

2020 Supplement

to the

Kansas Administrative Regulations

VOLUMES 1 THROUGH 5
AGENCIES 1 THROUGH 133

Compiled and Published by the Office of the Secretary of State of Kansas
SCOTT SCHWAB, Secretary of State

UNDER AUTHORITY OF K.S.A. 77-415 et seq.

The 2020 Supplement to the Kansas Administrative Regulations contains rules and regulations filed after December 31, 2008 and before January 1, 2020.

The 2009 Volumes of the Kansas Administrative Regulations contain regulations filed before January 1, 2009.

AUTHENTICATION OF RULES AND REGULATIONS

THIS IS TO CERTIFY That we, Derek Schmidt, Attorney General of and for the State of Kansas, and Scott Schwab, Secretary of State of and for the State of Kansas, pursuant to K.S.A. 77-429 have examined and compared this 2020 Supplement to the Kansas Administrative Regulations; and do hereby certify that this publication of rules and regulations contains all rules and regulations for agencies 1 through 133 approved for printing by the State Rules and Regulations Board subsequent to the publication of the corresponding bound volumes of the 2009 Kansas Administrative Regulations and otherwise complies with K.S.A. 77-415 et seq. and acts amendatory thereof.

Done at Topeka, Kansas, this 1st day of November, 2020.

DEREK SCHMIDT,
Attorney General

SCOTT SCHWAB,
Secretary of State

[SEAL]

EXPLANATORY PREFACE

This volume has been compiled and published in accordance with K.S.A. 77-430a and other applicable laws.

ARRANGEMENT OF RULES AND REGULATIONS

Administrative rules and regulations of the various state agencies are arranged in accordance with a three-part system of numbers divided by hyphens. The first number indicates the agency; the second number indicates the article (a group of regulations of such agency upon the same subject); the last number indicates the specific section or regulation within the article. For example, “1-4-11” refers to agency No. 1, article No. 4 and section No. 11.

The law requires that agencies cite the statutory authority for the regulation and the section(s) of the statutes which the regulation implements. This is published at the end of the text of the regulation. In addition, the Secretary of State includes a history of the regulation which indicates the original effective date of the regulation and each subsequent amendment.

SALES

Volumes of the Kansas Administrative Regulations are sold by the Elections/Legislative Matters Division of the Office of the Secretary of State, First Floor, Memorial Hall, 120 SW 10th Ave., Topeka, KS 66612-1594, 785-296-4557.

SCOTT SCHWAB, *Secretary of State*

COMMENTARY

This volume has been compiled and published in accordance with K.S.A. 77-430a and other applicable laws.

The 2020 Supplement contains rules and regulations filed after December 31, 2008 and before January 1, 2020. Regulations filed before January 1, 2009, are printed in the 2009 Kansas Administrative Regulations, Volumes 1-5. Regulations filed on and after January 1, 2020, may be located by checking the Kansas Register, Kansas' official state newspaper. An index appears at the back of each Kansas Register and lists the volume and page number of the Register issue that contains the most recent version of the regulations filed after December 31, 2019.

To find the most recent version of a regulation:

First, check the table of contents in the most current issue of the Kansas Register

Then, check the Index to Regulations in the most current Kansas Register

Next, check the current K.A.R. Supplement

Finally, check the current K.A.R. Volume

If the regulation is found at any of these steps, stop. Consider that version the most recent. The most current regulations, proposed regulations open for public comment, and published regulations with a future effective date may also be found in the online K.A.R. at https://sos.ks.gov/publications/pubs_kar.aspx.

To determine the authorizing and implementing statute(s), the effective date, or to see when a regulation was amended or revoked, check the history found at the end of each regulation. The authorizing and implementing statute(s) are listed first followed by any subsequent action. For example, in "amended, T-7-12-11-90, Dec. 31, 1990" the "T" means temporary, the "7" is the number assigned to the agency in the K.A.R. volumes, and 12-11-90 is the date that the regulation was filed. Following the last comma is the effective date. Therefore, the amendment was filed as a temporary regulation on December 11, 1990, and the amendment became effective on December 31, 1990. A temporary regulation becomes effective upon approval by the State Rules and Regulations Board and filing in the Secretary of State's Office or at a later date when specified in the body of the regulation. A temporary regulation lasts 120 days unless it is amended or revoked within 120 days. If the "T number" is not included in an action on a regulation, the regulation was filed as a permanent regulation. A permanent regulation is effective 15 days following publication in the Kansas Register or at a later date specified in the body of the regulation. Prior to July 1, 1995, a permanent regulation became effective 45 days following publication in the Kansas Register or at a later date specified in the body of the regulation. The regulation remains in effect until amended or revoked.

Any questions regarding the publication or use of the K.A.R.s or questions regarding the regulation filing procedure may be directed to the Kansas Administrative Regulations Editor at 785-296-0082. For purchasing inquiries call 785-296-4557. Questions concerning the subject matter of a regulation should be directed to the agency administering the regulation.

To receive a copy or subscribe to the Kansas Register, write to the Secretary of State's Office, Kansas Register, First Floor, Memorial Hall, 120 SW 10th Ave., Topeka, KS 66612, or call 785-368-8095. You may also view the Register online at https://sos.ks.gov/publications/pubs_kansas_register.asp.

Article 2.—DEFINITIONS

1-2-64. Probationary employee. “Probationary employee” means any individual serving a probationary period pursuant to K.A.R. 1-7-4 (a) or (d). (Authorized by K.S.A. 75-3706 and K.S.A. 2008 Supp. 75-3747; implementing K.S.A. 75-2943, 75-2946, 75-3707, and 75-3746; effective Sept. 25, 2009.)

1-2-65. Probationary status. “Probationary status” means the status of an employee serving a probationary period pursuant to K.A.R. 1-7-4 (a) or (d). (Authorized by K.S.A. 75-3706 and K.S.A. 2008 Supp. 75-3747; implementing K.S.A. 75-2938, 75-2943, 75-2946, 75-3707, and 75-3746; effective May 1, 1979; amended Sept. 25, 2009.)

1-2-74. Administrative leave. “Administrative leave” shall mean leave with pay that is approved by the appointing authority for an employee pending the outcome of an investigation of that employee under K.A.R. 1-9-19 or for other situations in which the appointing authority determines that administrative leave is in the best interests of the state. (Authorized by K.S.A. 2014 Supp. 75-2949 and 75-3747; implementing K.S.A. 2014 Supp. 75-2949, K.S.A. 75-3707, and K.S.A. 75-3746; effective Oct. 1, 1999; amended June 5, 2005; amended Jan. 6, 2017.)

Article 6.—RECRUITING AND STAFFING

1-6-23. Reemployment. (a)(1) Except as provided in subsection (b), each employee who is laid off, or demoted or transferred in lieu of layoff, shall be placed in a reemployment pool by the director, unless the employee requests in writing to not be placed in the reemployment pool. Each employee in the reemployment pool shall be eligible to apply for any vacancy to be filled, including any internal vacancy, until the date the employee is reemployed or for three years from the date of the layoff, whichever occurs first.

(2) Each employee who is eligible for reemployment and who is also a veteran shall be offered an interview for any vacancy that meets all of the following conditions:

(A) The vacancy is for a regular position in the classified service.

(B) The vacant position is at the same pay grade or a lower pay grade than the pay grade at which the individual was paid at the time the individual received the notice of layoff.

(C) The employee meets the minimum requirements for the position.

(b)(1) Each individual who meets all of the following conditions shall be eligible for the Kansas employee preference program, as provided in this subsection:

(A) The individual received a written layoff notice in accordance with K.A.R. 1-14-9.

(B) The individual's most recent performance rating before receiving the layoff notice was "meets expectations" or better.

(C) The individual was not suspended, demoted, or terminated pursuant to K.S.A. 75-2949, and amendments thereto, in the 12 months preceding the date on which the individual received the layoff notice.

(2) Each individual who qualifies under paragraph (b)(1) shall remain eligible for the Kansas employee preference program until any of the following events occurs:

(A) The individual is appointed to a classified or unclassified position that is eligible for benefits.

(B) An eligible individual who was laid off or is scheduled to be laid off from a regular position that was not eligible for benefits chooses to use the Kansas employee preference for any position, whether that position is eligible for benefits, and the individual then is appointed to that position.

(C) A period of 12 consecutive months has passed since the effective date of the layoff. Each individual who is eligible for the Kansas employee preference program but has not been reemployed under any of the circumstances identified in paragraph (b)(2)(A) or (b)(2)(B) at the end of that 12-month period shall remain eligible for reemployment as provided in subsection (a).

(D) The individual is suspended, demoted, or terminated pursuant to K.S.A. 75-2949, and amendments thereto, at any time after the individual becomes eligible for the Kansas employee preference program, but before the date on which the individual is actually laid off.

(3) Each individual who is qualified to receive a Kansas employee preference shall be eligible to apply for any vacancy that meets all of the following conditions:

(A) The vacancy is for a classified position that is eligible for benefits, except that when the individual who is eligible for the Kansas employee preference program was laid off from or has received a layoff notice for a regular position that is not eligible for benefits, the vacancy may be for any regular position in the classified service, whether the vacant position is eligible for benefits.

(B) The vacant position is at the same pay grade or a lower pay grade than the pay grade at which the individual was paid at the time the individual received the layoff notice.

(C) The vacant position to be filled is one for which a notice of vacancy will be posted in accordance with K.A.R. 1-6-2, including an internal vacancy.

(4) Upon receiving an application for the vacant position from an individual who is eligible for a Kansas employee preference, the appointing authority shall offer the position to the individual if the individual meets the minimum requirements for the position, subject to the following requirements:

(A)(i) If only one individual who is eligible for a Kansas employee preference applies for the position and is determined to meet the minimum requirements for the position, the appointing authority shall schedule an interview with the individual to provide the appointing authority with an opportunity to assess the employee's ability to successfully perform the duties and responsibilities of the position and to provide the individual with an opportunity to determine whether the position is of interest to the individual.

(ii) Following the interview, the appointing authority shall offer the position to the individual, unless the director determines that the individual cannot successfully perform the duties and responsibilities of the position under paragraph (b)(4)(C).

(iii) The individual who is offered the position as provided in paragraph (b)(4)(A) shall inform the appointing authority whether the individual accepts or rejects the offer within two business days of the date on which the position is offered.

(B) If more than one individual who is eligible for a Kansas employee preference applies for the position and meets the minimum requirements for the position, the appointing authority shall apply additional, job-related selection criteria in accordance with K.A.R. 1-6-21 in considering the application of each of these individuals, subject to the following requirements:

(i) The appointing authority shall not be required to interview more than seven individuals, except that each individual who is a veteran shall be offered an opportunity for an interview.

(ii) After considering the additional, job-related selection criteria, the appointing authority shall offer the position to one of these individuals, except that the appointing authority shall not be required to offer the position to any individual who the director determines cannot successfully perform the duties and responsibilities of the position under paragraph (b)(4)(C).

(iii) Each individual who is a veteran shall be offered the position if that individual is determined to be equally qualified after applying the additional, job-related selection criteria.

(iv) The individual who is offered the position as provided in paragraph (b)(4)(B) shall inform the appointing authority whether the individual accepts or rejects the offer within two business days of the date on which the position is offered.

(C) If the appointing authority submits written documentation to the director and, based on the documentation, the director determines in writing that an individual who is eligible for the Kansas employee preference could not successfully perform the duties and responsibilities of the position, the appointing authority shall not be required to offer the position to that individual.

(c) For purposes of this regulation, “veteran” shall mean any individual who is eligible for a veteran’s preference pursuant to K.S.A. 73-201, and amendments thereto. (Authorized by K.S.A. 75-2948 and K.S.A. 2014 Supp. 75-3747; implementing K.S.A. 75-2948; effective May 1, 1979; amended May 1, 1984; amended, T-86-17, June 17, 1985; amended May 1, 1986; amended Dec. 27, 1993; amended Dec. 17, 1995; amended May 31, 1996; amended, T-1-4-1-03, April 1, 2003; amended July 25, 2003; amended Jan. 6, 2017.)

Article 7.—PROBATIONARY PERIOD AND EMPLOYEE EVALUATION

1-7-3. Probationary period required. (a)

The probationary period shall be considered as a working test of the employee’s ability to perform adequately in the position to which the employee was hired. In order to aid the agency in developing efficient employees, the supervisor shall give reasonable instruction and training that may be required throughout the probationary period. Each appointing authority shall establish procedures so that any problems with probationary employees will be brought to the attention of the agency management for appropriate action before the end of the probationary period.

(b) Before the end of the probationary period, the appointing authority shall provide the director with results of a performance review for the employee. If the overall performance review rating given to a probationary employee before the end of the employee’s probationary period is unsatisfactory, the employee shall not be granted permanent status. The performance review ratings

required by this subsection shall not be required to occur within the time period established in K.A.R. 1-7-10 (a)(3).

(c) Except as provided in K.A.R. 1-7-4, all new hires, promotions, and rehires shall be tentative and subject to a probationary period as authorized by K.A.R. 1-7-4. If the probationary period of an employee is to be extended as authorized by K.A.R. 1-7-4, the appointing authority, before the end of the probationary period, shall furnish the employee with a copy of the performance review stating that the probationary period is extended. Results of the performance review shall be provided to the director.

(d) Any probationary employee, other than an employee on probation due to a promotion from a position in which the employee had permanent status, may be dismissed by the appointing authority at any time during the probationary period.

(e) This regulation shall be effective on and after October 1, 2009. (Authorized by K.S.A. 75-3706 and K.S.A. 2008 Supp. 75-3747; implementing K.S.A. 75-2943, 75-2946, 75-3707, and 75-3746; effective May 1, 1983; amended May 1, 1984; amended, T-86-17, June 17, 1985; amended May 1, 1986; amended Dec. 17, 1995; amended June 5, 2005; amended Oct. 1, 2009.)

1-7-4. Duration of probationary period. (a)

Each new hire and each rehire made on a basis other than reemployment or reinstatement who is employed in a regular position shall be subject to a probationary period of six months. This probationary period may be extended by the appointing authority for not more than six additional months if action to extend the probationary period is taken before the end of the original six-month probationary period. A probationary period of not more than 12 months may be established by the appointing authority if specific training or certification requirements for a position cannot be completed within six months.

(b) Each employee who is promoted shall be subject to a probationary period of not less than three months and not more than six months as determined by the appointing authority. However, a probationary period of not more than 12 months may be established by the appointing authority if specific training or certification requirements for a position cannot be completed within six months. Each employee with permanent status who serves a probationary period in accordance with this subsection shall retain permanent status throughout the probationary period.

(c) Each person rehired on the basis of re-employment shall have permanent status effective on the date of rehire.

(d) Each person rehired on the basis of reinstatement shall be subject to a probationary period of not less than three months and not more than six months as determined by the appointing authority.

(e) Time on leave with or without pay of more than 30 consecutive calendar days shall not count towards total time served on probation. The employee's probationary period shall be continued effective with the employee's return from leave until the total probation time served equals the time required for the position.

(f) Each employee with permanent status who is transferred from one agency to another, or transferred within the same agency, shall continue to have permanent status.

(g) If a probationary employee is transferred from one position in a class to another position in the same class or another class in the same pay grade, the transfer shall have no effect on the employee's probationary period. The probationary period may be extended by the appointing authority for not more than six additional months by giving written notice of the extension to the employee and director before the expiration of the original six-month probationary period.

(h) Each employee who is transferred, demoted, or promoted from any position in the unclassified service to a regular position in the classified service shall serve a probationary period of six months.

(i) Persons serving in temporary positions shall not be subject to a probationary period.

(j) Each employee in a governor's trainee position or a position in a training classification shall be placed on probation for six months when promoted to the regular class at the end of the training period.

(k) This regulation shall be effective on and after October 1, 2009. (Authorized by K.S.A. 75-3706 and K.S.A. 2008 Supp. 75-3747; implementing K.S.A. 75-2943, 75-2946, 75-3707, and 75-3746; effective May 1, 1983; amended May 1, 1985; amended Dec. 27, 1993; amended Dec. 17, 1995; amended Oct. 1, 2009.)

1-7-6. Notices relating to probationary periods and extensions. (a) Before the expiration of each employee's probationary period, a performance review shall be completed and a rat-

ing shall be assigned, and the appointing authority shall notify the employee and the director in writing of one of the following:

(1) The employee has been dismissed or demoted.

(2) The probationary period is being extended, if extension is permissible under the provisions of K.A.R. 1-7-4.

(3) The employee is being given permanent status.

(b) If a probationary employee has not been notified in accordance with subsection (a) by the end of any probationary period, the employee shall be deemed to have been given permanent status. In case of dispute as to whether the employee was notified, a determination shall be made by the director. (Authorized by K.S.A. 75-3706 and K.S.A. 2008 Supp. 75-3747; implementing K.S.A. 75-2943, 75-2946, 75-3707, and 75-3746; effective May 1, 1983; amended, T-86-17, June 17, 1985; amended May 1, 1986; amended May 1, 1987; amended Dec. 17, 1995; amended Sept. 25, 2009.)

1-7-7. Dismissal of probationary employee by director. The director may dismiss a probationary employee at any time during the employee's probationary period, after giving the employee notice and an opportunity to be heard, if the director finds that the employee was appointed as a result of a violation of the provisions of the act or these regulations. (Authorized by K.S.A. 75-3706 and K.S.A. 2008 Supp. 75-3747; implementing K.S.A. 75-2943, 75-2946, 75-3707, and 75-3746; effective May 1, 1983; amended Sept. 25, 2009.)

1-7-10. Performance reviews. (a) Each agency's appointing authority shall implement the state performance management process that was developed in accordance with L. 2008, Ch. 159, Sec. 1 and shall ensure that performance reviews are conducted in accordance with this process for each employee in the classified service. The performance review shall be used to inform employees of their expected performance outcomes and to assess the effectiveness of each employee.

(1) The performance review of each employee shall be completed by the employee's immediate supervisor or, if the employee's immediate supervisor has not supervised the employee for at least 90 days, by another qualified person designated by the appointing authority. "Qualified person" shall mean a person who is familiar with the duties

and responsibilities of the employee's position and has significant knowledge of the job performance of the employee.

(2) A performance review shall be completed and a rating assigned at least annually in the manner required and on the forms prescribed by the director. An agency may add additional, job-related performance criteria and measures to the forms prescribed by the director, as determined by the appointing authority.

(3) Performance ratings for all permanent employees shall be assigned on an annual basis within the period beginning October 1 and ending December 31.

(4) Midyear reviews for all permanent employees shall be conducted on an annual basis within the period beginning April 1 and ending June 30.

(5) The appointing authority may conduct a special performance review rating for any employee at any time, unless prohibited under K.A.R. 1-14-8 due to pending layoffs.

(6) Each employee who receives an unsatisfactory rating on either of the essential requirements set out on the form prescribed by the director shall have an overall performance review rating of unsatisfactory.

(7) Each employee shall be given the opportunity to sign the employee's performance review as evidence that the employee has been informed of the performance review rating. The employee's signature shall not abridge the employee's right of appeal if the employee disagrees with the rating. The failure of the employee to sign the performance review shall not invalidate the rating.

(b)(1) Any employee entitled to appeal a rating under K.A.R. 1-7-11 may do so within seven calendar days after being informed of the rating. After the period of seven calendar days for filing appeals has expired and if no appeal has been filed, the appointing authority or the authority's designee shall review the rating, make any changes deemed necessary, sign the performance review, place the entire original performance review in the employee's official personnel file, and provide a copy of the review to the employee. In addition, the appointing authority may provide copies to each reviewer if the appointing authority deems necessary.

(2) If the appointing authority makes any change in the rating or adds any comment on the performance review, the review shall be returned to the employee to be signed again, and the employee, if eligible to appeal the rating, shall again have seven calendar days to file an appeal to the

appointing authority. The final results of the performance review shall be reported to the director.

(c) Subject to the provisions of K.S.A. 75-2949e and amendments thereto, two performance review ratings of less than meets expectations that are conducted within 180 days may be utilized as a basis for demotion, suspension, or dismissal of the employee.

(d) If the overall performance review rating assigned to a probationary employee at the end of the employee's probationary period is unsatisfactory, the employee shall not be granted permanent status.

(e) This regulation shall be effective on and after October 1, 2009. (Authorized by K.S.A. 75-2943, K.S.A. 75-3706, and K.S.A. 2008 Supp. 75-3747; implementing K.S.A. 75-2943, 75-2949e, 75-3706, and 75-3746; effective May 1, 1983; amended May 1, 1984; amended, T-86-17, June 17, 1985; amended May 1, 1986; amended, T-17-27-89, July 27, 1989; amended Nov. 20, 1989; amended Dec. 17, 1995; amended June 5, 2005; amended Oct. 1, 2009.)

1-7-11. Employees entitled to appeal performance reviews. (a) Any employee who receives a performance rating that is lower than the highest possible rating may appeal that rating if the employee meets either of the following conditions:

(1) The employee has permanent status, including an employee with permanent status who is serving a probationary period due to a promotion.

(2) The employee is serving a probationary period due to a rehire on the basis of reinstatement.

(b)(1) If an action concerning the end of probationary status is dependent upon the performance review, the appeal committee may make a recommendation to the appointing authority concerning whether or not to grant permanent status to the employee. However, the appointing authority shall have the right to make the determination of whether or not to grant permanent status, subject to whatever limitations are imposed by the performance rating of the performance review prepared by the appeal committee.

(2) Notwithstanding the limits on the duration of probationary periods established elsewhere in these regulations, the appointing authority may extend the probationary period for a limited period of time as necessary to allow the appeal committee to prepare the final performance review. The total amount of time of this extension shall not exceed 60 calendar days.

(3) The appointing authority shall report to the director each extension of a probationary period made pursuant to this regulation.

(c) This regulation shall be effective on and after October 1, 2009. (Authorized by K.S.A. 75-2943, K.S.A. 75-3706, and K.S.A. 2008 Supp. 75-3747; implementing K.S.A. 75-2943, 75-2946, 75-3707, and 75-3746; effective May 1, 1983; amended, T-86-17, June 17, 1985; amended May 1, 1986; amended Dec. 17, 1995; amended Oct. 24, 1997; amended June 5, 2005; amended Oct. 1, 2009.)

1-7-12. Performance review appeal procedure. (a) (1) Each employee who is eligible to appeal a performance review under K.A.R. 1-7-11 may, within seven calendar days after the employee has been informed of the rating, submit an appeal in writing to the appointing authority.

(2) Within seven calendar days following receipt of the employee's written notice of appeal, the appointing authority shall have the option either to make any changes in the rating deemed appropriate or to appoint a committee of three or more persons to hear the appeal.

(3) If the appointing authority makes any change in the rating or adds any comments to the rating form, the rating form shall be returned to the employee to be signed again. The employee shall be informed that, if the employee disagrees with the revised performance review, the employee may, within seven calendar days, file an appeal in writing to the appointing authority. If the employee files an appeal of the revised review, the appointing authority shall, within seven calendar days following receipt of the employee's written notice of appeal, appoint a committee of three or more persons to hear the appeal.

(4) If an appeal committee is appointed to hear the appeal, persons shall be appointed who, in the appointing authority's judgment, will be fair and impartial in discharging their responsibilities. Before appointing the appeal committee, the appointing authority shall give the employee a reasonable opportunity for consultation on the matter of appointment of the appeal committee. The appeal committee shall not include the initial rater or raters. In general, the members of the appeal committee shall be officers or employees of the agency. However, the appointing authority may select one or more members of the committee from one or more other state agencies if the appointing authority determines that the objective of a fair and impartial hearing can best be served by doing so.

(b)(1) As soon as the committee has been appointed, the appointing authority shall notify the employee of the names of the members of the committee and the date, time, and place of the hearing.

(2)(A) Before the beginning of the hearing, the employee may object to any individual proposed to serve as a member of the committee in writing and shall include the reasons upon which the employee is basing the objection.

(B) The appointing authority shall make a determination either to deny the objection or to grant the objection and appoint another individual to the committee before the commencement of the hearing.

(C) The appointing authority shall inform the employee of the determination in writing.

(D) Each objection taken pursuant to this subsection and each determination regarding each objection shall be included as part of the documentation of the appeal.

(3) The appeal committee shall consider any relevant evidence that may be offered by the employee and the rater and shall make available to the employee any evidence that the committee may secure on its own initiative. The employee and rater shall have an opportunity to question any person offering evidence to the appeal committee. The appeal committee may limit the offering of evidence that it deems to be repetitious or irrelevant.

(4) Within 14 calendar days of the date the members of the committee were appointed, the committee shall prepare and sign a rating for the employee. That rating shall be final and not subject to further appeal. The appeal committee shall give the rating to the appointing authority, who, within five calendar days, shall provide copies to the employee and each person who originally rated the employee. The appeal committee shall report the rating to the director.

(5) If the appointing authority cannot appoint an appeal committee within the prescribed seven calendar days, the employee requests an extension of the time limit, or the appeal committee cannot make its rating within 14 calendar days of the date of its appointment, the appointing authority may extend these time limits for a reasonable period of time.

(c) This regulation shall be effective on and after October 1, 2009. (Authorized by K.S.A. 75-2943, K.S.A. 75-3706, and K.S.A. 2008 Supp. 75-3747; implementing K.S.A. 75-2943, 75-3707, and 75-

3746; effective May 1, 1983; amended, T-84-20, July 26, 1983; amended May 1, 1984; amended, T-86-17, June 17, 1985; amended May 1, 1986; amended Dec. 17, 1995; amended June 5, 2005; amended Oct. 1, 2009.)

Article 9.—HOURS; LEAVES; EMPLOYEE-MANAGEMENT RELATIONS

1-9-5a. Limits on state leave payment reserve fund payouts. (a) The amount of payout from the state leave payment reserve fund for accumulated vacation leave for any employee separating from state service due to retirement shall be limited to the accumulated hour limits specified in K.A.R. 1-9-4.

(b) The amount of payout from the state leave payment reserve fund for accumulated sick leave upon any employee's retirement shall be limited to the accumulated hour limits specified in K.S.A. 75-5517, and amendments thereto. (Authorized by K.S.A. 75-5545; implementing K.S.A. 75-5517, K.S.A. 2010 Supp. 75-5543, and K.S.A. 75-5544; effective, T-1-6-30-11, June 30, 2011; effective Oct. 28, 2011.)

1-9-7b. Military leave; voluntary or involuntary service with reserve component of the armed forces. (a)(1) Each employee in a classified or unclassified position that is eligible for benefits who is a member of a reserve component of the military service of the United States shall be granted a maximum of 30 working days of military leave with pay for required military duty within each 12-month period beginning October 1 and ending September 30 of the following year.

(2) For the purpose of this regulation, "required military duty" shall mean any period of active duty, inactive duty, or full-time national guard duty, or any other appropriate duty status as determined by the director, that is required of the employee.

(b) Required military duty in excess of 30 working days within the 12-month period specified in subsection (a) shall be charged to military leave without pay or, at the employee's request, to appropriate accrued leave.

(c) Each request for military leave shall be submitted to the appointing authority with as much notice as possible under the circumstances of the required military duty. Whenever possible, an appropriate military order or duty document shall be received by the appointing authority before military leave is authorized.

(d) Each employee in a classified or unclassified position that is eligible for benefits shall be granted military leave without pay or, at the employee's request, appropriate accrued leave for the purpose of induction, entrance, or examination for entrance into a reserve component. Notice to the appointing authority shall be provided as prescribed by the appointing authority. Upon completion of the induction, entrance, or examination, the employee shall return to state employment as prescribed in subsection (f).

(e) Upon release from a period of service under subsection (a), (b), or (d) or upon discharge from hospitalization for or convalescence from an illness or injury incurred in or aggravated during the service, each employee shall be permitted to return to one of the following positions:

(1) The position in which the employee would have been employed if the employee had not been absent; or

(2) a position with status and pay similar to the status and pay that the employee would have had if the employee had not been absent for those purposes. If the employee is not qualified to perform the duties of the position by reason of disability sustained while absent in accordance with this regulation but is qualified to perform the duties of any other position, the employee shall be offered employment in a position comparable to the former position, in status and pay.

(f)(1) Except as provided in paragraph (f)(2), when returning from periods of required military duty or upon completion of the induction, entrance, or examination for entrance into a reserve component, the employee shall report for work as follows:

Period of Absence (in consecutive days)	Return to Work Following Release From a Period of Service
1-30	First full, regularly scheduled day after release
31-180	Within 14 days of release
181+	Within 90 days of release

(2) The time periods specified in paragraph (f)(1) may be extended to no more than two years from the date of release from a period of service to accommodate a period of hospitalization or convalescence resulting from a service-connected injury or illness. To the extent practicable, the employee shall inform the appointing authority of any change in the date on which the employee

is anticipated to return to work. The appointing authority may request documentation from the employee's commanding officer or the employee's licensed health or mental health care provider of the date on which the employee is released from a period of service and of the reasons the employee will not be able to return to work following the employee's release from a period of service.

(g) Military leave shall be counted as part of the employee's length of service as prescribed in K.A.R. 1-2-46. Sick leave, vacation leave, and holiday credit shall not be earned or accrued during a period of required military duty when military leave without pay has been granted.

(h) For purposes of this regulation, each reference to the military reserve of the United States shall be considered to include members of the national guard. (Authorized by K.S.A. 75-3706 and K.S.A. 2016 Supp. 75-3747; implementing K.S.A. 75-3707 and 75-3746; effective May 1, 1985; amended Dec. 17, 1995; amended, T-1-10-1-97, Oct. 1, 1997; amended, T-1-11-5-99, Nov. 5, 1999; amended Dec. 27, 2002; amended Oct. 1, 2006; amended Oct. 6, 2017.)

1-9-22. Job injury leave. (a) Each classified or unclassified employee who sustains a qualifying job injury, as determined by the employee's appointing authority, shall be eligible for job injury leave in accordance with this regulation.

(b) "Qualifying job injury" shall mean an injury that meets the following conditions:

(1) Renders the employee unable to perform the employee's regular job duties;

(2) arose out of and in the course of employment with the state; and

(3)(A) Was sustained as a result of a shooting, stabbing, or aggravated battery as defined in K.S.A. 21-5413 and amendments thereto, by another against the employee;

(B) was sustained as a result of a confrontation with a patient or client in a facility or ward for mental health, intellectual disability, or developmental disability in which the patient or client inflicts great bodily harm, causes disfigurement, or causes bodily harm with a deadly weapon or in any manner by which great bodily harm, disfigurement, dismemberment, or death can be inflicted; or

(C) was sustained in any other situation in which the appointing authority determines that job injury leave is in the best interest of the state.

(c) Job injury leave shall not exceed six total months away from work. While an employee is

on approved job injury leave, the employing state agency shall continue to pay the employee's regular compensation. If the employee is awarded worker's compensation, the state agency shall pay the employee compensation in an amount that, together with worker's compensation pay, equals the regular pay of the employee. The employee shall not be required to use accrued sick leave or vacation leave. The employee shall continue to accrue sick and vacation leave as long as the employee remains in pay status. Nothing in this regulation shall be construed as providing voluntary or gratuitous compensation payments in addition to temporary total disability compensation payments pursuant to the worker's compensation laws.

(d) The appointing authority may require an employee on approved job injury leave to return to full or limited duty if the employee is physically able to perform the duty as determined by a physician selected by the appointing authority or selected by a representative of the state self-insurance fund. However, limited duty allowed shall not, in combination with time away from work on job injury leave, exceed the total six months allowed for job injury leave. If the employee remains unable to return to full duty, the appointing authority shall take any action deemed to be in the best interest of the state.

(e) While an employee is on approved job injury leave, the appointing authority may require the employee to be examined by a physician selected by the appointing authority to determine the capability of the employee to return to full or limited duty.

(f) Each employee on approved job injury leave shall be prohibited from being gainfully employed by any other employer.

(g) The requirements of this regulation may be waived or modified by the director upon written request of the appointing authority. Any waiver or modification may be granted only upon a finding by the director that both of the following conditions are met:

(1) Granting the requested waiver or modification would not be in conflict with any statutes pertaining to leave.

(2) Failure to grant the requested waiver or modification would create a manifest injustice or undue hardship on the employee requesting the job injury leave. (Authorized by K.S.A. 75-3706, K.S.A. 2013 Supp. 75-3747; implementing K.S.A. 75-3707 and 75-3746; effective, T-86-17,

June 17, 1985; effective May 1, 1986; amended Nov. 21, 1994; amended Dec. 17, 1995; amended Sept. 12, 2014.)

1-9-23. Shared leave. (a)(1) Any employee in a classified, regular position or in an unclassified position that is eligible for benefits may be eligible to receive or donate shared leave as provided in this regulation.

(2) Except as provided in paragraph (d)(1)(D), shared leave may be granted to an employee if all of the following conditions are met and if the employee meets the criteria specified in paragraph (b)(1):

(A) The employee or a family member of the employee, as defined in K.A.R. 1-9-5 (e)(2), is experiencing a serious, extreme, or life-threatening illness, injury, impairment, or physical or mental condition.

(B) The illness, injury, impairment, or condition of the employee or the family member has caused or is likely to cause the employee to take leave without pay or terminate employment.

(C) The illness, injury, impairment, or condition of the employee or the family member keeps the employee from performing regular work duties.

(b)(1) Each employee who meets the requirements of paragraph (a)(2) shall be eligible to receive shared leave if both of these conditions are met:

(A) The employee has exhausted all paid leave available for use, including vacation leave, sick leave, compensatory time, holiday compensatory time, and the employee's discretionary holiday.

(B) The employee has at least six continuous months of service, pursuant to K.A.R. 1-2-46.

(2)(A) An employee shall be eligible to donate vacation leave or sick leave to another employee if these conditions are met:

(i) The donation of vacation leave does not cause the accumulated vacation leave balance of the donating employee to be less than 80 hours, unless the employee donates vacation leave at the time of separation from state service.

(ii) The donation of sick leave does not cause the accumulated sick leave balance of the donating employee to be less than 480 hours, unless the employee donates sick leave at the time of separation from state service.

(B) If the employee is retiring from state service and receiving compensation for sick leave upon retirement, the donated sick leave consists only of the accumulated sick leave in excess of the ap-

plicable minimum accumulation amount required for eligibility for a sick leave payout pursuant to K.S.A. 75-5517, and amendments thereto.

(c)(1)(A) When requesting shared leave, an employee shall be required to provide a statement from a licensed health care provider or other medical evidence necessary to adequately establish that the illness, injury, impairment, or physical or mental condition of the employee or family member is serious, extreme, or life-threatening and keeps the employee from performing regular work duties. If the employee fails to provide the required evidence, the use of shared leave shall be denied.

(B) At any time during the use of shared leave, the appointing authority may require the employee to provide a statement from a licensed health care provider or other medical evidence necessary to establish that the illness, injury, impairment, or physical or mental condition of the employee or family member continues to be serious, extreme, or life-threatening or to establish when the employee will be able to return to work. If the employee fails to provide the required evidence, the use of shared leave may be terminated by the appointing authority.

(2)(A) The appointing authority shall determine whether an employee meets the initial eligibility requirements in paragraph (b)(1) and, if applicable, whether the employee would be caring for an individual who meets the definition of a family member.

(B) Shared leave may be denied if the appointing authority determines that the requesting employee has a history of leave abuse.

(C) An employee who currently is receiving workers compensation for the illness, injury, impairment, or physical or mental condition that is the basis of the shared leave request or has submitted an application to the division of workers compensation for this illness, injury, impairment, or condition shall not be eligible to receive shared leave.

(d)(1)(A) A shared leave committee shall be established and coordinated by the director. The shared leave committee shall consist of three current employees in the executive branch who, in the director's judgment, have experience in making determinations regarding leave and who will be fair and impartial in discharging their responsibilities.

(B) Except as provided by paragraph (d)(2), once the appointing authority determines that an

employee meets the eligibility requirements specified in paragraph (c)(2), the shared leave committee shall determine whether the illness, injury, impairment, or physical or mental condition of the employee or the employee's family member meets the conditions established in paragraph (a)(2).

(C) If the shared leave committee determines that the illness, injury, impairment, or physical or mental condition meets the requirements of paragraph (a)(2), the appointing authority shall grant all or a portion of the time requested.

(D) An appointing authority may approve an employee's request for shared leave regardless of the determination of the shared leave committee if the appointing authority determines that such a decision would be in the best interests of the state. Before approving the request, the appointing authority shall consult with the director about the factors that the appointing authority is relying upon in making the determination that approval of the shared leave is in the best interests of the state.

(2) If the appointing authority is an elected official, the appointing authority may determine whether the illness, injury, impairment, or physical or mental condition of the employee or the employee's family member meets the conditions established in paragraph (a)(2) or may submit the shared leave request to the shared leave committee for determination as provided in paragraph (d)(1).

(e) Employees shall not be notified of the need for shared leave donations until the request for shared leave has been approved as provided in subsection (d). No employee shall be coerced, threatened, or intimidated into donating leave or financially induced to donate leave for purposes of the shared leave program.

(f) The records of all shared leave donations shall remain confidential.

(g)(1) Shared leave may be used only for the duration of the serious, extreme, or life-threatening illness, injury, impairment, or physical or mental condition for which the shared leave donation was collected. The maximum number of hours of shared leave that may be used by an employee shall be the total number of hours that the employee would regularly be scheduled to work during a six-month period.

(2) No employee shall be eligible to use shared leave after meeting the eligibility requirements for disability benefits under the Kansas public employees retirement system.

(3) Employees shall use shared leave in accordance with their regular work schedules.

(4) Exempt employees shall use shared leave only in half-day or full-day increments.

(h)(1) Shared leave may be applied retroactively for a maximum of two pay periods preceding the date the employee signed the shared leave request form.

(2) The employee shall no longer be eligible to receive shared leave for a particular occurrence if any of these conditions is met:

(A) The illness, injury, impairment, or condition of the employee or the employee's family member improves so that it is no longer serious, extreme, or life-threatening, and the employee is no longer prevented from performing regular work duties.

(B) The employee terminates or retires.

(C) The employee returns to work and works the employee's regular work schedule for at least 20 continuous working days.

(3) Any unused portion of the shared leave shall be prorated among all donating employees based on the original amount and type of donated leave and returned to those employees within two pay periods of the date on which it is determined that the employee receiving the donated leave is no longer eligible for shared leave. Shared leave shall not be returned to donating employees in increments of less than one full hour or to any person who has left state service.

(i)(1) Shared leave shall be paid according to the receiving employee's regular rate of pay by the receiving employee's agency. The rate of pay of the donating employee shall not be used in figuring the amount of shared leave that the requesting employee receives.

(2) Shared leave shall be donated in full-hour increments.

(j) Each decision to approve or deny a request for shared leave and any other determination regarding the extension or termination of shared leave shall be final and shall not be subject to appeal to the civil service board. (Authorized by K.S.A. 75-3706, K.S.A. 2016 Supp. 75-3747, and K.S.A. 75-5549; implementing K.S.A. 75-3707, 75-3746, and 75-5549; effective, T-1-7-23-92, July 23, 1992; effective Sept. 14, 1992; amended July 26, 1993; amended, T-1-9-19-94, Sept. 19, 1994; amended Nov. 21, 1994; amended Dec. 17, 1995; amended May 31, 1996; amended Sept. 18, 1998; amended, T-1-2-17-00, Feb. 17, 2000; amended June 16, 2000; amended June 5, 2005; amended Jan. 6, 2017.)

Article 14.—LAYOFF PROCEDURES AND ALTERNATIVES TO LAYOFF**1-14-8. Computation of layoff scores.** (a)

A layoff score shall be computed by the appointing authority for each employee in the agency who has permanent status and who either is in a class of positions identified for layoff or could be affected by the exercise of bumping rights.

(b) Layoff scores shall be computed according to the formula $A \times L$, where A and L have the following values:

(1) A = the average performance review rating of the employee, as described in subsection (d); and

(2) L = the length of service, as defined in K.A.R. 1-2-46 (a), expressed in years, with three months of service equivalent to .25.

Length of service for a retired employee who has returned to work shall be calculated in accordance with K.A.R. 1-2-46 (g). The layoff scores shall be prepared in accordance with a uniform score sheet prescribed by the director.

(c) Layoff scores computed by the appointing authority shall be made available for inspection by each employee upon request at the time the agency gives written notice of a proposed layoff to the director and the secretary pursuant to K.A.R. 1-14-7. Upon request of any employee, the appointing authority shall review the manner in which the employee's score was calculated. Each dispute as to the proper calculation of a layoff score of any employee shall be resolved by the director.

(d) Except as otherwise authorized by this subsection, the performance review ratings used in computing the layoff score of an employee shall be the employee's five most recent ratings if the employee has as many as five ratings. However, a rating resulting from a special performance review that is given for a rating period ending within 90 calendar days of any notice of the layoff to the director shall not be counted. Performance reviews completed for rating periods ending on or after the date the appointing authority notifies the director in writing that a layoff is to occur shall not be considered in computing layoff scores; however, the appointing authority may designate a uniform earlier cutoff date to identify which performance review ratings are to be used in computing layoff scores.

(1) For the purposes of calculating layoff scores in accordance with the formula established in sub-

section (b), a rating of "exceptional" shall have a value of seven, a rating of "exceeds expectations" shall have a value of five, a rating of "meets expectations" shall have a value of three, a rating of "needs improvement" shall have a value of one, and a rating of "unsatisfactory" shall have a value of zero.

(2) If an employee does not have a total of five performance review ratings for use in computation of a layoff score, the layoff score shall be an average of the ratings that the employee has actually received.

(3) If an employee has no performance review ratings that may be used to compute a layoff score, the employee shall be deemed to have been given a single performance review rating of "meets expectations," and the value of that rating shall be used to compute a layoff score. New hires and rehires employed on a basis other than reinstatement who are serving a probationary period and employees in training classes shall be subject to subsections (e), (f), and (g).

(4) If any layoff scores are identical and some, but not all, of the persons with the same score must be laid off, preference among these persons shall be given to any veteran, as defined in K.S.A. 73-201 and amendments thereto, and any orphan, as defined in this paragraph, in that order. For the purpose of this regulation, "orphan" shall mean a minor who is the child of a veteran who died while, and as a result of, serving in the armed forces.

If further ties remain, a method of breaking the ties that is consistent with agency affirmative action goals and timetables for addressing underutilization of persons in protected groups shall be established by the secretary. If further ties remain, preference in retention shall be given to the person with the higher average performance review rating as used in calculating layoff scores in accordance with subsection (b). If a tie still exists, the next preference shall be given to the person with the greatest length of service, as defined in K.A.R. 1-2-46, within that agency. If a tie still exists, the appointing authority shall determine an equitable tie-breaking system.

(e) New hires and rehires with probationary status shall not be granted permanent status on or after the date the appointing authority has notified the director of a proposed layoff. However, any new hire or rehire with probationary status in a position for which no employee subject to layoff meets the required selection criteria may be

given permanent status. New hires and rehires with probationary status shall have their probationary period extended until it is certain that no employee with permanent status whose position is to be vacated by layoff or who otherwise would be laid off through the exercise of bumping rights is claiming the position held by the employee with probationary status.

(f) Each employee serving a probationary period as a result of one of the following shall be considered to have permanent status for layoff purposes:

(1) Promotion of an employee who has permanent status;

(2) reallocation of a position if the incumbent has permanent status; or

(3) promotion from a classified position with at least six months of continuous classified service.

(g) Each employee who is in training status in a governor's trainee position, or in any identified training position, and who has at least six months of continuous service shall be considered to have permanent status for layoff purposes only.

(h) The layoff list shall be based on the order of the layoff scores. The person with the lowest layoff score shall be laid off first. If more than one person is to be laid off, the persons to be laid off shall be selected on the basis of the lowest layoff scores. (Authorized by K.S.A. 75-2943, K.S.A. 75-3706, and K.S.A. 2014 Supp. 75-3747; implementing K.S.A. 75-2943, 75-2948, 75-3707, and 75-3746; effective May 1, 1984; amended, T-86-17, June 17, 1985; amended May 1, 1986; amended Dec. 27, 1993; amended Dec. 17, 1995; amended June 5, 2005; amended Oct. 1, 2009; amended Jan. 6, 2017.)

1-14-10. Procedures for bumping and layoff conferences. (a) Bumping shall occur within the layoff group identified in the agency's layoff notice, or agencywide if the agency has not designated a layoff group. If the requirements in paragraphs (a)(1) and (2) have been met, any employee with permanent status, or any employee considered permanent for layoff purposes only, who is scheduled for layoff shall bump only into a lower class in which the employee previously had permanent status, unless the employee's position is in a class that is part of a class series designated by the appointing authority in the agency's layoff notice. If such a class series is designated in the agency's layoff notice, then the employee shall be permitted to bump into a lower class in the class

series. Except as authorized by subsection (b), in order for an employee with permanent status to exercise bumping rights, the following requirements shall be met:

(1) The employee to be bumped shall have a lower layoff score than the person exercising the bumping right.

(2) The employee to be bumped shall have the lowest layoff score in that employee's job class of anyone in a position not scheduled for layoff.

(b) No employee with permanent status shall be laid off if all of the following conditions are met:

(1) There is a position filled by a probationary employee anywhere in the agency.

(2) The employee with permanent status scheduled to be laid off is interested in the position.

(3) The employee with permanent status is eligible for transfer or demotion to the position pursuant to K.A.R. 1-6-24 and 1-6-27.

(c) If an agency's layoff notice permits bumping only into lower classes in which an employee had previous permanent status and the class or classes in which the employee had previous permanent status have been abolished, the employee shall be afforded bumping rights to a similar job class in a lower pay grade if a similar job class exists as determined by the director.

(d) Regardless of subsections (a), (b), and (c), subject to the approval of the director, any appointing authority may prevent any classified employee from being laid off if the appointing authority finds that the loss of the employee, due to the employee's particular knowledge, skills, abilities, certification, licensure, or combination thereof, would substantially impair the agency's ability to perform its essential operations.

(e)(1) Bumping procedures shall begin as soon as possible after layoff notices have been given pursuant to K.A.R. 1-14-9. The appointing authority or designee shall develop a schedule for an individual conference with each affected employee, starting with the employee having the highest layoff score. The schedule of conferences shall continue in this order until each affected employee has had such a conference.

(2) During the layoff conference, the employee shall be informed of the bumping options available to the employee and of the opportunity to select one such option. The employee may defer the selection no longer than one full working day, unless a longer period of time is authorized by the appointing authority. If an employee is unavailable on the day the employee is scheduled for a

layoff conference, the appointing authority shall reschedule the layoff conference. If the employee fails to appear at the rescheduled conference, the appointing agency shall not be required to hold a layoff conference with the employee and the employee shall forfeit bumping rights.

(3) In extenuating circumstances and when deemed to be in the best interest of the state service, group layoff conference sessions may be authorized by the appointing authority.

(f) At the layoff conference, each employee shall be informed of the employee's right to seek reemployment opportunities with the state, including placement assistance provided by the division. Placement assistance shall be available to the affected employee for up to three years after the effective date of the layoff, unless the affected employee requests in writing that the employee does not want placement assistance.

(g) Any employee who is not scheduled for layoff, but whose position will be vacated during the layoff and bumping process, and who refuses to accept a transfer or demotion to another position may request to be laid off voluntarily. Any employee who has been granted a voluntary layoff shall have reemployment rights.

(h) All disputes resulting from the forfeiture of bumping rights shall be resolved by the director. (Authorized by K.S.A. 2014 Supp. 75-3747; implementing K.S.A. 75-2948; effective May 1, 1984; amended Jan. 18, 1994; amended Dec. 17, 1995; amended May 31, 1996; amended Jan. 6, 2017.)

1-14-11. Furlough. (a) For purposes of this regulation, "furlough" shall mean mandatory leave without pay for a preset number of hours during each pay period covered by the furlough. There are two types of furloughs.

(1) An administrative furlough is a planned action by an agency that is designed to address budget reductions necessitated by reasons other than a lapse in appropriations. A furlough plan shall be required for each administrative furlough.

(2) An emergency furlough occurs if there is an immediate or imminent lack of funding to continue agency operations or any emergency that results in an unanticipated interruption of funding to the agency. In an emergency furlough, an affected agency could have to cease activities that are not excepted by law, typically with very little lead time. A furlough plan shall not be required for any emergency furlough.

(b) In accordance with this regulation, if an

appointing authority deems it necessary, the appointing authority may implement an administrative furlough or an emergency furlough for all employees in the classified or unclassified service in designated classes, positions, organizational units, geographical areas, or any combination of those groups unless specific funding sources necessitate exceptions. An employee's social security and retirement contributions shall be affected under a furlough, but all other benefits, including the accrual of vacation and sick leave, shall continue, despite any other regulations to the contrary. A furlough shall not affect the employee's continuous service, length of service, pay increase anniversary date, or eligibility for authorized holiday leave or pay.

(c)(1) For each administrative furlough, at least 30 calendar days before the date the administrative furlough is to be implemented, the appointing authority shall prepare a furlough plan specifying the following information:

- (A) The cause of the funding shortage;
- (B) the effective date of the furlough and the date on which the furlough is to end;
- (C) the methods for notifying the affected employees;
- (D) the amount of advance notice that will be given to affected employees, which shall not be less than 10 calendar days;
- (E) the estimated cost savings;
- (F) each class, organizational unit, or geographical area to be affected;
- (G) the criteria used to select each class, position, organizational unit, or geographical area to be included in the furlough;
- (H) any exceptions to the furlough plan based on funding sources; and
- (I) the number of hours by which the workweek will be reduced, including separate categories detailing the proposed reduction in hours by standardized increments for exempt and nonexempt employees.

(2) A copy of each furlough plan prepared in accordance with this subsection shall be submitted to the director at least 30 days before the date the administrative furlough is to be implemented.

(d) For each emergency furlough, the affected employees and the director shall be notified by the appointing authority as soon as it is practical to do so.

(e) This regulation shall not be used as a disciplinary action against any employee. (Authorized by K.S.A. 75-3706, K.S.A. 2013 Supp. 75-3747,

and K.S.A. 75-5514; implementing K.S.A. 75-3707, 75-3746, and 75-5505; effective, T-88-5, Feb. 11, 1987; effective, T-89-1, May 1, 1988; effective Oct. 1, 1988; amended May 31, 1996; amended June 5, 2005; amended Sept. 12, 2014.)

Article 16.—TRAVEL REIMBURSEMENT

1-16-4. Date and hour of departure and return. If an employee is granted leave of absence while on official travel, including Saturdays, Sundays, and holidays, the employee's subsistence allowance claim shall be adjusted accordingly for the date and hour of departure from, and the return to, the field duty station or to the official station. (Authorized by and implementing K.S.A. 2015 Supp. 75-3207; effective Jan. 1, 1966; amended Feb. 5, 2016.)

1-16-8. Use of privately owned or operated conveyance, limitations; reimbursement for transportation and subsistence expenses.

(a) In-state travel. If the use of a privately owned or operated conveyance on official state business is authorized by the agency head or the agency head's designee, reimbursement shall be on a mileage basis at the rate specified and under the limitations prescribed by K.A.R. 1-18-1a. Mileage shall be calculated in accordance with K.A.R. 1-17-11, except that storage or parking charges for a privately owned conveyance at any commercial transportation terminal, while the traveler is on an extended trip, and turnpike tolls, may be allowed in addition to this mileage allowance.

(b) Out-of-state travel.

(1) If the use of a privately owned or operated conveyance on official state business, instead of common carrier, is authorized by the agency head or the agency head's designee, the traveler shall be allowed private conveyance mileage as prescribed by K.A.R. 1-18-1a to the destination, turnpike tolls, and parking charges, or an amount equal to economy class air fare to the air terminal nearest the destination, whichever is lesser. Out-of-state subsistence allowance shall be allowed only for the number of quarter days that would have been necessary had the traveler used the fastest public transportation available to the destination instead of a private conveyance. No taxi or air terminal expenses shall be allowed at the destination. Air terminal shall mean the principal air terminal in that general geographic area.

(2) If two or more travelers on official business travel in one privately owned conveyance instead

of common carrier, the use of one conveyance may be authorized on a mileage basis. In such cases, the subsistence allowed shall be for the number of days the trip would take by car using the usually traveled route to the point of destination as provided in K.A.R. 1-17-11.

(3) Upon written, prior approval of the agency head, exceptions to this subsection may be granted in unusual circumstances if deemed to be in the best interest of the state.

(c) Exception. Nothing in this regulation shall apply to any person to whom K.S.A. 75-3212 and K.S.A. 75-3216, and amendments thereto, apply. (Authorized by and implementing K.S.A. 2015 Supp. 75-3207; effective, E-74-4, Nov. 2, 1973; effective May 1, 1975; amended May 1, 1979; amended May 1, 1981; amended April 30, 1990; amended July 1, 2010; amended Feb. 5, 2016.)

1-16-15. Reduced allowances. (a) Except as provided in K.A.R. 1-16-18, the agency head, or the agency head's designee, may approve paying a reduced meals allowance or lodging expense. However, the following shall apply:

(1) If the cost of meals is included within the cost of a registration fee or other fees and charges paid by the agency, the agency shall pay the applicable reduced subsistence allowance specified in K.A.R. 1-16-18.

(2) If both meals and lodging will be provided at no cost to an agency's traveling employee, the agency shall be authorized to not pay any subsistence for this travel.

(b) The approval of reduced subsistence allowances by the agency head or the agency head's designee shall be based on reducing quarter-day meals allowances and lodging expenses, and this reduced subsistence shall in all other respects be paid in accordance with applicable regulations and accounting procedures. (Authorized by and implementing K.S.A. 2015 Supp. 75-3207; effective Jan. 1, 1966; amended, E-69-18, Aug. 14, 1969; amended Jan. 1, 1970; amended May 1, 1979; amended May 1, 1982; amended, T-84-20, July 26, 1983; amended May 1, 1984; amended, T-87-26, Oct. 1, 1986; amended May 1, 1987; amended, T-89-1, Jan. 7, 1988; amended Oct. 1, 1988; amended July 1, 2010; amended Feb. 5, 2016.)

1-16-18. Subsistence allowance. (a) General provisions. Except as otherwise specifically provided by law, subsistence allowances for in-state and out-of-state travel shall be paid on the

basis of a meals allowance and the actual cost of lodging expenses incurred, within the limits specified in this regulation.

Meals allowance rates and lodging reimbursement limitation rates established pursuant to K.S.A. 75-3207a, and amendments thereto, shall be issued through informational circulars of the department of administration. Rates shall be established for the following geographic areas or categories of travel:

- (1) Travel to in-state destinations;
- (2) travel to out-of-state destinations;
- (3) international travel. As used in this regulation, "international travel" shall mean travel outside the 50 states, the District of Columbia, and U.S. territories and possessions;
- (4) travel involving conference lodging that qualifies under K.A.R. 1-16-18a; and
- (5) other categories as the secretary of administration deems appropriate.

(b) Meals allowance; general provisions. Except as provided in subsection (c), the meals allowance shall be paid in an amount not to exceed rates established pursuant to K.S.A. 75-3207a, and amendments thereto.

(c) Meals allowance; exceptions.

(1) If the cost of meals is included within the cost of registration fees or other fees and charges paid by the agency or is supplied without cost by another party, the meal allowance shall be reduced by the appropriate per-meal allowance established pursuant to K.S.A. 75-3207a, and amendments thereto.

(2)(A) Except as prohibited by paragraph (c)(2)(B), the agency head or the agency head's designee may authorize any employee who does not incur lodging expenses to be reimbursed for one meal on any day on which either of the following circumstances occurs:

(i) The employee is required to travel on official state business, and the employee's workday, including travel time, is extended three hours or more beyond the employee's regularly scheduled workday.

(ii) The employee is required to attend a conference or a meeting as an official guest or participant, and a meal is served during the required attendance time.

(B) No meals shall be reimbursed if the location at which the official business is conducted is within 30 miles of the employee's official station or if a meal is provided at no cost to the employee.

(C) Each request for reimbursement of a meal under paragraph (c)(2) shall identify the date,

purpose, destination, and time of the travel, conference, or meeting, and the meal requested for reimbursement.

(D) Each employee who receives reimbursement for a meal under paragraph (c)(2) shall be paid at the applicable per-meal allowance rate established pursuant to K.S.A. 75-3207a, and amendments thereto.

(d) Lodging expense limitations; general provisions.

(1) Reimbursement for lodging, or direct payment of lodging expenses to the lodging establishment, shall be made on the basis of actual, single-rate lodging expenses incurred and shall be supported by the original official receipt of the lodging place or other suitable documentation. Subject to applicable lodging expense limitations established pursuant to K.S.A. 75-3207a and amendments thereto, reimbursement for lodging expenses, or direct payment of lodging expenses to the lodging establishment, shall be limited to the lodging establishment's lowest available rate for normal single occupancy on the day or days the lodging expense was incurred.

(2) Taxes associated with lodging expenses shall not be included in the applicable lodging expense limitation rates established pursuant to K.S.A. 75-3207a, and amendments thereto, and shall be paid as an additional reimbursement.

(e) Lodging expense limitations; exception. Specific exceptions to the applicable dollar limitation on lodging expenses may be made pursuant to K.S.A. 75-3207a, and amendments thereto. (Authorized by and implementing K.S.A. 2015 Supp. 75-3207 and 75-3207a; effective, E-80-10, July 11, 1979; effective May 1, 1980; amended, E-81-14, June 12, 1980; amended May 1, 1981; amended, E-82-14, July 1, 1981; amended May 1, 1982; amended, T-84-20, July 26, 1983; amended May 1, 1984; amended May 1, 1985; amended, T-87-26, Oct. 1, 1986; amended May 1, 1987; amended, T-89-1, Jan. 7, 1988; amended Oct. 1, 1988; amended July 1, 1990; amended, T-1-8-14-90, May 1, 1990; amended Oct. 8, 1990; amended, T-1-9-26-91, Oct. 1, 1991; amended Nov. 18, 1991; amended, T-1-1-1-93, Jan. 1, 1993; amended Feb. 22, 1993; amended, T-1-6-28-95, July 1, 1995; amended Oct. 27, 1995; amended, T-1-7-1-97, July 1, 1997; amended Aug. 8, 1997; amended July 1, 1998; amended July 1, 1999; amended Feb. 15, 2002; amended July 1, 2010; amended Feb. 5, 2016.)

1-16-18a. Designated high-cost geographic areas; exceptions; conference lodging.

(a) For official travel to and from, or within, any designated high-cost geographic area in which the traveler is required to sleep away from home, the applicable subsistence allowance rate for that designated high-cost geographic area may be paid. However, reimbursement on this basis shall not be allowable if the area is only an intermediate stopover at which no official duty is performed or if the subsistence expenses incurred relate to relocation, to travel to seek residence quarters, or to travel to report to a new permanent duty station or to temporary quarters.

(b) Reimbursement for travel in designated high-cost geographic areas shall be at the prescribed designated high-cost geographic area rate, unless the agency establishes a reduced rate as provided in K.A.R. 1-16-15. If an out-of-state trip is to two or more destination cities with different subsistence allowance rates, the subsistence allowance rate shall change subject to and on application of the appropriate meals allowance as determined by the time of arrival at the second destination city.

(c)(1) If an employee is required or authorized to attend a conference, the agency head or the agency head's designee may approve reimbursement or direct payment of actual lodging expenses. Before the date of travel, the employee shall submit to the agency head or the agency head's designee conference materials indicating that the conference will be held at or in connection with a lodging establishment with rates exceeding both the applicable lodging expense limitation established under K.A.R. 1-16-18 and the exception provided in K.S.A. 75-3207a, and amendments thereto.

(2) The reimbursement or direct payment of actual lodging expenses shall be effective for the approved conference and for official state business related to the conference and shall be applicable only to the state employee attending the conference.

(3) For purposes of this regulation, the term "conference" shall mean any seminar, association meeting, clinic, colloquium, convention, symposium, or similar gathering that is attended by a state employee in pursuit of a goal, obligation, function, or duty imposed upon a state agency or performed on behalf of a state agency. (Authorized by and implementing K.S.A. 2015 Supp. 75-3207a; effective, E-80-10, July 11,

1979; effective May 1, 1980; amended May 1, 1981; amended, E-82-14, July 1, 1981; amended May 1, 1982; amended, T-84-20, July 26, 1983; amended May 1, 1984; amended May 1, 1985; amended, T-87-26, Oct. 1, 1986; amended May 1, 1987; amended, T-89-1, Jan. 7, 1988; amended Oct. 1, 1988; amended July 1, 1990; amended, T-1-1-93, Jan. 1, 1993; amended Feb. 22, 1993; amended April 1, 1996; amended July 1, 1998; amended July 1, 1999; amended July 1, 2010; amended Feb. 5, 2016.)

1-16-20. Miscellaneous expense definition. Miscellaneous expense shall mean any expense deemed necessary in the conduct of the official business of the state that is not included in the categories of subsistence allowance, mileage, or fares in lieu of mileage and state-owned vehicle operation. All miscellaneous expenses shall be claimed as "miscellaneous nonsubsistence expense" on the travel reimbursement form as prescribed by the director of accounts and reports and shall include items listed under subsections (b) through (g).

(a) Receipts. A receipt evidencing a payment shall be obtained for each transaction involving miscellaneous expenditures, except taxi fares, telephone calls, telegrams, and intracity streetcar, bus fares, and limousine service.

(b) Baggage. Charges for baggage in excess of the weight or size carried free by transportation companies shall be allowed if the excess baggage is used for official business. Charges for the storage of baggage may also be allowed if it is shown that the storage was due to official business. Specific justification shall be submitted with the travel reimbursement form, as prescribed by the director of accounts and reports.

(c) Telephone and facsimile messages. Expenses for official telephone and facsimile messages that must be paid for by the traveler shall be allowed. Toll and local calls and facsimiles shall be supported by documentation submitted with the travel reimbursement form as prescribed by the director of accounts and reports, showing the date, the city or town called or faxed, the name of the person or firm called or the place to which the fax was sent, and the cost of each call or fax.

(d) Stenographic services. Charges for official stenographic services shall be allowed while on official travel.

(e) Purchase of supplies. The purchase of stationery and all other similar supplies shall be allowed

in emergencies warranting the use for handling official business while on official travel.

(f) Transportation by common carrier or special conveyance. The cost of common or special conveyance transportation tickets shall be considered a miscellaneous expense.

(g) Taxicabs. Taxicab charges shall be claimed for reimbursement as miscellaneous expenses. Both points of origin and destination for each such fare shall be shown on a travel reimbursement form, as prescribed by the director of accounts and reports.

This regulation shall be effective on and after July 1, 2010. (Authorized by and implementing K.S.A. 2008 Supp. 75-3207; effective Jan. 1, 1966; amended, E-69-18, Aug. 14, 1969; amended Jan. 1, 1970; amended July 1, 2010.)

Article 39.—OFFICE OF ADMINISTRATIVE HEARINGS

1-39-1, 1-39-2, 1-39-3, and 1-39-4. (Authorized by and implementing K.S.A. 75-37,121; effective Nov. 20, 1998; revoked Jan. 20, 2017.)

Article 45.—MOTOR VEHICLE PARKING ON CERTAIN STATE-OWNED OR -OPERATED PROPERTY IN SHAWNEE COUNTY

1-45-22. Parking fees for state parking garage. (a) “State parking garage” shall mean the parking garage located on Jackson avenue between 10th and 11th streets that is owned by the Topeka public building commission and operated by the state of Kansas.

(b)(1) Despite the provisions of K.A.R. 1-45-21, parking fees for the state parking garage shall be established on an annual contract basis for state employees and state agencies.

(2) Parking permit fees shall be paid in advance. Each state employee who enters into a parking contract for the state parking garage shall pay the parking fee by biweekly payroll deduction, except for any fee periods or portion of a fee period before the payroll deduction application is processed.

(c) If space in the state parking garage is made available to members of the public either for parking permits or for short-term parking, the following parking fees shall apply to members of the public:

(1) Members of the public with a parking permit shall pay a monthly rate established by the secretary.

(2) Members of the public without a parking permit shall be charged parking fees at the rate of \$1.00 per hour or \$10.00 per day.

(d) The parking fee shall not be prorated, and no refunds shall be made for any unused portions of a month or fee period. The payment of parking fees shall be a continuing obligation until terminated in writing by either party.

This regulation shall be effective on and after January 1, 2016. (Authorized by K.S.A. 75-3706, K.S.A. 2014 Supp. 75-4506 and K.S.A. 75-4507; implementing K.S.A. 2014 Supp. 75-4506; effective Feb. 28, 2003; amended Jan. 1, 2016.)

Article 64.—ADMINISTRATION OF WIRELESS AND VoIP ENHANCED 911 SERVICES

1-64-1. (Authorized by K.S.A. 2006 Supp. 12-5325 and 12-5354; implementing K.S.A. 2006 Supp. 12-5325, 12-5331, 12-5354, and 12-5357; effective Sept. 21, 2007; revoked Feb. 17, 2012.)

Article 65.—ENERGY STAR PRODUCTS AND EQUIPMENT

1-65-1. Purchase of energy star products and equipment. (a) Subject to the provisions of K.S.A. 75-3737a through K.S.A. 75-3744, K.S.A. 75-37,102, and K.S.A. 75-4713 and amendments thereto, each state agency shall acquire products and equipment that bear the energy star label pursuant to K.S.A. 75-37,127, and amendments thereto.

(b) In order to determine the projected cost savings for the useful life of an energy star product, each state agency shall utilize the United States environmental protection agency’s energy savings calculator for the energy star product.

(c) If the United States environmental protection agency has not produced an energy savings calculator for a specific energy star product, then the projected cost savings for the useful life of the energy star product shall be based on a comparison of the following:

(1) The initial cost of the energy star product plus the estimated lifetime operating cost of the energy star product; and

(2) the initial cost of a functionally equivalent product plus the estimated lifetime operating cost of the functionally equivalent product.

(d) This regulation shall apply only to the purchase of new, unused energy star products and equipment. (Authorized by and implementing K.S.A. 2009 Supp. 75-37,127; effective Feb. 4, 2011.)

Article 66.—ENERGY AUDITS FOR REAL PROPERTY

1-66-1. Definitions. For purposes of this article, each of the following terms shall have the meaning specified in this regulation:

(a) “Agency head” means an individual or body of individuals in which the ultimate legal authority of a state agency is vested by any provision of law.

(b) “Division” means the division of facilities management within the Kansas department of administration.

(c) “Energy audit” means the utilization of a building energy-use benchmarking system, including the energy star portfolio manager, that generates a written report that details the conversion of a building’s energy consumption data into energy-intensity metrics for the purpose of comparing the energy use of a building to the national average energy use of similar buildings.

(d) “Energy consumption data” means the monthly amount of energy consumed in the preceding 12-month period as recorded by a utility distributing and selling energy or water services for a particular building.

(e) “Energy-intensity metrics” means the measurement of weather variations and changes in the physical and operating characteristics of each building.

(f) “Energy star portfolio manager” means an online energy management tool created by the United States environmental protection agency that uses an algorithmic formula for tracking and assessing energy and water consumption across a portfolio of buildings. The energy star portfolio manager can be accessed through the division’s web site.

(g)(1) “Excessive amount of energy,” when applied to a building subject to an energy audit, shall be determined by comparing the building’s site and source energy-intensity metrics, annualized to a 12-month period, to the national average site and source energy-intensity metrics of similar buildings.

(2) If the site and source energy-intensity metrics of the building subject to an energy audit are greater than the national average site and source

energy-intensity metrics, then the building shall be deemed to use an excessive amount of energy.

(h) “Secretary” means the secretary of the Kansas department of administration.

(i) “State agency” has the meaning specified in K.S.A. 75-3701, and amendments thereto. (Authorized by and implementing K.S.A. 2009 Supp. 75-37,128; effective Feb. 4, 2011.)

1-66-2. Energy audit required for each state-owned building. (a) If a state agency owns real property, the agency head, or that person’s designee, shall conduct an energy audit of each building on that real property and submit the written report to the division.

(b) An energy audit shall be conducted every five years for each building specified in subsection (a).

(c) If a state agency owns four buildings or less, the written reports for the first energy audits for all of the buildings shall be submitted no later than July 1, 2011.

(d) If a state agency owns five or more buildings, an energy audit for at least one-fifth of all of those buildings shall be conducted each year. The written reports for the first energy audits shall be submitted no later than July 1, 2011.

(e) Each state agency conducting an energy audit shall identify each state-owned building in which an excessive amount of energy is being used, pursuant to K.S.A. 75-37,128 and amendments thereto. (Authorized by and implementing K.S.A. 2009 Supp. 75-37,128; effective Feb. 4, 2011.)

1-66-3. Energy audit required for new lease, or lease renewal or extension, of non-state-owned real property. (a) Each new lease, or lease renewal or extension, for non-state-owned real property submitted by an agency head to the division for approval shall include the written report for an energy audit conducted by the owner or lessor of each building on that real property that is the subject of the new lease, or lease renewal or extension.

(b) Subject to the provisions of K.S.A. 75-3739 and amendments thereto, a new lease, or lease renewal or extension, may be approved if either of the following conditions is met:

(1) The written report for the energy audit indicates that the leased space does not use an excessive amount of energy.

(2) The written report for the energy audit indicates that the leased space uses an excessive

amount of energy, and the new lease, or lease renewal or extension, requires the owner or lessor to implement cost-effective energy conservation measures that are approved by the secretary to reduce or eliminate the excessive amount of energy. (Authorized by and implementing K.S.A. 2009 Supp. 75-37,128; effective Feb. 4, 2011.)

Article 67.—ENERGY EFFICIENCY PERFORMANCE STANDARDS FOR STATE-OWNED BUILDINGS

1-67-1. Definitions. For purposes of this article, each of the following terms shall have the meaning specified in this regulation:

(a) “Agency architect” has the meaning specified in K.S.A. 75-1254(a)(3), and amendments thereto.

(b) “Agency engineer” has the meaning specified in K.S.A. 75-1254(a)(3), and amendments thereto.

(c) “ASHRAE” has the meaning specified in K.S.A. 75-37,126, and amendments thereto.

(d) “Design development” means drawings and other documents that describe the size and character of a project’s architectural, structural, mechanical, and electrical systems.

(e) “IECC” has the meaning specified in K.S.A. 75-37,126, and amendments thereto.

(f) “New construction” has the meaning specified in K.S.A. 75-37,126, and amendments thereto.

(g) “Project architect” has the meaning specified in K.S.A. 75-1251, and amendments thereto.

(h) “Project engineer” has the meaning specified in K.S.A. 75-1251, and amendments thereto. (Authorized by and implementing K.S.A. 2009 Supp. 75-37,129a; effective Feb. 4, 2011.)

1-67-2. Energy efficiency performance standards for new construction. (a) Subject to the provisions of K.S.A. 75-1250 through K.S.A. 75-1267 and K.S.A. 75-3784 and amendments thereto, each agency architect, agency engineer, project architect, or project engineer shall comply with ASHRAE or IECC at the time of submission of the design development for new construction.

(b) If an agency architect, agency engineer, project architect, or project engineer seeks to comply with a functionally equivalent standard other than ASHRAE or IECC at the time of submission of the design development for new construction, the agency architect, agency engineer, project architect, or project engineer shall submit a report ver-

ifying life-cycle cost-effective compliance for the new construction. The report shall be submitted to the department of administration, division of facilities management. (Authorized by and implementing K.S.A. 2009 Supp. 75-37,129a; effective Feb. 4, 2011.)

1-67-3. Energy efficiency performance standards for renovated, retrofitted, or repaired buildings. (a) Subject to the provisions of K.S.A. 75-1250 through K.S.A. 75-1267 and K.S.A. 75-3784 and amendments thereto, each agency architect, agency engineer, project architect, or project engineer shall, to the extent possible, comply with ASHRAE or IECC at the time of submission of the design development for the renovation, retrofit, or repair of each state-owned building.

(b) If an agency architect, agency engineer, project architect, or project engineer seeks to comply with a functionally equivalent standard other than ASHRAE or IECC at the time of submission of the design development for the renovation, retrofit, or repair of each state-owned building, the agency architect, agency engineer, project architect, or project engineer shall submit a report verifying life-cycle cost-effective compliance for the renovation, retrofit, or repair of each state-owned building. The report shall be submitted to the department of administration, division of facilities management. (Authorized by and implementing K.S.A. 2009 Supp. 75-37,129a; effective Feb. 4, 2011.)

Article 68.—AVERAGE FUEL ECONOMY STANDARDS FOR STATE-OWNED MOTOR VEHICLES

1-68-1. Definitions. For purposes of this article, each of the following terms shall have the meaning specified in this regulation:

(a) “Average fuel economy” shall have the meaning assigned to that term in 40 C.F.R. 600.002-85(a)(14), as in effect on July 1, 2007, which is hereby adopted by reference.

(b)(1) “Life-cycle cost-effective,” when used to describe a motor vehicle that is being compared to another motor vehicle, shall mean the motor vehicle with a lower life-cycle cost, as determined according to this subsection.

(2) To determine the life-cycle cost of each motor vehicle, the following formula shall be used: (Average annual fuel cost of the motor vehicle x

6.67) + purchase price of the motor vehicle. The multiplier 6.67 reflects 100,000 miles divided by 15,000 miles per year.

(3) If the motor vehicles being compared have identical life-cycle costs as computed in accordance with this subsection, then these motor vehicles shall be deemed to be equally life-cycle cost-effective.

(c) “Motor vehicle” shall have the meaning assigned to “automobile” in 40 C.F.R. 600.002-85(a)(4), as in effect on July 1, 2007, which is hereby adopted by reference. As used in that federal regulation, “secretary” shall mean the U.S. secretary of transportation or that person’s authorized representative.

(d) “State agency” has the meaning specified in K.S.A. 75-3701, and amendments thereto. (Authorized by and implementing K.S.A. 2009 Supp. 75-4618; effective Feb. 4, 2011.)

1-68-2. Purchase of a new motor vehicle during fiscal year 2011. (a) Each state agency that seeks to purchase a new motor vehicle during

fiscal year 2011 shall be subject to the provisions of K.S.A. 75-3739 through K.S.A. 75-3740a, K.S.A. 75-37,102, and K.S.A. 75-4618 and amendments thereto.

(b) Each state agency that seeks to purchase a new motor vehicle without complying with subsection (a) shall meet the following requirements before the purchase of the new motor vehicle:

(1) Submit a written motor vehicle purchase request to the department of administration, division of budget, on a form authorized by the division of budget; and

(2) obtain approval to purchase the new motor vehicle from the department of administration, division of budget.

(c) The director of the division of purchases in the department of administration shall obtain the average fuel economy for each motor vehicle on contract and ensure that each motor vehicle purchased as specified in subsection (a) is life-cycle cost-effective. (Authorized by and implementing K.S.A. 2009 Supp. 75-4618; effective Feb. 4, 2011.)

Agency 3

State Treasurer

Articles

3-3. LINKED DEPOSIT LOAN PROGRAMS.

3-4. LOW-INCOME FAMILY POSTSECONDARY SAVINGS ACCOUNTS INCENTIVE PROGRAM.

Article 3.—LINKED DEPOSIT LOAN PROGRAMS

3-3-2. Kansas housing loans. (a) The proceeds of all housing loans authorized by K.S.A. 75-4276 et seq., and amendments thereto, may be used for building newly constructed residential structures or rehabilitating existing residential structures.

(1) A “residential structure” shall mean an improvement to real property that is intended to be used or occupied as a single-family residential dwelling or a multifamily residential dwelling of four attached living units or less.

(2) A “newly constructed residential structure” shall mean a residential structure that has never been occupied for any purpose and initially sells or is appraised by an independent certified real estate appraiser or an independent licensed real estate appraiser for less than \$287,434 for a single-family residence, \$367,975 for a two-family residence, \$444,751 for a three-family residence, and \$552,757 for a four-family residence. The value of the property shall include the value of the land upon which the improvement is located only if the cost of the land is included in the housing loan.

(3) Each loan for rehabilitating a residential structure shall be at least \$15,000, and the value of the property upon completion of the project shall be estimated to be less than the amounts listed in paragraph (a)(2) using either an appraisal by an independent certified real estate appraiser or an independent licensed real estate appraiser or the most recent county appraisal of the property plus the cost of the rehabilitation project.

(b) Loans to savings banks and savings and loan associations statewide may be made by the treasurer. (Authorized by K.S.A. 2009 Supp. 75-4278; implementing K.S.A. 2009 Supp. 75-4277(e), as amended by L. 2010, ch. 113, sec. 1(e), and K.S.A. 2009 Supp. 75-4279(g), as amended by L. 2010, ch. 113, sec. 2(g); effective, T-3-6-25-08, July 1,

2008; effective Oct. 24, 2008; amended, T-3-5-12-10, May 12, 2010; amended Jan. 21, 2011.)

Article 4.—LOW-INCOME FAMILY POSTSECONDARY SAVINGS ACCOUNTS INCENTIVE PROGRAM

3-4-1. Definitions. In addition to the terms and definitions in K.S.A. 75-643 and K.S.A. 75-650 and amendments thereto, the following terms shall have the meanings specified in this regulation:

(a) “Account owner” means the account owner or joint account owners of a participant account.

(b) “Contribution” means any deposit made by an account owner to that account owner’s participant account during a calendar year, except any deposit that is one of the following:

(1) A rollover from another account in the Kansas postsecondary education savings program;

(2) a rollover from another state’s qualified tuition program as defined in internal revenue code section 529;

(3) a transfer from a Coverdell education savings account as defined in internal revenue code section 530; or

(4) a transfer of proceeds from a qualified U.S. savings bond as described in internal revenue code section 135(c)(2)(C).

(c) “Household” means a group of individuals who are related by birth, marriage, or adoption and who share a residence.

(d) “Participant” has the meaning specified in K.S.A. 75-650, and amendments thereto. Each participant shall be a beneficiary of a Kansas postsecondary education savings program account, as defined in K.S.A. 75-643 and amendments thereto.

(e) “Participant account” means the Kansas postsecondary education savings program account established by an account owner for the benefit of a participant who is enrolled in the matching grant program.

This regulation shall be effective on and after January 1, 2010. (Authorized by and implementing K.S.A. 2008 Supp. 75-650, as amended by L. 2009, ch. 113, sec. 1; effective, T-3-6-29-06, June 29, 2006; effective Oct. 27, 2006; amended July 6, 2007; amended Jan. 1, 2010.)

3-4-2. Eligibility requirements. Each account owner shall meet the following requirements:

- (a) Be a resident of the state of Kansas;
- (b) reside in a household with a combined federal adjusted gross income for all individuals residing in the household that is not more than 200 percent of the current federal poverty level; and
- (c) not be claimed as a dependent on someone else's income tax return.

This regulation shall be effective on and after January 1, 2010. (Authorized by and implementing K.S.A. 2008 Supp. 75-650, as amended by 2009 SB 225, sec. 1; effective, T-3-6-29-06, June 29, 2006; effective Oct. 27, 2006; amended July 6, 2007; amended Jan. 1, 2010.)

3-4-4. Eligibility period. Each participant shall be entitled to a matching grant equal to the amount of the account owner's contributions to the participant account for the program year in which the account owner's application is approved. The program year shall coincide with the period designated for contributions that are eligible for the deduction pursuant to K.S.A. 79-32,117(c)(xv) and amendments thereto. Each account owner shall reapply each program year to remain eligible for the program. A participant shall not be eligible during a program year in which a qualified or nonqualified withdrawal is taken from the participant account.

This regulation shall be effective on and after January 1, 2010. (Authorized by and implementing K.S.A. 2008 Supp. 75-650, as amended by L. 2009, ch. 113, sec. 1; effective, T-3-6-29-06, June 29, 2006; effective Oct. 27, 2006; amended July 6, 2007; amended Jan. 1, 2010.)

3-4-5. Matching grant accounts. The matching grant funds for each participant shall be deposited in a separate account in the account owner's name for the benefit of the participant, with the following restrictions:

- (a) No change in ownership of the participant account or the corresponding matching grant account shall be allowed, except upon approval by the treasurer. A change in account ownership to

another account owner who meets the eligibility requirements in K.A.R. 3-4-2 may be approved by the treasurer. A change in account ownership to any individual may be approved by the treasurer upon the account owner's death, divorce, or incapacity.

- (b) For participant accounts that are not used to participate in the matching grant program after January 1, 2010, any change in the designated beneficiary for a participant account by the account owner shall cause the beneficiary for the corresponding matching grant account to be changed to the same new beneficiary.

- (c) The investment portfolio for the corresponding matching grant account shall always be the same as the investment portfolio selected for each participant account.

- (d) Each request for a withdrawal from the matching grant account shall be submitted to the treasurer's office for approval. If the treasurer determines that the request is for qualified higher education expenses, then the request shall be approved. Each approved withdrawal from the matching grant account shall be paid either directly to the educational institution or to the account owner or the designated beneficiary, upon presentation of documentation acceptable to the treasurer that the account owner or designated beneficiary has paid qualified higher education expenses at least equal to the amount of the requested withdrawal. Each approved withdrawal shall be equally funded from the participant account and the corresponding matching grant account.

This regulation shall be effective on and after January 1, 2010. (Authorized by and implementing K.S.A. 2008 Supp. 75-650, as amended by 2009 SB 225, sec. 1; effective, T-3-6-29-06, June 29, 2006; effective Oct. 27, 2006; amended July 6, 2007; amended Jan. 1, 2010.)

3-4-6. This regulation shall be revoked on January 1, 2010. (Authorized by and implementing K.S.A. 2006 Supp. 75-650; effective, T-3-6-29-06, June 29, 2006; effective Oct. 27, 2006; amended July 6, 2007; revoked Jan. 1, 2010.)

3-4-7. Forfeit of matching grant funds.

- (a)(1) Except as specified in paragraphs (a)(2) and (a)(3), funds in a matching grant account shall be forfeited in an amount equal to either of the following:

- (A) Any nonqualified withdrawal from the corresponding participant account; or

(B) any rollover distribution to another qualified tuition plan from the corresponding participant account.

(2) If any nonqualified withdrawal or rollover distribution closes a participant account, the corresponding matching grant account shall be closed and its entire balance shall be forfeited.

(3) Any account owner who contributes more than the maximum matching grant amount may make a nonqualified withdrawal or rollover distribution of the excess contribution without forfeiting funds from the matching grant account.

(b) If the treasurer determines that the account owner has made a material misrepresentation on the application, all matching grant funds resulting from the application shall be forfeited.

(c) If a participant account ever becomes reportable as unclaimed property under K.S.A. 58-3934 et seq. and amendments thereto or the

unclaimed property laws of any other state, the remaining balance in the corresponding matching grant account shall be forfeited.

(d) For participants who are enrolled in the matching grant program on or after January 1, 2010, if the account owner changes the beneficiary of the participant account, all funds in the corresponding matching grant account shall be forfeited regardless of when the matching grant was provided by the state.

(e) All forfeited funds shall be returned to the Kansas postsecondary education savings trust fund.

This regulation shall be effective on and after January 1, 2010. (Authorized by and implementing K.S.A. 2008 Supp. 75-650, as amended by 2009 SB 225, sec. 1; effective, T-3-6-29-06, June 29, 2006; effective Oct. 27, 2006; amended Jan. 1, 2010.)

Article 1.—AGRICULTURAL CHEMICALS

4-1-2. Definitions. In addition to the terms defined in K.S.A. 2-2202 and amendments thereto, the following terms shall have the meanings specified in this regulation: (a) “Abstracted,” as used in K.S.A. 2-2202(x)(3) and amendments thereto, means omitted.

(b) “The act,” and “the agricultural chemical act” mean K.S.A. 2-2201 et seq., and amendments thereto.

(c) “Authorized representative” and “designee” mean any person authorized by the secretary to enforce the act.

(d) “Pesticide” shall include insecticides, fungicides, rodenticides, herbicides, nematocides, defoliants, desiccants, and antimicrobials.

(e) “Plant-incorporated protectant” means any pesticidal substance produced by any plant and the genetic material necessary for the plant to produce the substance.

(f) “Plant regulator” shall not include any substance labeled or otherwise represented solely for use as a plant nutrient, fertilizer, or soil amendment.

(g) “Product” means one or more pesticides formulated, packaged, and labeled for distribution or sale.

(h) “Valuable constituent” means any active ingredient or inert ingredient. (Authorized by

K.S.A. 2009 Supp. 2-2205; implementing K.S.A. 2009 Supp. 2-2202; effective Jan. 1, 1966; amended May 1, 1982; amended June 10, 2011.)

4-1-5. Label. The label of each product shall show clearly and prominently the following items:

(a) The complete name of the product under which the product is registered under the act;

(b) the name and address of the manufacturer, registrant, or person for whom the product was manufactured. Unless otherwise stated, any name and address on the label shall be considered as the name and address of the manufacturer. If the registrant’s name appears on the label and the registrant is not the manufacturer or if the name of the person for whom the product was manufactured appears on the label, the name that appears on the label shall be qualified by appropriate wording that may include “packed for,” “distributed by,” or “sold by,” to indicate that the name is not that of the manufacturer. If the product is manufactured in more than one location or at a location separate from the manufacturer’s principal office, then the product label shall state either one of the addresses where the product is manufactured or the address of the manufacturer’s principal office;

(c) the EPA registration number, if required under the provisions of FIFRA;

(d) the net contents;

(e) an ingredient statement, which shall meet the following requirements:

(1) The ingredient statement shall appear on the front panel of the label unless the secretary or designee determines that, due to the size or form of the container, a statement on that portion of the label is impractical and permits this statement to appear on another side or panel of the label. If so permitted, the ingredient statement shall be in larger type and more prominent than the surrounding text. The ingredient statement shall run parallel with other printed matter on the panel of the label on which the ingredient statement appears and shall be on a clear, contrasting background and not obscured or crowded;

(2) the acceptable common name of each active ingredient as specified in FIFRA shall appear on the ingredient statement or, if the active ingredient has no common name, the correct chemical name shall be stated. A trademark or trade name shall not be used as the name of an active ingredient unless the trademark or trade name has become a common name;

(3) active ingredients and inert ingredients shall be so designated. The term "inert ingredient" shall appear in the same size type and be as prominent as the term "active ingredient"; and

(4) the percentages of all ingredients shall be determined by weight, and the sum of the percentages of all ingredients shall be 100. Sliding-scale forms of ingredient statements shall not be used;

(f) a first aid statement; and

(g) a warning or caution statement. The warning or caution statement shall appear on the label in a place sufficiently prominent to warn the user and shall state clearly and in nontechnical language the particular hazards involved in the use of the product and the precautions to be taken to avoid accident, injury, or damage to humans and other nontarget organisms. (Authorized by K.S.A. 2010 Supp. 2-2205; implementing K.S.A. 2010 Supp. 2-2202; effective Jan. 1, 1966; amended May 1, 1982; amended June 10, 2011.)

4-1-6. (Authorized by K.S.A. 2-2205; implementing K.S.A. 2-2203; effective Jan. 1, 1966; amended May 1, 1982; revoked June 10, 2011.)

4-1-8. (Authorized by K.S.A. 2-2205; implementing K.S.A. 2-2203; effective Jan. 1, 1966; amended May 1, 1982; revoked June 10, 2011.)

4-1-9. Registration. (a) Pursuant to K.S.A. 2-2204 and amendments thereto, a product may be

registered by one of the following: any manufacturer, authorized agent of the manufacturer, packer, seller, distributor, or shipper of that product.

(b) The registrant shall be responsible for the accuracy and completeness of all information submitted in connection with the application for registration of a product.

(c) Each registrant shall submit the product labeling to the secretary or designee when initially registering the product and whenever changing or modifying the labeling. When a registrant submits a product's labeling due to a change or modification in the labeling, the labeling shall be accompanied with a written statement that clearly and specifically describes the changes from the previous labeling and the proposed date of implementation of the new labeling. After the effective date of a change in labeling, the product shall be marketed only under the new labeling. Any registrant may request from the secretary or designee that a reasonable time be permitted to relabel or dispose of any products with the old labeling. After the initial registration of a product, any registrant may register that product no more than four consecutive years without the submission of the product label if there is no change to the product label.

(d) Claims or representations made for a product by the registrant or registrant's agent shall not differ from claims or representations made in connection with registration. These claims or representations shall include the following:

(1) Publications or advertising literature that accompanies the product or is distributed separately from the product;

(2) advertising by radio, television, internet sites, or other electronic media; and

(3) verbal and written communication.

(e) If the secretary requires additional information in support of the registration and the registrant believes that the requirement for additional data is unreasonable, the registrant may request a conference with the secretary or designee to discuss the requirement and consider alternatives. Each request for a conference shall be made no later than 20 days after the date on which the request for additional data is sent to the registrant.

(f) Each registration shall be valid through the last day of the calendar year in which the product was registered, unless the registration has been canceled or suspended before that day. (Authorized by K.S.A. 2010 Supp. 2-2205; implementing K.S.A. 2010 Supp. 2-2204; effective Jan. 1, 1966; amended May 1, 1982; amended June 10, 2011.)

4-1-9a. Registration for special local need. (a) Each person registering a product for additional uses and methods of application not stated on the product's labeling under section three of FIFRA, but not inconsistent with federal law, for the purpose of meeting a special local need shall submit an application for the special local need to the secretary or designee. Each application shall include the following:

- (1) A statement explaining why a special local need registration is necessary;
- (2) efficacy and residue data;
- (3) a letter from a subject matter expert, as recognized by the secretary or designee, detailing support for the special local need registration;
- (4) EPA form 8570-25, "application for/notification of state registration of a pesticide to meet a special local need"; and
- (5) a proposed label for the product.

(b) A product shall not be eligible for special local need registration if at least one of the following conditions is met:

(1) There is insufficient evidence to support a special local need for the additional use or method of application within the state.

(2) The registrant and product do not meet all requirements under the act and the Kansas pesticide law.

(3) For a food or feed use, the additional use or method of application does not have an established residue tolerance, or an exemption from tolerance, under FIFRA.

(4) The same use or method of application has previously been denied, disapproved, suspended, or cancelled by EPA.

(5) The same use or method of application has been voluntarily cancelled by the registrant.

(c) A special local need registration shall be issued to the applicant upon referral of the application to EPA by the secretary.

(d) A special local need registration shall be immediately cancelled by the secretary or designee if the application is disapproved by EPA.

(e) Each special local need registration of a product shall be renewed annually, but may be renewed no more than four times without resubmission of a special local need request pursuant to K.A.R. 4-1-9a. (Authorized by K.S.A. 2009 Supp. 2-2205 and K.S.A. 2009 Supp. 2-2214; implementing K.S.A. 2009 Supp. 2-2207; effective June 10, 2011.)

4-1-9b. Emergency situation exemptions.

(a) Any person may submit a request for a registra-

tion exemption under section 18 of FIFRA to the secretary or designee if an emergency situation exists.

(b) "Emergency situation" shall include the following: a specific emergency, a public health emergency, a quarantine emergency, and a crisis emergency that is urgent and nonroutine.

(c) Each request for registration exemption under section 18 of FIFRA shall include documentation of each of the following:

(1) No effective registered products are available.

(2) No feasible alternative control practices are available.

(3) The emergency situation involves the introduction of a new pest, will present significant risks to human health or the environment, or will cause significant economic loss.

(d) Each person seeking an emergency situation exemption shall compile and present to the secretary or designee any additional information required by EPA to support the request.

(e) Each person distributing a product under the emergency situation exemption shall provide the end user with the product labeling that was approved for the emergency situation exemption.

(f) Each person distributing or using products under an emergency situation exemption shall meet the following requirements:

(1) Comply with all reporting requirements contained within the emergency situation exemption; and

(2) notify the secretary or designee of any adverse effects resulting from the use of the product. (Authorized by K.S.A. 2009 Supp. 2-2205; implementing K.S.A. 2009 Supp. 2-2207; effective June 10, 2011.)

4-1-11. (Authorized by K.S.A. 2-2205; implementing K.S.A. 2-2202; effective Jan. 1, 1966; amended May 1, 1982; revoked June 10, 2011.)

4-1-13. Enforcement; product sampling.

Collection of samples of products for analysis shall be performed by the secretary or designee. A sample may be taken as either an unopened original package or a portion from the unopened original package. (Authorized by K.S.A. 2009 Supp. 2-2205; implementing K.S.A. 2009 Supp. 2-2206, as amended by L. 2010, ch. 17, §10; effective Jan. 1, 1966; amended May 1, 1982; amended June 10, 2011.)

4-1-14. Experimental use. (a) A product, including a plant or seed modified genetically to

include a plant-incorporated protectant, may be distributed for experimental use without registration under K.S.A. 2-2204, and amendments thereto, if either of the following conditions is met:

(1) A permit for the product has been obtained from the secretary or designee.

(2) The experimental use of the product is limited to one of the following:

(A) Laboratory or greenhouse tests; or

(B) A small-scale test conducted on a cumulative total of no more than one acre of land per pest.

(b) An experimental use permit may be issued if the secretary or designee determines that the applicant needs the permit to accumulate information necessary to register a pesticide under K.S.A. 2-2204, and amendments thereto. Issuance of an experimental use permit may be denied by the secretary or designee if it is determined that the proposed use of the pesticide could cause unreasonable adverse effects on the environment. Terms, conditions, and a limited time period of the experimental use permit may be prescribed by the secretary or designee.

(c) Each application for experimental use shall include the following:

(1) The name and address of the applicant;

(2) the purpose or objectives of the experimental use and the experimental protocols to be followed;

(3) the name, address, and telephone number of all participants in the experimental use in Kansas;

(4) the amount of the product, including a plant or seed modified genetically to include a plant-incorporated protectant, to be shipped into or used in Kansas;

(5) the applicant's signature;

(6) documentation of EPA approval;

(7) a copy of the experimental use product labeling approved by EPA; and

(8) any other relevant information requested by the secretary or designee. If the secretary requires additional information in support of the application and the applicant believes that the requirement for additional data is unreasonable, the applicant may request a conference with the secretary or designee to discuss the requirement and consider alternatives. Each request for a conference shall be made no later than 20 days after the date the request for additional data is sent to the applicant.

(d) After the permit is issued, the permittee shall meet the following requirements:

(1) Coordinate the dates and locations of the proposed use of the product with the secretary or designee; and

(2) notify the secretary or designee of any adverse effects resulting from the experimental use within 24 hours of discovery.

(e) An experimental use permit may be modified, revoked, suspended, or modified by the secretary or designee at any time if either of the following conditions is met:

(1) The secretary or designee finds that the terms or conditions of the permit are being violated.

(2) The secretary or designee, after taking into account the economic, social, and environmental costs and benefits of the use of the product under the existing permit, determines the risk to the environment to be unacceptable.

(f) At the conclusion of the experimental use, the permittee shall submit a final report to the secretary or designee summarizing the results. (Authorized by K.S.A. 2009 Supp. 2-2205; implementing K.S.A. 2009 Supp. 2-2207; effective Jan. 1, 1966; amended May 1, 1982; amended June 10, 2011.)

4-1-17. Registration fee. The annual registration fee for each registered product shall be \$150.00. (Authorized by K.S.A. 2009 Supp. 2-2204 and K.S.A. 2009 Supp. 2-2205; implementing K.S.A. 2009 Supp. 2-2204; effective, T-83-35, Nov. 10, 1982; effective May 1, 1983; amended, T-88-46, Nov. 10, 1987; amended May 1, 1988; amended, T-4-6-22-89, June 22, 1989; amended Aug. 14, 1989; amended, T-4-6-27-02, July 1, 2002; amended Oct. 25, 2002; amended June 10, 2011.)

Article 2.—AGRICULTURAL SEED

4-2-3. Sampling procedure. (a) Each of the following terms, as used in this regulation, shall have the meaning specified in this subsection:

(1) "Free-flowing seed" means any agricultural seed that readily sheds the husks, hulls, awns, bran, and other plant parts while being conditioned, allowing the seeds to move freely and independently of each other.

(2) "Non-free-flowing seed" means any agricultural seed that, because of attached husks, hulls, awns, bran, and other plant parts that do not readily separate from the seed while being conditioned, tends to bind together, preventing the seeds from moving independently of each other.

(3) "Seed" means agricultural seed as defined in K.S.A. 2-1415, and amendments thereto.

(b) To obtain a representative sample, equal portions shall be taken from evenly distributed

parts of the lot to be sampled based on the type of seed and number of containers, unless the seed is stored or piled in a manner that makes taking a representative sample impossible or impractical.

(c) For free-flowing seed in bags or bulk, a probe or trier long enough to sample all portions of the bag shall be used.

(d) All non-free-flowing seed, including uncleaned agricultural seed and chaffy range grasses that are difficult to sample with a probe or trier, shall be sampled by thrusting the hand into the bulk and withdrawing representative portions.

(e) The portions collected from a single lot shall be combined into one or more composite samples.

(f) As the seed is sampled, each portion shall be examined. If a lack of uniformity appears to exist, additional samples shall be taken to determine whether a lack of uniformity exists. (Authorized by K.S.A. 2016 Supp. 2-1427; implementing K.S.A. 2-1416 and K.S.A. 2016 Supp. 2-1423; effective Jan. 1, 1966; amended Oct. 6, 2017.)

4-2-8. Methods of analyses. (a) Subject to the provisions of subsections (f), (g), and (h) of this regulation, the methods of analysis shall be those published by the association of official seed analysts in the following sections of volume 1 of the “AOSA rules for testing seeds,” titled “principles and procedures,” including all tables and charts, dated October 1, 2016 and hereby adopted by reference:

(1) Section 2, preparation of working samples, except page 2-60;

(2) section 3, the purity analysis, except page 3-30;

(3) section 4, uniform classification of weed and crop seeds;

(4) section 5, examinations;

(5) section 6, germination tests;

(6) section 8, tetrazolium testing;

(7) section 12, mechanical seed counts; and

(8) section 14, tolerances, except subsection 14.10.

(b) Volume 2 of the association of official seed analysts’ “AOSA rules for testing seeds,” titled “uniform blowing procedure,” revised 2015, is hereby adopted by reference, except page ii, section 1, and section 8.

(c) Volume 3 of the association of official seed analysts’ “AOSA rules for testing seeds,” titled “uniform classification of weed and crop seeds,” revised 2016, is hereby adopted by reference, except pages i-iii and viii-xiv.

(d) Volume 4 of the association of official seed analysts’ “AOSA rules for testing seeds,” titled “seedling evaluation,” including illustrations, dated 2016, is hereby adopted by reference, except pages i-vi; page 18; the “references” sections on pages 22, 41, 46, 58, 62, 67, 98, 109, and 115; and pages 135-139.

(e) The “AOSA/SCST tetrazolium testing handbook,” prepared by the tetrazolium subcommittee of the association of official seed analysts and the society of commercial seed technologists, including tables and illustrations, 2010 edition, is hereby adopted by reference, except pages i-viii; in part 1, subsections 1, 3, 7, and 15.2; part 4; and part 5.

(f) For the purpose of this regulation, the term “noxious-weed seed” used in the material adopted by reference in this regulation shall mean “restricted weed seed” as defined in K.S.A. 2-1415 and amendments thereto.

(g) For the purpose of this regulation, the term “purity tolerances” used in the material adopted by reference in this regulation shall mean “the greatest non-significant difference between two values, which may be two estimates or a specification and an estimate.”

All other terms used in the material adopted by reference in this regulation shall have the meanings specified in the adopted portions of the “AOSA rules for testing seeds,” unless a term is defined by K.S.A. 2-1415 and amendments thereto, in which case the term shall have the meaning specified in that statute.

(h) The following restrictions shall apply in addition to tolerances for the testing of seed in section 14 adopted by reference in paragraph (a)(8) of this regulation:

(1) Restricted weed seed tolerances shall not exceed the limitations specified in K.S.A. 2-1415 and amendments thereto.

(2) No tolerance shall be applied to any seed component that is guaranteed as “none” on the label. (Authorized by K.S.A. 2016 Supp. 2-1427; implementing K.S.A. 2016 Supp. 2-1423; effective Jan. 1, 1966; amended May 1, 1983; amended Jan. 1, 1989; amended Dec. 12, 1994; amended Jan. 18, 2008; amended Oct. 6, 2017.)

4-2-17a. (Authorized by K.S.A. 2-1427; implementing K.S.A. 2-1425 as amended by 1989 HB 2133; effective, T-4-7-5-89, July 5, 1989; effective Aug. 14, 1989; revoked Oct. 6, 2017.)

4-2-21. Registration fees for wholesalers and retailers. (a) Each wholesaler shall pay a registration fee of \$250 for each location at which the wholesaler is doing business.

(b) Each retailer shall pay a registration fee of \$30 for each location at which the retailer is doing business.

(c) Each person registering as both a wholesaler and a retailer at the same location shall pay a registration fee of \$280 for each location at which the person is doing business. (Authorized by K.S.A. 2016 Supp. 2-1421a and 2-1427; implementing K.S.A. 2016 Supp. 2-1421a; effective Oct. 6, 2017.)

Article 3.—COMMERCIAL FEEDING STUFFS

4-3-47. Adoption by reference. (a) The following portions of the “2010 official publication” copyrighted in 2010 by the association of American feed control officials incorporated are hereby adopted by reference and shall apply to commercial feeding stuffs in this state:

(1) Regulations 1 through 13 of the “AAFCO model good manufacturing practice regulations for feed and feed ingredients” on pages 128 through 132, with the following changes:

(A)(i) In the first sentence of regulation 1, “section 3 of the model bill” shall be replaced with “K.S.A. 2-1001, and amendments thereto”; and

(ii) in the definition of “adulteration” in regulation 1, “section 7(a) of the model bill” shall be replaced with “K.S.A. 65-664, and amendments thereto”; and

(B) in the second sentence of regulation 11(b), the blank line following “agents of the” shall be replaced with “Kansas department of agriculture”;

(2) the text titled “official feed terms” on pages 314 through 323; and

(3) the text titled “official names and definitions of feed ingredients as established by the association of American feed control officials” on pages 324 through 415.

(b) Copies of the material adopted by reference in this regulation may be obtained from the office of the agricultural commodity assurance program, Kansas department of agriculture, Topeka, Kansas. (Authorized by K.S.A. 2-1011 and K.S.A. 2009 Supp. 2-1013; implementing K.S.A. 2009 Supp. 2-1002 and K.S.A. 2009 Supp. 2-1013; effective May 1, 1981; amended May 1, 1982; amended May 1, 1984; amended May 1, 1988; amended

Oct. 21, 1991; amended Dec. 12, 1994; amended June 15, 2001; amended Jan. 18, 2008; amended, T-4-1-5-11, Jan. 5, 2011; amended April 29, 2011.)

4-3-48. (Authorized by K.S.A. 2-1013 as amended by L. 1987, Ch. 7, Sec. 1; implementing K.S.A. 2-1002 and 2-1013 as amended by L. 1987, Ch. 7, Sec. 1; effective May 1, 1981; amended May 1, 1982; amended May 1, 1984; amended May 1, 1988; revoked April 29, 2011.)

4-3-49. Good manufacturing practices; adoption by reference. (a) Except for those portions excluded by this subsection, 21 CFR Parts 225 and 226, as revised on April 1, 2010, are hereby adopted by reference and shall apply to good manufacturing practices for the production of commercial feeding stuffs in Kansas:

(1) Subpart (c) of section 225.1 is not adopted by reference.

(2) In section 225.115(b)(2), the following language shall be deleted: “, under §510.301 of this chapter.”

(3) Subpart (b) of section 226.1 is not adopted by reference.

(b) Copies of the regulations, or pertinent portions of the regulations, shall be available from the office of the agricultural commodity assurance program, Kansas department of agriculture, Topeka, Kansas. (Authorized by and implementing K.S.A. 2010 Supp. 2-1013; effective, T-88-46, Nov. 10, 1987; effective May 1, 1988; amended Oct. 21, 1991; amended Dec. 12, 1994; amended, T-4-2-13-01, Feb. 13, 2001; amended June 15, 2001; amended Jan. 18, 2008; amended Sept. 9, 2011.)

4-3-50. Good manufacturing practices; definitions. The following terms as used in 21 C.F.R. Parts 225 and 226, which are adopted by reference in K.A.R. 4-3-49, shall have the following meanings: (a) The term “form,” referred to either by number or by any other designation, shall mean a form supplied by the agricultural commodity assurance program, Kansas department of agriculture.

(b) The term “state feed control officials” shall mean the secretary of the Kansas department of agriculture or the secretary’s authorized representative.

(c) The term “center for veterinary medicine” shall mean the agricultural commodity assurance program, Kansas department of agriculture unless the context requires otherwise.

(d) The term “type A medicated article” shall mean a feeding stuff or ingredient for a feeding stuff that is intended solely for use in the manufacture of either another type A medicated article or a type B or type C medicated feed.

(e) The term “type B medicated feed” shall mean a feeding stuff or an ingredient for a feeding stuff that contains a substantial quantity of nutrients including vitamins or minerals or other nutritional ingredients in an amount not less than 25% of the weight of the type A medicated article and that is intended solely for the manufacture of other medicated feeds, either type B or type C.

(f) The term “type C medicated feed” shall mean a feeding stuff or an ingredient for a feeding stuff that contains a substantial quantity of nutrients including vitamins, minerals, or other nutritional ingredients and that is intended as the complete feed for the animal. (Authorized by and implementing K.S.A. 2009 Supp. 2-1013; effective, T-88-46, Nov. 10, 1987; effective May 1, 1988; amended April 29, 2011.)

4-3-51. Prohibited feeding stuffs; adoption by reference. (a) The following portions of 21 CFR Part 589, revised on April 1, 2010, with the changes specified in this subsection, are hereby adopted by reference and shall apply to the production of all commercial feeding stuffs and custom-mixed feed in Kansas:

(1) The second sentence of section 589.1000 shall be replaced with the following sentence: “Use of gentian violet in animal feed causes the feed to be adulterated under K.S.A. 65-664.”

(2) The second sentence of section 589.1001 shall be replaced with the following sentence: “Use of propylene glycol in or on cat food causes the feed to be adulterated under K.S.A. 65-664.”

(3) In section 589.2000(d)(5), “Food and Drug Administration” shall be replaced with “Kansas department of agriculture.”

(4) In section 589.2000(f), “Food and Drug Administration” shall be replaced with “Kansas department of agriculture.”

(5) In section 589.2000(g)(1), “section 402(a)(2) (C) or 402(a)(4) of the act” shall be replaced with “K.S.A. 65-664.”

(6) In section 589.2000(g)(2), “section 403(a)(1) or 403(f) of the act” shall be replaced with “K.S.A. 65-665.”

(7) In section 589.2000(h)(2), “Food and Drug Administration” shall be replaced with “Kansas department of agriculture.”

(8) In section 589.2001(c)(2)(vi), “Food and Drug Administration” shall be replaced with “Kansas department of agriculture.”

(9) In section 589.2001(c)(3)(i), “Food and Drug Administration” shall be replaced with “Kansas department of agriculture.”

(10) In section 589.2001(d)(1), “section 402(a)(4) of the Federal Food, Drug, and Cosmetic Act (the act)” shall be replaced with “K.S.A. 65-664 and K.S.A. 2-1011.”

(11) In section 589.2001(d)(2), “section 402(a)(2), 402(a)(3), or 402(a)(5) of the act” shall be replaced with “K.S.A. 65-664 and K.S.A. 2-1011.”

(12) In section 589.2001(d)(3), “section 403(a)(1) or 403(f) of the act” shall be replaced with “K.S.A. 65-665 and K.S.A. 2-1011.”

(13) In section 589.2001(d)(4), “section 402(a)(4) of the act” shall be replaced with “K.S.A. 65-664 and K.S.A. 2-1011.”

(14) In section 589.2001(e), “Food and Drug Administration” shall be replaced with “Kansas department of agriculture.”

(b) Copies of the regulations, or pertinent portions of the regulations, shall be available from the office of the agricultural commodity assurance program, Kansas department of agriculture, Topeka, Kansas. (Authorized by and implementing K.S.A. 2010 Supp. 2-1013; effective, T-4-2-13-01, Feb. 13, 2001; effective June 15, 2001; amended Jan. 18, 2008; amended Sept. 9, 2011.)

Article 5.—AGRICULTURAL LIMING MATERIALS

4-5-1. (Authorized by K.S.A. 1981 Supp. 2-2910; implementing K.S.A. 1981 Supp. 2-2902; effective May 1, 1982; revoked April 15, 2016.)

4-5-2. (Authorized by K.S.A. 1981 Supp. 2-2910; implementing K.S.A. 1981 Supp. 2-2903; effective May 1, 1982; revoked April 15, 2016.)

4-5-4. Agricultural liming material testing. The process for determining the effective calcium carbonate equivalent of agricultural liming materials shall be in accordance with Kansas state university’s document titled “Kansas state university soil testing lab agricultural liming material testing procedure,” dated October 15, 2015, which is hereby adopted by reference. (Authorized by K.S.A. 2-2910; implementing K.S.A. 2015 Supp. 2-2903 and 2-2907; effective April 15, 2016.)

Article 6.—CERTIFICATE OF FREE SALE**4-6-1. Certificate of free sale; definitions.**

(a)(1) “Certificate of free sale” and “certificate” shall mean a written document in English that states that the product described in the document was manufactured in Kansas by a business whose owner or operator meets the following requirements:

(A) Holds a license, registration, permit, or other authority issued by the Kansas department of agriculture for that business; and

(B) complies with the requirements of the Kansas laws for distribution of the product in Kansas and, where applicable, the United States.

(2) “Person” shall mean any individual, partnership, association of persons, corporation, or governmental agency.

(3) “Secretary” shall mean the secretary of agriculture or a designee of the secretary.

(b) When used in a certificate of free sale, “U.S. regulations” shall mean those regulations promulgated by agencies of the federal government as follows:

(1) Regulations that have been adopted by reference in regulations of the Kansas department of agriculture; or

(2) regulations administered by the Kansas department of agriculture pursuant to a cooperative agreement with a federal agency. (Authorized by and implementing K.S.A. 2008 Supp. 74-5,100; effective Jan. 1, 2009; amended Nov. 20, 2009.)

4-6-2. Certificate of free sale. Any person may request one or more certificates of free sale by providing the following information to the secretary on a form provided by the Kansas department of agriculture:

(a) The name, address, and telephone number of the person requesting each certificate;

(b) the name of the licensed, registered, or permitted establishment where the product was manufactured;

(c) the name and type of product for which each certificate is requested;

(d) either an original label or an exact and unaltered photocopy of the label in English for the product;

(e) the country or countries to which the product is to be shipped;

(f) the number of certificates requested;

(g) if more than one product is included in the request, specification of which products are to be listed on each certificate; and

(h) the address to which each certificate is to be sent. (Authorized by and implementing K.S.A. 2008 Supp. 74-5,100; effective Jan. 1, 2009; amended Nov. 20, 2009.)

4-6-3. Certificate of free sale; fees.

(a) Each person requesting a certificate of free sale shall pay a \$25.00 fee for processing and a \$3.00 fee for each duplicate certificate.

(b) No additional fee shall be charged if the certificate of free sale is sent by first-class U.S. mail to an address in the continental United States. The person requesting the certificate of free sale shall pay the actual costs for delivery of the certificate in any other manner or to any other address.

(c) Except as specified in subsection (d), all fees and costs shall be due upon issuance of the certificate of free sale.

(d) Issuance of a certificate of free sale may be refused by the secretary until payment of all fees and costs is received. (Authorized by and implementing K.S.A. 2017 Supp. 74-5,100; effective Jan. 1, 2009; amended June 15, 2018.)

Article 7.—MILK AND DAIRY PRODUCTS

4-7-213. Adoption by reference. The United States department of agriculture’s recommended requirements titled “milk for manufacturing purposes and its production and processing,” effective September 1, 2005, are hereby adopted by reference, except for the following: (a) Subpart A;

(b) subpart B, section B2, paragraphs (a), (b), (c), (d), (e), (f), (h), (i), (k), (m), (r), (s), (t), and (u);

(c) subpart D, section D9; and

(d) subpart F.

Copies of the pertinent portions of these requirements may be obtained from the Kansas department of agriculture. (Authorized by K.S.A. 2009 Supp. 65-772 and K.S.A. 65-775; implementing K.S.A. 65-773 and 65-775; effective, E-81-24, Aug. 27, 1981; effective May 1, 1981; amended May 1, 1986; amended, T-87-21, Aug. 21, 1986; amended May 1, 1987; amended Jan. 14, 1991; amended Feb. 27, 1998; amended Feb. 11, 2000; amended Dec. 20, 2002; amended Sept. 1, 2006; amended July 9, 2010.)

4-7-716. Adoption by reference. (a) The following documents are hereby adopted by reference:

(1) Except for sections 1 (JJ), 2, 9, 15, 16, 17, and 18, the “grade ‘A’ pasteurized milk ordi-

nance,” 2009 revision, including appendices, as published by the U.S. department of health and human services, public health service, and food and drug administration;

(2) the “methods of making sanitation ratings of milk shippers,” including appendices, published by the U.S. department of health and human services, public health service, and food and drug administration, 2009 revision;

(3) the 2009 revision of the “procedures governing the cooperative state-public health service/food and drug administration program of the national conference on interstate milk shipments,” including pages 49 through 68;

(4) the 17th edition of the “standard methods for the examination of dairy products,” dated 2004 and published by the American public health association;

(5) the 17th edition of the “official methods of analysis of AOAC international,” volumes I and II, revision 1, including appendices, dated 2002 and published by the association of official analytical chemists; and

(6) the 2007 revision of the “evaluation of milk laboratories,” published by the U.S. department of health and human services, public health service, and food and drug administration.

(b) Copies of the pertinent portions of the material adopted by reference shall be available from the Kansas department of agriculture. (Authorized by K.S.A. 2009 Supp. 65-772 and K.S.A. 65-775; implementing K.S.A. 65-775; effective May 1, 1980; amended May 1, 1983; amended May 1, 1986; amended Dec. 26, 1988; amended Jan. 14, 1991; amended Oct. 21, 1991; amended July 1, 1992; amended Aug. 22, 1994; amended Dec. 20, 2002; amended Sept. 1, 2006; amended July 9, 2010.)

Article 10.—ANHYDROUS AMMONIA

4-10-1. Definitions. (a) “Appurtenances” means all devices that are used in connection with a container, including safety devices, liquid-level gauging devices, valves, pressure gauges, fittings, and metering or dispensing devices.

(b) “ASME” means American society of mechanical engineers.

(c) “ASME schedule 80” and “ASME schedule 40” mean pipe specifications contained in the 2007 edition of the ASME boiler and pressure vessel code, section II, part A, SA-53/SA-53M, titled “specification for pipe, steel, black and hot-

dipped, zinc-coated, welded and seamless,” and the appendices, which are hereby adopted by reference.

(d) “Backflow check valve” means a device designed to prevent ammonia from flowing in the wrong direction within a pipe or tube.

(e) “Capacity” means the total volume of a container as measured in standard U.S. gallons of 231 cubic inches, unless otherwise specified.

(f) “Chemical-splash goggles” and “Splashproof goggles” mean flexible-fitting chemical-protective goggles, with a hooded, indirect ventilation system that provides protection to the eyes and eye sockets from the splash of hazardous liquids. This term shall not include direct vented goggles.

(g) “Code” means the “introduction,” the relevant parts of UG-1 through UG-137 titled “part UG: general requirements for all methods of construction and all materials,” and parts UF-1 through UF-125 titled “part UF: requirements for pressure vessels fabricated by forging” of section VIII, division 1, of the ASME boiler and pressure vessel code, 2007 edition, which are hereby adopted by reference.

(h) “Container” means any vessel designed to hold anhydrous ammonia that is used for the storage, transportation, or application of anhydrous ammonia. This definition shall not apply to any refrigerated vessel with a design pressure of less than 15 psig.

(i) “Data plate” means a piece of noncorroding metal permanently attached by the manufacturer to the surface of a container that has been designed and constructed in accordance with paragraph UG-116 of section VIII, division 1 of the ASME code, 2007 edition, which is adopted by reference in subsection (g).

(j) “Densely populated area” means any location with either one or more multifamily housing units or eight or more single-family dwellings located within a quarter section.

(k) “Designed pressure” means maximum allowable working pressure.

(l) “Emergency shutoff valve” means a valve that stops the flow of product by spring closure, gravity, or pressure and can be activated by an outside means including a cable pull, hose pull, air assists, electrical closure, or back pressure. The emergency shutoff valve shall be placed in the liquid line internally or externally to the container. If an external valve is used, the valve shall be after the manual shutoff valve but as close to the opening of the container as possible. The emergency

shutoff valve shall work properly from a remote location or when activated at the valve.

(m) “Excess-flow valve” means a device placed in a line that is designed to close when the flow of vapor or liquid flowing through the line exceeds the amount for which the valve is rated.

(n) “Filling density” means the percent ratio of the weight of gas in a container to the weight of water that the container will hold at 60° F.

(o) “Implement of husbandry” means a farm wagon-type vehicle or application unit that has an anhydrous ammonia container mounted on it and that is used for transporting anhydrous ammonia from a source of supply to farms or fields or from one farm or field to another.

(p) “Mobile container” means any container that is not installed as a permanent storage container.

(q) “National board inspector” is a person who holds a valid national board commission from the national board of boiler and pressure vessel inspectors and has fulfilled the national board commission requirements as specified in section VIII of the ASME code, 2007 edition.

(r) “NIOSH” means the national institute for occupational safety and health.

(s) “Non-code welding” means welding that does not comply with parts UW-1 through UW-65 of the ASME boiler and pressure vessel code, section VIII, division 1, titled “part UW: requirements for pressure vessels fabricated by welding,” 2007 edition, which is hereby adopted by reference.

(t) “PSIG” means pounds per square inch gauge pressure.

(u) “Permanent storage container” means a stationary container having a volume of at least 3,000 water gallons.

(v) “Permanent storage facility” means a site that includes one or more permanent storage containers and their connections and appurtenances.

(w) “Pressure-relief valve” means a device designed to open to relieve pressure above a specified value to prevent an increase in internal fluid or vapor and to close once acceptable pressure conditions have been restored.

(x) “Proof-of-inspection seal” and “current KDA-issued proof-of-inspection seal” mean the decal applied to a permanent system following a successful KDA inspection, which shall occur once per calendar year. The seal is current until it expires on December 31 of the year following the inspection.

(y) “Public assembly area” means any building or structure established to accommodate groups of people for commercial, civic, political, religious, recreational, educational, or similar purposes. This term shall include buildings or structures used for medical care, including hospitals, assisted care facilities, and prisons.

(z) “Reactor unit” means equipment that utilizes anhydrous ammonia to manufacture liquid fertilizer.

(aa) “Respirator” means an air-purifying device with a full face-piece that has been approved by NIOSH under the provisions of 30 CFR Part II, Subpart I [13], dated July 1, 2009, for use in an ammonia-contaminated atmosphere, in compliance with 29 CFR 1910.134, dated July 1, 2009.

(bb) “System” means an assembly of one or more containers, pipes, pumps, and appurtenances used for the storage, transfer, transportation, or application of anhydrous ammonia, which may be permanent or mobile. This definition shall not apply to interstate anhydrous ammonia pipelines.

(cc) “USDOT” and “D.O.T.” mean United States department of transportation. (Authorized by and implementing K.S.A. 2-1212; effective Jan. 1, 1966; amended Jan. 1, 1971; amended Jan. 1, 1973; amended May 1, 1986; amended, T-87-9, May 1, 1986; amended May 1, 1987; amended May 1, 1988; amended Jan. 25, 1993; amended March 12, 2010.)

4-10-1a. Prohibited acts. It shall be a violation to perform any of the following: (a) Install, relocate, modify, repair, or use any system or equipment for storing, reacting, transferring, transporting, applying, or dispersing by any other means anhydrous ammonia unless the system, permanent storage facility, or equipment is in compliance with this article 10;

(b) except as provided under K.A.R. 4-10-4b(b), transfer anhydrous ammonia into a mobile container unless the container bears a legible manufacturer’s data plate or equivalent stamp;

(c) deface the manufacturer’s data plate or equivalent stamp;

(d) transfer any anhydrous ammonia into a container or system having structural damage or any other defect that would prevent the containment of anhydrous ammonia;

(e) transfer anhydrous ammonia into or out of any container without the consent of the owner of each container;

(f) transfer, or permit the transfer of, anhydrous

ammonia into a permanent storage container unless the permanent storage container has a current KDA-issued proof-of-inspection seal attached to the respective system;

(g) conduct non-code welding directly on a container or any parts subject to pressure;

(h) fail to report any release of 100 pounds or more of anhydrous ammonia within 48 hours of the release;

(i) conduct a transfer without an attendant present at the transfer site;

(j) transfer anhydrous ammonia into any vessel that does not comply with K.A.R. 4-10-1 through 4-10-16; or

(k) maintain anhydrous ammonia in any vessel that does not meet the requirements of K.A.R. 4-10-1 through 4-10-16. (Authorized by and implementing K.S.A. 2-1212; effective March 12, 2010.)

4-10-1b. Reportable events. The owner or operator of each anhydrous ammonia storage facility or any equipment shall report, to the secretary or the secretary's authorized representative, each accidental or unauthorized release of 100 pounds or more of anhydrous ammonia within 48 hours after the release. Nothing in this regulation shall require the reporting of an intentional release of anhydrous ammonia into the soil during the normal course of application. (Authorized by and implementing K.S.A. 2-1212; effective March 12, 2010.)

4-10-2a through 4-10-2c. (Authorized by and implementing K.S.A. 2-1212; effective May 1, 1987; revoked March 12, 2010.)

4-10-2d. (Authorized by and implementing K.S.A. 2-1212; effective May 1, 1987; amended May 1, 1988; amended Dec. 26, 1988; revoked March 12, 2010.)

4-10-2e. Container valves and appurtenances. (a) Connections to containers shall be limited to liquid-level gauges, emergency shutoff valves, pressure gauges, vapor-relief valves, liquid lines, vapor lines, and thermometers.

(b) Each vapor line and liquid line shall have a manually operated shutoff valve located as close to the container as practical.

(c) On or before July 1, 2012, each permanent storage container shall be equipped with an emergency shutoff valve that meets the requirements of K.A.R. 4-10-1 (l).

(d) No metal part or component of a system that is normally in contact with anhydrous ammonia shall be made of a metal that is incompatible with anhydrous ammonia, including galvanized metal, cast iron, zinc, copper, and brass.

(e) Openings from the container or through fittings that are not larger than a no. 54 drill size opening shall not be required to be equipped with an excess flow valve.

(f) Each valve and appurtenance shall be suitable for use with anhydrous ammonia and designed for not less than the maximum pressure to which the valve and appurtenance will be subjected. Each valve that could be subjected to container pressures shall have a rated working pressure of at least 250 psig.

(g) (1) Each vapor or liquid line greater than a no. 54 drill size opening shall be equipped with an excess flow valve that closes automatically at the rated flows of vapor or liquid specified by the manufacturer.

(2) The connections, lines, valves, and fittings protected by one or more excess flow valves shall have a greater capacity than the rated flow of the excess flow valves so that the valves will close in case of failure at any point in the lines or fittings.

(h) Each liquid connection used to fill a permanent storage container shall be fitted with a back-flow check valve.

(i) (1) All piping, tubing, and fittings subjected to container pressure shall be made of materials specified for use with anhydrous ammonia and shall be designed for a minimum working pressure of 250 psig.

(2) All piping, tubing, and metering or dispensing devices shall be securely mounted and protected against damage.

(3) Threaded joints may be used only with seamless black steel pipe that meets or exceeds ASME schedule 80 specifications. Black steel pipe that meets or exceeds ASME schedule 40 specifications with at least 800 psig minimum bursting pressure may be used if pipe joints are welded or joined by means of welding type flanges. Pipe joint compounds used shall be resistant to ammonia.

(4) Each flexible connection shall have a bursting pressure of at least 1,000 psig. (Authorized by and implementing K.S.A. 2-1212; effective May 1, 1987; amended March 12, 2010.)

4-10-2f through 4-10-2h. (Authorized by and implementing K.S.A. 2-1212; effective May 1, 1987; revoked March 12, 2010.)

4-10-2i. (Authorized by and implementing K.S.A. 2-1212; effective May 1, 1987; amended May 1, 1988; revoked March 12, 2010.)

4-10-2j. (Authorized by and implementing K.S.A. 2-1212; effective May 1, 1987; amended April 13, 2001; revoked March 12, 2010.)

4-10-2k. (Authorized by and implementing K.S.A. 2-1212; effective May 1, 1987; amended May 1, 1988; amended Jan. 1, 1989; revoked March 12, 2010.)

4-10-4. (Authorized by and implementing K.S.A. 2-1212; effective Jan. 1, 1966; amended Jan. 1, 1966; amended Jan. 1, 1971; amended Jan. 1, 1973; amended May 1, 1986; amended, T-87-9, May 1, 1986; amended May 1, 1987; amended May 1, 1988; revoked March 12, 2010.)

4-10-4a. Containers. (a) Each container shall be constructed and tested in accordance with the code and shall have a minimum design pressure of 250 psig.

(b) Subsection (a) shall not prohibit the continued use of permanent storage containers that were constructed and maintained in accordance with Kansas statutes and regulations in effect before the effective date of this regulation.

(c) Each permanent storage container shall be inspected according to K.S.A. 44-913 et seq., and amendments thereto, by the Kansas department of labor, division of industrial safety and health upon initial installation and relocation.

(d) (1) Each permanent storage container that has sustained structural damage shall be inspected and approved for use by the Kansas department of labor, division of industrial safety and health.

(2) Each mobile container that has sustained any structural damage shall be inspected and approved for use by a national board inspector.

(3) Structural damage shall include evidence of any of the following:

(A) Corrosion;

(B) any indentation or abrasion that meets any of the following conditions:

(i) Is over one-half inch deep and includes a weld;

(ii) is deeper than 1/10th of the greatest length of the dent but does not include a weld; or

(iii) is deeper than one inch;

(C) stretching;

(D) cracking;

(E) faulty welds;

(F) non-code welding;

(G) faulty couplings; or

(H) any other similar condition.

(e) All repairs and alterations of permanent and mobile containers shall meet the requirements of the code and shall be performed by a person or company that has a current certificate of authorization from the national board of boiler and pressure vessel inspections.

(f) Non-code welding shall be performed only on saddles or brackets that are not within the pressure-retaining boundaries of the container.

(g) All records of inspections and welding on the container shall meet the following requirements:

(1) Be maintained by the owner of the container;

(2) be made available to the secretary upon request; and

(3) be transferred with change of ownership of the container. (Authorized by and implementing K.S.A. 2-1212; effective March 12, 2010.)

4-10-4b. Markings on containers and systems. (a) Except as provided by K.A.R. 4-10-4a(b) and 4-10-4b(b), each container shall have a data plate, or manufacturer's equivalent stamping, that is permanently attached to the container in a location that is both legible and readily accessible for inspection.

(b) A mobile container that does not have a legible data plate or equivalent stamping may be allowed for ammonia use only if the container is properly tested, registered, and marked under USDOT exemption # DOT-SP13554.

(c) Each shutoff valve within a system shall be identified to show whether the valve is in liquid or vapor service. The method of identification may be by color code or by use of the word "vapor" or "liquid" placed within 12 inches of the valve by means of a stencil, tag, or decal.

(d) All container surfaces shall be maintained to avoid deterioration. Surfaces that require paint shall be painted white.

(e) Each permanent storage container or group of permanent storage containers shall be marked with the following:

(1) Letters at least four inches high, on at least two sides, with the words "CAUTION AMMONIA" or "ANHYDROUS AMMONIA," in a color that contrasts with the color of the container; and

(2) a national fire protection association diamond for anhydrous ammonia placed in a location that would be readily visible to emergency responders.

(f) Each mobile container shall be marked with the following, using a color that contrasts with the color of the container and letters at least two inches high:

(1) The words “ANHYDROUS AMMONIA” or “Anhydrous Ammonia” on both sides and on the rear of the container; and

(2) the words “INHALATION HAZARD” or “Inhalation Hazard” on two opposing sides of the container.

(g) In addition to the markings required in subsection (f), the following information shall appear on each implement of husbandry:

(1) The owner's name;

(2) the address of the owner's place of business;

(3) a telephone number to be contacted in case of an emergency;

(4) an alphabetical or numerical identification symbol; and

(5) a decal containing the following information:

(A) “CAUTION ANHYDROUS AMMONIA (UNDER PRESSURE) READ CAREFULLY”;

(B) “Keep away from pop-off valve marked ↑. This is a safety device and shall not be tampered with or adjusted”;

(C) “Stand upwind when working around equipment”;

(D) “Wear goggles and rubber gloves when transferring product and bleeding hoses”;

(E) “Do not fill tank in excess of 85% full”;

(F) “Never place any part of body in line with valve or hose openings. Use extreme care in handling hoses. Never lift a hose by the valve wheel”;

(G) “Slowly bleed hoses after transferring product”;

(H) “Close valves firmly but do not wrench”;

(I) “Do not permit children near this equipment”;

(J) “Park equipment away from buildings or any possible fire hazards. Never allow tanks to be subjected to extreme heat”;

(K) “Do not attempt any repairs of this equipment. In event of any failure, call your dealer immediately”;

(L) “Do not operate this equipment until you have received instructions from your dealer.” (Authorized by and implementing K.S.A. 2-1212; effective March 12, 2010.)

4-10-4c. Permanent storage facility design and permanent storage container location. (a) Before installing or relocating a permanent storage container or permanent storage

facility, the owner may submit to the secretary a detailed diagram of the permanent storage facility for review or request a preliminary site survey to ensure that the proposed site meets the requirements in subsections (c), (d), (e), and (f).

(b) The name of the permanent storage facility and the telephone number to be contacted in case of an emergency shall be posted and be legible from each facility entrance using letters at least two inches high.

(c) No permanent storage container shall be located inside an enclosed structure unless the structure is specifically constructed for this purpose.

(d) The nearest edge of the nearest permanent storage container shall be located at a distance meeting the following conditions:

(1) At least 50 feet from the edge of any property not owned or leased by the permanent storage facility;

(2) at least 50 feet from a well or other point of diversion used as a source of drinking water;

(3) at least 50 feet from storage locations of flammables or explosives;

(4) at least 1,000 feet from the area accessible to the public of any public assembly area, as defined in K.A.R. 4-10-1; and

(5) not on or less than 100 feet from the surface of a public roadway.

(e) The site of the permanent storage facility shall be located on property of sufficient size to permit traffic in and out of the area and allow adequate access for emergency personnel.

(f) Each new permanent storage container or permanent storage facility shall be located outside of a municipality or other densely populated areas, unless the location has been approved in writing by the appropriate local governing body. The owner or operator of each permanent storage container located in a municipality or densely populated area shall obtain written approval from the appropriate local governing body before relocating the permanent storage facility or installing additional permanent storage containers within the municipality or densely populated area.

(g) (1) Each permanent storage container shall be mounted on either of the following:

(A) A skid assembly with sufficient surface area to properly support the skid-mounted container; or

(B) either reinforced concrete footings and foundations or structural steel supports mounted on reinforced concrete foundations. The reinforced concrete foundations or footings shall extend below the established frost line and shall

be constructed to support the total weight of the containers and their contents. If the container is equipped with bottom withdrawal, the container's foundation shall maintain the lowest point of the container at not less than 18 inches above ground level.

(2) Each container shall be mounted on its foundation in a manner that permits expansion and contraction. Each container shall be adequately supported so as to prevent the concentration of excessive loads on the supporting portion of the shell. Corrosion prevention measures shall be utilized on any portion of the container that is in contact with either the foundation or saddles.

(3) Each container shall be securely anchored.

(h) All appurtenances to any permanent storage container shall be protected from tampering and mechanical damage, including damage from vehicles. Each manually controlled valve that, if open, would allow ammonia to be transferred or released, shall be kept locked when unattended and during nonbusiness hours. (Authorized by and implementing K.S.A. 2-1212; effective March 12, 2010.)

4-10-4d. Pressure-relief valves. (a) Each container or system of containers shall have liquid and vapor pressure-relief valves to prevent pressure build-up in any portion of the system. Each pressure-relief valve shall be manufactured for use with anhydrous ammonia and be installed, maintained, and replaced according to the manufacturer's instructions.

(b) Each vapor-relief valve shall be set to indicate discharge at a pressure of not less than 95 percent, and not more than 100 percent, of the design pressure of the container to which the vapor-relief valve is attached. Each vapor-relief valve shall be constructed to completely discharge before the pressure exceeds 120 percent of the design pressure of the container to which the vapor-relief valve is attached.

(c) Pressure-relief valves shall not exhaust within or beneath any building or other confined area.

(d) Each pressure-relief valve discharge opening shall have a suitable rain cap or other device that allows free discharge of the vapor and prevents the entrance of water.

(e) Each pressure-relief valve shall be replaced if the valve meets any of the following conditions:

- (1) Fails to meet applicable requirements;
- (2) shows evidence of damage, corrosion, or foreign matter; and

(3) does not have functional weep holes that permit moisture to escape.

(f) The discharge from each pressure-relief valve shall be vented according to one of the following:

(1) For vapor-relief valves, upward and away from where people could be located. The discharge shall flow in an unobstructed manner into the open air from a height of at least seven feet above the working area;

(2) for liquid-relief valves, downward with the opening positioned between six and 18 inches from the ground; or

(3) in any other manner that has been approved by the secretary or an authorized representative of the secretary.

(g) (1) Vent pipes or tubing used to channel releases from pressure-relief valves shall not be restricted or smaller in size than the pressure-relief valve outlet connection.

(2) Vent pipes may be connected and channeled into a common header if the cross-sectional area of the header is at least equal to the sum of the cross-sectional areas of each of the individual vent pipes.

(3) Unless a vent is directed toward the ground and rain will not be able to enter, each pressure relief valve discharge opening shall have a rain cap.

(4) If moisture accumulation could occur in a vent, suitable provision shall be made to drain the moisture from the vent. (Authorized by and implementing K.S.A. 2-1212; effective March 12, 2010.)

4-10-4e. Hose specifications. (a) Each hose with a diameter of at least ½ inch used in ammonia service and subject to container pressure shall withstand at least 350 psig and shall have the following information etched, cast, or impressed in a legible format at intervals not to exceed five feet along the hose surface:

- (1) The phrase "Anhydrous Ammonia";
- (2) the maximum working pressure of the hose; and

(3) the date the hose is to be removed from service.

(b) Each hose shall meet or exceed ASME schedule 80 specifications and have factory-installed ends designed for use with anhydrous ammonia.

(c) Each hose shall be replaced before or upon the expiration of the manufacturer's removal date.

(d) A hose shall be removed from service if a visual examination reveals any of the following:

- (1) Illegibility of any of the markings required in subsection (a);
- (2) cuts exposing reinforcing fabric;
- (3) soft spots or bulges in the hose;
- (4) a blistering or loose outer covering;
- (5) kinking or flattening;
- (6) stretch marks;
- (7) slippage at any coupling; or
- (8) any other damage that could compromise the integrity of the safe use of the hose. (Authorized by and implementing K.S.A. 2-1212; effective March 12, 2010.)

4-10-4f. Gauging devices. (a) Each container, except any container filled by weight, shall be equipped with a liquid-level gauging device designed for use with anhydrous ammonia and installed according to the manufacturer's instructions.

(b) Each gauging device shall be arranged so that the maximum liquid level to which the container may be filled is readily determinable.

(c) Each container shall be equipped with a fully operational pressure-indicating gauge with a dial graduated from 0-400 psig.

(d) Each gauging device shall have a design pressure at least equal to the design pressure of the container on which the device is used.

(e) Each device used to weigh or measure anhydrous ammonia shall meet all of the requirements of weighing and measuring devices in K.S.A. 83-201 et seq., and amendments thereto, and any implementing regulations adopted by the secretary. (Authorized by and implementing K.S.A. 2-1212; effective March 12, 2010.)

4-10-5a. Tank trucks and semitrailers used for transport for infield delivery. Tank trucks and semitrailers used to transport anhydrous ammonia may be used to fill an implement of husbandry with a capacity of 20,000 pounds or more. These trucks and semitrailers shall be exempt from the requirements in K.A.R. 4-10-6b if the following requirements are met: (a) The tank truck or the semitrailer transferring the anhydrous ammonia or the implement of husbandry shall carry at least 100 gallons of water for whole-person rinsing if exposure to anhydrous ammonia occurs.

(1) The water shall be clearly identified for safety use and be readily accessible.

(2) The water shall be visibly clean, free of debris, and maintained in a liquid state.

(b) When an implement of husbandry is being loaded, at least 100 gallons of water shall be pres-

ent at the delivery site for the venting of anhydrous ammonia and shall be used in accordance with K.A.R. 4-10-6a(k). This water shall be separate from the water specified in subsection (a) and shall be maintained in a liquid state.

(c) Any tank truck, semitrailer, and implement of husbandry subject to this regulation may be inspected by the department of agriculture.

(d) Each tank truck, semitrailer, and implement of husbandry subject to this regulation shall meet all requirements of this regulation before loading, transporting, or off-loading anhydrous ammonia.

(e) During the transfer of anhydrous ammonia, the nearest edge of the nearest vehicle, tank, and hose involved with the transfer shall be located according to the following:

(1) At least 50 feet from the edge of any property not owned or leased by the owner or operator of the permanent storage facility;

(2) at least 50 feet from any well or other point of diversion used as a source of drinking water;

(3) at least 50 feet from storage locations of flammables or explosives;

(4) at least 500 feet from the area accessible to the public within any public assembly area as defined in K.A.R. 4-10-1; and

(5) at least 50 feet from the surface of a public roadway. (Authorized by and implementing K.S.A. 2-1212; effective April 13, 2001; amended March 12, 2010.)

4-10-6. (Authorized by and implementing K.S.A. 2-1212; effective Jan. 1, 1966; amended Jan. 1, 1971; amended Jan. 1, 1973; amended May 1, 1986; revoked March 12, 2010.)

4-10-6a. Transfers. (a) Transfer to a permanent storage container shall be made only to a system displaying a current KDA-issued proof-of-inspection seal.

(b) Each container filled according to liquid level by any gauging method, other than a 85 percent fixed-length dip tube gauge, shall have a thermometer well and functional thermometer so that the internal liquid temperature can be easily determined and the amount of liquid in the container can be easily corrected to the volume the liquid would occupy at 60° F.

(c) A transfer shall not exceed one of the following:

(1) 85 percent of the container's capacity by volume; or

(2) 56 percent filling density for permanent storage containers or 54 percent filling density for implements of husbandry.

(d) The amount of anhydrous ammonia transferred shall be measured by one of the following:

- (1) Weight;
- (2) a liquid-level gauging device; or
- (3) a flowmeter.

(e) Flammable gases, or gases that will react with anhydrous ammonia including air, shall not be used to transfer anhydrous ammonia.

(f) At least one attendant shall be present to monitor and control each transfer of anhydrous ammonia.

(g) Loading and unloading systems shall be protected to prevent a release if the transfer hose is severed.

(h) Each transfer shall occur only in the open air unless the transfer occurs within a structure specifically constructed for that purpose.

(i) (1) Only pumps and compressors designed for use with anhydrous ammonia shall be used.

(2) Liquid pumps and vapor compressors shall be designed for 250 psig working pressure.

(3) The pressure-actuated bypass valve and return piping shall be installed in accordance with the pump manufacturer's instructions.

(4) Each vapor compressor and liquid pump shall have an operational pressure gauge graduated from 0-400 psig at the inlet and at the outlet.

(5) Shutoff valves shall be installed within three feet of the inlet of a liquid pump and within two feet of the discharge. With vapor compressors, the shutoff valves shall be located as close as is practical to the compressor connections.

(j) The piping used to transfer anhydrous ammonia from a tractor trailer or railroad tank car into a permanent storage container shall be equipped with an excess flow valve and backflow pressure valve, which shall be located as close as practical to where the piping connects with the transfer hose.

(k) (1) During the removal of anhydrous ammonia from a transfer hose, the anhydrous ammonia shall be vented into an adequate supply of water.

(2) For purposes of this regulation, an adequate supply of water shall mean at least five gallons of nonammoniated water for each gallon of liquid ammonia or fraction of a gallon that could be contained in the hose. (Authorized by and implementing K.S.A. 2-1212; effective March 12, 2010.)

4-10-6b. Transfers; tank cars and transport trucks; additional requirements. In addition to the transfer requirements in K.A.R. 4-10-6a, each transfer from a tank car or transport truck shall meet the following requirements:

(a) Except when loading into implements of husbandry or reactor units, tank cars and transport trucks shall be unloaded only through a permanently installed loading point and into a permanent storage container.

(b) A sign reading "Stop—Tank Car Connected" shall be displayed at the active end or ends of the siding while the tank car is connected for unloading.

(c) While tank cars are on a side track for unloading, the wheels at both ends shall be blocked on the rails. (Authorized by and implementing K.S.A. 2-1212; effective March 12, 2010.)

4-10-7. Implements of husbandry. In addition to the container requirements in K.A.R. 4-10-2e, 4-10-4a, 4-10-4b, 4-10-4d through 4-10-4f, and 4-10-6a, each system that is mounted on an implement of husbandry and is used for the transport of anhydrous ammonia shall meet the following requirements:

(a)(1) A stop or stops shall be attached to either the vehicle or the container to prevent the container from being dislodged from its mounting if the vehicle stops suddenly.

(2) A hold-down device shall anchor the container to the vehicle at one or more places on each side of the container.

(3) Each container mounted on a four-wheel trailer shall have the container's weight distributed evenly over both axles.

(4) If the cradle and the tank are not welded together, material shall be used between the cradle and the tank to eliminate metal-to-metal friction.

(b)(1) Each connection and appurtenance shall be protected from physical damage.

(2) A hose and connection installed in the bottom of a container shall not be lower than the lowest horizontal edge of the vehicle axle.

(3) The entire length of each hose shall be secured during transit in a manner that prevents damage to any portion of the hose or to the connections.

(4) When each hose is removed, the fittings shall be capped to prevent the accidental discharge of ammonia.

(c) Each implement of husbandry used for transportation shall meet the following requirements:

(1) Be securely attached to the pulling vehicle by use of a hitch pin or ball of proper size for the weight pulled. The hitch pin or ball shall be supplemented by two welded safety chains. Links of the safety chains shall be made of steel and shall have a breaking strength that exceeds the gross weight of the implement to which the chains are attached;

(2) be constructed, maintained, and utilized so as to follow in the path of the pulling vehicle and not swerve from side to side while being towed;

(3) be pulled at a speed not faster than is reasonable and safe under existing conditions;

(4) not be parked on any public street or other thoroughfare except in an emergency; and

(5) be equipped with at least five gallons of unfrozen and readily accessible water during the transport, transfer, or use of anhydrous ammonia, for use if exposure to anhydrous ammonia occurs.

(d) When any implement of husbandry is pulled on a public roadway, the following requirements shall be met:

(1) Each implement of husbandry with a capacity greater than 1,000 gallons shall be pulled as a single unit.

(2) When two implements of husbandry are pulled, the total capacity pulled shall be limited to not more than 2,000 gallons.

(3) No more than two implements of husbandry shall be pulled at the same time by the pulling vehicle. (Authorized by and implementing K.S.A. 2-1212; effective Jan. 1, 1966; amended Jan. 1, 1971; amended Jan. 1, 1973; amended May 1, 1986; amended March 12, 2010.)

4-10-10. Safety. (a) The following personal safety equipment shall be available for use at each permanent storage facility and reactor unit when anhydrous ammonia is being transferred and when maintenance is being conducted on a system:

(1) A NIOSH-approved respirator that covers the entire face and has current ammonia canisters with intact seals;

(2) one pair of protective gloves made of rubber or any other material impervious to anhydrous ammonia;

(3) one pair of protective boots made of rubber or any other material impervious to anhydrous ammonia;

(4) one protective suit made of rubber or any other material impervious to anhydrous ammonia;

(5) a shower or at least 100 gallons of clean water to be used as safety water; and

(6) a pair of chemical-splash goggles.

(b) During each transfer, the attendant shall wear the personal protective equipment specified in paragraphs (a)(2) and (a)(6), at a minimum.

(c) An area of at least 10 feet around any container or system shall be kept free of combustibles. (Authorized by and implementing K.S.A. 2-1212; effective March 12, 2010.)

4-10-15. (Authorized by and implementing K.S.A. 2-1212; effective May 1, 1987; amended May 1, 1988; revoked March 12, 2010.)

4-10-16. Reactor units. (a) Each reactor unit shall operate only at a site that meets the following requirements:

(1) The nearest edge of the reactor unit shall be located at a distance in accordance with the following requirements:

(A) At least 50 feet from the edge of any property not owned or leased by the owner or operator of the permanent storage facility;

(B) at least 50 feet from any well or other point of diversion used as a source of drinking water;

(C) at least 50 feet from storage locations of flammables or explosives;

(D) at least 500 feet from any area accessible to the public as defined in K.A.R. 4-10-1; and

(E) not on or less than 50 feet from the surface of a public roadway.

(2) Each reactor unit shall be operated outside of municipalities or other densely populated areas unless the location has been approved in writing by the appropriate local governing body.

(b) During the transfer of anhydrous ammonia from railroad tank cars or transport trucks to a reactor unit for the manufacture of ammoniated solutions, the portable reactor unit shall be equipped with the following safety devices:

(1) Remote-controlled shutoff devices located on the tank car connection immediately preceding the hose attachment and on the discharge side of the pump; and

(2) a backflow check valve in the inlet line to the reactor unit.

(c) When anhydrous ammonia is transported to a stationary reactor unit in an implement of husbandry, the implement of husbandry shall be equipped with the following:

(1) A manually operated remote-controlled shutoff device on the discharge valve immediately preceding any hose attachments; and

(2) a backflow check valve installed in the rigid

pipng leading to the reactor unit at the point of connection for the transfer hose.

(d) The implement of husbandry shall be monitored at all times during the reacting process.

(e) The transfer hose shall be disconnected from the reactor unit when the reactor unit is not in operation.

(f) The required air-operated or manually operated remote-controlled shutoff device shall be tested before each production run of ammoniated solutions. (Authorized by and implementing K.S.A. 2-1212; effective May 1, 1986; amended May 1, 1988; amended Jan. 1, 1989; amended March 12, 2010.)

4-10-17. (Authorized by and implementing K.S.A. 2-1212; effective May 1, 1988; revoked March 12, 2010.)

Article 13.—PESTICIDES

4-13-2. Pesticide business license application. Each application for issuance or renewal of a business license shall provide the following information in addition to that required by K.S.A. 2-2440 (b) (1) through (3), and amendments thereto: (a) The home address and birth date of each owner, officer, representative, and any resident agent;

(b) the name of any other state in which the applicant holds or has held a pesticide business license within the last five years and a list of any such license that has been denied, modified, revoked, suspended, or surrendered;

(c) for each business location serving Kansas, the business name and street address of the business and the name of the certified applicator or other person responsible for pesticide business activity at that location. “Business location” shall include all locations where records of application are maintained, where application equipment and pesticide materials are stored, and from which customers are served;

(d) the name of each certified commercial applicator serving the applicant, for each business location;

(e) the name, home address, birth date, and driver’s license number of each non-certified employee who applies pesticides for the applicant. If the applicant’s uncertified commercial applicator does not have a driver’s license, then the number assigned to any federal or state government-issued identification card shall be provided for that employee;

(f) the categories and subcategories in which the applicant business will operate;

(g) the signature and title of the applicant or authorized representative; and

(h) the date of submission of the application. (Authorized by and implementing K.S.A. 2008 Supp. 2-2440, as amended by L. 2009, Ch. 128, §11, and K.S.A. 2-2467a; effective, E-78-26, Sept. 7, 1977; effective May 1, 1978; amended July 18, 2003; amended Feb. 5, 2010.)

4-13-3. Categories and subcategories of qualification for the licensing of pesticide businesses and certification of commercial applicators. (a) The categories and subcategories of qualification for licensing of pesticide businesses and certification of commercial applicators shall include the following:

(1) Category 1: agricultural pest control. This category shall include any commercial application of pesticide in the production of agricultural plants or animals.

(A) Subcategory 1A: agricultural plant pest control. This subcategory shall include any commercial application of pesticide on grasslands and noncrop agricultural lands, and in the production of agricultural crops, including tobacco, peanuts, cotton, feed grains, soybeans and forage, vegetables, small fruits, tree fruits, and nuts.

(B) Subcategory 1B: agricultural animal pest control. This subcategory shall include any commercial application of pesticide to places on, or in which, animals are confined and on animals, including beef cattle, dairy cattle, swine, sheep, horses, goats, poultry, and livestock. This subcategory shall include any doctor of veterinary medicine who applies pesticides for hire, engages in the large-scale use of pesticides, or is publicly held out as a pesticide applicator.

(C) Subcategory 1C: wildlife damage control. This subcategory shall include any commercial application of pesticide for the management and control of wildlife in rangeland and agricultural areas. Wildlife shall mean nondomesticated vertebrate species that hinder agricultural and rangeland production.

(D) Subcategory 1D: stump treatment. This subcategory shall be limited to the commercial application of pesticide for the treatment of cut stumps to control resprouting in pastures, rangeland, or lands held in conservation reserve. Nothing in this subcategory shall prohibit stump treatment by pesticide businesses and commercial

applicators in other categories and subcategories that include pesticide application to cut stumps.

(2) Category 2: forest pest control. This category shall include any commercial application of pesticide in forests, forest nurseries, and forest seed-producing areas.

(3) Category 3: ornamental and turf pest control. This category shall include any commercial application of pesticide in the maintenance of ornamental trees, shrubs, flowers, and turf.

(A) Subcategory 3A: ornamental pest control. This subcategory shall include any commercial application of pesticide to control pests in the maintenance and production of ornamental trees, shrubs, and flowers. This subcategory shall not include those pests included in subcategory 3C.

(B) Subcategory 3B: turf pest control. This subcategory shall include any commercial application of pesticide to control pests in the maintenance and production of turf.

(C) Subcategory 3C: interior landscape pest control. This subcategory shall include any commercial application of pesticide to control pests in the production and maintenance of houseplants and other indoor ornamental plants kept or located within structures occupied by humans, including houses, apartments, offices, shopping malls, and other places of business and dwelling places.

(4) Category 4: seed treatment. This category shall include any commercial application of pesticide on seeds.

(5) Category 5: aquatic pest control. This category shall include any commercial application of pesticide to standing or running water. Applicators engaged in public health pest control and health-related pest control activities shall be excluded.

Subcategory 5S: sewer root control. This subcategory shall be limited to any commercial application of pesticide for the control of roots in sewer lines and septic systems.

(6) Category 6: right-of-way pest control. This category shall include any commercial application of pesticide to control vegetation in the maintenance of public roads, electric power lines, pipelines, railway rights-of-way, industrial sites, parking lots, or other similar areas.

(A) This category shall include the types of commercial pesticide application specified in subcategory 7C.

(B) This category shall not include those types of commercial pesticide application specified in paragraph (a)(9).

(7) Category 7: industrial, institutional, structural, and health-related pest control.

(A) This category shall include any commercial application of pesticide for the protection of stored, processed, or manufactured products. This category shall also include any commercial application of pesticide in, on, or around the following:

(i) Food handling establishments, human dwellings, institutions including schools and hospitals, and any other similar structures and the areas immediately adjacent to those structures; and

(ii) industrial establishments including warehouses, grain elevators, food processing plants, and any other related structures and adjacent areas.

(B) Subcategory 7A: wood-destroying pest control. This subcategory shall include any commercial application of pesticide in the control of termites, powder post beetles, wood borers, wood rot fungus, and any other wood-destroying pest.

(C) Subcategory 7B: stored products pest control. This subcategory shall include any commercial application of pesticide for the control of pests in stored grain and food products.

(D) Subcategory 7C: industrial weed control. This subcategory shall include any commercial application of pesticide for the control of pest weeds.

(E) Subcategory 7D: health-related pest control. This subcategory shall include any commercial application of pesticide in health programs for the management and control of terrestrial and aquatic pests having medical or public health significance.

(F) Subcategory 7E: structural pest control. This subcategory shall include any commercial application of pesticide in a structure for the control of any pest not covered in subcategories 7A and 7B.

(G) Subcategory 7F: wood preservation and wood products treatment. This subcategory shall include any commercial application of pesticide made to extend the life of wooden poles, posts, crossties, and other wood products to preserve or protect them from damage by insects, fungi, marine organisms, weather deterioration, or other wood-destroying agents.

(8) Category 8: public health pest control. This category shall apply to qualification for commercial certification of employees of government agencies, including state, federal, and other governmental agencies, who apply or supervise the application of a restricted-use pesticide for the management and control of terrestrial and aquatic pests having medical or public health significance.

(9) Category 9: regulatory pest control. This category shall apply to qualification for commercial certification of employees of government agencies, including state, federal, and other governmental agencies, who apply or supervise the application of a restricted-use pesticide in the control of federally regulated and state-regulated pests.

(A) Subcategory 9A: noxious weed control. This subcategory shall include qualification for commercial certification of employees of state, federal, and other governmental agencies who use or supervise the use of a restricted-use pesticide in the control of weed pests regulated under the Kansas noxious weed law.

(B) Subcategory 9B: regulated pest control. This subcategory shall include qualification for commercial certification of employees of state, federal, and other governmental agencies who use or supervise the use of a restricted-use pesticide in the control of federally regulated or state-regulated pests not covered in subcategory 9A.

(10)(A) Category 10: demonstration and research pest control. This category shall include the following:

(i) Those persons who demonstrate to the public the proper techniques for application and use of restricted-use pesticides or who supervise such a demonstration. These persons shall include extension specialists, county agents, commercial representatives who demonstrate pesticide products, and persons who demonstrate, in public programs, methods of pesticide use;

(ii) those persons who use or supervise the use of restricted-use pesticides in conducting field research that involves the use of pesticides. These persons shall include state, federal, and commercial employees and other persons who conduct field research regarding or utilizing restricted-use pesticides; and

(iii) qualified laboratory personnel using restricted-use pesticides while engaged in pesticide research in areas where environmental factors beyond the control of laboratory personnel, including wind, rain, and similar factors, can affect the safe use of the pesticide or can cause the pesticide to have an adverse impact on the environment.

(B) The persons listed in paragraphs (a)(10)(A)(ii) and (iii) shall not be considered exempt from certification under the provisions of K.S.A. 2-2441a(d) and amendments thereto.

(b) Each pesticide business shall be licensed in all categories in which the pesticide business makes commercial pesticide applications and shall

employ one or more persons who maintain commercial certification in each subcategory in which the pesticide business makes commercial pesticide applications.

(c) Each state, federal, and other governmental agency shall be registered in all categories and subcategories in which the agency makes commercial pesticide applications. (Authorized by K.S.A. 2008 Supp. 2-2440, as amended by L. 2009, Ch. 128, §11, and K.S.A. 2-2467a; implementing K.S.A. 2008 Supp. 2-2444a and K.S.A. 2-2467a; effective, E-78-26, Sept. 7, 1977; effective May 1, 1978; amended Feb. 29, 2008; amended Feb. 5, 2010.)

4-13-9. Report of address, name, or personnel change by business.

(a) Each pesticide business licensee shall provide the secretary with written notification of any modification or change to the initial application regarding the business address or business name and of any change in service personnel involved in the application of pesticides. Each notification shall be provided within 30 days of the modification or change made by the pesticide business licensee. Notification shall be required for the following:

(1) Hiring or terminating, or both, any employees involved in the application of pesticides;

(2) making any change in certification or technician status, or both; and

(3) making any change in the manager, operator, authorized representative, or resident agent.

(b) The pesticide business licensee shall submit with each such notification the required \$15.00 fee for each previously unreported uncertified individual employed to apply pesticides for a total of more than 10 days or for a period of five or more consecutive days during any 30-day period.

(c) Each notification shall include the full name, home address, birth date, and social security number of each applicator of pesticides listed who is a certified applicator or a registered pest control technician.

(d) Each notification shall also include the full name, home address, birth date, and driver's license number of each applicator of pesticides listed who is not a certified commercial applicator of pesticides or a registered pest control technician.

(e) The \$15.00 fee shall revert to \$10.00 on and after July 1, 2015, unless this date is modified by statute. (Authorized by K.S.A. 2-2467a; implementing K.S.A. 2008 Supp. 2-2440, as amended by L. 2009, Ch. 128, §11; effective, E-78-26, Sept.

7, 1977; effective May 1, 1978; amended, T-88-46, Nov. 10, 1987; amended May 1, 1988; amended, T-4-6-27-02, July 1, 2002; amended Oct. 25, 2002; amended Feb. 29, 2008; amended Feb. 5, 2010.)

4-13-14. Private applicator examination.

Initial examinations for certified private applicators shall be taken in the presence of a representative of the Kansas department of agriculture or the Kansas state university extension service. Each applicant for this certification shall be required to answer at least 75% of the questions correctly to pass the examination.

Examinations for private applicator certification shall test the applicant's knowledge in those subject areas specified in K.S.A. 2-2445, and amendments thereto, involving pest control practices associated with the applicant's agricultural operation and the applicant's legal responsibility as a certified applicator of restricted pesticides. Each applicant shall be tested to determine the applicant's ability to meet the following requirements:

(a) Recognize common pests to be controlled and damage caused by them;

(b) read and understand the label and labeling information, including the common name of the pesticide applied, pest or pests to be controlled, timing and methods of application, safety precautions, any preharvest reentry restrictions, and any specific disposal procedures;

(c) apply pesticides in accordance with label instructions and warnings, including the ability to prepare the proper concentration of pesticide to be used under particular circumstances taking into account such factors as area to be covered, speed at which application equipment will be driven, and the quantity dispersed in a given period of operation;

(d) recognize local environmental situations that must be considered during application to avoid contamination;

(e) recognize poisoning symptoms and procedures to follow in case of a pesticide accident; and

(f) understand federal and state supervisory requirements, including labeling, that must be met by a certified private applicator in supervising the non-certified application of restricted pesticides. These supervisory requirements shall include verifiable instruction of the applicator, availability during application, and any added restrictions that may be imposed for specific pesticides through labeling. These restrictions may include the required physical presence of the

supervising applicator during the application. (Authorized by K.S.A. 2-2467a; implementing K.S.A. 2008 Supp. 2-2445a, as amended by L. 2009, Ch. 128, §18; effective, E-78-26, Sept. 7, 1977; effective May 1, 1978; amended May 1, 1988; amended Feb. 5, 2010.)

4-13-16. Supervision of uncertified applicators.

(a) An uncertified commercial applicator of any pesticide and an uncertified private applicator of restricted-use pesticides shall be considered to be under the supervision of a certified applicator if the certified applicator has provided the uncertified applicator with instructions in the handling and application of the pesticide being used.

(b) The certified applicator shall be available to the uncertified applicator by telephone, two-way radio, or other comparable means of communication when the pesticide is being applied.

(c) The certified applicator shall be physically present if that person's presence is required by the pesticide label.

(d) The certified applicator shall verify that the requirements of this regulation were met when requested to do so by the secretary or the secretary's authorized representative.

(e) An uncertified applicator of pesticides, including registered pest control technicians, shall be considered to be under the supervision of a certified commercial applicator only if both individuals are stationed at and work from the same business address. (Authorized by K.S.A. 2-2467a; implementing K.S.A. 2008 Supp. 2-2441a, as amended by L. 2009, Ch. 128, §16; effective, E-78-26, Sept. 7, 1977; effective May 1, 1978; amended, T-88-46, Nov. 10, 1987; amended May 1, 1988; amended Feb. 5, 2010.)

4-13-17. Report of address change by certified applicators. Each certified commercial applicator shall notify the secretary of any change in that applicator's mailing address within 30 days of the change. (Authorized by and implementing K.S.A. 2-2467a; effective, E-78-26, Sept. 7, 1977; effective May 1, 1978; amended Feb. 5, 2010.)

4-13-18. Disposal of pesticides and containers. Any amount of unused pesticide and each empty pesticide container shall be stored in the same manner as the pesticide involved until the unused pesticide or empty container is disposed of in a manner consistent with technology current at the time of disposal. Questions regard-

ing the latest technology shall be submitted to any of the following: (a) The Kansas department of agriculture;

(b) Kansas state university extension service;

(c) Kansas department of health and environment; or

(d) the United States environmental protection agency. (Authorized by and implementing K.S.A. 2-2467a; effective, E-78-26, Sept. 7, 1977; effective May 1, 1978; amended Feb. 5, 2010.)

4-13-20. Pesticide business license, renewal, and uncertified commercial applicator fees. The application fee for a pesticide business license or for the renewal of a pesticide business license shall be \$140.00 for each category in which the applicant applies for a pesticide business license or renewal of that license. An additional fee of \$15.00 for each uncertified commercial applicator employed by the applicant to apply pesticides shall also be paid. This regulation shall apply to all pesticide business licenses, or renewals of these licenses, that will be effective through June 30, 2015, regardless of when the application is received by the agency.

The \$140.00 pesticide business license fee shall revert to \$112.00 on and after July 1, 2015, unless this date is modified by statute. The \$15.00 uncertified commercial applicator shall revert to \$10.00 on and after July 1, 2015, unless this date is modified by statute. (Authorized by K.S.A. 2008 Supp. 2-2440, as amended by L. 2009, Ch. 128, §11, and K.S.A. 2-2467a; implementing K.S.A. 2008 Supp. 2-2440, as amended by L. 2009, Ch. 128, §11; effective, T-83-36, Nov. 10, 1982; effective May 1, 1983; amended, T-88-46, Nov. 10, 1987; amended May 1, 1988; amended, T-4-6-27-02, July 1, 2002; amended Oct. 25, 2002; amended Feb. 29, 2008; amended Feb. 5, 2010.)

4-13-21. Government agency registration and renewal fees. The application fee for a government agency registration shall be \$50.00. This regulation shall apply to all government agency registrations, or renewals of these registrations, effective through June 30, 2015, regardless of when the agency receives the application. The \$50.00 government agency registration fee shall revert to \$35.00 on and after July 1, 2015, unless this date is modified by statute. (Authorized by K.S.A. 2008 Supp. 2-2440, as amended by L. 2009, Ch. 128, §11, and K.S.A. 2-2467a; implementing K.S.A. 2008 Supp. 2-2440, as amended by L. 2009, Ch.

128, §11; effective, T-83-36, Nov. 10, 1982; effective May 1, 1983; amended, T-4-6-27-02, July 1, 2002; amended Oct. 25, 2002; amended Feb. 29, 2008; amended Feb. 5, 2010.)

4-13-22. (Authorized by K.S.A. 2006 Supp. 2-2441a and K.S.A. 2-2467a; implementing K.S.A. 2006 Supp. 2-2441a; effective, T-83-36, Nov. 10, 1982; effective May 1, 1983; amended, T-4-6-27-02, July 1, 2002; amended Oct. 25, 2002; amended Feb. 29, 2008; revoked Feb. 5, 2010.)

4-13-23. Examination fees. The examination fee for a commercial applicator's certificate shall be \$45.00 through June 30, 2015, for each category, subcategory, and general core examination taken. The fee shall also apply if the applicant seeks reexamination. The \$45.00 examination fee shall revert to \$35.00 on and after July 1, 2015, unless this date is modified by statute. (Authorized by K.S.A. 2008 Supp. 2-2443a, as amended by L. 2009, Ch. 128, §17, and K.S.A. 2-2467a; implementing K.S.A. 2008 Supp. 2-2443a, as amended by L. 2009, Ch. 128, §17; effective, T-83-36, Nov. 10, 1982; effective May 1, 1983; amended, T-4-6-27-02, July 1, 2002; amended Oct. 25, 2002; amended Feb. 29, 2008; amended Feb. 5, 2010.)

4-13-24. Certified private applicator's certificate fee. The certified private applicator's certificate fee shall be \$25.00. This regulation shall apply to certified private applicator certificates that will be effective through June 30, 2015, regardless of when the department receives the application. The \$25.00 certified private applicator's certificate fee shall revert to \$10.00 on and after July 1, 2015, unless this date is modified by statute. (Authorized by K.S.A. 2008 Supp. 2-2445a, as amended by L. 2009, Ch. 128, §18, and K.S.A. 2-2467a; implementing K.S.A. 2008 Supp. 2-2445a, as amended by L. 2009, Ch. 128, §18; effective, T-83-36, Nov. 10, 1982; effective May 1, 1983; amended, T-4-6-27-02, July 1, 2002; amended Oct. 25, 2002; amended Feb. 29, 2008; amended Feb. 5, 2010.)

4-13-25. Bulk pesticide storage and handling of pesticides; definitions. As used in K.A.R. 4-13-25 through 4-13-25m, the following terms shall be defined as follows:

(a) "Appurtenance" means any valve, pump, fitting, pipe, hose, auger, metering device, and dispensing device connected to a storage container.

“Dispensing device” shall include any device that is used to transfer bulk pesticides into or out of a container.

(b) “Bulk pesticide” means any pesticide, whether liquid or solid, that is kept at ambient temperature and pressure and is stored, loaded, or unloaded in an individual container of undivided capacity in quantities identified in K.A.R. 4-13-25b.

(c) “Bulk pesticide container” means any receptacle or device in which a pesticide is stored, mixed, treated, disposed of, or handled in any manner in quantities greater than 55 gallons liquid measure or quantities greater than 100 pounds net dry weight.

(d) “Bulk pesticide storage facility” and “facility” mean any warehouse, loading pad, or other area where a bulk pesticide is stored, mixed, loaded, or unloaded, unless otherwise exempted. Each bulk pesticide storage facility located within 300 feet of another facility owned or operated by the same person shall be considered the same facility for the purpose of finding the number of consecutive days in storage and determining whether the facility is exempt from the requirements of K.A.R. 4-13-25 through K.A.R. 4-13-25m.

(e) “Chemically compatible” means that the material will not react chemically adversely or electrolytically adversely to the bulk pesticide being stored, loaded, unloaded, mixed, or handled.

(f) “Discharge” means any spilling, leaking, depositing, pumping, dumping, or emptying, whether accidental or intentional, resulting in the release of a pesticide or material containing a pesticide at a bulk pesticide storage facility. “Discharge” shall not include the lawful transferring, loading, unloading, repackaging, refilling, distributing, using, disposing, or application of a pesticide. This term shall also exclude the normal washing and rinsing activities on a mixing and loading pad.

(g) “Dry bulk pesticide” means any bulk pesticide that is in solid form before any end-use application or before any mixing for end-use application. This term shall include making formulations including dusts, powders, and granules.

(h) “End-use application” means the application of a pesticide by the owner or lessee of the real property upon which the application is made to control a pest covered by the pesticide label.

(i) “Flood plain” means an area at one percent or greater risk of flood occurrence in any given year.

(j) “Gallon” means the United States standard measure of a gallon.

(k) “Liquid bulk pesticide” means any bulk pesticide in liquid form before dilution for end-use application. This term shall include solutions, emulsions, suspensions, slurries, and gels.

(l) “Mixing and loading pad” and “pad” mean a surface designed to provide containment of a pesticide during the loading, unloading, mixing, or handling of a pesticide, or during the cleaning, rinsing, or refilling of a pesticide container.

(m) “Mobile container” means a bulk pesticide container that is designed and used for transporting bulk pesticides.

(n) “Owner or operator” shall include any agent or employee of an owner or operator and mean any of the following:

(1) A pesticide dealer as defined by K.S.A. 2-2438a(q) and amendments thereto;

(2) a pesticide business licensee as defined by K.S.A. 2-2438a(p) and amendments thereto;

(3) a government agency registrant as addressed in K.S.A. 2-2440(e) and amendments thereto;

(4) a certified private applicator, as defined by K.S.A. 2-2438a(c)(2) and amendments thereto, of a bulk pesticide storage facility; or

(5) any other person, as defined by K.S.A. 2-2438a(l) and amendments thereto, responsible for the storage of bulk pesticides as defined by subsection (b).

(o) “Permanent cessation of operations” means either of the following:

(1) No pesticides have been loaded, unloaded, or stored at the facility for 12 consecutive months.

(2) The facility has gone out of business and is no longer a going concern.

(p) “Reasonably foreseeable” means what the secretary determines would have been foreseeable at the time the decision affecting the facility or its condition was made. “Reasonable foreseeability” shall include consideration of the owner’s or operator’s knowledge of conditions at the time the condition was created or the decision was made.

(q) “Secondary containment” means any structure, tank, or container, including rigid diking, that is designed, constructed, and maintained to intercept, hold, contain, or confine a discharge from a bulk pesticide container and to contain spills, prevent runoff, and avoid leaching.

(r) “Static pressure” means the pressure exerted by a fluid that is not flowing or moving.

(s) “Sump” means a recessed reservoir or catch basin designed to be a receptacle for the collection of liquids in the floor of secondary containment or in the part of the secondary containment

that constitutes the loading pad. (Authorized by and implementing K.S.A. 2-2467a; effective May 1, 1985; amended Dec. 27, 2002; amended Sept. 3, 2010.)

4-13-25b. Quantities of bulk pesticide. A facility shall be subject to the requirements of K.A.R. 4-13-25 through K.A.R. 4-13-25k if any of the following conditions is met:

(a) A cumulative total of 1,000 gallons or more of liquid bulk pesticide is transferred away from the facility during any consecutive 365-day period.

(b) A total of 1,000 gallons or more of liquid bulk pesticide is stored, held, or maintained at the facility at any time.

(c) A cumulative total of 3,000 pounds or more of dry bulk pesticide is transferred away from the facility during any consecutive 365-day period.

(d) A total of 3,000 pounds or more of dry bulk pesticide is stored, held, or maintained at the facility at any time. (Authorized by and implementing K.S.A. 2-2467a; effective Dec. 27, 2002; amended Sept. 3, 2010.)

4-13-25c. Location, design, and construction requirements of a bulk pesticide storage facility. Each owner or operator shall meet the following requirements: (a)(1) Each bulk pesticide storage facility shall be designed, constructed, and maintained according to the pesticide manufacturers' directions, instructions, or recommendations. The facility shall be constructed of materials that contain spills, prevent runoff, and avoid leaching of the pesticide being mixed, loaded, or unloaded. Construction materials shall be chemically compatible with the pesticides that come in contact with the material.

(2) Each bulk pesticide storage facility shall be designed, constructed, and maintained to accommodate all reasonably foreseeable loading and unloading conditions, including the anticipated wheel load of a vehicle, and to protect appurtenances and bulk pesticide containers against damage from operating personnel and moving equipment through the use of flexible connections, guard rails, barriers, and protective cages, where necessary.

(3) Asphalt shall not be used as a material in the construction of a bulk pesticide storage facility.

(b) No bulk pesticide storage facility shall be constructed or maintained in a flood plain unless the bulk pesticide is stored above the base flood elevation.

(c) The floor of each bulk pesticide storage facility shall be constructed of material that prevents the movement of pesticide materials and moisture through the floor and shall be designed, constructed, and maintained in a manner that allows discharges to be collected, contained, and recovered.

(d) All electrical equipment and wiring shall be elevated to prevent the equipment and wiring from becoming submerged and shall be grounded to dissipate static electricity.

(e) Both private and public water supplies shall be protected from contamination from the bulk pesticide storage facility.

(f) Each bulk pesticide storage facility shall contain a mixing and loading pad.

(g) Each bulk pesticide storage facility shall be secured to protect against reasonably foreseeable unauthorized access that could result in a discharge.

(h) Each bulk pesticide storage facility shall be designed, constructed, and maintained to prevent contact of any dry bulk pesticide with precipitation. Contact with precipitation shall be prevented by the following:

(1) Using a permanent cover; and

(2) placing dry bulk pesticide on pallets or a raised concrete platform enclosed by a curb that is at least six inches high and extends at least two feet beyond the perimeter of the dry bulk pesticide storage area.

(i) Each bulk pesticide storage facility shall be designed, constructed, and maintained to avoid the creation of pesticide waste and to prevent cross-contamination of pesticides.

(j) Bulk pesticides shall not be stored or mixed in underground containers. (Authorized by and implementing K.S.A. 2-2467a; effective Dec. 27, 2002; amended Sept. 3, 2010.)

4-13-25d. Secondary containment for bulk pesticide storage. Each owner or operator shall meet the following requirements: (a) All bulk pesticide shall be stored within secondary containment. The secondary containment capacity shall be at least 110 percent of the capacity of the largest single bulk pesticide container in addition to the displacement of tanks, appurtenances, fixtures, equipment, and material located within the secondary containment.

(b) The secondary containment, including the floor or bottom of the secondary containment, shall meet the following requirements:

(1) Be constructed of steel, reinforced concrete, or any other material of sufficient thickness, density, and composition to contain any discharged pesticide material;

(2) be leakproof with cracks, seams, and joints sealed; and

(3) for liquids, be capable of withstanding the static pressure resulting from the secondary containment being completely filled with a liquid having a density greater than or equal to the density of the most dense liquid bulk pesticide to be stored within the containment.

(c) A soil liner shall not be considered adequate for the secondary containment of pesticides. Masonry block, asphalt, earthen materials, unfired or fired clay, clay, natural soil-clay mixtures, clay-bentonite mixtures, and prefabricated bentonite liners shall not be deemed to be of appropriate density and composition to contain discharged pesticide material and shall not be used as secondary containment. Sealant-coated concrete blocks may be used if the facility owner's or operator's use of the blocks is approved in writing by the manufacturer of the pesticide.

(d) The floor of the secondary containment shall drain to a sump or other specific point of recovery.

(e) The sump or other specific point of recovery shall be emptied daily in accordance with K.A.R. 4-13-25g(a) by an on-site operator, who shall continuously monitor this process. The on-site operator may use an automatically activated pump to empty the sump if an automatic overflow switch is installed for the receiving container.

(f) No outlet, drain, or other means of penetration shall be located through the floor, bottom, or walls of the secondary containment.

(g) Secondary containment shall be constructed to allow the interior and exterior of the walls to be viewed.

(h) A synthetic liner used to line the secondary containment shall be installed and maintained according to the liner manufacturer's specifications, directions, and recommendations. The specifications, directions, and recommendations about liners from the manufacturers of the pesticides stored in the facility shall also be followed. All seams shall be tested, maintained, and repaired according to the manufacturer's specifications, directions, and recommendations. The liner shall be replaced if it cannot be repaired to meet the liner manufacturer's requirements. In no event shall a liner that is incapable of containing bulk pesticides independent of the support of another con-

tainer be used in lieu of secondary containment. (Authorized by and implementing K.S.A. 2-2467a; effective Dec. 27, 2002; amended Sept. 3, 2010.)

4-13-25e. Requirements for mixing and loading pads for bulk pesticides. Each owner or operator shall meet the following requirements: (a) Each mixing and loading pad not connected to a storage area shall be of adequate size and design to contain at least 110 percent of the capacity of the container or tank on the pad and the displacement of tanks, equipment, appurtenances, fixtures, and material located on the pad.

(b) Each mixing and loading pad shall be constructed to contain any discharge and shall be leakproof with all cracks, seams, and joints sealed. The pad shall be impervious to spills and capable of supporting the weight of the heaviest vehicle plus all loading, unloading, and mixing operations. The floor of the mixing and loading pad shall slope to a single point or to a sump, for the recovery of liquid spills.

(c) The sump shall be emptied daily by an on-site operator, who shall continuously monitor this process. The on-site operator may use an automatically activated pump to empty the sump if an automatic overflow switch is installed for the receiving container. The owner or operator may use the recovered pesticide for its intended purpose if it can be used according to the recovered pesticide's label. The owner or operator shall dispose of, in accordance with the label, any recovered pesticide that cannot be used.

(d) The following activities conducted at the facility shall be performed on the mixing and loading pad or within secondary containment:

- (1) Filling pesticide containers;
- (2) washing application equipment;
- (3) rinsing pesticide containers or application equipment;
- (4) mixing operations; and
- (5) loading application equipment. (Authorized by and implementing K.S.A. 2-2467a; effective Dec. 27, 2002; amended Sept. 3, 2010.)

4-13-25f. Requirements for bulk pesticide containers and appurtenances. Each owner or operator shall meet the following requirements: (a) Each bulk pesticide container shall be designed to handle all operating stresses, including static pressure, pressure buildup from pumps and compressors, and any other mechanical stresses to which the storage container could be subject

during operations. Each bulk pesticide container shall be chemically compatible with the pesticide it holds and shall meet all specifications, directions, and recommendations of the manufacturers of the pesticide and bulk pesticide container.

(b) Each bulk pesticide container connection, except for safety relief connections, shall be equipped with a shutoff valve accessible and located within the secondary containment.

(c) Except while the stored pesticide is being removed from the container, shutoff valves shall be left either closed and locked or otherwise secured from access. The transfer of pesticide from one bulk pesticide container to another and between a bulk pesticide container and a transport vehicle shall be attended at all times by an on-site operator.

(d) Bulk pesticide containers and appurtenances shall be supported to prevent sagging.

(e) Sight gauges shall not be used on bulk pesticide containers.

(f) Each bulk pesticide container that is not located within a structure with a roof and walls shall be designed, installed, and maintained to prevent flotation and to withstand winds of 90 miles per hour or less.

(g) Each bulk pesticide container shall be designed to protect against excessive internal pressure or vacuum.

(h) Each bulk pesticide container used for storage shall be marked clearly to identify the pesticide stored in the container. (Authorized by and implementing K.S.A. 2-2467a; effective Dec. 27, 2002; amended Sept. 3, 2010.)

4-13-25g. Discharge, recovery, and reporting requirements. (a) Each owner or operator shall recover promptly any discharge. The owner or operator may use the recovered pesticide for its intended purpose if it can be used according to the recovered pesticide's label or labeling. The owner or operator shall dispose of, in accordance with the label, any recovered pesticide that cannot be used.

(b) The owner or operator shall notify the secretary within 48 hours of any discharge not contained by secondary containment. (Authorized by and implementing K.S.A. 2-2467a; effective Dec. 27, 2002; amended Sept. 3, 2010.)

4-13-25h. Submission of diagrams, plans, and specifications. (a) The owner or operator of each bulk pesticide storage facility shall maintain

diagrams, plans, and specifications of the facility on site and with the secretary. The copy maintained at the facility shall be made available to a representative of the secretary upon request.

(b)(1) Each owner or operator of a bulk pesticide storage facility that is to be remodeled, an existing structure that is to be converted to use as a bulk pesticide storage facility, or a proposed bulk pesticide storage facility shall submit diagrams, plans, and specifications to the secretary before commencement of remodeling, conversion, or construction. Remodeling, conversion, or construction shall not commence until the owner or operator receives written notice from the secretary that no further information is required.

(2) The owner or operator of each facility under this subsection shall complete remodeling, conversion, or construction within two years after the secretary's written notice that no additional information is required. Upon completion of the remodel, conversion, or construction, the owner or operator of a facility under this subsection shall certify on a form prescribed by the secretary that the facility meets or exceeds all the requirements of K.A.R. 4-13-25 through K.A.R. 4-13-25k and is constructed in accordance with the diagrams, plans, and specifications submitted to the secretary.

(c) The diagrams, plans, and specifications shall include the facility layout, mechanical and electrical diagrams, construction materials, and the type of equipment that is located in the facility or that is to be fixed or installed in the facility. The diagrams shall be drawn to scale and shall be legible without magnification. The diagrams, plans, and specifications shall contain all information required in subsection (d).

(d) The diagrams, plans, and specifications of the bulk pesticide storage facility shall be submitted with the form prescribed by the secretary. The required documentation shall include, at a minimum, the following information:

(1) The location of the facility relative to the flood plain;

(2) the location of the facility relative to any surface water within 1,320 feet of the facility and the distance between the facility and the surface water;

(3) the distance from both the facility and the area within 100 feet of the facility to groundwater, and the location of the groundwater relative to the facility;

(4) the location of any plumbing and access to private and public water supplies and the distance

from the plumbing and access to the private and public water supplies;

- (5) the drainage pattern of the facility;
- (6) certification that the facility is not located on any abandoned or active oil, gas, or water well;
- (7) certification that the facility is not located on a utility easement;
- (8) the size and location of the proposed walls and flooring to be located within the facility;
- (9) the location and size of each bulk pesticide storage container;
- (10) the location and size of each loading and mixing pad;
- (11) the location of each appurtenance used in the storage or transfer of bulk pesticide within the facility;
- (12) the location of electrical equipment, wiring, and static grounding wires;
- (13) the location and size of dry bulk pesticide storage; and
- (14) any other relevant information required by the secretary.

(e) Each owner or operator of a bulk pesticide storage facility shall submit the diagrams, plans, and specifications required in this regulation to the secretary at least 30 days before the date the owner or operator proposes that the construction will commence.

(f) Additional time to comply with any deadline in this regulation may be granted by the secretary upon receipt of a written request and upon a showing of good cause for the additional time requested. Each request shall state the reason for the additional time requested and the amount of additional time needed.

(g) The construction, remodeling, conversion, and maintenance of a facility shall conform with the diagrams, plans, and specifications submitted and required by K.A.R. 4-13-25a through K.A.R. 4-13-25k. (Authorized by and implementing K.S.A. 2-2467a; effective Dec. 27, 2002; amended Sept. 3, 2010.)

4-13-25i. (Authorized by and implementing K.S.A. 2-2467a and 2-2471; effective Dec. 27, 2002; revoked Sept. 3, 2010.)

4-13-25j. Bulk pesticide storage facility inspection and maintenance requirements.

(a) Each owner or operator shall inspect the bulk pesticide storage facility and secondary containment, including all appurtenances, at least monthly for any defects, including the following:

- (1) Corrosion;
- (2) leaks;
- (3) cracks;
- (4) spills;
- (5) gaps;
- (6) tears;
- (7) unsealed joints;
- (8) cross-contamination of pesticides;
- (9) structural defects;
- (10) equipment defects; and
- (11) any other defect in the facility or potential violation of K.A.R. 4-13-25 through K.A.R. 4-13-25k.

The owner or operator shall promptly correct any defect.

(b) Upon the discovery of each defect or potential violation specified in subsection (a) that compromises the facility's ability to contain the pesticide, the owner or operator shall, within 24 hours after the discovery, either initiate repairs to correct the defect or take the appurtenance or secondary containment out of service. If the appurtenance or secondary containment is left in service, the defect or potential violation shall be corrected within 14 days following the discovery. If the defect or potential violation is not corrected within 14 days following the discovery, the appurtenance or secondary containment shall be removed from service.

(c) The owner or operator shall make a record of the following:

- (1) Each inspection performed pursuant to subsection (a);
 - (2) each discharge within the facility in excess of 55 gallons; and
 - (3) more than one discharge within the facility in a 24-hour period totaling or exceeding 55 gallons.
- (d) Each record made pursuant to subsection (c) shall include the following:
- (1) The name of the person making the record;
 - (2) the date the record was made;
 - (3) if any inspection is performed, the following:
 - (A) The date of the inspection;
 - (B) a description of any defect found; and
 - (C) a description of any repairs made to remedy the defect;
 - (4) if a discharge occurred, the following:
 - (A) The date of the discharge;
 - (B) the amount of the discharge;
 - (C) the cause of the discharge;
 - (D) a description of any repairs made; and
 - (E) the date and time the secretary was notified pursuant to K.A.R. 5-13-25g;

(5) the date any defective equipment at the facility is taken out of service; and

(6) the date any defective equipment is placed back into service.

(e) All records maintained at the facility shall be retained for three years from the date of the record and shall be made available to the secretary or an authorized representative of the secretary upon request. (Authorized by and implementing K.S.A. 2-2467a; effective Dec. 27, 2002; amended Sept. 3, 2010.)

4-13-25k. Site closure and discontinuation of operation. (a) The owner or operator shall notify the secretary within 30 calendar days following the permanent cessation of operations of a bulk pesticide storage facility.

(b) Whenever a bulk pesticide storage facility permanently ceases operations, the owner or operator shall provide the secretary with written verification of both of the following, on a form prescribed by the secretary:

(1) All pesticides, solutions containing a pesticide, wash waters, and other materials that may contain pesticides have been removed from the facility and have been used or disposed of according to the pesticide's label or labeling and according to all federal, state, and local requirements.

(2) All bulk pesticide containers, appurtenances, mixing and loading pads, and sumps have been thoroughly cleaned according to each pesticide manufacturer's requirements, instructions, directions, or recommendations or, if none exist, according to standard industry practice. (Authorized by and implementing K.S.A. 2-2467a; effective Dec. 27, 2002; amended Sept. 3, 2010.)

4-13-25l. Penalty for noncompliance with pesticide containment. (a) The license, certification, or registration of any pesticide business licensee, governmental agency registrant, pesticide dealer, or certified private applicator who is found to have violated a pesticide containment requirement in K.A.R. 4-13-25a through 4-13-25k shall be subject to suspension, revocation, nonrenewal, or cancellation.

(b) Any pesticide business licensee or pesticide dealer who is found to have violated a pesticide containment requirement in K.A.R. 4-13-25 through 4-13-25k may incur a civil penalty in accordance with K.A.R. 4-13-62.

(c) Enforcement of K.A.R. 4-13-25 through K.A.R. 4-13-25k shall be conducted in accor-

dance with the provisions of the Kansas administrative procedures act, K.S.A. 77-501 et seq. and amendments thereto. (Authorized by K.S.A. 2009 Supp. 2-2449 and K.S.A. 2-2467a; implementing K.S.A. 2-2440e, K.S.A. 2009 Supp. 2-2449, K.S.A. 2-2453, 2-2454, and 2-2467a; effective Dec. 27, 2002; amended Sept. 3, 2010.)

4-13-25m. Change in owner or operator of bulk pesticide storage facility; reporting requirements. (a) If the owner or operator of a bulk pesticide storage facility changes, the new owner or operator shall notify the secretary of the change within 30 days after the effective date of the change, on a form prescribed by the secretary.

(b) The new owner or operator shall meet one of the following requirements:

(1) Submit to the secretary the diagram, plans, and specifications of the bulk pesticide storage facility required by K.A.R. 4-13-25h; or

(2)(A) State on the notification form that the owner or operator has reviewed the existing diagrams, plans, and specifications maintained by the secretary;

(B) certify that the bulk pesticide storage facility remains consistent with those existing diagrams, plans, and specifications; and

(C) certify that the bulk pesticide storage facility has been constructed, remodeled, or converted and is maintained and operated in accordance with K.A.R. 4-13-25 through K.A.R. 4-13-25k. (Authorized by and implementing K.S.A. 2-2467a; effective Sept. 3, 2010.)

4-13-30. Dealer recordkeeping requirements. (a) Each pesticide dealer shall maintain records of all restricted-use pesticide products sold or otherwise conveyed. These records shall be made available during reasonable business hours to the secretary or the secretary's authorized representative for purposes of inspection and copying. Each record required by this regulation shall be kept for at least two years after the date of the sale or conveyance.

(b) The records specified in subsection (a) shall contain the following information:

(1) The name of each person to whom the restricted-use pesticide product has been sold or conveyed, as verified by the person's presentation of a federal or state government-issued identification card;

(2) the address of either the residence or principal place of business of each person to whom the

restricted-use pesticide product has been sold or conveyed;

(3) the name and address of either the residence or principal place of business of the individual to whom the restricted-use pesticide product has been delivered or conveyed, if different from the purchaser;

(4) the certification number of the applicator's certificate;

(5) the name of the state issuing the certificate;

(6) the expiration date of the certificate;

(7) if the applicator is a certified commercial applicator of pesticides, then, if applicable, the categories and subcategories in which the applicator is certified;

(8) the registered name of the restricted-use pesticide product, the EPA registration number of the restricted-use pesticide product, and, if applicable, the "special local need" state registration number of the restricted-use pesticide product;

(9) the quantity of the restricted-use pesticide product sold or conveyed; and

(10) the date of the transaction.

(c) If the pesticide dealer makes a restricted-use pesticide product available to an uncertified person for use by a certified applicator, then the following records shall be kept in addition to those required in subsection (a):

(1) The name of the uncertified person to whom the restricted-use pesticide product has been made available, as verified by the uncertified person's presentation of a federal or state government-issued identification card;

(2) the address of either the residence or principal place of business of the uncertified person to whom the restricted-use pesticide product has been made available;

(3) the name of the certified applicator who will use the restricted-use pesticide product; and

(4) the address of either the residence or principal place of business of the certified applicator who will use the restricted-use pesticide product.

(d) Each pesticide dealer shall submit an annual report for each restricted-use pesticide product that the dealer has sold or otherwise conveyed. The report shall include the following:

(1) The registered name of the restricted-use pesticide product, the EPA registration number of the restricted-use pesticide product, and, if applicable, the "special local need" state registration number of the restricted-use pesticide product; and

(2) the quantity of the restricted-use pesticide product sold or otherwise conveyed. (Authorized

by and implementing K.S.A. 2-2467a; effective, T-86-27, Aug. 19, 1985; effective May 1, 1986; amended May 1, 1987; amended Feb. 5, 2010.)

4-13-33. Pest control technician registration and renewal fees. The application fee for a pest control technician registration or for the renewal of a pest control technician registration shall be \$40.00. Each fee paid by the applicant pursuant to K.A.R. 4-13-9 shall be applied toward payment of the fee required by this regulation. This regulation shall apply to all pest control technician registrations, or renewals of these registrations, that will be effective through June 30, 2015, regardless of when the department receives the application. The \$40.00 pest control technician registration fee shall revert to \$25.00 on and after July 1, 2015, unless this date is modified by statute. (Authorized by K.S.A. 2008 Supp. 2-2440b, as amended by L. 2009, Ch. 128, §13, and K.S.A. 2-2467a; implementing K.S.A. 2008 Supp. 2-2440b, as amended by L. 2009, Ch. 128, §13; effective, T-88-46, Nov. 10, 1987; amended May 1, 1988; amended, T-4-6-27-02, July 1, 2002; amended Oct. 25, 2002; amended Feb. 29, 2008; amended Feb. 5, 2010.)

4-13-62. Amount of civil penalty. (a) A separate civil penalty shall be assessed for each violation of the pesticide law that results from each independent act or failure to act by any pesticide business licensee or pesticide dealer, or any agent or employee of a pesticide business licensee or pesticide dealer. In determining whether a given violation is independent of and substantially distinguishable from any other violation for the purpose of assessing separate civil penalties, consideration shall be given to whether each violation requires an element of proof not required by another violation. If several violations require the same elements of proof and are not distinguishable, the assessment of separate civil penalties shall be within the discretion of the secretary or the secretary's authorized representative.

(b) The amount of each civil penalty shall be within the following ranges:

(1) For each violation of K.S.A. 2-2453(a) or (b) and amendments thereto, the civil penalty shall be not less than \$100 and not more than \$5,000.

(2) For each violation of K.S.A. 2-2454(b), (m), (o), (r), (s), or (t) and amendments thereto, the civil penalty shall be not less than \$100 and not more than \$5,000.

(3) For each violation of K.S.A. 2-2454, and amendments thereto, not covered in paragraph (b)(2), the civil penalty shall be not less than \$100 and not more than \$1,000.

(4) For each violation of K.S.A. 2-2453(c), and amendments thereto, not already covered in paragraph (b) (1), (2), or (3), the civil penalty shall be not less than \$100 and not more than \$1,000.

(c) For each subsequent occurrence of a violation for which a civil penalty has been assessed within a three-year period, the civil penalty assessed for the subsequent violation shall be the maximum amount for the category listed. (Authorized by K.S.A. 2-2467a; implementing K.S.A. 2-2440e, as amended by L. 2009, Ch. 128, §15; effective Jan. 1, 1989; amended Jan. 25, 1993; amended Feb. 5, 2010.)

Article 15.—PLANTS AND PLANT PRODUCTS

4-15-4. Live plant definition: exclusions.

The following shall be excluded from the definition of live plant in K.S.A. 2-2113, and amendments thereto: (a) Field and forage crops;

(b) seeds of any kind;

(c) cut flowers and cut greenery not used for propagation; and

(d) fruits and vegetables used for food or feed. (Authorized by K.S.A. 2010 Supp. 2-2126, as amended by L. 2011, ch. 72, sec. 11; implementing K.S.A. 2010 Supp. 2-2113, as amended by L. 2011, ch. 72, sec. 1; effective Oct. 18, 2002; amended May 18, 2012.)

4-15-5. Live plant dealer license fee. The fee for a live plant dealer license shall be \$80. (Authorized by K.S.A. 2010 Supp. 2-2126, as amended by L. 2011, ch. 72, sec. 11; implementing K.S.A. 2010 Supp. 2-2120, as amended by L. 2011, ch. 72, sec. 6; effective Oct. 18, 2002; amended June 5, 2009; amended, T-4-11-21-11, Nov. 21, 2011; amended March 23, 2012.)

4-15-6. Plant pest emergency response fund fee. In addition to the license fee specified in K.A.R. 4-15-5, each licensed live plant dealer shall pay a fee of \$5, which shall be deposited in the plant pest emergency response fund. (Authorized by K.S.A. 2010 Supp. 2-2126, as amended by L. 2011, ch. 72, sec. 11, and K.S.A. 2010 Supp. 2-2129, as amended by L. 2011, ch. 72, sec. 13; implementing K.S.A. 2010 Supp. 2-2129, as amended by L. 2011, ch. 72, sec. 13; effective Oct. 18, 2002; amended March 23, 2012.)

4-15-7. Live plant dealer licensing exemptions. (a) Any live plant dealer who does not import live plants from outside the state of Kansas, does not export live plants from the state of Kansas, and has annual gross receipts from the distribution of live plants that are less than \$10,000 shall be exempt from the licensing requirements.

(b) Each live plant dealer seeking to claim the licensing exemption shall submit annually on a form furnished by the department an application specifying the applicant's basis for claiming exemption from licensing requirements. If the secretary finds that an applicant meets the criteria specified in subsection (a), the applicant shall be exempt from licensing requirements.

(c) Each live plant dealer exempt from licensing requirements shall be subject to all quarantines and the regulated nonquarantine pest freedom standards established in K.A.R. 4-15-10. (Authorized by K.S.A. 2010 Supp. 2-2126, as amended by L. 2011, ch. 72, sec. 11; implementing K.S.A. 2010 Supp. 2-2120, as amended by L. 2011, ch. 72, sec. 6; effective Oct. 18, 2002; amended May 6, 2005; amended May 18, 2012.)

4-15-8. Fees for the inspection of live plants, plant products, bees, beekeeping equipment, and regulated articles. (a) Inspection services may be provided upon request to any person who owns or possesses live plants, plant products, bees, beekeeping equipment, or regulated articles. The person shall pay inspection fees of \$30 per hour plus mileage expenses. Inspection fees shall include hourly fees for travel time and time spent on-site.

(b) On-site hourly fees shall be calculated from the inspector's time of arrival until completion of the inspection, excluding breaks, meals, and any time not directly associated with conducting the inspection. A quarter-hour minimum shall be assessed, and the total on-site inspection time shall be rounded to the nearest quarter-hour.

(c) Hourly fees for travel time shall consist of actual driving time, excluding breaks, meals, and any time not directly associated with traveling to and from the inspection site. The total travel time shall be rounded to the nearest quarter-hour. If multiple inspections are completed at different locations, travel time shall be apportioned between inspections using the method for calculating and apportioning mileage fees specified in this regulation. If mileage fees are reduced to reflect a distance less than the distance actually travelled,

travel time shall be reduced by a percentage equal to the percentage of reduction in the number of miles actually travelled.

