c) Compliance schedules.

(1) Except as provided in paragraph (c)(2), compliance schedules contained in any discharge permit or license issued by the department pursuant to the federal clean water act or K.S.A. 65-165, and amendments thereto, shall not extend more than three years beyond the date of permit issuance.

(2) Compliance schedules of up to five years in total duration may be granted if it is demonstrated that the strict application of paragraph (c)(1) is not feasible due to construction scheduling constraints or other technical limitations.

(d) Variances.

(1) A variance establishing an interim designated use and interim criterion may be permitted and adopted into the regulations at the next systematic review or subsequent triennial review and after a public hearing consistent with 40 C.F.R. 131.20(b), dated July 1, 2016, if upon written request by any person, as defined in K.S.A. 65-170a and amendments thereto, the secretary finds that the attainment of the designated use and criterion is not feasible because one of the following conditions is met:

(A) One of the factors listed in 40 C.F.R. 131.10(g), as adopted by reference in K.A.R. 28-16-28d(d)(1)(B), exists.

(B) Actions necessary to facilitate lake, wetland, or stream restoration through dam removal or other significant reconfiguration activities preclude attainment of the designated use and criterion while the actions are being implemented.

(2) Each variance shall be issued and evaluated using methods outlined in the "Kansas implementation procedures: surface water quality standards," as adopted in K.A.R. 28-16-28b.

(3) Adoption and implementation of each variance shall be in accordance with 40 C.F.R. 131.14, dated July 1, 2016 and hereby adopted by reference, except that 131.14(a)(2), 131.14(a)(4), 131.14(b)(1)(ii), and 131.14(b)(2)(i)(A) shall be replaced by paragraphs (d)(4) through (d)(6) of this regulation, respectively.

(4) Each variance shall have a designated term limit and reflect the highest attainable condition during the specified term. A variance may be ap-

plied to individual or multiple dischargers or surface water bodies.

(5) Each variance shall have requirements and a time limitation demonstrating the intent that progress be made toward the attainment of the underlying designated use and criterion.

(A) Each Kansas surface water quality standard not specifically addressed in a variance shall remain applicable.

(B) Each person requesting a variance shall provide evidence that a designated use and criterion, or a designated use or criterion, addressed by the variance cannot be achieved solely by the implementation of technology-based effluent limits.

(C) Each requirement shall represent the highest attainable condition of the surface water segment applicable throughout the term of the variance. A specified requirement shall not result in lowering the currently attained ambient water quality, unless a variance is necessary for physical reconfiguration activities intended for surface water segment restoration. The highest attainable condition of each affected surface water segment as a quantifiable expression shall be specified as one of the following:

- (i) The highest attainable interim criterion;
- (ii) the interim effluent condition that reflects the greatest pollutant reduction achievable; or
- (iii) the interim criterion or effluent condition that reflects the greatest pollutant reduction achievable with the pollutant control technologies installed at the time the variance is adopted.

(D) If the quantifiable expression identified in paragraph (d)(5)(C)(iii) is selected, a pollutant minimization plan consistent with 40 C.F.R. 131.3(p) shall be adopted and implemented if no additional feasible pollutant control technology is identified.

(6) Each variance request shall include supporting documentation that demonstrates all of the following:

(A) Attaining the designated use and criterion is not feasible throughout the term of the variance because of one of the factors cited in paragraphs (d)(1)(A) and (B).

(B) The term of the variance is only as long as necessary to achieve the highest attainable condition.

(C) The highest attainable condition of the affected surface water segment is as defined in paragraph (d)(5)(C).

(7) A discharger that impacts water quality shall not be granted a variance from requirements of K.A.R. 28-16-28c and 28-16-28e.

(8) Specific eligibility requirements may be included in a multiple-discharger variance as an alternative to identifying the specific dischargers at the time of adoption of the variance. Each discharger shall meet the eligibility requirements in the applicable section of the “Kansas surface water quality standards variance register,” as adopted by reference in K.A.R. 28-16-28h, to participate in a multiple-discharger variance.

(e) Site-specific criteria. Site-specific criteria shall be established using the methods outlined in the “Kansas implementation procedures: surface water quality standards,” as adopted by reference in K.A.R. 28-16-28b.

(f) Enforcement. Each person deemed by the department to be responsible for a violation of the Kansas surface water quality standards caused by an artificial source of pollution shall be required by the department to initiate corrective actions that restore the designated uses of the affected surface water or surface water segment impaired by the violation and provide for the return of the original surface water quality conditions. (Authorized by K.S.A. 2017 Supp. 65-171d and K.S.A. 65-171m; implementing K.S.A. 65-164, K.S.A. 2017 Supp. 65-171d, and K.S.A. 65-171m; effective May 1, 1986; amended Aug. 29, 1994; amended July 30, 1999; amended Jan. 28, 2005; amended March 20, 2015; amended Feb. 23, 2018.)

28-16-28g. Surface water register. The classification and use designations of surface waters of the state shall be those identified in the department’s “Kansas surface water register,” dated December 12, 2013, which is hereby adopted by reference. (Authorized by K.S.A. 2013 Supp. 82a-2005 and 82a-2010; implementing K.S.A. 2013 Supp. 82a-2001, 82a-2002, 82a-2003, 82a-2004, and 82a-2005; effective Jan. 28, 2005; amended May 20, 2005; amended Sept. 15, 2006; amended May 25, 2007; amended June 6, 2008; amended Feb. 26, 2010; amended Aug. 5, 2011; amended July 7, 2014.)

28-16-28h. Surface water variance register. The variances approved by the secretary shall be those identified in the department’s “Kansas surface water quality standards variance register,” dated October 31, 2017, which is hereby adopted by reference. (Authorized by K.S.A. 2017 Supp. 65-171d; implementing K.S.A. 2017 Supp. 65-171d and K.S.A. 65-171m; effective Feb. 23, 2018.)

28-16-58. Definitions. As used in K.A.R. 28-16-57a through 28-16-63, each of the following terms shall have the meaning specified in this regulation: (a)(1) “Administrator” means administrator of the United States environmental protection agency (EPA).

(2) “Application” means all documents required by the division of environment in the Kansas department of health and environment that are necessary for obtaining a permit.

(3) “Department” and “KDHE” mean Kansas department of health and environment.

(4) “Director” means director of the division of environment, KDHE.

(5) “Division” means division of environment, KDHE.

(6) “Draft permit” means a permit that has not been issued as a final action of the secretary.

(7) “EPA” means United States environmental protection agency.

(8) “Kansas implementation procedures: wastewater permitting” means the procedures dated July 1, 2014 and written and used by the department for the development of national pollutant discharge elimination system permit limitations, available upon request from the division.

(9) “Minimum standards of design, construction, and maintenance” means effluent standards, effluent limitations, pretreatment standards, other performance standards, and other standards of design, construction, and maintenance for wastewater control facilities published by the department in 1978 as “minimum standards of design for water pollution control facilities.”

(10) “Municipal system” means a system under the jurisdiction of a city, county, township, district, or other governmental unit.

(11) “National pollutant discharge elimination system” and “NPDES” mean the national system for the issuance of permits under 33 U.S.C. Section 1342 and shall include any state or interstate program that has been approved by the administrator, in whole or in part, pursuant to 33 U.S.C. Section 1342.

(12) “Refuse act application” means an application for a permit under 33 U.S.C. Section 407, commonly known as the refuse act, of 33 U.S.C. Chapter 9, “protection of navigable waters and of harbor and river improvements generally.”

(13) “Regional administrator” means the regional administrator for region VII of the EPA.

(14) “Secretary” means secretary of KDHE.

(15) “Water quality standards” means all water

quality standards, as specified in K.A.R. 28-16-28b through K.A.R. 28-16-28g, to which a discharge is subject.

(16) “Waters of the state” means all surface and subsurface waters occurring within the borders of the state or forming part of the border between Kansas and one of the adjoining states.

(b) The definitions of the following terms contained in 33 U.S.C. Section 1362, as amended July 29, 2008 and hereby adopted by reference, shall be applicable to the following terms as used in K.A.R. 28-16-57a through K.A.R. 28-16-63, unless the context requires otherwise:

(1) “Biological monitoring”;

(2) “effluent limitations”;

(3) “municipality”;

(4) “person”;

(5) “state”; and

(6) “toxic pollutant.” (Authorized by K.S.A. 2014 Supp. 65-171d; implementing K.S.A. 65-165, K.S.A. 65-166, and K.S.A. 2014 Supp. 65-171d; effective, E-74-32, June 14, 1974; effective May 1, 1975; amended May 1, 1987; amended Aug. 31, 2001; amended Jan. 28, 2005; amended March 20, 2015.)

Article 17.—DIVISION OF VITAL STATISTICS

28-17-6. Fees for copies, abstracts, and searches.

(a)(1) Subject to the requirements of K.S.A. 65-2417 and K.S.A. 65-2418 (a)(2) and amendments thereto, certified copies or abstracts of certificates or parts of certificates shall be furnished by the state registrar upon request by an authorized applicant and payment of the required fee.

(2)(A) The fees for making and certifying copies or abstracts of birth, stillbirth, marriage, and divorce certificates shall be \$15.00 for the first copy or abstract and \$15.00 for each additional copy or abstract of the same record requested at the same time.

(B) The fees for making and certifying copies or abstracts of death certificates shall be \$15.00 for the first copy or abstract and \$15.00 for each additional copy or abstract of the same record requested at the same time.

(b) For any search or verification of the files and records for birth, death, stillbirth, marriage, or divorce certificates if no certified copy or abstract is made, the fee shall be \$15.00 for each five-year period for which a search is requested, or for each fractional part of a five-year period.

(c) For any search of the files necessary for preparing an amendment to a birth, stillbirth, death, marriage, or divorce certificate or abstract already on file, the fee shall be \$15.00.

(d) For non-certified copies or abstracts of certificates or parts of certificates requested for statistical research purposes, the following fees shall be charged:

(1)(A) \$10.00 for each copy of a birth, marriage, divorce, or stillbirth certificate, if the state certificate number is provided; and

(B) \$15.00 for each copy of a birth, marriage, divorce, or stillbirth certificate, if the state certificate number is not provided; and

(2)(A) \$10.00 for each copy of a death certificate, if the state certificate number is provided; and

(B) \$15.00 for each copy of a death certificate, if the state certificate number is not provided.

(e) For each certified copy of an heirloom certificate, the fee shall not exceed \$40.00. (Authorized by K.S.A. 2008 Supp. 65-2418; implementing K.S.A. 23-110 and 65-2417 and K.S.A. 2008 Supp. 65-2418 and 65-2422d; effective Jan. 1, 1966; amended Jan. 1, 1968; amended, E-78-18, July 7, 1977; amended May 1, 1978; amended May 1, 1983; amended, T-84-13, July 1, 1983; amended May 1, 1984; amended May 1, 1988; amended Oct. 7, 1991; amended, T-28-9-25-92, Sept. 25, 1992; amended Nov. 16, 1992; amended Aug. 16, 1993; amended, T-28-7-2-01, July 2, 2001; amended Oct. 12, 2001; amended, T-28-6-27-02, July 1, 2002; amended Oct. 18, 2002; amended, T-28-7-1-03, July 1, 2003; amended Oct. 17, 2003; amended, T-28-11-5-04, Nov. 5, 2004; amended Feb. 25, 2005; amended Jan. 15, 2010.)

28-17-10. Delayed certificate of birth.

(a) Each request for a delayed certificate of birth shall be registered with the office of vital statistics and shall meet the following requirements:

(1) Be completed with facts known at the time of birth of the registrant; and

(2) if the registrant is at least 18 years of age, be signed before a notary public or other authorized individual. If the registrant is under 18 years of age, the delayed certificate of birth shall be signed by a parent, legal guardian, or attending physician before a notary public or other authorized individual.

(b) Each request for a delayed certificate of birth for a registrant under 10 years of age shall include the following:

(1) Two original documents or certified copies of two original documents dated at least one year before the date of the request or within the first year of the registrant's life, showing the registrant's date of birth or age;

(2) one original document or a certified copy of one original document showing the mother's presence in the state at the time of birth;

(3) one original document or a certified copy of one original document with information of the registrant's birthplace as Kansas; and

(4) one original document or a certified copy of one original document with at least one parent's name.

(c) Each request for a delayed certificate of birth for a registrant 10 years of age or older shall include the following:

(1) Four original documents or a certified copy of each of four original documents dated at least 10 years before the date of the request or within three years of the registrant's date of birth, each showing the registrant's date of birth or age;

(2) one original document or a certified copy of one original document with information of the registrant's birthplace as Kansas; and

(3) one original document or a certified copy of one original document with at least one parent's name. (Authorized by K.S.A. 2015 Supp. 65-2402; implementing K.S.A. 65-2419 and 65-2420; effective Jan. 1, 1966; amended June 24, 2016.)

28-17-11. (Authorized by K.S.A. 65-2419, 65-2420; effective Jan. 1, 1966; revoked June 24, 2016.)

28-17-12. Delayed certificate of birth; filing fee. Each application for a delayed certificate of birth shall be accompanied by a fee of \$20.00 for the filing and registration of the birth certificate. A certified copy may be issued in accordance with K.A.R. 28-17-6. (Authorized by and implementing K.S.A. 65-2420; effective Jan. 1, 1966; amended Jan. 1, 1968; amended May 1, 1983; amended Oct. 22, 1990; amended Oct. 7, 1991; amended, T-28-9-25-92, Sept. 25, 1992; amended Nov. 16, 1992; amended Jan. 15, 2010.)

28-17-20. Corrections to certificates and records. Corrections to certificates and records may be made within the time limit indicated in each subsection.

(a) Amendments within 90 days.

(1) Within 90 days of receipt of an original vital record in the office of vital statistics, the following

records in which an inaccuracy or an incomplete item is apparent on the certificate may be changed to show the accurate and complete facts:

- (A) Birth certificates;
- (B) any part of a death certificate other than the medical section describing the cause of death;
- (C) any part of a stillbirth certificate, other than the medical section describing the cause of death;
- (D) marriage certificates; and
- (E) divorce certificates.

(2) The changes specified in this subsection shall be made as follows:

(A) Any death or stillbirth certificate may be amended by drawing a single line through the incorrect information in the appropriate space or by inserting the correct information in the appropriate space, if left blank on the original certificate. For each amendment, the date of the amendment and the word "amended" shall be written or typed on the certificate. The process of amendment specified in this paragraph shall not be used more than one time for the same item.

(B) A new certificate shall be created if any item to be corrected is not left blank on the original certificate or if a death or stillbirth certificate item has already been amended. This process of amendment shall not be used more than one time for the same item unless accompanied by a court order, except when amending a death or stillbirth certificate.

(C) If the registrant is a minor, the birth certificate may be amended at the request of a parent by submission of an affidavit and supporting evidence to substantiate each item to be amended, unless the item to be amended is to add the name of a parent, to correct the name of either parent or of the registrant, or to change the registrant's last name to that of either parent. Any of these amendments may be made pursuant to K.S.A. 23-2223, and amendments thereto.

(D) The process of amendment specified in paragraph (a)(2) shall be used when affidavits and supporting evidence have been furnished to and accepted by the secretary or the secretary's designee. The date of the amendment and the word "amended" shall be placed on the original certificate or the newly created certificate.

(3) An amendment fee, as specified in K.A.R. 28-17-6, shall be required, unless changes are made within the first 90 days after receipt of a death certificate or a stillbirth certificate in the office of vital statistics.

(b) Amendments after 90 days. After 90 days of

receipt of the vital record in the office of vital statistics, amendments may be made as follows:

(1) Birth certificates.

(A) Any birth certificate may be amended upon the registrant's submission, or parent's submission if the registrant is a minor, of at least two documents that substantiate each item to be amended and that are executed and dated at least five years before the request for the amendment or before the tenth birthday anniversary of the registrant, except that the following items shall be corrected as specified:

(i) The item recording the registrant's sex may be amended if the amendment is substantiated with the registrant's affidavit, or a parent's affidavit if the registrant is under the age of 18, that the sex was incorrectly recorded and with medical records substantiating the registrant's sex at the time of birth.

(ii) If the registrant is a minor, any request by a parent to change an item or items by adding the name of a parent, correcting the name of either parent or of the registrant, or changing the registrant's last name to that of either parent shall be made pursuant to K.S.A. 23-2223, and amendments thereto.

(iii) Any registrant who is of legal age may amend the order of the registrant's first and middle names if the amendment is substantiated with one of the documents specified in paragraph (b)(1)(A).

(iv) Any registrant who is of legal age may place the registrant's first name or middle name, or both, on the record only if there is no first name and no middle name on the original certificate and if the amendment is substantiated with one of the documents specified in paragraph (b)(1)(A).

(v) Any registrant who is of legal age may correct the spelling of the registrant's first name, middle name, or last name if the amendment is substantiated with one document established before the tenth birthday anniversary of the registrant. Changing the first name, middle name, or last name of the registrant shall not be considered to be correcting the spelling of the registrant's first name, middle name, or last name.

(vi) A registrant who is of legal age may correct the parents' names, if one of the required documents specified in paragraph (b)(1)(A) is the marriage license or birth certificate of the parent or parents.

(vii) The registrant's birth date on the certificate may be changed if both required documents were executed and dated before the tenth birthday an-

niversary and if the change is consistent with the recorded filing date.

(B) Any item that has been previously amended may be changed only pursuant to a court order.

(C) The sufficiency of affidavits and supporting evidence shall be determined by the secretary or the secretary's designee.

(D) The original certificate shall remain on file unchanged and shall be placed in a sealed file to be opened only by a court order. The new certificate shall be marked "amended" and shall indicate the date of the amendment.

(E) Each request for an amendment to a birth certificate that does not require a court order shall be submitted by the parent or legal guardian of a registrant not of legal age, or by the registrant if of legal age. The person submitting the request shall execute a notarized affidavit stating the true facts to be recorded.

(2) Death certificates: personal data.

(A) Personal data may be amended without a court order if the request is made within the first 12 months after filing the original certificate.

(B) Requests for amendments to personal data may be made by the funeral director or person who submitted the original certificate.

(C) The original certificate shall remain on file unchanged and shall be placed in a sealed file unless required to be opened only by a court order. The new certificate shall be prepared by the funeral director or person who submitted the original certificate or by the state registrar. The medical section shall again be completed, and the required signatures shall be secured whenever possible. The signatures may be typed if the required signatures are unattainable and a written statement of the reason the signatures are unattainable is attached to the certificate. The certificate shall not be accepted if the stated reason for the typed signature is inadequate, as determined by the state registrar. Upon acceptance by the state registrar, the new certificate shall be marked "amended" and shall indicate the date of the amendment.

(3) Stillbirth certificates: personal data.

(A) Personal data may be amended upon the request of a parent and the submission of affidavits and supporting evidence to substantiate each item to be amended.

(B) Any item that was previously amended may be changed only pursuant to a court order.

(C) The sufficiency of affidavits and supporting evidence shall be determined by the secretary or the secretary's designee.

(D) The original certificate shall remain on file unchanged and shall be placed in a sealed file to be opened by a court order. The new certificate shall be marked "amended" and shall indicate the date of the amendment.

(4) Marriage certificates: personal data.

(A) Personal data may be amended upon the request of either spouse and the submission of affidavits and supporting evidence to substantiate each item to be amended.

(B) Any item that was previously amended may be changed only pursuant to a court order.

(C) The sufficiency of affidavits and supporting evidence shall be determined by the secretary or the secretary's designee.

(D) The original certificate shall remain on file unchanged and shall be placed in a sealed file to be opened by a court order. The new certificate shall be marked "amended" and shall indicate the date of the amendment.

(5) Divorce certificates: personal data.

(A) Personal data may be amended upon the request of either spouse and the submission of affidavits and supporting evidence to substantiate each item to be amended.

(B) Any item that was previously amended may be changed only pursuant to a court order.

(C) The sufficiency of affidavits and supporting evidence shall be determined by the secretary or the secretary's designee.

(D) The original certificate shall remain on file unchanged and shall be placed in a sealed file to be opened by a court order. The new certificate shall be marked "amended" and shall indicate the date of the amendment.

(c) Amendments with no time limit.

(1) Death and stillbirth certificates: medical section data.

(A) Requests for amendments to the medical section data may be made only by the physician who signed the medical section on the original certificate or by the coroner in the jurisdiction the death or stillbirth occurred.

(B) Medical section data may be amended in either of the following ways:

(i) The original certificate shall remain on file unchanged, and the written statement or affidavit of the certifying physician or coroner shall be appended to the back of the original certificate. The original certificate shall be marked "amended" and shall indicate the date of the amendment.

(ii) A certifying physician or coroner may request the establishment of a new death certifi-

cate or stillbirth certificate. The funeral director or person who submitted the original certificate or the state registrar shall enter the personal data and forward the certificate to the certifying physician or coroner to sign the medical section. When all items have been completed, the new certificate shall be submitted to the office of vital statistics, and upon acceptance of the certificate, the certificate shall be marked "amended" and shall indicate the date of the amendment. The original death or stillbirth certificate shall be placed in a sealed file to be opened by a court order. (Authorized by K.S.A. 2015 Supp. 65-2402 and K.S.A. 65-2422c; implementing K.S.A. 65-2422c; effective Jan. 1, 1966; amended May 1, 1987; amended May 1, 1988; amended Oct. 22, 1990; amended, T-28-9-25-92, Sept. 25, 1992; amended Nov. 16, 1992; amended Aug. 16, 1993; amended, T-28-11-5-04, Nov. 5, 2004; amended Feb. 25, 2005; amended June 24, 2016.)

Article 19.—AMBIENT AIR QUALITY STANDARDS AND AIR POLLUTION CONTROL

28-19-11. Enforcement discretion due to startup, shutdown, malfunctions, or scheduled maintenance. (a) An emission source having emissions that are in excess of the applicable emission limitation and standard and result from startup, shutdown, malfunctions, or scheduled maintenance of control or processing equipment and appurtenances may be exempt from enforcement action at the secretary's discretion if both of the following conditions are met:

(1) The person responsible for the operation of the emission source notifies the department of the occurrence and nature of the excess emissions resulting from startup, shutdown, malfunctions, or scheduled maintenance, in writing, within 10 days of discovery of the excess emissions.

(2) Reasonable action is taken regarding the occurrence specified in paragraph (a)(1) to initiate and complete any necessary repairs and place the equipment back in operation as quickly as possible.

(b) Emissions that are in excess of the applicable emission source emission limitation and standard and result from startup, shutdown, or malfunctions shall be evaluated by the secretary for potential enforcement action based on the frequency and severity of the excess emissions.

(c) Emissions that are in excess of the applicable emission source emission limitation and standard

and result from scheduled maintenance of control or processing equipment and appurtenances shall be evaluated by the secretary for potential enforcement action based on the following:

- (1) The severity of the excess emissions;
- (2) any prior approval for scheduled maintenance by the secretary; and
- (3) demonstration that the scheduled maintenance cannot be accomplished by maximum reasonable effort, including off-shift labor where required, during periods of shutdown of any related control or processing equipment.

(d) Any exemption granted under this regulation may be rescinded if the secretary obtains additional information and deems enforcement action necessary based upon this information.

(e) Lack of enforcement for excess emissions under this regulation shall not preclude the taking of enforcement action by USEPA or through private citizen lawsuits. (Authorized by K.S.A. 2016 Supp. 65-3005; implementing K.S.A. 65-3006 and K.S.A. 65-3010; effective Jan. 1, 1971; amended Jan. 1, 1972; amended, E-74-7, Jan. 1, 1974; amended May 1, 1975; amended Nov. 14, 2016.)

28-19-200a. General provisions; definitions to implement the federal greenhouse gas tailoring rule. (a) The definition of "major source," as adopted by reference in this regulation, shall supersede the definition of "major source" in K.A.R. 28-19-200 for the purposes of the following regulations:

- (1) K.A.R. 28-19-500 through K.A.R. 28-19-502;
- (2) K.A.R. 28-19-510 through K.A.R. 28-19-518;
- (3) K.A.R. 28-19-540 through K.A.R. 28-19-546; and

- (4) K.A.R. 28-19-561 through K.A.R. 28-19-564.

(b) "Major source," as defined in 40 C.F.R. 70.2 and as revised on July 1, 2009 and amended by 75 fed. reg. 31607 (2010), is adopted by reference.

(c) "Subject to regulation," as defined by 75 fed. reg. 31607 (2010), which amends 40 C.F.R. 70.2, is adopted by reference. This definition of "subject to regulation" shall apply only to that term as used in the definition of "major source," which is adopted by reference in subsection (b) of this regulation.

This regulation shall be effective on and after January 2, 2011. (Authorized by and implementing K.S.A. 2009 Supp. 65-3005; effective Jan. 2, 2011.)

28-19-202. (Authorized by K.S.A. 2009 Supp. 65-3005 and 65-3024; implementing K.S.A. 65-3024; effective Nov. 22, 1993; amended Jan.

23, 1995; amended March 15, 1996; amended Feb. 21, 1997; amended Feb. 13, 1998; amended March 23, 2001; amended Jan. 30, 2004; amended Nov. 5, 2010; revoked Jan. 5, 2018.)

28-19-274. Nitrogen oxides; allocations.

(a)(1) For purposes of this regulation, the terms “allocate,” “allocation,” “TR NO_x annual allowance,” “TR NO_x annual trading program,” and “TR NO_x annual unit” shall have the meanings specified in 40 C.F.R. 97.402, as in effect on October 7, 2011. These definitions are hereby adopted by reference.

(2)(A) For purposes of this regulation, each reference to “administrator” shall mean “USEPA administrator.”

(B) For purposes of this regulation, each reference to “State” and each reference to “permitting authority” shall mean “secretary of the Kansas department of health and environment.”

(C) For purposes of this regulation, each reference to “§52.38” shall mean “40 C.F.R. 52.38.”

(b) For purposes of this regulation, Indian country new unit set-aside allowances shall be those unallocated TR NO_x annual allowances for calendar year 2017, 2018, or 2019 available for allocation in accordance with a determination by the department after completion by USEPA of the procedures under 40 C.F.R. 97.412(b)(9) and (12) for that year.

(c) Pursuant to 40 C.F.R. 52.38(a)(4) as in effect on July 1, 2015, this regulation shall replace the provisions of 40 C.F.R. 97.411(a) and (b)(1) and 97.412(a) as in effect on July 1, 2015 for the calendar years 2017, 2018, and 2019 with regard to the implementation of the TR NO_x annual trading program by the department.

(d) Each TR NO_x annual unit shall receive TR NO_x annual allowance allocations and, except as provided in subsection (e), Indian country new unit set-aside allowance allocations for 2017, 2018, and 2019 according to the department’s document titled “TR NO_x annual allowance allocations for 2017, 2018, and 2019,” dated July 17, 2015, which is hereby adopted by reference.

(e) If the total number of available Indian country new unit set-aside allowances for 2017, 2018, or 2019 is less than 31, the allocations shall be determined under this subsection instead of subsection (d), according to the following:

(1) The TR NO_x annual units listed in the department’s document titled “TR NO_x annual allowance allocations for 2017, 2018, and 2019” shall

be ordered in descending order of the amounts of their Indian country new unit set-aside allowance allocations as shown in that document, with units whose allocations are the same ordered in ascending order of “ReceiveAcct” and “UnitId” as shown in that document.

(2) The TR NO_x annual units shall forfeit one allowance sequentially, starting with the first listed unit, until the total number of the revised allocations equals the total number of available Indian country new unit set-aside allowances. (Authorized by K.S.A. 2015 Supp. 65-3005; implementing K.S.A. 2015 Supp. 65-3005 and K.S.A. 65-3010; effective Nov. 6, 2015.)

28-19-300. Construction permits and approvals; applicability.

(a) Each person who proposes to construct or modify a stationary source or emission unit shall obtain a construction permit before beginning actual construction or modification if at least one of the following conditions is met:

(1) The potential-to-emit of the proposed stationary source or emission unit, or the increase in the potential-to-emit resulting from the modification, equals or exceeds any of the following:

(A) Either 25 tons of particulate matter per year or 15 tons of PM₁₀ per year, except for any agricultural-related activity, in which case the emission level shall be 100 tons of particulate matter per year, including PM₁₀;

(B) 40 tons of sulfur dioxide or sulfur trioxide, or a combination of these, per year;

(C) 100 tons of carbon monoxide per year;

(D) 40 tons of volatile organic compounds per year;

(E) 40 tons of oxides of nitrogen per year;

(F) 0.6 tons of lead or lead compounds per year; or

(G) 10 tons of directly emitted PM_{2.5} per year. For the purposes of this paragraph, “PM_{2.5}” shall mean particulate matter with an aerodynamic diameter less than or equal to a nominal 2.5 micrometers.

(2) For the purposes of this paragraph, the definitions in 40 C.F.R. part 63 adopted by reference in K.A.R. 28-19-750 shall apply. The construction or modification project is located at a stationary source and involves any of the following:

(A) The construction of any new major source of hazardous air pollutants;

(B) the reconstruction of any existing major source of hazardous air pollutants;

(C) the modification of any existing area source of hazardous air pollutants such that the source becomes a major source; or

(D) any activity specified in 40 C.F.R. 63.5(b)(3).

(3) The source is requesting a federally enforceable operational restriction or permit condition pursuant to K.A.R. 28-19-302(b).

(4) The emission unit or stationary source is an incinerator used to dispose of refuse by burning or pyrolysis or used for the processing of salvageable materials, except incinerators installed on residential premises that contain fewer than six dwelling units and are used to burn waste materials associated with normal habitation of those dwelling units.

(5) The emission unit or stationary source is required to apply for a construction approval pursuant to paragraph (b)(2), and the secretary determines that air emissions from the emission unit or stationary source require that the permit issuance procedures be implemented.

(b) Each person who proposes to construct or modify a stationary source or emission unit who is not required to obtain a construction permit pursuant to subsection (a) shall, before beginning actual construction or modification of the stationary source or emissions emission unit, obtain an approval from the department to begin actual construction or modification if at least one of the following conditions is met:

(1) The potential-to-emit of the proposed stationary source or emission unit, or the increase in the potential-to-emit resulting from the modification, equals or exceeds one or more of the following:

(A) Either five pounds of particulate matter per hour or two pounds of PM10 per hour, except for any agricultural-related activity, in which case the emission level shall be five pounds of particulate matter per hour, including PM10;

(B) two pounds of sulfur dioxide or sulfur trioxide, or a combination of these, per hour;

(C) 50 pounds of carbon monoxide per 24-hour period;

(D) 50 pounds of volatile organic compounds per 24-hour period, except when the stationary source or emission unit is located in an area designated as a nonattainment area in 40 C.F.R. 81.317 as in effect on July 1, 1989, in which case approval shall be required if the emission level exceeds either 15 pounds per 24-hour period or three pounds per hour;

(E) 50 pounds of oxides of nitrogen calculated as nitrogen dioxide per 24-hour period; or

(F) 0.1 pounds of lead or lead compounds per hour.

(2) The secretary determines that any other air contaminant emissions from the emission unit or stationary source could cause or contribute to air pollution within the state because of the specific chemical or physical nature of the emissions or because of the quantity discharged.

(3) The construction or modification project is located at a stationary source for which a standard has been promulgated under 40 C.F.R. part 60, as adopted by reference in K.A.R. 28-19-720, and the project involves the construction of any new source or the modification or reconstruction of any existing source subject to the standard. For the purposes of this paragraph, the definitions in 40 C.F.R. part 60 adopted by reference in K.A.R. 28-19-720 shall apply. A construction approval shall not be required for construction, reconstruction, or modification projects subject to the standards of performance for new residential wood heaters, 40 C.F.R. part 60, subpart AAA.

(4) The construction or modification project is located at a stationary source for which a standard has been promulgated under 40 C.F.R. part 61, as adopted by reference in K.A.R. 28-19-735, and the project involves the construction of any new source or the modification of any existing source subject to the standard. For the purposes of this paragraph, the definitions in 40 C.F.R. part 61 adopted by reference in K.A.R. 28-19-735 shall apply. A construction approval shall not be required for construction or modification projects subject to 40 C.F.R. 61.145.

(5) The construction or modification project is located at a stationary source for which a relevant standard has been promulgated under 40 C.F.R. part 63, as adopted by reference in K.A.R. 28-19-750, and the project involves the construction of any new source or the reconstruction of any existing source subject to the relevant standard. For the purposes of this paragraph, the definitions in 40 C.F.R. part 63 adopted by reference in K.A.R. 28-19-750 shall apply. A construction approval shall not be required solely if the project is subject to any of the following:

(A) 40 C.F.R. part 63, subpart M;

(B) 40 C.F.R. part 63, subpart CCCCCC; or

(C) 40 C.F.R. part 63, subpart ZZZZ, if the project is located at an area source.

(6) The source is seeking an approval with op-

erational restrictions pursuant to K.A.R. 28-19-302(c).

(c) For the purpose of this regulation, neither of the following shall be considered a modification:

(1) Routine maintenance or parts replacement; or

(2) an increase or decrease in operating hours or production rates if both of the following conditions are met:

(A) Production rate increases do not exceed the originally approved design capacity of the stationary source or emission unit; and

(B) the increased potential-to-emit resulting from the change in operating hours or production rates does not exceed any emission or operating limitations imposed as a condition to any permit issued under this article of the department's regulations. (Authorized by K.S.A. 2016 Supp. 65-3005; implementing K.S.A. 2016 Supp. 65-3008; effective Jan. 23, 1995; amended Nov. 18, 2016.)

28-19-304. Construction permits and approvals; fees. An application for an approval or a permit shall not be reviewed until the department has received an application fee pursuant to the requirements of this regulation.

(a) The fee for each construction approval application shall be \$750.00.

(b) The fee for each construction permit application shall be determined according to the following source categories:

(1) \$4,000 for each of the following:

(A) Aircraft manufacturing;

(B) cellulosic organic fiber manufacturing;

(C) chemical manufacturing, except ethanol manufacturing;

(D) electric power generation with total plant-wide capacity at least 100 megawatts;

(E) fiberglass insulation manufacturing;

(F) foundries;

(G) glass and glass product manufacturing;

(H) hazardous waste and medical waste incinerators;

(I) pesticide, fertilizer, and other agricultural chemical manufacturing;

(J) petroleum refineries;

(K) portland cement manufacturing;

(L) sulfuric and nitric acid manufacturing; and

(M) tire manufacturing;

(2) \$2,000 for each of the following:

(A) Agriculture, construction, and mining machinery manufacturing;

(B) aircraft engine or parts manufacturing;

(C) animal slaughtering and processing;

(D) ethanol manufacturing, including distilleries;

(E) fabricated metal product manufacturing;

(F) grain and oilseed milling, including oil extraction;

(G) lime and gypsum product manufacturing;

(H) motor vehicle manufacturing, including vehicle body, truck trailer, and camper manufacturing;

(I) paint, coating, and adhesive manufacturing;

(J) pipeline transportation of refined petroleum, crude oil, and natural gas;

(K) printing and related support activities;

(L) rubber product manufacturing, except tire manufacturing;

(M) ship and boat building;

(N) soap and cleaning compound manufacturing;

(O) solid waste landfills; and

(P) storage battery manufacturing; and

(3) \$1,000 for each of the following:

(A) Each source category listed in paragraph (b) (1) that is not a major source, as defined in K.A.R. 28-19-200;

(B) air curtain combustors;

(C) animal crematory services;

(D) animal food manufacturing;

(E) asphalt paving mixture and block manufacturing;

(F) crude petroleum and natural gas extraction;

(G) electric power generation with total plant-wide capacity less than 100 megawatts;

(H) food manufacturing;

(I) grain elevators;

(J) hog and pig farming;

(K) nonmetallic mineral mining and quarrying;

(L) plastics product manufacturing, including fiberglass products; and

(M) ready-mix concrete manufacturing.

(c) The fee for each construction permit application for any source category not listed in subsection (b) shall be \$1,000.

(d)(1) The construction permit application fees in subsections (b) and (c) shall not apply if the proposed construction or modification is also subject to review and permitting requirements under K.A.R. 28-19-16 through 28-19-16m, pertaining to nonattainment area requirements, or K.A.R. 28-19-350, pertaining to prevention of significant deterioration. Instead, the fees shall be as follows:

(A) For each application for new permit, \$10,000; or

(B) for each application for modification of an existing permit, \$10,000 if the modification includes any of the following:

(i) A new best available control technology (BACT) analysis or a modification of an existing BACT analysis;

(ii) a review of emissions or net emissions calculations; or

(iii) the addition of a new unit subject to BACT; and

(C) for each application for modification of an existing permit not specified in paragraph (d)(1)(B), \$3,000.

(2) In addition to the construction permit application fee requirements of paragraphs (d)(1)(A) and (B), the following fees shall apply:

(A) For each refined modeling analysis, \$8,000;

(B) for each revision to application, \$5,000; and

(C) for each revision to modeling, \$4,000.

(e) Each fee, which shall be nonrefundable, shall be remitted in the form of a check, draft, credit card payment, or money order made payable to the Kansas department of health and environment. Receipt of any type of payment that is not covered by sufficient funds shall be cause for the denial of the construction permit or approval. (Authorized by K.S.A. 2016 Supp. 65-3005; implementing K.S.A. 2016 Supp. 65-3008; effective Jan. 23, 1995; amended Nov. 18, 2016.)

28-19-325. Compressed air energy storage. (a) The terms “compressed air energy storage” and “CAES,” as used in this regulation, shall mean the compression and storage of air that is released and converted to energy for the production of electricity.

(b) Each person who proposes to construct, modify, or operate a CAES facility with a potential-to-emit that equals or exceeds the emissions thresholds, emissions limitations, or standards specified in K.A.R. 28-19-300 shall comply with the following upon application for a construction permit or approval:

(1) All applicable provisions of the Kansas air quality act and the Kansas air quality regulations as directed by the secretary; and

(2) for underground CAES facilities, any applicable regulations adopted by the Kansas corporation commission pursuant to K.S.A. 66-1274, and amendments thereto.

(c) Each person who proposes to construct or modify a CAES facility that includes underground storage and does not include energy production

utilizing combustion shall meet the following requirements:

(1) Upon application for a construction permit or approval, the person shall comply with any applicable regulations adopted by the Kansas corporation commission pursuant to K.S.A. 66-1274, and amendments thereto.

(2) The person shall develop and submit to the department for approval, with the application for a construction permit or approval, a site emissions characterization plan that determines the types and quantities of any regulated pollutants that reasonably could be present. The site emissions characterization plan shall include the following:

(A) A list of volatile organic compounds and hazardous air pollutants, as defined in K.A.R. 28-19-201, that are or reasonably could be present in the proposed storage formation within the facility and that could be emitted as a result of the facility's operations;

(B) the spatial characteristics of the proposed storage formation, including existing and proposed injection and withdrawal wells;

(C) a site characterization sampling plan that includes plans, either maps or diagrams, and a rationale for the following:

(i) Proposed sample types;

(ii) sampling locations;

(iii) number of samples; and

(iv) test methodologies;

(D) a quality assurance plan;

(E) the use of a laboratory approved by the secretary;

(F) any additional information that may be required by the department to fully characterize the site's emissions;

(G) a schedule that includes a timeline for implementing the requirements prescribed in paragraph (c)(2); and

(H) existing information or knowledge about the proposed site or an adjacent site, as approved by the secretary, to complete, supplement, or take the place of any or all elements of the site emissions characterization plan prescribed in paragraph (c)(2).

(3)(A) If the site emissions characterization plan results indicate that emissions equal or exceed the emissions thresholds, emissions limitations, or standards specified in K.A.R. 28-19-300, the person proposing to construct or modify the CAES facility shall be subject to the applicable provisions of K.A.R. 28-19-300 through 28-19-350 for obtaining a construction permit or approval before commencing construction.

(B) If the person decides to proceed with the proposed CAES facility, the person shall submit the site emissions characterization plan results with an application for a construction permit or approval to the department.

(d)(1) The owner or operator of each CAES facility operating pursuant to a permit or approval issued by the department shall conduct emissions testing once every four calendar quarters in accordance with a sampling plan approved by the secretary. A certified copy of the test results signed by the person conducting the tests shall be provided to the department not later than 60 days after the end of the calendar quarter in which the emissions testing was conducted.

(2) The owner or operator may be required by the secretary to increase test frequency if emissions test results are close to or exceed an emissions limitation or an emissions threshold specified in a permit or approval issued by the secretary to the CAES facility.

(3) Upon written request by the owner or operator, decreased or suspended emissions testing may be approved by the secretary if the source demonstrates emissions test results significantly below emissions limitations or emissions thresholds specified in a permit or approval for three consecutive years.

(e)(1) The owner or operator of each CAES facility operating pursuant to a permit or approval issued by the department shall inspect the above-ground components of each CAES well and storage facility for liquid and vapor leaks at least once each calendar quarter. The owner or operator shall visually inspect for liquid leaks and shall test for vapor leaks using test methods consistent with USEPA method 21 in 40 C.F.R. part 60, appendix A, as adopted by reference in K.A.R. 28-19-720, or an alternate method as demonstrated to the satisfaction of the secretary to be equivalent. Leak detection points to be inspected and tested shall include the following:

- (A) Valves;
- (B) flanges and other connections;
- (C) pumps and compressors;
- (D) pressure-relief devices;
- (E) process drains;
- (F) open-ended lines or valves;
- (G) seal system degassing vents and accumulator vents; and
- (H) access door seals.

(2) The owner or operator shall record the following information and keep the information

available at the CAES facility for at least five years for department inspection or for submittal upon request by the department, which may include submittal with the emissions test results specified in subsection (d):

(A) The total number and the locations of the leak detection points;

(B) the date of each inspection;

(C) the number of leak detection points inspected and the number of leaks detected for each inspection date;

(D) the location of leaks detected for each inspection date; and

(E) the date and type of each corrective action taken. (Authorized by K.S.A. 2009 Supp. 65-3005 and 66-1275; implementing K.S.A. 2009 Supp. 65-3005, K.S.A. 65-3007, 65-3008, 65-3010, and K.S.A. 2009 Supp. 66-1275; effective Nov. 29, 2010.)

28-19-350. Prevention of significant deterioration (PSD) of air quality. (a) PSD requirements. The requirements of this regulation shall apply to the construction of major stationary sources and major modifications of stationary sources as defined in 40 C.F.R. 52.21 in areas of the state designated as attainment areas or unclassified areas for any pollutant under the procedures prescribed by section 107(d) of the federal clean air act, 42 U.S.C. 7407(d).

(b) Adoption by reference; exceptions.

(1) 40 C.F.R. 52.21, as revised on July 1, 2011 and as amended by 76 fed. reg. 43507 (2011) and 77 fed. reg. 65118-65119 (2012), is adopted by reference, except as specified in paragraph (b)(2).

(2) The following provisions of the federal regulation adopted in paragraph (b)(1) are excluded from adoption:

- (A) Plan disapproval, 52.21(a)(1);
- (B) stack heights, 52.21(h);
- (C) air quality analysis, 52.21(m)(1)(v);
- (D) visibility monitoring, 52.21(o)(3);
- (E) public participation, 52.21(q);
- (F) environmental impact statements, 52.21(s);
- (G) disputed permits or redesignations, 52.21(t);
- (H) delegation of authority, 52.21(u); and
- (I) permit rescission, 52.21(w).

(c) Provisions adopted by reference; term usage. When used in any provision adopted from 40 C.F.R. 52.21, each reference to "administrator" shall mean the "secretary of health and environment or an authorized representative of the secretary," except for the following:

(1) In subsections 52.21(b)(3)(iii)(a) and 52.21(b)(48)(ii), “administrator” shall mean both the “secretary of health and environment” and the “administrator of USEPA.”

(2) In subsections 52.21(b)(17), 52.21(b)(37)(i), 52.21(b)(43), 52.21(b)(48)(ii)(c), 52.21(b)(50)(i), 52.21(b)(51), 52.21(g), 52.21(i)(6-8), 52.21(l)(2), and 52.21(m)(1)(vii -viii), “administrator” shall mean only the “administrator of USEPA.”

(d) Internal references.

The following portions of 40 C.F.R. part 51 are hereby adopted by reference:

(1) Subpart I, as revised on July 1, 2011 and as amended by 76 fed. reg. 43507 (2011) and 77 fed. reg. 65118 (2012);

(2) appendix S, as revised on July 1, 2011 and as amended by 77 fed. reg. 65118 (2012); and

(3) appendix W, as revised on July 1, 2011.

(e) Definitions. For the purposes of this regulation, the following definitions shall apply:

(1) “Act” shall mean the federal clean air act, 42 U.S.C. 7401 et seq.

(2) “Class I, II or III area” shall mean a classification assigned to any area of the state under the provisions of sections 162 and 164 of the act, 42 U.S.C. 7472 and 7474, and amendments thereto.

(3) “State” shall mean the state of Kansas, unless the context clearly indicates otherwise.

(f) Ambient air ceiling protection. In relation to ambient air ceilings, the following requirements shall apply:

(1) Except as stated in paragraph (f)(2) of this regulation, a permit shall not be issued for any new major stationary source or major modification as defined in 40 C.F.R. 52.21(b) if the source or modification will be located in an attainment area or an unclassifiable area for any national ambient air quality standard and if the source or modification would cause or contribute to a violation of any national ambient air quality standard. A major source or major modification shall be considered to cause or contribute to a violation of a national ambient air quality standard if the air quality impact of the source or modification would exceed the following levels at any locality that does not or would not meet the applicable national standard:

Pollutant	Averaging Time				
	Annual	24hrs.	8hrs.	3hrs.	1hr.
Sulphur dioxide	1.0 µg/m ³	5 µg/m ³	-----	25 µg/m ³	-----
PM ₁₀	1.0 µg/m ³	5 µg/m ³	-----	-----	-----
PM _{2.5}	0.3 µg/m ³	1.2 µg/m ³	-----	-----	-----
Nitrogen dioxide	1.0 µg/m ³	-----	-----	-----	-----
Carbon dioxide	-----	-----	0.5 mg/m ³	-----	2 mg/m ³

(2) A permit may be granted for a major stationary source or major modification as identified in paragraph (f)(1) of this regulation if the impact of the major stationary source’s or major modification’s emissions upon air quality is reduced by a sufficient amount to compensate for any adverse impact at the location where the major source or modification would otherwise cause or contribute to a violation of any national ambient air quality standard. Subsection (f) shall not apply to a major stationary source or major modification with respect to a particular pollutant if the owner or operator demonstrates that the source is located in an area that has been identified as not meeting either the national primary or secondary ambient air quality standard for that particular pollutant.

(g) Stack height requirements. K.A.R. 28-19-18 through K.A.R. 28-19-18f, regarding stack height requirements, shall apply to the sources subject to this regulation.

(h) Application required. Each application for a PSD permit shall be submitted by the owner or operator on the forms provided or approved by the department. K.A.R. 28-19-300 through K.A.R. 28-19-304, regarding construction permit and approval requirements, shall apply to the sources subject to this regulation.

(i) Impact on federal class I areas; notification required. If the emissions from any proposed major stationary source or major modification subject to this regulation will affect any air quality-related values in any federal class I area, a copy of the permit application for the source or modification shall be transmitted by the secretary or an authorized representative of the secretary to the administrator of USEPA through the appropriate regional office. The administrator, through the appropriate regional office, shall also be notified of every action taken concerning the application.

(j) Permit suspension or revocation. Any permit issued under this regulation may be suspended or revoked by the secretary upon a finding that the owner or operator has failed to comply with any requirement specified in the permit or with any other statutory or regulatory requirement. This subsection shall not be interpreted to preclude any other remedy provided by law to the secretary.

(k) Public participation requirements. In addition to the requirements of K.A.R. 28-19-204, the following public participation requirements shall be met before issuance of the permit:

(1) The public notice shall include the following:

(A) A statement specifying the portion of the applicable maximum allowable increment that is expected to be consumed by the source or modification; and

(B) a statement that the federal land manager of any adversely impacted federal class I area has the opportunity to provide the secretary with a demonstration that the emissions from the proposed source or modification will have an adverse impact on air quality-related values in the federal class I area.

(2) A copy of the public notice shall be mailed to the following:

(A) The applicant;

(B) the administrator of USEPA through the appropriate regional office;

(C) any state or local air pollution control agency having jurisdiction in the air quality control region in which the new or modified installation will be located;

(D) the chief executives of the city and county where the source will be located;

(E) any comprehensive regional land use planning agency having jurisdiction where the source will be located; and

(F) any state, federal land manager, or Indian governing body whose lands will be affected by emissions from the new construction or modification.

(3) In addition to those materials required to be available for public review at the appropriate district office or local agency, a summary analysis and discussion of those materials as they relate to establishing compliance with the requirements of this regulation shall be made available for public review.

(4) Copies of all comments received and the written determination of the secretary shall be made available for public inspection at the appropriate district office or local agency. (Authorized by K.S.A. 2011 Supp. 65-3005; implementing K.S.A. 2011 Supp. 65-3005 and K.S.A. 65-3008; effective Nov. 22, 2002; amended June 30, 2006; amended Oct. 23, 2009; amended Nov. 29, 2010; amended Dec. 28, 2012.)

28-19-516. Class I operating permits; application fees. (a) Each of the following class I operating permit applications shall be accompanied by the fee specified in this subsection:

(1) For an initial application submitted under K.A.R. 28-19-510, \$3,000.00;

(2) for a renewal application submitted under K.A.R. 28-19-514, \$3,000.00;

(3) for an application for a significant permit modification submitted under K.A.R. 28-19-513, \$1,500.00;

(4) for a general permit petition submitted under K.A.R. 28-19-401, \$2,250.00; and

(5) for a general permit application submitted under K.A.R. 28-19-403, \$750.00.

(b) Each application fee shall be remitted in the form of a check, bank draft, credit card payment, or money order made payable to the Kansas department of health and environment. All application fees shall be nonrefundable. (Authorized by K.S.A. 2017 Supp. 65-3005; implementing K.S.A. 2017 Supp. 65-3008; effective Jan. 23, 1995; amended Jan. 5, 2018.)

28-19-517. Class I operating permits; annual emissions inventory and fees. The owner or operator of each stationary source that is required to apply for a class I operating permit shall comply with this regulation.

(a) Annual emissions inventory.

(1) Each owner or operator shall submit to the department an annual emissions inventory for each stationary source for the year preceding the calendar year in which the source is required to apply for an operating permit and each year thereafter.

(2) Each annual emissions inventory shall be submitted for any regulated pollutant deemed necessary by the secretary from each emission unit, as defined in K.A.R. 28-19-200, and shall include the following:

(A) All operating information;

(B) actual emissions, including fugitive emissions, calculated pursuant to K.A.R. 28-19-210;

(C) any quantity of emissions regardless of operating hours, including sources that did not operate; and

(D) emissions from each source only while operating in Kansas, if the source operates both in Kansas and out of state.

(b) Annual emissions fee.

(1) Each owner or operator shall submit to the department an annual emissions fee based on the annual emissions inventory determined under subsection (a). Annual emissions fees shall be the greater of the following:

(A) \$1,000.00; or

(B) \$53.00 per ton of emissions multiplied by the total number of tons of emissions, with a maximum of 4,000 tons of each of the following pollutants rounded to the nearest ton:

(i) Sulfur dioxide;
(ii) nitrogen oxides;
(iii) PM10;
(iv) volatile organic compounds (VOCs); and
(v) hazardous air pollutants (HAPs), excluding HAPs already accounted for as VOCs or PM10.

(2) Each owner or operator shall make annual emissions fee payments by check, bank draft, credit card, or money order payable to the Kansas department of health and environment.

(c) Submittal.

(1) Each annual emissions inventory determined under subsection (a) and each annual emissions fee determined under subsection (b) shall be submitted on forms provided by the department, using either of the following:

(A) An electronic inventory submission; or

(B) a paper inventory submission, including a fee of \$250.00 for each paper inventory submittal and \$10.00 for each single-sided page.

(2) Each submission shall be signed by a responsible official, as defined in K.A.R. 28-19-200, and shall be due on or before April 1 of each year or, if April 1 is a Saturday or Sunday, on or before the next business day following April 1.

(3) If there is a change in the owner or operator of the stationary source, the owner or operator at the time the submission is due shall be responsible for submitting the annual emissions inventory and fee payment. For purposes of determining the annual emissions inventory required by subsection (a) for any period in which there was any other owner or operator of the stationary source, the owner or operator may assume current operating and emission information if the owner or operator is unable to obtain actual information from any previous owner or operator.

(d) Late fee and refund.

(1) Each owner or operator who fails to submit the annual emissions inventory and pay the annual emissions fee by the due date specified in subsection (c) shall pay a late fee. The late fee shall be \$200.00 per day or 0.10 percent of the annual emissions fee per day, whichever is greater.

(2) Any overpayment of \$100.00 or more made by the owner or operator of a stationary source may be refunded. Overpayments in any amount less than \$100.00 shall not be refunded. (Authorized by K.S.A. 2017 Supp. 65-3005 and 65-3024; implementing K.S.A. 65-3007 and K.S.A. 2017 Supp. 65-3024; effective Jan. 23, 1995; amended Feb. 20, 1998; amended Sept. 23, 2005; amended Nov. 5, 2010; amended Jan. 5, 2018.)

28-19-645a. Restrictions on open burning operations for certain counties during the month of April. This regulation shall supersede K.A.R. 28-19-645 during the month of April for the counties listed in subsection (a) below.

(a) A person shall not cause or permit open burning operations of any waste, including vegetation and wood waste, structures, or any other materials on any premises during the month of April in Butler, Chase, Chautauqua, Cowley, Elk, Geary, Greenwood, Johnson, Lyon, Marion, Morris, Pottawatomie, Riley, Sedgwick, Wabaunsee, and Wyandotte counties, except as authorized by subsections (b) through (d).

(b) The following activities shall be exempt from the prohibition in subsection (a):

(1) Open burning operations for the purpose of range or pasture management and conservation reserve program (CRP) burning activities meeting the requirements in K.A.R. 28-19-648 (a)(1) through (a)(4); and

(2) open burning operations listed in K.A.R. 28-19-647 (a)(1) and (a)(2).

(c) A person may obtain approval by the secretary to conduct an open burning operation that is not otherwise exempt if the conditions and requirements of the following are met:

(1) K.A.R. 28-19-647 (b)(1) through (b)(3); and

(2) K.A.R. 28-19-647 (d) and (e).

(d) Open burning operations that shall require approval by the secretary and are deemed necessary and in the public interest shall include the open burning operations listed in K.A.R. 28-19-647 (c)(1) through (c)(3).

(e) In Johnson, Wyandotte, and Sedgwick counties, the open burning operations listed in K.A.R. 28-19-647 (c)(4) and (c)(5) shall require approval by the local authority.

(f) Nothing in this regulation shall restrict the authority of local jurisdictions to adopt more restrictive ordinances or resolutions governing agricultural open burning operations. (Authorized by K.S.A. 2010 Supp. 65-3005; implementing K.S.A. 2010 Supp. 65-3005 and K.S.A. 65-3010; effective, T-28-3-1-11, March 1, 2011; effective Sept. 9, 2011.)

28-19-712. Definitions. The following terms shall apply to K.A.R. 28-19-712 through K.A.R. 28-19-712d.

(a) "Auxiliary power unit" means an integrated system that provides heat, air conditioning, engine warming, or electricity to components of a

heavy-duty diesel vehicle and is certified by the administrator of the USEPA under 40 C.F.R. part 89 as meeting applicable emission standards.

(b) "Commercial vehicle" means any motor vehicle, other than a passenger vehicle, and any trailer, semitrailer, or pole trailer drawn by the motor vehicle that is designed, used, and maintained for the transportation of persons or property for hire, compensation, or profit or in the furtherance of a commercial enterprise.

(c) "Gross vehicle weight rating" means the weight specified by the manufacturer as the loaded weight of a single vehicle.

(d) "Heavy-duty diesel vehicle" means any motor vehicle that meets the following conditions:

(1) Has a gross vehicle weight rating of more than 14,001 pounds;

(2) is powered by a diesel engine; and

(3) is designed primarily for transporting persons or property on a public street or highway.

(e) "Idling" means the operation of an engine in the operating mode during either of the following situations:

(1) When the engine is not in gear; or

(2) when the engine operates at the revolutions per minute specified by the engine or vehicle manufacturer, the accelerator is fully released, and there is no load on the engine.

(f) "Institutional vehicle" means any motor vehicle, other than a passenger vehicle, and any trailer, semitrailer, or pole trailer drawn by the motor vehicle that is designed, used, and maintained for the transportation of persons or property for an organization, establishment, foundation, or society.

(g) "Load or unload location" means any site where a driver idles a heavy-duty diesel vehicle while waiting to load or unload. This term shall include the following:

(1) Distribution centers;

(2) warehouses;

(3) retail stores;

(4) railroad facilities; and

(5) ports.

(h) "Passenger vehicle" means any motor vehicle designed for carrying not more than 10 passengers and used for the transportation of persons.

(i) "Public vehicle" means any motor vehicle, other than a passenger vehicle, and any trailer, semitrailer, or pole trailer drawn by the motor vehicle that is designed, used, and maintained for the transportation of persons or property at the public expense and under public control. (Autho-

rized by K.S.A. 2009 Supp. 65-3005; implementing K.S.A. 65-3010; effective June 25, 2010.)

28-19-712a. Applicability. K.A.R. 28-19-712 through K.A.R. 28-19-712d shall apply only in Johnson and Wyandotte counties to any person who owns or operates either of the following:

(a) Any heavy-duty diesel vehicle that is also a commercial vehicle, institutional vehicle, or public vehicle; or

(b) any load or unload location. (Authorized by K.S.A. 2009 Supp. 65-3005; implementing K.S.A. 65-3010; effective June 25, 2010.)

28-19-712b. General requirement for heavy-duty diesel vehicles. No person who owns or operates a heavy-duty diesel vehicle specified in K.A.R. 28-19-712a(a) shall cause that vehicle to idle for more than five minutes in any 60-minute period, except as provided in K.A.R. 28-19-712c and K.A.R. 28-19-712d. (Authorized by K.S.A. 2009 Supp. 65-3005; implementing K.S.A. 65-3010; effective June 25, 2010.)

28-19-712c. General requirement for load or unload locations. No person who owns or operates a load or unload location for freight shall cause any heavy-duty diesel vehicle that is also a commercial vehicle to idle for a period longer than 30 minutes in any 60-minute period while waiting to load or unload at that location. (Authorized by K.S.A. 2009 Supp. 65-3005; implementing K.S.A. 65-3010; effective June 25, 2010.)

28-19-712d. Exemptions. K.A.R. 28-19-712b shall not apply to the following:

(a) Any heavy-duty diesel vehicle specified in K.A.R. 28-19-712a(a) that idles in any of the following conditions:

(1) While forced to remain motionless because of road traffic or an official traffic control device or signal or at the direction of a law enforcement official;

(2) when operating defrosters, heaters, air conditioners, safety lights, or other equipment solely for safety or health reasons and not as part of a rest period;

(3) during a state or federal inspection to verify that all equipment is in good working order, if idling is required as part of the inspection; or

(4) during mechanical difficulties over which the driver has no control;

(b) a police, fire, ambulance, military, utility, emergency, or law enforcement vehicle or any vehicle being used in an emergency capacity that

idles while in an emergency or training mode and not for the convenience of the vehicle operator;

(c) an armored vehicle that idles when a person remains inside the vehicle to guard the contents or while the vehicle is being loaded or unloaded;

(d) an occupied vehicle with a sleeper berth compartment that idles for purposes of air conditioning or heating during government-mandated rest periods;

(e) a vehicle that is used exclusively for agricultural operations and only incidentally operated or moved upon the highway;

(f) a primary propulsion engine that idles for maintenance, servicing, repairing, or diagnostic purposes if idling is necessary for the activity;

(g) a primary propulsion engine that idles when necessary to power mechanical or electrical operations other than propulsion, including mixing, refrigerating, or processing cargo, or the operation of a hydraulic lift. This exemption shall not apply when idling for cabin comfort or operating nonessential onboard equipment;

(h) an auxiliary power unit or generator that is operated as an alternative to idling the main engine; and

(i) a bus that is also a commercial vehicle, institutional vehicle, or public vehicle that idles a maximum of 15 minutes in any 60-minute period to maintain passenger comfort while nondriver passengers are on board. (Authorized by K.S.A. 2009 Supp. 65-3005; implementing K.S.A. 65-3010; effective June 25, 2010.)

28-19-713. Applicability. K.A.R. 28-19-713 through K.A.R. 28-19-713d shall apply to the owner or operator of each stationary source located in Wyandotte or Johnson county that annually emits at least 1,000 tons of nitrogen oxides from the entire facility, based on an average of the total emissions for the 2005, 2006, and 2007 calendar years. The total emissions shall be the sum of the actual emissions and the potential-to-emit emissions for each calendar year. The actual emissions shall be calculated pursuant to K.A.R. 28-19-210. If the actual emissions are more than 1,000 tons of nitrogen oxides for each calendar year, the potential-to-emit emissions may be excluded from the total emissions calculation. The potential-to-emit emissions shall be used for periods exceeding two weeks of operational inactivity due to maintenance, construction, or modification. (Authorized by K.S.A. 2009 Supp. 65-3005; implementing K.S.A. 65-3010; effective June 25, 2010.)

28-19-713a. Emission limitation requirements. No owner or operator subject to K.A.R. 28-19-713 shall allow any emission unit to emit nitrogen oxides in excess of the following emission limitations based on a 30-day rolling average:

(a) From electric generating units, for the purposes of K.A.R. 28-19-713 through K.A.R. 28-19-713d, the following:

(1) 0.26 pounds per million British thermal units (lbs/MMBtu) for unit 1, a turbo wall-fired Riley Stoker boiler located at the Nearman Creek power station in Kansas City, Kansas; and

(2) 0.20 lbs/MMBtu for unit 2, a wall-fired Riley Stoker boiler located at the Quindaro power station in Kansas City, Kansas; and

(b) from flat glass furnaces, 7.0 pounds per ton of glass produced. (Authorized by K.S.A. 2009 Supp. 65-3005; implementing K.S.A. 65-3010; effective June 25, 2010.)

28-19-713b. Alternate emissions limit. Each owner or operator of an emission unit subject to an emissions limit for nitrogen oxides specified in K.A.R. 28-19-713a(a) that is also subject to a more stringent Kansas or USEPA emissions limit for nitrogen oxides shall comply with the more stringent emissions limit for that emission unit. (Authorized by K.S.A. 2009 Supp. 65-3005; implementing K.S.A. 65-3010; effective June 25, 2010.)

28-19-713c. Control measures and equipment. Each owner or operator of any emission unit subject to an emissions limit specified in K.A.R. 28-19-713a or K.A.R. 28-19-713b shall implement control measures and install, operate, and maintain equipment necessary to achieve these limits no later than 18 months after the effective date of this regulation. (Authorized by K.S.A. 2009 Supp. 65-3005; implementing K.S.A. 65-3010; effective June 25, 2010.)

28-19-713d. Compliance demonstration, monitoring, and reporting requirements. No later than 24 months after the effective date of this regulation, each owner or operator of any emission unit subject to the nitrogen oxide emission limits specified in K.A.R. 28-19-713a or K.A.R. 28-19-713b shall meet the following requirements:

(a) Demonstrate compliance with the applicable emissions limit by performing an emissions test in accordance with 40 C.F.R. 60.8, as adopted by reference in K.A.R. 28-19-720, and either of the following:

(1) Test method 7, 7A, 7C, 7D, or 7E in appendix A-4 to 40 C.F.R. part 60, as adopted by reference in K.A.R. 28-19-720; or

(2) any other USEPA test method approved by the department;

(b) ensure continuous compliance with the applicable emissions limit by installing, calibrating, maintaining, and operating a continuous emission monitoring system (CEMS) for nitrogen oxides that meets the requirements of 40 C.F.R. 60.13 and performance specification 2 in appendix B to 40 C.F.R. part 60, as adopted by reference in K.A.R. 28-19-720;

(c) certify the CEMS at least three months before the compliance demonstration required by subsection (a) pursuant to either of the following:

(1) The quality assurance procedures in appendix F to 40 C.F.R. part 60, as adopted by reference in K.A.R. 28-19-720; or

(2) an equivalent quality assurance procedure approved by the department; and

(d) document compliance by continuously monitoring and maintaining records of nitrogen oxide emissions. (Authorized by K.S.A. 2009 Supp. 65-3005; implementing K.S.A. 65-3010; effective June 25, 2010.)

28-19-720. New source performance standards. (a)(1) 40 C.F.R. part 60 and its appendices, as revised on July 1, 2010 and as amended by 76 fed. reg. 10524 (2011), 76 fed. reg. 37967-37977 (2011), and 78 fed. reg. 6695-6700 (2013), are adopted by reference except for the following:

(A) Subpart CCCC;

(B) provisions that are not delegable by the USEPA to the state or for which only the USEPA administrator retains authority, including the subparts, sections, and paragraphs containing any of the following:

(i) Alternative methods of compliance approvable only by the USEPA administrator;

(ii) emission guidelines;

(iii) delegation of authority;

(iv) hearing and appeal procedures;

(v) requirements regulating any stationary source located outside of Kansas; or

(vi) requirements regulating any geographic area located outside of Kansas; and

(C) provisions no longer in effect on the effective date of this regulation.

(2) Subpart CCCC in 40 C.F.R. part 60, as in effect on July 1, 2005, is adopted by reference, except for the following:

(A) Provisions that are not delegable by the USEPA to the state or for which only the USEPA administrator retains authority, including the sections and paragraphs containing alternative methods of compliance approvable only by the USEPA administrator; and

(B) provisions no longer in effect on the effective date of this regulation.

(b) The definitions adopted by reference in subsection (a) shall apply only to this regulation. Unless the context clearly indicates otherwise, the following meanings shall be given to these terms as they appear in the portions of 40 C.F.R. part 60 adopted by reference in subsection (a):

(1) The term “administrator” shall mean the secretary or the secretary’s authorized representative.

(2) The term “United States environmental protection agency” and any term referring to the United States environmental protection agency shall mean the department.

(3) The term “state” shall mean the state of Kansas.

(c) The owner or operator of each source that is subject to this regulation shall submit to the department any required annual reports specified in 40 C.F.R. part 60 within 180 days of the last day of the year for which the report is required, unless the owner or operator is required in this article to submit annual reports on a different schedule. (Authorized by K.S.A. 2014 Supp. 65-3005; implementing K.S.A. 2014 Supp. 65-3008 and K.S.A. 65-3010; effective Jan. 23, 1995; amended June 6, 1997; amended June 11, 1999; amended Dec. 3, 2004; amended June 15, 2007; amended Nov. 5, 2010; amended Nov. 14, 2014.)

28-19-728 through 28-19-728e. (Authorized by K.S.A. 2006 Supp. 65-3005; implementing K.S.A. 65-3010; effective June 15, 2007; revoked Nov. 5, 2010.)

28-19-728f. (Authorized by K.S.A. 2006 Supp. 65-3005 and K.S.A. 65-3007; implementing K.S.A. 65-3007 and 65-3010; effective June 15, 2007; revoked Nov. 5, 2010.)

28-19-735. National emission standards for hazardous air pollutants. (a) 40 C.F.R. part 61 and its appendices, as in effect on July 1, 2010, are adopted by reference except for the following:

(1) The following sections in subpart A:

(A) 61.04;

(B) 61.16; and

(C) 61.17;

- (2) subpart B;
- (3) subpart H;
- (4) subpart I;
- (5) subpart K;
- (6) subpart Q;
- (7) subpart R;
- (8) subpart T; and
- (9) subpart W.

(b) Unless the context clearly indicates otherwise, the following meanings shall be given to these terms as they appear in 40 C.F.R. part 61:

(1) The term “administrator” shall mean the secretary or the secretary’s authorized representative.

(2) The term “United States environmental protection agency” and any term referring to the United States environmental protection agency shall mean the department.

(3) The term “state” shall mean the state of Kansas. (Authorized by K.S.A. 2011 Supp. 65-3005; implementing K.S.A. 65-3008 and 65-3010; effective Jan. 23, 1995; amended June 6, 1997; amended June 11, 1999; amended Dec. 3, 2004; amended June 15, 2007; amended Nov. 5, 2010; amended Dec. 28, 2012.)

28-19-750. Hazardous air pollutants; maximum achievable control technology. (a) 40 C.F.R. part 63 and its appendices, as in effect on July 1, 2010, are adopted by reference, except for the following:

(1) The following sections in subpart A:

(A) 63.6(f)(1), (g), (h)(1), and (h)(9);

(B) 63.7(e)(2)(ii) and (f);

(C) 63.8(f);

(D) 63.10(f);

(E) 63.12;

(F) 63.13;

(G) in 63.14(b)(27), the phrase “and table 5 to subpart DDDDD of this part”;

(H) 63.14(b)(35), (39) through (53), and (55) through (62);

(I) in 63.14(i)(1), the phrase “table 5 to subpart DDDDD of this part”; and

(J) 63.15;

(2) subpart B;

(3) subpart C;

(4) subpart D;

(5) subpart E;

(6) subpart ZZZZ;

(7) subpart DDDDD;

(8) subpart JJJJJ; and

(9) subpart KKKKK.

(b) 40 C.F.R. part 63, subpart ZZZZ, as in effect

on July 1, 2012 and as amended by 78 fed. reg. 6700-6724 (2013) and 78 fed. reg. 14457 (2013), is adopted by reference.

(c) Unless the context clearly indicates otherwise, the following meanings shall be given to these terms as they appear in the portions of 40 C.F.R. part 63 adopted by reference in this regulation:

(1) The term “administrator” shall mean the secretary or the secretary’s authorized representative.

(2) The term “United States environmental protection agency” and any term referring to the United States environmental protection agency shall mean the department.

(3) The term “state” shall mean the state of Kansas. (Authorized by K.S.A. 2014 Supp. 65-3005; implementing K.S.A. 2014 Supp. 65-3008 and K.S.A. 65-3010; effective Jan. 23, 1995; amended June 6, 1997; amended June 11, 1999; amended Dec. 3, 2004; amended June 15, 2007; amended Nov. 5, 2010; amended Dec. 28, 2012; amended Nov. 14, 2014.)

28-19-750a. Consolidated federal air regulations; synthetic organic chemical manufacturing industry. (a) 40 C.F.R. part 65 and its appendices, as in effect on July 1, 2010, are adopted by reference except for the following sections in subpart A:

(1) 65.9;

(2) 65.10; and

(3) 65.14.

(b) Unless the context clearly indicates otherwise, the following meanings shall be given to these terms as they appear in 40 C.F.R. part 65:

(1) The term “administrator” shall mean the secretary or the secretary’s authorized representative.

(2) The term “United States environmental protection agency” and any term referring to the United States environmental protection agency shall mean the department.

(3) The term “state” shall mean the state of Kansas. (Authorized by K.S.A. 2011 Supp. 65-3005; implementing K.S.A. 65-3008 and 65-3010; effective Dec. 3, 2004; amended Nov. 5, 2010; amended Dec. 28, 2012.)

Article 21.—FOOD, DRUGS AND COSMETICS

28-21-1. (Authorized by K.S.A. 1965 Supp. 65-673; effective Jan. 1, 1966; revoked June 4, 2010.)

28-21-2. (Authorized by K.S.A. 1965 Supp. 65-673; effective Jan. 1, 1966; revoked Feb. 8, 2013.)

28-21-4 and 28-21-5. (Authorized by K.S.A. 1965 Supp. 65-673; effective Jan. 1, 1966; revoked Feb. 8, 2013.)

28-21-6. (Authorized by K.S.A. 65-665 (e), K.S.A. 1965 Supp. 65-673; effective Jan. 1, 1966; revoked June 4, 2010.)

28-21-7. (Authorized by K.S.A. 1965 Supp. 65-673; effective Jan. 1, 1966; revoked June 4, 2010.)

28-21-8. (Authorized by K.S.A. 65-663, K.S.A. 1965 Supp. 65-673; effective Jan. 1, 1966; revoked June 4, 2010.)

28-21-9. (Authorized by K.S.A. 65-665 (i) (2), K.S.A. 1965 Supp. 65-673; effective Jan. 1, 1966; revoked June 4, 2010.)

28-21-10. (Authorized by K.S.A. 65-665 (j), K.S.A. 1965 Supp. 65-673; effective Jan. 1, 1966; revoked June 4, 2010.)

28-21-11. (Authorized by K.S.A. 65-665 (k), K.S.A. 1965 Supp. 65-673; effective Jan. 1, 1966; revoked June 4, 2010.)

28-21-20a. (Authorized by K.S.A. 1979 Supp. 65-663; effective May 1, 1980; revoked June 4, 2010.)

28-21-21a. (Authorized by K.S.A. 1979 Supp. 65-663; effective May 1, 1980; revoked June 4, 2010.)

28-21-22a. (Authorized by K.S.A. 1979 Supp. 65-663; effective May 1, 1980; revoked June 4, 2010.)

28-21-23a. (Authorized by K.S.A. 1979 Supp. 65-663; effective May 1, 1980; revoked June 4, 2010.)

28-21-24a. (Authorized by K.S.A. 1979 Supp. 65-663; effective May 1, 1980; revoked June 4, 2010.)

28-21-25a. (Authorized by K.S.A. 1979 Supp. 65-663; effective May 1, 1980; revoked June 4, 2010.)

28-21-26a. (Authorized by K.S.A. 1979 Supp. 65-663; effective May 1, 1980; revoked June 4, 2010.)

28-21-27a. (Authorized by K.S.A. 1979 Supp. 65-663; effective May 1, 1980; revoked June 4, 2010.)

28-21-28a. (Authorized by K.S.A. 1979 Supp. 65-663; effective May 1, 1980; revoked June 4, 2010.)

28-21-29a. (Authorized by K.S.A. 1979 Supp. 65-663; effective May 1, 1980; revoked June 4, 2010.)

28-21-30a. (Authorized by K.S.A. 1979 Supp. 65-663; effective May 1, 1980; revoked June 4, 2010.)

28-21-31a. (Authorized by K.S.A. 1979 Supp. 65-663; effective May 1, 1980; revoked June 4, 2010.)

28-21-32a. (Authorized by K.S.A. 1979 Supp. 65-663; effective May 1, 1980; revoked June 4, 2010.)

28-21-33a. (Authorized by K.S.A. 1979 Supp. 65-663; effective May 1, 1980; revoked June 4, 2010.)

28-21-34a. (Authorized by K.S.A. 1979 Supp. 65-663; effective May 1, 1980; revoked June 4, 2010.)

28-21-35a. (Authorized by K.S.A. 1979 Supp. 65-663; effective May 1, 1980; revoked June 4, 2010.)

28-21-40a. (Authorized by K.S.A. 1979 Supp. 65-663; effective May 1, 1980; revoked June 4, 2010.)

28-21-41a. (Authorized by K.S.A. 1979 Supp. 65-663; effective May 1, 1980; revoked June 4, 2010.)

28-21-42a. (Authorized by K.S.A. 1979 Supp. 65-663; effective May 1, 1980; revoked June 4, 2010.)

28-21-43a. (Authorized by K.S.A. 1979 Supp. 65-663; effective May 1, 1980; revoked June 4, 2010.)

28-21-44a. (Authorized by K.S.A. 1979 Supp. 65-663; effective May 1, 1980; revoked June 4, 2010.)

28-21-50a. (Authorized by K.S.A. 1979 Supp. 65-663; effective May 1, 1980; revoked June 4, 2010.)

28-21-51a. (Authorized by K.S.A. 1979 Supp. 65-663; effective May 1, 1980; revoked June 4, 2010.)

28-21-52a. (Authorized by K.S.A. 1979 Supp. 65-663; effective May 1, 1980; revoked June 4, 2010.)

28-21-53a. (Authorized by K.S.A. 1979 Supp. 65-663; effective May 1, 1980; revoked June 4, 2010.)

28-21-54a. (Authorized by K.S.A. 1979 Supp. 65-663; effective May 1, 1980; revoked June 4, 2010.)

28-21-55a. (Authorized by K.S.A. 1979 Supp. 65-663; effective May 1, 1980; revoked June 4, 2010.)

28-21-56a. (Authorized by K.S.A. 1979 Supp. 65-663; effective May 1, 1980; revoked June 4, 2010.)

28-21-60a. (Authorized by K.S.A. 1979 Supp. 65-663; effective May 1, 1980; revoked June 4, 2010.)

28-21-61a. (Authorized by K.S.A. 1979 Supp. 65-663; effective May 1, 1980; revoked June 4, 2010.)

28-21-62a. (Authorized by K.S.A. 1979 Supp. 65-663; effective May 1, 1980; revoked June 4, 2010.)

28-21-63 and 28-21-64. (Authorized by K.S.A. 1979 Supp. 65-663; effective May 1, 1980; revoked June 4, 2010.)

28-21-70a. (Authorized by K.S.A. 1979 Supp. 65-663; effective May 1, 1980; revoked June 4, 2010.)

28-21-71a. (Authorized by K.S.A. 1979 Supp. 65-663; effective May 1, 1980; revoked June 4, 2010.)

28-21-72a. (Authorized by K.S.A. 1979 Supp. 65-663; effective May 1, 1980; revoked June 4, 2010.)

28-21-82 through 28-21-85. (Authorized by K.S.A. 65-663, K.S.A. 1972 Supp. 65-673; effective Jan. 1, 1973; revoked June 4, 2010.)

Article 23.—SANITATION; FOOD AND DRUG ESTABLISHMENTS

28-23-1 through 28-23-3. (Authorized by K.S.A. 1965 Supp. 65-626; effective Jan. 1, 1966; revoked Feb. 8, 2013.)

28-23-4. (Authorized by K.S.A. 1965 Supp. 65-626; effective Jan. 1, 1966; revoked June 4, 2010.)

28-23-6. (Authorized by K.S.A. 65-625, K.S.A. 1979 Supp. 65-626; effective Jan. 1, 1966; amended May 1, 1980; revoked Feb. 8, 2013.)

28-23-7. (Authorized by K.S.A. 1965 Supp. 65-626; effective Jan. 1, 1966; revoked Feb. 8, 2013.)

28-23-9. (Authorized by K.S.A. 65-625, K.S.A. 1979 Supp. 65-626; effective Jan. 1, 1966; amended May 1, 1980; revoked June 4, 2010.)

28-23-10. (Authorized by K.S.A. 1965 Supp. 65-626; effective Jan. 1, 1966; revoked June 4, 2010.)

28-23-11 through 28-23-13. (Authorized by K.S.A. 1965 Supp. 65-626; effective Jan. 1, 1966; revoked Feb. 8, 2013.)

28-23-20 through 28-23-24. (Authorized by K.S.A. 1965 Supp. 65-626; effective Jan. 1, 1966; revoked June 4, 2010.)

28-23-26 through 28-23-32. (Authorized by K.S.A. 1965 Supp. 65-626; effective Jan. 1, 1966; revoked June 4, 2010.)

28-23-34 through 28-23-36. (Authorized by K.S.A. 1965 Supp. 65-626; effective Jan. 1, 1966; revoked June 4, 2010.)

28-23-41. (Authorized by K.S.A. 65-663, K.S.A. 1968 Supp. 65-673; effective Jan. 1, 1969; revoked June 4, 2010.)

28-23-42 through 28-23-55. (Authorized by K.S.A. 1965 Supp. 65-626; effective Jan. 1, 1966; revoked June 4, 2010.)

28-23-70 and 28-23-71. (Authorized by K.S.A. 1965 Supp. 65-626; effective Jan. 1, 1966; revoked June 4, 2010.)

28-23-73. (Authorized by K.S.A. 1965 Supp. 65-626; effective Jan. 1, 1966; revoked June 4, 2010.)

28-23-75. (Authorized by K.S.A. 1965 Supp. 65-626; effective Jan. 1, 1966; revoked June 4, 2010.)

28-23-78 through 28-23-80. (Authorized by K.S.A. 1965 Supp. 65-626; effective Jan. 1, 1966; revoked June 4, 2010.)

Article 29.—SOLID WASTE MANAGEMENT

28-29-1a. Modification of obsolete references and text. The following modifications shall be made to article 29:

(a) In K.A.R. 28-29-23(t), “K.A.R. 28-31-3” shall be replaced with “K.A.R. 28-31-261.”

(b) In K.A.R. 28-29-23a(c)(8), the phrase “K.A.R. 28-31-3 and K.A.R. 28-29-4” shall be replaced with “K.A.R. 28-31-261.”

(c) In K.A.R. 28-29-27(g)(3), “K.A.R. 28-31-9” shall be replaced with “K.A.R. 28-31-270.”

(d) In K.A.R. 28-29-102, the following modifications shall be made:

(1) In paragraph (l)(2)(A), “K.A.R. 28-15-11” shall be replaced with “K.A.R. 28-16-28b(fff).”

(2) In paragraph (l)(2)(B), “K.A.R. 28-15-11” shall be replaced with “K.S.A. 65-162a, and amendments thereto.”

(e) In K.A.R. 28-29-108, the following modifications shall be made:

(1) In subsection (a), the phrase “K.A.R. 28-31-3 and K.A.R. 28-31-4” shall be replaced with “K.A.R. 28-31-261.”

(2) In paragraph (h)(1), “K.A.R. 28-19-47” shall be replaced with “K.A.R. 28-19-647.”

(f) In K.A.R. 28-29-109(b)(6) and (7)(B)(i), “K.A.R. 28-31-3” shall be replaced with “K.A.R. 28-31-261.”

(g) In K.A.R. 28-29-300(a)(5), “K.A.R. 28-31-4” shall be replaced with “K.A.R. 28-31-261.”

(h) In K.A.R. 28-29-1100, the following modifications shall be made:

(1) In paragraph (b)(1), “K.A.R. 28-31-4 (b)” shall be replaced with “K.A.R. 28-31-261.”

(2) In paragraph (b)(3), the following modifications shall be made:

(A) “ ‘Small quantity generator’ ” shall be replaced with “ ‘Conditionally exempt small quantity generator.’ ”

(B) “K.A.R. 28-31-2” shall be replaced with “K.A.R. 28-31-260a.”

(3) In paragraph (b)(4), the phrase “defined by the United States department of transportation and adopted by reference in K.A.R. 28-31-4 (e)” shall be replaced with “as listed in 49 CFR 173.2, as in effect on October 1, 2009, which is hereby adopted by reference.”

(4) In subsection (c), each occurrence of the term “K.A.R. 28-31-16” shall be replaced with “K.A.R. 28-31-279 and K.A.R. 28-31-279a.”

(5) In subsection (d), “[s]mall quantity generator” shall be replaced with “Conditionally exempt small quantity generator.”

(6) In subsections (d) and (e), each occurrence of the term “SQG” shall be replaced with “CESQG.”

(i) In K.A.R. 28-29-1102, the following modifications shall be made:

(1) Paragraphs (b)(2)(C), (b)(2)(C)(i), and (b)(2)(C)(ii) shall be replaced with the following text: “All HHW that is transferred for treatment, storage, or disposal shall be manifested as hazardous waste. All applicable hazardous waste codes for each waste shall be listed on the manifest, using all available information. HHW facilities shall not be required to submit samples for laboratory testing in order to determine hazardous waste codes.”

(2) In paragraph (b)(2)(D), “K.A.R. 28-31-14” shall be replaced with “K.A.R. 28-31-268.”

(3) Paragraph (b)(2)(E) shall be replaced with the following text: “All HHW that is transferred for treatment, storage, or disposal shall be prepared for transportation off-site as hazardous waste.”

(4) In paragraph (b)(2)(F)(i), “K.A.R. 28-31-15” shall be replaced with “K.A.R. 28-31-273.”

(j) In K.A.R. 28-29-1103(c), the phrase “meeting the USDOT manufacturing and testing specifications for transportation of hazardous materials, as adopted by reference in K.A.R. 28-31-4 (e)” shall be replaced with “that are compatible with the waste.”

(k) In K.A.R. 28-29-1107(a)(2)(D), “small quantity generator” shall be replaced with “conditionally exempt small quantity generator.” (Authorized by and implementing K.S.A. 65-3406; effective Nov. 28, 2011.)

28-29-109. Special waste. (a) Disposal of special waste. Any person may dispose of special waste, as defined in K.A.R. 28-29-3, if all of the following conditions are met.

(1) The person disposes of the special waste at a permitted municipal solid waste landfill (MSWLF).

(2) A special waste disposal authorization for the special waste has been issued by the department in accordance with subsections (b) and (c).

(3) All the conditions of subsections (d) through (g) are met.

(b) Request for a special waste disposal authorization. Each person requesting a special waste disposal authorization shall provide the following information to the department:

(1) A description of the waste, including the following information:

- (A) The type of waste;
- (B) the process that produced the waste;
- (C) the physical characteristics of the waste;
- (D) the quantity of waste to be disposed of; and
- (E) the location of the waste generation site, if different from the generator's address;

(2) the following information for the generator of the waste:

- (A) The contact person's name;
- (B) the contact person's address;
- (C) the contact person's telephone number;
- (D) the contact person's electronic mail address, if there is one; and
- (E) the name of the business, if the generator is a business;

(3) the following information for the person requesting the special waste disposal authorization:

- (A) The contact person's name;
- (B) the contact person's address;
- (C) the contact person's telephone number; and
- (D) the contact person's electronic mail address, if there is one; and
- (E) the name of the business, if the request is being made on behalf of a business;

(4) the name and address of each solid waste transfer station proposed for transfer of the waste;

(5) the name and address of the MSWLF proposed for disposal of the waste;

(6) a statement, signed by the generator of the waste or an agent of the generator, that the waste is not a listed hazardous waste and is not a waste that exhibits the characteristics of a hazardous waste specified in K.A.R. 28-31-261, based on knowledge of the process generating the waste, laboratory analyses, or both; and

(7) each laboratory analysis that has been performed to determine if the waste is a listed hazardous waste or is a waste that exhibits the characteristics of a hazardous waste. The person requesting a special waste disposal authorization shall ensure that the following requirements are met:

(A) Each analysis shall be performed and reported by a laboratory that has departmental certification, if this certification is available, for that analysis;

(B) each analytical laboratory report shall include the following:

(i) Each analysis required to make a determination of hazardous waste characteristics as specified in K.A.R. 28-31-261;

(ii) all additional analyses specified by the department;

(iii) quality control data; and

(iv) a copy of the chain of custody;

(C) the generator shall provide a signed statement for each analytical laboratory report stating that the analytical results are representative of the waste; and

(D) if the waste is an unused or spilled product and the waste has not been combined with any substance other than an absorbent, the generator may submit a material safety data sheet for the waste in lieu of laboratory analyses.

(c) Issuance of special waste disposal authorizations.

(1) Not later than 10 working days after the department receives a request for a special waste disposal authorization, the person making the request shall be notified by the department of one of the following determinations:

(A) The request for a special waste disposal authorization is not complete.

(B) The waste does not require a special waste disposal authorization for disposal in an MSWLF.

(C) The waste is a special waste, and the request for a special waste disposal authorization is approved.

(D) The waste is a hazardous waste, and the request for a special waste disposal authorization is denied. The denial notification shall include the reason for denial.

(2) If a special waste is authorized for disposal, a written special waste disposal authorization stating the terms for transportation and disposal of the special waste shall be provided by the department to all of the following persons:

(A) The person requesting the special waste disposal authorization, the generator of the waste, or both;

(B) the owner or operator of each solid waste transfer station proposed for transfer of the solid waste; and

(C) the owner or operator of the MSWLF proposed for disposal of the special waste.

(3) A special waste disposal authorization shall not obligate the owner or operator of any MSWLF or solid waste transfer station to accept the special waste.

(d) Petroleum-contaminated soil (PCS). Sampling and analysis requirements and procedures for soil, which could contain debris, contaminated with petroleum products shall include the following:

(1) The generator of the PCS shall collect at least one representative sample for analysis from the first 300 cubic yards of PCS. If the analytical data from the first sample shows that the PCS is not hazardous, the generator shall collect one representative sample for analysis from each 500 cubic yards of PCS after that first sample.

(2) The generator may be required by the secretary to collect additional samples.

(3) The generator may deviate from the required frequency of sampling schedule with written approval from the secretary. The generator shall submit a written sampling plan and an explanation for the deviation from the required sampling schedule to the secretary for review and approval.

(4) The generator shall have each sample analyzed for each the following constituents:

(A) 1,2-dichloroethane;

(B) benzene; and

(C) if required by the department, lead and any other constituent likely to be present in the PCS.

(e) Generator requirements for transfer of special wastes. Each generator of special waste or the agent of the generator shall, before transfer of the special waste, provide the transporter with a copy of the special waste disposal authorization for each load of special waste.

(f) Transporter requirements for transfer and disposal of special wastes. Before transfer or disposal of special waste, each transporter of special waste shall provide notification of each load of special waste to both of the following persons:

(1) The owner or operator of each solid waste transfer station involved in the transport of the special waste; and

(2) the owner or operator of the MSWLF at which the special waste will be disposed.

(g) MSWLF requirements for acceptance and disposal of special wastes. The owner or operator of each MSWLF shall comply with each of the following requirements:

(1) If a load of special waste requires a special waste disposal authorization, check for compliance with the special waste disposal authorization;

(2) reject any special waste requiring a special waste disposal authorization if the special waste does not meet both of the following requirements:

(A) Has a special waste disposal authorization issued by the department; and

(B) meets the requirements of the special waste disposal authorization;

(3) notify the department in writing of each special waste load that is rejected at the MSWLF within one business day after the rejection;

(4) dispose of the special waste in the MSWLF only if the special waste meets one of the following requirements:

(A) Is capable of passing the paint filter liquids test specified in K.A.R. 28-29-108; or

(B) is exempt from the liquids restriction as specified in K.A.R. 28-29-108; and

(5) maintain documentation in the operating record, as specified in K.A.R. 28-29-108, of each special waste disposed of at the MSWLF, until the MSWLF is certified for closure in accordance with K.A.R. 28-29-121. (Authorized by K.S.A. 65-3406; implementing K.S.A. 65-3401; effective July 10, 1998; amended May 30, 2003; amended Aug. 16, 2013.)

28-29-300. Definitions. (a) For the purposes of K.A.R. 28-29-300 through K.A.R. 28-29-333, the following definitions shall apply:

(1) "C&D" means construction and demolition.

(2) "C&D contact water" means liquid, consisting primarily of precipitation, that has infiltrated through the C&D waste or has been in contact with the C&D waste for any period of time. This term shall include all runoff from the active area of the C&D landfill and all liquid derived from the C&D waste.

(3) "C&D landfill" shall have the meaning assigned to "construction and demolition landfill" in K.S.A. 65-3402, and amendments thereto.

(4) "C&D waste" shall have the meaning assigned to "construction and demolition waste" in K.S.A. 65-3402, and amendments thereto. For the purposes of this definition, the following clarifications shall apply:

(A) "Furniture and appliances" shall not include computer monitors and other computer components, televisions, videocassette recorders, stereos, and similar waste electronics.

(B) "Treated wood" shall include wood treated with any of the following:

(i) Creosote;

(ii) oil-borne preservatives, including pentachlorophenol and copper naphthenate;

(iii) waterborne preservatives, including chromated copper arsenate (CCA), ammoniacal copper zinc arsenate (ACZA), and ammoniacal copper quaternary compound (ACQ); or

(iv) any other chemical that poses a risk to human health or safety or the environment that is similar to any of the risks posed by the chemicals specified in paragraphs (a)(4)(B)(i) through (iii).

(C) "Untreated wood" shall include the following, if the wood has not been treated with any of the chemicals listed in paragraphs (a)(4)(B)(i) through (iv):

(i) Coated wood, including wood that has been painted, stained, or varnished; and

(ii) engineered wood, including plywood, laminated wood, oriented-strand board, and particle board.

(5) "Hazardous waste" means material determined to be hazardous waste as specified in K.A.R. 28-31-261.

(6) "Household hazardous waste" shall have the meaning specified in K.A.R. 28-29-1100.

(7) "Lower explosive limit" and "LEL" mean the lowest percent volume of a mixture of explosive gases in air that will propagate a flame at 25° C and atmospheric pressure.

(8) "Non-C&D waste" means all solid waste that is not specifically defined as construction and demolition waste in K.S.A. 65-3402, and amendments thereto. Non-C&D waste shall include hazardous waste and household hazardous waste.

(b) If a requirement in K.A.R. 28-29-300 through K.A.R. 28-29-333 conflicts with a requirement of K.A.R. 28-29-12 or K.A.R. 28-29-23, the requirement in K.A.R. 28-29-300 through K.A.R. 28-29-333 shall control. (Authorized by and implementing K.S.A. 65-3406; effective March 17, 2004; amended Dec. 28, 2012.)

28-29-330. Control of hazardous and explosive gases at C&D landfills; applicability of additional requirements. (a) Applicability of additional design, operating, and postclosure requirements. The additional design, operating, and postclosure requirements of K.A.R. 28-29-332 shall apply to the owner or operator of each disposal unit at a C&D landfill that meets all of the following conditions:

(1) Location. Precipitation in all parts of the county in which the C&D landfill is located averages more than 25 inches per year. The follow-

ing counties and any county located east of these counties shall be designated as meeting this condition: Jewell, Mitchell, Lincoln, Ellsworth, Rice, Reno, Kingman, and Harper.

(2) Capacity. The disposal unit meets one of the following conditions:

(A) The construction of the disposal unit begins on or after the effective date of this regulation, and the capacity of the disposal unit is more than 50,000 cubic yards. Construction of the disposal unit shall be in accordance with a construction quality assurance plan that is specific to the disposal unit and has been approved by the secretary.

(B) The construction of the disposal unit begins on or after January 1, 2014 and the capacity of the disposal unit, in combination with all other disposal units constructed on or after January 1, 2014, is more than 50,000 cubic yards. Construction of the disposal unit shall be in accordance with a construction quality assurance plan that is specific to the disposal unit and has been approved by the secretary.

(3) Hydrogeology. The disposal unit meets one or both of the following conditions, as evaluated and documented by a professional engineer or licensed geologist:

(A) The disposal unit is located within a 100-year floodplain.

(B) The permeability of the natural soils or the constructed soil liner or the natural geologic formation under the disposal unit is 1×10^{-7} centimeters per second or less, including quarry landfills with competent shale bases, unless the owner or operator demonstrates to the department that design and operational practices ensure that C&D contact water will exit the disposal unit by gravity flow.

(b) Applicability of corrective action requirements. The corrective action requirements of K.A.R. 28-29-333 shall apply to the owner or operator of each C&D landfill during the operating and postclosure periods. (Authorized by and implementing K.S.A. 65-3406; effective Dec. 28, 2012.)

28-29-331. Control of hazardous and explosive gases at C&D landfills; documentation of conditions used to determine applicability. Each person that submits an application for a new C&D landfill and each owner or operator that proposes to construct a disposal unit at an existing C&D landfill shall submit to the department documentation of the conditions specified in K.A.R. 28-29-330, according to the following requirements:

(a) Required documentation.

(1) If the C&D landfill meets the location conditions specified in K.A.R. 28-29-330(a)(1), the applicant or the owner or operator shall submit documentation of the capacity of the proposed disposal unit and the capacity of each disposal unit constructed on or after January 1, 2014.

(2) If the proposed disposal unit meets the location and capacity conditions specified in K.A.R. 28-29-330(a)(1) and (2), the applicant or the owner or operator shall submit documentation of the hydrogeologic conditions specified in K.A.R. 28-29-330(a)(3). For the purposes of determining the applicability of K.A.R. 28-29-332, if the disposal unit meets one of the hydrogeologic conditions listed in K.A.R. 28-29-330(a)(3), the applicant or the owner or operator shall not be required to submit documentation of the other hydrogeologic conditions.

(b) Schedule for submission of documentation.

(1) Each applicant for a new C&D landfill permit shall include the documentation specified in subsection (a) with the permit application.

(2) Each owner or operator of an existing C&D landfill that proposes to construct a disposal unit shall submit the documentation specified in subsection (a) on or before the date the construction quality assurance plan for the disposal unit is submitted. (Authorized by and implementing K.S.A. 65-3406; effective Dec. 28, 2012.)

28-29-332. Control of hazardous and explosive gases at C&D landfills; additional design, operating, and postclosure requirements. The owner or operator of each disposal unit at a C&D landfill that meets the conditions of K.A.R. 28-29-330 for determining the applicability of additional design, operating, and postclosure requirements shall comply with the following requirements:

(a) The owner or operator shall design, construct, and operate the disposal unit to prevent contact water from accumulating in the waste.

(b) The owner or operator shall perform both of the following:

(1) Demonstrate whether it will be necessary to pump contact water out of the landfill after the landfill closes in order to prevent contact water from accumulating in the waste; and

(2) include this information in the operating plan.

(c) If the operating plan states that contact water will be pumped out of the landfill after clo-

sure, the owner or operator shall obtain financial assurance for postclosure, according to the requirements of K.A.R. 28-29-2101 through 28-29-2113. (Authorized by and implementing K.S.A. 65-3406; effective Dec. 28, 2012.)

28-29-333. Control of hazardous and explosive gases at C&D landfills; response, assessment monitoring, and corrective action.

The owner or operator of each C&D landfill shall comply with the following:

(a) Identification of potential problem. If the owner or operator observes or is informed of any indication of a release of landfill gas, the owner or operator shall perform the following:

(1) Immediately assess the potential danger posed to human health and safety;

(2) immediately take all the steps necessary to ensure protection of human health and safety;

(3) notify the department of the observation or information within two business days; and

(4) in consultation with the department, implement appropriate action to assess the concentrations of gas at the landfill.

(b) Action levels. The owner or operator shall comply with the requirements of subsection (c) if gas concentrations exceed any of the following levels:

(1) For methane, either of the following:

(A) 25% of the LEL (1.25% by volume) in any building on the facility property; or

(B) 100% of the LEL (5% by volume) at the facility property boundary;

(2) for hydrogen sulfide, either of the following:

(A) 1 ppm for on-site personnel; or

(B) 0.1 ppm in the ambient air at the facility boundary, based on a 15-minute time-weighted average measured when the wind speed is less than 15 mph; or

(3) for any gas other than methane or hydrogen sulfide, a level that presents a risk to human health or safety equivalent to the levels listed in paragraphs (1) and (2) of this subsection.

(c) Response and assessment monitoring. If the concentration of any gas exceeds the levels specified in subsection (b), the owner or operator shall perform the following actions:

(1) If an exceedance is found at the facility boundary, immediately notify the local government's public health, environment, and emergency management offices;

(2) notify the department within one business day;

(3) within one week and in consultation with the department, develop a gas monitoring plan;

(4) upon approval of the secretary, implement the gas monitoring plan; and

(5) if gas monitoring has continued for one month and the frequency of the exceedances is not decreasing, take long-term corrective action according to the requirements of subsection (d).

(d) Corrective action. If long-term corrective action is required, the owner or operator shall perform the following actions:

(1) Develop and submit to the department a corrective action plan, including provisions for the installation of an active or passive gas management system. The owner or operator shall submit the plan within 60 calendar days of the date the conditions requiring corrective action were met; and

(2) upon approval of the secretary, implement the corrective action plan. (Authorized by and implementing K.S.A. 65-3406; effective Dec. 28, 2012.)

28-29-501. Uncontaminated soil. For the purposes of K.S.A. 65-3402 and amendments thereto, “uncontaminated soil” shall mean soil that meets all the following conditions:

(a) The soil meets the definition of “construction and demolition waste” in K.S.A. 65-3402, and amendments thereto.

(b) The soil has not been generated at a facility that is under state or federal oversight for the investigation or cleanup of contamination, unless the state or federal project manager who is providing the oversight approves the use of the soil as clean rubble, as defined in K.S.A. 65-3402 and amendments thereto.

(c) The soil exhibits no characteristic that would be expected to create either of the following if the soil is managed as clean rubble:

(1) An odor or other nuisance that would be offensive to a reasonable person; or

(2) an obvious risk to human health or safety or the environment, due to any physical or chemical property of the soil.

(d) The soil is determined to be suitable for use as clean rubble by one of the following methods:

(1) The generator of the soil determines that there is no indication of contamination in the soil. Indication of contamination shall be based on information readily available to the generator of the soil, including the following:

(A) The visual appearance of the soil;

(B) the odor of the soil; and

(C) all known past activities at the site from which the soil is being removed.

(2) The generator of the soil obtains analytical data from representative soil samples according to the requirements in subsection (e) and all of the following criteria are met:

(A) The soil is not a hazardous waste.

(B) Total nitrate plus ammonia is less than 40 mg/kg.

(C) The level of total petroleum hydrocarbons is less than $N = 1$, as described in section 5.0 of “risk-based standards for Kansas” (“RSK manual”), published in June 2007 by the department and hereby adopted by reference, including all appendices. The GRO tier 2 value shall be 39 mg/kg and the DRO tier 2 value shall be 2000 mg/kg.

(D) If the analyte is a chemical other than nitrate, ammonia, or a petroleum hydrocarbon, all of the following criteria are met:

(i) There is no more than one anthropogenic analyte present in the soil. For the purposes of this regulation, the term “anthropogenic analyte” shall mean a chemical or substance present in the environment due to human activity.

(ii) The anthropogenic analyte is listed in the KDHE tier 2 risk-based summary table in appendix A of the RSK manual.

(iii) The concentration of the anthropogenic analyte is less than the level listed in the KDHE tier 2 risk-based summary table for residential scenarios for the soil pathway or for the soil to ground water protection pathway, whichever is lower.

(3) The secretary determines that if the soil is used as clean rubble, the soil will not present a risk to human health or safety or the environment, based on information provided by the generator of the soil. The generator of the soil shall submit the following information to the department:

(A) Analytical reports from representative soil samples; and

(B) the following information, if requested by the department:

(i) Analytical reports indicating naturally occurring background concentrations at the site from which the soil is being removed;

(ii) the cumulative cancer risk level of all analytes;

(iii) the hazard index value, as defined in K.A.R. 28-71-1, of all analytes; and

(iv) any other information required by the department to evaluate the potential risk to human health or safety or the environment.

(e) If analytical data is used to meet the conditions of this regulation, the following requirements are met:

(1) At least one representative sample shall be collected and analyzed for each 500 cubic yards of soil.

(2) Each analysis shall be performed and reported by a laboratory that has departmental certification, if this certification is available, for that analysis.

(3) Each analytical report shall include the following information:

(A) The results of each analysis;

(B) quality control data;

(C) a copy of the chain of custody for each sample; and

(D) a statement signed by the generator that the analytical results are representative of the soil.

(4) The generator shall maintain each analytical report on file for at least three years after the report is received and shall make the report available to the department upon request. (Authorized by K.S.A. 65-3406; implementing K.S.A. 2008 Supp. 65-3402; effective Jan. 15, 2010.)

28-29-1600. Land-spreading; definitions and adoptions. (a) As used in K.A.R. 28-29-1600 through K.A.R. 28-29-1608, each of the following terms shall have the meaning specified in this regulation:

(1) “Application” means land-spreading application. This term shall include the forms provided by the KCC and all other required submissions.

(2) “Department” means Kansas department of health and environment.

(3) “Drilling waste” means used drilling mud and cuttings generated by the drilling of oil and gas wells or related injection wells that are permitted by the KCC or by the equivalent permitting authority in the state in which the well is located. This term shall not include hydraulic fracturing fluids.

(4) “GPS” means global positioning system.

(5) “Habitable structure” means any structure that is occupied by humans or maintained in a condition that allows it to be occupied by humans. This term shall include dwellings, churches, schools, care facilities, public buildings, office buildings, commercial buildings, and industrial buildings.

(6) “KCC” means Kansas corporation commission.

(7) “Land-spreading” means the disposal of drilling waste by spreading the drilling waste on

the land. This term shall not include the use of drilling waste as a product, as described in K.S.A. 65-3409 and amendments thereto, including the use of drilling waste in the construction and maintenance of roads and ponds.

(8) “Land-spreading worksheet” means the land-spreading rate calculation worksheet provided by the KCC.

(9) “NORM” means naturally occurring radioactive material.

(10) “NORM level” means the concentration of residual NORM radium-226 and radium-228 and their progeny as measured in becquerels per kilogram (Bq/kg) or picocuries per gram (pCi/g).

(11) “Operator” means operator, as defined in K.A.R. 82-3-101, of each well that generated the drilling waste.

(12) “Secretary” means secretary of health and environment.

(13) “Water-based drilling mud” means drilling mud that meets both of the following conditions:

(A) The drilling mud consists primarily of bentonite suspended in water.

(B) The liquid component of the drilling mud consists of no more than six percent oil or any oil derivative, including diesel fuel and asphalt blend oil.

(b) The following documents are hereby adopted by reference:

(1) “Standard test method for particle-size analysis of soils,” D422-63, published October 2007 by ASTM international; and

(2) section 3.2 on pages 40 through 65 of “soil survey field and laboratory methods manual,” soil survey investigations report no. 51, version 1.0, issued in 2009 by the U.S. department of agriculture, natural resources conservation service. (Authorized by and implementing K.S.A. 2012 Supp. 65-3407c; effective Oct. 11, 2013.)

28-29-1601. Land-spreading; general requirements. (a) No person may land-spread without having obtained prior written approval from the KCC. Before drilling, each operator that wants to land-spread shall submit an application to the KCC.

(b) If the proposed land-spreading disposal area is more than 160 acres, the operator shall submit two or more applications for the disposal area. Each application shall describe no more than 160 acres.

(c) The approval shall remain in effect for three years after the date on which land-spreading commenced, with the following exceptions:

(1) If land-spreading has not commenced within one year after the approval is granted, the approval shall expire.

(2) One or more one-year extensions to the approval may be granted by the director of the KCC's conservation division based on the following:

(A) Certification from the operator that the information in the approved application has not changed; and

(B) the operator's history of compliance with the requirements of K.A.R. 28-29-1600 through 28-29-1608.

(d) Drilling waste from multiple wells may be disposed of on the approved land-spreading site during the approved disposal period. (Authorized by and implementing K.S.A. 2012 Supp. 65-3407c; effective Oct. 11, 2013.)

28-29-1602. Land-spreading; application. Each operator that submits an application shall provide the operator name and the lease name on each part of the application that is not submitted directly on the forms provided by the KCC. The operator shall include the following items in the application:

(a) A nonrefundable application fee, as specified in K.S.A. 65-3407c and amendments thereto;

(b) certification that the drilling waste or the disposal site meets each of the following conditions:

(1) The drilling mud that will be used in each well that produces the drilling waste is water-based drilling mud;

(2) the predicted NORM level of the drilling waste meets the requirements of K.A.R. 28-29-1604. The operator shall submit an affidavit and supporting documentation as required by K.A.R. 28-29-1602(d)(7);

(3) no land-spreading has occurred at the disposal site in the past three years;

(4) the chloride concentration in the soil at the disposal site meets the requirements of K.A.R. 28-29-1604;

(5) the location of the disposal site meets the buffer zone requirements of K.A.R. 28-29-1604;

(6) the maximum slope at the site is eight percent or less;

(7) the depth of unconsolidated material at the surface is at least 24 inches;

(8) the soil at the site meets the requirements of K.A.R. 28-29-1604;

(9) based on historical data or site conditions, the groundwater elevation in the uppermost aquifer

underlying the disposal site is at least 10 feet below the ground surface;

(10) if the disposal site is irrigated, the chloride concentration of the irrigation water is less than 350 ppm; and

(11) there is no chloride groundwater contamination below the disposal site, based on the chloride contamination map provided by the department;

(c) for the operator, the following information:

(1) Operator license number;

(2) name;

(3) mailing address; and

(4) the following information about the contact person for the application:

(A) Name;

(B) telephone number;

(C) facsimile number, if available; and

(D) electronic mail address, if available;

(d) for each well from which drilling waste will be generated, the following information:

(1) If the well is permitted in a state other than Kansas, the name and telephone number of the state authority that permitted the well;

(2) the location of the well, including the following:

(A) The state and county in which the well is located;

(B) the legal description of the well;

(C) the number of feet the well is located from the north or south section line and the east or west section line; and

(D) the latitude and longitude of the well, which shall be determined using GPS;

(3) the lease name;

(4) the well number;

(5) the American petroleum institute (API) number;

(6) the expected spud date, as defined in K.A.R. 82-3-101;

(7) an affidavit on a form provided by the KCC, according to the following requirements:

(A) The operator shall certify that the predicted NORM level of the drilling waste meets both of the following conditions:

(i) The maximum predicted NORM level in the drilling waste is no more than 1.5 times the highest NORM level found in drilling waste samples collected from Kansas wells. A summary of NORM levels found in drilling waste samples collected from Kansas wells shall be maintained by the department and provided to any person upon request; and

(ii) the maximum predicted NORM level in the drilling waste is no more than 370 Bq/kg (10 pCi/g);

(B) the operator shall make the certification based upon data from wells drilled through the same geological formations as those of the well identified in the land-spreading application; and

(C) the operator shall include on the affidavit the maximum predicted NORM level of the drilling waste, according to the following:

(i) If the well will be drilled through formations for which the department has summarized and provided data, the operator may use this data to determine the maximum predicted NORM level of the drilling waste;

(ii) if the well will be drilled through formations for which the department has not summarized and provided data, the operator shall submit to the KCC all information available to the operator that can be used to predict the maximum NORM level in the drilling waste; and

(iii) if the NORM level of a formation is dependent on geographic location, the operator shall use that information to determine the maximum predicted NORM level of the drilling waste;

(8) a list of the expected components of the drilling mud and a detailed list of all additives, including the product name and the constituents of each additive; and

(9) a sampling and analysis plan that meets the requirements of K.A.R. 28-29-1605 to determine the chloride concentration of the drilling waste. The plan shall describe the following:

(A) The sampling rate;

(B) the procedures that will be used to collect the samples; and

(C) the procedures that will be used to prepare the samples for analysis;

(e) for the proposed disposal site, the following information:

(1) The name and mailing address of the property owner;

(2) the size of the site, as measured in acres;

(3) the legal description of the site;

(4) a description of current land use at the site and surrounding areas;

(5) documentation of all land-use restrictions and zoning restrictions for the site;

(6) documentation of all local permits that are required for land-spreading at the site;

(7) the distance and direction from the site to the nearest habitable structure;

(8) if the site is irrigated, the chloride concentration in the irrigation water in parts per million.

The concentration shall be determined by a laboratory that is accredited for chloride analysis by the secretary;

(9) the depth to the water table and a description of how the depth was determined;

(10) the direction of groundwater flow under the site, if known;

(11) an aerial map of the site. The map shall be detailed enough to locate the site or to determine directions to the site from the nearest highway and shall include the following:

(A) A north arrow and scale;

(B) the location of the site and the property boundaries; and

(C) each of the following features if that feature is located within one-half mile of the site:

(i) Habitable structures;

(ii) waters of the state;

(iii) perennial and intermittent streams;

(iv) ponds, lakes, and wetlands;

(v) domestic water wells;

(vi) municipal wells;

(vii) drainage swales, ditches, and all other physical features that channel overland flow; and

(viii) all other relevant features;

(12) a topographic map of the site that shows the slope of the ground to be used for land-spreading;

(13) a cell identification map that shows a grid dividing the site into cells. Each cell shall cover an area of no more than 10 acres. The map shall include the following information:

(A) The legal description of the site;

(B) the county in which the site is located;

(C) delineation of the boundary of the land-spreading area and each cell within the land-spreading area, based on one or both of the following:

(i) Physical references and measurements; or

(ii) GPS measurements;

(D) a unique label for each cell;

(E) the location of each soil sample that was collected to provide information for the application;

(F) the chloride concentration of the soil within each cell, as determined according to the requirements of K.A.R. 28-29-1603;

(G) the soil texture or textures of the site, as determined according to the requirements of K.A.R. 28-29-1603;

(H) the depth of unconsolidated material at the site;

(I) the areas that receive irrigation;

(J) the areas where vegetation will be established;

(K) the areas where conditions to support crops will be established;

(L) the areas where land restoration, other than establishing vegetation or conditions to support crops, is planned;

(M) the property boundaries;

(N) the ownership and use of adjacent properties; and

(O) the buffer zones required by K.A.R. 28-29-1604;

(14) documentation and analyses supporting all of the chloride concentration and soil texture information provided on the cell identification map, including laboratory chain-of-custody documents; and

(15) a copy of the United States department of agriculture's soil survey map for the site;

(f) documentation that the owner of the proposed disposal site has agreed to the land-spreading, which shall be submitted on a form provided by the KCC;

(g) a site access agreement that grants access to the proposed disposal site to the department and the KCC for the purposes of observation, inspection, and sampling, which shall be submitted on a form provided by the KCC;

(h) a description of the proposed land-spreading procedures, including descriptions of the following:

(1) The manner in which the drilling waste will be stored at the site of generation;

(2) the processes and equipment that will be used to spread the drilling waste at the land-spreading site;

(3) the manner in which the equipment will be operated to ensure that the drilling waste is spread at the approved rate. The description shall include information on the boom width, flow rate, ground speed, and all other factors that will be used to control the land-spreading rate; and

(4) if the operator is required by K.A.R. 28-29-1607 to incorporate the drilling waste into the soil, the processes and equipment that will be used to incorporate the drilling waste into the soil;

(i) a contingency plan that describes how drilling waste will be managed if land-spreading is not allowed due to either of the following:

(1) Weather restrictions; or

(2) the drilling waste exceeding the composition limitations specified in K.A.R. 28-29-1607;

(j) a plan describing how the land-spreading area will be restored after land-spreading, including establishment of vegetation or conditions

to support crops. If the land-spreading area is not cropland, the plan shall include the erosion-control measures that will be implemented until vegetation is established; and

(k) any other relevant information required by the KCC to evaluate the application. (Authorized by and implementing K.S.A. 2012 Supp. 65-3407c; effective Oct. 11, 2013.)

28-29-1603. Land-spreading; sampling and analysis of soils. Each operator that submits an application to the KCC shall meet all of the following requirements:

(a) Sample collection for chloride analysis. For each cell, as identified on the cell identification map submitted with the application, at least four representative core samples shall be collected according to the following requirements:

(1) Each core shall sample the top 12 inches below the surface.

(2) For each cell, all samples from that cell shall be combined and thoroughly mixed.

(3) The combined samples from each cell shall have a volume of at least one pint.

(4) The label of each sample shall match the unique label of the cell from which the sample was collected, as indicated on the cell identification map submitted with the application.

(b) Chloride analysis. The soil shall be analyzed for chloride concentration by a laboratory that meets one or both of the following conditions:

(1) The laboratory is accredited for chloride analysis by the secretary.

(2) The laboratory is a participant in the North American proficiency testing program for chloride analysis.

(c) Sample collection for soil texture analysis. For each cell, as identified on the cell identification map submitted with the application, core samples from at least four representative sampling locations shall be collected according to the following requirements:

(1) Each core or set of cores shall sample at least the top 24 inches below the surface.

(2) Each sampling location shall be continuously sampled from the ground surface to the total depth required to provide the information for the application.

(3) Each core or set of cores shall provide a minimally disturbed profile of the soil at that sampling location.

(4) Soil samples shall not be combined with samples from other locations.

(5) Each core shall be labeled in a manner that corresponds to the unique label of the cell from which the core was collected, as indicated on the cell identification map submitted with the application.

(d) Soil texture analysis. The soil texture shall be determined by one of the following:

(1) An agronomist with at least a bachelor of science degree in agronomy or a soil scientist with at least a bachelor of science degree in soil science. The agronomist or soil scientist shall perform the following:

(A) Evaluate the site in person;

(B) determine the soil texture using the feel method described in "soil survey field and laboratory methods manual," which is adopted by reference in K.A.R. 28-29-1600; and

(C) provide documentation characterizing the site; or

(2) a laboratory, according to one or both of the following requirements:

(A) The laboratory shall analyze the soil using methods described in section 3.2 of the "soil survey field and laboratory methods manual," as adopted by reference in K.A.R. 28-29-1600, and shall be a participant in the North American proficiency testing program for those methods; or

(B) the laboratory shall analyze the soil using the method described in "standard test method for particle-size analysis of soils," as adopted by reference in K.A.R. 28-29-1600, and shall be accredited by the American association of state highway and transportation officials (AASHTO) materials reference laboratory (AMRL) proficiency sample program for that method.

(e) Soil texture classification. Each soil sample shall be classified by texture class or subclass according to the texture class table and the texture triangle on page 45 of the "soil survey field and laboratory methods manual," as adopted by reference in K.A.R. 28-29-1600. (Authorized by and implementing K.S.A. 2012 Supp. 65-3407c; effective Oct. 11, 2013.)

28-29-1604. Land-spreading; conditions for disposal. Disposal of drilling waste by land-spreading shall be approved by the KCC only if the operator has certified, and provided supporting documentation if required by K.A.R. 28-29-1602, that the drilling waste and the disposal site meet all of the following conditions:

(a) Drilling waste. The drilling waste meets both of the following conditions:

(1) The drilling mud that will be used in each well that will produce the drilling waste is water-based drilling mud.

(2) The predicted NORM level, as defined in K.A.R. 28-29-1600, meets both of the following conditions:

(A) The maximum predicted NORM level is no more than 1.5 times the highest NORM level found in drilling waste samples collected from Kansas wells.

(B) The maximum predicted NORM level is no more than 370 Bq/kg (10 pCi/g).

(b) Previous land-spreading. No land-spreading has occurred at the disposal site in the past three years.

(c) Soil chloride concentration. The chloride concentration in the soil at the disposal site is less than the following:

(1) 300 parts per million (ppm) if the disposal site has previously been used for land-spreading; and

(2) 500 ppm if the disposal site has not previously been used for land-spreading.

(d) Buffer zones. The disposal site is located as follows:

(1) At least 100 feet from each of the following:

(A) Each intermittent stream; and

(B) each drainage swale, ditch, or other physical feature that channels overland flow;

(2) at least 200 feet from each of the following:

(A) The property boundary, unless the adjacent property ownership and use are the same as the property ownership and use of the disposal site;

(B) each perennial stream; and

(C) each freshwater pond, lake, and wetland;

(3) at least 500 feet from each habitable structure;

(4) at least 1,000 feet from each water well that is being used or could be used for domestic or agricultural purposes. If the applicant demonstrates to the KCC that the disposal site is hydrogeologically downgradient from the water well, this distance may be reduced to 500 feet; and

(5) one-half mile or more from each actively producing water well that is used for municipal purposes.

(e) Physical characteristics. The disposal site meets the following conditions:

(1) The maximum slope at the site is eight percent or less.

(2) The depth of unconsolidated material at the surface is at least 24 inches.

(3) Within the top six feet below the surface, there is at least one layer of soil that meets all of the following conditions:

- (A) Is continuous across the site;
- (B) is at least 12 inches thick;
- (C) is above the shallowest consolidated layer; and
- (D) consists of one or more of the following soil textures:
 - (i) Clay, silty clay, or sandy clay;
 - (ii) silt; or
 - (iii) loam, clay loam, silty clay loam, sandy clay loam, silt loam, fine sandy loam, or sandy loam.
- (4) Based on historical data or site conditions, the groundwater elevation in the uppermost aquifer underlying the disposal site is at least 10 feet below the ground surface.
- (f) Irrigation. If the disposal site is irrigated, the chloride concentration of the irrigation water is less than 350 ppm.
- (g) Contamination. There is no chloride groundwater contamination below the disposal site, based on the chloride contamination map provided by the KCC. (Authorized by and implementing K.S.A. 2012 Supp. 65-3407c; effective Oct. 11, 2013.)

28-29-1605. Land-spreading; sampling and analysis of drilling waste. Each operator that conducts land-spreading shall meet all of the following requirements:

- (a) Samples of the drilling waste shall be collected using a procedure that ensures that the samples are representative of the waste.
- (b) Samples shall be collected according to the following rates:
 - (1) For drilling waste stored in tanks, at least one sample from each tank;
 - (2) for earthen pits containing not more than 12,500 barrels of drilling waste, at least four samples, each from a different quadrant of the pit; and
 - (3) for earthen pits containing more than 12,500 barrels of drilling waste, at least one sample from each quadrant of the pit, plus at least one additional sample for every additional 1,000 barrels of drilling waste contained in the pit.
- (c) Samples of the drilling waste shall be analyzed for chloride concentration in parts per million by one of the following methods:
 - (1) Sending the samples to a laboratory that meets at least one of the following conditions:
 - (A) The laboratory is accredited for chloride analysis by the secretary; or
 - (B) the laboratory is a participant in the North American proficiency testing program for chloride analysis; or

- (2) performing a field analysis of the samples. For calculating land-spreading rates, each chloride concentration determined using field analysis shall be multiplied by 1.2, as specified in the land-spreading worksheet.

- (d) If the drilling waste is analyzed in the field, all of the following requirements shall be met:

- (1) One or more of the following methods shall be used to analyze the drilling fluid filtrate:

- (A) Silver nitrate titration;
- (B) mercuric nitrate titration;
- (C) direct measurement using a chloride ion selective electrode;

- (D) calculation of concentration based on electrical conductivity, using the equations $EC \times 0.64 = TDS$ and $TDS \times 0.61 = CC$, where EC means electrical conductivity in micromhos or microsiemens per centimeter, TDS means total dissolved solids, and CC means chloride concentration in parts per million; or

- (E) an alternate field method proposed by the operator and approved in writing by the director of the KCC's conservation division.

- (2) Each analysis shall be accompanied by the following information:

- (A) The manufacturer's information sheet for the equipment that will be used;

- (B) the calibration requirements for the equipment;

- (C) the methods that will be used to prepare the sample for testing;

- (D) the chloride concentration range of the method; and

- (E) any limitations of the method.

- (3) The operator shall ensure that each person that analyzes drilling waste in the field is qualified to perform each analysis. The operator shall maintain documentation of the qualifications, including training and experience, of each person that analyzes drilling waste in the field.

- (4) All equipment that is used for analyzing drilling waste in the field shall be calibrated according to the manufacturer's instructions before the analyses are conducted. For each piece of equipment, a log documenting all calibrations shall be maintained. (Authorized by and implementing K.S.A. 2012 Supp. 65-3407c; effective Oct. 11, 2013.)

28-29-1606. Land-spreading; determination of land-spreading rates. Before land-spreading may occur, each operator that plans to land-spread shall perform the following for each

cell, as identified on the cell identification map, on which drilling waste will be land-spread:

(a) Analyze the drilling waste to be land-spread at the disposal site to determine the chloride concentration, as specified in K.A.R. 28-29-1605; and

(b) based on the chloride concentrations of the drilling waste and chloride concentrations of the soil in the cell, determine the maximum land-spreading rate according to the following requirements:

(1) The determination shall be based on the land-spreading worksheet; and

(2) the land-spreading rate shall ensure that, after land-spreading, both of the following requirements are met:

(A) Assuming uniform distribution of the chloride through the upper 12 inches of the soil, the total chloride concentration shall be 900 ppm or less; and

(B) the average thickness of the drilling waste across the site shall be no greater than two inches, and the drilling waste shall be distributed as uniformly as possible across the site. (Authorized by and implementing K.S.A. 2012 Supp. 65-3407c; effective Oct. 11, 2013.)

28-29-1607. Land-spreading; operating and management requirements. Each operator that conducts land-spreading shall meet all of the following requirements:

(a) Storage of drilling waste. The operator shall store the drilling waste at the site of generation in pits permitted by the KCC or in tanks until the drilling waste is transported to the disposal site. The operator may store drilling waste in sealed tanks at the disposal site for no more than 24 hours before the drilling waste is land-spread.

(b) Time frame for land-spreading. The operator shall comply with the following:

(1) Complete the land-spreading within the approval period specified in K.A.R. 28-29-1601; and

(2) notify the appropriate KCC district office at least 48 hours before land-spreading.

(c) Composition of drilling waste. The operator shall land-spread only if the composition of the drilling waste meets the following requirements:

(1) The chloride concentration of the drilling waste is less than 10,000 parts per million (ppm). The operator may blend drilling waste that has a chloride concentration greater than 10,000 ppm with drilling waste that has a chloride concentration of less than 10,000 ppm to create a combined drilling waste that has a chloride content of less than 10,000 ppm.

(2) The NORM level in the drilling waste, as identified through any subsequent sampling and analysis, remains consistent with the information submitted with the application. If the observed NORM level in the drilling waste is more than 370 Bq/kg (10 pCi/g), the operator shall immediately cease land-spreading and shall notify the KCC within two business days. The operator shall evaluate the condition of the land-spreading site to determine any potential site impact and perform all corrective measures required by the KCC or the department to protect human health or safety or the environment. The operator shall not conduct any additional land-spreading at the site unless authorized by the KCC.

(d) Weather restrictions. The operator shall not conduct land-spreading if at least one of the following conditions exists at the disposal site:

(1) Precipitation is occurring or, according to national weather service predictions, has a greater than 50 percent probability of occurring within 24 hours after the land-spreading is completed.

(2) The soil cannot readily absorb the moisture content of the drilling waste due to soil moisture content or frozen soil, or for any other reason.

(e) Land-spreading requirements. The operator shall land-spread according to all of the following requirements:

(1) The operator shall land-spread at a rate no greater than the land-spreading rate calculated using the land-spreading worksheet.

(2) The operator shall, as much as possible, land-spread so that the drilling waste has a uniform thickness over the disposal site.

(3) The operator shall limit the average thickness of the drilling waste to the calculated depth, unless the calculated depth is more than two inches. If the calculated depth is more than two inches, the operator shall limit the average thickness of the drilling waste to no more than two inches.

(4) The operator shall land-spread in a manner that prevents the drilling waste from either ponding on the disposal site or running off the disposal site or into buffer zones.

(5) The operator shall land-spread according to the methods described in the approved application. If any deviation from the approved methods occurs and the deviation could result in a chloride loading rate greater than the rate approved by the KCC, the operator shall report the deviation to the KCC by the end of the next business day.

(f) Incorporation. The operator shall incorporate the drilling waste into the soil if the precip-

itation in the county in which the disposal site is located averages more than 25 inches per year. The following counties and any county located east of these counties shall be designated as meeting this condition: Jewell, Mitchell, Lincoln, Ellsworth, Rice, Reno, Kingman, and Harper.

The operator shall incorporate the drilling waste into the soil using standard agricultural methods, including discing, plowing, knifing, and shallow injection. This procedure shall be performed as soon as possible and not later than 48 hours after land-spreading is completed. The operator shall incorporate the drilling waste into the soil according to the methods described in the approved application.

(g) Land restoration. The operator shall take steps to restore the land-spreading area as described in the approved application. (Authorized by and implementing K.S.A. 2012 Supp. 65-3407c; effective Oct. 11, 2013.)

28-29-1608. Land-spreading; reporting and recordkeeping. Each operator that has conducted land-spreading shall meet all of the following requirements for each land-spreading site:

(a) Within 60 days after the conclusion of land-spreading, submit a land-spreading report to the KCC. The operator shall identify each part of the report by the KCC land-spreading approval number from the approved application. The land-spreading report shall contain the following items:

(1) The following information for each well from which the drilling waste was generated, on a form provided by the KCC:

(A) The operator name and license number;

(B) if the well is permitted in a state other than Kansas, the name and telephone number of the state authority that permitted the well;

(C) the location of the well, including the following:

(i) The state and county in which the well is located;

(ii) the legal description of the well;

(iii) the number of feet the well is located from the north or south section line and the east or west section line; and

(iv) the latitude and longitude of the well, as determined using GPS;

(D) the lease name;

(E) the well number;

(F) the American petroleum institute (API) number;

(G) the spud date, as defined in K.A.R. 82-3-101;

(H) verification that the drilling mud components are the same as those components identified on the approved application;

(I) verification that the chloride concentration of the drilling waste is less than 10,000 parts per million (ppm); and

(J) the following information about the person performing the land-spreading, if different from the operator:

(i) The name of the individual or company;

(ii) the contact person's name;

(iii) the contact person's telephone number or cellular phone number, or both; and

(iv) the contact person's electronic mail address, if there is one;

(2) for the area that was actually used for land-spreading, an updated version of the cell identification map that was submitted with the application. The updated map shall include all information on the original cell identification map and the following information:

(A) The date or dates on which land-spreading occurred;

(B) the land-spreading contractor name;

(C) identification of each well from which the drilling waste was generated;

(D) for each tank and each pit that was used to store drilling waste, the area where that drilling waste was land-spread, according to the following requirements:

(i) The dimensions of the area used for land-spreading shall be added to the map, if the area used for land-spreading is different from the cell boundaries, and shall be based on either physical references and measurements or GPS measurements, or both; and

(ii) the tank and pit numbers shall correspond to the labels used in the land-spreading worksheet; and

(E) notation identifying the cells that were not used for land-spreading;

(3) a description of the procedures that were used to sample the drilling waste and the sampling rates;

(4) a description of the methods that were used to analyze the drilling waste;

(5) the results of each analysis of the drilling waste;

(6) the completed land-spreading worksheet;

(7) for each cell within the land-spreading site, the following information:

(A) The volume of drilling waste that was spread on the cell; and

(B) a description of the land-spreading procedures that were used, including the following:

(i) Documentation of each variation from the processes or equipment described in the approved application;

(ii) a description of each deviation from the operating and management requirements of K.A.R. 28-29-1607; and

(iii) if the drilling waste was incorporated into the soil, a statement of the maximum time period from land-spreading to incorporation; and

(8) if corrective measures were required by the KCC or the department at the land-spreading site, the following information:

(i) A description of the conditions warranting the corrective measures;

(ii) a copy of the sampling and analysis plan, if this plan was required;

(iii) the results of all sampling and analyses that relate to the corrective measures;

(iv) a description of the corrective measures implemented at the land-spreading site; and

(v) a description of all long-term site monitoring or land-use restrictions associated with the site conditions;

(b) within 12 months after the conclusion of land-spreading, submit to the KCC a report describing the timing and success of establishing vegetative cover or conditions suitable to support crops. If the establishment of vegetative cover or conditions suitable to support crops was unsuccessful, the operator shall submit a new plan describing how vegetative cover or conditions suitable to support crops will be established. The operator shall identify the report, plan, or both, by the KCC land-spreading approval number from the approved application; and

(c) maintain the following documents, identified by the KCC land-spreading approval number from the approved application, for at least five years after the land-spreading occurs and make the documents available to the department and the KCC, upon request:

(1) The results of all analyses;

(2) a copy of each application and approval;

(3) a copy of each land-spreading report and all required attachments; and

(4) if any drilling waste was analyzed in the field, a copy of all calibration logs for each piece of equipment used and the qualifications of each person that performed the analyses. (Authorized by and implementing K.S.A. 2012 Supp. 65-3407c; effective Oct. 11, 2013.)

Article 30.—WATER WELL CONTRACTOR'S LICENSE; WATER WELL CONSTRUCTION AND ABANDONMENT

28-30-2. Definitions. In addition to the definitions in K.S.A. 82a-1203 and amendments thereto, each of the following terms shall have the meaning assigned in this regulation:

(a) "Abandoned water well" means a water well determined by the department to meet at least one of the following conditions:

(1) Use of the water well has been permanently discontinued.

(2) Pumping equipment has been permanently removed from the water well.

(3) The water well either is in such disrepair that it cannot be used to supply water or has the potential for transmitting surface contaminants into the aquifer, or both.

(4) The water well poses potential health and safety hazards.

(5) The water well is in such a condition that it is not an active well or cannot be placed in inactive status.

(b) "Above-grade surface completion" means the termination of a water well or boring if the casing being used is at least 12 inches above the surrounding ground surface.

(c) "Active well" means a water well that is operating and is used to withdraw water or to monitor or observe groundwater conditions.

(d) "Annulus" means the space between the casing and the boring or the space between two or more strings of casing.

(e) "Aquifer" means an underground formation that contains and is capable of transmitting groundwater.

(f) "At-grade surface completion" means the termination of a monitoring well or boring if the casing is at the surrounding ground surface.

(g) "Cased test hole" means any test hole in which casing has been installed and grouted.

(h) "Confined aquifer" means an aquifer overlain and underlain by impermeable layers. Groundwater in a confined aquifer is under pressure greater than atmospheric pressure and will rise in a water well above the point at which groundwater is first encountered.

(i) "Department" means Kansas department of health and environment.

(j) "Designated person" means the individual designated by a water well contractor who is the

contact person for compliance issues and who is responsible for submitting water well records and for earning the units of approved continuing education credits required by K.A.R. 28-30-3. The designated person may be the water well contractor.

(k) "Drill rig" means an apparatus operated to create a hole or shaft in the ground in which a water well is constructed.

(l) "Drill rig license number" means the numbers and letters assigned by the department that are affixed to each drill rig operated by or for a water well contractor.

(m) "Drilling fluid" means any fluid, including water, that is added during the drilling process to help increase the drilling efficiency.

(n) "Fresh groundwater" means water containing not more than 1,000 milligrams of total dissolved solids per liter and 500 milligrams of chloride per liter.

(o) "Groundwater" means the part of the subsurface water that is in the zone of saturation.

(p) "Grout" means bentonite clay grout, cement grout, neat cement grout, or other material approved by the secretary used to create a permanent impervious, watertight bond between the casing and the undisturbed formation surrounding the casing or between two or more strings of casing.

(1) "Bentonite clay grout" means a mixture of water and either commercial grouting or plugging sodium bentonite clay, including sodium bentonite clay manufactured under the trade name "volclay grout," or an equivalent approved by the department according to the following:

(A) The mixture shall be prepared according to the manufacturer's recommendations to achieve a weight of at least 9.4 pounds per gallon of mix. Weighting agents may be added according to the manufacturer's recommendations.

(B) Sodium bentonite pellets, tablets, or granular sodium bentonite may also be used if these additives or materials meet the specifications listed in paragraph (p)(1).

(C) Sodium bentonite products that are designed for drilling purposes or contain organic polymers shall not be used.

(2) "Cement grout" means a mixture of one 94-pound bag of portland cement, an equal volume of sand having a diameter no larger than two millimeters, and five to six gallons of clean water.

(3) "Neat cement grout" means a mixture of one 94-pound bag of portland cement and five to six gallons of clean water.

(q) "Grout tremie pipe" and "grout pipe" mean a steel or galvanized steel pipe or similar pipe having equivalent structural soundness that is used to pump grout to a point of selected emplacement during the grouting of a casing or plugging of an abandoned water well or test hole.

(r) "Heat pump hole" means a hole drilled to install piping for an earth-coupled water source heat pump system, also known as a vertical closed-loop system.

(s) "Inactive status" means a water well that is not presently operating but is maintained so that the water well can be put back in operation with minimum effort.

(t) "Monitoring well" means a water well used to monitor, obtain, or collect hydrologic, geologic, geophysical, chemical, or other technical data pertaining to groundwater, surface water, or other hydrologic conditions. A monitoring well is also known as an "observation well."

(u) "Pitless well adapter or unit" means an assembly of parts installed below the frost line that permits pumped groundwater to pass through the wall of the casing or the extension of the casing and prevent the entrance of contaminants.

(v) "Public water-supply well" means a water well that meets both of the following conditions:

(1) Provides groundwater to the public for human consumption; and

(2) has at least 10 service connections or serves an average of at least 25 individuals daily for at least 60 days during a calendar year.

(w) "Pump pit" means a watertight structure that meets both of the following conditions:

(1) Is constructed as follows:

(A) At least two feet away from the water well; and

(B) below ground level to prevent the freezing of pumped groundwater; and

(2) houses the pump or pressure tank, distribution lines, electrical controls, or other appurtenances.

(x) "Reconstructed water well" means an existing water well that has been deepened or has had the casing replaced, repaired, added to, or modified in any way for the purpose of obtaining groundwater.

(y) "Sand point" has the meaning specified in K.S.A. 82a-1203, and amendments thereto.

(z) "Sanitary well seal" means a manufactured seal installed at the top of the casing that, when installed, creates an airtight and watertight seal to prevent contaminated or polluted water from gaining access to the groundwater supply.

(aa) "Static water level" means the highest point below or above ground level that the groundwater in the water well reaches naturally.

(bb) "Test hole" and "hole" mean any excavation constructed for the purpose of determining the geologic, hydrologic, and water quality characteristics of underground formations.

(cc) "Treatment" means the stimulation of the production of groundwater from a water well through the use of hydrochloric acid, muratic acid, sulfamic acid, calcium or sodium hypochlorite, polyphosphates or other chemicals, and mechanical means, to reduce or remove iron and manganese hydroxide and oxide deposits, calcium and magnesium carbonate deposits, and slime deposits associated with iron or manganese bacterial growths that inhibit the movement of groundwater into the water well.

(dd) "Uncased test hole" means any test hole from which casing has been removed or in which casing has not been installed.

(ee) "Unconfined aquifer" means an aquifer containing groundwater at atmospheric pressure. The upper surface of the groundwater in an unconfined aquifer is the water table.

(ff) "Water well" has the meaning specified in K.S.A. 82a-1203, and amendments thereto. (Authorized by K.S.A. 82a-1205 and 82a-1213; implementing K.S.A. 82a-1202, 82a-1205, and 82a-1213; effective, E-74-34, July 2, 1974; modified, L. 1975, ch. 481, May 1, 1975; amended May 1, 1980; amended May 1, 1987; amended Nov. 22, 1993; amended June 7, 2013.)

28-30-3. Licensing. (a) Eligibility. To be eligible for a water well contractor's license, each applicant shall meet the following requirements:

(1) Submit a complete license application on a form provided by the department;

(2) submit a water well contractor application fee of \$10.00;

(3) (A) Pass the water well contractor examination conducted by the department or employ a designated person who has passed the water well contractor examination; and

(B) submit a license fee of \$100.00 if the applicant or designated person passes the water well contractor examination; and

(4) submit a complete registration form on a form provided by the department for each drill rig operated by or for the applicant and a registration fee of \$25.00 for each drill rig operated by or for the applicant.

(b) License renewal.

(1) Each licensee shall submit an application for renewal of license and drill rig registrations before July 1 of each year by filing the proper renewal forms provided by the department and by meeting the following requirements:

(A) Paying the annual license fee and a drill rig registration fee for each drill rig to be operated in the state;

(B) filing all records for each water well constructed, reconstructed, or plugged by the licensee in accordance with K.A.R. 28-30-4 during the previous licensure period;

(C) filing a report, on a form approved by the department, of all approved continuing education units earned by the licensee or designated person during the previous licensure period;

(D) meeting the continuing education requirements in subsection (c); and

(E) providing any remaining outstanding information or records requested that existed before the issuance or revocation of a license.

(2) Failure to comply with the requirements of this subsection shall be grounds to revoke the existing license and terminate the license renewal process.

(c) Continuing education requirements. Each water well contractor or the contractor's designated person shall earn at least eight units of continuing education approved by the secretary. This requirement shall apply each year beginning with the first full year of licensure or the renewal period. One unit of continuing education shall equal 50 minutes of approved instruction except for trade shows and exhibitions, which shall be counted as one unit for each approved trade show or exhibition attended.

(d) Employment requirements. If the designated person who has passed the water well contractor examination under paragraph (a)(3)(A) leaves the contractor's employment, the contractor shall employ a designated person who shall take, within 90 days, and be required to pass the water well contractor examination. (Authorized by K.S.A. 82a-1205, K.S.A. 2012 Supp. 82a-1206, and K.S.A. 82a-1207; implementing K.S.A. 82a-1202, K.S.A. 82a-1205, K.S.A. 2012 Supp. 82a-1206, K.S.A. 82a-1207, K.S.A. 82a-1209, and K.S.A. 82a-1212; effective, E-74-34, July 2, 1974; effective May 1, 1975; amended May 1, 1980; amended May 1, 1983; amended May 1, 1987; amended Nov. 22, 1993; amended June 7, 2013.)

28-30-4. General operating requirements. (a) Water well record.

(1) Within 30 days after construction or reconstruction of a water well, each water well contractor shall submit a report to the department and to the landowner on the water well record form provided by the department.

(2) Each contractor shall report to the department and to the landowner on the water well record form provided by the department and attachments any polluted or other noncompliant conditions that the contractor was able to correct and any conditions that the contractor was unable to correct.

(3) Each contractor shall report to the department and to the landowner the plugging of any abandoned water well on the water well record form provided by the department.

(4) Each landowner who constructs, reconstructs, or plugs a water well that will be or was used by the landowner for farming, ranching, or agricultural purposes or is located at the landowner's residence shall submit a report to the department on the water well record form provided by the department within 30 days after the construction, reconstruction, or plugging of the water well. No fee shall be required from the landowner for the record.

(b) Artificial recharge and return. Each contractor who constructs an artificial recharge well or a freshwater return well shall comply with all regulations applicable to these wells specified in article 46.

(c) Water well tests. Results of a pumping test shall be reported on the water well record form provided by the department or a copy of the contractor's record of a pumping test shall be attached to the water well record form.

(d) Water samples. Within 30 days after the department's receipt of the water well record form provided by the department, the contractor or landowner who constructs or reconstructs any water well may be requested by the department to submit a sample of water from the water well for chemical analysis. The sample shall be submitted within 30 days after the department's request.

(e) Water well construction fee. Each contractor shall pay a \$5.00 fee to the department for each water well constructed. The construction fee shall be paid when the contractor requests a water well record form provided by the department or shall accompany the water well record form submitted as specified in this regulation.

(f) License number. Each drill rig operated by or for a contractor shall prominently display the drill rig license number assigned by the department in letters and numbers at least two inches tall. Decals, paint, or other permanent marking materials shall be used. (Authorized by K.S.A. 82a-1205; implementing K.S.A. 82a-1202, 82a-1205, 82a-1212, and 82a-1213; effective, E-74-34, July 2, 1974; modified, L. 1975, ch. 481, May 1, 1975; amended May 1, 1980; amended May 1, 1987; amended June 7, 2013.)

28-30-5. Construction regulations for public water-supply wells. All activities involving public water-supply wells shall meet the requirements of K.S.A. 65-163a, and amendments thereto, and regulations of the department, including K.A.R. 28-15-16. (Authorized by K.S.A. 82a-1205; implementing K.S.A. 82a-1202 and 82a-1205; effective, E-74-34, July 2, 1974; effective May 1, 1975; amended May 1, 1980; amended May 1, 1983; amended May 1, 1987; amended June 7, 2013.)

28-30-6. Construction regulations for all water wells not included under K.A.R. 28-30-5. (a) Each water well shall be constructed to minimize the potential for contamination of the delivered or obtained groundwater and to protect groundwater aquifers from pollution and contamination.

(b) The following requirements for grouting shall be met:

(1) Each constructed water well and each reconstructed water well shall be sealed by grouting the annulus between the casing and the boring from ground level to at least 20 feet or to at least five feet into the first clay or shale layer if one is present, whichever is greater. If a pitless well adapter or unit is being installed, the grouting shall start below the point at which the pitless well adapter or unit attaches to the casing and shall continue at least 20 feet below this point or to at least five feet into the first clay or shale layer, whichever is greater.

(2) The diameter of the drilled boring shall be at least three inches greater than the maximum outside diameter of the casing.

(3) Water from two or more separate aquifers shall be separated from each other in the boring by sealing the annulus between the aquifers with grout.

(c) If groundwater is encountered at a depth less than the minimum grouting requirement, the

grouting requirement may be modified by the secretary to meet local conditions.

(d) A well vent shall be used and shall terminate at least one foot above the ground surface. The well vent shall be screened with brass, bronze, copper screen, or other screen materials approved by the secretary that are 16-mesh or greater and turned down in a full 180-degree return bend to prevent the entrance of contaminating materials.

(e) Before the completion of a constructed water well or a reconstructed water well, the water well shall be cleaned of mud, drill cuttings, and other foreign matter to make the water well suitable for pump installations.

(f) Casing shall meet the following requirements:

(1) Each water well shall have durable watertight casing from at least one foot above the finished ground surface to the top of the producing zone of the aquifer. The watertight casing shall extend at least 20 feet below the ground level. Exceptions to either of these requirements may be granted by the secretary if warranted by local conditions.

(2) Each water well shall be an above-grade surface completion, except that an at-grade surface completion may be used if all requirements of subsection (s) are met. Casing may be cut off below the ground surface to install a pitless well adapter or unit.

(3) No opening shall be made through the casing, except for the installation of a pitless well adapter or unit designed and fabricated to prevent soil, subsurface, and surface water from entering the water well.

(4) The casing shall meet the requirements of the department's document titled "approved water well casing: water well casing for water wells other than public water-supply wells," dated November 7, 2012, which is hereby adopted by reference. Used, reclaimed, defective, or contaminated pipe shall not be used for casing any water well.

(g) Each water well, when unattended during construction, reconstruction, treatment, or repair or during use as a cased test hole or as an observation or monitoring well, shall have the top of the casing securely capped in a watertight manner.

(h) During construction, reconstruction, treatment, or repair and before its first use, each water well producing water for human consumption or food processing shall be disinfected according to K.A.R. 28-30-10.

(i) The top of the casing shall be sealed by installing a sanitary well seal when the water well is completed.

(j) Each groundwater-producing zone that is known or suspected to contain natural or man-made pollutants shall be cased and grouted in accordance with subsection (b) during construction of any water well to prevent the movement of groundwater to either overlying or underlying fresh groundwater zones.

(k) Toxic material shall not be used in the construction, reconstruction, treatment, or plugging of a water well, unless the material is flushed from the water well before use.

(l) The pipe from the pump or pressure tank in the pump pit to the water well shall be sealed in a watertight manner where the pipe passes through the wall of the pump pit.

(m) A water well shall not be constructed in a pit, basement, garage, or crawl space. Each existing water well that is reconstructed, abandoned, or plugged in a basement shall conform to the requirements specified in this article, except that the finished grade of the basement floor shall be considered ground level.

(n) Drilling fluid used during the construction or reconstruction of each water well shall be initially disinfected by mixing sodium hypochlorite with water to produce at least 100 milligrams per liter (mg/l) of available chlorine.

(o) Natural organic or nutrient-producing material shall not be used during the construction, reconstruction, or treatment of a water well, unless this material is flushed from the water well and the groundwater aquifer or aquifers before the water well is completed. Natural organic or nutrient-producing material shall not be added to a grout mix used in the annulus to grout the water well.

(p) Each water well pump shall meet the following requirements:

(1) Each pump installed directly over the casing shall be installed to form an airtight and watertight seal between the top of the casing and the gear or pump head, pump foundation, or pump stand.

(2) A sanitary well seal shall be installed between the pump column pipe or pump suction pipe and the casing if the pump is not mounted directly over the casing and the pump column pipe or pump suction pipe emerges from the top of the casing.

(3) An airtight and watertight seal shall be provided for the cable conduit if submersible pumps are used.

(q) Each sand point constructed, replaced, or reconstructed shall meet the following requirements:

(1) Each sand point shall be constructed by drilling or boring a pilot hole at least three feet below ground surface. The pilot hole shall be at least three inches greater in diameter than the maximum outside diameter of the drive pipe or blank casing if the casing method is used.

(2) Each sand point shall be completed using one of the following methods:

(A) Casing method.

(i) Water well casing that meets the requirements of the department's document titled "approved water well casing: water well casing for water wells other than public water-supply wells," as adopted by reference in paragraph (f)(4), shall be set from at least three feet below the ground surface to at least one foot above the ground surface. The casing shall be sealed between the casing and the pilot hole with grouting material approved by the secretary from the bottom of the casing to ground surface.

(ii) The drive pipe shall be considered the pump drop pipe and shall be capped with a solid cap.

(iii) For underground discharge completions, a "T" joint shall be used.

(iv) A sanitary well seal and a well vent shall be installed on the top of the casing in accordance with subsections (d) and (i).

(B) Drive pipe method.

(i) A sand point may be installed without a casing for aboveground discharge completions only. In these completions, the drive pipe shall terminate at least one foot above finished ground level.

(ii) The annulus between the drive pipe and the pilot hole shall be sealed from the bottom of the pilot hole to ground surface with grout. The top of the drive pipe shall be sealed airtight and watertight with a solid cap of the same material as that of the drive pipe.

(iii) A well vent shall not be required.

(C) Other methods. Other methods may be approved by the secretary on a case-by-case basis using the appeal procedure specified in K.A.R. 28-30-9.

(r) Upon abandonment of a sand point, the contractor or landowner shall pull the drive pipe or leave it in place.

(1) If the drive pipe is left in place, the sand point shall be plugged from the bottom of the well to three feet below the ground surface with approved grouting material. The sand point con-

structed by the drive pipe method shall be cut off three feet below the ground surface, and the remaining three-foot-deep hole shall be backfilled with surface soil.

(2) If the drive pipe is completely pulled, the remaining hole shall be plugged with approved grouting material from the bottom of the remaining hole to three feet below the ground surface. The hole shall be backfilled with surface soil from three feet to ground surface.

(s) Each monitoring well shall be an above-grade surface completion, unless the monitoring well is located on a roadway, sidewalk, driveway, parking lot, or other heavily trafficked area that requires an at-grade surface completion monitoring well. The following requirements shall be met for each at-grade surface completion:

(1) The location of each monitoring well shall be identified by a unique well number marked on a scaled map that shows latitude and longitude coordinates. The water well contractor shall submit the scaled map and coordinates to the department with the water well record form provided by the department.

(2) The construction method for each monitoring well shall meet the requirements of the department's procedure document titled "flush-mount well construction detail," dated May 23, 2012, which is hereby adopted by reference. (Authorized by K.S.A. 82a-1205; implementing K.S.A. 82a-1202 and 82a-1205; effective, E-74-34, July 2, 1974; modified, L. 1975, ch. 481, May 1, 1975; amended May 1, 1980; amended May 1, 1983; amended May 1, 1987; amended June 21, 1993; amended June 7, 2013.)

Article 31.—HAZARDOUS WASTE MANAGEMENT STANDARDS AND REGULATIONS

28-31-1. (Authorized by and implementing K.S.A. 2001 Supp. 65-3431; effective, E-82-20, Nov. 4, 1981; effective May 1, 1982; amended, T-86-32, Sept. 24, 1985; amended May 1, 1986; amended May 1, 1987; amended May 1, 1988; amended Feb. 5, 1990; amended April 25, 1994; amended June 4, 1999; amended Sept. 20, 2002; revoked April 29, 2011.)

28-31-2. (Authorized by and implementing K.S.A. 2001 Supp. 65-3431; effective, E-82-20, Nov. 4, 1981; effective May 1, 1982; amended, T-84-5, Feb. 10, 1983; amended May 1, 1984;

amended, T-85-42, Dec. 19, 1984; amended May 1, 1985; amended, T-86-32, Sept. 24, 1985; amended May 1, 1986; amended May 1, 1987; amended May 1, 1988; amended Feb. 5, 1990; amended April 25, 1994; amended June 4, 1999; amended Sept. 20, 2002; revoked April 29, 2011.)

28-31-3. (Authorized by and implementing K.S.A. 2001 Supp. 65-3431; effective, E-82-20, Nov. 4, 1981; effective May 1, 1982; amended, T-84-5, Feb. 10, 1983; amended May 1, 1984; amended, T-85-42, Dec. 19, 1984; amended May 1, 1985; amended, T-86-32, Sept. 24, 1985; amended May 1, 1986; amended May 1, 1987; amended May 1, 1988; amended Feb. 5, 1990; amended April 25, 1994; amended June 4, 1999; amended Sept. 20, 2002; revoked April 29, 2011.)

28-31-4. EPA identification numbers; notification requirement for hazardous waste, universal waste, and used oil activities. Each reference in this regulation to a federal regulation shall mean that federal regulation as adopted by reference in K.A.R. 28-31-124 through 28-31-279.

(a) Each person who is required to obtain an EPA identification number by 40 CFR part 124 or 40 CFR parts 260 through 279 and each Kansas small quantity generator shall notify the department of their hazardous waste, universal waste, and used oil activities and shall obtain an EPA identification number by submitting to the department KDHE form 8700-12 or another form approved by the secretary.

(b) Each person that is newly subject to these notification requirements due to promulgation of a statute or regulation shall notify the department of that person's hazardous waste, universal waste, and used oil activities within 60 days of the effective date of the statute or regulation, unless a different date is specified in that statute or regulation.

(c) Each person shall update the information associated with that person's EPA identification number if there is a change in the information. The person shall submit these changes to the department on KDHE form 8700-12 or another form approved by the secretary, no more than 60 days after the change occurs. (Authorized by and implementing K.S.A. 65-3431; effective, E-82-20, Nov. 4, 1981; effective May 1, 1982; amended, T-84-5, Feb. 10, 1983; amended May 1, 1984; amended, T-86-32, Sept. 24, 1985; amended May 1, 1986; amended May 1, 1987; amended May 1, 1988; amended Feb. 5, 1990; amended April 25,

1994; amended March 22, 1996; amended June 4, 1999; amended Sept. 20, 2002; amended April 29, 2011.)

28-31-5. (Authorized by and implementing K.S.A. 65-3431 and K.S.A. 65-3458; effective, E-82-20, Nov. 4, 1981; effective May 1, 1982; amended, T-86-6, March 22, 1985; amended, T-86-32, Sept. 24, 1985; amended, May 1, 1986; amended May 1, 1987; amended Feb. 5, 1990; amended April 25, 1994; revoked April 29, 2011.)

28-31-6. Registration and insurance requirements for transporters of hazardous waste and used oil. Each reference in this regulation to a federal regulation shall mean that federal regulation as adopted by reference in K.A.R. 28-31-124 through 28-31-279. (a) Applicability. This regulation shall apply to the following:

(1) Each person that transports hazardous waste and is subject to the requirements of K.A.R. 28-31-263a; and

(2) each person that transports used oil and is subject to the requirements of 40 CFR part 279, subpart E.

(b) Registration. Each transporter shall register with the secretary according to the following requirements:

(1) The transporter shall submit the registration application on forms provided by the department.

(2) The transporter shall obtain written acknowledgment from the secretary that registration is complete before transporting hazardous waste or used oil within, into, out of, or through Kansas.

(3) The transporter shall carry a copy of the written acknowledgment in all vehicles transporting hazardous waste or used oil and shall provide the written acknowledgment for review upon request.

(4) The transporter shall update the registration information if there is a change in that information. The transporter shall submit these changes on forms provided by the department within 60 days of the date of the change.

(c) Insurance requirements. Each transporter shall secure and maintain liability insurance on each of the transporter's vehicles transporting hazardous waste or used oil in Kansas.

(1) The limits of insurance shall not be less than \$1 million per person and \$1 million per occurrence for bodily injury or death and \$1 million for all damage to the property of others. When com-

bined bodily injury or death and property damage coverage are provided, the total limits shall not be less than \$1 million.

(2) If any coverage is reduced or canceled, the transporter shall notify the secretary in writing at least 35 days before the effective date of the reduction or cancellation.

(3) The transporter shall, before the expiration date of the insurance policy, provide the secretary with proof of periodic renewal in the form of a certificate of insurance showing the monetary coverage and the expiration date.

(d) Denial or suspension of registration.

(1) Any application may be denied and any transporter's registration may be suspended if the secretary determines that one or more of the following apply:

(A) The transporter failed or continues to fail to comply with any of the following:

(i) Provisions of the air, water, or waste statutes relating to environmental protection or to the protection of public health or safety, including regulations issued by Kansas or by the federal government; or

(ii) any condition of any permit or order issued to the transporter by the secretary.

(B) Any state or territory or the District of Columbia has found that the applicant or transporter has violated that government's hazardous waste or used oil transporter laws or regulations.

(C) One or more of the following is a principal of another corporation that would not be eligible for registration:

(i) The transporter;

(ii) a person who holds an interest in the transporter;

(iii) a person who exercises total or partial control of the transporter; or

(iv) a person who is a principal of the parent corporation.

(2) Each notice of denial or suspension shall be issued in writing by the secretary and shall inform the applicant or transporter of the procedures for requesting a hearing pursuant to K.S.A. 65-3456a and amendments thereto. (Authorized by and implementing K.S.A. 65-3431; effective, E-82-20, Nov. 4, 1981; effective May 1, 1982; amended, T-84-5, Feb. 10, 1983; amended May 1, 1984; amended, T-86-32, Sept. 24, 1985; amended May 1, 1986; amended May 1, 1987; amended May 1, 1988; amended Feb. 5, 1990; amended April 25, 1994; amended June 4, 1999; amended Sept. 20, 2002; amended April 29, 2011.)

28-31-7. (Authorized by and implementing K.S.A. 1984 Supp. 65-3431; effective, E-82-20, Nov. 4, 1981; effective May 1, 1982; amended, T-85-42, Dec. 19, 1984; amended May 1, 1985; revoked April 29, 2011.)

28-31-8. (Authorized by and implementing K.S.A. 2001 Supp. 65-3431; effective, E-82-20, Nov. 4, 1981; effective May 1, 1982; amended, T-84-5, Feb. 10, 1983; amended May 1, 1984; amended, T-86-32, Sept. 24, 1985; amended May 1, 1986; amended May 1, 1987; amended May 1, 1988; amended Feb. 5, 1990; amended April 25, 1994; amended June 4, 1999; amended Sept. 20, 2002; revoked April 29, 2011.)

28-31-8b. (Authorized by and implementing K.S.A. 2001 Supp. 65-3431; effective Feb. 5, 1990; amended April 25, 1994; amended June 4, 1999; amended Sept. 20, 2002; revoked April 29, 2011.)

28-31-9. (Authorized by and implementing K.S.A. 2001 Supp. 65-3431; effective, E-82-20, Nov. 4, 1981; effective May 1, 1982; amended, T-84-5, Feb. 10, 1983; amended May 1, 1984; amended, T-86-32, Sept. 24, 1985; amended May 1, 1986; amended May 1, 1987; amended May 1, 1988; amended Feb. 5, 1990; amended April 25, 1994; amended June 4, 1999; amended Sept. 20, 2002; revoked April 29, 2011.)

28-31-10. Hazardous waste monitoring fees. Each reference in this regulation to a federal regulation shall mean that federal regulation as adopted by reference in K.A.R. 28-31-124 through 28-31-279. (a) Fee requirement. Each of the following persons shall pay an annual monitoring fee to the department according to the requirements of subsections (b) through (e):

(1) Each owner or operator of a hazardous waste treatment, storage, or disposal facility;

(2) each hazardous waste transporter; and

(3) each hazardous waste generator.

(b) Hazardous waste treatment, storage, or disposal facilities. The owner or operator of each facility shall pay the annual monitoring fee before January 1 of each year.

(1) The fee for each active facility shall be based on the following schedule:

(A) On-site storage facility.....	\$10,000
(B) Off-site storage facility	\$10,000
(C) On-site nonthermal treatment facility	\$10,000

(D) Off-site nonthermal treatment facility	\$12,000
(E) On-site thermal treatment facility ..	\$12,000
(F) Off-site thermal treatment facility ..	\$18,000
(G) On-site landfill or underground injection well	\$14,000
(H) Off-site landfill or underground injection well	\$18,000

(2) The fee for each facility subject to postclosure care shall apply upon receipt by the department of the certification of closure specified in 40 CFR 264.115 or 40 CFR 265.115. This fee shall be \$14,000.

(3) The owner or operator of each facility conducting more than one of the hazardous waste activities specified in paragraphs (b)(1) and (2) shall pay a single fee. This fee shall be in the amount specified for the activity having the highest fee of those conducted.

(c) Hazardous waste transporters. Each hazardous waste transporter shall pay the annual monitoring fee when the transporter registers with the department in accordance with K.A.R. 28-31-6, and before January 1 of each subsequent year. This fee shall be \$200.

(d) Hazardous waste generators.

(1) Each large quantity generator shall pay the annual monitoring fee before March 1 of each year.

(A) The fee shall be based on all hazardous waste generated during the previous calendar year according to the following schedule:

Total Yearly Quantity Generated	Monitoring Fee
Less than or equal to 5 tons	\$300
Greater than 5 tons but less than or equal to 50 tons	\$900
Greater than 50 tons but less than or equal to 500 tons	\$2,800
Greater than 500 tons	\$8,000

(B) Each large quantity generator that reclaims hazardous waste on-site to recover substantial amounts of energy or materials shall be exempt from payment of monitoring fees for the amount of hazardous waste reclaimed. This exemption shall not apply to hazardous waste residues produced during reclamation.

(2) Each small quantity generator and each Kansas small quantity generator shall pay the annual monitoring fee of \$150 before April 1 of each year.

(e) Monitoring fee payments. Each monitoring fee payment that is made by check or money order shall be made payable to the "hazardous waste management fund - Kansas department of health and environment."

This regulation shall be effective on and after July 1, 2012. (Authorized by and implementing K.S.A. 65-3431; effective, E-82-20, Nov. 4, 1981; effective May 1, 1982; amended, T-85-2, Jan. 13, 1984; amended May 1, 1984; amended, T-85-42, Dec. 19, 1984; amended May 1, 1985; amended, T-86-32, Sept. 24, 1985; amended May 1, 1986; amended, T-87-49, Dec. 19, 1986; amended May 1, 1987; amended May 1, 1988; amended April 25, 1994; amended March 22, 1996; amended June 4, 1999; amended Sept. 20, 2002; amended Oct. 29, 2004; amended April 29, 2011; amended July 1, 2012.)

28-31-12. Inspections. (a) Upon presentation of credentials and stating the purpose of the visit, the following actions may be performed during the regular business hours of the facility by the secretary or the secretary's designee:

(1) Entering any factory, plant, construction site, hazardous waste storage, treatment, or disposal facility, or other location where hazardous wastes could potentially be generated, stored, treated, or disposed of, and inspecting the premises to gather information regarding existing conditions and procedures;

(2) obtaining samples of actual or potential hazardous waste from any person or from the property of any person, including samples from any vehicle in which hazardous wastes are being transported;

(3) stopping and inspecting any vehicle, if there is reasonable cause to believe that the vehicle is transporting hazardous wastes;

(4) conducting tests, analyses, and evaluations of wastes and waste-like materials to determine whether or not the wastes or materials are hazardous and whether or not the requirements of these regulations are being met;

(5) obtaining samples from any containers;

(6) making reproductions of container labels;

(7) inspecting and copying any records, reports, information, or test results relating to wastes generated, stored, transported, treated, or disposed of;

(8) photographing or videotaping any hazardous waste management facility, device, structure, or equipment;

(9) drilling test wells or groundwater monitoring wells on the property of any person where hazardous wastes are generated, stored, transported, treated, disposed of, discharged, or migrating off-site and obtaining samples from the wells; and

(10) conducting tests, analyses, and evaluations of soil, groundwater, surface water, and air to determine whether the requirements of these regulations are being met.

(b) If, during the inspection, unsafe or unpermitted hazardous waste management procedures are discovered, the operator of the facility may be instructed by the secretary or the secretary's designee to retain and properly store hazardous wastes, pertinent records, samples, and other items. These materials shall be retained by the operator until the waste has been identified and the secretary determines the proper procedures to be used in handling the waste.

(c) When obtaining samples, the facility operator shall be allowed to collect duplicate samples for separate analyses.

(d) During the inspection, all reasonable security, safety, and sanitation measures employed at the facility shall be followed by the secretary or the secretary's designee.

(e) A written report listing all deficiencies found during the inspection and stating the measures required to correct the deficiencies shall be prepared and sent to the operator. (Authorized by and implementing K.S.A. 65-3431; effective May 1, 1982; amended, T-85-42, Dec. 19, 1984; amended May 1, 1985; amended May 1, 1987; amended June 4, 1999; amended April 29, 2011.)

28-31-13. Variances. (a) Application. Any person may apply for a variance from one or more specific provisions of these regulations according to the following criteria:

(1) An application for a variance may be submitted for any provision that is determined by the U.S. environmental protection agency to be more stringent or broader in scope than the federal hazardous waste regulations.

(2) The application shall be submitted to the department on a form provided by the department.

(3) The applicant shall state the reasons and circumstances that support the application and shall submit all other pertinent data to support the application.

(b) Review and public comment. A tentative decision to grant or deny a variance shall be made by the secretary according to the following criteria:

(1) A tentative decision shall be made within 60 days of receipt of the application by the department.

(2) A notice of the tentative decision and the opportunity for written public comment shall be published by the department in the following publications:

(A) The Kansas register; and

(B) the official county newspaper of the county in which the variance is requested or, if there is no official county newspaper, a newspaper published as provided in K.S.A. 64-101, and amendments thereto.

(3) Upon the written request of any person, a public meeting may be held to consider comments on the tentative decision. The person requesting a public meeting shall state the issues to be raised and shall explain why written comments would not suffice to communicate the person's views.

(c) Final decision. After all public comments have been evaluated, a final decision shall be made by the secretary according to the following criteria:

(1) A variance may be granted by the secretary if the variance meets the following requirements:

(A) The variance shall not be any less stringent than the federal hazardous waste regulations.

(B) The variance shall be protective of public health and safety and the environment.

(2) A notice of the final decision shall be published by the department in the Kansas register.

(A) If the variance is granted, all conditions and time limitations needed to comply with state or federal laws or to protect public health or safety or the environment shall be specified by the secretary.

(B) The date the variance expires shall be provided in the final decision.

(d) Extension of a prior or existing variance. Any person may submit a request in writing to extend a prior or existing variance that meets the requirements of this regulation, according to the following criteria:

(1) The person shall demonstrate the need for continuation of the variance.

(2) The variance may be reissued or extended for another period upon a finding by the secretary that the reissuance or extension of the variance would not endanger public health or safety or the environment.

(3) The review, public comment, and the final decision procedures shall be the same as those specified in subsections (b) and (c).

(e) Termination of a variance. Any variance granted pursuant to this regulation may be terminated, if the secretary finds one or more of the following conditions:

(1) Violation of any requirement, condition, schedule, or limitation of the variance;

(2) operation under the variance that fails to meet the minimum requirements established by state or federal law or regulations; or

(3) operation under the variance that is unreasonably threatening public health or safety or the environment. Written notice of termination shall be provided by the secretary to the person granted the variance. (Authorized by and implementing K.S.A. 65-3431; effective May 1, 1982; amended, T-85-42, Dec. 19, 1984; amended May 1, 1985; amended May 1, 1987; amended June 4, 1999; amended April 29, 2011.)

28-31-14. (Authorized by and implementing K.S.A. 2001 Supp. 65-3431; effective May 1, 1988; amended Feb. 5, 1990; amended April 25, 1994; amended June 4, 1999; amended Sept. 20, 2002; revoked April 29, 2011.)

28-31-15. (Authorized by and implementing K.S.A. 2001 Supp. 65-3431; effective June 4, 1999; amended Sept. 20, 2002; revoked April 29, 2011.)

28-31-16. (Authorized by and implementing K.S.A. 2001 Supp. 65-3431; effective June 4, 1999; amended Sept. 20, 2002; revoked April 29, 2011.)

28-31-100. Substitution of state terms for federal terms; internal references to federal regulations. When used in any provision of 40 CFR part 124, parts 260 through 266, or part 268, 270, 273, or 279, as adopted by reference by K.A.R. 28-31-124 through 28-31-279, the following substitutions shall be made unless otherwise specified in K.A.R. 28-31-124 through 28-31-279:

(a) References to federal regulations that are adopted by reference. Each reference to 40 CFR parts 124, 260 through 268, 270, 273, and 279 shall mean that federal regulation as adopted by reference in K.A.R. 28-31-124 through K.A.R. 28-31-279.

(b) References to federal regulations that are not adopted by reference.

(1) 40 CFR part 124.

(A) Each reference to 40 CFR part 124 in its entirety shall be replaced with “K.A.R. 28-31-124 through 28-31-124e.”

(B) Each reference to 40 CFR 124, subpart A in its entirety shall be replaced with “K.A.R. 28-31-124 through 28-31-124e.”

(C) Each reference to 40 CFR 124.2 or any portion of 40 CFR 124.2 shall be replaced with “40 CFR 270.2.”

(D) Each reference to 40 CFR 124.3 or any portion of 40 CFR 124.3 shall be replaced with “K.A.R. 28-31-124a.”

(E) Each reference to 40 CFR 124.5 or any portion of 40 CFR 124.5 shall be replaced with “K.A.R. 28-31-124b.”

(F) Each reference to 40 CFR 124.6 or any portion of 40 CFR 124.6 shall be replaced with “K.A.R. 28-31-124c.”

(G) Each reference to 40 CFR 124.8 or any portion of 40 CFR 124.8 shall be replaced with “K.A.R. 28-31-124d.”

(H) Each reference to 40 CFR 124.10 or any portion of 40 CFR 124.10 shall be replaced with “K.A.R. 28-31-124e,” except in 40 CFR 124.204(d)(10), where the phrase “§ 124.10(c)(1)(ix) and (c)(1)(x)(A)” shall be replaced with “K.A.R. 28-31-124e(e)(1)(D) and (E).”

(I) The following phrases shall be replaced with “in accordance with K.S.A. 65-3440, and amendments thereto,”:

(i) “[A]ccording to the procedures of § 124.19”;

(ii) “pursuant to 40 CFR 124.19”;

(iii) “under § 124.19”;

(iv) “under § 124.19 of this chapter”;

(v) “under § 124.19 of this part”;

(vi) “under the permit appeal procedures of 40 CFR 124.19.”

(2) 40 CFR 260.20 through 260.23. Each reference to 40 CFR 260.20, 260.21, 260.22, or 260.23, or any combination of these references, shall be replaced with the phrase “EPA’s rulemaking petition program.” (Authorized by and implementing K.S.A. 65-3431; effective April 29, 2011.)

28-31-100a. Substitution of state terms for federal terms; administrator. When used in any provision of 40 CFR part 124, parts 260 through 266, or part 268, 270, 273, or 279, as adopted by reference by K.A.R. 28-31-124 through 28-31-279, the following substitutions shall be made unless otherwise specified in K.A.R. 28-31-124 through 28-31-279:

(a) The following terms and phrases shall be replaced with “secretary,” except as noted in subsection (b):

(1) “Administrator”;

- (2) “[a]dministrator or State Director”;
 - (3) “applicable EPA Regional Administrator”;
 - (4) “appropriate Regional Administrator or state Director”;
 - (5) “[a]ssistant Administrator”;
 - (6) “[a]ssistant Administrator for Solid Waste and Emergency Response”;
 - (7) “EPA Regional Administrator”;
 - (8) “EPA Regional Administrator(s)”;
 - (9) “EPA Regional Administrator (or his designated representative) or State authorized to implement part 268 requirements”;
 - (10) “EPA Regional Administrator for the Region in which the generator is located”;
 - (11) “EPA Regional Administrator(s) for the Region(s) in which the facility(ies) is(are) located”;
 - (12) “EPA Regional Administrator(s) of the EPA Region(s) in which the bonded facility(ies) is (are) located”;
 - (13) “EPA Regional Administrators of the Regions in which the facilities are located, or their designees”;
 - (14) “[r]egional Administrator”;
 - (15) “[r]egional Administrator(s)”;
 - (16) “[r]egional Administrator of every Region in which facilities for which financial responsibility is to be demonstrated through the financial test are located”;
 - (17) “[r]egional Administrator or state Director”;
 - (18) “[r]egional Administrator, or State Director, as the context requires, or an authorized representative (‘director’ as defined in 40 CFR 270.2)”;
 - (19) “[r]egional Administrator, or State Director (if located in an authorized state)”;
 - (20) “[r]egional Administrator(s) of the EPA Region(s) in which the facility(ies) is(are) located”; and
 - (21) “USEPA Regional Administrator for Region [Region #].”
- (b) The terms listed in subsection (a) shall not be replaced with “secretary” in the following federal regulations:
- (1) 40 CFR 260.10, in the following definitions:
 - (A) “Administrator”;
 - (B) “equivalent method”;
 - (C) “hazardous waste constituent”;
 - (D) “industrial furnace”; and
 - (E) “regional administrator”;
 - (2) 40 CFR part 261, in the following locations:
 - (A) 40 CFR 261.10;
 - (B) 40 CFR 261.11; and
 - (C) 40 CFR 261.21;
 - (3) 40 CFR part 262, subparts E and H and the appendix;
 - (4) 40 CFR part 264, in the following locations:
 - (A) 40 CFR 264.12(a);
 - (B) 40 CFR 264.151(b), in the first paragraph of the financial guarantee bond;
 - (C) 40 CFR 264.151(c), in the first paragraph of the performance bond; and
 - (D) 40 CFR 265.12(a);
 - (5) 40 CFR part 268, in the following locations:
 - (A) 40 CFR 268.5;
 - (B) 40 CFR 268.6;
 - (C) 40 CFR 268.40(b);
 - (D) 40 CFR 268.42(b); and
 - (E) 40 CFR 268.44; and
 - (6) 40 CFR part 270, in the following locations:
 - (A) 40 CFR 270.2, in the following definitions:
 - (i) “Administrator”;
 - (ii) “corrective action management unit or CAMU”;
 - (iii) “director”;
 - (iv) “major facility”;
 - (v) “regional administrator”; and
 - (vi) “state/EPA agreement”;
 - (B) 270.5;
 - (C) 270.10(e)(2) and (3);
 - (D) 270.10(f)(3); and
 - (E) 270.11(a)(3). (Authorized by and implementing K.S.A. 65-3431; effective April 29, 2011.)
- 28-31-100d. Substitution of state terms for federal terms; DOT, director.** When used in any provision of 40 CFR part 124, parts 260 through 266, or part 268, 270, 273, or 279, as adopted by reference by K.A.R. 28-31-124 through 28-31-279, the following substitutions shall be made unless otherwise specified in K.A.R. 28-31-124 through 28-31-279:
- (a) Department of transportation. The terms “Department of Transportation” and “DOT” shall be replaced with “U.S. department of transportation,” except in the following instances:
 - (1) In an address;
 - (2) in the term “DOT hazard class”;
 - (3) in the term “U.S. Department of Transportation (DOT)”;
 - (4) in the term “U.S. DOT.”
 - (b) Director.
 - (1) The following terms shall be replaced with “secretary” except as noted in paragraphs (b)(2) through (4):
 - (A) “Director” and “Directors”;
 - (B) “[d]irector of an EPA permitting agency”;

(C) “[r]egional or State Directors to whom the claim was submitted”;

(D) “[r]egional or State RCRA and CAA Directors, in whose jurisdiction the exclusion is being claimed and where the comparable/syngas fuel will be burned”;

(E) “[s]tate and Regional Directors”; and

(F) “[s]tate Director.”

(2) The term “Director” shall not be replaced with “secretary” when used in the following terms:

(A) “Director of the Federal Register”;

(B) “[d]irector, Office of Hazardous Materials Regulations”; and

(C) “EPA Director of the Office of Solid Waste.”

(3) The term “directors” shall not be replaced with “secretary” in the term “Board of Directors.”

(4) The terms “Director,” “Directors,” and “State Director” shall not be replaced with “secretary” in the following locations:

(A) 40 CFR part 262, in the appendix;

(B) 40 CFR 266.201 and 266.210, in the definition of “director”; and

(C) 40 CFR 270.2, in the following definitions:

(i) “Director”; and

(ii) “state director.” (Authorized by and implementing K.S.A. 65-3431; effective April 29, 2011.)

28-31-100e. Substitution of state terms for federal terms; engineer, environmental appeals board, EPA. When used in any provision of 40 CFR part 124, parts 260 through 266, or part 268, 270, 273, or 279, as adopted by reference by K.A.R. 28-31-124 through 28-31-279, the following substitutions shall be made unless otherwise specified in K.A.R. 28-31-124 through 28-31-279:

(a) Engineer. The following terms shall be replaced with “Kansas professional engineer”:

(1) “[G]eotechnical engineer”;

(2) “PE”;

(3) “professional engineer”;

(4) “qualified engineer”;

(5) “qualified Professional Engineer”;

(6) “qualified registered professional engineer”;

(7) “qualified, registered professional engineer”; and

(8) “registered professional engineer.”

(b) Environmental appeals board.

(1) The term “Environmental Appeals Board” shall be replaced with “secretary.”

(2) The term “EPA’s Environmental Appeals Board” shall be replaced with “the secretary.”

(c) Environmental protection agency.

(1) The following terms shall be replaced with “department” or “the department” except as noted in paragraphs (2) through (6) of this subsection:

(A) “Agency”;

(B) “applicable EPA Regional Office, Hazardous Waste Division”;

(C) “appropriate regional EPA office”;

(D) “[e]nvironmental Protection Agency”;

(E) “[e]nvironmental Protection Agency (EPA)”;

(F) “EPA”;

(G) “EPA Headquarters”;

(H) “EPA region”;

(I) “EPA region or authorized state”;

(J) “EPA regional office”;

(K) “regulatory agency”;

(L) “United States Environmental Protection Agency”;

(M) “United States Environmental Protection Agency (EPA)”;

(N) “U.S. Environmental Protection Agency”; and

(O) “U.S. Environmental Protection Agency (EPA).”

(2) The terms listed in paragraph (1) of this subsection shall not be replaced with “the department” in the following instances:

(A) Where the term is used in an address; and

(B) where the term is part of an EPA document name or number.

(3) The term “Agency” shall not be replaced with “the department” when used as part of the following terms in the singular or plural:

(A) “Agency of the Federal government”;

(B) “agency of the Federal or State government”;

(C) “[f]ederal Agency”;

(D) “oversight agency”; and

(E) “[s]tate agency.”

(4) The term “Environmental Protection Agency” shall not be replaced with “the department” when used as part of the term “Environmental Protection Agency identification number.”

(5) The term “EPA” shall not be replaced with “the department” when used as part of the following terms in the singular or plural:

(A) “EPA Acknowledgment of Consent”;

(B) “EPA Director of the Office of Solid Waste”;

(C) “EPA facility ID number”;

(D) “EPA Form”;

(E) “EPA guidance”;

(F) “EPA Hazardous Waste”;

(G) “EPA Hazardous Waste Code”;

(H) “EPA Hazardous Waste No.”;
 (I) “EPA Hazardous Waste Number”;
 (J) “EPA identification number”;
 (K) “EPA Manual”;
 (L) “EPA Publication”;
 (M) “EPA Protocol”;
 (N) “EPA standard method”;
 (O) “EPA test method”;
 (P) “EPA waste code”; and
 (Q) “U.S. EPA Identification Number.”
 (6) The terms listed in paragraph (c)(1) shall not be replaced with “the department” in the following locations:
 (A) 40 CFR part 124, in the following locations:
 (i) 124.200; and
 (ii) 124.207;
 (B) 40 CFR 260.10, in the following definitions:
 (i) “Administrator”;
 (ii) “EPA hazardous waste number”;
 (iii) “EPA identification number”;
 (iv) “EPA region”;
 (v) “federal agency”;
 (vi) “regional administrator”; and
 (vii) “replacement unit”;
 (C) 40 CFR part 261, appendix I;
 (D) 40 CFR part 262, in the following locations:
 (i) 40 CFR 262.21;
 (ii) 40 CFR 262.32(b); and
 (iii) 40 CFR part 262, subparts E, F, and H and the appendix;
 (E) 40 CFR part 264, in the following locations:
 (i) In 40 CFR 264.151, where only the term “agency” shall not be replaced; and
 (ii) in 40 CFR 264.1082(c)(4)(ii), the second occurrence of “EPA”;
 (F) in 40 CFR 265.1083(c)(4)(ii), the second occurrence of “EPA”;
 (G) 40 CFR part 266, appendix IX, sections 4 through 9, except that the first occurrence of the term “EPA” in section 8.0 shall be replaced with “the department”;
 (H) 40 CFR 267.143;
 (I) 40 CFR part 268, in the following locations:
 (i) 40 CFR 268.1(e)(3);
 (ii) 40 CFR 268.2(j);
 (iii) 40 CFR 268.5;
 (iv) 40 CFR 268.7(e); and
 (v) 40 CFR 268.44;
 (J) 40 CFR part 270, in the following locations:
 (i) 40 CFR 270.2, in the definitions of “administrator,” “application,” “approved program or approved state,” “director,” “environmental protection agency (EPA),” “EPA,” “final authoriza-

tion,” “interim authorization,” “permit,” “regional administrator,” and “state/EPA agreement”;
 (ii) 40 CFR 270.5;
 (iii) 40 CFR 270.10(e)(2);
 (iv) 40 CFR 270.11(a)(3);
 (v) 40 CFR 270.51(d);
 (vi) 40 CFR 270.72(a)(5) and (b)(5); and
 (vii) 40 CFR 270.225; and
 (K) 40 CFR part 273, in the following locations:
 (i) 40 CFR 273.32(a)(3); and
 (ii) 40 CFR 273.52.
 (d) EPA form 8700-12. The term “EPA Form 8700-12” shall be replaced with “KDHE form 8700-12.”
 (e) EPA form 8700-13B. The term “EPA form 8700-13B” shall be replaced with “KDHE form 8700-13b.” (Authorized by and implementing K.S.A. 65-3431; effective April 29, 2011.)

28-31-100f. Substitution of state terms for federal terms; federal register. When used in any provision of 40 CFR part 124, parts 260 through 266, or part 268, 270, 273, or 279, as adopted by reference by K.A.R. 28-31-124 through 28-31-279, the substitutions specified in this regulation shall be made unless otherwise specified in K.A.R. 28-31-124 through 28-31-279. The term “Federal Register” shall be replaced with “Kansas register” except in the following locations:
 (a) 40 CFR 266.203(c) and 266.205(e);
 (b) 40 CFR 268.5(e);
 (c) 40 CFR 268.6(j);
 (d) 40 CFR part 268, subpart D; and
 (e) 40 CFR 270.10(e)(2). (Authorized by and implementing K.S.A. 65-3431; effective April 29, 2011.)

28-31-100p. Substitution of state terms for federal terms; part B, permitting agency or authority. When used in any provision of 40 CFR part 124, parts 260 through 266, or part 268, 270, 273, or 279, as adopted by reference by K.A.R. 28-31-124 through 28-31-279, the following substitutions shall be made unless otherwise specified in K.A.R. 28-31-124 through 28-31-279:
 (a) Part B. The following phrases shall be replaced with “part B application”:
 (1) “[P]art B of the RCRA application”; and
 (2) “RCRA part B application.”
 (b) Permitting agency or authority. The following terms shall be replaced with “department” or “the department”:
 (1) “[P]ermitting agency”;

- (2) “permitting authority”;
- (3) “permitting authority for the facility”;
- (4) “permitting authority of the state or territory where the facility is located”; and
- (5) “permitting authority of the state or territory where the facility(ies) is(are) located.” (Authorized by and implementing K.S.A. 65-3431; effective April 29, 2011.)

28-31-100q. Substitution of state terms for federal terms; qualified geologist, qualified soil scientist. When used in any provision of 40 CFR part 124, parts 260 through 266, or part 268, 270, 273, or 279, as adopted by reference by K.A.R. 28-31-124 through 28-31-279, the following substitutions shall be made unless otherwise specified in K.A.R. 28-31-124 through 28-31-279:

(a) Qualified geologist. The term “qualified geologist” shall be replaced with “Kansas licensed geologist.”

(b) Qualified soil scientist. The term “qualified soil scientist” shall be replaced with “Kansas licensed geologist.” (Authorized by and implementing K.S.A. 65-3431; effective April 29, 2011.)

28-31-100r. Substitution of state terms for federal terms; RCRA. When used in any provision of 40 CFR part 124, parts 260 through 266, or part 268, 270, 273, or 279, as adopted by reference by K.A.R. 28-31-124 through 28-31-279, the following substitutions shall be made unless otherwise specified in K.A.R. 28-31-124 through 28-31-279:

(a) General references to the RCRA program and subtitle C.

(1) The following terms shall be replaced with “Kansas hazardous waste program” or “the Kansas hazardous waste program” except as noted in paragraphs (2) and (3) and subsections (o) through (q):

- (A) “RCRA”;
- (B) “RCRA hazardous waste”;
- (C) “RCRA hazardous waste management”;
- (D) “RCRA program”;
- (E) “RCRA subtitle C”;
- (F) “[r]esource Conservation and Recovery Act”;
- (G) “[r]esource Conservation and Recovery Act as amended (RCRA)”;
- (H) “[r]esource Conservation and Recovery Act of 1976 as amended”;
- (I) “[s]ubtitle C”;
- (J) “subtitle C of RCRA”; and
- (K) “subtitle C of the Resource Conservation and Recovery Act (RCRA).”

(2) The term “RCRA” shall not be replaced with “Kansas hazardous waste program” when used in the following terms, in the singular or plural:

- (A) “RCRA facility ID number”;
- (B) “RCRA hazardous waste code”;
- (C) “RCRA ID number”;
- (D) “RCRA identification number”;
- (E) “non-RCRA tank”;
- (F) “RCRA/Superfund Hotline”;
- (G) “RCRA waste code”; and
- (H) “RCRA Subtitle D.”

(3) The terms listed in paragraph (1) of this subsection shall not be replaced with “Kansas hazardous waste program” when used in the following locations:

(A) The parenthetical authority cited at the end of a section;

(B) 40 CFR 260.10, in the definition of “ ‘act’ or ‘RCRA’ ”;

(C) 40 CFR part 261, in the following locations:

(i) 40 CFR 261.4(e)(2)(iv); and

(ii) 40 CFR 261.38(c)(1)(ii);

(D) 40 CFR part 262, in the following locations:

(i) Subpart H; and

(ii) the appendix;

(E) 40 CFR part 266, in the following locations:

(i) 40 CFR 266.202(d); and

(ii) 40 CFR 266.210 and 266.240, where “RCRA hazardous waste” shall be replaced with “hazardous waste”; and

(F) 40 CFR 270.2, in the definition of “RCRA.”

(b) References to specific sections, subsections, or paragraphs of RCRA.

(1) Section 3010. The following phrases shall be replaced with “K.A.R. 28-31-4”:

(A) “RCRA section 3010”;

(B) “section 3010 of RCRA”;

(C) “section 3010 of the Act”; and

(D) “section 3010(a) of RCRA.”

(2) Section 7003. The following terms shall be replaced with “K.S.A. 65-3443 and 65-3445”:

(A) “[S]ection 7003”; and

(B) “section 7003 of RCRA.”

(c) References to RCRA and subtitle C facilities and disposal units.

(1) The term “RCRA hazardous waste land disposal unit” shall be replaced with “Kansas hazardous waste land disposal unit.”

(2) The term “RCRA hazardous waste management facility” shall be replaced with “Kansas hazardous waste management facility.”

(3) The term “Subtitle C landfill cell” shall be replaced with “Kansas hazardous waste landfill cell.”

(4) The term “Subtitle C monofill” shall be replaced with “Kansas hazardous waste monofill.”

(d) References to permits. The following substitutions shall apply in the singular and plural:

(1) The following phrases shall be replaced with “Kansas hazardous waste facility permit” except as noted in paragraph (d)(2):

- (A) “Permit issued under section 3005 of this act”;
- (B) “permit under RCRA 3005(c)”;
- (C) “permit under RCRA section 3005(c)”;
- (D) “permit under section 3005 of this act”;
- (E) “RCRA hazardous waste permit”;
- (F) “RCRA operating permit”;
- (G) “RCRA permit”;
- (H) “RCRA permit under RCRA section 3005(c)”;

(I) “RCRA, UIC, or NPDES permit”;

(J) “RCRA, UIC, PSD, or NPDES permit”; and

(K) “[s]tate RCRA permit.”

(2) In 40 CFR 270.51(d), the first occurrence of the phrase “RCRA permit” shall not be replaced with “Kansas hazardous waste facility permit.”

(3) The phrase “RCRA-permitted” shall be replaced with “Kansas-permitted.”

(4) The following phrases shall be replaced with “Kansas hazardous waste facility standardized permit”:

(A) “RCRA standardized permit”; and

(B) “RCRA standardized permit (RCRA).”

(5) The phrase “a final permit under RCRA section 3005” shall be replaced with “a final permit issued by EPA under RCRA section 3005 or a Kansas hazardous waste facility permit” in the following locations:

(A) 40 CFR 264.1030(c);

(B) 40 CFR 264.1050(c);

(C) 40 CFR 264.1080(c); and

(D) 40 CFR 265.1080(c). (Authorized by and implementing K.S.A. 65-3431; effective April 29, 2011.)

28-31-100s. Substitution of state terms for federal terms; state. When used in any provision of 40 CFR part 124, parts 260 through 266, or part 268, 270, 273, or 279, as adopted by reference by K.A.R. 28-31-124 through 28-31-279, the following substitutions shall be made unless otherwise specified in K.A.R. 28-31-124 through 28-31-279:

(a) The following terms when used in the singular shall be replaced with “state of Kansas” or “the state of Kansas” except as noted in subsections (b) and (c):

(1) “State” and “a State” when referring to a political entity;

(2) “approved State” and “an approved State”; and

(3) “authorized State” and “an authorized State.”

(b) The term “State” shall not be replaced when used in the following terms in the singular or plural:

(1) “Agreement State”; and

(2) “[s]tate agency.”

(c) The terms listed in subsection (a) shall not be replaced in the following locations:

(1) 40 CFR 124.207(a)(3);

(2) 40 CFR 260.10, in the following definitions:

(A) “Designated facility”;

(B) “explosives or munitions emergency response specialist”;

(C) “person”;

(D) “publicly owned treatment works”; and

(E) “state”;

(3) 40 CFR part 261, in the following locations:

(A) 40 CFR 261.4(g)(2)(i); and

(B) 40 CFR 261.5;

(4) 40 CFR part 262;

(5) 40 CFR part 264, in the following locations:

(A) 40 CFR part 264, subparts C and D;

(B) 40 CFR 264.71(e); and

(C) 40 CFR part 264, subpart H;

(6) 40 CFR part 265, in the following locations:

(A) 40 CFR part 265, subparts C and D;

(B) 40 CFR 265.71(e); and

(C) 40 CFR 265.147;

(7) 40 CFR 266.210, in the following definitions:

(A) “Agreement state”; and

(B) “naturally occurring and/or accelerator-produced radioactive material (NARM)”;

(8) 40 CFR part 267, subparts C, D, and H;

(9) 40 CFR part 270, in the following locations:

(A) 40 CFR 270.2, in the following definitions:

(i) “Approved program or approved state”;

(ii) “director”;

(iii) “final authorization”;

(iv) “interim authorization”;

(v) “person”;

(vi) “POTW”;

(vii) “state”;

(viii) “state director”; and

(ix) “state/EPA agreement”;

(B) 40 CFR 270.10(g)(1)(ii), where only the term “approved State” shall not be replaced;

(C) 40 CFR 270.11(a)(3); and

(D) 40 CFR 270.13;

(10) 40 CFR 273.14(c)(1)(iii); and

(11) 40 CFR 279.24(a)(3). (Authorized by and implementing K.S.A. 65-3431; effective April 29, 2011.)

28-31-124. Procedures for permitting; adoption and modification of federal regulations. (a) Adoption. The provisions of 40 CFR 124.11 through 124.17 and 40 CFR part 124, subparts B and G, as in effect on July 1, 2006, are hereby adopted by reference subject to the following:

(1) The substitution of terms listed in K.A.R. 28-31-100 through 28-31-100s;

(2) the exclusions from adoption listed in subsection (b); and

(3) the modifications listed in subsection (c).

(b) Exclusions. The following portions of 40 CFR 124.12 through 124.17 and 40 CFR part 124, subpart G shall be excluded from adoption:

(1) 40 CFR 124.12(b);

(2) 40 CFR 124.16(b)(2);

(3) 40 CFR 124.17(b);

(4) 40 CFR 124.204(d)(1), (4) through (7), and (9); and

(5) 40 CFR 124.205(a), (c), and (i) through (l).

(c) Modifications. The following modifications shall be made to 40 CFR 124.11 through 124.17 and 40 CFR part 124, subparts B and G:

(1) Each occurrence of the term “decisionmaking” shall be replaced with “permitting.”

(2) Each parenthetical statement starting with “Applicable to State programs” shall be deleted.

(3) In 40 CFR 124.11, the text “or the permit application for 404 permits when no draft permit is required (see § 233.39)” shall be deleted.

(4) In 40 CFR 124.12(a)(3), the phrase “For RCRA permits only,” shall be deleted.

(5) In 40 CFR 124.13, the term “EPA documents” shall be replaced with “EPA or department documents.”

(6) The first sentence of 40 CFR 124.14(a)(4) shall be deleted.

(7) In 40 CFR 124.14(b)(2), the phrase “a revised statement of basis under § 124.7,” shall be deleted.

(8) The following text shall be added to the end of 40 CFR 124.15(b)(2): “by a person who filed comments on the draft permit or participated in the public hearing through written or oral comments. Stays of contested permit conditions are subject to § 124.16.”

(9) In 40 CFR 124.16(a)(1), the following text shall be deleted:

(A) “(No stay of a PSD permit is available under this section.);”

(B) “or new injection well, new source, new discharger or a recommencing discharger”; and

(C) “, injection well, source or discharger pending final agency action. See also § 124.60.”

(10) In 40 CFR 124.16(a)(2)(i), the following text shall be deleted:

(A) “, injection wells, and sources”; and

(B) “, injection well, or source.”

(11) In 40 CFR 124.16(a)(2)(ii), the following text shall be deleted:

(A) “[R]eceiving notification from the EAB of”;

(B) “the EAB,”; and

(C) “[f]or NPDES permits only, the notice shall comply with the requirements of § 124.60(b).”

(12) In 40 CFR 124.16(b), the text “and he or she has accepted each appeal” shall be deleted.

(13) In 40 CFR 124.17(a), the text “States are” shall be replaced with “The department is.”

(14) In 40 CFR 124.17(a)(2), the phrase “or the permit application (for section 404 permits only)” shall be deleted.

(15) In 40 CFR 124.31(a), 124.32(a), and 124.33(a), the following sentence shall be deleted:

“For the purposes of this section only, ‘hazardous waste management units over which EPA has permit issuance authority’ refers to hazardous waste management units for which the State where the units are located has not been authorized to issue RCRA permits pursuant to 40 CFR part 271.”

(16) In 40 CFR 124.204(d)(3), the sentence shall be replaced with “All subsections shall apply.”

(17) In 40 CFR 124.205(d), the text “(b),” shall be deleted.

(18) In 40 CFR 124.208(e), the phrase “§ 124.12(b), (c), and (d)” shall be replaced with “§ 124.12(c) and (d).” (Authorized by K.S.A. 65-3431; implementing K.S.A. 65-3431 and 65-3440; effective April 29, 2011.)

28-31-124a. Procedures for permitting; application for a permit. Each reference in this regulation to 40 CFR part 270 shall mean 40 CFR part 270 as adopted by reference in K.A.R. 28-31-270. (a) Each person that is required to have a Kansas hazardous waste facility permit, as specified in 40 CFR part 270, K.S.A. 65-3433 and amendments thereto, or K.S.A. 65-3437 and amendments thereto, shall submit a completed, signed application to the department.

(b) Before submitting the application, the applicant shall submit to the department a disclosure

statement that contains all information necessary for the secretary to conduct the background investigation required by K.S.A. 65-3437, and amendments thereto.

(1) The disclosure statement shall be submitted on forms provided by the department.

(2) If there is a parent company, the parent company shall submit a separate disclosure statement to the department on forms provided by the department.

(c) The application shall be reviewed by the department after the applicant has fully complied with the requirements of 40 CFR 270.10 and 270.13.

(d) The application signature and certification shall meet the requirements of 40 CFR 270.11.

(e) Applications shall not be required for permits by rule. (Authorized by K.S.A. 65-3431; implementing K.S.A. 65-3431, 65-3433, and 65-3437; effective April 29, 2011.)

28-31-124b. Procedures for permitting; modification, revocation and reissuance, or termination of permits. Each reference in this regulation to a federal regulation shall mean that federal regulation as adopted by reference in K.A.R. 28-31-124 through 28-31-279. (a) Reasons for modification, revocation and reissuance, or termination of a permit. A permit may be modified, revoked and reissued, or terminated by the secretary only for the reasons specified in 40 CFR 270.41, 40 CFR 270.43, and K.S.A. 65-3439 and amendments thereto.

(b) Request for modification, revocation and reissuance, or termination of a permit. Any person, including the permittee or the secretary, may request that a permit be modified, revoked and reissued, or terminated. Each request shall be submitted to the department in writing and shall contain the facts and reasons supporting the request.

(c) Procedures for modification or for revocation and reissuance of a permit. Modification of a permit, and revocation and reissuance of a permit, shall be subject to the following requirements:

(1) A draft permit shall be prepared by the department if either of the following occurs:

(A) The secretary tentatively decides to modify or to revoke and reissue a permit according to the criteria specified in 40 CFR 270.41, other than 40 CFR 270.41(b)(3).

(B) The permittee requests a modification in accordance with 40 CFR 270.42(c).

(2) The draft permit shall be prepared by the department according to the following criteria:

(A) The draft permit shall incorporate the proposed changes.

(B) Additional information from the permittee may be requested by the secretary.

(C) If a permit is modified, the permittee may be required by the secretary to submit an updated application.

(D) If a permit is revoked and reissued for a cause not listed in 40 CFR 270.41(b)(3), the permittee shall submit a new application to the department.

(E) If a permit is revoked and reissued in accordance with 40 CFR 270.41(b)(3), the requirements in 40 CFR part 124, subpart G for standardized permits shall be met by the secretary and the permittee.

(3) If a permit is modified, only those conditions to be modified shall be reopened by the department when a new draft permit is prepared. All other aspects of the existing permit shall remain in effect for the duration of the unmodified permit.

(4) If a permit is revoked and reissued, the entire permit shall be reopened by the department as if the permit had expired and was being reissued. During the revocation and reissuance proceedings, the permittee shall comply with all conditions of the existing permit until a new final permit is reissued.

(5) "Class 1 modifications" and "Class 2 modifications," as defined in 40 CFR 270.42 (a) and (b), shall not be subject to the requirements of this regulation.

(d) Termination of permit. If the secretary tentatively decides to terminate a permit in accordance with 40 CFR 270.43 and the permittee objects, a notice of intent to terminate shall be issued by the secretary. Each notice of intent to terminate shall be deemed a type of draft permit and shall be subject to the procedures specified in K.A.R. 28-31-124c and in K.S.A. 65-3440 and amendments thereto. (Authorized by K.S.A. 65-3431; implementing K.S.A. 65-3431, 65-3437, and 65-3439; effective April 29, 2011.)

28-31-124c. Procedures for permitting; draft permits. Each reference in this regulation to a federal regulation shall mean that federal regulation as adopted by reference in K.A.R. 28-31-124 through 28-31-279. (a) Each permit application shall be reviewed by the secretary to determine compliance with the requirements of the hazardous waste regulations.

(b) If the permit application does not meet the requirements of this article, the application shall be denied by the secretary.

(c) If the application meets the requirements of this article, a draft permit shall be prepared by the secretary according to the following criteria:

(1) The draft permit shall contain the following information:

(A) All conditions specified in 40 CFR 270.30 and 270.32;

(B) all compliance schedules specified in 40 CFR 270.33;

(C) all monitoring requirements specified in 40 CFR 270.31; and

(D) standards for treatment, storage, or disposal, or any combination of these activities, and other permit conditions under 40 CFR 270.30.

(2) The draft permit shall be accompanied by a fact sheet that meets the requirements of K.A.R. 28-31-124d.

(3) Public notice shall be given as specified in K.A.R. 28-31-124e.

(4) The draft permit shall be made available for public comment as specified in 40 CFR 124.11.

(5) Notice of opportunity for a public hearing shall be given as specified in 40 CFR 124.12.

(d) A final decision to issue the permit shall be issued by the secretary if the findings of fact show that the facility or activity will be protective of human health and safety and the environment. A final decision to deny the permit shall be issued by the secretary if the findings of fact show that the facility or activity will not be protective of human health and safety and the environment.

(e) A response to comments shall be issued by the secretary in accordance with 40 CFR 124.17.

(f) Any person may appeal the decision in accordance with K.S.A. 65-3440 and K.S.A. 65-3456a(b), and amendments thereto. (Authorized by K.S.A. 65-3431; implementing K.S.A. 65-3431, 65-3433, 65-3437, and 65-3439; effective April 29, 2011.)

28-31-124d. Procedures for permitting; fact sheet. A fact sheet for each draft permit shall be prepared and distributed by the department according to the following requirements:

(a) The fact sheet shall be sent by the department to the applicant and to each person who requests the fact sheet.

(b) The fact sheet shall briefly describe the principal facts and the significant factual, legal, methodological, and policy questions considered in preparing the draft permit.

(c) The fact sheet shall include the following information:

(1) A brief description of the type of facility or activity that is the subject of the draft permit;

(2) the type and quantity of wastes, fluids, or pollutants that are proposed to be or are being treated, stored, disposed of, injected, emitted, or discharged;

(3) the reasons why each requested variance or alternative to required standards do or do not appear justified;

(4) a description of the procedures for reaching a final decision on the draft permit, including the following information:

(A) The beginning and ending dates of the comment period as specified in K.A.R. 28-31-124e and the address where comments will be received;

(B) the procedures for requesting a hearing and the nature of that hearing; and

(C) all other procedures by which the public may participate in the final decision; and

(5) the name and telephone number of a person to contact for additional information. (Authorized by and implementing K.S.A. 65-3431; effective April 29, 2011.)

28-31-124e. Procedures for permitting; public notice of permit actions and public comment period. Public notices shall be given by the department according to the following criteria:

(a) A public notice shall be given if one or more of the following actions have occurred:

(1) A permit application has been tentatively denied under K.A.R. 28-31-124c.

(2) A draft permit has been prepared under K.A.R. 28-31-124c.

(3) A hearing has been scheduled under 40 CFR 124.12, as adopted by reference in K.A.R. 28-31-124.

(b) No public notice shall be required if a request for permit modification, revocation and re-issuance, or termination is denied under K.A.R. 28-31-124b. Written notice of the denial shall be provided by the department to the person who made the request and to the permittee.

(c) The public notice may describe more than one permit or permit action.

(d) The public notice shall be given in accordance with the following time frames:

(1) The public notice of the preparation of a draft permit, including a notice of intent to deny a permit application, required under subsection (a) shall allow at least 45 days for public comment.

(2) The public notice of the public hearing shall be given at least 30 days before the hearing.

(3) The public notice of the hearing may be given at the same time as the public notice of the draft permit and the two notices may be combined.

(e) Public notice of the activities described in subsection (a) shall be given using the following methods:

(1) Mailing a copy of the notice to the following persons, except to any person that has waived the right to receive notices for the class or category of the permit described in the notice:

(A) The applicant;

(B) each agency that has issued or is required to issue a permit for the same facility or activity, including EPA;

(C) all federal and state agencies with jurisdiction over fish, shellfish, or wildlife resources, the advisory council on historic preservation, state historic preservation officers, and all affected states and Indian tribes;

(D) each person on the mailing list, which shall be developed by the department using the following methods:

(i) Each person who requests in writing to be on the mailing list shall be added to the mailing list;

(ii) participants in past proceedings in that area shall be solicited for inclusion on the mailing list;

(iii) the public shall be notified of the opportunity to be put on the mailing list through periodic publication in the public press and in publications which may include regional and state-funded newsletters, environmental bulletins, and state law journals; and

(iv) the mailing list may be updated by the department by requesting written indication of continued interest from persons on the list. The name of any person who fails to respond to such a request may be deleted from the list by the department;

(E) each unit of local government having jurisdiction over the area where the facility is proposed to be located; and

(F) each state agency having any authority under state law with respect to the construction or operation of the facility;

(2) publishing a notice in the official newspaper of the county in which the facility is located or proposed to be located or, if there is no official county newspaper, a newspaper published as provided in K.S.A. 64-101, and amendments thereto;

(3) broadcasting over local radio stations;

(4) giving notice in a manner constituting legal notice to the public under state of Kansas law; and

(5) using any other method chosen by the department to give notice of the action in question to the persons potentially affected by it, including press releases or any other forum or medium to elicit public participation.

(f) Each public notice shall contain the following information:

(1) The name and address of the office processing the permit;

(2) the name and address of the permittee or the permit applicant and, if different, of the facility or activity regulated by the permit;

(3) a brief description of the business conducted at the facility or the activities described in the permit application or the draft permit;

(4) the name, address, and telephone number of a person from whom interested persons may obtain further information, including copies of the draft permit, the fact sheet, and the application;

(5) a brief description of the comment procedures required by 40 CFR 124.11 and 124.12, as adopted by reference in K.A.R. 28-31-124;

(6) the time and place of each hearing that has been scheduled;

(7) a statement of the procedures to request a hearing, unless a hearing has already been scheduled;

(8) all other procedures required for public participation in the final permit decision;

(9) the times when the record will be open for public inspection and a statement that all data submitted by the applicant is available as part of the administrative record; and

(10) any additional information necessary to allow full public participation in the final permit decision.

(g) The public notice of each hearing held pursuant to 40 CFR 124.12, as adopted by reference in K.A.R. 28-31-124, shall contain all of the information described in subsection (f) of this regulation plus the following information:

(1) Reference to the date of previous public notices relating to the permit;

(2) the date, time, and place of the hearing; and

(3) a brief description of the nature and purpose of the hearing, including the rules and procedures.

(h) In addition to the general public notice described in subsection (f), a copy of each of the following documents shall be mailed by the department to all persons identified in paragraphs (e)(1)(A) through (D):

- (1) The fact sheet; and
 - (2) the permit application or the draft permit.
- (Authorized by K.S.A. 65-3431; implementing K.S.A. 65-3431 and 65-3433; effective April 29, 2011.)

28-31-260. General provisions and definitions; adoption and modification of federal regulations. (a) Adoption. The provisions of 40 CFR part 260, as in effect on July 1, 2006, are hereby adopted by reference subject to the following:

- (1) The substitution of terms listed in K.A.R. 28-31-100 through 28-31-100s;
 - (2) the exclusions from adoption listed in subsection (b); and
 - (3) the modifications listed in subsection (c).
- (b) Exclusions. The following portions of 40 CFR part 260 shall be excluded from adoption:
- (1) All comments and all notes;
 - (2) 40 CFR 260.1;
 - (3) in 40 CFR 260.10, the definition of “performance track member facility”;
 - (4) 40 CFR 260.11;
 - (5) 40 CFR 260.20 through 260.23;
 - (6) 40 CFR 260.40 and 260.41; and
 - (7) appendix I.

(c) Modifications. The following modifications shall be made to 40 CFR part 260:

- (1) The text of 40 CFR 260.2 shall be replaced with the following: “The Kansas open records act and K.S.A. 65-3447 shall apply to all information provided to the department.”
- (2) The following definitions in 40 CFR 260.10 shall be modified as follows:
 - (A) The definition of “existing tank system or existing component” shall be modified by replacing “on or prior to July 14, 1986” with “on or before July 14, 1986 for HSWA tanks and on or before May 1, 1987 for non-HSWA tanks.”
 - (B) The definition of “facility” shall be modified by deleting the phrase “under RCRA Section 3008(h).”
 - (C) The definition of “new tank system or new tank component” shall be modified by replacing both occurrences of “July 14, 1986” with “July 14, 1986 for HSWA tanks and May 1, 1987 for non-HSWA tanks.”
 - (D) The definition of “qualified ground-water scientist” shall be replaced with the following definition: “ ‘qualified ground-water scientist’ means a licensed geologist or professional engineer who has sufficient training and experience in ground-

water hydrology and related fields. Sufficient training may be demonstrated by a professional certification or by the completion of an accredited university program that enables the individual to make sound professional judgments regarding groundwater monitoring, contaminant fate and transport, and corrective action.”

(E) The definition of “small quantity generator” shall be replaced by the following definition: “ ‘Small quantity generator’ means a generator who meets all of the following criteria:

- “(i) Generates more than 100 kilograms (220 pounds) of hazardous waste in any single calendar month;
- “(ii) generates less than 1,000 kilograms (2,200 pounds) of hazardous waste in any single calendar month; and
- “(iii) generates and accumulates acutely hazardous waste and other waste listed in 40 CFR 261.5(e) in quantities less than the generation limits listed in 40 CFR 261.5(e).”

(d) Differences between state and federal definitions. If the same term is defined differently both in K.S.A. 65-3430 et seq. and amendments thereto or this article and in any federal regulation adopted by reference in this article, the definition prescribed in the Kansas statutes or regulations shall control, except for the term “solid waste.” (Authorized by and implementing K.S.A. 65-3431; effective April 29, 2011.)

28-31-260a. General provisions and definitions; additional state definitions. Each reference in this regulation to a federal regulation shall mean that federal regulation as adopted by reference in K.A.R. 28-31-124 through 28-31-279.

(a) State definitions. The following definitions shall apply to K.A.R. 28-31-4 through 28-31-279:

- (1) “Conditionally exempt small quantity generator” means a generator who meets both of the following criteria:
 - (A) Generates less than 25 kilograms (55 pounds) of hazardous waste in any single calendar month; and
 - (B) generates and accumulates acutely hazardous waste and other waste listed in 40 CFR 261.5(e) in quantities less than the generation limits listed in 40 CFR 261.5(e).
- (2) “HSWA drip pad” means a drip pad associated with the handling of waste designated as F032 waste in 40 CFR 261.31.
- (3) “HSWA tank” means any of the following tanks:

(A) A tank owned or operated by a generator of less than 1,000 kilograms (2,200 pounds) of hazardous waste in any single calendar month;

(B) a new underground tank; or

(C) an existing underground tank that cannot be entered for inspection.

(4) “Kansas hazardous waste facility permit” means a permit issued under the Kansas hazardous waste program.

(5) “Kansas hazardous waste program” means the hazardous waste management program operated by the state of Kansas in lieu of the U.S. environmental protection agency, authorized by and implementing K.S.A. 65-3430 et seq. and amendments thereto.

(6) “Kansas licensed geologist” means a person who has a current license to practice geology from the state board of technical professions pursuant to K.S.A. 74-7001 et seq., and amendments thereto.

(7) “Kansas professional engineer” means a person who has a current license to practice engineering from the state board of technical professions pursuant to K.S.A. 74-7001 et seq., and amendments thereto.

(8) “Kansas small quantity generator” means a generator that meets all of the following criteria:

(A) Generates 25 kilograms (55 pounds) or more of hazardous waste in any single calendar month;

(B) generates no more than 100 kilograms (220 pounds) of hazardous waste in any single calendar month; and

(C) generates and accumulates acutely hazardous waste and other waste listed in 40 CFR 261.5(e) in quantities less than the generation limits listed in 40 CFR 261.5(e).

(9) “Large quantity generator” means a generator who meets either or both of the following criteria:

(A) Generates 1,000 kilograms (2,200 pounds) or more of hazardous waste in any single calendar month; or

(B) generates or accumulates acutely hazardous waste and other waste listed in 40 CFR 261.5(e) in quantities equal to or greater than the generation limits listed in 40 CFR 261.5(e).

(10) “Non-HSWA drip pad” means a drip pad for handling wastes designated as F034 and F035 wastes in 40 CFR 261.31.

(11) “Non-HSWA tank” means any tank except the following tanks:

(A) Tanks owned or operated by a generator of less than 1,000 kilograms (2,200 pounds) of hazardous waste in any single calendar month;

(B) new underground tanks; and

(C) existing underground tanks that cannot be entered for inspection.

