ATTORNEY GENERAL**OPINION NO. 83-160**

Corporations—Agricultural Corporations—Ownership of Agricultural Land; Operation of Feed Lot. Jamie Schwartz, Secretary, Kansas Department of Economic Development, Topeka, October 31, 1983.

A foreign corporation, authorized to do business in Kansas, may own agricultural land in this state, irrespective of acreage, for the purpose of operating a feedlot for the feeding and slaughtering of hogs. As an incidental aspect of the feedlot operation, such corporation may engage in the breeding of the hogs from within its own stock for feeding and slaughter but may not breed hogs for sale prior to feeding and slaughter. BOARD OF TAX APPEALS**SUMMARIZED ORDERS OF STATE-WIDE IMPACT****Docket No. 3594-83-DT**

Severance Tax—implied exemption for basic sediment and water. In re appeal of Kansas Krude Oil Reclaiming Company, from an order of the Director of Taxation, dated October 26, 1983.

Basic sediment and water (BS&W) separates out of saleable crude oil and collects in the bottom of a field storage tank. It is within the definition of "oil." However, it belongs to a division of crude oil into a category of definitions which recognizes that traditionally BS&W has no, or nominal, value. In reviewing the provisions of Section 2(a)(1) of the severance tax act, the Board finds the computation of taxable oil quantities from a producing oil lease must involve an allowance for any reasonable and bonafide deduction for BS&W. Field storage tanks are to be taxed at 100% of capacity minus BS&W. Therefore, the legislature has created an implied exemption. Tax is not to be levied upon the BS&W residual, much in the same way it is not to be applied to marginal production.

If the School District shall elect to call any Bonds for redemption and payment prior to the maturity thereof, the School District shall publish once in a financial journal published in New York, New York, a notice of the intention of the School District to call and pay said Bonds, the same being described by number and maturity, said notice to be published not less than 30 days prior to the date on which said Bonds are called for payment. The School district shall also give written notice of its intention to call and pay said Bonds on a specified date, the same being described by number and maturity, said notice to be mailed by United States registered or certified mail addressed to the registered owners of said Bonds, to the State Treasurer of Kansas, and to the manager or managers of the underwriting account making the successful bid, each of said notices to be mailed not less than 30 days prior

to the date fixed for redemption. If any Bond be called for redemption and payment as aforesaid, all interest on such Bond shall cease from and after the date for which such call is made, provided funds are available for its payment at the price hereinbefore specified.

Whenever the School District is to select the Bonds for the purpose of redemption, it shall, in the case of Bonds in denominations greater than \$5,000, if less than all of the Bonds then outstanding are to be called for redemption, treat each \$5,000 of face value of each such fully registered Bond as though it were a separate Bond of the denomination of \$5,000.

Conditions of Bids. Proposals will be received on the Bonds bearing such rate or rates of interest as may be specified by the bidders, subject to the following conditions: The same rate shall apply to all Bonds of the same maturity. Each interest rate specified shall be a multiple of 1/8 or 1/20 of 1%. No interest rate shall exceed a rate equal to the "20 Bond Index" of tax exempt municipal bonds published by *The Weekly Bond Buyer* in New York, New York on the Monday next preceding the day on which the Bonds are sold, plus 2%. The difference between the highest rate specified and the lowest rate specified shall not exceed 2%. No bid of less than the par value of the Bonds and accrued interest thereon to the date of delivery will be considered. Each bid shall specify the total interest cost to the School District during the life of the Bond issue on the basis of such bid, the premium, if any, offered by the bidder, and the net interest cost to the School District on the basis of such bid. Each bid shall also specify the average annual net interest rate to the School district on the basis of such bid.

Basis of Award. The award of the Bonds will be made on the basis of the lowest net interest cost to the School District, which will be determined by subtracting the amount of the premium bid, if any, from the total interest cost to the School District. If there is any discrepancy between the net interest cost and the average annual net interest rate specified, the specified net interest cost shall govern and the interest rates specified in the bid shall be adjusted accordingly. If two or more proper bids providing for identical amounts for the lowest net interest cost are received, the governing body shall determine which bid, if any, shall be accepted, and its determination shall be final.