(d) Mileage to the inspection site shall be calculated from one of the following locations as applicable on the date the inspection is conducted, whichever is less:

(1) The inspector's official station;

(2) the last location at which a requested inspection was conducted; or

(3) the last location at which the inspector incurred lodging expenses.

(e) The person for which the last requested inspection is conducted on any day shall pay mileage fees for the return trip to the inspector's official station or the location at which the inspector incurs lodging expenses, whichever is less.

(f) Mileage fees shall be calculated using the actual miles driven by the inspector or the adjusted miles if reduced pursuant to this regulation. The rate per mile shall be the private vehicle mileage reimbursement rate fixed by the secretary of administration.

(g) Any inspection, certification, diagnostic, or identification fee may be waived if the fee would be assessed against a state or local government agency. (Authorized by K.S.A. 2010 Supp. 2-2126, as amended by L. 2011, ch. 72, sec. 11; implementing K.S.A. 2010 Supp. 2-2118, as amended by L. 2011, ch. 72, sec. 5; effective Oct. 18, 2002; amended May 6, 2005; amended May 18, 2012.)

4-15-9. Fees for the certification of live plants, plant products, bees, beekeeping equipment, and regulated articles. (a) If a state certificate is required for the entry of an inspected article into another state or a foreign country, the person needing certification shall pay one or more of the following, as applicable:

(1) \$20 for a certificate for a commodity or article certified for domestic shipment;

(2) \$50 for a certificate for a commodity or article certified for international shipment; or

(3) 20 cents for each bale tag provided to satisfy a weed-free forage requirement.

(b) If a federal certificate is also required for the entry of an inspected article into another state or a foreign country, the associated fee shall be added to the amount specified in subsection (a). (Authorized by K.S.A. 2010 Supp. 2-2126, as amended by L. 2011, ch. 72, sec. 11; implementing K.S.A. 2010 Supp. 2-2118, as amended by L. 2011, ch. 72, sec. 5; effective Oct. 18, 2002; amended Feb. 2, 2007; amended May 18, 2012.)

4-15-9a. Live plant dealer; certificate of inspection. (a) Any live plant dealer may request a certificate of inspection to establish that the live plant dealer's live plants meet pest freedom standards.

(b) Each inspection pursuant to this regulation shall be conducted at a time chosen by the secretary to permit adequate inspection for the presence of plant pests giving consideration to the type of live plants inspected. If necessary due to the diversity of the live plants or for other reasons, multiple inspections may be conducted by the secretary.

(c) If the live plants inspected meet pest freedom standards, a certificate of inspection may be issued by the secretary.

(d) Each certificate of inspection shall be valid for one of the following:

(1) A period beginning on October 1 of the year the inspection was conducted through September 30 of the following calendar year; or

(2) a lesser period that the secretary may determine based upon the request of the live plant dealer due to the growing season and distribution schedule for the live plants.

(e) Any request for a certificate of inspection may be denied and any certificate of inspection may be revoked by the secretary upon finding any of the following:

(1) An adequate inspection cannot be conducted.

(2) The live plant dealer's live plants do not meet pest freedom standards.

(3) Denial of the request for a certificate of inspection or revocation of the certificate of inspection is necessary to prevent or retard the spread of a plant pest that could cause economic or environmental harm. (Authorized by K.S.A. 2010 Supp. 2-2126, as amended by L. 2011, ch. 72, sec. 11; implementing K.S.A. 2010 Supp. 2-2118, as amended by L. 2011, ch. 72, sec. 5; effective May 18, 2012.)

4-15-10. Pest freedom standards. (a) The pest freedom standards specified in this regulation shall apply to all live plants grown, sold, distributed, planted, transported, moved, or given away by a live plant dealer or the live plant dealer's designated agent. As used in this regulation, "possessed" shall include being grown, sold, distributed, planted, transported, moved, or given away.

(b) Live plants on which quarantine pests are present shall be prohibited from entering the state or being possessed within the state by live plant dealers or any live plant dealer's designated agent.

(c) Live plants on which regulated nonquarantine pests are present shall be prohibited from entering the state or being possessed within the state by live plant dealers or any live plant dealer's designated agent unless the live plants are within the limits as specified in this regulation.

(d) Live plants on which plant pests that are neither quarantine pests nor regulated nonquarantine pests are present may enter the state and be possessed by live plant dealers. These live plants shall remain subject to regulatory action if the secretary finds that action is necessary to prevent or retard the spread of a plant pest that could cause economic or environmental harm.

(e) Only live plants free of quarantine pests and within the limits for the presence of regulated nonquarantine pests may be certified as meeting pest freedom standards. When necessary for export, standards more stringent than those specified in this regulation may be utilized by the secretary to ensure compliance with all applicable quarantines and regulated nonquarantine pest freedom standards.

(f) The classes of regulated nonquarantine pests shall be the following, with the limits specified:

(1) For insects and arachnids that bore into live plants, scarab beetles, scale insects, and weevils, the number of infested plants shall be zero percent of the total number of plants in the lot, cultivar, or group of a single species of plant.

(2) For diseases known as viruses, viroids, phytoplasmas, spiroplasmas, mycoplasmas, the genera or species of diseases caused by Phytophthora (a group of fungal diseases that infect various plants and plant parts), *Bursaphelenchus xylophilus* (pine wilt nematode), *Meloidogyne* (root knot nematodes), *Erwinia amylovora* (fire blight), *Agrobacterium tumefaciens* (crown gall), and bacterial species that can cause wilt disease, the number of infected plants shall be zero percent of the total number of plants in the lot, cultivar, or group of a single species of plant.

(3) For diseases known to cause wilts, galls, cankers, root rot, and crown rot, the number of infected plants shall be less than five percent of the total number of plants in the lot, cultivar, or group of a single species of plant.

(4) For plant parasitic nematodes, the number of infected plants with foliage affected or root systems stunted or underdeveloped shall be less than five percent of the total number of plants in the lot, cultivar, or group of a single species of plant.

(5) For foliar diseases of plants other than evergreens, the number of infected plants with more than 10 percent of the foliage affected shall be less than 15 percent of the total number of plants in the lot, cultivar, or group of a single species of plant.

(6) For foliar diseases of evergreens, the number of infected plants with more than one percent of the foliage affected shall be less than five percent of the total number of plants in the lot, cultivar, or group of a single species of plant. (Authorized by K.S.A. 2010 Supp. 2-2126, as amended by L. 2011, ch. 72, sec. 11; implementing K.S.A. 2010 Supp. 2-2117, as amended by L. 2011, ch. 72, sec. 4; effective Oct. 18, 2002; amended May 18, 2012.)

4-15-13. Criteria to determine dollar amount of civil penalty. (a) A civil penalty of at least \$100.00 but not more than \$2,000.00 may be assessed by the secretary for each violation of the plant pest and agriculture commodity certification act, K.S.A. 2-2112 et seq., and amendments thereto, and the implementing regulations.

(b) In determining the amount of any civil penalty, the gravity of the violation shall be considered by the secretary. Factors to be considered shall include the following:

(1) The potential of the act to injure, endanger, or harm the health of any consumer, the general public, cultivated or native plant resources, or the environment;

(2) the severity of actual or potential harm or injuries;

(3) the respondent's history of compliance with the plant pest and agriculture commodity certification act, and amendments thereto, and the implementing regulations;

(4) any action taken by respondent to remedy the specific violation or to mitigate any adverse effects of the violation on public health, cultivated or native plant resources, or the environment as a result of the violation; and

(5) any misrepresentation or fraud involved in the violation. (Authorized by K.S.A. 2011 Supp. 2-2126; implementing K.S.A. 2011 Supp. 2-2125; effective Oct. 18, 2002; amended July 18, 2008; amended May 18, 2012.)

Article 16.—MEAT AND MEAT PRODUCTS INSPECTION

4-16-1a. Definitions. (a) Each of the following terms, as used in the act and in the portions of the code of federal regulations adopted by ref-

erence in K.A.R. 4-16-1c, shall have the meaning specified in this subsection:

(1) “The act,” “act,” and “federal meat inspection act” shall mean K.S.A. 65-6a18 et seq. and amendments thereto.

(2) “Administrator,” except as used in 9 C.F.R. 303.1(d)(2)(iii)(b), shall mean the secretary of the department of agriculture or the secretary’s designee.

(3) “Beef” shall mean the skeletal muscle of any cattle. Beef shall not include any of the following:

(A) The muscles of the tongue, heart, or esophagus;

(B) the muscles found in the lips, muzzle, or ears;

(C) any portions of bone, including hard bone, bone marrow, and related components; or

(D) any amount of brain trigeminal ganglia, spinal cord, or dorsal root ganglia (DRG).

(4) “Cheek meat” shall mean meat that is the trimmed cheeks of the carcass of cattle.

(5) “Commerce” shall mean intrastate commerce.

(6) “Egg products inspection act” shall mean the Kansas egg law, K.S.A. 2-2501 et seq. and amendments thereto.

(7) “Federal food, drug and cosmetic act” shall mean the Kansas food, drug and cosmetic act, K.S.A. 65-655 et seq. and amendments thereto.

(8) “Federal inspection” shall mean inspection by the Kansas department of agriculture.

(9) “Food locker plant” shall mean a “slaughter facility” or “processing facility,” as defined in K.S.A. 65-6a18 and amendments thereto.

(10) “Form,” either by number or by any other designation, shall mean a form supplied by the Kansas department of agriculture.

(11) “Inspected for wholesomeness by U.S. department of agriculture” shall mean inspected and passed by the Kansas department of agriculture.

(12) “Official establishment” and “establishment” shall mean any building or adjacent premises that are registered pursuant to this act, where livestock, as defined in K.S.A. 65-6a18 and amendments thereto, domestic rabbits, meat food products, poultry, or poultry products capable of use as human food are “prepared,” as defined by K.S.A. 65-6a18 and amendments thereto.

(13) “Program,” “food safety and inspection service,” “inspection service,” “service,” “department,” and “FSIS” shall mean the meat and poultry inspection program of the Kansas department of agriculture.

(14) “Secretary,” “national supervisor,” “area supervisor,” “inspection service supervisor,” “inspection program supervisor,” “circuit supervisor,” and “station supervisor” shall mean the secretary of the department of agriculture or the secretary’s designee.

(15) “U.S.” and “the United States” shall mean Kansas or the state of Kansas, as appropriate.

(16) “U.S. inspected” and “government inspected” shall mean inspected by the Kansas department of agriculture.

(17) “U.S.D.A.” and “USDA” shall mean Kansas department of agriculture or KDA, as appropriate.

(b) The phrase “official review and copying” in 9 C.F.R. 417.5(f), as adopted by reference in K.A.R. 4-16-1c, shall mean review and copying by the secretary of the department of agriculture or the secretary’s designee. (Authorized by K.S.A. 2011 Supp. 65-6a20, as amended by L. 2012, ch. 145, sec. 29, K.S.A. 65-6a25, K.S.A. 2011 Supp. 65-6a30, and K.S.A. 2011 Supp. 65-6a44; implementing K.S.A. 2011 Supp. 65-6a20, as amended by L. 2012, ch. 145, sec. 29, K.S.A. 65-6a21, K.S.A. 65-6a22, K.S.A. 65-6a23, K.S.A. 65-6a25, and K.S.A. 2011 Supp. 65-6a30; effective May 1, 1982; amended May 1, 1986; amended Jan. 1, 1989; amended Jan. 21, 1991; amended Jan. 25, 1993; amended Dec. 12, 1994; amended Sept. 5, 1997; amended Sept. 1, 2006; amended Dec. 5, 2008; amended May 10, 2013.)

4-16-1c. Adoption by reference. (a) The following portions of title 9 of the code of federal regulations, as revised on January 1, 2012, except as otherwise specified, are hereby adopted by reference:

(1) Part 301, except the following terms and their definitions in section 301.2: “the act,” “adulterated,” “animal food manufacturer,” “label,” “labeling,” “livestock,” “meat broker,” “meat food product,” “misbranded,” “official import inspection established,” “person,” “pesticide chemical, food additive, color additive, raw agricultural commodity,” “prepared,” and “territory”;

(2) part 302, except section 302.2;

(3) part 303, except sections 303.1(d)(3) and 303.2;

(4)(A) Sections 304.1 and 304.2; and

(B) section 304.3, as amended by 77 fed. reg. 26936 (2012);

(5) parts 305 and 306, except sections 306.1, 306.2, and 306.3;

(6)(A) Sections 307.1 through 307.3;

(B) section 307.4, as amended by 77 fed. reg. 59294 (2012); and

(C) section 307.7;

(7) part 309;

(8) part 310;

(9) part 311;

(10) part 312, except section 312.8;

(11) parts 313 through 316;

(12) part 317, except sections 317.7 and 317.369;

(13) part 318, except section 318.8;

(14) part 319;

(15) part 320, except section 320.5(a);

(16) part 325, except section 325.3;

(17) part 329;

(18) part 352, except sections 352.1 (e), (f), (g),

(j), (k), and (l), 352.4, 352.8, 352.10(a), 352.11(b), 352.17, and 352.18;

(19)(A) Section 354.1, except subparagraphs (a), (n), and (w);

(B) section 354.2;

(C) sections 354.10 through 354.14;

(D) sections 354.23 through 354.24;

(E) sections 354.26 through 354.30;

(F) sections 354.46 through 354.49;

(G) sections 354.53 through 354.92;

(H) sections 354.120 through 354.133; and

(I) sections 354.160 through 354.247;

(20)(A) Section 381.1, except the following terms and their definitions in subsection (b): “act,” “adulterated,” “animal food manufacturer,” “label,” “labeling,” “misbranded,” “pesticide chemical, food additive, color additive, raw agricultural commodity,” “poultry products broker,” “territory,” and “U.S. refused entry”;

(B) sections 381.3 through 381.7, except 381.5;

(C) sections 381.10 through 381.21;

(D) section 381.22, as amended by 77 fed. reg. 26936 (2012);

(E) sections 381.23 through 381.36;

(F) section 381.37, as amended by 77 fed. reg. 59294 (2012);

(G) sections 381.65 through 381.103, except 381.96;

(H) sections 381.108 through 381.182;

(I) sections 381.189 through 381.194;

(J) sections 381.210 through 381.217, except section 381.216; and

(K) sections 381.300 through 381.500, except section 381.469;

(21) part 416;

(22)(A) Sections 417.1 through 417.3;

(B) section 417.4, as amended by 77 fed. reg. 26936 (2012); and

(C) sections 417.5 through 417.8;

(23) part 418, as added in 77 fed. reg. 26936 (2012); and

(24) parts 424, 430, 439, 441, 442, and 500.

(b) The “food standards and labeling policy book,” as published by the office of policy, program and employee development of the USDA food safety and inspection service and revised for web publication in August 2005, is hereby adopted by reference. This document shall apply to meat and poultry products.

(c) Copies of the adopted material or the pertinent portions shall be available from the meat and poultry inspection program of the department of agriculture, Topeka, Kansas. (Authorized by K.S.A. 2011 Supp. 65-6a20, as amended by L. 2012, ch. 145, sec. 29, K.S.A. 65-6a25, K.S.A. 2011 Supp. 65-6a30, and K.S.A. 2011 Supp. 65-6a44; implementing K.S.A. 2011 Supp. 65-6a20, as amended by L. 2012, ch. 145, sec. 29, K.S.A. 65-6a21, K.S.A. 65-6a22, K.S.A. 65-6a23, K.S.A. 65-6a25, and K.S.A. 2011 Supp. 65-6a30; effective May 1, 1986; amended May 1, 1988; amended Jan. 1, 1989; amended Jan. 21, 1991; amended Jan. 25, 1993; amended Dec. 12, 1994; amended Sept. 5, 1997; amended Sept. 1, 2006; amended Dec. 5, 2008; amended May 10, 2013.)

4-16-7a. Inspection fees. (a) Each establishment that requires inspection services at any time other than the establishment’s regularly scheduled inspection periods or requests voluntary inspection services shall be subject to the charges specified in this regulation to defray the department’s costs of providing these inspection services. Regularly scheduled inspection periods shall not include any legal holiday or any officially observed holiday as designated in K.A.R. 1-9-2.

(b) Each establishment that requests inspection services on a legal holiday or an officially observed holiday as designated in K.A.R. 1-9-2 shall give the secretary at least two weeks’ notice before the holiday. Except for Martin Luther King, Jr. Day, the Fourth of July, and Veterans’ Day, if the legal holiday occurs or is observed on a Monday or Friday, the fees shall also apply to inspection services requested during the adjacent weekend.

(c)(1) The hourly fee shall be \$28. The hourly fee shall be calculated in quarter-hour units. Unless otherwise specified, a required minimum charge of two hours shall be assessed.

(2) For slaughter with the mark of inspection, the hourly fee shall be assessed for the amount of time

needed to conduct the inspection. The inspection shall include the inspector's drive time to and from the establishment. If the establishment processes with the mark of inspection that day, then the amount of time to inspect the processing operations shall be included in the total inspection time.

(3) For processing with the mark of inspection, a fee of \$40 shall be assessed per day if the establishment is processing with the mark of inspection and not slaughtering with the mark of inspection.

(d) Each establishment that requests inspection services over eight hours in one day shall be assessed fees as follows, if the secretary can accommodate the extra time:

(1) If the request is made before the inspector's arrival at the establishment or while the inspector is at the establishment, the hourly fee shall be assessed for the actual time of the additional inspection. The two-hour minimum charge shall be waived, and the inspector's drive time shall not be charged.

(2) If the request is made after the inspector has left the establishment, the hourly fee shall be assessed, including the two-hour minimum charge. The inspector's drive time shall not be charged.

(3) If the establishment requests to slaughter with the mark of inspection when the regularly inspected operation is processing, the request may be granted by the secretary without assessing overtime charges if the operations will not exceed the establishment's regularly scheduled hours that day.

(4) Any requests specified in this subsection may be denied by the secretary if the requested additional time at the establishment causes inspections to be missed at other establishments.

(e) Payment of all applicable fees shall be due at or before the end of the month following the date of the requested inspection services. If the fees are not paid, requests for the following may be denied by the secretary:

(1) Inspection services on holidays;

(2) inspection services outside of the establishment's regularly scheduled inspection periods; and

(3) voluntary inspection services.

(f) Any applicable fees may be waived by the secretary under either of the following conditions:

(1) The establishment trades a regularly scheduled day of inspection in the week during which the additional inspection services are provided.

(2) Additional requested inspection services can be provided without causing undue hardship to the program.

(g) For fees associated with 4-H slaughter or processing, each establishment providing slaughter services associated with 4-H shall be assessed fees as follows for each seven-day calendar week, Sunday through Saturday:

(1) The facility shall be provided with not more than eight hours of inspection services without charge for 4-H slaughter operations in a 24-hour period.

(2) Inspection services for 4-H slaughter for more than eight hours in a calendar week shall be subject to the hourly fee specified in subsection (c) for slaughter.

(3) The fee may be waived if the facility cancels a day of inspection in the same seven-day calendar week in which 4-H slaughter is conducted.

(4) The fee shall be assessed for actual inspection time and shall not include the inspector's drive time to and from the facility. (Authorized by K.S.A. 2011 Supp. 65-6a26 and K.S.A. 2011 Supp. 65-6a44; implementing K.S.A. 2011 Supp. 65-6a26; effective May 1, 1986; amended Jan. 1, 1989; amended July 1, 1993; amended Jan. 17, 2003; amended July 18, 2008; amended May 10, 2013.)

4-16-306. Retail exemption; establishments selling food other than meat and poultry.

(a) Any person operating an establishment that is registered or required to be registered under the Kansas meat and poultry inspection act may process meat and poultry products for retail sale without the mark of inspection as specified in 9 C.F.R. 303.1, as adopted in K.A.R. 4-16-1c, if both of the following conditions are met:

(1) The establishment is maintained and operated in a sanitary manner.

(2) The establishment meets the applicable requirements of the department's regulations to ensure that any carcasses or parts thereof, meat, meat food products, poultry, and poultry products handled on a retail basis, and any containers or packages containing these products, are separated at all times from both of the following:

(A) Carcasses or parts thereof, meat, meat food products, poultry, and poultry products that bear the mark of inspection; and

(B) carcasses or parts thereof, meat, meat food products, poultry, and poultry products custom prepared according to K.S.A. 65-6a31(b), and amendments thereto, and 9 C.F.R. 303.1, as adopted in K.A.R. 4-16-1c.

(b) If an establishment at which inspection under the Kansas meat and poultry inspection act

is maintained processes or sells food other than meat, meat food products, poultry, or poultry products, the owner or operator of that establishment may be required to obtain a separate license, permit, or registration for those operations at the establishment under the Kansas food, drug, and cosmetic act, K.S.A. 65-619 et seq. and amendments thereto. (Authorized by K.S.A. 2011 Supp. 65-6a30 and 65-6a44; implementing K.S.A. 2011 Supp. 65-6a30, K.S.A. 2011 Supp. 65-6a31, as amended by L. 2012, ch. 145, sec. 30, and K.S.A. 65-6a34, as amended by L. 2012, ch. 145, sec. 31; effective May 10, 2013.)

Article 17.—POULTRY AND POULTRY PRODUCTS INSPECTION

4-17-1a. (Authorized by K.S.A. 2005 Supp. 65-6a44; implementing K.S.A. 2005 Supp. 65-6a20, K.S.A. 65-6a21, K.S.A. 65-6a22, K.S.A. 65-6a23, K.S.A. 65-6a25, and K.S.A. 2005 Supp. 65-6a30; effective Jan. 1, 1989; amended Jan. 21, 1991; amended Jan. 25, 1993; amended Sept. 5, 1997; amended Sept. 1, 2006; revoked May 10, 2013.)

4-17-1c. (Authorized by K.S.A. 2005 Supp. 65-6a44; implementing K.S.A. 2005 Supp. 65-6a20, K.S.A. 65-6a21, K.S.A. 65-6a22, K.S.A. 65-6a23, K.S.A. 65-6a25, and K.S.A. 2005 Supp. 65-6a30; effective Jan. 1, 1989; amended Jan. 21, 1991; amended Jan. 25, 1993; amended Dec. 12, 1994; amended Sept. 5, 1997; amended Sept. 1, 2006; revoked May 10, 2013.)

4-17-300. (Authorized by K.S.A. 2007 Supp. 65-6a44; implementing K.S.A. 2007 Supp. 65-6a56; effective July 1, 1992; amended Dec. 12, 1994; amended July 18, 2008; revoked May 10, 2013.)

4-17-302 and 4-17-303. (Authorized by K.S.A. 2007 Supp. 65-6a44; implementing K.S.A. 2007 Supp. 65-6a56; effective July 1, 1992; amended July 18, 2008; revoked May 10, 2013.)

4-17-304 and 4-17-305. (Authorized by K.S.A. 2007 Supp. 65-6a44; implementing K.S.A. 2007 Supp. 65-6a56; effective July 1, 1992; amended Dec. 12, 1994; amended July 18, 2008; revoked May 10, 2013.)

Article 27.—LODGING ESTABLISHMENTS

4-27-1. Lodging establishment application fees. The application fee for each lodging establishment doing business in Kansas shall be

based on the number of rooms as follows: (a) 1 room through 29 rooms: \$100; and

(b) 30 rooms or more: \$200. (Authorized by K.S.A. 2010 Supp. 36-506; implementing K.S.A. 2010 Supp. 36-502, as amended by 2011 HB 2282, sec. 2; effective June 4, 2010; amended, T-4-6-30-11, July 1, 2011; amended Oct. 28, 2011.)

4-27-2. Definitions. (a) “Bathhouse” shall mean a room provided to guests, including a locker room, shower room, or other similar room, where guests can shower, store personal items, or change into appropriate clothing for use in the spa.

(b) “Bed and breakfast home” shall mean a boarding house that is a private residence where the owner or manager resides and provides lodging and meals for guests. Any licensee operating a bed and breakfast home may serve food only to the licensee’s overnight guests, unless the licensee obtains a food service license.

(c) “Egress” shall mean an exit or route leading out of a lodging establishment.

(d) “Extended-stay establishment” shall mean a lodging establishment in which a room is rented or leased to transient guests. Housekeeping functions are not provided on a daily basis.

(e) “Hot tub” shall mean a pool or container of water designated for recreational use in which one or more people can soak. A hot tub can use hydrojet circulation or an air induction system, or a combination of these, to provide water circulation. A hot tub can use various water temperatures and additives, including minerals and oils, to provide therapy or relaxation.

(f) “Imminent health hazard” shall mean fire, flood, sewage backup, rodent infestation, bed bug or other insect infestation, misuse of poisonous or toxic materials, gross unsanitary occurrence or condition, or any other condition that could endanger the health or safety of guests, employees, or the general public.

(g) “Kitchenette” shall mean a compact kitchen with cooking utensils, tableware, refrigerator, microwave, stove, or sink or any combination of these.

(h) “Licensee” shall mean a person who is responsible for the operation of the lodging establishment and possesses a valid license to operate a lodging establishment.

(i) “Linens” shall mean the cloth items used in the lodging establishment, including sheets, bedspreads, blankets, pillowcases, mattress pads, towels, and washcloths.

(j) “Lodge” shall mean a boarding house or a rooming house that provides seasonal lodging for recreational purposes. If meals are provided for overnight guests, the lodge is operating as a boarding house. If meals are not provided for overnight guests, the lodge is operating as a rooming house.

(k) “Major renovation” shall mean a physical change to a lodging establishment or portion of a lodging establishment, including the following:

(1) Replacing or upgrading any of the following types of major systems:

- (A) Electrical;
- (B) plumbing;
- (C) heating, ventilation, and air-conditioning;

(2) demolition of the interior or exterior of a building or portion of the building; and

(3) replacement, demolition, or installation of interior walls and partitions, whether fixed or moveable.

Major renovation shall not include replacement of broken, dated, or worn equipment and other items, including individual air-conditioning units, bathroom tiles, shower stalls, and any other items that do not require additional or new plumbing or electrical repairs.

(l) “Person in charge” shall mean the individual or employee who is present in the lodging establishment at the time of the inspection and who is responsible for the operation. If no designated individual or employee is the person in charge, then any employee present is the person in charge.

(m) “Recreational water facility” and “RWF” shall mean a water environment with design and operational features that provides guests with recreational activity and that involves immersion of the body partially or totally in the water. This term shall include water slides, watercourse rides, water activity pools, jetted pools, and wave pools. This term shall not include swimming pools and hot tubs.

(n) “Sanitize” shall mean to apply cumulative heat or chemicals on any clean surface so that, when evaluated for efficacy, the surface yields a reduction of 99.999% of disease-causing microorganisms.

(o) “Single-service articles” shall mean items that are designed, constructed, and intended for one-time use and for one person’s use, after which the items are discarded. This term shall include plastic, paper, or foam tableware and utensils, lightweight metal foil, stirrers, straws, toothpicks, and other items including single-use gloves, bags, liners, containers, placemats, and wrappers.

(p) “Spa” shall mean any area of a lodging establishment where a hot tub, swimming pool, fitness equipment, tanning bed, or similar guest amenities are located. (Authorized by K.S.A. 2011 Supp. 36-506, as amended by L. 2012, ch. 145, sec. 6; implementing K.S.A. 2011 Supp. 36-501, as amended by L. 2012, ch. 145, sec. 3, and K.S.A. 2011 Supp. 36-506, as amended by L. 2012, ch. 145, sec. 6; effective June 4, 2010; amended Feb. 8, 2013.)

4-27-3. Licensure; plans and specifications; variances. (a) Each person applying for a license to operate a lodging establishment shall submit the following to the secretary:

(1) A completed application and the required application and license fees; and

(2) if required by subsection (b), the plans and specifications of the lodging establishment.

(b) The plans and specifications shall be submitted before any of the following:

(1) The construction of a lodging establishment;

(2) the conversion of an existing structure for use as a lodging establishment;

(3) the major renovation of a lodging establishment;

(4) the addition or major renovation of a swimming pool, hot tub, recreational water facility, or spa; or

(5) the addition or change of a food service operation within a lodging establishment.

(c) Each plan and specification for a lodging establishment shall demonstrate conformance with the applicable requirements of these regulations and shall include the following:

(1) The proposed layout, mechanical schematics, construction materials, and completion schedules;

(2) the equipment layout, construction materials, and completion schedules for any food preparation and service area; and

(3) the equipment layout and completion schedules for each swimming pool, hot tub, RWF, and spa.

(d) A variance may be granted by the secretary to modify or waive one or more requirements of a regulation if the secretary determines that a health hazard, safety hazard, or nuisance will not result from the variance.

(1) Each person requesting a variance shall submit the following to the department:

(A) A written statement of the proposed variance of the regulatory requirement;

(B) documentation of how the proposed variance addresses public health hazards and guest safety at the same level of protection as that of the original requirement; and

(C) any other relevant information if required by the secretary.

(2) For each variance granted, the licensee shall meet the following requirements:

(A) Follow the plans and procedures approved by the secretary;

(B) maintain a permanent record of the variance at the lodging establishment; and

(C) maintain and provide to the secretary, upon request, records that demonstrate that the variance is being followed. (Authorized by K.S.A. 2011 Supp. 36-506, as amended by L. 2012, ch. 145, sec. 6; implementing K.S.A. 2011 Supp. 36-502, as amended by L. 2012, ch. 145, sec. 4; effective June 4, 2010; amended Feb. 8, 2013.)

4-27-4. Food service and food safety. Each person operating a guest house that serves food to the general public, in addition to overnight guests, shall obtain a food establishment license in accordance with K.S.A. 65-688 et seq., and amendments thereto. (Authorized by and implementing K.S.A. 2011 Supp. 36-506, as amended by L. 2012, ch. 145, sec. 6; effective June 4, 2010; amended Feb. 8, 2013.)

4-27-5. Imminent health hazard. (a) Each licensee shall discontinue operations of the affected portions of the lodging establishment on discovery that an imminent health hazard exists.

(b) Each licensee shall notify the secretary within 12 hours of the discovery of an imminent health hazard. (Authorized by and implementing K.S.A. 2011 Supp. 36-506, as amended by L. 2012, ch. 145, sec. 6; effective June 4, 2010; amended Feb. 8, 2013.)

4-27-6. General requirements. (a) Each licensee shall meet all of the following requirements:

(1) Post the license in a location in the lodging establishment that is conspicuous to guests;

(2) comply with the provisions of these regulations, including the conditions of any granted variance;

(3) ensure that no room or any portion of the lodging establishment is rented unless the room or portion of the lodging establishment is safe and sanitary; and

(4) replace any existing items, including equipment, furnishings, fixtures, or items of décor, with

items that meet the requirements of these regulations, under any of the following conditions:

(A) The items constitute a public health hazard;

(B) the items affect guest safety; or

(C) the items do not meet the requirements of these regulations.

(b) Each licensee shall ensure that the hot water capacity is sufficient to meet the hot water demands of the lodging establishment.

(c) Each licensee shall ensure that all handwashing sinks meet all of the following requirements:

(1) Hot and cold potable water shall be supplied under pressure to each sink in enough capacity to meet handwashing needs.

(2) A mixing valve or combination faucet shall be used, unless the lodging establishment is listed on the state historical register or a variance that alters this requirement has been granted.

(3) The temperature of the hot water shall be at least 100 degrees Fahrenheit. If a mixing valve or combination faucet is not used, the temperature of the hot water shall not exceed 130 degrees Fahrenheit.

(4) A supply of hand soap and either paper towels or an electric drying device shall be available at all times at the handwashing sink.

(d) In public areas, cloth towels may be provided for one-time use by an individual. A receptacle for the soiled cloth towels shall be provided.

(e) The use of a common cloth towel shall be prohibited, except in guest rooms.

(f) A handwashing reminder sign shall be posted in each handwashing area, except in guest rooms.

(g)(1) A toilet room that is accessible at all times to employees shall be provided. A public toilet room may be used by employees in lieu of a separate employee toilet room.

(2) A public toilet room or rooms shall be provided and accessible to the public if the lodging establishment provides space for guest or public gatherings or functions, including conferences, meetings, seminars, receptions, teas, dances, recitals, weddings, parties, wakes, and other events.

(3) There shall be at least one handwashing sink in or immediately adjacent to each toilet room. Each sink shall meet the requirements specified in subsection (c).

(4) Each toilet and urinal shall be sanitary, maintained in good repair, and operational at all times.

(5) Each toilet and urinal shall be cleaned and sanitized daily or more often if visibly soiled.

(6) The floor in each toilet room shall be constructed of smooth, nonabsorbent, easily clean-

able materials and maintained in good repair. Carpeting shall be prohibited as a floor covering in toilet rooms.

(7) Except as specified in this paragraph, the storage of items in any toilet room shall be prohibited. A small amount of commonly used toilet room supplies may be stored, including toilet paper, hand soap, and paper towels. (Authorized by K.S.A. 2008 Supp. 36-506; implementing K.S.A. 2008 Supp. 36-502 and 36-506; effective June 4, 2010.)

4-27-7. Personnel; health, cleanliness, and clothing. Each licensee shall ensure that all of the following requirements are met: (a) Health of employees. Each employee with any of the following health problems shall be excluded from a lodging establishment:

(1) The employee is infected with a communicable disease, and the disease can be transmitted to other employees or guests in the normal course of employment.

(2) The employee is a carrier of organisms that cause a communicable disease.

(3) The employee has a boil, an infected wound, or an acute respiratory infection.

(b) Cleanliness of employees.

(1) Each employee shall wash that employee's hands in accordance with paragraph (b)(2) before handling clean utensils or dishware, ice, beverages, food, or clean laundry.

(2) Each employee shall wash that employee's hands and any exposed portions of that employee's arms with soap and water in a designated sink by vigorously rubbing together the surfaces of the lathered hands and arms for 15 seconds to 20 seconds and thoroughly rinsing with clean water.

(c) Clothing. Each employee providing services directly to guests or performing housekeeping functions shall wear clean outer clothing that is in good repair. (Authorized by and implementing K.S.A. 2008 Supp. 36-506; effective June 4, 2010.)

4-27-8. Guest and public safety. (a) If the secretary has reason to believe that defects could be present with regard to the integrity of the structure or electrical system of the lodging establishment, the licensee may be required by the secretary to retain the services of a professional engineer or local building code officer to certify the lodging establishment for building safety. Disasters after which the structural integrity may need to be evaluated shall include a heavy snow or

ice storm, flood, tornado, straight-line winds, fire, hurricane, and earthquake.

(b) Each licensee shall ensure that all repairs, construction, renovations, and maintenance are conducted in a manner that provides safe conditions for the guests and the public.

(c) The licensee of each lodging establishment using fuel-fired equipment or appliances that pose a potential carbon monoxide risk, including lodging establishments with attached parking garages or wood-burning fireplaces, shall install one or more carbon monoxide detectors according to the manufacturer's specifications.

(1) A carbon monoxide detector shall be required in each non-guest room adjoining or sharing a common ventilation system with an attached parking garage.

(2) Each carbon monoxide detector shall be in working condition.

(A) Each carbon monoxide detector shall be tested at least every six months to ensure that the detector is operating properly. The batteries shall be changed, as needed.

(B) A 12-month history of all test results shall be logged and maintained at the lodging establishment and made available to the secretary upon request.

(C) If a battery-operated detector is not operational for two consecutive tests, the licensee shall install a detector that is hardwired with a battery backup.

(3) A carbon monoxide detector shall not be required to be installed in an attached parking garage area.

(d) The operation and maintenance requirements for each lodging establishment shall include all of the following:

(1) Each lodging establishment shall meet the requirements of all applicable building codes, fire codes, and ordinances.

(2) No freshly cut Christmas trees or boughs shall be used unless the freshly cut trees or boughs are treated with a flame-resistant material. The documentation of the treatment shall be kept on file at the lodging establishment for at least one year.

(3) Textile materials having a napped, tufted, looped, woven, nonwoven, or similar surface shall not be applied to walls or ceilings, unless the textile materials are treated with a flame-resistant material. The documentation of the treatment shall be kept on file at the lodging establishment for as long as the materials are used on the walls or ceilings.

This documentation shall be made available to the secretary upon request. Carpeting used as coving that covers the junction between the floor and walls shall be exempt from this requirement.

(4) Foam or plastic materials or other highly flammable or toxic material shall not be used as an interior wall, ceiling, or floor finish unless approved by the secretary.

(5) The doors in any public areas that lead outside the lodging establishment shall not be locked or blocked, preventing egress when the building is occupied. No exit doors shall be concealed or obscured by hangings, draperies, or any other objects.

(6)(A) Portable fire extinguishers shall be required and located in the hallways, mechanical rooms, laundry areas, and all other hazardous areas and within 75 feet of each guest room door. All portable fire extinguishers shall be easily accessible to the guests and employees.

(B) Each fire extinguisher shall meet the following requirements:

(i) Be maintained in a fully charged and operable condition;

(ii) be rated at least 2A-10BC;

(iii) contain at least five pounds of fire suppressant; and

(iv) be inspected annually by a fire extinguisher company, a fire department representative, or another entity approved by the secretary. The licensee shall retain a record of these inspections at the lodging establishment for at least one year.

(7) Emergency lighting shall be provided where guest room doors open to an interior corridor and where guest room doors open to the outside but not directly at ground level.

(8) A smoke detector shall be installed in each guest sleeping room, cooking area and kitchen, interior stairwell, hallway, laundry area, mechanical room, and any other fire hazard area. Any heat-sensing device designed to detect fire may be installed in a cooking area in lieu of a smoke detector.

(A) All smoke detectors and heat-sensing devices shall be maintained in operating condition.

(B) Each smoke detector and each heat-sensing device shall be tested at least every six months to ensure that the detector or device is operating properly. The batteries shall be replaced as needed.

(C) A 12-month history of test results shall be logged and maintained at the lodging establishment and made available to the secretary upon request.

(D) If a battery-operated detector is not operational for two consecutive tests, the licensee shall

install a detector that is hardwired with a battery backup.

(E) Smoke detectors for hearing-impaired individuals shall be available as specified in K.S.A. 36-517, and amendments thereto.

(9) If hardwired, interconnected smoke detectors are used, these detectors shall be tested and approved annually by a fire sprinkler company, fire alarm company, fire department representative, or any other entity approved by the secretary. A 12-month history of test results shall be maintained at the lodging establishment and made available to the secretary upon request.

(10) If fire alarm systems and fire sprinkler systems are used, the systems shall be tested and approved annually by a fire alarm company, fire sprinkler company, fire department representative, or any other entity approved by the secretary. A 12-month history of test results shall be maintained at the lodging establishment and made available to the secretary upon request.

(11)(A) All exit signs shall be clean and legible. At least one exit sign shall be visible from each of the following locations:

(i) The doorway of each guest room that opens to an interior corridor; and

(ii) the doorway of each guest room that opens to the outdoors but not directly at ground level.

(B) Each newly constructed lodging establishment shall have supplemental directional signs indicating the direction and path of egress.

(C) Boarding houses and rooming houses shall not be required to have exit signs if the requirements in paragraphs (d)(5) and (12) are met.

(12) An evacuation route diagram shall be posted in a conspicuous location in each guest room. The diagram shall include the location of the guest room, the layout of the floor, and the location of the nearest available exits. If the door of a guest room opens directly to the outdoors at ground level, the diagram shall not be required to be posted.

(13) A copy of an emergency management plan and employee instructions shall be kept on file in the lodging establishment, made accessible to all employees, and made available to the secretary upon request. A record that each employee has received training on the emergency management plan shall be maintained at the lodging establishment in each employee's file. (Authorized by and implementing K.S.A. 2011 Supp. 36-506, as amended by L. 2012, ch. 145, sec. 6; effective June 4, 2010; amended Feb. 8, 2013.)

4-27-9. Guest rooms. Each licensee shall ensure that each guest room is kept clean, is in good repair, and is maintained with regard to the health and safety of each guest, in accordance with all of the following requirements: (a) The walls, floors, ceilings, doors, and windows shall be constructed of materials intended for that purpose, maintained in good repair, and cleaned, painted, or replaced as necessary.

(1) All junctures between floors and walls shall be constructed, covered, or finished with a baseboard and readily cleanable.

(2) All floors and floor coverings shall be cleaned as needed. The methods for cleaning shall be suitable to the finish and material.

(3) All floor maintenance, repair, or replacement shall be done in a manner that prevents slipping or tripping hazards to any guest.

(4) A guest room that has visible mold on the floors, walls, ceiling, or windows shall not be rented until mold cleanup is completed.

(b) All furnishings, including draperies, beds, appliances, furniture, lamps, and decorative items, shall be kept clean and in good repair. The methods for cleaning shall be suitable to the material and finish.

(c) Each guest room shall have a connecting toilet room and bathing facilities, including a bathtub or shower, except for the following:

(1) If the lodging establishment is listed on the state historical register and documentation is provided to the secretary, at least one toilet room with bathing facilities located on the same floor shall be provided for every two guest rooms, unless otherwise specified by the secretary.

(2) If the lodging establishment is a boarding house, including a bed and breakfast home, or a rooming house, at least one toilet room with bathing facilities located on the same floor shall be provided for every two guest rooms.

(3) If the lodging establishment is a lodge with dormitory sleeping areas, at least one toilet and at least one bathtub or one shower shall be provided for every six guests and shall be located within the same building as the dormitory sleeping area or adjacent to the dormitory sleeping area.

(d) Each handwashing sink shall meet the requirements specified in K.A.R. 4-27-6.

(e) Each rented guest room shall be serviced daily in the following manner except as otherwise specified in this subsection:

(1) Clean bathroom linens, including towels

and washcloths, shall be provided. If bathmats are provided, the bathmats shall be clean.

(2) Clean bed linens shall be provided, and the bed shall be made.

(3) All floors shall be swept or vacuumed, if visibly soiled. All hard-surface floors shall be wet-cleaned if visibly soiled.

(4) Each toilet, sink, bathtub, and shower area shall be cleaned if visibly soiled.

(5) Each trash container shall be emptied and shall be cleaned if visibly soiled. A trash container liner may be reused during the same guest's stay if the liner is not visibly soiled.

(6) All soap and prepackaged guest toiletry items shall be replenished, as necessary.

(7) All toilet paper shall be replenished, as necessary.

(8) Clean ice bucket liners shall be provided and replaced, as necessary and upon request of the guest.

(9) All glassware and cups, if provided, shall be replaced with clean and sanitized dishware. Single-service cups, if provided, shall be replenished.

(10) If a coffeemaker is present in the guest room, the coffeepot shall be rinsed. If the coffeepot is visibly soiled or contaminated, it shall be washed, rinsed, and sanitized. A fresh supply of coffee, condiments, and any single-service articles shall be replenished, if provided.

(f) Each guest room shall be serviced daily during the guest's stay if the stay is less than five days, unless the guest requests that all or part of the room not be serviced.

(g) If the same guest continuously occupies the same room for five or more days, the room shall be serviced and cleaned at least every five days. For each extended-stay establishment, the guest room shall be serviced and cleaned at least every five days.

(h) Each guest room that is available for rent shall be serviced and cleaned before each new guest. In addition to the required service activities in subsection (e), each guest room cleaning shall include the following:

(1) All floors shall be swept or vacuumed, and all hard-surface floors shall be wet-cleaned.

(2) All furniture, fixtures, and any items of decoration shall be cleaned in a manner that is appropriate to the finish.

(3) The interior of all drawers shall be cleaned.

(4) All toilets, sinks, bathtubs, and shower areas shall be cleaned and sanitized in a manner that is appropriate to the finish.

(5) All sinks, bathtubs, and shower areas shall be kept free of hair, mold, and mildew.

(6) Bed linens and bath linens shall not be used for cleaning or dusting.

(7) All trash containers shall be emptied and cleaned, and new liners shall be provided.

(8) All ice bucket liners shall be replaced with new liners.

(9) All used guest toiletries and soap shall be replenished.

(10) The guest room shall be visually inspected for any evidence of insects, rodents, and other pests.

(i)(1) All bedspreads, top-covering linens, blankets, mattress pads, mattresses, and box springs shall be cleaned and maintained in good repair according to all of the following requirements:

(A) All linens with tears or holes shall be repaired or replaced, and all soiled and stained linen shall be cleaned.

(B) All bedspreads and top-covering linens shall be cleaned at least monthly.

(C) All blankets and mattress pads shall be cleaned at least monthly. All blankets and mattress pads that are visibly soiled or stained shall be removed and replaced with clean linen.

(D) All mattresses and box springs shall be kept clean. Each damaged or soiled mattress and box spring shall be repaired or cleaned.

(E) Each mattress that is not kept in sanitary condition shall be replaced.

(2) The interior and surface of each enclosed mattress platform shall be cleaned if visibly soiled and either maintained in good repair or replaced.

(j) If a coffeepot is not located within a toilet room, the coffeepot shall be rinsed before each new guest. If a coffeepot is located within a toilet room, the coffeepot shall be washed, rinsed, and sanitized before each new guest as specified in K.A.R. 4-27-10.

(k) All single-service drinking glasses and utensils shall be prepackaged.

(l) All food and condiments provided in each guest room shall be individually prepackaged.

(m) If a refrigerator unit is provided in a guest room, the unit shall be cleaned before each new guest.

(n) Each appliance provided for guest use, including microwaves, stoves, dishwashing machines, coffeemakers, hair dryers, clothing irons, radios, televisions, remote controls, and video equipment, shall be operational and in good repair. All cooking appliances, including microwaves

and stoves, shall be cleaned before each new guest. All appliances shall be listed with or certified by underwriters' laboratories (UL) and shall bear the UL designation.

(o) Except as specified in this subsection, the use of portable electrical or open-flame cooking devices shall be prohibited in a guest room. These devices shall include hot plates, electric skillets and grills, propane and charcoal grills, camping stoves, and any similar cooking devices. These devices shall not include slow cookers. Microwaves and toasters that are provided in a guest room by the licensee shall be permitted.

(p) Each guest room shall be free of any evidence of insects, rodents, and other pests.

(1) If a guest room has been vacant for at least 30 days, the licensee shall visually inspect that room for any evidence of insects, rodents, and other pests within 24 hours of occupancy by the next guest.

(2) No guest room that is infested by insects, rodents, or other pests shall be rented until the infestation is eliminated.

(3) The presence of bed bugs, which is indicated by observation of a living or dead bed bug, bed bug carapace, eggs or egg casings, or the typical brownish or blood spotting on linens, mattresses, or furniture, shall be considered an infestation.

(4) The presence of bed bugs shall be reported to the secretary within one business day upon discovery or upon receipt of a guest complaint.

(5) All infestations shall be treated by a licensed pest control operator.

(6) All pest control measures, both mechanical and chemical, shall be used in accordance with the manufacturer's recommendations.

(7) No rodenticides, pesticides, or insecticides shall be stored in a guest room or in any area that could contaminate guest supplies, food, condiments, dishware, or utensils.

(q)(1) The licensee of each lodging establishment that allows pets into any guest room shall advise consumers that the establishment is "pet-friendly" by posting a sign in a conspicuous place at the front desk to alert guests that pets are allowed.

(2) The licensee of each lodging establishment where pets or service animals have been in a guest room shall meet one of the following requirements:

(A) The guest room shall be deep cleaned before the next guest. Deep cleaning shall include servicing and cleaning the guest room as specified in subsections (e) and (h), as well as vacuuming

and shampooing the carpet and upholstered furnishings and vacuuming the mattress. All bed linens, including sheets, mattress pads, blankets, bedspreads or top coverings, and pillows, shall be replaced with clean bed linens.

(B) If the room is not deep cleaned, the licensee shall not offer that room to any guest without giving notification to that guest that a pet or service animal was in the room previous to the new guest.

(3) If the previous guest has smoked in a room, the licensee of any lodging establishment shall not offer that room as a non-smoking room until one of the following requirements is met:

(A) The guest room is deep cleaned as specified in paragraph (q)(2)(A).

(B) If the room is not deep cleaned, the licensee shall give notification to the new guest that the previous guest smoked in the room.

(r) Each guest room shall be provided with a means for locking each entrance both from the inside and from the outside, according to all of the following requirements:

(1) The key furnished to each guest shall not unlock the door to any other guest room.

(2) At least one secondary lock, including a dead bolt lock, thumb bolt, chain lock, or a similar device, shall be provided in addition to the primary key lock and shall be installed in accordance with the manufacturer's specifications.

(3) All locks shall be in good repair and fully operational.

(s) Each pair of connecting guest rooms shall have two doors in the connecting doorway. Each connecting door shall be equipped with a lock on only the guest room side of that door.

(t) If cribs are provided upon request, the cribs shall be easily cleanable, safe, and in good repair. Each crib rail, pad, and mattress shall be cleaned and sanitized after each guest. (Authorized by and implementing K.S.A. 2011 Supp. 36-506, as amended by L. 2012, ch. 145, sec. 6; effective June 4, 2010; amended Feb. 8, 2013.)

4-27-10. Dishware and utensils. Each licensee shall ensure that all of the following requirements are met: (a) General.

(1) All dishware and utensils that are designed for repeat use shall be made of safe, durable, and nonabsorbent material and shall be kept in good repair. No cracked or chipped dishware or utensils shall be provided for use by guests or employees.

(2) All single-service articles shall be constructed of safe, durable, and nonabsorbent materials.

(3) All single-service drinking glasses and utensils shall be prepackaged or protected in a dispenser.

(4) No single-service articles may be reused.

(b) Storage.

(1) All clean dishware and utensils and all single-service articles shall be protected from dirt, dust, liquids, insects, vermin, and any other sources of contamination at all times.

(2) Each licensee shall provide storage facilities for dishware and utensils in a clean, dry location at least six inches above the floor.

(3) No dishware and utensils shall be stored under an exposed sewer line or a dripping water line.

(4) No dishware, utensils, single-service articles, ice buckets, and food containers shall be stored within a toilet room.

(c) Cleaning and sanitization. Each licensee shall use either manual cleaning and sanitizing equipment or mechanical cleaning and sanitizing equipment.

(1) All dirty or used glasses, dishware, and utensils that are in areas other than a guest room kitchenette shall be removed from each guest room during the servicing or cleaning of the room and upon vacancy of that room. All items shall be washed, rinsed, and sanitized using one of the approved methods in this regulation.

(2) If the licensee provides repeat service dishware or utensils to the lodging establishment's guests or to the public, the licensee shall install in the lodging establishment, or in a food service area operated in conjunction with the lodging establishment, manual or mechanical cleaning equipment for dishware and utensils that meets the requirement of this regulation.

(3) The manual cleaning and sanitizing of dishware, utensils, and food equipment shall meet all of the following requirements:

(A)(i) A sink with at least three compartments or three adjacent sinks shall be used and shall be large enough to permit the immersion of the largest item of dishware, utensil, or food equipment articles to be cleaned.

(ii) All sinks and dishware drying surfaces shall be cleaned before use.

(B) Each compartment of the sink shall be supplied with hot and cold potable running water.

(C) The wash, rinse, and sanitizing water shall be kept clean.

(D) The steps for manual cleaning and sanitizing shall consist of all of the following:

(i) All dishware, utensils, and food equipment

shall be thoroughly washed in the first compartment with a hot detergent solution.

(ii) All dishware, utensils, and food equipment shall be rinsed free of detergent and abrasives with clean hot water in the second compartment.

(iii) All dishware, utensils, and food equipment shall be sanitized in the third compartment according to one of the methods in paragraph (c)(3)(E).

(E) The food contact surfaces of all dishware, utensils, and food equipment shall be sanitized during manual ware washing by one of the following methods:

(i) Immersion for at least 10 seconds in a clean solution containing 50 to 200 parts per million of available chlorine, with a water temperature of at least 75 degrees Fahrenheit;

(ii) immersion for at least 30 seconds in clean hot water with a temperature of at least 171 degrees Fahrenheit;

(iii) immersion in a clean solution containing a quaternary ammonium compound with a minimum water temperature of 75 degrees Fahrenheit and with the concentration indicated by the manufacturer's directions on the label; or

(iv) immersion in a clean solution containing a sanitization chemical other than those specified in this subsection that meets the applicable requirements specified in K.A.R. 4-28-11.

(F) A chemical test kit, thermometer, or other device that accurately measures the concentration of sanitizing chemicals, in parts per million, and the temperature of the water shall be available and used daily.

(4) The mechanical cleaning and sanitizing of dishware, utensils, and food equipment may be done by spray-type or immersion commercial dishwashing machines. Another type of dishwashing machine or device may be used if the machine or device meets the requirements of this regulation.

(A) Each dishwashing machine and device shall be properly installed and maintained in good repair and shall be operated in accordance with the manufacturer's instructions.

(B) If an automatic detergent dispenser, rinsing agents dispenser, or liquid sanitizer dispenser is used, the dispenser shall be properly installed and maintained.

(C) Each dishwashing machine using hot water to sanitize shall be installed and operated according to the manufacturer's specifications and shall achieve a minimum dishware and utensil surface temperature of 160 degrees Fahrenheit as mea-

sured by a dishwasher-safe thermometer. For each dishwashing machine using hot water to sanitize that does not cause the surface temperature of the dishware and utensils to reach a temperature of 160 degrees Fahrenheit, one of the following requirements shall be met:

(i) The licensee shall install a heat booster.

(ii) The licensee shall provide the secretary with documentation of a time and temperature relationship that results in the sanitization of the dishware and utensils.

(D) The final rinse temperature of each dishwashing machine using hot water to sanitize shall be monitored by a dishwasher-safe thermometer.

(E) All dishware, utensils, and food equipment shall be exposed to all dishwashing and drying cycles.

(F) Each dishwashing machine using chemicals for sanitization shall be used as follows:

(i) The temperature of the wash water shall be at least 120 degrees Fahrenheit, and the chemical sanitizing rinse water shall be at least 75 degrees Fahrenheit unless specified differently by the machine's manufacturer.

(ii) The wash water shall be kept clean.

(iii) The chemicals added for sanitization purposes shall be automatically dispensed.

(iv) All dishware, utensils, and food equipment shall be exposed to the final chemical sanitizing rinse in accordance with the manufacturer's specifications for time and concentration.

(v) All chemical sanitizers shall meet the applicable requirements of K.A.R. 4-28-11.

(G) A chemical test kit, thermometer, or other device that accurately measures the concentration of sanitizing chemicals, in parts per million, and the temperature of the water shall be available and used daily.

(H) Each dishwashing machine or device shall be cleaned as often as necessary to be maintained in operating condition according to the manufacturer's specifications.

(d) All dishware, utensils, and food equipment shall be air-dried.

(e) Each licensee that provides dishware, utensils, and food equipment in the guest room shall clean and sanitize the dishware, utensils, and food equipment provided by one of the following methods:

(1) Provide manual dishwashing and sanitizing as specified in paragraph (c)(3);

(2) provide a mechanical dishwashing machine as specified in paragraph (c)(4); or

(3) provide a complete set of clean and sanitized dishware, utensils, and food equipment before each new guest arrives. (Authorized by and implementing K.S.A. 2011 Supp. 36-506, as amended by L. 2012, ch. 145, sec. 6; effective June 4, 2010; amended Feb. 8, 2013.)

4-27-11. Housekeeping and laundry facilities; maintenance supplies and equipment. Each licensee shall ensure that all housekeeping and laundry facilities and equipment are clean and maintained in good repair. Each licensee shall ensure that all of the following requirements are met:

(a)(1) Each housekeeping cart shall be maintained and operated to prevent the contamination of clean linens by dirty linens.

(2) Each housekeeping cart shall be designed, maintained, and operated to protect clean glasses, utensils, dishware, single-service articles, food, coffee, and condiments from dirty linens and other sources of contamination, including dirty glasses and dishware, cleaning and sanitizing agents, and poisonous or toxic materials.

(3) Each service or utility cart shall be maintained and operated to prevent the contamination of clean linens by dirty linens or other sources of contamination, according to one of the following methods:

(A) Cleaning and sanitizing the service cart before transporting clean linens;

(B) lining the service cart with a clean liner before transporting clean linens;

(C) placing the clean linens in a clean container before transporting the linens in the service cart; or

(D) using another method as approved by the secretary.

(4) All laundry bags used for dirty linen shall be laundered before being used for clean linen.

(5) Each housekeeping cart and each service cart shall be kept clean and in good repair.

(b)(1) Each licensee shall provide laundry facilities, unless a commercial laundry service is used.

(2) All clean laundry shall be handled in a manner that prevents contact with dirty linen.

(3) Each laundry area shall be designed and arranged in a manner that provides for the functional separation of clean and dirty laundry. A space large enough for sorting and storing soiled linens and for sorting and storing clean linens shall be provided.

(4) The laundry facilities shall be located in ar-

reas that are not used by guests or the public and are not used as corridors or passageways.

(5) The laundry area shall be kept clean and free from accumulated lint and dust.

(6) The laundry facilities and areas shall be used for their intended purpose and shall not be used for storage of equipment or supplies not related to the laundering process.

(7) All laundry equipment shall be functional and in good repair. Any laundry equipment that is no longer in use shall be removed from the laundry area.

(8) Each lodging establishment that is newly constructed, undergoes a major renovation, or is licensed under a new ownership shall be required to have a hand sink in the laundry area. Each hand sink shall meet the requirements specified in K.A.R. 4-27-6.

(9) All housekeeping and cleaning supplies and equipment shall be stored in a designated area. The storage area may be in the laundry area if the supplies and equipment are physically separated from the laundry, laundry equipment, and laundry supplies.

(c) All laundry that is cleaned commercially off the premises shall have a segregated storage space for clean and dirty laundry and shall be located and equipped for convenient pick-up and delivery.

(d) Separate laundry facilities may be provided for use by guests if these facilities are located in a room or area of the lodging establishment designated only for guest laundry. The area and equipment shall be kept clean and in good repair.

(e) Single-use gloves shall be available for housekeeping and laundry staff and made available in the laundry and housekeeping areas.

(f) A specific location or area shall be provided for the storage of maintenance supplies and equipment. No other items shall be stored in this location or area. (Authorized by and implementing K.S.A. 2011 Supp. 36-506, as amended by L. 2012, ch. 145, sec. 6; effective June 4, 2010; amended Feb. 8, 2013.)

4-27-12. Poisonous or toxic materials.

Each licensee shall ensure that all of the following requirements are met: (a) Only those poisonous or toxic materials that are required for the operation and maintenance of the lodging establishment shall be allowed on the premises, including the following:

(1) Detergents, sanitizers, cleaning or drying agents, caustics, acids, polishes, and similar chemicals;

- (2) insecticides and rodenticides;
- (3) building maintenance materials, including paint, varnish, stain, glue, and caulking; and
- (4) landscaping materials, including herbicides, lubricants, and fuel for equipment.

(b) The storage of poisonous or toxic materials shall meet all of the following requirements:

(1) The substances listed in each of the four categories specified in subsection (a) shall be stored on separate shelves or in separate cabinets. These shelves and cabinets shall be used for no other purpose.

(2) To prevent the possibility of contamination, poisonous or toxic materials shall not be stored above food, ice or ice-making equipment, linens, towels, utensils, single-service articles, or guest toiletry items. This requirement shall not prohibit the availability of cleaning or sanitizing agents in dishwashing or laundry work areas.

(c) Each bulk or original container of a poisonous or toxic material shall bear a legible manufacturer's label. All poisonous or toxic materials taken from a bulk container or an original container and put into another container shall be clearly identified with the common name of the material.

(d) Each poisonous or toxic material shall be used according to the manufacturer's directions. Additional safety requirements regarding the safe use of poisonous or toxic materials may be established by the secretary upon discovery of the unsafe use of these materials.

(e) Each restricted-use pesticide shall be applied only by a certified applicator or a person under the direct supervision of a certified applicator and in accordance with all applicable statutes and regulations. (Authorized by and implementing K.S.A. 2011 Supp. 36-506, as amended by L. 2012, ch. 145, sec. 6; effective June 4, 2010; amended Feb. 8, 2013.)

4-27-13. Public indoor areas. Each licensee shall ensure that all of the following requirements are met: (a) All indoor public areas shall be kept clean and free of debris.

(b)(1) All equipment, appliances, and fixtures shall be maintained in good repair. All equipment, appliances, and fixtures that require repair or maintenance either shall be removed for repair or maintenance or shall be designated as damaged or under repair by using signs, placards, cones, hazard tape, or other visual means to alert guests of any possible hazard.

(2) All unused or damaged equipment, appliances, and fixtures shall be removed.

(c)(1) All floors and floor coverings in public areas, service areas, hallways, walkways, and stairs shall be kept clean by effective means suitable to the finish.

(2) All floor coverings shall be maintained in good repair. All floor maintenance, repair, and replacement shall be done in a manner that prevents slipping or tripping hazards to guests.

(d) All furniture and items of décor shall be in good repair and kept clean by effective means suitable to the material and finish.

(e) All stairs, landings, hallways, and other walkways shall be kept free of debris and in good repair and shall meet the following requirements:

(1) The storage of items shall be prohibited.

(2) A minimum illumination of 10 foot-candles shall be required.

(f) Each fitness room, bathhouse, and spa shall meet the following requirements:

(1) Each area shall be cleaned and sanitized daily or more frequently, if necessary to maintain cleanliness.

(2) All floors shall be maintained in good repair and have a slip-resistant finish or covering that prevents slipping when wet.

(3) All equipment and fixtures that come into contact with guests, including benches, tables, stools, chairs, tanning beds, and fitness equipment, shall be constructed with a covering of a nonabsorbent material suitable for the use of the equipment or fixture. The following requirements shall be met:

(A) All surfaces that come into contact with guests shall be cleaned and sanitized daily or more frequently, if necessary to maintain cleanliness.

(B) Cleaning or sanitizing solutions shall be made available for guest use and shall be kept in clearly labeled bottles.

(C) All showers shall be cleaned and sanitized daily or more frequently, if necessary to maintain cleanliness.

(4)(A) Towels, including bath towels, hand towels, and paper towels, shall be provided in the area and made available upon guest request.

(B) Each cloth towel shall be laundered before being provided to a guest.

(C) A receptacle for wet or soiled towels shall be provided for guest use in the area. The receptacle shall be emptied at least once daily.

(5) All equipment, fixtures, and recreational items provided for guest use shall be maintained in good repair.

(6) Protective eye equipment shall be provided if tanning equipment is provided for guest use. (Authorized by and implementing K.S.A. 2008 Supp. 36-506; effective June 4, 2010.)

4-27-14. Ice and ice dispensing. Each licensee shall ensure that all of the following requirements are met: (a)(1) If ice is provided in a public area to guests or the general public, the ice shall be provided only through automatic, self-service dispensing machines that are constructed to prevent the direct access to bulk ice storage compartments by guests or the general public.

(2) Ice machines other than the type specified in paragraph (a)(1), including bin-type ice machines that allow direct access to the bulk ice storage compartments, shall not be accessible to guests or the general public. Any lodging employee may provide containers of ice to guests or the general public from this type of ice machine, from an icemaker, or from prepackaged ice.

(b)(1) Only ice that has been made from potable water and handled in a sanitary manner shall be provided by a lodging establishment. All ice shall be free of visible contaminants.

(2) All ice that is not made on the premises of the lodging establishment shall be obtained from a commercial source and shall be protected from contamination during transportation and storage.

(c) Each ice machine shall meet the following requirements:

(1) Be constructed of sanitary, durable, corrosion-resistant material and be easily cleanable;

(2) be constructed, located, installed, and operated to prevent contamination of the ice;

(3) be kept clean, free of any mold, rust, debris, or other contaminants, and maintained in good repair; and

(4) be drained through an air gap.

(d)(1) Each ice container or ice bucket shall meet the following requirements:

(A) Be made of smooth, nonabsorbent, impervious, food-grade materials and be easily cleaned;

(B) be kept clean and stored in a sanitary manner;

(C) be cleaned and sanitized before each new guest; and

(D) be provided with a sanitary, single-service use, food-grade liner that is changed daily.

(2) All canvas or wax-coated buckets or containers shall be prohibited.

(3) No ice container or ice bucket shall be located within the room housing the toilet.

(e) Each icemaker located in a guest room shall be kept clean and sanitary.

(1) No individual ice cube trays shall be used.

(2) All ice shall be removed from the icemaker's storage bin before each new guest. (Authorized by and implementing K.S.A. 2008 Supp. 36-506; effective June 4, 2010.)

4-27-15. Exterior premises. Each licensee shall ensure that all of the following requirements are met: (a) Exterior areas and surfaces.

(1) All exterior areas and surfaces, including alleys and driveways, shall be kept clean, free of debris, and in good repair.

(2) Each walking, driving, and parking surface shall be graded or maintained to prevent the pooling of water.

(3) All lawns and landscaping shall be mowed or pruned as needed to promote guest safety.

(4) All parking areas and walkways shall be illuminated for guest safety and shall be kept free of debris.

(5) All unused or discarded equipment and materials shall be removed from the premises, except when placed in a designated storage area.

(6)(A) All exterior balconies, landings, porches, decks, stairways, and ramps shall be kept in good repair and free of debris and shall be illuminated for guest safety.

(B) Storage on stairs, landings, and ramps shall be prohibited.

(C) All guards and railings shall be attached securely and shall be kept in good repair.

(D) All ramps shall have a slip-resistant surface.

(E) All exterior stairways, ramps, landings, and walkways shall be kept free of ice and snow.

(b) Outside playgrounds and recreational areas.

(1) All equipment shall be kept clean and in good repair at all times. All protruding bolts, screws, and nails and all sharp edges shall be removed or covered.

(2) The ground cover under children's play equipment shall be a soft surface, including turf, rubber chips, bark mulch, clean sand, or any other surface approved by the secretary.

(3) Unused equipment shall be stored in a designated area.

(4) If the area is open for nighttime use, lighting shall be provided for guest safety.

(5) The area shall be kept clean and free of debris.

(6) If fencing is provided, the fencing shall be kept in good repair.

(c) Refuse containers.

(1) The area where refuse containers are located shall be kept free of debris and cleaned as necessary to prevent the attraction and harborage of insects, rodents, and other pests and to minimize odors.

(2) Containers of adequate capacity or number shall be available to store all refuse that accumulates between refuse pickups. All refuse containers shall be emptied at least once each week or more frequently, if necessary to meet the requirements of these regulations. All rotten waste shall be removed daily.

(3) All refuse container lids shall be closed. All refuse containers shall be kept on a solid surface. Solid surfaces shall include concrete, asphalt, and any other hard surface approved by the secretary.

(d) Outdoor vector control.

(1) The premises shall be free of any harborage conditions that can lead to or encourage infestations of rodents, insects, and any other pests.

(2) Control measures shall be taken to protect against the entrance of rodents, insects, and any other pests into the lodging establishment. All buildings shall be verminproofed and kept in a verminproof condition.

All doors leading outside shall be tightfitting to eliminate entrance points for rodents, insects, and any other pests. All windows and doors that can be opened for ventilation shall have screening material that is at least 16 mesh to the inch and shall be tightfitting and kept in good repair.

(3) Identified infestation problems shall be treated by a licensed pest control operator.

(4) All control measures, both mechanical and chemical, shall be used in accordance with each manufacturer's recommendations.

(e) Exterior storage.

(1) A storage area shall be provided for maintenance and recreational equipment, machinery, and any other maintenance items.

(2) Only those items necessary for the operation and maintenance of the lodging establishment shall be kept in a storage area.

(3) All poisonous and toxic materials shall be stored as specified in K.A.R. 4-27-12.

(4) Each storage area shall be kept free of debris, filth, and any harborage conditions.

(5) All articles in need of repair may be stored on a short-term basis, which shall not exceed six months. All articles that are not repaired within six months shall be discarded or moved to an off-site storage facility.

(f) Outdoor space for pets. All pets shall be kept on a leash or controlled in a manner that prevents the pets from running freely about the premises. (Authorized by and implementing K.S.A. 2011 Supp. 36-506, as amended by L. 2012, ch. 145, sec. 6; effective June 4, 2010; amended Feb. 8, 2013.)

4-27-16. Swimming pools, recreational water facilities, and hot tubs. (a) General requirements. Each licensee shall ensure that all swimming pools, recreational water facilities, and hot tubs are kept sanitary and in good repair.

(1) Each swimming pool, RWF, and hot tub shall meet the requirements in these regulations, unless local ordinances pertaining to planning and design, lifesaving and safety equipment, water quality, and sanitation exist and these ordinances are as restrictive or more restrictive than these regulations.

(2) Each licensee shall maintain records of each inspection conducted by a local regulatory agency for at least one year. The inspection records shall be made available for review by the secretary, upon request.

(b) Design and safeguards.

(1) Each plan for a new swimming pool or RWF and for a swimming pool or RWF undergoing major renovation, including installation of a diving board, slide, or other similar recreational devices, shall be designed by a licensed engineer, architect, or other qualified professional and shall be submitted to the secretary before the start of construction. Submission of documentation of plan approval by the local regulatory agency shall meet the requirements of this paragraph.

(2) Each grate over a main drain in each swimming pool or RWF shall be intact, firmly affixed at all times, and designed to prevent swimmer entanglement, entrapment, or injury. Other methods to prevent swimmer entanglement, entrapment, or injury may include multiple main drains, antivortex drain covers, or any similar device approved by the secretary.

(3) The depth of water in each swimming pool or RWF shall be plainly marked with at least four-inch high numbers of a color that contrasts with the color of the pool decking or vertical pool wall.

(A) Water depth markings for an in ground swimming pool shall be clearly marked on the edge of the deck and visible at all times. In addition, water depth markings may be placed above the water surface on the vertical pool walls and shall be visible at all times.

(B) Water depth markings for each aboveground swimming pool or RWF shall be on the edge of the deck and shall be visible to persons entering the swimming pool. If water depth markings cannot be placed on the edge of the deck, another means shall be used so that the water depth is visible to persons entering the swimming pool.

(C) The water depth markings in each swimming pool or RWF shall be located in the following areas:

(i) At the maximum and minimum depths. Intermediate increments of depth may be used in addition to the required maximum and minimum depths; and

(ii) the transition point between the shallow end, which shall be five feet or less, and the deep end, which shall be more than five feet. This transition point shall be marked by a line on the floor and the walls of the swimming pool or RWF or by a safety rope equipped with buoys.

(4) Each lighting and electrical system for a swimming pool, RWF, or hot tub shall be kept in good repair at all times. The following requirements shall be met:

(A) Artificial lighting shall be provided at each swimming pool, RWF, or hot tub if used at night and for each indoor swimming pool, RWF, or hot tub. The lighting shall illuminate all portions of each swimming pool, RWF, or hot tub.

(B) All artificial lighting located in the water shall be designed and maintained to prevent electrical shock hazards to guests.

(5) Each outdoor swimming pool and RWF shall be protected by a fence, wall, building, or other enclosure that is at least four feet in height.

(A) Each enclosure shall be made of durable material and kept in good repair.

(B) Each gate shall have self-closing and self-latching mechanisms. The self-latching mechanism shall be installed at least four feet from the bottom of the gate.

(C) A hedge shall not be an acceptable protective enclosure.

(6) Each door leading into an indoor or enclosed swimming pool or RWF area shall have self-closing and self-latching mechanisms. The self-closing mechanism shall be at least four feet from the bottom of the door.

(c) Lifesaving and safety equipment.

(1) Each swimming pool or RWF shall have lifesaving equipment, consisting of at least one U.S. coast guard-approved flotation device that can be thrown into the water and at least one reaching device.

(A) The flotation device shall be attached to a rope that is at least as long as one and one-half times the maximum width of the swimming pool or RWF. If a lifeguard is on duty, life-saving rescue equipment, including rescue tubes, may also be used.

(B) The reaching device shall be a life pole or a shepherd's crook-type of pole, with a minimum length of 12 feet.

(C) Each lifesaving device shall be located in a conspicuous place and shall be accessible. The lifeguard personnel shall keep their rescue equipment close for immediate use.

(D) Each lifesaving device shall be kept in good repair.

(2) A first-aid kit shall be accessible to the lodging employees.

(3) No glass containers shall be permitted in the swimming pool, RWF, or hot tub area.

(4) Each swimming pool, RWF, and hot tub and each deck shall be kept clean of sediment, floating debris, visible dirt, mold and algae and shall be maintained free of cracks, peeling paint, and tripping hazards.

(5) Each swimming pool, RWF, and hot tub shall be refinished or relined if the bottom or wall surfaces cannot be maintained in a safe and sanitary condition.

(6) If handrails are not present, all steps leading into the swimming pool or RWF shall be marked in a color contrasting with the color of the interior of the swimming pool and RWF so that the steps are visible from the swimming pool or RWF deck.

(7) All steps, ladders, and stairs shall be easily cleanable, in good repair, and equipped with nonslip treads. Handrails and ladders, if present, shall be provided with a handhold and securely attached.

(8) The rules of operation and safety signs for each swimming pool, RWF, and hot tub shall be posted in a conspicuous place at the swimming pool, RWF, or hot tub. Each swimming pool and RWF without a lifeguard shall have posted the following sign: "Warning — No Lifeguard On Duty." The sign shall be legible, with letters at least four inches in height.

(9) If chlorinating equipment is located indoors, the chlorinating equipment shall be housed in a separate room, which shall be vented to the outside or to another room that is vented to the outside. If chlorinating equipment is located outdoors and within an enclosed structure, the structure shall be vented to the outside.

(d) Water quality and sanitation. Each licensee shall ensure that all of the following requirements are met:

(1) Each swimming pool, RWF, and hot tub shall be maintained to provide for continuous disinfection of the water with a chemical process. This process shall use a disinfectant that leaves a measurable residual in the water.

(A) If chlorine or bromine is used to disinfect the water of any swimming pool or RWF, the water shall have a disinfectant residual level of at least 1.0 part per million (ppm) and not more than 5.0 ppm.

(B) If chlorine or bromine is used to disinfect the water of any hot tub, the water shall have a disinfectant residual level of at least 2.0 ppm and not more than 5.0 ppm.

(C) Each means of disinfection other than those specified in paragraphs (d)(1)(A) and (B) shall be used only if the licensee has demonstrated that the alternate means provides a level of disinfection equivalent to that resulting from the residual level specified in paragraph (d)(1)(A) or (B).

(2) The pH of the water in each swimming pool, RWF, and hot tub shall be maintained at not less than 7.0 and not more than 8.0.

(3) Each licensee shall use a chemical test kit or a testing device approved by the secretary. Each testing kit or device shall be appropriate for the disinfecting chemical used and capable of accurately measuring disinfectant residual levels of 0.5 ppm to 20.0 ppm. In addition, a chemical test kit or testing device for measuring the pH of the water shall be used and capable of accurately measuring the pH of water in 0.2 increments.

(4) The water in each swimming pool, RWF, and hot tub shall have sufficient clarity at all times so that one of the following conditions is met:

(A) A black disc with a diameter of six inches is clearly visible in the deepest portion of the swimming pool or RWF.

(B) The bottom drain at the deepest point of the swimming pool or RWF is clearly visible, and the bottom of the hot tub is clearly visible.

(5) The water in each swimming pool, RWF, and hot tub shall be free of scum and floating debris. The bottom and walls shall be free of dirt, algae, and any other foreign material.

(6) No chemical shall be added manually and directly to the water of any swimming pool, RWF, or hot tub while any individual is present in the water.

(7) The temperature of the water in each hot tub shall not exceed 104 degrees Fahrenheit.

(A) Each hot tub shall be operated in accordance with the manufacturer's specifications.

(B) Each hot tub shall have a thermometer or other device to accurately record the water temperature within plus or minus two degrees.

(e) Fecal accident in a swimming pool and RWF. If a fecal accident occurs in a swimming pool or RWF, the following requirements shall be met:

(1) In response to any accident involving formed feces, the following requirements shall be met:

(A) Direct the guests to leave the swimming pool or the RWF, and do not allow any individuals to reenter until the decontamination process has been completed. The closure times can vary since the decontamination process takes from 30 to 60 minutes;

(B) remove as much fecal material as possible using a net or scoop, and dispose of the material in a sanitary manner. Sanitize the net or scoop;

(C) raise the disinfectant level to 2.0 ppm and ensure that the water pH is between 7.2 and 7.8; and

(D) return the disinfectant level to the operating range specified in paragraph (d)(1)(A) before the swimming pool or RWF is reopened to guests.

(2) In response to any accident involving diarrhea, the following requirements shall be met:

(A) Direct guests to leave the swimming pool or the RWF, and do not allow any individuals to reenter until the decontamination process has been completed;

(B) remove as much fecal material as possible using a scoop, and dispose of the material in a sanitary manner. Sanitize the scoop. Vacuuming the fecal material shall be prohibited;

(C) raise the disinfectant level to 20.0 ppm and maintain a water pH of at least 7.2 but not more than 7.8. This level of concentration shall be maintained at least eight hours to ensure inactivation of *Cryptosporidium*. A lower disinfectant level and a longer inactivation time may be used according to the following table:

<i>Cryptosporidium</i> inactivation for diarrheal accident	
Disinfectant levels (ppm)	Disinfection time
1.0	6.5 days
10.0	16 hours
20.0	8 hours

(D) ensure that the filtration system is operating and maintaining the required disinfectant

levels during the disinfection process. Backwash the filter. Do not return the backwashed water through the filter. Replace the filter medium, if necessary; and

(E) return the disinfectant level to the operating range specified in paragraph (d)(1)(A) before the swimming pool or RWF is reopened to guests.

(f) Vomiting accident in a swimming pool or RWF. If a vomiting accident occurs in a swimming pool or RWF, the procedures in paragraph (e)(1) shall be followed.

(g) Body fluid spills at a swimming pool or RWF. All body fluid spills that occur on swimming pool or RWF equipment or hard surfaces, including decking, shall be cleaned and chemically sanitized. Disposable gloves shall be available for employees' use during cleanup. The following cleanup method shall be used:

(1) Wipe up the spill using absorbent, disposable material. Paper towels may be used;

(2) use a bleach solution by combining one part bleach and 10 parts water. Pour the bleach solution onto the contaminated surface, leave the solution on the surface for at least 10 minutes, and rinse the surface with clean water;

(3) disinfect all nondisposable cleaning materials, including mops and scrub brushes, and allow to air-dry; and

(4) require each employee assisting with the cleanup to wash that employee's hands with warm water and soap after the cleanup is completed.

(h) Fecal or vomiting accident in a hot tub. If a fecal accident or vomiting occurs in a hot tub, all of the following requirements shall be met:

(1) All guests shall be required to leave the hot tub, and the water shall be completely drained.

(2) The hot tub shall be disinfected according to the manufacturer's specifications.

(3) The filtering system shall be disinfected or the filter medium shall be replaced with a clean filter medium before refilling the hot tub with clean water.

(i) Operation and maintenance of a swimming pool, RWF, or hot tub. Each licensee shall ensure that all of the following requirements for each swimming pool, RWF, and hot tub are met:

(1) Daily operational logs shall be maintained for at least one year at the lodging establishment and made available to the secretary, upon request. These logs shall include the date and time the information was collected and the name or initials of the person who collected the information. These logs shall also record the following information:

(A) The disinfectant residuals shall be recorded at least once daily when the swimming pool, RWF, or hot tub is available for guest use or more often, if necessary to maintain the water quality as specified in subsection (d).

(B) The pH test shall be recorded at least once daily when the swimming pool, RWF, or hot tub is available for guest use or more often, if necessary to maintain the water quality as specified in subsection (d).

(C) The temperature reading of each hot tub shall be recorded at least once daily when the hot tub is available for guest use.

(2) Each fecal and vomiting accident log shall include the time and date of the accident and the disinfection measures taken.

(3) Each indoor swimming pool area and chemical storage room shall be either vented directly to the exterior or vented to a room that is vented directly to the exterior.

(4) All chemicals applied to a swimming pool, RWF, or hot tub shall be used, handled, stored, and labeled in accordance with the manufacturer's specifications.

(5) All recreational equipment shall be kept sanitary. Recreational equipment shall include slides, diving boards, play equipment, water sports equipment, and accessory items available to guests, including floats, tubes, air mattresses, and pads for water slides.

(6) A cleaning system shall be used to remove dirt, algae, and any other foreign material from the bottom of the swimming pool or RWF.

(7) All surface skimmers, strainer baskets, and perimeter overflow systems shall be kept clean and in good repair.

(8) The water in each swimming pool and each RWF shall be maintained at the manufacturer's recommended level so that the water will flow into each skimmer and strainer.

(9) The recirculation system serving each swimming pool, RWF, and hot tub shall operate continuously or in accordance with the manufacturer's specifications. The filtration and recirculation systems shall be maintained in accordance with the manufacturer's specifications. (Authorized by and implementing K.S.A. 2011 Supp. 36-506, as amended by L. 2012, ch. 145, sec. 6; effective June 4, 2010; amended Feb. 8, 2013.)

4-27-17. Water supply systems. Each licensee shall ensure that all of the following requirements are met: (a) Sufficient potable water

to meet the needs of the lodging establishment shall be provided from a source constructed and operated pursuant to K.S.A. 65-161 et seq., and amendments thereto.

(b) No water supply system deemed unsafe by the secretary shall be used as a potable water supply.

(c)(1) Each nonpublic water supply system shall be constructed, maintained, and operated as specified in K.S.A. 65-161 et seq., and amendments thereto.

(2) All water from a nonpublic water supply system shall meet the state drinking water quality standards specified in K.S.A. 65-161 et seq., and amendments thereto. The most recent sample report for the nonpublic water supply system used by the lodging establishment shall be retained for at least 12 months at the lodging establishment and shall be made available to the secretary upon request.

(d) During any period when a boil-water order is in effect, including a precautionary boil-water notice or advisory issued by the secretary of the Kansas department of health and environment on a public or nonpublic water supply, the licensee shall meet the following requirements until the problem has been corrected:

(1) Notify each guest, verbally upon check-in and by written notice placed in each rented guest room, that the plumbed water is not potable and only potable water should be used for drinking and for brushing teeth;

(2) discard any ice that could have been made from or exposed to contaminated water; and

(3) obtain a temporary, alternate supply of potable water by using one of the following:

(A) A supply of commercially bottled drinking water;

(B) one or more closed, portable, bulk water containers;

(C) an enclosed vehicular water tank;

(D) an on-premises water storage tank; or

(E) any other alternative water source if approved by the secretary. (Authorized by and implementing K.S.A. 2011 Supp. 36-506, as amended by L. 2012, ch. 145, sec. 6; effective June 4, 2010; amended Feb. 8, 2013.)

4-27-18. Sewage systems. Each licensee shall ensure that all of the following requirements are met: (a) All sewage shall be disposed of through an approved facility, including one of the following:

(1) A public sewage treatment plant; or

(2) an individual sewage disposal system that is constructed, maintained, and operated according to K.S.A. 65-161 et seq., and amendments thereto, and meets all applicable sanitation requirements.

(b) A temporary sewage disposal facility shall be allowed only as approved by the secretary in response to a disaster.

(c) All condensate drainage, rainwater, and other nonsewage liquids shall be drained from the point of discharge to disposal pursuant to K.S.A. 65-161 et seq., and amendments thereto. (Authorized by and implementing K.S.A. 2011 Supp. 36-506, as amended by L. 2012, ch. 145, sec. 6; effective June 4, 2010; amended Feb. 8, 2013.)

4-27-19. Electrical systems. (a) Each licensee shall ensure that the electrical wiring is installed and maintained in accordance with all applicable local electrical codes. In the absence of local electrical codes, the electrical wiring shall be installed and maintained by a licensed electrician. Each licensee shall ensure that all of the following requirements are met:

(1)(A) Each newly constructed lodging establishment shall have a ground-fault circuit interrupter in each electrical outlet located within five feet of any water source, including a swimming pool and hot tub.

(B) Each existing lodging establishment in which major renovation or rewiring has occurred shall be required to have a ground-fault circuit interrupter in each electrical outlet located within five feet of any water source, including a swimming pool and hot tub.

(C) Each licensee shall ensure that the lodging establishment has a ground-fault circuit interrupter in each electrical outlet located within five feet of any water source, including a swimming pool and hot tub.

(2) Each electrical switch and each outlet shall be covered by a faceplate. Each junction box shall have a junction box cover.

(3) All circuit breaker boxes, fuse boxes, and electrical panels shall be protected from physical damage and kept in good condition. All fuses and circuits shall be labeled to identify the circuit location.

The storage of any item that obstructs access to any circuit box shall be prohibited.

(4) All wire splices shall be located in covered junction boxes.

(5) Bare or frayed wiring shall be prohibited.

(6) All three-prong outlets shall be grounded. Each appliance shall be grounded in accordance with the manufacturer's specifications.

(b) All emergency lighting shall be kept in working condition.

(c) The permanent use of extension cords in guest rooms shall be prohibited.

Individual branch circuits, including multiple-plug outlet strips that contain fuse breakers and multiple-plug outlet adapters that do not exceed the amperage for which the outlets are rated, shall be permitted.

(d) The temporary use of extension cords shall be allowed for housekeeping and maintenance purposes if the extension cords are rated for industrial use.

(e) The wattage of light bulbs shall not exceed the wattage rating of the corresponding light fixtures.

Empty light sockets shall be prohibited. (Authorized by and implementing K.S.A. 2008 Supp. 36-506; effective June 4, 2010.)

4-27-20. Plumbing systems. (a) Each licensee shall ensure that all plumbing is installed and maintained in accordance with all applicable local plumbing codes. In the absence of local plumbing codes, all plumbing shall be installed and maintained by a licensed plumber.

(b) Each licensee shall ensure that all of the following requirements are met:

(1) Potable water under pressure shall be available at all times at each fixture designed to provide water. Hot water shall be provided to each fixture designed to use hot water.

(2) Each toilet room, bathing facility, and laundry area shall be provided with ventilation to minimize condensation and to prevent mold, algae, and odors.

Each newly constructed lodging establishment and each lodging establishment undergoing major renovation shall be required to have mechanical ventilation in each toilet room, bathing facility, and laundry area.

(3) Each fixture drain shall be plumbed with a P-trap.

(4) All openings for the passage of plumbing shall be verminproof.

(5) No fitting, connection, device, or method of installation of plumbing shall obstruct or retard the flow of water, wastes, sewage, or air in the drainage or venting system.

(c) All backflow devices shall meet the design specifications for their intended use. All potable

water supplies shall be protected from sources of potential contamination. Each licensee shall ensure that all of the following requirements are met:

(1) If provided, each boiler unit, fire sprinkler system with chemical additives, lawn sprinkler with a means for injection of pesticides, herbicides, or other chemicals, and pumped or repressurized cooling or heating system shall be protected by a reduced-pressure-principle backflow prevention assembly.

(A) The backflow prevention assembly shall be tested at least annually.

(B) Documentation of each test shall be maintained at the lodging establishment for at least one year and shall be made available to the secretary upon request.

(2) If provided, each fire sprinkler system not using chemical additives and lawn sprinkler system without a means for injection of pesticides, herbicides, or other chemicals shall be protected by a double-check valve assembly.

(A) The double-check valve assembly shall be tested at least annually.

(B) Documentation of each test shall be maintained at the lodging establishment for at least one year and shall be made available to the secretary upon request.

(3) If provided, each threaded faucet to which a hose is connected, flush valve, and any similar device shall be protected by a vacuum breaker. Each commercial dishwasher and each commercial laundry machine shall be protected by either a vacuum breaker or an air gap.

(4) If provided, each relief valve discharge line from a water heater, water-holding tank, cooling tower, or water softener, each discharge line from a commercial laundry machine, and each condensation line shall be protected by an air gap.

(5) Each swimming pool water supply line shall be protected by either an air gap or a double-check valve assembly.

(6) Fire sprinklers plumbed into a waterline over gas water heaters or furnaces, or both, shall not be required to have a backflow device unless required by local ordinance. (Authorized by and implementing K.S.A. 2011 Supp. 36-506, as amended by L. 2012, ch. 145, sec. 6; effective June 4, 2010; amended Feb. 8, 2013.)

4-27-21. Heating, ventilation, and air conditioning (HVAC) systems. (a) Each licensee shall ensure that each guest room has heating, ventilation, and related heating and ventilation equipment.

(1) All equipment shall be installed according to the manufacturer's directions and shall be kept in operating condition.

(2) A means to control the temperature in the guest room shall be provided in each guest room that is furnished with a separate heating or air conditioning unit.

(3) If the guest room has air-conditioning, the air-conditioning system shall meet the requirements specified in paragraphs (a)(1) and (2).

(b) Unvented fuel-fired heaters, unvented fireplaces, and similar devices and portable electrical space heaters shall be prohibited from use in all areas of the lodging establishment, unless designed by the manufacturer for commercial use and approved by the secretary. The following conditions shall be met:

(1) The unvented fuel-fired heater, unvented fireplace, or similar device or the portable electrical space heater is not the primary source of heat.

(2) The unvented fuel-fired heater, unvented fireplace, or similar device or the portable electric space heater is not used in a guest room.

(c) All gas and electric heating equipment shall be equipped with thermostatic controls.

(d) All gas water heaters, gas furnaces, and other gas heating appliances shall be vented to the outside.

(e) A gas shutoff valve shall be located next to each gas appliance, gas furnace, and gas water heater.

(f) Each furnace and each air-conditioning unit shall be equipped with an electrical fuse breaker to protect the unit from electrical overload.

(g) Each furnace room or room containing a gas water heater or any other fuel-fired appliance shall be provided with adequate air for circulation.

(h) Each filter shall be changed according to the manufacturer's specifications. (Authorized by and implementing K.S.A. 2011 Supp. 36-506, as amended by L. 2012, ch. 145, sec. 6; effective June 4, 2010; amended Feb. 8, 2013.)

4-27-22. Lodging establishment inspections by qualified individuals, private entities, or public entities. (a) "Supplemental inspection" shall mean an inspection of a lodging establishment conducted by a qualified person employed by a lodging business, lodging trade organization, or local governmental entity and not employed by the Kansas department of agriculture.

(b) Each person who wishes to conduct a supplemental inspection of a lodging establishment shall complete the following requirements:

(1) Submit to the secretary, or the secretary's designee, a written letter of application and statement describing the applicant's knowledge of lodging standards established pursuant to K.S.A. 36-506, and amendments thereto, acquired by education, training, and experience; and

(2) answer at least 80% of the questions correctly to pass a written examination administered by the secretary, or secretary's designee. The written examination shall test the applicant's knowledge of lodging standards established pursuant to K.S.A. 36-506, and amendments thereto.

(c) A supplemental inspection report on a lodging establishment shall be accepted by the secretary if all of the following conditions are met:

(1) The person conducting the supplemental inspection meets the requirements in subsection (b).

(2) The supplemental inspection is conducted to determine if the lodging establishment meets lodging standards established pursuant to K.S.A. 36-506, and amendments thereto.

(3) The supplemental inspection report is submitted to the secretary no later than 10 calendar days from the date the inspection occurred. If an "imminent health hazard," as defined in K.A.R. 4-27-5, is discovered during the inspection, the person shall notify the secretary, or the secretary's designee, within 12 hours of the discovery, as required in K.A.R. 4-27-5.

(4) The supplemental inspection report thoroughly describes conditions in the lodging establishment at the time of the inspection. Each violation of a lodging establishment standard shall be described in detail and photographed. The supplemental inspection report shall describe any actions taken by the licensee to correct each violation.

(d) An inspection of the lodging establishment may be conducted by department lodging inspectors to determine the accuracy of a supplemental report. The inspection shall be conducted within five days after receipt of a supplemental inspection report.

(e) The secretary's acceptance of a supplemental inspection report shall not preclude the department from conducting an inspection to assess the lodging establishment's compliance with lodging establishment standards or determine the accuracy of the supplemental inspection report. The supplemental inspection report, if accepted, may be considered by the secretary when determining the inspection frequency of a lodging establish-

ment. (Authorized by K.S.A. 2009 Supp. 36-506; implementing K.S.A. 2009 Supp. 36-519; effective June 4, 2010.)

Article 28.—FOOD SAFETY

4-28-1. Definition; specialized processing. “Specialized processing” shall mean any food preparation method having an increased risk of foodborne illness associated with improper implementation, including the following:

(a) Smoking food as a method of food preservation rather than as a method of flavor enhancement;

(b) curing food;

(c) canning food, except for fruit jams, jellies, and preserves;

(d) using food additives or adding components, which may include vinegar, for either of the following:

(1) A method of food preservation rather than flavor enhancement; or

(2) a method to render a food so that the food does not require time and temperature control for food safety;

(e) packaging food using a reduced-oxygen packaging method;

(f) sprouting seeds or beans;

(g) drying food, other than herbs, whole fruits, or whole vegetables;

(h) keeping molluscan shellfish in a life-support tank;

(i) custom-processing animals in a facility for personal use;

(j) processing and packaging juice;

(k) fermenting foods;

(l) producing cultured dairy products, including cheese, yogurt, and buttermilk; and

(m) using a noncontinuous cooking process. (Authorized by K.S.A. 2011 Supp. 65-688, as amended by L. 2012, ch. 145, sec. 23; implementing K.S.A. 2011 Supp. 65-689, as amended by L. 2012, ch. 145, sec. 24; effective, T-4-11-5-04, Nov. 5, 2004; effective Feb. 18, 2005; amended June 4, 2010; amended Feb. 8, 2013.)

4-28-2. Adoption by reference. (a) The following federal regulations are hereby adopted by reference, except as otherwise indicated in this subsection:

(1) 9 C.F.R. Parts 317, excluding 9 C.F.R. 317.2(a), 319, 381, and 424, as revised on January 1, 2011;

(2) 21 C.F.R. Parts 100 through 186, excluding 21 C.F.R. 100.1 and 100.2, as revised on April 1, 2011;

(3) 21 C.F.R. 1030.10, as revised on April 1, 2011; and

(4) 40 C.F.R. Part 180, as revised on July 1, 2011.

(b) Copies of the adopted material shall be available from the division of food safety and lodging of the Kansas department of agriculture, Topeka, Kansas. (Authorized by K.S.A. 2011 Supp. 65-688, as amended by L. 2012, ch. 145, sec. 23; implementing K.S.A. 2011 Supp. 65-688, as amended by L. 2012, ch. 145, sec. 23, and K.S.A. 2011 Supp. 74-581; effective, T-4-11-5-04, Nov. 5, 2004; effective Feb. 18, 2005; amended June 4, 2010; amended April 26, 2013.)

4-28-3. (Authorized by K.S.A. 2003 Supp. 36-503; implementing K.S.A. 2003 Supp. 36-503 and L. 2004, Ch. 192, Sec. 2; effective Feb. 18, 2005; revoked Oct. 26, 2012.)

4-28-4. (Authorized by K.S.A. 36-504; implementing K.S.A. 36-504 and L. 2004, Ch. 192, Sec. 2; effective Feb. 18, 2005; revoked Oct. 26, 2012.)

4-28-5. Fees; food processing plant. Each food processing plant shall be licensed by the secretary.

(a) Each person operating or intending to operate a food processing plant shall submit an application on a form supplied by the department with one of the following pairs of application fees and license fees based on the size and type of the plant, as applicable:

(1) For each food processing plant that only stores food, one of the following fees:

(A) Less than 1,000 square feet: \$150 application fee and \$160 license fee;

(B) 1,000 square feet through 5,000 square feet: \$200 application fee and \$175 license fee;

(C) 5,001 square feet through 10,000 square feet: \$250 application fee and \$250 license fee;

(D) 10,001 square feet through 50,000 square feet: \$300 application fee and \$300 license fee; or

(E) more than 50,000 square feet: \$350 application fee and \$350 license fee; and

(2) for each food processing plant not specified in paragraph (a)(1), one of the following fees:

(A) Less than 1,000 square feet: \$150 application fee and \$175 license fee;

(B) 1,000 square feet through 5,000 square feet: \$200 application fee and \$200 license fee;

(C) 5,001 square feet through 10,000 square feet: \$250 application fee and \$275 license fee;

(D) 10,001 square feet through 50,000 square feet: \$300 application fee and \$325 license fee; or

(E) more than 50,000 square feet: \$350 application fee and \$400 license fee.

(b) For the purpose of this regulation, a facility that only stores food shall include any premises, establishment, building, room, area, facility, or place where food is stored, kept, or held for distribution, whether or not the food is temperature-controlled.

(c) For the purpose of this regulation, “food processing plant” shall not include either of the following:

(1) A facility in which fresh fruits and vegetables are harvested and washed, if the fruits and vegetables are not otherwise processed at the facility; or

(2) a storage facility used solely for the storage of grain or other raw agricultural commodities.

(d) Each license issued shall expire on March 31 each year.

(e) Each license shall require annual renewal by the licensee’s submission of an online application for renewal available on the department’s web site and the payment of the applicable license fee specified in subsection (a). (Authorized by and implementing K.S.A. 2017 Supp. 65-688; effective Feb. 18, 2005; amended Dec. 5, 2008; amended Feb. 8, 2013; amended June 15, 2018.)

4-28-6. Fees; risk levels; food establishment. (a) Each food establishment required to be licensed shall be assessed by the secretary for classification by risk level according to this regulation. The following classifications shall be used to determine licensing fees and inspection frequency at food establishments:

(1) A “category I facility” shall mean a food establishment that presents a high relative risk of causing food-borne illness based upon the usage of food-handling processes associated with food-borne illness outbreaks. Factors considered in classifying a food establishment as a category I facility shall include whether the food establishment meets any of the following conditions:

(A) Cooks, cools, or reheats food that requires time and temperature control for safety;

(B) uses freezing as a means to achieve parasite destruction;

(C) handles raw, in-shell molluscan shellfish ingredients;

(D) uses specialized processing;

(E) has a required hazard analysis critical control point plan; or

(F) offers for consumption without further preparation any food containing raw or undercooked eggs, meat, poultry, fish, or shellfish.

(2) A “category II facility” shall mean a food establishment that presents a moderate relative risk of causing food-borne illness based upon the usage of a limited number of food-handling processes associated with food-borne illness outbreaks. Factors considered in classifying a food establishment as a category II facility shall include whether the food establishment meets any of the following conditions:

(A) Prepares baked products;

(B) repackages foods from a licensed food processor in smaller quantities for distribution;

(C) heats only foods from a licensed food processor; or

(D) handles, cuts, grinds, or slices only raw animal foods or ready-to-eat meats and cheeses.

(3) A “category III facility” shall mean a food establishment that presents a low relative risk of causing food-borne illness based upon the usage of few or no food-handling processes associated with food-borne illness outbreaks. Factors considered in classifying a food establishment as a category III facility shall include whether the food establishment meets any of the following conditions:

(A) Offers self-service beverages;

(B) offers prepackaged food and beverages, including those prepackaged foods and beverages that are required to be held at a temperature of 41°F or below for food safety; or

(C) offers unpackaged food that does not require time and temperature control for safety, including mixed drinks.

(4) A “category IV facility” shall mean a food establishment that presents a very low relative risk of causing food-borne illness based upon the usage of few or no food-handling processes associated with food-borne illness outbreaks. The food establishment shall have systematic controls in place to further reduce the risk of a food-borne illness outbreak. Factors considered in classifying a food establishment as a category IV facility shall include whether the food establishment meets the following conditions:

(A)(i) Offers prepackaged food and beverages, including those prepackaged foods and beverages that are required to be held at a temperature of 41°F or below for food safety;

(ii) offers unpackaged food that does not require time and temperature control for safety; or

(iii) offers prepackaged food and beverages, including those prepackaged foods and beverages that are required to be held at a temperature

of 41°F or below for food safety, and unpackaged food that does not require time and temperature control for safety; and

(B) has the following controls in place in a structure that has limited or controlled access, including an office building with keyed entrances or security guards:

(i) Continuous electronic monitoring of all food items that require temperature control for safety;

(ii) a means to prevent lawful purchase of a food that has been held outside of the time and temperature combinations specified in the Kansas food code by physical lockout, transaction lockout, or other equivalent method; and

(iii) remote monitoring and recording of video surveillance covering all areas of the food establishment.

(b) Each food establishment with operations in multiple categories shall be placed in the highest risk-level category. A history of a food establishment's noncompliance with applicable statutes and regulations may be considered and may warrant placement of the food establishment in a higher risk-level category. The risk level assigned to a food establishment may be changed if the secretary determines that the change is warranted based upon the degree of risk of a health hazard and protection of the public health and safety.

(c) Each person operating or intending to operate a food establishment shall submit an application on a form prescribed by the secretary with the following fees, as applicable:

(1) Category I facilities.

(A) Application fee. Each person shall submit a onetime application fee based on the size of the food establishment as follows:

(i) Less than 5,000 square feet: \$300;

(ii) 5,000 through 10,000 square feet: \$325;

(iii) 10,001 through 50,000 square feet: \$350; and

(iv) more than 50,000 square feet: \$350.

(B) License fee. Each person shall submit a license fee based on the size of the food establishment as follows:

(i) Less than 5,000 square feet: \$250;

(ii) 5,000 through 10,000 square feet: \$300;

(iii) 10,001 through 50,000 square feet: \$500; and

(iv) more than 50,000 square feet: \$750.

(2) Category II facilities.

(A) Application fee. Each person shall submit a onetime application fee of \$325.

(B) License fee. Each person shall submit a license fee of \$220.

(3) Category III facilities.

(A) Application fee. Each person shall submit a onetime application fee of \$275.

(B) License fee. Each person shall submit a license fee of \$190.

(4) Category IV facilities.

(A) Application fee. Each person shall submit a onetime application fee of \$100.

(B) License fee. Each person shall submit a license fee of \$75.

(d)(1) Each category I facility shall be inspected at least once every 12 months.

(2) Each category II facility shall be inspected at least once every 15 months.

(3) Each category III facility shall be inspected at least once every 18 months.

(4) Each category IV facility shall be inspected at least once every 36 months.

(e) Each license shall expire on the first March 31 following the date of issuance.

(f) Each license shall require annual renewal by the licensee's submission of an online application for renewal available on the department's web site and payment of the applicable license fee specified in subsection (c).

(g) For the purpose of this regulation, "mixed drink" shall mean any beverage combining two or more liquids, including any combination of alcoholic or nonalcoholic liquids. (Authorized by and implementing K.S.A. 2017 Supp. 65-688; effective Feb. 18, 2005; amended, T-4-6-28-12, July 1, 2012; amended Oct. 26, 2012; amended May 31, 2013; amended June 15, 2018.)

4-28-7. (Authorized by K.S.A. 2010 Supp. 36-503; implementing K.S.A. 2010 Supp. 36-503 and K.S.A. 2010 Supp. 74-582; effective Feb. 18, 2005; amended, T-4-6-30-11, July 1, 2011; amended Oct. 28, 2011; revoked Oct. 26, 2012.)

4-28-8. Adoption of Kansas food code.

The document titled "Kansas food code," dated July 1, 2012 and published by the division of food safety and lodging of the Kansas department of agriculture, is hereby adopted by reference. (Authorized by and implementing K.S.A. 2011 Supp. 65-688, as amended by L. 2012, ch. 145, sec. 23, and K.S.A. 2011 Supp. 74-581; effective Feb. 29, 2008; amended June 4, 2010; amended April 26, 2013.)

4-28-9 and 4-28-10. (Authorized by and implementing K.S.A. 36-507, K.S.A. 65-626, and K.S.A. 2007 Supp. 74-582; effective Feb. 29, 2008; revoked April 26, 2013.)

4-28-11 and 4-28-12. (Authorized by and implementing K.S.A. 2008 Supp. 36-507, K.S.A. 65-626, and K.S.A. 2008 Supp. 74-581; effective Feb. 29, 2008; amended June 4, 2010; revoked April 26, 2013.)

4-28-13 and 4-28-14. (Authorized by and implementing K.S.A. 36-507, K.S.A. 65-626, and K.S.A. 2007 Supp. 74-582; effective Feb. 29, 2008; revoked April 26, 2013.)

4-28-15. (Authorized by K.S.A. 36-507 and 65-626 and K.S.A. 2007 Supp. 65-673 and 74-582; implementing K.S.A. 36-503, 36-507, 65-626, and 65-662 and K.S.A. 2007 Supp. 65-673; effective Feb. 29, 2008; revoked April 26, 2013.)

4-28-16. (Authorized by K.S.A. 36-507 and 65-626; implementing K.S.A. 36-507 and 65-626 and K.S.A. 2006 Supp. 74-581; effective Feb. 29, 2008; revoked April 26, 2013.)

4-28-18. (Authorized by K.S.A. 65-673 and K.S.A. 2008 Supp. 74-581; implementing K.S.A. 65-659; effective June 4, 2010; revoked Feb. 8, 2013.)

4-28-19 through 4-28-22. (Authorized by K.S.A. 65-663, K.S.A. 2008 Supp. 65-673, and K.S.A. 2008 Supp. 74-581; implementing K.S.A. 65-663; effective June 4, 2010; revoked Feb. 8, 2013.)

4-28-23. Sidewalk or street display of food products; prohibitions. (a) The sidewalk or street display or sale of fresh meat and meat products, fresh seafood and fish, fresh poultry, and any other foods that require time and temperature control for safety shall be prohibited.

(b) Any food product, other than those products listed in subsection (a), that ordinarily is washed, peeled, pared, or cooked in the course of preparation for consumption may be displayed in street and sidewalk displays if the product is in containers that are at least six inches above the surface of the sidewalk or street.

(c) The street or sidewalk display of all food products not specified in this regulation shall be prohibited unless the products are enclosed to protect the products from flying insects, dust, and other contamination. (Authorized by K.S.A. 2011 Supp. 65-688, as amended by L. 2012, ch. 145, sec. 23, and K.S.A. 2011 Supp. 74-581; implementing K.S.A. 2011 Supp. 65-688, as amended by L. 2012, ch. 145, sec. 23; effective June 4, 2010; amended Feb. 8, 2013.)

4-28-24 through 4-28-30. (Authorized by K.S.A. 65-626, K.S.A. 2008 Supp. 74-581; implementing K.S.A. 65-625 and 65-626; effective June 4, 2010; revoked Feb. 8, 2013.)

4-28-31. Fees; education facility with a school lunch program or satellite school lunch program. Each education facility with a school lunch program or satellite school lunch program subject to the national school lunch act, 42 U.S.C. §1751 et seq., shall be licensed by the secretary.

(a) Each of the following terms, as used in this regulation, shall have the meaning specified in this subsection:

(1) "Education facility with a school lunch program" means any school, institution, or other organization providing meals to children through the national school lunch program of the division of food and nutrition services, United States department of agriculture.

(2) "Satellite school lunch program" means any program offered through an education facility with a school lunch program that is operated at a different location as designated by the education facility. A satellite school lunch program does not have on-site food preparation, except portioning food for service.

(b) Each person operating or wanting to operate an education facility with a school lunch program or satellite school lunch program shall submit an application on forms provided by the department with the following fees, as applicable:

(1) Application fee: \$200; and

(2)(A) License fee for an education facility with a school lunch program: \$415; or

(B) license fee for an education facility with a satellite school lunch program: \$340.

(c) Each license shall expire on the first March 31 following the date of issuance.

(d) Any licensee may renew a license before the expiration date of the license by submitting an application for renewal on a form supplied by the department and the applicable license fee specified in paragraph (b)(2).

(e)(1) Each license renewal application received within 30 days after the license expiration date shall require annual renewal by the licensee's submission of an application for renewal on a form supplied by the department, the applicable license fee specified in paragraph (b)(2), and a late fee of \$25, pursuant to 2012 Sen. Sub. for HB 2730, sec. 1 and amendments thereto.

(2) License renewal applications received by the department on or after May 1 shall not be approved before the licensee submits the fees prescribed in paragraphs (b)(1) and (b)(2) and the licensee's food establishment is inspected pursuant to K.S.A. 65-689, and amendments thereto.

(f) For an education facility with a school lunch program or satellite school lunch program licensed before July 1, 2012, the difference between the original license fee paid and the current license fee shall be paid for the license year ending March 31, 2013. In subsequent years, the full license fee shall be paid. (Authorized by and implementing K.S.A. 2011 Supp. 65-688, as amended by 2012 Sen. Sub. for HB 2730, sec. 23; effective, T-4-6-28-12, July 1, 2012; effective Oct. 26, 2012.)

4-28-32. Vehicles used in transportation.

Each vehicle used in the transportation of food shall be kept in a condition by which food cannot become adulterated. During transport, the food shall be protected from physical, chemical, and microbial contamination and degradation by the use of the following:

(a) Clean and sanitary transportation vehicles and containers; and

(b) temperature-control measures meeting the department's requirements. (Authorized by K.S.A. 2011 Supp. 65-688, as amended by L. 2012, ch. 145, sec. 23; implementing K.S.A. 2011 Supp. 65-688, as amended by L. 2012, ch. 145, sec. 23, and K.S.A. 2011 Supp. 74-581; effective Feb. 8, 2013.)

4-28-33. Sanitation and hygiene requirements for exempt food establishments. Each food establishment exempted from licensure in K.S.A. 65-689, and amendments thereto, shall meet the following requirements: (a) Food preparation areas shall be protected from environmental contamination, including rain, dust, and pests.

(b) Food contact surfaces, including cutting boards, utensils, and dishes, shall be cleaned, rinsed, and sanitized before food-handling activities begin and also as necessary. Hot, potable water and a dishwashing detergent shall be used for cleaning operations. Clean, hot, potable water shall be used for rinsing. Sanitizing shall be accomplished by immersing each item in a chlorine bleach solution of 50 to 100 parts per million for 10 seconds and allowing the item to air-dry. A sanitizer labeled for use on food contact surfaces may be used instead of chlorine bleach. Warewashing activities shall be conducted in easily cleanable

sinks or food-grade tubs large enough to accommodate immersion of the largest items.

(c) Animals shall not be permitted in food preparation areas.

(d) Food and utensils shall be protected from contamination.

(e) A potable water supply shall be provided. Commercially bottled water or water from a private system may be used.

(1) If water is supplied from a private system, including a well or spring, the private system shall meet the local water system test requirements. If local requirements do not exist, the water shall meet the following standards, with testing obtained by the operator of the food establishment at least annually:

(A) Nitrates shall be less than 20 milligrams per kilogram.

(B) Total coliforms shall be zero colony-forming units.

(C) Fecal coliforms shall be zero colony-forming units.

The current copy of the testing shall be made available upon request.

(2) Each mobile or portable establishment shall ensure that the water is maintained in a potable state by use of appropriate containers, hoses, or other water-handling systems.

(f) Adequate sewage disposal shall be provided. Each septic system shall be approved by the Kansas department of health and environment or the county sanitarian. The current copy of the approval shall be made available upon request. Each mobile or portable establishment shall have adequate on-site sewage storage and shall dispose of sewage in a sanitary sewer or septic system.

(g) Bare-hand contact shall not be permitted with ready-to-eat foods.

(h) Each person working with food shall wash that person's hands before working with food or food contact surfaces and after the hands are contaminated, or could have become contaminated, including after handling raw eggs, raw meat, or raw poultry or after touching the face or hair. The following procedure shall be used:

(1) Wet hands using warm, running potable water;

(2) apply soap and rub hands together vigorously for at least 10 seconds;

(3) rinse hands; and

(4) dry hands with a clean paper towel.

(i) No person with any of the following symptoms or conditions shall work with food:

- (1) Vomiting;
- (2) diarrhea;
- (3) jaundice;
- (4) sore throat with fever;
- (5) any lesion, boil, or infected wound that contains pus, is open or draining, and is located on any of the following:

(A) The hands or wrists, unless an impermeable cover that may include a finger cot or stall protects the affected site and a single-use glove is worn over the impermeable cover;

(B) exposed portions of the arms, unless the affected site is protected by an impermeable cover; or

(C) other parts of the body, unless the affected site is covered by a dry, durable, tight-fitting bandage; or

- (6) an illness due to any of the following:

(A) Norovirus;

(B) hepatitis A virus;

(C) shigella;

(D) enterohemorrhagic or shiga toxin-producing *Escherichia coli*; or

(E) salmonella typhi. (Authorized by K.S.A. 2012 Supp. 65-688; implementing K.S.A. 2012 Supp. 65-688 and 65-689; effective May 31, 2013.)

4-28-34. Exemption from licensure; definitions. (a) Each person who is exempt under K.S.A. 65-689(d)(7), and amendments thereto, from licensure for operating a food establishment shall post at the point of sale a placard or sign that states, in letters at least one-quarter inch high and in contrasting color to the background, that the food establishment is not subject to routine inspection by the Kansas department of agriculture.

(b) As used in K.S.A. 65-689(d)(7) and amendments thereto, each of the following terms shall have the meaning specified in this subsection:

(1) "Community or humanitarian purposes" shall mean purposes for the common good, including building or refurbishing playgrounds or parks, preserving historic public buildings, religious organization fundraising, promoting human welfare including disaster relief, providing food to the food-insecure, providing shelter for humans, and similar activities.

(2) "Educational or youth activities" shall mean activities associated with an early childhood, elementary, secondary, or postsecondary school or activities for persons less than 21 years of age that engage these persons in recreational, educational, or social activities, including sports teams, sum-

mer camps, music programs, arts programs, and similar activities.

(c) Funds raised in food establishments exempt from licensure under K.S.A. 65-689(d)(7), and amendments thereto, shall not be used for wages or other compensation of volunteers or employees, except for providing complimentary food to volunteer staff.

(d) Nothing in this regulation shall prohibit a person who is exempt from licensure for operating a food establishment from applying for a food establishment license from the secretary. Upon the secretary's review of the application, a license may be issued by the secretary pursuant to K.S.A. 65-689(b), and amendments thereto. (Authorized by K.S.A. 2012 Supp. 65-688; implementing K.S.A. 2012 Supp. 65-688 and 65-689; effective May 31, 2013.)

Article 34.—INDUSTRIAL HEMP

4-34-1. Definitions. Each of the following terms, as used in this article of the department's regulations, shall have the meaning specified in this regulation:

(a) "Act" means the alternative crop research act, K.S.A. 2018 Supp. 2-3901 et seq. and amendments thereto.

(b) "Administrative license" means a license issued to any of the following:

(1) An individual appointed as a member of the state advisory board;

(2) an individual employed by the designated certifying agency who requires licensure as a result of the individual's assigned employment duties and is involved in the administration of the designated certifying agency's responsibilities pursuant to the pilot program; or

(3) an individual employed by the department who is involved in the administration, regulation, or oversight of the pilot program or an individual employed by the department who requires licensure as a result of the individual's assigned employment duties.

(c) "Approved variety of industrial hemp" means a variety or strain of industrial hemp authorized for use in the pilot program.

(d) "Certifying agency" has the meaning specified in K.S.A. 2-1415, and amendments thereto.

(e) "Condition," as used in this article of the department's regulations, means to clean or to clean and blend seed within a licensed research section, in order to meet the requirements of agricultural

seed for the purpose of being planted or seeded. Seed that has undergone this process is known as “conditioned.”

(f) “Destroy” means to make incapable of being harvested or processed by means of being incinerated, tilled under the soil, or made into compost or by using another manner approved by the secretary. This process is known as “destruction.”

(g) “Devitalize” means to render incapable of germinating.

(h) “Grain,” as used in this article of the department’s regulations, means an industrial hemp plant’s unit of sexual reproduction intended to be consumed or processed into hemp products.

(i) “Handle” means to cause any movement of industrial hemp on or within a licensed research section.

(j) “Harvest” means to remove industrial hemp plants, plant parts, grain, or seeds from the research area where the industrial hemp plants, plant parts, grain, or seeds were cultivated, planted, or grown.

(k) “Harvest certificate” means a document issued by the department to the primary licensee, after the industrial hemp plants, plant parts, grain, or seeds are harvested, that includes information to assist in identifying the industrial hemp plants, plant parts, grain, or seeds that were harvested.

(l) “Individual” means a natural person.

(m) “Licensed research distributor” means an individual licensed by the department to handle, condition, store, distribute, or transport raw, harvested industrial hemp plants, plant parts, grain, or seeds in Kansas.

(n) “Licensed research grower” means an individual licensed by the department to cultivate, plant, grow, handle, harvest, condition, store, distribute, or transport industrial hemp plants, plant parts, grain, or seeds in Kansas.

(o) “Licensed research processor” means an individual licensed by the department to handle, store, or process industrial hemp plants, plant parts, or grain and take part in any aspect of turning raw, harvested industrial hemp into a hemp product in Kansas.

(p) “Licensed research section” means a section legally designated by the public land survey system that is identified in the license issued by the department establishing where a licensee may cultivate, plant, grow, handle, harvest, condition, store, distribute, transport, or process industrial hemp plants, plant parts, grain, or seeds. A

licensed research section may include land, structures, and buildings that are not used to cultivate, plant, grow, handle, harvest, condition, store, distribute, transport, or process industrial hemp plants, plant parts, grain, or seeds.

(q) “Licensee” means any individual who possesses a valid license issued by the department pursuant to the act.

(r) “Pilot program” means the industrial hemp research program administered by the department pursuant to the act.

(s) “Plant part” means any portion of an industrial hemp plant, including any of the following:

(1) Whole or partial unprocessed plants, including stalk, leaf, seed, floral, and root materials;

(2) raw roots;

(3) fresh, unprocessed, dried, or ground leaves or floral material; or

(4) rooted plants, cuttings, propagules, or clones.

(t) “Primary licensee” means an individual at least 18 years of age who was issued a research license by the department and who shall be responsible for ensuring that all licensees listed on the research license application submitted by that individual comply with the requirements of the act and the implementing regulations.

(u) “Research area” means a location within a licensed research section used for the cultivation, planting, growth, handling, harvesting, conditioning, storage, distribution, transporting, or processing of industrial hemp plants, plant parts, grain, or seeds.

(v) “Secretary” means secretary of the Kansas department of agriculture or the secretary’s designated representative.

(w) “Seed,” as used in this article of the department’s regulations, means an industrial hemp plant’s unit of sexual reproduction intended to be planted for germination.

(x) “Variety” means a subdivision of a species that meets the following conditions:

(1) Is uniform, in the sense that the variations in essential and distinctive characteristics are describable;

(2) is stable, in the sense that the variety will remain unchanged in its essential and distinctive characteristics and its uniformity if reproduced or reconstituted as required by the different categories of varieties; and

(3) is distinct, in that the variety can be differentiated by one or more identifiable morphological, physiological, or other characteristics from all other publicly known varieties.

(y) “Volunteer plant” means any plant of the genus *cannabis* that grows of its own accord from seeds or roots and is not intentionally planted. (Authorized by and implementing K.S.A. 2018 Supp. 2-3902; effective Feb. 8, 2019.)

4-34-2. Certified seed. (a) All certified seed shall be considered “agricultural seed” subject to the Kansas agricultural seed act, K.S.A. 2-1415 et seq. and amendments thereto, and the implementing regulations.

(b) No certification of seed shall be made unless by or on the authority of the designated certifying agency. (Authorized by and implementing K.S.A. 2018 Supp. 2-3902; effective Feb. 8, 2019.)

4-34-3. License approval process. (a) Each individual wanting to conduct research pursuant to the pilot program shall submit or be listed on a completed, accurate, and legible research license application. Each research license application shall be submitted on a form provided by the department and shall designate the individual wanting to be the primary licensee and all proposed licensees. Each research license application shall include a research proposal and all required state and national criminal history record check and application fees, except that an individual wanting to be a primary licensee on a state educational institution license shall not be required to submit an application fee.

(b) Each individual issued an administrative license, each individual wanting to be a primary licensee, and each individual listed on a research license application shall meet the following requirements:

(1) Be fingerprinted and submit to a state and national criminal history record check, which shall be performed by the Kansas bureau of investigation;

(2) submit payment for the fingerprint-based criminal history record check to the Kansas bureau of investigation; and

(3) submit payment for the costs of fingerprinting to the law enforcement agency that provided the fingerprinting services.

(c) Each individual wanting to be a primary licensee and each individual listed on a research license application shall submit that individual’s fingerprints and a state and national criminal history record check no more than 30 days before submitting the research license application to the department.

(d) Following the department’s receipt of the completed research license application, verification that all individuals passed the state and national criminal history record check, and the application fees, the research license application shall be reviewed by the state advisory board and either rejected or recommended for approval and forwarded to the secretary.

(e) Following the secretary’s review, each research license application shall be denied or conditionally approved. The individual wanting to be the primary licensee shall be notified by the department of the denial or conditional approval in writing. Each research license application for a state educational institution license shall be reviewed solely by the secretary and shall be denied or approved. If approved, each state educational institution license shall be issued by the department and the licensee may begin the approved research.

(f) Upon conditional approval of a research license application, the individual wanting to be the primary licensee shall remit the applicable license fees for each approved license category within 15 days of receipt of the department’s written notice of conditional approval. Once the department receives the applicable license fees, the research license application shall be officially approved and each appropriate license shall be issued by the department. Upon receipt of the research license, the licensee may begin the approved research. (Authorized by and implementing K.S.A. 2018 Supp. 2-3902; effective Feb. 8, 2019.)

4-34-4. Research license applications. (a) Each individual wanting to be a primary licensee shall identify the following on the research license application:

(1) Each owner of all land, structures, and buildings where any proposed research will be conducted;

(2) each owner of all motor vehicles that will be used to distribute or transport industrial hemp plants, plant parts, grain, or seeds;

(3) each individual that will own 10 percent or more of the industrial hemp plants, plant parts, grain, or seeds being cultivated, planted, or grown; and

(4) each individual that will otherwise be involved in the research proposal, including those individuals that will be engaged in the purchasing, researching, cultivating, planting, growing, handling, harvesting, conditioning, storing, distribut-

ing, transporting, processing, studying, analyzing, or selling of industrial hemp plants, plant parts, grain, or seeds.

(b) Each research license application shall include the following:

(1) A research proposal submitted on a form provided by the department that includes the following, at a minimum:

(A) A statement of the type of research to be conducted;

(B) the purpose of the research;

(C) the data that will be collected;

(D) the location where the research will occur;

(E) the number of acres or square feet that will be used to conduct the research;

(F) the methods to be used in conducting the research;

(G) the intended duration of the research;

(H) the anticipated results of the research; and

(I) any other relevant information that the secretary requests;

(2) legal descriptions and maps depicting each location where industrial hemp plants, plant parts, grain, or seeds will be cultivated, planted, grown, handled, harvested, conditioned, stored, distributed, transported, or processed, including appropriate designations for field identifications and boundaries and the global positioning system coordinates;

(3) a description of each vehicle that will be used for transporting or distributing industrial hemp plants, plant parts, grain, or seeds, including the make, model, license plate number, and color; and

(4) a list of each individual who will transport any industrial hemp plants, plant parts, grain, or seeds, along with a copy of the individual's current driver's license.

(c) Each research license application shall be submitted to the department on an annual basis, on a form provided by the department. Each research license application shall be submitted to the department no later than March 1 for the 2019 growing season and no later than November 30 for each subsequent growing season.

(d) Incomplete or illegible research license applications shall not be accepted, and the application fees shall not be refunded.

(1) Any individual wanting to be a primary licensee may complete or resubmit a previously incomplete or illegible research license application no later than November 30.

(2) For the 2019 growing season, any individual wanting to be a primary licensee may complete or

resubmit a previously incomplete or illegible research license application no later than March 1.

(e) Any individual may apply for multiple licenses in a single license category or multiple license categories. Each individual shall provide the department with all required information for each license being sought along with payment of separate application fees and license fees.

(f) A research license application may be denied and the application fees shall not be refunded if at least one of the following conditions is met:

(1) The research license application is not submitted by the established deadline.

(2) The research license application does not include the application fees.

(3) Any individual identified on the research license application fails to submit to the state and national criminal history record check as required.

(4) Any criminal history records check reveals that an individual identified on the license application has been convicted of any crime specified in K.S.A. 2018 Supp. 2-3902, and amendments thereto, or a violation of any law of another jurisdiction that is in substantial conformity with the offenses listed in that statute.

(5) The research license application does not include a research proposal.

(6) The research license application includes a home or residence as a location to cultivate, plant, grow, handle, harvest, condition, store, distribute, transport, or process industrial hemp plants, plant parts, grain, or seeds. (Authorized by and implementing K.S.A. 2018 Supp. 2-3902; effective Feb. 8, 2019.)

4-34-5. Licenses issued by the department; general requirements for licensees.

(a) Each license issued by the department shall establish the requirements governing each licensee's participation in the pilot program. Any violation of the terms and conditions specified in a license may result in the revocation of any license held by the licensee and denial of future applications. Each licensee shall comply with all instructions from representatives of the department and local, state, and federal law enforcement agencies pertaining to the licensee's involvement in the pilot program.

(b) Before cultivating, planting, growing, handling, harvesting, conditioning, storing, distributing, transporting, processing, researching, overseeing, studying, or analyzing industrial hemp plants, plant parts, grain, or seeds for research

purposes at any location in Kansas, each individual shall obtain a license issued by the department.

(c) Before a license is issued by the department, license fees shall be paid as required by K.A.R. 4-34-12. Failure by the individual wanting to be the primary licensee to pay the license fees within 15 days of receipt of notice of conditional approval shall terminate the approval process of the research license application, and the requested licenses shall not be issued by the department.

(d) Except in the case of the death of the primary licensee, a license issued by the department shall not be sold or transferred. If the primary licensee dies, any individual listed on the research license application that has also been issued a license may request that the department modify the license as required by K.A.R. 4-34-13.

(e)(1) Each licensee shall use or allow to be used as part of the pilot program only industrial hemp plants, plant parts, grain, or seeds from varieties currently designated by the department as approved varieties of industrial hemp. The department's document titled "approved varieties of industrial hemp for planting," dated October 15, 2018, is hereby adopted by reference.

(2) Upon request of the individual wanting to be the primary licensee, any licensees listed on that individual's research license application may be authorized by the secretary to cultivate, plant, grow, handle, harvest, condition, store, distribute, transport, or process varieties of industrial hemp other than those varieties identified under paragraph (e)(1), if doing so is appropriate and consistent with the individual's research proposal.

(f) At all times while a licensee is engaged in cultivating, planting, growing, handling, harvesting, conditioning, storing, distributing, transporting, processing, researching, overseeing, studying, or analyzing industrial hemp plants, plant parts, grain or seeds pursuant to the pilot program, the licensee shall have that individual's current license authorizing the activity in possession.

(g) Each license issued by the department shall be valid from the date of issuance until the expiration date unless the license is revoked by the department. Each license shall expire on January 31, following the date of issuance. An individual may apply for a license in successive years by completing a research license application, state and national criminal history records check, fingerprinting, and paying the application and license fees. Issuance of a license in one year shall not guarantee issuance of a license in any subsequent year.

(h) A license shall not be issued by the department to an individual if the individual's research license application includes a location approved by the department as a research area in a license previously issued by the department in the same license year. Any individual may request that the department approve multiple licensed research sections. However, each request shall require a separate research license application, application fees, and license fees.

(i) Any primary licensee may be approved by the department to cultivate, plant, or grow industrial hemp plants, plant parts, grain, or seeds on an acreage or square footage that is equal to or less than the acreage or square footage stated in the research license application. Industrial hemp plants, plant parts, grain, or seeds may be cultivated, planted, or grown on an acreage or square footage that is equal to or less than the approved acreage or square footage. Completion of a modification request form shall not be required if a primary licensee elects to cultivate, plant, or grow industrial hemp plants, plant parts, grain, or seeds on an acreage or square footage that is less than the acreage or square footage authorized in the license.

(j) Licensees shall use only approved varieties of industrial hemp when engaged in cultivating, planting, growing, handling, harvesting, conditioning, storing, distributing, transporting, or processing industrial hemp plants, plant parts, grain, or seeds, except that any primary licensee may request that the secretary approve varieties of industrial hemp pursuant to paragraph (e)(2).

(k) Each licensee growing seed for seed certification shall meet the requirements specified in the Kansas agricultural seed act, K.S.A. 2-1415 et seq. amendments thereto, and the implementing regulations.

(l)(1) Each licensee shall consent to the department's providing information to law enforcement, fire, and rescue agencies and the public regarding each research area. Additionally, each licensee shall consent to the department's providing information about any licensed research section or research area, including global positioning system coordinates, to representatives of the Kansas bureau of investigation, United States drug enforcement agency, and other law enforcement agencies if representatives of any of these agencies request the information.

(2) Each licensee shall consent to the department's providing appropriate law enforcement agencies in each county with copies of the licensee's license.

(m) Each research area shall be subject to inspection by the department. Each representative of the department shall have complete, unrestricted, and immediate access to all industrial hemp plants, plant parts, grain, and seeds, whether growing or not, including access to all land, buildings, facilities, motor vehicles, and other structures listed on the license issued by the department. Access shall be granted whether the licensee is present or not, at reasonable times, without interference or obstruction, with or without cause, and with or without advance notice. The right of access shall include the unrestricted right to inspect or take samples of any industrial hemp plants, plant parts, grain, or seeds present at the location being accessed, as well as the right to inspect any reports or records pertaining to the licensee's research.

(n) Each licensee shall permit the department to perform any inspections and to collect any samples of any industrial hemp plants, plant parts, grain, or seeds at any time.

(o) Each licensee shall submit all reports required by the department on or before the specified deadlines.

(p) Each primary licensee shall retain, for at least five years, all records created as a result of the primary licensee's participation in the pilot program unless otherwise ordered by the secretary. The records shall be made available for inspection by the department, the Kansas bureau of investigation, and any other law enforcement agencies upon request.

(q) Each licensee shall ensure that any individual applying pesticides to industrial hemp plants or plant parts complies with the Kansas pesticide act, K.S.A. 2-2438a et seq. amendments thereto, and the implementing regulations.

(r) Each licensee shall be solely responsible for that licensee's risk of financial or other loss as a result of participating in the pilot program.

(s) A licensee shall not allow industrial hemp plants, plant parts, grain, or seeds to be cultivated, planted, grown, handled, harvested, conditioned, stored, distributed, transported, or processed at any location other than the locations included on the license issued by the department.

(t)(1) Each licensee shall immediately notify the department of any interaction with law enforcement related to the licensee's participation in the pilot program, as well as any contact with law enforcement related to criminal charges or a criminal investigation involving any crime specified in K.S.A. 2018 Supp. 2-3902, and amendments

thereto, or a violation of any law of another jurisdiction that is in substantial conformity with the offenses listed in that statute. The licensee shall provide a written follow-up summarizing the interaction and its outcome to the department within three calendar days of the interaction.

(2) Each primary licensee shall notify the department and appropriate law enforcement agencies of the theft of any industrial hemp plants, plant parts, grain, or seeds within three calendar days of the theft.

(u) A primary licensee shall not permit any individual to participate in the pilot program pursuant to the primary licensee's research license application if that individual's license was revoked by the department or that individual was denied admission to participate in the pilot program. Except when conducting educational activities, a licensee shall not allow access to any research area listed on the license, industrial hemp plants, plant parts, grain, or seeds by an individual whose license was revoked by the department or who was denied admission to participate in the pilot program.

(v) A primary licensee shall not rent or lease land, buildings, facilities, motor vehicles, or other structures that will be used to conduct research as part of the pilot program from any individual whose license was revoked by the department or who was denied admission to participate in the pilot program.

(w) Any licensee may host or engage in educational activities as authorized by the license issued by the department. Any licensee hosting or engaging in educational activities may allow members of the public access to each research area for the sole purpose of participating in educational activities. Any licensee may set up a public display booth showcasing the individual's research relating to industrial hemp plants, plant parts, grain, or seeds at trade shows, county fairs, or other similar events. Licensees shall not allow any members of the public to have physical contact with or possess any industrial hemp plants, plant parts, grain, or seeds and shall not transfer, distribute, trade, sell, give away, barter, or exchange for value any industrial hemp plants, plant parts, grain, or seeds to any member of the public.

(x) A licensee shall not conduct activities that involve industrial hemp plants, plant parts, grain, or seeds that are unrelated to the licensee's approved research proposal, license, or educational activities at any location listed on the license, including industrial hemp-related activities involving an industrial hemp maze.

(y) A licensee shall not distribute industrial hemp plants, plant parts, grain, or seeds at any location that is not identified on the license, including trade shows, county fairs, educational or other events, and any other address not listed on the license. (Authorized by and implementing K.S.A. 2018 Supp. 2-3902; effective Feb. 8, 2019.)

4-34-6. Research grower license. (a) In addition to the requirements of K.A.R. 4-34-5, each individual who is issued a research grower license by the department shall meet the following requirements:

(1) Obtain industrial hemp plants or certified seeds from a licensed research distributor or from legally imported sources of industrial hemp;

(2) obtain and retain a copy of each seed label for all certified seed planted, cultivated, or grown;

(3) obtain and retain a copy of the following documents, if applicable:

(A) The research grower license of the primary licensee that cultivated, planted, grew, handled, harvested, conditioned, stored, distributed, or transported the industrial hemp plants or seeds being received;

(B) the research distributor license of the primary licensee that handled, conditioned, stored, distributed, or transported the industrial hemp plants or seeds being received; and

(C) the harvest certificate pertaining to the industrial hemp plants or seeds being received by the licensee or a bill of lading or other documentation identifying the source of the industrial hemp plants or seeds being received;

(4) ensure that industrial hemp plants, plant parts, grain, or seeds are not interplanted with any other crop in any research area;

(5) ensure that a copy of the harvest certificate pertaining to the industrial hemp plants, plant parts, grain, or seeds that were harvested or a bill of lading or other documentation identifying the source of the industrial hemp plants, plant parts, grain, or seeds accompanies the industrial hemp plants, plant parts, grain, or seeds being transported;

(6) ensure that industrial hemp plants, plant parts, grain, or seeds are not commingled with any other commodity or other items being transported; and

(7) survey and monitor any unlicensed growing areas, whether inactive or previously licensed as part of any research area, or never been licensed, including any ditches, fence lines, and other unmanaged land areas adjacent to the research ar-

reas, for volunteer plants and destroy any volunteer plants during the current license year and for at least three years after the last date of planting reported to the department.

(b) The primary licensee on each research grower license shall have a primary residence in Kansas.

(c) Any licensed research grower may cultivate, plant, grow, handle, harvest, condition, store, distribute, or transport industrial hemp plants, plant parts, grain, or seeds pursuant to the license issued by the department.

(d) A licensed research grower shall not handle, harvest, condition, store, distribute, transport, or process industrial hemp plants, plant parts, grain, or seeds cultivated, planted, or grown by another licensee without first obtaining any required license issued by the department.

(e) A licensed research grower shall not cultivate, plant, grow, handle, or harvest more than 80 acres in a licensed research section under one license in calendar year 2019 and shall not cultivate, plant, grow, handle, or harvest more than 320 acres in a licensed research section under one license in calendar year 2020. Each primary licensee on a research grower license who wants to cultivate, plant, grow, handle, or harvest more than the authorized acres in a licensed research section in any calendar year shall obtain an additional research grower license and pay all required application fees and license fees for the additional acreage.

(f) Each licensed research grower that cultivates, plants, grows, handles, harvests, conditions, stores, or transports industrial hemp plants or seeds that were obtained from outside Kansas shall maintain a bill of lading or other documentation that identifies the source of the industrial hemp plants or seeds to demonstrate that the industrial hemp plants or seeds were legally imported into Kansas. (Authorized by and implementing K.S.A. 2018 Supp. 2-3902; effective Feb. 8, 2019.)

4-34-7. Research distributor license. (a) In addition to the requirements of K.A.R. 4-34-5, each individual who is issued a research distributor license by the department shall meet the following requirements:

(1) Obtain industrial hemp plants, plant parts, grain, or seeds from a licensed research grower, licensed research distributor, or licensed research processor or from legally imported sources of industrial hemp;

(2) obtain and retain a copy of the following documents, if applicable:

(A) The research grower license of the primary licensee that cultivated, planted, grew, handled, harvested, conditioned, stored, distributed, or transported the industrial hemp plants, plant parts, grain, or seeds being received;

(B) the research distributor license of the primary licensee that handled, conditioned, stored, distributed, or transported the industrial hemp plants, plant parts, grain, or seeds being received;

(C) the research processor license of the primary licensee that handled or stored the industrial hemp plants, plant parts, or grain being received; and

(D) the harvest certificate pertaining to the industrial hemp plants, plant parts, grain, or seeds being received by the licensee or a bill of lading or other documentation identifying the source of the industrial hemp plants, plant parts, grain, or seed being received by the licensee;

(3) ensure that a copy of the harvest certificate pertaining to the industrial hemp plants, plant parts, grain, or seeds that were harvested or a bill of lading or other documentation identifying the source of the industrial hemp plants, plant parts, grain, or seeds accompanies the industrial hemp plants, plant parts, grain, or seeds being distributed or transported; and

(4) ensure that industrial hemp plants, plant parts, grain, or seeds are not commingled with any other commodity or other items being distributed or transported.

(b) The primary licensee on a research distributor license shall have a primary residence in Kansas.

(c) Any licensed research distributor may handle, condition, store, distribute, or transport industrial hemp plants, plant parts, grain, or seeds pursuant to the license issued by the department.

(d) A licensed research distributor shall not harvest or process industrial hemp plants, plant parts, grain, or seeds cultivated or grown by another licensee without first obtaining any required license issued by the department.

(e) Each individual exchanging, distributing, selling, or reselling certified seed in Kansas shall be licensed pursuant to the Kansas agricultural seed act, K.S.A. 2-1415 et seq. amendments thereto, and the implementing regulations.

(f) A licensed research distributor that handles, conditions, stores, distributes, or transports industrial hemp plants, plant parts, grain, or seeds that were obtained from outside Kansas shall maintain

a bill of lading or other documentation that identifies the source of the industrial hemp plants, plant parts, grain, or seeds to demonstrate that the industrial hemp plants, plant parts, grain, or seeds were legally imported into Kansas. (Authorized by and implementing K.S.A. 2018 Supp. 2-3902; effective Feb. 8, 2019.)

4-34-8. Research processor license. (a) In addition to the requirements of K.A.R. 4-34-5, each individual who is issued a research processor license by the department shall meet the following requirements:

(1) Obtain industrial hemp plants, plant parts, or grain from a licensed research grower or licensed research distributor or from legally imported sources of industrial hemp;

(2) devitalize any industrial hemp grain within 10 days of receipt and take appropriate security measures to ensure that the industrial hemp grain cannot be stolen before it is devitalized;

(3) obtain and retain a copy of the following documents, if applicable:

(A) The research grower license of the primary licensee that cultivated, planted, grew, handled, harvested, conditioned, stored, distributed, or transported the industrial hemp plants, plant parts, or grain being received;

(B) the research distributor license of the primary licensee that handled, conditioned, stored, distributed, or transported the industrial hemp plants, plant parts, or grain being received; and

(C) the harvest certificate pertaining to the industrial hemp plants, plant parts, or grain being received by the licensee or a bill of lading or other documentation identifying the source of the industrial hemp plants, plant parts, or grain being received; and

(4) ensure that a copy of the harvest certificate pertaining to the industrial hemp plants, plant parts, or grain that was harvested or a bill of lading or other documentation identifying the source of the industrial hemp plants, plant parts, or grain accompanies the industrial hemp plants, plant parts, or grain being processed.

(b) Any licensed research processor may handle, store, or process industrial hemp plants, plant parts, or grain pursuant to the license issued by the department. A licensed research processor shall not handle, store, or process seeds.

(c)(1) The primary licensee on a research processor license who processes industrial hemp plants, plant parts, or grain into hemp products in

a mobile processing facility shall meet the following requirements:

(A) Notify the department of the mobile processing facility's planned processing locations no more than five days in advance of the first day of processing in each location. The primary licensee shall immediately notify the department of any changes to a submitted schedule; and

(B) at all times, operate in compliance with all state, county, and local laws, regulations, and ordinances.

(2) The primary licensee shall be present at each mobile processing facility's planned processing locations at all times while each mobile processing facility is operating.

(d) A licensed research processor shall not cultivate, plant, grow, harvest, condition, distribute, or transport industrial hemp plants, plant parts, grain, or seeds cultivated, planted, or grown by another licensee without first obtaining any required license issued by the department.

(e) A licensed research processor that processes industrial hemp plants, plant parts, or grain that were obtained from outside Kansas shall maintain a bill of lading or other documentation demonstrating that the industrial hemp plants, plant parts, or grain was legally imported into Kansas.

(f) Possession of a current research processor license shall not guarantee a licensee access to the premises of any private landowner. Permission for a licensee to enter the premises of any landowner shall be established contractually or otherwise by agreement of the licensee and the landowner. (Authorized by and implementing K.S.A. 2018 Supp. 2-3902; effective Feb. 8, 2019.)

4-34-9. State educational institution research license. (a) Each state educational institution wanting to allow individuals to conduct research pursuant to the pilot program shall authorize this participation and shall be directly responsible for any volunteer, student, employee, or research and extension employee conducting the research.

(b) Each volunteer, student, employee, or research and extension employee of a state educational institution that wants to conduct research pursuant to the pilot program shall submit a completed, accurate, and legible research license application for a state educational institution research license. Each research license application shall designate the individual wanting to be a primary licensee and list all proposed licensees. Each research license application shall include a

research proposal and the required state and national criminal history record check.

No application fees or license fees shall be assessed to any individuals wanting a state educational institution research license. However, the costs associated with fingerprinting and the state and national criminal history record check shall be the responsibility of any individual wanting a state educational institution research license.

(c) Volunteers, students, employees, and research and extension employees of a state educational institution shall not apply for a license or conduct research without first obtaining written approval from the head of any applicable department stating that the individual wanting to be a primary licensee and the proposed licensees are part of a sanctioned state educational institution research proposal, which shall be submitted with the research license application. Each individual wanting to be the primary licensee on a state educational institution research license shall apply for and obtain that license before conducting research or having industrial hemp plants, plant parts, grain, or seeds at any location in Kansas.

(d) Each individual wanting to be the primary licensee on a state educational institution research license shall identify the following on the research license application:

(1) Each owner of all land, structures, and buildings where any proposed research will be conducted;

(2) each owner of any motor vehicle that will be used to distribute or transport industrial hemp plants, plant parts, grain, or seeds;

(3) each individual that will own 10 percent or more of the industrial hemp plants, plant parts, grain, or seeds being cultivated, planted, or grown;

(4) each individual that will otherwise be involved in the research proposal, including volunteers, students, employees, research and extension employees, and any other individuals that will be engaged in the purchasing, researching, cultivating, planting, growing, handling, harvesting, conditioning, storing, distributing, transporting, processing, studying, analyzing, or selling of industrial hemp plants, plant parts, grain, or seeds; and

(5) all individuals that will have access to any proposed research area.

(e) Any state educational institution licensee may cultivate, plant, grow, handle, harvest, condition, store, distribute, transport, or process industrial hemp plants, plant parts, grain, or seeds pursuant to the license.

(f)(1) The requirements for research license applications specified in K.A.R. 4-34-4 (b) through (f) and the requirements for the state and national criminal history record check specified in K.A.R. 4-34-3 shall apply to state educational institution licensees. Each state educational institution licensee shall comply with the requirements of K.A.R. 4-34-5, the requirements for a research grower license pursuant to K.A.R. 4-34-6, the requirements for a research distributor license pursuant to K.A.R. 4-34-7, and the requirements for a research processor license pursuant to K.A.R. 4-34-8, except that a state educational institution licensee shall not be required to pay any application fees, license fees, modification fees, sampling fees, or testing fees.

(2) Any individual wanting to be primary licensee on a state educational institution license may include a location on the individual's research license application that has previously been approved by the department as a research area in the same license year.

(3) A state educational institutional licensee shall be prohibited from the following:

(A) Storing or distributing industrial hemp plants, plant parts, grain, or seeds cultivated or grown under another's license, except with the secretary's written permission; and

(B) operating a mobile processing facility.

(g) A state educational institution licensee shall not conduct research as part of the pilot program on any research area not owned by the state educational institution. A state educational institution licensee shall not enter into any agreement or otherwise subcontract with an individual or business entity to permit the licensee to conduct research on any land, structures, or buildings not owned by the state educational institution.

(h) A primary licensee on a state educational institution license shall not permit any individual to participate in the pilot program pursuant to the primary licensee's research license application or otherwise have access to the licensee's research area, industrial hemp plants, plant parts, grain, or seeds if that individual's license was revoked by the department or that individual was denied admission to participate in the pilot program.

(i) Any individual wanting to be a primary licensee on a state educational institution license may request that the department authorize the licensee to interplant industrial hemp plants, plant parts, grain, or seeds with other crops in a research area.

(j) Each state educational institution licensee that is no longer affiliated with the state educational institution shall notify the department and withdraw from the pilot program pursuant to K.A.R. 4-34-16. (Authorized by K.S.A. 2018 Supp. 2-3902; implementing K.S.A. 2018 Supp. 2-3902 and 2-3903; effective Feb. 8, 2019.)

4-34-10. Administrative license. (a) An administrative license may be issued to any individual specified in K.A.R. 4-34-1(b).

(b) Before being issued an administrative license, each individual shall be required to undergo and pass the state and national criminal history record check as specified in K.A.R. 4-34-3.

(c) Each administrative license shall identify the activities that the licensee is authorized to undertake, including handling, inspecting, sampling, testing, and transporting industrial hemp plants, plant parts, grain, or seeds.

(d) No application fee or license fee shall be assessed for any administrative license issued pursuant to this regulation. (Authorized by K.S.A. 2018 Supp. 2-3902; implementing K.S.A. 2018 Supp. 2-3902 and 2-3903; effective Feb. 8, 2019.)

4-34-11. State advisory board. (a) The board established by the secretary pursuant to K.S.A. 2018 Supp. 2-3902, and amendments thereto, shall be recognized as the state advisory board. Members shall be appointed by the secretary. The state advisory board shall consist of at least five and no more than nine members. Membership shall reflect the different geographic areas of the state equally, to the greatest extent possible. Members of the state advisory board shall receive no compensation for serving on the board, but may be paid subsistence allowances, mileage, and other expenses as provided in K.S.A. 75-3223, and amendments thereto. Each member appointed to the state advisory board shall be recognized for knowledge and leadership in at least one of the following sectors: crop research, industrial hemp production or processing, law enforcement, seed certification, or any other sector deemed relevant by the secretary. The secretary shall appoint one member from the Kansas legislature to the state advisory board.

(b) Of the members first appointed to the state advisory board, four members whose terms shall expire on June 30, 2021 shall be designated by the secretary. The remaining members' terms shall expire on June 30, 2023. After the expiration of the initial terms, each member shall be appointed

by the secretary to serve for a term of four years until a successor is appointed. Each member shall be limited to serving a total of two full terms and shall hold office until the expiration of the term for which the member is appointed or until a successor has been qualified and appointed. A member may be appointed by the secretary to fill an unexpired term of any member due to a vacancy on the state advisory board.

(c) Before being qualified and appointed as a member of the state advisory board, each individual shall undergo and be required to pass the state and national criminal history record check as specified in K.A.R. 4-34-3. Upon determination that an individual is qualified, that individual may be appointed by the secretary as a member of the state advisory board and shall be issued an administrative license by the department. No application or license fees shall be assessed for an administrative license issued to a member of the state advisory board pursuant to this regulation.

(d) A quorum of the state advisory board shall be a majority of the members appointed to the state advisory board. A quorum of the state advisory board shall organize by election of a chairperson, vice-chairperson, and other officers as the state advisory board deems appropriate.

(e) In addition to the duties specified in K.S.A. 2018 Supp. 2-3902 and amendments thereto, the state advisory board shall perform other duties, which may include the review of regulations and recommendation of potential changes. The state advisory board shall make recommendations to the secretary only if the recommendations are approved by a majority vote of the state advisory board members.

(f) Any member of the state advisory board may be removed by the secretary for misconduct, incompetence, or neglect of duty. (Authorized by K.S.A. 2018 Supp. 2-3902; implementing K.S.A. 2018 Supp. 2-3902 and 2-3903; effective Feb. 8, 2019.)

4-34-12. Fees. (a) The application fee shall be \$200 for each license sought, with the exception of state educational institution licenses and administrative licenses, for which no application fee shall be charged.

(b) Upon conditional approval of a research grower license, each individual wanting to be the primary licensee shall pay a license fee of \$1,000.

(c) Upon conditional approval of a research distributor license, each individual wanting to be the primary licensee shall pay a license fee of \$2,000

for each licensed research section approved by the department.

(d)(1) Upon conditional approval of a research processor license for processing fiber or grain, each individual wanting to be the primary licensee shall pay a license fee of \$3,000 for each processing facility in a licensed research section and for each mobile processing facility.

(2) Upon conditional approval of a research processor license for processing floral material, each individual wanting to be the primary licensee shall pay a license fee of \$6,000 for each processing facility in a licensed research section and for each mobile processing facility.

(e) Each license fee shall include the cost for the department's initial sample collection and initial laboratory test. Each primary licensee shall pay a subsequent sampling fee of \$45 per hour, plus transportation time and mileage for representatives of the department, for each of the following:

(1) The department collects a subsequent sample.

(2) The primary licensee requests that the department collect a subsequent pre-harvest sample.

(3) The primary licensee requests that the department collect a subsequent post-harvest sample.

(4) More than one harvest occurs in the same research area in a license year.

(f) Each primary licensee shall pay a testing fee of \$250 for every laboratory test determining the delta-9 tetrahydrocannabinol concentration for each of the following:

(1) The department collects a subsequent sample.

(2) The primary licensee requests that the department collect a subsequent pre-harvest sample.

(3) The primary licensee requests that the department collect a subsequent post-harvest sample.

(4) The department collects more than one sample because more than one harvest occurs in the same research area in a license year.

(g) Each primary licensee shall pay a modification fee of \$750 for each requested change to a license that was previously issued by the department. (Authorized by K.S.A. 2018 Supp. 2-3902; implementing K.S.A. 2018 Supp. 2-3902 and 2-3903; effective Feb. 8, 2019.)

4-34-13. Modification of license. (a) Each primary licensee who wants to modify that individual's license or the license of any individual listed on the research license application shall submit a modification request form and the required fee, except as specified in paragraph (d) (2), to the department.

(b) Each licensee shall comply with the requirements of the original license, unless the department modifies the license in writing.

(c) Any primary licensee may request multiple license modifications by submitting one modification request form, but separate fees shall be required for each requested change.

(d)(1) If a primary licensee dies, any licensee who was listed on the research license application and was issued a license may request that the department modify the license to name the requesting individual as the primary licensee. This request may be granted by the department if the requesting individual performs the following:

(A) Notifies the department of the primary licensee's death within 15 business days;

(B) submits a license modification request form to the department within 45 days of the primary licensee's death;

(C) submits a copy of the primary licensee's death certificate to the department within 45 days of that individual's death; and

(D) meets the requirements in K.A.R. 4-34-5 and, if applicable, the requirements of K.A.R. 4-34-6, K.A.R. 4-34-7, K.A.R. 4-34-8, and K.A.R. 4-34-9.

(2) A modification fee to name the requesting individual as the new primary licensee shall not be charged by the department, except for modification requests received more than 45 days after the death of the primary licensee, which shall require a modification request form and modification fee unless the department extends the 45-day time period in writing.

If any other modification request is included, that modification request shall be subject to the modification fee specified in K.A.R. 4-34-12.

(e) A license modification shall be approved by the secretary if the request is appropriate and consistent with the licensee's approved research proposal and meets the requirements of this regulation. If the secretary denies the requested modification, no refund of the modification fee shall be provided, and the licensee shall comply with the terms and conditions of the existing license. (Authorized by K.S.A. 2018 Supp. 2-3902; implementing K.S.A. 2018 Supp. 2-3902 and 2-3903; effective Feb. 8, 2019.)

4-34-14. Land-use restrictions. (a) A licensee shall not cultivate, plant, grow, handle, harvest, condition, store, distribute, transport, or process any plants, plant parts, grain, or seeds of the genus *cannabis* that are not industrial hemp.

(b) A licensee shall not cultivate, plant, grow, handle, harvest, condition, store, distribute, or process industrial hemp plants, plant parts, grain, or seeds at any location not included on the licensee's license.

(c)(1) A licensee shall not cultivate, plant, grow, handle, harvest, condition, store, distribute, or process industrial hemp plants, plant parts, grain, or seeds as follows, except with the secretary's written permission:

(A) In or within 50 feet of a residential structure; or

(B) within one-quarter mile of any public or private K-12 school or public recreational area.

(2) For licensed research sections consisting of any outdoor locations, one-quarter mile shall be calculated from any field boundary of any research area, and for licensed research sections consisting of any indoor locations or a greenhouse, one-quarter mile shall be calculated from any exterior wall.

(d) A licensee shall not interplant, cultivate, plant, or grow any crop other than industrial hemp plants, plant parts, grain, or seeds in any research area, except that any state educational institution licensee may do so upon authorization by the secretary. A licensee shall not cultivate, plant, grow, harvest, or condition more than one approved variety of industrial hemp in a research area without the secretary's written approval.

(e) A licensee shall not cultivate, plant, grow, handle, harvest, condition, store, distribute, transport, or process industrial hemp plants, plant parts, grain, or seeds on property owned by any individual whose license was revoked by the department or who was denied admission to participate in the pilot program.

(f) Each primary licensee shall post and maintain at least one sign at each research area listed on the license. A sign shall be posted along each research area boundary adjacent to a public road, except that if the research area is adjacent to an intersection of two or more public roads, a sign shall be posted at the intersection. If a research area is not adjacent to any public road, a sign shall be posted at the point of access to the research area. Each sign shall measure at least 36 inches per side, shall be clearly visible and legible from the adjacent public road, intersection of public roads or access point, and shall include the following information:

(1) The following text: "Kansas Department of Agriculture Industrial Hemp Research Program";

(2) the primary licensee's name;

- (3) the primary licensee's license number; and
- (4) the department's telephone number.

(g) Each licensee shall allow the department to inspect unlicensed growing areas for volunteer plants. The primary licensee or a licensee listed on the primary licensee's research license application shall destroy any volunteer plants for at least three years after the last reported date of planting. (Authorized by and implementing K.S.A. 2018 Supp. 2-3902; effective Feb. 8, 2019.)

4-34-15. Movement of industrial hemp; restrictions on sale or transfer of industrial hemp; compliance with applicable law. (a) The movement of all industrial hemp plants, plant parts, grain, or seeds into, out of, or within Kansas shall be at the licensee's expense and risk.

(b) A licensee shall not sell or transfer industrial hemp plants, plant parts, grain, or seeds to any individual or business entity outside Kansas who is not authorized by an institution of higher education or a state department of agriculture under 7 U.S.C. 5940, as amended, and the laws of that state. A licensee shall not purchase or receive industrial hemp plants, plant parts, grain, or seeds from an individual or business entity or permit any transfer of industrial hemp plants, plant parts, grain, or seeds to or from any individual or business entity outside Kansas who is not authorized by an institution of higher education or a state department of agriculture under 7 U.S.C. 5940, as amended, and the laws of that state. Each licensee shall ensure that any sale or transfer of industrial hemp plants, plant parts, grain, or seeds is lawful in the state in which the transaction is undertaken.

(c) Each licensee shall comply with all local, state, and federal laws and regulations related to industrial hemp and with the act and the implementing regulations.

(d) Each licensee shall be responsible for any loss or obligation that the licensee incurs as a result of the licensee's involvement in the pilot program. (Authorized by and implementing K.S.A. 2018 Supp. 2-3902; effective Feb. 8, 2019.)

4-34-16. Voluntary withdrawal; voluntary partial destruction. (a) Any licensee may voluntarily withdraw from the pilot program after providing the department with written notice of the intent to do so. Notice shall be provided at least 30 days before the intended withdrawal date, except with prior written approval from the department. If a licensee listed on a primary licensee's research

license application withdraws from the pilot program, the primary licensee shall modify each license as specified in K.A.R. 4-34-13.

(b) If a primary licensee voluntarily withdraws from the pilot program, all industrial hemp plants, plant parts, grain, or seeds being cultivated, planted, grown, handled, harvested, conditioned, stored, distributed, transported, or processed pursuant to the licensee's license shall be destroyed and all licenses issued pursuant to the research license application shall be surrendered. Each primary licensee who voluntarily withdraws from the pilot program shall provide the department at least 15 days' notice of the date and time the primary licensee intends to destroy the industrial hemp plants, plant parts, grain, or seeds pursuant to that individual's license and shall notify the department of any change in the destruction date or time.

(c) If a primary licensee notifies the department of the intent to withdraw from the pilot program but fails to destroy all industrial hemp plants, plant parts, grain, or seeds being cultivated, planted, grown, handled, harvested, conditioned, stored, distributed, transported, or processed pursuant to that individual's license within 15 days of the intended destruction date, the license of the primary licensee and each license issued pursuant to the research license application may be revoked and all industrial hemp plants, plant parts, grain, or seeds being cultivated, planted, grown, handled, harvested, conditioned, stored, distributed, transported, or processed as part of the primary licensee's research shall be destroyed at the primary licensee's expense.

(d) Any primary licensee conducting research pursuant to a research grower license may voluntarily destroy any industrial hemp plants being cultivated, planted, or grown in a portion of any research area without withdrawing from the pilot program. Each primary licensee conducting research pursuant to a research grower license who intends to destroy the industrial hemp plants being cultivated, planted, or grown in any research area listed on that individual's license shall provide the department at least 15 days' notice of the date and time of destruction and shall notify the department of any change in the destruction date or time.

(e) Each primary licensee that has been issued a failing report of analysis shall comply with the destruction requirements in K.A.R. 4-34-18 and K.A.R. 4-34-19, as applicable.

(f) Representatives of the department or law enforcement may be present during any destruction of industrial hemp plants, plant parts, grain, or seeds, or proof of the destruction may be required by the department.

(g) Each primary licensee who destroys any industrial hemp plants being cultivated, planted, grown, handled, harvested, conditioned, stored, distributed, transported, or processed pursuant to that individual's license shall, within 15 days after the destruction, notify the department in writing of the number of acres of industrial hemp plants, plant parts, grain, or seeds that were planted in each research area and the number of acres destroyed in each research area.

(h) Upon destruction of any industrial hemp plants, plant parts, grain, or seeds, all volunteer plants shall also be destroyed during the current license year and for at least three years after the last date of planting reported to the department.

(i) Voluntary destruction of industrial hemp plants, plant parts, grain, or seeds shall be performed by a licensee listed on the research license application of the primary licensee and shall be at the primary licensee's expense. If the destruction of industrial hemp plants, plant parts, grain, or seeds occurs, the licensee shall not be eligible for a refund of any fees paid by a primary licensee. (Authorized by and implementing K.S.A. 2018 Supp. 2-3902; effective Feb. 8, 2019.)

4-34-17. Pre-harvest and harvest requirements; harvest certificates. (a) Each primary licensee shall notify the department of every intended harvest date in a pre-harvest report at least 30 days before each intended harvest date. Each primary licensee shall immediately notify the department regarding a change to any date previously reported to the department if the change to the harvest date is five or more days. Additional sampling and testing may be required by the department as a result of any change to the harvest date of five or more days.

(b) If two or more harvests will be conducted from the same research area within a license year, the primary licensee shall notify the department of each intended harvest date at least 30 days before each intended harvest date. The primary licensee shall pay a subsequent sampling fee and testing fee for each harvest conducted after the initial harvest of a research area.

(c) No more than 15 days before any industrial hemp plants, plant parts, grain, or seeds are cut,

picked, collected, or otherwise harvested, each licensee shall allow a sample to be collected by the department for testing as specified in K.A.R. 4-34-18. The initial pre-harvest sample shall not require an additional sampling fee or testing fee.

(d) Before harvesting any industrial hemp plants, plant parts, grain, or seeds, the licensee shall be required to receive a passing report of analysis from the department. After issuance of a passing report of analysis from the department, the licensee shall have 10 days to fully harvest the industrial hemp plants, plant parts, grain, or seeds, unless otherwise authorized in writing by the secretary.

(e) If a licensee fails to fully harvest the industrial hemp plants, plant parts, grain, or seeds within 10 days after issuance of the passing report of analysis, the primary licensee shall perform one of the following:

(1) Notify the department within seven days after the expiration of the 10-day harvest period of the intended second harvest date, request that the department collect a subsequent pre-harvest sample, and pay the required sampling and testing fees; or

(2) notify the department within seven days after the expiration of the 10-day harvest period of the intended date by which the licensee shall destroy the industrial hemp plants, plant parts, grain, or seeds. The primary licensee shall notify the department of any change in the destruction date.

Destruction of industrial hemp plants, plant parts, grain, or seeds shall occur by an individual listed on the primary licensee's research license application and at the primary licensee's expense. All volunteer plants shall be destroyed during the current license year and for at least three years after the last reported date of planting. If destruction of industrial hemp plants, plant parts, grain, or seeds occurs, no refund shall be issued for any fees paid by a primary licensee.

(f) No more than five days after the harvest of industrial hemp plants, plant parts, grain, or seeds is completed, the primary licensee shall notify the department that the harvest has been completed and request issuance of a harvest certificate. A harvest certificate shall not be issued by the department until the following information is provided for inclusion in the harvest certificate:

(1) The official name of the industrial hemp variety that was cultivated, planted, or grown;

(2) each date on which the licensee harvested the industrial hemp plants, plant parts, grain, or seeds;

(3) the global positioning system coordinates for each research area where the industrial hemp plants, plant parts, grain, or seeds were harvested; and

(4) a statement of intended end-use for all industrial hemp plants, plant parts, grain, or seeds that were harvested. (Authorized by and implementing K.S.A. 2018 Supp. 2-3902; effective Feb. 8, 2019.)

4-34-18. Pre-harvest inspection; sample collection; testing and post-testing actions.

(a) A licensee, whether present or not, shall permit representatives of the department complete, unrestricted, and immediate access to all industrial hemp plants, plant parts, grain, and seeds and all locations, buildings, and motor vehicles listed on the license. Access shall be granted at reasonable times, without interference or obstruction, with or without cause, and with or without advance notice.

(b) Any primary licensee may request collection of a sample from each research area listed on the license. Each sample collected shall be subject to the sampling and testing fees required by K.A.R. 4-34-12.

(c) Based on the results of the testing, one of the following shall apply:

(1) A sample containing a delta-9 tetrahydrocannabinol concentration of 0.3 percent or less on a dry-weight basis shall result in the issuance of a passing report of analysis and shall list each research area from which the sample was taken.

(2) A sample containing a delta-9 tetrahydrocannabinol concentration of higher than 0.3 percent on a dry-weight basis shall result in the issuance of a failing report of analysis and shall list each research area from which the sample was taken.

(A) Within seven days of issuance of a failing report of analysis, the primary licensee may request that the department either collect a subsequent pre-harvest sample or destroy all plants, plant parts, grain, or seeds located in each research area sampled and identified on the failing report of analysis.

(B) A subsequent pre-harvest sample requested by the primary licensee and found to contain a delta-9 tetrahydrocannabinol concentration of higher than 0.3 percent on a dry-weight basis shall result in the issuance of a failing report of analysis. Within seven days of issuance of the failing report of analysis, a licensee listed on the primary licensee's research license application shall destroy all

plants, plant parts, grain, or seeds that are located in each research area that was sampled and identified in the failing report of analysis.

(C) If any sample is found to contain a delta-9 tetrahydrocannabinol concentration of higher than 0.3 percent on a dry-weight basis, the testing results and the location of each sampled research area may be referred to the Kansas bureau of investigation and other appropriate law enforcement agencies for further investigation.

(D) If any sample is found to contain a delta-9 tetrahydrocannabinol concentration of 2.0 percent or higher on a dry-weight basis, the testing results and the location of each sampled research area shall be referred to the Kansas bureau of investigation and other appropriate law enforcement agencies for further investigation.

(d) Destruction of industrial hemp plants, plant parts, grain, or seeds shall occur by a licensee listed on the primary licensee's research license application and at the primary licensee's expense. All volunteer plants shall be destroyed during the current license year and for at least three years after the last reported date of planting. Each licensee shall allow representatives of the department or law enforcement to be present during the destruction of industrial hemp plants, plant parts, grain, or seeds, or proof of destruction may be required by the department. If the destruction of industrial hemp plants, plant parts, grain, or seeds is required, the primary licensee shall not be eligible for a refund of any fees paid.

(e) All samples collected by the department shall become the property of the department, and no compensation shall be owed to the licensee. (Authorized by and implementing K.S.A. 2018 Supp. 2-3902; effective Feb. 8, 2019.)

4-34-19. Post-harvest inspection; sample collection; testing and post-testing actions.

(a) Each licensee shall allow the department to inspect and sample industrial hemp plants, plant parts, grain, or seeds any time after the industrial hemp plants, plant parts, grain, or seeds have been harvested. The initial post-harvest sample shall not require an additional sampling fee or testing fee.

(b) A licensee, whether present or not, shall permit representatives of the department complete, unrestricted, and immediate access to all industrial hemp plants, plant parts, grain, and seeds and all locations, buildings, and motor vehicles listed on the license. Access shall be granted at reasonable times, without interference or ob-

struction, with or without cause, and with or without advance notice.

(c) Any primary licensee may request collection of a sample from each research area listed on the license. Each sample collected shall be subject to the sampling and testing fees required by K.A.R. 4-34-12.

(d) Based on the results of the testing, one of the following shall apply:

(1) A sample containing a delta-9 tetrahydrocannabinol concentration of 0.3 percent or less on a dry-weight basis shall result in the issuance of a passing report of analysis and shall list each research area from which the sample was taken. Each passing report of analysis shall identify the harvest certificate or bill of lading that accompanied the industrial hemp plants, plant parts, grain, or seeds sampled.

(2) A sample containing a delta-9 tetrahydrocannabinol concentration of higher than 0.3 percent on a dry-weight basis shall result in the issuance of a failing report of analysis and shall list each research area from which the sample was taken.

(A) Within seven days of issuance of a failing report of analysis, the primary licensee may request that the department either collect a subsequent post-harvest sample or destroy all plants, plant parts, grain, or seeds located in each research area that was sampled and identified on the failing report of analysis.

(B) A subsequent post-harvest sample requested by the primary licensee and found to contain a delta-9 tetrahydrocannabinol concentration of higher than 0.3 percent on a dry-weight basis shall result in the issuance of a failing report of analysis. Within seven days of issuance of the failing report of analysis, a licensee listed on the primary licensee's research license application shall destroy all plants, plant parts, grain, or seeds that are located in each research area that was sampled and identified in the failing report of analysis.

(C) If any sample is found to contain a delta-9 tetrahydrocannabinol concentration of higher than 0.3 percent on a dry-weight basis, the testing results and the location of each sampled research area may be referred to the Kansas bureau of investigation and other appropriate law enforcement agencies for further investigation.

(D) If any sample is found to contain a delta-9 tetrahydrocannabinol concentration of 2.0 percent or higher on a dry-weight basis, the testing results and the location of each sampled research area shall be referred to the Kansas bureau of

investigation and other appropriate law enforcement agencies for further investigation.

(e) After the collection of a sample, no licensee shall handle, condition, distribute, transport, or process the sampled industrial hemp plants, plant parts, grain, or seeds until the primary licensee is issued a passing report of analysis. The sampled industrial hemp plants, plant parts, grain, or seeds shall not be processed, exchanged for value, or otherwise allowed to come into the possession of anyone other than a licensee listed on the primary licensee's research license application until a passing report of analysis is issued.

(f) Destruction of industrial hemp plants, plant parts, grain, or seeds shall occur by a licensee listed on the primary licensee's research license application at the primary licensee's expense. All volunteer plants shall be destroyed during the current license year and for at least three years after the last reported date of planting. Each licensee shall allow representatives of the department or law enforcement to be present during the destruction of industrial hemp plants, plant parts, grain, or seeds, or proof of the destruction may be required by the department. If the destruction of industrial hemp plants, plant parts, grain, or seeds occurs, the primary licensee shall not be eligible for a refund of any fees paid.

(g) All samples collected by the department shall become the property of the department, and no compensation shall be owed to the licensee. (Authorized by and implementing K.S.A. 2018 Supp. 2-3902; effective Feb. 8, 2019.)

4-34-20. Reports. (a) Each report required by the department shall be submitted on a form provided by the department. Each licensee shall submit the complete, accurate, and legible reports on or before the date required.

(b) A primary licensee on a research grower license shall submit a field planting report to the department within 15 days after every planting, including replanting seeds or propagules or establishing plants. Each field planting report shall identify the following for each research area:

(1) The official name of the industrial hemp variety that was cultivated, planted, or grown;

(2) the global positioning system coordinates for each research area where industrial hemp plants, plant parts, grain, or seeds are being cultivated, planted, or grown; and

(3) a statement of intended end-use for all industrial hemp plants, plant parts, grain, or seeds

being cultivated, planted, or grown in each research area.

(c) Each primary licensee on a research grower license shall submit a voluntary withdrawal report if either of the following conditions is met:

(1) Industrial hemp plants, plant parts, grain, or seeds are not cultivated, planted, or grown in a research area. The report shall be due no later than June 1.

(2) Industrial hemp plants being grown in a portion of any research area are voluntarily destroyed as specified in K.A.R. 4-34-16. The report shall be due no later than 15 days after the industrial hemp plants are destroyed.

(d) Each primary licensee on a research grower license shall submit a pre-harvest report to the department at least 30 days before every intended harvest date, for each licensed research section. The pre-harvest report shall include the following:

(1) The number of acres planted in each research area;

(2) the intended harvest date for each research area; and

(3) a statement of intended end-use for all industrial hemp plants, plant parts, grain, or seeds that will be harvested from each research area.

(e) Each primary licensee on a research grower license shall submit a production report to the department within 30 days after the last harvest date for every harvest. Each production report shall include the following, at a minimum:

(1) The amount of industrial hemp plants, plant parts, grain, or seeds harvested from each research area, which shall be provided as follows:

(A) If the industrial hemp crop was cultivated, planted, or grown for the production of fiber, the number of bales and the size and shape of the bales;

(B) if the industrial hemp crop was cultivated, planted, or grown for the production of grain or seed, the quantity by weight;

(C) if the industrial hemp crop was cultivated, planted, or grown for the production of floral material, the quantity by weight; and

(D) if the industrial hemp crop was cultivated, planted, or grown for the production of more than one end-use, the information for each end-use as required by this regulation;

(2) the name, address, and, if applicable, the license number of the primary licensee on the research distributor license or an out-of-state individual or business entity that is authorized by an institution of higher education or a state de-

partment of agriculture under 7 U.S.C. 5940, as amended, and the laws of the state that transported any industrial hemp plants, plant parts, grain, or seeds that were harvested; and

(3) the name, address, and, if applicable, the license number of the primary licensee on the research processor license or an out-of-state individual or business entity that is authorized by an institution of higher education or a state department of agriculture under 7 U.S.C. 5940, as amended, and the laws of the state that received the industrial hemp plants, plant parts, or grain for processing.

(f) Each primary licensee on a research distributor license shall annually submit a completed distribution report to the department no later than November 30. Each distribution report shall include the following, at a minimum:

(1) The amount of industrial hemp plants, plant parts, grain, or seeds distributed in each load, which shall be provided as follows:

(A) If the industrial hemp crop was cultivated, planted, or grown for the production of fiber and was distributed, the number of bales and the size and shape of the bales;

(B) if the industrial hemp crop was cultivated, planted, or grown for the production of grain or seed and was distributed, the quantity by weight;

(C) if the industrial hemp crop was cultivated, planted, or grown for the production of floral material and was distributed, the quantity by weight; and

(D) if the industrial hemp crop was cultivated, planted, or grown for the production of more than one end-use and was distributed, the information for each end-use as required by this regulation;

(2) the name, address, and, if applicable, the license number of the primary licensee on the research grower license or an out-of-state individual or business entity that is authorized by an institution of higher education or a state department of agriculture under 7 U.S.C. 5940, as amended, and the laws of the state that cultivated, planted, grew, handled, harvested, conditioned, stored, distributed, or transported any industrial hemp plants, plant parts, grain, or seeds that the licensee distributed or transported;

(3) the name, address, and, if applicable, the license number of the primary licensee on the research processor license or an out-of-state individual or business entity that is authorized by an institution of higher education or a state department of agriculture under 7 U.S.C. 5940, as amended, and the laws of the state that pro-

cessed each load of industrial hemp plants, plant parts, or grain that the licensee distributed or transported; and

(4) the amount of industrial hemp plants, plant parts, grain, or seeds that was sold during the current license year.

(g) Each primary licensee on a research processor license shall annually submit a completed processing report no later than November 30. Each processing report shall include the following, at a minimum:

(1) The amount of industrial hemp plants, plant parts, or grain processed by the licensee, which shall be provided as follows:

(A) If the industrial hemp crop was cultivated, planted, or grown for the production of fiber and was processed, the number of bales and the size and shape of the bales;

(B) if the industrial hemp crop was cultivated, planted, or grown for the production of grain or seed and was processed, the quantity by weight;

(C) if the industrial hemp crop was cultivated, planted, or grown for the production of floral material and was processed, the quantity by weight; and

(D) if the industrial hemp crop was cultivated, planted, or grown for the production of more than one end-use and was processed, the information for each end-use as required by this regulation;

(2) the name, address, and, if applicable, the license number of the primary licensee on the research grower license or an out-of-state individual or business entity that is authorized by an institution of higher education or a state department of agriculture under 7 U.S.C. 5940, as amended, and the laws of the state that cultivated, planted, grew, handled, harvested, conditioned, stored, distributed, or transported any industrial hemp plants, plant parts, or grain that the licensee processed; and

(3) the name, address, and, if applicable, the license number of the primary licensee on the research distributor license or an out-of-state individual or business entity that is authorized by an institution of higher education or a state department of agriculture under 7 U.S.C. 5940, as amended, and the laws of the state that distributed or transported any of industrial hemp plants, plant parts, or grain that the licensee processed.

(h) On and after January 1, 2019, each primary licensee shall prepare and submit a research report to the department no later than November 30 each year. Each research report shall include the following, at a minimum:

(1) A summary of the research conducted;

(2) a description of the methods and materials used in conducting the research;

(3) the results of the research; and

(4) an analysis of the results.

(i) All research conducted and all reports submitted to the department as part of the pilot program shall become the property of the department, and no compensation shall be due from the department to any licensee. (Authorized by and implementing K.S.A. 2018 Supp. 2-3902; effective Feb. 8, 2019.)

4-34-21. Violations; disciplinary sanctions. (a) Each of the following acts and omissions shall constitute a violation for which disciplinary sanctions, including revocation of any license and denial of future applications, may be imposed by the department:

(1) Failure to cooperate with the department and law enforcement agencies in administration and enforcement of the act, and amendments thereto, and the implementing regulations;

(2) failure to provide any information relating to the administration of the pilot program that the department requests;

(3) providing false, misleading, or incorrect information relating to the licensee's participation in the pilot program to the department;

(4) failure to submit any forms or reports as required;

(5) cultivating, planting, growing, or otherwise possessing plants of the genus cannabis with a delta-9 tetrahydrocannabinol concentration greater than 0.3 percent on a dry-weight basis;

(6) failure to pay any fees assessed by the department;

(7) submitting a pre-harvest report or destruction report and harvesting or destroying industrial hemp plants, plant parts, grain, or seeds before sampling by the department;

(8) harvesting any industrial hemp plants, plant parts, grain, seeds without being issued a passing report of analysis;

(9) failure to destroy any industrial hemp plants, plant parts, grain, seeds, volunteer plants, or plants of the genus cannabis with a delta-9 tetrahydrocannabinol concentration greater than 0.3 percent on a dry-weight basis as required by this article of the department's regulations;

(10) harvesting any industrial hemp plants, plant parts, grain, or seeds after being issued a failing report of analysis; and

(11) any other violation of the act, and amendments thereto, or the implementing regulations.

(b) If a licensee cultivates, plants, grows, handles, harvests, conditions, stores, distributes, transports, or processes any industrial hemp plants, plant parts, grain, or seeds as part of the pilot program at any location not listed on the license, the industrial hemp plants, plant parts, grain, or seeds at that location shall be destroyed by any licensee that received a license issued pursuant to the primary licensee's research license application. The destruction shall be at the primary licensee's expense, and any license may be revoked.

(c)(1) Each licensee whose license is revoked shall destroy any industrial hemp plants, plant parts, grain, or seeds in that individual's possession at that individual's own expense, no more than 15 business days after the department directs the individual to do so. The licensee shall not be eligible to reapply or otherwise participate in the pilot program for at least five years from the date of revocation. If a primary licensee's research license is revoked, all industrial hemp plants, plant parts, grain, or seeds that are subject to the primary licensee's license shall be destroyed by a licensee listed on the research license application and at the primary licensee's expense.

(2) Each licensee that will destroy industrial hemp plants, plant parts, grain, or seeds pursuant to paragraph (c)(1) shall notify the department of the date and time of destruction within five days of issuance of the notification that destruction is required. Each licensee shall notify the department of any change in the destruction date or time. Additional sampling and testing may be required by the department for a change of five or more days. Representatives of the department or law enforcement may be present during the destruction, or proof of the destruction may be required by the department.

(3) All volunteer plants shall be destroyed during the current license year and for at least three years after the last reported date of planting.

(4) No refund shall be issued for any fees paid by the primary licensee.

(d) If a licensee violates any provision of the act, and amendments thereto, or the implementing regulations, any license may be revoked, in whole or in part, by the secretary, as deemed appropriate.

(e) Any prior violations of the act, and amendments thereto, the implementing regulations or previous revocations of a license may be considered when reviewing new research license applications. (Authorized by and implementing K.S.A. 2018 Supp. 2-3902; effective Feb. 8, 2019.)

Article 1.—DEFINITIONS

5-1-1. Definitions. As used in these regulations and the Kansas water appropriation act and by the division of water resources in the administration of the Kansas water appropriation act, unless the context clearly requires otherwise, each of the following terms shall have the meaning specified in this regulation:

(a) “Above-baseflow stage” means streamflow that is in response to a significant runoff event during which period the water level elevation of the stream is greater than the elevation of the adjacent water table.

(b) “Acceptable quality surface water” means surface water that will not degrade the quality of the groundwater source into which the surface water is discharged.

(c) “Application” means the formal document submitted on the form prescribed by the chief engineer for a permit to appropriate water for beneficial use and filed in the office of the chief engineer pursuant to K.S.A. 82a-708a and 82a-709, and amendments thereto.

(d) “Approval of application” means a permit

to proceed with construction of diversion works and the diversion and use of water in accordance with the terms and conditions specified in the permit. Approval of application shall not constitute any permit that may be required by other state laws.

(e) “Aquifer storage” means the act of storing water in an aquifer by artificial recharge for subsequent diversion and beneficial use.

(f) “Aquifer storage and recovery system” means the physical infrastructure that meets the following conditions:

(1) Is constructed and operated for artificial recharge, storage, and recovery of source water; and

(2) consists of apparatus for diversion, treatment, recharge, storage, extraction, and distribution.

(g) “Artificial recharge” means the use of source water to artificially replenish the water supply in an aquifer.

(h) “Authorized representative” means any staff employee designated by the chief engineer to perform duties and functions on behalf of the chief engineer.

(i) “Bank storage” means water absorbed by and temporarily stored in the banks and bed of a stream during above-baseflow stage.

(j) “Bank storage well” means a well used to divert or withdraw water from bank storage.

(k) “Basin storage area” means the portion of the aquifer used for aquifer storage that has defined horizontal boundaries and is delimited by a maximum index level and a minimum index level.

(l) “Basin storage loss” means that portion of artificial recharge naturally flowing or discharging from the basin storage area.

(m) “Basin term permit” means a term permit to appropriate surface water from a stream within a specific drainage basin, or a portion of it, for a reasonable quantity of water, not to exceed a maximum of 100 acre-feet per calendar year, for use in either of the following:

(1) Drilling oil and gas wells; or

(2) construction projects within the specified basin.

(n) “Battery of wells” means two or more wells connected to a common pump by a manifold, or not more than four wells in the same local source of supply within a 300-foot-radius circle that are being operated by pumps not to exceed a total maximum rate of diversion of 800 gallons per minute and that supply water to a common distribution system.

(o) “Beneficial uses of water” are the following:

(1) Domestic uses;

(2) stockwatering;

(3) municipal uses;

(4) irrigation;

(5) industrial uses;

(6) recreational uses;

(7) waterpower;

(8) artificial recharge;

(9) hydraulic dredging;

(10) contamination remediation;

(11) dewatering;

(12) fire protection;

(13) thermal exchange; and

(14) sediment control in a reservoir.

(p) “Complete and accurate water use report” means a water use report that the water right owner has filed pursuant to K.S.A. 82a-732, and amendments thereto, that provided all of the information required on the form prescribed by the chief engineer, including the following:

(1) The quantity of water diverted during the calendar year;

(2) if the diversion of water was required to be metered during the calendar year for which the report is being filed, the information required by K.A.R. 5-3-5e;

(3) if the water was used for irrigation purposes, the number of acres that were irrigated; and

(4) if the water was diverted from a sand and gravel pit operation, the size of the surface area of the pit in acres at the end of the calendar year for which the report was filed.

(q) “Completed substantially as shown on aerial photograph, topographic map, or plat,” as used to define the authorized point of diversion, means within 300 feet of the location as shown on the aerial photograph, topographic map, or plat accompanying the application.

(r) “Confined Dakota aquifer system” means that portion of the Dakota aquifer system overlain by a confining layer resulting in the aquifer normally being under greater than atmospheric pressure.

(s) “Conjunctive use” means the safe-yield management and operation of an aquifer in coordination with a surface water system to enhance the use of the total water supply availability in accordance with the provisions of the water appropriation act.

(t) “Contamination remediation” means the diversion of water by a state agency, or under a written agreement or order of an appropriate state agency, for the purpose of improving the water quality.

(u) “Dakota aquifer system” shall include the Dakota formation, the Kiowa formation, the Cheyenne sandstone, and, where hydraulically connected, the Morrison formation.

(v) “Dakota aquifer system well” means a well or proposed well screened in whole or in part in the Dakota aquifer system.

(w) “Dam” means any artificial barrier, together with all appurtenant works, that does or could impound water.

(x) “Dewatering” means the removal of surface water or groundwater to achieve either of the following:

(1) Facilitate the construction of a building, pipeline, or other facility; or

(2) protect a building, levee, mining activity, or other facility.

(y) “Direct diversion of surface water” means the diversion of surface water directly from a stream by means of a pump, headgate, siphon, or similar installation, for application to beneficial

use without storing it behind a dam, levee, or similar type of structure.

(z) “Diversion” means the act of bringing water under control by means of a well, pump, dam, or other device for delivery and distribution for the proposed use.

(aa) “Diversion works” means any well, pump, power unit, power source, dam, and any other devices necessary to bring water under control for delivery to a distribution system by which the water will be distributed to the proposed use and any other equipment required as a condition of the permit, including a check valve, water level measurement tube, meter, or other measuring device.

(bb) “Division” means the division of water resources of the Kansas department of agriculture.

(cc) “Dry hydrant” means a permanent, unpresurized intake pipe used to remove water from a pond, stream, reservoir, or other surface water supply by means of suction or vacuum supplied by a fire truck or other portable pumping device.

(dd) “Field inspection” means that for the purpose of issuing a certificate of appropriation pursuant to K.S.A. 82a-714 and amendments thereto, the chief engineer conducts a test of the rate of diversion of the diversion works under the normal and maximum conditions that the diversion works actually applied water to beneficial use during the perfection period. The chief engineer also collects all other information necessary to prepare a certificate, including the following:

(1) A description of the location and size of the place where water was actually applied to beneficial use during the perfection period in accordance with the terms, conditions, and limitations of the approval of application;

(2) information on the quantity and rate of water that was applied to the authorized use during the perfection period; and

(3) the actual location of the point or points of diversion from which water was diverted in accordance with the terms, conditions, and limitations of the approval of application.

(ee) “Fire protection” means the use of water for fire protection by a fire department for public protection in general.

(ff) “Fish farming” means the controlled cultivation and harvest of aquatic animals.

(gg) “Flow-straightening vanes” means vanes, or any other devices installed at the upstream throat of a measuring chamber for the purpose of aligning all velocity components of flow parallel with

the flow in the measuring chamber at the water flowmeter sensor location.

(hh) “Full irrigation” means the application of water to crops during the growing season. Full irrigation shall include water for preirrigation.

(ii) “Groundwater” means water below the surface of the earth.

(jj) “Growing season” means the average frost-free period of the year.

(kk) “Household purposes” means the use of water by a person for cooking, cleaning, washing, bathing, human consumption, rest room facilities, fire protection, and other uses normally associated with the operation of a household.

(1) “Fire protection” shall be considered to be use of water for “household purposes” if either of the following conditions is met:

(A) Water is available from a “dry hydrant” that has been installed on a pond located within 1,000 feet of the residence.

(B) Water can be pumped from a well located within 1,000 feet of the residence for fire protection.

(2) Household purposes shall also include the replacement of the potential net evaporation from a domestic pond of up to ½ acre in surface area if both of the following conditions are met:

(A) The pond is utilized for aesthetic purposes as an integral part of the landscaping of a house.

(B) Any portion of the pond is located within 300 feet of the closest edge of the house.

(3) The maximum reasonable annual quantity of groundwater that may be pumped into a pond to be withdrawn later for domestic fire protection shall not exceed 0.06 acre-feet plus the average annual potential net evaporation for a pond at that location in the state having a surface area of 0.2 of an acre.

(4) Household purposes shall also include the use of 1½ acre-feet of water or less per calendar year by an industrial user, restaurant, hotel, motel, church, camp, correctional facility, educational institution, or similar entity for household purposes.

(ll) “Hydraulic dredging” means the removal of saturated aggregate from a stream channel, pit, or quarry by means of hydraulic suction and the pumping of the aggregate and water mixture as a slurry to a location where at least 95 percent of the water returns directly to the source of supply.

(mm) “Immediate vicinity,” as used in specifying the place of use for a water right in which the water is authorized to be used for municipal purposes, means within 2,640 feet of the corporate

limits of the municipality, rural water district, or other entity.

(nn) “In compliance” means that a water flowmeter does not meet any of the criteria of K.A.R. 5-1-9 for being out of compliance.

(oo) “Index level” means elevations established spatially throughout a basin storage area to be used to represent the maximum volume of a basin storage area, and storage available for recovery based upon accounting methodology, and conditions of the permit.

(pp) “Indirect use” means the total of the seepage loss and the average annual potential net evaporation loss from the surface of water originally impounded in a reservoir for beneficial use.

(qq) “Industrial use” means the use of water in connection with the manufacture, production, transport, or storage of products, or the use of water in connection with providing commercial services, including water used in connection with steam electric power plants, greenhouses, fish farms, poultry operations that are not incidental to the operation of a traditional farmstead pursuant to K.S.A. 82a-701(c) and amendments thereto, secondary and tertiary oil recovery, air conditioning, heat pumps, equipment cooling, and all uses of water associated with the removal of aggregate for commercial purposes except the following:

(1) The evaporation caused by exposing the groundwater table or increasing the surface area of a stream, lake, pit, or quarry by excavation or dredging, unless the evaporation has a substantially adverse impact on the area groundwater supply; and

(2) hydraulic dredging.

(rr) “Irrigation use” means the use of water for the following:

(1) The growing of crops;

(2) the watering of gardens, orchards, and lawns exceeding two acres in area; and

(3) the watering of golf courses, parks, cemeteries, athletic fields, racetrack grounds, and similar facilities.

(ss) “Maximum index level” means the maximum elevation for storage within a basin storage area or, if the basin storage area is subdivided, a smaller subdivided area.

(tt) “Measuring chamber” means a cylindrical chamber in which a water flowmeter is installed that is calibrated to match the measuring element of the water flowmeter and the nominal size of the pipe in which it is installed.

(uu) “Minimum index level” means 20 feet above the bedrock elevation or an alternatively

proposed minimum elevation for storage within a basin storage area or, if the basin storage area is subdivided, a smaller subdivided area.

(vv) “Municipal use” means the various uses made of water delivered through a common distribution system operated by any of the following:

(1) A municipality;

(2) a rural water district;

(3) a water district;

(4) a public wholesale water supply district;

(5) any person or entity serving 10 or more hookups for residences or mobile homes; or

(6) any other similar entity distributing water to other water users for various purposes.

Municipal use shall also include the use of water by restaurants, hotels, motels, churches, camps, correctional facilities, educational institutions, and similar entities using water that does not qualify as a domestic use.

(ww) “Nonvolatile memory” means the ability of a water flowmeter to retain the values stored in the mechanical or electronic memory if all power, including backup battery power, is removed.

(xx) “Normal operating range” means the range of flow rates for which the water flowmeter will meet the accuracy requirements of K.A.R. 5-1-4 (a), as certified by the water flowmeter manufacturer.

(yy) “Off-season irrigation” means the application of water to land for the purpose of storing moisture in the soil for future use by a crop that will not be irrigated during the growing season.

(zz) “Operator,” as used in the regulation of sand and gravel pits, means any person who engages in mining sand or gravel, or both.

(aaa) “Perennial stream” means a stream, or part of a stream, that normally flows during all of the calendar year, except during a drought.

(bbb) “Perfect” means the actions taken by a water user to develop an approval of application into a water right. These actions shall consist of the completion of the diversion works and the actual application of water to the authorized beneficial use in accordance with the terms, conditions, and limitations of the approval of application.

(ccc) “Point of diversion” means the point at which water is diverted or withdrawn from a source of water supply.

(ddd) “Point of diversion of a dewatering site” means the geographic center of the area from which water is temporarily removed to lower the static water level or streamflow to allow one construction project or one excavation to take place. Each one-quarter linear mile of construc-

tion trench, or part thereof, shall have at least one point of diversion.

(eee) "Point of diversion of a remediation site" means the geographic center of the area from which water is being removed to be treated or injected into a single disposal well.

(fff) "Point of diversion for storage of surface water in a reservoir created by a dam" means the point at which the longitudinal axis of the dam crosses the centerline of the stream impounded by the reservoir.

(ggg) "Potential annual runoff" means the mean annual runoff for the watershed of the reservoir.

(hhh) "Preirrigation" means the application of water to the land for a crop before planting to ensure adequate moisture for early plant growth.

(iii) "Primary well" means a well for which a standby well is available.

(jjj) "Prior right" means a vested right, an appropriation right with earlier priority, or a permit with earlier priority than that of a subsequent appropriation right or permit.

(kkk) "Proven reserves" means extractable sand and gravel deposits for which good estimates of the quantity and quality have been made by various means, including core drilling.

(lll) "Recharge" means the natural infiltration of surface water or rainfall into an aquifer from its catchment area.

(mmm) "Recharge credit" means the quantity of water that is stored in the basin storage area and that is available for subsequent appropriation for beneficial use by the operator of the aquifer storage and recovery system.

(nnn) "Recreation storage" means the storage and use of water within the reservoir for recreational use as defined in this regulation. Water stored for recreational use in a reservoir shall be considered to be an indirect use of water.

(ooo) "Recreational use" means a use of water in accordance with a water right that provides entertainment, enjoyment, relaxation, and fish and wildlife benefits.

(ppp) "Rediversion of water" means releasing or withdrawing water that had been previously impounded behind a dam, levee, or similar type of structure, by use of a pump, outlet tube, headgate, or similar type of device, and the application of the water directly to beneficial use.

(qqq) "Register" means an integral or remote device that displays the quantity of water passing the water flowmeter sensor and is part of the water flowmeter.

(rrr) "Remediation site" means the geographic area where contamination is being removed from groundwater.

(sss) "Reservoir" means the area upstream from a dam that contains, or will contain, impounded water.

(ttt) "Reservoir capacity" means the volume of water that can be stored below the lower of either of the following:

(1) The elevation of the principal spillway tube; or

(2) the lowest uncontrolled spillway in the reservoir.

(uuu) "Reservoir having a total water volume of less than 15 acre-feet," as used in K.S.A. 82a-728 and amendments thereto, means a reservoir having a capacity of 15 acre-feet or less as measured at the principal spillway tube or the lowest uncontrolled spillway, whichever is lower.

(vvv) "Safe yield" means the long-term sustainable yield of the source of supply, including hydraulically connected surface water or groundwater.

(www) "Sand and gravel pit operation" means a project that meets the following conditions:

(1) Excavates overburden for mining sand or gravel, or both, exposing the underlying groundwater table to evaporation; and

(2) has a perimeter equal to or greater than its depth.

(xxx) "Sediment control in a reservoir" means a beneficial use of water that meets both of the following criteria:

(1) The water is stored in a reservoir that has no other authorized type of beneficial use, except domestic use.

(2) The water is stored only in the part of the reservoir designed and constructed for the storage of sediment.

(yyy) "Source water" means water used for artificial recharge that meets the following conditions:

(1) Is available for appropriation for beneficial use;

(2) is above base-flow stage in the stream;

(3) is not needed to satisfy minimum desirable streamflow requirements; and

(4) will not degrade the ambient groundwater quality in the basin storage area.

(zzz) "Specialty crop" means a crop other than a normal Kansas field crop. This term shall include turf grass, trees, vegetables, ornamentals, and other similar crops.

(aaaa) "Standby well" means a well that can withdraw water from the same source of supply

as the primary well and that is used only when water is temporarily unavailable from the primary well or wells authorized to be used on the same place of use because of mechanical failure, maintenance, or power failure. A standby well may also be used for fire protection or a similar type of emergency.

(bbbb) “Static water level” means the depth below land surface at which the top of the groundwater is found when not affected by recent pumping.

(cccc)(1) “Stockwatering” means the watering of livestock and other uses of water directly related to either of the following:

(A) The operation of a feedlot with the capacity to confine 1,000 or more head of cattle; or

(B) any other confined livestock operation or dairy that would divert 15 or more acre-feet of water per calendar year.

(2) Stockwatering shall not include the irrigation of feed grains or other crops.

(3) For the purposes of this subsection, a group of feedlots or other confined feeding operations shall be considered to be one feedlot or confined feeding operation if both of these conditions are met:

(A) There are common feeding or other physical facilities.

(B) The group of facilities is under common management.

(dddd) “Straight pipe” means a straight length of pipe free of all internal obstructions, including size changes, valves, cooling coils, injection ports, sand or foreign material, and any other condition that would cause a disturbance of the internal velocity profile in the pipe. Internal obstructions shall not include properly designed, constructed, and installed straightening vanes and inspection ports.

(eeee) “Stream channel aquifer” means unconsolidated water-bearing deposits in river valleys, flood plains, and terraces that are separate and distinct from any other aquifer and capable of yielding water in sufficient quantities for beneficial use.

(ffff) “Surface water” means water in creeks, rivers, or other watercourses and in reservoirs, lakes, and ponds.

(gggg) “Term permit” means a permit to appropriate water that is issued for a specified period of time and exceeds the criteria for a temporary permit specified in K.S.A. 82a-727, and amendments thereto, and K.A.R. 5-9-3 through K.A.R. 5-9-5. At the end of the specified time, or any authorized extension approved by the chief engineer, the

term permit shall be automatically dismissed, and any priority it may have had shall be forfeited.

(hhhh) “The production and return of saltwater in connection with the operation of oil and gas wells in accordance with the written approval granted therefor by the Kansas corporation commission pursuant to K.S.A. 55-901, and amendments thereto” means only that saltwater actually produced during the primary production of oil and gas wells and shall not include the following:

(1) Saltwater used in the drilling of an oil and gas well; and

(2) saltwater injected into an enhanced recovery injection well, unless that saltwater was produced in the primary production of the oil and gas well, separated from the oil and gas, and then subsequently reinjected.

(iiii) “Thermal exchange” means the use of water for climate control in a nondomestic building and in a manner that is essentially nonconsumptive to the source of supply.

