Article 301.— SPECIFIC LOTTERY FACILITY GAMES AT LOTTERY GAMING FACILITIES

111-301-4. Characteristics of the game. Blackjack shall be played with at least two decks of playing cards. If the Blazing 7's Progressive optional side wager is offered at the gaming table, then six decks of playing cards shall be used. If the King's Bounty optional side wager is offered at the gaming table, then either six or eight decks of playing cards shall be used. All decks of cards used in a game shall be identical in appearance. Each deck of

playing cards shall consist of 13 value cards: 2, 3, 4, 5, 6, 7, 8, 9, 10, jack, queen, king, and ace, in each of four suits: hearts, spades, diamonds, and clubs. The value of the cards contained in each deck shall be as follows:

- (a) Any card from 2 to 10 shall have its face value;
- (b) Any jack, queen or king shall have a value of 10; and
- (c) An ace shall have a value of 11, unless that value would give a player or the dealer a score in excess of 21, in which case it shall have a value of one. (Authorized by K.S.A. 2023 Supp. 74-8710 and K.S.A. 74-8748; implementing K.S.A. 2023 Supp. 74-8710; effective, T-111-12-24-09, Dec. 3, 2009; amended, T-111-4-9-20, Jan. 15, 2020; amended, T-111-9-18-24, Aug. 14, 2024.)

111-301-5. Wagers. (a) Prior to receiving the first card for each round of play, each player at the game of *(continued)*

blackjack shall make a wager against the dealer which shall win if:

(1) The score of the player is 21 or less and the score of the dealer is in excess of 21;

(2) The score of the player exceeds that of the dealer without either score exceeding 21; or

(3) The player has achieved a score of 21 in two cards and the dealer has achieved a score of 21 in more than two cards.

(b) Except as otherwise provided in these rules a wager made in accordance with this section shall be void when the score of the player is the same as the dealer; provided, however, that a player's wager shall be lost when the dealer has a blackjack, and the player has a score of 21 which is not a blackjack.

(c) Except as otherwise provided in these rules, a player shall not make, increase or withdraw any wager after the player has the first card of the round.

(d) All wagers at blackjack shall be made by placing gaming chips on the appropriate areas of the blackjack layout.

(e) After each round of play is complete, the dealer shall collect all losing wagers and pay off all winning wagers, except that if the cards in a player's hand exceed a total of 21 points, the wager for that hand shall be lost and the wager shall be collected by the dealer. All winning wagers made against the dealer in accordance with these rules shall be paid at odds of one to one with the exception of a blackjack which shall be paid at odds of three to two.

(f) Once the first card of any hand has been dealt to a player, the player shall not handle, remove or alter any wagers that have been made until a decision has been rendered and implemented with respect to that wager except as permitted by these rules.

(g) Once a wager on the insurance line, a wager to double down, or a wager to split pairs has been made and confirmed by the dealer, no player shall handle, remove or alter such wagers until a decision has been rendered and implemented with respect to that wager except as permitted by these regulations.

(h) A double down wager shall win if the total of the player's cards exceeds the total of the dealer's cards without exceeding a total of 21. A double down wager shall push or tie if the player's hand and the dealer's hand are equal. A double down wager shall lose if the total of the player's cards exceeds 21 or is less than the total of the dealer's cards. A double down wager shall be paid at the rate of one to one on both the original wager and the double down portion of the wager. A player may double down after splitting pairs.

(i) A split bet shall win if the total of the player's cards exceeds the total of the dealer's cards without exceeding a total of 21. A split bet shall lose if the total of the player's cards exceeds 21 or is less than the total of the dealer's cards. A split bet shall tie or push if the player's hand and the dealer's hand are equal. A split bet shall be paid at the rate of one to one on both the original wager and the split wager.

(j) An optional Blazing 7's Progressive side wager may be offered at gaming tables.

(1) Prior to receiving the first card for each round of

play, each player who makes a wager against the dealer may also make the progressive wager by placing gaming chips on the designated area on the blackjack layout, which wager shall also cause a light to illuminate on the gaming table to verify the wager was made. If the light fails to illuminate, the progressive wager shall be returned to the player.

(2) The dollar amount required for the Blazing 7's Progressive side wager shall be posted at the gaming table.

(3) Prior to the first card being dealt for each round of play, the dealer shall remove all progressive wagers but the light verifying the wager shall remain illuminated until the progressive wager is resolved.

(4) All Blazing 7's Progressive side wagers use only the player's first two cards and the dealer's card that is turned face up. The progressive wager shall win if either or both of the player's first two cards are 7's, or if both of the player's first two cards and the dealer's card turned face up are all 7's.

(5) After two cards have been dealt to all players at the table and the dealer, all winning Blazing 7's Progressive wagers shall be paid as follows:

Three 7's of diamonds	100% of progressive pot
Three 7's all in the same suit other than diamonds	10% of progressive pot
Three 7's of the same color but in different suits	Odds of 500 for 1
Three 7's in mixed suits and colors	Odds of 200 for 1
Two 7's in the player's hand	Odds of 25 for 1
One 7 in the player's hand	Odds of 2 for 1

Only the highest progressive prize for which a hand qualifies shall be paid. If during a round of play two or more hands qualify for any portion of the progressive pot, the applicable portion of the progressive pot shall be evenly divided between all qualifying hands and if necessary, rounded up by the lottery gaming facility manager so that all qualifying hands are paid equal amounts.

