Opinion No. 94-1

Crimes and Punishment—Kansas Criminal Code—Crimes Affecting Public Trusts—Unlawful Use of State Postage. Representative Kay O'Connor, 14th District, Olathe, January 11, 1994.

In our opinion, use of state postage by a state official to mail holiday greeting cards is a personal use violative of K.S.A. 21-3911. Because there has been no clear guidance on this issue in the past, we believe the guidelines established herein should be given prospective application only. Opinion No. 94-3

Schools—General Provisions Relating to School Districts—School Residence; Compulsory Attendance; Ef-

fect of Expulsion in Former School District. Lawrence M. Wright, Franklin County Attorney, Ottawa, January 18, 1994.

The residence of a pupil for the purpose of attending school is not limited to the residence or domicile of the parents. A child may attend school in a particular school district if the child lives with a resident of the school district who has actual care and control of the child and is supporting the child or has the written consent of the child's parents. State law does not recognize the intention of the pupil for changing the pupil's living arrangements as a factor to be considered when determining whether a pupil may attend school in a particular school district. State law does not obligate each school district to suspend or expel a pupil who has engaged in any of the activities set forth in K.S.A. 72-8901; rather, discretion is given each school district to determine for which offenses a pupil of the school district may be suspended or expelled. A school district does not possess the authority to suspend or expel a pupil from attending school in another school district. Given this limitation of authority, the fact that a pupil has been expelled from attending school in the former school district does not result in expulsion from attending school in the present school district. K.S.A. 72-8905 excuses a pupil from compulsory attendance in a school district once the pupil has been suspended or expelled from that particular school district. However, if the place of residence of the pupil is moved to another school district, the pupil is once again subject to K.S.A. 72-1111. Cited herein: K.S.A. 72-961; 72-1046; 72-1111; 72-1113; 72-8901; 72-8903; 72-8904; 72-8905; Kan. Const., art. 6, § 2; L. 1970, ch. 300. RDS

Notice to Consulting Engineers

The Kansas Department of Transportation is seeking qualified consultant engineering firms for construction inspection on an as-required basis. Prequalified consultant engineering firms will provide services on a time and materials plus percentage fee contract. Work will include performance of construction inspection on projects prescribed by KDOT on an as-required basis in KDOT geographical Districts 2, 4 and 5.

Work will be authorized by work order and charges to authorized KDOT projects. The minimum call-out time would be for one week of work. The minimum notice will be one week in advance.

Consultants hired through this request will be in addition to firms already under contract to provide this same service. Projected workload for these districts will require KDOT the ability to hire additional construction inspection resources. If your firm is already under contract for these districts, your response to this request is not needed.

Responses from consultant engineering firms that wish to be considered must be received by February 3. Seven signed copies of responses must be mailed to Al Cathcart, P.E., Project Control Engineer, Office of Engineering Support, Kansas Department of Transportation, Docking State Office Building, 7th Floor, Topeka 66612.

From firms expressing interest, KDOT will select a list of the most highly qualified and invite them to attend a preproposal conference. Firms not selected will be notified by letter. A Negotiating Committee, appointed by the Secretary of Transportation, will conduct discussions with firms on the most qualified list and select one or more firms with which to negotiate a contract. After final contracts have been awarded the remaining firms will be notified by letter.

It is the policy of KDOT to use the following criteria as the basis for selection of consultant engineering firms:

1. Size and professional qualifications.
2. Experience of staff.
3. Location of firm with respect to proposed project.
4. Work load of firm.