Authority, Purpose and Security. The Bonds are being issued pursuant to K.S.A. 72-6761, for the purpose of constructing an addition to a special education facility, three elementary schools, a junior high school, an addition to Olathe South High School and of purchasing two elementary school sites and a junior high school site, and purchasing and acquiring equipment and furnishings, and paying fees incidental thereto. A special mail ballot Bond election was held October 4, 1983, at which the voters of the School District approved the issuance of the Bonds. The Bonds and the interest thereon will constitute general obligations of the School District, payable from ad valorem taxes which may be levied without limitation as to rate or amount upon all the taxable tangible property, real and personal, within the territorial limits of the School District.

(continued)

Legal Opinion. The Bonds will be sold subject to the legal opinion of GAAR & BELL, Overland Park, Kansas, Bond Counsel, whose approving legal opinion as to the validity of the Bonds will be furnished and paid for by the School District, printed on the Bonds and delivered to the successful bidder as and when the Bonds are delivered. Said opinion will also state that in the opinion of Bond Counsel, under existing laws and regulations, the interest on the Bonds is exempt from federal income taxation and from Kansas intangible personal property taxes.

Delivery and Payment. The School District will pay for printing and registering the Bonds and will deliver the same properly prepared, executed and registered without cost to the successful bidder within 45 days after the date of sale at such bank or trust company in the contiguous United States of America as may be specified by the successful bidder. The successful bidder will also be furnished with a certified transcript of the proceedings evidencing the authorization and issuance of the Bonds and the usual closing proofs which will include a certificate that there is no litigation pending or threatened at the time of delivery of the Bonds affecting their validity. Payment for the Bonds shall be made in federal reserve funds, immediately subject to use by the School District.

Good Faith Deposit. Each bid shall be accompanied by a cashier's or certified check drawn on a bank located in the United States of America in the amount of \$307,000 payable to the order of the School District to secure the School District from any loss resulting from the failure of the bidder to comply with the terms of its bid. No interest will be paid upon the deposit made by the successful bidder. Said check shall be returned to the bidder if its bid is not accepted. If a bid is accepted, said check will be held by the School District until the bidder shall have complied with all of the terms and conditions of this Notice, at which time the check will be returned to the successful bidder or paid to its order at the option of the School District. If a bid is accepted but the School District shall fail to deliver the Bonds to the bidder in accordance with the terms and conditions of this Notice, said check will be returned to the bidder. If a bid is accepted but the bidder shall default in the performance of any of the terms and conditions of this Notice, the proceeds of such check will be retained by the School District as and for liquidated damages.

CUSIP Numbers. It is anticipated that CUSIP identification numbers will be printed on certificated Bonds or assigned to uncertificated Bonds, but neither the failure to print such number on or assign such number to any Bond nor any error with respect thereto shall constitute cause for failure or refusal by the purchaser thereof to accept delivery of and pay for the Bonds in accordance with the terms of the purchase contract. All expenses in relation to the assignment and printing of CUSIP numbers on the Bonds will be paid by the School District.

Bond Rating. The School District has applied for ratings on the Bonds herein offered for sale.

Bid Forms. All bids must be made on forms which may be procured from the Clerk of the Board of Edu-

cation or the Financial Advisor. No additions or alterations in such forms shall be made and any erasures may cause rejection of any bid. The School District reserves the right to wave irregularities and to reject any or all bids.

Submission of Bids. Bids must be submitted in sealed envelopes addressed to the undersigned Clerk of the Board of Education, and marked "Proposal for the Purchase of General Obligation Bonds." Bids may be submitted by mail or delivered in person to the undersigned at 1005 Pitt Street, P.O. Box 2000, Olathe, Kansas 66061, and must be received by the undersigned prior to 11:00 o'clock a.m., Central Standard Time, on Thursday, November 17, 1983.

Official Statement. The School District has prepared a Preliminary Official Statement dated October 27, 1983, copies of which may be obtained from the Clerk of the Board of Education or from the Financial Advisor. Upon the sale of the Bonds, the School District will adopt the final Official Statement dated December 1, 1983, and, at the request of the successful bidder, will furnish the successful bidder with a reasonable number of copies thereof without additional cost. Additional copies may be ordered by the successful bidder at its expense.

Assessed Valuation and Indebtedness. The total assessed valuation of the taxable tangible property within the School district for the year 1982 is \$147,761,827. The total general obligation indebtedness of the School District as of the date of the Bonds, including the Bonds being sold, is \$40,705,000.

Additional Information. Additional information regarding the Bonds may be obtained from the Clerk of the Board of Education, or from the Financial Advisor, Zahner & Company, 127 West Tenth Street, Kansas City, Missouri 64105, Attention: Mr. W. B. Tschudy (816/221-4311).