(b) Differences between state and federal definitions. If the same term is defined differently both in K.S.A. 65-3430 et seq. and amendments thereto or this article and in any federal regulation adopted by reference in this article, the definition prescribed in the Kansas statutes or regulations shall control, except for the term “solid waste.” (Authorized by K.S.A. 65-3431; implementing K.S.A. 65-3431 and 65-3451; effective April 29, 2011.)

28-31-260b. General provisions and definitions; adoption of technical documents. In any federal regulation adopted by reference in K.A.R. 28-31-260 through 28-31-279, each reference to any of the following documents shall mean that document as hereby adopted by reference:

(a) ASTM. The following documents published by the American society for testing and materials:

(1) ANSI/ASTM D 93-79, “standard test methods for flash point by Pensky-Martens closed tester,” published October 1979;

(2) D 93-80, “standard test methods for flash point by Pensky-Martens closed tester,” published October 1980 and updated July 1981;

(3) D 1946-82, “standard method for analysis of reformed gas by gas chromatography,” published August 1982;

(4) D 2267-88, “standard test method for aromatics in light naphthas and aviation gasolines by gas chromatography,” published December 1988;

(5) D 2382-83, “standard test method for heat of combustion of hydrocarbon fuels by bomb calorimeter (high-precision method),” published January 1984;

(6) D 2879-92, “standard test method for vapor pressure-temperature relationship and initial decomposition temperature of liquids by isoteniscope,” published December 1992;

(7) ASTM D 3278-78, “standard test methods for flash point of liquids by setaflash closed tester,” published March 1979;

(8) E 168-88, “standard practices for general techniques of infrared quantitative analysis,” published July 1988;

(9) E 169-87, “standard practices for general techniques of ultraviolet-visible quantitative analysis,” published April 1987;

(10) E 260-85, “standard practice for packed column gas chromatography,” published November 1985; and

(11) in E 926-88, “standard test methods of preparing refuse-derived fuel (RDF) samples for analyses of metals,” published May 1988, “test method C—bomb, acid digestion method” on pages 3 and 4;

(b) EPA. The following documents published by the United States environmental protection agency (EPA):

(1) EPA 450/2-81-005, APTI course 415, “control of gaseous emissions: student manual,” published December 1981, except pages ii and I-4;

(2) EPA 454/R-92-019, previously designated as EPA 450/R-92-019, “screening procedures for estimating the air quality impact of stationary sources, revised,” published October 1992, except the preface on page iii, the acknowledgments on page iv, and the references in section 5; and

(3) the following methods published in the following updates to EPA publication SW-846, “test methods for evaluating solid waste,” third edition, published November 1986:

(A) In “update III,” dated December 1996, the following:

(i) Method 0011, “sampling for selected aldehyde and ketone emissions from stationary sources,” dated December 1996;

(ii) method 0023A, “sampling method for polychlorinated dibenzo-*p*-dioxins and polychlorinated dibenzofuran emissions from stationary sources,” dated December 1996;

(iii) method 0050, “isokinetic HCl/Cl₂ emission sampling train,” dated December 1996;

(iv) method 0051, “midjet impinger HCl/Cl₂ emission sampling train,” dated December 1996;

(v) method 0060, “determination of metals in stack emissions,” dated December 1996; and

(vi) method 0061, “determination of hexavalent chromium emissions from stationary sources,” dated December 1996; and

(B) in “final update for IIIB to the SW-846: test methods for evaluating solid waste physical/chemical methods,” published February 2007, the following:

(i) Method 1110A, “corrosivity toward steel,” dated November 2004;

(ii) method 1310B, “extraction procedure (EP) toxicity test method and structural integrity test,” dated November 2004;

(iii) method 1311, “toxicity characteristic leaching procedure,” dated July 1992;

(iv) method 9010C, “total and amenable cyanide: distillation,” dated November 2004;

(v) method 9012B, “total and amenable cyanide

(automated colorimetric, with off-line distillation),” dated November 2004;

(vi) method 9040C, “pH electronic measurement,” dated November 2004;

(vii) method 9060A, “total organic carbon,” dated November 2004; and

(viii) method 9095B, “paint filter liquids test,” dated November 2004;

(c) NFPA. Tables 2-1 through 2-6 in chapter 2 in the following documents published by the national fire protection association (NFPA):

(1) NFPA 30, “flammable and combustible liquids code 1977,” 1977 edition; and

(2) NFPA 30, “flammable and combustible liquids code 1981,” 1981 edition; and

(d) API. In API publication 2517, “evaporative loss from external floating-roof tanks,” third edition, published February 1989 by the American petroleum institute, pages vii through ix and pages 1 through 61. (Authorized by and implementing K.S.A. 65-3431; effective May 10, 2013.)

28-31-261. Identification and listing of hazardous waste; adoption and modification of federal regulations. (a) Adoption. The provisions of 40 CFR part 261, including appendices I, VII, and VIII, as in effect on July 1, 2006, are hereby adopted by reference subject to the following:

(1) The substitution of terms listed in K.A.R. 28-31-100 through 28-31-100s;

(2) the exclusions from adoption listed in subsection (b); and

(3) the modifications listed in subsection (c).

(b) Exclusions. The following portions of 40 CFR part 261 shall be excluded from adoption:

(1) All comments and all notes;

(2) 40 CFR 261.4(b)(16) through (18); and

(3) 40 CFR 261.6(a)(2)(v).

(c) Modifications. The following modifications shall be made to 40 CFR part 261:

(1) Each occurrence of the following phrases shall be deleted:

(A) “(incorporated by reference, see § 260.11)”;

(B) “, and as incorporated by reference in § 260.11 of this chapter”; and

(C) “, as incorporated by reference in § 260.11 of this chapter.”

(2) In 40 CFR 261.1(b)(2), the phrase “under sections 3007, 3013, and 7003 of RCRA” shall be deleted.

(3) In 40 CFR 261.1(b)(2)(i), the following replacements shall be made:

(A) The phrase “sections 3007 and 3013” shall be replaced with “K.S.A. 65-3431, 65-3437 and 65-3441, and K.A.R. 28-31-12.”

(B) The phrase “section 1004(27) of RCRA” shall be replaced with “40 CFR 261.2.”

(C) The phrase “section 1004(5) of RCRA” shall be replaced with “K.S.A. 65-3430.”

(4) In 40 CFR 261.4(e)(3)(iii), the text “in the Region where the sample is collected” shall be deleted.

(5) 40 CFR 261.5(a) shall be replaced by the definition of “conditionally exempt small quantity generator” in K.A.R. 28-31-260a.

(6) In 40 CFR 261.5(e), (f)(2), and (g)(2), the phrases “that acute hazardous waste” and “those accumulated wastes” shall be replaced with the phrase “the generator’s hazardous waste and acute hazardous waste.”

(7) In 40 CFR 261.5(g), the phrase “100 kilograms” shall be replaced with the phrase “25 kilograms (55 pounds).”

(8) In 40 CFR 261.5(g)(2), the phrase “generators of between 100 kg and 1000 kg of hazardous waste in a calendar month” shall be replaced with the phrase “small quantity generators.”

(9) In 40 CFR 261.5(g)(3), the phrase “or ensure delivery” shall be replaced with “or, subject to the restrictions of K.A.R. 28-31-262a, ensure delivery.”

(10) In 40 CFR 261.21(a)(3), the phrase “an ignitable compressed gas as defined in 49 CFR 173.300” shall be replaced with the phrase “a flammable gas as defined in 49 CFR 173.115(a).”

(11) In 40 CFR 261.21(a)(4), the phrase “49 CFR 173.151” shall be replaced with “49 CFR 173.127(a).”

(12) 40 CFR 261.23(a)(8) shall be replaced with the following: “It is a forbidden explosive as defined in 49 CFR 173.54, or it is a division 1.1, 1.2, or 1.3 explosive, as defined in 49 CFR 173.50 and 173.53.”

(13) In 40 CFR 261.33(e), the text “be the small quantity exclusion defined in” shall be deleted.

(14) In 40 CFR 261.33(f), the phrase “the small quantity generator exclusion defined in” shall be deleted.

(15) In 40 CFR 261.38(c)(1)(i), the introductory paragraph shall be replaced with “Notice to the secretary.”

(16) In 40 CFR part 261, appendix VII, the entries in both columns for “K064,” “K065,” “K066,” “K090,” and “K091” shall be deleted. (Authorized by and implementing K.S.A. 65-3431; effective April 29, 2011.)

28-31-261a. Identification and listing of hazardous waste; additional state requirements. Each conditionally exempt small quantity generator shall comply with K.A.R. 28-31-262a. (Authorized by and implementing K.S.A. 65-3431; effective April 29, 2011.)

28-31-262. Generators of hazardous waste; adoption and modification of federal regulations. (a) Adoption. The provisions of 40 CFR part 262, including the appendix, as in effect on July 1, 2006, are hereby adopted by reference subject to the following:

(1) The substitution of terms listed in K.A.R. 28-31-100 through 28-31-100s;

(2) the exclusions from adoption listed in subsection (b); and

(3) the modifications listed in subsection (c).

(b) Exclusions. The following portions of 40 CFR part 262 shall be excluded from adoption:

(1) All comments and all notes, except in the appendix;

(2) 40 CFR 262.10(j) and (k);

(3) 40 CFR 262.34(g) through (l);

(4) 40 CFR 262.89(e); and

(5) subparts I and J.

(c) Modifications. The following modifications shall be made to 40 CFR part 262:

(1) In 40 CFR 262.10(g), the phrase “and K.S.A. 65-3441(b) and (c) and 65-3444 through 65-3446” shall be inserted after the phrase “section 3008 of the Act.”

(2) 40 CFR 262.11(c)(1) shall be replaced with the following text: “Submitting the waste for testing according to the methods in 40 CFR part 261, subpart C, by a laboratory that is certified for these analyses by the department; or.”

(3) The first paragraph in 40 CFR 262.20(e) shall be replaced with the following text: “The requirements of this subpart do not apply to hazardous waste produced by Kansas small quantity generators and small quantity generators if all of the following criteria are met:”.

(4) In 40 CFR 262.27(b), the phrase “or a Kansas small quantity generator” shall be inserted at the end of the first sentence.

(5) In 40 CFR 262.34(a)(2), the phrase “and tank” shall be inserted after the phrase “each container.”

(6) In 40 CFR 262.34(c)(1), the text “A generator may accumulate as much as 55 gallons of hazardous waste or one quart of acutely hazardous waste listed in § 261.33(e) in containers” shall be

replaced with the following text: “Any generator may accumulate 55 gallons or less, in no more than one container, of each type of hazardous waste and one quart or less, in no more than one container, of each type of acutely hazardous waste listed in § 261.33(e).”

(7) 40 CFR 262.34(c)(1)(ii) shall be replaced with the following text: “Marks the containers with the words ‘Hazardous Waste.’”

(8) At the end of 40 CFR 262.34(d)(5)(ii)(C), the following text shall be inserted as new subparagraph (D): “If the generator relies solely on cell phones, the generator shall meet the following requirements: (1) Post the information addressed by subparagraphs (A) through (C) on walls so that they can be readily seen by employees; (2) train all employees that manage hazardous waste on the locations of these postings; and (3) program the telephone numbers into the cell phones of management personnel.”

(9) In 40 CFR 262.42(b), the phrase “greater than 100 kilograms” shall be replaced with the phrase “25 kilograms or more.”

(10) In 40 CFR 262.43, the text “, as he deems necessary under sections 2002(a) and 3002(6) of the Act,” shall be deleted.

(11) In 40 CFR 262.44, the following modifications shall be made:

(A) In the title, the number “100” shall be replaced with the number “25.”

(B) In the first paragraph, the phrase “greater than 100 kilograms” shall be replaced with the phrase “25 kilograms or more.” (Authorized by K.S.A. 65-3431; implementing K.S.A. 65-3431 and 65-3451; effective April 29, 2011.)

28-31-262a. Generators of hazardous waste; additional state requirements. Each reference in this regulation to a federal regulation shall mean that federal regulation as adopted by reference in K.A.R. 28-31-124 through 28-31-279. (a) Transportation requirements.

(1) Each generator that transports hazardous waste shall comply with K.A.R. 28-31-263a.

(2) Each generator that uses another person to transport hazardous waste shall use only a transporter who has registered with the department in accordance with K.A.R. 28-31-6.

(b) Reporting requirements. Each generator of hazardous waste, except conditionally exempt small quantity generators (CESQGs), shall submit a report to the department that indicates whether the generator is a large quantity generator (LQG),

a small quantity generator (SQG), or a Kansas small quantity generator (KSQG). The generator shall comply with the following requirements:

(1) Submit the report on a form provided by the department;

(2) submit the monitoring fee required by K.A.R. 28-31-10 with the report;

(3) submit the report according to the following schedule:

(A) Each LQG report shall be due on or before March 1 of each year that the biennial report is not required;

(B) each SQG report shall be due on or before April 1 of each year; and

(C) each KSQG report shall be due on or before April 1 of each year; and

(4) keep a copy of each report for at least three years after the date of the signature on the report.

(c) Additional requirement for LQGs. Each LQG shall comply with 40 CFR 265.15(d).

(d) Additional requirements for SQGs.

(1) In addition to meeting the requirements of 40 CFR 262.34(d)(5)(iii), each SQG shall meet the following requirements:

(A) Provide the training to each employee no more than six months after the employee is hired or transferred to a new position;

(B) repeat the training at least annually;

(C) record the name of each employee, the date of the training, and the topics covered in the training; and

(D) keep training records for each employee that has received the training for at least three years from the date of the training. Training records may accompany personnel transferred within the same company.

(2) Each SQG shall comply with the following regulations:

(A) 40 CFR 265.15(d);

(B) 40 CFR 265.111(a) and (b); and

(C) 40 CFR 265.114.

(e) Additional requirements for KSQGs.

(1) In the waste minimization certification found in item 15 of the uniform hazardous waste manifest, the phrase “small quantity generator” shall include KSQGs.

(2) Each KSQG shall inspect each area where one or more hazardous waste containers are stored at least once every 31 days and shall look for deterioration and leaks.

(3) Each KSQG shall comply with the following regulations:

(A) 40 CFR part 262, subpart A;

(B) 40 CFR part 262, subpart B, except KSQGs that are exempt from the transporter requirements of K.A.R. 28-31-263a;

(C) 40 CFR 262.30 through 262.33;

(D) 40 CFR 262.34(a)(2) and (3), (c), and (d) (5);

(E) 40 CFR 262.44;

(F) 40 CFR part 262, subparts E through H;

(G) 40 CFR 265.15(d);

(H) 40 CFR part 265, subpart C;

(I) 40 CFR 265.171 through 265.173 and 265.177;

(J) 40 CFR 265.201; and

(K) 40 CFR 268.7(a)(5).

(4) In addition to meeting the requirements of 40 CFR 262.34(d)(5)(iii), each KSQG shall meet the following requirements:

(A) Provide the training to each employee no more than six months after the employee is hired or transferred to a new position;

(B) repeat the training at least annually;

(C) record the name of each employee, the date of the training, and the topics covered in the training; and

(D) keep training records for each employee that has received the training for at least three years from the date of the training. Training records may accompany personnel transferred within the same company.

(5) Each KSQG that accumulates more than 1,000 kilograms (2,200 pounds) of hazardous waste shall comply with all of the requirements for SQGs.

(f) Additional requirements for CESQGs.

(1) No person shall send CESQG hazardous waste to a construction and demolition landfill located in Kansas.

(2) Each CESQG that accumulates 25 kilograms (55 pounds) or more of hazardous waste shall comply with all of the following requirements:

(A) The CESQG shall inspect each area where one or more hazardous waste containers are stored at least once every 31 days looking for deterioration and leaks.

(B) If the CESQG sends 25 kilograms (55 pounds) or more of hazardous waste at any one time to an off-site facility in Kansas, that waste shall be sent only to one of the following facilities:

(i) A Kansas household hazardous waste facility that has a permit issued by the secretary and is approved by the secretary to accept CESQG waste; or

(ii) a disposal facility that meets the requirements of 40 CFR 261.5(g)(3)(i), (ii), (iii), or (vii).

(C) The CESQG shall comply with the following regulations:

(i) 40 CFR 262.30 through 262.33;

(ii) 40 CFR 262.34(a)(2) and (3);

(iii) 40 CFR 265.15(d);

(iv) 40 CFR 265.171 through 265.173 and 265.177; and

(v) 40 CFR 265.201, if 25 kilograms (55 pounds) or more of hazardous waste is accumulated in one or more tanks. (Authorized by K.S.A. 65-3431; implementing K.S.A. 65-3431 and 65-3451; effective April 29, 2011.)

28-31-263. Transporters of hazardous waste; adoption and modification of federal regulations.

(a) Adoption. The provisions of 40 CFR part 263, as in effect on July 1, 2006, are hereby adopted by reference subject to the following:

(1) The substitution of terms listed in K.A.R. 28-31-100 through 28-31-100s;

(2) the exclusions from adoption listed in subsection (b); and

(3) the modifications listed in subsection (c).

(b) Exclusions. All notes shall be excluded from adoption.

(c) Modifications. The following modifications shall be made to 40 CFR part 263:

(1) In 40 CFR 263.10(a), the following modifications shall be made:

(A) The phrase "the United States" shall be replaced with "Kansas."

(B) The phrase "or K.A.R. 28-31-262a" shall be inserted at the end of the sentence.

(2) In 40 CFR 263.20(h), the phrase "greater than 100 kilograms" shall be replaced with "25 kilograms (55 pounds) or more." (Authorized by K.S.A. 65-3431; implementing K.S.A. 65-3431 and 65-3451; effective April 29, 2011.)

28-31-263a. Transporters of hazardous waste; additional state requirements.

Each reference in this regulation to a federal regulation shall mean that federal regulation as adopted by reference in K.A.R. 28-31-124 through 28-31-279. (a) Applicability. Each person that transports hazardous waste within, into, out of, or through Kansas shall comply with this regulation, except Kansas small quantity generators (KSQGs) and conditionally exempt small quantity generators (CESQGs) that meet the following conditions:

(1) The generator is transporting the generator's own hazardous waste to a household hazardous waste (HHW) facility that meets one of the following conditions:

(A) If the generator is a KSQG, the HHW facility is permitted to accept KSQG waste.

(B) If the generator is a CESQG, the HHW facility is permitted to accept CESQG waste.

(2) The generator obtains a receipt for each load of hazardous waste delivered to the HHW facility.

(3) The generator keeps a copy of each receipt for a minimum of three years after the date of delivery.

(b) Registration and insurance. Each transporter of hazardous waste shall comply with the requirements of K.A.R. 28-31-6.

(c) Transportation restrictions. Each transporter shall transport hazardous waste only for hazardous waste generators and facilities that are in compliance with the requirement to obtain an EPA identification number for the state in which the generator or facility is located.

(d) Routing restrictions.

(1) Each transporter of hazardous waste shall ensure that each vehicle containing hazardous waste is operated over a preferred route that minimizes risk to public health and safety and the environment. To select a preferred route, the transporter shall consider the following information, if available:

(A) Accident rates;

(B) the transit time;

(C) population density and activities; and

(D) the day of the week and the time of day during which transportation will occur.

(2) Each transporter shall confine the transportation of hazardous wastes to preferred routes. Unless notice to the contrary is published in the Kansas register, all portions of the major highway system may be used. For the purposes of this subsection, the major highway system shall be considered to be all interstate routes, U.S. highways, state highways, and temporary detours designated by the Kansas department of transportation. An interstate system bypass or beltway around a city shall be used when available.

(3) Any transporter of hazardous waste may deviate from a preferred route under any of the following circumstances:

(A) Emergency conditions that make continued use of the preferred route unsafe;

(B) rest, fuel, and vehicle repair stops; or

(C) deviations that are necessary to pick up, deliver, or transfer hazardous wastes. (Authorized by K.S.A. 65-3431; implementing K.S.A. 65-3431 and 65-3451; effective April 29, 2011.)

28-31-264. Hazardous waste treatment, storage, and disposal facilities; adoption and modification of federal regulations. (a) Adoption. The provisions of 40 CFR part 264, including appendices I, IV, V, VI, and IX, as in effect on July 1, 2006, are hereby adopted by reference subject to the following:

(1) The substitution of terms listed in K.A.R. 28-31-100 through 28-31-100s;

(2) the exclusions from adoption listed in subsection (b); and

(3) the modifications listed in subsection (c).

(b) Exclusions. The following portions of 40 CFR part 264 shall be excluded from adoption:

(1) All comments and all notes;

(2) 40 CFR 264.1(f) and (g)(12);

(3) 40 CFR 264.15(b)(5);

(4) 40 CFR 264.149 and 264.150;

(5) 40 CFR 264.195(e);

(6) 40 CFR 264.301(l);

(7) 40 CFR 264.1030(d);

(8) 40 CFR 264.1050(g); and

(9) 40 CFR 264.1080(e), (f), and (g).

(c) Modifications. The following modifications shall be made to 40 CFR part 264:

(1) Each occurrence of the following text shall be deleted:

(A) "(incorporated by reference, see § 260.11)";

(B) "(incorporated by reference as specified in § 260.11)";

(C) "(incorporated by reference under 40 CFR 260.11)";

(D) "40 CFR 260.11(11)"; and

(E) "as incorporated by reference in § 260.11 of this chapter."

(2) In 40 CFR 264.1(g)(8)(D)(iii), the phrase "and K.A.R. 28-31-124a through 28-31-124e" shall be inserted after the phrase "through 124 of this chapter."

(3) In 40 CFR 264.15(b)(4), the following text shall be deleted: "except for Performance Track member facilities, that must inspect at least once each month, upon approval by the Director, as described in paragraph (b)(5) of this section."

(4) In 40 CFR 264.112(d)(3), the phrase "under section 3008 of RCRA" shall be deleted.

(5) In 40 CFR 264.113(d)(2), the phrase "required under RCRA section 3019" shall be deleted.

(6) The phrase “determination pursuant to section 3008 of RCRA” shall be replaced with “determination by EPA pursuant to section 3008 of RCRA or by the state of Kansas under K.S.A. 65-3441, 65-3443, 65-3445, or 65-3439(e)” in the following locations:

- (A) 40 CFR 264.143(c)(5);
- (B) 40 CFR 264.143(d)(8);
- (C) 40 CFR 264.145(c)(5); and
- (D) 40 CFR 264.145(d)(9).

(7) The phrase “licensed to transact the business of insurance, or eligible to provide insurance as an excess or surplus lines insurer, in one or more States” shall be replaced with “licensed to transact the business of insurance in Kansas or eligible to provide insurance as an excess or surplus lines insurer in Kansas” in the following locations:

- (A) 40 CFR 264.143(e)(1);
- (B) 40 CFR 264.145(e)(1);
- (C) 40 CFR 264.147(a)(1)(ii) and (b)(1)(ii); and
- (D) 40 CFR 264.151(i) and (j).

(8) In 40 CFR 264.143(h) and 264.145(h), the text “If the facilities covered by the mechanism are in more than one Region, identical evidence of financial assurance must be submitted to and maintained with the Regional Administrators of all such regions” shall be replaced with the following: “If the facilities covered by the mechanism are in more than one state, identical evidence of financial assurance shall be submitted to and maintained with the state agency regulating hazardous waste, or with the appropriate regional administrator if the facility is located in an unauthorized state.”

(9) In 40 CFR 264.144(b) and (c), the phrase “and the post-closure period” shall be inserted after the phrase “During the active life of the facility.”

(10) In 40 CFR 264.144(b), the phrase “§ 264.145(b)(1) and (2)” shall be replaced with “paragraphs (b)(1) and (2) of this section.”

(11) In 40 CFR 264.147(a)(1)(i) and (b)(1)(i), the phrase “Regional Administrator, or Regional Administrators” shall be replaced with “secretary, and regional administrators.”

(12) In 40 CFR 264.151(a)(1), (m)(1), and (n)(1), the phrase “United States Environmental Protection Agency, ‘EPA,’ an agency of the United States Government,” shall be replaced with the phrase “Kansas department of health and environment, or ‘department.’”

(13) In 40 CFR 264.151(b) and (c), the phrase “U.S. Environmental Protection Agency (herein-

after called EPA)” shall be replaced with “Kansas department of health and environment (hereinafter called ‘department’).”

(14) In 40 CFR 264.151(d) and (k), the text between the title “Irrevocable Standby Letter of Credit” and “Dear Sir or Madam:” shall be replaced with the following:

“Name and address of issuing institution: _____
 “Secretary
 “Kansas department of health and environment.”

(15) In 40 CFR 264.151(d), the following text shall be deleted: “[insert, if more than one Regional Administrator is a beneficiary, ‘by any one of you’].”

(16) In 40 CFR 264.151(f) and (g), in section 3 of the “Letter From Chief Financial Officer,” the text “In States where EPA is not administering the financial requirements of subpart H of 40 CFR part 264 or 265,” shall be deleted.

(17) In 40 CFR 264.151(l), in paragraph (1) of the “Governing Provisions” of the “Payment Bond,” the phrase “Section 3004 of the Resource Conservation and Recovery Act of 1976, as amended” shall be replaced with “40 CFR 264.147 and 265.147.”

(18) In 40 CFR 264.174, the following text shall be deleted: “, except for Performance Track member facilities, that may conduct inspections at least once each month, upon approval by the Director. To apply for reduced inspection frequencies, the Performance Track member facility must follow the procedures identified in § 264.15(b)(5) of this part.”

(19) In 40 CFR 264.191(a), the phrase “January 12, 1988” shall be replaced with “January 12, 1988 for HSWA tanks or by May 1, 1988 for non-HSWA tanks.”

(20) In 40 CFR 264.191(c), the text “July 14, 1986, must conduct this assessment within 12 months after the date that the waste becomes a hazardous waste” shall be replaced with the following text: “July 14, 1986 for HSWA tanks, or May 1, 1987 for non-HSWA tanks, shall conduct this assessment within 12 months after the date that the waste becomes a hazardous waste regulated by the state.”

(21) The phrase “or RCRA Section 3008(h)” shall be deleted from the following locations:

- (A) 40 CFR 264.551(a); and
- (B) 40 CFR 264.552(a).

(22) In 40 CFR 264.553(a), the phrase “or RCRA 3008(h)” shall be deleted.

(23) In 40 CFR 264.555(a), the term “RCRA” shall be deleted.

(24) In 40 CFR 264.570(a), the following replacements shall be made:

(A) Each occurrence of the text “December 6, 1990” shall be replaced with “December 6, 1990 for HSWA drip pads and April 25, 1994 for non-HSWA drip pads.”

(B) Each occurrence of the text “December 24, 1992” shall be replaced with “December 24, 1992 for HSWA drip pads and April 25, 1994 for non-HSWA drip pads.”

(25) In 40 CFR 264.570(c)(1)(iv), the term “Federal regulations” shall be replaced with “federal and state regulations.”

(26) In 40 CFR 264.1033(a)(2)(iii) and 264.1060(b)(3), the term “EPA” shall be deleted.

(27) In 40 CFR 264.1080(b)(5), the text “required under the corrective action authorities of RCRA sections 3004(u), 3004(v), or 3008(h); CERCLA authorities; or similar Federal or State authorities” shall be replaced with the following: “required by EPA under the corrective action authorities of RCRA sections 3004(u), 3004(v), or 3008(h) or under CERCLA authorities; required by the state under K.S.A. 65-3443, 65-3445, and 65-3453; or required under similar federal or state authorities.”

(28) In 40 CFR 264.1101(c)(4), the following text shall be deleted:

(A) “, except for Performance Track member facilities that must inspect at least once each month, upon approval by the Director,”; and

(B) “[t]o apply for reduced inspection frequency, the Performance Track member facility must follow the procedures described in § 264.15(b)(5).” (Authorized by K.S.A. 65-3431; implementing K.S.A. 65-3431 and 65-3443; effective April 29, 2011.)

28-31-264a. Hazardous waste treatment, storage, and disposal facilities; additional state requirements. Each reference in this regulation to a federal regulation shall mean that federal regulation as adopted by reference in K.A.R. 28-31-124 through 28-31-279. (a) Financial assurance.

(1) For the purposes of this subsection, the following definitions shall apply:

(A) “Captive insurance company” shall mean an insurance company that is established with the specific objective of financing risks emanating from its parent group or groups and that could or

could not also insure risks of the parent groups’ customers.

(B) “Financial institution” shall mean a bank, an insurance company, a surety company, or a trust company.

(C) “Purchased financial instrument” shall mean a trust fund, a letter of credit, a surety bond, or an insurance policy.

(D) “Unrelated” shall mean that neither party has any ownership of the other party, or any controlling interest in the other party.

(2) Each financial institution that provides financial assurance for a hazardous waste facility in Kansas shall meet the following requirements, in addition to meeting the requirements of 40 CFR part 264, subpart H:

(A) Each bank and each trust company shall have the authority to issue letters of credit in Kansas or to act as trustee for the facility in Kansas, or both.

(B) Each insurance company shall meet the following criteria:

(i) Have a current minimum rating in the secure or investment grade category by the A.M. Best insurance rating agency; and

(ii) not be a captive insurance company.

(C) Each surety company shall meet the following criteria:

(i) Have a current minimum rating in the secure or investment grade category by the A.M. Best insurance rating agency; and

(ii) be licensed in Kansas.

(3) If the financial assurance required by 40 CFR part 264, 265, or 267 is a purchased financial instrument, the financial institution that provides the purchased financial instrument shall be unrelated to both the owner and the operator of the facility.

(4) Each person that is required to submit the information listed in one or more of the following regulations shall also submit a copy of the most recent corporate annual report:

(A) 40 CFR 264.143(f)(3);

(B) 40 CFR 264.145(f)(3);

(C) 40 CFR 265.143(e)(3);

(D) 40 CFR 265.145(e)(3); or

(E) 40 CFR 267.143(f)(2).

(5) The corporate annual report required by paragraph (a)(4) shall be submitted for both publicly and privately owned facilities and shall contain the following items:

(A) Financial statements;

(B) notes to financial statements; and

(C) a copy of the independent certified public accountant's report, including an unqualified opinion.

(b) Notice in deed to property. Each owner of property on which a hazardous waste treatment, storage, or disposal facility is located shall record, in accordance with Kansas law, a notice with the register of deeds in the county where the property is located. The notice shall include the following information:

(1) The land has been used to manage hazardous waste.

(2) All records regarding permits, closure, or both are available for review at the department.

(c) Restrictive covenant and easement. Any owner of property on which a hazardous waste treatment, storage, or disposal facility is or has been located may be required by the secretary to execute a restrictive covenant or easement, or both, according to the following requirements:

(1) The restrictive covenant shall be filed with the county register of deeds, shall specify the uses that may be made of the property after closure, and shall include the following requirements:

(A) All future uses of the property after closure shall be conducted in a manner that preserves the integrity of waste containment systems designed, installed, and used during operation of the disposal areas, or installed or used during the postclosure maintenance period.

(B) The owner or tenant and all subsequent owners or tenants shall preserve and protect all permanent survey markers and benchmarks installed at the facility.

(C) The owner or tenant and all subsequent owners or tenants shall preserve and protect all environmental monitoring stations installed at the facility.

(D) The owner or tenant, all subsequent property owners or tenants, and any person granted easement to the property shall provide written notice to the secretary during the planning of any improvement to the site and shall commence any of the following activities only after receiving approval from the secretary:

(i) Excavating or constructing any permanent structures or drainage ditches;

(ii) altering the contours;

(iii) removing any waste materials stored on the site;

(iv) changing the vegetation grown on areas used for waste disposal;

(v) growing food chain crops on land used for waste disposal; or

(vi) removing any security fencing, signs, or other devices installed to restrict public access to waste storage or disposal areas.

(2) The easement shall state that the department, its duly authorized agents, or contractors employed by or on behalf of the department may enter the premises to accomplish any of the following tasks:

(A) Complete items of work specified in the site closure plan;

(B) perform any item of work necessary to maintain or monitor the area during the postclosure period; or

(C) sample, repair, or reconstruct environmental monitoring stations constructed as part of the site operating or postclosure requirements.

(3) Each offer or contract for the conveyance of easement, title, or other interest to real estate used for treatment, storage, or disposal of hazardous waste shall disclose all terms, conditions, and provisions for care and subsequent land uses that are imposed by these regulations or the site permit authorized and issued under K.S.A. 65-3431, and amendments thereto. Conveyance of title, easement, or other interest in the property shall contain provisions for the continued maintenance of waste containment and monitoring systems.

(4) All covenants, easements, and other documents related to this regulation shall be permanent, unless extinguished by agreement between the property owner and the secretary.

(5) The owner of the property shall pay all recording fees.

(d) Marking requirements. Each operator of a hazardous waste container storage facility or a tank storage facility shall mark all containers and tanks in accordance with 40 CFR 262.34(a)(2) and (3).

(e) Environmental monitoring. All samples analyzed in accordance with 40 CFR part 264, subpart F or G or 40 CFR part 265, subpart F or G shall be conducted by a laboratory certified for these analyses by the secretary, except that analyses of time-sensitive parameters, including pH, temperature, and specific conductivity, shall be conducted at the time of sampling if possible.

(f) Laboratory certification. For hazardous waste received at a treatment, storage, or disposal facility with the intent of burning for destruction or energy recovery, all quantification analyses performed for the purpose of complying with permit conditions shall be performed by a laboratory certified for these analyses by the secretary, if this certification is available.

(g) Hazardous waste injection wells. The owner or operator of each hazardous waste injection well shall comply with the requirements of article 46 of these regulations. (Authorized by K.S.A. 65-3431; implementing K.S.A. 65-3431 and 65-3443; effective April 29, 2011.)

28-31-265. Interim status hazardous waste treatment, storage, and disposal facilities; adoption and modification of federal regulations. (a) Adoption. The provisions of 40 CFR part 265, including appendices I and III, IV, V, and VI, as in effect on July 1, 2006, are hereby adopted by reference subject to the following:

(1) The substitution of terms listed in K.A.R. 28-31-100 through 28-31-100s;

(2) the exclusions from adoption listed in subsection (b); and

(3) the modifications listed in subsection (c).

(b) Exclusions. The following portions of 40 CFR part 265 shall be excluded from adoption:

(1) All comments and all notes;

(2) 40 CFR 265.1(c)(4) and (15);

(3) 40 CFR 265.15(b)(5);

(4) 40 CFR 265.149 and 265.150;

(5) 40 CFR 265.195(d);

(6) 40 CFR 265.201(e);

(7) 40 CFR 265.1030(c);

(8) 40 CFR 265.1050(f); and

(9) 40 CFR 265.1080(e), (f), and (g).

(c) Modifications. The following modifications shall be made to 40 CFR part 265:

(1) Each occurrence of the following phrases shall be deleted:

(A) “(incorporated by reference, see § 260.11)”;

(B) “(incorporated by reference—refer to § 260.11 of this chapter)”;

(C) “(incorporated by reference as specified in § 260.11)”;

(D) “(incorporated by reference under § 260.11)”;

(E) “(incorporated by reference under § 260.11 of this chapter)”;

(F) “as incorporated by reference in § 260.11”; and

(G) “as incorporated by reference in § 260.11 of this chapter.”

(2) In 40 CFR 265.1(b), the phrase “issued under section 3005 of RCRA” shall be replaced with “issued by EPA under section 3005 of RCRA or a Kansas hazardous waste facility permit is issued by the department.”

(3) In 40 CFR 265.1(c)(11)(iii), the phrase “and K.A.R. 28-31-124a through 28-31-124e” shall be

inserted after the phrase “through 124 of this chapter.”

(4) In 40 CFR 265.15(b)(4), the following text shall be deleted: “, except for Performance Track member facilities, that must inspect at least once each month, upon approval by the Director, as described in paragraph (b)(5) of this section.”

(5) In 40 CFR 265.90(e), the term “qualified professional” shall be replaced with “Kansas professional engineer.”

(6) In 40 CFR 265.112(d)(3)(ii), the phrase “under section 3008 of RCRA” shall be deleted.

(7) In 40 CFR 265.113(d)(2), the phrase “required under RCRA section 3019” shall be deleted.

(8) In 40 CFR 265.118(e)(2), the phrase “under section 3008 of RCRA” shall be deleted.

(9) In 40 CFR 265.143(c)(8) and 265.145(c)(9), the phrase “determination pursuant to section 3008 of RCRA” shall be replaced by “determination by EPA pursuant to section 3008 of RCRA or by the state under K.S.A. 65-3441, 65-3443, 65-3445, or 65-3439(e).”

(10) In 40 CFR 265.143(g) and 265.145(g), the text “If the facilities covered by the mechanism are in more than one Region, identical evidence of financial assurance must be submitted to and maintained with the Regional Administrators of all such Regions” shall be replaced with the following: “If the facilities covered by the mechanism are in more than one state, identical evidence of financial assurance shall be submitted to and maintained with the state agency regulating hazardous waste, or with the appropriate regional administrator if the facility is located in an unauthorized state.”

(11) In 40 CFR 265.144(b) and (c), the phrase “and the post-closure period” shall be inserted after the phrase “During the active life of the facility.”

(12) In 40 CFR 265.144(b), the following replacements shall be made:

(A) The phrase “§ 265.145(d)(5)” shall be replaced with “§ 265.145(e)(5).”

(B) The phrase “§ 265.145(b)(1) and (2)” shall be replaced with “paragraphs (b)(1) and (2) of this section.”

(13) In 40 CFR 265.147(a)(1)(i), the text “Regional Administrator, or Regional Administrators” shall be replaced with “secretary, and regional administrators.”

(14) In 40 CFR 265.174, the following language shall be deleted: “, except for Performance Track

member facilities, that must conduct inspections at least once each month, upon approval by the Director. To apply for reduced inspection frequency, the Performance Track member facility must follow the procedures described in § 265.15(b)(5) of this part.”

(15) In 40 CFR 265.191(a), the text “January 12, 1988” shall be replaced with “January 12, 1988 for HSWA tanks, and May 1, 1988 for non-HSWA tanks.”

(16) In 40 CFR 265.191(c), the text “July 14, 1986 must conduct this assessment within 12 months after the date that the waste becomes a hazardous waste” shall be replaced with the following: “July 14, 1986 for HSWA tanks, or May 1, 1987 for non-HSWA tanks, shall conduct this assessment within 12 months after the date that the waste becomes a hazardous waste regulated by the state.”

(17) In 40 CFR 265.201, the following modifications shall be made:

(A) In the title, the phrase “between 100 and 1,000 kg/mo” shall be replaced with “less than 1,000 kg/mo.”

(B) Paragraph (a) shall be replaced with the following: “The requirements of this section shall apply to each small quantity generator, and to each Kansas small quantity generator and conditionally exempt small quantity generator that accumulates 25 kg (55 pounds) or more of hazardous waste in one or more tanks.”

(C) In paragraphs (b), (f), (g), and (h), the phrases “generators of between 100 and 1,000 kg/mo hazardous waste” and “generators of between 100 and 1,000 kg/mo” shall be replaced with “generators identified in paragraph (a) of this section.”

(D) In paragraphs (c) and (d), the number “100” shall be replaced with “25.”

(18) In 40 CFR 265.340(b)(2), the phrase “§ 264.351” shall be replaced with “§ 265.351.”

(19) In 40 CFR 265.440(a), the following replacements shall be made:

(A) Each occurrence of the text “December 6, 1990” shall be replaced with “December 6, 1990 for HSWA drip pads and April 25, 1994 for non-HSWA drip pads.”

(B) Each occurrence of the text “December 24, 1992” shall be replaced with “December 24, 1992 for HSWA drip pads and April 25, 1994 for non-HSWA drip pads.”

(20) In 40 CFR 265.440(c)(1)(iv), the term “Federal regulations” shall be replaced with “federal and state regulations.”

(21) In 40 CFR 265.1080(b)(5), the text “required under the corrective action authorities of RCRA sections 3004(u), 3004(v), or 3008(h); CERCLA authorities; or similar federal or state authorities” shall be replaced by the following: “required by EPA under the corrective action authorities of RCRA sections 3004(u), 3004(v), or 3008(h) or under CERCLA authorities; required by the state under K.S.A. 65-3443, 65-3445, and 65-3453; or required under similar Federal or State authorities.”

(22) In 40 CFR 265.1101(c)(4), the following text shall be deleted:

(A) “, except for Performance Track member facilities, that must inspect up to once each month, upon approval of the director;” and

(B) “[t]o apply for reduced inspection frequency, the Performance Track member facility must follow the procedures described in § 265.15(b)(5).” (Authorized by K.S.A. 65-3431; implementing K.S.A. 65-3431 and 65-3443; effective April 29, 2011.)

28-31-265a. Interim status hazardous waste treatment, storage, and disposal facilities; additional state requirements. Each owner or operator of an interim status hazardous waste treatment, storage, or disposal facility shall comply with K.A.R. 28-31-264a. (Authorized by K.S.A. 65-3431; implementing K.S.A. 65-3431 and 65-3443; effective April 29, 2011.)

28-31-266. Specific hazardous wastes and specific types of hazardous waste management facilities; adoption and modification of federal regulations. (a) Adoption. The provisions of 40 CFR part 266, including appendices I through IX and XI through XIII, as in effect on July 1, 2006, are hereby adopted by reference subject to the following:

(1) The substitution of terms listed in K.A.R. 28-31-100 through 28-31-100s;

(2) the exclusions from adoption listed in subsection (b); and

(3) the modifications listed in subsection (c).

(b) Exclusions. The following portions of 40 CFR part 266 shall be excluded from adoption:

(1) All notes, except in appendix IX;

(2) 40 CFR 266.103;

(3) in 40 CFR 266.210, the definition of “we or us”; and

(4) subpart O.

(c) Modifications. The following modifications shall be made to 40 CFR part 266:

(1) Each occurrence of the following phrases shall be deleted:

- (A) “(incorporated by reference, see § 260.11)”;
- (B) “(incorporated by reference, in § 260.11)”;
- (C) “(incorporated by reference in § 260.11)”;
- (D) “, as incorporated by reference in § 260.11 of this chapter”; and
- (E) “, incorporated by reference in §260.11,”.

(2) In 40 CFR 266.23(a), the phrase “subparts A through N of parts 124, 264, 265, 268, and 270 of this chapter” shall be replaced with “subparts A through N of 40 CFR parts 264 and 265, 40 CFR parts 268 and 270, K.A.R. 28-31-124 through 124e,”.

(3) In 40 CFR 266.202(d), the following modifications shall be made:

(A) The phrase “For the purposes of RCRA section 1004(27),” shall be deleted.

(B) The text “or imminent and substantial endangerment authorities under section 7003” shall be replaced with “and the Kansas enforcement authorities at K.S.A. 65-3441(b) and (c), 65-3443, and 65-3445.”

(4) In 40 CFR 266.210 in the definition of “naturally occurring and/or accelerator-produced radioactive material (NARM),” the phrase “by the States” shall be replaced with “by the state of Kansas.”

(5) In 40 CFR part 266, subpart N, the following replacements shall be made:

(A) The term “us” shall be replaced with “the department.”

(B) The term “we” shall be replaced with “the secretary.” (Authorized by and implementing K.S.A. 65-3431; effective April 29, 2011.)

28-31-267. Hazardous waste facilities operating under a standardized permit; adoption and modification of federal regulations.

(a) Adoption. The provisions of 40 CFR part 267, as in effect on July 1, 2006, are hereby adopted by reference subject to the following:

(1) The substitution of terms listed in K.A.R. 28-31-100 through 28-31-100s;

(2) the exclusions from adoption listed in subsection (b); and

(3) the modifications listed in subsection (c).

(b) Exclusions. The following portions of 40 CFR part 267 shall be excluded from adoption:

(1) All comments and all notes; and

(2) 40 CFR 267.150.

(c) Modifications. The following modifications shall be made to 40 CFR part 267:

(1) Each occurrence of the following phrases shall be deleted:

(A) “, as incorporated by reference in 40 CFR 260.11”; and

(B) “(incorporated by reference, see 40 CFR 260.11).”

(2) In 40 CFR 267.12, the text “your state hazardous waste regulatory agency or from your EPA regional office” shall be replaced with “the department.”

(3) In 40 CFR 267.112(d)(3), the phrase “under section 3008 of RCRA” shall be deleted.

(4) In 40 CFR 267.151(a) and (b), the text “[insert ‘subpart H of 40 CFR part 267’ or the citation to the corresponding state regulation]” shall be replaced with “K.A.R. 28-31-267.” (Authorized by K.S.A. 65-3431; implementing K.S.A. 65-3431 and 65-3443; effective April 29, 2011.)

28-31-267a. Hazardous waste facilities operating under a standardized permit; additional state requirements. Each owner or operator of hazardous waste management facility that has been issued a standardized permit shall comply with K.A.R. 28-31-264a. (Authorized by K.S.A. 65-3431; implementing K.S.A. 65-3431 and 65-3443; effective April 29, 2011.)

28-31-268. Land disposal restrictions; adoption and modification of federal regulations. (a) Adoption. The provisions of 40 CFR part 268, including appendices III, IV, VI through VIII, and XI, as in effect on July 1, 2006, are hereby adopted by reference subject to the following:

(1) The substitution of terms listed in K.A.R. 28-31-100 through 28-31-100s;

(2) the exclusions from adoption listed in subsection (b); and

(3) the modifications listed in subsection (c).

(b) Exclusions. The following portions of 40 CFR part 268 shall be excluded from adoption:

(1) All comments and all notes;

(2) 40 CFR 268.13; and

(3) 40 CFR 268.44(o).

(c) Modifications. The following modifications shall be made to 40 CFR part 268:

(1) Each occurrence of the following phrases shall be deleted:

(A) “(incorporated by reference, see § 260.11 of this chapter)”;

(B) “as incorporated by reference in § 260.11”;

(C) “as incorporated by reference in § 260.11 of this chapter”;

(D) “as incorporated by reference in 40 CFR 260.11”; and

(E) “as referenced in § 260.11 of this chapter.”
 (2) Paragraph 40 CFR 268.1(e)(1) shall be replaced with “Waste generated by conditionally exempt small quantity generators or Kansas small quantity generators (KSQGs), except KSQGs shall comply with 40 CFR 268.7(a)(5) and (10).”

(3) In 40 CFR 268.3(a), the phrase “RCRA section 3004” shall be replaced with “40 CFR part 268.”

(4) In 40 CFR 268.7(a)(9)(iii), the phrase “except for D009” shall be added to the end of the sentence.

(5) In 40 CFR 268.7(a)(10), the phrase “and Kansas small quantity generators” shall be inserted after the term “Small quantity generators.”

(6) In 40 CFR 268.7(d), the phrase “§ 261.3(e)” shall be replaced with “§ 261.3(f).”

(7) 40 CFR 268.7(d)(1) shall be replaced with the following: “A one-time notification, including the following information, shall be submitted to the department:”

(8) In 40 CFR 268.14(b) and (c), the phrase “section 3001” shall be replaced with “40 CFR part 261.”

(9) In 40 CFR 268.44(i), the phrase “in § 260.20(b)(1)-(4)” shall be replaced with “required by EPA’s rulemaking petition program.”

(10) In 40 CFR 268.50(a), the phrase “of RCRA section 3004” shall be deleted.

(11) In 40 CFR 268.50(e), the phrase “or RCRA section 3004” shall be deleted. (Authorized by and implementing K.S.A. 65-3431; effective April 29, 2011; amended May 10, 2013.)

28-31-270. Hazardous waste permits; adoption and modification of federal regulations. (a) Adoption. The provisions of 40 CFR part 270, including appendix I to §270.42, as in effect on July 1, 2006, are hereby adopted by reference subject to the following:

(1) The substitution of terms listed in K.A.R. 28-31-100 through 28-31-100s;

(2) the exclusions from adoption listed in subsection (b); and

(3) the modifications listed in subsection (c).

(b) Exclusions. The following portions of 40 CFR part 270 shall be excluded from adoption:

(1) In 40 CFR 270.1, subsections (a) and (b) and paragraphs (c)(1)(iii) and (c)(2)(ix);

(2) 40 CFR 270.3;

(3) 40 CFR 270.6;

(4) 40 CFR 270.10(g)(1)(i);

(5) 40 CFR 270.14(b)(18);

(6) 40 CFR 270.42(i) and (l);

(7) 40 CFR 270.60(a); and

(8) 40 CFR 270.64.

(c) Modifications. The following modifications shall be made to 40 CFR part 270:

(1) In 40 CFR 270.1(c)(7), the following text shall be deleted: “including, but not limited to, a corrective action order issued by EPA under section 3008(h), a CERCLA remedial action, or a closure or post-closure plan.”

(2) In 40 CFR 270.2, the following definitions shall be modified as follows:

(A) Corrective action management unit.

(i) The phrase “or secretary” shall be inserted after the term “Regional Administrator.”

(ii) The word “and” shall be replaced with the term “or by the regional administrator under.”

(B) Emergency permit. The term “RCRA permit” shall be replaced with “RCRA or Kansas hazardous waste facility permit.”

(C) Permit.

(i) The reference to “124 of this chapter” shall be replaced with “124 of this chapter or K.A.R. 28-31-124 through 28-31-124e and 28-31-270.”

(ii) The term “RCRA” shall be deleted.

(iii) The term “agency” shall be replaced with the phrase “EPA or department.”

(D) Remedial action plan. The term “RCRA permit” shall be replaced with “RCRA or Kansas hazardous waste facility permit.”

(E) Standardized permit.

(i) The term “RCRA permit” shall be replaced with “RCRA or Kansas hazardous waste facility permit.”

(ii) The term “Director’s” shall be replaced with “director’s or secretary’s.”

(3) In 40 CFR 270.10(a), the following language shall be inserted after the title “Applying for a permit.”: “Each person that wants to apply for a permit to dispose of hazardous waste shall first petition the secretary for an exception to the Kansas prohibition against underground land burial under the requirements of K.A.R. 28-31-5.”

(4) In 40 CFR 270.10(e)(3), the text “, or the secretary may under the authority of K.S.A. 65-3445,” shall be inserted after the phrase “section 3008 of RCRA.”

(5) In 40 CFR 270.10(e)(4), the second sentence shall be deleted.

(6) In 40 CFR 270.10(f)(2), the second sentence shall be replaced with the following: “The application shall be filed with the secretary.”

(7) In 40 CFR 270.10(g)(1)(ii), the text “if the facility is located in a State which has obtained

interim authorization or final authorization,” shall be deleted.

(8) In 40 CFR 270.10(g)(1)(iii), the text “if the State in which the facility in question is located does not have interim authorization or final authorization; otherwise it shall be filed with the State Director (if the State has an analogous provision)” shall be deleted.

(9) 40 CFR 270.12 shall be replaced with “K.S.A. 65-3447 shall apply to all information claimed as confidential.”

(10) In 40 CFR 270.13(k)(1), the term “RCRA” shall be replaced with “RCRA or the Kansas hazardous waste program.”

(11) In 40 CFR 270.14(b)(20), the phrase “Federal laws as required in § 270.3 of this part” shall be replaced with “laws.”

(12) In 40 CFR 270.24(d)(3) and 270.25(e)(3), the phrase “(incorporated by reference as specified in § 270.6)” shall be deleted.

(13) In 40 CFR 270.32(a) the text “, and for EPA issued permits only, 270.33(b) (alternate schedules of compliance) and 270.3 (considerations under Federal law)” shall be deleted.

(14) In 40 CFR 270.32(c), the following language shall be deleted:

(A) The second sentence, which starts “For a permit issued by EPA”;

(B) the term “EPA”; and

(C) the phrase “and EPA administered programs.”

(15) In 40 CFR 270.43(b), the phrase “or part 22” shall be deleted.

(16) In 40 CFR 270.51(a), the title shall be replaced with “Kansas hazardous waste facility permits” and the phrase “under 5 U.S.C. 558(c)” shall be deleted.

(17) In 40 CFR 270.51(d), the title shall be replaced with “State continuation of an EPA permit” and the phrase “In a State with a hazardous waste program authorized under 40 CFR part 271,” shall be deleted.

(18) In 40 CFR 270.60, the phrase “facilities in Kansas” shall be inserted after the word “following” in the introductory paragraph.

(19) In 40 CFR 270.70(a) and 270.73(d), the phrase “under the Act” shall be deleted.

(20) 40 CFR 270.115 shall be replaced with the following: “K.S.A. 65-3447 shall apply to all information claimed as confidential.”

(21) In 40 CFR 270.155(a), the following phrases shall be deleted:

(A) “[T]o EPA’s Environmental Appeals Board”;

(B) “[i]nstead of the notice required under §§ 124.19(c) and 124.10 of this chapter,”;

(C) “by the Environmental Appeals Board”;

(D) “as provided by the Board”; and

(E) “with the Board.”

(22) In 40 CFR 270.195, the phrase “in RCRA sections 3004 and 3005” shall be deleted.

(23) In 40 CFR 270.255(a)(3), each occurrence of the term “we” shall be replaced with “the secretary.”

(24) In 40 CFR 270.310(d)(3), the phrase “(incorporated by reference as specified in 40 CFR 260.11)” shall be deleted. (Authorized by K.S.A. 65-3431; implementing K.S.A. 65-3431, 65-3433, 65-3437, and 65-3439; effective April 29, 2011.)

28-31-270a. Hazardous waste permits; petition to be granted an exception to the prohibition against underground burial of hazardous waste. This regulation shall apply to each person that wants to apply for a permit for the underground burial of hazardous waste. For the purposes of this regulation, this person shall be called a “potential applicant.”

(a) Exception petition. Before applying for a permit according to the requirements of K.A.R. 28-31-124 through 28-31-124e and 28-31-270, each potential applicant shall submit to the secretary a petition for an exception to the prohibition against the underground burial of hazardous waste, as specified in K.S.A. 65-3458 and amendments thereto.

(b) Contents of the exception petition. Each exception petition shall include the following items:

(1) A complete chemical and physical analysis of the waste;

(2) a list and description of all technologically feasible methods that could be considered to treat, store, or dispose of the waste;

(3) for each method described in paragraph (b) (2), an economic analysis based upon a 30-year time period. The analysis shall determine the costs associated with treating, storing, disposing of, and monitoring the waste during this time period; and

(4) a demonstration that underground burial is the only economically reasonable or technologically feasible methodology for the disposal of that specific hazardous waste.

(c) Review and public notice for exception petitions. The review and public notice shall be conducted according to the following requirements:

(1) The potential applicant shall submit the exception petition to the department. If the exception petition is not complete, the potential ap-

plicant shall be notified of the specific deficiencies by the department.

(2) Upon receipt of a complete exception petition, a public notice shall be published by the department once each week for three consecutive weeks according to the following requirements:

(A) The notice shall be published in the following publications:

- (i) The Kansas register; and
- (ii) the official county newspaper of the county in which the proposed underground burial would occur or, if there is no official county newspaper, a newspaper published as provided in K.S.A. 64-101 and amendments thereto.

(B) The public notice shall include the following information:

- (i) The name of the potential applicant;
 - (ii) a description of the specific waste;
 - (iii) a description of the proposed disposal methods;
 - (iv) a map indicating the location of the proposed underground burial;
 - (v) the address of the location where the exception petition and related documents can be reviewed;
 - (vi) the address of the location where copies of the exception petition and related documents can be obtained;
 - (vii) a description of the procedure by which the exception petition will be reviewed; and
 - (viii) the date and location of the public hearing.
- (3) A copy of the public notice shall be transmitted by the department to the clerk of each city that is located within three miles of the proposed underground burial site.

(d) Public hearing and public comment period. The public hearing and public comment period shall be conducted according to the following requirements:

(1) The public hearing shall be conducted in the same county as that of the proposed underground burial facility.

(2) The public hearing shall be scheduled no earlier than 30 days after the date of the first public notice.

(3) A hearing officer shall be designated by the secretary.

(4) At the hearing, any person may submit oral comments, written comments, or data concerning the exception petition. Reasonable limits may be set by the hearing officer on the time allowed for oral statements, and the submission of statements in writing may be required by the hearing officer.

(5) The public comment period shall end no earlier than the close of the public hearing. The hearing officer may extend the public comment period at the hearing.

(6) A recording or written transcript of the hearing shall be made available to the public by the department upon request.

(7) A report shall be submitted by the hearing officer to the secretary detailing all written and oral comments submitted during the public comment period. The hearing officer may also recommend findings and determinations.

(e) Approval or denial of the exception petition. The following procedures shall be followed by the secretary and the department:

(1) If the secretary determines, based on the criteria specified in K.S.A. 65-3458 and amendments thereto, that the exception petition should be approved, an order shall be issued by the secretary. The order may require conditions that the secretary deems necessary to protect public health and safety and the environment.

(2) If the secretary determines that there is not sufficient evidence to approve the exception petition, the potential applicant shall be notified by the department of the reasons why the exception petition is denied.

(3) A public notice of the final decision to approve or deny the exception petition shall be published by the department in the following publications:

- (A) The Kansas register; and
- (B) the official county newspaper of the county in which the proposed underground burial would occur or, if there is no official county newspaper, a newspaper published as provided in K.S.A. 64-101 and amendments thereto.

(4) A copy of the final decision shall be transmitted by the department to the clerk of each city that is located within three miles of the proposed underground burial site. (Authorized by K.S.A. 65-3431; implementing K.S.A. 2010 Supp. 65-3458; effective April 29, 2011.)

28-31-273. Universal waste; adoption and modification of federal regulations. (a) Adoption. The provisions of 40 CFR part 273, as in effect on July 1, 2006, are hereby adopted by reference subject to the following:

(1) The substitution of terms listed in K.A.R. 28-31-100 through 28-31-100s; and

(2) the exclusions from adoption listed in subsection (b).

(b) Exclusions. The following portions of 40 CFR part 273 shall be excluded from adoption:

- (1) All comments and all notes; and
- (2) subpart G. (Authorized by and implementing K.S.A. 65-3431; effective April 29, 2011.)

28-31-279. Used oil; adoption and modification of federal regulations. (a) Adoption. The provisions of 40 CFR part 279, as in effect on July 1, 2006, are hereby adopted by reference subject to the following:

- (1) The substitution of terms listed in K.A.R. 28-31-100 through 28-31-100s;
- (2) the exclusions from adoption listed in subsection (b); and
- (3) the modifications listed in subsection (c).

(b) Exclusions. The following portions of 40 CFR part 279 shall be excluded from adoption:

- (1) All comments and all notes; and
- (2) 40 CFR 279.82.

(c) Modifications. The following modifications shall be made to 40 CFR part 279:

(1) In 40 CFR 279.10(a), the text “EPA presumes” shall be replaced with “EPA and the department presume.”

(2) In 40 CFR 279.12(b), the text “, except when such activity takes place in one of the states listed in § 279.82(c)” shall be deleted.

(3) The text “and which has occurred after the effective date of the recycled used oil management program in effect in the State in which the release is located” shall be deleted in the following locations:

- (A) 40 CFR 279.22(d);
- (B) 40 CFR 279.45(h);
- (C) 40 CFR 279.54(g); and
- (D) 40 CFR 279.64(g).

(4) The parenthetical text in paragraph (b)(1) concerning the “RCRA/Superfund Hotline” and the sentence in paragraph (b)(2) concerning the “RCRA/Superfund Hotline” shall be deleted in the following sections:

- (A) 40 CFR 279.42;
- (B) 40 CFR 279.51; and
- (C) 40 CFR 279.62.

(5) In 40 CFR 279.81(b), the phrase “parts 257 and 258 of this chapter” shall be replaced with “K.S.A. 65-3401 et seq. and article 29.” (Authorized by and implementing K.S.A. 65-3431; effective April 29, 2011.)

28-31-279a. Used oil; additional state prohibitions and requirements. (a) Prohibitions.

(1) No person shall dispose of used oil on or into any of the following:

- (A) Sewers;
- (B) storm drainage systems;
- (C) surface water;
- (D) groundwater; or
- (E) the ground.

(2) No person shall apply used oil as any of the following:

- (A) A coating;
- (B) a sealant;
- (C) a dust suppressant;
- (D) a pesticide carrier; or
- (E) any other similar application.

(b) Transporter registration and insurance. Each transporter of used oil shall comply with the requirements of K.A.R. 28-31-6. (Authorized by and implementing K.S.A. 65-3431; effective April 29, 2011.)

Article 32.—TESTING HUMAN BREATH FOR LAW ENFORCEMENT PURPOSES

28-32-11. EBAT device certification.

(a) Application. Each agency custodian seeking EBAT device certification shall submit an application on forms provided by the department for certification of each EBAT device that the certified agency intends to use in the certified agency’s EBAT program.

(b) Initial certification requirements. Each EBAT device shall be certified by the secretary before being used by an agency.

(c) Inspection. Once an EBAT device is certified, an inspection of the EBAT device may be made by the secretary at any time. Any EBAT device may be removed from service at the time of the inspection if deemed necessary.

(d) Maintenance. Each EBAT device shall be maintained by the device custodian or the device custodian’s designee as directed by the secretary.

(e) Repair. Each EBAT device removed from service for repair shall be repaired by the manufacturer or the manufacturer’s authorized repair service. When the EBAT device is returned to the agency, the EBAT device shall be tested for accuracy by the device custodian or the device custodian’s designee. The device custodian or the device custodian’s designee shall notify the department of the date on which the instrument is placed back into service.

(f) Modification. No modification shall be made to any EBAT device without the prior written consent of the secretary. For purposes of this regula-

tion, “modification” shall mean any change in the operating software of or any physical change to a certified EBAT device that alters the accuracy or precision of the EBAT device. (Authorized by and implementing K.S.A. 2017 Supp. 65-1,107; effective March 14, 2008; amended, T-28-12-18-17, Dec. 18, 2017; amended April 6, 2018.)

28-32-13. Records. (a)(1) Each agency custodian or the agency custodian’s designee shall maintain the following records on file at the certified agency’s office for at least three years:

- (A) Records of each current certified operator;
- (B) records showing that a quality control check was completed at least once each week for each EBAT device assigned to the agency; and
- (C) records documenting any maintenance or repair made to each EBAT device.

(2) The records specified in this subsection shall be subject to inspection by the secretary at least annually.

(b) Each agency custodian or the agency custodian’s designee shall maintain a record of the number of individuals tested by each certified operator under the certified agency’s supervision. (Authorized by and implementing K.S.A. 2012 Supp. 65-1,107; effective March 14, 2008; amended March 8, 2013.)

Article 34.—HOSPITALS

28-34-126. Definitions. For the purposes of K.A.R. 28-34-126, 28-34-127, and 28-34-129 through 28-34-144, the following terms shall have the meanings specified in this regulation. (a) “Admitting privileges” means permission extended by a hospital to a physician to allow the physician to admit a patient to that hospital either as active or courtesy staff.

(b) “Ancillary services” means laboratory, radiology, or pharmacy services.

(c) “Ancillary staff member” means an individual who performs laboratory, radiology, or pharmacy services at a facility.

(d) “Applicant” means a person who has applied for a license but who has not yet been granted a license to operate a facility.

(e) “Clinical privileges” means permission extended by a hospital to a physician to allow the physician to provide treatment to a patient in that hospital.

(f) “Health professional” means an individual, other than a physician, who is one of the following:

(1) A nurse licensed by the Kansas state board of nursing; or

(2) a physician assistant licensed by the Kansas state board of healing arts.

(g) “Licensee” means a person who has been granted a license to operate a facility.

(h) “Medical staff member” means an individual who is one of the following:

(1) A physician licensed by the Kansas state board of healing arts;

(2) a health professional; or

(3) an ancillary staff member.

(i) “Newborn child” means a viable child delivered during an abortion procedure.

(j) “Person” means any individual, firm, partnership, corporation, company, association, or joint-stock association, and the legal successor thereof.

(k) “Reportable incident” means an act by a medical staff member which:

(1) Is or may be below the applicable standard of care and has a reasonable probability of causing injury to a patient; or

(2) may be grounds for disciplinary action by the appropriate licensing agency.

(l) “Risk manager” means the individual designated by the applicant or licensee to administer the facility’s internal risk management program and to receive reports of reportable incidents within the facility.

(m) “Staff member” means an individual who provides services at the facility and who is compensated for those services.

(n) “Unborn child” means a living individual organism of the species *homo sapiens*, in utero, at any stage of gestation from fertilization to birth.

(o) “Viable” shall have the same meaning ascribed in K.S.A. 65-6701, and amendments thereto.

(p) “Volunteer” means an individual who provides services at the facility and who is not compensated for those services. (Authorized by L. 2011, ch. 82, sec. 9; implementing L. 2011, ch. 82, sec. 1; effective, T-28-7-1-11, July 1, 2011; effective Nov. 14, 2011.)

28-34-127. Application process. (a) Any person desiring to operate a facility shall apply for a license on forms provided by the department.

(b) Each applicant shall submit a fee of \$500 for a license. The applicable fee shall be submitted at the time of license application and shall not be refundable.

(c) Before initial licensing each applicant shall submit to the department the following information:

(1) Written verification from the applicable local authorities showing that the premises are in compliance with all local codes and ordinances, including all building, fire, and zoning requirements;

(2) written verification from the state fire marshal showing that the premises are in compliance with all applicable fire codes and regulations;

(3) documentation of the specific arrangements that have been made for the removal of biomedical waste and human tissue from the premises; and

(4) documentation that the facility is located within 30 miles of an accredited hospital.

(d) The granting of a license to any applicant may be denied by the secretary if the applicant is not in compliance with all applicable laws, rules, and regulations. (Authorized by L. 2011, ch. 82, sec. 9; implementing L. 2011, ch. 82, secs. 2 and 9; effective, T-28-7-1-11, July 1, 2011; effective Nov. 14, 2011.)

28-34-129. Terms of a license. (a) Each license shall be effective for one year following the date of issuance.

(b) Each license shall be valid for the licensee and the address specified on the license. When an initial, renewed, or amended license becomes effective, all licenses previously granted to the applicant or licensee at the same address shall become invalid.

(c) Only one physical location shall be described in each license.

(d) Any applicant may withdraw the application for a license.

(e) Any licensee may submit, at any time, a request to close the facility permanently and to surrender the license.

(f) If a facility is closed, any license granted for that facility shall become void. (Authorized by L. 2011, ch. 82, sec. 9; implementing L. 2011, ch. 82, sec. 2; effective, T-28-7-1-11, July 1, 2011; effective Nov. 14, 2011.)

28-34-130. Renewals; amendments. (a) No earlier than 90 days before but no later than the renewal date, each licensee wishing to renew the license shall submit the following:

(1) The nonrefundable license fee of \$500; and

(2) an application to renew the license on the form provided by the department.

(b) Each licensee shall submit a request for an amended license to the department within 30 days after either of the following:

(1) A change of ownership by purchase or by lease; or

(2) a change in the facility's name or address. (Authorized by L. 2011, ch. 82, sec. 9; implementing L. 2011, ch. 82, secs. 2, 3, and 4; effective, T-28-7-1-11, July 1, 2011; effective Nov. 14, 2011.)

28-34-131. Operation of the facility. (a) Each applicant and each licensee shall be responsible for the operation of the facility.

(b) Each applicant and each licensee shall:

(1) Ensure compliance with all applicable federal, state, and local laws;

(2) serve as or designate a medical director who is a physician licensed by the Kansas state board of healing arts and who has no limitations to the license that would prohibit the physician's ability to serve in the capacity as a medical director of a facility; and

(3) ensure the following documents are conspicuously posted at the facility:

(A) The current facility license issued by the department; and

(B) the current telephone number and address of the department.

(c) Each applicant and each licensee shall ensure that written policies and procedures are developed and implemented for the operation of the facility. The policies and procedures shall include the following requirements:

(1) An organized recordkeeping system to meet the requirements in K.A.R. 28-34-144;

(2) documentation of personnel qualifications, duties, and responsibilities to meet the requirements in K.A.R. 28-34-132;

(3) that the facility is designed, constructed, equipped, and maintained to protect the health and safety of patients, staff, and visitors to meet the requirements in K.A.R. 28-34-133 through 28-34-136;

(4) ensure proper and adequate medical screening and evaluation of each patient to meet the requirements in K.A.R. 28-34-137;

(5) consent is obtained from each patient before the procedure;

(6) safe conduct of abortion procedures to meet the requirements in K.A.R. 28-34-138;

(7) the appropriate use of anesthesia, analgesia and sedation to meet the requirements in K.A.R. 28-34-138;

(8) ensure the use of appropriate precautions for any patient undergoing a second or third trimester abortion to meet the requirements in K.A.R. 28-34-138;

(9) post-procedure care of patients to meet the requirements in K.A.R. 28-34-139;

(10) identify and ensure a physician with admitting privileges at an accredited hospital located within 30 miles of the facility is available during facility hours of operation;

(11) if indicated, the transfer of any patient and newborn child to a hospital to meet the requirements in K.A.R. 28-34-140;

(12) follow-up and aftercare for each patient receiving an abortion procedure in the facility to meet the requirements in K.A.R. 28-34-141;

(13) a written plan for risk management to meet the requirements in K.A.R. 28-34-142, including policies and procedures for staff member or volunteer reporting of any clinical care concerns; and

(14) ensure that incidents that require reporting to the department are completed as required in K.A.R. 28-34-143. (Authorized by L. 2011, ch. 82, sec. 9; implementing L. 2011, ch. 82, secs. 2 and 9; effective, T-28-7-1-11, July 1, 2011; effective Nov. 14, 2011.)

28-34-132. Staff requirements. (a) Each applicant and each licensee shall ensure that each physician performing surgery in a facility is approved by the medical director, licensed to practice medicine and surgery in the state of Kansas, and demonstrates competence in the procedure involved in the physician's duties at the facility. Competence shall be demonstrated through both of the following means and methods:

(1) Documentation of education and experience; and

(2) observation by or interaction with the medical director.

(b) Each applicant and each licensee shall ensure the following:

(1) A physician with admitting privileges at an accredited hospital located within 30 miles of the facility is available.

(2) Any physician performing or inducing abortion procedures in the facility has clinical privileges at a hospital located within 30 miles of the facility.

(c) Each applicant and each licensee shall ensure that each individual who performs an ultrasound is one of the following:

(1) A physician licensed in the state of Kansas who has completed a course for the type of ultrasound examination the physician performs; or

(2) an individual who performs ultrasounds under the supervision of a physician and who meets all of the following requirements:

(A) Has completed a course in performing ultrasounds;

(B) has completed a training for the specific type of ultrasound examination the individual performs; and

(C) is not otherwise precluded by law from performing ultrasound examinations.

(d) Each applicant and each licensee shall ensure that each staff member employed by or contracted with the facility is licensed, if required by state law, is qualified, and provides services to patients consistent with the scope of practice of the individual's training and experience.

(e) Each applicant and each licensee shall ensure that each surgical assistant employed by or contracted with the facility receives training in the specific responsibilities of the services the surgical assistant provides in the facility.

(f) Each applicant and each licensee shall ensure that each volunteer receives training as identified by the medical director in the specific responsibilities the volunteer provides at the facility.

(g) Each applicant and each licensee shall ensure that at least one physician or registered nurse is certified in advanced cardiovascular life support and is present at the facility when any patient who is having an abortion procedure or recovering from an abortion procedure is present at the facility. (Authorized by and implementing L. 2011, ch. 82, sec. 9; effective, T-28-7-1-11, July 1, 2011; effective Nov. 14, 2011.)

28-34-133. Facility environmental standards. (a) Each applicant and each licensee shall ensure that the facility is designed, constructed, equipped, and maintained to protect the health and safety of patients, staff members, volunteers, and visitors.

(b) Each facility shall include the following rooms and areas:

(1) At least one room designated for patient interviews, counseling, and medical evaluations, located and arranged to preserve patient privacy;

(2) at least one dressing room for patients only and arrangements for storage of patient clothing and valuables;

(3) at least one dressing room for staff members, including a toilet, hand washing station, and arrangements for storage for staff member clothing and valuables;

(4) a toilet room and hand washing station designated for patients;

(5) hand washing stations for pre-procedure hand washing by staff members;

(6) private procedure rooms and doorways of those rooms of sufficient size to accommodate the following:

(A) The equipment, supplies, and medical staff members required for performance of an abortion procedure; and

(B) emergency equipment and personnel in the event of a transfer, as described in K.A.R. 28-34-140;

(7) a recovery area that meets all of the following requirements:

(A) Has a nurse station with visual observation of each patient in the recovery area;

(B) provides privacy for each patient in the recovery area with at least cubicle curtains around each patient gurney or bed; and

(C) has sufficient space to accommodate emergency equipment and personnel in the event of a transfer, as described in K.A.R. 28-34-140;

(8) a waiting area for patients and visitors;

(9) an administrative area, including office space for the secure filing and storage of facility patient records;

(10) a workroom separate from the procedure rooms for cleaning, preparation, and sterilization of instruments, arranged to separate soiled or contaminated instruments from clean or sterilized instruments, including the following:

(A) A hand washing station;

(B) receptacles for waste and soiled items;

(C) designated counter space for soiled or contaminated instruments;

(D) a sink for cleaning soiled or contaminated instruments;

(E) designated counter space for clean instruments; and

(F) an area for sterilizing instruments, if sterilization is completed at the facility;

(11) storage space for clean and sterile instruments and supplies; and

(12) at least one room equipped with a service sink or a floor basin and space for storage of janitorial supplies and equipment. (Authorized by and implementing L. 2011, ch. 82, sec. 9; effective, T-28-7-1-11, July 1, 2011; effective Nov. 14, 2011.)

28-34-134. Health and safety requirements. (a) Each applicant and each licensee shall ensure that the facility meets the following health and safety requirements:

(1) The temperature in each procedure room and in each recovery area shall be between 65 and 75 degrees Fahrenheit unless otherwise ordered by a physician in order to meet the comfort or medical needs of the patient.

(2) Fixed or portable lighting units shall be present in each examination, procedure, and recovery room or area, in addition to general lighting.

(3) Each emergency exit shall accommodate a stretcher or a gurney.

(4) The facility shall be maintained in a clean condition.

(5) The facility shall not be infested by insects and vermin.

(6) A warning notice shall be placed at the entrance to any room or area where oxygen is in use.

(7) Soiled linen and clothing shall be kept in covered containers in a separate area from clean linen and clothing.

(b) A written emergency plan shall be developed and implemented, including procedures for protecting the health and safety of patients and other individuals in any of the following circumstances:

(1) A fire;

(2) a natural disaster;

(3) loss of electrical power; or

(4) threat or incidence of violence.

(c) An evacuation drill shall be conducted at least once every six months, including participation by all individuals in the facility at the time of the drill. Documentation shall be maintained at the facility for one year from the date of the drill and shall include the date and time of the drill. (Authorized by and implementing L. 2011, ch. 82, sec. 9; effective, T-28-7-1-11, July 1, 2011; effective Nov. 14, 2011.)

28-34-135. Equipment; supplies; drugs and medications. (a) Each applicant and each licensee shall ensure that supplies, equipment, drugs, and medications are immediately available for use or in an emergency.

(b) Equipment and supplies shall be maintained in the amount required to assure sufficient quantities of clean and sterilized durable equipment to meet the needs of each patient during any abortion procedure and for monitoring each patient throughout the procedure and recovery period.

(c) Each applicant and each licensee shall ensure that the following equipment and supplies are maintained in the facility for airway management:

(1) An oxygen source with flowmeter;

(2) face masks, in child and adult sizes for assisting ventilation;

(3) a non self-inflating bag with face mask;

(4) suction, either wall or machine;

(5) suction catheters, in sizes 8, 10, 14F, and Yankauer;

(6) oral airways, in child and adult sizes;

(7) nasal cannulas, in child and adult sizes; and

(8) the following additional equipment and supplies for airway management for any abortion procedure performed when the gestational age of the unborn child is 22 weeks or more:

(A) A self-inflating bag with reservoir, 500 cc and 1000 cc;

(B) oral airways, in infant sizes;

(C) a laryngoscope handle with batteries;

(D) straight blades or curved blades, in sizes 0, 1, 2, and 3;

(E) endotracheal tubes, uncuffed, in sizes 3.0, 3.5, 4.0, 4.5, 5.0, 6.0, 7.0, and 8.0;

(F) stylets, small and large; and

(G) adhesive tape to secure airway.

(d) Each applicant and each licensee shall ensure that the following supplies are maintained in the facility for fluid management:

(1) Intraosseous needles, 15 or 18 gauge;

(2) intravenous catheters, 18, 20, 22, and 24 gauge;

(3) butterfly needles, 23 gauge;

(4) tourniquets, alcohol swabs, and tape;

(5) isotonic fluids, either normal saline or lactated Ringer's solution; and

(6) for any abortion procedure performed when the gestational age of the unborn child is 22 weeks or more, pediatric drip chambers and tubing.

(e) Each applicant and each licensee shall ensure that the following miscellaneous equipment and supplies are maintained in the facility:

(1) Blood pressure cuffs, in small, medium and large adult sizes;

(2) adult nasogastric tubes;

(3) manual sphygmomanometer; and

(4) for any abortion procedure performed when the gestational age of the unborn child is 22 weeks or more, blood pressure cuffs in premie and infant sizes.

(f) Each applicant and each licensee shall ensure that all equipment is safe for each patient and for the staff.

(g) Each applicant and each licensee shall ensure that each item of equipment is installed and used according to the manufacturer's recommendations for use.

(h) Each applicant and each licensee shall ensure that each item of equipment is checked annually to ensure safety and required calibration.

(i) Each applicant and each licensee shall ensure that equipment and supplies are clean and sterile, if applicable, before each use.

(j) Each applicant and each licensee shall ensure that the facility meets the following requirements for equipment:

(1) All equipment shall be clean, functional, and maintained in accordance with the manufacturer's instructions.

(2) The following equipment shall be available at all times:

(A) Ultrasound equipment;

(B) intravenous equipment;

(C) laboratory equipment;

(D) patient resuscitation and suction equipment;

(E) equipment to monitor vital signs in each room in which an abortion is performed;

(F) a surgical or gynecologic examination table;

(G) equipment to measure blood pressure;

(H) a stethoscope; and

(I) a scale for weighing a patient.

(k) Each applicant and each licensee shall ensure that, for any abortion procedure performed when the gestational age of the unborn child is 22 weeks or more, the following equipment and supplies are maintained in the facility:

(1) Equipment to monitor cardiopulmonary status; and

(2) drugs to support cardiopulmonary function.

(l) Each applicant and each licensee shall ensure that equipment and appropriate medications are located in the recovery area as needed for the provision of appropriate emergency resuscitative and life support procedures pending the transfer to a hospital of a patient or a newborn child.

(1) Each applicant and each licensee shall maintain a stock supply of drugs and medications for the use of the physician in treating the emergency needs of patients.

(2) The medications shall be stored in such a manner as to prohibit access by unauthorized personnel.

(3) The stock supplies of medications shall be regularly reviewed to ensure proper inventory control with removal or replacement of expired drugs and medications.

(4) Drugs and equipment shall be available within the facility to treat the following conditions consistent with standards of care for advanced cardiovascular life support:

(A) Cardiac arrest;

- (B) a seizure;
- (C) an asthma attack;
- (D) allergic reaction;
- (E) narcotic or sedative toxicity;
- (F) hypovolemic shock;
- (G) vasovagal shock; and
- (H) anesthetic reactions.

(m) Drugs and medications shall be administered to individual patients only by a facility physician or a facility health professional.

(n) If a stock of controlled drugs is to be maintained at the facility, the applicant or licensee shall ensure that the facility is registered by the Kansas board of pharmacy. Each applicant and each licensee shall ensure the proper safeguarding and handling of controlled substances within the facility, and shall ensure that all possible control measures are observed and that any suspected diversion or mishandling of controlled substances is reported immediately.

(o) Records shall be kept of all stock supplies of controlled substances giving an accounting of all items received or administered. (Authorized by and implementing L. 2011, ch. 82, sec. 9; effective, T-28-7-1-11, July 1, 2011; effective Nov. 14, 2011.)

28-34-136. Ancillary services. (a) Each applicant and each licensee shall document that the facility maintains a certificate of compliance from the centers for medicare and medicaid services pursuant to section 353 of the public health services act, 42 U.S.C. 263a, as revised by the clinical laboratory and current clinical laboratory improvement amendments for the purpose of performing examinations or procedures.

(b) Each applicant and each licensee shall ensure that the facility meets the following requirements for radiology services:

- (1) Allow only trained and qualified individuals to operate radiology equipment;
- (2) document annual checks and calibration of radiology equipment and maintain records of the annual checks and calibrations;
- (3) ensure that all radiology and diagnostic procedures are provided only on the order of a physician; and
- (4) maintain signed and dated clinical reports of the radiological findings in each patient's record.

(c) Each applicant and each licensee shall ensure that written policies and procedures are developed and implemented relating to drugs, including the following:

- (1) Storage of drugs;
- (2) security of drugs;
- (3) labeling and preparation of drugs;
- (4) administration of drugs; and
- (5) disposal of drugs.

(d) Each applicant and each licensee shall ensure that all drugs and medications shall be administered pursuant to a written order from a facility physician or a facility health professional.

(e) Each applicant and each licensee shall ensure that each adverse drug reaction is reported to the physician responsible for the patient and is documented in the patient record.

(f) Each applicant and each licensee shall ensure that each drug and each medication requiring refrigeration is stored in a refrigerator that is used only for drug and medication storage.

(g) Each applicant and each licensee shall ensure that there is a mechanism for the ongoing review and evaluation of the quality and scope of laboratory, radiology, and pharmaceutical services. (Authorized by and implementing L. 2011, ch. 82, sec. 9; effective, T-28-7-1-11, July 1, 2011; effective Nov. 14, 2011.)

28-34-137. Patient screening and evaluation. (a) Each applicant and each licensee shall ensure written policies and procedures are developed and implemented for the medical screening and evaluation of patients. A medical screening and evaluation shall be completed on each patient before an abortion procedure is performed.

(b) The medical screening and evaluation shall consist of the following:

- (1) A medical history shall be completed, including the following:
 - (A) Reported allergies to medications, antiseptic solution, or latex;
 - (B) obstetric and gynecologic history;
 - (C) past surgeries;
 - (D) medication currently being taken by the patient; and
 - (E) any other medical conditions.
- (2) A physical examination shall be performed by a physician, including a bimanual examination to estimate uterine size and palpation of the adnexa.
- (3) An ultrasound evaluation shall be completed for any patient who elects to have an abortion of an unborn child. The physician shall estimate the gestational age of the unborn child based on the ultrasound examination and obstetric standards in keeping with established standards of care regarding the estimation of the age of the unborn child and

shall verify the estimate in the patient's medical history. The physician shall keep the original prints of each ultrasound examination for each patient in the patient's medical history file. The original prints may consist of a digitized record or an electronic record.

(4) The appropriate laboratory tests shall be completed, including the following:

(A) For an abortion performed in a medical emergency and in which an ultrasound examination is not performed before the abortion procedure, urine or blood tests for pregnancy, which shall be completed before the abortion procedure;

(B) a test for anemia as indicated;

(C) determination of Rh factor or Rh typing, unless the patient provides written documentation of blood type acceptable to the physician; and

(D) other tests recommended by the physician or the medical director on the basis of the physical examination, which may include tests for chlamydia and gonorrhea and other cultures, syphilis serology, and a papanicolaou procedure.

(c) Each licensee shall ensure that another individual is present in the room during a pelvic examination or an abortion procedure. If the physician conducting the examination or the procedure is male, the other individual in the room shall be female.

(d) The physician or health care professional shall review, at the request of the patient, the ultrasound evaluation results with the patient before the abortion procedure is performed, including the probable gestational age of the unborn child. (Authorized by and implementing L. 2011, ch. 82, sec. 9; effective, T-28-7-1-11, July 1, 2011; effective Nov. 14, 2011.)

28-34-138. Abortion procedure. (a) Each applicant and each licensee shall ensure that written policies and procedures are developed and implemented for the following procedures:

(1) Safe conduct of abortion procedures that conform to obstetric standards in keeping with established standards of care regarding the estimated gestational age of the unborn child;

(2) the appropriate use of local anesthesia, analgesia, and sedation if ordered by the physician; and

(3) the use of appropriate precautions, including the establishment of intravenous access for any patient undergoing a second or third trimester abortion, unless the physician determines that establishing intravenous access is not appropriate for the patient and documents that fact in the medical record of the patient.

(b) Each licensee shall ensure that the following procedures are followed for each patient after completion of all requirements for patient screening and evaluation required in K.A.R. 28-34-137 and before performance of an abortion:

(1) Information is provided to the patient on the abortion procedure, including alternatives, risks, and potential complications.

(2) Written consent is signed and dated by the patient.

(c) Each licensee shall ensure that a physician and at least one health professional is available to each patient throughout the abortion procedure.

(d) Each licensee shall ensure that an infection control program is established which includes the following:

(1) Measures for surveillance, prevention, and control of infections;

(2) policies and procedures outlining infection control and aseptic techniques to be followed by staff members and volunteers; and

(3) training on infection control and aseptic techniques for all staff members and volunteers.

(e) Each licensee shall ensure that each abortion is performed according to the facility's policies and procedures and in compliance with all applicable laws, rules, and regulations.

(f) Each licensee shall ensure that health professionals monitor each patient's vital signs throughout the abortion procedure to ensure the health and safety of the patient.

(g) Each licensee shall ensure that the following steps are performed if an abortion procedure results in the delivery of a newborn child:

(1) Resuscitative measures are used to support life;

(2) the newborn child is transferred to a hospital; and

(3) resuscitative measures and the transfer to a hospital are documented. (Authorized by and implementing L. 2011, ch. 82, sec. 9; effective, T-28-7-1-11, July 1, 2011; effective Nov. 14, 2011.)

28-34-139. Recovery procedures; discharge. (a) Each applicant and each licensee shall ensure that written policies and procedures are developed and implemented for the post-procedure care of patients who are administered local anesthesia, analgesia, or sedation, including the following:

(1) Immediate post-procedure care for each patient shall consist of observation in a supervised recovery area.

(2) The vital signs and bleeding of each patient shall be monitored by a physician or a health professional.

(3) Each patient shall remain in the recovery area following the abortion procedure for the following time periods, based on the gestational age of the unborn child:

(A) For a gestational age of 12 weeks or less, a minimum of 30 minutes;

(B) for a gestational age of 13 to 15 weeks, a minimum of 45 minutes; and

(C) for a gestational age of 16 weeks or more, a minimum of 60 minutes. The patient shall remain in the recovery area for a longer period of time when necessary based on the physician's evaluation of the patient's medical condition.

(b) Each licensee shall ensure that a physician or an individual designated by a physician shall discuss Rho(d) immune globulin with each patient for whom it is indicated and assure that it is offered to the patient in the immediate post-procedure period or that it will be available to the patient within 72 hours after completion of the abortion procedure. If the patient refuses the Rho(d) immune globulin, the refusal shall be documented on a form approved by the department, signed by the patient and a witness, and filed in the medical record of the patient.

(c) At the time of discharge from the facility, each patient shall receive the following written information:

- (1) Signs of possible complications;
- (2) when to access medical care in response to complications;
- (3) the telephone number to call in an emergency;
- (4) instructions and precautions for resuming vaginal intercourse; and
- (5) any other instructions specific to a patient's abortion or condition.

(d) Each licensee shall ensure that a physician signs the discharge order for each patient. (Authorized by and implementing L. 2011, ch. 82, sec. 9; effective, T-28-7-1-11, July 1, 2011; effective Nov. 14, 2011.)

28-34-140. Transfers. (a) Each applicant and each licensee shall ensure that written policies and procedures are developed and implemented for the transfer of patients and newborn children to a hospital.

(b) Each licensee shall ensure that a physician arranges the transfer of a patient to a hospital if

any complications beyond the medical capability of the health professionals of the facility occurs or is suspected.

(c) Each licensee shall ensure that a physician arranges the transfer of a newborn child to a hospital if the child requires emergency care.

(d) A physician or a nurse who is certified in advanced cardiovascular life support shall remain on the premises of the facility to facilitate the transfer of an emergency case if hospitalization of a patient or a newborn child is required. (Authorized by and implementing L. 2011, ch. 82, sec. 9; effective, T-28-7-1-11, July 1, 2011; effective Nov. 14, 2011.)

28-34-141. Follow-up contact and care.

Each applicant and each licensee shall ensure that written policies and procedures are developed and implemented for follow-up and aftercare for each patient receiving an abortion procedure in the facility, including the following: (a) With the consent of the patient, a health professional from the facility shall make a good faith effort to contact the patient by telephone within 24 hours after the procedure to assess the patient's recovery.

(b) Each patient shall be offered a follow-up visit and, if requested by the patient, shall be scheduled no more than four weeks after completion of the procedure. The follow-up visit shall include the following:

- (1) A physical examination;
- (2) a review of all laboratory tests performed as required in K.A.R. 28-34-137; and
- (3) a urine pregnancy test.

If a continuing pregnancy is suspected, a physician who performs abortion procedures shall be consulted.

(c) The physician who performs or induces the abortion, or an individual designated by the physician, shall make all reasonable efforts to ensure that the patient returns for a subsequent examination so the physician can assess the patient's medical condition. A description of the efforts made to comply with this regulation, including the date, time, and name of the individual making the efforts, shall be included in the patient's medical record. (Authorized by and implementing L. 2011, ch. 82, sec. 9; effective, T-28-7-1-11, July 1, 2011; effective Nov. 14, 2011.)

28-34-142. Risk management. (a) Each applicant and each licensee shall develop and implement a written risk management plan.

(b) The risk management plan shall be reviewed and approved annually by the licensee.

(c) Findings, conclusions, recommendations, actions taken, and results of actions taken shall be documented and reported through procedures established within the risk management plan.

(d) All patient services, including those services provided by outside contractors or consultants, shall be periodically reviewed and evaluated in accordance with the risk management plan.

(e) Each risk management plan shall include the following:

(1) Section I. A description of the system implemented by the facility for investigation and analysis of the frequency and causes of reportable incidents within the facility;

(2) Section II. A description of the measures used by the facility to minimize the occurrence of reportable incidents and the resulting injuries within the facility;

(3) Section III. A description of the facility's implementation of a reporting system based upon the duty of all medical staff members staffing the facility and all agents and staff members of the facility directly involved in the delivery of health care services to report reportable incidents; and

(4) Section IV. A description of the organizational elements of the plan, including the following:

(A) Name and address of the facility;

(B) name and title of the facility's risk manager; and

(C) description of involvement and organizational structure of medical staff members as related to the risk management program, including names and titles of medical staff members involved in investigation and review of reportable incidents.

(f) The standards-of-care determinations shall include the following:

(1) Each facility shall assure that analysis of patient care incidents complies with the definition of a "reportable incident". Each facility shall use categories to record its analysis of each incident, and those categories shall be in substantially the following form:

(A) Standards of care met;

(B) standards of care not met, but with no reasonable probability of causing injury;

(C) standards of care not met, with injury occurring or reasonably probable; or

(D) possible grounds for disciplinary action by the appropriate licensing agency.

(2) Each reported incident shall be assigned an appropriate standard-of-care determination.

Separate standard-of-care determinations shall be made for each involved medical staff member and each clinical issue reasonably presented by the facts. Any incident determined to meet paragraph (f)(1)(C) or (D) of this regulation shall be reported to the appropriate licensing agency. (Authorized by and implementing L. 2011, ch. 82, sec. 9; effective, T-28-7-1-11, July 1, 2011; effective Nov. 14, 2011.)

28-34-143. Reporting requirements. In addition to the reporting requirements for risk management required in K.A.R. 28-34-142, each licensee shall ensure that the following incidents are reported to the department, on a form provided by the department:

(a) Each incident resulting in serious injury of a patient or a viable unborn child shall be reported to the department within 10 days after the incident.

(b) The death of a patient, other than the death of an unborn child, shall be reported to the department not later than the next department business day. (Authorized by and implementing L. 2011, ch. 82, sec. 9; effective, T-28-7-1-11, July 1, 2011; effective Nov. 14, 2011.)

28-34-144. Records. (a) Each applicant and each licensee shall maintain an organized record-keeping system that provides for identification, security, confidentiality, control, retrieval, and preservation of all staff member and volunteer records, patient medical records, and facility information.

(b) Each applicant and each licensee shall ensure that only individuals authorized by the applicant or licensee have access to patient medical records.

(c) All records shall be available at the facility for review by the secretary or the authorized agent of the secretary.

(d) For staff member and volunteer records, each applicant and each licensee shall ensure that an individual record is maintained at the facility. The record shall include all of the following information:

(1) The staff member's or volunteer's name, position, title, and the first and last date of employment or volunteer service;

(2) verification of qualifications, training, or licensure, if applicable;

(3) documentation of cardiopulmonary resuscitation certification, if applicable;

(4) if a physician, documentation of verification of competence, as required in K.A.R. 28-34-132, signed and dated by the medical director;

(5) if an individual who performs ultrasounds, documentation of ultrasound training required in K.A.R. 28-34-132;

(6) if a surgical assistant, documentation of training required in K.A.R. 28-34-132; and

(7) if a volunteer, documentation of training required in K.A.R. 28-34-132.

(e) For patient records, each licensee shall ensure that an individual record is maintained at the facility for each patient. The record shall include all of the following information:

(1) Patient identification, including the following:

(A) Name, address, and date of birth; and

(B) name and telephone number of an individual to contact in an emergency;

(2) medical history as required in K.A.R. 28-34-137;

(3) the physical examination required in K.A.R. 28-34-137;

(4) laboratory test results required in K.A.R. 28-34-137;

(5) ultrasound results required in K.A.R. 28-34-137;

(6) the physician's estimated gestational age of the unborn child as required in K.A.R. 28-34-137;

(7) each consent form signed by the patient;

(8) a record of all orders issued by a physician, physician assistant, or nurse practitioner;

(9) a record of all medical, nursing, and health-related services provided to the patient;

(10) a record of all adverse drug reactions as required in K.A.R. 28-34-136; and

(11) documentation of the efforts to contact the patient within 24 hours of the procedure and offer and schedule a follow-up visit no more than four weeks after the procedure, as required in K.A.R. 28-34-141.

(f) For facility records, each applicant and each licensee shall ensure that a record is maintained for the documentation of the following:

(1) All facility, equipment, and supply requirements specified in K.A.R. 28-34-133 through 28-34-136;

(2) ancillary services documentation required in K.A.R. 28-34-136;

(3) risk management activities required in K.A.R. 28-34-142; and

(4) submission of all reports required in K.A.R. 28-34-143. (Authorized by L. 2011, ch. 82, sec. 9;

implementing L. 2011, ch. 82, secs. 5 and 9; effective, T-28-7-1-11, July 1, 2011; effective Nov. 14, 2011.)

Article 35.—RADIATION

28-35-135a. Definitions. As used in these regulations, each of the following terms shall have the meaning specified in this regulation: (a) "A₁" means the maximum activity of special form radioactive material permitted in a type A package.

(b) "A₂" means the maximum activity of radioactive material, other than special form radioactive material, permitted in a type A package. These values are listed in or may be derived as specified in 10 C.F.R. part 71, appendix A, which is adopted by reference in K.A.R. 28-35-221b.

(c) "Absorbed dose" means the energy imparted to matter by ionizing radiation per unit mass of irradiated material at the place of interest. The units of absorbed dose are the rad and the gray (Gy).

(d) "Absorbed dose rate" means the absorbed dose per unit of time or, for linear accelerators, the dose monitor unit per unit of time.

(e) "Accelerator-produced material" means any material made radioactive by exposing it in a particle accelerator.

(f) "Accessible surface" means the surface of equipment or of an equipment part that can be easily or accidentally touched by persons without the use of a tool.

(g) "Accident" means an unintended event, including an operating error, equipment failure, and other mishap, that could result in either of the following:

(1) A dose in excess of regulatory limits on site or for the public; or

(2) consequences or potential consequences that cannot be ignored from the point of view of protection or safety, including an actual or potential substantial degradation of the level of protection or safety of the facility or the release of radioactive material in sufficient quantity to warrant consideration of protective actions.

(h) "Act" means the "nuclear energy development and radiation control act," K.S.A. 48-1601 et seq., and amendments thereto.

(i) "Activity" means the rate of disintegration, transformation, or decay of radioactive material. Activity is expressed in the SI unit of becquerel (Bq) or in the special unit of curie (Ci), or the multiples of either unit.

(j) “Added filter” means the filter added to the inherent filtration.

(k) “Address of use” means the building or buildings that are identified on the license and each location where radioactive material could be produced, prepared, received, used, or stored.

(l) “Adult” means an individual who is 18 or more years of age.

(m) (1) “Agreement state” means any state with which the nuclear regulatory commission (NRC) enters, or has entered, into an effective agreement pursuant to subsection 274b of the atomic energy act of 1954, 68 Stat. 919, as amended.

(2) “Non-agreement state” means any other state.

(n) “Airborne radioactive area” means the following:

(1) Any room, enclosure, or operating area in which airborne radioactive material exists in concentrations in excess of the derived air concentrations (DAC) specified in “appendices to part 4: standards for protection against radiation,” effective April 1994, published by the department and hereby adopted by reference; or

(2) any room, enclosure, or operating area in which airborne radioactive material exists in concentrations such that an individual present in the area without respiratory protective equipment could exceed, during the hours an individual is present in a week, an intake of 0.6 percent of the ALI or 12 DAC-hours.

(o) “Airborne radioactive material” means any radioactive material dispersed in the air in the form of dust, fumes, mists, vapors, or gases.

(p) “Air kerma” means the kinetic energy released in air by ionizing radiation. Kerma is determined by dividing dE by dM, where dE is the sum of the initial kinetic energies of all the charged ionizing particles liberated by uncharged ionizing particles in air of mass dM. The SI unit of air kerma is joule per kilogram, and the special name for the unit of kerma is the gray (Gy).

(q) “Alert” means a period during which one of the following could lead to a release of radioactive material that is not expected to require a response by off-site response organizations to protect persons off-site:

(1) Conditions have arisen that could cause an event.

(2) An event is in progress.

(3) An event has occurred.

(r) “Aluminum equivalent” means the thickness of type 1100 aluminum alloy that affords the same

attenuation, under specified conditions, as that of the material in question. The nominal chemical composition of type 1100 aluminum alloy is a minimum of 99.00 percent aluminum and 0.12 percent copper.

(s) “Amendment” means any change to a license or registration issued under these regulations.

(t) “Analytical X-ray system” means a group of local and remote components utilizing X-rays to determine the elemental composition or to examine the microstructure of materials.

(1) Local components shall include those components that are struck by X-rays, including radiation source housings, port and shutter assemblies, collimators, sample holders, cameras, goniometers, detectors, and shielding.

(2) Remote components may include power supplies, transformers, amplifiers, readout devices, and control panels.

(u) “Annual limit on intake” and “ALI” mean the derived limit for the amount of radioactive material taken into the body of an adult worker by inhalation or ingestion in a year. ALI is the smaller value of intake of a given radionuclide in a year by the reference man that would result in a committed effective dose equivalent of 5 rem (0.05 Sv) or a committed dose equivalent of 50 rem (0.5 Sv) to any individual organ or tissue. ALI values for intake by ingestion and by inhalation of selected radionuclides are specified in appendix B, table I, published in “appendices to part 4: standards for protection against radiation,” which is adopted by reference in this regulation.

(v) “Annual refresher safety training” means a review conducted or provided by the licensee or registrant for its employees on radiation safety aspects of industrial radiography. The review shall include, at a minimum, any results of internal inspections, new procedures or equipment, new or revised regulations, and accidents or errors that have been observed. The review shall also provide opportunities for employees to ask safety questions.

(w) “ANSI” means the American national standards institute.

(x) “Applicator” means a structure that determines the extent of the treatment field at a given distance from the virtual source.

(y) “Area of use” means a portion of a physical structure that has been set aside for the purpose of producing, preparing, receiving, using, or storing radioactive material.

(z) “As low as is reasonably achievable” and “ALARA,” when used to describe exposures to ra-

diation workers, mean that every reasonable effort has been made to maintain exposures to radiation workers as far below the dose limits specified in these regulations as is practical, consistent with the purpose for which the licensed or registered activity is undertaken, taking the following into account:

- (1) The state of technology;
- (2) the economics of improvements in relation to the state of technology;
- (3) the economics of improvements in relation to benefits to public health and safety and to other societal and socioeconomic considerations; and
- (4) the economics of improvements in relation to the utilization of nuclear energy and licensed or registered sources of radiation in the public interest.

(aa) "Assembler" means any person engaged in the business of assembling, replacing, or installing one or more components into an X-ray system or subsystem. The term shall include the owner of an X-ray system or any employee or agent of the owner who assembles components into an X-ray system that is subsequently used to provide professional or commercial services.

(bb) "Associated equipment" means equipment that is used in conjunction with a radiographic exposure device that makes radiographic exposures and that drives, guides, or comes in contact with the source.

(cc) "Attenuation block" means a block or stack, with dimensions of 20 cm by 20 cm by 3.8 cm, made of type 1100 aluminum alloy or other materials having equivalent attenuation.

(dd) "Authorized user" means an individual who is identified as an authorized user on a license issued by the department for the use of radioactive material or an individual who is designated by a registered facility as a user of X-ray machines or accelerators. This term shall not apply to part 6 of these regulations.

(ee) "Automatic exposure control" means a device that automatically controls one or more technique factors in order to obtain a required quantity of radiation, at one or more preselected locations. (Authorized by K.S.A. 48-1607; implementing K.S.A. 2017 Supp. 48-1603 and K.S.A. 48-1607; effective Dec. 30, 2005; amended July 27, 2007; amended May 4, 2018.)

28-35-135c. Definitions. As used in these regulations, each of the following terms shall have the meaning specified in this regulation: (a) "Cabinet radiography using radiation machines" means

industrial radiography that is conducted in an enclosed, interlocked cabinet that prevents the radiation machine from operating unless all openings are securely closed and that is sufficiently shielded so that every location on the cabinet's exterior meets the conditions for an unrestricted area as specified in K.A.R. 28-35-214a.

(b) "Cabinet X-ray system" means an X-ray system with the X-ray tube installed in an enclosure, called a "cabinet," that is independent from existing architectural structures except the floor on which the cabinet could be placed. The cabinet is intended for the following purposes:

- (1) To contain at least that portion of a material being irradiated;
- (2) to provide radiation attenuation; and
- (3) to exclude personnel from the interior of the cabinet during the generation of X-rays.

This term shall include all X-ray systems designed primarily for the inspection of carry-on baggage at airline, railroad, and bus terminals, and in similar facilities. An X-ray tube that is used within a shielded part of a building, or X-ray equipment that may temporarily or occasionally incorporate portable shielding, shall not be considered a cabinet X-ray system.

(c) "Calendar quarter" means at least 12 but not more than 14 consecutive weeks. The first calendar quarter of each year shall begin in January. Subsequent calendar quarters shall be arranged so that no day is included in more than one calendar quarter and no day in any one year is omitted from inclusion within a calendar quarter. A licensee or registrant shall not change the method of determining and observing calendar quarters for purposes of these regulations except at the beginning of a calendar year.

(d) "Calibration" means the determination of either of the following:

- (1) The response or reading of an instrument relative to a series of known radiation values over the range of the instrument; or
- (2) the strength of a source of radiation relative to a standard.

(e) "Camera" means a radiographic exposure device.

(f) "Central axis of the beam" means a line passing through the virtual source and the center of the plane figure formed by the edge of the first beam-limiting device.

(g) "Cephalometric device" means a device intended for the radiographic visualization and measurement of the dimensions of the human head.

(h) "Certifiable cabinet X-ray system" means an existing, uncertified X-ray system that has been modified to meet the certification requirements specified in 21 C.F.R. 1020.40, as in effect on April 30, 1984.

(i) "Certified cabinet X-ray system" means a cabinet X-ray system that has been certified as manufactured and assembled as specified in 21 C.F.R. 1020.40, as in effect on April 30, 1984.

(j) "Certified components" means the components of X-ray systems that are subject to regulations promulgated under public law 90-602, the radiation control for health and safety act of 1968 as amended.

(k) "Certified system" means any X-ray system that has one or more certified components.

(l) "Certifying entity" means an independent certifying organization or state regulatory program meeting the requirements in K.A.R. 28-35-293.

(m) "Changeable filter" means any filter, exclusive of inherent filtration, that can be removed from the useful beam through any electronic, mechanical, or physical process.

(n) "Chelating agent" means amine polycarboxylic acids, hydroxycarboxylic acids, gluconic acids, and polycarboxylic acids.

(o) "Class" means a classification scheme for inhaled material according to its rate of clearance from the pulmonary region of the lung. For the purposes of these regulations, "lung class" and "inhalation class" shall be considered equivalent terms. Materials are classified as D, W, or Y, which applies to the following range of clearance half-times:

- (1) For class D, fewer than 10 days;
- (2) for class W, from 10 through 100 days; and
- (3) for class Y, more than 100 days.

(p) "Coefficient of variation" and "C" mean the ratio of the standard deviation to the mean value of a population of observations. This ratio is estimated using the following equation:

$$C = \frac{s}{\bar{x}} = \frac{1}{\bar{x}} \left(\sum_{i=1}^n \frac{(x_i - \bar{x})^2}{n-1} \right)^{1/2}$$

where

s = Estimated standard deviation of the population

\bar{x} = Mean value of observations in sample

x_i = i th observation in sample

(q) "Collective dose" means the sum of the individual doses received in a given period of time by a specified population from exposure to a specified source of radiation.

(r) "Collimator" means a radiation shield that is placed at the end of a guide tube or directly onto a radiographic exposure device to restrict the size of the radiation beam when the sealed source is cranked into position to make a radiographic exposure.

(s) "Committed dose equivalent" and " $H_{T,50}$ " mean the dose equivalent to organs or tissues of reference (T) that will be received from an intake of radioactive material by an individual during the 50-year period following the intake.

(t) "Committed effective dose equivalent" and " $H_{E,50}$ " mean the sum of the products of the weighting factors applicable to each of the body organs or tissues that are irradiated and the committed dose equivalent to each of these organs or tissues ($H_{E,50} = \sum w_T H_{T,50}$).

(u) "Computed tomography" means the production of a tomogram by the acquisition and computer processing of X-ray transmission data.

(v) "Consortium" means an association of medical use licensees and a positron emission tomography (PET) radionuclide production facility in the same geographical area that jointly own or share the operation and maintenance cost of the PET radionuclide production facility that produces PET radionuclides for use in producing radioactive drugs within the consortium for noncommercial distributions among its associated members for medical use.

(w) "Contact therapy" means therapy in which the X-ray tube port is put in contact with, or within five centimeters of, the surface being treated.

(x) "Contact therapy system" means a therapeutic radiation machine with a short target-to-skin distance (TSD), usually less than five centimeters.

(y) "Control cable" means the cable that is connected to the source assembly and used to drive the source to and from the exposure location.

(z) "Control drive mechanism" means a device that enables the source assembly to be moved into and out of the exposure device.

(aa) "Controlled area" means an area outside of a restricted area but inside the site boundary,

access to which can be limited by the licensee or registrant for any reason.

(bb) “Control panel” means that part of the X-ray system where the switches, knobs, push buttons, and other hardware necessary for manually setting the technique factors are mounted.

(cc) “Control tube” means a protective sheath for guiding the control cable. The control tube connects the control drive mechanism to the radiographic exposure device.

(dd) “Cooling curve” means the graphical relationship between the heat units stored and the cooling time.

(ee) “Curie” means a unit of activity. One curie (Ci) is the quantity of radioactive material that decays at the rate of 3.7×10^{10} transformations per second (tps). Commonly used submultiples of the curie are the millicurie and the microcurie. One millicurie ($_m\text{Ci}$) = 0.001 curie = 3.7×10^7 tps. One microcurie (μCi) = 0.000001 curie = 3.7×10^4 tps. (Authorized by K.S.A. 48-1607; implementing K.S.A. 2017 Supp. 48-1603 and K.S.A. 48-1607; effective Dec. 30, 2005; amended May 4, 2018.)

28-35-135i. Definitions. As used in these regulations, each of the following terms shall have the meaning specified in this regulation: (a) “Image intensifier” means a device that instantaneously converts, by means of photoemissive surfaces and electronic circuitry, an X-ray pattern into a light pattern of greater intensity than would have been provided by the original X-ray pattern.

(b) “Image receptor” means any device, including a fluorescent screen and radiographic film, that transforms incident X-ray photons into a visible image or into another form that can be made into a visible image by further transformations.

(c) “Image receptor support,” for mammographic systems, means that part of the system designed to support the image receptor in a horizontal plane during a mammographic examination.

(d) “Immediate” means within not more than 15 minutes or as otherwise defined in a license condition.

(e) “Incident” means an individual event or series of related events that caused or threatened to cause any violation of these regulations or license conditions. For the purposes of part 13, “incident” shall mean any unintended event involving radioactive material for which the public dose is a fraction of regulatory limits and safety provisions are sufficient, but further degradation of safety systems could lead to an accident.

(f) “Independent certifying organization” means an independent organization that meets all of the criteria specified in K.A.R. 28-35-293.

(g) “Indian tribe” and “tribe” mean any Indian tribe, band, nation, or other organized group or community of Indians recognized as eligible for the services provided to Indians by the secretary of the United States department of the interior because of their status as Indians.

(h) “Indian tribal official” and “tribal official” mean the highest-ranking individual who represents tribal leadership, including the chief, president, and tribal council leader.

(i) “Individual” means any human being.

(j) “Individual monitoring” means the assessment of either of the following:

(1) A dose equivalent by the use of individual-monitoring devices or by the use of survey data; or

(2) a committed effective dose equivalent determined by bioassay or by computation of the number of DAC-hours to which an individual is exposed.

(k) “Individual-monitoring device” means any device designed to be worn by a single individual for the assessment of dose equivalent. “Individual-monitoring device” shall include any film badge, thermoluminescent dosimeter (TLD), optically stimulated dosimeter, pocket ionization chamber, and personal air-sampling device. For purposes of these regulations, “personnel dosimeter” and “dosimeter” shall be considered terms equivalent to “individual-monitoring device.”

(l) “Industrial radiography” means the examination of the structure of materials by nondestructive methods utilizing sources of radiation.

(m) “Inherent filtration” means the filtration permanently mounted in the useful beam, including the window of the X-ray tube and any permanent tube or source enclosure.

(n) “Injection tool” means a device used for controlled subsurface injection of radioactive tracer material.

(o) “Inspection” means an official examination or observation that may include tests, surveys, and monitoring to determine compliance with federal rules, state regulations, orders, requirements, and license and registration conditions.

(p) “Installation” means the location where one or more sources of radiation are used, operated, or stored.

(q) “Interlock” means a device for precluding access by an individual to an area of radiation hazard without warning, either by preventing admission or by automatically removing the hazards.

(r) "Internal dose" means that portion of the dose equivalent received from radioactive material taken into the body.

(s) "Interruption of irradiation" means the stopping of irradiation with the possibility of continuing irradiation without the resetting of operating conditions at the control panel.

(t) "Ionizing radiation" means radiation capable of producing an ionization event, including gamma rays and X-rays, alpha and beta particles, high-speed electrons, neutrons, and other nuclear particles.

(u) "Irradiation" means the exposure of matter to ionizing radiation.

(v) "Irradiator" means a facility that uses radioactive sealed sources for the irradiation of objects or materials and in which radiation dose rates exceeding five grays (500 rads) per hour exist at one meter from the sealed radioactive sources in air or water, as applicable for the irradiator type. This term shall not include any irradiator in which both the sealed source and the area subject to irradiation are contained within a device and are not accessible to personnel.

(w) "Irradiator operator" means an individual who has successfully completed the required training and testing and is authorized by the terms of the license to operate an irradiator without a supervisor present.

(x) "Irretrievable well-logging source" means any sealed source containing licensed material that is pulled off or not connected to the wireline that suspends the source in the well and for which all reasonable effort at recovery has been expended.

(y) "Isocenter" means a fixed point in space that is located at the center of the smallest sphere through which the central axis of the beams passes under all conditions. (Authorized by K.S.A. 48-1607; implementing K.S.A. 2017 Supp. 48-1603 and K.S.A. 48-1607; effective Dec. 30, 2005; amended May 4, 2018.)

28-35-135I. Definitions. As used in these regulations, each of the following terms shall have the meaning assigned in this regulation: (a) "Lead equivalent" means the thickness of lead affording the same attenuation, under specified conditions, as the material in question.

(b) "Leakage radiation" means radiation emanating from the device source assembly, except for the following:

(1) The useful beam; and

(2) radiation produced when the exposure switch or timer is not activated for diagnosis or therapy.

(c) "Leakage technique factors" means the technique factors associated with the tube housing assembly that are used in measuring leakage radiation. The leakage technique factors shall be defined as follows:

(1) For diagnostic source assemblies intended for capacitor energy storage equipment, the maximum rated number of exposures in an hour for operation at the maximum rated peak tube potential, with the quantity of charge per exposure being 10 millicoulombs or the minimum obtainable from the unit, whichever is larger;

(2) for diagnostic source assemblies intended for field emission equipment rated for pulsed operation, the maximum rated number of X-ray pulses in an hour for operation at the maximum rated peak tube potential; and

(3) for all other diagnostic or therapeutic source assemblies, the maximum rated peak tube potential and the maximum rated continuous tube current for the maximum rated peak tube potential.

(d) "License" means a document issued in accordance with these regulations specifying the conditions of use of radioactive material.

(e) "Licensed or registered material" means radioactive material received, possessed, used, transferred, or disposed of under a general or specific license or registration issued by the department.

(f) "Licensee" means any person who is licensed in accordance with these regulations.

(g) "Licensing state" means any state that has been granted final designation by the conference of radiation control program directors, inc., for the regulatory control of NARM, as defined in K.A.R. 28-35-135n.

(h) "Light field" means that area of the intersection of the light beam from the beam-limiting device and one plane in the set of planes parallel to and including the plane of the image receptor, whose perimeter is the locus of points at which the illumination is one-fourth of the maximum in the intersection.

(i) "Line-voltage regulation" means the difference between the no-load and the load line potentials, expressed as a percent of the load line potential, using the following equation:

$$\text{Percent line-voltage regulation} = 100 (V_n - V_l) / V_l$$

where

V_n = No-load line potential and

V_l = Load line potential.

(j) "Local component" means any part of an analytical X-ray system. This term shall include components that are struck by X-rays, including radiation source housings, port and shutter assemblies, collimators, sample holders, cameras, goniometers, detectors, and shielding. This term shall not include power supplies, transformers, amplifiers, readout devices, and control panels.

(k) "Logging supervisor" means the individual who uses sources of radiation or provides personal supervision of the utilization of sources of radiation at a well site.

(l) "Logging tool" means a device used subsurface to perform well logging.

(m) "Lost or missing licensed or registered source of radiation" means a licensed or registered source of radiation whose location is unknown. This term shall include licensed or registered material that has been shipped but has not reached its planned destination and whose location cannot be readily traced in the transportation system.

(n) "Lot tolerance percent defective" means the poorest quality, expressed as the percentage of defective units, in an individual inspection lot that may be accepted.

(o) "Low dose-rate remote afterloader" means a brachytherapy device that remotely delivers a dose rate of less than or equal to two grays per hour at the point or surface where the dose is prescribed. (Authorized by K.S.A. 48-1607; implementing K.S.A. 48-1603 and 48-1607; effective Dec. 30, 2005; amended March 18, 2011.)

28-35-135s. Definitions. As used in these regulations, each of the following terms shall have the meaning specified in this regulation: (a) "Sanitary sewerage" means a system of public sewers to carry off waste water and refuse. This term shall exclude sewage treatment facilities, septic tanks, and leach fields owned or operated by the licensee or registrant.

(b) "Scattered radiation" means radiation that, during its passage through matter, is deviated in direction.

(c) "Sealed source" means any radioactive material that is permanently encased in a capsule designed to prevent the leakage or escape of the radioactive material.

(d) "Secondary dose-monitoring system" means a system that terminates irradiation if the primary system fails.

(e) "Secondary protective barrier" means a bar-

rier sufficient to attenuate stray radiation to the required degree.

(f) "Secretary" means secretary of the department of health and environment.

(g) "Seismic area" means any area where the probability of a horizontal acceleration in rock of more than 0.3 times the acceleration of gravity in 250 years is greater than 10 percent, as designated by the U.S. geological survey.

(h) "Shallow dose equivalent" and "H_s," which apply to the external exposure of the skin or an extremity, mean the dose equivalent at a tissue depth of 0.007 centimeter (7 mg/cm²) averaged over an area of one square centimeter.

(i) "Sheltering" means using a structure for radiation protection from an airborne plume containing radioactive material.

(j) "Shielded position" means the location within the radiographic exposure device or storage container that, by the manufacturer's design, is the proper location for storage of the sealed source.

(k) "Shielded-room radiography using radiation machines" means industrial radiography using radiation machines that meets the following conditions:

(1) Is conducted in an enclosed room, the interior of which is not occupied during radiographic operations;

(2) is shielded so that every location on the exterior meets the conditions specified in K.A.R. 28-35-214a; and

(3) is accessible only through openings that are interlocked so that the radiation machine will not operate unless all openings are securely closed.

(l) "SI" means the abbreviation for the international system of units.

(m) "Shutter" means a device attached to an X-ray tube housing assembly that can totally intercept the useful beam and that has a lead equivalency not less than that of the tube housing assembly.

(n) "Sievert" means the SI unit of any of the quantities expressed as a dose equivalent. The dose equivalent in sieverts is equal to the absorbed dose in grays multiplied by the quality factor (1 Sv = 100 rem).

(o) "Site area emergency" means an event that could occur, is in progress, or has occurred, that could lead to a significant release of radioactive material, and that could require a response by off-site response organizations to protect persons off-site.

(p) “Site boundary” means that line beyond which the land or property is not owned, leased, or otherwise controlled by the licensee or registrant.

(q) “Source” means the focal spot of the X-ray tube.

(r) “Source assembly” means an assembly that consists of the sealed source and a connector that attaches the source to the control cable.

(s) “Source changer” means a device designed and used for replacement of sealed sources in radiographic exposure devices, including those devices also used for transporting and storing sealed sources.

(t) “Source holder” means a housing or assembly into which a radioactive source is placed for the purpose of facilitating the handling and use of the source in well-logging operations.

(u) “Source-image receptor distance” and “SID” mean the distance from the source to the center of the input surface of the image receptor.

(v) “Source material” means the following:

(1) Uranium or thorium, or any combination of these, in any physical or chemical form; or

(2) ores that contain, by weight, 0.05 percent or more of uranium, thorium, or any combination of these.

The term “source material” shall not include special nuclear material.

(w) “Source material milling” means any activity that results in the production of by-product material.

(x) “Source of radiation” means any material, device, or equipment that emits or is capable of producing radiation.

(y) “Source-to-skin distance” and “SSD” mean the distance between the source and the patient’s skin.

(z) “Special form” means any licensed material that meets either of the following conditions:

(1)(A) Is in solid form;

(B) has at least one dimension measuring at least five millimeters;

(C) does not melt, sublime, or ignite in air at a temperature of 1,000°F;

(D) does not shatter or crumble if subjected to the percussion test described in K.A.R. 28-35-144; and

(E) is not dissolved or converted into dispensable form to the extent of more than 0.005 percent by weight by immersion for one week in water at 68°F or in air at 86°F; or

(2)(A) Is in any physical form securely contained in a capsule;

(B) has at least one dimension measuring at least five millimeters;

(C) will retain its contents if subjected to the tests described in K.A.R. 28-35-144; and

(D) is constructed of materials that do not melt, sublime, or ignite in air at 1,475°F and do not dissolve or convert into dispensable form to the extent of more than 0.005 percent by weight by immersion for one week in water at 68°F or in air at 86°F.

(aa) “Special nuclear material” means either of the following:

(1) Plutonium, uranium-223, uranium enriched in the isotope 233 or in the isotope 235, and any other material that the department declares by order to be special nuclear material after the nuclear regulatory commission (NRC), pursuant to the provisions of section 51 of the atomic energy act of 1954, has determined the material to be special nuclear material, except for source material; or

(2) any material artificially enriched as specified in paragraph (aa)(1), except for source material.

(bb) “Special nuclear material in quantities not sufficient to form a critical mass” means any of the following:

(1) Uranium enriched in the isotope U-235, in quantities not exceeding 350 grams of contained U-235;

(2) uranium enriched in the isotope uranium-233, in quantities not exceeding 200 grams of contained U-233;

(3) plutonium not exceeding 200 grams; or

(4) any combination of these special nuclear materials in accordance with the following formula:

grams of contained U-235	+	grams of contained U-233	+	gram of Pu	≤ 1
350		200		200	

The sum of the ratios for all of the kinds of special nuclear material in combination shall not exceed one.

(cc) “Spot check” means a procedure that is performed to ensure that a previous calibration continues to be valid.

(dd) “Spot film” means a radiograph that is made during a fluoroscopic examination or radiation therapy treatment to permanently record conditions that exist during the procedure.

(ee) “Spot-film device” means a device intended either to transport and position a radiographic image receptor between the radiation source and

image receptor or to position a radiographic image receptor between the radiation source and image receptor. This term shall include a device intended to hold a cassette over the input end of an image intensifier for the purpose of making a radiograph.

(ff) "Stationary beam therapy" means radiation therapy without relative displacement of the useful beam and the patient during irradiation.

(gg) "Stationary X-ray equipment" means X-ray equipment that is installed in a fixed location.

(hh) "Stereotactic radiosurgery" means the use of external radiation in conjunction with a stereotactic guidance device to very precisely deliver a therapeutic dose to a tissue volume.

(ii) "Stochastic effect" means a health effect that occurs randomly and for which the probability of the occurrence of the effect, rather than the severity of the effect, is assumed to be a linear function of dose without threshold. For purposes of these regulations, "probabilistic effect" shall be considered an equivalent term.

(jj) "Storage area" means any location, facility, or vehicle that is used to store, transport, or secure a radiographic exposure device, radiation machine, storage container, or sealed source when not in use. Each storage area shall be locked or have physical barriers to prevent accidental exposure, tampering, or unauthorized removal of the device, machine, sealed source, or container.

(kk) "Storage container" means a device in which radioactive materials are transported or stored.

(ll) "Stray radiation" means the sum of leakage radiation and scattered radiation.

(mm) "Structured educational program" means an educational program designed to impart particular knowledge and practical education through interrelated studies and supervised training.

(nn) "S-tube" means a tube through which the radioactive source travels when inside a radiographic exposure device.

(oo) "Subsurface studies" means the evaluation of parameters below the surface of the earth.

(pp) "Subsurface tracer study" means the release of a substance tagged with radioactive material for the purpose of tracing the movement or position of the tagged substance in the well bore or adjacent formation.

(qq) "Survey" means an evaluation of a radiation hazard resulting from the production, use, transfer, release, disposal, or presence of sources of radiation. This term shall include a physical survey

of the location of materials or equipment, or both, and either the measurements of levels of radiation or the concentrations or quantities of radioactive materials present. (Authorized by K.S.A. 48-1607; implementing K.S.A. 2017 Supp. 48-1603 and K.S.A. 48-1607; effective Dec. 30, 2005; amended May 4, 2018.)

28-35-135t. Definitions. As used in these regulations, each of the following terms shall have the meaning assigned in this regulation: (a) "Target" means the part of a radiation head that by design intercepts a beam of accelerated particles, with the subsequent emission of other radiation.

(b) "Target-to-skin distance (TSD)" means the distance measured along the beam axis from the center of the front surface of the X-ray target or electron virtual source to the irradiated object or patient.

(c) "Technique factors" means the conditions of operation specified as follows:

(1) For capacitor energy storage equipment, peak tube potential in kV and quantity of charge in mAs;

(2) for field emission equipment rated for pulsed operation, peak tube potential in kV and number of X-ray pulses; and

(3) for all equipment not specified in paragraphs (c)(1) and (2), peak tube potential in kV and either the tube current in mA and the exposure time in seconds or the product of the tube current and the exposure time in mAs.

(d) "Teletherapy" means therapeutic irradiation in which the source of radiation is located at a distance from the body.

(e) "Teletherapy physicist" means an individual identified as the qualified teletherapy physicist on a department license.

(f) "Temporary job site" means a location where operations are performed and where sources of radiation may be stored, other than the location or locations of use authorized on the license or registration.

(g) "Tenth-value layer (TVL)" means the thickness of a specified material that attenuates X-radiation or gamma radiation to the extent that the air kerma rate, exposure rate, or absorbed dose rate is reduced to one-tenth of the value measured without the material at the same point.

(h) "Termination of irradiation" means the stopping of irradiation in a fashion not permitting the continuance of irradiation without the resetting of operating conditions at the control panel.

(i) “Test” means the process of verifying compliance with an applicable regulation.

(j) “Therapeutic dosage” means a dosage of unsealed by-product material that is intended to deliver a radiation dose to a patient or human research subject for palliative or curative treatment.

(k) “Therapeutic dose” means a radiation dose delivered from a source containing by-product material to a patient or human research subject for palliative or curative treatment.

(l) “Therapeutic-type tube housing” means the following:

(1) For X-ray equipment not capable of operating at 500 kVp or above, an X-ray tube housing constructed so that the leakage radiation, at a distance of one meter from the source, does not exceed one roentgen in an hour when the tube is operated at its maximum rated continuous current for the maximum rated tube potential; and

(2) for X-ray equipment capable of operating at 500 kVp or above, an X-ray tube housing constructed so that the leakage radiation, at a distance of one meter from the source, does not exceed 0.1 percent of the useful beam dose rate at one meter from the source for any of the tube’s operating conditions.

Areas of reduced protection shall be acceptable if the average reading over any area of 100 cm², at a distance of one meter from the source, does not exceed any of the values specified in this subsection.

(m) “These regulations” means article 35 in its entirety.

(n) “Tomogram” means the depiction of the X-ray attenuation properties of a section through the body.

(o) “Total effective dose equivalent” and “TEDE” mean the sum of the effective dose equivalent for external exposures and the committed effective dose equivalent for internal exposures.

(p) “Total organ dose equivalent” and “TODE” mean the sum of the deep dose equivalent and the committed dose equivalent delivered to the organ receiving the highest dose.

(q) “Traceable to a national standard” means that a quantity or a measurement has been compared to a national standard directly or indirectly through one or more intermediate steps and that all comparisons are documented.

(r) “Transport index” means the dimensionless number, rounded up to the first decimal place, placed on the label of a package to designate the

degree of control to be exercised by the carrier during transportation. The transport index is the maximum radiation level in millirems per hour at one meter from the external surface of the package.

(s) “Tritium neutron-generator-target source” means a tritium source used within a neutron generator tube to produce neutrons for use in well-logging applications.

(t) “Tube” means an X-ray tube, unless otherwise specified.

(u) “Tube housing assembly” means the tube housing with a tube installed, including high-voltage transformers or filament transformers, or both, and other appropriate elements when contained within the tube housing.

(v) “Treatment site” means the anatomical description of the tissue intended to receive a radiation dose, as specified in a written directive.

(w) “Tube rating chart” means the set of curves that describes the rated limits of operation of the tube in terms of the technique factors.

(x) “Type A package” means packaging that, together with the radioactive contents limited to A₁ or A₂ as appropriate, is designed to retain the integrity of containment and shielding under normal conditions of transport as demonstrated by the tests specified in 49 CFR 173.465 or 49 CFR 173.466, as appropriate.

(y) “Type B package” and “type B transport container” mean packaging that meets the applicable requirements specified in 10 CFR 71.51. (Authorized by K.S.A. 48-1607; implementing K.S.A. 48-1603 and 48-1607; effective Dec. 30, 2005; amended March 18, 2011.)

28-35-135u. Definitions. As used in these regulations, each of the following terms shall have the meaning specified in this regulation: (a) “Underwater irradiator” means an irradiator in which the sources always remain shielded underwater and humans do not have access to the sealed sources or the space that is subject to irradiation without entering the pool.

(b) “Underwater radiography” means industrial radiography performed when the radiographic exposure device or the related equipment is beneath the surface of the water.

(c) “Unit dose” means a dosage prepared for medical use for administration to a patient or human research subject as a single dosage, without any further manipulation of the dosage after the dosage is initially prepared.

(d) “Unrefined and unprocessed ore” means ore in its natural form before any processing, including grinding, roasting, beneficiating, and refining. “Processing” shall not include sieving or the encapsulation of ore or preparation of samples for laboratory analysis.

(e) “Unrestricted area” means an area to which access is neither limited nor controlled by the licensee or registrant. For purposes of these regulations, “uncontrolled area” shall be considered an equivalent term.

(f) “Useful beam” means the part of the radiation that passes through a window, aperture, cone, or other collimating device. (Authorized by K.S.A. 48-1607; implementing K.S.A. 2017 Supp. 48-1603 and K.S.A. 48-1607; effective Dec. 30, 2005; amended May 4, 2018.)

28-35-135w. Definitions. As used in these regulations, each of the following terms shall have the meaning assigned in this regulation: (a) “Waste” means any low-level radioactive waste that is acceptable for disposal in a land disposal facility. Low-level radioactive waste shall mean radioactive waste that meets both of the following conditions:

- (1) Is not classified as any of the following:
 - (A) High-level radioactive waste;
 - (B) spent nuclear fuel;
 - (C) “byproduct material,” as defined in paragraphs (2), (3), and (4) in the definition of “byproduct material” in 10 CFR 20.1003, dated December 1, 2009;
 - (D) uranium or thorium tailings; and
 - (E) transuranic waste; and
- (2) is classified as low-level radioactive waste consistent with existing law and in accordance with paragraph (a)(1) by the nuclear regulatory commission.

(b) “Waste-handling licensee” means any person licensed to receive and store radioactive wastes before disposal, any person licensed to dispose of radioactive waste, or any person licensed to both receive and dispose of radioactive waste.

(c) “Wedge filter” means an added filter effecting continuous, progressive attenuation of all or part of the useful beam.

(d) “Week” means seven consecutive days, starting on Sunday.

(e) “Weighting factor (w_T) for an organ or tissue (T)” means the proportion of the risk of stochastic effects resulting from irradiation of that organ or tissue to the total risk of stochastic effects when

the whole body is irradiated uniformly. For calculating the effective dose equivalent, the values of w_T shall be as follows:

ORGAN OR TISSUE DOSE WEIGHTING FACTORS	
Organ or Tissue (T)	w_T
Gonads	0.25
Breast	0.15
Red bone marrow	0.12
Lung	0.12
Organ or Tissue (T)	w_T
Thyroid	0.03
Bone surfaces	0.03
Remainder organs	0.30 ^a
Whole body	1.00 ^b

^a0.30 results from 0.06 for each of the five remainder organs that receive the highest doses, excluding the skin and the lens of the eye.

^bFor the purpose of weighting the external whole body dose in determining the total effective dose equivalent, a single weighting factor, $w_T = 1.0$, is specified. The use of other weighting factors for external exposure may be approved by the secretary if the licensee or registrant demonstrates that the effective dose to be received is within the limits specified in these regulations.

(f) “Well bore” means a drilled hole in which wireline service operations and subsurface tracer studies are performed.

(g) “Well logging” means the lowering and raising of measuring devices or tools that could contain sources of radiation into well bores or cavities for the purpose of obtaining information about the well or adjacent formations.

(h) “Wet-source-change irradiator” means an irradiator whose sources are replaced underwater.

(i) “Wet-source-storage irradiator” means an irradiator whose sources are stored underwater.

(j) “Whole body,” for purposes of external exposure, means the head and trunk, including the male gonads, and shall include the arms above the elbow and the legs above the knee.

(k) “Wireline” means a cable containing one or more electrical conductors that is used to raise and lower logging tools in the well bore.

(l) “Wireline service operation” means any evaluation or mechanical service that is performed in the well bore using devices on a wireline.

(m) “Worker” means an individual, contractor, or subcontractor engaged in work that is performed under a license or registration, or both, issued by the department and that is controlled by a licensee or registrant, or both. This term shall not include a specific licensee or registrant.

(n) "Working level (WL)" means any combination of short-lived radon daughters in one liter of air that will result in the ultimate emission of $1.3\text{E}+5$ MeV of potential alpha particle energy. The short-lived radon daughters are the following:

- (1) For radon-222, the following:
 - (A) Polonium-218;
 - (B) lead-214;
 - (C) bismuth-214; and
 - (D) polonium-214; and
- (2) for radon-220, the following:
 - (A) Polonium-216;
 - (B) lead-212;
 - (C) bismuth-212; and
 - (D) polonium-212.

(o) "Working-level month (WLM)" means an exposure to one working level for 170 hours.

(p) "Written directive" means a written order for a specific patient that is dated and signed by an authorized user before the administration of a radiopharmaceutical or radiation and that contains any of the following sets of information:

(1) For any administration of quantities greater than 1.11 megabecquerels (30 μCi) of sodium iodide I-125 or I-131, the radionuclide and dosage;

(2) for a therapeutic administration of a radiopharmaceutical other than sodium iodide I-125 or I-131, the radiopharmaceutical, dosage, and route of administration;

(3) for gamma stereotactic radiosurgery, the target coordinates, collimator size, plug pattern, and total dose;

(4) for teletherapy, the total dose, dose per fraction, treatment site, and overall treatment period;

(5) for high dose-rate remote afterloading brachytherapy, the radionuclide, treatment site, and total dose; or

(6) for all other brachytherapy, the following information:

(A) Before implantation, the radionuclide, number of sources, and source strengths; and

(B) after implantation but before completion of the procedure, the radionuclide, treatment site, and either the total source strength and exposure time or the total dose. (Authorized by K.S.A. 48-1607; implementing K.S.A. 48-1603 and 48-1607; effective Dec. 30, 2005; amended March 18, 2011.)

28-35-140. Exemptions. (a) Carriers. Each common carrier, each contract carrier, each freight forwarder, and each U.S. postal service carrier that only transports or stores radioactive material

in the regular course of carriage or storage shall be exempt from parts 3, 4, 6, 7, 10, 11, and 12 of these regulations and from K.A.R. 28-35-700.

(b) U.S. department of energy contractors and U.S. nuclear regulatory commission contractors. Each U.S. department of energy contractor or subcontractor and each U.S. nuclear regulatory commission contractor or subcontractor operating in Kansas shall be exempt from these regulations to the extent that the contractor or subcontractor, under the contract, receives, possesses, uses, transfers, or acquires sources of radiation and if the contractor or subcontractor is included in one of the following categories:

(1) Prime contractors performing work for the U.S. department of energy at sites owned or controlled by the U.S. government, including the transportation of sources of radiation to or from these sites and the performance of contract services during temporary interruptions of transportation;

(2) prime contractors of the U.S. department of energy performing research in, or development, manufacture, storage, testing, or transportation of, atomic weapons or components of atomic weapons;

(3) prime contractors of the U.S. department of energy using or operating nuclear reactors or other nuclear devices in a U.S. government-owned vehicle or vessel; and

(4) any other prime contractor or subcontractor of the U.S. department of energy or the U.S. nuclear regulatory commission if the secretary determines that, under the terms of the contract or subcontract, there is adequate assurance that the work can be accomplished without undue risk to the public health and safety. (Authorized by and implementing K.S.A. 48-1607; effective Jan. 1, 1970; amended, T-85-43, Dec. 19, 1984; amended May 1, 1985; amended May 4, 2018.)

28-35-146a. Determination of hourly rate and full cost; fee payments. (a) Hourly rate. If the department charges a fee to provide the following and there is no established fee category in K.A.R. 28-35-147a, the hourly rate charged shall be \$79.00:

(1) Any radiation protection service that the department provides to a nonlicensee or nonregistrant; and

(2) any radiation control program activity.

(b) Full cost. For each full-cost category specified in K.A.R. 28-35-147a(d)(1), the initial application

fee, annual fee, and amendment fees shall be paid in accordance with the following requirements:

(1) Each applicant shall pay a nonrefundable initial application fee of \$500,000 to cover the actual costs incurred by the department to review the initial license application.

(A) If the initial application fee exceeds the actual cost of reviewing the initial application, the overage shall be credited to the annual fee for the following fiscal year.

(B) If the initial application fee is less than the actual cost of reviewing the initial application, the difference shall be due within 30 days of receipt of written notification from the secretary. No license shall be issued until all required fees are paid in full.

(2) Each licensee shall pay a nonrefundable annual fee to cover the actual cost incurred by the department to service the license and any amendments to the license.

(A) If the annual fee exceeds the actual cost of servicing the license and any amendments, the overage shall be credited to the annual fee for the following fiscal year.

(B) If the annual fee paid for any fiscal year is less than the actual cost to the department, the difference shall be due within 30 days of receipt of written notification from the secretary.

(c) Fee payments. Each fee payment specified in subsection (b) shall be made in accordance with the following requirements:

(1) Each initial application for which a license fee is required shall be accompanied by the full amount of the fee. Any application for which a fee is not received may be returned to the applicant.

(2) On or before June 1 of the fiscal year preceding the fiscal year for which the annual fee applies, the licensee shall be notified by the secretary of the amount of the annual fee.

(3) Each fee payment shall be submitted within 30 days of receipt of written notification from the secretary of the annual fee or by July 1, whichever date is earlier.

(4) Each fee payment shall be made by check, draft, money order, or electronic fund transfer payable to the department. (Authorized by and implementing K.S.A. 2018 Supp. 48-1606; effective Oct. 8, 2004; amended Feb. 22, 2019.)

28-35-147a. Schedule of fees. Each fee for an initial license application or initial registration shall be equal to the sum of the annual fees for all applicable categories. Each annual fee for a

license or registration shall be equal to the sum of the annual fees for all applicable categories. The following fees shall be paid as specified in K.A.R. 28-35-145 and 28-35-146:

(a) Special nuclear material.

(1) Licenses for possession and use of special nuclear material in sealed sources contained in devices used in industrial measuring systems.

Annual fee \$950.00

(2) Any licenses not otherwise specified in this regulation for possession and use of special nuclear material, except licenses authorizing special nuclear material in unsealed form in combination that would constitute a critical mass.

Annual fee \$2,250.00

(b) Source material.

(1) Licenses that authorize only the possession, use, or installation of source material for shielding.

Annual fee \$365.00

(2) All other source material licenses not otherwise specified in this regulation.

Annual fee \$5,700.00

(c) Radioactive material or by-product material.

(1) Licenses of broad scope for possession and use of radioactive material or by-product material issued for processing or manufacturing items containing radioactive material or by-product material for commercial distribution.

Annual fee \$10,900.00

(2) Other licenses for possession and use of radioactive material or by-product material issued for processing or manufacturing items containing radioactive material or by-product material for commercial distribution.

Annual fee \$3,300.00

(3) Licenses authorizing the processing or manufacturing and the distribution or redistribution of radiopharmaceuticals, generators, reagent kits, sources, or devices containing radioactive material or by-product material. This category shall include the possession and use of source material for shielding when included on the same license.

Annual fee \$5,450.00

(4) Licenses and approvals authorizing distribution or redistribution of radiopharmaceuticals, generators, reagent kits, sources, or devices not involving processing of radioactive material or by-product material. This category shall include the possession and use of source material for shielding when included on the same license.

Annual fee \$2,350.00

(5) Licenses for possession and use of radioactive material or by-product material in sealed

sources for irradiation of items in self-shielded units in which the source is not removed from its shield.

Annual fee \$1,800.00

(6) Licenses for possession and use of less than 10,000 curies of radioactive material or by-product material in sealed sources for irradiation of items in which the source is exposed for irradiation purposes. This category shall include underwater irradiators for irradiation of items in which the source is not exposed for irradiation purposes.

Annual fee \$3,300.00

(7) Licenses for possession and use of 10,000 curies or more of radioactive material or by-product material in sealed sources for irradiation of items in which the source is exposed for irradiation purposes. This category shall include underwater irradiators for irradiation of items in which the source is not exposed for irradiation purposes.

Annual fee \$12,050.00

(8) Licenses issued to distribute items containing radioactive material or by-product material that require device review to persons exempt from licensing, except specific licenses authorizing redistribution of items that have been authorized for distribution to persons exempt from licensing.

Annual fee \$3,000.00

(9) Licenses issued to distribute items containing radioactive material or by-product material or quantities of radioactive material or by-product material that do not require device review to persons exempt from licensing, except for specific licenses authorizing redistribution of items that have been authorized for distribution to persons exempt from licensing.

Annual fee \$3,050.00

(10) Licenses issued to distribute items containing radioactive material or by-product material that require a safety review of the sealed source or device to any person with a general license, except specific licenses authorizing redistribution of items that have been authorized for distribution to any person with a general license.

Annual fee \$1,100.00

(11) Licenses issued to distribute items containing radioactive material or by-product material or quantities of radioactive material or by-product material that do not require a safety review of the sealed source or device to any person with a general license, except specific licenses authorizing redistribution of items that have been authorized for distribution to any person with a general license.

Annual fee \$700.00

(12) Licenses of broad scope for possession and use of radioactive material or by-product material issued for research and development that do not authorize commercial distribution.

Annual fee \$5,900.00

(13) Other licenses for possession and use of radioactive material or by-product material issued for research and development that do not authorize commercial distribution.

Annual fee \$2,800.00

(14) Licenses that authorize services for other licensees, except the following:

(A) Licenses that authorize only calibration or leak-testing services, or both, shall be subject to the fee specified in paragraph (c)(16).

(B) Licenses that authorize waste disposal services shall be subject to the applicable fees specified in subsection (d).

Annual fee \$3,050.00

(15) Licenses for possession and use of radioactive material or by-product material for industrial radiography. This category shall include the possession and use of source material for shielding when authorized on the same license.

Annual fee \$6,100.00

(16) All other specific radioactive material or by-product material licenses not otherwise specified in this regulation.

Annual fee \$1,250.00

(17) Registration of general licenses for devices or sources.

Annual fee \$225.00

(d) Waste disposal and processing.

(1) Licenses authorizing the possession and use of radioactive material, including by-product material, source material, and special nuclear material, for a commercial, low-level radioactive waste disposal facility.

Annual fee full cost,
as specified in K.A.R. 28-35-146a

(A) Amendment to license concerning safety and environmental issues.

Amendment fee full cost,
as specified in K.A.R. 28-35-146a

(B) Amendment to license concerning administrative questions with no safety or environmental issues.

Amendment fee full cost,
as specified in K.A.R. 28-35-146a

(2) Licenses specifically authorizing the receipt of radioactive material, including by-product material, source material, and special nuclear material, from other persons for the purpose of packaging or

repackaging the radioactive material. The licensee shall dispose of the radioactive material by transfer to another person authorized to receive or dispose of the radioactive material.

Annual fee \$5,150.00

(3) Licenses specifically authorizing the receipt of prepackaged radioactive material, including by-product material, source material, and special nuclear material, from other persons. The licensee shall dispose of the radioactive material by transfer to another person authorized to receive or dispose of the radioactive material.

Annual fee \$3,700.00

(e) Well logging.

(1) Licenses for possession and use of radioactive material or by-product material, source material, or special nuclear material for well logging, well surveys, and tracer studies other than field flooding tracer studies.

Annual fee \$2,350.00

(2) Licenses for possession and use of radioactive material or by-product material for field flooding tracer studies.

Annual fee \$2,350.00

(f) Nuclear laundries.

Licenses for commercial collection and laundry of items contaminated with radioactive material or by-product material, source material, or special nuclear material.

Annual fee \$11,550.00

(g) Medical licenses.

(1) Licenses issued for human use of radioactive material or by-product material, source material, or special nuclear material in sealed sources contained in teletherapy devices. This category shall include the possession and use of source material for shielding when authorized on the same license.

Annual fee \$5,500.00

(2) Licenses of broad scope issued to medical institutions or two or more physicians authorizing research and development, including human use of radioactive material or by-product material, except licenses for radioactive material or by-product material, source material, or special nuclear material in sealed sources contained in teletherapy devices. This category shall include the possession and use of source material for shielding when authorized on the same license. Separate annual fees shall not be assessed for pacemaker licenses issued to medical institutions that also hold nuclear medicine licenses under categories in this paragraph or paragraph (g)(3).

Annual fee \$12,350.00

(3) Other licenses issued for human use of radioactive material or by-product material, source material, or special nuclear material, except licenses for radioactive material or by-product material, source material, or special nuclear material in sealed sources contained in teletherapy devices. This category shall include the possession and use of source material for shielding when authorized on the same license. Separate annual fees shall not be assessed for pacemaker licenses issued to medical institutions that also hold nuclear medicine licenses under categories in this paragraph or paragraph (g)(2).

Annual fee \$2,300.00

(h) Civil defense.

Licenses for possession and use of radioactive material or by-product material, source material, or special nuclear material for civil defense activities.

Annual fee \$650.00

(i) Device, product, or sealed source safety evaluation.

(1) Safety evaluation review of each device or product containing radioactive material or by-product material, source material, or special nuclear material, except any reactor fuel device, for commercial distribution. This fee shall apply to each device or product.

Fee..... \$3,500.00

(2) Safety evaluation review of each device or product containing radioactive material or by-product material, source material, or special nuclear material manufactured in accordance with the unique specifications of, and for use by, a single applicant, except any reactor fuel device. This fee shall apply to each device or product.

Fee..... \$3,500.00

(3) Safety evaluation of each sealed source containing radioactive material or by-product material, source material, or special nuclear material, except reactor fuel, for commercial distribution. This fee shall apply to each sealed source.

Fee..... \$1,100.00

(4) Safety evaluation of each sealed source containing radioactive material or by-product material, source material, or special nuclear material manufactured in accordance with the unique specifications of, and for use by, a single applicant. This fee shall apply to each sealed source.

Fee..... \$365.00

(j) Reciprocity.

(1) Licensees who conduct activities under a reciprocal agreement.

Annual fee \$750.00

(2) Registrants who conduct activities under a reciprocal agreement.

Annual fee \$200.00
(k) X-ray machines.

(1) Base registration fee per facility.
Annual fee \$200.00

(2) Registration fee for each x-ray tube at a facility. This fee shall be in addition to the base registration fee.

Annual fee per x-ray tube \$50.00
(l) Particle accelerators.

Annual fee \$300.00
(m) Noncontiguous sites.

(1) An additional annual fee of 50 percent of the annual fee specified in this regulation shall be assessed for each noncontiguous site where radioactive material is stored or used under the same license, per category.

(2) “Noncontiguous site” shall have the meaning specified in K.S.A. 2018 Supp. 48-1606, and amendments thereto. (Authorized by and implementing K.S.A. 2018 Supp. 48-1606; effective Oct. 8, 2004; amended March 29, 2013; amended Feb. 22, 2019.)

28-35-175a. Persons licensed. (a) A licensed person shall not manufacture, produce, receive, use, possess, acquire, own, transfer, or dispose of radioactive material, except as authorized in a specific or general license issued pursuant to these regulations. Each manufacturer, producer, or processor of any equipment, device, commodity, or other product containing source or “byproduct material,” as defined in 10 CFR 20.1003, dated December 1, 2009, for which subsequent receipt, use, possession, acquisition, ownership, transfer, and disposal by any other person is exempted from these regulations shall obtain authority to transfer possession or control to the other person from the nuclear regulatory commission.

(b) In addition to the requirements of this part, each licensee shall be subject to the requirements of part 1, part 4, and part 10 of these regulations. In addition to being subject to part 1, part 4, and part 10, specific licensees shall be subject to all of the following requirements:

(1) Licensees using radioactive material in the healing arts shall be subject to the requirements of part 6.

(2) Licensees using radioactive material in industrial radiography shall be subject to the requirements of part 7.

(3) Licensees using radioactive material in wire-line and subsurface tracer studies shall be subject to the requirements of part 11 of these regulations. (Authorized by and implementing K.S.A. 48-1607; effective, T-86-37, Dec. 11, 1985; effective May 1, 1986; amended Dec. 30, 2005; amended March 18, 2011.)

28-35-177a. General licenses; source material. (a) A general license is hereby issued authorizing commercial and industrial firms, research, educational, and medical institutions, and federal, state, and local government agencies to receive, possess, use, and transfer uranium and thorium, in their natural isotopic concentrations and in the form of depleted uranium, for research, development, educational, commercial, or operational purposes in any of the following forms and quantities:

(1) Uranium and thorium in the following quantities and forms:

(A) Not more than 1.5 kg (3.3 lb) of uranium and thorium in dispersible forms, including gases, liquids, and powders, at any one time. All material processed by the general licensee that alters the chemical or physical form of the material containing source material shall be accounted for as a dispersible form. A person authorized to possess, use, and transfer source material under this paragraph shall not receive more than a total of 7 kg (15.4 lb) of uranium and thorium in any one calendar year; and

(B) not more than 7 kg (15.4 lb) of uranium and thorium at any one time. A person authorized to possess, use, and transfer source material under this paragraph shall not receive more than 70 kg (154 lb) of uranium and thorium in any one calendar year. A person shall not alter the chemical or physical form of the source material possessed under this paragraph unless the source material is accounted for under the limits of paragraph (a)(1);

(2) not more than 7 kg (15.4 lb) of uranium, removed during the treatment of drinking water, at any one time. A person shall not remove more than 70 kg (154 lb) of uranium from drinking water during a calendar year under this paragraph; or

(3) not more than 7 kg (15.4 lb) of uranium and thorium at laboratories for the purpose of determining the concentration of uranium and thorium contained within the material being analyzed at any one time. A person authorized to possess, use, and transfer source material under this para-

graph shall not receive more than 70 kg (154 lb) of source material in any one calendar year.

(b)(1) Each person who receives, possesses, uses, or transfers source material in accordance with the general license in subsection (a) shall be prohibited from the following:

(A) Administering source material, or the radiation from the source material, either externally or internally, to human beings except as authorized by a specific license issued by the department;

(B) abandoning the source material. Source material may be disposed of as follows:

(i) A cumulative total of 0.5 kg (1.1 lb) of source material in a solid, nondispersible form may be transferred each calendar year by a person authorized to receive, possess, use, and transfer source material under the general license to persons receiving the material for permanent disposal. The recipient of source material transferred under this paragraph shall be exempt from the requirements to obtain a license under part 3 of these regulations to the extent that the source material is permanently disposed of. This exemption shall not apply to any person who is in possession of source material under a specific license issued by the department; or

(ii) source material may be disposed in accordance with K.A.R. 28-35-190a; and

(C) exporting the source material to another country except in accordance with a license issued by the nuclear regulatory commission (NRC).

(2) Each person specified in paragraph (b)(1) shall respond to each written request from the department to provide information relating to the general license within 30 calendar days of the date of the request or other time specified in the request. If the person cannot provide the requested information within the required time, the person shall, within the same time period, request a longer period to supply the information by providing the department with a written justification for the request.

(c) Each person who receives, possesses, uses, or transfers source material in accordance with subsection (a) shall minimize contamination of the facility and the environment. When activities involving source material are permanently ceased at any site, if evidence of significant contamination is identified, the general licensee shall notify the department about the contamination and may consult with the department regarding the appropriateness of sampling and restoration activities to ensure that any contamination or residual source

material remaining at the site where source material was used under this general license is not likely to result in exposures that exceed the limits in these regulations.

(d) Each person who receives, possesses, uses, or transfers source material in accordance with the general license granted in subsection (a) shall be exempt from parts 4 and 10 of these regulations to the extent that the receipt, possession, use, and transfer are within the terms of this general license, except that the person shall meet the requirements of paragraph (b)(1)(B) and subsection (c). This exemption shall not apply to any person who also holds a specific license issued by the department.

(e) No person shall initially transfer or distribute source material to persons generally licensed under paragraph (a)(1) or (2) or equivalent regulations of an agreement state, unless authorized by a specific license issued by the NRC or equivalent provisions of an agreement state. This subsection shall not apply to analytical laboratories returning any processed sample to the client who initially provided the sample. (Authorized by and implementing K.S.A. 48-1607; effective, T-86-37, Dec. 11, 1985; effective May 1, 1986; amended Dec. 30, 2005; amended July 27, 2007; amended May 4, 2018.)

28-35-178b. General license; certain detecting, measuring, gauging, or controlling devices and certain devices for producing light or an ionized atmosphere. (a)(1) Subject to the provisions of subsections (b) and (c), each commercial and industrial firm, research, educational, and medical institution, individual in the conduct of the individual's business, and federal, state, or local government agency shall be deemed to have been issued a general license to acquire, receive, possess, use, or transfer radioactive material that is contained in any device designed, manufactured, and used for one or more of the following purposes:

(A) Detecting, measuring, gauging, or controlling thickness, density, level interface location, radiation leakage, or qualitative or quantitative chemical composition; or

(B) producing light or an ionized atmosphere.

(2) The general license specified in paragraph (1) of this subsection shall apply only to radioactive material contained in any device that has been manufactured and labeled by a manufacturer in accordance with the specifications of a

specific license issued to that manufacturer by the secretary, the nuclear regulatory commission, or an agreement state.

(3) The general license specified in paragraph (1) of this subsection shall not apply to radioactive material in any device containing at least 370MBq (10 mCi) of cesium-137, 3.7 MBq (0.1 mCi) of strontium-90, 37 MBq (1 mCi) of cobalt-60, 3.7 MBq (0.1 mCi) of radium-226, or 37MBq (1mCi) of americium-241 or any other transuranic element, based on the activity indicated on the label.

(4) Each device shall have been received from one of the specific licensees described in paragraph (a)(2) or through a transfer made under paragraph (b)(9).

(b) Each person who acquires, receives, possesses, uses, or transfers radioactive material in a device pursuant to the general license specified in subsection (a) shall comply with all of the following requirements:

(1) Each person subject to this subsection shall ensure that all labels affixed to the device at the time of receipt and bearing a statement that removal of the label is prohibited are maintained and shall comply with all instructions and precautions provided by these labels.

(2) Each person subject to this subsection shall ensure that the device is tested for leakage of radioactive material and proper operation of the on-off mechanism and indicator, if any, at no longer than six-month intervals or at any other intervals specified in any manufacturer's label affixed to the device, except as follows:

(A) The person shall not be required to test devices containing only krypton for leakage of radioactive material.

(B) The person shall not be required to test, for any purpose, any device containing only tritium, not more than 100 microcuries of other beta-emitting or gamma-emitting material, or 10 microcuries of alpha-emitting material or any device held in storage in the original shipping container before initial installation.

(3) Each person subject to this subsection shall ensure that the tests required by paragraph (b) (2) and other operations involving testing, installation, servicing, and removal from installation of the radioactive material, its shielding, or containment are performed in compliance with one of the following:

(A) In accordance with instructions provided on labels affixed to the device; or

(B) by a person holding a specific license issued

under this part or equivalent regulations of NRC or an agreement state to perform the tests and other operations.

(4)(A) Each person subject to this subsection shall maintain records showing compliance with the requirements of paragraphs (b)(2) and (b) (3). The records shall show the results of each test. The records also shall show the dates of the testing, installation, servicing, or removal from installation of the radioactive material, its shielding, or containment and the name of each person performing one or more of these tests and other operations.

(B) Each person shall maintain records of tests for leakage of radioactive material required by paragraph (b)(2) for three years after the next required leak test is performed or until the sealed source is transferred or disposed of. Each person shall maintain records of tests of the on-off mechanism and indicator, as required by paragraph (b) (2), for three years after the next required test of the on-off mechanism and indicator is performed or until the sealed source is transferred or disposed of. Each person shall maintain the records required by paragraph (b)(3) for three years from the date of the recorded event or until the device is transferred or disposed of.

(5) Upon a failure of or damage to, or any indication of a possible failure of or damage to, the shielding of the radioactive material or the on-off mechanism or indicator, or upon the detection of 0.005 microcurie or more removable radioactive material, each person subject to this subsection shall take the following actions:

(A) Immediately suspend operation of the device until either of the following conditions is met:

(i) The device has been repaired by the manufacturer or other person holding a specific license issued under this part or equivalent regulations of NRC or an agreement state to repair the device; or

(ii) the device is transferred to a person authorized by a specific license to receive the radioactive material contained in the device;

(B) within 30 days, furnish to the secretary a report containing a brief description of the event and the remedial action taken; and

(C) within 30 days, if contamination of the premises or the environs is likely, furnish to the secretary a plan for ensuring that the premises and environs are acceptable for unrestricted use. The criteria for unrestricted use specified in K.A.R. 28-35-205 may be applicable, as determined by the secretary.

(6) A person subject to this subsection shall not abandon the device.

(7) A person shall not export any device containing radioactive material except in accordance with 10 CFR part 110.

(8) (A) Each person shall transfer or dispose of any device containing radioactive material only by export as provided in paragraph (b)(7), by transfer to another general licensee as authorized in paragraph (b)(9), or to a person authorized to receive the device by a specific license issued under this part or equivalent regulations of NRC or an agreement state.

(B) Each person shall furnish a report to the department within 30 days after the export of the device or the transfer of the device to a specific licensee. The report shall contain the following information:

(i) The identification of the device by manufacturer's name, model number, and serial number;

(ii) the name, address, and license number of the person receiving the device; and

(iii) the date of the transfer.

(C) Each person shall obtain written department approval before transferring the device to any other specific licensee not specifically identified in paragraph (b)(8)(A). The holder of a specific license may transfer a device for possession and use under its own specific license without approval, if the holder performs the following:

(i) Either verifies that the specific license authorizes the possession and use or applies for and obtains an amendment to the license authorizing the possession and use;

(ii) ensures that the device is labeled in compliance with these regulations. The label shall retain the name of the manufacturer, the model number, and the serial number;

(iii) obtains the manufacturer's or initial transferor's information concerning maintenance, including leak testing procedures that are applicable under the specific license; and

(iv) reports the transfer as required by paragraph (b)(8)(B).

(9) Any person subject to this subsection may transfer the device to another general licensee only if either of the following conditions is met:

(A) The device remains in use at a particular location. In this case, the transferor shall give the transferee a copy of this regulation and any safety documents identified in any label affixed to the device and, within 30 days of the transfer, provide a written report to the secretary containing iden-

tification of the device by manufacturer's name, model number, and serial number; the name and address of the transferee; and the name, telephone number, and position of an individual who can be contacted by the secretary concerning the device.

(B) The device is held in storage in the original shipping container at its intended location of use before initial use by a general licensee.

(10) Each person subject to this subsection shall comply with the provisions of K.A.R. 28-35-228a and K.A.R. 28-35-229a relating to reports of radiation incidents, theft, or loss of licensed material, but shall be exempt from the other requirements of parts 4 and 10 of these regulations.

(11) Each person shall respond to all written requests from the department to provide information relating to the general license within 30 calendar days of the date of the request or on or before any other deadline specified in the request. If the person cannot provide the requested information within the allotted time, the person, within that same time period, shall request a longer period to supply the information by submitting a letter to the department and shall provide written justification as to why the person cannot comply.

(12) Each general licensee shall appoint an individual responsible for having knowledge of the appropriate regulations and requirements and the authority for taking required actions to comply with appropriate regulations and requirements. The general licensee, through this individual, shall ensure day-to-day compliance with the appropriate regulations and requirements. This appointment shall not relieve the general licensee of any of the licensee's responsibility in this regard.

(13)(A) Each person shall register, in accordance with paragraph (b)(13)(B), each device generally licensed as required by this regulation. Each address for a location of use, as described in paragraph (b)(13)(B)(iv), shall represent a separate general licensee and shall require a separate registration and fee.

(B) In registering each device, the general licensee shall furnish the following information and any other information specifically requested by the department:

(i) The name and mailing address of the general licensee;

(ii) information about each device as indicated on the label, including the manufacturer's name, the model number, the serial number, and the radioisotope and activity;

(iii) the name, title, and telephone number of the responsible person appointed as a representative of the general licensee under paragraph (b)(12);

(iv) the address or location at which each device is used or stored, or both. For each portable device, the general licensee shall provide the address of the primary place of storage;

(v) certification by the responsible representative of the general licensee that the information concerning each device has been verified through a physical inventory and a check of the label information; and

(vi) certification by the responsible representative of the general licensee that the person is aware of the requirements of the general license.

(14) Each person shall report any change in the mailing address for the location of use, including any change in the name of the general licensee, to the department within 30 days of the effective date of the change. For a portable device, a report of address change shall be required only for a change in the primary place of storage of the device.

(15) No person may store a device that is not in use for longer than two years. If any device with shutters is not being used, the shutters shall be locked in the closed position. The testing required by paragraph (b)(2) shall not be required to be performed during the period of storage only. If the device is put back into service or transferred to another person and was not tested at the required test interval, the device shall be tested for leakage before use or transfer, and all shutters shall be tested before use. Each device kept in storage for future use shall be excluded from the two-year time limit if the general licensee performs quarterly physical inventories of the device while the device is in storage.

(c) Nothing in this regulation shall be deemed to authorize the manufacture or import of any device containing radioactive material.

(d) The general license specified in subsection (a) shall be subject to the provisions of K.A.R. 28-35-184a and K.A.R. 28-35-184b. (Authorized by and implementing K.S.A. 48-1607; effective, T-86-37, Dec. 11, 1985; effective May 1, 1986; amended Nov. 1, 1996; amended March 24, 2006; amended July 27, 2007; amended March 18, 2011.)

28-35-178e. Americium-241 or radium-226 in the form of calibration or reference sources. (a) A general license to acquire, possess,

use and transfer, in accordance with the provisions of subsections (b) and (c), americium-241 or radium-226 in the form of calibration or reference sources is hereby issued to any person who holds a specific license issued by the nuclear regulatory commission that authorizes the agency to acquire, possess, use, and transfer by-product material, source material, or special nuclear material.

(b) The general license issued in subsection (a) shall apply only to calibration or reference sources that have been manufactured or initially transferred in accordance with the specifications contained in a specific license issued by the secretary, the nuclear regulatory commission, or an agreement state.

(c) The general license issued in subsection (a) shall be subject to the provisions of K.A.R. 28-35-184a, and to all of the provisions of parts 4 and 10 of these regulations. In addition, persons who acquire, possess, use, and transfer one or more calibration or reference sources pursuant to this general license shall meet the following requirements:

(1) Not possess, at any one time, at any one location of storage or use, more than 5 microcuries of either americium-241 or radium-226 in such sources;

(2) not receive, possess, use, or transfer such a source unless the source, or the storage container, bears a label that includes the following statement or a substantially similar statement that contains the information called for in the following statement:

"The receipt, possession, use and transfer of this source, Model _____, Serial No. _____, are subject to a general license and the regulations of the United States Nuclear Regulatory Commission or of a State with which the commission has entered into an agreement for the exercise of regulatory authority. Do not remove this label.

CAUTION—RADIOACTIVE MATERIAL—THIS
SOURCE CONTAINS AMERICIUM-241
(or RADIUM-226). DO NOT TOUCH RADIOACTIVE
PORTION OF THIS SOURCE.

(Name of manufacturer or initial transferor)";

(3) not transfer, abandon, or dispose of such source except by transfer to a person authorized by a license issued by the secretary, the nuclear regulatory commission, or an agreement state to receive the source;

(4) store such source, except when the source is being used, in a closed container designed and constructed to contain either americium-241 or radium-226 that might otherwise escape during storage; and

(5) not use the source for any purpose other than the calibration of radiation detectors or the standardization of other sources.

(d) The general license issued in this regulation shall not authorize the manufacture, or the importation or exportation, of calibration or reference sources containing either americium-241 or radium-226. (Authorized by and implementing K.S.A. 48-1607; effective, T-86-37, Dec. 11, 1985; effective May 1, 1986; amended March 18, 2011.)

28-35-178i. General licenses for certain units of radium-226. (a) Subject to the limitations in subsections (b), (c) and (d), a general license is hereby issued to any person to acquire, possess, use, and transfer radium-226 contained in the following products if manufactured before the effective date of this regulation:

(1) Antiquities originally intended for use by the general public. For the purposes of this paragraph, "antiquities" shall mean products originally intended for use by the general public and distributed in the late 19th and early 20th centuries, including radium emanator jars, revigators, radium water jars, radon generators, refrigerator cards, radium bath salts, and healing pads;

(2) intact timepieces containing more than 0.037 megabecquerel (1 microcurie), nonintact timepieces, and timepiece hands and dials no longer installed in timepieces;

(3) luminous items installed in air, marine, or land vehicles;

(4) all other luminous products not listed in this subsection, if not more than 100 items are used or stored at the same location at any one time; and

(5) small radium sources containing not more than 0.037 megabecquerel (1 microcurie) of radium-226.

(b) A person shall not acquire, possess, use, or transfer radium-226 pursuant to the general license issued in subsection (a) until the person has filed form RH-37 with the secretary and has received from the secretary a validated copy of the form, with a certification number assigned. Each person filing a form RH-37 shall provide all the information required by that form.

(c) Each person who acquires, receives, possesses, uses, or transfers by-product material in accordance with the general license issued in subsection (a) shall meet the following requirements:

(1) Notify the department of any indication of possible damage to the product that indicates a potential loss of the radioactive material. A report

containing a brief description of the event and the remedial action taken shall be provided to the department within 30 days of the incident;

(2) not abandon any products containing radium-226. The product and any radioactive material from the product shall be disposed of only according to K.A.R. 28-35-165 or by transfer to a person authorized by a specific license to receive the radium-226 in the product or as otherwise approved by the department;

(3) not export any products containing radium-226 except in accordance with K.A.R. 28-35-178b;

(4) dispose of any products containing radium-226 at a disposal facility authorized to dispose of radioactive material in accordance with any federal or state solid or hazardous waste law, including the solid waste disposal act of 1965, 42 U.S.C. 6901 through 6992k as amended, as authorized under 42 U.S.C. 15801 et seq., by transfer to a person authorized to receive radium-226 by a specific license issued under K.A.R. 28-35-180a or equivalent regulations of an agreement state, or as otherwise approved by the department; and

(5) respond to any written request from the department to provide information relating to the general license within 30 calendar days of the date of the request or other time specified in the request. If the general licensee cannot provide the requested information within the allotted time, that licensee shall, within that same time period, request a longer period to supply the information by submitting a letter to the department and shall provide written justification as to why the person cannot comply.

(d) Each general licensee under this regulation shall file with the secretary a written report of any changes in the information filed in form RH-37. The report shall be furnished within 30 days after the effective date of the change.

(e) Each general licensee under this regulation shall be exempt from the requirements of parts 4 and 10 of these regulations with respect to the radioactive material covered by the general license.

(f) The general license specified in subsection (a) shall not authorize the manufacture, assembly, disassembly, repair, or import of any products containing radium-226, except that timepieces may be disassembled and repaired.

(g) Any general licensee under this regulation who is an individual member of the public may submit an application to the department for a waiver from the general license fee prescribed in K.A.R.

28-35-147a. (Authorized by and implementing K.S.A. 48-1607; effective, T-86-37, Dec. 11, 1985; effective May 1, 1986; amended May 4, 2018.)

28-35-178j. General license for use of radioactive material for certain in vivo clinical or laboratory testing. (a) Except as provided in subsections (b) and (c), each person shall be exempt from the license requirements in part 3 and part 6 of these regulations if the person receives, possesses, uses, transfers, owns, or acquires any capsules containing 37 kBq (1 μ Ci) of carbon-14 urea, allowing for nominal variation that may occur during the manufacturing process for in vivo diagnostic use for humans.

(b) Before using the capsules specified in subsection (a) for research involving human subjects, each person shall apply and shall be considered for approval for a specific license. Each person shall be required to have a specific license before engaging in the research specified in this subsection.

(c) Before manufacturing, preparing, processing, producing, packaging, repackaging, or transferring the capsules specified in subsection (a) for commercial distribution, each person shall apply and shall be considered for approval for a specific license. Each person shall be required to have a specific license before performing any of the actions specified in this subsection.

(d) Nothing in this regulation shall exempt any person from applicable FDA requirements, other federal requirements, and state requirements governing receipt, administration, and use of drugs. (Authorized by and implementing K.S.A. 48-1607; effective Dec. 30, 2005; amended March 18, 2011.)

28-35-179a. Application for specific license; renewal or amendment. (a) Any person may file a written application with the secretary for a specific license to acquire, possess, use, or transfer radioactive material. Each person shall file a written application with the secretary to renew or amend any specific license. Each application for a specific license, or a renewal or an amendment of an existing license, shall be submitted on the appropriate form furnished by the secretary. Each person filing an application shall provide all the information requested on the application form, and any additional relevant information requested by the secretary.

(b) Each application filed with the secretary shall be signed by the applicant or licensee, or by

a person authorized to act for or on behalf of the applicant or licensee.

(c) Any application may incorporate, by reference, information provided in applications, reports, or other documents previously filed with the secretary. Each reference to information previously filed with the secretary shall be clear and specific.

(d) Any application for a specific license may include a request for a license authorizing activity at one or more installations or locations.

(e) Except as provided in subsections (f), (g), and (h), each application for a specific license to use radioactive material in the form of a sealed source or in a device that contains the sealed source shall include either of the following:

(1) Identification of the sealed source or device by manufacturer and model number as registered with the department, nuclear regulatory commission (NRC), or an agreement state; or

(2) sufficient information about the design, manufacture, prototype testing, quality control program, labeling, proposed uses, and leak testing to provide reasonable assurance that the radiation safety properties of the sealed source or device are adequate to protect health and minimize danger to life and property. For a device, the application shall also include sufficient information about installation, service and maintenance, operating and safety instructions, and potential hazards, to provide reasonable assurance that the radiation safety properties of the sealed source or device are adequate to protect health and minimize danger to life and property.

(f) For any sealed source or device manufactured before October 23, 2012 that is not registered with the department, NRC, or an agreement state and for which the applicant is unable to provide the information specified in this regulation, the application shall include the following:

(1) All available information specified in K.A.R. 28-35-181e, concerning the sealed source, and, if applicable, the device; and

(2) sufficient additional information to demonstrate reasonable assurance that the radiation safety properties of the sealed source or device are adequate to protect health and minimize danger to life and property. The information shall include a description of the sealed source or device, a description of radiation safety features, the intended use and associated operating experience, and the results of the most recent leak test.

(g) For sealed sources and devices allowed to be distributed without the registration of safety

information as required in this regulation, the applicant may supply only the name of the manufacturer, model number, and radionuclide quantity.

(h) If it is not feasible to identify each sealed source and device individually, the applicant may propose constraints on the number and type of sealed sources and devices to be used and the conditions under which the sealed sources and devices will be used, instead of identifying each sealed source and device. (Authorized by and implementing K.S.A. 48-1607; effective, T-86-37, Dec. 11, 1985; effective May 1, 1986; amended May 4, 2018.)

28-35-180a. General requirements for the issuance of specific licenses. Each application for a specific license shall be approved only if the application meets the requirements of these regulations.

(a) Each applicant shall be required to be qualified by reason of training and experience to use the material in question for the purpose requested, in accordance with these regulations, and in a manner that will protect public health and safety and the environment.

(b) The proposed equipment, facilities, and procedures used by each applicant shall protect public health and safety and the environment.

(c) A specific license shall be approved only if the secretary determines that the license is protective of public health and safety and the environment.

(d) Each applicant shall meet the requirements in these regulations for the particular license sought.

(e)(1) Each application for a license for commercial waste disposal, source material milling, or any other operation that the secretary determines will affect the environment shall meet the requirement specified in this paragraph. Each application shall include information that permits the secretary to weigh the environmental, economic, technical, and other benefits against the environmental costs and alternatives to ensure the protection of public health and safety and the environment.

(2) The approval of each application specified in paragraph (e)(1) shall be based upon the following:

(A) The information specified in paragraph (e)(1) and other information as necessary; and

(B) the information required by 10 C.F.R. 51.45, as in effect on April 30, 1992.

(f) Each applicant shall be authorized to begin construction only after the issuance of the license. Commencement of construction before issuance of the license shall be grounds for denial of the license application. "Commencement of construction," as used in this regulation, shall mean any clearing of land, excavation, or other substantial action that would adversely affect the environment of a site.

(g) Each applicant for a license, other than a renewal, shall describe in the application how the facility design and procedures for operation will minimize, to the extent practicable, contamination of the facility and the environment, facilitate eventual decommissioning, and minimize, to the extent practicable, the generation of radioactive waste.

(h) Each licensee who manufactures a nationally tracked source shall assign a unique serial number to each nationally tracked source manufactured by the licensee. Each serial number shall be composed only of alphanumeric characters.

(i) Each licensee shall conduct operations to minimize the introduction of residual radioactivity into the facility out to the site boundary, including the subsurface, in accordance with the existing radiation protection requirements and radiological criteria for license termination in these regulations. (Authorized by and implementing K.S.A. 48-1607; effective, T-86-37, Dec. 11, 1985; effective May 1, 1986; amended Sept. 20, 1993; amended Nov. 1, 1996; amended Dec. 30, 2005; amended July 27, 2007; amended May 4, 2018.)

28-35-180b. Financial assurance for decommissioning. (a) Each applicant for a specific license authorizing the possession and use of unsealed radioactive material with a half-life greater than 120 days and in quantities exceeding 10^5 times the applicable quantities specified in K.A.R. 28-35-201 shall submit a decommissioning funding plan as described in subsection (e) of this regulation. Each applicant shall also submit the decommissioning funding plan if a combination of isotopes is involved and if R divided by 10^5 is greater than one, where R is defined here as the sum of the ratios of the quantity of each isotope to the applicable value specified in K.A.R. 28-35-201.

(b) Each applicant for a specific license authorizing the possession and use of radioactive material with a half-life greater than 120 days and in quantities specified in table I shall submit either of the following:

(1) A decommissioning funding plan as described in subsection (e); or

(2) a certification that financial assurance for decommissioning has been provided in the amount prescribed by table I, using one of the methods described in subsection (f). The certification may state that the appropriate assurance is to be obtained after the application has been approved and the license has been issued, but before the receipt of licensed material. If the applicant defers execution of the financial instrument required under subsection (f) until after the license has been issued, a signed original of the financial instrument shall be submitted to the department before the applicant receives the licensed material. If the applicant does not defer execution of the financial instrument required under subsection (f), the applicant shall submit to the department, as part of the certification, a signed original of the financial instrument.

(c) Each holder of a specific license that is a type specified in subsection (a) or (b) shall provide financial assurance for decommissioning in accordance with the following requirements:

(1) Each holder of a specific license that is a type specified in subsection (a) shall submit a decommissioning funding plan as specified in subsection (e) or a certification of financial assurance for decommissioning in an amount equal to at least \$1,125,000.00. Each licensee shall submit the plan or certification to the department in accordance with the criteria specified in this regulation. If the licensee submits a certification of financial assurance rather than a decommissioning funding plan, the licensee shall include a decommissioning funding plan in any application for license renewal.

(2) Each holder of a specific license that is a type specified in subsection (b) shall submit a decommissioning funding plan as specified in subsection (e) or a certification of financial assurance for decommissioning. Each licensee shall submit the plan or certification to the department, in accordance with the requirements specified in this regulation.

(d) The amounts of financial assurance required for decommissioning, by quantity of material, shall be those specified in table I.

Table I
Financial assurance for decommissioning
by quantity of material

If the possession limit is greater than 10 ⁴ but less than or equal to 10 ⁵ times the applicable quantities specified in K.A.R. 28-35-201, in unsealed form	\$1,125,000.00
---	----------------

For a combination of isotopes, in unsealed form, if R, as defined in subsection (a), divided by 10 ⁴ is greater than one, but R divided by 10 ⁵ is equal to or less than one	\$1,125,000.00
If the possession limit is greater than 10 ³ but less than or equal to 10 ⁴ times the applicable quantities specified in K.A.R. 28-35-201, in unsealed form	\$225,000.00
For a combination of isotopes, in unsealed form, if R, as defined in subsection (a), divided by 10 ³ is greater than one, but R divided by 10 ⁴ is less than or equal to one	\$225,000.00
If the possession limit is greater than 10 ¹⁰ times the applicable quantities specified in K.A.R. 28-35-201, in sealed sources or foils	\$113,000.00
For a combination of isotopes, in sealed sources or foils, if R, as defined in subsection (a), divided by 10 ¹⁰ is greater than one	\$113,000.00

(e) Each decommissioning funding plan shall contain the following:

(1) A cost estimate for decommissioning in an amount including the following:

(A) The cost of an independent contractor to perform all decommissioning activities;

(B) the cost of meeting the requirements for unrestricted use specified in K.A.R. 28-35-205. However, if the applicant or licensee can demonstrate the ability to meet the provisions of K.A.R. 28-35-205a, the cost estimate may be based on meeting the requirements in K.A.R. 28-35-205a;

(C) the volume of on-site subsurface material containing residual radioactivity that will require remediation to meet the requirements for license termination; and

(D) a contingency factor;

(2) identification of and justification for using the key assumptions contained in the decommissioning cost estimate;

(3) a description of the method of ensuring funds for decommissioning from subsection (f), including means for adjusting cost estimates and associated funding levels periodically over the life of the facility;

(4) a certification by the licensee that financial assurance for decommissioning has been provided in the amount of the cost estimate for decommissioning;

(5) a signed original of the financial instrument obtained to satisfy the requirements in subsection (f); and

(6) at the time of license renewal and at intervals not longer than three years, the decommissioning funding plan with adjustments necessary to account for changes in costs and the extent of contamination. The amount of financial assurance

shall not be reduced without first obtaining the approval of an updated decommissioning funding plan. The decommissioning funding plan shall update the information submitted with the original or prior approved plan and shall specifically consider the effect of the following events on decommissioning costs:

(A) Spills of radioactive material producing additional residual radioactivity in on-site subsurface material;

(B) waste inventory exceeding the amount previously estimated;

(C) waste disposal costs exceeding the amount previously estimated;

(D) facility modifications;

(E) changes in authorized possession limits;

(F) actual remediation costs exceeding the previous cost estimate;

(G) on-site disposal; and

(H) use of a settling pond.

(f) Each licensee shall provide financial assurance for decommissioning by one or more of the following methods:

(1) Prepayment. "Prepayment" shall mean the deposit of cash or liquid assets before the start of operation into a trust account acceptable to the secretary that is segregated from the licensee's assets and outside of the licensee's administrative control. The deposit shall consist of an amount that is sufficient to pay decommissioning costs. The adequacy of the trust funds shall be based on an assumed annual rate of return of one percent on the funds deposited into the trust.

(2) A surety instrument, insurance policy, or other guarantee method. The licensee may use a surety instrument, insurance policy, or other similar means to guarantee that decommissioning costs will be paid. A surety instrument may be in the form of a surety bond, letter of credit, or line of credit. A parent company's guarantee of funds for decommissioning costs based on a financial test may be used if the guarantee and test meet the requirements of K.A.R. 28-35-203. A parent company's guarantee shall not be used in combination with other financial methods to meet the requirements in this regulation. A guarantee of funds by the applicant or licensee for decommissioning costs based on a financial test may be used if the guarantee and test meet the requirements of K.A.R. 28-35-203. A guarantee by the applicant or licensee shall not be used in combination with any other financial methods to meet the requirements in this regulation or in any situation in which a

parent company of the applicant or licensee holds majority control of the voting stock of the company. Each surety instrument or insurance policy used to provide financial assurance for decommissioning shall contain the following requirements:

(A) The surety instrument or insurance policy shall be open-ended or, if written for a specified term, shall be renewed automatically, unless 90 days or more before the renewal date, the insurer notifies the department, the beneficiary, and the licensee of the insurer's intention not to renew. The surety instrument or insurance policy shall also provide that the full face amount will be paid to the beneficiary automatically before the expiration without proof of forfeiture if the licensee fails to provide a replacement that meets the requirements of this regulation within 30 days after receipt of notification of cancellation.

(B) The surety instrument or insurance policy shall be payable to an approved trust established for decommissioning costs. The trustee may include an appropriate state or federal agency or an entity that has the authority to act as a trustee and whose trust operations are regulated and examined by a federal or state agency.

(C) The surety instrument or insurance policy shall remain in effect until the license is terminated by the department.

(3) External sinking fund. A licensee may provide financial assurance for decommissioning through an external sinking fund in which deposits are made at least annually, coupled with a surety instrument or insurance policy. The value of the surety instrument or insurance policy may decrease by the amount accumulated in the sinking fund. "External sinking fund" shall mean a fund that meets both of the following conditions:

(A) Is established and maintained by setting aside funds periodically in an account segregated from the licensee's assets and outside the licensee's administrative control; and

(B) contains a total amount of funds sufficient to pay the decommissioning costs when termination of the operation is expected. An external sinking fund may be in the form of a trust, escrow account, government fund, certificate of deposit, or deposit of government securities. The surety or insurance provisions shall meet the requirements specified in this subsection.

(4) Statement of intent. Any federal, state, or local government licensee may submit a statement of intent containing a cost estimate for decommissioning or an amount based on table I of this

regulation and indicating that funds for decommissioning will be obtained when necessary.

(g) Each person licensed under subsections (a) through (f) shall keep records of all information that is relevant to the safe and effective decommissioning of the facility. The records shall be kept in an identified location until the license is terminated by the department. If records of relevant information are kept for other purposes, the licensee may refer to these records and the location of these records within the records kept pursuant to this subsection.

(h) Each licensee shall maintain decommissioning records, which shall consist of the following information:

(1) Records of spills or other unusual occurrences involving the spread of contamination in and around the facility, equipment, or site. These records may be limited to records of instances in which contamination remains after any cleanup procedures or when there is reasonable likelihood that contaminants could have spread to inaccessible areas. These records shall include any known information identifying the nuclides, quantities, forms, and concentrations involved in the spill or occurrence;

(2) drawings of the following, both as originally built and, if applicable, as modified:

(A) The structures and equipment in restricted areas where radioactive materials are used or stored, or both; and

(B) the locations of possible inaccessible contamination. If the licensee refers to required drawings other than those kept pursuant to this regulation, the licensee shall not be required to index each relevant document individually. If drawings are not available, the licensee shall substitute available information concerning these areas and locations;

(3) a list of the following information, which shall be contained in a single document and updated every two years:

(A) All areas designated and formerly designated as restricted areas;

(B) all areas outside of restricted areas that require the documentation specified in this subsection;

(C) all areas outside of restricted areas where current and previous wastes have been buried and documented as specified in K.A.R. 28-35-227j; and

(D) all areas outside of restricted areas that contain material so that, if the license expired, the licensee would be required either to decontaminate the area to unrestricted release levels or

to apply for approval for disposal as specified in K.A.R. 28-35-225a.

Those areas containing sealed sources only shall not be included in the list if the sources have not leaked, no contamination remains in the area after any leak, or the area contains only radioactive materials having half-lives of less than 65 days; and

(4) the following records:

(A) Records of the cost estimate performed for the decommissioning funding plan or records of the amount certified for decommissioning; and

(B) if either a funding plan or certification is used, records of the funding method used for assuring funds.

(i) Each applicant for a specific license shall make available a long-term care fund necessary to provide for the long-term surveillance and care of the radioactive material or waste. Each applicant for any of the following types of specific licenses shall establish the long-term care fund before the issuance of the license or before the termination of the license if the applicant chooses, by providing a surety instrument in lieu of a long-term care fund:

(1) Waste-handling licenses;

(2) source material milling licenses; and

(3) licenses for any facilities formerly licensed by the U.S. atomic energy commission or the nuclear regulatory commission (NRC), if required.

(j)(1) Each applicant shall agree to notify the department, in writing, immediately following the filing of a voluntary or involuntary petition for bankruptcy under any chapter of title 11, bankruptcy, of the United States code by or against any of the following:

(A) The licensee;

(B) any person controlling the licensee or listing the license or licensee as property of the estate; or

(C) any affiliate of the licensee.

(2) The bankruptcy notification shall indicate the following:

(A) The name of the bankruptcy court in which the petition for bankruptcy was filed; and

(B) the date on which the petition was filed. (Authorized by and implementing K.S.A. 48-1607; effective Dec. 30, 2005; amended March 18, 2011; amended May 4, 2018.)

28-35-181a. Specific licenses for human use of radioactive material in medical institutions. An application for a specific license for human use of radioactive material in institutions shall not be approved unless all of the following conditions are met:

(a) The applicant has appointed a radiation safety committee as specified in 10 CFR 35.24(f), which is adopted by reference in K.A.R. 28-35-264.

(b) The applicant possesses adequate facilities for the clinical care of patients.

(c) The physician or physicians designated on the application as the user or users have substantial experience in handling and administering radioactive materials and, if applicable, clinical management of radioactive patients.

(d) If the application is for a license to use unspecified quantities or multiple types of radioactive material, the applicant or applicant's staff has substantial experience in the use of a variety of radioactive materials for a variety of human uses. (Authorized by and implementing K.S.A. 48-1607; effective, T-86-37, Dec. 11, 1985; effective May 1, 1986; amended March 18, 2011.)

28-35-181e. (Authorized by and implementing K.S.A. 48-1607; effective, T-86-37, Dec. 11, 1985; effective May 1, 1986; amended Dec. 30, 2005; revoked March 18, 2011.)

28-35-181h. Specific licenses to manufacture and distribute the devices specified in K.A.R. 28-35-178b. An application for a specific license to manufacture and distribute one or more of the devices specified in K.A.R. 28-35-178b shall not be approved unless the applicant meets the requirements of subsections (a) and (b) of this regulation in addition to meeting all of the additional applicable requirements specified in these regulations.

(a) Each applicant shall submit information about the design, manufacture, prototype testing, quality control, labels, proposed uses, installation, servicing, leak testing, operating and safety instructions, and potential hazards of the device to provide reasonable assurance that the following conditions are met:

(1) The device can be safely operated by individuals not having training in radiological protection;

(2) under ordinary conditions of handling, storage, and use of the device, the radioactive material contained in the device will not be released or inadvertently removed from the device, and it is unlikely that any individual will receive a dose in excess of 10 percent of the limits specified in K.A.R. 28-35-212a; and

(3) under accident conditions, including fire and explosion, associated with handling, storage, and use of the device, it is unlikely that any individual

will receive an external radiation dose or dose commitment in excess of the following organ doses:

- | | |
|---|----------|
| (A) Whole body; head and trunk; active blood-forming organs; gonads; or lens of eye | 15 rems |
| (B) Hands and forearms; feet and ankles; localized areas of skin averaged over areas no larger than 1 square centimeter | 200 rems |
| (C) Other organs | 50 rems. |

(b)(1) Each device shall bear a durable, legible, clearly visible label or labels that contain, in clearly identified and separate statements, the following information:

(A) Instructions and precautions necessary to ensure safe installation, operation, and servicing of the device. Operating and service manuals may be identified in the label and used to provide this information;

(B) Specification of whether or not leak testing or testing of any on-off mechanism and indicator is required. The information shall include the maximum allowable time intervals between tests and shall identify the radioactive material by isotope, quantity of radioactivity, and date that the quantity was determined; and

(C) the information required in one of the following statements, as appropriate, in the same or a substantially similar form:

(i) "The receipt, possession, use, and transfer of this device, model_____, serial no. _____, are subject to a general license or the equivalent and the regulations of the U.S. nuclear regulatory commission or a state with which the U.S. nuclear regulatory commission has entered into an agreement for the exercise of regulatory authority. This label shall be maintained on the device in a legible condition. Removal of this label is prohibited.

CAUTION—RADIOACTIVE MATERIAL

(Name of manufacturer or distributor)";

or

(ii) "The receipt, possession, use, and transfer of this device, model_____, serial no._____, are subject to a general license or the equivalent, and the regulations of a licensing state. This label shall be maintained on the device in a legible condition. Removal of this label is prohibited.

CAUTION—RADIOACTIVE MATERIAL

(Name of manufacturer or distributor)"

(2) The model, serial number, and name of the manufacturer or distributor may be omitted from the requirements specified in paragraphs (b)(1) (C)(i) and (ii) if the information is elsewhere specified in labeling affixed to the device.

(3) Each device having a separate source housing that provides the primary shielding for the source shall also bear, on the source housing, a durable label containing the device model number and serial number, the isotope and quantity, the words "Caution — Radioactive Material," the radiation symbol described in part 4 of these regulations, and the name of the manufacturer or initial distributor.

(4) Each device containing at least 370 Mbq (10 mCi) of cesium-137, 3.7 Mbq (0.1 mCi) of strontium-90, 37 Mbq (1 mCi) of americium-241 or any other transuranic element based on the activity indicated on the label shall meet the following criteria:

(A)(i) Bear a permanent label affixed to the source housing if the source housing is separable, including the words "Caution — Radioactive Material"; or

(ii) bear a permanent label affixed to the device if the source housing is not separable, including the words "Caution — Radioactive Material"; and

(B) if practicable, bear the radiation symbol described in part 4 of these regulations.

(c) If the device is required to be tested at intervals longer than six months, either for proper operation of the on-off mechanism and indicator, if any, or for leakage of radioactive material, or for both, the applicant shall include in the application sufficient information to demonstrate that the longer interval is justified by the performance characteristics of the device or of similar devices and by design features that have a significant bearing on the probability or consequences of leakage of radioactive material from the device or failure of the on-off mechanism and indicator. In determining the acceptable interval for the test for leakage of radioactive material, the applicant shall address the following in the application:

(1) The primary containment of the source capsule;

(2) protection of the primary containment;

(3) the methods of sealing the primary containment;

(4) the containment construction materials;

(5) the form of contained radioactive material;

(6) the maximum temperature withstood during prototype tests;

(7) the maximum pressure withstood during prototype tests;

(8) the maximum quantity of contained radioactive material;

(9) the radiotoxicity of contained radioactive material; and

(10) any prior operating experience with identical devices or similarly designed and constructed devices.

(d) If the general licensee under K.A.R. 28-35-178b, or under equivalent regulations of an agreement state, is authorized to install the device, collect the sample to be analyzed by a specific licensee for leakage of radioactive material, service the device, test the on-off mechanism and indicator, or remove the device, the applicant shall include in the application the written instructions to be followed by the general licensee, the estimated calendar-quarter doses associated with each operation, and the bases for the estimates. The submitted information shall demonstrate that performance of the specified operations by an individual untrained in radiological protection, in addition to other handling, storage, and use of devices under the general license, is unlikely to cause that individual to receive a dose in excess of 10 percent of the annual limits specified in part 4 of these regulations.

(e) Each device shall be listed on the nuclear regulatory commission's sealed source and device registry. (Authorized by and implementing K.S.A. 48-1607; effective, T-86-37, Dec. 11, 1985; effective May 1, 1986; amended Dec. 30, 2005; amended May 4, 2018.)

28-35-181i. Special license to manufacture, distribute, assemble, or repair luminous safety devices for use in aircraft. Each applicant for a specific license to manufacture, assemble, or repair luminous safety devices containing tritium or promethium-147, for use in aircraft, and to distribute these devices to persons generally licensed under K.A.R. 28-35-178d shall meet the requirements of 10 C.F.R. 32.53, 32.54, 32.55, and 32.56, as in effect on December 2, 2015, which are hereby adopted by reference, except that wherever the term "commission" appears within the text of the federal regulations adopted by reference in this regulation, that term shall be replaced with the term "department." (Authorized by and implementing K.S.A. 48-1607; effective, T-86-37, Dec. 11, 1985; effective May 1, 1986; amended May 4, 2018.)

28-35-181j. Specific licenses to manufacture and distribute calibration sources containing americium-241 or radium-226. (a) An application for a specific license to manufacture or initially transfer calibration or reference sources containing americium-241 or radium-226 for distribution to persons generally licensed under K.A.R. 28-35-178e shall not be approved unless the following requirements are met:

(1) The applicant shall satisfy the general requirements of part 3 of these regulations.

(2) The applicant shall submit sufficient information regarding each type of calibration or reference source pertinent to evaluation of the potential radiation exposure, including the following:

(A) Chemical and physical form and maximum quantity of americium-241 or radium-226 in the source;

(B) details of construction and design;

(C) details of the method of incorporation and binding of the americium-241 or radium-226 in the source;

(D) procedures for and results of prototype testing of sources that are designed to contain more than 0.005 microcurie of americium-241 or radium-226, to demonstrate that the americium-241 or radium-226 contained in each source will not be released or be removed from the source under normal conditions of use;

(E) details of quality control procedures to be followed in manufacture of the source;

(F) description of labeling to be affixed to the source or the storage container for the source; and

(G) any additional information, including experimental studies and tests, required by the department to facilitate a determination of the safety of the source.

(3) Each source shall contain no more than 5 μCi of americium-241 or radium-226.

(4) The method of incorporation and binding of more than 0.005 μCi of the americium-241 or radium-226 in the source shall prevent the release or removal of americium-241 or radium-226 from the source under normal conditions of use and handling of the source.

(5) The applicant shall conduct prototype tests, in the order listed, on each of five prototypes of the source containing more than 0.185 kilobecquerel (0.005 microcurie) of americium-241 or radium-226, and the five prototype sources shall have passed the prototype test, as follows:

(A) Initial measurement. The quantity of radio-

active material deposited on the source shall be measured by direct counting of the source.

(B) Dry wipe test. The entire radioactive surface of the source shall be wiped with filter paper with the application of moderate finger pressure. Removal of radioactive material from the source shall be determined by measuring the radioactivity on the filter paper or by direct measurement of the radioactivity on the source following the dry wipe.

(C) Wet wipe test. The entire radioactive surface of the source shall be wiped with filter paper, moistened with water, with the application of moderate finger pressure. Removal of radioactive material from the source shall be determined by measuring the radioactivity on the filter paper after the paper has dried or by direct measurement of the radioactivity on the source following the wet wipe.

(D) Water soak test. The source shall be immersed in water at room temperature for 24 consecutive hours. The source shall then be removed from the water. Removal of radioactive material from the source shall be determined by direct measurement of the radioactivity on the source after the source has dried or by measuring the radioactivity in the residue obtained by evaporation of the water in which the source was immersed.

(E) Dry wipe test. On completion of the water soak test, the dry wipe test described in paragraph (a)(5)(B) shall be repeated.

(F) Observations. Removal of more than 0.005 microcurie of radioactivity in any test prescribed by paragraph (a)(5) shall be cause for rejection of the source design. Results of prototype tests submitted to the nuclear regulatory commission shall be given in terms of radioactivity in microcuries and percent of removal from the total amount of radioactive material deposited on the source.

(6) Each source or storage container for the source shall have a label affixed that contains sufficient information about safe use and storage of the source and includes the following or an equivalent statement:

"The receipt, possession, use and transfer of this source, Model _____, Serial No. _____, are subject to a general license and the regulations of the United States Nuclear Regulatory Commission or of a State with which the commission has entered into an agreement for the exercise of regulatory authority. Do not remove this label.

CAUTION—RADIOACTIVE MATERIAL—THIS
SOURCE CONTAINS AMERICIUM-241
(or RADIUM-226). DO NOT TOUCH RADIOACTIVE
PORTION OF THIS SOURCE.

(Name of manufacturer or initial transferor)."

(b) Each person licensed under this regulation shall perform a dry wipe test upon each source containing more than 3.7 kilobecquerels (0.1 microcurie) of americium-241 or radium-226 before transferring the source to a general licensee in accordance with K.A.R. 28-35-178e or equivalent regulations of an agreement state or the nuclear regulatory commission. This test shall be performed by wiping the entire radioactive surface of the source with a filter paper with the application of moderate finger pressure.

The radioactivity on the paper shall be measured by using radiation detection instrumentation capable of detecting 0.185 kilobecquerel (0.005 microcurie) of americium-241 or radium-226. If this test discloses more than 0.185 kilobecquerel (0.005 microcurie) of radioactive material, the source shall be deemed to be leaking or losing americium-241 or radium-226 and shall not be transferred to a general licensee in accordance with K.A.R. 28-35-178e or equivalent regulations of an agreement state or the nuclear regulatory commission. (Authorized by and implementing K.S.A. 48-1607; effective, T-86-37, Dec. 11, 1985; effective May 1, 1986; amended March 18, 2011.)

28-35-181k. Specific licenses to manufacture and distribute ice detection devices. Each applicant for a specific license to manufacture ice detection devices and to distribute those devices to persons generally licensed under K.A.R. 28-35-178g shall meet the requirements of 10 C.F.R. 32.61 and 32.62, as in effect on December 2, 2015, which are hereby adopted by reference, except that wherever the term “commission” appears within 10 C.F.R. 32.61, that term shall be replaced with the term “department.” (Authorized by and implementing K.S.A. 48-1607; effective, T-86-37, Dec. 11, 1985; effective May 1, 1986; amended May 4, 2018.)

28-35-181m. Specific licenses to manufacture, prepare, or distribute radiopharmaceuticals containing radioactive material for medical use. An application for a specific license to manufacture, prepare, or distribute radiopharmaceuticals containing radioactive material and used by persons as specified in part 6 of these regulations shall not be approved unless the applicant meets the requirements of this regulation and all other applicable requirements of these regulations.

(a) Each applicant shall meet the requirements in K.A.R. 28-35-180a.

(b) Each applicant shall submit evidence of either of the following:

(1) The radiopharmaceutical containing radioactive material is subject to the federal food, drug and cosmetic act or the public health service act and will be manufactured, labeled, and packaged in accordance with a new drug application (NDA) approved by the food and drug administration (FDA), a biologic product license issued by the FDA, or a “notice of claimed investigational exemption for a new drug” (IND) accepted by the FDA.

(2) The manufacture and distribution of the radiopharmaceutical containing radioactive material is not subject to the federal food, drug, and cosmetic act or the public health service act.

(c) Each applicant shall submit evidence of at least one of the following:

(1) The applicant is registered or licensed with the U.S. food and drug administration as a drug manufacturer.

(2) The applicant is registered or licensed with a state agency as a drug manufacturer.

(3) The applicant is licensed as a pharmacy by the state board of pharmacy.

(4) The applicant is operating as a nuclear pharmacy within a federal medical institution.

(5) The applicant is operating a positron emission tomography (PET) drug production facility.

(d) Each applicant shall submit the following information on the radionuclide:

(1) The chemical and physical form of the material;

(2) the packaging in which the radionuclide is shipped, including the maximum activity per package; and

(3) evidence that the shielding provided by the packaging of the radioactive material is appropriate for the safe handling and storage of radiopharmaceuticals by group licensees.

(e)(1) Each applicant shall submit a description of the following:

(A) A label that shall be affixed to each transport radiation shield, whether the shield is constructed of lead, glass, plastic, or other material, of a radioactive drug to be transferred for commercial distribution. The label shall include the following:

(i) The radiation symbol and the words “CAUTION—RADIOACTIVE MATERIAL” or “DANGER—RADIOACTIVE MATERIAL”;

(ii) the name of the radioactive drug and the abbreviation; and

(iii) the quantity of radioactivity at a specified date and time. For radioactive drugs with a half-

life greater than 100 days, the time may be omitted; and

(B) a label that shall be affixed to each syringe, vial, or other container used to hold a radioactive drug to be transferred for commercial distribution. The label shall include the radiation symbol and the words “CAUTION — RADIOACTIVE MATERIAL” or “DANGER — RADIOACTIVE MATERIAL” and an identifier that ensures that the syringe, vial, or other container can be correlated with the information on the transport radiation shield label.

(2) The labels, leaflets, or brochures required by this regulation shall be made in addition to the labeling required by the FDA. The labels, leaflets, or brochures may be separate from the FDA labeling, or with the approval of the FDA, the labeling may be combined with the labeling required by the FDA.

(f) All of the following shall apply to each licensee described in paragraph (c)(3) or (c)(4), or both:

(1) The licensee may prepare radioactive drugs for medical use, if each radioactive drug is prepared by either an authorized nuclear pharmacist, as specified in paragraphs (2) and (4) of this subsection, or an individual under the supervision of an authorized nuclear pharmacist.

(2) The licensee may allow a pharmacist to work as an authorized nuclear pharmacist if at least one of the following conditions is met:

(A) The pharmacist meets the requirements in 10 C.F.R. 35.55(b) and 35.59 as adopted by reference in K.A.R. 28-35-264, and the licensee has received an approved license amendment identifying this individual as an authorized nuclear pharmacist.

(B) The pharmacist is designated as an authorized nuclear pharmacist in accordance with paragraph (4) of this subsection.

(3) The actions authorized in paragraphs (1) and (2) of this subsection shall be permitted in spite of more restrictive language in license conditions.

(4) The licensee may designate a pharmacist as an authorized nuclear pharmacist if at least one of the following conditions is met:

(A) The individual was a nuclear pharmacist preparing only radioactive drugs containing accelerator-produced radioactive material.

(B) The individual practiced at a government agency or federally recognized Indian tribe pharmacy before November 30, 2007 or at any other pharmacy before August 8, 2009.

(5) Each licensee shall provide a copy of the

state pharmacy license or registration for an individual to work as an authorized nuclear pharmacist and one of the following documents to the department:

(A) The individual's certification by a specialty board whose certification process has been recognized as specified in 10 C.F.R. 35.55(a), as adopted by reference in K.A.R. 28-35-264;

(B) a department, NRC, or agreement state license listing the individual as an authorized nuclear pharmacist;

(C) an NRC master materials licensee permit listing the individual as an authorized nuclear pharmacist;

(D) a permit issued by a licensee of broad scope or an NRC master materials permittee or the authorization from a commercial nuclear pharmacy that is authorized to list its own authorized nuclear pharmacist; or

(E) documentation that only accelerator-produced radioactive materials were used in the practice of nuclear pharmacy at a government agency or federally recognized Indian tribe before November 30, 2007 or at all other locations of use before August 8, 2009, or an earlier date noticed by the NRC as permitted by 10 C.F.R. 35.13(b)(5).

(g) Each licensee shall possess and use instrumentation to measure the radioactivity of radioactive drugs. Each licensee shall have procedures for using the instrumentation. Each licensee shall measure, by direct measurement or by combination of measurements and calculations, the amount of radioactivity in dosages of alpha-, beta-, or photon-emitting radioactive drugs before transfer for commercial distribution. Each licensee shall meet the following requirements:

(1) Perform tests before initial use, periodically, and following repair on each instrument for accuracy, linearity, and geometry dependence, as appropriate for the use of the instrument, and make adjustments if necessary; and

(2) check each instrument for constancy and proper operation at the beginning of each day of use.

(h) Each application from a medical facility, an educational institution, or a federal facility to produce positron emission tomography (PET) radioactive drugs for noncommercial transfer to licensees within the applicant's consortium authorized for medical use under part 6 of these regulations or equivalent agreement state requirements shall include the following:

(1) A request for authorization for the production of PET radionuclides or evidence of an existing license issued under these regulations or equivalent NRC or agreement state requirements for a PET radionuclide production facility within the applicant's consortium from which the applicant receives PET radionuclides;

(2) evidence that the applicant is qualified to produce radioactive drugs for medical use by meeting the requirements of this regulation;

(3) the name of each individual authorized to prepare PET radioactive drugs if the applicant is a pharmacy and documentation that each individual meets the requirements of an authorized nuclear pharmacist; and

(4) the name of each PET radioactive drug for production and noncommercial distribution to the applicant's consortium, including the chemical and physical form of each drug.

(i) Nothing in these regulations shall exempt the licensee from the requirement to comply with applicable FDA requirements and other federal and state requirements governing radioactive drugs. (Authorized by and implementing K.S.A. 48-1607; effective, T-86-37, Dec. 11, 1985; effective May 1, 1986; amended Dec. 30, 2005; amended July 27, 2007; amended March 18, 2011; amended May 4, 2018.)

28-35-181o. Specific licenses to manufacture and distribute sources and devices for use as a calibration, transmission, or reference source or for certain medical uses. (a)

Each application for a specific license to manufacture and distribute sources and devices containing radioactive material to persons licensed as specified in K.A.R. 28-35-181d for use as a calibration, transmission, or reference source or for one or more of the uses listed in 10 C.F.R. 35.400, 35.500, 35.600, and 35.1000, as adopted by reference in K.A.R. 28-35-264, shall include the following information regarding each type of source or device:

(1) The radioactive material contained, its chemical and physical form, and amount;

(2) details of design and construction of the source or device;

(3) procedures for, and results of, prototype tests to demonstrate that the source or device will maintain its integrity under stresses likely to be encountered in normal use and in accidents;

(4) for devices containing radioactive material, the radiation profile for a prototype device;

(5) details of quality control procedures to ensure that the production sources and devices meet the standards of the design and prototype tests;

(6) procedures and standards for calibrating sources and devices;

(7) legend and methods for labeling sources and devices as to their radioactive content;

(8) radiation safety instructions for handling and storing the source or device. These instructions shall be included on a durable label attached to the source or device. However, instructions that are too lengthy for the label may be summarized on the label and printed in detail on a brochure that is referenced on the label;

(9) the label that is to be affixed to the source or device or to the permanent storage container for the source or device. The label shall contain information on the radionuclide, quantity, and date of assay, and a statement that the source or device is licensed by the department for distribution to persons licensed under K.A.R. 28-35-181d or under an equivalent license of the nuclear regulatory commission (NRC) or an agreement state. Labeling for sources that do not require long-term storage may be on a leaflet or brochure that is to accompany the source; and

(10) documentation that the source or device is listed on the nuclear regulatory commission's sealed source and device registry.

(b)(1) If the applicant wants to have the source or device required to be tested for leakage of radioactive material at intervals longer than six months, the applicant shall include in the application sufficient information to demonstrate that the longer interval is justified by performance characteristics of the source or device, or similar sources or devices, and by design features that have a significant bearing on the probability or consequences of leakage of radioactive material from the source.

(2) In determining the acceptable interval between tests for leakage of radioactive material, information that includes the following shall be considered by the secretary:

(A) The nature of the primary containment;

(B) the method for protection of the primary containment;

(C) the method of sealing the containment;

(D) containment construction materials;

(E) the form of the contained radioactive material;

(F) the maximum temperature withstood during prototype tests;

(G) the maximum pressure withstood during prototype tests;

(H) the maximum quantity of contained radioactive material;

(I) the radiotoxicity of contained radioactive material; and

(J) the applicant's operating experience with identical sources or devices or with similarly designed and constructed sources or devices. (Authorized by and implementing K.S.A. 48-1607; effective, T-86-37, Dec. 11, 1985; effective May 1, 1986; amended July 27, 2007; amended March 18, 2011; amended May 4, 2018.)

28-35-181t. Requirements for license to initially transfer source material for use under the small quantities of source material general license. (a) Each person submitting an application for a specific license to initially transfer source material for use in accordance with K.A.R. 28-35-177a, or equivalent regulations of an agreement state or the nuclear regulatory commission (NRC), shall meet the following requirements:

(1) Meet the general requirements specified in K.A.R. 28-35-190a; and

(2) provide information documenting that the NRC approves the methods for quality control, labeling, and providing safety instructions to recipients.

(b) Each person licensed under this regulation shall meet the following requirements:

(1) Label the immediate container of each quantity of source material with the type of source material, the quantity of source material, and the words "radioactive material";

(2) ensure that the quantities and concentrations of source material are labeled and indicated in any transfer records;

(3) provide the following information to each person to whom source material is transferred for use under K.A.R. 28-35-177a or equivalent regulations of an agreement state or the NRC before the source material is transferred for the first time in each calendar year to each person:

(A) A copy of K.A.R. 28-35-177a and K.A.R. 28-35-190a or relevant equivalent regulations of an agreement state or the NRC; and

(B) appropriate radiation safety precautions and instructions relating to the handling, use, storage, and disposal of the material;

(4) report transfers as follows, on or before January 31 of each year covering all transfers for the previous calendar year:

(A) File a report with the department. The report shall include the following information:

(i) The name, address, and license number of the person who transferred the source material;

(ii) the name and address of the general licensee to whom source material is distributed, a responsible agent by name or position, or both, the phone number of the general licensee to whom the material was sent, and the type, physical form, and quantity of source material transferred; and

(iii) the total quantity of each type and physical form of source material transferred in the reporting period to all generally licensed recipients; and

(B) file a report with each agreement state or the NRC if the transfer is to a person licensed by the NRC that identifies all persons operating under provisions equivalent to K.A.R. 28-35-177a to whom more than 50 grams (0.11 lb) of source material has been transferred within a single calendar quarter. The report shall include the following information:

(i) The name, address, and license number of the person who transferred the source material;

(ii) the name and address of the general licensee to whom source material was distributed, a responsible agent by name or position, or both, the phone number of the general licensee to whom the material was sent, and the type, physical form, and quantity of source material transferred; and

(iii) the total quantity of each type and physical form of source material transferred in the reporting period to each generally licensed recipient within the agreement state; and

(5) maintain all information that supports the reports required by this subsection concerning each transfer to a general licensee for one year after the transfer is included in a report to the NRC or to an agreement state.

(c) If no transfers were made to any person generally licensed under K.A.R. 28-35-177a, under an equivalent agreement state, or under NRC provisions during the period specified in paragraph (B)(4) of this regulation, a report shall be submitted to the NRC indicating that no transfers were made. If no transfers have been made to any general licensee in a particular agreement state during the reporting period, this information shall be reported to the agreement state upon request of the agency. (Authorized by and implementing K.S.A. 48-1607; effective May 4, 2018.)

28-35-184a. Specific conditions on all licenses. (a) No license and no right under any license shall be assigned or otherwise transferred

except as authorized under the act or these regulations and approved by the secretary in writing. Each request to assign or transfer a license shall include the following:

(1) The name and the technical and financial qualifications of the proposed transferee; and

(2) the financial assurance for decommissioning information required by K.A.R. 28-35-180b.

(b) Each person authorized under these regulations shall confine the use and possession of the radioactive material licensed to the locations and purposes authorized in the license.

(c) No person shall introduce radioactive material into any product or material knowing or having reason to believe that the product or material will be transferred to a person exempt from these regulations under K.A.R. 28-35-192a, 28-35-192b, 28-35-192c, 28-35-192e, 28-35-192f, or 28-35-192g or the equivalent regulations of the nuclear regulatory commission (NRC) or an agreement state, except in accordance with a specific license issued under K.A.R. 28-35-181f or the general license issued under K.A.R. 28-35-194a.

(d) Each licensee shall file written notice with the secretary 30 days before vacating any facility when the licensee decides to permanently discontinue all activities involving licensed materials authorized in that facility under the license.

(e) Each licensee authorized under K.A.R. 28-35-181h to distribute devices to generally licensed persons shall perform the following:

(1) Report to the department all sales or transfers of those devices to persons generally licensed under K.A.R. 28-35-178b. The report shall identify each general licensee by name and address, the type of device transferred, and the quantity and type of radioactive material contained in the device. A report shall be submitted within 90 days of the sale or transfer; and

(2) furnish, to each general licensee to whom the licensee transfers any such device, a copy of the general license issued under K.A.R. 28-35-178b.

(f)(1) Each general licensee that is required by this part to register and each specific licensee shall notify the department, in writing, immediately following the filing of a voluntary or involuntary petition for bankruptcy under any chapter of title 11, bankruptcy, of the United States code by or against any of the following:

(A) The licensee;

(B) any person controlling the licensee or listing the license or licensee as property of the estate; or

(C) any affiliate of the licensee.

(2) The notification specified in paragraph (f)(1) shall indicate the following:

(A) The name of the bankruptcy court in which the petition for bankruptcy was filed; and

(B) the date of the filing of the petition.

