Labor and Industries—Employment Security Law—Administration of Act; Political Activities Prohibited, Penalties.

State Departments; Public Officers and Employees—Civil Service—Unlawful Use of Authority or Influence to Cause Persons in Classified Service to Join Organization or Participate in Political Activity; Campaign Contributions by Classified State Employees. Ray D. Siehndel, Secretary, Kansas Department of Human Resources, Topeka, September 14, 1990.

K.S.A. 1989 Supp. 44-714, as amended by L. 1990, ch. 122, § 17, prohibits designated employees of the Kansas Department of Human Resources from participating in all forms of political activity except as a candidate for non-partisan elective office. Because the state lacks a legitimate interest for such a prohibition, that provision of the statute continues to be unconstitutionally overbroad.

Employees of the Department of Human Resources are permitted to: (1) post yard signs at their residences; (2) participate in fund-raisers; (3) make contributions; (4) attend party functions; and (5) work for a particular candidate or party on the employees' own time. However, those employees subject to state statute and those employees subject to the federal Hatch Act are restricted in solicitation of contributions. Taxation—Motor Vehicles—Valuation and Computation of Tax Amount.

Statutes; Administrative Rules and Regulations and Procedures—Rules and Regulations—Definitions. Ed C. Rolfs, Secretary, Kansas Department of Revenue, Topeka, September 21, 1990.

To eliminate the "alphabet inequity" that currently results in determining motor vehicle taxes, the Department of Revenue may, by administrative rules and regulations, accelerate the recognition of depreciation to January 1 when a registration year spans a part of two calendar years. State Boards, Commissions and Authorities—Parimutuel Racing—Kansas Racing Commission; Political Activities. H. Philip Martin, Kansas Racing Commission, Larned, September 25, 1990.

The common law doctrine of incompatibility of offices is inapplicable to the situation in which a member of the Kansas Racing Commission attempts to simultaneously serve as either a committeeman or a member of a cam-

paign staff. There appears to be no statutory prohibition regarding such activity. A determination of the applicability of K.S.A. 46-215 *et seq.* (conflict of interests) to such a situation should be obtained from the Kansas Public Disclosure Commission. The political activities of a member of the Kansas Racing Commission remain subject to the restrictions set forth in K.S.A. 75-2953 and 75-2974. Request for Proposals

The Kansas Department of Health and Environment is announcing a request for proposals that has two sections. Programs may respond to Section I only or Sections I and II.

Section I. Identification of your program as Part H participant

KDHE is requesting that programs identify themselves as facilities that are willing to deliver services in the manner described under Part H of Public Law 99-457, in 34 CFR 303 regulations, and in the Kansas Infant-Toddler Procedure Manual. (Sources are available upon request.) Programs should identify what county/counties or area they now serve and be willing to provide written assurance to KDHE that they will provide evaluations for potentially eligible children, individualized family service plans (IFSPs) and case management for children determined Part H eligible within that service area.

All responding programs will be provided with guidance materials and technical assistance from KDHE. Upon pro-

viding KDHE with the appropriate documentation, programs will have the opportunity to be identified as approved evaluation centers. They will be expected to follow standards and meet required compliance issues related to Part H.

Participation as a Part H program is voluntary with no new funding available at this time. As additional state or federal monies become available, identified Part H programs will be eligible to request funding in order to enhance their services to Part H children and their families.

Programs interested in becoming an identified Part H program providing evaluations, IFSP, and case management will be sent application materials upon request.

Programs will be approved by an interagency review team based on the program's ability to meet the requirements of Part H.

Section II. Willingness to provide evaluations, case management and IFSPs to increased numbers of children in order to assure statewide coverage as required for Kansas' participation in Part H federal grant program for Year IV.

Programs that would be willing to provide evaluations and to coordinate IFSPs and case management for children outside their specified service area, or to an increased number within their present service area during Year IV, will be sent application materials upon request.

Programs will be asked to describe:

- 1) How additional funding would be used by your program to provide additional numbers of evaluations, case management, and IFSPs to children outside your normal service area. Evidence of arrangements with other programs and agencies is preferred (i.e., shared staff or case management responsibility); or
- 2) How additional funds would be used by your program to provide more comprehensive Part H evaluations or provide more evaluations and/or more case management than your program is presently able to offer.

Recommendations regarding awards will be made to the director of health by an interagency team and will be based on how Kansas can best achieve an equitable distribution of available evaluation centers across the state. Allocation of funds will be partially determined by projected numbers of children needing to be served within a prescribed service area. Contracts with KDHE will be required and are contingent upon receipt of Year IV federal funding.

Please note that during Year IV programs will *not* be required to assure all the services described on the IFSP. Only the evaluation, written IFSP, and case management services are required in Year IV.

Application Due Date

Applications must be hand delivered during business hours or postmarked on or before November 16. Additional information and application materials can be requested by contacting: Aleta Ash, Infant-Toddler Program Coordinator, Kansas Department of Health and Environment, Landon State Office Building, 900 S.W.
