**Department of Commerce
and Housing****Notice of Hearings on Kansas
Housing Needs Assessment**

A series of public hearings has been scheduled during October and November to continue assessing the housing needs of the state of Kansas. Anyone interested in the state's housing needs is invited to attend.

Hearings will be conducted at sites in the 13 public participation districts designated by the Kansas Department of Commerce and Housing. All facilities will be wheelchair accessible, and other auxiliary aids for effective communication will be provided upon request.

The National Affordable Housing Act requires each state to assess its housing needs and submit a comprehensive plan to address those needs. Housing affordability among low income households, housing needs of the elderly, the disabled, members of racial and ethnic minorities and the homeless all are being examined.

The draft of the state's Comprehensive Housing Affordability Strategy is to be discussed at the public hearings. The strategy has been drafted by the Division of Housing of the Kansas Department of Commerce and Housing. The final draft of the Comprehensive Housing Affordability Strategy for Kansas will be submitted to the U.S. Department of Housing and Urban Development in December.

Copies of the draft strategy have been mailed to public libraries in the county seats of all 105 counties.

Since June, a study team has been gathering information on the supply and demand of housing in Kansas. The team has analyzed quantitative data from the 1980 and 1990 U.S. Census as well as public comments. It held a series of focus group meetings and personal interviews with community leaders in each of 13 public participation districts statewide. These meetings covered the issues of home ownership, rental housing and preservation of the existing stock of affordable housing, and homelessness and the housing needs of other special populations.

For more information about the Comprehensive Housing Affordability Strategy or the public hearings, contact Betty Jo White at (913) 532-6993.

Notice of Hearing on Proposed Administrative Regulations

A public hearing will be conducted at 10 a.m. Tuesday, November 24, in the conference room at the Metropolitan Topeka Airport Authority Terminal, Topeka, to consider K.A.R. 28-30-6, concerning sandpoint water wells. In proposed regulation 28-30-6, the construction, reconstruction and plugging of sandpoint water wells will now be regulated. This is being proposed to help make the community and water well industry aware of the ever increasing necessity to maintain a standard of proper construction, reconstruction and plugging of sandpoint water wells. Without the proposed regulation and a standard of construction, reconstruction and plugging of sandpoint wells, the quality of the environment may deteriorate and human health be adversely impacted.

Additionally, the proposed regulation will slightly increase the cost of construction, reconstruction and plugging of sandpoint water wells. The regulation mentions two types of sandpoint water well construction: casing method and drive pipe method. The additional construction costs for the casing method is derived from the additional grouting requirements, casing and sanitary seal. The total additional construction costs for the casing method is \$47 per well. The additional construction costs for the drive pipe method is from the additional grouting requirements. The total additional construction cost of the drive pipe method is \$21 per well.

Copies of the proposed regulation and a complete economic impact statement may be obtained by contacting Richard Harper, Bureau of Water, Department of Health and Environment, Forbes Field, Building 740, Topeka 66620-0001.

The time period between the publication of this notice and the scheduled hearing constitutes a public comment period for the purpose of receiving written public comments on the proposed regulations. All interested parties may submit such comments prior to the hearing to the address above. All interested parties also will be given a reasonable opportunity at the hearing to present their views, orally or in writing, concerning the adoption of the proposed regulation. In order to give all persons an opportunity to present their views, it may be necessary to limit oral presentations to five minutes.

Following the hearing, all written and oral comments submitted by interested parties will be considered as the basis for making changes in these proposals.
