Opinion No. 90-21

State Departments; Public Officers and Employees—Kansas Tort Claims Act—Definitions; Employees; Volunteers Who Work as Representatives of the State Long Term Care Ombudsman. Claire K. McCurdy, Chief Counsel, Department on Aging, Topeka, March 2, 1990.

Persons in the service of or acting on behalf of a municipality, as defined by K.S.A. 75-6102(b), are covered by the Kansas tort claims act for acts within the scope of their authority unless such persons are independent contractors. Persons acting on behalf of or in the service of an independent contractor rather than a municipality do not meet the definition of employee as set forth at K.S.A. 75-6102(d) and are therefore not afforded the protections of the Kansas tort claims act. Opinion No. 90-22

Automobiles and Other Vehicles—Licensure of Vehicle Sales and Manufacture—Brokers. Representative Vernon L. Williams, 91st District, Wichita, March 2, 1990.

1990 Senate Bill No. 486, in prohibiting the practice of automobile brokering, is invalid in that it places arbitrary and unreasonable limitations on the conduct of a legitimate business. Cited herein: K.S.A. 1989 Supp. 8-2404; 1990 Senate Bill No. 486; L. 1955, ch. 172. JLM

Opinion No. 90-23

State Boards, Commissions and Authorities—State Board of Technical Professions—Rules and Regulations; Specifications; Public Policy. Representative Bob Vancrum, 29th District, Overland Park, March 2, 1990.

Although an "or equal" clause is not statutorily required to be included in the specifications of an architect, the

public policy of the state of Kansas dictates that the specifications for projects subject to competitive bidding cannot be drafted in such a manner as to exclude the possibility of competition.

The practice of architecture, as a technical profession, is subject to the rules of professional conduct located at K.A.R. 66-6-4. The Board of Technical Professions has authority to determine if a violation of those rules has occurred. Cited herein: K.S.A. 19-214; 19-3516; 50-112; 50-113; K.S.A. 1989 Supp. 72-6760; K.S.A. 74-7001; 74-7003; 74-7013; 74-7026; 74-7029; 75-3739; 77-425. RDS

Opinion No. 90-24

State Departments; Public Officers and Employees—Capitol Area Security and Mail Services—Jurisdiction of Capitol Area Security Patrol. Colonel Donald L. Pickert, Superintendent, Kansas Highway Patrol, Topeka, March 7, 1990.

Members of the Capitol Area Security Patrol may exercise their law enforcement powers only on or about property or buildings owned by the state with limited exceptions. Cited herein: K.S.A. 8-1404; 8-1506; K.S.A. 1989 Supp. 22-2202; K.S.A. 22-2401a; 22-2408; 75-4503; 75-4506; 75-4509; 76-726; L. 1972; ch. 332, §§ 88, 91; L. 1976, ch. 394, § 5. JLM

Opinion No. 90-25

Roads and Bridges—County and Township Roads—County Road Work By or With Contract; Machinery and Equipment; Plans and Specifications to be Filed; "Day Labor" and County Employees. William Bunten, State Representative, 54th District, Topeka, March 7, 1990.

The meaning of the term "day labor" as used in K.S.A. 68-520 is subject to more than one interpretation and thus the statute is sufficiently ambiguous to allow construction. Following rules of statutory construction, the term must be given its ordinary meaning: "labor hired and paid by the day." It is our opinion that this definition of the term does not include permanent county employees who work as road crews, unless those employees are hired and paid on a daily basis. Therefore, counties using county road employees are not required to comply with the filing requirements set forth at K.S.A. 68-520. Cited herein: K.S.A. 68-520. TMN

Notice of Hearing
on Proposed
Administrative Regulations

The office of the Consumer Credit Commissioner will conduct a public hearing at 11 a.m. Monday, April 16, in Room 352-S, Landon State Office Building, 900 S.W. Jackson, Topeka, concerning permanent regulation 75-6-26. All interested parties may present oral or written comments and will be given reasonable opportunity to present their views or arguments on adoption of this regulation at the hearing.

The regulation proposed for adoption as a permanent regulation allows the commissioner to carry out the provisions of K.S.A. 16a-3-206, 16a-5-203 and 16a-5-302.

The purpose of the proposed regulation is to continue the inclusion in Kansas law the disclosure requirements that are no less restrictive than the Federal Truth-in-Lending Act.

The regulation will have no economic impact on creditors, as they would still be required to disclose under federal law. The examiners of the Consumer Credit Commissioner's office spend approximately 15 percent of their examination time on disclosure requirements at a cost of about \$17,500 per year. There will be no economic impact on the consumer.

Copies of the proposed regulation and the economic impact statement can be obtained from the office of the Consumer Credit Commissioner, Room 352-S, Landon State Office Building, 900 S.W. Jackson, Topeka, (913) 296-3151.

This 30-day notice constitutes a public comment period for the purpose of receiving written public comments on the proposed permanent regulation. Written comments may be submitted to the Consumer Credit Commissioner at the address above.

The revocation of K.A.R. 28-44-1 through K.A.R. 28-44-11 and the adoption of new regulations K.A.R. 28-44-12 through K.A.R. 28-44-27 will be considered.

The proposed new underground storage tank regulations accomplish the following:

1. Adopt by reference federal underground storage tank regulations contained in 40 CFR part 280 and 40 CFR part 281.
2. Provide regulations to implement K.S.A. 65-34,100 through K.S.A. 65,34,124.
3. Require submission of an application to install, modify or repair a UST system.
4. Specify standards for the design of a new UST system.
5. Establish fees for a UST operating permit, for an application fee for new systems and for installer licensing fees.

6. Establish requirements for licensing of contractors, installer and UST system testers.
7. Provide minor modifications to the federal release detection and inventory requirements.
8. Modify the federal release reporting requirements to remain consistent with existing Kansas Administrative Regulations.

The proposed regulations are designed to provide KDHE with authority to implement the federal underground storage tank requirements and the provisions of the Kansas Storage Tank Act. For KDHE to obtain state program approval from the U.S. Environmental Protection Agency, it must have regulations that are equal to or exceed the federal requirements.

The regulations proposed by KDHE have a minimal fiscal impact due to the existence of 40 CFR part 280, 40 CFR part 281 and K.A.R. 28-44-1 through 28-44-11. The increase in the UST registration fee from \$3 per tank to \$10 per tank and the fees for contractor and installers licensing are expected to generate the greatest fiscal impact. The increased fees for UST registration is expected to cost the regulated community \$140,000 per year, and the licensing program is expected to cost the regulated community less than \$50,000 per year in fees.

The economic impact of the federal regulations that are adopted by reference were summarized in the *Federal Register* at the time of promulgation.

These regulations will apply to many members of the general public other than service stations. Affected individuals will include farmers owning tanks greater than 1,100 gallons, businesses with underground storage tanks to store motor fuels and heating fuels, and segments of the government with underground storage tanks.

Copies of the proposed regulations and a complete economic impact statement can be obtained by contacting Sivi Nielsen, Kansas Department of Health and Environment, Building 740, Forbes Field, Topeka 66620, (913) 296-1678.

The time period between the publication of this notice and the scheduled hearings constitute a public comment period for the purpose of receiving written public comments on the proposed regulations. All interested parties may submit such comments prior to the hearing by mailing them to the address above. All interested parties also will be given a reasonable opportunity at the hearings to present their views orally or in writing concerning the adoption of the proposed regulations.

Following the hearings, all written and oral comments submitted by interested parties will be considered as the basis for making changes in the proposals.

Notice Concerning Underground Injection Control Permits

The Kansas Department of Health and Environment is providing public notice regarding modification of the Underground Injection Control (UIC) and the Hazardous Waste Facility (HWF) permits issued to Vulcan Materials Company (VMC), located at 6200 S. Ridge Road, Wichita. The proposed modification requires VMC to submit to KDHE a repermit application for the wells within 60 days of the Environmental Protection Agency's final determination on the VMC petition to EPA for an exemption to the prohibition of land disposal of hazardous waste.

KDHE will review the petition information and EPA determination. The secretary will then establish applicable injection limits and a deadline for compliance with the injection limits that will be incorporated into the reissued permits. The proposed modifications also will significantly expand the monitoring and testing requirements for the injection wells and tighten financial assurance, closure and post closure requirements. Additional feasibility reports on neutralizing the waste stream are required to be submitted by VMC to KDHE for review.

On June 30, 1986, VMC was issued permits to operate five Class I Hazardous Waste UIC disposal wells at its Wichita facility. The permits were issued by KDHE's Bureau of Water Protection and regulate the injection of wastes into the Arbuckle Formation at a depth of approximately 4,000 feet below ground surface. Various wastewaters generated by VMC chemical manufacturing activities are disposed of via the UIC wells. On December 19, 1986, the UIC permits were incorporated into the HWF permits issued to VMC by KDHE's Bureau of Air and Waste Management. The only modifications to the HWF permit will be to incorporate the proposed modifications to the UIC permits.

Notice Concerning Variance Request from Hazardous Waste Regulations

The Kansas Department of Health and Environment is providing public notice that on November 20, 1989, Safety-Kleen Corporation, located at 600 E. Trail, Dodge City, submitted a request for a renewal of a variance from specific hazardous waste regulations. The request for a variance has been submitted in accordance with K.A.R. 28-31-13(a).

The variance is requested from K.A.R. 28-31-8 and 40 CFR 265.176, which requires the storage of containers holding ignitable hazardous waste must be located at least 15 meters (50 feet) from the facility's property line.

Safety-Kleen Corporation stores ignitable hazardous waste that is collected from other firms that generate this waste. The hazardous waste is stored prior to being shipped off-site for reclamation. Safety-Kleen Corporation proposes to store this waste in a 300-square-foot storage area located in the northeast corner of the warehouse approximately 10 feet from the east property line in an area zoned for heavy industrial use. KDHE has reviewed the variance request and concluded that the variance is justified.

In accordance with K.A.R. 28-31-13(b), public notice was provided that KDHE considered the request for a variance justified and made a tentative decision to grant the variance. A public comment period to receive comments regarding this tentative decision was established between January 4, 1990, to February 3, 1990. No public comments were received.

Therefore, in accordance with K.A.R. 28-31-13(b), KDHE announces its decision to approve this request for a variance and not to include any special conditions. The variance will become effective on March 15, 1990, and will remain in effect until March 15, 1992.

Notice Concerning Proposed Permit Action

The Secretary of the Kansas Department of Health and Environment is proposing to issue a permit in accordance with K.A.R. 28-19-14 (permits required) to the city of Gardner to install and operate two generators powered by gas turbines on 175th Street approximately one mile east of Gardner.

The city of Gardner has reported two generator sets, each having generating capacity of approximately 1600 kilowatts. They will be operated during periods of peak demand. Natural gas will be used routinely for fuel; No. 2 fuel oil will be used if supply of gas is curtailed. Sulfur content of fuel oil is not to exceed 0.35 percent.

These generators will be limited to an energy production rate of 43,800,000 kilowatt-hours per year. Oxides of nitrogen is the pollutant of concern, and the estimated emissions of this pollutant would be less than 250 tons per year.

Written materials, including the application and information relating to the application submitted by the city of Gardner, draft permit, permit summary and analysis of KDHE describing the basis for the proposed permit, are available for public inspection during normal business hours through April 16 by contacting Michael Boothe, Johnson County Environmental Department, 205 Flaming Road, Olathe 66061. The materials also can be reviewed at the KDHE office, Building 740, Forbes Field, Topeka 66620. Questions concerning this proposed permit should be directed to Gene Saltee, Bureau of Air and Waste Management, Forbes Field, Topeka 66620.

K.S.A. 65-3008 provides that any person affected by the issuance of a permit can request a public hearing prior to issuance of the permit. The request must be in writing and addressed to the secretary. If the secretary determines there is sufficient reason in the request, a public hearing will be conducted—the place, date and time of the hearing will be announced in this publication. A request for a hearing or written comments on the proposed permit must be submitted to the Secretary, Kansas Department of Health and Environment, Landon State Office Building, 900 S.W. The period of 30 days from the date this notice is published to the date of the public hearing constitutes a public comment period for the purpose of receiving written public comments on the proposed rules and regulations. All interested parties may submit written comments prior to the hearing. Comments may be submitted to the State Corporation Commission, Attn: Judith A. McConnell, Executive Director, 4th Floor, Docking State Office Building, Topeka 66612-1571.

The following is a brief summary of the proposed changes to existing regulations and the proposed permanent regulation and the anticipated fiscal impact of each proposed change:

K.A.R. 82-8-100. Definitions. The amendment to this regulation adds the subheading "Wire Stringing Regulations" for the purpose of clarifying that regulations hereunder pertain specifically to the placement of electric wires. No other amendments have been proposed for this regulation.

Economic Impact: None.

K.A.R. 82-8-101. Adoption by reference of the National Electric Safety Code (N.E.S.C.), 1990 Edition. The amendment to this regulation adopts an updated version of the N.E.S.C., 1990 edition. The changes in the updated version of the N.E.S.C. are generally not substantial in nature.

Economic Impact: Cost to the Corporation Commission is approximately \$500 to obtain revised reference material. No significant costs to utilities are anticipated.

This proposed permanent regulation requires the installation of warning buoys and warning spheres for electric lines crossing water areas suitable for sailboating or other water sports. The proposed permanent regulation also provides for waiver of the warning buoy and sphere requirement for good cause demonstrated to the commission.

Economic Impact: The total estimated cost to all utilities to comply with the proposed regulation or obtain a waiver of the regulation is approximately \$119,264. Any cost incurred by a utility to comply with the regulation will be included in its cost of service.

State of Kansas
 Department of Administration
 Permanent Administrative
 Regulations

Article 16.—TRAVEL REIMBURSEMENT

1-16-8. Use of privately-owned or operated conveyance, limitations; reimbursement for transportation and subsistence expenses. (a) *In-state.* Where use of a privately-owned or operated conveyance on official state business is authorized by the administrative head of the agency, reimbursement shall be on a mileage basis at the rate specified, and under the limitations prescribed by K.A.R. 1-18-1a. Mileage shall be calculated in accordance with K.A.R. 1-17-11 except that storage or parking charges for a privately-owned conveyance at any commercial transportation terminal, while the traveler is on an extended trip, and turnpike tolls, may be allowed in addition to this mileage allowance.

(b) *Out-of-state.* Where the use of a privately-owned or operated conveyance on official state business is authorized by the administrative head of the agency instead of common carrier, the traveler shall be allowed private conveyance mileage as prescribed by K.A.R. 1-18-1a to the destination, turnpike tolls, and parking charges, or an amount equal to economy class air fare to the air terminal nearest the destination, whichever is lesser. Out-of-state subsistence allowance shall be allowed only for the number of quarter days which would have been necessary had the traveler used the fastest public transportation available to the destination instead of a private conveyance. No taxi or terminal expenses shall be allowed at the destination. Air terminal shall be defined as the principal terminal in that general geographic area. If two or more travelers on official business travel in one privately-owned conveyance instead of common carrier, the use of one conveyance may be authorized on a mileage basis. In such cases, the subsistence allowed shall be for the number of days it would take by car via the usually traveled route to the point of destination as provided in K.A.R. 1-17-11. Upon written, prior approval of the agency head, exceptions to this subsection may be granted in unusual circumstances when deemed to be in the best interest of the state.

(c) Nothing in this regulation shall apply to any person to which K.S.A. 75-3212 and K.S.A. 75-3216 apply. (Authorized by and implementing K.S.A. 75-3207; effective, E-74-4, Nov. 2, 1973; effective May 1, 1975; amended May 1, 1979; amended May 1, 1981; amended April 30, 1990.)

1-16-18. Subsistence allowance; rates. (a) General provisions.

(1) Except as otherwise specifically provided by law, subsistence allowances for in-state and out-of-state travel shall be paid on the basis of a quarter-day rate for meal expenses and the actual cost of lodging expenses incurred within the lodging expense limits set forth in this regulation. The subsistence rates for meal expenses shall be paid on a per diem basis at the appropriate rate for any fraction of a quarter-day in which the official travel begins and for each full quarter-day thereafter. For purposes of

this regulation, a day shall commence at 12:01 a.m. No quarter-day allowance shall be paid for any fractional quarter-day in which the traveler returns to the traveler's official station or domicile. As used in this regulation, "international travel" means travel outside the fifty states and the District of Columbia.

(2) Reimbursement for lodging shall be made on the basis of actual single-rate lodging expenses incurred, including taxes, and shall be supported by the original official receipt of the lodging place or other suitable evidential matter. Reimbursement for lodging expenses shall be limited to the lodging place's lowest available rate for normal single occupancy on the day or days the lodging expense was incurred.

(3) Subject to the approval of the secretary of administration, the director of accounts and reports may designate any city in a state bordering or near Kansas as a "border city." All meals allowances and lodging expense limitations shall be at the appropriate in-state rate for travel by state personnel to a border city.

(b) Meals allowance. The quarter-day meals allowance shall be:

In-state	\$4.50
Out-of-state	\$5.00
Designated high cost geographic area—out-of-state	\$6.00
International Travel	\$6.00

An exception to the quarter-day meal allowance for international travel may be made at the option of each agency by claiming actual expenses subject to a daily limitation of \$66 for meals.

(c) Lodging expense limitations. The lodging expense limitations shall be:

In-state, exclusive of designated high cost geographic areas	\$ 44.00
In-state, designated high cost geographic area	\$ 55.00
Out-of-state, exclusive of designated high cost geographic areas	\$ 66.00
Out-of-state, designated high cost geographic area	\$94.00
Borough of Manhattan and the District of Columbia	\$108.00
International Travel	actual

Specific exceptions to the dollar limitation on lodging expenses may be made pursuant to provisions in K.S.A. 75-3207a and amendments thereto.

(d) If the cost of meals is included within the cost of registration fees or other fees and charges paid by the agency or supplied without cost by another party, the meal expenses shall be reduced as follows:

In-State Travel:	Amount
For each breakfast provided	\$ 4.00
For each lunch provided	\$ 5.00
For each dinner provided	\$ 9.00
Out-of State Travel:	
For each breakfast provided	\$ 4.50
For each lunch provided	\$ 5.50
For each dinner provided	\$10.00
Travel to High Cost Geographic Areas and International Travel:	
For each breakfast provided	\$ 5.50

(continued)

For each lunch provided \$ 6.50

For each dinner provided \$12.00

(e) This regulation shall take effect on and after July 1, 1990. (Authorized by and implementing K.S.A. 75-3207a; effective, E-80-10, July 11, 1979; effective May 1, 1980; amended, E-81-14, June 12, 1980; amended May 1, 1981; amended, E-82-14, July 1, 1981; amended May 1, 1982; amended, T-84-20, July 26, 1983; amended May 1, 1984; amended May 1, 1985; amended, T-87-26, Oct. 1, 1986; amended May 1, 1987; amended, T-89-1, Jan. 7, 1988; amended Oct. 1, 1988; amended July 1, 1990.)

Article 18.—MAXIMUM ALLOWANCE FOR MILEAGE FOR USE OF A PRIVATELY OWNED CONVEYANCE FOR PUBLIC PURPOSES

1-18-1a. Mileage rates. (a) Subject to the provisions of subsection (d), each employee who has been authorized to use a privately-owned conveyance to engage in official business for an agency shall be entitled to reimbursement for use of that conveyance at the following rates:

(1) 10¢ per mile for the use of a privately-owned motorcycle;

(2) 24¢ per mile for the use of a privately-owned automobile;

(3) 34¢ per mile for the use of a privately-owned airplane; or

(4) 34¢ per mile for the use of a specially equipped van for the physically handicapped.

(b) In addition to the mileage allowance authorized under subsection (a) of this regulation, the employee may be reimbursed for:

(1) parking fees when on an official trip;

(2) toll road and toll bridge costs; and

(3) airplane landing and tie-down fees.

(c) When an employee travels by privately-owned airplane, reimbursement may be made for one round trip in a privately-owned automobile or taxi fare charged in travel:

(1) between the official station or domicile and the airport in the city in which the official station or domicile is located; and

(2) between the airport in the destination city and the place of official business.

(d) Exceptions to the mileage rates prescribed in subsection (a) shall be as follows:

(2) A practitioner may administer or dispense a controlled substance listed in schedule III, or IV or V in the course of the practitioner's professional practice without a prescription, subject to K.A.R. 68-20-18e.

(3) A medical care facility registered with the board may administer or dispense directly, but not prescribe, a controlled substance listed in schedule III, IV or V only pursuant to a written prescription signed by the prescribing practitioner, or to an order for medication made by a practitioner which is dispensed for immediate administration to the ultimate user.

- (C) the name or initials of the dispensing pharmacist or intern.

(2) Additional quantities of controlled substances listed in schedules III or IV may be authorized by a prescribing practitioner through an oral refill authorization transmitted to the pharmacist provided the following conditions are met:

- (A) The total quantity authorized, including the amount of the original prescription, does not exceed five refills

nor extend beyond six months from the date of issue of the original prescription;

(B) the pharmacist obtaining the oral authorization records on the reverse of the original prescription the date, quantity of refill, number of additional refills authorized, and initials of the pharmacist who received the authorization from the prescribing practitioner;

(C) the quantity of each additional refill authorized is equal to or less than the quantity authorized for the initial filling of the original prescription; and

(3) As an alternative to the procedures provided by paragraph (2), an automated data processing system may be used for the storage and retrieval of refill information for prescription orders for controlled substances in schedule III and IV, subject to the following conditions:

(A) Any such proposed computerized system must provide on-line retrieval (via CRT display or hard-copy printout) or original prescription order information for those prescription orders which are currently authorized for refilling. This shall include, but is not limited to, the original prescription number, date of issuance of the original prescription order by the practitioner, full name and address of the patient, name, address, and DEA registration number of the practitioner, and the name, strength, dosage form, quantity of the controlled substance prescribed (and the quantity dispensed if different from the quantity prescribed), and the total number of refills authorized by the prescribing practitioner;

(B) any such proposed computerized system must also provide on-line retrieval (via CRT display or hard-copy printout) of the current refill history for schedule III or IV controlled substance prescription orders (those authorized for refill during the past six months). This refill history shall include, but is not limited to, the name of the controlled substance, the date of refill, the quantity dispensed, the identification code, or name or initials of the dispensing pharmacist for each refill and the total number of refills dispensed to date for that prescription order;

If such a system provides a hard-copy printout of each day's controlled substance prescription order refill data, that printout shall be verified, dated, and signed by the individual pharmacist who refilled such a prescription order. The individual pharmacist must verify that the date indicated is correct and then sign this document in the same manner as the pharmacist would sign a check or legal document. This document shall be maintained in a separate file at the pharmacy for a period of five years from the dispensing date. This printout of the day's controlled substance prescription order refill data must be provided to each pharmacy using such a computerized system within 72 hours of the date on which the refill was dispensed. It must be verified and signed by each pharmacist who is

involved with such dispensing. In lieu of such a printout, the pharmacy shall maintain a bound log book, or separate file, in which each individual pharmacist involved in such dispensing shall sign a statement (in the manner previously described) each day, attesting to the fact that the refill information entered into the computer that day has been reviewed by the pharmacist and is correct as shown. Such a book or file must be maintained at the pharmacy employing such a system for a period of five years after the date of dispensing the appropriately authorized refill;

(D) any such computerized system shall have the capability of producing a printout of any refill data which the user pharmacy is responsible for maintaining. This would include a refill-by-refill audit trail for any specified strength and dosage form of any controlled substance (by either brand or generic name or both). Such a printout must include name of the prescribing practitioner, name and address of the patient, quantity dispensed on each refill, date of dispensing for each refill, name or identification code of the dispensing pharmacist, and the number of the original prescription order. In any central computerized system employed by a user pharmacy, the central recordkeeping location must be capable of sending the printout to the pharmacy within 48 hours, and if an authorized agent of the board requests a copy of such printout from the user pharmacy, it must, if requested to do so by the agent, verify the printout transmittal capability of its system by documentation (e.g. postmark); and

(E) in the event that a pharmacy which employs such a computerized system experiences system down-time, the pharmacy must have an auxiliary procedure which will be used for documentation of refills of schedule III and IV controlled substance prescription orders. This auxiliary procedure must insure that refills are authorized by the original prescription order, that the maximum number of refills has not been exceeded, and that all of the appropriate data is retained for on-line data entry as soon as the computer system is available for use again.

(4) When filing refill information for original prescription orders for schedule III or IV controlled substances, a pharmacy may use one of the two systems described in paragraphs (2) or (3) of this section.

(5) In the case of medical care facilities registered with the board, all requirements mentioned in paragraphs (1), (2), and (3) above shall be maintained on the medication records or other readily retrievable records regularly maintained by the medical care facility.

(c) Partial filling of prescriptions. A prescription for a controlled substance listed in schedule III, IV or V may be partially filled if: (1) Each partial filling is recorded in the same manner as a refilling;

(2) The total quantity dispensed in all partial fillings does not exceed the total quantity prescribed; and

(3) Except for a controlled substance listed in schedule V, no dispensing occurs after six months after the date on which the prescription was issued.

(d) Labeling of substances. The pharmacist filling a prescription for a controlled substance listed in schedule III or IV shall affix to the package a label showing the pharmacy name and address, the serial number and date of initial filling, the name of the patient, the name of the

(continued)

practitioner issuing the prescription, and directions for use and cautionary statements, if any, contained in the prescription as required by law.

(e) Filing prescriptions. All prescriptions for controlled substances listed in schedules III, IV and V shall be kept in accordance with K.A.R. 68-20-16. (Authorized by and implementing K.S.A. 65-4102, 65-4121, 1988 Supp. 65-4123; effective, E-73-24, Aug. 25, 1972; effective Jan. 1, 1973; amended May 1, 1983; amended April 30, 1990.)
