State Institutions and Agencies; Historical Property—University of Kansas; Medical Student Loan Act—Medical Student Loans; Preference for Rural Applicants; Constitutionality. Representative Vincent K. Snowbarger, 26th District, Olathe, August 16, 1993.

The University of Kansas School of Medicine may legally differentiate between rural and urban applicants when determining how to allocate limited medical student loans to Kansas residents under K.S.A. 1992 Supp. 76-380 *et seq.* Cited herein: K.S.A. 1992 Supp. 76-380; 76-381; 76-382, as amended by L. 1993, ch. 160, § 3; 76-383; 76-712. Opinion No. 93-114

Constitution of the State of Kansas—Judicial—Omnibus Appropriations Act; Sentencing Guidelines Act. Representative Michael R. O'Neal, 104th District, Hutchinson, August 17, 1993.

The second proviso of section 12 of chapter 292 of the Session Laws of 1993 is an unconstitutional delegation of authority to the judiciary and, consequently, the appropriation amount remains in the general fund until the legislature convenes and a new appropriations statute is enacted. Furthermore, the state of Kansas is only responsible for paying the costs and expenses associated with post-conviction non-prison sanctions for felony offenders in an amount not to exceed the appropriation amount of \$375,000 for fiscal year 1994. State Corporation Commission

Notice of Hearing on Proposed
Administrative Regulations

A public hearing will be conducted at 9 a.m. Thursday, October 7, in the Conservation Division hearing room, third floor, 200 Colorado Derby Building, 202 W. 1st, Wichita, to consider the adoption of proposed permanent regulations for the conservation of crude oil and natural gas.

The 30-day notice period from the date of this publication to the date of the public hearing constitutes a public comment period for the purpose of receiving written public comments on the proposed rules and regulations. Comments may be submitted to John McCannon, Assistant General Counsel, State Corporation Commission, 200 Colorado Derby Building, 202 W. 1st, Wichita 67202.

Copies of the proposed regulations and the economic impact statements may be obtained at the Wichita address. Persons requesting a copy of the proposed regulations and economic impact statements, in accordance with K.S.A. 45-129, will be required to compensate the commission for the cost of reproduction. All interested parties will be given a reasonable opportunity at the hearing to present their views orally or in writing in regard to the adoption of the proposed regulations.

All written or oral comments submitted by interested parties on or before October 7 will be considered by the commission as a basis for making changes to these proposed permanent regulations.

The following is a brief summary of the proposed regulations and economic impact statements:

K.A.R. 82-3-206. The amendment increases the oil conservation assessment from 13.5 mills to 25.0 mills on each barrel of crude oil or petroleum marketed or used each month.

K.A.R. 82-3-307. The amendment increases the gas conservation assessment from 4.3 mills to 5.9 mills per 1,000 cubic feet of gas sold or marketed each month.

Economic Impact: The increase in the oil conservation assessment and the gas conservation assessment will increase costs to industry. Taken on a per well basis, the oil assessment on a well producing 30 barrels of oil per day would increase \$10.35 per month and the gas assessment on a well producing 4000 mcfd would increase \$84.00 a month.

This increase is necessary to allow the Conservation Division to maintain operations at its current level, to implement federally mandated programs such as the Americans with Disabilities Act and production waste programs, and to continue the conservation fee fund at current levels. There is no economic impact on the general public.

(b) Each firm shall be identified under at least one of the manufacturing standard industrial classification (SIC) codes, major groups 20-39, inclusive, as determined by the department of commerce and housing.

(c) Each firm shall not employ more than 500 full-time equivalent employees (FTEs).

(1) For a firm which has been in existence for at least 12 months, FTEs shall be computed by dividing total hours for which wages were paid during the 12-

month period prior to application as a qualified firm by 2,080.

(2) For firms which have been in existence for less than 12 months, the divisor shall be computed at the rate of 174 hours per month. In addition, the firm shall provide written assurance that the firm will continue to employ not more than 500 FTEs during the 12-month period for which the firm seeks designation as a qualified firm.

(A) Documentation shall be subject to audit by the department of commerce and housing.

(B) Failure to adhere to the written assurance concerning FTEs shall result in retroactive cancellation of qualified firm status and retroactive cancellation of any tax credits and other benefits under the high performance incentive program.

(d) Each firm shall also meet one of the following additional criteria.

(1) The firm shall provide an average wage above the average wage paid by other firms located in the same county which also employ no more than 500 FTEs and have the same two digit SIC code as determined under subsection (b) of this regulation.

(A) In the event that a firm may be classified by more than one SIC code, major groups 20-39, inclusive, then the average wage may be computed using only employees from one SIC product group, if and only if it can be documented through a cost accounting system that establishes wages paid to employees by separate product group. If this option is chosen, only investments in machinery, equipment and training that will benefit production for the identical SIC code shall count toward computation of tax credits and other benefits. Documentation of wages by product category shall be subject to audit by the department of commerce and housing.

