State of Kansas

Secretary of State

Usury Rate for August

Pursuant to the provisions of K.S.A. 16-207, the maximum effective rate of interest per annum for notes secured by all real estate mortgages and contracts for deed for real estate executed during the period of August 1, 1992, through August 31, 1992, is 9.58 percent.

Bill Graves
Secretary of State

Doc. No. 012311

State of Kansas

Board of Education

Notice of Hearing on Proposed
Administrative Regulations

The State Board of Education will conduct a public hearing at 1:30 p.m. Tuesday, September 8, in the board room of the State Education Building, 120 S.E. 10th, Topeka, to consider amendments to K.A.R. 91-5-7. The following is a summary of the substance of the proposed regulation and a summary of its anticipated economic impact.

K.A.R. 91-5-7 limits eligibility to take driver education to those students who are enrolled in at least the ninth grade. This requirement has presented a problem for students who are old enough to take the course but who are not enrolled in at least the ninth grade. The proposed revisions would eliminate that requirement. There will be no economic impact upon the Kansas State Department of Education or upon other governmental agencies, private businesses or individuals.

A copy of the proposed regulation and complete economic impact statement may be obtained by contacting the secretary of the board of education at the address above.

All interested persons will be given a reasonable opportunity to present their views or arguments, either orally or in writing, in regard to the proposed regulation. In addition, the period of public notice hereby provided constitutes a public comment period for the purpose of receiving written public comments on the proposed regulation. Such written comments may be submitted to the secretary of the board. The hearing shall be conducted in compliance with the public hearing procedures of the board.

Dr. Lee Droegemueller
Commissioner of Education

Opinion No. 92-96

Cities and Municipalities—General Provisions—Countywide and City Retailers' Sales Taxes; Exemptions; Original Construction Services; Home Rule.

Constitution of the State of Kansas—Corporations—Cities' Powers of Home Rule; City Retailers' Sales Tax; Exempting Original Construction Services. Senator Lana Oleen, Twenty-Second District, Manhattan; Senator Audrey Langworthy, Seventh District, Prairie Village; Representative Kent Glasscock, Sixty-Second District, Manhattan; Robert J. Watson, Overland Park City Attorney, July 17, 1992.

A city may, pursuant to home rule powers, exempt original construction services from application of its local retailers' sales tax. Cited herein: K.S.A. 12-187, as amended by L. 1992, ch. 198, § 5 and ch. 251, § 1; 12-188, as amended by L. 1992, ch. 279, § 2; 12-189, as amended by L. 1992, ch. 198, § 6 and ch. 251, § 2; 12-189a; 12-190 (repealed L. 1989, ch. 302, § 2); 12-191; L. 1992, ch. 280, § 59. JLM

Opinion No. 92-97

Waters and Watercourses—Groundwater Management Districts—Initiation of Proceedings for Designation of Intensive Groundwater Use Control Areas; Duties of Chief Engineer; Findings; District Powers; Home Office. Jeffery A. Mason, Counsel for Northwest Kansas Groundwater Management District #4, Goodland, July 20, 1992.

A groundwater management district created pursuant to K.S.A. 82a-1020 is not authorized to implement a conservation plan resembling an intensive groundwater use control area without action by the chief engineer as required by K.S.A. 82a-1036. Cited herein: K.S.A. 82a-701; K.S.A. 1991 Supp. 82a-733; K.S.A. 82a-1020; 82a-1028; 82a-1036; K.S.A. 1991 Supp. 82a-1038; K.S.A. 82a-1039. GE

Opinion No. 92-98

Cities and Municipalities—Emergency Telephone Services—Cost Distribution. William I. Heydman, Kinsley City Attorney, Kinsley, July 24, 1992.

The residents of Edwards county and the city of Kinsley may not be taxed more than \$.75 per month per exchange access line for emergency telephone services. If an agreement between the city and the county cannot be reached so that services continue for the benefit of the county and the city, the county may refuse access to the city. However, such an action may constitute breach of contract. The city is authorized to establish its own emergency telephone service. Cited herein: K.S.A. 12-5302(a); 65-6138. MJS

Opinion No. 92-83A

Procedure, Civil—Process—Summons by Certified Mail. Steven W. Hirsch, Decatur County Attorney, Oberlin, July 24, 1992.

The sheriff of the county where the action is filed is responsible for the service of process by certified mail. Attorney General Opinion No. 92-83 is accordingly revised. Cited herein: K.S.A. 1991 Supp. 60-303, as amended by L. 1992, ch. 290, § 1. MJS

Opinion No. 92-99

Public Health—Professional Counselors—Definitions; Registered Professional Counselor; Meaning of Registration.

Public Health—Credentialing—Credentialing Health Care Professionals; Definitions; Meaning of Registration; Meaning of Licensure. Representative Jim Cates, Fifty-Second District, Topeka, July 24, 1992.

The professional counselors act is a registration act, not a licensure act, as it does not make unlawful the practice of professional counseling by unregistered persons. However, it partakes of an important aspect generally accepted as a purpose of licensure in that it provides the public with a substantial basis for relying on the services of a registered professional counselor. Cited herein: K.S.A. 1991 Supp. 65-5001; 65-5003; 65-5006; 65-5007; 65-5801; 65-5802; 65-5803; 65-5809. CN

Opinion No. 92-100

Banks and Banking; Trust Companies—Trust Companies—Power of Trust Companies to Branch. Frank D. Dunnick, Banking Commissioner, Banking Department, Topeka, July 28, 1992.

A trust company's powers do not include the authority to branch. Cited herein: K.S.A. 9-801; 9-901; 9-1111, as amended by L. 1992, ch. 61, § 1; 9-1801; 9-2103. MJS

**Notice of Commencement of
Negotiations for Architectural Services**

Notice is hereby given of the commencement of negotiations for architectural programming services for the new chemistry building at Wichita State University.

Wichita State University offers a chemistry program for engineers and chemists. These programs require highly sophisticated state-of-the-art engineering systems, and instructional and research laboratories which will be inherent in this type of facility.

Any questions or expressions of interest should be directed to Gerald R. Carter, AIA, Deputy Director of Planning and Project Management, Division of Architectural Services, 625 Polk, Topeka, 66603, (913) 233-9367, on or before August 21, 1992. An original and five copies of the SF 255 form (plus attachments as required) should be submitted with letters of interest.

State of Kansas

Kansas Arts Commission

**Notice of Grassroots
Cultural Development Program**

Organizations in underserved Kansas communities may apply to the Grassroots Cultural Development Program of the Kansas Arts Commission for assistance in developing rural and multi-cultural arts programs. The 1993 Grassroots Cultural Development Program is modeled after and incorporates the Rural Arts Program. This program includes three main components: Cultural Activity Grants, Consultant Grants, and Three-Year Cultural Development Grants. Applications for annual Cultural Activity Grants must be submitted to the commission at least six weeks prior to the arts activity but will be accepted as long as funds remain available. These grants provide up to 75 percent, not to exceed \$1,000, in support for community cultural arts activities and events.

Consultant Grants enable local organizations to access professional expertise with a local investment of \$100 per day, plus travel expenses, with the commission providing a matching grant of \$200 per day. Applications are accepted as long as funds are available.

The Three-Year Cultural Activity Grant component has a fixed deadline. Maximum requests are for 75 percent support, not to exceed \$6,000, during the first year; 50 percent support, not to exceed \$4,000, for the second year; and 25 percent support, not to exceed \$2,000, for the third year. Completed application forms, with documentation and support materials, must be received in the commission office by 5 p.m. on September 1, 1992.

Both underserved rural and multi-cultural communities can apply for any of the components in the Grassroots Program. Guidelines and application forms may be obtained from the Kansas Arts Commission, 700 S.W. Jackson, Suite 1004, Topeka 66603-3758, (913) 296-3335. Persons with special communication needs may utilize the Kansas Relay Service, 1-800-766-3777.

The Rural Arts circuit rider, a traveling consultant, and the commission's Rural and Multi-Cultural coordinators will travel the state throughout the year and visit underserved communities upon request to work with arts organizers, educators and artists. They will offer on-site advice about getting started, planning events, filling out grant forms, seeking advice from other experienced arts organizers, evaluating programs, etc. The Rural Arts circuit rider may be contacted at the Cooperative Extension Service, Kansas State University, 119 Umberger Hall, Manhattan 66506-3403; (913) 532-6624.

