Water Pollution Control Permits

In accordance with state regulations 28-16-57 through 63, 28-18-1 through 4, and the authority vested with the state by the administrator of the U.S. Environmental Protection Agency, tentative permits have been prepared for discharges to the waters of the United States and the state of Kansas for the applicants described below. The tentative determinations for permit content are based on preliminary staff review, applying the appropriate standards, regulations, and effluent limitations of the state of Kansas and the EPA, and when issued will result in a state water pollution control permit and national pollutant discharge elimination system authorization to discharge subject to certain effluent limitations and special conditions.

Request for Comments

The Kansas Department of Health and Environment is providing a public comment period on the department's intent to establish a maximum allowable loading of phosphorus to Hillsdale Reservoir.

KDHE is proposing to adopt a total maximum allowable phosphorus loading based on either antidegradation of existing lake conditions or attainment of a growing season mean chlorophyll-a concentration of 12 micrograms per liter. Authority to establish a total allowable phosphorus load based on antidegradation is provided by K.A.R. 28-16-28c(a) (1) and (2), which stipulate in part that water quality necessary to protect existing and designated uses shall be maintained and, where existing surface water quality is better than applicable water quality criteria established by the Kansas water quality standards, water quality shall not be lowered unless, after full satisfaction of intergovernmental coordination and public participation, KDHE has determined that a lowering of

water quality is needed to provide for important social and economic development in the geographical area in which the waters are located.

To prevent degradation of existing water quality conditions of Hillsdale Reservoir as measured by growing season mean chlorophyll-a, the maximum annual loading of phosphorus will be limited to 42,446 pounds (19,253.3 kilograms). The current growing season mean chlorophyll-a concentration is 12.81 micrograms per liter. The maximum annual phosphorus loading that will allow attainment of a growing season mean chlorophyll-a concentration of 12 micrograms per liter is 23,943 pounds (10,860 kilograms).

The total annual phosphorus limitation will be used to limit the amount of phosphorus that can be discharged to the reservoir from point sources and nonpoint sources. The total amount of phosphorus that can be discharged from point sources will be established through national pollutant discharge elimination system (NPDES) effluent limitations.

Chlorophyll-a is a measure of the amount of algae present in the reservoir and an indication of the trophic state of the lake. Increased concentrations of chlorophyll-a indicate denser algal populations. Algae growth is primarily regulated by the amount of phosphorus available in the lake water. In general, there is a log-log relationship between chlorophyll-a concentration and phosphorus loading. As the algal density increases, raw water is more difficult to treat for drinking water purposes leading to the likelihood of taste and odor problems occurring in finished drinking water; lake dissolved oxygen levels tend to decrease leading to increased populations of less desirable fish species, and recreational boating and skiing are likely to be impaired by algal scum and offensive odors.

The basis and rationale for the proposed total annual phosphorus loading is presented in the August 1994 report, *Hillsdale Lake Nutrient Study for Total Maximum Daily Load (TMDL) Development*.

Comments are specifically requested on:

- 1) The merits of achieving a mean growing season chlorophyll-a concentration of 12.0 (or less) micrograms per liter.
- 2) The point source phosphorus load allocation.

Persons wishing to comment on this proposal may direct their comments to Karl W. Mueldener, P.E., Director, Bureau of Water, Kansas Department of Health and Environment, Building 283, Forbes Field, Topeka, 66620. Copies of the *Hillsdale Lake Nutrient Study for Total Maximum Daily Load (TMDL) Development*, and a table summarizing the proposed allocation of phosphorus loading among the various point source and nonpoint source contributors, may be obtained by writing to the address above or calling (913) 296-5500.

K.A.R. 102-1-10. Unprofessional conduct. The proposed amendment in subsection (b)(4) substitutes the word "training" for the phrase "licensee's emphasis area or areas."

The proposed amendment in subsection (b)(8) further defines a potential violation of a licensee's use of alcohol or drugs.

The proposed amendment in subsection (b)(17) incorporates the existing wording in (b)(26) and represents a change in the wording and organization of existing prohibitions.

