NOTICE OF HEARING

A public hearing will be conducted at 7:30 p.m. Tuesday, March 7, by the Kansas Department of Health and Environment (KDHE), Bureau of Air Quality and Radiation Control (BAQRC), at the Black and Gold Room in the Fort Hays State University Union, Hays, to consider the issuance of a permit under the provisions of Kansas administrative regulations for air pollution control to the Yuasa-Exide Corp. (Exide) for the installation and operation of a lead-acid battery manufacturing facility. This facility will occupy the property formerly owned by Travenol Laboratories, Inc., One Exide Road, Hays.

The BAQRC has evaluated the air emission estimates for this facility and has determined that the facility can be expected to comply with the lead emission limitations of K.A.R. 28-19-129, Standards of Performance for Lead-Acid Battery Manufacturing Plants. The BAQRC has also conducted air pollutant dispersion modeling studies of the lead air emissions estimated to be emitted from the facility. These studies have shown that the national ambient air quality standard (NAAQS) for lead will not be adversely impacted by this facility operating continuously and at the stated battery production rate.

The complete administrative record for this proposed permit is available for public inspection through March 17 by contacting Richard Robinson at the BAQRC office, 2301 E. 13th, Hays; and at the BAQRC office, Building 740, Forbes Field, Topeka. Questions pertaining to this proposed permit should be directed to L. C. Hinthier at the BAQRC office in Topeka, (913) 296-1576.

All interested parties may submit relevant written comments prior to the public hearing by addressing them to the Secretary of Health and Environment, Landon State Office Building, 900 S.W. Jackson, Topeka 66612. Interested parties also will be given a reasonable opportunity during the public hearing to present relevant verbal comments. In order to give all parties an opportunity to present their verbal comments, the hearing officer may limit the time period of individual comments.

All written and verbal comments received will be considered by the Secretary of Health and Environment before a final decision on the issuance of the permit is made.

KANSAS RACING COMMISSION**NOTICE OF HEARING
ON PROPOSED
ADMINISTRATIVE REGULATIONS**

A public hearing will be conducted at 9 a.m. Monday, March 27, in the training room, second floor, 128 N. Kansas Ave., Topeka, to consider the adoption of proposed temporary and permanent regulations of the Kansas Racing Commission. This 30-day notice is to constitute a public comment period for the purpose of receiving written public comments on these proposed regulations.

A copy of the full text of the regulations and the economic impact statement may be reviewed or obtained at the commission office, 128 N. Kansas Ave., Topeka 66603. The following is a summary of the regulations:

K.A.R. 112-4-15 includes the prohibitions against persons training race horses under the parimutuel racing program of the state of Kansas. The regulation lists the consanguinity of the suspended trainer that is prohibited from training race horses previously trained by a suspended trainer. In addition, the regulation lists procedural prohibitions against the trainer taking charge of horses previously trained by a suspended trainer. The regulation is designed to remove a race horse from the care and training of a trainer once that trainer has been suspended after being found guilty of a violation of the Kansas Parimutuel Racing Act. The regulation will positively affect the wagering public by providing a wagering interest that is trained to race by competent individuals who abide by the racing act. The economic impact cannot be measured at this time.

K.A.R. 112-4-19 includes the requirements for licensure of owners of a horse or greyhound with a 10 percent or greater interest by corporation, partnership, syndicate or other association or entity. In addition, the documents required for showing ownership must disclose facts including each and every shareholder by name and mailing address, terms of sale, and to whom winnings are payable. The regulation identifies persons at critical moments such as the time of sale of the animal or at the time the animal wins a race. Persons affected by the regulation include the owners of racing animals, purchasers of such animals and the wagering public who will have the opportunity to know the owners of the animals on which they wager. The precise economic impact of this regulation cannot be shown at this time.

K.A.R. 112-4-22 simply states that the licensing procedure shall be complete before an applicant for a license shall work on a racetrack. Each and every applicant will be affected by this regulation that ensures the proper training and background of individuals working in the racing industry before they are allowed to participate. While the economic impact is not known, it can be said that ensuring proper character and experience of licensees contributes to the integrity of racing and increases the wagering interest for the wagering public.

K.A.R. 112-8-3 and K.A.R. 112-8-9 include requirements for ownership of a greyhound, identification, qualifications for entry of a greyhound in a parimutuel race, the blind draw for entry and the draw for position. In

addition these regulations outline the requirement for inspection of the racing track prior to the first race of a performance to assure safe and formful racing. The effects of these regulations will be felt by the owners, trainers, organization licensee staff and the commission assistant animal health officer. The economic impact of this regulation is undetermined. However, its effect will benefit the wagerer who can be assured of each wagering interest being properly identified and having an opportunity for as fair a wager as possible. Owners and trainers will also feel the economic impact from the perspective that purses and awards will be based on each greyhound having as even a chance as possible of winning a race.