Funding for the Grassroots Cultural Development Program is provided through a grant from the National Endowment for the Arts, a federal agency, and through an appropriation by the 1992 Kansas Legislature of Economic Development Initiative Funds; revenue from the State Gaming Revenue Fund.

Commission on Governmental Standards and Conduct

Advisory Opinion No. 92-25

Written July 24, 1992, to all interested persons:

Pursuant to K.A.R. 46-254, the Kansas Commission on Governmental Standards and Conduct takes this opportunity to issue its opinion on the applicability of K.S.A. 46-215 *et seq.* to members of the board of directors and employees of Corporation for Change, created by Chapter 313 of the 1992 Session Laws of Kansas, and the Kansas Healthy Kids Corporation, created by Chapter 168 of the 1992 Session Laws of Kansas.

The threshold question on applicability of K.S.A. 46-215 *et seq.* to these individuals is whether they are state officers or employees due to their membership on the board of directors of one of these entities or employment therewith.

As to the members of the board of directors, each law provides that members shall receive pay for services limited to those amounts permitted by K.S.A. 75-3223(e). Under K.S.A. 46-221(a) (4), individuals receiving only those amounts are specifically exempted from the definition of "state officer or employee." Thus, K.S.A. 46-215 *et seq.* does not apply to members of the board of directors of Corporation for Change or Kansas Healthy Kids Corporation solely due to services on the agencies' board.

The analysis on employees of the organizations is somewhat different, although the outcome is the same. Section 5 of Chapter 168 and Section 7 of Chapter 313 contain the same language which defines such employees as state employees for limited purposes, then specifically excludes these individuals from the definition of state employee for all other purposes. Since application of K.S.A. 46-215 *et seq.* is not an included definition, it must be deemed specifically excluded, so that employees are not covered by K.S.A. 46-215 *et seq.* solely on the basis of that employment.

Advisory Opinion No. 92-26

Written July 24, 1992, to Paula George, Department of Social and Rehabilitation Services, Pittsburg.

This opinion is in response to your letter of June 24, 1992, in which you request an opinion from the Kansas Commission on Governmental Standards and Conduct concerning the state conflict of interests law (K.S.A. 46-215 *et seq.*).

We note at the outset that the commission's jurisdiction over your question is limited to the application

of K.S.A. 46-215 *et seq.* Thus, whether some other statutory or common law system or agency regulation or policy relates to your question is not covered by this opinion.

We understand you request this opinion in your capacity as program technician working for Social and Rehabilitation Services in Pittsburg, Kansas. You advise us that you would like to provide evening child care services and contract with SRS to do so. The services would be provided after your regular state work hours.

You advise that your state duties do not deal with the development of child care service contracts, nor with monitoring such contracts. We also assume you do not participate in licensing, regulating, or inspecting the providers of child care services.

With the above understanding of the facts, it is our opinion that nothing in K.S.A. 46-215 *et seq.* prohibits the situation you have described.

State of Kansas

Department of Health and Environment

Notice Concerning Proposed Permit Action

The Secretary of Health and Environment is proposing to issue an air emission source construction permit in accordance with K.A.R. 28-19-14 (permits required) to Republic Natural Gas Co. (RNG) to install and operate a new natural gas compressor station at Section 18, T28S, R12W, Pratt County.

Written materials, including the permit application and information relating to the application submitted by RNG, draft permit, permit summary and analysis by KDHE describing the basis for the proposed permit, are available for public inspection during normal business hours through September 3 by contacting David Butler, air quality district representative in the KDHE office in Wichita, (316) 838-1071. This material also can be reviewed at the KDHE office in Building 740, Forbes Field, Topeka. Questions concerning this proposed permit should be directed to L. C. Hinthner, KDHE, (913) 296-1576.

K.S.A. 65-3008 provides that any person affected by the issuance of a permit can request a public hearing prior to its issuance. The request must be in writing and addressed to the secretary. If the secretary determines there is sufficient reason in the request, a public hearing will be conducted—the place, date and time of the hearing will be announced in this publication. A request for a hearing or written comments on the proposed permit must be submitted to the Secretary, Kansas Department of Health and Environment, Landon State Office Building, 900 S.W. Jackson, Topeka 66612, before September 3.

Azzie Young
 Secretary of Health and Environment

State of Kansas

Department of Health and Environment

Notice of Hearing on Proposed Administrative Regulations

The Kansas Department of Health and Environment will conduct a public hearing at 10 a.m. Friday, September 25, in Room 108 of the Landon State Office Building, 900 S.W. Jackson, Topeka, to consider the adoption of proposed changes to the existing regulation concerning application fees for licensure of dietitians. The proposed amendment to K.A.R. 28-59-7 lowers fee rates to: (1) \$140 for the license application fee, (2) \$135 for the renewal fee, (3) \$70 for the temporary license application fee, and (4) \$140 for the reinstatement of a revoked license fee. The late license renewal fee was increased to \$50. No other costs are foreseen for the department, other governmental agencies or units, private citizens or consumers.

A complete copy of the proposed regulatory changes and economic impact statement may be obtained by contacting Cathy Rooney, Health Occupations Credentialing, Kansas Department of Health and Environment, Suite 901, Landon State Office Building, 900 S.W. Jackson, Topeka 66612-1290, (913) 296-1281. The time period between the publication of this notice and the scheduled hearing constitutes a public comment period for the purposes of receiving written public comments on the proposed amendments.

All interested parties may submit comments prior to the hearing to the address above. All interested parties also will be given a reasonable opportunity at the hearing to present their views orally or in writing concerning the adoption of the proposed rules and regulations. Following the hearing, all written and oral comments submitted will be considered by the secretary prior to adoption.

Department of Health and Environment

Notice Concerning Kansas Water Pollution Control Permits

In accordance with state regulations 28-16-57 through 63, 28-18-1 through 4, 28-46-7, and the authority vested with the state by the administrator of the U.S. Environmental Protection Agency, tentative permits have been prepared for discharges to the waters of the United States and the state of Kansas for the applicants described below. The tentative determinations for permit content are based on preliminary staff review, applying the appropriate standards, regulations, and effluent limitations of the state of Kansas and the EPA, and when issued will result in a state water pollution

control permit and national pollutant discharge elimination system authorization to discharge subject to certain effluent limitations and special conditions.

Public Notice No. KS-92-146/147

Name and Address of Applicant	Waterway	Type of Discharge
Garnett Municipal Power Plant P.O. Box H 1600 S. Walnut Garnett, KS 66032	Crystal Lake Marais des Cygnes River Basin	Cooling water
Anderson County, Kansas Kansas Permit No. I-MC13-C001		Fed. Permit No. KS-0084191

Description of Facility: This is a standby electrical generating station used for peaking and emergency power. Water from Crystal Lake is used for once through cooling water and returned back to the lake. This is an existing permit and the previous limitations are continued. Proposed effluent limitations are pursuant to Kansas Surface Water Quality Standards, K.A.R. 28-16-28(b-f).

Name and Address of Applicant	Waterway	Type of Discharge
Kansas Natural, Inc. Ashland Hydrostatic Test 600 Commerce Plaza 7300 W. 110th Overland Park, KS 66210	The Salt Fork of the Arkansas River, Lower Arkansas River Basin	Hydrostatic test discharge
Comanche County, Kansas Kansas Permit No. I-CI01-P001		Fed. Permit No. KS-0088897

Description of Facility: Water is discharged to the Salt Fork of the Arkansas River after it is used to hydrostatically test an existing natural gas pipeline. This is a new permit for a one time discharge. Proposed effluent limitations are pursuant to Kansas Surface Water Quality Standards, K.A.R. 28-16-28(b-f).

Name and Address of Applicant	Legal Description	Receiving Water
Elmer Nisley Route 1, Box 124 Hutchinson, KS 67501	SE/4 Section 35, Township 23S, Range 7W, Reno County	Lower Arkansas River Basin
Kansas Permit No. A-ARRN-M015		

The existing facility has the capacity for approximately 75 swine. Wastewater Control Facilities: Wastewater will be impounded for subsequent application to agricultural land for beneficial use. Wastewater storage capacity is provided in excess of minimum requirements.

