The U.S. Environmental Protection Agency (EPA) has a 45-day review period, which will start concurrently with the public comment period, within which to object to the proposed permit. If the EPA has not objected in writing to the issuance of the permit within the 45-day review period, any person may petition the administrator of the EPA to review the permit. The 60-day public petition period will directly follow the EPA's 45-day review period. Interested parties may contact KDHE to determine if the EPA's 45-day review period has been waived.

Any such petition shall be based only on objections to the permit that were raised with reasonable specificity during the public comment period provided for in this notice, unless the petitioner demonstrates that it was impracticable to raise such objections within such period, or unless the grounds for such objection arose after such period. Additional project information including construction scope to be inspected, a detailed description of the project location, and resources and inspection scope specifically requested from consultants in this request can be viewed in an online table at <https://www.ksdotike.org/about/construction-inspection-rfps>. Upon publication of this Request for Proposals, KDOT anticipates each of these inspection efforts will require full teams (project manager and inspectors, as opposed to single role staff augmentation as is occasionally requested) for various types of construction inspection except as noted in the table. Watch the website linked above for updated information. Tabulated information (both in this Request for Proposals and on the website) shall not be relied upon during inspections. It is provided for the convenience of consultants, specifically to aid in making decisions about which projects they are interested in performing.

Specific project needs are subject to modification and/or cancellation at KDOT's discretion.

Anticipated Consultant Scope

The scope of construction inspection services and certifications required will vary for each project and are listed in the table available on the website noted above. Inspection efforts will be managed out of the offices listed. Also included for the convenience of consultants are indications of which grouped projects are currently slated to be performed by the same contractors.

Anticipated Schedule and Key Dates

- Proposals are due by or before 12:00 p.m. (Central Time) March 29, 2023.
- Ranking of proposals is expected to occur on or around April 5, 2023. Negotiations with the most highly ranked firm are expected to begin on or around April 12, 2023. An executed agreement is anticipated shortly thereafter.

111-601-52. Definitions. The following definitions when pertaining to the game of "Free Bet Blackjack" shall

have the following meanings unless the context clearly indicates otherwise:

(b) "Burn" or "burning" a card shall mean to remove a card from play.

(c) "Dealer" shall mean the person responsible for dealing the cards.

(d) "Discard rack" shall mean the receptacle into which cards are placed after each round of decisions is rendered in a game.

(e) "Free double down wager" shall mean an additional optional free wager that may be made by the player on the condition only one additional card per hand will be dealt to the player. All free double down wagers shall be made without making an additional wager from the player's gaming chips.

(f) "Free split wager" shall mean an additional optional wager made when a player's initial two cards are of the same face value. A player may make a free split wager up to three times for a total of four hands. A player may also double down after making a free split wager with the exception of after splitting aces. A player will only receive one additional card per hand after splitting aces. Players may not make a free split wager on any pair where both cards have the value of 10, including jacks, queens, kings, or any combination of the four 10-value cards. All free split wagers shall be made without making an additional wager from the player's gaming chips.

(h) "Push" or "tie" shall mean the player does not lose or win the hand played.

(i) "Push 22 bonus wager" shall mean an optional wager that may be made by the player in an area designated for the push 22 bonus wager prior to the first card of the hand being removed from the shoe. The player must make an original blackjack wager in order to place the push 22 bonus wager.

(j) "Shoe" or "dealing shoe" shall mean the receptacle into which cards are placed to be held for dealing to the players and dealer.

(k) "Soft total" shall mean the total point count of a hand containing an ace when the ace is counted as having 11 points in value. (Authorized by K.S.A. 2022 Supp. 74-8710 and K.S.A. 74-8748; implementing K.S.A. 2022 Supp. 74-8710; effective, T-111-3-2-23, Feb. 10, 2023.)

111-601-53. Object of game, method of play, and characteristics of game. (a) The object of the game for the "Free Bet Blackjack" game is to have the total point value of the player's hand exceed the total point value of the dealer's hand without going over a total point value of 21.

(continued)

(b) The game of "Free Bet Blackjack" also offers the following optional wagers: insurance; double down; free double down; split; free split; and push 22 bonus.

(c) The game of "Free Bet Blackjack" is played with six decks of standard playing cards and is dealt from a dealing shoe or shuffling device.

(e) Each deck of standard playing cards shall consist of 13 value cards designated as 2, 3, 4, 5, 6, 7, 8, 9, 10, jack, queen, king, and ace in each of the following four suits: hearts; spades; diamonds; and clubs. The point value of the cards contained in each deck shall be as follows:

- (1) Any card from 2 to 10 shall have its face value;
- (2) Any jack, queen or king shall have a value of 10; and

(Authorized by K.S.A. 2022 Supp. 74-8710 and K.S.A. 74-8748; implementing K.S.A. 2022 Supp. 74-8710; effective, T-111-3-2-23, Feb. 10, 2023.)

