The child shall be eligible so long as the mother either remains eligible for medicaid or would be eligible for medicaid if still pregnant. (Federal Mandate.)

**Economic Impact:** It is estimated that this change will result in an additional 90 newborn children gaining medical eligibility in fiscal year 1991 for an increase in expenditures of \$40,572 (\$17,446 state general funds). For fiscal year 1992, it is expected that an additional 541 children will be added resulting in increased expenditures of \$1,013,576 (\$418,100 state general funds). These increases will be incorporated within the agency's budget for fiscal years 1991 and 1992.

(Federal Mandate.)

The increase in expenditures will be incorporated within the agency's budget for fiscal years 1991 and 1992.

**30-6-106. General rules for consideration of resources, including real property, personal property, and income.** This regulation is being amended to require that the property allowance which can be provided to a community spouse be based off of the value of the property owned by both spouses at the begin-

ning of the first period of continuous institutionalization which begins on or after September 30, 1989. Previously that allowance was based on property owned as of the first month of the current institutional stay. (Federal Mandate.)

**Economic Impact:** This change is not expected to have any discernible economic impact.

**30-6-111. Applicable income.** This regulation is being amended to clarify for non-SSI that all earned income shall be applicable unless exempted in accordance with K.A.R. 30-6-112 and K.A.R. 30-6-113.

**Economic Impact:** This change is not expected to have any discernible economic impact as it reflects current policy.

**Economic Impact:** This change is not expected to have any discernible economic impact as it reflects current policy.

This regulation is being further amended to clarify that net unearned income shall equal gross unearned income less the costs of the production of the income. Income-producing costs include only those expenses directly related to the actual production of the income. Cross reference has been made to paragraph (a)(2) of this regulation regarding the calculation of income-producing costs.

**Economic Impact:** This change is not expected to have any discernible economic impact as it reflects current policy.

**Economic Impact Summary:** The amendments are not anticipated to have any significant economic impact. The waiting period amendment will help spread antelope permits among more people who have been unsuccessful in obtaining a firearms antelope permit.

**K.A.R. 115-4-5.** Deer; legal equipment, taking methods, and general provisions. This permanent regulation is proposed for amendment. The amendments

provide for deer tags and will allow more people to apply for certain types of permits. The other amendments are primarily editorial and to maintain similar wording with other big game regulations.

**Economic Impact Summary:** The amendments are not anticipated to have any significant economic impact. People will benefit from a relaxation of restrictions on permits for which they can apply.

**K.A.R. 115-4-7.** Elk; legal equipment, taking methods, and general provisions. This permanent regulation is proposed for amendment. The amendments are editorial to maintain similarity with other big game regulations.

**Economic Impact Summary:** No economic impact is anticipated as a result of the amendments.

**K.A.R. 115-4-11.** Big game permit; landowner and tenant application, proof of ownership or tenancy. This permanent regulation is proposed for amendment. The amendments clarify what type of legal description of land is required for making application for a deer permit and would require the landowner or tenant to carry a copy of the application while hunting deer.

**Economic Impact Summary:** No economic impact is anticipated as a result of the amendments.

**K.A.R. 115-4-12.** Big game; assistance to big game permit holders. This proposed permanent regulation would authorize certain individuals to accompany and assist big game permit holders while the permit holder is hunting big game. The individual could not perform the actual shooting of a big game animal for the permit holder.

**Economic Impact Summary:** No significant economic impact is anticipated. It will enable certain people to hunt big game that could not otherwise do so such as 12 and 13 year old turkey hunters that are required by law to be in the company of an adult while hunting.

**K.A.R. 115-17-10.** Commercial harvest of fish; permit requirement and application, authority, reports, general provisions and permit revocation. This proposed permanent regulation contains most provision of K.A.R. 23-3-16. It clarifies information required on reports, addresses selling of fish taken and who can purchase, and provides for permit expiration on December 31.

**Economic Impact Summary:** No significant economic impact is anticipated as this regulation generally continues the current procedures for commercial fishing permits.

**K.A.R. 115-17-11.** Commercial harvest of fish; legal equipment, taking methods, general provisions, identification tags and identification tag fee. This proposed permanent regulation basically continues the same legal equipment, but would disallow trot lines, set lines, jug lines and block lines on and after January 1, 1992. Tagging requirements would be continued, but a tag fee of five dollars is set for January 1, 1992.

**Economic Impact Summary:** Restrictions against certain methods of take would impact primarily catfish fishing; however, on and after January 1, 1992, catfish would not be a legal species for commercial harvest. The tagging requirement will be an expense for permittees and provide revenue for the department. The amount of revenue will approximate operational costs.

**K.A.R. 115-17-12.** Commercial harvest of fish; legal species, season, size restrictions, daily limits and possession limits. This permanent regulation basically continues the same species legal for harvest, except the paddlefish and sturgeon are removed. Catfish would no longer be a legal species on and after January 1, 1992.

**Economic Impact Summary:** Paddlefish and sturgeon are minor commercial species and their removal from legal species for take will not have significant impact. Removal of catfish will have impact on certain permittees. Only about three of the present 27 permittees report significant harvest of catfish.

**K.A.R. 115-17-13.** Commercial harvest of fish; state of Missouri commercial fishing permit. This permanent regulation continues the current reciprocity agreement with the state of Missouri. It is contingent on Missouri recognizing commercial fishermen permitted by the state of Kansas.

**Economic Impact Summary:** No economic impact is anticipated.

**K.A.R. 115-25-5.** Turkey; fall season bag limit and permits. This proposed exempt regulation will establish the fall archery and firearm turkey hunting seasons, hunting units, permit allowances, and bag limits. Application dates are included.

**Economic Impact Summary:** The department will realize revenue based on the number of permits actually issued. Certain businesses will benefit from sportsmen hunting turkeys. Revenue to the department represents a cost to sportsmen; however, such cost is voluntary for sportsmen.

**K.A.R. 115-25-7.** Antelope; open season, bag limit and permits. This proposed exempt regulation will establish the fall archery and firearms antelope seasons, hunting units, permit allowances and bag limits. Application dates are included.

**Economic Impact Summary:** The department will realize revenue based on the number of permits actually issued. Certain businesses will benefit from sportsmen hunting antelope. Revenue to the department represents a cost to sportsmen; however, such cost is voluntary for sportsmen.

**K.A.R. 115-25-8.** Elk; open season, bag limit and permits. This proposed exempt regulation will establish the fall elk hunting season, hunting areas, permit allowances, and bag limits. Application dates are included.

**Economic Impact Summary:** The department will realize revenue based on the number of permits actually issued. Certain businesses will benefit from sportsmen hunting elk. Revenue to the department represents a cost to sportsmen; however, such cost is voluntary for sportsmen.

**K.A.R. 115-25-9.** Deer; regular open season, bag limit and permits. This proposed exempt regulation will establish the regular fall archery and firearms deer seasons, and bag limits. Application dates are included. Permit allowances would be established by Secretary's Order at the hearing.

**Economic Impact Summary:** The department will realize revenue based on the number of permits actually issued. Certain businesses will benefit from sportsmen

hunting deer. Revenue to the department represents a cost to sportsmen; however, such cost is voluntary for sportsmen.

**Schools—Organization, Powers and Finances of Boards of Education—Interlocal Cooperation Agreements; Nature of Separate Legal Entity; Municipality. Richard R. Yoxall, Counsel for Southwest Plans Regional Service Center, Liberal, January 23, 1991.**

Based upon our review of specific interlocal agreements entered into pursuant to K.S.A. 12-1901 *et seq.* and K.S.A. 1990 Supp. 72-8230, it is our opinion that the separate legal entities created by these specific agreements may be characterized as an "agency, authority, institution or other instrumentality" of a school district and thus these entities meet the definition of a municipality pursuant to K.S.A. 1990 Supp. 12-2616 *et seq.* and K.S.A. 1990 Supp. 75-6102. While entities created pursuant to K.S.A. 12-2901 *et seq.* and K.S.A. 1990 Supp. 72-8230 may generally fall within the definition, each situation, agreement and relationship must be examined on its own merits.