(jjjj) “Totalizer” means the mechanical or electronic portion of the register that displays the total quantity of water that has passed the water flow-meter sensor.

(kkkk) “Unconfined Dakota aquifer system” means that portion of the Dakota aquifer system not overlain by a confining layer in which the aquifer is in equilibrium with atmospheric pressure.

(llll) “Unconsolidated regional aquifer” means a body of mostly unconsolidated and heterogeneous water-bearing deposits that are hydraulically and geologically contiguous and are capable of yielding water in sufficient quantities for beneficial use.

(mmmm) “Waste of water” means any act or omission that causes any of the following:

(1) The diversion or withdrawal of water from a source of supply that is not used or reapplied to a beneficial use on or in connection with the place of use authorized by a vested right, an appropriation right, or an approval of application for a permit to appropriate water for beneficial use;

(2) the unreasonable deterioration of the quality of water in any source of supply, thereby causing impairment of a person’s right to the use of water;

(3) the escaping and draining of water intended for irrigation use from the authorized place of use; or

(4) the application of water to an authorized beneficial use in excess of the needs for this use.

(nnnn) “Waterpower use” means the use of falling water for hydroelectric or hydromechanical power.

(oooo) “Water balance” means the method of determining the amount of water in storage in a basin storage area by accounting for inflow to, outflow from, and changes in storage in that basin storage area.

(pppp) “Water flowmeter” means the combination of a flow-sensing device, measuring chamber, integral or remote display device or register, and any connecting parts required to make a working assemblage to measure, record, and allow determination of flow rate and total quantity of water flowing past the water flowmeter sensor.

(qqqq) “Water storage device” means a reservoir, elevated water tank, pressurized water tank, including a bladder tank, or other container into which water is pumped and stored before beneficial use.

(rrrr) “Water use correspondent” means a person designated in writing, on a form prescribed by the chief engineer, by one of the owners of a water right to file the water use reports required by K.S.A. 82a-732 and amendments thereto, on behalf of the owner or owners of that water right. (Authorized by and implementing K.S.A. 82a-706a; modified, L. 1978, ch. 460, May 1, 1978; amended May 1, 1980; amended May 1, 1981; amended May 1, 1983; amended May 1, 1986; amended Dec. 3, 1990; amended May 31, 1994; amended Sept. 22, 2000; amended Oct. 24, 2003; amended Oct. 31, 2008; amended April 29, 2016.)

5-1-4. Water flowmeter specifications. (a) Each water flowmeter required by the chief engineer, or required pursuant to a regulation adopted by the chief engineer, on or after the effective date of this regulation shall meet the following minimum requirements:

(1)(A) The water flowmeter has been certified by the manufacturer to register neither less than 98 percent nor more than 102 percent of the actual volume of water passing the water flowmeter when installed according to the manufacturer’s instructions. This requirement shall be met throughout the water flowmeter’s normal operating range without further adjustment or calibration.

(B) The manufacturer has certified to the chief engineer that it has an effective quality assurance program, including wet testing a random sample of production line water flowmeters with water flowmeter test equipment. The minimum number of samples to be tested shall be determined using a confidence interval of 90 percent, an expected

compliance of 95 percent, and an acceptable error of two percent. The minimum number of samples of each model that shall be tested shall be calculated by multiplying 1,300 times the annual production of that model of water flowmeter divided by Q. Q equals four times the annual production of that water flowmeter plus 1,300.

(C) The manufacturer has certified that the water flowmeter test equipment described in paragraph (a)(1)(B) has been tested annually and found accurate by standards traceable to the national institute of standards and technology (NIST). Documentation of the testing required in paragraphs (a)(1)(A) and (B) shall be maintained by the manufacturer for a period of at least five years and shall be made available to the chief engineer upon request during normal business hours.

(2) The water flowmeter shall be designed and constructed so that it will meet the following criteria:

(A) Maintain the accuracy required by the chief engineer in paragraph (a)(1)(A) through (C) and K.A.R. 5-1-9(a)(1);

(B) be protected by the following:

(i) A seal installed by the manufacturer or an authorized representative of the manufacturer; or

(ii) a way that makes it impossible to alter the totalizer reading without breaking the seal or obtaining the authorization of the manufacturer, an authorized representative of the manufacturer, or the chief engineer;

(C) clearly indicate the direction of water flow;

(D) clearly indicate the serial number of the water flowmeter;

(E) have a weatherproof register that is sealed from all water sources;

(F) have a register that is readable at all times, whether the system is operating or not;

(G) be able to be sealed by an authorized representative of the chief engineer to prevent unauthorized manipulation of, tampering with, or removal of the water flowmeter;

(H) be equipped with a manufacturer-approved measuring chamber through which all water flows. Except for positive displacement water flowmeters, full-bore electromagnetic water flowmeters, and multijet water flowmeters, flow-straightening vanes shall be installed at the upstream throat of the water flowmeter chamber. The flow-straightening vanes shall meet either of the following criteria:

(i) Be designed and installed by the manufacturer, or an authorized representative of the manufacturer; or

(ii) consist of at least three vanes that are longer, when placed parallel to the length of the pipe, than the inside diameter of the pipe, are equally spaced radially on the inner periphery of the pipe, and are wider in diametrical distance than one-fourth of the inside diameter of the pipe;

(I) be equipped with an inspection port if the straightening vanes are not designed, constructed, and installed by the manufacturer or an authorized representative of the manufacturer. The port shall be of sufficient size and placement to allow determination of the following:

(i) The proper installation of the flow-straightening vanes; and

(ii) the inside diameter of the pipe in which the water flowmeter sensor is installed;

(J) remain operable without need for recalibration to maintain accuracy throughout the operating life of the water flowmeter; and

(K) have a totalizer that meets the following criteria:

(i) Is continuously updated to read directly only in acre-feet, acre-inches, or gallons;

(ii) has sufficient capacity, without cycling past zero more than once each year, to record the quantity of water diverted in any one calendar year;

(iii) reads in units small enough to discriminate the annual water use to within the nearest 0.1 percent of the total annual permitted quantity of water;

(iv) has a dial or counter that can be timed with a stopwatch over not more than a 10-minute period to accurately determine the rate of flow under normal operating conditions; and

(v) has a nonvolatile memory.

(3) Each water flowmeter that is required to be installed by the chief engineer, or that was required to be installed as a condition of either an approval of application or an order of the chief engineer, or pursuant to a regulation adopted by the chief engineer before the effective date of this regulation, shall meet the following minimum specifications:

(A) Each water flowmeter shall be of the proper size, pressure rating, and style, and shall have a normal operating range sufficient to accurately measure the water flow passing the water flowmeter under normal operating conditions.

(B) Each water flowmeter shall meet the accuracy requirements of K.A.R. 5-1-9(a)(1). If the water flowmeter does not meet the accuracy requirements of K.A.R. 5-1-9(a)(1), then the water flowmeter shall meet either of the following criteria:

(i) Be repaired so that it meets the accuracy requirements of K.A.R. 5-1-9(a)(1); or

(ii) be replaced with a water flowmeter meeting all of the requirements of K.A.R. 5-1-4 and installed in a manner that meets the requirements of K.A.R. 5-1-6.

(b) A water flowmeter installed in the diversion works or a distribution system for a water right authorized for municipal use shall not be subject to the requirements of paragraph (a)(2)(B) if an accurate record of water use can be determined by readings from at least one alternate water flowmeter in the same diversion works or distribution system. (Authorized by K.S.A. 82a-706a; implementing K.S.A. 82a-706a and K.S.A. 82a-706c; effective Sept. 22, 2000; amended Oct. 24, 2003; amended May 21, 2010.)

5-1-9. Criteria to determine when a water flowmeter is out of compliance. (a) A water flowmeter shall be considered to be out of compliance if any of the following criteria is met:

(1) The water flowmeter registers less than 94 percent or more than 106 percent of the actual volume of water passing the water flowmeter. If necessary, this determination may be made by a field test conducted by, or approved by, the chief engineer.

(2) The seal placed on the totalizer by the manufacturer or the manufacturer's authorized representative has been broken, or the totalizer value has been reset or altered without the authorization of the manufacturer, an authorized representative of the manufacturer, or the chief engineer.

(3) A seal placed on the water flowmeter or totalizer by the chief engineer has been broken.

(4) The water flowmeter register is not visible or is unreadable for any reason.

(5) There is not full pipe flow through the water flowmeter.

(6) Flow-straightening vanes have not been properly designed, manufactured, and installed.

(7) The water flowmeter is not calibrated for the nominal size of the pipe in which the flowmeter is installed.

(8) The water flowmeter is not installed in accordance with the manufacturer's installation specifications. However, five diameters of straight pipe above the water flowmeter sensor and two diameters below the water flowmeter sensor shall be the minimum spacing, regardless of the manufacturer's installation specifications.

(9) A water flowmeter is installed at a location at which the flowmeter does not measure all of the water diverted from the source of supply.

(b) A water flowmeter installed in the diversion works or a distribution system for a water right authorized for municipal use shall not be subject to the requirements of paragraphs (a)(2) and (3) if an accurate record of water use can be determined by readings from at least one alternate water flowmeter in the same diversion works or distribution system. (Authorized by K.S.A. 82a-706a; implementing K.S.A. 82a-706a and K.S.A. 82a-706c; effective Sept. 22, 2000; amended Oct. 24, 2003; amended May 21, 2010.)

Article 3.—APPROPRIATION RIGHTS

5-3-4a. Hearing before issuance of an order. (a) A hearing may be held pursuant to K.A.R. 5-14-3a by the chief engineer, or a person designated by the chief engineer, before the chief engineer issues an order if one of the following conditions is met:

(1) The chief engineer finds it to be in the public interest to hold a hearing.

(2) A hearing has been requested by a person who shows to the satisfaction of the chief engineer that approval of the application could cause impairment of senior water rights or permits.

(3) The chief engineer desires public input on the matter.

(b) The hearing shall be electronically recorded by the chief engineer.

(c) If all of the parties agree, an informal conference instead of a hearing may be held by the chief engineer pursuant to K.A.R. 5-14-3a. (Authorized by K.S.A. 82a-706a; implementing K.S.A. 82a-706a, K.S.A. 2008 Supp. 82a-708b, 82a-711, and 82a-737; effective May 1, 1980; amended May 31, 1994; amended March 20, 2009.)

5-3-6a. Sealing diversion works. (a) If the chief engineer or any authorized representative has reasonable cause to believe that any person has failed to obey an order or a notice and directive of the chief engineer to cease and desist from operating a diversion works, the chief engineer or authorized representative may place a seal, or a chain and padlock, on the diversion works or any part of the diversion works in a manner that renders the diversion works inoperable without breaking the seal, chain, or padlock.

(b) The chief engineer or any authorized representative may place a seal on any water flowmeter

or measuring chamber in a manner that prevents removal of the water flowmeter from the measuring chamber and prevents access to the internal working parts of the water flowmeter without breaking the seal. The seal may include a bolt, chain, lock, or any combination of these, or any other mechanism.

(c) For purposes of this regulation, “authorized representative” shall include any employee of the division or a groundwater management district that has been delegated this authority by the chief engineer in writing. (Authorized by K.S.A. 82a-706a; implementing K.S.A. 82a-706a, K.S.A. 2016 Supp. 82a-706b and K.S.A. 82a-706c; effective May 1, 1980; amended March 17, 2017.)

5-3-23. Maximum reasonable annual quantity approvable for irrigation use for an application for change in place of use and a request to reduce a water right; exceptions.

(a) Except as provided in subsections (c), (d), and (e), for water rights with a priority date before September 22, 2000, the maximum reasonable annual quantity of water that may be approved for either of the following shall be that quantity of water reasonably necessary to irrigate crops in the region of the state where the proposed place of use is located as specified in K.A.R. 5-3-19(a):

(1) An application for change in place of use for irrigation filed pursuant to K.S.A. 82a-708b and amendments thereto; or

(2) a request to reduce the authorized place of use for irrigation for a water right filed pursuant to K.A.R. 5-7-5.

(b) Except as provided in subsections (c), (d), and (e), for water rights with a priority date on or after September 22, 2000, the maximum reasonable annual quantity of water that may be approved for either of the following shall be that quantity of water reasonably necessary to irrigate crops in the region of the state where the proposed place of use is located as specified in K.A.R. 5-3-19(b):

(1) An application for change in place of use for irrigation filed pursuant to K.S.A. 82a-708b and amendments thereto; or

(2) a request to reduce the authorized place of use for a water right filed pursuant to K.A.R. 5-7-5.

(c) The maximum reasonable quantities approvable in subsections (a) and (b) shall not exceed either of the following:

(1) The applicable quantity specified in either subsection (a) or (b); or

(2) the maximum quantity of acre-feet per acre authorized by the vested water right or certificate of appropriation, whichever is greater. The maximum authorized quantity of acre-feet per acre shall be calculated by dividing the maximum annual quantity of water authorized when the application for change or request to reduce is filed by the number of acres authorized when the application for change is filed.

(d) The quantities specified in subsections (a), (b), and (c) may be exceeded only if the applicant demonstrates to the chief engineer that the requested quantity is reasonable for the intended irrigation use, is not wasteful, and will not otherwise prejudicially and unreasonably affect the public interest and if either of the following conditions is met:

(1) Because of specialty crops or other unusual conditions, the quantity specified in K.A.R. 5-3-19(a) is insufficient.

(2) A request for reduction of the authorized place of use is made for a water right located in both the Rattlesnake Creek Subbasin and the Big Bend Groundwater Management District Number Five to comply with the agriculture water enhancement program and both of the following conditions are met:

(A) The reduction of the authorized place of use will lead to an overall reduction in water use.

(B) The reduction of the authorized place of use pursuant to paragraph (d)(2) requires the approval of any future reduction or change to a water right so reduced to meet the requirements in subsections (a), (b), (c), and (e) of this regulation and in K.A.R. 5-5-11.

(e) The maximum annual quantity of water approved pursuant to this regulation shall not exceed the maximum annual quantity of water authorized by the water right when the change application is approved. (Authorized by K.S.A. 82a-706a; implementing K.S.A. 2009 Supp. 82a-707(e) and K.S.A. 2009 Supp. 82a-708b; effective Sept. 22, 2000; amended, T-5-8-16-10, Aug. 16, 2010; amended Nov. 19, 2010.)

Article 4.—DISTRIBUTION OF WATER BETWEEN USERS

5-4-1. Distribution of water between users when a prior right is being impaired. In responding to a complaint that a prior water right is being impaired, the following procedure shall be followed:

(a) Complaint. The complaint shall be submitted in writing to the chief engineer or that person's authorized representative. The chief engineer shall take no action until the written complaint is submitted and, for non-domestic groundwater rights, the information specified in paragraph (b)(2) is provided.

(b) Investigation. The chief engineer shall investigate the physical conditions involved, according to the water rights involved in the complaint.

(1) If the water right is domestic, the chief engineer may require the complainant to provide a written report similar to that described in paragraph (b)(2).

(2) If the water right claimed to be impaired is not a domestic right and its source of water is groundwater, the complainant shall provide to the chief engineer a written report completed within 180 days preceding the date of the complaint. Within 30 days of the complainant's request, the chief engineer shall provide the complainant with data from the division of water resources that is relevant to preparation of the required report. The complainant's report shall meet the following requirements:

(A) Be prepared by a licensed well driller, a professional engineer, or a licensed geologist;

(B) describe the construction and the components of the well;

(C) provide data to show the extent to which the well has fully penetrated the productive portions of the aquifer with water of acceptable quality for the authorized use; and

(D) provide testing and inspection data to show the extent to which the pump and power unit are in good working condition to make full use of the available aquifer.

(3) In assessing the complainant's written report, the chief engineer may use all relevant data, including historical data from water well completion records, Kansas geological survey bulletins, and other data in the water right files.

(4) If the area of complaint is located within the boundaries of a groundwater management district (GMD), the chief engineer shall notify the GMD of the complaint before initiating the investigation and shall give the board of directors of the GMD the opportunity to assist with the investigation.

(5) If the source of water is groundwater, the chief engineer may require hydrologic testing to determine hydrological characteristics as part of the investigation. The chief engineer shall provide notice to water right owners in a geographic area

sufficient to conduct the hydrologic testing and to determine who could be affected by the actions made necessary by the results of the investigation. These water right owners shall be known as the potentially affected parties. As part of the investigation, the chief engineer may require access to points of diversion or observation wells and may require the installation of observation wells.

(6) Data acquired during the investigation shall be provided to the complainant and any other persons notified for review and comment at their request as the investigation proceeds.

(c) Report. The chief engineer shall issue a report stating the relevant findings of the investigation.

(1) If the complainant's water right is a domestic water right or has surface water as its source and the complainant claims impairment by the diversion of water pursuant to surface rights, the chief engineer shall provide a copy of the report to the complainant and to the potentially affected parties. This report shall constitute the final report of the investigation.

(2) If the complainant's water right is not a domestic right and has groundwater as its source or if the complainant's water right has surface water as its source and claims impairment by the diversion of water pursuant to groundwater rights, a copy of the report shall be provided by the division of water resources to the complainant and to the potentially affected parties. The report shall be posted by the division of water resources on the department of agriculture's web site. This report shall constitute the initial report of the investigation.

(A) If the initial report shows impairment, the potentially affected parties shall have the opportunity to submit written comments on the initial report within 30 days of its posting on the department's web site or a longer period if granted by the chief engineer. The chief engineer shall consider the written comments of the potentially affected parties.

(B) If the area of complaint is located within the boundaries of a GMD, the chief engineer shall provide a copy of the initial report to the GMD and shall consider any written comments submitted by the GMD board within 30 days of the posting of the initial report on the department's web site or a longer period if granted by the chief engineer.

(C) Nothing in this regulation shall prevent the chief engineer from regulating water uses that the chief engineer has determined are directly im-

pairing senior water rights during the comment period or, if applicable, before obtaining written comments by the GMD board during the comment period.

(3) After reviewing comments on the initial report from potentially affected parties and, if applicable, from the GMD board, the chief engineer shall issue a final report, which shall be provided to the complainant, the potentially affected parties, and the GMD board if applicable and shall be posted on the department of agriculture's web site.

(4) The chief engineer may require conservation plans authorized by K.S.A. 82a-733, and amendments thereto, based on the initial and final reports.

(5) If the chief engineer's final report determines impairment and the source of water is a regional aquifer, the final report shall determine whether the impairment is substantially caused by a regional overall lowering of the water table. If the impairment is determined to be substantially caused by a regional overall lowering of the water table, no further action shall be taken under this regulation, and the procedure specified in K.A.R. 5-4-1a shall be followed.

(d) Request to secure water. If the complainant desires the chief engineer to regulate water rights that the final report has found to be impairing the complainant's water right, the complainant shall submit a written request to secure water to satisfy the complainant's prior right. The request to secure water shall be submitted on a prescribed form furnished by the division of water resources. The complainant shall specify the minimum reasonable rate needed to satisfy the water right and shall also provide information substantiating that need. The chief engineer shall determine how to regulate the impairing rights. Each request to secure water to satisfy irrigation-use water rights shall expire at the end of the calendar year in which the request was submitted.

(e) Notice of order.

(1) The chief engineer shall give a written notice and directive to those water right holders whose use of water must be curtailed to secure water to satisfy the complainant's prior rights.

(2) If the area of complaint is located within the boundaries of a GMD and if the final report determines that the impairment is substantially due to direct interference, the chief engineer shall allow the GMD board to recommend how to regulate the impairing water rights to satisfy the impaired right.

(3) The chief engineer may consider regulating the impairing rights the next year and rotating water use among rights.

(4) All water delivered to the user's point of diversion for that individual's use at the specified rate or less shall be applied to the authorized beneficial use and shall count against the quantity of water specified unless the user notifies the chief engineer or authorized representative that diversion and use will be discontinued for a period of time for good reason.

(5) When the quantity of water needed has been delivered to the user's point of diversion or when the user discontinues that individual's use of water, those persons who have been directed to regulate their use shall be notified that they may resume the diversion and use of water.

(6) If the available water supply in the source increases, the chief engineer may allow some or all of the regulated users to resume use, depending on the supply. (Authorized by and implementing K.S.A. 82a-706a; modified, L. 1978, ch. 460, May 1, 1978; amended Oct. 29, 2010.)

5-4-1a. Distribution of water between users when a prior right is being impaired due to a regional lowering of the water table. (a) When a complaint is received that a prior right to the use of water is being impaired, the procedure specified in K.A.R. 5-4-1 shall be followed until the determination is made that the impairment is caused substantially by a regional lowering of the water table.

(b)(1) If the area of complaint is located within the boundaries of a groundwater management district (GMD), the GMD board shall recommend the steps necessary to satisfy senior water rights. Recommendations may include following the GMD management program, amending the GMD management program, or pursuing any other means to satisfy senior water rights. The GMD board shall submit its recommendations to the chief engineer within six months of the determination that the impairment is caused substantially by a regional lowering of the water table or within a longer time if approved by the chief engineer.

(2) The GMD board shall publish notice of its recommendations once in a newspaper of general circulation in the county where the impairment is occurring.

(3) The chief engineer shall determine the appropriate course of action to satisfy senior water rights. To that end, the chief engineer shall con-

sider the GMD's timely recommendations and may conduct a study similar to that described in paragraph (c)(1).

(4) The chief engineer shall publish notice of the course of action once in a newspaper of general circulation in the county where the impairment is occurring.

(c)(1) If the area of complaint is located outside the boundaries of a GMD and determined to be caused by a regional lowering of the water table, the chief engineer shall conduct a study to determine the appropriate course of action. The study shall include a determination of the effectiveness and economic impact of administering one or more water rights in accordance with K.A.R. 5-4-1, the effectiveness and economic impact of the types of corrective controls listed under K.S.A. 82a-1038 and amendments thereto, and any other means to satisfy senior water rights while preserving the economic vitality of the region.

(2) The chief engineer shall determine the appropriate course of action, based on the study described in paragraph (c)(1).

(3) The chief engineer shall publish notice of the course of action once in a newspaper of general circulation in the county where the impairment is occurring. (Authorized by and implementing K.S.A. 82a-706a; effective Oct. 29, 2010.)

Article 5.—CHANGE IN THE PLACE OF USE, THE POINT OF DIVERSION OR THE USE MADE OF WATER UNDER AN EXISTING WATER RIGHT

5-5-9. Approval of application for change in the use made of water from irrigation to any other type of beneficial use of water. (a) The approval of a change in the use made of water from irrigation to any other type of beneficial use of water shall not be approved if the change will cause the net consumptive use from the local source of water supply to be greater than the net consumptive use from the same local source of water supply by the original irrigation use based on the following requirements:

(1) The maximum annual quantity of water to be allowed by the approved change shall be the authorized quantity of the water right multiplied by the consumptive use percentage specified for the county within which the change is approved, as shown on the department's map titled "consumptive use percentages in Kansas, by county," dated August 3, 2017 and hereby adopted by reference.

(2) In determining whether the net consumptive use of water will be increased by the proposed change in the use made of water, the applicant shall be given credit by the chief engineer for any return flows from the proposed type of beneficial use of water that will return to the same local source of supply as the return flows from the originally authorized type of beneficial use of water, as substantiated by the applicant to the satisfaction of the chief engineer by an engineering report or similar type of hydrologic analysis.

(3) The authorized quantity to be changed to the new type of beneficial use of water shall never exceed the maximum annual quantity authorized by the water right.

(4) If a water right that overlaps the authorized place of use of one or more other water rights, either in whole or in part, is being changed to a different type of beneficial use of water, the total net consumptive use of all water rights after the change is approved shall not exceed the total net consumptive use of all of the rights before the change is approved.

(5) The approval for a change in the use made of water shall also be limited by that quantity reasonable for the use proposed by the change in the use made of water in order to prevent waste pursuant to K.A.R. 5-1-1.

(b) Upon request of the applicant, the historic net consumptive use actually made during the perfection period, or before June 28, 1945 for vested rights, under the water right proposed to be changed shall be considered by the chief engineer. The burden shall be on the owner to document that historic net consumptive use with an engineering study, or equivalent documentation and analysis, and demonstrate to the satisfaction of the chief engineer that the analysis submitted by the applicant is a more accurate estimate of the historic net consumptive use than the net consumptive use calculated using the methodology specified in paragraph (a)(1).

(c) If the methods specified in subsection (a) produce an authorized annual quantity of water that could result in impairment of other water rights, the chief engineer shall make a site-specific net consumptive use analysis to determine the quantity of water that was actually beneficially consumed under the water right. If the water right is within a groundwater management district and the district has additional site-specific data available, the data may be submitted to the chief engineer for consideration. The quantity ap-

proved shall be limited to the quantity determined to be reasonable by the chief engineer's analysis.

(d) A term permit that would increase the consumptive use of the water right or would otherwise circumvent the limits specified in this regulation shall not be issued to any applicant. (Authorized by K.S.A. 82a-706a; implementing K.S.A. 2016 Supp. 82a-708b; effective Nov. 28, 1994; amended Sept. 22, 2017.)

5-5-10. Partial changes in the use made of water from irrigation to another type of beneficial use of water. (a) If an irrigation right is to be divided and only a portion of the rate and quantity will be changed to a different beneficial use of water, only that portion of the annual quantity of the water right being changed to a different type of beneficial use of water shall be reduced as necessary to prevent the net consumptive use from increasing.

(b) The authorized place of use for the irrigation right may be reduced in proportion to the reduction in annual quantity caused by the change. If the irrigator wants to retain more than that person's proportional allotment of acres after the change, the procedures specified in K.A.R. 5-5-11(b)(2)(B)(ii) shall be followed to determine whether the irrigator shall be allowed to retain more acreage.

(c) The authorized rate of diversion shall be divided between the irrigation use and the non-irrigation use. Each reasonable division of the rate by the parties shall be approved. A reasonable division of the rate shall be based on the actual rate of withdrawal at the time of the application and the existing physical conditions of the water source at the time of the application. The division of the maximum rate of diversion shall not be required to be proportional to the division of the quantity if the division of the rate of diversion is reasonable to divert each portion of the annual quantity of water after the division of the water right is made.

(d) The division of the annual quantity shall be calculated as follows:

(1) Calculate the maximum quantity that could be changed to another type of beneficial use of water if the entire water right were changed pursuant to K.A.R. 5-5-9(a)(1).

(2) Divide the annual quantity sought to be changed to the new beneficial use of water by the maximum quantity that could be changed if the entire water right were changed. The result shall be the percentage of the entire reduced water

right that will be changed to the new beneficial use of water. The remaining percentage of the current water right may be retained by the irrigation water right owner.

(3) Multiply the remaining percentage times the total currently authorized quantity. The result shall be the annual quantity of water that may be retained by the irrigation water right owner. (Authorized by K.S.A. 82a-706a; implementing K.S.A. 2016 Supp. 82a-708b; effective Nov. 28, 1994; amended Sept. 22, 2017.)

5-5-16. Additional wells. (a) An application to change a point of diversion by adding an additional point of diversion to divert groundwater, by either constructing a new well or moving a portion of a water right to a well that has previously been authorized by the chief engineer, shall not be approved unless the application meets the following requirements:

(1) Each proposed point of diversion shall meet the requirements of K.S.A. 82a-708b, and amendments thereto, and any applicable regulations adopted by the chief engineer.

(2) The total maximum quantity of water authorized to be diverted each calendar year by the original well or wells, and the additional well or wells, shall not exceed any of the following limits:

(A) The maximum annual quantity of water that has been perfected;

(B) the maximum annual quantity of water authorized to be diverted before approval of the change; or

(C) the maximum consumptive use of water during the perfection period as required by K.A.R. 5-5-3 and as specified in either of the following:

(i) If the water right authorizes the use of water for irrigation use, the consumptive use of water shall be presumed to not be increased in violation of K.A.R. 5-5-3 if the maximum annual quantity requested does not exceed the quantity in acre-feet calculated by use of the following formula: multiply the maximum number of acres legally irrigated in any one year during the perfection period by the 80 percent chance net irrigation requirements (N.I.R.), as specified in K.A.R. 5-5-12 expressed in acre-feet, and divide that number by a delivery efficiency of 0.85; or

(ii) if the water right authorizes the use of water for irrigation and an additional well or wells are authorized for a beneficial use of water that is not irrigation, the consumptive use of the portion of the water right used for irrigation shall be deter-

mined as specified in paragraph (a)(2)(C)(i). The non-irrigation portion of the water right available for diversion shall be determined as specified in K.A.R. 5-5-9 and K.A.R. 5-5-10.

(3) The total maximum rate of diversion that may be authorized for the original well or wells and the additional well or wells shall not be greater than the total maximum rate of diversion that could have been diverted from the original well or wells if they were currently being replaced by new wells at substantially the originally authorized location or locations in the same local source of supply. The maximum rate of diversion shall be one of the following:

(A) The total rate of diversion based on a current water flow rate test done on the point or points of diversion; or

(B) a value resulting from a hydraulic analysis, which may include rate tests, pump tests, and water level data, submitted by the applicant and acceptable to the chief engineer based on the veracity of its data and its proper application of scientific principles, showing the current capacity of the aquifer to yield water at the currently authorized point or points of diversion.

(4) A condition shall be placed on the approval of the application for change authorizing the additional well or wells that provides that, for the sole purpose of administering wells concerning direct impairment, the additional well or wells shall be considered to have the priority of the date the application was filed to add the additional well or wells.

(b) The applicant shall submit the following information:

(1) A well completion log of the currently authorized well or a stratigraphic log of a test hole located within 300 feet of the currently authorized well;

(2) the depth of the currently authorized well;

(3) the current depth to the static water level of the currently authorized well;

(4) a stratigraphic log of a test hole located within 300 feet of the proposed location of each of the proposed additional well or wells; and

(5) any additional information that the chief engineer may require to understand the nature of the proposed additional well or wells.

(c) The proposed additional well or wells shall meet one of the following conditions:

(1) Meet the well spacing requirements to all other wells with a priority earlier than the date on which the change application was filed; or

(2) demonstrate by a hydraulic analysis, which may include rate tests, pump tests, and water level data, as submitted by the applicant and acceptable to the chief engineer based on the veracity of its data and its proper application of scientific principles, that the approval of an additional well within 300 feet of a currently authorized well location, or within the geographic center of a currently authorized battery of wells, will neither impair any water rights senior to the date on which the application for change was filed nor prejudicially affect the public interest.

(d) Each point of diversion authorized by an approval of an application for change for an additional well shall have a specific assignment of a maximum instantaneous rate of diversion and a maximum annual quantity of water.

(e) Each well authorized by a water right that has been changed under the provisions of this regulation shall be equipped with a separate water flowmeter that meets or exceeds the specifications for water flowmeters adopted by the chief engineer.

(f) Each approval of an additional well or wells shall have a condition that reserves jurisdiction for the chief engineer to review the approval of the additional well or wells at intervals of at least five years, and not more than 10 years, to determine if the total annual quantity of water actually being withdrawn by all wells authorized by the approval of an application for change is exceeding the total annual quantity of water that could have been physically withdrawn if the additional well or wells had not been approved. If the chief engineer determines during the review that the total annual quantity being withdrawn by all the wells, including the additional wells, exceeds the total annual quantity of water that could have been physically withdrawn by the original well or wells, the total maximum annual quantity that can be withdrawn by all the wells shall be reduced by the chief engineer to the total maximum annual quantity that could have been physically withdrawn by the original well or wells. (Authorized by K.S.A. 82a-706a; implementing K.S.A. 82a-706a and K.S.A. 2016 Supp. 82a-708b; effective Sept. 22, 2000; amended Oct. 24, 2003; amended Sept. 22, 2017.)

Article 7.—ABANDONMENT AND TERMINATION

5-7-1. Due and sufficient cause for non-use. (a) Each of the following circumstances shall be considered “due and sufficient cause,” as used in K.S.A. 82a-718 and amendments thereto:

(1) Adequate moisture from natural precipitation exists for the production of grain, forage, or specialty crops, as determined by the moisture requirements of the specific crop.

(2) A right has been established or is in the process of being perfected for use of water from one or more preferred sources in which a supply is available currently but is likely to be depleted during periods of drought.

(3) Water is not available from the source of water supply for the authorized use at times needed.

(4) Water use is temporarily discontinued by the owner for a definite period of time to permit soil, moisture, and water conservation, as documented by any of the following:

(A) Furnishing to the chief engineer a copy of a contract showing that land that has been lawfully irrigated with a water right that has not been abandoned is enrolled in a multiyear federal or state conservation program that has been approved by the chief engineer;

(B) enrolling the water right in the water right conservation program in accordance with K.A.R. 5-7-4, K.A.R. 5-7-4b, and K.S.A. 2013 Supp. 82a-741 and amendments thereto; or

(C) any other method acceptable to the chief engineer that can be adequately documented by the owner before the nonuse takes place.

(5) Management and conservation practices are being applied that require the use of less water than authorized. If a conservation plan has been required by the chief engineer, the management and conservation practices used shall be consistent with the conservation plan approved by the chief engineer to qualify under this subsection.

(6) The chief engineer has previously approved the placement of the point of diversion in a standby status in accordance with K.A.R. 5-1-2.

(7) Physical problems exist with the point of diversion, distribution system, place of use, or the operator. This circumstance shall constitute due and sufficient cause only for a period of time reasonable to correct the problem.

(8) Conditions exist beyond the control of the owner that prevent access to the authorized place of use or point of diversion, as long as the owner is taking reasonable affirmative action to gain access.

(9) An alternate source of water supply was not needed and was not used because the primary source of supply was adequate to supply the needs of the water right owner.

(10) The chief engineer determines that a manifest injustice would result if the water right were

deemed abandoned under the circumstances of the case.

(11) The water right is located in an area of the state that is closed to new appropriations of water by regulation or order of the chief engineer but is not closed by a safe-yield analysis.

(12) The water right has been deposited in a water bank authorized by K.S.A. 2013 Supp. 82a-761 through K.S.A. 2013 Supp. 82a-773, and amendments thereto.

(13) Water use, as authorized by the water right, is suspended because the water right is enrolled in a multiyear flex account, pursuant to K.S.A. 2013 Supp. 82a-736 and amendments thereto.

(b) In addition to circumstances considered due and sufficient cause pursuant to subsection (a), both of the following requirements shall also be met to constitute due and sufficient cause for nonuse of water:

(1) The reason purporting to constitute due and sufficient cause shall have in fact prevented, or made unnecessary, the authorized beneficial use of water.

(2) Except for the temporarily discontinued use of water as provided by paragraph (a)(4) and for physical problems with the point of diversion or distribution system as provided by paragraph (a)(7), the owner shall maintain the diversion works in a functional condition.

(c) Each year of nonuse for which the chief engineer finds that due and sufficient cause exists shall be considered to interrupt the successive years of nonuse for which due and sufficient cause does not exist.

(d) When a verified report of the chief engineer, or the chief engineer's authorized representative, is made a matter of record at a hearing held pursuant to K.S.A. 82a-718, and amendments thereto, that establishes nonuse of a water right for five or more successive years, the water right owner shall have the burden of showing that there have not been five or more successive years of nonuse without due and sufficient cause. (Authorized by K.S.A. 82a-706a; implementing K.S.A. 82a-706a and K.S.A. 2013 Supp. 82a-718; modified, L. 1978, ch. 460, May 1, 1978; amended May 1, 1986; amended May 31, 1994; amended Oct. 24, 2003; amended May 21, 2010; amended April 18, 2014.)

5-7-4. Water rights conservation program; tier 1. (a) Applications for enrollment in the water rights conservation program (WRCP)

received on or before December 31, 2009, shall be considered for enrollment in the program as tier 1 applications. Enrollment in tier 1 of the WRCP approved by the chief engineer and continued compliance with the WRCP shall constitute due and sufficient cause for nonuse pursuant to K.S.A. 82a-718, and amendments thereto, and K.A.R. 5-7-1.

(b) In order to qualify for enrollment in the WRCP as a tier 1 applicant, all of the following requirements and conditions shall be met:

(1) The point of diversion shall be located in either of the following locations:

(A) An area that is closed to new appropriations of water, except for temporary permits, term permits, and domestic use; or

(B) some other area designated by the chief engineer as an area where it would be in the public interest to allow water rights to be placed in the WRCP. In areas within the boundaries of a groundwater management district, the recommendations of the board of the district shall be taken into consideration by the chief engineer.

(2) Each of the owners of the water right shall agree to totally suspend all water use authorized by that water right for the duration of the contract.

(3) The owner or owners of the water right shall sign a contract with the chief engineer, or the chief engineer's authorized representative, before placing the water right into the WRCP. The contract shall be binding on all successors in interest to the water right owner.

(4) Only an entire water right may be placed into the WRCP. If a portion of a water right has been abandoned, the portion that is still in good standing may be enrolled in the WRCP. If a water right is administratively divided by the chief engineer, each portion of that divided water right shall be considered to be an entire water right for the purpose of this regulation.

(A) If at least five successive years of nonuse have occurred before application for enrollment in the WRCP, a determination of whether or not that water right is subject to abandonment before entry into the program, including an analysis of any reasons given that might constitute due and sufficient cause for nonuse, shall be made by the chief engineer.

(B) If, after review of the information, it appears that the right has been abandoned, the statutory procedures, including the right to a hearing, shall be followed to determine whether or not the right has been abandoned.

(5) Only the portion of a water right in good standing at the time of application for enrollment may be entered into the WRCP.

(c) Other requirements of enrollment in the WRCP program shall include the following:

(1) Water rights shall be placed into the WRCP for a definite period of calendar years of no fewer than five and no more than 10. Each WRCP contract shall terminate upon expiration of the time period specified in the contract.

(2) The water right owner or operator shall not be required to maintain the diversion works or delivery system during the period of the WRCP contract. If the pump is removed from a well, the well shall be properly capped or sealed during the contract. These requirements shall be in addition to those made by the Kansas department of health and environment pursuant to the groundwater exploration and protection act, K.S.A. 82a-1201 et seq. and amendments thereto.

(3) A certificate determining the extent to which a water right has been perfected shall be issued by the chief engineer before entering the water right into the WRCP if all of the following conditions are met:

(A) An applicant has a permit to appropriate water for beneficial use and has perfected all, or any portion, of the water right authorized by the permit.

(B) The time in which to perfect the water right has expired, including any authorized extensions of time.

(C) A field inspection has been completed.

(4) If the time to perfect the water right, or any authorized extension of that right, has not expired, enrollment in the WRCP shall be considered as suspending the time to perfect. Upon expiration of the WRCP contract pertaining to this water right, the time to perfect shall again commence, and the applicant shall be required to perfect the water right within the remainder of the time allowed to perfect, or any authorized extension of that time.

(5) Each year after authorized enrollment in the WRCP, the water use correspondent shall indicate on the water use report that no water was used because the water right was enrolled in the WRCP.

(6) If the owner breaches, or causes or allows a breach of, the WRCP contract with the chief engineer, each year of nonuse between the effective date of the contract and the date of the breach shall be counted as years of nonuse without due and sufficient cause for the purpose of

determining whether or not the water right has been abandoned pursuant to K.S.A. 82a-718, and amendments thereto. Before this penalty is imposed, the owner shall be given an opportunity to show either of the following:

(A) A breach of contract did not occur.

(B) A breach occurred, but either was minor or has been cured, and should not constitute grounds for imposing the penalty. (Authorized by K.S.A. 82a-706a and K.S.A. 2013 Supp. 82a-741; implementing K.S.A. 82a-706, K.S.A. 82a-713, K.S.A. 2013 Supp. 82a-714, K.S.A. 2013 Supp. 82a-718, and K.S.A. 2013 Supp. 82a-741; effective July 1, 1994; amended Sept. 22, 2000; amended Dec. 28, 2009; amended April 18, 2014).

5-7-4b. Water rights conservation program; tier 2. (a) Each application for enrollment in the water rights conservation program (WRCP) received on or after July 1, 2011, shall be considered as a WRCP tier 2 application.

(b) Enrollment of a water right in tier 2 of the WRCP shall be by order of the chief engineer and compliance with the requirements of subsection (d).

(c) For a water right to be eligible to be enrolled in tier 2 of the WRCP, each of the following requirements shall be met:

(1) Except for domestic use, the point of diversion shall be located in either of the following locations:

(A) An area that is closed to new appropriations of water by regulation or order of the chief engineer or, only within the Ogallala aquifer, is effectively closed due to overappropriation determined by a safe-yield analysis; or

(B) some other area designated by the chief engineer as an area where it would be in the public interest to allow water rights to be placed in the WRCP. In areas within the boundaries of a groundwater management district, the recommendations of the board of the district shall be taken into consideration by the chief engineer.

(2) Each of the owners of the water right shall agree to totally suspend all water use authorized by the water right for the duration of the enrollment period.

(3) The owner or owners of the water right shall submit an application to the chief engineer, or the chief engineer's authorized representative, requesting that the water right be enrolled.

(4) Only an entire water right may be enrolled in the WRCP. If a water right is administratively

divided by the chief engineer, each portion of the water right shall be considered to be an entire water right.

(5) The water right shall not be deemed abandoned pursuant to K.S.A. 82a-718, and amendments thereto.

(d) Requirements of any order enrolling a water right in the WRCP shall include the following:

(1) Water rights shall be placed into the WRCP for a definite period of calendar years of no fewer than five and no more than 10 as requested by the application.

(2) The water right owner or operator shall not be required to maintain the diversion works or delivery system during the period of enrollment. If the pump is removed from a well, the well shall be properly capped or sealed during the period of enrollment. These requirements shall be in addition to those requirements made by the Kansas department of health and environment pursuant to the groundwater exploration and protection act, K.S.A. 82a-1201 et seq. and amendments thereto.

(3) A certificate determining the extent to which a water right has been perfected shall be issued by the chief engineer before enrolling the water right in the WRCP.

(4) Each year after authorized enrollment in the WRCP, the water use correspondent shall indicate on the water use report that no water was used because the water right was enrolled in the WRCP.

(e) Each diversion of water for beneficial use, other than domestic use, under authority of a water right while enrolled in the WRCP shall result in revocation of the enrollment order and the loss of due and sufficient cause for nonuse of water during the portion of the enrollment period occurring before the diversion.

(f) Each diversion of water for beneficial use, other than domestic use, during the enrollment period shall be considered a violation of the order enrolling the water right. Any such diversion of water may result in a civil penalty pursuant to K.S.A. 2013 Supp. 82a-737, and amendments thereto. (Authorized by and implementing K.S.A. 2013 Supp. 82a-741; effective April 18, 2014.)

Article 9.—TEMPORARY PERMITS

5-9-3. Quantity. A temporary permit shall not be granted for a quantity of water in excess of 4,000,000 gallons, except for either of the following:

(a) Dewatering purposes; or

(b) water that is to be diverted from a source located on a construction site and used on the construction site in connection with a project that the chief engineer has approved pursuant to K.S.A. 82a-301 through 82a-305a or K.S.A. 24-126, and amendments thereto. (Authorized by and implementing K.S.A. 2011 Supp. 82a-727; effective May 1, 1979; amended Dec. 3, 1990; amended June 22, 2012.)

Article 12.—AQUIFER STORAGE AND RECOVERY

5-12-1. Aquifer storage and recovery permitting. (a) An operator may store water in an aquifer storage and recovery system under a permit to appropriate water for artificial recharge if the water appropriated is source water. The requirements of this article shall be in addition to any requirements of the Kansas department of health and environment concerning underground injection wells, including article 46 of the regulations adopted by the Kansas department of health and environment.

(b) Each application for a permit to appropriate water for artificial recharge shall describe the horizontal and vertical extent of the basin storage area in which the source water will be stored.

(1) The horizontal extent shall be determined by a closed boundary within which the recharge system used to store the water will be physically located. The recharge system may include recharge pits, recharge trenches, recharge wells, or other similar systems that cause source water to enter the storage volume of the basin storage area, either by gravity flow or by injection. The basin storage area may be subdivided into smaller areas representative of the areas that may be recharged by the individual recharge systems.

(2) The vertical extent shall be defined by a minimum index level and a maximum index level for the basin recharge storage area, or for each subdivided area within the basin storage area if the basin storage area is subdivided. The maximum index water level shall represent the maximum storage potential for the basin storage area.

(c) Each application for a permit to appropriate water for artificial recharge shall specify the maximum annual quantity and maximum rate of diversion of source water.

(d)(1) Each application for a permit to appropriate water for artificial recharge shall include a methodology for accounting for water stored in

a basin storage area both on an annual basis and on a cumulative basis so that recharge credits can be calculated. If more than one application for a permit to appropriate water for artificial recharge relates to the same aquifer storage and recovery system, each application shall use the same methodology for accounting for water stored in the basin storage area. The accounting of the water balance of all water entering and leaving the basin storage area shall be determined by using sound engineering methods based on actual measurements, generally accepted engineering methodology, or a combination of both.

(2) Approval of any application for a permit to appropriate water for artificial recharge shall be contingent upon the chief engineer's approval of the method for accounting for the basin storage area.

(e) Each applicant for recovery of water stored by the holder of a permit to appropriate water for artificial recharge to store water in a basin storage area shall obtain a permit separate from the aquifer storage permit to appropriate water for beneficial use for each well used to recover the water stored. The maximum annual quantity of water that may be appropriated for this purpose shall be no more than the maximum cumulative recharge credits available to the operator of the aquifer storage and recovery system. These credits shall be determined by the accounting methodology approved under a permit to appropriate water for artificial recharge pertaining to the aquifer storage and recovery system. In determining whether diversion of the annual quantity impairs other water rights, the following data may be considered by the chief engineer:

(1) The maximum storage volume available in the basin storage area;

(2) the spatial distribution of recharge and withdrawal systems;

(3) the maximum rate of diversion at which the water will be withdrawn; and

(4) any other relevant information.

Recharge credits may be accumulated over more than one year, and any amount of recharge credits available may be withdrawn in accordance with the permit if the withdrawal does not impair other water rights.

(f) The approval of application, if the water to be diverted is the water artificially recharged into the basin storage area, shall be conditioned upon the following:

(1) Generally accepted engineering methodology;

(2) a maximum annual quantity that does not exceed the recharge credits; and

(3) an annual reporting that complies with K.A.R. 5-12-2. (Authorized by K.S.A. 82a-706a; implementing K.S.A. 2015 Supp. 82a-711 and K.S.A. 82a-712; effective Sept. 22, 2000; amended April 29, 2016.)

Article 14.—ENFORCEMENT AND APPEALS

5-14-3. Orders. (a) An order subject to review pursuant to K.S.A. 82a-1901, and amendments thereto, shall be issued by the chief engineer in each of the following matters:

(1) The approval or dismissal of an application to change the place of use, the point of diversion, the use made of water, or any combination of these, filed pursuant to K.S.A. 82a-708b and amendments thereto;

(2) the approval or dismissal of an application to appropriate water for beneficial use filed pursuant to K.S.A. 82a-711 and amendments thereto;

(3) the declaration of abandonment and termination of a water right pursuant to K.S.A. 82a-718 and amendments thereto; and

(4) the suspension of the use of water under a term permit, an approved application for a permit to appropriate water for beneficial use, an appropriation right, or a vested right, pursuant to K.S.A. 82a-770 and amendments thereto.

(b) Each order that is issued pursuant to K.S.A. 82a-737, and amendments thereto, and is subject to review pursuant to K.S.A. 82a-1901, and amendments thereto, shall be issued by the chief engineer, or the chief engineer's designee, in the assessment of civil penalty, the modification of a person's water right or permit to use water, the suspension of a person's water right or permit to use water, or any combination of these.

(c) Unless limited or prohibited by statute, any person to whom the order is directed or who has a property interest that could be adversely affected by the action or proposed action may request a review pursuant to K.S.A. 82a-1901, and amendments thereto, without filing a request for a hearing before the chief engineer.

(d) The chief engineer shall not be required to hold a hearing before issuing an order unless required by statute.

(e)(1) Any person to whom an order will be directed may request a hearing before the chief engineer before the issuance of an order by the

chief engineer. The person shall then be notified by the chief engineer that, if the request is granted by the chief engineer, the person shall not be allowed to have a second hearing before the chief engineer after the issuance of the order. Within 15 days after the notice is sent, the person shall notify the chief engineer whether the requestor wants to proceed with a hearing before the chief engineer issues the order.

(2) If a hearing is held by the chief engineer before the issuance of the order by the chief engineer and the person to whom the order is directed still desires to have the order reviewed, the person shall seek review pursuant to K.S.A. 82a-1901, and amendments thereto, if that type of review is authorized by statute.

(f) If a person to whom an order was directed did not have a hearing before the issuance of an order, that person may request a hearing before the chief engineer after issuance of the order. The person shall submit a written request for hearing to the chief engineer within 15 days of service of the order pursuant to K.S.A. 77-531, and amendments thereto. If a hearing is not requested, the person may seek review pursuant to K.S.A. 82a-1901, and amendments thereto, within 30 days of service of the order pursuant to K.S.A. 77-531 and amendments thereto, if that type of review is authorized by statute. Each request for a hearing must meet the following requirements:

(1) Be filed in writing with the chief engineer within 15 days after the date of service of the order; and

(2) set forth the factual and legal basis for the hearing request. The factual basis may be stated generally and shall not be required to be specific if the written request clearly establishes the existence of disputed facts. The request for hearing may be denied if the request fails to clearly establish factual or legal issues.

(g) A request for intervention in a matter pending hearing from a person or persons other than those to whom the order is directed may be granted by the chief engineer if all of the following conditions are met:

(1) The chief engineer has issued a notice of hearing.

(2) The person requesting to intervene has filed a notice with the chief engineer that the order in the pending matter could adversely affect one or more of the following:

(A) The person's property interest in the pending matter;

(B) the person's water right or permit to appropriate water; or

(C) the person's statutory duty to act.

(3) The chief engineer has determined that the interests of justice and the orderly and prompt conduct of the proceedings will not be impaired by allowing the intervention. (Authorized by K.S.A. 82a-706a; implementing K.S.A. 82a-706a, K.S.A. 2008 Supp. 82a-708b, 82a-711, 82a-718, 82a-737, 82a-770, and 82a-1901; effective Sept. 22, 2000; amended March 20, 2009.)

5-14-3a. Hearing procedure. The procedures specified in this regulation shall apply to any hearing held by the chief engineer pursuant to K.A.R. 5-14-3. Upon notice to all parties, these procedures may be applied by the chief engineer to any other hearings held under the Kansas water appropriation act. (a) Unless otherwise required by statute, the following persons and entities shall be allowed to be parties to a formal hearing before the chief engineer:

(1) The division of water resources, Kansas department of agriculture (DWR);

(2) the person or persons to whom the order is, or will be, directed;

(3) the applicant to change the place of use, the point of diversion, the use made of water, or any combination of these, under K.S.A. 82a-708b and amendments thereto, or the applicant to appropriate water for beneficial use under K.S.A. 82a-711, and amendments thereto;

(4) the owners of the proposed place of use and the owners of the place of use authorized under the application, water right, or permit to appropriate water; and

(5) any other person who has filed a timely petition for intervention in accordance with K.A.R. 5-14-3(e).

(b) The hearing shall be presided over by the chief engineer or the chief engineer's designee. Authority may be delegated by the chief engineer to the presiding officer to issue the order or to make written recommendations to the chief engineer after the hearing.

(c) Unless otherwise required by statute, the presiding officer shall issue a written notice of hearing to all parties and to any person who requests notice of a hearing.

(1) Notice of hearing shall be served on the parties as required by statute, but not later than 15 days before the hearing.

(2) The notice of hearing shall be served by mail,

facsimile, electronic mail, or hand-delivery and shall be evidenced by a certificate of service. If due diligence fails to locate a person allowed to be a party, then notice by publication shall be made in the manner indicated in K.A.R. 5-14-3a (d) (2).

(3) The notice of hearing shall include the following:

(A) A case or other identification number and a descriptive title, which shall appear on all correspondence relating to the docket. If more than one matter has been consolidated for hearing, all numbers and descriptive titles shall appear on all correspondence;

(B) the names and mailing addresses of all parties;

(C) a statement of the time, place and nature of the hearing. If more than one matter has been consolidated for hearing, statement of the nature of the hearing shall include all matters to be heard;

(D) a statement that the presiding officer may complete the hearing without the participation of any party who fails to attend or participate in a prehearing conference, hearing, or other stage in the proceeding; and

(E) if nonparties are provided an opportunity to submit comments, the time and place where oral comments will be accepted and the deadline and mailing address for the submission of written comments.

(4) For abandonment hearings under K.S.A. 82a-718, and amendments thereto, the notice of hearing shall include a copy of the verified report of the chief engineer or the chief engineer's representative.

(d) Unless otherwise required by statute, if members of the public will be given an opportunity to submit oral and written comments, notice of the hearing shall be caused by the chief engineer to be distributed in the place or places where the action or proposed action will be effective.

(1) Notice of hearing shall be given as required by statute, but no later than 15 days before the hearing.

(2) The notice of hearing may be published in a newspaper of general circulation where the action or proposed action will be effective as required by statute, but shall be published at least 15 days before the hearing. The notice of hearing shall not be required to be in the form of a legal notice. The notice may also be given by any other means reasonably calculated to reach the residents of the area.

(e) Only the parties named in the notice of hearing or otherwise designated by the chief engineer may participate in the hearing.

(1) Any party may participate in person or, if the party is a corporation or other artificial person, by an authorized representative.

(2) Any party may be represented, at the party's own expense, by legal counsel or, if permitted by law, some other representative.

(3) The presiding officer may refuse to allow representation that would constitute the unauthorized practice of law.

(4) The presiding officer may give nonparties the opportunity to present oral or written statements to be included in the record of the proceedings.

(5) The presiding officer may consider only oral statements that are given under oath or affirmation and signed written statements.

(6) The presiding officer shall allow all parties a reasonable opportunity to challenge or rebut all oral and written statements received.

(f) The presiding officer may allow any party to participate in prehearing conferences, the hearing, or any other stage of the proceedings by telephone or videoconference.

(1) Unless otherwise authorized by the presiding officer, the party wishing to participate by telephone shall notify the presiding officer at least 48 hours in advance of the prehearing conference. The party wishing to participate by telephone may be granted a continuance if the presiding officer is not able to grant the request.

(2) The presiding officer may require the party wishing to participate by telephone to initiate the call.

(3) The presiding officer may refuse to allow any party to participate by telephone if the party has not notified the presiding officer in advance and made arrangements for that participation or if any party objects.

(g) The presiding officer may hold one or more prehearing conferences as necessary to address preliminary matters or to facilitate the hearing.

(1) Notice of all prehearing conferences shall be given by the presiding officer to all parties and to all persons who have requested that notice. Notice may also be given to other interested persons at least 15 days before the prehearing conference.

(2) The notice of prehearing conference shall include the following:

(A) The names and mailing addresses of all parties;

(B) a statement of the time, place, and nature of the prehearing conference; and

(C) a statement that the presiding officer may complete the hearing without the participation of any party who fails to attend or participate in a prehearing conference, hearing, or other stage in the proceeding.

(3) The presiding officer shall issue a prehearing order after each prehearing conference.

(h) Discovery shall be limited to matters that are clearly relevant to the proceeding.

(i) Each party shall have the opportunity to file pleadings, objections, and motions. At the presiding officer's discretion, any party may be given an opportunity to file briefs, proposed findings of fact and conclusions of law, and proposed orders.

(1) Each party shall serve a copy of any written filings on each of the other parties.

(A) Service may be made by mail, facsimile, electronic mail, or hand-delivery.

(B) Service shall be presumed if the person making service signs a written certificate of service.

(C) Service by mail shall be complete upon mailing.

(2) The presiding officer shall notify all parties of the deadlines for written filings and may extend the deadlines upon request of any party.

(A) Unless otherwise stated in the notice or order of the presiding officer, all deadlines to file documents within a specific number of days shall end at the close of business on the third working day after the deadline set in the notice or order mailed out by the presiding officer.

(B) In computing any deadline, the day of service shall not be included. Working days shall not include Saturdays, Sundays, state holidays, and federal holidays.

(3) The presiding officer shall not be required to consider any written filing that has not been filed on or before the deadline or that is not served on all parties.

(4) Service upon an attorney of record shall be deemed to be service upon the party represented by the attorney.

(j) After the presiding officer has issued a notice of hearing and before an order is issued, no party or its attorneys shall discuss the merits of the proceedings with the presiding officer or with any other person named in the prehearing order as assisting the presiding officer in the hearing, unless all parties have the opportunity to participate.

(1) If the presiding officer receives an ex parte communication, the presiding officer shall notify all parties that an ex parte communication has

been received and place the notice in the record of the pending matter. The notice shall contain the following:

(A) A copy of any written ex parte communication received and any written response to the communication; and

(B) a memorandum stating the substance of any oral ex parte communication received, any oral response made, and the identity of each person from whom the oral ex parte communication was received.

(2) Any party may submit written rebuttal to an ex parte communication within 15 days after service of notice of the communication. If any party submits a written rebuttal to an ex parte communication, that party shall simultaneously serve a copy on all other parties and the presiding officer. All timely filed written rebuttals shall be placed in the record of the pending matter.

(3) A presiding officer who has received an ex parte communication shall withdraw from the pending matter if the presiding officer determines that the communication has rendered the presiding officer no longer qualified to hear the pending matter because of bias, prejudice, or interest.

(4) Any party may petition for the disqualification of a presiding officer upon discovering facts establishing grounds for disqualification because of bias, prejudice, or interest.

(5) Each presiding officer whose disqualification is requested shall determine whether to grant the petition, stating facts and reasons for the determination. The facts and reasons for the presiding officer's decision shall be entered into the record.

(k) The presiding officer may consolidate any proceedings if there are common issues to be resolved or a common factual basis for the proceedings. The presiding officer may consolidate proceedings on the presiding officer's own motion or upon the request of the parties to all proceedings.

(l) The presiding officer may continue the hearing or any other proceeding on that person's own motion or at the request of a party.

(1) A party shall notify all other parties before requesting a continuance.

(2) The presiding officer shall not be required to continue the hearing if all other parties have not been consulted or if any party objects.

(3) Each party who requires a continuance because of an emergency shall notify the presiding officer and any other party as soon as the party reasonably determines that an emergency exists.

(m) Each party shall have a reasonable opportunity to be heard. Each party shall be given the opportunity to present evidence and argument, conduct cross-examination, and submit rebuttal evidence, except as may be restricted by a pre-hearing order or limited grant of intervention.

(1) Unless otherwise limited by this regulation or the presiding officer, each party and each intervenor shall be given an opportunity to make opening statements and closing arguments.

(2) Unless the parties have been required to exchange exhibits before the hearing, each party shall bring a copy of each document offered as evidence for each party and at least two copies for the presiding officer. If possible, the original document, or a certified copy of the document, shall be offered into evidence at the hearing.

(3) All hearings shall be open to the public.

(4) All testimony of parties and witnesses shall be made under oath or affirmation.

(5) The direct examination of each witness shall be followed by cross-examination of the witness. Cross-examination shall be limited in scope to the testimony upon direct examination. Redirect examination shall be limited in scope to the testimony upon cross-examination. Recross-examination shall be limited in scope to the testimony upon redirect.

(6) No more than one attorney for each party shall examine or cross-examine a witness. The presiding officer may require that only one attorney be allowed to cross-examine a witness on behalf of all parties united in interest.

(7) All testimony shall be taken on the record unless the presiding officer grants a request to go off the record.

(8) At the time determined by the presiding officer, the presiding officer shall announce that the record of exhibits and testimony shall be closed and, if applicable, that the matter has been taken under advisement.

(9) The record shall not be reopened except upon order of the presiding officer or the chief engineer.

(n)(1) In any hearing concerning an application filed under K.S.A. 82a-708b or K.S.A. 82a-711 and amendments thereto, the applicant shall bear the burden of proving, by a preponderance of the evidence, that the application should be approved.

(2) If the DWR does not offer opinion testimony concerning whether and how the application complies or does not comply with the applicable regulations, its participation in the hearing shall be limited as follows:

(A) The DWR shall make a proffer of the records of the agency pertaining to the pending matter and may offer the testimony of fact witnesses to lay foundation for the proffer. These witnesses may be cross-examined, but cross-examination shall be limited to the scope of the direct questioning.

(B) If any member of the DWR's staff is called as a witness for or is cross-examined by another party, the DWR shall be allowed to conduct cross-examination of the witnesses offered by that party.

(3) The applicant shall be heard after the DWR's proffer, unless the presiding officer determines that another order of presentation will facilitate the conduct of the hearing.

(4) If the DWR offers opinion testimony concerning whether and how the application complies or does not comply with the applicable regulations, the DWR shall be heard after the applicant and the DWR may participate in the hearing to the same extent as the applicant, unless the presiding officer determines that a different order of presentation will facilitate the conduct of the hearing.

(5) The presiding officer shall determine the order in which other parties and interveners may be heard.

(o) In hearings concerning the assessment of a civil penalty, the modification of a water right, the suspension of a water right, or the suspension of the use of water under a water right, the following requirements shall be met:

(1) The DWR shall bear the burden of proving, by a preponderance of the evidence, that a violation under K.S.A. 82a-737 and amendments thereto or K.S.A. 82a-770 and amendments thereto, or both, has occurred.

(2) The DWR shall be heard first at the hearing, unless the presiding officer determines that a different order of presentation will facilitate the conduct of the hearing. The presiding officer shall determine the order in which other parties and interveners may be heard.

(p) In an abandonment hearing pursuant to K.S.A. 82a-718 and amendments thereto, the DWR shall first present the verified report specified in K.S.A. 82a-718, and amendments thereto.

(1) The verified report shall be a report of the DWR's investigation into the water use history and shall contain the following:

(A) Documentation that shows the use or non-use of water authorized by the water right as established by the contents of the DWR water right

file and as reported to the DWR, pursuant to K.S.A. 82a-732 and amendments thereto;

(B) the analysis of the documentation used in the verified report by the preparer of the verified report;

(C) a conclusion citing the specific successive years of nonuse to meet the criteria for abandonment found in K.S.A. 82a-718 and amendments thereto; and

(D) the years for which due and sufficient cause for nonuse pursuant to K.A.R. 5-7-1 was reported to the chief engineer pursuant to K.S.A. 82a-732, and amendments thereto, and verified by the DWR.

(2)(A) If the verified report specified by K.S.A. 82a-718(a), and amendments thereto, establishes that there has been no lawful, beneficial use of water for the period of time specified in K.S.A. 82a-718(a) and amendments thereto and that due and sufficient cause for the nonuse of water has not been reported to the DWR pursuant to K.S.A. 82a-732 and amendments thereto during this period, this shall be considered to be prima facie evidence that the water right has been abandoned.

(B) Upon a determination by the presiding officer that prima facie evidence of abandonment exists, the water right owner shall bear the burden of rebutting the prima facie evidence by a preponderance of the evidence establishing that there had been lawful, beneficial use of water during the time period in question or that due and sufficient cause existed for the nonuse of water during the period of time in question, or both, to avoid the application of K.S.A. 82a-718(a) and amendments thereto.

(3) The DWR may participate in the hearing to the same extent as the owner or owners of the water right.

(4) The DWR shall be heard first at the hearing, unless the presiding officer determines that another order of presentation will facilitate the conduct of the hearing.

(5) The presiding officer shall determine the order in which other parties and interveners may be heard.

(q) During the hearing, all of the following shall apply:

(1) The presiding officer shall not be bound by the technical rules of evidence.

(2) The presiding officer shall give the parties a reasonable opportunity to be heard and to present evidence.

(3) The presiding officer shall give effect to the privileges listed in K.S.A. 60-426 through 436, and

amendment thereto, and any other privileges recognized by law.

(4) Evidence shall not be required to be excluded solely if the evidence is hearsay.

(5) All parties may note, in the record, their exceptions to any ruling or other action of the presiding officer.

(6) If the presiding officer sustains an objection to evidence or testimony, the party may make a proffer of the excluded evidence. The presiding officer may add other statements to clearly show the character of the evidence, the form in which the evidence was offered, and the objection and the ruling made. Upon request, the excluded testimony or evidence shall be marked and preserved for the record upon appeal.

(7) Without notice to the parties and without receiving a request from any party, the presiding officer may take administrative notice of the following:

(A) The Kansas water appropriation act and other Kansas statutes;

(B) regulations promulgated by the chief engineer;

(C) orders issued by or on behalf of the chief engineer; and

(D) specific facts and propositions of general knowledge that are so universally known or known within the profession that they cannot reasonably be the subject of dispute or that are capable of immediate and accurate determination by using easily accessible sources of indisputable accuracy.

(8) Upon reasonable notice to the parties and the opportunity to contest and offer rebuttal evidence, the presiding officer may also take administrative notice of any of the following:

(A) Scientific or technical matters within the DWR's specialized knowledge;

(B) the record of other proceedings before the DWR; and

(C) codes and standards that have been adopted by an agency of the United States, the state of Kansas, or any other state or by a nationally recognized organization or association.

(r) The hearing and all prehearing conferences shall be electronically recorded at the expense of the Kansas department of agriculture (KDA).

(1) Copies of electronic recordings may be obtained from the DWR. Written transcripts of the recording shall be available by request, and the requestor shall pay the cost of transcription.

(2) The DWR shall hire and pay for a court reporter if deemed necessary by the presiding

officer for the presiding officer's use or for the preservation of testimony for later use in a court proceeding. Written transcripts shall be obtained directly from the court reporter at the requester's expense.

(s) If the chief engineer has not delegated authority to the presiding officer to issue an order, the presiding officer shall issue written recommendations to the chief engineer after the record of the hearing is closed.

(1) The recommendations shall be signed by the presiding officer and shall contain a statement of the recommended decision and the facts and conclusions of law upon which the recommended decision is based.

(2) The presiding officer shall serve the original, signed recommendations on the chief engineer and a copy of the recommendations on each party and on its counsel of record, if any, in the manner specified in this regulation.

(3) The recommendations shall state that the parties have at least 15 days after service in which to provide written comments to the chief engineer and shall contain a certificate of service. After the record of the hearing is closed, no party may submit additional evidence unless specifically permitted to do so by the presiding officer in advance of the submission. In order to receive permission to submit additional evidence, the party shall file a written request with the presiding officer, in advance, with a copy to each other party. Each other party shall be given a reasonable chance to respond to the request to submit additional information. If additional evidence is allowed, each other party shall be allowed a reasonable opportunity to rebut the additional evidence submitted.

(4) All comments submitted within the specified time frame shall be considered by the chief engineer before issuing an order.

(5) The order shall state that it is subject to review by the secretary of agriculture pursuant to K.S.A. 82a-1901, and amendments thereto.

(t) An order shall be issued by the chief engineer or, if so authorized, the presiding officer after the record of the hearing is closed.

(1) The order shall be signed by the chief engineer or the presiding officer and shall contain a statement of the relevant law and the facts upon which the decision is based.

(2) The order shall be served on each party or its counsel of record in the manner specified in these regulations and shall contain a certificate of service.

(3) If the presiding officer made recommendations to the chief engineer, the order shall state which recommendations, if any, have been accepted by the chief engineer. (Authorized by K.S.A. 82a-706a; implementing K.S.A. 2008 Supp. 82a-708b, 82a-711, 82a-718, 82a-737, 82a-770, 82a-1038, and 82a-1901; effective March 20, 2009.)

5-14-10. Civil penalties for violations other than exceeding the authorized quantity of water.

(a) Penalty order. In addition to any other authorized enforcement procedures, if the chief engineer finds that any of the violations specified in K.S.A. 82a-737, and amendments thereto, have occurred, a written order may be issued by the chief engineer pursuant to K.S.A. 82a-737(e), and amendments thereto.

(b) Civil penalties.

(1) Any civil penalty assessed in any order issued under this regulation may be no greater than the civil penalties specified in subsection (m) for each applicable violation. Any day on which the violation continues to occur may constitute a separate offense. If an order is issued, the chief engineer may include all known violations of this regulation or K.A.R. 5-14-12, or both, and all penalties pertaining to a given water right in the order. The order may include violations of this regulation or K.A.R. 5-14-12, or both, applicable to multiple water rights. Separate penalties may be assessed for each violation cited in a single order.

(2) The monetary penalties and suspension terms specified in subsection (m) may be reduced due to one or more of the following factors:

(A) The absence of any prior penalty assessed under the Kansas water appropriation act, or implementing regulations, during the five calendar years preceding the calendar year in which the most recent violation occurred and if that calendar year is not determinable, then preceding the calendar year in which the order is issued for the most recent violation;

(B) the absence of intentional noncompliance or gross negligence; or

(C) prompt cessation or correction of the violation upon discovery or notification by the chief engineer or an authorized representative or by personnel from a groundwater management district.

(c) Lower-tier miscellaneous. Any of the following actions or inactions may constitute a lower-tier miscellaneous violation:

(1) Operating and maintaining a water flowmeter or other water-measuring device required by the chief engineer that is out of compliance as specified in K.A.R. 5-1-9, unless the violation is a meter manipulation;

(2) failure to properly implement a conservation plan required by the chief engineer;

(3) committing a waste of water; and

(4) violating an order of the chief engineer or a term, condition, or limitation of a water right, approval of application, term permit or temporary permit, or any regulation not otherwise specifically listed as a violation in this regulation.

(d) Failure to provide information. Any of the following actions or inactions may constitute a failure to provide information:

(1) Failure to file a required monthly report; and

(2) failure to provide complete and accurate water use or other data, information, or records requested by the chief engineer or authorized representative, except the annual water use reports required by K.S.A. 82a-732 and amendments thereto, within the following time frames:

(A) For information regarding water use during administration of a water right, within 24 hours of the chief engineer's or authorized representative's request; and

(B) for all other information, within 15 days of the request made by the chief engineer or authorized representative or within any other time frame prescribed by the chief engineer or authorized representative when the request is made.

(e) Unauthorized diversion or threat to divert. Any of the following actions may constitute an unauthorized diversion or threat to divert:

(1) A threat to divert water without authorization from the chief engineer;

(2) irrigating an unauthorized place of use;

(3) diverting water at a rate in excess of the authorized rate of diversion;

(4) diverting water from an unauthorized point of diversion of water; and

(5) applying water to an unauthorized type of beneficial use.

(f) Denial of access. It may be a violation for any person to deny access to authorized agents of the chief engineer as required by K.S.A. 82a-706b, and amendments thereto.

(g) Lack of water flowmeter. It may be a violation for any person to fail to timely install, or to remove and fail to replace, a required water flowmeter or other acceptable water-measuring device.

(h) Noncompliance with a substantial order. Any of the following actions may constitute a violation of a substantial order of the chief engineer:

(1) Violating a cease-and-desist order issued by the chief engineer;

(2) violating an order of the chief engineer issued pursuant to K.S.A. 82a-706b, and amendments thereto;

(3) violating any order of the chief engineer issued pursuant to K.S.A. 82a-1038, K.S.A. 82a-1041, or K.S.A. 82a-745, and amendments thereto, or any associated term permit, relating to an intensive groundwater use control area, local enhanced management area, or water conservation area; and

(4) violating a minimum desirable streamflow order issued by the chief engineer pursuant to K.A.R. 5-15-1 through 5-15-3.

(i) Meter manipulation.

(1) Any of the following actions may constitute meter manipulation:

(A) Causing a water flowmeter or other acceptable water-measuring device to show an incorrect or inaccurate reading by any method, including any of the following:

(i) Tampering with the meter in any way;

(ii) physically altering the meter reading or the propeller;

(iii) operating the water flowmeter in reverse orientation or running the water flowmeter in reverse by any means; or

(iv) altering a water flowmeter from its factory specifications in a manner that causes the meter to underreport actual water use; and

(B) removing a seal placed on a pump, diversion device, or water flowmeter without the written permission of the chief engineer or the chief engineer's authorized representative.

(2) If a penalty is assessed for meter manipulation under this regulation and more than one water right is serviced by a single meter, then a single penalty may be assessed for all water rights serviced by that meter.

(j) Falsification. Any of the following actions may constitute falsification:

(1) Providing false water use data, including providing inaccurate information during a perfection period or after a water right has been certified, that underreports or overreports water use; and

(2) falsifying any other required data or information.

(k) Noncompliance with a special condition of change application approval.

(1) Any of the following actions may constitute a violation of a special condition of a change application approval:

(A) Violating any of the terms and conditions of a multiyear allocation; and

(B) violating a term or condition limiting the net acres that may be irrigated in any one calendar year pursuant to an approval to allow annual rotation of the authorized place of use for irrigation.

(2) The suspension specified in subsection (m) may apply to all or any portion of the annual water use authorized by the water right, any term permit, and any water right upon which a multiyear allocation or rotation was based. Additionally, a subsequent restriction of the authorized place of use to the base acreage at a location specified in the change approval may be applied. After any suspension has expired, the water right may revert to all conditions in effect on the water right before approval of the change application that authorized the multiyear allocation or rotation.

(l) Penalties for water rights in a term permit. If falsification or meter manipulation occurs during the term of a multiyear flex account term permit or other term permit during which the base water right is suspended, the chief engineer may revoke the term permit, and the base water right may be suspended for what would have been the remainder of the term permit. In addition to the suspension, a penalty corresponding to the falsification or meter manipulation violation cited may be imposed. Any additional reduction or suspension may run consecutively with the suspension for what would have been the remainder of the term permit.

(m) Penalty table. The following table may specify the maximum civil penalty and the maximum suspension term that may be assessed by the chief engineer for each violation of this regulation:

Violation	Monetary penalty	Maximum number of days monetary penalty applied	Suspension of water use
Lower-tier miscellaneous	\$500 per day	20	One year
Failure to provide information	\$500 per day, for each day the violation exists	20	One year
Unauthorized diversion or threat to divert	\$500 per day	20	One year

Violation	Monetary penalty	Maximum number of days monetary penalty applied	Suspension of water use
Denial of access	\$1,000 per day	10	Three years
Lack of water flowmeter	\$1,000 per day	10	Three years
Noncompliance with a substantial order	\$1,000 per day	10	Five years
Meter manipulation	\$1,000 per day	10	Five years
Falsification	\$1,000 per instance of falsification	Not applicable	Five years
Noncompliance with a special condition of a change application approval	\$1,000 per day	10	Two years

(n) Owner liability and effect of penalty on water right. Any civil penalty and any temporary reduction or suspension of the quantity of water authorized to be diverted under a water right in Kansas may be enforced against the owner or owners of the water right and shall attach to and transfer with the water right to any subsequent heir, assignee, purchaser, or other subsequent holder of the water right.

(o) Appeal. Any person aggrieved by an order of the chief engineer may request a review pursuant to K.S.A. 82a-1901, and amendments thereto, and after exhaustion of administrative remedies, may appeal to the district court in the manner provided by the act for judicial review and civil enforcement of agency actions. (Authorized by K.S.A. 82a-706a; implementing K.S.A. 82a-706a, K.S.A. 2016 Supp. 82a-737, and K.S.A. 2016 Supp. 82a-1901; effective Oct. 24, 2003; amended Oct. 31, 2008; amended July 14, 2017.)

5-14-11. Civil fines; water use reporting.

(a) Any owner of a water right or approval of application may be assessed a civil penalty of \$1,000 per year for each water right or approval of application for which the owner does not perform the following:

(1) Timely submit an annual water use report pursuant to K.S.A. 82a-732, and amendments thereto; and

(2) submit a complete and accurate water use report pursuant to K.S.A. 82a-732, and amendments thereto.

(b) If the owner submits both the complete and accurate water use report and payment of the civil penalty after March 1 but before June 1, the civil penalty per water right or approval of application may be reduced to \$250 for each water right or approval of application.

If the owner submits the reduced civil penalty but not the water use report after March 1, the civil penalty may increase on June 1 to the maximum civil penalty of \$1,000 for each water right or approval of application. The initial reduced civil penalty received after March 1 but before June 1 shall be applied toward the maximum civil penalty owed. (Authorized by K.S.A. 82a-706a; implementing K.S.A. 82a-706a, K.S.A. 2016 Supp. 82a-732, and K.S.A. 2016 Supp. 82a-737; effective Oct. 24, 2003; amended Sept. 22, 2017.)

5-14-12. Civil penalties for exceeding the authorized quantity of water. (a) Penalty order. In addition to any other authorized enforcement procedures, if the chief engineer finds a diversion of water in excess of the authorized quantity, a written penalty order may be issued by the chief engineer pursuant to 82a-737(e), and amendments thereto.

(b) Owner liability and effect of penalty on water right. Any civil penalty and any temporary reduction or suspension of the quantity of water authorized to be diverted under a water right in this state may be enforced against the owner or owners of the water right and shall attach to and transfer with the water right to any subsequent heir, assignee, purchaser, or other subsequent holder of the water right.

(c) Penalty categories. Any violation for diversion of water in excess of the authorized quantity may be subject to the penalties specified in one of the following categories, as listed in subsection (e): category 1, category 2, category 3, or category 4.

(1) A category 1 penalty may be assessed if no penalty for diversion of water in excess of the authorized quantity has been assessed against the water right for a violation that occurred during the five calendar years preceding the calendar year in which the most recent violation occurred.

(2) A category 2 penalty may be assessed if one prior penalty for diversion of water in excess of the authorized quantity has been assessed against the water right for a violation that occurred during the five calendar years preceding the calendar year in which the most recent violation occurred.

(3) A category 3 penalty may be assessed if two prior penalties for diversion of water in excess of the authorized quantity have been assessed against the water right for a violation that occurred during the five calendar years preceding the calendar year in which the most recent violation occurred.

(4) A category 4 penalty may be assessed if three or more prior penalties for diversion of water in excess of the authorized quantity have been assessed against the water right for a violation that occurred during the five calendar years preceding the calendar year in which the most recent violation occurred.

(d) Severity level of violation. Any violation may be assigned a severity level based upon the amount of water diverted in excess of the authorized quantity, according to the following:

(1) A water right that has exceeded its authorized quantity by less than an amount equal to the amount resulting from 24 hours of pumping at the maximum authorized rate may be assessed a maximum of a severity level A penalty.

(2) A water right that has exceeded its authorized quantity by an amount equal to at least the amount resulting from 24 hours of pumping but less than an amount equal to 72 hours of pumping at the maximum authorized rate may be assessed a maximum of a severity level B penalty.

(3) A water right that has exceeded its authorized quantity by an amount equal to at least the amount resulting from 72 hours of pumping at the maximum authorized rate may be assessed a maximum of a severity level C penalty.

(e) Penalty table. The following table may be used to determine the maximum civil penalty and the maximum reduction or modification of the water right that may apply to each violation, based on the penalty category and the severity level of the violation:

Penalty category	Severity level A	Severity level B	Severity level C
1	Written notice of noncompliance	\$1,000 per day and a reduction in quantity equal to two times the quantity overpumped, not to exceed the annual authorized quantity	\$1,000 per day and a reduction in quantity equal to three times the quantity overpumped, not to exceed the annual authorized quantity

Penalty category	Severity level A	Severity level B	Severity level C
2	\$1,000 per day and a reduction in quantity equal to two times the quantity overpumped, not to exceed the annual authorized quantity	\$1,000 per day and a one-year suspension	\$1,000 per day and three-year suspension
3	\$1,000 per day and a one-year suspension	\$1,000 per day and a three-year suspension	\$1,000 per day and a four-year suspension
4	\$1,000 per day and a three-year suspension	\$1,000 per day and a four-year suspension	\$1,000 per day and a five-year suspension

(f) Mitigating factors. The monetary penalties and suspension terms specified in subsection (e) may be reduced due to one or more of the following factors:

(1) The absence of any prior penalty assessed under the Kansas water appropriation act, or the implementing regulations, during the five calendar years preceding the calendar year in which the most recent violation occurred;

(2) the absence of intentional noncompliance or gross negligence; or

(3) prompt cessation or correction of the violation upon discovery or notification by the chief engineer or an authorized representative of the chief engineer or by personnel from a groundwater management district.

(g) Notice of noncompliance. Any notice of noncompliance issued under this regulation may be considered a category 1 penalty for purposes of classifying any future violation.

(h) Multiple water rights.

(1) If multiple water rights or permits authorize the use of water from a single point of diversion and if the water used exceeds the total quantity of water authorized by the water rights and permits, all water rights and permits under which the water was lawfully diverted may be deemed to be violated unless sufficient evidence to the contrary is offered by one or more of the water right owners.

(2) Any monetary penalty assessed under this regulation may be applied jointly and separately to the water rights, any temporary quantity reduction may be applied proportionally to each water right based on the authorized quantities for the

water rights, and any suspension may be applied to all the water rights, unless it can be determined that the quantity available under a given water right was not exceeded.

(i) Penalties for water rights in a term permit. For each instance of diversion of water in excess of the total authorized quantity under a multiyear flex account term permit or other term permit during which the base water right is suspended, the chief engineer may revoke the term permit. For each revocation, a suspension may be applied to the base water right for what would have been the remainder of the term of the permit, in addition to any penalty assessed according to subsection (e). Any additional reduction or suspension may run consecutively with the suspension for what would have been the remainder of the term of the term permit.

(j) Expiration of penalty.

(1) Any penalty assessed by the chief engineer for diversion of water in excess of the authorized quantity under this regulation may expire four calendar years after the end of the calendar year in which the penalty was assessed.

(2) Any penalty that has not expired may be counted as a prior penalty for purposes of determining the category level of any future penalty for diversion of water in excess of the authorized quantity.

(3) A penalty that has expired under paragraph (j)(1) shall not be considered in assessing a future penalty under this regulation or under K.A.R. 5-14-10.

(4) A penalty that has expired shall not be expunged from the record of a water right and, except as otherwise provided in this regulation, may be considered by the chief engineer for any purposes pursuant to the Kansas water appropriation act, K.S.A. 82a-701 et seq. and amendments thereto, and the implementing regulations. (Authorized by K.S.A. 82a-706a; implementing K.S.A. 82a-706a and K.S.A. 2016 Supp. 82a-737; effective July 14, 2017.)

Article 16.—FLEX ACCOUNT

5-16-1. Definitions. The terms and definitions in this regulation shall apply to this article and to K.S.A. 82a-736, and amendments thereto, unless the context clearly requires otherwise. (a) “Subdivision or subdivisions of the place of use for the base water right” means one or more portions of the authorized place of use under the base wa-

ter right that are identifiable and completely circumscribed by the boundaries of place of use for the base water right.

(b) “Water conservation” means conservation by means of actual physical changes in a water distribution system or management practices that improve water use efficiency, which shall include one or more of the following:

(1) Conversion from flood irrigation to center pivot irrigation with a nozzle package designed to improve water use efficiency;

(2) conversion to subsurface drip irrigation;

(3) removal of an end gun, resulting in a significant reduction in the number of irrigated acres; or

(4) enrollment of the base water right in the water right conservation program, the conservation reserve program, or any other multiyear water conservation program approved by the chief engineer. (Authorized by K.S.A. 82a-706a; implementing K.S.A. 2012 Supp. 82a-736; effective Oct. 11, 2002; amended Jan. 6, 2006; amended, T-5-8-29-11, Aug. 29, 2011; amended Dec. 16, 2011; amended June 21, 2013.)

5-16-2. (Authorized by K.S.A. 82a-706a; implementing K.S.A. 2001 Supp. 82a-708a(d), as amended by L. 2002, Ch. 181, § 21; effective Oct. 11, 2002; revoked June 21, 2013.)

5-16-3. Establishing a multiyear flex account. (a) A multiyear flex account shall be established by filing an application for a multiyear flex account and a term permit on a form prescribed by the chief engineer. Each application shall meet the following requirements:

(1) Except as specified in subsection (e), a separate application shall be filed for each water right and each point of diversion for which the owner desires to establish a multiyear flex account. Each application shall be accompanied by the appropriate filing fee;

(2) be date-stamped showing the date the application was filed with the chief engineer;

(3) indicate the five consecutive calendar years that are to be designated as the multiyear flex account period; and

(4) indicate whether the multiyear flex account period will commence with the year in which the application is made if filed before October 1, or with the next calendar year after the calendar year in which the application is filed.

(b) Before any application to establish a multiyear flex account and a term permit will be ac-

cepted for filing, the application shall be signed by at least one owner of the water right or an authorized agent of an owner of the water right.

(c) Before the multiyear flex account can be established or the term permit approved, all of the water rights owners, or an authorized agent of the owners, shall verify upon oath or affirmation that the statements contained in the application are true and complete.

(d) If one or more owners refuse to sign the application or if a written request is filed by one or more of the owners to withdraw their signatures from the application before the application is approved, the application shall be dismissed.

(e) A single application to establish a multiyear flex account and apply for a term permit shall be filed in the following situations:

(1) Multiple water rights authorize the diversion of water from a single point of diversion that diverts water to an identical place of use.

(2) Multiple points of diversion are authorized by the chief engineer to divert water through a single water flowmeter before going to an identical place of use.

(f) The multiyear flex account shall not be established and the term permit to exercise the multiyear flex account shall not be valid until both have been approved by the chief engineer. (Authorized by K.S.A. 82a-706a; implementing K.S.A. 2012 Supp. 82a-736; effective Oct. 11, 2002; amended, T-5-8-29-11, Aug. 29, 2011; amended Dec. 16, 2011; amended June 21, 2013.)

5-16-4. Conditions on the term permit.

(a) The place of use authorized by a term permit shall be identical to the place or places of use authorized by the base water right or rights or a subdivision or subdivisions of the place of use for the base water right.

(b) The types of use authorized by a term permit shall be limited to the types of use authorized by the base water right or rights.

(c) The rate of diversion authorized by a term permit shall not exceed the maximum instantaneous rate of diversion authorized by the base water right or rights. (Authorized by K.S.A. 82a-706a; implementing K.S.A. 2012 Supp. 82a-736; effective Oct. 11, 2002; amended June 21, 2013.)

5-16-5. (Authorized by K.S.A. 82a-706a; implementing K.S.A. 2010 Supp. 82a-736, as amended by L. 2011, ch. 89, sec. 28; effective Oct. 11, 2002; amended Jan. 6, 2006; amended, T-5-

8-29-11, Aug. 29, 2011; amended Dec. 16, 2011; revoked June 21, 2013.)

5-16-6. Multiyear flex accounts and term permits. (a) The duration of the multiyear flex account and term permit shall be five consecutive calendar years.

(b) If water use records for a base water right are inadequate to accurately determine actual water use during any calendar year in the period used to determine the base average usage, then the actual water use for that calendar year shall be deemed to be zero.

(c) There shall be no carryover of unused quantities of water from one multiyear flex account or term permit to another multiyear flex account or term permit.

(d) No multiyear flex account shall be allowed if the multiyear flex account is inconsistent with the provisions of any intensive groundwater use control area created pursuant to K.S.A. 82a-1036 through K.S.A. 82a-1040, and amendments thereto, or any local enhanced management area created pursuant to K.S.A. 82a-1041, and amendments thereto.

(e) Water flowmeters shall be required under all multiyear flex account term permits and shall meet all of the following requirements:

(1) A water flowmeter meeting the requirements of the chief engineer shall be installed on each point of diversion authorized by the base water right.

(2) Each water flowmeter and the measuring chamber shall be sealed to the diversion works in a manner to ensure that the flowmeter and the measuring chamber can not be removed and reinstalled without breaking the seal.

(3) Each water flowmeter register shall be sealed in a manner to ensure that the register can not be manipulated without breaking the seal.

(4) Each replacement of a water flowmeter during the duration of a multiyear flex account shall be equipped with an anti-reverse-flow mechanism.

(f) Only an entire water right, or a portion of a water right that has been formally divided, may be deposited in a multiyear flex account. Nothing in this subsection shall prevent a multiyear flex account term permit from authorizing a subdivision of the place of use for the base water right as the place of use for the multiyear flex account.

(g) All water diverted pursuant to a term permit and the base water rights associated with the

term permit shall be counted against the quantity of water deposited in the multiyear flex account. (Authorized by K.S.A. 82a-706a; implementing K.S.A. 2012 Supp. 82a-736; effective Oct. 11, 2002; amended June 21, 2013.)

5-16-7. Conditions under which a base water right may be exercised. Each term permit approved by the chief engineer pursuant to K.S.A. 82a-736, and amendments thereto, shall include the condition that if the term permit can no longer be exercised because of an order issued by the chief engineer, including an intensive groundwater use control area order, a minimum desirable streamflow order, or an order to administer water rights to prevent impairment, then any base water right may be exercised to the extent that all of the following conditions are met: (a) The base water right is in priority, including priority with respect to any established minimum desirable streamflow.

(b) The annual quantity of water authorized by the base water right has not been diverted during that calendar year.

(c) The five-year quantity authorized by the term permit has not been completely used.

(d) The use of water under the base water right does not impair water rights senior to the base water right. (Authorized by K.S.A. 82a-706a; implementing K.S.A. 2012 Supp. 82a-736; effective Oct. 11, 2002; amended June 21, 2013.)

Article 17.—WATER BANKING

5-17-2. Application to deposit a water right into a water bank or withdraw a deposit.

(a) Each water right owner proposing to deposit all or a portion of a water right into a water bank shall complete an application on a form prescribed by the water bank and approved by the chief engineer. The application shall be filed with the water bank on or before April 1 of the year in which the deposit will be made. A water right, or a portion of a water right, may be deposited only in increments of full calendar years. A water right shall not be eligible for deposit if water use occurred under the water right, or a portion of the water right, at any time from January 1 through March 31 of the year in which the deposit will be made. The application shall contain the following information concerning the water right, or portion of the water right, that is proposed to be deposited:

(1) The file number of the water right to be deposited;

(2) if the water right is a vested right or an appropriation right that has been certified by the chief engineer, specification of that status;

(3) the hydrologic unit from which the water right is authorized to withdraw water;

(4) the calendar years during which the water right will be on deposit. This period shall not exceed five years; and

(5) any CRP contracts that were in effect for any part of the representative past period.

(b) A water right may be withdrawn from deposit only if both of the following conditions are met:

(1) The water right has not been leased in whole or part.

(2) An application to withdraw the water right from deposit is made before July 1 of the calendar year for which the deposit has been made. Withdrawal of a water right during one calendar year also shall withdraw the water right from deposit in any subsequent years for which the water right may have been deposited. (Authorized by K.S.A. 2009 Supp. 82a-769; implementing K.S.A. 2009 Supp. 82a-763, K.S.A. 2009 Supp. 82a-764, and K.S.A. 2009 Supp. 82a-769; effective Aug. 13, 2004; amended May 21, 2010.)

ARTICLE 20.—INTENSIVE GROUNDWATER USE CONTROL AREA

5-20-1. Intensive groundwater use control area; public hearings. (a) In any case in which the chief engineer initiates proceedings for the designation of an intensive groundwater use control area (IGUCA), an independent hearing officer shall be appointed by the chief engineer. The independent hearing officer shall meet the following requirements:

(1) Not have been an employee of the department of agriculture for at least five years before the appointment;

(2) be admitted to practice law in this state; and

(3) be knowledgeable by training and experience in water law and administrative procedure.

(b)(1) The independent hearing officer shall conduct one or more public hearings to determine whether both of the following conditions are met:

(A) One or more of the circumstances specified in K.S.A. 82a-1036, and amendments thereto, exist.

(B) The public interest requires that one or more corrective control provisions should be adopted.

(2) If both of the conditions in paragraph (b) (1) are met, the independent hearing officer shall recommend the boundaries of the IGUCA.

(c) At the public hearing specified in subsection (b), all of the following requirements shall be met:

(1) Documentary and oral evidence shall be taken, and a full and complete record of the public hearing shall be kept.

(2) The division of water resource's (DWR's) staff shall make a proffer of the records of the division pertaining to the proposed IGUCA and may present background, hydrologic, and other information and an analysis of that information, concerning the area in question.

(3) The DWR's proffer and any other DWR presentations shall be heard first, unless the hearing officer determines that a different order of presentation will facilitate the conduct of the hearing.

(4) If any part of the proposed IGUCA is within the boundaries of a groundwater management district (GMD), a representative of that GMD shall be allowed to present the GMD's own data, analysis, comments, provisions of the GMD's revised management plan, regulations, and recommendations at any public hearing.

(5) Each person shall be allowed to give an oral statement under oath or affirmation or to present documentary evidence, including a signed written statement.

(6) At the end of the public hearing, a reasonable opportunity for any person to submit oral or written comments concerning the matters presented may be allowed by the hearing officer.

(7) The hearing shall be conducted according to the procedure specified in K.A.R. 5-14-3a. The hearing officer shall have the discretion to use a different procedure if it facilitates the conduct of the hearing.

(8) The independent hearing officer shall make the following findings of fact:

(A) Whether one or more of the circumstances specified in K.S.A. 82a-1036, and amendments thereto, exist; and

(B) whether the public interest requires that one or more corrective control provisions should be adopted.

(9) The independent hearing officer shall transmit the findings to the chief engineer.

(d) The proceeding shall be concluded if the independent hearing officer finds that at least one of the following conditions is met:

(1) None of the circumstances specified in K.S.A. 82a-1036, and amendments thereto, exist.

(2) The public interest does not require that any corrective control provisions should be adopted.

(e) The procedure specified in subsection (f) shall be followed by the chief engineer if the independent hearing officer meets all of the following conditions:

(1) Finds that one or more of the conditions specified in K.S.A. 82a-1036, and amendments thereto, exist;

(2) finds that public interest requires that any one or more corrective control provisions should be adopted; and

(3) recommends the boundaries of the proposed IGUCA.

(f) If the independent hearing officer makes the findings and recommendation specified in subsection (e), one or more public hearings shall be conducted by the chief engineer to determine the following:

(1) What the goals of the IGUCA should be;

(2) what corrective control provisions should be adopted; and

(3) what the final boundaries of the IGUCA should be. After the hearing, the order described in K.S.A. 82a-1038, and amendments thereto, shall be issued by the chief engineer. The chief engineer's order shall include the independent hearing officer's findings of fact.

(g) Notice of the public hearings held by the independent hearing officer shall be given by regular mail and by publication, as specified in K.S.A. 82a-1037 and amendments thereto. (Authorized by K.S.A. 82a-706a; implementing K.S.A. 74-510a, K.S.A. 82a-1036, K.S.A. 82a-1037, and K.S.A. 2008 Supp. 82a-1038; effective Sept. 18, 2009.)

5-20-2. Formal review of intensive groundwater use control area orders. (a) For each intensive groundwater use control area (IGUCA) designated by order of the chief engineer before July 1, 2008, pursuant to K.S.A. 82a-1038 and amendments thereto, a public hearing to review the designation shall be conducted by the chief engineer within seven years of the effective date of this regulation. A subsequent review of the designation shall occur within 10 years after the previous public review hearing or more frequently as determined by the chief engineer.

(b) For each IGUCA designated by order of the chief engineer on or after July 1, 2008, a public hearing to review the designation shall be conducted by the chief engineer within seven years after the order is final. A subsequent review of the designation shall occur within 10 years after the

previous public review hearing or more frequently as determined by the chief engineer.

(c) Upon the request of a petition signed by at least five percent of the affected water users in an IGUCA designated by order of the chief engineer, a public review hearing to review the designation shall be conducted by the chief engineer. This requested public review hearing shall not be conducted more frequently than every four years.

(d) Written notice of a public review hearing shall be given to each person holding a water right in the affected area. Notice of the hearing shall be given by publication in a newspaper or newspapers of general circulation within the affected area at least 30 days before the date set for the hearing. The notice shall indicate the reason for the hearing and shall specify the time and place of the hearing. At the public review hearing, documentary and oral evidence shall be taken, and a full and complete record of the public review hearing shall be kept.

(e) The following shall be considered by the chief engineer at the public review hearing:

(1) Whether one or more of the circumstances specified in K.S.A. 82a-1036, and amendments thereto, exist; and

(2) whether the public interest requires that the IGUCA designation be continued. The state shall have the burden of proving the need for continuance of the IGUCA designation.

(f) Based on the review specified in subsection (e), one of the following actions shall be taken by the chief engineer:

(1) Continue the IGUCA with its original or current corrective control provisions;

(2) reduce the restrictions imposed by one or more corrective control provisions within the scope and goals specified in the original IGUCA order;

(3) reduce the IGUCA boundaries;

(4) increase any allocations within the IGUCA;

(5) address any other issues that have been identified in the review; or

(6) revoke the IGUCA order and implement alternative measures, if necessary, to address the water issues in the affected areas.

(g) If, as a result of the review specified in subsection (e), the chief engineer determines that the restrictions imposed by current corrective control provisions may need to be increased or additional corrective control provisions may be needed, a hearing shall be conducted by the chief engineer according to K.A.R. 5-14-3a.

(h) If, as a result of the review specified in subsection (e), the chief engineer determines that the boundaries of the IGUCA may need to be increased, a new IGUCA proceeding shall be initiated by the chief engineer pursuant to K.A.R. 5-20-1. (Authorized by K.S.A. 82a-706a; implementing K.S.A. 82a-706 and K.S.A. 82a-1036; effective Sept. 18, 2009.)

**Article 21.—WESTERN KANSAS
GROUNDWATER MANAGEMENT
DISTRICT NO. 1**

5-21-3. Well spacing requirements. (a) Each well location described in an application for a permit to appropriate water for a beneficial use, other than domestic use, that proposes the diversion or withdrawal of water from the Ogallala aquifer shall be spaced at least 2,640 feet from all other non-domestic wells constructed into the Ogallala aquifer.

(b)(1) Each well location described in an application for a permit to appropriate water for a beneficial use, other than domestic use, that proposes the diversion or withdrawal of water from the Dakota aquifer shall be spaced at least four miles from all other non-domestic wells constructed into the Dakota aquifer.

(2) Each well in the Dakota aquifer shall be sealed off between the Dakota aquifer and any other aquifers in a manner that prevents migration of water to or from the Dakota aquifer and any other aquifers.

(c) Each well included in an application for a permit to appropriate water for a beneficial use, other than domestic use, that proposes the diversion or withdrawal of water shall be at least 1,320 feet away from each domestic well constructed into the same aquifer unless the applicant has received written permission from the neighboring well owner or the applicant owns each domestic well.

(d) The location of each well on an application for approval to change the point of diversion under an existing water right shall be no more than 1,320 feet from the originally authorized point of diversion and shall meet one of the following requirements:

(1) Not decrease the distance to any other wells or authorized well locations by more than 300 feet; or

(2) meet the minimum well spacing requirements in this regulation.

(e) Each new well shall be drilled in the location substantially as shown on the approved application and the accompanying map, plat, or aerial photograph.

(f) Exceptions to this regulation may be granted on an individual basis by recommendation of the board in conjunction with the approval of the chief engineer. The applicant may be required by the board to submit information as it deems necessary in order to make the determination. (Authorized by and implementing K.S.A. 82a-706a and K.S.A. 2015 Supp. 82a-1028; effective May 1, 1979; amended May 23, 1994; amended March 17, 2017.)

5-21-4. Safe yield. (a) Except as specified in subsection (c), the district shall be closed to new appropriations of water in the portions of the unconsolidated aquifers commonly known as the Ogallala formation and the Niobrara formation that are located within the district.

(b) The approval of each application for a change in the point of diversion shall be subject to the following requirements, if the diversion works have not been completed under the original approved application:

(1) The proposed appropriation, when added to the vested rights, prior appropriation rights, and earlier priority applications, shall not exceed the allowable safe yield amount for the area included within a two-mile-radius circle, which is approximately 8,042 acres, of the proposed well.

(2) For the purpose of analysis, all vested rights, certificates, permits, and prior unapproved applications shall be considered to be fully exercised, and all limitation clauses listed on permits to appropriate water and certificates shall be considered to be in force.

(3) In the case of an application for change in the point of diversion referred to in subsection (b), each application and water right with a priority earlier than the priority established by the filing of the application for change shall be included in the analysis.

(4) The allowable annual safe yield amount shall be calculated using the following formula:

$$Q = \frac{AR}{12}$$

Q = the allowable annual safe yield amount in acre-feet per year

A = area of consideration, within a two-mile-radius circle, approximately 8,042 acres

R = average annual recharge of 0.5 inches per year

(5) If part of the radial area is located outside the district boundary, that part shall be included in the depletion analysis only if the chief engineer determines that hydraulically connected groundwater exists in that portion of the area outside the district. A part of the area of consideration lying outside the state of Kansas shall not be included in the analysis.

(6) If wells authorized under a vested right, a certified water right, or a permit to appropriate water are divided by the circumference of the radial area, the authorized quantity of water shall be assigned to each well. If specific quantities are not authorized for each well, a proportional amount shall be assigned to each well.

(c) This regulation shall not apply to the following:

- (1) Domestic use;
- (2) temporary permits and term permits; and
- (3) a new application filed to appropriate groundwater in any area of the district not within an intensive groundwater use control area, meeting all of the following criteria:

(A) The sum of the annual quantity requested by the proposed appropriation and the total annual quantities authorized by prior permits allowed because of an exemption pursuant to this subsection does not exceed 15 acre-feet in a two-mile-radius circle surrounding the proposed point of diversion.

(B) Well spacing criteria in the area have been met.

(C) The approval of the application does not authorize an additional quantity of water out of an existing authorized well with a nondomestic permit or water right that would result in a total combined annual quantity of water authorized from that well in excess of 15 acre-feet.

(D) All other criteria for approving a new application to appropriate water at that location have been met.

(d) Exceptions to this regulation may be granted on an individual basis by recommendation by the board in conjunction with the approval of the chief engineer. The applicant may be required by the board to submit information necessary in order to make the determination. (Authorized by K.S.A. 82a-706a and K.S.A. 2009 Supp. 82a-1028;

implementing K.S.A. 82a-706, K.S.A. 82a-708b, and K.S.A. 2009 Supp. 82a-1028; effective May 23, 1994; amended Sept. 22, 2000; amended April 15, 2011.)

5-21-6. Water flowmeters. (a) Except as specified in subsection (b), each well authorized within the boundaries of the district shall be equipped with a totalizing water flowmeter that is installed and maintained in accordance with the specifications in K.A.R. 5-1-4 through 5-1-12. Each water right owner shall maintain the water flowmeter so that the flowmeter functions properly whenever the diversion of water can reasonably be expected to occur. If the water flowmeter fails to function properly, the owner shall promptly initiate action to repair or replace the meter or to correct any problems with the installation.

(b) The following types of water use shall be exempt from the requirements of this regulation:

- (1) Domestic use; and
- (2) use pursuant to a temporary permit to appropriate water. (Authorized by K.S.A. 82a-706a and K.S.A. 2015 Supp. 82a-1028; implementing K.S.A. 82a-706c and K.S.A. 2015 Supp. 82a-1028; effective Jan. 24, 2003; amended May 27, 2016.)

5-21-7. (Authorized by K.S.A. 82a-706a and K.S.A. 82a-1028, as amended by L. 2002, Ch. 137, § 5; implementing K.S.A. 82a-1028, as amended by L. 2002, Ch. 137, § 5 and K.S.A. 2001 Supp. 82a-1903, as amended by L. 2002, Ch. 137, § 7; effective Jan. 24, 2003; revoked Nov. 15, 2019.)

Article 22.—EQUUS BEDS GROUNDWATER MANAGEMENT DISTRICT NO. 2

5-22-4a. Water flowmeter requirement.

Each nondomestic, nontemporary well meeting any of the following conditions shall be equipped with a water flowmeter that meets or exceeds the requirements of K.A.R. 5-22-4: (a) A well operated under the authority of an approval of application issued on or after September 1, 1987;

(b) a well operated under the approval of an application for change in the place of use, the point of diversion, or the use made of the water, or any combination of these, filed after September 1, 1987;

(c) a well that meets the standards for being a standby well as specified in K.A.R. 5-22-1;

(d) a well for which a certificate of appropriation was issued on or after July 1, 1995;

(e) a well not equipped with a water flowmeter before December 31, 2010. Each such well shall be equipped with a water flowmeter that meets or exceeds the requirements of K.A.R. 5-22-4, pursuant to the following schedule:

(1) On or before December 31, 2012, each well in the northeast quarter of every section located within the district boundaries;

(2) on or before December 31, 2013, each well in the southeast quarter of every section located within the district boundaries;

(3) on or before December 31, 2014, each well in the southwest quarter of every section located within the district boundaries; and

(4) on or before December 31, 2015, each well in the northwest quarter of every section located within the district boundaries; or

(f) a well for which the board determines it is necessary to have a water flowmeter to ensure any of the following:

(1) The accuracy of reported water use;

(2) compliance with the terms, conditions, and limitations of the water right, approval of application, or approval of change; or

(3) nonimpairment of other water rights. (Authorized by and implementing K.S.A. 2010 Supp. 82a-1028; effective Jan. 10, 2003; amended Aug. 5, 2011.)

5-22-4d. Water flowmeter installation procedures. (a) If installation of a water flowmeter is required by the board, the owner of the approval of application or the water right shall be notified of the requirement in writing.

(b) A water flowmeter shall be installed on a new or replacement point of diversion within 30 days after the point of diversion is operational, or before the diversion of water, whichever occurs first.

(c) Unless otherwise specified by the board, a water flowmeter shall be installed on an existing point of diversion within 30 days of the issuance of the water flowmeter order by the district, or before the diversion of water, whichever occurs first.

(d) An extension of time to install the water flowmeter may be granted by the board, or the board's designee, if a request for an extension of time is filed with the district before the expiration of the time to install the water flowmeter and one of the following conditions is met:

(1) The water right owner has a contract with a vendor to install a water flowmeter, but the vendor cannot complete the installation within the time allowed.

(2) Weather, site conditions, or other conditions beyond the control of the owner prevent the water flowmeter from being installed within the time allowed.

(3) The owner demonstrates any other reason constituting good cause why the water flowmeter cannot be installed within the time allowed and that granting an extension of time will not be adverse to the public interest.

(e) The water right owner shall notify the district within 30 days after the required water flowmeter is installed. The notification shall be submitted on a form prescribed by the board, or the board's designee.

(f) An inspection of the water flowmeter installation may be made by the board, or the board's designee, to determine if the water flowmeter has been properly installed in accordance with the requirements of K.A.R. 5-22-4, K.A.R. 5-22-4a, and K.A.R. 5-22-4b.

(g) If an inspection is made by the board or the board's designee, the owner shall be notified by the board, or the board's designee, of the results of the inspection in writing. (Authorized by and implementing K.S.A. 82a-706a and K.S.A. 2010 Supp. 82a-1028; effective Nov. 12, 2004; amended Aug. 5, 2011.)

5-22-7. Safe yield. (a) Except as specified in subsection (b), the approval of each application for a change in the point of diversion, term permit, and permit to appropriate water for beneficial use shall be subject to the following requirements:

(1) The sum of prior appropriations shall include all of the following:

(A) The proposed application;

(B) vested rights;

(C) appropriation rights;

(D) term permits;

(E) earlier priority applications; and

(F) baseflow nodes.

The sum of prior appropriations shall not exceed the allowable safe-yield amount for the area of consideration. The non-consumptive use of groundwater previously authorized by the chief engineer shall be excluded from the sum of prior appropriations.

(2) The quantity authorized on all prior permits, certificates, and vested rights, the quantity requested on prior applications, and the quantities allocated to baseflow nodes shall be used to calculate the sum of prior appropriations and baseflow allocations.

(3) All conditions and limitation clauses listed on all prior appropriations and applications in the area of consideration shall be considered in effect.

(4) The baseflow allocation for baseflow nodes shall be calculated using the formula $Q_a = T/N$ where:

(A) Q_a is the baseflow allocation per baseflow node in acre-feet per year;

(B) T is the total baseflow allocation for a reach of a stream in acre-feet per calendar year. T is the average of the 12 calendar months' daily flow values in cubic feet per second that were equaled or exceeded 90 percent of the time during a specifically designated hydrologically significant period of record, times a factor of 724; and

(C) N is the number of baseflow nodes established on a stream or reach of a stream. Nodes are located at the upstream end of the watercourse reach and thereafter at the intersection of the channel of a watercourse and an arc of a 1,320-foot-radius circle whose center is located on the previously established baseflow node.

(5) The allowable safe-yield amount shall be calculated using the formula $S = A \times K$ where:

(A) S is the allowable safe-yield amount in acre-feet per year;

(B) A is the area of consideration; and

(C) K is an aquifer recharge value in feet. Everywhere in the district, except in McPherson county and the well spacing areas specified in K.A.R. 5-22-2(d)(1), K is equal to 0.5 feet per year.

(i) In McPherson county, K is a constant equaling 0.25 feet per year.

(ii) In the well spacing areas specified in K.A.R. 5-22-2(d)(1) and located south of the centerline of the North Fork Ninnescah river, K is equal to 0.25 feet per year. In the well spacing areas specified in K.A.R. 5-22-2(d)(1) and located north of the centerline of the North Fork Ninnescah river, K is equal to 0.1667 feet per year.

K is calculated by multiplying the recharge percentage times the average annual precipitation of 2.5 feet per year. The recharge percentage is 10 percent in McPherson county and the well spacing areas specified in K.A.R. 5-22-2(d)(1) and located south of the centerline of the North Fork Ninnescah river, 6.667 percent in the well spacing areas specified in K.A.R. 5-22-2(d)(1) and located north of the centerline of the North Fork Ninnescah river, and 20 percent for the rest of the district.

(6) When evaluating an application for a change in the point of diversion, each application with a priority earlier than the priority established by the

filing of the application of change shall be included in the safe-yield analysis.

(7) If the perimeter of the area under consideration intersects a group of wells authorized under prior applications, permits, certificates, or vested rights, a reasonable quantity of water shall be assigned to each well based upon the best available information.

(b) The following shall not be subject to this regulation:

(1) An application to appropriate groundwater in an area not closed by regulation or intensive groundwater use control area order by the chief engineer to new non-domestic, non-temporary permits and term permits for five or fewer years, if all of the following conditions are met:

(A) The annual quantity of water requested in the application does not exceed 15 acre-feet;

(B) the sum of the annual quantity of water requested in the application and the total annual quantities of water authorized by prior approvals of applications allowed because of an exemption pursuant to this regulation does not exceed 45 acre-feet in a two-mile-radius circle surrounding the proposed point of diversion;

(C) the approval of the application does not authorize an additional quantity of water out of an existing authorized point of diversion with a non-domestic approval of application or water right that would then authorize a total combined annual quantity of water from that point of diversion in excess of 15 acre-feet;

(D) the approval of the application does not authorize an additional quantity of water to be used on a currently authorized non-domestic place of use in excess of 15 acre-feet;

(E) the approval of the application does not authorize an additional quantity of water to be pumped through a common distribution system in excess of 15 acre-feet;

(F) the application meets the well spacing criteria in K.A.R. 5-22-2;

(G) the application meets the requirements of all other applicable regulations in effect when the application is filed; and

(H) the maximum authorized rate of diversion does not exceed 50 gallons per minute;

(2) an application for a non-consumptive use of groundwater;

(3) an application for change in point of diversion, if the following conditions are met:

(A) The diversion works were completed 300 feet or less from the originally authorized point of

diversion and within 150 feet of the location approved by the chief engineer;

(B) a notice of completion was timely filed with the chief engineer under the original approval of application; and

(C) if located within the well spacing areas specified in K.A.R. 5-22-2(d)(1), both of the following conditions are met:

(i) The number of wells comprising the point of diversion is not proposed to be increased; and

(ii) each point of diversion is proposed to be relocated 300 feet or less from the currently authorized location, the currently authorized point of diversion and diversion works have been completed, and a notice of completion has been timely filed with the chief engineer before the effective date of this regulation;

(4) an application requesting only an additional rate of diversion on an existing well, if the approval of the application meets the following requirements:

(A) Is limited to the maximum annual quantity of water authorized by a prior certified, vested, or appropriation right; and

(B) contains both of the following requirements:

(i) The approved application for additional rate shall be dismissed if the prior certified, vested, or appropriation right is dismissed and terminated; and

(ii) the approved or certified maximum annual quantity of water shall be reduced in an amount equal to any subsequent reduction in the maximum annual quantity of water authorized by the prior certified, vested, or appropriation right;

(5) an application for a standby well;

(6) an application for a bank storage well only to the extent that the bank storage well is withdrawing bank storage water; and

(7) an application for an aquifer storage and recovery well. (Authorized by and implementing K.S.A. 82a-706a and K.S.A. 2015 Supp. 82a-1028; effective May 1, 1983; amended Oct. 15, 1990; amended March 7, 1994; amended Nov. 12, 2004; amended May 14, 2010; amended June 12, 2015; amended March 25, 2016.)

Article 23.—SOUTHWEST KANSAS GROUNDWATER MANAGEMENT DISTRICT NO. 3

5-23-4. High plains aquifer. (a) Except as specified in subsection (b), the district shall be closed to new appropriations of water in the high plains aquifer.

(b) This regulation shall not apply to the following:

(1) Wells for domestic use;

(2) wells authorized by temporary permits;

(3) wells authorized by term permits of no more than five years;

(4) an application to appropriate 15 acre-feet of water or less if all of the following conditions are met:

(A) The area is closed to new appropriations, but the sum of the annual quantity requested by the proposed appropriation and the total quantities authorized by prior permits because of this exemption does not exceed 15 acre-feet in a circle with a radius of two miles surrounding the proposed point of diversion.

(B) Well spacing criteria have been met.

(C) Approval of the application will not authorize an additional quantity of water out of an existing well authorized by a nondomestic approval of application or water right, which would result in a total combined annual quantity of water authorized from that well in excess of 15 acre-feet.

(D) All other criteria for processing a new application have been met.

(c) Each application filed to request a well within the area described in subsection (e) shall include a driller's log, an electric log, and a laboratory analysis from a state-certified laboratory of the chloride concentrations in samples taken from whatever depths are necessary to determine the vertical location where the chloride concentrations exceed 250 milligrams per liter (mg/l). The samples shall be taken from a well located within a 300-foot radius of the proposed well. A state-certified laboratory analysis shall be used to determine the vertical location of the chloride concentrations exceeding 250 mg/l.

(d) Each well constructed in the area described in subsection (e) shall be constructed in a manner that prevents the movement of water containing 250 mg/l of chlorides beyond its naturally occurring condition.

(e) The level of chlorides may exceed 250 mg/l in the following areas:

(1) The west ½ of townships 33, 34, and 35 south, range 28 west in Meade County, Kansas;

(2) the east ½ of township 33 south, range 29 west in Meade County, Kansas;

(3) all of townships 34 and 35 south, ranges 29 and 30 west in Meade County, Kansas; and

(4) all of townships 34 and 35 south, ranges 31 and 32 west and the east ½ of townships 34 and 35

south, range 33 west in Seward County, Kansas. (Authorized by K.S.A. 82a-706a and K.S.A. 2015 Supp. 82a-1028; implementing K.S.A. 82a-706a, K.S.A. 2015 Supp. 82a-711, and K.S.A. 2015 Supp. 82a-1028; effective May 1, 1981; amended May 1, 1986; amended Aug. 28, 1989; amended Sept. 22, 2000; amended Nov. 21, 2003; amended May 13, 2016.)

5-23-4b. (Authorized by K.S.A. 82a-706a and K.S.A. 82a-1028; implementing K.S.A. 82a-706a and K.S.A. 2002 Supp. 82a-1028; effective Sept. 22, 2000; amended Nov. 21, 2003; revoked May 13, 2016.)

Article 24.—NORTHWEST KANSAS GROUNDWATER MANAGEMENT DISTRICT NO. 4

5-24-2. Allowable withdrawals. (a) Except as specified in subsection (b) the district shall be closed to any new appropriation of water that partially or wholly requests a source of supply that includes the Ogallala formation.

(b) The following types of applications shall not be subject to the closure of the district under this regulation:

(1) A nondomestic application for an approval of application if the proposed point of diversion meets the following criteria:

(A) Is to be located in an alluvial aquifer not closed to new appropriations, except for domestic use, temporary permits, and term permits for five or fewer years;

(B) meets the well spacing requirements of K.A.R. 5-24-3; and

(C) meets the safe yield requirements of K.A.R. 5-3-9, K.A.R. 5-3-10, and K.A.R. 5-3-11;

(2) a nondomestic application to appropriate water from the Cretaceous system if the proposed point of diversion meets the well spacing criteria of K.A.R. 5-24-3;

(3) an application for a permit to appropriate water for domestic use;

(4) an application for a term permit for five years or less;

(5) an application for a temporary permit;

(6) an application for an approval of application filed on an existing well currently authorized by a vested right, appropriation right, or approval of application that requests a quantity of water equal to or less than the currently available quantity of water that will be conjunctively reduced from a

well authorized by either a vested right or certified appropriation right meeting either of the criteria specified in paragraph (c)(1);

(7) an application for an approval of application that meets the criteria of K.A.R. 5-24-10; and

(8) an application for an additional rate of diversion only that meets the requirements of K.A.R. 5-4-5.

(c)(1) To be exempt from this regulation, each application for an approval of application filed on an existing well currently authorized by a vested right, appropriation right, or approval of application that requests a quantity of water equal to or less than the currently available quantity of water that will be conjunctively reduced from a well authorized by either a vested right or certified appropriation right shall meet either of the following criteria:

(A) Be located within 2,640 feet of the existing well that will have its authorized quantity reduced; or

(B) be located within a distance from the currently authorized well for which a Theis analysis shows a .5 foot or greater drawdown, using the following assumptions:

(i) The certified rate of diversion of the currently authorized well;

(ii) the certified annual quantity of water for the currently authorized well;

(iii) the pumping time equal to the time it takes to pump the certified annual quantity at the certified rate of diversion;

(iv) the drawdown computed at the time equal to the pumping time; and

(v) the transmissivity and storage coefficient derived either from a time drawdown aquifer pump test of the currently authorized well or from use of the well log from the currently authorized well or a well log from a test hole or well located within 300 feet of the currently authorized well, using the table on page 26 and the calculation described in the second paragraph on page 27 of the United States geological survey's water-resources investigations report 85-4198, published in 1985. The portions of this document specified in this paragraph are hereby adopted by reference.

(2)(A) For water rights authorized for irrigation use, the currently available quantity of water shall be calculated as follows:

(i) Determine the maximum number of acres actually irrigated during the perfection period. For vested rights, use the maximum number of acres irrigated in any one calendar year before June 29, 1945; and

(ii) use the 80 percent chance rainfall net irrigation requirements (NIR) for corn as specified in K.A.R. 5-5-12 to determine the NIR for each acre, and then divide that value by .85 to adjust for efficiency.

(B) For non-irrigation water rights, the currently available quantity of water shall not exceed the actual consumptive use during the perfection period.

(3) Each well that has a reduced or new water right pursuant to this subsection shall be equipped with a water flowmeter meeting the requirements of article one of the chief engineer's regulations.

(4) The maximum distance that a well shall be relocated under paragraph (c)(1)(B) shall be the distance computed as described in paragraph (c)(1)(B), or 3,960 feet, whichever is less.

(5) The historic consumptive use of a well meeting the requirements of paragraph (b)(6) that is accounted for in the Republican river compact, K.S.A. 82a-518 and amendments thereto, accounting as a stream depletion reaching the Republican river downstream of Trenton dam shall not be transferred to a well that would cause a depletion reaching the Republican river upstream of Trenton dam.

(6) The total net acreage authorized by the following shall not exceed the current net total authorized acreage for both wells:

(A) The approval of application;

(B) the water right being reduced; and

(C) the water right currently authorizing the well for which the new water right is sought. (Authorized by and implementing K.S.A. 82a-706a and K.S.A. 2015 Supp. 82a-1028; effective May 1, 1983; amended May 1, 1985; amended May 1, 1987; amended Aug. 19, 1991; amended Jan. 30, 2004; amended May 13, 2016.)

Article 25.—BIG BEND GROUNDWATER MANAGEMENT DISTRICT NO. 5

5-25-2. Well spacing. (a) With the exception of those wells described in subsection (b), the minimum spacing of all wells described in an application to appropriate water for beneficial use, other than those wells for domestic use, shall be 1,320 feet from the following:

- (1) All other non-domestic wells and proposed non-domestic wells that carry an earlier priority; and
- (2) baseflow nodes.

Non-domestic wells shall be 660 feet from all existing domestic wells, except those domestic wells owned by the applicant.

(b)(1) Each replacement well drilled within 300 feet of the originally authorized point of diversion shall be exempt from the well spacing requirement of subsection (a).

(2) Each non-domestic well that proposes the withdrawal of groundwater from the Dakota aquifer or any bedrock aquifer shall be one mile from all other wells withdrawing groundwater from the same formation, including domestic wells, except those domestic wells owned by the applicant.

(3) Each new well that enables the establishment of augmentation in the Rattlesnake creek subbasin pursuant to K.S.A. 82a-706b, and amendments thereto, in relation to other wells that enable or provide augmentation shall be exempt from the well spacing requirement of subsection (a). (Authorized by K.S.A. 82a-706a and K.S.A. 2018 Supp. 82a-1028; implementing K.S.A. 82a-706a and K.S.A. 2018 Supp. 82a-1028; effective May 1, 1980; amended April 19, 1996; amended Oct. 31, 2003; amended Nov. 15, 2019.)

5-25-4. Sustainable yield. (a) Except as specified in subsections (b) and (c), the entire district shall be closed to further new surface water and groundwater appropriations.

(b) The following types of applications shall be exempt from the closure of the district to new appropriations of water described in subsection (a):

(1) Domestic use;

(2) temporary permits;

(3) applications for a change in the point of diversion for which the diversion works have been completed under the original approved application;

(4) standby wells used for emergency purposes only;

(5) permits to appropriate 15 acre-feet of water or less per year that are exempt pursuant to K.A.R. 5-25-15;

(6) term permit applications of one year or less and those term applications meeting the requirements of K.A.R. 5-25-13;

(7) permits to appropriate water from a bedrock aquifer;

(8) permits to appropriate water from the Dakota aquifer if the applicant can show either of the following:

(A) No Pleistocene aquifer exists within 5,280 feet of the proposed well location; or

(B) there is a significant difference in hydraulic head between the Pleistocene aquifer and the Dakota aquifer;

(9) an application that proposes to use water in a manner so that there is no significant consumptive use of the local source of supply either in quantity or availability of water for use by other appropriators;

(10) any application that will enable or provide augmentation in the Rattlesnake creek subbasin pursuant to K.S.A. 82a-706b and amendments thereto, except that no application shall be approved if the application would impair an existing use. The proposed well location shall meet the spacing requirements of K.A.R. 5-25-2; and

(11) any application filed pursuant to K.A.R. 5-25-22.

(c)(1) For each application for a change in the point of diversion, if the diversion works have not been completed, the application shall be exempt from the closure to new appropriations specified in subsection (a). However, the proposed appropriation, when added to the vested rights, prior appropriation rights, earlier priority applications, term permits for more than a year, and all baseflow node allocations within a two-mile-radius circle whose center is the location of the proposed well, shall not exceed 1,500 acre-feet. It shall be assumed for purposes of analysis that all prior applications, permits, certificates, and vested rights are being fully exercised and that all limitation clauses listed on permits and certificates are in force.

(2) If part of the area within the two-mile-radius circle around the proposed well location is outside the district boundaries, the 1,500 acre-feet quantity of water specified in paragraph (c)(1) shall be reduced proportionately by the percentage of the circle lying outside of the district boundaries. Only the baseflow node allocations, vested rights, prior appropriations, earlier priority applications, and term permits for more than one year assigned to wells within the portion of the circle within the district shall be considered.

(3) If all of the wells authorized under a vested right or an application are not included inside the circumference of the circle, then a reasonable quantity shall be allocated to each well based upon the best available information.

(4) Each analysis for an application for a change in the point of diversion specified in subsection (c) shall include all applications with a priority earlier than the priority established by the filing of the application for change. (Authorized by K.S.A. 82a-706a and K.S.A. 2018 Supp. 82a-1028; implementing K.S.A. 82a-706, K.S.A. 82a-706a, K.S.A.

2018 Supp. 82a-708b, and K.S.A. 2018 Supp. 82a-1028; effective May 1, 1980; amended May 1, 1981; amended, T-86-4, March 22, 1985; amended May 1, 1986; amended May 1, 1987; amended May 1, 1988; amended April 19, 1996; amended March 16, 2001; amended Oct. 31, 2003; amended Nov. 15, 2019.)

5-25-5. Water flowmeter requirements.

Each non-domestic well, except any well authorized by a temporary permit, shall be equipped with a water flowmeter. Each water flowmeter required by the board shall meet or exceed the specifications in K.A.R. 5-1-4 through 5-1-12. (Authorized by and implementing K.S.A. 82a-706a and K.S.A. 2009 Supp. 82a-1028; effective May 1, 1980; amended May 1, 1985; amended April 19, 1996; amended Oct. 31, 2003; amended Nov. 19, 2010.)

5-25-15. Exemptions for up to 15 acre-feet of groundwater. Except as specified in subsections (b) and (c), an application to appropriate groundwater for up to 15 acre-feet of water shall be approved if all of the conditions in subsection (a) are met.

(a) (1) The sum of the annual quantity of water requested by the new application and the total annual quantities authorized by prior approvals of applications because of an exemption pursuant to this regulation does not exceed 15 acre-feet in a one-mile-radius circle surrounding the proposed point of diversion.

(2) The application meets the spacing criteria set forth in K.A.R. 5-25-2.

(3) The approval of an application will not authorize an additional quantity of water from an existing non-domestic vested right, permit, or water right that would result in a total combined annual quantity of water authorized from the point of diversion in excess of 15 acre-feet.

(4) The applicant demonstrates that approval of up to 15 acre-feet of water will not impair existing water rights or permits to appropriate water for beneficial use and will not prejudicially and unreasonably affect the public interest.

(5) All requirements of K.S.A. 82a-709 and K.S.A. 82a-711, and amendments thereto, and K.A.R. 5-3-1 and K.A.R. 5-3-1b for processing a new application to appropriate water have been met.

(b) Exemptions to approve a new application to appropriate water in accordance with this regulation shall not be approved if the exemption would

conflict with any provisions of an intensive groundwater use control area order issued by the chief engineer pursuant to K.S.A. 82a-1036 through K.S.A. 82a-1040, and amendments thereto.

(c) In addition to meeting the conditions in subsection (a), each application to appropriate groundwater for beneficial use shall meet the requirements of subsection (d) if the application includes a proposed point of diversion located within the boundaries of any of the following drainage basins as defined in K.A.R. 5-6-15:

- (1) Rattlesnake Creek basin;
- (2) Arkansas River basin;
- (3) Walnut Creek basin;
- (4) Pawnee River basin; and
- (5) Buckner Creek basin.

(d) The following requirements shall apply to the applications described in subsection (c):

(1) The maximum annual quantity of water proposed in the application shall be 15 acre-feet or less.

(2) The proposed point of diversion shall meet the spacing criteria provided in K.A.R. 5-25-2.

(3) The authorized quantity of an existing water right shall be reduced, as provided in paragraph (d)(7), to offset the annual quantity requested in paragraph (d)(1), and the existing water right shall divert water from the same source of water supply that has a point of diversion located according to either of the following:

(A) Within 3.5 miles of the proposed point of diversion; or

(B) within a one-mile corridor of the major stream segment designated for stream restoration in the same basin of the proposed point of diversion.

(4) The point of diversion proposed through an offset shall not be closer to a stream than the point of diversion reduced pursuant to paragraph (a)(3) if the authorized well is within three miles of a stream.

(5) All issues relating to the possible abandonment of the offsetting water right shall be resolved by the chief engineer before determining the annual quantity of offset water that is available from the existing water right.

(6) The approval of the application shall not authorize an additional quantity of water to be used on a currently authorized nondomestic place of use.

(7) If the water right to be used as the offset for the new appropriation is a water right authorized for irrigation use, the authorized quantity of wa-

ter needed to offset the new appropriation of not more than 15 acre-feet of water shall be calculated as follows:

(A) Step one.

(i) Multiply the net irrigation requirement for the 50 percent chance rainfall for the county of origin, as specified in K.A.R. 5-5-12, times the maximum number of acres legally irrigated in any one calendar year during the perfection period. For vested rights, the acreage used shall be the maximum acreage legally irrigated in any one calendar year before June 28, 1945.

(ii) The calculation made in paragraph (d)(7)(A)(i) shall result in the maximum annual quantity of water that could be changed to another type of beneficial use if the entire water right were changed pursuant to K.A.R. 5-5-9(a)(1).

(B) Step two.

(i) Divide the annual quantity of water desired to be changed to the new beneficial use by the maximum annual quantity of water that could be changed if the entire water right were changed to the new use.

(ii) The calculation made in paragraph (d)(7)(B)(i) shall result in the percentage of the entire reduced water right that will be changed to the new use. The remaining percentage of the offsetting water right may be retained by the owner of the irrigation water right.

(C) Step three.

(i) Multiply the remaining percentage calculated in paragraph (d)(7)(B)(ii) times the total currently authorized quantity. The resulting product shall be the annual quantity of water that may be retained by the owner of the irrigation water right.

(ii) The portion of the authorized annual quantity of water not retained by the irrigator as described in paragraph (d)(7)(C)(i) shall be permanently reduced from the authorized annual quantity of the offsetting water right and used to offset the new appropriation.

(8) If the water right to be used as the offset for the new appropriation is an existing water right authorized for non-irrigation use, the total net consumptive use of the offsetting water right after the change and the new appropriation shall not exceed the net consumptive use of the offsetting water right before the change.

(9) The place of use authorized by the offsetting water right for irrigation shall be reduced in proportion to the reduction in the maximum annual quantity of water as determined in paragraph (d)(7)(A)(ii). The directions specified in K.A.R. 5-5-

11(b)(2)(B)(ii) shall be followed to determine the number of acres that may be retained.

(e) After the application has been approved pursuant to this regulation, no application to change that water right shall be approved if that approval would authorize the water use to be diverted from any other point of diversion authorized when the application is filed or to be used on any other place of use authorized when the application for change is filed.

(f) An application approved as an exemption under this regulation shall not be leased or placed in a water bank so that the approved water use can be diverted at another location. (Authorized by K.S.A. 82a-706a and K.S.A. 2009 Supp. 82a-1028; implementing K.S.A. 82a-706, K.S.A. 82a-706a, K.S.A. 2009 Supp. 82a-711, and K.S.A. 2009 Supp. 82a-1028; effective Oct. 31, 2003; amended May 21, 2010.)

5-25-21. Alternative method for calculating the amount of water deposited in a multiyear flex account. Each water right owner within the boundaries of the district who is otherwise eligible to establish a multiyear flex account under K.S.A. 82a-736, and amendments thereto, and the implementing regulations and who meets all of the requirements in subsection (b) shall be eligible to use the alternative calculation method in subsection (a) pursuant to K.S.A. 82a-736(c)(1)(D)(iii), and amendments thereto, to determine the amount of water deposited in the multiyear flex account.

(a) The alternative calculation method for the district shall be to compute 450 percent of the base water right's certified appropriation. However, the amount of water deposited in the multiyear flex account shall not exceed the greatest of the quantities derived using the calculation methods specified in K.S.A. 82a-736(c)(1)(D), and amendments thereto.

(b) To be eligible to use the alternative calculation method specified in subsection (a), the following requirements shall be met and shall remain met throughout the term of the period covered by the multiyear flex account permit:

(1) The owner shall meet all requirements and conditions for eligibility and participation specified in K.S.A. 82a-736, and amendments thereto, and the implementing regulations, except as modified by this regulation.

(2) The owner's base water right shall be for a center pivot irrigation system with a functional end gun.

(3) The owner shall remove the end gun from the center pivot and cap the end.

(4) Before diverting any water under the multiyear flex account, the owner shall certify to the chief engineer, on forms supplied by the chief engineer, the following information:

(A) The location of the tract of land to be covered by the multiyear flex account term permit;

(B) the length of each center pivot system covered by the multiyear flex account term permit;

(C) the type of end gun removed and any other information sufficient to enable the chief engineer to determine the number of acres irrigated by the end gun; and

(D) the date of removal of the end gun.

(5) The owner shall maintain the center pivot without an end gun for the duration of the period covered by the multiyear flex account term permit.

(6) The authorized place of use shall not be increased during the term of the multiyear flex account permit.

(7) The authorized place of use shall be located wholly within the boundaries of the district.

(c) If the owner qualifies for a multiyear flex account term permit and is eligible under this regulation to use the alternative calculation method, the chief engineer shall enter an order that reduces the authorized place of use of the owner's base water right during the multiyear flex account permit term. The reduced authorized place of use shall be equal to the maximum number of acres legally irrigated by the center pivot system for the previous five calendar years minus the number of acres irrigated by the center pivot system's end gun. (Authorized by K.S.A. 82a-706a and K.S.A. 2015 Supp. 82a-1028; implementing K.S.A. 2015 Supp. 82a-736; effective March 25, 2016.)

5-25-22. Movement of water rights affecting streamflow at Rattlesnake creek. (a) To improve streamflow at the zenith gage on Rattlesnake creek, otherwise known as United States geological survey gage #07142575, each vested or certified water right located within zone D of the division of water resources' map titled "Rattlesnake creek streamflow response regions," dated February 14, 2018, hereby adopted by reference, and subsequently referred to in this regulation as "response map," shall be eligible to offset new appropriations of water located within the district if all of the following conditions are met:

(1) The source of water supply for the current-

ly authorized well is located within zone D of the response map.

(2) The rate and quantity of the existing water right are the maximum rate and quantity available for the new application. The rate and quantity of a new application for irrigation use shall be determined under K.A.R. 5-5-11. A new application may change the use made of water. However, the new application shall not allow for an increase in the net consumptive use greater than the existing water right under K.A.R. 5-5-3.

(3) The water right has reported use between January 1, 2003 and December 31, 2012, and the reported use is equal to or greater than 50 percent of the authorized use in at least two years. Each water right enrolled in a state or federal conservation program during this period that required the voluntary cessation of water use shall be eligible for movement under this regulation if all other requirements are met and the applicant demonstrates the existing water right's ability to pump at least 50 percent of authorized use during any year.

(4) The new location will reduce the impact at the zenith gage by 30 percent or more compared to the current location of the well as determined by the response map. The new location is in an area with less than 40 percent impact at the zenith gage as determined by the response map.

(5) The average saturated thickness in the two-mile-radius circle in which the proposed well will be located is greater than 40 feet as shown on the saturated thickness map in K.A.R. 5-25-19. However, additional site-specific information, including data from more recently drilled wells or test holes, may be submitted to demonstrate that the average saturated thickness is greater than 40 feet.

(6) The water level within the two-mile-radius circle surrounding the proposed well location has not declined more than five percent from the pre-development water level as shown in the relevant Kansas geological survey bulletins, including bulletin numbers 65, 80, 88, 120, 205, and 206. Any applicant may submit additional site-specific information, including data from more recently drilled wells or test holes, to demonstrate that the area has not declined more than five percent from the pre-development water level.

(7) The new location will meet the safe-yield analysis based on a two-mile-radius circle with a recharge rate of 2.25 inches and 75 percent available for appropriation pursuant to K.A.R. 5-3-11 or a safe-yield analysis utilizing modeling as completed by the applicant or district.

(8) No other well has previously been authorized by the chief engineer to be relocated within a one-mile radius of the proposed well location under this regulation, or the applicant demonstrates that the proposed well will not impair existing water rights.

(9) All other statutory and regulatory requirements for approval of a new appropriation of water for a beneficial use that do not conflict with this regulation are met.

(b) Any new application may request the movement of the entire existing water right to a new location, the movement of an entire existing water right to multiple locations, or the movement of a partial amount of the existing water right to a new location.

(1) Upon approval of any application under this regulation and the completion of diversion works and the application of water to a beneficial use at each new location, the dismissal of the entire existing water right shall be required except for the portion, if any, remaining in the original location. If the location of a new application is determined to be unfeasible after filing an application, the applicant may submit a new application for another location if diversion works have not been completed and water has not been applied to a beneficial use at the previously proposed location.

(2) If any portion of the existing water right remains in the original location, then the water right owner shall file an application to divide the water right proportionally based on the quantity that will remain and the quantity that will be dismissed to offset each new appropriation before submitting a new application to appropriate water in the district.

(3) For any quantity of the existing water right that remains in the original location, the place of use shall be reduced to the number of acres that can reasonably be irrigated under K.A.R. 5-3-24. This reduction shall be calculated by dividing the remaining quantity of water by the county value according to K.A.R. 5-3-24 to establish the number of acres that can reasonably be irrigated.

(4) A separate application shall be required for each different location that a portion of the existing water right is proposed to offset.

(c) Upon the establishment of a new appropriation under this regulation, the quantity of water dismissed to offset the new appropriation shall not be available for reappropriation in the previous or original location of the water right. (Authorized by and implementing K.S.A. 82a-706a and K.S.A. 2018 Supp. 82a-1028; effective Nov. 15, 2019.)

7-16-1. Information and services fee. In addition to any other fees specified in regulation or statute, the fees prescribed in the secretary of state's "schedule of information and services fees," dated May 27, 2010 and hereby adopted by reference, shall be charged by the secretary of state. (Authorized by and implementing K.S.A. 2009 Supp. 75-438 and L. 2009, ch. 47, sec. 35; effective, T-7-7-1-03, July 1, 2003; effective Oct. 10, 2003; amended Oct. 31, 2008; amended, T-7-7-1-10, July 1, 2010; amended Sept. 10, 2010.)

Article 23.—VOTER REGISTRATION

7-23-4. Notice of places and dates of registration. The notice regarding registration required by K.S.A. 25-2310, and amendments thereto, shall be published one time, at least 10 days before the date the registration books will be open additional hours as provided in K.S.A. 25-2311, and amendments thereto. If late hours are not required, the notice shall be published one time, at least 10 days before the date the registration books will be closed. The publication notice shall be made in the following form:

"NOTICE OF PLACES AND DATES OF REGISTRATION

In compliance with the provisions of K.S.A. 25-2310, notice is hereby given that the books for registration of voters will be open at the following places during regular business hours:

Persons who apply for services at voter registration agencies may register at the following places during regular business hours:

° Beginning on the _____ day of _____, _____,

additional hours of registration will be provided at the following places:

At _____ p.m. on the day of _____, _____, the books for registration of voters will close and will remain closed until the _____ day of _____, _____.

A citizen of the United States who is 18 years of age or older, or will have attained the age of 18 years at the next election, must register before he or she can vote. Registration is open until the close of business on the 21st day before the election.

When a voter has been registered according to law, the voter shall remain registered until the voter changes name by marriage, divorce or other legal proceeding or changes residence. The voter may reregister in person, by mail or other delivery when registration is open or the voter may reregister on election day.

Application forms shall be provided by the county election officer or the Secretary of State upon request. The application shall be signed by the applicant under penalty of perjury.

In Witness Whereof I have hereunto set my hand and seal this _____ day of _____, _____.

County Election Officer

(SEAL)

° If late hours are not required, omit this paragraph."

(Authorized by K.S.A. 25-2310; implementing K.S.A. 25-2310 and K.S.A. 25-2311, as amended by L. 2011, ch. 112, § 19; effective Jan. 1, 1972; amended Jan. 1, 1974; amended May 1, 1978; amended Sept. 24, 1990; amended Jan. 3, 1997; amended Feb. 24, 2012.)

7-23-14. Assessing documents submitted as evidence of United States citizenship. (a) In assessing documents submitted as evidence of United States citizenship, each election officer shall consider the following factors: first name, middle name or initial, surname, date of birth, place of birth, and sex.

(1) The first name and the middle name or initial, if provided, shall be consistent with the information

provided on the person's application for voter registration. Hyphenated names shall be permitted if not inconsistent with the information provided on the person's application for voter registration.

(2) If the name on the document is inconsistent with the applicant's name as it appears on the application for voter registration, the election officer shall perform the following:

(A) Ask the applicant for a second, government-issued document confirming the voter's current name;

(B) If the applicant is unable or unwilling to provide a second, government-issued document, allow the applicant to sign an affidavit pursuant to K.S.A. 25-2309 and amendments thereto, stating the inconsistency related to the applicant's name and swearing under oath that, despite the inconsistency, the applicant is the individual reflected in the document provided as evidence of citizenship; and

(C) if the applicant is either unable or unwilling to provide a second, government-issued document and refuses to sign an affidavit, inform the applicant of the applicant's right to appeal to the state election board, pursuant to K.S.A. 25-2309 and amendments thereto.

(3) The date of birth indicated on the document submitted as evidence of United States citizenship shall match the date of birth provided on the application for voter registration. If the dates of birth are inconsistent, the election officer shall inform the applicant of the applicant's right to appeal to the state election board, pursuant to K.S.A. 25-2309 and amendments thereto.

(4) If the place of birth is indicated on the document submitted as proof of United States citizenship, the place of birth may be used to assess the applicant's status as a United States citizen. If the document does not contain a place of birth, this fact shall not result in an unsatisfactory assessment.

(5) If the sex indicated on the document does not match the sex indicated on the application for the voter registration, the election officer shall perform the following:

(A) Ask the applicant for a second, government-issued document confirming the voter's sex;

(B) if the applicant is unable or unwilling to provide a second, government-issued document, allow the applicant to sign an affidavit pursuant to K.S.A. 25-2309 and amendments thereto, stating the inconsistency related to the applicant's sex and swearing under oath that, despite the inconsistency, the applicant is the individual reflected in the document provided as evidence of citizenship; and

(C) if the applicant is unable or unwilling to provide a second, government-issued document and refuses to sign an affidavit, inform the applicant of the applicant's right to appeal to the state election board, pursuant to K.S.A. 25-2309 and amendments thereto.

(6) If a document submitted as evidence of United States citizenship contains an expiration date and this date has passed when the document is submitted for purposes of voter registration, the document shall nonetheless be considered in assessing qualifications to register to vote.

(b) If an applicant for voter registration fails to submit evidence of United States citizenship before the deadline to register to vote before an election, the applicant may submit a valid citizenship document by mail or personal delivery to the county election office by the close of business on the day before the election or a valid citizenship document by electronic means before midnight on the day before the election. "Electronic means" shall include facsimile, electronic mail, and any other electronic means approved by the secretary of state. For each document received in accordance with this subsection, the county election officer shall perform the following:

(1) Accept and assess the citizenship document;

(2) add the applicant's name to the voter registration list as a registered voter; and

(3) if practicable, include the registrant's name in the poll book for the upcoming election. If poll books have already been printed, the county election officer shall, if practicable, communicate the registrant's name to the appropriate polling place with instructions to allow the registrant to vote a regular ballot. If the registrant's name is not communicated to the election board at the appropriate polling place by the county election officer before the opening of the polls on election day, the registrant shall be allowed to cast a provisional ballot. If any applicant to whom this subsection applies fails to submit satisfactory evidence of United States citizenship in accordance with this subsection and the applicant casts a provisional ballot, the ballot shall not be counted.

(c) A registered voter who has previously provided sufficient evidence of United States citizenship with a voter registration application in this state shall not be required to resubmit evidence of United States citizenship with any subsequent voter registration application. (Authorized by and implementing K.S.A. 2014 Supp. 25-2309; effective Jan. 1, 2013; amended Oct. 2, 2015.)

7-23-15. Incomplete applications for voter registration. (a) If the county election officer assessing an application for voter registration determines that the application does not contain the information required by law, including satisfactory evidence of United States citizenship, the county election officer shall designate the application as incomplete. Each county election office shall maintain a list of incomplete applications for voter registration.

(b) Any voter registration applicant whose voter registration application has been designated as incomplete under subsection (a) may complete the voter registration application, without submitting a new voter registration application, by providing the required information that was not provided with the original voter registration application within 90 days after the voter registration application was received by the county election office.

(c) If a voter registration application was designated as incomplete under subsection (a) and the application is not completed by the applicant under subsection (b), the voter registration application shall be deemed insufficient by the county election officer and the county election officer shall designate the voter registration application as canceled. Each voter registration applicant whose voter registration application was deemed insufficient under this subsection shall be required to submit a new voter registration application in order to become registered to vote. (Authorized by and implementing K.S.A. 2014 Supp. 25-2309; effective Oct. 2, 2015.)

Article 36.—ABSENTEE AND ADVANCE VOTING

7-36-7. Processing advance voting ballot applications. This regulation shall govern the processing of each application for an advance voting ballot received by a county election officer if the applicant is registered to vote in that election officer's county and wants to receive the ballot by mail.

(a) If the application does not contain sufficient information or if the information is illegible, the county election officer shall contact the applicant to obtain the information before election day, if practicable.

(b) If the application is not signed or the signature on the application is not consistent with the applicant's signature on the official voter registration list, the election officer shall attempt to con-

tact the applicant by any means to confirm that the applicant intended to apply for an advance voting ballot and shall attempt to obtain an updated signature.

(c) If the application does not contain the number of the applicant's Kansas driver's license or Kansas nondriver's identification card or if the number is illegible, the county election officer shall attempt to contact the applicant by any means to obtain the information. The county election officer shall provide the applicant with the information required by K.S.A. 25-1122(e)(2), and amendments thereto.

(d) The county election officer may collect an applicant's Kansas driver's license number or Kansas nondriver's identification card number by any legal means. If the applicant provides the necessary number and the number is consistent with the number on the voter registration list, the county election officer shall issue a regular advance voting ballot.

(e) If an applicant submits a photocopy of the qualifying photographic identification document and the document contains information that is illegible or inconsistent with the information on the voter registration list, the county election officer shall attempt to contact the applicant by any means to confirm that the applicant intended to apply for an advance voting ballot and shall attempt to obtain a satisfactory photocopy of the qualifying photographic identification document.

(f) If it is not practicable to contact the applicant before the election or if the information, signature, or photocopy provided is incomplete or inconsistent with the voter registration list, the county election officer shall issue a provisional advance voting ballot.

(g) The county election officer shall present each provisional advance voting ballot to the county board of canvassers for a determination of validity. If the voter provided additional information, an updated signature, or an additional photocopy upon request by the county election officer and if the information, signature, or photocopy is consistent with the voter registration list, the ballot shall be counted unless the ballot is determined to be invalid for another reason. If the voter did not provide additional information, an updated signature, or an additional photocopy upon request by the county election officer or if the information, signature, or photocopy is inconsistent with the information on the voter registration list, the ballot shall not be counted. (Authorized by

and implementing K.S.A. 2010 Supp. 25-1122, as amended by L. 2011, ch. 56, sec. 2; effective Feb. 24, 2012.)

7-36-8. Uniformed and overseas citizens absentee voting act; ballot distribution deadline in local mail ballot elections. When conducting a local mail ballot election pursuant to K.S.A. 25-431 et seq. and amendments thereto, the county election officer shall transmit a ballot to any person who is qualified to vote under the uniformed and overseas citizens absentee voting act and who has submitted an application for a federal services ballot 45 or more days before the date of the election. If a person submits an application for a federal services ballot less than 45 days before the date of the election, the county election officer shall transmit a ballot to the person within two business days after receipt of the application. (Authorized by K.S.A. 25-440 and 25-1225; implementing K.S.A. 25-435, K.S.A. 25-438, and K.S.A. 2011 Supp. 25-1218; effective Feb. 24, 2012.)

Article 41.—KANSAS UNIFORM ELECTRONIC TRANSACTIONS ACT

7-41-1. Definitions. (a) “Certificate” means a computer-based record or electronic message that at a minimum meets the following conditions:

- (1) Identifies the registered certification authority issuing the certificate;
- (2) names or identifies a subscriber;
- (3) contains the public key of the subscriber;
- (4) identifies the period of time during which the certificate is effective; and
- (5) is digitally signed by the registered certification authority.

(b) “Certificate policy” means the policy that identifies the applicability of a certificate to particular communities and classes of applications with common security requirements. This term is also known as “CP.”

(c) “Certificate revocation list” means a list maintained by a registered certification authority of the certificates the registered certification authority has issued that are revoked before their stated expiration dates. This term is also known as “CRL.”

(d) “Certification practice statement” means a statement published by a registered certification authority that specifies the policies or practices that the registered certification authority em-

ploys in issuing, publishing, suspending, revoking, and renewing certificates. This term is also known as “CPS.”

(e) “Compliance review” means documentation in the form of an information systems audit report verifying that the applicant or registered certification authority has the use of a trustworthy system as defined in subsection (r).

(f) “Identification and authentication” means the process of ascertaining and confirming through appropriate inquiry and investigation the identity of a certificate applicant in compliance with the requirements for certificate security levels specified in the ITEC certificate policy or the CP. This term is also known as “I and A.”

(g) “Information technology executive council” means the Kansas information technology executive council, pursuant to K.S.A. 75-7201 et seq. and amendments thereto, and is also known as “ITEC.”

(h) “Information technology executive council policy 9200” means the “certificate policy for the state of Kansas public key infrastructure,” version 2, including the appendices, approved by the ITEC, amended on April 24, 2008, and hereby adopted by reference. This document applies to state agencies offering or providing the option of using a digital signature to persons with whom the state agencies do business. This term is also known as “ITEC certificate policy.”

(i) “Information technology identity management group” means the group that has been delegated authority by the ITEC and is authorized by the ITEC to make day-to-day administrative and fiscal decisions for the public key infrastructure program. This term is also known as “ITIMG.”

(j) “Local registration authority” means a person operating under the ITEC certificate policy that has a relationship of trust with a community of potential subscribers and, for that reason, has a contractual relationship with a registration authority to perform duties including accepting applications and conducting identification and authentication for certificate applicants in accordance with the law, the ITEC certificate policy, and the appended agreements. This term is also known as “LRA.”

(k) “Local registration authority’s trusted partner” means a person operating under the ITEC certificate policy that has a relationship of trust with an LRA and that executes a trusted partner agreement with an LRA, as contained in the appendices to the ITEC certificate policy, in order to

secure LRA services for the community of potential subscribers of the local registration authority's trusted partner. This term is also known as "LRA's trusted partner."

(l) "Private key" means the key in a subscriber's key pair that is kept secret and is used to create digital signatures and to decrypt messages or files that were encrypted with the subscriber's corresponding public key.

(m) "Public key" means the key in a subscriber's key pair that can be used by another person to verify digital signatures created by a subscriber's corresponding private key or to encrypt messages or files that the person sends to the subscriber.

(n) "Public key infrastructure" means the architecture, organization, techniques, practices, policy, and procedures that collectively support the implementation and operation of a certificate-based, public key cryptography system. This term is also known as "PKI."

(o) "Registered certification authority" has the meaning specified in K.S.A. 16-1602, and amendments thereto. This term is also known as "registered CA."

(p) "Registration authority" means a person operating under the ITEC certificate policy who has been authenticated by a registered CA, issued a registration authority certificate by the registered CA, approved by the ITEC to process subscriber applications for certificates and, if required by the ITEC certificate policy, to conduct I and A of certificate applicants in accordance with the law, the ITEC certificate policy, and the appended agreements. This term is also known as "RA."

(q) "Subscriber" means a person operating under the ITEC certificate policy who meets the following criteria:

- (1) Is the subject of a certificate;
- (2) accepts the certificate from a registered certification authority; and
- (3) holds the private key that corresponds to the public key listed in that certificate.

(r) "Trustworthy system" means a secure computer system that materially satisfies the most recent common criteria protection profile for commercial security, known as "CSPP—guidance for COTS security protection profiles," published by the U.S. department of commerce in December 1999 and hereby adopted by reference.

(s) "X.509" means the standard published by the international telecommunication union-T (ITU-T) in March 2000 that establishes a model for certificates. This X.509 standard, including an-

nexes A and B, is hereby adopted by reference. (Authorized by K.S.A. 16-1605 and 16-1618; implementing K.S.A. 16-1605, 16-1617, and 16-1619; effective July 6, 2001; amended Aug. 19, 2005; amended March 6, 2009.)

7-41-2. Original registration; renewal; expiration. (a) Each original registration or renewal registration for a registered certification authority shall expire one year from the date of issuance.

(b) Each renewal application for registration shall be deemed timely if the registered certification authority files a renewal application with the secretary of state within 60 days before the date the original application or renewal application otherwise will expire. (Authorized by K.S.A. 16-1618; implementing K.S.A. 16-1617; effective July 6, 2001; amended March 6, 2009.)

7-41-3. Registration forms. (a) Each person, before performing the duties of a registered certification authority, shall register with the secretary of state on forms prescribed by the secretary of state.

(b) Original applications, renewal applications, and other information may be allowed by the secretary of state to be filed electronically.

(c) Each applicant for registered certification authority shall file the following with the original application or renewal application:

- (1) A compliance review with a report date within 90 days of the original application or renewal application date;
- (2) a copy of the applicant's certification practice statement and CP;
- (3) a nonrefundable original application or renewal application fee of \$1,000; and
- (4) a good and sufficient surety bond, certificate of insurance, or other evidence of financial security in the amount of \$100,000. (Authorized by K.S.A. 16-1618; implementing K.S.A. 16-1617; effective July 6, 2001; amended March 6, 2009.)

7-41-4. Evidence of financial security. The evidence of financial security shall include, in addition to the requirements of K.S.A. 16-1617 and amendments thereto, the following: (a) The identity of the insurer or the financial institution issuing the surety bond, certificate of insurance, or irrevocable letter of credit, including the following information:

- (1) The name;
- (2) the mailing address;
- (3) the physical address; and

(4) the identification, by number or copy of appropriate documentation, of the licensure or approval as a financial institution or as an insurer in this state;

(b) the identity of the registered certification authority on behalf of which the evidence of financial security is issued;

(c) a statement that the evidence of financial security is issued payable to the secretary of state for the benefit of persons holding qualified rights of payment against the registered certification authority named as principal of the surety bond, certificate of insurance, or irrevocable letter of credit;

(d) a statement that the evidence of financial security is issued for filing pursuant to the Kansas uniform electronic transactions act and amendments thereto; and

(e) a statement of term that extends at least as long as the term of the registration to be issued to the registered certification authority. (Authorized by K.S.A. 16-1618; implementing K.S.A. 16-1617; effective July 6, 2001; amended March 6, 2009.)

7-41-5. Certification practice statement.

Each registered certification authority shall file with the secretary of state a certification practice statement as required by K.A.R. 7-41-3. The statement shall declare the practices that the registered certification authority uses in issuing, suspending, revoking, and renewing certificates. The statement shall also include the following information: (a) If certificates are issued by security levels, the necessary criteria for each certificate security level, including the methods of certificate applicant identification applicable to each security level;

(b) disclosure of any warnings, liability limitations, warranty disclaimers, and indemnity and hold harmless provisions, if any, upon which the registered certification authority intends to rely;

(c) disclosure of any and all disclaimers and limitations on obligations, losses, or damages, if any, to be asserted by the registered certification authority;

(d) a written description of all representations from the certificate applicant required by the registered certification authority relating to the certificate applicant's responsibility to protect the private key; and

(e) disclosure of any mandatory dispute resolution process, if any, including any choice of forum and choice of law provisions. (Authorized by K.S.A. 16-1618; implementing K.S.A. 16-1617; effective July 6, 2001; amended March 6, 2009.)

7-41-6. Changes to information. Each original applicant or renewal applicant for a registered certification authority shall notify the secretary of state about any change to its CP, CPS, or information contained in its original application or renewal application, as the CP, CPS, or information appears in the secretary of state's files, within 30 days of the effective date of the change. (Authorized by K.S.A. 16-1618; implementing K.S.A. 16-1617; effective July 6, 2001; amended March 6, 2009.)

7-41-7. Recordkeeping and retention of registered certification authority documents.

Each registered certification authority shall maintain documentation of compliance with the Kansas uniform electronic transactions act and this article. The documentation shall include evidence demonstrating that the registered certification authority has met the following requirements:

(a) Each registered certification authority shall retain its records of the issuance, acceptance, and any suspension or revocation of a certificate for a period of at least 10 years after the certificate is revoked or expires. The registered certification authority shall retain custody of the records unless it ceases to act as a registered certification authority.

(b) All records subject to this article shall be in the English language. (Authorized by K.S.A. 16-1618; implementing K.S.A. 16-1617; effective July 6, 2001; amended March 6, 2009.)

7-41-8 and 7-41-9. (Authorized by K.S.A. 2000 Supp. 16-1618; implementing K.S.A. 2000 Supp. 16-1617; effective July 6, 2001; revoked March 6, 2009.)

7-41-10. Procedure upon discontinuance of registered certification authority business.

Each registered certification authority that discontinues providing registered certification authority services without making other arrangements for the preservation of the registered certification authority's records shall notify the secretary of state and the subscribers, in writing, of its discontinuance of business. (Authorized by K.S.A. 16-1618; implementing K.S.A. 16-1617; effective July 6, 2001; amended March 6, 2009.)

7-41-11. Recovery against financial security.

(a) In order to recover against a registered certification authority's surety bond, certificate of insurance, or other evidence of financial security, the claimant shall meet the following requirements:

(1) File a signed notice of the claim with the secretary of state, providing the following information:

- (A) The name and address of the claimant;
- (B) the amount claimed;
- (C) the grounds for the qualified right to payment; and
- (D) the date of the occurrence forming the basis of the claim; and

(2) attach to the notice a certified copy of the judgment upon which the qualified right to payment is based, except as provided in subsection (b).

(b) If the notice specified in this regulation is filed before entry of judgment, the notice shall be held on file by the secretary of state, without further action, until the claimant files a copy of the judgment. If the secretary of state determines that the action identified in the notice finally has been resolved without a judgment awarding the claimant a qualified right to payment, the notice may be expunged by the secretary of state from the secretary of state's records. A notice shall not be expunged by the secretary of state until two years have elapsed since the notice first was filed.

(c) A notice for filing shall be rejected by the secretary of state if the date of the occurrence forming the basis for the complaint is more than two years before the filing of the notice.

(d) If the notice and judgment are filed pursuant to paragraphs (a)(1) and (2), a copy of the notice and judgment shall be provided by the secretary of state to the surety, insurer, or issuer of the financial security for qualified right of payment to the claimant. (Authorized by K.S.A. 16-1618; implementing K.S.A. 16-1617; effective July 6, 2001; amended March 6, 2009.)

7-41-12. Reciprocity. (a) Any registered certification authority that is licensed, registered, or otherwise under the statutory oversight of a governmental agency, as defined by the Kansas uniform electronic transactions act and amendments thereto, may be registered as a registered certification authority in Kansas if all of the following conditions are met:

(1) The oversight of the governmental agency is equal to or greater than the oversight required pursuant to the Kansas uniform electronic transactions act and amendments thereto and this article.

(2) The registered certification authority submits to the secretary of state a written request for

registration and a copy of the license or registration issued by the governmental agency.

(3) The registered certification authority pays the \$1,000 application fee.

(b) Each registered certification authority registered pursuant to this regulation shall be exempt from the provisions of K.A.R. 7-41-3(c)(1).

(c) If the information filed pursuant to this regulation is satisfactory to the secretary of state, a registered certification authority may be issued a Kansas reciprocal registration by the secretary of state. (Authorized by K.S.A. 16-1618; implementing K.S.A. 16-1619; effective July 6, 2001; amended March 6, 2009.)

7-41-13. Use of subscriber information.

Each registered certification authority shall use subscriber and certificate applicant information only for the purpose of performing the identification and authentication process. (Authorized by K.S.A. 16-1618; implementing K.S.A. 16-1617; effective July 6, 2001; amended March 6, 2009.)

7-41-14. State agency; compliance. Each state agency offering or providing the option of using a digital signature to persons doing business with the state agency shall meet either of the following requirements:

(a)(1) Become an LRA by executing an agreement with the RA, as contained in the appendices to the ITEC certificate policy; and

(2) perform the duties of an LRA in accordance with the ITEC policy and these regulations; or

(b)(1) Become an LRA's trusted partner by executing a trusted partner agreement with an LRA, as contained in the appendices to the ITEC certificate policy; and

(2) perform the duties of an LRA's trusted partner in accordance with the ITEC certificate policy and these regulations. (Authorized by and implementing K.S.A. 16-1605; effective Aug. 19, 2005; amended March 6, 2009.)

7-41-15. Registration authority, local registration authority, and local registration authority's trusted partner; compliance. Each RA, LRA, and LRA's trusted partner shall meet the following requirements:

(a) Comply with these regulations and the ITEC certificate policy when administering any certificate or the associated keys; and

(b) ensure that I and A procedures are implemented in compliance with the requirements for certificate security levels specified in the ITEC

certificate policy. (Authorized by and implementing K.S.A. 16-1605; effective Aug. 19, 2005; amended March 6, 2009.)

7-41-16. Registration authority, local registration authority, and local registration authority's trusted partner; general responsibilities. (a) Each RA, LRA, and LRA's trusted partner shall perform that party's duties in a manner that meets the following requirements:

(1) Complies with the ITEC certificate policy;

(2) promotes a cooperative relationship with registered CAs; and

(3) uses keys and certificates issued by a registered CA only for authorized purposes.

(b) The primary duties of each RA, LRA, or LRA's trusted partner shall be the following:

(1) The establishment of a trustworthy environment and procedure for certificate applicants to submit applications;

(2) the I and A of each person applying for a certificate or requesting a certificate renewal or a certificate update in compliance with the requirements for certificate security levels specified in the ITEC certificate policy;

(3) the approval or rejection of certificate applications; and

(4) the revocation of certificates at the request of the subscriber or other authorized persons or upon the initiative of the RA, LRA, or LRA's trusted partner. (Authorized by and implementing K.S.A. 16-1605; effective Aug. 19, 2005; amended March 6, 2009.)

7-41-17. Registration authority, local registration authority, and local registration authority's trusted partner; certification. Each RA, LRA, and LRA's trusted partner shall certify on a form prescribed by the ITIMG that the RA, LRA, or LRA's trusted partner has secured an individual subscriber application from a certificate applicant and authenticated the certificate applicant's identity in compliance with the requirements for certificate security levels specified in the ITEC certificate policy when submitting certificate applicant information to an LRA, the RA, or a registered CA. (Authorized by and implementing K.S.A. 16-1605; effective Aug. 19, 2005; amended March 6, 2009.)

7-41-18 through 7-41-29. (Authorized by and implementing K.S.A. 2004 Supp. 16-1605; effective Aug. 19, 2005; revoked March 6, 2009.)

7-41-30. Identification and authentication; certificate security levels. Each RA, LRA, and LRA's trusted partner shall ensure that the applicable requirements for certificate security levels specified in the ITEC certificate policy are met when conducting the I and A of a certificate applicant. (Authorized by and implementing K.S.A. 16-1605; effective Aug. 19, 2005; amended March 6, 2009.)

7-41-31. (Authorized by and implementing K.S.A. 2004 Supp. 16-1605; effective Aug. 19, 2005; revoked March 6, 2009.)

7-41-32. Agreements; registration authority; local registration authority; local registration authority's trusted partner; certificate applicant. Each RA, LRA, LRA's trusted partner, and certificate applicant shall execute the agreements contained in the appendices of the ITEC certificate policy when contracting for certificate services. The agreements shall be executed before the issuance, administration, or use of the certificates. (Authorized by and implementing K.S.A. 16-1605; effective Aug. 19, 2005; amended March 6, 2009.)

7-41-33. Picture identification credentials. Each facial image identification required by an RA, LRA, or LRA's trusted partner for the purpose of I and A shall meet the minimum acceptable standards used in the identification credentials specified in the ITEC certificate policy for certificate security levels. (Authorized by and implementing K.S.A. 16-1605; effective Aug. 19, 2005; amended March 6, 2009.)

7-41-34. Certificate; format and name. Each certificate issued by a registered CA for use by a state agency pursuant to K.S.A. 16-1605, and amendments thereto, shall be in the X.509 format and contain a distinguished name in compliance with the ITEC certificate policy. (Authorized by and implementing K.S.A. 16-1605; effective March 6, 2009.)

7-41-35. Registered certification authority; ITEC certificate policy. Each person who performs the duties of a registered certification authority and issues certificates used by a state agency pursuant to K.S.A. 16-1605, and amendments thereto, shall comply with the ITEC certificate policy. (Authorized by K.S.A. 16-1605 and 16-1618; implementing K.S.A. 16-1605 and 16-1617; effective March 6, 2009.)

Article 46.—PHOTOGRAPHIC IDENTIFICATION REQUIREMENTS

7-46-1. Postelection submission of photographic identification by provisional voter.

(a) Any voter who has cast a provisional ballot due to a failure or refusal to provide a valid photographic identification document at the time of voting may submit a valid photographic identification document by mail, in person, or by electronic means to the county election office in the county where the voter is registered to vote. “Electronic means” shall include facsimile, electronic mail, and any other electronic means approved by the secretary of state.

(b) If the voter submits a valid photographic identification document to the county election office before the county board of canvassers convenes, the county election officer shall present the document to the board of canvassers to determine the validity of the provisional ballot. If the board of canvassers determines the photographic identification document to be valid and the provisional ballot is not determined to be invalid for any other reason, the ballot shall be counted. (Authorized by and implementing K.S.A. 2010 Supp. 25-1122, as amended by L. 2011, ch. 56, sec. 2, and K.S.A. 2010 Supp. 25-2908, as amended by L. 2011, ch. 56, sec. 11; effective Feb. 24, 2012.)

7-46-2. Election board worker assessment of validity of photographic identification documents.

(a) Each election board worker to whom a photographic identification document is presented by a voter shall assess the sufficiency and validity of that document as follows:

(1) The election board worker shall perform the following:

(A) Verify that the name on the photographic identification document is consistent with the name on the poll book;

(B) allow for abbreviations and nicknames, including “Wm.” or “Bill” for “William”;

(C) if the name of the voter is consistent with the name in the poll book, proceed to paragraph (a)(2); and

(D) if the voter’s name is different from the name in the poll book or the name as stated by the voter due to marriage, divorce, hyphenation, or legal action, issue the voter a provisional ballot on the condition that the voter first completes an application for voter registration.

(2) The election board worker shall compare

the photograph to the voter to determine whether the voter is the person depicted in the photograph, considering hair color, glasses, facial hair, cosmetics, weight, age, injury to the voter, and other physical characteristics.

(A) If the election board worker is satisfied that the voter is the person depicted in the photographic identification document and the voter’s name is consistent with the name in the poll book, then the election board worker shall issue the voter a regular ballot.

(B) If the election board worker is unable to determine whether the voter is the person depicted in the photographic identification document because of degradation or insufficient photograph quality, then the election board worker shall issue a regular ballot to the voter if one of the following conditions is met:

(i) The voter’s date of birth on the presented photographic identification document matches the voter’s date of birth in the poll book.

(ii) The voter submits a different photographic identification document that contains a photograph that appears to the election board worker to depict the voter.

(iii) An election board worker at the polling place possesses knowledge that the person depicted in the photographic identification document is the voter.

(3) If the election board worker determines that the photographic identification document does not depict the voter, then the election board worker shall issue a provisional ballot unless the voter submits a different photographic identification document that contains a photograph that appears to the election board worker to depict the voter.

(b) The photographic identification document shall not be used to verify the address of the voter if the document contains an address. The photographic identification document shall be used to verify only the name and appearance of the voter. The poll book shall be used to verify the address of the voter by comparing the voter’s address in the poll book to the address stated by the voter.

(c) If there is a dispute regarding the application of this regulation to a voter or if the election board worker is unable to determine a voter’s eligibility, the supervising judge shall make a decision regarding whether a regular ballot or a provisional ballot shall be issued.

(d)(1) The county election officer shall present all provisional ballots to the county board of canvassers for a determination of validity.

(2) Each provisional ballot issued under this regulation shall be counted if both of the following conditions are met, unless the provisional ballot is determined to be invalid for another reason:

(A) Before the county board of canvassers convenes, the voter provides information to the county officer that remedies each deficiency or inconsistency that led to the issuance of the provisional ballot.

(B) The county board of canvassers determines that the voter's provisional ballot is valid.

(e) Nothing in this regulation shall require an election board worker to issue a regular ballot if the election board worker determines that a voter is attempting to circumvent the photographic identification requirement. Except as specified in K.S.A. 25-2908(i) and amendments thereto, nothing in this regulation shall exempt the voter from providing a photographic identification document. (Authorized by and implementing K.S.A. 2010 Supp. 25-2908, as amended by L. 2011, ch. 56, sec. 11; effective Feb. 24, 2012.)

7-46-3. Declarations of religious objection. (a) Each person who is otherwise entitled to vote and who seeks an exemption from the photographic identification requirement pursuant to K.S.A. 25-2908(i)(5), and amendments thereto, shall sign and submit a declaration form concerning the person's religious beliefs before receiving a ballot in each election in which the person intends to vote. The person may sign and submit the declaration form to the secretary of state or the county election officer before each election or when applying for a ballot.

(b) A voter shall not submit a declaration of religious objection in place of a valid photographic identification document after casting a ballot. (Authorized by and implementing K.S.A. 2010 Supp. 25-2908, as amended by L. 2011, ch. 56, sec. 11; effective Feb. 24, 2012.)

Article 47.—AUDITS

7-47-1. Audit implementation. The requirements of this regulation shall not apply to local question elections, mail-ballot elections pursuant to K.S.A. 25-431 through 25-441 and amendments thereto, or statewide constitutional amendments.

(a) As used in K.S.A. 25-3009 and amendments thereto, the term “unofficial election night re-

turns” shall include ballots cast and counted on election day, ballots cast in advance and counted on election day, and ballots cast by means of the uniformed and overseas citizens absentee voting act (UOCAVA) procedures and counted on election day. This term shall not include any ballots cast that are challenged or marked as provisional or any ballots that are cast in advance and received after election day.

(b) Training shall be provided by the secretary of state to each county election officer. Each county election officer shall provide training to the election board, as specified in K.S.A. 25-3009 and amendments thereto, conducting the postelection audit. The training shall include the identification of voter intent specific to the vote-casting technologies in use across Kansas.

(c)(1) An auditable race and precinct shall be a race and precinct meeting the requirements in K.S.A. 25-3009, and amendments thereto, for an audit to be conducted. The random selection of races and precincts shall take place in a public setting, and the procedure to randomize the selection of races and precincts shall be determined solely by each county election officer and the secretary of state. Upon completion of the audit, each election board shall transmit to the secretary of state and the county election office the results of the audit no later than 48 hours before the meeting of the county board of canvassers.

(2) In even-year elections, within 24 hours of the closing of the final polling location in Kansas, the list of randomly selected races to be audited shall be transmitted by the secretary of state to each county election officer. Each county election officer shall examine each race in the order specified until an auditable race is determined. Each county election officer shall then randomly select one percent of the total county precincts from the subset of auditable precincts. If no contested race exists, the election board shall audit the first race listed.

(3) In odd-year elections, each county election officer shall randomly select the races and then each precinct to be audited.

(d) Ballot images may be used for the manual audit if imaging technology exists during the tabulation process on election night. (Authorized by and implementing K.S.A. 2018 Supp. 25-3009; effective, T-7-6-26-19, June 26, 2019; effective Sept. 27, 2019.)

Agency 9

Kansas Department of Agriculture— Division of Animal Health

Editor's Note:

Pursuant to Executive Reorganization Order (ERO) No. 40, the Kansas Animal Health Department was abolished on July 1, 2011. Powers, duties and functions were transferred to the Kansas Department of Agriculture, Division of Animal Health. See L. 2011, Ch. 135.

Article 3.—SWINE BRUCELLOSIS AND CERVIDS

9-3-6. Definitions. As used in K.A.R. 9-3-6 through 9-3-17, each of the following terms shall have the meaning specified in this regulation:

(a) “Adult domesticated cervid” means any domesticated cervid that is 12 months of age or older.

(b) “Affected herd” means any domesticated cervid herd in which tissues or fluids collected from a live animal or carcass of an animal tested positive for any infectious or contagious disease for which the herd may be quarantined, including chronic wasting disease (CWD), bovine tuberculosis (TB), or *Brucella abortus* (brucellosis), using an approved test conducted at an approved laboratory.

(c) “Animal” means a member of the family Cervidae, unless otherwise stated.

(d) “APHIS” means the animal and plant health inspection service of the United States department of agriculture.

(e) “Approved laboratory” means any laboratory approved by APHIS to conduct brucellosis, TB, and CWD testing.

(f) “Approved test” means any test for brucellosis, TB, or CWD conducted under protocols established by APHIS.

(g) “Cervid” means any member of the family Cervidae and hybrids, including deer, elk, moose, caribou, reindeer, and related species.

(h) “Chronic wasting disease” and “CWD” mean a nonfebrile, transmissible spongiform encephalopathy that is insidious and degenerative and that affects the central nervous system of cervids.

(i) “Commingle” means grouping animals in a manner in which physical contact among animals could occur, including maintaining animals in the same pasture or enclosure. This term shall not include holding animals at a sale, during transportation, during artificial insemination, or in other situations in which only limited contact is involved.

(j) “Commissioner” means Kansas animal health commissioner.

(k) “CWD-clean herd” means a herd that has been a participating herd for at least 10 years in Kansas or in a state with a CWD monitoring program of equivalent status.

(l) “CWD-exposed animal” means an animal that is part of a CWD-positive herd or that has been exposed to a CWD-positive animal or contaminated premises within the previous five years.

(m) “CWD-exposed herd” means a herd in which a CWD-positive animal has resided within five years before that animal’s diagnosis as CWD-positive, as determined by an APHIS employee or representative of the commissioner.

(n) “CWD-infected herd” means any herd with a confirmed CWD-positive animal that has not completed a herd plan.

(o) “CWD-positive animal” means any cervid that tests positive on an approved test at an approved laboratory.

(p) “CWD-source herd” means a herd that is identified through testing or epidemiological investigations to be the source of CWD-positive animals identified in other herds.

(q) “CWD-suspect animal” means any cervid that showed clinical signs of the disease before death, but whose results on an approved test are inconclusive or have not yet been reported.

(r) “CWD-suspect herd” means a herd for which unofficial CWD test results, laboratory evidence, or clinical signs suggest a diagnosis of CWD, as determined by an APHIS employee or state representative, but for which confirmatory laboratory results have been inconclusive or not yet reported.

(s) “Depopulate” means to remove, from a premises, animals that are determined to be infected or exposed to a specific disease by means of euthanizing the animals or by moving the animals to an approved slaughter facility for slaughter.

(t) “Domesticated cervid” means “domesticated deer,” as defined in K.S.A. 47-2101 and amendments thereto.

(u) “Domesticated cervid permit” means the permit required by K.S.A. 47-2101, and amendments thereto, to sell or raise any cervid.

(v) “Herd” means a group of animals maintained on the same premises or two or more groups of animals maintained in a manner that results in commingling.

(w) “Herd inventory” means an accounting that lists each adult domesticated cervid by its sex, age,

breed or species, official identification and any other identification and that is confirmed by an accredited veterinarian or by a representative of the commissioner.

(x) “Herd plan” means a signed written agreement between the herd owner, the commissioner, and the APHIS administrator, detailing any testing requirements and allowable movements into and out of an affected herd. The herd plan may also include requirements on fencing, decontamination, and cleanup of premises.

(y) “Herd status” means the number of years during which a herd owner’s participating herd has been in an approved CWD monitoring program, indicating the probability that the herd is not affected by the disease. Herd status is determined by the length of time the herd has been monitored for CWD and by the herd owner’s full compliance with the program.

(z) “Official identification” means the identification required by K.S.A. 47-2101, and amendments thereto, which for any animal in a participating herd shall be in the form of a unique means of identification approved by APHIS and the commissioner. Acceptable forms of official identification shall include electronic implants, which are also known as microchips, radio frequency identification (RFID) tags, tamper-resistant tags, and national uniform eartagging system tags but shall exclude ear tattoos and flank tattoos.

(aa) “Participating herd” means any herd enrolled in the CWD monitoring program.

(bb) “Premises” means the grounds and buildings occupied by a herd and equipment used in the husbandry of the herd.

(cc) “Program” means the CWD monitoring program or the APHIS herd certification program, whichever is applicable.

(dd) “TB” means bovine tuberculosis. (Authorized by and implementing K.S.A. 2013 Supp. 47-607d, 47-610, and 47-2101; effective Sept. 19, 2014.)

9-3-7. Fees. (a) Each applicant for an annual domesticated cervid permit issued pursuant to K.S.A. 47-2101 et seq., and amendments thereto, shall pay one of the following application fees:

- (1) For 1-19 domesticated cervids, \$75.00;
- (2) for 20-49 domesticated cervids, \$125.00; or
- (3) for 50 or more domesticated cervids, \$175.00.

(b) Only those individuals with a current domesticated cervid permit may possess domesticated cervids.

(c) Each applicant shall submit the application for a domesticated cervid permit at least 30 days before taking possession of any domesticated cervid. (Authorized by and implementing K.S.A. 2013 Supp. 47-2101; effective Sept. 19, 2014.)

9-3-8. Records. Each holder of a domesticated cervid permit shall maintain records for each domesticated cervid purchased, acquired, held, transported, sold, or disposed of in any other manner. Each cervid, regardless of age, that enters a herd or leaves a herd alive for any purpose other than for direct movement to slaughter shall have official identification before change of ownership. The records shall be held for at least five years after the animal dies or leaves the premises and shall include the following information:

(a)(1) The name and either the residential or business address of the person from whom each domesticated cervid was acquired; and

(2) the geographic location from which each domesticated cervid was acquired, if this location is different from the residential or business address in paragraph (a)(1);

(b) the date each domesticated cervid was acquired or, if born on the premises, the year of birth of the domesticated cervid;

(c) a description of each domesticated cervid, including the following characteristics:

(1) The species or breed;

(2) the age;

(3) all official identification numbers;

(4) the sex; and

(5) any other significant identification for that animal, including any of the following types of identification:

(A) An ear tag;

(B) an ear tattoo;

(C) an ear notch; or

(D) any brands, scars, or other permanent markings that help identify the animal;

(d)(1) The name and either the residential or business address of the person to whom any domesticated cervid is sold, given, or bartered or to whom the domesticated cervid is otherwise delivered;

(2) the geographic location to which the domesticated cervid is delivered, if this location is different from the residential or business address in paragraph (d)(1); and

(3) the date and method of disposition; and

(e) if the domesticated cervid dies, is euthanized, or is slaughtered, the following additional information:

(1) The date of the death of the animal;

(2) the cause of death of the animal; and

(3) the method of disposition of the animal. (Authorized by and implementing K.S.A. 2013 Supp. 47-2101; effective Sept. 19, 2014.)

9-3-9. Certificate of veterinary inspection; importation and intrastate movement requirements and permits. (a) Each cervid imported into Kansas shall be identified with official identification and shall be accompanied by a certificate of veterinary inspection.

(b) Each individual importing a cervid into Kansas shall obtain an import permit from the Kansas department of agriculture, division of animal health before the cervid enters Kansas. The cervid shall not be allowed entry into Kansas without this permit.

(c) Each animal of the genera *Odocoileus*, *Cervus*, and *Alces*, including whitetail deer, mule deer, black-tailed deer and associated subspecies, North American elk (wapiti), red deer, sika deer, moose, and any hybrids of these species, regardless of age, not moving directly to a licensed slaughter establishment within Kansas shall originate and move directly from a herd with at least five years of herd status in the APHIS herd certification program or an equivalent program administered by the office of the state veterinarian in the state of origin.

Muntjacs, Père David's deer, reindeer or caribou, fallow deer, and axis deer shall be exempt from the monitoring requirements for CWD in K.A.R. 9-3-15 and 9-3-16. Other cervid species may be exempted by the commissioner if the species are determined by APHIS to be nonsusceptible to CWD.

(d) Each adult domesticated cervid, except whitetail deer and mule deer, that is entering Kansas from another state, is not moving directly to a licensed slaughter establishment within Kansas, and has not originated and moved directly from an APHIS-certified brucellosis-free herd shall be required to test negative for brucellosis, using an approved test, within 45 days before entry into Kansas. Any imported cervid required to have tested negative for brucellosis under this subsection may be quarantined for a test or retest for brucellosis by order of the commissioner. Each test or retest shall be at the owner's expense.

(e) All cervids originating from an area identified by APHIS as a designated surveillance area shall be prohibited entry into Kansas.

(f) Each domesticated cervid, except nursing young under four months of age and accompanied by their dam, that is entering Kansas, is not from a herd accredited by APHIS to be TB-free, and is not moving directly to a licensed slaughter establishment in Kansas shall be required to test negative for TB, using an approved test administered twice at least 90 days apart. The first test shall be administered no more than 180 days before entry into Kansas, and the second test administered no more than 90 days before entry.

(g) Any imported cervid may be quarantined for a retest for TB by order of the commissioner.

(h) Each domesticated cervid, alive or dead, transported within the state of Kansas shall be accompanied by a completed transportation notice signed by the shipper on a form provided by the Kansas department of agriculture, division of animal health. One copy of the notice shall be mailed to the commissioner, one copy shall accompany the shipment, and one copy shall be retained by the shipper. The shipper shall possess a current domesticated cervid permit. (Authorized by K.S.A. 2016 Supp. 47-607, 47-607d, and 47-2101; implementing K.S.A. 2016 Supp. 47-607, 47-607a, and 47-2101; effective Sept. 19, 2014; amended March 10, 2017.)

9-3-10. Brucellosis. (a) Any adult domesticated cervid known or suspected to have been exposed to brucellosis may be quarantined for a test or retest for brucellosis by order of the commissioner.

(b) The owner of any domesticated cervid herd infected with brucellosis shall take either of the following steps:

(1) Quarantine and depopulate the herd; or

(2) quarantine the herd until a herd plan to eradicate brucellosis from the infected herd has been completed. (Authorized by K.S.A. 2016 Supp. 47-610; implementing K.S.A. 2016 Supp. 47-610 and K.S.A. 47-614; effective Sept. 19, 2014; amended March 10, 2017.)

9-3-11. Tuberculosis. (a) The following portions of the document titled “bovine tuberculosis eradication: uniform methods and rules, effective January 22, 1999,” published by APHIS, are hereby adopted by reference:

(1) Part I, except the definitions of “affected herd,” “approved laboratory,” “herd,” and “individual herd plan”;

(2) part II, except II.A and II.K.3;

(3) part IV;

(4) part VI; and

(5) appendix 1.

(b) All testing and sample collection for the testing of TB in cervids shall be conducted by a licensed and accredited veterinarian in the state of origin who has been certified by APHIS to conduct TB testing in cervids.

(c) Each adult domesticated cervid that is changing ownership within Kansas, is not intended for immediate slaughter, and has not originated and moved directly from a herd accredited by APHIS to be TB-free shall be required to test negative for TB by an approved test conducted within 90 days before change of ownership.

(d) The owner of each herd infected with TB shall take one of the following steps:

(1) Quarantine and depopulate the herd; or

(2) quarantine the herd until a herd plan to eradicate TB from the infected herd has been completed.

(e) Any imported cervid may be quarantined for a test for TB by order of the commissioner. The test shall be at the owner’s expense. (Authorized by K.S.A. 2013 Supp. 47-607d and 47-610; implementing K.S.A. 2013 Supp. 47-607, 47-610, 47-631, and 47-634; effective Sept. 19, 2014.)

9-3-12. Confinement, handling, and health. (a) Perimeter fencing. Each owner shall confine domesticated cervids with perimeter fencing, which shall meet the following requirements:

(1) Provide a barrier that prevents the escape of the domesticated cervids confined within and prevents the entry of wild cervids from outside the fenced area;

(2) be structurally sound;

(3) be in good repair; and

(4) be of sufficient height to prevent escape, but not less than eight feet for elk, red deer, whitetail deer, moose, and mule deer and not less than six feet for all other types of domesticated cervid. Any perimeter fencing constructed before January 23, 1998 that does not meet the height requirements in this paragraph may be utilized subject to written approval of the commissioner. All new fencing constructed on these premises shall meet the requirements of this paragraph.

(b) Facilities.

(1) Each owner shall provide handling facilities, which shall be adequate to allow each domesticated cervid to be physically handled without undue harm to the domesticated cervid or the handler.

(2) Each access lane and catch pen shall be constructed of materials and shall be of a design adequate to safely contain domesticated cervids for any inspection, identification, testing, quarantine, or other action required by the commissioner.

(c) Herd management. The owner shall provide each domesticated cervid with free access to the following:

- (1) Clean water;
- (2) adequate feed;
- (3) appropriate shelter, natural or otherwise; and
- (4) protection from predators.

(d) Health. Each owner or handler of domesticated cervids shall meet the requirements of all federal and state regulations for contagious and communicable diseases. (Authorized by and implementing K.S.A. 2013 Supp. 47-2101; effective Sept. 19, 2014.)

9-3-13. Escaped domesticated cervids. (a) The owner of any domesticated cervid that has escaped confinement shall report the animal as missing to the commissioner within 48 hours of noticing the animal missing. This report shall include the following information:

- (1) The breed or species of cervid that has escaped;
- (2) the sex of the escaped animal;
- (3) the date the animal was found to be missing;
- (4) the official identification of the animal; and
- (5) any secondary identification on the animal, including plastic tags and brands.

(b) The owner of an escaped domesticated cervid shall bear the cost of recovering that animal.

(c) The following types of domesticated cervids shall be immediately destroyed without compensation to the owner upon the order of the commissioner:

(1) Any escaped domesticated cervid from a herd that is quarantined because the herd is infected with or has been exposed to any infectious or contagious disease; or

(2) any escaped domesticated cervid that is deemed by the commissioner to constitute a hazard to livestock or wildlife through the spread of disease. (Authorized by K.S.A. 2013 Supp. 47-610 and 47-2101; implementing K.S.A. 2013 Supp. 47-610, K.S.A. 47-614, and K.S.A. 2013 Supp. 47-2101; effective Sept. 19, 2014.)

9-3-14. Handling, care, treatment, and transportation. The following portions of 9 C.F.R.

part 3, as in effect on January 1, 2013, as applied to cervids, are hereby adopted by reference:

(a) Secs. 3.125 through 3.133, except sec. 3.127(d); and

(b) secs. 3.136 through 3.142, except that in sec. 3.136(c), “a veterinarian accredited by this Department” shall be replaced by “a veterinarian accredited by APHIS,” and “part 160 of this title” shall be replaced by “9 C.F.R. Part 160.” (Authorized by and implementing K.S.A. 2013 Supp. 47-610 and 47-2101; effective Sept. 19, 2014.)

9-3-15. Participation in the chronic wasting disease monitoring program. (a) Each participating herd shall be maintained or held only on premises for which a current domesticated cervid permit has been issued by the commissioner. If a herd owner wishes to maintain separate herds, the herd owner shall maintain separate herd inventories, records, working facilities, water sources, equipment, and land use. There shall be a buffer zone of at least 30 feet between the perimeter fencing around each separate herd, and no commingling may occur. Movement between herds shall be recorded as if the herds were separately owned.

(b) Each application for enrollment of a herd in the chronic wasting disease program shall be submitted on a form provided by the commissioner and shall include the following:

(1) Documentation that a current domesticated cervid permit has been issued to the owner of the premises on which the herd is held or maintained;

(2) a copy of an initial herd inventory, including documentation of at least one form of official identification for each animal and one form of other visible identification, including ear tags, brands, and any other means that are unique to that animal in the herd; and

(3) adequate herd records and documentation of the history of the herd since it originated or over at least the previous 60 months, whichever is less, including the following:

(A) For each animal added to the herd, any available records documenting the herd status of the herd from which the animal was transferred; and

(B) records establishing that no animal has displayed any clinical signs of CWD and that the herd has not had any CWD-positive animals.

(c) The date of the initial application into the CWD monitoring program shall be the anniversary date. On initial application, a herd inventory, including all official identification and any other

identification, shall be completed and confirmed by means of visual inspection by an accredited veterinarian or a representative of the commissioner.

An application accompanied by a herd inventory, including all official identification and any other identification, shall be completed annually and confirmed by an accredited veterinarian or by a representative of the commissioner. Each herd inventory shall be filed at least 11 months and no more than 13 months after the last anniversary date of the participating herd's enrollment in the program. A visual inspection of the identification listed on the herd inventory shall be conducted and confirmed by an accredited veterinarian or by a representative of the commissioner at least once every three years.

An approved test for CWD shall be administered to the carcass of each animal that is 12 months of age or older at the time the animal dies or is slaughtered, unless an exception is granted by the commissioner.

(d) Failure to comply with this regulation shall result in a reduction or loss of herd status. (Authorized by and implementing K.S.A. 2013 Supp. 47-610 and 47-2101; effective Sept. 19, 2014.)

9-3-16. Program levels. (a) Each participating herd shall be assigned herd status based on the following:

(1) The number of years that the participating herd has been under surveillance with no evidence of CWD; and

(2) the herd owner's compliance with K.A.R. 9-3-15.

Herd status shall be reassigned based on the herd status of each herd from which the participating herd has received any animal.

(b)(1) Each of the following shall start at the entry level of year one:

(A) Each herd that has not received any animal from a herd with previous herd status;

(B) each herd that has received any animal of unknown herd status; and

(C) each herd that is not currently a participating herd.

(2) Application for renewal and advancement within the CWD monitoring program shall be yearly as described in K.A.R. 9-3-15. Each herd meeting the requirements of K.A.R. 9-3-15 shall advance one year in herd status for every year during which these requirements are met. Each participating herd with at least 10 years with no evidence of CWD shall be considered a CWD-

clean herd. To maintain herd status as a CWD-clean herd, a herd shall receive animals only from other CWD-clean herds.

(c) Any owner of a herd in which all animals received have been moved directly from herds of a designated herd status within Kansas, or from a state with a CWD monitoring program equivalent to the Kansas program, may apply for the same level of herd status. However, the participating herd shall be assigned the herd status of the herd with the lowest herd status from which the participating herd has obtained any animal.

(d) Each herd that receives any animals from a herd of lesser herd status shall drop to the lowest level of herd status of the animals received. If a participating herd receives any animals of unknown or no herd status, then the herd status of the participating herd shall be reduced to year one. (Authorized by and implementing K.S.A. 2013 Supp. 47-610 and 47-2101; effective Sept. 19, 2014.)

9-3-17. CWD-infected herds. Each CWD-infected herd shall be subject to the following requirements:

(a) A herd quarantine shall be issued by the commissioner immediately after receiving a report from an approved laboratory of a positive test for CWD in an animal from a herd.

(b) A herd plan shall be developed by a representative of the commissioner and the owner within 21 days of the date the herd quarantine is issued. This herd plan shall be approved by the owner, the state APHIS representative, and the commissioner and shall detail how animal movement into and from the CWD-infected herd may occur.

(c) Each domesticated cervid permittee shall notify the commissioner of the death of any animal in a CWD-infected herd. The notice shall be given to the commissioner within 24 hours of the discovery of the animal's death. An approved test shall be administered by a designee of the commissioner to the carcass of each animal in the CWD-infected herd that dies.

(d) If an animal in a CWD-infected herd shows symptomatic or clinical signs of CWD, the domesticated cervid permittee shall notify the commissioner. The animal shall be euthanized and administered an approved test by a designee of the commissioner.

(e) The carcass of each CWD-positive animal shall be disposed of only by a method and at a site

approved by the commissioner and the secretary of the Kansas department of health and environment or the secretary's designee.

(f) The quarantine on the CWD-infected herd shall be removed after five consecutive years in which there are no animals in the CWD-infected herd with any clinical signs of CWD and no positive results on an approved test. The owner of a CWD-infected herd may apply to reenroll the herd in the program with a year-five herd status. (Authorized by K.S.A. 2013 Supp. 47-610 and 47-2101; implementing K.S.A. 2013 Supp. 47-610, K.S.A. 47-614, K.S.A. 2013 Supp. 47-622 and 47-2101; effective Sept. 19, 2014.)

Article 7.—MOVEMENT OF LIVESTOCK INTO OR THROUGH KANSAS

9-7-4. Tuberculosis and brucellosis in cattle. (a) Tuberculosis.

(1) Breeding cattle six months of age and over shall not be imported into Kansas unless accompanied by an official health certificate showing that the cattle meet the following requirements:

(A) Originated in a herd accredited to be tuberculosis-free;

(B) originated in a tuberculosis-free state; or

(C) have been tested and were found negative for tuberculosis within 60 days before date of entry.

(2) Dairy cattle that are used for breeding and are six months of age or older shall originate from a herd accredited to be tuberculosis-free or shall be tested negative for tuberculosis within 60 days before entry.

(b) Brucellosis.

(1) Brucellosis tests, regardless of method, shall be conducted at a laboratory approved by the United States department of agriculture, animal and plant health inspection service (APHIS).

(2) Breeding cattle six months of age or over imported into Kansas shall meet interstate requirements according to state certification, as outlined in chapter 2 of the United States department of agriculture's document titled "brucellosis eradication: uniform methods and rules, effective October 1, 2003," APHIS publication 91-45-013. The following portions of this document, which shall apply to only this subsection, are hereby adopted by reference:

(A) In chapter 1, part I; and

(B) chapter 2. (Authorized by K.S.A. 2015 Supp. 47-607d, 47-610, and 47-657; implementing K.S.A. 2015 Supp. 47-607, 47-610, and 47-

657; effective Jan. 1, 1966; amended Jan. 1, 1971; amended Jan. 1, 1974; amended, E-76-28, Aug. 15, 1975; amended May 1, 1976; amended May 1, 1982; amended, T-9-5-12-10, May 12, 2010; amended Sept. 24, 2010; amended Oct. 4, 2013; amended May 27, 2016.)

9-7-4a. Trichomoniasis in cattle. (a) Definitions. For the purposes of this regulation, each of the following terms shall have the meaning specified in this subsection:

(1) "Approved laboratory" means any laboratory designated and approved by the commissioner for performing official *Tritrichomonas foetus* PCR tests.

(2) "Certified negative *Tritrichomonas foetus* bull" means a bull that is individually identified by an official identification method approved by the commissioner and meets one of the following requirements:

(A) Originates from a herd that is not known to be infected and, following at least 14 days of sexual rest before sampling and testing, has had a negative official *Tritrichomonas foetus* PCR test result within the last 60 days, with no subsequent exposure to female bovine; or

(B) originates from a positive *Tritrichomonas foetus* herd but, following at least 14 days of sexual rest before sampling and testing, has had a series of two negative official *Tritrichomonas foetus* PCR test results at intervals of at least 14 days, with the second test occurring within the last 60 days, with no subsequent exposure to female bovine.

(3) "Commissioner" means the animal health commissioner of the Kansas department of agriculture.

(4) "Herd" means a group of both sexually intact male animals and sexually intact female animals under common ownership or control and consisting of all bovines over 12 months of age at the time of commingling that have commingled for any period of time during the last 12 months.

(5) "Official positive trichomoniasis infection identification tag" means an individual identification tag approved by the commissioner and signifying that an animal is trichomoniasis-infected.

(6) "Official *Tritrichomonas foetus* PCR test" means a polymerase chain reaction test method approved by the commissioner that detects, through in vitro amplification, the presence of *Tritrichomonas foetus* deoxyribonucleic acid (DNA). Each official *Tritrichomonas foetus* PCR test shall be performed only on an animal that is

individually identified by an official identification method approved by the commissioner. Each sample shall be collected using a test kit system approved by the commissioner, packaged and transported according to the approved laboratory's protocol for the transport of specimens, and collected by a veterinarian who has completed trichomoniasis training. This training shall be approved by the commissioner; include preputial sampling, sample handling and shipping, appropriate recordkeeping, and official animal identification; and be repeated every five years.

(7) "Positive *Tritrichomonas foetus* bull" means a bull that has had a positive official *Tritrichomonas foetus* PCR test.

