Opinion No. 92-123

Cities and Municipalities—Public Recreation and Playgrounds—Recreation Commission; Distribution of Taxes; When. Thomas D. Harris, Counsel for the Valley Center Recreation Commission, Valley Center, September 30, 1992.

Taxes collected for a recreation commission which certifies its budget to a school district should be disbursed by the school district to the recreation commission in a timely manner, normally within 30 days of receipt by the school district. The school district treasurer is to serve as ex officio treasurer to the recreation commission without additional compensation. Opinion No. 92-124

Constitution of the State of Kansas—Legislative—Delegation of Legislative Power. Public Health—Emergency Medical Services—Powers and Duties of Emergency Medical Services Board. Representative Tim Shallenburger, 1st District, Baxter Springs, September 30, 1992.

In delegating power to an administrative agency, the legislature must set standards and guidelines limiting and directing the agency's exercise of power. Absent such standards, there is an unconstitutional delegation of power. The emergency medical services act, so far as it concerns regulation of ambulance services, sets forth sufficient standards. Opinion No. 92-125

State Boards, Commissions and Authorities—State Lottery; Kansas Lottery Act—Rules and Regulations; Club Keno. Representative Kathleen Sebelius, 56th District, Topeka, October 5, 1992.

Club Keno, the recently proposed lottery game, is not a video lottery game as that term is statutorily defined or generally understood. It is an on-line game with frequent drawings, the results of which may be displayed on a television screen. Thus, it is not affected by the 1992 legislative prohibition on video lottery. There is no statutory limit on the number of on-line terminals that may be placed in a lottery retailers' place of business. Liquor retailers, clubs and drinking establishments are authorized to sell lottery tickets if selected to do so by the lottery and may do so even during times when liquor cannot be sold. Slot machines are not authorized under the Kansas lottery act. Private Industry Council

Public Notice

The Kansas Private Industry Council of Service Delivery Area (SDA) III is submitting a modification of its two-year Job Training Plan to the Governor of Kansas through the Department of Human Resources. Funding for this plan is through Title IIA of the Job Training Partnership Act (JTPA), designed to provide training to economically disadvantaged adults and youth. The respective program years are July 1, 1992 to June 30, 1993 (PY 92), and July 1, 1993 to June 30, 1994 (PY 93). The funding level for PY 92 is estimated to be \$2,621,540. The SDA plans to serve approximately 900 eligible adults and youth during this program year. The plan modification will become effective January 1, 1993. The purpose of JTPA is to prepare unskilled adults and youth for entry into the labor force and to afford job training to economically disadvantaged individuals and other individuals having serious barriers to employment. Authorized activities include, but are not limited to, job search assistance, job counseling, remedial education and basic skills training, occupational skill training and on-the-job training.

The Kansas Private Industry Council of SDA III is also submitting to the Governor through the Department of Human Resources a Summer Youth Employment and Training Plan (SYETP) modification. The respective program years are October 1, 1991 to September 30, 1992 (PY 91), and October 1, 1992 to September 30, 1993 (PY 92). The funding level for program year 1992 (the summer of 1993), is based on the previous year's allocation and is estimated to be \$790,000. The SDA plans to serve an estimated 500 eligible youth during this program year. Funding for SYETP is through Title IIB of the Job Training Partnership Act (JTPA), which is designed to provide job training for economically disadvantaged youth, ages 14-21, facing serious barriers to employment, with exposure to the world of work and the enhancement of basic educational skills.

The Kansas Private Industry Council of SDA III will also submit to the Governor through the Department of Human Resources a modification to its Title III Economic Dislocation and Worker Adjustment Act (EDWAA) Plan. The respective program years are July 1, 1992 to June 30, 1993 (PY 92), and July 1, 1993 to June 30, 1994 (PY 93). The funding level for program year 1992 is expected to be \$484,324. The SDA plans to serve approximately 250 eligible participants during this program year. The purpose of the program is to reassess and reconfigure service to meet the needs of workers who have been terminated, laid off or have received a notice of termination or layoff due to a permanent closure or substantial layoff at a plant or facility by providing retraining, job search assistance and other aids for dislocated workers.