The proposed amendment in subsection (b)(26) establishes a potential violation if an applicant or licensee makes a materially false statement or fails to disclose a material fact in an application for or renewal of licensure.

Persons who are licensed will be affected by this regulation. Other governmental units, private citizens and consumers may be affected by this regulation by providing these entities or persons a greater level of protection; however, there is no significant economic impact to these entities or persons.

K.A.R. 102-1-13. Fees. The proposed amendments increase all licensed psychology fees to statutory limitation as follows: application and renewal from \$130 to \$200, and duplicate license from \$10 to \$20. These amendments are necessary because the current fee structure no longer supports this credentialing program, which is currently subsidized by the BSRB fee fund. Persons who seek licensure or who are currently licensed will be affected by this regulation.

BSRB anticipates that other governmental units, private citizens and consumers may be minimally affected by these proposed amendments; however, the extent to which this may occur cannot be determined.

K.A.R. 102-2-3. Fees. The proposed amendments increase all social work fees to statutory limitation as follows: associate and baccalaureate social work licensure and renewal from \$90 to \$100; master social work licensure and renewal from \$95 to \$100; temporary license from \$15 to \$50; and duplicate license from \$10 to \$20.

The proposed amendments are necessary to support this credentialing program.

Persons who seek licensure or who are currently licensed will be affected by this regulation. BSRB anticipates that other governmental units, private citizens and consumers may be minimally affected by these proposed amendments; however, the extent to which this may occur cannot be determined.

K.A.R. 102-3-2. Fees. The proposed amendment in this regulation increases the examination fee to statutory limitation for professional counselor registration applicants from \$100 to \$150 and is necessary to help off-set the cost to administer this credentialing program, which currently is not self-supporting and is being subsidized by the BSRB fee fund.

Persons who seek registration and who are required to sit for the examination in Kansas will be affected by this regulation. BSRB anticipates that other governmental units, private citizens and consumers will not be affected by these proposed amendments.

K.A.R. 102-4-2. Fees. The proposed amendments in this regulation increase to statutory limitation the RMLP one-year temporary permit or its renewal fee from \$75 to \$200 and increase the six-month temporary permit or its renewal fee from \$75 to \$100.

These fee increases are necessary because this credentialing program has not been self-supporting and has been subsidized by the BSRB fee fund since the enactment of this registration act.

Persons who seek temporary registration as masters level psychologists will be affected by these amendments. BSRB anticipates that other governmental units, private citizens and consumers will not be affected by these proposed amendments.

K.A.R. 102-5-2. Fees. The proposed amendments in the registered marriage and family therapist regulation increase the fees to renew or reinstate a registration from \$100 to \$150. These fee increases are necessary to support this credentialing program.

Persons who seek to renew or reinstate a registration will be affected by these amendments. BSRB anticipates that other governmental units, private citizens and consumers will not be affected by these proposed amendments.

A complete copy of the proposed amended regulations and economic impact statements may be obtained for a \$10 duplication and postage fee by contacting the Behavioral Sciences Regulatory Board at the address above, (913) 296-3240.

A conference call meeting is scheduled at 1 p.m. Monday, July 10, to enable board members to receive comments and concerns and to vote on whether to formally adopt the proposed amendments. A speaker phone in the board office will be available for interested persons.

30-4-63. KanWork program requirements. Each assigned applicant or recipient, unless exempted, shall be required to participate in one or more components of the KanWork program. Any exempt applicant or recipient may volunteer for participation in the KanWork program. The geographic areas in the state and the public assistance programs in which KanWork requirements are to be enforced shall be designated by the secretary. The administration of the KanWork program shall be within the limits of appropriations. (a) Exemptions. The persons listed below shall be exempt from the KanWork requirements:

(1) any person who is ill, when determined on the basis of medical evidence or another sound basis that the illness or injury is serious enough to temporarily prevent entry into employment or training;