(8) "Positive *Tritrichomonas foetus* herd" means either of the following:

(A) A herd in which any male or female animal has had a positive diagnosis for *Tritrichomonas foetus*; or

(B) a herd that has commingled for any period of time during the last 12 months with another herd, or portion thereof, from which an animal has had a positive diagnosis for *Tritrichomonas foetus*. The herd, or a portion thereof, shall no longer be classified as a positive *Tritrichomonas foetus* herd once any trichomoniasis quarantine has been lifted for the herd or that portion of the herd.

(9) "Trichomoniasis-infected bovine" means a bovine that has tested positive on an official *Tritrichomonas foetus* PCR test.

(10) "Trichomoniasis quarantine" means a movement restriction issued by the commissioner and placed on all cattle in a positive *Tritrichomonas foetus* herd. This restriction shall specify the identity of the animals and the premises to which the animals shall be confined.

(b) Importation of male bovines into Kansas.

(1) Bulls shall not be imported into Kansas from another state unless they go directly to a licensed slaughter plant or an approved Kansas livestock market to be sold for slaughter, or for feeding purposes and then to slaughter, or are accompanied by a completed certificate of veterinary inspection. The certificate of veterinary inspection shall meet the following requirements:

(A) Have been issued within the past 30 days;

(B) state whether, to the veterinarian's knowledge, trichomoniasis has or has not occurred in the herd of origin within the past two years; and

(C) for virgin bulls 18 months of age or younger, have attached to the certificate a statement signed by the veterinarian or owner or owner's represen-

tative and indicating that the bulls have not been sexually exposed to breeding-aged females.

(2) With the exception of bulls exempted in paragraph (b)(3), non-virgin bulls, bulls older than 18 months of age, and bulls of unknown virginity status shall not be imported into Kansas from another state for breeding purposes unless these bulls are certified negative *Tritrichomonas foetus* bulls. The inspecting veterinarian shall either attach a copy of the official *Tritrichomonas foetus* PCR test results to the certificate of veterinary inspection or provide the following information on the certificate: type of test, results of the test, accession number, and name and address of the testing laboratory.

(3) Each imported bull going to a sanctioned rodeo event or to a livestock show where the bull will be shown and then returned to the state of origin without being sexually exposed to any breeding-aged females shall be exempt from the requirements of paragraph (b)(2).

(c) Importation of female bovines into Kansas. Cows and heifers shall not be imported into Kansas from another state unless the cows and heifers go directly to a licensed slaughter plant or an approved Kansas livestock market to be sold for slaughter, or for feeding purposes and then to slaughter, or are accompanied by a completed certificate of veterinary inspection. The certificate of veterinary inspection shall meet the following requirements:

(1) Have been issued within the past 30 days; and

(2) except for cows or heifers imported into Kansas for a sanctioned rodeo event or a livestock show that will be shown and then returned to the state of origin without being sexually exposed to any bull while in Kansas, document that the cows and heifers meet at least one of the following conditions:

(A) Have a calf at side and no exposure since parturition to bulls other than certified negative *Tritrichomonas foetus* bulls;

(B) are at least 120 days pregnant;

(C) are virgin heifers with no sexual exposure to bulls since weaning;

(D) are documented to have had at least 120 days of sexual isolation;

(E) are heifers or cows exposed only to bulls that are certified negative *Tritrichomonas foetus* bulls;

(F) are purchased for feeding purposes only, with no exposure to bulls after entering Kansas; or

(G) are moving for the purpose of embryo transfer or other artificial reproduction procedure, with no exposure to bulls after entering Kansas.

(d) Intrastate movement of bulls.

(1) Except as provided in paragraphs (d)(2) and (d)(3), if any non-virgin bull, bull older than 18 months of age, or bull of unknown virginity status changes possession or ownership in Kansas by private sale, public sale, lease, trade, barter, or other method, that animal shall be a certified negative *Tritrichomonas foetus* bull at the time of the movement accompanying the change of ownership or possession.

(2) If an individual has a herd management plan to reduce risk of trichomoniasis that has been approved by the commissioner, virgin bulls 24 months of age or younger included within the approved herd management plan shall not be required to be certified negative *Tritrichomonas foetus* bulls when changing ownership in Kansas. However, non-virgin bulls, virgin bulls older than 24 months of age, and bulls of unknown virginity status shall be certified negative *Tritrichomonas foetus* bulls before movement with a change in possession or ownership in Kansas even if these bulls originate from a herd with an approved herd management plan.

(3) Each non-virgin bull, bull older than 18 months of age, and bull of unknown virginity status sold at a livestock market shall be a certified negative *Tritrichomonas foetus* bull, go directly to slaughter, or be purchased for feeding purposes only and then to slaughter.

(e) Trichomoniasis-infected bovines and herds.

(1) The sale, lease, or movement of a bovine from a positive *Tritrichomonas foetus* herd for reproductive purposes shall be prohibited while the bovine is under trichomoniasis quarantine.

(2) The owner or manager of a positive *Tritrichomonas foetus* herd shall inform the commissioner of the total number of bulls and the total number of sexually intact female cattle in the herd.

(3) Each trichomoniasis-infected bovine, and the entire positive *Tritrichomonas foetus* herd from which the bovine originates, shall be placed under trichomoniasis quarantine at the time of positive lab confirmation.

(4) Bulls from a positive *Tritrichomonas foetus* herd shall remain under trichomoniasis quarantine as follows:

(A) Each positive *Tritrichomonas foetus* bull shall be identified with an official positive trichomoniasis infection identification tag by a licensed

veterinarian within seven days of the positive official *Tritrichomonas foetus* PCR test.

(B) Positive *Tritrichomonas foetus* bulls shall be sent directly to slaughter or to public livestock market to be sold for slaughter. Each bull shall have an official positive trichomoniasis infection identification tag before the bull is moved to slaughter or public livestock market.

(C) All other bulls in a positive *Tritrichomonas foetus* herd shall remain under trichomoniasis quarantine until one of the following conditions is met:

(i) The bulls have been declared certified negative *Tritrichomonas foetus* bulls.

(ii) The bulls are identified with an official positive trichomoniasis infection identification tag and sent directly to slaughter or to public livestock market to be sold for slaughter.

(D) The owner or manager of a positive *Tritrichomonas foetus* herd shall assist the commissioner in determining the destination of all non-virgin bulls and bulls of unknown virginity status sold during the 12 months before the diagnosis of trichomoniasis in the herd.

(5) Each reproductive bovine female from a positive *Tritrichomonas foetus* herd shall remain under trichomoniasis quarantine until one of the following conditions is met:

(A) The female is sold directly to slaughter.

(B) The female is sold or transferred directly to a feedyard for feeding purposes and then to slaughter.

(C) The female is sold through an approved livestock market to be sold for slaughter or for feeding purposes and then to slaughter.

(D) Each bull from the female's herd has been declared a certified negative *Tritrichomonas foetus* bull or has been identified with an official positive trichomoniasis infection identification tag and sent directly to slaughter or to public livestock market to be sold for slaughter, and the female meets one of the following conditions:

(i) Has a calf at side and has had no exposure since parturition to bulls other than bulls that are certified negative *Tritrichomonas foetus* bulls;

(ii) has documented 120 days of sexual isolation, except that breeding by artificial insemination with semen from a certified negative *Tritrichomonas foetus* bull shall be allowed during the isolation period; or

(iii) is determined by a licensed veterinarian to be at least 120 days pregnant.

(E) Regardless of the status of bulls from the positive *Tritrichomonas foetus* herd, the owner

or manager of the female obtains a release from trichomoniasis quarantine from the commissioner by providing adequate information and assurances, to the satisfaction of the commissioner, that despite being part of the positive *Tritrichomonas foetus* herd, the female has had no exposure to trichomoniasis.

(6) Unless otherwise allowed by the commissioner, all quarantined bovine females moved from the original premises of trichomoniasis quarantine during the trichomoniasis quarantine period shall be identified with an official positive trichomoniasis infection identification tag.

(7) The owner or manager of a positive *Tritrichomonas foetus* herd shall assist the commissioner in determining the destination of all non-virgin female bovines sold during the 12 months before the diagnosis of trichomoniasis in the herd.

(f) Approved laboratory responsibilities. Each approved laboratory shall immediately report any *Tritrichomonas foetus*-positive specimen to the commissioner. Each report shall include the official identification device; brand; owner's name, address, and telephone number; and the submitting veterinarian's name, address, and telephone number.

(g) Self-reporting. The owner or manager of cattle who has reason to believe that at least one of those cattle is affected with trichomoniasis shall report this belief to the commissioner as required by K.S.A. 47-622, and amendments thereto, and K.A.R. 9-27-1.

(h) Stray bulls. Any stray bull found on public or private land, from a known or unknown herd of origin, may be confined and placed under a hold order until the bull has one or more official *Tritrichomonas foetus* PCR tests. Each test and the cost of holding the bull shall be the responsibility of the bull's owner. The conditions of the hold or trichomoniasis quarantine order and the number of tests shall be determined by the commissioner.

(i) Neighbor notification. The owner or manager, or both, of a positive *Tritrichomonas foetus* herd shall, within 14 days after lab confirmation of the diagnosis, submit to the commissioner a list of the names and contact information of all known adjacent landowners or land managers. For purposes of this subsection, "adjacent landowners or land managers" shall include all owners and managers of land capable of maintaining livestock susceptible to trichomoniasis whose land is located within the perimeter of the epidemiological study established by the commissioner.

If an owner or manager does not comply with this subsection, the commissioner may assess all administrative costs associated with the notification process against the owner or manager, or both. (Authorized by K.S.A. 2015 Supp. 47-607d and 47-610; implementing K.S.A. 2015 Supp. 47-607 and 47-610; effective May 27, 2016.)

Article 10.—PUBLIC LIVESTOCK MARKETS

9-10-33a. Electronic auctions; health certificates. For each electronic auction, the costs associated with issuance of the health certificate required under K.S.A. 47-1008, and amendments thereto, shall be paid by the consignor. Each of these health certificates shall meet the requirements of K.A.R. 9-10-3. (Authorized by and implementing K.S.A. 2016 Supp. 47-1008; effective, T-9-8-29-00, Aug. 29, 2000; effective Dec. 29, 2000; amended Sept. 22, 2017.)

9-10-40. License fees and renewals. (a) As part of the application for a public livestock market license, each owner or operator shall pay a license application fee of \$375 to the commissioner.

(b)(1) Each owner or operator of a public livestock market shall pay an annual license fee of \$250 on or before June 30.

(2) Each owner or operator of an electronic auction shall pay an annual license fee of \$250 on or before June 30, except as specified in this paragraph. If the owner or operator of an electronic auction is also the owner or operator of a public livestock market, the annual fee for the electronic auction license shall be \$125.

(c) Each license shall expire annually on June 30, pursuant to K.S.A. 47-1001e and amendments thereto.

(d) It shall be illegal to operate a public livestock market or conduct an electronic auction without a valid license, pursuant to K.S.A. 47-1001e and amendments thereto. (Authorized by and implementing K.S.A. 47-1001a and K.S.A. 2016 Supp. 47-1001e; effective Sept. 22, 2017.)

Article 18.—ANIMAL FACILITY INSPECTION PROGRAM—LICENSE AND REGISTRATION FEES

9-18-1. (Authorized by and implementing K.S.A. 2004 Supp. 47-1721, as amended by 2005 SB 266, sec. 1; effective, T-9-7-22-89, July 27, 1989; amended Sept. 11, 1989; amended, T-9-7-

1-91, July 1, 1991; amended, T-9-10-22-91, Oct. 22, 1991; amended Feb. 10, 1992; amended, T-9-7-1-96, July 1, 1996; amended Nov. 15, 1996; amended, T-9-5-31-01, May 31, 2001; amended, T-9-9-27-01, Sept. 27, 2001; amended May 30, 2003; amended, T-9-7-1-05, July 1, 2005; amended Sept. 16, 2005; revoked Nov. 17, 2017.)

9-18-2 and 9-18-3. (Authorized by K.S.A. 47-1712; implementing K.S.A. 47-1709; effective, T-9-7-1-03, July 1, 2003; effective Nov. 7, 2003; revoked Nov. 17, 2017.)

9-18-4. Definitions. For purposes of this article of the department's regulations, each of the following terms shall have the meaning specified in this regulation:

(a) "Act" means Kansas pet animal act, K.S.A. 47-1701 et seq., and amendments thereto.

(b) "Adult animal" means a dog or cat that is four months of age or older.

(c) "Housing facility" has the meaning specified in K.S.A. 47-1701, and amendments thereto, and shall include any land or area housing or intended to house animals.

(d) "Indoor housing facility" means any structure or building with environmental controls that houses or is intended to house animals and that is an enclosure created by the continuous connection of a roof, walls, and floor.

(e) "Licensee" means the individual, group of individuals, or entity to whom a license is issued by the Kansas department of agriculture, animal health division's animal facility inspection program.

(f) "Outdoor housing facility" means any facility that houses or is intended to house animals and does not meet the definition of indoor housing facility or sheltered housing facility. The temperatures for outdoor housing facilities typically cannot be controlled.

(g) "Pet animal foster home" means the licensed premises of an individual who has a written and signed agreement to provide temporary care for one or more dogs or cats owned by an animal shelter or a rescue network that is licensed by the state of Kansas.

(h) "Rescue network" means the premises of a rescue network manager and all pet animal foster homes organized under that rescue network manager that provide temporary care for one or more dogs or cats not owned by an animal shelter that maintains a central facility for keeping animals.

(i) "Rescue network manager" means the person designated by a rescue network to be responsible for the following functions:

(1) Approving the membership of each pet animal foster home in the rescue network;

(2) carrying out the duties of the rescue network manager under K.A.R. 9-18-27, including the intake of all dogs and cats in the care of the rescue network;

(3) maintaining on that person's premises all documentation required by K.A.R. 9-18-27 and 9-18-28, including records pertaining to the adoption, placement, or other disposition of each dog and cat receiving temporary care from the rescue network; and

(4) ensuring compliance with this regulation and K.A.R. 9-18-28 by each pet animal foster home belonging to the rescue network.

(j) "Sheltered housing facility" means a housing facility that includes a structure or building with environmental controls and also allows animals independent access to the outside. This term shall include any facility that does not meet the definition of indoor housing facility due to having a gravel or dirt floor or not being entirely enclosed.

(k) "Temporary care" means the care and housing of an animal for 12 months or less during the calendar year, except as provided by K.A.R. 9-18-27(g) and K.A.R. 9-18-28(j).

(l) "Temporary pet shop" means a type of pet shop that operates for a total of 12 or fewer sale days per license year and is not permanently located on a premises.

(m) "U.S.D.A." means United States department of agriculture. (Authorized by and implementing K.S.A. 2016 Supp. 47-607d and K.S.A. 47-1712; effective Nov. 17, 2017.)

9-18-5. Importing dogs and cats. Dogs and cats shall not be imported into Kansas unless the dogs and cats are accompanied by a certificate of veterinary inspection issued by a licensed veterinarian, stating that each dog and cat meets the following requirements:

(a) Is free from symptoms of any communicable disease;

(b) has not been exposed to rabies; and

(c) has been vaccinated against rabies with a product licensed by the U.S.D.A., with the duration of immunity and method of administration in accordance with the manufacturer's guidelines. Dogs and cats under three months of age shall not be required to be vaccinated against rabies. (Au-

thorized by K.S.A. 2016 Supp. 47-607, 47-607d, 47-610; implementing K.S.A. 2016 Supp. 47-607, 47-607d, 47-608, 47-610; effective Nov. 17, 2017.)

9-18-6. Fees. Each applicant for a license or permit and each applicant, licensee, or permittee subject to or requesting an inspection pursuant to K.S.A. 47-1701 et seq., and amendments thereto, shall pay the applicable fee or fees, as follows:

- (a) License for animal breeder premises of a person licensed under 7 U.S.C. § 2131 et seq. \$450.00
- (b) License for an animal shelter located as follows:
 - (1) First-class city, as defined in K.S.A. 13-101, and amendments thereto, or any entity contracting with a first-class city \$400.00
 - (2) Second-class city, as defined in K.S.A. 14-101, and amendments thereto, or any entity contracting with a second-class city \$335.00
 - (3) Third-class city, as defined in K.S.A. 15-101, and amendments thereto, or any entity contracting with a third-class city \$285.00
- (4) License for a rescue network manager, regardless of location \$125.00
- (c) License for a retail breeder licensed under 7 U.S.C. § 2131 et seq. \$450.00
- (d) License for a retail breeder not licensed under 7 U.S.C. § 2131 et seq. \$450.00
- (e) License for an operator of a temporary pet shop with 12 or fewer sale days in a license year \$200.00
- (f) License for an operator of a pet shop \$600.00
- (g) License for an operator of a research facility licensed under 7 U.S.C. § 2131 et seq. \$300.00
- (h) License for an operator of a research facility not licensed under 7 U.S.C. § 2131 et seq. \$300.00
- (i) License for a hobby breeder \$250.00
- (j) License for a boarding or training kennel operator \$200.00
- (k) License for an animal distributor licensed under 7 U.S.C. § 2131 et seq. \$400.00
- (l) Out-of-state distributor permit \$650.00
- (m) Temporary closing permit for a hobby breeder or training kennel operator \$45.00
- (n) Temporary closing permit for an animal shelter, animal distributor, retail breeder, pet shop, or research facility \$95.00
- (o) Inspection fee for each inspection performed upon request by a licensee,

- permittee, or applicant for a license or permit \$200.00
- (p) No-contact fee pursuant to K.S.A. 47-1721, and amendments thereto \$200.00
- (q) Reinspection fee pursuant to K.S.A. 47-1721, and amendments thereto \$200.00
- (r) License for each premises required to be licensed under multiple license categories the fee for the most expensive applicable license and a fee of \$50 for each additional applicable license
- (s) Late fee for failure to renew any existing license before October 1 \$70.00

(Authorized by and implementing K.S.A. 2018 Supp. 47-1721; effective Nov. 17, 2017; amended Feb. 8, 2019.)

9-18-7. Records. (a) Each licensee shall maintain records for each animal purchased, acquired, held, transported, sold, or disposed of in any other manner.

(1) Each cat or dog of weaning age and older shall be individually identified. The records shall include the following:

(A) The name and address of the person from whom each animal was acquired;

(B) the date each animal was acquired; and

(C) a description of each animal, including the following:

(i) The animal's age, size, color markings, sex, species, and breed;

(ii) any available information regarding vaccinations;

(iii) any other significant identification for each animal, including any official tag number, microchip, or tattoo; and

(iv) the name and address of the person to whom any animal is sold, given, bartered, or otherwise delivered or euthanized, and the date on which the action took place. The record shall show the method of disposition.

(2) The records of animals other than cats and dogs shall be kept so that the origins of lots can be identified. Animals from multiple origins may be comingled if records indicate all of the origins of a lot. The records shall include the date the lots were acquired, from whom the lots were acquired, general identification information, and disposition information.

(b) Each licensee shall store records for the current license year and previous two license years on the premises where the animals are located and shall make the records available for inspection.

tion. (Authorized by and implementing K.S.A. 47-1712; effective Nov. 17, 2017.)

9-18-8. Access to premises. Each licensee shall provide the commissioner or the commissioner's representatives with access to the licensee's premises Monday through Friday, between 7:00 a.m. and 7:00 p.m., in order to take any of the following actions:

- (a) Enter the licensee's place of business;
- (b) examine records required to be kept under K.A.R. 9-18-7;
- (c) make copies of the records;
- (d) inspect premises and animals as the commissioner or the commissioner's representatives consider necessary to enforce the provisions of the act and this article of the department's regulations;
- (e) document, by the taking of photographs and other means, any conditions and areas of noncompliance; and
- (f) use a room, table, or other facilities necessary for the examination of the records and inspection. (Authorized by and implementing K.S.A. 47-1712; effective Nov. 17, 2017.)

9-18-9. Inspections of premises. (a) Each premises that is licensed or that the commissioner finds reasonable grounds to believe is required to be licensed under the act shall be subject to routine inspections by the commissioner or any of the commissioner's authorized representatives to determine compliance with the act and all applicable regulations.

(b) Each premises shall be subject to routine inspections at the following intervals:

(1) A routine inspection shall be conducted every three to 12 months for each new premises and each premises that has failed one of its two most recent inspections.

(2) A routine inspection shall be conducted every nine to 18 months for each premises that has passed its two most recent inspections.

(3) A routine inspection shall be conducted every 15 to 24 months for each premises that has passed its three most recent inspections.

(c) In addition to routine inspections, any premises may be subject to one or more additional inspections under any of the following circumstances:

- (1) A violation was found in a previous inspection.
- (2) A complaint is filed regarding the premises.
- (3) The ownership of the premises changed in the previous year.

(4) The license for the premises was not renewed in a timely manner.

(d) Routine inspections shall be made on Monday through Friday, between the hours of 7:00 A.M. and 7:00 P.M., except that these inspections may be conducted at alternate times, upon the agreement of all interested persons or entities.

(e) If the owner or operator of the premises is not routinely available between the hours of 7:00 A.M. and 7:00 P.M., the owner or operator shall designate a representative who will be present while the inspection is conducted and shall notify the commissioner in writing of the name of the designated representative. The designated representative shall be 18 years of age or older and mentally and physically capable of representing the licensee in the inspection process. The owner or operator shall notify the commissioner in writing of any new representative who is designated to be present during inspections.

(f) Any inspection to investigate allegations of violations adversely affecting the health, safety, and welfare of the animals may be conducted on any day of the week and at any hour deemed reasonably necessary by the commissioner.

(g) Prior notice of inspection dates shall not be provided to the owner or operator of any licensed premises. (Authorized by K.S.A. 47-1712; implementing K.S.A. 2018 Supp. 47-1709, K.S.A. 2018 Supp. 47-1733, and K.S.A. 2018 Supp. 47-1736; effective Nov. 17, 2017; amended Feb. 8, 2019.)

9-18-10. General requirements for housing facilities. (a) Construction. Each housing facility shall be designed and constructed as follows:

- (1) In a manner that is structurally sound; and
- (2) in a manner that protects animals from injury, contains the animals securely, and restricts other animals from entering.

(b) Housekeeping. Each licensee shall keep the premises where housing facilities and food storage are located, including buildings and surrounding grounds, clean and in good repair to protect the animals from injury, to facilitate the husbandry practices required by K.A.R. 9-18-14 and to reduce or eliminate breeding and living areas for rodents and other pests and vermin. The licensee shall keep the premises free of accumulations of trash, junk, waste products, and discarded matter. The licensee shall control weeds, grasses, and bushes so as to facilitate cleaning of the premises and pest control and to protect the health and well-being of the animals.

(c) Surfaces.

(1) The surfaces of each housing facility, including any houses, dens, fixtures, and objects in the housing facility that are similar to furniture, shall be constructed and maintained in a manner and made of materials that allow them to be readily cleaned and sanitized on a regular basis, or shall be removed or replaced when worn or soiled.

(2) All interior surfaces and any surfaces that come into contact with animals shall meet the following requirements:

(A) Be free of rust; and

(B) be free of jagged edges or sharp points that might injure the animals.

(3) Each licensee shall maintain all surfaces on a regular basis, which shall include regular cleaning and sanitizing. Surfaces shall be replaced when the surfaces are worn or permanently soiled and can no longer be effectively cleaned and sanitized.

(4) The floors and walls of each indoor housing facility, and any other surfaces in contact with the animals, shall be impervious to moisture. The ceilings of each indoor housing facility shall be impervious to moisture or shall be replaceable.

(d) Water and electric power. Each indoor housing facility or sheltered housing facility shall have electric power. Each outdoor housing facility shall have lighting and electric power that allows for animal husbandry as required under this act. Each housing facility shall have access to adequate potable water for animal and facility needs.

(e) Storage. Each licensee shall store supplies of food and bedding in a manner that protects the supplies from spoilage, contamination, and vermin infestation. Food requiring refrigeration shall be stored accordingly. Each licensee shall keep all open supplies of food and bedding in leakproof containers with tightly fitted lids. Only food and bedding currently being used may be kept in the animal areas. The licensee shall not store any substance that is toxic to the animals in food storage and preparation areas. However, toxic substances that are required for normal husbandry practices may be stored in the animal areas if stored in a manner that prevents harmful exposure to animals.

(f) Drainage and waste disposal.

(1) Each licensee shall provide for the regular and frequent collection, removal, and disposal of animal and food wastes and other debris in a manner that minimizes contamination and disease risks.

(2) If present, disposal facilities and drainage systems shall be properly constructed, installed,

and maintained in such a manner to avoid all foul odors and any backup of sewage.

(3) Each licensee shall ensure that any standing liquid in the animal enclosures is removed in an efficient manner so that the animals stay dry.

(4) Each licensee shall use trash containers for facility waste that are leakproof and shall keep tightly fitted lids on the containers at all times.

(g) Washing facilities. Washing facilities shall be provided for animal caretakers and shall be readily accessible. Washing facilities may include wash-rooms, basins, sinks, or showers. (Authorized by and implementing K.S.A. 47-1712; effective Nov. 17, 2017.)

9-18-11. Additional requirements for indoor housing facilities and sheltered housing facilities. The requirements in this regulation shall be in addition to the requirements in K.A.R. 9-18-10.

(a) Structure. The building or structure of each indoor housing facility and each sheltered housing facility shall be constructed so that temperature and humidity levels can be controlled and odors can be eliminated rapidly. The building or structure shall have at least one door for entry and exit that can be opened and closed. Any windows or openings that provide natural light shall be covered with glass, hard plastic, or a similar hard, transparent material.

(b) Heating, cooling, and temperature. Each licensee operating an indoor housing facility or a sheltered housing facility shall ensure that the facility is sufficiently heated and cooled to protect and provide for the animals' health and well-being.

(1) Each licensee operating an indoor housing facility or a sheltered housing facility shall ensure that, when dogs or cats are present, the ambient temperature in the facility does not fall below 45°F or 7.2°C for more than four consecutive hours and does not exceed 85°F or 29.5°C for more than four consecutive hours.

(2) Each licensee shall provide dry bedding, solid resting boards, or other means of conserving body heat whenever the ambient temperature inside the facility is below 50°F or 10°C.

(3) Except as approved by the attending veterinarian, a licensee operating an indoor housing facility or a sheltered housing facility shall not permit the ambient temperature in the facility to fall below 50°F or 10°C when any of the following dogs or cats are present:

(A) Any dog or cat not acclimated to lower temperatures;

(B) any dog or cat of a breed that cannot tolerate lower temperatures without stress or discomfort, including short-haired breeds; or

(C) any dog or cat that is sick, infirm, or of a young or advanced age so that the dog or cat cannot tolerate lower temperatures without stress or discomfort.

(c) Ventilation. When animals are present, each indoor housing facility or sheltered housing facility shall be sufficiently ventilated at all times to provide for the animals' health and well-being and to minimize odors, drafts, ammonia levels, and moisture condensation. Ventilation shall be provided by windows, vents, fans, or air conditioning units. The licensee shall provide auxiliary ventilation whenever the ambient temperature is at least 85°F or 29.5°C. Auxiliary ventilation may include fans, blowers, and air conditioning units. The licensee shall maintain the relative humidity at a level that ensures the health and well-being of the animals housed in the facility, in accordance with the directions of the attending veterinarian and generally accepted professional and husbandry practices.

(d) Lighting. Each licensee shall provide enough lighting in all animal areas of each indoor housing facility or sheltered housing facility to permit inspection and cleaning of the facility and observation of the animals. All animal areas shall be provided with a regular, uniform diurnal lighting cycle of either natural or artificial light when species-appropriate. Each primary enclosure shall be placed in a manner that protects the dogs and cats from excessive light. (Authorized by and implementing K.S.A. 47-1712; effective Nov. 17, 2017.)

9-18-12. Additional requirements for outdoor housing facilities. The requirements in this regulation shall be in addition to the requirements in K.A.R. 9-18-10.

(a) Restrictions.

(1) A licensee shall not keep any of the following categories of dogs or cats in outdoor housing facilities, unless that practice is specifically approved in writing by the attending veterinarian:

(A) Any dog or cat that is not acclimated to the temperatures prevalent in the area or whose acclimation status is unknown;

(B) any dog or cat of a breed that cannot tolerate the prevalent temperatures of the area with-

out stress or discomfort, including short-haired breeds in cold climates; and

(C) any dog or cat that is sick, infirm, or of a young or advanced age so that the dog or cat cannot tolerate the prevalent temperatures of the area without stress or discomfort.

(2) If a licensee operating an outdoor housing facility does not know whether a dog or cat is acclimated, the licensee shall not keep that dog or cat in the outdoor housing facility whenever the ambient temperature is less than 50°F or 10°C.

(b) Shelter from the elements. Each outdoor housing facility shall include one or more shelter structures accessible to each animal, large enough to allow each animal in the shelter to sit, stand, and lie in a normal manner and to turn about freely, and of appropriate size to allow each animal to conserve body heat. In addition to the shelter structures, each licensee shall provide one or more separate, outside areas of shade that are large enough to contain all the animals at one time and protect them from the direct rays of the sun. Each shelter structure in an outdoor housing facility for dogs or cats shall contain a roof, four sides, and a flat floor and shall meet the following requirements:

(1) Provide protection and shelter from the cold, heat, and direct effects of sun, wind, rain, snow and other elements;

(2) be provided with a wind break and rain break at the entrance; and

(3) contain clean, dry bedding material as necessary. Bedding shall be provided if the ambient temperature is below 50°F or 10°C. The licensee shall provide additional clean, dry bedding material when the temperature is 35°F or 1.7°C or lower.

(c) Prohibited shelter structures. A licensee shall not use metal barrels, cars, refrigerators, freezers, or any similar items as shelter structures. (Authorized by and implementing K.S.A. 47-1712; effective Nov. 17, 2017.)

9-18-13. Primary enclosures. (a) Construction. Each primary enclosure shall be designed and constructed of suitable materials so that the primary structure is structurally sound. Each licensee shall keep the primary enclosure in good repair.

(b) Maintenance. Each primary enclosure shall be constructed and maintained so that the primary enclosure meets the following conditions:

(1) Provides all the animals with shelter and protection from extreme temperatures and

weather conditions that could be uncomfortable or hazardous;

(2) provides sufficient shade to protect from direct sun all the animals housed in the primary enclosure simultaneously;

(3) has floors that are constructed in a manner that protects the animals' feet and legs from injury. If the floor is constructed of mesh or slats, the floor shall not allow the animals' feet to pass through any openings in the floor. If any metal strands are used to construct a suspended floor for the primary enclosure, the metal strands shall be nine-gauge wire or wire that is greater than $\frac{1}{8}$ of an inch in diameter or shall be coated with plastic, fiberglass, or a comparable material. If any suspended floor is used in a primary enclosure, that floor shall be strong enough that the floor does not sag or bend between structural supports; and

(4) if stacked cages are used to house animals, provides an impervious barrier between the levels of stacked cages. The barrier may be removed as needed for cleaning.

(c) Additional requirements for cats. The requirements of this subsection shall be in addition to the requirements in subsection (a), (b), and (e).

(1) Space. The licensee shall provide the following minimum vertical space and floor space for each cat that is housed in the primary enclosure, including any weaned kitten:

(A) Each primary enclosure housing cats shall be at least 24 inches (60.96 centimeters) high.

(B) Each cat weighing not more than 8.8 pounds (4 kilograms) shall be provided with at least 3.0 square feet (0.28 square meters) of floor space.

(C) Each cat weighing more than 8.8 pounds (4 kilograms) shall be provided with at least four square feet (0.37 square meters) of floor space.

(D) Each queen with nursing kittens shall be provided with an additional amount of floor space, based on her breed and behavioral characteristics and in accordance with generally accepted husbandry practices.

(E) The minimum floor space required by this subsection shall not include any space occupied by food or water pans. The litter pan may be considered part of the floor space if the pan is cleaned and sanitized.

(2) Litter. The licensee shall provide a receptacle in each primary enclosure that contains sufficient clean litter to contain excreta and other body wastes.

(3) Resting surfaces. Each primary enclosure housing cats shall contain one or more elevated

resting surfaces that, when added together, are large enough to hold simultaneously all the occupants of the primary enclosure comfortably. Low resting surfaces that do not allow the space under them to be comfortably occupied by the animal shall be counted as part of the floor space.

(d) Additional requirements for dogs. The requirements of this subsection shall be in addition to the requirements in subsections (a), (b), and (e).

(1) Space.

(A) The licensee shall provide a minimum amount of floor space for each dog housed in the primary enclosure, including each weaned puppy housed in a primary enclosure, using the following calculation: the length of the dog or puppy from the tip of the nose to the base of the tail in inches plus six inches, squared, and then divided by 144, shall equal the required minimum floor space in square feet.

(B) The licensee shall provide each bitch that has nursing puppies with an additional amount of floor space, based upon the dog's breed and behavioral characteristics and in accordance with generally accepted husbandry practices, as determined by the attending veterinarian.

(C) The interior height of a primary enclosure shall be at least six inches higher than the head of the tallest dog in the primary enclosure in a normal standing position.

(2) Prohibited types of primary enclosures for dogs. The tethering of dogs shall be prohibited for use as a permanent primary enclosure.

(e) Innovative primary enclosures. Any licensee may use an innovative primary enclosure not meeting the floor area and height requirements specified in this regulation if the commissioner determines that the primary enclosure will provide the dogs or cats with a sufficient volume of space and the opportunity to express species-typical behavior. (Authorized by and implementing K.S.A. 47-1712; effective Nov. 17, 2017.)

9-18-14. Cleaning, sanitization, and pest control.

(a) Each licensee shall spot-clean daily all surfaces with which the animals come into contact. These surfaces shall be sanitized as necessary to avoid excessive accumulation of excreta, reduce disease hazard, avoid animal contact with excreta, and prevent or eliminate odors, insects, pest, and vermin infestation. If steam or water is used to clean the primary enclosure, whether by hosing, flushing, or other methods, the licensee shall first remove the animals, unless the enclosure is

large enough to ensure that the animals will not be harmed, wetted, or distressed in the process.

(b)(1) Each licensee shall clean and sanitize each used primary enclosure and each used food and water receptacle using one of the methods prescribed in paragraph (b)(3) before the primary enclosure or food and water receptacle is used to house, feed, or water another dog, cat, or social grouping of animals.

(2) The licensee shall sanitize all used primary enclosures and food and water receptacles for animals at least once every two weeks using one of the methods prescribed in paragraph (b)(3), and more often if necessary to prevent an accumulation of dirt, debris, food waste, excreta, and other disease hazards.

(3) Each licensee shall sanitize the surfaces of primary enclosures and the food and water receptacles using one of the following methods:

(A) Spraying all surfaces with steam under pressure;

(B) washing all surfaces with hot water that is at least 180°F or 82.2°C and with soap or detergent, using a mechanical cage washer or similar device; or

(C)(i) Washing all soiled surfaces with appropriate detergent solutions and disinfectants or with a product that is a combination of a detergent and a disinfectant that accomplishes the same purpose;

(ii) thoroughly cleaning the surfaces to remove all organic material and mineral buildup and to provide sanitization; and

(iii) rinsing with clean water.

(4) Each licensee shall remove any contaminated material that cannot be sanitized using the methods specified in paragraph (b)(3), including gravel, sand, grass, earth, or absorbent bedding, as often as necessary to prevent odors, diseases, pests, insects, and vermin infestation.

(c) Each licensee shall establish and maintain an effective program for the control of insects and external parasites affecting animals. Additionally, the licensee shall develop a plan for the management of birds and mammals that are pests or potential hazards so as to promote the health and well-being of the animals and reduce contamination by pests in animal areas. (Authorized by and implementing K.S.A. 47-1712; effective Nov. 17, 2017.)

9-18-15. Compatible grouping. No licensee shall house any animals in groups that are incompatible, including incompatibility due to age, sexual status, aggressive disposition, breed,

species, contagious disease, or any other reasons. (Authorized by and implementing K.S.A. 47-1712; effective Nov. 17, 2017.)

9-18-16. Separation of animals by gender. All sexually intact adult animals shall be housed separately from all other sexually intact adult animals of the opposite sex within an animal shelter, rescue network, or pet animal foster home. (Authorized by and implementing K.S.A. 47-1712; effective Nov. 17, 2017.)

9-18-17. Feeding and watering. (a)(1) Each licensee shall meet the “adequate feeding” requirements as defined in K.S.A. 47-1701, and amendments thereto. Each licensee shall feed all animals as appropriate to species and age. All cats and dogs shall be fed at least once each day, unless restricted by written order by the attending veterinarian. The food shall be uncontaminated, wholesome, palatable, and of sufficient quantity and nutritive value to maintain the normal condition and weight of the animal. The diet shall be appropriate for each animal’s age and condition.

(2) Each licensee shall provide a sufficient number of food receptacles for animals, which shall meet the following requirements:

(A) Be easily accessible to all animals being fed;

(B) be located so as to minimize contamination by excreta and pests;

(C) be protected from rain and snow; and

(D) either be discarded after one use or be easily cleaned and sanitized.

(b) Each licensee shall meet the “adequate watering” requirements as defined in K.S.A. 47-1701, and amendments thereto. Drinkable water shall be supplied in a sanitary manner and in adequate amounts at intervals suitable for each animal’s species and either continuously accessible to each animal or supplied to maintain the health and well-being of each animal. If water is not continuously accessible, then water shall be provided at least twice daily for at least one hour each time or more often as conditions warrant, unless restricted by written order of the attending veterinarian or not species-appropriate. (Authorized by and implementing K.S.A. 47-1712; effective Nov. 17, 2017.)

9-18-18. Contingency planning. Each licensee shall develop, document, and follow a written contingency plan to provide for the humane handling, treatment, transportation, housing, and care of the animals on the premises if an

emergency or natural disaster occurs. The plan shall be updated annually, be made available to the commissioner or the commissioner's representatives upon request, and at minimum include the following:

(a) Identification of potential known risks, including power failures, fires, natural disasters, and faulty heating, ventilation, and air conditioning systems;

(b) an outline of specific tasks required to be carried out in response to the identified emergency; and

(c) identification of the individual or individuals responsible for carrying out the plan, along with contact information for each individual. (Authorized by and implementing K.S.A. 47-1712; effective Nov. 17, 2017.)

9-18-19. Employees and volunteers. Each licensee shall employ enough individuals to provide the level of husbandry practices and care required by the act and this article of the department's regulations. Each employee or volunteer who provides husbandry and care or who handles animals shall be supervised by an individual who has the knowledge, background, and experience in proper husbandry and care of animals to supervise others. The licensee shall ensure that the supervisor, other employees, and volunteers perform to these standards. (Authorized by and implementing K.S.A. 47-1712; effective Nov. 17, 2017.)

9-18-20. Age of animal. A licensee shall not sell, exchange, or adopt any animal if the animal is at an age at which doing so would be detrimental to the animal's health or well-being. No puppy or kitten may be sold, exchanged, or adopted until the animal is at least eight weeks of age and has been weaned, which shall mean eating solid food and not nursing, for at least five days.

For the purposes of this regulation, weight and other factors may be used to approximate the age of an animal of unknown age. (Authorized by and implementing K.S.A. 47-1712; effective Nov. 17, 2017.)

9-18-21. Adequate veterinary medical care. Each licensee shall have an attending veterinarian who provides the licensee's animals with "adequate veterinary medical care," as defined in K.S.A. 47-1701 and amendments thereto. (Authorized by and implementing K.S.A. 47-1712; effective Nov. 17, 2017.)

9-18-22. Exercise. (a) Each licensee shall develop, document, and follow a plan to provide dogs over 12 weeks of age, except bitches with litters, with the opportunity for exercise. The plan shall include written standard procedures. Forced exercise devices shall be strictly prohibited. If a dog is without sensory contact with another dog, the dog shall be provided with positive physical contact with humans at least daily. The opportunity for exercise may be provided in a number of ways, which may include the following:

(1) Providing group housing in cages, pens, or runs that provide at least 100 percent of the required space for each dog under the minimum floor space requirements of K.A.R. 9-18-13;

(2) maintaining individually housed dogs in cages, pens, or runs that provide at least twice the minimum floor space required by K.A.R. 9-18-13; and

(3) providing access to a run or open area at the frequency and duration prescribed by the attending veterinarian.

(b) If, in the opinion of the attending veterinarian, it is inappropriate for a dog to exercise because of the dog's health, condition, or well-being, the attending veterinarian shall document this exemption in writing. The licensee shall make this documentation available to the commissioner or the commissioner's representatives upon request. (Authorized by and implementing K.S.A. 47-1712; effective Nov. 17, 2017.)

9-18-23. Transfer, movement, adoption, or other permanent relocation of feline immunodeficiency virus-positive cats. (a) The transfer, movement, adoption, or other permanent relocation of any feline immunodeficiency virus-positive cat (FIV-positive cat) from a licensed animal shelter or rescue network to another licensed animal shelter or rescue network and to a foster home or a member of the public shall be allowed if a veterinarian who has a veterinary-client-patient relationship with the animal shelter or rescue network where the FIV-positive cat is currently located performs the following:

(1) Confirms that the FIV-positive cat to be transferred, moved, adopted, or otherwise permanently relocated is a nonsymptomatic FIV-positive cat; and

(2) provides a written statement to the animal shelter or rescue network and to the new owner or holder authorizing the transfer, movement, adoption, or other permanent relocation of the FIV-positive cat that states the symptoms, the

risks, and the recommendations of how the cat should be housed to minimize the spread of the virus.

(b) All notifications and statements created under this regulation shall be maintained as a part of the recordkeeping requirements under K.A.R. 9-18-7.

(c) If the commissioner determines that the continued transfer, movement, adoption, or other permanent relocation of FIV-positive cats endangers the health of any other domestic animals, this regulation may be temporarily suspended by order of the commissioner. (Authorized by and implementing K.S.A. 2018 Supp. 47-610 and K.S.A. 47-1712; effective Dec. 20, 2019.)

9-18-24. Animal breeders and animal distributors. K.A.R. 9-18-10 through 9-18-15, K.A.R. 9-18-17, K.A.R. 9-18-19, and K.A.R. 9-18-22 shall not apply to animal breeders and animal distributors. Each animal breeder and each animal distributor shall comply with 9 C.F.R. 3.1 through 3.4 and 3.6 through 3.12, as in effect on January 1, 2015. These sections are hereby adopted by reference, with the following modifications and deletions:

(a) All references to “the administrator,” “APHIS,” “pertinent funding federal agency,” and “USDA officials” shall be deemed to refer to the commissioner.

(b) All references to “dealer” or “dealers” and to “exhibitor” or “exhibitors” shall be deemed to refer to animal breeders and animal distributors.

(c) All references to “research facility,” “research facilities,” “federal research facilities,” and “research needs” shall be deleted.

(d) In 9 C.F.R. 3.6, paragraphs (b)(5) and (c)(3) shall be deleted.

(e) In 9 C.F.R. 3.8, paragraphs (b)(1) and (d)(2) shall be deleted. (Authorized by and implementing K.S.A. 47-1712; effective Nov. 17, 2017.)

9-18-25. Prohibiting the sale or gift of certain animals by pet shops. (a) A pet shop shall not sell any reptiles, offer any reptiles for sale, or offer any reptiles as a gift or promotional consideration unless a notice regarding safe reptile-handling practices meeting the requirements of subsection (b) is prominently posted or displayed at each location in the pet shop where the reptiles are displayed, housed, or held.

(b) Each notice regarding safe reptile-handling practices shall be the notice provided at no charge

by the Kansas department of agriculture upon the request of any pet shop, any notice created by the centers for disease control and prevention, or any other notice that meets the following requirements:

(1) The dimensions of each notice shall be at least 8.5 inches by 11 inches. The notice shall use one or more typefaces or fonts that are clearly visible and readily draw attention to the notice.

(2) At a minimum, the notice shall contain the following statements:

“As with many other animals, reptiles carry salmonella bacteria, which can make people sick. To reduce the chance of infection, follow these safe reptile-handling steps:

“Always wash your hands thoroughly after you handle your pet reptile, its food, and anything it has touched.

“Keep your pet reptile and its equipment out of the kitchen or any area where food is prepared.

“Don’t nuzzle or kiss your pet reptile.

“Keep reptiles out of homes where there are children less than one year of age or people with weakened immune systems. Children less than five should handle reptiles only with adult or parental guidance, and they should wash their hands afterwards.”

(c) A pet shop shall not possess, sell, offer for sale, or offer as a gift or promotional consideration any skunk, raccoon, fox, or coyote.

(d) A pet shop shall not possess, sell, offer for sale, or offer as a gift or promotional consideration any viable turtle eggs or live turtles with a carapace length of less than four inches. For purposes of this subsection, the term “turtle” shall include all animals commonly known as turtles, tortoises, terrapins, and all other animals of the order Testudinata, class Reptilia, except marine species. (Authorized by K.S.A. 47-1712; implementing K.S.A. 47-1713; effective Nov. 17, 2017.)

9-18-26. Animal research facilities. Each animal research facility shall meet all requirements of K.A.R. 9-18-10 through 9-18-15, K.A.R. 9-18-17, K.A.R. 9-18-20, and K.A.R. 9-18-22, unless differing conditions are needed for legitimate research reasons. These differing conditions and legitimate research reasons shall be documented in a specific research protocol and shall be made available to the commissioner or the commissioner’s authorized representatives upon request. (Authorized by and implementing K.S.A. 47-1712; effective Nov. 17, 2017.)

9-18-27. Rescue networks. (a) An application form for a rescue network manager license shall be provided by the commissioner at the request of any individual seeking a license as a rescue network manager. The individual shall submit the completed application and the license fee to the commissioner.

(b) Except for stray dogs and cats, each dog or cat in the care of a licensee, other than the personal pets of the licensee, shall have been relinquished by an owner, transferred from another licensee, or transferred from an animal shelter licensed in Kansas. Each rescue network manager shall be responsible for the intake of all dogs or cats in the rescue network. Each licensee that obtains a dog or cat from a veterinarian for the purpose of adopting shall comply with K.S.A. 47-1731, and amendments thereto. Stray dogs, cats, puppies, or kittens may be placed with a rescue network only after the requirements of K.S.A. 47-1710, and amendments thereto, have been met by a licensed animal shelter.

(c) Each rescue network manager wanting to maintain or house more than 19 adult animals at any time at the premises of the rescue network manager shall apply for and receive an animal shelter license before accepting more than 19 adult animals. The limit of 19 adult animals shall include the following:

(1) Any adult animal that is a personal pet of the rescue network manager; and

(2) any adult animal owned by any other individual or entity and maintained, housed, or harbored by the rescue network manager.

(d) Any licensee may offer any animal in its custody for adoption and may transfer ownership of the animal pursuant to K.S.A. 47-1731, and amendments thereto.

(e) Each rescue network manager shall arrange to spay or neuter each cat and dog, or certify each animal as unable to be spayed or neutered, within 10 business days of receipt of the dog or cat.

(f) Each rescue network manager shall process all documentation for each adoption of a dog or cat in the custody of the rescue network and for all spay and neuter deposits required by K.S.A. 47-1731, and amendments thereto. A copy of each of these documents shall be kept at the premises of the rescue network manager. Intact dogs, cats, puppies, or kittens may be adopted only from the premises of the rescue network manager or a licensed animal shelter.

(g) Each rescue network manager shall comply with K.A.R. 9-18-28 regarding adoption and

transfer of ownership of each dog or cat receiving temporary care in a pet animal foster home.

(h) Dogs or cats shall not remain in the custody of a rescue network for more than 12 months without written permission from the commissioner. Each licensee wanting to retain custody of a dog or cat beyond 12 months shall send a written request to the commissioner, stating the reasons for the request.

(i) Each licensee accepting animals from out of state shall comply with the importation and certificate of veterinary inspection requirements specified in K.A.R. 9-18-5 and K.A.R. 9-7-11. The original of each certificate of veterinary inspection shall be maintained with the files of the licensed rescue network manager or animal shelter. A copy of the health certificate shall be available at the pet animal foster home.

(j) Rescue network manager licenses shall not be transferable. (Authorized by K.S.A. 47-1712 and K.S.A. 2015 Supp. 47-1731; implementing K.S.A. 2015 Supp. 47-1701, K.S.A. 47-1704, K.S.A. 2015 Supp. 47-1710, K.S.A. 47-1712, and K.S.A. 2015 Supp. 47-1731; effective Nov. 17, 2017.)

9-18-28. Pet animal foster homes. (a) Rescue networks and animal shelters may utilize pet animal foster homes.

(b) Rescue network managers and animal shelter licensees shall require each of their prospective pet animal foster homes to sign a pet animal foster home agreement with the supervising rescue network or animal shelter licensee. The rescue network manager or animal shelter licensee shall state in the agreement that the pet animal foster home is required to comply with all the requirements contained in this regulation.

(c) Each rescue network manager and animal shelter licensee shall keep records of all pet animal foster homes utilized by the rescue networks and animal shelter.

(d) Each rescue network manager and each animal shelter licensee shall ensure that all pet animal foster homes utilized by the rescue network or animal shelter comply with the Kansas pet animal act and all applicable regulations.

(e) Each animal shelter licensee or rescue network manager using a pet animal foster home shall develop a plan of veterinary care to be followed by the pet animal foster home. The plan of veterinary care shall be recorded on the form specified in the definition of “adequate veterinary medical care” in K.S.A. 47-1701, and amendments

thereto. This plan shall include the name of the licensed veterinarian whom the pet animal foster home shall contact in case of injury or illness and the name of the party responsible for the payment of treatment and office call charges. The animal shelter licensee or rescue network manager shall require each pet animal foster home to notify the sponsoring animal shelter or rescue network manager of any dog or cat receiving veterinary care within 24 hours of treatment. A copy of the plan of veterinary care shall be filed annually with the commissioner.

(f) The animal shelter licensee or rescue network manager shall require that a pet animal foster home not directly accept stray dogs or cats or any animal relinquished by its owner. Each pet animal foster home wanting to accept stray dogs or cats or animals that are relinquished by their owners shall apply for and receive an animal shelter license before accepting these animals. Each rescue network manager shall be responsible for the intake of all animals in the care of the rescue network. No stray dog or cat may be placed with a pet animal foster home until the applicable requirements of K.S.A. 47-1710, and amendments thereto, have been met.

(g) A pet animal foster home shall not foster more than 10 adult cats or dogs at the same time.

(h)(1) A pet animal foster home shall not at any time maintain or house on the premises more than 19 adult dogs or cats. The limit of 19 dogs or cats shall include the following:

(A) Any adult dog or cat that is a personal pet of the pet animal foster home caretaker; and

(B) any adult dog or cat owned by any other individual or entity and maintained, housed, or harbored on the premises.

(2) If more than 19 adult dogs or cats will be housed on the premises for any reason, the pet animal foster home shall apply for an animal shelter license and shall not accept any adult dogs or cats in excess of that limit before receiving the animal shelter license.

(i)(1) An animal shelter licensee or rescue network manager shall not place any intact dog or cat six months of age or older into the custody of a pet animal foster home unless spaying or neutering is contraindicated by a licensed veterinarian. If a veterinarian has examined and recommends that the dog or cat should not be altered, the pet animal foster home shall obtain a copy of a written opinion by the veterinarian as to why the animal cannot be altered and an estimated time of when,

if ever, the animal can be altered. A copy of the written opinion shall be kept by both the pet animal foster home and the rescue network manager or animal shelter licensee.

(2) Intact female dogs or cats that are nursing puppies or kittens may be housed in a pet animal foster home until the puppies or kittens are weaned. Puppies or kittens shall be considered weaned once they are eating solid food and not nursing for five consecutive days. Puppies or kittens may remain unaltered in foster care only up to six months of age. Puppies and kittens at four months of age shall be considered adults and shall be counted as part of the 10 total dogs or cats that rescue network managers or animal shelter licensees may place at pet animal foster homes.

(j) The animal shelter licensee or rescue network manager shall process all documentation for each adoption and all spay and neuter deposits required by K.S.A. 47-1731, and amendments thereto. Each intact dog, cat, puppy, or kitten shall be adopted directly from the animal shelter or, in the case of a rescue network, from the premises of the rescue network manager. Any altered dog, cat, puppy, or kitten may be adopted directly from the pet animal foster home only after all final adoption paperwork has been processed through the animal shelter or rescue network manager and all applicable requirements of K.S.A. 47-1710, and amendments thereto, have been met by a licensed animal shelter. (Authorized by K.S.A. 47-1712; implementing K.S.A. 2018 Supp. 47-1701, K.S.A. 2018 Supp. 47-1704, K.S.A. 2018 Supp. 47-1710, K.S.A. 47-1712, and K.S.A. 2018 Supp. 47-1731; effective Nov. 17, 2017; amended Feb. 8, 2019.)

9-18-29. Mobile adoption facilities. Once an animal shelter license or rescue network manager license has been obtained, the animal shelter licensee or the rescue network manager may host adoption events at a location other than the licensed premises if the requirements of all applicable statutes and regulations are met at the licensee's other locations. The animal shelter licensee or rescue network manager shall provide notice to the commissioner or the commissioner's authorized representative of the date and location of each adoption event at least five business days before the adoption event. (Authorized by K.S.A. 47-1712; implementing K.S.A. 47-1704; effective Nov. 17, 2017.)

9-18-30. Tethering of animals by boarding or training kennel operators. The tethering of dogs by boarding or training kennel operators for training purposes may be permitted for periods not to exceed two hours per interval and never to exceed a total of four hours per day. This tethering shall not adversely affect the welfare of the animal. (Authorized by and implementing K.S.A. 47-1712; effective Nov. 17, 2017.)

9-18-31. Euthanasia methods; prohibition. The following portion of the American veterinary medical association's document titled "AVMA guidelines for the euthanasia of animals: 2013 edition" is hereby adopted by reference: pages 5-102, excluding the section titled "references" on pages 84-97 and any portion that applies to any animal that is not an "animal" as defined in K.S.A. 47-1701 and amendments thereto. For the purposes of this document, the terms "animal" and "euthanasia" shall have the meanings specified in K.S.A. 47-1701, and amendments thereto.

Each licensee who euthanizes any animals shall follow the recommendations and guidelines for the handling and care of animals during the euthanasia process as identified in this document and shall use only the acceptable methods of euthanasia for a particular species to be euthanized specified in this document. Inhaled carbon monoxide shall not be used as a method of euthanasia of dogs and cats. (Authorized by K.S.A. 47-1712; implementing K.S.A. 2015 Supp. 47-1718; effective April 29, 2016.)

Article 19.—ANIMAL BREEDERS AND DISTRIBUTORS; FACILITY STANDARDS, ANIMAL HEALTH, HUSBANDRY, AND OPERATIONAL STANDARDS

9-19-12. (Authorized by and implementing K.S.A. 47-1712; effective, T-9-7-1-03, July 1, 2003; effective Oct. 31, 2003; revoked Nov. 17, 2017.)

Article 20.—PET SHOPS

9-20-1, 9-20-2, and 9-20-3. (Authorized by and implementing K.S.A. 1990 Supp. 47-1712, as amended by L. 1991, Ch. 152, Sec. 32; effective, T-9-10-22-91, Oct. 22, 1991; effective Feb. 10, 1992; revoked Nov. 17, 2017.)

9-20-4. (Authorized by K.S.A. 1998 Supp. 47-1712; implementing K.S.A. 1998 Supp. 47-1713; effective Feb. 26, 1999; revoked Nov. 17, 2017.)

Article 21.—ANIMAL RESEARCH FACILITY

9-21-1, 9-21-2, and 9-21-3. (Authorized by and implementing K.S.A. 1990 Supp. 47-1712, as amended by L. 1991, Ch. 152, Sec. 32; effective, T-9-10-22-91, Oct. 22, 1991; effective Feb. 10, 1992; revoked Nov. 17, 2017.)

Article 22.—ANIMAL POUNDS AND SHELTERS

9-22-1, 9-22-2, and 9-22-3. (Authorized by and implementing K.S.A. 1990 Supp. 47-1712, as amended by L. 1991, Ch. 152, Sec. 32; effective, T-9-10-22-91, Oct. 22, 1991; effective Feb. 10, 1992; revoked Nov. 17, 2017.)

9-22-4 and 9-22-5. (Authorized by K.S.A. 47-1712 and 47-1731; implementing K.S.A. 47-1701, 47-1704, 47-1710, 47-1712, and 47-1731; effective, T-9-5-31-01, May 31, 2001; effective, T-9-9-27-01, Sept. 27, 2001; effective May 30, 2003; amended, T-9-7-1-03, July 1, 2003; amended Sept. 19, 2003; revoked Nov. 17, 2017.)

Article 23.—HOBBY KENNEL OPERATORS

9-23-1, 9-23-2, and 9-23-3. (Authorized by and implementing K.S.A. 1990 Supp. 47-1712, as amended by L. 1991, Ch. 152, Sec. 32; effective, T-9-10-22-91, Oct. 22, 1991; effective Feb. 10, 1992; revoked Dec. 20, 2019.)

Article 24.—KENNEL OPERATORS

9-24-1, 9-24-2, and 9-24-3. (Authorized by and implementing K.S.A. 1990 Supp. 47-1712, as amended by L. 1991, Ch. 152, Sec. 32; effective, T-9-10-22-91, Oct. 22, 1991; effective Feb. 10, 1992; revoked Nov. 17, 2017.)

Article 25.—RETAIL BREEDERS FACILITY STANDARDS; ANIMAL HEALTH, HUSBANDRY AND OPERATIONAL STANDARDS

9-25-1, 9-25-2, 9-25-3, and 9-25-4. (Authorized by and implementing K.S.A. 1995 Supp. 47-1712, as amended by Sub. for 1996 HB 2607, § 15; effective, T-9-7-1-96, July 1, 1996; effective Nov. 15, 1996; revoked Nov. 17, 2017.)

9-25-5 and 9-25-6. (Authorized by and im-

plementing K.S.A. 47-1712; effective, T-9-7-1-96, July 1, 1996; effective Nov. 15, 1996; amended, T-9-7-1-03, July 1, 2003; amended Oct. 31, 2003; revoked Nov. 17, 2017.)

9-25-7, 9-25-8, 9-25-9, 9-25-10, and 9-25-11. (Authorized by and implementing K.S.A. 1995 Supp. 47-1712, as amended by Sub. for 1996 HB 2607, § 15; effective, T-9-7-1-96, July 1, 1996; effective Nov. 15, 1996; revoked Nov. 17, 2017.)

9-25-12. (Authorized by and implementing K.S.A. 47-1712; effective, T-9-7-1-96, July 1, 1996; effective Nov. 15, 1996; amended, T-9-7-1-03, July 1, 2003; amended Nov. 7, 2003; revoked Nov. 17, 2017.)

9-25-13, 9-25-14, and 9-25-15. (Authorized by and implementing K.S.A. 1995 Supp. 47-1712, as amended by Sub. for 1996 HB 2607, § 15; effective, T-9-7-1-96, July 1, 1996; effective Nov. 15, 1996; revoked Nov. 17, 2017.)

Article 26.—EUTHANASIA

9-26-1. (Authorized by K.S.A. 47-1712; implementing K.S.A. 47-1718; effective Nov. 15, 1996; amended, T-9-7-1-03, July 1, 2003; amended Oct. 31, 2003; revoked April 29, 2016.)

Article 27.—REPORTABLE DISEASES

9-27-1. Designation of infectious or contagious diseases. The following diseases shall be designated as reportable infectious or contagious animal diseases and shall be reported in accordance with K.S.A. 47-622, and amendments thereto:

- (a) Anthrax;
- (b) all species of brucellosis;
- (c) equine infectious anemia;
- (d) classical swine fever, which is also known as hog cholera;
- (e) pseudorabies;
- (f) psoroptic mange;
- (g) rabies;
- (h) tuberculosis;
- (i) vesicular stomatitis;
- (j) avian influenza;
- (k) pullorum;
- (l) fowl typhoid;
- (m) psittacosis;
- (n) viscerotropic velogenic Newcastle disease, which is also known as exotic Newcastle disease;
- (o) foot-and-mouth disease;

- (p) rinderpest;
- (q) African swine fever;
- (r) piroplasmosis;
- (s) vesicular exanthema;
- (t) Johne's disease;
- (u) scabies;
- (v) scrapie;
- (w) trichomoniasis;
- (x) equine herpesvirus myeloencephalopathy;
- (y) western equine encephalomyelitis;
- (z) eastern equine encephalomyelitis;
- (aa) Venezuelan equine encephalomyelitis;
- (bb) West Nile virus;
- (cc) bovine spongiform encephalopathy;
- (dd) chronic wasting disease; and
- (ee) any other diseases that the animal health commissioner determines to be immediately reportable due to an animal health emergency situation. (Authorized by K.S.A. 2015 Supp. 47-610 and 47-1832; implementing K.S.A. 2015 Supp. 47-610 and 47-622; effective Jan. 23, 1998; amended Sept. 24, 2010; amended Aug. 19, 2016.)

Article 29.—CERVIDAE

9-29-1, 9-29-2, and 9-29-3. (Authorized by and implementing K.S.A. 47-2101; effective Jan. 23, 1998; revoked Sept. 19, 2014.)

9-29-4. (Authorized by K.S.A. 1996 Supp. 47-607 and K.S.A. 47-607d; implementing K.S.A. 1996 Supp. 47-607 and K.S.A. 47-607a; effective Jan. 23, 1998; revoked Sept. 19, 2014.)

9-29-5. (Authorized by K.S.A. 1996 Supp. 47-607, K.S.A. 47-607d, 47-610, 47-611, and 47-657; implementing K.S.A. 1996 Supp. 47-607, K.S.A. 47-608, 47-610, 47-612, 47-614, and 47-657; effective Jan. 23, 1998; revoked Sept. 19, 2014.)

9-29-6. (Authorized by K.S.A. 1998 Supp. 47-607, K.S.A. 47-607d, 47-610, 47-611, and 47-631; implementing K.S.A. 1998 Supp. 47-607, K.S.A. 47-608, 47-610, 47-612, 47-614, 47-631, 47-632, 47-633a, 47-634, and K.S.A. 1998 Supp. 47-635; effective Jan. 23, 1998; amended July 2, 1999; revoked Sept. 19, 2014.)

9-29-7. (Authorized by K.S.A. 47-2101; implementing K.S.A. 47-122; effective Jan. 23, 1998; revoked Sept. 19, 2014.)

9-29-8. (Authorized by K.S.A. 47-610; implementing K.S.A. 47-122, 47-610 and 47-614; effective Jan. 23, 1998; revoked Sept. 19, 2014.)

9-29-9. (Authorized by K.S.A. 1996 Supp. 47-607, 47-607d, 47-610, 47-611, 47-631, and 47-657; implementing K.S.A. 1996 Supp. 47-607, K.S.A. 47-610, 47-631, and 47-657; effective Jan. 23, 1998; revoked Sept. 19, 2014.)

9-29-10. (Authorized by K.S.A. 47-607d; implementing K.S.A. 47-608 and 47-2101; effective Jan. 23, 1998; revoked Sept. 19, 2014.)

9-29-11. (Authorized by K.S.A. 47-607d, 47-610, and 47-631; implementing K.S.A. 47-608, 47-610, 47-611 and 47-631; effective Jan. 23, 1998; revoked Sept. 19, 2014.)

9-29-12, 9-29-13, and 9-29-14. (Authorized by K.S.A. 47-607d, 47-610, and 47-2101, as amended by L. 2001, Ch. 5, Sec. 176; implementing K.S.A. 47-610 and 47-2101, as amended by L. 2001, Ch. 5, Sec. 176; effective Jan. 18, 2002; revoked Sept. 19, 2014.)

9-29-15. (Authorized by K.S.A. 47-607, 47-607d, 47-610, and 47-2101, as amended by L. 2001, Ch. 5, Sec. 176; implementing K.S.A. 47-607, 47-610, 47-614, 47-622, and 47-2101, as amended by L. 2001, Ch. 5, Sec. 176; effective Jan. 18, 2002; revoked Sept. 19, 2014.)

10-10. COLLECTION AND REPORTING.

10-22. FIELD TESTING FOR CONTROLLED SUBSTANCES.

10-23. KANSAS ASSET SEIZURE AND FORFEITURE REPOSITORY.

Article 10.—COLLECTION AND REPORTING

10-10-2. Reporting time frame. Each criminal justice agency required to report criminal history record information to the central repository shall do so within 14 days of the reportable event to which the information relates, unless otherwise specified by law. (Authorized by K.S.A. 2012 Supp. 22-4704, as amended by 2013 HB 2041, sec. 3; implementing K.S.A. 2012 Supp. 22-4705; effective, E-81-31, Oct. 8, 1980; effective May 1, 1981; amended Aug. 23, 2013.)

10-10-5. Electronic reporting by district courts. Each district court shall electronically report all case filings and dispositions for all violations of K.S.A. 8-1567, K.S.A. 2013 Supp. 8-1025, K.S.A. 2013 Supp. 21-5426, K.S.A. 2013 Supp. 21-6419, K.S.A. 2013 Supp. 21-6420, K.S.A. 2013 Supp. 21-6421 or K.S.A. 2013 Supp. 21-6422, and amendments thereto, to the central repository. The case filings and dispositions shall be electronically submitted by a method approved by the director. (Authorized by and implementing K.S.A. 2013 Supp. 22-4704, as amended by 2014 HB 2501, sec. 6; effective Aug. 23, 2013; amended, T-10-5-30-14, July 1, 2014; amended Sept. 19, 2014.)

Article 22.—FIELD TESTING FOR CONTROLLED SUBSTANCES

10-22-1. Approved field tests. (a) Law enforcement officers shall use only the field tests specified in this regulation on suspected controlled substances for admission of the field test results at any preliminary examination pursuant to K.S.A. 22-2902, and amendments thereto.

(b) The following reagents shall be the only reagents approved by the director of the Kansas bureau of investigation (KBI) for reagent-based field tests:

(1) Chen's reagent;

- (2) cobalt thiocyanate reagent;
 - (3) Dille-Koppanyi reagent;
 - (4) Duquenois-Levine reagent;
 - (5) Ehrlich's reagent;
 - (6) fast blue B or BB reagent or the salts of either reagent;
 - (7) Fröhdes reagent;
 - (8) Mandelin reagent;
 - (9) Marquis reagent;
 - (10) Mecke's reagent;
 - (11) nitric acid reagent;
 - (12) Sanchez reagent;
 - (13) Scott reagent;
 - (14) sodium nitroprusside reagent, which is also known as nitrosylpentacyanoferrate, nitroprussidnatrium, sodium nitroprussate, sodium nitrosylpentacyanoferrate, or disodium pentacyanonitrosylferrate. This reagent may be used only in conjunction with the Marquis reagent; and
 - (15) Zwicker reagent.
- (c) The following instruments shall be the only instruments approved by the director of the KBI for instrument-based field tests:
- (1) B&W Tek TacticID®-N handheld Raman analyzer, without utilizing the "mixture ID" software feature; and
 - (2) Thermo Scientific TruNarc™ handheld narcotics analyzer. (Authorized by and implementing K.S.A. 22-2902c; effective March 11, 2005; amended June 17, 2005; amended Sept. 20, 2019.)

Article 23.—KANSAS ASSET SEIZURE AND FORFEITURE REPOSITORY

10-23-1. Definitions. As used in this article of the KBI's regulations, each of the following terms shall have the meaning specified in this regulation:

- (a) "Director" means director of the KBI.
- (b) "KBI" means Kansas bureau of investigation.
- (c) "Law enforcement agency" means any Kansas entity vested by law with a duty to maintain

public order or to make arrests for violations of the laws of Kansas or ordinances of any Kansas municipality. A law enforcement agency is deemed a seizing agency when the law enforcement agency makes a seizure for forfeiture.

(d) “Repository” means the Kansas asset seizure and forfeiture repository.

(e) “Seizing agency” has the meaning specified in K.S.A. 60-4102, and amendments thereto. (Authorized by and implementing K.S.A. 2018 Supp. 60-4127; effective June 21, 2019.)

10-23-2. Accuracy and completeness; duplicate reporting prohibited. Each law enforcement agency shall ensure the accuracy and completeness of all information that the law enforcement agency submits to the repository. No law enforcement agency shall knowingly provide a duplicate of any report required by the repository. (Authorized by and implementing K.S.A. 2018 Supp. 60-4127; effective June 21, 2019.)

10-23-3. Means of reporting. The information reported to the repository shall be submitted electronically or on a paper form that has been approved by the director. (Authorized by and implementing K.S.A. 2018 Supp. 60-4127; effective June 21, 2019.)

10-23-4. Seizure for forfeiture report. Once a seizing agency submits a seizure for forfeiture report to the repository, the repository staff shall review the report. Repository staff shall contact the seizing agency if the staff has any questions about the report. If the seizure for forfeiture report needs to be changed, the seizing agency shall submit an amended report to the repository within 30 calendar days of the date on which the repository staff requests an amended report. (Authorized by and implementing K.S.A. 2018 Supp. 60-4127; effective June 21, 2019.)

10-23-5. Forfeiture fund report. (a)(1) Once a law enforcement agency submits a forfei-

ture fund report for the preceding calendar year, the repository staff shall review the report.

(2) Repository staff shall contact the law enforcement agency if the staff has any questions about the forfeiture fund report. If the report needs to be changed, the law enforcement agency shall submit an amended report to the repository within 30 calendar days of the repository staff’s request for an amended report.

(b) If a law enforcement agency had zero seizures for forfeiture during the preceding calendar year, the law enforcement agency shall provide verification to the repository of no activity on the forfeiture fund report on or before the following February 1.

(c) Repository staff shall electronically send a request to complete a forfeiture fund report to all law enforcement agencies that have not met the requirements of paragraph (a)(1) or subsection (b). Each law enforcement agency that receives the request to complete a forfeiture fund report shall provide the repository with a forfeiture fund report or an electronic signature confirming zero seizures for forfeiture during the preceding calendar year. Each law enforcement agency that receives the request to complete a forfeiture fund report shall respond to the repository within 30 calendar days of the date on which the request was sent by the repository. (Authorized by and implementing K.S.A. 2018 Supp. 60-4127; effective June 21, 2019.)

10-23-6. Point of contact. With each annual submission of the forfeiture fund report, each law enforcement agency shall provide the repository with a point of contact for the law enforcement agency, including name, phone number, electronic-mail address, and mailing address. Each law enforcement agency shall notify the repository within 30 calendar days of any change in the point of contact’s information. (Authorized by and implementing K.S.A. 2018 Supp. 60-4127; effective June 21, 2019.)

Kansas Department of Agriculture— Division of Conservation

Editor's Note:

Pursuant to Executive Reorganization Order (ERO) No. 40, powers, duties and functions of the State Conservation Commission were transferred to the Kansas Department of Agriculture, Division of Conservation. See L. 2011, Ch. 135.

Articles

11-12. WATER RIGHT TRANSITION ASSISTANCE PILOT PROJECT PROGRAM.

11-13. KANSAS SEDIMENT AND NUTRIENT REDUCTION INITIATIVE.

Article 12.—WATER RIGHT TRANSITION ASSISTANCE PILOT PROJECT PROGRAM

11-12-1. Definitions. (a) “Active vested or certified water right” means a vested water right or currently certified appropriation water right that was put to lawful beneficial use in at least six out of the last 10 calendar years of actual irrigation, including any water use that occurred before certification.

(b) “Chief engineer” means chief engineer of the division of water resources, Kansas department of agriculture.

(c) “Closed to new appropriations” and “closed to further appropriations” mean that the chief engineer has issued a formal findings and order or has adopted a regulation and that either the formal findings and order or the regulation prevents the approval of new applications to appropriate water except for domestic use, temporary permits, term permits for five or fewer years, and small use exemptions for 15 acre-feet or less, if the use, permit, or exemption does not conflict with this program.

(d) “Commission” means state conservation commission, which serves as the division’s conservation program policy board created by K.S.A. 2-1904, and amendments thereto, within the department of agriculture.

(e) “Consumptive use” means the gross diversions minus the following:

(1) The waste of water, as defined in K.A.R. 5-1-1; and

(2) the return flows to the source of water supply in the following ways:

(A) Through surface water runoff that is not waste; and

(B) by deep percolation.

(f) “Division” means division of conservation, Kansas department of agriculture.

(g) “Dry land transition plan” means a plan submitted by an applicant describing how the use of dry land crops or permanent vegetation, including warm season grasses and cool season grasses, or both uses, will be established on land that was previously irrigated. If permanent vegetation will be established on land that was previously irrigated, the plan shall meet the following requirements:

(1) Specifically describe the amount and timing of any irrigation that will be necessary to establish this cover; and

(2) not exceed three calendar years.

(h) “Eligible water right” means a water right that meets all of the following criteria:

(1) The water right is an active vested or certified water right that has not been abandoned and is privately owned.

(2) The water right has been verified by the chief engineer as being in a target area that is in need of aquifer restoration or stream recovery and is closed to new appropriations of water by the chief engineer, except those for domestic use, temporary permits, term permits for five or fewer years, and small use exemptions for 15 acre-feet or less, if the use, permit, or exemption does not conflict with this program.

(3) The state’s dismissal of the water right would have a net reduction in consumptive water use of the aquifer or stream designated for restoration or recovery by the chief engineer.

(4) The point of diversion is located within a target area.

(i) “Groundwater management district” and “GMD” mean any district created by K.S.A. 82a-1020 et seq., and amendments thereto.

(j) “High-priority area” means a geographic area that meets the following conditions:

(1) Is designated by one of the following:

(A) A groundwater management district and the chief engineer, if the area is within the boundaries of a groundwater management district; or

(B) the chief engineer, if the area is outside the boundaries of a groundwater management district; and

(2) is located within a target area that has been delineated for the purpose of ranking any applications being received for grant funding approval in the water right transition assistance program.

(k) “Historic consumptive water use retirement goal” means the total quantity of historic consumptive water use necessary to be retired to meet the goal of the water right transition assistance program in each target area. The identification of a historic consumptive water use retirement goal in each target area provides a reference point for evaluating the program objectives of the water right transition assistance program. The attainment of a historic consumptive water use retirement goal in a particular target area indicates that no more water right transition assistance program funds should be expended in that target area without a requantification of the historic consumptive water use retirement goal.

(l) “Local entity” means any political subdivision chartered to address water conservation.

(m) “Partial water right” means a portion of a water right that will be formally and permanently reduced from a water right by the chief engineer upon approval of an application for enrollment based on the agreement of all of the owners of the water right. Before enrollment of the partial water right, the chief engineer shall determine the net historic consumptive water use that was associated with each portion of the beneficial use of the water right being considered. At the time of enrollment of the partial water right, the owner shall reduce the quantity remaining under the portion of the water right not being enrolled in the water right transition assistance program and any overlapping water rights to the net consumptive use requirement associated with the remainder of the operation.

(n) “Secretary” means secretary of agriculture or designee of the secretary.

(o) “Water right” means any vested right or appropriation right under which a person may law-

fully divert and use water. A water right is a real property right appurtenant to and severable from the land on or in connection with which the water is used. The water right passes as an appurtenance with a conveyance of the land by deed, lease, mortgage, will, or other voluntary disposal, or by inheritance.

(p) “WTAP” and “program” mean water right transition assistance program. (Authorized by and implementing K.S.A. 2012 Supp. 2-1930 and 2-1930a; effective Aug. 3, 2007; amended Sept. 26, 2008; amended May 31, 2013.)

11-12-2. Eligible areas. (a) Each eligible area shall meet one of the following criteria:

(1) The board of the GMD has designated the area as a target area, and this designation has been approved by the chief engineer. Each eligible area within a GMD shall require a formal action by the board of a GMD requesting the chief engineer to approve the designation of a target area. The request shall include documentation on the criteria used by the GMD to identify the area that is in need of aquifer restoration or streamflow recovery, which shall include the historic consumptive water use retirement goal for each proposed target area and the designation of any high-priority areas within the target area.

(2) Outside a GMD, the chief engineer has designated the area as a target area. Each eligible area outside a GMD shall require documentation of the criteria used by the chief engineer to identify the area that is in need of aquifer restoration or streamflow recovery, which shall include the historic consumptive water use retirement goal for each proposed target area and the designation of any high-priority areas within the target area.

(b) The chief engineer shall notify the division of all approved target areas and high-priority areas before January 1 of each grant funding cycle and shall provide technical data that will assist the division in considering the ranking of the areas relative to any previously designated target areas or high-priority areas.

(c) The ranking of target areas and high-priority areas relative to any previously designated target areas and high-priority areas shall be determined by the secretary, after review of the input from the division. (Authorized by and implementing K.S.A. 2012 Supp. 2-1930 and 2-1930a; effective Aug. 3, 2007; amended Sept. 26, 2008; amended May 31, 2013.)

11-12-3. Application and review. (a) The application periods for the program shall be October 1 through November 15 and February 15 through March 31.

(b) Notification of the program shall be published in the Kansas register before each application period.

(c) The program procedures and application forms shall be available at the division office and at conservation district offices.

(d) Each application shall be submitted on a form supplied by the division. The application shall include all of the following:

(1) The name, address, telephone number, and tax identification number of the owner of the water right;

(2) the water right file number and the priority date of the water right;

(3) the location of the point of diversion;

(4) documentation of the annual water usage, in acre-feet, for the previous 10 years of actual irrigation;

(5) the authorized annual quantity of water associated with the water right;

(6) the bid price expressed on a “per acre-foot of historic consumptive water use” basis;

(7) if the land is going to be planted to permanent cover, a dry land transition plan;

(8) documentation that verifies historical crop information for the previous 10 years of actual irrigation;

(9) documentation of the normal rate of diversion during the normal irrigation season. If the documentation is not based on data from an accurate water flowmeter, the results of a certified well flow rate test conducted no more than six months before the application date by a person or entity approved by the chief engineer and in a manner prescribed by the chief engineer shall be used for this documentation;

(10) the total amount of historic consumptive water use available for permanent retirement or permanent reduction under the water right as determined from the calculation method specified in K.S.A. 2-1930, and amendments thereto; and

(11) the total amount of historic consumptive water use being proposed for permanent retirement of a water right or permanent reduction of a water right and specification of whether only a partial water right is being submitted for permanent retirement in the application.

(e)(1) Upon the division’s receipt of each application, it shall be reviewed for completeness by

the division. If the application is not complete, the missing information shall be provided by the applicant to the division within 30 calendar days of the division’s written request.

(2) After the application is determined to be complete, the application shall be provided by the division to the chief engineer to determine the eligibility of the water right.

(f) Upon completion of the review by the chief engineer, the following certifications shall be requested by the division from the chief engineer:

(1) A statement indicating whether the water right is an eligible water right;

(2) the historic consumptive water use associated with each water right or portion of a water right;

(3) the potential impact of dismissing or permanently reducing the water right on aquifer restoration or stream recovery; and

(4) any other additional documentation necessary to quantify or qualify the water use reports.

(g) Comments and recommendations from the appropriate GMD shall be requested by the division regarding WTAP applications in any target area within that GMD. The chief engineer and the appropriate GMD shall be notified by the division regarding approval or disapproval of any WTAP applications in any target area within that GMD.

(h) Each applicant shall be notified by the division of the approval or the disapproval of the program application no later than 60 calendar days after the close of the application period in which the application is filed. If an application is not approved, the application, water right dismissal form, and all other related documents shall be considered void and shall be returned to the applicant.

(i) Any application meeting the requirements of this article may be approved contingent upon funding and the receipt of official documentation by the division that the water right has been dismissed by the chief engineer and its priority has been forfeited.

(j) The negotiations between owners and lessees regarding program participation shall not involve the commission or the division.

(k) No more than 10 percent of a county’s irrigated acres shall be eligible for the duration of this program.

(l) Each program application that does not meet the requirements of these regulations shall be rejected by the division. (Authorized by and implementing K.S.A. 2012 Supp. 2-1930 and 2-1930a; effective Aug. 3, 2007; amended Sept. 26, 2008; amended May 31, 2013.)

11-12-4. Payment. (a) Each water right owner shall sign a water right transition assistance grant agreement before payment is made by the division. Each grant agreement shall include the following provisions:

(1) The price to be paid by the division to the water right owner for the dismissal or permanent reduction of the subject water right and the terms of payment;

(2) the date on which the agreement will become effective;

(3) the file number of the water right to be retired or permanently reduced;

(4) one of the following statements:

(A) The approval is conditional on documentation being provided to the division indicating that the chief engineer has dismissed or permanently reduced the water right and ordered its priority to be forfeited; or

(B) the approval is conditional on documentation being provided to the division indicating any terms of the chief engineer to continue irrigation on a limited basis, not to exceed three years, for the purpose of establishing permanent vegetation. The documentation shall include the date on which the water right dismissal will become effective and its priority will be forfeited; and

(5) if the point of diversion is located within a GMD, a provision that any remaining water user charges assessed by the district before the water right is dismissed will remain the sole responsibility of the owner of the water right.

(b) Payment shall be made in equal annual installments, not to exceed 10, or, if approved by the division, in one lump sum payment. If annual payments are elected, the first payment shall be made within 60 calendar days after execution of the water right transition assistance grant. The subsequent payments shall be made within 60 calendar days after the beginning of each new state fiscal year. The following factors shall be considered by the division when determining which payment schedule to use:

(1) The number of eligible applicants; and

(2) the amount of program funds for that year.

(c) If there is a standing crop at the time of application approval, payment shall not be made until after irrigation from the subject water right has permanently ceased. (Authorized by and implementing K.S.A. 2012 Supp. 2-1930 and 2-1930a; effective Aug. 3, 2007; amended Sept. 26, 2008; amended May 31, 2013.)

11-12-5. Transition to dry land. (a) If land that will no longer be irrigated is to be planted, under this program, to permanent vegetation including warm or cool season grasses, the chief engineer may be requested by the division to condition the dismissal of the associated water right to allow limited irrigation of the land for up to three years to establish this cover.

(b) The applicant shall submit a dry land transition plan to the division if land is to be planted to warm or cool season grasses or other permanent vegetation. A dry land transition plan may be disapproved by the executive director of the division and modifications to any dry land transition plan may be required by the executive director of the division if the plan does not meet the requirements for soil erosion prevention practices in section IV of the “Kansas field office technical guide” as adopted by reference in K.A.R. 11-7-14. (Authorized by and implementing K.S.A. 2012 Supp. 2-1930 and 2-1930a; effective Aug. 3, 2007; amended May 31, 2013.)

11-12-6. Dismissal or permanent reduction of water right. (a) Each water right or partial water right for which payment is received from the program shall be dismissed or permanently reduced by the chief engineer, and the priority of the water right or that portion of the water right shall have been forfeited.

(b) A copy of the WWC-5 form that has been filed with the Kansas department of health and environment as a result of the well plugging or well capping, the written verification of a domestic well retrofitting, or the written authorization for a well to be placed on inactive status shall be provided to the division before the grantee receives the first payment. The requirements specified in this subsection shall be temporarily waived if a conditional water right is approved by the chief engineer under a dry land transition plan.

(c) For wells approved to continue operating under a dry land transition plan, a copy of the WWC-5 form that has been filed with the Kansas department of health and environment as a result of the well plugging or well capping, the written verification of a domestic well retrofitting, or the written authorization for a well to be placed on inactive status shall be provided to the division within 60 calendar days of the last time that the permanent vegetation is irrigated. (Authorized by and implementing K.S.A. 2012 Supp. 2-1930 and 2-1930a; effective Aug. 3, 2007; amended Sept. 26, 2008; amended May 31, 2013.)

11-12-7. Petition for reconsideration. (a) Any water right owner may request reconsideration of any decision of the division by filing a petition for reconsideration.

(b) Each petition for reconsideration shall be submitted in writing to the division within 30 calendar days of the division's decision and shall state why the decision should be reviewed by the secretary and why the decision should be affirmed, modified, or reversed.

(c) The secretary's final decision shall state each reason for this determination.

(d) The decision of the division shall be considered the final agency action if no petition for reconsideration of that decision has been received by the division after 30 calendar days from the date on which the decision was made. (Authorized by and implementing K.S.A. 2012 Supp. 2-1930 and 2-1930a; effective Aug. 3, 2007; amended May 31, 2013.)

Article 13.—KANSAS SEDIMENT AND NUTRIENT REDUCTION INITIATIVE

11-13-1. Definitions. Each of the following terms, as used in this article of the division of conservation's regulations, shall have the meaning specified in this regulation:

(a) "Bottomland timber establishment" means the trees planted in floodplains adjacent to perennial streams to provide wildlife habitat and other benefits.

(b) "CRP" means the conservation reserve program administered by the USDA farm service agency.

(c) "Director" means the executive director of the division of conservation, Kansas department of agriculture or the executive director's designee.

(d) "Farmable wetland or farmable wetland buffer" means land eligible for restoration by improving the land's hydrology and vegetation.

(e) "Filter strip" means a strip or area of grass for removing sediment, organic matter, and other pollutants from runoff and wastewater and for providing food and cover for wildlife.

(f) "FSA" means the farm service agency in the USDA.

(g) "Grassed waterway" means a designated strip of grass that is designed to convey runoff and gully erosion for the purpose of improving water quality and providing wildlife habitat.

(h) "Habitat buffers for upland birds" means a narrow band of native grasses, legumes, forbs, or

shrubs, or any combination of these, to provide habitat for bobwhite quail, ring-necked pheasant, and other upland birds and to limit the amount of nutrients, sediment, pesticides, and other contaminants entering water bodies.

(i) "HUC 12 watershed" means a hydrological unit code consisting of a sequence of 12 numbers identifying a hydrological feature like a river, river reach, or lake or an area like a drainage basin.

(j) "Initiative" means the Kansas water quality buffer initiative and the application requirements for the program specified in this article of the division of conservation's regulations. This term is also known as the Kansas sediment and nutrient reduction initiative.

(k) "NRCS" means natural resources conservation service.

(l) "Practices" means the use of cultural techniques or structures installed or constructed on land for the purpose of improving or maintaining water quality.

(m) "Program-eligible area" means the Big Creek, Delaware, Little Arkansas, Lower Big Blue, Lower Kansas, Lower Little Blue, Lower Republican, Lower Smoky Hill, Neosho Headwaters, Upper Cottonwood, and Lower Cottonwood watersheds.

(n) "Program-eligible boundaries" means the boundaries based on HUC 12 watersheds that are above Tuttle Creek, Milford, Perry, John Redmond, and Clinton reservoirs and are identified as target areas for nutrient and sediment reduction in watershed restoration and protection strategy plans. The program-eligible boundaries shall contain two tiers for priority enrollment, which are called tier 1 areas and tier 2 areas.

(o) "Shallow water areas for wildlife" means wet areas that have been developed or restored and include 6-18 inches of water depth for wildlife.

(p) "Tier 1 areas" means those HUC 12 watersheds identified in watershed restoration and protection strategy plans as the highest priority target areas for nutrient and sediment reduction within program-eligible boundaries.

(q) "Tier 2 areas" means all areas within the program-eligible boundaries that are not tier 1 areas.

(r) "Unfarmable field" means the remaining portion of a field in which 51 percent or more of the total acreage has been enrolled in CRP.

(s) "USDA" means United States department of agriculture.

(t) "Wetland restoration" means the restoration of constructed wetlands for the purpose of inter-

cepting tile runoff, reducing nutrient loss, improving water quality, and enhancing agricultural production practices.

(u) “WRAPS” means watershed restoration and protection strategy, which consists of a planning and management framework intended to engage stakeholders in a process to identify watershed restoration. The process documents stakeholder goals, strategies to achieve the goals, and the resources required to implement the strategies. (Authorized by and implementing K.S.A. 2017 Supp. 2-1915; effective June 1, 2018.)

11-13-2. Initiative requirements for new applications; funds for existing contracts. On and after the effective date of this regulation, all new applications for the initiative shall be required to meet the requirements in this article of the division of conservation’s regulations. These requirements shall be known as the Kansas sediment and nutrient reduction initiative, which consists of the new requirements for the Kansas water quality initiative. All persons with parcels currently enrolled in the initiative with contracts whose terms have not yet expired shall continue to be paid through funds made available under K.S.A. 2-1915, and amendments thereto, and any other available sources. (Authorized by and implementing K.S.A. 2017 Supp. 2-1915; effective June 1, 2018.)

11-13-3. Selection of applicants for initiative. Funding may be distributed to initiative applicants for proposed projects that meet the eligibility requirements specified in K.S.A. 2-1915 and K.S.A. 2017 Supp. 2-1933, and amendments thereto, and the director’s requirements as follows:

(a) Land shall lie within a tier 1 area or a tier 2 area of the initiative-eligible area and meet the basic eligibility criteria for CRP.

(b) To be eligible for tier 1 area payments, all of the land shall be within the tier 1 area. To be eligible for tier 2 area payments, all of the land shall be within the tier 2 area.

(c) Land that has an existing CRP contract or an approved offer with a CRP contract pending shall not be eligible for the initiative. (Authorized by K.S.A. 2017 Supp. 2-1915; implementing K.S.A. 2017 Supp. 2-1915 and 2-1933; effective June 1, 2018.)

11-13-4. Haying and grazing. Any eligible initiative applicant that is authorized to hay or graze, or both, pursuant to an existing CRP contract may conduct these activities upon initiative-eligible land without penalty. (Authorized by K.S.A. 2016 Supp. 2-1915; implementing K.S.A. 2016 Supp. 2-1915 and 2-1933; effective June 1, 2018.)

11-13-5. Practices eligible for incentive payments. (a) Any of the following practices may be eligible for incentive payments:

- (1) Grassed waterways;
- (2) shallow water areas for wildlife;
- (3) filter strips;
- (4) riparian buffers;
- (5) wetland restorations;
- (6) improvements to farmable wetland or farmable wetland buffers by utilizing any of the practices listed in this regulation or any other conservation practice approved by the director;
- (7) bottomland timber establishment; or
- (8) habitat buffers for upland birds.

(b) Payments made through the initiative shall be in addition to any CRP payments. (Authorized by K.S.A. 2017 Supp. 2-1915; implementing K.S.A. 2017 Supp. 2-1915 and 2-1933; effective June 1, 2018.)

11-13-6. Incentive payments; refunds. (a) Incentive payments under the initiative shall be made on a one-time basis coinciding with enrollment in the CRP. Each incentive payment shall be an upfront payment on all eligible acres enrolled.

(b) Incentive payments shall not exceed the following:

- (1) \$225.00 per acre in tier 1 areas; and
- (2) \$162.50 per acre in tier 2 areas.

(c) Any acres determined to be in an unfarmable field may be eligible for the one-time incentive payment if the applicant agrees to establish and maintain permanent vegetative cover for the duration of the CRP contract.

(d) If a CRP contract is terminated by the FSA for any contract violation or for any other reason, a refund of the incentive payment shall be required.

(e) A refund of the incentive payment shall be required from any initiative participant who fails to meet the initiative requirements. (Authorized by K.S.A. 2017 Supp. 2-1915; implementing K.S.A. 2017 Supp. 2-1915 and 2-1933; effective June 1, 2018.)

14-6-2a. (Authorized by K.S.A. 1987 Supp. 41-210; implementing K.S.A. 41-211, and K.S.A. 41-1119; effective May 1, 1983; amended May 1, 1984; amended May 1, 1985; amended May 1, 1986; amended Sept. 26, 1988; revoked Sept. 17, 2010.)

14-6-3. (Authorized by K.S.A. 1987 Supp. 41-210; K.S.A. 41-211; implementing K.S.A. 41-211, 41-706; effective Jan. 1, 1966; amended May 1, 1987; amended Sept. 26, 1988; revoked Sept. 17, 2010.)

14-6-4. (Authorized by K.S.A. 41-211; implementing K.S.A. 41-211 and K.S.A. 41-706; effective Jan. 1, 1966; amended May 1, 1985; amended Oct. 1, 1988; amended Aug. 6, 1990; amended Sept. 17, 2010; revoked, T-14-6-26-19, June 26, 2019; revoked Oct. 25, 2019.)

Article 10.—TRADE PRACTICES

14-10-6. General. (a) Action taken by an industry member, retailer, club, drinking establishment, or caterer in accordance with interpretive memoranda issued by the alcohol and tobacco tax and trade bureau, department of the treasury shall be considered good faith compliance with this article unless the director has communicated a contrary interpretation pertaining to the subject of the memoranda.

(b) Subject to the exceptions provided in this article, industry members shall be prohibited from inducing the purchases of a retailer, club, drinking establishment, or caterer by furnishing, giving, renting, lending, or selling to the retailer, club, drinking establishment, or caterer any equipment, fixtures, signs, supplies, money, services, or any other things of value. (Authorized by and implementing K.S.A. 41-703; effective, T-89-2, Jan. 7, 1988; effective Oct. 1, 1988; amended Jan. 20, 2012.)

14-10-7. (Authorized by and implementing K.S.A. 1987 Supp. 41-703; effective, T-89-2, Jan. 7, 1988; effective Oct. 1, 1988; revoked Jan. 20, 2012.)

14-10-8. (Authorized by and implementing K.S.A. 1987 Supp. 41-703; effective, T-89-2, Jan. 7, 1988; effective Oct. 1, 1988; revoked Jan. 20, 2012.)

14-10-9. (Authorized by and implementing K.S.A. 1987 Supp. 41-703; effective, T-89-2, Jan. 7, 1988; effective Oct. 1, 1988; revoked Jan. 20, 2012.)

14-10-10. (Authorized by K.S.A. 1991 Supp. 41-703; implementing K.S.A. 1991 Supp. 41-703; 41-308 as amended by 1992 HB 2840; effective, T-89-2, Jan. 7, 1988; effective Oct. 1, 1988;

amended, T-14-11-9-92, Nov. 9, 1992; amended Dec. 21, 1992; revoked Jan. 20, 2012.)

14-10-11. Value-added packages. Any industry member may include in packaging with alcoholic liquor other goods to be offered directly to the consumer. All costs directly related to the assembly of packages containing alcoholic liquor and other goods shall be borne solely by the industry member. An industry member shall not include any goods in packaging with alcoholic liquor for sale to a retailer before obtaining written approval from the director. The industry member shall request approval by submitting the following information to the director at least 30 days in advance of the intended shipping date:

(a) A color photograph, at least five inches by seven inches in size, of the complete package;

(b) the cost to the industry member of each item to be packaged with the alcoholic liquor;

(c) the total cost of the complete package, including alcoholic liquor, to be charged to the distributor or retailer by the industry member;

(d) a description of each item's intended use or value to the consumer, including a statement identifying the expiration date of any item intended for human consumption; and

(e) the "unimetric" (universal numeric) code number assigned to the package. (Authorized by K.S.A. 41-210, K.S.A. 41-308, and K.S.A. 41-703; implementing K.S.A. 41-210, K.S.A. 41-308, K.S.A. 41-702, and K.S.A. 41-703; effective, T-89-2, Jan. 7, 1988; effective Oct. 1, 1988; amended, T-14-11-9-92, Nov. 9, 1992; amended Dec. 21, 1992; amended Jan. 20, 2012.)

14-10-12. (Authorized by and implementing K.S.A. 1991 Supp. 41-703; effective, T-89-2, Jan. 7, 1988; effective Oct. 1, 1988; amended, T-14-11-9-92, Nov. 9, 1992; amended Dec. 21, 1992; revoked Jan. 20, 2012.)

14-10-13. (Authorized by and implementing K.S.A. 41-703; effective, T-89-2, Jan. 7, 1988; effective Oct. 1, 1988; revoked Jan. 20, 2012.)

14-10-14. (Authorized by and implementing K.S.A. 1987 Supp. 41-703; effective, T-89-2, Jan. 7, 1988; effective Oct. 1, 1988; revoked Jan. 20, 2012.)

14-10-15. (Authorized by and implementing K.S.A. 1987 Supp. 41-703; effective, T-89-2, Jan. 7, 1988; effective Oct. 1, 1988; revoked Jan. 20, 2012.)

14-10-16. Defective liquor containers.

(a) No industry member shall knowingly sell any liquor containers that leak, contain foreign matter in the bottle, are short-filled, have broken seals, have badly soiled or stained labels, or are otherwise not fit for resale to the general public. Industry members shall not arrange to have retailers accept such merchandise.

(b) Each industry member that sells such damaged merchandise shall take the following action:

(1) Retrieve the damaged merchandise and exchange for merchandise fit for sale; or

(2) authorize the destruction of the damaged merchandise and refund to the distributor or retailer the purchase price. (Authorized by and implementing K.S.A. 41-210 and K.S.A. 41-211; effective, T-89-2, Jan. 7, 1988; effective Oct. 1, 1988; amended Jan. 20, 2012.)

14-10-17. Trade practices. (a) To the extent not otherwise prevented by statute or regulation, the trade practice regulations of the alcohol and tobacco tax and trade bureau, department of the treasury in 27 C.F.R. Part 6, subpart B, subpart C, and subpart D, as in effect on April 1, 2010, excluding the following portions, are hereby adopted by reference and shall be the authorized trade practices under the liquor control act:

(1) The first four paragraphs in section 6.11;

(2) subsections (a) and (f) of section 6.21;

(3) sections 6.25, 6.26, 6.27, 6.31, 6.32, 6.33, 6.34, 6.35, 6.41, 6.44, 6.45, 6.51, 6.52, 6.53, 6.54, 6.55, 6.56, 6.61, 6.65, 6.66, 6.67, 6.71, 6.72, 6.85, and 6.98;

(4) the first two sentences in section 6.81(a); and

(5) the phrases "within the meaning of the Act" and "within the meaning of section 105(b) (3) of the Act" in sections 6.42(a), 6.43, 6.83(a), 6.84(a), 6.88(a), 6.91, 6.93, 6.96(a), 6.99(b), 6.100, 6.101(a)(b), and 6.102.

(b) For the purpose of this regulation, the terms "retailer" and "industry member" shall have the meaning specified in 27 C.F.R. Part 6, subpart B, section 6.11. (Authorized by and implementing K.S.A. 41-703; effective Jan. 20, 2012.)

14-10-18. Repurchase by distributor; when allowed. (a) Any distributor may perform any of the following:

(1) Buy back any item of alcoholic liquor or cereal malt beverage when required by the supplier;

(2) buy back any item of alcoholic liquor or cereal malt beverage from a club, drinking estab-

lishment, caterer, or retailer that has obtained the approval of the director to close out;

(3) buy back, with approval of the director, any unopened item of alcoholic liquor or cereal malt beverage for which the distributor has a franchise agreement to sell from a club, drinking establishment, caterer, or retailer who is quitting business;

(4) buy back or exchange, at the original sales price, any item of beer or cereal malt beverage that is within 14 days of its expiration date;

(5) buy back or exchange, within 24 hours after delivery, any item of alcoholic liquor that is broken, leaking, or short-filled, contains foreign material, has a soiled or stained label, or is otherwise not fit for resale to the general public; or

(6) buy back, with written permission from the director and within three business days after the end of an event conducted under a special event retailer's permit issued under K.S.A. 41-2703 and amendments thereto, any cereal malt beverage sold to the holder of the special event retailer's permit.

(b) A product shall not be returned or exchanged because it is overstocked or slow-moving.

(c) Products for which there is only a seasonal demand, including holiday decanters and certain distinctive bottles, shall not be returned or exchanged. (Authorized by and implementing K.S.A. 41-210 and K.S.A. 41-211; effective Jan. 20, 2012.)

Article 11.—FARM WINERIES

14-11-1. Definitions. As used in this article and the liquor control act, unless the context clearly requires otherwise, the following terms shall have the meanings specified in this regulation:

(a) "Bonded wine premises" means a facility registered under the internal revenue code, 26 U.S.C. chapter 51, for the production, blending, cellar treatment, storage, bottling, or packing of wine.

(b) "Calendar year" means the period of time from January 1 through the following December 31.

(c) "Domestic fortified wine" has the meaning provided by K.S.A. 41-102, and amendments thereto.

(d) "Domestic table wine" has the meaning provided by K.S.A. 41-102, and amendments thereto.

(e) "Farmers' market" means a regularly scheduled gathering of vendors, the primary purpose of which is to sell produce and other agricultural products directly to consumers.

(f) "Farm winery" has the meaning provided by K.S.A. 41-102, and amendments thereto.

(g) "Farm winery outlet" means a facility owned by the owner of a farm winery that is licensed by the director to manufacture, store, and sell the same brands of domestic table wine and domestic fortified wine as those of the farm winery.

(h) "Federal basic wine manufacturing permit" means a permit issued under the federal alcohol administration act, 27 U.S.C. chapter 8, to a bonded wine premises to produce wine.

(i) "Manufacturer" has the meaning provided by K.S.A. 41-102, and amendments thereto.

(j) "Standard case" means a package of original containers consisting of a total of 9,000 milliliters of wine of one brand or a combination of brands.

(k) "Wine" has the meaning provided by K.S.A. 41-102, and amendments thereto.

(l) "Winery" has the meaning provided by K.S.A. 41-350, and amendments thereto. (Authorized by K.S.A. 2009 Supp. 41-350; implementing K.S.A. 2009 Supp. 41-308a; effective Sept. 17, 2010.)

14-11-4. Registration of employees; salesperson permits.

(a) The licensee of each farm winery and farm winery outlet shall notify the director of the name of each employee who will sell or serve domestic wine, within five days after that employee begins work and upon each renewal of the license. The notification shall be submitted upon forms provided by the director.

(b) Each person engaged in the sale of domestic table wine or domestic fortified wine off the premises of a farm winery or farm winery outlet, or the taking or soliciting of orders for the sale of domestic table wine or domestic fortified wine on behalf of a farm winery or farm winery outlet, shall obtain a salesperson's permit as required by K.S.A. 41-333 and amendments thereto. Each salesperson shall provide that person's permit for inspection upon request by the director or any agent or employee of the director or secretary. (Authorized by K.S.A. 41-210; implementing K.S.A. 2009 Supp. 41-308a, as amended by L. 2010, ch. 142, sec. 5, and K.S.A. 41-333; effective Sept. 17, 2010.)

14-11-5. Licensed warehouses.

Each licensee of a farm winery or farm winery outlet shall provide, at the licensee's own expense, a warehouse area situated on and constituting a part of the farm winery's or farm winery outlet's premises. The warehouse area shall be used for the storage of domestic table wine and domestic fortified wine manufactured by that farm winery

or farm winery outlet. Domestic table wine and domestic fortified wine shall not be stored in any other place. (Authorized by K.S.A. 41-210; implementing K.S.A. 41-401 and K.S.A. 2009 Supp. 41-308a, as amended by L. 2010, ch. 142, sec. 5; effective May 1, 1984; amended Sept. 17, 2010.)

14-11-6. Opened containers of domestic table wine or domestic fortified wine on the licensed premises. The licensee of a farm winery or farm winery outlet that sells domestic table wine or domestic fortified wine at retail shall not permit the original package or container of any domestic table wine or domestic fortified wine to be opened on that portion of the licensed premises that is used for retail sales, except as needed for serving free samples. (Authorized by K.S.A. 41-210; implementing 2009 Supp. 41-308a; effective May 1, 1984; amended Sept. 17, 2010.)

14-11-7. Retail sales and deliveries. (a) Retail sales of domestic table wine and domestic fortified wine by a farm winery or farm winery outlet shall be made only on the licensed premises. Deliveries of domestic table wine and domestic fortified wine sold at retail by a farm winery or farm winery outlet shall be made only on the licensed premises for consumption off the premises.

(b) Any farm winery may deliver domestic table wine and domestic fortified wine to either of the following:

- (1) The licensed premises of any of the following:
 - (A) A club;
 - (B) a drinking establishment;
 - (C) a wine distributor; or
 - (D) a retailer; or
- (2) the principal place of business of a caterer. (Authorized by K.S.A. 41-210; implementing K.S.A. 41-210 and K.S.A. 2009 Supp. 41-308a; effective May 1, 1984; amended Sept. 17, 2010.)

14-11-9. Farm winery or farm winery outlet licensee prohibited from warehousing domestic table wine or domestic fortified wine for consumers. No farm winery or farm winery outlet that sells domestic table wine or domestic fortified wine at retail shall take orders, or otherwise arrange sales of the wine, for consumers for the purpose of delivering the wine before the legal opening hour, after the legal closing hour, or on any day when sales at retail are prohibited. (Authorized by K.S.A. 41-210; implementing K.S.A. 2009 Supp. 41-712; effective May 1, 1984; amended Sept. 17, 2010.)

14-11-10a. (Authorized by K.S.A. 41-1118; implementing K.S.A. 1983 Supp. 41-1101; effective May 1, 1984; revoked Sept. 17, 2010.)

14-11-10b. (Authorized by K.S.A. 41-1118; implementing K.S.A. 41-1112, K.S.A. 1983 Supp. 41-1101; effective May 1, 1984; revoked Sept. 17, 2010.)

14-11-10d. (Authorized by K.S.A. 41-1118; implementing K.S.A. 1983 Supp. 41-1101; effective May 1, 1984; revoked Sept. 17, 2010.)

14-11-11. (Authorized by K.S.A. 41-1118; implementing K.S.A. 1983 Supp. 41-1101; effective May 1, 1984; revoked Nov. 29, 2010.)

14-11-14. (Authorized by K.S.A. 41-211; implementing K.S.A. 1984 Supp. 41-714; effective May 1, 1984; amended May 1, 1985; revoked Sept. 17, 2010.)

14-11-15. Public display of domestic table wine or domestic fortified wine. (a) Domestic table wine or domestic fortified wine intended for retail sale for purposes of consumption shall not be placed on public display in any place or at any other location than the licensed premises of any of the following:

- (1) A farm winery;
- (2) a farm winery outlet;
- (3) a retail liquor store;
- (4) a farmers' market for which a bona fide farmers' market sales permit has been issued; or
- (5) a special event approved and monitored by the director.

(b) Any farm winery licensee may, if approved by the director upon receipt of a written request, display domestic table wine or domestic fortified wine at state or county fairs or other agricultural shows if all of the following conditions are met:

- (1) No free samples are dispensed.
 - (2) No retail sales are made at the fair or show.
 - (3) No orders are taken for subsequent sales.
- (Authorized by K.S.A. 41-211; implementing K.S.A. 2009 Supp. 41-714; effective May 1, 1984; amended Sept. 17, 2010.)

14-11-16. Farm wineries and farm winery outlets selling at retail; marking prices; price or inventory control tags; shelf markings. Any licensee of a Kansas farm winery or farm winery outlet that sells domestic table wine and domestic fortified wine at retail may mark the retail selling price on the glass portion of the

original container by using a crayon, grease pencil, or other similar means. Licensees may affix, to an original container, a price or inventory control paper or tag, or both. Luminous or fluorescent paper, or any similar paper, may be used for price or inventory control tags.

Farm winery and farm winery outlet licensees may place on a wall, or on a freestanding device, a list of items available and the price per item or case. In addition, licensees may place price information on point-of-sale materials. (Authorized by K.S.A. 41-210 and K.S.A. 41-211; implementing K.S.A. 41-210, K.S.A. 41-211, and K.S.A. 2009 Supp. 41-714; effective May 1, 1984; amended Sept. 17, 2010.)

14-11-22. Special order shipping; license requirements. (a) Each owner or operator of a winery located either within this state or in another state wishing to ship wine directly to consumers in Kansas shall first obtain a special order shipping license from the secretary.

(b) Each application for a special order shipping license shall be submitted upon a form prescribed by the director, contain all information that the director deems necessary, and include the following:

(1) A copy of the winery's federal basic wine manufacturing permit;

(2) the appropriate license and registration fees; and

(3) a bond, pursuant to K.S.A. 41-317(b) and amendments thereto.

(c) The application of any winery may be rejected by the director for any of the following reasons:

(1) The application does not include all information that the director deems necessary.

(2) The application does not include a copy of the winery's federal basic wine manufacturing permit.

(3) The application does not include the appropriate license and registration fees.

(4) The application does not include the required bond.

(5) The applicant or its owners, officers, agents, or managers have violated a provision of the liquor control act or these regulations relating to special order shipping.

(6) The applicant or its owners, officers, agents, or managers are currently delinquent in payment of any gallonage tax, enforcement tax, or any fees or fines to the state of Kansas.

(7) The applicant or its owners, officers, agents, or managers previously held a license issued under the liquor control act or the club and drinking

establishment act, and when that license expired or was surrendered, the licensee was delinquent in payment of any gallonage tax, enforcement tax, or any fees or fines to the state of Kansas.

(8) The applicant has had a liquor license revoked for cause in Kansas or another state.

(9) The applicant or its owners, officers, agents, or managers are currently delinquent in payment of any tax, fees, or fines to any state or to the United States.

(d) The special order shipping license shall be valid for two years from the date of issuance. The owner or operator of a winery wishing to renew its special order shipping license shall submit its renewal application to the department at least 30 days before the expiration of its current license. (Authorized by and implementing K.S.A. 2009 Supp. 41-350, as amended by L. 2010, ch. 142, sec.10; effective Nov. 29, 2010.)

14-11-23. Special order shipping. (a) No holder of a special order shipping license, and no owner, employee, or agent of the licensee, shall sell, give, or deliver wine to a person under 21 years of age.

(b) No licensee shall ship wine that was not manufactured by the licensee to a consumer in Kansas.

(c) For each shipment of wine to be sent directly to a consumer in Kansas, the licensee shall complete an invoice or sales slip containing all of the following information:

(1) The name, address, and license number of the winery;

(2) the name and address of the purchaser;

(3) the date of the purchase;

(4) the quantity and size of each brand of wine purchased;

(5) the subtotal of the cost of the wine and the total price of the shipment, including enforcement tax and shipping charge;

(6) a statement that the purchaser's age was verified and that the purchaser is at least 21 years of age; and

(7) the type of photo identification examined and the internet-based age and identification service utilized.

(d) For each sale of wine to be shipped directly to a consumer in Kansas, the licensee shall collect gallonage tax as required by K.S.A. 41-501 and amendments thereto.

(e) Each licensee, other than a licensed Kansas farm winery or manufacturer, shall file gallonage

tax returns and remit these taxes annually. These returns and remittances shall be submitted on or before the 15th day of January for the preceding calendar year. The gallonage tax returns shall be accompanied by an annual sales report, which shall be submitted on a form prescribed by the director and shall reflect all sales made under the license during that calendar year.

(f) Each licensee shall file enforcement tax returns and shall submit returns showing zero sales if no wine was sold under the license during that tax period.

(g) Each licensee of a Kansas farm winery or farm winery outlet that also holds a special order shipping license shall maintain separate records and file separate returns for its special order shipping license. The licensee of each farm winery or farm winery outlet shall remit these taxes separately from the taxes collected and reported under any other license or permit held by the farm winery or farm winery outlet.

(h) Each licensee shall maintain, on the licensed premises, a copy of the invoice or sales slip for each shipment of wine sent directly to a consumer in Kansas for at least three years from the date of sale. The copies shall be made available for inspection by the director or any agent or employee of the director or secretary upon request. (Authorized by K.S.A. 41-210 and K.S.A. 2009 Supp. 41-350; implementing K.S.A. 41-211 and K.S.A. 2009 Supp. 41-350; effective Sept. 17, 2010.)

14-11-24. Bona fide farmers' market sales permit. A farm winery licensee may sell domestic table wine and domestic fortified wine manufactured by the licensee at a farmers' market only after obtaining a bona fide farmers' market sales permit from the director.

(a) Each farm winery licensee intending to sell wine at a farmers' market shall submit an application to the director for a bona fide farmers' market sales permit. Each application shall be submitted on a form prescribed by the director and shall include all information the director deems necessary. The application shall indicate the location of the farmers' market and the day of the week on which the applicant intends to sell wine.

(b) No bona fide farmers' market sales permit shall be issued if the local governing body has not approved the sale of alcoholic liquor at retail for the proposed location of the farmers' market.

(c) No bona fide farmers' market sales permit shall be issued for any farmers' market located on

state property or within 200 feet of any school, college, or church.

(d) The director may reject an application for a bona fide farmers' market sales permit for either of the following reasons:

(1) The application does not include all information the director deems necessary.

(2) The applicant or its owners, officers, agents, or managers are currently delinquent in payment of any gallonage tax, enforcement tax, or any fees or fines to the state of Kansas.

(e) Each bona fide farmers' market sales permit shall be valid for one year from the date of issuance. Each farm winery licensee wishing to renew its bona fide farmers' market sales permit shall submit its renewal application to the department at least 30 days before the expiration of its current permit.

(f) No holder of a bona fide farmers' market sales permit shall sell domestic table wine or domestic fortified wine at a farmers' market on any day of the week other than the day specified in the application or at any farmers' market other than the one specified in the application.

(g) Domestic table wine and domestic fortified wine shall be sold at a farmers' market only in the original, unopened container. The serving of samples of domestic table wine or domestic fortified wine at a farmers' market shall be prohibited.

(h) Any of the following may sell domestic table wine and domestic fortified wine at a farmers' market:

(1) The holder of a bona fide farmers' market sales permit;

(2) a member of the permit holder's family who is at least 21 years of age; or

(3) an employee of the permit holder who is at least 21 years of age and is reported to the director as an employee, on a form prescribed by the director.

(i) Each person selling domestic table wine and domestic fortified wine under a bona fide farmers' market sales permit shall possess a salesperson's permit as required by K.S.A. 41-333 and amendments thereto. The person shall produce the permit upon request by the director or any agent or employee of the director or secretary upon request.

(j) Each farm winery selling wine at a farmers' market shall display its bona fide farmers' market sales permit in a conspicuous place in its farmers' market sales area.

(k) For each sale of domestic table wine or domestic fortified wine at a farmers' market, the

holder of a bona fide farmers' market sales permit shall collect liquor enforcement tax as required by K.S.A. 79-4101 and amendments thereto. The permittee shall file enforcement tax returns and remit payment according to the provisions of the liquor enforcement tax act, K.S.A. 79-4101 et seq. and amendments thereto.

(l) Each licensee of a Kansas farm winery that also holds a bona fide farmers' market sales permit shall maintain separate records and file separate returns for its bona fide farmers' market sales permit. The farm winery licensee shall remit enforcement taxes collected from sales at the farmers' market separately from the taxes collected and reported under its farm winery license. (Authorized by K.S.A. 41-210, K.S.A. 2009 Supp. 41-351, and K.S.A. 79-4106; implementing K.S.A. 41-211 and K.S.A. 2009 Supp. 41-351; effective Sept. 17, 2010.)

14-11-25. Licensee of farm winery also licensed as manufacturer. (a) A farm winery licensee may request a license as a manufacturer by submitting an application to the director.

(b) Each application for a manufacturer's license shall be submitted upon forms prescribed by the director, shall contain all information the director deems necessary, and shall include the following:

(1) The appropriate license fee pursuant to K.S.A. 41-310(c), and amendments thereto;

(2) a bond pursuant to K.S.A. 41-317(b), and amendments thereto; and

(3) the registration fee pursuant to K.S.A. 41-317(a), and amendments thereto.

(c) The director may reject an application for a manufacturer's license for any of the following reasons:

(1) The application does not include all information the director deems necessary.

(2) The application does not contain the appropriate license fee, bond, or registration fee.

(3) The applicant or its owners, officers, agents, or managers are currently delinquent in payment of any gallonage tax, enforcement tax, or any fees or fines to the state of Kansas.

(d) Each farm winery licensee shall maintain separate storage facilities, production records, and sales records from those of the manufacturer.

(e) No alcoholic liquor or cereal malt beverage manufactured by the manufacturer shall be sold at or under any of the following:

(1) The licensed premises of any farm winery;

(2) the licensed premises of any farm winery outlet;

(3) a bona fide farmers' market; or

(4) any special order shipping license.

(f) No alcoholic liquor or cereal malt beverage manufactured by the manufacturer shall be displayed or sampled in any sales area or tasting area of the farm winery premises.

(g) Each farm winery licensee that also holds a manufacturer's license shall file separate gallonage tax returns for its manufacturer's license. The farm winery licensee shall remit gallonage taxes separately from the taxes reported under its manufacturer's license.

(h) Each farm winery licensee that also holds a manufacturer's license shall submit a monthly sales report with each manufacturer license's gallonage tax return. The report shall be submitted on a form prescribed by the director and shall reflect all sales made under the manufacturer's license during that month.

(i) Each farm winery licensee that also possesses a manufacturer's license shall be subject to the record retention and reporting requirements of both license types. (Authorized by K.S.A. 41-210 and K.S.A. 79-4106; implementing K.S.A. 41-211, K.S.A. 2009 Supp. 41-305, K.S.A. 2009 Supp. 41-317; effective Sept. 17, 2010.)

14-11-26. Label approval required. Before offering for sale in this state any domestic table wine or domestic fortified wine, a farm winery or farm winery outlet shall submit each label and a "certificate of label approval" from the federal tax and trade bureau to the director. No domestic table wine or domestic fortified wine shall be sold in this state unless the label and the "certificate of label approval" have been submitted to the director. (Authorized by K.S.A. 41-210; implementing K.S.A. 41-211; effective Sept. 17, 2010.)

14-11-27. (Authorized by K.S.A. 41-210; implementing K.S.A. 41-211, K.S.A. 2009 Supp. 41-308a; effective Sept. 17, 2010; revoked Dec. 27, 2010.)

14-11-28. Sales to minors prohibited. No farm winery licensee, farm winery outlet licensee, holder of a special order shipping license, holder of a bona fide farmers' market sales permit, or any owner, employee, or agent of any of these individuals shall sell, give, or deliver domestic table wine or domestic fortified wine to any person under 21 years of age. (Authorized

by K.S.A. 41-210; implementing K.S.A. 41-211; effective Sept. 17, 2010.)

14-11-29. Record retention; reporting requirements. (a) Each farm winery licensee, farm winery outlet licensee, holder of a bona fide farmers' market sales permit, or holder of a special order shipping license shall maintain records of all sales made under the license or permit for at least three years after the date of sale. The records required by this subsection shall be available for inspection by the director, any agent or employee of the director, or the secretary upon request.

(1) Each record required by the regulation shall be maintained on the premises of the farm winery or farm winery outlet for at least 90 days after the sale.

(2) Any record required by this regulation may be stored electronically and maintained off the licensed premises.

(b) Each farm winery licensee shall submit a monthly sales report with each gallonage tax return. The report shall be submitted on a form prescribed by the director and shall reflect all sales made under any license or permit issued under the liquor control act and held by the farm winery licensee during that month. (Authorized by K.S.A. 41-210, K.S.A. 2009 Supp. 41-350, as amended by L. 2010, ch. 142, sec. 10, and K.S.A. 2009 Supp. 41-351; implementing K.S.A. 41-211 and K.S.A. 2009 Supp. 41-350, as amended by L. 2010, ch. 142, sec. 10; effective Sept. 17, 2010.)

Article 13.—RETAIL LIQUOR DEALER

14-13-1. Definitions. As used in this article of the division's regulations, unless the context clearly requires otherwise, each of the following terms shall have the meaning specified in this regulation:

(a) "Adjacent premises" means an enclosed permanent structure that is contiguous to the licensed premises and may be located in front of, beside, behind, below, or above the licensed premises. Adjacent premises shall be under the direct or indirect control of the retailer. This term shall not include empty lots, parking lots, temporary structures, or enclosed structures not contiguous to the licensed premises.

(b) "Beneficial interest" means any ownership interest by a person or that person's spouse in a business, corporation, partnership, trust, association, or other form of business organization.

(c) "Bulk wine" means wine that is sold to a club by either a retailer or a distributor in barrels, casks, or bulk containers that individually exceed 20 liters.

(d) "Cereal malt beverage" has the meaning specified in K.S.A. 41-2701, and amendments thereto.

(e) "Church" means a building that is owned or leased by a religious organization and is used exclusively as a place for religious worship and other activities ordinarily conducted by a religious organization.

(f) "Crime opposed to decency and morality" means a crime involving any of the following:

- (1) Prostitution;
- (2) solicitation of a child under 18 years of age for any immoral act involving sex;
- (3) possession or sale of narcotics, marijuana, amphetamines, or barbiturates;
- (4) rape;
- (5) incest;
- (6) gambling;
- (7) adultery;
- (8) bigamy; or
- (9) procuring any person to be involved in the commission of any of the criminal acts specified in paragraphs (f) (1)-(8).

(g) "Licensed premises" means those areas described in an application for a retailer's license that are under the control of the applicant and are intended as the area in which alcoholic liquor is to be sold for consumption off the licensed premises or stored for later sale.

(h) "Manager" means a person with the status, duties, and authority to have control over the licensee's business operation, finances, or disbursement of business funds including any of the following:

- (1) The authority to make decisions concerning the day-to-day operations of the business;
- (2) the authority to hire or fire employees;
- (3) the authority to sign business checks;
- (4) the authority to direct payment of business funds; or
- (5) supervision of those employees responsible for any of these duties.

(i) "Mixer" means any liquid capable of being consumed by a human being that can be combined with alcoholic liquor for consumption.

(j) "Tasting event" means any time during which a retailer or supplier is serving free samples of alcoholic liquor on the retailer's licensed premises or at adjacent premises monitored and regulated

by the director. (Authorized by K.S.A. 41-210 and K.S.A. 2017 Supp. 41-212; implementing K.S.A. 2017 Supp. 41-102; effective May 1, 1988; amended Aug. 6, 1990; amended, T-14-11-9-92, Nov. 9, 1992; amended Dec. 21, 1992; amended, T-14-6-28-12, July 1, 2012; amended, T-14-10-25-12, Oct. 29, 2012; amended Feb. 22, 2013; amended June 7, 2018.)

14-13-2. Application for retail liquor license; requirements, conditions, and restrictions on issuance of license. (a) A retailer's license shall be issued by the director to each applicant who is determined by the director to have met the requirements of the liquor control act.

(b) Each application for a retailer's license shall be submitted on forms prescribed by the director and include the following:

(1) A copy of any partnership agreement, operating agreement of a limited liability company, declaration of trust, or other documents specifying the aims and purposes of the trust, if applicable;

(2) a copy of a written lease or proof of ownership of the premises to be licensed;

(3) a certified statement from the applicant that the licensed premises are located in one of the following areas:

(A) An area where the zoning regulations of the city, township, or county allow the operation of a retail liquor store; or

(B) an area where no zoning regulations have been adopted;

(4) the proper license fee and registration fee;

(5) a bond, pursuant to K.S.A. 41-317 and amendments thereto;

(6) a diagram of the licensed premises, showing the area or areas in which alcoholic liquor will be stored and sold. Subject to the prior approval of the director, the licensed premises may include either of the following:

(A) Those areas outside the main sales area that are within 100 yards of the main sales area and located upon property that is subject to the applicant's legal control; or

(B) a detached storage area, located within 100 yards of the main sales area and used exclusively for storage of alcoholic liquor by the retailer; and

(7) all other information necessary to complete the application process.

(c) On and after April 1, 2020, in addition to the items specified in subsection (b), each application for a renewal of a retailer's license shall include a statement of gross receipts from the previous

12-month period showing that the sale of all goods and services other than cereal malt beverage and alcoholic liquor is not more than 20 percent of the retailer's total gross sales. For the purposes of this calculation, all fees derived from the sale of lottery tickets and cigarette and tobacco products shall be excluded.

(d) The initial application for any retailer's license, or any renewal application for a retailer's license, may be rejected by the director for any of the following reasons:

(1) The applicant does not provide all the information necessary for completion of the application process.

(2) The applicant does not include the proper license fee and registration fee.

(3) The applicant does not include the required bond.

(4) The applicant or its owners, officers, resident agent, or managers have violated a provision of the liquor control act or these regulations relating to the sales of alcoholic liquor that may have been grounds for license revocation.

(5) The applicant or its owners, officers, resident agent, or managers are currently delinquent in payment of any gallonage tax, liquor enforcement tax, liquor drink tax, license fees, or liquor-related fines to the state of Kansas.

(6) The applicant or its owners, officers, resident agent, or managers previously held a license issued under the liquor control act or the club and drinking establishment act, and when that license expired or was surrendered, the licensee was delinquent in payment of any gallonage tax, liquor enforcement tax, liquor drink tax, license fees, or liquor-related fines to the state of Kansas.

(7) The applicant has had a liquor license revoked for cause in Kansas or another state.

(8) The applicant or its owners, officers, resident agent, or managers have been convicted of a crime opposed to decency and morality.

(9) For any renewal application received on or after April 1, 2020, the licensee has failed to demonstrate that the sale of all goods and services other than cereal malt beverage and alcoholic liquor is not more than 20 percent of the retailer's total gross sales pursuant to subsection (c).

(e) Each person who provides financing to or leases premises to a retailer upon terms that result in that person having a beneficial interest in the retailer's business shall be deemed to be a partner in the retailer's business. Each person who provides financing to a retailer shall be deemed to

have a beneficial interest in the retailer's business if the terms for repayment are conditioned on the amount of the retailer's receipts or profits from the sale of alcoholic liquor. A lessor shall be deemed to have a beneficial interest in a retailer's business if the lessor receives as rent, in whole or in part, a percentage of the retailer's receipts or profits from the sale of alcoholic liquor. (Authorized by K.S.A. 41-210 and K.S.A. 2017 Supp. 41-212; implementing K.S.A. 2017 Supp. 41-308, K.S.A. 2017 Supp. 41-310, K.S.A. 2017 Supp. 41-311, K.S.A. 41-315, and K.S.A. 2017 Supp. 41-317; effective May 1, 1988; amended Aug. 6, 1990; amended, T-14-11-9-92, Nov. 9, 1992; amended Dec. 21, 1992; amended Feb. 22, 2013; amended June 7, 2018.)

14-13-3. (Authorized by K.S.A. 41-210 as amended by L. 1987, Ch. 182, Sec. 10; implementing K.S.A. 41-211, 41-318, 41-327; effective May 1, 1988; revoked Feb. 22, 2013.)

14-13-4. Local occupation or license tax; display requirement. (a) If the retail premises are located in a city or county that imposes a local occupation or license tax, a retailer shall not sell or offer for sale any alcoholic liquor until the retailer has paid the occupation or license tax.

(b) Each retailer whose licensed premises is located in a city or county that requires a local occupation or license tax shall cause proof of payment of the occupation or license tax to be framed and hung in a conspicuous place on the retailer's licensed premises. (Authorized by K.S.A. 41-210; implementing K.S.A. 2011 Supp. 41-310, as amended by L. 2012, ch. 144, sec. 13; effective May 1, 1988; amended Aug. 6, 1990; amended Feb. 22, 2013.)

14-13-5. Retailers; employees; roster; responsibility for conduct. (a) Each retailer shall be responsible for the conduct of the retailer's business and shall be directly responsible for violations of the liquor control act or these regulations by any employee engaged in and acting in the course of employment.

(b) Each retailer shall maintain, on the licensed premises, a roster of all employees, including unpaid volunteers, who are involved in the sale or service of alcoholic liquor. This roster shall be made available for inspection upon request by the director, any agent or employee of the director, or secretary.

The roster required by this regulation shall contain each employee's first name, last name, middle

initial, gender, and date of birth. (Authorized by K.S.A. 41-210; implementing K.S.A. 41-713 and K.S.A. 41-904; effective May 1, 1988; amended July 1, 1991; amended Feb. 22, 2013.)

14-13-6. Change of location of business.

(a) Any retailer may change the location of the licensed premises only upon written permission of the director.

(b) At least 20 days before changing the location of the business, the retailer shall submit a written request, on forms prescribed by the director, to change the location of the business.

(c) Each request required by subsection (b) shall contain all of the following:

- (1) The retailer's name and license number;
- (2) the retailer's current business address;
- (3) the retailer's new business address;
- (4) a copy of a written lease or proof of ownership of the new premises sought to be licensed; and

(5) a certified statement, from the clerk of the city or county in which the premises sought to be licensed are located, that the premises are in one of the following areas:

(A) An area where the zoning regulations of the city, township, or county allow the operation of a retail liquor store; or

(B) an area where no zoning regulations have been adopted.

(d) Any request to change the location of a licensed business may be denied by the director for any of the following reasons:

(1) The new location is in an area where the zoning regulations of the city, township, or county do not allow the operation of a retail liquor store.

(2) The new location is within 200 feet of any school, college, or church.

(3) The new location has an inside entrance that connects with another place of business. (Authorized by K.S.A. 41-210; implementing K.S.A. 41-315, K.S.A. 2011 Supp. 41-710, as amended by L. 2012, ch. 144, sec. 24, and K.S.A. 41-711; effective May 1, 1988; amended Feb. 22, 2013.)

14-13-7. Licenses, loss or destruction of; duplicate license.

(a) Whenever any license issued by the director is lost or destroyed before its expiration, the retailer to whom the license was issued may submit a written application to the director for a duplicate license.

(b) The application required by subsection (a) shall be submitted on forms prescribed by the

director and shall contain the facts and circumstances concerning the loss or destruction of the license.

(c) The director may issue a duplicate license upon receipt of information that the license has been lost or destroyed. (Authorized by K.S.A. 41-210; implementing K.S.A. 41-211; effective May 1, 1988; amended Feb. 22, 2013.)

14-13-8. Transfer of retailer's stock of alcoholic liquor; application for permission; seizure and sale of abandoned alcoholic liquor.

(a) When a retailer's license has expired or been surrendered or revoked, that retailer may apply to the director for permission to transfer the retailer's stock of alcoholic liquors to another licensee.

(b) The application to transfer the retailer's stock of alcoholic liquors shall be submitted on forms prescribed by the director and shall contain all of the following:

- (1) The retailer's name and license number;
- (2) the purchaser's name and license number;
- (3) the gross sale price of the transferred alcoholic liquor; and
- (4) the quantity, brand, and type of each container of alcoholic liquor to be transferred.

(c) No alcoholic liquor in the possession of a retailer shall be transferred under the provisions of subsection (a) unless the director has granted written permission.

(d) The director may deny an application to transfer alcoholic liquor under the provisions of subsection (a) if the retailer owes any gallonage tax, liquor enforcement tax, liquor drink tax, license fees, or liquor-related fines to the state of Kansas.

(e) The director or any employee or agent of the director may seize and sell any alcoholic liquor located on the premises subject to a retailer's license if the director determines that the alcoholic liquor has been abandoned by the licensee. The director may consider any of the following criteria in making a determination that the alcoholic liquor has been abandoned:

- (1) The licensee has quit its occupation of the building, leaving alcoholic liquor in the building.
- (2) The licensee has been evicted and has made no attempt to collect the alcoholic liquor.
- (3) Attempts to contact the licensee to determine its plans for the alcoholic liquor have been unsuccessful.
- (4) The presence of the alcoholic liquor in the building poses a threat to the public health, safety, and welfare or the orderly regulation of the market.

(f) Upon the director's determination that the alcoholic liquor has been abandoned, the director shall notify the retailer, in writing, of the director's intent to seize and sell the alcoholic liquor. If, within seven calendar days after the date of the director's notice, the retailer has not notified the director that the retailer intends to maintain possession of the alcoholic liquor, the director may seize and sell the alcoholic liquor.

(g) The proceeds from the sale of alcoholic liquor under subsection (e) shall be deposited into the state general fund. (Authorized by K.S.A. 41-210; implementing K.S.A. 41-1102; effective May 1, 1988; amended Feb 22, 2013.)

14-13-9. Transactions prohibited; deliveries by retailer for sale or resale off licensed premises.

(a) Any retailer may sell and deliver alcoholic liquor to a club, drinking establishment, public venue, or caterer if all of the following conditions are met:

(1) All deliveries of alcoholic liquor are made to the licensed premises of a club, public venue, or drinking establishment and to the principal place of business of a caterer.

(2) All deliveries are made by an employee of the retailer.

(3) The retailer provides a sales slip or numbered invoice, purchase order, or sales ticket for each item delivered as required by K.A.R. 14-13-10.

(4) The retailer receives payment for all deliveries before or at the time of the deliveries.

(5) The retailer has first obtained a federal wholesale basic permit and displays a sign on the licensed premises stating that the retailer is a "Wholesale Liquor Dealer Under Federal Law."

(6) All deliveries of alcoholic liquor are made on those days and during those hours that a retailer may sell alcoholic liquor pursuant to K.S.A. 41-712, and amendments thereto.

(7) All deliveries originate from the licensed premises of the retailer.

(b) Any retailer may sell alcoholic liquor to a temporary permit holder if all of the following conditions are met:

(1) Sales are made only upon the licensed premises of the retailer.

(2) No deliveries are made to a temporary permit holder.

(3) The retailer provides a sales slip or numbered invoice, purchase order, or sales ticket as required by K.A.R. 14-13-10.

(c) No retailer shall sell or deliver any alcoholic liquor to any person with knowledge of, or with reasonable cause to believe, that the person to whom the liquor is sold or delivered has acquired the alcoholic liquor for the purpose of peddling or reselling the alcoholic liquor in violation of this article, the Kansas liquor control act, or the club and drinking establishment act.

(d) All alcoholic liquor of a retail licensee shall be stored upon the licensed premises of the licensee. Alcoholic liquor shall not be stored upon the licensed premises after the sale. (Authorized by K.S.A. 41-210; implementing K.S.A. 41-210, K.S.A. 41-308, as amended by L. 2012, ch. 144, sec. 10, and K.S.A. 41-717, as amended by L. 2012, ch. 144, sec. 26; effective May 1, 1988; amended Aug. 6, 1990; amended July 1, 1991; amended Nov. 21, 2003; amended Feb. 22, 2013.)

14-13-10. Records of purchases and sales; retention of records; reports. (a) Each retailer purchasing alcoholic liquor from a licensed distributor shall obtain a numbered invoice, purchase order, or sales ticket that contains the following information:

- (1) The date of purchase;
- (2) the name, address, and license number of the retailer;
- (3) the name, address, and license number of the distributor;
- (4) the name of the individual making the purchase for the retailer;
- (5) the brand, size, and amount of each brand purchased;
- (6) the unit cost and total price for each brand and size; and
- (7) the subtotal of the cost of the alcoholic liquor purchased and the total cost of the order including delivery charge, if any.

(b) Each retailer engaged in sales to licensed clubs, drinking establishments, caterers, public venues, or temporary permit holders shall provide a numbered invoice, purchase order, or sales ticket in connection with all purchases, which shall include the following information:

- (1) The date of purchase;
- (2) the name, address, and license number of the retailer;
- (3) the name, address, and license number of the club, drinking establishment, caterer, public venue, or temporary permit holder;
- (4) the name of the individual making the purchase for the club, drinking establishment, cater-

er, public venue, or temporary permit holder and that individual's position with the club, drinking establishment, caterer, public venue, or temporary permit holder;

(5) the brand, size, and amount of each brand purchased;

(6) the unit cost and total price for each brand and size; and

(7) the subtotal of the cost of the alcoholic liquor sold and the total cost of the order including enforcement tax and delivery charge, if any.

(c) Each retailer who holds a federal wholesale basic permit shall, between the first and the fifteenth day of each month, upon a form prescribed by the director, submit a certified report of all sales made to any licensed club, drinking establishment, caterer, public venue, or temporary permit holder during the preceding month. The report shall include the following information for each order placed by and sold to a club, drinking establishment, caterer, public venue, or temporary permit holder:

- (1) The date of the order;
- (2) the name, address, and license number of the club, drinking establishment, caterer, public venue, or temporary permit holder; and
- (3) the total price paid for each order.

(d) On and after April 1, 2019, each retailer shall keep all sales receipts from the sale to any customer of all alcoholic liquor, cereal malt beverage, and any other goods or services, excluding the sales of lottery tickets and cigarette and tobacco products.

(e) The retailer shall keep a copy of each invoice, purchase order, or sales ticket required by this regulation for at least three years from the date the alcoholic liquor was sold.

(f) The records required by this regulation shall be available for inspection by the director, any agent or employee of the director, or the secretary upon request.

(1) Each record required by this regulation shall be maintained on the retailer's licensed premises for at least 90 days after the sale. These records may be maintained in electronic format and shall be capable of being printed immediately upon request.

(2) After 90 days, all records required by this regulation may be stored and maintained off the licensed premises and shall be provided in electronic or paper format upon request. (Authorized by K.S.A. 41-210 and K.S.A. 2017 Supp. 41-212; implementing K.S.A. 2017 Supp. 41-308, K.S.A. 41-407, K.S.A. 41-703, and K.S.A. 41-708; effec-

tive May 1, 1988; amended Feb. 22, 2013; amended June 7, 2018.)

14-13-11. (Authorized by K.S.A. 1989 Supp. 41-210; implementing K.S.A. 1989 Supp. 41-308; K.S.A. 41-715; effective May 1, 1988; amended Aug. 6, 1990; revoked Feb. 22, 2013.)

14-13-12. Defective liquor containers; repurchase by retailer. (a) No retailer shall knowingly sell any liquor containers that leak, contain foreign matter in the bottle, are short-filled, have broken federal seals, have badly soiled or stained labels, or are otherwise not fit for resale to the general public.

(b) Any retailer may perform the following:

(1) Buy back from a customer any item of alcoholic liquor when required by the distributor to do so;

(2) buy back any item of alcoholic liquor from a club, drinking establishment, or caterer for which the club, drinking establishment, or caterer has obtained the approval of the director to close out;

(3) buy back or exchange, within 24 hours of delivery, any item of alcoholic liquor that is damaged, as described in subsection (a); and

(4) buy back, with written permission from the director and within three business days after the end of an event conducted under a temporary permit issued under K.S.A. 41-2645 and amendments thereto, any beer sold to the holder of the temporary permit. (Authorized by and implementing K.S.A. 41-210 and K.S.A. 41-211; effective May 1, 1988; amended Aug. 5, 2011.)

14-13-13. Prohibited conduct of retailer.

(a) A retailer shall not permit gambling or the possession of any gambling or gaming device on the licensed premises. However, any retailer may sell, operate, possess, and offer to the public lottery tickets permitted by the Kansas lottery act if the retailer is authorized by the Kansas lottery commission to do so.

(b) A retailer shall not, as a condition for the sale or delivery of alcoholic liquor to a customer or to any other licensee who is licensed under the liquor control act or the club and drinking establishment act, require that the other licensee or customer purchase or contract to purchase alcoholic liquor of another form, quantity, or brand in addition to or partially in lieu of that specifically ordered or wanted by the licensee or customer.

(c) A retailer shall not sell or deliver alcoholic liquor of a particular form or brand to a customer

or to any other licensee who is licensed under the liquor control act or the club and drinking establishment act under any arrangement, agreement, or understanding, direct or implied, such that the sale or delivery will be made only if the other licensee or customer also buys or accepts delivery of a quantity of alcoholic liquor of another form or brand.

(d) A retailer shall not refuse to permit the director or any agent or employee of the director to inspect the licensed premises and any alcoholic liquor in the retailer's possession or under the retailer's control upon the licensed premises or upon any other premises where the retailer has stored any alcoholic liquor.

(e) A retailer shall not make any false or misleading representations with respect to any alcoholic liquor product or any licensed premises or in connection with a sales transaction relating to brand, type, proof, or age of an alcoholic liquor or beer. A retailer shall not deceive or attempt to deceive a customer by removing or changing any label or sanitation cover from a container of alcoholic liquor.

(f) A retailer shall not sell or remove any alcoholic liquor from the licensed premises on any day other than a legal day for the sale of alcoholic liquor at retail, after the legal closing hour or before the legal opening hour.

(g) A retailer shall not, directly or indirectly, offer or furnish any gifts, prizes, premiums, rebates, or similar inducements with the sale of any alcoholic liquor, nor shall any retailer directly or indirectly offer, furnish, or sell any alcoholic liquor at less than its cost plus enforcement tax, except according to the following:

(1) Any retailer may include in the sale of alcoholic liquor any goods included by the manufacturer in packaging with the alcoholic liquor. Goods included by the manufacturer shall be packaged with one or more original packages of alcoholic liquor in such a manner as to be delivered to the consumer as a single unit. A retailer shall not sell or give away goods included by a manufacturer that are not packaged as a single unit with the original package of alcoholic liquor as shipped by the manufacturer.

(2) Any retailer may distribute consumer advertising specialty items, subject to the limitations imposed by this regulation. For the purposes of this regulation, consumer advertising specialty items shall be limited to the following: ashtrays, bottle or can openers, corkscrews, matches,

printed recipes, informational pamphlets, cards and leaflets, blotters, postcards, posters, printed sports schedules, pens, pencils, and other items of minimal value as approved by the director. Each consumer advertising specialty item shall contain advertising material relating to a brand name of alcoholic liquor or to the operation of the retail liquor store distributing the consumer advertising specialty item. No charge may be made for any consumer advertising specialty item or any purchase required in order to receive any consumer advertising specialty item.

(h) A retailer shall not open or permit to be opened, on the licensed premises, any container or original package containing alcoholic liquor or cereal malt beverage, except as provided in K.A.R. 14-13-16 and K.A.R. 14-13-17.

(i) A retailer shall not permit the drinking of alcoholic liquors or cereal malt beverage on or about the licensed premises, except that any consumer who is at least 21 years of age may sample alcoholic liquor available for sale by the retailer, on the licensed premises and at adjacent premises monitored and regulated by the director, in accordance with K.A.R. 14-13-16 and K.A.R. 14-13-17.

(j) A retailer shall not allow an intoxicated person to frequent, loiter, or be employed upon the licensed premises. A retailer's manager or employee shall not be intoxicated while on duty for the licensee.

(k) A retailer shall not permit any other person to use the licensed premises for the purpose of carrying on any business activity other than the sale of alcoholic liquor.

(l) A retailer shall not accept or receive from any agent or employee of any licensed distributor any cash rebate or thing of value, or enter into or be a party to any agreement or transaction with any licensed distributor, directly or indirectly, that would result in, or have as its purpose, the purchase of any alcoholic liquor by the retailer at a price less than the listed price that has been filed by the distributor in the office of the director.

(m) A retailer shall not sell, give, or deliver any intoxicating liquor to any person under the age of 21 years. A retailer shall not sell, give, or deliver any intoxicating liquor to any person if the retailer knows or has reason to know that the intoxicating liquor is being obtained for a person under 21 years of age.

(n) A retailer shall not purchase or sell any alcoholic liquor on credit. A retailer shall not enter into any transaction or scheme the purpose of

which is to buy or sell alcoholic liquor on credit. The following transactions shall be considered to be buying or selling alcoholic liquor on credit:

(1) Taking or giving a postdated check;
(2) giving an insufficient funds check;
(3) taking a check with knowledge that there are insufficient funds to pay the check upon presentment;

(4) accepting delivery from a distributor without making payment for the alcoholic liquor when delivered or before delivery;

(5) making delivery to a club, drinking establishment, or caterer without receiving payment before or at the time of delivery; and

(6) allowing any alcoholic liquor to be removed from the licensed premises without receiving payment for the alcoholic liquor.

(o) A retailer shall not fail to make the reports or keep the records required by these regulations.

(p) A retailer who is authorized by the Kansas lottery commission to sell lottery tickets shall not commingle the proceeds from the sale of the lottery tickets with the proceeds from the sale of alcoholic liquor.

(q) A retailer shall not refill a package of alcoholic liquor and shall not sell alcoholic liquor in anything other than the original package. (Authorized by K.S.A. 41-210; implementing K.S.A. 41-211, K.S.A. 2017 Supp. 41-308, K.S.A. 41-702, K.S.A. 41-703, K.S.A. 2017 Supp. 41-717, K.S.A. 2017 Supp. 41-718; effective May 1, 1988; amended, T-14-11-9-92, Nov. 9, 1992; amended Dec. 21, 1992; amended, T-14-6-28-12, July 1, 2012; amended, T-14-10-25-12, Oct. 29, 2012; amended Feb. 22, 2013; amended June 7, 2018.)

14-13-15. “Doing business as” names.

(a) Each applicant for a retailer's license shall include in the license application the “doing business as” (d/b/a) name by which the applicant wishes to operate the store for which licensure is sought.

(b) An application with a d/b/a name that suggests to the public that multiple stores are part of a chain or are owned or operated by a corporation shall not be approved by the director.

(c) Each retailer shall post its d/b/a name within the store or on the exterior of the store.

(d) Each retailer wishing to change its approved d/b/a name shall submit, on a form prescribed by the director, a request for approval to change its d/b/a name. The request shall contain all of the following:

(1) The retailer's name and license number;

- (2) the retailer's current d/b/a name; and
- (3) the retailer's requested new d/b/a name.

(e) The director may deny a retailer's request to change its d/b/a name for any of the following reasons:

(1) The requested d/b/a name is currently in use in the same county where the retailer's premises is located.

(2) The requested d/b/a name misleads the public by indicating that the retail store is part of a chain.

(3) The requested d/b/a name misleads the public by indicating that the retail store is owned by a corporation. (Authorized by K.S.A. 41-210; implementing K.S.A. 41-211 and K.S.A. 2011 Supp. 41-311, as amended by L. 2012, ch. 144, sec. 14; effective July 5, 2002; amended Feb. 22, 2013.)

14-13-16. Tasting events; requirements; prohibitions. Any retailer may provide free samples of alcoholic liquor offered for sale by the retailer to members of the general public on the retailer's licensed premises and at adjacent premises as approved by the director.

(a) No retailer shall receive payment from any person, either directly or indirectly, to conduct a tasting event.

(b)(1) Each container of alcoholic liquor to be sampled shall be removed from the retailer's inventory.

(2) The retailer shall clearly mark each container of alcoholic liquor removed from inventory for sampling as reserved for samples only. The marking shall not obscure the label of the alcoholic liquor container.

(c) No samples of alcoholic liquor may be served on a retailer's licensed premises or on adjacent premises at any time other than those hours and days during which the retailer may sell alcoholic liquor, pursuant to K.S.A. 41-712 and amendments thereto.

(d) Except as specifically allowed by this subsection, no employee of the retailer who is on duty may consume alcoholic liquor during the tasting event.

The owner or manager of a retail premises may consume wine from an original container sufficient to verify that the wine has not deteriorated in quality or has otherwise become unfit for human consumption.

(e) The director, or any agent or employee of the director, shall be granted immediate entry to and inspection of any adjacent premises used for tasting events at any time the adjacent premises are

occupied. Failure to grant immediate entry shall be grounds for revocation of the retailer's license.

(f) Except as specifically allowed in this subsection, no retailer may provide any food, service, or other thing of value other than samples of alcoholic liquor at any tasting event.

(1) Any retailer conducting a tasting event on the licensed premises may provide cups, napkins, and mixers.

(2) Any retailer conducting a tasting event on adjacent premises may provide cups, napkins, food, mixers, and other similar items.

(g) A licensed distributor or its agent, employee, or representative shall not purchase alcoholic liquor for tasting, pour samples, or provide any supplies or things of value, except that an agent, employee, or representative of a distributor may provide education on the product or products being sampled.

(h)(1) Any partially used container of alcoholic liquor removed from the licensed premises for tasting at adjacent premises shall be disposed of or returned to the licensed premises before the retailer's close of business on the same date the container was removed.

(2) Each retailer shall perform one of the following for each partially used container of alcoholic liquor used for sampling:

(A) Dispose of the container;

(B) store the container on the licensed premises in a secured, locked storage area, separate from containers of alcoholic liquor available for purchase; or

(C) secure the container with a tamperproof seal around the opening of the container.

(i) Each retailer engaged in tasting events shall keep, for at least three years, records of all alcoholic liquor removed from inventory for the tasting events. These records shall be available for inspection by the director, any agent or employee of the director, or the secretary, upon request.

(1) Each record required by this regulation shall be maintained on the licensed premises of the retailer for at least 90 days after the date on which the alcoholic liquor was removed from inventory. These records may be maintained in electronic format but shall be capable of being printed immediately upon request.

(2) After 90 days, any record required by this regulation may be stored electronically and maintained off the licensed premises. Each record shall be provided in electronic or paper format, upon request. (Authorized by K.S.A. 41-210 and

K.S.A. 2012 Supp. 75-5155; implementing K.S.A. 2012 Supp. 41-308d; effective, T-14-6-28-12, July 1, 2012; effective, T-14-10-25-12, Oct. 29, 2012; effective May 10, 2013.)

14-13-17. Tasting events; supplier participation; requirements; prohibitions. Any supplier may participate in a retail tasting event through the supplier's employee or agent. For the purpose of this regulation, "supplier" shall mean any person holding a permit issued pursuant to K.S.A. 41-331, and amendments thereto.

(a) A supplier's "agent" may include a third party contracted for the purpose of conducting the tasting. This term shall not include a licensed distributor or any agent, employee, or representative of a licensed distributor.

(b) For the purpose of participation in tasting events, each licensed distributor who also possesses a Kansas supplier permit shall be limited to providing educational information about the product or products being sampled. A distributor or its agent or employee shall not participate in any other manner in a tasting event.

(c) The supplier shall purchase alcoholic liquor to be sampled at a tasting event from the retailer. For each purchase under this regulation, the retailer shall provide the supplier with a numbered invoice or sales slip that contains the following information:

- (1) The date of purchase;
- (2) the name and license number of the retailer;
- (3) the name and Kansas permit number of the supplier;
- (4) the brand, size, and quantity of all alcoholic liquor purchased; and
- (5) the subtotal of the cost of the alcoholic liquor and the total cost of the purchase, including enforcement tax.

(d) Any supplier may store containers of alcoholic liquor used for sampling at a tasting event on the retailer's licensed premises if all of the following conditions are met:

- (1) Each container of alcoholic liquor is clearly marked, in a manner that does not obscure the label, as reserved for samples only.
- (2) The container is secured in a locked storage area separate from containers of alcoholic liquor available for purchase or is secured with a tamperproof seal around the opening of the container.
- (3) The container is accompanied by a copy of the invoice provided to the supplier by the retailer.
- (e)(1) Any supplier participating in a tasting

event on the retailer's licensed premises may provide cups, napkins, and mixers.

(2) Any supplier participating in a tasting event on the retailer's adjacent premises may provide nonalcoholic mixers, cups, napkins, food, and similar items.

(f) Each retailer who sells alcoholic liquor to a supplier participating in a tasting event shall keep a copy of the invoice or sales slip required by this regulation for at least three years. The records required by this subsection shall be available for inspection by the director, any agent or employee of the director, or the secretary, upon request.

(1) Each record required by this regulation shall be maintained on the retailer's licensed premises for at least 90 days after the sale. These records may be maintained in electronic format but shall be capable of being printed immediately upon request.

(2) After 90 days, any record required by this regulation may be stored electronically and maintained off the licensed premises. Each record shall be provided in electronic or paper format, upon request. (Authorized by K.S.A. 41-210 and K.S.A. 2012 Supp. 75-5155; implementing K.S.A. 2012 Supp. 41-308d; effective, T-14-6-28-12, July 1, 2012; effective, T-14-10-25-12, Oct. 29, 2012; effective May 10, 2013.)

14-13-18. Change of ownership; notice to director. (a) Each retailer intending to transfer ownership in its business association shall report this intent to the director at least 20 days before the intended transfer of ownership if the transfer would result in any person holding a beneficial interest greater than five percent in the business association that is subject to the license.

(b) Each retailer shall notify the director within 10 days after each transfer of ownership specified in subsection (a).

(c) The retailer shall submit the notifications required by subsections (a) and (b) on forms prescribed by the director and shall include all information necessary to determine the continued eligibility of the retailer under K.S.A. 41-311, and amendments thereto. (Authorized by K.S.A. 41-210; implementing K.S.A. 2012 Supp. 41-311; effective May 10, 2013.)

Article 16.—LICENSES; SUSPENSION AND REVOCATION

14-16-25. Imposition of penalties for violations. (a) The director may revoke or suspend

the license of any licensee for any violation of the liquor control act, the club and drinking establishment act, or any implementing regulation.

(b) In addition to or in lieu of any other civil or criminal penalty for any violation of the liquor control act, the club and drinking establishment act, or any implementing regulation, the director may order a civil fine not exceeding \$1,000 per violation.

(c) The director may order a penalty based upon the schedule specified in subsection (d). Penalties may vary from the schedule based on the presence of aggravating or mitigating circumstances.

(d) The department's "liquor fine and penalty schedule," dated July 16, 2012, is hereby adopted by reference. (Authorized by K.S.A. 41-210 and K.S.A. 41-2634; implementing K.S.A. 41-211, K.S.A. 2011 Supp. 41-328, K.S.A. 2011 Supp. 41-2611, and K.S.A. 41-2633a; effective Sept. 17, 2010; amended Dec. 14, 2012.)

Article 19.—CLASS A CLUBS

14-19-27. Storage of liquor; removal from club premises. (a) Each licensee shall store its liquor only on the licensed premises of the club unless the licensee has received prior approval in writing from the director to do otherwise.

(b) Any licensee may store wine purchased by a customer only in the unopened original container on the licensed premises, pursuant to K.S.A. 41-2637 and amendments thereto. The licensee shall be responsible for the contents of each customer's wine storage area.

(c) The wine storage area shall be subject to immediate entry and inspection by any law enforcement officer or any officer or agent of the director. Each licensee shall maintain, on the licensed premises, a key or other means to access the contents of the wine storage area.

(d)(1) The licensee may allow a customer to have access to the customer's wine storage area. An agent or employee of the licensee shall accompany each customer to the customer's wine storage area.

(2) A receipt showing the quantity of each brand of wine purchased shall be maintained in each customer's wine storage area. Each time the customer requests the removal of any wine from the storage area, the licensee or its owner, employee, or agent shall mark the receipt showing the date of removal and the quantity of each brand removed.

(e) No licensee, and no owner, employee, or agent of the licensee, shall make any sales of alcoholic liquor for consumption off the licensed premises. No alcoholic liquor purchased on the club premises shall be removed from the club premises, except in accordance with this regulation.

(f)(1) A licensee may permit its customers to remove partially consumed bottles of wine from the licensed premises, in accordance with K.S.A. 41-2653 and amendments thereto.

(2) If any customer wishes to remove from the licensed premises a partially consumed bottle of wine that had been stored in its original unopened container pursuant to K.S.A. 41-2637 and amendments thereto and this regulation, the licensee or its employee shall provide the customer with a copy of the original receipt with a notation that the bottle was removed from the customer's wine storage area on that date. (Authorized by K.S.A. 41-2634; implementing K.S.A. 41-2613, K.S.A. 2009 Supp. 41-2637, and K.S.A. 2009 Supp. 41-2653; effective, T-88-22, July 1, 1987; effective May 1, 1988; amended Sept. 17, 2010.)

14-19-38. Denial, revocation, or suspension of license upon request for hearing by governing body of city or county; request; evidence. (a) The governing body of a city or county may request a hearing before the director to determine whether an application for licensure or renewal shall be denied or whether a license issued under the club and drinking establishment act shall be revoked or suspended.

(b) The request shall be submitted in writing by the governing body, on city or county letterhead, to the director and shall be accompanied by evidence that indicates reasonable cause exists to conduct a hearing to deny, revoke, or suspend the license.

(c) The director shall review the evidence presented and determine whether reasonable cause exists to conduct a hearing to deny, revoke, or suspend the license. The director shall notify the governing body of the date and time of the hearing, or denial of the request, in writing as soon as reasonably possible.

(d) The hearing and notices shall be in accordance with the Kansas administrative procedures act (KAPA). The director shall consider the evidence presented by the governing body and the licensee at the hearing and determine whether the license shall be denied, revoked, or suspended.

(e) Evidence to be considered in determining whether a license shall be denied, revoked, or suspended shall include the following:

(1) A crime of violence has occurred in, on, or about the premises, arising from conduct occurring within the licensed premises.

(2) The licensed premises and surrounding areas under relative control of the licensee constitute an abnormal and unreasonable drain on public resources to secure the safety of patrons, local residents, and businesses.

(3) The licensed premises, including surrounding areas under relative control of the licensee, constitute a threat to public health, safety, and welfare.

(4) The governing body has filed one or more nuisance actions against the licensee or the licensed premises.

(5) The governing body or licensee has taken all reasonable remedial steps regarding the situation.

(f) For purposes of this regulation, “crime of violence” shall include arson, murder, manslaughter, rape or sexual assault, armed robbery, assault, and battery, and an attempt to commit any of these crimes. (Authorized by and implementing K.S.A. 2009 Supp. 41-2651; effective Sept. 17, 2010.)

14-19-39. Extension of premises. (a) A licensee may permanently or temporarily extend its licensed premises upon written approval by the director.

(b) A licensee shall request the director’s approval to extend its licensed premises in writing at least 10 days before the proposed extension.

(c) Each request shall be accompanied by a diagram of the extended premises, clearly showing the boundaries of the premises, entrances to and exits from the premises, and the area in which the service of alcoholic liquor would take place.

(d) For a temporary extension, the request shall include the dates on which and times during which the premises would be extended. If the licensee does not own or lease the area to be included in the temporarily extended premises, the request shall also include written permission from the governing body, owner, or property manager to extend the licensed premises into that area.

(e) No premises shall be extended permanently into an area for which the licensee does not possess a valid lease or deed.

(f) The boundary of any premises extended beyond the interior of a building shall be marked by a three-dimensional obstacle.

(g) The licensee shall maintain, on the licensed premises, a copy of the diagram showing the extended premises. The copy shall be available for inspection upon request by any law enforcement officer or any officer or agent of the director.

(h) The licensee shall maintain, on the licensed premises, a copy of the director’s written approval to extend the licensed premises, which shall be deemed to be an essential part of the premises license. The copy shall be available for inspection upon request by any law enforcement officer or any officer or agent of the director.

(i) No licensee, and no owner, employee, or agent of the licensee, shall allow the serving or consumption of alcoholic liquor on extended premises that have not been approved by the director. (Authorized by and implementing K.S.A. 41-2621; effective Sept. 17, 2010.)

14-19-40. Class A clubs; automated devices. (a)(1) “Automated device” shall mean any mechanized device capable of dispensing wine directly to a customer in exchange for compensation that a licensee has received directly from the customer.

(2) “Business day” shall mean the hours authorized by state law during which alcohol can be served on the licensed premises.

(b) No licensee shall allow an automated device to be used on its licensed premises without first providing written or electronic notification to the director of the licensee’s intent to use the automated device. The licensee shall provide this notification at least 48 hours before any automated device is used on the licensed premises.

(c) Each licensee offering customer self-service of wine from any automated device shall provide constant video monitoring of the automated device at all times during which the licensee is open to the public. The licensee shall keep recorded footage from the video monitoring for at least 60 days and shall provide the footage, upon request, to any agent of the director or other authorized law enforcement agent.

(d) The compensation required by subsection (a) shall be in the form of a programmable, prepaid access card containing a fixed amount of monetary credit that may be directly exchanged for wine dispensed from the automated device. Access cards may be sold, used, or reactivated only during a business day.

Each access card shall be purchased from the licensee by a customer. A licensee shall not issue

more than one active access card to a customer. For purposes of this regulation, an access card shall be deemed “active” if the access card contains monetary credit or has not yet been used to dispense 15 ounces of wine.

Each purchase of an access card under this regulation shall be subject to the liquor drink tax imposed by K.S.A. 79-41a02, and amendments thereto.

(e) In order to obtain a prepaid access card from a licensee, each customer shall produce a valid driver’s license, identification card, or other government-issued document that contains a photograph of the individual and demonstrates that the individual is at least 21 years of age. Each access card shall be programmed to require the production of the customer’s valid identification before the access card can be used for the first time during any business day or for any subsequent reactivation as provided in subsection (f). Each access card shall become inactive at the end of each business day.

(f) Each access card shall be programmed to allow the dispensing of no more than 15 ounces of wine to a customer. Once an access card has been used to dispense 15 ounces of wine to a customer, the access card shall become inactive. Any customer in possession of an inactive access card may, upon production of the customer’s valid identification to the licensee or licensee’s employee, have the access card reactivated to allow the dispensing of an additional 15 ounces of wine from an automated device.

This subsection shall not apply to wine dispensed by an automated device if the wine is dispensed directly to the licensee or the licensee’s agent or employee. (Authorized by K.S.A. 2014 Supp. 41-2640, as amended by 2015 HB 2223, sec. 5; implementing K.S.A. 2014 Supp. 41-2640, as amended by 2015 HB 2223, sec. 5, and K.S.A. 2014 Supp. 79-41a02; effective, T-14-7-1-15, July 1, 2015; effective Oct. 9, 2015.)

Article 20.—CLASS B CLUBS

14-20-29. Storage of liquor; removal from club premises. (a) Each licensee shall store its liquor only on the licensed premises of the club unless the licensee has received prior approval in writing from the director to do otherwise.

(b) Any licensee may store wine purchased by a customer only in the unopened original container on the licensed premises, pursuant to K.S.A. 41-

2641 and amendments thereto. The licensee shall be responsible for the contents of each customer’s wine storage area.

(c) The wine storage area shall be subject to immediate entry and inspection by any law enforcement officer or any officer or agent of the director. Each licensee shall maintain, on the licensed premises, a key or other means to access the contents of the wine storage area.

(d)(1) The licensee may allow a customer to have access to the customer’s wine storage area. An agent or employee of the licensee shall accompany each customer to the customer’s wine storage area.

(2) A receipt showing the quantity of each brand of wine purchased shall be maintained in each customer’s wine storage area. Each time the customer requests the removal of any wine from the storage area, the licensee or its owner, employee, or agent shall mark the receipt showing the date of removal and the quantity of each brand removed.

(e) No licensee, and no owner, employee, or agent of the licensee, shall make any sales of alcoholic liquor for consumption off the licensed premises. No alcoholic liquor purchased on the club premises shall be removed from the club premises, except in accordance with this regulation.

(f)(1) A licensee may permit its customers to remove partially consumed bottles of wine from the licensed premises, in accordance with K.S.A. 41-2653 and amendments thereto.

(2) If any customer wishes to remove from the licensed premises a partially consumed bottle of wine that had been stored in its original unopened container pursuant to K.S.A. 41-2641 and amendments thereto and this regulation, the licensee or its employee shall provide the customer with a copy of the original receipt with a notation that the bottle was removed from the customer’s wine storage area on that date. (Authorized by K.S.A. 41-2634; implementing K.S.A. 41-2613, K.S.A. 2009 Supp. 41-2641, and K.S.A. 2009 Supp. 41-2653; effective, T-88-22, July 1, 1987; effective May 1, 1988; amended Sept. 17, 2010.)

14-20-40. Denial, revocation, or suspension of license upon request for hearing by governing body of city or county; request; evidence. (a) The governing body of a city or county may request a hearing before the director to determine whether an application for licensure or renewal shall be denied or whether a license

issued under the club and drinking establishment act shall be revoked or suspended.

(b) The request shall be submitted in writing by the governing body, on city or county letterhead, to the director and shall be accompanied by evidence that indicates reasonable cause exists to conduct a hearing to deny, revoke, or suspend the license.

(c) The director shall review the evidence presented and determine whether reasonable cause exists to conduct a hearing to deny, revoke, or suspend the license. The director shall notify the governing body of the date and time of the hearing, or denial of the request, in writing as soon as reasonably possible.

(d) The hearing and notices shall be in accordance with the Kansas administrative procedures act (KAPA). The director shall consider the evidence presented by the governing body and the licensee at the hearing and determine whether the license shall be denied, revoked, or suspended.

(e) Evidence to be considered in determining whether a license shall be denied, revoked, or suspended shall include the following:

(1) A crime of violence has occurred in, on, or about the premises, arising from conduct occurring within the licensed premises.

(2) The licensed premises and surrounding areas under relative control of the licensee constitute an abnormal and unreasonable drain on public resources to secure the safety of patrons, local residents, and businesses.

(3) The licensed premises, including surrounding areas under relative control of the licensee, constitute a threat to public health, safety, and welfare.

(4) The governing body has filed one or more nuisance actions against the licensee or the licensed premises.

(5) The governing body or licensee has taken all reasonable remedial steps regarding the situation.

(f) For purposes of this regulation, “crime of violence” shall include arson, murder, manslaughter, rape or sexual assault, armed robbery, assault, and battery, and an attempt to commit any of these crimes. (Authorized by and implementing K.S.A. 2009 Supp. 41-2651; effective Sept. 17, 2010.)

14-20-41. Extension of premises. (a) A licensee may permanently or temporarily extend its licensed premises upon written approval by the director.

(b) A licensee shall request the director’s approval to extend its licensed premises in writing at least 10 days before the proposed extension.

(c) Each request shall be accompanied by a diagram of the extended premises, clearly showing the boundaries of the premises, entrances to and exits from the premises, and the area in which the service of alcoholic liquor would take place.

(d) For a temporary extension, the request shall include the dates on which and times during which the premises would be extended. If the licensee does not own or lease the area to be included in the temporarily extended premises, the request shall also include written permission from the governing body, owner, or property manager to extend the licensed premises into that area.

(e) No premises shall be extended permanently into an area for which the licensee does not possess a valid lease or deed.

(f) The boundary of any premises extended beyond the interior of a building shall be marked by a three-dimensional obstacle.

(g) The licensee shall maintain, on the licensed premises, a copy of the diagram showing the extended premises. The copy shall be available for inspection upon request by any law enforcement officer or any officer or agent of the director.

(h) The licensee shall maintain, on the licensed premises, a copy of the director’s written approval to extend the licensed premises. The copy shall be available for inspection upon request by any law enforcement officer or any officer or agent of the director.

(i) No licensee, and no owner, employee, or agent of the licensee, shall allow the serving or consumption of alcoholic liquor on extended premises that have not been approved by the director. (Authorized by K.S.A. 41-2621; implementing K.S.A. 41-2621 and K.S.A. 2009 Supp. 41-2645; effective Sept. 17, 2010.)

14-20-42. Class B clubs; automated devices. (a)(1) “Automated device” shall mean any mechanized device capable of dispensing wine directly to a customer in exchange for compensation that a licensee has received directly from the customer.

(2) “Business day” shall mean the hours authorized by state law during which alcohol can be served on the licensed premises.

(b) No licensee shall allow an automated device to be used on its licensed premises without first providing written or electronic notification to the

director of the licensee's intent to use the automated device. The licensee shall provide this notification at least 48 hours before any automated device is used on the licensed premises.

(c) Each licensee offering customer self-service of wine from any automated device shall provide constant video monitoring of the automated device at all times during which the licensee is open to the public. The licensee shall keep recorded footage from the video monitoring for at least 60 days and shall provide the footage, upon request, to any agent of the director or other authorized law enforcement agent.

(d) The compensation required by subsection (a) shall be in the form of a programmable, prepaid access card containing a fixed amount of monetary credit that may be directly exchanged for wine dispensed from the automated device. Access cards may be sold, used, or reactivated only during a business day.

Each access card shall be purchased from the licensee by a customer. A licensee shall not issue more than one active access card to a customer. For purposes of this regulation, an access card shall be deemed "active" if the access card contains monetary credit or has not yet been used to dispense 15 ounces of wine.

Each purchase of an access card under this regulation shall be subject to the liquor drink tax imposed by K.S.A. 79-41a02, and amendments thereto.

(e) In order to obtain a prepaid access card from a licensee, each customer shall produce a valid driver's license, identification card, or other government-issued document that contains a photograph of the individual and demonstrates that the individual is at least 21 years of age. Each access card shall be programmed to require the production of the customer's valid identification before the access card can be used for the first time during any business day or for any subsequent reactivation as provided in subsection (f). Each access card shall become inactive at the end of each business day.

(f) Each access card shall be programmed to allow the dispensing of no more than 15 ounces of wine to a customer. Once an access card has been used to dispense 15 ounces of wine to a customer, the access card shall become inactive. Any customer in possession of an inactive access card may, upon production of the customer's valid identification to the licensee or licensee's employee, have the access card reactivated to allow the dispensing

of an additional 15 ounces of wine from an automated device.

This subsection shall not apply to wine dispensed by an automated device if the wine is dispensed directly to the licensee or the licensee's agent or employee. (Authorized by K.S.A. 2014 Supp. 41-2640, as amended by 2015 HB 2223, sec. 5; implementing K.S.A. 2014 Supp. 41-2640, as amended by 2015 HB 2223, sec. 5, and K.S.A. 2014 Supp. 79-41a02; effective, T-14-7-1-15, July 1, 2015; effective Oct. 9, 2015.)

Article 21.—DRINKING ESTABLISHMENTS

14-21-12. Storage of liquor; removal from drinking establishment premises.

(a) Each licensee shall store its liquor only on the licensed premises of the drinking establishment unless the licensee has received prior approval in writing from the director to do otherwise.

(b) Any licensee may store wine purchased by a customer only in the unopened original container on the licensed premises, pursuant to K.S.A. 41-2642 and amendments thereto. The licensee shall be responsible for the contents of each customer's wine storage area.

(c) The wine storage area shall be subject to immediate entry and inspection by any law enforcement officer or any officer or agent of the director. Each licensee shall maintain, on the licensed premises, a key or other means to access the contents of the wine storage area.

(d)(1) The licensee may allow a customer to have access to the customer's wine storage area. An agent or employee of the licensee shall accompany each customer to the customer's wine storage area.

(2) A receipt showing the quantity of each brand of wine purchased shall be maintained in each customer's wine storage area. Each time the customer requests the removal of any wine from the storage area, the licensee or its owner, employee, or agent shall mark the receipt showing the date of removal and the quantity of each brand removed.

(e) No licensee, and no owner, employee, or agent of the licensee, shall make any sales of alcoholic liquor for consumption off the licensed premises. No alcoholic liquor purchased on the drinking establishment premises shall be removed from the drinking establishment premises, except in accordance with this regulation.

(f)(1) A licensee may permit its customers to remove partially consumed bottles of wine from the licensed premises, in accordance with K.S.A. 41-2653 and amendments thereto.

(2) If any customer wishes to remove from the licensed premises a partially consumed bottle of wine that had been stored in its original unopened container pursuant to K.S.A. 41-2642 and amendments thereto and this regulation, the licensee or its employee shall provide the customer with a copy of the original receipt with a notation that the bottle was removed from the customer's wine storage area on that date.

(g) Any licensee that has extended its licensed premises onto the premises of a special event, as defined by K.S.A. 41-719 and amendments thereto, for which a temporary permit has been issued may allow customers to remove alcoholic liquor from the licensed premises onto the special event premises. Each licensee that extends its licensed premises onto the special event premises shall be liable for any violation of the club and drinking establishment act or these regulations occurring on the special event premises. (Authorized by K.S.A. 41-2634; implementing K.S.A. 41-2613, K.S.A. 2009 Supp. 41-2642, and K.S.A. 2009 Supp. 41-2653; effective, T-88-22, July 1, 1987; effective May 1, 1988; amended Sept. 17, 2010.)

14-21-21. Extension of premises. (a) A licensee may permanently or temporarily extend its licensed premises upon written approval by the director.

(b) A licensee shall request the director's approval to extend its licensed premises in writing at least 10 days before the proposed extension.

(c) Each request shall be accompanied by a diagram of the extended premises, clearly showing the boundaries of the premises, entrances to and exits from the premises, and the area in which the service of alcoholic liquor would take place.

(d) For a temporary extension, the request shall include the dates on which and times during which the premises would be extended.

(e) If the licensee does not own or lease the area to be included in the temporarily extended premises, the request shall also include written permission from the governing body, owner, or property manager to extend the licensed premises into that area, unless the licensee is requesting an extension into a special event as defined by K.S.A. 41-719 and amendments thereto.

(f) No premises shall be extended permanently into an area for which the licensee does not possess a valid lease or deed.

(g) The boundary of any premises extended beyond the interior of a building shall be marked by a three-dimensional obstacle.

(h) The licensee shall maintain, on the licensed premises, a copy of the diagram showing the extended premises. The copy shall be available for inspection upon request by any law enforcement officer or any officer or agent of the director.

(i) The licensee shall maintain, on the licensed premises, a copy of the director's written approval to extend the licensed premises. The copy shall be available for inspection upon request by any law enforcement officer or any officer or agent of the director.

(j) Each licensee who elects to extend its premises into a special event, as defined by K.S.A. 41-719 and amendments thereto, for which a temporary permit has been issued shall post a copy of the director's written approval to extend the premises at each entrance to the special event area and at each entrance to the drinking establishment.

(k) No licensee, and no owner, employee, or agent of the licensee, shall allow the serving or consumption of alcoholic liquor on extended premises that have not been approved by the director. (Authorized by K.S.A. 41-2621; implementing K.S.A. 41-2621 and K.S.A. 2009 Supp. 41-2645; effective Sept. 17, 2010.)

14-21-22. Denial, revocation, or suspension of license upon request for hearing by governing body of city or county; request; evidence. (a) The governing body of a city or county may request a hearing before the director to determine whether an application for licensure or renewal shall be denied or whether a license issued under the club and drinking establishment act shall be revoked or suspended.

(b) The request shall be submitted in writing by the governing body, on city or county letterhead, to the director and shall be accompanied by evidence that indicates reasonable cause exists to conduct a hearing to deny, revoke, or suspend the license.

(c) The director shall review the evidence presented and determine whether reasonable cause exists to conduct a hearing to deny, revoke, or suspend the license. The director shall notify the governing body of the date and time of the hearing, or denial of the request, in writing as soon as reasonably possible.

(d) The hearing and notices shall be in accordance with the Kansas administrative procedures act (KAPA). The director shall consider the evidence presented by the governing body and the licensee at the hearing and determine whether the license shall be denied, revoked, or suspended.

(e) Evidence to be considered in determining whether a license shall be denied, revoked, or suspended shall include the following:

(1) A crime of violence has occurred in, on, or about the premises, arising from conduct occurring within the licensed premises.

(2) The licensed premises and surrounding areas under relative control of the licensee constitute an abnormal and unreasonable drain on public resources to secure the safety of patrons, local residents, and businesses.

(3) The licensed premises, including surrounding areas under relative control of the licensee, constitute a threat to public health, safety, and welfare.

(4) The governing body has filed one or more nuisance actions against the licensee or the licensed premises.

(5) The governing body or licensee has taken all reasonable remedial steps regarding the situation.

(f) For purposes of this regulation, “crime of violence” shall include arson, murder, manslaughter, rape or sexual assault, armed robbery, assault, and battery, and an attempt to commit any of these crimes. (Authorized by and implementing K.S.A. 2009 Supp. 41-2651; effective Sept. 17, 2010.)

14-21-23. Drinking establishments; automated devices. (a)(1) “Automated device” shall mean any mechanized device capable of dispensing wine directly to a customer in exchange for compensation that a licensee has received directly from the customer.

(2) “Business day” shall mean the hours authorized by state law during which alcohol can be served on the licensed premises.

(b) No licensee shall allow an automated device to be used on its licensed premises without first providing written or electronic notification to the director of the licensee’s intent to use the automated device. The licensee shall provide this notification at least 48 hours before any automated device is used on the licensed premises.

(c) Each licensee offering customer self-service of wine from any automated device shall provide constant video monitoring of the automated device at all times during which the licensee is open

to the public. The licensee shall keep recorded footage from the video monitoring for at least 60 days and shall provide the footage, upon request, to any agent of the director or other authorized law enforcement agent.

(d) The compensation required by subsection (a) shall be in the form of a programmable, prepaid access card containing a fixed amount of monetary credit that may be directly exchanged for wine dispensed from the automated device. Access cards may be sold, used, or reactivated only during a business day.

Each access card shall be purchased from the licensee by a customer. A licensee shall not issue more than one active access card to a customer. For purposes of this regulation, an access card shall be deemed “active” if the access card contains monetary credit or has not yet been used to dispense 15 ounces of wine.

Each purchase of an access card under this regulation shall be subject to the liquor drink tax imposed by K.S.A. 79-41a02, and amendments thereto.

(e) In order to obtain a prepaid access card from a licensee, each customer shall produce a valid driver’s license, identification card, or other government-issued document that contains a photograph of the individual and demonstrates that the individual is at least 21 years of age. Each access card shall be programmed to require the production of the customer’s valid identification before the access card can be used for the first time during any business day or for any subsequent reactivation as provided in subsection (f). Each access card shall become inactive at the end of each business day.

(f) Each access card shall be programmed to allow the dispensing of no more than 15 ounces of wine to a customer. Once an access card has been used to dispense 15 ounces of wine to a customer, the access card shall become inactive. Any customer in possession of an inactive access card may, upon production of the customer’s valid identification to the licensee or licensee’s employee, have the access card reactivated to allow the dispensing of an additional 15 ounces of wine from an automated device.

This subsection shall not apply to wine dispensed by an automated device if the wine is dispensed directly to the licensee or the licensee’s agent or employee. (Authorized by K.S.A. 2014 Supp. 41-2640, as amended by 2015 HB 2223, sec. 5; implementing K.S.A. 2014 Supp. 41-2640,

as amended by 2015 HB 2223, sec. 5, and K.S.A. 2014 Supp. 79-41a02; effective, T-14-7-1-15, July 1, 2015; effective Oct. 9, 2015.)

Article 23.—TEMPORARY PERMITS

14-23-2. Applications; documents required. (a) Each application for a temporary permit shall be submitted upon forms prescribed by the director and shall contain all information the director deems necessary. Any application that does not contain all required information may be returned to the applicant.

(b) Each application shall be accompanied by the permit fee.

(c) Each application shall be accompanied by a diagram of the premises covered by the temporary permit. The diagram shall clearly show the boundaries of the premises, entrances to and exits from the premises, and the area in which the service of alcoholic liquor would take place. (Authorized by K.S.A. 41-2634; implementing K.S.A. 2009 Supp. 41-2645; effective, T-88-22, July 1, 1987; effective May 1, 1988; amended Sept. 17, 2010.)

14-23-5. Events; filings; notice; prohibitions. (a) Each temporary permit holder shall be allowed to offer for sale, sell, and serve alcoholic liquor for consumption at an event in accordance with the club and drinking establishment act and these regulations. Each temporary permit holder shall be allowed to sell wine in the unopened, original container at the state fair.

(b) Each temporary permit holder shall prominently display at each event upon a poster or other device located at the entrance to the permitted premises all of the following:

- (1) The temporary permit;
- (2) the name of the agent of the organization who is in charge of the event;
- (3) a diagram of the premises covered by the temporary permit, clearly showing the boundaries of the premises, entrances to and exits from the premises, and the area in which the service of alcoholic liquor will take place; and

(4) for a special event, as defined by K.S.A. 41-719 and amendments thereto, the business names of all drinking establishments that have elected to extend their licensed premises into the event area.

(c) A temporary permit holder shall not perform any of the following:

- (1) Conduct an event upon licensed premises;
- (2) conduct an event lasting longer than three days, except that the holder of the temporary per-

mit for the state fair may conduct an event for the duration of the state fair;

(3) deny access to an event to any law enforcement officer;

(4) sell or serve alcoholic liquor between the hours of 2:00 A.M. and 9:00 A.M.;

(5) sell cereal malt beverages at an event;

(6) make any sales of alcoholic liquor at an event for consumption off the permitted premises, except as provided in this regulation; or

(7) refill any original container with alcoholic liquor or any other substance.

(d)(1) An individual permit holder shall be present at all times during an event or designate another individual who will be responsible for the conduct of the event in the permit holder's absence.

(2) An organization that is a permit holder shall designate one or more agents who shall be present at all times during an event and who shall be responsible for the conduct of the event. (Authorized by K.S.A. 41-2634; implementing K.S.A. 2009 Supp. 41-2645; effective, T-88-22, July 1, 1987; effective May 1, 1988; amended Sept. 17, 2010.)

14-23-8. Purchase of alcoholic liquor; requirements and restrictions. (a) Each temporary permit holder shall purchase alcoholic liquor only from a retailer or a farm winery.

(b) Temporary permit holders shall not receive delivery of alcoholic liquor from a retailer or a farm winery.

(c) Temporary permit holders shall not purchase alcoholic liquor from any retail liquor licensee who does not possess a federal wholesaler's basic permit and who does not have on display at the retail establishment a sign that states that the licensee is a "Wholesale Liquor Dealer Under Federal Law." Temporary permit holders shall not warehouse any liquor on the premises of any retail liquor store or farm winery. All liquor purchased on any one day shall be picked up at the retail liquor store or farm winery on that same day.

(d) Each temporary permit holder, when making alcoholic liquor purchases from a retailer or farm winery, shall obtain and keep for at least one year from the date of purchase a sales slip that contains the following information:

- (1) The date of purchase;
- (2) the name and address of the retailer or farm winery;

(3) the name and address of the permit holder as it appears on the permit;

(4) the brand, size, proof, and amount of all alcoholic liquor purchased; and

(5) the subtotal of the cost of the alcoholic liquor and the total cost of the order, including enforcement tax. (Authorized by K.S.A. 41-210, K.S.A. 41-211, K.S.A. 41-2634, and K.S.A. 2009 Supp. 41-2645; implementing K.S.A. 2009 Supp. 41-2645 and K.S.A. 2009 Supp. 79-41a03; effective, T-88-22, July 1, 1987; effective May 1, 1988; amended Sept. 17, 2010.)

14-23-10. Removal of liquor from event premises prohibited; boundary requirement.

(a) No permit holder shall sell alcoholic liquor for removal from or consumption off the licensed premises, except that liquor may be removed to a drinking establishment that has extended its premises into the special event area in accordance with K.S.A. 41-2645 and amendments thereto.

(b) The boundary of any premises covered by a temporary permit shall be marked by a three-dimensional obstacle. (Authorized by K.S.A. 41-2634; implementing K.S.A. 41-2604 and K.S.A. 2009 Supp. 41-2645; effective, T-88-22, July 1, 1987; effective May 1, 1988; amended Sept. 17, 2010.)

Article 24.—WINERY SHIPPING PERMITS

14-24-1. (Authorized by and implementing K.S.A. 2006 Supp. 41-348 and 41-349; effective Dec. 28, 2007; revoked Sept. 17, 2010.)

14-24-2. (Authorized by and implementing K.S.A. 2006 Supp. 41-348 and 41-349; effective Dec. 28, 2007; revoked Sept. 17, 2010.)

14-24-3. (Authorized by and implementing K.S.A. 2006 Supp. 41-348 and 41-349; effective Dec. 28, 2007; revoked Sept. 17, 2010.)

14-24-4. (Authorized by and implementing K.S.A. 2006 Supp. 41-348 and 41-349; effective Dec. 28, 2007; revoked Sept. 17, 2010.)

14-24-5. (Authorized by and implementing K.S.A. 2006 Supp. 41-348 and 41-349; effective Dec. 28, 2007; revoked Sept. 17, 2010.)

14-24-6. (Authorized by and implementing K.S.A. 2006 Supp. 41-348 and 41-349; effective Dec. 28, 2007; revoked Sept. 17, 2010.)

Article 25.—OFF-PREMISES CEREAL MALT BEVERAGE RETAILERS

14-25-1. Definitions. As used in this article of the division's regulations, unless the context clearly requires otherwise, each of the following terms shall have the meaning specified in this regulation:

(a) "Alcoholic liquor" has the meaning specified in K.S.A. 41-102, and amendments thereto.

(b) "Beer" has the meaning specified in K.S.A. 41-102, and amendments thereto.

(c) "Cereal malt beverage" has the meaning specified in K.S.A. 41-2701, and amendments thereto.

(d) "Director" means the director of the division of alcoholic beverage control in the department of revenue.

(e) "Distributor" has the meaning specified in K.S.A. 41-102, and amendments thereto.

(f) "Inventory" means a retailer's entire or partial stock of cereal malt beverage or beer containing not more than six percent alcohol by volume.

(g) "Licensed premises" means those areas described in an application for a retailer's license that are under the control of the applicant and are intended as the area in which cereal malt beverage or beer containing not more than six percent alcohol by volume is to be sold for consumption off the licensed premises or stored for later sale.

(h) "Person" means any natural person, corporation, partnership, trust, or association.

(i) "Retailer" means any person who is licensed under the Kansas cereal malt beverage act and who sells or offers for sale any cereal malt beverage or beer containing not more than six percent alcohol by volume for use or consumption off the licensed premises. (Authorized by and implementing K.S.A. 2017 Supp. 41-212; effective June 7, 2018.)

14-25-2. Trade practices; applicability.

(a) Each action taken by an industry member or retailer in accordance with interpretive memoranda issued by the alcohol and tobacco tax and trade bureau of the department of the treasury shall be considered good faith compliance with this article of the division's regulations, unless the director has issued a contrary interpretation pertaining to the subject of the memoranda.

(b) The trade practice regulations of the alcohol and tobacco tax and trade bureau of the department of the treasury, as adopted by reference in

K.A.R. 14-10-17, shall apply to each retailer, as defined in K.A.R. 14-25-1. (Authorized by and implementing K.S.A. 2017 Supp. 41-212; effective June 7, 2018.)

14-25-3. Retailer's responsibility for conduct of business and employees. Each retailer shall be responsible for the conduct of the retailer's business. Each retailer shall be responsible for all violations of the cereal malt beverage act and this article of the division's regulations by any person selling cereal malt beverage or beer containing not more than six percent alcohol by volume. (Authorized by and implementing K.S.A. 2017 Supp. 41-212; effective June 7, 2018.)

14-25-4. Recordkeeping. (a) Each retailer purchasing cereal malt beverage or beer containing not more than six percent alcohol by volume from a licensed distributor shall obtain a numbered invoice or purchase order that contains the following information:

- (1) The date of purchase;
- (2) the name, address, and license number of the retailer;
- (3) the name, address, and license number of the distributor;
- (4) the name of the individual making the purchase for the retailer;
- (5) the brand, size, and amount of each brand purchased;
- (6) the unit cost and total price for each brand and size; and
- (7) the subtotal of the cost of the cereal malt beverage or beer containing not more than six percent alcohol by volume purchased and the total cost of the order including delivery charge, if any.

(b) The retailer shall keep a copy of each sales receipt involving the sale of cereal malt beverage or beer containing not more than six percent alcohol by volume made to a customer.

(c) The retailer shall keep a copy of each invoice, purchase order, or sales receipt involving sales made to customers required by this regulation for at least three years from the date on which the cereal malt beverage or beer containing not more than six percent alcohol by volume was sold.

(d) The retailer shall keep a copy of the diagram of the licensed premises, as submitted with the initial application, on the licensed premises and shall make a copy available for inspection upon request.

(e) The records required by this regulation shall be available for inspection by the director, any agent or employee of the director, the secretary, or any law enforcement officer upon request.

(1) Each record required by this regulation shall be maintained on the retailer's licensed premises for at least 90 days after the sale. These records may be maintained in electronic format and shall be capable of being printed immediately upon request.

(2) After 90 days, all records required by this regulation may be stored and maintained off the licensed premises and shall be provided in electronic or paper format within seven business days upon request. (Authorized by and implementing K.S.A. 2017 Supp. 41-212; effective June 7, 2018.)

14-25-5. Transfer of retailer's inventory; application for permission; seizure and sale of abandoned inventory.

(a) If a retailer's license has expired or been surrendered or revoked, that retailer may apply to the director for permission to transfer the retailer's inventory to another active licensee.

(b) The application to transfer the retailer's inventory shall be submitted on forms prescribed by the director and shall contain the following:

- (1) The retailer's name and license number;
- (2) the purchaser's name and license number;
- (3) the gross sale price of the transferred inventory; and
- (4) the quantity, brand, and type of each container or package of cereal malt beverage or beer containing not more than six percent alcohol by volume to be transferred.

(c) No cereal malt beverage or beer containing not more than six percent alcohol by volume in the possession of a retailer shall be transferred under the provisions of subsection (a) unless the director has granted written permission.

(d) The director may deny an application to transfer inventory under the provisions of subsection (a) if the selling retailer owes either of the following:

- (1) Any applicable tax; or
- (2) any fines imposed pursuant to applicable law.

(e) The director or any employee or agent of the director may seize and sell any inventory located on the premises subject to a retailer's license if the director determines that the inventory has been abandoned by the licensee. The director may consider any of the following criteria in making a determination that the inventory has been abandoned:

(1) The licensee no longer occupies the building and has left inventory in the building.

(2) The licensee has been evicted and has made no attempt to collect the inventory.

(3) Attempts to contact the licensee to determine the licensee's plans for the inventory have been unsuccessful.

(4) The presence of the inventory in the building poses a threat to the public health, safety, and welfare or to the orderly regulation of the market.

(f) Upon the director's determination that the inventory has been abandoned, the director shall notify the retailer, in writing, of the director's intent to seize and sell the inventory. If, within seven calendar days after the date of the director's notice, the retailer has not notified the director that the retailer intends to maintain possession of the inventory, the director may seize and sell the inventory.

(g) The proceeds from the sale of any inventory specified in subsection (e) shall be deposited into the state general fund. (Authorized by and implementing K.S.A. 2017 Supp. 41-212; effective June 7, 2018.)

14-25-6. Prohibited conduct of retailer.

(a) A retailer shall not permit gambling or the possession of any gambling or gaming device on the licensed premises.

(b) A retailer shall not, as a condition for the sale of cereal malt beverage or beer containing not more than six percent alcohol by volume to a customer, require that the customer purchase or contract to purchase cereal malt beverage or beer containing not more than six percent alcohol by volume of another form, quantity, or brand in addition to or partially in lieu of that specifically desired by the customer.

(c) A retailer shall not sell or deliver cereal malt beverage or beer containing not more than six percent alcohol by volume of a particular form or brand to a customer under any arrangement, agreement, or understanding, direct or implied, such that the sale will be made only if the customer also buys a quantity of cereal malt beverage or beer containing not more than six percent alcohol by volume of another form or brand.

(d) A retailer shall not refuse to permit the director, any agent or employee of the director, or any law enforcement officer to inspect the licensed premises and any cereal malt beverage or beer containing not more than six percent alcohol by volume in the retailer's possession or under the

retailer's control upon the licensed premises or upon any other premises where the retailer has stored any cereal malt beverage or beer containing not more than six percent alcohol by volume.

(e) A retailer shall not make any false or misleading representations with respect to any cereal malt beverage or beer containing not more than six percent alcohol by volume on the licensed premises or in connection with a sales transaction relating to brand, type, proof, or age of any cereal malt beverage or beer containing not more than six percent alcohol by volume. A retailer shall not deceive or attempt to deceive a customer by removing or changing any label or sanitation cover from a container or package of cereal malt beverage or beer containing not more than six percent alcohol by volume.

(f) A retailer shall not sell or remove any cereal malt beverage or beer containing not more than six percent alcohol by volume from the licensed premises on any day other than a legal day for the sale of cereal malt beverage or beer containing not more than six percent alcohol by volume at retail, after the legal closing hour or before the legal opening hour.

(g) A retailer shall not, directly or indirectly, offer or furnish any gifts, prizes, premiums, rebates, or similar inducements with the sale of any cereal malt beverage or beer containing not more than six percent alcohol by volume, nor shall any retailer directly or indirectly offer, furnish, or sell any cereal malt beverage or beer containing not more than six percent alcohol by volume at less than its cost plus applicable tax, except according to the following:

(1) Any retailer may include in the sale of cereal malt beverage or beer containing not more than six percent alcohol by volume any goods included by the manufacturer in packaging with the cereal malt beverage or beer containing not more than six percent alcohol by volume. Goods included by the manufacturer shall be packaged with one or more original packages of cereal malt beverage or beer containing not more than six percent alcohol by volume in such a manner as to be delivered to the consumer as a single unit. A retailer shall not sell or give away goods included by a manufacturer that are not packaged as a single unit with the original package of cereal malt beverage or beer containing not more than six percent alcohol by volume as shipped by the manufacturer.

(2) Any retailer may distribute consumer advertising specialty items, subject to the limitations

imposed by this regulation. For the purposes of this regulation, consumer advertising specialty items shall be limited to the following: ashtrays, bottle or can openers, corkscrews, matches, printed recipes, informational pamphlets, cards and leaflets, blotters, postcards, posters, printed sports schedules, pens, pencils, and other items of minimal value as approved by the director. Each consumer advertising specialty item shall contain advertising material relating to a brand name of cereal malt beverage or beer containing not more than six percent alcohol by volume or to the operation of the retailer distributing the consumer advertising specialty item. No charge may be made for any consumer advertising specialty item or any purchase required in order to receive any consumer advertising specialty item.

(h) A retailer shall not open or permit to be opened, on the licensed premises, any container or original package containing cereal malt beverage or beer containing not more than six percent alcohol by volume, unless the retailer is also licensed as an on-premises retailer.

(i) A retailer shall not permit the drinking of alcoholic liquors or cereal malt beverage on or about the licensed premises, unless the retailer is also licensed as an on-premises retailer.

(j) A retailer shall not allow an intoxicated person to frequent, loiter, or be employed upon the licensed premises. A retailer's employee shall not be intoxicated while on duty for the retailer.

(k) A retailer shall not accept or receive from any agent or employee of any licensed distributor any cash rebate or thing of value, or enter into or be a party to any agreement or transaction with any licensed distributor, directly or indirectly, that would result in, or have as its purpose, the purchase of any cereal malt beverage or beer containing not more than six percent alcohol by volume by the retailer at a price less than the listed price that has been filed by the distributor in the office of the director.

(l) A retailer shall not sell, give, or deliver any cereal malt beverage or beer containing not more than six percent alcohol by volume to any person under 21 years of age. A retailer shall not sell, give, or deliver any cereal malt beverage or beer containing not more than six percent alcohol by volume to any person if the retailer knows or has reason to know that the cereal malt beverage or beer containing not more than six percent alcohol by volume is being obtained for a person under 21 years of age.

(m) A retailer shall not purchase or sell any cereal malt beverage or beer containing not more than six percent alcohol by volume on credit. A retailer shall not enter into any transaction or scheme the purpose of which is to buy or sell cereal malt beverage or beer containing not more than six percent alcohol by volume on credit. The following transactions shall be considered to be buying or selling cereal malt beverage or beer containing not more than six percent alcohol by volume on credit:

- (1) Taking or giving a postdated check;
- (2) giving an insufficient funds check;
- (3) taking a check with knowledge that there are insufficient funds to pay the check upon presentment;

(4) accepting delivery from a distributor without making payment for the cereal malt beverage or beer containing not more than six percent alcohol by volume when delivered or before delivery; and

(5) allowing any cereal malt beverage or beer containing not more than six percent alcohol by volume to be removed from the licensed premises without receiving payment for the cereal malt beverage or beer containing not more than six percent alcohol by volume.

(n) A retailer shall not fail to make the reports or keep the records required by this article of the division's regulations.

(o) A retailer shall not refill a package of cereal malt beverage or beer containing not more than six percent alcohol by volume and shall not sell cereal malt beverage or beer containing not more than six percent alcohol by volume in anything other than the original package. (Authorized by and implementing K.S.A. 2017 Supp. 41-212; effective June 7, 2018.)

Article 26.—ON-PREMISES CEREAL MALT BEVERAGE RETAILERS

14-26-1. Definitions. As used in this article of the division's regulations, unless the context clearly requires otherwise, each of the following terms shall have the meaning specified in this regulation:

(a) "Alcoholic liquor" has the meaning specified in K.S.A. 41-102, and amendments thereto.

(b) "Beer" has the meaning specified in K.S.A. 41-102, and amendments thereto.

(c) "Cereal malt beverage" has the meaning specified in K.S.A. 41-2701, and amendments thereto.

(d) “Director” means the director of the division of alcoholic beverage control in the department of revenue.

(e) “Distributor” has the meaning specified in K.S.A. 41-102, and amendments thereto.

(f) “Food establishment” has the meaning specified in K.S.A. 65-656, and amendments thereto.

(g) “Inventory” means a retailer’s entire or partial stock of cereal malt beverage or beer containing not more than six percent alcohol by volume.

(h) “Licensed premises” means those areas described in an application for a cereal malt beverage retailer license issued pursuant to K.S.A. 41-2702, and amendments thereto, that are under the control of the applicant and that are intended as the area in which cereal malt beverage or beer containing not more than six percent alcohol by volume is to be served pursuant to the applicant’s license.

(i) “Person” means any natural person, corporation, partnership, trust, or association.

(j) “Retailer” means any person who is licensed under the Kansas cereal malt beverage act and who sells or offers for sale any cereal malt beverage or beer containing not more than six percent alcohol by volume for use or consumption on the licensed premises. For the purposes of this article of the division’s regulations, this term shall not include any cereal malt beverage retailer also licensed as a drinking establishment, pursuant to the Kansas club and drinking establishment act. (Authorized by and implementing K.S.A. 2017 Supp. 41-212; effective June 7, 2018.)

14-26-2. Trade practices; applicability.

(a) Each action taken by an industry member or retailer in accordance with interpretive memoranda issued by the alcohol and tobacco tax and trade bureau of the department of the treasury shall be considered good faith compliance with this article of the division’s regulations, unless the director has issued a contrary interpretation pertaining to the subject of the memoranda.

(b) The trade practice regulations of the alcohol and tobacco tax and trade bureau of the department of the treasury, as adopted by reference in K.A.R. 14-10-17, shall apply to each retailer, as defined in K.A.R. 14-26-1. (Authorized by and implementing K.S.A. 2017 Supp. 41-212; effective June 7, 2018.)

14-26-3. Retailer’s responsibility for conduct of business and employees. Each retailer shall be responsible for the conduct of the retail-

er’s business. Each retailer shall be responsible for all violations of the cereal malt beverage act and this article of the division’s regulations by the following people while on the licensed premises:

(a) Any employee of the retailer;

(b) the employee of any person contracting with the retailer to provide services or food; and

(c) any individual mixing, serving, selling, or dispensing cereal malt beverage or beer containing not more than six percent alcohol by volume. (Authorized by and implementing K.S.A. 2017 Supp. 41-212; effective June 7, 2018.)

14-26-4. Refusal of right to enter or inspect licensed premises prohibited. No retailer shall refuse to permit the director, any agent or employee of the director, or any law enforcement officer to perform the following:

(a) Enter or inspect the licensed premises; and

(b) inspect any cereal malt beverage or beer containing not more than six percent alcohol by volume in the retailer’s possession or under the retailer’s control on the licensed premises or on any other premises where the retailer has stored any cereal malt beverage or beer containing not more than six percent alcohol by volume. (Authorized by and implementing K.S.A. 2017 Supp. 41-212; effective June 7, 2018.)

14-26-5. Minimum prices for drinks; acquisition cost. (a) A retailer shall not sell any drink to any person for less than the acquisition cost of that drink to the retailer.

(b) In determining the minimum price of each drink, a retailer shall not include any applicable tax. All tax shall be collected in addition to the minimum price for the drink itself.

(c) The cost of each of the following items shall be included in the acquisition cost of each drink:

(1) All cereal malt beverage or beer containing not more than six percent alcohol by volume; and

(2) any nonalcoholic liquid. (Authorized by and implementing K.S.A. 2017 Supp. 41-212; effective June 7, 2018.)

14-26-6. Recordkeeping. (a) Each retailer purchasing cereal malt beverage or beer containing not more than six percent alcohol by volume from a licensed distributor shall obtain a numbered invoice or purchase order that contains the following information:

(1) The date of purchase;

(2) the name, address, and license number of the retailer;

(3) the name, address, and license number of the distributor;

(4) the name of the individual making the purchase for the retailer;

(5) the brand, size, and amount of each brand purchased;

(6) the unit cost and total price for each brand and size; and

(7) the subtotal of the cost of the cereal malt beverage or beer containing not more than six percent alcohol by volume purchased and the total cost of the order including delivery charge, if any.

(b) The retailer shall keep a copy of each sales receipt for the sale of cereal malt beverage or beer containing not more than six percent alcohol by volume made to a customer.

(c) The retailer shall keep a copy of each invoice, purchase order, or sales ticket required by this regulation for at least three years from the date on which the cereal malt beverage or beer containing not more than six percent alcohol by volume was sold.

(d) The retailer shall keep a copy of the diagram of the licensed premises, as submitted with the initial application, on the licensed premises and shall make a copy available for inspection upon request.

(e) The records required by this regulation shall be available for inspection by the director, any agent or employee of the director, the secretary, or any law enforcement officer upon request.

(1) Each record required by this regulation shall be maintained on the retailer's licensed premises for at least 90 days after the sale. These records may be maintained in electronic format and shall be capable of being printed immediately upon request.

(2) After 90 days, all records required by this regulation may be stored and maintained off the licensed premises and shall be provided in electronic or paper format within seven business days upon request. (Authorized by and implementing K.S.A. 2017 Supp. 41-212; effective June 7, 2018.)

14-26-7. Storage of cereal malt beverage or beer containing not more than six percent alcohol by volume; removal from licensed premises. (a) Each retailer shall store its cereal malt beverage and beer containing not more than six percent alcohol by volume only on the licensed premises of the retailer, unless the retailer has received prior approval in writing from the director to do otherwise.

(b) No retailer, and no owner, employee, or agent of the retailer, shall sell any cereal malt beverage or beer containing not more than six percent alcohol by volume for consumption off the licensed premises, unless the retailer also has a valid license to sell or offer for sale cereal malt beverage and beer containing not more than six percent alcohol by volume for consumption off the licensed premises.

(c) No cereal malt beverage or beer containing not more than six percent alcohol by volume that has been purchased on the licensed premises and has been opened and sold for consumption on the licensed premises shall be removed from the licensed premises. (Authorized by and implementing K.S.A. 2017 Supp. 41-212; effective June 7, 2018.)

14-26-8. Transfer of retailer's inventory; application for permission; seizure and sale of abandoned inventory. (a) If a retailer's license has expired or been surrendered or revoked, that retailer may apply to the director for permission to transfer the retailer's inventory to another licensee.

(b) The application to transfer the retailer's inventory shall be submitted on forms prescribed by the director and shall contain the following:

- (1) The retailer's name and license number;
- (2) the purchaser's name and license number;
- (3) the gross sale price of the transferred inventory; and

(4) the quantity, brand, and type of each container or package of cereal malt beverage or beer containing not more than six percent alcohol by volume to be transferred.

(c) No cereal malt beverage or beer containing not more than six percent alcohol by volume in the possession of a retailer shall be transferred under the provisions of subsection (a) unless the director has granted written permission.

(d) The director may deny an application to transfer inventory under the provisions of subsection (a) if the retailer owes either of the following:

- (1) Any applicable tax; or
- (2) any fines imposed pursuant to applicable law.

(e) The director or any employee or agent of the director may seize and sell any inventory located on the premises subject to a retailer's license if the director determines that the inventory has been abandoned by the licensee. The director may consider any of the following criteria in making a determination that the inventory has been abandoned:

(1) The licensee no longer occupies the building and has left inventory in the building.

(2) The licensee has been evicted and has made no attempt to collect the inventory.

(3) Attempts to contact the licensee to determine the licensee's plans for the inventory have been unsuccessful.

(4) The presence of the inventory in the building poses a threat to the public health, safety, and welfare or to the orderly regulation of the market.

(f) Upon the director's determination that the inventory has been abandoned, the director shall

notify the retailer, in writing, of the director's intent to seize and sell the inventory. If, within seven calendar days after the date of the director's notice, the retailer has not notified the director that the retailer intends to maintain possession of the inventory, the director may seize and sell the inventory.

(g) The proceeds from the sale of any inventory specified in subsection (e) shall be deposited into the state general fund. (Authorized by and implementing K.S.A. 2017 Supp. 41-212; effective June 7, 2018.)

Article 8.—ROOFING CONTRACTORS

16-8-1. Definitions. For the purpose of the act and this article, each of the following terms shall have the meaning specified in this regulation:

(a) “Act” means Kansas roofing registration act.

(b) “Applicant” means a person applying for an initial registration certificate or the renewal or re-instatement of a registration certificate.

(c) “Conviction” shall include the following, whether the penalty has been imposed, reduced, or suspended, unless the conviction has been legally expunged:

- (1) An unvacated adjudication of guilt;
- (2) a plea of guilty or nolo contendere accepted by the court; and
- (3) a deferred judgment, diversion, or probation agreement.

(d) “Direct supervision” means that the registered roofing contractor is overseeing the person being supervised and is physically present at the work site.

(e) “Roofing material” shall include cedar, cement, metal, and composition shingles; wood shakes; cement and clay tile; built-up roofing; single-ply roofing materials; fluid-type roofing systems; spray urethane foam; asphalt; protective or reflective materials; deck coatings; sheet metal; and tar.

(f) “Roofing services” shall include the following services on any type of roof:

- (1) Installation or repair of any roofing material;
- (2) installation or repair of roof sheathing;

(3) installation, application, or repair of roof dampproofing or weatherproofing, roof insulation panels, or other roof insulation systems, including work incidental to the installation or application;

(4) repair of structural damage to an existing roof-support system; and

(5) installation or repair of skylights.

(g) “Valid registration certificate” means a roofing contractor registration certificate issued by the attorney general that has not been suspended or revoked. (Authorized by K.S.A. 2013 Supp. 50-6,124; implementing K.S.A. 2013 Supp. 50-6,122 and 50-6,124; effective, T-16-6-28-13, July 1, 2013; effective Oct. 25, 2013.)

16-8-2. Initial application. Each person seeking an initial registration certificate shall submit an application that includes the following:

(a) An initial application form provided by the attorney general and fully completed by the applicant;

(b)(1) If the applicant is a natural person, a copy of a current state or federal government-issued photographic identification that demonstrates that the applicant is at least 18 years old; or

(2) if the applicant is a business entity, a copy of a current state or federal government-issued photograph identification for each designated agent who will act as a roofing contractor for the entity that demonstrates that each designated agent is at least 18 years old;

(c) a copy of the applicant's current and valid certificate of liability insurance in an amount of

at least \$500,000 from an insurance company authorized by the Kansas insurance department to do business in Kansas or a nonadmitted insurer eligible to write excess coverage on Kansas risks as permitted by Kansas law;

(d) a copy of the applicant's current and valid certificate of workers' compensation insurance under the Kansas workers' compensation act, an affidavit of exemption, or a copy of a valid self-insurance permit issued by the Kansas department of labor;

(e) a current and valid tax clearance certificate from the Kansas department of revenue;

(f) if the applicant is a nonresident contractor, a current and valid appointment of the Kansas secretary of state as legal agent for service of process;

(g) payment of the initial registration certificate fee specified K.A.R. 16-8-6; and

(h) if the applicant holds or has held a registration, certificate, permit, or license as a roofing contractor issued by any other state, current and certified documentation from the appropriate state agency in each such state showing whether the applicant is in good standing, has pending disciplinary proceedings, or has had disciplinary action taken against the registration, certificate, permit, or license. (Authorized by K.S.A. 2013 Supp. 50-6,124; implementing K.S.A. 2013 50-6,125; effective, T-16-6-28-13, July 1, 2013; effective Oct. 25, 2013.)

16-8-3. Renewal application. Each person seeking renewal of a registration certificate shall submit a renewal application that includes the following:

(a) A renewal form provided by the attorney general and fully completed by the applicant;

(b) a copy of the applicant's current and valid certificate of liability insurance in an amount of at least \$500,000 from an insurance company authorized by the Kansas insurance department to do business in Kansas or a nonadmitted insurer eligible to write excess coverage on Kansas risks as permitted by Kansas law;

(c) a copy of the applicant's current and valid certificate of workers' compensation insurance under the Kansas workers' compensation act, an affidavit of exemption, or a copy of a valid self-insurance permit issued by the Kansas department of labor;

(d) a current and valid tax clearance certificate from the Kansas department of revenue;

(e) payment of the applicable fee or fees specified in K.A.R. 16-8-6; and

(f) if the applicant holds or has held a registration, certificate, permit, or license as a roofing contractor issued by any other state, current and certified documentation from the appropriate state agency in each such state showing whether applicant is in good standing, has pending disciplinary proceedings, or has had disciplinary action taken against the registration, certificate, permit, or license. (Authorized by K.S.A. 2013 Supp. 50-6,124; implementing K.S.A. 2013 Supp. 50-6,132; effective, T-16-6-28-13, July 1, 2013; effective Oct. 25, 2013.)

16-8-4. Suspension, revocation, and reinstatement. (a) Any registration certificate may be revoked or suspended by the attorney general upon finding that the registered roofing contractor has violated any provision of the act or this article.

(b) Each roofing contractor seeking to reinstate a revoked registration certificate shall submit a reinstatement application that includes the following:

(1) A reinstatement application form provided by the attorney general and fully completed by the applicant;

(2) a copy of the applicant's current and valid certificate of liability insurance in an amount of at least \$500,000 from an insurance company authorized by the Kansas insurance department to do business in Kansas or a nonadmitted insurer eligible to write excess coverage on Kansas risks as permitted by Kansas law;

(3) a copy of the applicant's current and valid certificate of workers' compensation insurance under the Kansas workers' compensation act, an affidavit of exemption, or a copy of a current and valid self-insurance permit issued by the Kansas department of labor;

(4) a current and valid tax clearance certificate from the Kansas department of revenue;

(5) payment of the reinstatement fee specified in K.A.R. 16-8-6; and

(6) if the applicant holds or has held a registration, certificate, permit, or license as a roofing contractor issued by any other state, current and certified documentation from the appropriate state agency in each such state showing whether applicant is in good standing, has pending disciplinary proceedings, or has had disciplinary action taken against the registration, certificate, permit, or license.

(c) A reinstatement application shall not be submitted until all terms and conditions specified in the revocation order have been fulfilled.

(d) A roofing contractor shall not be required to apply for annual renewal while that roofing contractor's registration certificate is suspended.

(1) If the suspension is lifted in the same fiscal year as that in which the suspension was ordered, the roofing contractor shall pay the renewal fee for a suspended registration certificate specified in K.A.R. 16-8-6 at the time of the next renewal.

(2) If the suspension was ordered in a previous fiscal year, the suspension shall not be lifted until the roofing contractor submits an application for renewal in accordance with K.A.R. 16-8-3, accompanied by payment of the renewal fee for a suspended registration certificate specified in K.A.R. 16-8-6, and the attorney general approves the application. (Authorized by K.S.A. 2013 Supp. 50-6,124; implementing K.S.A. 2013 Supp. 50-6,132 and 50-6,133; effective, T-16-6-28-13, July 1, 2013; effective Oct. 25, 2013.)

16-8-5. Incomplete applications. (a) If an incomplete application for an initial registration certificate or for renewal or reinstatement of a registration certificate is submitted to the attorney general, the applicant may be notified by the attorney general that the application will be held in abeyance for 30 days. If the applicant fails to provide all missing information, documents, and fees within 30 days of this notification, the application shall be deemed abandoned, and all fees accompanying the application shall be retained by the attorney general and shall not be refunded to the applicant.

(b) The timeline specified in the act for issuance of a registration certificate shall not begin until the date on which a complete application is received in the office of the attorney general. (Authorized by K.S.A. 2013 Supp. 50-6,124; implementing K.S.A. 2013 Supp. 50-6,125, 50-6,130, and 50-6,132; effective, T-16-6-28-13, July 1, 2013; effective Oct. 25, 2013.)

16-8-6. Fees. (a) Each applicant shall pay the following fee or fees, as applicable:

- (1) Initial registration certificate \$250
- (2) Renewal of a registration certificate..... \$250
- (3) Renewal of a suspended registration certificate \$500
- (4) Reinstatement of a revoked registration certificate \$750
- (5) Late renewal fee..... \$250
- (6) Change of name or address \$25

(b) The renewal fee for a suspended registration certificate shall be paid at the time specified in K.A.R. 16-8-4.

(c) If a person submits a complete application for an initial registration certificate to the attorney general on or after January 1 and the attorney general issues the registration certificate on or before April 30 of that year, the applicant shall pay a prorated initial registration certificate fee of \$125 instead of the initial registration certificate fee specified in subsection (a). (Authorized by K.S.A. 2013 Supp. 50-6,124; implementing K.S.A. 2013 Supp. 50-6,128, 50-6,130, 50-6,131, and 50-6,132; effective, T-16-6-28-13, July 1, 2013; effective Oct. 25, 2013.)

16-8-7. Status of registration. (a) If a registered roofing contractor ceases to be active as a roofing contractor, the roofing contractor shall notify the office of the attorney general within 10 days, and the roofing contractor's registration certificate shall be suspended by the attorney general pursuant to K.S.A. 2013 Supp. 50-6,131, and amendments thereto. This suspension shall not constitute a suspension for cause requiring payment of additional renewal fees. The suspended registration certificate shall be classified as "inactive." The roofing contractor shall not engage in business as a roofing contractor while that person's registration certificate is inactive. Any registration certificate may be returned to active status as follows:

(1) In the same fiscal year as that in which the registration certificate was initially classified as inactive, if the roofing contractor notifies the office of the attorney general at least 10 days before resuming business as a roofing contractor; or

(2) in a subsequent fiscal year, if the roofing contractor submits a complete renewal application to the office of the attorney general as specified in K.A.R. 16-8-3. However, the certificate shall not be deemed active until the renewal application is approved by the attorney general.

(b) If a roofing contractor's registration certificate is lost or stolen, the roofing contractor shall notify the office of the attorney general within 10 days after discovery of the fact.

(c) Each change in ownership of at least 50 percent of a business entity shall constitute a change in the legal status of the business requiring a new registration certificate pursuant to the act.

(d) If a registration certificate has been issued to a business entity for use by a group of designat-

ed roofing contractors and any designated roofing contractor in that group ceases to be an agent or employee of the entity, the entity shall notify the office of the attorney general within 10 days.

(e) Any business entity may designate new employees to act as roofing contractors under the entity's existing registration certificate by submitting an addendum to the entity's application, on a form provided by the attorney general, to the attorney general. (Authorized by K.S.A. 2013 Supp. 50-6,124; implementing K.S.A. 2013 Supp. 50-6,127 and 50-6,131; effective, T-16-6-28-13, July 1, 2013; effective Oct. 25, 2013.)

Article 9.—COLLECTION OF DEBTS OWED TO DISTRICT COURTS AND RESTITUTION

16-9-1. (Authorized by and implementing K.S.A. 1996 Supp. 75-719; effective July 11, 1997; revoked Dec. 16, 2016.)

Article 11.—PERSONAL AND FAMILY PROTECTION ACT

16-11-1. Definitions. As used in this article and in the act, the following terms shall have the meanings specified in this regulation:

(a) "Act" means the personal and family protection act, K.S.A. 75-7c01 et seq. and amendments thereto.

(b) "Completed application" means a current application for a license to carry a concealed handgun, as required by the act, that meets the following requirements:

(1) Contains the following:

(A) All necessary signatures; and

(B) a legible and fully responsive reply to every question and request for information; and

(2) is accompanied by all required attachments.

(c) "Full frontal-view photograph" means a passport photograph or other color photograph that is equivalent to a passport photograph in the following respects:

(1) Fairly represents the physical appearance of the applicant's head and shoulders;

(2) is taken with the applicant directly facing the camera; and

(3) shows the applicant's head and shoulders in an area of the picture that is at least two inches square.

(d) "Intimate partner" means any of the following:

(1) The spouse of a licensee;

(2) a former spouse of a licensee;

(3) an individual who is a parent of a licensee's child; or

(4) an individual who cohabitates or has cohabitated with a licensee.

(e) "Place of worship" means any building owned or leased by a religious organization and used primarily as a place for religious worship and other activities ordinarily conducted by a religious organization, whether that building is called a church, temple, mosque, synagogue, or chapel, or a similar name.

(f) "State office" means the interior of any of the following buildings:

(1) Those buildings named in K.S.A. 21-4218 and amendments thereto;

(2) the following buildings located in Topeka, Kansas:

(A) The memorial building, 120 SW 10th;

(B) the Forbes office building #740;

(C) the division of printing plant, 201 NW MacVicar;

(D) the state office building located at 3440 SE 10th Street;

(E) the Dillon house, 404 SW 9th Street;

(F) the Curtis state office building, 1000 SW Jackson; and

(G) the state office building located at 700 SW Harrison; and

(3) all other state-owned or state-leased buildings in which firearm possession is prohibited by posting as provided in K.A.R. 1-49-11. (Authorized by K.S.A. 2009 Supp. 75-7c16; implementing K.S.A. 2009 Supp. 75-7c05, as amended by L. 2010, Ch. 140, §5, 75-7c07, as amended by L. 2010, Ch. 140, §7, 75-7c10, as amended by L. 2010, Ch. 140, §9, and 75-7c16; effective, T-16-7-5-06, July 5, 2006; effective Nov. 27, 2006; amended Jan. 14, 2011.)

16-11-2. Instructor certification standards. (a) Each applicant for certification by the attorney general as an instructor of handgun safety and training courses shall apply on a form prescribed by the attorney general.

(b) Except as provided in subsection (e), each applicant shall meet all of the following requirements:

(1) Meet all of the concealed carry license requirements of K.S.A. 75-7c04(a) and amendments thereto, except for those requirements in paragraph (a)(1);

(2) except for individuals certified before the effective date of this regulation, complete an attorney general instructor orientation course within six months of certification; and

(3) agree to teach at least one class during each 12-month period commencing on the date of certification.

(c) In addition to meeting the requirements of subsection (b) and except as provided in subsection (h), each applicant shall meet one of the following certification requirements:

(1) Be currently certified as a firearms trainer or firearms instructor by any of the following organizations:

(A) The attorney general, pursuant to K.S.A. 75-7b21 and amendments thereto;

(B) any city, county, state, or federal law enforcement agency;

(C) the United States armed services;

(D) the Kansas law enforcement training center; or

(E) any organization that certifies firearms instructors, if the organization's certification program is determined by the attorney general to be substantially equivalent to any of the instructor certification programs identified in paragraph (c) (1); or

(2) be currently certified by the national rifle association in any of the following firearms instructor certification categories:

(A) "Pistol instructor";

(B) "personal protection instructor";

(C) "police firearms instructor";

(D) "law enforcement security firearms instructor";

(E) "law enforcement tactical handgun instructor"; or

(F) "law enforcement handgun/shotgun instructor."

Each applicant shall submit a copy of one of the certification documents identified in this subsection with the completed application form. Each certification document shall contain a certification expiration date.

(d) Each applicant shall pay a certification application fee in the amount of \$100.

(e) Each applicant who holds a license issued by the attorney general to carry a concealed handgun pursuant to the act shall be certified by the attorney general to instruct handgun safety and training courses if the applicant has satisfied the requirements of subsections (b) through (d).

(f) Any applicant who is currently certified

as an instructor by the national rifle association to teach a handgun safety and training course described in K.S.A. 75-7c04(b)(1)(D)(ii), and amendments thereto, may be approved by the attorney general to instruct that course if a determination is made by the attorney general that the requirements for instructor certification established by the national rifle association meet or exceed the requirements of paragraph (b)(1) and subsection (c). Approval granted pursuant to this provision shall be conditioned upon the instructor's compliance with the requirements of K.A.R. 16-11-3.

(g) Subject to notice and an opportunity for a hearing, certification or approval may be withdrawn by the attorney general for either of the following reasons:

(1) Failure to comply with the eligibility requirements specified in subsection (b) or (c); or

(2) failure to remain in compliance with K.A.R. 16-11-3.

(h) Each law enforcement officer certified by the commission on peace officers' standards and training who was certified by the attorney general as an instructor of handgun safety and training on or before the effective date of this regulation shall be exempt from compliance with the certification requirement in subsection (c). (Authorized by and implementing K.S.A. 2009 Supp. 75-7c04, as amended by L. 2010, Ch. 140, §4, and 75-7c16; effective, T-16-7-5-06, July 5, 2006; effective Nov. 27, 2006; amended Jan. 14, 2011.)

16-11-3. Handgun safety and training course; instructors. (a) Each instructor certified by the attorney general, or approved by the attorney general pursuant to K.A.R. 16-11-2(f), to instruct handgun safety and training courses shall comply with the following standards:

(1) Use only the handgun safety and training courses approved by the attorney general as provided in K.A.R. 16-11-4;

(2) use only examinations approved by the attorney general; and

(3) require trainees to display firing proficiency by successfully completing the shooting requirement established in K.A.R. 16-11-4.

(b) Upon the conclusion of each handgun safety and training course, the instructor of that course shall provide each trainee who successfully completes the course with one of the following documents:

(1) An affidavit signed by the instructor that at-

tests to the successful completion of the course by the applicant; or

(2) a certificate of completion on a form approved by the attorney general.

(c) Each instructor shall forward a list of each trainee who successfully completed a training course taught by that instructor to the office of the attorney general within 10 days of the date on which the training course concludes. Each list shall meet all of the following requirements:

(1) Identify the instructor by name and driver's license number;

(2) contain the date of the training course; and

(3) identify each trainee by name and by any state-issued identification card number specified in K.S.A. 75-7c03, and amendments thereto.

(d) For each course an instructor teaches, the instructor shall retain the following records for at least five years from the date on which the course concludes:

(1) A record of the date, the time, and the location of the course;

(2) a record of the name of each trainee enrolled in the course and of each trainee's state-issued identification card number, as specified in K.S.A. 75-7c03 and amendments thereto;

(3) for each trainee, documentation showing whether the trainee completed the training course specified in K.A.R. 16-11-4; and

(4) a record of the examination results for each trainee, including the results of the firing proficiency test.

(e) Each instructor shall notify the attorney general, in writing, within 10 days of any of the following occurrences:

(1) Changes in the instructor's mailing address;

(2) the expiration, suspension, or revocation of the certification used to meet the certification standard in K.A.R. 16-11-2(c); and

(3) any other circumstance that would make the instructor ineligible for certification pursuant to the standards required in K.A.R. 16-11-2.

(f) If an instructor certified by the attorney general, or approved by the attorney general pursuant to K.A.R. 16-11-2(f), fails to comply with the requirements of this regulation, the instructor's certification or approval may be withdrawn by the attorney general upon notice and an opportunity for a hearing. (Authorized and implementing K.S.A. 2009 Supp. 75-7c04, as amended by L. 2010, Ch. 140, §4, and 75-7c16; effective, T-16-7-5-06, July 5, 2006; effective Nov. 27, 2006; amended Jan. 14, 2011.)

16-11-4. Handgun safety and training course.

(a) Except as provided in K.S.A. 75-7c03(d) and amendments thereto and subsection (d) of this regulation, each applicant for a license to carry a concealed handgun shall successfully complete either of the following handgun safety and training courses that have been approved by the attorney general when taught by one or more instructors certified by the attorney general, or approved by the attorney general pursuant to K.A.R. 16-11-2(f):

(1) The attorney general's "concealed carry handgun license program lesson plan," dated July 1, 2006 and amended on October 19, 2006, which is hereby adopted by reference; or

(2) any handgun course described in K.S.A. 75-7c04(b)(1)(D)(ii), and amendments thereto, that is determined by the attorney general to be substantially equivalent to the course identified in paragraph (a)(1). Internet, online, correspondence, and self-study courses shall not be approved.

(b) To "successfully complete" means to obtain a passing score of 100% on an examination approved by the attorney general and to display proficiency with a handgun by shooting at least 18 hits out of 25 rounds on a designated portion of a target approved by either the Kansas commission on peace officers' standards and training or an equivalent body as determined by the attorney general.

(c) Each applicant shall provide to the sheriff of the county in which the applicant resides the documentation of completion of the handgun safety and training course provided to the applicant by the certified instructor as required by K.A.R. 16-11-3(b).

(d) A retired law enforcement officer as defined in K.S.A. 21-3110, and amendments thereto, shall not be subject to this regulation if the retired law enforcement officer was certified by the Kansas commission on peace officers' standards and training or similar body from another jurisdiction not more than eight years before the retired officer submits the application for licensure. (Authorized by K.S.A. 2009 Supp. 75-7c04, as amended by L. 2010, Ch. 140, §4, and 75-7c16; implementing K.S.A. 2009 Supp. 75-7c04, as amended by L. 2010, Ch. 140, §4, 75-7c05, as amended by L. 2010, Ch. 140, §5, and 75-7c16; effective, T-16-7-5-06, July 5, 2006; effective Nov. 27, 2006; amended Jan. 14, 2011.)

16-11-5. Application procedure. (a) Each applicant for a license to carry a concealed handgun pursuant to the act shall submit to the sheriff of the county in which the applicant resides a completed application in accordance with K.S.A. 75-7c05, and amendments thereto, and these regulations.

(b) Except for military applicants and their dependents, an applicant shall be considered to be a resident of the state only if the applicant possesses either a valid Kansas driver's license or a valid Kansas nondriver's identification card.

(c) Within seven days of receiving an application, each sheriff shall submit the following to the attorney general:

(1) A copy of the applicant's completed application for licensure; and

(2) the application fee established by K.S.A. 75-7c05, and amendments thereto.

(d)(1) Within seven days of receiving an application, each sheriff shall submit one full set of the fingerprints of the applicant as follows:

(A) To the Kansas bureau of investigation (KBI), electronically; or

(B) to the attorney general on an applicant card provided by the federal bureau of investigation (FBI).

(2) Each fingerprint submission, whether submitted electronically or using the applicant card, shall contain the originating agency identifier (ORI) assigned to the office of attorney general by the FBI and shall indicate that the fingerprinting is for concealed carry licensing pursuant to the act.

(e) A state and national criminal history records check shall be promptly completed by the KBI.

(f) The 90-day timeline specified in K.S.A. 75-7c05, and amendments thereto, for issuance or denial of a license shall begin on the date when all of the following items are received by the attorney general:

(1) A completed application;

(2) the cashier's check, personal check, or money order submitted in accordance with K.S.A. 75-7c05(b), and amendments thereto;

(3) a photocopy of the appropriate documentation described in K.S.A. 75-7c05(b), and amendments thereto; and

(4) a full frontal-view photograph of the applicant as described in K.S.A. 75-7c05(b), and amendments thereto.

(g) The document titled "concealed handgun license sheriff's or chief's voluntary report pursuant to personal and family protection act," dated July 1, 2006, is hereby adopted by reference. In

accordance with the voluntary report, within 45 days of the date on which a sheriff receives any application from a resident of that county, the sheriff or the chief law enforcement officer of any other law enforcement agency in that county may provide information that, when corroborated through public records and combined with another enumerated factor, establishes that the applicant poses a significantly greater threat to law enforcement or the public at large than the average citizen. (Authorized by K.S.A. 2009 Supp. 75-7c16; implementing K.S.A. 2009 Supp. 75-7c04, as amended by L. 2010, Ch. 140, §4, 75-7c05, as amended by L. 2010, Ch. 140, §5, and 75-7c16; effective, T-16-7-5-06, July 5, 2006; effective Nov. 27, 2006; amended Jan. 14, 2011.)

16-11-6. (Authorized by L. 2006, Ch. 32, §4, as amended by L. 2006, Ch. 210, §2, and L. 2006, Ch. 32, §16; implementing L. 2006, Ch. 32, §4, as amended by L. 2006, Ch. 210, §2; effective, T-16-7-5-06, July 5, 2006; effective Nov. 27, 2006; revoked Jan. 14, 2011.)

16-11-7. Concealed carry signs. (a) For the purposes of this regulation, the terms "state or municipal building," "state," and "municipal" shall have the meaning specified in K.S.A. 2013 Supp. 75-7c20, and amendments thereto.

(b) No license issued pursuant to or recognized under the personal and family protection act shall authorize the licensee to carry a concealed handgun into any building other than a state or municipal building if the building is conspicuously posted with one of the following:

(1) Signs that include the graphic in the document titled "buildings other than state and municipal buildings: signage adopted by the Kansas attorney general," dated June 20, 2013, which is hereby adopted by reference; or

(2) signs posted in accordance with K.A.R. 16-13-1(d).

(c) No license issued pursuant to or recognized under the personal and family protection act shall authorize the licensee to carry a concealed handgun into any state or municipal building if the governing body or, if no governing body exists, the chief administrative officer for that state or municipal building has performed the following:

(1) Either installed adequate security measures or temporarily exempted the state or municipal building from K.S.A. 2013 Supp. 75-7c20, and amendments thereto; and

(2) either posted signs in accordance with K.A.R. 16-13-1(d) or conspicuously posted signs that include the graphic and text in any of the following documents, which are hereby adopted by reference:

(A) “State and municipal buildings: signage adopted by the Kansas attorney general,” dated June 20, 2013;

(B) “state and municipal buildings: signage adopted by the Kansas attorney general,” dated July 10, 2013; or

(C) “state and municipal buildings: signage adopted by the Kansas attorney general,” dated September 26, 2013.

The top of the text shall be at least one inch but no more than two inches below the graphic. The text shall be in black letters and shall be no smaller than the text below the graphic in any of the documents adopted in this subsection. The text “State or Municipal Building, 2013 HB 2052 EXEMPT” or “State or Municipal Building, EXEMPT” shall be printed in boldface.

(d) “Conspicuously posted,” when used to describe any sign adopted in this regulation, shall mean that the sign meets the following requirements:

(1) Has a white background;

(2) includes the graphic design that is contained in the documents adopted in this regulation and that meets the following requirements:

(A) Depicts the handgun in black ink;

(B) depicts the circle with a diagonal slash across the handgun in red ink; and

(C) is at least six inches in diameter;

(3) contains no text or other markings within the one-inch area surrounding the graphic design;

(4) contains no text other than the text specified in the documents adopted in paragraph (c)(2) or in K.A.R. 16-13-1(d);

(5) is visible from the exterior of the building and is not obstructed by doors, sliding doorways, displays, or other postings;

(6) is posted at the eye level of an adult, which shall mean that the entire sign is between four feet and six feet from the ground;

(7) is posted not more than 12 inches to the right or left of each exterior public and nonpublic entrance to the building; and

(8) is legible. Each sign that becomes illegible shall be replaced immediately.

(e) Except as provided in K.A.R. 16-13-1, signs posted in accordance with subsections (b) through (d) of this regulation shall also prohibit the unconcealed carry of firearms within a building to the extent allowed by law.

(f) Signs that meet the requirements of this regulation may be obtained by contacting the office of the attorney general or may be reproduced from the web site of the office of the attorney general. (Authorized by K.S.A. 2013 Supp. 75-7c10 and 2014 HB 2578, § 5; implementing 2014 HB 2578, § 5, K.S.A. 2013 Supp. 75-7c10, and K.S.A. 2013 Supp. 75-7c20, as amended by 2014 Sen. Sub. for HB 2140, § 5; effective Nov. 27, 2006; amended Jan. 14, 2011; amended, T-16-6-28-13, July 1, 2013; amended, T-16-7-16-13, July 16, 2013; amended Nov. 8, 2013; amended, T-16-6-30-14, June 30, 2014; amended Oct. 24, 2014.)

16-11-8. Restraining order; effect of; procedure. (a) For purposes of this regulation, the terms in this subsection shall be defined as follows:

(1) “Director” means the director of the concealed carry unit of the attorney general’s office.

(2) “Restraining order” means a court order that meets all of the following requirements:

(A) Is issued by a Kansas district court or a court in another state or jurisdiction that is entitled to full faith and credit in this state;

(B) is issued after a hearing at which the licensee received actual notice and had an opportunity to participate;

(C) restrains the licensee from harassing, stalking, or threatening an intimate partner or the child of the licensee or intimate partner or engaging in other conduct that would place an intimate partner in reasonable fear of bodily injury to the partner or child; and

(D)(i) Includes a finding that the licensee represents a credible threat to the physical safety of the intimate partner or child; or

(ii) explicitly prohibits the use, attempted use, or threatened use of physical force against the intimate partner or child that would reasonably be expected to cause bodily injury.

(b) Within 24 hours of a sheriff’s receipt of any restraining order, the sheriff shall determine whether the restraining order has been issued against a person who holds a concealed carry license.

(c) Whenever a sheriff determines that a restraining order has been issued against a person who holds a concealed carry license, the sheriff shall immediately notify the director by faxing or e-mailing the restraining order to the director.

(d) Within eight working hours of the director’s receipt of the restraining order from a sheriff, the following actions shall be taken by the director:

(1) Verification of whether the restraining order meets the requirements of paragraph(a)(2); and

(2) if the director verifies that the restraining order has been issued against a person who holds a concealed carry license, issuance of a written order suspending the concealed carry license of the person named as the subject of the restraining order. The order shall be effective immediately upon issuance.

(e) The order of suspension shall be served by the director on the concealed carry license holder by United States mail at the address on record at the concealed carry unit. In addition, the subject of the restraining order may be notified by telephone or e-mail, or both, by the director that the individual's concealed carry license has been suspended.

(f) The order of suspension shall include a notice that the concealed carry license holder may, within 10 calendar days of receipt of the written order of suspension, submit a written request for a hearing to the director.

(g) Upon the director's receipt of a written request for a hearing, a hearing shall be arranged by the director to occur within 30 calendar days. However, for good cause shown, the hearing may be continued to a later date.

(h) The presiding officer at the hearing shall be the attorney general or a designee of the attorney general.

(i) The licensee shall have the burden of proving that the licensee is not the subject of the restraining order or that the order does not meet the requirements of paragraph (a)(2).

(j) Notification of each license suspension shall be provided electronically to the Kansas department of revenue.

(k) Each concealed carry license that was suspended pursuant to this regulation shall be reinstated by the director upon the director's receipt of a certified copy of a court order that dissolves the restraining order, if the person remains otherwise eligible for the concealed carry license. (Authorized by and implementing K.S.A. 2009 Supp. 75-7c07, as amended by L. 2010, Ch. 140, §7; effective Dec. 29, 2006; amended Jan. 14, 2011.)

Article 12.—BATTERER INTERVENTION PROGRAM REQUIREMENTS AND CERTIFICATION

16-12-1. Scope. The regulations in this article shall provide for the certification of, and shall

set the standards for the services and programs required of, certified batterer intervention programs, including the following: (a) Any certified batterer intervention program providing the domestic violence offender assessment pursuant to K.S.A. 12-4509, K.S.A. 21-5414, K.S.A. 21-6604, or K.S.A. 22-2909, and amendments thereto; and

(b) any program operating or providing services as a batterer intervention program, domestic violence or abuse intervention program, or domestic violence educational program for those convicted of a domestic violence-designated offense or as part of a diversion agreement in a complaint alleging a domestic violence offense, as defined in K.S.A. 21-5111 and amendments thereto. (Authorized by L. 2012, ch. 162, sec. 11; implementing L. 2012, ch. 162, secs. 1 and 11; effective, T-16-6-28-12, June 28, 2012; effective, T-16-10-25-12, Oct. 26, 2012; effective Jan. 25, 2013.)

16-12-2. Definitions. Words or phrases used in this article or in the batterer intervention program certification act but not defined in this regulation shall have the same definition as specified in the batterer intervention program certification act or in K.S.A. 21-5111, and amendments thereto. Each of the following terms, as used in this article, shall have the meaning specified in this regulation: (a) "Batterer" means any person who uses a pattern of abusive and coercive behavior to dominate and control an intimate partner, a former intimate partner, a household member, or a family member.

(b) "Continuing education" means formally organized programs or activities that are designed for and have content intended to enhance the knowledge, skill, values, ethics, and ability to practice as an "agent or employee thereof," as defined by L. 2012, ch. 162, sec. 13 and amendments thereto.

(c) "Controlled substance" means any drug, substance, or immediate precursor included in any of the schedules designated in K.S.A. 65-4105, 65-4107, 65-4109, 65-4111, and 65-4113, and amendments thereto.

(d) "Remedial or other requirements" means either of the following:

(1) Completion of additional education or training for agents or employees to address the concerns identified by the attorney general; or

(2) changes to the structure of the program to address the concerns identified by the attorney general.

(e) “Supervisee” means an agent or employee of a certified batterer intervention program who receives instruction or direction for the purpose of development of responsibility, skill, knowledge, attitudes, and ethical standards of practice in batterer intervention services from a batterer intervention program director, program supervisor, or program coordinator.

(f) “Unprofessional conduct,” for an agent or employee who is not licensed by the behavioral sciences regulatory board, means any of the following acts:

(1) Obtaining or attempting to obtain a certification or temporary permit by means of fraud, bribery, deceit, misrepresentation, or concealment of a material fact;

(2) failing to notify the attorney general within 10 days, unless the person shows good cause, that any one of the following conditions applies to an agent or employee:

(A) Had a professional license, credential, permit, registration, or certification limited, conditioned, qualified, restricted, suspended, revoked, refused by the proper regulatory authority in Kansas or of another state, territory, or the District of Columbia. A certified copy of the action taken by the jurisdiction shall be conclusive evidence of this action;

(B) has voluntarily surrendered a professional license, credential, permit, registration, or certification while a complaint or investigation is pending by the proper regulatory authority;

(C) has been demoted, terminated, suspended, reassigned, or asked to resign from employment, or has resigned from employment, for misfeasance, malfeasance, or nonfeasance; or

(D) has been convicted of a felony;

(3) knowingly allowing another individual to use one’s permit or certification unlawfully;

(4) impersonating another individual holding a permit or certification;

(5) having been convicted of a crime resulting from or relating to the provision of certified batterer intervention services;

(6) furthering the certification or permit application of another person who is known to be unqualified with respect to character, education, or other relevant eligibility requirements according to K.A.R. 16-12-4;

(7) knowingly aiding or abetting anyone who does not have certification or a permit to represent that individual as a person who does have certification or a permit;

(8) failing or refusing to cooperate in a timely manner with any request from the attorney general for a response or assistance with respect to the attorney general’s investigation of any report of an alleged violation of the batterer intervention program certification act or any law filed against any agent or employee or any other applicant. It shall be prima facie evidence of failing or refusing to cooperate within this subsection if a person takes longer than 30 days to provide the requested response, information, or assistance, unless the person shows good cause;

(9) offering to perform or performing services outside the scope of one’s training, education, and competency;

(10) treating any offender, victim, or supervisee in a cruel manner, including the intentional infliction of pain or suffering;

(11) discriminating against any offender, victim, or supervisee on the basis of color, race, gender, religion, national origin, age, or disability;

(12) failing to provide each offender with a description of services, consultation, reports, fees, billing, intervention regimen, or schedule, or failing to reasonably comply with these descriptions;

(13) failing to inform each offender or supervisee of any financial interests that might accrue to the provider from referral to any other service or from the use of any tests, books, or apparatus;

(14) failing to inform each offender, victim, and supervisee of the purposes for which information is obtained, the manner in which the information may be used, and the limits of confidentiality regarding the provision of batterer intervention services;

(15) revealing information, a confidence, or secret of any victim, or failing to protect the confidences, secrets, or information contained in a victim’s records, except when at least one of the following conditions is met:

(A) Disclosure is required by law;

(B) disclosure is authorized by law because the confidential information shows that the person could seriously harm an individual or the public; or

(C) the provider, or the provider’s employee or agent, is a party to a civil, criminal, or disciplinary investigation or action arising from the batterer intervention program practice, in which case disclosure shall be limited to that action;

(16) failing to protect the confidences of, secrets of, or information concerning other persons when providing an offender with access to that offender’s records;

(17) engaging in professional activities, including billing practices and advertising, involving dishonesty, fraud, deceit, or misrepresentation;

(18) using alcohol or illegally using any controlled substance while performing duties or services as a batterer intervention provider;

(19) making sexual advances toward, engaging in physical intimacies or sexual activities with, or exercising undue influence over any person who, within the past 24 months, has been a victim or offender receiving batterer intervention services, or a victim or offender's known family members;

(20) exercising undue influence over any victim, offender, or supervisee, including promoting sales of services or goods, in a manner that will exploit the person or persons for the purpose of financial gain, personal gratification, or advantage of oneself or a third party;

(21) directly or indirectly offering or giving to a third party or soliciting, receiving, or agreeing to receive from a third party any fee or other consideration for the referral of the victim or offender;

(22) permitting any person to share in the fees for professional services, other than a partner, employee, an associate in a professional firm, or a consultant providing batterer intervention services;

(23) soliciting or assuming professional responsibility for offenders served by another batterer intervention program without informing and attempting to coordinate continuity of offender services with that program;

(24) making claims of professional superiority that one cannot substantiate;

(25) guaranteeing that satisfaction or a cure will result from the performance of professional services;

(26) claiming or using any secret or special method of intervention or techniques that one refuses to divulge to the attorney general;

(27) continuing or ordering tests, procedures, interventions, or services not warranted by the condition or best interests of the offender;

(28) failing to maintain for each offender and victim a record that conforms to the following minimal standards:

(A) Contains a unique identifying number or other method for specific identification of the offender and victim;

(B) indicates the offender's initial reason for seeking the provider's services;

(C) contains specific information concerning the offender's condition, including the Kansas attorney general domestic violence offender as-

essment, affidavits, police reports, and other documents related to criminal activity as allowed by law and available to the provider;

(D) summarizes the intervention, tests, procedures, and services that were obtained, performed, ordered, or recommended and the findings and results of each;

(E) documents the offender's progress during the course of intervention;

(F) contains only those terms and abbreviations that are comprehensible to similar professional practitioners;

(G) indicates the date and nature of any professional service that was provided; and

(H) describes the manner and process by which the professional relationship terminated;

(29) taking credit for work not performed personally, whether by giving inaccurate or misleading information or by failing to disclose accurate or material information;

(30) making or filing a report that one knows to be erroneous, incomplete, or misleading;

(31) failing to retain offender's records for at least two years after the date of termination of the professional relationship, unless otherwise provided by law;

(32) failing to exercise supervision over any supervisee;

(33) failing to inform an offender if services are provided or delivered under supervision or direction;

(34) engaging in, or attempting to engage in, any relationship in which the objectivity or competency of the provider may become impaired or compromised due to any of the following present, previous, or future relationships with a victim, offender, or supervisee:

(A) Familial;

(B) sexual;

(C) emotional; or

(D) financial; or

(35) using without a temporary permit or certification, or continuing to use after the expiration of a permit or certification, any title or abbreviation prescribed by the attorney general for use only by those with a current temporary permit or certification.

(g) "Unprofessional conduct," for an agent or employee who is licensed by the behavioral sciences regulatory board, means any of the following acts:

(1) Any determination by the behavioral sciences regulatory board of a violation of laws or

regulations related to one's licensure. A certified copy of the action taken by the behavioral sciences regulatory board shall be sufficient evidence of this action;

(2) obtaining or attempting to obtain a certification or temporary permit by means of fraud, bribery, deceit, misrepresentation, or concealment of a material fact;

(3) failing to notify the attorney general of any complaint, investigation, or finding regarding the licensee within 10 days, unless the person shows good cause;

(4) failing to notify the attorney general within 10 days, unless the person shows good cause, that any one of the following conditions applies to the licensee:

(A) Has been demoted, terminated, suspended, reassigned, or asked to resign from employment, or has resigned from employment, for misfeasance, malfeasance, or nonfeasance; or

(B) has been convicted of a felony;

(5) knowingly allowing another individual to use one's temporary permit or certification unlawfully;

(6) impersonating another individual holding a temporary permit or certification;

(7) having been convicted of a crime resulting from or relating to the provision of certified batterer intervention program services;

(8) furthering the certification or permit application of another person who is known to be unqualified with respect to character, education, or other relevant eligibility requirements;

(9) knowingly aiding or abetting anyone who does not have certification or a permit to represent that individual as a person who does have certification or a permit;

(10) failing or refusing to cooperate in a timely manner with any request from the attorney general for a response or assistance with respect to the attorney general's investigation of any report of an alleged violation of the batterer intervention program certification act or any law filed against any agent or employee or any other applicant. It shall be prima facie evidence of failing or refusing to cooperate within this subsection if a person takes longer than 30 days to provide the requested response, information, or assistance, unless the person shows good cause or receives an extension by the attorney general;

(11) revealing information, a confidence, or secret of any victim, or failing to protect the confidences, secrets, or information contained in a victim's records, unless one of these conditions is met:

(A) Disclosure is required by law;

(B) disclosure is authorized by law because the confidential information shows that the person could seriously harm an individual or the public; or

(C) the provider, or the agent or employee of the provider, is a party to a civil, criminal, or disciplinary investigation or action arising from the batterer intervention program practice, in which case disclosure shall be limited to that action;

(12) claiming or using any secret or special method of intervention or techniques that one refuses to divulge to the attorney general;

(13) failing to maintain for each offender and victim a record that conforms to the following minimal standards:

(A) Contains a unique identifying number or other method for specific identification of the offender and victim;

(B) indicates the offender's initial reason for seeking the provider's services;

(C) contains specific information concerning the offender's condition, including the "Kansas attorney general domestic violence offender assessment form," affidavits, police reports, and other documents related to criminal activity as allowed by law and available to the provider;

(D) summarizes the intervention, tests, procedures, and services that were obtained, performed, ordered, or recommended and the findings and results of each;

(E) documents the offender's progress during the course of intervention;

(F) contains only those terms and abbreviations that are comprehensible to similar professional practitioners;

(G) indicates the date and nature of any professional service that was provided; and

(H) describes the manner and process by which the professional relationship terminated; or

(14) using without a temporary permit or certification, or continuing to use after the expiration of a permit or certification, any title or abbreviation prescribed by the attorney general for use only by those with a current permit or certification. (Authorized by L. 2012, ch. 162, secs. 5, 11; implementing L. 2012, ch. 162, secs. 5, 6, 11; effective, T-16-6-28-12, June 28, 2012; effective, T-16-10-25-12, Oct. 26, 2012; effective Jan. 25, 2013.)

16-12-3. Training and continuing education. Each holder of a temporary permit or certificate shall submit proof of training and continu-

ing education hours to the attorney general for approval. (a) Each batterer intervention program agent or employee thereof shall meet the following requirements:

(1) Complete the training as required in “the essential elements and standards of batterer intervention programs in Kansas,” which is adopted in K.A.R. 16-12-4; and

(2) complete 12 hours of documented and approved continuing education as required in “the essential elements and standards of batterer intervention programs in Kansas,” during each two-year certification period. Continuing education hours accumulated in excess of the requirement shall not be carried over to the next renewal period.

(b) One hour of training or continuing education credit shall consist of at least 50 minutes of classroom instruction or at least one clock-hour of other types of acceptable training or continuing education experiences listed in subsection (c). One-half hour of training or continuing education credit may be granted for each 30 minutes of acceptable training or continuing education. Credit shall not be granted for less than 30 minutes.

(c) Acceptable training and continuing education, subject to approval, whether taken within the state or outside the state, shall include the following:

(1) An academic course at an institution that is nationally or regionally accredited for education or training, if the content is clearly related to the enhancement of a batterer intervention program agent’s or employee’s practice, values, ethics, skills, or knowledge and the course is taken for academic credit. Each agent or employee shall be granted 15 training or continuing education hours for each academic credit hour that is successfully completed. The maximum number of allowable training or continuing education hours shall be 15;

(2) an academic course at an institution that is nationally or regionally accredited for education or training, if the content is clearly related to the enhancement of a batterer intervention program agent’s or employee’s practice, values, ethics, skills, or knowledge and the course is audited. Each agent or employee shall receive training or continuing education credit on the basis of the actual contact time that the agent or employee spends attending the course, up to a maximum of 15 hours per academic credit hour. The maximum number of allowable training or continuing education hours shall be 15;

(3) a seminar, institute, conference, workshop, or nonacademic course oriented to the enhancement of a batterer intervention program agent’s or employee’s practice, values, ethics, skills, or knowledge; and

(4) an activity oriented to the enhancement of a batterer intervention program agent’s or employee’s practice, values, ethics, skills, or knowledge, consisting of completing a computerized interactive learning module, viewing a telecast or videotape, listening to an audiotape, or reading, if a posttest is successfully completed. The maximum number of allowable training or continuing education hours shall be 15.

(d) Approval of training or continuing education credit shall not be granted for the second or any subsequent identical program if the programs are completed within the same renewal period.

(e) Training or continuing education credit shall not be granted for the following:

(1) In-service training, if the training is for job orientation or job training or is specific to the employing agency; and

(2) any activity for which the agent or employee cannot demonstrate that the program’s goals and objectives are to enhance the practice, values, ethics, skills, or knowledge in batterer intervention.

(f) Each agent or employee shall maintain individual, original training or continuing education records for at least two years. These records shall document the agent’s or employee’s attendance at, participation in, or completion of each training or continuing education activity.

(g) Each of the following forms of documentation may be submitted as proof that an agent or employee has completed that training or continuing education activity:

(1) An official transcript or other document indicating the agent’s or employee’s passing grade for an academic course taken at an institution that is nationally or regionally accredited;

(2) a statement signed by the instructor of an academic course indicating the number of actual contact hours that the agent or employee attended for an audited academic course from an institution that is nationally or regionally accredited;

(3) a signed statement from the provider of a seminar, institute, conference, workshop, or course indicating that the agent or employee attended the training or continuing education program; and

(4) for each videotape, audiotape, computerized interactive learning module, or telecast that

the agent or employee utilized for training or continuing education purposes, a written statement from the agent or employee specifying the media format, content title, presenter or sponsor, content description, length, activity date, and copy of the agent's or employee's completed posttest or score. (Authorized by and implementing L. 2012, ch. 162, secs. 5, 11; effective, T-16-6-28-12, June 28, 2012; effective, T-16-10-25-12, Oct. 26, 2012; effective Jan. 25, 2013.)

16-12-4. Program requirements. Each holder of a temporary permit, initial certification, renewal certification, or certification reinstatement shall perform the following: (a) Adopt and follow the standards, elements, and other program requirements described in the document titled "the essential elements and standards of batterer intervention programs in Kansas," dated December 17, 2012, by the Kansas attorney general's office, which is hereby adopted by reference except for the acknowledgements, table of contents, philosophy and purpose, and theoretical overview of batterer intervention programs; and

(b) submit the attorney general's document titled "certified batterer intervention program statistical report" with the required information. This document, dated June 13, 2012, is hereby adopted by reference. The "certified batterer intervention program statistical report" shall be completed and submitted to the attorney general on or before January 5 and July 5 in each year of certification or the first business day following these deadlines if the deadlines fall on a weekend or state or federal holiday. (Authorized by and implementing L. 2012, ch. 162, secs. 5, 11; effective, T-16-6-28-12, June 28, 2012; effective, T-16-10-25-12, Oct. 26, 2012; effective Jan. 25, 2013.)

16-12-5. Domestic violence offender assessment. (a) The document titled "Kansas attorney general domestic violence offender assessment form," dated March 3, 2011, by the Kansas attorney general is hereby adopted by reference. This document is also known as "KDVOA."

(b) Except as specified in subsection (c), the KDVOA shall be completed by one of the following: an individual who is licensed to practice in Kansas as a psychologist, baccalaureate social worker, master social worker, specialist clinical social worker, marriage and family therapist, addiction counselor, clinical addiction counselor, clinical marriage and family therapist, profession-

al counselor, clinical professional counselor, master's level psychologist, or clinical psychotherapist.

(c) Any person who is not licensed as provided in subsection (b) and who is completing the KDVOA as an employee of or volunteer for a batterer intervention program before January 1, 2013 may continue to complete these assessments on and after January 1, 2013 if the person remains an employee of or volunteer for the same program and the program remains a certified batterer intervention program. Whenever the person is no longer an employee of or volunteer for the program in which the person was employed or volunteering before January 1, 2013, the person shall not be allowed to complete the KDVOA for any certified batterer intervention program without meeting the license requirements in subsection (b). (Authorized by K.S.A. 2011 Supp. 75-755 and L. 2012, ch. 162, sec. 11; implementing K.S.A. 2011 Supp. 21-6604, as amended by L. 2012, ch. 162, sec. 16, and L. 2012, ch. 162, secs. 1, 5; effective, T-16-6-28-12, June 28, 2012; effective, T-16-10-25-12, Oct. 26, 2012; effective Jan. 25, 2013.)

16-12-6. Temporary permit; application. Each applicant seeking a temporary permit shall submit an application, on a form provided by the attorney general, to the attorney general. The completed application for a temporary permit shall include the following: (a) The applicant's full name and residential address;

(b) the name under which the applicant intends to do business and the business address;

(c) a statement of the general nature of the business in which the applicant intends to engage;

(d) a statement of the education and work experience of the applicant and any agent or employee thereof;

(e) a statement that the applicant has met any other qualifications specified in "the essential elements and standards of batterer intervention programs in Kansas," which is adopted in K.A.R. 16-12-4;

(f) payment of the temporary permit application fee of \$50.00; and

(g) any other information, evidence, statements, or documents necessary to determine the qualifications of an applicant for temporary permit, including the following:

(1) A copy of completed certificates documenting domestic violence-specific training hours for each agent or employee thereof;

(2) proof of current licensure for each agent or employee required to be licensed by the behavioral sciences regulatory board; and

(3) a copy of the core curriculum to be used in batterer intervention services. (Authorized by L. 2012, ch. 162, sec. 11; implementing L. 2012, ch. 162, secs. 2, 4; effective, T-16-6-28-12, June 28, 2012; effective, T-16-10-25-12, Oct. 26, 2012; effective Jan. 25, 2013.)

16-12-7. Initial certification; application. Each applicant seeking initial certification shall submit an application, on a form provided by the attorney general, to the attorney general. The completed application for initial certification shall include the following: (a) The applicant's full name and residential address;

(b) the name under which the applicant intends to do business and the business address;

(c) a statement of the general nature of the business in which the applicant intends to engage;

(d) a statement of the education and work experience of the applicant and any agent or employee thereof;

(e) a statement that the applicant has met any other qualifications specified in "the essential elements and standards of batterer intervention programs in Kansas," which is adopted in K.A.R. 16-12-4;

(f) payment of the initial application fee of \$100.00; and

(g) any other information, evidence, statements, or documents necessary to determine the qualifications of an applicant for initial certification, including the following:

(1) A copy of completed certificates documenting training hours as required by "the essential elements and standards of batterer intervention programs in Kansas" for each agent or employee thereof;

(2) proof of current licensure for each agent or employee required to be licensed by the behavioral sciences regulatory board;

(3) a copy of the core curriculum to be used in batterer intervention services;

(4) demonstration by the applicant of attempts to establish a cooperative relationship with key agencies, as described in "the essential elements and standards of batterer intervention programs in Kansas," which is adopted in K.A.R. 16-12-4; and

(5) a copy of release of information and offender agreement forms. (Authorized by L. 2012, ch. 162, sec. 11; implementing L. 2012, ch. 162, secs.

2, 4; effective, T-16-6-28-12, June 28, 2012; effective, T-16-10-25-12, Oct. 26, 2012; effective Jan. 25, 2013.)

16-12-8. Renewal certification; application. Each applicant seeking renewal certification shall submit an application, on a form provided by the attorney general, to the attorney general. The completed application for renewal certification shall include the following: (a) The applicant's full name and residential address;

(b) the name under which the applicant intends to do business and the business address;

(c) a statement of the general nature of the business in which the applicant intends to engage;

(d) a statement of the educational and work experience of the applicant and any agent or employee thereof;

(e) a statement that the applicant has met any other qualifications described in "the essential elements and standards of batterer intervention programs in Kansas," which is adopted in K.A.R. 16-12-4;

(f) payment of the renewal application fee of \$100.00; and

(g) any other information, evidence, statements, or documents necessary to determine the qualifications of an applicant for renewal certification that are required by the attorney general, including the following:

(1) A copy of completed certificates documenting continuing education hours as required by "the essential elements and standards of batterer intervention programs in Kansas" for each agent or employee thereof;

(2) a copy of completed certificates documenting training hours as required in "the essential elements and standards of batterer intervention programs in Kansas" for any new agent or employee not included in a previous application for certification;

(3) proof of current licensure for each agent or employee required to be licensed by the behavioral sciences regulatory board; and

(4) demonstration by the applicant of attempts to establish a cooperative relationship with key agencies, as described in "the essential elements and standards of batterer intervention programs in Kansas," which is adopted in K.A.R. 16-12-4. (Authorized by L. 2012, ch. 162, sec. 11; implementing L. 2012, ch. 162, secs. 2, 4; effective, T-16-6-28-12, June 28, 2012; effective, T-16-10-25-12, Oct. 26, 2012; effective Jan. 25, 2013.)

16-12-9. Certification reinstatement; application. Each applicant seeking certification reinstatement shall submit an application, on a form provided by the attorney general, to the attorney general. The completed application for certification reinstatement shall include the following: (a) The applicant's full name and residential address;

(b) the name under which the applicant intends to do business and the business address;

(c) a statement of the general nature of the business in which the applicant intends to engage;

(d) a statement of the education and work experience of the applicant and any agent or employee thereof;

(e) a statement that the applicant has met any other qualifications described in "the essential elements and standards of batterer intervention programs in Kansas," which is adopted in K.A.R. 16-12-4;

(f) payment of the reinstatement application fee of \$100.00;

(g) a statement regarding the reason requiring reinstatement of certification; and

(h) any other information, evidence, statements, or documents necessary to determine the qualifications of an applicant for reinstatement, including the following:

(1) A copy of completed certificates documenting continuing education hours as required by "the essential elements and standards of batterer intervention programs in Kansas" for each agent or employee thereof;

(2) a copy of completed certificates documenting training hours as required in "the essential elements and standards of batterer intervention programs in Kansas" for any new agent or employee not included in a previous application for certification;

(3) proof of current licensure for each agent or employee required to be licensed by the behavioral sciences regulatory board; and

(4) demonstration by the applicant of attempts to establish a cooperative relationship with key agencies, as described in "the essential elements and standards of batterer intervention programs in Kansas," which is adopted in K.A.R. 16-12-4. (Authorized by L. 2012, ch. 162, sec. 11; implementing L. 2012, ch. 162, secs. 2, 4; effective, T-16-6-28-12, June 28, 2012; effective, T-16-10-25-12, Oct. 26, 2012; effective Jan. 25, 2013.)

16-12-10. Evaluating and monitoring certified batterer intervention programs. For

the purposes of evaluating and monitoring certified batterer intervention programs, the applicant, holder of a temporary permit, or holder of a certificate shall give the attorney general access to the following:

(a) The applicant's or holder's program;

(b) observation of groups or assessment services;

(c) offender and victim files, records, or documents related to the provision of batterer intervention services;

(d) contact information of community members or third parties who could provide information related to services provided in the capacity of a batterer intervention program;

(e) offenders who are receiving or have received services from the program;

(f) contact information for victims or family members, with their written permission, associated with the offenders who are receiving or have received services from the batterer intervention program; and

(g) any other information identified as necessary in evaluating and monitoring the program. (Authorized by L. 2012, ch. 162, sec. 11; implementing L. 2012, ch. 162, secs. 8, 11; effective, T-16-6-28-12, June 28, 2012; effective, T-16-10-25-12, Oct. 26, 2012; effective Jan. 25, 2013.)

Article 13.—OPEN CARRY SIGNS

16-13-1. Open carry signs. (a) For the purposes of this regulation, the terms "state or municipal building," "state," and "municipal" shall have the meaning specified in K.S.A. 2013 Supp. 75-7c20, and amendments thereto.

(b) Signs posted in accordance with K.A.R. 16-11-7 shall also prohibit the unconcealed carry of firearms within a building to the extent allowed by law.

(c) Except as otherwise provided by law, it shall be unlawful to carry an unconcealed firearm into a building that is posted at each exterior entrance with a sign that meets the following requirements:

(1) Contains the sentence "The open carrying of firearms in this building is prohibited" with the word "prohibited" printed in underlined boldface. The text shall be in black ink and no smaller than the text in the document titled "open carry prohibited: signage adopted by the Kansas attorney general," dated June 16, 2014, which is hereby adopted by reference;

(2) has a white background;

(3) has a red border in the shape of an octagon that encloses the text specified in paragraph (c)(1) and is no smaller than the border in the document titled "open carry prohibited: signage adopted by the Kansas attorney general";

(4) contains no text or markings other than the text and markings specified in this subsection;

(5) is visible from the exterior of the building and is not obstructed by doors, sliding doorways, displays, or other postings;

(6) is posted "at the eye level of an adult," which shall mean that each sign is entirely between four feet and six feet from the ground;

(7) is posted not more than 12 inches to the right or left of all entrances to the building; and

(8) is legible. Each sign that becomes illegible shall be replaced immediately.

(d)(1) Except as otherwise provided by law, it shall be unlawful to carry a concealed handgun into a building that allows the unconcealed carry of firearms if the building is posted at each exterior entrance with a sign that meets the following requirements:

(A) Contains the text and graphic contained in one of the following:

(i) The document titled "buildings other than state or municipal buildings: signage to allow open carry but prohibit concealed carry," adopted by the Kansas attorney general and dated June 16, 2014, which is hereby adopted by reference;

(ii) the document titled "K.S.A. 2013 Supp. 75-7c20-exempt state or municipal buildings: signage to allow open carry but prohibit concealed carry," adopted by the Kansas attorney general and dated June 16, 2014, which is hereby adopted by reference; or

(iii) the document titled "all buildings: supplemental signage to allow open carry but prohibit concealed carry," adopted by the Kansas attorney general and dated June 17, 2014, which is hereby adopted by reference and shall be posted immediately above appropriate signs posted pursuant to K.A.R. 16-11-7;

(B) has a white background;

(C) depicts the graphic in accordance with K.A.R. 16-11-7(d)(2);

(D) contains no text or markings other than the text and markings specified in this subsection;

(E) is visible from the exterior of the building and is not obstructed by doors, sliding doorways, displays, or other postings;

(F) is posted "at the eye level of an adult," which shall mean that each sign is entirely between four

feet and six feet from the ground;

(G) is posted not more than 12 inches to the right or left of all entrances to the building; and

(H) is legible. Each sign that becomes illegible shall be replaced immediately.

(2) The text of each sign shall be in black letters and shall be no smaller than the text contained in the applicable document adopted in this subsection. The text "OPEN CARRY ALLOWED, CONCEALED CARRY PROHIBITED" shall be in capital letters, and the top of the text shall be at least one inch but no more than two inches above the graphic. The word "allowed" in the phrase "open carry allowed" and the word "prohibited" in the phrase "concealed carry prohibited" shall be printed in underlined boldface. The text "State or Municipal Building, 2013 HB 2052 EXEMPT" or "State or Municipal Building, EXEMPT" shall be printed in boldface and shall be at least one inch but no more than two inches below the graphic.

(e) Signs that meet the requirements of this regulation may be obtained by contacting the office of the attorney general or may be reproduced from the web site of the office of the attorney general. (Authorized by K.S.A. 2014 Supp. 75-7c10 and 75-7c24; implementing K.S.A. 2014 Supp. 75-7c10, 75-7c20 and 75-7c24; effective, T-16-6-30-14, July 1, 2014; effective Oct. 24, 2014.)

Article 14.—SCRAP METAL DEALERS' REGISTRATION AND HEARING PROCEDURE

16-14-1. Fees. Each applicant or registrant shall pay one of the following nonrefundable fees, as applicable, for registration of each place of business for which a registration is sought:

- (a) Scrap metal dealer's initial registration certificate \$1,000
- (b) Annual renewal of a scrap metal dealer's registration certificate \$1,000

(Authorized by L. 2015, ch. 96, sec. 1; implementing K.S.A. 2014 Supp. 50-6,112a, as amended by L. 2015, ch. 96, sec. 15; effective, T-16-8-10-15, Aug. 10, 2015; effective Dec. 4, 2015.)

16-14-2. Initial application. (a) Each person seeking an initial registration certificate shall submit an application that consists of the following:

(1) An initial application form provided by the attorney general and fully completed by the applicant;

(2) payment of the initial registration certificate fee specified in K.A.R. 16-14-1; and

(3) a copy of the applicant's current state or federal government-issued photographic identification.

(b) An application for an initial registration certificate shall be deemed incomplete if the application fails to include all information required by the application form and if the applicant fails to submit the items required in paragraphs (a)(2) and (3). If the applicant fails to provide all missing information, documents, and the applicable fee within 30 days of notification by the attorney general that the application is incomplete, the application shall be deemed abandoned, and all fees accompanying the application shall be retained by the attorney general and shall not be refunded to the applicant. (Authorized by L. 2015, ch. 96, sec. 1; implementing K.S.A. 2014 Supp. 50-6,112a, as amended by L. 2015, ch. 96, sec. 15; effective, T-16-8-10-15, Aug. 10, 2015; effective Dec. 4, 2015.)

16-14-3. Computation of time. (a) In computing any period of time prescribed by the scrap metal theft reduction act or this article concerning registration, the day of the action or default from which the designated period of time begins to run shall not be included. The last day of the period so computed shall be included, unless that day is a Saturday, Sunday, or legal holiday, in which event the period shall include the end of the next day that is not a Saturday, Sunday, or legal holiday.

(b) Unless otherwise specified in this article, each of the following terms shall have the meaning specified in this subsection:

(1) "Day" means calendar day and not business day. Intermediate Saturdays, Sundays, and legal holidays shall be included in the computation.

(2) "Business day" means any day that is not a Saturday, Sunday, or legal holiday.

(3) "Legal holiday" shall include any day designated as a holiday by any Kansas statute or regulation.

(c) If the attorney general's office is not open to the public on the last day of any time period prescribed by this article, the time period shall be extended until the next business day on which the attorney general's office is open for business. (Authorized by L. 2015, ch. 96, sec. 1; implementing K.S.A. 2014 Supp. 50-6,112c, as amended by L. 2015, ch. 96, sec. 17; effective, T-16-8-10-15, Aug. 10, 2015; effective Dec. 4, 2015.)

16-14-4. Hearings. Any applicant or registered scrap metal dealer may request a hearing on an order denying, suspending, or revoking that individual's application or registration by submitting a written request for a hearing to the attorney general's office within 15 days of the date of service of the order denying, suspending, or revoking the registration. (Authorized by L. 2015, ch. 96, sec. 1; implementing K.S.A. 2014 Supp. 50-6,112c, as amended by L. 2015, ch. 96, sec. 17; effective, T-16-8-10-15, Aug. 10, 2015; effective Dec. 4, 2015.)

16-14-5. Notice of hearing. The time and place of each hearing shall be set at least 10 days before the hearing. Notice of the hearing shall be provided to all parties. (Authorized by L. 2015, ch. 96, sec. 1; implementing K.S.A. 2014 Supp. 50-6,112c, as amended by L. 2015, ch. 96, sec. 17; effective, T-16-8-10-15, Aug. 10, 2015; effective Dec. 4, 2015.)

16-14-6. Service of order or notice. (a) Service of an order or notice shall be made upon each party and, if any, each party's attorney of record by delivering a copy of the order or notice to the person to be served or by mailing a copy of the order or notice by first-class mail to the person at the person's last known address. Service shall be presumed if the attorney general, or the attorney general's designee, delivers a written certificate of service. Delivery of a copy of an order or notice to a person shall mean handing the order or notice to the person or leaving the order or notice at the person's principal place of business or residence with a responsible person who works or resides there. Service by mail shall be complete upon mailing.

(b) Whenever a party has the right or is required to perform an action within a prescribed period after service of a notice or order and the notice or order is served by mail, three days shall be added to the prescribed period. (Authorized by L. 2015, ch. 96, sec. 1; implementing K.S.A. 2014 Supp. 50-6,112c, as amended by L. 2015, ch. 96, sec. 17; effective, T-16-8-10-15, Aug. 10, 2015; effective Dec. 4, 2015.)

16-14-7. Hearing procedure. The following provisions shall apply at each hearing:

(a) The proceedings shall be conducted by the attorney general or the attorney general's designee.

(b) To the extent necessary for full disclosure of all relevant facts and issues, each party shall have

the opportunity to respond, present evidence and argument, conduct cross-examination, and submit rebuttal evidence, except as restricted by a limited grant of intervention or by the prehearing order.

(c) Nonparties may be given an opportunity by the attorney general or the attorney general's designee to present oral or written statements. Each party shall be given an opportunity to challenge or rebut these statements. On motion of any party, the statements shall be required by the attorney general or the attorney general's designee to be given under oath or affirmation.

(d) The hearing may occur by telephone or other electronic means, if each participant in the hearing has an opportunity to participate in the entire proceeding while it is taking place.

(e) The hearing shall be recorded at the expense of the attorney general's office. The attorney general's office shall not be required at its own expense to prepare a transcript, unless required to do so by a provision of law. Any party, at the party's expense and subject to any reasonable conditions that the attorney general's office may establish, may cause a person other than the attorney general's office to prepare a transcript from the record or cause additional recordings to be made during the hearing.

(f) Each hearing shall be open to public observation, except to the limited extent as determined by the attorney general or the attorney general's designee, that it is necessary to close parts of the hearing pursuant to any provision of law requiring confidentiality or expressly authorizing closure. (Authorized by L. 2015, ch. 96, sec. 1; implementing K.S.A. 2014 Supp. 50-6,112c, as amended by L. 2015, ch. 96, sec. 17; effective, T-16-8-10-15, Aug. 10, 2015; effective Dec. 4, 2015.)

16-14-8. Evidence. (a) At each hearing, the parties shall not be bound by technical rules of evidence, and the parties shall have reasonable opportunity to be heard and to present evidence. The attorney general or the attorney general's designee shall act reasonably and without partiality. The rules of privilege recognized by law shall be followed by the attorney general or the attorney general's designee. Evidence shall not be required to be excluded solely because the evidence is hearsay.

(b) All testimony of parties and witnesses shall be given under oath or affirmation. The power to administer an oath or affirmation for that purpose shall reside with the attorney general or the attorney general's designee.

(c) Any statements presented by nonparties in accordance with this article may be received as evidence.

(d) Any part of the evidence may be received in written form if doing so will expedite the hearing without substantial prejudice to the interests of any party.

(e) Documentary evidence may be received in the form of a copy or excerpt. Upon request, the parties shall be given an opportunity to compare the copy with the original if the original is available.

(f) Official notice may be taken of the following:

(1) Any matter that could be judicially noticed in Kansas courts;

(2) the record of other proceedings before the attorney general or the attorney general's designee;

(3) technical or scientific matters within the specialized knowledge of the attorney general's office; and

(4) codes or standards that have been adopted by an agency of the United States, of Kansas, or of another state or by a nationally recognized organization or association.

(g) The parties shall be notified before or during the hearing, or before the issuance of any order that is based in whole or in part on matters or material noticed, of the specific matters or material noticed and the source thereof, including any staff memoranda and data. The parties shall be afforded an opportunity to contest and rebut the matters or material so noticed. (Authorized by L. 2015, ch. 96, sec. 1; implementing K.S.A. 2014 Supp. 50-6,112c, as amended by L. 2015, ch. 96, sec. 17; effective, T-16-8-10-15, Aug. 10, 2015; effective Dec. 4, 2015.)

16-14-9. Default. If the party requesting a hearing defaults by failing to attend or participate in a hearing or any other stage of an adjudicative proceeding, the request for a hearing shall be dismissed and the order denying, suspending, or revoking the registration shall become final. (Authorized by L. 2015, ch. 96, sec. 1; implementing K.S.A. 2014 Supp. 50-6,112c, as amended by L. 2015, ch. 96, sec. 17; effective, T-16-8-10-15, Aug. 10, 2015; effective Dec. 4, 2015.)

16-14-10. Submission of required information. (a) Except as provided in subsections (c) and (d), each scrap metal dealer shall submit the information required by K.S.A. 2016 Supp. 50-6,110(b) and (c), and amendments thereto, by no later than 11:59 p.m. local time on the same day.

This information shall be submitted by entering the required information into the database.

(b) Failure to timely submit the information required by K.S.A. 2016 Supp. 50-6,110(b) and (c), and amendments thereto, shall be grounds for suspension of the scrap metal dealer's registration pursuant to K.S.A. 2016 Supp. 50-6,112c, and amendments thereto.

(c) A scrap metal dealer who purchases regulated scrap metal from a licensed business shall not be required to comply with subsection (a) if the purchase is made at the fixed business location of the licensed business. In this case, each scrap metal dealer shall enter the following information into the database by no later than 11:59 p.m. local time on the same day:

- (1) The time, date, and place of the transaction;
- (2) the name of the licensed business;
- (3) a general description of the predominant types of junk vehicle or other regulated scrap metal property being purchased in the transaction; and
- (4) the weight, quantity, or volume, made in accordance with the custom of the trade, of the regulated scrap metal being purchased.

(d) Any scrap metal dealer may submit a written application to the attorney general to request additional time to comply with subsection (a). Each application shall include documentation of one of the following:

- (1) No satellite-based or land-based internet service providers offer internet service to either the scrap metal dealer's residence or the scrap metal dealer's place of business.
- (2) Compliance with subsections (a) and (c) would result in extreme hardship. (Authorized by K.S.A. 2016 Supp. 50-6,109a; implementing K.S.A. 2016 Supp. 50-6,109a and 50-6,110; effective, T-16-6-29-16, July 1, 2016; effective Oct. 21, 2016.)

16-14-11. Definitions. As used in this article of the attorney general's regulations and in the scrap metal theft reduction act, K.S.A. 2016 Supp. 50-6,109 et seq. and amendments thereto, each of the following terms shall have the meaning specified in this regulation:

(a) "Database" means the online central repository approved by the attorney general to be used by each scrap metal dealer to submit the information required by K.S.A. 2016 Supp. 50-6,110, and amendments thereto.

(b) "Licensed business" means a sole proprietorship, general partnership, limited partnership,

limited liability partnership, corporation, or limited liability company that lawfully operates out of a fixed business location and that is reasonably expected to generate regulated scrap metal at the fixed business location in the ordinary course of business due to the nature of the products or services offered. (Authorized by K.S.A. 2016 Supp. 50-6,109a; implementing K.S.A. 2016 Supp. 50-6,109a and 50-6,110; effective, T-16-6-29-16, July 1, 2016; effective Oct. 21, 2016.)

Article 15.—BAIL ENFORCEMENT AGENT LICENSING

16-15-1. Definitions. For purposes of these regulations, each of the following terms shall have the meaning specified in this regulation:

(a) "Attorney general" means the Kansas attorney general and the attorney general's designees.

(b) "Authorization" means a registration, certificate, permit, licensure, or other documented approval that allows an applicant or a licensee to act as a bail enforcement agent or bounty hunter in another jurisdiction.

(c) "Conviction" means any of the following, whether the penalty has been imposed, reduced, suspended, deferred, or otherwise withheld, unless the conviction has been expunged:

- (1) An unvacated adjudication of guilt;
- (2) a plea of guilty or nolo contendere accepted by the court; or
- (3) a deferred judgment or probation agreement.

(d) "Encumbered" means that the issuing authority for an authorization has fined, censured, limited, conditioned, suspended, revoked, or taken any other similar action or penalty against the authorization, whether done publicly or privately.

(e) "Expunged" shall have the meaning consistent with the definition of "expungement" in K.S.A. 21-5111, and amendments thereto, which shall include substantially similar processes from other jurisdictions.

(f) "Jurisdiction" means any of the following:

(1) Kansas, or any other state of the United States, and any department or branch of that state's government, or any agency, authority, institution, or other instrumentality thereof;

(2) municipality, which shall mean any county, township, city, school district, or other political or taxing subdivision of Kansas, or any other state of the United States, or any agency, authority, institution, or other instrumentality thereof;

- (3) the District of Columbia;
- (4) any territory of the United States; or
- (5) any district, province, territory, or state of any foreign country.

(g) "License" means a bail enforcement agent license issued by Kansas.

(h) "Licensee" means a person who holds a license. (Authorized by K.S.A. 2016 Supp. 75-7e07; implementing K.S.A. 2016 Supp. 75-7e03, 75-7e06; effective, T-16-6-29-16, July 1, 2016; effective Oct. 21, 2016.)

16-15-2. Application for license. (a) Except as otherwise provided by law, each person wanting to engage in activities as a bail enforcement agent, which is commonly known as a bounty hunter, shall submit an application to the attorney general on the form prescribed by the attorney general.

(b) The application shall be available electronically on the attorney general's web site. A printed copy of the application, the bail enforcement agent licensing act, and these regulations may be obtained from the attorney general for a fee of \$15.

(c) Each applicant shall meet the following requirements:

(1) Complete the entire application under penalty of perjury;

(2) have notarized those portions of the application required to be notarized; and

(3) make complete and correct statements in the application.

(d) The applicant's fingerprints shall be taken at a law enforcement agency. The fingerprint card shall include the name of the person who took the applicant's fingerprints.

(e) An application shall be deemed incomplete and shall not be considered for approval by the attorney general if the application fails to include any of the following:

(1) All signatures and information required by the application;

(2) payment of all required fees as specified in K.A.R. 16-15-3; or

(3) all attachments required by the application.

(f) Each application that remains incomplete for at least 30 days following the attorney general's request for the applicant to provide any missing information shall be deemed abandoned and shall be withdrawn from consideration.

(g) Each applicant shall include the following with the application:

(1) The applicant's full name, date of birth, residential address, business address, and name of the applicant's current employer or employers;

(2) in accordance with K.A.R. 16-15-3, payment of the following:

(A) The initial licensure fee; and

(B) the fee for the criminal history records check;

(3) a photocopy of the applicant's driver's license or other government-issued identification card from the applicant's state of residence;

(4) two color, passport-size photographs of the applicant taken within the preceding 30 days. Each photograph shall depict a full-frontal view of the applicant's head;

(5) a statement of the applicant's employment history;

(6) one classifiable set of the applicant's fingerprints taken by a federal, state, or municipal law enforcement agency;

(7) if the applicant has a criminal history, a statement of the applicant's entire criminal history including, pursuant to K.S.A. 12-4516 and K.S.A. 2016 Supp. 21-6614 and amendments thereto, any criminal history that has been expunged;

(8) a copy of the criminal history waiver form that was completed by the applicant before getting the applicant's fingerprints taken by a law enforcement agency;

(9)(A) If the applicant holds or has held an authorization to act as a bail enforcement agent in a jurisdiction other than Kansas, a copy of any current or prior authorizations held by the applicant or, if the prior authorization is no longer in the possession of the applicant, a description of who the authorizing entity was and a date as to when the authorization was last valid; and

(B) if any current or prior authorization has been encumbered by the authorizing entity, an explanation as to why that authorization was encumbered and a certified copy of any document ordering or establishing that encumbrance. The certified copy shall be submitted by the authorizing entity directly to the attorney general; and

(10) a statement that the applicant does not meet the criteria for denial of licensure under K.S.A. 2016 Supp. 75-7e03, and amendments thereto, and does not meet the criteria for any encumbrance pursuant to K.S.A. 2016 Supp. 75-7e06, and amendments thereto.

(h) Each applicant shall be responsible for the payment of any other expenses required in order to complete the application requirements speci-

fied in this regulation. (Authorized by K.S.A. 2016 Supp. 75-7e07; implementing K.S.A. 2016 Supp. 75-7e03, 75-7e06, and 75-7e08; effective, T-16-6-29-16, July 1, 2016; effective Oct. 21, 2016.)

16-15-3. Fees. (a) The following fees shall be submitted in full to the attorney general when required:

(1) An initial licensure fee of \$200, less the materials fee if that fee was previously paid;

(2) a renewal of licensure fee of \$175, less the materials fee if that fee was previously paid;

(3) in accordance with K.A.R. 16-15-2 or 16-15-4, a fee of \$57 for the criminal history records check; and

(4) a materials fee of \$15 if the applicant or licensee requests a printed copy of any of the application or renewal application materials before submitting an application.

(b) All fees, whether paid in full or part, associated with any complete or incomplete application shall be nonrefundable.

(c) Payment of application fees and renewal application fees shall be submitted by personal check, cashier's check, or money order and shall be payable to the attorney general. An applicant or licensee who has previously had a personal check submitted to the attorney general that was returned unpaid for any reason shall not be allowed to pay any required fees with a personal check.

(d) A fee of \$15 shall be charged to any licensee for a duplicate license. Each licensee requesting a duplicate license shall submit a notarized affidavit attesting to the circumstances surrounding the license being lost or stolen. (Authorized by K.S.A. 2016 Supp. 75-7e07; implementing K.S.A. 2016 Supp. 75-7e03, 75-7e05, and 75-7e08; effective, T-16-6-29-16, July 1, 2016; effective Oct. 21, 2016.)

16-15-4. License renewal. (a) Any license issued under the bail enforcement agent licensing act may be renewed every two years from the license issuance date.

(b) Fingerprints and the photographs of a licensee shall not be required in a renewal application, unless these items have already been on file with the attorney general for more than four years.

(c)(1) Each renewal application shall be submitted on the form prescribed by the attorney general and shall be complete before the license shall be eligible for renewal by the attorney general.

(2) A renewal application shall be deemed incomplete and shall not be considered for approval if the applicant fails to include any of the following:

(A) All signatures and information required by the renewal application;

(B) payment of all required fees as provided in K.A.R. 16-15-3; or

(C) all attachments required by the renewal application.

(3) A complete renewal application shall be deemed submitted according to either of the following:

(A) If mailed, the date of the last postmark on the complete renewal application; or

(B) if filed in person, the last file-stamped date applied to the complete renewal application by the attorney general.

(d) If a licensee has not submitted a complete renewal application within 30 days of the license expiration date, that license shall be considered abandoned and shall not be renewed. Any abandoned license may be reissued only after the individual successfully completes the initial application process specified in K.A.R. 16-15-2.

(e) Upon submitting a renewal application, each licensee shall notify the attorney general of the following:

(1) Any new authorizations that have been obtained by that licensee;

(2) any authorizations that have lapsed or otherwise expired; and

(3) if not already submitted to the attorney general, any authorization that has been encumbered by the issuing jurisdiction. (Authorized by K.S.A. 2016 Supp. 75-7e07; implementing K.S.A. 2016 Supp. 75-7e05, 75-7e08; effective, T-16-6-29-16, July 1, 2016; effective Oct. 21, 2016.)

Article 16.—SKILL DEVELOPMENT TRAINING COURSE

16-16-1. Definitions. (a) “Campus police officer” shall mean a school security officer designated by the board of education of any school district pursuant to K.S.A. 72-8222, and amendments thereto.

(b) “Law enforcement officer” and “police officer” shall mean a full-time or part-time salaried officer or employee of the state, a county, or a city whose duties include the prevention or detection of crime and the enforcement of criminal or traffic law of Kansas or of any Kansas municipality. These terms shall include a campus police officer.

(c) "Law enforcement officer primarily assigned to a school" shall mean any of the following:

- (1) A campus police officer;
- (2) a school resource officer; or
- (3) a law enforcement officer jointly designated by a superintendent and the head of a law enforcement agency.

(d) "School district" shall mean a unified school district organized under the laws of Kansas.

(e) "School resource officer" shall mean a law enforcement officer or police officer who is employed by a local law enforcement agency and is assigned to a school district through an agreement between the local law enforcement agency and the school district.

(f) "Superintendent" shall mean the superintendent of schools appointed by the board of education of a school district.

(g) "Superintendent's designee" shall mean a person who is appointed by the superintendent and who is licensed by the Kansas state board of education and employed by the superintendent's school district but is not a law enforcement officer. (Authorized by and implementing L. 2016, ch. 46, §14; effective Dec. 16, 2016.)

16-16-2. Curriculum. There is hereby created a skill development training course, which shall include the following curriculum:

- (a) Information on adolescent development;
- (b) risk and needs assessments;
- (c) mental health;
- (d) diversity;
- (e) youth crisis intervention;
- (f) substance abuse prevention;
- (g) trauma-informed responses; and
- (h) other evidence-based practices in school policing to mitigate student juvenile justice exposure. (Authorized by and implementing L. 2016, ch. 46, §14; effective Dec. 16, 2016.)

16-16-3. Training requirement. (a) Each law enforcement officer primarily assigned to a school and each superintendent or superintendent's designee shall be required to successfully complete a skill development training course, pursuant to K.A.R. 16-16-2, that has been developed and either provided or authorized by the Kansas law enforcement training center according to the following, whichever is later:

- (1) On or before June 30, 2018; or
- (2) within one year of being designated as a law enforcement officer primarily assigned to a school

or employed by a school district as a superintendent or superintendent's designee.

(b) Nothing in this regulation shall require a law enforcement officer primarily assigned to a school or a superintendent or superintendent's designee to complete more than one skill development training course.

(c) Each law enforcement officer primarily assigned to a school and each superintendent or superintendent's designee shall submit proof of successful completion of a skill development training course, pursuant to K.A.R. 16-16-2, that was developed and either provided or authorized by the Kansas law enforcement training center to that individual's respective certification or licensing agency. (Authorized by and implementing L. 2016, ch. 46, §14; effective Dec. 16, 2016.)

Article 17.—COMMERCIAL DRIVER'S LICENSE: TRAINING IN HUMAN TRAFFICKING IDENTIFICATION AND PREVENTION

16-17-1. Training course approval for providers. (a) For purposes of this regulation, "human trafficking" shall have the meaning specified in K.S.A. 2017 Supp. 21-5426, and amendments thereto, and shall include "commercial sexual exploitation of a child" as specified in K.S.A. 2017 Supp. 21-6422, and amendments thereto.

(b) No person or entity shall provide a training course on human trafficking identification and prevention pursuant to K.S.A. 2017 Supp. 8-2,157, and amendments thereto, unless the office of the attorney general has issued a letter of approval for that training course.

(c) Each person or entity seeking approval of a training course on human trafficking identification and prevention shall submit an application to the office of the attorney general, human trafficking identification and prevention training approval, in Topeka, Kansas. The application shall include at least the following information:

(1) (A) The name and address of the person or entity;

(B) the name and title of the person submitting the application on behalf of the person or entity, with the person's signature and a statement certifying that the information and materials submitted will be used in the training course for which approval is being sought; and

(C) the name, title, and telephone number of the contact person for course approval matters; and

(2) a copy of all training materials. The training materials shall include at least the following:

(A) Written materials or video materials, or both;

(B) a definition of “human trafficking” consistent with subsection (a);

(C) strategies on what to look for and how to identify potential victims of human trafficking; and

(D) information on how and to whom to report suspected human trafficking.

(d) After a training course on human trafficking identification and prevention has been approved, new or revised written or video training materials shall not be used until an application for approval of the new or revised training materials has been submitted to and approved by the office of the attorney general pursuant to this regulation. (Authorized by and implementing K.S.A. 2017 Supp. 8-2,157; effective March 9, 2018.)

Article 18.—ELDER AND DEPENDENT ADULT ABUSE PREVENTION COUNCIL

16-18-1. Definitions. Each of the following terms, as used in this article of the attorney general’s regulations, shall have the meaning specified in this regulation:

(a) “ANE unit” means the abuse, neglect, and exploitation of persons unit created in the office of the attorney general pursuant to K.S.A. 75-723, and amendments thereto.

(b) “Chairperson” means the person from the ANE unit who serves as the council’s chairperson.

(c) “Council” means the elder and dependent adult abuse prevention council, which shall advise and may make recommendations to the ANE unit and the attorney general.

(d) “Multidisciplinary team” and “MDT” mean a group of individuals who have background, education, or experience in one or more disciplines or fields of study in preventing, detecting, and investigating abuse, neglect, or exploitation of elder or dependent adults. (Authorized by and implementing K.S.A. 2018 Supp. 75-723; effective July 19, 2019.)

16-18-2. Membership; meetings. (a) The elder and dependent adult abuse prevention council is hereby established by this regulation. The council shall consist of the following members appointed by the attorney general:

(1) A representative from the ANE unit, who shall serve as the chairperson;

(2) a representative from the medicaid fraud and abuse division of the attorney general’s office;

(3) a representative from the consumer protection division of the attorney general’s office;

(4) a representative of the attorney general, who shall serve as the prevention and education outreach coordinator;

(5) a representative of the attorney general, who shall serve as the MDT and elder or dependent adult victim coordinator;

(6) a representative from the Kansas department for aging and disability services (KDADS), who shall be appointed in consultation with and agreement of the secretary of KDADS;

(7) a representative from the Kansas department for children and families (DCF), who shall be appointed in consultation with and agreement of the secretary of DCF;

(8) a representative from the Kansas department of health and environment (KDHE), who shall be appointed in consultation with and agreement of the secretary of KDHE;

(9) a representative of the governor, who shall be appointed in consultation with and agreement of the governor;

(10) a prosecutor from a district attorney’s office, who shall be appointed in consultation with the Kansas county and district attorneys association;

(11) a county attorney, who shall be appointed in consultation with the Kansas county and district attorneys association;

(12) a law enforcement officer or police officer certified by the Kansas commission on peace officers’ standards and training, who shall be appointed in consultation with the Kansas sheriffs’ association, the Kansas association of chiefs of police, or the Kansas peace officers association;

(13) a representative from the medical services industry who is experienced in matters involving elder or dependent adult abuse;

(14) a representative from the financial services industry who is experienced in matters involving elder or dependent adult abuse;

(15) two representatives from advocacy organizations who are experienced in the prevention of elder or dependent adult abuse; and

(16) other individuals as deemed necessary by the attorney general to serve on the council.

(b) The council shall meet at least quarterly upon call of the chairperson and shall maintain minutes of each meeting. (Authorized by and implementing K.S.A. 2018 Supp. 75-723; effective July 19, 2019.)

16-18-3. Duties. (a) The council shall advise and may make recommendations to the ANE unit and the attorney general to assist the ANE unit with the statutory duty of the ANE unit pursuant to K.S.A. 2018 Supp. 75-723, and amendments thereto.

(b) To fulfill its duties, the council may perform the following:

(1) Take testimony or gather and receive information;

(2) establish subcommittees or working groups on particular topics, which may be composed exclusively of members of the council or may, at the discretion of the chairperson, include persons who are not members of the council;

(3) assist in developing local or regional MDTs to prevent, detect, and investigate abuse, neglect, or exploitation of elder or dependent adults;

(4) coordinate and engage in prevention activities for education, outreach, and awareness, including the development of a publicly available clearinghouse of information on elder or dependent adult abuse prevention; and

(5) undertake any other tasks as may be requested by the attorney general.

(c) The council shall comply with the Kansas open meetings act and the Kansas open records act.

(d) The council shall have the authority to request legal counsel and any other staff for its support from the attorney general.

(e) The council shall submit to the ANE unit and the attorney general an annual report on the council's work, recommendations, and anticipated activities. (Authorized by and implementing K.S.A. 2018 Supp. 75-723; effective July 19, 2019.)

Agency 17

Office of the State Bank Commissioner

Articles

17-11. DOCUMENTATION REQUIREMENTS.

17-24. MORTGAGE BUSINESS.

17-25. CREDIT SERVICES ORGANIZATIONS.

Article 11.—DOCUMENTATION REQUIREMENTS

17-11-18. Loans; documentation requirements. (a) Except as specified in this subsection, each bank shall maintain complete and current credit information, not older than 15 months, for each borrower for whom the total amount of the following exceeds \$100,000:

(1) All loans made to the borrower; and

(2) all loans attributable to the borrower pursuant to K.S.A. 9-1104, and amendments thereto. This requirement shall not apply if all loans made or attributable to the borrower are adequately secured.

(b) Unless loan repayment is guaranteed by a governmental program or private insurance company, the following requirements shall be met:

(1) For each real estate loan in excess of \$25,000 but less than \$50,000, the bank shall complete one of the following tasks:

(A) The bank shall verify in writing that a lien search of the records of the county register of deed's office was conducted and the bank's lien position was determined. This verification of a lien search shall be on file with the bank.

(B) The bank shall obtain and maintain on file either an attorney's written title opinion or a title insurance policy.

(C) For a non-purchase-money mortgage that is not a refinancing of an existing first mortgage, the bank shall obtain an insurance policy fully insuring the bank against loss of the mortgage priority position. The bank shall maintain a copy of the policy and any other supporting information on file.

(2) For each real estate loan of \$50,000 or more, an attorney's written title opinion or a title insurance policy shall be on file with the bank.

(c) If the value of the improvements on any real estate is necessary for adequate protection of the loan, an insurance policy covering these improve-

ments against fire and windstorm shall be on file with the bank for any loan in excess of \$25,000.

(d) A real estate mortgage or deed of trust, showing the filing information with the county register of deeds, shall be on file with the bank for each loan collateralized by real estate.

(e) For any loan collateralized by personal property, if the bank is required by law to file a financing statement to perfect a security interest, the bank shall retain a copy of the filed financing statement. In other cases, the bank shall maintain all documents related to the loan. (Authorized by K.S.A. 2013 Supp. 9-1713; implementing K.S.A. 2013 Supp. 9-1101, K.S.A. 9-1130, and K.S.A. 2013 Supp. 9-1713; effective Jan. 1, 1966; amended May 1, 1983; amended Jan. 27, 1992; amended Aug. 9, 1996; amended Jan. 18, 2002; amended May 30, 2003; amended May 3, 2013; amended July 11, 2014.)

17-11-21. Appraisals and evaluations. (a) Except for those transactions that meet the requirements of subsection (b) or (c), an accurate appraisal of all real estate mortgaged to secure principal debt of \$25,000 or more to a bank shall be made by an appraiser who is licensed or certified by the state in which the property is located and who is independent of the transaction.

(b) Two officers or directors, or a qualified individual who is independent of the transaction, may complete an accurate evaluation of real estate mortgaged in the following types of real estate-related transactions:

(1) Real estate mortgaged to secure principal debt of \$250,000 or less;

(2) business loans of \$1 million or less secured by real estate, if the primary source of repayment is not dependent upon the sale of, or rental income from, the real estate; or

(3) renewals or refinancing of loans, in any amount, secured by real estate, if either of the following conditions is met:

(A) There is no advancement of new monies other than funds necessary to cover reasonable closing costs; or

(B) there has been no obvious and material change in market conditions or physical aspects of the property that affects the adequacy of the real estate collateral or the validity of an existing appraisal, even with the advancement of new monies.

(c) Neither an appraisal nor an evaluation shall be required for the following types of real estate-related transactions:

(1) Loans that are well supported by income or other collateral if real estate is taken as additional collateral solely in an abundance of caution;

(2) loans to acquire or invest in real estate if a security interest is not taken in real estate;

(3) liens taken on real estate to protect rights to, or control over, collateral other than real estate;

(4) real estate operating leases that are not the equivalent of a purchase or sale; or

(5) real estate-related loans that have met all appraisal requirements necessary to be sold to, or insured by, a United States government agency or a United States government-sponsored agency.

(d) Each individual who conducts an appraisal or evaluation shall view the premises, make a written statement of value, and sign and file the statement with the bank.

(e) Despite any other provisions of this regulation, an appraisal or evaluation may be required by the commissioner if it is deemed necessary to address safety and soundness concerns. (Authorized by K.S.A. 2013 Supp. 9-1713; implementing K.S.A. 2013 Supp. 9-1101 and 9-1713; effective Jan. 1, 1966; amended May 1, 1978; amended Jan. 27, 1992; amended Oct. 19, 1992; amended Jan. 25, 1993; amended Sept. 20, 1993; amended Sept. 19, 1994; amended Aug. 9, 1996; amended Jan. 18, 2002; amended July 11, 2014.)

Article 24.—MORTGAGE BUSINESS

17-24-2. Mortgage business fees. At the time of filing any application pursuant to the Kansas mortgage business act, K.S.A. 9-2201 et seq. and amendments thereto, each applicant, licensee, or registrant shall remit to the office of the state bank commissioner the following applicable nonrefundable fees:

- (a) New or renewal application for each principal place of business \$400
- (b) New or renewal application for each branch office \$300

- (c) Application for new registration as a loan originator \$100
- (d) Renewal registration as a loan originator \$50

(Authorized by K.S.A. 2013 Supp. 9-2209; implementing K.S.A. 9-2204, K.S.A. 2013 Supp. 9-2205, and K.S.A. 9-2215; effective, T-17-4-9-99, April 9, 1999; amended Dec. 21, 2001; amended Oct. 2, 2009; amended Sept. 26, 2014.)

17-24-3. Preclicensing and continuing education; requirements.

(a) Each individual required to register as a loan originator pursuant to the Kansas mortgage business act, K.S.A. 9-2201 et seq. and amendments thereto, shall complete at least 20 hours of preclicensing professional education (PPE) approved in accordance with subsection (c), which shall include at least the following:

- (1) Three hours of federal law and regulations;
- (2) three hours of ethics, which shall include instruction on fraud, consumer protection, and fair lending issues; and

(3) two hours of training related to lending standards for the nontraditional mortgage product marketplace.

(b) Each individual required to register as a loan originator pursuant to the Kansas mortgage business act, K.S.A. 9-2201 et seq. and amendments thereto, shall annually complete at least eight hours of approved continuing professional education (CPE) as a condition of registration renewal, which shall include at least the following:

- (1) Three hours of federal law and regulations;
- (2) two hours of ethics, which shall include instruction on fraud, consumer protection, and fair lending issues; and

(3) two hours of training related to lending standards for the nontraditional mortgage product marketplace.

(c) Each PPE and each CPE course shall first be approved by the office of the state bank commissioner (OSBC), or its designee, before granting credit.

(d) In addition to the specific topic requirements in subsections (a) and (b), PPE and CPE courses shall focus on issues of mortgage business, as defined by K.S.A. 9-2201 and amendments thereto, or related industry topics.

(e) One PPE or CPE hour shall consist of at least 50 minutes of approved instruction.

(f) Each request for PPE or CPE course approval shall be submitted on a form approved by the OSBC. A request for PPE or CPE course

approval may be submitted by any person, as defined by K.S.A. 9-2201 and amendments thereto.

(g) Evidence of satisfactory completion of approved PPE or CPE courses shall be submitted in the manner prescribed by the commissioner. Each registrant shall ensure that PPE or CPE credit has been properly submitted to the OSBC and shall maintain verification records in the form of completion certificates or other documentation of attendance at approved PPE or CPE courses.

(h) Each CPE year shall begin on the first day of January and shall end on the 31st day of December each year.

(i) A registrant may receive credit for a CPE course only in the year in which the course is taken. A registrant shall not take the same approved course in the same or successive years to meet the annual requirements for CPE.

(j) Each registrant who fails to renew the registrant's certificate of registration, in accordance with K.S.A. 9-2205 and amendments thereto, shall obtain all delinquent CPE before receiving a new certificate of registration.

(k) A registrant who is an instructor of an approved continuing education course may receive credit for the registrant's own annual continuing education requirement at the rate of two hours of credit for every one hour taught. (Authorized by and implementing K.S.A. 2008 Supp. 9-2209, as amended by 2009 SB 240, §9; effective March 1, 2002; amended Oct. 2, 2009.)

17-24-4. Record retention. (a) In any mortgage transaction in which the licensee does not close the mortgage loan in the licensee's name, the licensee shall retain the following documents, as applicable, for at least 36 months following the loan closing date, or if the loan is not closed, the loan application date:

- (1) The application;
- (2) the good faith estimate;
- (3) the early truth-in-lending disclosure statement;
- (4) any written agreements with the borrower that describe rates, fees, broker compensation, and any other similar fees;
- (5) an appraisal performed by a Kansas-licensed or Kansas-certified appraiser completed within 12 months before the loan closing date, the total appraised value of the real estate as reflected in the most recent records of the tax assessor of the county in which the real estate is located, or, for a nonpurchase money real estate transaction, the

estimated market value as determined through an acceptable automated valuation model, pursuant to K.S.A. 16a-1-301(6) and amendments thereto;

(6) the signed Kansas acknowledgment as required by K.S.A. 9-2208(b), and amendments thereto;

(7) the adjustable rate mortgage (ARM) disclosure;

(8) the home equity line of credit (HELOC) disclosure statement;

(9) the affiliated business arrangement disclosure;

(10) evidence that the special information booklet, consumer handbook on adjustable rate mortgages, home equity brochure, reverse mortgage booklet, or any suitable substitute was delivered in a timely manner;

(11) the certificate of counseling for home equity conversion mortgages (HECMs);

(12) the loan cost disclosure statement for HECMs;

(13) the notice to the borrower for HECMs;

(14) phone log or any correspondence with associated notes detailing each contact with the consumer;

(15) any documentation that aided the licensee in making a credit decision, including a credit report, title work, verification of employment, verification of income, bank statements, payroll records, and tax returns;

(16) the settlement statement; and

(17) all paid invoices for appraisal, title work, credit report, and any other closing costs.

(b) In any mortgage transaction in which the licensee provides any money to fund the loan or closes the mortgage loan in the licensee's name, the licensee shall retain both the documents required in subsection (a) and the following documents, as applicable, for at least 36 months from the mortgage loan closing date:

(1) The high loan-to-value notice required by K.S.A. 16a-3-207 and amendments thereto;

(2) the final truth-in-lending disclosure statement, including an itemization of the amount financed and an itemization of any prepaid finance charges;

(3) any credit insurance requests and insurance certificates;

(4) the note and any other applicable contract addendum or rider;

(5) a copy of the filed mortgage or deed;

(6) a copy of the title policy or search;

(7) the assignment of the mortgage and note;

(8) the initial escrow account statement or escrow account waiver;

(9) the notice of the right to rescind or waiver of the right to rescind, if applicable;

(10) the special home ownership and equity protection act disclosures required by regulation Z in 12 CFR 226.32(c) and 226.34(a)(2), as amended and in effect on October 1, 2009, if applicable;

(11) the mortgage servicing disclosure statement and applicant acknowledgement;

(12) the notice of transfer of mortgage servicing;

(13) any interest rate lock-in agreement or float agreement; and

(14) any other disclosures or statements required by law.

(c) In any mortgage transaction in which the licensee owns the mortgage loan or the servicing rights of the mortgage loan and directly or indirectly undertakes collection of payments or enforcement of rights against debtors, the licensee shall retain the documents required in subsections (a) and (b) and the following documents, as applicable, for at least 36 months from the final entry to each account:

(1) A complete payment history, including the following:

(A) An explanation of transaction codes, if used;

(B) the principal balance;

(C) the payment amount;

(D) the payment date;

(E) the distribution of the payment amount to the following:

(i) Interest;

(ii) principal;

(iii) late fees or other fees; and

(iv) escrow; and

(F) any other amounts that have been added to, or deducted from, a consumer's account;

(2) any other statements, disclosures, invoices, or information for each account, including the following:

(A) Documentation supporting any amounts added to a consumer's account or evidence that a service was actually performed in connection with these amounts, or both, including costs of collection, attorney's fees, property inspections, property preservations, and broker price opinions;

(B) annual escrow account statements and related escrow account analyses;

(C) notice of shortage or deficiency in escrow account;

(D) loan modification agreements;

(E) forbearance or any other repayment agreements;

(F) subordination agreements;

(G) foreclosure notices;

(H) evidence of sale of foreclosed homes;

(I) surplus or deficiency balance statements;

(J) default-related correspondence or documents;

(K) the notice of the consumer's right to cure;

(L) any property insurance advance disclosure;

(M) force-placed property insurance;

(N) notice and evidence of credit insurance premium refunds;

(O) deferred interest;

(P) suspense accounts;

(Q) phone log or any correspondence with associated notes detailing each contact between the servicer and the consumer; and

(R) any other product or service agreements; and

(3) documents related to the general servicing activities of the licensee, including the following:

(A) Historical records for all adjustable rate mortgage indices used;

(B) a log of all accounts sold, transferred, or assigned that details to whom the accounts were sold, transferred, or assigned;

(C) a log of all accounts in which foreclosure activity has been initiated;

(D) a log of all credit insurance claims and accounts paid by credit insurance; and

(E) a schedule of servicing fees and charges imposed by the licensee or a third party.

(d) In addition to meeting the requirements specified in subsections (a), (b), and (c), each licensee shall retain for at least the previous 36 months the documents related to the general business activities of the licensee, which shall include the following:

(1) The business account check ledger or register;

(2) all financial statements, balance sheets, or statements of condition;

(3) all escrow account ledgers and related deposit statements as required by K.S.A. 9-2213, and amendments thereto;

(4) a journal of mortgage transactions as required by K.S.A. 9-2216a and amendments thereto;

(5) all lease agreements for Kansas locations; and

(6) a schedule of the licensee's fees and charges. (Authorized by K.S.A. 9-2209, as amended by 2009 SB 240, §9; implementing K.S.A. 2008

Supp. 9-2208, K.S.A. 9-2213, and K.S.A. 2008 Supp. 9-2216, as amended by 2009 SB 240, §12; effective Oct. 31, 2003; amended Oct. 2, 2009.)

17-24-5. Prelicensure testing. (a) On and after July 31, 2010, each individual required to register as a loan originator pursuant to the Kansas mortgage business act, K.S.A. 9-2201 et seq. and amendments thereto, shall pass a qualified written test. For purposes of this regulation, the commissioner's designee for developing and administering the qualified written test shall be the nationwide mortgage licensing system and registry.

(b) A written test shall not be treated as a qualified written test for purposes of subsection (a) unless the test adequately measures the applicant's knowledge and comprehension in appropriate subject areas, including the following:

- (1) Ethics;
- (2) federal laws and regulations pertaining to mortgage origination;
- (3) state laws and regulations pertaining to mortgage origination; and
- (4) federal and state laws and regulations, including instruction on fraud, consumer protection, the nontraditional mortgage marketplace, and fair lending issues.

(c)(1) An applicant shall not be considered to have passed a qualified written test unless the applicant achieves a test score of at least 75 percent.

(2) An applicant may retake a test three consecutive times, with each consecutive taking occurring at least 30 days after the preceding test.

(3) After failing three consecutive tests, an applicant shall wait at least six months before taking the test again.

(4) A registrant who fails to maintain a valid license for five years or longer shall retake the test, not including any time during which the individual is a registered loan originator, as defined in sec-

tion 1503 of title V, S.A.F.E. mortgage licensing act of 2008, P.L. 110-289. (Authorized by and implementing K.S.A. 2008 Supp. 9-2209, as amended by 2009 SB 240, §9; effective Oct. 2, 2009.)

17-24-6. Bond requirements. Each applicant for a new or renewal Kansas mortgage business act license shall submit a bond in the following amounts: (a) For any applicant who maintains a bona fide office, \$50,000.00 or, if the applicant or licensee originated or made more than \$50,000,000.00 in Kansas mortgage loans during the previous calendar year, \$75,000.00; or

(b) for each applicant or licensee who does not maintain a bona fide office, \$100,000.00 or, if the applicant or licensee originated more than \$50,000,000.00 in Kansas mortgage loans during the previous calendar year, \$125,000.00. (Authorized by K.S.A. 2008 Supp. 9-2209, as amended by 2009 SB 240, §9, and K.S.A. 2008 Supp. 9-2211, as amended by 2009 SB 240, §10; implementing K.S.A. 2008 Supp. 9-2211, as amended by 2009 SB 240, §10; effective Oct. 2, 2009.)

Article 25.—CREDIT SERVICES ORGANIZATIONS

17-25-1. Registration and renewal fees. When filing any application or renewal pursuant to the Kansas credit services organization act, K.S.A. 50-1116 et seq. and amendments thereto, each applicant or registrant shall remit to the office of the state bank commissioner the applicable nonrefundable fee, as follows:

- (a) Application for initial registration..... \$400
- (b) Renewal application for registration \$150

(Authorized by K.S.A. 50-1118 and K.S.A. 50-1128; implementing K.S.A. 50-1118; effective April 4, 2008; amended Sept. 26, 2014.)

Agency 19

Governmental Ethics Commission

Editor's Note:

Effective July 1, 1998, the Kansas Commission on Governmental Standards and Conduct was redesignated as the Governmental Ethics Commission. Rules and regulations of the Kansas Commission on Governmental Standards and Conduct were by law specifically retained in force and effect and became the rules and regulations of the Governmental Ethics Commission until amended or revoked by the successor commission.

Editor's Note:

Effective July 1, 1991, the Kansas Commission on Governmental Standards and Conduct was created to replace the Kansas Public Disclosure Commission. Rules and regulations of the Kansas Public Disclosure Commission were by law specifically retained in force and effect and became the rules and regulations of the Kansas Commission on Governmental Standards and Conduct until amended or revoked by the successor commission.

- 19-6. DISCLOSURE AND CONFIDENTIAL PROCEDURES.
- 19-22. CONTRIBUTIONS AND OTHER RECEIPTS.
- 19-23. EXPENDITURES AND OTHER DISBURSEMENTS.
- 19-30. CONTRIBUTION LIMITATIONS.

Article 6.—DISCLOSURE AND CONFIDENTIAL PROCEDURES

19-6-1. Nondisclosure and public record.

(a) (1) Except as otherwise provided by relevant law and as provided in K.A.R. 19-5-5, the following shall be confidential:

(A) All records, complaints, and documents of the commission and all reports filed with, submitted to, or made by the commission; and

(B) all records and transcripts of investigations, inquiries, and hearings of the commission under K.S.A. 46-215 et seq. and K.S.A. 25-4142 et seq. and amendments thereto.

(2) The items specified in this subsection shall not be open to inspection by any individual other than a member of the commission, an employee of the commission, or a state officer or employee designated to assist the commission.

(b) Nothing contained in this regulation shall prohibit any disclosure that is reasonable and necessary to investigate any matter. The following shall be public records and open to public inspection:

(1) Each complaint and any amendments after a determination that probable cause exists;

(2) each answer and any amendments with the consent of the respondent;

(3) any matter presented at a public meeting or public hearing; and

(4) each report of the commission stating a final finding of fact.

(c) Any person subject to an investigation and any respondent may release any report or order issued pursuant to K.A.R. 19-3-1 or K.A.R. 19-5-9 and may comment on the report or order. The confidentiality requirements of relevant law shall be met by all members of the commission and its staff. (Authorized by K.S.A. 2008 Supp. 25-4119a, K.S.A. 46-253; implementing K.S.A. 25-4161, 25-4165, 46-256, and 46-259; effective, E-76-52, Oct. 24, 1975; effective, E-77-20, May 1, 1976; effective Feb. 15, 1977; amended May 1, 1980; amended Feb. 12, 2010.)

Article 22.—CONTRIBUTIONS AND OTHER RECEIPTS

19-22-1. Contributions. (a) General. None of the following shall constitute a contribution if the transaction is made in the ordinary course of business or complies with common trade practices and the transaction does not have as its purpose the nomination, election, or defeat of a clearly identified candidate for state office:

- (1) A transfer of goods and services;
- (2) the forgiving of a debt; or
- (3) the rendering of a discount.

The carryover of funds or inventory by a candidate, candidate committee, party committee, or

political committee from one election period to another shall not constitute a contribution.

(b) Candidate contributions. The transfer of a candidate's personal funds to the candidate's treasurer for use by the treasurer in the candidate's campaign shall constitute a contribution made by the candidate. (c) In-kind contributions. An in-kind contribution shall constitute a contribution. Those transactions that are excluded from the definition of in-kind contribution shall also be excluded from the definition of contribution. (Authorized by K.S.A. 2009 Supp. 25-4119a; implementing K.S.A. 2009 Supp. 25-4143 (e)(1); effective, E-76-56, Nov. 26, 1975; effective, E-77-20, May 1, 1976; effective Feb. 15, 1977; effective May 1, 1980; amended Feb. 18, 2011.)

Article 23.—EXPENDITURES AND OTHER DISBURSEMENTS

19-23-1. Expenditures. Costs associated with attending informational meetings of the commission or otherwise obtaining information

from the commission shall not constitute expenditures. Costs associated with defending actions brought pursuant to the act shall not constitute expenditures. Costs associated with employing accountants, attorneys, or other persons for advice concerning the requirements of the act or for keeping accounts and records shall constitute expenditures. (Authorized by K.S.A. 2009 Supp. 25-4119a; implementing K.S.A. 2009 Supp. 25-4143 (g)(1); effective, E-76-56, Nov. 26, 1975; effective, E-77-20, May 1, 1976; amended, E-77-47, Sept. 30, 1976; effective Feb. 15, 1977; amended May 1, 1980; amended Feb. 18, 2011.)

Article 30.—CONTRIBUTION LIMITATIONS

19-30-4. (Authorized by K.S.A. 1991 Supp. 25-4119a; implementing K.S.A. 25-4153; effective, E-77-20, May 1, 1976; amended, E-77-47, Sept. 30, 1976; effective Feb. 15, 1977; amended May 1, 1980; amended May 1, 1982; amended June 22, 1992; revoked Feb. 18, 2011.)

Crime Victims Compensation Board

Editor's Note:

Effective July 1, 1989, the Crime Victims Reparations Board shall be and is hereby officially designated as the Crime Victims Compensation Board. On and after July 1, 1989, whenever the Crime Victims Reparations Board, or words of like effect, is referred to or designated by the statute, contract or other document, such reference shall mean and apply to the Crime Victims Compensation Board.

Articles

- 20-1. DEFINITIONS.
- 20-2. CLAIMS.
- 20-3. HEARINGS.
- 20-6. DEFINITIONS.
- 20-15. NOTORIETY FOR PROFIT CONTRACTS.

Article 1.—DEFINITIONS

20-1-1. Definitions. For the purpose of the act and the board's regulations, each of the following terms shall have the meaning specified in this regulation:

(a) "Accomplice" means one who unites with another in a crime, by aiding or abetting in the crime, by advising or encouraging the crime, or by inciting the criminal conduct causing the claimant's injury.

(b) "Act" means K.S.A. 74-7301 et seq., and amendments thereto.

(c) "Allowable expense" means "allowance expense" as defined in K.S.A. 74-7301, and amendments thereto.

(d) "Extenuating circumstances" means facts that cause reasonable charges for reasonably needed mental health counseling to exceed the presumptive limits specified in K.A.R. 20-2-3.

(e) "Grief therapy" means the counseling or treatment of a victim by reason of family grief.

(f) "Mental health counseling" means a confidential service that provides problem solving and support concerning emotional issues that result from criminal victimization. Mental health counseling has as its primary purpose the enhancement, protection, and restoration of the victim's sense of well-being and social functioning skills. This term shall not include any of the following:

- (1) Efforts to verify or validate claims or reports of criminally injurious conduct;
- (2) advocacy functions, including attendance at

medical or law enforcement procedures or criminal justice proceedings; or

- (3) crisis telephone counseling.

(g) "Victim by reason of family grief" means the spouse, children, siblings, parents, legal guardian, stepparents, and grandparents of a homicide victim. (Authorized by and implementing K.S.A. 74-7304; effective May 1, 1980; amended May 1, 1984; amended Nov. 15, 1993; amended Jan. 10, 2014.)

20-1-2. (Authorized by K.S.A. 1979 Supp. 74-7304; effective May 1, 1980; revoked Jan. 10, 2014.)

Article 2.—CLAIMS

20-2-1. (Authorized by and implementing K.S.A. 74-7304; effective May 1, 1980; amended May 1, 1984; revoked Jan. 10, 2014.)

20-2-2. Cooperation with the board. (a) All claimants and claimants' attorneys shall fully cooperate with the board and the board's investigators, agents, and representatives. If a claimant or a claimant's attorney fails to fully cooperate, the claim may be reduced or denied by the board.

(b) Failure to fully cooperate shall include the following:

- (1) Failing to fully complete the application for compensation provided by the board;
- (2) not responding to requests for information or evidence; and
- (3) knowingly making false statements to the board or the board's investigators, agents, and

representatives. (Authorized by K.S.A. 74-7304; implementing K.S.A. 74-7304 and 74-7309; effective May 1, 1980; amended May 1, 1984; amended Jan. 10, 2014.)

20-2-3. Mental health counseling award. Each mental health counseling award shall be subject to the limitations specified in this regulation.

(a) Any victim of a crime may be considered for up to a \$5,000 mental health counseling award.

(1) A standard treatment plan based on this limit shall be approved by the board.

(2) Compensation beyond the \$5,000 maximum for mental health counseling may be awarded if the board finds that extenuating circumstances justify this action and this action is supported by information, reports, or a mental health treatment plan and by recommendations of a mental health counseling provider or physician.

(3) The award for a mental health evaluation shall not exceed \$350, which may be in addition to the \$5,000 maximum. For purposes of this paragraph, mental health evaluation shall mean a diagnostic interview examination, including history, mental status, or disposition, that is administered in order to determine a plan of mental health treatment.

(b) Each victim by reason of family grief may be considered for up to a \$1,500 grief therapy award. Compensation beyond the \$1,500 maximum may be awarded if the board finds that extenuating circumstances justify this action and this action is supported by information, reports, or a mental health treatment plan and by recommendations of a mental health counseling provider or physician.

(c) If the mental health treatment plan for a victim requires that others, not including the offender, be involved in treatment, costs for third-party mental health counseling may be compensable up to the \$5,000 maximum, if the third-party mental health counseling is directly and beneficially related to the plan for treatment of the victim. Mental health counseling involving a third party shall not be compensable unless both of the following conditions are met:

(1) The primary victim is present in the mental health counseling sessions, or the focus of the treatment is to assist in the victim's recovery.

(2) The mental health treatment plan addresses the need for third-party mental health counseling.

(d) Compensable mental health counseling may be provided in either of the following:

(1) A medical or psychiatric setting under the supervision of a medical doctor or a psychiatrist licensed or registered by the Kansas board of healing arts or comparable governmental agencies in other jurisdictions having similar licensure or registration requirements. The costs of this mental health counseling incurred during inpatient treatment shall be applied toward the maximum claim for inpatient treatment; or

(2) a nonmedical setting by an individual licensed or registered by the Kansas behavioral sciences regulatory board, the Kansas board of healing arts, or comparable governmental agencies in other jurisdictions having similar licensure or registration requirements, if the mental health counseling falls within the professional parameters of the provider's license or registration.

(e) Compensation for inpatient hospitalization shall be considered only if the condition is life-threatening and the hospitalization has been recommended by the victim's physician or mental health counseling provider. Reimbursement for each instance of inpatient treatment and care shall not exceed the cost of treatment for a period of 10 days or \$10,000, whichever is less. Compensation beyond the \$10,000 maximum may be awarded if the board finds that extenuating circumstances justify this action and this action is supported by information, reports, or a mental health treatment plan and by recommendations of a mental health counseling provider or physician.

(f) The following limits on mental health counseling rates shall apply to outpatient mental health counseling:

- (1) Individual and family mental health counseling in a nonmedical setting\$90 per hour
- (2) Group therapy\$60 per hour

These rates shall apply to individuals performing treatment. Compensation shall not be awarded to pay the costs of persons supervising treatment.

(g) If it is apparent from the treatment plan that the treatment is addressing issues not directly related to the crime, only that portion of the treatment that is addressing the victimization shall be compensable.

(h) Compensation for mental health counseling shall be based on the version of this regulation that was in effect when the service was provided. (Authorized by K.S.A. 74-7304; implementing K.S.A. 2012 Supp. 74-7301; effective Nov. 15, 1993; amended Jan. 10, 2014.)

20-2-4. (Authorized by K.S.A. 74-7304; implementing K.S.A. 74-7314; effective May 1, 1980; amended May 1, 1984; revoked Jan. 10, 2014.)

20-2-5. (Authorized by K.S.A. 74-7304; implementing K.S.A. 74-7315; effective May 1, 1980; amended May 1, 1984; revoked Aug. 10, 2012.)

20-2-7. Cooperation with law enforcement. (a) For the purpose of K.S.A. 74-7305 and amendments thereto, full cooperation with appropriate law enforcement agencies shall include the following:

(1) Reporting the crime in a timely manner to permit law enforcement agencies to investigate, identify, and charge those responsible for the crime;

(2) providing information, upon request, to law enforcement officers and prosecutors investigating the crime;

(3) cooperating with law enforcement procedures;

(4) appearing in court to testify as required, unless just cause is shown for any failure to appear; and

(5) requesting that the offender be prosecuted, which is commonly known as “pressing charges.”

(b) The term “law enforcement agencies” shall include the offices and agencies responsible for investigating the crime or prosecuting the offender. (Authorized by K.S.A. 74-7304; implementing K.S.A. 2013 Supp. 74-7305; effective Nov. 15, 1993; amended Jan. 10, 2014.)

20-2-8. Contributory misconduct. (a) For the purpose of K.S.A. 74-7305 and amendments thereto, “contributory misconduct” may include the following:

(1) Consent, provocation, or incitement, which may consist of the use of fighting words or obscene gestures;

(2) willing presence in a vehicle operated by a person who is known to be under the influence of alcohol or an illegal substance;

(3) abuse of alcohol or an illegal substance;

(4) failure to retreat or withdraw from a threatening situation if an option to do so is readily available;

(5) failure to act as a prudent person; and

(6) unlawful activity.

(b) The acts and behaviors listed in subsection (a) may be excused in cases involving domestic abuse or sexual assault. (Authorized by K.S.A. 74-

7304; implementing K.S.A. 2012 Supp. 74-7305; effective Nov. 15, 1993; amended Jan. 10, 2014.)

20-2-9. Allowable expenses. (a) Reasonable charges for medical care shall be deemed allowable expenses only if the medical care provider is registered or licensed by the appropriate governmental licensing entity.

(b) Moving costs may be deemed allowable expenses if one of the following individuals has recommended the move in writing for reasons related to the crime:

(1) A law enforcement officer;

(2) a prosecutor; or

(3) a victims’ advocate working for a law enforcement agency or prosecutor’s office.

(c) Mileage costs may be deemed allowable expenses for medically necessary travel. These costs shall be computed at a rate that does not exceed the rate established by the secretary of administration pursuant to K.S.A. 75-3203a, and amendments thereto.

(d) Meal costs shall not be deemed allowable expenses. (Authorized by K.S.A. 74-7304; implementing K.S.A. 2012 Supp. 74-7301; effective Nov. 15, 1993; amended Jan. 10, 2014.)

Article 3.—HEARINGS

20-3-1. (Authorized by K.S.A. 74-7304; implementing K.S.A. 74-7307; effective May 1, 1980; amended May 1, 1984; revoked Aug. 10, 2012.)

20-3-2. (Authorized by K.S.A. 74-7304; implementing K.S.A. 74-7307, 74-7308; effective May 1, 1980; amended May 1, 1984; revoked Aug. 10, 2012.)

Article 6.—DEFINITIONS

20-6-1. (Authorized by and implementing K.S.A. 1984 Supp. 74-7325; effective, T-85-27, Nov. 14, 1984; effective May 1, 1985; amended, T-86-14, June 17, 1985; amended, T-86-45, Dec. 18, 1985; amended May 1, 1986; revoked Jan. 10, 2014.)

Article 15.—NOTORIETY FOR PROFIT CONTRACTS

20-15-1, 20-15-2. (Authorized by L. 1986, ch. 306, sec. 4; implementing L. 1986, ch. 306, sec. 2, 3, 4; effective May 1, 1987; revoked Jan. 10, 2014.)

Article 1.—KANSAS FIRE PREVENTION CODE

22-1-1. Municipal compliance with Kansas fire prevention code. (a) When a municipality adopts one of the nationally recognized fire codes or the fire protection segment of a nationally recognized building code and modifies a section of that code, a summary of the modifications shall be submitted to the state fire marshal's office. The modifications shall be reviewed and either approved or rejected by the state fire marshal. The municipality shall be notified of the action within 30 days from receipt of the summary.

(b) Each alternate method of fire protection that has been approved by a local board of appeals as a substitute for strict compliance with code requirements shall be deemed to be in compliance with the Kansas fire prevention code.

(c) Each question arising as to whether another state statute or an enactment of a municipality is inconsistent with the provisions of the fire prevention code shall be resolved by the state fire marshal after a hearing with all interested parties. Each decision of the state fire marshal made under authority of this subsection shall be appealable in accordance with the provisions of K.S.A. 31-142 and amendments thereto. (Authorized by and implementing K.S.A. 2008 Supp. 31-133 and 31-134; effective May 1, 1981; amended May 1, 1985; amended Aug. 28, 1989; amended Sept. 17, 1990; amended Feb. 4, 2011.)

22-1-2. Compliance with certain building codes. A building shall be deemed to comply with the Kansas fire prevention code if the building conforms to one of the following building codes and to any additional special requirements of the Kansas fire prevention code and if the building has been issued a certificate of occupancy:

(a) The 1997 edition of the uniform building code (UBC); or

(b) the 2006 edition of the international building code (IBC). (Authorized by and implementing K.S.A. 31-134a; effective May 1, 1985; amended Aug. 28, 1989; amended May 10, 1993; amended July 9, 2004; amended Feb. 4, 2011.)

22-1-3. Adopted codes and standards. The following codes and national fire protection association (NFPA) standards are adopted by reference:

(a) International building code (IBC), international code council, 2006 edition, including the appendices but excluding the references in chapter 35 to NFPA 13, 13D, 13R, 14, 30, 72, 101, and 110;

(b) international fire code (IFC), international code council, 2006 edition, including the appendices but excluding the following:

(1) Chapters 22, 30, 33, 34, 35, 36, and 38; and

(2) the references in chapter 45 to NFPA 10, 13, 13D, 13R, 14, 25, 30, 30A, 52, 72, 101, 110, and 385;

(c) portable fire extinguishers. NFPA standard no. 10, including annexes A, B, C, D, E, F, G, H,

I, J, and K, 2007 edition. The provisions of section 4.4.1 shall be effective only on and after January 1, 2014;

(d) installation of sprinkler systems. NFPA standard no. 13, including annexes A, B, C, and E, 2007 edition;

(e) installation of sprinkler systems in one- and two-family dwellings and manufactured homes. NFPA standard no. 13D, including annexes A and B, 2007 edition;

(f) installation of sprinkler systems in residential occupancies up to and including four stories in height. NFPA standard no. 13R, including annexes A and B, 2007 edition;

(g) installation of standpipe and hose systems. NFPA standard no. 14, including annexes A and B, 2007 edition;

(h) dry chemical extinguishing systems. NFPA standard no. 17, including annexes A and B, 2002 edition;

(i) wet chemical extinguishing systems. NFPA standard no. 17A, including annexes A and B, 2002 edition;

(j) water-based fire protection systems. NFPA standard no. 25, including annexes A, B, C, D, and E, 2008 edition.;

(k) flammable and combustible liquids. NFPA standard no. 30, including annexes A, B, C, D, E, F, and H, 2008 edition;

(l) motor fuel-dispensing facilities. NFPA standard no. 30A, including annexes A, B, and D, 2008 edition;

(m) vehicular fuel systems. NFPA standard no. 52, including annexes A, C, D, and E, 2006 edition;

(n) national electric code. NFPA standard no. 70, including annexes A, B, C, D, E, F, G, and H, 2008 edition;

(o) fire alarms. NFPA standard no. 72, including annexes A, B, C, E, F, G, and H, 2007 edition;

(p) vapor removal from cooking equipment. NFPA standard no. 96, including annexes A and B, 2008 edition;

(q) life safety code. NFPA standard no. 101, including annexes A and B, 2006 edition;

(r) alternative approaches to life safety. NFPA standard no. 101A, including annexes A and B, 2007 edition;

(s) assembly seating, tents, and membrane structures. NFPA standard no. 102, including annexes A and B, 2006 edition;

(t) emergency and standby power systems. NFPA standard no. 110, including annexes A, B, and C, 2005 edition;

(u) fire safety symbols. NFPA standard no. 170, including annexes A, B, C, and D, 2006 edition; and

(v) tank vehicles for flammable and combustible liquids. NFPA standard no. 385, including annexes A, B, and C 2007 edition. (Authorized by and implementing K.S.A. 2008 Supp. 31-133; effective May 10, 1993; amended Feb. 4, 2011.)

Article 4.—EXPLOSIVE MATERIALS

22-4-2. (Authorized by and implementing K.S.A. 1988 Supp. 31-133; effective Nov. 27, 1989; revoked Oct. 18, 2013.)

22-4-3. (Authorized by and implementing K.S.A. 1988 Supp. 31-133; effective Nov. 27, 1989; revoked Oct. 18, 2013.)

22-4-4. (Authorized by and implementing K.S.A. 1989 Supp. 31-133; effective Sept. 17, 1990; revoked Oct. 18, 2013.)

22-4-5. Adoption by reference. (a) The 2013 edition of NFPA 495, “explosive materials code,” published by the national fire protection association (NFPA), is hereby adopted by reference, with the alterations specified in subsections (b) through (d).

(b) The following provisions shall be excluded from adoption:

- (1) All material before chapter 1 and all annexes;
- (2) chapters 2, 8, and 12;
- (3)(A) The last sentence of section 1.3.1;
- (B) sections 1.4 through 1.4.3; and
- (C) section 1.6;
- (4)(A) The last sentence of section 3.1;
- (B) section 3.2.1; and
- (C) sections 3.2.3 through 3.2.7;
- (5)(A) Section 4.1.7;
- (B) sections 4.2.3.1 through 4.2.3.3;
- (C) sections 4.7.2 through 4.7.4;
- (D) section 4.8.2; and
- (E) section 4.10.2;
- (6) section 5.2.13.2;
- (7)(A) Sections 6.3 through 6.3.5; and
- (B) sections 6.6 through 6.6.8;
- (8) sections 7.3 through 7.3.2;
- (9) section 10.3.8.1;
- (10) section 11.4.3;
- (11) section 13.1.2; and
- (12)(A) Sections 14.1 through 14.3.8;
- (B) sections 14.4.1 through 14.4.4; and
- (C) sections 14.4.8 through 14.5.9.

(c) The following modifications shall be made to NFPA 495:

(1) Section 1.3.2 shall be replaced with the following: “This code shall not apply to the transportation and use of military explosives by federal or state military agencies, nor shall this code apply to the use of explosive materials by federal, state, or municipal agencies while engaged in public safety functions, except that state and municipal agencies shall be subject to the storage, recordkeeping, and permitting requirements of this code.”

(2) In section 1.3.5, the phrase “as defined in NFPA 1122, Code for Model Rocketry; NFPA 1125, Code for the Manufacture of Model Rocket and High Power Rocket Motors; and NFPA 1127, Code for High Power Rocketry” shall be deleted.

(3) The following text shall be added after section 1.3.6:

“This code shall not apply to small arms ammunition and components of small arms ammunition, but this code shall apply to the manufacture of smokeless propellants and black powder substitutes and to smokeless propellants and black powder substitutes not designed for use in small arms ammunition.

“This code shall not apply to commercially manufactured black powder in quantities not to exceed fifty pounds, percussion caps, safety and pyrotechnical fuses, quills, quick and slow matches, and friction primers, intended to be used solely for sporting, recreational, or cultural purposes in antique firearms as defined in 18 U.S.C. §921(a)(16) or in antique devices exempted from the term ‘destructive device’ in 18 U.S.C. §921(a)(4).

“This code shall not apply to the use, storage, or transportation of precursor chemicals used for agricultural purposes other than blasting, or to fertilizers and fertilizer materials regulated by the Kansas department of agriculture pursuant to K.S.A. 2-1201 et seq., and amendments thereto, except that thefts of ammonium nitrate shall be reported to the office of the state fire marshal and to a local law enforcement authority within 24 hours of discovering the theft.”

(4) In section 3.2.2, the definition of “Authority Having Jurisdiction (AHJ)” shall be replaced with the following: “The state fire marshal or designee, except when the context indicates that the term is referring to a local fire department or law enforcement agency.”

(5) In section 3.3.8, the definition of blasting agent shall be replaced with the following: “Any material or mixture, consisting of fuel and oxidizer, intended

for blasting, not otherwise defined as an explosive, provided that the finished product, as mixed for use or shipment, cannot be detonated by means of a numbered 8 test blasting cap when unconfined.”

(6) Section 3.3.20 shall be replaced with the following: “Explosive. Any chemical compound, mixture, or device, the primary or common purpose of which is to function by explosion. The term shall also include two or more precursor chemicals sold or possessed together that if mixed or combined would constitute a binary explosive.”

(7) Section 3.3.49 shall be replaced with the following: “Small arms ammunition and components of small arms ammunition. Small arms ammunition or cartridge cases, primers, or smokeless propellants designed for use in small arms, including percussion caps, and $\frac{3}{32}$ inch and other external burning pyrotechnic hobby fuses. The term shall not include black powder, but shall include black powder substitutes provided the propellant is a component of small arms ammunition.”

(8) Section 4.2.1 shall be replaced with the following: “No person shall be in possession of explosive materials, or conduct an operation or activity requiring the use of explosive materials, or perform or supervise the loading and firing of explosive materials without first obtaining the correct permit or permits from the state fire marshal.”

(9) Section 4.2.4 shall be replaced with the following: “Each permitted manufacturer, distributor, and user in the state shall maintain continuous general liability coverage that includes coverage for intentional blasting of not less than \$1,000,000 from an insurance company authorized by the Kansas insurance department to do business in Kansas and shall annually provide proof of this insurance to the state fire marshal.”

(10) Section 4.3.1 shall be replaced with the following sentence: “Before a person conducts an operation or activity that uses explosive materials in the state, the person shall obtain a user permit from the state fire marshal.”

(11) Section 4.3.2 shall be replaced with the following sentence: “Before an individual performs or supervises the loading and firing of explosive materials in the state, that individual shall obtain the appropriate permit to blast, as specified in Table 4.3.2, from the state fire marshal, except that this requirement shall not apply to a trainee who is acting under the direct supervision of and is being trained by the holder of a blaster permit.”

(12) The following classes of blasting permits shall be added to table 4.3.2:

(A) Class P1 permit. The category name for this permit shall be “Public Safety, Bomb Technician.” The permit shall allow “blasting by a bomb technician acting on behalf of the state or a political or taxing subdivision in a public safety capacity.”

(B) Class P2 permit. The category name for this permit shall be “Public Safety, Explosive Breacher.” The permit shall allow “explosive breaching by a person acting on behalf of the state or a political or taxing subdivision in a public safety capacity.”

(13) The following text shall be added after section 4.3.2:

“Permit to Manufacture. Before a person manufactures explosive materials in the state, that person shall obtain a manufacturer permit from the state fire marshal. A holder of a manufacturer permit shall not be required to obtain a distributor or user permit.

“Permit to Distribute. Before a person engages in the business of distributing explosive materials within the state, that person shall obtain a distributor permit from the state fire marshal, except that this requirement shall not apply to common carriers or to an out-of-state person who distributes explosive materials to the holder of a manufacturer or distributor permit. ‘Distributing’ shall mean the selling, issuing, giving, transferring, or other disposing of. A holder of a distributor permit shall not be required to obtain a user permit.

“Handler Permit. Before an individual, other than the holder of a blaster permit, actually or constructively possesses explosive materials in the state, that individual shall obtain a handler permit from the state fire marshal, except that a handler permit shall not be required to handle explosive materials under the direct supervision of the holder of a blaster permit. ‘Direct supervision’ shall mean that the holder of the blaster permit is physically present and overseeing the actions of the employee. Actual possession shall include the physical handling of explosive materials. Permitted handlers may include individuals who load or unload vehicles, trainees, magazine keepers, drillers, stemmers and sales staff.

“Storage Permit. Before a person stores explosive materials in the state, that person shall obtain a site-specific storage permit. The storage permit may be temporary or permanent. A permanent storage permit shall be valid for no longer than three years. A temporary storage permit shall be valid for no longer than 90 days, but the permit holder may apply to the office of the state fire marshal to renew the permit one time for no lon-

ger than an additional 90 days. Before either storage permit will be issued, the person shall obtain a manufacturer, distributor, or user permit from the state fire marshal, any explosive permit required by the bureau of alcohol, tobacco, firearms and explosives, and a certification from the fire department with jurisdiction over the area where the storage site will be located that the proposed storage of explosive materials will not violate any local laws.”

(14) Section 4.4.2.1 shall be replaced with the following: “Each applicant shall complete a blaster training program and pass a qualifying examination in the category of blasting for which application is made. The blaster training program and qualifying examination shall be approved in advance by the office of the state fire marshal. To be approved by the office of the state fire marshal, a blaster training program or blaster refresher course shall provide training on the following topics, as applicable to the category of blasting for which application is made: the requirements of this code; federal explosives law and regulations; and industry standards related to the safe use, storage, and transportation of explosive materials.”

(15) Section 4.4.2.2 shall be replaced with the following: “To be approved by the office of the state fire marshal, a qualifying examination shall test the applicant’s knowledge of the following topics, as applicable to the category of blasting for which application is made: the requirements of this code; federal explosives law and regulations; and industry standards related to the safe use, storage, and transportation of explosive materials.”

(16) Section 4.4.5 shall be replaced with the following: “Each person whose permit to blast has been revoked shall be required to complete a blaster training program and pass a qualifying examination of a condition of reinstatement of the permit. The blaster training program and qualifying examination shall be approved in advance by the office of the state fire marshal.”

(17) Section 4.4.6 shall be replaced with the following: “Each person whose permit to blast has lapsed for a period of one year or longer shall be required to complete a blaster training program and pass a qualifying examination as a condition of renewal of the permit. The blaster training program and qualifying examination shall be approved in advance by the office of the state fire marshal.”

(18) The following text shall be added after section 4.4.6:

“If the holder of a blaster or handler permit ceases to be employed by a permitted manufacturer, distributor, or user, the blaster or handler shall notify the office of the state fire marshal within five business days, and the individual’s permit shall be placed on inactive status. The individual shall not blast or handle explosive materials while the permit is on inactive status. Before resuming work with a permitted manufacturer, distributor, or user, the blaster or handler shall notify the office of the state fire marshal, and the permit shall be returned to active status. However, if the permit has been on inactive status for at least one year, the holder shall complete an approved blaster refresher class for a blaster permit or an approved explosive safety course for a handler permit before the permit is returned to active status.

“Requirement for a Handler Permit. Before applying for or renewing a handler permit, an individual shall complete an explosive safety course approved by the state fire marshal. The explosive safety course shall provide training on the safe handling, storage, and transportation of explosive materials.”

(19) Sections 4.5.1 and 4.5.2 shall be replaced with the following sentence: “The holder of any permit or permits issued pursuant to this code shall maintain a copy of the permit or permits at all sites where explosive materials are stored or used and in any vehicle used to transport explosive materials.”

(20) Section 4.6.2 shall be replaced with the following sentence: “An individual shall be at least 18 years old before applying for a handler permit and at least 21 years old before applying for a blaster permit.”

(21) In section 4.7.1(3), “is a fugitive from justice” shall be replaced with “has fled from any state to avoid prosecution for a crime or to avoid giving testimony in any criminal proceeding.”

(22) Section 4.8.1.1 shall be replaced with the following sentence: “Permit holders shall keep records in accordance with 27 C.F.R. Part 555, Subpart G, as adopted by reference in K.A.R. 22-4-5.”

(23) Section 4.10.1 shall be replaced with the following: “When an application for renewal is filed with the office of the state fire marshal before expiration of the current permit, the existing permit shall not expire until the state fire marshal has taken final action upon the application for renewal or, if the state fire marshal’s action is unfavorable,

until the last day for seeking judicial review of the state fire marshal’s action or a later date fixed by the reviewing court.”

(24) The following sentence shall be added after section 4.10.3: “Before applying for renewal, the holder of a blaster permit shall complete a blaster refresher course approved by the state fire marshal and the holder of a handler permit shall complete an explosive safety course approved by the state fire marshal.”

(25) Section 5.4.4.1.2 shall be replaced with the following: “The integrity of the fences and gates shall be checked at least annually.”

(26) In section 5.4.7, the phrase “and the IAPMO Uniform Mechanical Code” shall be deleted.

(27) Section 9.7.2 shall be replaced with the following: “All magazines containing explosive materials shall be opened and inspected at maximum intervals of seven days to determine whether there has been unauthorized or attempted entry into the magazines or whether there has been unauthorized removal of the magazines or their contents.”

(28) The following sentence shall be added before section 10.1: “A holder of a user permit shall notify the office of the state fire marshal at least 48 hours before beginning blasting operations at a site and before resuming blasting operations at a site if those operations have been suspended or discontinued for more than six months.”

(29) Section 10.1.19.1(2) shall be replaced with the following: “Compliance with the safe distances in safety library publication 20, ‘safety guide for the prevention of radio frequency radiation hazards in the use of commercial electric detonators (blasting caps),’ published by the institute of makers of explosives (IME) and dated December 2011, parts II and III of which are hereby adopted by reference, with the exception of all text before table 1 and pages 36 through 38.”

(30) Section 11.1.1 shall be replaced with the following: “This chapter shall apply to buildings and other structures. As used in this chapter, ‘buildings and other structures’ shall mean dwellings, public buildings, schools, places of worship, and commercial or institutional buildings.”

(31) In section 11.1.3, all text after “with” shall be replaced with “the international society of explosives engineers’ ‘ISEE performance specifications for blasting seismographs,’ 2011 edition.”

(32) In section 11.1.4, the phrase “2009 edition” shall be added at the end of the sentence.

(33) The following text shall be added after section 11.1.4:

“The blaster-in-charge or designee shall conduct a preblast survey of all buildings and structures within a scaled distance of 35 ft/lbs^{1/2} from the blast site, except that a preblast survey shall not be required for a building or structure if the owner refuses permission or if the owner does not respond after three documented attempts to obtain permission.

“Where blasting seismographs are used, the permitted user shall maintain the seismograph recording and accompanying records for at least three years. These records shall include the maximum ground vibration and acoustics levels recorded, the specific location of the seismograph equipment, its distance from the detonation of the explosives, the date and time of the recording, the name of the individual responsible for operation of the seismograph equipment, the type of seismograph instrument, its sensitivity, and the calibration signal or certification date of the last calibration.”

(34) Section 11.2.3 shall be replaced with the following sentence: “The ground vibration limit for underground utilities, pipelines, fiber optic lines, and similar buried engineered structures shall be five inches per second.”

(35) Section 11.4.2 shall be replaced with the following: “Reasonable precautions shall be taken to prevent flyrock from being propelled from the blast site onto property not contracted by the blasting operation or onto property for which the owner has not provided a written waiver to the blasting operation.”

(36) The following text shall be added at the end of chapter 11: “The blaster-in-charge shall ensure that a record of each use of explosives is made, and this record shall be retained for at least three years by the permitted user. The record shall include:

“(A) The name and permit number of the permitted user;

“(B) the location, date, and time of the detonation;

“(C) the name and permit number of the blaster-in-charge;

“(D) the type of materials blasted;

“(E) the type of explosives used;

“(F) the weight of each explosive product used and the total weight of explosives used;

“(G) the maximum weight of explosives detonated within any eight-millisecond period;

“(H) the initiation system, including the number of circuits and the timer interval, if a sequential timer is used;

“(I) the type of detonator and delay periods used, in milliseconds;

“(J) the sketch of delay pattern, including decking;

“(K) the distance and scaled distance, if applicable, to the nearest building or structure;

“(L) the location of the nearest building or structure, using the best available information; and

“(M) if bore holes are used, the number of bore holes, burden, and spacing; the diameter and depth of bore holes; and the type and length of stemming.”

(37) Section 13.1.1 shall be replaced with the following sentence: “Two or more precursor chemicals that would constitute a binary explosive if mixed or combined shall be stored and used in the same manner as other explosive materials.”

(38) Section 13.4.2 shall be replaced with the following: “Thefts of precursor chemicals during transportation, storage, and use shall be reported to the office of the state fire marshal, the bureau of alcohol, tobacco, firearms and explosives, and a local law enforcement agency.”

(d)(1) Each citation in NFPA 495 to the following codes shall mean the edition adopted by reference in K.A.R. 22-1-3:

(A) NFPA 13, “standard for the installation of sprinkler systems”; and

(B) NFPA 70, “national electric code.”

(2) Each citation in NFPA 495 to the following codes shall mean the edition adopted by reference in K.A.R. 22-6-20:

(A) NFPA 1123, “code for fireworks display”; and

(B) NFPA 1124, “code for the manufacture, transportation, storage, and retail sales of fireworks and pyrotechnic articles”; and

(C) NFPA 1126, “standard for the use of pyrotechnics before a proximate audience.”

(3) Each citation of NFPA 1, “fire code,” shall be replaced by “the international fire code (IFC) as adopted by reference in K.A.R. 22-1-3.”

(4) Each citation of NFPA 5000, “building construction and safety code,” shall be replaced by “the international building code (IBC) as adopted by reference in K.A.R. 22-1-3.”

(e) 27 C.F.R. part 555, subpart G, as in effect on April 27, 2012, is hereby adopted by reference, with the following modifications:

(1) 27 C.F.R. 555.121(b), 555.122, 555.123(f), 555.124(f), 555.125(a), (b)(2), and (b)(6), 555.126, and 555.129 are not adopted.

(2) In 27 C.F.R. 555.121(c), the last sentence shall be deleted.

(3) In 27 C.F.R. 555.127, all text after “end of the day” shall be deleted.

(4) In 27 C.F.R. 555.128, the last sentence shall be replaced with the following sentence: “Copies of the records shall be delivered to the office of the state fire marshal within 30 days following the discontinuance of the business or operations.”

(5) Wherever the term “Director, Industry Operations” appears in subpart G, this term shall be replaced with “state fire marshal.”

(6) Each reference to a “licensed manufacturer” shall mean a “person with a state manufacturer permit.” Each reference to a “licensed dealer” shall mean a “person with a state distributor permit.”

(7) Each reference to a “limited permit” shall be deleted.

(f) Each existing user permit and each existing blaster permit issued by the state fire marshal shall be deemed valid and shall remain effective until the permit’s expiration date, unless the permit is revoked or suspended before then. (Authorized by and implementing K.S.A. 2012 Supp. 31-133; effective, T-22-6-28-13, June 28, 2013; effective Oct. 18, 2013.)

Article 6.—FIREWORKS

22-6-12. (Authorized by and implementing K.S.A. 2007 Supp. 31-133; effective Jan. 1, 1973; amended May 1, 1986; amended Dec. 29, 2008; revoked April 6, 2018.)

22-6-16. (Authorized by and implementing K.S.A. 31-133, 31-155, 31-156; effective May 1, 1982; amended May 1, 1983; revoked April 6, 2018.)

22-6-20. Adoptions by reference. (a) The following national fire protection association codes and standards are hereby adopted by reference, with the following modifications and the modifications specified in subsection (b):

(1) No. 160, “standard for the use of flame effects before an audience,” 2011 edition, with the following modifications:

(A) Section 1.3.5 shall be deleted; and

(B) section 8.1.2 shall be deleted and replaced with the following: “Each operator shall be li-

censed in accordance with K.S.A. 2015 Supp. 31-503, and amendments thereto, and K.A.R. 22-6-25.”;

(2) no. 1123, “code for fireworks display,” 2014 edition, except that sections 10.1.1 through 10.1.3 shall be deleted and replaced with the following: “Each operator shall be licensed in accordance with K.S.A. 2015 Supp. 31-503, and amendments thereto, and K.A.R. 22-6-24.”;

(3) no. 1124, “code for the manufacture, transportation, storage, and retail sales of fireworks and pyrotechnic articles,” 2006 edition, with the following modifications:

(A) In section 4.3.3.1, the words “to the Office of the State Fire Marshal” shall be added before the words “and to local law enforcement authorities”;

(B) in section 5.1.1.2(1), the words “that are not bullet sensitive” shall be deleted;

(C) in section 6.2.7.1, the words “using an approved test sampling plan” shall be deleted and replaced by the following: “or a CPSC-approved test sampling plan shall be used”;

(D) sections 6.5.2.3, 6.5.2.4, 6.14.4, 7.3.19.4, and 7.4.6.3 shall be deleted;

(E) in section 7.3.14.1.1, the text “three or as determined in accordance with NFPA 101, Life Safety Code, whichever number is greater” shall be deleted and replaced by the following: “two, or as determined in accordance with the international fire code, which is adopted by reference in K.A.R. 22-1-3, whichever number is greater”; and

(F) in section 7.3.15.6, the word “horizontally” shall be inserted before “ejected pyrotechnic components”; and

(4) no. 1126, “standard for the use of pyrotechnics before a proximate audience,” 2011 edition, with the following modifications:

(A) Section 1.3.5.2 shall be deleted; and

(B) sections 6.5.1 through 6.5.1.2 shall be deleted and replaced with the following: “Each operator shall be licensed in accordance with K.S.A. 2015 Supp. 31-503, and amendments thereto, and K.A.R. 22-6-25.”

(b) The following modifications shall be made to the codes and standards adopted in subsection (a):

(1) All material before the first chapter shall be excluded from adoption.

(2) All annexes shall be excluded from adoption.

(3) Chapter 2, “referenced publications,” shall be excluded from adoption.

(4) All indexes and all material after the indexes shall be excluded from adoption.

(5) The last sentence of section 3.1 in each code or standard shall be excluded from adoption.

(6) Each reference to a code or standard adopted in article 1 shall mean the edition of that code or standard adopted in that article.

(7) Each reference to a code or standard adopted in this regulation shall mean the edition of that code or standard adopted in this regulation.

(8) The definition of “authority having jurisdiction (AHJ)” in section 3.2.2 shall be replaced with the following: “the state fire marshal or designee,” except when the context indicates that the term is referring to a local fire department or a local law enforcement agency.

(c) Chapter three in American pyrotechnics association standard 87-1, “standard for construction and approval for transportation of fireworks, novelties, and theatrical pyrotechnics,” 2001 edition, is hereby adopted by reference, except for the following:

(1) Section 3.8;

(2) section 3.9; and

(3) section 3.10. (Authorized by and implementing K.S.A. 2016 Supp. 31-133 and K.S.A. 2016 Supp. 31-506; effective Dec. 29, 2008; amended April 6, 2018.)

22-6-24. Display operator license. (a) Each person who operates an outdoor display of display fireworks, as defined in K.A.R. 22-6-1, shall obtain a license from the office of the state fire marshal.

(b) Each applicant shall meet all of the following requirements:

(1) The applicant shall provide proof of experience in the performance of at least three outdoor displays of display fireworks in the last four years.

(A) For each of the three required displays, each applicant for a new display operator license shall include documentation of participation as an assistant under a display operator who has a valid Kansas license at the time of the displays. The licensed display operator shall provide written verification of the applicant’s participation in the display.

(B) For each of the three required displays, each applicant for renewal of the display operator license shall provide a signature from the local jurisdiction, organization sponsoring the display, Kansas licensed distributor who produced the display, or another Kansas licensed operator assisting with the display.

(2) The applicant shall complete a written examination, administered by the state fire marshal,

and shall be required to achieve a passing score of at least 80 percent.

(c) The display fireworks operator license shall be valid for four years from the date of issuance.

(d) Each licensee shall keep the original license on the licensee’s person at all times while performing duties as a display operator. A copy of the license shall not be accepted as valid proof of licensure if the licensee is questioned by law enforcement, the fire department, or the local authority.

(e) No fee shall be charged for a display operator license for any person who is an officer or employee of the state or any political or taxing subdivision of the state if that person is acting on behalf of the state or political or taxing subdivision.

(f) Each licensee shall comply with national fire protection association standard no. 1123, which is adopted by reference in K.A.R. 22-6-20, and all local, state, and federal regulations, statutes, and laws. (Authorized by K.S.A. 2016 Supp. 31-506; implementing K.S.A. 2016 Supp. 31-503; effective Dec. 29, 2008; amended April 6, 2018.)

22-6-25. Proximate pyrotechnic operator license. (a) Each person who operates any indoor or outdoor pyrotechnic article, as defined in K.A.R. 22-6-1, shall obtain a license from the state fire marshal.

(b) Each applicant shall indicate which of the following classes the applicant is requesting a license for on the application:

(1) Indoor proximate pyrotechnic operator license;

(2) outdoor proximate pyrotechnic operator license;

(3) flame effect pyrotechnic operator license; or

(4) unlimited proximate pyrotechnic operator license.

(c) Each applicant shall meet all of the following requirements:

(1) The applicant shall provide proof of experience in the performance of at least three pyrotechnic displays in the last four years as follows:

(A) Each display shall be in the class for which licensure is sought. Each applicant for an unlimited proximate pyrotechnic operator license shall demonstrate proficiency in each of the three classes listed in paragraphs (b)(1) through (b)(3) and shall provide proof of experience in the performance of at least two displays in each class.

(B) The use of at least four individual devices of pyrotechnic articles shall be used to qualify as a display.

(C) For each of the displays required for a new proximate pyrotechnic license, the applicant shall acquire a signature from a proximate pyrotechnic operator who had a valid Kansas license for that type of display at the time of the display, verifying that the applicant assisted in the operation of the display.

(D) For each of the displays required for renewal of the proximate pyrotechnic license, the applicant shall acquire a signature from the local jurisdiction, organization sponsoring the display, Kansas licensed distributor who produced the display, or another Kansas licensed proximate pyrotechnic operator licensee assisting with the display.

(2) The applicant shall complete a written examination, administered by the state fire marshal, and shall be required to achieve a passing score of at least 80 percent.

(d) The proximate pyrotechnic operator license shall be valid for four years from the date of issuance.

(e) Each licensee shall keep the original license on the licensee's person at all times while performing duties as a proximate pyrotechnic operator. A copy of the license shall not be accepted as valid proof of licensure if the licensee is questioned by law enforcement, the fire department, or the local authority.

(f) No fee shall be charged for a proximate pyrotechnic operator license for any person who is an officer or employee of the state or any political or taxing subdivision of the state if that person is acting on behalf of the state or political or taxing subdivision.

(g) Each licensee shall comply with national fire protection association standard nos. 160 and 1126, which are adopted by reference in K.A.R. 22-6-20, and all local, state, and federal regulations, statutes, and laws. (Authorized by K.S.A. 2016 Supp. 31-506; implementing K.S.A. 2016 Supp. 31-503; effective Dec. 29, 2008; amended April 6, 2018.)

Article 8.—LIQUEFIED PETROLEUM GASES

22-8-4. (Authorized by and implementing K.S.A. 31-133; effective, E-82-28, Dec. 22, 1981; effective May 1, 1982; amended May 1, 1983; revoked May 2, 2014.)

22-8-7. (Authorized by and implementing K.S.A. 1985 Supp. 31-133; effective May 1, 1986; amended May 1, 1987; revoked May 2, 2014.)

22-8-10. Licensing requirements; classes; renewals. (a) To obtain a license under the Kansas propane safety and licensing act, each applicant shall submit the following to the state fire marshal's office:

(1) An application for each desired license;

(2) proof that the training requirements in K.A.R. 22-8-11 for each desired license have been met; and

(3) proof of continuous general liability insurance coverage of at least \$1,000,000.

(b) The classes of licenses shall be as follows:

(1) A class one dealer license shall be required for the retail distribution of liquefied petroleum gas.

(2) A class two bulk storage site license shall be required for the bulk storage of liquefied petroleum gas.

(3) A class three cylinder transport license shall be required to operate a cylinder delivery service.

(4) A class four cylinder filling license shall be required to operate a cylinder filling facility. For the purpose of this paragraph, "cylinder filling facility" shall include any facility that fills cylinders or sells cylinder valves.

(5) A class five recreational vehicle fueling license shall be required to fuel recreational vehicles or mobile fuel containers.

(6) A class six cylinder exchange cabinet license shall be required to establish a cylinder exchange cabinet or participate in a cylinder program. Each cabinet shall be required to have a new sticker applied to the cabinet annually. Each sticker shall be provided by the state fire marshal's office.

(7) A class seven self-serve liquefied petroleum gas dispensing license shall be required to operate a liquefied petroleum gas fueling facility.

(8) A class eight installation and service of liquefied petroleum gas systems license shall be required to install, maintain, or modify a residential or commercial liquefied petroleum gas distribution and utilization system.

(c) Each license shall expire on September 30 each year.

(d) Any LP gas license may be renewed annually. Each applicant for renewal shall submit the following to the state fire marshal's office on or before July 15:

(1) The renewal form;

(2) proof that the continuing education requirements have been met; and

(3) proof of continuous general liability insurance coverage of at least \$1,000,000. (Authorized

by K.S.A. 2016 Supp. 55-1812; implementing K.S.A. 55-1809 and K.S.A. 2016 Supp. 55-1812; effective March 31, 2006; amended April 6, 2018.)

22-8-11. Initial training; instructor and class approval. (a) For each type of initial license sought, each applicant or, if the applicant is not an individual, an agent or employee of the applicant shall complete the required training specified in this regulation.

(b) If the individual who completed the required training specified in this regulation ceases to be an agent or employee of the licensee, another agent or employee of the licensee shall complete the training specified in this regulation within six months of the date the individual who previously completed the training ceased to be an agent or employee of the licensee.

(c) Each instructor and each class shall be approved in advance by the state fire marshal.

(d) Each applicant shall submit proof of successful completion of the following certified employee training program (CETP) or propane education and research council (PERC) courses or equivalent courses approved by the state fire marshal, as applicable, to the state fire marshal's office:

(1) For a class one dealer license, the basic principles and practices class, except that this requirement shall not apply to any applicant seeking a class four or class five license who will not otherwise engage in the retail distribution of liquefied petroleum gas;

(2) for a class two bulk storage site license, the basic plant operations class;

(3) for a class three cylinder transport license, the propane delivery operations and cylinder delivery class or the bobtail delivery operations class;

(4) for a class four cylinder filling license, the dispensing propane safely class;

(5) for a class five recreational vehicle fueling license, the dispensing propane safely class;

(6) for a class six cylinder exchange cabinet license, one of the following:

(A) If the applicant is a cylinder exchange company, the basic principles and practices class; or

(B) if the applicant owns or operates an individual cylinder exchange location, no required training;

(7) for a class seven self-serve liquefied petroleum gas dispensing license, the dispensing propane safely class; and

(8) for a class eight installation and service of liquefied petroleum gas systems license, the ba-

sic principles and practices class and one of the following:

(A) The installing appliances and interior vapor distribution systems class;

(B) the designing and installing exterior vapor distribution systems class; or

(C) systems testing training. (Authorized by and implementing K.S.A. 2013 Supp. 55-1812; effective March 31, 2006; amended May 2, 2014.)

22-8-12. Refresher training. (a) Each licensee shall ensure that one of the following occurs at least every three years:

(1) The individual who completed the initial training required by K.A.R. 22-8-11 completes the corresponding refresher training.

(2) An agent or employee of the licensee other than the individual specified in paragraph (a)(1) completes the initial training specified in K.A.R. 22-8-11.

(b) Each instructor and each refresher course shall be approved in advance by the state fire marshal.

(c) Each licensee shall submit proof of compliance with this regulation to renew the license. (Authorized by and implementing K.S.A. 2013 Supp. 55-1812; effective March 31, 2006; amended May 2, 2014.)

22-8-13. Adoption of national codes. The following national fire protection association standards, including the annexes, are hereby adopted by reference: (a) Standard no. 54, "national fuel gas code," 2006 edition; and

(b) standard no. 58, "liquefied petroleum gas code," 2008 edition, except that the provisions of chapter 6.25 shall be effective only on and after January 1, 2012. (Authorized by and implementing K.S.A. 2008 Supp. 55-1812; effective March 31, 2006; amended Feb. 4, 2011.)

Article 10.—INSTALLATION AND CERTIFICATION STANDARDS FOR EXTINGUISHING DEVICES

22-10-3. Registration certificate. (a) Each business that services, recharges, installs, or inspects portable fire extinguishers or fixed extinguishing systems or hydrostatically tests these cylinders or any combination of them shall obtain a registration certificate issued by the state fire marshal unless otherwise exempted by these regulations. The registration certificate shall indicate the class or classes that are authorized. A certified

business shall provide only the classes listed under its own registration number. A certified business may take orders for a class or classes that are not authorized by its registration certificate if these orders are consigned to a business that is certified to perform the class or classes indicated.

(b) The registration certificate shall indicate one or more of the following classes:

(1) Class RA, which permits servicing, recharging, installing, or inspecting fixed extinguishing systems by a currently certified manufacturer's distributor;

(2) class RB, which permits servicing, recharging, installing, or inspecting portable fire extinguishers;

(3) class RC, which permits hydrostatic testing of non-DOT cylinders, including wet chemical or dry chemical containers; or

(4) class RD, which permits servicing, recharging, and inspecting fixed extinguishing systems.

(c) Each business that desires a registration certificate shall submit a written application on forms prescribed by the state fire marshal and signed by the sole proprietor, each partner, or an officer of the corporation, as appropriate.

(d) Each applicant shall provide proof that an employee meets one of the following requirements:

(1) Received training from the manufacturer of each fixed extinguishing system whose products are used by the business indicating the type or types of systems the employee has been trained to service; or

(2) meets the following requirements:

(A) Has a notarized affidavit filed with the state fire marshal's office attesting that the employee has at least two years of experience in servicing, recharging, and inspecting fixed extinguishing systems and has access to the tools and service manuals for each fixed extinguishing system that the business services; and

(B) has current certification through the international code council and the national association of fire equipment distributors (ICC/NAFED).

(e) A nonrefundable application fee of \$200 shall accompany each application. No fee shall be charged for any person who is an officer or employee of the state or any political or taxing subdivision if that person is acting on behalf of the state or political or taxing subdivision.

(f)(1) Each applicant for a class RA registration certificate shall provide proof of at least \$500,000 of insurance covering comprehensive general li-

ability, bodily injury, property damage, and completed operations.

Written authorization shall be included from each fixed extinguishing system manufacturer whose products are used by the business including the types of systems the business is authorized and has been trained to install or service. The manufacturer's authorization shall remain valid until the employee's training certificate expires or is cancelled for misconduct.

(2) Each applicant for a class RB or RC registration certificate shall provide proof of at least \$100,000 of insurance covering comprehensive general liability, bodily injury, property damage, and completed operations.

(3) Each applicant for a class RD registration certificate shall provide proof of at least \$1,000,000 of insurance covering comprehensive general liability, bodily injury, property damage, and completed operations.

(g) If, after reviewing the application, insurance information, record of services, servicing and shop facilities, and methods and procedures of operations, the state fire marshal finds that granting or renewing a registration certificate would be in the interest of public safety and welfare, a certificate for the appropriate classes of registration requested by the business shall be issued or renewed by the state fire marshal. An identifying number shall be assigned by the state fire marshal to each registration certificate.

(h) Each registration certificate shall be valid for one calendar year. Renewal applications shall be submitted to the state fire marshal on or before November 30 of the year of expiration and shall meet the requirements of subsections (d), (e), and (f), as applicable.

(i) Evidence that a registration certificate has been altered shall render the certificate invalid. The altered certificate shall be surrendered to the state fire marshal.

(j) Each change in the location or ownership of a certified business shall be reported in writing to the state fire marshal at least 14 days before the change. Failure to notify the state fire marshal may render the registration certificate invalid. Each change in location or ownership shall be verified by the state fire marshal or an authorized deputy.

(k) Each registration certificate issued by the state fire marshal shall be posted at the certified location and be available for inspection during normal business hours.

(l) A duplicate registration certificate may be issued by the state fire marshal to replace one that has been lost or destroyed if a written statement attesting to the loss or destruction of the original certificate is submitted.

(m) A registration certificate shall not constitute authorization for a registration certificate holder or the holder's employees to perform either of the following:

(1) To enter any property or building; or

(2) to enforce any provision of these regulations. (Authorized by and implementing K.S.A. 2008 Supp. 31-133, 31-133a; effective, E-82-3, Jan. 21, 1981, effective May 1, 1981; amended May 1, 1982; amended, T-83-31, Oct. 25, 1982; amended May 1, 1983; amended Aug. 28, 1989; amended Sept. 17, 1990; amended Jan. 21, 1991; amended Feb. 4, 2011.)

Article 11.—ADULT CARE HOMES, HOSPITALS, RESIDENTIAL CARE FACILITIES AND MATERNITY CENTERS

22-11-6. (Authorized by and implementing K.S.A. 1989 Supp. 31-133; effective May 1, 1981; amended May 1, 1985; amended May 1, 1986; amended Sept. 17, 1990; revoked Feb. 4, 2011.)

22-11-8. Adult and boarding care homes.

(a) The requirements of NFPA standard no. 101, which is adopted in K.A.R. 22-1-3, shall apply to one- and two-bed adult care homes, one- and two-bed adult family homes, three- and four-bed boarding care adult care homes, and boarding care homes for the mentally retarded.

(b) A life safety code inspection of a home shall be performed by the state fire marshal or an authorized representative under K.S.A. 31-137, and amendments thereto, upon request from the Kansas department of health and environment.

(c) As used in this subsection, "ambulatory" shall mean having the physical and mental capability of getting in and out of bed and walking in a normal path to safety in a reasonable period of time without the aid of another person. "Nonambulatory" shall mean not having the physical or mental capability of getting in and out of bed and walking a normal path to safety without the aid of another person.

(1) Ambulatory residents who are able to walk without the aid of another person but are unable to move from place to place without the use of a device including a walker, crutches, wheelchair, or

wheeled platform shall be housed on the ground level of a home if handicap accommodations for exiting are present.

(2) Fully ambulatory residents who do not require the use of a device including a walker, crutches, wheelchair, or wheeled platform may be housed on any level of a home.

(3) Nonambulatory persons shall not be allowed as residents.

(d) The following requirements shall apply to all one- and two-bed adult care homes, one- and two-bed adult family homes, three- and four-bed boarding care adult care homes, and boarding care homes for the mentally retarded, in addition to NFPA standard no. 101, which is adopted in K.A.R. 22-1-3:

(1) Emergency lighting shall be provided to ensure illumination for evacuation in case of a power failure.

(2) Fire alarms, smoke detectors, and fire extinguishers shall be maintained in an operable condition at all times.

(3) Fire drills shall be conducted as frequently as necessary, and at least once every three months, to ensure orderly egress in case of an emergency.

(4) Each exit and each route to each exit shall be clearly marked so that all residents will readily know the direction of egress from any point within the building.

(5) Each exit shall be arranged and maintained to provide free, unobstructed egress. Locks or fastening devices shall not be installed to prevent free escape from inside the building.

(6) Each building shall be constructed, arranged, equipped, maintained, and operated to avoid danger to the lives and safety of its residents from fire, smoke, fumes, and panic during emergency situations. (Authorized by and implementing K.S.A. 2008 Supp. 31-133 and K.S.A. 31-147; effective May 1, 1983; amended May 1, 1984; amended May 1, 1985; amended May 1, 1986; amended Sept. 17, 1990; amended Feb. 4, 2011.)

Article 15.—CHILD CARE FACILITIES

22-15-7. (Authorized by and implementing K.S.A. 1989 Supp. 31-133; effective May 1, 1979; amended May 1, 1986; amended Sept. 17, 1990; revoked Feb. 4, 2011.)

Article 18.—EDUCATIONAL OCCUPANCIES

22-18-3. Construction requirements for school buildings. (a) The construction of school

buildings shall meet the requirements of the international building code, 2006 edition, as specified in K.S.A. 31-134a and amendments thereto. All electric wiring shall conform to the requirements of the national electric code of the national fire protection association adopted by K.A.R. 22-1-3.

(b) The construction of mobile, modular, portable, or relocatable school buildings shall meet the requirements of the life safety code adopted by K.A.R. 22-1-3. (Authorized by and implementing K.S.A. 2008 Supp. 31-133, 31-150; effective Sept. 17, 1990; amended May 10, 1993; amended Feb. 4, 2011.)

Article 19.—CERTIFICATION OF FIRE INVESTIGATORS

22-19-2. Certification of fire investigators. Certification may be granted at one of two levels: certified fire investigator I or certified fire investigator II. (a) Each individual seeking certification at either level shall apply on a form approved by the state fire marshal. Any individual that meets and demonstrates the following criteria may be certified by the state fire marshal:

- (1) Is a United States citizen;
- (2) has been fingerprinted, with a search of local, state, and national fingerprint files to determine whether the applicant has a criminal record;
- (3) has not been convicted, does not have an expunged conviction, and on and after July 1, 1995, has not been placed on diversion by any state or the federal government for a crime that is a felony or its equivalent under the uniform code of military justice;
- (4) has not been convicted, does not have an expunged conviction, and has not been placed on diversion by any state or the federal government for a misdemeanor crime of domestic violence or its equivalent under the uniform code of military justice, if the misdemeanor crime of domestic violence was committed on or after the effective date of this regulation;
- (5) is the holder of a high school diploma or furnishes evidence of successful completion of an examination indicating an equivalent achievement;
- (6) is of good moral character;
- (7) is free of any physical or mental condition that could adversely affect the applicant's performance of a fire investigator's duties;
- (8) is at least 21 years of age;
- (9) is recommended by the agency head of the applicant's jurisdiction;

(10)(A) Provides proof of successful completion of a fire investigation course, within the past five calendar years, that meets or exceeds the "standard for professional qualifications for fire investigator" established by the national fire protection association in publication number 1033, 2009 edition, which is hereby adopted by reference, and all law enforcement training required under K.S.A. 74-5607a et seq., and amendments thereto, and applicable regulations. Each applicant who completed an approved fire investigation course more than five years before the date of application shall submit proof of the applicant's successful completion of the course and proof of the applicant's fire investigation responsibilities within the past five calendar years; or

(B) achieves a score of at least 80 percent on the fire investigation graded examination. Any applicant may take this examination only once. If an applicant scores less than 80 percent, the applicant shall meet the requirement in paragraph (a) (10)(A); and

(11) submits a completed criminal history form. Each applicant shall also provide proof that the applicant has submitted fingerprints to the Kansas bureau of investigation.

(b) Each applicant for certified fire investigator II shall, in addition to meeting all of the requirements in subsection (a), successfully complete a firearms training course approved for law enforcement officers and be employed full-time by a fire department or law enforcement agency. Each applicant for a certified fire investigator II shall maintain firearms qualifications annually and shall provide documentation of this to the state fire marshal.

(c) Any applicant who is a part-time or volunteer certified fire investigator I may apply for certification as a fire investigator II with a written recommendation from the local law enforcement agency.

(d) Comparable qualifications from another state or jurisdiction may be recognized by the state fire marshal.

(e) Certification as a fire investigator I or II shall be valid for three years.

(f) Any certification issued under this regulation may be suspended or revoked by the state fire marshal if the state fire marshal finds that the certification holder has not accumulated and documented at least 60 points in each three-year period following initial certification and has not provided this documentation to the state fire marshal as follows:

(1) Training points shall be earned at the rate of one point for every clock-hour of department-approved training attended or taught, and 10 points shall be earned for every college-level course of three or more credit hours for which the applicant achieves a grade of C or higher if the course content directly relates to fire investigation skills. No more than 10 points shall be applied from instructing. At least 30 points shall be earned in this category, and a maximum of 40 points may be applied towards recertification.

(2) Experience points shall be earned for performing fire scene investigation and reporting or for the supervision of fire scene investigation and reporting. Points shall be earned at the rate of one point per fire investigation performed or supervised. At least 10 points shall be earned in this category, and a maximum of 20 points may be earned.

(3) Each individual shall be required to accumulate and document at least 10 points of training in law enforcement-related courses.

(g) Points shall not be carried over from one three-year period into another. A fire investigator who is certified before the effective date of this regulation shall not be required to meet the requirements in paragraph (f)(3) until the individual's next three-year certification period following the effective date of this regulation.

(h) For each subsequent three-year certification, each individual shall provide the following to the state fire marshal no later than 60 days before the expiration of the individual's current certification:

(1) A completed certification form approved by the state fire marshal;

(2) originals or legible copies of all documents establishing the points earned; and

(3) a notarized statement of eligibility for the subsequent three-year certification.

(i) If an individual's certification lapses for more than six months, the individual shall complete all applicable requirements in subsections (a) through (e). (Authorized by and implementing K.S.A. 31-157; effective, T-84-43, Dec. 21, 1983; effective May 1, 1984; amended May 10, 1993; amended Aug. 27, 1999; amended Aug. 5, 2011.)

22-19-3. (Authorized by and implementing K.S.A. 31-157; effective, T-84-43, Dec. 21, 1983; effective May 1, 1984; amended May 10, 1993; amended Aug. 27, 1999; revoked Aug. 5, 2011.)

22-19-5. Reports to be filed; required notification in certain circumstances. (a) Each person certified as a fire investigator I or II shall file a report of every fire investigation conducted by that individual with the state fire marshal within 30 days. The report shall be submitted through the investigative database used by the state fire marshal's investigations division and shall include the following:

(1) The name and birthdate of the owner;

(2) the name and birthdate of each suspect, if any, and either the driver's license or other identification number of each suspect;

(3) the name, the birthdate, and either the driver's license or other identification number of each witness; and

(4) the name of the insurance company, policy number, and amount of insurance coverage.

(b) A supplemental report indicating disposition of each case shall be filed within 30 days of disposition.

(c) Each certified fire investigator shall notify the state fire marshal immediately of each fire death or fire injury likely to result in death that the fire investigator has been assigned to investigate.

(d) Failure to file the reports or notify the state fire marshal as specified in this regulation shall be grounds for suspension or revocation of the certificate pursuant to K.A.R. 22-1-5. (Authorized by K.S.A. 2016 Supp. 31-133; implementing K.S.A. 2016 Supp. 31-137; effective May 10, 1993; amended Aug. 5, 2011; amended April 6, 2018.)

Article 24.—REGIONAL HAZARDOUS MATERIALS RESPONSE

22-24-1. Definitions. (a) "Local authority" means the local unit of government's public safety agency that is in overall command at the scene of a hazardous materials incident.

(b) "Regional hazardous materials response team" means an emergency response team that has contracted with the state fire marshal to provide a response to hazardous materials incidents. (Authorized by and implementing K.S.A. 2016 Supp. 31-133; effective, T-22-10-25-01, Oct. 25, 2001; effective Feb. 15, 2002; amended April 6, 2018.)

22-24-2. (Authorized by and implementing K.S.A. 31-133; effective, T-22-10-25-01, Oct. 25, 2001; effective Feb. 15, 2002; revoked April 6, 2018.)

22-24-3. (Authorized by and implementing K.S.A. 2008 Supp. 31-133; effective, T-22-10-25-01, Oct. 25, 2001; effective Feb. 15, 2002; amended Oct. 2, 2009; revoked April 6, 2018.)

22-24-4, 22-24-5, and 22-24-6. (Authorized by and implementing K.S.A. 31-133; effective, T-22-10-25-01, Oct. 25, 2001; effective Feb. 15, 2002; revoked April 6, 2018.)

22-24-7. Notification of incidents. Each local jurisdiction requesting assistance from a regional hazardous materials response team shall notify the Kansas division of emergency management and the Kansas department of health and environment that an incident has occurred. (Authorized by and implementing K.S.A. 2016 Supp. 31-133; effective, T-22-10-25-01, Oct. 25, 2001; effective Feb. 15, 2002; amended April 6, 2018.)

22-24-8, 22-24-9, 22-24-10, 22-24-11, 22-24-12, and 22-24-13. (Authorized by and implementing K.S.A. 31-133; effective, T-22-10-25-01, Oct. 25, 2001; effective Feb. 15, 2002; revoked April 6, 2018.)

22-24-15. Assisting with emergency response activities. The local authority that has jurisdiction and that requested the emergency response shall provide all necessary assistance to the regional hazardous materials response team. (Authorized by and implementing K.S.A. 2016 Supp. 31-133; effective, T-22-10-25-01, Oct. 25, 2001; effective Feb. 15, 2002; amended April 6, 2018.)

22-24-16 and 22-24-17. (Authorized by and implementing K.S.A. 31-133; effective, T-22-10-25-01, Oct. 25, 2001; effective Feb. 15, 2002; revoked April 6, 2018.)

22-24-18. (Authorized by and implementing K.S.A. 31-133 and 31-135; effective, T-22-10-25-01, Oct. 25, 2001; effective Feb. 15, 2002; revoked April 6, 2018.)

Article 25.—REDUCED CIGARETTE IGNITION PROPENSITY

22-25-1. Definitions. (a) “ASTM” shall mean the American society for testing and materials or its successor organization.

(b) “Attorney general” shall mean the attorney general of the state of Kansas.

(c) “Consumer testing” shall mean an assessment of cigarettes that is conducted by, or under the control and direction of, a manufacturer for the purpose of evaluating consumer acceptance of the cigarettes, utilizing only the quantity of cigarettes that is reasonably necessary for the testing. Consumer testing shall not be construed as the “sale” of cigarettes for the purposes of this article.

(d) “Person” shall mean an individual, partnership, corporation, or other association.

(e) “Sale” shall mean any transfer of title or possession, or both, or exchange or barter, conditional or otherwise, in any manner or by any means or any agreement. In addition to cash and credit sales, the giving of cigarettes as samples, prizes, or gifts and the exchanging of cigarettes for any consideration other than money shall be considered sales of cigarettes.

(f) “State fire marshal” shall mean the fire marshal of the state of Kansas.

(g) “UPC symbol” shall mean the symbol signifying the universal product code. (Authorized by K.S.A. 2011 Supp. 31-611; implementing K.S.A. 2011 Supp. 31-602; effective July 27, 2012.)

22-25-2. Certification forms and requirements; recertification. (a) Certification forms may be requested from the state fire marshal’s office.

(b) If any certification form, including all required documentation, is incomplete, the state fire marshal or designee shall notify the manufacturer in writing that the submission is incomplete. All missing information and documentation shall be submitted to the state fire marshal’s office within 30 days of notification. If the submission is still incomplete after 30 days, the fees shall not be refunded or considered part of that submission or any other request.

(c) Each cigarette shall be retested in accordance with K.S.A. 31-603, and amendments thereto, within one year before the submission of an application for recertification as required by K.S.A. 31-604, and amendments thereto. (Authorized by K.S.A. 2011 Supp. 31-611; implementing K.S.A. 2011 Supp. 31-604; effective July 27, 2012.)

Agency 26

Kansas Department for Aging and Disability Services

Editor's Note:

Pursuant to Executive Reorganization Order (ERO) No. 41, the Kansas Department on Aging was renamed the Kansas Department for Aging and Disability Services. See L. 2012, Ch. 185.

Article 1.—GENERAL PROVISIONS

26-1-1. Definitions. (a) “Area agency” and “area agency on aging” mean the agency or organization within a planning and service area that has been designated by the secretary to develop, implement, and administer a plan for the delivery of a comprehensive and coordinated system of services to individuals in the planning and service area.

(b) “Area plan” means the document developed by an area agency that describes the comprehensive and coordinated system of services to be provided to individuals in a planning and service area.

(c) “Comprehensive and coordinated system of services” means a program of interrelated supportive and nutrition services designed to meet the needs of individuals in a planning and service area.

(d) “Contract” means a procurement agreement.

(e) “Contractor” means the party or parties who are under contract with the department or an area agency to provide services to individuals in a planning and service area.

(f) “Contribution” means a donation of money or vision card units that is given by a customer to pay to the provider a portion or the total cost of services received.

(g) “Department” has the meaning specified in K.S.A. 75-5902(a), and amendments thereto.

(h) “Federal act” means the older Americans act of 1965, codified at 42 U.S.C. 3001 et seq. on October 17, 2006, as amended.

(i) “Final financial report” means a contractor-prepared or grantee-prepared document that contains an accurate and complete disclosure of the financial results of the contract, grant, subcontract, or subgrant.

(j) “Grant” means an award of financial assistance in the form of money, or property in lieu of money, by the department.

(k) “Grantee” means any legal entity to which a grant is awarded and that is accountable to the department for the use of the grant. The grantee is the entire legal entity even if only a particular component of the entity is designated in the grant.

(l) “Granting agency” means Kansas department on aging.

(m) “Greatest economic need” means the need for services resulting from an annual income level at or below the poverty threshold established annually by the U.S. department of health and human services.

(n) “Greatest social need” means the need for services caused by noneconomic factors that restricts an individual’s ability to perform normal daily tasks or that threatens the capacity to live independently. Noneconomic factors shall include physical and mental disabilities, language barriers, and cultural, social, or geographic isolation including isolation caused by racial or ethnic status.

(o) “Indian tribal organization” means the recognized governing body of any Indian tribe or any legally established organization of Indians that is controlled, sanctioned, or chartered by the governing body of an Indian tribe.

(p) “In-home service” means the provision of health, medical, or social services to a private individual in the individual’s noninstitutional place of residence.

(q) “Kansan” means any individual who currently resides within the state of Kansas.

(r) “Metropolitan area” means a standard metropolitan statistical area as defined by the census bureau.

(s) “Modification of a grant or contract” means a change in an area plan or other grant or a contract that would result in any of the following:

(1) Alteration of the program scope, planned objectives, or manner in which services are delivered;

(2) provision of financial assistance or payments to any entity not authorized by the original grant or contract; or

(3) alteration of the approved budget of the original grant or contract.

(t) “Notification of grant award” and “NGA” mean the document, issued by the department, awarding financial assistance for the provision of services and specifying the terms of the grant.

(u) “Obligation” means the dollar amount of the orders placed, contracts and subgrants awarded, services received, and similar transactions during the grant period that will require payment within 75 days following the last day in which the grant is active.

(v) “Older individual” and “older person” has the meaning specified in K.S.A. 75-5902(d), and amendments thereto, for “aged” and “senior citizen.”

(w) “Planning and service area” and “PSA” mean a geographic area of the state designated by the department for the purpose of planning, development, delivery, and overall administration of services under an area plan.

(x) “Program income” and “project income” mean gross income received by the grantee or subgrantee and directly generated by a grant-supported activity or earned only as a result of the grant agreement during the period.

(y) “Qualified assessor” means any individual who meets the department’s education, licensure, certification, and training requirements that are required to perform a customer assessment for a program funded by the department.

(z) “Redesignation” means a change in the geographic boundaries of a planning and service area or selection of an area agency that is different from the area agency previously designated for a particular planning and service area.

(aa) “Request for proposal” and “RFP” mean the document containing criteria that is used to solicit applications for a contract or grant from potential service providers.

(bb) “Secretary” has the meaning specified in K.S.A. 75-5902(b), and amendments thereto.

(cc) “Self-employment” means work for income performed by an individual engaged on that individual’s own account in a business, farm, or other enterprise.

(dd) “Service provider” means any legal entity that is obligated to provide services in any planning and service area.

(ee) “State act” means Kansas act on aging, K.S.A. 75-5901 et seq. and amendments thereto.

(ff) “State advisory council” means the advisory council on aging created by K.S.A. 75-5911, and amendments thereto.

(gg) “State plan” means the document submitted to the U.S. department of health and human services by the department in order to receive its allotment of funds under the older Americans act.

(hh) “Subcontractor” means any legal entity to which a subcontract has been awarded and that is accountable to the contractor to provide services to individuals in a planning and service area.

(ii) “Subgrant” means an award of financial assistance in the form of money, or property in lieu of money, made under a grant by a grantee to a subgrantee.

(jj) “Subgrantee” means any legal entity to which a subgrant is awarded and that is accountable to the grantee for the use of the grant funds.

(kk) “Unit of local government” means either of the following:

(1) Any county, city, township, school district, or other similar political subdivision of the state, or any agency, bureau, office, or department thereof; or

(2) any Indian tribal organization. (Authorized by K.S.A. 2010 Supp. 75-5908; implementing K.S.A. 75-5902 and K.S.A. 2010 Supp. 75-5908; effective, T-85-47, Dec. 19, 1984; effective May 1, 1985; amended, T-86-48, Dec. 18, 1985; amended May 1, 1986; amended May 1, 1987; amended, T-89-14, April 26, 1988; amended Oct. 1, 1988; amended May 31, 2002; amended July 15, 2011.)

26-1-5. Area plan development. (a) Each area agency’s executive director shall ensure that an area plan is developed and submitted to the department for approval. An area agency shall not receive any funds from the department until the area agency’s area plan has been approved.

(b) Each area plan shall be submitted on forms prescribed by the secretary and shall contain all of the assurances required in section 306 of the federal act, and all other relevant information requested on the forms.

(c) Each area agency’s executive director shall ensure that units of local government, local advisory councils, potential service providers, and older individuals, family caregivers, and other representatives of these older individuals have an opportunity for involvement in the development of the area plan.

(d) Each area agency’s area plan shall describe the rationale for the proposed allocation of funds for services in the planning and service area. The rationale shall identify the manner in which the proposed distribution of funds will meet identified nutrition and supportive service needs.

(e) The area plan shall provide assurances that the area agency will expend for services to older individuals residing in rural areas in the area agency’s planning and service area an amount not less than the amount expended for these services in federal fiscal year 2000. (Authorized by and implementing K.S.A. 2010 Supp. 75-5908; effective, T-85-47, Dec. 19, 1984; effective May 1, 1985; amended, T-86-48, Dec. 18, 1985; amended May 1, 1986; amended, T-89-14, April 26, 1988; amended Oct. 1, 1988; amended May 31, 2002; amended July 15, 2011.)

26-1-6. Operating policies and procedures of area agencies. (a) Each area agency receiving

funding under an area plan shall have written policies and procedures to govern the conduct of its operations and functions. These policies and procedures shall meet the following requirements:

(1) Describe the administrative and policy structure of the area agency; and

(2) describe the policies and procedures that are applicable to recipients of services provided with funds from the department and include any policies and procedures mandated by the department.

(b) Each area agency’s written policies and procedures that are applicable to recipients of services provided with funds from the department shall be officially adopted by action of the entity’s governing body. Before adoption, the area agency shall provide an opportunity for comment on the proposed operating policies and procedures by units of local government, local advisory councils, potential service providers, and older individuals. Notice of the opportunity for comment shall be published in a newspaper or newspapers of general circulation within the planning and service area at least 14 days before the policies and procedures are adopted by the area agency.

(c) Each area agency’s executive director shall ensure that the area agency’s policies and procedures are submitted to the department within 10 days of receipt of the department’s written request.

(d) Each area agency’s executive director shall ensure that each of the area agency’s subgrantees and contractors that receive department funds is provided with a copy of the area agency’s written policies and procedures, at no cost to the subgrantee or contractor. Other parties may obtain a copy of the written policies and procedures by submitting a written request to the area agency. The area agency shall provide the requested policies or procedures, or both, within three business days after the date the request is received, subject to prepayment of reasonable costs. (Authorized by and implementing K.S.A. 2010 Supp. 75-5908; effective, T-85-47, Dec. 19, 1984; effective May 1, 1985; amended, T-86-48, Dec. 18, 1985; amended May 1, 1986; amended May 21, 1999; amended July 15, 2011.)

26-1-7. (Authorized by and implementing K.S.A. 75-5908 and K.S.A. 1996 Supp. 75-5945; effective, T-89-14, April 26, 1988; effective Oct. 1, 1988; amended Nov. 14, 1997; revoked July 15, 2011.)

26-1-8. Confidentiality; policies and procedures to protect information; sanctions.

(a) Personal information collected in the application for or delivery of services funded, in whole or in part, by the department shall remain confidential unless the disclosure meets any of the following conditions:

(1) Prior written consent to disclose an individual's personal information is obtained from the individual or the individual's legal representative.

(2) Disclosure is required to enable the delivery of services for which the individual or the individual's representative has requested or applied.

(3) Disclosure is required for program monitoring purposes by authorized federal, state, or local agencies.

(4) Disclosure is required by court order, administrative tribunal, or law.

(b) Personal information shall include any of the following:

(1) Street address, city, county, zip code, or equivalent geocodes;

(2) telephone number, fax number, or electronic mail address;

(3) social security, medical record, health plan beneficiary, and account numbers, and any other unique identifying number, characteristic, or code;

(4) certificate or license number;

(5) web universal resource locators (URLs) and internet protocol (IP) address numbers;

(6) biometric identifiers, including fingerprints and voiceprints;

(7) full-face photographic images and any comparable images;

(8) validation of past and present receipt of any local, state, or federal program services;

(9) validation of family, social, and economic circumstances;

(10) medical data, including diagnoses and history of disease or disability;

(11) income and other financial information;

(12) department evaluation of personal or medical information;

(13) validation of program eligibility; and

(14) validation of third-party liability for payment for program services to any individual or entity.

(c) Each department grantee, subgrantee, contractor, and subcontractor shall adopt and adhere to written policies and procedures to safeguard against the unauthorized disclosure of personal information about individuals collected in the de-

livery of services and shall identify sanctions to be imposed against an individual or organization that discloses confidential information in violation of the policies and procedures.

(1) Access to confidential information shall be restricted to those individuals who specifically require access in order to perform their assigned duties.

(2) All staff engaged in the collection, handling, and dissemination of personal information shall be informed of the responsibility to safeguard the information in their possession and shall be held accountable for the appropriate use and disclosure of confidential information.

(d) If, after an investigation, notice, and the opportunity for a hearing, the secretary finds that any individual or organization identified in subsection (c) has disclosed or permitted the disclosure of any confidential information the disclosure of which is prohibited by this regulation or by any other state or federal law restricting or prohibiting the disclosure of information about individuals requesting or receiving services through any of the department's programs, the individual or organization shall have imposed against that individual or organization those sanctions that the secretary decides are commensurate with the disclosure under all the circumstances. Sanctions may include any of the following:

(1) Denial, termination, or suspension of performance of any grant, subgrant, contract, sub-contract, or other agreement;

(2) denial, termination, or suspension of participation in any or all department programs;

(3) referral for criminal prosecution or civil penalty assessments when provided for by law;

(4) petitioning for temporary or permanent injunctive relief without prior notice;

(5) exclusion from department data bases; or

(6) any other sanctions permitted by any state or federal law.

(e) No attorney paid through any program administered by the department to provide legal assistance to an individual shall be required by the department or the area agency to disclose the identity of any individual to whom the attorney provides or has provided legal assistance or any information protected by the attorney-client privilege. (Authorized by and implementing K.S.A. 2010 Supp. 75-5908 and 75-5945; effective July 15, 2011.)

Article 2.—GRANTS AND CONTRACTS**26-2-3. Reporting and unearned funds requirements.** (a) General reporting requirements.

(1) Each grantee and contractor shall submit program and financial reports to comply with federal and state program requirements. Each grantee and each contractor shall be responsible for the following:

(A) Gathering accurate information necessary to complete its reports;

(B) completing reports on forms or in a format prescribed by the secretary, including entering data in the management information system; and

(C) submitting reports or data to the secretary or designee on or before the due dates.

(2) Each grantee and each contractor shall be solely responsible for obtaining and reporting necessary information from subgrantees, contractors, and subcontractors with whom the grantee or contractor has subgrants, contracts, or subcontracts.

(3) A waiver of deadline for submitting a report may be authorized by the secretary if the grantee or contractor meets the following requirements:

(A) Submits a written waiver request that is received by the secretary at least eight business days before the due date for the report for which the waiver is being requested;

(B) identifies in the written waiver request the reason for the reporting delay, which shall be legitimately beyond the grantee's or contractor's control;

(C) provides an acceptable remedy to rectify the delay; and

(D) submits a report acceptable to the secretary on or before the revised due date indicated in the request.

(4) Within five business days after receipt of the written waiver request, a written notice of denial or approval of the request shall be issued by the secretary. The deadline for submitting a program or financial report shall not be deemed changed merely because the grantee or contractor submitted a written waiver request for an extension of the report's due date.

(5) Failure to submit complete and accurate program or financial reports by the due dates, even if a waiver is granted, may be remedied by departmental action, including one or more of the following:

(A) Termination or suspension of the grant or contract;

(B) termination or suspension of grant or contract payments;

(C) withholding of all administrative funds;

(D) reducing a percentage of administrative funds;

(E) exclusion from consideration for future grants or contracts; and

(F) exclusion from participation in the redistribution of the older Americans act carryover or unearned funds, as specified in the state plan on aging.

(b) Final financial report requirements for older Americans act (OAA) title III.

(1) Before submitting its final financial report, each area agency shall liquidate all obligations for goods and services purchased for the report period.

(2) Each area agency shall submit an accurate consolidated final financial report to the department for each program component no later than December 15 following the end of the grant period.

(3) An area agency may submit a revised final financial report if the report is accompanied by the supporting final financial report for each of the area agency's OAA title III subgrantees, contractors, and subcontractors and if either of the following conditions is met:

(A) The revised report is received either on or before December 31 after the end of the grant period.

(B) The revised report is received after December 31 following the end of the grant period, but on or before April 15, and the report is delivered simultaneously with the audit report performed in accordance with K.A.R. 26-2-10 confirming that the revised report is an accurate report.

(c) Older Americans act title III unearned funds requirements.