(g) Each portable gauge licensee shall use at least two independent physical controls that form tangible barriers to secure each portable gauge from unauthorized removal whenever the portable gauge is not under the control and constant surveillance of the licensee. (Authorized by and implementing K.S.A. 48-1607; effective, T-86-37, Dec. 11, 1985; effective May 1, 1986; amended Dec. 30, 2005; amended July 27, 2007; amended May 4, 2018.)

28-35-192a. Exemptions; source material.

(a) Each person who only acquires, possesses, uses, or transfers source material in any chemical mixture, compound, solution, or alloy in which the source material, by weight, is less than 0.05 percent of the mixture, compound, solution, or alloy shall be exempt from these regulations.

(b) Each person who only acquires, possesses, uses, or transfers unrefined and unprocessed ore containing source material and does not refine or process the ore shall be exempt from these regulations.

(c) Each person who only acquires, possesses, uses, or transfers any of the following shall be exempt from the requirements for a license in part 3 of these regulations and the requirements of parts 4 and 10 of these regulations:

(1) Any quantities of thorium contained in any of the following:

(A) Incandescent gas mantles;

(B) vacuum tubes;

(C) welding rods;

(D) electric lamps for illuminating purposes, if each lamp does not contain more than 50 milligrams of thorium;

(E) germicidal lamps, sunlamps, and lamps for outdoor or industrial lighting, if each lamp does not contain more than two grams of thorium;

(F) rare earth metals and compounds, mixtures, and products containing not more than 0.25 percent thorium or uranium, or both, by weight; or

(G) personnel neutron dosimeters, if each dosimeter does not contain more than 50 milligrams of thorium;

(2) source material contained in any of the following:

(A) Glazed ceramic tableware, if the glaze contains not more than 20 percent source material, by weight;

(B) glassware containing not more than two percent of source material by weight or, for glassware manufactured before August 27, 2013, 10 percent of source material by weight. This exemption shall not include commercially manufactured glass brick, pane glass, ceramic tile or other glass, or ceramic used in construction;

(C) glass enamel or glass enamel frit that contains not more than 10 percent of source material, by weight, and that was imported or ordered for importation into the United States, or initially distributed by manufacturers in the United States, before July 25, 1983; or

(D) piezoelectric ceramic containing not more than two percent of source material by weight;

(3) photographic film, negatives, and prints containing uranium or thorium;

(4) any finished product or part of a product fabricated of, or containing, tungsten or magnesium-thorium alloys if the thorium content of the alloy does not exceed four percent, by weight. The exemption contained in this paragraph shall not be deemed to authorize the chemical, physical, or metallurgical treatment or processing of any product or part of a product;

(5) uranium used as shielding and constituting part of any shipping container. The uranium shielding shall be conspicuously and legibly impressed with the words "CAUTION—RADIOACTIVE SHIELDING—URANIUM" and shall be enclosed in steel containing no more than 0.25 percent carbon, or another equally fire-resistant metal, with a minimum wall thickness of one-eighth inch (3.2 mm);

(6) thorium or uranium contained in finished optical lenses, if each lens does not contain more than 30 percent of thorium or uranium by weight or, if manufactured after August 27, 2013, 10 percent of thorium or uranium by weight. The exemption in this paragraph shall not be deemed to authorize either of the following:

(A) The shaping, grinding, or polishing of the lens or any manufacturing processes other than the assembly of the lens into optical systems and devices without any alteration of the lens; or

(B) the receipt, possession, use, or transfer of thorium or uranium contained in contact lenses, or in eyeglasses, or in eyepieces in binoculars or other optical instruments;

(7) uranium contained in detector heads for

use in fire detection units, if each detector head contains not more than 0.005 microcurie of uranium; or

(8) thorium contained in any finished aircraft engine part containing nickel-thoria alloy, if both of the following conditions are met:

(A) The thorium is dispersed in the nickel-thoria alloy in the form of finely divided thoria (thorium dioxide); and

(B) the thorium content in the nickel-thoria alloy does not exceed four percent by weight.

(d)(1) Each person who acquires, possesses, uses, or transfers uranium contained in counterweights installed in aircraft, rockets, projectiles or missiles or stored or handled in connection with installation or removal of these counterweights, except counterweights manufactured before December 31, 1969 under a specific license issued by the atomic energy commission and impressed with the legend required by that license, shall be exempt from the requirements for a license in part 3 of these regulations and the requirements of parts 4 and 10 of these regulations if both of the following conditions are met:

(A) Each counterweight has been impressed in a manner that is clearly legible through any plating or covering with the following words: "DEPLETED URANIUM."

(B) Each counterweight is durably and legibly labeled or marked with the identification of the manufacturer and the following words: "UNAUTHORIZED ALTERATIONS PROHIBITED."

(2) The exemption specified in this subsection shall not be deemed to authorize the chemical, physical, or metallurgical treatment or processing of any counterweights, other than repair or restoration of any plating or other covering.

(e)(1) No person shall initially transfer for sale or distribution a product containing source material to any persons exempt under subsections (c) and (d) or equivalent regulations of an agreement state, unless authorized by a license issued by the nuclear regulatory commission (NRC) to initially transfer the products for sale or distribution.

(2) Each person authorized by an agreement state to manufacture, process, or produce materials or products containing source material and each person who imports finished products or parts for sale or distribution shall be authorized by a license issued by the NRC for distribution only. (Authorized by and implementing K.S.A. 48-1607; effective, T-86-37, Dec. 11, 1985; effective May 1, 1986; amended May 4, 2018.)

28-35-192b. Exemptions; exempt concentrations of radioactive materials. (a) Except as provided in K.A.R. 28-35-184a(e), a person shall be exempt from these regulations to the extent that the person acquires, possesses, uses, transfers, or owns products or materials containing radioactive material in concentrations not exceeding those specified in K.A.R. 28-35-198a.

(b) A person shall be exempt from these regulations to the extent that the person acquires, possesses, uses, or transfers products containing naturally occurring radionuclides of elements with an atomic number less than 82, in isotopic concentrations not in excess of those that occur naturally.

(c) This regulation shall not be deemed to authorize the import of radioactive material or products containing radioactive material.

(d) A person who manufactures, processes, or produces a product or material shall be exempt from the requirements for a license as set forth in these regulations to the extent that the transfer of the radioactive material contained in the product or material is in concentrations not in excess of the amounts specified in K.A.R. 28-35-198a and is introduced into the product or material by a licensee holding a specific license issued by the department expressly authorizing such introduction. This exemption shall not apply to the transfer of radioactive material contained in any food, beverage, cosmetic, drug, or other commodity or product designed for ingestion or inhalation by, or application to, a human being.

(e) No person shall introduce radioactive material into a product or material knowing, or having reason to believe, that the product or material will be transferred to a person exempt from these regulations under subsection (a) or under an equivalent regulation of the nuclear regulatory commission or an agreement state, except in accordance with a specific license issued under K.A.R. 28-35-181e or the general license issued in K.A.R. 28-35-194a. (Authorized by and implementing K.S.A. 48-1607; effective, T-86-37, Dec. 11, 1985; effective May 1, 1986; amended March 18, 2011.)

28-35-192c. Exceptions; other radioactive material. Except for persons who apply tritium, promethium-147, or radium to, or persons who incorporate tritium, promethium-147, or radium into, the products listed in this regulation, each person who only acquires, possesses, uses,

or transfers any of the following products shall be exempt from these regulations:

(a) Timepieces or hands or dials containing radium, or timepieces, hands, or dials containing not more than the following specified quantities of other radioactive materials:

(1) 25 millicuries of tritium per timepiece;

(2) 5 millicuries of tritium per hand;

(3) 15 millicuries of tritium per dial. Bezels, when used, shall be considered as part of the dial;

(4) 100 microcuries of promethium-147 per watch or 200 microcuries of promethium-147 per any other timepiece;

(5) 20 microcuries of promethium-147 per watch hand or 40 microcuries of promethium-147 per hand on other timepieces;

(6) 60 microcuries of promethium-147 per watch dial or 120 microcuries of promethium-147 per dial on other timepieces. Bezels, when used, shall be considered as part of the dial. The levels of radiation from hands and dials containing promethium-147 shall not exceed the following, when measured through 50 milligrams per square centimeter of absorber:

(A) For wrist watches, 0.1 millirad per hour at 10 centimeters from any surface;

(B) for pocket watches, 0.1 millirad per hour at one centimeter from any surface; and

(C) for any other timepiece, 0.2 millirad per hour at 10 centimeters from any surface; and

(7) for intact timepieces manufactured before November 30, 2007, 0.037 megabecquerel (1 microcurie) of radium-226 per timepiece;

(b) balances of precision containing not more than one millicurie of tritium per balance or not more than 0.5 millicurie of tritium per balance part manufactured before December 17, 2007;

(c) marine compasses containing not more than 750 millicuries of tritium gas and other marine navigational instruments containing not more than 250 millicuries of tritium gas manufactured before December 17, 2007;

(d) ionization chamber smoke detectors containing not more than one microcurie (μCi) of americium-241 per detector in the form of a foil and designed to protect life and property from fires;

(e) electron tubes. The levels of radiation from each electron tube containing radioactive material shall not exceed one millirad per hour at one centimeter from any surface when measured through seven milligrams per square centimeter of absorber. For purposes of this subsection, "electron tubes" shall include spark gap tubes, power tubes,

gas tubes including glow lamps, receiving tubes, microwave tubes, indicator tubes, pickup tubes, radiation detection tubes, and any other completely sealed tube that is designed to conduct or control electrical currents. An electron tube shall not contain more than one of the following specified quantities of radioactive material:

(1) 150 millicuries of tritium per microwave receiver protector tube or 10 millicuries of tritium per any other electron tube;

(2) 1 microcurie cobalt-60;

(3) 5 microcuries nickel-63;

(4) 30 microcuries krypton-85;

(5) 5 microcuries cesium-137; or

(6) 30 microcuries promethium-147; and

(f) ionizing radiation-measuring instruments containing, for purposes of internal calibration or standardization, sources of radioactive material. No source shall exceed the applicable quantity specified in K.A.R. 28-35-197b. No single instrument shall contain more than 10 sources. For the purposes of this subsection, 0.05 μ Ci of Am-241 shall be considered an exempt quantity. (Authorized by and implementing K.S.A. 48-1607; effective, T-86-37, Dec. 11, 1985; effective May 1, 1986; amended March 18, 2011; amended May 4, 2018.)

28-35-192d. (Authorized by and implementing K.S.A. 1984 Supp. 48-1607; effective, T-86-37, Dec. 11, 1985; effective May 1, 1986; revoked March 18, 2011.)

28-35-192e. Exemptions; gas and aerosol detectors containing radioactive material. (a) Except for persons who manufacture, process, or produce gas and aerosol detectors containing radioactive material or who initially transfer these products for sale or distribution, each person who acquires, receives, owns, possesses, uses, or transfers radioactive material in gas and aerosol detectors designed to protect life or property from fires and airborne hazards shall be exempt from these regulations. Each detector shall have been manufactured, processed, produced, imported, or initially transferred in accordance with a specific license issued by the secretary pursuant to K.A.R. 28-35-181q or a license issued by the nuclear regulatory commission or by an agreement state pursuant to an equivalent regulation of the nuclear regulatory commission or the agreement state.

(b) Gas and aerosol detectors previously manufactured and distributed before November 30,

2007 to general licensees in accordance with a specific license issued by an agreement state shall be exempt under subsection (a) if the device is labeled in accordance with the specific license authorizing distribution of the general licensed device and if the detectors meet the requirements of K.A.R. 28-35-181r.

(c) Each person who desires to manufacture, process, or produce gas and aerosol detectors containing radioactive material, or to initially transfer these products for use pursuant to this regulation, shall apply for a license pursuant to K.A.R. 28-35-181q. (Authorized by and implementing K.S.A. 48-1607; effective, T-86-37, Dec. 11, 1985; effective May 1, 1986; amended March 18, 2011.)

28-35-192g. Exemptions; exempt quantities. (a) Except as provided in subsections (c) through (e), each person who acquires, possesses, uses, owns, receives, or transfers radioactive material in individual quantities that do not exceed the applicable quantity specified in K.A.R. 28-35-197b shall be exempt from these regulations.

(b) Each person who possesses radioactive material received or acquired before January 1, 1972 under the general license then provided in K.A.R. 28-35-178a shall be exempt from these regulations to the extent that the person possesses, uses, owns, or transfers that radioactive material. This exemption shall not apply to radium-226.

(c) This regulation shall not authorize the production, packaging, repackaging, or transfer of radioactive material for purposes of commercial distribution, or the incorporation of radioactive material into products intended for commercial distribution.

(d) No person shall, for purposes of commercial distribution, transfer radioactive material in the individual quantities specified in K.A.R. 28-35-197b knowing, or having reason to believe, that those quantities of radioactive material will be transferred to a person exempt under this regulation or an equivalent regulation of the nuclear regulatory commission (NRC) or an agreement state, except in accordance with a specific license issued by the secretary under K.A.R. 28-35-181r, an equivalent regulation of the NRC, or an equivalent regulation of an agreement state.

(e) No person shall, for purposes of producing an increased radiation level, combine quantities of radioactive material covered by this exemption so that the aggregate quantity exceeds the individual quantities specified in K.A.R. 28-35-197b. (Au-

thorized by and implementing K.S.A. 48-1607; effective, T-86-37, Dec. 11, 1985; effective May 1, 1986; amended March 18, 2011; amended May 4, 2018.)

28-35-192h. Certain industrial devices.

(a) Except as specified in subsections (b) and (c), each person who receives, possesses, uses, transfers, owns, or acquires any industrial device containing by-product material designed and manufactured for either of the following purposes shall be exempt from these regulations:

(1) Detecting, measuring, gauging, or controlling thickness, density, level, interface location, radiation, leakage, or qualitative or quantitative chemical composition; or

(2) producing an ionized atmosphere if the industrial device is manufactured, processed, produced, or initially transferred in accordance with a specific license issued by the nuclear regulatory commission (NRC).

(b) Each person who manufactures, processes, produces, or initially transfers for sale or distribution any industrial device containing by-product material designed and manufactured for either of the following purposes shall be excluded from the exemption in subsection (a):

(1) Detecting, measuring, gauging, or controlling thickness, density, level, interface location, radiation, leakage, or qualitative or quantitative chemical composition; or

(2) producing an ionized atmosphere.

(c) The exemption in subsection (a) shall exclude any source not incorporated into an industrial device, including calibration and reference sources.

(d) Each person who manufactures, processes, produces, or initially transfers for sale or distribution any industrial device containing by-product material for use under subsection (a) shall apply for a license and a certificate of registration from the NRC. (Authorized by and implementing K.S.A. 48-1607; effective May 4, 2018.)

28-35-194a. Reciprocal recognition of licenses. (a) Subject to other provisions in this regulation, any person may apply for a general license to conduct activities within this state without obtaining a specific license from the secretary, if all of the following conditions are met:

(1) The person possesses a specific license issued by the nuclear regulatory commission or an agreement state, other than this state, that authorizes the proposed activities.

(2) The person does not conduct any activities authorized by any general license issued under this regulation for a period totalling more than 180 days in a calendar year.

(3) The specific license does not limit the activity authorized to a specified installation or location.

(4) The person notifies the department in writing at least five days before engaging in the activity. The notification shall indicate the location, period, and type of proposed possession and use within the state and shall be accompanied by a copy of the specific license. If, for a specific case, the five-day period would impose an undue hardship, the person may, upon application to the department, obtain permission by letter, facsimile, or electronic communication to proceed.

(5) The person complies with all applicable regulations of the secretary and with all the terms and conditions of the specific license, except any term or condition of the license that is inconsistent with these regulations.

(6) The person supplies any information requested by the department.

(7) The person does not transfer or dispose of radioactive material possessed or used under the general license provided in this regulation except by transfer to a person who meets either of the following conditions:

(A) Is specifically licensed by the department or the nuclear regulatory commission to receive the material; or

(B) is exempt from the requirements for a license for that material under K.A.R. 28-35-192a, 28-35-192b, 28-35-192c, 28-35-192d, 28-35-192e, 28-35-192f, or 28-35-192g.

(b) Any person who holds a specific license issued by the nuclear regulatory commission, or an agreement state that authorizes the person to manufacture, transfer, install, or service a device described in K.A.R. 28-35-178b within areas subject to the jurisdiction of the licensing body is issued a general license to manufacture, install, transfer, or service those devices in this state subject to the following requirements:

(1) The person shall satisfy the requirements of K.A.R. 28-35-184a(e)(1) and (2).

(2) The device shall be manufactured, labeled, installed, and serviced in accordance with the provisions of the specific license issued to the person by the nuclear regulatory commission or the agreement state.

(3) The person shall ensure that any labels required to be affixed to the device, under regulations

of the authority that licensed the manufacture of the device, and that bear the statement “Removal of this label is prohibited” are affixed to the device.

(4) The person shall furnish to each general licensee to whom the person transfers the device, or on whose premises the person installs the device, a copy of the general license issued in K.A.R. 28-35-178b.

(c) Acceptance of any specific license recognized under this regulation or any product distributed pursuant to such a license may be withdrawn, limited, or qualified by the secretary, upon determining that the action is necessary in order to protect health or minimize danger to life or property. (Authorized by and implementing K.S.A. 48-1607; effective, T-86-37, Dec. 11, 1985; effective May 1, 1986; amended March 18, 2011.)

28-35-197a. (Authorized by and implementing K.S.A. 1984 Supp. 48-1607; effective, T-86-37, Dec. 11, 1985; effective May 1, 1986; revoked May 4, 2018.)

28-35-197b. Schedule B; exempt quantities of radioactive material. The provisions of 10 C.F.R. 30.71, as in effect on November 30, 2007, are hereby adopted by reference, except that the word “byproduct” shall be replaced with “radioactive.” (Authorized by and implementing K.S.A. 48-1607; effective May 4, 2018.)

28-35-205b. Alternate criteria for license termination. A license shall be terminated by the secretary using alternate criteria greater than the dose criteria specified in K.A.R. 28-35-205a only if the licensee provides all of the following information:

(a) Evidence that public health and safety and the environment would continue to be protected and that it is unlikely that the dose from all man-made sources combined, other than medical, could be more than the limit of one millisievert per year or 100 mrem per year specified in part 4 of these regulations, by submitting an analysis of the possible sources of exposure;

(b) restrictions, to the extent practical, on site use according to the provisions of K.A.R. 28-35-205a to minimize exposure at the site;

(c) evidence that doses have been reduced to ALARA levels, taking into consideration any detriment, including any traffic accidents that could result from decontamination and waste disposal;

(d) a decommissioning plan indicating the licensee’s intent to decommission in accordance

with this part and specifying that the licensee proposes to decommission by the use of alternate criteria. The licensee shall document in the decommissioning plan how the advice of individuals and institutions in the community who might be affected by the decommissioning has been sought and addressed, as appropriate, following analysis of that advice. In seeking this advice, the licensee shall provide for the following:

(1) Participation by representatives of a broad cross section of community interests who could be affected by the decommissioning;

(2) an opportunity for comprehensive, collective discussions of the issues by the participants represented; and

(3) a publicly available summary of the results of all the discussions specified in paragraph (d) (2), including a description of the individual viewpoints of the participants on the issues and the extent of agreement and disagreement on the issues among the participants; and

(e) sufficient financial assurance, as specified in K.A.R. 28-35-180b, to enable an independent third party, including a governmental custodian of a site, to assume and carry out the responsibilities for any necessary control and maintenance of the site. (Authorized by and implementing K.S.A. 48-1607; effective Dec. 30, 2005; amended May 4, 2018.)

28-35-212a. Occupational dose limits for adults. (a) Each licensee or registrant shall control the occupational dose to individual adults, except for planned special exposures to the following dose limits:

(1) The annual limit shall be the more limiting of either of the following:

(A) The total effective dose equivalent being equal to 0.05 Sv (5 rem); or

(B) the sum of the deep dose equivalent and the committed dose equivalent to any individual organ or tissue other than the lens of the eye being equal to 0.50 Sv (50 rem).

(2) The annual limits to the lens of the eye, to the skin, and to the extremities shall be the following:

(A) An eye dose equivalent of 0.15 Sv (15 rem); and

(B) a shallow dose equivalent of 0.50 Sv (50 rem) to the skin or to any extremity.

(b) Doses received in excess of the annual limits, including doses received during accidents, emergencies, and planned special exposures,

shall be subtracted from the limits for planned special exposures that the individual could receive during the current year and during the individual's lifetime.

(c) When the external exposure is determined by measurement with an external personal monitoring device, the deep dose equivalent shall be used in place of the effective dose equivalent, unless the effective dose equivalent is determined by a dosimetry method approved by the secretary. The assigned deep dose equivalent shall be for the portion of the body receiving the highest exposure. The assigned shallow dose equivalent shall be the dose averaged over the contiguous 10 square centimeters of skin receiving the highest exposure.

(1) The deep dose equivalent, eye dose equivalent, and shallow dose equivalent may be assessed from surveys or other radiation measurements for the purpose of demonstrating compliance with the occupational dose limits, if the individual monitoring device was not in the region of highest potential exposure or the results of individual monitoring are unavailable.

(2) If a protective apron is worn by medical fluoroscopists performing special and interventional fluoroscopic procedures and monitoring is conducted as specified in K.A.R. 28-35-217a, the use of weighting factors in determining the effective dose equivalent for external radiation may be approved by the secretary upon receipt of a written request. In no case shall the use of weighting factors be approved unless the request is accompanied by a list of the procedures to be used to ensure that exposures are maintained ALARA and the effective dose equivalent is determined as follows:

(A) If only one individual monitoring device is used and the device is located at the neck outside the protective apron, the reported deep dose equivalent shall be the effective dose equivalent for external radiation.

(B) If only one individual monitoring device is used, the device is located at the neck outside the protective apron, and the reported dose exceeds 25 percent of the limit specified in this regulation, then the reported deep dose equivalent value multiplied by 0.3 shall be the effective dose equivalent for external radiation.

(C) If individual monitoring devices are worn, both under the protective apron at the waist and outside the protective apron at the neck, the effective dose equivalent for external radiation shall

be assigned the value of the sum of the deep dose equivalent reported for the individual monitoring device located at the waist under the protective apron multiplied by 1.5 and the deep dose equivalent reported for the individual monitoring device located at the neck outside the protective apron multiplied by 0.04.

(3) All individuals who are associated with the operation of an X-ray system shall be subject to the occupational exposure limits and the requirements for the determination of the doses that are specified in this regulation. In addition, each individual shall meet the following requirements:

(A) When protective clothing or devices are worn on portions of the body and one or more monitoring devices are required, at least one monitoring device shall be utilized as follows:

(i) When an apron is worn, the monitoring device shall be worn at the collar outside of the apron;

(ii) the dose to the device, if one is used, shall be recorded as the whole-body dose based on the maximum dose attributed to any one critical organ, including the gonads, the blood-forming organs, the head and trunk, and the lens of the eye. If more than one device is used and a record is made of the data, each dose shall be identified with the area where the device was worn on the body;

(4) Exposure of a personnel-monitoring device to deceptively indicate a dose delivered to an individual shall be prohibited.

(5) If the individual is exposed during procedures not specifically approved, weighting factors shall not be applied.

(d) Derived air concentration (DAC) and annual limit on intake (ALI) values, in appendix B, table I, published in "appendices to part 4: standards for protection against radiation," which is adopted in K.A.R. 28-35-135a, shall be used to determine the individual's dose and to demonstrate compliance with the occupational dose limits.

(e) Notwithstanding the annual dose limits, the licensee shall limit the soluble uranium intake by an individual to 10 milligrams in a week in consideration of chemical toxicity, in accordance with footnote 3 of appendix B published in "appendices to part 4: standards for protection against radiation," which is adopted in K.A.R. 28-35-135a.

(f) Each licensee or registrant shall reduce the dose that an individual may be allowed to receive in the current year by the amount of occupational dose received while employed by any other per-

son. (Authorized by and implementing K.S.A. 48-1607; effective, T-85-43, Dec. 19, 1984; effective May 1, 1985; amended Sept. 20, 1993; amended Oct. 17, 1994; amended Dec. 30, 2005; amended March 18, 2011.)

28-35-216a. Testing for leakage or contamination of sealed sources. (a) Each licensee in possession of any sealed source shall ensure that all of the following requirements are met:

(1) Each sealed source, except as specified in subsection (b), shall be tested for leakage or contamination, and the test results shall be received before the sealed source is put into use, unless the licensee has a certificate from the transferor indicating that the sealed source was tested within six months before transfer to the licensee.

(2) Each sealed source that is not designed to emit alpha particles shall be tested for leakage or contamination at intervals not to exceed six months or at alternative intervals approved by the secretary, an agreement state, a licensing state, or the nuclear regulatory commission.

(3) Each sealed source designed to emit alpha particles shall be tested for leakage or contamination at intervals not to exceed three months or at alternative intervals approved by the secretary, an agreement state, a licensing state, or the nuclear regulatory commission.

(4) For each sealed source required to be tested for leakage or contamination, whenever there is reason to suspect that the sealed source might have been damaged or might be leaking, the licensee shall ensure that the sealed source is tested for leakage or contamination before further use.

(5) Tests for leakage for all sealed sources shall be capable of detecting the presence at 185 Bq (0.005 μ Ci) of radioactive material on a test sample. Test samples shall be taken from the sealed source or from the surfaces of the container in which the sealed source is stored or mounted and on which one might expect contamination to accumulate. For a sealed source contained in a device, test samples shall be obtained when the source is in the "off" position.

(b) The following sealed sources shall be exempt from testing for leakage and contamination:

(1) Sealed sources containing only radioactive material with a half-life of fewer than 30 days;

(2) sealed sources containing only radioactive material as a gas;

(3) sealed sources containing 3.7 Mbq (100 μ Ci) or less of beta-emitting or photon-emitting mate-

rial or 370 kBq (10 μ Ci) or less of alpha-emitting material;

(4) sealed sources containing only hydrogen-3;

(5) seeds of iridium-192 encased in nylon ribbon; and

(6) sealed sources, except sources used in radiation therapy, that are stored, are not being used, and are identified as being in storage. The sources exempted from this test shall be tested for leakage before any use or transfer to another person, unless the source has been leak-tested within six months before the date of the use or transfer. The sources in storage shall be physically inventoried every six months and listed in the radioactive materials inventory. Each source in storage shall be tested for leakage at least every 10 years.

(c) Each test for leakage or contamination from sealed sources shall be performed by a person specifically authorized by the secretary, an agreement state, a licensing state, or the nuclear regulatory commission to perform these services.

(d) All test results shall be recorded in units of becquerel or microcurie and maintained for inspection by the department.

(e) If any test reveals the presence of 0.005 microcurie or more of removable contamination, the licensee shall immediately withdraw the sealed source from use and shall cause the source to be decontaminated and repaired or to be disposed of in accordance with these regulations. The licensee shall file a report within five days of the test with the radiation control program, Kansas department of health and environment, describing the equipment involved, the test results, and the corrective action taken. (Authorized by and implementing K.S.A. 48-1607; effective, T-85-43, Dec. 19, 1984; effective May 1, 1985; amended Dec. 30, 2005; amended July 27, 2007; amended March 18, 2011.)

28-35-217b. General monitoring requirements. (a) Each licensee or registrant shall make, or cause to be made, surveys of each area of use, including the subsurface, that meet the following requirements:

(1) Provide measurements or evaluations demonstrating compliance with these regulations; and

(2) are necessary under the circumstances to evaluate the following:

(A) Radiation and radiological contamination levels;

(B) concentrations or quantities of radioactive material; and

(C) the potential radiological hazards that could be present.

(b) Records from surveys describing the location and amount of subsurface residual radioactivity identified at the facility out to the site boundary shall be kept on file with records required for decommissioning.

(c) Each licensee or registrant shall ensure that instruments and equipment used for quantitative radiation measurements are calibrated at intervals not to exceed 12 months, for the type of radiation measured.

(d) Each licensee or registrant shall ensure that adequate precautions are taken to prevent a deceptive exposure of an individual-monitoring device.

(e) All personnel dosimeters, except for direct and indirect reading pocket ionization chambers and those dosimeters used to measure the dose to the extremities that require processing to determine the radiation dose and are used by licensees to comply with these regulations or with conditions specified in a license, shall be processed and evaluated by a dosimetry processor that meets the following requirements:

(1) Holds current personnel dosimetry accreditation from the national voluntary laboratory accreditation program (NVLAP) of the national institute of standards and technology; and

(2) is accredited for the type of radiation or radiations included in the NVLAP program that most closely approximates the type of radiation or radiations for which the individual wearing the dosimeter is monitored. (Authorized by and implementing K.S.A. 48-1607; effective Oct. 17, 1994; amended May 4, 2018.)

28-35-221a. Procedures for picking up, transporting, receiving, and opening packages.

(a)(1) Each licensee or registrant who expects to receive a package containing quantities of radioactive material in excess of the type A quantities specified in K.A.R. 28-35-221b shall meet one of the following requirements:

(A) If the package is to be delivered to the licensee's or registrant's facility by the carrier, make arrangements to receive the package when it is offered for delivery by the carrier; or

(B) if the package is to be picked up by the licensee or registrant at the carrier's terminal, make arrangements to receive notification from the carrier of the arrival of the package, at the time of arrival.

(2) Each licensee or registrant who picks up a package of radioactive material from a carrier's terminal shall pick up the package upon receipt of notification from the carrier of the arrival of the package.

(b) Each licensee or registrant shall ensure that external radiation levels around any package specified in subsection (a) and, if applicable, external radiation levels around the vehicle transporting the package do not exceed 200 millirems per hour (2 mSv/hr) at any point on the external surface of the package or vehicle at any time during transportation. The transport index shall not exceed 10.

(c)(1) For the purpose of this subsection, "exclusive use" shall have the meaning specified in 10 C.F.R. 71.4, dated January 1, 2015 and hereby adopted by reference.

(2) For each package specified in subsection (a) and transported in exclusive use, radiation levels external to the package may exceed the limits specified in subsection (d) but shall not exceed any of the following:

(A) 200 millirems per hour (2 mSv/hr) on the accessible external surface of the package unless the following conditions are met, in which case the limit shall be 1,000 millirems per hour (10 mSv/hr):

(i) The shipment is made in a closed transport vehicle. For the purposes of this subsection, "closed transport vehicle" shall mean a vehicle or conveyance equipped with a securely attached exterior enclosure that, during normal transportation, restricts the access of unauthorized persons to the cargo space containing a package specified in subsection (a). The enclosure can be either temporary or permanent and, in the case of packaged materials, can be the see-through type that limits access from top, sides, and bottom;

(ii) the package is secured so that its position within the closed transport vehicle remains fixed during transportation; and

(iii) no loading or unloading operations occur between the beginning and end of the transportation;

(B) 200 millirems per hour (2 mSv/hr) at any point on the outer surface of the closed transport vehicle, including the upper and lower surfaces, or for a flatbed-style closed transport vehicle with a personnel barrier, at any point on the vertical planes projected from the outer edges of the closed transport vehicle, on the upper surface of the load, and on the lower external surface of the closed transport vehicle;

(C) 10 millirems per hour (0.1 mSv/hr) at any point two meters from the vertical planes represented by the outer lateral surfaces of the closed

transport vehicle, or, in the case of a flatbed-style closed transport vehicle, at any point two meters from the vertical planes projected from the outer edges of the closed transport vehicle; or

(D) two millirems per hour (0.02 mSv/hr) in any normally occupied positions in the closed transport vehicle, except that this paragraph shall not apply to private motor carriers if each person occupying any of these positions in the closed transport vehicle is provided with a personnel-monitoring device and training in accordance with K.A.R. 28-35-333.

(d) Each licensee or registrant, upon receipt of any package of radioactive material, shall monitor the external surfaces of each package labeled with the U.S. department of transportation radioactive white I or radioactive yellow II or III labels, as specified in 49 C.F.R. 172.403 and 172.436-440, for radioactive contamination caused by leakage of the radioactive contents. Each licensee or registrant shall also monitor for radiation levels of each package containing quantities of radioactive materials that are equal to or more than the type A quantity specified in 10 C.F.R. part 71, appendix A, which is adopted by reference in K.A.R. 28-35-221b. Each licensee or registrant shall monitor each package known to contain radioactive materials for radioactive contamination and radiation levels if there is evidence of degradation of package integrity. The monitoring shall be performed as soon as practicable after receipt, but not later than three hours after the package is received at the licensee's facility if received during the licensee's normal working hours or three hours from the beginning of the next working day if received after normal working hours. The licensee or registrant shall immediately notify the final delivery carrier and, by telephone, the department under either of the following conditions:

(1) Removable radioactive surface contamination exceeds the following maximum permissible limits:

Contaminant	Maximum Permissible Limits		
	Bq/cm ²	uCi/cm ²	dpm/cm ²
Beta and gamma emitters and low-toxicity alpha emitters	4	10 ⁻⁴	220
All other alpha-emitting radionuclides	0.4	10 ⁻⁵	22

(2) External radiation levels exceed the limits specified in 10 C.F.R. part 71, appendix A, which is adopted by reference in K.A.R. 28-35-221b.

(e) Each licensee or registrant shall establish and maintain procedures for safely opening packages in which radioactive material is received and shall ensure that these procedures are followed and any special instructions are followed for the type of package being opened.

(f) Each licensee or registrant transferring special form sources in vehicles owned or operated by the licensee or registrant to and from a work site shall be exempt from the contamination monitoring requirements of this regulation. However, the licensee or registrant shall not be exempt from the monitoring requirement in this regulation for measuring radiation levels that ensures that the source is still properly lodged in its shield. (Authorized by and implementing K.S.A. 48-1607; effective, T-85-43, Dec. 19, 1984; effective May 1, 1985; amended Sept. 20, 1993; amended Oct. 17, 1994; amended May 4, 2018.)

28-35-221b. Appendix A; determination of A₁, A₂, and B quantities. The provisions of 10 C.F.R. part 71, appendix A, as in effect on July 13, 2015, are hereby adopted by reference, with the changes specified in this regulation.

(a) Wherever the term "commission" appears within 10 C.F.R. part 71, appendix A, that term shall be replaced with the term "department."

(b) In 10 C.F.R. part 71, appendix A, paragraph II(c) shall be replaced with the following text: "The licensee shall submit requests for prior approval, described under paragraphs II(a) and II(b) of this appendix, to the department." (Authorized by and implementing K.S.A. 48-1607; effective Sept. 20, 1993; amended Oct. 17, 1994; amended May 4, 2018.)

28-35-225b. Disposal of certain radioactive material. The provisions of 10 CFR 20.2008, as in effect on October 1, 2007, are hereby adopted by reference. (Authorized by and implementing K.S.A. 48-1607; effective March 18, 2011.)

28-35-230d. (Authorized by and implementing K.S.A. 48-1607; effective Oct. 17, 1994; amended Dec. 30, 2005; revoked May 4, 2018.)

28-35-231c. Transfer for disposal; manifests. The provisions of 10 CFR 20.2006 as in effect on October 1, 2007, including appendix G to 10 CFR part 20 as in effect on November 16, 2005, are hereby adopted by reference. (Authorized by and implementing K.S.A. 48-1607; effective Dec. 30, 2005; amended March 18, 2011.)

28-35-242. General requirements. (a) Waiver of requirements. Compliance with the specific requirements of these regulations relative to an existing machine or installation may be waived by the secretary if the registrant provides an alternative to the requirement that provides radiation protection equal to that prescribed in part 4 of these regulations.

(b) Responsibility to meet requirements. A person shall not make, sell, lease, transfer, lend, or install X-ray or fluoroscopic equipment, or the supplies used in connection with this equipment, unless both of the following conditions are met:

(1) Those supplies and equipment, when properly placed in operation and properly used, will meet the requirements of parts 1, 4, and 5 and the applicable regulations under parts 7, 8, and 10 of these regulations.

(2) The person delivers, if applicable, cones or collimators, filters, appropriate timers, and fluoroscopic shutters.

(c) Limitations on human use. An individual shall not be exposed to the useful beam, unless the exposure is for healing arts purposes and each exposure has been authorized by one of the following:

(1) A licensed practitioner of the healing arts;

(2) a physician assistant licensed by the state board of healing arts, when working under the supervision and direction of a person licensed to practice medicine or surgery;

(3) an advanced registered nurse practitioner who holds a certificate of qualification from the state board of nursing, when working under the supervision and direction of a person licensed to practice medicine or surgery; or

(4) an individual licensed to practice dentistry or podiatry within the authority granted to the individual by Kansas licensing laws applying to dentists and podiatrists.

(d) Prohibited uses. Deliberate exposure for the following purposes shall be specifically prohibited:

(1) Exposure of an individual for patient positioning, training, demonstration, or other purposes, unless a healing arts purpose exists and a proper prescription has been provided; and

(2) exposure of an individual for the purpose of healing arts screening without the prior written approval of the department, except mammography screening, if the facility is certified to perform mammography by the food and drug administration. Each person requesting approval for healing arts screening shall submit the information out-

lined in K.A.R. 28-35-255. Each person requesting approval for a healing arts screening shall notify the department within 30 days if any of the information submitted becomes invalid or outdated. (Authorized by and implementing K.S.A. 48-1607; effective Jan. 1, 1970; amended Jan. 1, 1972; amended May 1, 1976; amended Sept. 20, 1993; amended Dec. 30, 2005; amended March 18, 2011.)

28-35-264. General requirements. The provisions of 10 C.F.R. part 35, as in effect on September 9, 2015, are hereby adopted by reference, with the changes specified in this regulation.

(a) For the purposes of part 6, “byproduct material” shall mean all radioactive material regulated by the department.

(b) All reports required by this regulation shall be submitted to the department.

(c) The following sections shall be deleted:

(1) 35.1, “purpose and scope”;

(2) 35.2, “definitions,” except that the definitions of the following terms shall be retained:

(A) “Authorized medical physicist”;

(B) “authorized nuclear pharmacist”;

(C) “authorized user”;

(D) “medical event”;

(E) “prescribed dose”; and

(F) “radiation safety officer”;

(3) 35.8, “information collection requirements: OMB approval”;

(4) 35.18, “license issuance”;

(5) 35.19, “specific exemptions”;

(6) 35.26(a)(1), “radiation protection program changes”;

(7) 35.4001, “violations”; and

(8) 35.4002, “criminal penalties.”

(d) Wherever the following C.F.R. references occur within 10 C.F.R. part 35, these references shall be replaced with the specified references to regulations and parts in this article:

(1) “10 CFR 19.12” shall be replaced with “K.A.R. 28-35-333, ‘instructions to workers.’”

(2) “10 CFR part 20” shall be replaced with “part 4, ‘standards for protection against radiation.’”

(3) “10 CFR 20.1101” shall be replaced with “K.A.R. 28-35-211d, ‘radiation protection programs.’”

(4) “10 CFR 20.1301(a)(1) and 20.1301(c)” shall be replaced with “K.A.R. 28-35-214a.”

(5) “10 CFR 20.1501” shall be replaced with “K.A.R. 28-35-217b.”

(6) “10 CFR part 30” shall be replaced with “part 3, ‘licensing of sources of radiation.’”

(7) “10 CFR 32.72” shall be replaced with “K.A.R. 28-35-181m, ‘specific licenses to manufacture and distribute radiopharmaceuticals containing radioactive material for medical use under group licenses,’ and K.A.R. 28-35-181n, ‘specific licenses to manufacture and distribute generators or reagent kits for preparation of radiopharmaceuticals containing radioactive material.’”

(8) “10 CFR 32.74” shall be replaced with “K.A.R. 28-35-181o, ‘specific licenses to manufacture and distribute sources and devices for use as a calibration or reference source, or for certain medical uses.’”

(9) “10 CFR 33.13” shall be replaced with “K.A.R. 28-35-182b, ‘qualifications for a type A specific license of broad scope.’”

(e) Wherever the following terms occur within 10 C.F.R. part 35, these terms shall be replaced with “department”:

- (1) “Commission”;
- (2) “NRC operation center”; and
- (3) “NRC regional office.”

(f) The following changes shall be made to the sections specified:

(1) 35.6(b)(1) and (c)(1) shall be replaced with the following text:

“Obtain review and approval of the research as specified in 45 CFR 46.111, ‘criteria for IRB approval of research’; and”.

(2) 35.6(b)(2) and (c)(2) shall be replaced with the following text:

“Obtain informed consent from the human research subject as specified in 45 CFR 46.116, ‘general requirements for informed consent.’”

(3) 35.10, subsection (a) shall be deleted.

(4) In 35.10(d), the date “October 24, 2002” shall be replaced with “the effective date of these regulations.”

(5) 35.12(b)(1) shall be replaced with the following text: “submitting a form specified by the department that includes the facility diagram, equipment, and training and experience qualifications of the radiation safety officer, authorized users, authorized physicists, and authorized pharmacists.”

(6) 35.12(c)(1)(i) shall be replaced with the following text: “a form specified by the department that includes the facility diagram, equipment, and training and experience qualifications of the radiation safety officer, authorized users, authorized physicists, and authorized pharmacists.”

(7) In 35.57(a)(1) and (b)(1), the date “October 24, 2002” shall be replaced with “the effective date of these regulations.”

(8) In 35.57(a)(2) and (b)(2), the date “April 29, 2005” shall be replaced with “the effective date of these regulations.”

(9) In 35.432(a), the date “October 24, 2002” shall be replaced with “the effective date of these regulations.”

(10) In 35.3045, the footnote shall be deleted, and in subsection (a) the words “or any radiation-producing device” shall be added before the words “results in.”

(11) 35.3047(d) shall be replaced with the following text: “The licensee shall submit a written report to the department within 15 days after discovery of a dose to the embryo or fetus, or nursing child that requires a report in paragraphs (a) or (b) in this section.”

(12) In 35.3067, the phrase “with the department” shall be inserted after the word “report” in the first sentence, and the second sentence shall be deleted. (Authorized by and implementing K.S.A. 48-1607; effective Dec. 30, 2005; amended March 18, 2011; amended May 4, 2018.)

28-35-288. Special requirements and exemptions for enclosed radiography. (a) Each licensee or registrant shall ensure that each system for enclosed radiography that is designed to allow the admittance of any individual meets the following requirements:

(1) Meets all applicable requirements of this part and K.A.R. 28-35-214a if the system is not a certified cabinet X-ray system;

(2) meets all applicable requirements of this part and has been certified by the U.S. food and drug administration (FDA) as compliant with the requirements in 21 C.F.R. 1020.40, if the system is a certified cabinet X-ray system; and

(3) is evaluated, at intervals not to exceed one year, to ensure compliance with the applicable requirements specified in paragraphs (1) or (2) of this subsection. A record of each evaluation shall be maintained for two years after the evaluation.

(b) Each cabinet X-ray system designed to exclude any individual shall be exempt from the requirements of K.A.R. 28-35-276, K.A.R. 28-35-278, K.A.R. 28-35-281, K.A.R. 28-35-282, K.A.R. 28-35-283, K.A.R. 28-35-284, K.A.R. 28-35-285, K.A.R. 28-35-286, and K.A.R. 28-35-289, with the following exceptions:

(1) Operating personnel shall be provided with personnel-monitoring equipment as specified in K.A.R. 28-35-217a.

(2) A registrant shall not permit any individual to operate a cabinet x-ray system until that individual has received a copy of and instruction in the operating procedures for the unit and has demonstrated competence in its use. A record that demonstrates compliance with this paragraph shall be maintained for inspection by the department until disposition is authorized by the department.

(3) A test for proper operation of each high-radiation area control device or alarm system, where applicable, shall be conducted and recorded as specified in K.A.R. 28-35-288.

(c) Each permanent radiographic installation having any high-radiation area entrance control of the type specified in K.A.R. 28-35-219a shall also meet the following requirements:

(1) Each entrance that is used for personnel access to the high-radiation area in a permanent radiographic installation shall have both a visible and an audible warning signal to warn of the presence of radiation.

(2) The visible signal shall be activated by radiation whenever the source is exposed. The audible signal shall be activated if an attempt is made to enter the installation while the source is exposed.

(d) The control device or alarm system shall be tested for proper operation at the beginning of each period of use. A record of each test shall be prepared quarterly or before the first use after the end of the quarter. Each record shall be maintained for inspection by the department until the secretary authorizes disposal of the record. (Authorized by and implementing K.S.A. 48-1607; effective Jan. 1, 1970; amended, T-85-43, Dec. 19, 1984; amended May 1, 1985; amended Sept. 20, 1993; amended Dec. 30, 2005; amended May 4, 2018.)

28-35-334. Reports to individuals. Radiation exposure data for an individual and the results of any measurements, analyses, and calculations of radioactive material deposited or retained in the body of an individual shall be reported to the individual as specified in this regulation.

(a) The information reported shall include data and results obtained pursuant to the requirements of these regulations or any order of the secretary or license condition, as shown in records maintained by the licensee or registrant pursuant to

K.A.R. 28-35-227h. Each report shall meet the following requirements:

(1) Be in writing;

(2) include appropriate identifying data, including the name of the licensee or registrant, the name of the individual, and the individual's identification number, preferably social security number;

(3) include the individual's exposure information; and

(4) contain the following statement:

"This report is furnished to you under the provisions of Kansas Administrative Regulation 28-35-334. You should preserve this report for further reference."

(b) Each licensee or registrant shall make dose information available to individual workers shown in records maintained by the licensee or registrant pursuant to K.A.R. 28-35-227h. Each licensee or registrant shall provide an annual report to each individual worker monitored pursuant to K.A.R. 28-35-217a of the dose received in that monitoring year if either of the following situations occurs:

(1) The individual's dose exceeds 1 mSv (100 mrem) TEDE or 1 mSv (100 mrem) to any individual organ or tissue.

(2) The individual requests an annual dose report.

(c) Each licensee or registrant shall furnish a written report of a worker's exposure to sources of radiation or radioactive material at the request of the worker if the worker was formerly engaged in activities controlled by the licensee or registrant. The report shall be furnished within 30 days from the date of the request or within 30 days after the dose of the individual has been determined by the licensee or registrant, whichever is later. The report shall cover, within the period of time specified in the request, the dose record for each year the worker was required to be monitored pursuant to K.A.R. 28-35-217a. The report shall also include the period of time in which the worker's activities involved exposure to sources of radiation and shall include the dates and locations of work under the license or registration in which the worker participated during this period.

(d) When a licensee or registrant is required pursuant to K.A.R. 28-35-229a(a)(1) and (b)(1) to report to the department any exposure of an individual to sources of radiation, the licensee or the registrant shall also provide to the individual a written report of the individual's exposure data included in the report. This report shall be trans-

mitted to the individual at a time not later than the transmittal of the report to the department.

(e) At the request of a worker who is terminating employment with the licensee or registrant that involves exposure to radiation or radioactive material or at the request of a worker who, while employed by another person, is terminating an assignment to work involving radiation dose in the licensee's facility, each licensee or registrant shall provide to the worker, or the worker's designee, a written report regarding the radiation dose received by that worker from operations of the licensee or registrant during the current year. The report shall be provided at the worker's termination. The licensee or registrant may provide a written estimate of that dose if the finally determined personnel monitoring results are not available at that time. Estimated doses shall be clearly indicated as such. (Authorized by K.S.A. 48-1607; implementing K.S.A. 48-1607 and 48-1609; effective May 1, 1976; amended, T-85-43, Dec. 19, 1984; amended May 1, 1985; amended Oct. 17, 1994; amended March 18, 2011.)

28-35-343. Storage precautions. (a) Each source of radiation, except accelerators, shall be provided with a storage container and, if transported, a transport container. The same container may be used in both cases if the container meets the requirements for each use. The container shall be provided with a lock to prevent unauthorized removal of, or exposure to, the source of radiation.

(b) Each source of radiation shall be stored in a manner that minimizes danger from explosion or fire. (Authorized by and implementing K.S.A. 48-1607; effective Sept. 20, 1993; amended Dec. 30, 2005; amended May 4, 2018.)

28-35-344. Transport precautions. Each licensee shall lock and physically secure each transport package containing licensed material in the transporting vehicle to prevent accidental loss, tampering, or unauthorized removal of the licensed material from the vehicle. (Authorized by and implementing K.S.A. 48-1607; effective Sept. 20, 1993; amended May 4, 2018.)

28-35-346. Leak testing of sealed sources. (a) Requirements. Each licensee using any sealed source of radioactive material shall have the source tested for leakage as specified in subsection (c). A record of leak test results shall be kept in units of microcuries and maintained for inspection by the department. The licensee shall

keep the records of the results for three years after the leak test is performed.

(b) Method of testing. Each test for leakage shall be performed only by a person specifically authorized to perform such a test by the department, the nuclear regulatory commission, an agreement state, or a licensing state. The test sample shall be taken from the surface of the source, the source holder, or the surface of the device in which the source is stored or mounted and on which one could expect contamination to accumulate. The test sample shall be analyzed for radioactive contamination. The analysis shall be capable of detecting the presence of 0.005 microcurie (185 Bq) of radioactive material on the test sample and shall be performed by a person specifically authorized to perform such a test by the department, the nuclear regulatory commission, an agreement state, or a licensing state.

(c) Interval of testing. Each sealed source of radioactive material, except an energy compensation source (ECS), shall be tested at intervals not to exceed six months. In the absence of a certificate from a transferor indicating that a test has been made within the six months before the transfer, the sealed source shall not be put into use until tested. If, for any reason, it is suspected that a sealed source could be leaking, the sealed source shall be removed from service immediately and tested for leakage as soon as practical. Each ECS that is not exempt from testing in accordance with subsection (e) shall be tested at intervals not to exceed three years. In the absence of a certificate from a transferor that a test has been made within the three years before the transfer, the ECS shall not be used until tested.

(d) Leaking or contaminated sources. If the test reveals the presence of 0.005 microcurie (185 Bq) or more of leakage or contamination, the licensee shall immediately withdraw the source from use and shall cause it to be decontaminated, repaired, or disposed of in accordance with these regulations. Each licensee shall check the equipment associated with the leaking source for radioactive contamination and, if contaminated, shall have the equipment decontaminated or disposed of by a nuclear regulatory commission licensee or an agreement state licensee that is authorized to perform these functions. A report describing the equipment involved, the test result, and the corrective action taken shall be filed with the department within five days after receiving the test results.

(e) Exemptions. The following sources shall be exempt from the periodic leak test requirements of this regulation:

- (1) Hydrogen-3 (tritium) sources;
- (2) sources of radioactive material with a half-life of 30 days or less;
- (3) sealed sources of radioactive material in gaseous form;
- (4) sources of radioactive material emitting beta, beta-gamma, or gamma radiation, with an activity of not more than 100 microcuries (3.7 Mbq); and
- (5) sources of alpha-emitting radioactive material with an activity of not more than 10 microcuries (0.370 MBq). (Authorized by and implementing K.S.A 48-1607; effective Sept. 20, 1993; amended Dec. 30, 2005; amended March 18, 2011.)

28-35-347. In-person inventory. Each licensee or registrant shall conduct an in-person inventory to account for all sources of radiation once every six months. A record of each inventory shall be maintained for two years from the date of the inventory for inspection by the department and shall include the quantities and kinds of sources of radiation, the location where sources of radiation are assigned, the date of the inventory, and the name of the individual conducting the inventory. (Authorized by and implementing K.S.A. 48-1607; effective Sept. 20, 1993; amended May 4, 2018.)

28-35-362. Notification of incidents, abandonment, and lost sources. (a) Each licensee shall notify the department of any incidents and any sources lost in other than downhole logging operations in accordance with K.A.R. 28-35-184b, 28-35-228a, 28-35-229a and 28-35-230a.

(b) Whenever a sealed source or device containing radioactive material is lodged downhole, the licensee shall monitor at the surface for the presence of radioactive contamination with a radiation survey instrument or logging tool during logging tool recovery operations.

(c) If the licensee knows or has reason to believe that a sealed source has been ruptured, the licensee shall notify the department immediately by telephone and subsequently, within 30 days, by confirmatory written report. This written report shall identify the well or other location, describe the magnitude and extent of the escape of radioactive material, assess the consequences of the rupture, and explain efforts planned or being taken to mitigate these consequences.

(d) If it becomes apparent that efforts to recover the radioactive source will not be successful, the licensee shall meet the following requirements:

(1) The licensee shall advise the well operator of the following requirements regarding the method of abandonment:

(A) The well operator shall immobilize and seal the radioactive source in place with a cement plug.

(B) The well operator shall set in place a whipstock or other deflection device.

(C) The well operator shall mount a permanent identification plaque at the surface of the well, containing the appropriate information required by this regulation.

(2) The licensee shall notify the department by telephone, giving the circumstances of the loss, and request approval of the proposed abandonment procedures.

(3) The licensee shall file a written report with the department within 30 days of the abandonment, providing the following information:

(A) The date of occurrence and a brief description of attempts to recover the source;

(B) a description of the radioactive source involved, including the radionuclide, quantity, and chemical and physical form;

(C) a description of the surface location and identification of the well;

(D) the results of efforts to immobilize and set the source in place;

(E) the depth of the radioactive source;

(F) the depth of the top of the cement plug;

(G) the depth of the well; and

(H) the information contained on the permanent identification plaque.

(e) Whenever a sealed source containing radioactive material is abandoned downhole, the licensee shall provide a permanent plaque on the well or well-bore. The plaque shall meet the following requirements:

(1) Be constructed of long-lasting material, which may include stainless steel or Monel metal; and

(2) contain the following information engraved on its face:

(A) The word "CAUTION";

(B) the radiation symbol, without the conventional color requirement;

(C) the date of abandonment;

(D) the name of the well operator or well owner;

(E) the well name and the well identification number or numbers or other designation;

(F) a description of the sealed source or sources, by radionuclide and quantity of activity;

(G) the source depth and the depth to the top of the plug; and

(H) an appropriate warning that, depending on the specific circumstances of that abandonment, shall include one of the following:

(i) “Do not drill below plug back depth”;

(ii) “do not enlarge casing”; or

(iii) “do not reenter the hole before contacting the Kansas department of health and environment radiation control program”; and

(3) be at least seven inches square. The word “CAUTION” shall be written in ½-inch letters and all other information shall be written in ¼-inch letters.

(f) If the licensee knows or has reason to believe that radioactive material has been lost in or to an underground potable water source, the licensee shall immediately notify the department by telephone and subsequently, within 30 days, by confirmatory letter. The notice shall designate the well location and shall describe the magnitude and extent of loss of radioactive material, assess the consequences of the loss, and explain efforts planned or being taken to mitigate these consequences. (Authorized by and implementing K.S.A. 48-1607; effective Sept. 20, 1993; amended Nov. 1, 1996; amended May 4, 2018.)

28-35-411. Table of quantities of radioactive material; need for contingency plan.

Quantities of Radioactive Materials Requiring Consideration of the Need for a Contingency Plan for Responding to a Release

Radioactive Material ¹	Fraction	Release Quantity (GBq)	Quantity (Ci)
Actinium-228	0.001	148,000	4,000

Irradiated material, in any form other than solid noncombustible	0.01	370,000	10,000
Irradiated material that is solid and noncombustible	0.001	370,000	10,000
Mixed radioactive waste: beta-gamma emitters	0.01	37,000	1,000
Packaged mixed waste ² : beta-gamma emitters	0.001	370,000	10,000
Any other alpha emitter	0.001	74	2
Contaminated equipment: alpha emitters	0.0001	740	20
Packaged waste ² : alpha emitters	0.0001	740	20

¹ For combinations of radioactive materials, the licensee shall be required to consider whether a contingency plan is needed if the sum of the ratios of the quantity of each radioactive material authorized to the quantity listed in this table for that material exceeds one.

² Waste packaged in type B containers shall not require a contingency plan.

(Authorized by K.S.A. 48-1607; implementing K.S.A. 48-1602; effective Dec. 30, 2005; amended March 18, 2011.)

28-35-504. Advance notification of shipment of certain types of licensed or registered material. (a)(1) As specified in subsections (b), (c), and (d), each licensee shall provide advance notification to the governor or the governor's designee of each state of each shipment of licensed or registered material through or across the boundary of that governor's state. The licensee shall provide this advance notification before transporting, or delivering to a carrier for transport, any licensed or registered material outside the confines of the licensee's facility or other place of use or storage.

(2) As specified in subsections (b), (c), and (d), each licensee shall provide advance notification to the Indian tribal official or tribal official of participating tribes referenced in subsection (c), or the official's designee, of the shipment of licensed material within or across the boundary of the tribe's reservation before the transport or delivery to a carrier for transport of licensed material outside the confines of the licensee's plant or other place of use or storage.

(b)(1) The advance notification specified in subsection (a) shall be required for each shipment of irradiated reactor fuel containing 100 grams or less in net weight of irradiated fuel, exclusive of cladding and any other structural or packaging material, that has a total external radiation dose rate in excess of 100 rems per hour at a distance of three feet from any accessible surface without intervening shielding.

(2) The advance notification specified in subsection (a) shall also be required for each shipment of licensed or registered material, other than irradiated fuel, meeting all of the following conditions:

(A) The licensed or registered material is required to be shipped in a type B package for transportation as specified in this part.

(B) The licensed or registered material is being transported to or across a state boundary en route to a disposal facility or to a collection point for transport to a disposal facility.

(C) The quantity of licensed or registered material in a single package exceeds the smaller of the following:

(i) 3,000 times the A_1 value of the radionuclides as specified in 10 C.F.R. part 71, appendix A, which is adopted by reference in K.A.R. 28-35-221b, for special form radioactive material or 3,000 times the A_2 value of the radionuclides as specified in 10 C.F.R. part 71, appendix A, which is adopted by reference in K.A.R. 28-35-221b for normal form radioactive material; and

(ii) 1,000 TBq (27,000 Ci).

(c) The notification specified in subsection (b) shall meet the following requirements:

(1) The notification shall be submitted, in writing, to the office of each appropriate governor or governor's designee and each appropriate Indian tribal official and to the director of the division of nuclear security in the office of nuclear security and incident response.

(2) Each notification delivered by mail shall be postmarked at least seven days before the beginning of the seven-day period during which depar-

ture of the shipment is estimated by the licensee to occur.

(3) Each notification delivered by any means other than mail shall reach the office of each governor or governor's designee and each appropriate Indian tribal official at least four days before the beginning of the seven-day period during which departure of the shipment is estimated by the licensee to occur.

(4) Each licensee shall retain a copy of the notification as a record for three years.

(d) Each advance notification of any shipment of irradiated reactor fuel or nuclear waste shall contain the following information:

(1) The name, address, and telephone number of the shipper, carrier, and receiver of the irradiated reactor fuel or nuclear waste shipment;

(2) a description of the irradiated reactor fuel or nuclear waste contained in the shipment, as specified in the regulations of the United States department of transportation (USDOT) in 49 C.F.R. 172.202 and 172.203(d);

(3) a shipment schedule, which shall include the following information:

(A) The point of origin of the shipment and a specification of the seven-day period during which departure of the shipment is estimated by the licensee to occur;

(B) a specification of the seven-day period during which arrival of the shipment at the state boundaries is estimated by the licensee to occur; and

(C) the destination of the shipment and a specification of the seven-day period during which arrival of the shipment at the destination is estimated by the licensee to occur; and

(4) the name of a contact person, including a telephone number, for current shipment information.

(e) If any licensee finds out that the shipment schedule previously furnished to any governor, governor's designee, or Indian tribal official in accordance with this regulation will not be met, that licensee shall perform the following:

(1) Telephone a responsible individual in the office of the governor or governor's designee or the Indian tribal official as soon as practical after the licensee has found out that the shipment schedule will not be met and inform that individual of the revised schedule; and

(2) maintain a record of the name of the responsible individual contacted and the date of this contact for three years.

(f) Each licensee who cancels an irradiated reactor fuel or nuclear waste shipment for which

advance notification has been sent shall send a cancellation notice to the governor of each state or the governor's designee or to the Indian tribal official who was previously notified and to the director of the division of nuclear security in the office of nuclear security and incident response. The licensee shall state in the notice that the notice is a cancellation and shall identify the advance notification that is being canceled. The licensee shall retain a copy of the notice as a record for three years. (Authorized by and implementing K.S.A. 48-1607; effective Dec. 30, 2005; amended May 4, 2018.)

28-35-600. Definitions. In addition to the terms defined in K.S.A. 48-16a02 and amendments thereto, each of the following terms shall have the meaning assigned in this regulation: (a) "All reasonable times" means normal business hours and other times that radon services are being performed, or at a time convenient for the property owner.

(b) "Mitigation" means any action taken to reduce radon concentrations in the indoor atmosphere or to prevent the entry of radon into the indoor atmosphere. This term shall include application of materials, installation of systems, and any new repair or alteration of a building or design.

(c) "Mitigation system" means any set of devices, controls, or materials installed for reducing radon concentrations in a building.

(d) "Quality assurance and quality control plan" means a plan or design that ensures the authenticity, integrity, reproducibility, and accuracy of radon concentration measurements. Each quality assurance and quality control plan shall include at a minimum procedures for the following:

(1) Chain of custody;

(2) calibration of measurement devices in the field;

(3) checks for background;

(4) duplicates, blanks, and spikes; and

(5) representative sampling.

(e) "Radon certification law" means K.S.A. 48-16a01 through 48-16a12, and amendments thereto.

(f) "Radon measurement technician" means an individual certified by the department who performs radon or radon progeny measurements for a radon measurement business or provides professional advice on radon or radon progeny measurements, health risks, radon-related exposure, radon entry routes, or other radon-related activities.

(g) “Radon mitigation technician” means an individual certified by the department who designs or installs radon mitigation systems or who performs and evaluates results of tests to determine appropriate radon mitigation systems. This individual may be employed or contracted by a radon mitigation business.

(h) “Radon progeny” means the short-lived radionuclides formed from the decay of radon-222 or radon-220.

(i) “Radon services” means any activity provided by a person that is subject to the radon certification law. This term shall include radon testing, the analysis of radon, radon testing or mitigation consultation, and radon mitigation.

(j) “Site” means a geographic location comprising leased or owned land, buildings, and other structures where radon services are performed. (Authorized by K.S.A. 2010 Supp. 48-16a03; implementing K.S.A. 2010 Supp. 48-16a03, 48-16a05, 48-16a06, and 48-16a08; effective Feb. 3, 2012.)

28-35-601. General provisions. Except as otherwise specifically provided by the radon certification law, K.A.R. 28-35-601 through 28-35-608 shall apply to any person that provides radon services.

(a) Any initial or renewal application to conduct radon services may be denied by the department for any of the following reasons:

- (1) Any false statement in the application;
- (2) revocation of a prior radon services certification in Kansas or another state; or
- (3) violation of any of the requirements of K.A.R. 28-35-601 through 28-35-608 or the radon certification law.

(b) Any certification to conduct radon services may be suspended or revoked or may have requirements or restrictions added by the secretary for any of the following reasons:

- (1) Any condition revealed by an application, any statement of fact, or any report, record, or inspection that could result in the denial of any application; or
- (2) violation of or failure to observe any of the terms and conditions of the certification, any requirement of the radon certification law and K.A.R. 28-35-601 through 28-35-608, or any order of the secretary.

(c) Initial certification and renewal certification shall be valid for 24 months.

(d) Requirements or restrictions that are necessary to ensure compliance with the radon certification law may be specified by the secretary at the time of initial certification or renewal certification or in connection with any radon services inspection.

(e) Failure to comply with all requirements for certification within 60 days of submittal of an application for initial or renewal certification shall void the application.

(f) An exemption to any requirement of K.A.R. 28-35-601 through 28-35-608 may be granted by the secretary if both of the following conditions are met:

(1) A person certified to conduct radon services submits a written request, including justification for the exemption and any supporting data or documentation, to the secretary for review and consideration for approval.

(2) The secretary determines that the exemption is protective of public health, safety, and the environment.

(g) Each person certified under the radon certification law and these regulations shall submit the reports required by K.S.A. 48-16a10, and amendments thereto, and any additional relevant information requested by the department in a format specified by the department.

(h) All records required to be kept by each person certified under the radon certification law and these regulations shall be retained for at least three years.

(i) Each radon measurement technician, radon mitigation technician, radon measurement business, radon mitigation business, and radon measurement laboratory shall allow the department access at all reasonable times to that person’s or that person’s employer’s facilities and files for inspection and examination of records of radon services to determine compliance with the radon certification law and K.A.R. 28-35-601 through 28-35-608.

(j) Upon request by the department, each person certified under K.A.R. 28-35-601 through 28-35-608 or the radon certification law shall submit a list of scheduled measurement or mitigation activities to the department within two business days of receipt of the request. (Authorized by K.S.A. 2010 Supp. 48-16a03 and 48-16a04; implementing K.S.A. 2010 Supp 48-16a03 and 48-16a10; effective Feb. 3, 2012.)

28-35-602. Fees. (a) Application fees for 24-month certification:

- (1) Radon measurement technician:
 - (A) Initial certification \$100.00
 - (B) Renewal certification..... \$100.00

- (2) Radon mitigation technician:
 - (A) Initial certification \$100.00
 - (B) Renewal certification..... \$100.00
- (3) Radon measurement laboratory:
 - (A) Initial certification \$250.00
 - (B) Renewal certification..... \$250.00
 - (b) Fee for returned check..... \$50.00
 - (c) Fee for late certification renewal,
for each month or part of a month \$25.00

Each fee specified in this regulation shall be nonrefundable. (Authorized by and implementing K.S.A. 2010 Supp. 48-16a03 and 48-16a04; effective Feb. 3, 2012.)

28-35-603. Requirements for radon measurement technician. (a) Each applicant for initial certification as a radon measurement technician shall meet the requirements of K.S.A. 48-16a05, and amendments thereto, and the following additional requirements:

- (1) Be at least 18 years of age;
 - (2) complete and show proof of completion to the department of a radon measurement training course with at least 16 hours of classroom instruction approved by the department pursuant to K.S.A. 48-16a05, and amendments thereto;
 - (3) pass a closed-book examination on radon measurement approved by the department pursuant to K.S.A. 48-16a05, and amendments thereto, with a score of at least 70 percent; and
 - (4) provide any additional relevant information requested by the department.
- (b) Each radon measurement technician shall meet the following requirements:
- (1) Conduct radon measurement activities in accordance with the requirements of the following:
 - (A) K.S.A. 48-16a05, and amendments thereto;
 - (B) “protocols for radon and radon decay product measurements in homes,” EPA 402-R-92-003, including appendices, published by the environmental protection agency and dated June 1993, which is hereby adopted by reference;
 - (C) “indoor radon and radon decay product measurement device protocols,” EPA 402-R-92-004, published by the environmental protection agency and dated July 1992, which is hereby adopted by reference; and
 - (D) all applicable municipal, county, state, and federal laws and regulations;
 - (2) upon request from the department, provide documentation of proficiency including continuing education requirements specified in K.A.R. 28-35-605;

(3) notify the department of any name or address changes within 30 days; and

(4) maintain and adhere to a quality assurance and quality control plan. (Authorized by K.S.A. 2010 Supp. 48-16a03; implementing K.S.A. 2010 Supp. 48-16a03 and 48-16a05; effective Feb. 3, 2012.)

28-35-604. Requirements for radon mitigation technician. (a) Each applicant for initial certification as a radon mitigation technician shall meet the requirements of K.S.A. 48-16a06, and amendments thereto, and the following additional requirements:

- (1) Be at least 18 years of age;
 - (2) complete and submit proof of completion to the department of a radon mitigation training course with at least 24 hours of classroom instruction that includes active participation in radon mitigation techniques approved by the department pursuant to K.S.A. 48-16a06, and amendments thereto;
 - (3) pass a closed-book examination on radon mitigation approved by the department pursuant to K.S.A. 48-16a06, and amendments thereto, with a score of at least 70 percent; and
 - (4) provide any additional relevant information requested by the department.
- (b) Each radon mitigation technician shall meet the following requirements:
- (1) Conduct radon mitigation activities in accordance with the requirements of the following:
 - (A) K.S.A. 48-16a06, and amendments thereto;
 - (B) “protocols for radon and radon decay product measurements in homes,” which is adopted by reference in K.A.R. 28-35-603;
 - (C) “indoor radon and radon decay product measurement device protocols,” which is adopted by reference in K.A.R. 28-35-603;
 - (D) “radon mitigation standards,” EPA 402-R-93-078, including the appendix, published by the environmental protection agency, dated October 1993, and revised April 1994, which is adopted by reference; and
 - (E) municipal, county, state, and federal laws and regulations;
 - (2) upon request from the department, provide documentation of proficiency including continuing education requirements specified in K.A.R. 28-35-605; and
 - (3) notify the department of any name or address changes within 30 days. (Authorized by K.S.A. 2010 Supp. 48-16a03; implementing K.S.A.

2010 Supp. 48-16a03 and 48-16a06; effective Feb. 3, 2012.)

28-35-605. Continuing education. (a) Before certification renewal, each radon measurement technician shall meet the following continuing education requirements:

(1) Complete and submit proof of completion to the department of at least 16 hours of department-approved continuing education; and

(2) maintain documentation, pursuant to K.A.R. 28-35-601(h), that the continuing education was successfully completed within the prior 24-month certification period.

(b) Before certification renewal, each radon mitigation technician shall meet the following continuing education requirements:

(1) Complete and submit proof of completion to the department of at least 24 hours of department-approved continuing education;

(2) maintain documentation, pursuant to K.A.R. 28-35-601(h), that the continuing education was successfully completed within the prior 24-month certification period.

(c) If a person is certified as both a radon measurement technician and a radon mitigation technician, continuing education credit shall be granted for both certifications if the person completes at least 24 hours of department-approved continuing education credits for radon services during the 24-month period that the certificates are valid.

(d) Continuing education credit shall be accepted only for the completion of each different continuing education training course during a current certification period. Training courses for continuing education credit that are repeated shall be accepted only for the initial successful completion of the course during a current certification period. (Authorized by K.S.A. 2010 Supp. 48-16a03; implementing K.S.A. 2010 Supp. 48-16a03, 48-16a05, and 48-16a06; effective Feb. 3, 2012.)

28-35-606. Radon measurement business. (a) Each radon measurement business shall maintain for inspection a list of the name and credentials of each radon measurement technician employed or retained as a consultant by the radon measurement business.

(b) A radon measurement technician shall be present on-site to directly supervise all measurement activities performed by each radon measurement business.

(c) A radon measurement technician shall perform all testing and consultation about radon or radon progeny measurements, health risks, radon-related exposure, radon entry routes, and other radon-related activities for each radon measurement business. (Authorized by K.S.A. 2010 Supp. 48-16a03; implementing K.S.A. 2010 Supp. 48-16a03 and 48-16a07; effective Feb. 3, 2012.)

28-35-607. Radon mitigation business.

(a) Each radon mitigation business shall maintain for inspection a list of the name and credentials of each radon mitigation technician employed or retained as a consultant by the radon mitigation business.

(b) All radon mitigation activities and consultations about radon or radon progeny measurements, health risks, radon-related exposure, radon entry routes, or other radon-related activities for a radon mitigation business shall be directly supervised or performed on-site by a radon mitigation technician.

(c) Each person subject to K.A.R. 28-35-601 through 28-35-608, when performing radon mitigation, shall comply with the protocols in the document adopted by reference in K.A.R. 28-35-604(b)(1)(D) regarding the design and construction of mitigation systems. (Authorized by K.S.A. 2010 Supp. 48-16a03; implementing K.S.A. 2010 Supp. 48-16a03 and 48-16a08; effective Feb. 3, 2012.)

28-35-608. Renewal of certification. (a) Each certification renewal application for a radon measurement technician, radon mitigation technician, or radon measurement laboratory shall be submitted at least 60 days before expiration of the certificate.

(b) Each applicant for renewal of certification shall meet the following requirements:

(1) Submit a completed application to the department on a form provided by the department;

(2) provide any additional relevant information requested by the department documenting that all applicable continuing education requirements for certification renewal have been completed; and

(3) submit payment to the department for the applicable fee specified in K.A.R. 28-35-602.

(c) An applicant's failure to renew a certification within six months after certification has expired shall require that applicant's compliance with all requirements for initial certification.

(d) Each renewal application submitted after certification has expired shall require the payment of a late fee specified in K.A.R. 28-35-602. (Authorized by and implementing K.S.A. 2010 Supp. 48-16a03; effective Feb. 3, 2012.)

28-35-700. General requirements. The provisions of 10 C.F.R. part 37, 78 fed. reg. 17007-17020 (2013), as in effect on May 20, 2013, are hereby adopted by reference, with the changes specified in this regulation.

(a) The following sections or portions of sections in 10 C.F.R. part 37 shall be deleted:

- (1) 37.1;
- (2) 37.3;
- (3) 37.7;
- (4) 37.9;
- (5) 37.11(a) and (b);
- (6) 37.13;
- (7) 37.43(d)(9);
- (8) in 37.81(g), the third sentence;
- (9) 37.105;
- (10) 37.107; and
- (11) 37.109.

(b) In 10 C.F.R. 37.5, the following terms and the definition of each of these terms shall be deleted:

- (1) "Act";
- (2) "agreement state";
- (3) "becquerel";
- (4) "byproduct material";
- (5) "commission";
- (6) "curie";
- (7) "government agency";
- (8) "license";
- (9) "lost or missing licensed material";
- (10) "person";
- (11) "state"; and
- (12) "United States."

(c) Wherever the following words and phrases occur within the portions of 10 C.F.R. part 37 adopted in this regulation, these words and phrases shall be replaced with "department":

- (1) "Appropriate NRC regional office listed in §30.6(a)(2) of this chapter";
- (2) "Commission," except secs. 37.5, 37.27(a) and (c), 37.29(a) and 37.71;
- (3) "NRC," except secs. 37.25(b)(2), 37.27(c), 37.29(a), and 37.71;
- (4) "NRC regional office specified in §30.6 of this chapter";
- (5) "NRC's Operations Center"; and
- (6) "NRC's Operations Center (301-816-5100)."

(d) The following changes shall be made whenever the following text occurs within the portions of 10 C.F.R. part 37 adopted in this regulation:

(1) "Part 73 of this chapter" shall be replaced with "10 C.F.R. Part 73."

(2) "71.97(b) of this chapter" and "71.97 of this chapter" shall be replaced with "K.A.R. 28-35-504(b)."

(3) "Governor's designee" shall be replaced with "division of emergency management of the office of the adjutant general." (Authorized by and implementing K.S.A. 48-1607; effective May 4, 2018.)

Article 36.—FOOD SERVICE ESTABLISHMENTS, FOOD VENDING MACHINE COMPANIES AND LODGING ESTABLISHMENTS

28-36-30. (Authorized by and implementing K.S.A. 2002 Supp. 36-503; effective, E-79-16, July 1, 1978; effective May 1, 1979; amended, E-82-21, Nov. 16, 1981; amended May 1, 1982; amended Dec. 30, 1991; amended Sept. 27, 1993; amended Nov. 20, 1998; amended, T-28-7-2-01, July 2, 2001; amended Nov. 9, 2001; amended Oct. 24, 2003; revoked June 4, 2010.)

28-36-31. (Authorized by K.S.A. 1978 Supp. 36-502; effective, E-79-16, July 1, 1978; effective May 1, 1979; revoked June 4, 2010.)

28-36-70. (Authorized by K.S.A. 36-506; implementing K.S.A. 36-501 and 36-506; effective, T-28-10-8-07, Oct. 8, 2007; effective Feb. 5, 2008; revoked June 4, 2010.)

28-36-71. (Authorized by and implementing K.S.A. 36-502 and 36-506; effective, T-28-10-8-07, Oct. 8, 2007; effective Feb. 5, 2008; revoked June 4, 2010.)

28-36-72 through 28-36-89. (Authorized by and implementing K.S.A. 36-506; effective, T-28-10-8-07, Oct. 8, 2007; effective Feb. 5, 2008; revoked June 4, 2010.)

28-36-101 through 28-36-107. (Authorized by and implementing K.S.A. 36-507; effective Aug. 13, 1999; amended Nov. 30, 2007; revoked June 4, 2010.)

28-36-108. (Authorized by K.S.A. 36-507; implementing K.S.A. 2006 Supp. 36-503 and K.S.A. 36-507; effective Aug. 13, 1999; amended Nov. 30, 2007; revoked June 4, 2010.)

28-36-109. (Authorized by and implementing K.S.A. 36-507; effective Nov. 30, 2007; revoked June 4, 2010.)

Article 38.—LICENSURE OF ADULT CARE HOME ADMINISTRATORS

28-38-18. Licensing examinations. (a) Each candidate for licensure as an adult care home administrator shall be required to pass a national examination and a state law examination for adult care home administration approved by the board. Each candidate shall take the national test within 12 months of completing an administrator-in-training practicum unless for good cause the board grants an extension.

(b) Each candidate for licensure shall pay the required examination fee for the national examination directly to the testing agency. An examination fee shall be required each time a candidate takes the national examination.

(c) The minimum passing scaled score for the national examination shall be 113. The minimum passing raw score for the state law examination shall be 75 percent.

(d) Each candidate for licensure who has been disqualified for failing the national examination shall be given written notification by the board of the disqualification and the reason or reasons for failing, including a breakdown of the subject areas passed and failed.

(e) A candidate who has failed three national examinations shall not submit a new application for examination until the candidate has received board approval for a course of additional education or training, or both, signed by the candidate, the preceptor, and the candidate's practicum coordinator and has completed the approved course of additional education or training, or both. The course of additional education or training, or both, shall include an additional 40 hours of administrator-in-training instruction in each of the "domains of practice," as defined in K.A.R. 28-38-29, for which the candidate received a raw score below 75 percent on the national examination.

(f) Each candidate who completes the required 40 hours of additional administrator-in-training education or training, or both, in each of the domains of practice for which the candidate received a raw score below 75 percent on the national examination shall be eligible to submit a new application for the national examination. If the candidate fails the fourth attempt, the candidate

shall remain eligible to submit an application for a fifth attempt to pass the national examination.

(g) A candidate who has failed five national examinations shall not submit a new application for examination until the candidate has completed a second 480-hour administrator-in-training practicum that is conducted by an accredited college or university or an equivalent educational training practicum, as specified in K.A.R. 28-38-19(a)(2).

(h) Each candidate who has completed a second 480-hour administrator-in-training practicum shall be given three additional attempts to pass the national examination. A candidate who has failed three national examinations after completing a second 480-hour administrator-in-training practicum shall not be allowed to submit an additional application for examination.

(i) Each candidate shall be given a period of 36 months from the date the candidate completed an initial administrator-in-training practicum or a second practicum under subsection (g) to take and pass the national test.

(j) Any candidate who fails the state examination may retake the state law examination until the candidate passes this examination.

(k) The national association of long term care administrator boards (NAB) examination shall be the approved national examination for licensure. (Authorized by K.S.A. 2010 Supp. 65-3503; implementing K.S.A. 2010 Supp. 65-3503 and 65-3504; effective May 1, 1981; amended July 1, 1981; amended, E-82-12, June 17, 1981; amended May 1, 1982; amended Sept. 24, 1990; amended May 10, 1993; amended July 14, 2000; amended Jan. 17, 2003; amended Oct. 3, 2003; amended Dec. 5, 2008; amended Oct. 14, 2011.)

Article 39.—LICENSURE OF ADULT CARE HOMES

28-39-145a. (Authorized by K.S.A. 39-930, 39-932, and 39-933; implementing K.S.A. 39-927, 39-930, 39-932, and 39-933; effective Oct. 8, 1999; revoked May 22, 2009.)

28-39-146. (Authorized by and implementing K.S.A. 39-954; effective Nov. 1, 1993; amended Feb. 21, 1997; revoked May 22, 2009.)

28-39-147 and 28-39-148. (Authorized by and implementing K.S.A. 39-932; effective Nov. 1, 1993; amended Feb. 21, 1997; revoked May 22, 2009.)

28-39-162. (Authorized by and implementing K.S.A. 39-932; effective Nov. 1, 1993; amended Feb. 21, 1997; revoked Jan. 7, 2011.)

28-39-162a. (Authorized by and implementing K.S.A. 39-932; effective Nov. 1, 1993; amended Feb. 21, 1997; amended Oct. 8, 1999; revoked Jan. 7, 2011.)

28-39-162b. (Authorized by and implementing K.S.A. 39-932; effective Nov. 1, 1993; amended Feb. 21, 1997; revoked Jan. 7, 2011.)

28-39-162c. (Authorized by and implementing K.S.A. 39-932; effective Nov. 1, 1993; amended Feb. 21, 1997; amended Oct. 8, 1999; revoked Jan. 7, 2011.)

28-39-164. Definitions. (a) “Adult care home” means any facility that meets the definition specified in K.A.R. 28-39-144.

(b) “Clinical instruction” means training in which the trainee demonstrates knowledge and skills while performing tasks on an individual under the direct supervision of the course instructor. Clinical instruction may be performed in any of the following settings:

- (1) An adult care home;
- (2) a long-term care unit of a hospital; or
- (3) a simulated laboratory.

(c) “Department” means Kansas department of health and environment.

(d) “Direct care” means assistance provided in activities of daily living. These activities shall include grooming, eating, toileting, transferring, and ambulation.

(e) “Direct supervision” means that the supervisor is on the facility premises and is readily accessible for one-on-one consultation, instruction, and assistance, as needed.

(f) “Eligible for employment,” when describing a certified nurse aide, means that the certified nurse aide meets the following criteria:

(1) Has been employed to perform nursing or nursing-related services for at least eight hours in the preceding 24 months;

(2) has no record of abuse, neglect, and exploitation; and

(3) is not prohibited from employment based upon criminal convictions pursuant to K.S.A. 39-970, and amendments thereto.

(g) “Instructor” means an individual who has been approved by the secretary to teach nurse aide, home health aide, or medication aide training courses.

(h) “Licensed nursing experience” means experience as a registered nurse or licensed practical nurse.

(i) “Nurse aide trainee I” means an individual in the process of completing part I of a 90-hour nurse aide course as specified in K.A.R. 28-39-165.

(j) “Nurse aide trainee II” means an individual who has successfully completed part I of a 90-hour nurse aide course specified in K.A.R. 28-39-165 or whose training has been endorsed as specified in K.A.R. 28-39-167.

(k) “Secretary” means secretary of the Kansas department of health and environment.

(l) “Simulated laboratory” means an enclosed area that is in a school, institution, adult care home, or other facility and that is similar to an adult care home residential room. In a simulated laboratory, trainees practice and demonstrate basic nurse aide skills while an instructor observes and evaluates the trainees. (Authorized by K.S.A. 2008 Supp. 39-925(d)(2); implementing K.S.A. 2008 Supp. 39-936; effective Feb. 28, 1994; amended Dec. 29, 2003; amended June 12, 2009.)

28-39-165. Nurse aide training program.

(a) Requirements. Unlicensed employees who provide direct individual care to residents shall be required to perform the following:

(1) Successfully complete at least a 90-hour nurse aide course that has been approved by the secretary; and

(2) pass a state test as specified in K.A.R. 28-39-168.

(b) Certification. Each person shall be issued a nurse aide certificate by the secretary and shall be listed on a public registry upon completion of the requirements specified in subsection (a).

(c) Employment as a trainee.

(1) Each nurse aide trainee I in an approved 90-hour course shall be required to successfully complete part I of the course to demonstrate initial competency before being employed or used as a nurse aide trainee II. A nurse aide trainee II may provide direct care to residents only under the direct supervision of a registered nurse or licensed practical nurse.

(2) Each nurse aide trainee II in an approved 90-hour course shall be issued a nurse aide certificate by the secretary, upon completion of the requirements specified in subsection (a), within four months from the beginning date of the initial course in order to continue employment providing

direct care. Nurse aide trainee II status for employment shall be for one four-month period only.

(d) 90-hour nurse aide course.

(1) Each nurse aide course shall be prepared and administered in accordance with the guidelines established by the department in the "Kansas certified nurse aide curriculum guidelines (90 hours)," including the appendices, dated May 2008, and the "Kansas 90-hour certified nurse aide sponsor and instructor manual," pages 1 through 20 and the appendices, dated May 2008, which are hereby adopted by reference.

(2) Each nurse aide course shall consist of a combination of didactic and clinical instruction. At least 50 percent of part I and part II of the course curriculum shall be provided as clinical instruction.

(3) Each nurse aide course shall be sponsored by one of the following:

(A) An adult care home;

(B) a long-term care unit of a hospital; or

(C) a postsecondary school under the jurisdiction of the state board of regents.

(4) Clinical instruction shall be conducted in one or a combination of the following locations:

(A) An adult care home;

(B) a long-term care unit of a hospital; or

(C) a simulated laboratory.

(5) An adult care home shall not sponsor or provide clinical instruction for a 90-hour nurse aide course if that adult care home has been subject to any of the sanctions under the medicare certification regulations listed in 42 C.F.R. 483.151(b)(2), as in effect on October 1, 2007.

(e) Correspondence courses. No correspondence course shall be approved as a nurse aide course.

(f) Other offerings. Distance-learning offerings and computer-based educational offerings shall meet the standards specified in subsection (d). (Authorized by K.S.A. 2008 Supp. 39-925(d)(2); implementing K.S.A. 2008 Supp. 39-936; effective Feb. 28, 1994; amended Dec. 29, 2003; amended June 12, 2009.)

28-39-166. Nurse aide course instructor.

(a) Approval and qualifications.

(1) Each person who intends to be a course instructor shall submit a completed instructor approval application form to the department at least three weeks before offering an initial course and shall receive approval as an instructor before the first day of an initial course.

(2) Each course instructor shall be a registered nurse with a minimum of two years of licensed nursing experience, with at least 1,750 hours of experience in either or a combination of an adult care home or long-term care unit of a hospital. Each course instructor shall have completed a course in teaching adults, shall have completed a professional continuing education offering on supervision or adult education, or shall have experience in teaching adults or supervising nurse aides.

(b) Course instructor and course sponsor responsibilities.

(1) Each course instructor and course sponsor shall be responsible for ensuring that the following requirements are met:

(A) A completed course approval application form shall be submitted to the department at least three weeks before offering a course. Approval shall be obtained from the secretary at the beginning of each course whether the course is being offered initially or after a previous approval. Each change in course location, schedule, or instructor shall require approval by the secretary.

(B) All course objectives shall be accomplished.

(C) Only persons in health professions having the appropriate skills and knowledge shall be selected to conduct any part of the training. Each person shall have at least one year of experience in the subject area in which that person is providing training.

(D) Each person providing a part of the training shall do so only under the direct supervision of the course instructor.

(E) The provision of direct care to residents by a nurse aide trainee II during clinical instruction shall be limited to clinical experiences that are for the purpose of learning nursing skills under the direct supervision of the course instructor.

(F) When providing clinical instruction, the course instructor shall perform no other duties but the direct supervision of the nurse aide trainees.

(G) Each nurse aide trainee in the 90-hour nurse aide course shall demonstrate competency in all skills identified on the part I task checklist before the checklist is signed and dated by the course instructor as evidence of successful completion of part I of the course.

(H) The course shall be prepared and administered in accordance with the guidelines in the "Kansas certified nurse aide curriculum guidelines (90 hours)" and the "Kansas 90-hour certified nurse aide sponsor and instructor manual," as adopted in K.A.R. 28-39-165.

(2) Any course instructor or course sponsor who does not meet the requirements of this regulation may be subject to withdrawal of approval to serve as a course instructor or a course sponsor. (Authorized by K.S.A. 2008 Supp. 39-925(d)(2); implementing K.S.A. 2008 Supp. 39-936; effective Feb. 28, 1994; amended Dec. 29, 2003; amended June 12, 2009.)

28-39-167. Out-of-state and allied health training endorsement for nurse aide. (a) Each person whom the secretary has determined to have successfully completed training or passed a test, or both, that is equivalent to the training or test required by this state may be employed without taking this state's test.

(b) Each person whom the secretary has determined not to be exempt from examination pursuant to subsection (a) but who meets any one of the following requirements shall be deemed to have met the requirements specified in K.A.R. 28-39-165 if that person passes a state test as specified in K.A.R. 28-39-168:

(1) Each person who has received nurse aide training in another state, is listed on another state's registry as a nurse aide, and is eligible for employment as a nurse aide shall be deemed eligible to take the state test as specified in K.A.R. 28-39-168. Each person whose training in another state is endorsed and who has passed the state test shall be issued a nurse aide certificate.

(2) Each person who meets any of the following criteria shall be deemed eligible to take the state test as specified in K.A.R. 28-39-168:

(A) Has completed training deemed equivalent to the requirements specified in K.A.R. 28-39-165;

(B) is currently licensed in Kansas or another state to practice as a registered nurse, licensed practical nurse, or licensed mental health technician, with a license that has not been suspended or revoked; or

(C) has a license to practice as a registered nurse, licensed practical nurse, or licensed mental health technician that has expired within the 24-month period before applying for equivalency, but has not been suspended or revoked.

(3) Each person who has received training from an accredited nursing or mental health technician training program within the 24-month period before applying for equivalency and whose training included a basic skills component comprised of personal hygiene, nutrition and feeding, safe transfer and ambulation techniques, normal

range of motion and positioning, and a supervised clinical experience in geriatrics shall be deemed eligible to take the state test as specified in K.A.R. 28-39-168.

(c) Each person qualified under subsection (a) shall receive written notification from the department of exemption from the requirement to take this state's test and the fact that the person is eligible for employment.

(d) Each person qualified under subsection (b) shall receive written approval from the department or its designated agent to take the state test. Upon receiving written approval from the department or its designated agent to take the state test, that person may be employed by an adult care home as a nurse aide trainee II to provide direct care under the direct supervision of a registered nurse or licensed practical nurse. Each person employed as a nurse aide trainee II shall be issued a nurse aide certificate by the secretary, upon completion of the requirements specified in K.A.R. 28-39-165, within one four-month period starting from the date of approval, in order to continue employment providing direct care. (Authorized by K.S.A. 2008 Supp. 39-925(d)(2); implementing K.S.A. 2008 Supp. 39-936; effective Feb. 28, 1994; amended Dec. 29, 2003; amended June 12, 2009.)

28-39-168. State nurse aide test. (a) Composition of state nurse aide test. The state test shall be comprised of 100 multiple-choice questions. A score of 75 percent or higher shall constitute a passing score.

(b) State nurse aide test eligibility.

(1) Only persons who have successfully completed an approved 90-hour nurse aide course or completed education or training that has been endorsed or deemed equivalent as specified in K.A.R. 28-39-167 shall be allowed to take the state test.

(2) Each person shall have a maximum of three attempts within 12 months from the beginning date of the course to pass the state test after completing an approved 90-hour course as specified in K.A.R. 28-39-165.

(3) If the person does not pass the state test within 12 months after the starting date of taking an approved 90-hour course, the person shall re-take the entire course.

(4) If a person whose education or training has been endorsed or deemed equivalent as specified in K.A.R. 28-39-167 and the person does not pass

the state test on the first attempt, the person shall successfully complete an approved 90-hour nurse aide course as specified in K.A.R. 28-39-165 to retake the state test. Each person whose training was endorsed or deemed equivalent, who failed the state test, and who has successfully completed an approved nurse aide course shall be eligible to take the test three times within a year after the beginning date of the course.

(c) Application fee.

(1) Each nurse aide trainee shall pay a nonrefundable application fee of \$20.00 before taking the state test. A nonrefundable application fee shall be required each time the test is scheduled to be taken. Each person who is scheduled to take the state test, but fails to take the state test, shall submit another fee before being scheduled for another opportunity to take the test.

(2) Each course instructor shall collect the application fee for each nurse aide candidate eligible to take the state test and shall submit the fees, class roster, application forms, and accommodation request forms to the department or its designated agent.

(d) Each person who is eligible to take the state test and who has submitted the application fee and application form shall be issued written approval, which shall be proof of eligibility to sit for the test.

(e) Test accommodation.

(1) Any reasonable test accommodation or auxiliary aid to address a disability may be requested by any person who is eligible to take the state test. Each request for reasonable accommodation or auxiliary aid shall be submitted each time a candidate is scheduled to take the test.

(2) Each person requesting a test accommodation shall submit an accommodation request form along with an application form to the instructor. The instructor shall forward these forms to the department or its designated agent at least three weeks before the desired test date. Each instructor shall verify the need for the accommodation by signing the accommodation request form.

(3) Each person whose second language is English shall be allowed to use a bilingual dictionary while taking the state test. Limited English proficiency shall not constitute a disability with regard to accommodations. An extended testing period of up to two additional hours may be offered to persons with limited English proficiency.

(f) This regulation shall not apply to any person who meets the requirement of K.A.R. 28-

39-167(a). (Authorized by K.S.A. 2008 Supp. 39-925(d)(2) and 39-936; implementing K.S.A. 2008 Supp. 39-936; effective Feb. 28, 1994; amended Dec. 29, 2003; amended June 12, 2009.)

28-39-169a. Medication aide. (a) Each medication aide candidate shall be either a nurse aide who has been issued a certificate by the secretary or a qualified mental retardation professional as defined in 42 C.F.R. 483.430(a), revised October 1, 2010 and hereby adopted by reference, and shall meet the following requirements:

(1) Has completed a course in medication administration approved by the secretary; and

(2) has passed a state test as approved by the secretary.

(b) Each person who has met one of the following requirements shall be eligible to enroll in a medication aide course:

(1) Is a nurse aide who has a Kansas nurse aide certificate and who has been screened and tested for reading comprehension at an eighth-grade level; or

(2) is a qualified mental retardation professional employed by an intermediate care facility for the mentally retarded.

(c) A qualified mental retardation professional who is not a nurse aide, who has completed a course in medication administration as approved by the secretary, and who has passed the state test shall be allowed to administer medications only to residents in an intermediate care facility for the mentally retarded.

(d) (1) Each medication aide course shall meet the following requirements:

(A) Consist of a minimum of 75 total hours, which shall include a minimum of 25 hours of clinical instruction;

(B) be prepared and administered in accordance with the guidelines prescribed by the secretary and follow the content outlined in the "Kansas certified medication aide curriculum" and appendices, dated February 2011, and the "Kansas certified medication aide sponsor and instructor manual," pages 2 through 21, dated February 2011, which are hereby adopted by reference; and

(C) be sponsored by one of the following:

(i) A postsecondary school under the jurisdiction of the state board of regents;

(ii) a state-operated institution for the mentally retarded; or

(iii) a professional health care association approved by the secretary.

(2) No correspondence course shall be approved as a medication aide course.

(3) Distance-learning and computer-based educational offerings shall be required to meet the requirements specified in this subsection.

(e) Each medication aide course instructor shall meet the following requirements:

(1) Each person who intends to be a course instructor shall submit an instructor approval application form to the secretary at least three weeks before offering an initial course and shall be required to receive approval as an instructor before the first day of an initial course.

(2) Each instructor shall be a registered nurse with a current Kansas license and two years of clinical experience as a registered nurse. Any Kansas-licensed pharmacist actively working in the pharmacy field may conduct part of the training under the supervision of an approved instructor.

(f) Each course sponsor and course instructor shall be responsible for ensuring that the following requirements are met:

(1) Only persons who meet the qualifications specified in subsection (b) shall be eligible to take the course.

(2) Each trainee shall be screened and tested for comprehension of the written English language at an eighth-grade reading level before enrolling in the course.

(3) The course shall be prepared and administered in accordance with the guidelines and follow the content in the “Kansas certified medication aide curriculum” and the “Kansas certified medication aide sponsor and instructor manual,” as adopted in subsection (d).

(4) The clinical instruction and skills performance involving the administering of medications shall be under the direct supervision of the course instructor.

(5) During the clinical instruction and skills performance, the course instructor shall perform no other duties than the provision of direct supervision to the trainees.

(g) Any course instructor or course sponsor who does not fulfill the requirements of this regulation may be subject to withdrawal of approval to serve as a course instructor or a course sponsor.

(h) Any person whose education or training has been deemed equivalent to the medication aide course by an approved sponsor as specified in paragraph (d)(1)(C) may apply to take the state test to become certified as a medication aide. Be-

fore requesting a determination of equivalency for a person's education or training, that person shall be a Kansas-certified nurse aide and shall meet one of the following conditions:

(1) The person is currently credentialed to administer medications in another state. The secretary or the designated agent shall evaluate that state's credentialed training for equivalency in content and skills level to the requirements for certification as a medication aide in Kansas.

(2) The person is currently enrolled in an accredited practical nursing or professional nursing program and has completed a course of study in pharmacology with a grade of C or better.

(3) The person is currently licensed in Kansas or another state, or has been licensed within 24 months from the date of application, as a licensed mental health technician, and there are no pending or current disciplinary actions against the individual's license.

(4) The person has been licensed in Kansas or another state, within 24 months from the date of application, as a licensed practical nurse whose license is inactive or a registered nurse whose license is inactive, and there are no pending or current disciplinary actions against the individual's license. (Authorized by K.S.A. 75-5625; implementing K.S.A. 65-1,120 and K.S.A. 2010 Supp. 65-1124; effective Dec. 29, 2003; amended Oct. 14, 2011.)

28-39-169b. State medication aide test.

(a) The state test shall be administered by the secretary or the designated agent and in accordance with guidelines prescribed by the secretary as outlined in the “certified medication aide test manual” on pages 24 through 31 of the “Kansas certified medication aide sponsor and instructor manual,” dated February 2011. These pages are hereby adopted by reference.

(1) Each person who has completed the medication aide course as specified in K.A.R. 28-39-169a shall have a maximum of two attempts to pass the state test within 12 months after the first day of the course. If the person does not pass the test within this 12-month period, the course shall be retaken. Each time the person successfully completes the course, the person shall have two attempts to pass the state test within 12 months after the first day of the course. The number of times a person may retake the course shall be unlimited.

(2) Each person who is a Kansas-certified nurse aide and whose training has been deemed equiv-

alent to the Kansas medication aide course shall have a maximum of one attempt to pass the test within 12 months after the date the equivalency is approved. If the person does not pass the test within this 12-month period, the person shall be required to take the medication aide course.

(3) There shall be three different forms of the state test. The different forms of the test shall be used on an alternating basis. Each of the three forms shall be comprised of 85 multiple-choice questions. The passing score for each of the three forms of the test shall be 65 or higher.

(4) Only persons who have met the requirements specified in K.A.R. 28-39-169a(a)(1) and (h) shall be eligible to take the state test.

(5) Each person whose second language is English shall be allowed to use a bilingual dictionary while taking the state test. Limited English proficiency shall not constitute a disability with regard to accommodation. An extended testing period of up to two additional hours may be offered to persons with limited English proficiency.

(b) Each person shall be issued a medication aide certificate by the secretary and shall be listed on a public nurse aide registry upon successful completion of the requirements specified in K.A.R. 28-39-169a(a) and (h).

(c) The course instructor shall submit to the secretary a course roster of names, an application form, and a nonrefundable application fee of \$20.00 for each medication aide who has completed the course and passed the state test.

(d) A replacement medication aide certificate for a medication aide whose certification is current shall be issued by the secretary upon the receipt and processing of a certificate replacement form and a nonrefundable fee of \$20.00. (Authorized by K.S.A. 75-5625; implementing K.S.A. 65-1,120 and K.S.A. 2010 Supp. 65-1124; effective Dec. 29, 2003; amended Oct. 14, 2011.)

28-39-169c. Medication aide continuing education. (a) Each person who has a certificate of completion for a medication aide training course as specified in K.A.R. 28-39-169a and who wishes to maintain the certificate shall complete, every two years, a program of 10 hours of continuing education approved by the secretary.

(b) The continuing education requirement shall include one or more of the following topics:

- (1) Classes of drugs and new drugs;
- (2) new uses of drugs;
- (3) methods of administering medications;

(4) alternative treatments, including herbal drugs and their potential interaction with traditional drugs;

(5) safety in the administration of medications; or

(6) documentation.

(c) Each program of continuing education shall be sponsored by one of the following:

(1) A postsecondary school under the jurisdiction of the state board of regents;

(2) an adult care home;

(3) a long-term care unit of a hospital;

(4) a state-operated institution for the mentally retarded; or

(5) a professional health care association approved by the secretary.

(d) Each course instructor shall be a registered nurse with a current Kansas license and two years of clinical experience as a registered nurse or a licensed practical nurse. Any Kansas-licensed pharmacist actively working in the pharmacy field may be selected to conduct part of the training under the supervision of the instructor.

(e) Each person who intends to be a course instructor shall submit an instructor approval application form to the secretary at least three weeks before offering an initial course and shall be required to receive approval as an instructor before the first day of an initial course.

(f) Each sponsor and course instructor of continuing education shall be responsible for ensuring that the following requirements are met:

(1) The course shall be prepared and administered as prescribed by regulation and the "Kansas certified medication aide sponsor and instructor manual," as adopted in K.A.R. 28-39-169a.

(2) A course approval application form shall be submitted to the secretary at least three weeks before offering a course, and course approval shall be required to be received before beginning the course.

(3) A course roster of names, a renewal application form, and a nonrefundable renewal application fee of \$20.00 for each medication aide who has completed the course shall be submitted to the secretary.

(4) If clinical instruction in administering medications is included in the program, each student administering medications shall be under the direct supervision of the registered nurse instructor.

(g) Any sponsor or instructor who does not fulfill the requirements specified in subsections (d), (e), and (f) may be subject to withdrawal of approval to serve as a course instructor or a course sponsor.

(h) College credits or vocational training may be approved by the secretary as substantially equivalent to medication aide continuing education. The instructor or nursing program coordinator shall submit a department-approved form attesting that the course content is substantially equivalent to the topics listed in paragraphs (b)(1) through (6).

(i) Each certified medication aide shall be responsible for notifying the secretary of any change in the aide's address or name.

(j) No correspondence course shall be approved for a medication aide continuing education course.

(k) Distance-learning educational offerings and computer-based educational offerings shall meet the requirements specified in subsections (b), (c), (d), (e), (f), and (g).

(l) Each medication aide certificate shall be renewed upon the department's receipt from the course instructor of the following:

(1) Verification of the applicant's completion of 10 hours of approved continuing education;

(2) a renewal application form; and

(3) a nonrefundable renewal application fee of \$20.00.

(m) Each medication aide certificate or renewed certificate shall be valid for two years from the date of issue.

(n) Each applicant for renewal of certification shall have completed the required number of hours of documented and approved continuing education during each certification period immediately preceding renewal of the certificate. Approved continuing education hours completed in excess of the requirement shall not be carried over to a subsequent renewal period.

(o) Each medication aide certificate that has been expired for three or fewer years shall be reinstated upon the department's receipt of the following:

(1) Verification of the applicant's completion of 10 hours of approved continuing education. This continuing education shall have been completed within the three-year period following expiration of the certification;

(2) a renewal application form; and

(3) a nonrefundable renewal application fee of \$20.00.

(p) Each lapsed certificate renewed within the three-year period specified in subsection (o) shall be valid for two years from the date of issuance.

(q) Each person whose medication aide certification has been expired for more than three years shall be required to retake the 75-hour medica-

tion aide course. (Authorized by K.S.A. 65-1,121 and 75-5625; implementing K.S.A. 65-1,121 and K.S.A. 2010 Supp. 65-1124; effective Dec. 29, 2003; amended Oct. 14, 2011.)

28-39-240. (Authorized by and implementing K.S.A. 39-932; effective Feb. 21, 1997; amended Oct. 8, 1999; revoked May 29, 2009.)

28-39-241 through 28-39-244. (Authorized by and implementing K.S.A. 39-932; effective Feb. 21, 1997; revoked May 29, 2009.)

28-39-245. (Authorized by and implementing K.S.A. 39-932; effective Feb. 21, 1997; amended Oct. 8, 1999; revoked May 29, 2009.)

28-39-246. (Authorized by and implementing K.S.A. 39-932; effective Feb. 21, 1997; revoked May 29, 2009.)

28-39-247. (Authorized by and implementing K.S.A. 39-932; effective Feb. 21, 1997; amended Oct. 8, 1999; revoked May 29, 2009.)

28-39-248 through 28-39-253. (Authorized by and implementing K.S.A. 39-932; effective Feb. 21, 1997; revoked May 29, 2009.)

28-39-275 through 28-39-288. (Authorized by and implementing K.S.A. 39-932; effective Oct. 8, 1999; revoked May 29, 2009.)

28-39-425 through 28-39-436. (Authorized by and implementing K.S.A. 39-932; effective Oct. 8, 1999; revoked May 29, 2009.)

Article 43.—CONSTRUCTION, OPERATION, MONITORING AND ABANDONMENT OF SALT SOLUTION MINING WELLS

28-43-1. (Authorized by K.S.A. 65-171d; implementing K.S.A. 65-171d; effective May 1, 1979; amended May 1, 1981; revoked Aug. 6, 2010.)

28-43-2. (Authorized by K.S.A. 65-171d; implementing K.S.A. 65-171d; effective May 1, 1979; amended May 1, 1981; revoked Aug. 6, 2010.)

28-43-3. (Authorized by K.S.A. 65-171d; implementing K.S.A. 65-171d; effective May 1, 1979; amended May 1, 1981; revoked Aug. 6, 2010.)

28-43-4. (Authorized by K.S.A. 65-171d; implementing K.S.A. 65-171d; effective May 1, 1979; amended May 1, 1981; revoked Aug. 6, 2010.)

28-43-5. (Authorized by K.S.A. 65-171d; implementing K.S.A. 65-171d; effective May 1, 1979; amended May 1, 1981; revoked Aug. 6, 2010.)

28-43-6. (Authorized by K.S.A. 65-171d; implementing K.S.A. 65-171d; effective May 1, 1979; amended May 1, 1981; revoked Aug. 6, 2010.)

28-43-7. (Authorized by K.S.A. 65-171d; implementing K.S.A. 65-171d; effective May 1, 1979; amended May 1, 1981; revoked Aug. 6, 2010.)

28-43-8. (Authorized by K.S.A. 65-171d; implementing K.S.A. 65-171d; effective May 1, 1979; amended May 1, 1981; amended May 1, 1984; revoked Aug. 6, 2010.)

28-43-9. (Authorized by K.S.A. 65-171d; implementing K.S.A. 65-171d; effective May 1, 1979; amended May 1, 1981; revoked Aug. 6, 2010.)

28-43-10. (Authorized by K.S.A. 65-171d; implementing K.S.A. 65-171d; effective May 1, 1979; amended May 1, 1981; revoked Aug. 6, 2010.)

28-43-11. (Authorized by and implementing K.S.A. 1984 Supp. 65-171d; effective, T-85-7, Feb. 15, 1984; effective May 1, 1984; amended May 1, 1985; revoked Aug. 6, 2010.)

Article 45b.—UNDERGROUND CRUDE OIL STORAGE WELLS AND ASSOCIATED BRINE PONDS

28-45b-1. Definitions. (a) “Active well” means an unplugged well that is in service or in monitoring status.

(b) “American petroleum institute gravity” and “API gravity” mean the specific gravity scale developed by the American petroleum institute for measuring the relative density of various petroleum liquids, expressed in degrees API.

(c) “Applicant” means the operator and the owner requesting a permit as specified in this article. If the operator and the owner are not the same person, the owner and the operator shall jointly submit an application for a permit.

(d) “Brine” means saline water with a sodium chloride concentration equal to or greater than 90 percent.

(e) “Brine pond” means the excavated or diked structure used for the surface containment of brine used in the creation, maintenance, and operation of an underground crude oil storage well.

(f) “Crude oil” means unrefined, liquid petroleum.

(g) “Crude oil reserve” means the storage of crude oil for future use.

(h) “Crude oil storage well,” “underground crude oil storage well,” and “storage well” mean a well used for the injection or withdrawal of crude oil into or out of an underground crude oil storage cavern.

(i) “Department” means Kansas department of health and environment.

(j) “Draft permit” means a document that is pending approval by the secretary to be issued as a permit.

(k) “Fracture gradient” means the pressure gradient, measured in pounds per square inch per foot, that causes the geological formations to physically fracture.

(l) “Freshwater” means water containing not more than 1,000 milligrams per liter of total dissolved solids (TDS).

(m) “Licensed geologist” means a geologist licensed to practice geology in Kansas by the Kansas board of technical professions.

(n) “Licensed professional engineer” means a professional engineer licensed to practice engineering in Kansas by the Kansas board of technical professions.

(o) “Licensed professional land surveyor” means a professional land surveyor licensed to practice land surveying in Kansas by the Kansas board of technical professions.

(p) “Liner” means the casing normally installed within the production casing.

(q) “Maximum allowable operating pressure” means the maximum pressure authorized by the department and measured at the product side of the wellhead.

(r) “Maximum allowable synthetic membrane liner leakage rate” means a monitored or a calculated leakage rate of 10 percent of the collection and leak return system capacity.

(s) “Maximum operating pressure” means the maximum pressure monitored during a 24-hour period and measured at the product side of the wellhead.

(t) “Monitoring status” means temporary status for a well that has been placed out of service by removing the product and filling the cavern with brine.

(u) “Municipal population center” means an incorporated city.

(v) “Operator” means the person recognized by the secretary as being responsible for the physical

operation of an underground crude oil storage facility or a brine pond.

(w) “Owner” means the person owning all or part of any underground crude oil storage facility or brine pond.

(x) “Permit” means an authorization, license, or equivalent control document issued to the owner and the operator by the secretary. A permit may be issued for any of the following:

(1) A new underground crude oil storage facility and the associated crude oil storage wells;

(2) an existing underground crude oil storage facility and the associated crude oil storage wells; or

(3) a brine pond.

(y) “Permittee” means the owner and the operator issued a permit, as defined in this regulation, by the secretary.

(z) “Person” means any individual, company, corporation, institution, association, partnership, municipality, township, and local, state, or federal agency.

(aa) “Plugged well” means a storage well that has been plugged or placed into plugging-monitoring status pursuant to K.A.R. 28-45b-18.

(bb) “Plugging-monitoring status” means the status of a storage well that will not be returned to active status but will be filled with brine to monitor cavern stabilization in lieu of plugging.

(cc) “Porosity storage” means the storage of hydrocarbon gas in underground porous and permeable strata that have been converted to hydrocarbon gas storage.

(dd) “Pressure gradient” means the ratio of pressure per unit depth, expressed as pounds per square inch per foot of depth.

(ee) “Product” means crude oil.

(ff) “Saturated brine” means saline water with a sodium chloride concentration that is equal to or greater than 90 percent.

(gg) “Secretary” means secretary of the department of health and environment.

(hh) “Solutioning” means the process of injecting fluid into a well to dissolve salt or any other readily soluble rock or mineral.

(ii) “Sour crude oil” means crude oil with a sulfur content greater than 0.5 percent.

(jj) “Supervisory control and data acquisition” means an automated surveillance system in which the monitoring and control of storage activities are accomplished at a central or remote location.

(kk) “Sweet crude oil” means crude oil with a sulfur content not greater than 0.5 percent by weight.

(ll) “Type” means the description of the product that includes American petroleum institute gravity, non-hydrocarbon impurities, and hydrogen sulfide content.

(mm) “Underground crude oil storage cavern,” “cavern,” and “storage cavern” mean the storage space for crude oil created in a salt formation by solution mining.

(nn) “Underground crude oil storage facility” and “facility” mean the acreage associated with the storage field, with facility boundaries approved by the secretary. This term shall include the brine ponds, storage wells, wellbore tubular goods, the wellheads, and any related equipment, including any appurtenances associated with the well field.

(oo) “Unplugged,” when used to describe a well, means a storage well that either is not plugged or is in plugging-monitoring status.

(pp) “Unsaturated brine” means saline water with a sodium chloride concentration less than 90 percent.

(qq) “Usable water formation” means an aquifer or any portion of the aquifer that meets any of the following criteria:

(1) Supplies any public water system;

(2) contains a supply of groundwater that is sufficient to supply a public water system and that currently supplies drinking water for human consumption; or

(3) contains fewer than 10,000 milligrams per liter total dissolved solids and is not an exempted aquifer.

(rr) “Variance” means the secretary’s written approval authorizing an alternative action to one or more of the requirements of these regulations. (Authorized by K.S.A. 55-1,117 and K.S.A. 2008 Supp. 55-1,117a; implementing K.S.A. 55-1,117; effective July 6, 2009.)

28-45b-2. Permit required for facilities and storage wells; variances. (a) No person shall create, operate, or maintain an underground crude oil storage facility or any crude oil storage well without first obtaining a permit from the secretary.

(b) The storage of crude oil in caverns constructed in any rock formations other than bedded salt shall be prohibited.

(c) A variance to any requirement of this article may be granted by the secretary if both of the following conditions are met:

(1) The variance is protective of public health, safety, and the environment.

(2) The applicant or permittee agrees to perform any additional testing, monitoring, or well improvements, or any combination, if required by the secretary.

(d) Each applicant or permittee seeking a variance shall submit a written request, including justification for the variance and any supporting data, to the secretary for review and consideration for approval. (Authorized by K.S.A. 55-1,117 and K.S.A. 2008 Supp. 55-1,117a; implementing K.S.A. 55-1,117; effective July 6, 2009.)

28-45b-3. Well conversions and reentry.

(a) The conversion of an existing well that was not originally designed for crude oil storage to an underground crude oil storage well shall be considered for approval if both of the following conditions are met:

(1) The applicant submits a completed application as required by K.A.R. 28-45b-4.

(2) The secretary determines that the conversion is protective of public health, safety, and the environment.

(b) Any permittee may convert an unplugged underground crude oil storage well to monitoring status if all of the following requirements are met:

(1) Each permittee shall verify the integrity of the storage well and cavern by conducting a mechanical integrity test before converting the well to monitoring status.

(2) Each permittee shall run a gamma-density log, a thermal neutron decay time log, or a pulsed neutron log to verify the roof thickness before converting the well to monitoring status.

(3) Each permittee shall meet the requirements specified in the department's document titled "procedure for converting a crude oil storage well to monitoring status," procedure #UICLPG-27, dated October 2008, which is hereby adopted by reference.

(4) Each permittee of an underground crude oil storage cavern that is in monitoring status shall conduct a casing inspection evaluation before placing the cavern into service. (Authorized by K.S.A. 55-1,117 and K.S.A. 2008 Supp. 55-1,117a; implementing K.S.A. 55-1,117; effective July 6, 2009.)

28-45b-4. Permit required for facility and associated storage wells.

(a) Each applicant who intends to construct a new underground crude oil storage well shall submit a completed permit application to the secretary, on a form approved by the department, at least 180 days before the pro-

posed commencement date for the construction of the new crude oil storage well. Well construction shall not begin until the secretary has issued the permit.

(b) Each applicant who intends to convert an existing well to a crude oil storage well shall submit a completed permit application to the secretary, on a form approved by the department, at least 180 days before the proposed date for operation of the crude oil storage well. Well modifications and operations shall not commence until the secretary has issued the permit.

(c) Each applicant who intends to construct a new storage well for the purpose of creating a crude oil reserve shall submit a completed permit application to the secretary at least 180 days before the proposed commencement date for storage well construction. Well construction shall not begin until the secretary has issued the permit.

(d) Each applicant who wishes to convert an existing storage well for the purpose of creating a crude oil reserve shall submit a completed permit application to the secretary at least 180 days before the proposed date for operation of the crude oil storage well. Well modifications and operations shall not commence until the secretary has issued the permit.

(e) Each applicant who intends to create a crude oil reserve shall include the following with the permit application:

(1) A description of monitoring and testing methods to demonstrate that the quality of the crude oil is maintained during storage;

(2) a description of methods and a schedule for routinely testing the integrity of the wellhead, casing, and transfer equipment; and

(3) a description of the brine transfer system, including brine source, disposal method, and means of transfer.

(f) Upon review of each application, one of the following shall be issued by the secretary:

(1) A permit, if the application is approved; or

(2) a notice that the permit has been denied if the applicant has not complied with the requirements of this article. The notice shall include justification for the permit denial.

(g) Each application for a permit shall include a report prepared by a licensed geologist and shall include the following:

(1) An evaluation of the geology and hydrogeology, including cross-sections, isopach and structure maps of the salt formation, and water-level or potentiometric maps;

- (2) a regional stratigraphic evaluation;
- (3) local and regional structural analyses, including maps, cross-sections, and available geophysical data;
- (4) a flood assessment identifying floodplain and flood-prone areas, including the following:
 - (A) Flood response procedures; and
 - (B) design criteria for the well and facility equipment; and
- (5) an assessment of the potential for ground subsidence.

(h) Each applicant shall submit the following information with the application:

(1) A plan view map showing locations of all water, solution-mining, storage, monitoring, disposal, injection, oil, and gas wells within a one-mile perimeter of the facility's boundary; and

(2) a plan view map of man-made surface structures and activities within a one-mile perimeter of the facility's boundary.

(i) Each permittee shall submit a compliance audit every 10 years, on a form furnished by the department, for review and consideration for approval for the continued operation of each storage well.

(j) Each permittee shall submit a sample log of well cuttings from any new well drilled at the facility, including new crude oil storage wells, monitoring wells, and stratigraphic test holes.

(1) Cuttings shall be collected at 10-foot intervals from surface to total well depth or at an interval specified by the department.

(2) Well cuttings shall be collected, described, and logged as specified in the department's document titled "procedure for sample logging," which is adopted by reference in K.A.R. 28-45-6a.

(3) The collection of cuttings shall be supervised by a licensed geologist or a licensed geologist's designee.

(4) The description and logging of the sample cuttings shall be performed by a licensed geologist.

(5) Each permittee shall submit a sample log and a dry sample set to the department within 45 days after the completion of the well.

(k) Each permittee shall provide a minimum of one core from each facility. The following provisions shall apply:

(1) Each permittee shall submit a plan for a new core describing the coring interval, coring procedures, and core testing with the permit application to the secretary for review and consideration for approval. The plan shall be submitted at least 60 days before the coring event.

(2) Each permittee shall submit the core analysis for a new core after installing the first storage well and before developing the storage field.

(3) Any permittee may submit existing core data if the secretary determines that the core is representative of the geology of the area.

(4) Each permittee shall submit the core analysis for an approved existing core with the permit application.

(5) Each permittee shall make the core available for inspection upon request by the secretary.

(l) Each permittee shall submit a water analysis for any water-bearing formation encountered in drilling a new monitoring well. The water shall be analyzed for the following parameters:

(1) Chloride;

(2) total dissolved solids; and

(3) any parameter that the secretary determines could pose a potential threat to public health, safety, and the environment.

(m) Each permittee shall ensure that the stored crude oil, formation water, lithology, and substances used in the solutioning of the storage caverns are compatible.

(n) Each permittee shall submit open-hole logs for any new crude oil storage well. The logging interval shall be from the surface to at least 100 feet below the top of the salt section. At a minimum, the following logs shall be run:

(1) A gamma ray log;

(2) a neutron log, if the source is registered in Kansas, or a sonic log;

(3) a density log; and

(4) a caliper log.

(o) Any permittee may use an alternative log if the secretary determines that the alternative log is substantially equivalent to one of the logs specified in subsection (n). The permittee shall submit the following information:

(1) A description of the log and the theory of operation for that log;

(2) a description of the field conditions under which the log can be used;

(3) the procedure for interpreting the log; and

(4) an interpretation of the log upon completion of the logging event.

(p) If a facility has a new storage cavern, the permittee shall ensure that a minimum salt roof thickness of 100 feet is maintained above the storage cavern.

(q) Each permittee shall submit supporting data showing that a minimum crude oil inventory in each storage cavern shall be maintained to pro-

tect the salt roof during short time periods when changing service, conducting workover activities, or performing surface facility maintenance.

(r) If a facility has an existing cavern approved for crude oil storage with a salt roof thickness greater than 50 feet but less than 100 feet, the permittee shall meet the following requirements:

(1) The permittee shall use only saturated brine to displace product.

(2) The permittee shall submit a schedule for monitoring brine salinity.

(3) The salt roof thickness shall be monitored with gamma ray and density logs, or any other log specified in subsection (o), every three years.

(4) The permittee shall provide any additional information, including a geomechanical study from core analysis, that may be requested by the secretary to verify the integrity of the salt roof.

(s) Underground crude oil storage caverns with a salt roof thickness of 50 feet or less shall be prohibited.

(t) Underground communication between underground crude oil storage caverns in the upper 50 feet of the salt formation shall be prohibited.

(u) Underground communication between underground crude oil storage caverns below the upper 50 feet of the salt formation shall be prohibited, unless the secretary determines that the communication is protective of public health, safety, and the environment. The permittee shall submit the following:

(1) A sonar survey for each cavern that is in communication with another cavern; and

(2) a plan describing the monitoring and testing that the permittee will conduct to ensure that the integrity of the underground crude oil storage wells and caverns will be maintained.

(v) The horizontal distance separating new underground crude oil storage caverns shall be at least 100 feet between the cavern boundaries.

(w) Any existing cavern approved for crude oil storage with horizontal separation less than 100 feet may operate if the following requirements are met:

(1) Each permittee shall submit a justification for each existing underground crude oil storage cavern with horizontal separation less than 100 feet. The following requirements shall apply:

(A) The justification shall include spacing-to-diameter ratios, cavern pressure differentials, and analyses of cavern shape, size, and depth.

(B) The horizontal spacing shall be reevaluated every five years.

(2) Horizontal spacing of less than 50 feet between caverns shall be prohibited.

(x) The maximum horizontal diameter of each cavern shall not exceed 300 feet.

(y) Each permittee shall ensure the integrity of the storage well, including the wellhead and casing, and storage cavern before commissioning any new storage cavern into service. Storage operations may commence when the following requirements are met:

(1) The permittee shall submit a notice of completion of construction on a form furnished by the department.

(2) Each new storage well shall be inspected by the secretary before storage operations commence. If the well fails the inspection, the permittee shall not commence storage operations. (Authorized by K.S.A. 55-1,117 and K.S.A. 2008 Supp. 55-1,117a; implementing K.S.A. 55-1,117; effective July 6, 2009.)

28-45b-5. Public notice. (a) Public notice shall be given by the secretary for any of the following permit actions:

(1) Any permit application for a crude oil storage well;

(2) the denial of a permit; or

(3) a scheduled hearing.

(b) Public notice and, if applicable, a copy of the draft permit shall be mailed or electronically mailed by the department to the permit applicant.

(c) Each public notice shall be mailed by the department to the following:

(1) Any person who submits a written request for placement on the mailing list;

(2) the official county newspaper of each county in which the lands affected by the application are located, for publication in at least two issues; and

(3) the Kansas register.

(d) Each public notice shall include the following information:

(1) The name and address of the department processing the permit action for which the notice is being given;

(2) the name and address of the person or company seeking the permit;

(3) a brief description of the business conducted at the facility or the activity described in the permit application;

(4) the name, address, and telephone number of the departmental contact whom interested persons may contact for further information, includ-

ing copies of the application, draft permit, or any other appropriate information;

(5) a brief description of the comment procedures for public notice; and

(6) a statement of the procedure to request a hearing and any other procedures that allow public participation in the final permit decision.

(e) Any interested person may submit written comments on any permit action to the secretary during the 30-day public comment period. The following requirements shall apply:

(1) All comments shall be submitted by the close of the public comment period.

(2) All supporting materials submitted shall be included in full. The supporting materials shall not be incorporated by reference, unless the supporting materials are any of the following:

(A) Part of the administrative record in the same proceeding;

(B) state or federal statutes and regulations;

(C) state or environmental protection agency documents of general applicability; or

(D) other generally available reference materials.

(3) Commentators shall make supporting materials not already included in the administrative record available to the secretary.

(f) The response to all relevant comments concerning any permit actions and the reasons for changing any provisions in the draft permit shall be issued when the permit decision is issued.

(g) The response to comments shall be made available to the public upon request. (Authorized by K.S.A. 55-1,117 and K.S.A. 2008 Supp. 55-1,117a; implementing K.S.A. 55-1,117; effective July 6, 2009.)

28-45b-6. Modification and transfer of a permit. (a) The automatic transfer of a permit shall be prohibited. The requirements for each permit transfer shall be as follows:

(1) Each person requesting a permit transfer shall notify the secretary at least 60 days before the effective date of the proposed transfer.

(2) Each owner and each operator shall comply with the conditions of the existing permit until the secretary reissues the permit.

(b) Any permit may be modified by the secretary under any of the following conditions:

(1) The secretary receives information that was not available when the permit was issued.

(2) The secretary receives a request for the modification of a permit.

(3) The secretary conducts a review of the permit file and determines that a modification is necessary.

(c) Only the permit actions subject to modification shall be reopened.

(d) Minor modifications that do not require public notification shall include the following, except as otherwise specified:

(1) Correction of typographical errors;

(2) requirements for more frequent monitoring or reporting by the permittee;

(3) a date change in a schedule of compliance;

(4) a change in ownership or operational control of the facility, unless the secretary determines that public notification is necessary to protect the public interest;

(5) a change in construction requirements, if the secretary determines that the change is protective of public health, safety, and the environment; and

(6) any amendments to a facility plugging plan.

(e) A draft permit and notification to the public shall be required if any of the following conditions is met:

(1) A permittee proposes substantial alterations or additions to the facility or proposes an activity that justifies a change in the permit requirements, including cumulative effects on public health, safety, or the environment.

(2) Information has become available that would have initially justified different permit requirements.

(3) Regulations on which the permit was based have changed due to the promulgation of new or amended regulations or due to a judicial decision after the permit was issued.

(f) Any permittee may request a permit modification within 180 days after any of the following:

(1) The adoption of new regulations;

(2) any deadline to achieve compliance with regulations; or

(3) any judicial remand and stay of a promulgated regulation if the permit requirement was based on the remanded regulation. (Authorized by K.S.A. 55-1,117 and K.S.A. 2008 Supp. 55-1,117a; implementing K.S.A. 55-1,117; effective July 6, 2009.)

28-45b-7. Signatories for permit applications and reports. (a) Each applicant for a permit shall designate at least one signatory to sign the permit applications and all reports required by the secretary.

(b) The positions that may be approved by the secretary to be signatories shall be the following:

(1) Plant or operations manager;
 (2) cavern specialist;
 (3) superintendent; and
 (4) any position with responsibility at least equivalent to that required by the positions listed in this subsection.

(c) Any signatory may submit written notification to the secretary specifying a position having responsibility for the overall operation of the facility or activity to act as a designated signatory.

(d) Each signatory and each signatory's designee shall submit a signature statement, on a form furnished by the department, to the secretary with each permit application. (Authorized by K.S.A. 55-1,117 and K.S.A. 2008 Supp. 55-1,117a; implementing K.S.A. 55-1,117; effective July 6, 2009.)

28-45b-8. Siting requirements for new storage wells and facilities. (a) Each applicant shall assess the geographical, topographical, and physical data for any proposed underground crude oil storage well location to determine whether siting requirements have been met. The following siting requirements shall be met:

(1) Each new storage facility shall be located at least three miles from the established boundaries of municipal population centers.

(2) Each proposed new facility or boundary expansion for an existing facility shall be located as follows:

(A) Not less than five miles from an active or abandoned conventional shaft mining operation; and

(B) not less than two miles from the facility's boundary of any solution mining operation.

(3) Each applicant shall assess the extent and nature of current or past conventional subsurface mining activities within five miles of the underground crude oil storage facility's boundary to determine any potential impact to public health, safety, or the environment resulting from the proposed activities at the facility.

(4) Each applicant shall identify and assess all wells, including abandoned wells, from available sources of information, within a one-mile perimeter of the facility's boundary to determine if the following conditions are met:

(A) The wells have been constructed in a manner to protect public health, property, and the environment.

(B) The abandoned wells, including water, oil, gas, monitoring, and underground storage wells, have been properly plugged.

(b) Each applicant shall conduct a regional geological evaluation to determine if the integrity of each proposed storage cavern will be adversely affected by any of the following:

(1) Salt thinning due to any stratigraphic change;

(2) a dissolution zone in the bedded salt; or

(3) abrupt changes in the lithology within the salt interval.

(c) Each applicant shall determine if the facility's location is in a floodplain or flood-prone area.

(d) No new facility's boundary or the expansion of an existing facility's boundary shall be located less than one mile from any existing underground porosity storage facility.

(e) Each applicant shall identify potential risks to the storage operation from activities conducted at adjacent facilities.

(f) Each applicant shall identify all utilities having a right-of-way, including pipeline, railway, roadway, and electrical lines, and shall assess the potential impact of the utilities on the location or operation of the facility. If a facility is exposed and subject to hazards, including vehicular traffic, railroads, electrical power lines, and aircraft traffic, the facility shall be protected from accidental damage, by distance or barricades.

(g) No outer boundary of an underground crude oil storage cavern shall be less than 100 feet from any of the following:

(1) The property boundary of any owners who have not consented to subsurface storage under their property;

(2) any existing surface structure not owned by the facility's owner; or

(3) any public transportation artery. (Authorized by K.S.A. 55-1,117 and K.S.A. 2008 Supp. 55-1,117a; implementing K.S.A. 55-1,117; effective July 6, 2009.)

28-45b-9. Financial assurance for closure of underground crude oil storage facility. (a) Each applicant shall submit, with the permit application and annually thereafter on or before the permit renewal date, proof of financial assurance to the secretary for the following:

(1) Closure of the facility; and
 (2) the plugging of any crude oil storage well.

(b) Each applicant shall meet the following requirements:

(1) Submit a detailed written estimate, in current dollars, of the cost to close all underground storage wells and storage caverns at the proposed facility following the closure procedures speci-

fied in K.A.R. 28-45b-18. The estimate shall be reviewed and approved by a licensed professional engineer or licensed geologist; and

(2) prepare an estimate of the closure cost for all storage wells and storage caverns at the proposed facility based on the cost charged by a third party to plug the underground storage wells.

(c)(1) Each permittee shall increase the closure cost estimate and the amount of financial assurance provided if any change in the facility operation or closure plan increases the maximum cost of closure at any time.

(2) Each permittee shall provide continuous financial assurance coverage for closure until the secretary approves the facility closure.

(d) Each permittee shall comply with the provisions of the department's document titled "procedure for demonstrating financial assurance for an underground crude oil storage well," procedure #UICLPG-28, dated October 2008, which is hereby adopted by reference. (Authorized by K.S.A. 55-1,117 and K.S.A. 2008 Supp. 55-1,117a; implementing K.S.A. 55-1,117; effective July 6, 2009.)

28-45b-10. Operations and maintenance plan. (a) Each applicant shall submit a plan for the long-term operation and maintenance of the facility with the permit application.

(b) Each operation and maintenance plan shall include the following information:

(1) A description of the methods to be used to prevent the overpressuring of wells and storage caverns;

(2) a plan view map of the location of any disposal wells and corrosion control wells; and

(3) the location, depth, and well construction for all shallow and deep groundwater monitoring and observation wells.

(c) Each permittee shall maintain at the facility and make available for inspection by the secretary the following information:

(1) A location map of all wells within the facility's boundaries and a listing of the global positioning system coordinates for each well;

(2) a schematic of the brine and product lines for each cavern; and

(3) a schematic of the gathering line system that connects all wells within the underground crude oil storage facility to a central distribution point.

(d) Each applicant shall submit a plan for solutioning or washing any cavern to the secretary for review and consideration for approval. The plan shall include the following:

(1) A list of acceptable blanket pad materials;

(2) methods for monitoring the solutioning or washing process; and

(3) a monitoring schedule.

(e) Only saturated brine shall be used to displace any product.

(f) The maximum allowable operating pressure and test pressure shall not exceed 0.8 pounds per square inch per foot of depth measured at the higher elevation of either the casing seat or the highest interior elevation of the storage cavern roof.

(g) Each permittee shall submit justification for a minimum operating pressure that is protective of cavern integrity and shall maintain the minimum operating pressure at each storage well.

(h) Each permittee shall meet the notification requirements in the facility's emergency response plan, give oral notification to the department within two hours, and submit written notification within one week to the department if any of the following events occurs:

(1) The overpressuring or the overfilling of an underground crude oil storage cavern;

(2) the loss of integrity for an underground crude oil storage well or cavern;

(3) the release of brine, product, or any other chemical parameter that poses a threat to public health, safety, or the environment;

(4) any uncontrolled or unanticipated loss of product or brine that is detectable by any monitoring or testing;

(5) any other condition that could endanger public health, safety, or the environment;

(6) the establishment of communication between storage caverns;

(7) the triggering of any alarms verifying that the permit safety requirements have been exceeded; or

(8) any equipment malfunction or failure that could result in potential harm to public health, safety, or the environment.

(i) Each permittee shall notify the secretary of any change in the type of product stored in any storage cavern and shall certify that the compatibility of product types and the changes in pressure will not adversely affect the wellhead, casing, tubing, and cavern. (Authorized by K.S.A. 55-1,117 and K.S.A. 2008 Supp. 55-1,117a; implementing K.S.A. 55-1,117; effective July 6, 2009.)

28-45b-11. Emergency response plan and safety and security measures. (a)(1) Each

applicant for a permit for an underground crude oil storage facility shall make the emergency response plan available for inspection by the secretary when the permit application is submitted to the department.

(2) Each permittee shall maintain the emergency response plan at the facility and at the company headquarters and shall make the plan available for inspection by the secretary.

(b) Each permittee shall update the emergency response plan annually and also shall update the plan whenever new information regarding the requirements for the emergency response plan becomes available.

(c) Each emergency response plan shall include a description of the facility's response to the following events:

- (1) Spills and releases;
- (2) fires and explosions;
- (3) cavern subsidence and collapse; and
- (4) any other activity that endangers public health and safety or that constitutes a threat to the environment.

(d) Each emergency response plan shall include the following information:

- (1) A description of the warning systems in operation at the facility;
- (2) a description of the facility's emergency response communication system that includes the following:

(A) A plat showing the location of all occupied buildings within a two-mile perimeter of the facility's boundaries; and

(B) A list of addresses and telephone numbers for all persons to contact within a two-mile perimeter of the facility's boundaries if a release or emergency condition occurs;

(3) the procedures for coordination of emergency response with local emergency planning committees, including emergency notification and evacuation of citizens and employees;

(4) a description of employee training for emergency response;

(5) a plat of the facility, showing the following locations:

- (A) All crude oil storage wells;
- (B) all underground injection control wells;
- (C) all monitoring wells;
- (D) all brine and product lines;
- (E) railroad and transportation routes;
- (F) brine ponds; and
- (G) any other appurtenances at the facility; and
- (6) a plan map of man-made surface structures

and any construction activities within a one-mile perimeter of the facility's boundaries.

(e) A copy of the emergency response plan shall be available at the facility, the company headquarters, and the office of each coordinating agency or committee involved in the emergency response plan.

(f) Each permittee shall establish an educational program for community safety and awareness of the emergency response plan.

(g) Each permittee of an underground crude oil storage facility shall provide security measures to protect the public and to prevent unauthorized access. These security measures shall include the following:

(1) Methods for securing the facility from unauthorized entry and for providing a convenient opportunity for escape to a place of safety;

(2) at least one visible, permanent sign at each point of entry and along the facility's boundary, identifying the storage well or facility name, owner, and contact telephone number;

(3) security lighting;

(4) alarm systems;

(5) appropriate warning signs in areas that could contain accumulations of hazardous or noxious vapors or where physical hazards exist; and

(6) a direct communication link with the local control room or any remote control center for service and maintenance crews.

(h) Warning systems and alarms shall consist of the following:

(1) Combustible gas detectors, hydrogen sulfide detectors, heat sensors, pressure sensors, and emergency shutdown instrumentation integrated with warning systems audible and visible in the local control room and at any remote control center;

(2) circuitry designed so that the failure of a detector or heat sensor, excluding meltdown and fused devices, will activate the warning; and

(3) a manually operated alarm that is audible to facility personnel.

(i) Each wellhead shall be protected with safety devices to prevent pressures in excess of the maximum allowable operating pressure from being exerted on the storage well or cavern and to prevent the backflow of any stored crude oil if a flowline ruptures.

(j) Each wellhead shall be equipped with manual isolation valves. Each port on a wellhead shall be equipped with either a valve or a blind flange. The valve or blind flange shall be rated at the same pressure as that for the wellhead.

(k) Each permittee shall ensure that the facility has a supervisory control and data acquisition system approved by the secretary to monitor storage operations for individual storage wells. Each of the following instruments shall be connected to an alarm:

(1) Flow indicators for crude oil;
(2) combustible gas and hydrogen sulfide detection indicators; and

(3) pressure indicators on both the product and brine lines at the wellhead.

(l) Each permittee shall install emergency shutdown valves on all crude oil, brine, and water lines. Criteria for emergency shutdown valves shall include the following:

(1) (A) Be rated at least equivalent to 125 percent of the maximum pressure that could be exerted at the surface; or

(B) meet a pressure-rating standard equivalent to that specified in paragraph (1)(1)(A) and determined by the secretary to be protective of public health, safety, and the environment;

(2) fail to the closed position;

(3) be capable of remote and local operation; and

(4) be activated by the following:

(A) Overpressuring;

(B) underpressuring; and

(C) gas and heat detection.

(m) Each permittee shall conduct annual inspections of all wellhead instrumentation.

(n) Each permittee shall function-test each critical control system and emergency shutdown valve semiannually.

(o) Each permittee shall perform trip-testing of each loop, including the instrumentation, valves, shutdown equipment, and all wiring connections, to ensure the integrity of the circuit.

(p) Each permittee shall ensure that the equipment automatically closes all inlets and outlets to the storage cavern and safely shuts down or diverts any operation associated with the storage cavern, in case of overfilling or an emergency.

(q) Each permittee shall ensure that the automatic valve closure times meet the valve design limits for closure times.

(r) Each permittee shall cease operations or shall comply with the instructions from the secretary if the secretary determines that an imminent threat to public health, safety, or the environment exists due to any unsafe operating condition. The permittee may resume operations if the secretary determines that the facility's operations no longer pose a risk to public health, safety, or the environ-

ment. (Authorized by K.S.A. 55-1,117 and K.S.A. 2008 Supp. 55-1,117a; implementing K.S.A. 55-1,117; effective July 6, 2009.)

28-45b-12. Design and construction of storage wells. (a) Each permittee shall ensure that each storage well is constructed with surface casing. The following requirements shall apply:

(1) The surface casing shall be set through all fresh and usable water formations and into competent bedrock.

(2) The surface casing shall be cemented by circulating cement through the bottom of the casing to the surface.

(3) The annular space between the casing and the formation shall be filled with cement.

(b) Each permittee shall install in each storage well double casing protection with an intermediate casing and a production casing set into the upper part of the salt formation. The following requirements shall apply:

(1) The intermediate casing shall extend at least 105 feet into the salt formation.

(2) The production casing shall extend at least to the depth of the intermediate casing.

(3) The annular space between the intermediate and production casings and between the intermediate casing and formation shall be filled with cement by circulating cement through the bottom of the casing to the surface.

(c) For each existing storage well that does not have double casing protection, the permittee shall provide a casing protection evaluation as specified in K.A.R. 28-45b-14.

(d) The casing and tubing shall meet the performance standards for collapse resistance, internal yield pressure, and pipe body yield strength for the well's setting depths using criteria specified in the American petroleum institute's bulletin 5C2, which is adopted by reference in K.A.R. 28-45-14.

(e) Each permittee shall designate and maintain a maximum fill level above the bottom of the brine string. The permittee shall submit the following information:

(1) A schematic of the well construction;

(2) the cavern capacity as determined from the most recent sonar survey;

(3) supporting data that shows calculations used to determine the maximum fill level; and

(4) the method that will be used to maintain the maximum fill level.

(f) Only new steel casing shall be installed in a new storage well. Used parts, materials, and

equipment that have been tested and certified for continued service may be used for repairs.

(g) Liners shall extend from the surface to a depth near the bottom of the production casing that allows room for workover operations.

(h) The following cementing requirements shall be met:

(1) The cement shall be compatible with the rock formation water and the drilling fluids. Salt-saturated cement shall be used when cementing through the salt section.

(2) The cement across the confining zone and to the surface shall have a compressive strength of not less than 1,000 pounds per square inch.

(3) Remedial cementing shall be completed if there is evidence of either of the following:

(A) Communication between the confining zone and other horizons; or

(B) annular voids that would allow either fluid contact with the casing or channeling across the confining zone or above the confining zone.

(4) The following requirements for cement evaluation shall apply:

(A) Samples shall be obtained at the start and end of the cementing operation for evaluation of cement properties. All cement samples collected shall be representative of the cement being utilized.

(B) All samples shall be tested for compressive strength.

(C) A cement bond log shall be run on the surface casing, intermediate casing, and cemented production casing after the neat cement has cured for at least 72 hours.

(i) Casing patches shall be prohibited, unless the secretary determines that the use of casing patches is protective of public health, safety, and the environment. The following requirements shall apply:

(1) Each permittee shall submit a plan for the installation of the casing patch to the secretary.

(2) Each permittee shall meet the requirements specified in the department's document titled "procedure for internal casing repair," which is adopted by reference in K.A.R. 28-45-14.

(j) Each permittee shall pressure-test each production casing for leaks when the well construction is completed.

(k) Each permittee shall submit a casing inspection base log for the entire cased interval for the innermost casing string or for the cemented liner that extends the entire length of the casing after the well construction is completed.

(l) Each permittee shall contain, in a tank, all workover wastes, drilling fluids, drilling mud, and drill cuttings from any drilling operation or workover. Drilling fluids, drilling mud, and drill cuttings shall be disposed of in a manner determined by the secretary to be protective of public health, safety, and the environment.

(m) A licensed professional engineer shall review and approve the construction plans for the crude oil storage well and cavern system.

(n) A licensed professional engineer or a licensed geologist, or the licensed professional engineer's or licensed geologist's designee, shall supervise the installation of each storage well.

(o) Each permittee shall maintain a corrosion control system. The following requirements shall apply:

(1) The corrosion control system shall be capable of protecting the well casings.

(2) The corrosion control system shall be assessed according to the protocol and time schedule recommended by the corrosion control system manufacturer, and the results shall be reported to the secretary. (Authorized by K.S.A. 55-1,117 and K.S.A. 2008 Supp. 55-1,117a; implementing K.S.A. 55-1,117; effective July 6, 2009.)

28-45b-13. Monitoring. (a) Each permittee shall ensure that pressure sensors continuously monitor wellhead pressures for both the product and brine sides at the wellhead for each storage well. The following requirements shall apply:

(1) The pressure sensor shall be capable of recording the maximum and minimum operating pressures during a 24-hour period.

(2) The pressure sensor shall be capable of recording operating pressures at an interval approved by the secretary.

(3) Each permittee shall provide pressure data, including historic continuous monitoring, to the secretary upon request.

(b) Each permittee shall submit a plan for any monitoring activity, including logging and sonar surveys, to the secretary for review and consideration for approval to ensure the protection of public health, safety, and the environment, at least 60 days before the commencement of these monitoring activities.

(c) Each permittee shall submit a summary and the results of the monitoring activity to the secretary within 45 days after completion of the monitoring activity.

(d) Each permittee shall monitor the thickness of the salt roof for each cavern with a gamma ray

log and a density log, or with another log as specified in K.A.R. 28-45b-4, as follows:

- (1) Every five years;
 - (2) every three years, if the cavern meets criteria specified in K.A.R. 28-45b-4;
 - (3) at any time that the secretary determines that cavern integrity is suspect; and
 - (4) before plugging the well.
- (e) Each permittee shall monitor the cavern storage capacity and the cavern geometry with a sonar survey. The sonar survey shall be conducted as follows:

- (1) Before placing the underground crude oil storage cavern in service;
- (2) every 10 years;
- (3) for determining the stability of the cavern and the overburden if the salt roof thickness and cavern geometry indicate that the stability of the cavern or overburden is at risk;
- (4) after any growth of the cavern that results in a solution volume increase of 20 percent or more of cavern capacity; and
- (5) before plugging the well if a sonar survey has not been run in the past five years.

(f) Any permittee may use an alternative method for the sonar survey if the secretary determines that the alternative method is substantially equivalent to the method specified in subsection (e). The permittee shall submit the following information for the secretary's consideration:

- (1) A description of the proposed method and the theory for its operation;
- (2) a description of the storage well and cavern conditions under which the log can be used;
- (3) the procedure for interpreting the survey results; and
- (4) an assessment of the capacity and stability of the cavern upon completion of the survey.

(g)(1) Each applicant shall submit a ground subsidence monitoring plan to the secretary with the permit application. The ground subsidence monitoring plan shall include the following information:

- (A) A description of the method for conducting an elevation survey; and
- (B) the criteria for establishing monuments, benchmarks, and wellhead survey points.

(2)(A) Each permittee shall meet the following requirements:

- (i) Ensure level measurements to the accuracy of 0.01 foot;
- (ii) report any surface elevation changes in excess of 0.10 foot within 24 hours to the secretary;

(iii) for any change in established benchmarks, submit justification that the change is protective of public health, safety, and the environment; and

(iv) for each change in established benchmarks, note the elevation change from the previous benchmark noted in the elevation survey report.

(B) Each permittee shall submit the elevation before and after any wellhead work that results in a change in the survey point at the wellhead.

(C) The elevation survey shall be conducted by a licensed professional land surveyor.

(D) Each permittee shall submit biennial survey results to the department within 30 days after completion of the survey.

(h) Before commencing facility operations, each permittee shall submit to the secretary, for review and consideration for approval, an inventory balance plan for measuring the volume of crude oil injected into or withdrawn from each underground crude oil storage well, including methods for measuring and verifying volume. (Authorized by K.S.A. 55-1,117 and K.S.A. 2008 Supp. 55-1,117a; implementing K.S.A. 55-1,117; effective July 6, 2009.)

28-45b-14. Testing and inspections.

(a) Each permittee shall submit a plan to the secretary for review and consideration for approval to ensure the protection of public health, safety, and the environment, before conducting any testing of a storage well or a cavern. Testing shall not commence without prior approval from the secretary.

(b) Each permittee shall submit a summary of the testing to the secretary within 45 days after completing the test. The summary shall include the following:

- (1) A chronology of the test;
- (2) copies of all logs;
- (3) storage well construction information;
- (4) pressure readings;
- (5) volume measurements; and
- (6) an explanation of the test results.

(c) Each permittee shall test each unplugged storage well and cavern for mechanical integrity. The following requirements shall apply:

(1) Integrity tests shall be conducted on the storage well and cavern as follows:

- (A) Before the cavern is initially placed in service;
- (B) every five years after the initial service date;
- (C) before the storage well is placed back in service after being in monitoring status; and
- (D) before the well is plugged, unless the mechanical integrity test has been performed in the last five years.

(2) Integrity tests shall be conducted on the underground crude oil storage well after each workover that involves physical changes to any cemented casing string.

(3) Each underground crude oil storage cavern shall be tested for mechanical integrity using a product-brine interface test.

(4) The nitrogen-brine test may be used if the surface equipment is rated for the nitrogen pressure on the upstream side of the well head valves.

(5) Each underground crude oil storage well shall be tested for mechanical integrity using one of the following:

(A) An interface test capable of identifying the location of a leak in the casing; or

(B) a hydraulic casing test.

(6) Each permittee shall submit a test procedure plan, on a form furnished by the department, to the secretary for review and consideration for approval at least 30 days before test commencement. The plan shall include the following information:

(A) The justification for test parameters;

(B) the test sensitivities; and

(C) the pass and fail criteria for the test.

(7) Each permittee shall notify the secretary at least five days before conducting any integrity test.

(8) The integrity test shall be conducted at the maximum allowable operating pressure.

(9) All test procedures shall use certified gauges and pressure transducers that have been calibrated annually.

(d) Any permittee may use an alternative integrity test if the secretary determines that the alternative integrity test is substantially equivalent to the integrity tests specified in subsection (c). The permittee shall submit the following information for the secretary's consideration:

(1) A description of the test method and the theory of operation, including the test sensitivities, a justification for the test parameters, and the pass and fail criteria for the test;

(2) a description of the well and cavern conditions under which the test can be conducted;

(3) the procedure for interpreting the test results; and

(4) an interpretation of the test upon completion of the test.

(e) No storage well and cavern shall be used for storage if the mechanical integrity is not verified.

(f) Each permittee shall submit a casing evaluation for each underground crude oil storage well. Acceptable casing evaluation methods shall include magnetic flux and ultrasonic imaging.

(g) Any permittee may use an alternative casing evaluation method if the secretary determines that the alternative casing evaluation method is substantially equivalent to the casing evaluation methods specified in subsection (f). The permittee shall meet the following requirements:

(1) Each permittee shall submit a description of the logging method, including the theory of operation and the well conditions suitable for log use.

(2) Each permittee shall submit the specifications for the logging tool, including tool dimensions, maximum temperature and pressure rating, recommended logging speed, approximate image resolution, and hole size range.

(3) Each permittee shall describe the capabilities of the log for determining the following:

(A) The presence of any metal loss due to either of the following:

(i) Internal or external corrosion; or

(ii) internal wear;

(B) the degree of penetration of the corrosion or the casing defect; and

(C) the circumferential extent of the corrosion or the casing defect.

(4) Each permittee shall submit a log and an interpretation of the log to the secretary.

(h) Each permittee shall submit a casing evaluation according to the following time schedule:

(1) Every 10 years for either of the following conditions:

(A) The storage well has double casing protection; or

(B) an existing storage well has a liner and a production casing;

(2) after any workover involving the cemented casing; and

(3) every five years, if the storage well does not have double casing protection or if a determination is made by the secretary that the integrity of the long string casing could be adversely affected by any naturally occurring condition or man-made activity.

(i) Each permittee shall submit a cement bond log with the casing evaluation if a cement bond log has not been previously submitted.

(j) A licensed professional engineer or licensed geologist, or licensed professional engineer's or licensed geologist's designee, shall supervise all test procedures and associated field activity.

(k) Each permittee shall have a licensed professional engineer or licensed geologist review all test results.

(l) Each permittee shall visually inspect each wellhead monthly for any leakage.

(m) Each permittee shall conduct an inspection of facility records, using a form furnished by the department, every two years to ensure that the required records are being maintained in accordance with these regulations. The permittee shall maintain these records at the facility and shall make the records available to the secretary upon request. (Authorized by K.S.A. 55-1,117 and K.S.A. 2008 Supp. 55-1,117a; implementing K.S.A. 55-1,117; effective July 6, 2009.)

28-45b-15. Groundwater monitoring. (a) Each applicant shall submit a groundwater monitoring plan with the permit application to the secretary for review and consideration for approval to ensure the protection of public health, safety, and the environment.

(b) Each permittee shall ensure that the groundwater monitoring wells meet the following requirements:

(1) Each permittee shall set the screen in each shallow monitoring well at a depth that is inclusive of the seasonal fluctuation of the water table.

(2) Each permittee shall ensure that all deep groundwater monitoring wells extend a minimum of 25 feet into the bedrock, or to a depth based on the geology and hydrogeology at the facility and approved by the secretary to ensure the protection of public health, safety, and the environment.

(c) All well locations and the spacing between all well locations shall be based on the geology and the hydrogeology at the facility and shall be required to be approved by the secretary to ensure the protection of public health, safety, and the environment.

(d) Before commencing facility operations, each applicant shall submit a quality assurance plan, including techniques for sampling and analysis, to the secretary for review and consideration for approval to ensure the protection of public health, safety, and the environment.

(e) Each permittee shall collect groundwater samples and analyze the samples for chlorides and any other parameter determined by the secretary to pose a threat to public health, safety, and the environment. The reporting format shall be determined by the secretary.

(f) Each permittee shall submit the results for chloride analyses from groundwater samples to the department on a quarterly basis.

(g) Each permittee shall monitor monthly for the presence of combustible gas in the headspace

in monitoring wells and shall quarterly submit the results to the department.

(h) Each permittee shall submit a static groundwater level measurement for each monitoring well with the quarterly chloride analyses results specified in subsection (f).

(i) Any permittee of a facility where chloride concentrations in the groundwater exceed 250 milligrams per liter may be required by the secretary to submit a work plan, for review and consideration for approval, that describes the methods to delineate potential source areas and to control migration of the chloride contamination.

(j) Each permittee of a well in which combustible gas is detected shall submit a work plan to the secretary for review and consideration for approval. Each permittee shall describe the proposed methods to eliminate any source areas and return the combustible gas levels to levels that do not pose a potential threat to public health, safety, or the environment. The plan shall be approved if the secretary determines that the plan is protective of public health, safety, and the environment. (Authorized by K.S.A. 55-1,117 and K.S.A. 2008 Supp. 55-1,117a; implementing K.S.A. 55-1,117; effective July 6, 2009.)

28-45b-16. Record requirements and retention. (a) Each permittee shall submit an annual report, on a form approved by the department, on or before April 1 of each year. The annual report shall include the following:

(1) A description of any incident of uncontrolled or unanticipated product loss;

(2) the well number and date of any logs or sonar surveys conducted;

(3) the estimated storage capacity for each cavern associated with an unplugged well;

(4) a list of any caverns being washed;

(5) a list of the volume of product injected and withdrawn for each storage well;

(6) a list, by well number, of the type of product stored; and

(7) a list, by well number, of the maximum and minimum product storage pressures encountered during the report year.

(b) Each permittee shall maintain facility records at the facility or at a location approved by the secretary for the following time periods:

(1) A period of 10 years, for the following records:

(A) The maximum and minimum operating pressures for each storage well; and

(B) the annual inspections required by the secretary;

(2) the life of each storage well, for the following records:

(A) The casing records for each storage well;

(B) the cementing records for each storage well;

(C) the workover records;

(D) monitoring information, including calibration and maintenance records; and

(E) continuous monitoring data; and

(3) the life of the facility, for the following records:

(A) All logging events;

(B) all mechanical integrity tests and other testing;

(C) all groundwater monitoring data; and

(D) all correspondence relating to the permit, including electronic mail.

(c) Surface elevation surveys shall be maintained and retained for the life of facility plus 20 years after the facility's closure.

(d) If the facility permit is transferred, the former permittee shall provide all required facility records, reports, and documents to the new permittee. (Authorized by K.S.A. 55-1,117 and K.S.A. 2008 Supp. 55-1,117a; implementing K.S.A. 55-1,117; effective July 6, 2009.)

28-45b-17. Well workovers. (a) Each permittee shall submit a workover plan to the secretary for review and consideration for approval to ensure the protection of public health, safety, and the environment. The following provisions shall apply:

(1) Each permittee shall submit the workover plan at least 10 days before performing any downhole or wellhead work that involves dismantling or removal of the wellhead.

(2) A permittee shall not be required to submit a workover plan for routine maintenance or replacement of gauges, sensors, or valves.

(3) Verbal authorization to initiate downhole or wellhead work may be issued by the secretary if the permittee has fulfilled the requirements of this subsection.

(b) Each permittee shall ensure that a blowout preventer with a pressure rating greater than the pressures anticipated to be encountered is used during each workover.

(c) Each permittee shall ensure that all logging procedures are conducted through a lubricator unit with a pressure rating greater than the pressures anticipated to be encountered.

(d) Each permittee shall provide to the person logging a storage well or performing a well workover all relevant information concerning the status and condition of the storage well and cavern before initiating any work. (Authorized by K.S.A. 55-1,117 and K.S.A. 2008 Supp. 55-1,117a; implementing K.S.A. 55-1,117; effective July 6, 2009.)

28-45b-18. Plugging and plugging-monitoring requirements. (a) Each permittee shall submit a plugging plan, including monitoring and testing requirements, to the secretary for review and consideration for approval at least 60 days before each plugging event.

(b) Each permittee shall follow the plugging procedure for a plugging event specified in the department's document titled "procedure for the plugging and abandonment of a crude oil storage well," procedure #UICLPG-29, dated October 2008, which is hereby adopted by reference.

(c) Each permittee wishing to place a storage well and cavern into plugging-monitoring status shall submit a plugging-monitoring plan to the secretary for review and consideration for approval at least 60 days before the plugging-monitoring event. The plan shall include the following:

(1) A schematic of the storage well configuration;

(2) the most recent results from the gamma-density log, the casing inspection log, the cement bond log, and the sonar survey; and

(3) the procedure for placing the cavern into plugging-monitoring status.

(d) Each permittee of a crude oil storage well to be placed into plugging-monitoring status may be required to perform additional testing or logging before placing the cavern into plugging-monitoring status if either of the following conditions exists:

(1) The required logging and testing are not current.

(2) A lack of storage well or cavern integrity poses a threat to public health, safety, or the environment.

(e) Each permittee of a storage well and cavern placed into plugging-monitoring status shall monitor the cavern pressure with a gauge on a weekly basis or continue to monitor pressures with a pressure transducer connected to a supervisory control and data acquisition system.

(f) Each permittee shall report any unexpected increase or decrease in pressure at a well in plugging-monitoring status to the secretary within 24 hours. Testing, logging, or any other necessary

measures may be required by the secretary to determine if a threat to public health, safety, or the environment exists.

(g) Each permittee shall restore and preserve the integrity of the site as follows:

(1) Dispose of all liquid waste in an environmentally safe manner;

(2) clear the area of debris;

(3) drain and fill all excavations;

(4) remove all unused concrete bases, machinery, and materials; and

(5) level and restore the site. (Authorized by K.S.A. 55-1,117 and K.S.A. 2008 Supp. 55-1,117a; implementing K.S.A. 55-1,117; effective July 6, 2009.)

28-45b-19. Underground crude oil storage fees. (a) Each permit applicant shall submit a fee of \$700 for each proposed storage well with the permit application.

(b) Each permittee shall submit an annual permit fee of \$18,890 per facility and \$305 per unplugged storage well on or before April 1 of each year.

(c) Fees shall be made payable to the “Kansas department of health and environment — subsurface hydrocarbon storage fund.”

(d) The fees collected under the provisions of this regulation shall not be refunded.

(e) If ownership of an underground crude oil storage well or underground crude oil storage facility changes during the term of a valid permit, no additional fee shall be required unless a change occurs that results in a new storage well or an expanded facility operation. (Authorized by K.S.A. 55-1,117 and K.S.A. 2008 Supp. 55-1,117a; implementing K.S.A. 55-1,117; effective July 6, 2009.)

28-45b-20. Permit required for a brine pond. Since the underground storage of crude oil and the access to and transfer of crude oil are dependent on the safe and secure operation and maintenance of associated brine ponds, no person shall construct, operate, or maintain any brine pond associated with an underground crude oil storage facility without first obtaining a brine pond permit from the secretary. (Authorized by K.S.A. 55-1,117 and K.S.A. 2008 Supp. 55-1,117a; implementing K.S.A. 55-1,117; effective July 6, 2009.)

28-45b-21. Brine pond permit application; permit renewal. (a)(1) Each applicant for a permit for a new brine pond shall submit an appli-

cation to the secretary at least 90 days before the construction of the new brine pond commences. Brine pond construction shall not begin until the secretary has issued the permit.

(2) Upon review of the application, either of the following shall be issued by the secretary:

(A) A final permit if the application is approved; or

(B) a notice that the permit has been denied if the applicant has not complied with the applicable requirements of this article. The notice shall include justification for the permit denial.

(b) Each permit for a brine pond shall be authorized for a term not to exceed 10 years.

(c) Each permittee wanting to renew the permit shall submit a completed renewal application at least 90 days before the expiration date of the permit in effect.

(d) Each permit application for a new brine pond shall include a hydrogeological investigation conducted under the direction of a licensed geologist or a licensed professional engineer. Each hydrogeological investigation for a new brine pond shall include the following information:

(1) A site characterization for brine pond construction, which shall meet the following requirements:

(A) The bottom of the brine pond shall be determined by the lowest surface elevation of compacted or excavated soils used in creating the pond structure;

(B) all required excavations or boreholes shall be drilled to a depth of at least 10 feet below the bottom of the brine pond;

(C) the separation distance between the bottom of the brine pond and the water table, which shall meet one of the following requirements:

(i) A separation distance of at least 10 feet shall be maintained between the brine pond bottom and the water table; or

(ii) a separation distance of less than 10 feet shall require the installation of a clay tertiary sub-liner; and

(D) the surface area shall be measured at the interior top dike elevation;

(2) the location and elevation of each borehole or excavation, based on surface area, which shall be determined by the following criteria:

(A) At least two boreholes or excavations for each five acres of proposed brine pond surface area; or

(B) at least two boreholes or excavations if the brine pond surface area is less than five acres; and

(3) the following information for each borehole or excavation:

(A) A log of soil types encountered in each borehole or excavation; and

(B) a groundwater level measurement at each borehole or excavation.

(e) Each permittee shall notify the department at least five days before conducting any field activities for the hydrogeological investigation. (Authorized by K.S.A. 55-1,117 and K.S.A. 2008 Supp. 55-1,117a; implementing K.S.A. 55-1,117; effective July 6, 2009.)

28-45b-22. Public notice for a brine pond.

(a) Public notice shall be given by the secretary for the following permit actions:

(1) A permit application for any new brine pond associated with an underground crude oil storage well;

(2) a denied permit; and

(3) a scheduled hearing.

(b) The public notice and, if applicable, a copy of the draft permit shall be mailed or electronically mailed by the department to the permit applicant.

(c) Each public notice shall be mailed by the department to the following:

(1) Any person who submits a written request for placement on the mailing list;

(2) the official county newspaper of each county in which the lands affected by the application are located, for publication in at least two issues; and

(3) the Kansas register.

(d) Each public notice shall include the following information:

(1) The name and address of the department processing the permit action for which the notice is being given;

(2) the name and address of the person seeking the permit;

(3) a brief description of the activity described in the permit application;

(4) the name, address, and telephone number of the person that interested persons may contact for further information, including copies of the application, draft permit, or other appropriate information;

(5) a brief description of the comment procedures for public notice; and

(6) a statement of the procedure to request a hearing and other procedures that allow public participation in the final permit decision.

(e) Any interested person may submit written

comments to the secretary on any permit action during the 30-day public comment period. The following requirements shall apply:

(1) Comments shall be submitted by the close of the public comment period.

(2) All supporting materials submitted shall be included in full. The supporting materials shall not be incorporated by reference, unless the supporting materials are any of the following:

(A) Part of the administrative record in the same proceeding;

(B) state or federal statutes and regulations;

(C) state or environmental protection agency documents of general applicability; or

(D) other generally available reference materials.

(3) Commentators shall make available to the secretary all supporting materials not already included in the administrative record.

(f) The response to all relevant comments concerning any permit actions and the reasons for changing any provisions in the draft permit shall be issued when the final permit decision is issued.

(g) The response to comments shall be made available to the public upon request. (Authorized by K.S.A. 55-1,117 and K.S.A. 2008 Supp. 55-1,117a; implementing K.S.A. 55-1,117; effective July 6, 2009.)

28-45b-23. Modification and transfer of a brine pond permit; variance.

(a) Any reissuance or modification of a brine pond permit and any variance may be authorized by the secretary for a term of less than 10 years.

(b) The automatic transfer of a brine pond permit shall be prohibited. The terms of a permit transfer shall include the following:

(1) Each person requesting a permit transfer shall submit a completed application to the secretary at least 60 days before the proposed effective date of the transfer.

(2) Each permittee shall comply with the requirements of the existing permit until the secretary reissues the permit.

(c) Any permit for a brine pond may be modified by the secretary for any of the following reasons:

(1) The secretary receives information not available when the permit was issued.

(2) The secretary receives a request for a modification.

(3) The secretary conducts a review of the permit file and determines that a modification is necessary.

(d) Only the permit actions subject to modification shall be reopened.

(e) Minor modifications that shall not require public notification shall include the following:

- (1) Correction of typographical errors;
- (2) requirements for more frequent monitoring or reporting by the permittee;
- (3) date change in a schedule of compliance;
- (4) change in ownership or operational control of the facility, unless the secretary determines that public notification is necessary to protect the public interest;
- (5) change in construction requirements, if approved by the secretary; and
- (6) amendments to a brine pond closure plan.

(f) A draft permit and notification to the public shall be required if any of the following conditions is met:

(1) A permittee proposes substantial alterations to the brine ponds or proposes any activity that justifies a change in permit requirements, including cumulative effects on public health, safety, or the environment.

(2) Information has become available that would have initially justified different permit conditions.

(3) The regulations on which the permit was based have changed because of the promulgation of new or amended regulations or because of a judicial decision.

(g) Any permittee may request a permit modification within 180 days after any of the following:

- (1) The adoption of any new regulations;
- (2) any deadline to achieve compliance with regulations before the expiration date of the permit; or
- (3) any judicial remand and stay of a promulgated regulation, if the permit condition was based on the remanded regulation. (Authorized by K.S.A. 55-1,117 and K.S.A. 2008 Supp. 55-1,117a; implementing K.S.A. 55-1,117; effective July 6, 2009.)

28-45b-24. Signatories for brine pond permit applications and reports. (a) Each applicant for a permit for a new brine pond shall designate at least one signatory to sign the permit applications and reports required by the secretary.

(b) The positions that may be approved by the secretary as signatories shall include any of the following:

- (1) Operations manager;
- (2) brine pond specialist; or

(3) any position with responsibility at least equivalent to that required by the positions listed in this subsection.

(c) Any signatory may submit written notification to the secretary specifying a position having responsibility for the overall operation of the facility or activity to act as a designated signatory.

(d) Each signatory and each signatory's designee shall submit a signature statement, on a form furnished by the department, to the secretary with the brine pond permit application. (Authorized by K.S.A. 55-1,117 and K.S.A. 2008 Supp. 55-1,117a; implementing K.S.A. 55-1,117; effective July 6, 2009.)

28-45b-25. Financial assurance for brine pond closure. (a) Each applicant for a permit for a new brine pond shall submit, with the application and annually thereafter on or before the permit renewal date, proof of financial assurance to the secretary.

(b)(1) Each brine pond permittee shall establish financial assurance for the decommissioning and abandonment of any brine pond permitted by the secretary under this article.

(2) Each applicant and each permittee shall meet the following requirements:

(A) Submit a detailed written estimate, in current dollars, of the cost to close any brine pond at the facility. The estimate shall be reviewed and approved by a licensed professional engineer or licensed geologist;

(B) develop an estimate of the closure cost for each brine pond at the facility as follows:

(i) The estimate shall be based on the cost charged by a third party to decommission the brine pond in accordance with this article; and

(ii) the brine pond shall be assumed to be at maximum storage capacity; and

(C) increase the closure cost estimate and the amount of financial assurance provided if any change in the brine pond closure plan or in the operation increases the maximum cost of brine pond closure at any time.

(c) Each permittee shall provide continuous financial assurance coverage for closure until the secretary approves the brine pond closure.

(d) Each permittee shall comply with the provisions of the department's document titled "procedure for demonstrating financial assurance for a brine pond associated with a storage facility," procedure # UICLPG-30, dated October 2008, which is hereby adopted by reference. (Autho-

rized by K.S.A. 55-1,117 and K.S.A. 2008 Supp. 55-1,117a; implementing K.S.A. 55-1,117; effective July 6, 2009.)

28-45b-26. Design, construction, and maintenance of brine ponds. (a) Each applicant for a brine pond permit shall submit a design and construction plan for each new brine pond associated with an underground crude oil storage facility to the secretary. The design and construction plan shall be approved if the secretary determines that the plan is protective of public health, safety, and the environment. Each brine pond shall be designed by a licensed professional engineer.

(b) Each applicant shall ensure that the impermeable synthetic membrane liner system for each brine pond consists of primary and secondary impermeable synthetic membrane liners with an intermediate leak detection system. The following requirements shall apply:

(1) The primary and secondary liners shall each be at least 30 mils in thickness.

(2) The engineer designing the brine pond shall obtain a certification from the liner manufacturer providing the following information:

(A) Confirmation that the specified liner is compatible for use with the brine;

(B) confirmation that the specified liner is ultraviolet-resistant; and

(C) data for the manufacturer's estimated leakage, permeability, or transmissivity rate for specific liners, including the rate of movement of fluids through the synthetic membrane liner due to the properties and thickness of the liner material, expressed in units of volume per area per time;

(D) any normally expected manufacturing defects in the liner material; and

(E) any normally expected defects associated with the seaming and installation process.

(c) Each brine pond permittee shall submit a contingency plan to the secretary that outlines the procedures for brine containment issues associated with brine pond maintenance and dewatering due to liner failure, repair, replacement, or expansion of the brine pond. The contingency plan shall be approved if the secretary determines that the plan is protective of public health, safety, and the environment.

(d) Each permittee of an existing brine pond and each applicant for a permit for a new brine pond shall submit a flood response plan if the brine pond is located in a floodplain or a flood-prone area.

(e) Each permittee shall cease operations or shall comply with instructions from the secretary if the secretary determines that an imminent threat to public health, safety, or the environment exists due to any unsafe operating condition. The permittee may resume operations if the secretary determines that the brine pond operations no longer pose a risk to public health, safety, or the environment.

(f) Each permittee shall ensure that the primary and secondary liners for each brine pond are separated to provide a conduit for the movement of any fluid between the liners to the leak detection monitoring location for detection and removal.

(g) Each permittee shall ensure that all materials between the primary and secondary liners are capable of transmitting at least $\frac{1}{64}$ inch per acre per day of flow with a head of no more than two feet placed on the secondary liner. Acceptable materials shall include the following:

(1) Clean sand;

(2) pea gravel;

(3) geotextile fabric;

(4) geonet-type material; and

(5) any alternatives recommended by the liner manufacturer, if the secretary determines that the alternatives are substantially equivalent to materials listed in this subsection.

(h) Each permittee shall ensure that the leak detection system design for each brine pond limits the maximum travel time required for fluid penetrating the liner to reach the leak detection monitoring location to 24 hours or less.

(i) Each permittee shall ensure that the bottom of each brine pond has a slope adequate for the proper operation of the leak detection system, with not less than 0.5 percent for the slope for the collection pipes and 1.0 percent for all other slopes.

(j) Each permittee shall ensure that the dewatering system design for each brine pond is capable of the following:

(1) Monitoring the volume of fluid removed from the intermediate space between the primary and secondary liners; and

(2) pumping the volume of fluid generated equal to 10 times the maximum allowable liner leakage rate.

(k) Each permittee shall ensure that the compaction of all brine pond embankments and of the upper six inches of the interior lagoon bottom below the secondary liner meets all of the following requirements:

(1) The maximum standard proctor density shall be at least 95 percent at optimum moisture to optimum moisture plus three percent.

(2) The maximum thickness of the layers of material to be compacted shall not exceed six inches.

(3) The moisture content range of the compacted soils shall be optimum moisture to optimum moisture plus three percent.

(4) The maximum size of dirt clods in the compacted soil shall be less than one inch in diameter.

(l) Each permittee shall ensure that the following requirements for the installation of the liners at each brine pond are met:

(1) The primary and secondary liners shall be anchored at the top of the brine pond dike in accordance with the liner manufacturer's instructions.

(2) Installation shall be performed in accordance with the liner manufacturer's instructions.

(3) Installation shall be performed by a contractor experienced in the installation of impermeable synthetic membrane liners.

(4) On-site supervision of the liner installation shall be provided by an individual that has experience in liner installation practices.

(m) Each permittee shall ensure that the volume of fluid monitored from the intermediate leak detection system at the brine pond is based on a rate of 10 percent of leak return system capacity and does not exceed 1,000 gallons per day per acre of pond area.

(n) Each permittee shall submit, to the secretary, a seam testing method to verify the adequacy of the seaming process for the liners at each brine pond. The following requirements shall apply:

(1) The testing method shall include the following:

(A) The methods for destructive and nondestructive seam testing;

(B) the protocol describing the number of tests per lineal foot of field seam;

(C) the size of the destructive test specimen required; and

(D) any other pertinent quality control provisions recommended by the liner manufacturer.

(2) All field seams shall be subjected to nondestructive testing.

(o) Each permittee shall install an oil-brine separator to separate entrained product from the brine used to transfer product. (Authorized by K.S.A. 55-1,117 and K.S.A. 2008 Supp. 55-1,117a; implementing K.S.A. 55-1,117; effective July 6, 2009.)

28-45b-27. Groundwater monitoring for brine ponds.

(a) Each applicant for a permit for a new brine pond shall submit a groundwater monitoring plan with the application for a brine pond permit to the secretary for review and consideration for approval. The monitoring plan shall be approved if the secretary determines that the plan is protective of public health, safety, and the environment.

(b) Each applicant for a permit for a new brine pond shall meet the following requirements:

(1) Install monitoring wells around the perimeter of the brine pond. The well spacing shall be based on the geology and hydrogeology at the facility and shall be approved by the secretary if the secretary determines that the well spacing is protective of public health, safety, and the environment; and

(2) set the screen in all shallow groundwater monitoring wells at a depth that is inclusive of the seasonal fluctuation of the water table.

(c) Each applicant for a permit for a new brine pond shall submit, with the groundwater monitoring plan, a quality assurance plan to the secretary for review and consideration for approval to ensure the protection of public health, safety, and the environment.

(d) Each permittee shall collect groundwater samples and analyze the samples for chloride and any other parameter determined by the secretary as posing a potential threat to public health, safety, and the environment. The reporting format shall be determined by the secretary.

(1) Each permittee shall submit the following to the department on a quarterly basis:

(A) The results for the chloride analyses from groundwater samples; and

(B) a static groundwater level measurement for each monitoring well.

(2) Each permittee shall monitor monthly for the presence of combustible gas in the headspace in monitoring wells and submit the results to the department on a quarterly basis.

(e) Any permittee of a brine pond where chloride concentrations in the groundwater exceed 250 milligrams per liter may be required by the secretary to submit a work plan, for review and consideration for approval, that describes proposed methods to delineate the extent of the contamination and to control migration of the chloride contamination. (Authorized by K.S.A. 55-1,117 and K.S.A. 2008 Supp. 55-1,117a; implementing K.S.A. 55-1,117; effective July 6, 2009.)

28-45b-28. Brine pond closure requirements. (a) Each brine pond permittee shall submit a closure plan, including monitoring and testing requirements, to the secretary for review and consideration for approval at least 60 days before the closure of a brine pond. The closure plan shall be approved if the secretary determines that the closure plan is protective of public health, safety, and the environment.

(b) The permittee shall not commence closure activities without the secretary's prior approval.

(c) Each permittee shall include the following information in the brine pond closure plan:

(1) The procedure for deactivating the various brine lines employed at the facility;

(2) the procedures for the remediation, removal, or disposal of brine, accumulated sludge in the brine pond, contaminated soils, and contaminated groundwater;

(3) a description regarding the proposed maintenance, deactivation, conversion, or demolition of the brine pond structure; and

(4) procedures addressing the plugging of any water wells or groundwater monitoring wells associated with the brine pond. (Authorized by K.S.A. 55-1,117 and K.S.A. 2008 Supp. 55-1,117a; implementing K.S.A. 55-1,117; effective July 6, 2009.)

Article 46.—UNDERGROUND INJECTION CONTROL REGULATIONS

28-46-1. General requirements. (a) Any reference in these regulations to standards, procedures, or requirements of 40 CFR Parts 124, 136, 144, 145, 146, or 261 shall constitute adoption by reference of the entire part, subpart, and paragraph so referenced, including any notes, charts, and appendices, unless otherwise specifically stated in these regulations, except for any references to NPDES, RCRA, PSD, ocean dumping permits, dredge and fill permits under section 404 of the clean water act, the non-attainment program under the clean air act, national emissions standards for hazardous pollutants (HESHAPS), EPA issued permits, and any internal CFR citations specific to those programs. Each reference to 40 CFR 146.04, 40 CFR 146.06, 40 CFR 146.07, and 40 CFR 146.08 shall mean 40 CFR 146.4, 40 CFR 146.6, 40 CFR 146.7, and 40 CFR 146.8, respectively.

(b) When used in any provision adopted from 40 CFR Parts 124, 136, 144, 145, 146, or 261, references to “the United States” shall mean the

state of Kansas, “environmental protection agency” shall mean the Kansas department of health and environment, and “administrator,” “regional administrator,” “state director,” and “director” shall mean the secretary of the department of health and environment.

(c) When existing Kansas statutory and regulatory requirements are more stringent than the regulations adopted in subsection (a), the Kansas requirements shall prevail. (Authorized by and implementing K.S.A. 2009 Supp. 65-171d; effective May 1, 1982; amended, T-86-47, Dec. 19, 1985; amended May 1, 1986; amended March 21, 1994; amended Aug. 6, 2010.)

28-46-2a. Definitions. (a) The following federal regulations, as in effect on July 1, 2008, are hereby adopted by reference, except as specified:

(1) 40 CFR 124.2, except for the following terms and their definitions:

- (A) “Application”;
- (B) “director”;
- (C) “draft permit”;
- (D) “eligible Indian tribe”;
- (E) “environmental appeals board”;
- (F) “facility or activity”;
- (G) “Indian tribe”;
- (H) “major facility”;
- (I) “owner or operator”;
- (J) “permit”;
- (K) “regional administrator”;
- (L) “SDWA”; and
- (M) “state”;

(2) 40 CFR 144.3, except for the following terms and their definitions:

- (A) “Application”;
- (B) “approved state program”;
- (C) “appropriate act and regulations”;
- (D) “director”;
- (E) “draft permit”;
- (F) “eligible Indian tribe”;
- (G) “Indian tribe”;
- (H) “state”;
- (I) “total dissolved solids”; and
- (J) “well”;

(3) 40 CFR 144.61;

(4) 40 CFR 146.3, except for the following terms and their definitions:

- (A) “Application”;
- (B) “director”;
- (C) “exempted aquifer”;
- (D) “facility or activity”;
- (E) “Indian tribe”;

(F) “owner or operator”;
(G) “permit”;
(H) “SDWA”;
(I) “site”; and
(J) “well”; and
(5) 40 CFR 146.61(b), except for the term “cone of influence” and its definition.

(b) In addition to the definitions adopted in subsection (a), the following definitions shall apply in this article:

(1) “Application” means the standard departmental form or forms required for applying for a permit, including any additions, revisions, and modifications to the forms.

(2) “Authorized by rule,” when used to describe an injection well, means that the well meets all of the following conditions:

(A) The well is a class V injection well.

(B) The well is in compliance with this article.

(C) The well is not prohibited, as specified in K.A.R. 28-46-26a.

(D) The well is not required by the secretary to have a permit.

(3) “Cone of impression” means the mound in the potentiometric surface of the receiving formation in the vicinity of the injection well.

(4) “Cone of influence” means the area around a well within which increased injection pressures caused by injection into the well would be sufficient to drive fluids into an underground source of drinking water (USDW).

(5) “Department” means the Kansas department of health and environment.

(6) “Director” means director of the division of environment of the Kansas department of health and environment.

(7) “Draft permit” means a document prepared by the department after receiving a complete application or making a tentative decision that an existing permit shall be modified and reissued, indicating the secretary’s tentative decision to either issue a permit or deny a permit. A draft permit is not required for a minor modification of an existing permit.

(8) “Existing salt solution mining well” means a well authorized and permitted by the secretary before the effective date of these regulations.

(9) “Fracture pressure” means the wellhead pressure that could cause vertical or horizontal fracturing of rock along a well bore.

(10) “Gallery” means a series of two or more salt solution mining wells that are artificially connected within the salt horizon and are produced

as a system with one or more wells designated for withdrawal of solutioned salt.

(11) “Injection well facility” and “facility” mean the acreage associated with the injection field and with facility boundaries approved by the secretary. These terms shall include the injection wells, wellhead, and any related equipment, including any appurtenances associated with the well field.

(12) “Maximum allowable injection pressure” means the maximum wellhead pressure not to be exceeded as a permit condition.

(13) “Motor vehicle waste disposal well” and “MVWDW” mean a disposal well that received, receives, or has the potential to receive fluids from vehicular repair or maintenance activities.

(14) “Notice of intent to deny” means a draft permit indicating the secretary’s tentative decision to deny a permit.

(15) “Production casing,” when used for a class III well, means the casing inside the surface casing of a well that extends into the salt formation.

(16) “Salt roof” means a distance, determined in feet, from the highest point of a salt solution mining cavern to the top of the salt formation. This distance shall be approved by the secretary.

(17) “Secretary” means the secretary of the Kansas department of health and environment or the secretary’s authorized representative.

(18) “Transportation artery” means any highway, county road, township road, private road, or railroad, excluding any existing right-of-way, not owned or leased by the permittee.

(19) “Well” means any of the following:

(A) A bored, drilled, or driven shaft whose depth is greater than the largest surface dimension;

(B) A dug hole whose depth is greater than the largest surface dimension;

(C) A sinkhole modified to receive fluids; or

(D) A subsurface fluid distribution system. (Authorized by and implementing K.S.A. 2009 Supp. 55-1,117 and 65-171d; effective March 2, 2007; amended Aug. 6, 2010.)

28-46-3. Classification of injection wells.

40 CFR 144.6, 40 CFR 144.80, 40 CFR 144.81, and 40 CFR 146.5, as in effect on July 1, 2008, are adopted by reference. (Authorized by and implementing K.S.A. 2009 Supp. 55-1,117 and 65-171d; effective May 1, 1982; amended, T-83-49, Dec. 22, 1982; amended May 1, 1983; amended, T-86-47, Dec. 19, 1985; amended May 1, 1986; amended March 21, 1994; amended Aug. 6, 2010.)

28-46-4. Injection of hazardous or radioactive wastes into or above an underground source of drinking water. The injection of hazardous or radioactive wastes into or above an underground source of drinking water shall be prohibited. (Authorized by and implementing K.S.A. 2009 Supp. 65-171d; effective May 1, 1982; amended, T-86-47, Dec. 19, 1985; amended May 1, 1986; amended Aug. 6, 2010.)

28-46-5. Application for injection well permits. (a) 40 CFR 124.3, except (d), and 40 CFR 144.31, except (c)(1), as in effect on July 1, 2008, are adopted by reference. In addition, the provisions of K.S.A. 65-3437, and amendments thereto, that relate to hazardous waste injection wells shall apply to class I hazardous waste injection wells.

(b) A draft permit shall not be prepared if an applicant fails or refuses to correct deficiencies in the permit application. (Authorized by and implementing K.S.A. 2009 Supp. 55-1,117 and 65-171d; effective May 1, 1982; amended, T-83-49, Dec. 22, 1982; amended May 1, 1983; amended, T-86-47, Dec. 19, 1985; amended May 1, 1986; amended March 21, 1994; amended Aug. 6, 2010.)

28-46-6. Conditions applicable to all permits. 40 CFR 144.51(a) through (p), as in effect on July 1, 2008, are adopted by reference. (Authorized by and implementing K.S.A. 2009 Supp. 55-1,117 and 65-171d; effective May 1, 1982; amended, T-83-49, Dec. 22, 1982; amended May 1, 1983; amended, T-86-47, Dec. 19, 1985; amended May 1, 1986; amended March 21, 1994; amended Aug. 6, 2010.)

28-46-7. Draft permits. (a) Once an application is complete, a draft permit shall be issued by the secretary.

(b) Each draft permit issued after the secretary's decision to issue a permit shall contain the following information:

(1) All conditions under 40 CFR 144.51(a) through (p);

(2) all compliance schedules under 40 CFR 144.53;

(3) all monitoring requirements under 40 CFR 144.54; and

(4) all permit conditions under 40 CFR 144.52.

(c) If the secretary determines, after issuing a notice of intent to deny, that the decision to deny the permit application was incorrect, the notice of intent to deny shall be withdrawn and a draft per-

mit issued under subsection (b). (Authorized by and implementing K.S.A. 2009 Supp. 55-1,117 and 65-171d; effective May 1, 1982; amended, T-83-49, Dec. 22, 1982; amended May 1, 1983; amended, T-86-47, Dec. 19, 1985; amended May 1, 1986; amended March 21, 1994; amended Aug. 6, 2010.)

28-46-8. Fact sheets. 40 CFR 124.8, except (b)(9), as in effect on July 1, 2008, is adopted by reference. (Authorized by and implementing K.S.A. 2009 Supp. 55-1,117 and 65-171d; effective May 1, 1982; amended, T-83-49, Dec. 22, 1982; amended May 1, 1983; amended, T-86-47, Dec. 19, 1985; amended May 1, 1986; amended March 21, 1994; amended Aug. 6, 2010.)

28-46-9. Establishing permit conditions. 40 CFR 144.52, except for references to 40 CFR 144.4, 40 CFR 144.36, and part 145, as in effect on July 1, 2008, is adopted by reference. (Authorized by and implementing K.S.A. 2009 Supp. 55-1,117 and 65-171d; effective May 1, 1982; amended, T-83-49, Dec. 22, 1982; amended May 1, 1983; amended, T-86-47, Dec. 19, 1985; amended May 1, 1986; amended March 21, 1994; amended Aug. 6, 2010.)

28-46-10. Term of permits. (a) Class I, III, and V permits shall be effective for a fixed term not to exceed 10 years.

(b) If a permittee wishes to continue an activity regulated by the permit after the expiration date of the permit, the permittee shall submit an application to renew the permit. Each application to renew the permit shall be filed with the department at least 180 days before the permit expiration date. (Authorized by and implementing K.S.A. 2009 Supp. 55-1,117 and 65-171d; effective May 1, 1982; amended, T-86-47, Dec. 19, 1985; amended May 1, 1986; amended May 1, 1987; amended March 21, 1994; amended Aug. 6, 2010.)

28-46-11. Schedules of compliance. 40 CFR 144.53, except references to 40 CFR part 145, as in effect on July 1, 2008, is adopted by reference. (Authorized by and implementing K.S.A. 2009 Supp. 55-1,117 and 65-171d; effective May 1, 1982; amended, T-83-49, Dec. 22, 1982; amended May 1, 1983; amended, T-86-47, Dec. 19, 1985; amended May 1, 1986; amended March 21, 1994; amended Aug. 6, 2010.)

28-46-12. Requirements for recording and reporting of monitoring results. 40 CFR 144.54, as in effect on July 1, 2008, is adopted

by reference. (Authorized by and implementing K.S.A. 2009 Supp. 55-1,117 and 65-171d; effective May 1, 1982; amended, T-83-49, Dec. 22, 1982; amended May 1, 1983; amended, T-86-47, Dec. 19, 1985; amended May 1, 1986; amended March 21, 1994; amended Aug. 6, 2010.)

28-46-13. Effect of a permit. 40 CFR 144.35, as in effect on July 1, 2008, is adopted by reference. (Authorized by and implementing K.S.A. 2009 Supp. 55-1,117 and 65-171d; effective May 1, 1982; amended, T-83-49, Dec. 22, 1982; amended May 1, 1983; amended, T-86-47, Dec. 19, 1985; amended May 1, 1986; amended March 21, 1994; amended Aug. 6, 2010.)

28-46-14. Transfer of permits. 40 CFR 144.38, as in effect on July 1, 2008, is adopted by reference. (Authorized by and implementing K.S.A. 2009 Supp. 55-1,117 and 65-171d; effective May 1, 1982; amended, T-83-49, Dec. 22, 1982; amended May 1, 1983; amended, T-86-47, Dec. 19, 1985; amended May 1, 1986; amended March 21, 1994; amended Aug. 6, 2010.)

28-46-15. Modification and reissuance of permits. (a) Any permit may be modified and reissued either at the request of any interested person, including the permittee, or upon the secretary's initiative after conducting a review of the permit file.

(b) Each request from any interested person or the permittee shall be submitted in writing and shall contain facts or reasons supporting the request.

(c) If at least one of the causes listed in subsection (d) for modification or reissuance exists, a draft permit including the modifications to the existing permit shall be issued.

(d) Each of the following shall be cause for modification and reissuance:

(1) There are material and substantial alterations or additions to the permitted facility or activity that occurred after permit issuance and justify the application of permit conditions that are different from or absent in the existing permit.

(2) The secretary has received information indicating that the terms of the permit need modification because the information was not provided to the secretary when the permit was issued.

(3) The regulations on which the permit was based have been changed by promulgation of new or amended regulations or by judicial decision after the permit was issued.

(4) The secretary determines that good cause exists for modification of a compliance schedule, including an act of God, strike, flood, materials shortage, or any other event over which the permittee has little or no control and for which there is no reasonably available remedy.

(5) Cause exists for termination under K.A.R. 28-46-16, and the secretary determines that modification and reissuance is appropriate.

(6) The secretary determines that the waste being injected is a hazardous waste either because the definition of hazardous waste has been revised or because a previous determination has been changed.

(7) The secretary determines that the location of the facility is unsuitable because new information indicates that a threat to human health or the environment exists that was unknown at the time of permit issuance.

(e)(1) If the secretary decides to modify and reissue a permit, a draft permit under K.A.R. 28-46-7 shall be prepared by the secretary incorporating the proposed changes. Additional information may be requested by the secretary, and the submission of an updated application may be required by the secretary.

(2) If a permit is modified, only those conditions to be modified shall be reopened when a new draft permit is prepared. All other aspects of the existing permit shall remain in effect.

(3) A permit may be modified to make minor modifications to a permit without the issuance of a draft permit. Minor modifications shall include the following:

(A) Correcting typographical errors;

(B) requiring more frequent monitoring or reporting by the permittee;

(C) changing an interim compliance date in a schedule of compliance, if the new date is not more than 120 days after the date specified in the existing permit and does not interfere with attainment of the final compliance date requirement;

(D) allowing for a change in ownership or operational control of a facility if the secretary determines that no other change in the permit is necessary, if a written agreement containing a specific date for transfer of permit responsibility, coverage, and liability between the current and new permittee has been submitted to the secretary;

(E) changing quantities or types of fluids injected that are within the capacity of the facility as permitted, if the change meets the following conditions:

(i) The change would not interfere with the operation of the facility;

(ii) the change would not interfere with the facility's ability to meet conditions described in the permit; and

(iii) the change would not change the facility's classification;

(F) changing construction requirements previously approved by the secretary; and

(G) amending a plugging and abandonment plan that has been updated. (Authorized by and implementing K.S.A. 2009 Supp. 55-1,117 and 65-171d; effective May 1, 1982; amended, T-83-49, Dec. 22, 1982; amended May 1, 1983; amended, T-86-47, Dec. 19, 1985; amended May 1, 1986; amended March 21, 1994; amended Aug. 6, 2010.)

28-46-16. Termination of permits. 40 CFR 144.40, as in effect on July 1, 2008, is adopted by reference. (Authorized by K.S.A. 2009 Supp. 55-1,117 and 65-171d; implementing K.S.A. 2009 Supp. 55-1,117 and K.S.A. 65-165; effective May 1, 1982; amended, T-83-49, Dec. 22, 1982; amended May 1, 1983; amended, T-86-47, Dec. 19, 1985; amended May 1, 1986; amended March 21, 1994; amended Aug. 6, 2010.)

28-46-17. Minor modifications of permits. 40 CFR 144.41, as in effect on July 1, 2008, is adopted by reference. (Authorized by and implementing K.S.A. 2009 Supp. 55-1,117 and 65-171d; effective May 1, 1982; amended, T-83-49, Dec. 22, 1982; amended May 1, 1983; amended, T-86-47, Dec. 19, 1985; amended May 1, 1986; amended March 21, 1994; amended Aug. 6, 2010.)

28-46-18. Area permits. 40 CFR 144.33, as in effect on July 1, 2008, is adopted by reference. (Authorized by and implementing K.S.A. 2009 Supp. 55-1,117 and 65-171d; effective May 1, 1982; amended, T-83-49, Dec. 22, 1982; amended May 1, 1983; amended, T-86-47, Dec. 19, 1985; amended May 1, 1986; amended March 21, 1994; amended Aug. 6, 2010.)

28-46-19. Emergency permits. 40 CFR 144.34, as in effect on July 1, 2008, is adopted by reference. (Authorized by and implementing K.S.A. 2009 Supp. 55-1,117 and 65-171d; effective May 1, 1982; amended, T-83-49, Dec. 22, 1982; amended May 1, 1983; amended, T-86-47, Dec. 19, 1985; amended May 1, 1986; amended March 21, 1994; amended Aug. 6, 2010.)

28-46-20. Corrective action. 40 CFR 144.55, except reference to 40 CFR 146.33(b), 40 CFR 146.7, and 40 CFR 146.64, as in effect on July 1, 2008, are adopted by reference. (Authorized by and implementing K.S.A. 2009 Supp. 55-1,117 and 65-171d; effective May 1, 1982; amended, T-83-49, Dec. 22, 1982; amended May 1, 1983; amended, T-86-47, Dec. 19, 1985; amended May 1, 1986; amended March 21, 1994; amended Aug. 6, 2010.)

28-46-21. Public notice, public comments, and public hearings. 40 CFR 124.10 through 40 CFR 124.12 and 40 CFR 124.17, except references to 40 CFR 145.11, as in effect on July 1, 2008, are adopted by reference. (Authorized by and implementing K.S.A. 2009 Supp. 55-1,117 and 65-171d; effective May 1, 1982; amended, T-83-49, Dec. 22, 1982; amended May 1, 1983; amended, T-86-47, Dec. 19, 1985; amended May 1, 1986; amended March 21, 1994; amended Aug. 6, 2010.)

28-46-22. Signatories. 40 CFR 144.32, as in effect on July 1, 2008, is adopted by reference. (Authorized by and implementing K.S.A. 2009 Supp. 55-1,117 and 65-171d; effective May 1, 1982; amended, T-83-49, Dec. 22, 1982; amended May 1, 1983; amended, T-86-47, Dec. 19, 1985; amended May 1, 1986; amended March 21, 1994; amended Aug. 6, 2010.)

28-46-27. Prohibition of fluid movement into underground sources of drinking water. 40 CFR 144.12, except references to 40 CFR 144.21 through 144.24, as in effect on July 1, 2008, is adopted by reference. (Authorized by and implementing K.S.A. 2009 Supp. 55-1,117 and 65-171d; effective May 1, 1982; amended, T-83-49, Dec. 22, 1982; amended May 1, 1983; amended, T-86-47, Dec. 19, 1985; amended May 1, 1986; amended March 21, 1994; amended Aug. 6, 2010.)

28-46-28. Establishing maximum injection pressure. (a) A maximum allowable injection pressure for each injection well shall be established by the secretary as a permit condition.

(b)(1) All class I wells operating on other than gravity flow shall be prohibited.

(2) In the case of gravity flow, the positive well-head pressure for a class I well shall not exceed 35 pounds per square inch gauge.

(c) For all wells, the maximum operating pressure shall not be allowed to exceed fracture

pressure, except under either of the following conditions:

(1) The development of fractures for well stimulation operations; or

(2) the connection of a class III salt solution mining well to any other class III well for operation as a salt solution mining gallery. (Authorized by and implementing K.S.A. 2009 Supp. 55-1,117 and 65-171d; effective May 1, 1982; amended, T-86-47, Dec. 19, 1985; amended May 1, 1986; amended March 21, 1994; amended Aug. 6, 2010.)

28-46-29. Design and construction requirements. 40 CFR 146.12 and 40 CFR 146.65, governing class I wells, and 40 CFR 146.32, governing class III wells, as in effect on July 1, 2008, are adopted by reference. In addition, the following requirements shall apply to class III salt solution mining wells:

(a) Each salt solution mining well cavern wall shall meet the following requirements:

(1) Be located at least 50 feet from any other active or abandoned brine-supply wells or other holes or excavations penetrating the salt section, unless the wells, holes, or excavations have been properly plugged; and

(2) be located at least 50 feet from any existing surface structures not owned by the permittee, including any transportation artery.

(b) The cavern wall for each solution mining well shall be located at least 50 feet from the property boundaries of any owners who have not consented to the mining of salt under their property.

(c) Each salt solution mining wellhead shall be located at least 150 feet from the property boundaries of any owners who have not consented to the mining of salt under their property.

(d) For each new salt solution mining well, new steel surface casing shall be set through all freshwater formations and encased in cement from bottom to top by circulating cement through the bottom of the casing to the surface.

(e) For each new salt solution mining well, production casing shall be set into the upper part of the salt formation and encased in cement as specified in this regulation. The casing shall extend at least 55 feet into the salt formation. Centralizers shall be used on the outside of the production casing and shall not be spaced more than 100 feet apart. Before setting and cementing the production casing, the mudcake on the bore wall shall be removed by the use of scratchers or a washing method approved by the director. The cement for

that part of the casing opposite the salt formation shall be prepared with salt-saturated cement.

(f) A variance for each well not meeting the requirements of this regulation may be granted by the secretary if all the following conditions are met:

(1) The variance is protective of public health, safety, and the environment.

(2) The permittee agrees to perform any additional monitoring or well improvements, or any combination of these, if required by the secretary.

(3) The permittee agrees to conduct a geomechanical study in support of the variance request. The geomechanical study shall be conducted by a contractor experienced in conducting and interpreting geomechanical studies.

(g) Each permittee seeking a variance shall submit a written request to the secretary for review and consideration for approval. Each request shall include justification for the variance, the geomechanical study and interpretation, and any additional supporting information.

(h) A cement bond log shall be conducted on the production casing after the cement mixture has cured for at least 72 hours and shall be submitted to the department within 45 days after completion of the test. (Authorized by and implementing K.S.A. 2009 Supp. 55-1,117 and 65-171d; effective May 1, 1982; amended, T-83-49, Dec. 22, 1982; amended May 1, 1983; amended, T-86-47, Dec. 19, 1985; amended May 1, 1986; amended March 21, 1994; amended Aug. 6, 2010.)

28-46-29a. Operation of class III salt solution mining wells. (a) A class III salt solution mining well shall not be operated under any of the following conditions:

(1) The salt roof is less than 50 feet in thickness above the washed cavern.

(2) The solution cavern has been developed as a single well, and the dimensions of the cavern across a horizontal plane exceed 400 feet at any depth or 300 feet in the upper one-third of the potential cavern height.

(3) The top of the solution cavern is less than 250 feet from the ground surface.

(4) The solution cavern has been developed as part of a gallery, and the dimensions of the cavern across a horizontal plane exceed 400 feet at any depth or 300 feet in the upper one-third of the potential cavern height, except the route of interconnection between wells.

(5) The depth to the top of the salt section is less than 400 feet below land surface, and the di-

mensions of the cavern across a horizontal plane exceed 300 feet in diameter, except the route of interconnection between wells.

(6) The distance between adjacent galleries is less than 100 feet from the wall of a cavern in an adjacent gallery.

(7) There are leaks or losses of fluid in the casing or surface pipe of a well.

(b) A variance for any well not meeting the conditions in paragraphs (a)(2) and (a)(4) through (a)(6) may be granted by the secretary if all of the following conditions are met:

(1) The variance is protective of public health, safety, and the environment.

(2) The applicant or permittee agrees to perform any additional monitoring or well improvements, or any combination, if required by the secretary.

(3) The applicant or permittee agrees to conduct a geomechanical study in support of the variance request. The geomechanical study shall be conducted by a contractor experienced in conducting and interpreting geomechanical studies.

(c) Each applicant or permittee seeking a variance shall submit a written request to the secretary that includes justification for the variance, a geomechanical study and interpretation, and any additional supporting information for review and consideration for approval. (Authorized by and implementing K.S.A. 2009 Supp. 55-1,117 and 65-171d; effective Aug. 6, 2010.)

28-46-30. Monitoring and reporting requirements for class I wells. 40 CFR 146.13, 40 CFR 146.67, 40 CFR 146.68, and 40 CFR 146.69, as in effect on July 1, 2008, are hereby adopted by reference. In addition to 40 CFR 144.14, as adopted in K.A.R. 28-46-24 and 28-46-31, and 40 CFR 146.70, as adopted in K.A.R. 28-46-31, all of the following requirements shall apply to each class I hazardous waste injection well:

(a) Records of the continuously monitored parameters shall be maintained in addition to the monthly average of and the minimum and maximum values of the following parameters:

- (1) Injection pressure;
- (2) flow rate;
- (3) injection volume; and
- (4) annular pressure.

(b) The monitoring results shall be reported to the department on a monthly basis on forms provided by the department.

(c) The necessary number of monitoring wells in appropriate geologic zones for the early detection of contaminant migration shall be determined by the secretary to protect public health, safety, and the environment. (Authorized by and implementing K.S.A. 2009 Supp. 65-171d; effective May 1, 1982; amended, T-83-49, Dec. 22, 1982; amended May 1, 1983; amended, T-86-47, Dec. 19, 1985; amended May 1, 1986; amended March 21, 1994; amended Aug. 6, 2010.)

28-46-30a. Monitoring and reporting requirements for class III salt solution mining wells. 40 CFR 146.33, as in effect on July 1, 2008, is hereby adopted by reference. In addition, all of the following requirements shall apply to each permittee of a class III salt solution mining well:

(a) Within two years of the effective date of this regulation, each permittee shall submit a facility plan for monitoring the injection and withdrawal volumes and injection pressures that meets the secretary's approval and ensures the protection of public health, safety, and the environment.

(b) Each permittee shall monthly submit the following monitoring records to the department on a form provided by the department:

(1) The weekly injection and withdrawal volume for each salt solution mining well or gallery;

(2) the weekly injection and withdrawal ratio for each salt solution mining well or gallery; and

(3) a summary of the weekly minimum and maximum injection pressures for each salt solution mining well or gallery.

(c) Each permittee shall annually submit a report to the department, on a form provided by the department, which shall include the following information:

(1) For each well, a percentage of the remaining amount of salt that can potentially be mined in accordance with these regulations; and

(2) a summary of facility activities regarding abnormal fluid loss, well drilling, well plugging, geophysical well logging, sonar caliper surveys, mechanical integrity testing, calibration and maintenance of flow meters and gauges, elevation survey results, and the description of the model theory used to calculate the percentage of the total amount of remaining salt that can potentially be mined in accordance with these regulations.

(d) If an unanticipated loss of fluid has occurred or the monitoring system indicates that leakage has occurred and has been verified, the permittee shall notify the department orally within 24 hours

of discovery and shall provide written confirmation within seven days regarding the abnormal loss or leakage.

(e) A sonar caliper survey shall be conducted on each well when calculations based on a model, approved by the secretary, indicate that 20 percent of the total amount of remaining salt that can be potentially mined in accordance with these regulations has been mined. The well shall be checked by the permittee to determine the dimensions and configuration of the cavern developed by the solutioning. Thereafter, a sonar caliper survey shall be conducted when the calculations indicate that each additional 20 percent of the remaining salt that can be potentially mined in accordance with these regulations has been mined.

(f) Any permittee may use an alternative method for determining the dimensions and configuration of the solution mining cavern if the secretary determines that the alternative method is substantially equivalent to the sonar caliper survey. The permittee shall submit the following information for the secretary's consideration:

(1) A description of the survey method and theory of operation, including the survey sensitivities and justification for the survey parameters;

(2) a description of the well and cavern conditions under which the survey can be conducted;

(3) the procedure for interpreting the survey results; and

(4) an interpretation of the survey upon completion of the survey.

(g) More frequent monitoring of the cavern dimensions and configuration by sonar caliper survey may be required by the secretary if the secretary receives information that the cavern could be unstable. Each existing well shall meet the requirements of the survey frequency established in the well permit. The results of the survey, including logs and an interpretation by a contractor experienced in sonar interpretation, shall be submitted to the department within 45 days of completing the survey.

(h) Any permittee may submit a variance request regarding the sonar caliper survey frequency to the department, if both of the following conditions are met:

(1) The variance is protective of public health, safety, and the environment.

(2) The permittee agrees to perform any additional monitoring or well improvements, or any combination of these, if required by the secretary.

(i) Each permittee seeking a variance shall submit a written request, including justification for

the variance and any supporting data to the secretary for review and consideration for approval.

(j) Each permittee shall check the thickness of the salt roof at the end of two years of use and biennially thereafter, unless otherwise permitted by the secretary, by gamma ray log or any other method approved by the secretary. A report of the method used and a copy of the survey shall be submitted to the department within 45 days from completion of the test.

(k) Each permittee shall give oral notification to the department of a verified exceedence of the maximum permitted injection pressure within 24 hours of discovery of the exceedence and submit written notification within seven calendar days to the department.

(l) Each new well shall have a meter to measure injection or withdrawal volume. The permittee shall maintain records of these flow volumes at the facility and shall make the records available to the secretary upon request.

(m) Each permittee shall submit a ground subsidence monitoring plan to the secretary within two years after the effective date of these regulations. The following requirements shall apply:

(1) The ground subsidence monitoring plan shall include the following information:

(A) A description of the method for conducting an elevation survey; and

(B) the criteria for establishing monuments, benchmarks, and wellhead survey points.

(2) The ground subsidence monitoring plan shall meet all of the following criteria:

(A) Level measurements to the accuracy of 0.01 foot shall be made.

(B) Verified surface elevation changes in excess of 0.10 foot shall be reported within 24 hours of discovery to the department.

(C) No established benchmark shall be changed, unless the permittee submits a justification that the change is protective of public health, safety, and the environment.

(D) If a benchmark is changed, the elevation change from the previous benchmark shall be noted in the elevation survey report.

(E) Each permittee shall submit the elevation before and after any wellhead work that results in a change in the survey point at the wellhead.

(3) The elevation survey shall be conducted by a licensed professional land surveyor.

(4) All annual elevation survey results shall be submitted to the department within 45 days after completion of the survey.

(5) All certified and stamped field notes shall be made available by the permittee upon request by the secretary. (Authorized by and implementing K.S.A. 2009 Supp. 55-1,117 and 65-171d; effective Aug. 6, 2010.)

28-46-30b. Groundwater monitoring for class III salt solution mining wells. (a) Each permittee of a salt solution mining well shall submit a groundwater monitoring plan within two years after the effective date of these regulations to the secretary for review and consideration for approval to ensure the protection of public health, safety, and the environment.

(b) Within two years after the effective date of these regulations, each permittee shall submit a quality assurance plan, including techniques for sampling and analysis, to the secretary for review and consideration for approval to ensure the protection of public health, safety, and the environment.

(c) Each permittee shall collect groundwater samples and analyze the samples for chloride and any other parameters determined by the secretary to ensure the protection of public health, safety, and the environment. The sampling results shall be submitted to the department on forms provided by the department.

(d) Each permittee shall submit the results for chloride analyses from groundwater samples to the department on an annual basis or on a more frequent basis as determined by the secretary to ensure the protection of public health, safety, and the environment. These results shall be submitted on forms provided by the department.

(e) Each permittee shall submit a static groundwater level measurement for each monitoring well with the chloride analyses results as specified in subsection (d).

(f) At any facility where chloride concentrations in the groundwater exceed 250 milligrams per liter or the established background chloride concentration, the permittee may be required to submit a workplan that describes the methods to delineate potential source areas and to control migration of the chloride contamination to the secretary for review and consideration for approval to ensure the protection of public health, safety, and the environment. (Authorized by and implementing K.S.A. 2009 Supp. 55-1,117 and 65-171d; effective Aug. 6, 2010.)

28-46-31. Information to be considered by the secretary. 40 CFR 146.14, except for reference to 40 CFR 122.42 (g), 40 CFR 146.62,

40 CFR 146.66, 40 CFR 146.70 and 40 CFR part 144, subpart F, for class I wells and 40 CFR 146.34, for class III wells, as in effect on July 1, 2008, are adopted by reference. In addition, all of the following requirements shall be applicable to class I hazardous waste injections wells:

(a) Each applicant shall demonstrate that the well meets the requirements of K.S.A. 65-3439, and amendments thereto, relating to hazardous waste injection wells and applicable to class I hazardous waste injection wells.

(b) Each applicant shall be responsible for providing information to the department necessary to substantiate that well injection of the hazardous waste liquid in question is the most reasonable method of disposal after all other options have been considered.

(1) Factors to be considered in determining the most reasonable method shall include those required by K.S.A. 65-3439, and amendments thereto.

(2) All factors considered shall be documented in a report submitted to the department for review and consideration for approval.

(c) Each applicant shall determine, through a detailed record search and field survey, the location of each abandoned oil and gas well and exploratory hole within the area of review, as specified in K.A.R. 28-46-32.

(1) An interview with those responsible for drilling, producing, plugging, or witnessing these activities shall be a part of the record.

(2) The results of the field survey shall be documented in a report submitted to the department.

(3) A map geographically documenting the location of all the holes and abandoned wells within the area of review, as specified in K.A.R. 28-46-32, shall be included as a part of the report specified in paragraph (c)(2). (Authorized by and implementing K.S.A. 2009 Supp. 55-1,117 and 65-171d; effective May 1, 1982; amended, T-83-49, Dec. 22, 1982; amended May 1, 1983; amended, T-86-47, Dec. 19, 1985; amended May 1, 1986; amended March 21, 1994; amended Aug. 6, 2010.)

28-46-33. Mechanical integrity testing.

(a) A mechanical integrity test consisting of a pressure test with a liquid to evaluate the absence of a significant leak in the casing, tubing, or packer and a test to determine the absence of significant fluid movement through vertical channels adjacent to the wellbore shall be required of each class I and class III permittee on each injection well at least once every five years.

(1) For class I hazardous waste injection wells, the mechanical integrity test shall be conducted in accordance with 40 CFR 146.8, except for reference to 40 CFR 146.33(b), as in effect July 1, 2008, which is hereby adopted by reference, and 40 CFR 146.68(d), as adopted in K.A.R. 28-46-30, by conducting all of the following:

(A) A pressure test with a liquid of the casing, tubing, and packer at least annually and if there has been a well workover;

(B) a test of the bottom-hole cement by use of an approved radioactive survey at least annually;

(C) a temperature, noise, or oxygen activation log to test for movement of fluid along the borehole at least once every five years; and

(D) a casing inspection log at least once every five years.

(2) For class I non-hazardous waste injection wells, the mechanical integrity test shall be conducted in accordance with 40 CFR 146.8.

(3) For class III injection wells, the mechanical integrity test shall be conducted in accordance with 40 CFR 146.8, except the casing shall be pressure tested by the use of a mechanical packer or retrievable plug.

(b) Each permittee shall be notified at least 30 days in advance by the secretary that a mechanical integrity test shall be performed, or a permittee may notify the department that a voluntary mechanical integrity test will be performed at least 14 days in advance of the test.

(c) Each permittee shall be required to cease injection operations immediately and to conduct a mechanical integrity test if continued use of an injection well constitutes a threat to public health or to waters of the state. Injection operations shall not be resumed until all of the following conditions are met:

(1) The test has been conducted.

(2) The test has demonstrated that the well has mechanical integrity.

(3) The well has been approved for use by the secretary.

(d) The secretary's authorized representative shall witness all of the pressure mechanical integrity tests performed.

(e) Each permittee shall submit results of all mechanical integrity tests to the secretary, in writing, within 30 days after the test has been conducted.

(f) 40 CFR 144.51(q), as in effect on July 1, 2008, is adopted by reference. (Authorized by and implementing K.S.A. 2009 Supp. 55-1,117

and 65-171d; effective May 1, 1982; amended, T-83-49, Dec. 22, 1982; amended May 1, 1983; amended, T-86-47, Dec. 19, 1985; amended May 1, 1986; amended March 21, 1994; amended Aug. 6, 2010.)

28-46-34. Plugging and abandonment.

40 CFR 144.51(n), 40 CFR 144.52(a)(6), 40 CFR 146.10, except for reference to 40 CFR 144.23(b) and 40 CFR 146.04, 40 CFR 146.71, 40 CFR 146.72, and 40 CFR 146.73, as in effect on July 1, 2008, are adopted by reference. In addition, both of the following requirements shall apply to class III salt solution mining wells:

(a) The plugging of each salt solution mining well shall be conducted as specified in the department document titled "procedure for plugging and abandonment of a class III salt mining well," procedure #: UICIII-7, dated March 2005, and hereby adopted by reference.

(b) Any permittee may use an alternative method for the plugging of each salt solution mining well if the secretary determines that the alternative method is substantially equivalent to the procedure specified in subsection (a) and is protective of public health, safety, and the environment. The permittee shall submit a detailed description of the alternative plugging method for the secretary's consideration. (Authorized by and implementing K.S.A. 2009 Supp. 55-1,117 and 65-171d; effective May 1, 1982; amended, T-83-49, Dec. 22, 1982; amended May 1, 1983; amended, T-86-47, Dec. 19, 1985; amended May 1, 1986; amended March 21, 1994; amended Aug. 6, 2010.)

28-46-35. State inspection and right of entry. Each well owner or operator shall allow an authorized representative of the secretary access to the well facility for the purpose of determining compliance with these regulations. (Authorized by K.S.A. 2009 Supp. 55-1,117 and 65-171d; implementing K.S.A. 2009 Supp. 55-1,117 and K.S.A. 65-170b; effective May 1, 1982; amended, T-86-47, Dec. 19, 1985; amended May 1, 1986; amended Aug. 6, 2010.)

28-46-40. Exempted aquifers. (a) An aquifer may be designated by the secretary as exempt from protection as an underground source of drinking water. Criteria for exemption may include whether the aquifer meets one of the following conditions:

(1) Contains water with more than 10,000 milligrams per liter of total dissolved solids;

(2) produces mineral, hydrocarbon, or geothermal energy; or

(3) is situated at a depth that makes the recovery of water economically impractical.

(b) Each request to exempt an aquifer under subsection (a) shall be first submitted to and approved by the administrator of the United States environmental protection agency. (Authorized by and implementing K.S.A. 2009 Supp. 55-1,117 and 65-171d; effective May 1, 1982; amended, T-86-47, Dec. 19, 1985; amended May 1, 1986; amended Aug. 6, 2010.)

28-46-41. Sharing of information. 40 CFR 145.14, as in effect on July 1, 2008, is adopted by reference. (Authorized by K.S.A. 2009 Supp. 55-1,117 and 65-171d; implementing K.S.A. 2009 Supp. 55-1,117 and 65-170g; effective May 1, 1982; amended, T-83-49, Dec. 22, 1982; amended May 1, 1983; amended, T-86-47, Dec. 19, 1985; amended May 1, 1986; amended March 21, 1994; amended Aug. 6, 2010.)

28-46-44. Sampling and analysis techniques. (a) Sampling and analysis shall be performed in accordance with the techniques specified in 40 CFR part 136 and the appendices, as in effect on July 1, 2008, which are adopted by reference.

(b) If 40 CFR part 136 does not contain sampling and analytical techniques for the parameter in question or if the sampling and analytical techniques in part 136 are inappropriate for the parameter in question, the sampling and analysis shall be performed using validated analytical methods or other appropriate sampling and analytical procedures approved by the secretary to ensure the protection of public health, safety, and the environment. (Authorized by and implementing K.S.A. 2009 Supp. 55-1,117 and 65-171d; effective March 21, 1994; amended Aug. 6, 2010.)

28-46-45. Salt solution mining well operations; fees. (a) Each permittee shall submit an annual permit fee of \$12,000 per facility and \$175 per unplugged salt solution mining well to the department on or before April 1 of each year.

(b) Payment shall be made to the “Kansas department of health and environment - subsurface hydrocarbon storage fund.”

(c) The fees collected under this regulation shall be nonrefundable.

(d) If ownership of a salt solution mining well or salt solution mining facility changes during the

term of a valid permit, no additional fee shall be required unless a change occurs that results in a new salt solution mining well or expansion of the facility’s operation. (Authorized by and implementing K.S.A. 2009 Supp. 55-1,117; effective Aug. 6, 2010.)

Article 53.—CHARITABLE HEALTH CARE PROVIDERS

28-53-1. Definitions. (a) “Agreement” means a written understanding between the secretary and a “charitable health care provider,” as defined in K.S.A. 75-6102 and amendments thereto, regarding the rendering of professional services to a medically indigent person.

(b) “Department” means Kansas department of health and environment.

(c) “Federally qualified health center” means one of the following:

(1) An entity that meets the requirements for federal funding in 42 USC 1396d(l)(2)(B) and has been designated as a “federally qualified health center” by the federal government; or

(2) an entity that, based on the recommendation of the federal health resources and services administration, is deemed to meet the requirements of the federal grant program and has been designated a “federally qualified health center look-alike” by the federal government but does not receive the federal grant funding specified in 42 USC 1396d(l)(2)(B).

(d) “Indigent health care clinic” has the meaning specified in K.S.A. 75-6102, and amendments thereto.

(e) “Local health department” has the meaning specified in K.S.A. 65-241, and amendments thereto.

(f) (1) “Point of entry” means an entity that performs the following:

(A) Determines whether an individual meets the criteria for a medically indigent person;

(B) refers any medically indigent person to a charitable health care provider;

(C) has submitted a completed application to the department on forms prescribed by the department; and

(D) agrees to maintain records and submit an annual activity report as prescribed by the secretary.

(2) This term may include any of the following:

(A) An entity meeting the definition of “federally qualified health center” or “federally qualified health center look-alike”;

(B) an entity meeting the definition of “indigent health care clinic”; or

(C) an entity meeting the definition of “local health department.”

(g) “Secretary” means secretary of the Kansas department of health and environment. (Authorized by K.S.A. 75-6120; implementing K.S.A. 2010 Supp. 75-6102 and K.S.A. 75-6120; effective April 1, 1991; amended July 13, 1992; amended March 20, 2009; amended May 6, 2011.)

28-53-2. Agreement. (a) Each person or entity applying for an agreement shall submit a completed application to the department on forms prescribed by the department.

(b) An agreement may be terminated by the secretary, the charitable health care provider, or the point of entry with 30 days of prior written notice to the department. Failure of the charitable health care provider to maintain the required licensure shall constitute concurrent cancellation of the agreement. (Authorized by K.S.A. 75-6120; implementing K.S.A. 2010 Supp. 75-6102 and K.S.A. 75-6120; effective April 1, 1991; amended July 13, 1992; amended March 20, 2009; amended May 6, 2011.)

28-53-3. Eligibility criteria for a medically indigent person. An individual shall qualify as a medically indigent person if a point of entry determines that the individual meets either of the following requirements:

(a) Is determined to be a member of a family unit earning at or below 200% of the current federal poverty level and is not indemnified against costs arising from medical and dental care by a policy of accident and sickness insurance, an employee health benefits plan, or any similar coverage; or

(b) is eligible for publicly funded health care programs administered by the Kansas health policy authority or the department or is qualified for Indian health services. (Authorized by and implementing K.S.A. 75-6120; effective April 1, 1991; amended March 20, 2009.)

28-53-4. Records and reports. (a) Each charitable health care provider either shall meet the following requirements or shall ensure that each point of entry through which the charitable health care provider delivers care meets the following requirements:

(1) Maintains the completed forms prescribed by the department; and

(2) submits a completed annual activity report to the department on a form prescribed by the department.

(b) Failure of the charitable health care provider or the point of entry to comply with this regulation shall be grounds for termination of the agreement with the charitable health care provider. (Authorized by K.S.A. 75-6120; implementing K.S.A. 2010 Supp. 75-6102 and K.S.A. 75-6120; effective April 1, 1991; amended March 20, 2009; amended May 6, 2011.)

28-53-5. Referrals. Each referral of professional services shall be documented in the records of the point of entry. (Authorized by and implementing K.S.A. 75-6120; effective April 1, 1991; amended March 20, 2009.)

Article 54.—TRAUMA SYSTEM PROGRAM

28-54-1. Definitions. Each of the following terms used in this article shall have the meaning specified in this regulation:

(a) “ACS” means American college of surgeons.

(b) “Department” means Kansas department of health and environment.

(c) “Designation” means a determination by the secretary that a hospital shall provide the trauma care required of a level I trauma center, level II trauma center, level III trauma center, or level IV trauma center.

(d) “Level I trauma center” means a hospital that has the capability to provide the highest level of trauma care for every aspect of injury, from prevention through rehabilitation.

(e) “Level II trauma center” means a hospital that meets the following conditions:

(1) Provides initial trauma care, regardless of the severity of the injury;

(2) is not necessarily able to provide the same comprehensive care as that provided by a level I trauma center; and

(3) does not have trauma research as a primary objective.

(f) “Level III trauma center” means a hospital that provides initial trauma care or arranges for the appropriate transfer of trauma patients to a level I trauma center or a level II trauma center.

(g) “Level IV trauma center” means a hospital that provides urgent care for injured persons and the timely transfer of the seriously injured to a trauma facility capable of providing care necessary for the treatment of the patients’ injuries.

(h)(1) “On-site survey” means the secretary’s evaluation of a hospital’s compliance with the following:

(A) The level IV trauma center type I designation criteria and type II designation criteria identified in the department’s document titled “Kansas level IV criteria quick reference,” dated November 4, 2015, which is hereby adopted by reference; and

(B) all standards specified on pages eight through 31 in the department’s document titled “pre-review questionnaire (PRQ) guidance for Kansas level IV trauma center designation,” dated November 4, 2015. Pages eight through 33 of this document are hereby adopted by reference, excluding all sections titled “reference” or “rationale.”

(2) Each hospital’s successful completion of the on-site survey shall require compliance with the following:

(A) All type I designation criteria;

(B) all type II designation criteria, except that a hospital may have no more than three type II critical deficiencies; and

(C) reporting trauma registry data and information pursuant to K.S.A. 75-5666, and amendments thereto.

(i) “Regional trauma council” means one of the six councils, as defined in K.S.A. 75-5663 and amendments thereto, in the state established to address trauma and emergency medical care issues within a specific geographic area and to coordinate services to meet the needs of trauma patients injured within that area.

(j) “Trauma” means any of the following:

(1) Any injury to a person that results from acute exposure to mechanical, thermal, electrical, or chemical energy;

(2) any injury to a person that is caused by the absence of heat or oxygen and that requires immediate medical intervention; or

(3) any injury to a person that requires surgical intervention or treatment to prevent death or permanent disability.

(k) “Trauma facility” means a hospital distinguished by the availability of surgeons, physician specialists, anesthesiology services, nurses, and resuscitation and life-support equipment on a 24-hour basis to care for persons with trauma. This term shall include the following:

- (1) Level I trauma centers;
- (2) level II trauma centers;
- (3) level III trauma centers; and
- (4) level IV trauma centers.

(l) “Trauma registry” means the database maintained and operated by the department to collect and analyze reportable patient data on the incidence, severity, and causes of trauma.

(m) “Verification” means the evaluation and confirmation by the ACS of a hospital’s trauma care capability to operate as a level I trauma center, level II trauma center, or level III trauma center. (Authorized by K.S.A. 2016 Supp. 75-5665; implementing K.S.A. 2016 Supp. 75-5665 and K.S.A. 2016 Supp. 75-5666; effective Nov. 2, 2007; amended March 16, 2012; amended Aug. 25, 2017.)

28-54-2. Standards for designation. The designation of a hospital as a level I trauma center, level II trauma center, level III trauma center, or level IV trauma center shall be made by the secretary based on the following:

(a) For level I trauma centers, level II trauma centers, and level III trauma centers, verification; and

(b) for each level IV trauma center, the successful completion of an on-site survey. (Authorized by and implementing K.S.A. 2016 Supp. 75-5665; effective Nov. 2, 2007; amended March 16, 2012; amended Aug. 25, 2017.)

28-54-3. Application for designation. (a) Each hospital administrator that seeks a certificate of designation for its hospital as a level I trauma care center, level II trauma care center, or level III trauma care center shall submit a designation application on a form provided by the department and the following to the secretary:

(1) A copy of the applicant’s current one-year or three-year verification certificate; and

(2) a nonrefundable application fee of \$500.

(b) Each hospital administrator who seeks a certificate of designation for its hospital as a level IV trauma center shall submit a designation application on a form provided by the department and the following to the secretary:

(1) Documentation of successful completion of an on-site survey that occurred after submission of the application; and

(2) a nonrefundable application fee of \$250.

(c) Each hospital administrator specified in subsection (b) who receives notice that the initial designation as a level IV trauma center is denied shall comply with one of the following before submitting a subsequent application for designation:

(1) Allow at least six months after the date of the notice; or

(2) submit a written request for reevaluation to

the advisory committee on trauma that is subsequently approved.

(d) Each certificate of designation shall be valid from the date of issuance and for the period specified on the certificate. (Authorized by and implementing K.S.A. 2016 Supp. 75-5665; effective Nov. 2, 2007; amended March 16, 2012; amended Aug. 25, 2017.)

28-54-4. Application for change of designation. (a) Any administrator of a designated trauma facility may request a change of designation by submitting an application for a change of designation on the form provided by the department and the following to the secretary:

(1) Each applicant seeking a change of designation to a level I trauma center, level II trauma center, or level III trauma center shall submit the following:

(A) A copy of the applicant's current one-year or three-year verification certificate for the level of designation sought; and

(B) a nonrefundable fee of \$500.

(2) Each applicant seeking a change of designation to a level IV trauma center shall submit the following:

(A) Documentation of successful completion of an on-site survey that occurred after submission of the application; and

(B) a nonrefundable fee of \$250.

(b) Each change of designation certificate shall be valid from the date of issuance and for the period specified on the certificate. (Authorized by and implementing K.S.A. 2016 Supp. 75-5665; effective Nov. 2, 2007; amended March 16, 2012; amended Aug. 25, 2017.)

28-54-5. Certificate of designation; renewal. (a) Each administrator of a designated trauma facility wanting to renew the trauma facility's certificate of designation shall submit an application for renewal on a form provided by the department and either of the following:

(1) For a level I trauma center, level II trauma center, or level III trauma center, the following:

(A) A copy of the applicant's current one-year or three-year verification certificate; and

(B) a nonrefundable renewal fee of \$500; or

(2) for a level IV trauma center, the following:

(A) A nonrefundable renewal fee of \$250; and

(B) documentation of successful completion of an on-site survey that occurred after submission of the application.

(b) The renewal of a level IV trauma center des-

ignation may be denied for willful misrepresentation of information and documentation during the renewal application process.

(c) Each hospital administrator seeking designation as a level IV trauma center who receives notice that the renewal designation is denied shall comply with one of the following before submitting a subsequent application for renewal:

(1) Allow at least six months after the date of the notice; or

(2) submit a written request for reevaluation to the advisory committee on trauma that is subsequently approved.

(d) Each renewed certificate of designation shall be valid from the date of issuance and for the period specified on the certificate. (Authorized by and implementing K.S.A. 2016 Supp. 75-5665; effective Nov. 2, 2007; amended March 16, 2012; amended Aug. 25, 2017.)

Article 55.—PCB FACILITY CONSTRUCTION PERMIT STANDARDS AND REGULATIONS

28-55-1. (Authorized by and implementing K.S.A. 65-3481 as enacted by L. 1986, Ch. 226, Sec. 2; effective, T-87-37, Nov. 19, 1986; effective May 1, 1987; revoked Aug. 30, 2019.)

28-55-2. (Authorized by and implementing K.S.A. 65-3481 as enacted by L. 1986, Ch. 226, Sec. 2; effective, T-87-37, Nov. 19, 1986; effective May 1, 1987; revoked Aug. 30, 2019.)

28-55-3. (Authorized by and implementing K.S.A. 65-3481; effective, T-87-37, Nov. 19, 1986; effective May 1, 1987; amended March 22, 2002; revoked Aug. 30, 2019.)

28-55-4. (Authorized by and implementing K.S.A. 65-3481 as enacted by L. 1986, Ch. 226, Sec. 2; effective, T-87-37, Nov. 19, 1986; effective May 1, 1987; revoked Aug. 30, 2019.)

28-55-5. (Authorized by and implementing K.S.A. 65-3481; effective, T-87-37, Nov. 19, 1986; effective May 1, 1987; amended March 22, 2002; revoked Aug. 30, 2019.)

Article 56.—REPORTING OF INDUCED TERMINATIONS OF PREGNANCY

28-56-1. Definitions. Each of the following terms shall have the meaning assigned in this regulation:

(a) “Abortion” has the meaning specified in K.S.A. 65-6701, and amendments thereto.

(b) “Abortion provider” means a physician that performs an abortion, a clinic comprised of legally or financially affiliated physicians, a hospital, or any other medical care facility where an abortion is performed.

(c) “Abortion report” means the information required to be submitted by an abortion provider to the department either electronically or on a paper form provided by the department.

(d) “Clinical estimate of gestation” means the number of completed weeks of gestation of an unborn child as determined through a sonogram.

(e) “Confidential code number” means a random five-digit identification number, along with subcategory letters, assigned by the department to an abortion provider for the purpose of submitting an abortion report to the department.

(f) “Correction” means the act of providing information to the department to correct errors or provide missing information to an abortion report.

(g) “Department” has the meaning specified in K.S.A. 65-6701, and amendments thereto.

(h) “Electronic abortion reporting system” means the department’s vital events reporting system through which abortion reports are submitted electronically to the department.

(i) “Failed abortion” means an abortion procedure that was initiated but not completed and resulted in a live birth.

(j) “Failed abortion report” means the information on a failed abortion required to be submitted by the abortion provider to the department on a paper form provided by the department.

(k) “Hospital” has the meaning specified in K.S.A. 65-425, and amendments thereto.

(l) “ICD-9-CM” means volumes one and two, office edition, of the 2011 clinical modification of the “international classification of diseases,” ninth revision, sixth edition, published by practice management information corporation, which is used to code and classify morbidity data from inpatient and outpatient records, physician offices, and most surveys from the national center for health statistics. This document, including the appendices, is hereby adopted by reference.

(m) “Late term” means the clinical estimate of gestation of at least 22 completed weeks.

(n) “Late term affidavit” means a department-provided form for each abortion that occurs at a clinical estimate of gestation of at least 22 weeks. The referring physician and the physician perform-

ing the abortion shall each submit a separate form, which shall be completed, signed, and notarized and shall meet the requirements of K.A.R. 28-56-6.

(o) “Live birth” has the meaning specified in K.S.A. 65-2401, and amendments thereto.

(p) “Medical basis” means the specific medical signs, symptoms, history, or other information provided by the patient or the results of clinical examinations, procedures, or laboratory tests used to make a medical diagnosis.

(q) “Medical care facility” has the meaning specified in K.S.A. 65-425, and amendments thereto.

(r) “Medical diagnosis” means a specific medical condition or disease as determined by a physician.

(s) “Medical emergency” has the meaning specified in K.S.A. 65-4a01, and amendments thereto.

(t) “Partial birth abortion” has the meaning specified in K.S.A. 65-6721, and amendments thereto.

(u) “Physician” has the meaning specified in K.S.A. 65-6701, and amendments thereto.

(v) “Physician’s report on number of certifications received” means a monthly report that shall be submitted to the department on a form provided by the department specifying the number of voluntary and informed consent forms certified by each patient and received by the physician before the patient is to receive an abortion.

(w) “Referring physician” means a physician who refers a patient to an abortion provider and who is required to provide a late term affidavit.

(x) “Requirements related to reporting abortions” means the department’s handbook containing instructions describing how abortions shall be reported to the department, either on a paper form or electronically, and copies of applicable state statutes and regulations.

(y) “Unborn child” means a living individual organism of the species *Homo sapiens*, in utero, at any stage of gestation from fertilization to birth.

(z) “User agreement” means the required document that entitles each abortion provider or the designee to access the department’s electronic abortion reporting system.

(aa) “Viable” has the meaning specified in K.S.A. 65-6701, and amendments thereto.

(bb) “Voluntary and informed consent form” means the form provided by the department that is signed by the patient authorizing an abortion provider to perform an abortion. (Authorized by K.S.A. 2011 Supp. 65-445, 65-6701, and 65-6724; implementing K.S.A. 2011 Supp. 65-445 and 65-6703; effective June 15, 2012.)

28-56-2. General requirements for abortion reports. (a) Each abortion provider, before performing an abortion and before using the electronic abortion reporting system, shall obtain the following:

(1) A confidential code number from the department; and

(2) a copy of the requirements related to reporting abortions.

(b) Each abortion provider performing less than five abortions annually may use the paper form abortion report.

(c) Each abortion provider performing five or more abortions annually shall use the electronic abortion reporting system to file each abortion report and shall meet the following requirements:

(1) Submit an executed user agreement; and

(2) ensure that each individual authorized by the abortion provider to enter abortion data into the electronic abortion reporting system has a separate user account to access the electronic abortion reporting system.

(d) An abortion report shall be filed for each abortion performed. Each abortion report shall contain the following information:

(1) The confidential code number of the abortion provider filing the abortion report;

(2) the patient's unique identification number as maintained in the abortion provider's medical record. The patient's name and street address shall not be submitted;

(3) the patient's age in years on the patient's last birthday;

(4) the patient's marital status at the time of the abortion;

(5) the month, day, and year the abortion was performed;

(6) the state or United States territory of residence of the patient or, if the patient is not a resident of the United States, the patient's country of residence;

(7) the patient's county of residence if the patient is a resident of a state or territory of the United States or, if the patient is a resident of Canada, the province;

(8) the patient's city or town of residence;

(9) specification of whether the patient resided within the city limits of the city or town of residence;

(10) the hispanic origin of the patient, if applicable;

(11) the patient's ancestry;

(12) the patient's race;

(13) the highest level of education completed by the patient;

(14) the date when the patient's last normal menses began, including the month, day, and year as reported by the patient;

(15) clinical estimate of gestation;

(16) number of previous pregnancies, in the following categories:

(A) Children born live and now living;

(B) children born live and now dead;

(C) previous induced abortions; and

(D) previous spontaneous terminations, including miscarriages, or stillbirths;

(17) the primary abortion procedure used in terminating the pregnancy, including one of the following abortion procedures:

(A) Suction curettage;

(B) sharp curettage;

(C) dilation and evacuation;

(D) administration of mifepristone;

(E) administration of methotrexate;

(F) prostaglandins delivered by intrauterine instillation or other methods;

(G) hysterotomy;

(H) hysterectomy;

(I) digoxin induction;

(J) partial birth abortion; or

(K) other procedure, which shall be specified;

(18) if applicable, all secondary abortion procedures used in terminating the pregnancy, including any of the following procedures that apply:

(A) Suction curettage;

(B) sharp curettage;

(C) dilation and evacuation;

(D) administration of mifepristone;

(E) administration of methotrexate;

(F) prostaglandins delivered by intrauterine instillation or other methods;

(G) hysterotomy;

(H) hysterectomy;

(I) digoxin induction;

(J) partial birth abortion; or

(K) other procedure, which shall be specified;

(19) specification of the medical factors and methods used to determine the clinical estimate of gestation; and

(20) specification of whether there was a report of physical, mental, or emotional abuse or neglect filed pursuant to K.S.A. 38-2223, and amendments thereto. (Authorized by K.S.A. 2011 Supp. 65-445 and 65-6703; implementing K.S.A. 2011 Supp. 65-6703; effective June 15, 2012; amended Jan. 4, 2013.)

28-56-3. Reporting requirements for abortions performed at clinical estimate of gestation of at least 22 weeks. When performing an abortion at clinical estimate of gestation of 22 or more weeks, in addition to the requirements specified in K.A.R. 28-56-2, each abortion report shall contain the following information:

(a) Specification of whether the unborn child was viable;

(b) a detailed, case-specific description that includes the medical diagnosis and medical basis of the patient and unborn child if the unborn child was viable;

(c) specification of whether continuation of the pregnancy would cause a substantial and irreversible impairment of a major bodily function or the death of the patient;

(d) a detailed, case-specific description that includes the medical diagnosis and medical basis for the determination that the abortion was necessary to prevent the patient's death or irreversible impairment of a major bodily function; and

(e) a medical determination that includes all applicable medical diagnosis codes from the ICD-9-CM. (Authorized by K.S.A. 2011 Supp. 65-6703 and 65-6724; implementing K.S.A. 2011 Supp. 65-6703; effective June 15, 2012.)

28-56-4. Reporting requirements for partial birth abortions. For each procedure performed involving a partial birth abortion, in addition to the requirements specified in K.A.R. 28-56-2 and 28-56-3, each abortion report for a partial birth abortion shall contain the following information:

(a) Specification of whether the unborn child was viable;

(b) a detailed, case-specific description that includes the medical diagnosis, medical basis, and description of the medical conditions of the patient and unborn child if the unborn child was viable;

(c) specification of whether continuation of the pregnancy would cause a substantial and irreversible impairment of a major bodily function or the death of the patient;

(d) a detailed, case-specific medical diagnosis and medical basis for the determination that the abortion was necessary to prevent the patient's death or irreversible impairment of a major bodily function; and

(e) a medical determination that includes all applicable medical diagnosis codes from the ICD-

9-CM. (Authorized by K.S.A. 2011 Supp. 65-445, 65-6703, and 65-6721; implementing K.S.A. 2011 Supp. 65-6721; effective June 15, 2012.)

28-56-5. Requirements for reporting failed abortions. If an abortion attempt fails and results in a live birth, each abortion provider shall complete and file the following information:

(a) A certificate of live birth pursuant to K.S.A. 65-2409a, and amendments thereto; and

(b) a failed abortion report meeting the following requirements:

(1) Meeting the requirements specified in K.A.R. 28-56-2; and

(2) specifying the medical basis and medical diagnosis for the reason the abortion was not completed. (Authorized by and implementing K.S.A. 2011 Supp. 65-445; effective June 15, 2012.)

28-56-6. Reporting requirements for abortions performed on minors in the case of a medical emergency. (a) Each abortion provider shall file an abortion report as specified in K.A.R. 28-56-2 and, if applicable, K.A.R. 28-56-3.

(b) Each abortion report for an abortion performed on a minor during a medical emergency shall contain the following information:

(1) If applicable, the information specified in K.A.R. 28-56-4 and K.A.R. 28-56-5;

(2) the medical basis for determining that a medical emergency exists;

(3) the medical methods used in determining the medical emergency;

(4) the patient identification number obtained from the patient's medical records where the abortion was performed; and

(5) the date on which the abortion was performed. (Authorized by K.S.A. 2011 Supp. 65-445, 65-6703, 65-6705 and 65-6721; implementing K.S.A. 2011 Supp. 65-6705; effective June 15, 2012.)

28-56-7. Physician's report on number of certifications received. (a) Each physician performing an abortion shall submit to the department the number of patient-completed voluntary and informed consent forms as specified in K.S.A. 65-6709, and amendments thereto. The report shall be submitted within five business days after the end of each month.

(b) Each physician's report on number of certifications received shall be submitted by United States mail or facsimile transmission. The report shall contain the following information:

(1) The physician's confidential code number;
 (2) the date the report was submitted; and
 (3) the number of voluntary and informed consent forms as specified in K.S.A. 65-6709, and amendments thereto, received during the previous calendar month, including any voluntary and informed consent form that was not followed by an abortion.

(c) Each correction to the physician's report on the number of certifications received shall be made within 15 business days of discovery of the error or omission. (Authorized by K.S.A. 2011 Supp. 65-445 and 65-6709; implementing K.S.A. 2011 Supp. 65-6709; effective June 15, 2012.)

28-56-8. Late term affidavits. (a) The referring physician and the physician performing an abortion shall each submit a late term affidavit to the department within 15 business days of the completion of the abortion procedure.

(b) The late term affidavit completed by the referring physician shall contain the following information:

(1) Name of the referring physician;
 (2) the patient's identification number obtained from the patient's medical records where the abortion was performed;
 (3) a statement that the referring physician and the physician performing the abortion have no legal or financial affiliation with each other as specified in K.S.A. 65-6703, and amendments thereto; and
 (4) the date the late term affidavit was signed and notarized.

(c) The late term affidavit completed by the physician performing an abortion shall contain the information required in subsection (b). (Authorized by K.S.A. 2011 Supp. 65-445, 65-6703, and 65-6724; implementing K.S.A. 2011 Supp. 65-445 and 65-6703; effective June 15, 2012.)

28-56-9. Correction in an abortion report. (a) In case of an error or missing information in an abortion report, each abortion provider shall report in writing to the department within 15 business days of discovery the specific information that needs to be corrected or provided.

(b) Each abortion provider shall review all relevant medical records after being advised by the department of an error or missing information on the abortion report and shall provide any correction or updated information on the abortion report within 15 business days of discovery of the error or omission.

(c) An abortion provider shall not make corrections or additions to an abortion report within the electronic abortion reporting system or create a new record to replace the incorrect or incomplete abortion report. (Authorized by and implementing K.S.A. 2011 Supp. 65-445; effective June 15, 2012.)

28-56-10. Medical information retained on each abortion performed. (a) Each abortion provider shall retain the following information in each patient's medical record for at least 10 years:

(1) A copy of the abortion report and any subsequent corrections;
 (2) a copy of the voluntary and informed consent form;
 (3) a copy of the late term affidavit of the physician who performed the abortion;
 (4) a copy of a court-ordered bypass of parental consent as specified in K.S.A. 65-6705, and amendments thereto, or consent of both parents or the legal guardian if the minor is not emancipated;
 (5) the physical or mental medical history of the patient;
 (6) all sonogram results;
 (7) a copy of the medical basis and reasons related to partial birth abortion, late term abortion, or emergency abortion procedure on a minor;
 (8) a copy of the patient-specific counseling information provided in addition to state-required material;
 (9) a copy of the postabortion instructions;
 (10) a record and description of any complications;
 (11) the type and amount of anesthesia used;
 (12) any report of physical, mental, or emotional abuse or neglect of a minor pursuant to K.S.A. 38-2223, and amendments thereto;
 (13) a list of all medical tests performed and the results of each test;
 (14) a record of any return visit by patient, if indicated by the physician;
 (15) emergency contact information for the patient;
 (16) a copy of the medical referral from the referring physician; and
 (17) if known, the name, address, and telephone number of the father of the unborn child if the patient is less than 16 years old.

(b) Each referring physician shall retain a copy of that physician's late term affidavits for at least 10 years. (Authorized by K.S.A. 2011 Supp. 65-

445, 65-6703, and 65-6724; implementing K.S.A. 2011 Supp. 65-445 and 65-6703; effective June 15, 2012.)

Article 61.—LICENSURE OF SPEECH LANGUAGE PATHOLOGISTS AND AUDIOLOGISTS

28-61-1. Definitions. (a) “American academy of audiology” means a national professional association for audiologists that provides continuing education programs and approves continuing education sponsors in clinical audiology.

(b) “American speech-language-hearing association” means a national professional association that accredits academic and clinical practicum programs and continuing education sponsors in speech-language pathology and audiology and that issues a certificate of clinical competence in speech-language pathology and audiology.

(c) “Department” means the Kansas department of health and environment.

(d) “Licensure period” means the period of time beginning on the date a license is issued and ending on the date the license expires. All full licenses shall expire biennially on October 31.

(e) “Screening” means a pass-fail procedure to identify any individual who requires further assessment.

(f) “Sponsorship” means an approved, long-term sponsoring of programs for the purpose of fulfilling renewal or reinstatement continuing education requirements. Each approved sponsor shall be accountable for upholding the department’s standards for the approval of continuing education programs. Each sponsor shall submit an application and the sponsor’s annual report on department-approved forms. The authority to sanction or otherwise discipline an approved sponsor shall be maintained by the department. These sanctions may include the following:

- (1) Supplementary documentation;
- (2) program restrictions; or
- (3) temporary or permanent suspension of long-term sponsorship approval.

(g) “Supervision of methods and procedures related to hearing and the screening of hearing disorders” means consultation on at least a monthly basis by a licensed audiologist, a licensed speech-language pathologist, or any person exempted by K.S.A. 65-6511(a), (b), or (c), and amendments thereto. Any consultation may include any of the following:

- (1) On-site visits;
- (2) review of written documentation and reports; or
- (3) conference calls. (Authorized by K.S.A. 65-6503; implementing K.S.A. 65-6501 and K.S.A. 65-6503; effective Dec. 28, 1992; amended March 16, 2001; amended Aug. 19, 2005; amended April 16, 2010.)

28-61-2. Qualifications for licensure. (a) To determine whether or not an applicant has completed the educational requirements in the area for which the applicant seeks licensure pursuant to K.S.A. 65-6505 and amendments thereto, consideration shall be given to whether or not the academic course of study and practicum content are accredited by the American speech-language-hearing association or are deemed equivalent to the course of study and practicum content of Kansas universities by the secretary.

(b) Each applicant who completed the educational requirements specified in K.S.A. 65-6505, and amendments thereto, in a program not accredited by the American speech-language-hearing association shall meet both of the following requirements:

(1) Obtain an equivalency validation of the academic course of study or practicum content, or both, from a Kansas college or university with a speech-language pathology or audiology program accredited by the American speech-language-hearing association; and

(2) provide transcripts and supervised practicum records verifying that the applicant has successfully completed coursework or supervised practicum experiences related to the principles and methods of prevention, assessment, and intervention for individuals with communication and swallowing disorders in the following subject areas:

- (A) Articulation;
- (B) fluency;
- (C) voice and resonance, including respiration and phonation;
- (D) receptive and expressive language in speaking, listening, reading, writing, and manual modalities;
- (E) hearing, including the impact on speech and language;
- (F) swallowing;
- (G) cognitive aspects of communication;
- (H) social aspects of communication; and
- (I) communication modalities, including oral, manual, augmentative, and alternative communi-

cation, and assistive technologies.

(c) To determine whether or not an applicant has complied with the requirement that the degree be from an educational institution with standards consistent with the standards of Kansas universities pursuant to K.S.A. 65-6505 and amendments thereto, consideration shall be given to whether or not the institution is accredited by an accrediting body recognized by either the council on postsecondary accreditation or the secretary of the U.S. department of education, or is deemed equivalent by the secretary.

(d) Each applicant who completed the educational requirements specified in K.S.A. 65-6505, and amendments thereto, outside the United States or its territories and whose transcript is not in English shall submit an officially translated English copy of the applicant's transcript to the secretary and, if necessary, supporting documents. The transcript shall be translated by a source and in a manner that are acceptable to the secretary.

(e) Each applicant who completed the educational requirements specified in K.S.A. 65-6505, and amendments thereto, outside the United States or its territories shall obtain an equivalency validation from an agency approved by the secretary that specializes in educational credential evaluations.

(f) Each applicant shall pay any transcription or equivalency validation fee directly to the transcriber or the validating agency.

(g) The supervised clinical practicum as specified in K.S.A. 65-6505, and amendments thereto, shall be at least 400 hours, 25 of which shall be observation and 375 of which shall be direct client contact. At least 325 of the 400 hours of supervised clinical practicum shall be earned at the graduate level in the area in which licensure is sought.

(h) Each applicant, after completing the requirements in K.S.A. 65-6505 and amendments thereto, shall successfully complete the supervised postgraduate professional experience requirement in the area for which the applicant seeks licensure. The applicant may complete the requirement on a full-time or part-time basis.

(1) "Full-time" means 35 hours per week for nine months.

(2) "Part-time" means 15 to 19 hours per week for 18 months, 20 to 24 hours per week for 15 months, or 25 to 34 hours per week for 12 months.

(3) Each applicant working full-time shall spend 80 percent of the week in direct client contact and activities related to client management.

(4) Each applicant working part-time shall spend 100 percent of the week in direct client contact and activities related to client management.

(5) "Direct client contact" means assessment, diagnosis, evaluation, screening, habilitation, or rehabilitation of persons with speech, language, or hearing handicaps.

(6) Each postgraduate professional experience supervisor shall be currently and fully licensed in Kansas for speech-language pathology or audiology or, if the experience was completed in another state, either be currently and fully licensed in that state or hold the certificate of clinical competence issued by the American speech-language-hearing association. The supervisor's license or certificate shall be in the area for which the applicant seeks licensure.

(7) The supervisor shall evaluate the applicant on no less than 36 occasions of monitoring activities with at least four hours per month. The supervisor shall make at least 18 on-site observations with at least two hours per month.

(8) Monitoring occasions may include on-site observations, conferences in person or on the telephone, evaluation of written reports, evaluations by professional colleagues, or correspondence.

(9) The supervisor shall maintain detailed written records of all contacts and conferences during this period. If the supervisor determines that the applicant is not providing satisfactory services at any time during the period, the supervisor shall inform the applicant in writing and submit written reports to the applicant during the period of resolution.

(10) No licensee shall be approved to serve as a supervisor for a postgraduate professional experience once the secretary initiates a disciplinary proceeding pursuant to K.S.A. 65-6508, and amendments thereto. After the disciplinary action or actions have been concluded, a licensee whose license has been reinstated or otherwise determined to be in good standing may be considered as a supervisor.

(i) Each applicant shall be required to pass the specialty area test of the national teacher examination of the educational testing service in the area for which licensure is being sought. The passing score for the examination shall be 600.

(1) The educational testing service shall administer the examinations at least twice a year within Kansas.

(2) Each applicant shall register to take the examination through the educational testing service,

pay the examination fee directly to the educational testing service, and request that the test score be sent directly to the department from the educational testing service. (Authorized by K.S.A. 65-6503; implementing K.S.A. 2010 Supp. 65-6505; effective Dec. 28, 1992; amended March 16, 2001; amended April 16, 2010; amended April 8, 2011.)

28-61-3. Application for a license. (a) Each individual applying for a license shall submit to the department a completed department-approved application form, the required supporting documentation showing completion of all qualifications for licensure, and the appropriate fee as specified in K.A.R. 28-61-9.

(b) Each applicant shall provide to the department the applicant's academic transcripts and proof of completion of the educational requirements specified in K.S.A. 65-6505, and amendments thereto. These documents shall be provided directly to the department by the academic institution.

(c) Each applicant who seeks licensure in both speech-language pathology and audiology shall submit a separate application for each license, meet the qualifications for each license, and pay the fee for each license as specified in K.A.R. 28-61-9. (Authorized by K.S.A. 65-6503; implementing K.S.A. 2010 Supp. 65-6505 and K.S.A. 65-6506; effective Dec. 28, 1992; amended March 16, 2001; amended April 8, 2011.)

28-61-4. Application for a temporary license. (a) Each applicant who has completed the education and clinical practicum pursuant to K.S.A. 65-6505, and amendments thereto, but has not completed a supervised postgraduate professional experience or examination, or both, shall apply for a temporary license. This temporary license shall be issued for a period of 12 months and may be renewed for one subsequent 12-month period upon request and with the secretary's approval.

(b) Each applicant applying for a temporary license shall submit to the department a completed department-approved application form, the required supporting documentation showing completion of education and clinical practicum, and the appropriate fee as specified in K.A.R. 28-61-9.

(c) Each applicant shall provide to the department the applicant's academic transcripts and proof of completion of the educational requirements specified in K.S.A. 65-6505, and

amendments thereto. These documents shall be provided directly to the department by the academic institution.

(d) Each applicant seeking a temporary license for the purpose of completing a supervised postgraduate professional experience shall receive a temporary license before beginning the supervised postgraduate professional experience.

(1) Each applicant shall provide to the department a plan for completion of the supervised postgraduate professional experience that has been signed by a supervisor who is currently fully licensed in Kansas in the area in which the applicant seeks licensure.

(2) Each applicant shall report any changes in the plan to the department.

(3) At the conclusion of the supervised postgraduate professional experience, each supervisor shall sign and submit to the department a report that documents satisfactory completion of the supervised postgraduate professional experience.

(e) To renew a temporary license, each applicant shall submit to the secretary a letter of appeal, supporting documentation showing that the examination or supervised postgraduate professional experience, or both, was not completed, and the temporary licensure fee as specified in K.A.R. 28-61-9.

(f) Each applicant who seeks temporary licensure in both speech-language pathology and audiology shall submit a separate application for each temporary license, meet the qualifications for each temporary license, and pay the fee for each temporary license.

(g) A temporary license may be issued to enable an applicant for reinstatement to complete the continuing education requirements. This license shall be valid for not more than 12 months and shall not be renewed. (Authorized by K.S.A. 65-6503; implementing K.S.A. 2010 Supp. 65-6505 and K.S.A. 65-6506; effective Dec. 28, 1992; amended March 16, 2001; amended April 8, 2011.)

28-61-5. License renewal. (a) Each applicant for renewal of a license shall submit the following to the secretary:

(1) A completed secretary-approved application form;

(2) the required supporting documentation; and

(3) the license renewal fee as specified in K.A.R. 28-61-9.

(b) Each applicant for renewal of a license shall have completed the required clock-hours of

documented and approved continuing education during each licensure period immediately preceding renewal of the license. Approved continuing education clock-hours completed in excess of the requirement shall not be carried over to the subsequent renewal period. There shall be 20 hours of approved continuing education required for each applicant holding a single two-year license and 30 hours required if the applicant is licensed in both speech-language pathology and audiology.

(c) Each applicant shall maintain individual records consisting of documentation and validation of approved continuing education clock-hours, a summary of which shall be submitted to the secretary on the approved form as part of the license renewal application.

(d) For the purpose of measuring continuing education credit, "one clock-hour" shall mean at least 50 minutes of direct instruction, exclusive of registration, breaks, and meals.

(e) The content and objective of the continuing education activity shall be primarily related to the practice of speech-language pathology as defined by K.S.A. 65-6501, and amendments thereto, or the practice of audiology as defined by K.S.A. 65-6501, and amendments thereto.

(1) The educational activity shall be for the purpose of furthering the applicant's education in one of the following three content areas:

(A) Basic communication processes, including information applicable to the normal development and use of speech, language, and hearing. Issues related to this content area may include any of the following:

(i) Anatomic and physiologic bases of the normal development and use of speech, language, and hearing;

(ii) physical bases and processes of the production and perception of speech, language, and hearing;

(iii) linguistic and psycholinguistic variables related to normal development and use of speech, language, and hearing; or

(iv) technological, biomedical, engineering, and instrumentation information;

(B) professional areas, including information pertaining to disorders of speech, language, and hearing. Issues related to this content area may include any of the following:

(i) Various types of communication disorders, their manifestations, classifications, and causes;

(ii) evaluation skills, including procedures, techniques, and instrumentation for assessment; or

(iii) management procedures and principles in habilitation and rehabilitation of communication disorders; or

(C) related areas, including study pertaining to the understanding of human behavior, both normal and abnormal, as well as services available from related professions that apply to the contemporary practice of speech-language pathology, audiology, or both. Issues related to this content area may include any of the following:

(i) Theories of learning and behavior;

(ii) services available from related professions that also deal with persons who have disorders of communications;

(iii) information from these professions about the sensory, physical, emotional, social, or intellectual states of child or adult; or

(iv) other areas, including general principles of program management, professional ethics, clinical supervision, counseling, and interviewing.

(2) Unacceptable content areas shall include marketing, personal development, time management, human relations, collective bargaining, and tours.

(3) The educational activity shall not be a part of the applicant's job responsibilities. In-service shall be considered part of the applicant's job responsibilities.

(f) Continuing education may be accrued by any of the following methods:

(1) Academic coursework related to the contemporary practice of speech-language pathology or audiology, offered by a regionally accredited college or university and documented by transcript or grade sheet:

(A) One academic-semester credit hour shall be equivalent to 15 clock-hours of continuing education. One academic-trimester credit hour shall be equivalent to 14 clock-hours of continuing education. One academic-quarter credit hour shall be equivalent to 10 clock-hours of continuing education; and

(B) one audited academic-semester credit hour shall be equivalent to eight clock-hours of continuing education. One audited academic-trimester credit hour shall be equivalent to seven clock-hours of continuing education. One audited academic-quarter credit hour shall be equivalent to five clock-hours of continuing education;

(2) workshops, seminars, poster sessions, and educational sessions sponsored by an organization, agency, or other entity that has been approved by the secretary;

(A) One clock-hour of contact between either a presenter or instructor and the applicant shall be equivalent to one clock-hour of continuing education for the applicant;

(B) contact time shall be rounded down to the nearest one-half hour interval; and

(C) one-half clock-hour of continuing education credit shall be awarded for attendance at two poster displays, with a maximum of two clock-hours of continuing education awarded for attendance at poster displays per licensure period;

(3) preparation and presentation of a new seminar, lecture, or workshop according to the following criteria:

(A) "New" shall mean that the applicant is preparing and making the presentation for the first time in any setting;

(B) credit shall be awarded only for the first presentation at the rate of two clock-hours of continuing education for every one clock-hour of contact between the instructor and attendees; and

(C) if the presentation was given by more than one instructor, the continuing education clock-hours shall be prorated among the instructors;

(4) preparation and presentation of a new undergraduate or graduate course in speech-language pathology or audiology at an accredited college or university:

(A) "New" shall mean that the applicant is teaching the course for the first time in any setting;

(B) six clock-hours of credit shall be awarded per new course, up to a maximum of 12 clock-hours per licensure period; and

(C) if the course was prepared and presented by more than one instructor, the continuing education clock-hours shall be prorated among the instructors;

(5) the successfully completed supervision of a postgraduate professional experience as specified in K.A.R. 28-61-2 and K.A.R. 28-61-4:

(A) The licensee's name and signature shall appear as the supervisor on the temporary license application submitted by the supervisee as specified in K.A.R. 28-61-4(d)(1);

(B) five clock-hours of credit per supervisee shall be awarded to the licensee; and

(C) the maximum amount of credit awarded for the supervision of a postgraduate professional experience shall be five clock-hours per licensee per licensure period; or

(6) self-directed study courses that are directly oriented to improving the applicant's professional competence and that are approved by the secretary:

(A) Self-directed study courses shall receive prior approval from the secretary;

(B) courses shall be sponsored by a nationally recognized professional organization in audiology or speech-language pathology and shall be accompanied by an examination or measurement tool to determine successful completion of the course;

(C) self-study materials may include audiotapes, videotapes, study kits, digital video discs (DVDs), and courses offered through the internet or other electronic medium; and

(D) one clock-hour of time required to complete the self-directed study material, as specified by the sponsor of the material, shall be equivalent to one clock-hour of continuing education.

(g) Continuing education sponsors seeking prior approval for a single offering of a continuing education activity shall apply to the secretary. Approval may be granted by the secretary by one of the following methods.

(1) An organization, institution, agency, or individual shall be qualified for approval as a sponsor of a continuing education activity if, after review of the application, the secretary determines that the applicant meets all of the following conditions:

(A) The sponsor presents organized programs of learning.

(B) The sponsor presents subject matters that integrally relate to the practice of speech-language pathology or audiology, or both, as specified in subsection (e).

(C) The sponsor's program activities contribute to the professional competency of the licensee.

(D) The sponsor's program presenters are individuals who have education, training, or experience that qualifies them to present the subject matter of the program.

(2) An organization, institution, agency, or individual shall be qualified for approval as a sponsor of continuing education if the American speech-language-hearing association or the American academy of audiology has approved the organization, institution, agency, or individual as a continuing education sponsor and the sponsor presents subject matter as specified in subsection (e).

(h) Continuing education sponsors seeking long-term sponsorship for continuing education activities shall apply to the secretary. Approval may be granted by the secretary if the organization, institution, agency, or individual agrees to perform all of the following:

(1) Present organized programs of learning;

(2) present subject matter that integrally relates to the practice of speech-language pathology or audiology, or both, and subsection (e);

(3) approve and present program activities that contribute to the professional competency of the licensee; and

(4) sponsor program presenters who are individuals with education, training, or experience that qualifies them to present the subject matter of the programs.

(i) All approved continuing education sponsors that received approval by the method specified in subsection (g) shall provide the following:

(1) A certificate of attendance to each licensee who attends a continuing education activity. The certificate shall state the following:

(A) The sponsor's name and approval number;

(B) the date of the program;

(C) the name of the participant;

(D) the total number of clock-hours of the program, excluding introductions, registration, breaks, and meals;

(E) the program's title and its presenter;

(F) the program site; and

(G) a designation of whether the program is approved for speech-language pathology or audiology, or both; and

(2) a list of attendees, license numbers, and the number of continuing education clock-hours completed by each licensee upon request and in a format approved by the secretary.

(j)(1) Each licensee who attends any activities of continuing education sponsored by the American speech-language-hearing association or the American academy of audiology shall retain either of the following:

(A) The letter of confirmation received from the continuing education registry of the American speech-language-hearing association or the American academy of audiology that includes the following:

(i) The licensee's name, address, and social security number;

(ii) the course title;

(iii) the sponsor's name; and

(iv) the number of continuing education units awarded; or

(B) the licensee's transcript from the continuing education registry of the American speech-language-hearing association or the American academy of audiology.

(2) One continuing education unit shall be equivalent to 10 clock-hours of continuing education.

(k) All continuing education sponsors that received approval by the method outlined in subsection (g) shall report to the secretary annually to maintain the designation as an approved sponsor. The application shall require a list of all continuing education programs provided by the approved sponsor during the previous calendar year and any additional documentation deemed necessary by the secretary to ensure that the approved sponsor is meeting or exceeding the standards set forth in this article.

(l) Each licensee who completes a continuing education activity that was not sponsored by an approved continuing education sponsor shall retain course documentation for review by the secretary at the time of license renewal.

(m) Each licensee whose initial licensure period is less than 24 months shall be required to obtain at least one clock-hour of continuing education for each month in the initial licensure period if the licensee holds a single license and at least one and one-quarter clock-hours of continuing education for each month in the initial licensure period if the licensee holds a dual license. (Authorized by K.S.A. 65-6503; implementing K.S.A. 65-6506; effective Dec. 28, 1992; amended March 16, 2001; amended April 16, 2010.)

28-61-8. Assistants. (a) Each speech-language pathology assistant and each audiology assistant shall meet the following criteria:

(1) Have received a high school diploma or equivalent;

(2) complete a training program conducted by a Kansas-licensed speech-language pathologist or audiologist. This training shall include the following:

(A) Ethical and legal responsibilities;

(B) an overview of the speech, language, and hearing disorders;

(C) response discrimination skills;

(D) behavior management;

(E) charting of behavioral objectives and recordkeeping;

(F) teaching principles, if applicable to the employment setting; and

(G) other skill training as required by the employment setting; and

(3) receive ongoing supervised training by a Kansas-licensed speech-language pathologist or audiologist for at least one hour per month.

(b) Any speech-language pathology assistant or audiology assistant may perform the following:

(1) Follow documented treatment plans and protocols that are planned, designed, and supervised by a Kansas-licensed speech-language pathologist or audiologist;

(2) record, chart, graph, report, or otherwise display data relative to client performance, including hearing screenings, and report this information to a supervising speech-language pathologist or audiologist;

(3) participate with a Kansas-licensed speech-language pathologist or audiologist in research projects, public relations programs, or similar activities;

(4) perform clerical duties, including preparing materials and scheduling activities as directed by a Kansas-licensed speech-language pathologist or audiologist;

(5) prepare instructional materials; and

(6) perform equipment checks and maintain equipment, including hearing aids.

(c) A speech-language pathology assistant or audiologist shall not perform any of the following:

(1) Perform standardized or nonstandardized diagnostic tests, conduct formal or informal evaluations, or provide clinical interpretations of test results;

(2) participate in parent conferences, case conferences, or any interdisciplinary team without the presence of a supervising Kansas-licensed speech-language pathologist or audiologist;

(3) perform any procedure for which the assistant is not qualified, has not been adequately trained, or is not receiving adequate supervision;

(4) screen or diagnose clients for feeding or swallowing disorders;

(5) write, develop, or modify a client's individualized treatment plan in any way;

(6) assist clients without following the individualized treatment plan prepared by a Kansas-licensed speech-language pathologist or audiologist or without access to supervision;

(7) sign any formal documents, including treatment plans, reimbursement forms, or reports. An assistant shall sign or initial informal treatment notes for review and signing by a Kansas-licensed speech-language pathologist or audiologist;

(8) select clients for services;

(9) discharge a client from services;

(10) make referrals for additional services;

(11) use a checklist or tabulate results of feeding or swallowing evaluations;

(12) demonstrate swallowing strategies or precautions to clients, family, or staff; or

(13) represent that person as a speech-language pathologist or audiologist.

(d) Each assistant shall be supervised by a Kansas-licensed speech-language pathologist or audiologist. The supervisor shall be licensed to practice in the field in which the assistant is providing services.

(1) Each supervisor shall be responsible for determining that the assistant is satisfactorily qualified and prepared for the duties assigned to the assistant.

(2) Each supervisor shall obtain, retain, and maintain on file documentation of the assistant's qualifications and training outlined in subsection (a).

(3) Only the supervisor shall exercise independent judgment in performing professional procedures for the client. The supervisor shall not delegate the exercise of independent judgment to the assistant.

(4) A speech-language pathologist or audiologist who holds a temporary license shall not be eligible to supervise assistants.

(e) Each supervisor shall directly supervise at least 10 percent of the assistant's client contact time. No portion of the assistant's direct client contact shall be counted toward the ongoing training required in subsection (a). No portion of the assistant's time performing activities under indirect supervision shall be counted toward client contact time.

(f) "Direct supervision" shall mean the on-site, in-view observation and guidance provided by a speech-language pathologist or audiologist to an assistant while the assistant performs an assigned activity.

(g) "Indirect supervision" shall mean the type of guidance, other than direct supervision, that a speech-language pathologist or audiologist provides to an assistant regarding the assistant's assigned activities. This term shall include demonstration, record review, and review and evaluation of audiotaped sessions, videotaped sessions, or sessions involving interactive television.

(h) Each supervisor shall, within 30 days of employing an assistant, submit written notice to the department of the assistant's name, employment location, and verification that the assistant meets the qualifications listed in subsection (a). Each supervisor shall notify the department of any change in the status of an assistant.

(i) Each supervisor shall perform all of the following tasks:

(1) Develop a system to evaluate the performance level of each assistant under the licensee's supervision;

(2) retain and maintain on file documentation of the performance level of each assistant supervised; and

(3) report to the department at the time of the supervisor's license renewal, on a department-approved form, the name and employment location of each assistant. (Authorized by K.S.A. 65-6503; implementing K.S.A. 65-6501; effective Dec. 28, 1992; amended March 16, 2001; amended April 16, 2010.)

Article 70.—CANCER REGISTRY

28-70-2. Reporting requirements. (a)(1)

Each administrator of a hospital, an ambulatory surgery center, a radiology oncology center, or a pathology laboratory shall, within six months of the date of diagnosis, report to the registry each case of cancer diagnosed or treated, unless exempted under subsection (d).

(2) Each report shall provide all required information available in the medical or administrative records that are under the direct control of the reporting administrator. No administrator shall be required to contact the patient, the patient's family, or another health care provider to obtain additional information not contained in the medical or administrative records.

(b) Each person who is either licensed to practice medicine and surgery or licensed to practice dentistry and who practices in a clinic or physician's office and each administrator of a hospice or adult care home shall provide the following to the registry:

(1) If used to confirm each cancer diagnosis, a list of in-state and out-of-state pathologists, or pathology laboratories and dermatopathologists; and

(2) for each patient for whom a cancer diagnosis has been confirmed pathologically or clinically, a list that includes the name, social security number, date of birth, and cancer site. The social security number shall be used only for confirmation of patient identity.

(c) Upon receipt of any written request for information from the registry regarding a patient, each reporting party specified in subsection (a) or (b) shall provide the requested information that is contained in medical or administrative records under the direct control of the reporting party. The requested information may consist of either of the following:

(1) Any information specified in subsection (e), even if the patient's cancer has not been diagnosed or treated by the hospice or adult care home or by the health care provider or licensee specified in subsection (a) or (b); or

(2) annual follow-up information, including tumor recurrence and follow-up treatment.

(d) The reports specified in this regulation shall not be required for the following types of cancer:

(1) Squamous cell carcinoma of the skin, unless located on a lip of the face or in the genital area or unless spread beyond local tissues at the time of diagnosis;

(2) basal cell carcinoma of the skin, unless located on a lip of the face or in the genital areas or unless spread beyond local tissues at the time of diagnosis; and

(3) carcinoma in situ of the uterine cervix.

(e) Each report from any reporting party specified in subsection (a) or (b) shall include the following information, if available:

(1) Patient identifiers and demographics;

(2) cancer screening history;

(3) cancer diagnosis, including the cancer site and histology;

(4) personal and family history;

(5) vital status, including the date of death and cause of death, if applicable;

(6) cancer-related treatment information;

(7) follow-up information, including the date of last contact with the patient;

(8) third-party payer information; and

(9) risk factors for cancer.

(f) Each report to the registry shall be submitted in one of the following formats:

(1) American standard code for information interchange (ASCII) file in the North American association of central cancer registries (NAACCR) format;

(2) electronic or paper forms provided by the registry;

(3) any other format equivalent to any format specified in this subsection that is acceptable to the cancer registry director.

(g) All data transferred to the registry shall be secure and confidential.

(1) All paper data transferred to the registry shall be sealed in an envelope marked "CONFIDENTIAL" and addressed to the cancer registry director.

(2) Electronic data transfer shall be made by a secured electronic transmission, according to prior instructions from the cancer registry direc-

tor. (Authorized by and implementing K.S.A. 65-1,169; effective Feb. 27, 1998; amended Aug. 5, 2005; amended Dec. 7, 2018.)

28-70-4. Confidential data for follow-up patient studies. (a) For the purposes of this regulation, the following definitions shall apply:

(1) “Institutional review board” means an institutional review board established and conducted pursuant to 45 CFR 46.101 through CFR 46.117, as revised on October 1, 2008.

(2) “Person” shall mean a state university, a state agency, or a county health department.

(b) Each person with a proposal for a follow-up cancer study (“study”) shall submit the proposal to each of the following for approval before the commencement of the study:

(1) The person’s institutional review board;

(2) the department’s health and environmental institutional review board;

(3) the university of Kansas medical center’s institutional review board; and

(4) the cancer registry data release board.

(c) Each study not approved by each board specified in subsection (b) shall be returned to the person for revisions. Any unapproved study may be resubmitted to each board.

(d) After receiving the approvals required in subsection (b) and before commencing the study, the person proposing the study shall submit the proposal for the study to the secretary or the secretary’s designee for approval.

(e) Each person conducting an approved study shall reimburse the cancer registry for all costs pertaining to the retrieval of confidential data. The cancer registry shall be credited by the person on any publication or presentation when the cancer registry data is used.

(f) Before proceeding with each study, the cancer registry director shall obtain informed consent from each individual who is the subject of the data or from that individual’s parent or legal guardian. The consent form shall accompany or follow the notice specified in subsection (g). Signing the consent form shall indicate that the individual has read and understands the information provided in the notice.

(g) The cancer registry director shall deliver a notice to each subject individual or the subject individual’s parent or legal guardian. Each notice shall include the following information:

(1) All details of the study to be conducted, including the purpose, methodology, and public health benefit; and

(2) the following information:

(A) Participation in the study is voluntary;

(B) the method of data collection will be at the convenience of the subject individual. Data will be collected in writing, by telephone, or by personal interview; and

(C) the subject individual will be provided with a summary of the final report of the study. (Authorized by and implementing K.S.A. 2008 Supp. 65-1,172; effective June 12, 2009.)

Article 71.—VOLUNTARY CLEANUP AND PROPERTY REDEVELOPMENT PROGRAM

28-71-1. Definitions. In addition to the terms defined in K.S.A. 65-34,162 and amendments thereto, each of the following terms, as used in this article of the department’s regulations, shall have the meaning specified in this regulation:

(a) “Anthropogenic levels” means concentrations of chemicals or substances that are present in the environment due to human activity.

(b) “Class one contamination” and “class I” mean that suspected or confirmed contamination exists on the property described in the application, but the property is not a source of the contamination.

(c) “Class two contamination” and “class II” mean that suspected or confirmed soil or groundwater contamination, or both, resulting from operations that have occurred on the property is suspected or exists on or off the property described in the application, or both.

(d) “Days” means calendar days unless otherwise specified. Documents due on the weekend or a holiday shall be submitted on the first working day after the weekend or holiday.

(e) “Enforcement action” means an administrative or judicial claim made by a governmental agency pursuant to state, federal, or common law against the property described in the application, which enforcement action is based upon the contaminants to be cleaned up under the VCPRP.

(f) “Environmental site assessment” means an investigation of a property, performed in accordance with standard industry practices, that identifies and defines recognized environmental conditions at the property.

(g) “Environmental use control” has the meaning specified in K.S.A. 2016 Supp. 65-1,222, and amendments thereto.

(h) “Hazard index value” means the sum of more than one hazard quotient for multiple substances, multiple exposure pathways, or both.

(i) “Hazard quotient” means the ratio of a single substance exposure level over a specified time period to a reference dose for that substance derived from a similar exposure period.

(j) “Institutional control” means a legal mechanism that limits access to or use of property, or warns of a hazard, the purpose of which is to ensure the protection of human health and the environment.

(k) “Maximum contaminant level” and “MCL” have the meaning specified for “maximum contaminant level” in K.A.R. 28-16-28b.

(l) “Naturally occurring levels” means ambient concentrations of chemicals or substances present in the environment that are typical of background levels near the property subject to the voluntary agreement when not affected by the identified contamination source.

(m) “Nonresidential property” means any property that does not meet the definition of residential property.

(n) “Person” means an individual, firm, corporation, association, partnership, consortium, joint venture, commercial entity, state agency, unit of local government, school district, federal agency, tribal entity, interstate body, or other legal entity.

(o) “Potable water” has the meaning specified in K.A.R. 28-16-28b.

(p) “Remedial action” means those actions taken to address the effects of a release of a contaminant, so that it does not cause a significant risk to present or future public health or welfare, or to the environment.

(q) “Remediation” means the act of implementing, operating, and maintaining a remedial action.

(r) “Residential property” means any property currently used or proposed for use as one of the following:

(1) A residence or dwelling, including a house, apartment, mobile home, nursing home, or condominium; or

(2) a public use area, including a school, educational center, day care center, playground, unrestricted outdoor recreational area, or park.

(s) “Risk management plan” has the meaning specified in K.S.A. 2016 Supp. 65-34,176, and amendments thereto.

(t) “Voluntary cleanup and property redevelopment program” and “VCPRP” mean the implementation of the voluntary cleanup and

property redevelopment act, as defined in K.S.A. 65-34,161 et seq. and amendments thereto, by the department.

(u) “Voluntary party” means an applicant whose property is determined by the secretary to be eligible for the voluntary cleanup and property redevelopment program. (Authorized by K.S.A. 65-34,163; implementing K.S.A. 65-34,164, K.S.A. 65-34,165, K.S.A. 65-34,166, K.S.A. 2016 Supp. 65-34,167, K.S.A. 2016 Supp. 65-34,168, K.S.A. 2016 Supp. 65-34,169, and K.S.A. 65-34,172; effective June 26, 1998; amended Sept. 29, 2017.)

28-71-2. Applicant. Each applicant shall include a person that has title, control, or access to the property described in the application and is one of the following:

(a) A person who owns the property;

(b) a person who operates a facility located on the property;

(c) a person who previously owned, operated, or otherwise controlled activities on the property;

(d) a prospective owner of the property;

(e) a prospective operator of a facility located on the property;

(f) a person or generator of hazardous or solid waste who by contract, agreement, or otherwise, directly or indirectly, arranged for the disposal of contaminants at the property;

(g) a person who legally controls the property; or

(h) any unit of government that acquired title or control of the property involuntarily through bankruptcy, tax delinquency, abandonment, or other circumstances. (Authorized by K.S.A. 65-34,163; implementing K.S.A. 65-34,164; effective June 26, 1998; amended Sept. 29, 2017.)

28-71-3. Eligibility determination. (a) The property described in the application shall contain an actual, threatened, or suspected release of a contaminant or be impacted or threatened by contaminants from an off-property source.

(b) Properties that may be eligible for application to VCPRP shall include the following:

(1) Properties that have been assessed by the United States environmental protection agency, its contractors and agents, and the department, if the property meets the additional criteria required by K.S.A. 65-34,161 et seq., and amendments thereto, and this article of the department’s regulations;

(2) contaminated properties that are currently under an existing department order or agreement,

upon completion of the actions required by the department order or agreement, if the property meets the additional criteria required by K.S.A. 65-34,161 et seq., and amendments thereto. The determination of completion of the actions required by the order or agreement shall be made by the secretary;

(3) portions of a larger property that have or require a resource conservation and recovery act (RCRA) permit, but these portions do not require a permit in accordance with RCRA, which contains a corrective action component, as determined by the secretary, if the property meets the additional criteria required by K.S.A. 65-34,161 et seq., and amendments thereto;

(4) portions of a larger property that includes oil and gas activities regulated by the state corporation commission, but the specific portion is not regulated by the state corporation commission, if the property meets the additional criteria required by K.S.A. 65-34,161 et seq., and amendments thereto; and

(5) contaminated properties that are not statutorily excluded. (Authorized by K.S.A. 65-34,163; implementing K.S.A. 65-34,164; effective June 26, 1998; amended Sept. 29, 2017.)

28-71-4. Application process. (a) Each applicant shall submit to the department a complete application consisting of the following:

(1) An application form provided by the department;

(2) a nonrefundable application fee of \$200.00; and

(3) all documentation that supports the application, including environmental site assessments, investigation reports, or both.

(b) Determination of whether the property described in the application is eligible for participation in the VCPRP shall be made by the secretary pursuant to K.S.A. 65-34,161 et seq., and amendments thereto.

(c) The applicant shall submit a revised application package if the initial application is determined by the department to be incomplete.

(d) The applicant may submit an additional revised application package if the revised application is determined by the department to be incomplete. The applicant shall submit an additional application fee of \$200 with the additional revised application. (Authorized by K.S.A. 65-34,163; implementing K.S.A. 65-34,164 and 65-34,165; effective June 26, 1998; amended Sept. 29, 2017.)

28-71-5. Classification determination. (a) Each applicant shall include the following documentation for consideration by the secretary in determining placement of the property described in the application into one of two contamination classes, as defined in K.A.R. 28-71-1:

(1) The application and associated documentation that supports the voluntary party's application;

(2) review of available technical bulletins and scientific documents describing the geology and geohydrology of the property and surrounding area; and

(3) scientific information relating to the toxicity, mobility, persistence, and other characteristics of the contaminants suspected or identified at a property.

(b) Any applicant may provide additional information to support a reclassification of property subject to the voluntary agreement. (Authorized by K.S.A. 65-34,163; implementing K.S.A. 65-34,165 and 65-34,166; effective June 26, 1998; amended Sept. 29, 2017.)

28-71-6. Voluntary agreement. (a) Upon the secretary's approval of the application for the voluntary cleanup and property redevelopment program, the voluntary party shall enter into a voluntary agreement with the secretary. The voluntary agreement shall be developed by the department and submitted to the voluntary party for signature. The voluntary agreement shall specify all of the terms and conditions for implementation of the work anticipated in the VCPRP.

(b) Oversight, management, and review activities pertaining to the property shall not be commenced by the department until the voluntary agreement is signed by both the secretary and the voluntary party.

(c) The voluntary agreement shall require the voluntary party to deposit one of the following with the department, as applicable:

(1) For class I, an initial amount of \$2,000; or

(2) for class II, an initial amount not to exceed \$5,000.

(d) The voluntary agreement shall require the voluntary party to provide the department with access to the property at all reasonable times, upon reasonable notice to the voluntary party during all the activities conducted under K.S.A. 65-34,161 et seq., and amendments thereto. (Authorized by K.S.A. 65-34,163; implementing K.S.A. 65-34,165; effective June 26, 1998; amended Sept. 29, 2017.)

28-71-7. Initial deposit and reimbursement. (a) The initial deposit made by the voluntary party shall be based on the contamination classification of the property described in the application. The voluntary party shall submit quarterly payments upon billing for direct and indirect costs to maintain the voluntary party's account at a balance of at least \$1,000 for class I and at least \$2,000 for class II.

(b) The voluntary party shall be subject to oversight performed by the department or its contractors. This oversight shall include the following:

- (1) The review of documents, studies, and test results;
- (2) collection of split samples, laboratory analysis, and sampling supplies;
- (3) travel;
- (4) per diem;
- (5) verification activities; and
- (6) associated indirect costs. (Authorized by K.S.A. 65-34,163; implementing K.S.A. 65-34,165; effective June 26, 1998; amended Sept. 29, 2017.)

28-71-8. Environmental site assessments.

(a) Each environmental site assessment shall be prepared by an individual who possesses the education, experience, or licensure sufficient to prepare a competent environmental site assessment.

(b) Each environmental site assessment shall include the following information regarding the property either described in the application or subject to a voluntary agreement:

- (1) The legal description and a map identifying the location, boundaries, and size of the property;
- (2) the physical characteristics of the property and areas contiguous to the property, including the location of any surface water bodies and groundwater aquifers;
- (3) the location of any water wells located on the property or in an area within a one-half mile radius of the property and a description of the use of the those wells;
- (4) the operational history of the property, based upon the best efforts of the applicant and the current use of areas in the vicinity of the property;
- (5) the present and proposed uses of the property;
- (6) information concerning the nature and extent of any contamination;
- (7) information on releases of contaminants that have occurred at the property, including any environmental impact on areas in the vicinity of the property;

(8) any sampling results, evidence, or other data that characterizes the soil, groundwater, or surface water on the property; and

(9) a description of the human and environmental exposures to contamination at the property, based upon current use and any future use proposed by the property owner as approved by the local zoning authority. (Authorized by K.S.A. 65-34,163; implementing K.S.A. 65-34,165 and 65-34,166; effective June 26, 1998; amended Sept. 29, 2017.)

28-71-9. Voluntary cleanup work plans and reports.

(a) Upon signature of the voluntary agreement by the voluntary party and the secretary, the voluntary party shall submit each environmental site assessment, investigation report, or both, for review by the department to determine whether the following objectives have been met:

- (1) The sources for contaminants have been adequately identified and investigated.
- (2) The vertical and horizontal extent of contaminants has been determined.
- (3) The human health and environmental receptors have been identified.
- (4) The potential risks and impacts to receptors have been evaluated.
- (5) Quality assurance and quality control have been maintained.
- (6) The work has been performed in accordance with standard industry practices.

(b) If the secretary determines that further investigation is necessary to meet the objectives specified in subsection (a), the voluntary party shall submit a work plan to the department for review and approval. After approval of the work plan by the secretary, the following actions shall occur:

- (1) The voluntary party shall implement the approved work plan for investigation.
- (2) The voluntary party shall document and submit the results of the investigation in a report, which shall be submitted to the department for review.

(c) If the secretary determines that remediation is necessary to mitigate the risks posed by the property subject to the voluntary agreement, the voluntary party shall submit a proposal for remediation to the department for review and approval. The proposal for remediation shall meet the following requirements:

- (1) Be protective of human health and the environment for documented present and proposed future land uses;

(2) meet applicable state standards or acceptable contaminant concentrations as determined by a risk analysis that evaluates the property subject to the voluntary agreement and surrounding properties as a whole and that is approved by the secretary;

(3) evaluate remedial alternatives that are proven reliable and are economically and technically feasible by completing the following activities:

(A) Comparing at least two alternatives, not including the “no action” alternative; and

(B) documenting the ability of each remedial alternative to attain a degree of cleanup and control of contaminants established by the department; and

(4) provide a description and evaluation of the voluntary party’s proposed remedial alternative.

(d) If the secretary approves the proposal for remediation, the applicant shall submit a cleanup plan. The cleanup plan shall include the following:

(1) A description of all tasks necessary to implement the preferred remedial alternative;

(2) preliminary or final design plans and specifications of the preferred remedial alternative;

(3) a description of all necessary easements and permits required for implementation of the cleanup;

(4) an implementation schedule;

(5) a plan to monitor the effectiveness of the cleanup during implementation; and

(6) a verification plan to document that cleanup objectives have been achieved, which shall include sampling to be performed by the voluntary party, department, or both, as determined by the secretary. (Authorized by K.S.A. 65-34,163; implementing K.S.A. 65-34,166, K.S.A. 2016 Supp. 65-34,167, and K.S.A. 2016 Supp. 65-34,168; effective June 26, 1998; amended Sept. 29, 2017.)

28-71-10. “No further action” determination. (a) For the purposes of the regulations in this article of the department’s regulations, the term “no further action” determination shall mean that the secretary has determined, pursuant to K.S.A. 65-34,161 et seq. and amendments thereto, that no further action is necessary at the property subject to the voluntary agreement.

(b) Each voluntary party shall demonstrate to the department that the following conditions have been met to receive a “no further action” determination for class one contamination:

(1) The owner or operator of the property, or both parties, submit a complete application to the

department, including environmental site assessments and investigation reports.

(2) A determination that the contamination on the property resulted from an off-property source is made by the secretary.

(3) A determination that there is no on-site source of contamination, including soil contamination, is made by the secretary.

(4) The owner or operator of the property, or both parties, document that the past and current use of the property did not contribute to the contamination of soils, surface water, or groundwater.

(c) Each voluntary party shall demonstrate to the department that the following conditions have been met to receive a “no further action” determination for class two contamination:

(1) No contamination was detected.

(2) Contamination was detected, and following review of the environmental site assessment, investigation reports, and remediation reports, or a combination of these, the secretary has determined that contamination levels do not present significant risk to human health and the environment and, based on those levels, are less than applicable federal or state standards or site-specific cleanup levels as specified in K.A.R. 28-71-11.

(3) Contamination does not exceed acceptable contaminant concentrations as determined by the secretary in a site-specific qualitative risk analysis that evaluates the property and surrounding properties as a whole.

(d) Each voluntary party shall demonstrate to the department that the following conditions have been met to receive a “no further action” determination for class two contamination with conditions:

(1) Site conditions described in paragraph (c)(2) or (c)(3) have been met.

(2) Secretary-approved controls, including institutional controls, environmental use controls, a risk management plan, or a combination of these restricting the use of a property, are in place to ensure continued protection of human health and the environment. (Authorized by K.S.A. 65-34,163; implementing K.S.A. 2016 Supp. 65-34,169; effective June 26, 1998; amended Sept. 29, 2017.)

28-71-11. Remedial standards and remedial actions. (a) All remedial alternatives performed by the voluntary party and approved by the secretary shall attain a degree of cleanup, control, or both, of contaminants that ensures protection of human health and the environment.

(b) All remedial actions to restore the environment to conditions before its altered state shall be considered by the department if protection of human health and the environment is maintained and the movement of contaminants is controlled.

(c) The voluntary party shall propose any one of the following approaches to determine cleanup levels for the property:

- (1) Comparison to background levels;
- (2) comparison to department-established risk-based levels;
- (3) comparison to a site-specific, risk-based quantitative analysis conducted by the voluntary party or the department, based on formulas, exposure parameters, and land-use scenarios; or
- (4) other risk analysis methods approved by the secretary.

(d) Responsibility for reviewing and approving the approach and final selection of cleanup levels for property subject to the voluntary agreement shall rest with the secretary.

(1) The selection of cleanup levels shall be based on the present and proposed future uses of the property and surrounding properties.

(2) Land use shall include two general categories: residential property and nonresidential property.

(3) Multiple media, exposure pathways, and contaminants shall be taken into account during the determination of cleanup levels.

(4) Existing and applicable federal or state standards shall be considered by the department during the determination of cleanup levels.

(e) Secretary-approved controls, including the controls specified in K.A.R. 28-71-10, may be required by the department to ensure continued protection of human health and the environment.

(1) Approved controls for property subject to the voluntary agreement shall not be proposed as a substitute for evaluating remedial actions that would otherwise be technically and economically practicable.

(2) Approved controls for property subject to the voluntary agreement shall be considered as remedial actions.

(f) Soil cleanup levels and the depths to which the cleanup levels shall apply shall be based on human exposure, the present and proposed uses of the property, the depth of the contamination, and the potential impact to groundwater, surface water, or both, and any other risks posed by the soil contamination to human health and the environment.

(g) Soil and groundwater property-specific cleanup levels may be determined by the secretary for contaminants for which there is insufficient toxicological evidence to support a regulatory standard for risk-based cleanup levels or for non-toxic contaminants for which cleanup is required as a result of other undesirable characteristics of those contaminants. The soil levels shall be based on the following:

(1) The ability of the impacted soil to support vegetation representative of unimpacted properties in the vicinity of property subject to the voluntary agreement; and

(2) the potential of the contaminant to impact and degrade groundwater, surface water, or both, through infiltration or runoff.

(h) If there are multiple contaminants in the soil, the cleanup level of each contaminant shall not allow the cumulative risks posed by the contaminants to exceed a cancer risk level of 1×10^{-4} , one in 10,000, or a hazard index value of 1.0.

(i) Soil cleanup levels shall ensure that migration of contaminants in the soil shall not cause the cleanup levels established for groundwater, surface water, or both, to be exceeded.

(j) Groundwater cleanup levels shall be based on the actual and most probable use of the groundwater considering present and future uses. The most probable use of the groundwater is for a potable water source, unless demonstrated otherwise by the voluntary party and approved by the secretary.

(k) Groundwater potentially or actually used as a potable water source and impacted by the site contamination shall require maximum protection in determining cleanup levels.

(l) Remedial action to restore contaminated groundwater shall, at a minimum, prevent additional degradation and migration.

(m) When the need for cleanup of a contaminant can be predicated on characteristics of that contaminant other than toxicity, including the contribution of an undesirable taste or odor, or both, the site-specific cleanup levels as determined by the department or secondary maximum contaminant levels (MCLs) may be used as cleanup levels for contaminants for which insufficient toxicological evidence has been gathered to support a regulatory standard for risk-based cleanup levels or nontoxic contaminants. These levels shall be based on the aesthetic quality and usability of the groundwater, surface water, or both, for the present and proposed future use.

(n) Surface water cleanup levels shall meet the Kansas surface water quality standards, as specified in K.A.R. 28-16-28e. (Authorized by K.S.A. 65-34,163; implementing K.S.A. 2016 Supp. 65-34,167 and K.S.A. 2016 Supp. 65-34,168; effective June 26, 1998; amended Sept. 29, 2017.)

28-71-12. Public notification and participation. (a) The public shall have the opportunity during the public comment period to submit to the department written comments regarding the cleanup plan.

(b) The voluntary party or a member of the public may request a meeting following the 15-day public comment period.

(1) The public information meeting shall provide the public with information about relevant activities at the property associated with the voluntary cleanup and property redevelopment program. Public information meetings shall be attended by a member of the department and the voluntary party or designated representative, or both.

(2) A notice to the city, the county, or both, of the public information meeting shall be provided by the department. (Authorized by K.S.A. 65-34,163; implementing K.S.A. 2016 Supp. 65-34,168; effective June 26, 1998; amended Sept. 29, 2017.)

Article 72.—RESIDENTIAL CHILDHOOD LEAD POISONING PREVENTION PROGRAM

28-72-1. (Authorized by and implementing K.S.A. 2001 Supp. 65-1,202; effective, T-28-9-13-99, Sept. 13, 1999; effective Jan. 7, 2000; amended Dec. 6, 2002; revoked April 9, 2010.)

28-72-1a. Definitions. In addition to the definitions in K.S.A. 65-1,201 and amendments thereto, each of the following terms shall have the meaning assigned in this regulation: (a) “Abatement project reinspection fee” means the sum of money assessed to a KDHE-licensed lead activity firm by KDHE when KDHE is unable to inspect an abatement project due to the fault of the lead activity firm or its personnel.

(b) “Accreditation” means approval by KDHE of a training provider for a training course to train individuals for lead-based paint activities.

(c) “Accredited course” means a course that has been approved by the department for the training of lead professionals.

(d) “Act” means the residential childhood lead poisoning prevention act, and amendments thereto.

(e) “Adequate quality control” means a plan or design that ensures the authenticity, integrity, and accuracy of samples, including dust, soil, and paint chip or paint film samples. Adequate quality control shall also include provisions for representative sampling.

(f) “Audit” means the monitoring by KDHE of a certified individual, a licensed lead activity firm, or an accredited training provider to ensure compliance with the act and this article. (Authorized by and implementing K.S.A. 65-1,202; effective April 9, 2010.)

28-72-1c. Definitions. In addition to the definitions in K.S.A. 65-1,201 and amendments thereto, each of the following terms shall have the meaning assigned in this regulation: (a) “Certified lead professional” means a person who is certified by the secretary as a lead inspector, elevated blood-lead level (EBL) investigator, lead abatement supervisor, lead abatement worker, project designer, or risk assessor.

(b) “Child-occupied facility” means a building, or portion of a building, constructed before 1978, that is visited regularly by the same child who is under six years of age on at least two different days within any calendar week, Sunday through Saturday, if each day’s visit lasts at least three hours, the combined weekly visits last at least six hours, and the combined annual visits last at least 60 hours. This term may include residences, day care centers, preschools, and kindergarten classrooms. Child-occupied facilities may be located in target housing or in public or commercial buildings. For common areas in public or commercial buildings that contain child-occupied facilities, the child-occupied facility encompasses only those common areas that are routinely used by children under the age of six, including restrooms and cafeterias.

(c) “Classroom training” means training devoted to lecture, learning activities, small group activities, demonstrations, evaluations, or any combination of these educational activities.

(d) “Clearance levels” means the following values indicating the maximum amount of lead permitted in dust on a surface following completion of each abatement activity or lead hazard control:

- (1) 40 micrograms per square foot on floors;
- (2) 250 micrograms per square foot on window-sills; and

(3) 400 micrograms per square foot on window troughs.

(e) “Common area” means the portion of a building that is generally accessible to all occupants. This term may include the following:

- (1) Hallways;
- (2) stairways;
- (3) laundry and recreational rooms;
- (4) playgrounds;
- (5) community centers;
- (6) garages;
- (7) boundary fences; and
- (8) porches.

(f) “Component” and “building component” mean building construction products manufactured independently to be joined with other building elements to create specific architectural design or structural elements or to act as fixtures of a building, residential dwelling, or child-occupied facility. Components are distinguished from each other by form, function, and location. These terms shall include the following:

(1) Interior components, including the following:

- (A) Ceilings;
- (B) crown moldings;
- (C) walls;
- (D) chair rails;
- (E) doors and door trim;
- (F) floors;
- (G) fireplaces;
- (H) radiators and other heating units;
- (I) shelves and shelf supports;
- (J) stair treads, risers, and stringers; newel posts; railing caps; and balustrades;

(K) windows and trim, including sashes, window heads, jambs, sills, stools, and troughs;

- (L) built-in cabinets;
- (M) columns and beams;
- (N) bathroom vanities;
- (O) countertops;
- (P) air conditioners; and
- (Q) any exposed piping or ductwork; and
- (R) any product or device affixed to an interior surface of a dwelling; and

(2) exterior components, including the following:

- (A) Painted roofing and chimneys;
- (B) flashing, gutters, and downspouts;
- (C) ceilings;
- (D) soffits and fascias;
- (E) rake boards, cornerboards, and bulkheads;
- (F) doors and door trim;

(G) fences;

(H) floors;

(I) joists;

(J) latticework;

(K) railings and railing caps;

(L) siding;

(M) handrails;

(N) stair risers, treads, and stringers;

(O) columns and balustrades;

(P) windowsills and window stools, troughs, casing, sashes, and wells; and

(Q) air conditioners.

(g) “Containment” means a process to protect workers, residents, and the environment by controlling exposures to the lead-contaminated fumes, vapors, mist, dust, and debris created during lead abatement or lead hazard control.

(h) “Course agenda” means an outline of the main topics to be covered during a training course, including the time allotted to teach each topic.

(i) “Course exam blueprint” means written documentation identifying the proportion of course exam questions devoted to each major topic in the course curriculum.

(j) “Course test” means an evaluation of the overall effectiveness of the training, which shall test each trainee’s knowledge and retention of the topics covered during the course. (Authorized by and implementing K.S.A. 65-1,202; effective April 9, 2010.)

28-72-1d. Definitions. In addition to the definitions in K.S.A. 65-1,201 and amendments thereto, each of the following terms shall have the meaning assigned in this regulation: (a) “Department” means the Kansas department of health and environment.

(b) “Deteriorated paint” means paint that is cracking, flaking, chipping, chalking, peeling, or otherwise separating from the substrate of a building component.

(c) “Discipline” means one of the specific types or categories of lead-based paint activities identified in the act and this article in which individuals may receive training from accredited courses and become certified by the secretary.

(d) “Distinct painting history” means the application history over time, as indicated by the visual appearance or a record of application, of paint or other surface coatings to a component or room.

(e) “Documented methodologies” means the methods or protocols used to sample for the presence of lead in paint, dust, and soil. (Authorized

by and implementing K.S.A. 65-1,202; effective April 9, 2010.)

28-72-1e. Definitions. In addition to the definitions in K.S.A. 65-1,201 and amendments thereto, each of the following terms shall have the meaning assigned in this regulation: (a) “Elevated blood lead level (EBL) child” and “EBL child” mean any child who has an excessive absorption of lead with a confirmed concentration of lead in whole blood of 10 µg (micrograms) of lead per deciliter of whole blood, as specified in K.A.R. 28-1-18.

(b) “Encapsulant” means a substance that forms a barrier between lead-based paint and the environment using a liquid-applied coating, with or without reinforcement materials, or an adhesively bonded covering material.

(c) “Encapsulation” means the application of an encapsulant.

(d) “Enclosure” has the meaning specified in 40 CFR 745.223, as adopted in K.A.R. 28-72-2.

(e) “EPA” means the United States environmental protection agency. (Authorized by and implementing K.S.A. 65-1,202; effective April 9, 2010.)

28-72-1g. Definition. In addition to the definitions in K.S.A. 65-1,201 and amendments thereto, the following term shall have the meaning assigned in this regulation:

“Guest instructor” means an individual who is designated by the training manager or principal instructor and who provides instruction specific to the lectures, hands-on work activities, or work practice components of a course. Each guest instructor shall be directly employed and monetarily compensated by the accredited training provider. A guest instructor shall not teach more than seven calendar days each quarter. Each guest instructor shall be KDHE-certified in the training course or in an associated advanced training course for which the guest instructor will be providing instruction. If a guest instructor is utilized, KDHE shall be notified at least 24 hours before the training course begins. (Authorized by and implementing K.S.A. 65-1,202; effective April 9, 2010.)

28-72-1h. Definitions. In addition to the definitions in K.S.A. 65-1,201 and amendments thereto, each of the following terms shall have the meaning assigned in this regulation: (a) “Hands-on skills assessment” means an evaluation of the effectiveness of the hands-on training that tests

the ability of the trainees to demonstrate satisfactory performance and understanding of work practices and procedures as well as any other skills demonstrated in the course.

(b) “Hands-on training” means training that involves the actual practice of a procedure or the use of equipment, or both.

(c) “Hazardous waste” means any waste as defined in K.S.A. 65-3430, and amendments thereto.

(d) “HEPA vacuum” has the meaning specified in 40 CFR 745.83, as adopted in K.A.R. 28-72-2. (Authorized by and implementing K.S.A. 65-1,202; effective April 9, 2010.)

28-72-1i. Definition. In addition to the definitions in K.S.A. 65-1,201 and amendments thereto, the following term shall have the meaning assigned in this regulation:

“Interim controls” means a set of repair or maintenance activities designed to last less than 20 years that temporarily reduce human exposure or likely exposure to lead hazards, including the following:

(a) Repairing deteriorated lead-based paint;

(b) specialized cleaning;

(c) maintenance;

(d) painting;

(e) temporary containment;

(f) ongoing monitoring of lead hazards or potential hazards; and

(g) the establishment and operation of management and resident education programs. (Authorized by and implementing K.S.A. 65-1,202; effective April 9, 2010.)

28-72-1k. Definition. In addition to the definitions in K.S.A. 65-1,201 and amendments thereto, the following term shall have the meaning assigned in this regulation:

“KDHE” means the Kansas department of health and environment. (Authorized by and implementing K.S.A. 65-1,202; effective April 9, 2010.)

28-72-1l. Definitions. In addition to the definitions in K.S.A. 65-1,201 and amendments thereto, each of the following terms shall have the meaning assigned in this regulation: (a) “Large-scale abatement project” means lead abatement for 10 or more residential dwellings or multifamily dwellings for 10 or more units.

(b) “Lead abatement” means any repair or maintenance activity or set of activities designed to last at least 20 years or to permanently elim-

inate lead-based paint hazards in a residential dwelling, child-occupied facility, or other structure designated by the secretary.

(1) Lead abatement shall include the following:

(A) The removal of lead-based paint and lead contaminated dust, the permanent enclosure or encapsulation of lead-based paint, the replacement of lead-painted surfaces or fixtures, and the removal or covering of lead-contaminated soil;

(B) all preparation, cleanup, disposal, and post-abatement clearance testing activities associated with these measures;

(C) any project for which there is a written contract or other documentation requiring an individual, firm, or other entity to conduct activities in any structure that are designed to permanently eliminate lead hazards;

(D) any project resulting in the permanent elimination of lead hazards that is conducted by lead activity firms; and

(E) any project resulting in the permanent elimination of lead hazards that is conducted in response to a lead hazard control order.

(2)(A) Lead abatement shall not include renovation, remodeling, landscaping, and other activities if these activities are not designed to permanently eliminate lead hazards, but are designed to repair, restore, or remodel a given structure or dwelling, even though these activities could incidentally result in a reduction or an elimination of lead hazards.

(B) Lead abatement shall not include operations and maintenance activities, and other measures and activities designed to temporarily, but not permanently, reduce lead-based paint hazards.

(c) "Lead abatement supervisor" means an individual certified by the secretary to perform lead hazard control activities and to prepare occupant protection plans and abatement reports. Each applicant for a lead abatement supervisor shall meet all of the requirements specified in K.A.R. 28-72-8.

(d) "Lead abatement worker" means an individual certified by the secretary and meeting all of the requirements specified in K.A.R. 28-72-7.

(e) "Lead activity firm" means an individual or entity that meets all the requirements listed in K.A.R. 28-72-10.

(f) "Lead-based paint hazard" means any condition that causes exposure to lead from lead-contaminated dust, lead-contaminated soil, or lead-based paint that is deteriorated or present in accessible surfaces, friction surfaces, or impact

surfaces and that would result in adverse human health effects.

(g) "Lead-based paint inspection" means any effort to identify lead concentrations in surface coatings by means of a surface-by-surface investigation and the provision of a written report explaining the results of the investigation. The inspection shall not include any attempt to determine lead concentrations in soil, water, or dust.

(h) "Lead-based paint inspector" means an individual certified by the secretary to perform any efforts to identify lead concentrations in surface coatings by means of a surface-by-surface investigation. Each applicant for a lead-based paint inspector shall meet all of the requirements specified in K.A.R. 28-72-5.

(i) "Lead-contaminated dust" means surface dust in residential dwellings or child-occupied facilities that contains 40 micrograms per square foot or more on uncarpeted floors, 250 micrograms per square foot or more on windowsills, and 400 micrograms per square foot or more on window troughs or any other surface dust levels evidenced by research and determined by the secretary as contaminated.

(j) "Lead-contaminated soil" means bare soil on residential real property and on the property of a child-occupied facility that contains lead in excess of 400 parts per million for areas where child contact is likely and in excess of 1,200 parts per million in the rest of the yard, or any other lead in soil levels evidenced by research and determined by the secretary as contaminated.

(k) "Lead hazard" means any lead source that is readily accessible to humans in, on, or adjacent to a residential property, including paint, as defined in these regulations, in any condition, contaminated soils, dust, or any other item that contains lead in any amount and has been identified through an environmental investigation or risk assessment as a source of lead that could contribute to the lead poisoning of an individual.

(l) "Lead hazard control" means any activity implemented to control known or assumed lead hazards on or in any structure covered by this act. All implemented lead hazard control activities, at a minimum, shall utilize lead-safe work practices and shall be subject to work practice inspections by the KDHE.

(m) "Lead hazard control notice" means the written notification to compel the owner of a child-occupied facility that has been identified by the secretary as the major contributing cause of

poisoning an EBL child to eliminate or remediate the lead hazards to make the child-occupied facility safe from continued exposure to lead hazards.

(n) “Lead hazard screen” means a limited risk assessment activity that involves limited deteriorated paint and dust sampling as described in K.A.R. 28-72-13 and K.A.R. 28-72-15. In target housing or a child occupied facility, at least two samples shall be taken from the floors and at least one sample shall be taken from the windows in all of the rooms where one or more children could have access. Additionally, in multifamily dwellings and child-occupied facilities, dust samples shall be taken from any common areas where one or more children have access.

(o) “Lead inspector” means an individual certified by the secretary to perform a surface-by-surface investigation on a structure to determine the presence of lead-based paint and provide a written report explaining the results of the investigation as specified in K.A.R. 28-72-14.

(p) “Lead-safe work practices” means work practices standards established to work safely with lead-based surface coatings as presented in the joint EPA-HUD curriculum titled “lead safety for remodeling, repair, & painting,” excluding the appendices, dated June 2003 and hereby adopted by reference, or an equivalent KDHE-approved curriculum.

(q) “Living area” means any area or room equivalent, as defined in the HUD “guidelines for the evaluation and control of lead-based paint hazards in housing,” which is adopted by reference in K.A.R. 28-72-13. This term shall include any porch of a residential dwelling used by at least one child who is six years of age and under or by a woman of childbearing age.

(r) “Local government” means a county, city, town, district, association, or other public body, including an agency comprised of two or more of these entities, created under state law. (Authorized by and implementing K.S.A. 65-1,202; effective April 9, 2010.)

28-72-1m. Definition. In addition to the definitions in K.S.A. 65-1,201 and amendments thereto, the following term shall have the meaning assigned in this regulation:

“Multifamily dwelling” means a structure that contains more than one separate residential dwelling unit used or occupied, or intended to be used or occupied, in whole or in part as the residence of one or more persons. (Authorized by and implementing K.S.A. 65-1,202; effective April 9, 2010.)

28-72-1n. Definition. In addition to the definitions in K.S.A. 65-1,201 and amendments thereto, the following term shall have the meaning assigned in this regulation:

“Nonprofit” means an entity that has been determined by the IRS to be not-for-profit as evidenced by a “letter of determination” designating the tax code under which the entity operates. (Authorized by and implementing K.S.A. 65-1,202; effective April 9, 2010.)

28-72-1o. Definitions. In addition to the definitions in K.S.A. 65-1,201 and amendments thereto, each of the following terms shall have the meaning assigned in this regulation: (a) “Occupant protection plan” means a plan developed by a lead abatement supervisor or project designer before the commencement of lead abatement or lead hazard control in any structure designated by the act that describes the measures and management procedures to be taken during lead abatement or lead hazard control to protect the building occupants from exposure to any lead hazards.

(b) “Occupation” means one of the specific disciplines of lead-based paint activities identified in this article for which individuals can receive training from training providers. This term shall include renovator, lead abatement worker, lead abatement supervisor, lead inspector, risk assessor, and project designer, and any combination of these.

(c) “Oral exam” means a test that is equivalent in content to a corresponding written exam but is read to the student by the principal instructor. Each student taking an oral exam shall be required to provide the answers to the exam in writing. (Authorized by and implementing K.S.A. 65-1,202; effective April 9, 2010.)

28-72-1p. Definitions. In addition to the definitions in K.S.A. 65-1,201 and amendments thereto, each of the following terms shall have the meaning assigned in this regulation: (a) “Paint” means all types of surface coatings, including stain, varnish, epoxy, shellac, polyurethane, and sealants.

(b) “Passing score” means a grade of 80% or higher on the third-party examination and training course examination for a lead occupation certificate.

(c) “Permanently covered soil” means soil that has been separated from human contact by the placement of a barrier consisting of solid, relatively impermeable materials, including pavement and concrete. Soil covered with grass, mulch, and

other landscaping materials shall not be deemed permanently covered soil.

(d) “Principal instructor” means an individual who meets the following requirements:

(1) Is directly employed and monetarily compensated by a training provider;

(2) is certified to perform the lead occupation in which the individual will provide instruction or has obtained certification in an advanced lead occupation; and

(3) has the primary responsibility for organizing and teaching a training course.

(e) “Project design” means lead abatement project designs, lead hazard control project designs, occupant protection plans, and lead abatement reports. (Authorized by and implementing K.S.A. 65-1,202; effective April 9, 2010.)

28-72-1r. Definitions. In addition to the definitions in K.S.A. 65-1,201 and amendments thereto, each of the following terms shall have the meaning assigned in this regulation: (a) “Reaccreditation” means the renewal of accreditation of a training provider for a training course after the expiration of the initial accreditation.

(b) “Recognized laboratory” means a laboratory recognized by the EPA pursuant to section 405(b) of the toxic substances control act (TSCA) as being capable of performing analyses for lead compounds in paint chips, dust, and soil samples.

(c) “Reduction” means any measure designed and implemented to reduce or eliminate human exposure to lead-based paint hazards including interim controls and abatement.

(d) “Refresher course” means a training course taken by a certified lead professional to maintain certification in a particular discipline.

(e) “Renewal” means the reissuance of a lead occupation certificate, a lead activity firm license, or a training provider accreditation.

(f) “Risk assessment” means an on-site investigation to determine the existence, nature, severity, and location of lead hazards in a residential dwelling or child-occupied facility and the provision of a written report explaining the results of the investigation and options for reducing lead hazards.

(g) “Risk assessor” means an individual certified by the secretary who meets the requirements in K.A.R. 28-72-6. (Authorized by and implementing K.S.A. 65-1,202; effective April 9, 2010.)

28-72-1s. Definitions. In addition to the definitions in K.S.A. 65-1,201 and amendments

thereto, each of the following terms shall have the meaning assigned in this regulation. (a) “State” means any state of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, the Canal Zone, American Samoa, the Northern Mariana Islands, or any other territory or possession of the United States.

(b) “Surface coatings” means paint as defined in K.A.R. 28-72-1p. (Authorized by and implementing K.S.A. 65-1,202; effective April 9, 2010.)

28-72-1t. Definitions. In addition to the definitions in K.S.A. 65-1,201 and amendments thereto, each of the following terms shall have the meaning assigned in this regulation: (a) “Target housing” means housing constructed before 1978, with the exception of housing for the elderly. If one or more children through the age of 72 months reside or are expected to reside in the housing built exclusively for the elderly, the housing shall be assumed to have been constructed before 1978 unless empirical data proves otherwise. This term shall include schools and any structure used for the care of children under six years of age.

(b) “Third-party examination” means a discipline-specific examination administered by the department to test the knowledge of a person who has completed the required training course and is applying for certification in a particular discipline.

(c) “Training course” means the approved course of instruction established by this article to prepare an individual for certification in a single discipline.

(d) “Training curriculum” means a set of course topics for instruction by a training provider for a particular occupation designed to provide specialized knowledge and skills.

(e) “Training hour” means at least 50 minutes of actual time used for learning, including time devoted to lectures, learning activities, small group activities, demonstrations, evaluations, and hands-on experience.

(f) “Training manager” means the individual who is a direct and monetarily compensated employee of a training provider, is subject to the employment standards of the fair labor standards act, and is responsible for administering a training program and monitoring the performance of principal instructors and guest instructors.

(g) “Training provider” means a person or entity who has met the requirements of K.A.R. 28-72-4 and provides training courses for the purpose of state certification or certification renewal in

the occupations of lead-safe work practices, lead abatement worker, lead abatement supervisor, lead-based paint inspector, risk assessor, and project designer. (Authorized by and implementing K.S.A. 65-1,202; effective April 9, 2010.)

28-72-1v. Definition. In addition to the definitions in K.S.A. 65-1,201 and amendments thereto, the following term shall have the meaning assigned in this regulation:

“Visual inspection for clearance testing” means the visual examination of a residential dwelling, a child-occupied facility, or any other structure designated by the secretary following a lead abatement or lead hazard control to determine whether or not the lead abatement or lead hazard control has been successfully completed. (Authorized by and implementing K.S.A. 65-1,202; effective April 9, 2010.)

28-72-1x. Definition. In addition to the definitions in K.S.A. 65-1,201 and amendments thereto, the following term shall have the meaning assigned in this regulation:

“X-ray fluorescence analyzer (XRF)” means an instrument that determines lead concentration in milligrams per square centimeter (mg/cm²) using the principle of X-ray fluorescence. (Authorized by and implementing K.S.A. 65-1,202; effective April 9, 2010.)

28-72-2. General requirements for accreditation, licensure, and certification; adoption by reference. (a) Waiver. Any applicant for certification and any certified individual

may authorize others, including the applicant's or individual's employer, to act on the applicant's or individual's behalf regarding the certification application. This authorization shall be indicated on the application form provided by KDHE. If at any time the applicant or certified individual decides to change this authorization, the applicant or certified individual shall notify KDHE in writing of the change.

(b) Change of address. Each certified individual shall notify KDHE in writing of a change of mailing address no later than 30 days following the change. Each lead activity firm shall notify KDHE in writing of a change in business mailing address no later than 30 days following the change. Until a change of address is received, all correspondence shall be mailed to the individual's mailing address and the lead activity firm's business address indicated on the most recent application form.

(c) Prior out-of-state certification. A lead occupation certificate may be issued by the secretary to any person if both of the following conditions are met:

(1) The person meets the following requirements:

(A) Has submitted a complete application;

(B) has taken the required third-party exam for the discipline applied for and received a passing score; and

(C) has provided proof of certification from another state, if KDHE has entered into an agreement with that state or if that state is a current EPA program state.

(2) All individual certification fees have been paid.

(d) Adoption by reference.

(1) 40 CFR 745.80 through 745.90, as in effect on July 1, 2008, are adopted by reference, except as specified in paragraph (d)(2). For the purpose of this regulation, each reference in the adopted CFRs to “EPA” shall mean “KDHE,” and each reference to “administrator” shall mean “secretary.”

(2) The following portions of 40 CFR 745.80 through 40 CFR 745.90 are not adopted:

(A) 40 CFR 745.81 and 40 CFR 745.82(c);

(B) in 40 CFR 745.83, the following terms and their definitions: child occupied facility, component or building component, interim controls, recognized test kit, renovator, and training hour;

(C) 40 CFR 745.85(a)(3)(iii). The use of a heat gun to remove lead-based paint shall not be allowed;

(D) 40 CFR 745.86(b)(6) and (c);

(E) 40 CFR 745.87;

(F) 40 CFR 745.88;

(G) 40 CFR 745.89;

(H) 40 CFR 745.90(a), (b)(6), and (c);

(I) 40 CFR 745.91; and

(J) 40 CFR 745.225(c)(6)(vii). (Authorized by K.S.A. 65-1,202; implementing K.S.A. 65-1,202 and 65-1,203; effective, T-28-9-13-99, Sept. 13, 1999; effective Jan. 7, 2000; amended Dec. 6, 2002; amended April 9, 2010.)

28-72-3. Fees. The following fees shall apply:

(a) Training providers. A separate accreditation fee shall be required for each training course. If a training course is taught in more than one language, a separate accreditation fee shall be required for each of these versions of the training course.

(1) Accreditation fee.....	\$500	(2) Individual recertification	\$0
(2) Initial fee.		(h) Third-party examination.....	\$50
(A) Lead abatement supervisor, lead abatement worker, and project designer courses...	\$1,000	(i) Lead activity firm.	
(B) Risk assessor and lead inspector courses	\$1,000	(1) License	\$500
(C) Lead-safe work practices	\$300	(2) License renewal	\$250
(3) Refresher course fee.		(3) Lead abatement project fee	1% of each project or \$50, whichever is greater
(A) Lead abatement supervisor, lead abatement worker, and project designer courses...	\$500	(4) Abatement project reinspection fee	\$150
(B) Risk assessor and lead inspector courses	\$500	(j) Renovation firm.	
(C) Lead-safe work practices	\$150	(1) License	\$200
(4) Reaccreditation fee.....	\$500	(2) License renewal	\$100
(A)(i) Reaccreditation for lead abatement supervisor, lead abatement worker, and project designer courses	\$1,000	(Authorized by and implementing K.S.A. 65-1,202; effective, T-28-9-13-99, Sept. 13, 1999; effective Jan. 7, 2000; amended Dec. 6, 2002; amended April 9, 2010.)	
(ii) Reaccreditation for risk assessor and inspector courses	\$1,000	28-72-4. Training provider accreditation.	
(B)(i) Refresher reaccreditation for lead abatement supervisor, lead abatement worker, and project designer courses	\$500	(a) Good standing. Each applicant wishing to provide and teach lead activity training in Kansas shall be accredited as a training provider and licensed by KDHE as a lead activity firm. Each applicant desiring accreditation of the training courses for lead inspector, risk assessor, lead abatement worker, lead abatement supervisor, project designer, or lead-safe work practices, or any combination, under this regulation, who is required to be registered and in good standing with the Kansas secretary of state's office, shall submit a copy of the applicant's certificate of good standing to KDHE.	
(ii) Refresher reaccreditation for risk assessor and lead inspector courses	\$500	(b) Application to become a training provider for a training course. Completed applications shall be submitted to KDHE. Each application shall include the following:	
(b) Lead inspector.		(1) A completed training provider course accreditation application on a form provided by KDHE, which shall include the following:	
(1) Individual certification	\$200	(A) The training provider's name, address, and telephone number;	
(2) Individual recertification	\$100	(B) the lead activity firm license number;	
(c) Risk assessor.		(C) the name and date of birth of the training manager;	
(1) Individual certification	\$300	(D) the name and date of birth of the principal instructor for each course;	
(2) Individual recertification	\$150	(E) the name and date of birth for any guest instructor for each course;	
(3) Local health department or clinic that has received a certificate from KDHE for elevated blood lead level investigation risk assessments	\$0	(F) a list of locations at which training will take place;	
(d) Lead abatement supervisor.		(G) a list of courses for which the training provider is applying for accreditation; and	
(1) Individual certification	\$150		
(2) Individual recertification	\$75		
(e) Project designer.			
(1) Individual certification	\$150		
(2) Individual recertification	\$75		
(f) Lead abatement worker.			
(1) Individual certification	\$50		
(2) Individual recertification	\$25		
(g) Renovator.			
(1) Individual certification	\$0		

(H) a statement signed by the training manager certifying that the information in the application for accreditation, and any additional information included with the application, is true and accurate to the best of the training manager's knowledge and understanding, that the training provider will comply with K.A.R. 28-72-4 through K.A.R. 28-72-4c, and that the training provider will conduct lead training only in those occupations in which the training provider has received accreditation;

(2) a copy of the student and instructor manuals;

(3) the course agenda;

(4) the course examination blueprint;

(5) a copy of the quality control plan as described in paragraph (d)(9) of this regulation;

(6) a copy of a sample course completion diploma as described in paragraph (d)(8) of this regulation;

(7) a description of the facilities and equipment to be used for lectures and hands-on training;

(8) a description of the activities and procedures that will be used for conducting the skills assessment for each course;

(9) a payment to KDHE for the applicable non-refundable accreditation fees specified in K.A.R. 28-72-3, unless the training provider is a state, federally recognized Indian tribe, local government, or nonprofit organization as evidenced by a letter of determination issued by the IRS, which shall accompany the application; and

(10) documentation supporting the training manager's, principal instructor's, and any guest instructor's qualifications.

(c) Procedure for issuance or denial of training provider accreditation for a training course. The applicant shall be informed by KDHE in writing that the application is approved, incomplete, or denied.

(1) If an application is incomplete, the notice shall include a list of additional information or documentation required to complete the application.

(A) Within 30 calendar days after the issuance date of the notice of incomplete application, the applicant shall submit to KDHE, in writing, the information requested in the written notice.

(B) Failure to submit the information requested in the written notice within 30 calendar days shall result in denial of the application for a training course accreditation.

(C) After the information in the written notice is received, the applicant shall be informed by KDHE in writing that the application is either approved or denied.

(2) If an application is approved, a two-year accreditation certificate shall be issued by KDHE.

(3) If an application for training course accreditation is denied, the specific reason or reasons for the denial shall be stated in the notice of denial to the applicant.

(A) Training course accreditation may be denied by the secretary pursuant to K.S.A. 65-1,207(c), and amendments thereto.

(B) If an application is denied, the applicant may reapply for accreditation at any time.

(C) If an applicant is aggrieved by a determination to deny accreditation, the applicant may request a hearing with the office of administrative hearings, in accordance with the Kansas administrative procedure act.

(d) Requirements for accreditation of a training provider for a training course. For a training provider to maintain accreditation from KDHE to offer a training course, the training provider shall meet the following requirements:

(1) Training manager. The training manager shall be a monetarily compensated direct employee of the training provider who meets the requirements in subsection (e). The training manager shall be responsible for ensuring that the training provider complies at all times with the requirements in these regulations. The training manager may designate guest instructors as needed to provide instruction specific to the lecture, hands-on activities, or work practice components of a course. The training manager shall ensure that each guest instructor meets the requirements in subsection (f).

(2) Principal instructor. The training provider, in coordination with the training manager, shall designate a qualified principal instructor who meets the requirements in subsection (f). The principal instructor shall be responsible for the organization of the course and oversight of the teaching of all course materials. The principal instructor shall be present during all classes or presentations given by any guest instructor.

(3) Guest instructor. The training manager may designate a guest instructor on an as-needed basis. No guest instructor shall be allowed to teach an entire training course. Each guest instructor shall meet the requirements in subsection (f).

(4) Training provider. The training provider shall meet the curriculum requirements in K.A.R. 28-72-4a for each course contained in the application for accreditation of a training provider.

(5) Delivery of course. The training provider shall ensure the availability of, and provide ad-

equate facilities for, the delivery of the lecture, course exam, hands-on training, and assessment activities. This requirement shall include providing training equipment that reflects current work practice standards in K.A.R. 28-72-13 through K.A.R. 28-72-21 and maintaining or updating the course materials, equipment, and facilities as needed.

(6) Course exam. For each course offered, the training provider shall conduct a monitored, written course exam at the completion of each course. An oral exam may be administered in lieu of a written course exam for the lead abatement worker course only. If an oral examination is administered, the student shall be required to provide the answers to the exam in writing.

(A) The course exam shall evaluate each trainee's competency and proficiency.

(B) Each individual shall be required to achieve a passing score on the course exam in order to successfully complete any course and receive a course completion diploma.

(C) The training provider and the training manager shall be responsible for maintaining the validity and integrity of the course exam to ensure that the exam accurately evaluates each trainee's knowledge and retention of the course topics.

(7) Hands-on skills assessment. For each course offered, except for project designers, the training provider shall conduct a hands-on skills assessment. The training manager shall maintain the validity and integrity of the hands-on skills assessment to ensure that the assessment accurately evaluates each trainee's performance of the work practice procedures associated with the course topics.

(8) Course completion diploma. The training provider shall issue a unique course completion diploma to each individual who passes the training course. Each course completion diploma shall include the following:

(A) The name, a unique identification number, and the address of the individual;

(B) the name of the particular course that the individual completed;

(C) the dates of course attendance; and

(D) the name, address, and telephone number of the training provider.

(9) Quality control plan. The training manager shall develop and implement a quality control plan. The plan shall be used to maintain or progressively improve the quality of the accredited provider.

(A) This plan shall contain at least the following elements:

(i) Procedures for periodic revision of training materials and the course exam to reflect innovations in the field;

(ii) procedures for the training manager's annual review of the competency of the principal instructor; and

(iii) a review to ensure the adequacy of the facilities and equipment.

(B) An annual report discussing the results of the quality control plan shall be submitted to KDHE within one year following accreditation and at each subsequent renewal.

(10) Access by KDHE. The training provider shall allow KDHE to conduct audits as needed in order for KDHE to evaluate the training provider's compliance with KDHE accreditation requirements. During this audit, the training provider shall make available to KDHE all information necessary to complete the evaluation. At KDHE's request, the training provider shall also make documents available for photocopying.

(11) Recordkeeping. The training provider shall maintain at its principal place of business, for at least five years, the following records:

(A) All documents specified in paragraphs (e)(2) and (f)(2) that demonstrate the qualifications listed in paragraph (e)(1) for the training manager, and paragraph (f)(1) for the principal instructor and any guest instructor;

(B) curriculum or course materials, or both, and documents reflecting any changes made to these materials;

(C) the course examination and blueprint;

(D) information regarding how the hands-on skills assessment is conducted, including the following:

(i) The name of the person conducting the assessment;

(ii) the criteria for grading skills;

(iii) the facilities used;

(iv) the pass and fail rate; and

(v) the quality control plan as described in paragraph (d)(9);

(E) results of the students' hands-on skills assessments and course exams, and a record of each student's course completion diploma; and

(F) any other material not listed in this paragraph (d)(11) that was submitted to KDHE as part of the training provider's application for accreditation.

(12) Course notification. The training provider shall notify KDHE in writing at least 14 calendar days before conducting an accredited training course.

(A) Each notification shall include the following information:

(i) The location of the course, if it will be conducted at a location other than the training provider's training facility;

(ii) the dates and times of the course;

(iii) the name of the course; and

(iv) the name of the principal instructor and any guest instructors conducting the course.

(B) If the scheduled training course has been changed or canceled, the training provider shall notify KDHE in writing at least 24 hours before the training course was scheduled to begin.

(13) Changes to a training course. Before any one of the following changes is made to a training course, that change shall be submitted in writing to KDHE for review and approval before the continuation of the training course:

(A) The course curriculum;

(B) the course examination;

(C) the course materials;

(D) the training manager, principal instructors, or guest instructors; or

(E) the course completion diploma.

Within 60 calendar days after receipt of a change to a training course, the provider shall be informed by KDHE in writing that the change is either approved or disapproved. If the change is approved, the training provider shall include the change in the training course. If the change is disapproved, the training provider shall not include the change in the training course.

(14) Change of ownership. If a training provider changes ownership, the new owner shall notify KDHE in writing at least 30 calendar days before the change of ownership becomes effective. The notification shall include a new training course provider accreditation application, the appropriate fee or fees, and the date that the change of ownership will become effective. The new training course provider accreditation application shall be processed according to this regulation. The current training provider's accreditation shall expire on the effective date specified in the notification of the change of ownership.

(15) Change of address. The training provider shall submit to KDHE a written notice of the training provider's new address and telephone number, and a description of the new training facility. The training provider shall submit this information to KDHE not later than 30 days before relocating its business or transferring its records.

(e) Training, education, and experience requirements for the training manager.

(1) The education or experience requirements for the training manager shall include one year of experience in lead or asbestos abatement, painting, carpentry, renovation, remodeling, safety and health, or industrial hygiene, and at least one of the following:

(A) A minimum of two years of experience in teaching or training adults;

(B) a bachelor's or graduate degree in building construction technology, engineering, industrial hygiene, safety, public health, business administration, or education; or

(C) a minimum of two years of experience in managing a training program specializing in environmental hazards.

(2) The following records of experience and education shall be recognized by KDHE as evidence that the individual meets or exceeds KDHE requirements for a training manager:

(A) Resumes, letters of reference from past employers, or documentation to evidence past experience that includes specific dates of employment, the employer's name, address, telephone number, and specific job duties, as evidence of meeting the experience requirements; and

(B) official academic transcripts or diplomas, as evidence of meeting the education requirements.

(f) Training, education, and experience requirements for the principal instructor and any guest instructor.

(1) The training, education, and experience requirements for the principal instructor and any guest instructor of a training course shall include the following:

(A) At least one year of experience in teaching or training adults; and

(B) at least one year of experience in lead or asbestos abatement, painting, carpentry, renovation, remodeling, occupational safety and health, or industrial hygiene, or an associate degree or higher from a postsecondary educational institution in building construction technology, engineering, safety, public health, or industrial hygiene.

(2) The following records of experience and education shall be recognized by KDHE as evidence that the individual meets or exceeds KDHE requirements for a principal instructor:

(A) Course completion diplomas issued by the training provider as evidence of meeting the training requirements and a current copy of the

KDHE certification for the disciplines that the principal instructor desires to teach;

(B) official academic transcripts or diplomas, as evidence of meeting the education requirements; and

(C) resumes, letters of reference from past employers, or documentation to evidence past experience that includes specific dates of employment, the employer's name, address, telephone number, and specific job duties, as evidence of meeting the experience requirements.

(g)(1) Training provider accreditation may be suspended or revoked by the secretary pursuant to K.S.A. 65-1,207(c), and amendments thereto.

(2) Before suspending or revoking a training provider's accreditation, a training provider shall be given written notice of the reasons for the suspension or revocation. The training provider may request a hearing with the office of administrative hearings, in accordance with the Kansas administrative procedure act.

(h) Renewal of accreditation.

(1) Unless revoked sooner, a training provider's accreditation shall expire two years after the date of issuance. If a training provider meets the requirements of this regulation and K.A.R. 28-72-4a, the training provider shall be reaccredited.

(2) Each training provider seeking reaccreditation shall submit an application to KDHE at least 60 calendar days before the provider's accreditation expires. If a training provider does not submit its application for reaccreditation by that date, the provider's reaccreditation before the end of the accreditation period shall not be guaranteed by KDHE.

(3) The training provider's application for reaccreditation shall contain the following:

(A) A completed training provider course accreditation application on a form provided by KDHE, which shall include the following:

(i) The training provider's name, address, and telephone number;

(ii) the name and date of birth of the training manager;

(iii) the name and date of birth of the principal instructor for each course;

(iv) a list of locations at which training will take place;

(v) a list of courses for which the training provider is applying for reaccreditation; and

(vi) a statement signed by the training manager certifying that the information provided in the application for reaccreditation, and any additional

information included with the application, is true and accurate to the best of the training manager's knowledge and understanding, that the training provider will comply with K.A.R. 28-72-4 and K.A.R. 28-72-4a, and that the training provider will conduct lead training only in those occupations in which the training provider has received accreditation;

(B) a list of courses for which the training provider is applying for reaccreditation;

(C) a description of any changes to the training facility, equipment, or course materials since the training provider's last application was approved that adversely affects the students' ability to learn; and

(D) a payment to KDHE for the nonrefundable fees specified in K.A.R. 28-72-3, as applicable, unless the training provider is a state, federally recognized Indian tribe, local government, or nonprofit organization as evidenced by a letter of determination issued by the IRS, which shall accompany the application.

(i) If the training provider has allowed its accreditation to expire and the provider desires to be accredited, it shall reapply in the same manner as that required for an application for an original accreditation in accordance with this regulation. (Authorized by K.S.A. 65-1,202; implementing K.S.A. 65-1,202, 65-1,203, and 65-1,207; effective, T-28-9-13-99, Sept. 13, 1999; effective Jan. 7, 2000; amended Dec. 6, 2002; amended April 9, 2010.)

28-72-4a. Curriculum requirements for training providers.

(a)(1) Each training provider of a lead inspector training course shall ensure that the lead inspector training course curriculum includes, at a minimum, 16 hours of classroom training and eight hours of hands-on training.

(2) Each lead inspector training course shall include, at a minimum, the following course topics:

(A) The role and responsibilities of an inspector;

(B) background information on lead, including the history of lead use and sources of environmental lead contamination;

(C) the health effects of lead, including the following:

(i) The ways that lead enters and affects the body;

(ii) the levels of concern; and

(iii) symptoms, diagnosis, and treatments;

(D) the regulatory background and an overview of lead in applicable state and federal guidelines or

regulations pertaining to lead-based paint, including the current version of each of the following:

- (i) 40 CFR part 745;
 - (ii) U.S. HUD guidelines for the evaluation and control of lead-based paint hazards in housing as adopted in K.A.R. 28-72-13;
 - (iii) 29 CFR 1910.1200;
 - (iv) 29 CFR 1926.62; and
 - (v) title X: the residential lead-based paint hazard reduction act of 1992;
- (E) the regulations in this article pertaining to lead licensure, the Kansas work practice standards for lead-based paint activities specific to lead inspection activities, K.A.R. 28-72-2, and K.A.R. 28-72-51 through 28-72-54;
- (F) quality control and assurance procedures in testing analysis;
- (G) legal liabilities and obligations; and
- (H) recordkeeping.

(3) Each lead inspector training course shall also include, at a minimum, the following course topics, the presentation of which shall require hands-on training as an integral component of the course:

(A) Lead-based paint inspection methods, including the selection of rooms and components for sampling or testing;

(B) preinspection planning and review, including developing a schematic site plan and determining inspection criteria and locations to collect samples in single-family and multifamily housing;

(C) paint, dust, and soil sampling methodologies, including the following:

(i) Lead-based paint testing or X-ray fluorescence paint analyzer (XRF) use, including the types of XRF units, their basic operation, and interpretation of XRF results, including substrate correction;

(ii) soil sample collection, including soil sampling techniques, the number and location of soil samples, and interpretation of soil sampling results; and

(iii) dust sample collection techniques, including the number and location of wipe samples and the interpretation of test results;

(D) clearance standards and testing, including random sampling; and

(E) preparation of the final inspection report.

(b) Each training provider of a risk assessor training course shall ensure that the risk assessor training course curriculum includes, at a minimum, 12 hours of classroom training and four hours of hands-on training.

(1) Each risk assessor training course shall include, at a minimum, the following course topics:

(A) The role and responsibilities of the risk assessor;

(B) the collection of background information to perform a risk assessment, including information on the age and history of the housing and occupancy by children under six years of age and women of childbearing age;

(C) sources of environmental lead contamination, including paint, surface dust and soil, water, air, packaging, and food;

(D) the regulations in this article pertaining to lead certification, Kansas work practice standards for lead-based paint specific to risk assessment activities, K.A.R. 28-72-2, and K.A.R. 28-72-51 through 28-72-54;

(E) development of hazard control options, the role of interim controls, and operations and maintenance activities to reduce lead-based paint hazards; and

(F) legal liabilities and obligations specific to a risk assessor.

(2) Each risk assessor training course shall also include, at a minimum, the following course topics, the presentation of which shall require hands-on training as an integral component of the course:

(A) Visual inspection for the purposes of identifying potential sources of lead hazards;

(B) lead-hazard screen protocols;

(C) sampling for other sources of lead exposure, including drinking water;

(D) interpretation of lead-based paint and other lead sampling results related to the Kansas clearance standards; and

(E) preparation of a final risk assessment report.

(c) Each training provider of a lead abatement worker course shall ensure that the lead abatement worker training course curriculum includes, at a minimum, 16 hours of classroom training and eight hours of hands-on training.

(1) Each lead abatement worker training course shall include, at a minimum, the following course topics:

(A) The role and responsibilities of a lead abatement worker;

(B) background information on lead, including the history of lead use and sources of environmental lead contamination;

(C) the health effects of lead, including the following:

(i) The ways that lead enters and affects the body;

- (ii) the levels of concern; and
- (iii) symptoms, diagnosis, and treatments;

(D) the regulatory background and an overview of lead in applicable state and federal guidelines or regulations pertaining to lead-based paint, including the current version of each of the following:

- (i) 40 CFR part 745;
- (ii) U.S. HUD guidelines for the evaluation and control of lead-based paint hazards in housing;
- (iii) 29 CFR 1910.1200;
- (iv) 29 CFR 1926.62; and
- (v) title X: the residential lead-based paint hazard reduction act of 1992;

(E) the regulations in this article pertaining to lead certification, the Kansas work practice standards for lead-based paint activities specific to lead abatement activities, K.A.R. 28-72-2, and K.A.R. 28-72-51 through 28-72-54; and

(F) waste disposal techniques.

(2) Each lead abatement training course shall also include, at a minimum, the following course topics, the presentation of which shall require hands-on training as an integral component of the course:

(A) Personal protective equipment information, including respiratory equipment selection, air-purifying respirators, care and cleaning of respirators, respiratory program, protective clothing and equipment, and hygienic practices;

(B) lead hazard recognition and control, including site characterization, exposure measurements, medical surveillance, and engineering controls;

(C) preabatement set-up procedures, including containment for residential and commercial buildings and for superstructures;

(D) lead abatement and lead-hazard reduction methods for residential and commercial buildings and for superstructures, including prohibited practices;

(E) interior dust abatement methods and clean-up techniques; and

(F) soil and exterior dust abatement methods.

(d) Each training provider of a lead abatement supervisor training course shall ensure that the lead abatement supervisor training course curriculum includes, at a minimum, 28 hours of classroom training and 12 hours of hands-on training.

(1) Each lead abatement supervisor training course shall include, at a minimum, the following course topics:

(A) The role and responsibilities of a supervisor;

(B) background information on lead, including the history of lead use and sources of environmental lead contamination;

(C) the health effects of lead, including the following:

(i) The ways that lead enters and affects the body;

(ii) the levels of concern; and

(iii) symptoms, diagnosis, and treatments;

(D) the regulatory background and an overview of lead in applicable state and federal guidelines or regulations pertaining to lead-based paint, including the current version of each of the following:

(i) 40 CFR part 745;

(ii) U.S. HUD guidelines for the evaluation and control of lead-based paint hazards in housing;

(iii) 29 CFR 1910.1200;

(iv) 29 CFR 1926.62; and

(v) title X: the residential lead-based paint hazard reduction act of 1992;

(E) liability and insurance issues relating to lead abatement;

(F) the community relations process;

(G) hazard recognition and control techniques, including site characterization, exposure measurements, material identification, safety and health planning, medical surveillance, and engineering controls;

(H) the regulations in this article pertaining to lead certification and to the Kansas work practice standards for lead-based paint activities specific to lead abatement activities;

(I) clearance standards and testing;

(J) cleanup and waste disposal; and

(K) recordkeeping.

(2) Each lead abatement supervisor training course shall also include, at a minimum, the following course topics, the presentation of which shall require hands-on training as an integral component of the course:

(A) Cost estimation;

(B) risk assessment and inspection report interpretation;

(C) the development and implementation of an occupant protection plan and pre-abatement work plan, including containment for residential and commercial buildings and for superstructures;

(D) lead hazard recognition and control;

(E) personal protective equipment information, including respiratory equipment selection, air-purifying respirators, care and cleaning of respirators, respiratory program, protective clothing and equipment, and hygienic practices;

(F) lead abatement and lead-hazard reduction methods, including prohibited practices, for residential and commercial buildings and superstructures;

(G) project management, including supervisory techniques, contractor specifications, emergency response planning, and blueprint reading;

(H) interior dust abatement and cleanup techniques;

(I) soil and exterior dust abatement methods; and

(J) the preparation of an abatement report.

(e) Each training provider of a project designer training course shall ensure that the project designer training course curriculum includes, at a minimum, eight hours of classroom training. Each project designer training course shall include, at a minimum, the following course topics:

(1) The role and responsibilities of a project designer;

(2) the development and implementation of an occupant protection plan for large-scale abatement projects;

(3) lead abatement and lead-hazard reduction methods, including prohibited practices, for large-scale abatement projects;

(4) interior dust abatement or cleanup or lead-hazard control, and reduction methods for large-scale abatement projects;

(5) soil and exterior dust abatement methods for large-scale abatement projects;

(6) clearance standards and testing for large-scale abatement projects;

(7) integration of lead abatement methods with modernization and rehabilitation projects for large-scale abatement projects; and

(8) the Kansas administrative regulations pertaining to lead-hazard disclosure. (Authorized by and implementing K.S.A. 65-1,202; effective, T-28-9-13-99, Sept. 13, 1999; effective Jan. 7, 2000; amended Dec. 6, 2002; amended April 9, 2010.)

28-72-4b. (Authorized by K.S.A. 2001 Supp. 65-1,202; implementing K.S.A. 2001 Supp. 65-1,202, 65-1,203, and 65-1,207; effective, T-28-9-13-99, Sept. 13, 1999; effective Jan. 7, 2000; amended Dec. 6, 2002; revoked April 9, 2010.)

28-72-4c. Training provider accreditation; refresher training course. (a) Application for accreditation of a training provider for a refresher training course. A training provider may seek accreditation to offer refresher training courses in any occupation. To obtain KDHE accreditation to offer refresher training courses, each training provider shall meet the following minimum requirements:

(1) Each refresher course shall review the curriculum topics of the full-length courses listed in K.A.R. 28-72-4a as appropriate. In addition, each training provider shall ensure that the refresher course of study includes, at a minimum, the following:

(A) An overview of current safety practices relating to lead-based paint activities in general, as well as specific information pertaining to the appropriate occupation;

(B) current laws and regulations relating to lead-based paint activities in general, as well as specific information pertaining to the appropriate occupation; and

(C) current technologies relating to lead-based paint activities in general, as well as specific information pertaining to the appropriate occupation.

(2) Each refresher course, except for the project designer course and the lead-safe work practices course, shall last at least eight training hours. The project designer and lead-safe work practices refresher courses shall last at least four training hours.

(3) For each refresher training course offered, the training provider shall conduct a hands-on assessment, if applicable.

(4) For each refresher training course offered, the training provider shall conduct a course exam at the completion of the course.

(b) Any training provider may apply for accreditation of a refresher training course concurrently with its application for accreditation of the corresponding training course as described in K.A.R. 28-72-4. If the training provider submits both applications concurrently, the procedures and requirements specified in K.A.R. 28-72-4 shall be used by KDHE for accreditation of the refresher course and the corresponding training course.

(c) Each training provider seeking accreditation to offer only refresher training courses shall submit a written application to KDHE, which shall include the following:

(1) A completed training course accreditation application on a form provided by KDHE, which shall include the following:

(A) The training provider's name, address, and telephone number;

(B) the name and date of birth of the training manager;

(C) the name and date of birth of the principal instructor for each course;

(D) a list of locations at which training will take place;

(E) a list of courses for which the training provider is applying for accreditation; and

(F) a statement signed by the training manager certifying that the information provided in the application for accreditation, and any additional information included with the application, is true and accurate to the best of the training manager's knowledge and understanding, that the training provider will comply with K.A.R. 28-72-4 through K.A.R. 28-72-4c, and that the training provider will conduct lead training only in those occupations in which the training provider has received accreditation;

(2) a copy of the student and instructor manuals;

(3) the course agenda;

(4) the course examination blueprint;

(5) a copy of the quality control plan as described in K.A.R. 28-72-4(d)(9);

(6) a copy of a sample course completion diploma as described in K.A.R. 28-72-4(d)(8);

(7) a description of the facilities and equipment to be used for lecture and hands-on training; and

(8) a payment to KDHE for the applicable nonrefundable reaccreditation fees, unless the training provider is a state, federally recognized Indian tribe, local government, or nonprofit organization as evidenced by a letter of determination issued by the IRS, which shall accompany the application.

(d) The following shall apply to each training provider applying for the accreditation of refresher training courses:

(1) The good standing requirements in K.A.R. 28-72-4(a);

(2) the procedures for training provider accreditation issuance or denial in K.A.R. 28-72-4(c);

(3) the requirements for accreditation of a training provider for a training course;

(4) the training, education, and the experience requirements for training managers and principal instructors in K.A.R. 28-72-4(e) and (f); and

(5) the provisions relating to suspension or revocation of accreditation in K.A.R. 28-72-4(g).

(e)(1) Unless revoked sooner, each training provider's accreditation, including refresher training courses, shall expire two years after the date of issuance. If a training provider meets the requirements of subsections (a), (c), and (d), the training provider shall be reaccredited.

(2) Each training provider seeking reaccreditation of one or more refresher training courses shall submit an application to KDHE at least 60

calendar days before the training provider's accreditation expires. If a training provider does not submit its application for reaccreditation by that date, the provider's reaccreditation before the end of the accreditation period shall not be guaranteed by KDHE.

(3) The training provider's application for reaccreditation shall contain the following:

(A) A completed training provider course accreditation application on a form provided by KDHE, which shall include the following:

(i) The training provider's name, address, and telephone number;

(ii) the name and date of birth of the training manager;

(iii) the name and date of birth of the principal instructor for each course;

(iv) a list of locations at which training will take place;

(v) a list of refresher training courses for which the training provider is applying for reaccreditation; and

(vi) a statement signed by the training manager certifying that the information provided in the application for reaccreditation, and any additional information included with the application, is true and accurate to the best of the training manager's knowledge and understanding, that the training provider will comply with K.A.R. 28-72-4, K.A.R. 28-72-4a, and K.A.R. 28-72-4c, and that the training provider will conduct lead training only in those occupations in which the training provider has received accreditation;

(B) a list of refresher training courses for which the training provider is applying for reaccreditation;

(C) a description of any changes to the training facility, equipment, or course materials since the training provider's last application was approved that adversely affect the students' ability to learn; and

(D) a payment to KDHE for the nonrefundable fees specified in K.A.R. 28-72-3, as applicable, unless the training provider is a state, federally recognized Indian tribe, local government, or nonprofit organization as evidenced by a letter of determination issued by the IRS, which shall accompany the application.

(4) If the training provider has allowed its accreditation to expire and the provider desires to be accredited, the training provider shall reapply in the same manner as that required for an application for an original accreditation in accordance

with this regulation. (Authorized by and implementing K.S.A. 65-1,202 and 65-1,207; effective, T-28-9-13-99, Sept. 13, 1999; effective Jan. 7, 2000; amended Dec. 6, 2002; amended April 9, 2010.)

28-72-5. Application process and requirements for the certification of lead inspectors.

(a) Application for a lead inspector certificate.

(1) Each applicant for a lead inspector certificate shall submit a completed application to KDHE before consideration for certificate issuance. All applications for certification shall be received by KDHE at least 30 days before the date of the third-party examination, but the deadline for filing applications may be waived by KDHE as particular circumstances justify.

(2) Each application shall include the following:

(A) A completed lead occupation certificate application on a form provided by KDHE, which shall include the following:

(i) The applicant's full legal name, home address, and telephone number;

(ii) the name, address, and telephone number of the applicant's current employer;

(iii) the applicant's state-issued identification number or federal employment identification number;

(iv) the county or counties in which the applicant is employed;

(v) the address where the applicant would like to receive correspondence regarding the application or certification;

(vi) the occupation for which the applicant wishes to be certified;

(vii) proof of any certification for lead occupations in other states, including the names of the other states, type of certification, certification expiration date, certificate number, and copies of the other states' certificate or license;

(viii) proof of any certification by the EPA, including the EPA region number, type of certification, certification expiration date, certificate number, and a copy of the EPA certificate;

(ix) the type of training completed, including the name of the training provider, certificate identification number, and dates of course attendance;

(x) any employment history or education that meets the experience requirements in subsection (b); and

(xi) the signature of the applicant, which shall certify that all information in the application is complete and true to the best of the applicant's

knowledge and that the applicant will comply with applicable state statutes and regulations;

(B) a copy of the lead inspector training course completion diploma or equivalent EPA training course diplomas, and any required refresher course completion diplomas;

(C) documentation pursuant to subsection (b) as evidence of meeting the education or experience requirements for lead inspectors; and

(D) a payment to KDHE for the nonrefundable fee specified in K.A.R. 28-72-3.

(3) Each applicant for a lead inspector certificate shall apply to KDHE within one year after the applicant's successful completion of the lead inspector training course, as indicated on the course completion diploma. Applicants failing to apply within one year after the date on the training course completion diploma shall, before making application for certification, be required to successfully complete the eight-hour lead inspector refresher training course accredited by KDHE.

(4) Each applicant who fails to apply within two years after the lead inspector training and who has not successfully completed refresher training shall be required to successfully complete the lead inspector training course before submitting an application for a lead inspector certificate.

(b) Training, education, and experience requirements for a lead inspector certificate.

(1) Each applicant for certification as a lead inspector shall complete a lead inspector training course or its equivalent and shall be required to achieve passing scores on the course examination and the third-party examination.

(2) Each applicant for certification as a lead inspector shall meet the minimum education or experience requirements for a certified lead inspector.

(A) The minimum education or experience requirements for a certified lead inspector shall include at least one of the following:

(i) A bachelor's degree;

(ii) an associate's degree and one year of experience in a related field, including housing repair and inspection, and lead, asbestos, and environmental remediation work; or

(iii) either a high school diploma or a certificate of high school equivalency (GED), in addition to two years of experience in a related field, including housing repair and inspection, and lead, asbestos, and environmental remediation work.

(B) The following documents shall be recognized by KDHE as evidence of meeting the requirements listed in paragraph (b)(2)(A):

(i) Official academic transcripts or diplomas as evidence of meeting the education requirements;

(ii) resumes, letters of reference, or documentation of work experience, which at a minimum shall include specific dates of employment, each employer's name, address, and telephone number, and specific job duties, as evidence of meeting the work experience requirements;

(iii) course completion diplomas issued by the training provider as evidence of meeting the training requirements; and

(iv) appropriate documentation of certification or registration.

(c) Procedure for issuance or denial of a lead inspector certificate.

(1) The applicant shall be informed by the secretary in writing that the application is approved, incomplete, or denied.

(A) If an application is incomplete, the notice shall include a list of additional information or documentation required to complete the application.

(i) Within 30 calendar days after the issuance date of the notice of an incomplete application, the applicant shall submit, to the secretary in writing, the information requested in the written notice.

(ii) Failure to submit the information requested in the written notice within 30 calendar days shall result in the secretary's denial of the individual's application for certification.

(iii) After receipt of the information requested in the written notice, the applicant shall be informed by the secretary in writing that the application is either approved or denied.

(B) If an application for certification is denied, the written notice of denial to the applicant shall specify the reason or reasons for the denial. Certification may be denied by the secretary pursuant to K.S.A. 65-1,207(b), and amendments thereto.

(C) If an application is denied, the applicant may reapply to KDHE for a lead inspector certificate by submitting a complete lead occupation application form with another nonrefundable certification fee, as specified in K.A.R. 28-72-3.

(D) If an applicant is aggrieved by a determination to deny certification, the applicant may request a hearing with the office of administrative hearings, in accordance with the Kansas administrative procedure act.

(2) Within 180 calendar days after application approval, the applicant shall be required to attain a passing score on the third-party examination for lead inspectors.

(A) An applicant shall not sit for the third-party examination for lead inspectors more than three times within 180 calendar days after the issuance date of the notice of an approved application.

(B) The applicant's failure to obtain a passing score on the third-party examination for lead inspectors within the 180-day period following the notice of an approved application for a certificate shall result in KDHE's denial of the individual's application for a certificate. The individual may reapply to KDHE pursuant to this regulation but only after retaking the lead inspector training course.

(3) After the applicant passes the third-party examination, a two-year lead inspector certificate shall be issued by KDHE.

(4) A certificate may be issued with specific restrictions pursuant to an agreement between the applicant and KDHE. (Authorized by K.S.A. 65-1,202; implementing K.S.A. 65-1,202, 65-1,203, and 65-1,207; effective, T-28-9-13-99, Sept. 13, 1999; effective Jan. 7, 2000; amended Dec. 6, 2002; amended April 9, 2010.)

28-72-6. Application process and requirements for the certification of risk assessors.

(a) Application for a risk assessor certificate.

(1) Each applicant for a risk assessor certificate shall submit a completed application to KDHE before consideration for certificate issuance. All applications for certification shall be received by KDHE at least 30 days before the date of the third-party examination, but the deadline for filing applications may be waived by KDHE as particular circumstances justify.

(2) Each application shall include the information specified in K.A.R. 28-72-5(a)(2)(A) and the following:

(A) A copy of the risk assessor and lead inspector training course completion diploma, and any required refresher course completion diplomas;

(B) documentation pursuant to subsection (b) as evidence of meeting the education or experience requirements for risk assessors; and

(C) a payment to KDHE for the nonrefundable fee specified in K.A.R. 28-72-3.

(3) Each applicant for a risk assessor certificate shall apply to KDHE within one year after the applicant's successful completion of the risk assessor training course, as indicated on the course completion diploma. Applicants failing to apply within one year after the date on the training course completion certificate shall, before making appli-

cation for certification, be required to successfully complete the eight-hour risk assessor refresher training course accredited by KDHE.

(4) Each applicant who fails to apply within two years after the risk assessor training and who has not successfully completed the refresher training course shall be required to successfully complete the risk assessor training course before submitting an application for a risk assessor certificate.

(b) Training, education, and experience requirements for a risk assessor certificate.

(1) Each applicant for a certificate as a risk assessor shall complete a risk assessor training course and a lead inspector training course and shall be required to achieve passing scores on both the course examinations and the third-party examination for risk assessors.

(2) Each applicant for a certificate as a risk assessor shall meet the minimum education and experience requirements for a certified risk assessor.

(A) The minimum education and experience requirements for a certified risk assessor shall include at least one of the following:

(i) A bachelor's degree and at least one year of experience in a related field, including housing repair and inspection, and lead, asbestos, and environmental remediation work;

(ii) an associate's degree and two years of experience in a related field, including housing repair and inspection, and lead, asbestos, and environmental remediation work;

(iii) certification as an industrial hygienist, professional engineer, or registered architect, or certification in a related engineering, health, or environmental field, including a safety professional and environmental scientist; or

(iv) either a high school diploma or a certificate of high school equivalency (GED), in addition to three years of experience in a field, including housing repair and inspection, and lead, asbestos, and environmental remediation work.

(B) The following documents shall be recognized by KDHE as evidence of meeting the requirements listed in paragraph (b)(2)(A):

(i) Official academic transcripts or diplomas as evidence of meeting the education requirements;

(ii) resumes, letters of reference, or documentation of work experience, which at a minimum shall include specific dates of employment, each employer's name, address, and telephone number, and specific job duties, as evidence of meeting the work experience requirements;

(iii) course completion diplomas issued by the training provider as evidence of meeting the training requirements; and

(iv) appropriate documentation of certifications or registrations.

(c) Procedure for issuance or denial of a risk assessor certificate.

(1) Each applicant shall be informed by the secretary in writing that the application is approved, incomplete, or denied.

(A) If an application is incomplete, the notice shall include a list of additional information or documentation required to complete the application.

(i) Within 30 calendar days after the issuance date of the notice of an incomplete application, the applicant shall submit, to the secretary in writing, the information requested in the written notice.

(ii) Failure to submit the information requested in the written notice within 30 calendar days shall result in the secretary's denial of the individual's application for certification.

(iii) After receipt of the information requested in the written notice, the applicant shall be informed by the secretary in writing that the application is either approved or denied.

(B) If an application for certification is denied, the written notice of denial to the applicant shall specify the reason or reasons for the denial. Certification may be denied by the secretary pursuant to K.S.A. 65-1,207(b), and amendments thereto.

(C) If an application is denied, the applicant may reapply to KDHE for a risk assessor certificate by submitting a complete lead occupation application form with another nonrefundable certification fee, as specified in K.A.R. 28-72-3.

(D) If an applicant is aggrieved by a determination to deny certification, the applicant may request a hearing with the office of administrative hearings, in accordance with the Kansas administrative procedure act.

(2) Within 180 calendar days after application approval, the applicant shall be required to attain a passing score on the third-party examination for risk assessors.

(A) An applicant shall not sit for the third-party examination for risk assessors more than three times within 180 calendar days after the issuance date of the notice of an approved application.

(B) The applicant's failure to obtain a passing score on the third-party examination for risk assessors within the 180-day period following the notice of an approved application for a certificate

shall result in KDHE's denial of the individual's application for a certificate. The individual may reapply to KDHE pursuant to this regulation but only after retaking the risk assessor training course.

(3) After the applicant passes the third-party examination, a two-year risk assessor certificate shall be issued by KDHE.

(4) A certificate may be issued with specific restrictions pursuant to an agreement between the applicant and KDHE. (Authorized by K.S.A. 65-1,202; implementing K.S.A. 65-1,202, 65-1,203, and 65-1,207; effective, T-28-9-13-99, Sept. 13, 1999; effective Jan. 7, 2000; amended Dec. 6, 2002; amended April 9, 2010.)

28-72-6a. Application process and requirements for the certification of an elevated blood lead level investigator. (a) Application for an elevated blood lead (EBL) level investigator certificate.

(1) Each applicant for an elevated blood lead level investigator certificate shall be selected by KDHE. Each selected applicant shall submit a completed application to KDHE before issuance of a certificate.

(2) Each application shall include the following:

(A) A completed lead occupation certificate application on a form provided by KDHE, which shall include the following:

(i) The applicant's full legal name, home address, and telephone number;

(ii) the name, address, and telephone number of the applicant's current employer;

(iii) the applicant's state-issued identification number or federal employment identification number;

(iv) the county or counties in which the applicant is employed;

(v) the address where the applicant would like to receive correspondence regarding the application or certification;

(vi) the occupation for which the applicant wishes to be certified;

(vii) proof of any certification for lead occupations in other states, including the names of the other states, type of certification, certification expiration date, certificate number, and copies of the other states' certificate or license;

(viii) proof of any certification by the EPA, including the EPA region number, type of certification, certification expiration date, certificate number, and a copy of the EPA certificate;

(ix) the type of training completed, including the name of the training provider, diploma identification number, and dates of course attendance;

(x) any employment history or education that meets the experience requirements in subsection (b);

(xi) any criminal history; and

(xii) the signature of the applicant, which shall certify that all information in the application is complete and true to the best of the applicant's knowledge and that the applicant will comply with applicable state statutes and regulations;

(B) a copy of the risk assessor and lead inspector training course completion diploma and any required refresher course completion diplomas; and

(C) documentation pursuant to subsection (b) as evidence of meeting the education or experience requirements for an elevated blood lead level investigator.

(b) Training, education, and experience requirements for an elevated blood lead level investigator certificate.

(1) Each applicant for a certificate as an elevated blood lead level investigator shall complete a risk assessor training course and a lead inspector training course and shall be required to attain passing scores on both course examinations.

(2) Each applicant for a certificate as an elevated blood level investigator shall complete a KDHE-sponsored EBL training course, shall meet the minimum education and experience requirements for a certified elevated blood lead level investigator, and shall be required to attain a passing score on the third-party elevated blood lead level investigator examination.

(3) (A) The minimum education and experience requirements for a certified elevated blood lead level investigator shall include at least one of the following:

(i) A bachelor's degree and experience in a related field, including nursing, public health, housing repair and inspection, lead hazard investigation, or environmental remediation work; or

(ii) an associate's degree and experience in a related field, including nursing, public health, housing repair and inspection, lead hazard investigation, or environmental remediation work; or

(iii) certification as an industrial hygienist, or certification in public health or environmental health; or

(iv) a high school diploma or a certificate of high school equivalency (GED), in addition to experience in a related field, including nursing, public

health, housing repair and inspection, lead hazard investigation, or environmental remediation work.

(B) The following documents shall be recognized by KDHE as evidence of meeting the requirements listed in paragraph (b)(3)(A):

(i) Official academic transcripts or diplomas as evidence of meeting the education requirements;

(ii) resumes, letters of reference, or documentation of work experience, which at a minimum shall include specific dates of employment, each employer's name, address, and telephone number, and specific job duties, as evidence of meeting the work experience requirements;

(iii) course completion diplomas issued by the training provider as evidence of meeting the training requirements; and

(iv) appropriate documentation of certifications or registrations.

(4) Upon receipt of a complete and qualifying application, an elevated blood lead level investigator certificate may be issued with specific restrictions pursuant to an agreement between the applicant, the applicant's employer or the applicant's controlling agency, and KDHE.

(c) Procedure for issuance or denial of an elevated blood lead level investigator certificate.

(1) Each applicant shall be informed in writing by the secretary that the application is approved, incomplete, or denied.

(A) If an application is incomplete, the notice shall include a list of additional information or documentation required to complete the application.

(i) Within 30 calendar days after the issuance date of the notice of an incomplete application, the applicant shall submit, to the secretary in writing, the information requested in the written notice.

(ii) Failure to submit the information requested in the written notice within 30 calendar days shall result in the retraction of KDHE's request to the applicant to become an elevated blood lead level investigator and result in the denial of the individual's application for certification.

(iii) After receipt of the information requested in the written notice, the applicant shall be informed by the secretary that the application is either approved or denied.

(B) If an application for certification is denied, the written notice of denial to the applicant shall specify the reason or reasons for the denial. Certification may be denied by the secretary pursuant to K.S.A. 65-1,207(b), and amendments thereto.

(C) If an application is denied, the applicant may, at the request of KDHE, reapply to KDHE for an elevated blood lead level investigator certificate by submitting a complete lead occupation application form.

(D) If an applicant is aggrieved by a determination to deny certification, the applicant may request a hearing with the office of administrative hearings, in accordance with the Kansas administrative procedure act.

(2) Within 180 calendar days after application approval, the applicant shall be required to attain a passing score on the third-party examination for elevated blood lead level investigators.

(A) An applicant shall not sit for the third-party examination for elevated blood lead level investigators more than three times within 180 calendar days after the issuance date of the notice of an approved application.

(B) The applicant's failure to obtain a passing score on the third-party examination for elevated blood lead level investigators within the 180-day period following the notice of an approved application for a certificate shall result in KDHE's denial of the individual's application for a certificate. At the request of KDHE, the individual may reapply to KDHE pursuant to this regulation, but only after retaking the KDHE risk-assessor training course.

(3) After the applicant passes the third-party examination, a two-year elevated blood lead level investigator certificate shall be issued by KDHE.

(4) The certificate shall be issued with specific restrictions pursuant to an agreement between the applicant or the applicant's employer and KDHE. (Authorized by K.S.A. 65-1,202; implementing K.S.A. 65-1,202, 65-1,203 and 65-1,207; effective April 9, 2010.)

28-72-7. Application process and requirements for the certification of lead abatement workers. (a) Application for a lead abatement worker certificate.

(1) Each applicant for a lead abatement worker certificate shall submit a completed application to KDHE before consideration for certificate issuance. Each application for certification shall be received by KDHE within one year after successful completion of the lead abatement worker training course.

(2) Each application shall include the information specified in K.A.R. 28-72-5(a)(2)(A) and the following:

(A) A copy of the lead abatement worker training course completion diploma, and any required refresher course completion diplomas; and

(B) a payment to KDHE for the nonrefundable fee specified in K.A.R. 28-72-3.

(3) Each applicant for a lead abatement worker certificate shall apply to KDHE within one year after the applicant's successful completion of the lead abatement worker training course, as indicated on the certificate of completion. Applicants failing to apply within one year after the date on the training course completion diploma shall, before making application for certification, successfully complete the eight-hour lead abatement worker refresher training course.

(4) Each applicant who fails to apply within two years after the lead abatement worker training and who has not successfully completed refresher training shall be required to successfully complete the lead abatement worker training course before submitting an application for a lead abatement worker certificate.

(b) Training, education, and experience requirements for a lead abatement worker's certificate. Each applicant for a certificate as a lead abatement worker shall complete a lead abatement worker training course and shall be required to achieve a passing score on the course examination. The applicant shall submit a course completion diploma issued by the training provider as evidence of meeting this requirement.

(c) Procedure for issuance or denial of a lead abatement worker certificate.

(1) Each applicant shall be informed by the secretary in writing that the application is approved, incomplete, or denied.

(A) If an application is incomplete, the notice shall include a list of additional information or documentation required to complete the application.

(i) Within 30 calendar days after the issuance date of the notice of an incomplete application, the applicant shall submit, to the secretary in writing, the information requested in the written notice.

(ii) Failure to submit the information requested in the written notice within 30 calendar days shall result in the secretary's denial of the individual's application for certification.

(iii) After receipt of the information requested in the written notice, the applicant shall be informed by KDHE in writing that the application is either approved or denied.

(B) If an application for certification is denied, the written notice of denial to the applicant shall specify the reason or reasons for the denial. Certification may be denied by the secretary pursuant to K.S.A. 65-1,207(b), and amendments thereto.

(C) If an application is denied, the applicant may reapply to KDHE for a lead abatement worker certificate by submitting a complete lead occupation application form with another nonrefundable certification fee, as specified in K.A.R. 28-72-3.

(D) If an applicant is aggrieved by a determination to deny certification, the applicant may request a hearing with the office of administrative hearings, in accordance with the Kansas administrative procedure act.

(2) If the application is approved, a two-year lead abatement worker certificate shall be issued by KDHE.

(3) A certificate may be issued with specific restrictions pursuant to an agreement between the applicant and KDHE. (Authorized by K.S.A. 65-1,202; implementing K.S.A. 65-1,202, 65-1,203, and 65-1,207; effective, T-28-9-13-99, Sept. 13, 1999; effective Jan. 7, 2000; amended Dec. 6, 2002; amended April 9, 2010.)

28-72-7a. Application process for renovators and requirements for certification in lead-safe work practices. (a) Application for renovator certification.

(1) Each applicant seeking certification shall submit a completed application to KDHE before consideration for the certificate issuance. Each application for certification shall be received by KDHE within one year after successful completion of the "lead-safe work practices in Kansas" training course.

(2) Each application shall include the following:

(A) A completed certificate application on a form provided by KDHE, which shall include the following:

(i) The applicant's full legal name, home address, and telephone number;

(ii) the name, address, and telephone number of the applicant's current employer;

(iii) the applicant's state-issued identification number or federal employment identification number;

(iv) the county or counties in which the applicant is employed;

(v) the address where the applicant would like to receive correspondence regarding the application or certification;

(vi) proof of any certification as a renovator in other states, including the names of the other states, type of certification, certification expiration date, certificate number, and copies of the other states' certificate or license;

(vii) proof of any certification by the EPA, including the EPA region number, type of certification, certification expiration date, certificate number, and a copy of the EPA certificate;

(viii) the type of training completed, including the name of the training provider, diploma identification number, and date of course attendance; and

(ix) the signature of the applicant, which shall certify that all information in the application is complete and true to the best of the applicant's knowledge and that the applicant will comply with applicable state statutes and regulations;

(B) a copy of the "lead-safe work practices in Kansas" training course completion diploma, and any required refresher course completion diplomas; and

(C) a payment to KDHE for the nonrefundable fee specified in K.A.R. 28-72-3.

(3) Each applicant for a renovator certificate shall apply to KDHE within one year after the applicant's successful completion of the "lead-safe work practices in Kansas" training course, as indicated on the certificate of completion. Applicants failing to apply within one year after the date on the training course completion diploma shall, before making application for certification, be required to successfully complete the four-hour lead-safe work practices in Kansas refresher training course.

(b) Training, education, and experience requirements for a renovator certificate. Each applicant shall complete a "lead-safe work practices in Kansas" training course and shall be required to achieve a passing score on the course examination. The applicant shall submit a course completion certificate issued by the training provider as evidence of meeting this requirement.

(c) Procedure for issuance or denial of a renovator certificate.

(1) Each applicant shall be informed by the secretary in writing that the application is approved, incomplete, or denied.

(A) If an application is incomplete, the notice shall include a list of additional information or documentation required to complete the application.

(i) Within 30 calendar days after the issuance date of the notice of an incomplete application,

the applicant shall submit, to the secretary in writing, the information requested in the written notice.

(ii) Failure to submit the information requested in the written notice within 30 calendar days shall result in the secretary's denial of the individual's application for certification.

(iii) After receipt of the information requested in the written notice, the application shall be approved by the secretary, or the applicant shall be informed in writing that the application is denied.

(B) If an application for certification is denied, the written notice of denial to the applicant shall specify the reason or reasons for the denial. Certification may be denied by the secretary pursuant to K.S.A. 65-1,207(b), and amendments thereto.

(C) If an application is denied, the applicant may reapply to KDHE for a renovator certificate by submitting a complete lead occupation application form with another nonrefundable certification fee, as specified in K.A.R. 28-72-3.

(D) If an applicant is aggrieved by a determination to deny certification, the applicant may request a hearing with the office of administrative hearings, in accordance with the Kansas administrative procedure act.

(2) If the application is approved, a five-year renovator certificate shall be issued by KDHE.

(3) A certificate may be issued with specific restrictions pursuant to an agreement between the applicant and KDHE. (Authorized by K.S.A. 65-1,202; implementing K.S.A. 65-1,202, 65-1,203, and 65-1,207; effective April 9, 2010.)

28-72-8. Application process and requirements for the certification of lead abatement supervisors. (a) Application for a lead abatement supervisor certificate.

(1) Each applicant for a lead abatement supervisor certificate shall submit a completed application to KDHE before consideration for certificate issuance. Each application for certification shall be received by KDHE at least 30 days before the date of the third-party examination, but the deadline for filing applications may be waived by KDHE as particular circumstances justify.

(2) Each application shall include the information specified in K.A.R. 28-72-5(a)(2)(A) and the following:

(A) A copy of the lead abatement supervisor training course completion diploma, and any required refresher course completion diplomas;

(B) documentation pursuant to subsection (c) as evidence of meeting the education or experience requirements for lead abatement supervisors; and

(C) a payment to KDHE for the nonrefundable fee specified in K.A.R. 28-72-3.

(3) Each applicant for a lead abatement supervisor certificate shall apply to KDHE within one year after the applicant's successful completion of the lead abatement supervisor training course, as indicated on the course completion diploma. Each applicant failing to apply within one year after the date on the training course completion certificate shall, before making application for certification, be required to successfully complete the eight-hour lead abatement supervisor refresher training course.

(4) Each applicant who fails to apply within two years after the lead abatement supervisor training and who has not successfully completed refresher training shall be required to successfully complete the lead abatement supervisor training course before submitting an application for a lead abatement supervisor certificate.

(b) Training and experience requirements for a lead abatement supervisor certificate.

(1) Each applicant for a certificate as a lead abatement supervisor shall complete a lead abatement supervisor training course and shall be required to achieve passing scores on the course examination and the third-party examination.

(2) Each applicant for a certificate as a lead abatement supervisor shall meet the minimum experience requirements for a certified lead abatement supervisor.

(A) The minimum experience requirements for a lead abatement supervisor certificate shall include at least one of the following:

(i) At least one year of experience as a certified lead abatement worker certified by the secretary, the EPA, or an EPA-approved state;

(ii) at least two years of experience in asbestos abatement work as a construction manager or superintendent;

(iii) at least two years of experience as a manager for environmental hazard remediation projects; or

(iv) at least two years of experience as a supervisor in residential construction.

(B) The following documents shall be recognized by KDHE as evidence of meeting the requirements listed in paragraph (b)(2)(A):

(i) Resumes, letters of reference, or documentation of work experience, which shall include

specific dates of employment, each employer's name, address, and telephone number, and specific job duties, as evidence of meeting the work experience requirements;

(ii) course completion diplomas issued by a training provider as evidence of meeting the training requirements; and

(iii) a copy of the lead abatement supervisor certificate or identification badge as evidence of having been a certified lead abatement supervisor.

(c) Procedure for issuance or denial of a lead abatement supervisor certificate.

(1) Each applicant shall be informed by the secretary in writing that the application is approved, incomplete, or denied.

(A) If an application is incomplete, the notice shall include a list of additional information or documentation required to complete the application.

(i) Within 30 calendar days after the issuance date of the notice of an incomplete application, the applicant shall submit, to the secretary in writing, the information requested in the written notice.

(ii) Failure to submit the information requested in the written notice within 30 calendar days shall result in the secretary's denial of the individual's application for certification.

(iii) After receipt of the information requested in the written notice, the applicant shall be informed by the secretary in writing that the application is either approved or denied.

(B) If an application for certification is denied, the written notice of denial to the applicant shall specify the reason or reasons for the denial. Certification may be denied by the secretary pursuant to K.S.A. 65-1,207(b), and amendments thereto.

(C) If an application is denied, the applicant may reapply to KDHE for a lead abatement supervisor certificate by submitting a complete lead occupation application form with another nonrefundable certification fee, as specified in K.A.R. 28-72-3.

(D) If an applicant is aggrieved by a determination to deny certification, the applicant may request a hearing with the office of administrative hearings, in accordance with the Kansas administrative procedure act.

(2) Within 180 calendar days after application approval, the applicant shall be required to attain a passing score on the third-party examination for lead abatement supervisors.

(A) An applicant shall not sit for the third-party examination for lead abatement supervisors more than three times within 180 calendar

days after the issuance date of the notice of an approved application.

(B) The applicant's failure to obtain a passing score on the third-party examination for lead abatement supervisors within the 180-day period following the notice of an approved application for a certificate shall result in the secretary's denial of the individual's application for a certificate. The individual may reapply to KDHE pursuant to this regulation but only after retaking the lead abatement supervisor training course.

(3) After the applicant passes the third-party examination, a two-year lead abatement supervisor certificate shall be issued by KDHE.

(4) A certificate may be issued with specific restrictions pursuant to an agreement between the applicant and KDHE. (Authorized by K.S.A. 65-1,202; implementing K.S.A. 65-1,202, 65-1,203, and 65-1,207; effective, T-28-9-13-99, Sept. 13, 1999; effective Jan. 7, 2000; amended Dec. 6, 2002; amended April 9, 2010.)

28-72-9. Application for the certification of project designers. (a) Application for a project designer certificate.

(1) Each applicant for a project designer certificate shall submit a completed application to KDHE before consideration for certificate issuance. Each application for certification shall be received by KDHE within one year of successful completion of the project designer training course.

(2) Each application shall include the information specified in K.A.R. 28-72-5(a)(2)(A) and the following:

(A) A copy of the project designer training course completion diploma, and any required refresher course completion diplomas;

(B) documentation pursuant to subsection (b) as evidence of meeting the education or experience requirements for project designers; and

(C) a payment to KDHE for the nonrefundable fee specified in K.A.R. 28-72-3.

(3) Each applicant for a project designer certificate shall apply to KDHE within one year of the applicant's successful completion of the project designer training course, as indicated on the course completion diploma. Each applicant failing to apply within one year after the date on the training course completion diploma shall, before making application for certification, be required to successfully complete the four-hour project designer refresher training course.

(4) Each applicant who fails to apply within two years of the project designer training course and who has not successfully completed a refresher training course shall successfully complete the project designer training course before submitting an application for a project designer certificate.

(b) Training, education, and experience requirements for a project designer certificate.

(1) Each applicant for a certificate as a project designer shall complete a lead abatement supervisor training course and a project designer course and shall be required to achieve passing scores on both course examinations.

(2) Each applicant for a certificate as a project designer shall meet the minimum education and experience requirements for a certified project designer.

(A) The minimum education and experience requirements for a certified project designer shall include at least one of the following:

(i) A bachelor's degree in engineering, architecture, or a related profession, and one year of experience in building construction and one year of experience as a certified lead professional;

(ii) at least one year of experience as a certified lead hazard risk assessor, certified by the secretary, the EPA, or an EPA-approved state, and at least two years of experience in building construction and design; or

(iii) at least four years of experience as a lead abatement supervisor and four years of experience in building construction and design.

(B) The following documents shall be recognized by KDHE as evidence of meeting the requirements listed in paragraph (b)(2)(A):

(i) Official academic transcripts or diplomas, as evidence of meeting the education requirements;

(ii) resumes, letters of reference, or documentation of work experience, which shall include specific dates of employment, each employer's name, address, and telephone number, and specific job duties, as evidence of meeting the work experience requirements;

(iii) course completion diplomas issued by the training provider as evidence of meeting the training requirements; and

(iv) a copy of the project designer certificate or identification badge as evidence of having been a certified project designer.

(c) Procedure for issuance or denial of a project designer certificate.

(1) The applicant shall be informed by the secretary in writing that the application is approved, incomplete, or denied.

(A) If an application is incomplete, the notice shall include a list of additional information or documentation required to complete the application.

(i) Within 30 calendar days after the issuance date of the notice of an incomplete application, the applicant shall submit, to the secretary in writing, the information requested in the written notice.

(ii) Failure to submit the information requested in the written notice within 30 calendar days shall result in the secretary's denial of the individual's application for certification.

(iii) After receipt of the information requested in the written notice, the applicant shall be informed by the secretary in writing that the application is either approved or denied.

(B) If an application for certification is denied, the written notice of denial to the applicant shall specify the reason or reasons for the denial. Certification may be denied by the secretary pursuant to K.S.A. 65-1,207(b), and amendments thereto.

(C) If an application is denied, the applicant may reapply to KDHE for a project designer certificate by submitting a complete lead occupation application form with another nonrefundable certification fee, as specified in K.A.R. 28-72-3.

(D) If an applicant is aggrieved by a determination to deny certification, the applicant may request a hearing with the office of administrative hearings, in accordance with the Kansas administrative procedure act.

(2) If the application is approved, a two-year project designer certificate shall be issued by KDHE.

(3) A certificate may be issued with specific restrictions pursuant to an agreement between the applicant and KDHE. (Authorized by K.S.A. 65-1,202; implementing K.S.A. 65-1,202, 65-1,203, and 65-1,207; effective, T-28-9-13-99, Sept. 13, 1999; effective Jan. 7, 2000; amended Dec. 6, 2002; amended April 9, 2010.)

28-72-10. Application process and licensure renewal requirements for lead activity firms. (a) Application for a lead activity firm license.

(1) Each applicant for a lead activity firm license shall submit a completed application to KDHE for consideration for license issuance.

(2) The application shall include the following:

(A) A completed lead activity firm application on a form provided by KDHE, which shall include the following:

(i) The applicant's name, address, and telephone number;

(ii) if the applicant is a sole proprietorship, the applicant's social security number or, if the applicant is a corporation, the applicant's federal employee identification number;

(iii) the county or counties in which the applicant is located;

(iv) a description of any lead-based paint activities that the applicant will be conducting, including lead inspection, risk assessments, lead abatement projects, lead hazard control, and project design;

(v) a certification that the lead activity firm will directly employ only KDHE-certified individuals to conduct lead-based paint activities or any KDHE-approved lead hazard control; and

(vi) a certification that the lead activity firm and the firm's employees will follow the Kansas work practice standards for lead-based paint activities specified in K.A.R. 28-72-13 through K.A.R. 28-72-21;

(B) if the applicant is required to be registered and in good standing with the Kansas secretary of state's office, the applicant shall submit a copy of the applicant's certificate of good standing to KDHE; and

(C) payment to KDHE for the applicable nonrefundable fee specified in K.A.R. 28-72-3, unless the lead activity firm is a state, federally recognized Indian tribe, local government, or nonprofit organization as evidenced by a letter of determination issued by the IRS, which shall accompany the application.

(b) Procedure for issuance or denial of a lead activity firm license.

(1) Each applicant shall be informed by the secretary in writing that the application is approved, incomplete, or denied.

(A) If an application is incomplete, the notice shall include a list of additional information or documentation required to complete the application.

(i) Within 30 calendar days after the issuance date of the notice of an incomplete application, the applicant shall submit, to the secretary in writing, the information requested in the written notice.

(ii) Failure to submit the information requested in the written notice within 30 calendar days shall result in the secretary's denial of the lead activity firm's application for licensure.

(iii) After receipt of the information requested in the written notice, the applicant shall be in-

formed by the secretary in writing that the application is either approved or denied.

(B) If an application is approved, a two-year lead activity firm license shall be issued by the secretary.

(C) If an application for licensure is denied, the written notice of denial to the applicant shall specify the reason or reasons for the denial. Licensure may be denied by the secretary pursuant to K.S.A. 65-1,207(b), and amendments thereto.

(D) If an application is denied, the applicant may reapply at any time to KDHE for a lead activity firm license by submitting a complete lead activity firm application form with another non-refundable license fee, as specified in K.A.R. 28-72-3.

(E) If an applicant is aggrieved by a determination to deny licensure, the applicant may request a hearing with the office of administrative hearings, in accordance with the Kansas administrative procedure act.

(F) A license may be issued with specified restrictions pursuant to an agreement between the applicant and the secretary.

(2) If a licensed lead activity firm changes ownership, the new owner shall notify KDHE in writing no later than 30 calendar days before the change of ownership becomes effective. The notification shall include the following information:

(A) A new lead activity firm license application;

(B) the applicable nonrefundable fee specified in K.A.R. 28-72-3; and

(C) the date that the change of ownership will become effective.

(3) The new lead activity firm application shall be processed in the same manner as that required for an initial license in accordance with this regulation.

(4) The current lead activity firm's license shall expire on the effective date specified in the notification of the change of ownership.

(5) A completed application for a lead activity firm license renewal shall be submitted to KDHE at least 60 days before the expiration date on the license, accompanied by the applicable nonrefundable renewal fee specified in K.A.R. 28-72-3. However, each lead activity firm that is a state, federally recognized Indian tribe, local government, or nonprofit organization as evidenced by a letter of determination issued by the IRS and accompanying the application shall be exempt from payment of this fee. If the licensee fails to apply at least 60 days before the license expiration date,

renewal of the license by the secretary before the end of the licensing period shall not be guaranteed by KDHE.

(6) If a licensed lead activity firm allows the firm's license to expire, the firm shall be required to submit an application in the same manner as that required for an application for an initial license, in accordance with this regulation. (Authorized by K.S.A. 65-1,202; implementing K.S.A. 65-1,202, 65-1,203, and 65-1,207; effective, T-28-9-13-99, Sept. 13, 1999; effective Jan. 7, 2000; amended Dec. 6, 2002; amended April 9, 2010.)

28-72-10a. Application process and licensure renewal requirements for renovation firms. (a) Application for a renovation firm license.

(1) Each applicant for a renovation firm license shall submit a completed application to KDHE for consideration for license issuance.

(2) The application shall include the following:

(A) A completed renovation firm application on a form provided by KDHE, which shall include the following:

(i) The applicant's name, address, and telephone number;

(ii) if the applicant is a sole proprietorship, the applicant's social security number or, if the applicant is a corporation, the applicant's federal employee identification number;

(iii) the county or counties in which the applicant is located;

(iv) a description of any renovation activities that the applicant will be conducting, including remodeling, room addition, window-door removal or replacement, general repair projects, weatherization projects, interior and exterior paint projects, exterior siding installation, or other renovation activity;

(v) a certification that the renovation firm will employ KDHE-certified individuals to conduct renovation activities; and

(vi) a certification that the renovation firm and the firm's employees will follow the Kansas work practice standards for renovation activities specified in K.A.R. 28-72-2 and K.A.R. 28-72-51 through K.A.R. 28-72-54;

(B) if the applicant is required to be registered and in good standing with the Kansas secretary of state's office, a copy of the applicant's certificate of good standing; and

(C) a payment to KDHE for the applicable non-refundable fee specified in K.A.R. 28-72-3.

(b) Procedure for issuance or denial of a renovation firm license.

(1) Each applicant shall be informed by the secretary in writing that the application is approved, incomplete, or denied.

(A) If an application is approved, a five-year renovation firm license shall be issued by the secretary.

(B) If an application is incomplete, the notice shall include a list of additional information or documentation required to complete the application.

(i) Within 30 calendar days after the issuance date of the notice of an incomplete application, the applicant shall submit, to the secretary in writing, the information requested in the written notice.

(ii) Failure to submit the information requested in the written notice within 30 calendar days shall result in the secretary's denial of the firm's application for licensure.

(iii) After receipt of the information requested in the written notice, the applicant shall be informed by the secretary in writing that the application is either approved or denied.

(C) If an application for licensure is denied, the written notice of denial to the applicant shall specify the reason or reasons for the denial. Licensure may be denied by the secretary pursuant to K.S.A. 65-1,207(a), and amendments thereto.

(D) If an application is denied, the applicant may reapply at any time to KDHE for a renovation firm license by submitting a complete renovation firm application form with another nonrefundable license fee, as specified in K.A.R. 28-72-3.

(E) If an applicant is aggrieved by a determination to deny licensure, the applicant may request a hearing with the office of administrative hearings, in accordance with the Kansas administrative procedure act.

(F) A license may be issued with specified restrictions pursuant to an agreement between the applicant and the secretary.

(2) If a licensed renovation firm changes ownership, the new owner shall notify KDHE in writing, no later than 30 calendar days before the change of ownership becomes effective. The notification shall include the following information:

(A) A new renovation firm license application;

(B) the applicable nonrefundable fee specified in K.A.R. 28-72-3; and

(C) the date that the change of ownership will become effective.

(3) The new renovation firm application shall be processed in the same manner as that required for an initial license in accordance with this regulation.

(4) The current renovation firm's license shall expire on the effective date specified in the notification of the change of ownership.

(5) A completed application for a renovation firm license renewal shall be submitted to KDHE at least 60 days before the expiration date on the license and shall be accompanied by the applicable nonrefundable renewal fee specified in K.A.R. 28-72-3. If the licensee fails to apply at least 60 days before the license expiration date, renewal of the license by the secretary before the end of the licensing period shall not be guaranteed.

(6) If a licensed renovation firm allows the firm's license to expire, the firm shall be required to submit an application in the same manner as that required for an application for an initial license, in accordance with this regulation. (Authorized by K.S.A. 65-1,202; implementing K.S.A. 65-1,202, 65-1,203, and 65-1,207; effective April 9, 2010.)

28-72-11. Renewal of lead occupation certificates. (a) Renewal application for lead inspector, risk assessor, elevated blood lead level investigator, lead abatement supervisor, lead abatement worker, renovator, and project designer.

(1) If a certified individual wishes to renew a lead occupation certificate, the individual shall submit a completed application for renewal of certificate, including the required supporting documentation, to KDHE at least 60 days before the certificate's expiration date as indicated on the certificate. Failure of the certified individual to submit an application at least 60 days before the certificate's expiration date may result in the certificate not being renewed before the current license expires.

(2) The certified individual applying for renewal shall complete the refresher training course for the appropriate occupation within the 12-month period immediately preceding the certificate expiration date.

(3) Each renewal application shall include the following:

(A) A completed lead occupation certificate application on a form provided by KDHE, which shall include the following:

(i) The applicant's full legal name, home address, and telephone number;

(ii) the name, address, and telephone number of the applicant's current employer;

(iii) the certified individual's state-issued identification number or federal employment identification number;

(iv) the county or counties in which the certified individual is employed;

(v) the address where the certified individual would like to receive correspondence regarding the certification;

(vi) the lead occupation certificate that the applicant wishes to have renewed;

(vii) the type of refresher training course completed, including the name of the training provider, diploma identification number, and dates of course attendance; and

(viii) the signature of the applicant, which shall certify that all information in the application is complete and true to the best of the applicant's knowledge and that the applicant will comply with applicable state statutes and regulations;

(B) a copy of the refresher training course completion diploma for the appropriate occupation; and

(C) a payment to KDHE for the appropriate nonrefundable recertification fee, as specified in K.A.R. 28-72-3.

(b) Procedure for issuance or denial of a renewal lead occupation certificate.

(1) The applicant shall be informed by the secretary in writing that the application is approved, incomplete, or denied.

(A) If an application is incomplete, the notice shall include a list of additional information or documentation required to complete the renewal application.

(i) Within 30 calendar days after the issuance date of the notice of an incomplete application, the applicant shall submit, to the secretary in writing, the information requested in the written notice.

(ii) Failure to submit the information requested in the written notice within 30 calendar days after the issuance of the notice shall result in the secretary's denial of the individual's application for recertification.

(iii) After receipt of the information requested in the written notice, the applicant shall be informed by the secretary in writing that the application is either approved or denied.

(B) If a renewal application for certification is denied, the written notice of denial to the applicant shall specify the reason or reasons for denial. Certification may be denied by the secretary pursuant to K.S.A. 65-1,207(b), and amendments thereto.

(C) If a renewal application is denied, the applicant may reapply to KDHE for a lead occupation certificate by submitting a complete lead occupation application form with the appropriate nonrefundable recertification fee, as specified in K.A.R. 28-72-3.

(2) If an applicant is aggrieved by a determination to deny certification, the applicant may request a hearing with the office of administrative hearings, in accordance with the Kansas administrative procedure act.

(3) If a renewal application is approved, a two-year certificate shall be issued by KDHE.

(4) A certificate may be issued with specific restrictions pursuant to an agreement between the certified individual and KDHE. (Authorized by K.S.A. 65-1,202; implementing K.S.A. 65-1,202, 65-1,203, and 65-1,207; effective, T-28-9-13-99, Sept. 13, 1999; effective Jan. 7, 2000; amended Dec. 6, 2002; amended April 9, 2010.)

28-72-12. Application process and requirements for reapplication after certificate expiration.

(a) Unless renewed or revoked sooner, each certificate shall expire two years after its effective date indicated on the current certificate. If a certified individual allows the certificate to expire before renewal but desires to be certified, the individual shall reapply to KDHE.

(b) Each application shall include the information specified in K.A.R. 28-72-5(a)(2)(A) and the following:

(1) Any employment history or education that meets the experience requirements in K.A.R. 28-72-5 through K.A.R. 28-72-9, as applicable;

(2) the signature of the applicant, which shall certify that all information in the application is complete and true to the best of the applicant's knowledge and that the applicant will comply with applicable state statutes and regulations;

(3) a copy of the lead occupation training course completion diploma for the appropriate occupation; and

(4) a payment to KDHE for the nonrefundable certification fee appropriate to the lead occupation, as specified in K.A.R. 28-72-3.

(c)(1) Each applicant who fails to reapply before the certificate expiration date and who has not successfully completed a refresher training course shall be required to successfully complete the appropriate refresher training course. The applicant may be required to complete the initial training course again.

(2) Each certified lead inspector, risk assessor, or lead abatement supervisor who allows the certification to expire before renewal shall retake the third-party examination for the appropriate occupation.

(d) The procedure for issuance or denial of a certificate after its expiration shall be that specified in K.A.R. 28-72-11(b). (Authorized by K.S.A. 65-1,202; implementing K.S.A. 65-1,202 and 65-1,203; effective, T-28-9-13-99, Sept. 13, 1999; effective Jan. 7, 2000; amended Dec. 6, 2002; amended April 9, 2010.)

28-72-13. Work practice standards; general standards. (a) Except as provided in K.S.A. 65-1,203 and amendments thereto, all lead-based paint activities, as defined in the act, shall be performed pursuant to the work practice standards in this article.

(b) Except as provided in K.S.A. 65-1,203 and amendments thereto, when performing any lead-based paint activity that involves an inspection, lead-hazard screen, risk assessment, or abatement, a certified individual shall perform that activity in compliance with the applicable requirements in this regulation.

(c) Certified lead inspectors and risk assessors conducting lead inspection activities shall avoid potential conflicts of interest by not being contracted, subcontracted, or employed by any lead activity firm performing lead abatement activities on the same lead abatement project.

(d)(1) Each certified individual shall comply with the following documented methodologies, which are hereby adopted by reference, when performing any lead-based paint activity:

(A) The U.S. department of housing and urban development (HUD) "guidelines for the evaluation and control of lead-based paint hazards in housing," dated June 1995, excluding chapters 1 and 2 and including appendices 7, 8, 11, 12, 13, and 14. Chapter 7 in the June 1995 edition is not adopted; instead, the 1997 revision of chapter 7 is adopted; and

(B) the EPA "residential sampling for lead: protocols for dust and soil sampling," EPA final report, MRI project no. 9803, published March 29, 1995.

(2) If a conflict exists between either of the methodologies listed in this subsection and any federal or state statute or regulation or any city or county ordinance, the most stringent of these shall be adhered to by the certified lead inspector

or risk assessor. (Authorized by and implementing K.S.A. 65-1,202 and 65-1,203; effective, T-28-9-13-99, Sept. 13, 1999; effective Jan. 7, 2000; amended Dec. 6, 2002; amended April 9, 2010.)

28-72-14. Work practice standards; inspection. (a) Except as provided in K.S.A. 65-1,203 and amendments thereto, a lead inspection or any portion of a lead inspection shall be conducted only by a lead inspector or risk assessor, and all inspections shall be conducted according to the procedures specified in this regulation.

(b) When conducting an inspection, the lead inspector or risk assessor shall select the following locations according to the documented methodologies in K.A.R. 28-72-13 (d)(1) and shall test for the presence of lead-based paint:

(1) In a residential dwelling and child-occupied facility, each interior component with a distinct painting history and each exterior component with a distinct painting history shall be tested for lead-based paint, except those components that the lead inspector or risk assessor determines to have been replaced after 1978 or not to contain lead-based paint; and

(2) in a multifamily dwelling or child-occupied facility, each component with a distinct painting history in every common area, except those components that the lead inspector or risk assessor determines to have been replaced after 1978 or not to contain lead-based paint.

(c)(1) Paint shall be sampled according to both of the following requirements:

(A) The analysis of paint to determine the presence of lead shall be conducted using the documented methodologies in K.A.R. 28-72-13 (d)(1).

(B) All collected paint chip samples shall be analyzed according to K.A.R. 28-72-19 to determine if the samples contain detectable levels of lead that can be quantified numerically.

(2) The lead inspector or risk assessor shall prepare an inspection report, which shall include the following information:

- (A) The date of each inspection;
- (B) the address of the building;
- (C) the date of the construction;
- (D) apartment numbers, if applicable;
- (E) the name, address, and telephone number of the owner or owners of each residential dwelling;
- (F) the name, signature, and certificate number of each certified lead inspector or risk assessor, or both, conducting testing;

(G) the name, address, and telephone number of the lead activity firm employing each lead inspector or risk assessor, or both, if applicable;

(H) each testing method and device or sampling procedure, or both, employed for paint analysis, including quality control data and, if used, the serial number of any x-ray fluorescence (XRF) device and a copy of the XRF device user's certificate of training provided by the equipment manufacturer;

(I) a summary of laboratory results, categorized as positive or negative, and the name of each recognized laboratory that conducted the analysis, along with the laboratory's certification number;

(J) floor plans or sketches of the units inspected, showing the appropriate test locations and any identifying number systems;

(K) a summary of the substrates tested, including the identification of component, component integrity, paint condition and color, and test identification numbers associated with the results; and

(L) the results of the inspection expressed in terms appropriate to the sampling method used.

(d) Time frame for submission of reports. The inspection report shall be provided to the owner of the property within 20 business days after completion of the lead inspection. (Authorized by and implementing K.S.A. 65-1,202 and 65-1,203; effective, T-28-9-13-99, Sept. 13, 1999; effective Jan. 7, 2000; amended Dec. 6, 2002; amended April 9, 2010.)

28-72-15. Work practice standards; lead hazard screen. (a) Except as provided in K.S.A. 65-1,203 and amendments thereto, a lead hazard screen shall be conducted only by a risk assessor.

(b) If a lead hazard screen is conducted, the risk assessor shall conduct each lead hazard screen as follows:

(1) Background information regarding the physical characteristics of the residential dwelling or child-occupied facility and occupant-use patterns that could cause lead-based paint exposure to one or more children through the age of 72 months shall be collected.

(2) An inspection of the residential dwelling or child-occupied facility shall be conducted to achieve the following:

(A) Determine if any deteriorated paint is present; and

(B) locate at least two dust sampling locations.

(3) If deteriorated paint is present, each surface with deteriorated paint that is determined, using one or more of the documented methodologies

in K.A.R. 28-72-13 (d)(1), to be in poor condition and to have a distinct painting history shall be tested for the presence of lead.

(4) In residential dwellings, a dust sample shall be collected from the floor and from each window, and in rooms, hallways, or stairwells where one or more children through the age of 72 months are most likely to come in contact with dust.

(5) In multifamily dwellings and child-occupied facilities, in addition to the floor and window samples required in paragraph (b)(4), the risk assessor shall also collect dust samples from common areas where one or more children through the age of 72 months are most likely to come into contact with dust.

(c) Dust samples shall be collected and analyzed in the following manner:

(1) All dust samples shall be taken using one or more of the documented methodologies in K.A.R. 28-72-13 (d)(1).

(2) All collected dust samples shall be analyzed according to K.A.R. 28-72-19 to determine if the samples contain detectable levels of lead that can be quantified numerically.

(d) Paint shall be sampled according to both of the following requirements:

(1) The analysis of paint to determine the presence of lead shall be conducted using one or more of the documented methodologies in K.A.R. 28-72-13 (d)(1).

(2) All collected paint chip samples shall be analyzed according to K.A.R. 28-72-19 to determine if the samples contain detectable levels of lead that can be quantified numerically.

(e) The risk assessor shall prepare a lead hazard screen report, which shall include the following information:

(1) The date of the assessment;

(2) the address of each building;

(3) the date of construction of each building;

(4) the apartment number, if applicable;

(5) the name, address, and telephone number of each owner of each building;

(6) the name, signature, and certificate number of the certified risk assessor conducting the assessment;

(7) the name, address, and telephone number of each recognized laboratory conducting analysis of collected samples, along with the laboratory's certificate number;

(8) the results of the visual inspection;

(9) the testing method and sampling procedure employed for the paint analysis;

(10) specific locations of each paint component tested for the presence of lead;

(11) all data collected from on-site testing, including quality control data and, if used, the serial number of any XRF device, and a copy of the XRF device user's certificate of training provided by the equipment manufacturer;

(12) all results of laboratory analysis on collected paint, soil, and dust samples;

(13) any other sampling results;

(14) any background information collected regarding the physical characteristics of the residential dwelling or multifamily dwelling and occupant-use patterns that could cause lead-based paint exposure to one or more children through the age of 72 months; and

(15) recommendations, if warranted, for a follow-up risk assessment and, as appropriate, any further actions.

(f) Time frame for submission of reports. The lead hazard screen report shall be provided to the owner of the property within 20 business days after completion of the lead hazard screen. (Authorized by and implementing K.S.A. 65-1,202 and 65-1,203; effective, T-28-9-13-99, Sept. 13, 1999; effective Jan. 7, 2000; amended Dec. 6, 2002; amended April 9, 2010.)

28-72-16. Work practice standards; risk assessment. (a) Except as provided by K.S.A. 65-1,203 and amendments thereto, a risk assessment shall be conducted only by a person certified by KDHE, according to K.A.R. 28-72-2 and K.A.R. 28-72-6 through K.A.R. 28-72-12 as a risk assessor. If a risk assessment is conducted, the assessment shall be conducted according to the procedures specified in this regulation.

(b) An inspection of the residential dwelling or child-occupied facility shall be undertaken to locate the existence of deteriorated paint, assess the extent and causes of the deterioration, and assess other potential lead-based paint hazards.

(c) Background information regarding the physical characteristics of the residential dwelling or child-occupied facility and occupant-use patterns that could cause lead-based paint exposure to one or more children through the age of 72 months shall be collected.

(d) Each surface with deteriorated paint that is determined, using one or more of the documented methodologies in K.A.R. 28-72-13 (d)(1), to be in poor condition and to have a distinct painting history, shall be tested for the presence of lead.

Each other surface determined, using one or more of the documented methodologies in K.A.R. 28-72-13 (d)(1), to be a potential lead-based paint hazard and to have a distinct painting history shall also be tested for the presence of lead.

(e) In residential dwellings, single-surface dust samples from at minimum one window and at minimum one floor area shall be collected in all living areas where one or more children through the age of 72 months are most likely to come into contact with dust.

(f) For multifamily dwellings and child-occupied facilities, the samples required in subsection (e) of this regulation shall be taken. In addition, window and floor dust samples shall be collected in the following locations:

(1) Common areas adjacent to the sampled residential dwelling or child-occupied facility; and

(2) other common areas in the building where the risk assessor determines that one or more children through the age of 72 months are likely to come into contact with dust.

(g) For child-occupied facilities, window and floor dust samples shall be collected in each room, hallway, or stairwell utilized by one or more children through the age of 72 months and in other common areas in the child-occupied facility where the risk assessor determines that one or more children through the age of 72 months are likely to come into contact with dust.

(h) Soil samples shall be collected and analyzed for lead concentrations in the following locations:

(1) Exterior play areas where bare soil is present; and

(2) dripline or foundation areas where bare soil is present.

(i) All paint, dust, or soil sampling or testing shall be conducted using one or more of the documented methodologies in K.A.R. 28-72-13(d)(1).

(j) All collected paint chip, dust, or soil samples shall be analyzed according to K.A.R. 28-72-19 to determine if the samples contain detectable levels of lead that can be quantified numerically.

(k) The risk assessor shall prepare a risk assessment report, which shall include the following information:

(1) The date of the assessment;

(2) the address of each building;

(3) the date of construction of the buildings;

(4) the apartment number, if applicable;

(5) the name, address, and telephone number of each owner of each building;

(6) the name, signature, and certificate number of the risk assessor conducting the assessment;

(7) the name, address, and telephone number of each recognized laboratory conducting an analysis of collected samples, along with the laboratory's certificate number;

(8) the results of the visual inspection;

(9) the testing method and sampling procedure used for each paint analysis;

(10) specific locations of each painted component tested for the presence of lead;

(11) all data collected from on-site testing, including quality control data and, if used, the serial number of any XRF device and a copy of the XRF device user's certificate of training provided by the equipment manufacturer;

(12) all results of laboratory analyses on collected paint, soil, and dust samples;

(13) any other sampling results;

(14) any background information collected pursuant to subsection (c);

(15) to the extent that they are used as part of the lead-based paint hazard determination, the results of any previous inspections or analyses for the presence of lead-based paint, or other assessments of lead-based paint-related hazards;

(16) a description of the location, type, and severity of identified lead-based paint hazards and any other potential lead hazards; and

(17) a description of interim controls or abatement options, or both, for each identified lead-based paint hazard and the suggested prioritization for addressing each hazard. If the use of an encapsulant or enclosure is recommended, the report shall recommend a maintenance and monitoring schedule for the encapsulant or enclosure.

(l) Time frame for submission of reports. The risk assessment report shall be provided to the owner of the property and to the person requesting the risk assessment within 20 business days after completion of the lead-based paint hazard risk assessment. (Authorized by and implementing K.S.A. 65-1,202 and 65-1,203; effective, T-28-9-13-99, Sept. 13, 1999; effective Jan. 7, 2000; amended Dec. 6, 2002; amended April 9, 2010.)

28-72-17. Work practice standards; elevated blood lead level investigation risk assessments. (a) In order to perform an elevated blood lead (EBL) level investigation risk assessment, the EBL inspector shall have a certificate from KDHE.

(b) The EBL inspector shall have the parents or guardians of the EBL child complete an approved KDHE questionnaire before sampling. Environmental testing shall be linked to the EBL child's history and may include the testing of a prior residence or other areas frequented by the EBL child.

(c) Background information regarding the physical characteristics of the residential dwelling or child-occupied facility and occupant-use patterns that could cause lead-based paint exposure to one or more children through the age of 72 months shall be collected.

(d) Each surface of the dwelling itself, furniture, or play structures frequented by the EBL child that has deteriorated surface coatings shall be tested for the presence of lead.

(e) Dust samples from areas frequented by the EBL child, including play areas, porches, kitchens, bedrooms, and living and dining rooms, shall be collected. Dust samples shall also be collected from automobiles, work shoes, and laundry rooms if occupational lead exposure is a possibility.

(f) Soil samples shall be collected from bare soil areas of play, areas near the foundation of the house, and areas from the yard. If the EBL child spends significant time at the park or other play area, samples shall be collected from these areas, unless the area has already been sampled and documented.

(g) If necessary, water samples of the first-drawn water from the tap most commonly used for drinking water, infant formula, or food preparation shall be collected. For the purpose of this regulation, the term "first-drawn water" shall mean water that is taken from the tap after an undisturbed period of at least six hours, during which time the water has been in contact with the pipes and fixtures allowing any available lead to dissolve into the water.

(h) All paint, dust, and soil collection and testing shall be conducted using the documented methodologies in K.A.R. 28-72-13 (d)(1).

(i) No later than 20 days following the completion of the environmental investigation, the EBL investigator shall issue a report to the secretary that details the findings of the investigation and includes all the empirical data gathered during the investigation.

(j) All environmental investigation reports shall be reviewed by KDHE to determine if the exposure to lead hazards found on the property are a contributing cause of the EBL in the child.

(k) If a determination is made by KDHE that lead hazards found on the property are a contrib-

uting cause of the EBL in the child, a lead hazard control notice shall be issued by the secretary to the owner and occupants of the property. The lead hazard control notice shall include the following:

(1) Detailed, specific actions that must be taken to make the property lead-safe and suitable for habitation by the EBL child or any other children through 72 months of age;

(2) detailed strategies for both abatement and interim control of the lead hazards found;

(3) the date by which the remediation activities will be concluded; and

(4) the method of proving that the remediation activities are successfully completed.

(1) The verified findings of the environmental investigation and the lead hazard control notice shall not be used to the detriment of occupants by the owner of the property. The failure of any person to comply with the lead hazard control notice shall be considered a violation of K.S.A. 65-1,210, and amendments thereto, and the person shall be subject to the penalties provided in that statute. (Authorized by K.S.A. 65-1,202; implementing K.S.A. 65-1,202, 65-1,208, and 65-1,210; effective, T-28-9-13-99, Sept. 13, 1999; effective Jan. 7, 2000; amended Dec. 6, 2002; amended April 9, 2010.)

28-72-18. Work practice standards; lead abatement. (a) Except as provided in K.S.A. 65-1,203 and amendments thereto, a lead abatement shall be conducted only by an individual certified by KDHE and shall be conducted according to the procedures specified in this article.

(b) A lead abatement supervisor shall be required for each lead abatement project and shall be on-site during all work-site preparation and during the postabatement cleanup of work areas.

(1) At all other times when lead abatement activities are being conducted, the lead abatement supervisor shall be on-site or available by telephone, pager, or answering service and shall be able to be present at the work site in no more than one hour.

(2) The lead abatement supervisor shall report to the work site during each lead abatement work practice standards inspection performed by KDHE. The lead activity firm that employs the lead abatement supervisor shall be subject to an abatement project reinspection fee if the lead abatement supervisor fails to be present at the work site as specified in this regulation.

(c) The lead abatement supervisor and licensed lead activity firm employing that supervisor shall

ensure that all lead abatement activities are conducted according to the requirements of the Kansas work practice standards in this article and all other federal, state, and local requirements.

(d) Notification of the commencement of lead-based paint activities in a residential dwelling or child-occupied facility or as the result of a federal, state, or local order shall be given to KDHE before the commencement of abatement activities. The procedure for this notification shall be as follows:

(1) Each person or lead activity firm conducting a lead abatement project in target housing or in any child-occupied facility shall submit a notification to KDHE at least 10 business days before the onset of the lead abatement project.

(2) The notification shall be submitted to KDHE with a payment to KDHE for the nonrefundable project fee specified in K.A.R. 28-72-3.

(3) The notification form provided to the department shall include the following:

(A) The street address, city, state, zip code, and county of each location where lead abatement will occur;

(B) the name, address, and telephone number of the property owner;

(C) an indication of the type of structure or structures being abated, including single-family or multifamily dwelling, child-occupied facility, or any combination of these types;

(D) the date of the onset of the lead abatement project;

(E) the estimated completion date of the lead abatement project;

(F) the work days and hours of operation during which the lead abatement project will be conducted;

(G) the name, address, telephone number, and license number of the lead activity firm;

(H) the name and certificate number of each lead abatement worker;

(I) the type or types of lead abatement strategy or strategies that will be utilized, including enclosure, encapsulation, replacement, removal, or any combination of these strategies, and the specific locations within the unit where these strategies will be utilized;

(J) the signature of each lead abatement supervisor, which shall certify that all information provided in the project notification is complete and true to the best of the supervisor's knowledge; and

(K) a written certification from the lead abatement supervisor, which shall include a copy of the clearance report, within 10 days after success-

fully achieving clearance, that clearly states that all abatement control options were conducted in accordance with all local, state, and federal regulations, as well as in accordance with the preabatement notification letter submitted to KDHE.

(e) Emergency notification. If the lead activity firm is unable to comply with the 10-day notification period due to an emergency situation, the lead activity firm shall perform the following:

(1) Notify KDHE by telephone, facsimile, or electronic mail within 24 hours after the onset of the lead abatement project; and

(2) submit written notification and payment of fees as described in subsection (d) no more than two business days after the onset of the lead abatement project.

(f) A written occupant protection plan, which shall be unique to each residential dwelling or child-occupied facility, shall be developed before the lead abatement begins. The occupant protection plan shall describe the measures and management procedures that will be taken during the lead abatement to protect the building occupants from exposure to any lead-based paint hazards.

(1) The certified lead abatement supervisor or project designer responsible for the project shall prepare the occupant protection plan.

(2) The occupant protection plan shall meet the following requirements:

(A) Describe the work practices and strategies that will be taken during the lead abatement project to protect the building occupants from exposure to any lead hazards;

(B) include the results of any lead inspections or risk assessments completed before the commencement of the lead abatement project;

(C) be provided to an adult occupant of each dwelling or dwelling unit being abated and to the property owner, or property owner's designated representative, before the commencement of the lead abatement project; and

(D) be submitted to KDHE with the lead abatement project notification.

(g) The work practices listed below shall be restricted as follows:

(1) Open-flame burning or torching of lead-based paint shall be prohibited.

(2) Machine sanding or grinding, or abrasive blasting or sandblasting of lead-based paint shall be prohibited unless used with high efficiency particulate air (HEPA) exhaust control that removes particles of 0.3 microns or larger from the air at 99.97 percent or greater efficiency.

(3) Dry scraping of lead-based paint shall be permitted only within 12 inches of electrical outlets or when treating defective paint spots totaling no more than two square feet in any one room, hallway, or stairwell, or totaling no more than 20 square feet on exterior surfaces.

(4) Operating a heat gun on lead-based paint shall be prohibited.

(5) Hydro blasting or pressurized water washing of lead-based paint shall be prohibited.

(6) The use of methylene chloride-based chemical strippers shall be prohibited.

(7) Solvents that have flashpoints below 140 Fahrenheit shall be prohibited.

(8) Enclosure strategies shall be prohibited if the barrier is not warranted by the manufacturer to last at least 20 years under normal conditions or if the primary barrier is not a solid barrier.

(9) Encapsulation strategies shall be prohibited if the encapsulant is not warranted by the manufacturer to last at least 20 years under normal conditions or if the encapsulant has been improperly applied.

(h) Permissible lead abatement project strategies.

(1) The following strategies shall be permissible for lead abatement projects:

(A) Replacement;

(B) the use of an enclosure;

(C) encapsulation; and

(D) removal.

(2) Each lead abatement strategy not specified in this article shall be submitted to and approved by KDHE for evaluation before implementation. (Authorized by and implementing K.S.A. 65-1,202 and 65-1,203; effective, T-28-9-13-99, Sept. 13, 1999; effective Jan. 7, 2000; amended Dec. 6, 2002; amended April 9, 2010.)

28-72-18a. Work practice standards; lead abatement: replacement. When conducting a lead abatement project using the replacement strategy, the certified lead professional or licensed firm shall meet the following minimum requirements: (a) The site shall be prepared by first establishing a regulated area using fencing, barrier tape, or other appropriate barriers. The regulated area shall be marked to prevent uncertified personnel and restricting the general public from approaching closer than 20 feet to the abatement operation.

(b) Signs shall be posted at all entrances to the regulated area and shall include the words

“WARNING: LEAD AREA. POISON. NO SMOKING OR EATING” in bold lettering not smaller than two inches tall, with additional language or symbols prohibiting entry to the regulated area by uncertified personnel and the general public. All signs shall be in a language that is easily recognizable by all certified lead professionals and by members of the general public where the lead abatement activities are taking place.

(c) Any heating and cooling system within the regulated area shall be shut down and the vents sealed with 6-mil polyethylene sheeting to prevent lead dust accumulation within the system.

(d) All items shall be cleaned within the regulated area by HEPA vacuuming or wet wiping with a cleaning solution, or both. Items shall then be either removed from the area or covered with 6-mil polyethylene sheeting and sealed with duct tape, to provide an airtight and watertight seal.

(e) At least two layers of 6-mil, or thicker, polyethylene sheeting shall be placed on the floor at the base of the component and extend at least 10 feet beyond the perimeter of the component to be replaced.

(f) The component and the area adjacent to the component shall be thoroughly wetted using a garden sprayer, airless mister, or other appropriate means to reduce airborne dust.

(g) After removal of the component, the surface behind the removed component shall be thoroughly wetted to reduce airborne dust.

(h) The component shall be wrapped or bagged completely in 6-mil polyethylene sheeting and sealed with duct tape to prevent loss of debris or dust.

(i) Before installing a new component, the area of replacement shall be cleaned by HEPA vacuuming the area again. Cleaning shall begin at the end of the work area farthest from the main entrance to the area and from the top to the bottom of the regulated area. (Authorized by and implementing K.S.A. 65-1,202; effective, T-28-9-13-99, Sept. 13, 1999; effective Jan. 7, 2000; amended April 9, 2010.)

28-72-18b. Work practice standards; lead abatement: enclosure. When conducting a lead abatement project using the enclosure strategy, the certified lead professional shall meet the following minimum requirements: (a) The site shall be prepared by first establishing a regulated area using fencing, barrier tape, or other appropriate barriers. The regulated area shall be marked to prevent uncertified personnel and the general

public from approaching closer than 20 feet to the abatement project.

(b) Signs shall be posted at all entrances to the regulated area and shall include the words “WARNING: LEAD AREA. POISON. NO SMOKING OR EATING” in bold lettering not smaller than two inches tall, with additional language or symbols prohibiting entry to the regulated area by uncertified personnel and the general public. All signs shall be in a language that is easily recognized by all certified lead professionals and by members of the general public where the lead abatement activities are taking place.

(c) Any heating and cooling systems within the regulated area shall be shut down and the vents sealed with 6-mil polyethylene sheeting to prevent lead dust accumulation within the system.

(d) All items shall be cleaned within the regulated area by HEPA vacuuming or wet wiping with a cleaning solution, or both. Items shall then be either removed from the area or covered with 6-mil polyethylene sheeting and sealed with duct tape.

(e) At least one layer of 6-mil, or thicker, polyethylene sheeting shall be placed on the floor at the base of the component and extend at least 10 feet beyond the perimeter of the component to be enclosed.

(f) The surface to be enclosed shall be permanently labeled behind the enclosure horizontally and vertically, approximately every two feet with this warning: “Danger: Lead-Based Paint.” The lettering on the label shall be boldfaced, at least two inches tall, and in a contrasting color.

(g)(1) The enclosure shall be applied directly onto the painted surface, or a frame shall be constructed of wood or metal, using nails, staples, or screws. Glue may be used in conjunction with the aforementioned fasteners, but shall not be used alone. All enclosure items shall be back-caulked at all edges, seams, and abutment edges.

(2) The material used for the enclosure barrier shall be solid and rigid enough to provide adequate protection. Wallpaper, contact paper, films, folding walls, drapes, and similar materials shall not meet this requirement.

(3) Enclosure systems and their adhesives shall be designed to last at least 20 years.

(4) The substrate or building structure to which the enclosure is fastened shall be structurally sufficient to support the enclosure barrier for at least 20 years. If there is deterioration of the substrate or building structure that may impair the enclosure from remaining dust-tight for a minimum of

20 years, the substrate or building structure shall be repaired before attaching the enclosure. This deterioration may include mildew, water damage, dry rot, termite damage, or any structural damage.

(h) Preformed steel, aluminum, vinyl, or other construction material may be used for window frames, exterior siding, trim casings, column enclosures, moldings, or other similar components if they can be sealed.

(i) A material equivalent to one-quarter inch rubber or vinyl may be used to enclose stairs.

(j) The seams, edges, and fastener holes shall be sealed with caulk or other sealant, providing a dust-tight system.

(k) All equipment used in the regulated area shall be thoroughly cleaned with a cleaning solution or vacuumed with a HEPA vacuum, or both, before removal from the regulated area.

(l) Before clearance, the installed enclosure and surrounding regulated area shall be cleaned by vacuuming with a HEPA vacuum, wiping down all surfaces with a cleaning solution, rinsing all surfaces, and then HEPA vacuuming the area again. Cleaning shall begin at the end of the work area farthest from the main entrance to the area and from the top to the bottom of the regulated area.

(m) All enclosure systems used shall meet the requirements of all applicable building codes and fire, health, safety, and environmental regulations. (Authorized by and implementing K.S.A. 65-1, 202; effective, T-28-9-13-99, Sept. 13, 1999; effective Jan. 7, 2000; amended April 9, 2010.)

28-72-18c. Work practice standards; lead abatement: encapsulation. (a) The encapsulation strategy of lead abatement shall not be used on the following:

(1) Friction surfaces, including window sashes and parting beads, door jambs and hinges, floors, and door thresholds;

(2) deteriorated components, including rotten wood, rusted metal, spalled or cracked plaster, and loose masonry;

(3) impact surfaces, including doorstops, window wells, and headers;

(4) deteriorated surface coatings if the adhesion or cohesion of the surface coating is uncertain or indeterminable; and

(5) incompatible coatings.

(b) When conducting a lead abatement project using the encapsulation strategy, the certified personnel shall comply with the following minimum requirements:

(1) The certified lead professional or licensed firm shall select an encapsulant that is a low volatile organic compound (V.O.C.), that is warranted by the manufacturer to last for at least 20 years, and that meets the requirements of all applicable building codes as well as fire, health, and environmental regulations.

(2) Each surface to be encapsulated shall have sound structural integrity and sound surface coating integrity and shall be prepared according to the manufacturer's recommendations.

(3) The site shall be prepared by first establishing a regulated area using fencing, barrier tape, or other appropriate barriers. The regulated area shall be marked to prevent uncertified personnel and the general public from approaching closer than 20 feet to the abatement project.

(4) Signs shall be posted at all entrances to the regulated area and shall include the words "WARNING: LEAD AREA. POISON. NO SMOKING OR EATING" in bold lettering at least two inches tall, with additional language or symbols prohibiting entry to the regulated area by uncertified personnel and the general public. All signs shall be in a language that is easily recognized by all certified lead professionals and by members of the general public where the lead abatement activities are taking place.

(5) Any heating and cooling systems within the regulated area shall be shut down and the vents sealed with 6-mil polyethylene sheeting to prevent lead dust accumulation within the system.

(6) All items shall be cleaned within the regulated area by HEPA vacuuming or wet wiping with a cleaning solution, or both. Items shall then be either removed from the area or covered with 6-mil polyethylene sheeting and sealed with duct tape.

(7) At least two layers of 6-mil, or thicker, polyethylene sheeting shall be placed on the ground at the base of the component and shall extend at least 10 feet beyond the perimeter of the component to be encapsulated.

(8) A patch test shall be conducted in accordance with the HUD guidelines adopted by reference in K.A.R. 28-72-13 (d)(1) before general application of the encapsulant to determine the adhesive and cohesive properties of the encapsulant on the surface to be encapsulated. The encapsulant shall be applied in accordance with the manufacturer's recommendations.

(9) After the manufacturer's recommended curing time, the entire encapsulated surface shall be inspected by a lead abatement supervisor or a

project designer. Each unacceptable area shall be evaluated to determine if a complete failure of the system is indicated or if the system can be patched or repaired. Unacceptable areas shall be evidenced by delamination, wrinkling, blistering, cracking, cratering, and bubbling of the encapsulant.

(10) After the encapsulation is complete, the regulated area shall be cleaned by vacuuming with a HEPA vacuum, wiping down all surfaces with a cleaning solution, rinsing all surfaces, and then HEPA vacuuming the area again. Cleaning shall begin at the end of the work area farthest from the main entrance to the area and from the top to the bottom of the regulated area.

(11) All equipment used in the regulated area shall be thoroughly cleaned with a cleaning solution or vacuumed with a HEPA vacuum, or both, before removal from the regulated area. (Authorized by and implementing K.S.A. 65-1, 202; effective, T-28-9-13-99, Sept. 13, 1999; effective Jan. 7, 2000; amended April 9, 2010.)

28-72-18d. Work practice standards; lead abatement: removal. (a) Removal strategies. Acceptable removal strategies shall include the following:

(1) Manual wet strategies. Manual wet scraping or manual wet sanding shall be acceptable for the removal of lead surface coatings.

(2) Mechanical removal strategies. Using power tools that are HEPA-shrouded or locally exhausted shall be acceptable removal strategies for lead surface coatings. HEPA-shrouded or exhausted mechanical abrasion devices, including sanders, saws, drills, roto-peens, vacuum blasters, and needle guns shall be acceptable.

(3) Chemical removal strategies. Chemical strippers shall be used in compliance with the manufacturer's recommendations.

(b) Soil abatement. When soil abatement is conducted, the lead-bearing soil shall be removed, tilled, or permanently covered in place as indicated in this subsection.

(1) Removed soil shall be replaced with fill material containing no more than 100 ppm of lead. Soil that is removed shall not be reused as topsoil.

(2) If tilling is selected, soil in a child-accessible area shall be tilled to a depth that results in less than 400 ppm lead of the homogenized soil, or other concentrations approved by the department. Soil in an area not accessible to children shall be tilled to a depth that results in less than 1,200 ppm lead of the homogenized soil.

(3) "Permanently covered soil" shall have the meaning specified in K.A.R. 28-72-1p(c).

(4) Soil abatement shall be conducted to prevent lead-contaminated soil from being blown from the site or from being carried away by water runoff or through percolation to groundwater.

(c) Interior removal. When conducting a lead abatement project using the removal strategy on interior surfaces, the certified lead professional or licensed firm shall meet the following minimum requirements:

(1) The site shall be prepared by first establishing a regulated area using fencing, barrier tape, or other appropriate barriers. The regulated area shall be marked to prevent uncertified personnel and the general public from approaching closer than 20 feet to the abatement project.

(2) Signs shall be posted at all entrances to the regulated area and shall include the words "WARNING: LEAD AREA. POISON. NO SMOKING OR EATING" in bold lettering at least two inches tall, with additional language or symbols prohibiting entrance to the regulated area by uncertified personnel and the general public. All signs shall be in a language that is easily recognized by all certified lead professionals and by members of the general public where the lead abatement activities are taking place.

(3) Each heating and cooling system within the regulated area shall be shut down and the vents shall be sealed with 6-mil polyethylene sheeting to prevent lead dust accumulation within the system.

(4) All items within the regulated area shall be cleaned by HEPA vacuuming or wet wiping with a cleaning solution, or both. Items shall then be either removed from the area or covered with 6-mil polyethylene sheeting and sealed with duct tape.

(5) All windows below and within the regulated area shall be closed.

(6) A critical barrier shall be constructed.

(7) At least two layers of 6-mil, or thicker, polyethylene sheeting shall be placed on the floor at the base of the component and shall extend at least 10 feet beyond the perimeter of the component being abated. If the chemical strategy is used, the certified lead professional or licensed firm shall follow the manufacturer's recommendations regarding a chemical-resistant floor cover.

(8) All equipment used in the regulated area shall be thoroughly cleaned with a cleaning solution or vacuumed with a HEPA vacuum, or both, before removal from the regulated area.

(9) At the end of each work shift, the top layer of 6-mil polyethylene sheeting shall be removed and used to wrap and contain the debris generated by the shift. The 6-mil polyethylene sheeting shall then be sealed with duct tape and kept in a secured area until final disposal. The second layer of 6-mil polyethylene sheeting shall be HEPA vacuumed, left in place, and used during the next shift. A single layer of 6-mil polyethylene sheeting shall be placed on this remaining polyethylene sheeting before lead abatement resumes.

(10) After the removal is complete, the regulated area shall be cleaned by vacuuming with a HEPA vacuum, wiping down all surfaces with a cleaning solution, rinsing all surfaces, and then HEPA vacuuming the area again. Cleaning shall begin at the end of the work area farthest from the entrance to the area and from the top to the bottom of the regulated area.

(d) Exterior removal. When conducting a lead abatement project using the removal strategy on exterior surfaces, these minimum requirements shall be met:

(1) The site shall be prepared by first establishing a regulated area using fencing, barrier tape, or other appropriate barriers. The regulated area shall be marked to prevent uncertified personnel and the general public from approaching closer than 20 feet to the abatement project.

(2) Signs shall be posted at all entrances to the regulated area and shall include the words "WARNING: LEAD AREA. POISON. NO SMOKING OR EATING" in bold lettering at least two inches tall, with additional language or symbols prohibiting entry to the regulated area by uncertified personnel. All signs shall be in a language that is easily recognized by all certified lead professionals and by members of the general public where the abatement activities are taking place.

(3) All movable items shall be moved 20 feet from working surfaces. Items that cannot be readily moved 20 feet from working surfaces shall be covered with 6-mil polyethylene sheeting and sealed with duct tape.