(6) The Blazing 7's Progressive prize pot shall be initially funded by the lottery gaming facility manager in the amount of \$10,000. Twenty-four percent of each progressive wager made thereafter shall be added to the progressive prize pot amount. The running total amount of the progressive prize pot shall be displayed on a meter at the gaming table and all progressive prizes shall be paid based upon the amount on the meter at the time the prize is won.

(7) After the top progressive prize is awarded, the lottery gaming facility manager shall again fund the progressive prize in the amount of \$10,000.

(k) If offered at a gaming table, a player may make an optional "21 + 3" or "TriLux" three-card wager prior to receiving the player's first card for the round of play. The minimum and maximum three-card wager will be posted at the table. An additional three-card wager may be made as a tip for the dealer. The following describes a list of the permissible wagers, payout odds, and what constitutes a win or loss for three-card wagers:

(1) A three-card wager will win only if the dealer's card turned face up and the player's original two cards combined equal a flush, straight, three-of-a-kind, or straight flush.

(2) Winning three-card wagers will be paid out as follows:

(A) When the player's original two cards and the dealer's card turned face up combined equal a flush, straight, three-of-a-kind, or a straight flush, the hand will be paid at the rate of 9 to 1.

(B) All three-card wagers will be taken or paid before the blackjack portion of the game continues.

(1) If an optional TriLux Super 3 side wager is offered at a gaming table, prior to receiving the first card for each round of play, any player making a three-card wager may also make a TriLux Super 3 wager, and if posted at the gaming table players not making a three-card wager may also make a TriLux Super 3 wager. The minimum and maximum TriLux Super 3 wager and whether the three-card wager is required in order to make the TriLux Super 3 wager will be posted at the table and/or on the gaming table layout. The following describes a list of the permissible wagers, payout odds, and what constitutes a win or loss for TriLux Super 3 wagers:

(1) An additional TriLux Super 3 wager may be made as a tip for the dealer.

(2) A TriLux Super 3 wager will win only if the dealer's card turned face up and the player's original two cards combined equal a three-of-a-kind with all three cards in the same suit, straight flush or three of a kind and not all three cards are in the same suit.

(3) Winning TriLux Super 3 wagers will be paid out as follows:

(A) When the player's original two cards and the dealer's card turned face up combined equal a three-of-a-kind with all three cards in the same suit, the wager will be paid at the rate of 270 to 1;

(B) When the player's original two cards and the dealer's card turned face up combined equal a straight flush, the wager will be paid at the rate of 180 to 1; and

(C) When the player's original two cards and the dealer's card turned face up combined equal a three-of-a-kind and all three cards are not in the same suit the wager will be paid at the rate of 90 to 1.

(m) If offered at a blackjack table at which at least six decks of cards are being used, a player making a blackjack wager may also make an optional royal match 21 wager in the area on the table designated for the optional wager so long as the wager is made prior to the player receiving the player's first card of the round. The amount required to make the optional royal match 21 wager shall be posted at the table.

(1) If a player makes an optional royal match 21 wager, the player may also make a royal match 21 wager as a tip for the dealer so long as the tip wager is made prior to the first card of the hand being removed from the shoe.

(2) Resolution of all royal match 21 wagers shall be made after all players and the dealer have received their second card and before the blackjack game continues.

(3) A royal match 21 wager shall win only if both of the player's two cards are in the same suit.

(4) Winning royal match 21 wagers shall be paid at odds of 2.5 to one, unless the two cards constitute a blackjack in which case the player's wager shall be paid at odds of 5 to one, or unless the two cards are a king and queen in which case the player's wager shall be paid at odds of 25 to one.

(n) If an optional King's Bounty side wager is offered

at a gaming table, prior to receiving the first card for each round of play, any player may also make a King's Bounty wager. The following describes a list of the permissible wagers, payout odds, and what constitutes a win or loss for King's Bounty wagers:

(1) An additional King's Bounty wager may be made as a tip for the dealer.

(2) A King's Bounty wager will win only if the sum of the face value of the player's first two original cards equals 20.

(3) Winning King's Bounty wagers will be paid out as follows:

(A) When the player's original two cards are two kings of spades and the dealer's hand constitutes a blackjack, the wager will be paid at the rate of 1,000 to one;

(B) When the player's original two cards are two kings of spades and the dealer's hand does not constitute a blackjack, the wager will be paid at the rate of 100 to one;

(C) When the player's original two cards are two kings in the suit of hearts, diamonds or clubs, the wager will be paid at the rate of 30 to one;

(D) When the player's original two cards are two queens, two jacks or two 10's in the same suit, the wager will be paid at the rate of 20 to one;

(E) When the player's original two cards are in the same suit but are not of the same rank, the wager will be paid at the rate of nine to one;

(F) When the player's original two cards are two kings in different suits, the wager will be paid at the rate of six to one; and

(G) When the player's original two cards are not in the same suit and are not of the same rank, the wager will be paid at the rate of four to one.

(4) Resolution of all King's Bounty wagers shall be made after all players and the dealer have received their second card and before the blackjack game continues.