(1) Unearned funds shall be those funds that have been awarded to a grantee or contractor that have not been expended by the grantee or contractor or that have been expended for an unallowable cost due to the grantee's or contractor's failure to comply with specific policies, regulations, or grant or contract conditions governing the award or contract.

(2) Each area agency's unearned funds calculation shall be based on the area agency's final or revised final financial report submitted on or before December 31. The area agency shall be notified by the department of the amount of unearned funds by issuance of revised notifications of grant award.

(3) Unearned older Americans act funds that have been calculated and issued shall be adjusted only if the revised final financial report accompanied by an audit report is received by the department on or before April 15 and if the revised calculated unearned funds increased by one-half percent or more. If an area agency has an increase in older Americans act unearned funds of one-half percent or more, the area agency shall perform one of the following adjustments:

(A) Submit a check payable to the Kansas department on aging for the amount of the increased unearned funds;

(B) submit a written request to the department for a reduction in its allocation for the next grant year in an amount equal to the amount of the increased unearned funds; or

(C) make arrangements approved by the secretary, in writing, to pay the increased unearned funds to the department in two or more installments.

(d) Final report requirements for all programs except older Americans act title III programs.

(1) Each recipient of state or federal funds for aging program grants or contracts not identified in subsection (b) shall submit an accurate and complete final financial report in the format prescribed by the secretary for each program for which the recipient has received funds.

(2) The complete final financial report shall be received by the department no later than the deadline stated in the notification of grant award or contract.

(3) (A) If funds advanced by the department to a recipient of a grant award are unearned or disallowed, the recipient shall perform one of the following adjustments upon submission of the grant's final financial report or upon the entity becoming aware of the overpayment following submission of the final financial report:

(i) Submit a check payable to the department for the amount of the unearned or disallowed funds; or

(ii) make arrangements approved by the secretary in writing to pay the unearned or disallowed funds to the department in two or more installments.

(B) If funds advanced by the department to a contractor are unearned or disallowed, the contractor shall return the funds to the department as prescribed by the terms of the contract or as requested by the secretary. (Authorized by and implementing K.S.A. 2010 Supp. 75-5908; ef-

fective, T-85-47, Dec. 19, 1984; effective May 1, 1985; amended, T-86-48, Dec. 18, 1985; amended May 1, 1986; amended May 1, 1987; amended, T-89-14, April 26, 1988; amended Oct. 1, 1988; amended Aug. 1, 2003; amended July 15, 2011.)

26-2-9. (Authorized by and implementing K.S.A. 2002 Supp. 75-5908; effective, T-89-14, April 26, 1988; effective Oct. 1, 1988; amended Jan. 7, 2000; amended Aug. 1, 2003; revoked July 15, 2011.)

26-2-10. Audits. (a) Definitions.

(1) "Federal funds" means federal financial assistance and federal cost-reimbursement contracts that non-federal entities receive directly from federal awarding agencies or indirectly from the department, other state agencies, or pass-through entities.

(2) "Limited-scope audit" means agreed-upon procedures conducted in accordance with the American institute of certified public accountants' generally accepted auditing standards or attestation standards that address one or more of the following types of compliance requirements:

(A) Activities allowed or unallowed;

(B) allowable costs and cost principles;

(C) eligibility;

(D) matching, level of effort, and earmarking; and

(E) reporting.

(3) "Pass-through entity" and "entity" mean a non-state organization that provides a state award to a subrecipient to carry out a federal or state program.

(4) "Recipient" means an entity that expends a state award received directly from the department to carry out a federal or state program.

(5) "Single audit" means an audit that includes both the entity's financial statements and the funds awarded by the department and expended during the entity's fiscal year.

(6) "State award" means state financial assistance and state cost-reimbursement contracts that entities receive directly from the department or indirectly from pass-through entities. This term shall not include procurement contracts used to buy goods or services from vendors.

(7) "Subrecipient" means an entity that expends department funds received from a pass-through entity to carry out a federal or state program and shall not include an individual that is a beneficiary of the program.

(8) “Vendor” means a dealer, distributor, merchant, or other seller providing goods or services that are required for the conduct of a federal or state program. These goods or services may be for the entity’s own use or for the use of beneficiaries of the federal or state program.

(b) Audit requirements.

(1) Office of management and budget circular no. A-133 (OMB circular A-133), “audits of states, local governments, and non-profit organizations,” revised to show changes published in the federal registers of June 27, 2003 and June 26, 2007, excluding the introduction, subparts D and E, and the appendices, is hereby adopted by reference, except that in subpart B, section .200(a), “Federal awards” shall be replaced with “state awards in combination with federal funds received from other sources.”

(2) Each recipient, subrecipient, or pass-through entity that expends a state award shall ensure the entity’s related financial and program records are available to the secretary or the secretary’s designee for audit or review.

(3) Each recipient, subrecipient, or pass-through entity that expends \$500,000 or more in state awards in combination with federal funds received from other sources during the entity’s fiscal year shall have a single audit conducted in accordance with generally accepted government auditing standards and OMB circular A-133.

(4) Each area agency on aging that is required to have a single audit in accordance with paragraph (b)(3) shall include all funds received from department grants and contracts in the single audit, including payments from medicaid programs.

(5) Each recipient, subrecipient, or pass-through entity that expends less than \$500,000 in state awards in combination with federal funds received from other sources during the entity’s fiscal year may be subject to the following:

(A) A limited-scope audit; or

(B) an independent audit, which shall be completed at the department’s expense.

(6) Each audit shall be conducted by an independent auditor.

(7) Each audit report shall be submitted to the department within six months after the end of the entity’s fiscal year and shall include a reconciliation of the audited financial statements to the financial reports submitted by the entity to the department for programs funded by the department.

(8) Each audit report submitted to the secretary after the audit report’s deadline shall be consid-

ered late unless the audited entity has received an extension of the deadline, in writing, from the secretary. A written request for an extension may be granted by the secretary if the request meets all of the following conditions:

(A) The entity’s written request is signed by the entity’s chair of the board of directors.

(B) The request is received by the secretary at least seven working days before the date the report is due to the department.

(C) The written request provides the reason for the delay which shall be legitimately beyond the entity’s control.

(D) The entity submits an audit report acceptable to the department by the revised due date indicated in the request.

(9) Penalties for failing to submit an audit report on or before the due date or submitting an audit report that does not meet the requirements specified in this regulation shall be determined by the secretary and may include one or more of the following:

(A) Disallowance of audit costs when audits required by paragraph (b)(3) have not been made or have been made but not in accordance with OMB circular A-133;

(B) withholding a percentage of state awards until the audit is completed satisfactorily;

(C) withholding or disallowing overhead costs;

(D) suspending state awards until the audit is conducted; or

(E) terminating the state award.

(c) Monitoring requirements. Each recipient, subrecipient, pass-through entity, and vendor shall be subject to monitoring performed by the secretary’s designee, which shall include one or more of the following:

(1) A review of reports submitted by the recipient, subrecipient, pass-through entity, or vendor to the department;

(2) one or more site visits to the recipient, subrecipient, pass-through entity, or vendor to review financial and program records and observe operations; and

(3) procedures agreed upon by the recipient, subrecipient, pass-through entity, or vendor’s executive director or other individual authorized by the entity’s board of directors and the secretary or secretary’s designee to review activities or documentation related to programs funded by the department, including eligibility determinations. (Authorized by and implementing K.S.A. 2010 Supp. 75-5908; effective July 15, 2011.)

Article 3.—PROCUREMENT

26-3-1. Contracting and granting practices and requirements. (a) Department approval of funding. No grantee or contractor shall make a subgrant or contract involving funds made available by the department until an area plan or other document detailing the proposed use or uses of the funds has been approved by the secretary for a specific time period and the secretary has issued a notification of grant award or contract to the grantee or contractor.

(b) Allowable use of funds. In making a subgrant or contract, each grantee or contractor shall use the funds awarded under a secretary-approved area plan for those services that are consistent with service definitions issued and provided by the department and the identified priority service needs within the PSA.

(c) Competitive bids. Each entity that receives funding through a program administered by the secretary, except a medicaid program, shall be selected on a competitive basis, unless a noncompetitive selection basis is permitted by some other provision of law. For purposes of this subsection, “entity” shall include any grantee or contractor, a subgrantee or subcontractor of a grantee or contractor, and any entity providing services under any arrangement with a subgrantee or subcontractor.

(d) Provider selection standards. The service provider selection process for grants, contracts, subgrants, and subcontracts required by subsection (c) shall meet the following requirements:

(1) For services provided under a state-funded program, the provider selection process used shall encourage free and open competition among qualified, responsible providers by meeting, at a minimum, the following requirements:

(A) Providing potential providers with a notice of service needs describing the required services, the service standards, the minimum vendor qualifications, and the process for submitting a bid or an offer to provide the services; and

(B) Identifying and avoiding both potential and actual conflicts of interest. A “conflict of interest” shall mean a situation in which an employee, officer, or agent or any member of the employee’s, officer’s, or agent’s immediate family or partner, or an organization that employs or is about to employ any of these parties, has a financial or other interest in the firm selected for a grant award or contract.

(2) For services provided under a program funded with federal funds or a combination of federal and state funds, the provider selection process shall satisfy the competition and procurement standards and procedures by meeting, at a minimum, either of the following requirements:

(A) For each grantee or contractor that is a part of a local government, the requirements of 45 C.F.R. 92.36(b) through (i), as in effect on October 1, 2009 and hereby adopted by reference; or

(B) for each grantee or contractor that is not a part of a local government, the requirements of 45 C.F.R. 74.40 through 74.48, as in effect on October 1, 2009 and hereby adopted by reference.

(e) Older Americans act services. When the department enters into a contract with or awards a grant to an area agency under the older Americans act to provide services to older persons within a PSA, the following provisions shall apply:

(1) The area agency shall enter into a subgrant or contract for services within 90 days after the effective date of the notification of grant award issued by the department, unless the area agency requests and receives prior written approval for an extension of time from the secretary.

(2) The area agency may enter into a contract with a unit of local government or with a non-profit organization to provide services without the prior written approval of the secretary. For purposes of this regulation, a “nonprofit” organization is an organization that has received a determination letter from the internal revenue service that qualifies it for tax-exempt status under the internal revenue code.

(3) The area agency shall not enter into a contract with an individual or a for-profit organization to provide services until the area agency has requested and received written approval from the secretary to enter into the contract. Requests for contract approvals shall be approved if accompanied by a notarized statement from the area agency’s executive director that the contract was procured according to competition and procurement standards and procedures required by the older Americans act and does not involve a conflict of interest as defined in paragraph (d)(1)(B). Within 30 days after the date on which the request was received, the area agency shall be notified by the department if the request is approved or disapproved.

(4) An area agency whose older Americans act for-profit service provider terminates the service contract before the end of the contract’s term for any reason may enter into a replacement contract

with a different for-profit provider for the same services without using the area agency's normal competitive process and without requesting the prior approval of the secretary required by this regulation if the area agency, within 30 days after the effective date of the replacement contract, sends the secretary a written notice describing the following:

(A) The circumstances of the contract termination;

(B) the efforts made to obtain replacement services; and

(C) an assurance that the replacement contract does not involve a conflict of interest, as defined in paragraph (d)(1)(B).

(5) An area agency shall not alter a subgrant or contract during the final 60 days of any grant or contract period, unless the area agency requests and receives written approval for the alteration from the secretary.

(f) Record retention. Each area agency shall retain its grants, subgrants, contracts, and subcontracts with service providers in retrievable form for at least six years after the date on which the grant, subgrant, contract, or subcontract ended or at least three calendar years from the date of the area agency's final financial report, whichever date is later, unless otherwise stated in the department's grant or contract.

(1) If any litigation, claim, financial management review, or audit begins before the expiration of the retention period, the area agency shall retain its records pertaining to the litigation, claim, financial management review, or audit until all litigation, claims, or audit findings involving the records have been resolved and final action taken.

(2) Upon request made during the retention period, an area agency shall make its grants, contracts, and subcontracts available for review by representatives of the department or its auditors, the division of legislative post audit, or the United States department of health and human services. (Authorized by and implementing K.S.A. 2010 Supp. 75-5908; effective, T-85-47, Dec. 19, 1984; effective May 1, 1985; amended, T-86-48, Dec. 18, 1985; amended, T-89-14, April 26, 1988; amended Oct. 1, 1988; amended Jan. 7, 2000; amended July 15, 2011.)

26-3-4. (Authorized by and implementing K.S.A. 75-5908; effective, T-85-47, Dec. 19, 1984; effective May 1, 1985; amended May 1, 1986; amended, T-89-14, April 26, 1988; amended Oct. 1, 1988; amended Nov. 14, 1997; revoked July 15, 2011.)

Article 4.—NON-MEDICAID HEARING AND APPEALS

26-4-1. Notice of actions; appeals by written requests; time to file written requests.

(a) When an action is taken or proposed by any of the following parties in any program administered by the secretary, other than a medicaid program administered pursuant to K.S.A. 39-968, 75-5321a, and 75-5945 and amendments thereto, the procedures in this article 4 shall apply:

(1) By the secretary or the secretary's designee when the action affects any area agency on aging, a service provider, a customer, or an applicant to become a service provider or customer;

(2) by the secretary or the secretary's designee, an area agency on aging, or any of their agents when the action affects a service provider, a customer, or an applicant to become a service provider or customer; or

(3) by a service provider or its agent when the action affects a customer or an applicant to become a customer.

(b)(1) If the secretary or other authority described in subsection (a) proposes to take action, that authority shall mail written notice of the proposed action and the basis for the proposed action to the affected party or parties at least 10 days before the effective date of the action identified in the written notice, unless a different notice period is specifically required by some other provision of federal or state law.

(2) In situations involving an immediate danger to the public health, safety, or welfare, action may be taken by the secretary or other authority without giving prior written notice of proposed action described in this subsection. When action is taken without prior written notice of proposed action prescribed in paragraph (b)(1), written notice of the action shall be mailed by the secretary or other authority to the affected party or parties as soon as practical.

(c) Unless prohibited by some other provision of law, the proposed action may be taken, without any additional notice to the affected party, on the effective date described in the written notice.

(d) Each written notice of proposed action shall identify the reasons for and effective date of the proposed action and include a statement informing the affected party of the right to appeal the action by filing a written request for a hearing with the office of administrative hearings within time limits described in subsection (e).

(e) Unless preempted by federal or state law, a party receiving notice of action may appeal the action by filing a written request for a hearing with the office of administrative hearings within 30 days after the date of the notice of action. An additional three days shall be allowed if the notice of action is mailed. If no written notice of action is given, an affected party may appeal the action by filing a written request for a hearing with the office of administrative hearings within 30 days after the date on which the affected party knew or reasonably should have known of the action.

(f) Each request for a hearing shall state clearly the proposed action or the action upon which a hearing is requested. The written request for a hearing shall be included in the department's official record of agency action and record of a hearing as evidence received by it.

(g) Each hearing shall be conducted in accordance with the Kansas administrative procedures act, K.S.A. 77-501 et seq. and amendments thereto. (Authorized by and implementing K.S.A. 2010 Supp. 75-5908; effective, T-85-47, Dec. 19, 1984; effective May 1, 1985; amended, T-86-48, Dec. 18, 1985; amended May 1, 1986; amended Nov. 14, 1997; amended July 15, 2011.)

26-4-6. (Authorized by and implementing K.S.A. 75-5908 and K.S.A. 1996 Supp. 75-5928 and 75-5931; effective Nov. 14, 1997; revoked July 15, 2011.)

26-4-7 through 26-4-15. (Authorized by and implementing K.S.A. 75-5908 and K.S.A. 1996 Supp. 75-5928 and 75-5931; effective Nov. 14, 1997; revoked July 15, 2011.)

Article 4a.—CUSTOMER AND PROVIDER APPEALS IN MEDICAID PROGRAMS

26-4a-1. (Authorized by and implementing K.S.A. 1996 Supp. 75-5908 and K.S.A. 1996 Supp. 75-5945; effective, T-26-7-1-97, July 1, 1997; effective Nov. 14, 1997; revoked July 15, 2011.)

26-4a-2. Appeals and fair hearings. (a) This regulation shall apply only to the medicaid long-term care programs and services administered by the secretary of aging, in accordance with K.S.A. 39-968, 75-5321a, and 75-5945 and amendments thereto.

(b) A fair hearing program to process and decide appeals involving the medicaid long-term care programs and services and the customers and

providers of those services shall be administered through the office of administrative hearings in accordance with the Kansas administrative procedures act, K.S.A. 77-501 et seq. and amendments thereto, and K.A.R. 30-7-64 through K.A.R. 30-7-79.

(c) An individual may submit a written request for a fair hearing to appeal a written decision, notice of action, or order made by the secretary of aging or any of the department on aging's employees or agents involving a medicaid program or service. The request shall be received by the office of administrative hearings within 30 days after the date of the written decision, notice of action, or order, except as otherwise provided in applicable federal or state law. An additional three days shall be allowed if the written decision, notice of action, or order is mailed. (Authorized by and implementing K.S.A. 2010 Supp. 75-5908; effective July 15, 2011.)

Article 5.—IN-HOME NUTRITION PROGRAM

26-5-2. (Authorized by and implementing K.S.A. 75-5908; effective, T-86-48, Dec. 18, 1985; effective May 1, 1986; amended May 1, 1987; amended, T-89-14, April 26, 1988; amended Oct. 1, 1988; revoked July 15, 2011.)

26-5-3. (Authorized by and implementing K.S.A. 75-5908; effective, T-86-48, Dec. 18, 1985; effective May 1, 1986; amended Nov. 14, 1997; revoked July 15, 2011.)

26-5-4. (Authorized by and implementing K.S.A. 75-5908; effective, T-86-48, Dec. 18, 1985; effective May 1, 1986; revoked July 15, 2011.)

26-5-5. (Authorized by and implementing K.S.A. 75-5908; effective, T-86-48, Dec. 18, 1985; effective May 1, 1986; amended Sept. 7, 1993; revoked July 15, 2011.)

26-5-6. (Authorized by and implementing K.S.A. 2001 Supp. 75-5908; effective, T-86-48, Dec. 12, 1985; effective May 1, 1986; amended Sept. 7, 1993; amended, T-26-7-1-96, July 1, 1996; amended Nov. 8, 1996; amended Nov. 14, 1997; amended May 31, 2002; revoked July 15, 2011.)

26-5-7. (Authorized by and implementing K.S.A. 75-5908; effective, T-86-48, Dec. 18, 1985; effective May 1, 1986; revoked July 15, 2011.)

26-5-8. (Authorized by and implementing K.S.A. 75-5908; effective, T-89-14, April 26, 1988; effective Oct. 1, 1988; revoked July 15, 2011.)

26-5-9 and 26-5-10. (Authorized by and implementing K.S.A. 75-5908; effective, T-26-7-1-96, July 1, 1996; effective Nov. 8, 1996; revoked July 15, 2011.)

Article 8.—SENIOR CARE ACT

26-8-2. Eligibility criteria. (a) All customers shall be residents of Kansas who are 60 years of age or older.

(b) Each applicant shall be assessed using the department's approved uniform assessment instrument and shall meet the department's long-term care threshold requirement for senior care act services. Applicants who receive only an assessment shall not be subject to the department's long-term care threshold requirement.

(c) Medicaid home- and community-based services customers shall be eligible to receive only senior care act services that are not funded through the medicaid program. (Authorized by and implementing K.S.A. 2010 Supp. 75-5931; effective, T-26-10-17-89, Oct. 17, 1989; effective, T-26-7-30-91, July 30, 1991; effective Aug. 10, 1992; amended, T-26-6-27-02, July 1, 2002; amended Oct. 25, 2002; amended July 15, 2011.)

26-8-5. Assessment. (a) To determine eligibility for services under the senior care act, a qualified assessor employed by or under contract with the area agency on aging shall complete a customer assessment according to the following:

- (1) Before implementation of services;
- (2) upon any significant change in the customer's condition; and
- (3) at least once every 365 days from the date of the last assessment.

(b) The assessment instrument shall be a form prescribed by the secretary. (Authorized by K.S.A. 2010 Supp. 75-5931; implementing K.S.A. 2010 Supp. 75-5930; effective, T-26-10-17-89, Oct. 17, 1989; effective, T-26-7-30-91, July 30, 1991; effective Aug. 10, 1992; amended Nov. 7, 1994; amended, T-26-6-27-02, July 1, 2002; amended Oct. 25, 2002; amended July 15, 2011.)

26-8-8. Termination. Services provided under this act shall be terminated by the area agency on aging for any of the following reasons:

- (a) The customer moved to an adult care home.

(b) The customer died.

(c) The customer moved out of the service area.

(d) The customer chose to terminate services.

(e) The customer no longer meets the eligibility criteria.

(f) The customer has not paid the fees, and 60 days have passed since the original billing date.

(g) The customer did not accurately report the customer's income and liquid assets and chooses not to pay the applicable fees.

(h) The service provided was a one-time service as defined in K.A.R. 26-8-1.

(i) The program or service ended or was terminated.

(j) The service was discontinued due to the lack of service provider or staff.

(k) The customer is determined to be no longer safe in the customer's own home.

(l) The customer's whereabouts are unknown.

(m) The customer is a participant in the "program of all-inclusive care for the elderly" (PACE). (Authorized by and implementing K.S.A. 2010 Supp. 75-5931; effective, T-26-10-17-89, Oct. 17, 1989; effective, T-26-7-30-91, July 30, 1991; effective Aug. 10, 1992; amended July 28, 1995; amended Nov. 14, 1997; amended, T-26-6-27-02, July 1, 2002; amended Oct. 25, 2002; amended July 15, 2011.)

Article 9.—CLIENT ASSESSMENT, REFERRAL, AND EVALUATION PROGRAM

26-9-1. Client assessment, referral, and evaluation (CARE) for nursing facilities. (a)

Each individual seeking admission to a nursing facility or nursing facility for mental health shall, before admission, receive and complete a pre-admission assessment, evaluation, and referral to all available community resources, including nursing facilities, unless one of the following conditions is met:

(1) The individual entered an acute care facility from a nursing facility and is returning to a nursing facility.

(2) The individual is transferring from one nursing facility to another nursing facility.

(3) The individual is entering a nursing facility operated by and for the adherents of a recognized church or religious denomination for the purpose of providing care and services for those who depend upon spiritual means, through prayer alone, for healing.

(4) The individual has been diagnosed as having a terminal illness and has obtained a physician's statement documenting that the individual's life expectancy is six months or less.

(5) The individual is entering a nursing facility from a hospital and the length of stay is expected to be 30 days or less based on a physician's certification.

(b) Each individual entering a nursing facility from the community whose stay is expected to be 30 days or less, based on a physician's certification, shall have sections I and II of the CARE assessment completed, before admission, by a qualified assessor.

(c) Each qualified assessor shall evaluate and refer the individual using the data collection form approved by the secretary.

(d) The preadmission assessment shall be valid for one year from the date of the initial assessment and reimbursement for the assessment shall be limited to one annual assessment per individual unless, in the judgment of a qualified assessor, the individual's physical, emotional, social, or cognitive status has changed to the extent that another assessment is warranted. (Authorized by and implementing K.S.A. 2010 Supp. 39-968; effective, T-26-6-28-95, June 28, 1995; effective Aug. 7, 1995; amended July 15, 2011.)

Article 11.—KANSAS SENIOR PHARMACY ASSISTANCE PROGRAM

26-11-1 through 26-11-3. (Authorized by and implementing K.S.A. 2001 Supp. 75-5961; effective, T-26-9-5-01, Oct. 1, 2001; effective, T-26-12-11-01, Dec. 11, 2001; effective Sept. 6, 2002; revoked July 15, 2011.)

Article 39.—ADULT CARE HOMES

26-39-100. Definitions. The following terms and definitions shall apply to all of the department's regulations governing adult care homes and their employees: (a) "Activities director" means an individual who meets at least one of the following requirements:

- (1) Has a degree in therapeutic recreation;
- (2) is licensed in Kansas as an occupational therapist or occupational therapy assistant;
- (3) has a bachelor's degree in a therapeutic activity field in art therapy, horticultural therapy, music therapy, special education, or a related therapeutic activity field;
- (4) is certified as a therapeutic recreation specialist or as an activities professional by a recognized accrediting body;

(5) has two years of experience in a social or recreational program within the last five years, one of which was full-time in an activities program in a health care setting; or

(6) has completed a course approved by the department in resident activities coordination and receives consultation from a therapeutic recreation specialist, an occupational therapist, an occupational therapy assistant, or an individual with a bachelor's degree in art therapy, music therapy, or horticultural therapy.

(b) "Addition" means an increase in the building area, aggregate floor area, or number of stories of an adult care home.

(c) "Administrator" means an individual who is responsible for the general administration of an adult care home, whether or not the individual has an ownership interest in the adult care home. Each administrator of an adult care home shall be licensed in accordance with K.S.A. 65-3501 et seq., and amendments thereto.

(d) "Adult care home" has the meaning specified in K.S.A. 39-923, and amendments thereto.

(e) "Adult day care" has the meaning specified in K.S.A. 39-923, and amendments thereto.

(f) "Advanced practice registered nurse" and "APRN" mean an RN who holds a license from the Kansas board of nursing to function as a professional nurse in an advanced role as defined by regulations adopted by the Kansas board of nursing.

(g) "Ambulatory resident" means any resident who is physically and mentally capable of performing the following without the assistance of another person:

- (1) Getting in and out of bed; and
- (2) walking between locations in the living environment.

(h) "Applicant" means any individual, firm, partnership, corporation, company, association, or joint stock association requesting a license to operate an adult care home.

(i) "Assisted living facility" has the meaning specified in K.S.A. 39-923, and amendments thereto.

(j) "Audiologist" means an individual who is licensed by the department as an audiologist.

(k) "Basement" means the part of a building that is below grade.

(l) "Biologicals" means medicinal preparations made from living organisms and their products, including serums, vaccines, antigens, and antitoxins.

(m) "Boarding care home" has the meaning specified in K.S.A. 39-923, and amendments thereto.

(n) “Case manager” means an individual assigned to a resident to provide assistance in access and coordination of information and services in a program authorized by the Kansas department for aging and disability services, the Kansas department for children and families, or the division of health care finance in the Kansas department of health and environment.

(o) “Change of ownership” means any transaction that results in a change of control over the capital assets of an adult care home.

(p) “Chemical restraint” means a medication or biological that meets the following conditions:

(1) Is used to control a resident’s behavior or restrict a resident’s freedom of movement; and

(2) is not a standard treatment for a resident’s medical or psychiatric condition.

(q) “Clinical record” means the record that includes all the information and entries reflecting each resident’s course of stay in an adult care home.

(r) “Concentrated livestock operation” means confined feeding facility, as defined in K.S.A. 65-171d, and amendments thereto.

(s) “Contaminated laundry” means any clothes or linens that have been soiled with body substances including blood, stool, urine, vomitus, or other potentially infectious material.

(t) “Controlled substance” means any medication, substance, or immediate precursor included in any of the schedules designated in K.S.A. 65-4105, K.S.A. 65-4107, K.S.A. 65-4109, K.S.A. 65-4111, and K.S.A. 65-4113, and amendments thereto.

(u) “Day shift” means any eight-hour to 12-hour work period that occurs between the hours of 6 a.m. and 9 p.m.

(v) “Department” means Kansas department for aging and disability services.

(w) “Dietetic services supervisor” means an individual who meets one of the following requirements:

(1) Is licensed in Kansas as a dietitian;

(2) has an associate’s degree in dietetic technology from a program approved by the American dietetic association;

(3) is a dietary manager who is certified by the certifying board for dietary managers of the association of nutrition and foodservice professionals; or

(4) has training and experience in dietetic services supervision and management that are determined by the Kansas department for aging and disability services to be equivalent in content to

the requirement specified in paragraph (2) or (3) of this subsection.

(x) “Dietitian” means an individual who is licensed by the department as a dietitian.

(y) “Direct care staff” means the individuals employed by or working under contract for an adult care home who assist residents in activities of daily living. These activities may include the following:

(1) Ambulating;

(2) bathing;

(3) bed mobility;

(4) dressing;

(5) eating;

(6) personal hygiene;

(7) toileting; and

(8) transferring.

(z) “Director of nursing” means a position in a nursing facility or a nursing facility for mental health that is held by one or more individuals who meet the following requirements:

(1) Each individual shall be licensed as an RN.

(2) If only one individual serves in this position, the individual shall be employed at least 35 hours each week.

(3) If more than one individual serves in this position, the individuals shall be employed collectively for a total of at least 40 hours each week.

(4) Each individual shall have the responsibility, administrative authority, and accountability for the supervision of nursing care provided to residents in the nursing facility or the nursing facility for mental health.

(aa) “Full-time” means 35 or more hours each week.

(bb) “Health information management practitioner” means an individual who is certified as a registered health information administrator or a registered health information technician by the American health information management association.

(cc) “Home plus” has the meaning specified in K.S.A. 39-923, and amendments thereto.

(dd) “Interdisciplinary team” means the following group of individuals:

(1) An RN with responsibility for the care of the residents; and

(2) other appropriate staff, as identified by resident comprehensive assessments, who are responsible for the development of care plans for residents.

(ee) “Intermediate care facility for people with intellectual disability” has the meaning specified in K.S.A. 39-923, and amendments thereto.

(ff) “Legal representative” means an agent acting within the bounds of the agent’s legal authority who meets any of the following criteria:

(1) Has been designated by a resident to serve as the resident’s trustee, power of attorney, durable power of attorney, or power of attorney for health care decisions;

(2) is a court-appointed guardian or conservator authorized to act on behalf of the resident in accordance with K.S.A. 59-3051 et seq., and amendments thereto; or

(3) if the resident is a minor, is either of the following:

(A) A natural guardian, as defined in K.S.A. 59-3051 and amendments thereto; or

(B) a court-appointed guardian, conservator, trustee, or an individual or agency vested with custody of the minor pursuant to the revised Kansas code for care of children, K.S.A. 2012 Supp. 38-2201 through 38-2283 and amendments thereto, or the revised Kansas juvenile justice code, K.S.A. 2012 Supp. 38-2301 through 38-2387 and amendments thereto.

(gg) “Licensed mental health technician” means an individual licensed by the Kansas board of nursing as a licensed mental health technician.

(hh) “Licensed nurse” means an individual licensed by the Kansas board of nursing as a registered professional nurse or licensed practical nurse.

(ii) “Licensed practical nurse” and “LPN” mean an individual who is licensed by the Kansas board of nursing as a licensed practical nurse and is supervised by a registered professional nurse, in accordance with K.S.A. 65-1113 and amendments thereto.

(jj) “Licensee” means an individual, firm, partnership, association, company, corporation, or joint stock association authorized by a license obtained from the secretary to operate an adult care home.

(kk) “Medical care provider” means any of the following individuals:

(1) A physician licensed by the Kansas board of healing arts to practice medicine and surgery, in accordance with K.S.A. 65-2801 et seq. and amendments thereto;

(2) a physician assistant (PA) who is licensed by the Kansas board of healing arts, in accordance with K.S.A. 65-28a02 and amendments thereto, and who provides health care services under the direction and supervision of a responsible physician; or

(3) an APRN.

(ll) “Medication” means any “drug,” as defined by K.S.A. 65-1626 and amendments thereto.

(mm) “Medication administration” means an act in which a single dose of a prescribed medication or biological is given by application, injection, inhalation, ingestion, or any other means to a resident by an authorized person in accordance with all laws and regulations governing the administration of medications and biologicals. Medication administration shall consist of the following:

(1) Removing a single dose from a labeled container, including a unit-dose container;

(2) verifying the medication and dose with the medical care provider’s orders;

(3) administering the dose to the resident; and

(4) documenting the dose in the resident’s clinical record.

(nn) “Medication aide” means an individual who is certified by the department as a medication aide according to K.A.R. 26-50-30 and is supervised by a licensed nurse.

(oo) “Medication dispensing” means the delivery of one or more doses of a medication by a licensed pharmacist or physician. The medication shall be dispensed in a container and labeled in compliance with state and federal laws and regulations.

(pp) “Non-ambulatory resident” means any resident who is not physically or mentally capable of performing the following without the assistance of another person:

(1) Getting in and out of bed; and

(2) walking between locations in the living environment.

(qq) “Nurse aide” means an individual who meets the following requirements:

(1) Is certified as a nurse aide by the department and is listed on the Kansas nurse aide registry according to K.A.R. 26-50-20; and

(2) is supervised by a licensed nurse.

(rr) “Nurse aide trainee” means an individual who is in the process of completing a nurse aide training program as specified in K.A.R. 26-50-20 or K.A.R. 26-50-24, is not certified by the department as a nurse aide, and is not listed on the Kansas nurse aide registry. There are two types of nurse aide trainee: nurse aide trainee I and nurse aide trainee II. These two terms are defined in K.A.R. 26-50-10.

(ss) “Nursing facility” has the meaning specified in K.S.A. 39-923, and amendments thereto.

(tt) “Nursing facility for mental health” has the meaning specified in K.S.A. 39-923, and amendments thereto.

(uu) "Nursing personnel" means all of the following:

- (1) RNs;
- (2) LPNs;
- (3) licensed mental health technicians in nursing facilities for mental health;
- (4) medication aides;
- (5) nurse aides;
- (6) nurse aide trainees II; and
- (7) paid nutrition assistants.

(vv) "Nursing unit" means a distinct area of a nursing facility serving not more than 60 residents and including the service areas and rooms described in K.A.R. 26-40-302 and K.A.R. 26-40-303.

(ww) "Occupational therapist" means an individual who is licensed with the Kansas board of healing arts as an occupational therapist.

(xx) "Occupational therapy assistant" means an individual who is licensed by the Kansas board of healing arts as an occupational therapy assistant.

(yy) "Operator" has the meaning specified in K.S.A. 39-923, and amendments thereto.

(zz) "Paid nutrition assistant" has the meaning specified in K.S.A. 39-923, and amendments thereto. In addition, each paid nutrition assistant shall meet the following requirements:

(1) Have successfully completed a nutrition assistant course approved by the department;

(2) provide assistance with eating to residents of an adult care home based on an assessment by the supervising licensed nurse, the resident's most recent minimum data set assessment or functional capacity screening, and the resident's current care plan or negotiated service agreement;

(3) provide assistance with eating to residents who do not have complicated eating problems, including difficulty swallowing, recurrent lung aspirations, and tube, parenteral, or intravenous feedings;

(4) be supervised by a licensed nurse on duty in the facility; and

(5) be able to contact the supervising licensed nurse verbally or on the resident call system for help in case of an emergency.

(aaa) "Personal care" means assistance provided to a resident to enable the resident to perform activities of daily living, including ambulating, bathing, bed mobility, dressing, eating, personal hygiene, toileting, and transferring.

(bbb) "Pharmacist" has the meaning specified in K.S.A. 65-1626, and amendments thereto.

(ccc) "Physical restraint" means any method or any physical device, material, or equipment

attached or adjacent to the resident's body and meeting the following criteria:

(1) Cannot be easily removed by the resident; and

(2) restricts freedom of movement or normal access to the resident's body.

(ddd) "Physical therapist" means an individual who is licensed by the Kansas board of healing arts as a physical therapist.

(eee) "Physical therapy assistant" means an individual who is certified by the Kansas board of healing arts as a physical therapy assistant.

(fff) "Physician" means a person licensed to practice medicine and surgery by the state board of healing arts.

(ggg) "Psychopharmacologic drug" means any medication prescribed with the intent of controlling mood, mental status, or behavior.

(hhh) "Registered professional nurse" and "RN" mean an individual who is licensed by the Kansas board of nursing as a registered professional nurse.

(iii) "Renovation" means a change to an adult care home that affects the building's structural integrity or life safety system.

(jjj) "Resident" has the meaning specified in K.S.A. 39-923, and amendments thereto.

(kkk) "Resident capacity" means the number of an adult care home's beds or adult day care slots, as licensed by the department.

(lll) "Residential health care facility" has the meaning specified in K.S.A. 39-923, and amendments thereto.

(mmm) "Respite care" means the provision of services to a resident on an intermittent basis for periods of fewer than 30 days at any one time.

(nnn) "Restraint" means the control and limitation of a resident's movement by physical, mechanical, or chemical means.

(ooo) "Sanitization" means effective bactericidal treatment by a process that reduces the bacterial count, including pathogens, to a safe level on utensils and equipment.

(ppp) "Secretary" means secretary of the Kansas department for aging and disability services.

(qqq) "Self-administration of medication" means the determination by a resident of when to take a medication or biological and how to apply, inject, inhale, ingest, or take a medication or biological by any other means, without assistance from nursing staff.

(rrr) "Significant change in condition" means a decline or improvement in a resident's mental,

psychosocial, or physical functioning that requires a change in the resident's comprehensive plan of care or negotiated service agreement.

(sss) "Social services designee" means an individual who meets at least one of the following qualifications:

(1) Is licensed by the Kansas behavioral sciences regulatory board as a social worker;

(2) has a bachelor's degree in a human service field, including social work, sociology, special education, rehabilitation counseling, or psychology, and receives supervision from a licensed social worker; or

(3) has completed a course in social services coordination approved by the department and receives supervision from a licensed social worker on a regular basis.

(ttt) "Social worker" means an individual who is licensed by the Kansas behavioral sciences regulatory board as a social worker.

(uuu) "Speech-language pathologist" means an individual who is licensed by the department as a speech-language pathologist.

(vvv) "Working day" means any day other than a Saturday, Sunday, or day designated as a holiday by the United States congress or the Kansas legislature or governor. (Authorized by K.S.A. 39-932 and K.S.A. 2012 Supp. 39-1901 and 39-1908; implementing K.S.A. 2012 Supp. 39-923, K.S.A. 39-932, and K.S.A. 2012 Supp. 39-1908; effective May 22, 2009; amended Jan. 7, 2011; amended, T-26-6-28-13, June 28, 2013; amended Oct. 25, 2013.)

26-39-101. Licensure of adult care homes.

(a) Initiation of application process.

(1) Each applicant for a license to operate an adult care home shall submit a letter of intent to the department.

(2) The letter of intent shall include all of the following information:

(A) The type of adult care home license being requested;

(B) The name, address, and telephone number of the applicant; and

(C) the street address or legal description of the proposed site.

(b) Initial licensure application.

(1) Each applicant for an initial license shall submit the following to the department:

(A) A completed application on a form prescribed by the department;

(B) a copy of each legal document identify-

ing ownership and control, including applicable deeds, leases, and management agreements;

(C) any required approval of other owners or mortgagors;

(D) curriculum vitae or resumes of all facility and corporate staff responsible for the operation and supervision of the business affairs of the facility;

(E) a complete list of names and addresses of facilities that the applicant operates in states other than Kansas; and

(F) a financial statement projecting the first month's operating income and expenses with a current balance sheet showing at least one month's operating expenses in cash or owner's equity. All financial statements shall be prepared according to generally accepted accounting principles and certified by the applicant to be accurate.

(2) A license shall be issued by the department if all of the following requirements are met:

(A) A licensure application has been completed by the applicant.

(B) Construction of the facility or phase is completed.

(C) The facility is found to meet all applicable requirements of the law.

(D) The applicant is found to qualify for a license under K.S.A. 39-928 and amendments thereto.

(c) Change of ownership or licensee.

(1) The current licensee shall notify the department, in writing, of any anticipated change in the information that is recorded on the current license at least 60 days before the proposed effective date of change.

(2) Each applicant proposing to purchase, lease, or manage an adult care home shall submit the following information, if applicable, to the department:

(A) A completed application form prescribed by the department;

(B) a copy of each legal document transferring ownership or control, including sales contracts, leases, deeds, and management agreements;

(C) any required approval of other owners or mortgagors;

(D) curriculum vitae or resumes of all facility and corporate staff responsible for the operation and supervision of the business affairs of the facility;

(E) a complete list of names and addresses of facilities the applicant operates in states other than Kansas; and

(F) a financial statement projecting the first month's operating income and expenses with a

current balance sheet showing at least one month's operating expenses in cash or owner's equity. All financial statements shall be prepared according to generally accepted accounting principles and certified by the applicant as accurate.

(3) A new license shall be issued by the department if a complete application and the required forms have been received and the applicant is found to qualify for a license under K.S.A. 39-928 and amendments thereto.

(d) New construction or conversion of an existing unlicensed building to an adult care home.

(1) Each applicant for a nursing facility, intermediate care facility for the mentally retarded, assisted living facility, or residential health care facility shall request approval of the site at least 30 days before construction begins. The written request for site approval shall include all of the following information:

(A) The name and telephone number of the individual to be contacted by evaluation personnel;

(B) the dimensions and boundaries of the site; and

(C) the name of the public utility or municipality that provides services to the site, including water, sewer, electricity, and natural gas.

(2) Intermediate care facilities for the mentally retarded shall not have more than one residential building with 16 beds or less located on one site or on contiguous sites. The residential buildings shall be dispersed geographically to achieve integration and harmony with the community or neighborhoods in which the buildings are located.

(3) The applicant shall submit one copy of the final plans for new construction or conversion of an existing unlicensed building, for the entire project or phase to be completed, which shall be sealed, signed, and certified by a licensed architect to be in compliance with the following regulations:

(A) For a nursing facility, K.A.R. 26-40-301 through K.A.R. 26-40-305;

(B) for an intermediate care facility for the mentally retarded with 16 beds or less, K.A.R. 28-39-225;

(C) for an intermediate care facility for the mentally retarded with 17 or more beds, K.A.R. 26-40-301 through K.A.R. 26-40-305 governing the physical environment of nursing facilities; and

(D) for an assisted living facility or a residential health care facility, K.A.R. 28-39-254 through K.A.R. 28-39-256.

(4) The applicant shall provide the department with a 30-day notice of each of the following:

(A) The date on which the architect estimates that 50 percent of the construction will be completed; and

(B) the date on which the architect estimates that all construction will be completed.

(5) The applicant for new construction or conversion of an existing unlicensed building to a home plus, boarding care home, or adult day care facility shall submit a drawing of the proposed facility that includes identification and dimensions of rooms or areas as required in the following regulations:

(A) For a home plus, K.A.R. 28-39-437;

(B) for a boarding care home, K.A.R. 28-39-411; and

(C) for an adult day care facility, K.A.R. 28-39-289 through K.A.R. 28-39-291.

(6) The applicant shall submit to the department any changes from the plans, specifications, or drawings on file at the department.

(e) Additions and renovations.

(1) The licensee shall submit one copy of final plans, which shall be sealed, signed, and certified by a licensed architect to be in compliance with the following regulations:

(A) For a nursing facility, K.A.R. 26-40-301 through K.A.R. 26-40-305;

(B) for an intermediate care facility for the mentally retarded with 16 beds or less, K.A.R. 28-39-225;

(C) for an intermediate care facility for the mentally retarded with 17 or more beds, K.A.R. 26-40-301 through K.A.R. 26-40-305 governing the physical environment of nursing facilities;

(D) for an assisted living facility or a residential health care facility, K.A.R. 28-39-254 through K.A.R. 28-39-256; and

(E) for a nursing facility for mental health, K.A.R. 28-39-227.

(2) The licensee shall submit to the department a 30-day notice for each of the following:

(A) The date on which the architect estimates that 50 percent of the construction will be completed;

(B) the date on which the architect estimates all construction will be completed; and

(C) any changes in the plans or specifications information for the addition or renovation.

(f) Change in use of a required room or area. If an administrator or operator changes resident bedrooms, individual living units, and apartments used for an alternative purpose back to resident bedrooms, individual living units, and apartments,

the administrator or operator shall obtain the secretary's approval before the change is made.

(g) Change of resident capacity. Each licensee shall submit a written request for any proposed change in resident capacity to the department. The effective date of a change in resident capacity shall be the first day of the month following department approval.

(h) Change of administrator, director of nursing, or operator. Each licensee of an adult care home shall notify the department within two working days if there is a change in administrator, director of nursing, or operator. When a new administrator or director of nursing is employed, the licensee shall notify the department of the name, address, and Kansas license number of the new administrator or director of nursing. When a new operator is employed, the licensee shall notify the department of the name and address of the new operator and provide evidence that the individual has completed the operator course as specified by the secretary of the Kansas department of health and environment pursuant to K.S.A. 39-923 and amendments thereto.

(i) Administrator or operator supervision of multiple homes. An administrator or operator may supervise more than one separately licensed adult care home if the following requirements are met:

(1) Each licensee shall request prior authorization from the department for a licensed administrator or an operator to supervise more than one separately licensed adult care home. The request shall be submitted on the appropriate form and include assurance that the lack of full-time, onsite supervision of the adult care homes will not adversely affect the health and welfare of residents.

(2) All of the adult care homes shall be located within a geographic area that allows for daily on-site supervision of all of the adult care homes by the administrator or operator.

(3) The combined resident capacities of separately licensed nursing facilities, assisted living facilities, residential health care facilities, homes plus, and adult day care facilities shall not exceed 120 for a licensed administrator.

(4) The combined resident capacities of separately licensed assisted living facilities, residential health care facilities, homes plus, and adult day care facilities shall not exceed 60 for an operator.

(5) The combined number of homes plus shall not exceed four homes for a licensed administrator or an operator.

(j) Reports. Each licensee shall file reports with the department on forms and at times prescribed by the department.

(k) Fees. Each initial application for a license and each annual report filed with the department shall be accompanied by a fee of \$30.00 for each resident in the stated resident capacity plus \$100.00. Each requested change in resident capacity shall be accompanied by a fee of \$30.00 for each resident increase or decrease in the stated resident capacity plus \$100.00. No refund of the fee shall be made if a license application is denied. (Authorized by K.S.A. 2009 Supp. 39-930, K.S.A. 39-932, and K.S.A. 39-933; implementing K.S.A. 39-927, K.S.A. 2009 Supp. 39-930, K.S.A. 39-932, and K.S.A. 39-933; effective May 22, 2009; amended Jan. 7, 2011.)

26-39-102. Admission, transfer, and discharge rights of residents in adult care homes.

(a) Each licensee, administrator, or operator shall develop written admission policies regarding the admission of residents. The admission policy shall meet the following requirements:

(1) The administrator or operator shall ensure the admission of only those individuals whose physical, mental, and psychosocial needs can be met within the accommodations and services available in the adult care home.

(A) Each resident in a nursing facility or nursing facility for mental health shall be admitted under the care of a physician licensed to practice in Kansas.

(B) The administrator or operator shall ensure that no children under the age of 16 are admitted to the adult care home.

(C) The administrator or operator shall allow the admission of an individual in need of specialized services for mental illness to the adult care home only if accommodations and treatment that will assist that individual to achieve and maintain the highest practicable level of physical, mental, and psychosocial functioning are available.

(2) Before admission, the administrator or operator, or the designee, shall inform the prospective resident or the resident's legal representative in writing of the rates and charges for the adult care home's services and of the resident's obligations regarding payment. This information shall include the refund policy of the adult care home.

(3) At the time of admission, the administrator or operator, or the designee, shall execute with the resident or the resident's legal representative

a written agreement that describes in detail the services and goods the resident will receive and specifies the obligations that the resident has toward the adult care home.

(4) An admission agreement shall not include a general waiver of liability for the health and safety of residents.

(5) Each admission agreement shall be written in clear and unambiguous language and printed clearly in black type that is 12-point type or larger.

(b) At the time of admission, adult care home staff shall inform the resident or the resident's legal representative, in writing, of the state statutes related to advance medical directives.

(1) If a resident has an advance medical directive currently in effect, the facility shall keep a copy on file in the resident's clinical record.

(2) The administrator or operator, or the designee, shall ensure the development and implementation of policies and procedures related to advance medical directives.

(c) The administrator or operator, or the designee, shall provide a copy of resident rights, the adult care home's policies and procedures for advance medical directives, and the adult care home's grievance policy to each resident or the resident's legal representative before the prospective resident signs any admission agreement.

(d) The administrator or operator of each adult care home shall ensure that each resident is permitted to remain in the adult care home and is not transferred or discharged from the adult care home unless one of the following conditions is met:

(1) The transfer or discharge is necessary for the resident's welfare, and the resident's needs cannot be met in the current adult care home.

(2) The safety of other individuals in the adult care home is endangered.

(3) The health of other individuals in the adult care home is endangered.

(4) The resident has failed, after reasonable and appropriate notice, to pay the rates and charges imposed by the adult care home.

(5) The adult care home ceases to operate.

(e) Before a resident is transferred or discharged involuntarily, the administrator or operator, or the designee, shall perform the following:

(1) Notify the resident, the resident's legal representative, and if known, a designated family member of the transfer or discharge and the reasons; and

(2) record the reason for the transfer or discharge under any of the circumstances specified in

paragraphs (d) (1) through (4) in the resident's clinical record, which shall be substantiated as follows:

(A) The resident's physician shall document the rationale for transfer or discharge in the resident's clinical record if the transfer or discharge is necessary for the resident's welfare and the resident's needs cannot be met by the adult care home;

(B) the resident's physician shall document the rationale for transfer or discharge in the resident's clinical record if the transfer or discharge is appropriate because the resident's health has improved sufficiently so that the resident no longer needs the services provided by the adult care home; and

(C) a physician shall document the rationale for transfer or discharge in the resident's clinical record if the transfer or discharge is necessary because the health or safety of other individuals in the adult care home is endangered.

(f) The administrator or operator, or the designee, shall provide a notice of transfer or discharge in writing to the resident or resident's legal representative at least 30 days before the resident is transferred or discharged involuntarily, unless one of the following conditions is met:

(1) The safety of other individuals in the adult care home would be endangered.

(2) The resident's urgent medical needs require an immediate transfer to another health care facility.

(g) Each written transfer or discharge notice shall include the following:

(1) The reason for the transfer or discharge;

(2) the effective date of the transfer or discharge;

(3) the address and telephone number of the complaint program of the Kansas department on aging where a complaint related to involuntary transfer or discharge can be registered;

(4) the address and telephone number of the state long-term care ombudsman; and

(5) for residents who have developmental disabilities or who are mentally ill, the address and telephone number of the Kansas advocacy and protection organization.

(h) The administrator or operator, or the designee, shall provide sufficient preparation and orientation to each resident before discharge to ensure a safe and orderly transfer and discharge from the adult care home.

(i) The administrator or operator, or the designee, shall ensure the development of a discharge plan, with the involvement of the resident, the resident's legal representative, and designated family when practicable.

(j) If the resident is transferred or discharged to another health care facility, the administrator or operator, or the designee, shall ensure that sufficient information accompanies the resident to ensure continuity of care in the new facility.

(k) Before a resident in a nursing facility, nursing facility for mental health, intermediate care facility for the mentally retarded, assisted living facility, residential health care facility, or home plus is transferred to a hospital or goes on therapeutic leave, the administrator or operator, or the designee, shall provide written information to the resident or the resident's legal representative and, if agreed to by the resident or the resident's legal representative, the resident's family, that specifies the following:

(1) The period of time during which the resident is permitted to return and resume residence in the facility;

(2) the cost to the resident, if any, to hold the resident's bedroom, apartment, individual living unit, or adult day care slot until the resident's return; and

(3) a provision that when the resident's hospitalization or therapeutic leave exceeds the period identified in the policy of a nursing facility, the resident will be readmitted to the nursing facility upon the first availability of a comparable room if the resident requires the services provided by the nursing facility. (Authorized by and implementing K.S.A. 39-932; effective May 22, 2009.)

26-39-103. Resident rights in adult care homes. (a) Protection and promotion of resident rights. Each administrator or operator shall ensure the protection and promotion of the rights of each resident as set forth in this regulation. Each resident shall have a right to a dignified existence, self-determination, and communication with and access to persons and services inside and outside the adult care home.

(b) Exercise of rights.

(1) The administrator or operator shall ensure that each resident is afforded the right to exercise the resident's rights as a resident of the adult care home and as a citizen.

(2) The administrator or operator shall ensure that each resident is afforded the right to be free from interference, coercion, discrimination, or reprisal from adult care home staff in exercising the resident's rights.

(3) If a resident is adjudged incompetent under the laws of the state of Kansas, the resident's le-

gal representative shall have the power to exercise rights on behalf of the resident.

(4) In the case of a resident who has executed a durable power of attorney for health care decisions, the agent may exercise the rights of the resident to the extent provided by K.S.A. 58-625 et seq. and amendments thereto.

(c) Notice of rights and services.

(1) Before admission, the administrator or operator shall ensure that each resident or the resident's legal representative is informed, both orally and in writing, of the following in a language the resident or the resident's legal representative understands:

(A) The rights of the resident;

(B) the rules governing resident conduct and responsibility;

(C) the current rate for the level of care and services to be provided; and

(D) if applicable, any additional fees that will be charged for optional services.

(2) The administrator or operator shall ensure that each resident or the resident's legal representative is notified in writing of any changes in charges or services that occur after admission and at least 30 days before the effective date of the change. The changes shall not take place until notice is given, unless the change is due to a change in level of care.

(d) Inspection of records.

(1) The administrator or operator shall ensure that each resident or resident's legal representative is afforded the right to inspect records pertaining to the resident. The administrator or operator, or the designee, shall provide a photocopy of the resident's record or requested sections of the resident's record to each resident or resident's legal representative within two working days of the request. If a fee is charged for the copy, the fee shall be reasonable and not exceed actual cost, including staff time.

(2) The administrator or operator shall ensure access to each resident's records for inspection and photocopying by any representative of the department.

(e) Informed of health status. The administrator or operator shall ensure that each resident and the resident's legal representative are afforded the right to be fully informed of the resident's total health status, including the resident's medical condition.

(f) Free choice. The administrator or operator shall ensure that each resident, or resident's legal

representative on behalf of the resident, is afforded the right to perform the following:

- (1) Choose a personal attending physician;
- (2) participate in the development of an individual care plan or negotiated service agreement;
- (3) refuse treatment;
- (4) refuse to participate in experimental research; and
- (5) choose the pharmacy where prescribed medications are purchased. If the adult care home uses a unit-dose or similar medication distribution system, the resident shall have the right to choose among pharmacies that offer or are willing to offer the same or a compatible system.

(g) Management of financial affairs. The administrator or operator shall ensure that each resident is afforded the right to manage personal financial affairs and is not required to deposit personal funds with the adult care home.

(h) Notification of changes.

(1) The administrator or operator shall ensure that designated facility staff inform the resident, consult with the resident's physician, and notify the resident's legal representative or designated family member, if known, upon occurrence of any of the following:

(A) An accident involving the resident that results in injury and has the potential for requiring a physician's intervention;

(B) a significant change in the resident's physical, mental, or psychosocial status;

(C) a need to alter treatment significantly; or

(D) a decision to transfer or discharge the resident from the adult care home.

(2) The administrator or operator shall ensure that a designated staff member informs the resident, the resident's legal representative, or authorized family members whenever the designated staff member learns that the resident will have a change in room or roommate assignment.

(i) Privacy and confidentiality. The administrator or operator shall ensure that each resident is afforded the right to personal privacy and confidentiality of personal and clinical records.

(1) The administrator or operator shall ensure that each resident is provided privacy during medical and nursing treatment, written and telephone communications, personal care, visits, and meetings of family and resident groups.

(2) The administrator or operator shall ensure that the personal and clinical records of the resident are maintained in a confidential manner.

(3) The administrator or operator shall ensure

that a release signed by the resident or the resident's legal representative is obtained before records are released to anyone outside the adult care home, except in the case of transfer to another health care institution or as required by law.

(j) Grievances. The administrator or operator shall ensure that each resident is afforded the right to the following:

(1) Voice grievances with respect to treatment or care that was or was not furnished;

(2) be free from discrimination or reprisal for voicing the grievances; and

(3) receive prompt efforts by the administrator or operator, or the designee, to resolve any grievances that the resident could have, including any grievance with respect to the behavior of other residents.

(k) Work.

(1) The administrator or operator shall ensure that each resident is afforded the right to refuse to perform services for the adult care home.

(2) A resident may perform services for the adult care home, if the resident wishes and if all of the following conditions are met:

(A) The administrator or operator, or the designee, has documented the resident's need or desire for work in the plan of care or negotiated service agreement.

(B) The plan of care or negotiated service agreement specifies the nature of the services performed and whether the services are voluntary or paid.

(C) The resident or resident's legal representative has signed a written agreement consenting to the work arrangement described in the plan of care or negotiated service agreement.

(l) Mail. The administrator or operator shall ensure that each resident is afforded the right to privacy in written communications, including the right to the following:

(1) Have unopened mail sent and received promptly; and

(2) have access to stationery, postage, and writing implements at the resident's own expense.

(m) Access and visitation rights.

(1) The administrator or operator shall ensure the provision of immediate access to any resident by the following:

(A) Any representative of the secretary of the Kansas department on aging;

(B) the resident's attending medical care provider;

(C) the state long-term care ombudsman;

(D) any representative of the secretary of the Kansas department of social and rehabilitation services;

(E) immediate family or other relatives of the resident; and

(F) others who are visiting with the consent of the resident subject to reasonable restrictions.

(2) The administrator or operator shall ensure that each resident is afforded the right to deny or withdraw visitation consent for any person at any time.

(n) Telephone. The administrator or operator shall ensure that each resident is afforded the right to reasonable access to a telephone in a place where calls can be made without being overheard.

(o) Personal property. The administrator or operator shall ensure that each resident is afforded the right to retain and use personal possessions, including furnishings and appropriate clothing as space permits, unless doing so would infringe upon the rights or health and safety of other residents.

(p) Married couples. The administrator or operator shall ensure that each resident is afforded the right to share a room with the resident's spouse if married residents live in the same adult care home and both spouses consent.

(q) Self-administration of medication. The administrator shall ensure that each resident in a nursing facility or a nursing facility for mental health is afforded the right to self-administer medications unless the resident's attending physician and the interdisciplinary team have determined that this practice is unsafe. In any assisted living facility, residential health care facility, home plus, or adult day care facility, a resident may self-administer medication if a licensed nurse has determined that the resident can perform this function safely and accurately. (Authorized by and implementing K.S.A. 39-932; effective May 22, 2009.)

26-39-104. Receivership of adult care homes. (a) A person may be designated by the secretary to be a receiver if that person meets the following requirements:

(1) Has operated a Kansas adult care home for at least five consecutive years; and

(2) has a history of compliance with licensure standards.

(b) A person designated as a receiver shall not use the designation for any commercial purpose. (Authorized by and implementing K.S.A. 2007 Supp. 39-954; effective May 22, 2009.)

26-39-105. Adoptions by reference. (a) The following material shall apply to all adult care homes except nursing facilities for mental health, intermediate care facilities for the mentally retarded, and boarding care homes:

(1) Dietary guidelines. In the "dietary guidelines for Americans," 2005, published by the U.S. department of health and human services and U.S. department of agriculture, appendixes A-1 and A-2 and "notes for appendix A-2" are hereby adopted by reference.

(2) Infection control. The department's document titled "tuberculosis (TB) guidelines for adult care homes," dated July 2008, is hereby adopted by reference.

(b) The document adopted by reference in this subsection shall apply to each applicant for a nursing facility license and to each addition to a nursing facility licensed on or after the effective date of this regulation. The "international building code" (IBC), 2006 edition, published by the international code council, excluding the appendices, is hereby adopted by reference.

(c) The following material shall apply to all nursing facilities:

(1) Life safety code. Chapters one through 11, 18, 19, 40, and 42 of the national fire protection association's NFPA 101 "life safety code" (LSC), 2000 edition, are hereby adopted by reference.

(2) Americans with disabilities act accessibility guidelines. Chapters one through four and chapter six of the "Americans with disabilities act accessibility guidelines for buildings and facilities" (ADAAG), 28 C.F.R. part 36, appendix A, as in effect on July 1, 1994, are hereby adopted by reference and shall be known as "ADAAG."

(3) Food code. Chapters one through seven of the "food code," 2009, published by the U.S. department of health and human services, are hereby adopted by reference. (Authorized by and implementing K.S.A. 39-932; effective May 22, 2009; amended Jan. 7, 2011.)

26-39-144. (Authorized by K.S.A. 39-932; implementing K.S.A. 2004 Supp. 39-923, K.S.A. 2004 Supp. 39-925, and K.S.A. 39-932; effective Nov. 4, 2005; revoked May 22, 2009.)

26-39-243. (Authorized by and implementing K.S.A. 2004 Supp. 39-923, K.S.A. 2004 Supp. 39-925, and K.S.A. 39-932; effective Nov. 4, 2005; revoked May 29, 2009.)

26-39-278. (Authorized by and implementing K.S.A. 2004 Supp. 39-923, K.S.A. 2004 Supp. 39-925, and K.S.A. 39-932; effective Nov. 4, 2005; revoked May 29, 2009.)

26-39-427. (Authorized by and implementing K.S.A. 2004 Supp. 39-923, K.S.A. 2004 Supp. 39-925, and K.S.A. 39-932; effective Nov. 4, 2005; revoked May 29, 2009.)

26-39-500. Definitions. Each of the following terms, as used in K.A.R. 26-39-500 through 26-39-506, shall have the meaning specified in this regulation:

(a) “Accredited college or university” means a college or university that is accredited by an accrediting body recognized by the council on post-secondary accreditation or by the secretary of the U.S. department of education.

(b) “Clock-hour” means at least 50 minutes of direct instruction, excluding registration, breaks, and meals.

(c) “Continuing education” means a formally organized learning experience that has education as its explicit, principal intent and is oriented toward the enhancement of adult care home administration values, skills, knowledge, and ethics.

(d) “Core of knowledge” means the educational training content for the field of adult care home administration specified in K.A.R. 28-38-29.

(e) “Disciplinary action” means a final action by the secretary or by a board or agency in this state or another jurisdiction on a professional or occupational health care credential.

(f) “Domains of practice” means the knowledge, skills, and abilities specified in K.A.R. 28-38-29.

(g) “In-service education” means learning activities that are provided to an individual in the work setting and are designed to assist the individual in fulfilling job responsibilities.

(h) “Long-term care provider organization” means any professional association concerned with the care and treatment of chronically ill or infirm elderly patients or any association concerned with the regulation of adult care homes.

(i) “Registration” means the credential issued by the secretary to each applicant who meets the requirements for an operator specified in K.A.R. 26-39-501.

(j) “Relevant experience” shall include work experience in business, hospitality, gerontology, or health and human services, or other fields as approved by the secretary.

(k) “Relevant field” shall include degrees in

business, hospitality, gerontology, or health and human services, or other degrees as approved by the secretary.

(l) “Sponsor” means any entity approved by the secretary to provide continuing education programs or courses on a long-term basis.

(m) “Sponsorship” means an approved, long-term provision of programs or courses for the purpose of fulfilling the continuing education requirements for registration renewal or reinstatement. (Authorized by and implementing L. 2014, ch. 94, sec. 4; effective, T-26-9-2-14, Sept. 2, 2014; effective Dec. 1, 2014.)

26-39-501. Registration. Each applicant for initial registration as an operator shall meet the following requirements:

(a) Submit an application and meet the requirements specified in K.A.R. 26-39-502;

(b) pay the applicable fee specified in K.A.R. 26-39-505;

(c) be at least 21 years of age;

(d)(1) Have a high school diploma or equivalent, with one year of relevant experience;

(2) have an associate’s degree in a relevant field; or

(3) have a bachelor’s degree; and

(e) have successfully completed an operator course as specified in K.A.R. 26-39-503. (Authorized by and implementing L. 2014, ch. 94, sec. 4; effective, T-26-9-2-14, Sept. 2, 2014; effective Dec. 1, 2014.)

26-39-502. Application for registration.

(a) Each applicant for registration shall submit a completed application, pay the applicable fee, and provide evidence satisfactory to the department of having met the requirements in K.A.R. 26-39-501.

(b) Each applicant shall provide the department with one of the following:

(1) Academic transcripts or proof of receipt of an associate’s degree, if qualifying with an associate’s degree in a relevant field;

(2) academic transcripts or proof of receipt of a bachelor’s degree or graduate degree, if qualifying with a bachelor’s degree; or

(3) both a high school diploma or the equivalent and evidence of one year of relevant experience, if qualifying with a high school diploma and one year of relevant experience.

(c) Each applicant shall arrange for transcripts to be provided directly to the department by the school or the accredited college or university.

(d) Each applicant who has received an associate's degree, bachelor's degree, or graduate degree outside the United States or its territories and whose transcript is not in English shall submit an officially translated English copy of the applicant's transcript and, if necessary, supporting documents. The transcript shall be translated by a source and in a manner acceptable to the department. Each applicant shall pay all transcription fees directly to the transcriber.

(e) Each applicant who has received an associate's degree, bachelor's degree, or graduate degree outside the United States or its territories shall obtain an equivalency validation from a department-approved entity that specializes in educational credential evaluations. Each applicant shall pay the required equivalency validation fee directly to the validation agency.

(f) If adverse information concerning the applicant is received through criminal history records, abuse, neglect and exploitation information, or disciplinary action information or from any other source, the applicant shall provide, upon request, all necessary records, affidavits, or other documentation required by the secretary concerning the disciplinary action, the abuse, neglect or exploitation findings, or the criminal conviction, including any evidence that all disciplinary action or sentencing requirements have been completed. All costs for the acquisition of these documents shall be the applicant's responsibility.

(g) If an applicant has been subject to disciplinary action or has been convicted of a felony or misdemeanor, the applicant shall have the burden of proving that the applicant has been rehabilitated and warrants the public trust. (Authorized by L. 2014, ch. 94, sec. 4; implementing L. 2014, ch. 94, secs. 4 and 9; effective, T-26-9-2-14, Sept. 2, 2014; effective Dec. 1, 2014.)

26-39-503. Operator course. (a) Each applicant shall have successfully completed an operator course on principles of assisted living that is approved by the secretary.

(b) Each operator course shall be conducted by one of the following training providers:

- (1) A long-term care provider organization;
- (2) a community college;
- (3) an area vocational-technical school;
- (4) a postsecondary school under the jurisdiction of the state board of regents; or
- (5) an equivalent training provider approved by the secretary.

(c) Each training provider shall ensure that each individual responsible for administering the operator course has at least two years of professional experience in long-term care or as an instructor of long-term care and meets one of the following requirements:

- (1) Has a bachelor's degree; or
- (2) is a registered professional nurse.

(d) Each training provider seeking approval to conduct an operator course shall submit the following at least three weeks before the first anticipated start date of the operator course:

(1) A course outline that includes all content areas in the department's document titled "operator course guideline," dated July 31, 2014 and hereby adopted by reference. The operator course shall consist of at least 45 clock-hours of instruction, excluding breaks, lunch, and test time, and a test;

(2) the policy and procedure to be followed to maintain test security, which shall include at least the following:

(A) Securing the tests in a manner that ensures confidentiality;

(B) not providing the test content to any individual before test time; and

(C) notifying the department of any breach in the security of the test;

(3) a list of the printed materials provided to each participant, which shall include at least the following:

(A) The Kansas adult care home statutes and regulations for assisted living facilities and residential health care facilities, home pluses, and adult day cares;

(B) a functional capacity screening manual and form;

(C) the "dietary guidelines for Americans" and "tuberculosis (TB) guidelines for adult care homes," as adopted by reference in K.A.R. 26-39- 105; and

(D) an example of a negotiated service agreement; and

(4) after initial approval, submit each proposed change in the operator course to the secretary for approval before the change is implemented.

(e) If the operator course does not meet or continue to meet the requirements for approval or if there is a material misrepresentation of any fact with the information submitted by the training provider to the department, approval may be withheld, made conditional, limited, or withdrawn by the secretary.

(f) Each approved training provider shall meet the following requirements:

(1) Notify the department, electronically or in writing, at least three weeks before each operator course, including course dates, time, and location;

(2) administer and score the test provided by the department after each individual's completion of the operator course. The individual may have access to the applicable statutes and regulations during the test. A score of 80 percent or higher shall constitute a passing score. Any individual who fails the test may retake the test one time. An alternative test version shall be used. Each individual who fails the test a second time shall be required to retake the operator course;

(3) within three weeks after the end of the operator course, provide a certificate of completion to each individual who completed the operator course and passed the test. Each certificate shall contain the following:

(A) A statement that the named individual completed the operator course; and

(B) the course approval number assigned by the department;

(4) maintain a record of the certificates issued to the individuals who have successfully completed the operator course; and

(5) within three weeks after the end of the operator course, submit to the department a copy of each certificate of completion issued and a list of the individuals who successfully completed the operator course. The list shall contain the following:

(A) The course approval number;

(B) the name, address, and date of birth of each individual; and

(C) any other information as required by the secretary. (Authorized by and implementing L. 2014, ch. 94, sec. 4; effective, T-26-9-2-14, Sept. 2, 2014; effective Dec. 1, 2014.)

26-39-504. Registration renewal and reinstatement; continuing education. (a) Each registration shall expire biennially on April 30. Each initial registration shall be issued for at least 12 months but not more than 24 months.

(b)(1) On or before April 30 of the calendar year in which the registration expires, each operator shall submit electronically or have postmarked a completed renewal application and the renewal fee specified in K.A.R. 26-39-505.

(2) The registration may be renewed within the 30-day period following the expiration date only if the completed application and the renewal fee and renewal late fee specified in K.A.R. 26-39-

505 are received electronically or postmarked on or before May 30 of the calendar year in which the registration expires.

(3) If the completed renewal application and the applicable fee or fees are not received electronically or postmarked within the 30-day period following the expiration date, the registration shall be deemed to have lapsed for failure to renew and shall be reissued only after the registration has been reinstated.

(c) Each individual whose registration has lapsed for not more than 24 months shall submit a completed application, on department-approved forms, showing completion of 30 clock-hours of continuing education. The application shall be accompanied by the renewal fee and the reinstatement fee specified in K.A.R. 26-39-505.

(d) Each individual whose registration has lapsed for more than 24 months shall submit a completed application on department-approved forms showing successful completion of the operator course within the most recent 24-month period. The application shall be accompanied by the renewal fee and the reinstatement fee specified in K.A.R. 26-39-505.

(e) Continuing education requirements shall be prorated on a monthly basis for each operator whose initial or reinstatement registration period is less than 24 months.

(f)(1) Each application for renewal shall include an attestation verifying that the operator has completed at least 30 clock-hours of continuing education during the period covered by the most recent registration. Continuing education in excess of the required 30 clock-hours shall not be carried over to the next renewal period.

An operator's renewal application may be randomly selected for audit to confirm completion of continuing education requirements. Each operator whose renewal application is selected for audit shall provide all documentation requested by the secretary.

The 30 clock-hours of continuing education shall be earned through participation in or attendance at continuing education offerings pertaining to the core of knowledge or the domains of practice and shall be accumulated within subject areas as follows:

(A) At least 15 clock-hours in administration, which may include the following subjects:

(i) General administration;

(ii) applicable standards of environmental health and safety;

(iii) local health and safety regulations;
(iv) departmental organization and management; and

(v) community interrelationships;

(B) at least 10 clock-hours in resident care, which may include the following subjects:

(i) Psychology of resident care;

(ii) principles of medical care;

(iii) personal and social care; and

(iv) therapeutic and supportive care; and

(C) a maximum of five clock-hours in electives, which shall be in the domains of practice or the core of knowledge or in health-related fields.

(2) Five hours of continuing education credit in electives shall be approved for attendance, if verified by the sponsor, at state or national annual conventions that pertain to long-term care, in addition to continuing education credit approved for individual sessions at the state or national annual conventions.

(g) In-service education shall not be deemed a continuing education activity for the purpose of registration renewal or reinstatement.

(h) Fifteen clock-hours of continuing education credit shall be approved for each college credit hour that pertains to the domains of practice or the core of knowledge and is earned within the renewal period.

(i) Each operator or nonapproved provider of continuing education who seeks approval of a continuing education offering shall submit a request for prior approval to the department at least three weeks before the offering is to be presented. The request shall provide information about the proposed offering, including objectives, content, and agenda, on a form provided by the department.

(j) Each operator who attends a continuing education offering and who also serves as a presenter shall receive two clock-hours for each clock-hour of presentation time. Presenters shall not receive additional credit for repetition of these presentations.

(k) Each sponsor shall meet the following requirements:

(1) Offer at least six continuing education activities, including workshops, seminars, academic courses, self-study courses, teleconferences, and educational sessions, over a two-year period;

(2) designate one person as the coordinator, who shall be responsible for administering all requirements and outcomes of the sponsorship program. The department shall be notified in advance of any staff change involving the coordina-

tor, including proof of that person's credentials to be the coordinator. Each coordinator shall meet one of the following requirements:

(A) Be currently licensed as an administrator, as defined in K.A.R. 26-39-100, or be currently registered as an operator, as defined in K.S.A. 39-923 and amendments thereto;

(B) have relevant experience or have a degree in a relevant field;

(C) serve as staff member of a professional organization related to the field of adult care home administration; or

(D) have a background or academic preparation in adult education or training;

(3) submit a completed application, in a department approved format. The application and all required documentation shall be received by the department at least 30 days before the initial continuing education offering;

(4) ensure that all continuing education offerings pertain to the domains of practice or the core of knowledge; and

(5) submit an annual report on department-approved forms no later than January 31 of each year for the preceding calendar year. This report shall describe the approved continuing education activities provided and the quality improvement methods used, including how evaluation data is incorporated in planning future continuing education activities.

(l) If a sponsor fails to meet the requirements in this regulation after receiving the secretary's approval or if there is a material misrepresentation of any fact with the information submitted to the secretary by a sponsor, approval may be withdrawn or conditions relating to the sponsorship may be applied by the secretary after giving the sponsor notice and an opportunity to be heard. (Authorized by L. 2014, ch. 94, sec. 4; implementing L. 2014, ch. 94, secs. 4 and 7; effective, T-26-9-2-14, Sept. 2, 2014; effective Dec. 1, 2014.)

26-39-505. Fees. (a) The registration application fee shall be \$65.00. The registration application fee for an initial registration of less than 24 months shall be prorated for any full or partial month.

(b) The registration renewal fee shall be \$65.00.

(c) The registration renewal late fee shall be \$35.00.

(d) The application fee for reinstatement of a lapsed or revoked registration shall be \$65.00, in addition to the registration renewal fee specified

in subsection (b). (Authorized by L. 2014, ch. 94, sec. 4; implementing L. 2014, ch. 94, secs. 4, 7, 8, and 9; effective, T-26-9-2-14, Sept. 2, 2014; effective Dec. 1, 2014.)

26-39-506. Change of name or address.

Each operator shall notify the department of any change in the operator's name or address within 30 days of the change.

(a) Notice of each address change shall include the operator's name, registration number, previous mailing address, and new mailing address.

(b) Notice of each name change shall meet the following requirements:

(1) Include the operator's previous name, new name, and registration number; and

(2) be accompanied by one of the following:

(A) A certified copy of the operator's marriage certificate or license;

(B) a certified copy of the operator's court decree evidencing the name change; or

(C) a photocopy of the operator's driver's license or Kansas identification card specifying the new name. (Authorized by and implementing L. 2014, ch. 94, sec. 4; effective, T-26-9-2-14, Sept. 2, 2014; effective Dec. 1, 2014.)

Article 40.—NURSING FACILITIES

26-40-301. Nursing facility physical environment; construction and site requirements. Each nursing facility shall be designed, constructed, equipped, and maintained to protect the health and safety of the residents and personnel and the public.

(a) Codes and standards. Each nursing facility shall meet the requirements of the building codes, standards, and regulations enforced by city, county, or state jurisdictions. The requirements specified in this regulation shall be considered as a minimum. New construction of a nursing facility and each addition to a nursing facility licensed on or after the effective date of this regulation shall meet the requirements of the following, as adopted by reference in K.A.R. 26-39-105:

(1) The "international building code" (IBC);

(2) the national fire protection association's NFPA 101 "life safety code"; and

(3) the "Americans with disabilities act accessibility guidelines for buildings and facilities" (ADAAG).

(b) Site requirements. The site of each nursing facility shall meet the following requirements:

(1) Be served by all-weather roads or streets;

(2) be accessible to physician services, fire and other emergency services, medical facilities, churches, and population centers where employees can be recruited and retained;

(3) be located in an area sufficiently remote from noise sources that would cause the day or night average sound levels to exceed 65 decibels;

(4) be free from noxious and hazardous fumes;

(5) be at least 4,000 feet from concentrated livestock operations, including shipping areas and holding pens;

(6) be located above the 100-year flood zone if the property is located in a flood hazard area; and

(7) be sufficient in area and configuration to accommodate the nursing facility, drives, parking, sidewalks, recreational area, and community zoning restrictions.

(c) Site development. Development of the site of each nursing facility shall meet the following requirements:

(1) All buildings comprising a nursing facility shall be located on one site or contiguous sites.

(2) Final grading of the site shall have topography for positive surface drainage away from each occupied building and positive protection and control of surface drainage and freshets from adjacent areas.

(3) Each nursing facility shall have off-street parking located adjacent to the main building and each freestanding building that contains a resident unit, at a rate of one parking space for every two residents, based on resident capacity.

(4) Each nursing facility shall have at least the minimum number of accessible parking spaces required by ADAAG, as adopted by reference in K.A.R. 26-39-105, that are sized and signed as reserved for the physically disabled, on the shortest accessible route of travel from the adjacent parking lot to an accessible entrance.

(5) Each nursing facility shall have convenient access for service vehicles, including ambulances and fire trucks, and for maneuvering, parking, and unloading delivery trucks.

(6) All drives and parking areas shall be surfaced with a smooth, all-weather finish. Unsealed gravel shall not be used.

(7) Except for lawn or shrubbery used in landscape screening, each nursing facility shall have an unencumbered outdoor area of at least 50 square feet per resident, based on resident capacity, for recreational use and shall so designate this area on the plot plan. Equivalent amenities provided by terraces, roof gardens, or similar structures

for facilities located in high-density urban areas may be approved by the secretary. If a multistoried building is licensed as a nursing facility after the effective date of this regulation, the nursing facility shall have outdoor space on each level. (Authorized by and implementing K.S.A. 39-932; effective Jan. 7, 2011.)

26-40-302. Nursing facility physical environment; applicants for initial licensure and new construction. (a) Applicability. This regulation shall apply to each applicant for a nursing facility license and to any addition to a nursing facility licensed on the effective date of this regulation.

(b) Codes and standards. Each nursing facility shall meet the requirements of the building codes, standards, and regulations enforced by city, county, or state jurisdictions. The requirements specified in this regulation shall be considered as a minimum. Each applicant for a nursing facility license and each addition to a nursing facility licensed on or after the effective date of this regulation shall meet the following requirements, as adopted by reference in K.A.R. 26-39-105:

(1) The “international building code” (IBC);

(2) the national fire protection association’s NFPA 101 “life safety code” (LSC); and

(3) the “Americans with disabilities act accessibility guidelines for buildings and facilities” (ADAAG).

(c) Nursing facility design. The design and layout of each nursing facility shall differentiate among public, semiprivate, and private space and shall promote the deterrence of unnecessary travel through private space by staff and the public. The resident unit shall be arranged to achieve a home environment, short walking and wheeling distances, localized social areas, and decentralized work areas.

(d) Resident unit. A “resident unit” shall mean a group of resident rooms, care support areas, and common rooms and areas as identified in this subsection and subsections (e) and (f). Each resident unit shall have a resident capacity of no more than 30 residents and shall be located within a single building. If the nursing facility is multilevel, each resident unit shall be located on a single floor.

(1) Resident rooms. At least 20 percent of the residents on each resident unit shall reside in a private resident room. The occupancy of the remaining rooms shall not exceed two residents per room.

(A) Each resident room shall meet the following requirements:

(i) Be located on a floor at or above ground level;

(ii) allow direct access to the corridor;

(iii) allow direct access from the room entry to the toilet room and to the closet or freestanding wardrobe without going through the bed area of another resident;

(iv) measure at least 120 square feet in single resident rooms and at least 200 square feet in double resident rooms, exclusive of the entrance door and toilet room door swing area, alcoves, vestibules, toilet room, closets or freestanding wardrobes, sinks, and other built-in items; and

(v) provide each resident with direct access to an operable window that opens for ventilation. The total window area shall not be less than 12 percent of the gross floor area of the resident room.

(B) Each bed area in a double resident room shall have separation from the adjacent bed by a full-height wall, a permanently installed sliding or folding door or partition, or other means to afford complete visual privacy. Use of a ceiling-suspended curtain may cover the entrance to the bed area.

(C) The configuration of each resident room shall be designed to allow at least three feet of clearance along the foot of each bed and along both sides of each bed.

(D) The nursing facility shall have functional furniture to meet each resident’s needs, including a bed of adequate size with a clean, comfortable mattress that fits the bed, and bedding appropriate to the weather and the needs of the resident.

(E) Each resident’s room shall include personal storage space in a fixed closet or freestanding wardrobe with doors. This storage shall have minimum dimensions of one foot 10 inches in depth by two feet six inches in width and shall contain an adjustable clothes rod and shelf installed at a height easily reached by the resident. Accommodations shall be provided for hanging full-length garments.

(2) Resident toilet rooms. Each resident toilet room shall serve no more than one resident room and be accessed directly from the resident’s room. Each resident toilet room shall be accessible according to ADAAG, as adopted by reference in K.A.R. 26-39-105.

(A) Each resident toilet room shall have at least a five-foot turning radius to allow maneuverability of a wheelchair. If the shower presents no obstruction to the turning radius, the space occupied by the shower may be included in the minimum dimensions.

(B) The center line of each resident-use toilet shall be at least 18 inches from the nearest wall or partition to allow staff to assist a resident to and from the toilet.

(C) Each toilet room shall contain a hand-washing sink.

(D) At least 40 percent of the residents on each resident unit shall have a shower in the resident's toilet room.

(i) Each shower shall measure at least three feet by five feet with a threshold of $\frac{1}{2}$ inch or less.

(ii) Showers shall be curtained or in another type of enclosure for privacy.

(e) Resident unit care support rooms and areas. The rooms and areas required in this subsection shall be located in each resident unit and shall be accessed directly from the general corridor without passage through an intervening room or area, except the medication room as specified in paragraph (e)(2)(A) and housekeeping closets. A care support area shall be located less than 200 feet from each resident room and may serve two resident units if the care support area is centrally located for both resident units.

(1) Nurses' workroom or area. Each resident unit shall have sufficient areas for supervisory work activities arranged to ensure the confidentiality of resident information and communication.

(A) A nurses' workroom or area shall have space for the following:

- (i) Charting;
- (ii) the transmission and reception of resident information;
- (iii) clinical records and other resident information;
- (iv) a telephone and other office equipment; and
- (v) an enunciator panel or monitor screen for the call system. If a resident unit has more than one nurses' workroom or area, space for an enunciator panel or monitor for the call system shall not be required in more than one nurses' workroom or area.

(B) The nurses' workroom or area shall be located so that the corridors outside resident rooms are visible from the nurses' workroom or area. The nursing facility may have cameras and monitors to meet this requirement.

(C) Direct visual access into each nurses' work area shall be provided if the work area is located in an enclosed room.

(2) Medication room or area. Each resident unit shall have a room or area for storage and prepara-

tion of medications or biologicals for 24-hour distribution, with a temperature not to exceed 85°F. This requirement shall be met by one or more of the following:

(A) A room with an automatically closing, self-locking door visible from the nurses' workroom or area. The room shall contain a work counter with task lighting, hand-washing sink, refrigerator, and shelf space for separate storage of each resident's medications. The secured medication storage room shall contain separately locked compartments for the storage of controlled medications listed in K.S.A. 65-4107, and amendments thereto, and any other medications that, in the opinion of the consultant pharmacist, are subject to abuse;

(B) a nurses' workroom or area equipped with a work counter with task lighting, hand-washing sink, locked refrigerator, and locked storage for resident medications. A separately locked compartment shall be located within the locked cabinet, drawer, or refrigerator for the storage of controlled medications listed in K.S.A. 65-4107, and amendments thereto, and any other medications that, in the opinion of the consultant pharmacist, are subject to abuse;

(C) a locked medication cart in addition to a medication room or area if the cart is located in a space convenient for control by nursing personnel who are authorized to administer medication. If controlled medications listed in K.S.A. 65-4107, and amendments thereto, and any other medications that, in the opinion of the consultant pharmacist, are subject to abuse are stored in the medication cart, the cart shall contain a separately locked compartment for the storage of these medications; or

(D) in the resident's room if the room contains space for medication preparation with task lighting, access to a hand-washing sink, and locked cabinets or drawers for separate storage of each resident's medication. Controlled medications listed in K.S.A. 65-4107, and amendments thereto, and any other medications that, in the opinion of the consultant pharmacist, are subject to abuse shall not be stored in a resident's room.

(3) Den or consultation room. Each resident unit shall have a room for residents to use for reading, meditation, solitude, or privacy with family and other visitors and for physician visits, resident conferences, and staff meetings.

(A) The room area shall be at least 120 square feet, with a length or width of at least 10 feet.

(B) The room shall contain a hand-washing sink.

(C) A den or consultation room shall not be required if all resident rooms are private.

(4) Clean workroom. Each resident unit shall have a room for preparation, storage, and distribution of clean or sterile materials and supplies and resident care items.

(A) The room shall contain a work counter with a sink and adequate shelving and cabinets for storage.

(B) The room area shall be at least 80 square feet, with a length or width of at least six feet.

(C) If the resident unit is located in a freestanding building, a clothes dryer for processing resident personal laundry that is not contaminated laundry may be located in the clean workroom if the following requirements are met:

(i) An additional minimum of 40 square feet per dryer shall be provided.

(ii) The soiled workroom shall contain a washing machine positioned over a catch pan piped to a floor drain.

(iii) The clean workroom shall have a door opening directly into the soiled workroom without entering the general corridor. The door opening shall be covered with a plastic-strip door or by other means to prevent interference of ventilation requirements for both workrooms.

(D) Storage and preparation of food and beverages shall not be permitted in the clean workroom.

(5) Clean linen storage. Each resident unit shall have a room or area with adequate shelving, cabinets, or cart space for the storage of clean linen proximate to the point of use. The storage area may be located in the clean workroom.

(6) Soiled workroom. Each resident unit shall have a soiled workroom for the disposal of wastes, collection of contaminated material, and the cleaning and sanitizing of resident care utensils.

(A) The soiled workroom shall contain a work counter, a two-compartment sink, a covered waste receptacle, a covered soiled linen receptacle, and a storage cabinet with a lock for sanitizing solutions and cleaning supplies.

(B) The room area shall be at least 80 square feet, with a length or width of at least six feet.

(C) If the resident unit is located in a freestanding building, a washing machine for processing resident personal laundry that is not contaminated laundry may be located in the soiled workroom if the following requirements are met:

(i) An additional minimum of 40 square feet per washing machine shall be provided.

(ii) The washing machine shall be positioned over a catch pan piped to a floor drain.

(iii) The clean workroom shall contain a clothes dryer.

(iv) The soiled workroom shall have a door opening directly into the clean workroom without entering the general corridor. The door opening shall be covered with a plastic-strip door or by other means to prevent interference of ventilation requirements for both workrooms.

(D) If a housekeeping room is located in the soiled workroom, the housekeeping room shall be enclosed and an additional minimum of 20 square feet shall be provided in the soiled workroom.

(E) Clean supplies, equipment, and materials shall not be stored in the soiled workroom.

(7) Equipment storage rooms or areas. Each resident unit shall have sufficient rooms or enclosed areas for the storage of resident unit equipment. The total space shall be at least 80 square feet plus an additional minimum of one square foot per resident capacity on the unit, with no single room or area less than 40 square feet. The width and length of each room or area shall be at least five feet.

(8) Housekeeping room. Each resident unit shall have at least one room for the storage of housekeeping supplies and equipment needed to maintain a clean and sanitary environment.

(A) Each housekeeping room shall contain a floor receptor or service sink, hot and cold water, adequate shelving, provisions for hanging mops and other cleaning tools, and space for buckets, supplies, and equipment.

(B) If the housekeeping room in the resident unit serves the resident kitchen and any other areas of the unit, the nursing facility shall have separately designated mops and buckets for use in each specific location.

(9) Toilet room. Each resident unit shall have at least one toilet room with a hand-washing sink that is accessible for resident, staff, and visitor use.

(f) Common rooms and areas in resident units. The rooms and areas required in this subsection shall be located in each resident unit, except as specified in this subsection, and shall be accessed directly from the general corridor without passage through an intervening room or area. The required room or area shall be located less than 200 feet from each resident room. A room or area may serve two resident units only if centrally located.

(1) Living, dining, and recreation areas. Each resident unit shall have sufficient space to accom-

moderate separate and distinct resident activities of living, dining, and recreation.

(A) Space for living, dining, and recreation shall be provided at a rate of at least 40 square feet per resident based on each resident unit's capacity, with at least 25 square feet per resident in the dining area.

(B) Window areas in the living, dining, and recreation areas shall be at least 10 percent of the gross floor space of those areas. Each of these areas shall have exposure to natural daylight. The window area requirement shall not be met by the use of skylights.

(C) The dining area shall have adequate space for each resident to access and leave the dining table without disturbing other residents.

(D) Storage of items used for recreation and other activities shall be near the location of their planned use.

(2) Resident kitchen. Any resident unit may have a decentralized resident kitchen if the kitchen meets the following requirements:

(A) Is adequate in relation to the size of the resident unit;

(B) is designed and equipped to meet the needs of the residents; and

(C) meets the requirements in paragraph (g)(5).

(3) Nourishment area. Each resident unit shall have an area available to each resident to ensure the provision of nourishment and beverages, including water, between scheduled meals. The nourishment area shall contain a hand-washing sink, counter, equipment for serving nourishment and beverages, a refrigerator, and storage cabinets and shall be accessible according to ADAAG, as adopted by reference in K.A.R. 26-39-105. The nourishment area may be located in the resident unit kitchen if all residents have access to the area between scheduled meals.

(4) Bathing room. Each resident unit shall have at least one bathing room to permit each resident to bathe privately and either independently or with staff assistance. The bathing room shall be accessible according to ADAAG, as adopted by reference in K.A.R. 26-39-105, and include the following:

(A) A hand-washing sink;

(B) an area enclosed for privacy that contains a toilet for resident use. The center line of each resident-use toilet shall be at least 18 inches from the nearest wall or partition to allow staff to assist a resident to and from the toilet;

(C) a hydrotherapy bathing unit;

(D) a shower that measures at least four feet by five feet without curbs unless a shower is provided in each resident's toilet room;

(E) a visually enclosed area for privacy during bathing, drying, and dressing, with space for a care provider and wheelchair; and

(F) a locked supply cabinet.

(5) Personal laundry room. Any resident unit may have a resident laundry room for residents to launder personal laundry that is not contaminated laundry, if the requirements in paragraph (g)(6)(C) are met.

(6) Mobility device parking space. Each resident unit shall have parking space for residents' mobility devices. The parking space shall be located in an area that does not interfere with normal resident passage. The parking space shall not be included in determining the minimum required corridor width.

(g) Common rooms and support areas in the nursing facility's main building. The rooms and areas required in this subsection shall be located in the main building of each nursing facility and shall be accessed directly from the general corridor without passage through an intervening room or area. If a resident unit is located in a freestanding building, the nursing facility administrator shall ensure that transportation is provided for each resident to access services and activities that occur in the main building to enhance the resident's physical, mental, and psychosocial wellbeing.

(1) Multipurpose room. Each nursing facility shall have a room for resident use for social gatherings, religious services, entertainment, or crafts, with sufficient space to accommodate separate functions.

(A) The multipurpose room shall have an area of at least 200 square feet for 60 or fewer residents, plus at least two square feet for each additional resident over 60, based on the nursing facility's resident capacity.

(B) The multipurpose room shall contain a work counter with a hand-washing sink that is accessible according to ADAAG, as adopted by reference in K.A.R. 26-39-105, and storage space and lockable cabinets for equipment and supplies.

(2) Rehabilitation room. Each nursing facility shall have a room for the administration and implementation of rehabilitation therapy.

(A) The rehabilitation room shall include the following:

(i) Equipment for carrying out each type of therapy prescribed for the residents;

(ii) a hand-washing sink accessible according to ADAAG, as adopted by reference in K.A.R. 26-39-105;

(iii) an enclosed storage area for therapeutic devices; and

(iv) provisions for resident privacy.

(B) The rehabilitation room shall have an area of at least 200 square feet for 60 or fewer residents, plus at least two square feet for each additional resident over 60 based on resident capacity, to a maximum requirement of 655 square feet.

(C) If a resident unit is located in a freestanding building, the resident unit may have a designated area for rehabilitation in a bathing room. The combined use of the space shall not limit the residents' bathing opportunities or rehabilitation therapy.

(3) Mobility device parking space. Each nursing facility shall have parking space for residents' mobility devices. The parking space shall be located in an area that does not interfere with normal resident passage. The parking space shall not be included in determining the minimum required corridor width.

(4) Beauty and barber shop. Each nursing facility shall have a room for the hair care and grooming of residents appropriate in size for the number of residents served.

(A) The beauty and barber shop shall contain at least one shampoo sink, space for one floor hair dryer, workspace, and a lockable supply cabinet.

(B) If a resident unit is located in a freestanding building, the resident unit may have a designated area for the hair care and grooming of residents in the bathing room if all of the following conditions are met:

(i) The bathing room does not contain a shower.

(ii) The area contains at least one shampoo sink, space for one floor hair dryer, and workspace.

(iii) The combined use of the space does not limit the residents' bathing, hair care, or grooming opportunities.

(5) Dietary areas. Each nursing facility shall have dietary service areas that are adequate in relation to the size of the nursing facility and are designed and equipped to meet the needs of the residents. Each nursing facility shall meet the requirements of the "food code," as adopted by reference in K.A.R. 26-39-105. Dietary service areas shall be located to minimize transportation for meal service unrelated to the resident unit past the resident rooms. The following elements shall be included in each central kitchen and resident unit kitchen:

(A) A control station for receiving food supplies;
(B) food preparation and serving areas and equipment in accordance with the following requirements:

(i) Conventional food preparation systems shall include space and equipment for preparing, cooking, baking, and serving; and

(ii) convenience food service systems, including systems using frozen prepared meals, bulk-packaged entrees, individual packaged portions, or contractual commissary services, shall include space and equipment for thawing, portioning, cooking, baking, and serving;

(C) space for meal service assembly and distribution equipment;

(D) a two-compartment sink for food preparation;

(E) a hand-washing sink in the food preparation area;

(F) a ware-washing area apart from, and located to prevent contamination of, food preparation and serving areas. The area shall include all of the following:

(i) Commercial-type dishwashing equipment;

(ii) a hand-washing sink;

(iii) space for receiving, scraping, sorting, and stacking soiled tableware and transferring clean tableware to the using area; and

(iv) if in a resident kitchen, a sink and adjacent under-counter commercial or residential dishwasher that meets the national sanitation foundation (NSF) international standards;

(G) a three-compartment deep sink for manual cleaning and sanitizing or, if in a resident kitchen, an alternative means for a three-step process for manual cleaning and sanitizing;

(H) an office in the central kitchen for the dietitian or dietetic services supervisor or, if in a resident kitchen, a workspace for the dietitian or dietetic services supervisor;

(I) a toilet room and a hand-washing sink available for dietary staff, separated by a vestibule from the central kitchen or, if in a resident kitchen, a toilet room with a hand-washing sink located in close proximity to the kitchen;

(J) an enclosed housekeeping room located within the central kitchen that contains a floor receptor with hot and cold water, shelving, and storage space for housekeeping equipment and supplies or, if in a resident kitchen, an enclosed housekeeping room adjacent to the kitchen that contains storage for dietary services cleaning equipment;

(K) an ice machine that, if available to residents for self-serve, shall dispense ice directly into a container and be designed to minimize noise and spillage onto the floor;

(L) sufficient food storage space located adjacent to the central kitchen or resident kitchen to store at least a four-day supply of food to meet residents' needs, including refrigerated, frozen, and dry storage;

(M) sufficient space for the storage and indoor sanitizing of cans, carts, and mobile equipment; and

(N) a waste storage area in a separate room or an outside area that is readily available for direct pickup or disposal.

(6) Laundry services. Each nursing facility shall have the means for receiving, processing, and storing linen needed for resident care in a central laundry or off-site laundry, or both, or a personal laundry room located on a resident unit in combination with these options. The arrangement of laundry services shall provide for an orderly workflow from dirty to clean, to minimize cross-contamination.

(A) If nursing facility laundry or more than one resident's personal laundry is to be processed, the laundry services area shall have separate rooms, with doors that do not open directly onto the resident unit, that have the following:

(i) A soiled laundry room for receiving, holding, and sorting laundry, equipped with containers with tightly fitting lids for soiled laundry, that is exhausted to the outside;

(ii) a processing room that contains commercial laundry equipment for washing and drying and a sink;

(iii) an enclosed housekeeping room that opens into the laundry processing area and contains a floor receptor with hot and cold water, shelving, and space for storage of housekeeping equipment and supplies;

(iv) a clean laundry room for handling, storing, issuing, mending, and holding laundry with egress that does not require passing through the processing or soiled laundry room; and

(v) storage space for laundry supplies.

(B) If nursing facility laundry or more than one resident's personal laundry is to be processed, the washing machine shall be capable of meeting high-temperature washing or low-temperature washing requirements as follows:

(i) If high-temperature washing is used, the washing machines shall have temperature sensors

and gauges capable of monitoring water temperatures of at least 160°F and manufacturer documentation that the machine has a wash cycle of at least 25 minutes at 160°F or higher.

(ii) If low-temperature washing is used, the washing machines shall have temperature sensors and gauges capable of monitoring water temperatures to ensure a wash temperature of at least 71°F and manufacturer documentation of a chlorine bleach rinse of 125 parts per million (ppm) at a wash temperature of at least 71°F. Oxygen-based bleach may be used as an alternative to chlorine bleach if the product is registered by the environmental protection agency.

(C) If each resident's personal laundry is processed separately on a resident unit, the laundry may be handled within one or more rooms if separate, defined areas are provided for handling clean and soiled laundry. The following elements shall be included:

(i) A soiled laundry room or area for receiving, holding, and sorting laundry, equipped with containers with tightly fitting lids for soiled laundry, that is exhausted to the outside;

(ii) at least one washing machine. Each washing machine shall be positioned over a catch pan piped to a floor drain;

(iii) a processing room or area that contains a clothes dryer and a hand-washing sink;

(iv) a clean laundry room or area for handling, storing, issuing, mending, and holding laundry; and

(v) storage space for laundry supplies.

(D) If laundry is processed off-site, the following elements shall be provided:

(i) A soiled laundry room, equipped with containers that have tightly fitted lids for holding laundry, that is exhausted to the outside; and

(ii) a clean laundry room for receiving, holding, inspecting, and storing linen.

(7) Central storage. Each nursing facility shall have at least five square feet per resident capacity in separate rooms or separate space in one room for storage of clean materials or supplies and oxygen.

(8) Housekeeping room. Each nursing facility shall have a sufficient number of rooms for the storage of housekeeping supplies and equipment needed to maintain a clean and sanitary environment. Each housekeeping room shall contain a floor receptor with hot and cold water, adequate shelving, provisions for hanging mops and other cleaning tools, and space for buckets, supplies, and equipment.

(h) Staff and public areas. The rooms and areas required in this subsection shall be located in the main building of each nursing facility and in each freestanding building with a resident unit unless otherwise indicated.

(1) Staff support area. Each nursing facility shall have a staff support area for staff and volunteers that contains the following, at a minimum:

(A) A staff lounge or area;

(B) lockers, drawers, or compartments that lock for safekeeping of each staff member's personal effects; and

(C) a toilet room and hand-washing sink that are accessible according to ADAAG, as adopted by reference in K.A.R. 26-39-105. If a resident unit is located in a freestanding building, the toilet room located in the resident unit may meet this requirement.

(2) Public areas. Each nursing facility shall provide the following public areas to accommodate residents, staff, and visitors:

(A) A sheltered entrance at grade level that is accessible according to ADAAG, as adopted by reference in K.A.R. 26-39-105;

(B) a lobby or vestibule with communication to the reception area, information desk, or resident unit;

(C) at least one public toilet room with a toilet and sink that are accessible according to ADAAG, as adopted by reference in K.A.R. 26-39-105. If a resident unit is located in a freestanding building, the toilet room located in the resident unit may meet this requirement;

(D) a drinking fountain or cooler or other means to obtain fresh water; and

(E) a telephone, located in an area with sufficient space to allow for use by a person in a wheelchair, where calls can be made without being overheard.

(3) Administrative areas. Each nursing facility shall have the following areas for administrative work activities in the main building:

(A) An administrator's office;

(B) a director of nursing office;

(C) general offices as needed for admission, social services, private interviews, and other professional and administrative functions; and

(D) space for office equipment, files, and financial and clinical records.

(i) Nursing facility support systems. Each nursing facility shall have support systems to promote staff responsiveness to each resident's needs and safety.

(1) Call system. Each nursing facility shall have a functional call system that ensures that nursing personnel working in the resident unit and other staff designated to respond to resident calls are notified immediately when a resident has activated the call system.

(A) Each nursing facility shall have a call button or pull cord located at each bed and in each beauty and barber shop that, if activated, will initiate all of the following:

(i) Produce an audible signal at the nurses' workroom or area, or activate the portable electronic device worn by each required staff member with an audible tone or vibration;

(ii) register a visual signal on an enunciator panel or monitor screen at the nurses' workroom or area, indicating the resident room number and bed, or beauty and barber shop;

(iii) produce a visual signal at the resident room corridor door or activate the portable electronic device worn by each required staff member, identifying the specific resident or room from which the call has been placed; and

(iv) produce visual and audible signals in clean and soiled workrooms and in the medication preparation rooms or activate the portable electronic device worn by each required staff member with an audible tone or vibration.

(B) Each nursing facility shall have an emergency call button or pull cord located next to each resident-use toilet, shower, and bathtub that, if activated, will initiate all of the following:

(i) Produce a repeating audible signal at the nurses' workroom or area, or activate the portable electronic device worn by each required staff member with an audible tone or vibration;

(ii) register a visual signal on an enunciator panel or monitor screen at the nurses' workroom or area, indicating the location or room number of the toilet, shower, or bathtub;

(iii) produce a rapidly flashing light adjacent to the corridor door at the site of the emergency or activate the portable electronic device worn by each required staff member, identifying the specific resident or room from which the call has been placed; and

(iv) produce a rapidly flashing light and a repeating audible signal in the nurses' workroom or area, clean workroom, soiled workroom, and medication preparation rooms or activate the portable electronic device worn by each required staff member with an audible tone or vibration.

(C) The administrator shall implement a policy

to ensure that all calls activated from an emergency location receive a high-priority response from staff.

(D) If the nursing facility does not have a wireless call system, the nursing facility shall have additional visible signals at corridor intersections in multicorridor units for all emergency and non-emergency calls.

(E) All emergency and nonemergency call signals shall continue to operate until manually reset at the site of origin.

(F) If call systems include two-way voice communication, staff shall take precautions to protect resident privacy.

(G) If a nursing facility uses a wireless system to meet the requirements of paragraphs (i)(1)(A) through (E), all of the following additional requirements shall be met:

(i) The nursing facility shall be equipped with a system that records activated calls.

(ii) A signal unanswered for a designated period of time, but not more than every three minutes, shall repeat and also be sent to another workstation or to staff that were not designated to receive the original call.

(iii) Each wireless system shall utilize radio frequencies that do not interfere with or disrupt pacemakers, defibrillators, and any other medical equipment and that receive only signals initiated from the manufacturer's system.

(H) The nursing facility's preventative maintenance program shall include the testing of the call system at least weekly to verify operation of the system.

(2) Door monitoring system. The nursing facility shall have an electrical monitoring system on each door that exits the nursing facility and is available to residents. The monitoring system shall alert staff when the door has been opened by a resident who should not leave the nursing facility unless accompanied by staff or other responsible person.

(A) Each door to the following areas that is available to residents shall be electronically monitored:

(i) The exterior of the nursing facility, including enclosed outdoor areas;

(ii) interior doors of the nursing facility that open into another type of adult care home if the exit doors from that adult care home are not monitored; and

(iii) any area of the building that is not licensed as an adult care home.

(B) The electrical monitoring system on each door shall remain activated until manually reset by nursing facility staff.

(C) The electrical monitoring system on a door may be disabled during daylight hours if nursing facility staff has continuous visual control of the door.

(j) Nursing facility maintenance and waste processing services.

(1) Maintenance, equipment, and storage areas. Each nursing facility shall have areas for repair, service, and maintenance functions that include the following:

(A) A maintenance office;

(B) a storage room for building maintenance supplies;

(C) an equipment room or separate building for boilers, mechanical equipment, and electrical equipment; and

(D) a maintenance storage area that opens to the outside, or is located in a detached building, for the storage of tools, supplies, and equipment used for yard and exterior maintenance.

(2) Waste processing services. Each nursing facility shall have space and equipment for the sanitary storage and disposal of waste by incineration, mechanical destruction, compaction, containerization, or removal, or by a combination of these techniques. (Authorized by and implementing K.S.A. 39-932; effective Jan. 7, 2011.)

26-40-303. Nursing facility physical environment; existing nursing facilities. (a) Applicability. This regulation shall apply to all nursing facilities licensed on the effective date of this regulation.

(b) Codes and standards. Each nursing facility shall meet the requirements of the building codes, standards, and regulations enforced by city, county, or state jurisdictions. The requirements specified in this regulation shall be considered as a minimum.

(1) Each nursing facility shall meet the following requirements, as adopted by reference in K.A.R. 26-39-105:

(A) The national fire protection association's NFPA 101 "life safety code" (LSC); and

(B) the "Americans with disabilities act accessibility guidelines for buildings and facilities" (ADAAG).

(2) Each nursing facility and any portion of each nursing facility that was approved under a previous regulation shall, at a minimum, remain in

compliance with the regulation or building code in effect at the date of licensure.

(c) Nursing facility design. The design and layout of each nursing facility shall differentiate among public, semiprivate, and private space and shall promote the deterrence of unnecessary travel through private space by staff and the public. The resident unit shall be arranged to achieve a home environment, short walking and wheeling distances, localized social areas, and decentralized work areas.

(d) Resident unit. A “resident unit” shall mean a group of resident rooms, care support areas, and common rooms and areas as identified in this subsection and subsections (e) and (f), unless otherwise indicated. Each resident unit shall have a resident capacity of no more than 60 residents and shall be located within a single building.

(1) Resident rooms. At least five percent of the resident rooms shall have a maximum occupancy of one resident per room. The occupancy of the remaining rooms shall not exceed two residents per room. If a nursing facility has rooms that accommodate three or four residents on the effective date of this regulation, this requirement shall not apply until the nursing facility converts its existing three- and four-resident rooms to private or semiprivate rooms.

(A) Each resident room shall meet the following requirements:

- (i) Be located on a floor at or above ground level;
- (ii) allow direct access to the corridor;
- (iii) measure at least 100 square feet in single resident rooms and at least 160 square feet in double resident rooms, exclusive of alcoves, vestibules, toilet room, closets or freestanding wardrobes, sinks, and other built-in items. If the building was constructed before January 1, 1963 and licensed as a nursing facility on the effective date of this regulation, rooms shall measure at least 90 square feet in single resident rooms and at least 160 square feet in double resident rooms, exclusive of alcoves, vestibules, toilet room, closets or freestanding wardrobes, sinks, and other built-in items; and
- (iv) provide at least one operable exterior window that opens for ventilation. The window area shall not be less than 12 percent of the gross floor area of the resident room.

(B) Each bed area in a double resident room shall have separation from the adjacent bed by use of walls, doors, or ceiling suspended curtains to afford complete visual privacy.

(C) The configuration of each resident room shall be designed to allow at least three feet of clearance along the foot of each bed and along both sides of each bed.

(D) The nursing facility shall have functional furniture to meet each resident's needs, including a bed of adequate size with a clean, comfortable mattress that fits the bed, and bedding appropriate to the weather and the needs of the resident.

(E) Each resident's room shall include personal storage space in a fixed closet or freestanding wardrobe with doors. This storage shall have minimum dimensions of one foot 10 inches in depth by two feet six inches in width and shall contain an adjustable clothes rod and shelf installed at a height easily reached by the resident. Accommodations shall be provided for hanging full-length garments. If the building was constructed before February 15, 1977 and licensed as a nursing facility on the effective date of this regulation, the minimum dimensions specified in this paragraph shall not apply.

(2) Resident toilet rooms. Each resident toilet room shall serve no more than two resident rooms and be accessed directly from the resident's room. If the building was constructed before February 15, 1977 and licensed as a nursing facility on the effective date of this regulation, resident access to the toilet room may be from the general corridor.

(A) Each toilet room shall contain at least a toilet and hand-washing sink, unless a hand-washing sink is provided in the resident room adjacent to the toilet room.

(B) Each resident toilet room shall have at least 30 square feet to allow maneuverability of a wheelchair. If the room contains a shower that presents no obstruction to the turning radius, the space occupied by the shower may be included in the minimum dimensions.

(C) If a shower is present in a toilet room, the shower shall be curtained or in another type of enclosure for privacy.

(e) Resident unit care support rooms and areas. The rooms and areas required in this subsection shall be located in each resident unit and shall be accessed directly from the general corridor without passage through an intervening room or area, except the medication room as specified in paragraph (e)(2)(A) and housekeeping closets. Each care support area shall be located less than 200 feet from each resident room. If the building was constructed before February 15, 1977 and the nursing facility was licensed on the effective date

of this regulation, the distance specified in this paragraph shall not apply.

(1) Nurses' workroom or area. Each resident unit shall have sufficient areas for supervisory work activities arranged to ensure the confidentiality of resident information and communication.

(A) A nurses' workroom or area shall have space for the following:

- (i) Charting;
- (ii) the transmission and reception of resident information;
- (iii) clinical records and other resident information;
- (iv) a telephone and other office equipment; and
- (v) an enunciator panel or monitor screen for the call system. If a resident unit has more than one nurses' workroom or area, space for an enunciator panel or monitor for the call system shall not be required in more than one nurses' workroom or area.

(B) The nurses' workroom or area shall be located so that the corridors outside resident rooms are visible from the nurses' workroom or area. The nursing facility may have cameras and monitors to meet this requirement.

(C) Direct visual access into each nurses' work area shall be provided if the work area is located in an enclosed room.

(2) Medication room or area. Each resident unit shall have a room or area for storage and preparation of medications or biologicals for 24-hour distribution, with a temperature not to exceed 85°F. This requirement shall be met by one or more of the following:

(A) A room with an automatically closing, self-locking door visible from the nurses' workroom or area. The room shall contain a work counter with task lighting, hand-washing sink, refrigerator, and shelf space for separate storage of each resident's medications. The secured medication storage room shall contain separately locked compartments for the storage of controlled medications listed in K.S.A. 65-4107, and amendments thereto, and any other medications that, in the opinion of the consultant pharmacist, are subject to abuse;

(B) if the resident unit serves no more than 32 residents, a nurses' workroom or area equipped with a work counter with task lighting, hand-washing sink, locked refrigerator, and locked storage for resident medications. A separately locked compartment shall be located within the locked

cabinet, drawer, or refrigerator for the storage of controlled medications listed in K.S.A. 65-4107, and amendments thereto, and any other medications that, in the opinion of the consultant pharmacist, are subject to abuse;

(C) a locked medication cart, in addition to a medication room or area, if the cart is located in a space convenient for control by nursing personnel who are authorized to administer medication. If controlled medications listed in K.S.A. 65-4107, and amendments thereto, and any other medications that, in the opinion of the consultant pharmacist, are subject to abuse are stored in the medication cart, the cart shall contain a separately locked compartment for the storage of these medications; or

(D) in the resident's room if the room contains space for medication preparation with task lighting, access to a hand-washing sink, and locked cabinets or drawers for separate storage of each resident's medication. Controlled medications listed in K.S.A. 65-4107, and amendments thereto, and any other medications that, in the opinion of the consultant pharmacist, are subject to abuse shall not be stored in a resident's room.

(3) Clean workroom. Each resident unit shall have a room for the preparation, storage, and distribution of clean or sterile materials and supplies and resident care items.

(A) The room shall contain a work counter with a sink and adequate shelving and cabinets for storage.

(B) The room area shall be at least 80 square feet, with a length or width of at least six feet. If the building was constructed before February 15, 1977 and licensed as a nursing facility on the effective date of this regulation, the minimum dimensions specified in this paragraph shall not apply.

(C) If the resident unit is located in a freestanding building, a clothes dryer for processing resident personal laundry that is not contaminated laundry may be located in the clean workroom if the following requirements are met:

(i) An additional minimum of 40 square feet per dryer shall be provided.

(ii) The soiled workroom shall contain a washing machine positioned over a catch pan.

(iii) The clean workroom shall have a door opening directly into the soiled workroom without entering the general corridor. The door opening shall be covered with a plastic-strip door or by other means to prevent interference of ventilation requirements for both workrooms.

(D) Storage and preparation of food and beverages shall not be permitted in the clean workroom.

(4) Clean linen storage. Each resident unit shall have a room or area with adequate shelving, cabinets, or cart space for the storage of clean linen. The storage area may be located in the clean workroom.

(5) Soiled workroom. Each resident unit shall have a soiled workroom for the disposal of wastes, collection of contaminated material, and the cleaning and sanitizing of resident care utensils.

(A) The soiled workroom shall contain a work counter, a two-compartment sink, a covered waste receptacle, a covered soiled linen receptacle, and a storage cabinet with a lock for sanitizing solutions and cleaning supplies. If the building was constructed before February 15, 1977 and licensed as a nursing facility on the effective date of this regulation, the soiled workroom shall contain these fixtures except that the sink shall be at least a one-compartment sink.

(B) The room area shall be at least 80 square feet, with a length or width of at least six feet. If the building was constructed before February 15, 1977 and licensed as a nursing facility on the effective date of this regulation, the minimum dimensions shall not apply.

(C) If the resident unit is located in a freestanding building, a washing machine for processing resident personal laundry that is not contaminated laundry may be located in the soiled workroom if the following requirements are met:

(i) An additional minimum of 40 square feet per washing machine shall be provided.

(ii) The washing machine shall be positioned over a catch pan.

(iii) The clean workroom shall contain a clothes dryer.

(iv) The soiled workroom shall have a door opening directly into the clean workroom without entering the general corridor. The door opening shall be covered with a plastic-strip door or by other means to prevent interference of ventilation requirements for both workrooms.

(D) A housekeeping room may be located in the soiled workroom if the following conditions are met:

(i) The soiled workroom is located in a resident unit in a freestanding building.

(ii) The housekeeping room is enclosed.

(iii) The soiled workroom includes at least 20 square feet in additional space.

(E) Clean supplies, equipment, and materials shall not be stored in the soiled workroom.

(6) Equipment storage rooms or areas. Each resident unit shall have sufficient rooms or enclosed areas for the storage of resident unit equipment.

(A) The total space shall be at least 120 square feet plus an additional minimum of one square foot for each resident based on resident capacity, with no single room or area less than 30 square feet. If the building was constructed before February 15, 1977 and licensed as a nursing facility on the effective date of this regulation, the minimum dimensions specified in this paragraph shall not apply.

(B) If mechanical equipment or electrical panel boxes are located in the storage area, the nursing facility shall have additional space for the access to and servicing of equipment.

(7) Housekeeping room. Each resident unit shall have at least one room for the storage of housekeeping supplies and equipment needed to maintain a clean and sanitary environment.

(A) Each housekeeping room shall contain the following:

(i) A floor receptor or service sink, or both;

(ii) hot and cold water;

(iii) adequate shelving;

(iv) provisions for hanging mops and other cleaning tools; and

(v) space for buckets, supplies, and equipment.

(B) If the housekeeping room in the resident unit serves the resident kitchen and any other areas of the unit, the nursing facility shall designate separate mops and buckets for use in each specific location.

(C) If the building was constructed before February 15, 1977 and licensed as a nursing facility on the effective date of this regulation, the nursing facility shall have at least one janitor's closet that contains either a floor receptor or service sink, or both, and storage space for janitorial equipment and supplies.

(8) Toilet room. Each resident unit shall have a staff toilet room with a hand-washing sink. If a resident unit is located in a freestanding building, the resident unit shall have at least one toilet room that contains a hand-washing sink and is accessible according to ADAAG, as adopted by reference in K.A.R. 26-39-105, for resident, staff, and visitor use. If the building was constructed before February 15, 1977 and licensed as a nursing facility on the effective date of this regulation, this paragraph shall not apply.

(9) Resident kitchen. Any resident unit may have a decentralized resident kitchen if the resident kitchen meets the following requirements:

(A) Is adequate in relation to the size of the resident unit;

(B) is designed and equipped to meet the needs of the residents; and

(C) meets the requirements in paragraph (f)(7).

(10) Nourishment area. Each resident unit shall have an area available to each resident to ensure the provision of nourishment and beverages, including water, between scheduled meals. The nourishment area may serve more than one resident unit if centrally located for easy access from each of the nursing areas served. If the building was constructed before February 15, 1977 and licensed as a nursing facility on the effective date of this regulation, the nursing facility shall not be required to have a nourishment area.

(A) The nourishment area shall contain a hand-washing sink, equipment for serving nourishment and beverages, a refrigerator, and storage cabinets.

(B) The nourishment area may be located in the resident unit kitchen if the kitchen has both a hand-washing sink and counter accessible according to ADAAG, as adopted by reference in K.A.R. 26-39-105, and all residents have access to the area between scheduled meals.

(11) Bathing room. Each nursing facility shall have a room or rooms with sufficient bathing units to permit each resident to bathe privately and either independently or with staff assistance.

(A) Each nursing facility shall have at least one hydrotherapy bathing unit. If the building was constructed before November 1, 1993 and licensed as a nursing facility on the effective date of this regulation, this requirement shall not apply.

(B) Each nursing facility shall have bathing units at a rate of one for each 15 residents, based on the number of residents who do not have a toilet room, with a shower accessed directly from the resident's room. A hydrotherapy bathing unit may be counted as two bathing units to meet this ratio.

(C) The bathing room shall contain the following:

(i) A hand-washing sink;

(ii) an area enclosed for privacy that contains a toilet for resident use;

(iii) a shower that measures at least four feet by four feet without curbs and is designed to permit use by a resident in a wheelchair, unless a shower is provided in each resident's toilet room. If the building was constructed before February 15, 1977 and

licensed as a nursing facility on the effective date of this regulation, the minimum dimensions specified in this paragraph shall not apply;

(iv) a visually enclosed area for privacy during bathing, drying, and dressing, with space for a care provider and wheelchair; and

(v) a locked supply cabinet.

(12) Personal laundry room. Any resident unit may have a laundry room for each resident to launder personal laundry that is not contaminated laundry, if the requirements in paragraph (f)(8) are met.

(13) Mobility device parking space. Each nursing facility shall have parking space for residents' mobility devices. The parking space shall be located in an area that does not interfere with normal resident passage. The parking space shall not be included in determining the minimum required corridor width.

(f) Common rooms and support areas in the nursing facility's main building. The rooms and areas required in this subsection shall be located in the main building of each nursing facility, unless otherwise indicated, and shall be accessed directly from the general corridor without passage through an intervening room or area. If a resident unit is located in a freestanding building, the administrator shall ensure that transportation is provided for each resident to access services and activities that occur in the main building to enhance the resident's physical, mental, and psychosocial well-being.

(1) Living, dining, and recreation areas. Each nursing facility shall have sufficient space to accommodate separate and distinct resident activities of living, dining, and recreation. If a resident unit is located in a freestanding building, the resident unit shall include living, dining, and recreation areas.

(A) Space for living, dining, and recreation shall be provided at a rate of at least 27 square feet per resident based on each resident unit's capacity, with at least 14 square feet per resident in the dining area. If the building was constructed before February 15, 1977 and licensed as a nursing facility on the effective date of this regulation, the nursing facility shall have space for living, dining, and recreation at a rate of at least 20 square feet per resident based on each resident unit's capacity, with at least 10 square feet per resident in the dining area.

(B) Window areas in each living, dining, and recreation area shall be at least 10 percent of the gross

floor space of those areas. The window area requirement shall not be met by the use of skylights.

(2) Multipurpose room. Each nursing facility shall have a room or area for resident use for social gatherings, religious services, entertainment, or crafts, with sufficient space to accommodate separate functions.

(A) The multipurpose room shall have an area of at least 200 square feet for 60 or fewer residents, plus at least two square feet for each additional resident over 60, based on the nursing facility's resident capacity. If the building was constructed before February 15, 1977 and licensed as a nursing facility on the effective date of this regulation, the minimum dimensions specified in this paragraph shall not apply.

(B) The multipurpose room or area shall contain a work counter with a hand-washing sink, and storage space and lockable cabinets for equipment and supplies. If the building was constructed before February 15, 1977 and licensed as a nursing facility on the effective date of this regulation, the hand-washing sink may be located in close proximity to the multipurpose room or area.

(3) Den. Each nursing facility shall have a room for residents to use for reading, meditation, solitude, or privacy with family and other visitors unless each resident has a private room. The room area shall be at least 80 square feet. This paragraph shall not apply to facilities that meet the following conditions:

(A) The building was constructed before February 15, 1977 and licensed as a nursing facility on the effective date of this regulation.

(B) Any decrease to the nursing facility's resident capacity is for the sole purpose of converting semiprivate rooms to private rooms.

(4) Exam room. Each nursing facility shall have a room for a physician to examine and privately consult with a resident.

(A) The exam room shall meet the following requirements:

(i) The room area shall be at least 120 square feet, with a length or width of at least 10 feet.

(ii) The room shall contain a hand-washing sink, an examination table, and a desk or shelf for writing.

(iii) If the examination room is located in the rehabilitation therapy room, the examination room shall be equipped with cubicle curtains.

(B) The requirement for an exam room shall not apply to any nursing facility that meets both of the following conditions:

(i) The building was constructed before February 15, 1977 and licensed as a nursing facility on the effective date of this regulation.

(ii) Any decrease to the nursing facility's resident capacity on or after the effective date of this regulation is for the sole purpose of converting semiprivate rooms to private rooms.

(5) Rehabilitation room. Each nursing facility shall have a room for the administration and implementation of rehabilitation therapy.

(A) The rehabilitation room shall include the following:

(i) Equipment for carrying out each type of therapy prescribed for the residents;

(ii) a hand-washing sink;

(iii) an enclosed storage area for therapeutic devices; and

(iv) provisions for resident privacy.

(B) The rehabilitation room shall have an area of at least 200 square feet for 60 or fewer residents, plus at least two square feet for each additional resident over 60, based on resident capacity, to a maximum requirement of 655 square feet. If the building was constructed before February 15, 1977 and licensed as a nursing facility on the effective date of this regulation, the minimum dimensions specified in this paragraph shall not apply.

(C) If a resident unit is located in a freestanding building, the resident unit may have a designated area for rehabilitation in a bathing room. The combined use of the space shall not limit the residents' bathing opportunities or rehabilitation therapy.

(6) Beauty and barber shop. Each nursing facility shall have a room or area for the hair care and grooming of residents appropriate in size for the number of residents served.

(A) The beauty and barber shop shall contain at least one shampoo sink, space for one floor hair dryer, workspace, and a lockable supply cabinet.

(B) If a resident unit is located in a freestanding building, the resident unit may have a designated area for the hair care and grooming of residents in the bathing room if all of the following conditions are met:

(i) The bathing room does not contain a shower.

(ii) The area contains at least one shampoo sink, space for one floor hair dryer, and workspace.

(iii) The combined use of the space does not limit the residents' bathing, hair care, or grooming opportunities.

(7) Dietary areas. Each nursing facility shall have dietary service areas that are adequate in relation to

the size of the nursing facility and are designed and equipped to meet the needs of the residents. Each nursing facility shall meet the requirements of the “food code,” as adopted by reference in K.A.R. 26-39-105, unless otherwise indicated in this subsection. The following elements shall be included in each central kitchen and resident kitchen:

(A) A control station for receiving food supplies;

(B) food preparation and serving areas and equipment in accordance with the following requirements:

(i) Conventional food preparation systems shall include space and equipment for preparing, cooking, baking, and serving; and

(ii) convenience food service systems, including systems using frozen prepared meals, bulk-packaged entrees, individual packaged portions, or contractual commissary services, shall include space and equipment for thawing, portioning, cooking, baking, and serving;

(C) space for meal service assembly and distribution equipment;

(D) a two-compartment sink for food preparation. If the building was constructed before February 15, 1977 and licensed as a nursing facility on the effective date of this regulation, the kitchen shall have at least a one-compartment sink for food preparation;

(E) a hand-washing sink in the food preparation area;

(F) a ware-washing area apart from, and located to prevent contamination of, food preparation and serving areas. The area shall include all of the following:

(i) Commercial-type dishwashing equipment;

(ii) space for receiving, scraping, sorting, and stacking soiled tableware and transferring clean tableware to the using area; and

(iii) if in a resident kitchen, an under-counter commercial or residential dishwasher that meets the national sanitation foundation (NSF) international standards;

(G) a three-compartment deep sink for manual cleaning and sanitizing or, if in a resident kitchen, an alternative means for a three-step process for manual cleaning and sanitizing;

(H) an office in the central kitchen for the dietitian or dietetic services supervisor or, if in a resident kitchen, a workspace for the dietitian or dietetic services supervisor;

(I) a toilet room and a hand-washing sink available for dietary staff located within close proximity to the kitchen;

(J) an enclosed housekeeping room located within the central kitchen that contains a floor receptor or service sink with hot and cold water, shelving, and storage space for housekeeping equipment and supplies. If the building was constructed before February 15, 1977 and licensed as a nursing facility on the effective date of this regulation, a housekeeping room shall not be required in the kitchen. If in a resident kitchen, there shall be an enclosed housekeeping room adjacent to the kitchen that contains storage for dietary services cleaning equipment;

(K) an ice machine that, if available to residents for self-serve, shall dispense ice directly into a container and be designed to minimize noise and spillage onto the floor;

(L) sufficient food storage space located adjacent to the central kitchen or resident kitchen to store at least a four-day supply of food to meet residents’ needs, including refrigerated, frozen, and dry storage;

(M) sufficient space for the storage and sanitizing of cans, carts, and mobile equipment; and

(N) a waste storage area in a separate room or an outside area that is readily available for direct pickup or disposal.

(8) Laundry services. Each nursing facility shall have the means for receiving, processing, and storing linen needed for resident care in a central laundry or off-site laundry, or both, or a personal laundry room located on a resident unit in combination with these options. The arrangement of laundry services shall provide for an orderly workflow from dirty to clean, to minimize cross-contamination.

(A) If nursing facility laundry or more than one resident’s personal laundry is to be processed, the laundry services area shall have separate rooms, with doors that do not open directly onto the resident unit, that have the following:

(i) A soiled laundry room for receiving, holding, and sorting laundry, equipped with containers with tightly fitting lids for soiled laundry, that is exhausted to the outside;

(ii) a processing room that contains commercial laundry equipment for washing and drying and a hand-washing sink;

(iii) an enclosed housekeeping room that opens into the laundry processing area and contains either a floor receptor or service sink, or both, and shelving and space for storage of housekeeping equipment and supplies;

(iv) a clean laundry room for handling, storing, issuing, mending, and holding laundry with egress

that does not require passing through the processing or soiled laundry room; and

(v) storage space for laundry supplies.

(B) If nursing facility laundry or more than one resident's personal laundry is to be processed, the washing machine shall be capable of meeting high-temperature washing or low-temperature washing requirements as follows:

(i) If high-temperature washing is used, the washing machines shall have temperature sensors and gauges capable of monitoring water temperatures of at least 160°F and manufacturer documentation that the machine has a wash cycle of at least 25 minutes at 160°F or higher.

(ii) If low-temperature washing is used, the washing machines shall have temperature sensors and gauges capable of monitoring water temperatures to ensure a wash temperature of at least 71°F and manufacturer documentation of a chlorine bleach rinse of 125 parts per million (ppm) at a wash temperature of at least 71°F. Oxygen-based bleach may be used as an alternative to chlorine bleach if the product is registered by the environmental protection agency.

(C) If the building was constructed before February 15, 1977 and licensed as a nursing facility on the effective date of this regulation, the following elements shall be included:

(i) A soiled laundry room or area for receiving, holding, and sorting laundry, equipped with containers with tightly fitting lids for soiled laundry, that is exhausted to the outside;

(ii) a processing room or area that contains commercial laundry equipment for washing and drying and a hand-washing sink;

(iii) a clean laundry room or area for handling, storing, issuing, mending, and holding laundry; and

(iv) storage space for laundry supplies.

(D) If each resident's personal laundry is processed separately on a resident unit, the laundry may be handled within one or more rooms if separate, defined areas are provided for handling clean and soiled laundry.

(E) If laundry is processed off-site, the following elements shall be provided:

(i) A soiled laundry room, equipped with containers that have tightly fitted lids for holding laundry, that is exhausted to the outside; and

(ii) a clean laundry room for receiving, holding, inspecting, and storing linen.

(9) Central storage. Each nursing facility shall have at least five square feet per resident capacity

in separate rooms or separate space in one room for storage of clean materials or supplies and oxygen. If the building was constructed before February 15, 1977 and licensed as a nursing facility on the effective date of this regulation, the minimum dimensions specified in this paragraph shall not apply.

(10) Housekeeping room. Each nursing facility shall have a sufficient number of rooms for the storage of housekeeping supplies and equipment needed to maintain a clean and sanitary environment.

(A) Each housekeeping room shall contain the following:

(i) A floor receptor or service sink;

(ii) hot and cold water;

(iii) adequate shelving;

(iv) provisions for hanging mops and other cleaning tools; and

(v) space for buckets, supplies, and equipment.

(B) If the building was constructed before February 15, 1977 and licensed as a nursing facility on the effective date of this regulation, the nursing facility shall have at least one housekeeping room with a floor receptor or service sink and with storage space for equipment and supplies.

(g) Staff and public areas. The rooms and areas required in this subsection shall be located in the main building of each nursing facility and in each freestanding building with a resident unit unless otherwise indicated.

(1) Staff support area. Each nursing facility shall have a staff support area for staff and volunteers that contains the following, at a minimum:

(A) A staff lounge or area;

(B) lockers, drawers, or compartments that lock for safekeeping of each staff member's personal effects; and

(C) a toilet room and hand-washing sink. If a resident unit is located in a freestanding building, the toilet room located in the resident unit may meet this requirement. If the building was constructed before February 15, 1977 and licensed as a nursing facility on the effective date of this regulation, this requirement shall not apply.

(2) Public areas. Each nursing facility shall have public areas to accommodate residents, staff, and visitors.

(A) Each building constructed and licensed as a nursing facility before February 15, 1977 shall have the following public areas:

(i) A sheltered entrance at grade level to accommodate persons in wheelchairs;

(ii) one public toilet and hand-washing sink;

(iii) at least one toilet and hand-washing sink accessible to a person in a wheelchair;

(iv) a drinking fountain or cooler, or other means to obtain fresh water; and

(v) a telephone, located in an area with sufficient space to allow for use by a person in a wheelchair, where calls can be made without being overheard.

(B) Each building constructed on or after February 15, 1977 and licensed as a nursing facility on the effective date of this regulation shall have the following public areas:

(i) A sheltered entrance at grade level to accommodate persons in wheelchairs;

(ii) a lobby or vestibule with communication to the reception area, information desk, or resident unit;

(iii) at least one public toilet and hand-washing sink that are accessible to a person in a wheelchair. If a resident unit is located in a freestanding building, the toilet room on the resident unit may meet this requirement;

(iv) if a nursing facility has a resident capacity greater than 60, at least one additional public toilet and hand-washing sink shall be provided;

(v) a drinking fountain or cooler, or other means to obtain fresh water; and

(vi) a telephone, located in an area with sufficient space to allow for use by a person in a wheelchair, where calls can be made without being overheard.

(3) Administrative areas. Each nursing facility shall have the following areas for administrative work activities in the main building:

(A) An administrator's office; and

(B) space for office equipment, files, and financial and clinical records.

(h) Nursing facility support systems. Each nursing facility shall have support systems to promote staff responsiveness to each resident's needs and safety.

(1) Call system. Each nursing facility shall have a functional call system that ensures that nursing personnel working in the resident unit and other staff designated to respond to resident calls are notified immediately when a resident has activated the call system.

(A) Each nursing facility shall have a call button or pull cord located next to each bed that, if activated, will initiate all of the following:

(i) Produce an audible signal at the nurses' workroom or area or activate the portable electronic device worn by each required staff member with an audible tone or vibration;

(ii) register a visual signal on an enunciator panel or monitor screen at the nurses' workroom or area, indicating the resident room number;

(iii) produce a visual signal at the resident room corridor door or activate the portable electronic device worn by each required staff member, identifying the specific resident or room from which the call has been placed; and

(iv) produce visual and audible signals in clean and soiled workrooms and in the medication preparation rooms or activate the portable electronic device worn by each required staff member with an audible tone or vibration.

(B) Each nursing facility shall have an emergency call button or pull cord located next to each resident-use toilet, shower, and bathtub that, if activated, will initiate all of the following:

(i) Produce a repeating audible signal at the nurses' workroom or area or activate the portable electronic device worn by each required staff member with an audible tone or vibration;

(ii) register a visual signal on an enunciator panel or monitor screen at the nurses' workroom or area, indicating the location or room number of the toilet, shower, or bathtub;

(iii) produce a rapidly flashing light adjacent to the corridor door at the site of the emergency or activate an electronic portable device worn by each required staff member, identifying the specific resident or room from which the call has been placed; and

(iv) produce a rapidly flashing light and a repeating audible signal in the nurses' workroom or area, clean workroom, soiled workroom, and medication preparation rooms or activate the portable electronic device worn by each required staff member with an audible tone or vibration.

(C) The administrator shall implement a policy to ensure that all calls activated from an emergency location receive a high-priority response from staff.

(D) If the nursing facility does not have a wireless call system, the nursing facility shall have additional visible signals at corridor intersections in multicorridor units for all emergency and non-emergency calls. If the building was constructed before February 15, 1977 and licensed as a nursing facility on the effective date of this regulation, the nursing facility shall not be required to have additional visible signals at corridor intersections for all emergency and nonemergency calls.

(E) All emergency and nonemergency call signals shall continue to operate until manually reset at the site of origin.

(F) If call systems include two-way voice communication, staff shall take precautions to protect resident privacy.

(G) If a nursing facility uses a wireless system to meet the requirements of paragraphs (h)(1) (A) through (E), all of the following additional requirements shall be met:

(i) The nursing facility shall be equipped with a system that records activated calls.

(ii) A signal unanswered for a designated period of time, but not more than every three minutes, shall repeat and also be sent to another workstation or to staff that were not designated to receive the original call.

(iii) Each wireless system shall utilize radio frequencies that do not interfere with or disrupt pacemakers, defibrillators, and any other medical equipment and that receive only signals initiated from the manufacturer's system.

(H) The nursing facility's preventative maintenance program shall include the testing of the call system at least weekly to verify operation of the system.

(I) If the building was constructed before May 1, 1982 and licensed as a nursing facility on the effective date of this regulation, the call system shall be required to meet the following requirements:

(i) Each resident bed shall have a call button that, when activated, registers at the nurses' work area with an audible and visual signal.

(ii) The call system shall produce a visual signal at the resident room corridor door.

(iii) The nursing facility shall have an emergency call button or pull cord next to each resident-use toilet, shower, and bathtub accessible to residents that, when activated, registers at the nurses' work area with an audible and visual signal.

(iv) All emergency and nonemergency call signals shall continue to operate until manually reset at the site of origin.

(2) Door monitoring system. The nursing facility shall have an electrical monitoring system on each door that exits the nursing facility and is available to residents. The monitoring system shall alert staff when the door has been opened by a resident who should not leave the nursing facility unless accompanied by staff or other responsible person.

(A) Each door to the following areas that is available to residents shall be electronically monitored:

(i) The exterior of the nursing facility, including enclosed outdoor areas;

(ii) interior doors of the nursing facility that open into another type of adult care home if the exit doors from that adult care home are not monitored; and

(iii) any area of the building that is not licensed as an adult care home.

(B) The electrical monitoring system on each door shall remain activated until manually reset by nursing facility staff.

(C) The electrical monitoring system on a door may be disabled during daylight hours if nursing facility staff has continuous visual control of the door.

(i) Nursing facility maintenance and waste processing services.

(1) Maintenance, equipment, and storage areas. Each nursing facility constructed after February 15, 1977 and licensed on the effective date of this regulation shall have areas for repair, service, and maintenance functions that include the following:

(A) A maintenance office and shop;

(B) a storage room for building maintenance supplies. The storage room may be a part of the maintenance shop in nursing facilities with 120 or fewer beds;

(C) an equipment room or separate building for boilers, mechanical equipment, and electrical equipment.

(2) Waste processing services. The nursing facility shall have space and equipment for the sanitary storage and disposal of waste by incineration, mechanical destruction, compaction, containerization, or removal, or by a combination of these techniques. (Authorized by and implementing K.S.A. 39-932; effective Jan. 7, 2011.)

26-40-304. Nursing facility physical environment; details and finishes. Each nursing facility shall incorporate details and finishes to create a home environment.

(a) Codes and standards. Nursing facilities may be subject to codes, standards, and regulations of several different jurisdictions, including local, state, and federal authorities. The requirements in this regulation shall be considered as a minimum. Each nursing facility and each portion of a nursing facility that was licensed under a previous regulation shall, at a minimum, remain in compliance with the regulation or building code in effect at the date of licensure. Each applicant for a nursing facility license and each addition to a nursing facility licensed on or after the effective date of this regulation shall meet the following

requirements, as adopted by reference in K.A.R. 26-39-105:

- (1) The “international building code” (IBC);
- (2) the national fire protection association’s NFPA 101 “life safety code” (LSC); and
- (3) the “Americans with disabilities act accessibility guidelines for buildings and facilities” (ADAAG).

(b) Details.

(1) Corridors.

(A) The width of each corridor shall be at least eight feet in any resident-use area and at least six feet in any nursing facility support area.

(B) Handrails shall not be considered an obstruction when measuring the width of corridors.

(C) Doors shall not swing directly into corridors, with the exception of doors to small closets and spaces that are not subject to occupancy. Walk-in closets shall be considered occupiable spaces.

(2) Ceiling height.

(A) The height of each ceiling shall be at least eight feet above the finished floor with the following exceptions:

(i) Each ceiling in a storage room or other normally unoccupied space shall be at least seven feet eight inches above the finished floor.

(ii) Each ceiling in a room containing ceiling-mounted equipment shall have sufficient height to accommodate the proper functioning, repair, and servicing of the equipment.

(B) Each building component and suspended track, rail, and pipe located in the path of normal traffic shall be at least six feet eight inches above the finished floor.

(C) Each architecturally framed and trimmed doorway or other opening in a corridor or room shall have a height of at least six feet eight inches above the finished floor.

(3) Doors and door hardware.

(A) Each door on any opening between corridors and spaces subject to occupancy, with the exception of elevator doors, shall be swinging-type.

(B) Each door to a room containing at least one resident-use toilet, bathtub, or shower shall be swinging-type, sliding, or folding and shall be capable of opening outward or designed to allow ingress to the room without pushing against a resident who could have collapsed in the room.

(C) The width of the door opening to each room that staff need to access with beds or stretchers shall be at least three feet eight inches. The width of each door to a resident-use toilet room and oth-

er rooms that staff and residents need to access with wheelchairs shall be at least three feet.

(D) No more than five percent of the resident rooms may have a Dutch door to the corridor for physician-ordered monitoring of a resident who is disorientated.

(E) Each exterior door that can be left in an open position shall have insect screens.

(F) Each resident-use interior and exterior door shall open with ease and little resistance.

(G) Each resident-use swinging-type door shall have lever hardware or sensors for ease of use by residents with mobility limitations.

(4) Glazing. Safety glazing materials shall be required in all doors with glass panels, sidelights, and any breakable material located within 18 inches of the floor. Safety glass or safety glazing materials shall be used on any breakable material used for a bath enclosure or shower door.

(5) Windows.

(A) Each window in a resident’s room or in a resident-use area shall have a sill located no greater than 32 inches above the finished floor and at least two feet six inches above the exterior grade. This paragraph shall not apply if the building was constructed and licensed as a nursing facility before February 15, 1977. If the building was constructed and licensed as a nursing facility on or after February 15, 1977 and before November 1, 1993, the nursing facility shall have a windowsill height three feet or less above the floor in the living and dining areas for at least 50 percent of the total window area.

(B) Each window in a resident’s room shall be operable.

(C) Each operable window shall have an insect screen.

(D) Each operable window shall be designed to prevent falls when open or shall be equipped with a security screen.

(E) Blinds, sheers, or other resident-controlled window treatments shall be provided throughout each resident unit to control light levels and glare.

(6) Grab bars.

(A) Grab bars shall be installed at each resident-use toilet and in each shower and tub.

(B) Each wall-mounted grab bar shall have a clearance of 1½ inches from the wall.

(C) Each grab bar, including those molded into a sink counter, shall have strength to sustain a concentrated load of 250 pounds.

(D) Permanent or flip-down grab bars that are 1½ inches in diameter shall be installed on

any two sides of each resident-use toilet, or the resident-use toilet shall have at least one permanent grab bar mounted horizontally at least 33 inches and no more than 36 inches above the floor and slanted at an angle.

(E) The ends of each grab bar shall return to the wall or floor.

(F) Each grab bar shall have a finish color that contrasts with that of the adjacent wall surface.

(7) Handrails.

(A) Each handrail shall be accessible according to ADAAG, as adopted by reference in K.A.R. 26-39-105. Alternative cross sections and configurations that support senior mobility shall be permitted.

(B) Each stairway and ramp shall have handrails.

(C) A handrail shall be provided for each resident-use corridor with a wall length greater than 12 inches.

(D) Each handrail shall have a clearance of 1½ inches from the wall.

(E) The ends of each handrail shall return to the wall.

(F) Each handrail and fastener shall be completely smooth and free of rough edges.

(8) Heated surfaces.

(A) Each heated surface in excess of 100°F with which a resident may have contact shall be insulated and covered to protect the resident.

(B) If heated surfaces, including cook tops, ovens, and steam tables, are used in resident areas, emergency shutoffs shall be provided.

(9) Hand-washing stations.

(A) The water supply spouts for each sink shall be sensor-operated or operable with one hand and shall not require tight grasping, pinching, or twisting of the wrist.

(B) The water supply spout at each sink located in the resident unit and any other areas available for resident use shall be mounted so that the discharge point is at least five inches above the rim of the fixture.

(C) An enclosed single-issue paper towel dispenser or mechanical hand-drying device shall be provided at each hand-washing sink.

(D) A wastebasket shall be located at each hand-washing sink.

(E) A mirror shall be placed at each hand-washing sink located in a resident room, a resident toilet room, and a bathing room and in each public toilet room. The placement of the mirror shall allow for convenient use by both a person who

uses a wheelchair and a person who is ambulatory. The bottom edge of each mirror shall be no more than 40 inches from floor level.

(10) Lighting.

(A) All interior and exterior nursing facility lighting shall be designed to reduce glare.

(B) Each space occupied by persons, machinery, equipment within the nursing facility, and approaches to the nursing facility and parking lots shall have lighting.

(C) Each corridor and stairway shall remain lighted at all times.

(D) Each resident room shall have general lighting and night lighting. The nursing facility shall have a reading light for each resident. At least one light fixture for night lighting shall be switched at the entrance to each resident's room. All switches for the control of lighting in resident areas shall be of the quiet-operating type.

(E) Each light located in a resident-use area shall be equipped with a shade, globe, grid, or glass panel.

(F) Each light fixture in wet areas, including kitchens and showers, shall be vapor-resistant and shall have cleanable, shatter-resistant lenses and no exposed lamps.

(c) Finishes.

(1) Flooring.

(A) Each floor surface shall be easily cleaned and maintained for the location.

(B) If the area is subject to frequent wet-cleaning methods, the floor surface shall not be physically affected by germicidal or other types of cleaning solutions.

(C) Each floor surface, including tile joints used in areas for food preparation or food assembly, shall be water-resistant, greaseproof, and resistant to food acids. Floor construction in dietary and food preparation areas shall be free of spaces that can harbor rodents and insects.

(D) Each flooring surface, including wet areas in kitchens, showers, and bath areas, entries from exterior to interior spaces, and stairways and ramps, shall have slip-resistant surfaces.

(E) All floor construction and joints of structural elements that have openings for pipes, ducts, and conduits shall be tightly sealed to prevent entry of rodents and insects.

(F) Highly polished flooring or flooring finishes that create glare shall be avoided.

(G) Each flooring surface shall allow for ease of ambulation and movement of all wheeled equipment used by residents or staff and shall

provide for smooth transitions between differing floor surfaces.

(H) Each threshold and expansion joint shall be designed to accommodate rolling traffic and prevent tripping.

(I) Each carpet and carpet with padding in all resident-use areas shall be glued down or stretched taut and free of loose edges or wrinkles to avoid hazards or interference with the operation of lifts, wheelchairs, walkers, wheeled carts, and residents utilizing orthotic devices.

(2) Walls, wall bases, and wall protection.

(A) Each wall finish shall be washable and, if located near plumbing fixtures, shall be smooth and moisture-resistant.

(B) Wall protection and corner guards shall be durable and scrubbable.

(C) Each wall base in areas that require frequent wet cleaning, including kitchens, clean and soiled workrooms, and housekeeping rooms, shall be continuous and coved with the floor, tightly sealed to the wall, and constructed without voids that can harbor rodents and insects.

(D) All wall construction, finish, and trim in dietary and food storage areas shall be free from spaces that can harbor rodents, insects, and moisture.

(E) Each wall opening for pipes, ducts, and conduits and the joints of structural elements shall be tightly sealed to prevent entry of rodents and insects.

(F) Highly polished walls or wall finishes that create glare shall be avoided.

(3) Ceilings.

(A) The finish of each ceiling in resident-use areas and staff work areas shall be easily cleanable.

(B) Each ceiling in dietary, food preparation, food assembly, and food storage areas shall have a finished ceiling covering all overhead pipes and ducts. The ceiling finish shall be washable or easily cleaned by dustless methods, including vacuum cleaning.

(C) Each ceiling opening for pipes, ducts, and conduits and all joints of structural elements shall be tightly sealed to prevent entry of rodents and insects.

(D) Impervious ceiling finishes that are easily cleaned shall be provided in each soiled workroom, housekeeping room, and bathing room.

(E) Finished ceilings may be omitted in mechanical and equipment spaces, shops, general storage areas, and similar spaces unless required for fire protection. (Authorized by and implementing K.S.A. 39-932; effective Jan. 7, 2011.)

26-40-305. Nursing facility physical environment; mechanical, electrical, and plumbing systems. (a) Applicability. This regulation shall apply to all nursing facilities.

(b) Codes and standards. Each nursing facility shall meet the requirements of the building codes, standards, and regulations enforced by city, county, or state jurisdictions. The requirements specified in this regulation shall be considered as a minimum.

(1) Each nursing facility shall meet the requirements of the national fire protection association's NFPA 101 "life safety code" (LSC), as adopted by reference in K.A.R. 26-39-105.

(2) Each applicant for a nursing facility license and each addition to a nursing facility licensed on or after the effective date of this regulation shall meet the requirements of the "international building code" (IBC), as adopted by reference in K.A.R. 26-39-105.

(3) Each nursing facility and each portion of each nursing facility that was approved under a previous regulation shall, at a minimum, remain in compliance with the regulation or building code in effect at the date of licensure, unless otherwise indicated.

(4) Each nursing facility shall have a complete set of manufacturer's operating, maintenance, and preventive maintenance instructions for each piece of building, mechanical, dietary, and laundry equipment.

(c) Heating, ventilation, and air conditioning systems. Each nursing facility's heating, ventilation, and air conditioning systems shall be initially tested, balanced, and operated to ensure that system performance conforms to the requirements of the plans and specifications.

(1) Each nursing facility shall have a test and balance report from a certified member of the national environmental balancing bureau or the associated air balance council and shall maintain a copy of the report for inspection by department personnel.

(2) Each nursing facility shall meet the minimum ventilation rate requirements in table 1a. If the building was licensed as a nursing facility on the effective date of this regulation, the minimum ventilation rate requirements shall be the levels specified in table 1b.

(3) Each nursing facility shall have a heating, ventilation, and air conditioning system designed to maintain a year-round indoor temperature range of 70°F to 85°F in resident care areas.

(d) Insulation. Each nursing facility shall have insulation surrounding the mechanical, electrical, and plumbing equipment to conserve energy, protect residents and personnel, prevent vapor condensation, and reduce noise. Insulation shall be required for the following fixtures within the nursing facility:

(1) All ducts or piping operating at a temperature greater than 100°F; and

(2) all ducts or pipes operating at a temperature below ambient at which condensation could occur.

(e) Plumbing and piping systems. The water supply systems of each nursing facility shall meet the following requirements:

(1) Water service mains, branch mains, risers, and branches to groups of fixtures shall be valved. A stop valve shall be provided at each fixture.

(2) Backflow prevention devices or vacuum breakers shall be installed on hose bibs, janitors' sinks, bedpan flushing attachments, and fixtures to which hoses or tubing can be attached.

(3) Water distribution systems shall supply water during maximum demand periods at sufficient pressure to operate all fixtures and equipment.

(4) Water distribution systems shall provide hot water at hot water outlets at all times. A maximum variation of 98°F to 120°F shall be acceptable at bathing facilities, at sinks in resident-use areas, and in clinical areas. At least one sink in each dietary services area not designated as a hand-washing sink shall have a maximum water temperature of 120°F.

(5) Water-heating equipment shall have sufficient capacity to supply hot water at temperatures of at least 120°F in dietary and laundry areas. Water temperature shall be measured at the hot water point of use or at the inlet to processing equipment.

(f) Electrical requirements. Each nursing facility shall have an electrical system that ensures the safety, comfort, and convenience of each resident.

(1) Panelboards serving lighting and appliance circuits shall be located on the same floor as the circuits the panelboards serve. This requirement shall not apply to emergency system circuits.

(2) The minimum lighting intensity levels shall be the levels specified in table 2a. Portable lamps shall not be an acceptable light source to meet minimum requirements, unless specified in table 2a. If the building was licensed as a nursing facility on the effective date of this regulation, the minimum lighting intensity levels shall be the levels specified in table 2b.

(3) Each electrical circuit to fixed or portable equipment in hydrotherapy units shall have a ground-fault circuit interrupter.

(4) Each resident bedroom shall have at least one duplex-grounded receptacle on each side of the head of each bed and another duplex-grounded receptacle on another wall. A television convenience outlet shall be located on at least one wall. If the building was constructed before February 15, 1977 and licensed as a nursing facility on the effective date of this regulation, each resident bedroom shall have at least one duplex-grounded receptacle.

(5) Duplex-grounded receptacles for general use shall be installed a maximum of 50 feet apart in all corridors and a maximum of 25 feet from the ends of corridors.

(g) Emergency power. Each nursing facility shall have an emergency electrical power system that can supply adequate power to operate all of the following:

(1) Lighting of all emergency entrances and exits, exit signs, and exit directional lights;

(2) equipment to maintain the fire detection, alarm, and extinguishing systems;

(3) exterior electronic door monitors;

(4) the call system;

(5) a fire pump, if installed;

(6) general illumination and selected receptacles in the vicinity of the generator set;

(7) the paging or speaker system if the system is intended for communication during an emergency; and

(8) if life-support systems are used, an emergency generator. The emergency generator shall be located on the premises and shall meet the requirements of the LSC, as adopted by reference in K.A.R. 26-39-105.

(h) Reserve heating. Each nursing facility's heating system shall remain operational under loss of normal electrical power. Each nursing facility shall have heat sources adequate in number and arrangement to accommodate the nursing facility's needs if one or more heat sources become inoperable due to breakdown or routine maintenance.

(i) Preventive maintenance program. Each nursing facility shall have a preventive maintenance program to ensure that all of the following conditions are met:

(1) All electrical and mechanical equipment is maintained in good operating condition.

(2) The interior and exterior of the building are safe, clean, and orderly.

(3) Resident care equipment is maintained in a safe, operating, and sanitary condition.

(j) Tables.

(Authorized by and implementing K.S.A. 39-932; effective Jan. 7, 2011.)

Article 41.—ASSISTED LIVING FACILITIES AND RESIDENTIAL HEALTH CARE FACILITIES

26-41-101. Administration. (a) Administrator and operator responsibilities. The administrator or operator of each assisted living facility or residential health care facility ("facility") shall ensure that the facility is operated in a manner so that each resident receives care and services in accordance with each resident's functional capacity screening and negotiated service agreement.

(b) Administrator and operator criteria. Each licensee shall appoint an administrator or operator who meets the following criteria:

- (1) Is at least 21 years of age;
- (2) possesses a high school diploma or the equivalent;
- (3) holds a Kansas license as an adult care home administrator or has successfully completed an operator training course and passed the test approved by the secretary of Kansas department of

health and environment pursuant to K.S.A. 39-923 and amendments thereto; and

(4) has authority and responsibility for the operation of the facility and compliance with licensing requirements.

(c) Administrator and operator position description. Each licensee shall adopt a written position description for the administrator or operator that includes responsibilities for the following:

- (1) Planning, organizing, and directing the facility;
- (2) implementing operational policies and procedures for the facility; and
- (3) authorizing, in writing, a responsible employee who is 18 years old or older to act on the administrator's or operator's behalf in the absence of the administrator or operator.

(d) Resident rights. Each administrator or operator shall ensure the development and implementation of written policies and procedures that incorporate the principles of individuality, auton-

omy, dignity, choice, privacy, and a home environment for each resident. The following provisions shall be included in the policies and procedures:

(1) The recognition of each resident's rights, responsibilities, needs, and preferences;

(2) the freedom of each resident or the resident's legal representative to select or refuse a service and to accept responsibility for the consequences;

(3) the development and maintenance of social ties for each resident by providing opportunities for meaningful interaction and involvement within the facility and the community;

(4) furnishing and decorating each resident's personal space;

(5) the recognition of each resident's personal space as private and the sharing of an apartment or individual living unit only when agreed to by the resident;

(6) the maintenance of each resident's lifestyle if there are not adverse effects on the rights and safety of other residents; and

(7) the resolution of grievances through a specific process that includes a written response to each written grievance within 30 days.

(e) Resident liability. Each resident shall be liable only for the charges disclosed to the resident or the resident's legal representative and documented in a signed agreement at admission and in accordance with K.A.R. 26-39-103.

(1) A resident who is involuntarily discharged, including discharge due to death, shall not be responsible for the following:

(A) Fees for room and board beyond the date established in the signed contractual agreement or the date of actual discharge if an appropriate discharge notice has been given to the resident or the resident's legal representative in accordance with K.A.R. 26-39-102; and

(B) fees for any services specified in the negotiated services agreement after the date the resident has vacated the facility and no longer receives these services.

(2) A resident who is voluntarily discharged shall not be responsible for the following:

(A) Fees for room and board accrued beyond the end of the 30-day period following the facility's receipt of a written notice of voluntary discharge submitted by the resident or resident's legal representative or the date of actual discharge if this date extends beyond the 30-day period; and

(B) fees for any services specified in the negotiated services agreement after the date the

resident has vacated the facility and no longer receives these services.

(f) Staff treatment of residents. Each administrator or operator shall ensure the development and implementation of written policies and procedures that prohibit the abuse, neglect, and exploitation of residents by staff. The administrator or operator shall ensure that all of the following requirements are met:

(1) No resident shall be subjected to any of the following:

(A) Verbal, mental, sexual, or physical abuse, including corporal punishment and involuntary seclusion;

(B) neglect; or

(C) exploitation.

(2) The facility shall not employ any individual who has been identified on a state nurse aide registry as having abused, neglected, or exploited any resident in an adult care home.

(3) Each allegation of abuse, neglect, or exploitation shall be reported to the administrator or operator of the facility as soon as staff is aware of the allegation and to the department within 24 hours. The administrator or operator shall ensure that all of the following requirements are met:

(A) An investigation shall be started when the administrator or operator, or the designee, receives notification of an alleged violation.

(B) Immediate measures shall be taken to prevent further potential abuse, neglect, or exploitation while the investigation is in progress.

(C) Each alleged violation shall be thoroughly investigated within five working days of the initial report. Results of the investigation shall be reported to the administrator or operator.

(D) Appropriate corrective action shall be taken if the alleged violation is verified.

(E) The department's complaint investigation report shall be completed and submitted to the department within five working days of the initial report.

(F) A written record shall be maintained of each investigation of reported abuse, neglect, or exploitation.

(g) Availability of policies and procedures. Each administrator or operator shall ensure that policies and procedures related to resident services are available to staff at all times and are available to each resident, legal representatives of residents, case managers, and families during normal business hours. A notice of availability shall be posted in a place readily accessible to residents.

(h) Power of attorney, guardianship, and conservatorship. Authority as a power of attorney, durable power of attorney for health care decisions, guardian, or conservator shall not be exercised by anyone employed by or having a financial interest in the facility, unless the person is related to the resident within the second degree.

(i) Reports. Each administrator or operator shall ensure the accurate completion and electronic submission of annual and semiannual statistical reports regarding residents, employees, and facility occupancy to the department no later than 20 days following the last day of the period being reported. The administrator or operator shall ensure the submission of any other reports required by the department.

(j) Emergency telephone. Each administrator or operator shall ensure that the residents and employees have access to a telephone for emergency use at no cost. The administrator or operator shall ensure that the names and telephone numbers of persons or places commonly required in emergencies are posted adjacent to this telephone.

(k) Ombudsman. Each administrator or operator shall ensure the posting of the names, addresses, and telephone numbers of the Kansas department on aging and the office of the long-term care ombudsman with information that these agencies can be contacted to report actual or potential abuse, neglect, or exploitation of residents or to register complaints concerning the operation of the facility. The administrator or operator shall ensure that this information is posted in an area readily accessible to all residents and the public.

(l) Survey report and plan of correction. Each administrator or operator shall ensure that a copy of the most recent survey report and plan of correction is available in a public area to residents and any other individuals wishing to examine survey results. (Authorized by and implementing K.S.A. 39-932; effective May 29, 2009.)

26-41-102. Staff qualifications. (a) The administrator or operator of each assisted living facility or residential health care facility shall ensure the provision of a sufficient number of qualified personnel to provide each resident with services and care in accordance with that resident's functional capacity screening, health care service plan, and negotiated service agreement.

(b) Direct care staff or licensed nursing staff shall be awake and responsive at all times.

(c) A registered professional nurse shall be available to provide supervision to licensed practical nurses, pursuant to K.S.A. 65-1113 and amendments thereto.

(d) The employee records and agency staff records shall contain the following documentation:

(1) Evidence of licensure, registration, certification, or a certificate of successful completion of a training course for each employee performing a function that requires specialized education or training;

(2) supporting documentation for criminal background checks of facility staff and contract staff, excluding any staff licensed or registered by a state agency, pursuant to K.S.A. 39-970 and amendments thereto;

(3) supporting documentation from the Kansas nurse aide registry that the individual does not have a finding of having abused, neglected, or exploited a resident in an adult care home; and

(4) supporting documentation that the individual does not have a finding of having abused, neglected, or exploited any resident in an adult care home, from the nurse aide registry in each state in which the individual has been known to have worked as a certified nurse aide. (Authorized by K.S.A. 39-932 and K.S.A. 2008 Supp. 39-936; implementing K.S.A. 39-932, K.S.A. 2008 Supp. 39-936, and K.S.A. 2008 Supp. 39-970; effective May 29, 2009.)

26-41-103. Staff development. (a) The administrator or operator of each assisted living facility or residential health care facility shall ensure the provision of orientation to new employees and regular in-service education for all employees to ensure that the services provided assist residents to attain and maintain their individuality, autonomy, dignity, independence, and ability to make choices in a home environment.

(b) The topics for orientation and in-service education shall include the following:

- (1) Principles of assisted living;
- (2) fire prevention and safety;
- (3) disaster procedures;
- (4) accident prevention;
- (5) resident rights;
- (6) infection control; and
- (7) prevention of abuse, neglect, and exploitation of residents.

(c) If the facility admits residents with dementia, the administrator or operator shall ensure the provision of staff orientation and in-service educa-

tion on the treatment and appropriate response to persons who exhibit behaviors associated with dementia. (Authorized by and implementing K.S.A. 39-932; effective May 29, 2009.)

26-41-104. Disaster and emergency preparedness. (a) The administrator or operator of each assisted living facility or residential health care facility shall ensure the provision of a sufficient number of staff members to take residents who would require assistance in an emergency or disaster to a secure location.

(b) Each administrator or operator shall ensure the development of a detailed written emergency management plan to manage potential emergencies and disasters, including the following:

- (1) Fire;
- (2) flood;
- (3) severe weather;
- (4) tornado;
- (5) explosion;
- (6) natural gas leak;
- (7) lack of electrical or water service;
- (8) missing residents; and
- (9) any other potential emergency situations.

(c) Each administrator or operator shall ensure the establishment of written agreements that will provide for the following if an emergency or disaster occurs:

- (1) Fresh water;
- (2) evacuation site; and
- (3) transportation of residents to an evacuation site.

(d) Each administrator or operator shall ensure disaster and emergency preparedness by ensuring the performance of the following:

(1) Orientation of new employees at the time of employment to the facility's emergency management plan;

(2) education of each resident upon admission to the facility regarding emergency procedures;

(3) quarterly review of the facility's emergency management plan with employees and residents; and

(4) an emergency drill, which shall be conducted at least annually with staff and residents. This drill shall include evacuation of the residents to a secure location.

(e) Each administrator or operator shall make the emergency management plan available to the staff, residents, and visitors. (Authorized by and implementing K.S.A. 39-932; effective May 29, 2009.)

26-41-105. Resident records. (a) The administrator or operator of each assisted living facility or residential health care facility shall ensure the maintenance of a record for each resident in accordance with accepted professional standards and practices.

(1) Designated staff shall maintain the record of each discharged resident who is 18 years of age or older for at least five years after the discharge of the resident.

(2) Designated staff shall maintain the record of each discharged resident who is less than 18 years of age for at least five years after the resident reaches 18 years of age or at least five years after the date of discharge, whichever time period is longer.

(b) Each administrator or operator shall ensure that all information in each resident's record, regardless of the form or storage method for the record, is kept confidential, unless release is required by any of the following:

- (1) Transfer of the resident to another health care facility;
- (2) law;
- (3) third-party payment contract; or
- (4) the resident or legal representative of the resident.

(c) Each administrator or operator shall ensure the safeguarding of resident records against the following:

- (1) Loss;
- (2) destruction;
- (3) fire;
- (4) theft; and
- (5) unauthorized use.

(d) Each administrator or operator shall ensure the accuracy and confidentiality of all resident information transmitted by means of a facsimile machine.

(e) If electronic medical records are used, each administrator or operator shall ensure the development of policies addressing the following requirements:

(1) Protection of electronic medical records, including entries by only authorized users;

(2) safeguarding of electronic medical records against unauthorized alteration, loss, destruction, and use;

(3) prevention of the unauthorized use of electronic signatures;

(4) confidentiality of electronic medical records; and

(5) preservation of electronic medical records.

(f) Each resident record shall contain at least the following:

- (1) The resident's name;
- (2) the dates of admission and discharge;
- (3) the admission agreement and any amendments;
- (4) the functional capacity screenings;
- (5) the health care service plan, if applicable;
- (6) the negotiated service agreement and any revisions;
- (7) the name, address, and telephone number of the physician and the dentist to be notified in an emergency;
- (8) the name, address, and telephone number of the legal representative or the individual of the resident's choice to be notified in the event of a significant change in condition;
- (9) the name, address, and telephone number of the case manager, if applicable;
- (10) records of medications, biologicals, and treatments administered and each medical care provider's order if the facility is managing the resident's medications and medical treatments; and
- (11) documentation of all incidents, symptoms, and other indications of illness or injury including the date, time of occurrence, action taken, and results of the action. (Authorized by and implementing K.S.A. 39-932; effective May 29, 2009.)

26-41-106. Community governance. (a) The administrator or operator of each assisted living facility or residential health care facility shall ensure the facilitation of the organization of at least one resident council, each of which shall meet at least quarterly to provide residents with a forum to provide input into community governance.

(b) Each administrator or operator shall ensure the accommodation of the council process by providing space for the meetings, posting notices of the meetings, and assisting residents who wish to attend the meetings.

(c) In order to permit a free exchange of ideas and concerns, each administrator or operator shall ensure that all meetings are conducted without the presence of facility staff, unless allowed by the residents.

(d) Each administrator or operator shall respond to each written idea and concern received from the council, in writing, within 30 days after the meeting at which the written ideas and concerns were collected. The administrator or operator shall ensure that a copy of each written idea or concern and each response is available to sur-

vivors. (Authorized by and implementing K.S.A. 39-932; effective May 29, 2009.)

26-41-200. Resident criteria. (a) The administrator or operator of each assisted living facility or residential health care facility shall ensure the development and implementation of written admission, transfer, and discharge policies that protect the rights of each resident, pursuant to K.A.R. 26-39-102. In addition, the administrator or operator shall ensure that any resident who has one or more of the following conditions is not admitted or retained unless the negotiated service agreement includes services sufficient to meet the needs of the resident:

(1) Incontinence, if the resident cannot or will not participate in management of the problem;

(2) immobility, if the resident is totally dependent on another person's assistance to exit the building;

(3) any ongoing condition requiring two or more persons to physically assist the resident;

(4) any ongoing, skilled nursing intervention needed 24 hours a day; or

(5) any behavioral symptom that exceeds manageability.

(b) Each administrator or operator shall ensure that any resident whose clinical condition requires the use of physical restraints is not admitted or retained. (Authorized by and implementing K.S.A. 39-932; effective May 29, 2009.)

26-41-201. Resident functional capacity screening. (a) On or before each individual's admission to an assisted living facility or residential health care facility, a licensed nurse, a licensed social worker, or the administrator or operator shall conduct a screening to determine the individual's functional capacity and shall record all findings on a screening form specified by the department. The administrator or operator may integrate the department's screening form into a form developed by the facility, which shall include each element and definition specified by the department.

(b) A licensed nurse shall assess any resident whose functional capacity screening indicates the need for health care services.

(c) Designated facility staff shall conduct a screening to determine each resident's functional capacity according to the following requirements:

(1) At least once every 365 days;

(2) following any significant change in condition as defined in K.A.R. 26-39-100; and

(3) at least quarterly if the resident receives assistance with eating from a paid nutrition assistant.

(d) Designated facility staff shall ensure that each resident's functional capacity at the time of screening is accurately reflected on that resident's screening form.

(e) Designated facility staff shall use the results of the functional capacity screening as a basis for determining the services to be included in the resident's negotiated service agreement. (Authorized by and implementing K.S.A. 39-932; effective May 29, 2009.)

26-41-202. Negotiated service agreement. (a) The administrator or operator of each assisted living facility or residential health care facility shall ensure the development of a written negotiated service agreement for each resident, based on the resident's functional capacity screening, service needs, and preferences, in collaboration with the resident or the resident's legal representative, the case manager, and, if agreed to by the resident or the resident's legal representative, the resident's family. The negotiated service agreement shall provide the following information:

(1) A description of the services the resident will receive;

(2) identification of the provider of each service; and

(3) identification of each party responsible for payment if outside resources provide a service.

(b) The negotiated service agreement shall promote the dignity, privacy, choice, individuality, and autonomy of the resident.

(c) Each administrator or operator shall ensure the development of an initial negotiated service agreement at admission.

(d) Each administrator or operator shall ensure the review and, if necessary, revision of each negotiated service agreement according to the following requirements:

(1) At least once every 365 days;

(2) following any significant change in condition, as defined in K.A.R. 26-39-100;

(3) at least quarterly, if the resident receives assistance with eating from a paid nutrition assistant; and

(4) if requested by the resident or the resident's legal representative, facility staff, the case manager, or, if agreed to by the resident or the resident's legal representative, the resident's family.

(e) A licensed nurse shall participate in the development, review, and revision of the negotiat-

ed service agreement if the resident's functional capacity screening indicates the need for health care services.

(f) If a resident or the resident's legal representative refuses a service that the administrator or operator, the licensed nurse, the resident's medical care provider, or the case manager believes is necessary for the resident's health and safety, the negotiated service agreement shall include the following:

(1) The service or services refused;

(2) identification of any potential negative outcomes for the resident if the service or services are not provided;

(3) evidence of the provision of education to the resident or the resident's legal representative of the potential risk of any negative outcomes if the service or services are not provided; and

(4) an indication of acceptance by the resident or the resident's legal representative of the potential risk.

(g) The negotiated service agreement shall not include circumstances in which the lack of a service has the potential to affect the health and safety of other residents, facility staff, or the public.

(h) Each individual involved in the development of the negotiated service agreement shall sign the agreement. The administrator or operator shall ensure that a copy of the initial agreement and any subsequent revisions are provided to the resident or the resident's legal representative.

(i) Each administrator or operator shall ensure that each resident receives services according to the provisions of that resident's negotiated service agreement.

(j) If a resident's negotiated service agreement includes the use of outside resources, the designated facility staff shall perform the following:

(1) Provide the resident, the resident's legal representative, the case manager, and, if agreed to by the resident or the resident's legal representative, the resident's family, with a list of providers available to provide needed services;

(2) assist the resident, if requested, in contacting outside resources for services; and

(3) monitor the services provided by outside resources and act as an advocate for the resident if services do not meet professional standards of practice. (Authorized by and implementing K.S.A. 39-932; effective May 29, 2009.)

26-41-203. General services. (a) Range of services. The administrator or operator of each

assisted living facility or residential health care facility shall ensure the provision or coordination of the range of services specified in each resident's negotiated service agreement. The range of services may include the following:

(1) Daily meal service based on each resident's needs;

(2) health care services based on an assessment by a licensed nurse and in accordance with K.A.R. 26-41-204;

(3) housekeeping services essential for the health, comfort, and safety of each resident;

(4) medical, dental, and social transportation;

(5) planned group and individual activities that meet the needs and interests of each resident; and

(6) other services necessary to support the health and safety of each resident.

(b) Adult day care services. Any administrator or operator of an assisted living facility or residential health care facility may provide adult day care services to any individual who meets the facility's admission and retention criteria and receives services less than 24 hours a day if the administrator or operator ensures that all of the following conditions are met:

(1) Written policies are developed and procedures are implemented for the provision of adult day care services.

(2) All the requirements for admission of a resident to an assisted living facility or residential health care facility are met for an individual admitted for adult day care services.

(3) At least 60 square feet of common use living, dining, and activity space is available in the facility for each resident of the facility and each resident receiving adult day care services.

(4) The provision of adult day care services does not adversely affect the care and services offered to other residents of the facility.

(c) Respite care services. Any administrator or operator of an assisted living facility or residential health care facility may provide respite care services to individuals who meet the facility's admission and retention criteria on a short-term basis if the administrator or operator ensures that the following conditions are met:

(1) Written policies are developed and procedures are implemented for the provision of respite care services.

(2) All the requirements for admission of a resident to an assisted living facility or residential health care facility are met for an individual admitted for respite care services.

(d) Special care. Any administrator or operator of an assisted living facility or residential health care facility may choose to serve residents who do not exceed the facility's admission and retention criteria and who have special needs in a special care section of the facility or the entire facility, if the administrator or operator ensures that all of the following conditions are met:

(1) Written policies and procedures are developed and are implemented for the operation of the special care section or facility.

(2) Admission and discharge criteria are in effect that identify the diagnosis, behavior, or specific clinical needs of the residents to be served. The medical diagnosis, medical care provider's progress notes, or both shall justify admission to the special care section or the facility.

(3) A written order from a medical care provider is obtained for admission.

(4) The functional capacity screening indicates that the resident would benefit from the services and programs offered by the special care section or facility.

(5) Before the resident's admission to the special care section or facility, the resident or resident's legal representative is informed, in writing, of the available services and programs that are specific to the needs of the resident.

(6) Direct care staff are present in the special care section or facility at all times.

(7) Before assignment to the special care section or facility, each staff member is provided with a training program related to specific needs of the residents to be served, and evidence of completion of the training is maintained in the employee's personnel records.

(8) Living, dining, activity, and recreational areas are provided within the special care section, except when residents are able to access living, dining, activity, and recreational areas in another section of the facility.

(9) The control of exits in the special care section is the least restrictive possible for the residents in that section.

(e) Maintenance. Designated staff shall provide routine maintenance, including the control of pests and rodents, and repairs in each resident's bedroom and common areas inside and outside the facility as specified in the admission agreement.

(f) Services not provided. If an administrator or operator of an assisted living facility or residential health care facility chooses not to provide or

coordinate any service as specified in subsection (a), the administrator or operator shall notify the resident, in writing, on or before the resident's admission to the facility. (Authorized by and implementing K.S.A. 39-932; effective May 29, 2009.)

26-41-204. Health care services. (a) The administrator or operator in each assisted living facility or residential health care facility shall ensure that a licensed nurse provides or coordinates the provision of necessary health care services that meet the needs of each resident and are in accordance with the functional capacity screening and the negotiated service agreement.

(b) If the functional capacity screening indicates that a resident is in need of health care services, a licensed nurse, in collaboration with the resident, the resident's legal representative, the case manager, and, if agreed to by the resident or resident's legal representative, the resident's family, shall develop a health care service plan to be included as part of the negotiated service agreement.

(c) The health care services provided by or coordinated by a licensed nurse may include the following:

(1) Personal care provided by direct care staff or by certified or licensed nursing staff employed by a home health agency or a hospice;

(2) personal care provided gratuitously by friends or family members; and

(3) supervised nursing care provided by, or under the guidance of, a licensed nurse.

(d) The negotiated service agreement shall contain a description of the health care services to be provided and the name of the licensed nurse responsible for the implementation and supervision of the plan.

(e) A licensed nurse may delegate nursing procedures not included in the nurse aide or medication aide curriculums to nurse aides or medication aides, respectively, under the Kansas nurse practice act, K.S.A. 65-1124 and amendments thereto.

(f) Each administrator or operator shall ensure that a licensed nurse is available to provide immediate direction to medication aides and nurse aides for residents who have unscheduled needs.

(g) Skilled nursing care shall be provided in accordance with K.S.A. 39-923 and amendments thereto.

(1) The health care service plan shall include the skilled nursing care to be provided and the name of the licensed nurse or agency responsible for providing each service.

(2) The licensed nurse providing the skilled nursing care shall document the service and the outcome of the service in the resident's record.

(3) A medical care provider's order for skilled nursing care shall be documented in the resident's record in the facility. A copy of the medical care provider's order from a home health agency or hospice may be used. Medical care provider orders in the clinical records of a home health agency located in the same building as the facility may also be used if the clinical records are available to licensed nurses and direct care staff of the facility.

(4) The administrator or operator shall ensure that a licensed nurse is available to meet each resident's unscheduled needs related to skilled nursing services.

(h) A licensed nurse may provide wellness and health monitoring as specified in the resident's negotiated service agreement.

(i) All health care services shall be provided to residents by qualified staff in accordance with acceptable standards of practice. (Authorized by and implementing K.S.A. 39-932; effective May 29, 2009.)

26-41-205. Medication management. (a) Self-administration of medication. Any resident may self-administer and manage medications independently or by using a medication container or syringe prefilled by a licensed nurse or pharmacist or by a family member or friend providing this service gratuitously, if a licensed nurse has performed an assessment and determined that the resident can perform this function safely and accurately without staff assistance.

(1) An assessment shall be completed before the resident initially begins self-administration of medication, if the resident experiences a significant change of condition, and annually.

(2) Each assessment shall include an evaluation of the resident's physical, cognitive, and functional ability to safely and accurately self-administer and manage medications independently or by using a prefilled medication container or prefilled syringe.

(3) The resident's clinical record shall contain documentation of the assessment and the determination.

(4) If a resident self-administers medication with a prefilled medication container or syringe, the prefilled medication container or syringe shall have a label with the resident's name and the date the container or syringe was prefilled. The label, or a medication administration record provided to

the resident, shall also include the name and dosage of each medication and the time or event at which the medication is to be self-administered. Facility staff may remind residents to take medications or inquire as to whether medications were taken.

(b) Administration of select medications. Any resident who self-administers medication may select some medications to be administered by a licensed nurse or medication aide. The negotiated service agreement shall reflect this service and identify who is responsible for the administration and management of selected medications.

(c) Administration of medication by family or friends. Any resident may choose to have personal medication administered by family members or friends gratuitously, pursuant to K.S.A. 65-1124 and amendments thereto.

(d) Facility administration of resident's medications. If a facility is responsible for the administration of a resident's medications, the administrator or operator shall ensure that all medications and biologicals are administered to that resident in accordance with a medical care provider's written order, professional standards of practice, and each manufacturer's recommendations. The administrator or operator shall ensure that all of the following are met:

(1) Only licensed nurses and medication aides shall administer and manage medications for which the facility has responsibility.

(2) Medication aides shall not administer medication through the parenteral route.

(3) A licensed nurse or medication aide shall perform the following:

(A) Administer only the medication that the licensed nurse or medication aide has personally prepared;

(B) identify the resident before medication is administered;

(C) remain with the resident until the medication is ingested or applied; and

(D) document the administration of each resident's medication in the resident's medication administration record immediately before or following completion of the task. If the medication administration record identifies only time intervals or events for the administration of medication, the licensed nurse or medication aide shall document the actual clock time the medication is administered.

(4) Any licensed nurse may delegate nursing procedures not included in the medication aide

curriculum to medication aides under the Kansas nurse practice act, K.S.A. 65-1124 and amendments thereto.

(e) Medication orders. Only a licensed nurse or a licensed pharmacist may receive verbal orders for medication from a medical care provider. The licensed nurse shall ensure that all verbal orders are signed by the medical care provider within seven working days of receipt of the verbal order.

(f) Standing orders. Only a licensed nurse shall make the decision for implementation of standing orders for specified medications and treatments formulated and signed by the resident's medical care provider. Standing orders of medications shall not include orders for the administration of schedule II medications or psychopharmacological medications.

(g) Ordering, labeling, and identifying. All medications and biologicals administered by licensed nurses or medication aides shall be ordered from a pharmacy pursuant to a medical care provider's written order.

(1) Any resident who self-administers and manages personal medications may request that a licensed nurse or medication aide reorder the resident's medication from a pharmacy of the resident's choice.

(2) Each prescription medication container shall have a label that was provided by a dispensing pharmacist or affixed to the container by a dispensing pharmacist in accordance with K.A.R. 68-7-14.

(3) A licensed nurse or medication aide may accept over-the-counter medication only in its original, unbroken manufacturer's package. A licensed pharmacist or licensed nurse shall place the full name of the resident on the package. If the original manufacturer's package of an over-the-counter medication contains a medication in a container, bottle, or tube that can be removed from the original package, the licensed pharmacist or a licensed nurse shall place the full name of the resident on both the original manufacturer's medication package and the medication container.

(4) Licensed nurses and medication aides may administer sample medications and medications from indigent medication programs if the administrator or operator ensures the development of policies and implementation of procedures for receiving and identifying sample medications and medications from indigent medication programs that include all of the following conditions:

(A) The medication is not a controlled medication.

(B) A medical care provider's written order accompanies the medication, stating the resident's name; the medication name, strength, dosage, route, and frequency of administration; and any cautionary instructions regarding administration.

(C) A licensed nurse or medication aide receives the medication in its original, unbroken manufacturer's package.

(D) A licensed nurse documents receipt of the medication by entering the resident's name and the medication name, strength, and quantity into a log.

(E) A licensed nurse places identification information on the medication or package containing the medication that includes the medical care provider's name; the resident's name; the medication name, strength, dosage, route, and frequency of administration; and any cautionary instructions as documented on the medical care provider's order. Facility staff consisting of either two licensed nurses or a licensed nurse and a medication aide shall verify that the information on the medication matches the information on the medical care provider's order.

(F) A licensed nurse informs the resident or the resident's legal representative that the medication did not go through the usual process of labeling and initial review by a licensed pharmacist pursuant to K.S.A. 65-1642 and amendments thereto, which requires the identification of both adverse drug interactions or reactions and potential allergies. The resident's clinical record shall contain documentation that the resident or the resident's legal representative has received the information and accepted the risk of potential adverse consequences.

(h) Storage. Licensed nurses and medication aides shall ensure that all medications and biologicals are securely and properly stored in accordance with each manufacturer's recommendations or those of the pharmacy provider and with federal and state laws and regulations.

(1) Licensed nurses or medication aides shall store non-controlled medications and biologicals managed by the facility in a locked medication room, cabinet, or medication cart. Licensed nurses and medication aides shall store controlled medications managed by the facility in separately locked compartments within a locked medication room, cabinet, or medication cart. Only licensed nurses and medication aides shall have access to the stored medications and biologicals.

(2) Each resident managing and self-administering medication shall store medications

in a place that is accessible only to the resident, licensed nurses, and medication aides.

(3) Any resident who self-administers medication and is unable to provide proper storage as recommended by the manufacturer or pharmacy provider may request that the medication be stored by the facility.

(4) A licensed nurse or medication aide shall not administer medication beyond the manufacturer's or pharmacy provider's recommended date of expiration.

(i) Accountability and disposition of medications. Licensed nurses and medication aides shall maintain records of the receipt and disposition of all medications managed by the facility in sufficient detail for an accurate reconciliation.

(1) Records shall be maintained documenting the destruction of any deteriorated, outdated, or discontinued controlled medications and biologicals according to acceptable standards of practice by one of the following combinations:

(A) Two licensed nurses; or

(B) a licensed nurse and a licensed pharmacist.

(2) Records shall be maintained documenting the destruction of any deteriorated, outdated, or discontinued non-controlled medications and biologicals according to acceptable standards of practice by any of the following combinations:

(A) Two licensed nurses;

(B) a licensed nurse and a medication aide;

(C) a licensed nurse and a licensed pharmacist; or

(D) a medication aide and a licensed pharmacist.

(j) Medications sent for short-term absence. A licensed nurse or medication aide shall provide the resident's medication to the resident or the designated responsible party for the resident's short-term absences from the facility, upon request.

(k) Clinical record. The administrator or operator, or the designee, shall ensure that the clinical record of each resident for whom the facility manages medication or prefills medication containers or syringes contains the following documentation:

(1) A medical care provider's order for each medication;

(2) the name of the pharmacy provider of the resident's choice;

(3) any known medication allergies; and

(4) the date and the 12-hour or 24-hour clock time any medication is administered to the resident.

(l) Medication regimen review. A licensed pharmacist shall conduct a medication regimen review at least quarterly for each resident whose medication is managed by the facility and each time the resident experiences any significant change in condition.

(1) The medication regimen review shall identify any potential or current medication-related problems, including the following:

(A) Lack of clinical indication for use of medication;

(B) the use of a subtherapeutic dose of any medication;

(C) failure of the resident to receive an ordered medication;

(D) medications administered in excessive dosage, including duplicate therapy;

(E) medications administered in excessive duration;

(F) adverse medication reactions;

(G) medication interactions; and

(H) lack of adequate monitoring.

(2) The licensed pharmacist or licensed nurse shall notify the medical care provider upon discovery of any variance identified in the medication regimen review that requires immediate action by the medical care provider. The licensed pharmacist shall notify a licensed nurse within 48 hours of any variance identified in the resident's regimen review that does not require immediate action by the medical care provider and specify a time within which the licensed nurse must notify the resident's medical care provider. The licensed nurse shall seek a response from the medical care provider within five working days of the medical care provider's notification of a variance.

(3) The administrator or operator, or the designee, shall ensure that the medication regimen review is kept in each resident's clinical record.

(4) The administrator or operator, or the designee, shall offer each resident who self-administers medication a medication regimen review to be conducted by a licensed pharmacist at least quarterly and each time a resident experiences a significant change in condition. A licensed nurse shall document the resident's decision in the resident's clinical record. (Authorized by and implementing K.S.A. 39-932; effective May 29, 2009.)

26-41-206. Dietary services. (a) Provision of dietary services. The administrator or operator of each assisted living facility or residential health care facility shall ensure the provision or coordina-

tion of dietary services to residents as identified in each resident's negotiated service agreement. If the administrator or operator of the facility establishes a contract with another entity to provide or coordinate the provision of dietary services to the residents, the administrator or operator shall ensure that entity's compliance with these regulations.

(b) Staff. The supervisory responsibility for dietetic services shall be assigned to one employee.

(1) A dietetic services supervisor or licensed dietitian shall provide scheduled on-site supervision in each facility with 11 or more residents.

(2) If a resident's negotiated service agreement includes the provision of a therapeutic diet, mechanically altered diet, or thickened consistency of liquids, a medical care provider's order shall be on file in the resident's clinical record, and the diet or liquids, or both, shall be prepared according to instructions from a medical care provider or licensed dietitian.

(c) Menus. A dietetic services supervisor or licensed dietitian or, in any assisted living facility or residential health care facility with fewer than 11 residents, designated facility staff shall plan menus in advance and in accordance with the dietary guidelines adopted by reference in K.A.R. 26-39-105.

(1) Menu plans shall be available to each resident on at least a weekly basis.

(2) A method shall be established to incorporate input by residents in the selection of food to be served and scheduling of meal service.

(d) Food preparation. Food shall be prepared using safe methods that conserve the nutritive value, flavor, and appearance and shall be served at the proper temperature.

(1) Food used by facility staff to serve to the residents, including donated food, shall meet all applicable federal, state, and local laws and regulations.

(2) Food in cans that have significant defects, including swelling, leakage, punctures, holes, fractures, pitted rust, or denting severe enough to prevent normal stacking or opening with a manual, wheel-type can opener, shall not be used.

(3) Food provided by a resident's family or friends for individual residents shall not be required to meet federal, state, and local laws and regulations.

(e) Food storage. Facility staff shall store all food under safe and sanitary conditions.

(1) Containers of poisonous compounds and cleaning supplies shall not be stored in the areas used for food storage, preparation, or serving.

(2) Any resident may obtain, prepare, and store food in the resident's apartment or individual living unit if doing so does not present a health or safety hazard to that resident or any other individual. The administrator or operator shall ensure that residents are provided assistance with obtaining food if that service is included in the negotiated service agreement. (Authorized by and implementing K.S.A. 39-932; effective May 29, 2009.)

26-41-207. Infection control. (a) The administrator or operator of each assisted living facility or residential health care facility shall ensure the provision of a safe, sanitary, and comfortable environment for residents.

(b) Each administrator or operator shall ensure the development of policies and implementation of procedures to prevent the spread of infections. These policies and procedures shall include the following requirements:

(1) Using universal precautions to prevent the spread of blood-borne pathogens;

(2) techniques to ensure that hand hygiene meets professional health care standards;

(3) techniques to ensure that the laundering and handling of soiled and clean linens meet professional health care standards;

(4) providing sanitary conditions for food service;

(5) prohibiting any employee with a communicable disease or any infected skin lesions from coming in direct contact with any resident, any resident's food, or resident care equipment until the condition is no longer infectious;

(6) providing orientation to new employees and employee in-service education at least annually on the control of infections in a health care setting; and

(7) transferring a resident with an infectious disease to an appropriate health care facility if the administrator or operator is unable to provide the isolation precautions necessary to protect the health of other residents.

(c) Each administrator or operator shall ensure the facility's compliance with the department's tuberculosis guidelines for adult care homes adopted by reference in K.A.R. 26-39-105. (Authorized by and implementing K.S.A. 39-932; effective May 29, 2009.)

Article 42.—HOMES PLUS

26-42-101. Administration. (a) Administrator and operator responsibilities. The administrator or operator of each home plus ("home") shall ensure that the home is operated in a manner

so that each resident receives care and services in accordance with each resident's functional capacity screening and negotiated service agreement.

(b) Administrator and operator criteria. Each licensee shall appoint an administrator or operator who meets the following criteria:

(1) Is at least 21 years of age;

(2) possesses a high school diploma or the equivalent;

(3) holds a Kansas license as an adult care home administrator or has successfully completed an operator training course and passed the test approved by the secretary of Kansas department of health and environment pursuant to K.S.A. 39-923 and amendments thereto; and

(4) has authority and responsibility for the operation of the home and compliance with licensing requirements.

(c) Administrator and operator position description. Each licensee shall adopt a written position description for the administrator or operator that includes responsibilities for the following:

(1) Planning, organizing, and directing the home;

(2) implementing operational policies and procedures for the home; and

(3) authorizing, in writing, a responsible employee who is 18 years old or older to act on the administrator's or operator's behalf in the absence of the administrator or operator.

(d) Resident rights. Each administrator or operator shall ensure the development and implementation of written policies and procedures that incorporate the principles of individuality, autonomy, dignity, choice, privacy, and a home environment for each resident. The following provisions shall be included in the policies and procedures:

(1) The recognition of each resident's rights, responsibilities, needs, and preferences;

(2) the freedom of each resident or the resident's legal representative to select or refuse a service and to accept responsibility for the consequences;

(3) the development and maintenance of social ties for each resident by providing opportunities for meaningful interaction and involvement within the home and the community;

(4) furnishing and decorating each resident's personal space;

(5) the recognition of each resident's personal space as private and the sharing of a bedroom only when agreed to by the resident;

(6) the maintenance of each resident's lifestyle

if there are not adverse effects on the rights and safety of other residents; and

(7) the resolution of grievances through a specific process that includes a written response to each written grievance within 30 days.

(e) Resident liability. Each resident shall be liable only for the charges disclosed to the resident or the resident's legal representative and documented in a signed agreement at admission and in accordance with K.A.R. 26-39-103.

(1) A resident who is involuntarily discharged, including discharge due to death, shall not be responsible for the following:

(A) Fees for room and board beyond the date established in the signed contractual agreement or the date of actual discharge if an appropriate discharge notice has been given to the resident or the resident's legal representative in accordance with K.A.R. 26-39-102; and

(B) fees for any services specified in the negotiated services agreement after the date the resident has vacated the facility and no longer receives these services.

(2) A resident who is voluntarily discharged shall not be responsible for the following:

(A) Fees for room and board accrued beyond the end of the 30-day period following the home's receipt of a written notice of voluntary discharge submitted by the resident or resident's legal representative or the date of actual discharge if this date extends beyond the 30-day period; and

(B) fees for any services specified in the negotiated service agreement after the date the resident has vacated the home and no longer receives these services.

(f) Staff treatment of residents. Each administrator or operator shall ensure the development and implementation of written policies and procedures that prohibit the abuse, neglect, and exploitation of residents by staff. The administrator or operator shall ensure that all of the following requirements are met:

(1) No resident shall be subjected to any of the following:

(A) Verbal, mental, sexual, or physical abuse, including corporal punishment and involuntary seclusion;

(B) neglect; or

(C) exploitation.

(2) The home shall not employ any individual who has been identified on a state nurse aide registry as having abused, neglected, or exploited any resident in an adult care home.

(3) Each allegation of abuse, neglect, or exploitation shall be reported to the administrator or operator of the home as soon as staff is aware of the allegation and to the department within 24 hours. The administrator or operator shall ensure that all of the following requirements are met:

(A) An investigation shall be started when the administrator or operator, or the designee, receives notification of an alleged violation.

(B) Immediate measures shall be taken to prevent further potential abuse, neglect, or exploitation while the investigation is in progress.

(C) Each alleged violation shall be thoroughly investigated within five working days of the initial report. Results of the investigation shall be reported to the administrator or operator.

(D) Appropriate corrective action shall be taken if the alleged violation is verified.

(E) The department's complaint investigation report shall be completed and submitted to the department within five working days of the initial report.

(F) A written record shall be maintained of each investigation of reported abuse, neglect, or exploitation.

(g) Availability of policies and procedures. Each administrator or operator shall ensure that policies and procedures related to resident services are available to staff at all times and are available to each resident, legal representatives of residents, case managers, and families during normal business hours. A notice of availability shall be posted in a place readily accessible to residents.

(h) Power of attorney, guardianship, and conservatorship. Authority as a power of attorney, durable power of attorney for health care decisions, guardian, or conservator shall not be exercised by anyone employed by or having a financial interest in the home, unless the person is related to the resident within the second degree.

(i) Reports. Each administrator or operator shall ensure the accurate completion and electronic submission of annual and semiannual statistical reports regarding residents, employees, and home occupancy to the department no later than 20 days following the last day of the period being reported. The administrator or operator shall ensure the submission of any other reports required by the department.

(j) Emergency telephone. Each administrator or operator shall ensure that the residents and employees have access to a telephone for emergency use at no cost. Each administrator or

operator shall ensure that the names and telephone numbers of persons or places commonly required in emergencies are posted adjacent to this telephone.

(k) Ombudsman. Each administrator or operator shall ensure the posting of the names, addresses, and telephone numbers of the Kansas department on aging and the office of the long-term care ombudsman with information that these agencies can be contacted to report actual or potential abuse, neglect, or exploitation of residents or to register complaints concerning the operation of the home. The administrator or operator shall ensure that this information is posted in a common area accessible to all residents and the public.

(l) Survey report and plan of correction. Each administrator or operator shall ensure that a copy of the most recent survey report and plan of correction is available in a common area to residents and any other individuals wishing to examine survey results. (Authorized by and implementing K.S.A. 39-932; effective May 29, 2009.)

26-42-102. Staff qualifications. (a) The administrator or operator of each home plus shall ensure the provision of a sufficient number of qualified personnel to provide each resident with services and care in accordance with that resident's functional capacity screening, health care service plan, and negotiated service agreement.

(b) Direct care staff or licensed nursing staff shall be in attendance and responsive at all times.

(c) A registered professional nurse shall be available to provide supervision to licensed practical nurses, pursuant to K.S.A. 65-1113 and amendments thereto.

(d) The employee records and agency staff records shall contain the following information:

(1) Evidence of licensure, registration, certification, or a certificate of successful completion of a training course for each employee performing a function that requires specialized education or training;

(2) supporting documentation for criminal background checks of facility staff and contract staff, excluding any staff licensed or registered by a state agency, pursuant to K.S.A. 39-970 and amendments thereto;

(3) supporting documentation from the Kansas nurse aide registry that the individual does not have a finding of having abused, neglected, or exploited a resident in an adult care home; and

(4) supporting documentation that the individual does not have a finding of having abused, neglected, or exploited any resident in an adult care home, from the nurse aide registry in each state in which the individual has been known to work as a certified nurse aide. (Authorized by K.S.A. 39-932 and K.S.A. 2007 Supp. 39-936; implementing K.S.A. 39-932, K.S.A. 2007 Supp. 39-936, and K.S.A. 2007 Supp. 39-970; effective May 29, 2009.)

26-42-103. Staff development. (a) The administrator or operator of each home plus shall ensure the provision of orientation to new employees and regular in-service education for all employees to ensure that the services provided assist residents to attain and maintain their individuality, autonomy, dignity, independence, and ability to make choices in a home environment.

(b) The topics for orientation and in-service education shall include the following:

- (1) Fire prevention and safety;
- (2) disaster procedures;
- (3) accident prevention;
- (4) resident rights;
- (5) infection control; and
- (6) prevention of abuse, neglect, and exploitation of residents.

(c) If the home plus admits residents with dementia, the administrator or operator shall ensure the provision of staff education, at orientation and at least annually thereafter, on the treatment and appropriate response to persons who exhibit behaviors associated with dementia. (Authorized by and implementing K.S.A. 39-932; effective Oct. 14, 2011.)

26-42-104. Disaster and emergency preparedness. (a) The administrator or operator of each home plus shall ensure the provision of a sufficient number of staff members to take residents who would require assistance in an emergency or disaster to a secure location.