There is a 30-day review and comment period for the proposed plan modification.

The full Title IIA, Title IIB and Title III plans are available at the following location and may be reviewed upon request. Questions and comments may be directed to the Kansas Private Industry Council, Service Delivery Area III, 717 Gateway Center Tower II, 4th and State Ave., Kansas City, KS 66101, (913) 371-1607.

Notice of Hearing on Proposed Administrative Regulations

The Kansas Department of Health and Environment will conduct a public hearing at 1:30 p.m. Monday, November 16, in Conference Room C, Building 740, Forbes Field, Topeka, to consider adoption of proposed new temporary and permanent regulation K.A.R. 28-15-12. This regulation implements the public water supply fee fund established by the 1992 Legislature through passage of HB 3167. The new regulation sets a fee of \$0.002 per 1,000 gallons of water sold at retail by public water suppliers. This fee will be paid in addition to the \$0.03 per 1,000 gallon fee already collected for the state water plan fund. The new fee will generate approximately \$221,000 annually, based on figures for state fiscal year 1991.

Copies of the regulation and the economic impact statement may be obtained from the Kansas Department of Health and Environment, Bureau of Water, Forbes Field, Topeka 66620, (913) 296-5506. Questions pertaining to the proposed rule-making action should be directed to David F. Waldo, (913) 296-5503.

The time period between the publication of this notice and the scheduled hearing constitutes a public comment period for the purpose of receiving written comments on the proposed new regulation. All interested parties may submit written comments prior to the hearing to the Bureau of Water. All interested parties will be given reasonable opportunity during the hearing to present their views, orally or in writing, concerning the adoption of the regulation. Following the hearing, all written and oral comments submitted will be considered as the basis for making changes to the proposed new regulation.

State of Kansas

Kansas Racing Commission

Notice of Hearing on Proposed Administrative Regulations

A public hearing will be conducted at 9:30 a.m. Friday, December 4, in the hearing room at commission offices, 3400 Van Buren, Topeka, to consider the adoption of proposed permanent regulations of the Kansas Racing Commission. This 30-day notice constitutes a public comment period for the purpose of receiving written public comments on these proposed regulations.

A copy of the full text of the regulations and the economic impact statement may be reviewed or obtained at the commission office, 3400 Van Buren, Topeka 66611. The following is a summary of the proposed amendments.

112-4-1. Occupation licenses. Paragraph (1) of 112-4-1 is omitted and reenacted in 112-10-8 as part of the general testing regulation for horses and 112-10-35 for greyhounds. This paragraph does not belong in the licensing chapter because it addresses observing the collection of the test specimen and signing the specimen card. Paragraph (m), now changed to paragraph (l), clarifies that an employer shall ensure that every employee is properly licensed and makes it clear that he must notify the commission when that employment status changes or the employee is terminated.

Economic impact: none known.

112-4-5. License identification requirements. This regulation is amended to permit the stewards or racing judges to allow certain licensees to discontinue wearing their licenses in restricted areas. This regulation affects persons such as jockeys, assistant starters or valets. All the other changes are clean up.

Economic impact: none known.

112-4-6. License subject to conditions and agreements. The change in this rule places responsibility for returning an occupation license to the commission office with the licensee if his employment is terminated. This will assist in securing the licenses of employees who no longer work at the track and reduce the possibility of those licenses being used for admission or entrance to restricted areas.

Economic impact: none known.

112-4-8. Examinations. The only change to this section is to expand the approval for examinations to a commission designee. Currently only the commission has that authority.

Economic impact: none known.

112-4-9a. Financial responsibility, licensee. This is a new regulation for financial responsibility. Any licensee, who receives food, shelter, medications, transportation, veterinarian services or supplies, or like things, for use in a racing operation and fails to pay for those services or goods or writes a bad check at a racetrack facility, may have his license suspended or revoked. It clarifies that the commission is not obligated to collect debts owed by any licensee. The burden to prove that bills are owed is on the person bringing the charges.