(4) At least one layer of 6-mil, or thicker, polyethylene sheeting shall be placed on the ground and shall extend at least 10 feet from the abated surface, plus another five feet out for each additional 10 feet in surface height over 20 feet. In addition, the polyethylene sheeting shall meet the following criteria:

(A) Be securely attached to the side of the

building, with cover provided to all ground plants and shrubs in the regulated area;

(B) be protected from tearing or perforating;

(C) contain any water, including rainfall, that may accumulate during the lead abatement; and

(D) be weighted down to prevent disruption by wind gusts.

(5) All windows in the regulated area and all windows below and within 20 feet of working surfaces shall be closed.

(6) Work shall cease if constant wind speeds are greater than 15 miles per hour.

(7) Work shall cease and cleanup shall occur if rain begins.

(8) All equipment used in the regulated area shall be thoroughly cleaned with a cleaning solution or vacuumed with a HEPA vacuum, or both, before removal from the regulated area.

(9) The regulated area shall be HEPA vacuumed and cleaned of lead-based paint chips, polyethylene sheeting, and other debris generated by the abatement project work at the end of each workday. Debris shall be kept in a secured area until final disposal. (Authorized by and implementing K.S.A. 65-1,202; effective, T-28-9-13-99, Sept. 13, 1999; effective Jan. 7, 2000; amended April 9, 2010.)

28-72-18e. Work practice standards; postabatement clearance procedures. Except as provided in K.S.A. 65-1-203 and amendments thereto, the following postabatement or lead hazard control clearance procedures shall be performed only by a risk assessor: (a) Following lead abatement or required lead hazard control, a visual inspection shall be performed to determine if deteriorated painted surfaces or visible amounts of dust, debris, or residue are still present. These conditions shall be eliminated before continuation of the clearance procedures.

(b) Following the visual inspection and any post-abatement or lead hazard control cleanup required by subsection (a), clearance sampling for lead-contaminated dust shall be conducted. Clearance sampling shall be conducted by employing single-surface sampling techniques.

(c)(1) Dust samples for clearance purposes shall be taken using one or more of the documented methodologies in K.A.R. 28-72-13(d)(1).

(2) Dust samples for clearance purposes shall be taken a minimum of one hour after completion of final postabatement or lead hazard control cleanup activities.

(d) The following postabatement or lead hazard control activities shall be conducted as appropriate, based upon the extent or manner of lead abatement activities conducted in or to the residential dwelling or child-occupied facility:

(1) After conducting a lead abatement or lead hazard control with containment between abated and unabated areas, one dust sample shall be taken from one window, if available, and at least one dust sample shall be taken from the floors of no fewer than four rooms, hallways, or stairwells within the containment area. In addition, one dust sample shall be taken from the floor outside the containment area. If there are fewer than four rooms, hallways, or stairwells within the containment area, then all rooms, hallways, or stairwells shall be sampled.

(2) After conducting a lead abatement or lead hazard control in which no containment was utilized, two dust samples shall be taken from no fewer than four rooms, hallways, or stairwells in the residential dwelling or child-occupied facility. One dust sample shall be taken from one window, if available, and one dust sample shall be taken from the floor of each room, hallway, or stairwell selected. If there are fewer than four rooms, hallways, or stairwells within the residential dwelling or child-occupied facility, then all rooms, hallways, or stairwells shall be sampled.

(3) Following an exterior paint abatement or lead hazard control, a visual inspection shall be conducted. All horizontal surfaces in the outdoor living area closest to the abated surface shall be found to be free of visible dust and debris. In addition, a visual inspection shall be conducted to determine the presence of paint chips on the dripline or next to the foundation below any exterior surface abated. If paint chips are present, they shall be removed from the site and properly disposed of, according to all applicable federal, state, and local requirements.

(e) The rooms, hallways, or stairwells selected for sampling shall be selected according to one or more of the documented methodologies in K.A.R. 28-72-13(d)(1).

(f) The risk assessor shall compare the residual lead level, as determined by the laboratory analysis, from each dust sample with applicable clearance levels for lead in dust on floors and windows as established below in this subsection. If the residual lead levels in a dust sample exceed the clearance levels, all the components represented by the failed sample shall be recleaned and retested

until clearance levels are met. Following completion of a lead abatement activity, all dust, soil, and water samples shall comply with the following clearance levels:

(1) Dust samples:	
Media	Clearance Level
Floors	less than 40 µg/ft ²
Interior windowsills	less than 250 µg/ft ²
Window troughs and exterior walking surfaces	less than 400 µg/ft ²
(2) Soil samples:	
Media	Clearance Level
Bare soil (rest of yard)	less than 1,200 ppm or 1,200 mg/l
Bare soil (small, high-contact areas, including sand boxes and gardens)	less than 400 ppm
(3) Water	less than 15 ppb or 15 µg/L

(g) In a multifamily dwelling with similarly constructed and maintained residential dwellings, random sampling for the purposes of clearance may be conducted if the following conditions are met:

(1) The certified individuals who abate, perform lead hazard control, or clean the residential dwelling do not know which residential dwelling will be selected for the random sample.

(2) A sufficient number of residential dwellings are selected for dust sampling to provide a 95 percent level of confidence that no more than five percent or 50 of the residential dwellings, whichever is smaller, in the randomly sampled population exceed the appropriate clearance levels.

(3) The randomly selected residential dwellings are sampled and evaluated for the clearance according to the procedures found in this regulation.

(h) A postabatement or post-lead hazard control clearance report shall be prepared by a lead abatement supervisor. The postabatement or post-lead hazard control clearance report shall include the following information:

(1) The start and completion dates of the lead abatement or lead hazard control;

(2) the name and address of each licensed lead activity firm conducting the lead abatement or lead hazard control and the name of each lead abatement supervisor assigned to the lead abatement or lead hazard control project;

(3) the name, address, and signature of each risk assessor conducting clearance sampling and the date of clearance testing;

(4) the results of clearance testing and soil analysis, if applicable, and the name of each recognized laboratory that conducted the analysis;

(5) a detailed written description of the abatement or lead hazard control, including the lead abatement or lead hazard control methods used, locations of rooms or components where abatement or lead hazard control occurred, reason for selecting particular abatement or lead hazard control methods for each component, and any suggested monitoring of encapsulants or enclosures; and

(6) a written certification from the firm stating that all lead abatement or lead hazard control has taken place in accordance with all applicable local, state, and federal laws and regulations.

(i) Time frame for submission of reports. The clearance report shall be provided to the owner of the property within 20 business days after completion of the clearance inspection. (Authorized by and implementing K.S.A. 65-1,202 and 65-1,203; effective, T-28-9-13-99, Sept. 13, 1999; effective Jan. 7, 2000; amended Dec. 6, 2002; amended April 9, 2010.)

28-72-19. Work practice standards; collection and laboratory analysis of samples. All paint chip, dust, and soil samples collected pursuant to the work practice standards contained in this article shall meet the following conditions:

(a) Be collected by a lead inspector, risk assessor, or elevated blood lead level investigator using adequate quality control; and

(b) be analyzed by a recognized laboratory. (Authorized by and implementing K.S.A. 65-1,202; effective, T-28-9-13-99, Sept. 13, 1999; effective Jan. 7, 2000; amended Dec. 6, 2002; amended April 9, 2010.)

28-72-20. Work practice standards; composite dust sampling prohibited. Composite dust sampling shall not be allowed. (Authorized by and implementing K.S.A. 65-1,202; effective, T-28-9-13-99, Sept. 13, 1999; effective Jan. 7, 2000; amended April 9, 2010.)

28-72-21. Work practice standards; quarterly reports; recordkeeping. (a) All reports and plans required in this article shall be maintained for at least three years by the licensed lead activity firm or certified individual who prepared the report or plan.

(b) Each lead activity firm that employs or contracts with lead abatement professionals shall submit to KDHE a written report listing all lead abatement, lead hazard control, and lead abatement clearance projects occurring during each calendar quarter in the state of Kansas, on or before the following dates each year:

(1) January 10;

(2) April 10;

(3) July 10; and

(4) October 10.

(c) Each report shall include the following information:

(1) The name, address, and license number of the lead activity firm;

(2) the complete mailing address of the property where the lead activity work occurred, including the zip code;

(3) a description of the type of activity that occurred;

(4) the date the activity was completed;

(5) a listing of the names of all lead professionals who performed the work for the lead activity firm during the reporting period, including the complete names, certificate numbers, and certificate expiration dates; and

(6) the signature of the owner or authorized representative of the lead activity firm. (Authorized by and implementing K.S.A. 65-1,202; effective, T-28-9-13-99, Sept. 13, 1999; effective Jan. 7, 2000; amended Dec. 6, 2002; amended April 9, 2010.)

28-72-22. Enforcement. (a) A notice of noncompliance (NON) may be issued by the secretary for any violation of the act or this article. A NON shall be the recommended response for a first-time violator of this article. Compliance assistance information shall be included in the NON to ensure future compliance with KDHE regulations.

(b)(1) The NON shall require the violator to take corrective action in order to comply with this article. The corrective action shall depend upon the specific violations. The NON may require that proof of action be submitted to the secretary by a date specified in the NON.

(2) Mitigating factors in each case in which a NON has been issued shall be documented in the case file. (Authorized by K.S.A. 65-1,202; implementing K.S.A. 65-1,202 and 65-1,208; effective, T-28-9-13-99, Sept. 13, 1999; effective Jan. 7, 2000; amended April 9, 2010.)

28-72-51. Definitions. For purposes of this article, the definitions in K.A.R. 28-72-1a through K.A.R. 28-72-1x, as well as the following definitions, shall apply:

(a) “Acknowledgment statement” means a form that is signed by the owner or occupant of housing confirming that the owner or occupant received a copy of the pamphlet and renovation notice before the renovation began.

(b) “Certificate of mailing” means a receipt from the postal service that provides evidence that the renovator mailed the pamphlet and a renovation notice to each owner or occupant. The pamphlet and renovation notice shall be mailed at least seven days before the start of renovation.

(c) “Compensation” means payment or goods received for services rendered. Payment may be in the form of money, goods, services, or bartering.

(d) “Emergency renovation operations” means unplanned renovation activities performed in response to a sudden, unexpected event that, if not immediately attended to, presents a safety or public health hazard or threatens property with significant damage. Emergency renovation operations shall include renovations to repair damage from a tree that fell on a house and renovations to repair a water pipe break in an apartment complex.

(e) “EPA” is defined in K.A.R. 28-72-1e.

(f) “Housing for the elderly” means retirement or similar types of housing specifically reserved for households of one or more persons 62 years of age or older at the time the unit is first occupied.

(g) “Lead-based-paint-free housing” means target housing that has been determined by a certified inspector or certified risk assessor to be free of paint or other surface coatings that contain lead equal to or in excess of one milligram per square centimeter or 0.5 percent by weight.

(h) “Lessor” means any entity that offers target housing for lease, rent, or sublease, including the following:

- (1) Individuals;
- (2) partnerships;
- (3) corporations;
- (4) trusts;
- (5) government agencies;
- (6) housing agencies; and
- (7) nonprofit organizations.

(i) “Minor repair and maintenance” means activities including the following:

(1) Performing minor electrical work that disturbs six square feet or less of painted surface per component;

(2) drilling holes in the wall to run an electrical line; or

(3) replacing a light fixture.

(j) “Occupant” means any person or entity that enters into an agreement to lease, rent, or sublease target housing or any person that inhabits target housing, including the following:

- (1) Individuals;
- (2) partnerships;
- (3) corporations;
- (4) trusts;
- (5) government agencies;
- (6) housing agencies; and
- (7) nonprofit organizations.

(k) “Owner” means any person or entity that has legal title to housing, including the following:

- (1) Individuals;
- (2) partnerships;
- (3) corporations;
- (4) trusts;
- (5) government agencies;
- (6) housing agencies; and
- (7) nonprofit organizations.

(l) “Pamphlet” has the meaning specified in 40 CFR 745.83 as adopted in K.A.R. 28-72-2.

(m) “Record of notification” means a written statement documenting the steps taken to provide pamphlets and renovation notices to occupants and owners in residential dwellings.

(n) “Renovation” has the meaning specified in 40 CFR 745.83 as adopted in K.A.R. 28-72-2.

(o) “Renovation firm” means any individual, organization, or entity that has met the requirements for licensing by KDHE as specified in K.A.R. 28-72-10a.

(p) “Renovation notice” means a notice of renovation activities to occupants and owners of residential dwellings. The notice shall describe the scope, location, and expected duration of the renovation activity.

(q) “Renovator” means a person who has received certification from the secretary, as specified in K.A.R. 28-72-7a, and is receiving compensation for a renovation.

(r) “Self-certification of delivery” means an alternative method of documenting the delivery of the pamphlet and renovation notice to the occupant. This method may be used whenever the occupant is unavailable or unwilling to sign a confirmation of receipt of pamphlet.

(s) “Supplemental renovation notice” means any additional notification that is required when the scope, location, or duration of a project changes.

(t) “Zero-bedroom dwelling” means any residential dwelling in which the living area is not separated from the sleeping area. This term shall include dormitory housing and military barracks. This term shall not include efficiency and studio apartments. (Authorized by and implementing K.S.A. 65-1,202; effective June 23, 2000; amended April 9, 2010.)

28-72-52. Applicability. (a) Except as provided in subsection (b) of this regulation, this article and the requirements of 40 CFR 745.80 through 745.91, as adopted in K.A.R. 28-72-2, shall apply to all renovation of target housing performed for compensation.

(b) This article shall not apply to renovation activities that are limited to any of the following:

(1) Minor repair and maintenance activities, including minor electrical work and plumbing, that disrupt six square feet or less of painted surface per component;

(2) emergency renovation operations; or

(3) if the renovator has obtained a copy of the determination, any renovation in target housing in which a written determination has been made by an inspector or risk assessor who has been certified in accordance with this article that the components affected by the renovation are free of paint and other surface coatings that contain lead equal to or in excess of 1.0 milligram per square centimeter or 0.5 percent by weight. (Authorized by and implementing K.S.A. 65-1,202; effective June 23, 2000; amended April 9, 2010.)

28-72-53. Information distribution requirements. (a) Renovations in target housing. No more than 60 days before beginning renovation activities in any residential dwelling unit of target housing, the renovator shall perform the following:

(1) Provide the owner of the unit with the pamphlet and renovation notice and comply with one of the following:

(A) Obtain, from the owner, a written acknowledgment that the owner has received the pamphlet and renovation notice; or

(B) obtain a certificate of mailing at least seven days before the renovation; and

(2) if the owner does not occupy the dwelling unit, provide an adult occupant of the unit with the pamphlet and renovation notice and comply with one of the following:

(A) Obtain from the adult occupant a written acknowledgment that the occupant has received

the pamphlet and renovation notice, or certify in writing that the pamphlet and renovation notice have been delivered to the dwelling and that the renovator has been unsuccessful in obtaining a written acknowledgment from an adult occupant. This certification shall include the following:

(i) The address of the unit undergoing renovation;

(ii) the date and method of delivery of the pamphlet and renovation notice;

(iii) the names of persons delivering the pamphlet and renovation notice;

(iv) the reasons for lack of acknowledgment, including the occupant's refusal to sign and unavailability of adult occupants;

(v) the signature of the renovator; and

(vi) the date of signature; or

(B) obtain a certificate of mailing at least seven days before the renovation.

(b) Renovations in common areas. No more than 60 days before beginning renovation activities in common areas of multifamily housing, the renovator shall perform the following:

(1) Provide the owner with the pamphlet and renovation notice and comply with one of the following:

(A) Obtain from the owner a written acknowledgment that the owner has received the pamphlet and renovation notice; or

(B) obtain a certificate of mailing at least seven days before the renovation;

(2) provide a pamphlet and a renovation notice to each unit of the multifamily housing before the start of renovation. This notification shall be accomplished by distributing written notice to each affected unit. The notice from the renovator shall describe the general nature and locations of the planned renovation activities and the expected starting and ending dates; and

(3) if the scope, location, or expected starting and ending dates of planned renovation activities change after the initial notification, provide further written notification to the owners and occupants providing revised information on the ongoing or planned activities. This subsequent notification shall be provided before the renovator initiates work beyond that which was described in the original notice.

(c) Written acknowledgment. Sample language for the written acknowledgments required in paragraphs (a)(1)(A), (a)(2)(A), and (b)(1)(A) shall be provided by the KDHE upon request from the renovator. These acknowledgments shall be written

in the same language as that in the text of the contract agreement for the renovation or, in the case of non-owner-occupied target housing, in the same language as that in the lease or rental agreement or the pamphlet and shall include the following:

(1) A statement recording the owner or occupant's name and acknowledging receipt of the pamphlet and renovation notice before the start of renovation, the address of the unit undergoing renovation, the signature of the owner or occupant as applicable, and the date of the signature; and

(2) either a separate sheet or part of any written contract or service agreement for the renovation.

(d) Lead poisoning prevention poster.

(1) Each commercial establishment that offers paint or supplies intended for the removal or application of paint shall display, in a conspicuous location near the painting supplies, a poster containing a warning statement, with the following information at a minimum:

(A) The dry sanding and the dry scraping of paint in dwellings built before 1978 are dangerous.

(B) The improper removal of old paint is a significant source of lead dust and the primary cause of lead poisoning.

(C) Renovators are required by regulation to notify owners and occupants of the hazards associated with lead paint before doing work. The commercial establishment shall also include contact information so that consumers and renovators can obtain more information.

(2) Sample posters and materials that commercial establishments may use to comply with this subsection shall be available from KDHE.

(e) Compliance. A commercial establishment shall be deemed to be in compliance with this regulation if the commercial establishment displays the lead poisoning prevention poster as required in subsection (d) and makes the pamphlet available to its customers. (Authorized by and implementing K.S.A. 65-1,202; effective June 23, 2000; amended April 9, 2010.)

Article 73.—ENVIRONMENTAL USE CONTROLS PROGRAM

28-73-1. Definitions. (a) “Act” means K.S.A. 65-1,221 et seq. and amendments thereto.

(b) “Applicant” means the owner, as defined in K.S.A. 65-1,222 (c) and amendments thereto, of an eligible property who submits to the secretary an application for approval of environmental use controls for the eligible property.

(c) “Eligible property” means real property that exhibits environmental contamination exceeding department standards for unrestricted use and that is being or has been investigated or remediated, or both, as a result of participating in a department-approved program.

(d) “Environmental contamination” means “pollution” or “contamination,” as those terms are used in the following acts and statutes, as well as any regulations adopted under the authority of those statutes, unless this act or any of the following acts specifically exclude or exempt certain forms of pollution or contamination from the provisions of this act:

(1) K.S.A. 65-3452a through K.S.A. 65-3457a, and amendments thereto, concerning hazardous substances;

(2) the voluntary cleanup and property redevelopment act, K.S.A. 65-34,161 through K.S.A. 65-34,174, and amendments thereto;

(3) the Kansas drycleaner environmental response act, K.S.A. 65-34,141 through K.S.A. 65-34,155, and amendments thereto;

(4) K.S.A. 65-3430 through K.S.A. 65-3447, and amendments thereto, concerning hazardous waste;

(5) K.S.A. 65-161 through K.S.A. 65-171y, and amendments thereto, concerning the waters of the state;

(6) the Kansas storage tank act, K.S.A. 65-34,100 through K.S.A. 65-34,130, and amendments thereto; and

(7) K.S.A. 65-3401 through K.S.A. 65-3427, and amendments thereto, concerning solid waste.

(e) “Environmental use control agreement” means a legal document specifically defining the environmental use controls and other related requirements for an eligible property according to K.A.R. 28-73-3. The agreement shall be issued by the secretary and shall be signed by the applicant. The signatures of the secretary and applicant shall be notarized, and as required by K.S.A. 65-1,225 and amendments thereto, the agreement shall be recorded by the register of deeds in the county where the eligible property is located.

(f) “Financial assurance” means any method of guaranteeing or ensuring adequate financial capability that is approved by the secretary as part of a long-term care agreement. One or more of the following methods of financial assurance may be required by the secretary as a part of a long-term care agreement:

(1) An environmental insurance policy;

- (2) a financial guarantee;
- (3) a surety bond guaranteeing payment or performance or a similar performance bond;
- (4) an irrevocable letter of credit;
- (5) documentation of the applicant's qualification as self-insurer; and
- (6) other methods the secretary determines are adequate to ensure the protection of public health and safety and the environment.

Federal and state governmental entities that qualify as applicants under these regulations shall not be required to provide financial assurance.

(g) "Legal description" means identification of the land boundaries of an eligible property that is subject to an environmental use control agreement. The identification of land boundaries shall be provided by one or more of the following methods:

- (1) A definite and unequivocal identification of lines and boundaries that contains dimensions to enable the description to be plotted and retraced and that describes the legal surveys by county and by at least one of the following additional identifiers:

- (A) Government lot;
- (B) aliquot parts; or
- (C) quarter section, section, township, and range;

- (2) a metes and bounds legal survey commencing with a corner marked and established in the U.S. public land survey system; or

- (3) the identifying number or other description of the subject lot, block, or subdivision if the land is located in a recorded subdivision or recorded addition to the subdivision.

(h) "Legal survey" means a boundary survey or land survey that is performed by a land surveyor licensed in the state of Kansas and that is conducted for both of the following purposes:

- (1) Describing, documenting, and locating the boundary lines of an eligible property, a portion of an eligible property, or both; and

- (2) plotting a parcel of land that includes the eligible property.

(i) "Long-term care agreement" means a legally binding document that is entered into as provided in K.A.R. 28-73-4 by an applicant and the secretary and that describes the responsibilities and financial obligations of the applicant to fund the department's inspection and maintenance activities at a category 3 property, as described in K.S.A. 65-1,226 and amendments thereto.

(j) "Residual contamination" means environmental contamination remaining at a property that prohibits the unrestricted use of that property.

(k) "Unrestricted use" means that there are no limits or conditions placed on the use of a property, including use for residential purposes. (Authorized by K.S.A. 2007 Supp. 65-1,232; implementing K.S.A. 2007 Supp. 65-1,224 and 65-1,228; effective April 7, 2006; amended Jan. 30, 2009.)

Article 74.—RISK MANAGEMENT PROGRAM

28-74-1. Definitions. For purposes of this article, each of the following terms shall have the meaning specified in this regulation: (a) "Acceptance" means that an application for the risk management program has been approved by the secretary and a risk management plan agreement has been signed by the secretary.

(b) "Department" means Kansas department of health and environment.

(c) "Environmental contamination" has the meaning specified in K.A.R. 28-73-1. (Authorized by and implementing K.S.A. 2015 Supp. 65-34,176; effective May 13, 2016.)

28-74-2. Application. (a) Each prospective participant shall submit a completed application to the secretary on a form provided by the department. Each application shall include the following information:

- (1) A map identifying the location of the site and the area within the site to which the risk management plan applies;

- (2) a map identifying all parcels within the site to which the risk management plan applies, including ownership of each parcel;

- (3) documentation that the applicant provided written notification to all property owners and occupants within the site to which the risk management plan applies and proof that those property owners and occupants received the notification; and

- (4) a draft risk management plan for review and consideration for approval.

(b) If an application is determined to be incomplete by the secretary, written notification shall be provided to the applicant, identifying the documentation, data, or other information that is needed to complete the application. The applicant may then submit the required information or withdraw the application. The application shall be considered void if a complete response has not been received from the applicant within 60 calendar days from the date of the written request for additional

information from the department. (Authorized by and implementing K.S.A. 2015 Supp. 65-34,176; effective May 13, 2016.)

28-74-3. Risk management plan. (a) Each risk management plan shall include the following:

(1) Demonstration that all of the following conditions have been met:

(A) The extent of the environmental contamination has been determined;

(B) the source reduction has been completed, if necessary;

(C) the contaminant concentration trends are not dependent on the continued operation and maintenance of active remediation systems;

(D) the associated groundwater contaminant plume is stable or shrinking, if applicable;

(E) imminent future exposure is not likely; and

(F) all current complete exposure pathways have been addressed;

(2) any site-specific requirements for monitoring, inspection, or maintenance;

(3) a process for completing routine verification of and notices to property owners and occupants;

(4) a description of the specific terms and conditions that shall be in effect for the duration of the risk management plan; and

(5) a process for redefining the area within the site to which the risk management plan applies.

(b) Upon review of each draft risk management plan, a notification shall be issued to the applicant, either approving the draft risk management plan or noting deficiencies in the draft risk management plan and describing the modifications necessary to address the deficiencies. The applicant may then submit a revised draft risk management plan for the secretary's approval.

(c) If the secretary and the applicant are unable to agree on an appropriate risk management plan, notification that the application is void shall be provided by the department to the applicant. An invoice for the costs incurred by the department to process the application package and review the draft risk management plan shall be included in the notification.

(d) Each risk management plan shall be implemented upon the effective date of the risk management plan agreement. (Authorized by and implementing K.S.A. 2015 Supp. 65-34,176; effective May 13, 2016.)

28-74-4. Risk management plan agreement. (a) Pursuant to K.S.A. 2015 Supp. 65-

34,176 and amendments thereto, a risk management plan agreement shall be required for each site.

(b) Upon approval of a risk management plan, a risk management plan agreement shall be issued by the secretary and shall include the following information:

(1) A description of site conditions and specification of any monitoring, inspection, or maintenance requirements proposed by the participant and approved by the secretary;

(2) a description of the area within the site to which the risk management plan applies;

(3) authorization for agents of the department to have access to the site as necessary to monitor and inspect all risk management plan activities, as required by the act;

(4) identification of the one-time payment to reimburse the department for all direct and indirect costs incurred by the department in implementing and administering the risk management plan required by K.S.A. 2015 Supp. 65-34,176, and amendments thereto;

(5) a description of the specific terms and conditions that shall be applied as part of the risk management plan for the area within the site to which the risk management plan applies; and

(6) a description of the enforcement provisions authorized by K.S.A. 2015 Supp. 65-34,176, and amendments thereto.

(c) The risk management plan agreement shall be effective with the signature of the secretary.

(d) Any participant may request a transfer of the obligations specified in the risk management plan agreement to another person. The following requirements for each transfer shall be met:

(1) Each participant requesting a transfer shall provide written notice to the department indicating that both the participant and the transferee agree to the transfer.

(2) A review of site conditions and consideration of the transferee's capacity to implement the risk management plan shall be factors in the secretary's determination of approving the transfer.

(3) The automatic transfer of risk management plan agreement obligations shall be prohibited. The participant and the transferee shall comply with the risk management plan agreement until an amendment conveying the responsibilities from the participant to the transferee has been executed.

(e) A long-term care agreement as required by

K.S.A. 65-1,226, and amendments thereto, may replace a risk management plan agreement for a site where environmental use controls are established in conjunction with a risk management plan if the long-term care agreement meets the requirements of the risk management plan.

(f) If site conditions change or new information that could warrant additional action becomes available, a risk management plan agreement shall not absolve any party of environmental liability associated with the site under state and federal law. (Authorized by and implementing

K.S.A. 2015 Supp. 65-34,176; effective May 13, 2016.)

Article 75.—HEALTH INFORMATION

28-75-100. Authorization form. Pursuant to K.S.A. 65-6826 and amendments thereto, the Kansas department of health and environment's form titled "authorization to disclose protected health information," dated August 20, 2012, is hereby adopted by reference. (Authorized by and implementing K.S.A. 2011 Supp. 65-6826; effective Jan. 25, 2013.)

Agency 30

Kansas Department for Children and Families

Editor's Note:

Pursuant to Executive Reorganization Order (ERO) No. 41, the Department of Social and Rehabilitation Services was renamed the Kansas Department for Children and Families. See L. 2012, Ch. 185.

Articles

- 30-4. PUBLIC ASSISTANCE PROGRAM.
- 30-5. PROVIDER PARTICIPATION, SCOPE OF SERVICES, AND REIMBURSEMENTS FOR THE MEDICAID (MEDICAL ASSISTANCE) PROGRAM.
- 30-6. MEDICAL ASSISTANCE PROGRAM — CLIENTS' ELIGIBILITY FOR PARTICIPATION.
- 30-10. ADULT CARE HOME PROGRAM.
- 30-14. CHILDREN'S HEALTH INSURANCE PROGRAM.

- 30-45. YOUTH SERVICES.
- 30-46. CHILD ABUSE AND NEGLECT.
- 30-47. FOSTER CARE LICENSING.
- 30-63. DEVELOPMENTAL DISABILITIES — LICENSING PROVIDERS OF COMMUNITY SERVICES.

Article 4.—PUBLIC ASSISTANCE PROGRAM

30-4-34. Public assistance program. The public assistance program shall include the following types of assistance:

- (a) Temporary assistance for needy families (TANF);
- (b) foster care assistance, which shall include the federal financial participation-foster care (FFP-FC) and non-federal financial participation foster care (non-FFP-FC) programs;
- (c) low income energy assistance program (LIEAP);
- (d) food assistance. The federal term for this program is supplemental nutrition assistance program (SNAP); and
- (e) child care assistance. (Authorized by and implementing K.S.A. 2018 Supp. 39-708c; effective May 1, 1981; amended, T-84-8, April 1, 1983; amended May 1, 1983; amended, T-84-9, May 1, 1983; amended May 1, 1984; amended, T-88-14, July 1, 1987; amended May 1, 1988; amended, T-30-6-10-91, July 1, 1991; amended Dec. 30, 1994; amended April 1, 1995; amended Aug. 1, 1995; amended March 1, 1997; amended May 3, 2019.)

30-4-35. Application process. (a) Who may file. Each individual seeking public assistance, or

another person authorized to act on the applicant's behalf, shall submit an application for public assistance to the department.

(b) Applications. The applicant or person authorized to act on behalf of the applicant shall sign the application. If the applicant or the applicant's representative signs by mark, the names and addresses of two witnesses shall be required. A telephonic signature, by the applicant or the applicant's authorized representative, shall be an acceptable form of attestation by the applicant when applying for public assistance and shall not be denied legal effect based solely on its format. When a telephonic signature is accepted, measures shall be taken by the department to verify the identity of each applicant. These measures shall be designed to safeguard applicants against any form of identity theft or invasion of privacy. Memoranda of understanding shall be required with any non-profit organization that wants to assist applicants with applications for public assistance and accept telephonic signatures for those applications on behalf of the department.

(c) Interview. An interview shall be required at the time of application for food assistance and TANF assistance. An interview may be required at the time of initial application for child care assistance if information provided by the applicant is incomplete, unclear, or contradictory. (Authorized

by and implementing K.S.A. 2018 Supp. 39-708c; effective May 1, 1981; amended May 1, 1984; amended May 1, 1988; amended July 1, 1989; amended July 1, 1997; amended, May 3, 2019.)

30-4-36. Redetermination of eligibility.

(a) Redetermination. Redetermination shall give each recipient an opportunity to bring to the attention of the department the recipient's current situation and to give the department an opportunity to review the eligibility factors in order to determine the recipient's continuing eligibility for assistance.

(b) Interview. An interview shall be required at the time of each redetermination for food assistance and cash assistance. An interview may be required at the time of each redetermination for child care assistance if any information provided by the applicant is incomplete, unclear, or contradictory.

(c) Frequency of redetermination. A recipient's eligibility for assistance shall be redetermined as specified in this subsection. Each TANF case shall be reviewed at least once each 12 months. Each TANF caretaker relative case shall be reviewed at least once each 24 months. (Authorized by and implementing K.S.A. 2018 Supp. 39-708c; effective May 1, 1981; amended May 1, 1983; amended May 1, 1986; amended May 1, 1988; amended May 3, 2019.)

30-4-40. Department responsibility to applicants and recipients. (a) On the request of any applicant or recipient, the applicant's or recipient's rights and responsibilities shall be explained by the department.

(b) Each applicant and recipient shall be informed of the following:

(1) Periodic redeterminations. Periodic redeterminations of eligibility shall be made if the application is approved.

(2) Fraud. Each fraudulent application for or receipt of assistance shall be investigated and referred for legal action.

(3) Release of confidential information. Unless otherwise prohibited by other local, state, or federal law, confidential information shall be released by the department if the release is directly related to any of these duties:

(A) The administration of the public assistance program;

(B) an investigation or criminal or civil proceeding being conducted in connection with the administration of the program;

(C) the reporting of a fugitive felon's address to local, state, and federal law enforcement officials. This report shall be made only if the law enforcement official furnishes the recipient's name and social security number and satisfactorily demonstrates that the individual is a fugitive felon, that the location or apprehension of the fugitive felon is within the law enforcement officer's official duties, and that the request is made in the proper exercise of those duties;

(D) the reporting of an applicant's or recipient's intention to commit a crime to the appropriate law enforcement officials; or

(E) release of confidential information concerning applicants and recipients as authorized by state or federal law. (Authorized by and implementing K.S.A. 2018 Supp. 39-708c; effective May 1, 1981; amended, T-85-26, Oct. 15, 1984; amended May 1, 1985; amended May 1, 1987; amended March 1, 1997; amended Oct. 1, 1997; amended May 3, 2019.)

30-4-41. Assistance planning for TANF. (a) For the purposes of K.A.R. 30-4-50 through 30-4-98, the following terms and definitions shall apply:

(1) "Family group" means the applicant or recipient and all individuals living together in which there is a relationship of legal responsibility or a caretaker relationship. This term shall include a cohabiting boyfriend or girlfriend living with the person legally responsible for the child.

(2) "Mandatory filing unit" means all persons in the family group whose needs or resources are required to be considered in determining eligibility and amount of payment as outlined in K.A.R. 30-4-70(e) for TANF purposes. If the department is unable to determine who is required to be a member of the mandatory filing unit as a result of an applicant's or recipient's failure to cooperate in providing necessary information or in complying with an eligibility requirement that is within the applicant's or recipient's control, those persons who would otherwise be required to be in the mandatory filing unit if the applicant or recipient had cooperated shall be ineligible for assistance.

(3) "Caretaker," for TANF assistance purposes, means any of the following persons:

(A) The parent or parents, including the parent or parents of an unborn child; or

(B) the person who is assigned the primary responsibility for the care and control of the child as one of the following representatives:

(i) A guardian, conservator, or relative, as defined in K.A.R. 30-4-70(b); or

(ii) a legal custodian, when based on an approved social service plan.

Caretaker status shall be extended to the spouse of a non-parental caretaker and a cohabiting boyfriend or girlfriend living with the person legally responsible for the child.

(4) "Eligible caretaker" means a caretaker who is considered in the assistance plan with the child.

(5) "Legally responsible relative" means the person who has the legal responsibility to provide support for the person in the assistance plan.

(b) The assistance plan shall consist of those members of the mandatory filing unit and any other persons in the family group for whom assistance is requested and eligibility is determined. An individual excluded from the assistance plan shall not be eligible in a separate assistance plan. (Authorized by K.S.A. 2018 Supp. 39-708c; implementing K.S.A. 2018 Supp. 39-708c and K.S.A. 2018 Supp. 39-709; effective May 1, 1981; amended, E-82-19, Oct. 21, 1981; amended May 1, 1982; amended May 1, 1983; amended May 1, 1984; amended, T-85-26, Oct. 15, 1984; amended May 1, 1985; amended May 1, 1986; amended, T-88-14, July 1, 1987; amended, T-88-59, Dec. 16, 1987; amended May 1, 1988; amended July 1, 1989; amended July 1, 1991; amended Jan. 2, 1992; amended March 1, 1997; amended, May 3, 2019.)

30-4-50. Assistance eligibility. (a) General requirements. This regulation shall apply to the TANF and foster care programs except as noted in subsection (b) for TANF. K.A.R. 30-4-51 through 30-4-55 shall apply to all public assistance programs specified in K.A.R. 30-4-34.

(b) Time-limited assistance. A family group shall not be eligible for TANF if at least one of the following conditions is met:

(1) The family group contains at least one adult member who has received TANF, including similar assistance received in any other state, for 24 calendar months beginning on and after October 1, 1996, unless a hardship extension has been granted or certain months of TANF assistance were determined to be an exception and were not counted towards the time limit, allowing receipt of TANF until the 36-month limit is reached. A hardship extension shall be granted under any of the following conditions:

(A) The TANF recipient is a caretaker of a disabled family member living in the household. The nature and duration of the disability shall be verified by a medical professional.

(B) The TANF adult has a disability that precludes employment on a long-term basis or requires substantial rehabilitation. Verification shall be obtained from a medical professional.

(C) The TANF adult needs an extension of the time limit to overcome the effects of domestic violence or sexual assault.

(D) The family is involved with DCF prevention and protection services and has an open social service plan.

(E) A hardship is presented by the family, and a determination is made by a DCF executive review team that an additional 12 months of TANF would benefit the family.

(2) The family group contains at least one adult member who has received a Kansas diversion payment and has received TANF, including assistance similar to TANF in another state for 18 calendar months beginning on and after October 1, 1996, unless a hardship extension has been granted, allowing receipt of TANF until the 30-month limit is reached.

(3) The family group has received TANF for any 24 calendar months beginning on and after October 1, 1996, during which time one or more adult family members residing in the family group were ineligible due to the provisions of K.A.R. 30-4-54(b), K.A.R. 30-4-140(d), or subsections (c) and (d) of this regulation.

(c) Denial of assistance for fugitive felons and probation and parole violators. Assistance shall not be provided to a fugitive from justice by reason of a felony conviction or charge, or to a person who is violating a condition of probation or parole imposed under federal or state law.

(d) Requirements for special projects. Certain eligibility requirements may be waived by the secretary, and additional eligibility requirements for all, or designated areas, of the state may be adopted by the secretary for the purpose of utilizing special project funds or grants or for the purpose of conducting special demonstration or research projects.

(e) TANF suspicion-based drug testing. Suspicion-based drug testing shall be mandatory for applicants and recipients if there appears to be unlawful use of a controlled substance or controlled substance analog. The definition and list of controlled substances shall be as specified in K.S.A. 39-709(l)(9)(B) and (C), and amendments thereto.

(1) TANF assistance shall not be provided to each individual who meets any of the following conditions:

(A) Tests positive for illegal drug use;
 (B) fails to complete drug testing; or
 (C) refuses to undergo drug testing.
 (2) The periods of ineligibility for each individual who tests positive for illegal drug use shall be as follows:

(A) For the first positive drug test, the individual shall be ineligible until the individual completes substance abuse treatment and the skills training course.

(B) For the second positive drug test, the individual shall be ineligible for one year or shall complete a substance abuse treatment program and the skills training course, whichever is later.

(C) For the third positive drug test, the individual shall be ineligible for that person's lifetime.

(3) The periods of ineligibility for each individual who fails or refuses to complete drug testing shall be as follows:

(A) For the first failure or refusal to complete drug testing, the individual shall be ineligible for six months from the date of failure or refusal. To regain eligibility for TANF, the individual shall undergo drug testing and, if necessary, complete substance abuse treatment and skills training.

(B) For the second failure or refusal to complete drug testing, the individual shall be ineligible for 12 months from the date of failure or refusal. To regain eligibility for TANF, the individual shall undergo drug testing and, if necessary, complete substance abuse treatment and the skills training course.

(C) For any subsequent failure or refusal, the individual shall be ineligible for that person's lifetime.

(4) For each positive test, failure, or refusal to test, a protective payee shall be named for the family group. Each protective payee shall be subject to suspicion-based drug testing. (Authorized by K.S.A. 2018 Supp. 39-708c; implementing K.S.A. 2018 Supp. 39-708c, K.S.A. 2018 Supp. 39-709, K.S.A. 2018 Supp. 39-709e, and K.S.A. 2018 Supp. 39-719b; effective May 1, 1981; amended May 1, 1983; amended, T-30-7-29-88, July 29, 1988; amended Sept. 26, 1988; amended Oct. 1, 1989; amended, T-30-10-1-96, Oct. 1, 1996; amended Jan. 17, 1997; amended March 1, 1997; amended July 1, 1998; amended Oct. 1, 2000; amended July 1, 2004; amended, May 3, 2019.)

30-4-51. Eligibility process. The determination of eligibility shall be based upon information provided by the applicant, the recipient, or collateral sources. If any information provided by the applicant or recipient is unclear, incomplete,

conflicting, or questionable, a further review, including collateral sources, shall be required. A collateral source shall mean an individual or entity that has knowledge of, but is not part of, a household and provides written or verbal confirmation of the household's circumstances. Applicants and recipients shall be eligible for assistance only if all applicable eligibility requirements have been met. (Authorized by K.S.A. 2018 Supp. 39-708c; implementing K.S.A. 2018 Supp. 39-708c, 39-709, and 39-719b; effective May 1, 1981; amended May 3, 2019.)

30-4-54. Citizenship, alienage, and residence. (a) Definition. For the purposes of this regulation, "resident" shall mean any person who is living in Kansas voluntarily, with no intention of presently moving from Kansas, and who is not living in Kansas for a temporary purpose.

(1) Each child living in Kansas shall be considered a resident.

(2) For TANF, each person who has entered Kansas with a job commitment or who is seeking employment in Kansas shall be considered a resident.

(b) Citizenship and alienage. Each applicant or recipient shall be a citizen of the United States or shall be an alien who meets the conditions in either paragraph (1) or paragraph (2) of this subsection.

(1) The individual entered the United States before August 22, 1996 and meets one of these conditions:

(A) Is a refugee, including persons who are Cuban or Haitian entrants or admitted as Amerasian immigrants;

(B) is granted asylum;

(C) has deportation withheld;

(D) is a lawful permanent resident;

(E) is an honorably discharged veteran or currently on active duty in the armed forces or is the spouse or unmarried dependent child of such an alien;

(F) is paroled into the United States for at least one year;

(G) is granted conditional entry; or

(H) is a person who does not meet any of the conditions listed in paragraphs (b)(1)(A)-(G) but who has been battered or subjected to extreme cruelty by a U.S. citizen or lawful permanent resident spouse or parent and entered the U.S. on or before August 22, 1996. The person shall have a pending or approved violence against women

act (VAWA) case or a family-based petition before United States citizenship and immigration services (USCIS). This provision shall include the person's children.

(2) The individual entered the United States on or after August 22, 1996 and meets one of these conditions:

(A) Is a refugee, including persons who are Cuban or Haitian entrants or admitted as Amerasian immigrants;

(B) is granted asylum;

(C) has deportation withheld;

(D) is an honorably discharged veteran or currently on active duty in the armed forces or is the spouse or unmarried dependent child of such an alien;

(E) is a lawful permanent resident who has resided in the United States at least five years as required by federal law;

(F) is paroled into the United States for at least one year and has resided in the United States at least five years;

(G) is granted conditional entry and has resided in the United States for at least five years; or

(H) is a person who does not meet any of the conditions listed in paragraphs (b)(2)(A)-(G) but who has been battered or subjected to extreme cruelty by a U.S. citizen or lawful permanent resident spouse or parent and entered the U.S. on or before August 22, 1996. The person shall have a pending or approved violence against women act (VAWA) case or a family-based petition before USCIS. This provision shall include the person's children.

(c) Residence. Each applicant or recipient shall be a Kansas resident. Temporary absence from Kansas, with subsequent returns to Kansas or intent to return when the purposes of the absence have been accomplished, shall not be considered to interrupt continuity of residence. Residence shall be considered to be maintained until abandoned or established in another state. (Authorized by K.S.A. 2018 Supp. 39-708c; implementing K.S.A. 2018 Supp. 39-708c, K.S.A. 2018 Supp. 39-709; effective May 1, 1981; amended, T-88-10, May 1, 1987; amended May 1, 1988; amended Oct. 1, 1989; amended, T-30-2-20-97, March 1, 1997; amended May 16, 1997; amended June 26, 1998; amended, May 3, 2019.)

30-4-64. Work program requirements for TANF. Each applicant or recipient of TANF, unless exempted, shall be required to participate in one or more components of the work program.

Any exempt applicant or recipient may volunteer for participation in the program. The geographic areas in the state and the public assistance programs in which work program requirements are to be enforced shall be designated by the secretary. The administration of the work program shall be within the limits of appropriations.

(a) Exemptions. The following persons shall be exempt from the work requirements:

(1) Any person who is aged 17 or younger or who is aged 18 and working toward attainment of a high school diploma or its equivalent. This exemption shall not be claimed by a female who is pregnant or a parent of a child in the home and who has not yet attained a high school diploma or its equivalent;

(2) any person who is needed in the household because another member of the household requires the person's presence due to illness or incapacity and no other appropriate member of the household is available to provide the needed care; and

(3) any parent or other caretaker who is personally providing care for a child under the age of three months. Only one person in a case may be exempt on the basis of providing care for a child under the age of three months. This exemption shall not be claimed under any of the following circumstances:

(A) A custodial parent or pregnant woman under the age of 20 does not possess a high school diploma or its equivalent;

(B) both parents, a stepparent, a cohabiting partner, or a caretaker of the child is present and is not exempt, unsuitable, or incapable of providing child care; or

(C) a parent, a stepparent, a cohabitating partner, or a caretaker is determined to have a substance abuse disorder.

(b) Participation requirements. Each applicant or recipient shall participate in one or more components of a department-approved, work-related program directed toward the recipient's plan of self-reliance.

(c) Support costs. Payment of support costs shall be provided to participants. Support costs may include the following:

(1) Transportation expenses for each person participating in a work program activity in accordance with a department-approved plan;

(2) child care expenses, as necessary for the person to participate in a work program activity in accordance with a department-approved plan;

(3) education and training costs for each participant based on a department-approved plan, which may include tuition, books, and fees; and

(4) support service expenses to obtain goods and services needed to participate in an approved component.

(d) Transitional expenses. Payment for transitional expenses may be provided to each qualifying participant who loses eligibility for TANF if not otherwise disqualified. Transitional expenses may include any reasonable and necessary expenses for job retention.

(e) Penalty.

(1) A person who is required to participate in the work program shall be ineligible for assistance if one of the following conditions is met in any assistance program administered by the secretary in which work program participation is required:

(A) The person fails without good cause to cooperate in the work assessment process or participate in the program.

(B) The person refuses without good cause a bona fide referral for or offer of employment.

(C) The person terminates employment without good cause.

(D) The person is terminated from employment by voluntarily making oneself unacceptable without good cause.

(E) The person reduces earnings without good cause.

(2) The period of ineligibility shall be as follows:

(A) For the first penalty, three months and full cooperation with work program activities;

(B) for the second penalty, six months and full cooperation with work program activities;

(C) for the third penalty, one year and full cooperation with work program activities; and

(D) for the fourth and each subsequent penalty, 10 years.

If the person is an adult, the mandatory filing unit of which the person is a member shall also be ineligible.

(f) Good cause. Each individual who presents verification that the individual meets one or more of the following conditions shall be determined to have good cause for failing to participate in the work program:

(1) The individual is exempt from participation in the program.

(2) The individual was incapable of performing the activity as determined by the individual's case manager.

(3) Performance of the activity was so danger-

ous or hazardous according to occupational safety and health administration (OSHA) standards as to make a refusal to perform the activity or termination of the activity a reasonable one.

(4) Child care or day care for an incapacitated individual living in the same home is necessary for an individual to participate or continue to participate in the program, and the care is not available.

(5) The total daily commuting time to and from home to the activity to which the individual is assigned exceeds two hours, not including the transporting of a child to and from a child care facility. If a longer commuting distance is generally accepted in the community, the roundtrip commuting time shall not exceed the generally accepted community standards.

(6) The failure occurred in the month in which the individual's pregnancy ended or the two following months.

(7) A single custodial parent has demonstrated the inability to obtain needed child care for a child under the age of six, because of one or more of the following reasons:

(A) Unavailability of appropriate child care within a reasonable distance from the individual's home or work site;

(B) unavailability or unsuitability of informal child care. "Informal child care" shall mean care that is legally exempt from regulation; or

(C) unavailability of appropriate and affordable formal child care arrangements.

(8) The individual was a victim of domestic violence, and compliance with program requirements would increase the risk of harm for the individual or any children in the individual's care.

(9) There was no bona fide offer of employment or training.

(10) The payment offered for employment was less than the federal minimum wage. (Authorized by and implementing K.S.A. 2018 Supp. 39-708c and K.S.A. 2018 Supp. 39-709; effective Oct. 1, 1989; amended Jan. 2, 1990; amended, T-30-3-29-90, April 1, 1990; revoked, T-30-7-2-90, July 2, 1990; amended, T-30-7-2-90, July 2, 1990; revoked, T-30-8-14-90, Oct. 1, 1990; amended Oct. 1, 1990; amended Jan. 7, 1991; amended, T-30-6-10-91, July 1, 1991; amended, T-30-8-9-91, Aug. 30, 1991; amended Oct. 28, 1991; amended Oct. 1, 1993; amended Aug. 1, 1995; amended July 1, 1996; amended March 1, 1997; amended July 1, 1998; amended April 1, 1999; amended Dec. 1, 1999; amended May 1, 2001; amended Jan. 1, 2007; amended May 3, 2019.)

30-4-90. (Authorized by K.S.A. 39-708c; implementing K.S.A. 39-708c and K.S.A. 2008 Supp. 39-709; effective May 1, 1981; amended, E-82-11, June 17, 1981; amended May 1, 1982; amended, T-84-8, March 29, 1983; amended May 1, 1983; amended, T-84-9, March 29, 1983; amended May 1, 1984; amended, T-85-34, Dec. 19, 1984; amended May 1, 1985; amended May 1, 1986; amended May 1, 1987; amended, T-88-14, July 1, 1987; amended, T-88-59, Dec. 16, 1987; amended May 1, 1988; amended Sept. 26, 1988; amended July 1, 1989; amended Oct. 1, 1989; amended, T-30-6-10-91, July 1, 1991; amended Oct. 28, 1991; amended, T-30-6-10-92, July 1, 1992; amended Oct. 1, 1992; amended Dec. 31, 1992; amended, T-30-2-15-93, Feb. 15, 1993; amended June 1, 1993; amended July 1, 1994; amended Jan. 1, 1997; amended March 1, 1997; amended Oct. 1, 1997; amended July 1, 2002; amended, T-30-5-27-04, July 1, 2004; amended Aug. 6, 2004; amended July 1, 2006; amended July 1, 2009; revoked May 3, 2019.)

30-4-98. Funeral assistance. Assistance may be provided for funeral expenses upon the death of a recipient at the discretion of the secretary.

(a) Funeral expenses. Funeral expenses may include the cost of any of the following, based on available resources and the requirements in this regulation:

- (1) The preparation of the body;
- (2) a minimal casket or urn;
- (3) the transportation of the body within Kansas; or
- (4) a cremation.

(b) Application. Each request for funeral assistance shall be made within six months after either the date of death or the date on which the body is released by a county coroner, whichever is later.

(c) Treatment of resources.

(1) If a decedent, at the time of death, was not living with a child of the decedent who was under the age of 21, the spouse of the decedent, or an adult disabled child of the decedent, the total estate of the decedent shall be considered available. This provision shall not be applicable in situations in which there were separate living arrangements because of the need for institutional care. The estate shall not be allowed any exemptions.

(2) Eligibility for assistance shall be based on the assets owned by the family group at the time of the decedent's death, under either of the following circumstances:

(A) At the time of death, the decedent was living with a child of the decedent who was under the age of 21, the spouse of the decedent, or an adult disabled child of the decedent, or the decedent was a child under the age of 21 living with the parent of the decedent.

(B) There were living arrangements separate from one of the persons specified in paragraph (c) (2)(A) because of the need for institutional care.

(3) The total amount of proceeds on any life insurance policy on the decedent shall be considered available if the policy was owned by the decedent, the spouse of the decedent, or, if the decedent was a child under the age of 21, the parent of the decedent.

(4) Death benefits from SSA, VA, railroad retirement, KPERS, and any other burial funds shall be considered available.

(d) Resource limit. If the value of the resources considered available in accordance with subsection (c) does not exceed \$2,000, funeral assistance may be provided.

If the resource value exceeds \$2,000, the decedent shall be ineligible for funeral assistance. (Authorized by and implementing K.S.A. 2018 Supp. 39-708c and K.S.A. 39-713d; effective Aug. 11, 2006; amended Jan. 1, 2008; amended May 3, 2019.)

30-4-100. Payment standards for the TANF and foster care programs.

(a) The basic and shelter standards in K.A.R. 30-4-101 and 30-4-102, and the designated special requirements in K.A.R. 30-4-120, shall be used in determining the total benefit amount for the TANF and foster care programs. An applicant or recipient shall not be eligible to have a standard included in the computation of the applicant's or recipient's benefit amount if the department or another state's assistance program has issued the applicant or recipient a payment for the same maintenance items in the same calendar month.

(b) The benefit amount for the TANF and foster care program shall be based upon the total number of persons in each assistance plan.

(1) The basic standard and 100% of the shelter standard shall be used under each of the following circumstances:

(A) All persons in the home are in the same assistance plan.

(B) The only person in the home not in the plan is an SSI recipient to whom the one-third SSI reduction is applied because the person lives in the household and receives support and maintenance in kind.

(C) There is a bona fide commercial landlord-tenant relationship between the family group and the other persons in the home.

(D) All persons in the plan are in a commercial board and room or commercial room-only living arrangement or are residing in nonmedical living arrangements that are publicly funded or are funded by not-for-profit agencies or organizations, including temporary homeless shelters, alcohol or drug abuse treatment facilities, and shelters for battered persons.

(2) The basic standard, plus a percentage reduction of the shelter standard, shall be used when there are one or more persons residing in the home who are not included in the assistance plan, except as specified in paragraphs (b)(1) (B), (C), and (D). The percentage reduction shall be as follows:

- (A) 60% reduction for one person in the plan;
 - (B) 50% reduction for two persons in the plan;
 - (C) 40% reduction for three persons in the plan;
 - (D) 35% reduction for four persons in the plan;
 - (E) 30% reduction for five persons in the plan;
- and

(F) 20% reduction for six or more persons in the plan. (Authorized by K.S.A. 2018 Supp. 39-708c; implementing K.S.A. 2018 Supp. 39-708c, K.S.A. 2018 Supp. 39-709; effective May 1, 1981; amended, T-84-8, April 1, 1983; amended May 1, 1983; amended, T-84-9, May 1, 1983; amended May 1, 1984; amended, T-86-19, July 1, 1985; amended May 1, 1986; amended, T-88-14, July 1, 1987; amended, T-88-59, Dec. 16, 1987; amended May 1, 1988; amended July 1, 1989; amended March 1, 1997; amended May 3, 2019.)

30-4-107. Property exemption. Any assistance family may own otherwise nonexempt real or personal property with an aggregate resource value that shall not exceed the amounts prescribed by the secretary of the United States department of health and human services pursuant to 7 U.S.C. 2014(c). Ownership of property with a resource value in excess of this amount shall render the assistance family group ineligible for assistance. However, if there is ineligibility due to excess real property, assistance shall be provided for a period of up to nine months if the applicant or recipient is making a bona fide and documented effort to dispose of the property. (Authorized by K.S.A. 2018 Supp. 39-708c; implementing K.S.A. 2018 Supp. 39-708c, 39-709; effective May 1, 1981; amended May 1, 1983; amended, T-84-25, Sept. 19, 1983;

amended May 1, 1984; amended, T-85-33, Dec. 19, 1984; amended May 1, 1985; amended Oct. 1, 1997; amended May 3, 2019.)

30-4-109. Personal property. (a) Definitions for TANF and food assistance programs.

(1) "Cash assets" shall mean money, investments, and cash surrender or loan values of life insurance policies, trust funds, and similar items on which a determinate amount of money can be realized.

(2) "Personal property" shall mean personal effects, household equipment and furnishings, home produce, livestock, equipment, vehicles, inventory, contracts from the sale of property, and similar items on which a determinate amount of money can be realized. This term shall not include real property.

(b) Treatment of personal property. Personal property, unless exempted, shall be considered a resource.

(c) Exempted personal property. The resource value of the following classifications of personal property shall be exempt:

(1) Privately owned personal effects, including clothing and jewelry worn by or carried on an individual;

(2) household equipment and furnishings in use or only temporarily not in use;

(3) tools in use and necessary for the maintenance of house or garden;

(4) income-producing property, other than cash assets, that is essential for employment or self-employment or that is producing income consistent with its fair market value. Income-producing property may include tools, equipment, machinery and livestock;

(5) the stock and inventory of any self-employed person that are reasonable and necessary in the production of goods or services;

(6) items for home consumption, which shall consist of the following:

(A) Produce from a small garden consumed from day to day and any excess that can be canned or stored; and

(B) a small flock of fowl or livestock that is used to meet the food requirements of the family;

(7) one motor vehicle, regardless of the value of the vehicle. Each additional motor vehicle used by the applicant, the applicant's spouse, or the applicant's cohabiting partner used for the primary purpose of earning income shall also be exempt. Nonexempt vehicles shall be considered in the resource limit. Nonexempt vehicles shall include

any equity in any boat, personal watercraft, recreational vehicle, recreational off-highway vehicle or all-terrain vehicle, as defined by K.S.A. 8-126 and amendments thereto;

(8) cash assets that are traceable to income exempted as income and as a cash asset;

(9) proceeds from the sale of a home if the proceeds are conserved for the purchase of a new home and the funds so conserved are expended or committed to be expended in the month received or in the following month;

(10) burial plots and funeral agreements that meet conditions established by the secretary of the United States department of health and human services and approved by the secretary of the department for children and families;

(11) any contract for the sale of property, if the proceeds from the contract are considered as income;

(12) escrow accounts established for families participating in the family self-sufficiency program through the department of housing and urban development. Interest earned on the accounts shall also be exempted as income;

(13) the cash value of any life insurance policy; and

(14) learning quest and other 529 educational savings plans. (Authorized by K.S.A. 2018 Supp. 39-708c; implementing K.S.A. 2018 Supp. 39-708c, 39-709; effective May 1, 1981; amended, E-82-19, Oct. 21, 1981; amended May 1, 1982; amended, T-83-17, July 1, 1982; amended May 1, 1983; amended May 1, 1984; amended, T-85-26, Oct. 15, 1984; amended May 1, 1985; amended May 1, 1986; amended May 1, 1988; amended Oct. 1, 1992; amended March 1, 1997; amended Oct. 1, 1997; amended May 3, 2019.)

30-4-111. Income. (a) "Income" shall mean the amount of earned and unearned income that is subtracted from the benefit standard in determining the benefit amount for TANF.

(b) Earned income for persons included in the assistance plan shall equal gross earned income or the adjusted gross earned income from self-employment, less the following items:

(1) Ninety dollars for each employed person;

(2) the earned income disregard of 60 percent of the remaining income, for the following persons in a TANF or foster care assistance plan:

(A) Each applicant who had received assistance in one of the four preceding months; and

(B) each recipient; and

(3) reasonable expenses for child care or expenses for the care of an incapacitated person. The dependent shall be included in the family group before the deduction is allowed.

(c) For self-employed persons, adjusted gross earned income shall equal gross earned income less costs of the production of the income. Income-producing costs shall include only those expenses directly related to the actual production of income. A standard deduction of 25 percent of gross earned income shall be allowed for these costs. If the person wishes to claim actual costs incurred, the following shall be used by the department in calculating the cost of the production of the income:

(1) The public assistance program shall not be used to pay debts, set up an individual in business, subsidize a nonprofit activity, or treat income on the basis of internal revenue service (IRS) policies.

(2) If losses are suffered from self-employment, the losses shall not be deducted from other income, nor may a net loss of a business be considered an income-producing cost.

(3) If a business is being conducted from a location other than the applicant's or recipient's home, the expenses for business space and utilities shall be considered income-producing costs.

(4) If a business is being conducted from a person's own home, shelter and utility costs shall not be considered income-producing costs unless they are clearly distinguishable from the operation of the home.

(5) If payments increase the equity in equipment, vehicles, or other property, the payments shall not be considered income-producing costs.

(6) If equipment, vehicles, or other property is being purchased on an installment plan, the actual interest paid may be considered an income-producing cost.

(7) Depreciation on equipment, vehicles, or other property shall not be considered an income-producing cost.

(8) Insurance payments on equipment, vehicles, or other property shall be allowed if the payments directly relate to the business.

(9) Expenses for items that are reasonable and required for the business shall be considered income-producing costs.

(10) Wages and other mandated costs related to wages paid by the applicant or recipient shall be considered income-producing costs.

(d) The income for a person in the home whose income is required to be considered and who is

not included in the assistance plan shall equal all nonexempt, unearned income and gross earnings, or adjusted gross earnings of the self-employed, without the application of any income disregards, unless otherwise prohibited by federal law or regulation or state or local law or regulation.

(e) The income of an alien's sponsor and the sponsor's spouse shall be considered in determining eligibility and the amount of the assistance payment for the alien.

(f) All net unearned income of persons included in the assistance plan shall be income unless exempted. Net unearned income shall equal gross unearned income less the costs of the production of the income. Income-producing costs shall include only those expenses directly related to the actual production of income. The requirements in subsection (c) regarding the calculation of income-producing costs shall apply.

(g) Each household that is ineligible for TANF due to excess income, which shall include earnings, shall be eligible for the work incentive payment for five months from the date of ineligibility for TANF.

(h) Any household that has never received TANF or a diversion payment may be eligible for the diversion payment if all of the following conditions are met:

(1) No adults in the family are receiving SSI.

(2) At least one adult in the family has employment or a valid offer of employment.

(3) The family's TANF benefit for a one-year period is not less than the diversion payment divided by 12 months.

(4) The family has a documented crisis or emergency that jeopardizes existing employment, including established self-employment, or prevents the family from accepting a valid offer of employment. (Authorized by K.S.A. 2018 Supp. 39-708c; implementing K.S.A. 2018 Supp. 39-708c and 39-709; effective May 1, 1981; amended, E-82-19, Oct. 21, 1981; amended May 1, 1982; amended, T-83-17, July 1, 1982; amended May 1, 1983; amended, T-85-26, Oct. 15, 1984; amended May 1, 1985; amended May 1, 1986; amended May 1, 1987; amended, T-88-10, May 1, 1987; amended, T-88-59, Dec. 16, 1987; amended May 1, 1988; amended Oct. 1, 1989; amended Jan. 2, 1990; amended May 1, 1991; amended, T-30-11-16-93, Dec. 1, 1993; amended Jan. 3, 1994; amended March 1, 1997; amended July 1, 1997; amended July 1, 1998; amended Jan. 1, 1999; amended May 3, 2019.)

30-4-113. Exempt income. The following types of income shall be exempt in the determination of the budgetary deficit:

(a) For TANF, earned income of a child who is under the age of 19 years if the child is a student in elementary or secondary school or is working towards attainment of a GED;

(b) for food assistance, earned income of a child who is under the age of 18 years if the child is a student in elementary or secondary school or is working towards attainment of a GED;

(c) lump sum income;

(d) irregular, occasional, or unpredictable monetary gifts that do not exceed \$50.00 per month per family group;

(e) income-in-kind;

(f) shelter cost participation payments. In shared living arrangements in which two families contribute toward the shelter obligations, any cash paid toward the shared shelter obligation by one family to the second family in the shared arrangement shall not be considered as income to the second family. This exemption shall not be applicable in a bona fide, commercial landlord-tenant arrangement;

(g) tax refunds and rebates, except for earned income tax credits in accordance with K.A.R. 30-4-112;

(h) incentive payments received by renal dialysis patients;

(i) home energy assistance furnished on the basis of need by a federally regulated or state-regulated entity whose revenues are primarily derived on a rate-of-return basis, by a private, non-profit organization, by a supplier of home heating oil or gas, or by a municipal utility company that provides home energy;

(j) income received from the job training partnership act of 1982. However, earnings received by individuals who are participating in on-the-job training programs shall be countable unless the individual is a child;

(k) housing assistance from federal housing programs;

(l) assistance payments in the month received;

(m) support payments received following the effective date of the assignment of support rights to the department. However, a support refund disbursed by the department to the recipient or reported current support that, if prospectively treated as nonexempt income, would result in ineligibility, shall not be exempt income;

(n) up to \$2,000.00 per year of income received by an individual Indian that is derived from leas-

es or other uses of an individually owned trust or restricted lands;

(o) veterans administration (VA) payments resulting from unusual medical expenses, shall mean expenditures exceeding five percent of the veteran's reported annual income;

(p) interest income that does not exceed \$50.00 per month per family group; and

(q) the amount of any child support pass-through payment. (Authorized by K.S.A. 2018 Supp. 39-708c; implementing K.S.A. 2018 Supp. 39-708c and 39-709; effective May 1, 1981; amended, E-82-19, Oct. 21, 1981; amended May 1, 1982; amended May 1, 1983; amended, T-84-11, July 1, 1983; amended, T-84-25, Sept. 19, 1983; amended May 1, 1984; amended, T-85-26, Oct. 15, 1984; amended May 1, 1985; amended, T-87-15, July 1, 1986; amended May 1, 1987; amended, T-88-59, Dec. 16, 1987; amended May 1, 1988; amended Sept. 26, 1988; amended July 1, 1989; amended Oct. 1, 1989; amended May 1, 1991; amended July 1, 1991; amended Sept. 30, 1994; amended Dec. 30, 1994; amended March 1, 1997; amended July 1, 1997; amended Oct. 1, 1997; amended May 3, 2019.)

30-4-120. (Authorized by K.S.A. 1995 Supp. 39-708c, as amended by L. 1996, Ch. 229, Sec. 104; implementing K.S.A. 1995 Supp. 39-708c, as amended by L. 1996, Ch. 229, Sec. 104, K.S.A. 1995 Supp. 39-709; effective May 1, 1981; amended, E-82-11, June 17, 1981; amended May 1, 1982; amended, T-84-8, March 29, 1983; amended May 1, 1983; amended, T-84-9, March 29, 1983; amended, T-84-25, Sept. 19, 1983; amended May 1, 1984; amended May 1, 1985; amended May 1, 1986; amended, T-87-33, Dec. 1, 1986; amended May 1, 1987; amended, T-88-14, July 1, 1987; amended May 1, 1988; amended, T-30-7-29-88, July 29, 1988; amended Sept. 26, 1988; amended Oct. 1, 1989; amended, T-30-3-29-90, April 1, 1990; amended, T-30-7-2-90, Aug. 1, 1990; revoked, T-30-8-14-90, Oct. 1, 1990; amended Oct. 1, 1990; amended Jan. 7, 1991; amended May 1, 1991; amended Aug. 1, 1995; amended Jan. 1, 1997; amended March 1, 1997; revoked May 3, 2019.)

30-4-130. Types of payments and payees. Public assistance payments shall be issued in accordance with this regulation.

(a) Money payment.

(1) Payments shall be available through the state electronic benefit transfer system or, in certain circumstances, by check or written order

immediately redeemable at face value. Payments shall be made with no restriction on the use of the funds, except TANF payments.

(2) All payments shall be money payments, except for the following types of payments:

(A) Payments pursuant to the foster care programs; and

(B) work program support costs and transitional expenses in accordance with K.A.R. 30-4-64 (c) and (d).

(b) Who may receive money payments. The following persons may receive money payments:

(1) A caretaker;

(2) a recipient;

(3) a personal representative;

(4) a substitute payee;

(5) a protective payee; or

(6) an emancipated minor who meets the requirements in K.A.R. 30-4-52.

(c) Protective payments in the TANF program.

(1) If any caretaker repeatedly mismanages the money payment to the detriment of any child for whom assistance is claimed and if an approved service plan is on file, a protective payment, in lieu of a money payment to the caretaker, shall be issued to a protective payee.

(2) If a caretaker has refused to undergo drug testing or has tested positive for illegal use of a controlled substance, a protective payee shall be named to administer the caretaker's cash benefit for each remaining household member.

(d) Substitute payee.

(1) Appointment and dismissal. Each substitute payee shall be appointed as assisted by the department. The substitute payee may be terminated by the department if the payee's services are no longer needed or if the payee is not giving satisfactory service.

(2)(A) Who may be substitute payee. An individual selected to be a substitute payee may be a relative, friend, neighbor, or member of a religious or community organization. The following persons shall not serve as substitute payees:

(i) Any staff member of the department, unless there is a direct familial relationship;

(ii) the landlord, grocers, or vendors of goods or services dealing directly with the client; or

(iii) another adult residing in the household.

(e) Protective payee.

(1) A protective payee may be selected by the household. If the household does not name a suitable protective payee, the protective payee may be selected by the department.

(2)(A) Who may be a protective payee. An individual selected to be a protective payee may be a relative, friend, neighbor, or member of a religious or community organization. The following persons shall not serve as protective payees:

- (i) Any staff from the department, unless there is a direct familial relationship;
- (ii) the landlord, grocers, or vendors of goods or services dealing directly with the client; and
- (iii) another adult residing in the household.

(B) Exception. Payments may be made to a foster parent on behalf of a minor living in a foster care home with the minor's child in order to provide TANF for the child. The foster care home shall be licensed or approved as meeting licensing standards. This provision shall not be used in any other kind of public assistance case and may continue until the minor is released from custody of the department or becomes emancipated.

(3) Criteria for selection. Each protective payee shall demonstrate the following characteristics:

(A) An interest in and concern for the welfare of the family;

(B) the ability to help the family with ordinary budgeting, experience in purchasing food, clothing, and household equipment within a limited income, and knowledge of effective household practices;

(C) the ability to establish and maintain a positive relationship;

(D) the ability to maintain close contacts with the caretaker and child by virtue of living near the caretaker or having transportation available; and

(E) responsibility and dependability.

(4) Payee-recipient relationship. Any payee may make decisions about the expenditure of the assistance payment. The payee may expend the payment in any of the following ways:

(A) Spend the money for the family;

(B) supervise the recipient's use of the money; or

(C) give a portion of the money to the recipient to spend for certain expenses and pay for other expenses of the recipient.

(5) Payee-department relationship. Each payee shall ensure that the money is spent for the children's benefit. The payee's responsibility to the department shall be specified in writing with one copy for the payee and one for the department.

(A) This written agreement shall cover the following areas:

- (i) The plans for accounting;
- (ii) use of the assistance funds; and
- (iii) reporting on the general progress made.

(B) The agreement shall be supplemented by the following:

- (i) Discussions of the payee's responsibility;
- (ii) a statement of the purpose of the plan;
- (iii) a description of the nature and frequency of reports;
- (iv) a statement of the rights of the recipient; and
- (v) a statement of the confidential nature of the relationship.

(6) Periodic review of cases. Each money payment mismanagement case shall be reviewed at least every six months to determine which of the following actions will be taken:

(A) Restore the recipient to regular money payment status;

(B) continue the recipient on protective payment status; or

(C) develop another plan for the care of the child or children if necessary, including any of the following options:

- (i) Placement with another relative;
- (ii) seeking appointment of a guardian; or
- (iii) placement in a foster home.

(7) Discontinuance of protective payments. Protective payments shall be discontinued when the caretaker has demonstrated an ability to manage the money payment or after a period of two years has lapsed, whichever comes first. Payment may continue for any additional time reasonably necessary to complete a substitute plan for the care of the child.

(8) Discontinuance of protective payments. Protective payments shall be discontinued under either of the following conditions:

(A) The individual who failed to complete a drug test completes that person's period of ineligibility, submits to a drug test, and has a negative result for illegal controlled substances.

(B) The individual who tested positive for an illegal controlled substance successfully completes the requirements to regain eligibility for cash assistance.

(f) Special personal representative. A petition for the appointment of a personal representative shall be filed by the department pursuant to K.S.A. 59-2801, and amendments thereto, only if the need for an appointment is clearly established and the department has counseled the applicant or recipient concerning the money management problems. Confidential reports shall be filed by the department with the appropriate court as requested.

(1) Appointment of personal representative. A person who meets the following requirements shall be recommended to the court as a personal representative by the department:

(A) The person shall not be an employee of the department.

(B) The person shall not benefit directly from the assistance payment.

(C) The person shall meet the criteria in paragraph (d)(2)(A).

(2) Dismissal of personal representative. A recommendation to the court to dismiss a personal representative shall be made by the department if the client demonstrates that the client no longer requires a personal representative, or if the personal representative is failing to execute the responsibilities specified in this regulation, in which instance a substitute personal representative shall be recommended by the department.

(3) Responsibility of personal representative. Each personal representative shall be responsible to the court, the department, and the recipient. Each personal representative shall make an annual accounting to both the court and the department. A more frequent accounting may be required by the department or the court in the form and at the times prescribed by the department or the court. Each personal representative shall maintain a confidential relationship with the applicant or recipient and shall consult with the applicant or recipient concerning the applicant's or recipient's requirements, resources, and the use of the money payment.

(4) Periodic review. The necessity of continuing the appointment of a personal representative shall be reviewed semiannually. Consideration shall be given to whether or not the recipient's ability to manage personal affairs has improved or if other changes in the recipient's circumstances or living arrangements make it possible for the recipient to manage without the help of a personal representative. (Authorized by K.S.A. 2018 Supp. 39-708c; implementing K.S.A. 2018 Supp. 39-708c and K.S.A. 2018 Supp. 39-709; effective May 1, 1981; amended May 1, 1983; amended, T-85-26, Oct. 15, 1984; amended May 1, 1985; amended May 1, 1986; amended May 1, 1987; amended May 1, 1988; amended July 1, 1989; amended Oct. 1, 1989; amended Jan. 2, 1990; amended, T-30-6-10-91, July 1, 1991; amended Oct. 1, 1993; amended July 1, 1996; amended March 1, 1997; amended May 3, 2019.)

30-4-140. Payments; penalties; enforcement. (a) Assistance payments shall equal the budgetary deficit, which shall be rounded down to the nearest dollar, except as follows:

(1) Payments for the month of application shall equal the budgetary deficit, which shall be prorated beginning with the date of application through the end of the month. This amount shall be rounded down to the nearest dollar.

(2) A payment shall not be made if the amount of the budgetary deficit is less than \$10.00. If a payment is not made under this paragraph, recipient status shall continue.

(b) Overpayments shall be corrected by the end of the calendar quarter following the calendar quarter in which the overpayment was first identified. Recovery procedures shall not be initiated by the department, pending the disposition of a welfare fraud referral. Overpayments may be recovered by voluntary repayment, administrative recoupment, or legal action. The assistance payment shall be reduced for recoupment as follows:

(1) For fraud claims, by the greater of 20 percent of the household's monthly benefit or \$10.00 per month; and

(2) for non-fraud claims, by the greater of 10 percent of the household's monthly benefit or \$10.00 per month.

(c) Disqualification penalties. Each individual who is found to have committed fraud in the temporary assistance for needy families (TANF) program, either through an administrative disqualification hearing or by a court of appropriate jurisdiction, or who has signed either a waiver of right to an administrative disqualification hearing or a disqualification consent agreement in any case referred for prosecution, shall be ineligible for assistance, along with all adult household members. For the TANF program, each child shall also be ineligible if living in a household with a disqualified adult until the child moves into another qualified household, becomes an adult, or is able to act on that individual's own behalf. A protective payee shall be named pursuant to K.S.A. 39-709(b)(12)(A), and amendments thereto. (Authorized by K.S.A. 2018 Supp. 39-708c; implementing K.S.A. 2018 Supp. 39-708c, 39-719b; effective May 1, 1981; amended, E-82-19, Oct. 21, 1981; amended May 1, 1982; amended, T-83-17, July 1, 1982; amended, T-83-38, Nov. 23, 1982; amended, T-84-8, March 29, 1983; amended May 1, 1983; amended, T-85-26, Oct. 15, 1984; amended May 1, 1985; amended

May 1, 1986; amended July 1, 1989; amended May 1, 1992; amended March 1, 1997; amended July 1, 1998; amended, May 3, 2019.)

(Authorized by and implementing K.S.A. 39-708c and 39-709; effective May 1, 1981; amended, E-82-19, Oct. 21, 1981; amended May 1, 1982; amended May 1, 1983; amended May 1, 1984; amended May 1, 1986; amended May 1, 1987; amended, T-88-14, July 1, 1987; amended, T-88-59, Jan. 1, 1988; amended May 1, 1988; amended, T-89-13, April 26, 1988; amended Sept. 26, 1988; amended July 1, 1989; amended Oct. 1, 1989; amended Jan. 2, 1990; amended, T-30-7-2-90, July 2, 1990; revoked, T-30-8-14-90, Oct. 1, 1990; amended Oct. 1, 1990; amended May 1, 1991; amended July 1, 1991; amended Jan. 2, 1992; amended Oct. 1, 1992; amended Oct. 1, 1993; amended Dec. 30, 1994; amended Oct. 1, 1997; amended July 1, 1998; amended July 1, 2002; revoked, T-30-10-31-13, Nov. 1, 2013; revoked Feb. 28, 2014.)

30-6-113. (Authorized by and implementing K.S.A. 1996 Supp. 39-708c, 39-709; effective May 1, 1981; amended, E-82-19, Oct. 21, 1981; amended May 1, 1982; amended May 1, 1983; amended, T-84-11, July 1, 1983; amended, T-84-25, Sept. 19, 1983; amended May 1, 1984; amended, T-85-26,

Oct. 15, 1984; amended May 1, 1985; amended May 1, 1986; amended, T-87-15, July 1, 1986; amended May 1, 1987; amended, T-88-14, July 1, 1987; amended, T-88-59, Jan. 1, 1988; amended May 1, 1988; amended, T-89-13, April 26, 1988; amended, T-30-7-1-88, July 1, 1988; amended Sept. 26, 1988; amended July 1, 1989; amended Oct. 1, 1989; amended, T-30-12-28-90, Jan. 2, 1991; amended May 1, 1991; amended July 1, 1991; amended, T-30-6-10-92, July 1, 1992; amended Oct. 1, 1992; amended Jan. 4, 1993; amended May 3, 1993; amended, T-30-11-16-93, Dec. 1, 1993; amended Jan. 3, 1994; amended Sept. 30, 1994; amended Dec. 30, 1994; amended March 1, 1997; amended July 1, 1997; amended Oct. 1, 1997; revoked, T-30-10-31-13, Nov. 1, 2013; revoked Feb. 28, 2014.)

30-6-120. (Authorized by and implementing K.S.A. 1982 Supp. 39-708c, 39-709; effective May 1, 1981; amended May 1, 1983; revoked, T-30-10-31-13, Nov. 1, 2013; revoked Feb. 28, 2014.)

30-6-140. (Authorized by and implementing K.S.A. 1995 Supp. 39-708c, as amended by L. 1996, Ch. 229, Sec. 104, K.S.A. 1995 Supp. 39-709; effective May 1, 1981; amended May 1, 1984; amended May 1, 1985; amended May 1, 1986; amended March 1, 1997; revoked, T-30-10-31-13, Nov. 1, 2013; revoked Feb. 28, 2014.)

30-6-150. (Authorized by K.S.A. 1992 Supp. 39-708c; implementing K.S.A. 1992 Supp. 39-708c, and 39-709, as amended by L. 1993, Chapter 180, Sec. 1; effective, T-30-6-10-92, July 1, 1992; effective Oct. 1, 1992; amended Jan. 4, 1993; amended May 3, 1993; amended, T-30-11-16-93, Dec. 1, 1993; amended Jan. 3, 1994; revoked, T-30-10-31-13, Nov. 1, 2013; revoked Feb. 28, 2014.)

Article 10.—ADULT CARE HOME PROGRAM

30-10-19. (Authorized by and implementing K.S.A. 39-708c; effective May 1, 1985; amended May 1, 1987; amended May 1, 1988; amended Jan. 2, 1989; amended Jan. 2, 1990; amended, T-30-10-1-90, Oct. 1, 1990; amended Jan. 30, 1991; amended Oct. 28, 1991; amended Nov. 2, 1992; amended Jan. 3, 1994; amended Dec. 29, 1995; amended Jan. 1, 1997; amended July 1, 2002; amended, T-30-5-30-03, July 1, 2003; amended July 25, 2003; amended May 1, 2005; revoked Feb. 5, 2016.)

Article 14.—CHILDREN’S HEALTH INSURANCE PROGRAM

30-14-1. (Authorized by K.S.A. 1997 Supp. 39-708c and L. 1998, Chapter 125, Section 2; implementing L. 1998, Chapter 125, Section 1; effective Nov. 1, 1998; revoked, T-30-10-31-13, Nov. 1, 2013; revoked Feb. 28, 2014.)

30-14-2. (Authorized by K.S.A. 1997 Supp. 39-708c and L. 1998, Chapter 125, Section 2; implementing L. 1998, Chapter 125, Section 1; effective Nov. 1, 1998; revoked, T-30-10-31-13, Nov. 1, 2013; revoked Feb. 28, 2014.)

30-14-3. (Authorized by K.S.A. 1997 Supp. 39-708c and L. 1998, Chapter 125, Section 2; implementing L. 1998, Chapter 125, Section 1 and Section 5; effective Nov. 1, 1998; revoked, T-30-10-31-13, Nov. 1, 2013; revoked Feb. 28, 2014.)

30-14-20. (Authorized by K.S.A. 1997 Supp. 39-708c and L. 1998, Chapter 125, Section 2; implementing L. 1998, Chapter 125, Section 1; effective Nov. 1, 1998; revoked, T-30-10-31-13, Nov. 1, 2013; revoked Feb. 28, 2014.)

30-14-21. (Authorized by K.S.A. 1997 Supp. 39-708c and L. 1998, Chapter 125, Section 2; implementing L. 1998, Chapter 125, Section 1; effective Nov. 1, 1998; revoked, T-30-10-31-13, Nov. 1, 2013; revoked Feb. 28, 2014.)

30-14-23. (Authorized by K.S.A. 1997 Supp. 39-708c and L. 1998, Chapter 125, Section 2; implementing L. 1998, Chapter 125, Section 1; effective Nov. 1, 1998; revoked, T-30-10-31-13, Nov. 1, 2013; revoked Feb. 28, 2014.)

30-14-24. (Authorized by K.S.A. 1997 Supp. 39-708c and L. 1998, Chapter 125, Section 2; implementing L. 1998, Chapter 125, Section 1; effective Nov. 1, 1998; revoked, T-30-10-31-13, Nov. 1, 2013; revoked Feb. 28, 2014.)

30-14-25. (Authorized by K.S.A. 1997 Supp. 39-708c and L. 1998, Chapter 125, Section 2; implementing L. 1998, Chapter 125, Section 1; effective Nov. 1, 1998; revoked, T-30-10-31-13, Nov. 1, 2013; revoked Feb. 28, 2014.)

30-14-26. (Authorized by K.S.A. 1997 Supp. 39-708c and L. 1998, Chapter 125, Section 2; implementing L. 1998, Chapter 125, Section 1; effective Nov. 1, 1998; revoked, T-30-10-31-13, Nov. 1, 2013; revoked Feb. 28, 2014.)

30-14-28. (Authorized by K.S.A. 39-708c and K.S.A. 38-2002; implementing K.S.A. 2001 Supp. 38-2001; effective Nov. 1, 1998; amended, T-30-1-2-03, Jan. 2, 2003; amended April 18, 2003; revoked, T-30-10-31-13, Nov. 1, 2013; revoked Feb. 28, 2014.)

30-14-29. (Authorized by K.S.A. 1997 Supp. 39-708c and L. 1998, Chapter 125, Section 2; implementing L. 1998, Chapter 125, Section 1; effective Nov. 1, 1998; revoked, T-30-10-31-13, Nov. 1, 2013; revoked Feb. 28, 2014.)

30-14-30. (Authorized by K.S.A. 1998 Supp. 39-708c and 38-2002; implementing K.S.A. 1998 Supp. 38-2001; effective Nov. 1, 1998; amended July 2, 1999; revoked, T-30-10-31-13, Nov. 1, 2013; revoked Feb. 28, 2014.)

30-14-31. (Authorized by K.S.A. 1997 Supp. 39-708c and L. 1998, Chapter 125, Section 2; implementing L. 1998, Chapter 125, Section 1; effective Nov. 1, 1998; revoked, T-30-10-31-13, Nov. 1, 2013; revoked Feb. 28, 2014.)

30-14-50. (Authorized by K.S.A. 1997 Supp. 39-708c and L. 1998, Chapter 125, Section 2; implementing L. 1998, Chapter 125, Section 1; effective Nov. 1, 1998; revoked, T-30-10-31-13, Nov. 1, 2013; revoked Feb. 28, 2014.)

Article 44.—SUPPORT ENFORCEMENT

30-44-2. Standardized cost recovery fee.

(a) As used in this regulation, the following definitions shall apply:

(1) “Applicant or recipient” means a person who has applied for or is receiving support enforcement services from the department for children and families pursuant to Part D of Title IV of the federal social security act, 42 U.S.C. § 651 et seq., as amended.

(2) “IV-D case” means a case in which the department for children and families is providing child support services pursuant to Part D of Title IV of the federal social security act, 42 U.S.C. § 651 et seq., as amended.

(3) (A) “Non-PA case” means a case in which the applicant or recipient or the child, as appropriate, has not received and is not currently receiving public assistance from the state of Kansas, including the following:

- (i) Temporary assistance to needy families (TANF), regardless of how designated;
- (ii) medical services;

(iii) care due to placement under K.S.A. 38-2201 et seq. and K.S.A. 38-2301 et seq., and amendments thereto;

(iv) care in a state institution, as defined in K.S.A. 59-2006b and amendments thereto;

(v) supplemental nutrition assistance program (SNAP); and

(vi) child care assistance.

(B) “Non-PA case” shall also mean, in any IV-D case in which the applicant or recipient or the child previously received but is not currently receiving public assistance from the state of Kansas, that portion of the case not subject to any assignment of support rights for reimbursement of public assistance.

(C) In an interstate IV-D case referred to Kansas by another state, unless the other state clearly designates otherwise, “non-PA case” shall mean a case, or that portion of a case, designated as IV-D non-TANF.

(D) “Non-PA” case shall not include any IV-D case referred to Kansas from a foreign country.

(b) A cost recovery fee may be collected in all non-PA cases. If a fee is required pursuant to subsection (c), the fee shall be retained from support collections made on behalf of the applicant or recipient. If any fee remains unpaid and the applicant or recipient will receive no further support collections in the non-PA case, the fee shall be remitted by the applicant or recipient upon demand.

(c) The fee shall be in an amount equal to the basic rate times the amount of support collections distributed to the applicant or recipient. The date of collection shall determine the applicable basic rate. The basic rate shall be four percent. If the secretary determines that the department for children and families’ funds for support enforcement services are sufficient to pay for some or all of the costs associated with all non-PA cases statewide, then the basic rate for all non-PA cases statewide may be reduced by an amount commensurate with the department’s available funds or not collected. (Authorized by and implementing K.S.A. 2015 Supp. 39-756; effective Feb. 6, 1995; amended Jan. 3, 2000; amended Feb. 12, 2016.)

30-44-6. Support arrears forgiveness.

(a) If a child’s parent or parents are liable to repay the secretary for state assistance expended on the child’s behalf pursuant to K.S.A. 39-718b and amendments thereto, the amount due may be offset by one of the following:

(1) The parent's or parents' participation in an arrears adjustment program; or

(2) the parent's or parents' contributions to a Kansas postsecondary education savings account established on behalf of the child through the child support savings initiative program.

(b) All arrears adjustment programs shall be approved by the department's child support services and shall include programs designed to provide job skills, further education, and enhance parenting skills.

(c) The arrears adjustments earned through participation in an arrears adjustment program or contributions to the child support savings initiative program shall be applied to offset the amount owed to the secretary. The department's child support services shall have the authority to determine any arrears adjustment rates and to determine whether participation in a particular class or program qualifies a participant for any arrears adjustments. (Authorized by and implementing K.S.A. 2015 Supp. 39-753; effective Feb. 12, 2016.)

Article 45.—YOUTH SERVICES

30-45-20. Foster child educational assistance. Any individual meeting the definition of foster child in K.S.A. 75-53,112 (b), and amendments thereto, and wanting to receive the benefits of the foster child educational assistance act may obtain an application form from any office of the department of social and rehabilitation services ("department") or from any Kansas educational institution, as defined in K.S.A. 75-53,112 and amendments thereto. The individual shall submit the completed application to the registrar's office at the educational institution where the applicant enrolls. The applicant's eligibility shall be verified by the department upon receipt of the application from the educational institution. Within 30 days after enrollment, the student shall notify the department of that student's enrollment status and intended program of study. (Authorized by K.S.A. 2008 Supp. 75-53,117; implementing K.S.A. 2008 Supp. 75-53,113 and K.S.A. 2008 Supp. 75-53,120; effective July 6, 2009.)

Article 46.—CHILD ABUSE AND NEGLECT

30-46-10. Definitions. For the purpose of the child abuse and neglect central registry, the following definitions shall apply:

(a) "Abandon" and "abandonment" have the

meaning specified in K.S.A. 38-2202, and amendments thereto.

(b) "Abuse" means "physical, mental or emotional abuse" or "sexual abuse," as these two terms are defined in K.S.A. 38-2202 and amendments thereto and as "sexual abuse" is further defined in this regulation, involving a child who resides in Kansas or is found in Kansas, regardless of where the act occurred. The term "abuse" shall include any act that occurred in Kansas, regardless of where the child is found or resides.

The term "abuse" may include the following:

(1) Terrorizing a child, by creating a climate of fear or engaging in violent or threatening behavior toward the child or toward others in the child's presence that demonstrates a flagrant disregard for the child;

(2) emotionally abandoning a child, by being psychologically unavailable to the child, demonstrating no attachment to the child, or failing to provide adequate nurturance of the child; and

(3) corrupting a child, by teaching or rewarding the child for unlawful, antisocial, or sexually mature behavior.

(c) "Affirmed perpetrator" means a person who has been determined by the secretary or the secretary's designee, by a preponderance of evidence, to have committed an act of abuse or neglect, regardless of where the person resides, but has not been substantiated so the affirmed perpetrator's name is not placed on the child abuse and neglect central registry.

(d) "Alleged perpetrator" means the person identified in the initial report or during the investigation as the person suspected of perpetrating an act of abuse or neglect.

(e) "Child" means anyone under the age of 18 or anyone under the age of 21 and in the custody of the secretary pursuant to K.S.A. 38-2255, and amendments thereto.

(f) "Child abuse and neglect central registry" means the list of names for individuals identified by the department as substantiated perpetrators.

(g) "Child care facility" has the meaning specified in K.S.A. 65-503, and amendments thereto.

(h) "Department" means Kansas department for children and families.

(i) "Investigation" means the gathering and assessing of information to determine if a child has been harmed, as defined in K.S.A. 38-2202 and amendments thereto, as the result of abuse or neglect, to identify the individual or individuals responsible, and to determine if the incident per-

petrated by the individual or individuals should be affirmed or substantiated.

(j) “Neglect” has the meaning specified in K.S.A. 38-2202, and amendments thereto, involving a child who resides in Kansas or is found in Kansas, regardless of where the act or failure to act occurred.

The term “neglect” may include the following:

(1) The birth of an infant who is identified as being affected by or having withdrawal symptoms resulting from prenatal exposure to a legal or an illegal substance; and

(2) failure of the parent or caregiver to meet that individual’s responsibilities to provide for the child’s education as required by law.

(k) “Sexual abuse” has the meaning specified in K.S.A. 38-2202, and amendments thereto. With respect to the determination by the department for children and families of an affirmed or substantiated finding of sexual abuse, difference in age and maturity between the perpetrator and victim and issues of force or coercion may be considered.

(l) “Substantiated perpetrator” and “perpetrator” mean a person, regardless of where the person resides, who has been substantiated by the secretary or the secretary’s designee, by a preponderance of evidence, to have either intentionally committed an act of abuse or neglect or failed or refused to protect a child when a reasonable person would have anticipated that the act of abuse or neglect would result in or create a likelihood of serious harm, injury, or deterioration to the child. The substantiated perpetrator’s name is placed on the Kansas child abuse and neglect central registry, and the person is thereby prohibited from residing, working, or volunteering in a child care facility pursuant to K.S.A. 65-516, and amendments thereto.

(m) “Unsubstantiated alleged perpetrator” means a person who has been determined by the secretary or the secretary’s designee, by a preponderance of evidence, to have not committed an alleged act of abuse or neglect. (Authorized by K.S.A. 2018 Supp. 38-2225 and 39-708c; implementing K.S.A. 2018 Supp. 38-2226 and 38-2230; effective Jan. 2, 1989; amended Jan. 2, 1990; amended Oct. 1, 1993; amended Jan. 1, 1997; amended Oct. 3, 1997; amended July 9, 2004; amended July 6, 2009; amended, T-30-6-1-12, June 1, 2012; amended Sept. 14, 2012; amended July 1, 2016; amended, T-30-11-15-18; Nov. 15, 2018; amended Feb. 22, 2019.)

30-46-13. Right to interview. Each alleged perpetrator shall have an opportunity to be interviewed before a finding affirming or substantiating the perpetrator under K.A.R. 30-46-15 is issued. (Authorized by K.S.A. 2018 Supp. 39-708c; implementing K.S.A. 2018 Supp. 38-2226, K.S.A. 2018 Supp. 39-708c, and K.S.A. 65-516; effective Jan. 2, 1989; amended Oct. 28, 1991; amended July 1, 1997; amended July 9, 2004; amended, T-30-11-15-18; Nov. 15, 2018; amended Feb. 22, 2019.)

30-46-15. Notice of decision. (a) Each affirmed perpetrator shall be notified in writing of the secretary’s decision to affirm the perpetrator for an incident of child abuse or neglect. The notice shall specify the reasons for the finding and shall inform the affirmed perpetrator of the perpetrator’s right to appeal the decision.

(b) Each substantiated perpetrator shall be notified in writing of the secretary’s decision to substantiate the perpetrator for the purpose of placing the name of the perpetrator in the child abuse and neglect central registry. The notice shall specify the reasons for the finding and shall inform the substantiated perpetrator of the perpetrator’s right to appeal the decision.

(c) Each unsubstantiated alleged perpetrator shall be notified in writing of the secretary’s decision that based on a preponderance of evidence, the alleged perpetrator has not committed an alleged act of abuse or neglect. (Authorized by K.S.A. 2018 Supp. 39-708c; implementing K.S.A. 2018 Supp. 38-2226, K.S.A. 2018 Supp. 39-708c, and K.S.A. 65-516; effective Jan. 2, 1989; amended Oct. 28, 1991; amended July 1, 1997; amended July 9, 2004; amended, T-30-11-15-18; Nov. 15, 2018; amended Feb. 22, 2019.)

30-46-17. Expungement of record of perpetrator from child abuse and neglect central registry. (a) Application for expungement.

(1) Any perpetrator of abuse or neglect may apply in writing to the secretary to have the perpetrator’s record expunged from the child abuse and neglect central registry when three years have passed since the perpetrator’s name was entered on the child abuse and neglect central registry. Thereafter, if the expungement is denied, an application for expungement may be submitted by the perpetrator to the secretary no more than once every 12 months after the date of the most recent expungement review panel hearing.

(2) Each application for expungement shall be referred to the expungement review panel. The panel shall consist of the director of prevention and protection services or the director's designee, the chief legal counsel of the department or the counsel's designee, and a representative of the public appointed by the secretary. The director of prevention and protection services or the director's designee shall chair the panel.

(b) Expungement review panel hearing.

(1) A review hearing shall be convened by the panel, at which time the applicant may present evidence supporting expungement of the applicant's name from the child abuse and neglect central registry. The applicant shall have the burden of providing the panel with the basis for granting the expungement. Evidence in support of or in opposition to the application and a recommendation may be presented by the regional office that conducted the original investigation.

(2) Recommendations of the review panel shall be determined by majority vote. The following factors shall be considered by the panel in making its recommendation:

(A) The nature and severity of the act of abuse or neglect;

(B) the number of findings of abuse or neglect involving the applicant;

(C) specification of whether the applicant was a child at the time of the finding of abuse or neglect for which expungement is requested and the age of the applicant at the time of the incident;

(D) circumstances that no longer exist that contributed to the finding of abuse or neglect by the applicant; and

(E) actions taken by the applicant since the incident to prevent the reoccurrence of abuse or neglect.

(3) The review hearing shall be set within 30 days from the date the application for expungement is received by the department. A written notice shall be sent to the applicant and the regional office that made the finding by the director of prevention and protection services or the director's designee at least 10 days before the hearing. The notice shall state the day, hour, and place of the hearing. Continuances of the hearing may be granted by the secretary or the secretary's designee only for good cause.

(4) A written recommendation to the secretary shall be rendered by the panel within 45 days from the date of the hearing. The recommendation to the secretary shall be submitted in writing and shall specify the reasons for the recommendation.

(c) Expungement.

(1) Based upon the application for expungement, other records in the expungement file, and the findings and recommendations of the panel, a decision to grant or deny the requested expungement shall be made by the secretary and shall be the final agency order. The secretary's decision shall be made with 60 days of the expungement hearing.

(2) The applicant shall be informed in writing of the secretary's decision, the specific reasons for the decision, and the applicant's right to appeal that decision pursuant to the Kansas judicial review act.

(3) Any record may be expunged from the child abuse and neglect central registry by the secretary or the secretary's designee when 18 or more years have passed since the most recent finding of abuse or neglect.

(4) Each record of a perpetrator who was under 18 at the time of abuse or neglect and has not been substantiated for more than a single event or incident while a minor shall be expunged five years after the finding of abuse or neglect is entered in the child abuse and neglect central registry if the perpetrator has had none of the following after entry in the registry:

(A) A finding of abuse or neglect;

(B) juvenile offender adjudication for any act, other than the event or incident that resulted in the offender's name being placed on the child abuse and neglect central registry, that, if committed by an adult, would be a class A person misdemeanor or any person felony; or

(C) criminal conviction for a class A person misdemeanor or any person felony. (Authorized by K.S.A. 2018 Supp. 39-708c and K.S.A. 65-516; implementing K.S.A. 65-516; effective Jan. 2, 1989; amended Jan. 1, 1990; amended July 1, 1997; amended July 9, 2004; amended July 6, 2009; amended, T-30-11-15-18; Nov. 15, 2018; amended Feb. 22, 2019.)

Article 47.—FOSTER CARE LICENSING

30-47-3. License requirements. Each individual shall meet the following requirements to obtain a license and to maintain a license:

(a) Submit a complete application for a license on forms provided by the department, including requests for the background checks specified in K.A.R. 28-4-805;

(b) be at least 21 years of age;

(c) have adequate financial resources to provide for the needs and financial obligations of the household, independent of foster care reimbursement payments; provide basic income and expense information to the secretary for review at the time of initial application and annual license renewal; and provide documentation of financial information for review as deemed necessary;

(d) participate in an initial family assessment, a family assessment for each renewal, and any additional family assessments conducted by the sponsoring child-placing agency. Each family assessment shall include at least one individual interview with each household member at least seven years of age and at least one visit in the family foster home;

(e) meet the training requirements in K.A.R. 28-4-806; and

(f) obtain and maintain ongoing sponsorship by a public or private child-placing agency, including a recommendation by the sponsoring child-placing agency that the home be used for placement of children in foster care. (Authorized by K.S.A. 2016 Supp. 65-508, 75-3084, and 75-3085; implementing K.S.A. 2016 Supp. 65-504 and 65-508; effective Sept. 8, 2017.)

Article 63.—DEVELOPMENTAL DISABILITIES—LICENSING PROVIDERS OF COMMUNITY SERVICES

30-63-10. License required; exceptions.

(a) Each individual, group, association, corporation, local government department, or local quasigovernment agency providing services to persons 18 years of age or older in need of services greater than those provided in a boarding care home as defined in K.S.A. 39-923(a) (8), and amendments thereto, shall be licensed in accordance with the provisions of this article, except when those services are provided in or by any of the following:

(1) In a medical care facility, as defined and required to be licensed in K.S.A. 65-425 et seq. and amendments thereto;

(2) in a nursing facility, nursing facility for mental health, intermediate care facility for the mentally retarded, assisted living facility, or residential health care facility, or in a home plus setting, as defined and required to be licensed in K.S.A. 39-923 et seq. and amendments thereto;

(3) by a home health agency, as defined and provided for the licensing of in K.S.A. 65-5101 et seq. and amendments thereto; or

(4) in a manner so that the services constitute in-home services, funded under the federal home and community-based services/mental retardation waiver or with state funding under terms like those of the federal home-and community-based services/mental retardation waiver, and are provided in compliance with all of the following conditions:

(A) The services are directed and controlled by an adult receiving services, the parent or parents of a minor child receiving services, or the guardian of an adult receiving services.

(B) The person or person's representative directing and controlling the services selects, trains, manages, and dismisses the individual or business entity providing the services and coordinates payment.

(C) The person or person's representative directing and controlling the services owns, rents, or leases the whole or a portion of the home in which services are provided.

(D) If any individual providing services also lives in the home in which services are provided, there is a written agreement specifying that the person receiving services will not be required to move from the home if there is any change in who provides services, and that any individual or business entity chosen to provide services will be allowed full and reasonable access to the home in order to provide services.

(E) The person receiving services does not receive services in a home otherwise requiring a license pursuant to these regulations.

(F) Any individual providing services is at least 16 years of age, or at least 18 years of age if a sibling of the person receiving services, unless an exception to this requirement has been granted by the commission, based upon the needs of the person receiving services.

(G) Any individual or business entity providing services receives at least 15 hours of prescribed training, or the person or person's representative directing and controlling the services has provided written certification to the community developmental disability organization (CDDO) that sufficient training to meet the person's needs has been provided.

(H) The person or person's representative directing and controlling the services has chosen case management from the CDDO or an agency affiliated with the CDDO. That case management may be limited, at the choice of the person or person's representative directing and controlling the services, to reviewing the services on a regular basis to ensure that the person's needs

are met, annual reevaluation of continued eligibility for funding, and development of the person's plan of care.

(I) The person or person's representative directing and controlling the services cooperates with the CDDO's quality assurance committee and allows review of the services as deemed necessary by the committee to ensure that the person's needs are met. In addition, the person directing and controlling the services cooperates with the commission and allows monitoring of the person's services to ensure that the case manager and the CDDO's quality assurance committee have adequately reviewed and determined that the person's needs are met.

(J) The person or person's representative directing and controlling the services agrees to both of the following:

(i) If it is determined by the CDDO or the commission that the person receiving services is or could be at risk of imminent harm to the person's health, safety, or welfare, the person or person's representative directing and controlling the services shall correct the situation promptly.

(ii) If the situation is not so corrected, after notice and an opportunity to appeal, funding for the services shall not continue.

(b) Each license issued pursuant to this article shall be valid only for the provider named on the license. Each substantial change of control or ownership of either a corporation or other provider previously licensed pursuant to this article shall void that license and shall require a reapplication for licensure. (Authorized by K.S.A. 39-1810 and K.S.A. 75-3304; implementing K.S.A. 39-1806 and K.S.A. 2008 Supp. 75-3307b; effective July 1, 1996; amended Oct. 1, 1998; amended Jan. 15, 2010.)

30-63-11. Two types of license; display.

(a) Two types of license may be issued by the secretary pursuant to this article to operate as a provider. One type shall be a "full license," and the other type shall be a "limited license." Both types of license may be issued on a "temporary" or on a "with requirements" basis as specified in K.A.R. 30-63-12.

(b) Both licenses issued pursuant to this article shall be prepared by the commission.

(c) Each holder of a license shall prominently display the license in the holder's principal place of business.

(d) A full license shall apply to all providers except those providers specified in subsection (e).

(e) A "limited license" shall apply to providers who provide services only to either one or two specified persons to whom the provider is related or with whom the provider has a preexisting relationship. The services shall be provided in the home of the person being served. A provider operating with a limited license shall be afforded greater flexibility in the means by which that provider is required to comply with all of the requirements of this article if the services are provided in a manner that protects the health, safety, and welfare of the specific person being served, as determined by the commission. (Authorized by and K.S.A. 39-1810 and K.S.A. 75-3304; implementing K.S.A. 39-1806 and K.S.A. 2008 Supp. 75-3307b; effective July 1, 1996; amended Jan. 15, 2010.)

30-63-12. Licensing procedure; requirements; duration of license. (a) Each provider required to be licensed pursuant to this article shall submit an application for an appropriate license to the commissioner, on a form provided by the commission.

(b) For a full license, each applicant shall provide the following:

(1) Certification that the applicant's chief director of services, regardless of title, is qualified to develop and modify, if appropriate, a program of individualized services to be provided to persons as defined in K.A.R. 30-63-1, as evidenced by that individual's having either of the following:

(A) A bachelor's or higher degree in a field of human services awarded by an accredited college or university; or

(B) work experience in the area of human services at the rate of 1,040 hours of paid work experience substituted for a semester of higher education, which shall mean 15 undergraduate credit hours, with at least eight full-time semester's worth of either satisfactorily passed education or work experience;

(2) certification that the applicant's chief director of services, regardless of title, is qualified to supervise the delivery of a program of services to persons, as evidenced by that individual's having one of the following:

(A) At least one year of experience in a senior management-level position with a licensed provider;

(B) at least two years of experience as either a case manager or a services manager with supervisory authority over at least two other individuals providing direct services to persons; or

(C) at least five years of experience delivering direct care services to persons;

(3) three letters of reference concerning the applicant's chief director of services, regardless of title. Each letter written shall be by an individual knowledgeable both of the applicant and of the delivery of services to persons;

(4) evidence of completion of a background check meeting the requirements of the "SRS/CSS policy regarding background checks," dated September 8, 2009 and hereby adopted by reference, done on the applicant's chief director of services, regardless of title;

(5) a set of written policies and procedures specifying how the applicant intends to comply with the requirements of this article;

(6) a written business plan that shows how the applicant intends to market its services, to accommodate growth or retrenchment in the size of its operations without jeopardizing consumer health or safety issues, to respond to other risk factors as could be foreseeable in the specific case of that applicant, and to keep the operation fiscally solvent during the next three years, unless the application is for a renewal of a succession of licenses that the applicant has had for at least three years. In this case, the viability of the applicant's operation shall be presumed, unless the commissioner determines that there is reason to question the viability of the licensed provider applying for license renewal and requires the submission of a written business plan despite how long the renewal applicant has been previously licensed; and

(7) if required of the applicant by the United States department of labor, a subminimum wage and hour certificate.

(c) For a limited license, each applicant shall provide the following:

(1) A description of the preexisting relationship with the one or two persons proposed to be provided services;

(2) documentation that the individual who will be chiefly responsible for providing services is qualified to do so, as evidenced by that individual's having either of the following:

(A)(i) At least one year of work experience in providing services to a person; and

(ii) completion of the curriculum of studies designated by the commission and accessed through the commission's web site; or

(B) the qualifications specified in paragraph (b)(1);

(3) evidence of completion of a background check meeting the requirements of the background check policy adopted by reference in paragraph (b) (4), done on the individual who will be chiefly responsible for the operations of the applicant;

(4) a written plan that shows how the applicant intends to comply with the requirements of this article applicable to the specific circumstances of the one or two persons to whom those services are proposed to be provided; and

(5) a written business plan that shows how the applicant intends to keep the applicant's proposed provider operation fiscally solvent during the next three years, except as specified in this paragraph. If the application is for a renewal of a succession of licenses that the applicant has had for at least three years, the viability of the applicant's operation shall be presumed, unless the commissioner determines that there is reason to question the viability of the licensed provider applying for license renewal and requires the submission of a written business plan, regardless how long the applicant has been previously licensed.

(d) Upon receipt of an application, the commission shall determine whether the applicant is in compliance with the requirements of subsection (b) or (c) and with this article.

(e) The applicant shall be notified in writing if the commission finds that the applicant is not in compliance with the requirements of subsection (b) or (c) or with this article.

(f) A temporary license or a temporary license with requirements may be issued by the secretary to allow an applicant to begin the operations of a new provider. A license with requirements may be issued by the secretary to allow a provider seeking renewal of a previously issued license to continue operations. A license with requirements shall be designated as contingent upon the provider's developing, submitting to the commission, and implementing an acceptable plan of corrective action intended to bring the provider into continuing compliance with the requirements of this article.

(1) Findings made by the commission with regard to the implementation of a plan of corrective action shall be given to the provider in writing.

(2) Failure of a provider to be in compliance with the requirements of this article or to implement an acceptable plan of corrective action may be grounds for denial of a license whether or not a temporary license or a license with requirements has been issued.

(g) Based upon findings made by the commission regarding compliance with or the implementation of an acceptable plan of corrective action, the commissioner shall determine whether to recommend issuance or denial of the full or limited license applied for. The applicant shall be notified in writing of any decision to recommend denial of an application for a license. The notice shall clearly state the reasons for a denial. The applicant may appeal this denial to the administrative appeals section pursuant to article seven of these regulations.

(h)(1) A full or limited license issued pursuant to this article shall remain in effect for not more than two years from the date of issuance. The exact date on which the license expires shall be stated upon the license. However, the license shall earlier expire under any of the following circumstances:

(A) The license is revoked for cause.

(B) The license is voided.

(C) For a temporary license or a license with requirements, the license is superseded by the issuance of a full or a limited license as applied for.

(D) The license is voluntarily surrendered by the provider.

(2) Each license term shall be determined by the commissioner based upon the commission's findings regarding the history and strength of the applicant's provider operations, including evidence of the provider's having earned certification from a nationally recognized agency or organization that specializes in certifying providers of services.

(i) Each license with requirements shall specify the length of time for which the license is valid,

which shall not exceed one year. Successive licenses with requirements may be issued by the secretary, but successive licenses with requirements shall not be issued for more than two years.

(j) Each temporary license shall be valid for six months. If, at the expiration of that six months, the licensee has not yet commenced providing services to any person but the licensee wishes to continue efforts to market the licensee's services, a successive temporary license may be issued for another six-month period. No further extensions of a temporary license shall be granted.

(k) A license previously issued shall be voided for any of the following reasons:

(1) Issuance by mistake;

(2) a substantial change of control or ownership, as provided for in K.A.R. 30-63-10(b); or

(3) for a limited license, the licensee's cessation of provision of services to the person or persons for whom the license was specifically sought and obtained.

(l) In order to renew a license, the licensee shall reapply for a license in accordance with this regulation.

(m) If a provider is licensed pursuant to this article on or before the effective date of the amendments to this regulation, the requirements specified in either paragraphs (b)(1) and (b)(2) or paragraph (c)(2) shall not apply to any renewal request of that licensee made during the one-year period following the effective date of these amendments. (Authorized by K.S.A. 39-1810 and K.S.A. 75-3304; implementing K.S.A. 39-1806 and K.S.A. 2008 Supp. 75-3307b; effective July 1, 1996; amended Jan. 15, 2010.)

Agency 36

Kansas Department of Transportation

Editor's Note:

This agency was formerly entitled "Highway Commission." The Highway Commission was reorganized as the Department of Transportation in 1975, see L. 1975, ch. 426, § 4.

Articles

36-39. RAIL SERVICE ASSISTANCE PROGRAM.

36-42. KANSAS INTERMODAL TRANSPORTATION REVOLVING FUND.

Article 39.—RAIL SERVICE ASSISTANCE PROGRAM

36-39-2. Definitions. As used in this article, the following terms shall have the meanings specified in this regulation.

(a) "Applicant" means any qualified entity that submits an application to the secretary for a loan guarantee, a loan, or a grant.

(b) "Board" means the surface transportation board.

(c) "Equipment" means any type of new or rebuilt standard gauge locomotive or general service railroad freight car. General service railroad freight cars may include a boxcar, gondola, open-top or covered hopper car, and flatcar.

(d) "Facilities" means the following:

(1) The track, roadbed, and related structures, including rail, ties, ballast, other track materials, grading, tunnels, bridges, trestles, culverts, repair shops, connecting tracks, and public improvements used or usable for rail service operations;

(2) signals and interlockers; and

(3) terminal or yard facilities, including trailer-on-flatcar and container-on-flatcar terminals, railroad terminal and switching facilities, and service to express companies and railroads and their shippers.

(e) "F.R.A." means federal railroad administration of the United States department of transportation.

(f) "Governmental unit" means any town, city, district, county, commission, agency, authority, board, or other instrumentality of the state or of any of its political subdivisions, including any combination thereof, or a port authority established in accordance with Kansas law.

(g) "Lender" means the obligee, holder, or creditor under an obligation, except that when a bank

or trust company is acting as agent or trustee for such an obligee, holder, or creditor, pursuant to an agreement to which the obligor is a part, the term shall refer to the bank or trust company.

(h) "Loan guarantee" means a guarantee by the state of Kansas to pay off the remaining principal of a specific loan under the terms of K.A.R. 36-39-3.

(i) "Obligation" means a loan, note, conditional sale agreement, security agreement, or other obligation issued or granted to finance or refinance facilities or equipment acquisition, construction, rehabilitation, or improvement.

(j) "Obligor" means the debtor under an obligation, including the original debtor and any successor or assignee of the debtor who is approved by the secretary.

(k) "Qualified entity" means any of the following:

(1) Any class II railroad or class III railroad, as defined in 49 C.F.R. 1201.1-1(a), holding a certificate of public convenience from the surface transportation board. 49 C.F.R. 1201.1-1(a), as in effect on August 5, 2010, is hereby adopted by reference;

(2) any class I railroad, as defined in 49 C.F.R. 1201.1-1(a), which is adopted by reference in paragraph (k)(1), that holds a certificate of public convenience from the surface transportation board and is engaged in the construction and maintenance of railroads, facilities and equipment in Kansas in conjunction with the development of an intermodal facility, as defined in K.S.A. 75-5082 and amendments thereto; or

(3) any governmental unit or Kansas shipper in coordination with a railroad that seeks to facilitate the financing, acquisition, or rehabilitation of railroads, facilities, equipment, and rolling stock in the state of Kansas.

(l) “Secretary” means the secretary of the Kansas department of transportation or the secretary’s designee. (Authorized by K.S.A. 2009 Supp. 75-5046 and K.S.A. 75-5050; implementing K.S.A. 2009 Supp. 75-5046, K.S.A. 75-5047, K.S.A. 2009 Supp. 75-5048, as amended by L. 2010, ch. 156, sec. 30, and K.S.A. 2009 Supp. 75-5049; effective Aug. 30, 1993; amended July 11, 1997; amended, T-36-6-29-10, June 29, 2010; amended Oct. 15, 2010.)

36-39-4. Forms. Each applicant for a loan guarantee shall file an application on the forms provided by the Kansas department of transportation labeled and assembled using the following format:

- (a) Application summary;
- (b) exhibit “A,” description of applicant;
- (c) exhibit “B,” description of project;
- (d) exhibit “C,” description of the ratio of benefit to cost;
- (e) exhibit “D,” pro forma cash flow statement;
- (f) exhibit “E,” rehabilitation, repair, and construction cost estimate;
- (g) exhibit “F,” historic and current financial statements; and
- (h) exhibit “G,” identification of officers and directors. (Authorized by and implementing K.S.A. 2009 Supp. 75-5046; effective Aug. 30, 1993; amended, T-36-6-29-10, June 29, 2010; amended Oct. 15, 2010.)

36-39-6. Rail service financial assistance; loans and grants. (a) Compliance with the criteria in K.A.R. 36-39-1(a) shall increase the priority standing of an application for a loan or grant to be used to facilitate the financing, acquisition, or rehabilitation of railroads, facilities, equipment, and rolling stock in the state of Kansas.

(b) Monies to be loaned or granted shall originate from the rail service improvement fund.

(c) All funds loaned shall be repaid to the department of transportation within 10 years or less of the notice of acceptance of the project. The repayment shall include an interest rate established in the loan agreement between the secretary and applicant.

(d) Each application shall be submitted in the form prescribed by the Kansas department of transportation. (Authorized by K.S.A. 75-5050; implementing K.S.A. 2009 Supp. 75-5048, as amended by L. 2010, ch. 156, sec. 30, and K.S.A. 2009 Supp. 75-5049; effective Aug. 30, 1993;

amended July 11, 1997; amended, T-36-6-29-10, June 29, 2010; amended Oct. 15, 2010.)

Article 42.—KANSAS INTERMODAL TRANSPORTATION REVOLVING FUND

36-42-1. Definitions. For the purposes of this article, the following words and phrases shall be defined as follows: (a) “Act” means K.S.A. 75-5081 et seq., and amendments thereto.

(b) “Applicant” means any governmental unit or private enterprise filing an application with the secretary for financial assistance under the act.

(c) “Approved project” means the scope of work for an intermodal transportation project for which financial assistance is provided.

(d) “Debt service” means the principal, interest, and any premium required to be paid pursuant to a financial assistance agreement.

(e) “Final acceptance” means the point at which the contractor has completed all work on an approved project and the licensed professional engineer responsible for the inspection informs the department in writing that all work specified in all of the approved project contracts has been completed in substantial conformity with the plans, specifications, and any authorized revisions.

(f) “Financial assistance” means any credit enhancement, loan, or refunding or acquisition of bonds previously issued by the applicant, as approved by the secretary pursuant to the act.

(g) “Financial assistance agreement” means a contract between an applicant and the secretary confirming the purpose of the financial assistance, the amount and terms of the financial assistance, the schedule of financial assistance payments and repayments, if any, and any other agreed-upon conditions applicable to that approved project.

(h) “Inspector” means an individual who meets the following requirements:

(1) (A) Is a licensed professional engineer or is supervised by a licensed professional engineer; and

(B) Is provided by the applicant to observe the work performed and test the materials used in an approved project according to its plans and contract documents; and

(2) has successfully completed the department’s certified inspector training appropriate for the work being inspected.

(i) “Intermodal transportation project” means the acquisition, construction, improvement, repair, rehabilitation, maintenance, or extension of

any bridge, culvert, highway, road, street, underpass, railroad crossing, or combination of these, located within an intermodal transportation area for which an application has been filed for financial assistance from the fund.

(j) “KDFA” means the Kansas development finance authority established by K.S.A. 74-8903 and amendments thereto.

(k) “Licensed professional engineer” means a person licensed as a professional engineer by the state board of technical professions pursuant to K.S.A. 74-7001 et seq. and amendments thereto.

(l) “Maintenance” means a type of intermodal transportation project that extends the design life of a bridge, culvert, highway, road, street, underpass, railroad crossing, or any combination of these, but does not, as the major purpose, enhance the structural integrity.

(m) “Opened to unrestricted travel” means that all travel lanes are open to vehicle traffic and no construction speed restrictions remain in place. (Authorized by and implementing K.S.A. 2009 Supp. 75-5083; effective April 30, 2010.)

36-42-2. Application and supporting documents. (a) An application for financial assistance from the fund may be submitted to the secretary at any time.

(b) Each applicant for financial assistance for an intermodal transportation project shall submit, for the secretary’s review and consideration for approval, the following application documents:

(1) A completed financial assistance application on a form furnished by the secretary;

(2) a detailed statement that establishes the need for the intermodal transportation project;

(3) a detailed description of the intermodal facility that is used to define the intermodal transportation area where the intermodal transportation project for which the financial assistance is requested would be located;

(4) a detailed description of the cost of the intermodal facility that is used to define the intermodal transportation area where the intermodal transportation project for which the financial assistance is requested would be located;

(5) a detailed description of the intermodal transportation area and documentation that provides sufficient detail to enable the secretary to certify whether the intermodal transportation area is impacted by the intermodal facility used to define the intermodal transportation area;

(6) documentation that provides sufficient detail

regarding the intermodal transportation project to enable the secretary to determine its estimated costs, the purpose for the financial assistance, and the time period in which the financial assistance is to be used;

(7) an overall completion schedule for the intermodal transportation project, submitted in a form prescribed by the secretary; and

(8) any information as may be required and deemed relevant by the secretary that establishes to the secretary’s satisfaction that the applicant has the financial capability to satisfy its obligations under the financial assistance agreement and addresses at least the following areas:

(A) Projected economic and population growth, including assumptions made to develop the projections within the applicant’s jurisdictional boundaries, including a separate projection that indicates the incremental projected economic and population growth as a result of the intermodal transportation project;

(B) existing and forecasted debt obligations and debt service schedules of the governmental unit or private enterprise, or both, submitting the application, during the term of the financial assistance agreement; and

(C) projected total revenues, including identification of revenue sources and all assumptions made to develop the projection of the governmental unit or private enterprise, or both, submitting the application, during the term of the financial assistance agreement, including a separate projection that indicates the incremental projected revenues as a result of the intermodal transportation project. (Authorized by K.S.A. 2009 Supp. 75-5083; implementing K.S.A. 2009 Supp. 75-5086; effective April 30, 2010.)

36-42-3. Intermodal transportation project; eligibility. (a) For an intermodal transportation project to be eligible for financial assistance, the following requirements shall be met:

(1) The qualified borrower shall provide the secretary with the applicant’s written assurance of the following:

(A) The qualified borrower shall use a licensed professional engineer to design the intermodal transportation project, if approved, in accordance with the then-existing generally recognized and prevailing engineering standards and with the federal and state laws and regulations applicable at the time of design, which shall include any subsequent design revisions for the approved project.

(B) The intermodal transportation project, if approved, shall be inspected by an inspector, who shall provide reasonable assurance that the approved project is constructed in substantial conformity with its plans, specifications, and any authorized revisions.

(C) The construction of the intermodal transportation project, if approved, shall conform to its plans, specifications, and any authorized revisions.

(D) The plans and specifications for the intermodal transportation project, if approved, shall not be revised or deviated from without the approval of the approved project's designer.

(2) The intermodal transportation project shall be consistent with the existing or planned state highway system, or both, pursuant to K.S.A. 68-406 and amendments thereto.

(b) No portion of an intermodal transportation project's cost shall be eligible for financial assistance under the act if a federal reimbursement has been received for the same portion of the cost. (Authorized by and implementing K.S.A. 2009 Supp. 75-5083; effective April 30, 2010.)

36-42-4. Fund use. The fund shall be used to finance or refinance approved projects, with priority given to the following types of financial assistance:

(a) Loans for all or part of an approved project;

(b) guarantees, security, or another type of credit enhancement, or any combination of these, as may be approved by the secretary for bonds to be issued by KDFA or an applicant; and

(c) the refunding or acquisition of bonds issued by an applicant. (Authorized by K.S.A. 2009 Supp. 75-5083; implementing K.S.A. 2009 Supp. 75-5084; effective April 30, 2010.)

36-42-5. Financial assistance agreement; requirements. Each financial assistance agreement entered into pursuant to the act shall meet the following requirements: (a) The financial assistance shall not exceed the total cost of the approved project.

(b) The term of any financial assistance shall not exceed the shortest of the following periods:

(1) The economic life of the approved project;

(2) the term of any bonds issued to finance the approved project; and

(3) 30 years.

(c) If any debt service is required, the debt service shall be guaranteed by the applicant in a manner consistent with the applicant's approved application.

(d) The financial assistance agreement shall contain the following sentences:

(1) "All work performed and all materials furnished for the approved project shall be in reasonably close conformity with the plans, specifications, and revisions, which have been approved by the designer of the approved project."

(2) "Technical advice or assistance, or both, provided by the secretary to an applicant pursuant to section six of the act, and amendments thereto, shall not be construed as an undertaking by the secretary of the duties of the applicant or the approved project's owner, or both, or the duties of any consultant, licensed professional engineer, or inspector hired by the applicant or the approved project's owner." (Authorized by K.S.A. 2009 Supp. 75-5083; implementing K.S.A. 2009 Supp. 75-5086; effective April 30, 2010.)

36-42-6. Interest rate and servicing fees. Financial assistance that is required to be repaid under the terms of the financial assistance agreement shall bear interest in accordance with the applicable financial assistance agreement, at a rate set by the secretary. The financial assistance agreement may also establish fees for servicing the financial assistance. (Authorized by K.S.A. 2009 Supp. 75-5083; implementing K.S.A. 2009 Supp. 75-5084 and 75-5086; effective April 30, 2010.)

36-42-7. Repayment of financial assistance. (a) All debt service shall be paid in accordance with the terms and conditions of the financial assistance agreement.

(b) If any financial assistance is prepaid in whole or in part, the prepayment shall be made in accordance with the terms and conditions of the financial assistance agreement.

(c) If a recipient of monies from the fund subsequently receives federal reimbursement for the same costs of an approved project for which financial assistance was received, the recipient shall repay to the secretary those fund monies in an amount equal to the federal reimbursement received, within 30 days after receipt of the federal reimbursement. (Authorized by K.S.A. 2009 Supp. 75-5083; implementing K.S.A. 2009 Supp. 75-5086; effective April 30, 2010.)

36-42-8. Approved project statements. (a) Each financial assistance recipient shall provide the secretary, when the approved project is opened to unrestricted travel, with the written statement of the recipient's licensed professional

engineer unqualifiedly indicating that, at the time of design, the plans, specifications, and any authorized revisions for the approved project followed the then-existing generally recognized and prevailing engineering standards and were in compliance with the applicable federal and state laws and regulations.

(b) Each financial assistance recipient shall provide the secretary with the statement of the recipient's inspector indicating that the approved project was constructed in reasonable conformity with its plans, specifications, and any authorized revisions, at each of the following times:

(1) At the time when the approved project is opened to unrestricted travel; and

(2) at the time of the final acceptance. (Authorized by and implementing K.S.A. 2009 Supp. 75-5083; effective April 30, 2010.)

36-42-9. Approved project costs; accounting requirement. Each financial assistance recipient shall maintain an accounting system that segregates and accumulates all project costs for the approved project. Any project costs may be reviewed or audited, or both, by the secretary at any time during the construction of the approved project and after completion of the approved project. (Authorized by K.S.A. 2009 Supp. 75-5083; implementing K.S.A. 2009 Supp. 75-5086; effective April 30, 2010.)

Article 1.—GENERAL

40-1-20. Same; subrogation clause prohibited for certain coverages. No insurance company or health insurer, as defined in K.S.A. 40-4602 and amendments thereto, may issue any contract or certificate of insurance in Kansas containing a subrogation clause, or any other policy provision having a purpose or effect similar to that of a subrogation clause, applicable to coverages providing for reimbursement of medical, surgical, hospital, or funeral expenses. (Authorized by K.S.A. 40-103; implementing K.S.A. 40-2204; effective Jan. 1, 1966; amended Jan. 1, 1967; amended May 1, 1985; amended May 1, 1986; amended May 1, 1987; amended March 1, 2013.)

40-1-22. Insurance policies and certificates; change of name or merger of an insurance company; assumption of risk endorsements. (a) Each assuming company shall attach to each insurance policy and each certificate of accident and sickness coverage an "assumption of risk" endorsement that displays the name and address of the assuming company when any outstanding insurance policy or certificate of accident and sickness coverage issued to a resident of Kansas is affected by any of the following:

- (1) A change in the name of the issuing company;
- (2) a merger, consolidation, or similar transaction involving the issuing company;
- (3) a change of domicile in which policy liability is assumed by another company; or
- (4) an assumption reinsurance agreement.

(b) The "assumption of risk" endorsement shall be approved by the commissioner of insurance before issuance to residents of the state of Kansas.

(c) Each "assumption of risk" endorsement originating from an assumption reinsurance agreement shall meet the following requirements:

(1) Not require the insured to take affirmative action to reject the substitution of one insurer for another; and

(2) not state that failure to reject the substitution or the continued payment of premium will constitute acceptance of the substitution. (Authorized by K.S.A. 40-103; implementing K.S.A. 2010 Supp. 40-221a, K.S.A. 2010 Supp. 40-309, and K.S.A. 40-510; effective Jan. 1, 1967; amended May 1, 1979; amended May 1, 1986; amended March 28, 1994; amended June 24, 2011.)

40-1-28. Insurance holding companies; reporting forms and instructions. The Kansas insurance department's "policy and procedure providing insurance holding company system reporting forms and instructions," dated December 10, 2014, is hereby adopted by reference. (Authorized by K.S.A. 40-103, K.S.A. 2014 Supp. 40-3309; implementing K.S.A. 2014 Supp. 40-3304, 40-3305, and 40-3306; effective May 1, 1976; amended May 1, 1979; amended May 1, 1986; amended May 1, 1988; amended May 15, 1989; amended, T-40-9-26-91, Sept. 26, 1991; amended Dec. 16, 1991; amended Jan. 31, 2014; amended March 27, 2015.)

40-1-37. Audited financial reports; filing requirements. The Kansas insurance department's "policy and procedure requiring annual

audited financial reports,” dated November 30, 2016, is hereby adopted by reference. (Authorized by K.S.A. 40-103 and 40-225; implementing K.S.A. 40-222b, K.S.A. 2016 Supp. 40-222, and K.S.A. 40-225; effective July 10, 1989; amended Jan. 4, 1993; amended Sept. 14, 2001; amended Sept. 21, 2007; amended July 6, 2009; amended March 18, 2011; amended June 29, 2012; amended Jan. 31, 2014; amended Feb. 27, 2015; amended Aug. 18, 2017.)

40-1-38. Insurance companies; hazardous financial condition; standards; corrective actions. The Kansas insurance department’s “policy and procedure for companies deemed to be in hazardous financial condition,” dated August 4, 2009, is hereby adopted by reference. (Authorized by K.S.A. 40-103; implementing K.S.A. 40-222b and K.S.A. 40-222d; effective, T-40-9-26-91, Sept. 26, 1991; effective Jan. 6, 1992; amended Nov. 20, 2009.)

40-1-48. Risk-based capital instructions for health organizations. The following document prepared by the national association of insurance commissioners is hereby adopted by reference:

“2016 NAIC health risk-based capital report including forecasting and instructions for companies as of December 31, 2016,” including the appendices and excluding the unnumbered page titled “companion products” and the preceding unnumbered page; the NAIC health risk-based capital newsletter, volume 18.1, dated August 2016; pages i through iii; pages 18 through 24 titled “underwriting risk – XR012-A (for informational purposes only)”; pages 36 and 37 titled “operational risk informational section instructions (for informational purposes only) XR022”; the last sentence on page 40; page XR012-A titled “underwriting risk (for informational purposes only) experience fluctuation risk”; page XR022 titled “operational risk XR022 (for informational purposes only)”; the health risk-based capital forecasting spreadsheet instructions; and the “health forecasting” CD-ROM attached to the inside back cover. (Authorized by K.S.A. 40-2d29; implementing K.S.A. 40-2d01(f), K.S.A. 2017 Supp. 40-2d02(a), K.S.A. 40-2d03(a), and K.S.A. 2017 Supp. 40-2d05; effective Dec. 28, 2001; amended July 5, 2002; amended Oct. 17, 2003; amended April 23, 2004; amended March 17, 2006; amended Dec. 1, 2008; amended Jan. 3, 2011; amended

June 29, 2012; amended Jan. 31, 2014; amended Feb. 27, 2015; amended Aug. 18, 2017; amended April 20, 2018.)

Article 2.—LIFE INSURANCE

40-2-14a. Life insurance and annuities; recommendation standards. The Kansas insurance department’s “policy and procedure regarding suitability in annuity transactions,” dated November 29, 2012, is hereby adopted by reference.

This regulation shall be effective on and after June 1, 2013. (Authorized by K.S.A. 40-103, K.S.A. 2012 Supp. 40-4916, and K.S.A. 40-2404a; implementing K.S.A. 2012 Supp. 40-222, K.S.A. 40-2403, K.S.A. 2012 Supp. 40-2404, K.S.A. 40-2407, and K.S.A. 2012 Supp. 40-4916; effective May 20, 2005; amended Dec. 2, 2005; amended June 1, 2013.)

40-2-18. Annuities; mortality tables; permits; effective dates. The Kansas insurance department’s “policy and procedure recognizing a new annuity mortality table for use in determining reserve liabilities for annuities,” dated January 29, 2016, including the appendices, is hereby adopted by reference. (Authorized by K.S.A. 40-103; implementing K.S.A. 2015 Supp. 40-428; effective May 1, 1986; amended May 20, 2016.)

40-2-20. Life insurance; accelerated benefits; contract requirements and restrictions. (a) As used in this regulation or in a life insurance or annuity contract providing for accelerated benefits, each of the following terms shall have the meaning specified in this subsection:

(1) “Accelerated benefits” means benefits that meet the following conditions:

(A) Are payable under an individual or group life insurance or annuity contract to a policyowner or certificate holder during the lifetime of the insured for the occurrence of a qualifying condition;

(B) reduce the death or annuity benefit otherwise payable under the contract; and

(C) are payable upon the occurrence of a qualifying condition, which results in the payment of a benefit amount fixed at the time of acceleration.

(2) “Commissioner” means commissioner of insurance.

(3) “Elimination period” means a specified period of time during which the insured continuously meets the requirements of a qualifying condition before an accelerated benefit becomes payable.

(4) “Qualifying condition” means a prerequisite designated in a contract for the payment of accelerated benefits. Each contract providing for accelerated benefits shall include as a qualifying condition a medical condition that a health care provider licensed to practice medicine and surgery or osteopathy predicts will result in a limited life expectancy of 24 months or less. Any contract providing for accelerated benefits may include any of the following as a qualifying condition:

(A) A medical condition that has required or requires extraordinary medical intervention, including a major organ transplant or continuous artificial life support, without which the insured would die;

(B) any condition that is reasonably expected to require continuous confinement in an eligible institution as defined in the contract if the insured is expected to remain there for the rest of the insured's life;

(C) a medical condition that medical evidence indicates would, in the absence of extraordinary medical intervention, result in a limited life expectancy of 24 months or less;

(D) a chronic illness, which shall mean either of the following:

(i) An illness that renders the insured permanently unable to perform, without substantial assistance from another individual, a specified number of activities of daily living, except that a company's definition of chronic illness shall not require the inability to perform more than two activities of daily living; or

(ii) permanent severe cognitive impairment and similar forms of dementia; or

(E) any other similar condition approved by the commissioner as a qualifying condition.

(b) Each contract providing for an accelerated benefit shall have a title printed on or attached to the first page of the contract or rider. The title shall describe the coverage provided and shall be followed or accompanied by a description of the coverage containing the phrase “accelerated benefit” or words of similar meaning.

(c) Each applicant for a contract providing for an accelerated benefit shall be given a summary of the accelerated benefit provisions at or before the time the application is completed. For group policies, each certificate holder shall be given a copy of the summary with the certificate. This summary shall include the following:

(1) A brief description of the accelerated benefit and definitions of the qualifying conditions that would result in payment of the benefit;

(2) the existence and amount of any separately identifiable premium for the accelerated benefit and a description of any charge for administrative expense;

(3) a generic illustration numerically demonstrating the effect of the payment of a benefit on cash values, accumulation accounts, death benefits, premiums, policy loans, and policy liens;

(4) a statement that receipt of the accelerated benefit could be taxable;

(5) a statement that receipt of accelerated benefits could affect medicaid eligibility; and

(6) an acknowledgement, signed and dated by the agent and the applicant for the group or individual coverage, that the summary has been furnished. Each direct response insurer shall incorporate the summary and acknowledgement in the application or attach them to the application.

(d) Contract payment options shall include the option to take the accelerated benefit as a lump sum. The accelerated benefit shall not be made available as an annuity contingent upon the life of the insured.

(e) No contract shall restrict the use of the proceeds.

(f) No contract shall limit the time frame within which a claim must be submitted following the occurrence of a qualifying condition.

(g) If the accelerated benefit is offered without an additional premium, a separate written explanation of how the accelerated benefit is funded shall be filed with the commissioner and included with the summary.

(h) Each time an accelerated benefit is requested and whenever a previous summary becomes invalid, the irrevocable beneficiary and either the individual policyowner or group certificate holder shall be given a summary. This summary shall include statements meeting the following conditions:

(1) Warning that receipt of the accelerated benefit could be taxable and that assistance from a tax advisor is suggested;

(2) showing the effect that the payment of the accelerated benefit will have on cash values, accumulation accounts, death benefits, premiums, policy loans, and policy liens; and

(3) disclosing that receipt of accelerated benefit payments may adversely affect the recipient's eligibility for medicaid or other government benefits or entitlements.

(i) Each time an accelerated benefit option is exercised, the policyowner and certificate holder

shall be given an endorsement, rider, or schedule page that reflects any revisions to cash values, death benefits, accumulation accounts, premiums, policy loans, policy liens, and any other values that change as a result of the payment or payments.

(j) Insurers shall not unfairly discriminate among insureds with different or similar qualifying conditions covered under the policy. Insurers shall not apply any additional conditions to the payment of the accelerated benefits other than those conditions specified in the policy or rider.

(k) Any insurer may offer a waiver of premium for the accelerated benefit provision if a regular waiver of premium provision is not in effect. When the accelerated benefit is claimed, the insurer shall explain any continuing premium requirement to keep the policy in force.

(l) Accelerated benefits shall be funded by any of the following methods:

(1) Requiring the policyowner to pay an additional premium;

(2) utilizing the present value of the face amount of the policy if the following conditions are met:

(A) The present value calculation is based on an actuarial discount appropriate to the policy design;

(B) the interest rate used in the present value calculation is based on sound actuarial principles and disclosed in the contract or actuarial memorandum; and

(C) the maximum interest rate is no more than the greater of either of the following:

(i) The current yield on 90-day treasury bills; or

(ii) the current maximum policy loan interest rate permitted by K.S.A. 40-420c, and amendments thereto; or

(3) accruing an interest charge on the amount of the accelerated benefits at an interest rate based on sound actuarial principles and disclosed in the contract or actuarial memorandum and no more than the greater of either of the following:

(A) The current yield on 90-day treasury bills; or

(B) the current maximum policy loan interest rate permitted by K.S.A. 40-240c, and amendments thereto.

(m) When an accelerated benefit is payable, no more than a proportionate reduction in the cash value shall be made, unless the payment of the accelerated benefits and any accrued interest can be treated as a lien against the death benefit of the policy or rider. Therefore, access to the cash value may be restricted to any excess of the cash value over the sum of any other outstanding loans,

and the lien and access to additional policy loans may be limited to the difference between the cash value and the sum of the lien and any other outstanding policy loans on the policy under which the accelerated benefits were paid.

(n) (1) If payment of an accelerated benefit results in a proportionate reduction in the cash value, the payment shall not be applied toward repaying an amount greater than a proportionate portion of any outstanding policy loans; or

(2) if the payment is considered a lien as provided in subsection (m), the insurance company may require any accelerated death benefit payment to be applied toward repaying the portion of any other outstanding policy loan that causes the sum of the accelerated benefit and policy loan to exceed the cash value.

(o) The death benefit shall not be reduced more than the amount of the accelerated benefits after adjustment for any actuarial discount or accrued interest as provided in subsection (l) and any administrative expense charge required by policies providing accelerated benefits without an additional premium charge as disclosed on the summary required by subsection (c).

(p) If any death benefit remains after payment of an accelerated benefit, the accidental death benefit, if any, in a policy or rider shall not be affected by the payment of an accelerated benefit.

(q) The valuation method and assumptions used to produce the accelerated benefit provisions shall be filed with the insurance department with the related policy form or rider. The assumptions shall reflect the statutory mortality and interest rate assumptions for the life insurance provisions and appropriate assumptions for the other provisions incorporated in the policy or rider. Each insurer shall maintain in its files descriptions of the bases and procedures used to calculate benefits, which shall be made available for examination by the commissioner or a designee upon request.

(r) A qualified actuary shall describe the accelerated benefits, the risks, the expected costs, and the calculation of statutory reserves in an actuarial memorandum accompanying each filing of accelerated benefits products with the commissioner. Each insurer shall maintain in its files descriptions of the bases and procedures used to calculate benefits payable under these provisions. These descriptions shall be made available for examination by the commissioner upon request.

(1) If benefits are provided through the acceleration of benefits under group or individual life

policies or riders to these policies, policy reserves shall be determined in accordance with the standard valuation law. All valuation assumptions used in constructing the reserves shall be determined as appropriate for statutory valuation purposes by a member in good standing of the American academy of actuaries. Mortality tables and interest rates currently recognized for life insurance reserves by the national association of insurance commissioners, as well as appropriate assumptions for other provisions incorporated in the contract, may be used. The actuary shall follow both actuarial standards and certification for good and sufficient reserves. Reserves in the aggregate shall be sufficient to cover the following:

(A) Policies upon which no claim has yet arisen; and

(B) policies upon which an accelerated claim has arisen.

(2) For policies and certificates that provide actuarially equivalent benefits, no additional reserves shall be required to be established.

(3) Policy liens and policy loans, including accrued interest, shall represent assets of the company for statutory reporting purposes. For any policy on which the policy lien exceeds the policy's statutory reserve liability, the excess shall be held as a non-admitted asset.

(s) The accelerated benefit provision shall become effective on the effective date of the policy or rider.

(t) Any contract may include an elimination period for the qualifying conditions of continuous confinement and chronic illness, other than chronic illness meeting the requirements of 26 U.S.C. sections 7702B and 202(g) of the United States internal revenue code or any subsequent corresponding internal revenue code, as amended. The elimination period shall not exceed 90 days from the time the qualifying condition first manifests itself after the effective date of the contract.

(u) The individual and group life insurance and annuity contracts subject to this regulation shall not be described or marketed as being long-term care insurance or as providing long-term care benefits. (Authorized by K.S.A. 40-103 and K.S.A. 2014 Supp. 40-401; implementing K.S.A. 2014 Supp. 40-401; effective, T-40-11-29-90, Nov. 29, 1990; effective April 15, 1991; amended Feb. 9, 2007; amended Nov. 30, 2015.)

40-2-28. Preneed insurance contracts; minimum standards for determining re-

serves. The Kansas insurance department's "policy and procedure pertaining to preneed life insurance minimum standards for determining reserve liabilities and nonforfeiture values," except section 1, dated November 25, 2008, is hereby adopted by reference. (Authorized by K.S.A. 40-103 and K.S.A. 40-409; implementing K.S.A. 40-409; effective March 27, 2009.)

Article 3.—FIRE AND CASUALTY INSURANCE

40-3-30. Fire and casualty insurance; assigned risk plans; forms and procedures. (a) Each insurance company authorized to transact fire and casualty business in this state shall inform its certified agents of the following:

(1) The Kansas assigned risk plans, their availability, eligibility, and other related procedures; and

(2) the location of forms necessary to place risks in the various Kansas assigned risk plans.

(b) All agents shall be informed of the assigned risk plans upon their initial appointment. All appointed agents shall be informed of the assigned risk plans at least annually.

(c) This regulation shall apply only to agents certified to write insurance for which a Kansas assigned risk plan is available. (Authorized by K.S.A. 40-103; implementing K.S.A. 40-2102 and 40-2109; effective Jan. 1, 1969; amended May 1, 1979; amended May 1, 1986; amended Feb. 13, 2009.)

40-3-33. (Authorized by K.S.A. 40-103, 40-2116; implementing K.S.A. 40-2101; effective, E-69-3, Oct. 7, 1968; amended, E-69-5, Jan. 8, 1969; effective Jan. 1, 1970; amended, E-70-41, Sept. 1, 1970; amended Jan. 1, 1970; amended May 1, 1988; amended Nov. 29, 1993; amended July 30, 1999; revoked March 25, 2011.)

40-3-43. Title insurance; controlled business; definitions; requirements. (a) For purposes of K.S.A. 40-2404(14)(f) through (i) and amendments thereto, the following terms shall have the meanings specified in this subsection:

(1) "Closed title order" shall mean an order for which a policy or policies of title insurance have actually been issued.

(2) "Controlled business" shall mean any portion of a title insurer's or title agent's business in this state that was referred by any producer of title business if the producer of title business

with a financial interest in the title insurer or title agent to which the business is referred initiates the referral.

(3) "Title insurance order" shall mean an order for an owner's title insurance policy or an order for a loan policy of title insurance, or both. Each pair of orders for an owner's title insurance policy and a loan policy of title insurance to be issued simultaneously for the same real estate transaction shall constitute one order. The policies of title insurance issued under this transaction shall constitute one closed title order only if both policies are issued by the same title insurer or title agency.

(b) Each title agent shall keep all records of escrow operations and escrow trust accounts for at least three years. (Authorized by K.S.A. 40-103, K.S.A. 40-1140, and K.S.A. 2009 Supp. 40-2404; implementing K.S.A. 40-1138 and K.S.A. 2009 Supp. 40-2404; effective, T-40-7-27-89, July 27, 1989; effective Sept. 11, 1989; amended March 10, 2006; amended Sept. 24, 2010.)

40-3-56. Controlled insurance programs. Each controlled insurance program providing coverage for general liability or workers compensation, or both, shall meet the following requirements:

(a) Establish a method for the quarterly reporting of the participant's respective claims details and loss information to that participant;

(b) provide that cancellation of any or all of the coverage provided to a participant before completion of work on the applicable project shall require the owner or contractor who establishes a controlled insurance program to either replace the insurance or pay the subcontractor's cost to do so;

(c) not charge enrolled participants who are not the sponsoring participants a deductible in excess of \$2,500 per occurrence or a per claim assessment by the sponsor;

(d) keep self-insured retentions fully funded or collateralized by the owner or contractor establishing the controlled insurance program, except that this subsection shall not apply to deductible programs;

(e) disclose specific requirements for safety or equipment before accepting bids from contractors and subcontractors on a construction project; and

(f) allow monetary fines for alleged safety violations to be assessed only by government agencies. (Authorized by K.S.A. 40-103 and 2009 HB 2214,

sec. 3; implementing 2009 HB 2214, sec. 3; effective Oct. 30, 2009.)

40-3-57. Controlled insurance programs including general liability. Each controlled insurance program including general liability coverage for the participants shall require the following:

(a) Coverage for completed operations liability shall not, after substantial completion of a construction project, be canceled, lapse, or expire before the limitation on actions has expired as established by K.S.A. 60-513(b), and amendments thereto, but in no case more than 10 years. If another carrier takes responsibility for completed operations liability coverage, any and all prior completed operation liability carriers shall be released from completed operations liability unless specified otherwise in subsequent policies.

(b) General liability coverage shall not be required of project participants except for liabilities not arising on the site or sites of the construction project, and any coverage maintained by the participants shall cover liabilities not arising on the site or sites of the construction project.

(c) The general liability coverage provided to participants shall provide for severability of interest, except with respect to limits of liability, so that participants shall be treated as if separately covered under the policy.

(d) Participants shall be given the same shared limits of liability coverage as those that apply to the sponsoring participant under the controlled insurance program.

(e) Participants shall not be required to waive rights of recovery for claims covered by the controlled insurance program against another participant in the controlled insurance program covered by general liability insurance provided by the controlled insurance program. (Authorized by K.S.A. 40-103 and 2009 HB 2214, sec. 3; implementing 2009 HB 2214, sec. 3; effective Oct. 30, 2009.)

40-3-58. Controlled insurance programs including workers compensation liabilities. Each controlled insurance program including coverage for workers compensation liabilities of the participants shall require the following:

(a) Workers compensation coverage shall include all workers compensation for which payroll attributable to the contractual agreement has been reported and the premiums collected covering all services performed incidental to, arising out of, or emanating from the construction site

or sites and the coming or going to or from the site or sites. Nothing in this regulation shall be construed to expand, reduce, or otherwise modify current statutory law, regulations, or judicial decisions regarding the scope of workers compensation obligations regarding off-site injuries. This regulation shall be limited to requiring that any controlled insurance program provide coverage for the work-related off-site injuries only to the extent that the injuries would otherwise be covered under existing law and regulations. This regulation shall be construed to require that any controlled insurance program provide coverage for work-related off-site injuries to the extent that the injuries would be covered under existing law as interpreted by the courts.

(b) Participants shall not be required to provide employment to a worker who has been injured on the job unless both of the following conditions are met:

(1) The worker's treating health care provider certifies that the worker is fit to perform the participant's work on the job site consistent with the treating physician's limitations.

(2) The employer has the preinjury job or modified work available. (Authorized by K.S.A. 40-103, 2009 HB 2214, sec. 3, and 2009 HB 2214, sec. 4; implementing 2009 HB 2214, sec. 3 and sec. 4; effective Oct. 30, 2009.)

40-3-59. Workers compensation policies.

(a) For the purpose of this regulation and K.S.A. 40-955 and amendments thereto, each of the following terms shall have the meaning specified in this subsection:

(1) "Advisory organization" means an entity licensed by the commissioner for the reporting of claims and experience data for the administration of the workers compensation experience rating system.

(2) "Client" has the meaning specified in L. 2012, ch. 142, § 2, and amendments thereto.

(3) "Covered employee" has the meaning specified in L. 2012, ch. 142, § 2, and amendments thereto.

(4) "Master policy" means a single policy issued to a professional employer organization or professional employer group for the covered employees and any direct-hire employees of the professional employer organization or the professional employer group.

(5) "Multiple coordinate policy" means an agreement under which a separate policy is is-

sued to or on behalf of each client or group of affiliated clients of a professional employer organization or a professional employer group, but payment of obligations and certain policy communications are coordinated through the professional employer organization or the professional employer group. This term is also known as a "multiple coordinated policy."

(6) "Professional employer group" has the meaning specified in L. 2012, ch. 142, § 2, and amendments thereto.

(7) "Professional employer organization" has the meaning specified in L. 2012, ch. 142, § 2, and amendments thereto.

(8) "Shared employment relationship" means "co-employment relationship" as defined in L. 2012, ch. 142, § 2, and amendments thereto.

(b) When submitting a master policy to the commissioner for examination, the insurer's filing shall include a detailed rule stating the manner in which the insurer will track and report payroll and claims data for each client to the advisory organization in a manner that identifies both the client and the professional employer organization and that is acceptable to the advisory organization. The adjustment of annual premiums based on previous loss experience, which is also known as experience rating modification, shall be calculated for each client as if the client were the sole employer of the client's covered employees. Failure of the insurer to provide this detailed rule with the insurer's filing to the commissioner shall result in the disapproval of the master policy.

(c) Each master policy shall cover only one professional employer organization or professional employer group.

(d) Each master policy shall be issued in the name of the professional employer organization or professional employer group and shall require that each covered client hold a certificate of coverage identifying that client as an alternate employer.

(e) Each insurer or its authorized representative shall issue a certificate of coverage to each client covered under a master policy. Each certificate of coverage shall meet the following requirements:

(1) The certificate of coverage shall specify the effective date of the client's coverage and the expiration date of the underlying master policy. A renewal certificate of coverage shall be issued to each client each time the master policy is renewed. If the insurer cancels the master policy for nonpayment of premium, the insurer shall give the professional employer organization or profes-

sional employer group and each client at least 10 days' written notice before the effective date of cancellation.

(2) The certificate of coverage shall provide that the client is entitled to 30 days' notice before coverage can be cancelled or nonrenewed with the client's consent, unless either of the following conditions is met:

(A) Replacement coverage is provided by the professional employer organization or professional employer group with no break in coverage.

(B) The insurer has notified the client when the certificate of coverage is first issued that the master policy will be cancelled or nonrenewed in less than 30 days.

(f) Cancellation or nonrenewal of a client's coverage at the initiative of the professional employer organization or professional employer group without the written consent of the client shall not be effective, unless at least one of the following conditions is met:

(1) The insurer has given at least 30 days' advance notice to the client.

(2) The professional employer organization or professional employer group has given at least 30 days' advance notice to the insurer and the client.

(3) Coverage for all covered clients has been replaced with no break in coverage, and the professional employer organization has given advance notice to the insurer and the clients.

(g) Each professional employer organization or professional employer group shall be responsible for payment to the insurer of any premiums, policyholder assessments, and deductible reimbursement charges under a master policy or a multiple coordinated policy, whether or not the professional employer organization or professional employer group has received timely payment from the client. A client's failure to pay any fees to the professional employer organization or professional employer group when the fees are due shall not constitute nonpayment of premium pursuant to K.S.A. 40-2,120, and amendments thereto, or K.A.R. 40-3-15. (Authorized by K.S.A. 40-103 and K.S.A. 2012 Supp. 40-955; implementing K.S.A. 2012 Supp. 40-955; effective Jan. 31, 2014.)

40-3-60. Workers compensation; affidavit of exempt status. Each company that underwrites workers compensation insurance in Kansas shall accept each executed affidavit of exempt status provided by each insured, pursuant to K.S.A. 2016 Supp. 44-5,127 and amendments thereto,

unless there is sufficient evidence that the individual who signed the affidavit is required to be covered under the workers compensation act. (Authorized by and implementing K.S.A. 2016 Supp. 44-5,127; effective March 2, 2018.)

Article 4.—ACCIDENT AND HEALTH INSURANCE

40-4-29a. Same; renewability of individual hospital, medical, or surgical expense policy. (a) Except as specifically authorized by K.S.A. 40-2257(b) and amendments thereto, an insurer shall not terminate an individual hospital, medical, or surgical expense policy for any insured who is eligible for medicare if the insured wishes to continue the individual's coverage.

(b) Each insurer shall mail to its current individual medical policyholders approaching the age of 65 or medicare eligibility a notice provided by the Kansas insurance department explaining the options available to them. (Authorized by K.S.A. 40-103 and 40-2257(i); implementing K.S.A. 40-2257; effective Jan. 12, 2007; amended Sept. 18, 2015.)

40-4-34. Accident and health insurance; coordination of benefits. The Kansas insurance department's "policy and procedure relating to coordination of benefits," dated January 27, 2016, including the appendices, is hereby adopted by reference. (Authorized by K.S.A. 40-103, 40-2404a; implementing K.S.A. 2015 Supp. 40-2404; effective May 1, 1981; amended May 1, 1982; amended May 1, 1984; amended May 1, 1985; amended, T-86-13, May 9, 1985; amended May 1, 1986; amended May 1, 1987; amended Feb. 19, 1999; amended May 13, 2016.)

40-4-35. Medicare supplement policies; minimum standards. (a) The Kansas insurance department's "policy and procedure to implement medicare supplement insurance minimum standards," including the appendices, dated May 18, 2017, is hereby adopted by reference, except for sections 1, 2, 25, and 26 and page 651-120.

(b) This regulation shall supersede any other Kansas insurance department regulation to the extent that the other regulation or any provision of it is inconsistent with or contrary to this regulation.

(c) If any provision of the document adopted in subsection (a) or the application of any provision of this document to any person or circumstance is for any reason deemed invalid, the remainder of

this regulation and the application of the provision to other persons or circumstances shall not be affected. (Authorized by K.S.A. 40-103, K.S.A. 40-2221, and K.S.A. 40-2404a; implementing K.S.A. 2016 Supp. 40-2215, K.S.A. 40-2221, and K.S.A. 40-2404; effective May 1, 1982; amended May 1, 1984; amended May 1, 1986; effective, T-40-12-16-88, Dec. 16, 1988; amended, T-40-3-31-89, March 31, 1989; amended June 5, 1989; amended Oct. 15, 1990; amended April 1, 1992; amended May 24, 1996; amended, T-40-3-18-99, April 29, 1999; amended Aug. 20, 1999; amended Jan. 1, 2001; amended Sept. 7, 2001; amended Aug. 26, 2005; amended June 26, 2009; amended Sept. 8, 2017.)

40-4-36. Accident and sickness insurance; conversion policies; reasonable notice of right to convert. (a) The requirements for reasonable notice by the insurer of the right to convert specified in K.S.A. 40-19c06, K.S.A. 40-2209, and K.S.A. 40-3209, and amendments thereto, shall be fulfilled if, during the 18-month continuation period, a form meeting the following requirements is transmitted to the person eligible for conversion:

- (1) Describes the conversion options;
 - (2) describes the premiums or subscriber's charges for each option;
 - (3) provides instructions regarding the action required to effect conversion; and
 - (4) describes the availability of types of coverage through the Kansas health insurance association.
- (b) Insurers may include provisions in their group policies, subscription agreements, and certificates of coverage that are necessary to identify or obtain identification of persons and events that would activate the continuation and conversion rights created by K.S.A. 40-19c06, K.S.A. 40-2209, and K.S.A. 40-3209, and amendments thereto. (Authorized by K.S.A. 40-103 and K.S.A. 2007 Supp. 40-2209, as amended by L. 2008, Ch. 164, §5; implementing K.S.A. 2007 Supp. 40-19c06, as amended by L. 2008, Ch. 164, §3, 40-2209, as amended by L. 2008, Ch. 164, §5, and 40-3209, as amended by L. 2008, Ch. 164, §7; effective, T-86-3, Jan. 9, 1985; effective May 1, 1985; amended May 1, 1986; amended May 29, 1998; amended April 25, 2003; amended Sept. 4, 2009.)

40-4-37e. Long-term care insurance; prohibitions. Each long-term care policy shall be prohibited from the following:

- (a) Containing more than one elimination period for periods of confinement in a nursing home that are due to the same or related causes and separated from each other by less than six months;
- (b) excluding coverage for confinement to an intermediate nursing facility if benefits for nursing care are provided;
- (c) providing coverage for skilled nursing care only or providing significantly more coverage for skilled care in a facility than coverage for lower levels of care;
- (d) being delivered or issued for delivery to any person in this state, unless every printed portion of the text of the policy is plainly printed in not less than 10-point type;
- (e) requiring prior confinement to a hospital or prior confinement for a greater level of nursing care as a condition for paying inpatient benefits;
- (f) being delivered in this state, unless the following notice is attached to the policy:

"IMPORTANT NOTICE

Please read the copy of the application attached to this policy. Carefully check the application and write to the company within 30 days if any information shown is incorrect or incomplete or if any past medical history has been left out of the application. This application is a part of the policy and the policy was issued on the basis that answers to all questions and the information shown on the application are correct and complete."

This statement, preferably in the form of a sticker to be placed on the policy, shall be printed in a prominent manner on paper or in ink of a contrasting color. The insurer may, with the approval of the commissioner of insurance, substitute wording of similar import if equal results are obtained. This requirement shall not apply if the application for insurance is not attached to and made a part of the contract;

- (g) being cancelled, nonrenewed, or otherwise terminated on the grounds of the age or the deterioration of the mental or physical health of the insured individual or certificate holder; and
- (h) if the policy provides benefits for home health care or community care services, limiting or excluding benefits by any of the following means:
 - (1) Requiring that the insured or claimant would need care in a skilled nursing facility if home health care services were not provided;
 - (2) requiring that the insured or claimant first or simultaneously receive nursing or therapeutic

services in a home, community, or institutional setting before home health care services are covered;

(3) limiting eligible services to services provided by registered nurses or licensed practical nurses;

(4) requiring that a nurse or therapist provide services covered by the policy if the services can be provided instead by a home health aide or other licensed or certified home care worker acting within the scope of the home care worker's licensure or certification;

(5) excluding coverage for personal care services provided by a home health aide;

(6) requiring that the provision of home health care services be at a level of certification or licensure greater than that required by the eligible service;

(7) requiring that the insured or claimant have an acute condition before home health care services are covered;

(8) limiting benefits to only those services provided by medicare-certified agencies or providers; or

(9) excluding coverage for adult day care services. (Authorized by K.S.A. 40-103, K.S.A. 2013 Supp. 40-2228; implementing K.S.A. 2013 Supp. 40-2228; effective Jan. 4, 1993; amended Feb. 27, 2015.)

40-4-37v. Long-term care; agent training. (a) On and after July 1, 2010, each licensed insurance agent who is an individual and who sells, solicits, or negotiates a long-term care partnership program policy shall have four hours of initial training in courses certified by the commissioner of insurance as long-term care partnership program training. For each biennium after obtaining the initial training, each licensed insurance agent who is an individual and who sells, solicits, or negotiates a long-term care partnership program policy shall obtain at least one hour of training in any course certified by the commissioner of insurance as long-term care partnership program training.

(b) The number of hours required by this regulation may be used to meet the requirements of K.S.A. 40-4903, and amendments thereto, if the training is submitted to and approved by the commissioner of insurance for continuing education credit. (Authorized by K.S.A. 2008 Supp. 40-2137; implementing K.S.A. 2008 Supp. 40-2136; effective May 29, 2009.)

40-4-41. Utilization review organizations; standards. The Kansas insurance department's "policy and procedure relating to health utilization management standards," dated March 22, 2016, is hereby adopted by reference. (Authorized by K.S.A. 40-103, 40-22a04, and 40-22a11; implementing K.S.A. 40-22a04; effective, T-40-4-26-95, April 26, 1995; effective June 12, 1995; amended June 22, 2001; amended Jan. 12, 2007; amended April 18, 2008; amended July 22, 2016.)

40-4-42a. Notice requirements of adverse decisions. (a) Each written notification of an adverse decision shall be printed in clear, legible type and in at least 12-point type.

(b) The notice of adverse decision shall explain the principal reason for the adverse decision in language easily understood by a person with an eighth-grade reading level. An insurer may meet this requirement by omitting medical terminology that describes an insured's medical condition. The notice shall include the legal names of all impacted parties and their telephone numbers and addresses.

(c) The notice of adverse decision shall explain how an insured, as defined in K.S.A. 40-22a13, and amendments thereto, can initiate an external review with the commissioner. If an insured is eligible for an expedited review due to an emergency medical condition as defined in K.S.A. 40-22a13, and amendments thereto, then the notice shall explain how an insured can initiate an expedited review.

(d) The notice shall explain that an insured may file for an external review with the commissioner within 120 days of receipt of a final adverse decision. The notice shall also list the Kansas insurance department's toll-free number.

(e) The notice of adverse decision shall describe how the insured can request a written statement of the clinical rationale and clinical review criteria used to make the adverse decision. (Authorized by K.S.A. 40-103 and K.S.A. 2015 Supp. 40-22a16; implementing K.S.A. 2015 Supp. 40-22a14; effective Jan. 7, 2000; amended Sept. 1, 2017.)

40-4-42c. Standard external review procedures. (a) At the time a request for external review is accepted pursuant to K.A.R. 40-4-42b, an external review organization that has been approved pursuant to K.S.A. 40-22a15, and amendments thereto, shall be assigned by the commissioner to conduct the external review.

(b) In reaching a decision, the assigned external review organization shall not be bound by any de-

cisions or conclusions reached during the insurer's utilization review process as set forth in K.S.A. 40-22a13 through 40-22a16, and amendments thereto, or the insurer's internal grievance process.

(c) The notice provided in K.A.R. 40-4-42b shall notify both the insurer or its designee utilization review organization and the insured or the insured's authorized representative that any of these persons may, within seven business days after the receipt of the notice, provide the assigned external review organization with additional documents and information that the person wants the assigned external review organization to consider in making its decision. Within one business day of receipt of any additional documents or information from the insured or the insured's authorized representative, the assigned external review organization shall forward a copy of these documents or this information to the insurer or its designee utilization review organization.

(d) Failure by the insurer to provide the documents and information within the time specified in K.S.A. 40-22a14(g), and amendments thereto, shall not delay the conduct of the external review.

(e) The assigned external review organization shall review all of the information and documents received pursuant to subsection (c) and any other information submitted in writing by the insured or the insured's authorized representative pursuant to K.A.R. 40-4-42b.

(f)(1) Upon receipt of the information required to be forwarded pursuant to subsection (e), the insurer may reconsider its adverse decision that is the subject of the external review.

(2) Reconsideration by the insurer of its adverse decision as provided in paragraph (f)(1) shall not delay or terminate the external review.

(3) The external review may be terminated only if the insurer reconsiders its adverse decision and decides to provide coverage or payment for the health care service that is the subject of the adverse decision.

(4)(A) Immediately upon making the decision to reverse its adverse decision as provided in paragraph (f)(3), the insurer shall notify, in writing, the insured or the insured's authorized representative, the assigned external review organization, and the commissioner of the insurer's decision.

(B) The assigned external review organization shall terminate the external review upon receipt of the notice from the insurer sent pursuant to paragraph (f)(4)(A).

(g) In addition to the documents and informa-

tion provided pursuant to subsection (c), the assigned external review organization, to the extent that the documents or information is available, shall consider the following in reaching a decision:

(1) The insured's pertinent medical records;

(2) the attending health care professional's recommendation;

(3) consulting reports from appropriate health care professionals and other documents submitted by the insurer, the insured, the insured's authorized representative, or the insured's treating provider;

(4) the terms of coverage under the insured's insurance plan with the insurer, to ensure that the external review organization's decision is not contrary to the terms of coverage under the insured's insurance plan with the insurer;

(5) the most appropriate practice guidelines, including generally accepted practice guidelines, evidence-based practice guidelines, or any other practice guidelines developed by the federal government and national or professional medical societies, boards, and associations; and

(6) any applicable clinical review criteria developed and used by the insurer or its designee utilization review organization.

(h) Within 30 business days after the date of receipt of the request for external review, the assigned external review organization shall provide written notice of its decision to uphold or reverse the adverse decision to the following:

(1) The insured or the insured's authorized representative;

(2) the insurer; and

(3) the commissioner.

(i) The external review organization shall include the following in the notice sent pursuant to subsection (h):

(1) A general description of the reason for the request for external review;

(2) the date the external review organization received the assignment from the commissioner to conduct the external review;

(3) the date the external review was conducted;

(4) the date of the external review organization's decision;

(5) the principal reason or reasons for the external review organization's decision;

(6) the rationale for the external review organization's decision; and

(7) references, as needed, to the evidence or documentation, including the practice guidelines that the external review organization considered

in reaching its decision. (Authorized by K.S.A. 40-103 and 40-22a16; implementing K.S.A. 40-22a13, 40-22a14, 40-22a15, and 40-22a16; effective Jan. 7, 2000; amended Feb. 17, 2012.)

40-4-43. Hospital, medical, and surgical expense insurance policies and certificates; prohibiting certain types of discrimination.

(a) A hospital, medical, or surgical expense policy or certificate issued by an insurance company, nonprofit health service corporation, nonprofit medical and hospital service corporation, or health maintenance organization shall not be delivered or issued for delivery in this state on an individual, group, blanket, franchise, or association basis if the amount of benefits payable or a term, condition, or type of coverage is or could be restricted, modified, excluded, or reduced on the basis of whether both of the following conditions are met:

(1) The insured or prospective insured has been diagnosed with cancer and accepted into a phase I, phase II, phase III, or phase IV clinical trial for cancer.

(2) The treating physician who is providing covered health care services to the insured recommends participation in the clinical trial after determining that participation in the clinical trial has a meaningful potential to benefit the insured.

(b) Each policy or certificate covered by this regulation shall provide coverage for all routine patient care costs associated with the provision of health care services, including drugs, items, devices, treatments, diagnostics, and services that would otherwise be covered under the insurance policy or certificate if those drugs, items, devices, treatments, diagnostics, and services were not provided in connection with an approved clinical trial program, including health care services typically provided to patients not participating in a clinical trial.

(c) For purposes of this regulation, "routine patient care costs" shall not include the costs associated with the provision of any of the following:

(1) Drugs or devices that have not been approved by the federal food and drug administration and that are associated with the clinical trial;

(2) services other than health care services, including travel, housing, companion expenses, and other nonclinical expenses, that an insured could require as a result of the treatment being provided for purposes of the clinical trial;

(3) any item or service that is provided solely to satisfy data collection and analysis needs and that is not used in the clinical management of the patient;

(4) health care services that, except for the fact that they are being provided in a clinical trial, are otherwise specifically excluded from coverage under the insured's hospital, medical, or surgical expense policy or certificate; or

(5) health care services customarily provided by the research sponsors of a trial free of charge for any insured in the trial.

(d) This regulation shall not apply if the amount of benefits, the terms, the conditions, or the type of coverage varies as a result of the application of permissible rate differentials or as a result of negotiations between the insurer and insured. (Authorized by K.S.A. 40-103 and K.S.A. 40-2404a; implementing K.S.A. 2009 Supp. 40-2404(7); effective June 4, 2010.)

Article 5.—CREDIT INSURANCE

40-5-7. (Authorized by K.S.A. 40-103, 16a-4-112; implementing K.S.A. 16a-4-301; effective Jan. 1, 1966; amended Jan. 1, 1974; amended May 1, 1975; amended May 1, 1979; amended May 1, 1986; revoked Feb. 10, 2012.)

Article 7.—AGENTS

40-7-20a. Agents; continuing education; approval of courses; requirements. (a) Definitions. For the purposes of this regulation, the following definitions shall apply:

(1) "Coordinator" means an individual who is responsible for monitoring continuing education offerings.

(2) "Course" means a series of lectures or lessons that deals with a particular subject following a prearranged agenda or study plan and that may culminate in a written examination.

(3) "Instructor" means an individual lecturing in a continuing education offering.

(4) "Licensee," "licensed agent," and "agent" mean a natural person licensed by this state as an agent.

(5) "Person" means a natural person, firm, institution, partnership, corporation, or association.

(6) "Provider" and "providing organization" mean a person or firm offering or providing insurance education.

(7) "Self-study courses" means courses that are primarily delivered or conducted in other than a classroom setting or with on-site instruction and are designed to be completed independently by the student.

(b) General requirements.

(1) Only courses that impart substantive and procedural knowledge relating to insurance and are beneficial to the insuring public after initial licensing shall be approved for credit. Approved courses shall be classified as life, health, and variable contracts courses; property and casualty courses; general courses; ethics courses; or general management courses. Credit earned from general courses, ethics courses, or general management courses shall be acceptable in meeting the requirements for the property and casualty insurance or the life and health insurance license classifications.

(2) Courses of the following types shall not meet the basic criteria for approvable courses described in paragraph (1) of this subsection:

(A) Courses designed to prepare students for a license examination;

(B) courses in mechanical office skills, including typing, speed reading, and the use of calculators or other machines or equipment; and

(C) courses in sales promotion, including meetings held in conjunction with the general business of the licensee.

(3)(A) Each licensee shall attend a course in its entirety in order to receive full credit.

(B) Upon completion of each approved course, the student shall receive credit for the number of hours approved for the course, which shall be equivalent to one hour of credit for each hour of instruction.

(C) If the number of credit hours for which a course is approved is fewer than the total number of hours of the course presentation, the student shall attend the entire course in order to receive credit for the number of approved hours.

(D) The number of approved hours shall not include time spent on introductions, breaks, or other activities not directly related to approved educational information or material.

(E) Neither a student nor an instructor shall earn full credit for attending or instructing any subsequent offering of the same course in the current biennial license period after attending or teaching the course.

(4) Course examinations shall not be required for approval of continuing education courses except self-study courses.

(5) Each provider shall submit proposed courses to the commissioner or the commissioner's designee for preapproval at least 30 days before the date on which the course is to be held.

(6) An advertisement shall not state or imply

that a course has been approved by the commissioner or the commissioner's designee unless written confirmation of this approval has been received by the provider or the course is advertised as having approval pending.

(7) If approval has been granted for the initial offering of a course, approval for subsequent offerings not disclosed in the initial submission may be obtained by providing written notification to the commissioner or the commissioner's designee at least 30 days before the date the program is to be held, indicating that no change has been made in the course and specifying the additional times and places the course will be presented.

(8) The provider shall submit all fees required for individual course approval with the course submission. If the provider elects to pay the prescribed fee for all courses, the provider shall pay the fee annually and shall submit the fee with the first course submission each year.

(9) Each course of study, except self-study courses, shall be conducted in a classroom or other facility that comfortably accommodates the faculty and the number of students enrolled. The provider may limit the number of students enrolled in a course.

(10)(A) Each successfully completed course leading to a nationally or regionally recognized designation shall receive credit as approved by the commissioner or the commissioner's designee.

(B) Any agent attending at least 80 but less than 100 percent of regularly scheduled classroom sessions for any single course may receive full educational credit if the course is filed as a formal classroom course. This credit may be earned to the extent that adequate records are maintained and appropriate certification of such attendance is provided by the course instructor.

(11)(A) The amount of credit received by an agent for a self-study course shall be based upon successful completion of the course and an independently monitored examination subject to the number of hours assigned by the commissioner or the commissioner's designee.

(B) Examination monitors shall not be affiliated in any way with the providing organization or the licensee and shall be subject to approval by the commissioner or the commissioner's designee. Each examination utilized or to be utilized shall be included in the material submitted for course approval. No examination shall be approved unless the commissioner is satisfied that security procedures protecting the integrity of the examination

can be maintained. If security is compromised, no credit shall be granted.

(C) Each provider of self-study courses shall clearly disclose to any agent wishing to receive credit in Kansas the number of hours for which that particular course has been approved by the commissioner or the commissioner's designee.

(D) Each self-study course provided online shall meet the following requirements:

(i) Require the agent to enroll and pay for the course before having access to the course materials;

(ii) prevent access to the course exam before review of the course materials;

(iii) prevent the downloading of any course exam;

(iv) provide review questions at the end of each unit or chapter and prevent access to the following unit or chapter until the review questions after the previous unit or chapter have been correctly answered;

(v) provide exam questions that do not duplicate unit review questions;

(vi) prevent alternately accessing course materials and course exams; and

(vii) prevent the issuance of a monitor affidavit until the course and course examination are successfully completed.

(c) Each licensee or provider found to have falsified a continuing education report to the commissioner shall be subject to suspension or revocation of the licensee's or provider's insurance license in accordance with K.S.A. 40-4909 and amendments thereto, a penalty as prescribed in K.S.A. 40-254 and amendments thereto, or termination of approval as a provider.

(d) Course requirements.

(1) Each course of study shall have a coordinator who is responsible for supervising the course and ensuring compliance with the statutes and regulations governing the offering of insurance continuing education courses.

(2)(A) Each provider and each providing organization shall maintain accurate records relating to course offerings, instructors, and student attendance. If the coordinator leaves the employ of the provider or otherwise ceases to monitor continuing education offerings, the records shall be transferred to the replacement coordinator or an officer of the provider. If a provider ceases operations, the coordinator shall maintain the records or provide a custodian of the records acceptable to the commissioner. In order to be acceptable, a custodian shall agree to make copies

of student records available to students free of charge or at a reasonable fee. The custodian of the records shall not be the commissioner, under any circumstances.

(B) Each provider shall provide students with course completion certificates, in a manner prescribed or approved by the commissioner, within 30 days after completion of the course. A provider may require payment of the course tuition as a condition for receiving the course completion certificate.

(3) Each instructor shall possess at least one of the following qualifications:

(A) Recent experience in the subject area being taught; or

(B) an appropriate professional designation in the area being taught.

(4) Each instructor shall perform the following:

(A) Comply with all laws and regulations pertaining to insurance continuing education;

(B) provide the students with current and accurate information;

(C) maintain an atmosphere conducive to learning in a classroom; and

(D) provide assistance to the students and respond to questions relating to course material.

(5) Each provider, coordinator, and instructor shall notify the commissioner within 10 days after the occurrence of any of the following:

(A) A felony or misdemeanor conviction or disciplinary action taken against a provider or against an insurance or other occupational license held by the coordinator or instructor; and

(B) any change of information contained in an application for course approval.

(e) Licensee reporting requirement.

(1) Each licensee shall report continuing education credit on forms and in a manner prescribed by the commissioner. Each course shall be completed or attended during the reporting period for which the credit hours are to be applied.

(2) Each request for an extension permitted by K.S.A. 40-4903 and amendments thereto shall be submitted in writing not later than the reporting deadline and shall include an explanation and independent verification of the hardship. (Authorized by K.S.A. 40-103 and K.S.A. 2008 Supp. 40-4916; implementing K.S.A. 2008 Supp. 40-4903; effective May 15, 1989; amended, T-40-8-28-90, Aug. 30, 1990; amended Oct. 15, 1990; amended Feb. 8, 1993; amended April 11, 1997; amended Feb. 9, 2007; amended May 22, 2009.)

40-7-26. Public adjuster; examinations. (a) The public adjuster licensing examination shall test the applicant's knowledge in the following areas:

- (1) The laws of Kansas, including the following:
 - (A) The pertinent provisions of the statutes of Kansas; and
 - (B) the regulations of the insurance department;
 - (2) duties and responsibilities of a public adjuster; and
 - (3) basic insurance.
- (b) Each applicant shall be required to score at least 70 percent on the examination, unless the applicant is exempt.

(c) Each applicant shall be advised of eligibility to take the examination by the commissioner or the commissioner's designee, unless the applicant is exempt. (Authorized by K.S.A. 40-103, K.S.A. 2009 Supp. 40-5506, and K.S.A. 2009 Supp. 40-5518; implementing K.S.A. 2009 Supp. 40-5506 and K.S.A. 2009 Supp. 40-5507; effective Jan. 3, 2011.)

40-7-27. Public adjuster; reporting requirements. Each person licensed in this state as a public adjuster shall report the following to the commissioner of insurance:

(a) Each change in the information submitted on the application within 30 days of the change pursuant to K.S.A. 40-5509 and amendments thereto, including the following:

(1) Each change in the public adjuster's name. If the change of name is effected by court order, a copy of the court order shall be furnished to the commissioner of insurance;

(2) each change in the public adjuster's residential and mailing addresses; and

(3) each judgment or injunction entered against the licensee on the basis of conduct involving fraud, deceit, misrepresentation, or a violation of any insurance law; and

(b) each legal action pursuant to K.S.A. 40-5517 and amendments thereto, including the following:

(1) Each administrative action within 30 days of final disposition, including the following:

(A) Each action taken against the public adjuster's license or licenses by the insurance regulatory agency of any other state or any territory of the United States; and

(B) each action taken against an occupational license held by the licensee, other than a public adjuster's license, by the appropriate regulatory authority of this or any other jurisdiction; and

(2) the details of each criminal prosecution, other than minor traffic violations, within 30 days

of the initial pretrial hearing date for any felony offense and the first appearance date for any misdemeanor offense. The details shall include the name of the arresting agency, the location and date of the arrest, the nature of the charge or charges, the court where the case was filed, the judge assigned to the case, and the disposition of the charges. (Authorized by K.S.A. 40-103 and K.S.A. 2009 Supp. 40-5518; implementing K.S.A. 2009 Supp. 40-5509 and K.S.A. 2009 Supp. 40-5517; effective Jan. 3, 2011.)

Article 9.—ADVERTISING

40-9-23. Insurance companies; advertising; senior-specific certifications and professional designations. The Kansas insurance department's "policy and procedure for use of senior-specific certifications and professional designations in the sale of life insurance annuities," dated August 25, 2010, is hereby adopted by reference. (Authorized by K.S.A. 40-103 and K.S.A. 40-2404a; implementing K.S.A. 2009 Supp. 40-2404; effective Jan. 14, 2011.)

40-9-118. Life insurance and annuities; advertising. The Kansas insurance department's "policy and procedure regarding advertisements of life insurance and annuities," dated October 16, 2014, is hereby adopted by reference. (Authorized by K.S.A. 40-103 and 40-2404a; implementing K.S.A. 40-103, K.S.A. 2014 Supp. 40-2404, and K.S.A. 40-2407; effective Feb. 15, 1977; amended May 1, 1979; amended May 1, 1986; amended May 1, 1987; amended May 1, 1988; amended Jan. 4, 1993; amended July 10, 1998; amended Feb. 20, 2015.)

40-9-126. Advertising of medicare supplement insurance. The Kansas insurance department's "policy and procedure regarding advertisements of medicare supplement insurance," dated October 16, 2014, including the appendix, is hereby adopted by reference. (Authorized by K.S.A. 40-2404a; implementing K.S.A. 40-103, K.S.A. 2014 Supp. 40-2404, and K.S.A. 40-2404a; effective Feb. 20, 2015.)

Article 10.—FIREFIGHTER'S RELIEF FUND TAX

40-10-16. Firefighters relief act; fund allocation. (a) The annual redetermination allocation shall be calculated using a formula based on

the population and the assessed tangible property valuation of the area served by the association that requests redetermination in relation to the population and the assessed tangible property valuation of the state. The assessed tangible property valuation of the area served by the association and the state to be used in the formula shall be as reported by the Kansas department of revenue's statistical report of property assessment and taxation for the year during which redetermination is requested. The populations of the area served by the association and the state to be used in the formula shall be those population totals certified by the Kansas secretary of state for the year during which redetermination is requested.

(b) The following formula shall be used to calculate a new base allocation percentage for the association that requests redetermination:

(1) The assessed tangible property valuation of the area served by the association shall be divided by the assessed tangible property valuation of the state, and the quotient shall be divided by two to form one-half of the new base allocation percentage.

(2) The population of the area served by the association shall be divided by the population of the state, and the quotient shall be divided by two to form the second half of the new base allocation percentage.

(3) The sum of the amounts calculated in paragraphs (b)(1) and (2) shall be the new base allocation percentage for the association.

(c) The next distribution of firefighters relief funds following a redetermination shall be computed as follows:

(1) The new base allocation percentage for each association that was redetermined shall be added to the new base allocation percentage of any associations eligible for the distribution that were new or merged since the last distribution and the prior year's allocation percentage for all other active associations.

(2) The sum computed in paragraph (c)(1) shall be divided into 100.

(3) The quotient computed in paragraph (c)(2) shall be multiplied by each new base allocation percentage for associations that were redetermined, new, or merged in the prior year and each prior year's allocation percentage for other associations to receive distributions so that the total of all percentages of associations eligible for the distribution equals 100.

(d) The allocation formula prescribed by this regulation shall also be used when distributions are determined for new or merged associations. Any association that has failed to qualify for funds for two consecutive years may resume participation as a new association by submitting the information required by K.A.R. 40-10-2(d) and K.S.A. 40-1706(a), and amendments thereto. (Authorized by K.S.A. 40-1707(g); implementing K.S.A. 2010 Supp. 40-1706; effective May 27, 2011.)

Article 16.—PROFESSIONAL EMPLOYER ORGANIZATIONS

40-16-1. Professional employer organizations; definition. For the purpose of this article, "act" shall mean professional employer organization registration act. (Authorized by K.S.A. 40-103 and L. 2012, ch. 142, sec. 10; implementing L. 2012, ch. 142, sec. 1; effective Jan. 31, 2014.)

40-16-2. Professional employer organizations; fees. The following fees shall be paid to the department:

(a) For each professional employer organization, the following fees:

(1) For an initial application for registration, \$1,000;

(2) for a renewal application for registration, \$500; and

(3) for an initial or a renewal application for limited registration, \$500; and

(b) for each professional employer group, the following fees:

(1) For an initial application for registration, \$1,000 for each professional employer organization within the professional employer group that would otherwise be required to individually register under the act;

(2) for a renewal application for registration, \$500 for each professional employer organization within the professional employer group that would otherwise be required to individually register under the act; and

(3) for an initial or a renewal application for limited registration, \$500 for each professional employer organization within the professional employer group that would otherwise be required to individually register under the act. (Authorized by K.S.A. 40-103 and L. 2012, ch. 142, sec. 10; implementing L. 2012, ch. 142, sec. 5; effective Jan. 31, 2014.)

- 44-9. PAROLE, POSTRELEASE SUPERVISION, AND HOUSE ARREST.
- 44-11. COMMUNITY CORRECTIONS.
- 44-12. CONDUCT AND PENALTIES.
- 44-15. GRIEVANCE PROCEDURE FOR INMATES.

Article 5.—INMATE MANAGEMENT

44-5-115. Service fees. (a) Each inmate in the custody of the secretary of corrections shall be assessed a charge of one dollar each payroll period, not to exceed \$12.00 per year, as a fee for administration by the facility of the inmate's trust account. The facility shall be authorized to transfer the fee from each inmate's account from the balance existing on the first of each month. If an inmate has insufficient funds on the first of the month to cover this fee, the fee shall be transferred as soon as the inmate has sufficient funds in the account to cover the fee. All funds received by the facility pursuant to this subsection shall be paid on a quarterly basis to the crime victims' compensation fund.

(b)(1) Each offender under the department's parole supervision, conditional release supervision, postrelease supervision, house arrest, and interstate compact parole and probation supervision in Kansas shall be assessed a supervision service fee of a maximum of \$30.00 per month. This fee shall be paid by the offenders to the department's designated collection agent or agents. Payment of the fee shall be a condition of supervision. All fees shall be paid as directed by applicable internal management policy and procedure and as instructed by the supervising parole officer.

(2) A portion of the supervision service fees collected shall be paid to the designated collection agent or agents according to the current service contract, if applicable. Twenty-five percent of the remaining amount collected shall be paid on at least a quarterly basis to the crime victims' compensation fund. The remaining balance shall be paid to the department's general fees fund for the department's purchase or lease of enhanced parole supervision services or equipment including

electronic monitoring, drug screening, and surveillance services.

(3) Indigent offenders shall be exempt from this subsection, as set forth by criteria established by the secretary in an internal management policy and procedure.

(4) The fees authorized by subsection (d) shall not be considered a portion of the monthly supervision service fee.

(c) Each inmate in the custody of the secretary of corrections shall be assessed a fee of \$2.00 for each primary visit initiated by the inmate to an institutional sick call. A primary visit shall be the initial visit for a specific complaint or condition. Inmates shall not be charged for the following:

(1) Medical visits initiated by medical or mental health staff;

(2) institution intake screenings;

(3) routinely scheduled physical examinations;

(4) clinical service reports, including reports or evaluations requested by any service provider in connection with participation in the reentry program;

(5) evaluations requested by the prisoner review board;

(6) referrals to a consultant physician;

(7) infirmary care;

(8) emergency treatment, including initial assessments and first-aid treatment for injuries incurred during the performance of duties on a work detail or in private industry employment;

(9) mental health group sessions;

(10) facility-requested mental health evaluations;

(11) follow-up visits initiated by medical staff; and

(12) follow-up visits initiated by an inmate within 14 days of an initial visit.

No inmate shall be refused medical treatment for financial reasons. If an inmate has insufficient

funds to cover the medical fee, the fee shall be transferred as soon as the inmate has sufficient funds in the account to cover the balance of the fee.

(d) Each inmate assigned to a batterers intervention program shall be assessed a fee for admission to and continued participation in the program.

(e) Each offender shall be assessed a fee for each urinalysis or other test approved by the secretary of corrections that is administered to the offender for the purpose of determining the use of illegal substances and that has a positive result. The amount of the fee shall be adjusted periodically to reflect the actual cost of administering these tests, including staff participation.

(f) Each inmate or offender shall be assessed a fee, if applicable, for the following:

- (1) Global positioning system (GPS) tracking;
- (2) electronic or any other appropriate form of monitoring;
- (3) an application for transfer under the interstate compact for adult offender supervision;
- (4) polygraph examinations;
- (5) community residential bed housing;
- (6) sexual abuser's treatment services; and
- (7) batterers intervention program services. The fee for each service specified in this subsection shall be assessed only if the service is required as a part of house arrest or postincarceration release supervision.

If applicable, each offender on postincarceration release supervision or house arrest shall also be assessed a fee for the collection of specimens of blood and saliva for the purpose of providing DNA profiles to the Kansas bureau of investigation, pursuant to K.S.A. 21-2511 and amendments thereto. (Authorized by K.S.A. 2011 Supp. 21-6609, as amended by L. 2012, Ch. 172, §29, K.S.A. 2011 Supp. 75-5210, K.S.A. 2011 Supp. 75-5251, K.S.A. 75-52,139; implementing K.S.A. 2011 Supp. 21-6609, as amended by L. 2012, Ch. 172, §29, K.S.A. 2011 Supp. 22-3717, as amended by L. 2012, Ch. 150, §43, K.S.A. 75-52,139; effective Jan. 3, 1995; amended, T-44-3-19-04, March 19, 2004; amended July 2, 2004; amended March 23, 2012; amended Feb. 1, 2013.)

Article 6.—GOOD TIME CREDITS AND SENTENCE COMPUTATION

44-6-101. Definitions. (a) For purposes of sentence computation, as used in this article, terms dealing with good time credits shall be defined as follows:

(1) “Establishment of good time credits” means the creation of that pool of credits that decreases part of the term of actual imprisonment for good work and behavior over a period of time. Good time credits shall not forgive or eliminate the sentence but shall function only to allow the inmate to earn the privilege of being released from incarceration earlier than the full minimum, maximum, or guidelines prison sentence, subject to conditions specified and imposed pursuant to applicable law. Following a revocation of parole or conditional release, good time credits shall not be available to reduce the period of incarceration before a prisoner review board hearing for reparole. Following a revocation of postrelease supervision, good time credits shall be available to reduce the incarceration penalty period as authorized by applicable statutes.

(2) “Allocation of good time credits” means the breakdown of the total number of established good time credits into groups of credits that are available to the inmate in separate time periods.

(3) To “earn good time credits” means that the inmate has acted in a way that merits a reduction of the term of actual imprisonment by those credits.

(4) “Award of good time credits” means the act of the unit team, as approved by the program management committee and the warden or designee, granting all or part of the allocation of credits available for the time period under review.

(5) “Application of good time credits” means the entry of the credits of forfeitures into the official record of the inmate and the consequent adjustment of parole eligibility, conditional release, the guidelines release date, or the guidelines sentence discharge date.

(6) “Forfeiture of good time credits” means the removal of the credits and consequent reinstatement of a term of actual imprisonment by the disciplinary board according to article 12 and article 13, as published in the inmate rule book.

(b) For purposes of sentence computation, as used in this article, terms dealing with sentence structure shall be defined as follows:

(1) “Composite sentence” means any sentence formed by the combination of two or more sentences.

(2) “Concurrent sentence” means two or more sentences imposed by the court with minimum and maximum terms, respectively, to be merged, or two or more sentencing guidelines sentences imposed by the court with their prison terms to be merged.

(3) “Consecutive sentence” means a series of two or more sentences imposed by the court in which the minimum terms and the maximum terms, respectively, are to be aggregated, or a series of two or more sentencing guidelines sentences in which the prison terms are to be aggregated pursuant to K.S.A. 2011 Supp. 21-6819 and amendments thereto.

(4) “Controlling sentence” means the sentence made up of the controlling minimum term and the controlling maximum term of any sentence or composite sentence or the sentencing guidelines sentence made up of two or more sentences, whether concurrent or consecutive, that results in the longest prison term.

(5) “Aggregated controlling sentence” means a controlling sentence composed of two or more sentences. An aggregated controlling sentence has a minimum term consisting of the sum of the minimum terms and a maximum term consisting of the sum of the maximum terms. In the case of sentencing guidelines sentences, an aggregated controlling sentence has a prison term that is the sum of all the prison terms of the sentences that are aggregated, pursuant to K.S.A. 2011 Supp. 21-6819 and amendments thereto. The term “aggregated” shall be applied only to consecutive sentences.

(c) For purposes of sentence computation, as used in this article, terms dealing with sentence service credits, other than good time credits, shall be defined as follows:

(1) “Jail credit” and “JC” mean the time spent in confinement, pending the disposition of the case, before the sentencing to the custody of the secretary of corrections pursuant to K.S.A. 2011 Supp. 21-6615, and amendments thereto, or on or after May 19, 1988, time spent in a residential center while on probation or assignment to a community correctional residential services program, pursuant to K.S.A. 2011 Supp. 21-6615 and amendments thereto.

(2) “Maximum sentence credit” means the total period of incarceration served on a sentence beyond the limitation for credit awarded as prison service credit. This credit shall be used to adjust the maximum expiration date of the sentence.

(3) “Prison service credit” means the penal time credited for time the inmate previously was incarcerated on the sentence and time credited on the sentence while actually incarcerated during release in custody to a law enforcement agency. Prison service credit shall be given for time spent

incarcerated on a sentence that has subsequently been aggregated due to the imposition of a consecutive sentence.

(4) “Program credit” means the pool of credits that serve to decrease the term of actual imprisonment awarded for a completion of a program designated by the secretary. Program credits shall not decrease or eliminate the sentence but shall function only to allow the inmate to earn the privilege of being released from incarceration earlier than the prison sentence adjusted for earned and retained good time credits. Program credits earned and retained while an offender is incarcerated shall be added to the offender’s postrelease supervision period.

(d) For purposes of sentence computation, as used in this article, terms dealing with terms or length of sentences shall be defined as follows:

(1) “Controlling minimum term” means the length of the sentence to be served to reach the controlling minimum date as determined according to applicable case, statutory, and regulatory law.

(2) “Controlling maximum term” means the length of the maximum sentence imposed by the court that constitutes the longest required period of incarceration, determined according to applicable case and statutory law and these regulations.

(e) For purposes of sentences computation, as used in this article, terms dealing with calculation of specific dates in the execution of sentences shall be defined as follows:

(1) “Sentencing date” means the date on which the sentence is imposed by the court upon conviction. “Sentencing date” is also known as the sentence imposition date.

(2) “Sentence begins date” means the calendar date on which service of the sentence is to begin running. This date, as established by the court, shall reflect the time allowances as defined in jail time credit. This date shall be adjusted by department of corrections staff if prison service credit is applicable. If no jail credit is involved but prison service credit exists, the prison service credit shall be subtracted from the sentence imposition date to determine the sentence begins date.

(3) “Controlling minimum date” means the calendar date derived by adding the controlling minimum term to the sentence begins date.

(4) “Controlling maximum date” means the calendar date derived by adding the controlling maximum term imposed by the court to the sentence begins date.

(5) “Guidelines release date” means, for offenders with sentences imposed pursuant to the sentencing guidelines act, K.S.A. 2011 Supp. 21-6801 et seq. and amendments thereto, the date yielded by adding the prison portion of the sentence to the sentence, less any good time credits earned and awarded pursuant to K.S.A. 2011 Supp. 21-6821 and amendments thereto, plus any good time credits forfeited.

(6) “Conditional release date” and “CR date” mean the controlling maximum date minus the total number of authorized good time credits not forfeited.

(7) “Parole eligibility” means the status that results if the inmate has served the sentence required by law to the extent that the law allows the inmate’s immediate release if the prisoner review board grants a parole to that inmate.

(8) “Program release date” means the date the offender may be released with the application of the actually earned, awarded, and retained good time and program credits.

(f) For purposes of sentence computation, as used in this article, terms dealing with loss of forfeiture of sentence service credit while on parole or postrelease supervision status as well as escape status shall be defined as follows:

(1) “Postincarceration supervision” means supervision of any offender released to the community after service of the requisite term of incarceration. This term shall include parole, conditional release, and postrelease supervision.

(2) “Abscond” means departing without authorization from a geographical area or jurisdiction prescribed by the conditions of one’s parole or postrelease supervision.

(3) “Delinquent time lost on postincarceration status” and “DTLOPIS” mean the time lost on the service of sentence from which the offender was paroled or released to postrelease supervision due to being on absconder status after a condition violation warrant was issued and until the warrant was served.

(4) “Forfeited good time on postincarceration status” means the amount of good time ordered forfeited by the prisoner review board from the amount earned from the date of authorized release to the date delinquent time on parole or postincarceration began or to the date of admission to a department of corrections facility.

(5) “Time lost on escape” means the time not counted on the service of sentence while the inmate is on escape status. This term shall mean the time from which the escape took place to

the time of apprehension. (Authorized by K.S.A. 2011 Supp. 21-6821, as amended by L. 2012, Ch. 150, §37, K.S.A. 2011 Supp. 75-5210, K.S.A. 2011 Supp. 75-5251; implementing K.S.A. 2011 Supp. 21-6606, as amended by L. 2012, Ch. 16, §4, K.S.A. 2011 Supp. 21-6821, as amended by L. 2012, Ch. 150, §37, K.S.A. 2011 Supp. 22-3717, as amended by L. 2012, Ch. 150, §43, K.S.A. 2011 Supp. 22-3725, K.S.A. 2011 Supp. 75-5210, K.S.A. 2011 Supp. 75-5217, as amended by L. 2012, Ch. 16, §36, K.S.A. 2011 Supp. 75-5251; effective May 1, 1981; amended, T-84-32, Nov. 23, 1983; amended May 1, 1984; amended Nov. 12, 1990; amended Sept. 6, 2002; amended June 1, 2007; amended Aug. 8, 2008; amended Feb. 1, 2013.)

44-6-114e. Guidelines release date. (a) Except for off-grid crimes, the prison portion of sentences for crimes committed on or after July 1, 1993 but before April 20, 1995, crimes at non-drug severity levels 7 through 10 committed on or after January 1, 2008, crimes at drug grid severity level 3 or 4 committed on or after January 1, 2008 but before July 1, 2012, and crimes at drug grid severity level 4 or 5 committed on or after July 1, 2012, may be reduced by no more than 20% through awarded and retained good time credits.

(b) Except for off-grid crimes, the prison portion of sentences for all crimes committed on or after April 20, 1995 but before January 1, 2008, crimes at non-drug grid severity levels 1 through 6 and drug grid severity levels 1 and 2 committed on or after January 1, 2008, and crimes at drug severity level 3 committed on or after July 1, 2012, may be reduced by no more than 15% through awarded and retained good time credits. Partial days shall be rounded to the next whole number, but over the length of the sentence no more than 15% of the imprisonment portion of the sentence may be awarded as good time.

(c) Concurrent and consecutive sentences for off-grid crimes committed on or after July 1, 1993 shall not be subject to reduction through application of good time credits.

(d) For determinate sentences that are concurrent or consecutive with indeterminate sentences, good time may be awarded on the indeterminate sentence term as described in these regulations and applicable law.

(e) Good time credits awarded and retained on the prison portion of a determinate sentence shall be added to the period of postrelease supervision applicable to the offender’s sentence.

(f) The following charts shall establish the good time credit rate for a 20% reduction of the prison portion of a determinate sentence.

(1) Total good time credits available for the length of sentence imposed.

(2) Except as provided in subsection (h), allocation of good time credits available during the service of sentence.

(h) The charts in subsections (f) and (g) shall be used to compute the total pool of good time credits available on composite sentences for crimes committed on or after January 1, 2008, except that good time credit shall be allocated over the period of time equal to the inmate's composite sentence term less a number that is the sum of the total pool of available good time credits and four months. (Authorized by and implementing K.S.A. 2011 Supp. 21-6821, as amended by L. 2012, Ch. 150, §37, K.S.A. 2011 Supp. 75-5210, K.S.A. 2011 Supp. 75-5251; effective Sept. 6, 2002; amended Aug. 8, 2008; amended Feb. 1, 2013.)

44-6-115a. Awarding and withholding good time credits for incarcerated offenders.

(a) With the exception of calculation of good time credits affecting the conditional release dates, which are controlled by K.A.R. 44-6-114d, this regulation shall govern the award and withholding of good time credits.

(b)(1) At the conclusion of the initial inmate classification, 100% of the good time credits available from the sentence begins date to the date of the initial good time award shall be awarded, unless there is written documentation of maladjustment before the date of the initial award.

(2) The initial award of good time credits shall be made on the same day of the month on which the sentence was established. If a full month has not elapsed between the computed sentence be-

gins date and the conclusion of the initial classification, good time credits shall not be awarded until the first classification review following the initial classification.

(c) Following the initial award, good time credits may be awarded at each classification review from credits available since the previous classification review.

(d) The following factors shall be considered in determining whether or not an inmate is awarded good time credits:

(1) The inmate's performance in a work assignment;

(2) the inmate's performance in a program assignment;

(3) the inmate's maintenance of an appropriate personal and group living environment;

(4) the inmate's participation in release planning activities;

(5) the inmate's disciplinary record; and

(6) any other factors related to the inmate's general adjustment, performance, behavior, attitude, and overall demonstration of individual responsibility and accountability.

(e)(1) If an inmate refuses to work constructively or participate in assigned programs, 100% of the good time credits available for program classification review periods shall be withheld until the inmate reenters and constructively participates in the assigned program at a time that permits the inmate to complete the program, unless the facility health authority determines that the inmate is physically or mentally incapable of working or participating in a particular program or detail. If an assigned program is terminated or no longer offered due to financial constraints, the inmate's program plan shall be modified accordingly, and the inmate shall again be eligible to earn good time credits. Misconduct resulting in a disciplinary conviction not directly related to the program assignment shall result in the withholding of good time credits for only one program review period, pursuant to subsection (g).

(2) If an inmate refuses to work on an assigned work detail or is removed from the work detail for a disciplinary conviction, the inmate shall have 100% of available good time credits withheld for only one program review period.

(f) If an inmate fails to cooperate in the development of an acceptable release plan, the good time credits available for award during the 120-day period immediately before the inmate's projected or scheduled release date shall not be awarded.

(g) Award of good time credits shall be withheld on the basis of an inmate's disciplinary record, including consideration of the degree of actual injury, damage, or disruption caused by the misconduct at issue. Further consideration shall be given to other sanctions or interventions available to address the inmate's misconduct.

(1) If a facility disciplinary hearing officer finds the inmate guilty of a class I disciplinary offense, the amount of good time withheld during the review period in which the violation occurred shall reflect the degree of injury, damage, or disruption caused by the misconduct at issue.

(2) If a facility disciplinary hearing officer finds the inmate guilty of a class II disciplinary offense, not more than 50% of the good time credits available for the classification review period in which the violation occurred shall be withheld. For purposes of this paragraph, summary disciplinary judgments pursuant to K.A.R. 44-13-201b shall not be considered a guilty finding.

(3) If a facility disciplinary hearing officer finds the inmate guilty of a class III disciplinary offense, not more than 25% of the good time credits available for that classification review period in which the violation occurred shall be withheld. For purposes of this paragraph, summary disciplinary judgments pursuant to K.A.R. 44-13-201b shall not be considered a guilty finding.

(4) If a facility disciplinary hearing officer finds the inmate guilty of multiple disciplinary violations within a single disciplinary report, only the most serious violation shall be used in determining the percentage of good time credits to be withheld.

(5) If an inmate is removed from an assigned program due to a disciplinary conviction, 100% of the available good time credits shall be withheld until the inmate reenters the assigned program.

(h) The percentage of good time credits withheld during a classification review period shall be cumulative but shall not exceed 100% of that available for that classification review period. The good time award record for a period in which good time has already been awarded may be adjusted upon a subsequent conviction of a violation committed during the review period or upon discovery of an error in computing good time credits, pursuant to K.A.R. 44-6-128 through 44-6-132.

(i) On and after February 1, 2013, good time credits withheld for any reason may be restored to an inmate in accordance with internal management policies and procedures promulgated by the secretary of corrections. Good time credits with-

held for any review period commencing before that date shall not be restored.

(j) Good time credits and program credits forfeited as a result of a penalty imposed by a facility disciplinary hearing officer shall not be restored to an inmate without the approval of the secretary or secretary's designee. (Authorized by and implementing K.S.A. 2011 Supp. 21-6821, as amended by L. 2012, Ch. 150, §37, K.S.A. 2011 Supp. 75-5210, K.S.A. 2011 Supp. 75-5251; effective Sept. 6, 2002; amended, T-44-3-11-03, March 11, 2003; amended July 25, 2003; amended Aug. 8, 2008; amended Feb. 1, 2013.)

44-6-115b. Awarding, withholding, and restoring good time credits for offenders on supervised release. (a) Offenders on supervised release may be awarded good time credits at the following rates:

(1) Offenders on parole release for indeterminate sentences shall be eligible for good time credits at the rate of one day of good time for each day under supervision and as provided by K.A.R. 44-6-114d.

(2) For offenders convicted of crimes that were committed on or after July 1, 1993 but before April 20, 1995 and that fall into non-drug severity levels 1 through 4 or drug severity level 1 or 2, the period of postrelease supervision shall be 24 months plus the amount of good time awarded and retained on the imprisonment portion of a sentence for such a conviction. Good time credits shall not be available for the reduction of postrelease supervision.

(3) For offenders convicted of crimes committed on or after April 20, 1995, but before July 1, 2012, that fall into non-drug severity levels 1 through 4 or drug severity level 1 or 2 and crimes committed on or after July 1, 2012 that fall into drug severity levels 1 through 3, the period of postrelease supervision shall be 36 months plus the amount of good time awarded and retained on the imprisonment portion of a sentence for such a conviction. The 36-month portion of the post-release supervision period may be reduced by up to 12 months through award of good time credits. Awarded good time credits shall be applied at the rate of one day for every two days served from the date of release from prison, but not to exceed a total of 12 months. That portion of the period of postrelease supervision resulting from the addition of good time credits awarded and retained while in prison pursuant to K.S.A. 2011 Supp.

21-6821, and amendments thereto, shall not be reduced through application of good time credits while on postrelease supervision.

(4) For offenders who are convicted of crimes committed on or after July 1, 1993 that fall into non-drug severity level 5 or 6, drug severity level 3 crimes committed on or after July 1, 1993 but before July 1, 2012, and drug severity level 4 crimes committed on or after July 1, 2012 and who are sentenced to serve a period of postrelease supervision, the period of postrelease supervision shall be 24 months plus the amount of good time awarded and retained on the imprisonment portion of the sentence for any such conviction. The 24-month portion of the postrelease supervision period may be reduced by 12 months through award of good time credits. Awarded good time credits shall be applied at the rate of one day for each day served from the date of release from prison. That portion of the postrelease supervision period resulting from application of good time credits awarded and retained while in prison shall not be subject to reduction through the application of good time credits while on postrelease supervision.

(5) For offenders who are convicted of crimes committed on or after July 1, 1993 that fall into non-drug severity levels 7 through 10, drug severity level 4 crimes committed on or after July 1, 1993 but before July 1, 2012, and drug severity level 5 crimes committed on or after July 1, 2012 and who are sentenced to serve a period of postrelease supervision, the period of postrelease supervision shall be 12 months plus the amount of good time awarded and retained on the imprisonment portion of the sentence for any such conviction. The 12-month portion of the period of postrelease supervision may be reduced by six months through award of good time credits. Awarded good time credits shall be applied at the rate of one day for each day served from the date of release from prison. That portion of the postrelease supervision period resulting from application of good time credits awarded and retained while in prison shall not be subject to reduction through the application of good time credits while on post-release supervision.

(b) All subsequent awards during a single supervision release period shall be made at six-month intervals, unless, in the judgment of the offender's parole officer, good cause exists to shorten the interval.

(c) No good time credits shall be awarded during the time an offender is on absconder status or for

a review period in which a violation resulting in revocation of postrelease supervision occurs.

(d) Factors that shall be considered in determining whether or not an offender on supervised release is awarded good time credits shall include the following:

- (1) Reporting to the parole officer as scheduled;
- (2) maintaining steady employment, participating in treatment, or both;
- (3) refraining from criminal activity;
- (4) following the conditions of release; and
- (5) maintaining behavior indicative of rehabilitation.

(e) Each of the following violations, if committed by the offender during the review period, shall result in the withholding of 100% of the good time credits available during the review period:

(1) Any felonious conduct established with probable cause by a district court, or any misdemeanor conviction, including driving under the influence (DUI) or driving while suspended (DWS);

(2) engagement in assaultive activities, violence, or threats of violence of any sort, or possession of a dangerous weapon, ammunition, or explosives as established by reliable information, including witness statements and police reports;

(3) engagement in contact with victims or contact with specific persons or categories of persons with whom contact is prohibited by special condition;

(4) failure to agree to be subject to a search by any parole officer, enforcement, apprehensions, and investigations officer, or other law enforcement officer as specified by the conditions of supervision;

(5) absconding from supervision.

(f) Each of the following violations shall result in the mandatory withholding of 50% of the good time credits available during the review period for each violation:

(1) Violation of any specific prohibition assigned to sex offenders;

(2) leaving the state of Kansas without permission;

(3) violation of any special condition not specifically identified in this regulation; or

(4) refusal to work or participate in programs during the review period.

(g) Each of the following violations shall result in the mandatory withholding of 25% of the good time credits available for the reward period for each violation:

(1) Changing jobs without notifying the supervising office;

(2) leaving the assigned supervision district without permission, but remaining in the state;

(3) refusing to provide urinalysis or to otherwise submit to substance abuse testing;

(4) moving from the place of residence without notifying the supervising officer; or

(5) each documented instance of the use of drugs, alcohol, or inhalants, either through positive urinalysis, through admission, or based upon reliable information from law enforcement or special agents.

(h) Either of the following violations shall result in the mandatory withholding of 10% of the good time credits available for the reward period for each violation:

(1) Failure to pay supervision fees as directed after it has been established that the offender is able to but unwilling to pay; or

(2) failure to report unless excused by the parole officer.

(i) If multiple violations that result from the same set of circumstances occur, the most severe violation shall be utilized for consideration of the good time award.

(j) Violations resulting in the withholding of good time shall not serve as the basis for withholding of additional good time during subsequent award periods.

(k) Good time credits shall be withheld during the award period in which the criteria for withholding good time has been met. The award of good time for a review period for which good time has already been awarded may be adjusted upon the subsequent discovery of a violation committed during the review period in question or upon discovery of any error in computing good time credits.

(l) On and after February 1, 2013, offenders on postrelease supervision may be eligible for the restoration of good time withheld while on postrelease supervision due solely to nonpayment of supervision fees, in accordance with internal management policies and procedures established by the secretary of corrections. Good time credits withheld for any review period commencing before that date may be restored. (Authorized by and implementing K.S.A. 2011 Supp. 22-3717, as amended by L. 2012, Ch. 150, §43; effective Sept. 6, 2002; amended Feb. 1, 2013.)

44-6-115c. Service of postrelease supervision revocation incarceration penalty period; awarding, withholding, and forfeiture of

good time credits for offenders serving incarceration penalty period. (a) For offenders who were convicted of committing offenses on or after July 1, 1993, but before April 20, 1995, and whose postrelease supervision is revoked for reasons other than commission of a new crime, good time credits shall not be available for the purpose of reducing the applicable 90-day incarceration penalty period.

(b) For offenders who were convicted of crimes committed on or after April 20, 1995, and whose postrelease supervision is revoked for reasons other than commission of a new crime, good time credits may be earned toward reduction of the applicable six-month incarceration penalty period by up to three months. Awarded good time credits shall be applied at the rate of one day for each day served from the date of the revocation hearing or, if applicable, the effective date of waiver of the revocation hearing before the prisoner review board.

(c) For offenders who are serving a sentencing guidelines sentence and whose postrelease supervision is revoked due to commission of a new crime, good time credits shall not be available to reduce the period of the incarceration penalty. Offenders whose postrelease supervision is revoked due to commission of a new felony shall serve the entire remaining balance of postrelease supervision in prison. Offenders whose postrelease supervision is revoked due to commission of a misdemeanor shall serve the remaining balance of postrelease supervision in prison unless released by order of the prisoner review board.

(d) Awards of good time shall be made at 30-day intervals from the date of the revocation hearing before the board, or from the effective date of the waiver of the revocation hearing, as applicable. If an offender who waives the revocation hearing has not yet been transferred to a correctional facility when any 30-day interval occurs, the initial award shall be made when the offender is so transferred. When the offender waives the revocation hearing before the board, 100% of good time credits available for any time spent in detention from the effective date of the waiver and before the offender's transfer to a correctional facility shall be awarded, unless there is written documentation of maladjustment during the detention.

(e) For purposes of forfeiture, award, and withholding of good time credits, offenders serving a postrelease revocation penalty period for reasons other than commission of a new crime shall be

subject to the provisions of articles 12 and 13 that prescribe rules of inmate conduct, penalties for violation thereof, and the procedures employed for processing charges of rules violations.

(f) The following factors shall be considered in determining whether or not an offender is awarded good time credits:

(1) The offender's performance in a work assignment;

(2) the offender's performance in a program assignment;

(3) the offender's maintenance of an appropriate personal and group living environment;

(4) the offender's participation in release planning activities;

(5) the offender's disciplinary record, unless the offender incurred a forfeiture of good time credits based on the same disciplinary conviction; and

(6) any other factors related to the offender's general adjustment, performance, behavior, attitude, and overall demonstration of individual responsibility and accountability.

(g) If an offender refuses to work constructively or to participate in assigned programs, 100% of the good time credits available for program classification review periods shall be withheld until the offender participates in the assigned program at a time that permits the offender to complete the program, unless the facility health authority determines that the offender is physically or mentally incapable of working or participating in a particular program or detail.

(h) If an offender fails to cooperate in the development of an acceptable release plan, the good time credits available for award during the 30-day period immediately before the offender's scheduled release date shall not be awarded.

(i) Award of good time credits shall be withheld on the basis of an offender's disciplinary record in the following manner:

(1) If a facility disciplinary hearing officer finds the offender guilty of a class I disciplinary offense, at least 50% of the good time credits available for that classification review period in which the violation occurred shall be withheld.

(2) If a facility disciplinary hearing officer finds the offender guilty of a class II disciplinary offense, at least 25% but not more than 50% of the good time credits available for that classification review period in which the violation occurred shall be withheld.

(3) If a facility disciplinary hearing officer finds the offender guilty of a class III disciplinary of-

fense, at least 10% but not more than 25% of the good time credits available for that classification review period in which the violation occurred shall be withheld. For purposes of this paragraph, summary disciplinary judgments pursuant to K.A.R. 44-13-201b shall not be considered a guilty finding.

(4) If a facility disciplinary hearing officer finds the offender guilty of multiple disciplinary violations within a single disciplinary report, only the most serious violation shall be used in determining the percentage of good time credits that shall be withheld.

(j) The percentage of good time credits withheld during a classification review period shall be cumulative but shall not exceed 100% of that available for that classification review period. Good time credits awarded and applied during the final review period shall not vest until the offender is actually released from the incarceration penalty period and may be withheld due to the offender's misconduct before actual release.

(k) Good time credits forfeited as a result of a penalty imposed by a facility disciplinary hearing officer shall not be restored to an offender.

(l) On and after February 1, 2013, good time credits awarded during the period of service of the incarceration penalty shall not serve to reduce the offender's period of postrelease supervision. (Authorized by and implementing K.S.A. 2011 Supp. 75-5217, as amended by L. 2012, Ch. 16, §36; effective Sept. 6, 2002; amended Feb. 1, 2013.)

44-6-125. Good time forfeitures not restored; exceptions; limits; parole; guidelines release date; program credits; withholding of good time credits subject to restoration.

(a) On and after May 1, 1981, no good time forfeitures restored. For all inmates, good time credits or program credits that were forfeited on and after May 1, 1981 shall not be restored at a later date.

An exception may be requested by the warden in order that standards of basic fairness, equity, and justice may be met. In such a case, good cause for restoration of good time credits shall be shown, in writing, by the warden to the secretary or the secretary's designee. Restoration of good time credits by exception shall be granted only upon written approval by the secretary or the secretary's designee. Good time forfeited before the first effective date of this regulation, May 15, 1980, may be restored in accordance with the secretary of corrections' policies and procedures then in force and effect. Good time credits or program credits

that are eligible for award but have not yet actually been awarded due to an administrative error or omission may be forfeited.

(b) Forfeit only on minimum until parole eligibility. Before parole eligibility, forfeited good time credits shall be subtracted from the amount of good time credits earned toward the parole eligibility only, and not from those credits used to create the conditional release date. After parole eligibility is achieved, subsequent forfeited credits shall be subtracted from the credits used to form the conditional release date.

(c) Forfeitures limited to awards; no extension of maximum. Good time credits or program credits shall not be forfeited in an amount in excess of the good time or program credit earned before the disciplinary conviction. If an inmate receives an award of jail credit from the sentencing court after issuance of the original journal entry of sentencing and the sentence computation is revised accordingly, previous forfeitures of good time or program credits shall not be revised or modified. In cases of a new sentence conviction, disciplinary offenses occurring before the effective date of the new sentence that result in the forfeiture of good time or program credits shall not be applied to the computation. In no case shall forfeiture of good time or program credits extend the controlling maximum sentence, nor shall the forfeiture of good time credits interfere with or bypass any statutorily fixed parole eligibility that is not controlled by good time credits.

(d) No parole eligibility if forfeited time remains unserved. If good time credits on the term have been forfeited, an inmate shall not be eligible for parole until the inmate has served the time that otherwise would have been subtracted from the term by the application of the credits, or has obtained a restoration of those credits.

(e) In the case of an offender serving a guidelines sentence, forfeiture of good time or program credits shall affect the guidelines release date. Good time or program credits shall not be forfeited in an amount in excess of good time or program credits previously earned.

(f) Forfeitures made by disciplinary process. Forfeiture of good time credits or program credits may be ordered by the disciplinary board or hearing officer as a penalty for the inmate's commission of certain offenses as specified in articles 12 and 13.

(g) Good time or program credits withheld during service of a prison term or good time credits withheld during service of the postrelease su-

pervision period, except credits withheld due to violation of supervision conditions resulting in revocation of postrelease supervision, may be restored in accordance with internal management policies and procedures established by the secretary of corrections. (Authorized by K.S.A. 2011 Supp. 21-6821, as amended by L. 2012, Ch. 150, §37, K.S.A. 2011 Supp. 75-5210, K.S.A. 2011 Supp. 75-5251; implementing K.S.A. 2011 Supp. 21-6821, as amended by L. 2012, Ch. 150, §37, K.S.A. 2011 Supp. 22-3717, as amended by L. 2012, Ch. 150, §43, K.S.A. 2011 Supp. 75-5210, K.S.A. 2011 Supp. 75-5251; effective, T-84-32, Nov. 23, 1983; effective May 1, 1984; amended Nov. 12, 1990; amended April 6, 1992; amended Sept. 6, 2002; amended June 1, 2007; amended Aug. 8, 2008; amended Feb. 1, 2013.)

44-6-127. Program credits. (a) Program credits may be earned on the prison portion of a sentence for crimes at non-drug severity levels 4 through 10 or drug grid severity level 3 or 4 committed on or after January 1, 2008, but before July 1, 2012, or for crimes at non-drug severity levels 4 through 10 or drug severity level 4 or 5 committed on or after July 1, 2012, for successful completion of programs designated by the secretary of corrections. These credits shall be in addition to good time credits awarded pursuant to K.A.R. 44-6-115a.

(b)(1) Subject to the exception stated in this subsection, if any portion of an inmate's composite sentence does not qualify for application of program credits, the inmate's entire sentence shall be found to be ineligible.

(2) Notwithstanding paragraph (b)(1), any inmate serving a composite sentence consisting of a sentence for a crime committed before July 1, 1993, with an indeterminate term of years, which shall mean a term other than a sentence of life imprisonment or a sentence with a maximum term of life imprisonment, and a determinate sentence for an offense committed while on release that otherwise meets the criteria specified in this regulation may be eligible to earn program credits on the remaining determinate sentence if the inmate meets any of the following conditions:

(A) Is paroled to the determinate sentence;

(B) attains conditional release; or

(C) reaches the maximum sentence expiration date on the indeterminate sentence.

(c) Program credits shall not be awarded for successful completion of a sex offender treatment program.

(d) Program credits shall not exceed 60 days on any one eligible controlling sentence, regardless of the number of programs completed. For the purposes of awarding and applying program credits, all calculations shall be based upon a year, which shall be considered a 360-day period with each month consisting of 30 days.

(e) Program credits earned and retained on the prison portion of the sentence shall be added to the inmate's postrelease supervision term.

(f) Earned program credits may be forfeited through the disciplinary process in the same manner as that for any other earned good time credits.

(g) Criteria to determine if an inmate's performance and conduct warrant the awarding of some or all of the available program credits shall be established by the secretary through the issuance of an internal management policy and procedure. (Authorized by and implementing K.S.A. 2011 Supp. 21-6821, as amended by L. 2012, Ch. 150, §37; effective Aug. 8, 2008; amended Feb. 1, 2013.)

44-6-134. Jail credit time. (a) Jail credit shall not be used in the sentence computation unless an authorization appears in the journal entry of judgment form. If only the number of days of jail credit earned is contained in the journal entry, the records officer shall compute the sentence begins date by subtracting jail credit from the date of sentencing. The amount of jail credit shall not adjust the sentence begins date so that it falls before the date of commission of the offense.

(b) Jail credit shall be awarded for time spent in custody by an offender pending disposition of charges on the earlier sentence if consecutive sentences are imposed on different dates. The credits on the earlier sentence shall be computed so that the credits do not overlap into the latest imposed sentence. The credits for time spent previously in custody pending disposition of charges shall be recorded as jail credit, but the credit shall not exceed an amount equal to the previous minimum sentence less the maximum number of good time credits that could have been earned on the minimum sentence. The remainder of credits shall be recorded as sentence maximum credits to apply to the maximum date. If prison service credit was included as jail credit by the court, the credit shall be shown as jail credit.

(c) Jail credit shall be awarded for time spent in custody by an offender pending disposition of charges on an earlier sentence if consecutive

guidelines sentences are imposed on different dates. The credits on an earlier sentence shall be computed so that the credits do not overlap into any sentence imposed after the earlier sentence was imposed.

(d) Jail credit shall be awarded for time spent in custody by an offender pending disposition of charges if consecutive guidelines sentences are imposed on the same date. However, the credits shall be computed so that they do not overlap from one sentence into any other sentence. (Authorized by K.S.A. 2011 Supp. 75-5251; implementing K.S.A. 2011 Supp. 21-6606, as amended by L. 2012, Ch. 16, §4, K.S.A. 2011 Supp. 21-6615, K.S.A. 2011 Supp. 75-5251; effective, T-84-32, Nov. 23, 1983; effective May 1, 1984; amended Nov. 12, 1990; amended Sept. 30, 1991; amended Sept. 6, 2002; amended Feb. 1, 2013.)

44-6-135. Prison service credit. (a) Prison service credit shall be computed and applied by department of corrections' personnel.

(b) To compute prison service credit for court releases, the effective date of the sentence shall be subtracted from the date of the final disposition of the court by release on probation, appeal bond, or vacating of the sentence. Presentence evaluation time spent at the Topeka correctional facility or any other facility designated by the secretary of corrections shall not be considered as prison service credit, but shall be considered jail credit. If prison service credit was included as jail credit by the court, the credit shall be shown as jail credit. After admission to custody of the secretary of corrections, all time spent incarcerated during release to the custody of a law enforcement agency shall be reflected as prison service credit, unless the time spent incarcerated during release to the custody of a law enforcement agency is included as jail credit by the court.

(c) To compute prison service credit for an aggregate sentence, the sentence begins date of the earlier, controlling minimum sentence date shall be subtracted from the release date and applied as follows:

(1) The actual time incarcerated in the custody of the secretary of corrections or release to custody of a law enforcement agency, not exceeding an amount equal to the previous minimum sentence less the maximum amount of good time credit that could have been earned under the law in effect at the time, shall be the prison service credit available.

(2) The prison service credit for a mandatory minimum sentence imposed before July 1, 1982 shall be restricted to a total credit equal to the actual time served before July 1, 1982, and the remaining minimum time to serve less all good time credits that could have been earned after July 1, 1982.

(3) The prison service credit for a life sentence shall not exceed 15 years or the aggregated 15 years. The remainder of the credit shall be credited as maximum sentence credit.

(4) Accelerated parole eligibility dates under K.S.A. 1988 Supp. 22-3725 shall be credited through May 19, 1988 if the accelerated date was before the effective parole eligibility date under that statute.

(5) Accelerated parole eligibility dates under K.S.A. 1989 Supp. 22-3725 shall be credited through August 1, 1989 if the accelerated parole eligibility date was before the effective date of that statute.

(6) Parole eligibilities computed on or after July 1, 1974 and before January 1, 1979, which were established at the discretion of the secretary of corrections upon attainment of the lowest minimum custody status, shall be credited with the actual time served from the sentence begins date of the earlier controlling minimum sentence. This credit shall not exceed the maximum amount of good time credits provided by K.A.R. 44-6-116 that could have been earned on the minimum sentence.

(7) For aggregated guidelines sentences, the actual time incarcerated in the custody of the secretary of corrections or release to custody of a law enforcement agency, not exceeding an amount equal to the previous prison term less the minimum amount of good time credit that could have been earned under the law in effect at the time, shall be the prison service credit available.

(d) Computations of prison service credit shall be subject to the provisions of K.A.R. 44-6-134, 44-6-136, 44-6-137, and 44-6-138. (Authorized by K.S.A. 2011 Supp. 75-5210, K.S.A. 2011 Supp. 75-5251; implementing K.S.A. 2011 Supp. 21-6606, as amended by L. 2012, Ch. 16, §4, K.S.A. 2011 Supp. 22-3427, as amended by L. 2012, Ch. 28, §1, K.S.A. 2011 Supp. 22-3717, as amended by L. 2012, Ch. 150, §43, K.S.A. 2011 Supp. 75-5210, K.S.A. 2011 Supp. 75-5251; effective, T-84-32, Nov. 23, 1983; amended May 1, 1984; amended Nov. 12, 1990; amended Sept. 30, 1991; amended April 6, 1992; amended Feb. 1, 2013.)

44-6-135a. Maximum sentence credit.

Maximum sentence credit shall be the remaining amount of time incarcerated that exceeded the prison service credit or jail credit on an earlier sentence. For consecutive sentences aggregated to previously imposed consecutive sentences, the latest sentence shall be credited with the remaining amount of time incarcerated for the latest release that exceeded the prison service credit plus all the prison service credit earned on the earlier consecutive sentences. The maximum sentence date shall be adjusted by that amount. (Authorized by K.S.A. 2011 Supp. 75-5210, K.S.A. 2011 Supp. 75-5251; implementing K.S.A. 2011 Supp. 22-3427, as amended by L. 2012, Ch. 28, §1, K.S.A. 2011 Supp. 21-6606, as amended by L. 2012, Ch. 16, §4, K.S.A. 2011 Supp. 22-3717, as amended by L. 2012, Ch. 150, §43, K.S.A. 2011 Supp. 75-5210, K.S.A. 2011 Supp. 75-5251; effective Nov. 12, 1990; amended Feb. 1, 2013.)

44-6-138. Sentence begins date. (a) Jail credit. Each sentence begins date shall reflect all jail credit.

(b) Reimposed sentence, governed by date of reimposition; adjustment alternatives. The sentence begins date for reimposed sentences, including those reimposed for technical probation violators or persons returned by appellate mandates, shall be the date the court reimposed the sentence unless jail credit or prison service credit is due. If the court instructs the inmate to surrender to correctional authorities after the sentence imposition date, that surrender date shall become the sentence begins date. This date may be further adjusted by jail credit.

(c) Vacated sentences in aggregated sentences; recomputation of sentence begins date. If one or more sentences in an aggregated sentence are vacated, the sentence begins date shall be the date of the last sentence imposed that is not vacated. Credit shall be given on the remaining sentence or sentences in an amount equal to the time served on all sentences included in the recomputed aggregate sentence, but no credit shall be allowed for time served that is attributable solely to the vacated sentence or sentences.

(d) Multiple concurrent sentences governed by court order. The court orders in which multiple, nonconsecutive sentences were imposed shall serve as the reference to ascertain the sentence begins date for use in computing the controlling minimum, maximum, and conditional release dates, or

guidelines release date, as applicable, subject to the provisions of K.A.R. 44-6-137, K.A.R. 44-6-138, K.A.R. 44-6-140, and K.A.R. 44-6-141.

(e) Multiple consecutive sentences. When multiple sentences are imposed on the same date with the stipulation that one is to be consecutive to another, that date shall be used for the sentence begins date unless adjustments are necessary to allow for jail credit. Jail credits allowed shall reflect the largest amount given on any sentence.

(f) Consecutive before 1979 or after 1982. If a sentence for a crime committed before January 1, 1979 or after July 1, 1982 is to be consecutive with any previously imposed sentence, all dates shall be computed from the earliest sentence imposition date, allowing for jail credit and prison service credit earned on that earliest sentence. If an inmate has been on probation, parole, or conditional release, as a result of a previously imposed sentence, parole eligibility, conditional release, and maximum dates shall also be adjusted to give credit for time served on probation, parole, or conditional release, subject to K.S.A. 2011 Supp. 21-6606 and amendments thereto.

(g) Consecutive sentences between 1979 and 1982. If a sentence for a crime committed on or after January 1, 1979 and through June 30, 1982 is to be consecutive with any previously imposed sentence, the sentence begins date shall be determined by the imposition date of the latest sentence. The sentence begins date shall then be moved to an earlier date by an amount of time equal to jail credit and prison service credit earned on the earlier sentence. Credit shall also be allowed for the time on the minimum term of the earlier sentence, including any time on probation or parole, up to a maximum reduction equal to the minimum term of the earlier sentence.

(h)(1) If a sentence for a crime committed on or after July 1, 1983 is to be consecutive with some previously imposed sentence, the aggregated minimums and maximums shall be computed, and the aggregate sentence shall have the same sentence begins date as the newly imposed sentence. Credit shall be given on the aggregate in an amount equal to the time served on the earlier sentences included in the aggregate. However, for the purpose of computing the sentence begins date, the parole eligibility date, and the conditional release date, this credit shall not exceed the amount of time equal to the period from the sentence begins date, for the previous sentence, to the earliest possible parole eligibility date as if all good

time credits had been earned on that previous sentence. An inmate serving a life sentence shall be allowed credit for the total time served, not to exceed 15 years. An inmate serving a mandatory minimum sentence shall be allowed credit for all time served on the sentence before July 1, 1982 plus the remaining minimum time to serve, less all good time credits allowable. When computing the maximum date, the inmate shall receive credit for all time served on the previous sentence.

(2) If the aggregate includes a sentence on which the inmate was serving probation, parole, or conditional release, no credit for time spent on that probation, parole, or conditional release shall be given in computations for the aggregate sentence.

(i) When the aggregate is being computed, the inmate shall be given credit for time spent on probation or parole if both of the following conditions are met:

(1) An inmate is returned to prison as a parole violator with multiple new charges that have identical sentences running concurrent with each other but consecutive to the previous sentence on which parole was being served.

(2) The date of offense on one or more new charges is before July 1, 1983, and another is after July 1, 1983.

(j) If a sentencing guidelines sentence is run consecutively to a sentence for a crime committed before July 1, 1993, regardless of whether the prior sentence is converted to a sentencing guidelines sentence, the sentence begins date shall be the sentence begins date of the newly imposed sentencing guidelines sentence. Credit shall be given on the aggregate in an amount equal to the time served on the earlier sentences included in the aggregate.

(k) If a sentencing guidelines sentence is run consecutively to a prior sentencing guidelines sentence, the sentence begins date shall be the sentence begins date of the newly imposed sentencing guidelines sentence. Credit shall be given on the aggregate in an amount equal to the time served on the earlier sentences included in the aggregate. (Authorized by K.S.A. 2011 Supp. 75-5251; implementing K.S.A. 2011 Supp. 21-6606, as amended by L. 2012, Ch. 16, §4, K.S.A. 2011 Supp. 22-3717, as amended by L. 2012, Ch. 150, §43; effective, T-84-32, Nov. 23, 1983; effective May 1, 1984; amended, T-85-37, Dec. 19, 1984; amended May 1, 1985; amended May 1, 1988; amended Sept. 6, 2002; amended Feb. 1, 2013.)

Article 9.—PAROLE, POSTRELEASE SUPERVISION, AND HOUSE ARREST

44-9-101. Definitions. (a) “Board” means the prisoner review board established by L. 2011, ch. 130.

(b) “Conditional release,” for offenders serving indeterminate sentences for offenses committed before July 1, 1993, means release subject to supervision under terms and conditions determined by the board after serving the maximum sentence less all projected good time credits, subject to adjustment for any forfeiture of good time credits.

(c) “Correctional facility” means any of the facilities identified in K.S.A. 75-5202, and amendments thereto.

(d) “Docket” means the board’s prearranged schedule of hearings.

(e) “Executive clemency” means the power of the governor to commute or pardon a criminal sentence.

(f) “Commute a criminal sentence” means to reduce the penalty imposed on a convicted person.

(g) “Pardon” means to forgive completely the punishment of a person convicted of a crime.

(h) “Good time credits” means the statutorily authorized reduction in time on an inmate’s sentence as specified by K.S.A. 21-6821 and K.S.A. 22-3717, and amendments thereto, and K.A.R. 44-6-101, K.A.R. 44-6-115a, K.A.R. 44-6-115b, K.A.R. 44-6-115c, K.A.R. 44-6-125, K.A.R. 44-6-126, and K.A.R. 44-6-145.

(i) “House arrest” means the confinement of an inmate or offender under postincarceration supervision in the residence of the inmate or offender pursuant to the release provisions of L. 2010, ch. 136, §249, as amended by L. 2011, ch. 100, §19, and amendments thereto, or as a sanction of an offender under postincarceration supervision for violation of a condition of supervision, subject to conditions imposed by the secretary or designee or by the board, or as otherwise permitted by law.

(j) “In absentia” means a status in which an inmate is committed to the custody of the secretary and is serving the sentence out of state or in another jurisdiction.

(k) “Parole” means, for crimes committed before July 1, 1993 and off-grid offenses designated in K.S.A. 22-3717 and amendments thereto, the release of an inmate to the community by the board before the expiration of the inmate’s sentence, subject to conditions imposed by the board and administered under the secretary’s supervision.

(l) “Postincarceration supervision” means the supervision of any offender released to the community after service of the requisite term of incarceration. This term shall include parole, conditional release, and postrelease supervision.

(m) “Postrelease supervision” means, for crimes committed on or after July 1, 1993, the release of an inmate, subject to conditions imposed by the board, to the secretary’s supervision and to the community after the inmate has served a period of imprisonment or after the inmate has served equivalent time in a facility where credit for time served is awarded as specified by the court.

(n) “Public comment session” means the board’s regular, scheduled meeting with interested parties in the community for the purpose of receiving comments concerning the publicly announced listing of persons to be considered for parole by the board.

(o) “Secretary” means the secretary of corrections.

(p) “Unit team” means the group of correctional facility staff that is responsible for monitoring the overall management, supervision, custody, and rehabilitation plan of an inmate, as initiated by the classification committee, and that recommends custody changes and prepares progress summaries.

(q) “Warden” means the person in charge of the operation and supervision of a correctional facility. (Authorized by K.S.A. 2011 Supp. 21-6609, as amended by L. 2011, ch. 130, §§ 2 and 3, K.S.A. 2011 Supp. 22-3701, as amended by L. 2011, ch. 130, §§ 2 and 3, K.S.A. 2011 Supp. 22-3717, as amended by L. 2011, ch. 130, §§ 2 and 3, K.S.A. 2011 Supp. 75-5251; implementing K.S.A. 21-6609, as amended by L. 2011, ch. 130, §§ 2 and 3, K.S.A. 2011 Supp. 22-3701, as amended by L. 2011, ch. 130, §§ 2 and 3, K.S.A. 2011 Supp. 22-3717, as amended by L. 2011, ch. 130, §§ 2 and 3; effective May 1, 1980; amended May 1, 1985; amended May 1, 1987; amended March 23, 2012.)

44-9-105. Preliminary hearing for alleged violators. Alleged parole violators, conditional release violators, postrelease supervision violators, and house arrest condition violators shall be afforded a hearing to determine if there has been any violation of any conditions of supervision, unless the releasee knowingly and voluntarily waives the hearing. The requirements for the hearing shall be as follows: (a) The releasee shall be informed of the charges in writing with

sufficient particularity and sufficient time in advance of the hearing to prepare a defense. The hearing shall be held within three to 14 days after service of the notice of charges, subject to authorized continuances. If evidence of any new violation of conditions of supervision is discovered after service of the original notice of charges upon the offender but before the hearing and a determination is then made that the releasee should be so charged, notice of any additional charge of violation shall be given to the releasee in the same manner as that for the original statement of charges. The hearing shall be continued for an appropriate interval if the releasee receives notice of any additional charge of violation less than three days before the original hearing date, unless the releasee waives advance service of the notice of amended charges.

(b) The purpose of the hearing shall be to determine whether probable cause exists to believe that a condition of supervision has been violated. The hearing shall be held before a party not involved in the case. Pending the hearing, the releasee shall remain incarcerated.

(c) If evidence of any new violation of conditions of supervision not yet charged is produced or placed on the record during the hearing, other than a new violation based solely upon a voluntary admission by the offender during the hearing, and it is determined by the hearing officer that the new charge should be added to the statement of charges for consideration, then a recess shall be declared by the hearing officer and a statement of any additional charge of violation of conditions of supervision shall be served upon the releasee in the same manner as that for the original statement of charges. The recess shall be for an appropriate interval of at least three days to permit the releasee to prepare a defense to any such additional charge, unless the releasee waives the three-day period and agrees to proceed with a hearing of the additional charge or charges within a shorter time period. Pending resumption of the hearing, the releasee shall remain incarcerated.

(d) The hearing shall be held at or reasonably near to the site of the arrest or commission of the alleged violation. The hearing may be held at a correctional facility.

(e) The releasee shall be entitled to call witnesses to appear on the releasee's behalf at the hearing.

(1) The hearing officer may restrict the witnesses to those who can testify to the facts relevant to

the occurrence of the alleged violation. Character reference witnesses may be excluded.

(2) Witnesses may testify by telephone if the releasee is able to hear the testimony of the witness contemporaneously with the hearing officer.

(f) The releasee shall have the right to be made aware of adverse evidence. The releasee shall be allowed to cross-examine adverse witnesses unless the hearing officer decides that the witness could be physically harmed if the witness's identity is revealed.

(g) The hearing officer shall issue a written decision indicating whether or not there is probable cause to hold the releasee on each charge of violation of a condition of release and also indicating the evidence relied upon for each finding of probable cause. If a finding of probable cause is made on the basis of a voluntary admission by the releasee of any new violation during the hearing, then the hearing officer shall cause an amended statement of charges of condition violations reflecting the new condition violation or violations to be added to the record. The hearing officer shall then refer the case record to the board for a final revocation hearing, but a charge of violation of a condition of supervision shall not be referred to the board unless a finding of probable cause for that violation is included in the case record. The releasee shall be given a written statement of the basis for the decision and, if applicable, an amended statement of charges of condition violations.

(h) If the releasee had not previously been returned to a correctional facility, upon finding of probable cause, the releasee shall be returned to a correctional facility designated by the secretary of corrections pending a final revocation hearing by the board. (Authorized by K.S.A. 2011 Supp. 21-6609, as amended by L. 2011, ch. 130, §§ 2 and 3, K.S.A. 2011 Supp. 75-5210, K.S.A. 2011 Supp. 75-5217; implementing K.S.A. 2011 Supp. 22-3717, as amended by L. 2011, ch. 130, §§ 2 and 3, K.S.A. 75-5216, K.S.A. 2011 Supp. 75-5217; effective May 1, 1980; amended July 11, 1994; amended March 23, 2012.)

44-9-107. House arrest program. All inmates and offenders under postincarceration supervision placed in the house arrest program shall be subject to the sanctions and conditions that are prescribed by the secretary in published internal management policies and procedures for house arrestees, ordered by the board, or otherwise permitted by law. (Authorized by and implementing

K.S.A. 2011 Supp. 21-6609, as amended by L. 2011, ch. 130, §§ 2 and 3, and K.S.A. 2011 Supp. 22-3717, as amended by L. 2011, ch. 130, §§ 2 and 3; effective March 23, 2012.)

44-9-501. General provisions. Each offender who is returned on a violator warrant issued by the secretary shall be brought before the board as soon as practical for a final revocation hearing of postincarceration supervision or house arrest status, unless the offender is eligible for and chooses to waive the right to the hearing as provided in K.A.R. 44-9-504. At any time before a final revocation hearing is held under K.A.R. 44-9-502, the warrant may be withdrawn at the request of the secretary, and the offender may be rereleased on parole, conditional release, postrelease supervision, or house arrest. At that time, new conditions may be established, or the conditions of parole, conditional release, postrelease supervision, or house arrest may be modified by the board. (Authorized by and implementing K.S.A. 2011 Supp. 21-6609, as amended by L. 2011, ch. 130, §§ 2 and 3, K.S.A. 2011 Supp. 22-3717, as amended by L. 2011, ch. 130, §§ 2 and 3, and K.S.A. 2011 Supp. 75-5217; effective March 23, 2012.)

44-9-502. Final revocation hearings. (a) After an offender is returned to a correctional facility under K.A.R. 44-9-501, the offender may request a hearing before the final decision on revocation by the board. Any offender on postrelease supervision or assigned to house arrest may waive the final revocation hearing as provided in K.A.R. 44-9-504. The final revocation hearing shall be held without unnecessary delay and shall be conducted by the board or any member of the board. After the board considers all pertinent evidence, an appropriate order shall be entered by the board. If the violation is established to the satisfaction of the board, the parole, conditional release, postrelease supervision, or assignment to house arrest may be reinstated, modified, or revoked by the board.

(b) Before the final revocation hearing, the following information shall be provided to the offender by the board:

(1) Written notice of the alleged violations of the conditions of release; and

(2) the evidence against the offender. If the board finds that there are additional violations other than those contained in the written notice, the hearing shall be continued so that a written

notice of the additional violations and a statement of the evidence against the offender can be prepared.

(c) Each offender shall have the right to confront and cross-examine adverse witnesses, unless the board finds good cause for not allowing confrontation. If the board does not allow the offender to confront a witness, the evidence relied upon and the reasons for this determination shall be specified by the board. If the offender had the opportunity to cross-examine a witness at the probable cause hearing provided in K.A.R. 44-9-105, the record may be relied upon by the board, in lieu of calling that witness.

(d) Each offender shall have an opportunity to be heard in person and to present documentary evidence and witnesses who can provide information relevant to the allegations of the violation of the conditions of release or house arrest. The attendance of witnesses favorable to the offender shall be the responsibility of the offender and shall be at the offender's expense. The hearing may be continued to allow for the attendance of witnesses.

(e) All relevant evidence, including letters and affidavits, shall be received by the board. If the violation of the conditions of release or house arrest results from a conviction for a new felony or misdemeanor, the only question considered by the board shall be whether or not the new conviction warrants revocation.

(f) Each offender shall be entitled to have legal counsel present at the hearing, at the offender's expense.

(1) Legal counsel may be appointed by the board upon the request of the inmate or on the board's own motion. The appointment of legal counsel shall be based upon either of the following claims by the offender, which shall be timely and on its face plausible:

(A) A claim that the offender has not committed the alleged violation of the conditions of release or house arrest; or

(B) a claim that there are substantial reasons that justify or mitigate the violation and make revocation inappropriate.

(2) The board's decision regarding the appointment of counsel shall take into account whether or not the offender is capable of speaking effectively for that individual and whether or not the circumstances are complex or otherwise difficult to develop or present.

(3) In all cases in which a request for appointed counsel at a preliminary hearing or final revoca-

tion hearing is denied, the grounds for denial shall be stated in writing.

(g) If the offender's release or assignment to house arrest is revoked, a written statement as to the evidence relied upon and reasons for revoking the release or assignment to house arrest shall be given to the offender by the board. (Authorized by and implementing K.S.A. 2011 Supp. 21-6609, as amended by L. 2011, ch. 130, §§ 2 and 3, K.S.A. 2011 Supp. 22-3717, as amended by L. 2011, ch. 130, §§ 2 and 3, and K.S.A. 2011 Supp. 75-5217; effective March 23, 2012.)

44-9-503. Sanctions; computation of time. (a)(1) Any offender whose parole has been revoked may be required by the board to serve all or any part of the remaining time on the sentence up to the original conditional release date, plus all good time forfeited by the board.

(2) Any offender whose conditional release has been revoked may be required by the board to serve all or any part of the remaining time on the sentence.

(3) Each offender whose postrelease supervision has been revoked for reasons other than conviction of a new crime shall serve a six-month period of confinement beginning on the date of the final revocation hearing or the effective date of the waiver of the final revocation hearing under K.A.R. 44-9-504. The six-month period of confinement may be reduced by not more than three months based on the offender's conduct, work, and program participation during this incarceration period, in accordance with regulations adopted by the secretary.

(4) Each parole violator with a new conviction and sentence shall achieve parole eligibility for the new sentence or sentences as determined by K.S.A. 22-3717 and K.S.A. 21-6606, and amendments thereto, and in accordance with regulations adopted by the secretary.

(5) Each postrelease violator whose postrelease supervision has been revoked due to conviction of a new crime shall serve one of the following periods of time:

(A) If the new crime is a felony, a period of confinement equal to the entire remaining balance of postrelease supervision; or

(B) If the new crime is a misdemeanor, a period of confinement to be determined by the board, which shall not exceed the entire remaining balance of the period of postrelease supervision.

(6) Each inmate whose house arrest has been

revoked shall serve the remaining balance of that inmate's underlying prison sentence incarcerated.

(b) Good time credits earned while on parole before the parole revocation date may be forfeited upon order of the board. Upon order of the board, the good time credits earned while on postrelease supervision may likewise be forfeited, before the postrelease supervision revocation date or the effective date of the waiver of the final revocation hearing.

(c) All of the available good time credits shall be withheld for the review period in which the revocation for house arrest occurs.

(d) Good time and program credits previously earned on the prison portion of the sentence of house arrestees may be forfeited by the disciplinary administrator in accordance with K.A.R. 44-6-115a(i) and K.A.R. 44-6-125(f).

(e) If the secretary has issued a warrant for the return of a released offender and it is determined that the warrant cannot be served, the released offender shall be deemed to be a fugitive from justice. If it appears that this fugitive has violated any of the provisions of release, the time from the violation of the provision to the date of arrest, as determined by the department of corrections, shall not be counted as time served under the sentence unless approved by the board. (Authorized by and implementing K.S.A. 2011 Supp. 21-6609, as amended by L. 2011, ch. 130, §§ 2 and 3, K.S.A. 2011 Supp. 22-3717, as amended by L. 2011, ch. 130, §§ 2 and 3, and K.S.A. 2011 Supp. 75-5217; effective March 23, 2012.)

44-9-504. Waiver of final revocation hearing. (a)(1) For purposes of this regulation, "misdemeanor" shall mean a class A, B, or C misdemeanor or a criminal charge of an equivalent class under a city ordinance.

(2) For purposes of this regulation, "detainer" shall mean a warrant, electrical or electronic transmission, or written correspondence from a law enforcement or correctional agency citing a misdemeanor or felony charge or conviction in that jurisdiction that results from criminal activity that occurred during the current period of parole or postrelease supervision.

(b) Each supervised offender who is serving only a determinate sentence and who meets all of the following conditions shall be eligible to waive the final revocation hearing before the board:

(1) The offender is not charged with a condition violation alleging conviction of a new crime.

(2) The offender is not the subject of any pending criminal misdemeanor charge, felony charge, or detainer for a misdemeanor or felony. If an offender is arrested on a new felony charge and formal criminal charges are not filed by the county or district attorney within 10 days of the offender's arrest, the offender shall be eligible to waive the final revocation hearing.

(3) The offender is detained in a Kansas correctional facility, jail, or detention center. A supervised offender serving an indeterminate sentence, or a sentence with a lifetime period of postrelease supervision, shall not be permitted to waive the final revocation hearing before the board.

(c) Any eligible offender may waive the final revocation hearing when the statement of condition violations is served, if the eligible offender simultaneously waives the preliminary hearing on those violations as provided by K.A.R. 44-9-105. If the offender elects not to waive the preliminary hearing, the revocation proceeding shall advance to a preliminary hearing. If, after that hearing, probable cause is established in regard to at least one of the alleged condition violations, the offender shall again be afforded the opportunity to waive the final revocation hearing before the board.

(d) If, before the final revocation hearing, the board receives notice that the criminal charges or a pending detainer has been dismissed, the offender shall again be given the opportunity to waive the final revocation hearing.

(e) At the time of presentation of the written waiver form by parole services staff, each offender shall be orally advised of the following:

(1) Execution of the waiver form signifies that the offender admits to guilt on all condition violations charged, unless the hearing officer specifically finds that a condition violation is not supported by probable cause.

(2) The offender waives the right to counsel and the right to present witnesses or the offender's own testimony to the board because no hearing will be held if the offender executes the waiver form.

(3) Upon receipt of the waiver form, the offender's postrelease supervision may be continued, modified, or revoked by the board, or other orders may be entered by the board as the board sees fit.

(f) Each offender shall make an election by indicating in writing upon the waiver form whether or not the offender desires to accept the offer of waiver. The waiver shall be executed in the presence of parole services staff, or the offender shall

acknowledge to parole services staff the authenticity of the offender's signature upon the form, which shall then be executed by parole services staff in the capacity of witness. If the offender refuses to accept the waiver form or to execute it, the waiver shall be deemed rejected, and the revocation proceeding shall advance to the final revocation hearing before the board.

(g) Upon execution of the waiver form, the penalty period of incarceration prescribed by K.S.A. 75-5217(b), and amendments thereto, shall begin, unless the board continues the offender's postrelease supervision. If a waiver is executed under circumstances described in subsection (d) of this regulation, the penalty period of incarceration shall begin on the date the criminal charge or pending detainer was dismissed. If an offender is detained on the basis of a felony arrest for which no formal charges are filed within a 10-day time frame, the penalty period of incarceration shall begin on the date the waiver is signed by the offender or an earlier date determined by the board, which shall not precede the date on which that felony arrest warrant was issued.

(h) Each offender who is serving only a determinate sentence and who either was supervised in a foreign jurisdiction under terms of the interstate compact for adult offender supervision, K.S.A. 22-4110 and amendments thereto, or was apprehended in another state after absconding from Kansas supervision shall be afforded the opportunity to waive the final revocation hearing as provided in subsection (c). This opportunity shall be afforded upon the offender's return to a Kansas correctional facility. Presentation of the waiver form, the formalities of its execution, and the effect of the waiver shall be governed in all respects by the provisions of subsections (e), (f), and (g).

(i) A signed waiver of a final revocation hearing shall be deemed invalid if it is discovered that the offender has been convicted of a new misdemeanor or felony that occurred during a period of postrelease supervision on the current active sentence. Under these circumstances, the offender shall be docketed for a hearing before the board.

(j)(1) An offender shall not rescind a written waiver of final revocation hearing that is before the board unless the offender petitions the board, in writing and in the form directed by the board, and proves any of the following to the satisfaction of the board:

(A) The offender was under duress at the time of execution of the waiver form.

(B) The offender's execution of the waiver form was procured through fraud.

(C) The offender was not advised that execution of the waiver form constitutes admission of guilt of the charged condition violation or violations.

(D) The offender was not advised of the rights that the offender would forego by execution of the waiver form.

The petition for rescission shall be submitted to the board and postmarked on or before the date no later than 14 calendar days after the date of the allegedly defective waiver.

(2) If the board grants the offender's petition, the charge of any condition violation shall be rescheduled for a preliminary hearing or a final revocation hearing, as applicable. If postrelease supervision is revoked by the board at the final hearing and the offender is ordered to serve an incarceration penalty period, this penalty period shall begin on the date of the revocation.

(k) Each inmate assigned to house arrest shall be eligible to waive the final revocation hearing before the board as provided in subsections (c), (e), and (f).

(1) The inmate shall serve the remaining balance of the prison portion of the sentence incarcerated.

(2) The inmate may also be issued a disciplinary report based upon the facts underlying the revocation. (Authorized by and implementing K.S.A. 2011 Supp. 21-6609, as amended by L. 2011, ch. 130, §§ 2 and 3, K.S.A. 2011 Supp. 22-3717, as amended by L. 2011, ch. 130, §§ 2 and 3, and K.S.A. 2011 Supp. 75-5217; effective March 23, 2012.)

Article 11.—COMMUNITY CORRECTIONS

44-11-111. Definitions. (a) "Active cases" means those cases that have been supervised in a manner that is consistent with contact standards adopted by the secretary.

(b) "Community corrections agency" means the structure that exists or is proposed to exist within a planning unit and that delivers the community corrections services outlined in a comprehensive plan.

(c) "Community corrections grant funds" means funds made available to a governing authority by the department of corrections, pursuant to the Kansas community corrections act, K.S.A. 75-5290 et seq. and amendments thereto.

(d) "Comprehensive plan" means the working document developed by a corrections advisory

board at a frequency prescribed by the secretary, setting forth the objectives and services planned for a community corrections agency.

(e) "Corrections advisory board" means a board appointed by a governing authority to develop and oversee a comprehensive plan.

(f) "Governing authority" means any county or group of cooperating counties that has established a corrections advisory board for the purpose of establishing a community corrections agency.

(g) "Grant year" means the year covered in a community corrections agency's comprehensive plan and shall be deemed to begin at the start of a state fiscal year.

(h) "Line items" means specific components comprising a major budget category.

(i) "Offender fees" means charges for drug and alcohol testing, electronic monitoring services, supervision services, housing in a residential center, and other services and assistance provided by community corrections agencies.

(j) "Program" means an adult intensive supervision program (AISP) or adult residential program (ARES) operated by a community corrections agency.

(k) "Reimbursements" means income generated by community corrections agencies and fees assessed and collected by community corrections agencies in prior fiscal years or in the current fiscal year, for expenses incurred.

(l) "Secretary" means the secretary of corrections.

(m) "Service" means a community corrections activity directed by a public or private agency to deliver interventions to offenders and assistance to victims, offenders, or the community.

(n) "Standards" means the minimum requirements of the secretary for the operation and management of community corrections agencies.

(o) "Unexpended funds" means state funds remaining in a program's accounts at the close of a fiscal year that are not obligated for expenses incurred during that fiscal year or that have not been approved for expenditure by the secretary beyond the fiscal year. (Authorized by K.S.A. 75-5294, 75-5296; implementing K.S.A. 2010 Supp. 75-5291, as amended by L. 2011, Ch. 30, Sec. 280, K.S.A. 2010 Supp. 75-5292, K.S.A. 75-5295, K.S.A. 75-5296, K.S.A. 2010 Supp. 75-5297, K.S.A. 75-52,102, K.S.A. 75-52,103, K.S.A. 2010 Supp. 75-52,105, K.S.A. 2010 Supp. 75-52,110; effective May 1, 1981; amended May 1, 1984; amended Feb. 6, 1989; amended March 5, 1990;

amended July 23, 1990; amended March 29, 2002; amended June 1, 2007; amended Feb. 24, 2012.)

44-11-113. Comprehensive plan; comprehensive plan review. (a) The comprehensive plan shall be developed by the community corrections agency in collaboration with the corrections advisory board. The comprehensive plan shall minimally include the following:

- (1) An agency profile;
- (2) signatory approval of the community corrections agency's director, the chairperson of the corrections advisory board, and the governing authority;
- (3) a list of the members of the advisory board, with descriptors that demonstrate compliance with K.S.A. 75-5297, and amendments thereto;
- (4) the name, mailing address, and phone number of the chairperson of the governing authority and, if any, the chairperson's fax number and email address;
- (5) an agency summary of programmatic changes and significant events;
- (6) an organization chart;
- (7) personnel data;
- (8) new position data;
- (9) a description of collaboration that occurred or will occur to identify and address the community's correctional needs;
- (10) a program description, including goals and objectives to be achieved, data elements to be collected, and services to be provided;
- (11) a new service description;
- (12) an explanation of the relationship among the governing authority, the corrections advisory board, the director of the community corrections agency, and the program or programs described in the comprehensive plan;
- (13) a process for the advisory board to monitor the progress of the program or programs described in the plan;
- (14) a timeline for implementation of the plan; and
- (15) any other relevant information requested by the secretary in the comprehensive plan form.

(b) A summary budget, addressing awarded community corrections grant funds, and a detailed narrative describing each line item shall also be submitted annually as prescribed by the secretary.

(c) Agency outcomes shall be submitted on or before May 1 of each year in a format prescribed by the secretary.

(d) Each county desiring to establish a community corrections agency shall issue a resolution indicating this intent and include a copy of the resolution in its initial comprehensive plan. A county desiring to enter into an interlocal agreement with another county for the provision of community corrections services, as prescribed in K.S.A. 12-2901 through K.S.A. 12-2907 and amendments thereto, shall include an interlocal agreement, approved by the attorney general, in its initial comprehensive plan.

(e) A program review committee shall be appointed by the secretary to review each comprehensive plan. The committee shall make a recommendation to the secretary. The comprehensive plan shall be accepted, rejected, or accepted subject to specified modifications by the secretary. (Authorized by K.S.A. 75-5294, K.S.A. 75-5296, K.S.A. 75-52,102; implementing K.S.A. 2010 Supp. 75-5292, K.S.A. 75-5296, K.S.A. 75-5299, K.S.A. 75-52,102; effective May 1, 1981; amended Feb. 6, 1989; amended May 15, 1989; amended March 5, 1990; amended March 29, 2002; amended June 1, 2007; amended Feb. 24, 2012.)

44-11-119. Local programs. (a) A comprehensive plan may provide for community corrections programs to be administered by public or private agencies. A governing authority may enter into a contractual or other written agreement with a private agency to operate programs identified in the comprehensive plan or to provide specialized services to program participants.

(b) An annual audit of all programs identified in the comprehensive plan shall be conducted as prescribed by the secretary. The audit may consist of a fiscal audit, standard compliance audit, performance audit, data accuracy audit, or any other type of review prescribed by the secretary.

(c) Each community corrections agency shall submit notice of the date, time, and location of each advisory board meeting to the deputy secretary of community and field services at least one working day before the scheduled meeting. Each community corrections agency shall submit a copy of the minutes of each advisory board meeting to the secretary within 30 working days after each meeting. (Authorized by K.S.A. 75-5294, 75-5296; implementing K.S.A. 75-5295, 75-5296, 75-52,103; effective May 1, 1981; amended Feb. 6, 1989; amended March 29, 2002; amended Feb. 24, 2012.)

44-11-121. Fiscal management; required reporting. (a) Each governing authority shall designate one person to be responsible for all fiscal matters related to the community corrections grant funds received. This person shall comply with generally accepted accounting principles governing the management of county funds and shall provide information to the corrections advisory board and the secretary on a quarterly basis unless the secretary determines the existence of circumstances that warrant a change in frequency of reporting.

(b) Each county receiving grant funds shall submit, by either original or electronic copy to the secretary, all portions of its annual financial audit pertaining to community corrections grant funds, including the report's cover letter and any exceptions applicable to community corrections grant funds, in the manner provided by K.S.A. 75-1124, and amendments thereto, within 60 calendar days after receipt by the county.

(c) All reimbursements maintained from current and prior fiscal years, collected, and expended by a community corrections agency shall be included in the fiscal workbook and the quarterly reconciliation budget report and certification documents.

(d) Within 60 calendar days after the end of each state fiscal year, each community corrections agency shall submit, by either original or electronic copy to the secretary, a plan approved by the corrections advisory board and governing authority for the use of the reimbursements.

(e) (1) If a community corrections agency complies with the requirements in subsections (c) and (d), the agency shall retain its reimbursements and use them in accordance with its approved plan.

(2) If a community corrections agency chooses not to comply with the requirements in subsections (c) and (d), all current reimbursements and those carried over from previous years may be deducted by the secretary from the agency's current or future allocations. These deductions shall be placed by the secretary in a special fund designated for community corrections.

(3) Agencies, except those that chose not to comply with the requirements in subsections (c) and (d) during the state fiscal year in question, may apply for these special funds to maintain or enhance current funded services or add new services, or support or enhance agency operations, or any combination of these uses. (Authorized by K.S.A. 75-5294, K.S.A. 75-5296; implementing

K.S.A. 75-5296, K.S.A. 75-52,103, K.S.A. 2010 Supp. 75-52,105 and 75-52,111; effective May 1, 1981; amended Feb. 6, 1989; amended May 15, 1989; amended March 5, 1990; amended March 29, 2002; amended Feb. 24, 2012.)

44-11-123. Changes in the comprehensive plan, budget, and agency outcomes. (a) If a community corrections agency wishes to change or deviate from the comprehensive plan or agency outcomes, the agency may do so if approval of the corrections advisory board or governing authority is first obtained. Documentation of approval shall be reflected in the board meeting minutes.

(b) Quarterly grant or carryover reimbursement budget adjustments totaling \$5,000 or one percent of the current grant year award, whichever is higher, shall require signatory approval of the corrections advisory board and the governing authority. The community corrections agency shall submit, by either original or electronic copy to the secretary, documentation of signatory approval along with a description of and justification for the proposed transfer. (Authorized by K.S.A. 75-5294, 75-5296; implementing K.S.A. 2010 Supp. 75-5292, K.S.A. 75-5296, K.S.A. 75-52,102; effective May 1, 1981; amended Feb. 6, 1989; amended May 15, 1989; amended March 5, 1990; amended July 23, 1990; amended March 29, 2002; amended June 1, 2007; amended Feb. 24, 2012.)

44-11-127. Prohibition of use of community corrections grant funds; maintenance and documentation of funds. (a) A governing authority shall not use community corrections grant funds to replace available public or private funding of existing programs.

(b) A governing authority may request community corrections grant funds to continue an existing program that would otherwise cease due to the exhaustion of public or private funds that had been specifically allocated to the program as startup monies with a predetermined termination date.

(c) A governing authority may request community corrections grant funds to supplement existing public or private funding of an existing program if these community corrections grant funds would enhance services.

(d) Community corrections grant funds for adult services shall be maintained in a separate county general ledger account.

(e) Community corrections grant funds shall not be expended for services, supplies, equipment,

or the payment of rent beyond the grant year in which the services, supplies, equipment, or payments are received or due. Only expenditures incurred within the grant year shall be charged to the community corrections grant.

(f) All community corrections expenditures shall have supporting documentation.

(g) Community corrections grant funds shall not be used to fund depreciation.

(h) Community corrections grant funds shall be expended and obligated for operation and management of programs for adult offenders only. Nothing in this regulation shall prohibit the use of state community corrections grant funds to purchase equipment, supplies, and services shared by programs for adult and juvenile offenders if the use by the adult program is proportionate to the monetary contribution of that program.

(i) Community corrections grant funds shall not be expended and obligated for association memberships for individuals. Community corrections grant funds may be expended and obligated by community corrections agencies for staff uniforms or clothing and for association memberships for the agency if specifically authorized by the agency's policies and procedures. Nothing in this regulation shall prohibit housing, transportation, clothing, and billing assistance to indigent offenders, or the acquisition of necessary safety equipment for staff, including bulletproof vests and latex gloves. (Authorized by K.S.A. 75-5294; implementing K.S.A. 2010 Supp. 75-5291, K.S.A. 75-5296, K.S.A. 75-52,103, K.S.A. 2010 Supp. 75-52,105; effective, E-82-25, Dec. 16, 1981; effective May 1, 1982; amended March 29, 2002; amended Feb. 24, 2012.)

44-11-129. Unexpended funds. (a) Unexpended funds may be transferred by the secretary to another county or counties. Any county may make application to the secretary for the unexpended funds. The county shall provide the secretary with a statement of why the funds are necessary, documentation of need, a budget summary and narrative describing the proposed services, and, if the funds are for a new program, a listing of measurable goals and objectives. The county shall be notified by the secretary of approval or disapproval of the application within 60 calendar days after the application due date.

(b) Any community corrections agency may use approved unexpended funds to maintain or enhance current funded services or to support or

enhance agency operations, or any combination of these uses as specified in the application. (Authorized by K.S.A. 75-5294; implementing K.S.A. 75-52,103; effective Feb. 6, 1989; amended March 5, 1990; amended March 29, 2002; amended Feb. 24, 2012.)

44-11-132. Use of grant funds to contract for services. (a) Grant funds may be used to contract for services or to provide services directly.

(b) Each community corrections agency shall make all contracts between the agency and other entities and individuals available to the secretary for review. (Authorized by K.S.A. 75-5294, 75-5296; implementing K.S.A. 75-5295, 75-5296; effective March 5, 1990; amended March 29, 2002; amended Feb. 24, 2012.)

Article 12.—CONDUCT AND PENALTIES

44-12-211. Telephones or other communication devices. (a) When using any authorized inmate telephone, no inmate shall perform or engage in any of the following:

(1) Use another inmate's personalized identification number (PIN) or permit another inmate to use the inmate's PIN;

(2) be a party to call forwarding;

(3) call any telephone number not listed on the inmate's authorized calling list;

(4) participate in any call involving a party at a phone number other than that originally called, including receiving information relayed by an intermediary, and either relaying or receiving information over any telephone service other than that authorized by the secretary of corrections for inmate usage;

(5) initiate any call to a party on the inmate's authorized calling list and then permit the telephone to be used by another inmate, whether in speaking to the authorized party or to another party;

(6) use the telephone in furtherance of any illegal activity; or

(7) use the telephone to communicate or attempt to communicate with a minor, unless correspondence with the minor is authorized by K.A.R. 44-12-601.

(b) Except as specified in subsection (a), the use or possession of any telephone or any communication device by an inmate without the permission of the warden or warden's designee shall be prohibited.

(c) For purposes of this regulation, "minor" shall mean a person under the age of 18.

(d) Violation of this regulation shall be a class I offense. (Authorized by and implementing K.S.A. 2013 Supp. 75-5210; effective July 13, 2007; amended June 20, 2014.)

44-12-212. Accessing unauthorized computer-based information; unauthorized computer communications. (a) No inmate shall perform any of the following:

(1) Access, or attempt to access, any information, data, images, or other material residing on or stored in any computer or available through any computer network, unless the information, data, images, or other material has been authorized for inmate access by the secretary of corrections and established and maintained by the information technology division of the department of corrections for that purpose;

(2) communicate or attempt to communicate with a minor through any computer or computer network, unless correspondence with the minor is authorized by K.A.R. 44-12-601; or

(3) communicate or attempt to communicate with any person through use of another inmate's authorized electronic mail account.

(b) For purposes of this regulation, "minor" shall mean a person under the age of 18.

(c) Violation of this regulation shall be a class I offense. (Authorized by and implementing K.S.A. 2013 Supp. 75-5210; effective July 13, 2007; amended June 20, 2014.)

44-12-301. Fighting. (a) Fighting or any other activity that constitutes violence or is likely to lead to violence shall be prohibited.

(b) It shall be an affirmative defense, for which the offender shall bear the sole burden of proof, if the offender is engaged in self-defense.

(c) Violation of this regulation shall be a class I offense. (Authorized by and implementing K.S.A. 2015 Supp. 75-5210; effective May 1, 1980; amended April 20, 1992; amended, T-44-8-16-16, Aug. 16, 2016; amended Nov. 4, 2016.)

44-12-601. Mail. (a) Definitions.

(1)(A) "Legal mail" means mail affecting the inmate's right of access to the courts or legal counsel. This term shall be limited to letters between the inmate and any lawyer, a judge, a clerk of a court, or any intern or employee of a lawyer or law firm, legal clinic, or legal services organization, including legal services for prisoners.

(B) "Official mail" means any mail between an inmate and an official of the state or federal govern-

ment who has authority to control, or to obtain or conduct an investigation of, the custody or conditions of confinement of the inmate.

(C) "Privileged mail" means any mail between the inmate and the inmate's physician, psychiatrist, psychologist, or other licensed mental health therapist.

(2)(A) "Censor" means to remove or change any part or all of the correspondence or literature.

(B) "Inspect" means to open, shake out, look through, feel, or otherwise check for contraband without reading or censoring. This term shall include any cursory reading necessary to verify that mail is legal or official in nature as permitted by paragraph (f)(3).

(C) "Read" means to read the contents of correspondence or literature to ascertain the content.

(3) "Minor" means a person under the age of 18.

(4) "Bodily substance" means blood, fecal matter, nasal or sinus mucous or secretions, perspiration, saliva, semen, skin or other tissue, sputum, tears, urine, or vaginal secretions.

(b) General provisions.

(1) Each inmate shall comply with the mail procedures and restrictions established by the order of the warden of the facility. Failure to comply with mail procedures or restrictions, or circumventing or attempting to circumvent mail procedures or restrictions by any means, shall be prohibited. The delivery of mail through an employee, volunteer, teacher, or any other person who is not authorized to perform functions related to the established mail-handling system shall be prohibited.

(2) Contraband. Items identified as contraband shall be dealt with as provided in subsection (d) and then either returned to the sender at the inmate's expense or destroyed, at the inmate's option. Items illegal under Kansas or U.S. federal law shall be seized and held as evidence for other law enforcement officers.

(3) All incoming mail shall identify the inmate recipient by name and inmate identification number.

(4) Violation of mail regulations of the department of corrections, orders of the warden, or the laws of Kansas or the United States may result in additional mail restrictions upon the offender that are sufficient to prevent the continuation or recurrence of the violation.

(5) All funds sent for deposit to an inmate's trust account shall be in the form of an electronic funds transfer sent through an entity under contract with the department of corrections to conduct those transactions. These funds shall be sent

to the centralized banking location or individual work release location designated by the secretary. All other funds sent for deposit to an inmate's trust account, other than governmental checks, warrants, and worker's compensation benefit checks, shall be returned immediately to the sender, and the intended inmate recipient shall be so notified in writing, without need of formal censorship. Except for correspondence qualifying as legal mail in which funds are enclosed in an envelope clearly marked as such, correspondence or other material sent with funds shall not be forwarded and shall be discarded.

(6) Any incoming or outgoing mail other than legal, official, or privileged mail may be inspected or read at any time.

(7) Incoming mail addressed solely to a specific inmate and not otherwise subject to censorship shall be delivered regardless of whether the mail is sent free of charge or at a reduced rate. All incoming mail shall nonetheless bear the sender's name and address on the envelope, or this mail shall not be delivered and shall be immediately destroyed.

(8) Any outgoing first-class letters may be sent to as many people and to whomever the inmate chooses, subject to the restrictions in this regulation.

(9) Outgoing inmate mail shall bear the full conviction name, inmate number, and address of the sender, and the name and address of the intended recipient. No other words, drawings, or messages shall be placed on the outside of the envelope or package by an inmate except words describing the mail as being legal, official, privileged, or intended to aid postal officials in delivery of the item. Outgoing inmate mail shall be stamped by the facility to indicate that it was mailed from a facility operated by the department of corrections and that it has not been censored.

(10) Inmates shall not correspond with any person, either directly or through third parties, who has filed a written objection to the correspondence with the director of victim services in the department of corrections central office. The director of victim services in the department of corrections central office shall notify the warden of the facility where the offender is incarcerated of any written objections to correspondence sent by the offender within three business days of its receipt.

(A) The inmate shall be notified of the objection in writing when it is received, but shall not be required to be informed of the exact contents of the objection.

(B) Orders shall be developed by the warden of each facility to prevent further correspondence from being sent to those who have filed an objection.

(C) This regulation shall not prevent an inmate from writing to the inmate's natural or adoptive child, unless the child was the victim of the crime for which the inmate is incarcerated, the person having legal custody of the child files a written objection with the director of victim services in the department of corrections central office, and the inmate has not obtained a court order permitting this written communication with the child. The director of victim services in the department of corrections shall inform the warden of the facility where the inmate is assigned of any objection from the person having legal custody of the child within three business days of its receipt.

(11)(A) No inmate shall correspond with a minor, either directly or through any third party, unless one of the following conditions is met:

(i) A parent or legal guardian of the minor has filed written authorization for the correspondence between the inmate and the minor with the director of victim services in the department of corrections central office.

(ii) If the minor is the inmate's natural or adoptive child, the correspondence is authorized pursuant to paragraph (b)(10)(C), and the inmate has registered the child by providing the name, date of birth, and address of the natural or adoptive child to the director of victim services.

(B) The director of victim services shall notify the warden of the facility where the inmate is incarcerated of any written authorization for correspondence with a minor who is not the natural or adoptive child of the inmate, as well as the registration information of the inmate's natural or adoptive child.

(12) An inmate shall not mail or attempt to mail any of the following:

(A) Any bodily substance;

(B) a substance represented by the inmate as being a bodily substance; or

(C) a substance that a reasonable person would conclude is a bodily substance.

(c) Legal, official, and privileged mail.

(1) Subject to the provisions of paragraph (f)(3), outgoing privileged, official, or legal mail sent by any inmate shall be opened and read only upon authorization of the warden for good cause shown. However, if any inmate threatens or terrorizes any person through this mail, any subsequent mail,

including official or legal mail, from the inmate to the person threatened or terrorized may, at the request of that person, be read and censored for a time period and to the extent necessary to remedy the abuse.

(2) Incoming mail clearly identified as legal, official, or privileged mail shall be opened only in the inmate's presence. This mail shall be inspected for contraband but shall not be read or censored, unless authorized by the warden based upon a documented previous abuse of the right or other good cause.

(3) All legal mail and official mail shall be indefinitely forwarded to the inmate's last known address. If any mail is returned to a facility as undeliverable when sent to the inmate's last known address, the mail shall be returned to the sender with a notice that the mail was forwarded unsuccessfully and is now returned to the sender for further disposition.

(d) Censorship grounds and procedures.

(1) Incoming or outgoing mail, other than legal, official, or privileged mail, may be censored only when there is reasonable belief in any of the following:

(A) There is a threat to institutional safety, order, or security.

(B) There is a threat to the safety and security of public officials or the general public.

(C) The mail is being used in furtherance of illegal activities.

(D) The mail is correspondence between offenders, including any former inmate regardless of current custodial status, that has not been authorized according to subsection (e). Correspondence between offenders may be inspected or read at any time.

(E) The mail contains sexually explicit material, as defined and proscribed by K.A.R. 44-12-313.

(2) If any communication to or from an inmate is censored, all of the following requirements shall be met:

(A) Each inmate shall be given a written notice of the censorship and the reason for the censorship, without disclosing the censored material.

(B) Each inmate shall be given the name and address of the sender of incoming mail, if known, or the addressee of outgoing mail and the date the item was received in the mail room. Notice of the censorship of correspondence by the facility shall be provided to the sender, if known, by staff in the facility's mail room within three business days of the decision to censor.

(C) The author or addressee of the censored correspondence shall have 15 business days from the date of the notice of censorship to protest that decision.

(D) All protests shall be forwarded to the secretary of corrections or the secretary's designee for final review and disposition.

(E) Each inmate shall have the option of having censored correspondence or other materials in their entirety either mailed out at the expense of the inmate or discarded.

(e) Offender correspondence with other offenders.

Offenders sentenced to the custody of the Kansas department of corrections shall not correspond with any person who is in the custody of or under the supervision of any state, federal, county, community corrections, or municipal law enforcement agency, or with any former inmate regardless of current custodial status, unless either of the following conditions is met:

(1) The proposed correspondents are members of the same immediate family or are parties in the same legal action, or one of the persons is a party and the other person is a witness in the same legal action.

(2) Permission for correspondence is granted due to exceptional circumstances. Verification and approval of offender correspondence shall be conducted pursuant to the internal policies and procedures of the department of corrections.

(f) Writing supplies and postage.

(1) Stationery and stamps shall be available for purchase from the inmate canteen.

(2) Indigent inmates, as defined by the internal management policies and procedures of the department of corrections, shall receive reasonable amounts of free writing paper, envelopes, and postage for first-class domestic mail weighing one ounce or less, not to exceed four letters per month.

(3) All postage for legal and official mail shall be paid by the inmate, unless the inmate is indigent, as defined by the internal management policies and procedures of the department of corrections. The cost of postage for legal or official mail paid by the facility on behalf of an indigent inmate shall be deducted from the inmate's funds, if available. Credit for postage for legal and official mail shall be extended to indigent inmates under the terms and conditions of the internal management policies and procedures of the department of corrections. Outgoing legal or official mail sent with

postage provided on credit shall be subject to inspection and a cursory reading in the presence of the inmate for the purpose of ascertaining that the mail is indeed legal or official mail, and the inmate shall then be permitted to seal the envelope containing the mail.

(4) The facility shall not pay postage for inmate groups or organizations.

(5) The mailing of postage stamps by an offender shall be prohibited.

(g) Publications.

(1) Inmates may receive books, newspapers, and periodicals as permitted by the internal management policies and procedures of the department of corrections. All books, newspapers, and periodicals shall be purchased through account withdrawal requests. Only books, newspapers, and periodicals received directly from a publisher or a vendor shall be accepted. However, an inmate shall be permitted to receive printed material, including newspaper and magazine clippings, if the material is included as part of a first-class letter that does not exceed one ounce in total weight.

(2) The procedures for censorship of mail listed in subsection (d) shall be used for censorship of publications.

(3) No publication that meets either of the following conditions shall be allowed into the facility:

(A) Contains sexually explicit material, as described in K.A.R. 44-12-313, or is otherwise illegal, in whole or in part; or

(B) meets, in whole or in part, the test for censorship of mail in subsection (d).

(4) Inmates shall have the option of having censored publications in their entirety either mailed out of the facility at their own expense or discarded.

(5) Before transferring between facilities, the inmate shall arrange for a change of address for the inmate's mail, including newspapers and periodicals. Mail, with the exception of legal mail or official mail, shall not be forwarded for more than 30 days after the date of transfer.

(h) Regulation violation. Each violation of this regulation shall be a class I offense. (Authorized by K.S.A. 2013 Supp. 75-5210, K.S.A. 2013 Supp. 75-5251; implementing K.S.A. 2013 Supp. 75-5210, K.S.A. 2013 Supp. 75-5251, and K.S.A. 75-5256; effective May 1, 1980; amended May 1, 1981; amended May 1, 1984; amended May 1, 1986; amended May 1, 1988; amended April 20, 1992; amended Jan. 3, 1995; amended April 17, 1998; amended Feb. 15, 2002; amended, T-44-

3-19-04, March 19, 2004; amended July 2, 2004; amended July 13, 2007; amended June 20, 2014.)

Article 15.—GRIEVANCE PROCEDURE FOR INMATES

44-15-204. Special procedures for sexual abuse grievances; sexual harassment grievances and grievances alleging retaliation for filing same; reports of sexual abuse or sexual harassment submitted by third parties. (a)

Definitions. For the purpose of this regulation, each of the following terms shall have the meaning specified in this subsection:

(1) “Sexual abuse of an inmate by another inmate” means any of the following acts if the victim does not consent, is coerced into the act by overt or implied threats of violence, or is unable to consent or refuse:

(A) Contact between the penis and the vulva or the penis and the anus, including penetration, however slight;

(B) contact between the mouth and the penis, vulva, or anus;

(C) penetration of the anal or genital opening of another person, however slight, by a hand, finger, or object; or

(D) any other intentional touching, either directly or through the clothing, of the genitalia, anus, groin, breast, inner thigh, or the buttocks of another person, excluding contact incidental to a physical altercation.

(2) “Sexual abuse of an inmate by a staff member, contractor, or volunteer” means any of the following acts, with or without the consent of the inmate:

(A) Contact between the penis and the vulva or the penis and the anus, including penetration, however slight;

(B) contact between the mouth and the penis, vulva, or anus;

(C) contact between the mouth and any body part if the staff member, contractor, or volunteer has the intent to abuse, arouse, or gratify sexual desire;

(D) penetration of the anal or genital opening, however slight, by a hand, finger, or object, that is unrelated to official duties or if the staff member, contractor, or volunteer has the intent to abuse, arouse, or gratify sexual desire;

(E) any other intentional contact, either directly or through the clothing, of or with the genitalia, anus, groin, breast, inner thigh, or the buttocks,

that is unrelated to official duties or if the staff member, contractor, or volunteer has the intent to abuse, arouse, or gratify sexual desire;

(F) any attempt, threat, or request by a staff member, contractor, or volunteer to engage in the acts described in paragraphs (a)(2)(A)-(E);

(G) any display by a staff member, contractor, or volunteer of that individual's uncovered genitalia, buttocks, or breast in the presence of an inmate; or

(H) voyeurism by a staff member, contractor, or volunteer.

(3) "Voyeurism by a staff member, contractor, or volunteer" means an invasion of privacy of an inmate by staff for reasons unrelated to official duties, including peering at an inmate who is using a toilet in the inmate's cell to perform bodily functions; requiring an inmate to expose the inmate's buttocks, genitals, or breasts; or taking images of all or part of an inmate's naked body or of an inmate performing bodily functions.

(4) "Sexual harassment" means either of the following:

(A) Repeated and unwelcome sexual advances, requests for sexual favors, or verbal comments, gestures, or actions of a derogatory or offensive sexual nature by one inmate directed to another; or

(B) repeated verbal comments or gestures of a sexual nature to an inmate by a staff member, contractor, or volunteer, including demeaning references to gender, sexually suggestive or derogatory comments about body or clothing, or obscene language or gestures.

(b) Submission of grievances concerning sexual abuse.

(1) Each inmate submitting a grievance concerning sexual abuse alleged to have already occurred shall state that inmate's intentions by writing "Sexual Abuse Grievance" clearly on the grievance form.

(2) Inmates shall not be required to use any informal grievance process, or to otherwise attempt to resolve with staff, an alleged incident of sexual abuse by a staff member, contractor, or volunteer, or a grievance in which it is alleged that sexual abuse by another inmate or by a staff member, contractor, or volunteer was the result of staff neglect or violation of responsibilities.

(3) Any inmate may submit a grievance to security staff, a unit team member, or administrative personnel in person or by utilizing the inmate internal mail system.

(4) Any inmate who alleges sexual abuse may submit a grievance without submitting it to a staff member who is the subject of the complaint. The grievance shall not be referred to a staff member who is the subject of the complaint.

(c) Warden's response.

(1) Upon receipt of each grievance report form alleging sexual abuse, a serial number shall be assigned by the warden or designee, and the date of receipt shall be indicated on the form by the warden or designee.

(2) Each grievance alleging sexual abuse shall be returned to the inmate, with an answer, within 10 working days from the date of receipt.

(3) Each answer shall contain findings of fact, conclusions drawn, the reasons for those conclusions, and the action taken by the warden. Each answer shall inform the inmate that the inmate may appeal by submitting the appropriate form to the secretary of corrections.

(4) In all cases, the original and one copy of the grievance report shall be returned by the warden to the inmate. The copy shall be retained by the inmate for the inmate's files. The original may be used for appeal to the secretary if the inmate desires. The necessary copies shall be provided by the warden.

(5) A second copy shall be retained by the warden.

(6) Each facility shall maintain a file for grievance reports alleging sexual abuse, with each grievance report indexed by inmate name and coded as a sexual abuse complaint. Grievance report forms shall not be placed in the inmate's institution file.

(7) If no response is received from the warden in the time allowed, any grievance may be sent by an inmate to the secretary of corrections with an explanation of the reason for the delay, if known, with a notation that no response from the warden was received.

(d) Appeal to the secretary of corrections.

(1) If the warden's answer is not satisfactory to the inmate, the inmate may appeal to the secretary's office by indicating on the grievance appeal form exactly what the inmate is displeased with and what action the inmate believes the secretary should take.

(2) The inmate shall send the appeal directly and promptly by U.S. mail to the department of corrections' central office in Topeka.

(3) If an appeal of the warden's decision is made to the secretary, the secretary shall have 20

working days from receipt to return the grievance report form to the inmate with an answer. The answer shall include findings of fact, conclusions made, and actions taken.

(4) If a grievance report form is submitted to the secretary without prior action by the warden, the form may be returned to the warden for further action, at the option of the secretary's designee.

(5) In all cases, a final decision on the merits of any portion of a grievance alleging sexual abuse, or an appeal thereof, shall be issued by the secretary within 90 days of the initial filing of the grievance.

(6) Computation of the 90-day time period shall not include time taken by inmates in preparing and submitting any administrative appeal.

(7) At any level of the administrative process, including the final level, if the inmate does not receive a response within the time allotted for reply, including any properly noticed extension, the inmate may consider the absence of a response to be a denial at that level and may proceed to the next level of appeal.

(8) An appropriate official may be designated by the secretary to prepare the answer.

(e) Imminent sexual abuse.

(1) Each inmate submitting a grievance concerning imminent sexual abuse shall state that inmate's intentions by writing "Emergency Sexual Abuse Grievance" clearly on the grievance form.

(2) Each grievance alleging that an inmate is subject to a substantial risk of imminent sexual abuse shall be treated as an emergency grievance under K.A.R. 44-15-106.

(3) After receiving an emergency grievance alleging imminent sexual abuse, the warden or designee shall provide an initial response within 48 hours and shall issue a final decision within five calendar days. The initial response and final decision shall document the determination whether the inmate is in substantial risk of imminent sexual abuse and the action taken in response to the emergency grievance.

(f) Submission of grievances concerning sexual harassment or concerning retaliation for submission of a report or grievance concerning sexual abuse or harassment.

(1) Each inmate shall be required to use the informal grievance process specified in K.A.R. 44-15-101 and 44-15-102 for grievances concerning sexual harassment or concerning retaliation for submission of a report or grievance concerning sexual abuse or harassment. These grievances shall otherwise be treated and processed accord-

ing to the ordinary grievance procedure specified in K.A.R. 44-15-101 and 44-15-102.

(2) Any inmate who alleges sexual harassment or retaliation may submit a grievance without submitting it to a staff member who is the subject of the complaint. The grievance shall not be referred to a staff member who is the subject of the complaint.

(3) Each facility shall maintain a file for grievance reports alleging sexual harassment or retaliation for submission of a report or grievance alleging sexual abuse or harassment, with each grievance report indexed by inmate name and coded accordingly. No grievance report form shall be placed in the inmate's institution file.

(g) Time limits.

(1) There shall be no time limit for submission of a grievance regarding an allegation of sexual abuse.

(2) The time limits for any grievance or portion thereof that does not allege an incident of sexual abuse or imminent sexual abuse shall be the limits specified in K.A.R. 44-15-101b.

(h) Third-party submissions.

(1) Third parties, including fellow inmates, staff members, family members, attorneys, and outside advocates, shall be permitted to assist any inmate in filing requests for administrative remedies relating to allegations of sexual abuse and shall also be permitted to file these requests on behalf of any inmate.

(2) If a third party files such a request on behalf of an inmate, the alleged victim shall agree to have the request filed on behalf of the alleged victim. The alleged victim shall personally pursue any subsequent steps in the administrative remedy process.

(3) If the inmate declines to have the request processed on that individual's behalf, the facility shall document the inmate's decision.

(i) Grievances in bad faith. Any inmate may be disciplined for filing a grievance related to alleged sexual abuse only if it can be demonstrated that the inmate filed the grievance in bad faith. In this instance, a disciplinary report alleging violation of K.A.R. 44-12-303 or 44-12-317, as appropriate, may be issued. (Authorized by and implementing K.S.A. 2012 Supp. 75-5210 and 75-5251; effective, T-44-6-28-13, June 28, 2013; effective Sept. 27, 2013.)

Article 2.—MEANING OF TERMS

47-2-75. Definitions; adoption by reference. The following federal regulations, as in effect on July 1, 2012, are adopted by reference, except as otherwise specified in this regulation: (a) The section titled definitions, 30 C.F.R. 700.5, shall be altered as follows:

(1) The following text shall be deleted from the definition of “anthracite”: “Notices of changes made to this publication will be periodically published by the Office of Surface Mining in the Federal Register. This ASTM standard is on file and available for inspection at the OSM Office, U.S. Department of the Interior, South Interior Building, Washington, D.C. 20240, at each OSM Regional Office, District Office and Field Office, and at the central office of the applicable State Regulatory Authority, if any. Copies of this publication may also be obtained by writing to the above locations. A copy of this publication will also be on file for public inspection at the National Archives and Records Administration (NARA). For information

on the availability of this material at NARA, call 202-741-6030, or go to: http://www.archives.gov/federal_register/code_of_federal_regulations/ibr_locations.html. Incorporation by reference provisions approved by the Director of the Federal Register February 7, 1979. The Director's approval of this incorporation by reference expires on July 1, 1981.”

(2) “Department” means Kansas department of health and environment.

(3) “Director” means director, office of surface mining reclamation and enforcement, in the following instances:

(A) K.A.R. 47-3-42(a)(60), adopting by reference 30 C.F.R. 785.13;

(B) K.A.R. 47-14-7(a)(1), adopting by reference 30 C.F.R. 705.4(a);

(C) K.A.R. 47-14-7(a)(3), adopting by reference 30 C.F.R. 705.11(c) and (d);

(D) K.A.R. 47-14-7(a)(4), adopting by reference 30 C.F.R. 705.13;

(E) K.A.R. 47-14-7(a)(5), adopting by reference 30 C.F.R. 705.15;

(F) K.A.R. 47-14-7(a)(8), adopting by reference 30 C.F.R. 705.19(a); and

(G) K.A.R. 47-14-7(a)(9), adopting by reference 30 C.F.R. 705.21.

(H) K.A.R. 47-15-1a(a)(2), adopting by reference 30 C.F.R. 840.14(a). All other references to “the director” shall be replaced by “the secretary of the Kansas department of health and environment.”

(4) “Person” shall have the meaning specified in K.S.A. 49-403, and amendments thereto.

(5) “Regulatory authority” and “state regulatory authority” shall have the meaning specified in K.A.R. 47-2-53.

(6) “Regulatory program” shall have the meaning specified in K.A.R. 47-2-53a.

(7) “Secretary” means secretary of the Kansas department of health and environment.

(8) “Surface coal mining and reclamation operations” shall have the meaning specified in K.S.A. 49-403, and amendments thereto.

(9) “Surface coal mining operations” shall have the meaning specified in K.S.A. 49-403, and amendments thereto.

(b) The section titled “definitions,” 30 C.F.R. 701.5, shall be altered as specified in this subsection.

(1)(A) “Act” shall be replaced by “state act.”

(B) In the definitions of “Applicant/Violator System or AVS,” “Federal Program,” “State Program,” and the portion of the definition for “Permittee” that states “section 523 of the Act,” the word “Act” shall mean the Surface Mining Control and Reclamation Act of 1977, Pub. L. 95-87. All other references to “Act” shall mean the “state act.”

(C) In the definition of “cumulative impact area,” the following text shall be deleted: “and (d) all operations required to meet diligent development requirements for leased Federal coal for which there is actual mine development information available.” The word “and” shall be placed immediately before subsection (c).

(D) In the definitions of “federal program” and “state program” in this subsection, “Secretary” shall mean the director, office of surface mining reclamation and enforcement. In the definition of “prime farmland” in this subsection, the term “Secretary” shall mean the secretary of agriculture. All other references to “Secretary” shall mean the secretary of the Kansas department of health and environment. In the definition of “federal program,” “Director” shall mean the director, office of surface mining reclamation and enforcement.

(E) “Imminent danger to the health and safety of the public” shall have the meaning specified in K.S.A. 49-403, and amendments thereto.

(F) “Operator” shall have the meaning specified in K.S.A. 49-403, and amendments thereto.

(G) The definition of “performance bond” shall be replaced with the following:

“Performance bond” means a surety bond, collateral bond or a combination thereof, by which a permittee assures faithful performance of all the requirements of the state act, these regulations, a state program, and the requirements of the permit and reclamation plan.”

(H) “Permit” shall have the meaning specified in K.S.A. 49-403, and amendments thereto.

(I) “Permit area” shall have the meaning specified in K.S.A. 49-403, and amendments thereto.

(J) In the definition of “permittee,” the phrase “by the Director pursuant to a Federal program, by the Director pursuant to a Federal lands program” shall be deleted. In the definition of “permittee,” “Director” shall mean the director, office of surface mining reclamation and enforcement.

(K) “Significant, imminent environmental harm to land, air or water resources” shall have the meaning specified in K.A.R. 47-2-58.

(L) “Subchapter J of this chapter” shall be replaced by “article 8 of these regulations.”

(M) “This chapter” shall be replaced by “these regulations.”

(N) In the definition of “Violation, failure, or refusal,” the text “(1) A failure to comply with a condition of a Federally-issued permit or of any other permit that OSM is directly enforcing under section 502 or 521 of the Act or the regulations implementing those sections” shall be replaced with the following text: “(1) A failure to comply with a condition of a permit issued by the Kansas department of health and environment under K.S.A. 49-405 and K.S.A. 49-406, and amendments thereto, or the regulations implementing those sections.”

(2) The following federal definitions shall be deleted:

(A) “Agricultural activities”;

(B) “alluvial valley floors”;

(C) “arid and semiarid area”;

(D) “essential hydrologic functions”;

(E) “farming”;

(F) “flood irrigation”;

(G) “materially damage the quality and quantity of water”;

(H) “special bituminous coal mines”;

(I) “subirrigation”;

(J) “undeveloped rangeland”; and

(K) “upland areas.”

(3)(A) “Part 845 or 846 of this chapter” and “parts 724 and 846 of this chapter” shall be replaced by “K.A.R. 47-5-5a.”

(B) “Parts 773, 774, and 778 of this chapter” shall be replaced by “articles 3 and 6 of these regulations and K.A.R. 47-3-42(a)(2) through (31).”

(C) “Section 404 or under section 402(g)(4) of the Act” shall be replaced by “K.S.A. 49-428, and amendments thereto.”

(D) “Section 502” shall be replaced by “K.S.A. 49-406, and amendments thereto.”

(E) “Section 518(b) or section 703 of the Act” shall be replaced by “K.S.A. 49-405c or K.S.A. 75-2973, and amendments thereto.”

(F) “Section 521 of the Act” shall be replaced by “K.S.A. 49-405, and amendments thereto.”

(G) “Sections 507 and 510(c) of the Act” shall be replaced by “K.S.A. 49-406 and K.S.A. 49-407(b), and amendments thereto.”

(4)(A) “30 CFR chapter VII” shall be replaced by “article 1 of these regulations.”

(B) “30 CFR parts 816 and 817” shall be replaced by “K.A.R. 47-9-1(c) and (d).”

(C) “30 CFR 785.17(c)(1)” shall be replaced by “K.A.R. 47-3-42(a)(61).”

(D) “30 CFR 816.49 and 816.56, 816.133 or 817.49, 817.56, and 817.133” shall be replaced by “K.A.R. 47-9-1(c)(12), (13), and (45) or K.A.R. 47-9-1(d)(12), (13), and (43).”

(5)(A) “§761.5 of this chapter” shall be replaced by “K.A.R. 47-12-4(a)(1).”

(B) “§773.13 of this chapter” shall be replaced by “K.A.R. 47-3-42(a)(9).”

(C) “§800.11(e) of this chapter” shall be replaced by “K.A.R. 47-8-9(a)(3).”

(D) “§800.50 of this chapter” and “§800.50(d)(1) of this chapter” shall be replaced by “K.A.R. 47-8-9(a)(14).”

(E) “§843.11 of this chapter” shall be replaced by “K.A.R. 47-15-1a(a)(8).”

(F) “§843.12 of this chapter” shall be replaced by “K.A.R. 47-15-1a(a)(9).”

(G) “§784.20 and 817.121 of this chapter” and “§§784.20 and 817.121” shall be replaced by “K.A.R. 47-10-1(a)(2)(K) and K.A.R. 47-9-1(d)(39).”

(H) “§§816.102(d) and 817.102(d) of this chapter” shall be replaced by “K.A.R. 47-9-1(c)(35) and (d)(33).”

(c) The section titled “definitions,” 30 C.F.R. 705.5, shall be altered as follows:

(1) “Act” shall be replaced by “state act.”

(2) “Employee” shall have the meaning specified in K.A.R. 47-2-21.

(3) “State regulatory authority” shall have the meaning specified in K.A.R. 47-2-53. (Authorized by K.S.A. 49-404, K.S.A. 49-405, and K.S.A. 2018 Supp. 49-408; implementing K.S.A. 49-405 and K.S.A. 2018 Supp. 49-408; effective, E-81-30, Oct. 8, 1980; effective May 1, 1981; amended May 1, 1985; amended May 1, 1986; amended May 1, 1988; amended Feb. 11, 1991; amended May 2, 1997; amended July 31, 1998; amended Dec. 1, 2006; amended Feb. 15, 2019.)

Article 3.—APPLICATION FOR MINING PERMIT

47-3-1. Application for mining permit.

Each person who conducts or expects to conduct surface or underground coal mining and reclamation operations shall file an original and three copies of a complete and accurate application for a permit for those operations with the secretary. (Authorized by K.S.A. 49-405 and K.S.A. 2018 Supp. 49-406; implementing K.S.A. 2018 Supp. 49-406; effective, E-71-4, Nov. 20, 1970; effective Jan. 1, 1972; amended May 1, 1975; amended May 1, 1980; amended Feb. 11, 1991; amended May 2, 1997; amended Feb. 15, 2019.)

47-3-2. Application for mining permit; adoption by reference.

(a) Each permit application submitted with a request for variances from the applicable regulations shall contain an outline of the proposed variances. The outline shall be indexed to the regulations and be placed at the beginning of the application documents.

(b) The following federal regulations as in effect on July 1, 2012 are adopted by reference, except as otherwise specified in this regulation:

(1) Format and contents, 30 C.F.R. 777.11;

(2) reporting of technical data, 30 C.F.R. 777.13;

(3) maps and plans: general requirements, 30 C.F.R. 777.14. The phrase “in accordance with §710.12 of this chapter” shall be deleted; and

(4) completeness, 30 C.F.R. 777.15.

(c) The following phrases shall be replaced with the phrases specified in this subsection wherever the phrases appear in the text of the federal regulations adopted by reference in this regulation:

(1) “This chapter” and “this subchapter” shall be replaced by “these regulations.”

(2)(A) “Part 785 of this chapter” shall be replaced by “K.A.R. 47-3-42(a)(60) through (66).”

(B) “Parts 778, 779, and 780 of this chapter” shall be replaced by “K.A.R. 47-3-42(a)(21) through (59).”

(C) “Parts 778, 783, and 784 of this chapter” shall be replaced by “K.A.R. 47-3-42(a)(21) through (31) and K.A.R. 47-10-1.” (Authorized by K.S.A. 49-405; implementing K.S.A. 2018 Supp. 49-406; effective May 1, 1980; amended May 1, 1986; amended Feb. 11, 1991; amended May 2, 1997; amended Dec. 1, 2006; amended Feb. 15, 2019.)

47-3-42. Application for mining permit; adoption by reference. (a) The following federal regulations, as in effect on July 1, 2012, are adopted by reference, except for the additions and deletions specified:

(1) Applicability, 30 C.F.R. 701.11 subsections (d) and (e) only. Subsections (a), (b), (c), and (f) shall be deleted, and the word “Act” shall be replaced by “state act”;

(2) public participation in permit processing, 30 C.F.R. 773.6. The phrase “developed in accordance with section 503(a)(6) or section 504(h) of the Act, or §773.5” in 30 C.F.R. 773.6(a)(3)(ii) and the sentence “The requirements of section 5 of the administrative procedure act, as amended (5 U.S.C. 554), shall not apply to the conduct of the informal conference.” in 30 C.F.R. 773.6(c)(2)(iv) shall be deleted;

(3) review of permit applications, 30 C.F.R. 773.7, except that the 60-day period for decision shall be replaced by a 30-day period;

(4) general provisions for review of permit application information and entry of information into AVS, 30 C.F.R. 773.8;

(5) review of applicant and operator information, 30 C.F.R. 773.9;

(6) review of permit history, 30 C.F.R. 773.10;

(7) review of compliance history, 30 C.F.R. 773.11, except that the word “Act” shall be replaced by “state act”;

(8) permit eligibility determination, 30 C.F.R. 773.12;

(9) unanticipated events or conditions at remining sites, 30 C.F.R. 773.13;

(10) eligibility for provisionally issued permits, 30 C.F.R. 773.14;

(11) written findings for permit application approval, 30 C.F.R. 773.15. In subsections (a) and (b), the word “Act” shall be replaced by “state act.” The phrases “parts 764 and 769 of this chapter” and “parts 762 and 764 or 769 of this chapter” shall be replaced by “K.A.R. 47-12-4”;

(12) performance bond submittal, 30 C.F.R. 773.16;

(13) permit issuance and right of renewal, 30 C.F.R. 773.19. The clause “unless the requirements of 778.17 of this chapter are met” shall be deleted;

(14) initial review and finding requirements for improvidently issued permits, 30 C.F.R. 773.21;

(15) notice requirements for improvidently issued permits, 30 C.F.R. 773.22;

(16) suspension or rescission requirements for improvidently issued permits, 30 C.F.R. 773.23;

(17) who may challenge ownership or control listings and findings, 30 C.F.R. 773.25;

(18) how to challenge an ownership or control listing or finding, 30 C.F.R. 773.26, except that in subsection (a), the phrase “as identified in the following table” and the table shall be deleted. The word “Act” shall be replaced by “state act”;

(19) burden of proof for ownership or control challenges, 30 C.F.R. 773.27;

(20) written agency decision on challenges to ownership or control listings or findings, 30 C.F.R. 773.28;

(21) Certifying and updating existing permit application information, 30 C.F.R. 778.9;

(22) providing applicant and operator information, 30 C.F.R. 778.11;

(23) providing permit history information, 30 C.F.R. 778.12;

(24) providing property interest information, 30 C.F.R. 778.13;

(25) providing violation information, 30 C.F.R. 778.14;

(26) right-of-entry information, 30 C.F.R. 778.15;

(27) status of unsuitability claims, 30 C.F.R. 778.16, except that the phrase “parts 762, 764, and 769 of this chapter” shall be replaced by “K.A.R. 47-12-4”;

(28) permit term, 30 C.F.R. 778.17;

(29) insurance, 30 C.F.R. 778.18;

(30) proof of publication, 30 C.F.R. 778.21;

(31) facilities or structures used in common, 30 C.F.R. 778.22;

(32) responsibilities, 30 C.F.R. 779.4. The phrase “this part” shall be replaced by “K.A.R. 47-3-42(a)(32) through (39)”;

(33) general requirements, 30 C.F.R. 779.11;

(34) general environmental resources information, 30 C.F.R. 779.12;

(35) climatological information, 30 C.F.R. 779.18;

(36) vegetation information, 30 C.F.R. 779.19, except that the phrase “if required by the regulatory authority” shall be deleted;

(37) soil resources information, 30 C.F.R. 779.21;

(38) maps: general requirements, 30 C.F.R. 779.24;

(39) cross sections, maps, and plans, 30 C.F.R. 779.25;

(40) responsibilities, 30 C.F.R. 780.4. The phrase “this part” shall be replaced by “K.A.R. 47-3-42(a)(40) through (59)”;

(41) operation plan: general requirements, 30 C.F.R. 780.11;

(42) operation plan: existing structures, 30 C.F.R. 780.12;

(43) operation plan: blasting, 30 C.F.R. 780.13;

(44) operation plan: maps and plans, 30 C.F.R. 780.14;

(45) air pollution control plan, 30 C.F.R. 780.15, except that the phrase “if required by the regulatory authority” shall be deleted;

(46) fish and wildlife information, 30 C.F.R. 780.16;

(47) reclamation plan: general requirements, 30 C.F.R. 780.18;

(48) hydrologic information, 30 C.F.R. 780.21;

(49) geologic information, 30 C.F.R. 780.22;

(50) reclamation plan: land use information, 30 C.F.R. 780.23;

(51) reclamation plan: siltation structures, impoundments, and refuse piles, 30 C.F.R. 780.25;

(52) reclamation plan: surface mining near underground mining, 30 C.F.R. 780.27;

(53) activities in or adjacent to perennial or intermittent streams, 30 C.F.R. 780.28;

(54) diversions, 30 C.F.R. 780.29;

(55) protection of publicly owned parks and historic places, 30 C.F.R. 780.31, except that the word “may” shall be changed to “shall”;

(56) relocation or use of public roads, 30 C.F.R. 780.33;

(57) disposal of excess spoil, 30 C.F.R. 780.35;

(58) road systems, 30 C.F.R. 780.37;

(59) support facilities, 30 C.F.R. 780.38;

(60) experimental practices mining, 30 C.F.R. 785.13, except that the word “Act” shall be replaced by “state act”;

(61) prime farmland, 30 C.F.R. 785.17. The last sentence in 30 C.F.R. 785.17(c)(1)(i) shall be deleted;

(62) variances for delay in contemporaneous reclamation requirement in combined surface and

underground mining activities, 30 C.F.R. 785.18, except that in subsections (b)(3) and (7), the word “Act” shall be replaced by “state act”;

(63) augering, 30 C.F.R. 785.20;

(64) coal preparation plants not located within the permit area of a mine, 30 C.F.R. 785.21, except that subsections (d) and (e) shall be deleted;

(65) in situ processing activities, 30 C.F.R. 785.22; and

(66) lands eligible for remining, 30 C.F.R. 785.25.

(b) The following phrases and citations shall be replaced with the phrases and citations specified in this subsection wherever the phrases and citations appear in the text of the federal regulations adopted by reference in this regulation.

(1)(A) “Act” shall be replaced by “state act.”

(B) “By a reviewing administrative or judicial tribunal” shall be replaced by “by an administrative or a judicial review of an agency action concerning the aforementioned Kansas department of health and environment determination.”

(C) “Central office of the applicable state regulatory authority, if any” shall be replaced by “the Kansas department of health and environment, surface mining section.”

(D) “Office of hearings and appeals or its state counterpart” shall be replaced by “office of administrative hearings.”

(E) “Rule 4 of the federal rules of civil procedure, or its state regulatory program counterparts” shall be replaced by “K.A.R. 47-4-14a.”

(F) “Subchapter B (Interim Program Standards) of this chapter” and “subchapter B of this chapter” shall be replaced by “K.A.R. 47-9-4.”

(G) “Subchapter B or K of this chapter” shall be replaced by “K.A.R. 47-9-4 or K.A.R. 47-9-1.”

(H) “Subchapter J of this chapter,” “subchapter J,” and “part 800 of this chapter” shall be replaced by “article 8 of these regulations.”

(I) “Subchapter K (Permanent Program Standards) of this chapter,” “subchapter K,” and “subchapter K of this chapter” shall be replaced by “K.A.R. 47-9-1.”

(J) “Subchapter R of this chapter” shall be replaced by “the office.”

(K) “The procedures at 43 CFR 4.1370 through 4.1377 (when OSM is the regulatory authority) or under the State regulatory program equivalent (when a State is the regulatory authority)” shall be replaced by “K.A.R. 47-4-14a.”

(L) “This chapter,” “this subchapter,” “this part,” and “subchapter G of this chapter” shall be replaced by “these regulations.”

(2)(A) “Part 775 of this chapter” and “part 775 of this subchapter” shall be replaced by “K.S.A. 49-407(d), 49-416a, and 49-422a, and amendments thereto, and article 4 of these regulations.”

(B) “Part 785 of this chapter” shall be replaced by “K.A.R. 47-3-42(a)(60) through (66).”

(C) “Part 816” and “part 816 of this chapter” shall be replaced by “K.A.R. 47-9-1(c).”

(D) “Part 823 of this chapter” and “30 CFR part 823” shall be replaced by “K.A.R. 47-9-1(f).”

(E) “Part 827 of this chapter” shall be replaced by “K.A.R. 47-9-1(g).”

(F) “Section 508 of the Act” shall be replaced by “K.S.A. 49-406, and amendments thereto.”

(G) “Section 510(c) of the Act” shall be replaced by “K.S.A. 49-407(b), and amendments thereto.”

(H) “Section 515 of the Act,” “section 515(b) of the Act,” “section 515 (b)(22) of the Act,” and “sections 515 and 516 of the Act” shall be replaced by “K.S.A. 49-405a, 49-408 through 49-413, and 49-429, and amendments thereto.”

(I) “Section 515(b)(16) of the Act” shall be replaced by “K.S.A. 49-429, and amendments thereto.”

(3)(A) “30 CFR 773.15” and “§773.15 of this part” shall be replaced by “K.A.R. 47-3-42 (a)(11).”

(B) “30 CFR 779.24 through 779.25” shall be replaced by “K.A.R. 47-3-42(a)(38) through (39).”

(C) “30 CFR 780.12 or 784.12” shall be replaced by “K.A.R. 47-3-42(a)(42) or K.A.R. 47-10-1(a)(2)(C).”

(D) “30 CFR 780.16” shall be replaced by “K.A.R. 47-3-42(a)(46).”

(E) “30 CFR 780.18 through 780.37” shall be replaced by “K.A.R. 47-3-42(a)(47) through (58).”

(F) “30 CFR 816.13 through 816.15” shall be replaced by “K.A.R. 47-9-1(c)(2) through (4).”

(G) “30 CFR 816.22,” “§816.22 of this chapter,” and “§816.22(b) of this chapter” shall be replaced by “K.A.R. 47-9-1(c)(5).”

(H) “30 CFR 816.43 of this chapter” shall be replaced by “K.A.R. 47-9-1(c)(8).”

(I) “30 CFR 816.59” and “§816.59 of this chapter” shall be replaced by “K.A.R. 47-9-1(c)(15).”

(J) “30 CFR 816.71-816.74” and “§§816.71 through 816.74 of this chapter” shall be replaced by “K.A.R. 47-9-1(c)(22) through (23).”

(K) “30 CFR 816.79” and “§816.79 of this chapter” shall be replaced by “K.A.R. 47-9-1(c)(24).”

(L) “30 CFR 816.89 through 816.102” shall be replaced by “K.A.R. 47-9-1(c)(29) through (35).”

(M) “30 CFR 816.95” shall be replaced by “K.A.R. 47-9-1(c)(30).”

(N) “30 CFR 816.102 through 816.107” shall be replaced by “K.A.R. 47-9-1(c)(35) through (38).”

(O) “30 CFR 816.111 through 816.116” shall be replaced by “K.A.R. 47-9-1(c)(39) through (42).”

(P) “30 CFR 816.116” shall be replaced by “K.A.R. 47-9-1(c)(42).”

(Q) “30 CFR part 819” shall be replaced by “K.A.R. 47-9-1(e).”

(R) “30 CFR part 828” shall be replaced by “K.A.R. 47-9-1(h).”

(S) “30 CFR parts 817 and 828” shall be replaced by “K.A.R. 47-9-1(d) and (h).”

(T) “43 CFR 4.1360 through 4.1369” shall be replaced by “K.A.R. 47-4-14a.”

(U) “43 CFR 4.1376 or the State regulatory program equivalent” shall be replaced by “K.A.R. 47-4-14a.”

(V) “43 CFR 4.1380 through 4.1387 or, when a state is the regulatory authority, the state regulatory program counterparts” shall be replaced by “K.A.R. 47-4-14a and K.S.A. 49-416a, and amendments thereto.”

(4)(A) “§701.5 of this chapter” shall be replaced by “K.A.R. 47-2-75(b).”

(B) “§701.11(d)” shall be replaced by “K.A.R. 47-3-42 (a)(1).”

(C) “§761.11 of this chapter” shall be replaced by “K.A.R. 47-12-4(a)(2).”

(D) “§761.12(d) of this chapter” shall be replaced by “K.A.R. 47-12-4(a)(3).”

(E) “§761.14(c) of this chapter” shall be replaced by “K.A.R. 47-12-4(a)(4).”

(F) “§761.14 or §761.15 of this chapter” shall be replaced by “K.A.R. 47-12-4(a)(4) or (5).”

(G) “§761.16 of this chapter” shall be replaced by “K.A.R. 47-12-4(a)(6).”

(H) “§761.17(d) of this chapter” shall be replaced by “K.A.R. 47-12-4(a)(7).”

(I) “§762.13(c) of this chapter” shall be replaced by “K.A.R. 47-12-4(a)(12).”

(J) “§773.6(d)(3)(ii) of this chapter,” “§773.6(a)(1) of this chapter,” and “§773.6 of this chapter” shall be replaced by “K.A.R. 47-3-42(a)(2).”

(K) “§773.12 of this part” and “§773.12” shall be replaced by “K.A.R. 47-3-42(a)(8).”

(L) “§773.13” and “§773.13(c)” shall be replaced by “K.A.R. 47-3-42(a)(9).”

(M) “§773.14(b) of this part” and “§773.14(c)(1) through (4)” shall be replaced by “K.A.R. 47-3-42(a)(10).”

(N) “§773.19 of this part” shall be replaced by “K.A.R. 47-3-42(a)(13).”

(O) “§773.21(d) of this part” and “paragraphs

(a) and (b) §773.21 of this part” shall be replaced by “K.A.R. 47-3-42(a)(14).”

(P) “§773.22(b) or (c) of this part” and “§773.22(e) of this part” shall be replaced by “K.A.R. 47-3-42(a)(15).”

(Q) “§773.23 of this part” shall be replaced by “K.A.R. 47-3-42(a)(16).”

(R) “§773.26(a) of this part” shall be replaced by “K.A.R. 47-3-42(a)(18).”

(S) “§773.27(b) of this part” shall be replaced by “K.A.R. 47-3-42(a)(19).”

(T) “§774.11(c) of this subchapter,” “§774.11(f) of this subchapter,” and “§774.11(g) of this subchapter” shall be replaced by “K.A.R. 47-6-11(a)(1).”

(U) “§774.13 of this chapter” and “§774.13” shall be replaced by “K.A.R. 47-6-2.”

(V) “§774.15” shall be replaced by “K.A.R. 47-6-3.”

(W) “§778.9(d) of this subchapter” shall be replaced by “K.A.R. 47-3-42(a)(21).”

(X) “§778.11 of this subchapter,” “§778.11(c)(5) and 778.11(d) of this subchapter,” and “§778.11(c)(5) of this subchapter” shall be replaced by “K.A.R. 47-3-42(a)(22).”

(Y) “§778.12 of this subchapter” shall be replaced by “K.A.R. 47-3-42(a)(23).”

(Z) “§778.14 of this subchapter” shall be replaced by “K.A.R. 47-3-42(a)(25).”

(AA) “§778.15(b) of this chapter” shall be replaced by “K.A.R. 47-3-42(a)(26).”

(BB) “§779.25 of this chapter” shall be replaced by “K.A.R. 47-3-42(a)(39).”

(CC) “§780.16(b) and 816.97(a) of this chapter” shall be replaced by “K.A.R. 47-3-42(a)(46) and K.A.R. 47-9-1(c)(31).”

(DD) “§780.21(h) and 816.41(d)(1) of this chapter” shall be replaced by “K.A.R. 47-3-42(a)(48) and K.A.R. 47-9-1(c)(6).”

(EE) “§780.25 of this part” shall be replaced by “K.A.R. 47-3-42(a)(51).”

(FF) “§780.29 of this part and §816.43” shall be replaced by “K.A.R. 47-3-42(a)(54) and K.A.R. 47-9-1(c)(8).”

(GG) “§780.35 of this part” shall be replaced by “K.A.R. 47-3-42(a)(57).”

(HH) “§785.13” shall be replaced by “K.A.R. 47-3-42(a)(60).”

(RRR) “§§816.81 and 816.84 of this chapter” shall be replaced by “K.A.R. 47-9-1(c)(25) and (27).” (Authorized by K.S.A. 49-405 and 49-427; implementing K.S.A. 49-405, K.S.A. 2018 Supp. 49-406, K.S.A. 49-407 and 49-427; effective, E-81-30, Oct. 8, 1980; effective May 1, 1981; amended May 1, 1985; amended May 1, 1986; amended May 1, 1988; amended Feb. 11, 1991; amended May 2, 1997; amended July 31, 1998; amended Dec. 1, 2006; amended Feb. 15, 2019.)

Article 5.—CIVIL PENALTIES

47-5-5a. Civil penalties; adoption by reference. (a) Subject to the provisions of subsection (c), the following federal regulations, as in effect on July 1, 2012, are adopted by reference, except as otherwise specified:

- (1) How assessments are made, 30 C.F.R. 845.11;
- (2) when penalty will be assessed, 30 C.F.R. 845.12;
- (3) point system for penalties, 30 C.F.R. 845.13;

(4) determination of amount of penalty, 30 C.F.R. 845.14, except that the table shall be replaced by the following table:

(5) assessment of separate violations for each day, 30 C.F.R. 845.15, except that the statement “a civil penalty of not less than \$1,025 shall be assessed for each day during which such failure to abate continues” shall be replaced by “a civil penalty of not less than \$750 shall be assessed for each day during which such failure to abate continues”;

(6) waiver of use of formula to determine civil penalty, 30 C.F.R. 845.16;

(7) procedures for assessment of civil penalties, 30 C.F.R. 845.17;

(8) procedures for assessment conference, 30 C.F.R. 845.18. However, the following sentence shall be deleted: “The assessment conference shall not be governed by section 554 of title 5 of the United States Code, regarding requirements for formal adjudicatory hearings.” The following sentence shall be added: “The conference officer shall be selected by the department”;

(9) request for hearing, 30 C.F.R. 845.19. However, subsection (b) shall be replaced by the following text: “(b) The department shall hold all funds submitted under paragraph (a) of this section in escrow pending completion of the administrative and judicial review process, at which time it shall disburse them as provided in K.A.R. 47-5-16”;

(10) when an individual civil penalty may be assessed, 30 C.F.R. 846.12;

(11) amount of individual civil penalty, 30 C.F.R. 846.14;

(12) procedure for assessment of individual civil penalty, 30 C.F.R. 846.17;

(13) payment of penalty, 30 C.F.R. 846.18. However, subsection (d) shall be replaced by the following text:

“(d)(1) Delinquent payment. Following the expiration of 30 days after the issuance of a final order assessing an individual civil penalty, any delinquent civil penalty shall be subject to interest at the rate established quarterly by the U.S. department of the treasury for use in applying late charges on later payments to the federal government, pursuant to the treasury financial manual 6-8020.20. The treasury current value of funds rate is published by the fiscal service in the notices section of the federal register. Interest on unpaid civil penalties will run from the date payment first was due until the date of payment. Failure to pay overdue civil penalties may result in one or more of the following actions, which are not exclusive:

“(i) Initiation of litigation;

“(ii) reporting to the internal revenue service;

“(iii) reporting to state agencies responsible for taxation;

“(iv) reporting to credit bureaus; or

“(v) referral to collection agencies.

“(2) If a civil penalty debt is greater than 91 days overdue, a six percent per annum penalty shall begin to accrue on the amount owed for fees and shall run until the date of payment. This penalty is in addition to the interest described in this regulation.

“(3) For all delinquent penalties and interest, the debtor shall be required to pay a processing and handling charge that shall be based on the following components:

“(i) For debts referred to a collection agency, the amount charged to the department by the collection agency;

“(ii) for debts processed and handled by the surface mining section, a standard amount set annually by the department based upon similar charges by collection agencies for debt collection;

“(iii) for debts referred to the office of legal services, Kansas department of health and environment, but paid before litigation, the estimated average cost to prepare the case for litigation at the time of payment;

“(iv) for debts referred to the office of legal services, Kansas department of health and environ-

ment, and litigated, the estimated cost to prepare and litigate a debt case at the time of payment;

“(v) if not otherwise provided for, all other administrative expenses associated with collection, including billing, recording payments, and follow-up actions; and

“(vi) no prejudgment interest accrues on any processing and handling charges.”;

(14) general provisions, 30 C.F.R. 847.2;

(15) criminal penalties, 30 C.F.R. 847.11. However, the term “Attorney General” shall be replaced with “Kansas attorney general”; and

(16) civil actions for relief, 30 C.F.R. 847.16.

(b) The following phrases and citations shall be replaced with the phrases and citations specified in this subsection wherever the phrases and citations appear in the text of the federal regulations adopted by reference in this regulation:

(1)(A) “Act” shall be replaced by “state act.”

(B) “Director” and “director or his designee” shall be replaced by “secretary of health and environment or secretary’s designee.” However, in 30 C.F.R. 846.12, the word “director” shall remain unchanged.

(C) “Hearings Division, Office of Hearings and Appeals, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203 (Phone: 703-235-3800)” shall be replaced by “Office of administrative hearings.”

(D) “Office,” “State or field office,” and “office of hearings and appeals” shall be replaced by “department.”

(E) “Rule 65 of the Federal Rules of Civil Procedure” shall be replaced by “K.S.A. 60-901 et seq., and amendments thereto.”

(F) “Secretary” shall be replaced by “secretary of the Kansas department of health and environment.”

(2)(A) “Section 518(a) of the act” shall be replaced by “K.S.A. 49-405c(a).”

(B) “Section 518(e), 518(f), 521(a)(4), or 521(c) of the act” shall be replaced by “K.S.A. 49-405c(e), 49-405c(f), 49-405(m)(3), or 49-405(m)(4), and amendments thereto.”

(C) “Section 518(e) and (g) of the act” and “section 518(e) of the Act” shall be replaced by “K.S.A. 49-405c(e) and (g), and amendments thereto.”

(D) “Section 521 or 526 of the act” shall be replaced by “K.S.A. 49-405c, 49-405(m), 49-416a, and 49-422a, and amendments thereto.”

(E) “Section 521(a) of the act” shall be replaced by “K.S.A. 49-405(m)(2), and amendments thereto.”

(F) “Section 521(c) of the act” shall be replaced by “K.S.A. 49-405(m), and amendments thereto.”

(G) “Section 525(c) of the act” shall be replaced by “K.S.A. 49-416a(c), and amendments thereto.”

(H) “Section 526 of the act” and “section 526(c) of the act” shall be replaced by “K.S.A. 49-422a, and amendments thereto.”

(I) “Sections 518, 521(a)(4), and 525 of the act” shall be replaced by “K.S.A. 49-405c, 49-405(m)(3), and 49-416a, and amendments thereto.”

(3)(A) “30 CFR 816.11” shall be replaced by “K.A.R. 47-9-1(c)(1).”

(B) “30 CFR 843.16” shall be replaced by “K.A.R. 47-4-14a.”

(C) “30 CFR 845.12, 845.13, 845.14, 845.15 and 845.16” shall be replaced by “K.A.R. 47-5-5a(a)(2), (3), (4), (5), and (6).”

(D) “30 CFR 845.12(b)” shall be replaced by “K.A.R. 47-5-5a(a)(2).”

(E) “30 CFR 845.13,” “30 CFR 845.13(b),” and “§845.13(b)” shall be replaced by “K.A.R. 47-5-5a(a)(3).”

(F) “30 CFR 845.17(b)” shall be replaced by “K.A.R. 47-5-5a(a)(7).”

(G) “43 CFR 4.1300 *et seq.*” and “rule 4 of the Federal Rules of Civil Procedure” shall be replaced by “K.A.R. 47-4-14a.”

(4) “§846.12” shall be replaced by “K.A.R. 47-5-5a(a)(10).”

(c) Review of proposed assessments of civil penalties. If a request for hearing is made pursuant to paragraph (a)(9), the procedures in K.A.R. 47-4-14a and the following shall apply:

(1) Time for filing petition for a hearing.

(A)(i) If a timely request for an assessment conference has been made pursuant to paragraph (a)(8), a request for a hearing shall be made to the department within 30 days of service of notice, by the conference officer, that the conference is completed; or

(ii) a request for a hearing of a proposed assessment of a civil penalty shall be made to the department within 30 days of service of the proposed assessment.

(B) No extension of time shall be granted for filing a petition for review of a proposed assessment of a civil penalty as required by paragraph (c)(1)(A)(i) or (A)(ii). If a petition for review is not filed within the time period provided in paragraph (c)(1)(A)(i) or (A)(ii), all of the following shall apply:

(i) The appropriateness of the amount of the penalty and the fact of the violation if there is no proceeding pending under K.S.A. 49-416a, and amendments thereto, to review the notice of violation or cessation order involved shall be admitted.

(ii) The petition shall be dismissed.
(iii) The civil penalty assessed shall become a final order of the secretary.

(2) Contents of petition; payment required.

(A) The petition shall include the following:

(i) A short and plain statement indicating the reasons why either the amount of the penalty or the fact of the violation is being contested;

(ii) if the amount of penalty is being contested based upon a misapplication of the civil penalty formula, a statement indicating how the civil penalty formula in subsection (a), adopting by reference 30 C.F.R. Parts 845 and 846, was misapplied and a proposed civil penalty utilizing the civil penalty formula;

(iii) the identification by number of each violation being contested;

(iv) the identifying number of the cashier's check, certified check, bank draft, personal check, or bank money order accompanying the petition; and

(v) a request for a hearing.

(B) The petition for a hearing shall be accompanied by the following:

(i) Full payment of the proposed civil penalty in the form of a cashier's check, certified check, bank draft, personal check, or bank money order made payable to the Kansas department of health and environment, to be placed in an escrow account by the department pending final determination of the civil penalty; and

(ii) on the face of the payment, an identification by number of the violations for which payment is being tendered.

(C) As required by K.S.A. 49-405c and amendments thereto, failure to make timely payment of the proposed civil penalty in full shall result in a waiver of all legal rights to contest the violation or the amount of the penalty.

(D) No extension of time shall be granted for full payment of the proposed civil penalty. If payment is not made within the time period provided in paragraph (c)(1)(A)(i) or (A)(ii), all of the following shall apply:

(i) The appropriateness of the amount of the civil penalty, the fact of the violation, and, if there is no review proceeding, the notice of violation or cessation order involved shall be deemed admitted.

(ii) The petition shall be dismissed.

(iii) The civil penalty assessed shall become a final order of the secretary.

(3) Answer. An answer may be filed by the secretary within 30 days of service of the petition.

(4) Review of waiver determination.

(A) Within 10 days of the filing of a petition, the petitioner may move the presiding officer to review the granting or denial of a waiver of the civil penalty formula pursuant to paragraph (a)(6).

(B) The motion shall contain a statement indicating all alleged facts relevant to the granting or denial of a waiver.

(C) Review shall be limited to the written determination of the presiding officer granting or denying the waiver, the motion, and responses to the motion. The standard of review shall be abuse of discretion.

(D) If the presiding officer finds that the secretary abused the secretary's discretion in granting or denying the waiver, the presiding officer shall hold a hearing on the petition for review of the proposed assessment and make a determination pursuant to paragraph (c)(7).

(5) Burden of proof in civil penalty proceedings. In civil penalty proceedings, the following shall apply:

(A) The department shall have the burden of establishing a prima facie case regarding the fact of the violation, the amount of the civil penalty, and the ultimate burden of persuasion regarding the amount of the civil penalty.

(B) The person who petitioned for review shall have the ultimate burden of persuasion regarding the fact of the violation.

(6) Summary disposition.

(A) In a civil penalty proceeding in which the person against whom the proposed civil penalty is assessed fails to comply on time with any pre-hearing order of a presiding officer, the presiding officer shall issue an order to show cause for the following conditions:

(i) That person should not be deemed to have waived the person's right to a hearing.

(ii) The proceedings should not be dismissed and the assessment should become final.

(B) If the order to show cause is not satisfied as required, the presiding officer shall order the proceedings dismissed and issue a final order.

(C) If the person against whom the proposed civil penalty is assessed fails to appear at a hearing, that person shall be deemed to have waived the person's right to a hearing, and the presiding officer may assume, for purposes of the assessment, the following:

(i) The occurrence of each violation listed in the notice of violation or order; and

(ii) the truth of any facts alleged in the notice or order.

(D) In order to issue an initial order assessing the appropriate civil penalty when the person against whom the proposed civil penalty is assessed fails to appear at the hearing, a presiding officer shall either conduct an ex parte hearing or require the department to furnish proposed findings of fact and conclusions of law.

(E) Nothing in this article shall be construed to deprive the person against whom the penalty is assessed of the person's opportunity to have the department prove the violations charged in open hearing with confrontation and cross-examination of witnesses, unless that person fails to comply with a prehearing order or fails to appear at the scheduled hearing.

(7) Initial order of the presiding officer.

(A) The presiding officer shall incorporate, in the presiding officer's decision concerning the civil penalty, findings of fact on each of the four criteria in paragraph (a)(3) and conclusions of law.

(B)(i) If the presiding officer finds that a violation occurred or that the fact of violation is uncontested, the presiding officer shall establish the amount of the penalty according to the point system and conversion table specified in paragraphs (a)(3) and (4).

(ii) The presiding officer may waive the use of the point system if the presiding officer determines that a waiver would further abatement of violations of the state act, except that the point system shall not be waived for abatement of other violations of the state act.

(iii) If the presiding officer finds that no violation occurred, the presiding officer shall issue an order that the proposed assessment be returned to the petitioner.

(C) If the presiding officer finds that no violation occurred or reduces the amount of the civil penalty, the presiding officer shall order the department to remit the appropriate amount to the petitioner who made the payment within 30 days of the department's receipt of the order. If a timely petition for review of the presiding officer's decision is filed with the secretary, no amount shall be remitted to the petitioner until a final determination has been made.

(D) If the presiding officer increases the amount of the civil penalty above that of the proposed assessment, the presiding officer shall order payment of the appropriate amount within 15 days after the order increasing the civil penalty is mailed.

(8) Appeals.

(A) Any party may petition the secretary to review and reconsider the initial order of a presiding officer concerning an assessment pursuant to K.A.R. 47-4-14a.

(B) Any party may appeal the final order of the secretary pursuant to the Kansas judicial review act, K.S.A. 77-601 et seq., and amendments thereto. (Authorized by K.S.A. 49-405; implementing K.S.A. 49-405, 49-405c, and 49-416a; effective May 1, 1985; amended Feb. 11, 1991; amended May 2, 1997; amended July 31, 1998; amended Dec. 1, 2006; amended Feb. 15, 2019.)

Article 6.—PERMIT REVIEW

47-6-1. Permit review. (a) Each permit issued and outstanding during the term of the permit shall be reviewed by the secretary or secretary's designee not later than the middle of that term. Reasonable revision or modification of the permit provisions may be ordered at any time to ensure compliance with the laws and regulations. A copy of the order and the written findings shall be sent to the operator. The order shall be subject to K.S.A. 49-407 and K.S.A. 49-422a, and amendments thereto.

(b) Each permit authorizing one or more variances that is issued in accordance with K.A.R. 47-3-42(a)(62) shall be reviewed not later than three years from the date of issuance.

(c) Each permit authorizing one or more experimental practices that is issued in accordance with K.A.R. 47-3-42(a)(60) shall be reviewed as specified in the permit or at least every two and a half years from the date of issuance as required by the department, in accordance with K.A.R. 47-3-42(a)(60).

(d) After the review required by this regulation or at any time, the reasonable revision of any permit may be required by the secretary, by order, in accordance with K.A.R. 47-6-2 to ensure compliance with the state act and the regulatory program.

(e) Each order of the secretary requiring revision of a permit shall be based upon written findings and shall be subject to the provisions of administrative and judicial review in K.S.A. 49-407(d), K.S.A. 49-416a, and K.S.A. 49-422a, and amendments thereto, and article 4 of these regulations. A copy of each order shall be sent to the permittee.

(f) Any permit may be suspended or revoked in accordance with articles 5 and 15 of these regula-

tions. (Authorized by K.S.A. 49-405 and 49-410; implementing K.S.A. 2018 Supp. 49-406 and K.S.A. 49-410; effective May 1, 1980; amended Feb. 11, 1991; amended May 2, 1997; amended Dec. 1, 2006; amended Feb. 15, 2019.)

47-6-2. Permit revision. (a) Each application to revise an existing permit shall be submitted by the operator at least 60 days before the date on which the operator wants to have the approval of the secretary.

(b) Each application for a permit revision shall include the following:

(1) A map that meets the general map requirements of these regulations;

(2) a description of the permit revision with the technical data necessary to establish the impact and consequences of the proposed revision on the surface coal mining and reclamation operation, the environment, and public health and safety; and

(3) any additional information requested by the department.

(c) If the application for permit revision contains significant alterations or departures from the method of mining or reclamation operations covered by the original permit, the operator shall meet all the application requirements, which shall include all requests from the department for relevant information.

Whether a significant alteration or departure is involved shall be determined by the chief of the surface mining section on a case-by-case basis upon review, unless a determination is requested in writing by the operator upon or before filing the application. On receiving this request, the operator shall be advised by the chief of the surface mining section if a significant alteration or departure is involved for the purpose of submitting an application.

If the application for permit revision contains significant alterations or departures, the operator shall meet all of the requirements of K.A.R. 47-3-1 through 47-3-42, including all requests from the department for relevant information.

(d) No application for a permit revision shall be approved unless the applicant demonstrates and the regulatory authority finds that all of the following conditions are met:

(1) The reclamation required by the state act and the regulatory program can be accomplished.

(2) The applicable requirements of K.A.R. 47-3-42(a)(11) pertinent to the revision are met.

(3) The application for revision meets all requirements of the state act and the regulatory program.

(e) Each extension to the area covered by the permit, except incidental boundary revisions, shall be made through an application for a new permit. (Authorized by K.S.A. 49-405 and 49-410; implementing K.S.A. 2018 Supp. 49-406 and K.S.A. 49-410; effective May 1, 1980; amended Feb. 11, 1991; amended May 2, 1997; amended Dec. 1, 2006; amended Feb. 15, 2019.)

47-6-3. Permit renewals; adoption by reference. (a) The section titled “permit renewals,” 30 C.F.R. 774.15, as in effect on July 1, 2012, is hereby adopted by reference, except as otherwise specified in this regulation. Subsection (c)(3) of 30 C.F.R. 774.15 shall be deleted.

(b) The following phrases and citations shall be replaced with the phrases and citations specified in this subsection wherever the phrases and citations appear in the text of the federal regulations adopted by reference in this regulation:

(1)(A) “Act” shall be replaced by “state act.”

(B) “Subchapter J of this chapter” shall be replaced by “article 8 of these regulations.”

(2) “Part 775 of this chapter” shall be replaced by “K.S.A. 49-407(d), K.S.A. 49-416a, K.S.A. 49-422a, and amendments thereto, and article 4 of these regulations.”

(3)(A) “§773.19” shall be replaced by “K.A.R. 47-3-42(a)(13).”

(B) “§774.13” shall be replaced by “K.A.R. 47-6-2.”

(C) “§778.21 of this chapter” shall be replaced by “K.A.R. 47-3-42(a)(30).”

(D) “§800.60 of this chapter” shall be replaced by “K.A.R. 47-8-9(a)(15).”

(E) “§§773.6 and 773.19(b) of this chapter” shall be replaced by “K.A.R. 47-3-42(a)(2) and (13).” (Authorized by K.S.A. 49-405; implementing K.S.A. 2018 Supp. 49-406; effective May 1, 1980; amended, E-81-30, Oct. 8, 1980; amended May 1, 1981; amended May 1, 1986; amended Feb. 11, 1991; amended May 2, 1997; amended Dec. 1, 2006; amended Feb. 15, 2019.)

47-6-4. Permit transfers, assignments, and sales; adoption by reference. (a) Each application for a new permit required for a person succeeding by transfer, sale, or assignment of rights granted under a permit shall be filed with the secretary not later than 30 days after that succession is approved by the secretary.

(b) Transfer, assignment, or sale of permit rights, 30 C.F.R. 774.17, as in effect on July 1, 2012, is adopted by reference, except as otherwise indicated in this regulation.

(c) The following phrases shall be replaced with the phrases specified in this subsection wherever the phrases appear in the federal regulations adopted by reference in this regulation:

(1)(A) "Act" shall be replaced by "state act."

(B) "Subchapter J of this chapter" shall be replaced by "article 8 of these regulations."

(C) "This subchapter" shall be replaced by "these regulations."

(2) "Part 778 of this chapter" shall be replaced by "K.A.R. 47-3-42(a)(21) through (31)."

(3) "§773.12 and 773.14 of this chapter" shall be replaced by "K.A.R. 47-3-42(a)(8) and (10)." (Authorized by K.S.A. 49-405; implementing K.S.A. 49-410; effective May 1, 1980; amended, E-81-30, Oct. 8, 1980; amended May 1, 1981; amended May 1, 1986; amended Feb. 11, 1991; amended May 2, 1997; amended July 31, 1998; amended Dec. 1, 2006; amended Feb. 15, 2019.)

47-6-6. Permit conditions; adoption by reference. (a) The section titled "permit conditions," 30 C.F.R. 773.17, as in effect on July 1, 2012, is adopted by reference, except as otherwise specified in this regulation.

(b) The following phrases shall be replaced with the phrases specified in this subsection wherever the phrases appear in the federal regulation adopted by reference in this regulation:

(1)(A) "Act" shall be replaced by "state act."

(B) "Subchapter J of this chapter" shall be replaced by "article 8 of these regulations."

(C) "Subchapter R of this chapter" and "that subchapter" shall be replaced by "the office of surface mining reclamation and enforcement."

(2) "Parts 840 and 842" shall be replaced by "K.A.R. 47-15-1a."

(3)(A) "§701.11(d) and subchapter B or K of this chapter" shall be replaced by "K.A.R. 47-3-42(a)(1) and either K.A.R. 47-9-4 or K.A.R. 47-9-1."

(B) "§§842.13 and 840.12 of this chapter" shall be replaced by "K.A.R. 47-15-1a(a)(4)." (Authorized by K.S.A. 49-405; implementing K.S.A. 2018 Supp. 49-406; effective, E-81-30, Oct. 8, 1980; effective May 1, 1981; amended May 1, 1986; amended Feb. 11, 1991; amended May 2, 1997; amended July 31, 1998; amended Dec. 1, 2006; amended Feb. 15, 2019.)

47-6-8. Termination of jurisdiction; adoption by reference. (a) The section titled "applicability," 30 C.F.R. 700.11, as in effect on July 1, 2012, is adopted by reference, except as otherwise specified in this regulation, and subsections (a)(1), (a)(5), and (b) of 30 C.F.R. 700.11 shall be deleted.

(b) The following phrases shall be replaced with the phrases specified in this subsection wherever the phrases appear in the federal regulation adopted by reference in this regulation:

(1)(A) "Subchapter B of this chapter" shall be replaced by "K.A.R. 47-9-4."

(B) "The State or Federal program counterpart to part 800 of this chapter" shall be replaced by "article 8 of these regulations."

(C) "This chapter" shall be replaced by "these regulations."

(2)(A) "Part 702 of this chapter" shall be replaced by "K.A.R. 47-6-10."

(B) "Part 707 of this chapter" shall be replaced by "K.A.R. 47-6-9." (Authorized by and implementing K.S.A. 49-405; effective Feb. 11, 1991; amended May 2, 1997; amended July 31, 1998; amended Dec. 1, 2006; amended Feb. 15, 2019.)

47-6-9. Exemption for coal extraction incidental to government-financed highway or other construction; adoption by reference.

(a) The following federal regulations, as in effect on July 1, 2012, are adopted by reference, except as otherwise specified in this regulation:

(1) Responsibility, 30 C.F.R. 707.4;

(2) definitions, 30 C.F.R. 707.5;

(3) applicability, 30 C.F.R. 707.11, except that the phrase "Federal or Federal lands" shall be deleted; and

(4) information to be maintained on site, 30 C.F.R. 707.12.

(b) The following phrases and citations shall be replaced with the phrases and citations specified in this subsection wherever the phrases and citations appear in the text of the federal regulations adopted by reference in this regulation:

(1)(A) "Act" shall be replaced by "state act."

(B) "This chapter" shall be replaced by "these regulations."

(C) "Title IV" shall be replaced by "K.S.A. 49-428 and amendments thereto."

(2) "30 CFR 707.12" shall be replaced by "K.A.R. 47-6-9(a)(4)." (Authorized by and implementing K.S.A. 49-405; effective Feb. 11, 1991; amended May 2, 1997; amended Dec. 1, 2006; amended Feb. 15, 2019.)

47-6-10. Exemption for coal extraction incidental to the extraction of other minerals; adoption by reference. (a) The following federal regulations, as in effect on July 1, 2012, are adopted by reference, except as otherwise specified in this regulation:

- (1) Definitions, 30 C.F.R. 702.5;
 - (2) application requirements and procedures, 30 C.F.R. 702.11, except that subsection (b) shall be deleted. The text “after April 1, 1990, under a Federal program or on Indian lands, or after the effective date of counterpart provisions in a State program” shall be replaced by “under the state act”;
 - (3) contents of application for exemption, 30 C.F.R. 702.12;
 - (4) public availability of information, 30 C.F.R. 702.13;
 - (5) requirements for exemption, 30 C.F.R. 702.14;
 - (6) conditions of exemption and right of inspection and entry, 30 C.F.R. 702.15. However, “§702.11(b) or” and “for Federal programs and on Indian lands or in accordance with counterpart provisions when included in State programs” shall be deleted;
 - (7) stockpiling of minerals, 30 C.F.R. 702.16;
 - (8) revocation and enforcement, 30 C.F.R. 702.17; and
 - (9) reporting requirements, 30 C.F.R. 702.18.
- (b) The following phrases and citations shall be replaced with the phrases and citations specified in this subsection wherever the phrases and citations appear in the text of the federal regulations adopted by reference in this regulation:
- (1)(A) “Act” shall be replaced by “state act.”
 - (B) “Secretary” shall be replaced by “secretary of the Kansas department of health and environment.”
 - (C) The following text shall be replaced by “K.A.R. 47-4-14a”: “43 CFR 4.1280 when OSM is the regulatory authority or under corresponding State procedures when a State is the regulatory authority” and “43 CFR 4.1280 or under corresponding State procedures.”
 - (D) “The standards of this part for Federal programs and on Indian lands or in accordance with counterpart provisions when included in State programs” shall be replaced by “these regulations.”
 - (2)(A) “§702.5 of this part” shall be replaced by “K.A.R. 47-6-10(a)(2).”
 - (B) “§702.11(e)(3)” shall be replaced by “K.A.R. 47-6-10(a)(3).”
 - (C) “§702.12(g)” shall be replaced by “K.A.R. 47-6-10(a)(4).”

(D) “§702.16” shall be replaced by “K.A.R. 47-6-10(a)(8).”

(E) “§702.18 of this part” and “§702.18” shall be replaced by “K.A.R. 47-6-10(a)(10).” (Authorized by and implementing K.S.A. 49-405; effective Feb. 11, 1991; amended May 2, 1997; amended Dec. 1, 2006; amended Feb. 15, 2019.)

47-6-11. Post-permit issuance requirements; adoption by reference. (a) The following federal regulations, as in effect on July 1, 2012, are adopted by reference, except as otherwise specified in this regulation:

- (1) Post-permit issuance requirements for regulatory authorities and other actions based on ownership, control, and violation information, 30 C.F.R. 774.11; and
 - (2) post-permit issuance information requirements for permittees, 30 C.F.R. 774.12.
- (b) The following phrases and citations shall be replaced with the phrases and citations specified in this subsection wherever the phrases and citations appear in the text of the federal regulations adopted in this regulation:
- (1) “Regulatory authority” shall be replaced by “Kansas department of health and environment.”
 - (2)(A) “Part 843, 846, or 847 of this chapter” shall be replaced by “K.A.R. 47-15-1a, K.A.R. 47-5-5a(a)(10) through (13), and K.A.R. 47-5-17.”
 - (B) “Section 510(c) of the Act” shall be replaced by “K.S.A. 49-407(b), and amendments thereto.”
 - (3) “43 CFR 4.1350 through 4.1356” shall be replaced by “article 4 of these regulations.”
 - (4)(A) “§778.11(c) of this subchapter,” “§778.11(d) of this subchapter,” and “§778.11 of this subchapter” shall be replaced by “K.A.R. 47-3-42(a)(22).”
 - (B) “§843.11” shall be replaced by “K.A.R. 47-15-1a(a)(8).”
 - (C) “§§773.12(a) and (b) of this subchapter” shall be replaced by “K.A.R. 47-3-42(a)(8).”
 - (D) “§§773.25, 773.26 and 773.27 of this subchapter” shall be replaced by “K.A.R. 47-3-42(a)(17), (18), and (19).” (Authorized by and implementing K.S.A. 49-405; effective Dec. 1, 2006; amended Feb. 15, 2019.)

Article 7.—COAL EXPLORATION

47-7-2. Coal exploration; adoption by reference. (a) The following federal regulations, as in effect on July 1, 2012, are adopted by reference, except as otherwise specified in this regulation:

(1) Notice requirements for exploration removing 250 tons of coal or less, 30 C.F.R. 772.11;

(2) permit requirements for exploration that will remove more than 250 tons of coal or that will occur on lands designated as unsuitable for surface coal mining operations, 30 C.F.R. 772.12;

(3) coal exploration compliance duties, 30 C.F.R. 772.13;

(4) commercial use or sale, 30 C.F.R. 772.14; and

(5) public availability of information, 30 C.F.R. 772.15.

(b) The following phrases and citations shall be replaced with the phrases and citations specified in this subsection wherever the phrases and citations appear in the text of the federal regulations adopted by reference in this regulation.

(1)(A) “Subchapter F of this chapter” shall be replaced by “article 12 of these regulations.”

(B) The phrase “section 518 of the Act, subchapter L of this chapter, and the applicable inspection and enforcement provisions of the regulatory program” shall be replaced by “K.S.A. 49-405c, and amendments thereto, and articles 5 and 15 of these regulations.”

(C) “This part,” “this part, part 815 of this chapter, and the applicable provisions of the regulatory program,” and “this part, part 815 of this chapter, the regulatory program” shall be replaced by “K.A.R. 47-7-2” and “K.A.R. 47-9-1(b).”

(2)(A) “Part 775 of this chapter” shall be replaced by “K.S.A. 49-407(d), K.S.A. 49-416a, K.S.A. 49-422a, and amendments thereto, and article 4 of these regulations.”

(B) “Part 815 of this chapter” shall be replaced by “K.A.R. 47-9-1(b).”

(C) “Parts 773 through 785 of this chapter” shall be replaced by “articles 3, 4, 6, and 10 of these regulations, K.S.A. 49-407(d), K.S.A. 49-416a, and K.S.A. 49-422a, and amendments thereto.”

(3)(A) “§761.11 of this chapter” shall be replaced by “K.A.R. 47-12-4(a)(2).”

(B) “§772.12” shall be replaced by “K.A.R. 47-7-2(a)(2).”

(C) “§772.13” shall be replaced by “K.A.R. 47-7-2(a)(3).”

(D) “§§772.13 and 772.14” shall be replaced by “K.A.R. 47-7-2(a)(3) and (4).”

(E) “§§772.14(b) and 700.11(a)(5)” shall be replaced by “K.A.R. 47-7-2(a)(4) and K.A.R. 47-6-8.” (Authorized by K.S.A. 49-405; implementing K.S.A. 49-427; effective, E-81-30, Oct. 8, 1980; effective May 1, 1981; amended May 1, 1986;

amended May 1, 1988; amended Feb. 11, 1991; amended May 2, 1997; amended July 31, 1998; amended Dec. 1, 2006; amended Feb. 15, 2019.)

Article 8.—BONDING PROCEDURES

47-8-9. Bonding procedures; adoption by reference. (a) The following federal regulations, as in effect on July 1, 2012, are adopted by reference, except as otherwise specified in this regulation:

(1) Regulatory authority responsibilities, 30 C.F.R. 800.4, deleting subsection (d);

(2) definitions, 30 C.F.R. 800.5, deleting subsection (c);

(3) requirement to file a bond, 30 C.F.R. 800.11, deleting subsection (e);

(4) form of the performance bond, 30 C.F.R. 800.12, deleting subsection (c);

(5) period of liability, 30 C.F.R. 800.13;

(6) determination of bond amount, 30 C.F.R. 800.14;

(7) adjustment of amount, 30 C.F.R. 800.15;

(8) general terms and conditions of bond, 30 C.F.R. 800.16;

(9) bonding requirements for underground coal mines and long-term coal-related surface facilities and structures, 30 C.F.R. 800.17;

(10) surety bonds, 30 C.F.R. 800.20;

(11) collateral bonds, 30 C.F.R. 800.21;

(12) replacement of bonds, 30 C.F.R. 800.30;

(13) requirement to release performance bonds, 30 C.F.R. 800.40;

(14) forfeiture of bonds, 30 C.F.R. 800.50; and

(15) terms and conditions for liability insurance, 30 C.F.R. 800.60, deleting subsection (d).

(b) The following phrases and citations shall be replaced with the phrases and citations specified in this subsection wherever the phrases and citations appear in the text of the federal regulations adopted by reference in this regulation:

(1)(A) “Act” shall be replaced by “state act.”

(B) “Application” shall be replaced by “complete and accurate application.”

(C) “Subchapter K of this chapter” shall be replaced by “article 9 of these regulations.”

(D) “This chapter” and “subchapter G of this chapter” shall be replaced by “these regulations.”

(E) “This subchapter” shall be replaced by “article 8 of these regulations.”

(F) “(Under parts 780 and 784 of this chapter)” shall be replaced by “[under K.A.R. 47-3-42(a) (40) through (59), and K.A.R. 47-10-1].”

(2)(A) “Part 823 of this chapter” shall be replaced by “K.A.R. 47-9-1(f).”

(B) “Section 507(b)(16) of the act” shall be replaced by “K.S.A. 49-407(c), and amendments thereto.”

(C) “Section 513(b) of the act” shall be replaced by “K.S.A. 49-407(d), and amendments thereto, and the regulations promulgated thereunder.”

(D) “Section 515 of the act” and “section 515(b)(10) of the act” shall be replaced by “K.S.A. 49-405a, K.S.A. 49-408 through K.S.A. 49-413, K.S.A. 49-429, and amendments thereto, and the regulations promulgated thereunder.”

(3)(A) “§800.11(b)” shall be replaced by “K.A.R. 47-8-9(a)(3).”

(B) “§800.13” shall be replaced by “K.A.R. 47-8-9(a)(5).”

(C) “§800.14” shall be replaced by “K.A.R. 47-8-9(a)(6).”

(D) “§800.15” shall be replaced by “K.A.R. 47-8-9(a)(7).”

(E) “§800.16(e)(2)” shall be replaced by “K.A.R. 47-8-9(a)(8).”

(F) “§800.17(b)(3)” shall be replaced by “K.A.R. 47-8-9(a)(9).”

(G) “§800.21(f)” shall be replaced by “K.A.R. 47-8-9(a)(11).”

(H) “§800.40,” “§800.40(c)(2),” “§800.40(f) and (h),” and “§800.40(a)(2)” shall be replaced by “K.A.R. 47-8-9(a)(13).”

(I) “§800.50” shall be replaced by “K.A.R. 47-8-9(a)(14).”

(J) “§800.60” shall be replaced by “K.A.R. 47-8-9(a)(15).”

(K) “§816.116 or §817.116 of this chapter” shall be replaced by “K.A.R. 47-9-1(c)(42) or K.A.R. 47-9-1(d)(38).”

(L) “§816.132 or §817.132 of this chapter” shall be replaced by “K.A.R. 47-9-1(c)(44) or K.A.R. 47-9-1(d)(42).”

(M) “§816.133 or §817.133 of this chapter” and “§§816.133(c) and 817.133(c)” shall be replaced by “K.A.R. 47-9-1(c)(45) or K.A.R. 47-9-1(d)(43).”

(N) “§817.121(c) of this chapter” shall be replaced by “K.A.R. 47-9-1(d)(39).”

(O) “§§800.14 and 800.15” shall be replaced by “K.A.R. 47-8-9(a)(6) and (7).” (Authorized by K.S.A. 49-405; implementing K.S.A. 2018 Supp. 49-406, K.S.A. 49-407, and K.S.A. 49-429; effective, E-81-30, Oct. 8, 1980; effective May 1, 1981; amended May 1, 1985; amended May 1, 1986; amended Feb. 11, 1991; amended May 2, 1997;

amended July 31, 1998; amended Dec. 1, 2006; amended Feb. 15, 2019.)

Article 9.—PERFORMANCE STANDARDS

47-9-1. Adoption by reference. (a) The following portions of the “permanent program performance standards—general provisions,” 30 C.F.R. Part 810, as in effect on July 1, 2012, are hereby adopted by reference, except as specified in this subsection:

(1) Responsibility, 30 C.F.R. 810.4, except that subsection (a) shall be deleted; and

(2) applicability, 30 C.F.R. 810.11.

(b) The following portions of the “permanent program performance standards—coal exploration,” 30 C.F.R. Part 815, as in effect on July 1, 2012, are hereby adopted by reference:

(1) Required documents, 30 C.F.R. 815.13; and

(2) performance standards for coal exploration, 30 C.F.R. 815.15.

(c) The following portions of the “permanent program standards—surface mining activities,” 30 C.F.R. Part 816, as in effect on July 1, 2012, are hereby adopted by reference, except as specified in this subsection:

(1) Signs and markers, 30 C.F.R. 816.11. A subsection (g) shall be added to 30 C.F.R. 816.11 that reads as follows: “Increment boundary markers. As deemed necessary by the secretary or secretary’s designee to ensure the public health and safety, protect the environment, and ascertain increment boundaries, increment boundary markers shall be placed on each portion of a permit area on which a performance bond or other equivalent guarantee was or will be posted as provided by K.S.A. 49-406, and amendments thereto”;

(2) casing and sealing of drilled holes: general requirements, 30 C.F.R. 816.13;

(3) casing and sealing of drilled holes: temporary, 30 C.F.R. 816.14;

(4) casing and sealing of drilled holes: permanent, 30 C.F.R. 816.15;

(5) topsoil and subsoil, 30 C.F.R. 816.22. The first paragraph of subsection (d)(1) of 30 C.F.R. 816.22 shall be replaced by the following:

“Absent an approved schedule, topsoil and subsoil materials removed under paragraph (a) of this section shall be redistributed within 120 days following rough backfilling and grading in a manner that complies with the following.”;

(6) hydrologic-balance protection, 30 C.F.R. 816.41;

- (7) hydrologic balance: water quality standards and effluent limitations, 30 C.F.R. 816.42;
- (8) diversions, 30 C.F.R. 816.43;
- (9) hydrologic balance: sediment control measures, 30 C.F.R. 816.45;
- (10) hydrologic balance: siltation structures, 30 C.F.R. 816.46;
- (11) hydrologic balance: discharge structures, 30 C.F.R. 816.47;
- (12) impoundments, 30 C.F.R. 816.49;
- (13) postmining rehabilitation of sedimentation ponds, diversions, impoundments, and treatment facilities, 30 C.F.R. 816.56;
- (14) hydrologic balance: activities in or adjacent to perennial or intermittent streams, 30 C.F.R. 816.57, except that in the first sentence of subsection (c), the text “comply with paragraphs (b) (10)(B)(i) and (b)(24) of section 515 of the act and the regulations implementing those provisions of the act, including” shall be replaced by the following: “conduct surface coal mining operations so as to prevent, to the extent possible using the best technology currently available, additional contributions of suspended solids to streamflow, or runoff outside the permit area, but in no event shall contributions be in excess of requirements set by applicable state or federal law, minimize disturbances and adverse impacts of the operation on fish, wildlife, and related environmental values, achieve enhancement of such resources where practicable, and comply with the following:”;
- (15) coal recovery, 30 C.F.R. 816.59;
- (16) use of explosives: general requirements, 30 C.F.R. 816.61, except that subsection (c)(1) shall be replaced by the following:
- “All blasting operations within the state shall be conducted under the direction of a Kansas-certified blaster”;
- (17) use of explosives: preblasting survey, 30 C.F.R. 816.62;
- (18) use of explosives: blasting schedule, 30 C.F.R. 816.64;
- (19) use of explosives: blasting signs, warnings, and access control, 30 C.F.R. 816.66;
- (20) use of explosives: control of adverse effects, 30 C.F.R. 816.67;
- (21) use of explosives: records of blasting operations, 30 C.F.R. 816.68;
- (22) disposal of excess spoil: general requirements, 30 C.F.R. 816.71, in (h)(3)(ii) deleting the phrase “in accordance with §816.73”;
- (23) disposal of excess spoil: preexisting benches, 30 C.F.R. 816.74;
- (24) protection of underground mining, 30 C.F.R. 816.79;
- (25) coal mine waste: general requirements, 30 C.F.R. 816.81;
- (26) coal mine waste: refuse piles, 30 C.F.R. 816.83;
- (27) coal mine waste: impounding structures, 30 C.F.R. 816.84;
- (28) coal mine waste: burning and burned waste utilization, 30 C.F.R. 816.87;
- (29) disposal of noncoal mine wastes, 30 C.F.R. 816.89;
- (30) stabilization of surface areas, 30 C.F.R. 816.95;
- (31) protection of fish, wildlife, and related environmental values, 30 C.F.R. 816.97;
- (32) slides and other damage, 30 C.F.R. 816.99;
- (33) contemporaneous reclamation, 30 C.F.R. 816.100;
- (34) backfilling and grading: time and distance requirements, 30 C.F.R. 816.101. This section shall be replaced by the following text:
- “(a) Except as provided in paragraph (b) of this section, rough backfilling and grading for surface mining activities shall be completed according to one of the following schedules:
- “(1) Contour mining. Within 60 days or 1,500 linear feet following coal removal;
- “(2) area mining. Within 180 days following coal removal, and not more than four spoil ridges behind the active pit being worked, the spoil from the active pit constituting the first ridge; or
- “(3) other surface mining methods. In accordance with the schedule established by the department.
- “(b) The time allowed for rough backfilling and grading for the entire permit area or for a specific portion of the permit area may be extended by the department if the permittee demonstrates, in accordance with K.A.R. 47-3-42(a)(47), adopting by reference 30 CFR 780.18(b)(3), that additional time is necessary”;
- (35) backfilling and grading: general requirements, 30 C.F.R. 816.102, deleting subsections (k)(3)(i) and (ii);
- (36) backfilling and grading: thin overburden, 30 C.F.R. 816.104;
- (37) backfilling and grading: thick overburden, 30 C.F.R. 816.105;
- (38) backfilling and grading: previously mined areas, 30 C.F.R. 816.106;
- (39) revegetation: general requirements, 30 C.F.R. 816.111;
- (40) revegetation: timing, 30 C.F.R. 816.113;

(41) revegetation: mulching and other soil stabilizing practices, 30 C.F.R. 816.114;

(42) revegetation: standards for success, 30 C.F.R. 816.116. A subsection (i) shall be added to 816.116(c)(4), and a subsection (3) shall be added to 816.116(a):

(A) Subsection (c)(4)(i) shall read as follows: “(i) The regulatory authority may allow 90 days after the issuance of a notice of violation for the repair of any rills or gullies, or both, that may occur. If the rills or gullies, or both, are repaired using normal husbandry practices, approved by the department in consultation with the state conservationist or the state conservationist’s designated representative and the repairs are approved by the department, the period of responsibility shall not be restarted. The normal husbandry practices used to repair gullies shall be approved in advance by the United States department of interior, office of surface mining reclamation and enforcement. If the rills or gullies, or both, are not repaired and approved within 90 days or if augmented seeding, fertilization, or irrigation was utilized to do the repairs, the regulatory authority will restart the period of liability, effective from the date the repair was completed and approved by the department.”

(B) Subsection (a)(3) shall read as follows: “(3) Data being used for bond release shall be submitted to the department annually. This shall include data for the last augmented seeding, which shall start the extended liability period. The following timetable for submissions shall be followed:

“(i) The planting reports, including soil tests, shall be submitted by March 31 of the year following the year in which the soil tests were performed;

“(ii) the production and ground cover data shall be submitted within 30 days of the date that the production and ground cover were sampled. Ground cover shall include species identification. Raw field data may be submitted at this time to fulfill this requirement. The tabulated results shall then be submitted by March 31 of the following year; and

“(iii) all data shall be clearly identified as to the bond release management area that it represents.”;

(43) cessation of operations: temporary, 30 C.F.R. 816.131;

(44) cessation of operations: permanent, 30 C.F.R. 816.132;

(45) postmining land use, 30 C.F.R. 816.133, deleting subsection (d)(1) and replacing the term “Act” with “state act”;

(46) roads: general, 30 C.F.R. 816.150;

(47) primary roads, 30 C.F.R. 816.151;

(48) utility installations, 30 C.F.R. 816.180;

(49) support facilities, 30 C.F.R. 816.181; and

(50) interpretative rules related to general performance standards, 30 C.F.R. 816.200.

(d) The following portions of the “permanent program performance standards—underground mining activities,” 30 C.F.R. Part 817, as in effect on July 1, 2012, are hereby adopted by reference, except as specified in this subsection:

(1) Signs and markers, 30 C.F.R. 817.11. A subsection (g) shall be added: “(g) Increment boundary markers. Increment boundary markers shall be placed on each portion of a permit area on which a performance bond or other equivalent guarantee was or will be posted as provided by K.S.A. 49-406(h), and amendments thereto”;

(2) casing and sealing of exposed underground openings: general requirements, 30 C.F.R. 817.13;

(3) casing and sealing of underground openings: temporary, 30 C.F.R. 817.14;

(4) casing and sealing of underground openings: permanent, 30 C.F.R. 817.15;

(5) topsoil and subsoil, 30 C.F.R. 817.22;

(6) hydrologic-balance protection, 30 C.F.R. 817.41;

(7) hydrologic balance: water quality standards and effluent limitations, 30 C.F.R. 817.42;

(8) diversions, 30 C.F.R. 817.43;

(9) hydrologic balance: sediment control measures, 30 C.F.R. 817.45;

(10) hydrologic balance: siltation structures, 30 C.F.R. 817.46;

(11) hydrologic balance: discharge structures, 30 C.F.R. 817.47;

(12) impoundments, 30 C.F.R. 817.49;

(13) postmining rehabilitation of sedimentation ponds, diversions, impoundments, and treatment facilities, 30 C.F.R. 817.56;

(14) hydrologic balance: surface activities in or adjacent to perennial or intermittent streams, 30 C.F.R. 817.57, except that in the first sentence of subsection (c), the text “comply with paragraphs (b)(9)(B) and (b)(11) of section 516 of the act and the regulations implementing those provisions of the act, including” shall be replaced by the following: “conduct surface coal mining operations so as to prevent, to the extent possible using the best technology currently available, additional contributions of suspended solids to streamflow, or runoff outside the permit area, but in no event shall contributions be in excess of requirements set by applicable state or federal law, minimize disturbances and adverse impacts of the operation on

fish, wildlife, and related environmental values, achieve enhancement of such resources where practicable, and comply with the following.”;

(15) coal recovery, 30 C.F.R. 817.59;

(16) use of explosives: general requirements, 30 C.F.R. 817.61, except that subsection (c)(1) of 30 C.F.R. 817.61 shall be replaced by the following:

“All blasting operations within the state shall be conducted under the direction of a Kansas-certified blaster”;

(17) use of explosives: preblasting survey, 30 C.F.R. 817.62;

(18) use of explosives: general performance standards, 30 C.F.R. 817.64;

(19) use of explosives: blasting signs, warnings, and access control, 30 C.F.R. 817.66;

(20) use of explosives: control of adverse effects, 30 C.F.R. 817.67;

(21) use of explosives: records of blasting operations, 30 C.F.R. 817.68;

(22) disposal of excess spoil: general requirements, 30 C.F.R. 817.71, deleting the phrase “in accordance with §817.73”;

(23) disposal of excess spoil: preexisting benches, 30 C.F.R. 817.74;

(24) coal mine waste: general requirements, 30 C.F.R. 817.81;

(25) coal mine waste: refuse piles, 30 C.F.R. 817.83;

(26) coal mine waste: impounding structures, 30 C.F.R. 817.84;

(27) coal mine waste: burning and burned waste utilization, 30 C.F.R. 817.87;

(28) disposal of noncoal mine wastes, 30 C.F.R. 817.89;

(29) stabilization of surface areas, 30 C.F.R. 817.95;

(30) protection of fish, wildlife, and related environmental values, 30 C.F.R. 817.97;

(31) slides and other damage, 30 C.F.R. 817.99;

(32) contemporaneous reclamation, 30 C.F.R. 817.100;

(33) backfilling and grading: general requirements, 30 C.F.R. 817.102, deleting subsection (k)(1);

(34) backfilling and grading: previously mined areas, 30 C.F.R. 817.106;

(35) revegetation: general requirements, 30 C.F.R. 817.111;

(36) revegetation: timing, 30 C.F.R. 817.113;

(37) revegetation: mulching and other soil stabilizing practices, 30 C.F.R. 817.114;

(38) revegetation: standards for success, 30 C.F.R. 817.116. A subsection (3) shall be added

to 817.116(a). Subsection (a)(3) shall read as follows: “(3) Data being used for bond release shall be submitted to the department annually. This shall include data for the last augmented seeding, which shall start the extended liability period. The following timetable for submissions shall be followed:

“(i) The planting reports, including soil tests, shall be submitted by March 31 of the year following the year in which the soil tests were performed;

“(ii) The production and ground cover data shall be submitted within 30 days of the date that the production and ground cover were sampled. Ground cover shall include species identification. Raw field data may be submitted at this time to fulfill this requirement. The tabulated results shall then be submitted by March 31 of the following year; and

“(iii) All data shall be clearly identified as to the bond release management area that it represents.”;

(39) subsidence control, 30 C.F.R. 817.121, except that 30 C.F.R. 817.121(c)(4)(i)-(iv) shall be deleted;

(40) subsidence control: public notice, 30 C.F.R. 817.122;

(41) cessation of operations: temporary, 30 C.F.R. 817.131;

(42) cessation of operations: permanent, 30 C.F.R. 817.132;

(43) postmining land use, 30 C.F.R. 817.133, deleting subsection (d)(1) and replacing the term “Act” with “state act”;

(44) roads: general, 30 C.F.R. 817.150;

(45) primary roads, 30 C.F.R. 817.151;

(46) utility installations, 30 C.F.R. 817.180;

(47) support facilities, 30 C.F.R. 817.181; and

(48) interpretative rules related to general performance standards, 30 C.F.R. 817.200. The phrase “Office of Surface Mining Reclamation and Enforcement” shall be replaced by “Kansas department of health and environment.”

(e) The following portions of the “special permanent program performance standards—auger mining,” 30 C.F.R. Part 819, as in effect on July 1, 2012, are hereby adopted by reference:

(1) Auger mining: general, 30 C.F.R. 819.11;

(2) auger mining: coal recovery, 30 C.F.R. 819.13;

(3) auger mining: hydrologic balance, 30 C.F.R. 819.15;

(4) auger mining: subsidence protection, 30 C.F.R. 819.17;

(5) auger mining: backfilling and grading, 30 C.F.R. 819.19; and

(6) auger mining: protection of underground mining, 30 C.F.R. 819.21.

(f) The following portions of the “special permanent program performance standards—operations on prime farmland,” 30 C.F.R. Part 823, as in effect on July 1, 2012, are hereby adopted by reference, except as specified in this subsection:

(1) Responsibilities, 30 C.F.R. 823.4;

(2) applicability, 30 C.F.R. 823.11, deleting subsection (a);

(3) soil removal and stockpiling, 30 C.F.R. 823.12;

(4) soil replacement, 30 C.F.R. 823.14; and

(5) revegetation and restoration of soil productivity, 30 C.F.R. 823.15.

(g) The following portions of the “permanent program performance standards—coal preparation plants not located within the permit area of a mine,” 30 C.F.R. Part 827, as in effect on July 1, 2012, are hereby adopted by reference:

(1) General requirements, 30 C.F.R. 827.11;

(2) coal preparation plants: performance standards, 30 C.F.R. 827.12; and

(3) coal preparation plants: interim performance standards, 30 C.F.R. 827.13.

(h) The following portions of the “special permanent program performance standards—in situ processing,” 30 C.F.R. Part 828, as in effect on July 1, 2012, are hereby adopted by reference:

(1) In situ processing: performance standards, 30 C.F.R. 828.11; and

(2) in situ processing: monitoring, 30 C.F.R. 828.12.

(i) The following phrases and citations shall be replaced with the phrases and citations specified in this subsection wherever the phrases and citations appear in the text of the federal regulations adopted by reference in this regulation:

(1)(A) “Director” shall be replaced by “secretary.”

(B) “Every state program,” “every regulatory program,” and “the applicable regulatory program” shall be replaced by “the regulatory program.”

(C) “Subchapter B of this chapter” shall be replaced by “K.A.R. 47-9-4.”

(D) “Subchapter J of this chapter” shall be replaced by “article 8 of these regulations.”

(E) “This chapter,” “subchapter,” and “this section” shall be replaced by “these regulations.”

(F) “This part” shall be replaced by “K.A.R. 47-9-1.”

(G) “This title” shall be replaced by “the 30 CFR.”

(2)(A) “Part 815” shall be replaced by “K.A.R. 47-9-1(b).”

(B) “Part 816 of this chapter” shall be replaced by “K.A.R. 47-9-1(c).”

(C) “Part 816 or part 817” shall be replaced by “K.A.R. 47-9-1(c) or (d).”

(D) “Part 817,” “part 817 of this chapter,” and “30 CFR 817” shall be replaced by “K.A.R. 47-9-1(d).”

(E) “Part 823 of this chapter” shall be replaced by “K.A.R. 47-9-1(f).”

(F) “Parts 816 and 817” shall be replaced by “K.A.R. 47-9-1(c) and (d).”

(G) “Parts 818 through 828” shall be replaced by “K.A.R. 47-9-1(e) through (h).”

(H) “Section 816.150” shall be replaced by “K.A.R. 47-9-1(c)(46).”

(I) “Sections 817.61-817.68” shall be replaced by “K.A.R. 47-9-1(d)(16)-(21).”

(3)(A) “30 CFR part 773 and 775” shall be replaced by “K.A.R. 47-3-42(a)(2) through (20), and K.S.A. 49-407(d), 49-416a, 49-422a, and amendments thereto, and article 4 of these regulations.”

(B) “30 CFR 784.15(a)(2)” shall be replaced by “K.A.R. 47-10-1(a)(2)(F).”

(C) “30 CFR 785.22” shall be replaced by “K.A.R. 47-3-42(a)(65).”

(D) “30 CFR 817.133,” “§817.133,” and “30 CFR 817.133(a)” shall be replaced by “K.A.R. 47-9-1(d)(43).”

(4)(A) “§701.5 of this chapter” shall be replaced by “K.A.R. 47-2-75(b).”

(B) “§732.17 of this chapter” shall be replaced by “30 C.F.R. 732.17.”

(C) “§773.6(d) of this chapter” shall be replaced by “K.A.R. 47-3-42(a)(2).”

(D) “§773.15(m) of this chapter” shall be replaced by “K.A.R. 47-3-42(a)(11).”

(E) “§774.13 of this chapter” and “30 CFR 774.13” shall be replaced by “K.A.R. 47-6-2.”

(F) “§780.13 of this chapter” shall be replaced by “K.A.R. 47-3-42(a)(43).”

(G) “§780.21(h) of this chapter,” “§780.21(i) of this chapter,” and “§780.21(j) of this chapter” shall be replaced by “K.A.R. 47-3-42(a)(48).”

(H) “§780.25 of this chapter,” “§780.25(a) of this chapter,” and “§780.25(c)(3)” shall be replaced by “K.A.R. 47-3-42(a)(51).”

(I) “§780.28(d) of this chapter or §816.43(b)(1) of this part” shall be replaced by “K.A.R. 47-3-42(a)(53) or K.A.R. 47-9-1(c)(8).”

(J) “§780.28(e) of this chapter” shall be replaced by “K.A.R. 47-3-42(a)(53).”

(K) “§780.35(c) of this chapter” shall be replaced by “K.A.R. 47-3-42(c)(57).”

(L) “§780.37(c) of this chapter” shall be replaced by “K.A.R. 47-3-42(a)(58).”

(M) “§784.14(g) of this chapter,” “§784.14(h) of this chapter,” and “§784.14(i) of this chapter” shall be replaced by “K.A.R. 47-10-1(a)(2)(E).”

(N) “§784.16(a) of this chapter” and “§784.16(c)(3)” shall be replaced by “K.A.R. 47-10-1(a)(2)(G).”

(O) “§784.19 of this chapter” shall be replaced by “K.A.R. 47-10-1(a)(2)(J).”

(P) “§784.20 of this chapter” and “§784.20(a) of this chapter” shall be replaced by “K.A.R. 47-10-1(a)(2)(K).”

(Q) “§784.24(c)” shall be replaced by “K.A.R. 47-10-1(a)(2)(O).”

(R) “§784.25 of this chapter” shall be replaced by “K.A.R. 47-10-1(a)(2)(P).”

(S) “§784.28(d) of this chapter and §817.43(b)(1) of this part” shall be replaced by “K.A.R. 47-10-1(a)(2)(R) and K.A.R. 47-9-1(d)(8).”

(T) “§784.28(e) of this chapter” shall be replaced by “K.A.R. 47-10-1(a)(2)(R).”

(U) “§785.17 and subchapter J of this chapter” shall be replaced by “K.A.R. 47-3-42(a)(61) and article 8 of these regulations.”

(V) “§785.17(a) of this chapter” shall be replaced by “K.A.R. 47-3-42(a)(61).”

(W) “§785.18 of this chapter” shall be replaced by “K.A.R. 47-3-42(a)(62).”

(JJJJJ) “§§817.22 and 817.111 through 817.116 of this chapter” shall be replaced by “K.A.R. 47-9-1(d)(5) and (35) through (38).”

(KKKKK) “§§817.41 through 817.43 and 817.57 of this chapter” shall be replaced by “K.A.R. 47-9-1(d)(6) through (8) and (14).”

(LLLLL) “§§817.49 and 817.56” shall be replaced by “K.A.R. 47-9-1(d)(12) and (13).”

(MMMMM) “§§817.71 through 817.74” and “§§817.71 through 817.74 of this chapter” shall be replaced by “K.A.R. 47-9-1(d)(22) and (23).”

(NNNNN) “§§817.81 and 817.83” shall be replaced by “K.A.R. 47-9-1(d)(24) and (25).”

(OOOOO) “§§817.81(a), 817.83(a), and 817.84 of this part” shall be replaced by “K.A.R. 47-9-1(d)(24), (25), and (26).”

(PPPPP) “§§817.102 through 817.107 of this chapter” shall be replaced by “K.A.R. 47-9-1(d)(33) and (34).”

(QQQQQ) “§§817.111, 817.113, 817.114, and 817.116 of this chapter” shall be replaced by “K.A.R. 47-9-1(d)(35), (36), (37), and (38).”

(RRRRR) “§§817.111 through 817.116 of this chapter” and “§§817.111 through 817.116” shall be replaced by “K.A.R. 47-9-1(d)(35) through (38).”

(SSSSS) “§§817.150, 817.151, and 817.181 of this part” shall be replaced by “K.A.R. 47-9-1(d)(44), (45), and (47).” (Authorized by K.S.A. 49-405; implementing K.S.A. 49-405, K.S.A. 2018 Supp. 49-408, and K.S.A. 49-409, 49-411, 49-413, 49-415, and 49-429; effective May 1, 1980; amended, E-81-30, Oct. 8, 1980; amended May 1, 1981; amended May 1, 1985; amended May 1, 1986; amended May 1, 1988; amended Feb. 11, 1991; amended May 2, 1997; amended July 31, 1998; amended Dec. 1, 2006; amended Feb. 15, 2019.)

47-9-4. Interim performance standards; adoption by reference. (a) The following regulations as in effect on July 1, 2012 are adopted by reference, except as specified in this regulation:

- (1) Definitions, 30 C.F.R. 710.5;
- (2) applicability, 30 C.F.R. 710.11(a), deleting subsection (a)(1) and the phrase “except as provided in §710.12 of this part”;
- (3) signs and markers, 30 C.F.R. 715.12;
- (4) postmining use of land, 30 C.F.R. 715.13, deleting the second sentence in (d);
- (5) backfilling and grading, 30 C.F.R. 715.14, deleting subsections (b)(3) and (c);
- (6) disposal of excess spoil, 30 C.F.R. 715.15, deleting subsection (c);
- (7) topsoil handling, 30 C.F.R. 715.16;
- (8) protection of the hydrologic system, 30 C.F.R. 715.17, deleting subsection (j);
- (9) dams constructed of or impounding waste material, 30 C.F.R. 715.18;

- (10) revegetation, 30 C.F.R. 715.20;
- (11) interpretative rules related to general performance standards, 30 C.F.R. 715.200; and
- (12) prime farmland, 30 C.F.R. 716.7.

(b) The following phrases and citations shall be replaced with the phrases and citations specified in this subsection wherever the phrases and citations appear in the federal regulations adopted by reference in this regulation:

- (1)(A) “Act” shall be replaced by “state act.”
- (B) “Subchapter B of this chapter” shall be replaced by “K.A.R. 47-9-4.”
- (C) “Subchapter K of this chapter” shall be replaced by “K.A.R. 47-9-1.”
- (D) “This part,” “§716.2 of this chapter,” “part 715 of this chapter,” “this section,” and “this chapter” shall be replaced by “these regulations.”
- (2)(A) “§715.12” shall be replaced by “K.A.R. 47-9-4(a)(3).”
- (B) “§715.13” shall be replaced by “K.A.R. 47-9-4(a)(4).”
- (C) “§715.14,” “§715.14(b)(2),” and “§715.14(j)” shall be replaced by “K.A.R. 47-9-4(a)(5).”
- (D) “§715.15 of this part” shall be replaced by “K.A.R. 47-9-4(a)(6).”
- (E) “§715.16,” “§715.16(c),” “§715.16(a)(4),” and “30 CFR 715.16(a)(4)(i)” shall be replaced by “K.A.R. 47-9-4(a)(7).”
- (F) “§715.17,” “§715.17 of this part,” “§715.17(a),” and “§715.17(c)” shall be replaced by “K.A.R. 47-9-4(a)(8).”
- (G) “§715.18” shall be replaced by “K.A.R. 47-9-4(a)(9).”
- (H) “§715.20” and “§715.20(g)” shall be replaced by “K.A.R. 47-9-4(a)(10).”
- (I) “§716.7” shall be replaced by “K.A.R. 47-9-4(a)(12).”
- (J) “§§715.13 and 715.14” shall be replaced by “K.A.R. 47-9-4(a)(4) and (5).”
- (K) “§§715.14 and 715.20” shall be replaced by “K.A.R. 47-9-4(a)(5) and (10).”
- (L) “§§715.14, 715.16, and 715.20” shall be replaced by “K.A.R. 47-9-4(a)(5), (7), and (10).”
- (c) Each operator shall comply with the interim performance standards in an interim permit area, unless the secretary has approved, in writing, that operator’s request to adhere to an applicable permanent program performance standard or other applicable substantive regulation. (Authorized by and implementing K.S.A. 49-405; effective May 1, 1986; amended Feb. 11, 1991; amended May 2, 1997; amended Dec. 1, 2006; amended Feb. 15, 2019.)

Article 10.—UNDERGROUND MINING

47-10-1. Adoption by reference; underground mining. (a) The following federal regulations, as in effect on July 1, 2012, are adopted by reference, except as otherwise specified in this regulation:

- (1) Underground mining permit applications—minimum requirements for information on environmental resources, 30 C.F.R. Part 783:
 - (A) Responsibilities, 30 C.F.R. 783.4;
 - (B) general requirements, 30 C.F.R. 783.11;
 - (C) general environmental resources information, 30 C.F.R. 783.12;
 - (D) climatological information, 30 C.F.R. 783.18;
 - (E) vegetation information, 30 C.F.R. 783.19;
 - (F) soil resources information, 30 C.F.R. 783.21;
 - (G) maps: general requirements, 30 C.F.R. 783.24; and
 - (H) cross sections, maps, and plans, 30 C.F.R. 783.25;
- (2) underground mining permit applications—minimum requirements for reclamation and operation plan, 30 C.F.R. Part 784:
 - (A) Responsibilities, 30 C.F.R. 784.4;
 - (B) operation plan: general requirements, 30 C.F.R. 784.11;
 - (C) operation plan: existing structures, 30 C.F.R. 784.12;
 - (D) reclamation plan: general requirements, 30 C.F.R. 784.13;
 - (E) hydrologic information, 30 C.F.R. 784.14;
 - (F) reclamation plan: land use information, 30 C.F.R. 784.15;
 - (G) reclamation plan: siltation structures, impoundments, and refuse piles, 30 C.F.R. 784.16;
 - (H) protection of publicly owned parks and historic places, 30 C.F.R. 784.17;
 - (I) relocation or use of public roads, 30 C.F.R. 784.18;
 - (J) disposal of excess spoil, 30 C.F.R. 784.19;
 - (K) subsidence control plan, 30 C.F.R. 784.20, deleting the phrase “as described in §817.121(c) (4) of this chapter”;
 - (L) fish and wildlife information, 30 C.F.R. 784.21;
 - (M) geologic information, 30 C.F.R. 784.22;
 - (N) operation plan: maps and plans, 30 C.F.R. 784.23;
 - (O) road systems, 30 C.F.R. 784.24;
 - (P) return of coal processing waste to abandoned underground workings, 30 C.F.R. 784.25;

(Q) air pollution control plan, 30 C.F.R. 784.26;
 (R) surface activities in or adjacent to perennial or intermittent streams, 30 C.F.R. 784.28;
 (S) diversions, 30 C.F.R. 784.29;
 (T) support facilities, 30 C.F.R. 784.30; and
 (U) interpretive rules related to general performance standards, 30 C.F.R. 784.200, except that “office of surface mining reclamation and enforcement” shall be replaced by “Kansas department of health and environment.”

(b) The following phrases and citations shall be replaced with the phrases and citations specified in this subsection wherever the phrases and citations appear in the text of the federal regulations adopted by reference in this regulation:

(1)(A) “Paragraphs (b)(2) through (b)(4) of §817.57 of this chapter,” “paragraphs (b) and (c) of §817.57 of this chapter,” “§817.57(a)(1) of this chapter,” “§817.57(a)(2) of this chapter,” and “§817.57(a)(2) of this chapter” shall be replaced by “K.A.R. 47-9-1(d)(14).”

(B) “Subchapter B (Interim Program Standards) of this chapter” shall be replaced by “K.A.R. 47-9-4.”

(C) “Subchapter J of this chapter” shall be replaced by “article 8 of these regulations.”

(D) “Subchapter K of this chapter” and “subchapter K (Permanent Program Standards) of this chapter” shall be replaced by “K.A.R. 47-9-1.”

(E) “This chapter,” “this section,” “subchapter,” “subchapter G of this chapter,” and “this part” shall be replaced by “these regulations.”

(F) “This title” shall be replaced by “the 30 CFR.”

(2)(A) “Part 784 of this chapter” shall be replaced by “K.A.R. 47-10-1(a)(2).”

(B) “Part 817 of this chapter” shall be replaced by “K.A.R. 47-9-1(d).”

(C) “Sections 515 and 516 of the Act” shall be replaced by “K.S.A. 49-405a, 49-408 through 49-413, and 49-429.”

(3)(A) “30 CFR Parts 773 and 775” shall be replaced by “K.A.R. 47-3-42(a)(2) through (20), K.A.R. 47-6-6, K.S.A. 49-407(d), K.S.A. 49-416a, and K.S.A. 49-422a, and amendments thereto, and article 4 of these regulations.”

(B) “30 CFR 783.24 and 783.25” shall be replaced by “K.A.R. 47-10-1(a)(1)(G) and (H).”

(C) “30 CFR 784.13 through 784.26” shall be replaced by “K.A.R. 47-10-1(a)(2)(D) through (Q).”

(D) “30 CFR 784.16 of this part” shall be replaced by “K.A.R. 47-10-1(a)(2)(G).”

(E) “30 CFR 784.19 of this part” shall be replaced by “K.A.R. 47-10-1(a)(2)(J).”

(F) “30 CFR 784.21” shall be replaced by “K.A.R. 47-10-1(a)(2)(L).”

(G) “30 CFR 817.13-817.15” shall be replaced by “K.A.R. 47-9-1(d)(2) and (4).”

(H) “30 CFR 817.22,” “§817.22 of the chapter,” and “§817.22(b) of this chapter” shall be replaced by “K.A.R. 47-9-1(d)(5).”

(I) “30 CFR 817.59” and “§817.59 of this chapter” shall be replaced by “K.A.R. 47-9-1(d)(15).”

(J) “30 CFR 817.81(f)” shall be replaced by “K.A.R. 47-9-1(d)(24).”

(K) “30 CFR 817.89 and 817.102” shall be replaced by “K.A.R. 47-9-1(d)(28) and (33).”

(L) “30 CFR 817.95” shall be replaced by “K.A.R. 47-9-1(d)(29).”

(M) “30 CFR 817.102 through 817.107” shall be replaced by “K.A.R. 47-9-1(d)(33) and (34).”

(N) “30 CFR 817.111 through 817.116” shall be replaced by “K.A.R. 47-9-1(d)(35) through (38).”

(O) “30 CFR 817.116” shall be replaced by “K.A.R. 47-9-1(d)(38).”

(4)(A) “§701.5 of this chapter” shall be replaced by “K.A.R. 47-2-75(b).”

(B) “§761.14 of this chapter” shall be replaced by “K.A.R. 47-12-4(a)(4).”

(C) “§761.16 of this chapter” shall be replaced by “K.A.R. 47-12-4(a)(6).”

(D) “§761.17(d) of this chapter” shall be replaced by “K.A.R. 47-12-4(a)(7).”

(E) “§774.13” shall be replaced by “K.A.R. 47-6-2.”

(F) “§783.25 of this chapter” shall be replaced by “K.A.R. 47-10-1(a)(1)(H).”

(G) “§784.15” and “§784.15(a)(2)” shall be replaced by “K.A.R. 47-10-1(a)(2)(F).”

(H) “§784.20” shall be replaced by “K.A.R. 47-10-1(a)(2)(K).”

(I) “§784.29 of this part and §817.43 of this chapter” shall be replaced by “K.A.R. 47-10-1(a)(2)(S) and K.A.R. 47-9-1(d)(8).”

(J) “§785.21 of this chapter” shall be replaced by “K.A.R. 47-3-42(a)(64).”

(K) “§817.43 of this chapter” shall be replaced by “K.A.R. 47-9-1(d)(8).”

(L) “§817.46 of this chapter” shall be replaced by “K.A.R. 47-9-1(d)(10).”

(M) “§817.49 of this chapter,” “paragraphs (a) and (c) of §817.49 of this chapter,” and “§817.49(a)(4)(ii) of this chapter” shall be replaced by “K.A.R. 47-9-1(d)(12).”

(N) “§817.71(d) of this chapter” shall be replaced by “K.A.R. 47-9-1(d)(22).”

(O) “§817.74 of this chapter” shall be replaced by “K.A.R. 47-9-1(d)(23).”

(P) “§817.97 of this chapter” shall be replaced by “K.A.R. 47-9-1(d)(30).”

(Q) “§817.121(c) of this chapter” and “§817.121 of this chapter” shall be replaced by “K.A.R. 47-9-1(d)(39).”

(R) “§817.133,” “30 CFR 817.133,” and “§817.133(a)” shall be replaced by “K.A.R. 47-9-1(d)(43).”

(S) “§817.150(d)(1) of this chapter” shall be replaced by “K.A.R. 47-9-1(d)(44).”

(T) “§817.151(c)(2) of this chapter,” “§817.151(d)(5) of this chapter,” “§817.151(d)(6) of this chapter,” and “§817.151(b) of this chapter” shall be replaced by “K.A.R. 47-9-1(d)(45).”

(U) “§817.181 of this chapter” shall be replaced by “K.A.R. 47-9-1(d)(47).”

(V) “§§784.14(g) and 817.41(d)(1) of this chapter” shall be replaced by “K.A.R. 47-10-1(a)(2)(E) and K.A.R. 47-9-1(d)(6).”

(W) “§§784.16(a)(2), 784.16(a)(3), 784.19, 817.73(c), 817.74(c), and 817.81(c) of this chapter” shall be replaced by “K.A.R. 47-10-1(a)(2)(G) and (J), and K.A.R. 47-9-1(d)(22), (23), and (24).”

(X) “§§784.21(b) and 817.97(a) of this chapter” shall be replaced by “K.A.R. 47-10-1 (a)(2)(L) and K.A.R. 47-9-1(d)(30).”

(Y) “§§817.41 to 817.43” shall be replaced by “K.A.R. 47-9-1(d)(6) through (8).”

(Z) “§§817.41(j) and 817.121(c) of this chapter” shall be replaced by “K.A.R. 47-9-1(d)(6) and (39).”

(AA) “§§817.71 through 817.74” shall be replaced by “K.A.R. 47-9-1(d)(22) and (23).”

(BB) “§§817.81 and 817.83 of this chapter” shall be replaced by “K.A.R. 47-9-1(d)(24) and (25).”

(CC) “§§817.81 and 817.84 of this chapter” shall be replaced by “K.A.R. 47-9-1(d)(24) and (26).”

(DD) “§§817.81 through 817.84 of this chapter” and “30 CFR 817.81 through 817.84” shall be replaced by “K.A.R. 47-9-1(d)(24) through (26).” (Authorized by K.S.A. 49-405; implementing K.S.A. 49-429; effective May 1, 1980; amended, E-81-30, Oct. 8, 1980; amended May 1, 1981; amended May 1, 1986; amended May 1, 1988; amended Feb. 11, 1991; amended May 2, 1997; amended Dec. 1, 2006; amended Feb. 15, 2019.)

Article 11.—SMALL OPERATOR ASSISTANCE PROGRAM

47-11-8. Small operator assistance program; adoption by reference. (a) The following federal regulations, as in effect on July 1, 2012, are

adopted by reference, except as otherwise specified in this regulation:

- (1) Definitions, 30 C.F.R. 795.3;
- (2) eligibility for assistance, 30 C.F.R. 795.6, deleting subsection (b);
- (3) filing for assistance, 30 C.F.R. 795.7;
- (4) application approval and notice, 30 C.F.R. 795.8;
- (5) program services and data requirements, 30 C.F.R. 795.9;
- (6) qualified laboratories, 30 C.F.R. 795.10;
- (7) assistance funding, 30 C.F.R. 795.11; and
- (8) applicant liability, 30 C.F.R. 795.12.

(b) The following phrases and citations shall be replaced with the phrases and citations specified in this subsection wherever the phrases and citations appear in the text of the federal regulations adopted by reference in this regulation:

- (1)(A) “Act” shall be replaced by “state act.”
- (B) “This chapter” and “this section” shall be replaced by “these regulations.”
- (C) “This part” shall be replaced by “K.A.R. 47-11-8.”
- (2)(A) “§773.6(d) of this chapter” shall be replaced by “K.A.R. 47-3-42 (a)(2).”
- (B) “§780.13” shall be replaced by “K.A.R. 47-3-42(a)(43).”
- (C) “§795.6” shall be replaced by “K.A.R. 47-11-8(a)(2).”
- (D) “§795.9” and “§795.9(b)” shall be replaced by “K.A.R. 47-11-8(a)(5).”
- (E) “§795.10” shall be replaced by “K.A.R. 47-11-8(a)(6).”
- (F) “§§779.12(b) and 783.12(b) and §§780.31 and 784.17” shall be replaced by “K.A.R. 47-3-42(a)(34) and K.A.R. 47-10-1(a)(1)(C) and K.A.R. 47-3-42(a)(55) and K.A.R. 47-10-1(a)(2)(H).”
- (G) “§§779.25 and 783.25” shall be replaced by “K.A.R. 47-3-42(a)(39) and K.A.R. 47-10-1(a)(1)(H).”
- (H) “§§780.16 and 784.21” shall be replaced by “K.A.R. 47-3-42(a)(46) and K.A.R. 47-10-1(a)(2)(L).”
- (I) “§§780.21, 780.22, 784.14, and 784.22” shall be replaced by “K.A.R. 47-3-42(a)(48) and (49), and K.A.R. 47-10-1(a)(2)(E) and (M).”
- (J) “§§780.21(f), 784.14(e)” shall be replaced by “K.A.R. 47-3-42(a)(48) and K.A.R. 47-10-1(a)(2)(E).”
- (K) “§§780.22(b) and 784.22(b)” shall be replaced by “K.A.R. 47-3-42(a)(49) and K.A.R. 47-10-1(a)(2)(M).” (Authorized by K.S.A. 49-405; implementing K.S.A. 2018 Supp. 49-406; effec-

tive, E-81-30, Oct. 8, 1980; effective May 1, 1981; amended May 1, 1986; amended Feb. 11, 1991; amended May 2, 1997; amended Dec. 1, 2006; amended Feb. 15, 2019.)

Article 12.—LANDS UNSUITABLE FOR SURFACE MINING

47-12-4. Lands unsuitable for surface mining; adoption by reference. (a) The following federal regulations, as in effect on July 1, 2012, are adopted by reference, except as otherwise specified in this regulation:

(1) Definitions, 30 C.F.R. 761.5, except that the statement “*we, us, and our* refer to the office of surface mining reclamation and enforcement” shall be replaced by “*‘we,’ ‘us,’ and ‘our’* refer to the Kansas department of health and environment” and the phrase “or its State program counterpart” shall be deleted;

(2) areas where surface coal mining operations are prohibited or limited, 30 C.F.R. 761.11, deleting subsection (b);

(3) exception for existing operations, 30 C.F.R. 761.12, deleting subsection (b);

(4) procedures for relocating or closing a public road or waiving the prohibition on surface coal mining operations within the buffer zone of a public road, 30 C.F.R. 761.14;

(5) procedures for waiving the prohibition on surface coal mining operations within the buffer zone of an occupied dwelling, 30 C.F.R. 761.15;

(6) submission and processing of requests for valid existing rights determinations, 30 C.F.R. 761.16;

(7) regulatory authority obligations at time of permit application review, 30 C.F.R. 761.17;

(8) interpretive rule related to subsidence due to underground coal mining in areas designated by act of congress, 30 C.F.R. 761.200;

(9) definitions, 30 C.F.R. 762.5;

(10) criteria for designating lands as unsuitable, 30 C.F.R. 762.11;

(11) additional criteria, 30 C.F.R. 762.12. “Secretary” shall mean the “secretary of the United States department of interior” and “subchapter C of this chapter” shall mean “30 C.F.R. Parts 730, 731, 732, 733, 735, and 736”;

(12) land exempt from designation as unsuitable for surface coal mining operations, 30 C.F.R. 762.13;

(13) applicability to lands designated as unsuitable by congress, 30 C.F.R. 762.14;

(14) exploration on land designated as unsuitable for surface coal mining operations, 30 C.F.R. 762.15;

(15) petitions, 30 C.F.R. 764.13;

(16) initial processing, recordkeeping, and notification requirements, 30 C.F.R. 764.15;

(17) hearing requirements, 30 C.F.R. 764.17;

(18) decision, 30 C.F.R. 764.19;

(19) data base and inventory system requirements, 30 C.F.R. 764.21;

(20) public information, 30 C.F.R. 764.23; and

(21) regulatory authority responsibility for implementation, 30 C.F.R. 764.25.

(b) The following phrases and citations shall be replaced with the phrases and citations specified in this subsection wherever the phrases and citations appear in the text of the federal regulations adopted by reference in this regulation:

(1)(A) “Act” shall be replaced by “state act.”

(B) “Federal Register” shall be replaced by “Kansas Register.”

(C) “Subchapter B of this chapter” shall be replaced by “K.A.R. 47-9-4.”

(D) “Subchapter G of this chapter” shall be replaced by “K.A.R. 47-3-42, K.A.R. 47-6-2, K.A.R. 47-6-3, K.A.R. 47-6-4, and K.A.R. 47-7-2.”

(E) “This chapter” shall be replaced by “these regulations.”

(F) “This part” and “this subchapter” shall be replaced by “K.A.R. 47-12-4.”

(2)(A) “Part 761, 762, or 764 of this chapter” shall be replaced by “K.A.R. 47-12-4.”

(B) “Part 772 of this chapter” shall be replaced by “K.A.R. 47-7-2.”

(C) “Section 522 of the Act” and “section 522(e) of the Act” shall be replaced by “K.S.A. 49-405b, and amendments thereto.”

(D) “Section 526(e) of the Act and §775.13 of this chapter” shall be replaced by “K.S.A. 49-422a and K.S.A. 49-426, and amendments thereto.”

(E) “Section 701(28) of the act” shall be replaced by “K.S.A. 49-403(r), and amendments thereto.”

(F) “Section 701(28) of the Act and §700.5 of this chapter” shall be replaced by “K.S.A. 49-403(r), and amendments thereto, and K.A.R. 47-2-75(a).”

(G) “Parts 764 and 769 of this chapter” shall be replaced by “K.A.R. 47-12-4(a)(15) through (21).”

(H) “Sections 522(a)(2) and (3) of the Act” shall be replaced by “K.S.A. 49-405b(a)(1) and (2), and amendments thereto.”

(3)(A) “30 U.S.C. 1272(e) and §761.11” shall be replaced by “K.S.A. 49-405b and 49-406(f), and amendments thereto, and K.A.R. 47-12-4(a)(2).”

(B) “30 U.S.C. 1272(e) or §761.11” shall be replaced by “K.S.A. 49-405b and 49-406(f), and amendments thereto, or K.A.R. 47-12-4(a)(2).”

(4)(A) “§700.5 of this chapter” shall be replaced by “K.A.R. 47-2-75(a).”

(B) “§761.5,” “paragraph (a) of the definition of valid existing rights in §761.5,” “paragraph (b) of the definition of valid existing rights in §761.5,” “paragraph (b)(1) of the definition of valid existing rights in §761.5,” “paragraph (c)(2) of the definition of valid existing rights in §761.5,” “paragraphs (a), (c)(1) and (c)(2) of the definition of valid existing rights in §761.5,” “paragraphs (b), (c)(1) and (c)(2) of the definition of valid existing rights in §761.5,” and “paragraphs (c)(1) through (c)(3) of the definition of valid existing rights in §761.5” shall be replaced by “the definition of valid existing rights in K.A.R. 47-12-4(a)(1).”

(C) “§761.11,” “§761.11 of this chapter,” “§761.11(d)(1),” “§761.11(e)(2),” “§761.11(a) or (b),” “§761.11(c),” “§761.11(a),” and “§761.11(f) or (g)” shall be replaced by “K.A.R. 47-12-4(a)(2).”

(D) “§761.11 and 30 U.S.C. 1272(e)” shall be replaced by “K.A.R. 47-12-4(a)(2) and K.S.A. 49-405b and 49-406(f), and amendments thereto.”

(E) “§761.12” shall be replaced by “K.A.R. 47-12-4(a)(3).”

(F) “§761.14” shall be replaced by “K.A.R. 47-12-4(a)(4).”

(G) “§761.15” shall be replaced by “K.A.R. 47-12-4(a)(5).”

(H) “§761.16” shall be replaced by “K.A.R. 47-12-4(a)(6).”

(I) “§761.17(d)” shall be replaced by “K.A.R. 47-12-4(a)(7).”

(J) “§762.11(b) of this chapter,” “§762.11(a) of this chapter,” and “§762.11 of this chapter” shall be replaced by “K.A.R. 47-12-4(a)(10).”

(K) “§764.13(b) or (c)” and “§764.13(a)” shall be replaced by “K.A.R. 47-12-4(a)(15).”

(L) “§764.17” and “§764.17(e)” shall be replaced by “K.A.R. 47-12-4(a)(17).”

(M) “§764.21” shall be replaced by “K.A.R. 47-12-4(a)(19).”

(N) “§773.13(d) of this chapter” shall be replaced by “K.A.R. 47-3-42(a)(9).”

(O) “§779.24(c) or §783.24(c) of this chapter” shall be replaced by “K.A.R. 47-3-42(a)(38) or K.A.R. 47-10-1(a)(1)(G).”

(P) “§840.14 or §842.16 of this chapter” shall be replaced by “K.A.R. 47-15-1a(a)(2).”

(Q) “§§761.13 through 761.15” shall be replaced by “K.A.R. 47-12-4(a)(4) and (5).”

(R) “§§775.11 and 775.13 of this chapter” shall be replaced by “K.S.A. 49-407(d), K.S.A. 49-416a, K.S.A. 49-422a, and amendments thereto, and article 4 of these regulations.” (Authorized by K.S.A. 49-405; implementing K.S.A. 49-405b, K.S.A. 2018 Supp. 49-422a, and K.S.A. 49-426; effective, E-81-30, Oct. 8, 1980; effective May 1, 1981; amended May 1, 1986; amended May 1, 1988; amended Feb. 11, 1991; amended May 2, 1997; amended Dec. 1, 2006; amended Feb. 15, 2019.)

Article 13.—TRAINING, CERTIFICATION, AND RESPONSIBILITIES OF BLASTERS AND OPERATORS

47-13-4. Training and certification of blasters; adoption by reference. (a) The following portions of the “permanent regulatory program requirements—standards for certification of blasters,” 30 C.F.R. part 850, as in effect on July 1, 2012, are hereby adopted by reference, except as specified in this regulation:

(1) Definition, 30 C.F.R. 850.5;

(2) training, 30 C.F.R. 850.13;

(3) examination, 30 C.F.R. 850.14, except that for the purposes of this section only, the term “regulatory authority” shall be replaced by “secretary-approved blaster training program director”; and

(4) certification, 30 C.F.R. 850.15, except that for the purposes of 30 C.F.R. 850.15(a) only, “regulatory authority” shall be replaced by “state fire marshal.”

(b) The following phrase and citation shall be replaced with the phrase and citation specified in this subsection wherever the phrase and citation appear in the text of the federal regulations adopted by reference in this regulation:

(1) “This part” shall be replaced by “these regulations.”

(2) “§850.13(b)” shall be replaced by “K.A.R. 47-13-4(a)(2).”

(c) The term “secretary-approved blaster training program director” shall mean the person who is in charge of a given blaster training program that has been specifically approved by the secretary as being in accordance with the state act, these regulations, and the state program. (Authorized by and implementing K.S.A. 49-405 and 49-405a; effective May 1, 1985; amended Feb. 11, 1991; amended May 2, 1997; amended Dec. 1, 2006; amended Feb. 15, 2019.)

Article 14.—EMPLOYEE FINANCIAL INTERESTS

47-14-7. Employee financial interest; adoption by reference. (a) The following federal regulations, as in effect on July 1, 2012, are adopted by reference, except as otherwise specified in this regulation:

(1) Responsibility, 30 C.F.R. 705.4(a) and (c), deleting subsection (b);

(2) penalties, 30 C.F.R. 705.6(b), deleting subsection (a);

(3) who shall file, 30 C.F.R. 705.11(a), (b), (c), and (d), deleting subsection (e);

(4) when to file, 30 C.F.R. 705.13;

(5) where to file, 30 C.F.R. 705.15;

(6) what to report, 30 C.F.R. 705.17;

(7) gifts and gratuities, 30 C.F.R. 705.18;

(8) resolving prohibited interests, 30 C.F.R. 705.19(a), deleting subsection (b); and

(9) appeals procedures, 30 C.F.R. 705.21.

(b) The following phrases and citations shall be replaced with the phrases and citations specified in this subsection wherever the phrases and citations appear in the text of the federal regulations adopted by reference in this regulation:

(1)(A) “Act” shall be replaced by the term “state act,” except in 30 C.F.R. 705.6(b), where the term “Act” shall mean “the surface mining control and reclamation act of 1977, Pub. L. 95-87.”

(B) “Head of each State Regulatory Authority” and “Head of the State Regulatory Authority” shall be replaced by the term “secretary of the Kansas department of health and environment.”

(C) “This section” and “this part” shall be replaced by “these regulations.”

(2) “Section 517(g) of the Act” and “section 517(g)” shall be replaced by “K.S.A. 49-404, and amendments thereto.”

(3)(A) “§705.6(a)” shall be replaced by “K.S.A. 49-404.”

(B) “§705.11” and “§705.11(b), (c), and (d)” shall be replaced by “K.A.R. 47-14-7(a)(3).”

(C) “§705.13(a)” shall be replaced by “K.A.R. 47-14-7(a)(4).”

(D) “§705.19” shall be replaced by “K.A.R. 47-14-7(a)(8).” (Authorized by K.S.A. 49-404; implementing K.S.A. 49-405; effective, E-81-30, Oct. 8, 1980; effective May 1, 1981; amended Feb. 11, 1991; amended May 2, 1997; amended Dec. 1, 2006; amended Feb. 15, 2019.)

Article 15.—INSPECTIONS AND ENFORCEMENT

47-15-1a. Inspection and enforcement; adoption by reference. (a) The following regulations as in effect on July 1, 2012 are adopted by reference, except as otherwise specified in this regulation:

(1) Inspections by state regulatory authority, 30 C.F.R. 840.11;

(2) availability of records, 30 C.F.R. 840.14;

(3) definitions, 30 C.F.R. 843.5;

(4) right of entry, 30 C.F.R. 840.12;

(5) compliance conference, 30 C.F.R. 840.16;

(6) review of adequacy and completeness of inspections, 30 C.F.R. 842.14, except that “director or his or her designee” shall be replaced by “secretary or secretary’s designee”;

(7) review of decision not to inspect or enforce, 30 C.F.R. 842.15, except that “OSM” shall be replaced with “Kansas department of health and environment”;

(8) cessation orders, 30 C.F.R. 843.11;

(9) notices of violations, 30 C.F.R. 843.12, except for the following:

(A) In subsection (a) of 30 C.F.R. 843.12, the following phrase shall be deleted: “carried out during the enforcement of a federal program or federal lands program or during federal enforcement of a state program under sections 504(b) or 521(b) of the act and part 733 of this chapter”; and

(B) paragraph (a)(2) of 30 C.F.R. 843.12 shall be deleted;

(10) suspension or revocation of permits: pattern of violations, 30 C.F.R. 843.13, except that the phrase “or a federal lands program” in paragraph (a)(4)(i)(A) of 30 C.F.R. 843.13 shall be deleted, and paragraphs (a)(4)(i)(B) and (C) of 30 C.F.R. 843.13 shall be deleted;

(11) service of notices of violation, cessation orders, and show cause orders, 30 C.F.R. 843.14, except that the first sentence in subsection (c) shall be deleted and, in the second sentence, the word “office” shall be replaced with “Kansas department of health and environment”;

(12) informal public hearing, 30 C.F.R. 843.15. However, the following sentence in subsection (e) shall be deleted: “Section 554 of title 5 of the United States code, regarding requirements for formal adjudicatory hearings, shall not govern public hearings”;

(13) formal review of citations, 30 C.F.R. 843.16;

(14) inability to comply, 30 C.F.R. 843.18; and

(15) compliance conference, 30 C.F.R. 843.20.

(b) The following phrases and citations shall be replaced with the phrases and citations specified in this subsection wherever the phrases and citations appear in the text of the federal regulations adopted by reference in this regulation:

(1)(A) “Act” shall be replaced by “state act.”

(B) “Director” shall be replaced by “director of OSM.”

(C) “Federal” shall be replaced by “state.”

(D) “Freedom of Information Act or other Federal law” shall be replaced by “Kansas Open Records Act or other State law.”

(E) “Office” shall be replaced by “secretary or secretary’s designee.”

(F) “Office of hearings and appeals” shall be replaced by “department.”

(G) “Office of Surface Mining” shall be replaced by “Kansas department of health and environment.”

(H) “Rule 4 of the Federal Rules of Civil Procedure” shall be replaced by “K.A.R. 47-4-14a.”

(I) “Secretary” shall be replaced by “secretary of KDHE.”

(J) “This chapter,” “this part,” and “this section” shall be replaced by “these regulations.”

(2)(A) “Section 517 of the Act and §840.11” shall be replaced by “K.S.A. 49-404, K.S.A. 49-405, and K.S.A. 49-405d, and amendments thereto, and K.A.R. 47-15-1a(a)(1).”

(B) “Section 517 of the Act and §842.11” shall be replaced by “K.S.A. 49-404, K.S.A. 49-405, and K.S.A. 49-405d, and amendments thereto.”

(C) “Section 518(b), 521(a)(4), or 525 of the Act” shall be replaced by “K.S.A. 49-405c(b), K.S.A. 49-405(m)(3), or K.S.A. 49-416a and amendments thereto.”

(D) “Section 518(e), 518(f), 521(a)(4), or 521(c) of the Act or their regulatory program counterparts” shall be replaced by “K.S.A. 49-405c(e) and (f) and K.S.A. 49-405(m), and amendments thereto.”

(E) “Section 520 of the Act” shall be replaced by “K.S.A. 49-426, and amendments thereto.”

(F) “Section 521(a)(2) of the Act” shall be replaced by “K.S.A. 49-405(m)(1), and amendments thereto.”

(G) “Section 521(a)(5) of the Act and §843.15” shall be replaced by “K.S.A. 49-405(m)(4), and amendments thereto, and K.A.R. 47-15-1a(a)(12).”

(H) “Section 525 of the Act” shall be replaced by “K.S.A. 49-416a, and amendments thereto.”

(3)(A) “30 CFR Part 845” and “part 845 of this chapter” shall be replaced by “article 5 of these regulations.”

(B) “43 CFR part 4” shall be replaced by “K.A.R. 47-4-14a.”

(C) “43 CFR 4.1281” shall be replaced by “K.A.R. 47-4-14a(a)(1)-(8).”

(4)(A) “§701.5 of this chapter” shall be replaced by “K.A.R. 47-2-75(b).”

(B) “§772.15 and 773.6(d) of this chapter” shall be replaced by “K.A.R. 47-7-2(a)(5) and K.A.R. 47-3-42(a)(2).”

(C) “§800.40 of this chapter” shall be replaced by “K.A.R. 47-8-9(a)(13).”

(D) “§816.131(b) or §817.131(b) of this chapter” shall be replaced by “K.A.R. 47-9-1(c)(43) or (d)(41).”

(E) “§842.12” shall be replaced by “K.A.R. 47-15-7 and K.A.R. 47-15-8.”

(F) “§843.11” and “§843.11(b)” shall be replaced by “K.A.R. 47-15-1a(a)(8).”

(G) “§843.11 or §843.12” shall be replaced by “K.A.R. 47-15-1a(a)(8) and (9).”

(H) “§843.12(a)” and “§843.12(c) and (f)” shall be replaced by “K.A.R. 47-15-1a(a)(9).”

(I) “§843.13(c)” shall be replaced by “K.A.R. 47-15-1a(a)(10).”

(J) “§845.15(b)(2) of this chapter” shall be replaced by “K.A.R. 47-5-5a(a)(5).” (Authorized by K.S.A. 49-405; implementing K.S.A. 49-404, 49-405, 49-405c, and 49-405d, K.S.A. 2018 Supp. 49-406, K.S.A. 49-416, 49-416a, and 49-427; effective May 1, 1985; amended May 1, 1986; amended Feb. 11, 1991; amended May 2, 1997; amended Dec. 1, 2006; amended Feb. 15, 2019.)

Article 16.—RECLAMATION

47-16-6. Liens. (a) A lien may be placed by the secretary on land reclaimed if the reclamation results in a significant increase in the fair market value based on the pre- and post-reclamation appraisals, except that the lien may be waived by the secretary or the secretary’s designee if at least one of the following conditions is met:

(1) The lien amount would be less than the cost of filing the lien.

(2) The reclamation work primarily improves the health, safety, or condition of the environment of the community or area affected.

(3) The reclamation is necessitated by an unforeseen occurrence, and the work performed to restore the land will not significantly increase the

market value of the land as it existed immediately before the occurrence.

(b) A lien shall not be placed against land reclaimed if the current owner of the property acquired title before May 2, 1977 and did not consent to, participate in, or exercise control over the mining operation that caused or contributed to the unreclaimed conditions.

(c) If a lien is to be filed, within six months after completion of the reclamation work, a statement shall be filed by the secretary in the office having responsibility under applicable law for recording judgments and placing liens against land. The statement shall include the following:

(1) An account of monies expended for the reclamation work; and

(2) a notarized summary of the appraisal report.

(d) The increase in the appraised value of the property shall constitute the amount of the lien recorded and shall have priority second only to a real estate tax lien. The landowner shall be afforded the following:

(1) Notified before the time of filing the lien of the amount of the proposed lien; and

(2) allowed a reasonable time to pay that amount in lieu of filing the lien. (Authorized by K.S.A. 49-405; implementing K.S.A. 49-428; effective May 1, 1983; amended Feb. 11, 1991; amended May 2, 1997; amended July 31, 1998; amended Feb. 15, 2019.)

47-16-9. Contractor responsibility. (a) Each successful bidder for an abandoned mined-land reclamation project contract shall be eligible under 30 C.F.R. 773.12(a), as adopted by reference in K.A.R. 47-3-42(a)(8), at the time of contract award to receive a permit or conditional permit to conduct surface coal mining operations.

(b) Before any contract may be awarded to a bidder, that bidder's eligibility shall be confirmed by the office of surface mining's automated applicant violator system. (Authorized by K.S.A. 49-405; implementing K.S.A. 49-428; effective May 2, 1997; amended July 31, 1998; amended Dec. 1, 2006; amended Feb. 15, 2019.)

47-16-10. Exclusion of certain noncoal reclamation sites. (a) Money from the abandoned mined-land fund shall not be used for either of the following:

(1) The reclamation of sites and areas designated for remedial action pursuant to the urani-

um mill tailings radiation control act of 1978, 42 U.S.C. 7901 et seq. as amended; or

(2) sites listed for remedial action pursuant to the comprehensive environmental response compensation and liability act of 1980, 42 U.S.C. 9601 et seq. as amended.

(b)(1) Each successful bidder for an abandoned mined-land contract for noncoal reclamation shall be eligible under 30 C.F.R. 773.12(a), as adopted by reference in K.A.R. 47-3-42(a)(8), at the time of contract award to receive a permit or conditional permit to conduct surface coal mining operations.

(2) Bidder eligibility shall be confirmed by the office of surface mining's automated applicant violator system for each contract to be awarded. (Authorized by K.S.A. 49-405; implementing K.S.A. 49-428; effective May 2, 1997; amended July 31, 1998; amended Dec. 1, 2006; amended Feb. 15, 2019.)

47-16-12. Surface mining section's procedures for reclamation projects receiving less than 50 percent government funding.

30 C.F.R. 874.17, as in effect on July 1, 2012, is adopted by reference, except that the following terms shall be replaced with the terms specified:

(a) "Title V" and "Title V of SMCRA" shall be replaced by "K.S.A. 49-401 et seq."

(b) "Part 707 of this chapter" and "the part 707 exemption or counterpart State/Indian Tribe laws and regulations" shall be replaced by "K.A.R. 47-6-9."

(c) "30 CFR subchapter R" shall be replaced by "Article 12 of these regulations." (Authorized by K.S.A. 49-405; implementing K.S.A. 49-428; amended Dec. 1, 2006; amended Feb. 15, 2019.)

47-16-13. Reclamation of non-coal-mined lands and associated waters. (a) Non-coal-mined lands and associated waters shall be eligible for reclamation if all of the following conditions are met:

(1) The lands and waters were mined or affected by mining processes.

(2) The lands and waters were left or abandoned in an unreclaimed or inadequately reclaimed condition before August 3, 1977.

(3) There is no ongoing responsibility for reclamation by the operator, permittee, or agent of the permittee under state or federal statutes or by the state as a result of bond forfeiture. Bond forfeiture shall render the lands and waters ineligible if the amount forfeited is sufficient to pay the total cost of necessary reclamation. If the forfeited bond is insufficient to pay the total cost of

reclamation, moneys sufficient to complete the reclamation may be used from the abandoned mined-land fund.

(4) The reclamation has been requested by the governor.

(5) The reclamation is necessary to protect public health, safety, general welfare, and property from extreme danger of adverse effects of non-coal-mining practices.

(b) Each successful bidder for a contract for a non-coal-reclamation project under this regulation shall be eligible under 30 C.F.R. 773.12, as adopted by reference in K.A.R. 47-3-42, at the time of contract award to receive a permit or conditional permit to conduct surface coal mining operations. (Authorized by K.S.A. 49-405; implementing K.S.A. 49-428; effective Feb. 15, 2019.)

Agency 48
Department of Labor—
Employment Security Board of Review

Editor's Note:

The Department of Human Resources was renamed the Department of Labor by Executive Reorganization Order No. 31. See L. 2004, Ch. 191.

Editor's Note:

Formerly referred to as Board of Review—Labor.

Articles

- 48-1. APPELLATE PROCEDURE.
- 48-2. BOARD: ORGANIZATION AND PROCEDURE.
- 48-3. APPEALS.
- 48-4. FILING APPEALS.

Article 1.—APPELLATE PROCEDURE

48-1-1. Filing of appeal. Each party appealing from a decision of an examiner or referee shall file with any representative of the division of employment a written notice of appeal stating the reasons for the appeal. (Authorized by K.S.A. 2008 Supp. 44-709(g); implementing K.S.A. 2008 Supp. 44-709(b) and (c); effective Jan. 1, 1966; amended Jan. 1, 1971; amended May 1, 1980; amended Jan. 22, 2010.)

48-1-2. Notice of hearing. Upon the scheduling of a hearing on an appeal, notice of hearing on a form approved by the board of review and titled notice of hearing shall be mailed by the office of appeals to the last known address of the claimant, employer, and other interested parties, at least five days before the date of hearing. The notice shall specify the time and place of the hearing, issues to be decided, and an indication of whether the hearing will be by telephone or in person. (Authorized by K.S.A. 2008 Supp. 44-709(g); implementing K.S.A. 2008 Supp. 44-709(c) and (k); effective Jan. 1, 1966; amended Jan. 1, 1971; amended Jan. 22, 2010.)

48-1-3. Disqualification of referees. No referee shall participate in the hearing of an appeal in which the referee has an interest. All challenges to the interest of any referee shall be made to the referee on or before the date set for the hearing unless good cause is shown for later chal-

lenges. Each challenge to the interest of a referee shall be heard and decided immediately by the referee or, at the referee's discretion, referred to the board of review. If the challenge is not heard immediately or is referred to the board of review, the hearing of the appeal shall be continued until the disposition of the challenge. The referee shall cause all parties to be notified of the new date set for the hearing by mailing a notice to the last known address of all parties to the appeal at least five days before the date set for the hearing. (Authorized by K.S.A. 2008 Supp. 44-709(g); implementing K.S.A. 2008 Supp. 44-709(d); effective Jan. 1, 1966; amended May 1, 1980; amended Jan. 22, 2010.)

48-1-4. Conduct of hearing. (a) (1) Each hearing shall be conducted informally and in such a manner as to ascertain all of the facts and the full rights of the parties.

(2) The referee shall receive evidence logically tending to prove or disprove a given fact in issue, including hearsay evidence and irrespective of common law rules of evidence. Hearsay evidence shall be admissible but carries less weight than direct evidence and shall not be persuasive if the other party contests its admissibility. Each party submitting its evidence shall explain its relevance to the issue in question before the referee admits the evidence into the record. The claimant and any other party to an appeal before a referee shall present pertinent evidence regarding the issues involved.

(3) Uncorroborated hearsay evidence shall not solely support a finding of fact or decision.

(4) If any evidence is unnecessarily cumulative in effect or evidence neither proves nor disproves relevant facts in issue, the referee shall, on objection of appellant, claimant, or interested party or on that individual's own motion, exclude or prohibit any of this evidence from being received.

(b) When a party appears in person or by telephone, the referee shall examine the party and the party's witnesses, if any, to the extent necessary to ascertain all of the facts. During the hearing of any appeal, the referee shall, with or without notice to either of the parties, take any additional evidence deemed necessary to determine the issues identified in the notice of hearing. If during the hearing a party raises an issue not identified in the notice of hearing, the referee shall not determine that issue or consider any evidence in support of that issue unless the other party consents to the referee's deciding that issue.

(c) The parties to an appeal, with the consent of the referee, may stipulate in writing or under oath at the hearing as to the facts involved.

(d) The referee shall record the hearing by use of a recording device or a court reporter. The recording shall constitute the official record. Other recording devices or methods shall not be allowed in the hearing.

(e) (1) Hearings may be conducted in person or by telephone, subject to the following requirements:

(A) The hearing shall be conducted by telephone if none of the parties requests an in-person hearing.

(B) If only one party requests an in-person hearing, the referee shall have the discretion of requiring all parties to appear in person or allow the party not requesting an in-person hearing to appear by telephone.

(C) If all the parties involved request an in-person hearing before the date of a scheduled telephone hearing, the matter shall be continued and set for an in-person hearing.

(D) The party requesting the in-person hearing shall be deemed to have agreed that the hearing will be scheduled at a time and geographic location to be determined by the office of appeals and shall be deemed to have agreed to a delay of the hearing to accommodate scheduling of the hearing.

(E) An in-person hearing shall be held if deemed necessary by the secretary of labor or the secretary's designee for the fair disposition of the appeal.

(2) Each hearing scheduled in person or by telephone shall meet these requirements:

(A) Permit confrontation and cross-examination of the parties and witnesses; and

(B) permit the simultaneous participation of all parties.

(3) An authorized representative or an attorney representing a party may appear by telephone at a geographic location different from that of the party represented.

(4) Documentary evidence shall be submitted no later than 1:00 p.m. on the business day before the hearing by mail or fax to the referee and opposing party. However, the referee shall allow the submission of documentary evidence at the hearing or after the hearing, if to do so is necessary for the fair disposition of the appeal and the party attempting to introduce the evidence shows to the referee's satisfaction there was good cause for not submitting the evidence in advance of the hearing.

(f) If a party appears by telephone, the party shall call as instructed by the notice of hearing no later than 1:00 p.m. on the business day before the scheduled hearing to give the telephone number at which the party and any witness can be contacted by the referee at the time of the hearing. If the hearing is continued, the referee shall contact the parties and any witnesses at the telephone numbers provided for the original hearing. If a party or witness cannot be contacted at the telephone number originally given, the party shall call the office of appeals no later than 1:00 p.m. on the regular business day before the date on which the hearing is to be continued and shall give the telephone number at which the party and any witness can be contacted. Unless good cause is shown to the referee, failure to provide the telephone numbers as required by this subsection shall constitute a nonappearance, and the hearing shall proceed as scheduled without the participation of the party or witness.

(g) The appearance of a party or witness by cellular or mobile telephone shall be permitted. However, the referee shall allow the appearance of a party or witness by cellular or mobile telephone only if the use is under safe conditions. If the referee determines that the party or witness is not using the cellular or mobile telephone under safe conditions, the referee may stop the hearing and continue the hearing until the party or witness can participate safely. The unsafe use of a cellular or mobile telephone shall include driving a

vehicle or operating any sort of mechanical device while participating in the hearing.

If the transmission of the cellular or mobile telephone is disrupted, causing the call to be dropped or making it difficult for the referee to hear the party's or witness's testimony or speak to the party or witness, the hearing shall proceed without the participation of the party or witness. If the hearing proceeds, the inability of the party or witness to participate shall be considered a nonappearance for the purpose of rendering a decision based on the merits of the case.

(h) If the ability of a party or witness to participate in a hearing before a referee or the board of review is impaired because of a disability or difficulty with the English language, the party shall contact the office of appeals for assistance and information about a qualified interpreter. The use of a personal interpreter for the purposes of presenting the party's argument and evidence and examining witnesses shall not be allowed. The only interpreter permitted to give assistance to a party or a witness in the hearing shall be an interpreter approved by the office of appeals.

(i) All parties and witnesses shall testify under oath and be subject to the provisions of K.S.A. 44-719, and amendments thereto.

(j) (1) After making reasonable attempts allowable by the circumstances to secure the presence of a witness or to obtain copies of documents in the possession of the other party or third parties, a party may request the issuance of a subpoena for a witness or documents by submitting a written request to the office of appeals. The request shall contain the correct name and address of each witness to be subpoenaed. If the subpoena is for documents, the documents shall be described to make them reasonably identifiable, and the request shall include the name of the party in possession of those documents.

(2) The referee shall exercise discretion in determining whether the party requesting the subpoena has made reasonable attempts as allowed by the circumstances to secure the presence of a witness or obtain the documents sought without the use of a subpoena. If, in the opinion of the referee, the requesting party has not made reasonable efforts, the request shall be denied and the matter shall be set for a hearing.

(3) The referee shall reschedule a hearing if a subpoena cannot be effectively served in accordance with the service requirements of K.S.A. 44-714(h) and amendments thereto. (Autho-

rized by K.S.A. 2008 Supp. 44-709(g) and K.S.A. 2008 Supp. 44-714(g); implementing K.S.A. 2008 Supp. 44-709(c) and (k), K.S.A. 2008 Supp. 44-714(h), and K.S.A. 2008 Supp. 44-719; effective Jan. 1, 1966; amended Jan. 1, 1971; amended May 1, 1980; amended May 1, 1987; amended May 22, 1998; amended Jan. 22, 2010.)