(b) Each administrator or operator shall ensure the development of a detailed written emergency management plan to manage potential emergencies and disasters, including the following:

- (1) Fire;
- (2) flood;
- (3) severe weather;
- (4) tornado;
- (5) explosion;
- (6) natural gas leak;
- (7) lack of electrical or water service;

- (8) missing residents; and
- (9) any other potential emergency situations.

(c) Each administrator or operator shall ensure the establishment of written agreements that will provide for the following if an emergency or disaster occurs:

- (1) Fresh water;
- (2) evacuation site; and
- (3) transportation of residents to an evacuation site.

(d) Each administrator or operator shall ensure disaster and emergency preparedness by ensuring the performance of the following:

(1) Orientation of new employees at the time of employment to the home's emergency management plan;

(2) education of each resident upon admission to the home regarding emergency procedures;

(3) quarterly review of the home's emergency management plan with employees and residents; and

(4) an emergency drill, which shall be conducted at least annually with staff and residents. This drill shall include evacuation of the residents to a secure location.

(e) Each administrator or operator shall make the emergency management plan available to the staff, residents, and visitors. (Authorized by and implementing K.S.A. 39-932; effective May 29, 2009.)

26-42-105. Resident records. (a) The administrator or operator of each home plus shall ensure the maintenance of a record for each resident in accordance with accepted professional standards and practices.

(1) Designated staff shall maintain the record of each discharged resident who is 18 years of age or older for at least five years after the discharge of the resident.

(2) Designated staff shall maintain the record of each discharged resident who is less than 18 years of age for at least five years after the resident reaches 18 years of age or at least five years after the date of discharge, whichever time period is longer.

(b) Each administrator or operator shall ensure that all information in each resident's record, regardless of the form or storage method for the record, is kept confidential, unless release is required by any of the following:

(1) Transfer of the resident to another health care facility;

(2) law;

(3) third-party payment contract; or

(4) the resident or legal representative of the resident.

(c) Each administrator or operator shall ensure the safeguarding of resident records against the following:

(1) Loss;

(2) destruction;

(3) fire;

(4) theft; and

(5) unauthorized use.

(d) Each administrator or operator shall ensure the accuracy and confidentiality of all resident information transmitted by means of a facsimile machine.

(e) If electronic medical records are used, each administrator or operator shall ensure the development of policies addressing the following requirements:

(1) Protection of electronic medical records, including entries by only authorized users;

(2) safeguarding of electronic medical records against unauthorized alteration, loss, destruction, and use;

(3) prevention of the unauthorized use of electronic signatures;

(4) confidentiality of electronic medical records; and

(5) preservation of electronic medical records.

(f) Each resident record shall contain at least the following:

(1) The resident's name;

(2) the dates of admission and discharge;

(3) the admission agreement and any amendments;

(4) the functional capacity screenings;

(5) the health care service plan, if applicable;

(6) the negotiated service agreement and any revisions;

(7) the name, address, and telephone number of the physician and the dentist to be notified in an emergency;

(8) the name, address, and telephone number of the legal representative or the individual of the resident's choice to be notified in the event of a significant change in condition;

(9) the name, address, and telephone number of the case manager, if applicable;

(10) records of medications, biologicals, and treatments administered and each medical care provider's order if the facility is managing the resident's medications and medical treatments; and

(11) documentation of all incidents, symptoms, and other indications of illness or injury including the date, time of occurrence, action taken, and results of the action. (Authorized by and implementing K.S.A. 39-932; effective May 29, 2009.)

26-42-200. Resident criteria. (a) The administrator or operator of each home plus shall ensure the development and implementation of written admission, transfer, and discharge policies that protect the rights of each resident, pursuant to K.A.R. 26-39-102. In addition, the administrator or operator shall ensure that any resident who has one or more of the following conditions is not admitted or retained unless the negotiated service agreement includes services sufficient to meet the needs of the resident:

(1) Incontinence, if the resident cannot or will not participate in management of the problem;

(2) immobility, if the resident is totally dependent on another person's assistance to exit the building;

(3) any ongoing condition requiring two or more persons to physically assist the resident;

(4) any ongoing, skilled nursing intervention needed 24 hours a day; or

(5) any behavioral symptom that exceeds manageability.

(b) Each administrator or operator shall ensure that any resident whose clinical condition requires the use of physical restraints is not admitted or retained. (Authorized by and implementing K.S.A. 39-932; effective May 29, 2009.)

26-42-201. Resident functional capacity screening. (a) On or before each individual's admission to a home plus, a licensed nurse, a licensed social worker, or the administrator or operator shall conduct a screening to determine the individual's functional capacity and shall record all findings on a screening form specified by the department. The administrator or operator may integrate the department's screening form into a form developed by the home, which shall include each element and definition specified by the department.

(b) A licensed nurse shall assess any resident whose functional capacity screening indicates the need for health care services.

(c) Designated staff shall conduct a screening to determine each resident's functional capacity according to the following requirements:

(1) At least once every 365 days;

(2) following any significant change in condition as defined in K.A.R. 26-39-100; and

(3) at least quarterly if the resident receives assistance with eating from a paid nutrition assistant.

(d) Designated staff shall ensure that each resident's functional capacity at the time of screening is accurately reflected on that resident's screening form.

(e) Designated staff shall use the results of the functional capacity screening as a basis for determining the services to be included in the resident's negotiated service agreement. (Authorized by and implementing K.S.A. 39-932; effective May 29, 2009.)

26-42-202. Negotiated service agreement.

(a) The administrator or operator of each home plus shall ensure the development of a written negotiated service agreement for each resident, based on the resident's functional capacity screening, service needs, and preferences, in collaboration with the resident or the resident's legal representative, the case manager, and, if agreed to by the resident or the resident's legal representative, the resident's family. The negotiated service agreement shall provide the following information:

(1) A description of the services the resident will receive;

(2) identification of the provider of each service; and

(3) identification of each party responsible for payment if outside resources provide a service.

(b) The negotiated service agreement shall promote the dignity, privacy, choice, individuality, and autonomy of the resident.

(c) Each administrator or operator shall ensure the development of an initial negotiated service agreement at admission.

(d) Each administrator or operator shall ensure the review and, if necessary, revision of each negotiated service agreement according to the following requirements:

(1) At least once every 365 days;

(2) following any significant change in condition, as defined in K.A.R. 26-39-100;

(3) at least quarterly if the resident receives assistance with eating from a paid nutrition assistant; and

(4) if requested by the resident or the resident's legal representative, staff, the case manager, or, if agreed to by the resident or the resident's legal representative, the resident's family.

(e) A licensed nurse shall participate in the development, review, and revision of the negotiated service agreement if the resident's functional capacity screening indicates the need for health care services.

(f) If a resident or the resident's legal representative refuses a service that the administrator or operator, the licensed nurse, the resident's medical care provider, or the case manager believes is necessary for the resident's health and safety, the negotiated service agreement shall include the following:

(1) The service or services refused;

(2) identification of any potential negative outcomes for the resident if the service or services are not provided;

(3) evidence of the provision of education to the resident or the resident's legal representative of the potential risk of any negative outcomes if the service or services are not provided; and

(4) an indication of acceptance by the resident or the resident's legal representative of the potential risk.

(g) The negotiated service agreement shall not include circumstances in which the lack of a service has the potential to affect the health and safety of other residents, staff, or the public.

(h) Each individual involved in the development of the negotiated service agreement shall sign the agreement. The administrator or operator shall ensure that a copy of the initial agreement and any subsequent revisions are provided to the resident or the resident's legal representative.

(i) Each administrator or operator shall ensure that each resident receives services according to the provisions of that resident's negotiated service agreement.

(j) If a resident's negotiated service agreement includes the use of outside resources, the designated staff shall perform the following:

(1) Provide the resident, the resident's legal representative, the case manager, and, if agreed to by the resident or resident's legal representative, the resident's family, with a list of providers available to provide needed services;

(2) assist the resident, if requested, in contacting outside resources for services; and

(3) monitor the services provided by outside resources and act as an advocate for the resident if services do not meet professional standards of practice. (Authorized by and implementing K.S.A. 39-932; effective May 29, 2009.)

26-42-203. General services. (a) Range of services. The administrator or operator of each home plus shall ensure the provision or coordination of the range of services specified in each resident's negotiated service agreement. The range of services may include the following:

(1) Daily meal service based on each resident's needs;

(2) health care services based on an assessment by a licensed nurse and in accordance with K.A.R. 26-42-204;

(3) housekeeping services essential for the health, comfort, and safety of each resident;

(4) medical, dental, and social transportation;

(5) planned group and individual activities that meet the needs and interests of each resident; and

(6) other services necessary to support the health and safety of each resident.

(b) Adult day care services. Any administrator or operator of a home plus may provide adult day care services to any individual who meets the home's admission and retention criteria and receives services less than 24 hours a day if the administrator or operator ensures that all of the following conditions are met:

(1) Written policies are developed and procedures are implemented for the provision of adult day care services.

(2) All requirements for admission of a resident to a home plus are met for an individual admitted for adult day care services.

(3) At least 60 square feet of common use living, dining, and activity space is available in the home for each resident of the home and each resident receiving adult day care services.

(4) The provision of adult day care services does not adversely affect the care and services offered to other residents of the home.

(c) Respite care services. Any administrator or operator of a home plus may provide respite care services to individuals who meet the home's admission and retention criteria on a short-term basis if the administrator or operator ensures that the following conditions are met:

(1) Written policies are developed and procedures are implemented for the provision of respite care services.

(2) All the requirements for admission of a resident to a home plus are met for an individual admitted for respite care services.

(d) Maintenance. Designated staff shall provide routine maintenance, including the control of pests and rodents, and repairs in each resident's

bedroom and common areas inside and outside the home as specified in the admission agreement.

(e) Services not provided. If the administrator or operator of a home plus chooses not to provide or coordinate any service as specified in subsection (a), the administrator or operator shall notify the resident, in writing, on or before the resident's admission to the home. (Authorized by and implementing K.S.A. 39-932; effective May 29, 2009.)

26-42-204. Health care services. (a) The administrator or operator in each home plus shall ensure that a licensed nurse provides or coordinates the provision of necessary health care services that meet the needs of each resident and are in accordance with the functional capacity screening and the negotiated service agreement.

(b) If the functional capacity screening indicates that a resident is in need of health care services, a licensed nurse, in collaboration with the resident, the resident's legal representative, the case manager, and, if agreed to by the resident or resident's legal representative, the resident's family, shall develop a health care service plan to be included as part of the negotiated service agreement.

(c) The health care services provided by or coordinated by a licensed nurse may include the following:

(1) Personal care provided by direct care staff or by certified or licensed nursing staff employed by a home health agency or a hospice;

(2) personal care provided gratuitously by friends or family members; and

(3) supervised nursing care provided by, or under the guidance of, a licensed nurse.

(d) The negotiated service agreement shall contain a description of the health care services to be provided and the name of the licensed nurse responsible for the implementation and supervision of the plan.

(e) A licensed nurse may delegate nursing procedures not included in the nurse aide or medication aide curriculums to nurse aides or medication aides, respectively, under the Kansas nurse practice act, K.S.A. 65-1124 and amendments thereto.

(f) Each administrator or operator shall ensure that a licensed nurse is available to provide immediate direction to medication aides and nurse aides for residents who have unscheduled needs.

(g) Skilled nursing care shall be provided in accordance with K.S.A. 39-923 and amendments thereto.

(1) The health care service plan shall include the skilled nursing care to be provided and the

name of the licensed nurse or agency responsible for providing each service.

(2) The licensed nurse providing the skilled nursing care shall document the service and the outcome of the service in the resident's record.

(3) A medical care provider's order for skilled nursing care shall be documented in the resident's record in the home. A copy of the medical care provider's order from a home health agency or hospice may be used.

(4) The administrator or operator shall ensure that a licensed nurse is available to meet each resident's unscheduled needs related to skilled nursing services.

(h) A licensed nurse may provide wellness and health monitoring as specified in the resident's negotiated service agreement.

(i) All health care services shall be provided to residents by qualified staff in accordance with acceptable standards of practice. (Authorized by and implementing K.S.A. 39-932; effective May 29, 2009.)

26-42-205. Medication management. (a) Self-administration of medication. Any resident may self-administer and manage medications independently or by using a medication container or syringe prefilled by a licensed nurse or pharmacist or by a family member or friend providing this service gratuitously, if a licensed nurse has performed an assessment and determined that the resident can perform this function safely and accurately without staff assistance.

(1) An assessment shall be completed before the resident initially begins self-administration of medication, if the resident experiences a significant change of condition, and annually.

(2) Each assessment shall include an evaluation of the resident's physical, cognitive, and functional ability to safely and accurately self-administer and manage medications independently or by using a prefilled medication container or prefilled syringe.

(3) The resident's clinical record shall contain documentation of the assessment and the determination.

(4) If a resident self-administers medication with a prefilled medication container or syringe, the prefilled medication container or syringe shall have a label with the resident's name and the date the container or syringe was prefilled. The label, or a medication administration record provided to the resident, shall also include the name and dosage of each medication and the time or event at which

the medication is to be self-administered. Facility staff may remind residents to take medications or inquire as to whether medications were taken.

(b) Administration of select medications. Any resident who self-administers medication may select some medications to be administered by a licensed nurse or medication aide. The negotiated service agreement shall reflect this service and identify who is responsible for the administration and management of selected medications.

(c) Administration of medication by family or friends. Any resident may choose to have personal medication administered by family members or friends gratuitously, pursuant to K.S.A. 65-1124 and amendments thereto.

(d) Home administration of resident's medications. If a home is responsible for the administration of a resident's medications, the administrator or operator shall ensure that all medications and biologicals are administered to that resident in accordance with a medical care provider's written order, professional standards of practice, and each manufacturer's recommendations. The administrator or operator shall ensure that all of the following are met:

(1) Only licensed nurses and medication aides shall administer and manage medications for which the home has responsibility.

(2) Medication aides shall not administer medication through the parenteral route.

(3) A licensed nurse or medication aide shall perform the following:

(A) Administer only the medication that the licensed nurse or medication aide has personally prepared;

(B) identify the resident before medication is administered;

(C) remain with the resident until the medication is ingested or applied; and

(D) document the administration of each resident's medication in the resident's medication administration record immediately before or following completion of the task. If the medication administration record identifies only time intervals or events for the administration of medication, the licensed nurse or medication aide shall document the actual clock time the medication is administered.

(4) Any licensed nurse may delegate nursing procedures not included in the medication aide curriculum to medication aides under the Kansas nurse practice act, K.S.A. 65-1124 and amendments thereto.

(e) Medication orders. Only a licensed nurse or a licensed pharmacist may receive verbal orders for medication from a medical care provider. The licensed nurse shall ensure that all verbal orders are signed by the medical care provider within seven working days of receipt of the verbal order.

(f) Standing orders. Only a licensed nurse shall make the decision for implementation of standing orders for specified medications and treatments formulated and signed by the resident's medical care provider. Standing orders of medications shall not include orders for the administration of schedule II medications or psychopharmacological medications.

(g) Ordering, labeling, and identifying. All medications and biologicals administered by licensed nurses or medication aides shall be ordered from a pharmacy pursuant to a medical care provider's written order.

(1) Any resident who self-administers and manages personal medications may request that a licensed nurse or medication aide reorder the resident's medication from a pharmacy of the resident's choice.

(2) Each prescription medication container shall have a label that was provided by a dispensing pharmacist or affixed to the container by a dispensing pharmacist in accordance with K.A.R. 68-7-14.

(3) A licensed nurse or medication aide may accept over-the-counter medication only in its original, unbroken manufacturer's package. A licensed pharmacist or licensed nurse shall place the full name of the resident on the package. If the original manufacturer's package of an over-the-counter medication contains a medication in a container, bottle, or tube that can be removed from the original package, the licensed pharmacist or a licensed nurse shall place the full name of the resident on both the original manufacturer's medication package and the medication container.

(4) Licensed nurses and medication aides may administer sample medications and medications from indigent medication programs if the administrator or operator ensures the development of policies and implementation of procedures for receiving and identifying sample medications and medications from indigent medication programs that include all of the following conditions:

(A) The medication is not a controlled medication.

(B) A medical care provider's written order accompanies the medication, stating the resident's

name; the medication name, strength, dosage, route, and frequency of administration; and any cautionary instructions regarding administration.

(C) A licensed nurse or medication aide receives the medication in its original, unbroken manufacturer's package.

(D) A licensed nurse documents receipt of the medication by entering the resident's name and the medication name, strength, and quantity into a log.

(E) A licensed nurse places identification information on the medication or package containing the medication that includes the medical care provider's name; the resident's name; the medication name, strength, dosage, route, and frequency of administration; and any cautionary instructions as documented on the medical care provider's order. Staff consisting of either two licensed nurses or a licensed nurse and a medication aide shall verify that the information on the medication matches the information on the medical care provider's order.

(F) A licensed nurse informs the resident or the resident's legal representative that the medication did not go through the usual process of labeling and initial review by a licensed pharmacist pursuant to K.S.A. 65-1642 and amendments thereto, which requires the identification of both adverse drug interactions or reactions and potential allergies. The resident's clinical record shall contain documentation that the resident or resident's legal representative has received the information and accepted the risk of potential adverse consequences.

(h) Storage. Licensed nurses and medication aides shall ensure that all medications and biologicals are securely and properly stored in accordance with each manufacturer's recommendations or those of the pharmacy provider and with federal and state laws and regulations.

(1) Licensed nurses or medication aides shall store non-controlled medications and biologicals managed by the home in a locked medication room, cabinet, or medication cart. Licensed nurses and medication aides shall store controlled medications managed by the home in separately locked compartments within a locked medication room, cabinet, or medication cart. Only licensed nurses and medication aides shall have access to the stored medications and biologicals.

(2) Each resident managing and self-administering medication shall store medications in a place that is accessible only to the resident, licensed nurses, and medication aides.

(3) Any resident who self-administers medication and is unable to provide proper storage as recommended by the manufacturer or pharmacy provider may request that the medication be stored by the home.

(4) A licensed nurse or medication aide shall not administer medication beyond the manufacturer's or pharmacy provider's recommended date of expiration.

(i) Accountability and disposition of medications. Licensed nurses and medication aides shall maintain records of the receipt and disposition of all medications managed by the home in sufficient detail for an accurate reconciliation.

(1) Records shall be maintained documenting the destruction of any deteriorated, outdated, or discontinued controlled medications and biologicals according to acceptable standards of practice by one of the following combinations:

(A) Two licensed nurses; or

(B) a licensed nurse and a licensed pharmacist.

(2) Records shall be maintained documenting the destruction of any deteriorated, outdated, or discontinued non-controlled medications and biologicals according to acceptable standards of practice by any of the following combinations:

(A) Two licensed nurses;

(B) a licensed nurse and a medication aide;

(C) a licensed nurse and a licensed pharmacist; or

(D) a medication aide and a licensed pharmacist.

(j) Medications sent for short-term absence. A licensed nurse or medication aide shall provide the resident's medication to the resident or the designated responsible party for the resident's short-term absences from the home, upon request.

(k) Clinical record. The administrator or operator, or the designee, shall ensure that the clinical record of each resident for whom the home manages the resident's medication or prefills medication containers or syringes contains the following documentation:

(1) A medical care provider's order for each medication;

(2) the name of the pharmacy provider of the resident's choice;

(3) any known medication allergies; and

(4) the date and the 12-hour or 24-hour clock time any medication is administered to the resident.

(l) Medication regimen review. A licensed pharmacist or licensed nurse shall conduct a medica-

tion regimen review at least quarterly for each resident whose medication is managed by the home and each time the resident experiences any significant change in condition.

(1) The medication regimen review shall identify any potential or current medication-related problems, including the following:

(A) Lack of clinical indication for use of medication;

(B) the use of a subtherapeutic dose of any medication;

(C) failure of the resident to receive an ordered medication;

(D) medications administered in excessive dosage, including duplicate therapy;

(E) medications administered in excessive duration;

(F) adverse medication reactions;

(G) medication interactions; and

(H) lack of adequate monitoring.

(2) The licensed pharmacist or licensed nurse shall notify the medical care provider upon discovery of any variance identified in the medication regimen review that requires immediate action by the medical care provider. The licensed pharmacist shall notify a licensed nurse within 48 hours of any variance identified in the resident's regimen review that does not require immediate action by the medical care provider and specify a time within which the licensed nurse must notify the resident's medical care provider. The licensed nurse shall seek a response from the medical care provider within five working days of the medical care provider's notification of a variance.

(3) The administrator or operator, or the designee, shall ensure that the medication regimen review is kept in each resident's clinical record.

(4) The administrator or operator, or the designee, shall offer each resident who self-administers medication a medication regimen review to be conducted by a licensed pharmacist or licensed nurse at least quarterly and each time the resident experiences a significant change in condition. A licensed nurse shall maintain documentation of the resident's decision in the resident's clinical record. (Authorized by and implementing K.S.A. 39-932; effective May 29, 2009.)

26-42-206. Dietary services. (a) The administrator or operator of each home plus shall ensure the provision or coordination of dietary services to residents as identified in each resident's negotiated service agreement.

(b) The supervisory responsibility for dietetic services shall be assigned to one employee.

(c) If a resident's negotiated service agreement includes the provision of a therapeutic diet, mechanically altered diet, or thickened consistency of liquids, a medical care provider's order shall be on file in the resident's clinical record, and the diet or liquids, or both, shall be prepared according to instructions from a medical care provider or licensed dietitian.

(d) The menus shall be planned in advance and in accordance with the dietary guidelines adopted by reference in K.A.R. 26-39-105.

(1) Menu plans shall be available to each resident on at least a weekly basis.

(2) A method shall be established to incorporate input by residents in the selection of food to be served and scheduling of meal service.

(e) Food shall be prepared using safe methods that conserve the nutritive value, flavor, and appearance and shall be served at the proper temperature.

(1) Food used by facility staff to serve to the residents, including donated food, shall meet all applicable federal, state, and local laws and regulations.

(2) Food in cans that have significant defects, including swelling, leakage, punctures, holes, fractures, pitted rust, or denting severe enough to prevent normal stacking or opening with a manual, wheel-type can opener, shall not be used.

(3) Food provided by a resident's family or friends for individual residents shall not be required to meet federal, state, and local laws and regulations.

(f) Staff shall store all food under safe and sanitary conditions. Containers of poisonous compounds and cleaning supplies shall not be stored in the areas used for food storage, preparation, or serving.

(g) Each home shall maintain at least a three-day supply of food to meet the requirements of the planned menus. (Authorized by and implementing K.S.A. 39-932; effective May 29, 2009.)

26-42-207. Infection control. (a) The administrator or operator of each home plus shall ensure the provision of a safe, sanitary, and comfortable environment for residents.

(b) Each administrator or operator shall ensure the development of policies and implementation of procedures to prevent the spread of infections. These policies and procedures shall include the following requirements:

(1) Using universal precautions to prevent the spread of blood-borne pathogens;

(2) techniques to ensure that hand hygiene meets professional health care standards;

(3) techniques to ensure that the laundering and handling of soiled and clean linens meet professional health care standards;

(4) providing sanitary conditions for food service;

(5) prohibiting any employee with a communicable disease or any infected skin lesions from coming in direct contact with any resident, any resident's food, or resident care equipment until the condition is no longer infectious;

(6) providing orientation to new employees and employee in-service education at least annually on the control of infections in a health care setting; and

(7) transferring a resident with an infectious disease to an appropriate health care facility if the administrator or operator is unable to provide the isolation precautions necessary to protect the health of other residents.

(c) Each administrator or operator shall ensure the home's compliance with the department's tuberculosis guidelines for adult care homes adopted by reference in K.A.R. 26-39-105. (Authorized by and implementing K.S.A. 39-932; effective May 29, 2009.)

Article 43.—ADULT DAY CARE FACILITIES

26-43-101. Administration. (a) Administrator and operator responsibilities. The administrator or operator of each adult day care facility ("facility") shall ensure that the facility is operated in a manner so that each resident receives care and services in accordance with each resident's functional capacity screening and negotiated service agreement.

(b) Administrator and operator criteria. Each licensee shall appoint an administrator or operator who meets the following criteria:

(1) Is at least 21 years of age;

(2) possesses a high school diploma or the equivalent;

(3) holds a Kansas license as an adult care home administrator or has successfully completed an operator training course and passed the test approved by the secretary of Kansas department of health and environment pursuant to K.S.A. 39-923 and amendments thereto; and

(4) has authority and responsibility for the operation of the facility and compliance with licensing requirements.

(c) Administrator and operator position description. Each licensee shall adopt a written position description for the administrator or operator that includes responsibilities for the following:

(1) Planning, organizing, and directing the facility;

(2) implementing operational policies and procedures for the facility; and

(3) authorizing, in writing, a responsible employee who is 18 years old or older to act on the administrator's or operator's behalf in the absence of the administrator or operator.

(d) Resident rights. Each administrator or operator shall ensure the development and implementation of written policies and procedures that incorporate the principles of individuality, autonomy, dignity, choice, privacy, and a home environment for each resident. The following provisions shall be included in the policies and procedures:

(1) The recognition of each resident's rights, responsibilities, needs, and preferences;

(2) the freedom of each resident or the resident's legal representative to select or refuse a service and to accept responsibility for the consequences;

(3) the development and maintenance of social ties for each resident by providing opportunities for meaningful interaction and involvement within the facility and the community;

(4) the maintenance of each resident's lifestyle if there are not adverse effects on the rights and safety of other residents; and

(5) the resolution of grievances through a specific process that includes a written response to each written grievance within 30 days.

(e) Resident liability. Each resident shall be liable only for the charges disclosed to the resident or the resident's legal representative and documented in a signed agreement at admission and in accordance with K.A.R. 26-39-103.

(f) Staff treatment of residents. Each administrator or operator shall ensure the development and implementation of written policies and procedures that prohibit the abuse, neglect, and exploitation of residents by staff. The administrator or operator shall ensure that all of the following requirements are met:

(1) No resident shall be subjected to any of the following:

(A) Verbal, mental, sexual, or physical abuse, including corporal punishment and involuntary seclusion;

(B) neglect; or

(C) exploitation.

(2) The facility shall not employ any individual who has been identified on a state nurse aide registry as having abused, neglected, or exploited any resident in an adult care home.

(3) Each allegation of abuse, neglect, or exploitation shall be reported to the administrator or operator of the facility as soon as staff is aware of the allegation and to the department within 24 hours. The administrator or operator shall ensure that all of the following requirements are met:

(A) An investigation shall be started when the administrator or operator, or the designee, receives notification of an alleged violation.

(B) Immediate measures shall be taken to prevent further potential abuse, neglect, or exploitation while the investigation is in progress.

(C) Each alleged violation shall be thoroughly investigated within five working days of the initial report. Results of the investigation shall be reported to the administrator or operator.

(D) Appropriate corrective action shall be taken if the alleged violation is verified.

(E) The department's complaint investigation report shall be completed and submitted to the department within five working days of the initial report.

(F) A written record shall be maintained of each investigation of reported abuse, neglect, or exploitation.

(g) Availability of policies and procedures. Each administrator or operator shall ensure that policies and procedures related to resident services are available to staff at all times and are available to each resident, legal representatives of residents, case managers, and families during normal business hours. A notice of availability shall be posted in a place readily accessible to residents and the public.

(h) Power of attorney, guardianship, and conservatorship. Authority as a power of attorney, durable power of attorney for health care decisions, guardian, or conservator shall not be exercised by anyone employed by or having a financial interest in the facility, unless the person is related to the resident within the second degree.

(i) Reports. Each administrator or operator shall ensure the accurate completion and electronic submission of annual and semiannual statistical reports regarding residents, employees, and facility occupancy to the department no later than 20 days following the last day of the period being reported. The administrator or operator shall en-

sure the submission of any other reports required by the department.

(j) Emergency telephone. Each administrator or operator shall ensure that the residents and employees have access to a telephone for emergency use at no cost. The administrator or operator shall ensure that the names and telephone numbers of persons or places commonly required in emergencies are posted adjacent to this telephone.

(k) Ombudsman. Each administrator or operator shall ensure the posting of the names, addresses, and telephone numbers of the Kansas department on aging and the office of the long-term care ombudsman with information that these agencies can be contacted to report actual or potential abuse, neglect, or exploitation of residents or to register complaints concerning the operation of the facility. The administrator or operator shall ensure that this information is posted in an area readily accessible to all residents and the public.

(l) Survey report and plan of correction. Each administrator or operator shall ensure that a copy of the most recent survey report and plan of correction is available in a public area to residents and any other individuals wishing to examine survey results. (Authorized by and implementing K.S.A. 39-932; effective May 29, 2009.)

26-43-102. Staff qualifications. (a) The administrator or operator of each adult day care facility shall ensure the provision of a sufficient number of qualified personnel to provide each resident with services and care in accordance with that resident's functional capacity screening, health care service plan, and negotiated service agreement.

(b) Direct care staff or licensed nursing staff shall be in attendance and responsive at all times.

(c) A registered professional nurse shall be available to provide supervision to licensed practical nurses, pursuant to K.S.A. 65-1113 and amendments thereto.

(d) The employee records and agency staff records shall contain the following documentation:

(1) Evidence of licensure, registration, certification, or a certificate of successful completion of a training course for each employee performing a function that requires specialized education or training;

(2) supporting documentation for criminal background checks of facility staff and contract staff, excluding any staff licensed or registered by a state agency, pursuant to K.S.A. 39-970 and amendments thereto;

(3) supporting documentation from the Kansas nurse aide registry that the individual does not have a finding of having abused, neglected, or exploited a resident in an adult care home; and

(4) supporting documentation that the individual does not have a finding of having abused, neglected, or exploited any resident in an adult care home, from the nurse aide registry in each state in which the individual has been known to work. (Authorized by K.S.A. 39-932 and K.S.A. 2007 Supp. 39-936; implementing K.S.A. 39-932, K.S.A. 2007 Supp. 39-936, and K.S.A. 2007 Supp. 39-970; effective May 29, 2009.)

26-43-103. Staff development. (a) The administrator or operator of each adult day care facility shall ensure the provision of orientation to new employees and regular in-service education for all employees to ensure that the services provided assist residents to attain and maintain their individuality, autonomy, dignity, independence, and ability to make choices in a home environment.

(b) The topics for orientation and in-service education shall include the following:

- (1) Principles of adult day care;
- (2) fire prevention and safety;
- (3) disaster procedures;
- (4) accident prevention;
- (5) resident rights;
- (6) infection control; and
- (7) prevention of abuse, neglect, and exploitation of residents.

(c) If the facility admits residents with dementia, the administrator or operator shall ensure the provision of staff orientation and in-service education on the treatment and appropriate response to persons who exhibit behaviors associated with dementia. (Authorized by and implementing K.S.A. 39-932; effective May 29, 2009.)

26-43-104. Disaster and emergency preparedness. (a) The administrator or operator of each adult day care facility shall ensure the provision of a sufficient number of staff members to take residents who would require assistance in an emergency or disaster to a secure location.

(b) Each administrator or operator shall ensure the development of a detailed written emergency management plan to manage potential emergencies and disasters, including the following:

- (1) Fire;
- (2) flood;

(3) severe weather;

(4) tornado;

(5) explosion;

(6) natural gas leak;

(7) lack of electrical or water service;

(8) missing residents; and

(9) any other potential emergency situations.

(c) Each administrator or operator shall ensure the establishment of written agreements that will provide for the following if an emergency or disaster occurs:

- (1) Fresh water;
- (2) evacuation site; and
- (3) transportation of residents to an evacuation site.

(d) Each administrator or operator shall ensure disaster and emergency preparedness by ensuring the performance of the following:

(1) Orientation of new employees at the time of employment to the facility's emergency management plan;

(2) education of each resident upon admission to the facility regarding emergency procedures;

(3) quarterly review of the facility's emergency management plan with employees and residents; and

(4) an emergency drill, which shall be conducted at least annually with staff and residents. This drill shall include evacuation of the residents to a secure location.

(e) Each administrator or operator shall make the emergency management plan available to the staff, residents, and visitors. (Authorized by and implementing K.S.A. 39-932; effective May 29, 2009.)

26-43-105. Resident records. (a) The administrator or operator of each adult day care facility shall ensure the maintenance of a record for each resident in accordance with accepted professional standards and practices.

(1) Designated staff shall maintain the record of each discharged resident who is 18 years of age or older for at least five years after the discharge of the resident.

(2) Designated staff shall maintain the record of each discharged resident who is less than 18 years of age for at least five years after the resident reaches 18 years of age or at least five years after the date of discharge, whichever time period is longer.

(b) Each administrator or operator shall ensure that all information in each resident's record, regardless of the form or storage method for the

record, is kept confidential, unless release is required by any of the following:

- (1) Transfer of the resident to another health care facility;
- (2) law;
- (3) third-party payment contract; or
- (4) the resident or legal representative of the resident.

(c) Each administrator or operator shall ensure the safeguarding of resident records against the following:

- (1) Loss;
- (2) destruction;
- (3) fire;
- (4) theft; and
- (5) unauthorized use.

(d) Each administrator or operator shall ensure the accuracy and confidentiality of all resident information transmitted by means of a facsimile machine.

(e) If electronic medical records are used, each administrator or operator shall ensure the development of policies addressing the following requirements:

- (1) Protection of electronic medical records, including entries by only authorized users;
- (2) safeguarding of electronic medical records against unauthorized alteration, loss, destruction, and use;
- (3) prevention of the unauthorized use of electronic signatures;
- (4) confidentiality of electronic medical records; and
- (5) preservation of electronic medical records.

(f) Each resident record shall contain at least the following:

- (1) The resident's name;
- (2) the dates of admission and discharge;
- (3) the admission agreement and any amendments;
- (4) the functional capacity screenings;
- (5) the health care service plan, if applicable;
- (6) the negotiated service agreement and any revisions;
- (7) the name, address, and telephone number of the physician and the dentist to be notified in an emergency;
- (8) the name, address, and telephone number of the legal representative or the individual of the resident's choice to be notified in the event of a significant change in condition;
- (9) the name, address, and telephone number of the case manager, if applicable;

(10) records of medications, biologicals, and treatments administered and each medical care provider's order if the facility is managing the resident's medications and medical treatments; and

(11) documentation of all incidents, symptoms, and other indications of illness or injury including the date, time of occurrence, action taken, and results of the action. (Authorized by and implementing K.S.A. 39-932; effective May 29, 2009.)

26-43-106. Community governance.

(a) The administrator or operator of each adult day care facility shall ensure the facilitation of the organization of at least one resident council, each of which shall meet at least quarterly to provide residents with a forum to provide input into community governance.

(b) Each administrator or operator shall ensure the accommodation of the council process by providing space for the meetings, posting notices of the meetings, and assisting residents who wish to attend the meetings.

(c) In order to permit a free exchange of ideas and concerns, each administrator or operator shall ensure that all meetings are conducted without the presence of facility staff, unless allowed by the residents.

(d) Each administrator or operator shall respond to each written idea and concern received from the council, in writing, within 30 days after the meeting at which the written ideas and concerns were collected. The administrator or operator shall ensure that a copy of each written idea or concern and each response is available to surveyors. (Authorized by and implementing K.S.A. 39-932; effective May 29, 2009.)

26-43-200. Resident criteria. (a) The administrator or operator of each adult day care facility shall ensure the development and implementation of written admission, transfer, and discharge policies that protect the rights of each resident, pursuant to K.A.R. 26-39-102. In addition, the administrator or operator shall ensure that any resident who has one or more of the following conditions is not admitted or retained unless the negotiated service agreement includes services sufficient to meet the needs of the resident while in the facility:

- (1) Incontinence, if the resident cannot or will not participate in management of the problem;
- (2) immobility, if the resident is totally dependent on another person's assistance to exit the building;

(3) any ongoing condition requiring two or more persons to physically assist the resident; or

(4) any behavioral symptom that exceeds manageability.

(b) Each administrator or operator shall ensure that any resident whose clinical condition requires the use of physical restraints is not admitted or retained. (Authorized by and implementing K.S.A. 39-932; effective May 29, 2009.)

26-43-201. Resident functional capacity screening. (a) On or before each individual's admission to an adult day care facility, a licensed nurse, a licensed social worker, or the administrator or operator shall conduct a screening to determine the individual's functional capacity and shall record all findings on a screening form specified by the department. The administrator or operator may integrate the department's screening form into a form developed by the facility, which shall include each element and definition specified by the department.

(b) A licensed nurse shall assess any resident whose functional capacity screening indicates the need for health care services.

(c) Designated facility staff shall conduct a screening to determine each resident's functional capacity according to the following requirements:

(1) At least once every 365 days;

(2) following any significant change in condition as defined in K.A.R. 26-39-100; and

(3) at least quarterly if the resident receives assistance with eating from a paid nutrition assistant.

(d) Designated facility staff shall ensure that each resident's functional capacity at the time of screening is accurately reflected on that resident's screening form.

(e) Designated facility staff shall use the results of the functional capacity screening as a basis for determining the services to be included in the resident's negotiated service agreement. (Authorized by and implementing K.S.A. 39-932; effective May 29, 2009.)

26-43-202. Negotiated service agreement. (a) The administrator or operator of each adult day care facility shall ensure the development of a written negotiated service agreement for each resident, based on the resident's functional capacity screening, service needs, and preferences, in collaboration with the resident or the resident's legal representative, the case manager, and, if agreed to by the resident or the resident's

legal representative, the resident's family. The negotiated service agreement shall provide the following information:

(1) A description of the services the resident will receive;

(2) identification of the provider of each service; and

(3) identification of each party responsible for payment if outside resources provide a service.

(b) The negotiated service agreement shall promote the dignity, privacy, choice, individuality, and autonomy of the resident.

(c) Each administrator or operator shall ensure the development of an initial negotiated service agreement at admission.

(d) Each administrator or operator shall ensure the review and, if necessary, revision of each negotiated service agreement according to the following requirements:

(1) At least once every 365 days;

(2) following any significant change in condition, as defined in K.A.R. 26-39-100;

(3) at least quarterly, if the resident receives assistance with eating from a paid nutrition assistant; and

(4) if requested by the resident or the resident's legal representative, facility staff, the case manager, or, if agreed to by the resident or the resident's legal representative, the resident's family.

(e) A licensed nurse shall participate in the development, review, and revision of the negotiated service agreement if the resident's functional capacity screening indicates the need for health care services.

(f) If a resident or the resident's legal representative refuses a service that the administrator or operator, the licensed nurse, the resident's medical care provider, or the case manager believes is necessary for the resident's health and safety, the negotiated service agreement shall include the following:

(1) The service or services refused;

(2) identification of any potential negative outcomes for the resident if the service or services are not provided;

(3) evidence of the provision of education to the resident or the resident's legal representative of the potential risk of any negative outcomes if the service or services are not provided; and

(4) an indication of acceptance by the resident or the resident's legal representative of the potential risk.

(g) The negotiated service agreement shall not include circumstances in which the lack of a ser-

vice has the potential to affect the health and safety of other residents, facility staff, or the public.

(h) Each individual involved in the development of the negotiated service agreement shall sign the agreement. The administrator or operator shall ensure that a copy of the initial agreement and any subsequent revisions are provided to the resident or the resident's legal representative.

(i) Each administrator or operator shall ensure that each resident receives services according to the provisions of that resident's negotiated service agreement.

(j) If a resident's negotiated service agreement includes the use of outside resources, the designated facility staff shall perform the following:

(1) Provide the resident, the resident's legal representative, the case manager, and, if agreed to by the resident or resident's legal representative, the resident's family, with a list of providers available to provide needed services;

(2) assist the resident, if requested, in contacting outside resources for services; and

(3) monitor the services provided by outside resources and act as an advocate for the resident if services do not meet professional standards of practice. (Authorized by and implementing K.S.A. 39-932; effective May 29, 2009.)

26-43-203. General services. (a) Range of services. The administrator or operator of each adult day care facility shall ensure the provision or coordination of the range of services specified in each resident's negotiated service agreement. The range of services may include the following:

(1) Daily meal service based on each resident's needs;

(2) health care services based on an assessment by a licensed nurse and in accordance with K.A.R. 26-43-204;

(3) medical, dental, and social transportation;

(4) planned group and individual activities that meet the needs and interests of each resident; and

(5) other services necessary to support the health and safety of each resident.

(b) Special care. Any administrator or operator of an adult day care facility may choose to serve residents who do not exceed the facility's admission and retention criteria and who have special needs in a special care section of the facility or the entire facility, if the administrator or operator ensures that all of the following conditions are met:

(1) Written policies are developed and proce-

dures are implemented for the operation of the special care section or facility.

(2) Admission and discharge criteria are in effect that identify the diagnosis, behavior, or specific clinical needs of the residents to be served. The medical diagnosis, medical care provider's progress notes, or both shall justify admission to the special care section or the facility.

(3) A medical care provider's written order is obtained for admission.

(4) The functional capacity screening indicates that the resident would benefit from the services and programs offered by the special care section or facility.

(5) Before the resident's admission to the special care section or facility, the resident or resident's legal representative is informed, in writing, of the available services and programs that are specific to the needs of the resident.

(6) Direct care staff are present in the special care section or facility at all times.

(7) Before assignment to the special care section or facility employment, each staff member is provided with a training program related to specific needs of the residents to be served, and evidence of completion of the training is maintained in the employee's personnel records.

(8) Living, dining, activity, and recreational areas are provided within the special care section, except when residents are able to access living, dining, activity, and recreational areas in another section of the facility.

(9) The control of exits in the special care section is the least restrictive possible for the residents in the section.

(c) Maintenance. Designated staff shall provide routine maintenance, including the control of pests and rodents, and repairs in common areas inside and outside the facility.

(d) Services not provided. If an administrator or operator of an adult day care facility chooses not to provide or coordinate any service as specified in subsection (a), the administrator or operator shall notify the resident, in writing, on or before the resident's admission to the facility. (Authorized by and implementing K.S.A. 39-932; effective May 29, 2009.)

26-43-204. Health care services. (a) The administrator or operator in each adult day care facility shall ensure that a licensed nurse provides or coordinates the provision of necessary health care services that meet the needs of each resident

and are in accordance with the functional capacity screening and the negotiated service agreement.

(b) If the functional capacity screening indicates that a resident is in need of health care services, a licensed nurse, in collaboration with the resident, the resident's legal representative, the case manager, and, if agreed to by the resident or resident's legal representative, the resident's family, shall develop a health care service plan to be included as part of the negotiated service agreement.

(c) The health care services provided by or coordinated by a licensed nurse may include the following:

(1) Personal care provided by direct care staff or by certified or licensed nursing staff employed by a home health agency or a hospice;

(2) personal care provided gratuitously by friends or family members; and

(3) supervised nursing care provided by, or under the guidance of, a licensed nurse.

(d) The negotiated service agreement shall contain a description of the health care services to be provided and the name of the licensed nurse responsible for the implementation and supervision of the plan.

(e) A licensed nurse may delegate nursing procedures not included in the nurse aide or medication aide curriculums to nurse aides or medication aides, respectively, under the Kansas nurse practice act, K.S.A. 65-1124 and amendments thereto.

(f) Each administrator or operator shall ensure that a licensed nurse is available to provide immediate direction to medication aides and nurse aides for residents who have unscheduled needs.

(g) Skilled nursing care shall be provided in accordance with K.S.A. 39-923 and amendments thereto.

(1) The health care service plan shall include the skilled nursing care to be provided and the name of the licensed nurse or agency responsible for providing each service.

(2) The licensed nurse providing the skilled nursing care shall document the service and the outcome of the service in the resident's record.

(3) A medical care provider's order for skilled nursing care shall be documented in the resident's record in the facility. A copy of the medical care provider's order from a home health agency or hospice may be used. Medical care provider orders in the clinical records of a home health agency located in the same building as the facility may also be used if the clinical records are available to licensed nurses and direct care staff of the facility.

(4) The administrator or operator shall ensure that a licensed nurse is available to meet each resident's unscheduled needs related to skilled nursing services.

(h) A licensed nurse may provide wellness and health monitoring as specified in the resident's negotiated service agreement.

(i) All health care services shall be provided to residents by qualified staff in accordance with acceptable standards of practice. (Authorized by and implementing K.S.A. 39-932; effective May 29, 2009.)

26-43-205. Medication management. (a) Self-administration of medication. Any resident may self-administer and manage medications independently or by using a medication container or syringe prefilled by a licensed nurse or pharmacist or by a family member or friend providing this service gratuitously, if a licensed nurse has performed an assessment and determined that the resident can perform this function safely and accurately without staff assistance.

(1) An assessment shall be completed before the resident initially begins self-administration of medication, if the resident experiences a significant change of condition, and annually.

(2) Each assessment shall include an evaluation of the resident's physical, cognitive, and functional ability to safely and accurately self-administer and manage medications independently or by using a prefilled medication container or prefilled syringe.

(3) The resident's clinical record shall contain documentation of the assessment and the determination.

(4) If a resident self-administers medication with a prefilled medication container or syringe, the prefilled medication container or syringe shall have a label with the resident's name and the date the container or syringe was prefilled. The label, or a medication administration record provided to the resident, shall also include the name and dosage of each medication and the time or event at which the medication is to be self-administered. Facility staff may remind residents to take medications or inquire as to whether medications were taken.

(b) Administration of select medications. Any resident who self-administers medication may select some medications to be administered by a licensed nurse or medication aide. The negotiated service agreement shall reflect this service and identify who is responsible for the administration and management of selected medications.

(c) Administration of medication by family or friends. Any resident may choose to have personal medication administered by family members or friends gratuitously, pursuant to K.S.A. 65-1124 and amendments thereto.

(d) Facility administration of resident's medications. If a facility is responsible for the administration of a resident's medications, the administrator or operator shall ensure that all medications and biologicals are administered to that resident in accordance with a medical care provider's written order, professional standards of practice, and each manufacturer's recommendations. The administrator or operator shall ensure that all of the following are met:

(1) Only licensed nurses and medication aides shall administer medications for which the facility has responsibility.

(2) Medication aides shall not administer medication through the parenteral route.

(3) A licensed nurse or medication aide shall perform the following:

(A) Administer only the medication that the licensed nurse or medication aide has personally prepared;

(B) identify the resident before medication is administered;

(C) remain with the resident until the medication is ingested or applied; and

(D) document the administration of each resident's medication in the resident's medication administration record immediately before or following completion of the task. If the medication administration record identifies only time intervals or events for the administration of medication, the licensed nurse or medication aide shall document the actual clock time the medication is administered.

(4) Any licensed nurse may delegate nursing procedures not included in the medication aide curriculum to medication aides under the Kansas nurse practice act, K.S.A. 65-1124 and amendments thereto.

(e) Medication orders. Only a licensed nurse or a licensed pharmacist may receive verbal orders for medication from a medical care provider. The licensed nurse shall ensure that all verbal orders are signed by the medical care provider within seven working days of receipt of the verbal order.

(f) Standing orders. Only a licensed nurse shall make the decision for implementation of standing orders for specified medications and treatments formulated and signed by the resident's medical

care provider. Standing orders of medications shall not include orders for the administration of schedule II medications or psychopharmacological medications.

(g) Ordering, labeling, and identifying. All medications and biologicals administered by licensed nurses or medication aides shall be ordered from a pharmacy pursuant to a medical care provider's written order.

(1) Any resident who self-administers and manages personal medications may request that a licensed nurse or medication aide reorder the resident's medication from a pharmacy of the resident's choice.

(2) Each prescription medication container shall have a label that was provided by a dispensing pharmacist or affixed to the container by a dispensing pharmacist in accordance with K.A.R. 68-7-14.

(3) A licensed nurse or medication aide may accept over-the-counter medication only in its original, unbroken manufacturer's package. A licensed pharmacist or licensed nurse shall place the full name of the resident on the package. If the original manufacturer's package of an over-the-counter medication contains a medication in a container, bottle, or tube that can be removed from the original package, the licensed pharmacist or a licensed nurse shall place the full name of the resident on both the original manufacturer's medication package and the medication container.

(4) Licensed nurses and medication aides may administer sample medications and medications from indigent medication programs if the administrator or operator ensures the development of policies and implementation of procedures for receiving and identifying sample medications and medications from indigent medication programs that include all of the following conditions:

(A) The medication is not a controlled medication.

(B) A medical care provider's written order accompanies the medication, stating the resident's name; the medication name, strength, dosage, route, and frequency of administration; and any cautionary instructions regarding administration.

(C) A licensed nurse or medication aide receives the medication in its original, unbroken manufacturer's package.

(D) A licensed nurse documents receipt of the medication by entering the resident's name and the medication name, strength, and quantity into a log.

(E) A licensed nurse places identification information on the medication or package containing the medication that includes the medical care provider's name; the resident's name; the medication name, strength, dosage, route, and frequency of administration; and any cautionary instructions as documented on the medical care provider's order. Facility staff consisting of either two licensed nurses or a licensed nurse and a medication aide shall verify that the information on the medication matches the information on the medical care provider's order.

(F) A licensed nurse informs the resident or the resident's legal representative that the medication did not go through the usual process of labeling and initial review by a licensed pharmacist pursuant to K.S.A. 65-1642 and amendments thereto, which requires the identification of both adverse drug interactions or reactions and potential allergies. The resident's clinical record shall contain documentation that the resident or the resident's legal representative has received the information and accepted the risk of potential adverse consequences.

(h) Storage. Licensed nurses and medication aides shall ensure that all medications and biologicals are securely and properly stored in accordance with each manufacturer's recommendations or those of the pharmacy provider and with federal and state laws and regulations.

(1) Licensed nurses or medication aides shall store non-controlled medications and biologicals managed by the facility in a locked medication room, cabinet, or medication cart. Licensed nurses and medication aides shall store controlled medications managed by the facility in separately locked compartments within a locked medication room, cabinet, or medication cart. Only licensed nurses and medication aides shall have access to the stored medications and biologicals.

(2) Each resident managing and self-administering medication shall store medications in a place that is accessible only to the resident, licensed nurses, and medication aides.

(3) Any resident who self-administers medication and is unable to provide proper storage as recommended by the manufacturer or pharmacy provider may request that the medication be stored by the facility.

(4) A licensed nurse or medication aide shall not administer medication beyond the manufacturer's or pharmacy provider's recommended date of expiration.

(i) Accountability and disposition of medications. Licensed nurses and medication aides shall maintain records of the receipt and disposition of all medications managed by the facility in sufficient detail for an accurate reconciliation.

(1) Records shall be maintained documenting the destruction of any deteriorated, outdated, or discontinued controlled medications and biologicals according to acceptable standards of practice by one of the following combinations:

(A) Two licensed nurses; or

(B) a licensed nurse and a licensed pharmacist.

(2) Records shall be maintained documenting the destruction of any deteriorated, outdated, or discontinued non-controlled medications and biologicals according to acceptable standards of practice by any of the following combinations:

(A) Two licensed nurses;

(B) a licensed nurse and a medication aide;

(C) a licensed nurse and a licensed pharmacist; or

(D) a medication aide and a licensed pharmacist.

(j) Clinical record. The administrator or operator, or the designee, shall ensure that the clinical record of each resident for whom the facility manages the resident's medication or prefills medication containers or syringes contains the following documentation:

(1) A medical care provider's order for each medication;

(2) the name of the pharmacy provider of the resident's choice;

(3) any known medication allergies; and

(4) the date and the 12-hour or 24-hour clock time any medication is administered to the resident.

(k) Medication regimen review. The administrator or operator, or the designee, shall offer each resident a medication regimen review to be conducted by a licensed pharmacist or a licensed nurse at least quarterly and each time the resident experiences any significant change in condition. A licensed nurse shall document the resident's decision in the resident's clinical record.

(1) The medication regimen review shall identify any potential or current medication-related problems, including the following:

(A) Lack of clinical indication for use of medication;

(B) the use of subtherapeutic dose of any medication;

(C) failure of the resident to receive an ordered medication;

(D) medications administered in excessive dosage, including duplicate therapy;

(E) medications administered in excessive duration;

(F) adverse medication reactions;

(G) medication interactions; and

(H) lack of adequate monitoring.

(2) The licensed pharmacist or licensed nurse shall report each variance identified in the medication regimen review to the resident's medical care provider.

(3) The administrator or operator, or the designee, shall ensure that the medication regimen review is kept in each resident's clinical record.

(l) At least annually, the administrator or operator shall ensure that a licensed pharmacist or a licensed nurse conducts an educational program on medication usage and health-related topics for the residents, the residents' legal representatives, and the residents' families. (Authorized by and implementing K.S.A. 39-932; effective May 29, 2009.)

26-43-206. Dietary services. (a) Provision of dietary services. The administrator or operator of each adult day care facility shall ensure the provision or coordination of dietary services to residents as identified in each resident's negotiated service agreement. If the administrator or operator of the facility establishes a contract with another entity to provide or coordinate the provision of dietary services to the residents, the administrator or operator shall ensure that entity's compliance with these regulations.

(b) Staff. The supervisory responsibility for dietetic services shall be assigned to one employee.

(1) A dietetic services supervisor or licensed dietitian shall provide scheduled on-site supervision in each facility with 11 or more residents.

(2) If a resident's negotiated service agreement includes the provision of a therapeutic diet, mechanically altered diet, or thickened consistency of liquids, a medical care provider's order shall be on file in the resident's clinical record, and the diet or liquids, or both, shall be prepared according to instructions from a medical care provider or licensed dietitian.

(c) Menus. A dietetic services supervisor or licensed dietitian or, in any facility with fewer than 11 residents, designated facility staff shall plan menus in advance and in accordance with the dietary guidelines adopted by reference in K.A.R. 26-39-105.

(1) Menu plans shall be available to each resident on at least a weekly basis.

(2) A method shall be established to incorporate residents' input in the selection of food to be served and scheduling of meal service.

(d) Food preparation. Food shall be prepared using safe methods that conserve the nutritive value, flavor, and appearance and shall be served at the proper temperature.

(1) Food used by facility staff to serve to the residents, including donated food, shall meet all applicable federal, state, and local laws and regulations.

(2) Food in cans that have significant defects, including swelling, leakage, punctures, holes, fractures, pitted rust, or denting severe enough to prevent normal stacking or opening with a manual, wheel-type can opener, shall not be used.

(3) Food provided by a resident's family or friends for individual residents shall not be required to meet federal, state, and local laws and regulations.

(e) Food storage. Facility staff shall store all food under safe and sanitary conditions. Containers of poisonous compounds and cleaning supplies shall not be stored in the areas used for food storage, preparation, or serving. (Authorized by and implementing K.S.A. 39-932; effective May 29, 2009.)

26-43-207. Infection control. (a) The administrator or operator of each adult day care facility shall ensure the provision of a safe, sanitary, and comfortable environment for residents.

(b) Each administrator or operator shall ensure the development of policies and implementation of procedures to prevent the spread of infections. These policies and procedures shall include the following requirements:

(1) Using universal precautions to prevent the spread of blood-borne pathogens;

(2) techniques to ensure that hand hygiene meets professional health care standards;

(3) techniques to ensure that the laundering and handling of soiled and clean linens meet professional health care standards;

(4) providing sanitary conditions for food service;

(5) prohibiting any employee with a communicable disease or any infected skin lesions from coming in direct contact with any resident, any resident's food, or resident care equipment until the condition is no longer infectious; and

(6) providing orientation to new employees and employee in-service education at least annually on the control of infections in a health care setting.

(c) Each administrator or operator shall ensure the facility's compliance with the department's tuberculosis guidelines for adult care homes adopted by reference in K.A.R. 26-39-105. (Authorized by and implementing K.S.A. 39-932; effective May 29, 2009.)

Article 50.—UNLICENSED EMPLOYEES IN ADULT CARE HOMES

26-50-10. Definitions. Each of the following terms, as used in this article, shall have the meaning specified in this regulation: (a) "Clinical instruction" shall mean training in which the trainee demonstrates knowledge and skills while performing tasks on a person under the direct supervision of the instructor.

(b) "Course supervisor" shall mean an individual who has been approved by the secretary to provide general supervision of the nurse aide training course.

(c) "Direct care" shall mean assistance provided to perform activities of daily living.

(d) "Direct supervision" shall mean that a supervisor or an instructor is on the facility premises and is readily accessible for one-on-one consultation, instruction, and assistance, as needed.

(e) "Eligible for employment," when describing a certified nurse aide, shall mean that the certified nurse aide meets the following criteria:

(1) Was employed to perform nursing or nursing-related services for at least eight hours in the preceding 24 months;

(2) has no record of medicare or medicaid fraud;

(3) has no record of abuse, neglect, and exploitation; and

(4) is not prohibited from employment based upon criminal convictions pursuant to K.S.A. 39-970, and amendments thereto.

(f) "General supervision" shall mean a course supervisor's provision of the necessary guidance and maintenance of ultimate responsibility for a nurse aide training course in accordance with the standards established by the department in the "Kansas certified nurse aide curriculum guidelines (90 hours)" and the "Kansas certified nurse aide course (90 hour) instruction manual," which are adopted by reference in K.A.R. 26-50-12.

(g) "Instructor" shall mean either of the following:

(1) An individual who has been approved by the nurse aide course supervisor to teach the nurse aide training course; or

(2) an individual who has been approved by the secretary to teach the home health aide or medication aide training courses.

(h) "Licensed nursing experience" shall mean experience as an RN or LPN.

(i) "Nurse aide trainee I" shall mean a nurse aide trainee who is in the process of completing part I of a 90-hour nurse aide course as specified in K.A.R. 26-50-20.

(j) "Nurse aide trainee II" shall mean a nurse aide trainee who has successfully completed part I of a 90-hour nurse aide course specified in K.A.R. 26-50-20 or whose training has been determined equivalent as specified in K.A.R. 26-50-26.

(k) "Qualified intellectual disability professional" shall mean an individual who meets the requirement specified in 42 C.F.R. 483.430 (a), as revised on July 16, 2012 and hereby adopted by reference.

(l) "Simulated laboratory" shall mean an enclosed area that is in a school, institution, adult care home, or other facility and that is similar to a resident's room in an adult care home. A simulated laboratory may serve as a setting for nurse aide trainees to practice basic nurse aide skills with the instructor and to demonstrate basic nurse aide skills for competency evaluation. (Authorized by K.S.A. 2012 Supp. 39-925, 39-936, 39-1901, and 39-1908; implementing K.S.A. 2012 Supp. 39-936 and 39-1908; effective, T-26-6-28-13, June 28, 2013; effective Oct. 25, 2013.)

26-50-12. Curricula and instruction manuals. (a) The following departmental documents, which are hereby adopted by reference, shall apply to each certified nurse aide program:

(1) "Kansas certified nurse aide curriculum guidelines (90 hours)," dated May 10, 2013, including appendix C, except the resource list on page 172, and excluding the preface and appendices A and B; and

(2) the cover page and pages 1 through 16 in the "Kansas certified nurse aide course (90 hour) instruction manual," dated May 10, 2013.

(b) The following departmental documents, which are hereby adopted by reference, shall apply to each certified medication aide program:

(1) "Kansas certified medication aide curriculum," dated May 10, 2013, excluding the foreword and the appendices; and

(2) pages 1 through 20 in the "Kansas certified medication aide course instruction manual," dated May 10, 2013. (Authorized by K.S.A. 2012 Supp. 39-925, 39-936, 39-1901, and 39-1908; imple-

menting K.S.A. 2012 Supp. 39-936 and 39-1908; effective, T-26-6-28-13, June 28, 2013; effective Oct. 25, 2013.)

26-50-20. Nurse aide; training program.

(a) Each unlicensed employee who provides direct care to residents shall meet the following training program requirements:

(1) Successfully complete at least a 90-hour nurse aide course approved by the secretary; and

(2) pass the state test as specified in K.A.R. 26-50-24.

(b) Each person shall be certified and shall be listed on the Kansas nurse aide registry upon completion of the training program requirements specified in subsection (a).

(c)(1) Each nurse aide trainee I in an approved 90-hour course shall be required to successfully complete part I of the course, including the nurse aide training and competency evaluation program task checklist to demonstrate initial competency, before being employed as a nurse aide trainee II. Any nurse aide trainee II may provide direct care to residents only under the direct supervision of an RN or LPN.

(2) Nurse aide trainee II status for employment shall be valid for only one four-month period from the beginning date of the course.

(d)(1) Each nurse aide course shall meet the following requirements:

(A) Consist of a combination of didactic and clinical instruction, with at least 50 percent of part I and at least 50 percent of part II of the curriculum provided as clinical instruction;

(B) be prepared and administered in accordance with the “Kansas certified nurse aide curriculum guidelines (90 hours)” and the “Kansas certified nurse aide course (90 hour) instruction manual,” as adopted by reference in K.A.R. 26-50-12; and

(C) be sponsored by one of the following, except as specified in paragraph (d)(3):

(i) An adult care home;

(ii) a long-term care unit of a hospital; or

(iii) a postsecondary school under the jurisdiction of the state board of regents.

(2) Clinical instruction and demonstration of the skills specified in the part I nurse aide training and competency evaluation program task checklist shall be performed in only one or a combination of the following settings that offer the full range of clinical tasks and experiences as specified in the “Kansas certified nurse aide curriculum guidelines (90 hours)”:

(A) An adult care home;

(B) a long-term care unit of a hospital; or

(C) a simulated laboratory.

(3) An adult care home shall not sponsor or provide clinical instruction for a 90-hour nurse aide course if that adult care home has been subject to any of the sanctions under the federal regulations for long-term care facilities listed in 42 C.F.R. 483.151(b)(2), as in effect on May 24, 2010.

(e) No correspondence course shall be approved as a nurse aide course.

(f) Each distance-learning offering and each computer-based educational offering of the nurse aide course shall meet the requirements specified in subsection (d). (Authorized by K.S.A. 2012 Supp. 39-925, 39-936, 39-1901, and 39-1908; implementing K.S.A. 2012 Supp. 39-936 and 39-1908; effective, T-26-6-28-13, June 28, 2013; effective Oct. 25, 2013.)

26-50-22. Nurse aide training course; personnel and course sponsor.

(a) The training of nurse aides shall be performed by or under the general supervision of a course supervisor. Each course supervisor shall meet the following requirements:

(1) Be licensed to practice as an RN and have no pending or current disciplinary actions against that individual’s license;

(2) have at least two years of full-time licensed nursing experience, which shall include at least 1,750 hours of licensed nursing experience in an adult care home or a long-term care unit of a hospital; and

(3) meet at least one of the following requirements:

(A) Completed a course in adult education;

(B) completed a professional continuing education offering on supervision or adult education;

(C) taught adults; or

(D) supervised nurse aides.

(b) When seeking approval as a course supervisor, the person shall submit a completed course supervisor application to the department at least three weeks before offering an initial training course and shall have obtained approval from the secretary before the beginning date of that training course.

(c) Each instructor of any nurse aide training course shall meet the following requirements:

(1) Be licensed to practice as an RN and have no pending or current disciplinary actions against that individual’s license;

(2) have at least two years of full-time licensed nursing experience;

(3) have completed at least seven hours of professional continuing education offerings on person-centered care in an adult care home or a long-term care unit of a hospital not more than one year before becoming an instructor of the nurse aide training course and each year while serving as an instructor; and

(4) meet at least one of the following requirements:

(A) Completed a course in adult education;

(B) completed a professional continuing education offering on supervision or adult education;

(C) taught adults; or

(D) supervised nurse aides.

(d) Any supplemental instructor may provide training in a subject area of the supplemental instructor's healthcare profession if that person has skills and knowledge in the subject area, has at least one year of full-time experience in that person's healthcare profession, and is under the direct supervision of the course supervisor or instructor.

(e) One person may serve as both course supervisor or instructor, if the person meets the qualifications of the designated positions as specified in subsections (a) and (c).

(f) Each course supervisor and course sponsor shall ensure that the following requirements are met:

(1) A completed course approval application shall be submitted to the department at least three weeks before offering any initial or subsequent nurse aide training course. Course approval shall be obtained from the secretary before the beginning date of the initial course and each subsequent course. Each change in course supervisor, course location, or course schedule shall require prior approval by the secretary.

(2) All course objectives shall be accomplished.

(3) The course shall be prepared and administered in accordance with the "Kansas certified nurse aide curriculum guidelines (90 hours)" and the "Kansas certified nurse aide course (90 hour) instruction manual," as adopted by reference in K.A.R. 26-50-12.

(4) The provision of direct care to residents by a nurse aide trainee II during clinical instruction shall be under the direct supervision of the instructor and shall be limited to clinical experiences that are only for the purpose of learning nursing skills.

(5) During the clinical instruction, the instructor shall perform no duties other than the provision of direct supervision to the nurse aide trainees.

(6) Each nurse aide trainee in the 90-hour nurse aide course shall demonstrate competency in all skills identified on the part I nurse aide training and competency evaluation program task checklist to an RN, as evidence of successful completion of the training course. The RN shall be licensed in the state of Kansas with no pending or current disciplinary action against that person's license and shall have at least one year of licensed nurse experience in providing care for the elderly or chronically ill who are 16 years of age or older. This RN shall date and sign the checklist verifying the nurse aide trainee's skills competency.

(7) Each course supervisor, instructor, and supplemental instructor shall meet the requirements of the designated positions as specified in subsections (a), (c), and (d).

(g) Any course supervisor or course sponsor who does not meet the requirements of this regulation may be subject to withdrawal of approval to serve as a course supervisor or course sponsor. (Authorized by K.S.A. 2012 Supp. 39-925, 39-936, 39-1901, and 39-1908; implementing K.S.A. 2012 Supp. 39-936 and 39-1908; effective, T-26-6-28-13, June 28, 2013; effective Oct. 25, 2013.)

26-50-24. Nurse aide; state test. (a) The state test for nurse aides shall consist of 100 multiple-choice questions. A score of 75 percent or higher shall constitute a passing score.

(b)(1) Only persons who have successfully completed an approved 90-hour nurse aide course or have completed education or training that has been deemed equivalent as specified in K.A.R. 26-50-26 shall be allowed to take the state test.

(2) Each person who has completed an approved 90-hour course as specified in K.A.R. 26-50-20 shall have no more than three attempts within 12 months after the beginning date of the course to pass the state test. If the person does not pass the state test within this 12-month period, the person shall be required to retake and successfully complete the entire nurse aide course.

(3) Each person whose education or training has been endorsed or deemed equivalent as specified in K.A.R. 26-50-26 shall have no more than one attempt to pass the state test, except as specified in this paragraph. If the person does not pass the state test, the person shall be required to successfully complete an approved 90-hour

nurse aide course as specified in K.A.R. 26-50-20 to be eligible to retake the state test. The person shall have no more than three attempts within 12 months after the beginning date of the course to pass the state test.

(c)(1) Each nurse aide trainee II shall pay a nonrefundable application fee of \$20.00 before taking the state test. A nonrefundable application fee shall be required each time the person is scheduled to take the state test.

(2) Each person who is scheduled to take the state test but fails to take the state test shall submit another nonrefundable application fee of \$20.00 before being scheduled for another opportunity to take the state test.

(3) Each instructor shall collect the application fee and application for each nurse aide trainee II who is eligible to take the state test and shall submit the application fees, application forms, class roster, and accommodation request forms to the department or its designated agent.

(d)(1) Any person who is eligible to take the state test may request reasonable test accommodation or an auxiliary aid to address the person's disability. Each time the person is scheduled to take the test, the person shall submit a request for reasonable accommodation or an auxiliary aid.

(2) Each person who requests a test accommodation shall submit an accommodation request form with the person's application form to the instructor. The instructor shall forward these forms to the department or its designated agent at least three weeks before the desired test date.

(3) Each person whose second language is English shall be allowed to use a bilingual dictionary while taking the state test. Limited English proficiency shall not constitute a disability with regard to accommodations. An extended testing period of up to two additional hours may be offered to persons with limited English proficiency. (Authorized by K.S.A. 2012 Supp. 39-925, 39-936, 39-1901, and 39-1908; implementing K.S.A. 2012 Supp. 39-936 and 39-1908; effective, T-26-6-28-13, June 28, 2013; effective Oct. 25, 2013.)

26-50-26. Nurse aide; out-of-state and allied health training equivalency. (a) Any person may be employed in the state without taking the Kansas state test if the person meets the following requirements:

(1) Has been employed as a nurse aide in another state and is eligible for employment in that state; and

(2) has been determined by the secretary to have successfully completed training or passed a test, or both, that is equivalent to the training and state test required in Kansas for nurse aides.

(b) Each person qualified under subsection (a) shall receive written notification from the department of the following:

(1) Exemption from the requirement to take the state test for nurse aides;

(2) placement on the Kansas nurse aide registry; and

(3) eligibility for employment.

(c) Each of the individuals specified in this subsection shall be determined to have training equivalent to the nurse aide training. Any of the following individuals may be deemed eligible to take the state test, as specified in K.A.R. 26-50-24:

(1) The person is currently licensed to practice as an RN or LPN in another state and has no pending or current disciplinary actions against that individual's license.

(2) The person is currently licensed to practice as a licensed mental health technician in Kansas or another state and has no pending or current disciplinary action against that individual's license.

(3) The person's license to practice as an RN, LPN, or licensed mental health technician has become inactive within the 24-month period immediately before the individual applied for equivalency, and the person has no pending disciplinary actions against that person's license.

(4) The person is currently enrolled in an accredited practical or professional nursing program or mental health technician training program and has successfully completed basic skills courses covering personal hygiene, nutrition and feeding, safe transfer and ambulation techniques, normal range of motion and positioning, and a supervised clinical experience in geriatrics.

(d) Any person eligible under subsection (c) may receive written approval from the secretary or the secretary's designee to take the state test. Upon receiving this written approval, that person may be employed by an adult care home as a nurse aide trainee II to provide direct care under the direct supervision of an RN or LPN. That person shall be required to pass the state test as specified in K.A.R. 26-50-24 for certification and placement on the Kansas nurse aide registry, within one four-month period beginning on the date of approval to take the state test, to continue employment providing direct care. (Authorized by K.S.A. 2012 Supp. 39-925, 39-936, 39-1901, and

39-1908; implementing K.S.A. 2012 Supp. 39-936 and 39-1908; effective, T-26-6-28-13, June 28, 2013; effective Oct. 25, 2013.)

26-50-30. Medication aide; program. (a) Each medication aide shall meet the following requirements:

(1)(A) Be a certified nurse aide listed on the Kansas nurse aide registry with no pending or current prohibitions against that individual's certification; or

(B) be a qualified intellectual disability professional;

(2) successfully complete a course in medication administration approved by the secretary;

(3) pass the state test approved by the secretary; and

(4) be at least 18 years old.

(b) Each person shall meet one of the following requirements to be eligible to enroll in a medication aide course:

(1) Be a nurse aide listed on the Kansas nurse aide registry with no pending or current prohibitions against that individual's certification and have been screened and tested for reading and comprehension of the written English language at an eighth-grade level; or

(2) be a qualified intellectual disability professional employed by an intermediate care facility for people with intellectual disability.

(c) A qualified intellectual disability professional who is not listed as a certified nurse aide on the Kansas nurse aide registry shall be allowed to administer medications only to residents in an intermediate care facility for people with intellectual disability after the individual has completed a course in medication administration approved by the secretary and has passed the state test.

(d) Each medication aide course shall meet the following requirements:

(1) Consist of at least 75 hours, which shall include at least 25 hours of clinical instruction;

(2) be prepared and administered in accordance with the "Kansas certified medication aide curriculum" and the "Kansas certified medication aide course instruction manual," as adopted by reference in K.A.R. 26-50-12; and

(3) be sponsored by one of the following:

(A) A postsecondary school under the jurisdiction of the state board of regents;

(B) A state-operated institution for persons with intellectual disability; or

(C) a professional health care association approved by the secretary.

(e) No correspondence course shall be approved as a medication aide course.

(f) Each distance-learning offering and each computer-based educational offering of the medication aide course shall meet the requirements in subsection (d). (Authorized by K.S.A. 2012 Supp. 39-925, 39-936, 39-1901, and 39-1908; implementing K.S.A. 2012 Supp. 39-925, 39-936, and 39-1908 and K.S.A. 65-1,120; effective, T-26-6-28-13, June 28, 2013; effective Oct. 25, 2013.)

26-50-32. Medication aide course; instructor and course sponsor. (a) Each instructor of the medication aide course shall meet the following requirements:

(1) Be licensed to practice as an RN and have no pending or current disciplinary actions against that individual's license; and

(2) have at least two years of clinical experience as an RN. Any pharmacist licensed in Kansas and actively working in the pharmacy field may conduct part of the training under the supervision of an approved instructor.

(b) When seeking approval as a medication aide course instructor, the applicant shall submit a completed instructor approval application to the department at least three weeks before offering an initial course and shall have obtained approval from the secretary before the beginning date of the initial course.

(c) Each instructor and each course sponsor shall ensure that the following requirements are met:

(1) A completed course approval application form shall be submitted to the department at least three weeks before offering any initial or subsequent medication aide course. Course approval shall be obtained from the secretary before the beginning date of each initial or subsequent medication aide course.

(2) The course shall be prepared and administered in accordance with the "Kansas certified medication aide curriculum" and the "Kansas certified medication aide course instruction manual," as adopted by reference in K.A.R. 26-50-12.

(3) Each person shall be screened and tested for comprehension of the written English language at an eighth-grade reading level before enrolling in the course.

(4) The clinical instruction and skills performance involving the administering of medica-

tions shall be under the direct supervision of the instructor and shall be limited to clinical experiences that are only for the purpose of learning medication administration skills.

(5) During the clinical instruction and skills performance, the instructor shall perform no duties other than the provision of direct supervision to the student.

(6) A list of the name of each person who successfully completed the course and passed the state test, along with a nonrefundable application fee of \$20.00 for each person and that person's completed application form, shall be submitted to the department.

(d) Any instructor or course sponsor who does not fulfill the requirements of this regulation may be subject to withdrawal of approval to serve as an instructor or a course sponsor. (Authorized by K.S.A. 2012 Supp. 39-925, 39-936, 39-1901, and 39-1908; implementing K.S.A. 2012 Supp. 39-925, 39-936, and 39-1908 and K.S.A. 65-1,120 and 65-1,121; effective, T-26-6-28-13, June 28, 2013; effective Oct. 25, 2013.)

26-50-34. Medication aide; state test; registry. (a) The state test for medication aides shall be administered by the secretary or the secretary's designee and in accordance with the "Kansas certified medication aide course instruction manual," as adopted by reference in K.A.R. 26-50-12.

(b) The state test for medication aides shall consist of 85 multiple-choice questions. A score of at least 65 correct answers shall constitute a passing score.

(c)(1) Only persons who have met the requirements in K.A.R. 26-50-30 (a)(1), (2), and (4) and in K.A.R. 26-50-36 shall be eligible to take the state test for medication aides.

(2) Each person who has completed the medication aide course as specified in K.A.R. 26-50-30 shall have no more than two attempts within 12 months after the beginning date of the course to pass the state test for medication aides. If the person does not pass the test within this 12-month period, the person shall retake the medication aide course. Each time the person successfully completes the course, the person shall have two attempts to pass the state test within 12 months after the beginning date of the course. The number of times a person may retake the course shall be unlimited.

(3) Each person who is listed on the Kansas nurse aide registry with no current or pending

prohibitions and whose training has been deemed equivalent to the Kansas medication aide course shall have no more than one attempt to pass the state test within 12 months after the beginning date of the equivalency approval. If the person does not pass the state test within this 12-month period, the person shall be required to take the state medication aide course.

(d) Each person whose second language is English shall be allowed to use a bilingual dictionary while taking the state test. Limited English proficiency shall not constitute a disability with regard to accommodation. An extended testing period of up to 90 minutes may be offered to persons with limited English proficiency.

(e) Each person shall be identified on the Kansas nurse aide registry as a certified medication aide after the department has received the following:

(1) A list of the name of each person who successfully completed the course;

(2) each person's application; and

(3) each person's nonrefundable fee of \$20.00. (Authorized by K.S.A. 2012 Supp. 39-925, 39-936, 39-1901, and 39-1908; implementing K.S.A. 2012 Supp. 39-925, 39-936, and 39-1908 and K.S.A. 65-1,120 and 65-1,121; effective, T-26-6-28-13, June 28, 2013; effective Oct. 25, 2013.)

26-50-36. Medication aide; out-of-state and allied health training equivalency. Any person whose education or training has been deemed equivalent to the medication aide course offered by an approved sponsor as specified in K.A.R. 26-50-30 may apply to take the state test to become certified as a medication aide. Before requesting a determination of education or training equivalency as a medication aide, that person shall be listed on the Kansas nurse aide registry with no pending or current prohibitions against that person's certification and shall meet one of the following requirements:

(a) The person shall be currently certified to administer medications in another state. The department or its designated agent shall evaluate that state's certification training for equivalency in content and skills level with the requirements for certification as a medication aide in Kansas.

(b) The person shall be currently enrolled in an accredited practical nursing or professional nursing program and shall have completed a course of study in pharmacology with a grade of C or better.

(c) The person shall be currently licensed in Kansas or another state as a licensed mental health

technician and shall have no pending or current disciplinary actions against that person's license.

(d) The person's license to practice as an RN, an LPN, or a licensed mental health technician shall have become inactive within the 24-month period immediately before the individual applied for equivalency, and the person shall have no pending or current disciplinary actions against that person's license. (Authorized by K.S.A. 2012 Supp. 39-925, 39-936, 39-1901, and 39-1908; implementing K.S.A. 2012 Supp. 39-925, 39-936, and 39-1908 and K.S.A. 65-1,120; effective, T-26-6-28-13, June 28, 2013; effective Oct. 25, 2013.)

26-50-38. Medication aide; certification renewal and reinstatement; notification of changes. (a) Each person who has been certified as a medication aide as specified in K.A.R. 26-50-30 and wants to maintain that person's certification shall complete a 10-hour continuing education course every two years before that person's certification expires. The course shall be approved by the secretary. Approved continuing education hours completed in excess of the requirement shall not be carried over to the next certification renewal period.

(b) Each medication aide's certification shall be renewed every two years upon the department's receipt of each of the following from the course instructor before that medication aide's certification expires:

(1) Verification of the medication aide's completion of 10 hours of an approved continuing education course;

(2) the medication aide's renewal form; and

(3) a nonrefundable renewal fee of \$20.00.

(c)(1) Each person's medication aide certification shall be valid for two years from the date of issuance.

(2) Each person whose medication aide certification has been expired for not more than one year may have that person's certification reinstated and may be listed on the Kansas nurse aide registry if the department receives the items specified in paragraphs (b)(1) through (3) from the course instructor.

(3) Each person whose certification has been expired for more than one year shall retake the 75-hour medication aide course and the state test, for reinstatement of certification and listing on the Kansas nurse aide registry.

(d) Each certified medication aide shall notify the department of any change in that person's ad-

dress or name. (Authorized by K.S.A. 2012 Supp. 39-925, 39-936, 39-1901, and 39-1908; implementing K.S.A. 2012 Supp. 39-925, 39-936, and 39-1908 and K.S.A. 65-1,120 and 65-1,121; effective, T-26-6-28-13, June 28, 2013; effective Oct. 25, 2013.)

26-50-40. Medication aide; continuing education course. (a) A 10-hour continuing education course shall be approved by the secretary for renewal or reinstatement of certification as a medication aide, as specified in K.A.R. 26-50-38.

(b) The continuing education course requirement shall include one or more of the following topics:

(1) Classes of drugs and new drugs;

(2) new uses of existing drugs;

(3) methods of administering medications;

(4) alternative treatments, including herbal drugs and their potential interaction with traditional drugs;

(5) safety in the administration of medications;

or

(6) documentation.

(c) Each continuing education program shall be sponsored by one of the following:

(1) A postsecondary school under the jurisdiction of the state board of regents;

(2) an adult care home;

(3) a long-term care unit of a hospital;

(4) a state-operated institution for persons with intellectual disability; or

(5) a professional health care association approved by the secretary.

(d) Each instructor of the medication aide continuing education course shall meet the following requirements:

(1) Be licensed to practice as an RN and have no pending or current disciplinary actions against that individual's license;

(2) have at least two years of clinical experience as a licensed nurse. Any pharmacist licensed in Kansas and actively working in the pharmacy field may conduct part of the training under the supervision of an approved instructor; and

(3) submit a completed instructor approval application to the department at least three weeks before first offering a medication aide continuing education course and obtain approval from the secretary before the beginning date of that course.

(e) Each instructor and course sponsor shall ensure that the following requirements are met:

(1) A course approval application form shall be

submitted to the department at least three weeks before offering a course, and course approval shall be received from the secretary before the beginning date of the course.

(2) The course shall be prepared and administered in accordance with “Kansas certified medication aide curriculum” and the “Kansas certified medication aide course instruction manual,” as adopted by reference in K.A.R. 26-50-12.

(3) If clinical instruction and skills performance in administering medication are included in the course, each student administering medication shall be under the direct supervision of the instructor.

(4) A listing of the name of each person who successfully completed the course, along with each person’s nonrefundable renewal fee of \$20.00 and application form, shall be submitted to the department.

(f) Any course sponsor or instructor who does not fulfill the requirements specified in subsections (a) through (e) may be subject to withdraw-

al of approval to serve as a course sponsor or an instructor.

(g) College courses and vocational training may be approved by the secretary as substantially equivalent to a medication aide continuing education course. The instructor or nursing program coordinator shall submit a department-approved form attesting that the course content is substantially equivalent to the topics listed in paragraphs (b)(1) through (6).

(h) No correspondence course shall be approved for a medication aide continuing education course.

(i) Each distance-learning educational offering and each computer-based educational offering of continuing education for any medication aide shall meet the requirements in subsections (a) through (f). (Authorized by K.S.A. 2012 Supp. 39-925, 39-936, 39-1901, and 39-1908; implementing K.S.A. 2012 Supp. 39-936 and 39-1908 and K.S.A. 65-1,121; effective, T-26-6-28-13, June 28, 2013; effective Oct. 25, 2013.)

Article 1.—DISEASES

28-1-1. Definitions. As used in K.A.R. 28-1-1 through 28-1-23, each of the following terms shall have the meaning specified in this regulation: (a) "Case" means an instance of a diagnosed

infectious or contagious disease or condition in a person or an animal.

(b) "Cluster, outbreak, or epidemic" means a situation in which cases are observed in excess of what is expected compared to the usual frequency of the incidence of the infectious or contagious

disease or condition in a defined area, among a specified population, and during a specified period of time.

(c) “Condition” means any noninfectious adverse health event.

(d) “Correctional facility” means any city or county jail or any correctional institution, as defined in K.S.A. 75-5202 and amendments thereto.

(e) “Corrections officer” means an employee of the department of corrections, as defined in K.S.A. 75-5202 and amendments thereto, and any person employed by a city or county who is in charge of a jail or section of a jail, including jail guards and those individuals who conduct searches of persons taken into custody.

(f) “Department” means Kansas department of health and environment.

(g) “Emergency services employee” means an attendant, as specified in K.S.A. 65-6112 and amendments thereto; a supervised student, as described in K.S.A. 65-6129a and amendments thereto; an observer authorized by an employing agency or entity; or a paid or volunteer firefighter.

(h) “Infectious or contagious diseases” has the meaning specified for “infectious and contagious diseases” in K.S.A. 65-116a, and amendments thereto.

(i) “Local health officer” means each person appointed pursuant to K.S.A. 65-201, and amendments thereto.

(j) “Occupational exposure” has the meaning specified in K.S.A. 65-116a, and amendments thereto.

(k) “Other potentially infectious materials” has the meaning specified in K.S.A. 65-116a, and amendments thereto.

(l) “Physician” means a person licensed by the state board of healing arts to practice medicine and surgery.

(m) “Secretary” means secretary of the department of health and environment.

(n) “Suspected case” means an instance in which signs and symptoms suggestive of an infectious or contagious disease or condition are present in a person or animal before confirmation of the diagnosis. (Authorized by and implementing K.S.A. 65-101 and K.S.A. 2017 Supp. 65-128; effective May 1, 1982; amended May 11, 2018.)

28-1-2. Reporting requirements for infectious or contagious diseases and conditions.

(a) Each person licensed to practice the healing arts or engaged in a postgraduate training pro-

gram approved by the state board of healing arts, licensed dentist, licensed professional nurse, licensed practical nurse, administrator of a hospital, licensed adult care home administrator, licensed physician assistant, licensed social worker, and teacher or school administrator shall report each suspected case of the following infectious or contagious diseases or conditions to the secretary within four hours of knowledge of the suspected case:

- (1) Anthrax;
- (2) botulism;
- (3) cholera;
- (4) diphtheria;
- (5) measles (rubeola);
- (6) meningococcal disease;
- (7) mumps;
- (8) novel influenza A virus infection;
- (9) plague (*Yersinia pestis*);
- (10) poliovirus;
- (11) rabies, human;
- (12) rubella;
- (13) severe acute respiratory syndrome-associated coronavirus (SARS-CoV);
- (14) smallpox;
- (15) tetanus;
- (16) tuberculosis;
- (17) vaccinia, postvaccination infection or secondary transmission;
- (18) viral hemorrhagic fevers, including Ebola virus, Marburg virus, Crimean-Congo hemorrhagic fever virus, Lassa virus, Lujo virus, and any of the New World arenaviruses; and
- (19) any exotic or newly recognized disease.

(b) Each person licensed to practice the healing arts or engaged in a postgraduate training program approved by the state board of healing arts, licensed dentist, licensed professional nurse, licensed practical nurse, administrator of a hospital, licensed adult care home administrator, licensed physician assistant, licensed social worker, and teacher or school administrator shall report each occurrence of any of the following to the secretary within four hours:

- (1) Clusters, outbreaks, or epidemics;
- (2) possible terrorist acts due to biological, chemical, or radiological agents;
- (3) unexplained death suspected to be due to an unidentified infectious agent; or
- (4) any unusual disease or manifestation of illness.

(c) Each person specified in subsection (a) shall report each case of the infectious or contagious diseases or conditions specified in this subsection

to the secretary within 24 hours, except that if the reporting period ends on a weekend or state-approved holiday, the report shall be made to the secretary by 5:00 p.m. on the next business day after the 24-hour period. Each report for the following shall be required only upon receipt of laboratory evidence of the infectious or contagious disease or condition, unless otherwise specified or requested by the secretary:

- (1) Acute flaccid myelitis (report all suspected cases, regardless of laboratory evidence);
- (2) anaplasmosis;
- (3) arboviral disease, neuroinvasive and non-neuroinvasive, including California serogroup virus disease, chikungunya virus, any dengue virus infection, eastern equine encephalitis virus disease (EEE), Powassan virus disease, St. Louis encephalitis virus disease (SLE), West Nile virus disease (WNV), western equine encephalitis virus disease (WEE), and Zika virus;
- (4) babesiosis;
- (5) blood lead level, any results;
- (6) brucellosis, including laboratory exposures to *Brucella* species;
- (7) campylobacteriosis;
- (8) *Candida auris*;
- (9) carbapenem-resistant bacterial infection or colonization;
- (10) carbon monoxide poisoning (report all suspected cases, regardless of laboratory evidence);
- (11) chancroid;
- (12) chickenpox (varicella) (report all suspected cases, regardless of laboratory evidence);
- (13) *Chlamydia trachomatis* infection;
- (14) coccidioidomycosis;
- (15) cryptosporidiosis;
- (16) cyclosporiasis;
- (17) ehrlichiosis;
- (18) giardiasis;
- (19) gonorrhea, including antibiotic susceptibility testing results, if performed;
- (20) *Haemophilus influenzae*, invasive disease;
- (21) Hansen's disease (leprosy) (report all suspected cases, regardless of laboratory evidence);
- (22) hantavirus (report all suspected cases, regardless of laboratory evidence);
- (23) hemolytic uremic syndrome, postdiarrheal (report all suspected cases, regardless of laboratory evidence);
- (24) hepatitis A, acute hepatitis A (IgM antibody-positive laboratory results only);
- (25) hepatitis B, acute, chronic, and perinatal infections;

(26) hepatitis B in pregnancy (report the pregnancy of each woman with hepatitis B virus infection);

(27) hepatitis B (report all positive, negative, and inconclusive results for children younger than five years of age);

(28) hepatitis C;

(29) hepatitis D;

(30) hepatitis E;

(31) histoplasmosis;

(32) human immunodeficiency virus infection;

(33) human immunodeficiency virus-positive cases (report either the CD4+ T-lymphocyte cell counts or the CD4+ T-lymphocyte percent of total lymphocytes);

(34) human immunodeficiency virus infection in pregnancy (report the pregnancy of each woman with human immunodeficiency virus infection);

(35) human immunodeficiency virus (report viral load of any value);

(36) influenza that results in the death of any child under 18 years of age (report both suspected cases and cases, regardless of laboratory evidence);

(37) legionellosis;

(38) leptospirosis;

(39) listeriosis;

(40) Lyme disease;

(41) malaria;

(42) psittacosis;

(43) Q fever, acute and chronic;

(44) rabies, animal;

(45) salmonellosis;

(46) shiga toxin-producing *Escherichia coli* (STEC);

(47) shigellosis;

(48) spotted fever rickettsiosis;

(49) streptococcal toxic-shock syndrome;

(50) *Streptococcus pneumoniae*, invasive disease;

(51) syphilis, including congenital syphilis (report all suspected cases, regardless of laboratory evidence);

(52) toxic-shock syndrome, other than streptococcal;

(53) transmissible spongiform encephalopathy (TSE) or prion disease (indicate causative agent, if known);

(54) trichinellosis or trichinosis (report all suspected cases, regardless of laboratory evidence);

(55) tuberculosis infection (report all suspected cases based on positive tuberculin skin test or laboratory evidence);

- (56) tularemia, including laboratory exposures;
- (57) typhoid fever;
- (58) vancomycin-intermediate *Staphylococcus aureus* (VISA);
- (59) vancomycin-resistant *Staphylococcus aureus* (VRSA);
- (60) vibriosis or non-cholera *Vibrio* species;
- (61) yellow fever; and
- (62) whooping cough (pertussis) (report all suspected cases, regardless of laboratory evidence).

(d) Each person specified in subsection (a) shall report the following information in a manner specified by the secretary for any suspected case or case required to be reported by subsection (a), (b), or (c):

(1) The following personal information for each patient:

- (A) First and last names and middle initial;
- (B) address, including city, state, and zip code;
- (C) telephone number, including area code;
- (D) date of birth;
- (E) sex;
- (F) race;
- (G) ethnicity (specify if hispanic or non-hispanic ethnicity);
- (H) pregnancy status;
- (I) date of onset of symptoms; and
- (J) diagnosis;
- (2) type of diagnostic tests;
- (3) type of specimen;
- (4) date of specimen collection;
- (5) site of specimen collection;
- (6) diagnostic test results, including reference range, titer if quantitative procedures are performed, and all available results concerning additional characterization of the organism;
- (7) treatment given;
- (8) name, address, and telephone number of the attending physician; and
- (9) any other necessary epidemiological information and additional specimen collection or laboratory test results requested by the secretary or local health officer. (Authorized by K.S.A. 65-101, K.S.A. 2017 Supp. 65-128, K.S.A. 65-1,202, and K.S.A. 65-6003; implementing K.S.A. 65-101, K.S.A. 2017 Supp. 65-118 and K.S.A. 65-6002; effective May 1, 1982; amended May 1, 1986; amended Dec. 24, 1990; amended April 19, 1993; amended Jan. 12, 1996; amended Dec. 1, 1997; amended Feb. 18, 2000; amended, T-28-11-20-03, Nov. 20, 2003; amended March 5, 2004; amended April 28, 2006; amended May 11, 2018.)

28-1-4. Hospital reporting requirements.

(a) The administrator of each hospital licensed in Kansas shall report the following information to the secretary when requested by the secretary and for the duration specified by the secretary, if this information is in the hospital's possession:

(1) The number of laboratory test orders for specified infectious or contagious diseases or conditions and the results for specified infectious or contagious diseases or conditions;

(2) the number of pharmacy prescriptions for medications used to treat specified infectious or contagious diseases or conditions;

(3) the number of emergency room visits for symptoms related to specified infectious or contagious diseases or conditions; and

(4) utilization rates of other services that can provide an early warning of an infectious or contagious disease, a condition, a cluster, outbreak, or epidemic, or any other public health threat specified by the secretary, if that information can be provided by the hospital with minimum additional burden.

(b) The administrator of each hospital licensed in Kansas may designate a person within the hospital to report infectious or contagious diseases or conditions on behalf of the individuals required by K.A.R. 28-1-2 to report suspected cases and cases observed at the hospital. Each report from the designated hospital person shall meet all reporting requirements for individuals required by K.A.R. 28-1-2 to report suspected cases and cases. (Authorized by K.S.A. 65-101; implementing K.S.A. 65-101 and K.S.A. 2017 Supp. 65-102; effective May 1, 1982; amended May 1, 1986; amended Jan. 12, 1996; amended Oct. 16, 1998; amended, T-28-11-20-03, Nov. 20, 2003; amended March 5, 2004; amended May 11, 2018.)

28-1-6. Requirements for isolation and quarantine of specific infectious or contagious diseases.

(a) The requirements for isolation and quarantine shall be those specified in the department's "requirements for isolation and quarantine of infectious or contagious diseases," dated March 15, 2018, which is hereby adopted by reference.

(b) No isolation or quarantine shall be required for the following infectious or contagious diseases:

- (1) Anaplasmosis;
- (2) anthrax;
- (3) babesiosis;
- (4) botulism;

- (5) brucellosis;
- (6) chancroid;
- (7) *Chlamydia trachomatis* infection;
- (8) coccidioidomycosis;
- (9) cyclosporiasis;
- (10) ehrlichiosis;
- (11) gonorrhea;
- (12) Hansen's disease (leprosy);
- (13) hantavirus pulmonary syndrome;
- (14) hepatitis B, acute, chronic, and perinatal infections;
- (15) hepatitis C, acute and either past or present infections;
- (16) hepatitis D;
- (17) hepatitis E;
- (18) histoplasmosis;
- (19) human immunodeficiency virus;
- (20) legionellosis;
- (21) leptospirosis;
- (22) listeriosis;
- (23) Lyme disease;
- (24) malaria;
- (25) psittacosis;
- (26) Q fever, acute and chronic;
- (27) spotted fever rickettsiosis;
- (28) syphilis;
- (29) tetanus;
- (30) transmissible spongiform encephalopathy (TSE) or prion disease;
- (31) trichinellosis (trichinosis);
- (32) tularemia; and
- (33) yellow fever. (Authorized by K.S.A. 65-101 and K.S.A. 2017 Supp. 65-128; implementing K.S.A. 65-101, K.S.A. 2017 Supp. 65-118, K.S.A. 65-122, and K.S.A. 2017 Supp. 65-128; effective May 1, 1982; amended May 1, 1986; amended Sept. 5, 1997; amended July 16, 1999; amended July 20, 2007; amended May 11, 2018.)

28-1-7. (Authorized by K.S.A. 1981 Supp. 65-101, K.S.A. 65-128; implementing K.S.A. 1981 Supp. 65-101; effective May 1, 1982; revoked May 11, 2018.)

28-1-12. Release from isolation or quarantine. All laboratory tests and cultures for the release of an individual from isolation or quarantine shall be performed by the department's laboratory or by a laboratory approved by the secretary for this purpose. (Authorized by K.S.A. 65-101 and K.S.A. 2017 Supp. 65-128; implementing K.S.A. 65-101; effective May 1, 1982; amended May 11, 2018.)

28-1-13. Rabies control. The requirements for the control of rabies shall be those specified in the department's "rabies control requirements," dated October 19, 2017, which is hereby adopted by reference. (Authorized by K.S.A. 65-101 and K.S.A. 2017 Supp. 65-128; implementing K.S.A. 65-101, K.S.A. 2017 Supp. 65-128, and K.S.A. 75-5661; effective May 1, 1982; amended May 1, 1986; amended July 5, 1996; amended April 24, 1998; amended May 11, 2018.)

28-1-18. Reporting and submission requirements for laboratories. (a) Each person who is in charge of a laboratory as specified in K.S.A. 65-118, and amendments thereto, shall provide the reports required by K.A.R. 28-1-2 to the department using an automated, secure electronic laboratory-reporting system or other means acceptable to the secretary. A person's use of electronic or automated reporting shall not exempt that person from reporting a suspected case within four hours as required by K.A.R. 28-1-2.

(b) Each person who is in charge of a laboratory as specified in K.S.A. 65-118, and amendments thereto, shall submit the following to the department's office of laboratory services in the following order of preference, if the test results indicate the presence of any microorganism specified in subsection (c):

- (1) Isolates of positive cultures;
- (2) original clinical specimen from a patient;
- (3) nucleic acid; or
- (4) any other materials determined by the secretary.

(c) Each person who is in charge of a laboratory as specified in K.S.A. 65-118, and amendments thereto, shall submit the specimens specified in subsection (b) if the test results indicate the presence of any of the following microorganisms:

- (1) Any carbapenem-resistant organism;
- (2) *Candida auris*;
- (3) *Haemophilus influenzae*, if identified in a patient with invasive disease;
- (4) *Listeria* species;
- (5) *Mycobacterium tuberculosis*;
- (6) *Neisseria meningitidis*;
- (7) *Salmonella* species;
- (8) shiga toxin-producing *Escherichia coli* (STEC);
- (9) *Shigella* species;
- (10) *Streptococcus pneumoniae*, invasive; and
- (11) *Vibrio* species. (Authorized by and implementing K.S.A. 65-101, K.S.A. 2017 Supp. 65-118,

and K.S.A. 2017 Supp. 65-128; effective, E-68-22, Aug. 9, 1968; effective Jan. 1, 1969; amended May 1, 1986; amended Aug. 23, 1993; amended Jan. 12, 1996; amended Dec. 1, 1997; amended Feb. 18, 2000; amended, T-28-8-9-02, Aug. 9, 2002; amended Dec. 2, 2002; amended May 11, 2018.)

28-1-20. Immunizations; schools, child care facilities, and preschool or child care programs operated by a school. (a) Definition. For the purposes of this regulation, “susceptible child” shall mean either of the following if, for that individual, there is no history of the disease that has been documented by a physician, no laboratory documentation of immunity, or no documentation acceptable to the secretary that demonstrates current vaccination against the disease:

(1) Any individual who attends school as defined in K.S.A. 72-6261, and amendments thereto; or

(2) any individual who is enrolled, is placed, or resides in a child care facility as defined in K.S.A. 65-503, and amendments thereto, or a preschool or child care program operated by a school.

(b) Required vaccinations. Except as provided in K.S.A. 72-6262 and amendments thereto, each susceptible child shall be required to receive the following vaccinations before enrolling in any school:

- (1) Diphtheria;
- (2) hepatitis A;
- (3) hepatitis B;
- (4) measles (rubeola);
- (5) meningitis;
- (6) mumps;
- (7) pertussis (whooping cough);
- (8) poliomyelitis;
- (9) rubella (German measles);
- (10) tetanus; and
- (11) varicella (chickenpox).

(c) Immunization record for school entry. The immunization record of each individual who attends school shall document that the individual has received the vaccinations specified in subsection (b) from a physician or local health department or is not a susceptible child, on forms provided by the department of health and environment.

(d) Immunizations required for a child in a child care facility or preschool or child care program operated by a school. Each susceptible child, including a child under 16 years of age of a child care provider who is enrolled, is placed, or resides in a child care facility or a preschool or child care program operated by a school, shall be required to

receive the following immunizations as medically appropriate:

- (1) Diphtheria;
- (2) *Haemophilus influenzae* type B;
- (3) hepatitis A;
- (4) hepatitis B;
- (5) measles (rubeola);
- (6) mumps;
- (7) pertussis (whooping cough);
- (8) pneumococcal disease;
- (9) poliomyelitis;
- (10) rubella;
- (11) tetanus; and
- (12) varicella (chickenpox).

(e) Immunization records for a child care facility. Each child’s immunization record shall be maintained on the forms provided by the department of health and environment. (Authorized by K.S.A. 65-508 and 72-6264; implementing K.S.A. 65-508 and 72-6262; effective, E-79-18, July 20, 1978; effective May 1, 1979; amended April 9, 2004; amended July 11, 2008; amended Aug. 2, 2019.)

28-1-23. Management of occupational exposures. (a) For the purpose of this regulation, each of the following terms shall have the meaning specified in this subsection:

(1) “Occupational exposure” means any occupational exposure, as defined in K.S.A. 65-116a and amendments thereto, that occurs to any of the following under the conditions specified:

(A) Any individual providing medical or nursing services, clinical or forensic laboratory services, emergency medical services, or firefighting, law enforcement, or correctional services, whether for compensation or as a volunteer;

(B) any individual in training for certification, licensure, a position, or a job providing any services listed in paragraph (a)(1)(A); or

(C) any individual receiving services from an individual specified in paragraph (a)(1)(A) or (B).

(2) “Exposed person” means any individual who had an occupational exposure.

(3) “Source person” means any individual from whom an occupational exposure originated.

(4) “Infection control officer” means the individual on duty and designated to monitor and respond to occupational exposures by an entity providing medical or nursing services, clinical or forensic laboratory services, emergency medical services, or firefighting, law enforcement, or correctional services.

(b) Each exposed person specified in paragraph (a)(1)(A) or (B) shall inform the entity's infection control officer about the occupational exposure as soon as possible, but within four hours of the occupational exposure.

(c) The infection control officer shall determine whether the occupational exposure was sufficient to potentially transmit a pathogen or an infectious and contagious disease, considering current guidelines from the Kansas department of health and environment, the centers for disease control and prevention, and the United States public health service.

(d) If the infection control officer determines that the occupational exposure was sufficient to potentially transmit a pathogen or an infectious and contagious disease, the infection control officer shall direct that an appropriate specimen be obtained from the source person for testing.

(1) If the source person refuses to provide a specimen for testing, the infection control officer may submit an application to a court of competent jurisdiction for an order requiring the source person to submit an appropriate specimen for testing. The application shall include the following:

(A) An allegation that the source person has refused to provide an appropriate specimen for testing following an occupational exposure;

(B) the specific test or tests needed to be performed; and

(C) specification of whether and how frequently any additional tests may be required.

(2) If the source person has died and the infection control officer requests a specimen, the custodian of the source person's remains shall obtain and preserve an appropriate specimen from the source person for testing.

(e) If a person who has been transported to a health care facility is subsequently determined to be a source person of a pathogen or an infectious and contagious disease that can be transmitted from person to person through the air or by exposure to respiratory droplets, the following notifications shall be required:

(1) Within four hours of the diagnosis, the treating health care provider shall notify the infection control officer of the health care facility of the presence of a source person.

(2) Within four hours of receiving notification from the treating health care provider, the infection control officer of the health care facility shall provide to the entity that transported the source person at least the following information:

(A) The name of the source person;

(B) the diagnosis; and

(C) the date and time the source person was transported to the health care facility.

(3) Within four hours of receiving notification from the health care facility, the infection control officer of the entity that transported the source person shall notify all other entities whose personnel could have cared for or interacted with the source person in a manner that could transmit the pathogen or the infectious and contagious disease and shall provide at least the following information:

(A) The name of the source person;

(B) the diagnosis; and

(C) the date and time the source person was transported to the health care facility.

(f) The results of the infectious and contagious disease test or tests shall be disclosed to the exposed person, the infection control officer responsible for the exposed person, and the source person as soon as possible. To the extent feasible, the disclosure to the exposed person shall not include the name or identity of the source person.

(g) If an infection control officer has determined that a person who is or has been in the care or custody of an individual providing medical or nursing services, emergency medical services, or firefighting, law enforcement, or correctional services has been exposed to an infectious and contagious disease, blood, or other potentially infectious materials by the individual providing those services, the infection control officer shall advise the exposed person and recommend appropriate testing as soon as feasible. (Authorized by and implementing K.S.A. 2013 Supp. 65-128; effective April 11, 2014.)

28-1-27. HIV screening guidelines.

(a) Adoption by reference. The HIV screening guidelines for each pregnant woman and newborn child whose HIV status is unknown shall be the section titled "recommendations for pregnant women" on pages 11 through 14 in the centers for disease control and prevention's document titled "revised recommendations for HIV testing of adults, adolescents, and pregnant women in health-care settings," dated September 22, 2006. This section is hereby adopted by reference, except as specified in subsection (b).

(b) Deletions. In the portion titled "universal opt-out screening," the following text shall be deleted:

(1) The words “oral or” in the following sentence: “Pregnant women should receive oral or written information that includes an explanation of HIV infection, a description of interventions that can reduce HIV transmission from mother to infant, and the meanings of positive and negative test results and should be offered an opportunity to ask questions and to decline testing”; and

(2) the following sentence: “No additional process or written documentation of informed consent beyond what is required for other routine prenatal tests should be required for HIV testing.” (Authorized by and implementing K.S.A. 2010 Supp. 65-6018; effective Feb. 25, 2011.)

28-1-30. Definitions. For the purposes of this article, the following definitions shall apply:

(a) “College designee” and “university designee” mean a person determined by the administration at a postsecondary educational institution to be responsible for the oversight and implementation of that institution’s TB prevention and control plan.

(b) “Department” means Kansas department of health and environment.

(c) “Health care provider” means any of the following licensed persons: medical doctor, doctor of osteopathy, doctor of podiatric medicine, advanced registered nurse practitioner as defined in K.S.A. 65-1113 and amendments thereto, and physician assistant.

(d) “High-risk student” means a student who meets any of the following conditions:

(1) Has signs and symptoms of active TB;

(2) has been in contact with a person who has been diagnosed with active TB; or

(3) has traveled, resided in for more than three months, or was born in any country where TB is endemic as determined by the secretary and consistent with guidance provided by the centers for disease control and prevention.

(e) “Postsecondary educational institution” has the meaning specified in K.S.A. 65-129e, and amendments thereto.

(f) “Secretary” means secretary of health and environment or the secretary’s designee.

(g) “Student” means an individual who has been admitted to a postsecondary educational institution where the course of studies will require physical attendance in a classroom setting with one or more persons.

(h) “TB” means tuberculosis.

(i) “TB prevention and control plan” means the policies and procedures adopted pursuant to

K.S.A. 65-129f, and amendments thereto, used at a postsecondary educational institution to reduce the risk of tuberculosis transmission and derived from pages 32 through 42 of the guidelines in “controlling tuberculosis in the United States: recommendations from the American thoracic society, CDC, and the infectious diseases society of America,” published in morbidity and mortality weekly report (MMWR) on November 4, 2005, vol. 54, no. RR-12. The pages specified in this subsection are hereby adopted by reference.

(j) “Tuberculosis” has the meaning specified in K.S.A. 65-116a, and amendments thereto. For the purposes of these regulations, the term “active TB” shall mean a person diagnosed with tuberculosis by a health care provider, and the term “latent TB infection” shall mean a person who is determined by a health care provider to have the bacterium that causes tuberculosis but has not been diagnosed with active TB. (Authorized by and implementing K.S.A. 2010 Supp. 65-129e and 65-129f; effective April 15, 2011.)

28-1-31. TB prevention and control plan.

(a) Each college designee and university designee shall implement a TB prevention and control plan.

(1) The TB prevention and control plan shall include a TB evaluation component for each student determined to be a high-risk student, which shall include the following as necessary:

(A) Tuberculin skin testing;

(B) interferon gamma release assay;

(C) chest radiograph;

(D) sputum evaluation;

(E) physical exam; and

(F) review of signs of symptoms.

(2) The TB prevention and control plan shall provide notification to the department if a student has been found to have latent TB infection or active TB, in accordance with K.A.R. 28-1-2.

(b) Each postsecondary educational institution shall be in compliance with this regulation within 12 months after the beginning of the academic year following the effective date of this regulation. (Authorized by and implementing K.S.A. 2010 Supp. 65-129e and 65-129f; effective April 15, 2011.)

28-1-32. Health services at colleges and universities; submission of a TB prevention and control plan; monitoring of compliance.

(a) Each college designee and university designee shall submit to the department a TB prevention

and control plan and any revisions that have been developed in consultation with the department, to ensure that the TB prevention and control plan includes evaluation criteria that are in compliance with the best practice standards as recommended by the division of tuberculosis elimination of the centers for disease control and prevention.

(b) Each postsecondary educational institution that provides health services and that performs infection or disease evaluations, or both, shall keep internal TB evaluation records for each high-risk student.

(c) Each postsecondary educational institution that does not have health services to perform infection or disease evaluations, or both, shall maintain the data on the form provided by the department for each individual considered to be a high-risk student.

(d) Each postsecondary educational institution shall be in compliance with this regulation within 12 months after the beginning of the academic year following the effective date of this regulation. (Authorized by and implementing K.S.A. 2010 Supp. 65-129e and 65-129f; effective April 15, 2011.)

Article 4.—MATERNAL AND CHILD HEALTH

28-4-92. License fees. When an applicant or licensee submits an application for a license or for the renewal of a license, the applicant or licensee shall submit to the secretary the appropriate non-refundable license fee specified in this regulation:

(a) For each maternity center as defined in K.S.A. 65-502 and amendments thereto, \$75;

(b) for each child placement agency as defined in K.S.A. 65-503 and amendments thereto, \$75;

(c) for each child care resource and referral agency as defined in K.S.A. 65-503 and amendments thereto, \$75;

(d) for each of the following child care facilities, \$75 plus \$1 times the maximum number of children to be authorized under the license:

(1) Day care home or group day care home, as defined in K.A.R. 28-4-113; and

(2) child care center, as defined in K.A.R. 28-4-420; and

(e) for each of the following child care facilities with a license capacity of 13 or more children, \$35 plus \$1 for each child included in the license capacity, with the total not to exceed \$75, and for each of the following child care facilities with a license capacity of 12 or fewer children, \$15:

(1) Attendant care facility, as defined in K.A.R. 28-4-285;

(2) detention center or secure care center, as defined in K.A.R. 28-4-350;

(3) preschool, as defined in K.A.R. 28-4-420;

(4) psychiatric residential treatment facility, as defined in K.A.R. 28-4-1200;

(5) residential center or group boarding home, as defined in K.A.R. 28-4-268; and

(6) secure residential treatment facility, as defined in K.A.R. 28-4-330. (Authorized by and implementing K.S.A. 65-505, as amended by L. 2010, ch. 161, sec. 6; effective, T-83-24, Aug. 25, 1982; effective May 1, 1983; amended, T-86-46, Dec. 18, 1985; amended May 1, 1986; amended, T-87-22, Aug. 21, 1986; amended May 1, 1987; amended, T-28-8-16-10, Aug. 16, 2010; amended Dec. 17, 2010.)

28-4-93. Online information dissemination system. This regulation shall apply to the department's online information dissemination system for child care facilities, as defined in K.S.A. 65-503 and amendments thereto. (a) Definitions. The following terms shall have the meanings specified in this regulation:

(1) "Applicant" means a person who has applied for a license to operate a child care facility but who has not yet been granted the license.

(2) "Applicant with a temporary permit" means a person who has been granted a temporary permit to operate a child care facility.

(3) "Department" means Kansas department of health and environment.

(4) "Licensee" means a person who has been granted a license to operate a child care facility.

(5) "Online information dissemination system" means the electronic database of the department that is accessible to the public.

(b) Identifying information. Each applicant, each applicant with a temporary permit, and each licensee that wants the department to display the address and the telephone number of the child care facility on the online information dissemination system shall notify the department on a form provided by the department. (Authorized by and implementing K.S.A. 2010 Supp. 65-534; effective Feb. 3, 2012.)

28-4-94. Background check requests for residential centers, group boarding homes, and child placement agencies. (a) Initial and renewal background check requests. Each appli-

cant submitting an initial application and each licensee submitting a renewal application shall submit a background check request on a form provided by the department. The request form shall be submitted with the application and shall include the name and all other required information for each individual who is at least 10 years old and is residing, working, or regularly volunteering in the residential center, group boarding home, or child placement agency.

(b) Additional background check requests. Each applicant with a temporary permit and each licensee shall submit a background check request on a form provided by the department before any individual who is at least 10 years old begins residing, working, or regularly volunteering in the residential center, group boarding home, or child placement agency.

(c) Background check not required. No background check request form shall be submitted for any individual admitted for care.

(d) Documentation. A copy of each background check request form shall be kept on file at the residential center, group boarding home, or child placement agency. (Authorized by K.S.A. 2014 Supp. 65-508; implementing K.S.A. 2014 Supp. 65-516; effective May 15, 2015.)

28-4-95. Fee for fingerprint-based background checks. Each applicant, applicant with a temporary permit, and licensee shall submit a nonrefundable fee of \$48 to the department for the cost of each required fingerprint-based background check, as follows:

(a) For each day care home, group day care home, child care center, and preschool, each individual specified in K.A.R. 28-4-125;

(b) for each school-age program, each individual specified in K.A.R. 28-4-584; and

(c) for each drop-in program, each individual specified in K.A.R. 28-4-705. (Authorized by and implementing K.S.A. 65-516; effective Nov. 26, 2018.)

28-4-113. Definitions. (a) “Applicant” means a person who has applied for a license but who has not yet been granted a license to operate a facility.

(b) “Applicant with a temporary permit” means a person who has been granted a temporary permit to operate a facility.

(c) “Care provider” and “provider” mean an individual who cares for and supervises children in a

facility and has responsibility for the health, safety, and well-being of children, including the following:

(1) A primary care provider;

(2) an individual who is at least 16 years of age and who is working in the facility; and

(3) a substitute.

(d) “Day care home” means the premises on which care is provided for a maximum of 10 children under 16 years of age, with a limited number of children under five years of age in accordance with K.A.R. 28-4-114 (e).

(e) “Department” means Kansas department of health and environment.

(f) “Emergency care” means care for a period not to exceed two weeks for children not regularly enrolled in a facility.

(g) “Evening care” means care after 6:00 p.m. and before 1:00 a.m. the following day for children enrolled at a facility and present during operating hours.

(h) “Extended absence” means time away from a facility for a period of more than three hours in a day.

(i) “Facility” means a day care home or a group day care home.

(j) “Fire inspector” means a person approved by the state fire marshal to conduct fire safety inspections.

(k) “Group day care home” means the premises on which care is provided for a maximum of 12 children under 16 years of age, with a limited number of children under five years of age in accordance with K.A.R. 28-4-114 (f).

(l) “Large motor activity” means any movement involving the arms, legs, feet, or entire body, including crawling, running, and jumping.

(m) “License capacity” means the maximum number of children who are authorized to be on the premises at any one time.

(n) “Licensed physician” means an individual who is licensed to practice either medicine and surgery or osteopathy in Kansas by the Kansas state board of healing arts or who practices either medicine and surgery or osteopathy in another state and is licensed under the licensing statutes of that state.

(o) “Licensee” means a person who has been granted a license to operate a facility.

(p) “Overnight care” means care after 1:00 a.m. for children enrolled at a facility and present during operating hours.

(q) “Primary care provider” means an applicant with a temporary permit, a licensee, or the desig-

nee of an applicant with a temporary permit or a licensee. Each applicant with a temporary permit, each licensee, and each designee shall be at least 18 years of age and shall meet the requirements for a primary care provider specified in K.A.R. 28-4-114a.

(r) "Professional development training" means training approved by the secretary that is related to working with children in care.

(s) "Substitute" means an individual who supervises children in the temporary absence or extended absence of the primary care provider and who meets the following requirements:

(1) In the temporary absence of the primary care provider, the substitute shall be at least 16 years of age and shall meet all of the requirements for a provider specified in K.A.R. 28-4-114a (a)(2), (b)(4)(C), and (c).

(2) In the extended absence of the primary care provider, the substitute shall be at least 18 years of age and shall meet all of the requirements for a primary care provider specified in K.A.R. 28-4-114a.

(t) "Temporary absence" means time away from a facility for a period not to exceed three hours in a day.

(u) "Use zone" means the surface under and around a piece of equipment onto which a child falling from or exiting the equipment would be expected to land.

(v) "Weapons" means any of the following:

- (1) Firearms;
- (2) ammunition;
- (3) air-powered guns, including BB guns, pellet guns, and paint ball guns;
- (4) hunting and fishing knives;
- (5) archery equipment; or
- (6) martial arts equipment. (Authorized by K.S.A. 2010 Supp. 65-508; implementing K.S.A. 2010 Supp. 65-503 and K.S.A. 2010 Supp. 65-508; effective, E-80-18, Oct. 17, 1979; effective May 1, 1980; amended May 1, 1981; amended May 1, 1983; amended May 1, 1984; amended May 1, 1985; amended Feb. 26, 1990; amended Feb. 3, 2012.)

28-4-114. Applicant; licensee. (a) Application process.

(1) Any person desiring to operate a facility shall apply for a license on forms provided by the department.

(2) Each applicant and each licensee shall submit the fee specified in K.A.R. 28-4-92 for a license

or for the renewal of a license. The applicable fee shall be submitted at the time of license application or renewal and shall not be refundable.

(3) The granting of a license to any applicant or applicant with a temporary permit may be refused by the secretary if the applicant or applicant with a temporary permit is not in compliance with the applicable requirements of the following:

(A) K.S.A. 65-504 through 65-506, and amendments thereto;

(B) K.S.A. 65-508, and amendments thereto;

(C) K.S.A. 65-512, and amendments thereto;

(D) K.S.A. 65-530 and 65-531, and amendments thereto; and

(E) all regulations governing facilities.

(4) Failure to submit the application forms and fee for renewal of a license shall result in an assessment of a late fee pursuant to K.S.A. 65-505, and amendments thereto, and may result in closure of the facility.

(b) Applicant and licensee requirements. Each applicant, if an individual, and each licensee, if an individual, shall meet the following requirements:

(1) Be at least 18 years of age;

(2) not be involved in child care or a combination of child care and other employment for more than 18 hours in a 24-hour period; and

(3) not be engaged in either business or social activities that interfere with the care or supervision of children.

(c) Multiple child care facilities.

(1) Each applicant with a temporary permit and each licensee who operates more than one child care facility, as defined in K.S.A. 65-503 and amendments thereto, shall maintain each child care facility as a separate entity.

(2) A license for an additional child care facility shall not be granted until all existing child care facilities for which the licensee has been granted a license are in compliance with licensing regulations.

(d) Multiple licenses. No licensee shall be licensed concurrently for or provide more than one type of child care or child and adult care on the same premises.

(e) License capacity for day care homes. Each applicant with a temporary permit and each licensee shall ensure that the requirements of this subsection are met.

(1) The maximum number of children for which a day care home may be licensed shall be the following:

TABLE I—LICENSE CAPACITY,
ONE PROVIDER

Maximum Number of Children Under 18 Months	Maximum Number of Children at Least 18 Months but Under 5 Years of Age	Maximum Number of Children at Least 5 Years but Under 11 Years of Age*	License Capacity
0	7	3	10
1	5	4	10
2	4	3	9
3	3	2	8

*Children five years of age and over may be substituted for younger children in the license capacity.

(2) Children at least 11 years of age but under 16 years of age who are unrelated to the provider shall be included in the license capacity if child care for this age group as a whole exceeds three hours a week.

(f) Maximum capacity for group day care homes. Each applicant with a temporary permit and each licensee shall ensure that all of the requirements of this subsection are met.

(1) The maximum number of children for which a group day care home may be licensed shall be the following:

TABLE II—LICENSE CAPACITY,
ONE PROVIDER

Age of Children Enrolled	License Capacity
At Least 2½ Years but Under 11 Years of Age	9
At Least 3 Years but Under 11 Years of Age	10
At Least 5 Years but Under 11 Years of Age	12

TABLE III—LICENSE CAPACITY,
TWO PROVIDERS*

Maximum Number of Children Under 18 Months	Maximum Number of Children at Least 18 Months but Under 5 Years of Age	Maximum Number of Children at Least 5 Years but Under 11 Years of Age**	License Capacity*
1	8	3	12
2	7	3	12
3	6	3	12
4	4	2	10

*A second provider shall be present when the number of children exceeds the maximum number allowed for one provider. See Table I.

**Children five years of age and over may be substituted for younger children in the license capacity.

TABLE IV—LICENSE CAPACITY,
TWO PROVIDERS*

Maximum Number of Children Under 18 Months	Maximum Number of Children at Least 18 Months but Under 2½ Years of Age	Maximum Number of Children at Least 2½ Years but Under 11 Years of Age**	License Capacity*
0	5	7	12

*A second provider shall be present when the number of children exceeds the maximum number allowed for one provider. See Table I.

**Children five years of age and over may be substituted for younger children in the license capacity.

(2) Children at least 11 years of age but under 16 years of age unrelated to the provider shall be included in the license capacity if child care for this age group as a whole exceeds three hours a week.

(g) Developmental levels. Any child who does not function according to age-appropriate expectations shall be counted in the age group that reflects the developmental age level of the child.

(h) License capacity not exceeded. Each applicant with a temporary permit and each licensee shall ensure that the total number of children on the premises, including children under 11 years of age related to the applicant with a temporary permit, the licensee, or any other provider, does not exceed the license capacity, except for additional children permitted in subsection (j).

(i) Emergency care. Emergency care may be provided if the additional children do not cause the license capacity to be exceeded.

(j) Additional children on the premises. In addition to the number of children permitted under the terms of the temporary permit or the license and specified in subsections (e) and (f), other children may be permitted on the premises.

(1) Not more than two additional children 2½ years of age or older who attend part-day preschool or part-day kindergarten may be present at any time between the hours of 11:00 a.m. and 1:00 p.m. for the noon meal on days that school is in session.

(2) Not more than two additional children at least five years of age but under 11 years of age may be present between the hours of 6:00 a.m. and 6:00 p.m. The additional children may be present as follows:

(A) During the academic school year before and after school, in-service days, school holidays, scheduled or emergency closures, and school breaks not to exceed two consecutive weeks; and

(B) during the two consecutive weeks before the opening of the academic school year in August or September and following the end of the academic school year in May or June.

(3) Not more than two additional children 11 years of age or older, unrelated to the applicant with a temporary permit or the licensee, may be present for not more than two hours a day during child care hours if all of the following conditions are met:

(A) The additional children are not on the premises for the purpose of receiving child care in the facility.

(B) The additional children are visiting the applicant's or the licensee's own child or children.

(C) The additional children are supervised by a provider if they have access to the children in care.

(k) Substitute. Each applicant with a temporary permit and each licensee shall arrange for a substitute to care for children in the event of a temporary absence or extended absence of the primary care provider

(l) Posting of temporary permit or license and availability of regulations. Each applicant with a temporary permit and each licensee shall post any temporary permit or license conspicuously as required by K.S.A. 65-504, and amendments thereto. A copy of the current regulations governing facilities shall be kept on the premises and shall be available to all providers at all times.

(m) Closure. Any applicant may withdraw the application for a license. Any applicant with a temporary permit and any licensee may submit, at any time, a request to close the facility. If an application is withdrawn or a facility is closed, any temporary permit or license granted to the applicant or licensee for that facility shall become void. (Authorized by K.S.A. 2010 Supp. 65-508; implementing K.S.A. 2010 Supp. 65-504, K.S.A. 2010 Supp. 65-505, and K.S.A. 2010 Supp. 65-508; effective, E-80-18, Oct. 17, 1979; effective May 1, 1980; amended May 1, 1981; amended May 1, 1983; amended May 1, 1984; amended May 1, 1985; amended Feb. 26, 1990; amended Feb. 3, 2012.)

28-4-114a. Initial and ongoing professional development training. If an applicant, an applicant with a temporary permit, or a licensee is not an individual, the applicant, applicant with a temporary permit, or licensee shall designate an individual to meet the requirements of this regulation.

(a) Orientation.

(1) Each person shall, before applying for a license, complete an orientation program on the requirements for operating a facility, provided by the health department or the secretary's designee that serves the county in which the facility will be located.

(2) Each applicant, each applicant with a temporary permit, and each licensee shall provide orientation to each individual who will be caring for children about the policies and practices of the facility, including duties and responsibilities for the care and supervision of children. Each provider shall complete the orientation before the provider is given sole responsibility for the care and supervision of children. The orientation shall include the following:

(A) Licensing regulations;

(B) the policies and practices of the facility, including emergency procedures, behavior management, and discipline;

(C) the schedule of daily activities;

(D) care and supervision of children in care, including any special needs and known allergies;

(E) health and safety practices; and

(F) confidentiality.

(b) Health and safety training. Each applicant, each applicant with a temporary permit, each licensee, and each provider shall complete health and safety training approved by the secretary.

(1) Each applicant and each applicant with a temporary permit shall complete the training not later than 30 calendar days after submitting an application for a license.

(2) Each provider shall complete the training before the date of employment or not later than 30 calendar days after the date of employment.

(3) Each licensee whose license was issued before July 1, 2017 and who has completed the training in the subject areas specified in paragraphs (b)(4)(A), (B), and (C) shall be exempt from training in the subject areas specified in paragraphs (b)(4)(D) through (I). Each provider who was employed at the facility before July 1, 2017 and who has completed the training in the subject areas specified in paragraphs (b)(4)(A), (B), and (C) shall be exempt from training in the subject areas specified in paragraphs (b)(4)(D) through (I).

(4) The health and safety training shall include the following subject areas:

(A) Recognizing the signs of child abuse or neglect, including prevention of shaken baby syndrome and abusive head trauma, and the reporting of suspected child abuse or neglect;

(B) basic child development, including supervision of children;

(C) safe sleep practices and sudden infant death syndrome;

(D) prevention and control of infectious diseases, including immunizations;

(E) prevention of and response to emergencies due to food and allergic reactions;

(F) building and premises safety, including identification of and protection from hazards that could cause bodily injury, including electrical hazards, bodies of water, and vehicular traffic;

(G) emergency preparedness and response planning for emergencies resulting from a natural disaster or a human-caused event, including violence at a facility;

(H) handling and storage of hazardous materials and the appropriate disposal of bio-contaminants, including blood and other bodily fluids or waste; and

(I) precautions when transporting children, if transportation is provided.

(c) Pediatric first aid and pediatric cardiopulmonary resuscitation (CPR) certifications. Each applicant, each applicant with a temporary permit, each licensee, and each provider shall obtain certification in pediatric first aid and pediatric CPR as specified in this subsection.

(1) Each applicant and each applicant with a temporary permit shall obtain the certifications not later than 30 calendar days after submitting an application for a license.

(2) Each provider shall obtain the certifications before the date of employment or not later than 30 calendar days after the date of employment.

(3) Each individual required to obtain the certifications shall maintain current certifications.

(d) Medication administration training.

(1) Each of the following individuals shall complete the medication administration training as specified in this subsection:

(A) Applicant;

(B) applicant with a temporary permit;

(C) licensee; and

(D) provider designated to administer medications.

(2) The training shall be approved by the secretary.

(3) Each applicant and each applicant with a temporary permit shall complete the training not later than 30 calendar days after submitting an application for a license and before administering medication to any child.

(4) Each licensee whose license was issued before July 1, 2017 shall complete the training not later than December 31, 2017. The licensee shall not administer medications after December 31, 2017 unless the licensee has completed the training.

(5) Each provider designated to administer medications who is employed at the facility before July 1, 2017 shall complete the training not later than December 31, 2017. The designated provider shall not administer medications after December 31, 2017 unless the designated provider has completed the training.

(6) Each provider designated to administer medications who is employed at the facility on or after July 1, 2017 shall complete the training before administering medication to any child.

(e) Annual professional development training requirements.

(1) For purposes of this subsection, "licensure year" shall mean the period beginning on the effective date and ending on the expiration date of a license.

(2) In each licensure year, each primary care provider shall complete professional development training as follows:

(A) For each licensure year ending during the 2017 calendar year, five clock-hours;

(B) for each licensure year ending during the 2018 calendar year, five clock-hours;

(C) for each licensure year ending during the 2019 calendar year, 12 clock-hours; and

(D) for each licensure year ending during the 2020 calendar year, and for each subsequent licensure year, 16 clock-hours.

(f) Documentation. Documentation of all orientation, training, and certifications for each individual shall be kept in that individual's file in the facility. (Authorized by and implementing K.S.A. 2016 Supp. 65-508; effective Feb. 3, 2012; amended May 12, 2017.)

28-4-115. Facility. (a) Water supply and sewerage systems. Each applicant, each applicant with a temporary permit, and each licensee shall ensure that public water and sewerage systems, where available, are used. If a nonpublic source for the water supply is used, the water shall be safe for drinking and shall be tested annually by a department-certified laboratory. If a well is used, the well shall be approved by the local authority for private well permitting, the department, or a licensed water

well contractor. A copy of the test results and the approval shall be kept on file at the facility. Each private sewerage system shall be maintained in compliance with all applicable state and local laws.

(b) Drinking water for children under 12 months of age. If children under 12 months of age are enrolled in a facility using water from a nonpublic source, including private well water, commercially bottled drinking water shall be purchased and used until a laboratory test confirms that the nitrate content of the private well water is not more than 10 milligrams per liter (10 mg/l) as nitrogen.

(c) General environmental requirements. Each facility shall have 25 square feet of available play space per child and shall be constructed, arranged, and maintained to provide for the health and safety of children in care. Each applicant, each applicant with a temporary permit, and each licensee shall ensure that the facility meets the following requirements:

- (1) Has walls that are in good condition;
- (2) is skirted and anchored if a mobile home;
- (3) has a 2A 10B:C fire extinguisher;
- (4) has a working smoke detector on each level of the facility;
- (5) is uncluttered, visibly clean, and free from any evidence of vermin infestation and any objects or materials that constitute a danger to children in care;
- (6) has kitchen and outdoor trash and garbage in covered containers or in tied plastic bags;
- (7) meets all of the following requirements for each heating appliance:
 - (A) Has a protective barrier for each freestanding heating appliance to protect from burns; and
 - (B) has each heating appliance using combustible fuel vented to the outside;
- (8) has each electrical outlet covered or inaccessible to prevent easy access by a child when the outlet is not in use;
- (9) has any power strip or extension cord positioned in a manner that prevents a tripping or shock hazard;
- (10) has each stairway with more than two stairs railed;
- (11) if any children under 2½ years of age are in care, meets all of the following requirements:
 - (A) Has each stairway equipped with balusters not more than four inches apart or guarded to prevent a child's head or body from falling through;
 - (B) has each stairway guarded by a secured door or gated to prevent unsupervised access by the

child, including a latching device that an adult can open readily in an emergency;

(C) does not have any accordion gate in use; and
(D) does not have a pressure gate at the top of any stairway;

(12) has a readily available second means of escape from the first floor;

(13) has each lockable interior door designed to permit the door to be unlocked from either side in case of an emergency;

(14) is maintained at a temperature of not less than 65 degrees Fahrenheit and not more than 85 degrees Fahrenheit in the play area;

(15) does not have any window coverings with strings or cords accessible to children in care; and

(16) has at least one bathroom with at least one sink and one flush toilet. All fixtures shall be in working order at all times. An individual towel and washcloth or disposable products shall be provided for each child. Hand soap shall be readily accessible in each bathroom.

(d) Fire safety. Each facility shall be approved for fire safety by a fire inspector.

(e) Basements and other floors. A basement or a second floor used for child care in a facility shall be approved for fire safety by a fire inspector before use. A third floor shall not be used for child care.

(f) Refrigerator. A refrigerator shall be available for the storage of perishable foods. Refrigerated medications shall be in a locked box.

(g) Storage of hazardous items. The following hazardous items shall be safely stored:

(1) All household cleaning supplies and all bodily care products bearing warning labels to keep out of reach of children or containing alcohol shall be in locked storage or stored out of reach of children under six years of age. Soap used for hand washing may be kept unlocked and placed on the back of the counter by a bathroom or kitchen sink.

(2) Dangerous chemicals, household supplies with warning labels to keep out of reach of children, and all medications shall be in locked storage or stored out of the reach of children under 10 years of age.

(3) Sharp instruments shall be stored in drawers or cabinets equipped with childproof devices to prevent access by children or stored out of reach of children.

(4) Tobacco products, ashtrays, lighters, and matches shall be stored out of reach of children.

(h) Storage of weapons. No child in care shall have access to weapons. All weapons shall be

stored in a locked room, closet, container, or cabinet. Ammunition shall be kept in locked storage separate from other weapons.

(i) Outdoor play area. The designated area for outdoor play and large motor activities on the premises shall meet all of the following requirements:

(1) The outdoor play area shall be fenced if the play area adjoins that of another child care facility, as defined in K.S.A. 65-503 and amendments thereto, or if the area surrounding, or the conditions existing outside, the play area present hazards that could be dangerous to the safety of the children, which may include any of the following:

(A) A fish pond or a decorative pool containing water;

(B) railroad tracks; or

(C) a water hazard, including a ditch, a pond, a lake, and any standing water.

(2) Outdoor play equipment that is safely constructed and in good repair shall be available and placed in an area free of health, safety, and environmental hazards.

(3) The use of a trampoline shall be prohibited during the hours of operation of the facility. If a trampoline is on the premises, the trampoline shall be made inaccessible to children during the facility's hours of operation.

(4) Climbing equipment and swings shall be either anchored in the ground with metal straps or pins or set in cement, to prevent movement of the equipment and swings.

(5) All surfaces under and around climbing equipment and swings shall meet the following requirements:

(A) Impact-absorbent surfacing material shall be installed in each use zone under and around anchored equipment over four feet in height, including climbing equipment, slides, and swings.

(B) Impact-absorbent surfacing material shall consist of material intended for playground use, including shredded bark mulch, wood chips, fine sand, fine gravel, shredded rubber, unitary surfacing material, or synthetic impact material.

(C) Hard-surfacing materials, including asphalt, concrete, and hard-packed dirt, shall not be used in any use zone. This requirement shall apply regardless of the height of the climbing equipment, slides, and swings.

(D) Surfaces made of loose material shall be maintained by replacing, leveling, or raking the material.

(6) Swings shall not have wooden or metal seats.

(7) Teeter-totters and merry-go-rounds designed for school-age children shall not be used by children under five years of age.

(j) Each facility licensed on and after March 1, 2012 shall have a designated area for outdoor play and large motor activities as part of the licensed premises. (Authorized by and implementing K.S.A. 2010 Supp. 65-508; effective, E-80-18, Oct. 17, 1979; effective May 1, 1980; amended May 1, 1981; amended May 1, 1983; amended May 1, 1984; amended May 1, 1986; amended May 1, 1987; amended Feb. 26, 1990; amended Feb. 3, 2012.)

28-4-115a. Supervision. (a) Supervision plan.

(1) Each applicant, each applicant with a temporary permit, and each licensee shall develop a supervision plan for children in care that includes all age ranges of children for whom care will be provided. A copy of the plan shall be available for review by the parents or legal guardians of children in care and by the department. The plan shall include the following:

(A) A description of the rooms, levels, or areas of the facility including indoor and outdoor areas in which the child will participate in activities, have snacks or meals, nap, or sleep;

(B) the manner in which supervision will be provided; and

(C) any arrangements for the provision of evening or overnight care.

(2) Each applicant, each applicant with a temporary permit, and each licensee shall update the supervision plan when changes are made in any of the requirements of paragraph (a)(1).

(3) Each provider shall follow the supervision plan.

(b) General supervision requirements. Each applicant with a temporary permit and each licensee shall ensure that supervision is provided as necessary to protect the health, safety, and well-being of each child in care.

(1) Each child in care shall be under the supervision of a provider who is responsible for the child's health, safety, and well-being.

(2) Each provider shall be aware at all times of the location of each child in that provider's care and the activities in which the child is engaged. Each provider shall perform the following:

(A) Interact with the child and attend to the child's needs;

(B) respond immediately if the child is crying or

in distress in order to determine the cause and to provide comfort and assistance;

(C) investigate immediately any change in the activity or noise level of the child; and

(D) respond immediately to any emergency that could impact the health, safety, and well-being of the child.

(3) No provider shall engage in business, social, or personal activities that interfere with the care and supervision of children.

(4) If used, electronic monitoring devices, including infant monitors, shall not replace any of the supervision requirements of this regulation.

(c) Indoor supervision requirements. When any child is indoors, each provider shall ensure that all of the following requirements are met, in addition to the requirements of subsection (b):

(1) For each child who is under 2½ years of age and who is awake, the provider shall be within sight of and in proximity to the child, watching and overseeing the activities of the child. When the provider is attending to personal hygiene needs or engaging in other child care duties and is temporarily unable to remain within sight of the child, the provider shall meet all of the following conditions:

(A) The provider has first ensured the safety of each child.

(B) The provider is able to respond immediately to any child in distress.

(C) The provider remains within hearing distance of each child.

(2) For each child 2½ years of age and older who is awake, the provider may permit the child to go unattended to another room within the facility to engage in activities if all of the following conditions are met:

(A) The provider determines, based on observations of the child's behavior and information from the parent or legal guardian, that the child can go unattended to another room within the facility.

(B) The door to each room remains open.

(C) The provider remains within hearing distance of the child.

(D) The provider visually checks on the child and responds as necessary to meet the needs of the child.

(3) Each applicant with a temporary permit and each licensee shall ensure that supervision is provided for each child who is napping or sleeping.

(A) Each child who is napping or sleeping shall be within sight or hearing distance of the provider and shall be visually checked on by the provider at least once every 15 minutes.

(B) The provider shall meet all of the requirements of K.A.R. 28-4-116a for any child who is under 12 months of age and is napping or sleeping.

(C) When any child is napping or sleeping in a room separate from the provider, the door to that room shall remain open.

(D) When a child awakens and is ready to get up, the provider shall attend to the child's needs and assist the child in moving to another activity.

(d) Outdoor supervision requirements. When any child is outdoors, each provider shall ensure that all of the following requirements are met, in addition to the requirements of subsection (b):

(1) For each child under five years of age, the provider shall be outdoors at all times and remain within sight of and in proximity to each child, watching and directing the activities of the child.

(2) For each child five years of age and older, the provider may permit the child to go unattended to the facility's designated outdoor play area on the premises if all of the following conditions are met:

(A) The designated play area on the premises is enclosed with a fence.

(B) The provider determines that the area is free of any potential hazards to the health and safety of the child.

(C) The provider remains within hearing distance of the child.

(D) The provider visually checks on the child and responds as necessary to meet the needs of the child.

(e) Evening care and overnight care. Each applicant with a temporary permit and each licensee who provide evening care or overnight care shall ensure that the following requirements are met:

(1) All requirements of subsections (a) through (d) shall be met.

(2) When overnight care is provided in a day care home, at least one provider shall remain awake at all times.

(3) When overnight care is provided in a group day care home, a second provider shall remain awake at all times if the number of children who are awake exceeds the requirements of K.A.R. 28-4-114 (e), table I. (Authorized by and implementing K.S.A. 2010 Supp. 65-508; effective Feb. 3, 2012.)

28-4-116. Daily care of children. (a) Daily activities.

(1) Each applicant with a temporary permit and each licensee shall provide daily activities that promote healthy growth and development, take

into consideration the cultural background and traditions that are familiar to the children, and incorporate both indoor and outdoor activities that are appropriate for the ages and developmental levels of the children in care.

(2) Each child shall be offered a choice of activities and the opportunity to participate. Age-appropriate toys, play equipment, books, and other learning materials shall be available in sufficient quantities to allow each child a choice of activities.

(3) The activities, supplies, and equipment shall be designed to promote the following:

(A) Large motor and small motor development, which may include running, climbing, jumping, grasping objects, drawing, buttoning, and tying;

(B) creative expression, which may include dramatic play, music, and art;

(C) math and science skills, which may include sorting, matching, counting, and measuring; and

(D) language development and literacy, which may include reading, singing, finger plays, writing, and stories.

(4) Each child shall be given the opportunity for at least one hour of physical activity daily, either outdoors as described in paragraph (a)(7) or indoors.

(5) Each applicant with a temporary permit and each licensee shall ensure that the following requirements are met if the daily activities include any media viewing:

(A) Each program shall be age-appropriate and, if rated, shall have a rating appropriate for the ages and developmental levels of the children who view the program.

(B) No child shall be required to participate in media viewing. Each child not engaged in media viewing shall be offered a choice of at least one other activity for that time period.

(6) Toys and other items used by children shall meet the following requirements:

(A) Be clean, of safe construction, and in good repair;

(B) be washed and sanitized daily when used by children under 18 months of age; and

(C) be washed and sanitized before being used by another child, if contaminated by saliva or other bodily fluids.

(7) Unless prohibited by the child's medical condition or extreme weather conditions, each child in care shall be taken outdoors daily. Each child 12 months of age or older shall have the opportunity for at least one hour of outdoor play daily.

(b) Self-help and personal care. Each provider shall ensure that each child is assisted as needed with hand washing, toileting, dressing, and other personal care.

(c) Hand washing. Hands shall be washed using soap and warm running water and dried with a paper towel or a single-use towel. When soap and running water are not readily available, an alcohol-based hand sanitizer may be used only by adults and, under adult supervision, by children two years of age and older.

(1) Each provider shall wash that provider's hands as needed when hands are soiled and when each of the following occurs:

(A) At the start of the hours of operation or when first arriving at the facility;

(B) returning from being outdoors;

(C) after toileting, diapering, assisting a child with toileting, or handling any bodily fluids;

(D) before preparing each snack and each meal and before and after eating each snack and each meal;

(E) before and after administering any medication; and

(F) after feeding or handling any pet.

(2) Each child shall wash that child's hands or be assisted in washing that child's hands as needed when hands are soiled and when each of the following occurs:

(A) First arriving at the facility;

(B) returning from being outdoors;

(C) after toileting;

(D) before and after eating each snack and each meal; and

(E) after feeding or handling any pet.

(d) Smoking prohibited. No provider shall smoke while providing direct physical care to children. Smoking in any room, enclosed area, or other enclosed space on the premises shall be prohibited when children are in care pursuant to K.S.A. 65-530, and amendments thereto.

(e) Nutrition and food service. Each applicant with a temporary permit and each licensee shall develop and implement menu plans for meals and snacks that contain a variety of healthful foods, including fresh fruits, fresh vegetables, whole grains, lean meats, and low-fat dairy products.

(1) If children under 18 months of age are in care, the following requirements shall be met:

(A) Each child shall be held when bottle-fed until the child can hold the child's own bottle.

(B) No child shall be allowed to sleep with a bottle in the mouth.

(C) Each bottle that contains prepared formula or breast milk shall be stored in the refrigerator with the nipple covered. The bottle shall be labeled with the child's name, the contents, and the date received and shall be used within 24 hours of the date on the label.

(D) If a child does not finish a bottle, the contents of the bottle shall be discarded.

(E) No formula or breast milk shall be heated in a microwave oven.

(F) Solid foods shall be offered when the provider and the parent or legal guardian of the child determine that the child is ready for solid foods. Opened containers of solid foods shall be labeled with the child's name, the contents, and the date opened. Containers shall be covered and stored in the refrigerator.

(2) Each applicant with a temporary permit and each licensee shall serve nutritious meals and snacks based on the amount of time a child is in care.

(A) Each child who is in care at least 2½ hours but under four hours shall be served at least one snack.

(B) Each child who is in care at least four hours but under eight hours shall be served at least one snack and at least one meal.

(C) Each child who is in care at least eight hours but under 10 hours shall be served at least two snacks and one meal or at least one snack and two meals.

(D) Each child who is in care for 10 or more hours shall be served at least two meals and at least two snacks.

(3) Each applicant with a temporary permit and each licensee shall include the following items in meals and snacks:

(A) Breakfast shall include the following:

(i) A fruit, vegetable, full-strength fruit juice, or full-strength vegetable juice;

(ii) bread or grain product; and

(iii) milk.

(B) Noon and evening meals shall include one item from each of the following:

(i) Meat or a meat alternative;

(ii) two vegetables or two fruits, or one vegetable and one fruit;

(iii) bread or a grain product; and

(iv) milk.

(C) Midmorning and midafternoon snacks shall include at least two of the following:

(i) Milk;

(ii) fruit, vegetable, full-strength fruit juice, or full-strength vegetable juice;

(iii) meat or a meat alternative; or

(iv) bread or grain product.

(D) For snacks, juice shall not be served when milk is served as the only other item.

(4) A sufficient quantity of food shall be prepared for each meal to allow each child to have a second portion of bread, milk, and either vegetables or fruits.

(5) Drinking water shall be available to each child at all times when the child is in care.

(6) Only pasteurized milk products shall be served.

(7) Milk served to any child who is two years of age or older shall have a fat content of one percent or less, unless a medical reason is documented in writing by a licensed physician.

(8) If a fruit juice or a vegetable juice is served, the juice shall be pasteurized and full-strength.

(9) If any child has a food allergy or special dietary need, the provider and the parent or legal guardian of the child shall make arrangements for the provision of alternative foods or beverages.

(10) Meals and snacks shall be served to each child using individual tableware that is appropriate for the food or beverage being served. Food shall be served on tableware appropriate for that food and shall not be served directly on a bare surface, including a tabletop.

(11) Tableware shall be washed, rinsed and air-dried or placed in a dishwasher after each meal.

(12) Sanitary methods of food handling and storage shall be followed.

(13) A washable or disposable individual cup, towel, and washcloth shall be provided for each child.

(f) Recordkeeping. Each applicant with a temporary permit and each licensee shall ensure that a file is maintained for each child, including each child enrolled for emergency care. Each file shall include the following information:

(1) The full name, home and business addresses, and telephone numbers of the child's parent or parents or legal guardian and the name, address, and telephone number of the individual to notify in case of emergency;

(2) the full name and telephone number of each individual authorized to pick up the child and to provide transportation to and from the facility;

(3) a medical record as required by K.A.R. 28-4-117(a), except that each child enrolled for emergency care shall be exempt from K.A.R. 28-4-117(a)(2); and

(4) written permission from the parent or legal guardian for emergency medical care and for the

child to go off the premises as required by K.A.R. 28-4-124 and 28-4-127(b)(1)(A). (Authorized by K.S.A. 2010 Supp. 65-508; implementing K.S.A. 65-507 and K.S.A. 2010 Supp. 65-508; effective, E-80-18, Oct. 17, 1979; effective May 1, 1980; amended May 1, 1981; amended May 1, 1983; amended May 1, 1985; amended May 1, 1987; amended Feb. 26, 1990; amended Feb. 3, 2012.)

28-4-116a. Napping and sleeping. (a) Rest period. Each child shall have a daily, supervised rest period as needed. Each child who does not nap or sleep shall be given the opportunity for quiet play.

(b) Safe sleep practices for children in care.

(1) Each applicant with a temporary permit and each licensee shall develop and implement safe sleep practices for children in care who are napping or sleeping.

(2) Each applicant with a temporary permit and each licensee shall ensure that the safe sleep practices are discussed with the parent or legal guardian of each child before the first day of care.

(3) Each provider shall follow the safe sleep practices of the facility.

(4) Each child who is 12 months of age or older shall nap or sleep on a bed, a cot, the lower bunk of a bunk bed, or a pad over a carpet or area rug on the floor.

(5) Each applicant with a temporary permit and each licensee shall ensure that all of the following requirements are met for each child in care who is under 12 months of age.

(A) The child shall nap or sleep in a crib or a playpen. Stacking cribs or bassinets shall not be used. Cribs with water-bed mattresses shall not be used.

(B) If the child falls asleep on a surface other than a crib or playpen, the child shall be moved to a crib or playpen.

(C) The child shall not nap or sleep in the same crib or playpen as that occupied by another child at the same time.

(D) The child shall be placed on the child's back to nap or sleep.

(E) When the child is able to turn over independently, the child shall be placed on the child's back but then shall be allowed to remain in a position preferred by the child. Wedges or infant positioners shall not be used.

(F) The child shall sleep in a crib or a playpen that is free of any soft items, which may include pillows, quilts, heavy blankets, bumpers, and toys.

(G) If a lightweight blanket is used, the blanket shall be tucked along the sides and foot of the mattress. The blanket shall not be placed higher than the child's chest. The head of the child shall remain uncovered. The child may nap or sleep in sleep clothing, including sleepers and sleep sacks, in place of a lightweight blanket.

(c) Napping or sleeping surfaces. Each applicant with a temporary permit and each licensee shall ensure that the following requirements are met for all napping or sleeping surfaces:

(1) Clean, individual bedding shall be provided for each child.

(2) Each surface used for napping or sleeping shall be kept clean, of safe construction, and maintained in good repair.

(3) Each crib and each playpen shall be used only for children who meet the manufacturer's recommendations for use, including any age, height, or weight limitations. The manufacturer's instructions for use, including any recommendations for use, shall be kept on file at the facility.

(4) Each crib and each playpen shall have a firm, tightfitting mattress and a fitted sheet. The mattress shall be set at its lowest point when any child using the crib or playpen becomes able either to sit up or to pull up to a standing position inside the crib or playpen, whichever occurs first, to ensure that the child cannot climb out of the crib or playpen.

(5) If a crib or playpen is slatted, the slats shall be spaced not more than 2¾ inches apart.

(6) On and after December 28, 2012, each applicant, each applicant with a temporary permit, and each licensee shall ensure that no crib purchased before June 28, 2011 is in use in the facility.

(7) Each pad used for napping or sleeping shall be at least ½ inch thick, washable or enclosed in a washable cover, and long enough so that the child's head and feet rest on the pad. Clean, individual bedding, including a bottom and a top cover, shall be provided for each child.

(8) Cribs, cots, playpens, and pads, when in use for napping or sleeping, shall be separated by at least 24 inches in all directions except when bordering on the wall.

(9) When not in use, cribs, cots, playpens, pads, and bedding shall be stored in a clean and sanitary manner.

(d) Consumer warning or recall. Each applicant with a temporary permit and each licensee shall make any necessary changes to follow the recom-

mendations of any consumer warning or recall of a crib or a playpen as soon as the warning or recall is known.

(e) Transition from crib or playpen. The determination of when a child who is 12 months of age or older is ready to transition from a crib or a playpen to another napping or sleeping surface shall be made by the parent or guardian of the child and by either the applicant with a temporary permit or the licensee. The requirements of paragraphs (c) (3) and (4) for a child using a crib or playpen shall apply. (Authorized by and implementing K.S.A. 2010 Supp. 65-508; effective Feb. 3, 2012.)

28-4-118. Medication administration and reporting suspected child abuse or neglect.

(a) Medication administration.

(1) Each applicant with a temporary permit and each licensee shall designate at least one provider to administer medications to children.

(2) If nonprescription medication is to be administered to a child, each designated provider shall meet the following requirements:

(A) Obtain written permission from each child's parent or legal guardian before administering medication to that child;

(B) require that each medication supplied by a parent or legal guardian for the child be in the original container;

(C) ensure that the container is labeled with the first and last name of the child for whom the medication is intended; and

(D) administer each medication according to the instructions on the label.

(3) If prescription medication is administered to a child, each designated provider shall meet the following requirements:

(A) Obtain written permission from each child's parent or legal guardian before administering medication to that child;

(B) keep each medication in the original container labeled by a pharmacist, with the following information:

- (i) The child's first and last name;
- (ii) the name of the licensed physician, physician assistant (PA), or advanced practice registered nurse (APRN) who ordered the medication;
- (iii) the date the prescription was filled;
- (iv) the expiration date of the medication; and
- (v) specific, legible instructions for administration and storage of the medication;

(C) consider the instructions on each label to be the order from the licensed physician, PA, or APRN;

(D) administer the medication only to the child designated on the prescription label; and

(E) administer the medication in accordance with the instructions on the label.

(4) Documentation of each medication administered shall be kept on a form provided by the department and maintained in each child's file.

(5) A copy of the documentation of each medication administered shall be made available to the parent or legal guardian of the child.

(b) Reporting suspected child abuse or neglect. Each provider shall report to the Kansas department for children and families or to law enforcement any suspected child abuse or neglect within 24 hours. (Authorized by and implementing K.S.A. 2016 Supp. 65-508; effective, E-80-18, Oct. 17, 1979; effective May 1, 1980; amended May 1, 1981; amended May 1, 1983; amended May 1, 1986; amended Feb. 26, 1990; amended May 12, 2017.)

28-4-120. (Authorized by K.S.A. 65-522; implementing K.S.A. 65-519 and 65-521; effective May 1, 1981; amended May 1, 1986; amended Feb. 26, 1990; amended July 11, 2008; revoked Feb. 3, 2012.)

28-4-121. (Authorized by K.S.A. 65-522; implementing K.S.A. 65-519; effective July 11, 2008; revoked Feb. 3, 2012.)

28-4-125. Background checks. Each applicant, applicant with a temporary permit, and licensee shall meet the following requirements:

(a) Submit to the department the identifying information necessary to complete background checks for each individual who works or regularly volunteers in the facility, each individual at least 10 years of age who resides in the facility, and any other individual in the facility whose activities involve either supervised or unsupervised access to children. The identifying information shall be submitted as follows:

(1) When submitting an application for a license;

(2) when submitting an application to renew a license; and

(3) before allowing any individual to work, regularly volunteer, or reside in the facility and before allowing any individual whose activities involve either supervised or unsupervised access to children to be in the facility;

(b) ensure that fingerprint-based background checks are completed for each of the following:

- (1) The applicant;
 - (2) the applicant with a temporary permit;
 - (3) the licensee;
 - (4) each provider in a day care home or group day care home;
 - (5) each individual at least 18 years of age who resides in a day care home or group day care home;
 - (6) each employee in a preschool or child care center;
 - (7) each volunteer counted in the staff-child ratio; and
 - (8) any other individual regularly in the facility if the individual's activities involve unsupervised access to children;
- (c) ensure that the information submitted for each individual specified in subsection (b) includes the required information for background checks from each state of residence throughout the five-year period before allowing the individual to work, regularly volunteer, or reside in the facility;
- (d) ensure that name-based background checks by the Kansas bureau of investigation and the Kansas department for children and families are completed for each of the following:
- (1) Each individual at least 10 years of age who resides in a day care home or group day care home;
 - (2) each volunteer who is not counted in the staff-child ratio and whose activities do not involve unsupervised access to children;
 - (3) each student of an accredited secondary or postsecondary school who is at least 16 years of age and who is participating in an educational experience arranged by the school, if the student is not counted in the staff-child ratio and does not have unsupervised access to children; and
 - (4) any other individual regularly in the facility whose activities do not involve unsupervised access to children; and
- (e) ensure that no individual works, regularly volunteers, or resides in the facility until the results of the individual's background checks verify that the individual is not prohibited from working, regularly volunteering, or residing in a facility pursuant to K.S.A. 65-516, and amendments thereto. (Authorized by K.S.A. 2017 Supp. 65-508; implementing K.S.A. 2017 Supp. 65-508 and 65-516; effective, T-86-46, Dec. 18, 1985; effective May 1, 1986; amended Feb. 26, 1990; amended June 7, 2018.)

28-4-133. Reporting critical incidents.

This regulation shall apply to all day care homes, group day care homes, preschools, and child care centers.

(a) Reports to parents and legal guardians. In addition to meeting the reporting requirements in K.A.R. 28-4-127, each primary care provider and each program director shall ensure that each of the following critical incidents is immediately reported to the parent or legal guardian of any child affected by the critical incident:

(1) Fire damage or other damage to the facility, or any damage to the property that affects the structure of the facility or the safety of the children in care;

(2) a vehicle collision involving any child in care;

(3) a missing child;

(4) an injury to a child that requires treatment by a health care professional;

(5) the death of any of the following:

(A) A child;

(B) a provider in a day care home or group day care home;

(C) an employee in a preschool or child care center; or

(D) a volunteer in a day care home, group day care home, preschool, or child care center; and

(6) any other occurrence that jeopardizes the safety of any child in care.

(b) Written reports to the department. Each primary care provider and each program director shall ensure that a written report of any critical incident specified in subsection (a) is submitted by the next working day to the department. The report shall be submitted on a form provided by the department. A copy of each critical incident report shall be kept on file at the facility for at least one year from the date of the critical incident. (Authorized by and implementing K.S.A. 65-508; effective Dec. 27, 2019.)

28-4-370. (Authorized by K.S.A. 65-508; implementing K.S.A. 65-501, 65-502, 65-504, 65-508; effective May 1, 1981; revoked July 9, 2010.)

28-4-371. (Authorized by K.S.A. 65-508; implementing K.S.A. 65-501, 65-503, 65-508, K.S.A. 1982 Supp. 65-504, 65-505; effective May 1, 1981; amended, T-83-24, Aug. 25, 1982; amended May 1, 1983; revoked July 9, 2010.)

28-4-372. (Authorized by K.S.A. 65-508; implementing K.S.A. 65-502, 65-504, 65-509, 65-510, 65-511; effective May 1, 1981; revoked July 9, 2010.)

28-4-373. (Authorized by K.S.A. 65-508; implementing K.S.A. 65-501, 65-502, 65-504, 65-507, 65-508; effective May 1, 1981; revoked July 9, 2010.)

28-4-374. (Authorized by K.S.A. 65-508; implementing K.S.A. 65-507, 65-508; effective May 1, 1981; amended May 1, 1985; revoked July 9, 2010.)

28-4-375. (Authorized by K.S.A. 65-508; implementing K.S.A. 65-507, 65-508; effective May 1, 1981; amended May 1, 1985; revoked July 9, 2010.)

28-4-376. (Authorized by K.S.A. 65-508; implementing K.S.A. 65-507, 65-508, 65-510; effective May 1, 1981; amended May 1, 1985; revoked July 9, 2010.)

28-4-377. (Authorized by and implementing K.S.A. 65-508; effective May 1, 1981; amended, T-87-34, Nov. 19, 1986; amended May 1, 1987; revoked July 9, 2010.)

28-4-378 and 28-4-379. (Authorized by and implementing K.S.A. 65-508; effective May 1, 1981; revoked July 9, 2010.)

28-4-428. Staff requirements. Each licensee shall ensure that all of the following requirements are met:

(a) Minimum staff-child ratio.

(1) The ratio between staff members and children shall be determined by the ages of the children and the type of care provided.

(2) The minimum staff-child ratio and the maximum number of children per unit shall be the following, at all times:

Age of children	Minimum staff-child ratio	Maximum number of children per unit
Infants	1 to 3	9
Infants and other children under the age of 6	1 to 4 (including not more than 2 infants)	8 (including not more than 4 infants)
Toddlers	1 to 5	10
Children at least 2 years of age but under the age of 3	1 to 7	14
Children at least 2½ years of age but under school-age	1 to 10	20
Children at least 3 years of age but under school-age	1 to 12	24
Kindergarten enrollees	1 to 14	28
School-age	1 to 16	32

(3) No child shall be left unsupervised.

(b) Substitute staff. Each preschool and each child care center shall have two additional adults who are available to work in case of illness or emergency. These adults' names and phone numbers shall be posted and these individuals' health certificates shall be on file at the preschool or child care center.

(c) Volunteers. Each volunteer shall be at least 14 years of age. Any volunteer may be counted in the staff-child ratio if the individual is at least 16 years of age, completes the education and training requirements for a volunteer specified in K.A.R. 28-4-428a, and is supervised at all times by a staff member who is not a volunteer.

(d) Program director.

(1) Each preschool and each child care center shall have a program director who is employed full time.

(2) Each preschool and each child care center licensed for more than 60 children shall employ a program director who has no other assigned responsibilities.

(3) Each preschool and each child care center licensed for more than 60 children shall have an administrator, who may also be the program director.

(e) References. Each staff member shall provide work references to the licensee at the time of application for employment. (Authorized by and implementing K.S.A. 2016 Supp. 65-508; effective May 1, 1983; amended May 1, 1984; amended May 1, 1985; amended May 1, 1986; amended May 12, 2017.)

28-4-428a. Education and training requirements. (a) Orientation.

(1) Each person shall, before applying for a license, complete an orientation program on the requirements for operating a preschool or a child care center. If the person is not an individual, the person shall designate an individual to meet this requirement. The orientation shall be provided by the county health department or the secretary's designee that serves the county in which the preschool or child care center will be located.

(2) Each licensee shall provide orientation to each program director not later than seven calendar days after the date of employment and before the program director is given sole responsibility for implementing and supervising the program.

(3) Each licensee shall ensure that orientation is completed by each staff member who will be

counted in the staff-child ratio and by each volunteer who will be counted in the staff-child ratio. Each staff member and each volunteer shall complete the orientation within seven calendar days after the date of employment or volunteering. Each staff member shall complete the orientation before being given sole responsibility for the care and supervision of children.

(4) Each licensee shall ensure that the orientation for each program director, staff member, and volunteer is related to work duties and responsibilities and includes the following:

- (A) Licensing regulations;
- (B) the policies and practices of the preschool or child care center, including emergency procedures, behavior management, and discipline;
- (C) the schedule of daily activities;
- (D) care and supervision of children in care, including any special needs and known allergies;
- (E) health and safety practices; and
- (F) confidentiality.

(b) Health and safety training.

(1) Each staff member who is counted in the staff-child ratio, each volunteer who is counted in the staff-child ratio, and each program director shall complete health and safety training either before employment or volunteering or not later than 30 calendar days after the date of employment or volunteering. Each staff member shall complete the training before being given sole responsibility for the care and supervision of children.

(2) The health and safety training shall be approved by the secretary and shall include the following subject areas:

(A) Recognizing the signs of child abuse or neglect, including prevention of shaken baby syndrome and abusive head trauma, and the reporting of suspected child abuse or neglect;

(B) basic child development, including supervision of children;

(C) safe sleep practices and sudden infant death syndrome if the individual will be caring for children under 12 months of age;

(D) prevention and control of infectious diseases, including immunizations;

(E) prevention of and response to emergencies due to food and allergic reactions;

(F) building and premises safety, including identification of and protection from hazards that could cause bodily injury, including electrical hazards, bodies of water, and vehicular traffic;

(G) emergency preparedness and response planning for emergencies resulting from a natural

disaster or a human-caused event, including violence at a facility;

(H) handling and storage of hazardous materials and the appropriate disposal of bio-contaminants, including blood and other bodily fluids or waste; and

(I) precautions when transporting children, if transportation is provided.

(3) Each staff member counted in the staff-child ratio, each volunteer counted in the staff-child ratio, and each program director who was employed at the facility before July 1, 2017 and who has completed the training in the subject areas specified in paragraphs (b)(2)(A), (B), and (C) shall be exempt from training in the subject areas specified in paragraphs (b)(2)(D) through (I).

(c) Pediatric first aid and cardiopulmonary resuscitation (CPR) certifications.

(1) Each staff member counted in the staff-child ratio, each volunteer counted in the staff-child ratio, and each program director shall obtain certification in pediatric first aid and in pediatric CPR as specified in this subsection either before the date of employment or volunteering or not later than 30 calendar days after the date of employment or volunteering.

(2) Each individual who is required to obtain the certifications shall maintain current certifications.

(3) Each licensee shall ensure that, for each unit in a preschool or child care center, at least one staff member or volunteer counted in the staff-child ratio who has current certification in pediatric first aid and current certification in pediatric CPR is present at all times.

(d) Medication administration training. Each program director and each staff member designated to administer medications shall complete the training in medication administration as specified in this subsection.

(1) The training shall be approved by the secretary.

(2) Each program director and each staff member designated to administer medications who was employed at the facility before July 1, 2017 shall complete the training not later than December 31, 2017. The program director or the staff member designated to administer medications shall not administer medications after December 31, 2017 unless the individual has completed the training.

(3) Each program director and each staff member designated to administer medications who is

employed at the facility on or after July 1, 2017 shall complete the training before administering medication to any child.

(e) Education requirements. Each program director shall be a high school graduate or the equivalent. For each unit in a preschool or child care center, there shall be present at all times at least one staff member who has a high school diploma or the equivalent, as required in K.A.R. 28-4-429.

(f) Annual in-service training requirements.

(1) For purposes of this subsection, "licensure year" shall mean the period beginning on the effective date and ending on the expiration date of a license.

(2) In each licensure year, each program director shall assess the training needs of each staff member and each volunteer and shall provide or arrange for annual in-service training as needed.

(3) In each licensure year, each program director shall complete in-service training as follows:

(A) For each licensure year ending during the 2017 calendar year, five clock-hours;

(B) for each licensure year ending during the 2018 calendar year, five clock-hours;

(C) for each licensure year ending during the 2019 calendar year, 12 clock-hours; and

(D) for each licensure year ending during the 2020 calendar year, and for each subsequent licensure year, 16 clock-hours.

(4) In each licensure year, each staff member counted in the staff-child ratio and each volunteer counted in the staff-child ratio shall complete in-service training as follows, based on the staff member's or volunteer's job responsibilities and the training needs identified by the program director:

(A) For each licensure year ending during the 2017 calendar year, 10 clock-hours;

(B) for each licensure year ending during the 2018 calendar year, 10 clock-hours;

(C) for each licensure year ending during the 2019 calendar year, 12 clock hours; and

(D) for each licensure year ending during the 2020 calendar year, and for each subsequent licensure year, 16 clock-hours.

(5) The training shall be approved by the secretary.

(g) Documentation. Each licensee shall ensure that documentation of all orientation, training, certifications, and education requirements is kept in each individual's file in the preschool or child care center. (Authorized by and implementing K.S.A. 2016 Supp. 65-508; effective Feb. 3, 2012; amended May 12, 2017.)

28-4-440. Infant and toddler programs.

(a) Infant and toddler programs shall be conducted on the ground floor only.

(b) Each unit of infants and each unit of toddlers shall be separate from each unit of older children.

(c) Floor furnaces shall be prohibited.

(d) A sleeping area separate from the play area shall be provided for infants.

(e) A crib or playpen shall be provided for each infant in care at any one time. Cribs and playpens shall be maintained in good condition. Clean individual bedding shall be provided.

(f) Each licensee shall ensure that the following requirements are met:

(1) The use of stacking cribs, cribs with water mattresses, or bassinets shall be prohibited.

(2) Cribs and playpens shall have slats not more than 2 $\frac{3}{8}$ inches apart.

(3) All sides of each crib or playpen shall be up while the crib or playpen is in use.

(4) On and after December 28, 2012, each licensee shall ensure that no crib purchased before June 28, 2011 is in use in the facility.

(g) Each licensee shall make any necessary changes to follow the recommendations of any consumer warning or recall of a crib or a playpen as soon as the warning or recall is known.

(h) Each licensee shall develop and implement safe sleep policies and practices for infants and toddlers and shall ensure that the policies and practices are discussed with the parent or legal guardian of each child before the first day of care. The safe sleep policies and practices shall include the following requirements:

(1) Each staff member who cares for children and each volunteer who cares for children shall follow the safe sleep policies and practices of the child care center.

(2) Each staff member who cares for infants and each volunteer who cares for infants shall ensure that all of the following requirements are met:

(A) Each infant shall nap or sleep in a crib or a playpen.

(B) An infant shall not nap or sleep in the same crib or playpen as that occupied by another infant or child at the same time.

(C) If an infant falls asleep on a surface other than a crib or playpen, the infant shall be moved to a crib or playpen.

(D) Each infant shall be placed on the infant's back to nap or sleep.

(E) When an infant is able to turn over independently, the infant shall be placed on the in-

fant's back but then shall be allowed to remain in a position preferred by the infant. Wedges or infant positioners shall not be used.

(F) Each infant shall sleep in a crib or a playpen that is free of any soft items, which may include pillows, quilts, heavy blankets, bumpers, and toys.

(G) If a lightweight blanket is used, the blanket shall be tucked along the sides and foot of the mattress. The blanket shall not be placed higher than the infant's chest. The head of the infant shall remain uncovered. Any infant may nap or sleep in sleep clothing, including sleepers and sleep sacks, in place of a lightweight blanket.

(i) When children are awake, they shall not be left unattended in cribs or other confinement for more than 30 minutes.

(j) An adult-size rocking chair shall be provided for each unit of infants.

(k) Children not held for feeding shall have low chairs and tables, infant seats with trays, or high chairs with a wide base and a safety strap.

(l) Either individually labeled towels and washcloths or disposable products shall be provided.

(m) Items that children can place in their mouths shall be washed and sanitized daily and shall be washed and sanitized before being used by another child, if contaminated by saliva or other bodily fluids.

(n) Each licensee shall ensure that at least one staff member who meets one of the following staff requirements is present for each unit of infants and each unit of toddlers:

(1) Option 1: An individual who meets the qualifications of K.A.R. 28-4-429(b) and has at least three months' experience caring for infants and toddlers;

(2) option 2: a licensed L.P.N. or R.N. with three months' experience in pediatrics or in licensed child care centers enrolling infants and toddlers; or

(3) option 3: a child development associate credential in infant and toddler care.

(o) Each licensee shall ensure that the following program requirements are met:

(1) Daily activities shall contribute to the following:

- (A) Gross and fine motor development;
- (B) visual-motor coordination;
- (C) language stimulation; and
- (D) social and personal growth.

(2) Infants and toddlers shall spend time outdoors daily unless extreme weather conditions prevail.

(p) Each licensee shall ensure that the following food service requirements are met:

(1) The nitrate content of water for children under one year of age shall not exceed 10 milligrams per liter (10 mg/l) as nitrogen.

(2) Drinking water shall be available to each child at all times when the child is in care.

(3) Infants shall be held when bottle-fed until they can hold their own bottles.

(4) Infants and toddlers shall not be allowed to sleep with bottles in their mouths.

(5) Each bottle that contains prepared formula or breast milk shall be refrigerated with the nipple covered. The bottle shall be labeled with the child's name, the contents, and the date received and shall be used within 24 hours of the date on the label. If a child does not finish a bottle, the contents of the bottle shall be discarded. No formula or breast milk shall be heated in a microwave oven.

(6) Solid foods shall be offered when the program director and the parent or legal guardian of a child determine that the child is ready for solid foods. Opened containers of solid foods shall be labeled with child's name, the contents, and the date opened. Containers shall be covered and refrigerated. The food shall be used within three calendar days of the date opened. Food in previously opened containers shall be reheated only once and shall not be served to another child.

(q) Each licensee shall ensure that the following toileting requirements are met:

(1) Children's clothing shall be changed whenever wet or soiled.

(2) Each child shall have at least two complete changes of clothing.

(3) Handwashing facilities shall be in or adjacent to the diaper-changing area.

(4) A changing table shall be provided for each unit of infants and each unit of toddlers.

(5) Each changing table shall have an impervious, undamaged surface. Each table shall be sturdy and shall be equipped with railings or safety straps.

(6) Changing tables shall be sanitized after each use by washing with a disinfectant solution of ¼ cup of chlorine bleach to one gallon of water or with an appropriate commercial disinfectant.

(7) Wet or soiled washable diapers or training pants shall be stored in a labeled, covered container or plastic bag and shall be returned home with the parent.

(8) Wet or soiled disposable diapers shall be

placed in a covered container or plastic bag, which shall be emptied daily.

(9) There shall be one potty chair or child-sized toilet for every five toddlers. When a potty chair is used, the following requirements shall be met:

(A) Potty chairs shall be left in the toilet room.

(B) The wastes shall be disposed of immediately in a flush toilet.

(C) The container shall be sanitized after each use and shall be washed with soap and water daily.

(D) Potty chairs shall not be counted as toilets.

(10) Each individual shall wash that individual's hands after diapering, assisting a child with toiletting, or changing a child's wet or soiled clothing.

(11) Changing and toileting procedures shall be posted.

(r) There shall be daily communication between the parent, parents, or legal guardian and the staff about each child's behavior and development. (Authorized by and implementing K.S.A. 2010 Supp. 65-508; effective May 1, 1983; amended May 1, 1984; amended May 1, 1985; amended May 1, 1986; amended, T-87-34, Nov. 19, 1986; amended May 1, 1987; amended Feb. 3, 2012.)

28-4-503. Timing of specimen collections. (a) The initial specimen from each infant born in an institution shall be obtained as follows:

(1) (A) When the infant is at least 24 hours of age but less than 48 hours of age; or

(B) if the infant is discharged from the institution of birth before 24 hours of age, before the infant is discharged;

(2) before the infant is transferred from the institution of birth to another institution; and

(3) before the infant receives any blood transfusion.

(b) The initial specimen from each infant born outside of an institution shall be obtained as follows:

(1) When the infant is at least 24 hours of age but less than 48 hours of age; and

(2) before the infant receives any blood transfusion.

(c) A repeat specimen shall be obtained from each infant born in an institution or outside of an institution under any of the following conditions:

(1) The specimen is unsatisfactory as specified in K.A.R. 28-4-505.

(2) Follow-up recommendations have been issued by the department.

(3) The infant is less than 24 hours old when the initial specimen is taken. (Authorized by K.S.A. 65-101 and K.S.A. 65-180; implementing K.S.A.

65-180 and K.S.A. 65-181; effective, T-87-48, Dec. 19, 1986; effective May 1, 1987; amended April 14, 2000; amended Dec. 3, 2010; amended Dec. 7, 2018.)

28-4-505. Unsatisfactory specimens. (a) Each unsatisfactory specimen shall be retained by the department. The sending agency or facility shall be notified that the specimen is unsatisfactory. The physician or birth attendant shall be notified that the specimen is unsatisfactory with a request to submit another specimen.

(b) A specimen shall be labeled unsatisfactory if one of the following criteria is met:

(1) Identifying information is missing.

(2) More than 10 days have elapsed since the date of collection.

(3) The specimen is of unacceptable quality or quantity for analysis. (Authorized by K.S.A. 65-101 and K.S.A. 2009 Supp. 65-180; implementing K.S.A. 2009 Supp. 65-180 and K.S.A. 65-181; effective, T-87-48, Dec. 19, 1986; effective May 1, 1987; amended April 14, 2000; amended Dec. 3, 2010.)

28-4-514. MSUD and PKU; financial assistance availability for certain related expenses.

(a)(1) The following factors shall be used to determine each family's eligibility for financial assistance for necessary treatment products or medically necessary food treatment products, or both:

(A) Applicable income; and

(B) cash assets in excess of 15 percent of the applicable income.

(2) If a family seeking financial assistance under this regulation has more than one family member with MSUD or PKU, the family shall be considered eligible for financial assistance at a level that is 100 percent less than the eligibility level for a family with one family member.

(b) Each individual who applies for or who receives financial assistance under this regulation shall also meet the requirements in K.A.R. 28-4-401.

(c) The following eligibility requirements shall apply to each family:

(1) Each family with applicable income and cash assets less than or equal to 185 percent of the federal poverty level shall be eligible to receive 100 percent of the cost of necessary treatment products. This family shall be eligible each year for up to \$1,000 of medically necessary food treatment products for family members who are 18 years of age and younger.

(2) Each family with applicable income and cash assets more than 185 percent but not more than 285 percent of the federal poverty level shall be eligible to receive 50 percent of the cost of necessary treatment products.

(3) Each family with applicable income and cash assets more than 285 percent but not more than 385 percent of the federal poverty level shall be eligible to receive 25 percent of the cost of necessary treatment products.

(4) No family with applicable income and cash assets over 385 percent of the federal poverty level shall be eligible to receive any of the cost of necessary treatment products.

(d) If a family's health insurance covers a portion of the cost of necessary treatment products, the family's financial responsibility for this cost shall be determined pursuant to subsection (c).

(e) If the department orders any necessary treatment products for a family that is responsible for part of the cost, that family shall receive a statement indicating the amount to be reimbursed to the department. If reimbursement is not received from the family within 60 days of the statement date, the placement of any future orders for necessary treatment products for that family shall no longer be processed by the department. (Authorized by K.S.A. 65-101 and K.S.A. 2009 Supp. 65-180; implementing K.S.A. 2009 Supp. 65-180; effective, T-28-7-5-06, July 5, 2006; effective Oct. 20, 2006; amended Dec. 3, 2010.)

28-4-520. Definitions. In addition to the definitions in K.S.A. 65-1,241 and amendments thereto, each of the following terms shall have the meaning assigned in this regulation:

(a) "Abnormal condition" means any condition established at conception or acquired in utero that results in a morphologic, metabolic, functional, or behavioral disorder requiring medical or other intervention.

(b) "Birth defects information system" means the Kansas birth defects reporting system, which collects, maintains, analyzes, and disseminates information regarding abnormal conditions, birth defects, and congenital anomalies of each still-birth and of each child from birth to five years of age with a birth defect.

(c) "Congenital anomaly" means an error of morphogenesis that is established at conception or acquired during intrauterine life, which is also referred to as a birth defect.

(d) "ICD-9-CM" means the clinical modification of the "international classification of diseases," ninth revision, published by Ingenix inc., which is used to code and classify morbidity data from inpatient and outpatient records, physician offices, and most surveys from the national center for health statistics. The following portions of volume one of this document are hereby adopted by reference:

(1) "Genetic and metabolic conditions," codes 243 through 279.2 on pages 49 through 60;

(2) "sickle cell anemia and other hemoglobinopathies," codes 282.4 through 282.7 on pages 61 and 62;

(3) "congenital anomalies," codes 740 through 759 on pages 227 through 240; and

(4) "fetal alcohol syndrome," code 760.71 on page 241.

(e) "Primary diagnosis" means the principal disease or condition assigned to an infant by a licensed physician based on the history of the disease process, signs and symptoms, laboratory data, and special tests. (Authorized by and implementing K.S.A. 2009 Supp. 65-1,245; effective Dec. 3, 2010.)

28-4-521. Reporting abnormal conditions and congenital anomalies. (a) Reporting requirements. Each physician, hospital, and free-standing birthing center shall report to the birth defects information system, pursuant to K.S.A. 65-1,241 and amendments thereto, the abnormal conditions and congenital anomalies listed in the portions of ICD-9-CM adopted by reference in K.A.R. 28-4-520.

(b) Method of reporting. Each abnormal condition and congenital anomaly that is required to be reported under this regulation shall be reported to the birth defects information system on a form approved by the secretary.

(c) Removal of reported information. Any parent or legal guardian may request the removal of reported information from the birth defects information system by using the removal form in accordance with K.S.A. 65-1,244, and amendments thereto. (Authorized by K.S.A. 2009 Supp. 65-1,245; implementing K.S.A. 2009 Supp. 65-1,241, 65-1,244, and 65-1,245; effective Dec. 3, 2010.)

28-4-550. Definitions. (a) "Assessment" means the initial and ongoing procedures used by qualified personnel to identify early intervention services.

(b) “Child find” means a public awareness program provided by community and state agencies that prepares information on the availability of early intervention services, disseminates information given to parents of infants and toddlers with disabilities to all primary referral sources, and adopts procedures for assisting the primary referral sources for the purpose of identifying the potential need for early intervention services.

(c) “Collaboration” means the establishment and maintenance of open communication and cooperative working relationships among service providers and other caregivers and the family when identifying goals and delivering care to children.

(d) “Community” means an interacting population of various kinds of individuals in a common location.

(e) “Community-based,” when used to describe a place, means a place where small groups of infants and toddlers without disabilities are typically found, including child care centers and day care facilities.

(f) “Continuing education experience” means either of the following:

(1) College and university coursework completed after an individual receives a professional credential; or

(2) an inservice, workshop, or conference that offers professional continuing education credit.

(g) “Developmental delay” means any of the following conclusions obtained using evidence-based instruments and procedures in one or more areas of development, including cognitive, physical, communication, social or emotional, or adaptive development:

(1) There is a discrepancy of 25 percent or more between chronological age, after correction for prematurity, and developmental age in any one area.

(2) There are delays of at least 20 percent in two or more areas.

(3) The informed clinical opinion of a multidisciplinary team concludes that a developmental delay exists when specific tests are not available or when testing does not reflect the child’s actual performance.

(h) “Early intervention records” means reports, letters, and educational and medical records that are collected, maintained, or used by the local lead agency in the screening, evaluation, and development of an IFSP or in the delivery of services, or both.

(i) “Eligible,” when used to describe a child, means a child from birth through two years who has one of the following:

(1) A developmental delay or a known condition leading to a developmental delay; or

(2) an established risk for developmental delay. The developmental delay does not have to be exhibited at the time of diagnosis, but the common history of the condition indicates the need for early intervention services.

(j) “Evaluation” means the procedures used by qualified personnel to determine a child’s eligibility for early intervention services.

(k) “Family” means the individuals identified by the parent or parents of an infant or a toddler with special needs to be involved in developing the IFSP and early intervention services.

(l) “Family service coordinator” means a person who is responsible for coordinating all early intervention services required under part C across agency lines and for serving as the single point of contact for carrying out these early intervention services.

(m) “Family service coordination services” means the services provided by a family service coordinator.

(n) “Home-based,” when used to describe a site, means a site identified by a family as the home where individualized services for a child and family are delivered.

(o) “IDEA” means the individuals with disabilities education act, as specified in 20 U.S.C. 1400 et seq.

(p) “Individualized family service plan” and “IFSP” mean a written plan for providing early intervention services to an eligible child and the child’s family.

(q) “Local community” means a geographic service area with various boundaries, including cities, counties, parts of counties, and multicounty regions, as defined by a local council.

(r) “Local fiscal agency” means a legal entity designated by a local council and approved by the secretary that ensures compliance with part C of IDEA grant award and maintains an accounting system that meets the state and federal requirements under IDEA for generally accepted accounting principles for recording receipts, obligations, and disbursements of grant funds.

(s) “Local lead agency” means a legal entity designated by the local council and approved by the secretary that ensures compliance with part C of IDEA.

(t) “Local tiny-k program” means the part C early intervention services network, as determined by the local council, that serves a specific geographic area.

(u) “Local tiny-k program coordinator” means the person designated by the local lead agency to be the central contact for the local tiny-k program.

(v) “Mediation” means the process by which parties, together with the assistance of an impartial individual, move toward resolution or resolve a dispute through discussion of options, alternatives, and negotiation.

(w) “Multidisciplinary IFSP team” means a parent and two or more individuals from separate professions who determine the early intervention services needed.

(x) “Multidisciplinary evaluation and assessment team” means individuals from two or more professions, which may include one individual who is qualified in more than one profession, who complete an assessment and an evaluation.

(y) “Parent” means any of the following:

(1) A biological or adoptive parent of a child;
 (2) a foster parent, unless state law or a contractual obligation with a state or local entity prohibits the foster parent from acting as a parent;

(3) a guardian authorized to act as a child’s parent or authorized to make decisions regarding early intervention services, education, health, or development for a child;

(4) an individual acting in the place of a biological or adoptive parent; or

(5) a child advocate, as specified in K.A.R. 28-4-568.

(z) “Part C” means the portion of IDEA that governs the grant program for states to develop a statewide, comprehensive, coordinated, multidisciplinary, interagency system to provide early intervention services for infants and toddlers with disabilities and their families.

(aa) “Party,” when used in K.A.R. 28-4-569 to identify any participant in a complaint proceeding, means the lead agency, any local tiny-k program, any provider of early intervention services, or any person that files a complaint with the lead agency.

(bb) “Payor of last resort” means the federal program that makes part C funds available to pay for early intervention services for an eligible child that are not paid from other public or private sources.

(cc) “Person,” when used in this regulation and in K.A.R. 28-4-569 to identify any participant in a

complaint proceeding, means a parent, an individual, or an organization.

(dd) “Potentially eligible,” when used to describe a child, means that the child receives early intervention services at least 90 days before that child’s third birthday or that the child is identified as eligible for part C at least 45 days before that child’s third birthday.

(ee) “Primary referral source” means any of the following:

- (1) A hospital;
- (2) a physician;
- (3) a parent;
- (4) a child care program;
- (5) an early learning program;
- (6) a local educational agency;
- (7) a school;
- (8) a public health facility;
- (9) a public health agency;
- (10) a social service agency;
- (11) a clinic;
- (12) a health care provider;
- (13) a public agency in the child welfare system;
- (14) a homeless family shelter; or
- (15) a domestic violence shelter.

(ff) “Referral to the local tiny-k program” means a transfer of information by a primary referral source to determine eligibility for part C or to initiate or continue early intervention services.

(gg) “Screening process” means the clinical observation of or the use of a developmentally appropriate screening tool by a local tiny-k program to determine the need for evaluation.

(hh) “Secretary” means secretary of the Kansas department of health and environment. (Authorized by and implementing K.S.A. 75-5649; effective Jan. 30, 1995; amended Aug. 15, 1997; amended March 7, 2014.)

28-4-552. (Authorized by and implementing K.S.A. 1996 Supp. 75-5649; effective Jan. 30, 1995; amended Aug. 15, 1997; revoked March 7, 2014.)

28-4-556. (Authorized by and implementing K.S.A. 1996 Supp. 75-5649; effective Jan. 30, 1995; amended Aug. 15, 1997; revoked March 7, 2014.)

28-4-564. Personnel requirements. (a) Early intervention services shall be provided by qualified personnel.

(b) Qualified personnel shall meet state-approved or state-recognized certification, li-

censing, registration, or other comparable requirements that apply to the area in which the individual is providing early intervention services.

(1) Each audiologist shall be licensed by the Kansas department for aging and disability services.

(2) Each clinical professional counselor shall be licensed by the Kansas behavioral sciences regulatory board.

(3) Each marriage and family therapist shall be licensed by the Kansas behavioral sciences regulatory board.

(4) Each nurse shall be licensed as a registered professional nurse by the Kansas board of nursing.

(5) Each nutritionist shall be a dietitian licensed by the Kansas department for aging and disability services.

(6) Each occupational therapist shall be licensed by the Kansas board of healing arts.

(7) Each orientation and mobility specialist shall meet the following requirements:

(A) (i) Have at least a bachelor's degree with an orientation and mobility endorsement, from an accredited university or college; or

(ii) have a bachelor's degree from an accredited university or college in any field of study and verification of orientation and mobility certification from an accredited university or college; and

(B) have completed 350 hours of supervised practice as an orientation and mobility specialist that includes direct service hours, related telephone calls, meetings, observations, and report writing. The practice shall be supervised by a certified orientation and mobility specialist.

(8) Each physician, including each pediatrician, shall be licensed by the Kansas board of healing arts and board-certified in the specialty area.

(9) Each physical therapist shall be licensed by the Kansas board of healing arts.

(10) Each psychologist shall be licensed by the Kansas behavioral sciences regulatory board or licensed as a school psychologist by the Kansas state board of education.

(11) Each family service coordinator shall have a bachelor's degree in education, health studies, nutrition, social welfare, or the human services field and have at least six months of experience in early childhood development. Each individual working as a family service coordinator before June 1, 2013 shall be deemed to have met the education and experience requirements of this paragraph.

(12) Each social worker shall be licensed by the Kansas behavioral sciences regulatory board.

(13) Each special educator and each special instruction provider shall be licensed by the Kansas state board of education in early childhood special education or in early childhood unified education.

(14) Each speech-language pathologist shall be licensed by the Kansas department for aging and disability services.

(15) Each teacher of the hearing-impaired shall be licensed as a teacher of the hearing-impaired by the Kansas state board of education.

(16) Each teacher of the blind and visually impaired shall be licensed as a teacher of the blind and visually impaired by the Kansas state board of education.

(c) The continuing education requirements for licensure, registration, or certification for personnel providing early intervention services shall be determined by the regulatory body governing each profession.

(1) Continuing education shall include discipline or cross-discipline information clearly related to the enhancement of the practice, value, skills, and knowledge of working with children with special needs, from birth through age two, and their families.

(2) If continuing education is a requirement for licensure, certification, or registration renewal, at least one-third of the required number of credits, units, points, or hours shall focus on the content specified in paragraph (c)(1).

(3) If continuing education is not a requirement for licensure, certification, or registration renewal, 24 continuing education hours that focus on the content specified in paragraph (c)(1) and are obtained in a three-year period shall be required.

(d) Aides, assistants, and paraeducators in local tiny-k programs shall work under the supervision of a professional in that discipline according to the standards of that profession. (Authorized by and implementing K.S.A. 75-5649; effective Jan. 30, 1995; amended March 7, 2014.)

28-4-565. Local tiny-k program responsibilities. (a) Each local tiny-k program shall have a local council that has as one of its purposes the coordination of part C for infants and toddlers with disabilities and their families.

(1) The local council shall consist of members who reflect the community, including at least the following:

(A) A parent of a child who has received part C services;

(B) A representative of a health or medical agency;

(C) a representative of an educational agency;
 (D) a representative of a social service agency;
 and

(E) a representative of the local tiny-k program.

(2) The names of local council members shall be submitted to and acknowledged by the lead agency.

(3) The chair of the local council shall be elected by the local council. The name of the local council chair shall be provided to the lead agency. A local council chair shall not be a local tiny-k program coordinator.

(4) The responsibilities of the local council shall include the following:

(A) Identifying local service providers who can provide early intervention services to infants and toddlers with disabilities and their families;

(B) advising and assisting local service providers; and

(C) communicating, combining, cooperating, and collaborating with other local councils on issues of concern.

(b) Each local tiny-k program coordinator, in collaboration with the local council, shall develop a plan describing the system for coordinating part C. The plan shall include the following:

(1) Identification of a local lead agency, which shall be acknowledged by the secretary of the lead agency;

(2) identification of a local fiscal agency, which shall be acknowledged by the secretary of the lead agency. The local lead agency and local fiscal agency may be the same agency, if the local lead agency is a legal entity;

(3) a description of identified community needs and resources;

(4) a description of written interagency agreements or memoranda of understanding and the way those agreements or memoranda are used in the development of an IFSP for eligible children and their families;

(5) a public awareness program that informs community members about child find, the central point of contact for the community, and the availability of early intervention services;

(6) a provision that part C shall be at no cost to eligible infants and toddlers and their families; and

(7) an assurance that the information regarding the plan is available in the community.

(c) Each local tiny-k program coordinator and local council requesting part C and state funds shall submit an annual grant application to the

lead agency, which shall meet the following requirements:

(1) Include the plan for part C, as described in subsection (b); and

(2) be in compliance with the grant application materials provided by the lead agency.

(d) Each local tiny-k program shall be required to utilize multiple funding sources with part C funds utilized as the payor of last resort. (Authorized by and implementing K.S.A. 75-5649; effective Jan. 30, 1995; amended Aug. 15, 1997; amended March 7, 2014.)

28-4-568. Child advocates. (a) Each local tiny-k program coordinator, with the assistance of the secretary, if needed, shall determine the legal relationship between a parent and a child before evaluation and assessment.

(b) The lead agency shall assign a child advocate to a child if at least one of the following conditions is met:

(1) No parent can be identified.

(2) A local tiny-k program, after reasonable efforts, cannot locate a parent.

(3) The child is in the custody of the state under the laws of Kansas, and parental rights have been severed.

(c) The method used for assigning a child advocate shall be as follows:

(1) Each local tiny-k program shall inform the lead agency or its contracting agency upon determining that a child needs a child advocate.

(2) Each local tiny-k program shall be assisted in locating an appropriate child advocate by the secretary. A child advocate shall be assigned under the authority of the lead agency or, if the child is in the custody of the state, appointed by the district court having jurisdiction over the custody proceedings for the child.

(d) Each child advocate shall be selected from a list of individuals who have completed training in advocacy for individuals or have demonstrated knowledge of the power, duties, and functions necessary to provide adequate representation of a child. This list shall be maintained by the lead agency or its contracting agency.

(e) The lead agency or its contracting agency shall ensure that each individual selected as a child advocate meets the following conditions:

(1) Has no interest that conflicts with the interests of the child;

(2) has knowledge and skills that ensure representation of the child; and

(3) is not an employee of the lead agency or any agency involved in the provision of early intervention services or any other services to the child.

(f) A child advocate shall not be considered an employee of the lead agency or any agency involved in the provision of early intervention services or any other services to the child solely because the individual is paid by a public agency to serve as a child advocate.

(g) Each child advocate shall have the same rights as those of a parent under part C.

(h) The contracting agency shall make reasonable efforts to ensure that a child advocate is assigned to a child less than 30 days after it is determined that the child needs a child advocate. (Authorized by and implementing K.S.A. 75-5649; effective Jan. 30, 1995; amended March 7, 2014.)

28-4-569. Resolution of complaints. (a) Complaints. Any person believing that there has been any violation of part C may file a complaint with the lead agency. A complaint may allege any violation of part C that occurred no more than one year before the lead agency received the complaint.

(b) Complaint proceedings. Any person who files a complaint may participate in the resolution of the complaint through one or more of the proceedings specified in subsections (c), (d), and (e), which may occur individually or simultaneously. Each person shall be responsible for that person's legal fees.

(c) Formal complaint. Any person may file a formal complaint against the lead agency, any local tiny-k program, or any provider of early intervention services, or any combination of these.

(1) Each formal complaint shall be submitted on a form provided by the lead agency or shall be submitted as a written and signed statement that includes the following information:

(A) Any alleged violations of part C requirements;

(B) the alleged circumstances on which the formal complaint is based;

(C) the contact information of the person filing the formal complaint; and

(D) a proposed resolution to the extent known and available to the person.

(2) If the formal complaint alleges any violation regarding a specific child, the formal complaint shall include the following additional information:

(A) The child's name and address;

(B) the name of the local tiny-k program providing early intervention services for the child;

(C) a description of any alleged violations regarding the child; and

(D) a proposed resolution of the problem, to the extent known and available to the person.

(3) Any person may submit additional written information about the allegations in the formal complaint within five days after filing the formal complaint.

(d) Mediation. A mediation may be requested by any party.

(1) A mediation shall be conducted if it meets the following requirements:

(A) Is voluntary by each party;

(B) does not deny or delay a parent's right to a due process hearing or any other rights under part C; and

(C) is conducted by an impartial mediator trained in mediation techniques.

(2) Each mediator appointed by the lead agency shall meet the following requirements:

(A) Be selected on a random or impartial basis by the lead agency;

(B) have knowledge of the laws and regulations relating to early intervention services;

(C) not be an employee of the lead agency or the provider of early intervention services; and

(D) be impartial and not have a private or professional interest in the outcome of the mediation.

(3) Each mediation shall be scheduled by agreement of each party and shall be held in a location convenient to each party.

(4) Each mediator shall perform the following duties:

(A) Listen to the presentation of each party to determine facts and issues;

(B) assist in the development of creative alternatives to resolve the complaint; and

(C) facilitate negotiation and decision making.

(5) If the parties resolve a dispute through mediation, the parties shall execute a legally binding mediation agreement.

(6) All discussions that occur during a mediation shall remain confidential.

(e) Due process hearing. Each due process hearing shall be conducted by a hearing officer who has knowledge of part C and early intervention services.

(1) Each due process hearing shall be conducted at a time and place convenient to the parents.

(2) Each hearing officer shall meet the requirements for impartiality specified in paragraph (d) (2), except that the hearing officer shall be selected by the office of administrative hearings.

(3) The hearing officer shall perform the following duties:

- (A) Schedule the hearing;
- (B) listen to each party's presentation;
- (C) examine the information presented by each party;
- (D) issue a written decision and provide the written decision to each party within 30 days after the lead agency receives the due process complaint; and

(E) provide a written or electronic verbatim transcription of the hearing.

(4) Each parent involved in a due process hearing shall have the following rights:

(A) To be accompanied and advised by counsel and by individuals with special knowledge or training with respect to early intervention services;

(B) to present evidence and testimony from witnesses;

(C) to prohibit the introduction of any evidence that has not been disclosed to the parent at least five days before the hearing; and

(D) to be provided with the written decision of the hearing officer and the verbatim transcription of the hearing at no cost.

(f) Each local lead agency and each local fiscal agency shall be responsible for the costs of remediation of part C complaints through formal complaint, mediation, or due process hearing proceedings, except legal fees. (Authorized by and implementing K.S.A. 75-5649; effective Jan. 30, 1995; amended Aug. 15, 1997; amended March 7, 2014.)

28-4-573. System of payments. (a) Part C funds shall be available at no cost to a family even if that family provides consent to bill third-party sources, including private insurance.