Economic impact: 112-4-9a, the financial responsibility regulation, could potentially result in a licensee being suspended from racing if he fails to pay for items purchased in his racing operation. This would appear to have a negative economic impact, as it could take an individual out of the racing world. However, it may have a positive economic benefit as well because it will provide a stronger deterrent to keep individuals from ignoring their bills. Vendors may be paid in a more timely manner, and the cost normally passed on to other backside licensees may not be so great if all licensees in the racing industry pay their bills.

112-4-12. Qualifications for apprentice jockey. Apprentice jockeys are jockeys who have ridden fewer than 40 winners. Inexperienced riders apply for jockey's licenses but may not be ready to ride regularly in a race. This regulation would require the jockey to ride at least two races under the supervision of the stewards before the stewards allow him to receive his full apprentice jockey certificate.

Economic impact: none known.

112-4-13. This section is repealed and reenacted later in 112-7.

Economic impact: none known.

112-4-16. Qualifications for license as a horse owner. This regulation amendment adds a licensing category for owners. Currently, under the regulation, only a person who has a horse and intends to run it at the track and has it in the care of a licensed trainer may license as an owner. With this amendment, an individual could come to the track and license as an owner with the intent to claim a horse. This amendment may result in new owners.

Economic impact: none known.

112-4-17. Horse ownership by lease. This regulation amendment clarifies that horse ownership by lease does not have to be on a form approved by the commission but must include the information required by the commission.

Economic impact: none known.

112-4-18. Greyhound ownership by lease. This regulation is the counterpart of 112-4-17 for greyhound racing. It clarifies that there is not an approved form by the commission, but information required by the commission must be on the form submitted.

Economic impact: none known.

112-4-19. Horse or greyhound ownership by corporation, partnership, syndicate or other association or entity. This regulation addresses horses or greyhounds owned by corporations, partnerships and so forth. Currently the rule establishes a 10 percent threshold for licensing, but, if there are more than 10 owners, only 10 have to be licensed. An important owner may not be licensed, so the commission is proposing to eliminate the 10 percent threshold and to leave that discretion to the stewards, judges or the commission. In that way, all shareholders or partners may be required to be licensed. Paragraph (d) clarifies that it is the corporation, partnership, syndicate or other organization which must register annually with the commission.

Economic impact: 112-4-19 changes the threshold level at which individuals must license with the Kansas Racing Commission. Under current regulation, a 10 percent threshold is established, and a maximum of 10 owners must be licensed. However, in a situation where 20 individuals share ownership in a horse, but none has 10 percent, the ownership structure could shield a problem licensee, if one existed. With this amendment, the stewards or racing judges would have the discretion to determine to what extent individuals must license. It is possible they could require more individuals to be licensed, thus creating some economic burden on those owners. However, an owner's license is only \$10.

112-4-21a. Kennel owner license. This is a new regulation to define precisely what a kennel owner license is. A kennel owner license is a significant license which allows the kennel owner full access to the racetrack. Under this definition, a kennel owner license would be limited to those persons who are owners or partial owners of the kennel, which has a contract to run at a Kansas racetrack.

Economic impact: none known.

112-4-22. Licensing required. This is the temporary license regulation for horse racing. Last year the commission adopted a policy where any owner who licensed as a temporary owner would be allowed one start with his horse during the 30-day period. That policy is now recommended as a regulation.

Economic impact: none known.

112-4-23. Conduct. This is a proposed new regulation. It states that no person shall engage in conduct which is unsportsmanlike or detrimental to the best interest of racing. The conduct may include willfully ignoring, refusing to comply or interfering with verbal or written orders of racing officials or commission representatives, using abusive or profane language or threatening racing officials or commission representatives. This is a general conduct regulation, which many states have.

Economic impact: none known.

112-7-2. Ownership. This section on ownership changes a permissive sentence to a mandatory sentence requiring each stable name to be registered with the commission. The amendment is necessary because of a legislative change to the racing act last session.