Compliance Schedule:

1. The concrete manure storage tank for the dairy parlor does not meet the Departments minimum capacity requirement for 120 days waste storage. The Department will review operational logs to determine if the facility can be operated in compliance with permit conditions. Additional storage capacity may be required.
2. A livestock waste management plan for the facility shall be developed. The plan shall cover, but not be limited to, the following items: handling and disposal equipment for both solid and liquid wastes, land application practices used to protect against runoff and leaching, waste application rates based on crop nutrient utilization, and identification of adequate land areas for application of all wastes. The waste management plan shall be based on accepted principles, methodologies and data for waste characteristics and crop utilization. The plan shall be submitted to the department with six months following receipt of detailed requirements. The approved plan will become part of this permit.

Written comments on the proposed determinations may be submitted to Bethel Spotts or Angela Buie (agricultural permits), Permit Clerk, Kansas Department

of Health and Environment, Division of Environment, Bureau of Water, Forbes Field, Topeka 66620. All comments received prior to September 5 will be considered in the formulation of final determinations regarding this public notice. Please refer to the appropriate public notice number (KS-92-146/147 or KS-AG-92-61) and the name of applicant as listed when preparing comments.

If no objections are received, the Secretary of Health and Environment will issue the final determinations. If response to this notice indicates significant public interest, a public hearing may be held in conformance with state regulation 28-16-61 (28-46-21 for UIC). Media coordination (newspapers, radio) for publication and/or announcement of the public notice or public hearing is handled by the Kansas Department of Health and Environment.

The application, proposed permit, including proposed effluent limitations and special conditions, fact sheets as appropriate, comments received, and other information are on file and may be inspected at the Kansas Department of Health and Environment offices, Building 740, Forbes Field, Topeka, from 8 a.m. to 4:30 p.m. Monday through Friday. The documents are available upon request at the copying cost assessed by KDHE. Additional copies of this public notice also may be obtained at the Division of Environment.

State of Kansas

State Corporation Commission

Notice of Hearing

The State Corporation Commission has directed that a hearing be conducted (pursuant to K.S.A. 55-703) for all producers, purchasers, royalty owners, landowners, or others, to determine the reasonable market demand for gas produced, and the deliverability and acreage attributable for the fixing of gas production percentages and quotas for the following from October 1, 1992, through March 31, 1993.

- In the matter of determining the market demand for natural gas for the Hugoton Gas Field in Finney, Grant, Gray, Hamilton, Haskell, Kearny, Morton, Seward, Stanton, Stevens and Wichita counties, Kansas, attributable to each of the respective wells therein, and fixing gas production percentages and quotas for wells within said field for the proration period extending from October 1, 1992, through March 31, 1993. Docket No. C-164.
- In the matter of determining the market demand for natural gas for the Panoma-Council Grove Gas Field in Finney, Grant, Hamilton, Haskell, Kearny, Morton, Stanton, Stevens, Wichita and Seward counties, Kansas, attributable to each of the respective wells therein, and fixing gas production percentages and quotas for wells within said field for the proration

period extending from October 1, 1992, through March 31, 1993. Docket No. 60,024-C (C-7,058).

- In the matter of determining the market demand for natural gas for the Glick (Mississippi) Gas Pool in Barber, Comanche and Kiowa counties, Kansas, attributable to each of the respective wells therein, and fixing gas production percentages and quotas for wells within said pool for the proration period extending from October 1, 1992, through March 31, 1993. Docket No. 55,164-C (C-5,667).
- In the matter of determining the market demand for natural gas for the Salley (Lower Morrow) Gas Pool in Seward County, Kansas, attributable to each of the respective wells therein, and fixing gas production percentages and quotas for wells within said pool for the proration period extending from October 1, 1992, through March 31, 1993. Docket No. 105,347-C (C-17,909).
- In the matter of determining the market demand for natural gas for the Gentzler (Lower Morrow) Mississippi Gas Pool in Stevens County, Kansas, attributable to each of the respective wells therein, and fixing gas production percentages and quotas for wells within said pool for the proration period extending from October 1, 1992, through March 31, 1993. Docket No. 111,999-C (C-18,819).
- In the matter of determining the market demand for natural gas for the Harding West Gas Pool in Barber and Pratt counties, Kansas, attributable to each of the respective wells therein, and fixing gas production percentages and quotas for wells within said pool for the proration period extending from October 1, 1992, through March 31, 1993. Docket No. 116,906-C (C-19,181).
- In the matter of determining the market demand for natural gas for the Greenwood Gas Field in Morton County, Kansas, attributable to each of the respective wells therein, and fixing gas production percentages and quotas for wells within said pool for the proration period extending from October 1, 1992, through March 31, 1993. Docket No. 46,644-C (C-3,879).

The hearing will be at 9 a.m. Thursday, September 17, in the third floor hearing room, 300 Colorado Derby Building, 202 W. 1st, Wichita, before commissioners Jim Robinson, F. S. Jack Alexander and Rachel C. Lipman. All transporters of gas produced should furnish nominations for the calendar months included in the proration period. Questions should be directed to John McCannon or William J. Wix, Assistant General Counsel, State Corporation Commission, Conservation Division, 202 W. 1st, Wichita 67202, (316) 263-3238.

(Published in the Kansas Register, August 6, 1992.)

**Summary Notice of Bond Sale
Unified School District No. 260
Sedgwick County, Kansas (Derby)
\$10,000,000**

**General Obligation Bonds, Series 1992
(general obligation bonds payable from
unlimited ad valorem taxes)**

Sealed Bids

Subject to the notice of bond sale and preliminary official statement dated July 13, 1992, sealed bids will be received by the clerk of Unified School District No. 260, Sedgwick County, Kansas (Derby) (the issuer), on behalf of the governing body at the Administration Center, 120 E. Washington, Derby, Kansas 67037, until 4:00 p.m., C.D.T. on August 17, 1992 for the purchase of \$10,000,000 principal amount of General Obligation Bonds, Series 1992. No bid of less than the entire par value of the bonds and accrued interest thereon to the date of delivery will be considered.

Bond Details

The bonds will consist of fully registered bonds in the denomination of \$5,000 or any integral multiple thereof. The bonds will be dated September 1, 1992, and will become due on October 1 in the years as follows:

Year	Principal Amount
1996	\$ 50,000
1997	100,000
1998	150,000
1999	150,000

2000	150,000
2001	150,000
2002	150,000
2003	200,000
2004	250,000
2005	250,000
2006	250,000
2007	1,310,000
2008	1,465,000
2009	1,620,000
2010	1,785,000
2011	1,970,000

The bonds will bear interest from the date thereof at rates to be determined when the bonds are sold as hereinafter provided, which interest will be payable semiannually on April 1 and October 1 in each year, beginning on April 1, 1994.

Paying Agent and Bond Registrar

Kansas State Treasurer, Topeka, Kansas.

Good Faith Deposit

Each bid shall be accompanied by a cashier's or certified check drawn on a bank located in the United States of America in the amount of \$200,000 (2 percent of the principal amount of the bonds).

Delivery

The issuer will pay for printing the bonds and will deliver the same properly prepared, executed and registered without cost to the successful bidder, on or before September 15, 1992, at such bank or trust company in the contiguous United States of America as may be specified by the successful bidder.

Assessed Valuation and Indebtedness

The equalized assessed tangible valuation for computation of bonded debt limitations for the year 1991, is \$155,077,541. The total general obligation indebtedness of the issuer as of the date of the bonds, including the bonds being sold, is \$15,825,000.

Approval of Bonds

The bonds will be sold subject to the legal opinion of Gilmore and Bell, a professional corporation, Wichita, Kansas, bond counsel, whose approving legal opinion as to the validity of the bonds will be furnished and paid for by the issuer, printed on the bonds and delivered to the successful bidder as and when the bonds are delivered.

Additional Information

Additional information regarding the bonds may be obtained from the clerk, or from the financial advisor, Ranson Capital Corporation, 120 S. Market, Suite 450, Wichita, KS 67202, Attention: Stephen E. Shogren (316/262-4955).

**Summary Notice of Bond Sale
\$680,000**

**City of Augusta, Kansas
General Obligation Internal Improvement Bonds
(general obligation bonds payable
from unlimited ad valorem taxes)**

Details of the Sale

Subject to the terms and conditions of the complete official notice of bond sale, dated July 20, 1992, of the City of Augusta, Kansas in connection with the city's General Obligation Internal Improvement Bonds hereinafter described, sealed, written bids shall be received in the city clerk's office at City Hall in Augusta, Kansas, until 7:30 p.m., C.D.T., Monday, August 17, 1992, for the purchase of the bonds. All bids shall be publicly opened, read aloud and shall be immediately acted upon by the governing body of the city. No oral or auction bids for the bonds shall be considered, and no bids for less than the entire amount of the bonds shall be considered. Bids shall be accepted only on the official bid form which has been prepared for the public bidding on these bonds, and which may be obtained from the city clerk or from the city's financial advisor. Bids may be submitted by mail or may be delivered in person, and must be received at the place and no later than the date and time specified. Each bid shall be accompanied by a good faith deposit in the form of a certified or cashier's check drawn on a bank located within the United States and made payable to the order of the city, and shall be in an amount equal to 2 percent of the principal amount of the bonds.

Details of the Bonds

The bonds to be sold are in the aggregate principal amount of \$680,000. The bonds shall be issued as fully registered bonds in denominations of \$5,000, or any integral multiple thereof not exceeding the principal amount of bonds maturing in any year. The bonds shall bear a dated date of September 1, 1992. The bonds shall bear interest, payable as hereinafter set forth, at the rates specified by the successful bidder for the bonds. Certain of the bonds are subject to redemption prior to their maturities as set forth in the official notice of bond sale.

Interest on the bonds shall be payable semiannually on April 1 and October 1 in each year, commencing April 1, 1993, and the bonds shall mature serially on October 1 in each of the years and principal amounts as follows:

Principal Amount	Maturity Date
\$20,000	1993
55,000	1994
60,000	1995
65,000	1996
70,000	1997
75,000	1998
75,000	1999
85,000	2000

Payment of Principal and Interest

The treasurer of the state of Kansas shall serve as the bond registrar and paying agent for the bonds, and the principal of the bonds shall be payable upon surrender at the paying agent's principal offices in the city of Topeka. Interest shall be paid by mailing a check or draft of the paying agent to the registered owners of the bonds.

Security for the Bonds

The bonds and the interest thereon shall constitute general obligations of the city, and the full faith, credit and resources of the city shall be pledged to the payment thereof. The city is obligated to levy special assessment taxes in certain authorized amounts upon certain benefitted properties and ad valorem taxes without limitation as to rate or amount upon all of the taxable tangible property within the territorial limits of the city for the purpose of paying the bonds and the interest thereon.

Delivery of the Bonds

The bonds, duly printed, executed and registered, shall be furnished and delivered at the expense of the city to the successful bidder, or at its direction, on or about Tuesday, September 15, 1992, at such bank or trust company or other qualified depository in the state of Kansas or Kansas City, Missouri, as may be specified by the successful bidder. Delivery elsewhere shall be made at the expense of the successful bidder.

Legal Opinion

The bonds will be sold subject to the legal opinion of Hinkle, Eberhart & Elkouri, Wichita, Kansas, bond counsel, whose fees will be paid by the city. Bond counsel's approving legal opinion as to the validity of the bonds will be printed on the bonds and will be delivered to the successful bidder upon delivery of the bonds. (Reference is made to the official notice of bond sale for a discussion of tax exemption and other legal matters.)

Financial Matters

The city's 1991 assessed valuation is as follows:

Assessed valuation of taxable tangible property	\$21,862,626
Motor vehicle valuation	6,536,630
Equalized assessed tangible valuation for computation of bonded debt limitations	<u>\$28,399,256</u>

The city's outstanding general obligation bonded indebtedness at September 1, 1992, not including the bonds described herein, will be in the principal amount of \$1,412,000. This amount does not include \$648,413 aggregate principal amount of outstanding temporary improvement notes which will be redeemed and paid from outstanding proceeds of the bonds described herein.

Outstanding Statement

The city has prepared a preliminary official statement relating to the bonds, copies of which may be obtained

(continued)

from the city or the city's financial advisor. The Preliminary Official Statement is in a form "deemed final" by the city for the purpose of the Securities Exchange Commission's Rule 15c2-12(b)(1), but is subject to revision, amendment and completion in the final official statement. Upon the sale of the bonds, the city shall furnish the successful bidder with a reasonable number of copies of the final official statement, without additional cost, upon request. Copies of the final official statement in excess of a reasonable number may be ordered by the successful bidder at its expense.

Additional Information

For additional information regarding the city, the bonds and the sale, interested parties are invited to request copies of the complete official notice of bond sale and official bid form and the city's preliminary official statement for the bonds, all of which may be obtained from the undersigned or from the city's financial advisor, Dave Malone, Cooper Malone McClain, Inc., 100 N. Main, Suite 510, Wichita, KS 67202, 316-264-2400.

Doc. No. 012329

(Published in the Kansas Register, August 6, 1992.)

**Notice of Redemption
to the holders of
Unified School District 450
Shawnee County, Kansas
General Obligation Bonds
Series 1986
Dated June 1, 1986**

Notice is hereby given that pursuant to Resolution No. 3 of the Unified School District 450, Shawnee County, Kansas, adopted June 2, 1986, all of the outstanding General Obligation Bonds, Series 1986 of the Unified School District 450, Shawnee County, Kansas, maturing September 1, 1993, and thereafter, will be redeemed and prepaid on September 1, 1992 (the redemption date), prior to their respective maturities subject to the provisions and limitations set forth herein.

Principal Amount	Maturity Date	Interest Rate
\$150,000	September 1, 1993	7.400%
220,000	September 1, 1994	7.400
250,000	September 1, 1995	7.400
250,000	September 1, 1996	7.400
250,000	September 1, 1997	7.500
250,000	September 1, 1998	7.625

The principal amount of the above described Series 1986 Bonds shall become due and payable on the redemption date, at a redemption price equal to the prin-

cipal amount thereof, plus accrued interest thereon to the redemption date, without premium.

On September 1, 1992, provided that funds are on hand to pay the specified redemption price, all Series 1986 Bonds will be due and payable at the principal office of the Kansas State Treasurer, Topeka, Kansas, and from and after the redemption date, the interest on the Series 1986 Bonds will cease to accrue. It is requested that all Series 1986 Bonds be surrendered at least two weeks in advance of the redemption date.

Under the provisions of the Interest and Dividend Tax Compliance Act of 1983, paying agents making payments of interest or principal on corporate securities or making payments of principal on municipal securities may be obligated to withhold a 20 percent tax from remittances to individuals who have failed to furnish the paying agent with a valid taxpayer identification number. Holders of the Series 1986 Bonds who wish to avoid the imposition of the tax should submit certified taxpayer identification numbers when presenting the Series 1986 Bonds for payment.

Dated July 28, 1992.

Robert H. Ragan, District Clerk
of Unified School District 450
Shawnee County, Kansas

Real Estate Commission
Permanent Administrative
Regulations**

Article 1.—EXAMINATION AND REGISTRATION

86-1-13. Submission of evidence of course attendance. (a) As a prerequisite to taking the examination required by K.S.A. 58-3039, and amendments thereto, each applicant for an original license as a salesperson shall submit evidence required by subsection (a) of K.S.A. 58-3046a, and amendments thereto, to the testing service designated by the commission. The evidence submitted shall be a certificate of completion of a principles of real estate course, of not less than 30 hours, approved by the commission and attended by the applicant within 12 months immediately preceding the date of the examination.

(b) As a prerequisite to taking the examination required by K.S.A. 58-3039, and amendments thereto, each applicant for an original license as a broker shall submit evidence required by subsection (b) of K.S.A. 58-3046a, and amendments thereto, to the testing service designated by the commission. The evidence shall be a certificate of completion of a broker pre-license course, of not less than 24 hours, approved by the commission and attended by the applicant within 12 months immediately preceding the date of the examination.

(c) Within 30 days of course completion or by the licensee's renewal date, whichever is earlier, each licensee shall submit to the commission a certificate of completion for each course for which credit is re-

quested to meet the requirements of subsection (c), (d) or (e) of K.S.A. 58-3046a and amendments thereto. If the school agrees, any licensee may appoint the school which offered the course as the licensee's agent for the purpose of submitting evidence to the commission of the licensee's completion of a course. If the school acts as the licensee's agent, the school shall:

(1) Obtain the licensee's written concurrence that the licensee understands that failure by the school to submit such evidence to the commission on a timely basis does not relieve the licensee of the responsibility to have required hours registered with the commission at or prior to the licensee's renewal due date;

(2) submit a roster to the commission within seven calendar days after course completion. If the course completion date is less than seven calendar days prior to any renewal date established by K.A.R. 86-1-4, the roster shall be postmarked or delivered to the commission no later than the renewal date. The roster shall be on a form approved by the commission and shall include the name of the school, the school code, the name of the course, the course code, the number of hours approved for credit, the date the course was completed, the full name and license number of each licensee who is issued a certificate of completion pursuant to K.A.R. 86-1-10(q)(1) and who appointed the school as agent, and the total number of licensees listed. Licensees shall be listed in alphabetical order on the roster. The roster may include licensees who did not appoint the school as agent, provided that such licensees are so designated on the roster. Each page of the roster shall be signed by the school coordinator; and

(3) include the word "COPY" in bold and conspicuous type in the upper right corner of any certificate of completion issued pursuant to K.A.R. 86-1-10(g)(1) to a licensee who appointed the school as the licensee's agent.