(b) Funds under part C may be used only for early intervention services that infants and toddlers with disabilities need if the early intervention services are not paid for by any other federal source or any Kansas, local, or private source, in accordance with 34 C.F.R. 303.520. (Authorized by and implementing K.S.A. 75-5649; effective March 7, 2014.)

28-4-584. Background checks. Each applicant and each operator shall meet the following requirements:

(a) Submit to the department the identifying information necessary to complete background checks for each individual at least 14 years of age

who works or regularly volunteers in the program and any other individual in the program whose activities involve either supervised or unsupervised access to children. The identifying information shall be submitted as follows:

(1) When submitting an application for a license;

(2) when submitting an application to renew a license; and

(3) before allowing any individual to work or regularly volunteer in the program and before allowing any individual whose activities involve either supervised or unsupervised access to children to be in the program;

(b) ensure that fingerprint-based background checks are completed for each of the following individuals:

(1) The applicant;

(2) the operator;

(3) each program director;

(4) each program director designee;

(5) each staff member;

(6) each volunteer counted in the supervisory ratio; and

(7) any other individual regularly in the program whose activities involve unsupervised access to children;

(c) ensure that the information submitted for each individual specified in subsection (b) includes the required information for background checks from each state of residence throughout

the five-year period before allowing the individual to work or regularly volunteer in the program;

(d) ensure that name-based background checks by the Kansas bureau of investigation and the Kansas department for children and families are completed for each of the following individuals:

(1) Each volunteer who is not counted in the supervisory ratio and who does not have unsupervised access to children;

(2) each student of an accredited secondary or postsecondary school who is at least 16 years of age and who is participating in an educational experience arranged by the school, if the student is not counted in the supervisory ratio and does not have unsupervised access to children; and

(3) any other individual regularly in the program whose activities do not involve unsupervised access to children; and

(e) ensure that no individual works or regularly volunteers in the program until the results of the individual's background checks verify that the individual is not prohibited from working, regularly

volunteering, or residing in a facility pursuant to K.S.A. 65-516, and amendments thereto. (Authorized by K.S.A. 2017 Supp. 65-508; implementing K.S.A. 2017 Supp. 65-516; effective, T-28-4-1-02, April 1, 2002; effective Jan. 10, 2003; amended June 7, 2018.)

28-4-587. Staff member qualifications; professional development training; staffing requirements. (a) Staff qualifications. Each operator and each staff member shall demonstrate an understanding of children and youth and shall act with reasonable care and judgment.

(b) Program director.

(1) Each operator shall hire a program director who meets the following qualifications:

(A) Is at least 18 years of age and is at least three years older than the oldest youth in the program;

(B) demonstrates the following:

(i) Knowledge of child and youth development;

(ii) knowledge of the licensing regulations governing school-age programs;

(iii) administrative and supervisory skills;

(iv) the ability to communicate clearly; and

(v) the competence to manage the program in compliance with the program policies, the program plan, and the licensing regulations governing school-age programs; and

(C) holds either a high school diploma or a general educational development (GED) credential.

(2) In addition to meeting the requirements specified in paragraph (b)(1), each program director shall meet one of the following qualifications, based on the license capacity:

(A) For a license capacity of 30 or fewer children or youth, has been approved as a program director as specified in K.A.R. 28-4-429(b) or (c), or has at least three months of job-related experience;

(B) for a license capacity of 31 through 60 children or youth, meets one of the following requirements:

(i) Has been approved as a program director as specified in K.A.R. 28-4-429(d) or (e);

(ii) has 15 academic credit hours; or

(iii) has six months of job-related experience;

(C) for a license capacity of 61 through 120 children or youth, meets one of the following requirements:

(i) Has been approved as a program director as specified in K.A.R. 28-4-429(e);

(ii) has 60 academic credit hours;

(iii) has 12 months of job-related experience; or

(iv) has a combination of 30 academic credit hours and six months of job-related experience; or

(D) for a license capacity of 121 or more children or youth, holds at least a bachelor's degree from an accredited college or university and has job-related experience.

(3) Within 10 calendar days after hiring each program director, each operator shall comply with one of the following:

(A) Obtain from the program director a copy of the approval letter issued by the secretary to document that the program director is qualified for the license capacity; or

(B) submit a request to the secretary for approval of the program director who has been hired.

(4) Each program director designee shall meet the requirements specified in paragraphs (b)(1) and (2)(A).

(c) Administrator. Each operator of a program that has a license capacity of 91 or more children or youth shall employ an administrator who meets the following qualifications:

(1) Is not the program director or a group leader;

(2) is at least 18 years of age;

(3) holds either a high school diploma or a GED credential; and

(4) possesses administrative ability, knowledge of the licensing regulations governing school-age programs, and the skill to supervise the business operation of the program.

(d) Group leader.

(1) Each individual designated as group leader shall meet the following qualifications:

(A) Is at least 18 years of age and is at least three years older than the oldest youth in the group;

(B) holds either a high school diploma or a GED credential; and

(C) has job-related experience working with school-age children or school-age youth.

(2) Each group leader shall possess the following:

(A) Knowledge of child and youth development;

(B) knowledge of the licensing regulations governing school-age programs;

(C) an understanding of age-appropriate activities;

(D) the ability to communicate clearly;

(E) skills and abilities to implement the program of activities; and

(F) the ability to foster positive, healthy relationships with children or youth.

(3) Each group leader shall meet the following requirements:

(A) Provide supervision and direction to the children and youth assigned to the group;

(B) supervise group activities during all hours children and youth are present; and

(C) provide supervision and direction to an assistant group leader.

(e) Assistant group leader.

(1) Each individual designated as assistant group leader shall meet the following qualifications:

(A) Is at least 16 years of age and is at least three years older than the oldest youth in attendance in the group; and

(B) possesses the following:

(i) The ability to provide supervision and guidance to a group of children or youth under the direction of a group leader;

(ii) the skill and ability to carry out the program of activities; and

(iii) the ability to foster positive, healthy relationships with children and youth.

(2) Each assistant group leader shall be under the supervision and direction of a group leader.

(f) Substitute staff members.

(1) Each operator shall ensure that substitutes are available to work if there is an emergency or a staff member absence.

(2) Each substitute shall meet the requirements for the staff member whom the substitute is temporarily replacing.

(3) The name and telephone number of each substitute shall be available to the program director or the program director's designee.

(g) Volunteers.

(1) Each volunteer shall be at least 14 years of age and, if working directly with the children and youth, shall be at least three years older than the oldest youth in the group.

(2) No volunteer shall be counted in the supervisory ratio unless the volunteer meets all the requirements of a group leader or assistant group leader and is designated as a group leader or assistant group leader by the program director.

(h) Documentation of qualifications. In addition to meeting the staff record requirements in K.A.R. 28-4-582, each operator shall have on file an application form completed by each staff member, including documentation of the staff member's qualifications. The documentation shall be on file on the premises or at a designated central office location that is accessible for review by the secretary's designee.

(i) Professional development training.

(1) Orientation training. Each operator shall

provide orientation training to each program director and each staff member who is counted in the supervisory ratio. The training shall be provided before or within the first week the program director or staff member works with children or youth. Each staff member shall complete the training before being given sole responsibility for the care and supervision of children or youth. The training shall be related to work duties and responsibilities and shall include the following subject areas:

(A) The mission and goals of the program;

(B) the licensing regulations governing school-age programs;

(C) the program policies and practices, including security and behavior management;

(D) the program of activities;

(E) supervision of children and youth, including any special needs and known allergies;

(F) confidentiality;

(G) recognizing and reporting symptoms of illness, child abuse, child neglect, and critical incidents as specified in K.A.R. 28-4-592;

(H) prevention of and response to emergencies due to food and allergic reactions;

(I) prevention and control of infectious diseases, including immunizations;

(J) premises safety, including identification of and protection from hazards that could cause bodily injury, including electrical hazards, bodies of water, and vehicular traffic;

(K) emergency preparedness and response planning for emergencies resulting from a natural disaster or a human-caused event, including violence at a premises;

(L) handling and storage of hazardous materials and the appropriate disposal of bio-contaminants, including blood and other bodily fluids or waste; and

(M) precautions when transporting children and youth, if transportation is provided.

(2) Ongoing professional development training.

(A) For purposes of this subsection, "licensure year" shall mean the period beginning on the effective date and ending on the expiration date of a license.

(B) In each licensure year, each program director shall complete professional development training as follows:

(i) For each licensure year ending during the 2017 calendar year, 15 clock-hours;

(ii) for each licensure year ending during the 2018 calendar year, 15 clock-hours; and

(iii) for each licensure year ending during the 2019 calendar year, and for each subsequent licensure year, 16 clock-hours.

(C) In each licensure year, each operator or program director shall assess the training needs of the staff members and shall provide or arrange for staff training as needed to maintain the program in compliance with the licensing regulations governing school-age programs.

(D) In each calendar year, each staff member shall complete professional development training as follows, based on the staff member's job responsibilities and the training needs identified by the operator or the program director:

(i) For each licensure year ending during the 2019 calendar year, 12 clock-hours; and

(ii) for each licensure year ending during the 2020 calendar year, and for each subsequent licensure year, 16 clock-hours.

(E) Each operator shall ensure that documentation of training is kept in each staff member's file on the premises or at a designated central office location that is accessible for review by the secretary's designee.

(j) Staffing requirements.

(1) Staff coverage. Each operator shall have a sufficient number of staff members on duty to supervise the children and youth during all hours of operation and to provide for their health, safety, and well-being. Each operator shall provide staff coverage if there is an emergency or a staff member absence.

(2) Supervision.

(A) Each operator shall ensure that the program has a qualified group leader for each 30 children or youth attending the program, except as specified in K.A.R. 28-4-596.

(B) Each operator shall maintain additional qualified staff to ensure that the supervisory ratio of one staff member for each 15 children and youth is not exceeded.

(C) Each staff member counted in the supervisory ratio shall be assigned responsibility for the supervision of children and youth and shall meet the following requirements:

(i) Meet the applicable qualifications for a group leader or assistant group leader; and

(ii) be physically present with the children or youth.

(3) Groups. Except as specified in K.A.R. 28-4-596, the number of children and youth in a group shall be limited by the following:

(A) The available space for activities; and

(B) the type of activity.

(4) Supervision of children and youth. Each staff member working with children and youth shall provide supervision to protect the health, safety, and welfare of the children and youth, and to reduce the risk of injury, illness, or abuse.

(5) Positive relationships. Each staff member shall encourage the development of positive adult-to-child and adult-to-youth relationships and shall be actively engaged with the children or youth under the staff member's supervision.

(6) Location of each child and each youth. Each group leader or assistant group leader shall know the location of each child and each youth under the supervision of that group leader or assistant group leader at all times.

(7) Unescorted child or youth. Any group leader or assistant group leader may, based on the policy of the program and the age and responsibility level of the child or youth, give a child or youth permission to walk unescorted from one supervised activity area to another supervised activity area or to the rest room. (Authorized by and implementing K.S.A. 2016 Supp. 65-508; effective, T-28-4-1-02, April 1, 2002; effective Jan. 10, 2003; amended, T-28-3-19-04, March 19, 2004; amended Sept. 10, 2004; amended June 23, 2017.)

28-4-592. Safety and emergency procedures; reporting requirements.

(a) Telephone.
(1) Each operator shall ensure that there is a working telephone readily available to the operator and staff members to receive all incoming calls and make outgoing calls during all hours of operation.

(2) Each operator shall post emergency telephone numbers for the police, fire department, ambulance, hospital or hospitals, and poison control center next to the telephone, or shall have the numbers immediately accessible to staff members.

(b) Emergency plan; drills.

(1) Each operator shall develop and implement an emergency plan to provide for the safety of children, youth, and staff members in emergencies. The emergency plan shall include the following information:

(A) The types of emergencies likely to occur on or near the premises, including a fire, a weather-related event, a missing or runaway child or youth, a chemical release, a utility failure, an intruder, an act of terrorism, and an unscheduled closing;

(B) a designated shelter-in-place area and a designated off-premises relocation site and evacuation routes for each area and for each site;

(C) procedures to meet the needs of individual children and youth, including each child or youth with special needs;

(D) procedures for notifying each parent or adult responsible for a child or youth of any off-premises relocation;

(E) procedures for reuniting each child and each youth with the parent or adult responsible for the child or youth; and

(F) procedures designating the tasks to be followed by each staff member in an emergency, including the following:

(i) As appropriate, contacting 911 or other emergency response entities;

(ii) assisting the children and youth, including children and youth with special needs, to move to a designated shelter-in-place area and to a designated off-premises relocation site; and

(iii) ensuring that emergency supplies are readily available.

(2) Each emergency plan shall be kept on file on the premises.

(3) Each operator shall ensure that the emergency plan is provided to the parent or adult responsible for the child or youth before the first day the child or youth begins attending the program.

(4) Each staff member shall follow the emergency plan.

(5) Each operator shall review the emergency plan at least annually and update it as needed.

(6) Each operator shall ensure that each staff member practices, at least annually, the procedures for assisting the children and youth to move to a designated shelter-in-place area and to a designated off-premises relocation site. The date and time of each practice and a list of all participating staff members shall be recorded and kept on file on the premises.

(7) Each operator shall ensure that each staff member, child, and youth participates in the following drills:

(A) Fire drills shall be conducted monthly. A record of the date and time of each fire drill and a record of each evacuation time shall be kept on file on the premises for one year.

(B) Tornado drills shall be conducted monthly. A record of the date and time of each tornado drill and a record of each evacuation time shall be kept on file on the premises for one year.

(c) First aid and cardiopulmonary resuscitation (CPR).

(1) Each operator shall ensure that there is at least one staff member on the premises who is

readily available to each child or youth at all times and who has a current certification in first aid and a current certification in CPR appropriate to the age of children and youth attending the program.

(2) Each operator shall maintain first-aid supplies in a first-aid kit, carrying case, box, or other container. The first-aid supplies shall include the following:

(A) First-aid manual;

(B) single-use gloves;

(C) adhesive bandages of assorted sizes;

(D) adhesive tape;

(E) a roll of sterile gauze;

(F) sharp scissors;

(G) sterile gauze squares at least four inches by four inches in size;

(H) a cleansing agent or liquid soap;

(I) an elastic bandage;

(J) tweezers; and

(K) a bottle of water for washing and cleansing.

(d) Standard precautions for handling blood and other bodily fluids or waste. Each operator shall ensure that each staff member complies with the following standard precautions when handling blood and other bodily fluids or waste:

(1) Each staff member shall avoid coming into direct contact with blood and other bodily fluids or waste.

(2) Each staff member shall wear single-use gloves in the following situations:

(A) When cleaning contaminated surfaces or areas;

(B) before dressing a cut or sore that is leaking body fluids; and

(C) when cleaning up each spill, including urine, feces, blood, saliva, vomit, and tissue discharge.

(3) Each contaminated surface or area on which a spill occurs shall be cleaned by removing any visible spill from the surface or area with a water-saturated disposable paper towel or wipe. After the surface or area has been cleaned, the surface or area shall be sanitized by wetting the entire surface or area with a disinfectant solution of chlorine bleach mixed according to the directions on the label, or an appropriate commercial disinfectant used according to the directions on the label.

(4) Each mop used to clean up a contaminated area shall be cleaned and rinsed in a disinfecting solution, wrung as dry as possible, and hung to dry.

(5) Each paper towel, sponge, or other material used for cleaning up a contaminated area shall be placed in a plastic bag with a secure tie and thrown away in a covered container.

(e) Emergency medical care.

(1) If a child or youth needs emergency medical care and is taken to an emergency care source, each operator shall ensure that the parent or adult responsible for the child or youth is notified immediately and shall make the following documents and information immediately available to emergency care personnel:

(A) The child's or youth's health history;

(B) the name, address, and telephone number of the following individuals:

(i) The parent or adult responsible for the child or youth;

(ii) a designated emergency contact; and

(iii) the physician designated by the parent or adult responsible for the child or youth to be called in case of emergency; and

(C) authorization for emergency medical care.

(2) If the operator has been unable to obtain the necessary documents as specified in K.A.R. 28-4-582, the operator shall follow the plan approved by the secretary.

(3) A staff member shall accompany a child or youth to the source of emergency care and shall remain with the child or youth until a parent or other responsible adult assumes responsibility for the child or youth. When a staff member goes to the source of emergency care with a child or youth, the operator shall ensure that there is an adequate number of staff members available to supervise the remaining children and youth in the program.

(f) Reporting illnesses.

(1) If a child or youth becomes ill while attending the program, the operator shall immediately notify the parent or adult responsible for the child or youth.

(2) If an operator, staff member, child, or youth in a program contracts a reportable infectious or contagious disease listed in K.A.R. 28-1-2, the operator shall report the disease to the secretary's designee by the next working day.

(3) The operator shall follow the protocol recommended by the county health department and shall cooperate fully with any investigation, disease control, or surveillance procedures initiated by the county health department or the department.

(g) Reporting critical incidents.

(1) Each operator shall report the following critical incidents immediately to each parent or adult responsible for a child or youth affected by the critical incident, on a form provided by the department:

(A) Fire damage or other damage to the building, or damage to the property that affects the structure of the building or safety of the children and youth;

(B) a vehicle collision involving children or youth;

(C) a missing child or youth;

(D) physical restraint of a child or youth by staff members;

(E) the injury of a child or youth that requires medical attention;

(F) the death of a child, youth, or staff member; and

(G) any other incident that jeopardizes the safety of any child or youth.

(2) Each operator shall report each critical incident specified in paragraph (g)(1) to the secretary's designee by the next working day, on a form provided by the department. A copy of each critical incident report shall be kept on file for not less than one year on the premises or at a designated central office location.

(3) Each operator shall ensure that a report is made to the secretary's designee of all known facts concerning the time, place, manner, and circumstances of the death of a child or a youth attending the program when submitting a critical incident report as specified in paragraph (g)(1).

(h) Reporting suspected child abuse or neglect. Each operator and each staff member shall report to the Kansas department for children and families or to law enforcement any suspected child abuse or child neglect within 24 hours. (Authorized by and implementing K.S.A. 2016 Supp. 65-508; effective, T-28-4-1-02, April 1, 2002; effective Jan. 10, 2003; amended June 23, 2017.)

28-4-705. Background checks. Each applicant and each operator shall meet the following requirements:

(a) Submit to the department the identifying information necessary to complete background checks for each individual who works or regularly volunteers in the drop-in program and any other individual in the drop-in program whose activities involve either supervised or unsupervised access to children. The identifying information shall be submitted as follows:

(1) When submitting an application for a license;

(2) when submitting an application to renew a license; and

(3) before allowing any individual to work or regularly volunteer in the drop-in program and before allowing any individual whose activities in-

volve either supervised or unsupervised access to children to be in the drop-in program;

(b) ensure that fingerprint-based background checks are completed for each of the following:

- (1) The applicant;
- (2) the operator;
- (3) each staff member;
- (4) each volunteer providing supervision to children; and
- (5) any other individual regularly in the drop-in program whose activities involve unsupervised access to children;

(c) ensure that the information submitted for each individual specified in subsection (b) includes the required information for background checks from each state of residence throughout the five-year period before allowing the individual to work or regularly volunteer in the drop-in program;

(d) ensure that name-based background checks by the Kansas bureau of investigation and the Kansas department for children and families are completed for each of the following individuals:

- (1) Each volunteer who does not have unsupervised access to children;
- (2) each student of an accredited secondary or postsecondary school who is at least 16 years of age and who is participating in an educational experience arranged by the school, if the student does not have unsupervised access to children; and

(3) any other individual regularly in the drop-in program if the individual's activities do not involve unsupervised access to children; and

(e) ensure that no individual works or regularly volunteers in the drop-in program until the results of the individual's background checks verify that the individual is not prohibited from working, regularly volunteering, or residing in a facility pursuant to K.S.A. 65-516, and amendments thereto. (Authorized by K.S.A. 2017 Supp. 65-508; implementing K.S.A. 2017 Supp. 65-516; effective, T-28-3-19-04, March 19, 2004; effective Sept. 10, 2004; amended June 7, 2018.)

28-4-801. License required. (a) An individual shall obtain a license to operate a family foster home when providing 24-hour care to one or more children under 16 years of age who are unrelated to the individual, in the absence of the child's parent or guardian.

(b) No individual shall be required to obtain a license to operate a family foster home under any of the following circumstances:

(1) All of the following conditions are met:

(A) The individual provides 24-hour care for one or more children less than 16 years of age.

(B) The total number of days the individual provides care does not exceed 90 calendar days during a calendar year.

(C) The individual does not receive payment or other compensation for providing care.

(D) The individual does not provide care for any children who are in the custody of the state of Kansas.

(E) The individual does not provide care for any children placed in Kansas from other states through the interstate compact for the placement of children (ICPC) or any successor compact.

(2) The individual provides care solely for the purpose of enabling the child to participate in a social activity that is normal for the child's age and development.

(3) The individual provides informal visitation as defined in K.A.R. 28-4-800. (Authorized by K.S.A. 2012 Supp. 65-508; implementing K.S.A. 2012 Supp. 65-504 and K.S.A. 2012 Supp. 65-508; effective March 28, 2008; amended Sept. 6, 2013.)

28-4-802. (Authorized by K.S.A. 65-508; implementing K.S.A. 65-504 and 65-508; effective March 28, 2008; revoked Sept. 8, 2017.)

28-4-814. Family life. (a) Family activities. Taking into consideration the age, needs, and case plan of each child in foster care, each licensee shall provide the following opportunities for each child in foster care:

(1) Inclusion of the child in foster care in the daily life of the family, including eating meals with the family and participating in recreational activities;

(2) ensuring that each child in foster care is provided with the same opportunities that are provided to the other children residing in the home; and

(3) ensuring that each child in foster care is provided access to schools, church, recreational and health facilities, and other community resources.

(b) Daily routine. Each licensee shall provide a daily routine in accordance with the age and needs of each child in foster care that includes the following:

(1) Active and quiet play, both indoors and outdoors, weather permitting;

(2) rest and sleep; and

(3) nutritious meals and snacks.

(c) Essential and special items.

(1) Each licensee shall ensure that each child in foster care is provided with essential items to meet each child's needs, including the following:

- (A) Food and shelter;
- (B) nonprescription medical needs;
- (C) clothing and shoes;
- (D) toiletries and personal hygiene products; and
- (E) birthday and holiday gifts.

(2) Each licensee shall notify the sponsoring child-placing agency and the child's child-placing agent when a licensee identifies a need for additional resources to provide a special item for a child in foster care. Special items may include the following:

(A) Clothing and fees for instructional or extracurricular activities;

(B) school pictures;

(C) athletic and band instrument fees; and

(D) cap and gown rental and prom clothing.

(d) Allowance. Each licensee shall provide an allowance to each child in foster care equal to that of any other children of similar age in the family foster home who receive an allowance.

(e) Work opportunity. Each child in foster care shall have the opportunity to earn spending money at tasks or jobs according to the child's age, ability, and case plan. The money shall be the child's, and the child shall not be forced to provide for needs that otherwise would be provided by the licensee.

(f) Routine tasks. Each licensee shall permit each child in foster care to perform only those routine tasks that are within the child's ability, are reasonable, and are similar to the routine tasks expected of other members of the household of similar age and ability.

(g) Informal visitation. Any licensee may identify extended family members 18 years of age and older as resources for informal visitation.

(1) For each extended family member identified as a resource, each licensee shall meet the following requirements:

(A) Describe the relationship of the individual to the licensee;

(B) submit a request for background checks as specified in K.A.R. 28-4-805;

(C) obtain a copy of the current driver's license for each individual who could provide transportation during visitation;

(D) provide to the sponsoring child-placing agency documentation that each individual has read and agrees to follow the confidentiality policy and the discipline policy of the sponsoring child-placing agency;

(E) ensure that each individual has emergency contact numbers and a crisis plan in case of emergency; and

(F) ensure that either an original or a copy of each medical consent form and each health assessment is provided for each child in foster care participating in informal visitation.

(2) Each licensee shall obtain the sponsoring child-placing agency's approval of the informal visitation plan before using informal visitation.

(3) Each licensee shall provide the sponsoring child-placing agency with the information specified in paragraphs (g)(1)(A) through (F) and shall keep a copy on file in the family foster home.

(4) Each licensee shall report the following to the sponsoring child-placing agency:

(A) The date on which each informal visitation occurs; and

(B) the identified extended family member's name and address.

(5) Each licensee shall ensure that both of the following conditions are met:

(A) Each identified extended family member 18 years of age and older is informed of the content of the regulations governing family foster homes.

(B) Supervision that ensures the health, safety, and welfare of each child in foster care is provided by an individual 18 years of age and older.

(h) Sleepovers. Any licensee may permit a child in foster care to participate in sleepovers in unlicensed homes if all of the following conditions are met:

(1) The purpose of the stay is to allow the child to participate in a social event that is normal for the child's age and development.

(2) Participation in sleepovers is not precluded in the child's case plan.

(3) The licensee confirms the invitation with the parent of the child to be visited and determines that supervision will be provided by an individual 18 years of age and older to ensure the health, safety, and welfare of the child.

(i) High-risk sport or recreational activity. Any licensee may permit a child in foster care to engage in any high-risk sport or recreational activity if all of the following conditions are met:

(1) Written permission for the specific activity is obtained from the parent, legal guardian, or legal custodian of the child in foster care and from the child's child-placing agent.

(2) The licensee assesses the individual child-specific risk factors before giving permission. These factors shall include the age and maturity

level of the child, behavior disorders, suicidal tendencies, developmental delays, thrill-seeking behavior, and difficulty with anger control.

(3) Protective safety gear is used, if required for the sport or activity.

(4) A safety plan is developed and followed. This plan shall include instruction on the activity and compliance with any manufacturer's specifications and general safety guidelines.

(5) Direct supervision by an individual 18 years of age and older is provided to ensure safe participation.

(j) The use of trampolines in home settings shall be prohibited for children in foster care. (Authorized by and implementing K.S.A. 2012 Supp. 65-508; effective March 28, 2008; amended Sept. 6, 2013.)

28-4-816. Transportation. Each licensee shall ensure that all of the following requirements are met: (a) If a vehicle used for transportation of a child in foster care is owned or leased by a foster family member or is driven by a child in foster care, the following requirements shall be met:

(1) Trailers pulled by another vehicle, camper shells, and truck beds shall not be used for the transportation of children in foster care.

(2) The transporting vehicle shall be maintained in a safe operating condition.

(3) The transporting vehicle shall be covered by accident and liability insurance as required by the state of Kansas.

(4) A first-aid kit shall be in the transporting vehicle and shall include disposable nonporous gloves, a cleansing agent, scissors, bandages of assorted sizes, adhesive tape, a roll of gauze, one package of gauze squares at least four inches by four inches in size, and one elastic bandage.

(b) Each driver of any vehicle that is used to transport any child in foster care shall hold a valid driver's license appropriate for the type of vehicle being used.

(c) The use of seat belts and child safety seats shall include the following:

(1) Each individual shall be secured by the use of a seat belt or a child safety seat when the vehicle is in motion.

(2) No more than one individual shall be secured in any seat belt or child safety seat.

(3) Each seat belt shall be properly anchored to the vehicle.

(4) When a child safety seat, including booster seat, is required, the seat shall meet the following requirements:

(A) Have current federal approval;

(B) be installed according to the manufacturer's instructions and vehicle owner's manual;

(C) be appropriate to the height, weight, and physical condition of the child, according to the manufacturer's instructions and Kansas statutes and regulations;

(D) be maintained in a safe operating condition at all times;

(E) have a label with the date of manufacture and model number, for use in case of a product recall; and

(F) have no missing parts or cracks in the frame and have not been in a crash.

(d) The health and safety of the children riding in the vehicle shall be protected as follows:

(1) All passenger doors shall be locked while the vehicle is in motion.

(2) Order shall be maintained at all times. The driver shall be responsible for ensuring that the vehicle is not in motion if the behavior of the occupants prevents safe operation of the vehicle.

(3) All parts of each child's body shall remain inside the vehicle at all times.

(4) Children shall neither enter nor exit from the vehicle from or into a lane of traffic.

(5) Children less than 10 years of age shall not be left in a vehicle unattended by an adult. When the vehicle is vacated, the driver shall make certain that no child is left in the vehicle.

(6) Smoking in the vehicle shall be prohibited when a child in foster care is in placement in a family foster home, whether or not the child in foster care is physically present in the vehicle.

(7) Medical and surgical consent forms and health assessment records shall be in the vehicle when a child in foster care is transported 60 miles or more from the family foster home.

(e) Before a child in foster care is allowed to drive, all of the following requirements shall be met:

(1) The licensee, child-placing agent, or sponsoring child-placing agency shall obtain permission from the parent or legal guardian.

(2) The privilege of driving shall be included in the child's case plan.

(3) The child shall possess a valid driver's license and shall meet the requirements of the Kansas motor vehicle drivers' license act, K.S.A. 8-234a et seq. and amendments thereto.

(f) Any resident of the home who is at least 16 years of age but not yet 18 years of age may transport a child in foster care who attends middle

school or junior high school to and from school without an accompanying adult if all of the following conditions are met:

(1) All of the requirements of subsections (a) through (e) are met.

(2) The driver has a valid driver's license and meets the requirements of the Kansas motor vehicle drivers' license act, K.S.A. 8-234a et seq. and amendments thereto.

(3) The parent or legal guardian of the child in foster care and the child's child-placing agent give their written approval.

(g) Any child in foster care who attends high school may be transported to and from school, work, or social activities without an accompanying adult by a driver who is at least 16 years of age but not yet 18 years of age if both of the following conditions are met:

(1) The driver has a valid driver's license and meets the requirements of the Kansas motor vehicle drivers' license act, K.S.A. 8-234a et seq. and amendments thereto.

(2) The parent or legal guardian of the child in foster care and the child's child-placing agent give their written approval.

(h) Any child in foster care who is a parent and who meets the requirements of subsections (a) through (e) may transport any child of that parent. (Authorized by and implementing K.S.A. 2012 Supp. 65-508; effective March 28, 2008; amended Sept. 6, 2013.)

28-4-820. General environmental requirements. Each licensee shall ensure that all of the requirements in this regulation are met. (a) Local requirements. Each family foster home shall meet the legal requirements of the community as to zoning, fire protection, water supply, and sewage disposal.

(b) Sewage disposal. If a private sewage disposal system is used, the system shall meet the requirements specified in K.A.R. 28-4-55.

(c) Use of private water supply. If a private water system is used, the system shall meet the requirements specified in K.A.R. 28-4-50. The water supply shall be safe for human consumption. Testing of the water supply shall be completed at the time of initial licensing and annually thereafter to document the nitrate and bacteria levels. Additional testing may be required if there is a change in environmental conditions that could affect the integrity of the water supply. If children less than 12 months of age receive care in a fam-

ily foster home that uses private well water, then commercially bottled drinking water shall be used for these children until a laboratory test confirms that the nitrate content is not more than 10 milligrams per liter (10 mg/l) as nitrogen.

(d) Family foster home structural and furnishing requirements. The family foster home shall be constructed, arranged, and maintained to provide for the health, safety, and welfare of all occupants and shall meet the following requirements:

(1) The home shall contain sufficient furnishings and equipment to accommodate both the foster family and each child in foster care.

(2) The floors shall be covered, painted, or sealed in all living areas of the home, kept clean, and maintained in good repair.

(3) The interior finish of all ceilings, stairs, and hallways shall meet generally accepted standards of building, including safety requirements.

(4) Each closet door shall be designed to be opened from the inside and shall be readily opened by a child.

(5) Each stairway with two or more stairs and a landing shall have a handrail and be guarded on each side if there is a drop-off of more than 21 inches from the stairs or landing to the floor or ground.

(6) If any stairway is guarded by balusters and the family foster home is or is intended to be licensed for children in foster care less than six years of age, the space between balusters shall not exceed four inches, except as specified in this paragraph. If the space between balusters exceeds four inches, the licensee shall make provisions necessary to prevent a child's head from becoming entrapped in the balusters or a child's body from falling through the balusters or becoming entrapped in them.

(7) When a child in foster care less than three years of age is present, each stairway with two or more stairs and a landing shall be gated to prevent unsupervised access by the child. Each gate shall have a latching device that an adult can open readily in an emergency. Accordion gates shall be prohibited throughout the premises, and pressure gates shall be prohibited for use at the top of any stairway.

(8) If the family foster home is or is intended to be licensed for children in foster care less than six years of age, each electrical outlet shall be covered.

(9) At least one bathroom in the family foster home shall have at least one sink, one flush toilet, and one tub or shower. All fixtures shall be working at all times.

(10) Each bathroom shall have a solid door that affords privacy to the occupant and that can be opened from each side without the use of a key in case of an emergency.

(11) A working telephone shall be on the premises and available for use at all times. Emergency telephone numbers shall be readily accessible or be posted next to the telephone for the police, fire department, ambulance, hospital or hospitals, and poison control center. The name, address, and telephone number of the primary care physician used for each child in foster care shall be posted next to the telephone or readily accessible in case of an emergency.

(12) A working smoke detector shall be centrally installed on each level of the home and in each room used for sleeping by a child in foster care and by the licensee.

(13) One working carbon monoxide detector shall be installed according to the manufacturer's instructions in an area adjacent to each room used for sleeping by a child in foster care and by the licensee.

(e) Cleanliness. The interior of the family foster home shall be free from accumulation of visible dirt, any evidence of vermin infestation, and any objects or materials that could cause injury to children in foster care.

(f) Lighting and ventilation.

(1) All rooms used for living space shall be lighted, vented, heated, and plumbed pursuant to K.S.A. 65-508, and amendments thereto.

(2) Each window and door used for ventilation shall be screened to minimize the entry of insects.

(3) The family foster home shall have lighting of at least 10 foot-candles in all parts of each room, within each living area of the home. There shall be lighting of at least 30 foot-candles in each area used for reading, study, or other close work.

(g) Firearms and other weapons.

(1) No child in the home shall have unsupervised access to any of the following:

(A) Firearms, ammunition, and other weapons;

(B) air-powered guns, including BB guns, pellet guns, and paint ball guns;

(C) hunting and fishing knives; and

(D) any archery and martial arts equipment.

(2) All firearms, including air-powered guns, BB guns, pellet guns, and paint ball guns, shall be stored unloaded in a locked container, closet, or cabinet. If the locked container, closet, or cabinet is constructed in whole or in part of glass or plexiglass, each firearm shall be additionally

secured with a hammer lock, barrel lock, or trigger guard.

(3) Ammunition shall be kept in a separate locked storage container or locked compartment designed for that purpose.

(4) All archery equipment, hunting and fishing knives, and other weapons shall be kept in a locked storage compartment.

(5) Each key to a locked storage container, closet, or compartment of guns, ammunition, and other weapons, and to gun locks shall be in the control of a licensee at all times.

(h) Storage of household chemicals, personal care products, tools, and sharp instruments. The following requirements shall apply when a child in foster care is in placement in the family foster home:

(1) All household cleaning supplies and all personal care products that have warning labels advising the consumer to keep those supplies and products out of reach of children or that contain alcohol shall be kept in locked storage or stored out of reach of children less than six years of age.

(2) All chemicals and household supplies with warning labels advising the consumer to keep those chemicals and supplies out of reach of children shall be kept in locked storage or stored out of reach of children less than 10 years of age.

(3) Sharp instruments shall be stored in drawers equipped with childproof devices to prevent access by children or stored out of reach of children less than six years of age.

(4) Tobacco, tobacco products, cigarette lighters, and matches shall be inaccessible to individuals less than 18 years of age.

(5) Tools shall be inaccessible to each child in foster care when the tools are not in use and shall be used by a child in foster care only with supervision by an individual 18 years of age and older.

(i) Heating appliances.

(1) Each heating appliance using combustible fuel, including a wood-burning stove or a fireplace, shall be vented to the outside.

(2) Each fireplace and each freestanding heating appliance using combustible fuel, including a wood-burning stove, shall stand on a noncombustible material according to the manufacturer's specifications, Kansas statutes and regulations, and local ordinances.

(3) Each heating appliance designed by the manufacturer to be unvented shall be used according to the manufacturer's specifications, Kansas statutes and regulations, and local ordinances.

(4) If a child in foster care less than three years

of age is in placement in the family foster home, a protective barrier shall be provided for each fireplace and each freestanding heating appliance as necessary to protect from burns.

(5) If a propane heater is used, the heater shall be installed in accordance with the manufacturer's recommendations, Kansas statutes and regulations, and local ordinances.

(6) Each flue or chimney of any heating appliance that uses combustible fuel shall be checked annually and cleaned as recommended by a qualified chimney sweep.

(j) Clothes dryers. Each clothes dryer shall be vented to the outside or to a venting device installed and used according to the manufacturer's specifications, Kansas statutes and regulations, and local ordinances.

(k) Play space. Each family foster home shall have a space for indoor play and access to an outdoor play space.

(l) Mobile home requirements. In addition to requirements specified in this regulation, if the family foster home is a mobile home, both of the following requirements shall be met:

(1) The mobile home shall have two exits that are located at least 20 feet apart, with one exit within 35 feet of each bedroom door.

(2) Each mobile home shall be skirted with latticed or solid skirting and securely anchored by cable to the ground.

(m) Special inspections. A special inspection of the family foster home by a fire, health, sanitation, or safety official may be required by the secretary or the sponsoring child-placing agency to assist in making a decision about the safety of the home for a child in foster care. (Authorized by and implementing K.S.A. 2012 Supp. 65-508; effective March 28, 2008; amended Sept. 6, 2013.)

28-4-821. Sleeping arrangements. (a) Each licensee shall ensure that sufficient space for sleeping is provided to accommodate the number of foster family members and each child in foster care. Sleeping space shall not include any of the following places:

- (1) An unfinished attic;
- (2) an unfinished basement;
- (3) a hall;
- (4) a closet;
- (5) a laundry room;
- (6) a garage;
- (7) any living space that is normally used for other than sleeping arrangements; or

(8) any room that provides routine passage to a common use room, to another bedroom, or to the outdoors.

(b) Each licensee shall ensure that each bedroom used for sleeping by a child in foster care meets the following requirements:

(1) Each bedroom shall have at least 70 square feet.

(2) Each bedroom shall have at least 45 square feet for each individual sharing the room.

(3) The exit path from each bed to each outside exit shall have a minimum ceiling height of six feet eight inches.

(4) Each bedroom shall have a solid door to ensure privacy.

(5) Each bedroom shall have at least two means of escape. Each means of escape shall be easily opened from the inside.

(A) At least one means of escape shall be an unobstructed pathway leading to an exit door to the outside.

(B) The second means of escape shall give direct access to the outside and shall be an unobstructed door or window that is able to be opened from the inside without the use of tools.

(C) For each window used as a means of escape, all of the following requirements shall be met:

(i) The window shall have a width of at least 20 inches and a height of at least 24 inches.

(ii) The window shall be within 44 inches of the floor or shall have permanent steps or another immovable fixture that brings the window to within 44 inches of the top of the steps or fixture.

(iii) If the window is screened, the screen shall be easily removed from the inside.

(iv) The licensee shall ensure that each occupant of the bedroom can easily exit through the window.

(D) If one means of escape is a sliding glass door, the door shall be easily opened from the inside.

(6) All false ceilings, curtains, drapes, or fabric used in decoration for ceilings or walls in each room used for sleeping shall be made of fire-rated materials.

(c) Privacy for the occupants of all bedrooms shall be ensured.

(d) Each child in foster care shall have a separate bed or crib that meets the following requirements:

(1) Is intact, fully functional, and in good repair to prevent injury or entrapment of the child;

(2) is of sufficient size to accommodate the size and weight of the child;

(3) has a mattress that is clean and has a waterproof covering, if needed; and

(4) has bedding adequate to the season and appropriate to the age of the child.

(e) Each bed that requires bed springs shall have springs in good condition.

(f) If a bunk bed is used by any child in foster care, the following requirements shall be met:

(1) The upper bunk shall be protected on all sides with rails. Headboards and footboards may substitute for rails on the ends of the bed.

(2) Each child in foster care using the upper bunk shall be at least six years of age.

(g) No rollaway bed, hideaway bed, or other temporary bed shall be used, except when children in foster care are visiting in the family foster home for a social event or for short-term respite care.

(h) Each child in foster care less than 12 months of age shall sleep in a crib. For the purposes of a nap, the child may sleep in a playpen. Each crib and each playpen shall meet the following requirements:

(1) If a crib or playpen is slatted, the slats shall be spaced no more than $2\frac{3}{8}$ inches apart.

(2) Each crib shall have a firm mattress fitted so that no more than two fingers can fit between the mattress and the crib side when the mattress is set in the lowest position.

(3) The crib corner post extensions shall not exceed $1\frac{1}{16}$ inch.

(4) When the crib is in use, the drop side of the crib shall be secured in the up position.

(5) No pillow, quilt, comforter, blanket, bumpers, or other soft product that could cause suffocation shall be used in the crib or the playpen when a child who is less than 12 months of age is sleeping in the crib or playpen.

(i) Each child in foster care who is less than 12 months of age shall be put to sleep on the child's back unless ordered otherwise by the child's physician. If the child in foster care is able to turn over independently, that child shall be placed on the child's back but then shall be allowed to remain in a position preferred by the child.

(j) Each child in foster care 12 months and older may sleep in a crib until that child is 18 months of age or until the child is of such height that the upper rail of the crib is at the child's breast level when the child is standing and the crib mattress is at the lowest level.

(k) Each child in foster care 18 months but not yet 30 months of age may sleep in a crib when prescribed by that child's physician.

(l) At night each caregiver shall sleep within hearing distance of the child in foster care.

(m) When any child in foster care five years of age or older shares a room, the following requirements shall be met:

(1) The child shall share the room only with children of the same sex.

(2) The children sharing the room shall be age-mates, unless the following requirements have been met:

(A) The licensee shall notify the family foster home's sponsoring child-placing agency of the proposed sleeping arrangement.

(B) The licensee shall request that the sponsoring child-placing agency and the child's placing agent determine if the proposed sleeping arrangement is appropriate.

(C) The licensee shall maintain documentation of the approval of the sponsoring child-placing agency for the sleeping arrangement.

(3) A child who is known to be a sexual perpetrator or a sexual abuse victim shall not share a room until the following conditions are met:

(A) The potential roommate arrangements are assessed by the child's placing agent, the home's sponsoring child-placing agency, and the licensee; and

(B) based on the assessment, a determination is made by the child's placing agency that it is unlikely that further sexual abuse will result from the child sharing a room.

(n) If any child in foster care under five years of age shares a room with any other child, all of the children sharing the room shall be age-mates or shall be under five years of age. The children sharing the room may be of the opposite sex if all of the children are under five years of age.

(o) A child in foster care who is a parent may share a room with the parent's own child or children. The room shall meet the requirements in paragraph (b)(2).

(p) A child in foster care may sleep in the bedroom of the licensee under any of the following circumstances:

(1) The child in foster care is less than 12 months of age.

(2) The child in foster care is ill.

(3) The child in foster care has special developmental or medical needs requiring close supervision as documented by a physician.

(q) If a child in foster care sleeps in the licensee's bedroom, the bedroom shall have at least 130 square feet.

(r) Each licensee shall ensure that separate and accessible drawer space for personal belongings and closet space for clothing are available for each child in foster care. (Authorized by and implementing K.S.A. 2012 Supp. 65-508; effective March 28, 2008; amended Sept. 6, 2013.)

28-4-1200. Definitions. For the purposes of K.A.R. 28-4-1200 through K.A.R. 28-4-1218, the following definitions shall apply: (a) “Administrator” means a person employed by a PRTF who is responsible for the overall administration of the PRTF.

(b) “Applicant” means a person who has applied for a license but who has not yet been granted a license to operate a PRTF. This term shall include an applicant who has been granted a temporary permit to operate a PRTF.

(c) “Basement” means each area in a building with a floor level more than 30 inches below ground level on all sides.

(d) “Department” means the Kansas department of health and environment.

(e) “Direct care staff” means the staff members employed by the PRTF to supervise the residents.

(f) “Exception” means a waiver of compliance with a specific PRTF regulation or any portion of a specific PRTF regulation that is granted by the secretary to an applicant or a licensee.

(g) “Individual plan of care” means a written, goal-oriented treatment plan and therapeutic activities designed to move the resident to a level of functioning consistent with living in a community setting.

(h) “Licensee” means a person who has been granted a license to operate a PRTF.

(i) “Program” means the comprehensive and coordinated activities and services providing for the care and treatment of residents.

(j) “Program director” means the staff person responsible for the oversight and implementation of the program.

(k) “Psychiatric residential treatment facility” and “PRTF” mean a residential facility for which the applicant or licensee meets the requirements of K.A.R. 28-4-1201.

(l) “Resident” means an individual who is at least six years of age but not yet 22 years of age and who is accepted for care and treatment in a PRTF.

(m) “Resident record” means any electronic or written document concerning a resident admitted to a PRTF that is created or obtained by an employee of the PRTF.

(n) “Restraint” means the application of physical force or any mechanical devices or the administration of any drugs for the purpose of restricting the free movement of a resident’s body.

(o) “Seclusion” means the involuntary confinement of a resident in a separate or locked room or an area from which the resident is physically prevented from leaving.

(p) “Secretary” means the secretary of the Kansas department of health and environment.

(q) “Treatment” means comprehensive, individualized, goal-directed, therapeutic services provided to residents. (Authorized by K.S.A. 65-508 and 65-510; implementing K.S.A. 65-503 and 65-508; effective Oct. 9, 2009.)

28-4-1201. License requirements. (a) Each applicant and each licensee shall meet all of the following requirements in order to obtain and maintain a license to operate a PRTF:

(1) The state and federal participation requirements for medicaid reimbursement;

(2) receipt of accreditation of the PRTF by one of the following accrediting organizations:

(A) Council on accreditation of rehabilitation facilities (CARF);

(B) council on accreditation of child and family agencies (COA);

(C) the joint commission or the joint commission on accreditation of healthcare organizations (JCAHO); or

(D) an accrediting body approved by the Kansas health policy authority (KHPA), the Kansas department of social and rehabilitation services (SRS), and the Kansas juvenile justice authority (JJA); and

(3) receipt of approval of the PRTF by the Kansas department of social and rehabilitation services as meeting the state requirements.

(b) Each applicant and each licensee, if a corporation, shall be in good standing with the Kansas secretary of state.

(c) Each applicant and each licensee shall maintain documentation of compliance with all applicable building codes, fire safety requirements, and zoning codes. (Authorized by K.S.A. 65-508; implementing K.S.A. 65-504 and 65-508; effective Oct. 9, 2009.)

28-4-1202. Application procedures. (a) Each person, in order to obtain a license, shall submit a complete application on forms provided by the department. The application shall be

submitted at least 90 calendar days before the planned opening date of the PRTF and shall include the following:

(1) A description of the program and services to be offered, including the following:

(A) A statement of the PRTF's purpose and goals; and

(B) the number, ages, and gender of residents for whom the PRTF is designed;

(2) the anticipated opening date;

(3) a request for the background checks for staff members and volunteers specified in K.A.R. 28-4-1205;

(4) documentation of compliance with the license requirements in K.A.R. 28-4-1201; and

(5) the license fee specified in K.A.R. 28-4-92.

(b) Each applicant shall notify the school district where the PRTF is to be located of the following:

(1) The planned opening date and the number, age range, gender, and anticipated special education needs of the residents to be served;

(2) a statement indicating whether the residents will attend public school or will receive educational services on-site at the PRTF; and

(3) documentation that the notification was received by the school district at least 90 days before the planned opening date.

The 90-day notification to the local school district may be waived by the secretary upon receipt of a written agreement by the local school district.

(c) Each applicant shall submit to the department floor plans for each building that will be used as a PRTF. Each floor plan shall state whether or not any building will rely on locked entrances and exits or on delayed-exit mechanisms to secure the PRTF. Each applicant wanting to use delayed-exit mechanisms or to use hardware to lock or otherwise secure the exits shall obtain and shall submit to the department prior written approval from the Kansas state fire marshal, the Kansas department of social and rehabilitation services, the Kansas juvenile justice authority, and the Kansas health policy authority.

(d) Each applicant shall provide the department with a copy of the approval of the Kansas state fire marshal's office for the floor plan and the use of any delayed-exit mechanism or hardware to lock or otherwise secure the exits before a license is issued.

(e) The granting of a license to any applicant may be refused by the secretary if the applicant is not in compliance with the requirements of the following:

(1) K.S.A. 65-504 through 65-508 and amendments thereto;

(2) K.S.A. 65-512 and 65-513 and amendments thereto;

(3) K.S.A. 65-516 and amendments thereto;

(4) K.S.A. 65-531 and amendments thereto; and

(5) all regulations governing psychiatric residential treatment facilities. (Authorized by K.S.A. 65-508; implementing K.S.A. 65-501, 65-504, 65-505, and 65-508 and K.S.A. 2008 Supp. 65-516; effective Oct. 9, 2009.)

28-4-1203. Capacity; posting requirements; validity of temporary permit or license; new application required; advertising; closure. (a) Capacity. The maximum number, the age range, and the gender of residents authorized by the temporary permit or license shall not be exceeded.

(b) Posting requirements. The current temporary permit or the current license shall be posted conspicuously within the PRTF.

(c) Validity of temporary permit or license. Each temporary permit or license shall be valid only for the applicant or licensee and for the address specified on the temporary permit or the license. When an initial or amended license becomes effective, all temporary permits or licenses previously granted to the applicant or licensee at the same address shall become void.

(d) New application required. A new application and the fee specified in K.A.R. 28-4-92 shall be submitted for each change of ownership or location at least 90 calendar days before the planned change.

(e) Advertising. The advertising for each PRTF shall conform to the statement of services as given on the application. A claim for specialized services shall not be made unless the PRTF is staffed and equipped to offer those services.

(f) Closure. Any applicant may withdraw the application for a license. Any licensee may submit, at any time, a request to close the PRTF operated by the licensee. If an application is withdrawn or a PRTF is closed, the current temporary permit or license granted to the applicant or licensee for that PRTF shall become void. (Authorized by K.S.A. 65-508; implementing K.S.A. 65-504, 65-505, and 65-508; effective Oct. 9, 2009.)

28-4-1204. Licensure; renewal; notifications; exceptions; amendments. (a) No person shall operate a PRTF unless issued a temporary permit or a license by the secretary.

(b) No earlier than 90 days before the renewal date but no later than the renewal date, each licensee who wishes to renew the license shall complete and submit an application for renewal on forms provided by the department, including the requests for background checks specified in K.A.R. 28-4-1205, and shall submit the fee specified in K.A.R. 28-4-92.

(c) Failure to submit the renewal application and fee as required by subsection (b) shall result in an assessment of a late renewal fee pursuant to K.S.A. 65-505, and amendments thereto, and may result in closure of the PRTF.

(d) Each licensee shall notify the department within 24 hours of any change in approval or accreditation required in K.A.R. 28-4-1201.

(e) Any applicant or licensee may request an exception from the secretary.

(1) Any request for an exception may be granted if the secretary determines that the exception is in the best interest of one or more residents or the family of a resident and the exception does not violate statutory requirements.

(2) Written notice from the secretary stating the nature of each exception and its duration shall be kept on file at the PRTF and shall be readily accessible to the department, SRS, and JJA.

(f) Each licensee shall obtain the secretary's written approval before making any change in any of the following:

(1) The use or proposed use of the buildings;

(2) any changes to the physical structure of any building, including the following:

(A) An addition or alteration as specified in K.A.R. 28-4-1215;

(B) any change in the use of locked entrances or exits; and

(C) any change in any delayed-exit mechanisms;

(3) the addition or removal of a locking system for any room used for seclusion, as specified in K.A.R. 28-4-1212; or

(4) the program, provided through either of the following:

(A) Direct services; or

(B) agreements with specified community resources.

(g) Any licensee may submit a written request for an amended license.

(1) Each licensee who intends to change the terms of the license, including the maximum number, the age range, or the gender of residents to be served, shall submit a request for an amendment on a form provided by the department

and a nonrefundable amendment fee of \$35. An amendment fee shall not be required if the request to change the terms of the license is made at the time of the renewal.

(2) Each request for a change in the maximum number, the age range, or the gender of residents to be served shall include written documentation of the notification to the school district where the PRTF is located, as specified in K.A.R. 28-4-1202.

(3) The licensee shall make no change to the terms of the license, including the maximum number of residents, the age range of residents to be served, the gender of residents, and the type of license, until an amendment is granted, in writing, by the secretary. (Authorized by K.S.A. 65-508; implementing K.S.A. 65-504, 65-505, and 65-508 and K.S.A. 2008 Supp. 65-516; effective Oct. 9, 2009.)

28-4-1205. Background checks. (a) With each initial application or renewal application, each applicant or licensee shall submit a request to conduct a background check by the Kansas bureau of investigation and a background check by the Kansas department of social and rehabilitation services in order to comply with the provisions of K.S.A. 65-516, and amendments thereto. Each request shall be submitted on a form provided by the department. The request shall list the required information for each individual 10 years of age and older who will be residing, working, or regularly volunteering in the PRTF.

(b) Each licensee shall submit a request to the department to conduct a background check by the Kansas bureau of investigation and a background check by the Kansas department of social and rehabilitation services before each new individual begins residing, working, or regularly volunteering in the PRTF.

(c) A copy of each request for a background check shall be kept on file at the PRTF.

(d) Residents admitted into a PRTF for care and treatment shall not be considered to be residing in the PRTF for the purposes of background checks. (Authorized by K.S.A. 65-508; implementing K.S.A. 2008 Supp. 65-516; effective Oct. 9, 2009.)

28-4-1206. Administration. (a) Each PRTF shall be governed by one of the following entities:

(1) A public agency, which shall employ an administrator for the PRTF; or

(2) a private entity with a governing board that is legally responsible for the operation, policies,

finances, and general management of the PRTF. The private entity shall employ an administrator for the PRTF. The administrator shall not be a voting member of the governing board.

(b) Each licensee shall develop and implement written policies and procedures for the operation of the PRTF that shall include detailed descriptions of the roles and the responsibilities for staff and volunteers. The staff practices shall conform to the written policies and procedures and to all regulations governing PRTFs.

(c) A licensee or a staff member of a PRTF shall not accept permanent legal guardianship of any individual before the individual is admitted to the PRTF or while the individual is in treatment at the PRTF.

(d) A copy of the regulations governing PRTFs shall be kept on the premises at all times and shall be made available to all staff members.

(e) Each licensee shall make available to the department all reports and findings of on-site surveys, periodic performance reviews, monitoring visits, and accreditation reports by the PRTF's accrediting body.

(f) Each licensee shall have sufficient finances to ensure the provision of program activities and services to each resident. Each licensee shall provide the financial resources necessary to maintain compliance with these regulations.

(g) Each resident's personal money shall be kept separate from the PRTF's funds. Each licensee shall maintain financial records of each resident's personal money. (Authorized by and implementing K.S.A. 65-508; effective Oct. 9, 2009.)

28-4-1207. Staff requirements. (a) Each individual working or volunteering in a PRTF shall be qualified by temperament, emotional maturity, judgment, and understanding of residents necessary to maintain the health, comfort, safety, and welfare of individuals placed in psychiatric residential treatment facilities.

(b) Each food service staff member shall demonstrate compliance with all of the following requirements through ongoing job performance:

(1) Knowledge of the nutritional needs of residents;

(2) understanding of quantity food preparation and service;

(3) sanitary food handling and storage methods;

(4) willingness to consider individual, cultural, and religious food preferences of the residents; and

(5) willingness to work with the program director in planning learning experiences for residents about nutrition. (Authorized by and implementing K.S.A. 65-508; effective Oct. 9, 2009.)

28-4-1208. Records. Each licensee shall develop and implement written policies and procedures that address PRTF recordkeeping requirements, including resident records, personnel records, and general records. (a) Resident records. Each licensee shall maintain an individual record for each resident, which shall include the following information:

(1) A health record that meets the requirements in K.A.R. 28-4-1211;

(2) a copy of each written report of any incidents involving the resident and specified in K.A.R. 28-4-1209 and K.A.R. 28-4-1214;

(3) documentation of each use of seclusion for the resident; and

(4) a financial record of the resident's personal money as specified in K.A.R. 28-4-1206.

(b) Personnel records. Each licensee shall maintain an individual personnel record for each staff member, which shall include the following information:

(1) A health record that meets the requirements in K.A.R. 28-4-1211, including a record of the results of any health examinations and tuberculin tests;

(2) the staff member's current job responsibilities;

(3) documentation that the staff member has read, understands, and agrees to all of the following:

(A) The statutes and regulations regarding the mandatory reporting of suspected child abuse, neglect, and exploitation;

(B) all regulations governing PRTFs; and

(C) the PRTF's policies and procedures applicable to the job responsibilities of the staff member; and

(4) a copy of a valid driver's license of a type appropriate for the vehicle being used, for any staff member who transports any resident.

(c) Volunteer records. Each licensee shall maintain an individual record for each volunteer of the PRTF, which shall include the following information:

(1) A health record that meets the requirements in K.A.R. 28-4-1211, including a record of the results of any health examinations and tuberculin tests, for each volunteer in contact with residents; and

(2) a copy of a valid driver's license of a type appropriate for the vehicle being used, for any volunteer who transports any resident.

(d) General records. Each licensee shall ensure that general records are completed and maintained, which shall include the following:

(1) Documentation of the requests submitted to the department for the purpose of background checks for each staff member and volunteer in order to comply with the provisions of K.S.A. 65-516, and amendments thereto;

(2) documentation of notification to the school district;

(3) documentation of each approval granted by the secretary for any change, exception, or amendment as specified in K.A.R. 28-4-1204 and K.A.R. 28-4-1215;

(4) the policies and procedures of the PRTF;

(5) all reports and findings of on-site visits, periodic performance reviews, monitoring visits to determine compliance with PRTF regulations and standards, and any accreditation reports by the PRTF's accrediting body;

(6) all written reports of the following:

(A) All incidents or events specified in K.A.R. 28-4-1209 and K.A.R. 28-4-1214; and

(B) the use of restraint or seclusion;

(7) all documentation specified in K.A.R. 28-4-1218 for transporting residents;

(8) all documentation specified in K.A.R. 28-4-1212 for the locking systems for the door of each room used for seclusion, including documentation of the state fire marshal's approval;

(9) all documentation specified in K.A.R. 28-4-1214 for emergency plans, fire and tornado drills, and written policies and procedures on the security and control of the residents;

(10) all documentation specified in K.A.R. 28-4-1214 for the inspection and the maintenance of security devices, including locking mechanisms and any delayed-exit mechanisms on doors;

(11) documentation of approval of any private water or sewage systems as specified in K.A.R. 28-4-1215; and

(12) documentation of vehicle and liability insurance for each vehicle used by the PRTF to transport residents as specified in K.A.R. 28-4-1218. (Authorized by K.S.A. 65-508; implementing K.S.A. 65-507 and 65-508 and K.S.A. 2008 Supp. 65-516; effective Oct. 9, 2009.)

28-4-1209. Notification and reporting requirements. (a) Each licensee shall ensure that

the following notifications are submitted verbally or in writing upon discovery of the incident or event, but no later than 24 hours after the discovery:

(1) Each instance of suspected abuse or neglect of a resident shall be reported to the Kansas department of social and rehabilitation services or to law enforcement.

(2) Each incident resulting in the death of any resident shall be reported to the following:

(A) Law enforcement;

(B) the department;

(C) the parent or guardian of the resident;

(D) the resident's placing agent;

(E) the state medicaid agency;

(F) the Kansas department of social and rehabilitation services; and

(G) the state-designated protection and advocacy entity.

(3) Each incident resulting in the death of a staff member while on duty at the PRTF shall be reported to the department and to any other entities according to the policies of the PRTF.

(4) Each incident resulting in a serious injury to any resident, including burns, lacerations, bone fractures, substantial hematomas, and injuries to internal organs, shall be reported to the following:

(A) The department;

(B) the county health department in which the PRTF is located;

(C) the parent or legal guardian of any resident involved in the incident;

(D) the placing agent of any resident involved in the incident;

(E) the state medicaid agency;

(F) the Kansas department of social and rehabilitation services; and

(G) the state-designated protection and advocacy entity.

(5) Each incident of suspected sexual assault involving a resident as a victim or as a perpetrator shall be reported to the following:

(A) Law enforcement;

(B) the Kansas department of social and rehabilitation services;

(C) the parent or legal guardian of the resident;

(D) the resident's placing agent; and

(E) the department.

(6) Each suicide attempt by a resident shall be reported to the following:

(A) The department;

(B) the resident's placing agent;

(C) the parent or guardian of the resident;

(D) the state medicaid agency;

(E) the Kansas department of social and rehabilitation services; and

(F) the state-designated protection and advocacy entity.

(7) Each natural disaster shall be reported to the department.

(8) Each instance of work stoppage shall be reported to the department.

(9) Each incident that involves a riot or the taking of hostages shall be reported to the department.

(10) Each fire shall be reported to the department and to the state fire marshal.

(11) Each incident that involves any suspected illegal act committed by a resident while in the PRTF or by a staff member while on duty at the PRTF shall be reported to law enforcement in accordance with the policies of the PRTF.

(12) If any resident, staff member, or volunteer of the PRTF contracts a reportable infectious or contagious disease specified in K.A.R. 28-1-2, the licensee shall ensure that a report is submitted to the local county health department within 24 hours, excluding weekends and holidays.

(b) Each licensee shall complete a written report within five calendar days of the discovery of any incident or event identified in subsection (a). (Authorized by and implementing K.S.A. 65-508; effective Oct. 9, 2009.)

28-4-1210. Admission requirements. (a) No individual less than six years of age shall be admitted to a PRTF. No individual 21 years of age or older shall be admitted to a PRTF as a new resident, but any current resident may continue to receive treatment until that resident reaches 22 years of age.

(b) Each individual who shows evidence of being physically ill, injured, or under the influence of alcohol or drugs shall be assessed in accordance with the PRTF's policies and procedures to determine the appropriateness of admission and any need for immediate medical care. (Authorized by and implementing K.S.A. 65-508 and 65-510; effective Oct. 9, 2009.)

28-4-1211. Health care. (a) Policies for resident health care. Each licensee, in consultation with a physician, shall develop written policies that include provisions for the following:

(1) A health checklist and review for each resident upon admission, including the following:

(A) Current physical, including oral, health status;

(B) any allergies, including medication, food, and plant;

(C) any current pain, including cause, onset, duration, and location;

(D) preexisting medical conditions;

(E) current mood and affect;

(F) any current suicidal thoughts and history of suicide attempts;

(G) any infectious or contagious diseases;

(H) documentation of current immunizations or documentation of an exemption for medical or religious reasons as specified in K.A.R. 28-1-20;

(I) any drug or alcohol use;

(J) any current medications;

(K) any physical disabilities;

(L) menstrual history, if applicable;

(M) any sexually transmitted disease; and

(N) any history of pregnancy;

(2) follow-up health care, including a health assessment and referrals for any concerns identified in the health checklist and review;

(3) if medically indicated, chronic care, convalescent care, and preventive care;

(4) care for minor illness, including the use and administration of prescription and nonprescription drugs;

(5) care for residents under the influence of alcohol or other drugs;

(6) consultation regarding each individual resident, if indicated;

(7) infection control measures and universal precautions to prevent the spread of blood-borne infectious diseases, including medically indicated isolation; and

(8) maternity care as required by K.A.R. 28-4-279.

(b) Physical health of residents at admission and throughout placement. Each licensee shall maintain a health record for each resident to document the provision of health services, including dental services.

(1) Each licensee shall ensure that a health checklist is completed for each resident at the time of admission by the individual who admits the resident. The health checklist shall serve as a guide to determine if a resident is in need of medical or dental care and to determine if the resident is using any prescribed medications.

(2) Each licensee shall ensure that the PRTF's physician, a physician's assistant operating under a written protocol as authorized by a responsible physician, or an advanced registered nurse practitioner (ARNP) operating under a written protocol

as authorized by a responsible physician and operating under the ARNP's scope of practice is contacted for any resident who is taking a prescribed medication at the time of admission, to assess the need for continuation of the medication.

(3) Each change of prescription or directions for administering a prescription medication shall be ordered by the authorized medical practitioner with documentation placed in the resident's record. Prescription medications shall be administered only to the designated resident as ordered by the authorized medical practitioner.

(4) Each licensee shall ensure that a physician, a physician's assistant operating under a written protocol as authorized by the responsible physician, or an ARNP operating under a written protocol as authorized by a responsible physician and operating within the ARNP's scope of practice is contacted for any resident who has acute symptoms of illness or who has a chronic illness.

(5) Within 72 hours of admission, a physician, a physician's assistant operating under a written protocol as authorized by a responsible physician, or a nurse approved to conduct screening and health assessments shall review the health checklist. Based upon health indicators derived from the checklist or in the absence of documentation of a screening within the past 24 months, the reviewing physician, physician's assistant, or nurse shall determine whether or not a full screening and health assessment are necessary. If a full screening and health assessment are necessary, the following requirements shall be met:

(A) The screening and health assessment shall be conducted by a licensed physician, a physician's assistant operating under a written protocol as authorized by a responsible physician, or a nurse approved to conduct these examinations.

(B) The screening and health assessment shall be completed within 10 days of admission.

(6) Each licensee shall ensure that each resident receives a screening for symptoms of tuberculosis. A Mantoux test, a tuberculin blood assay test, or a chest X-ray shall be required if any of the following occurs:

(A) The resident has a health history or shows symptoms compatible with tuberculosis.

(B) The location of the PRTF is in an area identified by the local health department or the secretary as a high-risk area for tuberculosis exposure.

(C) Significant exposure to an active case of tuberculosis occurs, or symptoms compatible with tuberculosis develop.

(D) If there is a positive reaction to the diagnostic procedures, proof of proper treatment or prophylaxis shall be required. Documentation of the test, X-ray, or treatment results shall be kept on file in the resident's health record, and the county health department shall be informed of the results.

(7) Each licensee shall ensure that written policies and procedures prohibit the use of tobacco in any form by any resident while in care.

(c) Oral health of residents. Each licensee shall ensure that the following requirements are met:

(1) Dental care shall be available for all residents.

(2) Each resident who has not had a dental examination within the year before admission to the PRTF shall have a dental examination no later than 60 days after admission.

(3) Each resident shall receive emergency dental care as needed.

(4) Each licensee shall develop and implement a plan for oral health education and staff supervision of residents in the practice of good oral hygiene.

(d) Health record. Each licensee shall maintain a health record for each resident to document the provision of health services required in subsections (a), (b), and (c).

(e) Personal health and hygiene of residents.

(1) Each resident shall have access to drinking water, a lavatory, and a toilet.

(2) Each licensee shall ensure that each resident is given the opportunity to bathe upon admission and daily.

(3) Each licensee shall furnish each resident with toothpaste and a toothbrush.

(4) Each licensee shall ensure that each resident is given the opportunity to brush the resident's teeth after each meal.

(5) Each licensee shall make opportunities available to the residents for daily shaving and regular haircuts.

(6) Each resident's washable clothing shall be changed and laundered at least twice a week. Each licensee shall ensure that clean underwear and socks are available to each resident on a daily basis.

(7) Each female resident shall be provided personal hygiene supplies for use during her menstrual cycle.

(8) Each licensee shall ensure that clean, individual washcloths and bath towels are issued to each resident at least twice each week.

(9) Each licensee shall allow each resident to have at least eight hours of sleep each day.

(f) Personal health of staff members and volunteers of the PRTF.

(1) Each individual shall meet the following requirements:

(A) Be free from any infectious or contagious disease requiring isolation or quarantine as specified in K.A.R. 28-1-6;

(B) be free of any physical, mental, or emotional health conditions that would adversely affect the individual's ability to fulfill the responsibilities listed in the individual's job description and to protect the health, safety, and welfare of the residents; and

(C) be free from impaired ability due to the use of alcohol, prescription or nonprescription drugs, or other chemicals.

(2) Each individual who has contact with any resident or who is involved in food preparation or service shall have received a health assessment within one year before employment. This assessment shall be conducted by a licensed physician, a physician's assistant operating under a written protocol as authorized by a responsible physician, or a nurse authorized to conduct these assessments.

(3) The results of each health assessment shall be recorded on forms provided by the department and shall be kept on file.

(4) A health assessment record may be transferred from a previous place of employment if the assessment occurred within one year before the individual's employment at the PRTF and if the assessment was recorded on the form provided by the department.

(5) The initial health examination shall include a screening for symptoms of tuberculosis. A Mantoux test, a tuberculin blood assay test, or a chest X-ray shall be required if any of the following occurs:

(A) The individual has a health history or shows symptoms compatible with tuberculosis.

(B) The PRTF is located in an area identified by the local health department or the secretary as a high-risk area for tuberculosis exposure.

(C) Significant exposure to an active case of tuberculosis occurs, or symptoms compatible with tuberculosis develop.

(D) If there is a positive reaction to any of the diagnostic procedures, proof of proper treatment or prophylaxis shall be required. Documentation of the test, X-ray, and treatment results shall be

kept on file in the individual's health record, and the county health department shall be informed of the results.

(6) If an individual experiences a significant change in physical, mental, or emotional health, including any indication of substance abuse, an assessment of the individual's current health status may be required by the licensee or the secretary. A licensed health care provider qualified to diagnose and treat the condition shall conduct the health assessment. A written report of the assessment shall be kept in the individual's personnel record and shall be submitted to the secretary on request.

(g) Tobacco products shall not be used inside the PRTF. Tobacco products shall not be used by staff members or volunteers of the PRTF in the presence of residents. (Authorized by K.S.A. 65-508; implementing K.S.A. 65-507 and 65-508; effective Oct. 9, 2009.)

28-4-1212. Health and safety requirements for the use of seclusion rooms. (a) Each licensee shall ensure that the following requirements are met for each room used for seclusion:

(1) The locking system shall be approved by the state fire marshal.

(2) No room used for seclusion shall be in a basement.

(3) Each door shall be equipped with a window mounted in a manner that allows inspection of the entire room.

(4) Each window in a room used for seclusion shall be impact-resistant and shatterproof.

(5) The walls shall be completely free of objects.

(6) A mattress shall be available, if needed. If a mattress is used, the mattress shall be clean and in good repair.

(b) No more than one resident shall be placed in a room used for seclusion at the same time.

(c) Before any resident is admitted to a room used for seclusion, all items that could be used to injure oneself or others shall be removed from the resident.

(d) Each resident shall be permitted to wear clothing necessary to maintain modesty and comfort at all times. Paper clothing may be substituted if a resident uses clothing for self-harm. Sheets, towels, blankets, and similar items shall not be substituted for clothing.

(e) Each resident shall receive all meals and snacks normally served and shall be allowed time to exercise and perform necessary bodily functions.

(f) Each resident shall have ready access to drinking water and bathroom facilities upon request. (Authorized by and implementing K.S.A. 65-508; effective Oct. 9, 2009.)

28-4-1213. Library; recreation; work. (a) Library.

(1) Each licensee shall have written policies and procedures that govern the PRTF's library program, including acquisition of materials, hours of availability, and staffing.

(2) Library services shall be available to all residents.

(A) Reading and other library materials may be provided for use during non-library hours.

(B) The reading and library materials shall be age-appropriate and suitable for various levels of reading competency and shall reflect a variety of interests.

(b) Recreation.

(1) Each licensee shall ensure that indoor and outdoor recreational areas and equipment are provided where security and visual supervision can be maintained at all times. Unless restricted for health reasons or for inclement weather, all residents shall be allowed to engage in supervised indoor and outdoor recreation on a daily basis.

(2) Each licensee shall ensure that art and craft supplies, books, current magazines, games, and other indoor recreational materials are provided for leisure activities.

(c) Work.

(1) Work assignments shall not be used as a substitute for recreation.

(2) Residents shall be prohibited from performing any of the following duties:

(A) Personal services for the staff members;

(B) cleaning or maintaining areas away from the PRTF;

(C) replacing employed staff members; or

(D) any work experience classified as hazardous by the Kansas department of labor regulations governing child labor.

(d) Auxiliary staff members may supervise library, recreation, or work activities. Direct care staff shall be within visual and auditory distance to provide immediate support, if necessary. (Authorized by and implementing K.S.A. 65-508; effective Oct. 9, 2009.)

28-4-1214. Emergency plan; drills; facility security and control of residents; storage and use of hazardous substances and unsafe

items. (a) Emergency plan. Each licensee shall develop an emergency plan to provide for the safety of all residents in emergencies, including fires, tornadoes, storms, floods, and serious injuries. The licensee shall review the plan at least annually and update it as needed.

(1) The emergency plan shall contain provisions for the care of residents in emergencies.

(2) Each licensee that permits the use of seclusion shall have a policy and procedure to evacuate each resident in seclusion if an emergency occurs.

(3) All of the staff members in the PRTF shall be informed of the emergency plan, which shall be posted in a prominent location.

(b) Fire and tornado drills. The PRTF staff shall conduct at least one fire drill and one tornado drill during each shift during each quarter. Drills shall be planned to allow participation by the residents in at least one fire drill and at least one tornado drill during each quarter.

(c) Facility security and control of residents. Each licensee shall develop and implement written policies and procedures that include the use of a combination of supervision, inspection, and accountability to promote safe and orderly operations. The policies and procedures shall prohibit the use of mace, pepper spray, and other chemical agents.

(1) All written policies and procedures for facility security and the control of residents shall be available to all staff members. Each licensee shall review the policies and procedures at least annually, update them as needed, and ensure that all of the requirements are met. These policies and procedures shall include all of the following requirements:

(A) Written operational shift assignments shall state the duties and responsibilities for each assigned position in the PRTF.

(B) Supervisory staff shall maintain a permanent log and prepare shift reports that record routine and emergency situations.

(C) All security devices, including locking mechanisms on doors and any delayed-exit mechanisms on doors, shall have current written approval from the state fire marshal and shall be regularly inspected and maintained, with any corrective action completed as necessary and recorded.

(D) No resident shall have access to any ammunition or weapons, including firearms and air-powered guns. If a licensee prohibits carrying a concealed weapon on the premises of the PRTF, the licensee shall post notice pursuant to K.S.A. 75-7c11, and amendments thereto.

(E) Procedures shall be developed and implemented for the control and use of keys, tools, medical supplies, and culinary equipment.

(F) No resident or group of residents shall exercise control or authority over another resident, have access to the records of another resident, or have access to or the use of keys that control security.

(G) Procedures shall be developed and implemented for knowing the whereabouts of all residents at all times and for handling runaways and unauthorized absences.

(H) Safety and security precautions pertaining to the PRTF and any staff vehicles used to transport residents shall be developed and implemented.

(2) Each licensee shall ensure the development of policies and procedures that govern documentation of all incidents, including riots, the taking of hostages, and the use of restraint.

(A) The policies and procedures shall require submission of a written report of all incidents to the program director no later than the conclusion of that shift. A copy of the report shall be kept in the record of each resident involved in the incident.

(B) Reports of incidents shall be made to document compliance with K.A.R. 28-4-1209.

(3) A written plan shall provide for continuing operations if a work stoppage occurs. A copy of this plan shall be available to each staff member.

(d) Storage and use of hazardous substances and unsafe items.

(1) No resident shall have unsupervised access to poisons, hazardous substances, or flammable materials. These items shall be kept in locked storage when not in use.

(2) Each licensee shall develop and implement policies and procedures for the safe and sanitary storage and distribution of personal care and hygiene items. The following items shall be stored in an area that is either locked or under the control of staff:

- (A) Aerosols;
- (B) alcohol-based products;
- (C) any products in glass containers; and
- (D) razors, blades, and any other sharp items.

(3) Each licensee shall develop and implement policies and procedures for the safe storage and disposal of prescription and nonprescription medications. All prescription and nonprescription medications shall be stored in a locked cabinet located in a designated staff-accessible and supervised area. All refrigerated medications shall be stored under all food items in a locked refrig-

erator, in a refrigerator in a locked room, or in a locked medicine box in a refrigerator. Medications taken internally shall be kept separate from other medications. All unused medications shall be accounted for and disposed of in a safe manner, including being returned to the pharmacy, transferred with the resident, or safely discarded.

(4) Each PRTF shall have first-aid supplies, which shall be stored in a locked cabinet located in a staff-accessible and supervised area. First-aid supplies shall include the following:

- (A) Assorted adhesive strip bandages;
- (B) adhesive tape;
- (C) a roll of gauze;
- (D) scissors;
- (E) a package of gauze squares;
- (F) liquid soap;
- (G) an elastic bandage;
- (H) tweezers;
- (I) rubbing alcohol; and
- (J) disposable nonporous gloves in assorted sizes. (Authorized by and implementing K.S.A. 65-508; effective Oct. 9, 2009.)

28-4-1215. Environmental standards. (a) General building requirements.

(1) Each licensee shall ensure that public water and sewage systems, where available, are used. If public water and sewage systems are not available, each licensee shall maintain approval by the appropriate health authorities for any private water and sewage systems that are used.

(2) A licensed architect shall be responsible for the plans for any newly constructed building or for any major addition or major alteration to an existing building.

(A) For a new building, preliminary plans and outline specifications, including plot plans, shall be submitted to the department for review before commencing the final working drawings and specifications. Each licensee shall submit the final working drawings, construction specifications, and plot plans to the department for review and written approval before the letting of contracts.

(B) For an addition or alteration to an existing building, each licensee shall submit a written statement defining the proposed use of the construction and detailing the plans and specifications to the department for review and written approval before commencing construction.

(3) If construction is not commenced within one year of submitting a proposal for a new building or an addition or alteration to an existing

building, each licensee shall resubmit the plans and proposal to the department before proposed construction begins.

(b) Location and grounds requirements.

(1) Community resources, including health services, police protection, and fire protection from an organized fire department, shall be available.

(2) There shall be at least 100 square feet of outside activity space available for each resident allowed to utilize each outdoor area at any one time.

(3) The outside activity area shall be free of physical hazards.

(4) Sufficient space for visitor and staff parking at each PRTF shall be provided.

(c) Structural requirements and use of space. Each licensee shall ensure that the PRTF design, structure, interior and exterior environment, and furnishings promote a safe, comfortable, and therapeutic environment for the residents.

(1) Each PRTF shall be accessible to and usable by persons with disabilities.

(2) Each PRTF's structural design shall facilitate personal contact and interaction between staff members and residents.

(3) Each sleeping room shall meet the following requirements:

(A) No resident's room shall be in a basement.

(B) The minimum square footage of floor space shall be 80 square feet in each room occupied by one resident. Each room occupied by more than one resident shall have at least 60 square feet of floor space for each resident. At least one dimension of the usable floor space unencumbered by furnishings or fixtures shall be at least seven feet.

(C) The minimum ceiling height shall be seven feet eight inches over at least 90 percent of the room area.

(D) An even temperature of between 68 degrees Fahrenheit and 78 degrees Fahrenheit shall be maintained, with an air exchange of at least four times each hour.

(E) Sleeping rooms occupied by residents shall have a window source of natural light. Access to a drinking water source and toilet facilities shall be available 24 hours a day.

(F) Separate beds with level, flat mattresses in good condition shall be provided for each resident. All beds shall be above the floor level.

(G) Clean bedding, adequate for the season, shall be provided for each resident. Bed linen shall be changed at least once a week or more frequently when soiled.

(4) Each sleeping room, day room, and classroom utilized by residents shall have lighting of at least 20 foot-candles in all parts of the room. There shall be lighting of at least 35 foot-candles in areas used for reading, study, or other close work.

(5) Adequate space for study and recreation shall be provided.

(6) Each living unit shall contain the following:

(A) Furnishings that provide sufficient seating for the maximum number of residents expected to use the area at any one time;

(B) writing surfaces that provide sufficient space for the maximum number of residents expected to use the area at any one time; and

(C) furnishings that are consistent with the needs of the residents.

(7) Each PRTF shall have adequate central storage for household supplies, bedding, linen, and recreational equipment.

(8) If the PRTF is on the same premises as that of another licensed facility, the living unit of the PRTF shall be maintained in a separate, self-contained unit. Residents of the PRTF shall not use space shared with another licensed facility at the same time unless the plan for the use of space is approved, in writing, by the secretary and by SRS.

(9) If a PRTF has one or more day rooms, each day room shall provide space for a variety of resident activities. Day rooms shall be situated immediately adjacent to the residents' sleeping rooms, but separated from the sleeping rooms by a floor-to-ceiling wall. Each day room shall provide at least 35 square feet for each resident, exclusive of lavatories, showers, and toilets, for the maximum number of residents expected to use the day room area at any one time.

(10) Each room used for sports and other physical activities shall provide floor space equivalent to at least 100 square feet for each resident utilizing the room for those purposes at any one time.

(11) Sufficient space shall be provided for visitation between residents and nonresidents. The PRTF shall have space for the screening and search of both residents and visitors, if screening and search are included in the PRTF's policies and procedures. Private space shall be available for searches as needed. Storage space shall be provided for the secure storage of visitors' coats, handbags, and other personal items not allowed into the visitation area.

(12) A working telephone shall be accessible to staff members in all areas of the building. Emergency numbers, including those for the fire de-

partment, the police, a hospital, a physician, the poison control center, and an ambulance, shall be posted by each phone.

(13) A service sink and a locked storage area for cleaning supplies shall be provided in a room or closet that is well ventilated and separate from kitchen and living areas.

(d) Bathroom facilities.

(1) For each eight or fewer residents of each sex, at least one toilet, one lavatory, and either a bathtub or a shower shall be provided. All toilets shall be above floor level.

(2) Each bathroom shall be ventilated to the outdoors by means of either a window or a mechanical ventilating system, with a minimum of 10 air changes each hour.

(3) Toilet and bathing accommodations and drinking water shall be in a location accessible to sleeping rooms and living and recreation rooms.

(4) Drinking water and at least one bathroom shall be accessible to the reception and admission areas.

(5) Cold water and hot water not exceeding 120 degrees Fahrenheit shall be supplied to lavatories, bathtubs, and showers.

(6) Liquid soap, toilet paper, and paper towels shall be available in all bathroom facilities.

(e) Building maintenance standards.

(1) Each building shall be clean at all times and free from vermin infestation.

(2) The walls shall be smooth, easily cleanable, and sound. Lead-free paint shall be used on all painted surfaces.

(3) The floors and walking surfaces shall be kept free of hazardous substances at all times.

(4) The floors shall not be slippery or cracked.

(5) Each rug or carpet used as a floor covering shall be slip-resistant and free from tripping hazards. A floor covering, paint, or sealant shall be required over concrete floors for all buildings used by the residents.

(6) All bare floors shall be swept and mopped daily.

(7) A schedule for cleaning each building shall be established and maintained.

(8) Washing aids, including brushes, dish mops, and other hand aids used in dishwashing activities, shall be clean and used for no other purpose.

(9) Mops and other cleaning tools shall be cleaned and dried after each use and shall be hung on racks in a well-ventilated place.

(10) Pesticides and any other poisons shall be used in accordance with the product instructions.

These substances and all other poisons shall be stored in a locked area.

(11) Toilets, lavatories, sinks, and other such accommodations in the living areas shall be cleaned each day. (Authorized by and implementing K.S.A. 65-508; effective Oct. 9, 2009.)

28-4-1216. Food services. Each licensee shall ensure that food preparation, service, safety, and nutrition meet the requirements of this regulation. For purposes of this regulation, "food" shall include beverages.

(a) Sanitary practices. Each individual engaged in food preparation and food service shall use sanitary methods of food handling, food service, and storage.

(1) Only authorized individuals shall be in the food preparation area.

(2) Each individual who has any symptoms of an illness, including fever, vomiting, or diarrhea, shall be excluded from the food preparation area and shall remain excluded from the food preparation area until the time at which the individual has been asymptomatic for at least 24 hours or provides the PRTF with written documentation from a health care provider stating that the symptoms are from a noninfectious condition.

(3) Each individual who has contracted an infectious or contagious disease specified in K.A.R. 28-1-6 shall be excluded from the food preparation area and shall remain excluded from the food preparation area for the time period required for that disease.

(4) Each individual with an open cut or abrasion on the hand or forearm or with a skin sore shall cover the sore, cut, or abrasion with a bandage before handling or serving food.

(5) The hair of each individual shall be restrained when the individual is handling food.

(6) Each individual handling or serving food shall comply with each of the following requirements for handwashing:

(A) Each individual shall wash that individual's hands and exposed portions of the individual's arms before working with food, after using the toilet, and as often as necessary to keep the individual's hands clean and to minimize the risk of contamination.

(B) Each individual shall use an individual towel, disposable paper towels, or an air dryer to dry that individual's hands.

(7) Each individual preparing or handling food shall minimize bare hand and bare arm contact with exposed food that is not in a ready-to-eat form.

(8) Except when washing fruits and vegetables, no individual handling or serving food may contact exposed, ready-to-eat food with the individual's bare hands.

(9) Each individual shall use single-use gloves, food-grade tissue paper, dispensing equipment, or utensils, including spatulas or tongs, when handling or serving exposed ready-to-eat food.

(b) Nutrition.

(1) Meals and snacks shall meet the nutritional needs of the residents in accordance with the United States department of agriculture's recommended daily allowances. A sufficient quantity of food shall be prepared for each meal to allow each resident second portions of bread and milk and either vegetables or fruit.

(2) Special diets shall be provided for residents for either of the following reasons:

(A) Medical indication; or

(B) accommodation of religious practice, as indicated by a religious consultant.

(3) Each meal shall be planned and the menu shall be posted at least one week in advance. A copy of the menu of each meal served for the preceding month shall be kept on file and available for inspection.

(c) Food service and preparation areas. If food is prepared on the premises, each licensee shall provide a food preparation area that is separate from the eating area, activity area, laundry area, and bathrooms and that is not used as a passageway during the hours of food preparation and cleanup.

(1) All surfaces used for food preparation and tables used for eating shall be made of smooth, nonporous material.

(2) Before and after each use, all food preparation surfaces shall be cleaned with soapy water and sanitized by use of a solution of one ounce of bleach to one gallon of water or a sanitizing solution used in accordance with the manufacturer's instructions.

(3) Before and after each use, the tables used for eating shall be cleaned by washing with soapy water.

(4) All floors shall be swept daily and mopped when spills occur.

(5) Garbage shall be disposed of in a garbage disposal or in a covered container. If a container is used, the container shall be removed at the end of each day or more often as needed to prevent overflow or to control odor.

(6) Each food preparation area shall have handwashing facilities equipped with soap and hot and

cold running water and with individual towels, paper towels, or air dryers. Each sink used for handwashing shall be equipped to provide water at a temperature of at least 100 degrees Fahrenheit. The water temperature shall not exceed 120 degrees Fahrenheit.

(A) If the food preparation sink is used for handwashing, the sink shall be sanitized before using it for food preparation by use of a solution of $\frac{1}{4}$ cup of bleach to one gallon of water.

(B) Each PRTF with 25 or more residents shall be equipped with handwashing facilities that are separate from the food preparation sink.

(7) Clean linen used for food preparation or service shall be stored separately from soiled linen.

(d) Food storage and refrigeration. All food shall be stored and served in a way that protects the food from cross-contamination.

(1) Nonrefrigerated food.

(A) All food not requiring refrigeration shall be stored at least six inches above the floor in a clean, dry, well-ventilated storeroom or cabinet in an area with no overhead drain or sewer lines and no vermin infestation.

(B) Dry bulk food that has been opened shall be stored in metal, glass, or food-grade plastic containers with tightly fitting covers and shall be labeled with the contents and the date opened.

(C) Food shall not be stored with poisonous or toxic materials. If cleaning agents cannot be stored in a room separate from food storage areas, the cleaning agents shall be clearly labeled and kept in locked cabinets not used for the storage of food.

(2) Refrigerated and frozen food.

(A) All perishables and potentially hazardous foods requiring refrigeration shall be continuously maintained at 41 degrees Fahrenheit or lower in the refrigerator or 0 degrees Fahrenheit in the freezer.

(B) Each refrigerator and each freezer shall be equipped with a visible, accurate thermometer.

(C) Each refrigerator and each freezer shall be kept clean inside and out.

(D) All food stored in the refrigerator shall be covered, wrapped, or otherwise protected from contamination. Unserved, leftover perishable foods shall be dated, refrigerated immediately after service, and eaten within three days.

(E) Raw meat shall be stored in the refrigerator in a manner that prevents meat fluids from dripping on other foods.

(F) Ready-to-eat, commercially processed foods, including luncheon meats, cream cheese,

and cottage cheese, shall be eaten within five days after opening the package.

(G) If medication requiring refrigeration is stored with refrigerated food, the medication shall be stored in a locked medicine box in a manner that prevents cross-contamination.

(3) Hot foods.

(A) Hot foods that are to be refrigerated shall be transferred to shallow containers in layers less than three inches deep and shall not be covered until cool.

(B) Potentially hazardous cooked foods shall be cooled in a manner to allow the food to cool within two hours from 135 degrees Fahrenheit to 70 degrees Fahrenheit or within six hours from 135 degrees Fahrenheit to 41 degrees Fahrenheit.

(e) Meals or snacks prepared on the premises.

(1) Each licensee shall ensure that all of the following requirements are met:

(A) All dairy products shall be pasteurized. Dry milk shall be used for cooking only.

(B) Meat shall be obtained from government-inspected sources.

(C) Raw fruits and vegetables shall be washed thoroughly before being eaten or used for cooking.

(D) Frozen foods shall be defrosted in the refrigerator, under cold running water, in a microwave oven using the defrost setting, or during the cooking process. Frozen foods shall not be defrosted by leaving them at room temperature or in standing water.

(E) Cold foods shall be maintained and served at temperatures of 41 degrees Fahrenheit or less.

(F) Hot foods shall be maintained and served at temperatures of at least 140 degrees Fahrenheit.

(2) Each licensee shall ensure that the following foods are not served or kept:

(A) Home-canned food;

(B) food from dented, rusted, bulging, or leaking cans; and

(C) food from cans without labels.

(f) Meals or snacks catered. If the licensee serves a meal or snack that is not prepared on the premises, the snack or meal shall be obtained from a food service establishment or a catering service licensed by the secretary of the Kansas department of agriculture. If food is transported to the premises, the licensee shall ensure that only food that has been transported promptly in clean, covered containers is served to the residents.

(g) Table service and cooking utensils.

(1) Each licensee shall ensure that all of the table service, serving utensils, and food cooking or

serving equipment is stored in a clean, dry location at least six inches above the floor. None of these items shall be stored under an exposed sewer line or a dripping water line or in a bathroom.

(2) Each licensee shall provide clean table service to each resident, including dishes, cups or glasses, and forks, spoons, and knives, as appropriate for the food being served.

(A) Clean cups, glasses, and dishes designed for repeat use shall be made of smooth, durable, and nonabsorbent material and shall be free from cracks or chips.

(B) Disposable, single-use table service shall be of food grade and medium weight and shall be disposed of after each use.

(3) If nondisposable table service and cooking utensils are used, each licensee shall sanitize the table service and cooking utensils using either a manual washing method or a mechanical dishwasher.

(A) If using a manual washing method, each licensee shall meet all of the following requirements:

(i) A three-compartment sink with hot and cold running water to each compartment and a drainboard shall be used for washing, rinsing, sanitizing, and air-drying.

(ii) An appropriate chemical test kit, a thermometer, or another device shall be used for testing the sanitizing solution and the water temperature.

(B) If using a mechanical dishwasher, each licensee shall ensure that all of the following requirements are met:

(i) Each commercial dishwashing machine and each domestic-type dishwashing machine shall be installed and operated in accordance with the manufacturer's instructions and shall be maintained in good repair.

(ii) If an automatic detergent dispenser, rinsing agents dispenser, or liquid sanitizer dispenser is used, the dispenser shall be installed and maintained according to the manufacturer's instructions.

(iii) Each dishwashing machine using hot water to sanitize shall be installed and operated according to the manufacturer's specifications and shall achieve surface temperature of at least 160 degrees Fahrenheit for all items.

(iv) If a domestic-type dishwasher is used, the dishwasher shall have the capacity to complete the cleaning cycle for all items in two cycles between each meal. (Authorized by and implementing K.S.A. 65-508; effective Oct. 9, 2009.)

28-4-1217. Laundry. (a) If laundry is done at the PRTF, the laundry sinks, appliances, and countertops or tables used for laundry shall be located in an area separate from food preparation areas and shall be installed and used in a manner that safeguards the health and safety of the residents. Adequate space shall be allocated for the laundry room and the storage of laundry supplies, including locked storage for all chemical agents used in the laundry area.

(b) Adequate space shall be allocated for the storage of clean and dirty linen and clothing. Soiled linen shall be stored separately from clean linen.

(c) Blankets shall be laundered at least once each month or, if soiled, more frequently. Blankets shall be laundered or sanitized before reissue.

(d) Each mattress shall be water-repellent and washed down and sprayed with disinfectant before reissue. Mattress materials and treatments shall meet the applicable requirements of the state fire marshal's regulations. (Authorized by and implementing K.S.A. 65-508; effective Oct. 9, 2009.)

28-4-1218. Transportation. Each licensee shall establish and implement written policies and procedures for transporting residents.

(a) The transportation policies and procedures shall include all of the following information:

(1) A list of the individuals authorized to transport residents for the PRTF;

(2) a description of precautions to prevent the escape of any resident during transfer;

(3) documentation of a current and appropriate license for each PRTF driver for the type of vehicle in use; and

(4) procedures to be followed in case of accident, injury, or other incident as specified in K.A.R. 28-4-1214, including notification procedures.

(b) Each transporting vehicle owned or leased by the licensee shall have a yearly safety check. A record of the yearly safety check and all repairs or improvements made shall be kept on file at the PRTF. When residents are transported in a privately owned vehicle, the vehicle shall be in safe working condition.

(c) Each vehicle used by the PRTF to transport residents shall be covered by accident and liability insurance as required by the state of Kansas.

(d) A first-aid kit shall be kept in the transporting vehicle and shall include disposable nonporous gloves in various sizes, a cleansing agent, scissors, bandages of assorted sizes, adhesive tape,

a roll of gauze, one package of gauze squares at least four inches by four inches in size, and one elastic bandage.

(e) Each vehicle used to transport residents shall be equipped with an individual seat belt for the driver and an individual seat belt or child safety seat for each passenger. The driver and each passenger shall be secured by a seat belt or a child safety seat when the vehicle is in motion.

(f) Seat belts and child safety seats shall be used appropriate to the age, weight, and height of each individual and the placement of each individual in the vehicle, in accordance with state statutes and regulations. Each child safety seat shall be installed and used according to manufacturer's instructions.

(g) Residents who are less than 13 years of age shall not be seated in the front seat of a vehicle that is equipped with a passenger air bag.

(h) Smoking in any vehicle owned or leased by the licensee shall be prohibited whether or not a resident is present in the vehicle.

(i) Residents shall be transported directly to the location designated by the licensee and shall make no unauthorized stops along the way, except in an emergency.

(j) Handcuffs or shackles shall not be used on any resident being transported by staff members.

(k) No 15-passenger vans shall be used to transport residents. Each licensee owning or leasing a 15-passenger van purchased or leased before the effective date of this regulation shall be exempt from the requirements of this subsection. (Authorized by and implementing K.S.A. 65-508; effective Oct. 9, 2009.)

28-4-1250. Definitions. (a) "Administrator" means the individual employed by a facility who is responsible for the daily operation of the facility.

(b) "Applicant" means a person who has applied for a license but who has not yet been granted a temporary permit or a license to operate a facility.

(c) "Auxiliary staff member" means a type of staff member working at a facility in food services, clerical services, or maintenance. This term shall also apply to individuals working in the facility for the purpose of observation of facility entrances and exits.

(d) "Basement" means each area in a building with a floor level more than 30 inches below ground level on all sides.

(e) "Case management" means the comprehensive written goals and services developed for

each resident and the provision of those services directly by the staff members or through other resources.

(f) “Case manager” means an individual who is designated by the permittee or licensee to coordinate the provision of services to residents by staff members or other individuals or agencies and who meets the requirements for a case manager in K.A.R. 28-4-1255(f).

(g) “Clinical director” means the individual at a facility who is responsible for the mental health services and who meets the requirements for a clinical director in K.A.R. 28-4-1255(d).

(h) “Department” means Kansas department of health and environment.

(i) “Direct care staff member” means an individual whose primary responsibility is to implement the program on a daily basis, including providing direct supervision of, interaction with, and protection of the residents and who meets the requirements for a direct care staff member in K.A.R. 28-4-1255(h).

(j) “Direct supervision” means the physical presence of staff members in proximity to allow for interaction and direct eye contact with residents.

(k) “In-service training” means job-related training provided for staff members and volunteers.

(l) “License capacity” means the maximum number of residents authorized to be in the facility at any one time.

(m) “Licensed physician” means an individual who is licensed to practice either medicine and surgery or osteopathy in Kansas by the Kansas state board of healing arts.

(n) “Licensee” means a person who has been granted a license to operate a facility.

(o) “Living unit” means the self-contained building or portion of a building in which the facility is operated and maintained, including the sleeping rooms, bathrooms, and areas used by residents for activities, dining, classroom instruction, library services, and indoor recreation.

(p) “Permittee” means a person who has applied for a license and has been granted a temporary permit by the secretary to operate a facility.

(q) “Placing agent” means law enforcement, a state agency, or court possessing the legal authority to place a resident in a facility.

(r) “Professional staff member” means a staff member who is one of the following:

- (1) The clinical director;
- (2) a licensed physician;

(3) an individual licensed by the Kansas behavioral sciences regulatory board;

(4) a teacher licensed by the Kansas state department of education;

(5) a physician’s assistant licensed in Kansas by the Kansas state board of healing arts;

(6) a professional nurse licensed by the Kansas state board of nursing;

(7) an advanced practice registered nurse (APRN) licensed by the Kansas state board of nursing;

(8) a dietician licensed by the Kansas department for aging and disability services; or

(9) a case manager.

(s) “Program” means the comprehensive and coordinated set of activities and social services providing for the care, health, and safety of residents while in the care of the facility.

(t) “Resident” means an individual who is placed in a facility as authorized by the revised Kansas code for the care of children, K.S.A. 2013 Supp. 38-2201 et seq., and K.S.A. 2013 Supp. 65-535, and amendments thereto.

(u) “Secretary” means secretary of the Kansas department of health and environment.

(v) “Staff member” means any individual employed at a facility, including auxiliary staff members, direct care staff members, and professional staff members.

(w) “Staff secure facility” and “facility” mean a type of “child care facility,” pursuant to K.S.A. 65-503 and amendments thereto, that meets the requirements in K.S.A. 2013 Supp. 65-535, and amendments thereto.

(x) “Trauma-informed care” means the services provided to residents based on an understanding of the vulnerabilities and the emotional and behavioral responses of trauma survivors.

(y) “Trauma-specific intervention” means intervention techniques designed specifically to address the consequences of trauma in residents and to facilitate recovery, including the interrelation between presenting symptoms of trauma and each resident’s past history of trauma.

(z) “Tuberculosis test” means either the Mantoux skin test or an interferon gamma release assay (IGRA).

(aa) “Volunteer” means an individual or group that provides services to residents without compensation.

(bb) “Weapons” means any dangerous or deadly instruments, including the following:

- (1) Firearms;

- (2) ammunition;
- (3) air-powered guns, including BB guns, pellet guns, and paint ball guns;
- (4) any knives, except knives designed and used for table service;
- (5) archery equipment; and
- (6) martial arts equipment. (Authorized by K.S.A. 2013 Supp. 65-508 and 65-535; implementing K.S.A. 2013 Supp. 65-503 and 65-535; effective, T-28-12-17-13, Dec. 17, 2013; effective March 28, 2014.)

28-4-1251. Applicant, permittee, and licensee requirements. (a) Each applicant shall submit a complete application on forms provided by the department. The application shall be submitted at least 90 calendar days before the planned opening date of the facility and shall include the following:

- (1) A description of the program and services to be offered, including the following:
 - (A) A statement of the facility's purpose and goals; and
 - (B) the number, ages, and gender of prospective residents;
- (2) the anticipated opening date;
- (3) a request for the background checks for staff members and volunteers specified in K.A.R. 28-4-1253;
- (4) the facility's policies and procedures required in subsection (d); and
- (5) the license fee totaling the following:
 - (A) \$75; and
 - (B) \$1 multiplied by the maximum number of residents to be authorized under the license.

(b) Each applicant shall be one of the following entities:

- (1) A government or governmental subdivision, which shall employ an administrator; or
- (2) a person, other than a government or governmental subdivision, with a governing board that is responsible for the operation, policies, finances, and general management of the facility. The applicant shall employ an administrator. The administrator shall not be a voting member of the governing board.

(c) Each applicant, each permittee, and each licensee, if a corporation, shall be in good standing with the Kansas secretary of state.

(d) Each applicant shall develop policies and procedures for operation of the facility to meet the requirements in these regulations and in K.S.A. 2013 Supp. 65-535, and amendments thereto.

(e) Each applicant shall submit to the department floor plans for each building that will be used as a facility. Each floor plan shall show how the facility is separated from any other child care facility. Each applicant shall obtain and submit to the department prior written approval from the Kansas state fire marshal regarding the safety of entrances and exits.

(f) Each applicant shall notify the school district where the facility is to be located at least 90 calendar days before the planned opening date. The 90-day notification to the local school district may be waived by the secretary upon receipt of a written agreement by the local school district. The notification to the school district shall include the following:

- (1) The planned opening date and the number, age range, gender, and anticipated special education needs of the residents to be served;
- (2) a statement that the residents will receive educational services on-site at the facility; and
- (3) documentation that the notification was received by the school district at least 90 calendar days before the planned opening date.

(g) Each applicant shall maintain documentation of completion of training required in K.A.R. 28-4-1255(k) by each staff member and each volunteer before the opening date of the facility.

(h) Each applicant, each permittee, and each licensee shall maintain documentation of compliance with all applicable building codes, fire safety requirements, and zoning codes.

(i) The granting of a license to any applicant may be refused by the secretary if the applicant is not in compliance with the requirements of all applicable statutes and regulations governing facilities. (Authorized by K.S.A. 2013 Supp. 65-508 and 65-535; implementing K.S.A. 65-501 and K.S.A. 2013 Supp. 65-504, 65-505, 65-508, 65-516, and 65-535; effective, T-28-12-17-13, Dec. 17, 2013; effective March 28, 2014.)

28-4-1252. Terms of a temporary permit or license. (a) Temporary permit or license required. No person shall operate a facility unless the person has been issued a temporary permit or a license by the secretary.

(b) Requirements. Each permittee and each licensee shall ensure that the following requirements are met:

- (1) Each temporary permit or license shall be valid only for the permittee or licensee and for the address specified on the temporary permit or the

license. When an initial or amended license becomes effective, all temporary permits or licenses previously granted to the permittee or licensee at the same address shall become void.

(2) The maximum number, the age range, and the gender of residents authorized by the temporary permit or the license shall not be exceeded.

(3) The current temporary permit or the current license shall be posted conspicuously within the facility.

(c) New application required. A new application and the fee specified in K.A.R. 28-4-1251(a) shall be submitted for each change of ownership or location at least 90 calendar days before the planned change.

(d) Changes. Each applicant, each permittee, and each licensee shall obtain the secretary's written approval before making any change in any of the following:

(1) The use or proposed use of the buildings;

(2) The physical structure of any building, including the following:

(A) An addition or alteration as specified in K.A.R. 28-4-1265(a)(2)(B);

(B) the use of locked entrances; and

(C) any delayed-exit mechanisms;

(3) the program, provided through either direct services or agreements with specified individuals or community resources; or

(4) orientation topics or required in-service training.

(e) Renewals.

(1) No earlier than 90 calendar days before the renewal date but no later than the renewal date, each licensee shall complete and submit an application for renewal on forms provided by the department, including the requests for background checks specified in K.A.R. 28-4-1253, and the fee specified in K.A.R. 28-4-1251(a).

(2) Failure to submit the renewal application and fee within 30 days after the expiration of the license shall result in an assessment of a late renewal fee pursuant to K.S.A. 65-505, and amendments thereto, and may result in closure of the facility.

(f) Exceptions. Any applicant, permittee, or licensee may request an exception to a specific facility regulation or any portion of a specific facility regulation. Each request shall be submitted to the secretary on a form provided by the department. A copy of each request shall be provided to the Kansas department for children and families and the office of the Kansas attorney general.

(1) A request for an exception may be granted if the secretary determines that the exception is not detrimental to the health, safety, and welfare of one or more residents or the family of a resident and the exception does not violate statutory requirements.

(2) Written notice from the secretary stating the nature of each exception and its duration shall be kept on file at the facility and shall be readily accessible to the department and the Kansas department for children and families.

(g) Amendments. Any licensee may submit a written request for an amended license.

(1) Each licensee who intends to change the terms of the license, including the maximum number, the age range, or the gender of residents to be served, shall submit a request for an amendment on a form provided by the department and a nonrefundable amendment fee of \$35. An amendment fee shall not be required if the request to change the terms of the license is made at the time of license renewal.

(2) Each request for a change in the maximum number, the age range, or the gender of residents to be served shall include written documentation of the notification to the school district where the facility is located, as specified in K.A.R. 28-4-1251(f).

(3) The licensee shall make no change to the terms of the license, including the maximum number of residents, the age range of residents to be served, the gender of residents, and the type of license, unless an amendment has been granted, in writing, by the secretary.

(h) Closure. Any applicant or permittee may withdraw the application for a license. Any licensee may submit, at any time, a request to close the facility operated by the licensee. If an application is withdrawn or a facility is closed, the current temporary permit or license granted to the permittee or licensee for that facility shall become void. (Authorized by K.S.A. 2013 Supp. 65-508 and 65-535; implementing K.S.A. 2013 Supp. 65-504, 65-505, 65-508, 65-516, and 65-535; effective, T-28-12-17-13, Dec. 17, 2013; effective March 28, 2014.)

28-4-1253. Background checks. (a) With each initial application or renewal application, each applicant or licensee shall submit a request to conduct a background check by the Kansas bureau of investigation and a background check by the Kansas department for children and fam-

ilies in order to comply with K.S.A. 65-516, and amendments thereto. Each request shall be submitted on a form provided by the department. Each request shall list the required information for each individual 10 years of age and older who will be residing, working, or volunteering in the facility.

(b) Each applicant, each permittee, and each licensee shall submit a request to the department to conduct a background check by the Kansas bureau of investigation and a background check by the Kansas department for children and families before each individual begins residing, working, or volunteering in the facility.

(c) A background check shall not be required for any resident admitted to a facility.

(d) A copy of each request for a background check shall be kept on file at the facility. (Authorized by K.S.A. 2013 Supp. 65-508; implementing K.S.A. 2013 Supp. 65-516; effective, T-28-12-17-13, Dec. 17, 2013; effective March 28, 2014.)

28-4-1254. Administration. (a) Each permittee and each licensee shall be responsible for the operation of the facility, including the following:

(1) Developing an organizational chart designating the lines of authority and ensuring that all staff members know which staff member is in charge at any time;

(2) developing and implementing administrative policies and procedures for the operation of the facility, which shall include sufficient staff members to supervise and provide services to residents;

(3) employing an administrator; and

(4) employing a clinical director.

(b) Each permittee and each licensee shall implement policies and procedures for the operation of the facility that shall include detailed descriptions of the roles and responsibilities for each staff member and each volunteer.

(c) Each permittee and each licensee shall ensure the confidentiality of each resident's information.

(d) Each permittee and each licensee shall ensure that the program, all services, and living units of the facility are separate from the children or youth in and the living units used by any other child care facility.

(e) Each permittee and each licensee shall ensure that each staff member and each volunteer is informed of and follows all written policies and procedures necessary to carry out that staff member's or volunteer's job duties.

(f) Each permittee and each licensee shall ensure that a copy of the regulations governing facilities is kept on the premises at all times. A copy of the regulations shall be made available to all staff members.

(g) Each licensee shall ensure that all contracts, agreements, policies, and procedures are reviewed annually and updated as needed. (Authorized by and implementing K.S.A. 2013 Supp. 65-508 and 65-535; effective, T-28-12-17-13, Dec. 17, 2013; effective March 28, 2014.)

28-4-1255. Staff member requirements.

(a) Staff members and volunteers. Each individual working or volunteering in a facility shall be qualified by temperament, emotional maturity, judgment, and understanding of residents necessary to maintain the health, comfort, safety, and welfare of residents.

(b) Multiple duties. Each staff member performing duties of more than one position shall meet the minimum qualifications for each position held.

(c) Administrator.

(1) Each administrator shall have a bachelor's degree in social work, human development, psychology, education, nursing, counseling, or family studies or in a related field. The degree shall be from an accredited college or university with accreditation standards equivalent to those met by Kansas colleges and universities.

(2) Each administrator shall demonstrate knowledge of the principles and practices of administration and management.

(3) Each administrator shall have at least three years of supervisory experience within a child care facility providing treatment to children or youth.

(d) Clinical director. Each clinical director shall be licensed or approved by the Kansas behavioral sciences regulatory board, the Kansas board of nursing, or the Kansas board of healing arts to diagnose and treat mental and behavioral disorders.

(e) Substance abuse counselor. Each substance abuse counselor shall be responsible for the evaluation, assessment, and treatment of residents for substance abuse. The substance abuse counselor shall be licensed by the Kansas behavioral sciences regulatory board or the Kansas board of healing arts to evaluate, assess, and treat addictions or substance abuse.

(f) Case manager. Each case manager shall be licensed by the Kansas behavioral sciences regulatory board.

(g) Professional staff members. Each professional staff member shall maintain current licensure, certification, or registration for that staff member's profession.

(h) Direct care staff members. Each direct care staff member shall meet all of the following requirements:

- (1) Be 21 years of age or older;
- (2) have a high school diploma or equivalent; and
- (3) have completed one of the following:
 - (A) A bachelor's degree from an accredited college or university and one year of experience supervising children or youth in a child care facility;
 - (B) 60 semester hours from an accredited college or university and two years of experience supervising children or youth in a child care facility; or
 - (C) four years of experience supervising children or youth in a child care facility.

(i) Auxiliary staff members. Each permittee and each licensee shall ensure that the following requirements are met for auxiliary staff members:

(1) Auxiliary staff members shall be available as needed for the operation of the facility and the provision of services to residents.

(2) No auxiliary staff member shall be included in meeting the minimum ratio of direct care staff members to residents. Direct care staff members shall maintain direct supervision of the residents.

(3) Each auxiliary staff member working at the facility for the purpose of observing facility entrances and exits shall meet the requirements of K.S.A. 2013 Supp. 65-535, and amendments thereto.

(4) Each auxiliary staff member working in food service shall demonstrate compliance with all of the following requirements through ongoing job performance:

- (A) Knowledge of the nutritional needs of residents;
- (B) understanding of quantity food preparation and service;
- (C) sanitary food handling and storage methods;
- (D) understanding of individual, cultural, and religious food preferences; and
- (E) ability to work with the case manager in planning learning experiences for residents about nutrition.

(j) Volunteers. Each permittee and each licensee shall ensure that the following requirements are met for any volunteer who has direct contact with residents:

(1) There shall be a written plan for orientation, training, supervision, and tasks for each volunteer.

(2) Each volunteer shall submit to the administrator an application for volunteering at the facility.

(3) Each volunteer whose job description includes the provision of program services to residents shall meet the same requirements as those of a staff member in that position. No volunteer shall perform tasks for which the volunteer is not qualified or licensed.

(4) No volunteer shall be counted in the minimum ratio of direct care staff members to residents. Each volunteer shall be supervised at all times by a staff member.

(k) Staff member and volunteer training. Each permittee and each licensee shall assess the training needs of each staff member and each volunteer and shall provide orientation and in-service training. Documentation of the training shall be kept in each staff member's and each volunteer's record and shall be accessible for review by the secretary or secretary's designee.

(1) Each staff member and each volunteer shall complete at least 10 clock-hours of orientation training within seven calendar days after the initial date of employment or volunteering. The orientation training shall include the following topics:

(A) Facility policies and procedures, including emergency procedures, behavior management, and discipline;

(B) individual job duties and responsibilities;

(C) confidentiality;

(D) security procedures;

(E) recognition of the signs and symptoms and the reporting of suspected child abuse and neglect;

(F) the signs and symptoms of infectious disease, infection control, and universal precautions;

(G) statutes and regulations governing facilities;

(H) the schedule of daily activities;

(I) principles of trauma-informed care;

(J) indicators of self-harming behaviors or suicidal tendencies; and

(K) care and supervision of residents.

(2) Each direct care staff member shall complete an additional 40 clock-hours of orientation training before assuming direct supervision and before being counted in the ratio of direct care staff members to residents. Each volunteer who has direct contact with residents shall complete the additional 40 clock-hours of training before providing services to residents. The additional training shall include the following topics:

(A) Crisis management;

(B) human trafficking and exploitation;
(C) indicators of self-harming behaviors or suicidal tendencies and knowledge of appropriate intervention measures;

(D) indicators of gang involvement;

(E) intervention techniques for problem or conflict resolution, diffusion of anger, and de-escalation methods;

(F) principles of trauma-informed care and trauma-specific intervention; and

(G) report writing and documentation methods.

(3) Each staff member shall complete at least 20 clock-hours of in-service training each year. In-service training topics shall be based on individual job duties and responsibilities, meet individual learning needs, and be designed to maintain the knowledge and skills needed to comply with facility policies and procedures and the regulations governing facilities.

(4) At least one staff member who is counted in the ratio of direct care staff members to residents and who has current certification in first aid and current certification in cardiopulmonary resuscitation shall be at the facility at all times.

(5) If nonprescription or prescription medication is administered to residents, each permittee and each licensee shall designate professional staff members or direct care staff members to administer the medication. Before administering any medication, each designated staff member shall receive training in medication administration approved by the secretary. (Authorized by and implementing K.S.A. 2013 Supp. 65-508 and 65-535; effective, T-28-12-17-13, Dec. 17, 2013; effective March 28, 2014.)

28-4-1256. Records. (a) Recordkeeping system. Each applicant, each permittee, and each licensee shall ensure that there is an organized recordkeeping system for the facility, which shall include the following:

(1) Provisions shall be made for the identification, security, confidentiality, control, retrieval, preservation, and retirement of all resident, staff member, volunteer, and facility records.

(2) All records shall be available at the facility for review by the department.

(b) Resident records.

(1) Each permittee and each licensee shall maintain an individual record for each resident, which shall include the following information:

(A) Documentation of the preadmission screening;

(B) the admissions form;

(C) verification of custody status of the resident;

(D) a record of the resident's personal possessions as specified in K.A.R. 28-4-1258;

(E) a health record that meets the requirements in K.A.R. 28-4-1259;

(F) a copy of each written report of any incidents involving the resident and specified in K.A.R. 28-4-1257 and K.A.R. 28-4-1264;

(G) documentation of the resident's receipt of the facility rule book; and

(H) the individualized plan of care.

(2) Provisions shall be made for the transfer of a resident's record upon release of the resident to another child care facility. The record shall precede the resident or accompany the resident to that child care facility. All information that cannot be transferred at the time of the release of the resident shall be transferred within 72 hours of the release of the resident.

(3) Information from a resident's record shall not be released without written permission from the court, the Kansas department for children and families, or the resident's parent or legal guardian.

(c) Staff member records. Each permittee and each licensee shall maintain an individual record for each staff member, which shall include the following information:

(1) The application for employment, including the staff member's qualifications, references, and dates of previous employment;

(2) a copy of each applicable current professional license, certificate, or registration;

(3) the staff member's current job responsibilities;

(4) a health record that meets the requirements in K.A.R. 28-4-1259(f), including a record of the results of each health examination and each tuberculosis test;

(5) a copy of a valid driver's license of a type appropriate for the vehicle being used, for each staff member who transports any resident;

(6) documentation of all orientation and inservice training required in K.A.R. 28-4-1255(k);

(7) documentation of training in medication administration if medication administration is included in the staff member's job duties;

(8) a copy of each grievance or incident report concerning the staff member, including documentation of the resolution of each report; and

(9) documentation that the staff member has read, understands, and agrees to all of the following:

(A) The requirements for mandatory reporting of suspected child abuse, neglect, and exploitation;

(B) all regulations governing facilities;

(C) the facility's policies and procedures that are applicable to the job responsibilities of the staff member; and

(D) the confidentiality of resident information.

(d) Volunteer records. Each permittee and each licensee shall maintain an individual record for each volunteer at the facility, which shall include the following information:

(1) The application for volunteering at the facility;

(2) the volunteer's responsibilities at the facility;

(3) a health record that meets the requirements in K.A.R. 28-4-1259(f), including a record of the results of each health examination and each tuberculosis test, for each volunteer in contact with residents;

(4) documentation of all orientation and inservice training required for volunteers in K.A.R. 28-4-1255(k);

(5) a copy of each grievance or incident report concerning the volunteer, including documentation of the resolution of each report; and

(6) documentation that the volunteer has read, understands, and agrees to all of the following:

(A) The requirements for mandatory reporting of suspected child abuse, neglect, and exploitation;

(B) all regulations governing facilities;

(C) the facility's policies and procedures that are applicable to the responsibilities of the volunteer; and

(D) the confidentiality of resident information.

(e) Facility records. Each applicant, each permittee, and each licensee shall ensure that the facility records are completed and maintained. These records shall include the following information:

(1) Documentation of the requests submitted to the department for background checks in order to meet the requirements of K.A.R. 28-4-1253;

(2) documentation of notification to the school district as specified in K.A.R. 28-4-1251(f);

(3) documentation of each approval granted by the secretary for each change, exception, or amendment;

(4) the facility's policies and procedures;

(5) all documentation specified in K.A.R. 28-4-1264 for emergency plans, fire and tornado drills, and written policies and procedures on the security and control of the residents;

(6) all documentation specified in K.A.R. 28-4-1264 for the inspection and the maintenance of security devices, including locking mechanisms and any delayed-exit mechanisms on doors;

(7) documentation of approval of any private water or sewage systems as specified in K.A.R. 28-4-1265;

(8) documentation of compliance with all applicable building codes, fire safety requirements, and zoning codes;

(9) all documentation specified in K.A.R. 28-4-1268 for transportation;

(10) documentation of vaccinations for any animal kept on the premises, as required by K.A.R. 28-4-1269(c); and

(11) a copy of each contract and each agreement. (Authorized by K.S.A. 2013 Supp. 65-508 and 65-535; implementing K.S.A. 65-507 and K.S.A. 2013 Supp. 65-508, 65-516, and 65-535; effective, T-28-12-17-13, Dec. 17, 2013; effective March 28, 2014.)

28-4-1257. Notification and reporting requirements. (a) Each permittee and each licensee shall ensure that notification of each of the following is submitted verbally or in writing upon discovery of the incident or event, but no later than 24 hours after the discovery:

(1) Each instance of suspected abuse or neglect of a resident shall be reported to the Kansas department for children and families and to law enforcement.

(2) Each incident resulting in the death of any resident shall be reported to the following:

(A) Law enforcement;

(B) the resident's parent or legal guardian;

(C) the resident's placing agent;

(D) the Kansas department for children and families; and

(E) the department.

(3) Each incident resulting in the death of a staff member or a volunteer while on duty at the facility shall be reported to the department and to any other entities in accord with the facility's policies.

(4) Each incident resulting in a serious injury to any resident, including burns, lacerations, bone fractures, substantial hematomas, and injuries to internal organs, shall be reported to the following:

(A) The parent or legal guardian of any resident involved in the incident;

(B) the placing agent of any resident involved in the incident;

(C) the Kansas department for children and families; and

(D) the department.

(5) Each incident of suspected sexual assault involving a resident as a victim or as a perpetrator shall be reported to the following:

(A) Law enforcement;

(B) the Kansas department for children and families;

(C) the resident's parent or legal guardian;

(D) the resident's placing agent; and

(E) the department.

(6) Each suicide attempt by a resident shall be reported to the following:

(A) The resident's parent or legal guardian;

(B) the resident's placing agent;

(C) the Kansas department for children and families; and

(D) the department.

(7) Each natural disaster shall be reported to the department.

(8) Each instance of work stoppage shall be reported to the department.

(9) Each incident that involves a riot or the taking of hostages shall be reported to the department.

(10) Each fire shall be reported to the department and to the state fire marshal.

(11) Each incident that involves any suspected illegal act committed by a resident while in the facility or by a staff member or a volunteer while on duty at the facility shall be reported to law enforcement and the department in accord with the facility's policies.

(12) If any resident, staff member, or volunteer contracts a reportable infectious or contagious disease specified in K.A.R. 28-1-2, the permittee or licensee shall ensure that a report is submitted to the local county health department within 24 hours, excluding weekends and holidays.

(b) Each permittee and each licensee shall complete a written report within five calendar days after the discovery of any incident or event identified in subsection (a). A copy of each written report shall be kept on file at the facility. (Authorized by and implementing K.S.A. 2013 Supp. 65-508 and 65-535; effective, T-28-12-17-13, Dec. 17, 2013; effective March 28, 2014.)

28-4-1258. Admission and release of residents. (a) Policies and procedures. Each permittee and each licensee shall implement policies and procedures for the admission and release of

residents. These policies and procedures shall ensure that each individual is admitted unless at least one of the following conditions is met:

(1) The individual's placement is not authorized by the revised Kansas code for the care of children, K.S.A. 2013 Supp. 38-2201 et seq., or K.S.A. 2013 Supp. 65-535, and amendments thereto.

(2) The individual needs immediate medical care.

(3) Admission of the individual would cause the permittee or licensee to exceed the terms of the temporary permit or license.

(b) Authorization of admission. Each permittee and each licensee shall ensure that no individual is admitted to the facility unless the placement is authorized by the revised Kansas code for the care of children, K.S.A. 2013 Supp. 38-2201 et seq., and K.S.A. 2013 Supp. 65-535, and amendments thereto.

(c) Preadmission health screening. Each individual who shows evidence of being physically ill, injured, or under the influence of alcohol or drugs shall be assessed in accordance with the facility's policies and procedures to determine whether the individual needs immediate medical care.

(d) Admission procedures. Each permittee and each licensee shall ensure that the admission procedures include the following:

(1) Informing each resident, or the resident's legal guardian if the resident is unable to understand, of the purposes for which information is obtained and the manner in which the information will be used;

(2) completing an admission form, including verification of custody status and a life history of each resident;

(3) completing a health history checklist on a form approved by the department;

(4) completing an inventory that documents each resident's clothing and personal possessions;

(5) distributing personal hygiene items;

(6) providing for a shower and hair care;

(7) issuing clean, laundered clothing, if necessary; and

(8) assigning each resident to a sleeping room.

(e) Guardianship. No permittee, licensee, staff member, or volunteer shall accept permanent legal guardianship of a resident.

(f) Release procedures. Each permittee and each licensee shall ensure that the following procedures are followed when a resident is released from a facility:

(1) Procedures for the release of a resident shall include the following:

(A) Verification of the identification and the authority of the individual to whom the resident is being released;

(B) verification of the identity of the resident;

(C) transportation arrangements;

(D) instructions for forwarding mail; and

(E) return of personal property to the resident, including a receipt for all personal property, signed by the resident.

(2) Facility release forms shall be signed and dated by the individual to whom the resident is released and by the staff member releasing the resident. (Authorized by and implementing K.S.A. 2013 Supp. 65-508 and 65-535; effective, T-28-12-17-13, Dec. 17, 2013; effective March 28, 2014.)

28-4-1259. Health care. (a) Policies and procedures for resident health care. Each permittee and each licensee, in consultation with a physician, shall implement written policies and procedures that include provisions for the following:

(1) Completion of a health checklist and review for each resident upon admission, including the following:

(A) Current physical health status, including oral health;

(B) all allergies, including medication, food, and plant;

(C) all current pain, including cause, onset, duration, and location;

(D) preexisting medical conditions;

(E) current mood and affect;

(F) history and indicators of self-harming behaviors or suicidal tendencies;

(G) all infectious or contagious diseases;

(H) documentation of current immunizations specified in K.A.R. 28-1-20 or documentation of an exemption for medical or religious reasons pursuant to K.S.A. 65-508, and amendments thereto;

(I) all drug or alcohol use;

(J) all current medications;

(K) all physical disabilities;

(L) all sexually transmitted diseases; and

(M) if a female resident, menstrual history and any history of pregnancy;

(2) follow-up health care, including a health assessment and referrals for any concerns identified in the health checklist and review;

(3) if medically indicated, all required chronic care, convalescent care, and preventive care, including immunizations;

(4) care for minor illness, including the use and administration of prescription and nonprescription drugs;

(5) care for residents under the influence of alcohol or other drugs;

(6) infection-control measures and universal precautions to prevent the spread of blood-borne infectious diseases, including medically indicated isolation; and

(7) maternity care as required by K.A.R. 28-4-279.

(b) Physical health of residents. Each permittee and each licensee shall ensure that emergency and ongoing medical and dental care is obtained for each resident by providing timely access to basic, emergency, and specialized medical, mental health, and dental care and treatment services provided by qualified providers.

(1) Each permittee and each licensee shall ensure that a health checklist is completed for each resident at the time of admission by the staff member who admits the resident. The health checklist shall serve as a guide to determine if a resident is in need of medical or dental care and to determine if the resident is using any prescribed medications.

(2) Each permittee and each licensee shall ensure that a licensed physician, a physician's assistant operating under a written protocol as authorized by a responsible physician, or an APRN operating under a written protocol as authorized by a responsible physician and operating under the APRN's scope of practice is contacted for any resident who is taking a prescribed medication at the time of admission, to assess the need for continuation of the medication.

(3) Each change of prescription or directions for administering a prescription medication shall be ordered by the authorized medical practitioner with documentation placed in the resident's record. Prescription medications shall be administered only to the designated resident as ordered by the authorized medical practitioner.

(4) Nonprescription and prescription medication shall be administered only by a designated staff member who has received training on medication administration approved by the secretary. Each administration of medication shall be documented in the resident's record with the following information:

(A) The name of the staff member who administered the medication;

(B) the date and time the medication was given;

(C) each change in the resident's behavior, response to the medication, or adverse reaction;

(D) each alteration in the administration of the medication from the instructions on the medication label and documentation of the alteration; and

(E) each missed dose of medication and documentation of the reason the dose was missed.

(5) Within 72 hours of each resident's admission, a licensed physician, a physician's assistant operating under a written protocol as authorized by a responsible physician, an APRN, or a nurse approved to conduct health assessments shall review the health checklist. Based upon health indicators derived from the checklist, the reviewing physician, physician's assistant, APRN, or nurse shall conduct a health assessment.

(6) Each permittee and each licensee shall ensure that a licensed physician, a physician's assistant operating under a written protocol as authorized by the responsible physician, or an APRN operating under a written protocol as authorized by a responsible physician and operating within the APRN's scope of practice is contacted for each resident who has acute symptoms of illness or who has a chronic illness.

(7) Each permittee and each licensee shall ensure that the following procedures are followed for providing tuberculosis tests for residents:

(A) Each resident shall receive a tuberculosis test unless the resident has had a tuberculosis test within the last 12 months.

(B) A chest X-ray shall be taken of each resident who has a positive tuberculosis test or a history of a positive tuberculosis test, unless a chest X-ray was completed within the 12 months before the current admission to the facility.

(C) The results of the tuberculosis test, X-rays, and treatment shall be recorded in the resident's record, and the county health department shall be kept informed of the results.

(D) Compliance with the department's tuberculosis prevention and control program shall be followed for the following:

(i) Tuberculosis tests;

(ii) treatment; and

(iii) a resident's exposure to active tuberculosis disease.

(8) Each permittee and each licensee shall ensure that the use of tobacco in any form by any resident while in care is prohibited.

(c) Emergency medical treatment. Each permittee and each licensee shall ensure that the fol-

lowing requirements are met for the emergency medical treatment of residents:

(1) The resident's medical record and health assessment forms shall be taken to the emergency room with the resident.

(2) A staff member shall accompany the resident to emergency care and shall remain with the resident while the emergency care is being provided or until the resident is admitted. This arrangement shall not compromise the direct supervision of the other residents in the facility.

(d) Oral health of residents. Each permittee and each licensee shall ensure that the following requirements are met for the oral health of residents:

(1) Dental care shall be available for all residents.

(2) Each resident who has not had a dental examination within the 12 months before admission to the facility shall have a dental examination no later than 60 calendar days after admission.

(3) Each resident shall receive emergency dental care as needed.

(4) A plan shall be developed and implemented for oral health education and staff supervision of residents in the practice of good oral hygiene.

(e) Personal health and hygiene of residents. Each permittee and each licensee shall ensure that the following requirements are met for the personal health and hygiene of the residents:

(1) Each resident shall have access to drinking water, a lavatory, and a toilet.

(2) Each resident shall be given the opportunity to bathe upon admission and daily.

(3) Each resident shall be provided with toothpaste and an individual toothbrush.

(4) Each resident shall be given the opportunity to brush that resident's teeth after each meal.

(5) Opportunities shall be available to each resident for daily shaving and haircuts as needed.

(6) Each resident's washable clothing shall be changed and laundered at least twice a week. Clean underwear and socks shall be available to each resident on a daily basis.

(7) Each female resident shall be provided personal hygiene supplies for use during that resident's menstrual cycle.

(8) Clean, individual washcloths and bath towels shall be issued to each resident at least twice each week.

(9) Each resident shall be allowed to have at least eight hours of sleep each night.

(f) Personal health of staff members and volunteers.

(1) Each staff member and each volunteer shall meet the following requirements:

(A) Be free from all infectious or contagious disease requiring isolation or quarantine as specified in K.A.R. 28-1-6;

(B) be free of any physical, mental, or emotional health condition that adversely affects the individual's ability to fulfill the responsibilities listed in the individual's job description and to protect the health, safety, and welfare of the residents; and

(C) be free from impaired ability due to the use of alcohol, prescription or nonprescription drugs, or other chemicals.

(2) Each staff member and each volunteer who has contact with any resident or who is involved in food preparation or service shall have received a health assessment within one year before employment. This assessment shall be conducted by a licensed physician, a physician's assistant operating under a written protocol as authorized by a responsible physician, or a nurse authorized to conduct these assessments.

(3) The results of each health assessment shall be recorded on forms provided by the department and shall be kept in the staff member's or volunteer's record.

(4) A health assessment record may be transferred from a previous place of employment if the assessment occurred within one year before the staff member's employment at the facility and if the assessment was recorded on the form provided by the department.

(5) The initial health examination of each staff member and each volunteer shall include a tuberculosis test. If there is a positive tuberculosis test or a history of a previous positive tuberculosis test, a chest X-ray shall be required unless there is documentation of a normal chest X-ray within the last 12 months. Proof of proper treatment, according to the department's tuberculosis prevention and control program's direction, shall be required. Documentation of each tuberculosis test, X-ray, and treatment results shall be kept on file in the individual's health record.

(A) Compliance with the department's tuberculosis prevention and control program shall be required following each exposure to active tuberculosis disease. The results of tuberculosis tests, X-rays, and treatment shall be recorded in the individual's health record.

(B) Each volunteer shall present documentation showing no active tuberculosis before serving in the facility.

(6) If a staff member experiences a significant change in physical, mental, or emotional health, including showing any indication of substance abuse, an assessment of the staff member's current health status may be required by the permittee, the licensee, or the secretary. A licensed health care provider who is qualified to diagnose and treat the condition shall conduct the health assessment. A written report of the assessment shall be kept in the staff member's record and shall be submitted to the secretary on request.

(g) Each permittee and each licensee shall ensure that tobacco products are not used inside the facility. Tobacco products shall not be used by staff members or volunteers in the presence of residents. (Authorized by K.S.A. 2013 Supp. 65-508 and 65-535; implementing K.S.A. 65-507, K.S.A. 2013 Supp. 65-508, and K.S.A. 2013 Supp. 65-535; effective, T-28-12-17-13, Dec. 17, 2013; effective March 28, 2014.)

28-4-1260. Case management. Each permittee and each licensee shall ensure that case management services are provided for each resident.

(a) Each permittee and each licensee shall ensure that a case manager is assigned to provide or coordinate the case management services for each resident.

(b) Each permittee and each licensee shall ensure that a plan of care is developed and implemented for each resident with input, as appropriate, of the resident, the placing agent, the resident's parent or legal guardian, and staff members. The plan shall list goals for the resident while at the facility and upon release and shall identify the services needed by the resident to meet the goals. (Authorized by and implementing K.S.A. 2013 Supp. 65-508 and 65-535; effective, T-28-12-17-13, Dec. 17, 2013; effective March 28, 2014.)

28-4-1261. Program. (a) Policies and procedures. Each permittee and each licensee shall implement policies and procedures for the program.

(b) Daily routine. Each permittee and each licensee shall maintain a written schedule and daily routine for all residents during all waking hours, which shall include the following:

- (1) Meals;
- (2) personal hygiene;
- (3) physical exercise;
- (4) recreation;
- (5) mental health services; and
- (6) education.

(c) Rest and sleep. Each permittee and each licensee shall ensure that the daily routine includes time for rest and sleep adequate for each resident.

(d) Classroom instruction. Each permittee and each licensee shall ensure that classroom instruction is provided to each resident on-site by teachers holding appropriate licensure from the Kansas department of education.

(1) The staff members shall coordinate education services with the local school district.

(2) The staff members shall provide a regular schedule of instruction and related educational services for each resident.

(3) Direct care staff members shall be stationed in proximity to the classroom, with frequent, direct, physical observation of the classroom activity at least every 15 minutes, to provide immediate support to the teacher.

(e) Library services.

(1) Reading and other library materials shall be provided to each resident.

(2) Library materials shall be appropriate for various levels of competency.

(3) Reading material shall reflect a variety of interests.

(f) Recreation.

(1) Each facility shall have indoor and outdoor equipment and recreational areas where security and visual supervision can be easily maintained. Unless restricted for health reasons, each resident shall be allowed to engage in supervised indoor or outdoor recreation on a daily basis.

(2) Art and craft supplies, books, current magazines, games, and other indoor recreational materials shall be provided for leisure time activities.

(g) Work. Each permittee and each licensee shall ensure that the following requirements are met when residents participate in work activities:

(1) Work assignments shall not be used as a substitute for recreation.

(2) Residents shall be prohibited from performing any of the following duties:

(A) Providing personal services for the staff members;

(B) cleaning or maintaining areas away from the facility;

(C) replacing staff members; or

(D) engaging in any work classified as hazardous by the Kansas department of labor's regulations governing child labor.

(h) Plan of care. Each permittee and each licensee shall ensure that the individualized plan

of care for each resident is reviewed and updated based on the needs of the resident. In addition to the services required in subsections (b) through (g), the plan of care shall include the following:

(1) Mental health, substance abuse, and life skills training based on individual needs of the resident; and

(2) any restrictions on visitation, communication with others, or the resident's movement or activities that are required to ensure the health and safety of the resident or other residents or the security of the facility.

(i) Mental health services. Each permittee and each licensee shall ensure that mental health services are provided as needed to each resident, by a clinical director and appropriate staff members.

(j) Substance abuse screening and treatment. Each permittee and each licensee shall ensure that substance abuse screening and treatment services are provided as needed to each resident, by a substance abuse counselor and appropriate staff members.

(k) Life skills training. Each permittee and each licensee shall ensure that life skills training is provided as needed to each resident, by designated staff members. The resident's plan of care shall include the following:

(1) Life skills training appropriate to the age and developmental level of the resident, including daily living tasks, money management, and self-care;

(2) direct services, including assistance with career planning and housing; and

(3) referrals for community resources, including educational opportunities.

(l) Visitation and communication. Each permittee and each licensee shall implement policies and procedures for visitation and communication by residents with individuals outside of the facility. The policies and procedures shall include the following:

(1) Private telephone conversations and visitations shall be allowed, except when a need to protect the resident is indicated as documented in the resident's individual plan of care or as specified by court order.

(2) No resident shall be denied the right to contact an attorney or court counselor. No court counselor or attorney shall be refused visitation with a resident to whom the counselor or attorney is assigned.

(3) No staff member shall open or censor mail or written communication, unless there is reason to believe that one of the following conditions exists:

(A) The mail or communication contains items or goods that are not permitted in the facility.

(B) The security of the facility is at risk.

(C) The safety or security of the resident is at risk.

(4) The conditions under which mail or communication shall be opened by staff in the presence of the resident shall be specified.

(5) If mail or communication is to be censored, the resident shall be informed in advance.

(6) The censorship of mail or written communication shall be included in the resident's plan of care.

(7) The reason for each occasion of censorship shall be documented and kept in the resident's record.

(8) Writing materials and postage for the purposes of correspondence shall be available to each resident. Materials and postage for at least two letters each week shall be provided for each resident.

(9) First-class letters and packages shall be forwarded after the transfer or release of each resident. (Authorized by and implementing K.S.A. 2013 Supp. 65-508 and 65-535; effective, T-28-12-17-13, Dec. 17, 2013; effective March 28, 2014.)

28-4-1262. Behavior management. (a) Policies and procedures. Each permittee and each licensee shall implement policies and procedures for the behavior management of residents.

(1) Written policies shall provide for a behavior management system that assists residents to develop inner control and manage their own behavior in a socially acceptable manner. Procedures and practice shall include expectations that are age-appropriate and allow for special abilities and limitations.

(2) Written rules of conduct shall define expected behaviors.

(A) A rule book describing the expected behaviors shall be given to each resident and each direct care staff member.

(B) An acknowledgment of receipt of the rule book shall be signed by each resident and kept in each resident's file.

(C) If a literacy or language problem prevents a resident from understanding the rule book, a staff member or translator shall assist the resident in understanding the rules.

(3) Each staff member and each volunteer who has direct contact with residents shall be informed of the rules of resident conduct, the rationale for the rules, and the intervention options available

for problem or conflict resolution, diffusion of anger, and de-escalation methods.

(b) Prohibited punishment. Each permittee and each licensee shall ensure that each resident is protected against all forms of neglect, exploitation, and degrading forms of discipline.

(1) No staff member or volunteer shall use any of the following means or methods of punishment of a resident:

(A) Punishment that is humiliating, frightening, or physically harmful to the resident;

(B) corporal punishment, including hitting with the hand or any object, yanking arms or pulling hair, excessive exercise, exposure to extreme temperatures, and any other measure that produces physical pain or threatens the resident's health or safety;

(C) restricting movement by tying or binding;

(D) confining a resident in a closet, box, or locked area;

(E) forcing or withholding food, rest, or toilet use;

(F) mental and emotional cruelty, including verbal abuse, derogatory remarks about a resident or the resident's family, statements intended to shame, threaten, humiliate, or frighten the resident, and threats to expel a resident from the facility; or

(G) placing soap, or any other substance that stings, burns, or has a bitter taste, in the resident's mouth or on the tongue or any other part of the resident's body.

(2) No staff member or volunteer shall make sexual remarks or advances toward, or engage in physical intimacies or sexual activities with, any resident.

(3) No staff member or volunteer shall exercise undue influence or duress over any resident, including promoting sales of services or goods, in a manner that would exploit the resident for the purpose of financial gain, personal gratification, or advantage of the staff member, volunteer, or a third party.

(c) Medications, remedies, and drugs. Each staff member and each volunteer shall be prohibited from using medications, herbal or folk remedies, or drugs to control or manage any resident's behavior, except as prescribed by a licensed physician, a physician's assistant operating under a written protocol as authorized by a responsible physician, or an APRN operating under a written protocol as authorized by a responsible physician and operating under the APRN's scope of practice.

(d) Publicity or promotional activities. No resident shall be forced to participate in publicity or promotional activities. (Authorized by and implementing K.S.A. 2013 Supp. 65-508 and 65-535; effective, T-28-12-17-13, Dec. 17, 2013; effective March 28, 2014.)

28-4-1263. Staff member schedule; supervision of residents. (a) Staff member schedule.

(1) Each permittee and each licensee shall develop and implement a written daily staff member schedule. The schedule shall meet the requirements for the staffing ratios of direct care staff members to residents at all times.

(A) The schedule shall provide for sufficient staff members on the living unit to provide direct supervision to the residents at all times and to provide for each resident's physical, social, emotional, and educational needs.

(B) The schedule shall provide for a minimum staffing ratio of one direct care staff member on active duty to four residents during waking hours and one direct care staff member on active duty to seven residents during sleeping hours.

(C) At least one direct care staff member of the same sex as the residents shall be present, awake, and available to the residents at all times. If both male and female residents are present in the facility, at least one male and one female direct care staff member shall be present, awake, and available.

(2) At no time shall there be fewer than two direct care staff members present on the living unit when one or more residents are in care.

(3) Alternate qualified direct care staff members shall be provided for the relief of the scheduled direct care staff members on a one-to-one basis and in compliance with the staffing ratios of direct care staff members to residents.

(4) Only direct care staff members shall be counted in the required staffing ratio of direct care staff members to residents.

(b) Supervision of residents.

(1) No resident shall be left unsupervised.

(2) Electronic supervision shall not replace the ratio requirements.

(3) Staff members shall know the location of each resident at all times.

(c) Movements and activities of residents. Each permittee and each licensee shall implement policies and procedures for determining when the movements and activities of a resident could, for treatment purposes, be restricted or subject to control through increased direct supervision. (Au-

thorized by and implementing K.S.A. 2013 Supp. 65-508 and 65-535; effective, T-28-12-17-13, Dec. 17, 2013; effective March 28, 2014.)

28-4-1264. Emergency plan; safety, security, and control. (a) Emergency plan. Each permittee and each licensee shall implement an emergency plan to provide for the safety of residents, staff members, volunteers, and visitors in emergencies.

(1) The emergency plan shall include the following information:

(A) Input from local emergency response entities, including the fire departments and law enforcement;

(B) the types of emergencies likely to occur in the facility or near the facility, including fire, weather-related events, missing or runaway residents, chemical releases, utility failure, intruders, and an unscheduled closing;

(C) the types of emergencies that could require evacuating the facility and the types that could require the residents, staff members, volunteers, and visitors to shelter in place;

(D) participation in community practice drills for emergencies;

(E) procedures to be followed by staff members in each type of emergency;

(F) designation of a staff member to be responsible for each of the following:

(i) Communicating with emergency response resources, including the fire department and law enforcement;

(ii) ensuring that all residents, staff members, volunteers, and visitors are accounted for;

(iii) taking the emergency contact numbers and a cell phone; and

(iv) contacting the parent, legal guardian, or placing agent of each resident;

(G) the location and means of reaching a shelter-in-place area in the facility, including safe movement of any resident, staff member, volunteer, or visitor with special health care or mobility needs; and

(H) the location and means of reaching an emergency site if evacuating the facility, including the following:

(i) Safely transporting the residents, including residents with special health care or mobility needs;

(ii) transporting emergency supplies, including water, food, clothing, blankets, and health care supplies; and

- (iii) obtaining emergency medical care.
- (2) The emergency plan shall be kept on file in the facility.
- (3) Each staff member shall be informed of and shall follow the emergency plan.
- (4) The emergency plan shall be reviewed annually and updated as needed.
- (5) The location and means of reaching the shelter-in-place area or an emergency site if evacuating the facility shall be posted in a conspicuous place in the facility.
- (b) Fire drills. Each permittee and each licensee shall ensure that a fire drill is conducted at least quarterly and is scheduled to allow participation by each resident. The date and time of each drill shall be recorded and kept on file at the facility for one calendar year.
- (c) Tornado drills. Each permittee and each licensee shall ensure that a tornado drill is conducted at least quarterly and is scheduled to allow participation by each resident. The date and time of each drill shall be recorded and kept on file at the facility for one calendar year.
- (d) Facility security and control of residents. Each permittee and each licensee shall implement policies and procedures that include the use of a combination of direct supervision, inspection, and accountability to promote safe and orderly operations. The policies and procedures shall be developed with input from local law enforcement and shall include all of the following requirements:
 - (1) Written operational shift assignments shall state the duties and responsibilities for each assigned staff member.
 - (2) Supervisory staff shall maintain a permanent log and prepare shift reports that record routine and emergency situations.
 - (3) All security devices, including locking mechanisms on doors and any delayed-exit mechanisms on doors, shall have current written approval from the state fire marshal and shall be regularly inspected and maintained, with any corrective action completed as necessary and recorded.
 - (4) The use of mace, pepper spray, and other chemical agents shall be prohibited.
 - (5) No resident shall have access to any weapons.
 - (6) Provisions shall be made for the control and use of keys, tools, medical supplies, and culinary equipment.
 - (7) No resident or group of residents shall exercise control or authority over another resident, have access to the records of another resident, or have access to or the use of keys that control security.
 - (8) Provisions shall be made for handling run-aways and unauthorized absences of residents.
 - (9) Provisions shall be made for safety and security precautions pertaining to any vehicles used to transport residents.
 - (10) Provisions shall be made for the prosecution of any illegal act committed while the resident is in care.
 - (11) Provisions shall be made for documentation of all incidents, including riots and the taking of hostages.
 - (A) A written report of each incident shall be submitted to the administrator no later than the end of the shift during which the incident occurred. A copy of each report shall be kept in the record of each resident involved in the incident.
 - (B) A report of each incident shall be made as required in K.A.R. 28-4-1257.
 - (12) Provisions shall be made for the control of prohibited items and goods, including the screening and searches of residents and visitors and searches of rooms, spaces, and belongings.
 - (13) Requirements shall be included for 24-hour-a-day observation of all facility entrances and exits by an auxiliary staff member.
 - (e) Storage and use of hazardous substances and unsafe items. Each permittee and each licensee shall ensure that the following requirements are met for storage and use of hazardous substances and unsafe items:
 - (1) No resident shall have unsupervised access to poisons, hazardous substances, or flammable materials. These items shall be kept in locked storage when not in use.
 - (2) Provisions shall be made for the safe and sanitary storage and distribution of personal care and hygiene items. The following items shall be stored in an area that is either locked or under the control of staff members:
 - (A) Aerosols;
 - (B) alcohol-based products;
 - (C) any products in glass containers; and
 - (D) razors, blades, and any other sharp items.
 - (3) Policies and procedures shall be developed and implemented for the safe storage and disposal of prescription and nonprescription medications.
 - (A) All prescription and nonprescription medications shall be stored in a locked cabinet located in a designated area accessible to and supervised by only staff members.
 - (B) All refrigerated medications shall be stored under all food items in a locked refrigerator, in a

refrigerator in a locked room, or in a locked medicine box in a refrigerator.

(C) Medications taken internally shall be kept separate from other medications.

(D) All unused medications shall be accounted for and disposed of in a safe manner, including being returned to the pharmacy, transferred with the resident, or safely discarded.

(4) Each facility shall have first-aid supplies, which shall be stored in a locked cabinet located in a designated area accessible to and supervised by only staff members. First-aid supplies shall include the following supplies:

- (A) Assorted adhesive strip bandages;
- (B) adhesive tape;
- (C) a roll of gauze;
- (D) scissors;
- (E) a package of gauze squares;
- (F) liquid soap;
- (G) an elastic bandage;
- (H) tweezers;
- (I) rubbing alcohol; and

(J) disposable nonporous gloves in assorted sizes. (Authorized by and implementing K.S.A. 2013 Supp. 65-508 and 65-535; effective, T-28-12-17-13, Dec. 17, 2013; effective March 28, 2014.)

28-4-1265. Environmental requirements.

(a) General building requirements.

(1) Each applicant, each permittee, and each licensee shall ensure that the facility is connected to public water and sewage systems, where available. If public water and sewage systems are not available, each applicant shall obtain approval for any private water and sewage systems by the health authorities having jurisdiction over private water and sewage systems where the facility is located.

(2) A licensed architect shall be responsible for the plans for any newly constructed building or for any major addition or major alteration to an existing building.

(A) For a new building, preliminary plans and outline specifications, including plot plans, shall be submitted to the department for review before beginning the final working drawings and specifications. Each applicant, each permittee, and each licensee shall submit the final working drawings, construction specifications, and plot plans to the department for review and written approval before the letting of contracts.

(B) For an addition or alteration to an existing building, each applicant, each permittee, and each

licensee shall submit a written statement defining the proposed use of the construction and detailing the plans and specifications to the department for review and written approval before beginning construction.

(C) If construction is not begun within one year of submitting a proposal for a new building or an addition or alteration to an existing building, each licensee shall resubmit the plans and proposal to the department before proposed construction begins.

(b) Location and grounds requirements. Each permittee and each licensee shall ensure that the following requirements are met for the location and grounds of the facility:

(1) Community resources, including health services, police protection, and fire protection from an organized fire department, shall be available.

(2) There shall be at least 100 square feet of outside activity space available for each resident allowed to utilize each outdoor area at any one time.

(3) The outside activity area shall be free of physical hazards.

(4) Residents of the facility shall not share space with another child care facility for any indoor or outdoor activities.

(c) Swimming pools. Each permittee and each licensee shall ensure that the following requirements are met if a swimming pool is located on the premises:

(1) The pool shall be constructed, maintained, and used in a manner that safeguards the lives and health of the residents.

(2) Legible safety rules shall be posted for the use of a swimming pool in a conspicuous location. If the pool is available for use, each permittee and each licensee shall read and review the safety rules weekly with each resident.

(3) An individual with a lifesaving certificate shall be in attendance when residents are using a swimming pool.

(4) Each inground swimming pool shall be enclosed by a fence at least five feet high. Each gate in the fence shall be kept closed and shall be self-locking. The wall of a building containing a window designed to open or a door shall not be used in place of any side of the fence.

(5) Each aboveground swimming pool shall be at least four feet high or shall be enclosed by a fence at least five feet high with a gate that is kept closed and is self-locking. Steps shall be removed and stored away from the pool when the pool is not in use. Each aboveground pool with a deck

or berm that provides a ground-level entry on any side shall be treated as an in-ground pool.

(6) Sensors shall not be used in place of a fence.

(7) The water shall be maintained between pH 7.2 and pH 7.8. The water shall be disinfected by free available chlorine between 1.0 parts per million and 3.0 parts per million, by bromine between 1.0 parts per million and 6.0 parts per million, or by an equivalent agent approved by the local health department.

(8) If a stabilized chlorine compound is used, the pH shall be maintained between 7.2 and 7.7 and the free available chlorine residual shall be at least 1.50 parts per million.

(9) The pool shall be cleaned and the chlorine or equivalent disinfectant level and pH level shall be tested every two hours during periods of use.

(10) The water temperatures shall be maintained at no less than 82 degrees Fahrenheit and no more than 88 degrees Fahrenheit while the pool is in use.

(11) Each swimming pool more than six feet in width, length, or diameter shall be equipped with either a ring buoy and rope or a shepherd's hook. The equipment shall be of sufficient length to reach the center of the pool from each edge of the pool.

(d) Structural requirements and use of space. Each permittee and each licensee shall ensure that the facility design, structure, interior and exterior environment, and furnishings promote a safe, comfortable, and therapeutic environment for the residents.

(1) Each facility shall be accessible to and usable by individuals with disabilities.

(2) Each facility's structural design shall facilitate personal contact and interaction between staff members and residents.

(3) Each sleeping room shall meet the following requirements:

(A) Each room shall be assigned to and occupied by only one resident.

(B) No resident's room shall be in a basement.

(C) The minimum square footage of floor space shall be 80 square feet. At least one dimension of the usable floor space unencumbered by furnishings or fixtures shall be at least seven feet.

(D) The minimum ceiling height shall be seven feet eight inches over at least 90 percent of the room area.

(E) An even temperature of between 68 degrees Fahrenheit and 78 degrees Fahrenheit shall be maintained, with an air exchange of at least four times each hour.

(F) Each sleeping room shall have a source of natural light.

(G) Access to a drinking water source and toilet facilities shall be available 24 hours a day.

(H) A separate bed with a level, flat mattress in good condition shall be provided for each resident. All beds shall be above the floor level.

(I) Clean bedding, adequate for the season, shall be provided for each resident. Bed linen shall be changed at least once a week or, if soiled, more frequently.

(4) Adequate space for study and recreation shall be provided.

(5) Each living unit shall contain the following:

(A) Furnishings that provide sufficient seating for the maximum number of residents expected to use the area at any one time;

(B) writing surfaces that provide sufficient space for the maximum number of residents expected to use the area at any one time; and

(C) furnishings that are consistent with the needs of the residents.

(6) Each facility shall have adequate central storage for household supplies, bedding, linen, and recreational equipment.

(7) If a facility has one or more dayrooms, each dayroom shall provide space for a variety of resident activities. Dayrooms shall be situated immediately adjacent to the residents' sleeping rooms, but separated from the sleeping rooms by a floor-to-ceiling wall. Each dayroom shall provide at least 35 square feet for each resident, exclusive of lavatories, showers, and toilets, for the maximum number of residents expected to use the dayroom area at any one time.

(8) Each room used for sports and other physical activities shall provide floor space equivalent to at least 100 square feet for each resident utilizing the room for those purposes at any one time.

(9) Sufficient space shall be provided for visitation between residents and visitors. The facility shall have space for the screening and search of residents and visitors, if screening and search are included in the facility's policies and procedures. Private space shall be available for searches as needed. Storage space shall be provided for the secure storage of visitors' coats, handbags, and other personal items not allowed into the visitation area.

(10) A working telephone shall be accessible to staff members in all areas of the building. Emergency numbers, including those for the fire department, the police, a hospital, a physician, the

poison control center, and an ambulance, shall be posted by each telephone.

(11) A service sink and a locked storage area for cleaning supplies shall be provided in a room or closet that is well ventilated and separate from kitchen and living areas.

(e) Bathrooms and drinking water. Each permittee and each licensee shall ensure that the following requirements are met for bathrooms and drinking water at the facility:

(1) For each eight or fewer residents of each sex, at least one toilet, one lavatory, and either a bathtub or a shower shall be provided. All toilets shall be above floor level.

(2) Each bathroom shall be ventilated to the outdoors by means of either a window or a mechanical ventilating system.

(3) Toilet and bathing accommodations and drinking water shall be in a location accessible to sleeping rooms and living and recreation rooms.

(4) Drinking water and at least one bathroom shall be accessible to the reception and admission areas.

(5) Cold water and hot water not exceeding 120 degrees Fahrenheit shall be supplied to lavatories, bathtubs, and showers.

(6) Liquid soap, toilet paper, and paper towels shall be available in all bathrooms.

(f) Building maintenance standards. Each permittee and each licensee shall ensure that the following requirements are met for building maintenance of the facility:

(1) Each building shall be clean at all times and free from vermin infestation.

(2) The walls shall be smooth, easily cleanable, and sound. Lead-free paint shall be used on all painted surfaces.

(3) The floors and walking surfaces shall be kept free of hazardous substances at all times.

(4) The floors shall not be slippery or cracked.

(5) Each rug or carpet used as a floor covering shall be slip-resistant and free from tripping hazards. A floor covering, paint, or sealant shall be required over concrete floors for all buildings used by the residents.

(6) All bare floors shall be swept and mopped daily.

(7) A schedule for cleaning each building shall be established and maintained.

(8) Washing aids, including brushes, dish mops, and other hand aids used in dishwashing activities, shall be clean and used for no other purpose.

(9) Mops and other cleaning tools shall be

cleaned and dried after each use and shall be hung on racks in a well-ventilated place.

(10) Pesticides and any other poisons shall be used in accordance with the product instructions. These substances shall be stored in a locked area.

(11) Toilets, lavatories, sinks, and other such accommodations in the living areas shall be cleaned each day. (Authorized by and implementing K.S.A. 2013 Supp. 65-508 and 65-535; effective, T-28-12-17-13, Dec. 17, 2013; effective March 28, 2014.)

28-4-1266. Food services. Each permittee and each licensee shall ensure that food preparation, service, safety, and nutrition meet the requirements of this regulation. For purposes of this regulation, "food" shall include beverages.

(a) Sanitary practices. Each individual engaged in food preparation and food service shall use sanitary methods of food handling, food service, and storage.

(1) Only authorized individuals shall be in the food preparation area.

(2) Each individual who has any symptoms of an illness, including fever, vomiting, and diarrhea, shall be excluded from the food preparation area and shall remain excluded from the food preparation area until the individual has been asymptomatic for at least 24 hours or provides the administrator with written documentation from a health care provider stating that the symptoms are from a noninfectious condition.

(3) Each individual who contracts any infectious or contagious disease specified in K.A.R. 28-1-6 shall be excluded from the food preparation area and shall remain excluded from the food preparation area until the isolation period required for that disease is over or until the individual provides the administrator with written documentation from a health care provider that the individual is no longer a threat to the health and safety of others when preparing or handling food.

(4) Each individual with an open cut or abrasion on the hand or forearm or with a skin sore shall cover the sore, cut, or abrasion with a bandage before handling or serving food.

(5) The hair of each individual shall be restrained when the individual is handling food.

(6) Each individual handling or serving food shall comply with both of the following requirements for handwashing:

(A) Each individual shall wash that individual's hands and exposed portions of the individual's

arms before working with food, after using the toilet, and as often as necessary to keep the individual's hands clean and to minimize the risk of contamination.

(B) Each individual shall use an individual towel, disposable paper towels, or an air dryer to dry that individual's hands.

(7) Each individual preparing or handling food shall minimize bare hand and bare arm contact with exposed food that is not in a ready-to-eat form.

(8) Except when washing fruits and vegetables, no individual handling or serving food may contact exposed, ready-to-eat food with the individual's bare hands.

(9) Each individual shall use single-use gloves, food-grade tissue paper, dispensing equipment, or utensils, including spatulas and tongs, when handling or serving exposed, ready-to-eat food.

(b) Nutrition.

(1) The meals and snacks shall meet the nutritional needs of the residents. The meals and snacks shall include a variety of healthful foods, including fresh fruits, fresh vegetables, whole grains, lean meats, and low-fat dairy products. A sufficient quantity of food shall be prepared for each meal to allow each resident second portions of bread and milk and either vegetables or fruit.

(2) Special diets shall be provided for residents for either of the following reasons:

(A) Medical indication; or

(B) accommodation of religious practice.

(3) Each meal shall be planned and the menu shall be posted at least one week in advance. A copy of the menu of each meal served for the preceding month shall be kept on file and available for inspection.

(c) Food service and preparation areas. If food is prepared on the facility premises, the food preparation area shall be separate from the eating area, activity area, laundry area, and bathrooms and shall not be used as a passageway during the hours of food preparation and cleanup.

(1) All surfaces used for food preparation and tables used for eating shall be made of smooth, nonporous material.

(2) Before and after each use, all food preparation surfaces shall be cleaned with soapy water and sanitized by use of a solution of one ounce of bleach to one gallon of water or a sanitizing solution used in accordance with the manufacturer's instructions.

(3) Before and after each use, the tables used for eating shall be cleaned by washing with soapy water.

(4) All floors shall be swept daily and mopped when spills occur.

(5) Garbage shall be disposed of in a garbage disposal or in a covered container. If a container is used, the garbage shall be removed at the end of each day or more often as needed to prevent overflow or to control odor.

(6) Each food preparation area shall have handwashing fixtures equipped with soap and hot and cold running water and with individual towels, paper towels, or air dryers. Each sink used for handwashing shall be equipped to provide water at a temperature of at least 100 degrees Fahrenheit. The water temperature shall not exceed 120 degrees Fahrenheit.

(A) If the food preparation sink is used for handwashing, the sink shall be sanitized before using it for food preparation by use of a solution of $\frac{1}{4}$ cup of bleach to one gallon of water.

(B) Each facility with 25 or more residents shall be equipped with handwashing fixtures that are separate from the food preparation sink.

(7) Clean linen used for food preparation or service shall be stored separately from soiled linen.

(d) Food storage and refrigeration. All food shall be stored and served in a way that protects the food from cross-contamination.

(1) Nonrefrigerated food.

(A) All food not requiring refrigeration shall be stored at least six inches above the floor in a clean, dry, well-ventilated storeroom or cabinet in an area with no overhead drain or sewer lines and no vermin infestation.

(B) Dry bulk food that has been opened shall be stored in metal, glass, or food-grade plastic containers with tightly fitting covers and shall be labeled with the contents and the date opened.

(C) Food shall not be stored with poisonous or toxic materials. If cleaning agents cannot be stored in a room separate from food storage areas, the cleaning agents shall be clearly labeled and kept in locked cabinets not used for the storage of food.

(2) Refrigerated and frozen food.

(A) All perishables and potentially hazardous foods requiring refrigeration shall be continuously maintained at 41 degrees Fahrenheit or lower in the refrigerator or 0 degrees Fahrenheit in the freezer.

(B) Each refrigerator and each freezer shall be equipped with a visible, accurate thermometer.

(C) Each refrigerator and each freezer shall be kept clean inside and out.

(D) All food stored in the refrigerator shall be covered, wrapped, or otherwise protected from contamination. Unserved, leftover perishable foods shall be dated, refrigerated immediately after service, and eaten within three days.

(E) Raw meat shall be stored in the refrigerator in a manner that prevents meat fluids from dripping on other foods.

(F) Ready-to-eat, commercially processed foods, including luncheon meats, cream cheese, and cottage cheese, shall be eaten within five days after opening the package.

(3) Hot foods.

(A) Hot foods that are to be refrigerated shall be transferred to shallow containers in layers less than three inches deep and shall not be covered until cool.

(B) Potentially hazardous cooked foods shall be cooled in a manner to allow the food to cool within two hours from 135 degrees Fahrenheit to 70 degrees Fahrenheit or within six hours from 135 degrees Fahrenheit to 41 degrees Fahrenheit.

(e) Meals or snacks prepared on the premises.

(1) All of the following requirements shall be met when meals or snacks are prepared on the facility premises:

(A) All dairy products shall be pasteurized. Powdered milk shall be used for cooking only.

(B) Meat shall be obtained from government-inspected sources.

(C) Raw fruits and vegetables shall be washed thoroughly before being eaten or used for cooking.

(D) Frozen foods shall be defrosted in the refrigerator, under cold running water, in a microwave oven using the defrost setting, or during the cooking process. Frozen foods shall not be defrosted by leaving them at room temperature or in standing water.

(E) Cold foods shall be maintained and served at temperatures of 41 degrees Fahrenheit or less.

(F) Hot foods shall be maintained and served at temperatures of at least 140 degrees Fahrenheit.

(2) The following foods shall not be served or kept:

(A) Home-canned food;

(B) food from dented, rusted, bulging, or leaking cans; and

(C) food from cans without labels.

(f) Meals or snacks catered. The following requirements shall be met for each meal or snack that is not prepared on the facility premises:

(1) The snack or meal shall be obtained from a child care facility licensed by the department or

from a food service establishment or a catering service licensed by the secretary of the Kansas department of agriculture.

(2) If food is transported to the facility, only food that has been transported promptly in clean, covered containers shall be served to the residents.

(g) Table service and cooking utensils.

(1) All of the table service, serving utensils, and food cooking or serving equipment shall be stored in a clean, dry location at least six inches above the floor. None of these items shall be stored under an exposed sewer line or a dripping water line or in a bathroom.

(2) Clean table service shall be provided to each resident, including dishes, cups or glasses, and forks, spoons, and knives, as appropriate for the food being served.

(A) Clean cups, glasses, and dishes designed for repeat use shall be made of smooth, durable, and nonabsorbent material and shall be free from cracks or chips.

(B) Disposable, single-use table service shall be of food grade and medium weight and shall be disposed of after each use.

(3) If nondisposable table service and cooking utensils are used, the table service and cooking utensils shall be sanitized using either a manual washing method or a mechanical dishwasher.

(A) If using a manual washing method, all of the following requirements shall be met:

(i) A three-compartment sink with hot and cold running water to each compartment and a drainboard shall be used for washing, rinsing, sanitizing, and air-drying.

(ii) An appropriate chemical test kit, a thermometer, or another device shall be used for testing the sanitizing solution and the water temperature.

(B) If using a mechanical dishwasher, the dishwasher shall be installed and operated in accordance with the manufacturer's instructions and shall be maintained in good repair. (Authorized by and implementing K.S.A. 2013 Supp. 65-508; effective, T-28-12-17-13, Dec. 17, 2013; effective March 28, 2014.)

28-4-1267. Laundry. (a) If laundry is done at the facility, each permittee and each licensee shall ensure that the laundry sinks, the appliances, and the countertops or tables used for laundry are located in an area separate from food preparation areas and are installed and used in a manner that safeguards the health and safety of the residents. Adequate space shall be allocated for the laundry

room and the storage of laundry supplies, including locked storage for all chemical agents used in the laundry area.

(b) Each permittee and each licensee shall ensure that adequate space is allocated for the storage of clean and dirty linen and clothing. Soiled linen shall be stored separately from clean linen.

(c) Each permittee and each licensee shall ensure that blankets are laundered at least once each month or, if soiled, more frequently. Blankets shall be laundered or sanitized before reissue.

(d) Each permittee and each licensee shall ensure that each mattress is water-repellent and washed down and sprayed with disinfectant before reissue. The mattress materials and treatments shall meet the applicable requirements of the state fire marshal's regulations. (Authorized by and implementing K.S.A. 2013 Supp. 65-508; effective, T-28-12-17-13, Dec. 17, 2013; effective March 28, 2014.)

28-4-1268. Transportation. Each permittee and each licensee shall ensure that all of the following requirements are met when providing transportation for residents:

(a) Each permittee and each licensee shall implement policies and procedures for transportation of residents, including the following:

(1) Procedures to be followed in case of an accident, injury, or other incident as specified in K.A.R. 28-4-1257;

(2) a list of all staff members authorized to transport residents; and

(3) for each staff member authorized to transport residents, documentation of a valid driver's license that meets the requirements of the Kansas motor vehicle drivers' license act, K.S.A. 8-234a et seq. and amendments thereto.

(b) Each permittee and each licensee shall ensure that a safety check is performed on each transporting vehicle before being placed in service and annually. A record of each safety check and all repairs and improvements made shall be kept on file at the facility. When any resident is transported in a privately owned vehicle, the vehicle shall be in safe working condition.

(c) Each vehicle used to transport any resident shall be covered by accident and liability insurance as required by the state of Kansas.

(d) Each transporting vehicle owned or leased by the facility shall have a first-aid kit, which shall include disposable nonporous gloves, a cleansing agent, scissors, bandages of assorted sizes, adhe-

sive tape, a roll of gauze, one package of gauze squares at least four inches by four inches in size, and one elastic bandage.

(e) Each vehicle used to transport any resident shall be equipped with an individual seat belt for the driver and an individual seat belt for each passenger. The driver and each passenger shall be secured by a seat belt when the vehicle is in motion.

(f) The health and safety of the residents riding in any vehicle shall be protected.

(1) All passenger doors shall be locked while the vehicle is in motion.

(2) Order shall be maintained at all times. The driver shall be responsible for ensuring that the vehicle is not in motion if the behavior of the occupants prevents the safe operation of the vehicle.

(3) All parts of each resident's body shall remain inside the vehicle at all times.

(4) Residents shall neither enter nor exit the vehicle from or into a lane of traffic.

(5) When the vehicle is vacated, the driver shall make certain that no resident is left in the vehicle.

(6) Smoking in the vehicle shall be prohibited.

(7) Medical and surgical consent forms and health assessment records shall be in the vehicle if a resident is transported 60 miles or more from the facility.

(g) Each resident shall be transported directly to the location designated by the permittee or the licensee. No unauthorized stops shall be made along the way, except in an emergency. (Authorized by and implementing K.S.A. 2013 Supp. 65-508; effective, T-28-12-17-13, Dec. 17, 2013; effective March 28, 2014.)

28-4-1269. Animals. Each permittee and each licensee shall ensure that the following requirements are met for any animals on the facility premises:

(a) If any animals are kept on the facility premises, the pet area shall be maintained in a sanitary manner, with no evidence of flea, tick, or worm infestation.

(b) No animal shall be in the food preparation area.

(c) Each domesticated dog and each domesticated cat shall have a current rabies vaccination given by a veterinarian. A record of all vaccinations shall be kept on file in the facility.

(d) Each permittee and each licensee shall ensure that each animal that is in contact with any resident meets the following conditions:

(1) Is in good health, with no evidence of disease; and

(2) is friendly and poses no threat to the health, safety, and welfare of residents. (Authorized by and implementing K.S.A. 2013 Supp. 65-508; effective, T-28-12-17-13, Dec. 17, 2013; effective March 28, 2014.)

28-4-1300. Definitions. For the purposes of K.A.R. 28-4-1300 through K.A.R. 28-4-1318, the following terms shall have the meanings specified in this regulation:

(a) “Apgar scores” means a measure of a newborn’s physical condition at one, five, and 10 minutes after birth.

(b) “Applicant” means a person who has applied for a license but who has not yet been granted a license to operate a birth center. This term shall include an applicant who has been granted a temporary permit to operate a birth center.

(c) “Birthing room” means a room designed, equipped, and arranged to provide for the care of a patient, a newborn, and the patient’s support person or persons during and following childbirth.

(d) “Certified midwife” means an individual who is educated in the discipline of midwifery and who is currently certified by the American college of nurse-midwives or the American midwifery certification board, inc.

(e) “Certified nurse-midwife” means an individual who meets the following requirements:

(1) Is educated in the two disciplines of nursing and midwifery;

(2) is currently certified by the American college of nurse-midwives or the American midwifery certification board, inc; and

(3) has a current nursing license in Kansas.

(f) “Certified professional midwife” means an individual who is educated in the discipline of midwifery and who is currently certified by the North American registry of midwives.

(g) “Clinical director” means an individual who is appointed by the licensee and is responsible for the direction and oversight of clinical services at a birth center as specified in K.A.R. 28-4-1305.

(h) “Clinical staff member” means an individual employed by or serving as a consultant to the birth center who is one of the following:

(1) The clinical director or acting clinical director;

(2) a licensed physician;

(3) a certified nurse-midwife;

(4) a certified professional midwife;

(5) a certified midwife; or

(6) a registered professional nurse.

(i) “Department” means Kansas department of health and environment.

(j) “Exception” means a waiver of an applicant’s or a licensee’s compliance with a specific birth center regulation or any portion of a specific birth center regulation, granted by the secretary to the applicant or licensee.

(k) “License capacity” means the maximum number of patients that can be cared for in a birth center during labor, delivery, and recovery.

(l) “Licensee” means a person who has been granted a license to operate a birth center.

(m) “Maternity center” has the meaning specified in K.S.A. 65-502, and amendments thereto, and may also be referred to as a “birth center.”

(n) “Normal, uncomplicated delivery” means a delivery that results in a vaginal birth and that does not require the use of general, spinal, or epidural anesthesia.

(o) “Normal, uncomplicated pregnancy” means a pregnancy that is initially determined to be at a low risk for a poor pregnancy outcome and that remains at a low risk throughout the pregnancy.

(p) “Patient” means a woman who has been accepted for services at a birth center during pregnancy, labor, delivery, and recovery.

(q) “Poor pregnancy outcome” means any outcome other than a live, healthy patient and newborn.

(r) “Premises” means the location, including each building and any adjoining grounds, of a birth center.

(s) “Secretary” means secretary of the Kansas department of health and environment. (Authorized by K.S.A. 65-508 and 65-510; implementing K.S.A. 65-502 and 65-508; effective July 9, 2010.)

28-4-1301. Applicant and licensee requirements. (a) Each applicant, if an individual, shall be at least 21 years of age at the time of application.

(b) Each applicant and each licensee, if a corporation, shall be in good standing with the Kansas secretary of state. (Authorized by K.S.A. 65-508; implementing K.S.A. 65-504 and 65-508; effective July 9, 2010.)

28-4-1302. Application procedures. (a) Each person, in order to obtain a license, shall submit a complete application on the form provided by the department. The application shall

be submitted at least 90 calendar days before the planned opening date of the birth center and shall include all of the following:

- (1) A detailed description of the services to be provided;
- (2) a detailed floor plan and site plan for the premises to be licensed; and
- (3) the nonrefundable license fee specified in K.A.R. 28-4-92.

(b) At the time of the initial inspection, each applicant shall have the following information on file:

(1) Written verification from the applicable local authorities showing that the premises are in compliance with all local codes and ordinances, including all building, fire, and zoning requirements;

(2) written verification from the state fire marshal showing that the premises are in compliance with all applicable fire codes and regulations;

(3) written verification from local or state authorities showing that the private water supply and sewerage systems conform to all state and local laws; and

(4) documentation of the specific arrangements that have been made for the removal of biomedical waste and human tissue from the premises.

(c) The granting of a license to any applicant may be refused by the secretary if the applicant is not in compliance with the requirements of the following:

(1) K.S.A. 65-504 through 65-508, and amendments thereto;

(2) K.S.A. 65-512 and 65-513, and amendments thereto;

(3) K.S.A. 65-531, and amendments thereto; and

(4) all regulations governing birth centers. (Authorized by K.S.A. 65-508; implementing K.S.A. 65-501, 65-504, 65-505, and 65-508; effective July 9, 2010.)

28-4-1303. Terms of a temporary permit or a license. (a) License capacity. The maximum number of patients authorized by a temporary permit or a license shall not be exceeded.

(b) Posting temporary permit or license. The current temporary permit or the current license shall be posted conspicuously within the birth center.

(c) Validity of temporary permit or a license. Each temporary permit or license shall be valid for the applicant or licensee and the address specified

on the temporary permit or the license. When an initial or amended license becomes effective, all temporary permits or licenses previously granted to the applicant or licensee at the same address shall become invalid.

(d) Advertising. The advertising for each birth center shall conform to the statement of services included with the application. A claim for specialized services, even if specified on the application for a birth center, shall not be made unless the birth center is staffed and equipped to offer those services. No general claim of being “state-approved” shall be made until the applicant has been issued a temporary permit or a license by the secretary.

(e) Withdrawal of application or request to close. Any applicant may withdraw the application for a license. Any licensee may, at any time, request to close a birth center. If an application is withdrawn or a birth center is closed, each temporary permit or license granted for that birth center shall become invalid. (Authorized by K.S.A. 65-508; implementing K.S.A. 65-504 and 65-508; effective July 9, 2010.)

28-4-1304. Temporary permit or license; amended license; exceptions; notification; renewal. (a) Temporary permit or license required. Each person shall obtain a temporary permit or a license from the secretary to operate a birth center before providing any birth center services.

(b) New temporary permit or license required. Each applicant or licensee shall submit a new application, the required verifications and documentation, and license fee and shall obtain a temporary permit or a license from the secretary under any of the following circumstances:

(1) Before a birth center that has been closed is reopened;

(2) if there is a change in the location of the birth center; or

(3) if there is a change of ownership of the birth center.

(c) Amended license.

(1) Any licensee may submit a request for an amended license. Each licensee who intends to change the terms of the license, including the maximum number of patients to be served, shall submit a request for an amended license on a form provided by the department and a nonrefundable amendment fee of \$35. An amendment fee shall not be required if the request to change the terms of the license is made at the time of the renewal.

(2) The licensee shall make no change to the terms of the license unless permission is granted, in writing, by the secretary. If granted, the licensee shall post the amended license, and the previous license shall no longer be in effect.

(d) Exceptions.

(1) Any applicant or licensee may request an exception from the secretary. Any request for an exception may be granted if the secretary determines that the exception is in the best interest of one or more patients or newborns and the exception does not violate statutory requirements.

(2) Written notice from the secretary stating the nature of the exception and the duration of the exception shall be kept on file at the birth center and shall be readily accessible to the department.

(e) Notification. Each applicant and each licensee shall notify the secretary, in writing, before changing any of the following:

(1) The clinical services or activities offered by the birth center;

(2) the physical structure of the birth center due to new construction or substantial remodeling; or

(3) the use of any part of the premises that affects the use of the space or affects the license capacity.

(f) Renewal. No earlier than 90 days before but no later than the renewal date, each licensee wishing to renew the license shall submit the following:

(1) The nonrefundable license fee specified in K.A.R. 28-4-92; and

(2) an application to renew the license on the form provided by the department.

(g) Late renewal. Failure to submit the renewal application and fee as required by subsection (f) shall result in an assessment of a late renewal fee specified in K.S.A. 65-505, and amendments thereto, and may result in closure of the birth center.

(h) Copy of current regulations. A copy of the current Kansas administrative regulations governing birth centers shall be kept on the premises and shall be available to all employees. (Authorized by K.S.A. 65-508; implementing K.S.A. 65-504, 65-505, and 65-508; effective July 9, 2010.)

28-4-1305. Administration. (a) Each licensee shall be responsible for the operation of the birth center, including the following:

(1) Establishing and maintaining a written organizational plan, including an organizational chart designating the lines of authority;

(2) providing employees, facilities, equipment, supplies, and services to patients, newborns, and families;

(3) developing and implementing administrative policies and procedures for the operation of the birth center;

(4) developing and implementing policies and procedures for quality assurance;

(5) appointing an administrator to oversee the operation of the birth center;

(6) appointing a clinical director and hiring employees;

(7) appointing an acting clinical director to provide direction and oversight of clinical services in the absence of the clinical director; and

(8) documenting all of the information specified in this subsection.

(b) Each licensee shall ensure that all birth center contracts, agreements, policies, and procedures are reviewed annually and updated as needed.

(c) Each licensee shall ensure the development and implementation of written policies that set out the necessary qualifications for each position and govern employee selection. A job description for each position shall be available at the birth center.

(d) Each licensee shall ensure that all employees are informed of and follow all written policies, procedures, and clinical protocols necessary to carry out their job duties.

(e) Each administrator shall oversee the daily operation and maintenance of the birth center and implement the policies and procedures in compliance with licensing requirements for birth centers.

(f) Each clinical director shall provide direction and oversight of clinical services, including the development and implementation of policies, procedures, and signed protocols regarding all matters related to the medical management of pregnancy, birth, postpartum care, newborn care, and gynecologic health care.

(g) Each licensee shall develop and implement written policies and procedures regarding a patient's options for the disposition or taking of fetal remains if a fetal death occurs. (Authorized by K.S.A. 65-508; implementing K.S.A. 65-508 and K.S.A. 2009 Supp. 65-67a10; effective July 9, 2010.)

28-4-1306. Clinical staff member qualifications; employee schedules; training. (a) Clinical staff member qualifications. Each licens-

ee shall ensure that the following requirements for the clinical staff members are met:

(1) The clinical director and the acting clinical director shall be one of the following:

(A) A physician with a current license to practice in Kansas; or

(B) a certified nurse-midwife.

(2) Each clinical staff member attending labor and delivery shall meet the following qualifications:

(A) Practice within the scope of the clinical staff member's training and experience; and

(B) hold, at a minimum, current certification in adult CPR equivalent to American heart association class C basic life support and current certification in neonatal CPR equivalent to that of the American academy of pediatrics or the American heart association.

(b) Employee schedules.

(1) Each licensee shall ensure that there are sufficient qualified employees on duty and on call for the safe maintenance and operation of the birth center and for the provision of clinical services.

(2) Each licensee shall ensure that a written work schedule is readily accessible to all employees.

(c) Training.

(1) Each licensee shall develop and provide an orientation for all new employees and ongoing in-service training for all employees that shall meet the following requirements:

(A) Is based on individual job duties and responsibilities;

(B) is designed to meet individual employee training needs; and

(C) is designed to maintain the knowledge and skills necessary to ensure compliance with policies, procedures, and clinical protocols of the birth center.

(2) Orientation and in-service training shall include the following:

(A) Emergency clinical procedures;

(B) recognition of the signs and symptoms of infectious diseases, infection control, and universal precautions;

(C) recognition of signs and symptoms of domestic violence; and

(D) recognition of the signs and symptoms and the reporting of child abuse and neglect.

(3) The documentation of the orientation and the in-service training shall be maintained in each employee's individual record. (Authorized by and implementing K.S.A. 65-508; effective July 9, 2010.)

28-4-1307. Records. (a) Policies and procedures. Each licensee shall ensure that there is an organized recordkeeping system, with policies and procedures that provide for identification, security, confidentiality, control, retrieval, and preservation of all employee records, patient records, and birth center information. All records shall be available at the birth center for review by the secretary.

(b) Employee records. Each licensee shall ensure that an individual record is maintained at the birth center for each employee that includes the following information:

(1) A description of the terms of employment or the volunteer agreement and a copy of the job description;

(2) a copy of the job application detailing the employee's qualifications and employment dates;

(3) copies of current professional licenses, certifications, or registrations;

(4) documentation of the results of any health assessments and tuberculin tests specified in K.A.R. 28-4-1312;

(5) documentation of the orientation and the inservice training specified in K.A.R. 28-4-1306; and

(6) documentation that each employee has access to the following:

(A) The current regulations governing birth centers; and

(B) the birth center policies, procedures, and clinical protocols.

(c) Patient records.

(1) Each licensee shall ensure that a current and complete clinical record for each patient accepted for care in the birth center includes the following:

(A) Identifying information, including the patient's name, address, and telephone number;

(B) documentation of the initial history and physical examination, including laboratory findings and dates;

(C) a signed and dated informed consent form;

(D) all obstetrical risk assessments, including the dates of the assessments;

(E) documentation of instruction and education related to the childbearing process;

(F) the date and time of the onset of labor;

(G) the course of labor, including all pertinent examinations and findings;

(H) the exact date and time of birth, the presenting part of the newborn's body, the sex of the newborn, the numerical order of birth in the event of more than one newborn, and the Apgar scores;

(I) the time of expulsion and the condition of the placenta;

(J) all treatments rendered to the patient and newborn, including prescribing medications and the time, type, and dose of eye prophylaxis;

(K) documentation of metabolic and any other screening tests completed by a clinical staff member;

(L) the condition of the patient and newborn, including any complications and action taken at the birth center;

(M) all medical consultations concerning the patient and the newborn;

(N) all referrals for medical care and transfers to medical care facilities, including the reasons for each referral or transfer;

(O) the results of all examinations of the newborn and of the postpartum patient; and

(P) the written instructions given to the patient regarding postpartum care, family planning, care of the newborn, arrangements for metabolic testing, immunizations, and follow-up pediatric care.

(2) Each entry in each patient's record shall be dated and signed by the attending clinical staff member.

(3) The patient record shall be confidential and shall not be released without the written consent of the patient. Nothing in this regulation shall preclude the review of patient records by the secretary.

(4) All patient records shall be retained for at least 25 years from the date of discharge.

(d) Quality assurance documentation. Each licensee shall maintain on file for at least three calendar years all documentation required for the quality assurance findings specified in K.A.R. 28-4-1309.

(e) Inventory. Each licensee shall maintain on file an inventory of the birth center furnishings, equipment, and supplies.

(f) Drills. Each licensee shall maintain on file for at least one calendar year a record of all disaster and evacuation drills.

(g) Changes. Each applicant and each licensee shall maintain on file at the birth center the documentation of any changes specified in K.A.R. 28-4-1304 and approved by the secretary. (Authorized by K.S.A. 65-508; implementing K.S.A. 65-507 and 65-508; effective July 9, 2010.)

28-4-1308. Reporting requirements. (a) Each licensee shall ensure that the following incidents are reported to the department by the next working day, on a form provided by the department, and to any other authorities in accordance with state statute:

(1) A stillbirth or the death of a patient or a newborn;

(2) the death of an employee while on duty;

(3) any intentional or unintentional injuries sustained by any patient, newborn, or employee while on duty;

(4) any fire damage or other damage to the premises that affects the safety of any patient, newborn, or employee; and

(5) any other incident that, in the judgment of the clinical director or the acting clinical director, compromises the ability of the birth center to provide appropriate and safe care to patients and newborns.

(b) If a licensee, employee, patient, or newborn contracts a reportable infectious or contagious disease specified in K.A.R. 28-1-2, the licensee shall ensure that the disease is reported to the county health department as specified in K.A.R. 28-1-2. (Authorized by and implementing K.S.A. 65-508; effective July 9, 2010.)

28-4-1309. Quality assurance. (a) Each licensee shall develop and implement a quality assurance program to evaluate, at least annually, the quality of patient care and the appropriateness of clinical services.

(b) The quality assurance program shall include a system for the assessment of patient and newborn outcomes, clinical protocols, recordkeeping, and infection control.

(c) The quality assurance findings shall be documented and used for the ongoing assessment of clinical services, problem resolution, and plans for service improvement.

(d) All quality assurance findings shall be available at the birth center for review by the secretary. Nothing in this regulation shall preclude the review of patient records by the secretary. (Authorized by K.S.A. 65-508; implementing K.S.A. 65-507, 65-508, and 65-512; effective July 9, 2010.)

28-4-1310. Clinical services and patient care. (a) Each licensee shall ensure that the clinical services provided at the birth center are limited to those services associated with a normal, uncomplicated pregnancy and a normal, uncomplicated delivery.

(b) Each licensee shall ensure that only the clinical services approved by the clinical director are performed at the birth center.

(c) Each clinical staff member providing services shall work under the direction of and in con-

sultation with the clinical director or the acting clinical director.

(d) Each clinical staff member shall have access to patient diagnostic facilities and services, including a clinical laboratory, sonography, radiology, and electronic monitoring.

(e) Each licensee shall make available to each patient, in writing, information concerning the following:

(1) The clinical services provided by the birth center;

(2) the rights and responsibilities of the patient and the patient's family, including confidentiality, privacy, and consent;

(3) information on the qualifications of the clinical staff members;

(4) the risks and benefits of childbirth at the birth center;

(5) the possibility of patient or newborn transfer if complications arise during pregnancy, labor, or delivery and the procedures for transfer; and

(6) if a fetal death occurs, the patient's options for the taking or disposition of the fetal remains.

(f) Each licensee shall limit patients to those women who are initially determined to be at low maternity risk by a clinical staff member and who are evaluated regularly throughout the pregnancy to ensure that each patient continues to be at low risk for a poor pregnancy outcome. Each clinical director shall establish a written maternity risk assessment, including screening criteria, which shall be a part of the approved policies.

(g) When conducting the maternity risk assessment, each clinical staff member shall assess the health status and maternity risk factors of each patient after obtaining a detailed medical history, performing a physical examination, and taking into account family circumstances and psychological factors.

(h) The screening criteria of the maternity risk assessment shall be used as a baseline on which the risk status of each potential patient or patient is determined. The screening criteria shall apply to each potential patient before acceptance for birth center services and throughout the pregnancy for continuation of services. The screening criteria shall include the specific qualifications of the clinical staff members and the availability of supplies and equipment needed to provide clinical services safely.

(i) The factors to be considered in the development of the maternity risk assessment shall include the following:

(1) Age of the patient as a possible factor in determining the potential additional risk of poor pregnancy outcome;

(2) major medical problems including any of the following:

(A) Chronic hypertension, heart disease, or pulmonary embolus;

(B) any congenital heart defect assessed as pathological by a cardiologist that places the patient or fetus at risk;

(C) a renal disease;

(D) a drug addiction or required use of anticonvulsant drugs;

(E) diabetes mellitus;

(F) thyroid disease; or

(G) a bleeding disorder or hemolytic disease;

(3) previous history of significant obstetrical complications, including any of the following:

(A) RH sensitization;

(B) a previous uterine wall surgery, including caesarean section;

(C) seven or more term pregnancies;

(D) a previous placental abruption; or

(E) a previous preterm birth; and

(4) medical indication of any of the following:

(A) Pregnancy-induced hypertension;

(B) polyhydramnios or oligohydramnios;

(C) a placental abruption;

(D) chorioamnionitis;

(E) a known fetal anomaly;

(F) multiple gestations;

(G) an intrauterine growth restriction;

(H) fetal distress;

(I) alcoholism or drug addiction;

(J) thrombophlebitis; or

(K) pyelonephritis.

(j) Each patient found to be at high obstetrical risk based on the maternity risk assessment shall be referred to a qualified physician.

(k) Each licensee shall ensure that the policies and procedures include a program of education that prepares patients and their families for childbirth, including the following:

(1) Anticipated changes during pregnancy;

(2) the need for prenatal care;

(3) nutritional requirements during pregnancy;

(4) the effects of smoking, alcohol, and substance use;

(5) the signs of preterm labor;

(6) preparation for labor and delivery, including pain management and obstetrical complications and procedures;

(7) breast-feeding and care of the newborn;

(8) signs of depression during pregnancy and after childbirth and instructions for treatment;

(9) instruction on understanding the patient and newborn health record information;

(10) sibling preparation; and

(11) preparation needed for discharge of the patient and the newborn following delivery.

(l) Each licensee shall ensure that the policies, procedures, and clinical protocols are followed for each patient during labor, delivery, and postpartum care.

(m) Each patient shall be admitted for labor and delivery by a physician, a certified nurse-midwife, a certified professional midwife, or a certified midwife.

(n) At least one clinical staff member shall be available for each patient in labor.

(o) At least two employees shall be available for each patient during delivery. One shall be a clinical staff member. The other shall be another clinical staff member or a licensed practical nurse (LPN) practicing within the scope of the LPN's training and experience and working under the direct supervision of a licensed physician, a certified nurse-midwife, or a registered professional nurse.

(p) A clinical staff member shall monitor the progress of the labor and the condition of each patient and fetus as clinically indicated to identify abnormalities or complications at the earliest possible time.

(q) The patient or newborn shall be transferred to a medical care facility if a clinical staff member determines that medical or surgical intervention is needed.

(r) The patient's family or support persons shall be instructed as needed to assist the patient during labor and delivery.

(s) The surgical procedures performed at the birth center shall be limited to the following:

(1) Episiotomy;

(2) repair of episiotomy or laceration; and

(3) circumcision.

(t) Each clinical director shall develop and implement policies and procedures for the discharge of postpartum patients and their newborns, which shall be followed by all clinical staff members.

(1) An individual, written discharge plan shall be developed for each patient and newborn, including follow-up visits and needed referrals. Each patient shall receive a copy of the plan at the time of discharge.

(2) Each patient and each newborn shall be discharged no later than 24 hours after birth

and in accordance with policies, procedures, and clinical protocols.

(3) Each birth or death certificate shall be completed and filed as required by state law.

(4) A follow-up visit shall be conducted by a designated clinical staff member between 24 hours and 72 hours after discharge of the patient to perform the following:

(A) A health assessment of the patient;

(B) a health assessment of the newborn; and

(C) the required newborn screening tests.

(5) The policies and procedures shall include a program of postpartum education and care, including the following:

(A) Newborn care;

(B) postpartum examinations;

(C) family planning; and

(D) a plan for well-woman routine gynecologic health care. (Authorized by K.S.A. 65-508; implementing K.S.A. 65-507, K.S.A. 65-508, and K.S.A. 2009 Supp. 65-67a10; effective July 9, 2010.)

28-4-1311. Transfers. (a) Each licensee shall develop and implement policies, procedures, and clinical protocols for the transfer of patients and newborns. Each licensee shall ensure that these policies, procedures, and clinical protocols are readily accessible and followed.

(b) The policies, procedures, and clinical protocols shall include a written plan on file designating who will be responsible for the transfer of a patient or newborn. The plan shall include the following:

(1)(A) A written agreement with an obstetrician and a pediatrician or with a group of practitioners that includes at least one obstetrician and at least one pediatrician; or

(B) a written agreement with a medical care facility providing obstetrical and neonatal services; and

(2) a plan for transporting a patient or a newborn by an emergency medical services (EMS) entity.

(c) Each licensee shall ensure that all employees attending labor and delivery have immediate access to a working telephone or another communication device and to contact information for transferring a patient or a newborn in case of an emergency. (Authorized by and implementing K.S.A. 65-508; effective July 9, 2010.)

28-4-1312. Health-related requirements.

(a) Tobacco use prohibited. Each licensee shall ensure that tobacco products are not used at any time in the birth center.

(b) Health of licensee and employees working in the birth center.

(1) Each licensee, if an individual, and each individual working at the birth center shall meet the following requirements:

(A) Be free from physical, mental, and emotional conditions to the extent necessary to protect the health, safety, and welfare of the patients and newborns;

(B) be free from the influence of alcohol or illegal substances, or impairment due to the use of prescription or nonprescription drugs; and

(C) be free from all infectious or contagious diseases, as specified in K.A.R. 28-1-6.

(2) Each licensee, if an individual, and each individual working in the birth center shall have a health assessment conducted within six months before employment or upon employment. Subsequent health assessments shall be given periodically in accordance with the policies of the birth center.

(3) The results of each health assessment shall be recorded on forms provided by the department, and a copy shall be kept in each licensee's or employee's record at the birth center.

(4) If an individual who works in the birth center experiences a significant change in physical, mental, or emotional health, including any indication of substance abuse, an assessment of the individual's current health status may be required by the secretary or the licensee. A licensed health care provider qualified to diagnose and treat the condition shall conduct the health assessment. A written report of the assessment shall be kept in the individual's employee record and shall be submitted to the secretary on request.

(c) Tuberculin testing of licensee and employees working in the birth center.

(1) Each licensee, if an individual, and each individual working in the birth center shall have a record of a tuberculin test or chest X-ray obtained not more than six months before employment or upon employment. The results of the tuberculin test or chest X-ray shall be recorded on the health assessment form.

(2) Additional tuberculin testing shall be required if any individual working in the birth center is exposed to an active case of tuberculosis or if the birth center serves an area identified by the local health department or the secretary as a high-risk area for tuberculosis exposure.

(d) Hepatitis B. Each licensee, if an individual, and each individual working in the birth center

whose job duties include exposure to or the handling of blood shall be immunized against hepatitis B or shall provide written documentation of refusal of the immunization. (Authorized by and implementing K.S.A. 65-508; effective July 9, 2010.)

28-4-1313. Environmental standards. (a) Premises.

(1) Each licensee shall ensure that the birth center is connected to public water and sewerage systems where available.

(2) If a center uses a nonpublic source for the water supply, the water shall be safe for drinking and shall be tested annually by a department-certified laboratory. If a well is used, the well shall be approved by an agent of the local environmental protection program (LEPP).

(A) A copy of the test results and the approval shall be kept on file at the birth center.

(B) Each private sewerage system shall be maintained in compliance with all applicable state and local laws.

(3) Outdoor areas on the premises shall be well drained and kept free of hazards, litter, and trash.

(b) General building requirements.

(1) Each licensee shall ensure that the birth center is located in a building that meets the following criteria:

(A) Meets the requirements specified in K.S.A. 65-508 and amendments thereto, all applicable building codes, and local ordinances;

(B) is a permanent structure; and

(C) is free from known environmental hazards.

(2) Each birth center shall be accessible to and usable by individuals with disabilities.

(c) Structural requirements. Each licensee shall ensure that the following requirements are met:

(1) Space shall be provided for the services to be offered, including the following:

(A) A secure space for the storage of medical records;

(B) waiting or reception area;

(C) family area, including play space for children;

(D) designated toilet and lavatory facilities for employees, families of patients, or the public separate from designated toilet, lavatory, and bathing facilities for each patient;

(E) a birthing room or rooms;

(F) employee area;

(G) utility and work room;

(H) a designated storage area;

(I) space for the provision of laboratory services; and

(J) space for food preparation and storage.

(2) The birth center shall be heated, cooled, and ventilated for the comfort of the patients and newborns and shall be designed to maintain a minimum temperature of 68 degrees Fahrenheit and a maximum temperature of 90 degrees Fahrenheit. If natural ventilation is used, all opened windows or doors shall be screened. If mechanical ventilation or cooling systems are employed, the system shall be maintained in working order and kept clean. Intake air ducts shall be designed and installed so that dust and filters can be readily removed.

(3) Each interior door that can be locked shall be designed to permit the door to be opened from each side in case of an emergency.