Economic impact: none known.

112-7-5. Horses sold or transferred with engagements. This section addresses horses sold or transferred with engagements. The licensee must provide to the racing secretary evidence of any sale or transfer that is sold or transferred with engagements. The regulation also states that each sale or transfer of a horse located at the racetrack facility is not final until approved by the stewards.

Economic impact: none known.

112-7-6. Registration and eligibility. This section deals with registration eligibility and clarifies what makes a horse eligible. The horse must be in the care of a licensed trainer and owned by an owner who is licensed by scratch time, except during the first 10 days of the meet. For stakes races, the license deadline is

extended to one hour before the first post. Paragraph (d), addressing workouts, is deleted and inserted in a later new section, 112-7-23.

Economic impact: This accommodation to owners will probably reduce the number of scratched horses.

112-7-7. Entries. This section addresses entries and specifies the deadline for written confirmation of telephone facsimile or telegraph entries as "one hour before the first post" rather than "within a reasonable time."

Economic impact: none known.

112-7-8. Coupled entries. This is the coupled entry regulation. The amendment deletes a reference to K.A.R. 112-7-12, which is unnecessary, because the preference system does not affect coupled entries.

Economic impact: none known.

112-7-9. Loss of entries. This section addresses loss of entries. It requires that a person who alleges loss of an entry or declaration for a stakes race must prove that it was sent. The term "facsimile" is added.

Economic impact: none known.

112-7-10. Closing of entries and drawing of post positions. This section addresses the closing of entries and drawing for post positions. It states that entries may be facsimiled, among other methods of transmitting an entry.

Economic impact: none known.

112-7-13. Declarations and scratches. This section addresses scratches and clarifies that when a scratched horse is replaced, the new horse be placed in the outside starting gate position and all other horses moved in to fill the open starting gate position. Another amendment addresses who may scratch a horse. Ultimately only stewards are allowed to scratch horses, but recommendations from animal health officers carry significant weight.

Economic impact: none known.

112-7-15. This is the claiming regulation for Kansas. The current regulation is being repealed and rewritten.

Economic impact: none known.

112-7-15a. Claiming. This is the new claiming regulation. It is a compilation of the existing regulation and the model rule developed by the uniform rules committee of the Association of Racing Commissioners International (ARCI). The most significant change is in paragraph (j), where it states that a claim is made official when the starting gate opens in front of the horse. Under the current regulation, the claim was considered finalized when the horse left the paddock. The new regulation is consistent with typical claiming races throughout the country.

Economic impact: none known.

112-7-15b. Claiming, vacated stable. This regulation addresses a vacated stable. It applies if a stable has been decimated by the sale or removal of its horses during the course of a race meeting. This could happen by a fire or like event. The regulation provides that a stable may claim horses either to the end of the meeting or up to the 31st day after the date the stable was vacated. This language is part of the model rules working group's effort.

(continued)

Economic impact: none known.

112-7-16. Invalid or void claims and prohibitions on claims. This regulation addresses invalid or void claims and prohibitions on claims. It clarifies a reference to the "official" program, printed by the organization licensee, and states that no person who claims a horse may leave that horse in the care or custody of the owner from whom the horse was claimed. Paragraph (f), addressing a filly or mare in foal, is omitted to be reenacted in 112-7-16(a).

Economic impact: none known.

112-7-16a. Disclosure of mare in foal. This section is the language previously appearing at 112-7-16.

Economic impact: none known.

112-7-18. Jockeys. This regulation addresses jockeys, and the amendments make a number of clarifications. First, it states jockeys may leave the jockey room to ride in a race. It also states that once a jockey's engagements have been fulfilled he may leave the jockey's room if he has the permission of the stewards. Commission employees or representatives may enter the jockey's room, a provision which was omitted previously.