K.A.R. 112-9-2 includes the location for wagering and the equipment to be used to aid the wagering public. It also includes the requirements for function and control of the equipment. Persons affected by this regulation include the wagerer and mutuel employees. The economic impact of this regulation cannot be precisely stated. In a 19-day racing season completed in the fall of 1988 at Eureka Downs, which drew spectators numbering up to 2,000 on some race days, the handle, or total amount of money wagered, for one day of racing easily exceeded \$150,000 for each day of racing. Future parimutuel racetracks in Kansas are planned to seat more than 6,000 wagerers.

K.A.R. 112-9-3 and 112-9-4 include the requirements that each form of wagering be approved by the commission prior to its use and that the valid parimutuel ticket is the evidence of the requirement for the organization licensee to pay the wagerer the proper portion of the distributable share of the parimutuel pool. The regulation also includes requirements for the printing of certain identification on the parimutuel ticket. The regulation ensures that when the wagerer presents a claim for payoff, both the organization licensee who pays the claim and the wagerer can agree by the information printed on the ticket whether the ticket is valid for payoff. In addition, the prior approval requirement concerning forms of parimutuel wagering allows the commission to safeguard the best interests of racing for the wagering public.

The economic impact of these regulations is not known. K.A.R. 112-9-5 through 112-9-8 speak to issues concerning payment or failure of payment on parimutuel tickets, including uncashed tickets. These regulations also outline the procedures in the event of a claim for a payoff or tickets that are not cashed by a wagerer. Other procedures outlined include accounting to show amounts of monies received and reporting requirements. The regulations clarify the positions of wagerer and organization licensee as to claims and payments of payoffs. The economic impact of these regulations is not specifically known, however, wagering will be improved because the wager and payoff for it will be strictly accounted for.

K.A.R. 112-9-9 through 112-9-14 include the requirements for providing win, place and show pools of money wagered on the first three entrants to finish a race when specified numbers of wagering interests are obligated to start. The regulations also provide for contingencies when fewer than the minimum number of the starters finish a race, or wagerers fail to select the proper entrant for a certain finishing position. In addition, the proper procedure for declaring the official finishing positions of en-

trants is outlined. Procedures for determining the proper distribution of the win, place and show pools are also outlined. This collection of regulations clearly illustrates the procedures for distribution of wagered money to wagers and seeks to avoid confusion between the wagering public, the organization licensee and the commission, which in some instances may be called upon to decide disputed claims for a payoff. The exact economic impact of these regulations cannot be determined, but the clear definition of procedure will give the wagering public the security of knowing that the parimutuel pools are managed in the best interests of racing.

K.A.R. 112-9-15 through 112-9-18 include "exotic" forms of wagering not related to the win, place and show pools and include requirements for selecting certain entrants to finish in various positions to create a payoff for the wagerer. The forms of racing included in these regulations include the daily double, the quinella, the exacta, and the trifecta. Each form of wagering involves a single wager, though the wager is placed on more than one entrant and, in the case of the daily double, on more than one race. The regulations also include contingency procedures in the case of circumstances including a scratched entrant or a canceled race that is part of the wager. The purpose of these forms of wagering is to provide the wagerer with more varied opportunities to wager, increased opportunities for chance and, in some cases, increased winnings. There is no prediction as to the economic impact of these four forms of wagering except the observation that at parimutuel racetracks in other states, the enthusiasm for wagering is increased.

K.A.R. 112-9-19 and 112-9-20 include the parlay forms of mutuel wagering in which a ticket is purchased by the wagerer who selects the entrants to finish in specified positions in the race depending on the form of wagering and then exchanges a winning ticket for a second ticket on a second race in which the same kinds of selections are made. These are known as the twin quinella pool and the twin exacta pool. The economic impact is not exactly known, except the amount of wagering at parimutuel racetracks has been observed to increase with an increasing enthusiasm for this kind of "exotic" wagering.

K.A.R. 112-9-21 and 112-9-22 includes the requirements for a form of wager in which the wagerer makes a win only selection in a number of different races up to 10, depending on the number of races designated by the organization licensee and approved by the Kansas Racing Commission. This form of wager may be known as the "Daily Triple," "Pick Three," "Pick Six," "Pick Eight," or "Pick Ten." This varied form of wager is allowed to meet the organization licensee and wagering public desire for varied forms of wagering. Its economic impact is not known at this time, though the "exotic" wagers have been shown to increase wagering at other parimutuel racetracks.

