State of Kansas

Office of the Governor

Writ of Election

By the power vested in me as Governor of the State of Kansas pursuant to the Seventeenth Amendment to the Constitution of the United States of America, I do hereby call an election to fill the vacancy in the United States Senatorial Seat created by the resignation on June 11, 1996, of Senator Bob Dole. As required by Kansas Statutes Annotated Chapter 25, Article 3, Section 18, the election to fill the vacancy shall be conducted on November 5, 1996. Candidates whose names shall appear on the ballot for such election shall be those candidates who have submitted valid certificates of nomination or independent nomination petitions.

Because Senator Dole's resignation was effective after the date established by state statute for filing certificates of nomination by convention or caucus, and after the date established by state statute for filing nomination petitions or declarations of intention to become a candidate in the primary election, and state statute does not establish a means of securing nominations by political parties for vacancies occurring in the office of United States Senator under these circumstances (see K.S.A. 25-318), the date for filing certificates of nomination by convention or caucus and for filing nomination petitions or declarations of intention to become a candidate in the primary election to be conducted on August 6, 1996, shall be noon on June 24, 1996.

Done by my hand this 12th day of June, 1996.

Notice of Petroleum Products
 Inspection Fee Increase

The 1996 Kansas Legislature passed a law (SB 704) modifying the existing Petroleum Products Inspection Law. These changes were part of a comprehensive package the Kansas Department of Agriculture introduced to provide for a fuel quality program and to increase accuracy within the Department of Agriculture's Weights and Measures Program.

The following items now in the Petroleum Products Inspection Law will change the reporting and payment requirements of the petroleum products inspection fee beginning July 1, 1996:

- The petroleum products inspection fee is increasing from \$.01 to \$.015 per barrel (one barrel equals 50 U.S. gallons).
- Diesel fuel is subject to the petroleum products inspection fee.
- The petroleum products inspection fee applies to exports and U.S. government sales.
- The petroleum products inspection fee no longer applies to kerosene.

If you have any comments or questions regarding this fee, call (913) 296-2411.

During this time the local health officer or the local health officer's designee shall determine whether or not the dog or cat is suffering from rabies, and if not, the local health officer or the local health officer's designee shall authorize the release of the dog or cat upon payment by the owner of the boarding fee.

(2) Stray, unclaimed, or unwanted dogs or cats shall be sacrificed immediately and the head submitted for laboratory examination for evidence of rabies infection.

(3) The management of horses, cattle, and sheep shall be determined by the local health officer or the local health officer's designee.

(B) the local health officer or the local health officer's designee determines that the possibility of the ferret or ferrets having been exposed to rabies is unlikely.

(5) Mammals, other than dogs or cats, horses, cattle, sheep, or owned ferrets including the offspring of wild species cross-bred with domestic dogs and cats, skunks, foxes, raccoons, coyotes, bats, and other species known to be involved in the transmission of rabies, whether owned or unowned, shall be sacrificed immediately and the head submitted for laboratory examination for evidence of rabies infection. Any mammal which has been vaccinated may be sacrificed and tested if the period of virus shedding is unknown for that species.

(6) Mammals, including rabbits, hares, gerbils, guinea pigs, hamsters, mice, rats, squirrels, chipmunks and other species not known to be involved in the transmission of

rabies, need not be sacrificed and submitted for laboratory examination for evidence of rabies infection, unless the circumstances of the potential exposure to rabies incident, in the judgment of the local health officer or the local health officer's designee, indicate otherwise.

(7) The disposition of mammals which are not known to be involved in the transmission of rabies, and which are maintained in zoological parks, shall be in accordance with the judgment of the local health officer or the local health officer's designee.

(b) Quarantine of mammals exposed to rabies by a known or suspected rabid mammal shall be as follows:

(A) the residence of the owner of the dog or cat;

(B) in a veterinary hospital; or

(C) at a facility holding a current state pound and shelter license.

These dogs or cats shall be immunized against rabies one month before release from quarantine. The local health officer or the local health officer's designee shall authorize the release of the dog or cat upon payment of the boarding fee.

(3) Dogs, cats, horses, cattle, and sheep which have an owner, are wanted by that owner, and for which the owner produces rabies vaccination certificates containing the following shall be immediately re-vaccinated and kept under the owner's control and observed for 45 days:

(A) the expiration date of the rabies vaccination; and

(B) positive identification for each of these mammals showing that the mammals are currently vaccinated by a licensed veterinarian with an approved vaccine for that species.

(4) Horses, cattle, and sheep not vaccinated with an approved vaccine for that species shall be sacrificed immediately, or quarantined for six months under conditions satisfactory to the local health officer or the local health officer's designee. The local health officer or the local health officer's designee shall authorize the release of the horse, cow or sheep upon payment of any boarding fees.

(5) Other mammals shall be sacrificed immediately, except for those mammals currently vaccinated with an approved vaccine for that species. Mammals which have been appropriately vaccinated may be immediately re-vaccinated and quarantined for at least 90 days under conditions satisfactory to the local health officer or the local health officer's designee. (Authorized by K.S.A. 65-128, K.S.A. 65-101; implementing K.S.A. 65-101; effective May 1, 1982; amended May 1, 1986; amended July 5, 1996.)

Breeders, wholesalers, distributors and retailers of psittacine birds shall maintain a record of the date of purchase, source, and the species of each psittacine bird. When birds are sold, the seller shall record the name, address and telephone number of the customer, date of purchase, species purchased, and the band number, if applicable, for each psittacine bird sold. These records shall be kept for one year. (Authorized by and implementing K.S.A. 65-101; effective May 1, 1982; amended July 5, 1996.)