(2) any person who is incapacitated, when verified that a physical or mental impairment, as determined by a physician or a licensed or certified psychologist, by itself or

in conjunction with age, prevents the individual from engaging in employment or training. When an individual claims exempt status due to incapacity, but medical verification is needed to establish the incapacity, the individual shall be regarded as temporarily exempt for a period not to exceed 30 days while the individual's status is being verified. If verification is not provided because of a legitimate delay in obtaining an examination by or a consultation with a medical practitioner, the temporary exemption period shall be extended for a period not to exceed 15 days. For GA, a statement from a vocational rehabilitation counselor may be used to determine incapacity;

(3) any person who is under age 16 or 60 years of age or older;

(4) any person who is needed in the home because another member of the household requires the individual's presence due to illness or incapacity and no other appropriate member of the household is available to provide the needed care;

(5) any parent or other relative who is personally providing care for a child under age three. Only one person or other relative in a case may be exempt for providing care for a child under age three. This exemption shall not be claimed:

(A) by a custodial parent under age 20 who does not possess a high school diploma or its equivalent;

(B) if the other parent or caretaker relative in the home or the stepparent in the plan is exempt from the work program requirements for another reason and is available and capable of providing child care; or

(C) by an adult in a plan based on unemployment of a parent as provided in 30-4-73(d);

(6) any person who is employed full-time, unless the employment was obtained during current participation in the program. Employment is considered to be full-time when the person is employed 30 or more hours a week and is earning at least the federal minimum wage;

(7) any person age 16, 17 or 18 who attends full-time an elementary, secondary, vocational or technical school. Persons age 18 shall be reasonably expected to complete the program before attaining age 19. This exemption shall not apply to a person who attends full-time an elementary, secondary, vocational or technical school as a required KanWork activity;

(8) any woman who is three or more months pregnant;

(9) any person who resides in an area of the state where the work program is available, but in a location which is so remote that effective participation is precluded. The person's location shall be considered remote if a round trip of more than two hours by reasonably available public or private transportation, exclusive of time necessary to transport children to and from a child care facility, would be required for a normal work or training day. However, if normal round trip commuting time in the area is more than two hours, then the round trip commuting time shall not exceed the generally accepted community standards; and

(10) any person who is a full-time volunteer serving under the Volunteers In Service To America (VISTA) program.

(b) Participation requirements. Each assigned recipient shall enter into a written agreement with the agency for the purpose of participating in one or more components of an agency-approved, work-related program directed toward a plan of self-sufficiency. The components of the KanWork program may include, but are not limited to, the following.

(1) Job search. Each assigned applicant or recipient shall participate in job search activities which may include agency-approved job clubs, supervised and unsupervised job search activities, job referral and placement services, and employment counseling.

(2) Community work experience program (CWEP). Each assigned recipient shall participate in CWEP activities which may include the opportunity to regain work skills, learn new skills, test interest and skills on the job, gain a work history, and obtain a work reference.

(3) Education and training. Each assigned recipient shall participate in education and training activities which are aimed at facilitating a recipient's movement toward self-sufficiency and employment retention. Education and training activities may include such elements as vocational training, adult basic education, literacy training, general educational development, and post-secondary education and training.

(4) Work supplementation. Each assigned recipient shall participate in a work supplementation program in which an employer receives a wage subsidy from money diverted from public assistance grants for employing program participants.

(c) Support services. Support services shall be provided to participants. Support services shall include, but are not limited to:

(1) transportation expenses, as outlined in K.A.R. 30-4-120(a)(1);

(2) day care expenses, as outlined in K.A.R. 30-4-120(a)(2); and

(3) education and training expenses, as outlined in K.A.R. 30-4-120(a)(3).

(d) Transitional services. Transitional services shall be provided to each participant and members of the participant's assistance family group who lose eligibility for public assistance due to the participant's employment. Transitional services shall include, but are not limited to, child care and transportation, as outlined in K.A.R. 30-4-120(a)(4), and medical assistance, as outlined in K.A.R. 30-6-65(n).

