Board of Nursing

Notice of Hearing on Proposed Administrative Regulations

A public hearing will be conducted at 3 p.m. Monday, September 19, in Room 481-W, Docking State Office Building, 915 S.W. Harrison, Topeka, to consider the adoption of proposed changes in existing rules and regulations.

The 30-day notice of the public hearing shall constitute a public comment period for the purpose of receiving written public comments on the proposed rules and regulations. All interested parties may submit written comments prior to the hearing to the executive administrator of the Board of Nursing, Room 551-S, Landon State Office Building, 900 S.W. Jackson, Topeka 66612. All interested parties will be given a reasonable opportunity to present their views orally on the adoption of the proposed regulations during the hearing.

A summary of proposed regulations and their economic impact follows.

K.A.R. 60-11-104a. Protocols requirements; transmitting prescription orders in writing. Advanced registered nurse practitioners write prescriptions for clients by transmitting the order from a protocol approved by a physician. Some requirements in the procedures have been deleted. The changes in this regulation are to update the protocol procedures to be more flexible for both the advanced registered nurse practitioner and the physician. Time and money will be saved for both the advanced registered nurse practitioner and the physician. There will be no economic impact on the board.

K.A.R. 60-16-102. Scope of practice for licensed practical nurse and intravenous fluid therapy. Limited and expanded scopes of intravenous fluid therapy are detailed in this regulation. Certain practices are prohibited and are listed.

K.A.R. 60-16-103. Approval procedure. Licensed practical nurses performing expanded intravenous fluid therapy will have to be certified by July 1, 1995. All certificates issued will be through the educational programs. The mechanism for how the board will approve educational programs is outlined in this regulation.

There will be some economic impact on licensed practical nurses. Those already administering intravenous fluid therapy in an expanded practice will have an opportunity to take a competency examination. Others who also wish to practice in the expanded role will have to take a 48-hour course and pass the competency examination. There will be an expense to the licensee and possibly the employer.

Although there has been no position funded, the board anticipates additional workload which cannot be fully handled by current staffing.

K.A.R. 60-1-104. Definitions. Key words used in the education regulations are defined.

K.A.R. 60-2-101. Requirements for accreditation. The regulation for accreditation of schools of nursing is revised to include previous guidelines. If a new school is applying for accreditation, there are specific steps to be taken and certain materials to be provided by the school to the board.

K.A.R. 60-2-102. Resurvey requirements. The resurvey process is outlined so that directors of schools of nursing know the exact procedure.

K.A.R. 60-2-103. Faculty qualifications. The required qualifications of nursing faculty, adjunct faculty, and preceptors are contained in this regulation.

K.A.R. 60-2-104. Curriculum requirements. Schools of nursing are required to submit to the board the curriculum for each course. Revisions may be reviewed by the board or staff. The board has identified the minimum number of course hours which must be completed before a student is eligible for graduation.

K.A.R. 60-2-105. Clinical resources. Each school will be affiliating with various facilities to provide clinical experiences for students. Requirements for clinical resources are in the regulation.

K.A.R. 60-2-106. Educational facilities. Each school of nursing has to have adequate space, library holdings, and instructional media.

K.A.R. 60-2-107. Students. Admission, readmission, progression, graduation, and articulation of students is addressed in this regulation.

K.A.R. 60-2-108. Reports. Various reports from the schools of nursing are required throughout the year.

K.A.R. 60-1-104 and 60-2-101 through 60-2-108 are proposed regulations which have been guidelines. The schools of nursing are currently following these guidelines, so there should be no economic impact on them or the board.

K.A.R. 60-4-101 and K.A.R. 60-8-101. Payment of fees. The fee for reinstatement with temporary permit has been raised by \$10 or \$20 more than the reinstatement without temporary permit. Because there is multiple handling of the application, there is more clerical time involved. No further staffing is needed. Currently there are only 20-30 requests per year, so there is minimal fiscal impact on the agency at this time. An additional \$10 should impose no financial hardship on those requesting the temporary permit.

Copies of the regulations and their economic impact statements may be obtained from the Board of Nursing at the address above, (913) 296-5752.