48-1-5. Continuance of hearings; withdrawal of appeal.

The referee may continue any hearing upon the referee's own motion or upon written application of any party to the appeal submitted to the referee no later than 1:00 p.m. on the business day before the hearing. If a party believes that the party needs additional time beyond what is scheduled for the hearing, the party shall notify the referee of the need for allocating additional time for the hearing no later than 1:00 p.m. on the business day before the hearing. The referee shall exercise discretion whether to grant a party's request for a longer hearing than originally scheduled. (a) Failure to appear. If the appellant or any other party fails to appear at any hearing, the referee shall make a decision based on the record at hand. If the nonappearing party within 10 days following the mailing of the decision petitions the referee for a hearing and shows good cause for the nonappearance, the referee shall set aside the decision and reschedule the matter for hearing.

(b) Notice of continuance. The referee shall cause notices to be mailed to the last known address of all interested parties to the appeal wherever there is a continuance.

(c) Withdrawal of appeal. An appellant, with the consent of the referee, may withdraw an appeal in writing or under oath at the hearing. (Authorized by K.S.A. 2008 Supp. 44-709(g); implementing K.S.A. 2008 Supp. 44-709(c) and (g); effective Jan. 1, 1966; amended Jan. 1, 1971; amended May 1, 1980; amended Jan. 22, 2010.)

48-1-6. Determination of appeal.

After the hearing of an appeal, the referee shall, within a reasonable time, announce findings of fact and the decision with respect to the appeal. The decision shall be in writing and shall be signed by the referee. The referee shall set forth findings of fact with respect to the matters of appeal, the decision, and the reasons for the decision. (a) Copies of all decisions shall be mailed by the referee to the last known address of the claimant, employer, and all other interested parties to the appeal.

(b) All decisions shall contain the appeal rights of the parties. (Authorized by K.S.A. 2008 Supp. 44-709(g); implementing K.S.A. 2008 Supp. 44-709(c); effective Jan. 1, 1966; amended Jan. 1, 1971; amended May 1, 1980; amended Jan. 22, 2010.)

Article 2.—BOARD: ORGANIZATION AND PROCEDURE

48-2-1. Creation and organization. Election of officers. The board of review shall annually in July elect one of its members chairperson. A vice chairperson and the officers shall serve for one year and until a successor is elected. (Authorized by K.S.A. 2008 Supp. 44-709(g); implementing K.S.A. 2008 Supp. 44-709(f); effective Jan. 1, 1966; amended Jan. 1, 1971; amended May 1, 1980; amended Jan. 22, 2010.)

48-2-2. Filing of appeal to the board of review. Each party appealing from a decision of a referee shall file with any representative of the division of employment a written notice of appeal within the period the law allows, stating the reasons for the appeal. Copies of the notice of appeal shall be mailed by the division of employment to the last known address of all parties interested in the decision of the referee that is being appealed. (Authorized by K.S.A. 2008 Supp. 44-709(g); implementing K.S.A. 2008 Supp. 44-709(c) and (f); effective Jan. 1, 1966; amended Jan. 1, 1971; amended May 1, 1980; amended Jan. 22, 2010.)

48-2-3. Hearing of appeals. The board of review shall accept appeals that have an appealable issue from any referee decision that has been timely filed. The board's decision on the merits shall be based upon the evidence and the record made before the referee and any additional evidence that the board directs to be taken. (Authorized by K.S.A. 2008 Supp. 44-709(g); implementing K.S.A. 2008 Supp. 44-709(c) and (f); effective Jan. 1, 1966; amended Jan. 1, 1971; amended May 1, 1980; amended Jan. 22, 2010.)

48-2-4. Additional evidence. The board of review shall, at its discretion, remand any claim or any issue involved in a claim to a referee or special hearing officer for the taking of any additional evidence that the board of review deems necessary. The evidence shall be taken before the referee or special hearing officer in the manner prescribed for hearings before the referee. (Au-

thorized by K.S.A. 2008 Supp. 44-709(g); implementing K.S.A. 2008 Supp. 44-709(f); effective Jan. 1, 1966; amended May 1, 1980; amended Jan. 22, 2010.)

48-2-5. Decision of the board of review. The board of review shall within a reasonable time announce its findings of fact and decision with respect to each appeal. The decision shall be in writing and signed by those members who concur with the decision. If the decision is not unanimous, the decision of the majority shall control. The minority opinion, including any written dissent, shall be made a part of the record. Copies of all decisions of the board of review shall be mailed to the last known address of the parties to the appeal. All decisions shall inform the parties of their appeal rights. (Authorized by K.S.A. 2008 Supp. 44-709(g); implementing K.S.A. 2008 Supp. 44-709(f) and (i); effective Jan. 1, 1966; amended Jan. 1, 1971; amended May 1, 1980; amended Jan. 22, 2010.)

Article 3.—APPEALS

48-3-1. Witnesses. Each witness subpoenaed for any hearing before a referee or special hearing officer shall be paid pursuant to K.S.A. 28-125 and K.S.A. 75-3203 and amendments thereto. (Authorized by K.S.A. 2008 Supp. 44-709(g); implementing K.S.A. 2008 Supp. 44-709(h); effective Jan. 1, 1966; amended Jan. 1, 1971; amended May 1, 1980; amended Jan. 22, 2010.)

48-3-2. Representation before referee and board of review. (a) Appearance in person. The parties may appear in person and by an attorney or by an authorized representative.

(b) Representation by attorney. A party to the proceeding may be represented by an attorney who is regularly admitted to practice before the supreme court of Kansas, or by any attorney from without the state who complies with the provisions of Kansas Supreme Court rule 116. Each attorney representing a party before a referee shall file an entry of appearance with the referee before the hearing begins. Each attorney who did not represent a party before the referee but is representing a party before the board of review shall file an entry of appearance with the board of review.

(c) Representation by an authorized representative.

(1) Any party may be represented by an authorized representative. For the purpose of this arti-

cle, an authorized representative shall mean any of the following:

- (A) A union representative;
- (B) an employee of an unemployment compensation cost-control management firm;
- (C) an employee of a corporate party; or
- (D) a legal intern authorized to represent clients pursuant to the provisions of Kansas Supreme Court rule 719.

(2) A referee or the board of review may limit or disallow participation in a hearing by an authorized representative under either of the following circumstances:

(A) The representative does not effectively aid in the presentation of the represented party's case.

(B) The representative delays the orderly progression of the hearing.

(d) Standards of conduct. A referee or the board of review may exclude a party, witness, or a party's representative from participation in the hearing or may terminate the hearing and issue a decision based upon the available evidence if a party or a party's representative intentionally and repeatedly fails to observe the provisions of the Kansas employment security law, the regulations of the secretary of labor or the board of review, or the instructions of a referee or the board of review.

(e) Fees. No fees shall be charged or received for the representation of an individual claiming unemployment benefits until the fees have been approved in accordance with K.S.A. 44-718(b) and amendments thereto. (Authorized by K.S.A. 2008 Supp. 44-709(g); implementing K.S.A. 2008 Supp. 44-709(c) and (k); effective Jan. 1, 1966; amended Jan. 1, 1971; amended May 1, 1980; amended May 1, 1987; amended Jan. 22, 2010.)

48-3-4. Service of notice. Notice of all hearings or proceedings required by this article shall, unless otherwise provided, be given by mail to the last known address of the parties and other inter-

ested parties. (Authorized by and implementing K.S.A. 2008 Supp. 44-709(g); effective Jan. 1, 1966; amended Jan. 22, 2010.)

48-3-5. Disqualification of board members. No member of the board of review shall participate in the consideration of any case in which the member has an interest. (Authorized by and implementing K.S.A. 2008 Supp. 44-709(g); effective Jan. 1, 1966; amended May 1, 1980; amended Jan. 22, 2010.)

Article 4.—FILING APPEALS

48-4-1. Notice of appeal; when filed. Each notice of appeal filed in person shall be considered filed on the date delivered to any employee or representative of the division of employment. Each notice of appeal filed by mail shall be considered filed on the date postmarked. If the postmark on the envelope is illegible or is missing, the appeal filed by mail shall be considered filed on the date received by the agency less a calculated time reasonably expected to elapse enroute between the place of mailing and the place of delivery, but in no case less than three days. (Authorized by K.S.A. 2008 Supp. 44-709(g); implementing K.S.A. 2008 Supp. 44-709(b) and (c); effective Jan. 1, 1967; amended, E-70-32, July 1, 1970; amended Jan. 1, 1971; amended May 1, 1980; amended Jan. 22, 2010.)

48-4-2. Constructive filing. A notice of appeal not filed on time as prescribed by K.S.A. 44-709, and amendments thereto, and these regulations may be considered timely filed if the referee or the board of review finds that the party appealing failed to file a timely appeal because of excusable neglect. (Authorized by and implementing K.S.A. 2008 Supp. 44-709(g); effective, E-70-32, July 1, 1970; effective Jan. 1, 1971; amended Jan. 1, 1974; amended May 1, 1980; amended Jan. 22, 2010.)

Agency 49

Department of Labor

Editor's Note:

The Department of Human Resources was renamed the Department of Labor by Executive Reorganization Order No. 31. See L. 2004, Ch. 191.

Editor's Note:

This agency was formerly entitled "Labor Department." The Labor Department was reorganized into the Department of Human Resources by Executive Reorganization Order No. 14, see L. 1976, ch. 354.

Articles

49-55. AMUSEMENT RIDE REGULATIONS.

Article 55.—AMUSEMENT RIDE REGULATIONS

49-55-1. Applicability. Unless exempted by the act, this article of the department's regulations shall apply to all amusement rides, as defined in K.S.A. 2016 Supp. 44-1601 and amendments thereto, within the state. (Authorized by and implementing K.S.A. 2016 Supp. 44-1614, as amended by 2017 H Sub for SB 86, sec. 13; effective May 28, 2010; amended, T-49-6-27-17, July 1, 2017; amended Oct. 13, 2017.)

49-55-2. Definitions. (a) "Act" means the Kansas amusement ride act and amendments thereto.

(b) "Amusement ride records" means the following:

- (1) The current certification of an inspector's qualifications to inspect amusement rides;
- (2) the current certificate of inspection signed by a qualified inspector;
- (3) the current results of nondestructive testing;
- (4) each amusement ride manufacturer's operational manual;
- (5) each amusement ride manufacturer's non-destructive testing recommendations;
- (6) each amusement ride manufacturer's inspection guidelines; and
- (7) the records required to be maintained in accordance with K.S.A. 2016 Supp. 44-1603, and amendments thereto.

(c) "Permanent amusement ride" means an amusement ride, as defined in K.S.A. 2016 Supp. 44-1601 and amendments thereto, that is permanently affixed to the real estate where the amusement ride is operated. A permanent amusement

ride is not capable of being transported from one location to another without significant physical alteration of the location and the amusement ride.

(d) "Reasonable period of time to comply with the provisions of K.S.A. 2016 Supp. 44-1601 et seq., and amendments thereto, and K.S.A. 40-4801 et seq., and amendments thereto" means 30 days after publication of the regulations adopted by the secretary pursuant to K.S.A. 2016 Supp. 44-1614(b), and amendments thereto.

(e) "Temporary amusement ride" means an amusement ride, as defined in K.S.A. 2016 Supp. 44-1601 and amendments thereto, that is movable from location to location without significant physical alteration of the location and the amusement ride. (Authorized by and implementing K.S.A. 2016 Supp. 44-1614, as amended by 2017 H Sub for SB 86, sec. 13; effective May 28, 2010; amended, T-49-6-27-17, July 1, 2017; amended Oct. 13, 2017.)

49-55-3. (Authorized by K.S.A. 2009 Supp. 44-1614; implementing K.S.A. 2009 Supp. 44-1602; effective May 28, 2010; revoked, T-49-6-27-17, July 1, 2017; revoked Oct. 13, 2017.)

49-55-4. Permit application; certificate of inspection. Each application for a permit shall include the following:

- (a) The name of the owner and operator of the amusement ride;
- (b) the location of the amusement ride or the location where the amusement ride is stored when not in use;
- (c) proof of insurance;
- (d) certification that the amusement ride meets the applicable standards of the American society

for testing and materials (ASTM) international F24 committee; and

(e) a copy of a valid certificate of inspection for that amusement ride. Each certificate of inspection shall provide an expiration date. (Authorized by K.S.A. 2016 Supp. 44-1614, as amended by 2017 H Sub for SB 86, sec. 13; implementing K.S.A. 2016 Supp. 44-1602, as amended by 2017 H Sub for SB 86, sec. 7, and 2017 H Sub for SB 86, sec. 1; effective May 28, 2010; amended, T-49-6-27-17, July 1, 2017; amended Oct. 13, 2017.)

49-55-5. (Authorized by L. 2009, ch. 71, sec. 3 and K.S.A. 2008 Supp. 44-1602; implementing K.S.A. 2008 Supp. 44-1604; effective May 28, 2010; revoked, T-49-6-27-17, July 1, 2017; revoked Oct. 13, 2017.)

49-55-6. Record retention. The owner of each amusement ride shall retain all amusement ride records for a period of three years, which shall be grouped according to amusement ride. The owner shall retain all amusement ride records at the location of the amusement ride's operation. The records shall be accessible upon request by the department in accordance with K.S.A. 2016 Supp. 44-1603 and amendments thereto, each person who contracts with the owner for the amusement ride's operation, and each operator. (Authorized by K.S.A. 2016 Supp. 44-1614, as amended by 2017 H Sub for SB 86, sec. 13; implementing K.S.A. 2016 Supp. 44-1603, as amended by 2017 H Sub for SB 86, sec. 8, and K.S.A. 2016 Supp. 44-1605; effective May 28, 2010; amended, T-49-6-27-17, July 1, 2017; amended Oct. 13, 2017.)

49-55-7. Location of evidence of inspection. The owner of each amusement ride shall affix a copy of the current inspection results under a weatherproof covering in a conspicuous location on the amusement ride so that each patron can see the results before boarding the amusement ride. (Authorized by L. 2009, ch. 71, sec. 3; implementing K.S.A. 2008 Supp. 44-1602; effective May 28, 2010.)

49-55-8. Procedure for selection of an amusement ride for compliance audit. (a) Amusement rides shall be randomly selected each quarter by the department for compliance audit by location. Random selection for compliance audit shall include selecting amusement rides from a list of amusement rides that have been issued a valid permit by the department and amuse-

ment rides that are identified on location reports submitted to the department in accordance with K.A.R. 49-55-10.

(b) A compliance audit may also be conducted for amusement rides that are determined to be in need of a compliance audit by the secretary or the secretary's designee. (Authorized by K.S.A. 2016 Supp. 44-1614, as amended by 2017 H Sub for SB 86, sec. 13; implementing K.S.A. 2016 Supp. 44-1602, as amended by 2017 H Sub for SB 86, sec. 7; effective May 28, 2010; amended, T-49-6-27-17, July 1, 2017; amended Oct. 13, 2017.)

49-55-9. Location of safety instructions. The owner shall affix the safety instructions for each amusement ride in a conspicuous location under a waterproof covering that allows patrons to read the instructions before boarding the amusement ride. (Authorized by L. 2009, ch. 71, sec. 3; implementing K.S.A. 2008 Supp. 44-1606; effective May 28, 2010.)

49-55-10. Reporting of amusement ride locations. (a) Permanent amusement ride. The owner of each permanent amusement ride shall annually report the location of that amusement ride on a form provided by the department. If the owner removes a permanent amusement ride from service or places a new permanent amusement ride in service, the owner shall report the removal or placement to the department within 30 calendar days.

(b) Temporary amusement ride. The owner of each temporary amusement ride shall file with the department an itinerary at least 30 calendar days before the beginning date on the itinerary. The owner shall submit the itinerary on a form provided by the department. If the owner changes the itinerary, the owner shall report the change to the department by the next business day following the day the change occurred. (Authorized by L. 2009, ch. 71, sec. 3; implementing K.S.A. 2008 Supp. 44-1602; effective May 28, 2010.)

49-55-11. Submitting reports and other documents; notification of death. (a) Except as provided in subsection (b), each report and any other document required by these regulations or the act shall be submitted to the department's director of industrial safety and health by mail, facsimile, hand delivery, or electronic mail.

(b) For each serious injury that results in the death of a patron, notification by the owner shall be made initially by telephone, with a written notifica-

tion sent within 24 hours after the initial notification. (Authorized by and implementing K.S.A. 2016 Supp. 44-1614, as amended by 2017 H Sub for SB 86, sec. 13; effective May 28, 2010; amended, T-49-6-27-17, July 1, 2017; amended Oct. 13, 2017.)

49-55-12. Violations; reporting violations to the attorney general, county attorney, or district attorney. (a) Each notice of violation issued by the department for a violation of the act or these regulations shall specify the following:

- (1) The nature of the violation;
- (2) the facts supporting the determination that a violation took place; and
- (3) specification of the action that the owner shall take to comply with the act or these regulations.

(b) Each notice of violation shall be reported by the department to the attorney general, county attorney, or district attorney. (Authorized by K.S.A. 2016 Supp. 44-1614, as amended by 2017 H Sub for SB 86, sec. 13; implementing K.S.A. 2016 Supp. 44-1610, as amended by 2017 H Sub for SB 86, sec. 11, and K.S.A. 2016 Supp. 44-1611; effective May 28, 2010; amended, T-49-6-27-17, July 1, 2017; amended Oct. 13, 2017.)

49-55-13. Nationally recognized organizations that issue certificates or other evidence of qualification to inspect amusement rides. The nationally recognized organizations that issue certifications or other evidence of qualification to inspect amusement rides and that require education, experience, and training at least equivalent to that required for a level II certification from NAARSO as of July 1, 2017, shall include the following:

- (a) The national association of amusement ride safety officials (NAARSO), for level II certification;
- (b) the amusement industry manufacturers and suppliers international (AIMS), for level II certification;

(c) the association for challenge course technology (ACCT), for qualified inspector certification; and

(d) Pennsylvania department of agriculture, for general qualified inspector status. (Authorized by and implementing K.S.A. 2016 Supp. 44-1614, as amended by 2017 H Sub for SB 86, sec. 13; effective, T-49-6-27-17, July 1, 2017; effective Oct. 13, 2017.)

Department of Labor— Division of Employment

Editor's Note:

The Department of Human Resources was renamed the Department of Labor by Executive Reorganization Order No. 31. See L. 2004, Ch. 191.

Articles

50-2. UNEMPLOYMENT INSURANCE; CONTRIBUTING, REIMBURSING AND RATED
GOVERNMENTAL EMPLOYMENT.

**Article 2.—UNEMPLOYMENT
INSURANCE; CONTRIBUTING,
REIMBURSING AND RATED
GOVERNMENTAL EMPLOYMENT**

50-2-21a. Computation of employer contribution rates for calendar years 2010 and 2011. (a) For the purpose of computation of employer contribution rates for calendar years 2010 and 2011, the following definitions shall apply:

(1) The term “contribution rate,” as used in K.A.R. 50-2-21, shall mean the specific tax rate assigned to a particular tax rate group. The contribution rate is the rate assessed on each of the 51 rate groups determined pursuant to K.S.A. 44-710a(a)(2)(D), and amendments thereto.

(2) The term “the 2010 original tax rate computation table,” as used in K.S.A. 44-710 and amendments thereto and in this regulation, shall mean the rates calculated in the initial calculation for calendar year 2010 of active eligible employer accounts pursuant to K.A.R. 50-2-21(e) before any readjustments leading to the readjusted final effective contribution rates are calculated pursuant to K.A.R. 50-2-21.

(b) Despite the planned yield determined pursuant to schedule III and other provisions of K.S.A. 44-710a and amendments thereto, for cal-

endar years 2010 and 2011, the tax rates for eligible employers with positive account balances shall be calculated pursuant to K.S.A. 44-710, and amendments thereto, and these regulations.

(c) Despite K.A.R. 50-2-21(e), for calendar years 2010 and 2011, the contribution rates assigned to groups 1 through 51 of eligible employers as determined pursuant to K.S.A. 44-710a(a)(2)(D), and amendments thereto, shall be the rates listed in the 2010 original tax rate computation table. For the purposes of K.S.A. 44-710a and amendments thereto, for calendar years 2010 and 2011, employers in groups 33 through 51 shall pay a contribution rate of 5.4 percent.

(d) For calendar year 2011, new experience ratings for employers shall be calculated by the secretary, and employers shall be assigned to tax rate groups based upon these experience ratings. However, the tax rates for rate groups 1 through 51 of eligible employers shall not be recalculated for 2011, and the rates for the individual rate groups shall be those set for calendar year 2010 as specified in subsection (c).

(e) This regulation shall expire on January 1, 2012. (Authorized by K.S.A. 2009 Supp. 44-714; implementing K.S.A. 2009 Supp. 44-710, as amended by 2010 HB 2676, sec. 1; effective, T-50-5-12-10, May 12, 2010; effective Aug. 27, 2010.)

Agency 51

Department of Labor—

Division of Workers Compensation

Editor's Note:

The Department of Human Resources was renamed the Department of Labor by Executive Reorganization Order No. 31. See L. 2004, Ch. 191.

Editor's Note:

This agency was formerly entitled "Workmen's Compensation Director," see Executive Reorganization Order No. 14 (L. 1976, ch. 354).

- 51-3. TERMINATION OF COMPENSABLE CASES.
- 51-7. MEASUREMENT OF DISABILITY.
- 51-9. MEDICAL AND HOSPITAL.
- 51-17. TIME, COMPUTATION AND EXTENSION.

ARTICLE 1.—FORMS

51-1-1. (Authorized by K.S.A. 44-573; implementing K.S.A. 44-505, 44-508, 44-510b, 44-527, 44-532, 44-534, 44-534a, 44-542a, 44-543, 44-557, 44-567; effective Jan. 1, 1966; amended, E-74-31, July 1, 1974; amended May 1, 1975; amended May 1, 1983; revoked Nov. 26, 2018.)

51-1-26. Submissions; electronic filing (E-filing) system. Except as otherwise specified in the Kansas workers compensation act and the implementing regulations, all forms and other submissions required to be filed with the director or the division of workers compensation (division) in the Kansas department of labor shall be filed through the electronic filing (E-filing) system. Forms filed with the division shall be the forms prescribed or approved by the director.

(a) On and after November 30, 2018, in all workers compensation claims before the division, use of the division's electronic filing system, which is known as the online system for claims administration research and regulation (OSCAR), shall be required for all parties represented by legal counsel. Self-represented parties may file through the E-filing system but shall not be required to do so, as specified in K.A.R. 51-17-2.

(b) Electronic filing shall mean the process by which documents and submissions are created online and by which paper documents are scanned,

uploaded, and filed with the division and served upon parties by electronic transmission using the E-filing system. This shall include any documents that become part of the case record, whether submitted by the division or by the litigants. Document service using the E-filing system upon a party represented by legal counsel or a self-represented party choosing to use the E-filing system shall constitute valid service. Document service by or on parties who are not represented by legal counsel and who have not chosen to use the E-filing system shall be performed as otherwise specified in K.A.R. 51-17-2.

(c) Access to the E-filing system shall be through the division's web site. In order to register as a user for an account with the E-filing system, the user shall agree to register and to be bound by and adhere to the terms and conditions of use.

(d) Each submission shall be considered filed when received by the E-filing system. (Authorized by K.S.A. 44-573; implementing K.S.A. 2017 Supp. 44-508, K.S.A. 2017 Supp. 44-532, K.S.A. 2017 Supp. 44-534, K.S.A. 2017 Supp. 44-536a; effective Nov. 26, 2018.)

Article 3.—TERMINATION OF COMPENSABLE CASES

51-3-8. Pretrial stipulations. The parties shall be prepared at the first hearing to agree on

the claimant's average weekly wage, unless the weekly wage is to be made an issue in the case.

(a) Before the first hearing takes place, the parties shall exchange medical information and confer as to what issues can be stipulated to and what issues are to be in dispute in the case. The following stipulations shall be used by the parties in every case:

QUESTIONS TO CLAIMANT

- (1) In what county is it claimed that claimant met with personal injury by accident? If in a different county from that in which the hearing is held, then the parties shall stipulate that they consent to the conduct of the hearing in the county in which it is being held.
- (2) Upon what date is it claimed that claimant met with personal injury by accident?
- (3) Upon what date is it claimed that claimant met with personal injury by repetitive trauma?

QUESTIONS TO RESPONDENT

- (4) Does respondent admit that claimant met with personal injury by accident on the date alleged?
- (5) Does respondent admit that claimant met with personal injury by repetitive trauma on the date alleged?
- (6) Does respondent admit that claimant's alleged personal injury "arose out of and in the course" of claimant's employment?
- (7) Does respondent admit proper notice?
- (8) Does respondent admit that the relationship of employer and employee existed?
- (9) Does respondent admit that the parties are covered by the Kansas workers compensation act?
- (10) Did the respondent have an insurance carrier on the date of the alleged accident? If so, what is the name of the insurance company? Was the respondent self-insured?
- (11) Does respondent admit that the accident or repetitive trauma was the prevailing factor causing the injury, the medical condition, and the resulting disability or impairment?

QUESTIONS TO BOTH PARTIES

- (12) What was the average weekly wage?
- (13) Has any compensation been paid?
- (14) Has any medical or hospital treatment been furnished? Is claimant making claim for any future medical treatment?

- (15) Has claimant incurred any medical or hospital expense for which reimbursement is claimed?
- (16) What was the nature and extent of the disability suffered as a result of the alleged injury?
- (17) What medical and hospital expenses does the claimant have?
- (18) What are the additional dates of temporary total disability, if any are claimed?
- (19) Is the workers compensation fund to be impleaded as an additional party?
- (20) Have the parties agreed upon a functional impairment rating?

The same stipulations shall be used in occupational disease cases, except that questions regarding "personal injury" shall be changed to discover facts concerning "disability from occupational disease" or "disablement."

(b) An informal pretrial conference shall be held in each contested case before testimony is taken in a case. At these conferences the administrative law judge shall determine from the parties what issues have not been agreed upon. If the issues cannot be resolved, the stipulations and issues shall be made a part of the record.

(c) The respondent shall be prepared to admit any and all facts that the respondent cannot justifiably deny and to have payrolls available in proper form to answer any questions that might arise as to the average weekly wage. Evidence shall be confined to the matters actually ascertained to be in dispute. The administrative law judge shall not be bound by rules of civil procedure or evidence. Hearsay evidence may be admissible unless irrelevant or redundant.

(d) All parties shall be given reasonable opportunity to be heard. The testimony taken at the hearing shall be reported and transcribed. That testimony, together with documentary evidence introduced, shall be filed with the division of workers compensation, where the evidence shall become a permanent record. Each award or order made by the administrative law judge shall be set forth in writing, with copies mailed to the parties.

(e) Permission to withdraw admissions or stipulations shall be decided by the administrative law judge, depending on the circumstances in each instance.

(f) Subpoena forms shall be furnished by the director upon request. The party subpoenaing witnesses shall be responsible for the completion,

service, and costs in connection with the subpoenas. (Authorized by K.S.A. 44-573; implementing K.S.A. 2010 Supp. 44-523, as amended by L. 2011, ch. 55, sec. 17, and K.S.A. 2010 Supp. 44-551; effective Jan. 1, 1966; amended Jan. 1, 1969; amended Jan. 1, 1973; amended Jan. 1, 1974; amended May 1, 1976; amended Feb. 15, 1977; amended May 1, 1978; amended May 1, 1983; amended May 22, 1998; amended Dec. 23, 2011.)

Article 7.—MEASUREMENT OF DISABILITY

51-7-8. Computation of compensation.

(a)(1) If a worker suffers a loss or the loss of use to a member and, in addition, suffers other injuries contributing to the temporary total disability, compensation for the temporary total disability shall not be deductible from the scheduled amount for those weeks of temporary total disability attributable to the other injuries.

(2) The weekly compensation rate for temporary total compensation shall be computed by multiplying .6667 times the worker's average weekly wage. This figure shall be subject to the statutory maximum set in K.S.A. 44-510c, and amendments thereto.

(b) If a healing period of 10% of the schedule or partial schedule is granted, not exceeding 15 weeks, the healing period shall be added to the weeks on the schedule or partial schedule before the following computations are made.

(1) If a loss of or the loss of use occurs to a scheduled member of the body, compensation shall be computed as follows:

(A) Deduct the number of weeks of temporary total compensation from the schedule;

(B) multiply the difference by the percent of loss or the loss of use to the member; and

(C) multiply the result by the applicable weekly temporary total compensation rate.

(2) If part of a finger, thumb, or toe is amputated, compensation shall be calculated as follows:

(A) Multiply the percent of loss, as governed by K.S.A. 44-510d, and amendments thereto, by the number of weeks on the full schedule for that member;

(B) deduct the temporary total compensation; and

(C) multiply the remainder by the weekly temporary total compensation rate.

(3) If a scheduled member other than a part of a finger, thumb, or toe is amputated, compensa-

tion shall be computed by multiplying the number of weeks on the schedule by the worker's weekly temporary total compensation rate. The temporary total compensation previously paid shall be deducted from the total amount allowed for the member.

(c)(1) Each injury involving the metacarpals shall be considered an injury to the hand. Each injury involving the metatarsals shall be considered an injury to the foot.

(2) If the injury results in loss of use of one or more fingers and also a loss of use of the hand, the compensation payable for the injury shall be on the schedule for the hand. The percentage of permanent partial loss of use of the hand shall be at least sufficient to equal the compensation payable for the injuries to the finger or fingers alone.

(3) Each injury involving the hip joint shall be computed on the basis of a disability to the body as a whole.

(4) Each injury at the joint on a scheduled member shall be considered a loss to the next higher schedule.

(5) If the tip of a finger, thumb, or toe is amputated, the amputation does not go through the bone, and it is determined that a disability exists, the disability rating shall be based on a computation of a partial loss of use of the entire finger. (Authorized by K.S.A. 44-573; implementing K.S.A. 44-510d, as amended by 2011 HB 2134, sec. 8; effective Jan. 1, 1966; amended Jan. 1, 1971; amended Jan. 1, 1973; amended, E-74-31, July 1, 1974; amended May 1, 1975; amended Feb. 15, 1977; amended May 1, 1978; amended May 1, 1983; amended, T-88-20, July 1, 1987; amended May 1, 1988; amended May 22, 1998; amended Nov. 28, 2011.)

Article 9.—MEDICAL AND HOSPITAL

51-9-7. Fees for medical and hospital services. Fees for medical, surgical, hospital, dental, and nursing services, medical equipment, medical supplies, prescriptions, medical records, and medical testimony rendered pursuant to the Kansas workers compensation act shall be the lesser of the following:

(a) The usual and customary charge of the health care provider, hospital, or other entity providing the health care services; or

(b) the amount allowed by the "2019 schedule of medical fees" published by the Kansas department of labor, effective on March 29, 2019, and

approved by the director of workers compensation on November 21, 2018, including the ground rules for each type of medical treatment or service within the schedule and the appendix, which is hereby adopted by reference.

This regulation shall be effective on and after March 29, 2019. (Authorized by and implementing K.S.A. 2018 Supp. 44-510i; effective Jan. 1, 1966; amended Jan. 1, 1969; amended Jan. 1, 1973; amended May 1, 1976; amended May 1, 1978; amended, T-88-20, July 1, 1987; amended May 1, 1988; amended Nov. 1, 1993; amended April 5, 1996; amended Aug. 29, 1997; amended Oct. 1, 1999; amended Dec. 1, 2001; amended Dec. 1, 2003; amended Dec. 2, 2005; amended Jan. 1, 2008; amended Jan. 1, 2010; amended Jan. 1, 2011; amended Jan. 1, 2012; amended Jan. 1, 2014; amended Jan. 1, 2015; amended Jan. 1, 2017; amended March 29, 2019.)

51-9-15. (Authorized by K.S.A. 74-717, 44-557a, 44-573; implementing K.S.A. 44-557a, 74-716; effective Aug. 9, 2002; revoked July 19, 2013.)

51-9-17. Release 3.1 standards for trading partner profiles; submission of data; first reports of injury. (a) Each insurer, group-funded workers compensation pool, and self-insured employer shall participate in the electronic data interchange (EDI) program and shall submit to the director a completed EDI trading partner profile at least 30 days before submitting claim information pursuant to the international association of industrial accident boards and commissions' (IAIABC's) release 3.1 standards, as provided in K.S.A. 44-557a and amendments thereto. The EDI trading partner profile shall be completed according to the "Kansas EDI release 3.1 guide for reporting first (FROI) and subsequent (SROI) reports of injury" as revised on July 16, 2018 by the Kansas department of labor and hereby adopted by reference. This document shall be referred to as the "Kansas EDI release 3.1 guide" in this regulation.

(b) Each insurer, group-funded workers compensation pool, and self-insured employer shall report to the director within five days any changes to information submitted in the EDI trading partner profile.

(c) All claim information submitted pursuant to K.S.A. 44-557a, and amendments thereto, by electronic data interchange shall be submitted according to the Kansas EDI release 3.1 guide.

(d) All claim information submitted pursuant to K.S.A. 44-557a, and amendments thereto, and the Kansas EDI release 3.1 guide's first report of injury, commonly called "FROI 00," shall be considered the filing of an accident report pursuant to K.S.A. 44-557, and amendments thereto. This information shall not be open to public inspection, except as provided in K.S.A. 44-550b and amendments thereto.

(e) All claim information submitted pursuant to K.S.A. 44-557a, and amendments thereto, shall be considered a medical record to the extent that the information refers to an individual worker's identity. No references in the claim information to an individual worker's identity shall be open to public inspection, except as provided in K.S.A. 44-550b and amendments thereto. For purposes of this regulation, the claim number used by an insurance carrier, self-insured employer, or group-funded workers compensation pool to identify an individual worker's claim shall be considered a reference to the individual worker's identity.

(f) On or before the compliance date specified in subsection (g), each insurer shall file claim information for all "lost time/indemnity" and "denied" cases through EDI rather than by submitting paper forms. The insurer shall file the electronic form in accordance with the Kansas EDI release 3.1 guide.

(g) Each insurer shall comply on or before the implementation date of November 29, 2018 for reporting electronic FROI or SROI. Each claim administrator submitting claims as EDI filings in production status using the IAIABC's release 3 national standard shall convert to release 3.1 and shall be in production status by the implementation date. (Authorized by K.S.A. 44-573 and K.S.A. 74-717; implementing K.S.A. 2018 Supp. 44-550b, K.S.A. 2018 Supp. 44-557, K.S.A. 2018 Supp. 44-557a, and K.S.A. 74-716; effective Jan. 1, 2004; amended June 17, 2005; amended Feb. 8, 2013; amended, T-51-11-15-18, Nov. 15, 2018; amended March 15, 2019.)

Article 17.—TIME, COMPUTATION AND EXTENSION

51-17-2. Methods of filing; service. On and after November 30, 2018, each party represented by legal counsel shall file workers compensation case documents through the electronic filing (E-filing) system of the division of workers compensation (division) in the Kansas department of la-

bor, as specified in K.A.R. 51-1-26. Any party not represented by legal counsel may file using the division's electronic filing system. If a party not represented by legal counsel chooses not to use the division's electronic filing system, the party shall file by facsimile, by mail, or by hand-delivery directly to the division and shall serve a copy of each document on the parties.

(a) Definitions. Each of the following terms as used in this regulation, unless the context requires otherwise, shall have the meaning specified in this subsection:

(1) "Document" shall include not more than one pleading and corresponding exhibits.

(2) "Facsimile filing" and "filing by fax" mean the facsimile transmission of a document to the division for filing with the division.

(3) "Facsimile machine" means a machine that can send a facsimile transmission.

(4) "Facsimile transmission" means the transmission of a copy of a document by a system that encodes a document into electronic signals, transmits the signals over a telephone line or other communications medium, and reconstructs the signals to print a duplicate of the document at the receiving end.

(5) "Fax" is an abbreviation for "facsimile" and means, as indicated by the context, the facsimile transmission or document so transmitted.

(6) "Filing" means the act of submitting a document to the division for the division's consideration and action. A document is filed by delivering it to the division by one of the means specified in this regulation.

(7) "Filing by hand-delivery" means submitting a document to the division by delivery in person to the division. Proof of filing by hand-delivery is established by retention of a copy of the hand-delivered document that has been date-stamped by an employee of the division at the time of the hand-delivery.

(8) "Filing by mail" means submitting a document to the division through the United States postal service, or other service or system by which letters and parcels are collected and delivered for a fee, addressed to an office of the division of workers compensation. Filing by mail is complete upon receipt by the division.

(9) "Serve" means to deliver a document, or copy thereof, by a party in a legal action or proceeding in which the party is involved, to another person, entity or party, electronically, by fax, by mail, or by hand-delivery.

(10) "Service by fax" means the transmission of a document by facsimile machine. Service by fax shall be complete upon generation of a transmission record by the transmitting machine indicating the successful transmission of the entire document. Service that occurs after midnight, central standard time, shall be deemed to have occurred on the next day.

(11) "Service by hand-delivery" means the delivery in person of a document to the party upon whom service is required or, if the party is a nonperson entity, by handing the document to a person in charge or person designated for this purpose at an office of the party.

(12) "Service by mail" means the delivery of a document by United States postal service, or other service or system by which letters and parcels are collected and delivered for a fee, addressed to the party's last known address. Service by mail shall be presumed if a person fills out and signs a written certificate of service.

(13) "Transmission record" means the document printed by the sending facsimile machine stating the telephone number of the receiving machine, the number of pages sent, the transmission time, and an indication of any errors in transmission.

(b) Form of documents.

(1) The document placed in the transmitting fax machine shall comply with all applicable requirements on the form, format, and signature of papers.

(2) The first page of each document filed by fax shall include the words "by fax." Each page shall be numbered and shall include an abbreviated caption of the case and an abbreviated title of the document. The party shall also include the party's name, address, telephone number, and fax number on the document.

(c) Methods of filing by a party not represented by legal counsel.

(1) If a party not represented by legal counsel chooses not to use the division's electronic filing system, the party may file by fax directly to the division of workers compensation, at the facsimile numbers authorized, or by mail or hand-delivery to the division.

(2) The division's facsimile machine shall be available on a 24-hour basis. This provision shall not prevent the division from sending documents by fax or providing for normal repair and maintenance of the fax machine. Facsimile filings received in the division shall be deemed filed at the time printed by the division facsimile machine on the final page of the facsimile document received.

(3) Each facsimile document filed shall be accompanied by the facsimile transmission cover sheet, which shall contain the date, the docket number, case caption, party name, address, telephone and fax numbers, and the name of the document. The cover sheet shall be the first page transmitted.

(4) Each party filing by fax shall cause the transmitting facsimile machine to print a transmission record of each filing by fax. If the facsimile filing is not filed with the division due to an error in the transmission of the document the occurrence of which was unknown to the sender, any other failure not within the sender's control, or a failure to process the facsimile filing when received by the division, the sender may move the administrative law judge or the workers compensation board for an order to accept the timely filing of the document. The motion shall be accompanied by the transmission record, a copy of the document transmitted, and an affidavit of transmission by fax as set forth in a form specified by the director.

(5) Filing of documents by mail, properly addressed with postage or delivery fees paid, or by hand-delivery to the division's office in Topeka, Kansas shall be complete upon receipt by the division.

(d) Possession of documents. Each party not represented by legal counsel who files by fax shall retain the original document in the party's possession or control during the pendency of the action and shall produce this document upon request by the division, administrative law judge, workers compensation board, or any party to the action. Upon failure to produce the document, the fax may be stricken, and the party may be subject to sanctions under K.S.A. 44-5,120(d)(20), and amendments thereto.

(e) Signatures. Each signature reproduced by facsimile transmission shall be considered an original signature.

(f) Service by the division by electronic transmission and by mail.

The division shall serve documents and notices requiring service electronically upon any party represented by legal counsel and upon any party not represented by legal counsel who has elected to use the division's electronic filing system. Documents and notices requiring service shall be served by mail on a party not represented by legal counsel who has not elected to use the division's electronic filing system.

(g) Certificates of service.

(1) Each electronically filed document shall include a certificate of service if service is required. Each certificate of service by electronic transmission shall include the following:

(A) The date of electronic transmission;

(B) a statement that the service was made by electronic transmission;

(C) the name and electronic-mail address of each party served; and

(D) the signature of the person serving the document by electronic transmission.

(2) Each certificate of service by fax shall include the following:

(A) The date of transmission;

(B) the name and facsimile machine telephone number of each party served;

(C) a statement that the document was served by facsimile transmission and that the transmission was reported as complete and without error; and

(D) the signature of the person serving the document by facsimile transmission.

(3) Each certificate of service by mail shall include the following:

(A) The date of mailing;

(B) the name and mailing address of each party served;

(C) a statement that the document was served by depositing it in the mail; and

(D) the signature of the person serving the document by mail. (Authorized by K.S.A. 44-573; implementing K.S.A. 2017 Supp. 44-534, K.S.A. 2017 Supp. 44-551; effective May 22, 1998; amended Nov. 26, 2018.)

54-4. CHILDREN'S INTERNET PROTECTION; PUBLIC LIBRARY REQUIREMENTS.

Article 4.—CHILDREN'S INTERNET PROTECTION; PUBLIC LIBRARY REQUIREMENTS

54-4-1. Public library internet access policy; adoption and review. (a) The governing body of each public library shall adopt an internet access policy that meets the applicable requirements of subsection (b) and K.S.A. 2013Supp. 75-2589, and amendments thereto.

(b) Each internet access policy shall meet the following requirements:

(1) State that the purpose of the policy is to restrict access to those materials that are child pornography, are harmful to minors, or are obscene;

(2) state how the public library will meet the

applicable requirements of K.S.A. 2013 Supp. 75-2589, and amendments thereto;

(3) require the public library to inform its patrons of the procedures that library employees follow to enforce the applicable requirements of K.S.A. 2013 Supp. 75-2589, and amendments thereto; and

(4) require the public library to inform its patrons that procedures for the submission of complaints about the policy, the enforcement of the policy, and observed patron behavior have been adopted and are available for review.

(c) The governing body of each public library shall review its internet access policy at least once every three years. (Authorized by and implementing K.S.A. 2013 Supp. 75-2589; effective March 14, 2014.)

Article 2.—REQUIREMENTS FOR APPROVED NURSING PROGRAMS

60-2-101. Requirements for initial approval. (a) Administration and organization.

(1) The nursing education program or the institution of which it is a part shall be a legally constituted body. The controlling body shall be responsible for general policy and shall provide for the financial support of the nursing education program.

(2) Authority and responsibility for administering the nursing education program shall be vested in the nurse administrator of the nursing education program.

(3) The program shall be accredited, be part of an institution that is accredited, or be in the process of being accredited by an agency that is approved by the United States department of education.

(b) Application. Each new or converted nursing education program shall submit an initial application 60 days before a scheduled board meeting. The application shall include the following:

- (1) The course of study and credential to be conferred;
- (2) the name and title of the administrator of the nursing education program;
- (3) the name of the controlling body;
- (4) the name and title of the administrator of the controlling body;
- (5) all sources of financial support;

(6) a proposed curriculum with the total number of hours of both theoretical and clinical instruction;

(7) the number, qualifications, and assignments of faculty members;

(8) a proposed date of initial admission of students to the program;

(9) the number of admissions each year and the number of students per admission;

(10) the admission requirements;

(11) a description of clinical facilities;

(12) copies of the current school bulletin or catalog;

(13) the name of each hospital and affiliating agency providing facilities for clinical experience. Each such hospital and affiliating agency shall be licensed or approved by the appropriate entity or entities; and

(14) signed contracts or letters from clinical facilities stating that they will provide clinical experiences for the program's students.

(c) Surveys. Each nursing education program shall be surveyed for initial approval by the board. An on-site visit shall be conducted by the board to validate information submitted in the program's initial application before granting initial approval.

(1) During an initial survey, the nurse administrator of the program shall make available the following:

(A) Administrators, prospective faculty and students, clinical facility representatives, and support services personnel to discuss the nursing education program;

(B) minutes of faculty meetings;
(C) faculty and student handbooks;
(D) policies and procedures;
(E) curriculum materials;
(F) a copy of the nursing education program's budget; and

(G) affiliating agency contractual agreements.

(2) The nurse administrator of the nursing education program or designated personnel shall take the survey team to inspect the nursing educational facilities, including satellite program facilities and library facilities.

(3) Upon completion of the survey, the nurse administrator shall be asked to correct any inaccurate statements contained in the survey report, limiting comments to errors, unclear statements, and omissions.

(d) Approval. Each nursing education program seeking approval shall perform the following:

(1) Submit a progress report that includes the following:

(A) Updated information in all areas identified in the initial application;

(B) the current number of admissions and enrollments;

(C) the current number of qualified faculty; and

(D) detailed course syllabi; and

(2) have a site visit conducted by the board's survey team after the first graduation.

(e) Denial of approval. If a nursing education program fails to meet the requirements of the board within a designated period of time, the program shall be notified by the board's designee of the board's intent to deny approval. (Authorized by K.S.A. 65-1129; implementing K.S.A. 65-1119; effective Jan. 1, 1966; amended Jan. 1, 1968; amended Jan. 1, 1972; amended Jan. 1, 1973; amended, E-74-29, July 1, 1974; modified L. 1975, Ch. 302, Sec. 2; modified, L. 1975, Ch. 396, Sec. 1, May 1, 1975; amended May 1, 1987; amended April 4, 1997; amended June 14, 2002; amended Jan. 24, 2003; amended Nov. 7, 2008; amended April 29, 2016.)

60-2-105. Clinical resources. (a) Written contractual agreements between the nursing education program and each affiliating agency shall be signed and kept on file in the nursing education program office.

(b) Clinical learning experiences and sites shall be selected to provide learning opportunities necessary to achieve the nursing education program objectives or outcomes.

(c) The faculty of each nursing education program shall be responsible for student learning and evaluation in the clinical area.

(d) The nursing education program shall provide verification that each affiliating agency used for clinical instruction has clinical facilities that are adequate for the number of students served in terms of space, equipment, and other necessary resources, including an adequate number of patients or clients necessary to meet the program objectives or outcomes.

(e) A maximum of a 1:10 faculty-to-student ratio, including students at observational sites, shall be maintained during the clinical experience.

(f) Clinical observational experiences.

(1) The objectives or outcomes for each observational experience shall reflect observation rather than participation in nursing interventions.

(2) Affiliating agencies in which observational experiences take place shall not be required to be staffed by registered nurses.

(3) Observational experiences shall constitute no more than 15 percent of the total clinical hours for the course, unless approved by the board.

(g) Clinical experiences with preceptors shall be no more than 20 percent of the total clinical hours of the nursing education program. This prohibition shall not apply to the capstone course.

(h) Each affiliating agency used for clinical instruction shall be staffed independently of student assignments.

(i) The number of affiliating agencies used for clinical experiences shall be adequate for meeting curriculum objectives or outcomes. The nursing education program faculty shall provide the affiliating agency staff with the organizing curriculum framework and either objectives or outcomes for clinical learning experiences used.

(j) A sufficient number and variety of patients representing all age groups shall be utilized to provide learning experiences that meet curriculum objectives or outcomes. If more than one nursing education program uses the same affiliating agency, the nursing education programs shall document the availability of appropriate learning experiences for all students. (Authorized by and implementing K.S.A. 65-1119; effective April 4, 1997; amended Jan. 24, 2003; amended March 6, 2009.)

60-2-106. Educational facilities. (a) Classrooms, laboratories, and conference rooms shall be available when needed and shall be adequate in size, number, and type according to the num-

ber of students and the educational purposes for which the rooms are to be used.

(b) Each nursing education program shall provide the following:

(1) A physical facility that is safe and is conducive to learning;

(2) offices that are available and adequate in size, number, and type to provide the faculty with privacy in counseling students;

(3) secure space for nursing student records; and

(4) current technological resources.

(c) The library resources, instructional media, and materials shall be of sufficient recency, pertinence, level of content, and quantity as indicated by the curriculum to meet the needs of nursing students and faculty. (Authorized by and implementing K.S.A. 65-1119; effective April 4, 1997; amended Jan. 24, 2003; amended March 6, 2009.)

Article 3.—REQUIREMENTS FOR LICENSURE AND STANDARDS OF PRACTICE

60-3-102. Duplicate of initial license.

When an individual's initial license has been lost or destroyed, a duplicate may be issued by the board upon payment of the fee specified in K.S.A. 65-1118, and amendments thereto. (Authorized by K.S.A. 65-1129; implementing K.S.A. 2015 Supp. 74-1106; effective Jan. 1, 1966; amended Jan. 1, 1972; modified, L. 1975, Ch. 302, Sec. 11, May 1, 1975; amended Nov. 21, 1994; amended April 29, 2016.)

60-3-103. Change of name. If an applicant for licensure or a licensee changes that individual's name after submitting an application or obtaining a license, the applicant or licensee shall submit legal documentation or an affidavit indicating the change of name upon a form approved by the board. The applicant or licensee shall submit the document to the board within 30 days of the change, pursuant to K.S.A. 65-1117 and amendments thereto. (Authorized by K.S.A. 65-1129; implementing K.S.A. 2015 Supp. 65-1117; effective Jan 1, 1966; amended May 1, 1975; amended April 29, 2016.)

60-3-110. Unprofessional conduct. Any of the following shall constitute "unprofessional conduct":

(a) Performing acts beyond the authorized scope of the level of nursing for which the individual is licensed;

(b) assuming duties and responsibilities within the practice of nursing without making or obtaining adequate preparation or maintaining competency;

(c) failing to take appropriate action or to follow policies and procedures in the practice situation designed to safeguard each patient;

(d) inaccurately recording, falsifying, or altering any record of a patient or agency or of the board;

(e) physical abuse, which shall be defined as any act or failure to act performed intentionally or carelessly that causes or is likely to cause harm to a patient. This term may include any of the following:

(1) The unreasonable use of any physical restraint, isolation, or medication that harms or is likely to harm a patient;

(2) the unreasonable use of any physical or chemical restraint, medication, or isolation as punishment, for convenience, in conflict with a physician's order or a policy and procedure of the facility or a state statute or regulation, or as a substitute for treatment, unless the use of the restraint, medication, or isolation is in furtherance of the health and safety of the patient;

(3) any threat, menacing conduct, or other non-therapeutic or inappropriate action that results in or might reasonably be expected to result in a patient's unnecessary fear or emotional or mental distress; or

(4) failure or omission to provide any goods or services that are reasonably necessary to ensure safety and well-being and to avoid physical or mental harm;

(f) commission of any act of sexual abuse, sexual misconduct, or sexual exploitation related to the licensee's practice;

(g) verbal abuse, which shall be defined as any word or phrase spoken inappropriately to or in the presence of a patient that results in or might reasonably be expected to result in the patient's unnecessary fear, emotional distress, or mental distress;

(h) delegating any activity that requires the unique skill and substantial specialized knowledge derived from the biological, physical, and behavioral sciences and judgment of the nurse to an unlicensed individual in violation of the Kansas nurse practice act or to the detriment of patient safety;

(i) assigning the practice of nursing to a licensed individual in violation of the Kansas nurse practice act or to the detriment of patient safety;

(j) violating the confidentiality of information or knowledge concerning any patient;

(k) willfully or negligently failing to take appropriate action to safeguard a patient or the public from incompetent practice performed by a registered professional nurse or a licensed practical nurse. "Appropriate action" may include reporting to the board of nursing;

(l) leaving an assignment that has been accepted, without notifying the appropriate authority and allowing reasonable time for replacement;

(m) engaging in conduct related to licensed nursing practice that is likely to deceive, defraud, or harm the public;

(n) diverting drugs, supplies, or property of any patient or agency;

(o) exploitation, which shall be defined as misappropriating a patient's property or taking unfair advantage of a patient's physical or financial resources for the licensee's or another individual's personal or financial advantage by the use of undue influence, coercion, harassment, duress, deception, false pretense, or false representation;

(p) solicitation of professional patronage through the use of fraudulent or false advertisements, or profiting by the acts of those representing themselves to be agents of the licensee;

(q) advertising nursing superiority or advertising the performance of nursing services in a superior manner;

(r) failing to comply with any disciplinary order of the board;

(s) failing to submit to a mental or physical examination or an alcohol or drug screen, or any combination of these, when so ordered by the board pursuant to K.S.A. 65-4924 and amendments thereto, that the individual is unable to practice nursing with reasonable skill and safety by reason of a physical or mental disability or condition, loss of motor skills or the use of alcohol, drugs, or controlled substances, or any combination of these;

(t) failing to complete the requirements of the impaired provider program of the board;

(u) failing to furnish the board, its investigators, or its representatives with any information legally requested by the board;

(v) engaging in nursing practice while using a false or assumed name or while impersonating another person licensed by the board;

(w) practicing without a license or while the license has lapsed;

(x) allowing another person to use the licensee's license to practice nursing; or

(y) knowingly aiding or abetting another in any act that is a violation of any health care licensing act. (Authorized by K.S.A. 65-1129; implementing K.S.A. 2015 Supp. 65-1120; effective May 1, 1982; amended Sept. 27, 1993; amended Sept. 6, 1994; amended Oct. 25, 2002; amended April 29, 2016.)

60-3-113. Reporting of certain misdemeanor convictions by the licensee. Pursuant to K.S.A. 65-1117 and amendments thereto, each licensee shall report to the board any misdemeanor or conviction for any of the following substances or types of conduct, within 30 days from the date the conviction becomes final:

- (a) Alcohol;
- (b) any drugs;
- (c) deceit;
- (d) dishonesty;
- (e) endangerment of a child or vulnerable adult;
- (f) falsification;
- (g) fraud;
- (h) misrepresentation;
- (i) physical, emotional, financial, or sexual exploitation of a child or vulnerable adult;
- (j) physical or verbal abuse;
- (k) theft;
- (l) violation of a protection from abuse order or protection from stalking order; or

(m) any action arising out of a violation of any state or federal regulation. (Authorized by K.S.A. 2015 Supp. 65-1117 and K.S.A. 65-1129; implementing K.S.A. 2015 Supp. 65-1117; effective Nov. 7, 2008; amended April 29, 2016.)

Article 4.—FEES

60-4-101. Payment of fees. The following fees shall be charged by the board of nursing:

- (a) Fees for professional nurses.
 - (1) Application for single-state license by endorsement to Kansas \$100.00
 - (2) Application for single-state license by examination..... 100.00
 - (3) Biennial renewal of single-state license..... 85.00
 - (4) Application for reinstatement of single-state license without temporary permit... 150.00
 - (5) Application for reinstatement of single-state license with temporary permit 150.00
 - (6) Certified copy of Kansas license 25.00
 - (7) Inactive license 10.00
 - (8) Verification of licensure..... 30.00
 - (9) Application for exempt license..... 50.00
 - (10) Renewal of exempt license 50.00
 - (11) Application for multistate license by endorsement..... 125.00

(12) Application for multistate license by examination.....	125.00
(13) Biennial renewal of multistate license	85.00
(14) Application for reinstatement of multistate license.....	150.00
(15) Application for reinstatement of multistate license with temporary permit	150.00
(b) Fees for practical nurses.	
(1) Application for single-state license by endorsement to Kansas	75.00
(2) Application for single-state license by examination.....	75.00
(3) Biennial renewal of single-state license.....	85.00
(4) Application for reinstatement of single-state license without temporary permit...	150.00
(5) Application for reinstatement of single-state license with temporary permit.....	150.00
(6) Certified copy of Kansas license	25.00
(7) Inactive license	10.00
(8) Verification of licensure.....	30.00
(9) Application for exempt license.....	50.00
(10) Renewal of exempt license.....	50.00
(11) Application for multistate license by endorsement.....	125.00
(12) Application for multistate license by examination.....	125.00
(13) Biennial renewal of multistate license.....	85.00
(14) Application for reinstatement of multistate license.....	150.00
(15) Application for reinstatement of multistate license with temporary permit	150.00

This regulation shall become effective on July 1, 2019. (Authorized by K.S.A. 65-1129; implementing K.S.A. 65-1118; effective Jan. 1, 1966; amended Jan. 1, 1972; amended, E-74-29, July 1, 1974; modified, L. 1975, Ch. 302, Sec. 5, May 1, 1975; amended, E-77-8, March 19, 1976; amended Feb. 15, 1977; amended, E-79-8, March 16, 1978; amended May 1, 1979; amended May 1, 1980; amended May 1, 1983; amended March 9, 1992; amended May 17, 1993; amended May 9, 1994; amended Feb. 6, 1995; amended April 3, 1998; amended July 1, 2001; amended April 20, 2007; amended July 1, 2014; amended May 12, 2017; amended July 1, 2019.)

60-4-103. Fees and travel expenses for school approval and approval of continuing education providers. (a) The fees for school approval and approval of continuing nursing education providers shall be the following:

(1) Application for approval — schools of nursing.....	\$1,000.00
--	------------

(2) Annual report of approval — schools of nursing.....	200.00
(3) Application for approval of continuing nursing education providers	200.00
(4) Annual report for continuing nursing education providers.....	50.00
(5) Approval of single continuing nursing education offerings.....	100.00
(6) Consultation by request, per day on site ...	300.00

(b) All fees prescribed in subsection (a) shall be due at the time of application.

(c) The person, firm, corporation, or institution requesting the board's consultation services shall pay each consultant's travel expenses. (Authorized by K.S.A. 65-1129; implementing K.S.A. 65-1118a; effective, E-82-18, Sept. 30, 1981; effective May 1, 1982; amended Sept. 14, 1992; amended May 17, 1993; amended May 9, 1994; amended June 14, 2002; amended April 17, 2015.)

Article 7.—REQUIREMENTS FOR LICENSURE AND STANDARDS OF PRACTICE

60-7-102. Duplicate of initial license.

When an individual's initial license has been lost or destroyed, a duplicate may be issued by the board upon payment of the fee specified in K.S.A. 65-4208, and amendments thereto. (Authorized by K.S.A. 65-4203; implementing K.S.A. 65-4208; modified, L. 1975, Ch. 302, Sec. 9, May 1, 1975; amended April 20, 2001; amended April 29, 2016.)

60-7-106. Unprofessional conduct. Any of the following shall constitute “unprofessional conduct”:

(a) Performing acts beyond the authorized scope of mental health technician practice for which the individual is licensed;

(b) assuming duties and responsibilities within the practice of mental health technology without adequate preparation or without maintaining competency;

(c) failing to take appropriate action or to follow policies and procedures in the practice situation designed to safeguard the patient;

(d) inaccurately recording, falsifying, or altering any record of a patient, an agency, or the board;

(e) physical abuse, which shall be defined as any act or failure to act performed intentionally or carelessly that causes or is likely to cause harm to a patient. This term may include any of the following:

(1) The unreasonable use of any physical restraints, isolation, or medication that harms or is likely to harm a patient;

(2) the unreasonable use of any physical or chemical restraint, medication, or isolation as a punishment, for convenience, in conflict with a physician's order or a policy and procedure of the facility or a statute or regulation, or as a substitute for treatment, unless the use of the restraint, medication, or isolation is in furtherance of the health and safety of the patient;

(3) any threat, menacing conduct, or other non-therapeutic or inappropriate action that results in or might reasonably be expected to result in a patient's unnecessary fear or emotional or mental distress; or

(4) any failure or omission to provide any goods or services that are reasonably necessary to ensure safety and well-being and to avoid physical or mental harm;

(f) the commission of any act of sexual abuse, sexual misconduct, or sexual exploitation related to the licensee's practice;

(g) verbal abuse, which shall be defined as any word or phrase spoken inappropriately to or in the presence of a patient that results in or might reasonably be expected to result in the patient's unnecessary fear, emotional distress, or mental distress;

(h) delegating any activity that requires the unique skill and substantial specialized knowledge derived from the biological, physical, and behavioral sciences and judgment of the mental health technician to an unlicensed individual in violation of the mental health technician's licensure act or to the detriment of patient safety;

(i) assigning the practice of mental health technology to a licensed individual in violation of the mental health technician's licensure act or to the detriment of patient safety;

(j) violating the confidentiality of information or knowledge concerning any patient;

(k) willfully or negligently failing to take appropriate action to safeguard a patient or the public from incompetent practice performed by a licensed mental health technician. "Appropriate action" may include reporting to the board of nursing;

(l) leaving an assignment that has been accepted, without notifying the appropriate authority and without allowing reasonable time for the licensee's replacement;

(m) engaging in conduct related to mental health technology practice that is likely to deceive, defraud, or harm the public;

(n) diverting drugs, supplies, or property of any patient or agency or violating any law or regulation relating to controlled substances;

(o) exploitation, which shall be defined as misappropriating a patient's property or taking unfair advantage of a patient's physical or financial resources for the licensee's or another individual's personal or financial advantage by the use of undue influence, coercion, harassment, duress, deception, false pretense, or false representation;

(p) solicitation of professional patronage through the use of fraudulent or false advertisements, or profiting by the acts of those representing themselves to be agents of the licensee;

(q) failing to comply with any disciplinary order of the board;

(r) if the licensee is participating in an impaired provider program approved by the board, failing to complete the requirements of the program;

(s) failing to submit to a mental or physical examination or an alcohol or drug screen, or any combination of these, when so ordered by the board pursuant to K.S.A. 65-4924 and amendments thereto, that the individual is unable to practice mental health technology with reasonable skill and safety by reason of a physical or mental disability or condition, loss of motor skills or the use of alcohol, drugs, or controlled substances, or any combination of these;

(t) failing to furnish the board of nursing, or its investigators or representatives, with any information legally requested by the board of nursing;

(u) engaging in mental health technology practice while using a false or assumed name or while impersonating another person licensed by the board;

(v) practicing without a license or while the individual's license has lapsed;

(w) allowing another person to use the licensee's license to practice mental health technology;

(x) knowingly aiding or abetting another in any act that is a violation of any health care licensing act;

(y) having a mental health technician license from a licensing authority of another state, agency of the United States government, territory of the United States, or country denied, revoked, limited, or suspended or being subject to any other disciplinary action. A certified copy of the record or order of denial, suspension, limitation, revocation, or any other disciplinary action issued by the licensing authority of another state, agency of the United States government, territory of the United

States, or country shall constitute prima facie evidence of such a fact;

(z) failing to report to the board of nursing any adverse action taken against the licensee by another state or licensing jurisdiction, a peer review body, a health care facility, a professional association or society, a governmental agency, a law enforcement agency, or a court for acts or conduct similar to acts or conduct that would constitute grounds for disciplinary action under this regulation; or

(aa) cheating on or attempting to subvert the validity of the examination for a license. (Authorized by K.S.A. 65-4203 implementing K.S.A. 2015 Supp. 65-4209; effective, T-88-48, Dec. 16, 1987; effective Sept. 27, 1993; amended Sept. 6, 1994; amended April 20, 2007; amended April 29, 2016.)

Article 8.—FEES

60-8-101. Payment of fees. The following fees shall be charged by the board of nursing:

(a) Mental health technician programs.

- | | |
|---|----------|
| (1) Annual renewal of program approval..... | \$100.00 |
| (2) Survey of a new program..... | 200.00 |
| (3) Application for approval of continuing education providers..... | 200.00 |
| (4) Annual renewal for continuing education providers..... | 50.00 |

(b) Mental health technicians.

This regulation shall be effective on and after July 1, 2014. (Authorized by K.S.A. 65-4203; implementing K.S.A. 65-4208; effective May 1, 1980; amended May 1, 1983; amended, T-85-49, Dec. 19, 1984; amended May 1, 1985; amended June 3, 1991; amended May 17, 1993; amended May 9, 1994; amended Feb. 6, 1995; amended April 3, 1998; amended July 1, 2001; amended April 20, 2007; amended Oct. 18, 2013; amended July 1, 2014.)

Article 9.—CONTINUING EDUCATION FOR NURSES

60-9-105. Definitions. For the purposes of these regulations, each of the following terms shall have the meaning specified in this regulation:

(a) “Approval” means the act of determining that a providership application or course offering meets applicable standards based on review of either the total program or the individual offering.

(b) “Approved provider” means a person, organization, or institution that is approved by the board and is responsible for the development, administration, and evaluation of the continuing nursing education (CNE) program or offering.

(c) “Authorship” means a person’s development of a manuscript for print or a professional paper for presentation. Each page of text that meets the definition of continuing nursing education (CNE), as defined in K.S.A. 65-1117 and amendments thereto, and is formatted according to the American psychological association’s guidelines shall equal three contact hours.

(1) Authorship of a manuscript means a person’s development of an original manuscript for a journal article or text accepted by a publisher for statewide or national distribution on a subject related to nursing or health care. Proof of acceptance from the editor or the published work shall be deemed verification of this type of credit. Credit shall be awarded only once per topic per renewal period.

(2) Authorship of a professional research paper means a person’s completion of a nursing research project as principal investigator, co-investigator, or project director and presentation to other health professionals. A program brochure, course syllabus, or letter from the offering provider identifying the person as a presenter shall be deemed verification of this type of credit. Credit shall be awarded only once each renewal period.

(d) “Behavioral objectives” means the intended outcome of instruction stated as measurable learning behaviors.

(e) “Certificate” means a document that is proof of completion of an offering consisting of one or more contact hours.

(f) “CE transcript” means a document that is proof of completion of one or more CNE offerings. Each CE transcript shall be maintained by a CNE provider.

(g) “Clinical hours” means planned learning experiences in a clinical setting. Three clinical hours equal one contact hour.

(h) “College course” means a class taken through a college or university, as described in K.S.A. 65-1119 and amendments thereto, and meeting the definition of CNE in K.S.A. 65-1117, and amendments thereto. One college credit hour equals 15 contact hours.

(i) “Computer-based instruction” means a learning application that provides computer control to solve an instructional problem or to facilitate an instructional opportunity.

(j) “Contact hour” means 50 total minutes of participation in a learning experience that meets the definition of CNE in K.S.A. 65-1117, and amendments thereto. Fractions of hours over 30 minutes to be computed towards a contact hour shall be accepted.

(k) “Distance learning” means the acquisition of knowledge and skills through information and instruction delivered by means of a variety of technologies.

(l) “Independent study” means a self-paced learning activity undertaken by the participant in an unstructured setting under the guidance of and monitored by an approved provider. This term shall include self-study programs, distance learning, and authorship.

(m) “Individual offering approval” and “IOA” mean a request for approval of an education offering meeting the definition of CNE, pursuant to K.S.A. 65-1117 and amendments thereto, but not presented by an approved provider or other acceptable approving body, as described in K.S.A. 65-1119 and amendments thereto.

(n) “In-service education” and “on-the-job training” mean learning activities in the work setting designed to assist the individual in fulfilling job responsibilities. In-service education and on-the-job-training shall not be eligible for CNE credit.

(o) “Offering” means a single CNE learning experience designed to enhance knowledge, skills, and professionalism related to nursing. Each offering shall consist of at least 30 minutes to be computed towards a contact hour.

(p) “Orientation” means formal or informal instruction designed to acquaint employees with the institution and the position. Orientation shall not be considered CNE.

(q) “Program” means a plan to achieve overall CNE goals.

(r) “Refresher course” means a course of study providing review of basic preparation and current developments in nursing practice.

(s) “Total program evaluation” means a systematic process by which an approved provider analyzes outcomes of the overall CNE program in order to make subsequent decisions. (Authorized by and implementing K.S.A. 2015 Supp. 65-1117 and K.S.A. 65-1119; effective Sept. 2, 1991; amended March 9, 1992; amended April 26, 1993; amended April 3, 1998; amended April 20, 2001; amended Oct. 25, 2002; amended March 6, 2009; amended May 10, 2013; amended April 29, 2016.)

60-9-106. Continuing nursing education for license renewal. (a) At the time of license renewal, any licensee may be required to submit proof of completion of 30 contact hours of approved continuing nursing education (CNE). This proof shall be documented as follows:

(1) For each approved CNE offering, a certificate or a transcript that clearly designates the number of hours of approved CNE that have been successfully completed, showing the following:

(A) Name of CNE offering;

(B) provider name or name of the accrediting organization;

(C) provider number or number of the accrediting organization, if applicable;

(D) offering date;

(E) number of contact hours awarded; and

(F) the licensee’s name and license number as shown on the course roster; or

(2) an approved Kansas state board of nursing IOA, which shall include approval of college courses that meet the definition of continuing education in K.S.A. 65-1117, and amendments thereto.

(b) The required 30 contact hours of approved CNE shall have been completed during the most recent prior licensing period between the first date of the licensing period and the date that the licensee submits the renewal application as required in K.S.A. 65-1117, and amendments thereto, and K.A.R. 60-3-108. Contact hours accumulated in excess of the 30-hour requirement shall not be carried over to the next renewal period.

(c) Acceptable CNE may include any of the following:

(1) An offering presented by an approved long-term or single provider;

(2) an offering as designated in K.S.A. 65-1119, and amendments thereto;

(3) an offering for which a licensee has submitted an IOA, which may include credit request-

ed for a college course that meets the definition of continuing education in K.S.A. 65-1117, and amendments thereto. Before licensure renewal, the licensee may submit an application for an IOA to the board, accompanied by the following:

(A) An agenda representing exact learning time in minutes;

(B) official documentation of successfully completed hours, which may include a certificate of completion or an official college transcript; and

(C) learning or behavior objectives describing learning outcomes;

(4) a maximum of 15 contact hours for the first-time preparation and presentation as an instructor of an approved offering to licensed nurses. Two contact hours of instructor credit shall be granted for each hour of presentation;

(5) an offering utilizing a board-approved curriculum developed by the American heart association, emergency nurses association, or Mandt, which may include the following:

- (A) Advanced cardiac life support;
- (B) emergency nursing pediatric course;
- (C) pediatric advanced life support;
- (D) trauma nurse core course;
- (E) neonatal resuscitation program; or
- (F) Mandt program;
- (6) independent study;
- (7) distance learning offerings;

(8) a board-approved refresher course if required for licensure reinstatement as specified in K.A.R. 60-3-105 and K.A.R. 60-11-116;

(9) participation as a member of a nursing organization board of directors or the state board of nursing, including participation as a member of a committee reporting to the board. The maximum number of allowable contact hours shall be six and shall not exceed three contact hours each year. A letter from an officer of the board confirming the dates of participation shall be accepted as documentation of this type of CNE; or

(10) any college courses in science, psychology, sociology, or statistics that are prerequisites for a nursing degree.

(d) Fractions of hours over 30 minutes to be computed towards a contact hour shall be accepted.

(e) Contact hours shall not be recognized by the board for any of the following:

(1) Identical offerings completed within a renewal period;

(2) offerings containing the same content as courses that are part of basic preparation at the level of current licensure or certification;

(3) in-service education, on-the-job training, orientation, and institution-specific courses;

(4) an incomplete or failed college course or any college course in literature and composition, public speaking, basic math, algebra, humanities, or other general education requirements unless the course meets the definition of CNE;

(5) offerings less than 30 minutes in length; or

(6) a board-approved refresher course for license renewal. (Authorized by and implementing K.S.A. 2015 Supp. 65-1117; effective Sept. 2, 1991; amended April 3, 1998; amended April 20, 2001; amended July 20, 2007; amended May 10, 2013; amended April 29, 2016.)

60-9-107. Approval of continuing nursing education. (a) Offerings of approved providers shall be recognized by the board.

(1) Long-term provider. A completed application for initial approval or five-year renewal for a long-term continuing nursing education (CNE) providership shall be submitted to the board at least 60 days before a scheduled board meeting.

(2) Single offering provider. The application for a single CNE offering shall be submitted to the board at least 30 days before the anticipated date of the first offering.

(b) Each applicant shall include the following information on the application:

(1) (A) The name and address of the organization; and

(B) the name and address of the department or unit within the organization responsible for approving CNE, if different from the name and address of the organization;

(2) the name, education, and experience of the program coordinator responsible for CNE, as specified in subsection (c);

(3) written policies and procedures, including at least the following areas:

(A) Assessing the need and planning for CNE activities;

(B) fee assessment;

(C) advertisements or offering announcements. Published information shall contain the following statement: "(name of provider) is approved as a provider of CNE by the Kansas State Board of Nursing. This course offering is approved for contact hours applicable for APRN, RN, or LPN relicensure. Kansas State Board of Nursing provider number: _____";

(D) for long-term providers, the offering approval process as specified in subsection (d);

(E) awarding contact hours, as specified in subsection (e);

(F) verifying participation and successful completion of the offering, as specified in subsections (f) and (g);

(G) recordkeeping and record storage, as specified in subsection (h);

(H) notice of change of coordinator or required policies and procedures. The program coordinator shall notify the board in writing of any change of the individual responsible for the providership or required policies and procedures within 30 days; and

(I) for long-term providers, a copy of the total program evaluation plan; and

(4) the proposed CNE offering, as specified in subsection (i).

(c) (1) Long-term provider. The program coordinator for CNE shall meet these requirements:

(A) Be a licensed professional nurse;

(B) have three years of clinical experience;

(C) have one year of experience in developing and implementing nursing education; and

(D) have a baccalaureate degree in nursing, except those individuals exempted under K.S.A. 65-1119 (e)(6) and amendments thereto.

(2) Single offering provider. If the program coordinator is not a nurse, the applicant shall also include the name, education, and experience of the nurse consultant. The individual responsible for CNE or the nurse consultant shall meet these requirements:

(A) Be licensed to practice nursing; and

(B) have three years of clinical experience.

(d) For long-term providers, the policies and procedures for the offering approval process shall include the following:

(1) A summary of the planning;

(2) the behavioral objectives;

(3) the content, which shall meet the definition of CNE in K.S.A. 65-1117 and amendments thereto;

(4) the instructor's education and experience, documenting knowledge and expertise in the content area;

(5) a current bibliography that is reflective of the offering content. The bibliography shall include books published within the past 10 years, periodicals published within the past five years, or both; and

(6) an offering evaluation that includes each participant's assessment of the following:

(A) The achievement of each objective; and

(B) the expertise of each individual presenter.

(e) An approved provider may award any of the following:

(1) Contact hours as documented on an offering agenda for the actual time attended, including partial credit for one or more contact hours;

(2) credit for fractions of hours over 30 minutes to be computed towards a contact hour;

(3) instructor credit, which shall be twice the length of the first-time presentation of an approved offering, excluding any standardized, prepared curriculum;

(4) independent study credit that is based on the time required to complete the offering, as documented by the provider's pilot test results; or

(5) clinical hours.

(f) (1) Each provider shall maintain documentation to verify that each participant attended the offering. The provider shall require each participant to sign a daily roster, which shall contain the following information:

(A) The provider's name, address, provider number, and coordinator;

(B) the date and title of the offering, and the presenter or presenters; and

(C) the participant's name and license number, and the number of contact hours awarded.

(2) Each provider shall maintain documentation to verify completion of each independent study offering, if applicable. To verify completion of an independent study offering, the provider shall maintain documentation that includes the following:

(A) The provider's name, address, provider number, and coordinator;

(B) the participant's name and license number, and the number of contact hours awarded;

(C) the title of the offering;

(D) the date on which the offering was completed; and

(E) either the completion of a posttest or a return demonstration.

(g) (1) A certificate of attendance shall be awarded to each participant after completion of an offering, or a CE transcript shall be provided according to the policies and procedures of the long-term provider.

(2) Each certificate and each CE transcript shall be complete before distribution to the participant.

(3) Each certificate and each CE transcript shall contain the following information:

(A) The provider's name, address, and provider number;

(B) the title of the offering;
(C) the date or dates of attendance or completion;

(D) the number of contact hours awarded and, if applicable, the designation of any independent study or instructor contact hours awarded;

(E) the signature of the individual responsible for the providership; and

(F) the name and license number of the participant.

(h) (1) For each offering, the approved provider shall retain the following for two years:

(A) A summary of the planning;

(B) a copy of the offering announcement or brochure;

(C) the title and objectives;

(D) the offering agenda or, for independent study, pilot test results;

(E) a bibliography;

(F) a summary of the participants' evaluations;

(G) each instructor's education and experience; and

(H) documentation to verify completion of the offering, as specified in subsection (f).

(2) The record storage system used shall ensure confidentiality and easy retrieval of records by authorized individuals.

(3) Each approved single offering CNE provider shall submit to the board the original signature roster and a typed, alphabetized roster of individuals who have completed an offering, within 15 working days of course completion.

(i) (1) Long-term provider application. The provider shall submit two proposed offerings, including the following:

(A) A summary of planning;

(B) a copy of the offering announcement or brochure;

(C) the title and behavioral objectives;

(D) the offering agenda or, for independent study, pilot test results;

(E) each instructor's education and experience;

(F) a current bibliography, as specified in paragraph (d)(5); and

(G) the offering evaluation form.

(2) Single offering provider application. The provider shall submit the proposed offering, which shall include the information specified in paragraphs (i)(1)(A) through (G).

(j) (1) Long-term provider application. Each prospective coordinator who has submitted an application for a long-term CNE providership that has been reviewed once and found deficient,

or has approval pending, shall submit all materials required by this regulation at least two weeks before the next board meeting. If the application does not meet all of the requirements or the prospective coordinator does not contact the board for an extension on or before this deadline, the application process shall be considered abandoned. A new application and fee shall be submitted if a providership is still desired.

(2) Single offering approval application. If the application for a single offering has been reviewed and found deficient, or has approval pending, the CNE coordinator shall submit all materials required by this regulation before the date of offering. If the application does not meet requirements before the offering deadline, the application shall be considered abandoned. There shall be no retroactive approval of single offerings.

(k) (1) Each approved long-term provider shall pay a fee for the upcoming year and submit an annual report for the period of July 1 through June 30 of the previous year on or before the deadline designated by the board. The annual report shall contain the following:

(A) An evaluation of all the components of the providership based on the total program evaluation plan;

(B) a statistical summary report; and

(C) for each of the first two years of the providership, a copy of the records for one offering as specified in paragraphs (h)(1)(A) through (H).

(2) If approved for the first time after January 1, a new long-term provider shall submit only the statistical summary report and shall not be required to submit the annual fee or evaluation based on the total program evaluation plan.

(l) (1) If the long-term provider does not renew the providership, the provider shall notify the board in writing of the location at which the offering records will be accessible to the board for two years.

(2) If a provider does not continue to meet the criteria for current approval established by regulation or if there is a material misrepresentation of any fact with the information submitted to the board by an approved provider, approval may be withdrawn or conditions relating to the providership may be applied by the board after giving the approved provider notice and an opportunity to be heard.

(3) Any approved provider that has voluntarily relinquished the providership or has had the providership withdrawn by the board may reapply

as a long-term provider. The application shall be submitted on forms supplied by the board and accompanied by the designated, nonrefundable fee as specified in K.A.R. 60-4-103(a)(3). (Authorized by and implementing K.S.A. 2011 Supp. 65-1117 and K.S.A. 65-1119; effective March 9, 1992; amended Sept. 27, 1993; amended April 3, 1998; amended Oct. 25, 2002; amended March 6, 2009; amended May 10, 2013.)

Article 11.—ADVANCED PRACTICE REGISTERED NURSES (APRN)

60-11-101. Definition of expanded role; limitations; restrictions. (a) Each “advanced practice registered nurse” (APRN), as defined by K.S.A. 65-1113 and amendments thereto, shall function in an expanded role to provide primary, secondary, and tertiary health care in the APRN’s role of advanced practice. Each APRN shall be authorized to make independent decisions about advanced practice nursing needs of families, patients, and clients and medical decisions based on the authorization for collaborative practice with one or more physicians. This regulation shall not be deemed to require the immediate and physical presence of the physician when care is given by an APRN. Each APRN shall be directly accountable and responsible to the consumer.

(b) “Authorization for collaborative practice” shall mean that an APRN is authorized to develop and manage the medical plan of care for patients or clients based upon an agreement developed jointly and signed by the APRN and one or more physicians. Each APRN and physician shall jointly review the authorization for collaborative practice annually. Each authorization for collaborative practice shall include a cover page containing the names and telephone numbers of the APRN and the physician, their signatures, and the date of review by the APRN and the physician. Each authorization for collaborative practice shall be maintained in either hard copy or electronic format at the APRN’s principal place of practice.

(c) “Physician” shall mean a person licensed to practice medicine and surgery by the state board of healing arts.

(d) “Prescription” shall have the meaning specified in K.S.A. 65-1626, and amendments thereto.

(e) “Prescription order” shall have the meaning specified in K.S.A. 65-1626, and amendments thereto. (Authorized by and implementing K.S.A. 65-1113, as amended by L. 2011, ch. 114, sec.

39, and K.S.A. 65-1130, as amended by L. 2011, ch. 114, sec. 44; effective May 1, 1984; amended March 31, 2000; amended Sept. 4, 2009; amended May 18, 2012.)

60-11-102. Roles of advanced practice registered nurses. The four roles of advanced practice registered nurses licensed by the board of nursing shall be the following:

(a) Clinical nurse specialist;

(b) nurse anesthetist;

(c) nurse-midwife; and

(d) nurse practitioner. (Authorized by and implementing K.S.A. 65-1113, as amended by L. 2011, ch. 114, sec. 39, and K.S.A. 65-1130, as amended by L. 2011, ch. 114, sec. 44; effective May 1, 1984; amended Sept. 4, 2009; amended May 18, 2012.)

60-11-103. Educational requirements for advanced practice registered nurses. (a)

To be issued a license as an advanced practice registered nurse in any of the roles of advanced practice, as identified in K.A.R. 60-11-102, each applicant shall meet at least one of the following criteria:

(1) Complete a formal, post-basic nursing education program located or offered in Kansas that has been approved by the board and prepares the nurse to function in the advanced role for which application is made;

(2) complete a formal, post-basic nursing education program that is not located or offered in Kansas but is determined by the board to meet the standards for program approval established by K.A.R. 60-17-101 through 60-17-108;

(3) have completed a formal, post-basic nursing education program that could be no longer in existence but is determined by the board to meet standards at least as stringent as those required for program approval by the board at the time of graduation;

(4) hold a current license to practice as an advanced practice registered nurse in the role for which application is made and that meets the following criteria:

(A) Was issued by a nursing licensing authority of another jurisdiction; and

(B) required completion of a program meeting standards equal to or greater than those established by K.A.R. 60-17-101 through 60-17-108; or

(5) complete a formal educational program of post-basic study and clinical experience that can

be demonstrated by the applicant to have sufficiently prepared the applicant for practice in the role of advanced practice for which application is made. The applicant shall show that the curriculum of the program is consistent with public health and safety policy and that it prepared individuals to perform acts generally recognized by the nursing profession as capable of being performed by persons with post-basic education in nursing.

(b) Each applicant for a license as an advanced practice registered nurse in a role other than anesthesia or midwifery shall meet one of the following requirements:

(1) Have met one of the requirements of subsection (a) before July 1, 1994;

(2) if none of the requirements in subsection (a) have been met before July 1, 1994, meet one of the requirements of subsection (a) and hold a baccalaureate or higher degree in nursing; or

(3) if none of the requirements in subsection (a) have been met before July 1, 2002, meet one of the requirements of subsection (a) and hold a master's or higher degree in a clinical area of nursing.

(c) Each applicant for a license as an advanced practice registered nurse in the role of anesthesia shall meet one of the following requirements:

(1) Have met one of the requirements of subsection (a) before July 1, 2002; or

(2) if none of the requirements in subsection (a) have been met before July 1, 2002, meet one of the requirements of subsection (a) and hold a master's degree or a higher degree in nurse anesthesia or a related field.

(d) Each applicant for a license as an advanced practice registered nurse in the role of midwifery shall meet one of the following requirements:

(1) Have met one of the requirements of subsection (a) before July 1, 2000;

(2) if none of the requirements in subsection (a) have been met before July 1, 2000, meet one of the requirements of subsection (a) and hold a baccalaureate degree in nursing; or

(3) if none of the requirements in subsection (a) have been met before January 1, 2010, meet one of the requirements of subsection (a) and hold a master's degree or a higher degree in nursing, midwifery, or a related field.

(e) A license may be granted if an individual has been certified by a national nursing organization whose certification standards have been approved by the board as equal to or greater than the corresponding standards established by the board for obtaining a license to practice as

an advanced practice registered nurse. National nursing organizations with certification standards that meet this standard shall be identified by the board, and a current list of national nursing organizations with certification standards approved by the board shall be maintained by the board. Any licensee may request that a certification program be considered by the board for approval and, if approved, included by the board on its list of national nursing organizations with approved certification standards.

(f) Each applicant who completes an advanced practice registered nurse program after January 1, 1997 shall have completed three college hours in advanced pharmacology or the equivalent.

(g) Each applicant who completes an advanced practice registered nurse program after January 1, 2001 in a role other than anesthesia or midwifery shall have completed three college hours in advanced pathophysiology or its equivalent and three college hours in advanced health assessment or its equivalent.

(h) Each applicant who completes an advanced practice registered nurse program after July 1, 2009 shall have completed three college hours in advanced pathophysiology or its equivalent and three college hours in advanced health assessment or its equivalent.

(i) Notwithstanding the provisions of subsections (a) through (h), each applicant for a license as an advanced practice registered nurse who has not gained 1,000 hours of advanced nursing practice during the five years preceding the date of application shall be required to successfully complete a refresher course as defined by the board. (Authorized by and implementing K.S.A. 65-1130, as amended by L. 2011, ch. 114, sec. 44; effective May 1, 1984; amended, T-85-16, June 5, 1984; amended May 1, 1985; amended, T-60-11-14-90, Nov. 14, 1990; amended, T-60-3-14-91, March 14, 1991; amended Sept. 2, 1991; amended March 9, 1992; amended Sept. 14, 1992; amended April 26, 1993; amended Sept. 6, 1994; amended Jan. 3, 1997; amended March 31, 2000; amended Sept. 4, 2009; amended May 18, 2012.)

60-11-104. Functions of the advanced practice registered nurse in the role of nurse practitioner. Each advanced practice registered nurse in the role of nurse practitioner shall function in an advanced role at a specialized level, through the application of advanced knowledge and skills and shall be authorized to perform the following:

(a) Provide health promotion and maintenance, disease prevention, and independent nursing diagnosis, as defined in K.S.A. 65-1113(b) and amendments thereto, and treatment, as defined in K.S.A. 65-1113(c) and amendments thereto, of acute and chronic diseases;

(b) develop and manage the medical plan of care for patients or clients, based on the authorization for collaborative practice;

(c) provide health care services for which the nurse practitioner is educationally prepared and for which competency has been established and maintained. Educational preparation may include academic coursework, workshops, institutes, and seminars if theory or clinical experience, or both, are included;

(d) provide health care for individuals by managing health problems encountered by patients and clients; and

(e) provide innovation in evidence-based nursing practice based upon advanced clinical expertise, decision making, and leadership skills and serve as a consultant, researcher, and patient advocate for individuals, families, groups, and communities to achieve quality, cost-effective patient outcomes and solutions. (Authorized by and implementing K.S.A. 65-1113, as amended by L. 2011, ch. 114, sec. 39, and K.S.A. 65-1130, as amended by L. 2011, ch. 114, sec. 44; effective May 1, 1984; amended, T-85-16, June 5, 1984; amended May 1, 1985; amended Sept. 4, 2009; amended May 18, 2012.)

60-11-104a. Protocol requirements; prescription orders. (a) Each written protocol that an advanced practice registered nurse is to follow when prescribing, administering, or supplying a prescription-only drug shall meet the following requirements:

(1) Specify for each classification of disease or injury the corresponding class of drugs that the advanced practice registered nurse is permitted to prescribe;

(2) be maintained in either a loose-leaf notebook or a book of published protocols. The notebook or book of published protocols shall include a cover page containing the following data:

(A) The names, telephone numbers, and signatures of the advanced practice registered nurse and a responsible physician who has authorized the protocol; and

(B) the date on which the protocol was adopted or last reviewed; and

(3) be kept at the advanced practice registered nurse's principal place of practice.

(b) Each advanced practice registered nurse shall ensure that each protocol is reviewed by the advanced practice registered nurse and physician at least annually.

(c) Each prescription order in written form shall meet the following requirements:

(1) Include the name, address, and telephone number of the practice location of the advanced practice registered nurse;

(2) include the name, address, and telephone number of the responsible physician;

(3) be signed by the advanced practice registered nurse with the letters A.P.R.N.;

(4) be from a class of drugs prescribed pursuant to protocol; and

(5) contain the D.E.A. registration number issued to the advanced practice registered nurse when a controlled substance, as defined in K.S.A. 65-4101(e) and amendments thereto, is prescribed.

(d) Nothing in this regulation shall be construed to prohibit any registered nurse or licensed practical nurse or advanced practice registered nurse from conveying a prescription order orally or administering a drug if acting under the lawful direction of a person licensed to practice either medicine and surgery or dentistry or licensed as an advanced practice registered nurse.

(e) When used in this regulation, terms shall be construed to have the meanings specified in K.S.A. 65-1626, and amendments thereto. (Authorized by and implementing K.S.A. 65-1130, as amended by L. 2011, ch. 114, sec. 44; effective, T-60-9-12-88, Sept. 12, 1988; effective Feb. 13, 1989; amended May 7, 1990; amended Jan. 3, 1995; amended March 31, 2000; amended May 18, 2012.)

60-11-105. Functions of the advanced practice registered nurse in the role of nurse-midwife. Each advanced practice registered nurse in the role of nurse-midwife shall function in an advanced role through the application of advanced skills and knowledge of women's health care through the life span and shall be authorized to perform the following:

(a) Provide independent nursing diagnosis, as defined in K.S.A. 65-1113(b) and amendments thereto, and treatment, as defined in K.S.A. 65-1113(c) and amendments thereto;

(b) develop and manage the medical plan of care for patients or clients, based on the authorization for collaborative practice;

(c) provide health care services for which the nurse-midwife is educationally prepared and for which competency has been established and maintained. Educational preparation may include academic coursework, workshops, institutes, and seminars if theory or clinical experience, or both, are included;

(d) in a manner consistent with subsection (c), provide health care for women, focusing on gynecological needs, pregnancy, childbirth, the postpartum period, care of the newborn, and family planning, including indicated partner evaluation, treatment, and referral for infertility and sexually transmitted diseases; and

(e) provide innovation in evidence-based nursing practice based upon advanced clinical expertise, decision making, and leadership skills and serve as a consultant, researcher, and patient advocate for individuals, families, groups, and communities to achieve quality, cost-effective patient outcomes and solutions. (Authorized by and implementing K.S.A. 65-1113, as amended by L. 2011, ch. 114, sec. 39, and K.S.A. 65-1130, as amended by L. 2011, ch. 114, sec. 44; effective May 1, 1984; amended, T-85-16, June 5, 1984; amended May 1, 1985; amended Sept. 4, 2009; amended May 18, 2012.)

60-11-106. Functions of the advanced practice registered nurse; nurse anesthetist.

The functions that may be performed by any advanced practice registered nurse functioning in the advanced role of registered nurse anesthetist shall be those functions defined in K.S.A. 65-1158, and amendments thereto. (Authorized by and implementing K.S.A. 65-1113, as amended by L. 2011, ch. 114, sec. 39, and K.S.A. 65-1130, as amended by L. 2011, ch. 114, sec. 44; effective May 1, 1984; amended, T-85-16, June 5, 1984; amended May 1, 1985; amended March 31, 2000; amended May 18, 2012.)

60-11-107. Functions of the advanced practice registered nurse in the role of clinical nurse specialist.

Each advanced practice registered nurse in the role of clinical nurse specialist shall function in an advanced role to provide evidence-based nursing practice within a specialty area focused on specific patients or clients, populations, settings, and types of care. Each clinical nurse specialist shall be authorized to perform the following:

(a) Provide independent nursing diagnosis, as

defined in K.S.A. 65-1113(b) and amendments thereto, and treatment, as defined in K.S.A. 65-1113(c) and amendments thereto;

(b) develop and manage the medical plan of care for patients or clients, based on the authorization for collaborative practice;

(c) provide health care services for which the clinical nurse specialist is educationally prepared and for which competency has been established and maintained. Educational preparation may include academic coursework, workshops, institutes, and seminars if theory or clinical experience, or both, are included;

(d) provide care for specific patients or clients or specific populations, or both, utilizing a broad base of advanced scientific knowledge, nursing theory, and skills in assessing, planning, implementing, and evaluating health and nursing care; and

(e) provide innovation in evidence-based nursing practice based upon advanced clinical expertise, decision making, and leadership skills and serve as a consultant, researcher, and patient advocate for individuals, families, groups, and communities to achieve quality, cost-effective patient outcomes and solutions. (Authorized by and implementing K.S.A. 65-1113, as amended by L. 2011, ch. 114, sec. 39, and K.S.A. 65-1130, as amended by L. 2011, ch. 114, sec. 44; effective May 1, 1984; amended, T-85-16, June 5, 1984; amended May 1, 1985; amended Sept. 4, 2009; amended May 18, 2012.)

60-11-113. License renewal. (a) Advanced practice registered nurse licenses shall be renewed on the same biennial cycle as the cycle for the registered professional nurse licensure renewal, as specified in K.A.R. 60-3-108.

(b) On and after January 1, 2013, each individual renewing a license shall have completed the required 30 contact hours of approved continuing nursing education (CNE) related to the advanced practice registered nurse role during the most recent prior license period. Proof of completion of 30 contact hours of approved CNE in the advanced practice nurse role may be requested by the board. Contact hours accumulated in excess of the 30-hour requirement shall not be carried over to the next renewal period.

(c) The number of contact hours assigned to any offering that includes a recognized standard curriculum shall be determined by the board.

(d) Any individual attending any offering not previously approved by the board may submit

an application for an individual offering approval (IOA). Credit may be given for offerings that the licensee demonstrates as having a relationship to the practice of the advanced practice registered nursing role. Each separate offering shall be approved before the individual submits the license renewal application.

(e) Approval shall not be granted for identical offerings completed within the same license renewal period.

(f) Any individual renewing a license may accumulate 15 contact hours of the required CNE from instructor credit. Each presenter shall receive instructor credit only once for the preparation and presentation of each course. The provider shall issue a certificate listing the number of contact hours earned and clearly identifying the hours as instructor credit.

(g) Fractions of contact hours may be accepted for offerings over 30 minutes.

(h) All CNE accumulated for APRN license renewal shall also be applicable to the renewal of the registered professional nurse license. (Authorized by K.S.A. 2011 Supp. 65-1117 and K.S.A. 65-1129; implementing K.S.A. 2011 Supp. 65-1117 and K.S.A. 2011 Supp. 65-1132; effective Sept. 2, 1991; amended May 9, 1994; amended July 29, 2005; amended May 18, 2012.)

60-11-116. Reinstatement of license. (a) Any nurse anesthetist whose Kansas APRN license has lapsed and who desires to obtain a reinstatement of APRN licensure shall meet the same requirements as those in K.A.R. 60-13-110.

(b) Any nurse practitioner, clinical nurse specialist, or nurse-midwife whose Kansas APRN license has lapsed may, within five years of its expiration date, reinstate the license by submitting proof that the applicant has met either of the following requirements:

(1) Obtained 30 hours of continuing nursing education related to the advanced practice registered nurse role within the preceding two-year period; or

(2) been licensed in another jurisdiction and, while licensed in that jurisdiction, has accumulated 1,000 hours of advanced practice registered nurse practice within the preceding five-year period.

(c) Any nurse practitioner, clinical nurse specialist, or nurse-midwife whose Kansas APRN license has lapsed for more than five years beyond its expiration date may reinstate the license by

submitting evidence of having attained either of the following:

(1) A total of 1,000 hours of advanced practice registered nurse practice in another jurisdiction within the preceding five-year period and 30 hours of continuing nursing education related to the advanced practice registered nurse role; or

(2) completion of a refresher course approved by the board. (Authorized by K.S.A. 2010 Supp. 65-1117, as amended by L. 2011, ch. 114, sec. 79, and K.S.A. 65-1129; implementing K.S.A. 2010 Supp. 65-1117, as amended by L. 2011, ch. 114, sec. 79, and K.S.A. 2010 Supp. 65-1132, as amended by L. 2011, ch. 114, sec. 46; effective Sept. 2, 1991; amended March 22, 2002; amended May 18, 2012.)

60-11-118. Temporary permit to practice. (a) A temporary permit to practice as an advanced practice registered nurse may be issued by the board for a period of not more than 180 days to an applicant for licensure as an advanced practice registered nurse who meets the following requirements:

(1) Was previously licensed in this state; and

(2) is enrolled in a refresher course required by the board for reinstatement of a license that has lapsed for more than five years.

(b) A one-time temporary permit to practice as an advanced practice registered nurse may be issued by the board for a period of not more than 180 days pending completion of the application for a license. (Authorized by K.S.A. 65-1129; implementing K.S.A. 2010 Supp. 65-1132, as amended by L. 2011, ch. 114, sec. 45; effective Sept. 2, 1991; amended April 26, 1993; amended May 18, 2012.)

60-11-119. Payment of fees. Payment of fees for advanced practice registered nurses shall be as follows:

(a) Initial application for license	\$50.00
(b) Biennial renewal of license	55.00
(c) Application for reinstatement of license without temporary permit.....	75.00
(d) Application for license with temporary permit	100.00
(e) Application for exempt license.....	50.00
(f) Renewal of exempt license.....	50.00

This regulation shall be effective on and after July 1, 2014. (Authorized by K.S.A. 65-1129 and K.S.A. 2013 Supp. 65-1131; implementing K.S.A. 2013 Supp. 65-1118 and 65-1131; effective Sept.

2, 1991; amended May 17, 1993; amended Feb. 6, 1995; amended April 3, 1998; amended July 1, 2001; amended April 20, 2007; amended May 18, 2012; amended July 1, 2014.)

60-11-120. Expiration dates of licenses; applications. The expiration dates of all licenses and applications shall be in accordance with K.A.R. 60-3-107 and 60-3-108. (Authorized by and implementing K.S.A. 65-1131, as amended by L. 2011, ch. 114, sec. 45, and K.S.A. 2010 Supp. 65-1132, as amended by L. 2011, ch. 114, sec. 46; effective April 3, 1998; amended July 29, 2005; amended May 18, 2012.)

60-11-121. Exempt license. (a) An exempt license shall be granted only to an advanced practice registered nurse who meets these requirements:

(1) Is not regularly engaged as an advanced practice registered nurse in Kansas, but volunteers advanced practice registered nurse services or is a charitable health care provider, as defined by K.S.A. 75-6102 and amendments thereto; and

(2) (A) Has been licensed in Kansas for the five years previous to applying for an exempt license; or

(B) has been licensed, authorized, or certified in another jurisdiction for the five years previous to applying for an exempt license and meets all requirements for endorsement into Kansas.

(b) The expiration date of the exempt license shall be in accordance with K.A.R. 60-3-108.

(c) Each application for renewal of an exempt license shall be submitted upon a form furnished by the board and shall be accompanied by the fee in accordance with K.A.R. 60-11-119. (Authorized by and implementing K.S.A. 65-1131, as amended by L. 2011, ch. 114, sec. 45; effective April 3, 1998; amended Oct. 25, 2002; amended July 29, 2005; amended May 18, 2012.)

Article 12.—CONTINUING EDUCATION FOR MENTAL HEALTH TECHNICIANS

60-12-106. License renewal. (a) Each licensee shall submit a renewal application and the renewal fee specified in K.A.R. 60-8-101 no later than December 31 in each even-numbered year.

(b) Any licensed mental health technician may be required to submit proof of completion of 30 contact hours during the most recent prior licensing period. Contact hours accumulated in excess

of the 30-hour requirement shall not be carried over to the next license renewal period. This proof of completion shall be documented as follows:

(1) (A) Name of the continuing mental health technician education (CMHTE) offering or college course;

(B) provider name or name of the accrediting organization;

(C) provider number or number of the accrediting organization, if applicable;

(D) offering date; and

(E) number of contact hours; or

(2) approved IOA.

(c) Any individual attending an offering not previously approved by the board may submit an application for an individual offering approval (IOA). Credit may be given for offerings that the licensee demonstrates to be relevant to the licensee's practice of mental health technology. Each separate offering shall be approved before the licensee submits the license renewal application.

(d) Approval shall not be granted for identical offerings completed within a license renewal period.

(e) Any licensed mental health technician may acquire 30 contact hours of CMHTE from independent study, as defined in K.S.A. 65-4202 and amendments thereto.

(f) Any licensed mental health technician may accumulate 15 contact hours of the required CMHTE from instructor credit. Each presenter shall receive instructor credit only once for preparation and presentation of each course. The provider shall issue a certificate listing the number of contact hours earned and clearly identifying the hours as instructor credit.

(g) Fractions of hours may be accepted for offerings over 30 minutes to be computed towards a contact hour. (Authorized by K.S.A. 65-4203; implementing K.S.A. 2011 Supp. 65-4205; effective Sept. 2, 1991; amended Feb. 16, 1996; amended Oct. 12, 2001; amended May 10, 2013.)

Article 13.—FEES; REGISTERED NURSE ANESTHETIST

60-13-101. Payment of fees. Payment of fees for registered nurse anesthetists shall be as follows:

- (a) Initial application for authorization
as a registered nurse anesthetist..... \$75.00
- (b) Biennial renewal of authorization
as a registered nurse anesthetist..... 55.00

- (c) Application for reinstatement of authorization as a registered nurse anesthetist without temporary permit..... 60.00
- (d) Application for reinstatement of authorization with temporary permit as a registered nurse anesthetist..... 70.00
- (e) Initial application with temporary authorization to practice as a registered nurse anesthetist 110.00
- (f) Certified copy of authorization to practice as a registered nurse anesthetist..... 20.00

This regulation shall be effective on and after July 1, 2014. (Authorized by K.S.A. 65-1129 and 65-1164; implementing K.S.A. 2013 Supp. 65-1118, 65-1154, 65-1155; effective, T-87-38, Nov. 19, 1986; effective May 1, 1987; amended May 17, 1993; amended Feb. 6, 1995; amended July 1, 2001; amended July 1, 2014.)

60-13-103. School approval requirements. (a) In order for a school of nurse anesthesia to be approved by the board of nursing, consideration shall be given as to whether the school meets the requirements in standards I, II, III, IV, and V and the appendix in the “standards for accreditation of nurse anesthesia educational programs,” as revised by the council on accreditation of nurse anesthesia educational programs in January 2006 and effective March 1, 2006. These portions are hereby adopted by reference.

(b) An up-to-date list of approved programs shall be prepared and kept by the board.

(c) A program shall not be approved without the formal action of the board.

(d) (1) A program review shall be conducted by the board at least once every five years, or in conjunction with the council on accreditation review cycles.

(2) The school shall submit to the board of nursing for review a copy of a self-study report documenting compliance with the established standards.

(3) Additional information may be requested by the board of nursing to assess the school’s compliance with standards.

(4) An on-site visit to the school of nurse anesthesia may be conducted by the board of nursing if there is reason to believe that the program is in violation of the established standards or if the program is placed on public probation by the council on accreditation. (Authorized by K.S.A. 65-1164; implementing K.S.A. 65-1152; effective, T-88-48, Dec. 16, 1987; effective May 1, 1988; amended March 22, 2002; amended March 6, 2009.)

60-13-104. Exam approval. The content outline of the examination administered by the council on certification of nurse anesthetists shall be reviewed and approved annually by the board of nursing. (Authorized by K.S.A. 65-1164; implementing K.S.A. 65-1152; effective, T-88-48, Dec. 16, 1987; effective May 1, 1988; amended March 6, 2009.)

60-13-112. License renewal. (a) Each license to practice as a registered nurse anesthetist (RNA) in Kansas shall be subject to the same biennial expiration dates as those specified in K.A.R. 60-3-108 for the registered professional nurse license in Kansas.

(b) Each individual renewing a license shall have completed the required 30 contact hours of approved continuing nursing education (CNE) related to nurse anesthesia during the most recent prior licensure period. Proof of completion of 30 contact hours of approved CNE in the nurse anesthesia role may be requested by the board. Contact hours accumulated in excess of the 30-hour requirement shall not be carried over to the next renewal period.

(c) The number of contact hours assigned to any offering that includes a recognized standard curriculum shall be determined by the board.

(d) Any individual attending any offering not previously approved by the board may submit an application for an individual offering approval (IOA). Credit may be given for offerings that the licensee demonstrates as having a relationship to the practice of nurse anesthesia. Each separate offering shall be approved before the individual submits the license renewal application.

(e) Approval shall not be granted for identical offerings completed within the same license renewal period.

(f) Any individual renewing a license may accumulate 15 contact hours of the required CNE from instructor credit. Each presenter shall receive instructor credit only once for the preparation and presentation of each course. The provider shall issue a certificate listing the number of contact hours earned and clearly identifying the hours as instructor credit.

(g) Fractions of contact hours may be accepted for offerings over 30 minutes.

(h) All CNE accumulated for RNA license renewal shall also be applicable to the renewal of the registered professional nurse license. (Authorized by K.S.A. 65-1164; implementing K.S.A. 65-

1159; effective Sept. 2, 1991; amended Feb. 16, 1996; amended Oct. 12, 2001; amended July 29, 2005; amended May 18, 2012.)

Article 15.—PERFORMANCE OF SELECTED NURSING PROCEDURES IN SCHOOL SETTINGS

60-15-101. Definitions and functions. (a)

Each registered professional nurse in a school setting shall be responsible for the nature and quality of all nursing care that a student is given under the direction of the nurse in the school setting. Assessment of the nursing needs, the plan of nursing action, implementation of the plan, and evaluation of the plan shall be considered essential components of professional nursing practice and shall be the responsibility of the registered professional nurse.

(b) In fulfilling nursing care responsibilities, any nurse may perform the following:

(1) Serve as a health advocate for students receiving nursing care;

(2) counsel and teach students, staff, families, and groups about health and illness;

(3) promote health maintenance;

(4) serve as health consultant and a resource to teachers, administrators, and other school staff who are providing students with health services during school attendance hours or extended program hours; and

(5) utilize nursing theories, communication skills, and the teaching-learning process to function as part of the interdisciplinary evaluation team.

(c) The services of a registered professional nurse may be supplemented by the assignment of tasks to a licensed practical nurse or by the delegation of selected nursing tasks or procedures to unlicensed personnel under supervision by the registered professional nurse or licensed practical nurse.

(d) “Unlicensed person” means anyone not licensed as a registered professional nurse or licensed practical nurse.

(e) “Delegation” means authorization for an unlicensed person to perform selected nursing tasks or procedures in the school setting under the direction of a registered professional nurse.

(f) “Activities of daily living” means basic caretaking or specialized caretaking.

(g) “Basic caretaking” means the following tasks:

(1) Bathing;

(2) dressing;

(3) grooming;

(4) routine dental, hair, and skin care;

(5) preparation of food for oral feeding;

(6) exercise, excluding occupational therapy and physical therapy procedures;

(7) toileting, including diapering and toilet training;

(8) handwashing;

(9) transferring; and

(10) ambulation.

(h) “Specialized caretaking” means the following procedures:

(1) Catheterization;

(2) ostomy care;

(3) preparation and administration of gastrostomy tube feedings;

(4) care of skin with damaged integrity or potential for this damage;

(5) medication administration;

(6) taking vital signs;

(7) blood glucose monitoring, which shall include taking glucometer readings and carbohydrate counting; and

(8) performance of other nursing procedures as selected by the registered professional nurse.

(i) “Anticipated health crisis” means that a student has a previously diagnosed condition that, under predictable circumstances, could lead to an imminent risk to the student’s health.

(j) “Investigational drug” means a drug under study by the United States food and drug administration to determine safety and efficacy in humans for a particular indication.

(k) “Nursing judgment” means the exercise of knowledge and discretion derived from the biological, physical, and behavioral sciences that requires special education or curriculum.

(l) “Extended program hours” means any program that occurs before or after school attendance hours and is hosted or controlled by the school.

(m) “School attendance hours” means those hours of attendance as defined by the local educational agency or governing board.

(n) “School setting” means any public or non-public school environment.

(o) “Supervision” means the provision of guidance by a nurse as necessary to accomplish a nursing task or procedure, including initial direction of the task or procedure and periodic inspection of the actual act of accomplishing the task or procedure.

(p) “Medication” means any drug required by the federal or state food, drug, and cosmetic acts

to bear on its label the legend "Caution: Federal law prohibits dispensing without prescription," and any drugs labeled as investigational drugs or prescribed for investigational purposes.

(q) "Task" means an assigned step of a nursing procedure.

(r) "Procedure" means a series of steps followed in a regular, specific order that is part of a defined nursing practice. (Authorized by K.S.A. 2007 Supp. 65-1124 and K.S.A. 65-1129; implementing K.S.A. 2007 Supp. 65-1124 and K.S.A. 65-1165; effective, T-89-23, May 27, 1988; amended, T-60-9-12-88, Sept. 12, 1988; amended Feb. 13, 1989; amended Sept. 2, 1991; amended Sept. 11, 1998; amended July 29, 2005; amended March 6, 2009.)

60-15-102. Delegation procedures. Each registered professional nurse shall maintain the primary responsibility for delegating tasks to unlicensed persons. The registered professional nurse, after evaluating a licensed practical nurse's competence and skill, may decide whether the licensed practical nurse under the direction of the registered professional nurse may delegate tasks to unlicensed persons in the school setting. Each nurse who delegates nursing tasks or procedures to a designated unlicensed person in the school setting shall meet the requirements specified in this regulation.

(a) Each registered professional nurse shall perform the following:

(1) Assess each student's nursing care needs;

(2) formulate a plan of care before delegating any nursing task or procedure to an unlicensed person; and

(3) formulate a plan of nursing care for each student who has one or more long-term or chronic health conditions requiring nursing interventions.

(b) The selected nursing task or procedure to be delegated shall be one that a reasonable and prudent nurse would determine to be within the scope of sound nursing judgment and that can be performed properly and safely by an unlicensed person.

(c) Any designated unlicensed person may perform basic caretaking tasks or procedures as defined in K.A.R. 60-15-101 (g) without delegation. After assessment, a nurse may delegate specialized caretaking tasks or procedures as defined in K.A.R. 60-15-101 (h) to a designated unlicensed person.

(d) The selected nursing task or procedure shall be one that does not require the designated unlicensed person to exercise nursing judgment or intervention.

(e) If an anticipated health crisis that is identified in a nursing care plan occurs, the unlicensed person may provide immediate care for which instruction has been provided.

(f) The designated unlicensed person to whom the nursing task or procedure is delegated shall be adequately identified by name in writing for each delegated task or procedure.

(g) Each registered professional nurse shall orient and instruct unlicensed persons in the performance of the nursing task or procedure. The registered professional nurse shall document in writing the unlicensed person's demonstration of the competency necessary to perform the delegated task or procedure. The designated unlicensed person shall co-sign the documentation indicating the person's concurrence with this competency evaluation.

(h) Each registered professional nurse shall meet these requirements:

(1) Be accountable and responsible for the delegated nursing task or procedure;

(2) at least twice during the academic year, participate in joint evaluations of the services rendered;

(3) record the services performed; and

(4) adequately supervise the performance of the delegated nursing task or procedure in accordance with the requirements of K.A.R. 60-15-103. (Authorized by K.S.A. 2007 Supp. 65-1124 and K.S.A. 65-1129; implementing K.S.A. 2007 Supp. 65-1124 and K.S.A. 65-1165; effective, T-89-23, May 27, 1988; amended, T-60-9-12-88, Sept. 12, 1988; amended Feb. 13, 1989; amended Sept. 2, 1991; amended Sept. 11, 1998; amended March 6, 2009.)

60-15-104. Medication administration in a school setting. Any registered professional nurse may delegate the procedure of medication administration in a school setting only in accordance with this article.

(a) Any registered professional nurse may delegate the procedure of medication administration in a school setting to unlicensed persons if both of the following conditions are met:

(1) The administration of the medication does not require dosage calculation. Measuring a prescribed amount of liquid medication, breaking a scored tablet for administration, or counting carbohydrates for the purpose of determining dosage for insulin administration shall not be considered calculation of the medication dosage.

(2) The nursing care plan requires administration by accepted methods of administration other than those listed in subsection (b).

(b) A registered professional nurse shall not delegate the procedure of medication administration in a school setting to unlicensed persons when administered by any of these means:

- (1) By intravenous route;
- (2) by intramuscular route, except when administered in an anticipated health crisis;
- (3) through intermittent positive-pressure breathing machines; or
- (4) through an established feeding tube that is not inserted directly into the abdomen. (Authorized by K.S.A. 2007 Supp. 65-1124 and K.S.A. 65-1129; implementing K.S.A. 2007 Supp. 65-1124 and K.S.A. 65-1165; effective, T-89-23, May 27, 1988; amended, T-60-9-12-88, Sept. 12, 1988; amended Feb. 13, 1989; amended Sept. 2, 1991; amended Sept. 11, 1998; amended July 29, 2005; amended March 6, 2009.)

Article 16.—INTRAVENOUS FLUID THERAPY FOR LICENSED PRACTICAL NURSE

60-16-101. Definitions. Each of the following terms, as used in this article of the board's regulations, shall have the meaning specified in this regulation:

(a) "Administration of intravenous (IV) fluid therapy" means utilization of the nursing process to deliver the therapeutic infusion or injection of substances through the venous system.

(b) "Admixing" means the addition of a diluent to a medication or a medication to an intravenous solution.

(c) "Calculating" means mathematically determining the flow rate and medication dosages.

(d) "Clock-hour" means 60 continuous minutes.

(e) "Competency examination" means a written examination and demonstration of mastery of clinical components of IV fluid therapy.

(f) "Discontinuing" means stopping the intravenous flow or removing the intravenous access device, or both, based on an authorized order or nursing assessment.

(g) "Evaluating" means analyzing, on an ongoing basis, the monitored patient response to the prescribed IV fluid therapy.

(h) "Initiating" means starting IV fluid therapy based on an authorized order by a licensed individual. Initiating shall include the following:

- (1) Assessing the patient;
 - (2) selecting and preparing materials;
 - (3) calculating; and
 - (4) inserting and stabilizing the cannula.
- (i) "Intravenous push" means direct injection of medication into the venous circulation.
- (j) "IV" means intravenous.
- (k) "Maintaining" means adjusting the control device for continuance of the prescribed IV fluid therapy administration rate.
- (l) "Monitoring" means, on an ongoing basis, assessing, observing, and communicating each patient's response to prescribed IV fluid therapy. The infusion equipment, site, and flow rate shall be included in the monitoring process.

(m) "Stand-alone," when used to describe a course, means an IV fluid therapy course offered by a provider that has been approved by the board to offer the course independently of an approved practical nursing program.

(n) "Titration of medication" means an adjustment of the dosage of a medication to the amount required to bring about a given reaction in the individual receiving the medication. (Authorized by and implementing K.S.A. 65-1136; effective Nov. 21, 1994; amended June 12, 1998; amended Oct. 29, 1999; amended June 14, 2002; amended Jan. 17, 2020.)

60-16-102. Scope of practice for licensed practical nurse performing intravenous fluid therapy. (a) A licensed practical nurse under the supervision of a registered professional nurse may engage in a limited scope of intravenous fluid treatment, including the following:

- (1) Monitoring;
- (2) maintaining basic fluids;
- (3) discontinuing intravenous flow and an intravenous access device not exceeding three inches in length in peripheral sites only; and
- (4) changing dressings for intravenous access devices not exceeding three inches in length in peripheral sites only.

(b) Any licensed practical nurse who has met one of the requirements under K.S.A. 65-1136, and amendments thereto, may perform, in addition to the functions specified in subsection (a) of this regulation, the following procedures relating to the expanded administration of intravenous fluid therapy under the supervision of a registered professional nurse:

- (1) Calculating;
- (2) adding parenteral solutions to existing pat-

ent central and peripheral intravenous access devices or administration sets;

(3) changing administration sets;
(4) inserting intravenous access devices that meet these conditions:

(A) Do not exceed three inches in length; and
(B) are located in peripheral sites only;
(5) adding designated premixed medications to existing patent central and peripheral intravenous access devices or administration sets either by continuous or intermittent methods;

(6) maintaining the patency of central and peripheral intravenous access devices and administration sets with medications or solutions as allowed by policy of the facility;

(7) changing dressings for central venous access devices;

(8) administering continuous intravenous drip analgesics and antibiotics; and

(9) performing the following procedures in any facility having continuous on-site registered professional nurse supervision:

(A) Admixing intravenous medications; and
(B) administering by direct intravenous push any drug in a drug category that is not specifically listed as a banned drug category in subsection (c), including analgesics, antibiotics, antiemetics, diuretics, and corticosteroids, as allowed by policy of the facility.

(c) A licensed practical nurse shall not perform any of the following:

(1) Administer any of the following by intravenous route:

(A) Blood and blood products, including albumin;
(B) investigational medications;
(C) anesthetics, antianxiety agents, biological therapy, serums, hemostatics, immunosuppressants, muscle relaxants, human plasma fractions, oxytocics, sedatives, tocolytics, thrombolytics, anticonvulsants, cardiovascular preparations, antineoplastics agents, hematopoietics, autonomic drugs, and respiratory stimulants;

(D) intravenous fluid therapy in the home health setting, with the exception of the approved scope of practice authorized in subsection (a); or

(E) intravenous fluid therapy to any patient under the age of 12 or any patient weighing less than 80 pounds, with the exception of the approved scope of practice authorized in subsection (a);

(2) initiate total parenteral nutrition or lipids;
(3) titrate medications;
(4) draw blood from a central intravenous access device;

(5) remove a central intravenous access device or any intravenous access device exceeding three inches in length; or

(6) access implantable ports for any purpose.
(d) Licensed practical nurses qualified by the board before June 1, 2000 may perform those activities listed in subsection (a) and paragraph (b)(9)(A) regardless of their intravenous therapy course content on admixing.

(e) This regulation shall limit the scope of practice for each licensed practical nurse only with respect to intravenous fluid therapy and shall not restrict a licensed practical nurse's authority to care for patients receiving this therapy. (Authorized by and implementing K.S.A. 65-1136; effective Nov. 21, 1994; amended Dec. 13, 1996; amended June 12, 1998; amended Oct. 29, 1999; amended Jan. 24, 2003; amended May 18, 2012; amended Oct. 18, 2013.)

60-16-103. Stand-alone course approval procedure; competency examinations; recordkeeping. (a) Each person wanting approval to offer a stand-alone course shall submit a proposal to the board.

The proposal shall contain the following:

(1) The name and qualifications of the coordinator;

(2) the name and qualifications of each faculty member of the course;

(3) the mechanism through which the provider will determine that each licensed practical nurse seeking to take the course meets the admission requirements;

(4) a description of the educational and clinical facilities that will be utilized;

(5) the outlines of the classroom curriculum and the skills curriculum, including time segments. These curricula shall meet the requirements of K.A.R. 60-16-104(b);

(6) the methods of student evaluation that will be used, including a copy of the final written competency examination and the final skills competency examination; and

(7) if applicable, a request for continuing education approval meeting the following requirements:

(A) For each long-term provider, the stand-alone course provider number shall be printed on the certificates and the course roster, along with the long-term provider number; and

(B) for each single program provider, the single program application shall be completed.

(b) To be eligible to enroll in a stand-alone course, the individual shall be a nurse with a current license.

(c)(1) Each stand-alone course shall meet both of the following requirements:

(A) Consist of at least 30 clock-hours of instruction; and

(B) require at least eight clock-hours of supervised clinical or skills lab practice, which shall include at least one successful peripheral venous access procedure and the initiation of an intravenous infusion treatment modality.

(2) Each stand-alone course, final written competency examination, and final clinical competency examination shall meet the board-approved curriculum requirements specified in K.A.R. 60-16-104 (b) (1)-(23).

(d)(1) Each stand-alone course coordinator shall meet the following requirements:

(A) Be licensed as a registered professional nurse;

(B) be responsible for the development and implementation of the course; and

(C) have experience in IV fluid therapy and knowledge of the IV fluid therapy standards.

(2) Each primary faculty member shall meet the following requirements:

(A) Be currently licensed to practice as a registered professional nurse in Kansas;

(B) have clinical experience that includes IV fluid therapy within the past five years; and

(C) maintain competency in IV fluid therapy.

(3) Each guest lecturer shall have professional preparation and qualifications for the specific subject in which that individual instructs.

(e)(1) The facility in which skills practice and the competency examination are conducted shall allow the students and faculty access to the IV fluid therapy equipment and IV fluid therapy recipients and to the pertinent records for the purpose of documentation. Each classroom shall contain sufficient space, equipment, and teaching aids to meet the course objectives.

(2) There shall be a signed, written agreement between the provider and each affiliating health care facility that specifies the roles, responsibilities, and liabilities of each party. This written agreement shall not be required if the only health care facility to be used is that of the provider.

(f)(1) The stand-alone course coordinator shall perform the following:

(A) Ensure that the clinical record sheet is complete, including competencies and scores;

(B) award a certificate to each licensed nurse documenting successful completion of both the final written competency examination and the final skills competency examination;

(C) submit to the board, within 15 days of course completion, a typed, alphabetized roster listing the name and license number of each individual who successfully completed the course and the date of completion. The coordinator shall ensure that each roster meets the following requirements:

(i) RN and LPN participants shall be listed on separate rosters; and

(ii) the roster shall include the provider name and address, the single or long-term provider number, the stand-alone course provider number, and the coordinator's signature; and

(D) maintain the records of each individual who has successfully completed the course for at least five years.

(g) Continuing education providers shall award at least 32 contact hours to each LPN who successfully completes the course according to K.A.R. 60-9-106. Continuing education providers shall award 20 contact hours, one time only, to each RN who successfully completes the course.

(h) After initial approval, each change in the stand-alone course shall be provided to the board for approval before the change is implemented.

(i)(1) Each stand-alone course provider shall submit to the board an annual report for the period of July 1 through June 30 of the respective year that includes the total number of licensees taking the course, the number passing the course, and the number of courses held.

(2) The single program providership shall be effective for two years and may be renewed by submitting the single offering provider application and by paying the fee specified in K.A.R. 60-4-103(a)(5). Each single program provider who chooses not to renew the providership shall notify the board in writing of the location at which the rosters and course materials will be accessible to the board for three years.

(3) Each long-term provider shall submit the materials outlined in subsection (a) with the five-year long-term provider renewal.

(j) If a course does not meet or continue to meet the requirements for approval established by the board or if there is a material misrepresentation of any fact with the information submitted to the board by a provider, approval may be withheld, made conditional, limited, or with-

drawn by the board after giving the provider notice and an opportunity to be heard. (Authorized by and implementing K.S.A. 65-1136; effective Nov. 21, 1994; amended June 14, 2002; amended July 29, 2005; amended May 18, 2012; amended Jan. 17, 2020.)

60-16-104. Standards for course and program curriculum content. (a) The purpose of the intravenous fluid therapy content and stand-alone course shall be to prepare practical nursing students or licensed practical nurses to perform safely and competently the activities as defined in K.A.R. 60-16-102. The course shall be based on the nursing process and current intravenous nursing standards of practice.

(1) Intravenous fluid therapy content provided as part of a practical nursing program's curriculum as specified in K.A.R. 60-2-104 or as a stand-alone course offered by an approved provider shall meet the requirements of this regulation.

(2) Each provider of a stand-alone course shall obtain approval from the board before offering an intravenous fluid therapy course as specified in K.A.R. 60-16-103.

(3) Each provider of a stand-alone course shall submit documentation of the use of the curriculum required in this regulation to the board.

(4) Each practical nursing program administrator wanting to implement the intravenous fluid therapy curriculum as required in this regulation shall submit a major curriculum change form as specified in K.A.R. 60-2-104(g).

(b) Each stand-alone course or practical nursing program curriculum in intravenous fluid therapy shall include instruction in the following topics:

(1) Definition of intravenous fluid therapy and indications as specified in K.A.R. 60-16-101;

(2) scope of practice as specified in K.A.R. 60-16-102;

(3) types of vascular-access delivery devices;

(4) age-related considerations;

(5) legal implications for intravenous fluid therapy;

(6) anatomy and physiology;

(7) fluid and electrolyte balance;

(8) infusion equipment used in intravenous fluid therapy;

(9) patient care;

(10) infusion therapies;

(11) parenteral solutions and indications;

(12) infection control and safety;

(13) site care and maintenance;

(14) vascular-access device selection and placement;

(15) insertion of peripheral short catheters;

(16) administration, maintenance, and monitoring of peripheral intravenous fluid therapy;

(17) infusion-related complications and nursing interventions;

(18) central and peripheral vascular devices;

(19) administration, maintenance, and monitoring of central intravenous fluid therapy;

(20) documentation;

(21) patient education;

(22) a testing component through which each student is able to demonstrate competency related to intravenous fluid therapy; and

(23) a means to verify that a student has successfully completed the stand-alone course or practical nursing program curriculum in intravenous fluid therapy as specified in this regulation. (Authorized by and implementing K.S.A. 65-1136; effective Nov. 21, 1994; amended Dec. 13, 1996; amended Oct. 29, 1999; amended April 20, 2001; amended June 14, 2002; amended July 29, 2005; amended May 18, 2012; amended Jan. 17, 2020.)

60-16-105. (Authorized by and implementing L. 1994, Chap. 218, §1; effective Nov. 21, 1994; revoked July 30, 2010.)

Article 17.—ADVANCED NURSING EDUCATION PROGRAM

60-17-101. Definitions. (a) An “advanced nursing education program” may be housed within a part of any of the following organizational units within an academic institution:

(1) A college;

(2) a school;

(3) a division;

(4) a department; or

(5) an academic unit.

(b) “Affiliating agency” means an agency that cooperates with the advanced nursing education program to provide clinical facilities and resources for selected student experiences.

(c) “Clinical learning” means an active process in which the student participates in advanced nursing activities while being guided by a member of the faculty.

(d) “Contractual agreement” means a written contract or letter signed by the legal representatives of the advanced nursing education program and the affiliating agency.

(e) “Preceptor” means an advanced practice registered nurse or a physician who provides clinical supervision for advanced practice registered nurse students as a part of nursing courses taken during the advanced nursing education program.

(f) “Satellite program” means an existing, accredited advanced nursing education program provided at a location geographically separate from the parent program. The students may spend a portion or all of their time at the satellite location. The curricula in all locations shall be the same, and each credential shall be conferred by the parent institution.

(g) “Transfer student” means an individual who is permitted to apply advanced nursing courses completed at another institution to a different advanced nursing education program. (Authorized by K.S.A. 65-1129 and K.S.A. 2010 Supp. 74-1106; implementing K.S.A. 65-1133, as amended by L. 2011, ch. 114, sec. 47; effective March 31, 2000; amended May 18, 2012.)

60-17-102. Requirements for initial approval. (a) Each hospital and agency serving as an affiliating agency and providing facilities for clinical experience shall be licensed or accredited by the appropriate credentialing groups.

(b) (1) The advanced nursing education program or the institution of which it is a part shall be a legally constituted body. The controlling body shall be responsible for general policy and shall provide the financial support for the advanced nursing education program.

(2) Authority and responsibility for administering the advanced nursing education program shall be vested in the nurse administrator of the advanced nursing education program.

(c) Each new advanced nursing education program shall submit, at least 60 days before a scheduled board meeting, an initial application, which shall include all of the following:

(1) The course of study and credential to be conferred;

(2) the name and title of the nurse administrator of the advanced nursing education program;

(3) the name of the controlling body;

(4) the name and title of the administrator for the controlling body;

(5) the organizational chart;

(6) all sources of financial support, including a three-year budget;

(7) a proposed curriculum, indicating the total number of hours of both theoretical and clinical instruction;

(8) the program objectives or outcomes;

(9) the number, qualifications, and assignments of faculty;

(10) the faculty policies;

(11) the admission requirements;

(12) a copy of the current school bulletin or catalog;

(13) a description of clinical facilities and client census data;

(14) contractual agreements by affiliating agencies for clinical facilities, signed at least three months before the first date on which students may enroll;

(15) the program evaluation plan; and

(16) a proposed date of initial admission of students to the program.

(d) Each advanced nursing education program shall be surveyed for approval by the board, with the exception of nurse anesthesia programs, as determined by K.A.R. 60-13-103.

(1) During a survey, the nurse administrator of the program shall make available all of the following:

(A) Administrators, prospective faculty and students, affiliating agencies, representatives, preceptors, and support services personnel to discuss the advanced nursing education program;

(B) minutes of faculty meetings;

(C) faculty and student handbooks;

(D) policies and procedures;

(E) curriculum materials;

(F) a copy of the advanced nursing education program's budget; and

(G) affiliating agency contractual agreements.

(2) The nurse administrator of the advanced nursing education program or designated personnel shall take the survey team to inspect the nursing educational facilities, including satellite program facilities and library facilities.

(3) Upon completion of the survey, the nurse administrator shall be asked to correct any inaccurate statements contained in the survey report, limiting these comments to errors, unclear statements, or omissions.

(e) Each institution contemplating the establishment of an advanced nursing education program shall be surveyed and accredited by the board before the admission of students.

(f) If an advanced nursing education program fails to meet the requirements of the board within a designated period of time, the program shall be notified by the board's designee of the board's intent to deny approval. (Authorized by and im-

plementing K.S.A. 2015 Supp. 65-1133; effective March 31, 2000; amended April 20, 2007; amended April 29, 2016.)

60-17-104. Faculty and preceptor qualifications. (a) Each nurse faculty member shall be licensed as a registered professional nurse in Kansas.

(b) Each preceptor shall be licensed in the state in which the preceptor is currently practicing. Each preceptor shall complete a preceptor orientation that includes information about the pedagogical aspects of the student-preceptor relationship.

(c) For advanced nursing education programs in the role of nurse anesthesia, each nurse faculty member shall have the following academic preparation and experience:

(1) The nurse administrator who is responsible for the development and implementation of the advanced nursing education program shall have had experience in administration or teaching and shall have a graduate degree.

(2) Each nurse faculty member who is assigned the responsibility of a course shall hold a graduate degree.

(3) Each nurse faculty member responsible for clinical instruction shall possess a license as an advanced practice registered nurse and a graduate degree.

(d) For advanced nursing education programs in any role other than nurse anesthesia, each nurse faculty member shall have the following academic preparation and experience:

(1) The nurse administrator who is responsible for the development and implementation of the advanced nursing education program shall have had experience in administration or teaching and shall have a graduate degree in nursing.

(2) Each nurse faculty member who is assigned the responsibility of a course shall hold a graduate degree. Each person who is hired as a nurse faculty member shall have a graduate degree in nursing, except for any person whose graduate degree was conferred before July 1, 2005.

(3) Each nurse faculty member responsible for coordinating clinical instruction shall possess a license as an advanced practice registered nurse in the role for which clinical instruction is provided and shall have a graduate degree. Each person who is hired as a nurse faculty member shall have a graduate degree in nursing, except for any person whose graduate degree was conferred before July 1, 2005.

(4) Each preceptor or adjunct faculty shall be licensed as an advanced practice registered nurse or shall be licensed as a physician in the state in which the individual is currently practicing. Each preceptor shall complete a preceptor orientation including information about the pedagogical aspects of the student-preceptor relationship.

(e) The nonnursing faculty of each advanced nursing education program shall have graduate degrees in the area of expertise.

(f) The nurse administrator of each advanced nursing education program shall submit to the board a faculty qualification report for each faculty member who is newly employed by the program. (Authorized by K.S.A. 65-1129 and K.S.A. 2010 Supp. 74-1106; implementing K.S.A. 65-1133, as amended by L. 2011, ch. 114, sec. 47; effective March 31, 2000; amended April 20, 2007; amended May 18, 2012.)

60-17-105. Curriculum requirements.

(a) The faculty in each advanced nursing education program shall fulfill these requirements:

(1) Identify the competencies of the graduate for each role of advanced nursing practice for which the program provides instruction;

(2) determine the approach and content for learning experiences;

(3) direct clinical instruction as an integral part of the program; and

(4) provide for learning experiences of the depth and scope needed to fulfill the objectives or outcomes of advanced nursing courses.

(b) The curriculum in each advanced nursing education program shall include all of the following:

(1) Role alignment related to the distinction between practice as a registered professional nurse and the advanced role of an advanced practice registered nurse as specified in K.A.R. 60-11-101;

(2) theoretical instruction in the role or roles of advanced nursing practice for which the program provides instruction;

(3) the health care delivery system;

(4) the ethical and legal implications of advanced nursing practice;

(5) three college hours in advanced pharmacology or the equivalent;

(6) three college hours in advanced pathophysiology or its equivalent and three college hours in advanced health assessment or its equivalent for licensure as an advanced practice registered nurse in a role other than nurse anesthesia and nurse midwifery;

(7) if completing an advanced practice registered nurse program after July 1, 2009, three college hours in advanced pathophysiology or its equivalent and three college hours in advanced health assessment or its equivalent; and

(8) clinical instruction in the area of specialization, which shall include the following:

(A) Performance of or ordering diagnostic procedures;

(B) evaluation of diagnostic and assessment findings; and

(C) the prescription of medications and other treatment modalities for client conditions.

(c) (1) Each program shall consist of at least 45 semester credit hours or the academic equivalent. As used in this regulation, “academic equivalent” shall mean the prorated proportionate credit for formal academic coursework if that coursework is completed on the basis of trimester or quarter hours rather than semester hours.

(2) The clinical component shall consist of at least 260 hours of clinical learning. After January 1, 2003, the clinical component shall consist of at least 500 hours of clinical learning. After July 1, 2009, the clinical component shall consist of at least 500 hours of clinical learning in each clinical track, or the program shall provide documentation of the overlap if any clinical track consists of less than 500 clinical hours.

(d) Each nurse administrator shall meet the following requirements:

(1) Develop and implement a written plan for program evaluation; and

(2) submit any major revision to the curriculum of advanced nursing courses for board approval at least 30 days before a meeting of the board. The following shall be considered major revisions to the curriculum:

(A) Any significant change in the plan of curriculum organization; and

(B) any change in content.

(e) Each nurse administrator shall submit all revisions that are not major revisions, as defined in paragraph (d)(2), to the board or the board’s designee for approval. (Authorized by K.S.A. 65-1129 and K.S.A. 2010 Supp. 74-1106; implementing K.S.A. 65-1133, as amended by L. 2011, ch. 114, sec. 47; effective March 31, 2000; amended April 20, 2007; amended May 18, 2012.)

60-17-110. Discontinuing an advanced practice registered nurse program. Each school terminating its program shall submit, for

board approval, the school’s plan for its currently enrolled students and for disposition of its records. (Authorized by K.S.A. 65-1129 and K.S.A. 2010 Supp. 74-1106; implementing K.S.A. 65-1133, as amended by L. 2011, ch. 114, sec. 47; effective March 31, 2000; amended April 20, 2007; amended May 18, 2012.)

60-17-111. Requirements for advanced practice registered nurse refresher course.

(a) (1) Each refresher course that prepares advanced practice registered nurses (APRNs) who have not been actively engaged in advanced nursing practice for more than five years shall be accredited by the board.

(2) If a formal refresher course is not available, an individualized course may be designed for a nurse. Each individualized course shall be accredited by the education specialist.

(b) Each refresher course student shall meet both of the following conditions:

(1) Be licensed currently as a Kansas registered professional nurse; and

(2) have been licensed as an advanced practice registered nurse in Kansas or another state or have completed the education required to be licensed as an advanced practice registered nurse in Kansas.

(c) Continuing nursing education contact hours may be awarded for completion of APRN refresher courses. A contact hour shall equal a 50-minute hour of instruction.

(d) The objectives and outcomes of the refresher course shall be stated in behavioral terms and shall describe the expected competencies of the applicant.

(e) Each instructor for an APRN refresher course shall be licensed as an APRN and shall show evidence of recent professional education and competency in teaching.

(f) Each provider that has been accredited by the board to offer an APRN refresher course shall provide the following classroom and clinical experiences, based on the length of time that the student has not been actively engaged in advanced nursing practice:

(1) For students who have not engaged in advanced nursing practice for more than five years, but less than or equal to 10 years, 150 didactic hours and 350 clinical hours; and

(2) for students who have not engaged in advanced nursing practice for more than 10 years, 200 didactic hours and 500 clinical hours.

(g) The content, methods of instruction, and learning experiences shall be consistent with the objectives and outcomes of the course.

(h) Each refresher course for the roles of nurse practitioner, clinical nurse specialist, and nurse-midwife shall contain the following content:

(1) Didactic:

(A) Role alignment related to recent changes in the area of advanced nursing practice;

(B) the ethical and legal implications of advanced nursing practice;

(C) the health care delivery system;

(D) diagnostic procedures for the area of specialization; and

(E) prescribing medications for the area of specialization; and

(2) clinical:

(A) Conducting diagnostic procedures for the area of specialization;

(B) prescribing medications for the area of specialization;

(C) evaluating the physical and psychosocial health status of a client;

(D) obtaining a comprehensive health history;

(E) conducting physical examinations using basic examination techniques, diagnostic instruments, and laboratory procedures;

(F) planning, implementing, and evaluating care;

(G) consulting with clients and members of the health care team;

(H) managing the medical plan of care prescribed based on protocols or guidelines;

(I) initiating and maintaining records, documents, and other reports;

(J) developing teaching plans; and

(K) counseling individuals, families, and groups on the following issues:

(i) Health;

(ii) illness; and

(iii) the promotion of health maintenance.

(i) Each student in nurse-midwife refresher training shall also have clinical hours in the management of the expanding family throughout pregnancy, labor, delivery, postdelivery care, and gynecological care.

(j) The provider of each refresher course shall provide official evidence of completion to each individual who successfully completes the refresher course. (Authorized by K.S.A. 65-1129 and K.S.A. 2010 Supp. 74-1106; implementing K.S.A. 65-1130, as amended by L. 2011, ch. 114, sec. 44, and K.S.A. 65-1133, as amended by L. 2011, ch. 114, sec. 47; effective March 31, 2000; amended July 29, 2005; amended May 18, 2012.)

Agency 61

Kansas Board of Barbering

Editor's Note:

Effective July 1, 1990, the Board of Barber Examiners shall be and hereby is officially designated as the Kansas Board of Barbering. See L. 1990, Ch. 225.

Articles

- 61-1. SANITARY RULES AND REGULATIONS GOVERNING BARBER SHOPS, SCHOOLS AND COLLEGES AND PUBLIC REST ROOMS IN CONNECTION THEREWITH.
- 61-3. SCHOOLS; REQUIREMENTS.
- 61-4. ISSUANCE, RENEWAL, REVOCATION AND SUSPENSION OF CERTIFICATES OF REGISTRATION.
- 61-7. FEES.

Article 1.—SANITARY RULES AND REGULATIONS GOVERNING BARBER SHOPS, SCHOOLS AND COLLEGES AND PUBLIC REST ROOMS IN CONNECTION THEREWITH

61-1-24. Temporary permits issued; permits and licenses conspicuously displayed. (a) A temporary permit issued to any student graduating from a Kansas barber school or barber college shall be valid until the next examination.

(b) All permits, barber licenses, and shop licenses shall be displayed in a conspicuous manner. (Authorized by K.S.A. 65-1825a; implementing K.S.A. 2016 Supp. 65-1812 and K.S.A. 65-1818; effective Jan. 1, 1966; amended May 1, 1979; amended May 1, 1982; amended Dec. 2, 2016.)

Article 3.—SCHOOLS; REQUIREMENTS

61-3-2. Minimum requirements for courses of instruction. (a) No barber school or barber college shall be approved by the board unless the barber school or barber college requires, as a prerequisite to graduation, a course of instruction of at least 1,200 hours and not more than 1,500 hours completed within nine months of not more than eight hours in any one working day. This course of instruction consisting of 1,200-1,500 hours shall not apply to any student who is a person specified in paragraph (b)(1) or (2).

(b)(1) Each barber certified as a barber by a branch of the United States military services shall meet the requirements of K.A.R. 61-3-3(b), in

addition to the credits that the individual earned to become a certified barber in the United States military services.

(2) Each person licensed as a cosmetologist by the Kansas board of cosmetology shall meet the requirements of K.A.R. 61-3-3(b), in addition to the hours that the individual earned to become a licensed cosmetologist in Kansas. (Authorized by K.S.A. 65-1825a; implementing K.S.A. 2016 Supp. 65-1810 and 65-1812; effective Jan. 1, 1966; amended Dec. 2, 2016.)

61-3-3. Subjects required in courses of instruction. (a) Each barber school or barber college shall conduct regular classes teaching the theory and practice of all phases of barbering. The course of instruction shall meet the curriculum requirements in the board's document titled "Kansas barber minimum curriculum (1,200 hours)," as adopted by the board on July 28, 2016, which is hereby adopted by reference. This course of instruction shall not apply in its entirety to any student who is a person specified in subsection (b).

(b) Any person certified as a barber by a United States military service who meets the requirements of K.A.R. 61-3-2(b)(1) and any Kansas cosmetologist who meets the requirements of K.A.R. 61-3-2(b)(2) may apply to take the Kansas barbering examination if the applicant has completed at least 500 hours of instruction, at a barber school or barber college licensed by the board, in subjects listed in the curriculum specified in this subsection. The board's document titled "indus-

try-related minimum additional curriculum (500 hours),” as adopted by the board on July 28, 2016, is hereby adopted by reference. (Authorized by K.S.A. 65-1825a; implementing K.S.A. 2016 Supp. 65-1810 and 65-1812; effective Jan. 1, 1966; amended May 1, 1983; amended Dec. 2, 2016.)

61-3-5. Qualifications for supervisors of barber schools or barber colleges. The individual supervising the barbering course of study at a barber school or barber college shall be a Kansas-licensed barber instructor. (Authorized by K.S.A. 65-1825a; implementing K.S.A. 2016 Supp. 65-1810; effective Jan. 1, 1966; amended Dec. 2, 2016.)

61-3-7. Minimum requirements for opening a barber school or barber college.

(a) Each approved barber school or barber college shall have at least three students enrolled and at least five feet between the centers of each adjoining barber chair in the clinical demonstration room before opening. If the barber school or barber college is located in a building in which another entity operates a business or school that conducts or teaches anything other than barbering as defined in K.S.A. 65-1809 and amendments thereto, the barber school or barber college shall have a separate entrance and shall be completely separate within that building, except as provided in subsection (b).

Each barber school or barber college shall have at least two rooms accessible to its students at all times. One room shall be used for class study, examinations, and lectures, and the other room shall be used for practical demonstrations. The barber school or barber college shall provide at least one restroom with a toilet and washbasin, which shall be kept in a sanitary condition. Each room shall be equipped to meet the requirements of all applicable regulations of the board.

(b) Any barber school or barber college that shares a building in which another entity operates a business or school that conducts or teaches anything other than barbering may share the following facilities with that entity:

(1) Classrooms other than the clinic floor, if no classroom is used by both the entity and the barber school or barber college at the same time;

(2) restrooms; and

(3) common areas, including reception areas, lounges, and hallways. (Authorized by and implementing K.S.A. 65-1825a, K.S.A. 2015 Supp.

74-1806; effective Jan. 1, 1966; amended May 1, 1988; amended March 20, 2015; amended May 13, 2016.)

61-3-20. Teaching staff. Each barber school and each barber college shall have at least one licensed instructor for every 10 or fewer students. Each licensed instructor shall instruct and supervise all student work. The maximum instructor-to-student ratio during instruction and supervision of all student work shall be no less than 1:10. (Authorized by K.S.A. 65-1825a; implementing K.S.A. 2016 Supp. 65-1810; effective Jan. 1, 1966; amended May 1, 1978; amended Dec. 2, 2016.)

61-3-22. Schools ineligible for a permit to operate a barber school or barber college. No correspondence school shall be granted a permit to establish or operate a barber school or barber college. (Authorized by K.S.A. 65-1825a, K.S.A. 2014 Supp. 74-1806; implementing K.S.A. 65-1810; effective Jan. 1, 1966; amended May 1, 1988; amended March 20, 2015.)

Article 4.—ISSUANCE, RENEWAL, REVOCATION AND SUSPENSION OF CERTIFICATES OF REGISTRATION

61-4-2. Issuance and renewal of licenses.

(a) Each barber license, shop owner license, and instructor license shall be renewed annually on an alphabetical basis as follows:

(1) For each licensee whose last name begins with A, B, C, M, N, or O, on or before March 31;

(2) for each licensee whose last name begins with D, E, F, P, Q, or R, on or before June 30;

(3) for each licensee whose last name begins with G, H, I, S, T, or U, on or before September 30; and

(4) for each licensee whose last name begins with J, K, L, V, W, X, Y, or Z, on or before December 31.

(b) The restoration fee for late renewals shall be in accordance with K.A.R. 61-7-2.

(c) Except as specified in subsection (e), any student may be issued a barber license upon passing the barber examination, paying a prorated license fee, and meeting all other requirements of K.S.A. 65-1808 et seq. and amendments thereto. The license shall expire as specified in subsection (a).

(d) Each barber school and each barber college shall renew the license annually on or before December 31.

(e) Any person who has complied with K.A.R. 61-3-3(b) and meets the following requirements may be granted a Kansas barber license:

(1) Has filed an application to take the Kansas barber examination;

(2) has paid the applicable examination and licensing fees; and

(3) has passed the Kansas barber examination. (Authorized by K.S.A. 65-1825a; implementing K.S.A. 2016 Supp. 65-1812 and 65-1819; effective, E-81-37, Dec. 10, 1980; effective May 1, 1981; amended May 1, 1982; amended May 1, 1983; amended Dec. 2, 2016.)

Article 7.—FEES

61-7-1. (Authorized by K.S.A. 65-1825; implementing K.S.A. 1982 Supp. 65-1817; effective May 1, 1983; revoked May 13, 2016.)

61-7-2. Fees. The following fees shall be charged by the board:

- (a) Barber license
 - (1) Examination to practice barbering \$100
 - (2) Issuance of license to practice barbering 80
 - (3) Renewal of license to practice barbering 80
 - (4) Restoration of expired license to practice barbering
- (A) If the expiration period is not more than three years, the restoration and lapsed fees shall be as follows:
 - lapsed 1 through 30 days 100
 - lapsed 31 through 365 days..... 160
 - lapsed 366 through 730 days..... 240
 - lapsed 731 through 1,095 days..... 320

(B) For each barbering license that has lapsed for more than three years, the applicant shall be

reexamined upon payment of the barbering examination and issuance of license fees 180

(b) Instructor license

(1) Examination to instruct barbering 40

(2) Issuance of license to instruct barbering 40

(3) Renewal of license to instruct barbering 40

(4) Restoration of expired instructor's license

(A) If the expiration period is not more than three years, the restoration and lapsed fees shall be as follows:

lapsed 1 through 30 days..... 60

lapsed 31 through 365 days..... 80

lapsed 366 through 730 days..... 120

lapsed 731 through 1,095 days..... 160

(B) For each instructor's license that has lapsed for more than three years, the instructor shall be reexamined upon payment of the examination, instructor's license, and renewal fees 120

(c) License to operate a barber school or barber college (annual fee) 500

(d) License to operate a barber shop

(1) Shop inspection and annual license fee 40

(2) Restoration of expired shop license. If the expiration period is not more than three years, the restoration and lapsed fees shall be as follows:

lapsed 1 through 30 days..... 55

lapsed 31 through 365 days..... 120

lapsed 366 through 730 days..... 60

lapsed 731 through 1,095 days..... 200

(3) New shop, relocation, or change of

ownership..... 80

(e) Seminar permit 80

(f) Student learning license 55

(Authorized by and implementing K.S.A. 2015 Supp. 65-1817; effective May 13, 2016.)

State Board of Mortuary Arts

Articles

- 63-1. EMBALMING; CONTINUING EDUCATION OF EMBALMERS AND FUNERAL DIRECTORS.
- 63-4. FEES.
- 63-5. ADMINISTRATIVE HEARINGS AND DISCIPLINARY ACTION.
- 63-6. CONTINUING EDUCATION.
- 63-7. CREMATORIES.

Article 1.—EMBALMING; CONTINUING EDUCATION OF EMBALMERS AND FUNERAL DIRECTORS

63-1-6. General requirements relating to the practice of embalming, cremation, and funeral directing. (a) Following the loss or destruction of the license of any embalmer, funeral director, assistant funeral director, crematory operator, or establishment or branch establishment, a duplicate license shall be issued by the board upon the licensee's written request and payment of the duplicate license fee specified in K.A.R. 63-4-1.

(b) Each licensee shall promptly notify the board of all changes in the licensee's address.

(c) Each licensee shall promptly and fully cooperate at all times with the state department of health and environment and with the board in all matters pertaining to the general practice of embalming and cremation.

(d) Any licensee's name may be used in the form of an endorsement of a preneed funeral plan if the recommendation is genuine and representative of the current opinion of the licensee. The endorsement shall apply to the preneed funeral plan advertised. The licensee making the recommendation shall disclose to the public any financial interest in the preneed funeral plan or a related entity, or any direct or indirect benefit as a stockholder, officer, or employee.

(e) A licensee shall not be connected in any way with an insurance company if either of the following conditions is met:

(1) Policies are payable in merchandise or require the service of a designated funeral director or a member of a designated group of funeral directors.

(2) The certificate or policy of that company provides for a reduction on the value of merchandise or services furnished or the price to be

paid for them. (Authorized by K.S.A. 65-1730, K.S.A. 2010 Supp. 74-1704, K.S.A. 74-1707, and K.S.A. 2010 Supp. 65-1774; implementing K.S.A. 65-1701, K.S.A. 65-1730, K.S.A. 74-1707; effective Jan. 1, 1966; modified, L. 1979, ch. 345, May 1, 1979; amended May 1, 1982; amended May 1, 1983; amended May 1, 1984; amended May 1, 1987; amended May 1, 1988; amended June 26, 1989; amended Jan. 12, 2001; amended Sept. 16, 2011.)

Article 4.—FEES

63-4-1. Payment of fees. The following shall be charged by the Kansas state board of mortuary arts:

Embalmer's reciprocity application fee	\$350.00
Embalmer's reciprocity application and funeral director's reciprocity application fee, if submitted simultaneously	\$350.00
Embalmer's endorsement application fee	\$350.00
Embalmer's biennial license and renewal fee	\$168.00
Apprentice embalmer's registration fee	\$100.00
Funeral director's examination fee	\$200.00
Funeral director's reciprocity application fee	\$350.00
Funeral director's biennial license and renewal fee	\$228.00
Assistant funeral director's examination fee	\$50.00
Assistant funeral director's application fee	\$150.00
Assistant funeral director's biennial license and renewal fee	\$180.00
Crematory operator's biennial license and renewal fee	\$50.00
Funeral establishment and branch establishment biennial license and renewal fee	\$650.00
Funeral establishment and branch establishment license and crematory license fee, if submitted simultaneously	\$950.00

Funeral establishment and branch establishment license renewal and crematory license renewal fee, if submitted simultaneously.....	\$950.00
Crematory license and renewal fee	\$650.00
Duplicate license.....	\$15.00
Rule book.....	\$5.00

(Authorized by and implementing K.S.A. 2010 Supp. 65-1727, as amended by L. 2010, ch. 131, sec. 7; effective May 1, 1983; amended May 1, 1986; amended May 1, 1987; amended, T-88-43, Jan. 1, 1988; amended May 1, 1988; amended Jan. 6, 1992; amended June 7, 1993; amended Jan. 1, 1994; amended Jan. 1, 1996; amended Jan. 1, 2000; amended May 17, 2002; amended Nov. 4, 2005; amended Feb. 8, 2008; amended Sept. 16, 2011.)

Article 5.—ADMINISTRATIVE HEARINGS AND DISCIPLINARY ACTION

63-5-3. Potentially disqualifying civil and criminal records; advisory opinion; fee. (a) For purposes of this regulation, “conviction” shall mean a judgment or order of guilt by a court of competent jurisdiction in any state, or a subdivision thereof, or territory of the United States, by a court of the United States, or by a military court martial pursuant to the uniform code of military justice.

(b) The following criminal records may disqualify an applicant from receiving a license:

(1) A conviction of any offense classified as a felony in the jurisdiction in which the conviction occurred;

(2) a conviction of criminal desecration as defined in K.S.A. 2018 Supp. 21-6205, and amendments thereto, or a crime defined as substantially similar in the jurisdiction in which the conviction occurred;

(3) a conviction of any offense classified as a class A misdemeanor, or a similar classification in the jurisdiction in which the conviction occurred, that involves any of the following:

(A) A crime whose victim was a client, customer, or other individual with whom the applicant had a professional or fiduciary relationship;

(B) a crime that occurred at the applicant’s work site or while the applicant was on work duty;

(C) a crime involving fraud, theft, or misappropriation of another person’s money, property, or services;

(D) giving a worthless check or causing unlawful prosecution for a worthless check;

(E) counterfeiting;

(F) criminal use of a financial card;

(G) a crime classified as a sex offense or requiring registration as a sex offender by the jurisdiction in which the conviction occurred;

(H) a crime involving assault, battery, domestic battery, battery of a law enforcement officer, sexual battery, stalking, or criminal restraint as defined by the jurisdiction in which the conviction occurred;

(I) a crime involving promoting obscenity, promoting material to minors that is harmful, or promoting prostitution;

(J) a crime that involved knowingly violating a protection from abuse order, a protective order, or a restraining order;

(K) cruelty to animals;

(L) a crime involving the unlawful use, possession, or distribution of any illegal drug or controlled substance;

(M) a crime involving the unlawful use or possession of paraphernalia with intent to use to manufacture, cultivate, plant, propagate, harvest, test, analyze, or distribute a controlled substance;

(N) a crime involving harassment by telephone, any telecommunications device, or telefacsimile communication;

(O) unlawful administration of a substance as defined in K.S.A. 2018 Supp. 21-5425, and amendments thereto, or defined as substantially similar in the jurisdiction in which the conviction occurred;

(P) driving under the influence of drugs or alcohol, or any other crime in which the applicant was intoxicated when the applicant committed the crime;

(Q) a crime involving the abuse, neglect, or exploitation of a child, elderly person, or disabled person as defined by the jurisdiction in which the conviction occurred; or

(R) a crime involving the unlawful use, possession, distribution, or discharge of a firearm; and

(4) conviction of a misdemeanor offense that meets both of the following conditions:

(A) The crime involved at least one of the circumstances described in paragraph (b)(3); and

(B) one of the following conditions is met:

(i) Fewer than five years have passed since the applicant completed the applicant’s sentence, including any term of incarceration, probation, or community supervision or payment of any fine, fees, or restitution; or

(ii) the applicant has been convicted of another crime in the five years immediately preceding the date of the application for license.

(c) Civil or administrative records that may disqualify an applicant from receiving a license shall be any records of any court or administrative agency judgment, order, or a settlement in which the applicant admitted or was found to have engaged in conduct that would constitute a violation of the mortuary arts act or any of the implementing regulations. Those records shall not be used to disqualify an applicant for more than five years after the applicant satisfied the judgment, order, or settlement agreement.

(d) Any individual with a criminal, civil, or administrative record described in this regulation may submit a petition on a form provided by the board for an informal, advisory opinion concerning whether the individual's civil, administrative, or criminal record may disqualify the individual from licensure. Each petition shall include the following:

(1) The details of the individual's civil, administrative, or criminal record, including a copy of each court or administrative record or any settlement by the parties;

(2) an explanation of the circumstances that resulted in the civil, administrative, or criminal record; and

(3) a check or money order in the amount of \$50.00. (Authorized by K.S.A. 65-1712, 65-1723, 65-1730, 65-1766, and 74-120; implementing K.S.A. 65-1751, 65-1766, and 74-120; effective March 8, 2019.)

Article 6.—CONTINUING EDUCATION

63-6-2. Standards for approval. (a) A continuing education course or workshop shall be qualified for approval if the board determines that the course or workshop meets the following conditions:

(1) Constitutes an organized program of learning, including a symposium, that contributes directly to the professional competency of the licensee;

(2) is related to the profession of mortuary science, funeral directing, cremation, or embalming with content intended to enhance the licensee's knowledge, skill, values, ethics, or ability to practice as an embalmer, crematory operator, or funeral director;

(3) is conducted by individuals considered experts in the subject matter of the program by reason of education, training, or experience; and

(4) is accompanied by a paper, a manual, or written outline that substantially describes the subject matter and the length of the program.

(b) Continuing education credit not exceeding three credit hours of the annual total required hours for embalmers and funeral directors and one credit hour for crematory operators may be approved by the board for any of the following:

(1) Correspondence work;

(2) video, sound-recorded, or television programs;

(3) information transmitted by other similar means as authorized by the board; or

(4) community service programs that are related to the profession of mortuary science, funeral directing, or embalming.

(c) Continuing education credit for service as a lecturer, presenter, or discussion leader may be approved by the board if this activity contributes to the professional competence of the applicant. Repetitions of an initial presentation shall not be counted. Not more than 50 percent of the total required hours for embalmers and funeral directors may be satisfied in this manner.

(d) The maximum number of credit hours that shall be granted for any single continuing education course or workshop single topic is six.

(e) Lists of approved continuing education programs shall be available on the board's web site.

(f) A person, licensed embalmer, licensed funeral director, crematory operator, or organization requesting approval for a continuing education course or a workshop shall make application at least 30 days before the date of each proposed course or workshop. Applications filed but not meeting this deadline shall be reviewed by the board or the continuing education committee at its next regularly scheduled meeting. (Authorized by and implementing K.S.A. 65-1702, K.S.A. 65-1716, and K.S.A. 2010 Supp. 65-1772; effective May 1, 1988; amended April 3, 1995; amended Jan. 12, 2001; amended Sept. 16, 2011.)

63-6-3. Post approval and review. (a) Each licensed embalmer, crematory operator, or funeral director and each organization seeking continuing education credit for prior attendance or participation in a program or activity that has not already been approved shall submit, on forms provided by the board, the following information to the board:

(1) The dates;

(2) the subject matter;

(3) the names of the instructors and their qualifications, if applicable;

(4) a description of the program or activity; and
(5) the number of credit hours requested. A complete written outline describing the subject matter or activity and the time of the program shall accompany all requests. Within 90 days after receipt of the application, the licensee seeking credit shall be advised by the board, in writing and by mail, whether the activity is approved and the number of credit hours allowed. Any licensee may be denied credit if the licensee fails to comply with the requirements of this subsection.

(b) Any continuing education program already approved by the board may be monitored or reviewed by the board. Upon evidence of variation in the program presented from the program approved, all or any part of the program may be disapproved. (Authorized by and implementing K.S.A. 65-1702, K.S.A. 65-1716, and K.S.A. 2010 Supp. 65-1772; effective May 1, 1988; amended June 26, 1989; amended April 3, 1995; amended Jan. 12, 2001; amended Sept. 16, 2011.)

Article 7.—CREMATORIES

63-7-1. Definitions. (a) “Board” means the Kansas state board of mortuary arts.

(b) “Change of ownership” means the transfer of more than 25 percent of the stock or assets of a licensed crematory.

(c) “Closed container” means any container in which cremated remains can be placed and closed in a manner that prevents both the leakage or spillage of remains and the entrance of foreign material.

(d) “Coroner’s permit to cremate” means the document that is required to be issued by a Kansas coroner before the act of cremation.

(e) “Cremation container” means the container in which human remains are transported to the crematory and placed in the cremation chamber for a cremation. A cremation container shall meet all of the following requirements:

(1) Be composed of readily combustible or consumable materials suitable for cremation;

(2) be able to be closed in order to provide a complete covering for the human remains;

(3) be resistant to leakage or spillage;

(4) be rigid enough for handling with ease; and

(5) be able to provide protection for the health, safety, and personal integrity of crematory personnel.

(f) “Cremation interment container” and “urn vault” mean a rigid outer container that meets

both of the following requirements, subject to each cemetery’s policies:

(1) Is composed of concrete, steel, fiberglass, or a similar material in which an urn is placed before being interred in the ground; and

(2) is designed to withstand prolonged exposure to the elements and to support the earth above the urn.

(g) “Crematory act” means K.S.A. 65-1760 through K.S.A. 65-1774, and amendments thereto.

(h) “Final disposition” means the burial or other disposition on a permanent basis of a dead human body, cremated remains, or parts of a dead human body.

(i) “Niche” means a compartment or cubicle for the memorialization or permanent placement of an urn containing cremated remains.

(j) “Person” means an individual, partnership, association, or corporation.

(k) “Processing” means the reduction of identifiable bone fragments after the completion of the cremation process to unidentifiable bone fragments by manual or mechanical means.

(l) “Pulverization” means the reduction of identifiable bone fragments after the completion of the cremation and processing to granulated particles by manual or mechanical means.

(m) “Scattering area” means a designated area for the scattering of cremated remains usually in a cemetery and on dedicated cemetery property where cremated remains that have been removed from their container can be mixed with, or placed on top of, the soil or ground cover or can be buried in an underground receptacle on a commingled basis. (Authorized by and implementing K.S.A. 65-1766, as amended by L. 2010, ch. 131, sec. 13, and K.S.A. 2010 Supp. 65-1774; effective May 17, 2002; amended Sept. 16, 2011.)

63-7-2. Crematory operator in charge; crematory operator; recordkeeping.

(a) The crematory operator in charge or crematory operator shall furnish to each person who delivers human remains to the crematory a receipt showing the date and time of the delivery, the name of the person from whom the human remains were received, the name of the person who received the human remains on behalf of the crematory, and the name of the decedent. The crematory operator or crematory operator in charge shall retain a copy of this receipt in its permanent records.

(b) Upon the release of cremated remains, the crematory operator or crematory operator in

charge shall furnish to the person who receives the cremated remains from the crematory a receipt signed by the person who receives the cremated remains and showing the date of the release, the identification number of the deceased, and the name of the decedent. The crematory operator in charge shall retain a copy of this receipt in its permanent records.

(c) Each crematory operator in charge or crematory operator shall create and maintain on the premises an accurate record of every cremation provided. The records shall include all of the following information for each cremation:

(1) The name of the person, funeral establishment, or branch establishment delivering the body for cremation;

(2) the name of the deceased and the identification number assigned to the body;

(3) the time and date of acceptance of delivery;

(4) the date that the body was placed in the cremation chamber;

(5) the date and the name of the individual receiving the cremated remains;

(6) the name and address of the person who signed the authorization to cremate; and

(7) all supporting documentation, including the coroner's permit to cremate and the authorizing agent's authorization to cremate.

(d) The records required under subsection (c) shall be maintained for five calendar years after the release of the cremated remains. Following this period, the crematory operator in charge or crematory operator may then place the records in storage or reduce them to microfilm, microfiche, laser disc, or any other method that can produce an accurate reproduction of the original record, for retention for seven calendar years from the date of the release of the cremated remains. At the end of this period, the crematory operator in charge may destroy the records by shredding, incineration, or any other manner that protects the privacy of the individuals identified.

(e) The crematory operator in charge or crematory operator shall maintain a permanent record of the name of the deceased and the date the deceased's body was cremated.

(f) The crematory operator in charge or crematory operator shall maintain a permanent record of all cremated remains disposed of by the crematory. (Authorized by and implementing K.S.A. 65-1723, K.S.A. 2010 Supp. 65-1762, as amended by L. 2010, ch. 131, sec. 9; effective May 17, 2002; amended Sept. 16, 2011.)

63-7-6. Licensure applications for crematories. (a) Each crematory operator in charge shall submit a completed application for a crematory license for each crematory that the individual currently supervises. The application shall be submitted in writing on forms provided by the board and shall contain the following information:

(1) The name, address, and location of the crematory;

(2) a roster of all crematory operators employed at the crematory;

(3) the name and form of ownership of the business;

(4) the names and titles of all individual owners or, if a corporation, all officers;

(5) evidence confirming the date the crematory desires to be licensed;

(6) a description of the type of structure, equipment, and process being used in the operation of the crematory;

(7) verification of compliance with all applicable local and state building codes, zoning laws, ordinances, and environmental standards, including those guidelines adopted by the centers for disease control and prevention regarding biosafety; and

(8) any further information that the board may require regarding compliance with the crematory act.

(b) A crematory operator in charge may be in charge of not more than one licensed crematory. (Authorized by K.S.A. 2010 Supp. 65-1774; implementing K.S.A. 2010 Supp. 65-1771; effective May 17, 2002; amended Sept. 16, 2011.)

63-7-7. Inspection of crematories. (a) Each crematory shall be subject to routine inspections at least once a year by the board or its designee, to determine compliance with the crematory act and the board's regulations adopted under this act.

(b) A crematory may be subject to additional inspections if any of the following conditions exists:

(1) The crematory incurred a violation in a previous inspection.

(2) A change occurred in ownership or in the crematory operator in charge.

(3) The crematory operator in charge did not timely renew the crematory license.

(4) The board has information that violations could exist or could have occurred.

(c) Inspections shall be made between the hours of 8:00 a.m. and 6:00 p.m. or at any time business is being conducted, unless otherwise agreed by both parties.

(d) Inspections shall be made by the board or its designee.

(e) Inspections of crematories may be authorized by the board or its executive secretary.

(f) Any authorized inspection may be conducted without notice to the crematory operator in charge. (Authorized by and implementing K.S.A. 65-1723; effective May 17, 2002; amended Sept. 16, 2011.)

63-7-9. Crematory operator's license; application requirements. (a) Each person seeking licensure as a crematory operator shall meet the requirements of K.S.A. 65-1771, and amendments thereto, and shall pay the fee specified in K.A.R. 63-4-1. For purposes of the training, the following requirements shall apply:

(1) Fifty minutes of training shall constitute one hour.

(2) Proof of completion of training shall be provided to the board by the provider of the program on a form approved by the board.

(3) A list of approved programs shall be listed on the board's web site.

(b) All licenses issued shall be signed by the president and the secretary of the board and attested by its seal. Each crematory operator shall at all times prominently display the crematory operator's license in the crematory operator's place of employment. (Authorized by K.S.A. 2010 Supp. 65-1774; implementing K.S.A. 2010 Supp. 65-1771; effective Sept. 16, 2011.)

63-7-10. Crematory operator's initial license; biennial renewal. (a) The initial licensure fee for crematory operators shall be charged on a pro rata basis in order to place new licensees according to the expiration dates specified in subsection (c).

(b) Each crematory operator license renewal fee shall be paid on a biennial basis. Each renewal fee shall be initially prorated to the nearest whole month, to establish the biennial renewal process.

(c) Each expiration date shall be assigned alphabetically according to the first letter of the applicant's or licensee's surname, as follows:

(1) A and M shall expire on January 31.

(2) B and N shall expire on February 28.

(3) C and O shall expire on March 31.

(4) D and P shall expire on April 30.

(5) E and Q shall expire on May 31.

(6) F and R shall expire on June 30.

(7) G and S shall expire on July 31.

(8) H and T shall expire on August 31.

(9) I and U shall expire on September 30.

(10) J and V shall expire on October 31.

(11) K and W shall expire on November 30.

(12) L, X, Y, and Z shall expire on December 31.

Each licensee whose surname begins with a letter from A through L shall renew in even-numbered years. Each licensee whose surname begins with a letter from M through Z shall renew in odd-numbered years.

(d) Each licensee shall make up all past continuing education hours accrued during the expiration period within one year of reinstatement.

(e) Each licensee changing the licensee's surname shall notify the board of the change, and the expiration date shall be adjusted to the month designated in subsection (c). (Authorized by K.S.A. 2010 Supp. 65-1772 and K.S.A. 2010 Supp. 65-1774; implementing K.S.A. 2010 Supp. 65-1772; effective Sept. 16, 2011.)

63-7-11. Continuing education. (a) Each crematory operator shall submit with the license renewal application satisfactory proof of completion of at least two board-approved clock-hours of continuing education related to cremation per biennial licensure period. Each crematory operator shall file proof of completion of continuing education credit with the board on forms approved by the board.

(b) Any licensee may obtain continuing education credit by attending and participating in continuing education courses or workshops that meet the requirements of K.A.R. 63-6-2.

(c) The continuing education requirements for each individual newly licensed shall be waived for the first-time renewal of that individual's license.

(d) Compliance with this regulation shall be a requirement for each crematory operator that is separate from the continuing education requirements for embalmers and funeral directors. (Authorized by K.S.A. 2010 Supp. 65-1774; implementing K.S.A. 2010 Supp. 65-1772; effective Sept. 16, 2011.)

Board of Examiners in Optometry

Articles

65-4. GENERAL PROVISIONS.

65-5. LICENSES.

Article 4.—GENERAL PROVISIONS

65-4-3. Fees. The following fees shall be collected by the board:

- (a) Initial license examination..... \$150.00
- (b) First retaking of license examination..... \$ 75.00
- (c) The second and each subsequent retaking of license examination..... \$ 45.00
- (d) License issued by examination..... \$ 30.00
- (e) Reciprocal license \$150.00
- (f) (1) Biennial renewal of license..... \$450.00
- (2) Additional fee to obtain license renewal upon the failure to renew license before expiration date \$500.00
- (g) Conversion of license status from inactive to active \$100.00

(Authorized by K.S.A. 74-1504; implementing K.S.A. 2009 Supp. 65-1505 and K.S.A. 2009 Supp. 65-1509; effective May 18, 1992; amended June 7, 1993; amended Sept. 4, 1998; amended Feb. 22, 2002; amended June 25, 2004; amended July 2, 2010.)

Article 5.—LICENSES

65-5-6. Continuing education. (a) Each licensed optometrist shall earn annually 24 hours of documented and approved continuing education during each license renewal period.

(b) No more than eight hours of the 24 annually required hours of documented and approved continuing education may be obtained through courses that do not include a live presentation. No more than four of the 24 annually required hours of documented and approved continuing education may be obtained through observing ophthalmic surgery. No more than four of the 24 annually required hours of documented and approved continuing education may be in the subject area of practice management.

Courses including those presented through the internet, by correspondence, in journals or other publications, and by presentation that is remote or recorded, or both, shall be subject to the limitations specified in this subsection.

(c) Each academic credit hour shall be equivalent to 15 hours of continuing education. Credit for auditing an academic course shall be given for actual hours attended during which instruction was given and shall not exceed the number of hours allowed for academic credit.

(d) The following educational programs may be used to meet the annual educational requirement:

- (1) Educational meetings of the American optometric association;
- (2) educational meetings of the Kansas optometric association;
- (3) scientific sections of the American academy of optometry;
- (4) postgraduate courses offered at any accredited school of optometry; and
- (5) other educational programs approved by the board.

(e) Each provider seeking board approval for a continuing education offering shall submit a copy of the continuing education program, schedule, or outline to the secretary-treasurer at least 60 days before the date of the program.

(f) Each licensee shall submit a certificate of attendance to the secretary-treasurer with or before the licensee's application for renewal. The certificate of attendance shall contain the following:

- (1) The name of the sponsoring organization;
- (2) the name, signature, and address of the licensee;
- (3) the number of hours attended;
- (4) the subject of the approved education program;
- (5) the date of the educational program; and
- (6) any other evidence of attendance required by the board.

(g) The certificate of attendance shall be on a form approved by the board and shall be signed by the licensee and an appropriate representative of the sponsoring organization. (Authorized by K.S.A. 74-1504(a)(6); implementing K.S.A. 2014 Supp. 65-1509a; effective May 18, 1992; amended

March 7, 1997; amended June 9, 2000; amended Oct. 3, 2003; amended June 5, 2015.)

65-5-10. (Authorized by K.S.A. 74-1504(a)(6); implementing K.S.A. 1998 Supp. 65-1501, K.S.A. 1998 Supp. 65-1501a, K.S.A. 1998 Supp. 65-1505, K.S.A. 1998 Supp. 65-4915(b), and K.S.A. 65-1525; effective Feb. 28, 1997; amended Nov. 29, 1999; revoked June 5, 2015.)

65-5-11. (Authorized by and implementing

K.S.A. 74-1504 and K.S.A. 2003 Supp. 65-1509; effective June 25, 2004; revoked June 5, 2015.)

65-5-13. Professional liability insurance.

Each person licensed by the board shall, before rendering professional services within the state, obtain and maintain professional liability insurance coverage of at least \$1,000,000 for each claim. (Authorized by K.S.A. 74-1504; implementing K.S.A. 2014 Supp. 65-1505; effective June 5, 2015.)

Article 6.—PROFESSIONAL PRACTICE

66-6-1. Seals and signatures. (a) Each licensee shall obtain a seal of the design approved by the board in compliance with K.S.A. 74-7023, and amendments thereto. The seal may contain an abbreviated form of the licensee's given name or a combination of initials representing the licensee's given name if the surname listed with the board appears on the seal and in the signature. The seal may be a rubber stamp, an embossed seal, or a digital seal.

(b)(1) After the licensee's seal has been applied to any document, the licensee shall apply the licensee's handwritten or authenticated digital signature and the date across the seal. The application of the licensee's seal and signature and the date shall constitute certification that the document on which the seal was applied was created by the licensee or under the licensee's responsible charge.

(2) After a licensee has applied the seal, handwritten or digital signature, and date to a document, that document may be reproduced as necessary for the project in accordance with applicable law.

(3) Any licensee may use a digital signature if the digital signature authentication process meets all of the following requirements:

- (A) Is unique to the licensee using the digital signature;
- (B) is able to be verified;
- (C) is under the sole control of the licensee using the digital signature; and
- (D) is linked to an electronic document bearing

the digital signature in such a manner that the signature is invalidated if any data in the document is altered.

(4) Each transmitted or stored electronic document containing a digital signature shall bear the signature, date of signing, and seal, which shall be a confirmation that the electronic document was not altered after the initial digital signing of the document. If the electronic document is altered, the signature, date, and seal shall be void.

(c)(1) Except as provided in K.S.A. 74-7031, K.S.A. 74-7032, K.S.A. 74-7033, K.S.A. 74-7034, or K.S.A. 74-7042a and amendments thereto, each document, including drawings, technical reports, original land descriptions for the purpose of conveying an interest in real property, records, and papers, shall be sealed, signed, and dated by the licensee who prepared the document or by the licensee who is in responsible charge. The licensee shall seal, sign, and date only work within the licensee's area of licensure and competence. Unless the licensee is in responsible charge, that licensee shall not review or check technical submissions of another licensed professional or unlicensed person and seal the documents as the licensee's own work.

(2) Documents required to be sealed, signed, and dated shall include the following:

(A) Any document submitted to any public or governmental agency, a client, or a user for final approval or recording; and

(B) each revision to a sealed, signed, and dated document, which shall be identified and sealed, signed, and dated by the licensee responsible for the revision.

(d)(1) The following documents shall be sealed, signed, and dated as specified in this subsection:

(A) For a set of drawings, in one of the following ways:

- (i) On each drawing sheet of a set of drawings;
- (ii) only on the first sheet of a multisheet set of project drawings if a digital signature authentication process meeting all the requirements in this regulation and capable of digitally linking all drawing sheets to a licensee's area of responsibility is utilized; or

(iii) in a certification block displaying the seal, signature, and date of each licensee in responsible charge and designating the drawing sheets for which each licensee is responsible, which shall be included on the cover sheet or first drawing sheet of the set of drawings;

(B) for project-specific technical specifications, on the cover sheet or index page. If multiple licensees contribute to these specifications, each licensee shall also designate each part for which that licensee is responsible;

(C) for each technical report or survey plat, on the first or last page;

(D) for original land descriptions for the purpose of conveying an interest in real property, on the first or last page;

(E) for each manufacturer's design document submitted in response to a project's delegated design requirements, including performance specifications or drawings for a specific system or components that are not commonly manufactured items standard for order, and prepared by or under the direct supervision of a Kansas licensee, with the submittal sealed, signed, and dated by the manufacturer's Kansas licensee as specified in paragraph (d)(1)(A) or (B); and

(F) for modified standard details or drawings required by a public agency to be incorporated in a project, on the cover sheet or index page of the document.

(2) For multiple seals, each licensee shall affix that individual's seal and signature to the document and shall designate the specific subject matter for which that licensee is responsible, in a note under that licensee's seal or in the title or index sheet indicating the document to which the seal applies.

(e) The documents not required to be sealed, signed, and dated shall include the following:

(1) A working drawing or preliminary document, if the working drawing or preliminary document contains a statement in large, bold let-

ters stating "PRELIMINARY, NOT FOR CONSTRUCTION, RECORDING PURPOSES, OR IMPLEMENTATION" or words of comparable meaning; and

(2) published standard details, drawings, or specifications adopted by a municipal, county, or public agency, if incorporated in that agency's own projects. These documents shall be referenced within the project's set of drawings when used. Nothing in this subsection shall relieve a licensee of the duty of professional conduct.

(f)(1) If a licensee who has responsible charge of the work is unavailable to complete the work, a successor licensee may assume responsible charge by performing all professional services, including developing a complete design file with work or design criteria, calculations, code research, and any necessary and appropriate changes to the work, under either of the following conditions:

(A) The work is a site adaptation of a standard design plan.

(B) The non-professional services, including drafting, are not required to be redone by the successor licensee but clearly and accurately reflect the successor licensee's work.

(2) The successor licensee shall have responsible charge over the work product.

(3) The successor licensee shall be responsible for compliance with this subsection. (Authorized by K.S.A. 2015 Supp. 74-7013; implementing K.S.A. 2015 Supp. 74-7023; effective May 1, 1978; amended May 1, 1984; amended May 1, 1985; amended May 4, 1992; amended Feb. 22, 1993; amended Feb. 13, 1995; amended March 1, 1996; amended Feb. 6, 1998; amended Nov. 2, 2001; amended March 28, 2008; amended, T-66-5-30-14, July 1, 2014; amended Sept. 26, 2014; amended June 3, 2016.)

66-6-4. Professional conduct. (a) For the purposes of this regulation, "licensee" shall mean an architect, a landscape architect, a professional engineer, a professional geologist, or a professional surveyor.

(b) If any licensee's professional judgment has been disregarded under circumstances in which the safety, health, or welfare of the public is endangered, the licensee shall inform the employer or client of the possible consequences, and the licensee shall notify the authority who issued the building permit or otherwise has jurisdiction.

(c) The licensee shall not advertise to perform or undertake to perform any assignment involving

a specific technical profession unless the licensee is licensed and qualified by education and experience in that technical profession, as defined in K.S.A. 74-7003, and amendments thereto.

(d) A licensee in any technical profession shall not affix a personal or digital signature, seal, or both to any plan or document dealing with subject matter that is outside the licensee's field of practice as defined by K.S.A. 74-7003, and amendments thereto.

(e) If the competence of any licensee to perform an assignment in a specific technical field is at issue, the licensee may be required by the board to pass an appropriate examination.

(f) In all professional reports, statements, and testimony, each licensee shall meet the following requirements:

(1) Be completely objective and truthful; and

(2) include all relevant and pertinent information.

(g) When serving as an expert or technical witness before any court, commission, or other tribunal, each licensee shall express only opinions founded on the following:

(1) An adequate knowledge of the facts at issue;

(2) a background of technical competence in the subject matter; and

(3) an actual, good-faith belief in the accuracy and propriety of the licensee's testimony.

(h) If a licensee issues any statements, criticisms, or arguments on public policy matters that are inspired or paid for by any interested party or parties, those comments shall be prefaced by and include disclosure of the following:

(1) The identity of each party on whose behalf the licensee is speaking; and

(2) the existence of any pecuniary interest of the licensee.

(i) Each licensee shall disclose all known or potential conflicts of interest to employers or clients by promptly informing them of any business association, interest, or any other circumstances that could influence that licensee's judgment or the quality of the licensee's services.

(j) A licensee shall not accept compensation, financial or otherwise, from more than one party for services on the same project or for services pertaining to the same project, unless the circumstances are fully disclosed and agreed to by all interested parties.

(k) A licensee shall not solicit or accept financial or other valuable consideration, directly or indirectly, from either of the following:

(1) Material or equipment suppliers for specifying their products; or

(2) contractors, their agents, or other parties in connection with work for employers or clients for which the licensee is responsible.

(l) A licensee shall not solicit a contract from a governmental body on which a principal or officer of the licensee's organization serves as a member, except upon public disclosure of all pertinent facts and circumstances and consent of the appropriate public authority.

(m) A licensee shall not offer, directly or indirectly, to pay a commission or other consideration or to make a political contribution or other gift in order to secure work, except for payment made to an employment agency for its services.

(n) In all contacts with prospective or existing clients or employers, each licensee shall accurately represent the licensee's qualifications and the scope of the licensee's responsibility in connection with work for which the licensee is claiming credit.

(o) A licensee shall not be associated with, or permit the use of the licensee's personal name or firm name in, a business venture being performed by any person or firm that the licensee knows, or has reason to believe, is engaging in either of the following:

(1) Business or professional practice of a fraudulent or dishonest nature; or

(2) a violation of K.S.A. 74-7001 et seq., and amendments thereto, or the regulations promulgated and adopted by the board, or both.

(p) Each licensee with knowledge of any alleged violation of K.S.A. 74-7001 et seq., and amendments thereto, or the regulations promulgated and adopted by the board, or both, shall report the alleged violation to the board.

(q) Each licensee shall cooperate with the board in its investigation of complaints or possible violations of K.S.A. 74-7001 et seq., and amendments thereto, and the regulations of the board. This cooperation shall include responding timely to written communications from the board, providing any information or documents requested within 30 days of the date on which the communication was mailed, and appearing before the board or its designee upon request.

(r) A licensee shall not assist any person in applying for licensure if the licensee knows that person to be unqualified with respect to education, training, experience, or character.

(s) Conviction of a felony or the revocation or suspension of a professional license by another jurisdiction, if for a cause that in Kansas would

constitute a violation of Kansas law or of these regulations, or both, shall constitute unprofessional conduct.

(t) A licensee shall not violate any order of the board.

(u) Each professional surveyor shall comply with the minimum standards for the practice of professional surveying adopted by reference in K.A.R. 66-12-1.

(v) Each licensee shall take appropriate measures to ensure that the licensee's drawings and specifications meet the following requirements:

(1) Remain the property of the licensee regardless of whether the project contemplated was executed;

(2) are not utilized for projects that were not contemplated at the time of the completion of the drawings and specifications; and

(3) are not used by the client on any other projects, including additions to the contemplated project, unless the licensee defaults or agrees in writing to this use. (Authorized by K.S.A. 2013 Supp. 74-7013, as amended by 2014 SB 349, sec. 12; implementing K.S.A. 2013 Supp. 74-7013, as amended by 2014 SB 349, sec. 12, and K.S.A. 2013 Supp. 74-7026, as amended by 2014 SB 349, sec. 20; effective May 1, 1978; amended May 1, 1984; amended May 1, 1985; amended May 4, 1992; amended Feb. 22, 1993; amended Feb. 13, 1995; amended Feb. 4, 2000; amended Feb. 9, 2001; amended Nov. 2, 2001; amended Feb. 4, 2005; amended Jan. 5, 2007; amended March 28, 2008; amended, T-66-5-30-14, July 1, 2014; amended Sept. 26, 2014.)

66-6-6. Renewal of licenses and certificates of authorization. (a) Each licensee whose last name begins with one of the letters A through L shall renew the license in even-numbered years. Each licensee whose last name begins with one of the letters M through Z shall renew the license in odd-numbered years. A notice shall be issued by the board to each licensee during the appropriate renewal year, and not later than 30 days before the following expiration dates:

- | | |
|-----------------------------|--------------|
| (1) Architects | June 30; |
| (2) landscape architects | December 31; |
| (3) professional engineers | April 30; |
| (4) professional geologists | June 30; and |
| (5) professional surveyors | March 31. |

(b) Each business entity whose name begins with one of the letters A through L shall renew

its certificate of authorization in even-numbered years. Each business entity whose name begins with one of the letters M through Z shall renew its certificate of authorization in odd-numbered years. A notice shall be issued by the board to each business entity during the appropriate renewal year, and not later than 30 days before the December 31 expiration date. (Authorized by K.S.A. 2013 Supp. 74-7013, as amended by 2014 SB 349, sec. 12; implementing K.S.A. 2013 Supp. 74-7025, as amended by 2014 SB 349, sec. 19, and K.S.A. 2013 Supp. 74-7036, as amended by 2014 SB 349, sec. 28; effective May 1, 1984; amended May 4, 1992; amended Feb. 22, 1993; amended Feb. 14, 1994; amended March 1, 1996; amended Feb. 4, 2000; amended Nov. 6, 2009; amended Sept. 26, 2014.)

66-6-8. (Authorized by K.S.A. 74-7013; implementing K.S.A. 74-7025; effective May 1, 1984; amended May 4, 1992; amended Feb. 22, 1993; amended Feb. 14, 1994; amended Feb. 13, 1995; revoked Nov. 6, 2009.)

66-6-9. (Authorized by K.S.A. 74-7013; implementing K.S.A. 74-7025; effective May 1, 1984; amended May 1, 1985; amended May 4, 1992; amended Feb. 22, 1993; amended Feb. 14, 1994; amended Feb. 13, 1995; revoked Nov. 6, 2009.)

66-6-10. License statuses. For licenses that renew on or after November 1, 2014, any licensee may elect to place the license, at the time of renewal, into one of the following license statuses:

(a) Active status shall require renewal every two years with the appropriate fee. The individual shall have 30 professional development hours (PDHs) of acceptable continuing education as required for renewal.

(b) Inactive status shall require renewal every two years with the appropriate fee. No continuing education shall be required. The individual shall have no pending disciplinary action before the board. The individual shall not practice a technical profession in Kansas.

(c) Emeritus status shall require the individual to be at least 60 years of age. The individual shall submit a one-time application, with no fee and no proof of continuing education required. The individual shall have no pending disciplinary action before the board. Any individual who chooses this license status may use that individual's professional title in conjunction with the word "emeritus." The individual shall not practice a technical

profession in Kansas. (Authorized by K.S.A. 2013 Supp. 74-7013, as amended by 2014 SB 349, sec. 12, and K.S.A. 2013 Supp. 74-7025, as amended by 2014 SB 349, sec. 19; implementing K.S.A. 2013 Supp. 74-7025, as amended by 2014 SB 349, sec. 19; effective Sept. 26, 2014.)

Article 7.—APPLICATIONS

66-7-1. Applications. (a) In addition to the appropriate, completed application form and fee, each applicant shall also submit the following:

(1) An official transcript to verify any educational credit; and

(2) verification of any practical experience for which credit is claimed on reference forms approved by the board and forwarded directly to the board office by the individual providing the reference.

(b) Each applicant for a license by reciprocity shall also submit the following:

(1) Verification of any exams previously taken; and

(2) verification of a current active license. (Authorized by K.S.A. 2010 Supp. 74-7013; implementing K.S.A. 2010 Supp. 74-7018; effective May 1, 1984; amended May 4, 1992; amended Jan. 6, 2012.)

66-7-2. Application for certificate of authorization. (a) A separate application shall be submitted for each technical profession for which a business entity wishes to become authorized.

(b) Each application submitted by a foreign business entity shall be accompanied by the following:

(1) A copy of the formation documents from the home state; and

(2) a copy of the certificate of authority to do business in the state of Kansas from the Kansas secretary of state if qualified pursuant to K.S.A. 17-7301 et seq., and amendments thereto, or if exempt pursuant to K.S.A. 17-7303, 17-76, 121a, or 56a-1104 et seq., and amendments thereto.

(c) Each application submitted by a domestic business entity shall be accompanied by a copy of the formation documents and a certificate of good standing from the Kansas secretary of state. (Authorized by K.S.A. 74-7013, as amended by L. 2009, Ch. 94, §3; implementing K.S.A. 74-7036, as amended by L. 2009, Ch. 94, §13; effective May 1, 1984; amended May 4, 1992; amended Feb. 5, 1999; amended Feb. 4, 2000; amended Nov. 6, 2009.)

66-7-4. Potentially disqualifying civil and criminal records; advisory opinion; fee. (a) Conviction of any felony may disqualify an applicant from receiving a license.

(b) Civil records that may disqualify an applicant from receiving a license shall be the records of any court judgment or settlement in which the applicant admitted or was found to have engaged in conduct that would constitute a violation of the technical professions act or any of the board's regulations. Those records shall not be used to disqualify an applicant for more than five years after the applicant satisfied any judgment or restitution ordered by the court or agreed to in the settlement.

(c) Any individual with a criminal or civil record described in this regulation may submit a petition to the board for an informal, advisory opinion concerning whether the individual's civil or criminal record may disqualify the individual from licensure. Each petition shall include the following:

(1) The details of the individual's civil or criminal record, including a copy of the court records or the settlement agreement;

(2) an explanation of the circumstances that resulted in the civil or criminal record; and

(3) a check or money order in the amount of \$50.00. (Authorized by K.S.A. 74-120 and K.S.A. 74-7013; implementing K.S.A. 74-120 and K.S.A. 74-7026; effective Aug. 16, 2019.)

Article 8.—EXAMINATIONS

66-8-1. (Authorized by K.S.A. 74-7013, as amended by L. 1995, ch. 104, sec. 1; implementing K.S.A. 74-7017; effective May 1, 1984; amended May 4, 1992; amended March 1, 1996; revoked Nov. 6, 2009.)

66-8-3. Engineering examinations. (a) The examination required of each applicant for engineering licensure shall be the national council of examiners for engineering and surveying (NCEES) examination consisting of an engineering fundamentals section and a professional practice section.

(b) The examination shall be graded by the NCEES, subject to approval by the board.

(c) Each applicant for a professional license shall be required to pass the section on engineering fundamentals, meet the educational requirements under K.A.R. 66-9-4, and meet the professional engineering experience requirements under K.S.A. 74-7021 and amendments thereto before submitting an application to take

the section on professional practice. (Authorized by K.S.A. 2012 Supp. 74-7013; implementing K.S.A. 74-7017, K.S.A. 2012 Supp. 74-7021, and K.S.A. 2012 Supp. 74-7023; effective May 1, 1984; amended May 4, 1992; amended Feb. 22, 1993; amended Feb. 14, 1994; amended Nov. 6, 2009; amended Dec. 27, 2013.)

66-8-4. Professional surveyor examinations. (a) The examinations required of each applicant for licensure as a professional surveyor shall be the following:

(1) The national council of examiners for engineering and surveying (NCEES) examinations covering the following:

(A) The fundamentals of surveying; and
(B) the principles and practices of surveying; and

(2) an examination covering Kansas surveying laws and practices.

(b) The fundamentals and the principles and practices of surveying examinations shall be graded by the NCEES, subject to approval by the board.

(c) Any applicant who has passed one or more sections of previous registration examinations may be granted transfer credits if approved by the board.

(d) Each applicant for a license as a professional surveyor shall be required to pass the section on the fundamentals of surveying and shall meet the surveying experience requirements under K.S.A. 74-7022, and amendments thereto, before submitting an application to take the section on professional practice. (Authorized by K.S.A. 2013 Supp. 74-7013, as amended by 2014 SB 349, sec. 12; implementing K.S.A. 74-7017, K.S.A. 2013 Supp. 74-7022, as amended by 2014 SB 349, sec. 15, and K.S.A. 2013 Supp. 74-7023, as amended by 2014 SB 349, sec. 17; effective May 1, 1984; amended May 4, 1992; amended Feb. 22, 1993; amended Feb. 14, 1994; amended Feb. 13, 1995; amended Nov. 1, 2002; amended Feb. 3, 2006; amended Nov. 6, 2009; amended Sept. 26, 2014.)

66-8-6. Reexamination. (a) Any applicant for a license to practice engineering, surveying, or geology who fails an examination on the first attempt may take the examination two additional times, except as specified in subsections (b) and (c).

(b) Except as specified in subsection (c), the fourth and any subsequent attempts by an applicant to retake an examination may be allowed by

the board if the applicant establishes that the areas of deficiency identified in the examination failure report provided by the testing administrator have been addressed through either of the following:

(1) Additional coursework; or

(2) experience under the supervision of a person licensed in the technical profession for which the applicant is seeking licensure.

(c) Any applicant's examination results may be rejected by the board and permission to retake an examination may be withheld by the board upon a report by the testing administrator of any possible violation by the applicant of the provisions of any candidate testing agreement regarding examination irregularities.

(d) Each applicant shall submit the appropriate fee for each examination. (Authorized by K.S.A. 2013 Supp. 74-7013, as amended by 2014 SB 349, sec. 12; implementing K.S.A. 2013 Supp. 74-7009, as amended by 2014 SB 349, sec. 10, and K.S.A. 2013 Supp. 74-7023, as amended by 2014 SB 349, sec. 17; effective May 1, 1984; amended May 4, 1992; amended June 18, 2010; amended Dec. 27, 2013; amended Sept. 26, 2014.)

66-8-7. Geology examinations. (a) The examination required of each applicant for geology licensure shall be the national association of state boards of geology (ASBOG®) examination, consisting of a geology fundamentals section and a geologic practice section.

(b) The examination shall be graded by the ASBOG®, subject to approval by the board.

(c) Each applicant for a professional license shall be required to pass the section on geology fundamentals and shall meet the geology experience requirements under 2014 SB 349, sec. 16, and amendments thereto, before submitting an application to take the section on geologic practice. (Authorized by K.S.A. 2013 Supp. 74-7013, as amended by 2014 SB 349, sec. 12; implementing K.S.A. 74-7017, K.S.A. 2013 Supp. 74-7023, as amended by 2014 SB 349, sec. 17, and 2014 SB 349, sec. 16; effective Feb. 4, 2000; amended Nov. 6, 2009; amended, T-66-5-30-14, July 1, 2014; amended Sept. 26, 2014.)

66-8-8. Examination standards acceptable to the board for reciprocity applicants. (a) The reexamination of an applicant from another jurisdiction shall not be required for a license by reciprocity if that jurisdiction's examination requirements would have met the Kansas requirements

in effect on the date when the applicant's original license was issued, as determined by the board.

(b) Another jurisdiction's examination requirements may be accepted by the board if that jurisdiction did not require the national examination when the applicant was originally licensed.

(c) In order to meet the standard acceptable to the board, each applicant for a license by reciprocity as a professional surveyor shall be required to demonstrate proficiency in Kansas surveying laws and practices. This proficiency shall be presumed by the board upon the applicant's successful completion of the examination as specified in K.A.R. 66-8-4(a)(2). (Authorized by K.S.A. 2013 Supp. 74-7013, as amended by 2014 SB 349, sec. 12; implementing K.S.A. 74-7024, as amended by 2014 SB 349, sec. 18; effective Feb. 4, 2005; amended Jan. 5, 2007; amended Sept. 26, 2014.)

Article 9.—EDUCATION

66-9-4. Engineering curriculum approved by the board. “A college or university program that is adequate in its preparation of students for the practice of engineering” shall mean any of the following:

(a) A baccalaureate engineering curriculum accredited by the engineering accreditation commission of the accreditation board for engineering and technology (EAC/ABET);

(b) a curriculum for a master's degree or doctorate in engineering, if all college coursework is reviewed and approved by the board and found to be of a standard equivalent to that of an ABET accredited baccalaureate engineering curriculum; or

(c) a baccalaureate engineering curriculum outside the United States that has not been accredited by ABET but meets the following requirements:

(1) Is evaluated by an organization approved by the board and found to be of a standard equivalent to that of ABET; and

(2) is reviewed and approved by the board. (Authorized by K.S.A. 74-7013, as amended by L. 2009, Ch. 94, §3; implementing K.S.A. 74-7021, as amended by L. 2009, Ch. 94, §5; effective May 1, 1984; amended May 4, 1992; amended Feb. 22, 1993; amended Feb. 14, 1994; amended Feb. 4, 2000; amended Feb. 3, 2006; amended Nov. 6, 2009.)

66-9-5. Surveying curriculum approved by the board. Any applicant seeking licensure as a professional surveyor may fulfill the education requirement by any of the following:

(a) Graduation from an approved engineering curriculum as defined in K.A.R. 66-9-4;

(b) graduation from a four-year surveying baccalaureate curriculum accredited by the accreditation board for engineering and technology (ABET);

(c) graduation from an approved surveying curriculum of two years from a school or college approved by the board;

(d) graduation from an approved four-year related science curriculum, which may include geology, mathematics, chemistry, or physics; or

(e) successful completion of the board's “land surveying curriculum,” which was approved by the board on December 8, 2006 and is hereby adopted by reference. (Authorized by K.S.A. 2013 Supp. 74-7013, as amended by 2014 SB 349, sec. 12; implementing K.S.A. 2013 Supp. 74-7022, as amended by 2014 SB 349, sec. 15; effective Feb. 22, 1993; amended Feb. 14, 1994; amended Nov. 1, 2002; amended June 29, 2007; amended Sept. 26, 2014.)

66-9-6. Geology curriculum approved by the board. Graduation from a course of study in geology shall mean successful completion of a baccalaureate or a master's degree in geology that meets the requirements of 2014 SB 349, sec. 16, and amendments thereto. (Authorized by K.S.A. 2013 Supp. 74-7013, as amended by 2014 SB 349, sec. 12; implementing 2014 SB 349, sec. 16; effective Feb. 4, 2000; amended Feb. 4, 2005; amended, T-66-5-30-14, July 1, 2014; amended Sept. 26, 2014.)

66-9-7. Education standard acceptable to the board for reciprocity applicants. For purposes of K.S.A. 74-7024 and amendments thereto, the following shall apply:

(a) Each applicant for a license to practice engineering, surveying, landscape architecture, or geology by reciprocity shall be deemed to have met the education standard acceptable to the board if the applicant's educational qualifications when the original license was issued would have met the Kansas requirements in effect on that date.

(b) Each applicant for a license to practice architecture by reciprocity shall provide one of the following to the board, for the board's review and consideration for approval:

(1) Proof that the applicant's educational qualifications comply with K.A.R. 66-9-1; or

(2) proof of certification from the national council of architectural registration boards (NCARB).

(Authorized by K.S.A. 2017 Supp. 74-7013; implementing K.S.A. 2017 Supp. 74-7024; effective Feb. 4, 2005; amended Jan. 6, 2012; amended Dec. 27, 2013; amended Sept. 26, 2014; amended June 14, 2019.)

Article 10.—EXPERIENCE

66-10-1. Architectural experience satisfactory to the board. (a) Each applicant for a license to practice architecture by examination shall complete a structured experience program of at least 3,740 hours in the following experience areas:

- (1) In practice management, 160 hours;
- (2) in project management, 360 hours;
- (3) in programming and analysis, 260 hours;
- (4) in project planning and design, 1,080 hours;
- (5) in project development and documentation, 1,520 hours; and
- (6) in construction and evaluation, 360 hours.

At least 1,860 of these 3,740 hours shall be completed under the supervision of an architect.

(b) Compliance with the “architectural experience program guidelines,” dated May 2017 and published by the national council of architectural registration boards (NCARB), shall be prima facie evidence of satisfactory completion of the structured experience program. (Authorized by K.S.A. 74-7013 and 74-7019; implementing K.S.A. 74-7019; effective May 1, 1984; amended May 4, 1992; amended Feb. 22, 1993; amended Feb. 14, 1994; amended Feb. 13, 1995; amended March 1, 1996; amended Feb. 6, 1998; amended Feb. 9, 2001; amended Nov. 1, 2002; amended Feb. 3, 2006; amended March 28, 2008; amended Nov. 6, 2009; amended June 18, 2010; amended Jan. 6, 2012; amended Dec. 27, 2013; amended Sept. 26, 2014; amended June 14, 2019.)

66-10-3. Architectural experience required of a reciprocity applicant. Each applicant for a license to practice architecture by reciprocity shall provide one of the following to the board, for review and consideration for approval:

(a) Proof that the applicant’s experience qualifications comply with K.A.R. 66-10-1; or

(b) proof of certification from the national council of architectural registration boards (NCARB). (Authorized by K.S.A. 2017 Supp. 74-7013; implementing K.S.A. 2017 Supp. 74-7019; effective May 1, 1984; amended May 1, 1985; amended May 4, 1992; amended Feb. 22, 1993; amended Feb. 14, 1994; amended Feb. 13, 1995; amended

Jan. 6, 2012; amended Dec. 27, 2013; amended June 14, 2019.)

66-10-9. Engineering experience of a character that is satisfactory to the board. (a)

The work experience required of each applicant shall expose the applicant to all phases of work integral to the discipline of engineering in which the applicant claims qualification to practice and shall be verified as specified in paragraph (b)(2).

(b) Engineering work experience shall meet the following requirements:

(1) Fall within the definition of “the practice of engineering” pursuant to K.S.A. 74-7003, and amendments thereto;

(2) be directly supervised and verified by a licensed professional engineer. However, direct supervision by a licensed professional engineer shall not be required of the employees of any person, firm, or corporation not offering services in the technical professions to the public, although verification by the applicant’s supervisor shall still be required; and

(3) include at least two years of work experience, which shall have been gained in the United States.

(c) The following requirements and provisions shall be used to assign credit for work experience:

(1) The applicant shall demonstrate four years of acceptable work experience.

(2) One year of credit toward the experience requirement may be given for a master’s or doctoral degree in engineering, unless that degree is used to satisfy the educational requirement described in K.A.R. 66-9-4(b). Credit for concurrent experience shall not be granted if the applicant is working full-time while earning a master’s degree and that master’s degree is received less than four calendar years from the date of the baccalaureate degree.

(3) Teaching engineering at a college or university that offers an engineering curriculum accredited by the engineering accreditation commission of the accreditation board for engineering and technology (EAC/ABET) of four years or more may be considered engineering experience.

(4) Work experience credit shall not be allowed for work performed before graduation with the baccalaureate degree.

(d) Each applicant shall supply at least three references from professional engineers who are licensed in the United States and are familiar with the applicant’s engineering experience. (Autho-

rized by K.S.A. 2012 Supp. 74-7013; implementing K.S.A. 2012 Supp. 74-7021; effective May 1, 1984; amended April 9, 1990; amended May 4, 1992; amended Feb. 14, 1994; amended Feb. 13, 1995; amended Nov. 1, 2002; amended Feb. 3, 2006; amended Jan. 5, 2007; amended Nov. 6, 2009; amended Dec. 27, 2013.)

66-10-10. Surveying experience required of a graduate of an accredited engineering curriculum. Each graduate of an accredited engineering curriculum, as defined by K.A.R. 66-9-4, shall provide a verified record of six years of surveying experience as specified by K.S.A. 74-7022(a), and amendments thereto. At least four years of experience shall have been in progressive surveying, as defined in K.A.R. 66-10-12(b)(1). (Authorized by K.S.A. 2013 Supp. 74-7013, as amended by 2014 SB 349, sec. 12; implementing K.S.A. 2013 Supp. 74-7022, as amended by 2014 SB 349, sec. 15; effective May 1, 1984; amended May 4, 1992; amended Feb. 22, 1993; amended Feb. 13, 1995; amended Sept. 26, 2014.)

66-10-10a. Surveying experience required of applicant who completes surveying curriculum or is a graduate of an approved surveying curriculum. (a) Each graduate of a four-year surveying curriculum, as described in K.A.R. 66-9-5(b), shall be required to provide documentation of four years of surveying experience, as required by K.S.A. 74-7022(a) and amendments thereto. The four years of experience shall have been in progressive surveying, as described in K.A.R. 66-10-12(b)(1).

(b) Each person who has successfully completed the land surveying curriculum specified in K.A.R. 66-9-5(e) and each graduate of an approved surveying curriculum of two years, as specified in K.A.R. 66-9-5(c), shall be required to provide documentation of six years of surveying experience, as required by K.S.A. 74-7022(a) and amendments thereto. At least four years of experience shall have been in progressive surveying as specified in K.A.R. 66-10-12(b)(1), and the remainder shall have been in either progressive surveying or basic surveying, as specified in K.A.R. 66-10-12(b)(2) or (3). (Authorized by K.S.A. 2013 Supp. 74-7013, as amended by 2014 SB 349, sec. 12; implementing K.S.A. 2013 Supp. 74-7022, as amended by 2014 SB 349, sec. 15; effective Feb. 22, 1993; amended Feb. 13, 1995; amended Jan. 5, 2007; amended June 29, 2007; amended Sept. 26, 2014.)

66-10-11. (Authorized by K.S.A. 74-7013 and 74-7022; implementing K.S.A. 74-7022; effective May 1, 1984; amended May 4, 1992; amended Feb. 22, 1993; amended Feb. 13, 1995; amended Feb. 9, 2001; amended Feb. 3, 2006; revoked Sept. 26, 2014.)

66-10-12. Surveying experience of a character satisfactory to the board. (a)(1) Surveying experience shall meet the following requirements:

(A) Fall within the definition of “practice of professional surveying” in K.S.A. 74-7003, and amendments thereto; and

(B) be under the direct supervision of a licensed professional surveyor for work performed after May 1, 1988.

(2) Each applicant shall supply references from at least three licensed surveyors or licensed engineers who are familiar with the applicant’s surveying experience. At least one reference shall be from a licensed surveyor.

(b) The following requirements shall be used to assign credit for work experience.

(1) Progressive surveying experience shall include each of the following elements of professional surveying:

(A) Project management;

(B) research;

(C) measurements and locations;

(D) computations and analysis;

(E) legal principles and reconciliation;

(F) land planning and design;

(G) monumentation; and

(H) documentation and land information systems.

(2) Surveying experience normally identified with engineering projects, including construction staking, curb and gutter projects, sanitary sewers, and design surveys for highways or bridges other than those that relate to right-of-way surveys, shall not be considered progressive surveying experience. This experience, however, may be considered by the board as basic surveying experience.

(3) Teaching experience in surveying courses in an accredited engineering or surveying curriculum may be considered as equal to one year of basic surveying experience. (Authorized by K.S.A. 2013 Supp. 74-7013, as amended by 2014 SB 349, sec. 12; implementing K.S.A. 2013 Supp. 74-7022, as amended by 2014 SB 345, sec. 15; effective May 1, 1984; amended May 4, 1992; amended Feb. 22, 1993; amended Feb. 13, 1995; amended Feb. 4, 2000; amended Feb. 9, 2001; amended

Nov. 2, 2001; amended Feb. 3, 2006; amended Sept. 26, 2014.)

66-10-13. Geology experience of a character that is satisfactory to the board. (a) The work experience required of each applicant shall expose the applicant to all phases of work integral to the discipline of geology in which the applicant claims qualification to practice and shall be verified as specified in paragraph (b)(2).

(b) Geology experience shall meet the following requirements:

(1) Fall within the definition of “practice of professional geology” in K.S.A. 74-7003, and amendments thereto; and

(2) be directly supervised and verified by a licensed geologist for work performed after July 1, 2000. However, direct supervision by a licensed geologist shall not be required of the employees of any person, firm, or corporation that does not offer services in the technical professions to the public, although verification by the applicant’s supervisor shall still be required.

(c) The following shall be used to assess credit for work experience:

(1) Experience credit shall not be allowed for work performed before graduation.

(2) One year of credit toward the experience requirement may be given for a master’s degree in geology or in a closely related specialty area acceptable to the board.

(3) Teaching geology in a college or university that offers a geology curriculum of four years or more approved by the board may be considered geology experience.

(d) Each applicant shall supply references from at least three licensed geologists or licensed engineers who are familiar with the applicant’s geology experience. At least two of these references shall be licensed geologists. One of the three references may be a licensed engineer. (Authorized by K.S.A. 2013 Supp. 74-7013, as amended by 2014 SB 349, sec. 12; implementing 2014 SB 349, sec. 16; effective Feb. 4, 2000; amended Feb. 9, 2001; amended Nov. 2, 2001; amended Nov. 1, 2002; amended Dec. 27, 2013; amended, T-66-5-30-14, July 1, 2014; amended Sept. 26, 2014.)

66-10-14. Engineering, surveying, and geology experience standards acceptable to the board for reciprocity applicants. (a) Each applicant for a professional engineering license by reciprocity shall meet the following requirements:

(1) Provide verification from the employer of at least four years of experience in the practice of professional engineering, as defined in K.S.A. 74-7003 and amendments thereto. One year of credit toward the experience requirement may be given for a master’s or doctoral degree in engineering; and

(2) supply references from at least three engineers who are licensed in the United States and are familiar with the applicant’s engineering experience.

(b) Each applicant for a professional surveying license by reciprocity shall meet the following requirements:

(1) Provide verification from the employer of at least eight years of surveying experience or education, or a combination of these, pursuant to K.S.A. 74-7022 and amendments thereto, K.A.R. 66-10-10, K.A.R. 66-10-10a, K.A.R. 66-10-10b, and K.A.R. 66-10-11; and

(2) supply references from at least three licensed surveyors or licensed engineers who are familiar with the applicant’s surveying experience. At least one reference shall be from a licensed surveyor.

(c) Each applicant for a professional geology license by reciprocity shall meet the following requirements:

(1) Provide verification from the employer of at least four years of experience in the practice of professional geology, as defined in K.S.A. 74-7003 and amendments thereto. One year of credit toward the experience requirement may be given for a master’s degree in geology or in a closely related specialty area acceptable to the board; and

(2) supply references from at least three licensed geologists or licensed engineers who are familiar with the applicant’s geology experience. At least two of these references shall be from licensed geologists. One of the three references may be from a licensed engineer. (Authorized by K.S.A. 2013 Supp. 74-7013, as amended by 2014 SB 349, sec. 12, K.S.A. 2013 Supp. 74-7021, as amended by 2014 SB 349, sec. 14, K.S.A. 2013 Supp. 74-7022, as amended by 2014 SB 349, sec. 15, and 2014 SB 349, sec. 16; implementing K.S.A. 2013 Supp. 74-7018, K.S.A. 2013 Supp. 74-7021, as amended by 2014 SB 349, sec. 14, K.S.A. 2013 Supp. 74-7022, as amended by 2014 SB 349, sec. 15, K.S.A. 74-7024, as amended by 2014 SB 349, sec. 18, and 2014 SB 349, sec. 16; effective Feb. 4, 2005; amended Feb. 3, 2006; amended Nov. 6, 2009; amended Dec. 27, 2013; amended, T-66-5-30-14, July 1, 2014; amended Sept. 26, 2014.)

Article 11.—INTERN CERTIFICATION AND ADMISSION TO THE FUNDAMENTALS EXAMINATION

66-11-1. Intern engineer certificate. An intern engineer certificate shall be issued to each individual who meets the following requirements:

(a) Passes the examination in the fundamentals of engineering as administered by the national council of examiners for engineering and surveying (NCEES);

(b) submits proof of completion of a baccalaureate engineering curriculum or equivalent as described in K.A.R. 66-9-4; and

(c) submits an application, on a form provided by the board, that is approved by the board. (Authorized by K.S.A. 2012 Supp. 74-7013; implementing K.S.A. 2012 Supp. 74-7021; effective May 1, 1984; amended May 4, 1992; amended Feb. 14, 1994; amended Nov. 6, 2009; amended Dec. 27, 2013.)

66-11-1a. Intern geologist certificate. An intern geologist certificate shall be issued to each individual who meets both of the following requirements:

(a) Passes the examination in the fundamentals of geology as administered by the national association of state boards of geology (ASBOG®); and

(b) submits proof of completion of a baccalaureate or master's degree in geology pursuant to K.A.R. 66-9-6. (Authorized by K.S.A. 2013 Supp. 74-7013, as amended by 2014 SB 349, sec. 12; implementing 2014 SB 349, sec. 16; effective Nov. 1, 2002; amended Nov. 6, 2009; amended, T-66-5-30-14, July 1, 2014; amended Sept. 26, 2014.)