111-601-54. Game operations. The following game operations shall apply to the game of "Free Bet Blackjack":

(a) The following procedures for shuffling shall be implemented:

(1) The cards will be shuffled at various times including, but not limited to, the following circumstances:

- (A) New decks are put into play;
- (B) After the completion of the hand in which the cut card appeared;
- (C) The decks have been dropped or otherwise mishandled; and,
- (D) When instructed to do so by a table games supervisor or higher ranking casino official.

(2) The cards may be shuffled manually or by a shuffling machine.

(b) The following procedures for card cutting shall be implemented:

(1) Upon completion of the shuffle, the dealer shall place one cut card at the bottom of the stack of cards;

(2) The dealer will then offer the stack of cards to a player to cut. In the event all players at the table fail or refuse to perform the cut, the dealer or table games supervisor will cut the cards;

(3) The cut will be performed by inserting a second cut card the equivalent of approximately a minimum of one deck from either end of the stack of cards;

(4) The dealer shall then move the second cut card and all cards on top of it to the bottom of the stack of cards; and

(5) The dealer will then remove the first cut card from the stack of cards, reinsert it approximately one and one-half decks from the bottom of the stack of cards and then place the stack of cards into the dealing shoe.

(c) The following procedures for dealing and taking cards shall be implemented:

(1) All original wagers must be in place before the first card is dealt from the shoe;

(2) Cards are distributed to the players, one at a time and face up, from left to right. The dealer distributes one card

to the dealer face up before continuing. The dealer deals a second card to each player, one at a time face up, from left to right and deals a second card to the dealer face down and places it directly under the dealer's first card;

(3) Beginning with the first player position to the left of the dealer, each player will indicate whether they wish to stand and receive no more cards for that hand or hit and receive one or more additional cards for that hand, which shall be dealt face up. Cards will continue being distributed to each player, one at a time face up, until the player indicates his or her desire to stand or the player's hand exceeds a total of 21 points and busts, whichever comes first;

(4) After all of the players have made their decisions on their cards, the dealer's second card will be turned face up and the dealer will announce the total point value of the dealer's two cards. If any player's hand is still in action, the dealer will hit if the dealer holds cards with a total point value of 16 or less or a soft total of 17. The dealer will stand on a hard total of 17 or higher total point value; and,

(5) If a player has a losing hand, the dealer will remove the player's chips and pick up the cards for placement into the discard rack.

(d) The following procedures for burning cards shall be implemented:

(1) A dealer will burn a card after completion of the shuffle; and,

(2) A dealer will burn a card upon the dealer entering a game.

(e) After the completion of the game all winning wagers will be paid and losing wagers will be collected beginning with the first player to the dealer's right and working toward the left. (Authorized by K.S.A. 2022 Supp. 74-8710 and K.S.A. 74-8748; implementing K.S.A. 2022 Supp. 74-8710; effective, T-111-3-2-23, Feb. 10, 2023.)

111-601-55. Wagers and payout odds. (a) Minimum and maximum wagers will be posted on a sign at each table.

(b) Maximum table payouts, if any, will be posted at each table and will not be less than the maximum wager times the maximum odds.

(c) If a player has been permitted to wager less than the table minimum, the dealer will take or pay the amount actually wagered. If a player has been permitted to wager more than the table maximum, the excess will be returned to the player and the dealer will pay the correct odds on the posted maximum amount. The player will be informed of the table minimum or maximum for subsequent wagers.

(d) A player may play two hands at double the table minimum per hand not to exceed the table maximum. A player may play three hands at five times the table minimum, per hand, not to exceed the table maximum. Exceptions to this rule are permitted if approved by the pit manager, casino shift manager, or higher ranking casino official.

(e) The following are the permissible wagers, payout odds, and what constitutes a win, loss, or tie:

(1) Original wagers:

(A) An original wager must be made by the player prior to the first card of the hand being dealt;

(B) An optional additional original wager may be made as a tip for the dealer;

(D) An original wager will lose if the total point value of the player's cards exceeds 21 or is lower than the total point value of the dealer's cards;

(E) An original wager will tie if the point value of the dealer's hand totals 22 or if the total point value of the player's cards is equivalent to the total point value of the dealer's cards. A hand containing a blackjack beats a hand with a total point value of 21 that uses three or more cards; and,

(5) Split wager:

(A) A split wager is an optional additional wager made when a player's initial two cards are of the same face value provided the player makes a wager equal to the original wager. A player may split up to three times for a total of four hands. A player may double down after splitting with the exception of after splitting aces. After splitting aces a player will only receive one additional card for each split hand;

(B) A split wager will win if the total point value of the player's cards exceeds the total point value of the dealer's cards without exceeding a total point value of 21;

(C) A split wager will lose if the total point value of the player's cards exceeds 21 or is less than the total point value of the dealer's cards;

(continued)

tip for the dealer only if the player has made an original wager for the dealer.

(7) Push 22 Bonus Wager:

(B) A push 22 bonus wager will lose if the total point value of the dealer's cards is equal to or exceeds twenty-three or is equal to or is lower than twenty-one;

(C) A push 22 bonus wager will win if the total point value of the dealer's cards is twenty-two;