K.A.R. 112-9-23 through K.A.R. 112-9-25 include the requirements for payoff by the organization licensee in the event of a minus pool, errors in the posted payoff and payment for errors in the payment amounts. These clear instructions prevent confusion for both the organization licensee and the wagerer as to the disposition of wagered money. The economic impact of these regulations cannot be known at this time.

K.A.R. 112-9-26 through K.A.R. 112-9-28 include requirements and the placing of responsibility upon the mutuel manager for payoff prices and emergencies that may arise in the mutuels department. In addition, requirements of cooperation of mutuel managers and totalisator representatives with Kansas Racing Commission investigations and hearings are stated. The regulations also include a prohibition against acceptance of wagers from outside the racing facility enclosure. These regulations ensure the correctness of the flow of money involved in gate entrance, proper distribution of wagered money and management of emergencies in the mutuels department where wagered money is accounted for, distributed and managed. Persons affected by these regulations include the wagering public, mutuels employees, totalisator representatives and the organization licensee. The economic impact of this regulation is not known at this time.

K.A.R. 112-9-29 requires the organization licensee to print the probable win odds for each wagering interest. This requirement allows the wagerer to make educated choices while wagering. Its economic impact on the organization licensee who provides the service and the wagerer who takes advantage of it is not known.

K.A.R. 112-9-30 through 112-9-34 include prohibitions against certain wagers such as wagering after the start of a race, wagering by persons under 18 years of age, certain other persons prohibited from wagering, and certain forms of wagers by jockeys. These regulations also prohibit the distribution of unapproved racing selection services at a racetrack facility. These regulations prohibit wagering by those who lack the capacity to wager or who may have an unfair advantage in wagering or those who may create an unfair conflict of interest by wagering. Because of the economic uncertainty in wagering, it cannot be said how much money would be diverted from the racing fund or from the hands of certain wagerers if one jockey were to wager heavily on a horse other than his own mount for the purpose of not giving his best effort or crowding a more favored competitor out of a win. It also cannot be said how much more or less a minor who wagers might take home from the racetrack, nor can it be estimated how the flow of wagered money might be diverted should an organization licensee or its employees who might have the advantage of greater knowledge than most wagerers should they be allowed to wager.

K.A.R. 112-9-35 includes the requirements for an entry to be a wagering interest. The regulation allows the wagerer to wager on a wagering interest that may be more than one racing animal and not lose the chance to win if one of the animals is scratched from the race. The economic impact of this regulation is not known.

K.A.R. 112-9-36 includes the procedural requirements for the organization licensee to report the loss of any evidence of proper distribution of parimutuel pools. These requirements allow the accounting for money in the pools when the indicators of their distribution are not available. Because the amount that will be wagered in the upcoming racing season at three parimutuel racetracks is unknown, the economic impact of this regulation cannot be measured.

K.A.R. 112-9-37 and K.A.R. 112-9-38 include the requirements for the distribution of parimutuel pools to

(continued)

wagerers and distribution of purses to owners when two wagering interests cross the finish line at the same time. This regulation alleviates confusion as to the distribution of these moneys if a dead heat occurs. There is no economic impact as the amounts wagered or held as purses are generally equitably divided among those involved in a dead heat.

K.A.R. 112-10-2 and K.A.R. 112-10-3 include the duties of and prohibitions against the various veterinarians at a horse racetrack facility. These veterinarians include the commission-employed animal health officers and privately employed practicing veterinarians. The regulations clearly instruct these veterinarians to avoid confusion and conflicts of interest. A precise economic impact cannot be stated; however, the wagering public and owners and trainers can be assured of as fair a competition as possible because of the division of duties of inspecting and caring for racing horses.

K.A.R. 112-10-4 through 112-10-6 include the requirements for and prohibitions against administration of medication to horses on racetracks. The regulations allow some medication of horses without removing them from competition. Restrictions against other types of medication for competing horses is designed to prevent altered performance of the horse. The economic impact of these regulations is not known.

K.A.R. 112-10-7 through 112-10-9 include the requirements and procedures for the testing of racing horses for substances not naturally occurring within the bodily fluids of the horse. The test samples are available to owners of tested horses who may have private tests conducted to detect the presence of substances not naturally occurring in a racing horse. This testing results in the assurance of a fairly run race without the influence of medications that can affect the outcome of a race and the payoff to the wagerer.

K.A.R. 112-10-10 restricts certain bandages from being used on a horse during a race. The regulation allows the wagerer as well as a prospective claimant of a horse to inspect each wagering interest. The economic impact of this regulation cannot be measured precisely.

