Notice of Hearing on Proposed
Administrative Regulations

A public hearing will be conducted from 10-10:30 a.m. Monday, September 9, at the Office of the Securities Commissioner of Kansas, 618 S. Kansas Ave., 2nd Floor, Topeka, to consider the adoption of K.A.R. 81-4-3.

The period of 30 days notice constitutes a public comment period for the purpose of receiving written public comments on the proposed regulation. All interested parties may submit written comments prior to the hearing to the commissioner at the address above. All interested parties will be given a reasonable opportunity at the hearing to express their views orally in regard to adoption of the proposed regulation. Following the hearing, all written and oral comments submitted by interested parties will be considered by the commissioner as a basis for making changes to the proposed regulation.

Proposed K.A.R. 81-4-3 states that separate securities registrations and registration fees, or separate exemption notices and exemption fees, shall be required under the Kansas Securities Act for each series or portfolio of an open-end investment company. It is estimated that this regulation may result in additional revenues to this agency. The economic impact of this regulation on open-end investment companies is estimated to be insignificant. There is no determinable impact on other governmental agencies or units, on other businesses regulated by this agency, or on the general public.

Copies of the full text of the proposed regulation and the economic impact statement may be obtained by writing to the Office of the Securities Commissioner at the address above.

State of Kansas

Department of Health
and EnvironmentNotice of Intent to Issue
a Hazardous Waste Storage Permit

The Kansas Department of Health and Environment and Region VII of the U.S. Environmental Protection Agency are providing public notice of their intent to issue a joint hazardous waste storage permit to the U.S. Department of the Army (owner) and the Hercules Aerospace Company (operator) of the Sunflower Army Ammunition Plant (SAAP) located near DeSoto. SAAP received interim status to operate as a hazardous waste storage and treatment facility in 1980 and was assigned EPA Identification Number KS3213820878.

SAAP is a government owned and contractor operated military installation. The primary product produced at SAAP is nitroguanidine, a propellant used in military munitions. SAAP also has the capability to manufacture single, double and triple based propellants, rocket propellant and rocket grains. Acids, nitrocellulose, nitroglycerin and other propellant components are associated with the manufacture of these propellants.

Operations at SAAP generate regulated quantities of hazardous wastes. These wastes include freon, waste lubricants, ash residues, acid sludges, spent solvents, and explosives production wastes.

Under the federal Resource Conservation and Recovery Act (RCRA), Kansas received final authorization from EPA to implement the state's own hazardous waste management program in Kansas, in lieu of the federal program, except for those portions covered by the 1984 Hazardous and Solid Waste Amendments (HSWA) to RCRA. EPA has authority for the provisions of RCRA covered by HSWA. The draft permit for the SAAP facility contains both non-HSWA and HSWA provisions. Therefore, the permit to be issued to SAAP will require a joint KDHE/EPA action.

The KDHE portion of the permit is to be issued under the authority of K.S.A. 65-3430. KDHE and EPA have jointly reviewed the permit application and found that it meets state and federal requirements for hazardous waste storage facilities.

The draft permit under consideration will allow SAAP to store only hazardous wastes generated on-site in nine magazine buildings. These nine buildings have been modified to accommodate storage of hazardous wastes in containers. The total hazardous waste storage capacity proposed in the draft permit is 97,300 U.S. gallons. KDHE's portion of the SAAP permit (Part I) will regulate the nine hazardous waste magazine buildings. EPA's portion of the permit (Part II) will cover corrective action for releases from solid waste management units, fugitive emissions, newly listed hazardous wastes, land disposal restrictions and waste minimization.

The KDHE procedures for permitting hazardous waste treatment, storage and disposal facilities adopt by reference the federal requirements contained in 40 CFR Part 124. These procedures require a public com-

ment period of at least 45 days be provided for public review of the permit application and the draft permit prior to the regulatory agencies taking any final action. The public comment period for the SAAP permit is from August 8 to September 21. During this period, the public may comment on the facility and the conditions specified in the draft permit.

A public hearing will be held in conjunction with the public comment period. The Secretary of Health and Environment has designated Tom Gross to be the presiding officer for the hearing to be at the Lawrence Public Library auditorium at 7 p.m. September 12. All comments received during the public notice period and at the public hearing will be taken into consideration by KDHE/EPA in the final permit decision-making process.

The administrative record, including the permit application, the draft permit and all relevant correspondence will be available for public examination at the following locations:

Department of Health and Environment

Notice Concerning Kansas Water Pollution Control Permits

In accordance with state regulations 28-16-57 through 63 and 28-18-1 through 4, and the authority vested with the state by the administrator of the U.S. Environmental Protection Agency, tentative permits have been prepared for the water pollution abatement facilities for the feedlots described below. The tentative determinations for permit content are based on preliminary staff review, applying the appropriate standards and regulations of the state of Kansas and the EPA. The permit requires control of any existing or potential discharges to achieve the goal of "no discharge" whenever possible. The permit, upon issuance, will constitute a Kansas water pollution control facility and/or a national pollutant discharge elimination system permit.

Kansas Arts Commission

Notice Concerning Kansas Artist Fellowship Program

Artists who demonstrate exceptional talent and ability in the performing arts may apply to the Kansas Arts Commission (KAC) for one of four 1991-92 Kansas artist fellowships. Completed application forms, with documentation and support materials, must be received in the KAC office no later than 5 p.m. October 15.

The categories are music composition, choreography, film/video, and interdisciplinary/performance art. Individuals may apply only once during fiscal year 1992 and in only one category.

The fellowships are open to individuals currently residing in Kansas since July 1, 1990, with intentions to reside in Kansas through June 30, 1992. Fellowship recipients will be required to sign a notarized residence statement.

Fellowships are not open to individuals (including native Kansans) living outside the state, to full-time students pursuing graduate or undergraduate degrees, to previous fellowship winners, or to artists working in collaborations.

Fellowship applications will be reviewed by panels of individuals (in-state and out-of-state) who are experts in the field of performing arts. Each category will have a panel of six persons and will be chaired by a commissioner. Staff members of the KAC will serve as facilitators to the process but will not be voting members of the panels.

The selections will be determined by evidence, based upon the following three factors, that the applicant's work reflects continued, serious, and exceptional aesthetic investigation: Quality of the applicant's work as demonstrated by the materials submitted; the record of professional activity and achievement as reflected on the application form, resume and documentation submitted; and the information included in the artist's statement accompanying the application.

Each recipient of a fellowship, meant to recognize outstanding Kansas artists, will be awarded \$5,000 by the commission in February 1992.

Funding for the Kansas artist fellowships is provided through appropriations by the Kansas Legislature of economic development initiative funds, revenues generated by the Kansas Lottery.

For guidelines and application forms, contact the Kansas Arts Commission, Jayhawk Tower, 700 Jackson, Suite 1004, Topeka 66606-3714, (913) 296-3335.