Any roster containing incorrect or incomplete licensee information may be returned to the school coordinator for correction and no credit hours may be entered into commission records for any such licensee until the licensee information is corrected and returned to the commission. Any roster not in compliance with any other requirement of paragraph (2) above may be returned to the school coordinator and no credit hours entered into commission records until the roster is corrected and returned to the commission. (Authorized by K.S.A. 74-4202(b); implementing K.S.A. 1991 Supp. 58-3046a; effective, T-86-31, Sept. 24, 1985; effective May 1, 1986; amended May 1, 1988; amended Jan. 29, 1990; amended Sept. 21, 1992.)

E.W. Yockers
Director

Doc. No. 012312

State of Kansas

Department of Health and Environment

Permanent Administrative Regulations

Article 15.—APPLICATION FOR PERMITS; DOMESTIC WATER SUPPLY

28-15-11. Definitions. (a) "Public water supply system" means a system for delivery to the public of piped water for human consumption, that has at least 10 service connections or regularly serves at least 25 individuals daily at least 60 days out of the year. This term includes any source, treatment, storage or distribution facilities used in connection with the system.

(b) "Community water supply system" means a public water supply system which has at least 10 service connections used by year-round residents or that regularly serves 25 year-round residents.

(c) "Non-community water supply system" means a public water supply system which is not a community water supply system.

(d) "Non-transient non-community water supply system" means a public water supply system that is not a community water supply system and that regularly serves at least 25 of the same persons at least six months per year.

(e) "Department" means the Kansas department of health and environment.

(f) "Secretary" means the secretary of health and environment.

(g) "Laboratory tests" means all bacteriological, chemical, physical or radiological tests made by either the departmental laboratory or an approved laboratory on water samples which were submitted by the operator of a system to confirm the quality of the water.

(h) "Operating records and reports" means the daily record and the monthly report of data connected with the operation of the system facilities.

(i) "Sanitary survey" means an on-site appraisal of a public water supply system for the purpose of evaluating the adequacy of the water source, facilities, equipment, operation and maintenance.

(j) "Approved laboratory" means a laboratory certified and approved by the department to analyze water samples to determine compliance with maximum contaminant levels, or to perform other required analyses.

(k) "Maximum contaminant level" (MCL) means the maximum permissible level of a contaminant in water which is delivered to the free flowing outlet of the ultimate user of a public water supply system, or measured at other locations specified in these regulations.

(l) "Distribution system" means the system of conduits and the appurtenances by which a water supply is distributed to consumers.

(m) "Turbidity" means the cloudy condition of water caused by the presence of finely suspended matter such as clay, silt, plankton, and microscopic organ-

(continued)

isms, resulting in the scattering and absorption of light rays.

(n) "Point-of-entry treatment device" means a treatment device applied to the drinking water entering a house or building for the purpose of reducing contaminants in the drinking water distributed throughout the house or building.

(o) "Point-of-use treatment device" means a treatment device applied to a single tap used for the purpose of reducing contaminants in drinking water at that particular tap.

(p) "Confluent growth" means a continuous bacterial growth covering the entire filtration area of a membrane filter, or a portion thereof, in which bacterial colonies are not discrete.

(q) "Domestic or non-distribution system plumbing problem" means a coliform contamination problem in a public water system with more than one service connection that is limited to the specific service connection from which the coliform-positive sample was taken.

(r) "System with a single service connection" means a system which supplies drinking water to consumers via a single service line.

(s) "Too numerous to count" means that the total number of bacterial colonies exceeds 200 on a 47-mm diameter membrane filter used for coliform detection. (Authorized by and implementing K.S.A. 65-171m; effective May 1, 1982; amended Sept. 21, 1992.)

*** 28-15-13. Standards for bacteriological, chemical, physical and radiological quality.** (a) Maximum contaminant microbiological levels.

(1) A public water supply system which collects 39 or fewer samples per monitoring period is in compliance with the MCL if total coliforms are not detected in more than one sample;

(2) A public water supply system which collects 40 or more samples per monitoring period is in compliance with the MCL if total coliforms are not detected in more than 5% of the samples;

(3) A public water supply system which collects any fecal coliform positive or E. coli positive repeat sample, or any total coliform positive repeat sample following a fecal coliform positive or E. coli positive routine sample is in violation of the MCL and may be considered to pose an acute health risk for the purposes of public notification.

(4) Each public water supply shall, for every monitoring period, determine whether it is in compliance with the applicable microbiological MCL.

(5) Variances and exemptions from the maximum contaminant level for coliform bacteria shall not be granted, unless the public water supply system demonstrates to the department that the violation of the maximum contaminant level is due to a persistent growth of total coliforms in the distribution system rather than:

- (A) fecal or pathogenic contamination;
- (B) a treatment lapse or deficiency; or
- (C) a problem in operation or maintenance of the distribution system.

(b) Maximum contaminant levels for inorganic chemicals shall be:

Constituent	Level, in milligrams, per liter
Arsenic	0.05
Barium	1
Cadmium	0.010
Chromium	0.05
Lead	0.05
Mercury	0.002
Nitrate (as N)	10
Selenium	0.01
Silver	0.05
Fluoride	4.0

(c) Maximum contaminant levels for organic chemicals shall be:

	Level, in milligrams, per liter
(1) Chlorinated hydrocarbons:	
(A) Endrin (1,2,3,4,10,10-hexachloro-6,7-epoxy-1,4,4a,5,6,7,8,8a-octahydro-1,4-endo, endo-5,8-dimethano naphthalene).	0.0002
(B) Lindane (1,2,3,4,5,6-hexachlorocyclohexane, gamma isomer).	0.004
(C) Methoxychlor (1,1,1-Trichloro-2,2-bis [p-methoxyphenyl] ethane).	0.1
(D) Toxaphene (C ₁₀ H ₁₀ Cl ₈ -Technical chlorinated camphene, 67-69 percent chlorine).	0.005
(2) Chlorophenoxys:	
(A) 2,4-D, (2,4-Dichlorophenoxyacetic acid).	0.1
(B) 2,4,5-TP Silvex (2,4,5-Tri-chlorophenoxypropionic acid).	0.01
(3) Total trihalomethanes consisting of the sum of trichloromethane (chloroform), bromodichloromethane, dibromochloromethane and tribromomethane (bromofom).	0.10
(4) Volatile Organic Compounds:	
(A) Benzene	0.005
(B) Vinyl Chloride	0.002
(C) Carbon Tetrachloride	0.005
(D) 1,2-Dichloroethane	0.005
(E) Trichloroethylene	0.005
(F) para-Dichlorobenzene	0.075
(G) 1,1-Dichloroethylene	0.007
(H) 1,1,1-Trichloroethane	0.200

(d) Maximum contaminant levels for radiological contaminants shall be:

Constituent	Level, in pCi per liter
Combined radium-226 and radium-228	5
Gross alpha particle activity (including radium-226 but excluding radon and uranium)	15
Tritium	20,000
Strontium-90	8
Gross beta radioactivity	50

The average annual concentration of beta particle and photon radioactivity from man-made radionuclides in drinking water shall not produce an annual dose equivalent to the total body or to any internal organ greater than four millirem per year.

(e) Maximum contaminant levels for turbidity shall apply only to systems which use surface water. The maximum contaminant levels for turbidity in drinking water, measured daily at representative entry points to the distribution system, shall be:

(1) One nephelometric turbidity unit (NTU), as determined by a monthly average, except that five or fewer turbidity units may be allowed if the supplier of water can demonstrate to the department that the higher turbidity does not:

- (A) Interfere with disinfection;
 - (B) Prevent maintenance of an effective disinfectant agent throughout the distribution system; or
 - (C) Interfere with microbiological determinations; and
- (2) Five turbidity units based on an average for two consecutive days. Daily turbidity readings shall be taken and recorded. If the maximum turbidity level exceeds one NTU for two consecutive days, the supplier of water shall notify the department within 48 hours after the turbidity readings are taken. Daily turbidity readings shall be reported to the department by the tenth day of the month following the month in which the readings are taken.
- (f) Inorganic analyses for the following constituents shall be required from each community water supply system with its own source of supply.

Calcium	Specific conductance
Magnesium	Total dissolved solids
Sodium	Total Phosphorus
Potassium	Total Alkalinity
Chloride	Sodium Bicarbonate
Sulfate	Alkalinity
Silica	Total Hardness
Iron	Carbonate Hardness
Manganese	Non-Carbonate Hardness
pH	

An inorganic chemical analysis for the above constituents may be required by the department from a non-community water supply system with its own source of supply. The above analyses are required to determine the potability of the source of supply and to monitor the corrosivity characteristics of the water. The corrosive indices shall be calculated in accordance with 40 CFR 141.42, as in effect on July 1, 1990, which is adopted by reference.

(g) Each analysis to determine compliance shall be done in an approved laboratory according to methods established by "Standard Methods for the Examination of Water and Wastewater," 16th edition, 1985, or as specified in 40 CFR 141.21-141.25 and 141.30, as in effect on July 1, 1990, or the equivalents outlined in 40 CFR 141.27, as in effect on July 1, 1990. Each analysis shall be made on treated water as furnished to the consumer to insure potability or at specified locations as prescribed in K.A.R. 28-15-14. (Authorized by and implementing K.S.A. 65-171m; effective May 1, 1982; amended Sept. 21, 1992.)

28-15-14. Monitoring requirements for laboratory tests. (a) Monitoring requirements for microbiological determination.

(1) The sampling period for microbiological compliance shall be one calendar month for all public water supply systems.

(2) Each public water supply system which uses surface water as its source of supply shall take a minimum of four water samples each sampling period, unless the population served exceeds 4100, in which case the number of samples shall be based on the sampling schedule prescribed in subsection (a)(4). Each public water supply system which uses ground water as its source of supply and each public water supply system which purchases water from another public water sup-

ply system shall take water samples according to the schedule prescribed in subsection (a)(4).

(3) Each public water supply system shall sample for coliform bacteria to determine compliance with K.A.R. 28-15-13(a) as follows:

(A) Each public water supply system shall determine the presence or absence of total coliforms in a standard 100 ml sample. A determination of total coliform density is not required.

(B) Each public water supply system using the multiple-tube fermentation (MTF) technique shall comply with the provisions of 40 CFR 141.21(f)(3)(i), as in effect on July 1, 1990.

(C) Each public water supply system using the membrane filter (MF) technique shall comply with the provisions of 40 CFR 141.21(f)(3)(ii), as in effect on July 1, 1990.

(D) Each public water supply system using the presence-absence (P-A) coliform test shall comply with the provisions of 40 CFR 141.21(f)(3)(iii), as in effect on July 1, 1990.

(E) Each public water supply system using the minimal medium ONPG-MUG (MMO-MUG) test shall comply with the provisions of 40 CFR 141.21(f)(3)(iv), as in effect on July 1, 1990.

(F) In lieu of the 10-tube MTF technique specified in paragraph (3)(B) of K.A.R. 28-15-14(a), any public water supply system may use the MTF technique described in 40 CFR 141.21(f)(4), as in effect on July 1, 1990.

(G) Each fecal coliform test shall be performed according to the provisions of 40 CFR 141.21(f)(5), as in effect on July 1, 1990.

(H) Each E. coli test shall be performed according to the provisions of 40 CFR 141.21(f)(6), as in effect January 8, 1991.

(I) Each water sample shall be taken at a point which is representative of the conditions within the distribution system and in accordance with a written sample siting plan which is subject to review and revision by the department.

(4) Each public water supply system shall assure that routine samples are collected at regular time intervals and analyzed for total coliform bacteria as prescribed in the following table:

Population Served	Minimum number of samples per sampling period
25 to 2,500	2
2,501 to 3,300	3
3,301 to 4,100	4
4,101 to 4,900	5
4,901 to 5,800	6
5,801 to 6,700	7
6,701 to 7,600	8
7,601 to 8,500	9
8,501 to 12,900	10
12,901 to 17,200	15
17,201 to 21,500	20
21,501 to 25,000	25
25,001 to 33,000	30
33,001 to 41,000	40
41,001 to 50,000	50
50,001 to 59,000	60
59,001 to 70,000	70
70,001 to 83,000	80

(continued)

83,001 to 96,000	90
96,001 to 130,000	100
130,001 to 220,000	120
220,001 to 320,000	150
320,001 to 450,000	180

For each additional 150,000 in population, an additional 30 water samples shall be analyzed per sampling period.

(5) Additional water samples may be required by the department. These samples may be taken to determine the adequacy of disinfection following line installation, replacement, or repair. Water samples may also be required for the determination of the adequacy of the source, storage, treatment or distribution of water to the public. These additional water samples shall not be used to determine compliance with microbiological monitoring or the maximum contaminant level requirements.

(6) If the public water supply system exceeds the maximum contaminant level for coliform bacteria, the supplier of water shall give public notice of this fact, in accordance with K.A.R. 28-15-15a.

(7) Each total coliform positive sample shall be tested for either fecal coliform or *E. coli* bacteria. If the sample tests positive, the department shall be notified by the end of the business day. A public water supply system may request that the department classify any total coliform-positive sample as fecal coliform/*E. coli*-positive. If this request is approved, the provisions of K.A.R. 28-15-13(a)(3) apply.

(8) All locations which test positive for total coliform shall be resampled within 24 hours of notification that a positive sample was obtained or as directed by the department. Three repeat samples shall be collected on the same day for each total coliform positive sample and in the following manner:

(A) One additional sample shall be taken from the tap where the original positive sample was collected.

(B) One additional sample shall be taken from a tap within five service connections upstream of the positive sample.

(C) One additional sample shall be taken from a tap within five service connections downstream of the positive sample.

(D) Systems which have only one service connection shall collect one repeat sample daily for three days or take one 300 ml sample and divide it into three 100ml portions.

(E) When a positive sample is collected at the last tap on a service line, the three repeat samples shall be taken at:

- (i) the original positive location;
- (ii) at the next upstream tap; and
- (iii) a tap within five upstream taps of the positive sample location.

(F) Each public water supply system which collects less than five routine samples per sampling period shall collect a minimum of five routine samples during the sampling period following a monitoring period with a total coliform-positive coliform sample, unless the positive sample is invalidated by the state.

(G) If any repeat sample collected as specified in this subsection also tests positive for total coliform, another

set of repeat samples shall be collected and analyzed for total coliform. Repeat samples shall be collected until:

(i) total coliform are not detected in one complete set of repeat samples;

(ii) the MCL has been exceeded; or

(iii) the department invalidates the original total coliform-positive sample site after two sets of repeat samples are taken where the original total coliform-positive sample site produces total coliform-positive repeat samples and all other repeat samples are total coliform negative.

(9) All routine and repeat samples count in the determination of compliance with the MCL unless the sample is invalidated in writing by the department for one of the following three reasons:

(A) The laboratory which performed the analysis acknowledges a procedural error which invalidates the results;

(B) Based on the results of the repeat samples, it is shown that the coliform-positive sample resulted from a domestic or non-distribution system plumbing problem; or

(C) The positive sample is due to circumstances which do not reflect water quality in the distribution system. Samples will be invalidated under this paragraph only upon written request from the public water supplier. The request shall state the specific cause of the total coliform-positive sample and what actions the system has taken, or will take, to correct the problem. Total coliform-positive samples shall not be invalidated solely on the basis that all repeat samples are total coliform-negative. If a sample is invalidated under this paragraph, repeat samples shall be collected as required by K.A.R. 28-15-14(a)(8).

(10) Unless total coliforms are detected, a laboratory shall invalidate a sample if the sample:

(A) produces a turbid culture in the absence of gas production using the MPN method;

(B) produces a turbid culture in the absence of an acid reaction in the P-A coliform test; or

(C) exhibits confluent growth or produces colonies too numerous to count in the membrane filter test.

(11) All samples which are invalidated shall be replaced by collecting another sample from the same location as the original sample within 24 hours of notification of the invalidation, or as directed by the department.

(12) Each public water supply system which does not collect five routine samples per sampling period shall have an initial sanitary survey by June 29, 1994 for community water systems and June 29, 1999 for non-community water systems. After the initial survey, each system shall have another sanitary survey every five years, except for non-community water systems which shall be resurveyed every 10 years. All sanitary surveys will be performed by the state.

(13) Each public water supply system which exceeds the MCL for coliform bacteria or fails to comply with these monitoring requirements shall notify the state by the end of the next business day after it learns of the

violation and shall issue public notification according to K.A.R. 28-15-15a.

(b) Monitoring requirements for chemical quality of community water supply systems. The scope of the chemical analysis shall be sufficient to demonstrate compliance with all the requirements of these rules and regulations.

(1) Each public water supply system shall monitor the water in the distribution system yearly to determine the concentration of those chemical constituents listed in K.A.R. 28-15-13(f).

(2) Each public water supply system using ground water as the sole source of supply shall monitor the water in the distribution system once every three years to determine compliance with the requirements of K.A.R. 28-15-13(b).

(3) Each public water supply system using surface water shall monitor the water in the distribution system yearly to determine compliance with the requirements of K.A.R. 28-15-13(b).

(4) Each public water supply system using surface water shall monitor the water in the distribution system once every three years to determine compliance with K.A.R. 28-15-13(c)(1) and (c)(2). These water samples shall be collected during the portion of the year when pesticides are commonly in use in the area.

(5) Each community water supply system serving a population of 10,000 or more shall monitor the water quarterly to determine compliance with K.A.R. 28-15-13(c)(3). Upon the written request of the supplier of water, the monitoring requirement may be reduced by the department to one yearly sample, when only groundwater is used and based upon the analytical results of the water samples submitted for analyses. Upon the written request of the supplier of water, the monitoring requirement may be reduced by the department from four water samples in each quarter to one water sample in each quarter, based on the analytical results of one year of monitoring in compliance with K.A.R. 28-15-13(c)(3), if:

(A) local conditions demonstrate that the total trihalomethanes are consistently below the maximum contaminant level prescribed in K.A.R. 28-15-3(c)(3); and

(B) the sample reflects the maximum residence time of the water in the system.

(6) (A) Each community and non-transient, non-community water supply system shall monitor its water to determine compliance with K.A.R. 28-15-13(c)(4), and for the following unregulated volatile organic compounds, except that monitoring for ethylene dibromide shall only be required if the department determines the system is vulnerable to contamination for ethylene dibromide.

Bromobenzene
Bromodichloromethane
Bromoform
Bromomethane
Chlorobenzene
Chlorodibromomethane
Chloroethane
Chloromethane

o-Chlorotoluene
p-Chlorotoluene
Dibromomethane
m-Dichlorobenzene
o-Dichlorobenzene
trans-1,2-Dichloroethylene
cis-1,2-Dichloroethylene
Dichloromethane
1,1-Dichloroethane
1,1-Dichloropropene
1,2-Dichloropropane
1,3-Dichloropropane
1,3-Dichloropropene
2,2-Dichloropropane
Ethylbenzene
Styrene
1,1,2-Trichloroethane
1,1,1,2-Tetrachloroethane
1,1,2,2-Tetrachloroethane
Tetrachloroethylene
1,2,3-Trichloropropane
Toluene
Chloroform
p-Xylene
o-Xylene
m-Xylene
Ethylene dibromide (EDB)

(B) Each water supply system serving less than 10,000 people shall complete its initial monitoring by December 31, 1991, and each water supply system serving 10,000 people or more shall complete its initial round of repeat monitoring by December 31, 1991.

(C) Each public water supply system using groundwater sources shall collect one sample at points of entry to the distribution system representative of each well after any application of treatment. If any volatile organic compounds listed in K.A.R. 28-15-13(c)(4) are detected and confirmed through a second sample, quarterly monitoring shall be required, unless the presence is attributed to the disinfection process used in treatment as verified by comparison of raw water quality to treated water quality. If volatile organic compounds listed in K.A.R. 28-15-13(c)(4) are not detected in the initial sample, monitoring shall be repeated as follows.

(i) Each public water system serving 10,000 or more people shall collect one sample no later than December 31, 1991, and every three years thereafter.

(ii) Each public water supply system serving 3,300 or more and less than 10,000 people shall collect one sample no later than December 31, 1992, and every three years thereafter.

(iii) Each public water supply system serving less than 3,300 people shall collect one sample no later than December 31, 1994, and every three years thereafter.

(D) Each public water supply system using surface-water sources shall conduct quarterly sampling for one year. Samples shall be collected for each source at a point representative of entry into the distribution system after any application of treatment. Samples shall be collected from the same point or a more represen-

(continued)

tative point each quarter. If volatile organic compounds listed in K.A.R. 28-15-13(c)(4) are determined to be present, based upon one year of quarterly monitoring, continued monitoring on a quarterly basis shall be required, unless the presence is attributed to the disinfection process used in treatment as verified by comparison of raw water quality to treated water quality. If the volatile organic chemicals listed in K.A.R. 28-15-13(c)(4) are not detected in one year of quarterly monitoring, continued monitoring on an annual basis shall be required.

(E) Compliance with the maximum contaminant levels for the volatile organic chemicals listed in K.A.R. 28-15-13(c)(4) shall be determined for each sampling location by calculating a one-year running average using the results of all samples collected, including confirmation samples. If one location's average is greater than the maximum contaminant level, the entire system shall be deemed out of compliance. Any system may be declared out of compliance by the department if the results of any individual sample would cause the annual average to exceed a maximum contaminant level.

(F) When the results of three years of quarterly monitoring show that the concentration of a volatile organic compound listed in K.A.R. 28-15-13(c)(4) is consistently less than the maximum contaminant level, the monitoring frequency shall be reduced to once per year.

(G) The supplier of water shall notify persons served by the system of the availability of results of sampling for the unregulated contaminants listed in K.A.R. 28-15-14(b)(6) by including a notice in the first set of water bills issued by the system following receipt of the results, or within three months following their receipt, whichever is first. The notice shall include the name and telephone number of a person employed by the system to contact for information on the monitoring results. Systems using surface-water sources may issue one notice covering all four quarters.

(7) The owner or operator of a water supply system shall verify the concentration of any organic or inorganic chemical when the results of a laboratory test indicate the level of a chemical constituent exceeds the maximum contaminant level, unless monitoring is conducted on a quarterly basis.

(A) The laboratory test results shall be verified by collecting three additional water samples for analysis within one month, except when total trihalomethanes exceed the maximum contaminant level.

(B) A community water supply system which has been placed upon a reduced monitoring frequency for trihalomethanes or volatile organic compounds shall take at least one check sample promptly after results are received which indicate that the maximum contaminant level prescribed in K.A.R. 28-15-13(c) has been exceeded. If the check sample confirms that the maximum contaminant level for trihalomethane or the volatile organic compound has been exceeded, the water supply system shall immediately revert to the monitoring requirement of four water samples in each quarter for trihalomethane and quarterly monitoring for the volatile organic compound. This monitoring require-

ment shall continue for at least one year before the frequency may be reduced.

(8) Each community water-supply system that purchases water from a public water supply system which has a permit shall be considered an extension of the original system and shall not be required to perform chemical analysis to determine compliance with the maximum contaminant levels prescribed in K.A.R. 28-15-13(b) and (c), unless specifically required to do so by the department.

(c) Monitoring requirements for radiological quality of community water supply systems. Radiological analysis shall include all parameters necessary to determine compliance with the standards prescribed in K.A.R. 28-15-13(d).

(1) Water served to the consumer from community water supply systems shall be analyzed every four years; either by analyzing four consecutive quarterly samples, or a composite of four consecutive quarterly samples, if the results exceed 50 percent of the maximum contaminant level for radiological content. If the results are less than 50 percent of the maximum contaminant level, a single sample shall be analyzed every four years. Analysis for man-made beta and photon emitters shall be required for community water supply systems using surface water sources and serving more than 100,000 persons and for other water supply systems as required by the department. The scope of the radiological analysis to be performed shall be as set forth in 40 CFR 141.25-141.26, as in effect on October 1, 1981, which is adopted by reference.

(2) Community water supply systems that purchase water from public water supply systems which have a permit shall be considered extensions of the original system and shall not be required to perform radiological analysis to determine compliance with the maximum contaminant levels prescribed in K.A.R. 28-15-13(d), unless specifically required to do so by the department.

(d) Monitoring requirements for turbidity. All public water supply systems using surface water in whole or in part shall monitor the water for turbidity at representative entry points to the distribution system. In performing this monitoring, the nephelometric method found in "Standard Methods for the Examination of Water and Wastewater," 16th Edition, 1985, shall be applied. If the maximum contaminant level prescribed in K.A.R. 28-15-13(e)(1) is exceeded, a check sample shall be collected and analyzed within one hour. (Authorized by and implementing K.S.A. 65-171m; effective May 1, 1982; amended Sept. 21, 1992.)

28-15-15. (Authorized by and implementing K.S.A. 65-171m; effective May 1, 1982; revoked Sept. 21, 1992.)

28-15-15a. Public notice requirements. (a) If a public water supply system violates a maximum contaminant level or prescribed treatment technique, or fails to comply with a schedule contained in a variance or exemption, the supplier of water shall give notice to its customers as follows:

(1) Notice shall be given:

(A) By publication in a daily newspaper serving the area, or a weekly newspaper if the area is not served by a daily newspaper, within 14 days after learning of the violation or failure;

(B) By mail delivery with a water bill, by direct mail or by hand delivery within:

(i) 45 days after learning of the violation or failure if the violation or failure has not been corrected within 45 days; or

(ii) 45 days after learning of the violation or failure if directed to do so by the department; and

(C) By furnishing a copy of the public notice to radio and television stations serving the area of the public water supply system within 72 hours after learning of a violation of a maximum contaminant level which may pose an acute risk to public health. The following violations shall be considered acute violations:

(i) Any violation specified by the department as posing an acute risk to human health;

(ii) Violation of the maximum contaminant level for nitrate;

(iii) Violation of the maximum contaminant level for total coliforms, when fecal coliforms or E. coli are identified as specified in K.A.R. 28-15-13(a)(3); or

(iv) Occurrence of a waterborne-disease outbreak attributed to the public water supply.

(2) Notification shall be repeated every three months by the methods specified in paragraph (1)(B) above, for as long as the violation or failure continues.

(3) In lieu of the requirements specified in paragraphs (1) or (2) above, the owner or operator of a non-community public water supply system may give notice either by hand delivery or by continuous posting in conspicuous places throughout the area served by the system. Notice shall be made within 72 hours after learning of an acute violation listed in paragraph (1)(c) above, or within 14 days after learning of any other violation or failure. Posting shall continue for as long as the violation or failure continues and hand delivery shall be repeated every three months as long as the violation or failure continues.

(b) If a public water supply system fails to monitor its water supply as required in K.A.R. 28-15-14, or fails to have the analysis performed in an approved laboratory, or is granted a variance or exemption, the supplier of water shall give notice to its customers as follows:

(1) Notices shall be given:

(A) By publication in a daily newspaper serving the area, or a weekly newspaper if the area is not served by a daily newspaper, within three months after receiving the variance or exemption or learning of the violation; and

(B) By mail delivery, either with a water bill or by direct mail, or by hand delivery, every three months as long as the violation continues or the variance or exemption remains in effect.

(2) In lieu of the requirements specified in paragraphs (1)(A) and (B) above, the owner or operator of a non-community public water supply system may give notice either by hand delivery or by continuous posting in conspicuous places throughout the area served by

the system within three months of the violation or receiving a variance or exemption. Posting shall continue for as long as the violation continues or a variance or exemption remains in effect, and hand delivery shall be repeated every three months as long as the violation continues or a variance or exemption remains in effect.

(c) Proof that public notice has been completed shall be provided to the department.

(d) The owner or operator of a community public water supply system shall provide a copy of the most recent public notice for any continuing violation of a maximum contaminant level or treatment technique, or any variance or exemption schedule, to each new customer at the time service begins.

(e) Each notice required by this regulation shall provide a clear and readily understandable explanation of the violation, any potential adverse health effects, the population at risk, the steps that the public water system is taking to correct such violation, the necessity for seeking alternative water supplies, if any, and any preventive measures the consumer should take until the violation is corrected. Each notice shall be conspicuous and shall not contain unduly technical language, unduly small print, or similar problems that frustrate the purpose of notice. Each notice shall include the telephone number of the owner, operator, or designee of the public water system as a source of additional information concerning the notice. Where appropriate, the notice shall be multilingual.

(f) The owner or operator of a public water supply system shall include mandatory health-effects language for the appropriate contaminant, specified in 40 CFR 141.32(e), as in effect July 1, 1990, in any public notice issued for violation of a maximum contaminant level or treatment technique, or related to a variance or exemption. If the public notice is for fluoride, the mandatory health-effects language specified in 40 CFR 143.5(b), as in effect July 1, 1990, shall be used. (Authorized by and implementing K.S.A. 65-171m; effective Sept. 21, 1992.)

28-15-20. Exemptions and variances. (a) Any supplier of water may be granted a variance or exemption from the requirements of K.A.R. 28-15-11 to 28-15-19, inclusive, under the provisions of K.S.A. 65-171p or 65-171q.

(b) The provisions set forth in the national primary drinking water regulations, 40 CFR 142.40-142.62, as in effect on July 1, 1990, are adopted by reference and shall be used in the consideration and issuance of exemptions and variances. (Authorized by and implementing K.S.A. 65-171m; effective May 1, 1982; amended Sept. 21, 1992.)

INDEX TO ADMINISTRATIVE REGULATIONS

This index lists in numerical order the new, amended and revoked administrative regulations and the volume and page number of the Kansas Register issue in which more information can be found. This cumulative index supplements the index found in the 1991 Supplement to the Kansas Administrative Regulations.

AGENCY 1: DEPARTMENT OF ADMINISTRATION

Table with 3 columns: Reg. No., Action, Register. Lists regulations from 1-2-30 to 1-49-1.

AGENCY 4: BOARD OF AGRICULTURE

Table with 3 columns: Reg. No., Action, Register. Lists regulations from 4-3-47 to 4-33-2.

AGENCY 5: BOARD OF AGRICULTURE—DIVISION OF WATER RESOURCES

Table with 3 columns: Reg. No., Action, Register. Lists regulations from 5-23-3 to 5-45-17.

Table with 3 columns: Reg. No., Action, Register. Lists regulations from 7-30-1 to 7-32-2.

AGENCY 9: ANIMAL HEALTH DEPARTMENT

Table with 3 columns: Reg. No., Action, Register. Lists regulations from 9-13-1 to 9-24-3.

AGENCY 14: DEPARTMENT OF REVENUE—DIVISION OF ALCOHOLIC BEVERAGE CONTROL

Table with 3 columns: Reg. No., Action, Register. Lists regulations from 14-16-20 to 14-23-4.

AGENCY 17: STATE BANKING DEPARTMENT

Table with 3 columns: Reg. No., Action, Register. Lists regulations from 17-11-17 to 17-16-6.

Table with 3 columns: Reg. No., Action, Register. Lists regulations from 17-16-8 to 17-21-8.

AGENCY 19: KANSAS COMMISSION ON GOVERNMENTAL STANDARDS AND CONDUCT

Table with 3 columns: Reg. No., Action, Register. Lists regulations from 19-1-1 to 19-63-6.

AGENCY 21: KANSAS HUMAN RIGHTS COMMISSION

Table with 3 columns: Reg. No., Action, Register. Lists regulations from 21-34-1 to 21-60-23.

AGENCY 23: DEPARTMENT OF WILDLIFE AND PARKS

Table with 3 columns: Reg. No., Action, Register. Lists regulations from 23-3-16 to 23-21-14.

AGENCY 25: STATE GRAIN INSPECTION DEPARTMENT

Table with 3 columns: Reg. No., Action, Register. Lists regulations from 25-4-1 to 25-4-4.

AGENCY 26: DEPARTMENT ON AGING

Table with 3 columns: Reg. No., Action, Register. Lists regulations from 26-8-1 through 26-8-14.

AGENCY 28: DEPARTMENT OF HEALTH AND ENVIRONMENT

Table with 3 columns: Reg. No., Action, Register. Lists regulations from 28-4-405 to 28-19-171.

We are pleased to announce that custom-made *Kansas Register* binders are now available!

These binders will hold your copies of the *Kansas Register* attractively for permanent use. They are highest quality, durable, casebound Swing Hinge® binders made by McBee Loose Leaf Binder Products. (A Swing Hinge® binder has more capacity and allows for easier interfiling than standard ring binders.) They feature dark blue cloth covering and gold imprinting. Each three-inch binder will hold up to a year's worth of *Register* issues.

Order your binders today!

***Kansas Register* binders . . . \$18.00 each includes shipping and handling.**