The section on jockey agent from chapter four is added here. Similarly, everything after the first sentence in paragraph (d) in 112-7-18 is moved to the jockey agent section which will follow as 112-7-18(a). Requirements are added for jockeys. Paragraph (e) addresses overweight jockeys and indicates that a jockey who weighs out more than two pounds overweight may be taken off the horse unless he has permission of the owner or trainer to stay on the horse. Under no circumstances could the overweight exceed seven pounds and, in that case, no jockey mount fee is due to the jockey. Paragraph (f) states that jockeys are required to report for film review when so directed by the stewards, and (g) states that a jockey shall give a best effort to win in any race in which the jockey is riding.

Economic impact: A jockey who is seven pounds or more overweight may be taken off his horse. If so, he loses the jockey fee. While the action penalizes a jockey, it benefits an owner or trainer and provides a better race for the public. A typical jockey mount fee varies from \$16 to \$100 or more if it is a stakes race.

112-7-18a. Jockey agent. This section addresses the jockey agent. The language was moved from 112-7-18 and from 112-4-13. This regulation merges those two sections and makes no substantive change.

Economic impact: none known.

112-7-20. Safety helmets required; physical examination required. This is the commission regulation on safety helmets and physical examinations. A requirement that safety helmets are subject to the approval of the stewards or the commission is omitted. There are no standards or guidelines on which to base any approval.

Economic impact: none known.

112-7-21. Paddock to post. This regulation addresses the post parade and delivering the horse to the paddock. Language is deleted that would require each horse to pass the steward's stand on its way to

the post. The stewards may excuse a horse from the post parade, and, in that event, he may not have to pass the steward's stand at all.

Economic impact: none known.

112-7-22. Post to finish. This regulation states the standards by which a race is conducted. One clean-up change to this section includes striking the term "set down" and replacing it with "suspended." Protests, and how they may be filed with the steward or the clerk of scales, are addressed. The Woodlands has used what is known as a "quick official," and protests were relayed from the outrider to the stewards. This is the procedure that is planned again for the Woodlands, and the change in paragraph (i) would implement that. The regulation also states that any frivolous protest may result in a fine and a suspension.

Economic impact: none known.

112-7-23. Workouts. This is a new regulation addressing workouts. It previously appeared in 112-7-6 on registration and eligibility.

Economic impact: none known.

112-10-2. Assistant animal health officers. This is one of two sections in the medication chapter which addresses the duties of the assistant animal health officers. In the case of the horse track, two animal health officers will serve at all times. Some of the officers' duties are shared. As a result, the reference to "senior" and other assistant animal health officers is eliminated and a list of duties is stated. There is no substantive change in this chapter, except that the animal health officers must have the permission of the stewards before scratching a horse.

Economic impact: none known.

112-10-3. Practicing veterinarians. This section addresses practicing veterinarians at a horse track. The changes occur in paragraphs (f), (g) and (h). A practicing veterinarian who treats a horse is prohibited from wagering on the outcome of a race in which the treated horse starts. Practicing veterinarians must comply with the rules of the Kansas Board of Veterinarian Examiners and must keep drugs and medications in a container bearing the veterinary prescription or the original container bearing the manufacturer's label. The veterinarian must use disposable syringes, must not abandon medications or syringes and must destroy them before they are discarded and dispose of them properly.

Economic impact: While most veterinarians do not wager, those who do would be prohibited from doing so on a race when they treated the horse. A veterinarian certainly may influence race performance. The economic disadvantage would be the loss of some betting handle, revenues to the track, purses and the state.

112-10-4. Drugs or medication. This section addresses the drug schedules and the associated penalties for positive tests. A reference to a 24 hour limitation is eliminated. The language is in conflict with other language in the regulations. The drug classification is borrowed from the ARCI uniform rules proposed by the quality assurance program. The drugs in class 1 are drugs which have the highest potential for affecting

performance in a race horse and have no generally accepted use. Class 2 are those drugs which have less potential to affect the performance and which are not generally accepted as therapeutic agents in racing horses. Class 3 are drugs found in the drug enforcement agency schedules three, four and five and non-scheduled drugs which may or may not have generally accepted use in a racing horse. Class 4 includes therapeutic medications which would be expected to have less chance of affecting performances than drugs in class 3. Class 5 includes therapeutic medications for which levels have been established by regulations. The stewards have been conducting drug test hearings, and the commission would only hear the matter on review.