(B) If a firm does not use a cost accounting system, then average wages shall be computed for all employees at a facility, and wage comparison will be made with the firm's dominant SIC code. The dominant SIC code shall be determined based on annualized sales by major product group category. In this case, all appropriate investments may count in computing tax credits and other benefits under the high performance incentive program. Supporting data shall be subject to audit by the department of commerce and housing.

(C) The average wage for two-digit SIC codes, by county, shall be determined from annual reports issued by the Kansas department of human resources, which list average wages by county and two-digit SIC codes. The most recent annual report at the time of a company's request for designation as a qualified firm shall constitute the final authority in determining average wages by county and SIC code.

(D) The average wage shall be determined by using data from the 12 months prior to the period for which tax credits are being requested, or for the total number of months the firm has been in existence, whichever period is shorter.

(i) Firms which have not been in existence for at least 12 months shall give written assurance that wage levels will remain at least as high as reported during

the complete 12-month period for which the firm seeks designation as a qualified firm. Failure to adhere to this assurance shall result in retroactive cancellation of a firm's designation as a qualified firm, and retroactive cancellation of tax credits and other benefits under the high performance incentive program. Documentation shall be subject to audit by the department of commerce and housing.

(ii) Average wage shall be computed by dividing total FTEs, as determined under subsection (c) of this regulation, into total wages paid, including overtime pay, for the identical time period for which FTEs are computed. All supporting data shall be subject to audit by the department of commerce and housing.

(2) The firm shall employ not more than 500 FTEs and shall be the sole firm of its type, by two-digit SIC code, in the county. (Authorized by and implementing 1993 SB 73, section 1 (b); effective, T-110-8-17-93, Aug. 17, 1993.)

110-6-2. Authority for designating a qualified firm. The secretary of commerce and housing shall certify annually to the department of revenue that each firm designated to be a qualified firm is in compliance with K.A.R. 100-6-1. (Authorized by and implementing 1993 SB 73, section 1 (b); effective, T-110-8-17-93, Aug. 17, 1993.)

110-6-3. Definitions. (a) Cash investment.

(1) Cash investment means:

(A) wages paid to employees while participating in training or education, instructors salaries, travel expenses, training manuals and textbooks, supplies, materials and other expenses related to curriculum planning, development and implementation; and

(B) reimbursement of tuition and other education and training-related expenses to employees for relevant outside coursework.

(2) Final authority for determining which expenditures constitute a "cash investment" in training and education shall rest with the secretary of commerce and housing.

(3) Monies or grants obtained from state, federal or other government sponsored workforce training programs shall not be included as a cash investment by the firm.

(b) Training and education.

(1) Training and education means non-production related activity for which an employee is either paid to participate or is reimbursed for expenses incurred, or both, and from which the firm expects to derive increased productivity or quality or both.

(2) On-the-job training shall not be considered training or education under the high performance incentive program.

(c) Total payroll.

Total payroll means total wages and benefits paid to firm employees during the twelve months immediately prior to the period for which tax credits are being requested, or for the number of months the firm has been in existence, whichever period is shorter. (Au-

thorized by and implementing 1993 SB 73, section 1 (b); effective, T-110-8-17-93, Aug. 17, 1993.)

110-6-4. Eligibility and application procedures for high performance incentives fund. (a) Each firm which meets the eligibility requirements to be a qualified firm under the high performance incentives program shall also be eligible for the high performance incentives fund.

(b) To apply for funds from the high performance incentives fund, each firm shall submit the following information:

(1) the firm name, address, telephone number and designated contact person;

(2) a brief description of the proposed consultation or service activity, including goals of the consultation or service, and expectations about benefits to be derived from the consultation or service;

(3) a summary description of the source of consultation or service, the procedure used to select the consultant or service provider, and justification for the final selection of the consultant or service provider;

(4) a statement of financial assistance requested, along with documentation that the amount of assistance requested is justified. Financial data shall be subject to audit by the department of commerce and housing; and

(5) a timetable for completion of consultation or service and for the expected benefits to be derived from the consultation or service. (Authorized by and implementing 1993 SB 73, section 1 (b); effective, T-110-8-17-93, Aug. 17, 1993.)

110-6-5. Approval guidelines for private consultants. Each consultant shall be required to obtain approval from the secretary of commerce and housing. Approval shall be determined by examining materials required to be submitted under subsection (c) of K.A.R. 100-6-4. (Authorized by and implementing 1993 SB 73, section 1 (b); effective, T-110-8-17-93, Aug. 17, 1993.)

110-6-6. Guidelines for prioritizing business assistance programs. A list of all firms who have applied for and received designation as a qualified firm shall be compiled and maintained by the secretary of commerce and housing. This list shall be distributed quarterly within the department of commerce and housing to every division director and program manager, with the directive that listed firms shall receive priority consideration in the provision of any business assistance or program benefits. The list shall also be distributed to the directors of the Kansas technology enterprise corporation and mid american manufacturing technology center. (Authorized by and implementing 1993 SB 73, section 1 (b); effective, T-110-8-17-93, Aug. 17, 1993.)