(e) Penalty. When a person who is required to participate in the KanWork program fails without good cause to participate in the program or refuses without good cause to accept employment, or terminates employment or reduces earnings without good cause, the individual shall be ineligible for assistance. In ADC-UP and GA, the spouse of the individual or the other parent in the household shall also be ineligible unless the spouse or the other parent is a KanWork participant. In GA, a potential employment penalty, as set forth in K.A.R. 30-4-58(d), shall be considered in combination with any other KanWork penalty. The period of ineligibility shall be as follows:

(1) for the first such failure or refusal, until the failure or refusal ceases;

(2) for the second such failure or refusal, until the failure or refusal ceases, or three months, whichever is longer; and

(3) for any subsequent failure or refusal, until the failure or refusal ceases, or six months, whichever is longer.

(f) Good cause. Each individual who presents verification that one or more of the following criteria has been met shall be determined to have good cause for failing to participate in the program, refusing to accept employment, terminating employment, or reducing earnings:

(1) the individual is exempt from participation in the program;

(2) there was no bona fide offer of employment or training;

(3) the individual was incapable of performing the work or training;

(4) the work or training was so dangerous or hazardous according to OSHA standards as to make the refusal or termination a reasonable one;

(5) the payment offered was less than the applicable minimum wage;

(6) child care or day care for any incapacitated individual living in the same home is necessary for an individual to participate or continue participation in the program or accept employment, such care is not available and the agency fails to provide such care;

(7) the employment would result in the family of the participant experiencing a net loss of cash income;

(8) the total daily commuting time to and from home to the work or training site to which the individual is assigned exceeds two hours, not including the transporting of a child to and from a child care facility. If a longer commuting distance is generally accepted in the community, the round trip commuting time shall not exceed the generally accepted community standards; or

(9) the person is the parent or other relative personally providing care for a child under age six and the employment requires the person to work more than 20 hours per week.

(g) The effective date of this regulation shall be August 1, 1995. (Authorized by and implementing K.S.A. 1992 Supp. 39-708c, 39-7,103; effective, T-30-7-29-88, July 29, 1988; effective Sept. 26, 1988; amended July 1, 1989; amended Oct. 1, 1989; amended Jan. 2, 1990; amended, T-30-3-29-90, April 1, 1990; revoked, T-30-7-2-90, July 2, 1990; amended, T-30-7-2-90, July 2, 1990; revoked, T-30-8-14-90, Oct. 1, 1990; amended Oct. 1, 1990; amended Jan. 7, 1991; amended, T-30-6-10-91, July 1, 1991; amended, T-30-8-9-91, Aug. 30, 1991; amended Oct. 28, 1991; amended Oct. 1, 1993; amended Aug. 1, 1995.)

30-4-63w. Work program participation. - (1) any person who is ill, when determined on the basis of medical evidence or another sound basis that the illness or injury is serious enough to temporarily prevent entry into employment or training;
- (2) any person who is incapacitated, when verified that a physical or mental impairment, as determined by a physician or a licensed or certified psychologist, by itself or in conjunction with age, prevents the individual from engaging in employment or training. When an individual claims exempt status due to incapacity, but medical verification is needed to establish the incapacity, the individual shall be regarded as temporarily exempt for a period not to exceed 30 days while the individual's status is being verified. If verification is not provided because of a legitimate delay in obtaining an examination by or a consultation with a medical practitioner, the temporary exemption period shall be extended for a period not to exceed 15 days. For GA, a statement from a vocational rehabilitation counselor may be used to determine incapacity;

(3) any person who is under age 16 or 60 years of age or older;

(4) any person who is needed in the home because another member of the household requires the individual's presence due to illness or incapacity and no other appropriate member of the household is available to provide the needed care;

(6) any person who is employed full-time, unless the employment was obtained during current participation in the program. Employment is considered to be full-time when the person is employed 30 or more hours a week and is earning at least the federal minimum wage;

(7) any person age 16, 17 or 18 who attends full-time an elementary, secondary, vocational or technical school. Persons age 18 shall be reasonably expected to complete the program before attaining age 19. (8) any woman who is three or more months pregnant;

(9) any person who resides in an area of the state where the work program is available, but in a location which is so remote that effective participation is precluded. However, if normal round trip commuting time in the area is more than two hours, then the round trip commuting time shall not exceed the generally accepted community standards; and

(10) any person who is a full-time volunteer serving under the Volunteers In Service To America (VISTA) program.