66-11-1b. Intern surveyor certificate. An intern surveyor certificate shall be issued to each individual who meets both of the following requirements:

(a) Passes the examination in the fundamentals of surveying as administered by the national council of examiners for engineering and surveying (NCEES); and

(b) submits proof of completion of the surveying curriculum described in K.A.R. 66-9-5. (Authorized by K.S.A. 2013 Supp. 74-7013, as amended by 2014 SB 349, sec. 12; implementing K.S.A. 2013 Supp. 74-7022, as amended by 2014 SB 349, sec. 15; effective Nov. 1, 2002; amended Nov. 6, 2009; amended Sept. 26, 2014.)

66-11-2. (Authorized by K.S.A. 74-7013; implementing K.S.A. 74-7021 and 74-7023; effective May 1, 1984; amended May 4, 1992; amended Feb. 22, 1993; amended Feb. 14, 1994; amended Jan. 5, 2007; revoked Dec. 27, 2013.)

66-11-4. Admission requirements for fundamentals of geology examination. (a) Each application shall be reviewed by the board to determine whether the requirements for examination have been met. Once the board establishes that the requirements have been met, the applicant shall be allowed to sit for the examination.

(b) The requirements for admission shall be either of the following:

(1) Senior status in a geology curriculum described in K.A.R. 66-9-6; or

(2) completion of a geology curriculum described in K.A.R. 66-9-6. (Authorized by K.S.A. 2013 Supp. 74-7013, as amended by 2014 SB 349, sec. 12; implementing K.S.A. 2013 Supp. 74-7023, as amended by 2014 SB 349, sec. 17, and 2014 SB 349, sec. 16; effective Feb. 4, 2000; amended Nov. 6, 2009; amended, T-66-5-30-14, July 1, 2014; amended Sept. 26, 2014.)

66-11-5. Admission requirements for fundamentals of surveying examination. (a) Each application shall be reviewed by the board to determine whether the requirements for admission to take the fundamentals of surveying examination have been met. Once the board establishes that these requirements have been met, the applicant shall be allowed to sit for the examination.

(b) Each applicant shall meet one of the following requirements for admission before taking the examination:

(1) Graduation from an accredited surveying curriculum, as defined in K.A.R. 66-9-5 (b) and (c);

(2) successful completion of the surveying curriculum specified in K.A.R. 66-9-5(e); or

(3) verification of a combination of education and experience of a character satisfactory to the board. In evaluating an applicant's record, a determination shall be made by the board of whether, based on the applicant's educational background, the applicant requires no more than four years of additional progressive surveying experience to qualify for admission to the practice of surveying examination. (Authorized by K.S.A. 2013 Supp. 74-7013, as amended by 2014 SB 349, sec. 12; implementing K.S.A. 2013 Supp. 74-7022, as amended by 2014 SB 349, sec. 15, and K.S.A.

2013 Supp. 74-7023, as amended by 2014 SB 349, sec. 17; effective Nov. 1, 2002; amended Feb. 3, 2006; amended June 29, 2007; amended Jan. 23, 2009; amended Sept. 26, 2014.)

**Article 12.—MINIMUM STANDARDS
FOR THE PRACTICE OF
PROFESSIONAL SURVEYING**

66-12-1. Minimum standards for the practice of professional surveying. The board hereby adopts by reference the following:

(a) The “minimum standard detail requirements for ALTA/ACSM land title surveys (effective February 23, 2011);” and

(b) the “Kansas minimum standards for boundary surveys and mortgagee title inspections standards of practice” adopted by the Kansas society of land surveyors and last amended December 2009, except that the preface and scope sections shall be deleted. (Authorized by and implementing K.S.A. 2013 Supp. 74-7013, as amended by 2014 SB 349, sec. 12; effective May 4, 1992; amended Feb. 14, 1994; amended Feb. 13, 1995; amended March 1, 1996; amended Feb. 4, 2000; amended Jan. 23, 2009; amended June 18, 2010; amended Jan. 6, 2012; amended, T-66-5-30-14, July 1, 2014; amended Sept. 26, 2014.)

**Article 14.—CONTINUING
EDUCATION REQUIREMENTS**

66-14-1. Requirements. (a) Each licensee shall have completed 30 professional development hours (PDHs) of acceptable continuing education requirements during the two-year period immediately preceding the biennial renewal date established in K.A.R. 66-6-6 as a condition for license renewal. If the licensee exceeds the requirement in any renewal period, the licensee may carry a maximum of 15 PDHs forward into the subsequent renewal period.

(b)(1) Each professional surveyor shall complete, as part of the 30 PDHs required, at least two PDHs of preapproved continuing education activity on the Kansas minimum standards adopted by reference in K.A.R. 66-12-1(b).

(2) Each provider of a continuing education activity specified in paragraph (b)(1) shall submit an application for preapproval of the continuing education activity on a form provided by the board.

(3) To qualify for preapproval, each continuing education activity shall meet the following conditions:

(A) The activity has a definable purpose and objective.

(B) The activity is created and conducted by a person qualified in the subject area.

(C) The activity equals two contact hours.

(D) Documentation is provided to the participant upon completion of the activity.

This regulation shall be effective on and after September 1, 2015. (Authorized by K.S.A. 2014 Supp. 74-7013; implementing K.S.A. 2014 Supp. 74-7013 and 74-7025; effective March 1, 1996; amended Feb. 4, 2000; amended Jan. 23, 2009; amended Dec. 27, 2013; amended Sept. 1, 2015.)

66-14-2. Definitions. Each of the following terms used in this article shall have the meaning specified in this regulation:

(a) “Contact hour” means one clock-hour of at least 50 minutes.

(b) “Continuing education activity” means an activity that enhances a licensee’s level of technical, professional, managerial, or ethical competence in order to further the goal of protecting the health, safety, and welfare of the public.

(c) “Continuing education unit” (CEU) means a unit of credit customarily used for continuing education courses. One CEU shall be the equivalent of 10 PDHs.

(d) “Dual licensee” means a person who is licensed in two technical professions.

(e) “Professional development hour” (PDH) means a unit of credit given by the board for participation in a continuing education activity as specified in this article.

(f) “Sponsor” means an individual, organization, association, institution, or other entity that provides an educational offering for the purpose of fulfilling the continuing educational requirements of these regulations.

This regulation shall be effective on and after September 1, 2015. (Authorized by K.S.A. 2014 Supp. 74-7013; implementing K.S.A. 2014 Supp. 74-7013 and 74-7025; effective March 1, 1996; amended Jan. 23, 2009; amended Sept. 1, 2015.)

66-14-3. Continuing education activities.

(a) Continuing education activities that satisfy the continuing education requirement shall include the following:

(1) Attending professional or technical presentations at meetings, conventions, or conferences;

(2) attending in-house programs sponsored by corporations or other organizations;

(3) successfully completing seminars, tutorials, short courses, correspondence courses, televised courses, or videotaped courses;

(4) making professional or technical presentations at meetings, conventions, or conferences;

(5) teaching or instructing, as described in K.A.R. 66-14-5(a)(2);

(6) authoring published papers, articles, or books;

(7) serving as an officer or committee member of a technical profession society or organization, as described in K.A.R. 66-14-5(a)(4);

(8) successfully completing courses sponsored by a college or university; and

(9) successfully completing courses that are awarded PDHs.

(b) Each of the continuing education activities identified in paragraphs (a)(1), (2), (3), (8), and (9) shall meet all of the following conditions:

(1) The activity has a definable purpose and objective relevant to the licensee's field of practice.

(2) The program is conducted by a person qualified in the subject area.

(3) The licensee retains a record of registration and attendance.

This regulation shall be effective on and after September 1, 2015. (Authorized by K.S.A. 2014 Supp. 74-7013; implementing K.S.A. 2014 Supp. 74-7013 and 74-7025; effective March 1, 1996; amended Feb. 4, 2005; amended Jan. 23, 2009; amended Sept. 1, 2015.)

66-14-5. Computation of credit. (a) Continuing education units shall be measured in professional development hours (PDHs) and shall be computed as follows:

(1) Successfully completing one contact hour of professional development education in coursework or seminars or making professional or technical presentations at meetings, conventions, or conferences shall be the equivalent of one PDH.

(2) Teaching or instructing, as specified in K.A.R. 66-14-3(a)(5), shall constitute four PDHs for each contact hour spent in the classroom. Teaching credit shall be valid for teaching a course or seminar in its initial presentation only. Full-time faculty at a college, university, or other educational institution shall not receive teaching credit for teaching their regularly assigned courses.

(3) Authoring a published paper, article, or book shall be the equivalent of one of the following:

(A) 10 PDHs for each book or peer-reviewed paper in the licensee's area of professional practice; or

(B) two PDHs for each paper or article in the licensee's area of professional practice.

(4) Serving as an officer or committee member of a technical profession society or organization shall be the equivalent of two PDHs. Professional development hours shall be limited to two PDHs for each organization and shall not be earned until the completion of each year of service.

(5) Successfully completing one university semester hour of credit shall be the equivalent of 45 PDHs.

(6) Successfully completing one university quarter hour of credit shall be the equivalent of 30 PDHs.

(b) Final authority regarding the approval of continuing education activities shall rest with the board.

This regulation shall be effective on and after September 1, 2015. (Authorized by K.S.A. 2014 Supp. 74-7013; implementing K.S.A. 2014 Supp. 74-7013 and 74-7025; effective March 1, 1996; amended Nov. 2, 2001; amended Feb. 4, 2005; amended Jan. 23, 2009; amended Sept. 1, 2015.)

66-14-6. Exemptions. A licensee may be exempt, upon board review and approval, from continuing education requirements in any of the following situations:

(a) The licensee is renewing for the first time.

(b) The licensee is called to active duty in the armed forces of the United States for a period of time exceeding 120 consecutive days in a calendar year. This individual may be exempt from obtaining the 15 professional development hours (PDH) required only during that year.

(c) The licensee chooses to have the license placed on inactive status or emeritus status as specified in K.A.R. 66-6-10. If the licensee elects to return to practice, the licensee shall earn 30 professional development hours for the last renewal period or shall meet the requirement specified in K.A.R. 66-14-10 or K.A.R. 66-14-11. (Authorized by K.S.A. 2013 Supp. 74-7013, as amended by 2014 SB 349, sec. 12; implementing K.S.A. 2013 Supp. 74-7013, as amended by 2014 SB 349, sec. 12, and K.S.A. 2013 Supp. 74-7025, as amended by 2014 SB 349, sec. 19; effective March 1, 1996; amended Feb. 4, 2000; amended Nov. 1, 2002; amended Sept. 26, 2014.)

66-14-7. Records. (a) Each licensee shall maintain records on forms prescribed and furnished by the board to support the professional development hours claimed by the licensee.

The records shall include the following:

(1) A log showing the type of continuing education activity claimed, the number of professional development hours earned, and other information as applicable; and

(2) supporting documentation, which may include documentation of either of the following:

(A) Presentations or attendance at meetings, conventions, conferences, programs, seminars, and similar activities, which shall be documented by verification records in the form of completion certificates or other documents supporting evidence of attendance; or

(B) authoring published papers, articles, or books, which shall be documented by proof of publication.

(b) Each licensee shall maintain the records specified in subsection (a) for at least four years and shall provide a copy to the board, upon request.

This regulation shall be effective on and after September 1, 2015. (Authorized by K.S.A. 2014 Supp. 74-7013; implementing K.S.A. 2014 Supp. 74-7013 and 74-7025; effective March 1, 1996; amended Jan. 23, 2009; amended Sept. 1, 2015.)

66-14-10. Licensure in another jurisdiction. (a) Except as specified in subsections (b) and (c), the board's continuing education requirements may be satisfied if a licensee meets all of the following conditions:

(1) The licensee is licensed to practice one of the technical professions in another jurisdiction.

(2) The licensee resides in the jurisdiction specified in paragraph (a)(1).

(3) The licensee meets the continuing education requirements of the jurisdiction in which the licensee resides.

(b) If a licensee resides in a jurisdiction that requires no continuing education, the licensee shall meet the continuing education requirements of this article.

(c) Each professional surveyor shall comply with K.A.R. 66-14-1(b).

This regulation shall be effective on and after September 1, 2015. (Authorized by K.S.A. 2014 Supp. 74-7013; implementing K.S.A. 2014 Supp. 74-7013 and 74-7025; effective March 1, 1996; amended Feb. 9, 2001; amended June 18, 2010; amended Sept. 1, 2015.)

66-14-11. Dual licensee. Each dual licensee shall earn at least 20 of the required PDHs for each renewal period, including the carryover permitted by this regulation, in each technical profession. The number of PDHs that may be carried over into the next renewal period for each dual licensee shall not exceed 15 in each technical profession.

This regulation shall be effective on and after September 1, 2015. (Authorized by K.S.A. 2014 Supp. 74-7013; implementing K.S.A. 2014 Supp. 74-7013 and 74-7025; effective March 1, 1996; amended Sept. 1, 2015.)

Article 15.—FEES

66-15-1. Fees. The following nonrefundable fees shall be charged to any applicant, licensee, or holder of a certificate of authorization for any of the technical professions and shall be collected by the board:

- (a) Application for original license \$60.00
- (b) Application for license by reciprocity \$250.00
- (c) Application for certificate of authorization for a business entity..... \$170.00
- (d) Biennial renewal of an active license..... \$70.00
- (e) Biennial renewal of a certificate of authorization for a business entity..... \$95.00
- (f) Late fee for the untimely renewal of a license or certificate of authorization \$20.00
- (g) Return from inactive license to active practice license \$20.00
- (h) Reinstatement of a cancelled license..... \$100.00
- (i) Replacement of a lost, destroyed, or mutilated license or certificate of authorization \$20.00
- (j) Replacement of any revoked or suspended license \$100.00
- (k) Replacement of a revoked or suspended certificate of authorization \$150.00

(Authorized by K.S.A. 74-7013; implementing K.S.A. 74-7009, 74-7025, and 74-7026; effective Jan. 17, 2020.)

Agency 67

Kansas Board of Examiners in Fitting and Dispensing of Hearing Instruments

Editor's Note:

The name of the board relating to licensing, fitting and dispensing of hearing aids which was set forth in K.S.A.74-5801 as the Kansas Board of Examiners in Fitting and Dispensing of Hearing Aids, and often referred to as the Board of Hearing Aid Examiners, was changed in the 2006 legislative session to the Kansas Board of Examiners in Fitting and Dispensing of Hearing Instruments. See L. 2006, ch. 115, § 1.

Articles

- 67-1. APPLICATION FOR LICENSE.
- 67-2. EXAMINATIONS.
- 67-3. DUTIES OF SPONSORS OF TEMPORARY LICENSEES.
- 67-5. RENEWALS.

Article 1.—APPLICATION FOR LICENSE

67-1-8. Potentially disqualifying civil and criminal records; advisory opinion; fee.

(a) Any of the following criminal records may disqualify an applicant from receiving a license:

- (1) Conviction of any felony related to the fitting and dispensing of hearing instruments;
- (2) conviction of any class A misdemeanor that includes any of the following:

(A) A crime whose victim was a client, customer, or other individual with whom the applicant had a professional or fiduciary relationship;

(B) a crime that occurred at the applicant's work site or while the applicant was on work duty;

(C) a crime involving fraud, theft, or misappropriation of another person's money or property;

(D) a crime classified as a sex offense or requiring registration as a sex offender by the jurisdiction in which the conviction occurred;

(E) a crime involving assault or battery as defined by the jurisdiction in which the conviction occurred;

(F) a crime involving the unlawful use, possession, or distribution of drugs; or

(G) a crime involving the abuse, neglect, or exploitation of a child, elderly person, or disabled person as defined by the jurisdiction in which the conviction occurred; or

(3) conviction of any other misdemeanor that meets both of the following conditions:

(A) The crime involved at least one of the circumstances described in paragraph (a)(2); and

(B)(i) Fewer than five years have passed since the applicant completed that individual's sentence, including any term of incarceration, probation, or community supervision; or

(ii) the applicant has been convicted of another crime in the five years immediately preceding the date of application for license.

(b) Civil records that may disqualify an applicant from receiving a license shall be records of any court judgment or settlement in which the applicant admitted or was found to have engaged in conduct that would constitute a violation of the hearing instrument act or any of the board's regulations. Those records shall not be used to disqualify an applicant for more than five years after the applicant satisfied any judgment or restitution ordered by the court or agreed to in the settlement.

(c) Any individual with a criminal or civil record described in this regulation may submit a petition to the board for an informal, advisory opinion concerning whether the individual's civil or criminal record may disqualify the individual from licensure. Each petition shall include the following:

(1) The details of the individual's civil or criminal record, including a copy of the court records or the settlement agreement;

(2) an explanation of the circumstances that resulted in the civil or criminal record; and

(3) a check or money order in the amount of \$50.00. (Authorized by K.S.A. 74-120 and 74-5806; implementing K.S.A. 74-120 and 74-5818; effective Jan. 10, 2020.)

Article 2.—EXAMINATIONS

67-2-4. Examinations. (a) Each applicant shall be required to take an examination that includes both written and practical demonstrations of technical proficiency. Each applicant shall be required to take and pass the written examination before taking the practical examination. The passing score on the practical examination shall be at least 75 percent for each individual section. The written examination shall be graded by the international hearing society, subject to approval by the board.

(b) After the board has approved the applicant's passing score on the written examination, the applicant shall be notified by letter of the date, time, and location of the practical examination. If the board receives proof of an applicant's passing score on the written examination from the international hearing society fewer than 30 days before the next scheduled practical examination and determines that the examination site can accommodate an additional examinee, the applicant may be permitted to take that practical examination. The applicant shall be notified by letter of the results of the practical examination within 30 days from the date of that examination. (Authorized by K.S.A. 74-5806; implementing K.S.A. 74-5812; effective May 1, 1982; amended May 1, 1984; amended March 6, 1995; amended May 12, 2000; amended Feb. 17, 2017; amended Jan. 10, 2020.)

Article 3. – DUTIES OF SPONSORS OF TEMPORARY LICENSEES

67-3-5. Supervising sponsor. (a) “Supervising sponsor” shall mean the person who supervises a temporary licensee pursuant to K.S.A. 74-5812(d) and amendments thereto.

(b) In addition to the requirement pursuant to K.S.A. 74-5812(d) and amendments thereto that a temporary licensee be under the supervision of a

person who holds a valid license, the supervising sponsor shall meet the following requirements:

(1) Have a license that is in good standing with the board, which shall mean that the license is not suspended or subject to any condition or limitation ordered by the board, whether by a consent agreement or a final order of the board; and

(2) have been licensed to engage in the practice of fitting and dispensing hearing instruments for at least five years immediately preceding the date on which supervision begins. (Authorized by and implementing K.S.A. 2008 Supp. 74-5812; effective, T-67-2-8-07, Feb. 8, 2007; effective Aug. 21, 2009.)

Article 5.—RENEWALS

67-5-5. Fees. The following fees shall be collected by the board:

(a)(1) License application.....	\$100
(2) Licensure verification, for each state	\$15
(b)(1) Temporary license	\$100
(2) Temporary license renewal.....	\$100
(3) Change of supervisor	\$15
(c)(1) License	\$100
(2) License or certificate of endorsement renewal.....	\$100
(3) License or certificate of endorsement late renewal.....	\$200
(4) License or certificate of endorsement reinstatement.....	\$300
(5) Inactive license or renewal of inactive license.....	\$25
(6) Conversion of inactive license to active license.....	\$100
(d)(1) Written examination.....	\$35
(2) Practical examination, each section	\$25
(e) Replacement of license or certificate	\$15
(f) Insufficient funds check	\$25

(Authorized by and implementing K.S.A. 74-5810a; effective May 25, 2007; amended Feb. 17, 2017; amended Jan. 10, 2020.)

Article 1.—REGISTRATION AND EXAMINATION OF PHARMACISTS

68-1-1b. Continuing education for pharmacists. (a)(1) “Continuing education” shall mean an organized and systematic education experience beyond basic preparation that is designed to achieve the following:

(A)(i) Increase knowledge, improve skills, or enhance the practice of pharmacy; or

(ii) improve protection of the public health and welfare; and

(B) ensure continued competence.

(2) “ACPE-NABP CPE monitor service” shall mean the electronic tracking service of the accreditation council for pharmacy education and the national association of boards of pharmacy for monitoring continuing education that pharmacists receive from continuing education providers.

(b) Thirty clock-hours of continuing education shall be required for renewal of a pharmacist license during each licensure period. Continuing education clock-hours may be prorated for licensure periods that are less than biennial at a rate of 1.25 clock-hours per month.

(c)(1) Each continuing education program shall be approved by the board. Each provider or licensee shall submit the continuing education program to the board at least 10 days in advance for consideration for approval. Each provider shall advertise the continuing education program

as having only pending approval until the provider is notified of approval by the board.

(2) Continuing education programs shall not include in-service programs, on-the-job training, orientation for a job, an education program open to the general public, a cardiopulmonary resuscitation (CPR) course, a basic cardiac life support (BCLS) course, emergency or disaster training or direct experience at a healthcare facility under a code blue, testing out of a course, and medical school courses.

(3) Each provider shall furnish a certificate of completion to the licensee for each continuing education program that the licensee has successfully completed. Each certificate shall be in a format approved by the board and shall include the following:

(A) The licensee's name;

(B) the title and date of the approved continuing education program;

(C) the name of the provider;

(D) the number of continuing education clock-hours approved by the board;

(E) the number of continuing education clock-hours completed by the licensee;

(F) the approved program number issued by the board; and

(G) the provider's dated signature, certifying program completion.

(d) Within 30 days of completion, each licensee shall submit to the board proof of completion of

any approved continuing education program not reported to the ACPE-NABP CPE monitor service. No credit shall be given for any certificate of completion received by the board after the June 30 expiration date of each licensure period.

(e) A licensee shall not be allowed to carry forward excess clock-hours earned in one licensure period into the next licensure period.

(f) The required continuing education shall be obtained in the two-year licensure period ending on the June 30 expiration date of each license. (Authorized by K.S.A. 65-1630; implementing K.S.A. 2015 Supp. 65-1632; effective, E-76-31, Aug. 11, 1975; effective May 1, 1976; amended May 1, 1978; amended May 1, 1983; amended May 1, 1986; amended May 1, 1987; amended July 1, 1990; amended July 31, 1998; amended Oct. 20, 2006; amended April 23, 2010; amended Aug. 19, 2016.)

68-1-1f. Foreign graduates. (a) Each applicant who has graduated from a school or college of pharmacy or a pharmacy department of a university located outside of the United States or who is not a citizen of the United States shall provide proof that the applicant has reasonable ability to communicate verbally and in writing with the general public in English as specified in this regulation.

(b) Each foreign applicant shall be required to meet the English language requirements for licensure under the pharmacy act of the state of Kansas by passing the internet-based test of English as a foreign language (TOEFL iBT) with at least the following minimum scores:

(1) 22 in reading;

(2) 21 in listening;

(3) 26 in speaking; and

(4) 24 in writing. (Authorized by K.S.A. 65-1630 and K.S.A. 65-1631; implementing K.S.A. 65-1631; effective May 1, 1983; amended June 6, 1994; amended March 20, 1995; amended Aug. 1, 1997; amended Oct. 20, 2006; amended Aug. 19, 2016.)

68-1-1g. (Authorized by and implementing K.S.A. 65-1631; effective Oct. 20, 2006; revoked Aug. 19, 2016.)

68-1-1h. Foreign pharmacy graduate equivalency examination. In addition to meeting the requirements of K.A.R. 68-1-1f, each foreign applicant shall meet the following requirements for licensure under the pharmacy act of the state of Kansas:

(a) Pass the foreign pharmacy graduate equivalency examination (FPGEE) with a score of at least 75;

(b) obtain foreign pharmacy graduate examination committee (FPGEC) certification from the national association of boards of pharmacy (NABP); and

(c) submit a copy of the FPGEC certificate to the board. (Authorized by and implementing K.S.A. 65-1631; effective Oct. 23, 2009.)

68-1-3a. Qualifying pharmaceutical experience. (a) Pharmaceutical experience that qualifies as one year of experience shall consist of 1,740 clock-hours as a pharmacy student or registered intern while being supervised by a preceptor. A preceptor may supervise at any time no more than two individuals who are pharmacy students or interns. All hours worked when the pharmacy student or intern is in regular attendance at an approved school of pharmacy and during vacation times and other times when the pharmacy student or intern is enrolled but not in regular attendance at an approved school of pharmacy may be counted as qualified hours. However, not more than 60 hours of work shall be acquired in any one week.

(b) No time may accrue to a pharmacy student before acceptance in an approved school of pharmacy or before being registered as an intern with the board. However, any foreign pharmacy graduate who has passed equivalent examinations as specified in K.A.R. 68-1-1f and K.A.R. 68-1-1h may apply for registration as an intern.

(c) Once registered as an intern, the intern shall complete all required hours within six years.

(d) Reciprocity shall not be denied to any applicant who is otherwise qualified and who meets either of the following conditions:

(1) Has met the internship requirements of the state from which the applicant is reciprocating; or

(2) has at least one year of experience as a registered pharmacist. (Authorized by K.S.A. 65-1630; implementing K.S.A. 65-1631; effective, E-76-31, Aug. 11, 1975; effective May 1, 1976; amended May 1, 1983; amended May 1, 1985; amended May 31, 2002; amended Jan. 14, 2005; amended Oct. 23, 2009; amended Dec. 15, 2017.)

Article 2.—DRUGSTORES

68-2-10. Cessation of operations. (a) When any pharmacy ceases operations at the location for which the registration was received,

the pharmacist-in-charge shall meet the following requirements:

(1) Within five days after ceasing operations at that location, submit to the board, on a form provided by the board, notice of cessation of pharmacy operations, which shall include the following:

(A) The date the pharmacy ceased operations;

(B) a signed statement attesting that an inventory of all controlled substances was conducted;

(C) the location, pharmacy registration number, contact information, and manner of disposition of the remaining stocks of drugs; and

(D) the location, pharmacy registration number, contact information, and manner of disposition of all records required by the Kansas pharmacy practice act to be maintained; and

(2) no more than 10 days after ceasing operations at that location, notify each patient household that has received a prescription from the pharmacy within the previous two-year period, by U.S. mail, phone, text message, or electronic mail, of the cessation of operations of the pharmacy and the contact information and location for obtaining copies of patient records.

(b) The pharmacist-in-charge of any pharmacy that acquires patient records from a pharmacy that ceases operation shall be responsible for the preservation of the acquired records for the remainder of the term that the records are required by the Kansas pharmacy practice act to be preserved.

(c) In the absence of a pharmacist-in-charge, the owner of each pharmacy shall meet the requirements of this regulation. (Authorized by K.S.A. 65-1630; implementing K.S.A. 65-1642 and K.S.A. 65-1643; effective Jan. 1, 1966; amended, E-76-31, Aug. 11, 1975; amended May 1, 1976; amended Feb. 7, 2003; amended Jan. 3, 2020.)

68-2-20. Pharmacist's function in filling a prescription. (a) As used in this regulation, the following terms shall have the meanings specified in this subsection:

(1) "Authorized prescriber" shall mean a "practitioner" as defined by K.S.A. 65-1626(gg) and amendments thereto, a "mid-level practitioner" as defined by K.S.A. 65-1626(ss) and amendments thereto, or a person authorized to issue a prescription by the laws of another state.

(2) "Legitimate medical purpose," when used in regard to the dispensing of a prescription drug, shall mean that the prescription for the drug was issued with a valid preexisting patient-prescriber

relationship rather than with a relationship established through an internet-based questionnaire, an internet-based consultation, or a telephonic consultation.

(b) Those judgmental functions that constitute the filling or refilling of a prescription shall be performed only by a licensed pharmacist or by a pharmacy student or intern under the direct supervision of a licensed pharmacist and shall consist of the following steps:

(1) Read and interpret the prescription of the prescriber;

(2) limit any filling or refilling of a prescription to one year from the date of origin, except as provided by K.S.A. 65-1637 and amendments thereto;

(3) verify the compounding, counting, and measuring of ingredients and document the accuracy of the prescription;

(4) identify, in the pharmacy record, the pharmacist who verifies the accuracy of the completed prescription;

(5) personally offer to counsel each patient or the patient's agent with each new prescription dispensed, once yearly on maintenance medications, and, if the pharmacist deems appropriate, with prescription refills in accordance with subsection (c);

(6) ensure the proper selection of the prescription medications, devices, or suppliers as authorized by law;

(7) when supervising a pharmacy technician, delegate only nonjudgmental duties associated with the preparation of medications and conduct in-process and final checks;

(8) prohibit all other pharmacy personnel from performing those judgmental functions restricted to the pharmacist; and

(9) interpret and verify patient medication records and perform drug regimen reviews.

(c) In order to comply with paragraph (b)(5), the pharmacist or the pharmacy student or intern under the pharmacist's supervision shall perform the following:

(1) Personally offer to counsel each patient or the patient's agent with each new prescription dispensed, once yearly on maintenance medications, and, if the pharmacist deems appropriate, with prescription refills;

(2) provide the verbal counseling required by this regulation in person, whenever practical, or by the utilization of a telephone service available to the patient or patient's agent. Any pharmacist may authorize an exception to the verbal counsel-

ing requirement on a case-by-case basis for refills, maintenance medications, or continuous medications for the same patient;

(3) when appropriate, provide alternative forms of patient information to supplement verbal patient counseling. These supplemental forms of patient information may include written information, leaflets, pictogram labels, video programs, and auxiliary labels on the prescription vials. However, the supplemental forms of patient information shall not be used as a substitute for the verbal counseling required by this regulation;

(4) encourage proper patient drug utilization and medication administration. The pharmacist shall counsel the patient or patient's agent on those elements that, in the pharmacist's professional judgment, are significant for the patient. These elements may include the following:

(A) The name and a description of the prescribed medication or device;

(B) the dosage form, dosage, route of administration, and duration of therapy;

(C) special directions and precautions for preparation, administration, and use by the patient;

(D) common side effects, adverse effects or interactions, or therapeutic contraindications that could be encountered; the action required if these effects, interactions, or contraindications occur; and any activities or substances to be avoided while using the medication;

(E) techniques for self-monitoring drug therapy;

(F) proper storage requirements; and

(G) action to be taken in the event of a missed dose; and

(5) expressly notify the patient or the patient's agent if a brand exchange has been exercised.

(d) Nothing in this regulation shall be construed to require a pharmacist to provide the required patient counseling if either of the following occurs:

(1) The patient or the patient's agent refuses counseling.

(2) The pharmacist, based upon professional judgment, determines that the counseling may be detrimental to the patient's care or to the relationship between the patient and the patient's prescriber.

(e) Each pharmacist shall make a reasonable effort to ensure that any prescription, regardless of the means of transmission, has been issued for a legitimate medical purpose by an authorized prescriber. (Authorized by K.S.A. 65-1630; implementing K.S.A. 2008 Supp. 65-1626, K.S.A. 2008

Supp. 65-1637, and K.S.A. 2008 Supp. 65-1642; effective, E-77-39, July 22, 1976; effective Feb. 15, 1977; amended May 1, 1978; amended May 1, 1988; amended Nov. 30, 1992; amended March 20, 1995; amended Aug. 14, 1998; amended Dec. 27, 1999; amended Feb. 7, 2003; amended Jan. 8, 2010.)

68-2-22. Electronic transmission of a prescription. (a) Each prescription drug order transmitted electronically shall be issued for a legitimate medical purpose by a prescriber acting within the course of legitimate professional practice.

(b) Each prescription drug order communicated by way of electronic transmission shall meet these requirements:

(1) Be transmitted to a pharmacist in a licensed pharmacy of the patient's choice, exactly as transmitted by the prescriber;

(2) identify the transmitter's phone number for verbal confirmation, the time and date of transmission, and the identity of the pharmacy intended to receive the transmission, as well as any other information required by federal and state laws and regulations;

(3) be transmitted by an authorized prescriber or the prescriber's designated agent; and

(4) be deemed the original prescription drug order, if the order meets the requirements of this regulation.

(c) Any prescriber may authorize an agent to communicate a prescription drug order orally or electronically to a pharmacist in a licensed pharmacy if the identity of the transmitting agent is included in the order.

(d) Each pharmacist shall exercise professional judgment regarding the accuracy, validity, and authenticity of the prescription drug order communicated by way of electronic transmission, consistent with existing federal and state laws and regulations.

(e) All electronic equipment for receipt of prescription drug orders communicated by way of electronic transmission shall be maintained so as to ensure against unauthorized access.

(f) Persons other than those bound by a confidentiality agreement shall not have access to pharmacy records containing confidential information or personally identifiable information concerning the pharmacy's patients.

(g) If communicated by electronic transmission, the prescription drug order shall be maintained in hard copy or as an electronic document for the

time required by existing federal or state laws and regulations, whichever is longer.

(h) Any prescription drug order, including that for any controlled substance listed in schedules II, III, IV, and V, may be communicated by way of electronic transmission, if all requirements of K.A.R. 68-20-10a are met.

(i) After the pharmacist views the prescription drug order, this order shall be immediately reduced to a hard copy or an electronic document and shall contain all information required by federal and state laws and regulations.

(j) Each electronic prescription drug order created and transmitted in conformance with 21 C.F.R. part 1311 shall be considered an original, written, signed prescription drug order. (Authorized by K.S.A. 65-1630 and K.S.A. 2014 Supp. 65-1642; implementing K.S.A. 2014 Supp. 65-1637b and K.S.A. 2014 Supp. 65-1642; effective Feb. 5, 1999; amended Dec. 27, 1999; amended June 2, 2006; amended Oct. 23, 2009; amended May 20, 2011; amended Feb. 13, 2015.)

68-2-23. Notification to board; disciplinary action. Each pharmacy owner shall notify the board in writing within 30 days of any denial, limitation, suspension, revocation, voluntary surrender, or other disciplinary action taken by the state of Kansas or another jurisdiction against the pharmacy or the pharmacy owner or any application, license, registration, or permit held by the pharmacy owner. (Authorized by K.S.A. 65-1630; implementing K.S.A. 2017 Supp. 65-1627; effective Jan. 4, 2019.)

Article 5.—GENERAL RULES

68-5-17. Pharmacy technicians; certification examination; request for extension. The following requirements shall apply to each individual who applies for a new pharmacy technician registration on or after July 1, 2017:

(a) Each pharmacy technician shall be required to pass either the pharmacy technician certification board (PTCB) certification examination or the national healthcareer association (NHA) Ex-CPT certification examination before the first renewal of the pharmacy technician's registration.

(1) Each pharmacy technician shall be required to attain a scaled score of at least 1400 on the PTCB certification examination in order to pass.

(2) Each pharmacy technician shall be required to attain a score of at least 390 on the NHA Ex-CPT certification examination in order to pass.

(b) Any pharmacy technician who is unable to take or pass an approved certification examination before the first renewal of the pharmacy technician's registration may submit to the board, on a form provided by the board, a request for a six-month extension to pass an approved certification examination. The request shall be submitted to the board at least 30 days before the pharmacy technician's registration expiration date and shall provide the reason for the request, which may include any of the following:

(1) Previous examination attempts and failures;

(2) the commencement date of training or preparation and the reasons for delay;

(3) an event that directly resulted from the occurrence of natural causes outside the pharmacy technician's control;

(4) a change in employment and the relevant dates; or

(5) medical necessity.

(c) Within 30 days after passing an approved certification examination or before the first renewal, whichever is earlier, each pharmacy technician shall submit to the board proof of successful completion of the examination. (Authorized by K.S.A. 2016 Supp. 65-1663, as amended by L. 2017, ch. 34, sec. 15, and K.S.A. 2016 Supp. 65-1692; implementing K.S.A. 2016 Supp. 65-1663, as amended by L. 2017, ch. 34, sec. 15; effective May 11, 2018.)

68-5-18. Pharmacy technicians; continuing education. (a)(1) "Continuing education" shall mean an organized and systematic education experience beyond basic preparation that is designed to achieve the following:

(A)(i) Increase knowledge, improve skills, or enhance the practice of pharmacy; or

(ii) improve protection of the public health and welfare; and

(B) ensure continued competence.

(2) "ACPE-NABP CPE monitor service" shall mean the electronic tracking service of the accreditation council for pharmacy education and the national association of boards of pharmacy for monitoring continuing education that pharmacy technicians receive from continuing education providers.

(b) Twenty clock-hours of continuing education shall be required for renewal of a pharmacy technician registration during each registration period. Continuing education clock-hours may be prorated for registration periods that are less than biennial at a rate of 0.8 clock-hours per month.

(c)(1) Each continuing education program shall be approved by the board. Each provider or registrant shall submit the continuing education program to the board at least 10 days in advance for consideration for approval. Each provider shall advertise the continuing education program as having only pending approval until the provider is notified of approval by the board.

(2) Continuing education programs shall not include in-service programs, on-the-job training, orientation for a job, an education program open to the general public, a cardiopulmonary resuscitation (CPR) course, a basic cardiac life support (BCLS) course, emergency or disaster training or direct experience at a healthcare facility under a code blue, testing out of a course, and medical school courses.

(3) Each provider shall furnish a certificate of completion to the pharmacy technician for each continuing education program that the registrant has successfully completed. Each certificate shall be in a format approved by the board and shall include the following:

- (A) The registrant's name;
 - (B) the title and date of the approved continuing education program;
 - (C) the name of the provider;
 - (D) the number of continuing education clock-hours approved by the board;
 - (E) the number of continuing education clock-hours completed by the registrant;
 - (F) the approved program number issued by the board; and
 - (G) the provider's dated signature, certifying program completion.
- (d) Within 30 days of completion, each pharmacy technician shall submit to the board proof of completion of any approved continuing education program not reported to the ACPE-NABP CPE monitor service. No credit shall be given for any certificate of completion received by the board after the October 31 expiration date of each registration period.
- (e) A licensee shall not be allowed to carry forward excess clock-hours earned in one registration period into the next registration period.
- (f) The required continuing education shall be obtained in the two-year registration period ending on the October 31 expiration date of each registration. (Authorized by K.S.A. 65-1630 and K.S.A. 2015 Supp. 65-1663; implementing K.S.A. 2015 Supp. 65-1663; effective Aug. 19, 2016.)

Article 7.—MISCELLANEOUS PROVISIONS

68-7-10. Pharmacy-based drug distribution systems in long-term care facilities; emergency medication kits.

(a) Each of the following terms, as used in this regulation, shall have the meaning specified in this subsection:

(1) "Automated drug delivery system" means an automated dispensing system, as defined by K.S.A. 2017 Supp. 65-1626 and amendments thereto, that is located in a long-term care facility, uses a robotic, mechanical, or computerized device to supply each drug to an individual licensed by the board of healing arts or the board of nursing, who shall administer the drug to a patient, and meets the requirements of K.A.R. 68-9-3.

(2) "Formulary" means a prescription drug list approved by the pharmacy and therapeutics committee or an equivalent committee governing the security, control, and distribution of drugs within a long-term care facility.

(3) "Long-term care facility" means "nursing facility," as defined in K.S.A. 39-923 and amendments thereto.

(4) "Traditional system" means a drug distribution system in which the pharmacist receives a prescription order for an individual patient and fills the prescription in any manner other than packaging individual doses in unit-dose containers.

(5) "Unit-dose container" means a single-unit or multiple-unit container for articles intended for administration in single doses and directly from the container, by other than parenteral route.

(A) "Multiple-unit container" means a container that permits the withdrawal of successive portions of the contents without changing the strength, quality, or purity of the remaining portion.

(B) "Single-unit container" means a container that is designed to hold a quantity of a drug intended for administration as a single dose promptly after the container is opened.

(6) "Unit-dose system" means a drug distribution system that is pharmacy-based and uses unit-dose containers that enable distribution of packaged doses in a manner that preserves the identity of the drug until the time of administration.

(b) Each pharmacy-based drug distribution system for a long-term care facility shall meet the following requirements:

- (1) Be consistent with the medication needs of each patient;

(2) conform to all federal and state laws and regulations pertaining to pharmacies; and

(3) meet the following additional requirements:

(A) Each prescription shall be dispensed from a pharmacy within a time period that reasonably meets the needs of the patient, considering the following factors:

- (i) The need for the drug as an emergency;
- (ii) the availability of the drug;
- (iii) the pharmacy's hours of operation; and
- (iv) the stability of the drug;

(B) the supplying pharmacy shall be responsible for the safe delivery of drugs to a designated person or persons in the long-term care facility;

(C) the supplying pharmacy shall provide a method of identifying the date and quantity of medication dispensed;

(D) a patient medication profile record system shall be maintained for each long-term care facility patient serviced by the supplying pharmacy and shall contain the information necessary to allow the pharmacist to monitor each patient's drug therapy; and

(E) each medication distribution system container shall be labeled to permit the identification of the drug therapy.

(c) Each unit-dose system shall meet the following requirements, in addition to the requirements in subsection (b):

(1) All medication shall be packaged in unit-dose containers as far as practicable and the packaging shall meet the requirements of K.A.R. 68-7-15 and 68-7-16, unless the manufacturer specifies a different type of packaging to be used to prevent adulteration as defined by K.S.A. 65-668, and amendments thereto.

(2) The pharmacist shall be responsible for filling and refilling prescriptions or prescriber's orders, or both, according to the directions of the prescriber by relying on the original prescription or prescriber's order or a copy thereof.

(3) The pharmacist shall comply with all requirements for prescription orders, including inventory and recordkeeping requirements, under the following:

(A) The Kansas uniform controlled substances act, K.S.A. 65-4101 et seq. and amendments thereto;

(B) the Kansas pharmacy act, K.S.A. 65-1625 et seq. and amendments thereto;

(C) the board's applicable regulations in articles 1 and 20; and

(D) all federal laws and regulations applicable to prescriptions or medication orders.

(4) Packaging for the unit-dose system shall take place at the address of the pharmacy providing the unit-dose system.

(5) Container requirements for unit-dose systems may include trays, bins, carts, and locked cabinets if the requirements of K.A.R. 68-7-14 are met. If these options are used, all patient medication trays or drawers shall be sufficiently labeled to identify each patient.

(6) Each unit-dose system shall provide a verification check at the point of patient administration in order to ensure proper drug utilization.

(7) The delivery time-cycle or hours of exchange shall not be limited to a specific time, but shall depend upon the pharmacist's discretion, the needs of the long-term care facility, the stability of the drug, and the type of container used.

(8) The pharmacist shall have sole responsibility for dispensing under the unit-dose system.

(d)(1) Each emergency medication kit shall contain only the drugs that are generally regarded by practitioners as essential to the prompt treatment of sudden and unforeseen changes in a patient's condition that present an imminent threat to the patient's life or well-being.

(2) Each drug to be contained within an emergency medication kit shall be approved by the long-term care facility's pharmaceutical services committee or its equivalent, either of which shall be composed of at least a practitioner and a pharmacist.

(3) The pharmacist providing each emergency medication kit shall ensure that the following requirements are met:

(A) The kit shall be supplied by a pharmacist, who shall retain possession of the drug until it is administered to the patient upon the valid order of a prescriber.

(B) If the kit is not in an automated drug delivery system, the kit shall be locked or sealed in a manner that indicates when the kit has been opened or tampered with.

(C) The kit shall be securely locked in a sufficiently well-constructed cabinet or cart or in an automated drug delivery system, with drugs properly stored according to the manufacturer's recommendations. Access to the cabinet or cart shall be available only to each nurse specified by the pharmaceutical services committee or its equivalent.

(D) The kit shall have an expiration date equivalent to the earliest expiration date of the drugs within the kit, but in no event more than one year after all of the drugs were placed in the kit.

(E) Unless the kit is in an automated drug delivery system, all drugs contained within the emergency medication kit shall be returned to the pharmacy as soon as the kit has been opened, along with the prescriber's drug order for medications administered. (Authorized by K.S.A. 65-1630; implementing K.S.A. 2017 Supp. 65-1637, K.S.A. 2017 Supp. 65-1642, and K.S.A. 2017 Supp. 65-1648; effective May 1, 1978; amended May 1, 1983; amended Sept. 9, 1991; amended Aug. 19, 2016; amended Jan. 4, 2019.)

68-7-11. Medical care facility pharmacy.

The scope of pharmaceutical services within a medical care facility pharmacy shall conform to the following requirements:

(a) The pharmacist-in-charge shall be responsible for developing programs and supervising all personnel in the distribution and control of drugs and all pharmaceutical services in the medical care facility.

(b) The pharmacist-in-charge shall develop a policy and procedure manual governing the storage, control, and distribution of drugs within the medical care facility. The pharmacist-in-charge shall submit the policy and procedure manual for approval to the pharmacy and therapeutics committee or an equivalent committee governing the security, control, and distribution of drugs within the facility.

(c) The pharmacist-in-charge shall be responsible for the maintenance of all emergency medication kits.

(d) The pharmacist-in-charge shall be responsible for developing procedures for the distribution and control of drugs within the medical care facility when a pharmacist is not on the premises. These procedures shall be consistent with the following requirements:

(1) Inpatient service. Drugs may be obtained upon a prescriber's medication order for administration to the inpatient by a designated registered professional nurse or nurses with approval and supervision of the pharmacist-in-charge. Adequate records of these withdrawals shall be maintained.

(2) Emergency outpatient service.

(A) An interim supply of prepackaged drugs shall be supplied to an outpatient only by a designated registered professional nurse or nurses pursuant to a prescriber's medication order when a pharmacist is not on the premises and a prescription cannot be filled. The interim supply shall be labeled with the following information:

(i) The name, address, and telephone number of the medical care facility;

(ii) the name of the prescriber. The label shall include the name of the practitioner and, if involved, the name of either the physician's assistant (PA) or the advanced registered nurse practitioner (ARNP);

(iii) the full name of the patient;

(iv) the identification number assigned to the interim supply of the drug or device by the medical care facility pharmacy;

(v) the date the interim supply was supplied;

(vi) adequate directions for use of the drug or device;

(vii) the beyond-use date of the drug or device issued;

(viii) the brand name or corresponding generic name of the drug or device;

(ix) the name of the manufacturer or distributor of the drug or device, or an easily identified abbreviation of the manufacturer's or distributor's name;

(x) the strength of the drug;

(xi) the contents in terms of weight, measure, or numerical count; and

(xii) necessary auxiliary labels and storage instruction, if needed.

(B) The interim supply shall be limited in quantity to an amount sufficient to supply the outpatient's needs until a prescription can be filled. Adequate records of the distribution of the interim supply shall be maintained and shall include the following information:

(i) The original or a copy of the prescriber's order, or if an oral order, a written record prepared by a designated registered professional nurse or nurses that reduces the oral order to writing. The written record shall be signed by the designated registered professional nurse or nurses and the prescriber; and

(ii) the name of the patient; the date supplied; the drug or device, strength, and quantity distributed; directions for use; the prescriber's name; and, if appropriate, the DEA number.

(3) The designated registered professional nurse or nurses may enter the medical care facility pharmacy and remove properly labeled pharmacy stock containers, commercially labeled packages, or properly labeled prepackaged units of drugs. The registered professional nurse shall not transfer a drug from one container to another for future use, but may transfer a single dose from a stock container for immediate administration to the ultimate user.

(e) The pharmacist-in-charge of the medical care facility pharmacy shall maintain documentation of at least quarterly checks of drug records and conditions of drug storage, in all locations within the facility, including nursing stations, emergency rooms, outpatient departments, and operating suites.

(f) The pharmacist-in-charge shall participate with the pharmacy and therapeutics committee or an equivalent committee in formulating broad professional policies regarding the evaluation, appraisal, selection, procurement, storage, distribution, use, and safety procedures for drugs within the medical care facility.

(g) The pharmacist-in-charge shall be responsible for establishing a drug recall procedure that can be effectively implemented.

(h)(1) The pharmacist-in-charge shall be responsible for developing written procedures for maintaining records of drug distribution, prepackaging, and bulk compounding. Prepackaged drugs shall include the following information:

(A) The brand name or corresponding generic name of the drug;

(B) the name of the manufacturer or distributor of the drug, or an easily identified abbreviation of the manufacturer's or distributor's name;

(C) the strength of the drug;

(D) the contents in terms of weight, measure, or numerical count;

(E) the lot number; and

(F) the beyond-use date.

(2) Prepackaged drugs shall be packaged in suitable containers and shall be subject to all other provisions of the Kansas state board of pharmacy regulations under the uniform controlled substances act of the state of Kansas and under the pharmacy act of the state of Kansas. Before releasing any drugs or devices from the pharmacy, the pharmacist shall verify the accuracy of all prepackaging and the compounding of topical and oral drugs.

(i) The pharmacist-in-charge shall ensure that the medical care facility maintains adequate drug information references commensurate with services offered and a current copy of the Kansas pharmacy act, the Kansas uniform controlled substances act, and current regulations under both acts.

(j) The pharmacist-in-charge shall be responsible for pharmacist supervision of all pharmacy technicians and for confining their activities to those functions permitted by the pharmacy practice act. Records shall be maintained describing the following:

(1) The training and related education for non-discretionary tasks performed by pharmacy technicians; and

(2) written procedures designating the person or persons functioning as pharmacy technicians, describing the functions of the pharmacy technicians, and documenting the procedural steps taken by the pharmacist-in-charge to limit the functions of pharmacy technicians to nondiscretionary tasks.

(k) The pharmacist-in-charge shall be responsible for establishing policies and procedures for the mixing or preparation of parenteral admixtures. Whenever drugs are added to intravenous solutions, distinctive supplemental labels shall be affixed that indicate the name and amount of the drug added, the date and the time of addition, the beyond-use date, storage instructions, and the name or initials of the person who prepared the admixture. The pharmacist-in-charge shall comply with all requirements of K.A.R. 68-13-1. Before the parenteral admixture is released from the pharmacy, the pharmacist shall verify the accuracy of all parenteral admixtures prepared by pharmacy technicians.

(l) The pharmacist shall interpret the prescriber's original order, or a direct copy of it, before the drug is distributed and shall verify that the medication order is filled in strict conformity with the direction of the prescriber. This requirement shall not preclude orders transmitted by the prescriber through electronic transmission. Variations in this procedure with "after-the-fact" review of the prescriber's original order shall be consistent with medical care facility procedures established by the pharmacist-in-charge. Each medication order shall be reviewed by a pharmacist within seven days of the date it was written.

(m) Pharmacy services to outpatients during pharmacy hours shall be in accordance with the board's regulations, K.S.A. 65-1625 et seq., and K.S.A. 65-4101 et seq., and amendments thereto, governing community pharmacy practice.

(n) The pharmacist-in-charge shall be responsible for the security of the pharmacy, including the drug distribution systems and personnel.

(1) When a pharmacist is on the premises but not in the pharmacy, a pharmacy technician may be in the pharmacy. A pharmacy technician shall not distribute any drug or device out of the pharmacy when a pharmacist is not physically in the pharmacy unless authorized by the pharmacist.

(2) When a pharmacist is not on the premises, no one shall be permitted in the pharmacy

except the designated registered professional nurse or nurses.

(o) Each pharmacist-in-charge who will no longer be performing the functions of the pharmacist-in-charge position shall inventory all controlled substances in the pharmacy before leaving the pharmacist-in-charge position. A record of the inventory shall be maintained for at least five years.

(p) Within 72 hours after beginning to function as a pharmacist-in-charge, the pharmacist-in-charge shall inventory all controlled substances in the pharmacy. A record of the inventory shall be maintained for at least five years.

(q) Except with regard to drugs that have not been checked for accuracy by a pharmacist after having been repackaged, prepackaged, or compounded in a medical care facility pharmacy, a pharmacy technician in a medical care facility may check the work of another pharmacy technician in filled floor stock, a crash cart tray, a unit-dose cart, or an automated dispensing machine if the checking pharmacy technician meets each of the following criteria:

(1) Has a current certification issued by the pharmacy technician certification board or a current certification issued by any other pharmacy technician certification organization approved by the board. Any pharmacy technician certification organization may be approved by the board if the board determines that the organization has a standard for pharmacy technician certification and recertification not below that of the pharmacy technician certification board;

(2) has either of the following experience levels:

(A) One year of experience working as a pharmacy technician plus at least six months experience working as a pharmacy technician in the medical care facility at which the checking will be performed; or

(B) one year of experience working as a pharmacy technician in the medical care facility at which the checking will be performed; and

(3) has successfully completed a written training program and related examination designed by the pharmacist-in-charge of the medical care facility pharmacy to demonstrate competency in accurately checking whether floor stock, a crash cart tray, and an automated dispensing machine have been properly filled. (Authorized by K.S.A. 65-1630; implementing K.S.A. 2008 Supp. 65-1626, K.S.A. 2008 Supp. 65-1642, and K.S.A. 65-1648; effective, E-77-39, July 22, 1976; effective Feb. 15, 1977; amended May 1, 1978; amended May 1,

1988; amended May 1, 1989; amended Dec. 27, 1999; amended April 28, 2000; amended July 20, 2007; amended July 16, 2010.)

68-7-12a. Nonresident pharmacies. Each nonresident pharmacy shall meet the requirements of this regulation to be and remain registered in Kansas by the board.

(a)(1) Each pharmacy shall be currently licensed or registered in good standing in the state in which it is located.

(2) Each practicing pharmacist employed by or under contract with the pharmacy shall be licensed as a pharmacist in the state where the pharmacist practices.

(3) Each pharmacy shall provide and maintain, in readily retrievable form, the record of a satisfactory inspection conducted within the previous 18-month period by the licensing entity of the state where the pharmacy is located. If no such inspection record is readily available, the record of a satisfactory inspection conducted at the expense of the pharmacy within the previous 18-month period by a third party recognized by the board to inspect may be accepted.

(4) Each pharmacy shall designate a pharmacist-in-charge, as defined by K.S.A. 65-1626 and amendments thereto, who shall be named in the application and who shall be responsible for receiving communications from the board.

(A) The pharmacist-in-charge shall timely respond to any lawful request for information from the board or law enforcement authorities.

(B) The pharmacist-in-charge shall be responsible for receiving and maintaining publications distributed by the board.

(b) The owner or the owner's authorized representative of the nonresident pharmacy shall apply for registration and renewal on forms approved by the board. The information reasonably necessary to carry out the provisions of K.S.A. 65-1657 and amendments thereto, including the name, address, and position of each officer and director of a corporation or of the owners if the pharmacy is not a corporation, shall be required by the board.

(c) An exemption for registration may be granted by the board under K.S.A. 65-1657 and amendments thereto, upon application by any nonresident pharmacy that confines its dispensing activity to isolated transactions. The following shall be considered to determine whether to grant an exemption:

(1) The number of prescriptions dispensed or reasonably expected to be dispensed into Kansas;

(2) the number of patients served or reasonably expected to be served in Kansas;

(3) any efforts to promote the pharmacy's services in Kansas;

(4) any contract between the pharmacy and either an employer or organization to provide pharmacy services to employees or other beneficiaries in Kansas;

(5) medical necessity;

(6) the effect on the health and welfare of persons in Kansas; and

(7) any other relevant matters.

(d) The pharmacy owner shall pay an annual registration fee as specified in K.A.R. 68-11-2.

(e) The pharmacy records of drugs dispensed to Kansas addresses shall be maintained so that the records are readily retrievable upon request. These records shall be made available for inspection by the board or by Kansas law enforcement authorities upon request.

(f) The pharmacy shall maintain an incoming toll-free telephone number for use by Kansas customers to facilitate personal communication with a pharmacist with access to patient records.

(1) This service shall be available during normal business hours for at least 40 hours and six days per week.

(2) This telephone number and any others available for use shall be printed on each container of drugs dispensed in Kansas.

(3) The toll-free number shall have a sufficient number of extensions to provide reasonable access to incoming callers.

(g) Generic drugs shall be dispensed into Kansas only pursuant to K.S.A. 65-1637, and amendments thereto.

(h) The facilities and records of the pharmacy shall be subject to inspection by the board. Satisfactory inspections conducted within the previous 18-month period by the licensing entity of the state where the pharmacy is located or a third party recognized by the board to inspect may be accepted in lieu of inspection by the board.

(i) Each owner or owner's authorized representative of the nonresident pharmacy either doing business in Kansas or providing pharmacy services, dispensing, or either delivering or causing to be delivered prescription drugs to Kansas consumers shall designate a resident agent in Kansas for service of process and file this information with the secretary of state. (Authorized by and implementing K.S.A. 2016 Supp. 65-1657; effective March 29, 1993; amended March

20, 1995; amended Feb. 7, 2003; amended Jan. 12, 2018.)

68-7-14. Prescription labels. (a) The label of each drug or device shall be typed or machine-printed and shall include the following information:

(1) The name, address, and telephone number of the pharmacy dispensing the prescription;

(2) the name of the prescriber;

(3) the full name of the patient;

(4) the identification number assigned to the prescription by the dispensing pharmacy;

(5) the date the prescription was filled or refilled;

(6) adequate directions for use of the drug or device;

(7) the beyond-use date of the drug or device dispensed;

(8) the brand name or corresponding generic name of the drug or device;

(9) the name of the manufacturer or distributor of the drug or device, or an easily identified abbreviation of the manufacturer's or distributor's name;

(10) the strength of the drug;

(11) the contents in terms of weight, measure, or numerical count; and

(12) necessary auxiliary labels and storage instructions, if needed.

(b) A pharmacy shall be permitted to label or relabel only those drugs or devices originally dispensed from the providing pharmacy. (Authorized by K.S.A. 65-1630; implementing K.S.A. 65-1626a; effective, E-77-39, July 22, 1976; effective Feb. 15, 1977; amended May 1, 1978; amended May 1, 1980; amended May 1, 1988; amended June 6, 1994; amended March 20, 1995; amended April 28, 2000; amended Oct. 23, 2009.)

68-7-15. Prepackaging or repackaging of oral drugs. All prepackaging or repackaging of oral drugs, whether in a unit-dose container or multiple-dose container, shall meet the requirements of this regulation.

(a) Packaging in advance of immediate need shall be done by a pharmacist or under the pharmacist's direct supervision.

(b) Packaging shall be limited to the drugs dispensed from or supplied by the pharmacy or in accordance with a shared services agreement.

(c) All containers used for packaging and the storage conditions shall be maintained according

to the manufacturer's recommendations to preserve the stability of the drug. The expiration date shall be the manufacturer's expiration date, the expiration date for the type of packaging material used, or not more than 12 months from the date of packaging, whichever is earlier.

(d) An electronic or a written record shall be established for lot numbers for recall purposes.

(e) If an area apart or separated from the prescription drug area is used for prepackaging or repackaging, the area shall be enclosed and locked when a pharmacist is not in attendance in that area.

(f) In lieu of separately dispensing a drug and an ingestible event marker approved by the food and drug administration to monitor whether a patient is taking the drug as prescribed, any pharmacist may use an ingestible event medication adherence package pursuant to a valid prescription order or after obtaining the consent of the practitioner, caregiver, or patient.

(g) For purposes of this regulation, "ingestible event medication adherence package" shall mean an ingestible unit-dose package designed to ensure medication adherence that contains drugs from a manufacturer's original container and an ingestible event marker, as defined by 21 C.F.R. 880.6305, dated April 1, 2016 and hereby adopted by reference.

(h) In addition to meeting the requirements of this regulation, all repackaging of sterile preparations shall meet the requirements of K.A.R. 68-13-4. (Authorized by K.S.A. 65-1630; implementing K.S.A. 65-1634; effective May 1, 1978; amended Dec. 15, 2017; amended Nov. 29, 2019.)

68-7-20. Shared services. (a)(1) "Order" shall mean either of the following:

(A) A prescription order as defined in K.S.A. 65-1626, and amendments thereto; or

(B) a medication order as defined in K.A.R. 68-5-1.

(2) "Shared order filling" shall mean the following:

(A) Preparing, packaging, compounding, or labeling an order, or any combination of these functions, by a person authorized by the pharmacy act to do so and located at a pharmacy on behalf of and at the request of another pharmacy; and

(B) returning the filled order to the requesting pharmacy for delivery to the patient or patient's agent or, at the request of the requesting pharmacy, directly delivering the filled order to the patient.

(3) "Shared order processing" shall mean the following order-processing functions that are performed by a person authorized by the pharmacy act and located at a pharmacy, on behalf of and at the request of another pharmacy:

(A) Interpreting and entering the order; and

(B) performing drug utilization reviews, claims adjudication, refill authorizations, or therapeutic interventions, or any combination of these functions.

(4) "Shared services" shall mean shared order filling or shared order processing, or both.

(b) Each pharmacy participating in shared services shall be registered by the board as either a resident or a nonresident pharmacy.

(c) Pharmacies may provide or utilize shared services functions only if the pharmacies involved meet the following requirements:

(1) Share a common electronic file or appropriate technology to allow access to sufficient information necessary to fill, refill, or perform shared services in conformance with the pharmacy act and the board's regulations; and

(2)(A) Have the same owner; or

(B) have a written contract outlining the services provided and the shared responsibilities of each party in complying with the pharmacy act and the board's regulations.

(d) Each pharmacy engaged in shared services shall meet the following requirements:

(1) Maintain records identifying, individually for each order processed, the name of each pharmacist, technician, pharmacy student, and intern who took part in the drug utilization review, refill authorization, or therapeutic intervention functions performed at that pharmacy;

(2) maintain records identifying, individually for each order filled or dispensed, the name of each pharmacist, technician, pharmacy student, and intern who took part in the filling, dispensing, and counseling functions performed at that pharmacy;

(3) report to the board within 30 days the results of any disciplinary action taken by another state's pharmacy board;

(4) maintain a mechanism for tracking the order during each step of the processing and filling procedures performed at the pharmacy;

(5) maintain a mechanism to identify on the prescription label all pharmacies involved in filling the order;

(6) provide for adequate security to protect the confidentiality and integrity of patient information; and

(7) be able to obtain for inspection any required record or information within 72 hours of any request by a board representative.

(e) Each pharmacy providing or utilizing shared services shall adopt and maintain a joint policies and procedures manual that meets both of the following conditions:

(1) The manual describes how compliance with the pharmacy act and the board's regulations will be accomplished while engaging in shared services.

(2) A copy of the manual is maintained in each pharmacy.

(f) Nothing in this regulation shall prohibit an individual pharmacist licensed in Kansas who is an employee of or under contract with the pharmacy from accessing the pharmacy's electronic database from inside or outside the pharmacy and performing the order-processing functions permitted by the pharmacy act and the board's regulations, if both of the following conditions are met:

(1) The pharmacy establishes controls to protect the privacy and security of confidential records.

(2) None of the database is duplicated, downloaded, or removed from the pharmacy's electronic database.

(g) Nothing in this regulation shall permit a pharmacy, physician, physician assistant, or mid-level practitioner to utilize shared services to operate a requesting pharmacy that is not actively engaged in the practice of pharmacy. (Authorized by K.S.A. 65-1630 and K.S.A. 65-1656; implementing K.S.A. 2016 Supp. 65-1626, as amended by L. 2017, ch. 34, sec. 1, K.S.A. 2016 Supp. 65-1626a, K.S.A. 2016 Supp. 65-1637, as amended by L. 2017, ch. 34, sec. 6, K.S.A. 2016 Supp. 65-1642, as amended by L. 2017, ch. 34, sec. 8, and K.S.A. 65-1656; effective April 16, 2004; amended April 18, 2008; amended Dec. 15, 2017.)

68-7-21. Institutional drug rooms. (a) All prescription-only drugs dispensed or administered from an institutional drug room shall be in prepackaged units, the original manufacturer's bulk packaging, or patient-specific pharmacy labeled packaging. All prepackaging shall meet the requirements of K.A.R. 68-7-15.

(b) Each pharmacist or practitioner, as that term is defined in K.S.A. 65-1637a and amendments thereto, who is responsible for supervising an institutional drug room shall perform the following:

(1) Develop or approve programs for the training and supervision of all personnel in the providing and control of drugs;

(2) develop or approve a written manual of policies and procedures governing the storage, control, and provision of drugs when a pharmacist or practitioner is not on duty;

(3) maintain documentation of at least quarterly reviews of drug records, drug storage conditions, and the drugs stored in all locations within the institutional drug room;

(4) develop or approve written procedures for maintaining records of the provision and prepackaging of drugs; and

(5) develop or approve written procedures for documenting all reportable incidents, as defined in K.A.R. 68-7-12b, and documenting the steps taken to avoid a repeat of each reportable incident.

(c) The policies and procedures governing the storage, control, and provision of drugs in an institutional drug room when a pharmacist or practitioner is not on duty shall include the following requirements:

(1) A record of all drugs provided to each patient from the institutional drug room shall be maintained in the patient's file and shall include the practitioner's order or written protocol.

(2) If the practitioner's order was given orally, electronically, or by telephone, the order shall be recorded, either manually or electronically. The recorded copy of the order shall include the name of the person who created the recorded copy and shall be maintained as part of the permanent patient file.

(3) The records maintained in each patient's file shall include the following information:

(A) The full name of the patient;

(B) the date on which the drug was provided;

(C) the name of the drug, the quantity provided, and strength of the drug provided;

(D) the directions for use of the drug; and

(E) the prescriber's name and, if the prescriber is a physician's assistant or advanced registered nurse practitioner, the name of that person's supervising practitioner.

(d) All drugs dispensed from an institutional drug room for use outside the institution shall be in a container or package that contains a label bearing the following information:

(1) The patient's name;

(2) the identification number assigned to the drug provided;

(3) the brand name or corresponding generic name of the drug, the strength of the drug, and either the name of the manufacturer or an easily identified abbreviation of the manufacturer's name;

- (4) any necessary auxiliary labels and storage instructions;
 - (5) the beyond-use date of the drug provided;
 - (6) the instructions for use; and
 - (7) the name of the institutional drug room.
- (e) Each label for any prepackaged or repackaged drug shall meet the requirements of K.A.R. 68-7-16. (Authorized by K.S.A. 65-1630 and K.S.A. 65-1637a; implementing K.S.A. 2008 Supp. 65-1626, K.S.A. 2008 Supp. 65-1626d, and K.S.A. 65-1637a; effective April 23, 2010.)

68-7-22. Collaborative practice. (a) Each of the following terms, as used in this regulation, shall have the meaning specified in this subsection:

(1) “Collaborative drug therapy management” and “CDTM” mean a practice of pharmacy in which a pharmacist performs certain pharmaceutical-related patient care functions for a specific patient, and the functions have been delegated to the pharmacist by a physician through a collaborative practice agreement.

(2) “Collaborative practice agreement” and “CPA” mean a signed agreement or protocol voluntarily entered into between one or more pharmacists and one or more physicians that provides for collaborative drug therapy management.

(3) “Pharmacist” means a person licensed, without limitation or restriction, to practice pharmacy in Kansas.

(4) “Physician” means a person who is licensed to practice medicine and surgery in Kansas and who is a signing party to the pharmacist’s CPA or update.

(b) Any pharmacist may practice collaborative drug therapy management only pursuant to a collaborative practice agreement or update established and maintained in accordance with this regulation. Although a physician shall remain ultimately responsible for the care of the patient, each pharmacist who engages in CDTM shall be responsible for all aspects of the CDTM performed by the pharmacist.

A pharmacist shall not become a party to a CPA or update that authorizes the pharmacist to engage in any CDTM function that is not appropriate to the training and experience of the pharmacist or physician, or both. A pharmacist shall not provide CDTM to a patient if the pharmacist knows that the patient is not being treated by a physician who has signed the pharmacist’s current CPA.

(c)(1) Each CPA and update shall be dated and signed by each physician and each pharmacist. Each CPA and update shall include the following:

(A) A statement of the general methods, procedures, and decision criteria that the pharmacist is to follow in performing CDTM;

(B) A statement of the procedures that the pharmacist is to follow to document the CDTM decisions made by the pharmacist;

(C) A statement of the procedures that the pharmacist is to follow to communicate to the physician either of the following:

(i) Each change in a patient’s condition identified by the pharmacist; or

(ii) each CDTM decision made by the pharmacist;

(D) a statement identifying the situations in which the pharmacist is required to initiate contact with the physician; and

(E) a statement of the procedures to be followed by the pharmacist if an urgent situation involving a patient’s health occurs, including identification of an alternative health care provider that the pharmacist should contact if the pharmacist cannot reach a physician.

(2) A CPA shall not authorize a pharmacist to administer influenza vaccine except pursuant to K.S.A. 65-1635a, and amendments thereto.

(d) Each CPA and update shall be reviewed and updated at least every two years. A signing pharmacist shall deliver a digital or paper copy of each CPA and update to the board within five business days after the CPA or update has been signed by all parties.

(e) Within 48 hours of making any drug or drug therapy change to a patient’s treatment, the pharmacist shall initiate contact with a physician, identifying the change.

(f) This regulation shall not be interpreted to impede, restrict, inhibit, or impair either of the following:

(1) Current hospital or medical care facility procedures established by the hospital or medical care facility pharmacy and either the therapeutics committee or the medical staff executive committee; or

(2) the provision of medication therapy management as defined by the centers for medicare and medicaid services under the medicare part D prescription drug benefit.

(g) As part of each pharmacist’s application to renew that individual’s license, the pharmacist shall advise the board if the pharmacist has entered into a CPA. (Authorized by K.S.A. 65-1630; implementing K.S.A. 2015 Supp. 65-1626a; effective May 27, 2016.)

68-7-23. Dispensing and administration of emergency opioid antagonist without a prescription.

(a) Any pharmacist may dispense an emergency opioid antagonist and the necessary medical supplies needed to administer an emergency opioid antagonist to a patient, bystander, first responder agency, or school nurse without a prescription, in accordance with the opioid antagonist protocol and this regulation.

(b) Each pharmacist dispensing an emergency opioid antagonist pursuant to this regulation shall submit to the board a form provided by the board, within five days of signing the opioid antagonist protocol, and shall maintain a signed and dated copy of the opioid antagonist protocol, which shall be made available to the pharmacist-in-charge, the board, and the board's designee. Each pharmacist that no longer dispenses emergency opioid antagonists pursuant to the opioid antagonist protocol shall notify the board, in writing, within 30 days of discontinuation.

(c) Each emergency opioid antagonist dispensed by a pharmacist shall be labeled in accordance with the pharmacy practice act and any implementing regulations.

(d) Each pharmacist who dispenses an emergency opioid antagonist pursuant to this regulation shall perform the following:

(1) For each patient, bystander, first responder agency, or school nurse to whom the emergency opioid antagonist is dispensed, instruct that person or entity to summon emergency medical services as soon as practicable either before or after administering the emergency opioid antagonist;

(2) for each patient or bystander to whom the emergency opioid antagonist is dispensed, provide in-person counseling, training, and written educational materials appropriate to the dosage form dispensed, including the following:

- (A) Risk factors of opioid overdose;
- (B) strategies to prevent opioid overdose;
- (C) signs of opioid overdose;
- (D) steps in responding to an overdose;
- (E) information on emergency opioid antagonists;
- (F) procedures for administering an emergency opioid antagonist;
- (G) proper storage, disposal, and expiration date of the emergency opioid antagonist dispensed; and
- (H) information on where to obtain a referral for substance use disorder treatment; and

(3) for each first responder agency or school nurse to whom the emergency opioid antagonist is

dispensed, provide that person or entity with written education and training materials that meet the requirements of paragraphs (d)(1) and (2) and include the requirements to keep inventory records and report any administration of the emergency opioid antagonist to the appropriate healthcare provider pursuant to this regulation.

(e) Each pharmacist shall document the dispensing of any emergency opioid antagonist pursuant to this regulation in a written or electronic prescription record for the patient, bystander, first responder agency, or school nurse to whom the emergency opioid antagonist is dispensed. The pharmacist shall record as the prescriber either that pharmacist or the physician who has signed the opioid antagonist protocol. The prescription record shall be maintained so that the required information is readily retrievable during the pharmacy's normal operating hours and shall be securely stored within the pharmacy for at least five years.

(f) Any of the following individuals or facilities licensed or registered with the board of pharmacy or the board of healing arts may sell emergency opioid antagonists at wholesale to a first responder agency or school nurse:

- (1) A pharmacist;
- (2) a physician medical director; or
- (3) a pharmacy.

(g) Each first responder, scientist, and technician operating under a first responder agency administering an emergency opioid antagonist shall perform the following:

(1) Summon emergency medical services as soon as practicable either before or after administering the emergency opioid antagonist;

(2) immediately provide information related to the administration to any responding emergency medical services personnel, any emergency room personnel, or any treating physician; and

(3) notify the physician medical director for the first responder agency within 24 hours of administration.

(h) Each first responder agency that is dispensed an emergency opioid antagonist shall ensure that any first responder, scientist, or technician operating under the first responder agency is appropriately trained on the use of emergency opioid antagonists and meets the training requirements in subsection (d) and the opioid antagonist protocol. (Authorized by and implementing 2017 HB 2217, sec. 1; effective, T-68-6-19-17, July 1, 2017; effective Sept. 15, 2017.)

68-7-25. Notification to board; pharmacist, pharmacy technician, or pharmacy intern. Each pharmacist, pharmacy technician, and pharmacy intern shall notify the board in writing of any of the following circumstances within 30 days of the date of occurrence:

(a) Any conduct resulting in a charge of, arrest or indictment for, plea of guilty or no contest to, diversion agreement, or suspended imposition of sentence against the registrant or licensee that would constitute any of the following:

(1) Unprofessional conduct as defined by K.S.A. 65-1626, and amendments thereto;

(2) a violation of the federal or state food, drug, and cosmetic act; or

(3) a violation of the Kansas uniform controlled substances act;

(b) any conviction of any felony against the registrant or licensee; or

(c) any denial, limitation, suspension, revocation, voluntary surrender, or other disciplinary action taken by another jurisdiction against any pharmacy, pharmacist, pharmacy intern, or pharmacy technician application, license, registration, or permit held by the registrant or licensee. (Authorized by K.S.A. 65-1630; implementing K.S.A. 2017 Supp. 65-1626, 65-1627, 65-1663, and 65-1676; effective Jan. 4, 2019.)

Article 9.—AUTOMATED PRESCRIPTION SYSTEMS

68-9-2. Automated drug delivery systems in pharmacies. (a) For purposes of this regulation, “automated drug delivery system” shall mean an automated dispensing system, as defined by K.S.A. 65-1626 and amendments thereto, that is located in a Kansas pharmacy and uses a robotic, mechanical, or computerized device to perform operations or activities other than compounding or administration, involving the storage, packaging, or labeling of, or any other step before dispensing, drugs. Each prescription medication prepared by an automated drug delivery system shall be verified and documented by a Kansas-licensed pharmacist as part of the dispensing process.

(b) A pharmacist-in-charge of any licensed pharmacy, licensed health care facility, or other location that is required to be supervised by a pharmacist-in-charge and that uses an automated drug delivery system shall perform the following before allowing the automated drug delivery system to be used:

(1) Ensure that the automated drug delivery system is in good working order and accurately selects the correct strength, dosage form, and quantity of the drug prescribed while maintaining appropriate recordkeeping and security safeguards;

(2) ensure that the automated drug delivery system has a mechanism for securing and accounting for all drugs removed from and subsequently returned to the system;

(3) ensure that the automated drug delivery system has a mechanism for securing and accounting for all wasted or discarded drugs, including a manual override for the pharmacist, pharmacy intern, or pharmacy technician to clear a jammed, blocked, or malfunctioning automated drug delivery system;

(4) ensure compliance with an ongoing continuous quality improvement program pursuant to K.S.A. 65-1695, and amendments thereto, or a risk management program that monitors total system performance and includes the requirement for accuracy in the drug and strength delivered;

(5) ensure that the automated drug delivery system is loaded accurately and according to the original manufacturer’s storage requirements;

(6) approve and implement an operational policy that limits the personnel responsible for the loading and unloading of drugs to or from the automated drug delivery system to any of the following:

(A) A Kansas-licensed pharmacist;

(B) a Kansas-registered pharmacy intern;

(C) a Kansas-registered pharmacy technician; or

(D) a nurse with a license issued pursuant to K.S.A. 65-1115, and amendments thereto;

(7) at the location of the automated drug delivery system, maintain a current list of those approved individuals who are authorized to unload any drug from the automated drug delivery system;

(8) approve and implement security measures that meet the requirements of all applicable state and federal laws and regulations in order to prevent unauthorized individuals from accessing or obtaining drugs;

(9) preapprove all individuals who are authorized to unload any drug from the automated drug delivery system;

(10) ensure that all drugs loaded in the automated drug delivery system are packaged in the manufacturer’s original packaging or in repackaged containers, in compliance with K.A.R. 68-7-15 and K.A.R. 68-7-16, or in containers with the

lot number and expiration date tracked by the automated drug delivery system;

(11) provide the board with prior written notice of the installation or removal of the automated drug delivery system; and

(12) ensure that a system of preventive maintenance and sanitation for the automated drug delivery system is established and followed. (Authorized by K.S.A. 65-1630; implementing K.S.A. 2017 Supp. 65-1637 and 65-1642; effective July 6, 2001; amended Feb. 7, 2003; amended Aug. 19, 2016; amended Jan. 4, 2019.)

68-9-3. Automated drug delivery system to supply drugs for administration in certain facilities. (a) Each of the following terms, as used in this regulation, shall have the meaning specified in this subsection:

(1) “Automated drug delivery system” means an automated dispensing system, as defined by K.S.A. 2017 Supp. 65-1626 and amendments thereto, that is located in a facility outside of a managing pharmacy and uses a robotic, mechanical, or computerized device to supply each drug to an individual licensed by the board of healing arts or the board of nursing, who shall administer the drug to a patient.

(2) “Facility” means any of the following:

(A) A medical care facility, as defined in K.S.A. 65-1626 and amendments thereto;

(B) an institutional drug room, as defined in K.S.A. 65-1626 and amendments thereto; or

(C) a long-term care facility, which shall mean any of the following:

(i) A nursing facility, as defined in K.S.A. 39-923 and amendments thereto;

(ii) a nursing facility for mental health, as defined in K.S.A. 39-923 and amendments thereto; or

(iii) any other type of adult care home, as defined in K.S.A. 39-923 and amendments thereto, that is not specified in paragraphs (a)(2)(C)(i) and (ii) and, after submitting an application, is approved by the board for an automated drug delivery system.

(3) “Managing pharmacy” means a pharmacy located in Kansas.

(4) “Pharmacist-in-charge” means the pharmacist-in-charge of the managing pharmacy.

(b) Before the initial stocking and use of an automated drug delivery system to supply drugs for administration, the pharmacist-in-charge shall meet the following requirements:

(1) Provide the board with at least 14-day prior written notice, on a form provided by the board; and

(2) ensure that all necessary licenses, registrations, and authorizations, including a drug enforcement administration registration if supplying controlled substances, have been obtained.

(c) The pharmacist-in-charge shall consult with the pharmacy and therapeutics committee or an equivalent committee in establishing the criteria and process for determining a formulary of approved drugs that may be stored in the automated drug delivery system.

(d) A bar code verification, electronic verification, or similar verification process shall be utilized to ensure the correct selection of drugs placed or to be placed into each automated drug delivery system. The utilization of a bar code, electronic verification, or similar verification process shall require an initial quality assurance validation, followed by a quarterly assurance review by a pharmacist.

(e) The pharmacist-in-charge shall ensure that a policy exists requiring that if, at the time of loading any controlled substance, a discrepancy in the count of that drug in the automated drug delivery system exists, the discrepancy is immediately reported to the pharmacist-in-charge.

Whenever the pharmacist-in-charge becomes aware of a discrepancy regarding the count of a controlled substance in the automated drug delivery system, the pharmacist-in-charge shall be responsible for reconciliation of the discrepancy or proper reporting of the loss.

(f) The pharmacist-in-charge shall be responsible for the following:

(1) Controlling access to the automated drug delivery system;

(2) maintaining policies and procedures for the following:

(A) Operating the automated drug delivery system;

(B) providing prior training and authorization of personnel who are authorized to remove any drug from the automated drug delivery system;

(C) maintaining, at the location of the automated drug delivery system, a list of those individuals who are authorized to remove any drug from the automated drug delivery system;

(D) maintaining patient services whenever the automated drug delivery system is not operating; and

(E) defining a procedure for a pharmacist to grant access to the drugs in the automated drug delivery system;

(3) securing the automated drug delivery system;

(4) ensuring that each patient receives the pharmacy services necessary for appropriate pharmaceutical care;

(5) ensuring that the automated drug delivery system maintains the integrity of the information in the system and protects patient confidentiality;

(6) ensuring compliance with all requirements for packaging and labeling each medication pursuant to K.A.R. 68-7-15 and K.A.R. 68-7-16, unless the medication is already packaged in the manufacturer's original container or in repackaged containers;

(7) ensuring that a system of preventive maintenance and sanitation exists and is implemented for the automated drug delivery system;

(8) ensuring that a policy exists for securing and accounting for all drugs that are wasted or discarded from the automated drug delivery system;

(9) ensuring that inspections are conducted and documented at least monthly to ensure the accuracy of the contents of the automated drug delivery system; and

(10) ensuring the accurate loading and unloading of the automated drug delivery system by approving and implementing an operational policy that limits the personnel responsible for the loading and unloading of the automated drug delivery system to a Kansas-licensed pharmacist or any of the following, each of whom shall be under the supervision of a Kansas-licensed pharmacist:

(A) A Kansas-registered pharmacy intern;

(B) a Kansas-registered pharmacy technician; or

(C) a nurse with a license issued pursuant to K.S.A. 65-1115, and amendments thereto.

(g) A pharmacist shall comply with the medication order review and verification requirements specified in K.A.R. 68-7-11.

(h) Except in the event of a sudden and unforeseen change in a patient's condition that presents an imminent threat to the patient's life or well-being, any authorized individual at a facility may distribute patient-specific drugs utilizing an automated drug delivery system without verifying each individual drug selected or packaged by the automated drug delivery system only if both of the following conditions are met:

(1) The initial medication order has been reviewed and approved by a pharmacist.

(2) The drug is distributed for subsequent administration by a health care professional permitted by Kansas law to administer drugs.

(i) The pharmacist-in-charge shall be responsible for establishing a continuous quality improvement program for the automated drug delivery system. This program shall include written procedures for the following:

(1) Investigation of any medication error related to drugs supplied or packaged by the automated drug delivery system;

(2) review of any discrepancy or transaction reports and identification of patterns of inappropriate use of or access to the automated drug delivery system; and

(3) review of the operation of the automated drug delivery system.

(j) The pharmacist-in-charge shall ensure that the managing pharmacy maintains, in a readily retrievable manner and for at least five years, the following records related to the automated drug delivery system:

(1) Transaction records for all drugs or devices supplied by the automated drug delivery system; and

(2) any report or analysis generated as part of the continuous quality improvement program.

(k) A Kansas-registered pharmacy technician, a Kansas-registered pharmacy intern, or a nurse with a license issued pursuant to K.S.A. 65-1115, and amendments thereto, who the pharmacist-in-charge has determined is properly trained may be authorized by that pharmacist-in-charge to perform the functions of loading and unloading an automated drug delivery system utilizing a bar code verification, electronic verification, or similar verification process as specified in subsection (d).

(l) If any drug has been removed from the automated drug delivery system, that drug shall not be replaced into the automated drug delivery system unless either of the following conditions is met:

(1) The drug's purity, packaging, and labeling have been examined according to policies and procedures established by the pharmacist-in-charge to determine that the reuse of the drug is appropriate.

(2) The drug is one of the specific drugs, including multidose vials, that have been exempted by the pharmacy and therapeutics committee or an equivalent committee.

(m) Upon the removal of any automated drug delivery system, the pharmacist-in-charge shall provide the board with notification, on a form provided by the board. (Authorized by K.S.A. 65-1630; implementing K.S.A. 2017 Supp. 65-1637, 65-1642, and 65-1648; effective Aug. 19, 2016; amended Jan. 4, 2019.)

Article 11.—FEES

68-11-1. Fees for examination and licensure as a pharmacist. The following fees shall be paid to the board by each applicant for examination and licensure as a pharmacist:

(a) Each applicant for examination shall pay a fee of \$100.00.

(b) Each applicant for reciprocal licensure shall pay a fee of \$125.00.

(c) An additional fee of \$250.00 to evaluate the education and training shall be paid by each applicant for reciprocal licensure or examination who graduated from a school or college of pharmacy or department of a university not approved by the board.

(d) Each licensed pharmacist shall pay a renewal fee of \$150.00.

(e) The penalty fee for a late renewal of a pharmacist license shall be \$200.00. (Authorized by K.S.A. 65-1630 and K.S.A. 65-1645; implementing K.S.A. 65-1645; effective May 1, 1983; amended May 1, 1986; amended May 1, 1987; amended May 1, 1988; amended May 1, 1991; amended Nov. 30, 1992; amended June 6, 1994; amended July 31, 1998; amended Feb. 5, 1999; amended Feb. 7, 2003; amended Oct. 20, 2006; amended May 30, 2014; amended May 31, 2019.)

68-11-2. Fees for premises and service registrations and permits. (a) Pharmacy registration fees shall be as follows:

(1) Each new pharmacy registration shall be \$150.00.

(2) Each renewal pharmacy registration shall be \$125.00.

(b) Manufacturer registration fees shall be as follows:

(1) Each new registration shall be \$350.00.

(2) Each renewal registration shall be \$350.00.

(c) Wholesaler distributor registration fees shall be as follows:

(1) Each new registration shall be \$350.00.

(2) Each renewal registration shall be \$350.00.

(3) For each wholesale distributor who deals exclusively in nonprescription drugs, the registration fee shall be \$50.00.

(4) For each wholesale distributor who deals exclusively in nonprescription drugs, the renewal fee shall be \$50.00.

(d) For each institutional drug room or veterinary medical teaching hospital pharmacy, registration fees shall be as follows:

(1) Each new registration shall be \$25.00.

(2) Each renewal registration shall be \$20.00.

(e) Retail dealer permit fees shall be as follows:

(1) Each new permit shall be \$10.00.

(2) Each renewal permit shall be \$10.00.

(f) Each special auction permit shall be \$28.00.

(g) Sample distribution fees shall be as follows:

(1) Each new permit shall be \$30.00.

(2) Each renewal permit shall be \$30.00.

(h) For each place of business that sells durable medical equipment, registration fees shall be as follows:

(1) Each new registration shall be \$300.00.

(2) Each renewal registration shall be \$300.00.

(i) Third-party logistics provider registration fees shall be as follows:

(1) Each new registration shall be \$350.00.

(2) Each renewal registration shall be \$350.00.

(3) For each third-party logistics provider who deals exclusively in nonprescription drugs, the registration fee shall be \$50.00.

(4) For each third-party logistics provider who deals exclusively in nonprescription drugs, the renewal fee shall be \$50.00.

(j) For each outsourcing facility or virtual outsourcing facility, registration fees shall be as follows:

(1) Each new registration shall be \$350.00.

(2) Each renewal registration shall be \$350.00.

(k) Repackager registration fees shall be as follows:

(1) Each new registration shall be \$350.00.

(2) Each renewal registration shall be \$350.00.

(l) For each place of business that operates an automated dispensing system for patient medication administration, registration fees shall be as follows:

(1) Each new registration shall be \$20.00.

(2) Each renewal registration shall be \$20.00. (Authorized by K.S.A. 65-1630 and K.S.A. 65-1645; implementing K.S.A. 65-1645; effective May 1, 1983; amended May 1, 1988; amended June 6, 1994; amended Feb. 7, 2003; amended Oct. 24, 2008; amended May 30, 2014; amended Dec. 15, 2017; amended May 31, 2019.)

68-11-3. Fees for registration as a pharmacy technician or pharmacy intern. The following fees shall be paid to the board:

(a) Each applicant for initial registration as a pharmacy technician shall pay a fee of \$20.00.

(b) Each registered pharmacy technician shall pay a renewal fee of \$20.00.

(c) Each applicant for a pharmacy intern registration shall pay a fee of \$20.00. (Authorized by K.S.A. 65-1630, K.S.A. 2015 Supp. 65-1663, and K.S.A. 2015 Supp. 65-1676; implementing K.S.A. 2015 Supp. 65-1663 and 65-1676; effective Aug. 19, 2016.)

Article 13.—PARENTERAL PRODUCTS

68-13-1. (Authorized by K.S.A. 65-1630; implementing K.S.A. 2001 Supp. 65-1642; effective May 1, 1988; amended Feb. 7, 2003; revoked Jan. 4, 2019.)

68-13-2. Definitions. As used in this article of the board's regulations, each of the following terms shall have the meaning specified in this regulation:

(a) "Active ingredients" means chemicals, substances, or other components intended for use in the diagnosis, cure, mitigation, treatment, or prevention of diseases in humans or for use as nutritional supplements.

(b) "Added substances" and "inactive ingredients" mean the ingredients necessary to compound a sterile preparation or nonsterile preparation and not intended or expected to cause a human pharmacologic response if administered alone in the amount or concentration contained in a single dose of the drug product.

(c) "Antearea" means an area, separate from the buffer area, that meets the requirements of an ISO class eight environment and in which personal hygiene and garbing procedures, staging of components, order entry, and labeling are performed.

(d) "Batch" means multiple sterile dosage units in a quantity greater than 25 that are compounded in a discrete process by the same individual or individuals during one limited period.

(e) "Beyond-use date" means a date placed on a prescription label at the time of dispensing, repackaging, or prepackaging that is intended to indicate to the patient or caregiver a time beyond which the contents of the prescription are not recommended to be used.

(f) "Biological safety cabinet" and "BSC" mean a ventilated cabinet for sterile preparations and hazardous drugs to protect personnel, products, and the environment that has an open front with inward airflow for protection of personnel, downward-airflow LAFS for product protection, and HEPA-filtered exhausted air for environmental protection.

(g) "Buffer area" means an area that meets the requirements for an ISO class seven environment and in which the primary engineering control is located.

(h) "Clean room" means a room that meets the requirements for an ISO class five environment.

(i) "Complex nonsterile compounding" means making a nonsterile preparation that requires special training, environment, facilities, equipment, and procedures to ensure appropriate therapeutic outcomes. Nonsterile preparations made using complex nonsterile compounding shall include transdermal dosage forms, modified-release forms, and suppositories for systemic effects.

(j) "Component" means any active ingredient or added substance intended for use in the compounding of a drug product, including any ingredient that does not appear in the drug product.

(k) "Compounding" has the meaning specified in K.S.A. 2017 Supp. 65-1626, and amendments thereto.

(l) "Compounding area" means any area in a pharmacy or outsourcing facility where compounding is performed.

(m) "Compounding aseptic containment isolator" and "CACI" mean a compounding aseptic isolator designed to provide worker protection from exposure to undesirable levels of airborne drugs throughout the compounding and material transfer process and to provide an aseptic environment for compounding sterile preparations. Air exchange with the surrounding environment shall not occur unless the air is first passed through a HEPA filter capable of containing airborne concentrations of the physical size and state of the drug being compounded. Whenever volatile hazardous drugs are compounded, the exhaust air from the CACI shall be removed by the building's ventilation system.

(n) "Compounding aseptic isolator" and "CAI" mean a type of isolator specifically designed for compounding sterile preparations or nonsterile preparations and designed to maintain an aseptic compounding environment within the isolator throughout the compounding and material transfer process. Air exchange into the CAI from the surrounding environment shall not occur unless the air has first passed through a HEPA filter and an ISO class five environment is maintained.

(o) "Cytotoxic," when used to describe a pharmaceutical, means that the pharmaceutical is capable of killing living cells. This term is also used to describe components classified as cancer che-

motherapeutic, carcinogenic, mutagenic, or anti-neoplastic.

(p) "Dosage unit" means the amount of a sterile preparation that would be administered to or taken by one patient at a time.

(q) "Endotoxin" means a potentially toxic, natural compound that is a structural component of bacterial cell walls and that is released mainly when bacteria undergo destruction or decomposition.

(r) "Essentially a copy" means any sterile preparation or nonsterile preparation that is comparable in active ingredients to a commercially available drug product, unless either of the following conditions is met:

(1) There is a change made for an identified individual patient that produces a clinically significant difference for the patient, as determined by the prescribing practitioner, between the comparable commercially available drug product and either the sterile preparation or the nonsterile preparation.

(2) The drug appears on the drug shortage list in section 506E of the federal food, drug, and cosmetic act, 21 U.S.C. 356e, at the time of compounding, distribution, and dispensing.

(s) "Excursion" means a deviation from the range of temperatures specified by the manufacturer for storage or transport of a pharmaceutical based on stability data.

(t) "Glove fingertip test" means a test in which a gloved fingertip is pressed to and cultured on a microbiological growth media plate. Each successful glove fingertip test shall yield no more than three colony-forming units per contact plate for the annual competency evaluation and shall yield zero colony-forming units at least three times for the initial competency evaluation.

(u) "Hazardous drug" means any drug or compounded drug identified by at least one of the following criteria:

- (1) Carcinogenicity;
- (2) teratogenicity or developmental toxicity;
- (3) reproductive toxicity;
- (4) organ toxicity at low doses;
- (5) genotoxicity; or
- (6) drug product structure or toxicity that mimics that of existing hazardous drugs.

(v) "HEPA" means high-efficiency particulate air.

(w) "ISO class eight environment" means an atmospheric environment containing less than 3,520,000 airborne particles measuring at least 0.5 micron in diameter per cubic meter of air.

(x) "ISO class five environment" means an atmospheric environment containing less than 3,520 airborne particles measuring at least 0.5 micron in diameter per cubic meter of air.

(y) "ISO class seven environment" means an atmospheric environment containing less than 352,000 airborne particles measuring at least 0.5 micron in diameter per cubic meter of air.

(z) "Laminar airflow system" and "LAFS" mean an apparatus designed to provide an ISO class five environment for the compounding of sterile preparations using air circulation in a defined direction that passes through a HEPA filter.

(aa) "Manufacturing" means manufacture as defined in K.S.A. 65-1626, and amendments thereto.

(bb) "Media fill test" means a test in which a microbiological growth medium, which may consist of a soybean-casein digest medium, is substituted for an actual drug product to simulate admixture compounding. The media fill test shall be successful if it produces a sterile preparation without microbial contamination.

(cc) "Moderate nonsterile compounding" means making a nonsterile preparation that requires special calculations or procedures to determine quantities of components per nonsterile preparation or per dosage unit or making a nonsterile preparation for which stability data is not available. Nonsterile preparations made using moderate nonsterile compounding shall include morphine sulfate suppositories, diphenhydramine troches, and a mixture of two or more manufactured creams if stability of the mixture is not known.

(dd) "Multiple-dose container" means a multiple-unit container for any sterile preparation intended only for parenteral administration, usually containing antimicrobial preservatives.

(ee) "Nonsterile preparation" means a pharmaceutical made using simple nonsterile compounding, moderate nonsterile compounding, or complex nonsterile compounding.

(ff) "Official compendium" has the meaning specified in K.S.A. 65-656, and amendments thereto.

(gg) "Order" means either a prescription order as defined in K.S.A. 65-1626, and amendments thereto, or a medication order as defined in K.A.R. 68-5-1.

(hh) "Parenteral," when used to refer to a solution, means that the solution is administered by injection through one or more layers of skin or by other routes of administration that bypass the gastrointestinal tract.

(ii) "Parenteral product" means a sterile preparation administered by injection through one or more layers of skin or by other routes of administration that bypass the gastrointestinal tract.

(jj) "Practitioner-patient-pharmacist relationship" means a relationship that meets all of the following conditions:

(1) The practitioner has assumed the responsibility for making medical judgments regarding the health of the patient and the need for medical treatment.

(2) The practitioner has sufficient knowledge of the patient to initiate at least a general or preliminary diagnosis of the medical condition, and the practitioner has examined the patient and is available for follow-up.

(3) The practitioner has communicated the necessary prescriptions to the pharmacist, who is able to provide pharmaceutical care to the patient and, if needed, communicate with the practitioner.

(kk) "Primary engineering control" means a clean room or an apparatus for compounding sterile preparations, including an LAFS, a BSC, a CAI, or a CACI, designed to provide an ISO class five environment for compounding sterile preparations.

(ll) "Purified water" means water that meets the requirements for ionic and organic chemistry purity and protection from microbial contamination specified in section 1231 of the official compendium.

(mm) "Refrigeration" and "controlled cold temperature" mean a temperature maintained thermostatically between 2° and 8°C (36° to 46°F) that allows for excursions between 0° and 15°C (32° to 59°F) that are experienced during storage, shipping, and distribution, such that the allowable calculated mean kinetic temperature is not more than 8°C (46°F).

(nn) "Room temperature" means a temperature maintained thermostatically that meets the following criteria:

(1) Encompasses the usual and customary working environment of 20° to 25°C (68° to 77°F);

(2) results in a mean kinetic temperature calculated to be not more than 25°C (77°F); and

(3) allows for excursions between 15° and 30°C (59° to 86°F) experienced in pharmacies, hospitals, and storage facilities, such that the allowable calculated mean kinetic temperature remains in the allowed range.

(oo) "Segregated compounding area" means a designated, demarcated area or room that is re-

stricted to compounding low-risk sterile preparations, which shall contain a primary engineering control providing unidirectional airflow that maintains an ISO class five environment and shall be void of all activities and materials extraneous to the sterile compounding process.

(pp) "Simple nonsterile compounding" means either of the following:

(1) Making a nonsterile preparation that has a compounding monograph listed in the official compendium or that appears in a peer-reviewed journal containing specifics on component quantities, compounding procedure, equipment, and stability data for the formulation and appropriate beyond-use dates; or

(2) reconstituting or manipulating commercially available products that require the addition of one or more ingredients as directed by the manufacturer.

Nonsterile preparations made using simple nonsterile compounding shall include captopril oral solution, indomethacin topical gel, and potassium bromide oral solution.

(qq) "Single-dose container" means a single-unit container for any sterile preparation intended for parenteral administration that is accessed once for one patient.

(rr) "Specific medical need" means a medical reason why a commercially available drug product cannot be used, excluding cost and convenience.

(ss) "Sterile preparation" means any dosage form of a drug, including parenteral products free of viable microorganisms, made using currently accepted aseptic compounding techniques under acceptable compounding conditions. This term shall include any commercially compounded sterile drug dosage form that has been altered in the compounding process.

(tt) "Sufficient documentation" means either of the following:

(1) A prescription documenting a specific medical need; or

(2) a notation in a pharmacy's or an outsourcing facility's records that verbal or other documentation of the specific medical need was received for each prescription, including the name of the person verifying the specific medical need, the date, and the specific medical need. (Authorized by K.S.A. 65-1630 and K.S.A. 2017 Supp. 65-1637e; implementing K.S.A. 2017 Supp. 65-1626, K.S.A. 2017 Supp. 65-1626a, K.S.A. 65-1634, K.S.A. 2017 Supp. 65-1637c, and K.S.A. 2017 Supp. 65-1642; effective May 11, 2018.)

68-13-3. Nonsterile preparations. (a) This regulation shall apply to the following:

(1) Nonsterile preparations that are compounded in Kansas; and

(2) nonsterile preparations that are shipped or delivered into Kansas by a pharmacy and are to be administered to a patient in Kansas.

(b) "Pharmacy," as used in this regulation, shall mean a pharmacy, nonresident pharmacy, or outsourcing facility as defined by K.S.A. 2017 Supp. 65-1626, and amendments thereto.

(c) Any pharmacist may compound a nonsterile preparation that is commercially available only if it is different from a product approved by the FDA and there is sufficient documentation of a specific medical need for an individual patient.

(d) A pharmacist shall not compound a nonsterile preparation by any of the following methods:

(1) Using any component withdrawn from the market by the FDA for safety reasons;

(2) receiving, storing, or using any drug component that is not guaranteed or otherwise determined to meet the requirements of an official compendium;

(3) compounding finished drugs from bulk active ingredients that do not meet the requirements of a monograph listed in the official compendium; or

(4) compounding finished drugs from bulk active ingredients that are not components of FDA-approved drugs.

(e) For the convenience of any patient, any pharmacist may compound a nonsterile preparation before receiving an order based on routine, regularly observed prescribing patterns.

(f) Compounding for non-human animals shall meet the same requirements as those for human prescriptions, except that a pharmacist shall not compound bulk chemicals for food-producing animals.

(g) Each nonsterile preparation sold by a pharmacy to a practitioner for administration to a patient shall be packaged with a label that includes the following text: "For Office Use Only — Not for Resale."

(h) Any pharmacy may distribute nonsterile preparations without a prescription, including providing limited quantities to a practitioner in the course of professional practice to administer limited quantities to an individual patient, if the nonsterile preparations are not intended for resale.

(i) Each pharmacy selling any prescription nonsterile preparation to a practitioner for office

use shall maintain an invoice documenting the following:

(1) The name and address of the practitioner;

(2) the drug compounded, including the lot number and expiration date of each component;

(3) the quantity sold; and

(4) the date of the transaction.

The invoice shall be maintained in the pharmacy and shall be made readily available to the pharmacist-in-charge, the board, and the board's designee.

(j) Within each pharmacy in which compounding occurs, one area shall be designated as the principal compounding area, where all nonsterile compounding shall take place.

(1) Each compounding area shall be well-lighted and well-ventilated, with clean and sanitary surroundings, and shall be free of food and beverages.

(2) Each compounding area shall provide the drugs, chemicals, and devices with necessary protection from deterioration due to light, heat, and evaporation and shall be arranged to protect all prescription drugs and devices from theft and any other unauthorized removal.

(3) All components used in compounding nonsterile preparations shall be stored in labeled containers in a clean, dry area and, if required, under proper refrigeration.

(4) Each compounding area shall include a sink that is equipped with hot and cold running water for hand and equipment washing.

(k) Each pharmacist compounding nonsterile preparations shall use purified water if the formulations indicate the inclusion of water.

(1) Each pharmacist-in-charge shall maintain a uniform formulation record for each nonsterile preparation, documenting the following:

(1) The ingredients, quantities, strength, and dosage form of the nonsterile preparation;

(2) the equipment used to compound the nonsterile preparation and the mixing instructions;

(3) the container used in dispensing;

(4) the storage requirements;

(5) the beyond-use date to be assigned;

(6) quality control procedures, which shall include identification of each person performing or either directly supervising or checking each step in the compounding process and which may include monitoring the following:

(A) Capsule weight variation;

(B) adequacy of mixing to ensure uniformity and homogeneity; and

(C) the clarity, completeness, or pH of solutions;

(7) the source of the formulation, including the name of the person, entity, or publication; and

(8) the name or initials of the person creating the formulation record and the date on which the formulation record was established at the pharmacy.

(m) Each pharmacist-in-charge shall maintain on the original order or on a separate, uniform record a compounding record for each nonsterile preparation, documenting the following:

(1) The name and strength of the nonsterile preparation;

(2) the identifier used to distinguish the nonsterile preparation's formulation record from other formulation records;

(3) the name of the manufacturer or repackager and, if applicable, the lot number and expiration date of each component;

(4) the total number of dosage units or total quantity compounded;

(5) the name of each person who compounded the nonsterile preparation;

(6) the name of the pharmacist, or the pharmacy student or intern working under the direct supervision and control of the pharmacist, who verified the accuracy of the nonsterile preparation;

(7) the date of compounding;

(8) the assigned internal identification number, if used;

(9) the prescription number, if assigned;

(10) the results of quality control procedures; and

(11) the assigned beyond-use date. In the absence of valid scientific stability information that is applicable to a specific drug or nonsterile preparation, the beyond-use date shall not be later than the expiration date of any component of the formulation and shall be established in accordance with the following criteria:

(A) For nonaqueous and solid formulations, either of the following:

(i) If a manufactured drug product is the source of the active ingredient, six months from the date of compounding or the time remaining until the manufactured drug product's expiration date, whichever is earlier; or

(ii) if a substance listed in an official compendium is the source of an active ingredient, six months from the date of compounding or the time remaining until the expiration date of any component of the formulation, whichever is earlier;

(B) for water-containing oral formulations, not more than 14 days when stored under refrigeration; and

(C) for water-containing non-oral formulations, not longer than the intended duration of therapy or 30 days, whichever is earlier.

(n) The compounding record and the corresponding formulation record specified in subsections (m) and (l), respectively, shall be retained at the pharmacy for at least five years and shall be made readily available to the pharmacist-in-charge, the board, and the board's designee.

(o) If a patient requests a transfer of the patient's prescription, a copy of the original prescription shall be transmitted upon the request of the receiving pharmacist. The transferring pharmacist shall also transfer the following written information with the prescription:

(1) Active ingredients;

(2) concentration;

(3) dosage form;

(4) route of delivery;

(5) delivery mechanism;

(6) dosing duration; and

(7) details about the compounding procedure.

(p) The pharmacist-in-charge shall ensure that all support personnel are trained and successfully demonstrate the following before performing delegated compounding:

(1) Comprehensive knowledge of the pharmacy's standard operating procedures with regard to compounding as specified in the policy and procedure manual; and

(2) familiarity with the compounding techniques used at the pharmacy. (Authorized by K.S.A. 65-1630 and K.S.A. 2017 Supp. 65-1637e; implementing K.S.A. 2017 Supp. 65-1626a, K.S.A. 65-1634, K.S.A. 65-1637c, and K.S.A. 2017 Supp. 65-1642; effective May 11, 2018.)

68-13-4. Sterile preparations. (a) This regulation shall apply to the following:

(1) Sterile preparations that are compounded in Kansas; and

(2) sterile preparations that are shipped or delivered into Kansas by a pharmacy to be administered to a patient in Kansas.

(b) As used in this regulation, each of the following terms shall have the meaning specified in this subsection:

(1)(A) "High-risk," when used to describe a sterile preparation, means that the sterile preparation meets at least one of the following conditions:

(i) The sterile preparation is compounded from nonsterile ingredients or with nonsterile containers or equipment before terminal sterilization.

(ii) The sterile ingredients or components of the sterile preparation are exposed to air quality inferior to that of an ISO class five environment for more than one hour.

(iii) The sterile preparation contains nonsterile water and is stored for more than six hours before being sterilized.

(iv) The compounding pharmacist cannot verify from documentation received from the supplier or by direct examination that the chemical purity and content strength of the ingredients meet the specifications of an official compendium.

(v) The sterile preparation has been stored at room temperature and administered more than 24 hours after compounding, stored under refrigeration more than three days, or stored frozen from 0° to -20°C (32° to -4°F) or colder for 45 or fewer days, and sterility has not been confirmed by testing.

(B) This term shall apply to sterile preparations including the following:

(i) Alum bladder irrigation solution;

(ii) any morphine preparation made for parenteral administration from nonsterile powder or tablets;

(iii) any total parenteral nutrition solution made from dried amino acids;

(iv) any total parenteral nutrition solution sterilized by final filtration; and

(v) any autoclaved intravenous solution.

(2) "Immediate use" means a situation in which a sterile preparation is compounded pursuant to an order in a medical care facility for administration to the patient within one hour of the start of compounding the sterile preparation.

(3) "Low-risk," when used to describe a sterile preparation, means that the sterile preparation meets the following conditions:

(A) In the absence of sterility testing, is stored at room temperature and administration to the patient has begun not more than 48 hours after compounding, is stored under refrigeration for 14 or fewer days before administration to the patient over a period not to exceed 24 hours, or is stored frozen at -20°C (-4°F) or colder for 45 or fewer days before administration to the patient over a period not to exceed 24 hours;

(B) is prepared for administration to one patient or is batch-prepared and contains suitable preservatives for administration to more than one patient; and

(C) is prepared by a simple or closed-system aseptic transfer of no more than three sterile,

nonpyrogenic, finished pharmaceuticals obtained from licensed manufacturers into sterile final containers obtained from licensed manufacturers with no more than two instances in which a transfer device passes through the designated access point into any one sterile container or package.

(4)(A) "Medium-risk," when used to describe a sterile preparation, means that the sterile preparation meets at least one of the following conditions:

(i) In the absence of sterility testing, is stored at room temperature and administered to the patient not more than 30 hours after compounding, is stored under refrigeration for nine or fewer days, or is stored frozen at -20°C (-4°F) or colder for 45 or fewer days;

(ii) is batch-prepared and intended for use by more than one patient or by one patient on multiple occasions;

(iii) is created by a compounding process that includes complex aseptic manipulations other than a single-volume transfer; or

(iv) is compounded by at least four manipulations of sterile ingredients obtained from licensed manufacturers in a sterile container obtained from a licensed manufacturer by using a simple or closed-system aseptic transfer.

(B) This term shall apply to the following:

(i) Sterile preparations for use in a portable pump or reservoir over multiple days;

(ii) batch-reconstituted sterile preparations;

(iii) batch-prefilled syringes; and

(iv) total parenteral nutrient solutions that are compounded by the gravity transfer of carbohydrates and amino acids into an empty container with the addition of sterile additives using a syringe and needle or that are mixed with an automatic compounding device.

(5) "Pharmacy" means a pharmacy, nonresident pharmacy, or outsourcing facility as defined by K.S.A. 2017 Supp. 65-1626, and amendments thereto.

(c) Any sterile preparation for immediate use may be compounded outside a primary engineering control if both of the following conditions are met:

(1) Administration to the patient begins within one hour of the start of compounding the sterile preparation.

(2) The sterile preparation is compounded by a simple or closed-system aseptic transfer of sterile, nonpyrogenic, finished pharmaceuticals obtained from licensed manufacturers into sterile final containers obtained from licensed manufacturers.

(d) When a multiple-dose container with antimicrobial preservatives has been opened or entered, the container shall be labeled with a beyond-use date not to exceed 28 days, unless otherwise specified by the manufacturer.

(e) Each compounding area shall contain a primary engineering control providing unidirectional airflow that will maintain an ISO class five environment for compounding sterile preparations and shall be void of all activities and materials that are extraneous to compounding.

(f) Each sterile preparation compounded in a segregated compounding area shall be labeled with a beyond-use date of no more than 12 hours.

(g) Each single-dose container shall be labeled as such.

(h) The contents of each single-dose container shall be used within one hour if the container is opened or entered in an area with air quality that does not meet the requirements of an ISO class five environment.

(i) The contents of each single-dose container shall be used within six hours if the container is opened or entered in an area that meets the requirements of an ISO class five environment.

(j) For the convenience of any patient, any pharmacist may compound a sterile preparation before receiving an order if the pharmacist has previously filled orders for the sterile preparation and the sterile preparation is based on routine, regularly observed prescribing patterns.

(k) Compounding for non-human animals shall meet the same requirements as those for human prescriptions, except that a pharmacist shall not compound bulk chemicals for food-producing animals.

(l) Each sterile preparation sold by a pharmacy to a practitioner for administration to a patient shall be packaged with a label that includes the following text: "For Office Use Only — Not For Resale."

(m) Any pharmacy may distribute sterile preparations without a prescription, including providing limited quantities to a practitioner in the course of professional practice to administer limited quantities to an individual patient, if the sterile preparations are not intended for resale.

(n) A pharmacist shall not compound a sterile preparation that is essentially a copy.

(o) Any pharmacist may compound a sterile preparation that is commercially available only if there is sufficient documentation of a specific medical need for the prescription or the product is tem-

porarily unavailable due to problems other than safety or effectiveness. Each pharmacist shall document any unavailability in the patient's prescription record, including the date the product was unavailable, and shall maintain documentation from the manufacturer or distributor demonstrating the product's unavailability. The pharmacist shall cease compounding the sterile preparation as soon as the product becomes commercially available.

(p) A pharmacist shall not compound a sterile preparation by any of the following methods:

(1) Using any component withdrawn from the market by the FDA for safety reasons;

(2) receiving, storing, or using any drug component that is not guaranteed or otherwise determined to meet the requirements of an official compendium; or

(3) compounding finished drugs through manufacturing, as defined in K.S.A. 65-1626 and amendments thereto, without first receiving an FDA-sanctioned investigational new drug application in accordance with 21 U.S.C. 355(i) and 21 C.F.R. Part 312.

(q) Each pharmacist or pharmacy compounding sterile preparations shall have the following resources:

(1) A primary engineering control that is currently certified by an inspector certified by the controlled environmental testing association to ensure aseptic conditions within the working area and that has the required documentation. The certification shall be deemed current if the certification occurred within the previous six months or on the date the device was last moved to another location, whichever is more recent. The required documentation shall include the following:

(A) Inspection certificates for the past five years or since the date of installation, whichever is more recent;

(B) records of all filter maintenance for the past five years or since the date of installation, whichever is more recent;

(C) records of all HEPA filter maintenance for the past five years or since the date of installation, whichever is more recent; and

(D) records of all disinfecting and cleaning for the past year or since the date of installation, whichever is more recent;

(2) a sink with hot and cold running water;

(3) a refrigerator capable of maintaining a temperature of 2° to 8°C (36° to 46°F) and, if needed, a freezer capable of maintaining a temperature of -25° to -10°C (-13° to 14°F). The temperature

shall be monitored and recorded each business day. Each pharmacy with an electronic system that alerts the pharmacist to noncompliant temperatures shall be exempt from daily recording;

(4) the reference materials required by K.A.R. 68-2-12a and a current copy of a reference text on intravenous incompatibilities and stabilities. If an electronic library is provided, a workstation shall be readily available for use by pharmacy personnel, students, interns, and board personnel;

(5) a policy and procedure manual, with a documented review at least every two years by the pharmacist-in-charge or designee, which shall include the following subjects:

- (A) Sanitation;
 - (B) storage;
 - (C) dispensing;
 - (D) labeling;
 - (E) destruction and return of controlled substances;
 - (F) recordkeeping;
 - (G) recall procedures;
 - (H) responsibilities and duties of supportive personnel;
 - (I) aseptic compounding techniques; and
 - (J) ongoing evaluation of all staff compounding sterile preparations; and
- (6) supplies necessary for compounding sterile preparations.

(r) Each pharmacist-in-charge shall maintain a uniform formulation record for each sterile preparation, documenting the following:

- (1) The quantities, strength, and dosage form of all components of the sterile preparation;
- (2) the equipment used to compound the sterile preparation and the mixing instructions;
- (3) the container used in dispensing;
- (4) the storage requirements;
- (5) the beyond-use date to be assigned;
- (6) quality control procedures, which may include monitoring the following, if applicable:
 - (A) Adequacy of mixing to ensure uniformity and homogeneity; and
 - (B) the clarity, completeness, or pH of solutions;
 - (7) the sterilization methods;
 - (8) the source of the formulation; and
 - (9) the name of the pharmacist who verified the accuracy of the formulation record and the date of verification.

(s) Each pharmacist-in-charge shall maintain on the original order or on a separate, uniform record a compounding record for each sterile preparation, documenting the following:

(1) The name and strength of the sterile preparation;

(2) the formulation record reference for the sterile preparation;

(3) the name of the manufacturer or repackager and, if applicable, the lot number and the expiration date of each component;

(4) the total number of dosage units or total quantity compounded;

(5) the name of the person or persons who compounded the sterile preparation;

(6) the name of the pharmacist, or the pharmacy student or intern working under the direct supervision and control of the pharmacist, who verified the accuracy of the sterile preparation;

(7) the date of compounding;

(8) the assigned internal identification number, if applicable;

(9) the prescription number, if assigned;

(10) the results of quality control procedures;

(11) the results of the sterility testing and, if applicable, pyrogen testing for the batch; and

(12) the assigned beyond-use-date. In the absence of valid scientific stability information that is applicable to a component or the sterile preparation, the beyond-use date shall be established in accordance with the following criteria:

(A) For nonaqueous and solid formulations, one of the following:

(i) If the manufactured drug product is the source of the active ingredient, six months from the date of compounding or the time remaining until the manufactured drug product's expiration date, whichever is earlier; or

(ii) if the substance listed in an official compendium is the source of an active ingredient, six months from the date of compounding or the time remaining until the expiration date of any component of the formulation, whichever is earlier;

(B) for formulations containing water and made from ingredients in solid form, not more than 14 days when stored under refrigeration; and

(C) for all other formulations, not longer than the intended duration of therapy or 30 days, whichever is earlier.

(t) The compounding record and corresponding formulation record specified in subsections (s) and (r), respectively, shall be retained at the pharmacy for at least five years and shall be made readily available to the pharmacist-in-charge, the board, and the board's designee.

(u) Medical care facility pharmacies shall generate a compounding record and a corresponding

formulation record only for batch compounding or for any sterile preparation with a beyond-use date of more than seven days.

(v) Except when compounding in any CAI, each person involved in compounding a sterile preparation shall follow personal garbing and washing procedures that include the following minimum requirements:

(1) Preparing for garbing by removing any outer garments, cosmetics, jewelry, and artificial nails;

(2) performing the following procedures, in the order listed:

(A) Donning dedicated shoes or shoe covers;

(B) donning head and facial hair covers;

(C) either washing the hands with soap for at least 20 seconds or using an antiseptic hand scrub in accordance with the manufacturer's instructions; and

(D) donning a nonshedding gown; and

(3) entering the work area and immediately performing an antiseptic hand-cleaning procedure using an alcohol-based surgical hand scrub and successively donning sterile, powder-free gloves. Sterile gloves shall be disinfected after touching any nonsterile area.

(w) All sterile preparations shall be stored and delivered in a manner that is designed to maintain parenteral product stability and sterility.

(x) All sterile preparations, except for sterile preparations for immediate use, shall be compounded under aseptic conditions as follows:

(1) Each low-risk sterile preparation labeled with a beyond-use date of 12 hours or longer shall be compounded in an ISO class five environment using techniques that ensure sterility. Each low-risk sterile preparation labeled with a beyond-use date of less than 12 hours shall, at a minimum, be made in a segregated compounding area.

(2) Each medium-risk sterile preparation shall be compounded in an ISO class five environment using techniques that ensure sterility.

(3) Each high-risk sterile preparation made with nonsterile components shall be sterilized before being administered to a patient and shall have a certificate of analysis indicating that all nonsterile components meet the standards of the "United States pharmacopeia" and the FDA for identity, purity, and endotoxin levels as verified by a pharmacist.

(y) Each pharmacist engaged in the dispensing of sterile preparations shall meet all labeling requirements under state and federal law. In addition, the label of each sterile preparation shall contain the following information:

(1) The name and quantity of each component;

(2) the beyond-use date;

(3) the prescribed flow rate;

(4) the name or initials of each person who compounded the sterile preparation; and

(5) any special storage instructions.

(z)(1) The pharmacist-in-charge and all personnel involved in compounding sterile preparations shall have practical or academic training in sterile compounding, clean room technology, laminar flow technology, and quality assurance techniques. The training shall include the following:

(A) At least one successful media fill test; and

(B) a successful glove fingertip test.

(2) The pharmacist-in-charge shall ensure that all supportive personnel are trained and successfully demonstrate the following before performing any delegated sterile admixture services:

(A) Comprehensive knowledge of the pharmacy's standard operating procedures with regard to sterile admixture services, as specified in the policy and procedure manual;

(B) familiarity with the compounding techniques; and

(C) aseptic technique, which shall be proven by means of a media fill test and a glove fingertip test.

(3) The pharmacist-in-charge shall be responsible for testing the aseptic technique of all personnel involved in compounding sterile preparations annually by means of a media fill test. All personnel involved in compounding high-risk sterile preparations shall undergo this testing twice each year. Each individual who fails to demonstrate acceptable aseptic technique shall be prohibited from compounding sterile preparations until the individual demonstrates acceptable technique by means of a media fill test.

(aa) The pharmacist-in-charge shall document all training and test results for each person before that person begins compounding sterile preparations. This documentation shall be maintained by the pharmacy for at least five years and shall be made available to the board upon request.

(bb) The pharmacist-in-charge shall be responsible maintaining records documenting the frequency of cleaning and disinfection of all compounding areas, according to the following minimum requirements:

(1) Each ISO class five environment shall be cleaned and disinfected as follows:

(A) At the beginning of each shift;

(B) every 30 minutes during continuous periods of compounding individual sterile preparations;

- (C) before each batch; and
 - (D) after a spill or known contamination.
- (2) All counters, work surfaces, and floors shall be cleaned and disinfected daily.

(3) All walls, ceilings, and storage shelves shall be cleaned and disinfected monthly.

(cc) The pharmacist-in-charge shall be responsible for maintaining records documenting the monitoring of the air pressure and air flow and shall initiate immediate corrective action if indicated. The air pressure of the anteroom shall be maintained at five pascals, and the air flow shall be maintained at 0.2 meters per second. The air pressure and air flow values shall be checked and recorded at least once daily.

(dd) The pharmacist-in-charge shall be responsible for maintaining records documenting the monitoring of the cleanliness and sterility of the sterile compounding environment. Environmental sampling shall be performed in each new facility before any sterile preparation in that facility is provided to a patient and, at a minimum, every six months thereafter. The environmental sampling shall include the primary engineering control, anteroom and buffer area, and equipment and shall be performed following any repair or service performed at the facility and in response to any identified problem or concern.

Environmental sampling shall consist of the following, at a minimum:

- (1) Environmental nonviable particle counts;
- (2) environmental viable airborne particle testing by volumetric collection;
- (3) environmental viable surface sampling; and
- (4) certification of operational efficiency of the primary engineering control by an independent contractor according to the international organization of standardization classification of particulate matter in room air, at least once every six months.

(ee) The environmental sampling records specified in subsection (dd) shall be retained at the pharmacy for at least five years and shall be made readily available to the pharmacist-in-charge, the board, and the board's designee.

(ff) If a microbial growth above acceptable levels is detected in an ISO class five environment, ISO class seven environment, or ISO class eight environment, an immediate reevaluation of the adequacy of compounding practice, cleaning procedures, operational procedures, and air filtration efficiency with the aseptic compounding location shall be conducted and documented. Each investigation

into the source of the contamination shall include air sources, personnel garbing, and all filters, at a minimum. The ISO class five environment, ISO class seven environment, or ISO class eight environment shall be cleaned three times and environmental sampling shall be performed and reevaluated. Sterile preparations may be compounded and labeled with a beyond-use date according to subsection (gg) until microbial growth has decreased to acceptable levels.

(1) An ISO class five environment shall have acceptable levels of microbial growth if both of the following conditions are met:

(A) An airborne sample demonstrates no more than one colony-forming unit per cubic meter of air.

(B) A surface sample demonstrates no more than three colony-forming units per contact plate.

(2) An ISO class seven environment shall have acceptable levels of microbial growth if both of the following conditions are met:

(A) An airborne sample demonstrates no more than 10 colony-forming units per cubic meter of air.

(B) A surface sample demonstrates no more than five colony-forming units per contact plate.

(3) An ISO class eight environment shall have acceptable levels of microbial growth if both of the following conditions are met:

(A) An airborne sample demonstrates no more than 100 colony-forming units per cubic meter of air.

(B) A surface sample demonstrates no more than 100 colony-forming units per contact plate.

(gg) Unless sterility has been confirmed by testing, each high-risk sterile preparation shall be administered according to the following:

(1) Within 24 hours of compounding if stored at room temperature;

(2) within three days of compounding if stored under refrigeration; or

(3) within 45 days of compounding if stored frozen at -20°C (-4°F) or colder. (Authorized by K.S.A. 65-1630 and K.S.A. 2017 Supp. 65-1637e; implementing K.S.A. 2017 Supp. 65-1626a, K.S.A. 65-1634, K.S.A. 2017 Supp. 65-1637c, and K.S.A. 2017 Supp. 65-1642; effective May 11, 2018.)

Article 14.—WHOLESALE DISTRIBUTORS

68-14-1. (Authorized by K.S.A. 65-1630; implementing K.S.A. 1998 Supp. 65-1643; effective June 15, 1992; amended March 20, 1995; amended July 30, 1999; revoked Jan. 3, 2020.)

68-14-2. Definitions. As used in this article of the board's regulations and the pharmacy practice act, each of the following terms shall have the meaning specified in this regulation:

(a) "Blood" means whole blood collected from a single donor and processed either for transfusion or for further manufacturing.

(b) "Blood component" means that part of blood separated by physical or mechanical means.

(c) "Common ownership and control" means the power to direct or cause the direction of the management and policies of a person or an organization, whether by ownership of stock, by voting rights, by contract, or by other means.

(d) "Drug sample" means a unit of a prescription-only drug that is not intended to be sold, is intended to promote the sale of the drug, and is distributed on a gratuitous basis.

(e) "Device" has the meaning specified in K.S.A. 65-656, and amendments thereto.

(f) "Emergency medical reasons" shall include transfers of prescription-only drugs by a retail pharmacy to another retail pharmacy to alleviate a temporary shortage, except that the gross dollar value of these transfers shall not exceed five percent of the total prescription-only drug sales revenue of either the transferor or transferee pharmacy during any period of 12 consecutive months.

(g) "Excursion" means a deviation from the range of temperatures specified by the manufacturer for storage or transport of a prescription-only drug or device based on stability data.

(h) "Intracompany sales" and "intracompany distribution" mean any transaction or transfer between any division, subsidiary, parent, affiliated, or related company under the common ownership and control of a corporate entity.

(i) "Primary owner" means any person owning or controlling more than 50 percent of the wholesaler's business.

(j) "Room temperature" means a temperature that is maintained thermostatically and meets the following requirements:

(1) Encompasses the usual and customary working environment of 20° to 25°C (68° to 77°F);

(2) results in a mean kinetic temperature calculated to be not more than 25°C (77°F); and

(3) allows for excursions between 15° and 30°C (59° to 86°F) experienced in facilities, such that the allowable calculated mean kinetic temperature remains in the allowed range.

(k) "Virtual wholesale distribution" means arranging for the distribution of a drug or device,

which may include taking actual possession of the drug or device and shall include contracting with another entity for the distribution, purchase, and sale of the drug or device.

(l) "Virtual wholesale distributor" means a business entity that arranges for the distribution of a drug or device, with or without taking actual possession of the drug or device, and contracts with others for the distribution, purchase, and sale.

(m) "Wholesale distribution" means distribution of prescription-only drugs or devices to persons other than a consumer or patient and shall include virtual wholesale distribution and virtual wholesale distributors, but this term shall not include either of the following:

(1) The distribution of drug samples by manufacturers' representatives or representatives of the authorized distributor of record, in accordance with 21 U.S.C. 353; or

(2) the sale, purchase, or trade of blood and blood components intended for transfusion. (Authorized by K.S.A. 65-1630; implementing K.S.A. 65-1626, as amended by L. 2019, ch. 52, sec. 7, K.S.A. 65-1643, K.S.A. 65-1655, K.S.A. 65-1655a, and K.S.A. 65-1655b; effective June 15, 1992; amended July 23, 1999; amended Jan. 3, 2020.)

68-14-3. (Authorized by and implementing K.S.A. 1998 Supp. 65-1655 and 65-1643; effective June 15, 1992; amended July 23, 1999; revoked Jan. 3, 2020.)

68-14-4. Minimum required information for registration. (a) Each wholesale distributor, virtual wholesale distributor, third-party logistics provider, or outsourcing facility shall provide the board with the following minimum information as part of the registration requirements described in K.S.A. 65-1645, and amendments thereto, and as part of any renewal of any registration:

(1) The name, commercial business address, and telephone number of the registrant;

(2) each trade or business name used by the registrant;

(3) the address, telephone number, and name of the contact person for each facility used by the registrant for the storage, handling, and distribution of prescription-only drugs or devices;

(4) the type of ownership or operation, including partnership, corporation, or sole proprietorship;

(5) the name of each owner, operator, facility manager, and designated representative of the registrant, including the following:

(A) If a person, the name, address, and date of birth of the person;

(B) if a partnership, the name, address, and date of birth of each partner and the name of the partnership;

(C) if a corporation, the name, title, address, and date of birth of each corporate officer and director, the corporate name, and the name of the state of incorporation; and

(D) if a sole proprietorship, the name, address, and date of birth of the sole proprietor and the name of the business entity;

(6) a list of all states where the registrant is registered as a wholesale distributor, virtual wholesale distributor, third-party logistics provider, or outsourcing facility;

(7) a copy of any current DEA registration;

(8) all disciplinary actions or sanctions by any state or federal agency against the registrant or any principal, owner, director, officer, facility manager, or designated representative thereof;

(9) if the facility is located outside of Kansas, a record of the following:

(A) A current registration in the state where the registrant is located;

(B) a satisfactory inspection conducted within the previous 36-month period by the registering entity of the state where the registrant is located. If no such inspection record is readily available, the record of a satisfactory inspection conducted at the expense of the registrant within the previous 36-month period by a third party recognized by the board to inspect may be accepted; and

(C) a designated resident agent in Kansas for service of process, the record of whom shall also be on file with the secretary of state; and

(10) if the registrant is an outsourcing facility, a record of the following:

(A) A current outsourcing facility registration from the food and drug administration (FDA); and

(B) a current inspection report from an FDA inspection conducted within the previous 24-month period that indicates compliance with the requirements of the federal food, drug and cosmetic act, including guidance documents and current good manufacturing practices established by the FDA. If no such inspection record is readily available, the record of a satisfactory inspection conducted at the expense of the registrant within the previous 36-month period by a third party recognized by the board to inspect may be accepted.

(b) Each registrant shall provide the board with

a surety bond that meets the requirements of 21 U.S.C. 360eee-2.

(c) Each registrant shall provide and maintain, in readily retrievable form, a list of all manufacturers, wholesale distributors, third-party logistics providers, outsourcing facilities, and dispensers with which the registrant is transacting business.

(d) Each registrant shall submit revised information requested by subsection (a) within 30 days after any change in that information. (Authorized by K.S.A. 65-1630; implementing K.S.A. 65-1643, K.S.A. 65-1645, K.S.A. 65-1655, K.S.A. 65-1655a, and K.S.A. 65-1655b; effective June 15, 1992; amended July 23, 1999; amended Jan. 3, 2020.)

68-14-5. Personnel. (a) Each wholesale distributor registrant, virtual wholesale distributor registrant, third-party logistics registrant, or outsourcing facility registrant shall require each person employed in any wholesale distribution, virtual wholesale distribution, third-party logistics, or outsourcing activity, or any combination of these activities, to receive education, training, and experience sufficient for that person to perform the assigned functions in a manner providing assurance that the drug product quality, safety, and security will at all times be maintained as required by law. Each registrant shall maintain records of the training, education, and experience for five years.

(b) Each wholesale distributor registrant, virtual wholesale distributor registrant, or third-party logistics provider registrant shall designate an individual as the facility manager, who shall be responsible for all aspects of the registrant's operation.

(c) Each outsourcing facility registrant shall designate a pharmacist-in-charge, as defined by K.S.A. 65-1626 and amendments thereto, who shall be responsible for all aspects of the registrant's operation. (Authorized by K.S.A. 65-1630; implementing K.S.A. 65-1655, K.S.A. 65-1655a, and K.S.A. 65-1655b; effective June 15, 1992; amended July 23, 1999; amended Jan. 3, 2020.)

68-14-7. Wholesale distributors; minimum requirements for the storage and handling of prescription-only drugs and devices and for the establishment and maintenance of prescription-only drug and device distribution records. Each wholesale distributor registrant shall meet the following minimum requirements for the storage and handling of prescription-only drugs and devices and for the es-

establishment and maintenance of prescription-only drug and device distribution records by the registrant and its officers, agents, representatives, and employees:

(a) Facilities. Each facility at which prescription-only drugs and devices are stored, warehoused, handled, held, offered, marketed, transported from, or displayed shall meet the following requirements:

(1) Be of suitable size and construction to facilitate cleaning, maintenance, and proper operations;

(2) have storage areas designed to provide adequate lighting, ventilation, temperature, sanitation, humidity, space, equipment, and security conditions;

(3) have a quarantine area for storage of prescription-only drugs and devices that are outdated, damaged, deteriorated, misbranded, adulterated, counterfeit, or suspected of being counterfeit, or that are in immediate or sealed, secondary containers that have been opened or deemed unfit for distribution;

(4) be maintained in a clean and orderly condition;

(5) be free from infestation by insects, rodents, birds, or vermin of any kind;

(6) be a commercial location and not a personal dwelling or residence;

(7) have sufficient storage space to maintain records of all transactions for at least five years; and

(8) be in a location separate from any other wholesale distributor or pharmacy registered by the board or another state.

(b) Security.

(1) Each facility used for wholesale distribution shall be secure from unauthorized entry.

(A) Access from outside the premises shall be kept to a minimum and be well controlled.

(B) The outside perimeter of the premises shall be well lighted.

(C) Entry into areas where prescription-only drugs or devices are held shall be limited to authorized personnel.

(2) Each facility shall be equipped with an alarm system to detect entry after hours.

(3) Each facility shall be equipped with a security system that will provide suitable protection against theft and diversion. When appropriate, the security system shall provide protection against theft or diversion that is facilitated or hidden by tampering with computers or electronic records.

(4) Each registrant shall ensure adequate accountability and control of all controlled sub-

stances in compliance with the Kansas uniform controlled substances act, federal drug laws, and all applicable regulations.

(5) Each registrant shall verify that all persons or entities who undertake, either directly or by any other arrangement, to transport prescription-only drugs or devices on behalf of the registrant ensure security.

(c) Storage. All prescription-only drugs and devices shall be stored at appropriate temperatures and under appropriate conditions in accordance with manufacturer's recommendations to preserve the stability of these drugs and devices.

(1) If no storage requirements are established for a prescription-only drug or device, the drug or device may be held at room temperature, as defined in an official compendium, to help ensure that its identity, strength, quality, and purity are not adversely affected.

(2) Appropriate manual, electromechanical, or electronic temperature and humidity-recording equipment, devices, logs, or a combination of these means shall be utilized to document proper storage of prescription-only drugs and devices at least once during each 24-hour period.

(3) The recordkeeping requirements in subsection (f) shall be followed for all stored prescription-only drugs and devices.

(d) Examination of materials.

(1) Upon receipt, each outside shipping container shall be visually examined to identify and to prevent the acceptance of prescription-only drugs or devices that are contaminated or otherwise unfit for distribution. This examination shall be adequate to reveal container damage that would suggest possible contamination or other damage to the contents.

(2) Each outgoing shipment shall be carefully inspected to identify the prescription-only drugs or devices and to ensure that there is no delivery of prescription-only drugs or devices that have been damaged in storage or held under improper conditions.

(3)(A) No registrant shall engage in the wholesale distribution of prescription-only drugs or devices that are purchased or received from pharmacies or practitioners or from wholesale distributors that obtained the drugs or devices from pharmacies or practitioners.

(B) Any registrant may receive for redistribution prescription-only drugs or devices returned from pharmacies or practitioners that were distributed by the registrant. Before redistribution, the registrant

shall examine the prescription-only drug or device to ensure that it has not been opened or used. If the prescription-only drug or device has been opened, it shall be quarantined and physically separated from other prescription-only drugs or devices until the prescription-only drug or device is destroyed.

(C) Any registrant that also operates as a reverse logistics provider or returns processor may receive prescription-only drugs or devices for destruction from pharmacies and practitioners regardless of where the drugs or devices are obtained. Each registrant shall maintain documentation for the disposition of prescription-only drugs or devices sent for destruction with proof of destruction, including a certificate of destruction, for inventory accountability and shall maintain records documenting any return to the supplier.

(4) The recordkeeping requirements in subsection (f) shall be followed for all incoming and outgoing prescription-only drugs or devices.

(e) Returned, damaged, and outdated prescription-only drugs or devices.

(1) Prescription-only drugs or devices that are outdated, damaged, deteriorated, misbranded, or adulterated shall be quarantined and physically separated from other prescription-only drugs and devices until they are destroyed or returned to their supplier.

(2) Each prescription-only drug or device whose immediate or sealed outer or sealed secondary container has been opened or used shall be identified as such and shall be quarantined and physically separated from other prescription-only drugs or devices until the drug or device is either destroyed or returned to the supplier.

(3) If the conditions under which a prescription-only drug or device has been returned cast doubt on the drug's or device's safety, identity, strength, quality, or purity, then the drug or device shall be destroyed or returned to the supplier, unless examination, testing, or other investigations prove that the drug or device meets appropriate standards of safety, identity, strength, quality, and purity. In determining whether or not the conditions under which a drug or device has been returned cast doubt on the drug's or device's safety, identity, strength, quality, or purity, the registrant shall consider, among other factors, the conditions under which the drug or device has been held, stored, or shipped before or during its return and the condition of the drug or device and its container, carton, or labeling, as a result of storage or shipping.

(4) The recordkeeping requirements in subsection (f) shall be followed for all outdated, damaged, deteriorated, misbranded, or adulterated prescription-only drugs or devices.

(f) Recordkeeping.

(1) Each registrant shall establish and maintain inventories and records of all transactions regarding the receipt and distribution or other disposition of prescription-only drugs and devices. These records shall include the following information:

(A) The source of the drugs and devices, including the name and principal address of the seller or transferor, and the address of the location from which the drugs or devices were shipped;

(B) the identity and quantity of the drugs and devices received and either distributed or disposed of; and

(C) the dates of receipt and either distribution or other disposition of the drugs and devices.

(2) Each record related to the wholesale distribution of prescription-only drugs or devices, including invoices of purchase or sale, packing slips, and shipment records, shall accurately reflect the name of the registrant as that name appears on the registration issued by the board.

(3) Inventories and records shall be made available for inspection and photocopying by an authorized representative of the board for five years following disposition of the prescription-only drugs or devices.

(4) Records described in this regulation that are kept at the inspection site or that can be immediately retrieved by computer or other electronic means shall be readily available for authorized inspection during the retention period. Records kept at a central location apart from the inspection site and not electronically retrievable shall be made available for inspection within two working days of a request by an authorized representative of the board.

(5) Each registrant shall post all current federal and state registrations in a conspicuous place.

(g) Written policies and procedures. Each registrant shall establish, maintain, and adhere to written policies and procedures concerning the receipt, security, storage, inventory, and distribution of prescription-only drugs and devices, including policies and procedures for identifying, recording, and reporting losses or thefts, and for correcting all errors and inaccuracies in inventories. In addition, each registrant shall establish, maintain, and adhere to the following written policies and procedures:

(1) A procedure by which the oldest approved stock of a prescription-only drug or device is distributed first. The procedure may permit deviation from this requirement, if the deviation is temporary and appropriate to meet the needs of the receiving facility;

(2) a procedure to be followed for handling recalls and withdrawals of prescription-only drugs and devices. This procedure shall be adequate to deal with recalls and withdrawals due to any of the following:

(A) Any action initiated at the request of the food and drug administration or other federal, state, or local law enforcement or other government agency, including the board;

(B) any voluntary action by the manufacturer to remove defective or potentially defective drugs or devices from the market; or

(C) any action undertaken to promote public health and safety by replacing existing merchandise with an improved product or new package design;

(3) a procedure to ensure that wholesale distributors prepare for, protect against, and handle any crisis that affects security or operation of any facility in the event of strike, fire, flood, or other natural disaster, or other situations of local, state, or national emergency;

(4) a procedure to ensure that all outdated prescription-only drugs or devices are segregated from other drugs or devices and either returned to the manufacturer or destroyed. This procedure shall provide for written documentation of the disposition of outdated prescription-only drugs and devices. This documentation shall be maintained for five years after disposition of the outdated prescription-only drugs or devices; and

(5) a procedure to ensure that prescription-only drugs and devices are distributed only to registered entities with the authority to possess prescription-only drugs or devices in Kansas and to maintain documentation of this authority as part of the distribution record.

(h) Responsible persons. Each registrant shall establish and maintain a list of officers, directors, managers, and other persons in charge of wholesale prescription-only drug and device distribution, storage, and handling, including a description of their duties and a summary of their qualifications. This list shall be made available for inspection by the board.

(i) Compliance with federal, state, and local law.

(1) Each registrant that deals in controlled substances shall register with the DEA.

(2) Each registrant shall permit the board's authorized personnel to enter and inspect the registrant's premises and delivery vehicles and to audit the records and written operating procedures, at reasonable times and in a reasonable manner, to the extent authorized by law.

(3) Each registrant shall operate in accordance with the requirements of 21 U.S.C. 353, 21 U.S.C. 360eee-1, 21 U.S.C. 360eee-2, and any implementing regulation.

(j) Salvaging and reprocessing. Each registrant shall be subject to the provisions of any applicable federal, state, or local laws or regulations that relate to prescription-only drug or device salvaging or reprocessing. (Authorized by K.S.A. 65-1630; implementing K.S.A. 65-1634 and K.S.A. 65-1655; effective June 15, 1992; amended July 23, 1999; amended Jan. 3, 2020.)

68-14-7a. Third-party logistics providers; minimum requirements for operation and maintenance of records. Each third-party logistics provider registrant shall meet the following minimum requirements for operation and the maintenance of records:

(a) Facilities. Each facility at which a third-party logistics provider is located shall meet the following requirements:

(1) Be of suitable size and construction to facilitate cleaning, maintenance, and proper operations;

(2) have storage areas designed to provide adequate lighting, ventilation, temperature, sanitation, humidity, space, equipment, and security conditions;

(3) have a quarantine area for storage of prescription-only drugs and devices that are outdated, damaged, deteriorated, misbranded, adulterated, counterfeit, or suspected of being counterfeit or that are in immediate or sealed, secondary containers that have been opened or deemed unfit for distribution;

(4) be maintained in a clean and orderly condition;

(5) be free from infestation by insects, rodents, birds, or vermin of any kind;

(6) be in a location separate from any pharmacy registered by the board or another state;

(7) be a commercial location and not a personal dwelling or residence; and

(8) have sufficient storage space to maintain records of all shipments pertaining to third-party logistics for at least five years.

(b) Security.

(1) Each facility used for third-party logistics shall be secure from unauthorized entry.

(A) Access from outside the premises shall be kept to a minimum and be well controlled.

(B) The outside perimeter of the premises shall be well lighted.

(C) Entry into areas where prescription-only drugs or devices are held shall be limited to authorized personnel.

(2) Each facility shall be equipped with an alarm system to detect entry after hours.

(3) Each facility shall be equipped with a security system that will provide suitable protection against theft and diversion. When appropriate, the security system shall provide protection against theft or diversion that is facilitated or hidden by tampering with computers or electronic records.

(c) Storage. All prescription-only drugs and devices shall be stored at appropriate temperatures and under appropriate conditions in accordance with manufacturer's recommendations to preserve the stability of these drugs and devices.

(1) If no storage requirements are established for a prescription-only drug or device, the drug or device may be held at room temperature, as defined in an official compendium, to help ensure that its identity, strength, quality, and purity are not adversely affected.

(2) Appropriate manual, electromechanical, or electronic temperature and humidity-recording equipment, devices, logs, or a combination of these means shall be utilized to document proper storage of prescription-only drugs and devices at least once during each 24-hour period.

(3) The recordkeeping requirements in subsection (f) shall be followed for all stored prescription-only drugs and devices.

(d) Examination of materials.

(1) Upon receipt, each outside shipping container shall be visually examined to identify and to prevent the acceptance of prescription-only drugs or devices that are contaminated or otherwise unfit for distribution. This examination shall be adequate to reveal container damage that would suggest possible contamination or other damage to the contents.

(2) Each outgoing shipment shall be carefully inspected to identify the prescription-only drugs or devices and to ensure that there is no delivery of prescription-only drugs or devices that have been damaged in storage or held under improper conditions.

(3) The recordkeeping requirements in subsection (f) shall be followed for all incoming and outgoing prescription-only drugs or devices.

(e) Returned, damaged, and outdated prescription-only drugs or devices.

(1) Prescription-only drugs or devices that are outdated, damaged, deteriorated, misbranded, or adulterated shall be quarantined and physically separated from other prescription-only drugs and devices until they are destroyed or returned to their supplier.

(2) Each prescription-only drug or device whose immediate or sealed outer or sealed secondary container has been opened or used shall be identified as such and shall be quarantined and physically separated from other prescription-only drugs and devices until the drug or device is either destroyed or returned to the supplier.

(3) If the conditions under which a prescription-only drug or device has been returned cast doubt on the drug's or device's safety, identity, strength, quality, or purity, then the drug or device shall be destroyed or returned to the supplier, unless examination, testing, or other investigations prove that the drug or device meets appropriate standards of safety, identity, strength, quality, and purity. In determining whether or not the conditions under which a drug or device has been returned cast doubt on the drug's or device's safety, identity, strength, quality, or purity, the registrant shall consider, among other factors, the conditions under which the drug or device has been held, stored, or shipped before or during its return and the condition of the drug or device and its container, carton, or labeling, as a result of storage or shipping.

(4) The recordkeeping requirements in subsection (f) shall be followed for all outdated, damaged, deteriorated, misbranded, or adulterated prescription-only drugs or devices.

(f) Recordkeeping.

(1) Each registrant shall establish and maintain inventories and records of all transactions regarding the receipt and distribution or other disposition of prescription-only drugs and devices. These records shall include the following information:

(A) The source of the drugs and devices, including the name and principal address of the seller or transferor, and the address of the location from which the drugs or devices were shipped;

(B) the identity and quantity of the drugs and devices received and either distributed or disposed of; and

(C) the dates of receipt and either distribution or other disposition of the drugs and devices.

(2) Inventories and records shall be made available for inspection and photocopying by an authorized representative of the board for five years following disposition of the prescription-only drugs or devices.

(3) The records described in this regulation that are kept at the inspection site or that can be immediately retrieved by computer or other electronic means shall be readily available for authorized inspection during the retention period. Records kept at a central location apart from the inspection site and not electronically retrievable shall be made available for inspection within two working days of a request by an authorized representative of the board.

(4) Each registrant shall post all current federal and state registrations in a conspicuous place.

(g) Written policies and procedures. Each registrant shall establish, maintain, and adhere to written policies and procedures concerning the receipt, security, storage, inventory, and distribution of prescription-only drugs and devices, including policies and procedures for identifying, recording, and reporting losses or thefts, and for correcting all errors and inaccuracies in inventories. In addition, each registrant shall establish, maintain, and adhere to the following written policies and procedures:

(1) A procedure by which the oldest approved stock of a prescription-only drug or device is distributed first. The procedure may permit deviation from this requirement, if the deviation is temporary and appropriate to meet the needs of the receiving facility;

(2) a procedure to be followed for handling recalls and withdrawals of prescription-only drugs and devices. This procedure shall be adequate to deal with recalls and withdrawals due to any of the following:

(A) Any action initiated at the request of the food and drug administration or other federal, state, or local law enforcement or other government agency, including the board;

(B) any voluntary action by the manufacturer to remove defective or potentially defective drugs or devices from the market; or

(C) any action undertaken to promote public health and safety by replacing existing merchandise with an improved product or new package design;

(3) a procedure to ensure that the registrant prepares for, protects against, and handles any cri-

sis that affects security or operation of any facility in the event of strike, fire, flood, or other natural disaster, or other situations of local, state, or national emergency; and

(4) a procedure to ensure that all outdated prescription-only drugs or devices are segregated from other drugs and devices and either returned to the manufacturer or destroyed. This procedure shall provide for written documentation of the disposition of outdated prescription-only drugs or devices. Each registrant shall maintain this documentation for five years after disposition of each outdated prescription-only drug or device.

(h) Responsible persons. Each registrant shall establish and maintain a list of officers, directors, managers, and other persons in charge of prescription-only drug and device distribution, storage, and handling, including a description of their duties and a summary of their qualifications. This list shall be made available for inspection by the board.

(i) Compliance with federal, state, and local law.

(1) Each registrant that deals in controlled substances shall register with the DEA.

(2) Each registrant shall permit the board's authorized personnel to enter and inspect the registrant's premises and delivery vehicles and to audit the records and written operating procedures, at reasonable times and in a reasonable manner, to the extent authorized by law.

(3) Each registrant shall operate in accordance with the requirements of 21 U.S.C. 360eee, or any implementing regulation. (Authorized by K.S.A. 65-1630; implementing K.S.A. 65-1634 and K.S.A. 65-1655a; effective Jan. 3, 2020.)

68-14-7b. Outsourcing facilities; minimum requirements for operation and maintenance of records. Each registrant who is the owner of an outsourcing facility shall meet the following minimum requirements for operation and the maintenance of records:

(a) Facilities. Each outsourcing facility shall meet the following requirements:

(1) Be of suitable size and construction to facilitate cleaning, maintenance, and proper operations;

(2) have storage areas designed to provide adequate lighting, ventilation, temperature, sanitation, humidity, space, equipment, and security conditions;

(3) have a quarantine area for storage of prescription-only drugs and devices that are out-

dated, damaged, deteriorated, misbranded, adulterated, or deemed unfit for distribution;

(4) have a quarantine area designated for holding products waiting for testing data before being released for distribution;

(5) be maintained in a clean and orderly condition;

(6) be free from infestation by insects, rodents, birds, or vermin of any kind;

(7) be a commercial location and not a personal dwelling or residence; and

(8) have sufficient storage space to maintain records of all shipments pertaining to outsourcing for at least five years.

(b) Security.

(1) Each facility used for outsourcing shall be secure from unauthorized entry.

(A) Access from outside the premises shall be kept to a minimum and be well controlled.

(B) The outside perimeter of the premises shall be well lighted.

(C) Entry into areas where prescription-only drugs and devices are held shall be limited to authorized personnel.

(2) Each facility shall be equipped with an alarm system to detect entry after hours.

(3) Each facility shall be equipped with a security system that will provide suitable protection against theft and diversion. When appropriate, the security system shall provide protection against theft or diversion that is facilitated or hidden by tampering with computers or electronic records.

(c) Storage. All prescription-only drugs and devices shall be stored at appropriate temperatures and under appropriate conditions in accordance with manufacturer's recommendations to preserve the stability of these drugs and devices.

(1) If no storage requirements are established for a prescription-only drug or device, the drug or device may be held at room temperature, as defined in an official compendium, to help ensure that its identity, strength, quality, and purity are not adversely affected.

(2) Appropriate manual, electromechanical, or electronic temperature and humidity-recording equipment, devices, logs, or a combination of these means shall be utilized to document proper storage of prescription-only drugs and devices at least once during each 24-hour period.

(3) The recordkeeping requirements in subsection (f) shall be followed for all stored prescription-only drugs and devices.

(d) Examination of materials.

(1) Upon receipt, each outside shipping container shall be visually examined to identify and to prevent the acceptance of prescription-only drugs or devices that are contaminated or otherwise unfit for distribution. This examination shall be adequate to reveal container damage that would suggest possible contamination or other damage to the contents.

(2) Each outgoing shipment shall be carefully inspected to identify the prescription-only drugs or devices and to ensure that there is no delivery of prescription-only drugs or devices that have been damaged in storage or held under improper conditions.

(3) The recordkeeping requirements in subsection (f) shall be followed for all incoming and outgoing prescription-only drugs and devices.

(e) Returned, damaged, and outdated prescription-only drugs and devices.

(1) Prescription-only drugs or devices that are outdated, damaged, deteriorated, misbranded, or adulterated shall be quarantined and physically separated from other prescription-only drugs and devices until they are destroyed.

(2) Each prescription-only drug or device whose immediate or sealed outer or sealed secondary container has been opened or used shall be identified as such and shall be quarantined and physically separated from other prescription-only drugs until the drug or device is either destroyed or returned to the supplier.

(3) If the conditions under which a prescription-only drug or device has been returned cast doubt on the drug's or device's safety, identity, strength, quality, or purity, then the drug or device shall be destroyed, unless examination, testing, or other investigations prove that the drug or device meets appropriate standards of safety, identity, strength, quality, and purity. In determining whether or not the conditions under which a drug or device has been returned cast doubt on the drug's or device's safety, identity, strength, quality, or purity, the registrant shall consider, among other factors, the conditions under which the drug or device has been held, stored, or shipped before or during its return and the condition of the drug or device and its container, carton, or labeling, as a result of storage or shipping.

(4) The recordkeeping requirements in subsection (f) shall be followed for all outdated, damaged, deteriorated, misbranded, or adulterated prescription-only drugs and devices.

(f) Recordkeeping.

(1) Each registrant shall establish and maintain records of all transactions regarding the receipt and distribution or other disposition of prescription-only drugs and devices and any bulk active pharmaceutical ingredients used in compounding or manufacturing. These records shall include the following information:

(A) The source of the drugs and devices or the active pharmaceutical ingredients, including the name and principal address of the seller or transferor, the address of the location from which the drugs or devices were shipped, and the certificate of analysis if an active pharmaceutical ingredient was received;

(B) the identity and quantity of the drugs and devices or the active pharmaceutical ingredients received and either distributed or disposed of; and

(C) the date of receipt of the drugs and devices and the date of distribution or any other disposition of the drugs and devices.

(2) Records shall be made available for inspection and photocopying by an authorized representative of the board for five years following disposition of the prescription-only drugs or devices.

(3) The records described in this regulation that are kept at the inspection site or that can be immediately retrieved by computer or other electronic means shall be readily available for authorized inspection during the retention period. Records kept at a central location apart from the inspection site and not electronically retrievable shall be made available for inspection within two working days of a request by an authorized representative of the board.

(4) Each registrant shall post all current federal and state registrations in a conspicuous place.

(g) Written policies and procedures. Each registrant shall establish, maintain, and adhere to written policies and procedures concerning the receipt, security, storage, inventory, and distribution of prescription-only drugs and devices, including policies and procedures for identifying, recording, and reporting losses or thefts, and for correcting all errors and inaccuracies in inventories. In addition, each registrant shall establish, maintain, and adhere to the following written policies and procedures:

(1) A procedure by which the oldest approved stock of a prescription-only drug or device is distributed first. The procedure may permit deviation from this requirement, if the deviation is temporary and appropriate to meet the needs of the receiving facility;

(2) a procedure to be followed for handling recalls and withdrawals of prescription-only drugs and devices including written notification to the board within 24 hours. This procedure shall be adequate to deal with recalls and withdrawals due to any of the following:

(A) Any action initiated at the request of the food and drug administration or other federal, state, or local law enforcement or other government agency, including the board;

(B) any voluntary action by the registrant to remove defective or potentially defective drugs or devices from the market; or

(C) any action undertaken to promote public health and safety by replacing existing merchandise with an improved product or new package design;

(3) a procedure to ensure that the registrant prepares for, protects against, and handles any crisis that affects security or operation of any facility in the event of strike, fire, flood, or other natural disaster, or other situations of local, state, or national emergency;

(4) a procedure to ensure that all outdated prescription-only drugs or devices are segregated from other drugs or devices and destroyed. This procedure shall provide for written documentation of the disposition of outdated prescription-only drug or device. This documentation shall be maintained for five years after disposition of the outdated prescription-only drug or device; and

(5) a procedure to ensure that prescription-only drugs and devices are sold only to registered entities with the authority to possess prescription-only drugs and devices in Kansas and to maintain documentation of this authority as part of the distribution record.

(h) Responsible persons. Each registrant shall establish and maintain a list of officers, directors, managers, pharmacists, pharmacy technicians, and other persons in charge of drug compounding, distribution, storage, and handling, including a description of their duties and a summary of their qualifications. This list shall be made available for inspection by the board.

(i) Compliance with federal, state, and local law.

(1) Each registrant that deals in controlled substances shall register with the DEA.

(2) Each registrant shall permit the board's authorized personnel to enter and inspect the registrant's premises and delivery vehicles and to audit the records and written operating procedures, at reasonable times and in a reasonable manner, to the extent authorized by law.

(3) Each registrant shall operate in accordance with section 503B of the federal food, drug, and cosmetic act, 21 U.S.C. 353b.

(4) Each drug manufactured, prepared, propagated, compounded, or processed by an outsourcing facility without a registration issued by the board shall be deemed misbranded. (Authorized by K.S.A. 65-1630; implementing K.S.A. 65-1634 and K.S.A. 65-1655b; effective Jan. 3, 2020.)

Article 16.—CANCER DRUG REPOSITORY PROGRAM

68-16-1 and 68-16-2. (Authorized by and implementing K.S.A. 2005 Supp. 65-1667; effective Dec. 1, 2006; revoked Feb. 13, 2015.)

68-16-3. (Authorized by and implementing K.S.A. 2007 Supp. 65-1667; effective Dec. 1, 2006; amended April 10, 2009; revoked Feb. 13, 2015.)

68-16-4. (Authorized by and implementing K.S.A. 2005 Supp. 65-1667; effective Dec. 1, 2006; revoked Feb. 13, 2015.)

68-16-5. (Authorized by and implementing K.S.A. 2005 Supp. 65-1665 and K.S.A. 2005 Supp. 65-1667; effective Dec. 1, 2006; revoked Feb. 13, 2015.)

68-16-6, 68-16-7, 68-16-8, and 68-16-9. (Authorized by and implementing K.S.A. 2005 Supp. 65-1667; effective Dec. 1, 2006; revoked Feb. 13, 2015.)

Article 19.—CONTINUOUS QUALITY ASSURANCE PROGRAMS

68-19-1. Minimum program requirements. Each pharmacy's continuous quality improvement program shall meet the following minimum requirements:

(a) Meet at least once each quarter of each calendar year;

(b) have the pharmacy's pharmacist-in-charge in attendance at each meeting; and

(c) perform the following during each meeting:

(1) Review all incident reports generated for each reportable event associated with that pharmacy since the last quarterly meeting;

(2) for each incident report reviewed, establish the steps taken or to be taken to prevent a recurrence of the incident;

(3) review each board newsletter published since the last quarterly meeting; and

(4) create a report of the meeting, including at least the following information:

(A) A list of the persons in attendance;

(B) a list of the incident reports and newsletters reviewed; and

(C) a description of the steps taken or to be taken to prevent recurrence of each incident reviewed. (Authorized by and implementing K.S.A. 65-1695; effective April 10, 2009; amended Nov. 29, 2019.)

Article 20.—CONTROLLED SUBSTANCES

68-20-10a. Electronic transmission of a controlled substance prescription. (a) Each prescription drug order transmitted electronically shall be issued for a legitimate medical purpose by a prescriber acting within the course of legitimate professional practice.

(b) Each prescription drug order communicated by way of electronic transmission shall fulfill all the requirements of K.A.R. 68-2-22.

(c) A prescription drug order, including that for any controlled substance listed in schedules II, III, IV, and V, may be communicated by electronic transmission in accordance with 21 C.F.R. part 1311.

(d) Each electronic prescription drug order created and transmitted in conformance with 21 C.F.R. part 1311 shall be considered an original, written, signed prescription drug order. (Authorized by K.S.A. 65-1630, K.S.A. 2014 Supp. 65-1642, and K.S.A. 2014 Supp. 65-4102; implementing K.S.A. 2014 Supp. 65-1642, 65-4102, and 65-4123; effective Feb. 5, 1999; amended Dec. 27, 1999; amended April 23, 2010; amended May 20, 2011; amended Feb. 13, 2015.)

68-20-15b. Notification to board; suspected diversion, theft, or loss of controlled substances. Either the pharmacist-in-charge or the pharmacy owner shall notify the board in writing within one day of any suspected diversion, theft, or loss of any controlled substance and, upon completion, shall provide the board with a copy of the completed DEA 106 form issued by the U.S. department of justice. (Authorized by K.S.A. 2017 Supp. 65-4102; implementing K.S.A. 65-4117; effective Jan. 4, 2019.)

68-20-16. Records and inventories of registrants. (a) Except as provided in this regulation, each registrant shall keep records and main-

tain inventories in conformance with the record-keeping and inventory requirements of 21 CFR 1304.04(g) and (h), including 21 CFR 1304.04(f) as referred to by 21 CFR 1304.04(g), and 21 CFR 1304.11, as in effect on April 1, 2008, which are hereby adopted by reference. The registrant shall keep the records on file for at least five years.

(b) After the initial inventory is taken, the registrant shall take a subsequent inventory of all controlled substances on hand at least every year. The annual inventory shall be taken at least eight months after the previous inventory.

(c) Each required inventory of schedule II controlled substances and all products containing hydrocodone shall be taken by exact count.

(d) All registrants handling schedule V preparations shall be subjected to the same inventory and recordkeeping requirements specified in subsections (a) and (b). In addition, an inventory of schedule V items shall be taken in conjunction with the required inventory requirements relating to schedules II, III, and IV. (Authorized by K.S.A. 65-4102, as amended by L. 2009, ch. 32, sec. 54, and K.S.A. 65-4121; implementing K.S.A. 65-4121; effective, E-72-24, Aug. 25, 1972; effective Jan. 1, 1973; amended May 1, 1989; amended July 31, 1998; amended Dec. 27, 1999; amended Nov. 13, 2009.)

68-20-23. N-Benzylpiperazine included in schedule I. N-Benzylpiperazine (BZP), including its salts, isomers, and salts of isomers, shall be classified as a schedule I controlled substance. (Authorized by and implementing K.S.A. 65-4102; effective, T-68-11-6-08, Nov. 6, 2008, effective March 6, 2009.)

68-20-31. 2,5-dimethoxy-4-methyl-n-(2-methoxybenzyl)phenethylamine included in schedule I. 2,5-dimethoxy-4-methyl-n-(2-methoxybenzyl)phenethylamine, including its salts, isomers, and salts of isomers, shall be classified as a schedule I controlled substance. (Authorized by and implementing K.S.A. 2014 Supp. 65-4102; effective, T-68-1-23-15, Jan. 23, 2015; effective June 5, 2015.)

Article 21.—PRESCRIPTION MONITORING PROGRAM

68-21-1. Definitions. As used in these regulations, the following terms shall have the meanings specified in this regulation:

(a) “Authentication” means the provision of information, an electronic device, or a certificate by

the board or its designee to a dispenser or prescriber that allows the dispenser or prescriber to electronically access prescription monitoring information. The authentication may include the provision of a user name, a password, or an electronic identification device or certificate.

(b) “Dispenser identification number” means the drug enforcement administration (DEA) number if available or, if not available, the national provider identifier (NPI).

(c) “Drug enforcement administration number” means a unique registration number issued to an authorized prescriber of controlled substances by the drug enforcement administration, United States department of justice.

(d) “National provider identifier” and “NPI” mean a unique 10-digit number issued by the national provider identifier registry and used to identify each health care provider whose services are authorized by medicaid or medicare.

(e) “Patient identification number” means that patient’s unexpired temporary or permanent driver’s license number or state-issued identification card number. If the patient does not have one of those numbers, the dispenser shall use the patient’s insurance identification number. If the patient does not have an insurance identification number, the dispenser shall use the patient’s first, middle, and last initials, followed by the patient’s eight-digit birth date.

(f) “Prescriber identification number” means the DEA number if available or, if not available, the NPI.

(g) “Program” means the Kansas prescription monitoring program.

(h) “Report” means a compilation of data concerning a dispenser, patient, drug of concern, or scheduled substance as defined in K.S.A. 65-1682(g) and amendments thereto.

(i) “Stakeholder” means a person, group, or organization that could be affected by the program’s actions, objectives, and policies.

(j) “Valid photographic identification” means any of the following:

(1) An unexpired permanent or temporary driver’s license or instruction permit issued by any U.S. state or Canadian province;

(2) an unexpired state identification card issued by any U.S. state or Canadian province;

(3) an unexpired official passport issued by any nation;

(4) an unexpired United States armed forces identification card issued to any active duty, re-

serve, or retired member and the member's dependents;

(5) an unexpired merchant marine identification card issued by the United States coast guard;

(6) an unexpired state liquor control identification card issued by the liquor control authority of any U.S. state or Canadian province; or

(7) an unexpired enrollment card issued by the governing authority of a federally recognized Indian tribe located in Kansas, if the enrollment card incorporates security features comparable to those used by the Kansas department of revenue for drivers' licenses.

(k) "Zero report" means an electronic data submission reflecting no dispensing activity for a given period.

This regulation shall take effect 90 days after publication in the Kansas register. (Authorized by K.S.A. 65-1692; implementing K.S.A. 2013 Supp. 65-1682; effective Oct. 15, 2010; amended Aug. 13, 2014.)

68-21-2. Electronic reports. (a)(1) Each dispenser shall file a report with the board for scheduled substances, as defined in K.S.A. 65-1682(g) and amendments thereto, and any drugs of concern dispensed in this state or to an address in this state. This report shall be submitted within 24 hours of the time that the substance is dispensed, unless the board grants an extension as specified in subsection (d).

(2) Each dispenser that does not dispense scheduled substances, as defined in K.S.A. 65-1682(g) and amendments thereto, or any drugs of concern in this state or to an address in this state during the reporting period specified in paragraph (a)(1) shall file a zero report with the board. Each zero report shall meet the following requirements:

(A) Cover not more than a seven-day period in which no such drugs were dispensed; and

(B) be filed the day following the end of the period covered by the zero report.

(b) In addition to the requirements of K.S.A. 65-1683 and amendments thereto, each dispenser shall submit the prescriber's name, the patient's telephone number, and the number of refills for the dispensed drug on the report to the board. As an alternative to reporting the dispenser identification number, any dispenser may report the pharmacy DEA number.

(c) Except as specified in K.A.R. 68-21-3, each report required to be submitted pursuant to subsection (a) shall be submitted by secure file trans-

fer protocol in the electronic format established by the American society for automation in pharmacy, dated no earlier than 2007, version 4, release 1.

(d) An extension may be granted by the board to a dispenser for the submission of any report required to be submitted pursuant to subsection (a) if both of the following conditions are met:

(1)(A) The dispenser suffers a mechanical or electronic failure; or

(B) the dispenser cannot meet the deadline established by subsection (a) because of circumstances beyond the dispenser's control.

(2) The dispenser files a written application for extension on a form provided by the board within 24 hours of discovery of the circumstances necessitating the extension request or on the next day the board's administrative office is open for business.

(e) An extension for the filing of a report shall be granted to a dispenser if the board is unable to receive electronic reports submitted by the dispenser.

(f) Each dispenser that is registered or licensed to dispense scheduled substances, as defined in K.S.A. 65-1682(g) and amendments thereto, or any drugs of concern in this state or to an address in this state but does not dispense any of these drugs shall notify the board in writing that the dispenser will not be reporting to the board. If the dispenser begins dispensing scheduled substances, as defined in K.S.A. 65-1682(g) and amendments thereto, or any drugs of concern in this state or to an address in this state, the dispenser shall notify the board of this fact and shall begin submitting reports to the board pursuant to this regulation.

This regulation shall take effect 90 days after publication in the Kansas register. (Authorized by K.S.A. 2013 Supp. 65-1683 and 65-1692; implementing K.S.A. 2013 Supp. 65-1683; effective Oct. 15, 2010; amended April 15, 2011; amended Aug. 13, 2014.)

68-21-3. Waivers for electronic reports.

(a) A waiver may be granted by the board to a dispenser who does not have an automated record-keeping system capable of producing an electronic report as specified in K.A.R. 68-21-2(c) if the following conditions are met:

(1) The dispenser files a written application for a waiver on a form provided by the board.

(2) The dispenser agrees in writing to immediately begin filing a paper report on a form pro-

vided by the board for each drug of concern and each schedule II through IV drug dispensed in this state or dispensed to an address in this state.

(b) A waiver may be granted by the board to a dispenser who has an automated recordkeeping system capable of producing an electronic report as specified in K.A.R. 68-21-2(c) if both of the following conditions are met:

(1) The dispenser files a written application for a waiver on a form provided by the board.

(2)(A) A substantial hardship is created by natural disaster or other emergency beyond the dispenser's control; or

(B) the dispenser is dispensing in a controlled research project approved by a regionally accredited institution of higher education.

(c) If a medical care facility dispenses an interim supply of a drug of concern or a schedule II through IV drug to an outpatient on an emergency basis when a prescription cannot be filled as authorized by K.A.R. 68-7-11, that facility shall be exempt from the reporting requirements. The interim quantity shall not exceed a 48-hour supply and, as described in K.A.R. 68-7-11(d)(2)(B), shall be limited to an amount sufficient to supply the outpatient's needs until a prescription can be filled. (Authorized by K.S.A. 2009 Supp. 65-1692; implementing K.S.A. 2009 Supp. 65-1683; effective Oct. 15, 2010.)

68-21-4. Notice of requests for information. Each dispenser who may access information maintained by the board on each drug of concern and schedule II through IV drug dispensed to one of the dispenser's patients for the purpose of providing medical or pharmaceutical care shall notify the patient of this access to prescription monitoring information by performing either of the following:

(a) Posting an easily viewable sign at the place where prescription orders are issued or accepted for dispensing; or

(b) providing written material about the dispenser's access to prescription monitoring information. (Authorized by K.S.A. 2009 Supp. 65-1692; implementing K.S.A. 2009 Supp. 65-1685; effective Oct. 15, 2010.)

68-21-5. Access to information. All requests for, uses of, and disclosures of prescription monitoring information by authorized persons shall meet the requirements of K.S.A. 65-1685, and amendments thereto, and this article.

(a) By patients or patient's personal representative.

(1) Any patient or that patient's personal representative may obtain a report listing all program information that pertains to the patient, in accordance with this regulation and K.S.A. 65-1685 and amendments thereto.

(2) Each patient or the patient's personal representative seeking access to the information described in paragraph (a)(1) shall submit a written request for information in person to the board. The written request shall be in a format established by the board and shall include the following elements:

(A) The patient's name and, if applicable, the full name of the patient's personal representative;

(B) the patient's residential address and, if applicable, the complete residential address of the patient's personal representative;

(C) the patient's telephone number, if any, and, if applicable, the telephone number of the personal representative; and

(D) the time period for which information is being requested.

(3) The patient or the patient's personal representative shall produce two forms of valid photographic identification before obtaining access to the patient's information obtained by the program. The patient or the patient's personal representative shall allow photocopying of the identification.

(4) Before access to the patient's information obtained by the program is given, one of the following shall be produced if the requester is not the patient:

(A) For a personal representative, an official attested copy of the judicial order granting authority to gain access to the health care records of the patient;

(B) for a parent of a minor child, a certified copy of the birth certificate of the minor child or other official documents establishing legal guardianship; or

(C) for a person holding power of attorney, the original document establishing the power of attorney.

(5) The patient's personal representative shall allow the photocopying of the documents described in this subsection.

(6) The patient authorization may be verified by the board by any reasonable means before providing the information to the personal representative.

(b) By dispensers.

(1) Any dispenser may obtain any program information relating to a patient of the dispenser

for the purpose of providing pharmaceutical care to that patient, in accordance with this regulation and K.S.A. 65-1685 and amendments thereto. The information shall be provided in a format established by the board, which may include delivery by electronic means, facsimile transmission, or telephone.

(2) Each dispenser who seeks access to the information described in paragraph (b)(1) shall submit a written request to the board by mail, hand delivery, or electronic means in a manner established by the board, using authentication. If the authentication is lost or missing or the security of the authentication is compromised, the dispenser shall cause the board to be notified by telephone and in writing as soon as reasonably possible. Information regarding more than one patient may be submitted in a single request.

Each request shall be submitted in a format established by the board and shall include the following elements for each patient:

- (A) The patient's name and birth date;
- (B) if known to the dispenser, the patient's address and telephone number;
- (C) the time period for which information is being requested;
- (D) the dispenser's name;
- (E) if applicable, the name and address of the dispenser's pharmacy;
- (F) the dispenser identification number; and
- (G) the dispenser's signature.

(3) The authentication and identity of the dispenser shall be verified by the board before allowing access to any prescription monitoring information.

(c) By prescribers.

(1) Any prescriber or health care practitioner authorized by a prescriber may obtain any program information relating to a patient under the prescriber's care, in accordance with this regulation and K.S.A. 65-1685 and amendments thereto. The information shall be provided in a format established by the board, which may include delivery by electronic means, facsimile, or telephone.

(2) Each prescriber or health care practitioner authorized by a prescriber who seeks access to program information shall submit a written request to the board by mail, hand delivery, or electronic means in a manner established by the board, using authentication. If the authentication is lost or missing or the security of the authentication is compromised, the prescriber shall cause the board to be notified by telephone and in writ-

ing as soon as reasonably possible. Information regarding more than one patient may be submitted in a single request.

Each request shall be submitted in a format established by the board and shall include the following elements for each patient:

- (A) The patient's name and birth date;
- (B) if known to the prescriber, the patient's address and telephone number;
- (C) the time period for which information is being requested;
- (D) the prescriber's name;
- (E) the name and address of the prescriber's medical practice;
- (F) the prescriber identification number; and
- (G) the prescriber's signature.

(3) The authentication and identity of the dispenser shall be verified before allowing access to any program information.

(d) By director or board investigator of a health professional licensing, certification, or regulatory agency or entity.

(1) Any director or board investigator of a health professional licensing, certification, or regulatory agency or entity may obtain any program information needed in carrying out that individual's business, in accordance with this regulation and K.S.A. 65-1685 and amendments thereto. The information shall be provided in a format established by the board, which may include delivery by electronic means, facsimile, or telephone.

(2) Each director or board investigator of a licensing board with jurisdiction over a dispenser or prescriber who seeks access to program information shall submit a written request by mail, facsimile, or electronic means to a location specified by the board. The written request shall contain a statement of facts from which the board can make a determination of reasonable cause for the request.

(e) By local, state, and federal law enforcement or prosecutorial officials.

(1) Any local, state, or federal law enforcement officer or prosecutorial official may obtain any program information as required for an ongoing case, in accordance with this regulation and K.S.A. 65-1685 and amendments thereto. The information shall be provided in a format established by the board, which may include delivery by electronic means, facsimile, or telephone.

(2) Each local, state, or federal law enforcement officer or prosecutorial official who seeks access to program information shall register with the board. Once registration is approved, the requester may

submit a written request by mail, facsimile, or electronic means to the board. All requests for, uses of, and disclosures of prescription monitoring information by authorized persons under this subsection shall meet the requirements of K.S.A. 65-1685 (c)(4), and amendments thereto.

(f) By the Kansas health policy authority for purposes of the Kansas medicaid and state children's health insurance program (SCHIP).

(1) An authorized representative of the Kansas health policy authority may obtain any program information regarding medicaid or SCHIP program recipients, in accordance with this regulation and K.S.A. 65-1685 and amendments thereto. The information shall be provided in a format established by the board.

(2) Each authorized representative of the Kansas health policy authority seeking program information regarding medicaid or SCHIP program recipients who seeks access to program information shall submit a request to the board.

(g) By any other state's prescription monitoring program.

(1) Any authorized representative from any other state's prescription monitoring program may obtain any program information for requests from within that state that do not violate the authentication and security provisions of the prescription monitoring program act, in accordance with this regulation and K.S.A. 65-1685 and amendments thereto. The information shall be provided in a format established by the board, which may include delivery by electronic means, facsimile, or telephone.

(2) Any authorized representative from another state's prescription monitoring program seeking access to program information shall first establish a data-sharing agreement with the board in which the states agree to share prescription monitoring information with one another. The agreement shall specify what information will be made available and to whom, how requests will be made, how quickly requests will be processed, and in which format the information will be provided.

(h) By public or private entities for statistical, research, or educational purposes.

(1) Any public or private entity may obtain program information, in accordance with this regulation and K.S.A. 65-1685(d) and amendments thereto. The information shall be provided in a format established by the board.

(2) Each public or private entity who seeks access to program information shall submit a writ-

ten request by mail, facsimile, or electronic means to the board. The written request shall contain a statement of facts from which the board can make a determination of reasonable cause for the request. (Authorized by K.S.A. 2009 Supp. 65-1692; implementing K.S.A. 2009 Supp. 65-1685; effective Oct. 15, 2010.)

68-21-6. Reciprocal agreements with other states or government entities to share information. (a) Reciprocal agreements with one or more of the following entities within the United States may be entered into by the board to share program data if the entity's prescription monitoring program is compatible with the program:

- (1) A state, commonwealth, district, or territory;
- (2) a military or veteran health system;
- (3) an Indian health system or service; or
- (4) a city, county, municipality, or township.

(b) In determining the compatibility of the entity's prescription monitoring program, the following may be considered by the board:

- (1) The safeguards for privacy of patient records and the entity's success in protecting patient privacy;
- (2) the persons authorized by the entity to view the data collected by the program;
- (3) the schedules of controlled substances monitored by the entity;
- (4) the data required by the entity to be submitted on each prescription; and
- (5) the costs and benefits to the board of mutually sharing data with the entity.

(c) Any reciprocal agreement may be reviewed annually by the board to determine its continued compatibility with the program. (Authorized by K.S.A. 65-1692; implementing K.S.A. 65-1685; effective Oct. 15, 2010; amended Nov. 29, 2019.)

68-21-7. Drugs of concern. (a) Each of the following shall be classified as a drug of concern:

- (1) Any product containing all three of these drugs: butalbital, acetaminophen, and caffeine;
- (2) any compound, mixture, or preparation that contains any detectable quantity of ephedrine, its salts or optical isomers, or salts of optical isomers and is exempt from being reported to the statewide electronic logging system for the sale of methamphetamine precursors;
- (3) any compound, mixture, or preparation that contains any detectable quantity of pseudoephedrine, its salts or optical isomers, or salts of optical isomers and is exempt from being reported to the

statewide electronic logging system for the sale of methamphetamine precursors;

(4) promethazine with codeine; and

(5) any product, compound, mixture, or preparation that contains gabapentin.

(b) Each request to have a drug added to the program for monitoring shall be submitted in writing to the board.

This regulation shall take effect 90 days after publication in the Kansas register. (Authorized by K.S.A. 2016 Supp. 65-1692; implementing K.S.A. 2016 Supp. 65-1682; effective Oct. 15, 2010; amended Feb. 4, 2015; amended July 25, 2018.)

Article 22.—ELECTRONIC SUPERVISION OF MEDICAL CARE FACILITY'S PHARMACY PERSONNEL

68-22-1. Definitions. (a) "Medical care facility" shall have the meaning provided in K.S.A. 65-1626(w), and amendments thereto.

(b) "Pharmacy student" shall have the meaning provided in K.S.A. 65-1626(ee), and amendments thereto, and shall include a pharmacy intern registered with the board.

(c) "Pharmacy technician" shall have the meaning provided in K.S.A. 65-1626(ff), and amendments thereto.

(d) "Real-time," when used to describe the transmission of information through data, video, and audio links, shall mean that the transmission is sufficiently rapid that the information is available simultaneously to the electronically supervising pharmacist and the pharmacy student or pharmacy technician being electronically supervised in the medical care facility's pharmacy.

(e) "Electronic supervision" shall mean the oversight provided by a pharmacist licensed in Kansas and supervising, by means of real-time communication equipment that meets the operating requirements listed in K.A.R. 68-22-5, a registered pharmacy student or pharmacy technician who is working in a Kansas medical care facility's pharmacy. (Authorized by K.S.A. 65-1630; implementing K.S.A. 2009 Supp. 65-1626, K.S.A. 2009 Supp. 65-1642, K.S.A. 65-1648, and K.S.A. 2009 Supp. 65-1663; effective Nov. 18, 2011.)

68-22-2. Application for approval to utilize electronic supervision. The pharmacist in charge of any medical care facility's pharmacy located in Kansas and registered by the board who wants to seek approval for electronic supervision

of a pharmacy student or pharmacy technician in that medical care facility pharmacy shall submit an application to the board. Each application shall be submitted on a form provided by the board and shall include the following:

(a) Identifying information concerning the applying medical care facility's pharmacy;

(b) the type and operational capabilities of the computer, video, and communication systems to be used for the electronic supervision; and

(c) a copy of the electronic supervision procedures manual and training manual approved by the pharmacist in charge of the medical care facility's pharmacy. (Authorized by K.S.A. 65-1630; implementing K.S.A. 2009 Supp. 65-1626, K.S.A. 2009 Supp. 65-1642, K.S.A. 65-1648, and K.S.A. 2009 Supp. 65-1663; effective Nov. 18, 2011.)

68-22-3. Prior approval and training required. (a) The pharmacist in charge of a medical care facility's pharmacy shall not permit a pharmacy student or pharmacy technician to be in the pharmacy working under electronic supervision unless the pharmacy has a current approval for electronic supervision from the board.

(b) The pharmacist in charge of a medical care facility's pharmacy shall not permit a pharmacy student or pharmacy technician to be in the pharmacy working under electronic supervision before completing the pharmacy's electronic supervision training course. (Authorized by K.S.A. 65-1630; implementing K.S.A. 2009 Supp. 65-1626, K.S.A. 2009 Supp. 65-1642, K.S.A. 65-1648, and K.S.A. 2009 Supp. 65-1663; effective Nov. 18, 2011.)

68-22-4. Electronic supervision. (a) Only a pharmacist licensed by the board may electronically supervise a pharmacy student or pharmacy technician working in a medical care facility's pharmacy.

(b) A pharmacist licensed by the board may be electronically connected to multiple medical care facility pharmacies at one time for the purpose of electronically supervising.

(c) A pharmacist licensed by the board may electronically supervise no more than one pharmacy technician working in any medical care facility's pharmacy at one time.

(d) No more than one pharmacy student or pharmacy technician that is being electronically supervised may work in a medical care facility's pharmacy at one time.

(e) Electronic supervision conducted in conformance with these regulations shall constitute direct supervision. (Authorized by K.S.A. 65-1630; implementing K.S.A. 2009 Supp. 65-1626, K.S.A. 2009 Supp. 65-1642, K.S.A. 65-1648, and K.S.A. 2009 Supp. 65-1663; effective Nov. 18, 2011.)

68-22-5. Minimum operating requirements. (a) A pharmacy student or pharmacy technician may enter the pharmacy without a pharmacist present for purposes of turning on the data, video, or audio links and determining if a pharmacist is available for electronic supervision.

(b) Electronic supervision shall not be permitted if an interruption occurs in any of the data, video, or audio links. Whenever an interruption in any of the data, video, or audio links occurs, no medication order shall be filled or dispensed using electronic supervision.

(c) Data entry may be performed by the electronically supervising pharmacist or the pharmacy student or pharmacy technician being electronically supervised. Each entry performed by an electronically supervised pharmacy student or pharmacy technician shall be verified by the electronically supervising pharmacist before the drug leaves the pharmacy.

(d) All medication orders processed by a pharmacy student or a pharmacy technician being electronically supervised shall be capable of being displayed on a computer terminal at both the location of the electronically supervising pharmacist and the medical care facility's pharmacy. The quality of the image viewed by the pharmacist shall be sufficient for the pharmacist to be able to determine the accuracy of the work of the pharmacy student or pharmacy technician.

(e) All patient demographic information shall be viewable in real time at both the location of

the electronically supervising pharmacist and the medical care facility's pharmacy.

(f) Before a drug leaves the medical care facility's pharmacy, all of the following requirements shall be met:

(1) The electronically supervising pharmacist shall utilize the data, audio, and video links and review the patient profile, the original scanned medication order, and the drug to be dispensed to ensure accuracy.

(2) The supervising pharmacist, pharmacy student, or pharmacy technician shall cause an electronic or paper image of the medication order and the drug, as seen by the electronically supervising pharmacist, to be captured and retained in the electronic or paper records of the medical care facility's pharmacy for the same time period as that required for the written medication order.

(3) The supervising pharmacist, pharmacy student, or pharmacy technician shall cause a paper or electronic record that includes the patient's name, the medication order number, the name of the pharmacy student or pharmacy technician, and the name of the electronically supervising pharmacist to be made.

(4) The pharmacist in charge of the medical care facility's pharmacy shall ensure that controls exist to protect the privacy and security of confidential records.

(5) The supervising pharmacist, pharmacy student, or pharmacy technician shall cause a permanent digital record of all duties electronically supervised and all data transmissions associated with the electronic supervision to be made. Each record shall be maintained for at least five years. (Authorized by K.S.A. 65-1630; implementing K.S.A. 2009 Supp. 65-1626, K.S.A. 2009 Supp. 65-1642, K.S.A. 65-1648, and K.S.A. 2009 Supp. 65-1663; effective Nov. 18, 2011.)

Agency 69

Kansas State Board of Cosmetology

Editor's Note:

Effective July 1, 2002, rules and regulations which establish sanitation standards are under the Kansas Department of Health and Environment. See. L. 2002, ch. 187, sec. 18.

Articles

- 69-1. LICENSING AND QUALIFICATIONS OF COSMETOLOGISTS.
- 69-3. SCHOOLS.
- 69-11. FEES.
- 69-12. TANNING FACILITIES.
- 69-13. INSPECTIONS.
- 69-15. TATTOOING, BODY PIERCING, AND PERMANENT COSMETICS.

Article 1.—LICENSING AND QUALIFICATIONS OF COSMETOLOGISTS

69-1-10. Potentially disqualifying civil and criminal records; advisory opinion; fee.

(a) Conviction of any felony may disqualify an applicant from receiving a license.

(b) Civil records that may disqualify an applicant from receiving a license shall be any records of any court judgment or settlement in which the applicant admitted or was found to have engaged in conduct that would constitute a violation of any practice act under the jurisdiction of the board or any of the board's regulations. Those records shall not be used to disqualify an applicant for more than five years after the applicant satisfied any judgment or restitution ordered by the court or agreed to in the settlement.

(c) Any individual with a criminal or civil record described in this regulation may submit a petition to the board for an informal, advisory opinion concerning whether the individual's civil or criminal record may disqualify the individual from licensure. Each petition shall include the following:

- (1) The details of the individual's civil or criminal record, including a copy of court records or the settlement agreement;
- (2) an explanation of the circumstances that resulted in the civil or criminal record; and
- (3) a check or money order in the amount of \$50.00. (Authorized by K.S.A. 74-120 and 74-2702a; implementing K.S.A. 65-1908, 74-120, and 74-5806; effective Feb. 15, 2019.)

Article 3.—SCHOOLS

69-3-27. Disenrolled students. On or before the 10th day of each month, each school administrator shall submit to the board, on a form provided by the board, a list of each student who has been disenrolled in the previous month. The list shall include the following information for each disenrolled student:

- (a) The name;
- (b) the apprentice license number;
- (c) the date of birth;
- (d) the total number of hours earned; and
- (e) the social security number, to be used for administrative purposes as authorized by K.S.A. 74-148 and amendments thereto. (Authorized by K.S.A. 2012 Supp. 65-1903 and K.S.A. 74-2702a; implementing K.S.A. 2012 Supp. 65-1903; effective March 22, 1996; amended Feb. 14, 2014.)

69-3-29. Monthly reporting of student hours. Each school administrator shall submit to the board a record of the number of hours earned in the previous month and the total number of hours accumulated through the previous month by each student, on a form approved by the board. The record shall include each student's name, address, and apprentice license number and shall be submitted no later than the 10th day of each month. (Authorized by K.S.A. 2012 Supp. 65-1903 and K.S.A. 74-2702a; implementing K.S.A. 2012 Supp. 65-1903; effective Feb. 14, 2014.)

Article 11.—FEES

69-11-1. Fees. The following fees shall be charged:

Cosmetologist examination fee.....	\$75.00
Cosmetologist license application fee	60.00
Cosmetologist license renewal fee.....	50.00
Delinquent cosmetologist renewal fee.....	25.00
Cosmetology technician license renewal fee.....	45.00
Delinquent cosmetology technician renewal fee	25.00
Electrologist examination fee	75.00
Electrologist license application fee.....	60.00
Electrologist license renewal fee.....	50.00
Delinquent electrologist renewal fee	25.00
Manicurist examination fee.....	75.00
Manicurist license application fee	60.00
Manicurist license renewal fee	50.00
Delinquent manicurist renewal fee.....	25.00
Esthetician examination fee.....	75.00
Esthetician license application fee	60.00
Esthetician license renewal fee	50.00
Delinquent esthetician renewal fee.....	25.00
Instructor-in-training permit fee	15.00
Instructor examination fee	75.00
Instructor license application fee	75.00
Instructor license renewal fee	50.00
Delinquent instructor renewal fee	25.00
Any apprentice license application fee.....	15.00
New school license application fee.....	150.00
School license renewal fee	75.00
Delinquent school license fee.....	30.00
New salon or clinic application fee.....	60.00
Salon or clinic renewal fee	50.00
Delinquent salon or clinic renewal fee.....	30.00
Reciprocity application fee	75.00
Verification of licensure fee	20.00
Fee for any duplicate license	25.00
Temporary permit fee	15.00

(Authorized by K.S.A. 2015 Supp. 65-1904 and K.S.A. 74-2702a; implementing K.S.A. 2015 Supp. 65-1904; effective, E-76-44, Sept. 5, 1975; effective Feb. 15, 1977; amended May 1, 1978; amended May 1, 1981; amended May 1, 1982; amended, T-83-21, July 21, 1982; amended May 1, 1983; amended May 1, 1984; amended, T-88-60, Dec. 28, 1987; amended May 1, 1988; amended Jan. 1, 1993; amended Dec. 13, 1993; amended March 22, 1996; amended Nov. 6, 1998; amended April 3, 2009; amended Feb. 14, 2014; amended Sept. 18, 2015; amended Jan. 6, 2017.)

69-11-2. Expiration dates for practitioner licenses. Each cosmetologist license, esthetician license, electrologist license, and manicurist license shall expire two years from the last day of

the month in which the license was issued. (Authorized by K.S.A. 2012 Supp. 65-1904 and K.S.A. 74-2702a; implementing K.S.A. 2012 Supp. 65-1904; effective, T-83-21, July 21, 1982; effective May 1, 1983; amended March 22, 1996; amended Feb. 14, 2014.)

Article 12.—TANNING FACILITIES

69-12-3. Expiration of licenses; renewals; reinstatements. (a) Each tanning facility license shall expire one year from the last day of the month of its issuance unless renewed by payment of the annual renewal fee.

(1) Each application for renewal of a tanning facility license shall be postmarked on or before the expiration date of the current license.

(2) Each application for renewal of a tanning facility license shall be submitted on forms approved by the board and shall be accompanied by the applicable fee.

(b) Any tanning facility operator may renew the tanning facility license within 60 days after the expiration date of the prior license upon payment of the delinquent renewal fee.

(c) Any tanning facility operator may reinstate a tanning facility license within one year of the expiration date of the prior license upon payment of the reinstatement fee. (Authorized by K.S.A. 65-1925; implementing K.S.A. 2011 Supp. 65-1926; effective Dec. 13, 1993; amended Nov. 9, 2012.)

69-12-5. Fees. The following fees shall be charged:

New tanning facility license fee.....	\$100.00
Annual renewal fee.....	\$75.00
Delinquent renewal fee	\$100.00
Reinstatement fee	\$200.00

(Authorized by K.S.A. 2012 Supp. 65-1926 and K.S.A. 74-2702a; implementing K.S.A. 2012 Supp. 65-1926; effective Dec. 13, 1993; amended Feb. 14, 2014.)

69-12-18. Access to tanning devices. Each tanning facility operator shall verify that each consumer accessing any tanning device in the tanning facility is at least 18 years of age. Verification shall be obtained by viewing a current state or U.S. government-issued photo identification that includes the consumer's date of birth. (Authorized by and implementing K.S.A. 2016 Supp. 65-1931; effective Jan. 6, 2017.)

Article 13.—INSPECTIONS

69-13-4. Refusal to allow inspection. Refusal to allow, or interference with, any inspection by the board or its designees shall constitute a cause for disciplinary action. (Authorized by K.S.A. 74-2702a; implementing K.S.A. 65-1907; effective Nov. 9, 2012.)

Article 15.—TATTOOING, BODY PIERCING, AND PERMANENT COSMETICS

69-15-1. Definitions. Each of the following terms, as used in this article, shall have the meaning specified in this regulation:

(a) “Antiseptic” means a chemical germicide used on skin and tissue to stop or inhibit the growth of bacteria.

(b) “Clean” means washed with soap or detergent to remove all soil and dirt.

(c) “Closed-book” means without aid from or availability of written material, including materials stored or accessed on an electronic device.

(d) “Completed procedure” means, for the purposes of determining qualification for licensure, a tattoo or piercing that has been finished, including any touchups or additional work following initial healing, with the client released from service.

(e) “Conch,” when used to describe an ear piercing, means the piercing of the concha, which is the deep, bowl-shaped central shell of the ear.

(f) “Disinfectant” means an agent used on inanimate surfaces that is intended to destroy or irreversibly inactivate specific viruses, bacteria, or pathogenic fungi.

(g) “Enclosed storage area” means a separate room, closet, cupboard, or cabinet.

(h) “Establishment” means tattoo establishment, body piercing establishment, or cosmetic tattooing establishment.

(i) “Equivalent” means comparable but not identical, and covering the same subject matter.

(j) “Gross incompetence” means a demonstrated lack of ability, knowledge, or fitness to effectively or safely perform services for which one is licensed.

(k) “Infectious or contagious disease” means any disease that is diagnosed by a licensed health care professional as being contagious or transmissible, as designated in K.A.R. 28-1-2, and that could be transmitted during the performance of cosmetic tattooing, tattooing, or body piercing.

Blood-borne diseases, including acquired immune deficiency syndrome or any causative agent thereof, hepatitis B, hepatitis C, and any other disease not transmitted by casual contact, shall not constitute infectious or contagious diseases for the purpose of this article.

(l) “Instruments” means needles, probes, forceps, hemostats, or tweezers.

(m) “Labret,” when used to describe a piercing, means the piercing of the lips or the area immediately around the lips.

(n) “Linens” means cloths or towels used for draping or protecting a table or similar functions.

(o) “Lower labret,” when used to describe a piercing, means the piercing of the lower lip or the area immediately around the lower lip.

(p) “Needle” has the meaning specified in K.S.A. 65-1940, and amendments thereto.

(q) “Needle bar” means the metal device used to attach the needle to a tattoo machine.

(r) “Official transcript” means a document certified by a school accredited by the Kansas board of regents or equivalent regulatory institution in another state or jurisdiction, indicating the hours and types of coursework, examinations, and scores that were completed by a student.

(s) “Piercing gun” means a hand-held tool manufactured exclusively for piercing the earlobe, into which studs and clutches are placed and inserted into the earlobe by a hand-squeezed or spring-loaded action to create a permanent hole. The tool shall be made of plastic, stainless steel, or a disposable material.

(t) “Place or places of business” means each name, mailing address, and location, not a post office box, where the licensee or applicant for license performs services.

(u) “Protective gloves” means gloves made of nitrile or latex.

(v) “Public view” means open to view and easy for the public to see.

(w) “Repigmentation” means any of the following:

(1) Recoloration of the skin as a result of any of the following:

(A) Dermabrasion, chemical peels, removal or resolution of birthmarks, vitiligo, or other skin conditions that result in the loss of melanin to the skin;

(B) scars resulting from surgical procedures, including face-lifts, mole or wart removal, or cauterization; or

(C) burn grafts and other skin irregularities resulting from burns or photo damage;

(2) recreation of an areola or nipple, following mastectomy; or

(3) use of cheek blush or other blending of pigments into skin in order to camouflage blotchy or irregularly pigmented skin.

(x) "Rook," when used to describe an ear piercing, means the piercing of the upper portion of the antihelix.

(y) "Sanitization" means effective bactericidal treatment by a process that reduces the bacterial count, including pathogens, to a safe level on equipment.

(z) "Sharps" means any object that can penetrate the skin, including needles, scalpel blades, lancets, glass tubes that could be broken during handling, razors, and syringes that have been removed from their original, sterile containers.

(aa) "Sharps container" means a puncture-resistant, leakproof container that can be closed for handling, storage, transportation, and disposal. The container shall be red and shall be labeled with the "biohazard" symbol.

(bb) "Single-use," when used to describe products or items, means that the products or items, including cotton swabs or balls, tissues or paper products, paper or plastic cups, gauze, and sanitary coverings, are disposed of after each use.

(cc) "Snug," when used to describe an ear piercing, means the horizontal piercing of the vertical portion of the antihelix.

(dd) "Sterilization" means destruction of all forms of microbiotic life, including spores.

(ee) "Universal precautions" means a method of infection control approved by the United States centers for disease control and prevention (CDC), in which all human blood and certain bodily fluids are handled as if the blood and bodily fluids were known to be infected with a blood-borne pathogen. (Authorized by K.S.A. 2014 Supp. 65-1946 and K.S.A. 74-2702a; implementing K.S.A. 2014 Supp. 65-1946 and 65-1949; effective Aug. 22, 1997; amended June 6, 2014; amended Sept. 18, 2015.)

69-15-3. Cosmetic tattoo artist trainer, tattoo artist trainer, and body piercing trainer. (a) Each applicant for licensure as a cosmetic tattoo artist trainer, tattoo artist trainer, or body piercing trainer shall apply on forms provided by the board and accompanied by the following:

- (1) The nonrefundable trainer license fee;
- (2) a valid Kansas cosmetic tattoo artist, body piercer, or tattoo artist license number;

(3) documentation outlining the proposed training syllabus, which shall meet the requirements of K.A.R. 69-15-2(a), (b), or (c);

(4) the name and address of the licensed establishment where training will be provided; and

(5) verification of five years of full-time, active practice, consisting of at least 1,500 hours per year, as a licensed cosmetic tattoo artist, tattoo artist, or body piercer in any state.

(b) In addition to meeting the requirements in subsection (a), each applicant seeking approval as an advanced body piercing trainer shall be licensed as an advanced body piercer. (Authorized by K.S.A. 74-2702a; implementing K.S.A. 2012 Supp. 65-1943, 65-1948, and 65-1950; effective Aug. 22, 1997; amended Feb. 14, 2014.)

69-15-4. Out-of-state equivalent course of study. Each applicant who has completed a training program in another state or jurisdiction shall show that all of the following conditions are met, for that training program to be approved by the board:

(a) During the applicant's participation in the training program, the trainer was licensed and in good standing as a cosmetic tattoo artist, tattoo artist, or body piercer in the state or jurisdiction where the training occurred.

(b) The applicant completed the training program under the direct supervision of the trainer or in a school.

(c) The training program covered the areas of theory and practical experience specified in K.A.R. 69-15-2. If the training program completed in another state or jurisdiction included hours allotted to studying the laws and regulations of that state or jurisdiction, those hours may count toward the required number of hours allotted to studying Kansas statutes and regulations.

(d) The training program included the total number of hours of theory and practical experience and the number of completed procedures specified in K.A.R. 69-15-2. (Authorized by K.S.A. 2012 Supp. 65-1949 and K.S.A. 74-2702a; implementing K.S.A. 2012 Supp. 65-1948 and 65-1949; effective Aug. 22, 1997; amended Feb. 14, 2014.)

69-15-5. Application for licensure by examination. (a) Before issuance of a license, each applicant for tattoo, cosmetic tattoo, or body piercing licensure shall have passed an examination as specified in K.A.R. 69-15-7.

(b) Each applicant for the tattoo, cosmetic tat-

too, or body piercing examination shall apply on forms provided by the board and accompanied by the following:

(1) The nonrefundable examination application fee, the written examination fee, and the practical examination fee;

(2) verification of the applicant's date of birth, including a copy of a valid driver's license, passport, or birth certificate;

(3) verification of the applicant's graduation from an accredited high school or completion of equivalent education, which shall mean any of the following:

(A) A general education development (GED) credential;

(B) proof of program completion and hours of instruction at a nonaccredited private secondary school registered with the state board of education of Kansas, or of the state in which instruction was completed;

(C) proof of a score in at least the 50th percentile on either the American college test (ACT) or the scholastic aptitude test (SAT); or

(D) proof of admission to a postsecondary state educational institution accredited by the Kansas state board of regents or by another accrediting body having minimum admission standards at least as stringent as those of the Kansas state board of regents;

(4) verification of the applicant's completion of eight hours of continuing education in infection control and blood-borne pathogens within the previous 12-month period, in addition to the infection control requirements of the training program; and

(5) an official transcript from a school of cosmetic tattooing, tattooing, or body piercing, or a final operating report from a licensed trainer providing direct supervision of the applicant, documenting the applicant's completion of a training program equivalent to the requirements of K.A.R. 69-15-2. (Authorized by K.S.A. 74-2702a; implementing K.S.A. 2012 Supp. 65-1943 and 65-1948; effective Aug. 22, 1997; amended Feb. 14, 2014.)

69-15-7. Examination for cosmetic tattoo artists, tattoo artists, or body piercers. (a) The examinations for tattoo, cosmetic tattoo, and body piercing shall consist of both a written examination and a practical examination on safety, sanitation, and standards of practice.

(b) The examinations shall test the applicant's knowledge of the following areas:

(1) Basic principles of safety, sanitation, and sterilization;

(2) Kansas laws and regulations;

(3) chemical use and storage;

(4) diseases and disorders including skin disease, HIV, hepatitis B, and infectious or contagious diseases;

(5) equipment, supplies, tools, and implements;

(6) practice standards;

(7) establishment standards; and

(8) definitions.

(c) The written examination shall consist of no more than 150 multiple-choice questions and shall not exceed two hours in duration. The examination shall be closed-book and shall be presented and conducted in English. The examination shall consist of two sections, with one section composed entirely of questions related to Kansas law.

(d) To test the applicant's knowledge of infection-control practices and practice standards, the practical examination shall evaluate the following:

(1) A setup for an actual procedure;

(2) a mock demonstration of a procedure; and

(3) a demonstration of the clean-up process for a procedure.

(e) To be eligible for licensure, each applicant shall attain a score of at least 75 percent on each section of the written examination and a score of at least 75 percent on the practical examination. (Authorized by K.S.A. 2012 Supp. 65-1943 and 65-1948 and K.S.A. 74-2702a; implementing K.S.A. 2012 Supp. 65-1943 and 65-1948; effective Aug. 22, 1997; amended Feb. 14, 2014.)

69-15-12. Continuing education for license renewal. Each licensed cosmetic tattoo artist, tattoo artist, and body piercer shall participate in continuing education according to the following requirements:

(a) Each individual shall biennially complete five clock-hours, either as one unit or a combination of units, not less than one hour each. Each individual who fails to renew the license before its expiration shall meet the additional continuing education requirements pursuant to K.S.A. 65-1943, and amendments thereto.

(b) Continuing education courses shall be of the same subject matter relating to the practice as the required curricula for training as a cosmetic tattoo artist, tattoo artist, and body piercer and shall consist of either of the following:

(1) Participation in or attendance at an instructional program approved by the board; or

(2) attendance at a meeting of the board, comprising up to one hour of the total requirement, which shall not include the public comment portion of the meeting.

(c) Each licensee seeking credit for attendance at or participation in an educational program that was not previously approved by the board shall submit to the board a request for credit, which shall include the following information:

- (1) The location of the program;
- (2) the date of the program;
- (3) the start and end times of the program;
- (4) a detailed description of the subject covered;
- (5) the name of each instructor and the instructor's qualifications; and
- (6) a sign-in sheet or certificate of attendance, which shall include the date, the program title, and the signature of the instructor.

(d) A license shall not be renewed without the board's receipt and approval of the individual's continuing education as required by K.A.R. 69-15-13. (Authorized by K.S.A. 2012 Supp. 65-1945 and K.S.A. 74-2702a; implementing K.S.A. 2012 Supp. 65-1943 and 65-1945; effective Aug. 22, 1997; amended Feb. 14, 2014.)

69-15-13. Reporting continuing education. (a) Each tattoo licensee, cosmetic tattoo licensee, and body piercing licensee shall submit to the board the renewal application, renewal fee, and proof of five clock-hours of the required continuing education as a condition of renewal biennially. Proof of completion of the required continuing education shall consist of either of the following:

- (1) Submission to the board of evidence documenting attendance at a meeting of the board; or
- (2) submission to the board of a certificate of completion or verification, issued by the sponsoring organization or person, of attendance in a course, program, seminar, or lecture and showing the name of the sponsor, the title of the presentation, a description of its content, the name of the instructor or presenter, the date, the duration of the presentation in clock-hours, and any supplemental documentation to support that the sponsor and subject matter meet the requirements and relate to the practice as stated in K.A.R. 69-15-2.

(b)(1) The five clock-hours of continuing education shall be accumulated only in the most recent renewal period. The licensee shall retain the proof of continuing education until submitting the proof to the board at the time of renewal.

(2) Hours of continuing education in excess of the requirement for renewal shall not be carried forward. (Authorized by K.S.A. 74-2702a; implementing K.S.A. 2012 Supp. 65-1943 and 65-1945; effective Aug. 22, 1997; amended Feb. 14, 2014.)

69-15-14. Cosmetic tattoo, tattoo, and body piercing establishment licensing and renewal. (a) Each applicant for an establishment license shall meet the following requirements before opening the establishment for business:

- (1) Apply on a form approved by the board and pay the nonrefundable establishment license fee;
- (2) comply with all applicable regulations of the board;
- (3) certify that the application information is correct; and
- (4) provide a map or directions for locating the establishment, if the establishment is in a rural or an isolated area.

(b) Each establishment license shall expire one year from the last day of the month in which the license was issued.

(c) Each establishment license holder shall be responsible for the cleanliness and sanitation of any common area of separately licensed establishments on the premises. Each violation found in the common area shall be cited against all establishment licenses issued and posted on the premises.

(d) Each establishment license holder shall meet the following requirements:

- (1) Allow a board inspector to inspect the establishment when it is open for business;
- (2) not impede the normal progress of the inspection; and
- (3) prevent employees from impeding the normal progress of the inspection.

(e) Establishment licenses shall not be transferable to a new location.

(f) The ownership of establishment licenses shall not be transferred. A partial change in the ownership of any establishment license may be allowed if at least one original owner remains.

(g) Each establishment licensee shall notify the board in writing and surrender the establishment license within 10 days of closure of the establishment.

(h)(1) Each applicant wanting to renew the establishment license shall submit an application and the establishment renewal fee before the expiration date of the current establishment license.

(2) Any establishment licensee may renew the establishment license within 60 days after the ex-

piration date of the prior establishment license upon submission of an application and payment of the establishment renewal fee and the delinquent establishment fee. (Authorized by K.S.A. 74-2702a; implementing K.S.A. 2014 Supp. 65-1944, 65-1948, and 65-1950; effective Aug. 22, 1997; amended Feb. 14, 2014; amended Sept. 18, 2015.)

69-15-15. Cosmetic tattoo artist, tattoo artist, and body piercer practice standards; restrictions. (a) Cosmetic tattoo artists, tattoo artists, and body piercers shall not practice at any location other than a licensed establishment.

(b) Each licensee shall keep an individual record of each client for at least five years. Each record shall include the name and address of the client, the date and duration of each service, the type of identification presented, and the type of services provided.

(c) Each licensee shall give preservice information in written form to the client to advise of possible reactions, side effects, potential complications of the tattooing process, and any special instructions relating to the client's medical or skin conditions, including the following:

- (1) Diabetes;
- (2) allergies;
- (3) cold sores and fever blisters;
- (4) epilepsy;
- (5) heart conditions;
- (6) hemophilia;
- (7) hepatitis;
- (8) HIV or AIDS;
- (9) medication that thins the blood;
- (10) moles or freckles at the site of service;
- (11) psoriasis or eczema;
- (12) pregnant or nursing women;
- (13) scarring; and
- (14) any other medical or skin conditions.

(d) Each licensee shall give aftercare instructions to the client, both verbally and in writing after every service.

(e) Each licensee providing tattoo or cosmetic tattoo services for corrective procedures shall take photographs before and after service. These photographs shall be maintained according to subsection (b).

(f) Each licensee shall purchase ink, dyes, or pigments from a supplier or manufacturer. No licensee shall use products banned or restricted by the United States food and drug administration (FDA) for use in tattooing and permanent color.

(g) A licensee shall not perform tattooing or body piercing for any of the following individuals:

(1) A person who is inebriated or appears to be incapacitated by the use of alcohol or drugs;

(2) any person who shows signs of recent intravenous drug use;

(3) a person with sunburn or other skin diseases or disorders, including open lesions, rashes, wounds, or puncture marks; or

(4) any person with psoriasis or eczema present in the treatment area.

(h) Use of the piercing gun to pierce shall be prohibited on all parts of the body, except the ear lobe.

(i) Use of personal client jewelry or any apparatus or device presented by the client for use during the initial body piercing shall be prohibited. Each establishment shall provide presterilized jewelry, apparatuses, or devices, which shall have metallic content recognized as compatible with piercing services.

(j) No licensee afflicted with an infectious or contagious disease, as defined in K.A.R. 69-15-1, shall be permitted to work or train in a school or an establishment.

(k) No school or establishment shall knowingly require or permit a student or licensee to provide tattooing, cosmetic tattooing, or body piercing services for a person who has any infectious or contagious disease, as defined in K.A.R. 69-15-1. (Authorized by K.S.A. 2012 Supp. 65-1946 and K.S.A. 74-2702a; implementing K.S.A. 2012 Supp. 65-1946; effective Aug. 22, 1997; amended Feb. 14, 2014.)

69-15-17. Required equipment. (a) Each cosmetic tattoo artist or tattoo artist shall maintain the following equipment at the establishment:

(1) A tattoo machine or hand pieces of nonporous material that can be sanitized;

(2) stainless steel or carbon needles and needle bars;

(3) stainless steel, brass, or medical-grade plastic tubes that can be sterilized;

(4) sterilization bags with color strip indicators, if the establishment does not use disposable implements;

(5) single-use protective gloves;

(6) single-use razors or straight razors;

(7) single-use towels, tissues, or paper products;

(8) a sharps container and biohazard waste bags;

(9) approved inks, dyes, and pigments, as required by K.A.R. 69-15-15;

- (10) approved equipment for cleaning and sterilizing instruments at the establishment, as required by K.A.R. 69-15-18 and 69-15-20;
- (11) spore tests, as required by K.A.R. 69-15-20; and
- (12) body arts industry-accepted ointment or lubricant.
- (b) Each body piercer shall maintain the following equipment at the establishment:
 - (1) Single-use stainless steel needles;
 - (2) sterilization bags with color strip indicators, if the establishment does not use disposable implements;
 - (3) single-use protective gloves;
 - (4) single-use towels, tissues, or paper products;
 - (5) a sharps container and biohazard waste bags;
 - (6) approved equipment for cleaning and sterilizing instruments, as required by K.A.R. 69-15-18 and 69-15-20;
 - (7) a piercing table or chair of nonporous material that can be sanitized;
 - (8) a covered trash receptacle;
 - (9) spore tests, as required by K.A.R. 69-15-20;
 - (10) forceps that can be sterilized;
 - (11) pliers of various sizes, made of material that can be sterilized;
 - (12) bleach or hard-surface disinfectants;
 - (13) antibacterial hand soap;
 - (14) jewelry disinfectant; and

(15) body arts industry-accepted ointment or lubricant. (Authorized by K.S.A. 2012 Supp. 65-1946 and K.S.A. 74-2702a; implementing K.S.A. 2012 Supp. 65-1946; effective Aug. 22, 1997; amended Feb. 14, 2014.)

69-15-30. Fees. The following fees shall be charged:

Examination fees	
Examination application.....	\$50.00
Written examination.....	75.00
Practical examination	75.00
Practitioner fees	
Apprentice license.....	15.00
Initial license application	50.00
License renewal.....	50.00
Trainer license	15.00
Delinquent license	25.00
Renewal application	100.00
Duplicate license.....	25.00
Establishment license fees	
Establishment license application	50.00
Establishment license renewal	50.00
Delinquent establishment.....	30.00
Duplicate license.....	25.00

(Authorized by K.S.A. 2014 Supp. 65-1950 and K.S.A. 74-2702a; implementing K.S.A. 2014 Supp. 65-1943 and 65-1950; effective Aug. 22, 1997; amended June 6, 2014; amended Sept. 18, 2015.)