K.A.R. 112-10-11 outlines the restrictions against horses at racetrack facilities that have had certain nerves removed from a leg. This procedure removes pain of movement, but can cause danger during a race. In addition, the lack of knowledge that a racing horse has had a posterior digital neurectomy performed presents an unfair impediment to the wagerer. The economic impact of this regulation will be on the wagerer who will wager with fuller knowledge of the fitness of the wagering interest and upon the racing horse owner or trainer who may be unable to race for purse money with a horse in this condition.

K.A.R. 112-10-11 outlines the procedures and requirements concerning postmortem examination of a horse. The regulation is designed to expose the cause of disease which, if left undetected, might spread to other horses at the racing facility, or the illicit use of medication. Each party connected to the racing industry is affected by this regulation because of its universal application to one of the basic elements of parimutuel horse racing. While its effects are widespread, it is not known how many times this procedure will be implemented in one year of racing

in Kansas and its economic impact cannot be specifically stated.

K.A.R. 112-13-3 includes the requirements that kennel owners contracting to supply greyhounds in contract kennels at Kansas racetracks and owners or lessees of greyhounds in public kennels must meet to kennel and race greyhounds at a greyhound parimutuel racetrack in Kansas. The regulation also requires commission approval of payment to trainers at public kennels. The requirements are intended to create economic development of the greyhound industry in Kansas and protect the interest of greyhound owners or lessees in the public kennel by guarding the potential for abuse by those who would pay compensation to a trainer responsible for the schooling of several greyhounds owned by diverse owners or placed in the kennel by diverse lessees. The precise economic impact of the regulation is not known at this time.

SOCIAL AND REHABILITATION SERVICES**NOTICE OF CHANGE IN MEDICAID REIMBURSEMENT METHOD**

In accordance with 42 *Code of Federal Regulations* 447.205, public notice is given concerning a change in the method of Medicaid reimbursement for inpatient general hospitals performing liver transplants for Kansas Medicaid recipients.

This change removes a cap of \$100,000 from the amount payable for each liver transplant surgery and instead allows the amount payable by the Kansas Medicaid Program to be based upon the lesser of costs or charges as determined in an annual settlement with the inpatient general hospital in which the liver transplant surgery is performed. This change is expected to cost an additional \$1,022,616 annually.

This change is being made in order to secure federal approval of the reimbursement methodology and to secure federal financial participation in the costs of liver transplant surgery for Kansas Medicaid recipients.

The Department of Social and Rehabilitation Services office in each county may be contacted in order for the public to view the proposed change. Written comments may be sent to the Kansas Department of Social and Rehabilitation Services, Division of Medical Programs, Room 628-S, Docking State Office Building, 915 Harrison, Topeka, KS 66612.

A public hearing will be conducted at a future date presently unassigned. The Department of Social and Rehabilitation Services, Division of Medical Programs, may be contacted to obtain the date.

K.S.A. 39-1401 *et seq.* confidentiality provisions do not prohibit due process procedures, but such procedures are not absolutely mandated if the placement of a name on a list by the State Department of Social and Rehabilitation Services pursuant to K.S.A. 39-1401 *et seq.* does not threaten or cause the loss of a constitutionally protected interest in liberty or property. Automobiles and Other Vehicles—Drivers' Licenses; General Provisions—Examinations, Seizure Disorders. Mark A. Burghart, General Counsel, Department of Revenue, Topeka, February 2, 1989.

The Department of Revenue's procedure for suspending the driver's license of an individual found to have sustained a seizure involving the loss of consciousness while in the waking state within the preceding 12 months meets Fourteenth Amendment due process hearing requirements. While a full evidentiary hearing is not available to the licensee until after the suspension becomes effective, the degree of deprivation (in view of the opportunity for a hearing within 30 days and the availability of a restricted license in hardship cases) and any risk of erroneous deprivation are outweighed by the government's

interest in highway safety. Cited herein: K.S.A. 8-237; K.S.A. 1988 Supp. 8-247; 8-255; 8-259; K.A.R. 92-52-11; United States Constitution, Amendment XIV. JLM

Constitution of the State of Kansas—Apportionment of the Legislature—Reapportionment of Senatorial and Representative Districts.

Constitution of the State of Kansas—Education—Members of State Board of Education. Senator Ben E. Vidricksen, 24th District, Salina, February 3, 1989.

Reapportionment of the Senate need not necessarily coincide with reapportionment of the House of Representatives. However, because current population figures reflect a 44.4 percent total deviation in State Board of Education member districts, it is our opinion that the Equal Protection Clause of the Fourteenth Amendment to the United States Constitution requires that board member districts be reapportioned before the 1990 election of board members. Board member districts are based on senatorial districts. Thus, unless the senatorial districts can be regrouped to significantly lessen the current total deviation in population among board member districts, the Senate must be reapportioned in 1989. Reapportionment of the Senate in 1989 will not affect the terms of office of incumbent senators. JLM

(b) Each matter regarding entry, eligibility and racing shall be determined by the stewards. Each entry, declaration and scratch shall be supervised by the stewards.

(c) If a vacancy occurs among the racetrack officials, a substitute shall be appointed by the stewards immediately. The appointment shall be effective until the vacancy is filled in accordance with article 112 of the Kansas administrative regulations.

(d) The stewards' jurisdiction over any matter shall commence 72 hours before any entry is taken for the first day of racing at the meet and shall extend until 30 days after the last day of the meet. If a dispute arises during a race meet that is not settled within the stewards' 30-day jurisdiction, the authority of the stewards may be extended by the commission until the matter is resolved or until it is referred or appealed to the commission.

(e) Each penalty shall be imposed by the stewards in accordance with the Kansas administrative procedure act and article 112 of the Kansas administrative regulations.

(f) Any licensed individual under the supervision of the stewards may be penalized by the stewards as follows:

(1) Suspension of the licensee's license for a period of not more than one year per violation;

(2) imposition of a fine not to exceed \$250 per violation;

(3) exclusion of the licensee from each racetrack facility in this state; or

(4) any combination of these penalties.

(g) Each penalty shall be reported immediately to the commission by the stewards.

(h) Any horse may be suspended from participating in races for a period of time determined by the stewards if the horse does not meet the requirements of or has been involved in any violations of article 112 of the Kansas administrative regulations or any provisions of the Kansas parimutuel racing act, including but not limited to the following:

(B) any suspension or revocation of an occupation license by the stewards or the commission or any racing jurisdiction recognized by the commission.

(i) Any matter within the jurisdiction of the stewards may be referred to the commission with or without recommendation.

(j) Any fine imposed by the stewards or the commission shall be due and payable to the commission within 72 hours after imposition unless the fine is stayed by order of the stewards, the commission or a court having jurisdiction. However, when both a fine and a suspension are imposed by stewards or the commission, the fine shall be due and payable on the day the suspension expires. Any individual who has failed to pay a fine when it is due and payable may be immediately suspended by the stewards.

A daily report that details each raceday's activities, which shall include but not be limited to each foul and disqualification, each disciplinary hearing, each fine and each suspension, the conduct of each race, each interruption and delay and the condition of the racetrack facility shall be prepared by the stewards and submitted to the executive director within 72 hours of the race date that is the subject of the report.

(l) Each horse that has entered a race or that has run

in a race shall be tested or examined by a qualified person when ordered by the stewards. Any ownership papers, certificates, documents of eligibility, contracts or leases pertaining to any horse at the racetrack facility may be examined by the stewards.

(m) If the stewards determine a race or races cannot be conducted in accordance with the regulations, they shall cancel each race. If a mechanical failure or any interference during the running of any race affects the horses in the race, the race may be declared a no contest by the stewards. If no horse covers the course of the race, the race shall be declared no contest.

(n) Any horse's trainer may select a substitute jockey if a jockey who is named to ride the horse in a race is unable to fulfill his engagement and is excused by the stewards. Each trainer shall be responsible for securing a jockey for the trainer's entered horse. If no substitute jockey is available, the horse may be scratched from the race by the stewards. If the stewards scratch a horse, no individual shall be entitled to any refund of nomination, sustaining, penalty payments or entry fees. Any horse may be placed in the temporary care of any trainer the stewards select if the trainer of a horse is absent. However, the owner and the substitute trainer shall approve its entry or competition in a race before it is allowed to enter or race. Each substitute trainer shall sign the entry card.

Each horse on the stewards' list shall be refused entry until it has demonstrated to the stewards or their representative that it can race safely. (Authorized by and implementing K.S.A. 1987 Supp. 74-8804, as amended by L. 1988, Ch. 315, Sec. 3; effective T-112-1-19-89, Jan. 19, 1989; effective April 10, 1989.)

If the assistant starters are unavailable to head a horse, the horse's trainer shall be responsible to provide qualified individuals to head or tail a horse in the starting gate. Each starter shall establish qualifications for and maintain a list of qualified individuals approved by the stewards who may head or tail a horse in the starting gate. Each assistant starter or individual handling a horse at the starting gate shall not impede the start of the race, whether intentionally or otherwise. Only the jockey, starter, assistant starter or header handling the horse at the starting gate may apply a whip or other device in an attempt to load the horse in the starting gate. Only each jockey shall slap, boot or otherwise attempt to dispatch the horse the jockey is riding from the starting gate.

(c) Each starter shall maintain a starter's list of each horse that is ineligible to be entered in any race because of poor or inconsistent performance in the starting gate. Each horse on the starter's list shall be refused entry until it has demonstrated to the starter or the starter's rep-

(b) Each paddock judge shall supervise the assembling of the horses scheduled to race, the saddling of horses in the paddock, the mounting of the jockeys and their departure for the post.

(c) Each paddock judge shall keep a record of all equipment carried by each horse in each race under the paddock judge's jurisdiction. Equipment carried by each horse shall not be changed without prior approval of the stewards. At the request of the stewards, each paddock judge shall report the equipment carried by any horse.

(e) Any paddock judge may permit a horse to be lead to the post by a properly licensed pony person.

(f) Each paddock judge shall report any irregularity to the stewards. (Authorized by and implementing K.S.A. 1987 Supp. 74-8804, as amended by 1988 HB 2774, Sec. 3; effective T-112-1-19-89, Jan. 19, 1989; effective April 10, 1989.)

In case of a dead heat or a disagreement about the correct order of the finish, the decision of the stewards shall be final. If an objection is made and sustained against the winner or any horse placed within the purse, this regulation shall not prevent the placing judges from correcting any mistake subject to confirmation by the stewards.

(b) If the placing judges disagree about the order of finish, the placing judges shall inspect a photograph of the finish. A determination by a majority of the placing judges shall establish the order of finish, and that determination shall be final. If the winning range is less than half a length, or if the horses are widely spaced across the track, a photograph of the finish shall be inspected by the placing judges and an identical copy shall be posted for public observation.

(c) Each placing judge shall consider only the position of the horses' noses when determining the most forward

point of progress. (Authorized by and implementing K.S.A. 1987 Supp. 74-8804, as amended by 1988 HB 2774, Sec. 3; effective T-112-1-19-89, Jan. 19, 1989; effective April 10, 1989.)

(r) In each race the number of the first three greyhounds in order of their finish shall be displayed promptly by the racing judges. The number of the greyhound finishing fourth shall also be displayed. If the racing judges disagree about the order of finish, the majority shall prevail.

(s) If the racing judges wish to consult a picture from the photo finish camera, the placements they have agreed upon may be posted without waiting for a picture and, after consulting the picture, each other placement may be posted by the racing judges. However, the race shall not be declared official until the racing judges have determined the greyhounds that finished first, second and third.

The tag shall not be removed until the greyhound has been weighed out and blanketed.

(e) After the greyhounds are placed in the lock-out kennels, each individual, including the paddock judge and kennel master, who enters the lock-out kennel shall first obtain the approval of a racing judge and shall be escorted by the paddock judge or kennel master.

If an organization licensee schedules only three or fewer race days per week, the licensee shall provide a minimum of one official schooling day and two unofficial schooling days per week during the race meet. The official and unofficial schoolings shall be scheduled at specific times and for sufficient duration to allow reasonable time for the greyhounds to school. (Authorized by and implementing K.S.A. 1987 Supp. 74-8804, as amended by 1988 HB 2774, Sec. 3; effective T-112-1-19-89, Jan. 19, 1989; effective April 10, 1989.)

112-8-6. Qualification of greyhounds. (a) Each organization licensed by the commission shall establish criteria to qualify greyhounds based on a satisfactory schooling and subject to the approval of the racing judges.

(b) Each organization licensee shall notify the racing judges of the criteria for qualifying greyhounds and detail what constitutes a satisfactory schooling at least three days before the first day of official schooling. The criteria shall be continuously posted on a notice board in the paddock during the time they are in effect. During the course of the meet, each change in the established qualifying criteria shall be made only with the approval of the racing judges. (Authorized by and implementing K.S.A. 1987 Supp. 74-8804, as amended by 1988 HB 2774, Sec. 3; effective T-112-1-19-89, Jan. 19, 1989; effective April 10, 1989.)

112-8-7. Grading and purse systems. (a) Each organization licensee shall implement a grading system to be approved by the commission. The system shall use the designations A—Feature, A,B,C,D,E and M. Each organization shall also implement a purse system to be approved by the commission. The system shall allocate the total purse. The total purse shall be divided to allocate fifty percent to first place, twenty-five percent to second place, fifteen percent to third place and ten percent to fourth place. The percentages of the total purse shall not apply to stakes money.

(b) Each organization licensee shall submit the proposed grading system and proposed purse system to the commission for approval at least 30 days before the opening of the meet. (Authorized by and implementing K.S.A. 1987 Supp. 74-8804, as amended by 1988 HB 2774, Sec. 3; effective T-112-1-19-89, Jan. 19, 1989; effective April 10, 1989.)

112-8-8. Weights and weighing. (a) Each greyhound shall be weighed not less than one hour before the time of the first race of the day unless prior permission is granted by a racing judge.

(b) Before any greyhound may officially school or race, each owner or trainer shall establish the racing weight of the greyhound with the clerk of scales.

(continued)

(c) If there is a variation of more than one and one-half pounds above or below the established weight of the greyhound at weighing-in time, each racing judge shall order the greyhound scratched.

(d) If any greyhound has lost more than two pounds at weigh-out time from its weigh-in weight while in the lock-out kennel, the racing judges shall order the greyhound scratched. However, if the loss of weight does not impair the racing condition of the greyhound in the opinion of the assistant animal health officer, the racing judges may allow the greyhound to race. Each greyhound that is a weight loser shall be identified with the initials WL on the racing program.

(e) Each weight regulation set out in subsections (a) through (d) of this regulation shall be printed in the racing program.

(f) The racing judges shall scratch a greyhound if there is a variation of more than two pounds between the greyhound's weighing-in weight for the present race and the weighing-in weight for its last race.

(g) Any owner or trainer may file a written request to change a greyhound's racing weight with the racing judges. The judges shall state in writing whether the change is allowed and shall direct the change to be made four calendar days before the greyhound is permitted to start at the new weight.

(1) Each greyhound that has an established weight change of more than one pound shall be schooled at least once at the new established weight before it is eligible to start in a race. The racing judges may require more than one schooling in this event.

(2) Any greyhound that has not raced or schooled officially for a period of three weeks may be allowed to establish a new racing weight with the permission of the racing judge.

(h) Each greyhound shall be placed in lock-out kennels under the supervision of the paddock judge immediately after they are weighed in, and only the paddock judge, veterinarian, kennel master, lead-out, racing judge or commission representative shall be allowed in or near the lock-out kennels. (Authorized by and implementing K.S.A. 1987 Supp. 74-8804, as amended by 1988 HB 2774, Sec. 3; effective T-112-1-19-89, Jan. 19, 1989; effective April 10, 1989.)

112-8-9. Before the race. (a) One assistant animal health officer and one racing judge shall walk the racing strip before the commencement of the first race of each performance to determine whether the racing strip is safe for racing.

(b) If the assistant animal health officer and the racing judge determine inclement weather may cause a condition which could injure the greyhounds, or if the racing strip is in such condition that formful and safe racing cannot be conducted, then the assistant animal health officer and the racing judge or management shall cancel the remainder of the race program.

(c) Any kennel operator or any trainer may accompany the assistant animal health officer and the racing judge during the walk around the racing strip. (Authorized by and implementing K.S.A. 1987 Supp. 74-8804, as amended by 1988 HB 2774, Sec. 3; effective T-112-1-19-89, Jan. 19, 1989; effective April 10, 1989.)

112-8-10. Rules of the race. (a) Each greyhound shall wear a racing muzzle and blanket approved by the racing judges while racing.

(b) Each racing muzzle and blanket shall be carefully examined in the paddock by the paddock judge before the greyhounds leave for the post. Each muzzle and blanket shall be examined another time at the judges' stand in the presence of the racing judges and the public.

(c) Each greyhound shall be exhibited in the show paddock before post time for the race in which they are entered.

(d) Each starting box shall be approved by the commission and shall consist of eight positions. Each starting box lid shall be opened by an automatic starting device. A race starts when the lid to the starting box opens completely.

(e) Each greyhound shall be removed from the starting box in the event of a false start. Whether the race shall be canceled or shall be run after the malfunction in the equipment is corrected shall be determined by the racing judges.

(f) If a greyhound is left in the box when the lid of the starting box opens at the start, there shall be no refund of wagers.

(g) If any greyhound bolts the course, runs in the opposite direction or does not run the entire prescribed distance for the race, the greyhound shall forfeit all rights in the race, and the finish of the race shall be declared the same as if it were not a contender no matter where it finishes. However, the greyhound shall be considered a starter.

(h) If any greyhound bolts the course or runs in the opposite direction during the course of the race and, in so doing, interferes with any other greyhound in the race in the opinion of the racing judges, the race shall be declared a "no race" by the racing judges, and all moneys wagered shall be refunded, except when the interference clearly did not affect the outcome of the race in the opinion of the racing judges.

(i) If any greyhound fails to leave the box for any reason, refuses to race or falls, and it appears the greyhound may interfere with the running of the race, any person stationed around the track under the supervision of the racing judges may remove the greyhound from the track. However, the greyhound shall be considered a starter.

(j) Each race shall not be called official unless the lure is in advance of the greyhounds at all times during the race. If any greyhound or greyhounds catch or pass the lure any time during the race, the race shall be declared a "no race" by the racing judges, and all moneys shall be refunded.

(k) The racing judges shall closely observe the operation of the lure and hold the lure operator to strict accountability for any inconsistency in its operation.

(l) If any race is marred by jams, spills or racing circumstances, other than accident to the machinery while the race is being run, and three or more greyhounds finish, the race shall be declared finished by the racing judges. However, if less than three greyhounds finish, the race shall be declared "no race" by the racing judges, and all moneys shall be refunded.

(m) The winner of a race shall be the greyhound whose racing muzzle first reaches the finish line, unless the greyhound is disqualified by the racing judges for ineligibility or other good cause. In the event a greyhound loses its muzzle or finishes with a hanging muzzle, the tip of the greyhound's nose shall determine its order of finish. The order of finish for all other places shall be determined in the same manner.

(n) If two greyhounds run a dead heat for first place, all prizes and moneys to which the first and second greyhounds would have been entitled shall be divided equally between them. This regulation applies to any division of prizes and moneys, whatever the number of greyhounds running a dead heat and whatever places for which the dead heat is run. (Authorized by and implementing K.S.A. 1987 Supp. 74-8804, as amended by 1988 HB 2774, Sec. 3; effective T-112-1-19-89, Jan. 19, 1989; effective April 10, 1989.)

112-8-11. Limitation on performances. Each organization licensee shall not schedule more than two greyhound performances during one race day. (Authorized by and implementing K.S.A. 1987 Supp. 74-8804, as amended by 1988 HB 2774, Sec. 3; effective T-112-1-19-89, Jan. 19, 1989; effective April 10, 1989.)

112-8-12. Complaints. Each complaint against an official or officials shall be made in writing, signed by the complainant and filed with the racing judges. Complaints that allege the violation of any law of the state of Kansas or regulation of the commission may be made by any person. Each complaint and the racing judges' decision concerning it shall be reported to the commission. (Authorized by and implementing K.S.A. 1987 Supp. 74-8804, as amended by 1988 HB 2774, Sec. 3; effective T-112-1-19-89, Jan. 19, 1989; effective April 10, 1989.)

Article 13.—KANSAS-WHELPED PROGRAM

112-13-2. Kansas-whelped program, certification.

(a) Each person who intends to register a greyhound as a Kansas-whelped greyhound shall:

(A) The present location of the female bred;

(B) The name and address, including the zip code, of each owner or lessee of the female greyhound and each person who will be responsible for the pregnant female or the puppies during the first six months of their lives;

(C) each location of a pregnant female or the puppies during the first six months of their lives; and

(2) if the identity of the person or persons responsible for the pregnant female or the puppies changes, submit the new name and address, including the zip code, of the person or persons responsible to the official registering agency within 10 days of the change. The present location of the pregnant female or the puppies shall be reported at the same time;

(3) notify the official registering agency within 80 days of the breeding whether the female greyhound has whelped or missed; and

(4) furnish to the official registering agency a copy of the national greyhound association litter acknowledgment within 30 days after the puppies are tattooed.

(b) Each person who intends to register a greyhound as a Kansas-whelped greyhound shall submit the national greyhound association original individual registration application to the original registering agency after the greyhound is six months old. If the official registering agency certifies that the greyhound is a Kansas-whelped greyhound, it shall:

(1) Collect the certification fee and affix its official seal on the face of the original individual registration application; and

(2) return the registration application to the applicant.

(c) When the applicant registers each individual greyhound, the applicant shall submit the certified original individual registration application to the national greyhound association.

(d) Upon receiving the certified original individual registration application, the national greyhound association shall issue a certificate of registration to the official registering agency.

(e) The official registering agency shall process the certificate in accordance with procedures approved by the commission, and shall issue the certificate of registration to the applicant within 30 days of its receipt.

(f) If the original individual registration application is lost or destroyed, each duplicate shall be recertified by the official registering agency.

(g) If information is altered or falsified on any registration or certification document, the official registering agency shall cancel the Kansas-whelped greyhound certification.

(h) Each schedule of fees for certification, membership and penalties shall be established by the official registering agency and approved by the commission at least annually.

(i) The official registering agency shall file an annual report with the commission on or before July 1 each calendar year and any periodic reports the commission may request. (Authorized by K.S.A. 1987 Supp. 74-8804, as amended by L. 1988, Ch. 315, Sec. 3; 74-8831; implementing K.S.A. 1987 Supp. 74-8832; effective T-112-1-19-89, Jan. 19, 1989; effective April 10, 1989.)