(A) Receipt of social security disability benefits shall establish incapacity without meeting further requirements.

(B) When an individual claims exempt status due to incapacity, but medial verification is needed to establish the incapacity, the individual shall be regarded as temporarily exempt for a period not to exceed 30 days while the individual's status is being verified.

(1) If the individual is a parent and has not participated in the work program for three months in any assistance program administered by the secretary where work program participation is required, assistance for the mandatory filing unit of which that parent is a member shall not be provided.

Article 6.—MEDICAL ASSISTANCE PROGRAM— CLIENTS' ELIGIBILITY FOR PARTICIPATION

30-6-111. Applicable income. Applicable income means the amount of earned and unearned income which is compared with the appropriate protected income level to establish financial eligibility. (a) Non-SSI. All earned income shall be applicable unless exempted in accordance with K.A.R. 30-6-112 and K.A.R. 30-6-113. Applicable earned income shall be determined as follows.

(1) Applicable earned income for persons included in the assistance plan, and except as noted in subparagraph (a) (4) of this regulation, for all persons in the home whose earned income must be considered and who are excluded from the assistance plan, shall equal gross earned income, or the adjusted gross earned income from self-employment, less the following items:

- (A) \$90.00 per month for each employed person; and
- (B) reasonable and not excessive expenses for child care or expenses for the care of an incapacitated person. The amount of deductible dependent care shall not exceed \$200.00 per month per person for persons under age two or \$175.00 per month per person for persons age two or older. The dependent shall be included in the assistance plan before the deduction is allowed.

(2) Gross earned income, or the adjusted gross income from self-employment, shall not be reduced when the applicant or recipient:

(A) has terminated employment or reduced earnings without good cause within 30 days preceding the month of eligibility; or

(B) has refused without good cause to accept a bona fide offer of employment within the 30-day period preceding the month of eligibility.

(3) For self-employed persons, adjusted gross earned income shall equal gross earned income less cost of the production of the income. Income-producing costs shall include only those expenses directly related to the actual production of income. These costs shall be verified. The following guidelines shall be used by the agency in calculating the cost of the production of the income.

(A) The medical assistance program shall not treat income on the basis of IRS policies and shall not be used to either subsidize the payment of debts, or set up an individual in a business or a nonprofit activity.

(B) If losses are suffered from self-employment, the losses shall not be deducted from other income nor shall the net loss of a business be considered as an income-producing cost.

(continued)

(C) If a business is being conducted from a non-home location, business space and utilities may be considered as income-producing costs.

(D) If a business is being conducted from a person's own home, shelter and utility costs shall not be considered as income-producing costs unless it is verifiable that they are clearly distinguishable from the home operation.

(E) If payments increase the equity in equipment, vehicles, or other property, the payments shall not be considered as an income-producing cost.

(F) If equipment, vehicles, or other property are being purchased on an installment plan, the actual interest paid may be considered as an income-producing cost.

(G) Depreciation on equipment, vehicles, or other property shall not be considered as an income-producing cost.

(H) Insurance payments on equipment, vehicles, or other property shall be allowed if the payments directly relate to the business.

(I) Expenses for inventories and supplies that are reasonable and required for the business may be considered as income-producing costs.

(J) Wages and other mandated costs related to wages paid by the applicant or recipient may be considered as income-producing costs.

(4) In determining eligibility and the amount of payment, the applicable earned and unearned income of an alien who is a parent of an ADC child and who is excluded from the assistance plan due to the provisions of the immigration reform and control act of 1986, P.L. 99-603, effective May 1, 1987, which is hereby adopted by reference, shall equal gross income less the following items:
