### **Notice of Application**

The Kansas Department of Health and Environment (KDHE) has reviewed an application to establish a medical waste processing facility sent by the Lawrence Memorial Hospital (LMH) for treating medical waste by ozonation. The proposed facility would be located onsite at the existing LMH facility at 325 Maine St., Lawrence, Kansas. The LMH facility where this project is proposed is a hospital which services much of the Lawrence community. The device is currently in operation treating medical waste generated on site, and this permit would allow them to treat medical waste generated at other LMH locations. It is not anticipated that operation of the ozonation device would substantially contribute to sights, smells, or sounds perceived by neighboring houses or businesses. The ozonation device is a closed system which sanitizes waste through introduction of ozone. Ozone is generated in the device by electrifying concentrated oxygen and is converted back into oxygen prior to release. Waste moves through the device automatically, minimizing human interaction and the potential for unpleasant odors to escape. Once treated, the potential for infection has been eliminated and it is taken away for disposal.

The Douglas County Commissioners have certified that the application described herein is consistent with the county's solid waste management plan. The City of Lawrence has certified that the application is consistent with local land use and restrictions and zoning. KDHE has reviewed the application and found it to be in conformance with state solid waste statutes and regulations.

KDHE is providing public notice of its intent to issue a permit to the Lawrence Memorial Hospital for the proposed medical waste processing facility described herein. A copy of the administrative record, which includes the draft permit and all information regarding this permit action is available for public review until March 17, 2025, during normal business hours at the following location:

Lawrence Public Library  
707 Vermont St.  
Lawrence, KS 66044

Additionally, the application form with primary permit information is available for public viewing via at <https://www.kdhe.ks.gov/676/Solid-Waste-Public-Notices>. Anyone wishing to comment on the draft permit information should submit written statements no later than March 17, 2025 to Cody Nichols, Environmental Specialist, Solid Waste Processing Unit at [Cody.Nichols2@ks.gov](mailto:Cody.Nichols2@ks.gov). After consideration of all comments received, the director of the Division of Environment will make a final decision to issue the permit. Notice of the decision will be given to anyone who submitted written comments during the comment period and to those who requested notice of the final permit decision.

Additional project information including construction scope to be inspected, a detailed description of the project location, and resources and inspection scope specifically requested from consultants in this request can be viewed in an online table at <https://ike.ksdot.gov/about/construction-inspection-rfps>. Upon publication of this Request for Proposals, KDOT anticipates each of these inspection efforts will require full teams (project manager and inspectors, as opposed to single role staff augmentation as is occasionally request) for various types of construction inspection except as noted in the table. Watch the website linked above for updated information. Tabulated information (both in this Request for Proposals and on the website) shall not be relied upon during inspections. It is provided for the convenience of consultants, specifically to aid in making decisions about which projects they are interested in performing.

Specific project needs are subject to modification and/or cancellation at KDOT's discretion.

## Anticipated Consultant Scope

The scope of construction inspection services and certifications required will vary for each project and are listed in the table available on the website noted above. Inspection efforts will be managed out of the offices listed. Also included for the convenience of consultants are indications of which grouped projects are currently slated to be performed by the same contractors.

## Anticipated Schedule and Key Dates

- Proposals are due by or before 12:00 p.m. (Central Time) February 26, 2025.
- Ranking of proposals is expected to occur on or around February 28, 2025. Negotiations with the most highly ranked firm are expected to begin on or around March 7, 2025. An executed agreement is anticipated shortly thereafter.

#### Company Overview: South Kansas & Oklahoma Railroad

The SKOL is a 458.7-mile long (738.2 km) Class II short line railroad operating across rural Kansas and Oklahoma. The SKOL and its parent company, WATCO, own the underlying real estate and railroad right of way. It transports nearly 60,000 loaded railcars annually and is powered by more than 42 locomotives and 120 team members. The broad customer base served by the SKOL represents a commodity mix comprised of crude oil, grain and grain products, cement, coal, chemicals, steel, and plastics. The railroad began operations in 1987. SKOL’s Track Charts and Timetable can be referenced on the SKOL Rehabilitation Project website at <https://www.watco.com/skol-2025-crisi-project>.

#### Project Background and Scope of Work

This project (KDOT Project No. 70-24 RA-5412-24) provides for the rehabilitation of 49 at-grade crossings, installation of 37 miles of continuous welded rail (CWR) and surfacing of 37 miles of mainline track on the Neodesha subdivision between milepost 350.0 – 387.0 in the cities of Sherwin, Kansas and Cherryvale, Kansas in the counties of Cherokee, Labette, and Montgomery (“Project”). This upgrade will allow the SKOL to increase its load carrying capacity to 286,000 lbs. and upgrade to FRA Class 2 track standard from Class 1 track and be eligible to compete in the Class I-unit train program.

1. Neodesha Subdivision Surfacing (MP 350.0-387.0) – Provide all necessary labor, equipment, and logistical

services to dump ballast and surface mainline track.

2. Continuously Welded Rail Installation (MP 350.0-387.0) – Provide all necessary labor, equipment, and logistical services to install CWR on the Neodesha East Subdivision of the SKOL.
3. Rehabilitation Of 49 At-Grade Crossings – Provide all necessary labor, equipment and logistical services to complete rehabilitation and crossing upgrade work including: installation of ties, rail (with the exclusion of CWR scope), ballast and any other ancillary work.

To assist with the funding of the Project, the Federal Railroad Administration (FRA) selected the Kansas Department of Transportation (“KDOT”) to receive a grant under the Consolidated Rail Infrastructure and Safety Improvements (CRISI) program for the SKOL’s “Southeast Kansas Short Line Rail Upgrade and Growth Project.” Under this award, the KDOT and SKOL will provide a 20% non-federal match. In consideration for the foregoing and to ensure that the Project remains in the best interest of the people of the State of Kansas, this RFP and any subsequent contract entered therefrom, or work provided for the Project will be subject to the requirements of the Grant Agreement between the FRA and KDOT in conjunction with the agreement between KDOT and the SKOL.

### Play Symbols

Numbers from the range of 1-99

Symbol of a Case

Prize and bonus prize symbols shall be randomly assigned at the time of purchase and may appear in any combination that equals any prize described in paragraph (i).

(c) For this game, eight “Winning Numbers” shall appear at the top of the play area. Four play symbols shall appear in each of the ticket play areas purchased by the player. There shall be six ticket areas. Each ticket area shall be dim until the player purchases the ticket.

(d) Each pool shall consist of 1,000,000 tickets.

(e) The price of tickets for this game shall be \$1.00, \$2.00, and \$5.00.

(f) “VIP Riches” is a multi-ticket key number match game with a bonus play feature. The player may select between one and six tickets to play at the time of purchase. Each ticket shall be the same denomination. The player may purchase the selected number of tickets by pressing the “Play” icon. Each purchased ticket is presented in the form of a single line. The player may reveal the play and prize symbols in each purchased ticket by manually clicking on each symbol, or by clicking on the “Reveal All” icon. In the bonus game, the player will click on a number of “Case” symbols equal to the number of “Case” symbols revealed in the game. Each case may reveal a prize or be empty. pressing the “Play” icon. The player may reveal the play symbols by manually clicking on each play spot, or by clicking on the “Reveal All” icon. Except as described below, if the player reveals three matching symbols, the player wins a prize amount equal to the purchase price of the ticket. A player may win more than one prize in this manner. If the player reveals three or more “Cash” symbols, the player wins the prize shown in the prize legend. If the player reveals three or more “Trophy” symbols, the player may play a bonus game. In the bonus game, the player will have two numbers between 1 and 6 randomly assigned; the first number will represent the player’s corgi and the second number will represent an opposing corgi. If the player’s corgi has the higher number, the player’s corgi will advance on a progress bar towards a prize amount. If the player’s corgi reaches the end of the progress bar, the player will win the prize shown. The player will win a prize for each contest the player’s corgi wins or ties, even if the player’s corgi does not reach the end of the progress bar. In the event of a tie, the player will win half the prize shown for that contest. The player will win the cumulative total of all prizes revealed in the bonus game. Each bonus game will reveal at least one prize. “Corgi Behind” symbols are non-winning symbols and do not count towards winning a prize.

combination that equals any prize described in paragraph (i).

(c) For this game, eight “Winning Numbers” shall appear at the top of the play area. Four play symbols shall appear in each of the ticket play areas purchased by the player. There shall be six ticket areas. Each ticket area shall be dim until the player purchases the ticket.

(d) Each pool shall consist of 1,000,000 tickets.

(e) The price of tickets for this game shall be \$1.00, \$2.00, and \$5.00.

(f) “Mecha Bandit” is a multi-ticket symbol reveal game with a bonus play feature. The player may select between one and six tickets to play at the time of purchase. Each ticket shall be the same denomination. The player may purchase the selected number of tickets by pressing the “Play” icon. Each purchased ticket is presented in the form of a single line. The player may reveal the play and prize symbols in each purchased ticket by manually clicking on each symbol, or by clicking on the “Reveal All” icon. If the player matches any play symbol in the “Winning Numbers” area to any play symbol in any ticket play area, the player wins the prize below that number. If the player reveals the “Golden Battery” symbol, the player wins the prize below that symbol automatically. If the player reveals one or more “Energy Crystal” symbols, the player will play a bonus game. In the bonus game, the player will click on a number of “Energy Crystal” symbols equal to the number of “Energy Crystal” symbols revealed in the game. Each symbol may reveal a prize or be empty. The player will win the total cumulative amount attained in the bonus game. Each bonus game will win at least one prize.

(g) The total number of prizes and bonus prizes in any winning game may be variable but shall equal any prize described in paragraph (i).

(h) Approximately 18,000,000 tickets shall be ordered initially for this instant game. Additional ticket orders shall have the same prize structure, the same number of prizes per prize pool of 1,000,000 tickets, and the same odds as were contained in the initial ticket order.

(i) Each prize shall be calculated by multiplying the prize multiplier by the ticket cost by the number of tickets purchased. The expected number and value of prizes in this game shall be as follows:
