Opinion No. 90-84

Cities of the First Class—Board of Commissioners—Filling Vacancies in the Office of Mayor or Commissioner. Richard D. Dearth, Parsons City Attorney, Parsons, July 19, 1990.

Where there has been a violation of the common law rule cited in Attorney General Opinion No. 90-59, both resignations and reappointments should be considered a nullity. Cited herein: K.S.A. 1989 Supp. 13-1806. TRH

Opinion No. 90-85

Cities of the Third Class—Powers and Duties of the Mayor—Vacancy in Office of Mayor. Richard Sanborn, Mulvane City Attorney, Wichita, July 19, 1990.

K.S.A. 1989 Supp. 15-311 prescribes that in case of temporary absence of the mayor, "the president of the council for the time being shall exercise the office of mayor, with all the rights, privileges and jurisdiction of the mayor, other than the appointment of officers pursuant to K.S.A. 15-204 and amendments thereto . . . until the mayor shall return." Thus, in the temporary absence of the mayor, the president of the council may exercise the mayoral power under K.S.A. 15-201 to fill vacancies in the city council until the next election for the office. Roads and Bridges; Roads—General Provisions; Laying Out and Opening Roads—The Effect of the 1989 Non-User Statute on an Unopened Road. Lancaster Township Board, c/o Bill Pruett, Lancaster, July 19, 1990.

Pursuant to L. 1879, ch. 150, an authorized county road which remained unopened for seven years became vacated by operation of law. The subsequent repeal of that statute does not affect the vacation of a county road which occurred prior to the statute's repeal. Cited herein: K.S.A. 77-201; Laws 1879, ch. 150. CN

Opinion No. 90-87

Cities and Municipalities—Emergency Telephone Services—Emergency Telephone Tax; Use of Proceeds. John B. Klenda, McPherson County Counselor, Marion, July 25, 1990

Equipment used to receive and record emergency calls, or used to relay or dispatch emergency information to response units may be purchased with funds raised pursuant to K.S.A. 1989 Supp. 12-5304. Items such as office furniture or equipment which do not interact with the system as a whole and which do not directly contribute to the common purpose of the 911 system may not be purchased with such funds. Cited herein: K.S.A. 12-5301; 12-5302, as amended by L. 1990, ch. 78, §1; K.S.A. 1989 Supp. 12-5304. TMN

Opinion No. 90-88

Courts—District Courts; Miscellaneous Provisions—Parole and Court Services Officers; County Commissioners Responsible for Certain Expenses of District Court Operations; Travel Expenses of Court Services Officers. Howard Schwartz, Judicial Administrator, Topeka, July 25, 1990

Pursuant to K.S.A. 20-346a and 20-348, travel expenses incurred by court services officers should be included in the county budget for the operation of the district court rather than paid by the state as compensation to the individual court services officer. Cited herein: K.S.A. 19-101a; 20-341; 20-346a; 20-348; 20-349; 20-359; 75-3201; 75-3203; 75-3203a. TMN

David Shriver, Legal Counsel for School Board of Canton—Galva U.S.D. No. 419, McPherson, July 25, 1990

K.S.A. 72-8202c(b) legislatively designates the clerk of a school board as the entity responsible for the maintenance of school board records. Thus, the clerk of a school board is the official custodian of school board records. However, K.S.A. 45-217 and 45-220 permit the official custodian to designate other persons as necessary to carry out the duties of the custodian under the provisions of the Kansas open records act. Article 10.—INSTALLATION AND CERTIFICATION STANDARDS FOR EXTINGUISHING DEVICES

22-10-3. Registration certificate. (a) Each business

that services, recharges, installs or inspects portable fire extinguishers or fixed extinguishing systems or hydrostatically tests these cylinders or any combination of them shall obtain a registration certificate issued by the state fire marshal unless otherwise exempted by these regulations. The registration certificate shall indicate the class or classes of acts that are authorized. A certified business is prohibited from providing services under the registration number of another certified business. A certified business shall be allowed to take orders for a class or classes of acts that are not authorized by the registration certificate if these orders are consigned to another business that is certified to perform the necessary class or classes of acts indicated by the order.

(b) The registration certificate shall indicate one or more of the following class or classes:

(1) class RA, which permits servicing, charging, recharging, installing or inspecting fixed extinguishing systems;

(2) class RB, which permits servicing, charging, recharging, installing or inspecting portable fire extinguishers; or

(3) class RC, which permits hydrostatic testing of non-DOT cylinders, including wet chemical or dry chemical containers. Only those acts covered by the class or classes of the certificate can be undertaken by the business holding the certificate.

(c) Each business that desires to obtain a registration certificate shall make a verified, written application to the state fire marshal. The application shall be signed by the sole proprietor, or each partner, or by an officer of the corporation, firm or business. Application forms shall be available on request from the state fire marshal.

(d) For a class RA registration certificate, the following items shall accompany the application:

(1) Proof of insurance providing a minimum of \$300,000 coverage for comprehensive general liability for bodily injury and property damage;

(2) written authorization from each fixed extinguishing system manufacturer whose products are used by the business. This authorization shall include the type or types of systems the business is authorized to install or service. This authorization shall remain valid until the termination of the training certificate issued to the employee upon whose training the certification of the business is based unless cancelled for misconduct; and

(3) an application fee in the amount of \$50. No fee shall be charged for any person who is an officer or employee of the state or any political or taxing subdivision of the state when that person is acting on behalf of the state or political or taxing subdivision.

(e) For a class RB or RC registration certificate, proof of insurance which provides a minimum of \$50,000 coverage for comprehensive general liability for bodily injury and property damage and an application fee in the amount of \$25 shall accompany the application. No fee shall be charged for any person who is an officer or employee of the state or any political or taxing subdivision of the state when that person is acting on behalf of the state or political or taxing subdivisions.

(f) If the state fire marshal finds, after reviewing a business' application, insurance information, record of services, servicing and shop facilities and methods and

procedures of operations, that the granting or renewing of a registration certificate would not be contrary to public safety and welfare, a certificate for the appropriate class or classes of registration requested by the business shall be issued or renewed by the state fire marshal. An identifying number shall be assigned by the state fire marshal to each registration certificate.

(g) Each registration certificate issued by the state fire marshal shall be valid for one calendar year. Renewal applications shall be submitted to the state fire marshal by November 30 of the year of expiration. Each renewal shall include the same items required in subsections (d) and (e) of this regulation.

(h) Evidence of alteration of a registration certificate shall render the certificate invalid and the altered certificate shall be surrendered to the state fire marshal.

(i) A location or ownership change by a certified business shall be reported to the state fire marshal in writing at least 14 days before the change. Failure to notify the state fire marshal of the change may render the registration certificate invalid. Each location or ownership change shall be verified by the state fire marshal or an authorized deputy.

(j) Each registration certificate issued by the state fire marshal shall be posted on the premises of the certified location and shall be available for inspection during normal business hours by the general public or the state fire marshal or a duly authorized deputy.

(k) A duplicate registration certificate may be issued by the state fire marshal to replace a previously issued registration certificate which has been lost or destroyed. A certified business requesting a duplicate certificate shall submit a written statement attesting to the fact that the registration certificate has been destroyed.

(l) A registration certificate shall not constitute authorization for a certified business or any of its employees to enter any property or building. A registration certificate shall not constitute authorization for a holder of a registration certificate or any of the certificate holder's employees to enforce any provisions of these regulations.

(m) Each business performing hydrostatic testing of cylinders manufactured in accordance with the specifications and procedures of the United States department of transportation shall do so in accordance with the procedures specified by that department for compressed gas cylinders and shall have a valid hydrostatic testing certificate issued by the department of transportation. All hydrostatic testing of DOT cylinders after the expiration date of the hydrostatic testing certificate issued by the United States department of transportation shall be prohibited.

(n) Each certified business shall perform the servicing, charging, recharging, installing or inspecting of portable fire extinguishers or fixed extinguishing systems or hydrostatic testing on non-DOT cylinders in accordance with these regulations and the applicable adopted standards pertaining to those acts.

(o) Each certified business installing fixed extinguishing systems shall provide the state fire marshal with written notification of each new installation of a fixed extinguishing system in this state. This notification shall contain:

(1) the name of the business and the location of the installation;

(continued)

(2) references to the manufacturer's appropriate installation manual and to the section by which the system was installed;

(3) the date of installation;

(4) the name, address and certificate number of the business making the installation;

(5) the make and model of the system; and

(6) a rough draft of the piping layout and nozzle placement.

(p) Each new installation of fixed extinguishing systems shall be designed and installed in compliance with the following:

(1) National fire protection association pamphlet no. 17, standards for dry chemical extinguishing systems, 1985 edition, as adopted by reference in K.A.R. 22-10-14;

(2) national fire protection association pamphlet no. 17A, standard for wet chemical extinguishing systems, 1986 edition, as adopted by reference in K.A.R. 22-10-17;

(3) national fire protection association pamphlet no. 96, standards for the removal of smoke and grease laden vapors from commercial cooking equipment, 1987 edition, as adopted by reference in K.A.R. 22-10-13; and

(4) the appropriate manufacturer's design specifications.

(q) A new installation of a fixed extinguishing system may be permitted in an existing range hood for vapor removal not strictly in compliance with national fire protection association pamphlet no. 96 if the state fire marshal determines that no distinct life safety hazard would result.

(r) The installation of fixed extinguishing systems in self-contained cooking equipment need not comply with national fire protection association pamphlets no. 17, 17A and 96 if designed and installed according to the manufacturer's specifications. (Authorized by and implementing K.S.A. 31-133, 31-133a; effective, E-82-3, Jan. 21, 1981, effective May 1, 1981; amended May 1, 1982; amended, T-83-31, Oct. 25, 1982; amended May 1, 1983; amended Aug. 28, 1989; amended Sept. 17, 1990.)

(B) a properly installed and maintained sprinkler system;

(C) properly designed ramp access from the floor on which labor and delivery rooms are located, to grade level;
