**Automobiles and Other Vehicles—Uniform Act Regulating Traffic; Rules of the Road; Serious Traffic Offenses—Driving Under the Influence of Alcohol or Drugs; Sentencing.** Lewis A. Heaven, Jr., Merriam City Attorney, Merriam, January 10, 1992.

Under the circumstances stated herein, municipal and district courts in Johnson County may sentence DUI offenders to a facility located in Wyandotte County. The mandatory imprisonment required by K.S.A. 1990 Supp. 8-1567, as amended, for second offenses may be partially served in a restrained environment such as the Kansas City weekend intervention program as long as the offender remains under the custody and control of law enforcement officials throughout the time the minimum sentence is being served. **Schools—Organization, Powers and Finances of Boards of Education—Organization Order for Unified School District; Affirmative Action Contracting Program.** Joseph W. Zima, Clerk and Counsel for Unified School District 501, Topeka, January 10, 1992.

A board of education for a unified school district may establish and implement an affirmative action contracting program. Any racial classification set forth in the program must be justified by a compelling governmental interest and the means chosen to effectuate

the purpose for the program must be narrowly tailored to the achievement of that goal. **Insurance—General Provisions—Insurance Coverage to Include Reimbursement or Indemnity for Services Performed by Optometrist, Dentist or Podiatrist. Representative Arthur W. Douville, 20th District, Overland Park, January 10, 1992.**

An insurance plan covering a service that can be provided by two different licensed professionals cannot categorically deny reimbursement to one without violating K.S.A. 40-2,100 when (1) the service provided is covered by the contract; (2) the service provided is within the lawful scope of practice under the healing arts act; and (3) the service was provided by a podiatrist, optometrist or dentist within the lawful scope of his/her license. ## Opinion No. 92-6

**Personal and Real Property—Real Estate Appraisers—Certification; When Required; Use of Title Without Certification.** Jean Ducan, Administrative Officer, Kansas Real Estate Appraisal Board, Topeka, January 10, 1992.

K.S.A. 1990 Supp. 58-4101 *et seq.*, as amended by L. 1991, ch. 164, prohibits persons who have not obtained a state issued certificate or license from assuming or using the title of state certified or licensed appraiser or any title, designation or abbreviation likely to create the impression of state certification. It is our opinion that the use of the title "Certified Kansas Appraiser" (CKA) creates the impression of state certification as a real estate appraiser; thus, such designation may not be used by persons unless they have in fact received a certificate from the state. Cited herein: K.S.A. 1-201; 7-103; K.S.A. 1990 Supp. 58-4101, 58-4102, 58-4103, 58-4109, all as amended by L. 1991, ch. 164, §§ 1-9; K.S.A. 65-1808; 65-1901; 65-1114; 65-2801; 74-139; 74-7001; 74-7501; 12 U.S.C. § 3331. #### Notice of Hearing on Proposed Administrative Regulations

A public hearing will be conducted at 10 a.m. Thursday, February 27, in the Topeka-Shawnee County Health Agency auditorium, 1615 S.W. 8th, Topeka, to consider revocation of K.A.R. 28-16-29 and adoption of K.A.R. 28-16-30 (new) through 28-16-36 as permanent rules of the Department of Health and Environment concerning certification and training requirements for operators of public water supply systems and wastewater treatment facilities.

In proposed regulation 28-16-31, training requirements for all public water supply system and wastewater treatment facility operators, Class I through IV, are increased from six hours every four years to 10 hours every two years. This is being proposed to help make operators aware of the increasingly complex regulations and more advanced technical requirements necessary for compliance. Over the past decade both potable water and wastewater treatment technology has become more complex, requiring better trained and more technically competent operators. This trend is projected to continue for at least the next decade. Even without the increased regulatory requirements there is a general public expectation and demand for better water to drink and better treated wastewater discharged to our Kansas waterways. These proposed regulations are designed to support an improved operator training and certification program.

Additionally, proposed regulation 28-16-35 will increase fees which have been static since 1975. These fees are used to partially cover the cost of administering examinations, issuing certificates of competency, managing the operator correspondence course, and providing reciprocity for operators from other states. The regulation change also provides two additional operator classes; an operator in training class and a small system class. Certificate renewals are proposed to be biannual rather than annual to reduce staff manpower requirements. The total income expected is approximately \$52,780 rather than the \$19,800 collected in FY 1991. Thus, the fiscal impact of this increase will be approximately \$33,000.

Copies of the proposed regulations and a complete economic impact statement may be obtained by contacting Jim Current, Bureau of Water, Department of Health and Environment, Forbes Field, Building 740, Topeka 66620-0001.

The time period between the publication of this notice and the scheduled hearing constitutes a public

comment period for the purpose of receiving written public comments on the proposed regulations. All interested parties may submit such comments prior to hearing by mailing them to the address above. All interested parties also will be given a reasonable opportunity at the hearing to present their views, orally or in writing, concerning the adoption of the proposed regulations. In order to give all persons an opportunity to present their views, it may be necessary to limit oral presentations to five minutes.

Following the hearing, all written and oral comments submitted by interested parties will be considered as the basis for making changes in these proposals.