The penalty sections are also borrowed directly from the ARCI recommended rules. A finding of a class 1 positive brings a severe penalty. It includes a disqualification of the animal, redistribution of the purse and a return of the trophy. It provides for a fine of up to \$5,000 and requires a suspension for up to five years or revocation of the license. There is still discretion for the stewards and/or the commission to order lesser fines or suspensions. A finding of a class 2 positive results in a disqualification of the animal, redistribution of the purse and return of the trophy. The maximum fine in this category is \$2,500, and the maximum suspension is one year. For a class 3 positive the animal would be disqualified, the purse redistributed and the trophy returned. A fine of up to \$1,500 may be assessed, and a suspension of up to six months may be imposed. A finding of a class 4 positive shall result in the disqualification of the animal, a redistribution of the purse, a return of the trophy, a fine of up to \$1,000 and a suspension of up to 60 days. A finding of a class 5 positive may result in the disqualification of the animal, redistribution of the purse, return of the trophy, a suspension of up to 15 days and a fine of up to \$500 or a warning.

Economic impact: 112-10-4 addresses the classification penalties for positive drug tests in horse racing. This regulation adopts the standard classification and penalty recommended by the ARCI, and substantially increases penalties, particularly drugs such as etorphines, cocaines, promazines and clenbutural. Authorized fines are greater than previously stated. However, none exceeds the statutory maximum of \$5,000.

112-10-5. Authorized medication. This is the section addressing authorized medication. Reference to the "senior" assistant animal health officer is eliminated for the reasons previously stated. Procedures which have not been used are eliminated. Also, furosemide may not be administered to two-year-old horses.

Economic impact: none known.

112-10-6. Bleeder list. This is the section that addresses the bleeder list. Bleeder lists are maintained on horses who have shown bleeding when they have raced. Those horses are then eligible to have furosemide administered to them. As in previous sections, references to the "senior" assistant animal health officer are eliminated. In paragraph (d) (1) and (2) the

language "which ever occurs last" is deleted so that the discretion to place or remove a horse on the bleeder list lies with the veterinarian.

Economic impact: 112-10-6 addresses removing a horse from the bleeder's list. In horse racing, many horses will bleed through the nostril or suffer internal bleeding in the lungs as a result of strenuous exercise. These horses are then restricted from racing for a period of time before they are allowed on the track. They are also allowed to be treated with a drug known as Lasix, a diuretic which assists horses who have bleeding problems. Previously, the regulation required that a horse stay on the list for 14 days or until the veterinarian took him off the list, whichever occurred last. In that event, a horse may remain on the list so long that he would miss the finals for a race for which he qualified. By granting discretion to the veterinarian and reducing the period to 10 days, the treatment of the horse remains with the veterinary medical professionals and does not create a negative economic impact on a horse owner.

112-10-8. Testing. This section addresses testing of horses and clarifies that it is the trainer or his authorized representative who witnesses and confirms the taking of a test sample and sign the confirmation card. An underage owner, groom, assistant trainer or other person may be his agent, but the trainer is ultimately responsible for the results of the tests. Paragraph (f) states the language previously located in 112-4-1.

Economic impact: none known.

112-10-9. Split samples. This is the horse regulation on split samples. The existing regulation is revoked and the new one may be found at 112-10-9(a).

Economic impact: none known.

112-10-9a. Split samples. This is the new regulation on split samples for horse racing. It mirrors the regulation adopted by the commission for greyhound split testing. It is amended to improve organization and to be consistent with the greyhound regulation.

Economic impact: none known.

112-10-12. Postmortem examination. This section addresses postmortem examinations of every racing horse that dies or suffers a breakdown at the track. The term "senior" is deleted from the assistant animal health officer language, clarifying that the other assistant animal health officer may perform a postmortem.

Economic impact: none known.

112-10-32. Assistant animal health officer, greyhound. Consistent with the amendments to 112-10-2, which streamlined the duties between the two assistant animal health officers, the duties of the assistant animal health officers at the greyhound track are combined. The commission has adopted a policy to reduce staffing at the greyhound track to one veterinarian per performance. The amendment eliminates redundancy and duplication from the positions. In the event that two veterinarians do work on a given performance, the duties may be shared. There is not a distinction between a "senior" and an assistant animal health officer.

(continued)

Economic impact: As originally drafted, the regulation appears to require two veterinarians to be on duty at every race performance at a racetrack. However, by combining the duties into one list of requirements, the necessity of having two veterinarians working every performance is eliminated. That will eliminate a cost which is passed on by the commission to the greyhound tracks. That savings amounts to approximately \$60,000 per year.

112-10-33. Practicing veterinarians, greyhound. This section addresses practicing veterinarians at a greyhound track. The amendments are similar to those proposed in the horse regulation 112-10-3. Veterinarians who treat a greyhound should not wager on a race in which the treated greyhound is entered. Veterinarians must comply with the Kansas Board of Veterinary Examiners' regulations and standards, and drugs or medications on a racetrack must be maintained in a container bearing the prescription label or the original manufacturer's label. Only disposable syringes and needles may be used, and they cannot be abandoned. They must be destroyed and disposed of properly. Only a veterinarian employed by or licensed by the commission may possess procaine on a racetrack facility.

Economic impact: None known. While most veterinarians do not wager, those who do would be prohibited from wagering when they treated an entered greyhound. The economic disadvantage would be the loss of handle and revenues generated for the track, purses and the state.

112-10-35. Testing. Almost identical to 112-10-8 for horses, this regulation addresses the testing procedure. Language from 112-4-1, stating that a trainer, kennel owner or an authorized representative of the trainer or kennel owner may witness and confirm the taking of a test sample, is more appropriately located in this regulation.

Economic impact: none known.

112-10-37. Postmortem examination. This section addresses the postmortem examination at a greyhound track. In this instance, the assistant animal health officer may order a postmortem examination. If ordered, it must be conducted by a practicing veterinarian employed by the kennel owner or conducted by the Kansas State University veterinary school. The regulation requires the assistant animal health officer to attend the postmortem examination. It would allow the assistant animal health officer to collect and send samples to the laboratory and directs that the kennel owner shall pay the expenses of the practicing veterinarian employed to do the examination.

Economic impact: If the kennel owner is required to pay for the postmortem, the cost will probably be less than \$100. If KSU does the work, there is no cost because it would be part of a research project funded by the commission.

112-11-13a. Controlled substance and alcohol testing. The commission is permitted by statute to test licensees of the commission for controlled substances. In the past, the commission has not done so for lack of a procedure. This regulation establishes that pro-

cedure. A reasonable suspicion standard will be applied. If a licensee tests positive for a controlled substance or .05 or above for blood alcohol, he may be suspended or fined pursuant to the provisions of K.S.A. 74-8816(h).

Economic impact: none known.

112-17-3. Site and physical plant, county fair association and horsemen's nonprofit organization applicant. Each application for a county fair association and horsemen's nonprofit organization license in which the applicant proposes to own or to construct a racetrack facility shall contain the following information: (a) the address, including the county and municipality, of the racetrack facility at which the applicant proposes to conduct racing;

(d) the types of racing for which the facility is designed, whether greyhound or horse and, if horse, the breed of horse;

(e) racetrack dimensions by circumference, width, banking, location of starting gates or boxes, length of stretch, and type of surface, as well as a description of equipment that will be used to maintain the track surface. If the applicant proposes more than one racetrack, the applicant shall provide the details for each;

(f) for horse racetracks, a description of horse stalls which includes the dimensions, separation, location and total number of stalls;

(g) for greyhound racetracks, a description of facilities to accommodate greyhounds which includes the location, number, method of construction and size of crates, as well as the location, size and number of any turnout pens;

(h) as directed by the commission, a description of testing facilities;