Division of Accounts and Reports

K.A.R. 1-16-15: This permanent regulation prescribes those instances in which an employee may receive a reduced subsistence allowance. The primary change to the regulation is to require a reduced subsistence allowance in certain instances in which the head of an agency heretofore could, at his or her discretion, either approve payment of the subsistence allowance established by regulation or approve payment of a reduced allowance. Also, the regulation would require a reduced subsistence allowance in cases where state housing is provided by a state agency.

Copies of the full text of these regulations and of the related fiscal impact statement may be obtained for Division of Accounts and Reports, State Office Building, Topeka, Kansas 66612, phone number (913) 296-2311 (KANS-A-N 561-2311).

K.A.R. 1-2-71: Amendments to this regulation expand reemployment eligibility to include employees who are voluntarily laid off, employees who take transfers or demotions to avoid being laid off and those employees who are considered permanent for layoff purposes.

K.A.R. 1-4-8: Amendments to this regulation state that an incumbent in a reallocated position must have all required licenses or certificates in order to be appointed to the new class.

An individual reemployed to the same class must be paid on the same step of the range. An individual reemployed to a lower salaried class can be placed on any step not lower than the step on which the employee was paid prior to layoff. A reinstated employee may be paid on the same step or on a lower step.

(continued)

K.A.R. 1-6-29: Amendments to this regulation relate to determination of salary for employees on acting assignment.

A public hearing will be held at 1:30 p.m., November 29, 1983, in the Topeka-Shawnee County Health Department Conference Room at 1615 W. 8th Street, Topeka, Kansas, to consider a proposal to amend Article 43, regarding the construction, operation, leak detection, monitoring and abandonment of salt solution mining wells. An additional regulation, K.A.R. 28-43-11, is included with the amended regulations which addresses funding of the program by fee assessment on the industry. Persons unable to attend may mail their comments to the Kansas Department of Health and Environment, Bureau of Oil Field and Environmental Geology, Forbes Field, Building #740, Topeka, Kansas 66620, telephone 913-862-9360, on or before December 2, 1983. A public hearing will be held at 9:00 a.m., November 30, 1983, in the Topeka-Shawnee County Health Department Conference Room at 1615 W. 8th Street, Topeka, Kansas, to consider a proposal to amend Article 41 regarding oil field waste disposal. K.A.R. 28-41-9 which deals with fee assessments on the first purchase of oil and gas will be heard as both a temporary and permanent regulation set.

These regulations control the handling of oil field waste disposal. The proposed changes clarify language and definitions and set out more specifically the requirements for handling oil field waste. They also provide fee assessments against the first purchase of oil and gas produced in Kansas.

When the 1983 Legislature passed Senate Bill 414, it mandated that all fee supported agencies collect fees sufficient to cover the costs of implementing each regulatory program through whatever statutory authority has been granted under existing statutes. The existing fees do not cover the cost of implementing Article 41, therefore, it is necessary to increase these fees.

Oral and written testimony will be accepted at the hearing. Persons unable to attend may mail their comments to the Kansas Department of Health and Environment, Bureau of Oil Field and Environmental Geology, Forbes Field, Building #740, Topeka, Kansas 66620, telephone 913-862-9360, on or before December 2, 1983. Copies of the proposed regulations and the fiscal impact statement will be available at the hearing or may be obtained in advance upon request from the above.

Draft copies of the proposed regulations are also available for public inspection at the following locations:

The following is a brief summary of the regulations and proposed amendments:

K.A.R. 28-41-1 through 28-41-9 govern oil field waste disposal. The regulations are to be amended as follows:

K.A.R. 28-41-1, covering the definitions for Article 41, is amended to clarify language and to better define the terms used in the regulations. It also adds some definitions.

K.A.R. 28-41-2 governs applications for surface pond permits. It is amended to expand the uses of a surface pond and to clarify the procedure for making application for the securing of a pond permit.

K.A.R. 28-41-3 governs the issuance of and limitations concerning surface pond permits. The regulation is amended to include several conditions controlling the validity of a surface pond permit.

K.A.R. 28-41-4 governs surface pond construction. Amendments include a complete rewriting of the regulation for increased clarity.

K.A.R. 28-41-5 governs the abandonment of surface ponds. The regulation is amended to specify the approved methods of disposal of fluids upon abandonment of the ponds, as opposed to the original language which stated that the fluids must be disposed of in a manner acceptable to the director.

K.A.R. 28-41-6 governs authorized signatures for pond permits. It is amended to require the signature of the director of the division of environment instead of the director of the bureau of oil field and environmental geology.

K.A.R. 28-41-7 governs automatic temporary pond permits. The regulation is amended to clarify language and to add restrictions on time of use and eliminates the automatic 14 day permit for storage of fluids entering the pond after emergency spillage occurs.

K.A.R. 28-41-8 governs fittings to be installed so that measurements of injection pressures may be measured. The regulation is amended to require that a fitting be installed only on wells injecting under wellhead pressure.

K.A.R. 28-41-9 governs an assessment against all oil and gas produced in the state, to be paid by the first purchaser after the oil and gas has been severed from the earth. The amendments raise the assessment for oil from \$.006 to \$.008 per barrel and for gas from \$.00018 to \$.00024 for each 1,000 cubic feet of gas, clarify language, and change the reporting date from the 15th to the 20th of each month.

DEPARTMENT OF HEALTH AND ENVIRONMENT

NOTICE OF HEARING ON PROPOSED TEMPORARY AND PERMANENT ADMINISTRATIVE REGULATIONS

A public hearing will be held at 3:00 p.m., November 29, 1983, in the Topeka-Shawnee County Health Department Conference Room at 1615 W. 8th Street, Topeka, Kansas, to consider a proposal to amend Article 45, regarding the construction, operation, monitoring and abandonment of hydrocarbon storage wells. The proposal changes will address minor changes in the regulatory language, which will clarify both the compliance and implementation portions of these regulations. One additional regulation, K.A.R. 28-45-11, is included with the amended regulations which addresses funding of the program by fee assessment on the industry. The proposed K.A.R. 28-45-11 will be heard as both temporary and permanent regulation sets.

These regulations provide regulatory guidance in the construction, monitoring and abandonment of hydrocarbon storage wells. These regulations address the protection of groundwater from possible contamination during the operation and abandonment of hydrocarbon storage wells.

When the 1983 Legislature passed Senate Bill 414, it mandated that all fee supported agencies collect fees sufficient to cover the costs of implementing each regulatory program through whatever statutory authority has been granted under existing statutes. No fees have ever been established or discussed to cover the cost of implementation of Article 45, and an assessment system to recover the expenses of administration of hydrocarbon storage wells regulations must be formulated.

Oral and written testimony will be accepted at the hearing. Persons unable to attend may mail their comments to the Kansas Department of Health and Environment, Bureau of Oil Field and Environmental Geology, Forbes Field, Building #740, Topeka, Kansas 66620, telephone 913-862-9360, on or before December 2, 1983. Copies of the proposed regulations and the fiscal impact statement will be available at the hearing or may be obtained in advance upon request from the above.

Draft copies of the proposed regulations are also available for public inspection at the following locations:

KDHE, District Office, 202 Century Plaza Bldg.,
111 W. Douglas, Wichita, Kansas

KDHE, District Office, One West Ash, Chanute,
Kansas

KDHE, District Office, 302 W. McArtor Road,
Dodge City, Kansas

KDHE, District Office, 1014 Cody, Hays, Kansas

KDHE, District Office, 2501 Market Place, Suite D
& E, Salina, Kansas

(continued)

The following is a brief summary of the regulations and the proposed amendments:

K.A.R. 28-45-1 through 28-45-10 are regulations governing hydrocarbon storage wells and well systems. K.A.R. 28-45-1, describing the scope of Article 45, is to be revoked. K.A.R. 28-45-2, regarding definitions, is to be amended by the addition of a definition of "well system." K.A.R. 28-45-6, governing the operation and construction of existing hydrocarbon storage wells, is to be amended to clarify the language of the regulation. K.A.R. 28-45-9, governing plans for drilling and operation of new wells and submission of plans to the division of environment, is to be amended to include a new heading entitled "operational plan requirements." Also, the amendments cover the re-

quired submissions and state approval of plans and plan alterations for the operation of all hydrocarbon storage wells and well systems, existing as well as new.

K.A.R. 28-45-11 is added to assess costs of regulating the underground storage of hydrocarbons in bedded salt deposits against all persons operating such facilities. Assessments for FY 1984 are to be \$42,000, and the assessments for each succeeding year are to be levied according to the actual cost to the state during the previous fiscal year which ends on June 30.
