Notice of Meetings

The public is invited to attend implementation meetings for the Home- and Community-Based Services/Frail Elderly (HCBS/FE) program, also known as Living Independence for Everyone (LIFE), and the Home- and Community-Based Services/Physically Disabled (HCBS/PD) program.

Individuals who qualify for Medicaid benefits also can receive services through the HCBS/FE program. The HCBS/FE program serves Kansans 65 years and older by providing long term care services in the least restrictive setting of their choice. This program helps Kansans who are in frail health. Services include personal care such as feeding, bathing and dressing; household tasks such as shopping, meal preparation, house cleaning and laundry; medical services such as health monitoring and 24-hour support for medical emergencies; and respite care to temporarily relieve primary care givers.

The HCBS/PD program serves Kansans between the ages of 16 and 64. This program promotes independence by providing a variety of services, including independent living counseling, personal and assistive services, and the purchase of assistive technology. The program also offers a self-directed attendant care option to encourage personal choice of providers and living arrangements.

Meetings have been scheduled statewide at the following locations:

Notice to Consulting Engineering Firms

The Kansas Department of Transportation is seeking qualified consulting engineering firms for the projects listed below. Responses must be received by August 29 for the consulting engineering firm to be considered. Seven signed copies of your response must be mailed to Neil R. Rusch, P.E., Assistant to the Director, Division of Engineering and Design, Kansas Department of Transportation, Room 1084-West, Docking State Office Building, 915 S.W. Harrison, Topeka, 66612-1568.

Project No. 106 C-3279-01
Statewide

The scope of service is to provide on-site ultrasonic testing of 43 pin and hanger bridges. Ultrasonic inspection equipment must have recording and hard copy printout capability. Some sites have limited access. Most sites require a snooper truck. The inspection team must be led by a licensed professional engineer with five years experience in bridge inspection. Reports are required for each bridge site and a summary report. The report must include inspection forms, printout of ultrasonic inspections and recommendations for maintenance and inspection frequency. The inspections are to be performed in the summer and fall of 1997.

Project No. 27-91 K-5740-01
Sherman County

The scope of service is to develop construction plans for surface rehabilitation including shoulder widening and stabilization to provide a 11.0 mile roadway, extending existing culverts, addition of acceleration and deceleration lanes at major crossroads, upgrading guard fence, signing, overlay and handrail of Bridge 044 (north branch, south fork at Beaver Creek), and handrail on Bridge 045 (south branch, south fork at Beaver Creek).

Project No. 70-98 K-6026-01
Trego County

The scope of service is to develop construction plans for the upgrading of the existing guard fence installations to acceptable criteria on I-70 in Trego County.

Project No. 70-26 K-6027-01
Ellis County

The scope of service is to develop construction plans for the upgrading of the existing guard fence installations to acceptable criteria on I-70 in Ellis County.

From firms expressing interest, the Consultant Selection Committee will select a list of the most highly qualified (not less than three, not more than five) and invite them to attend an individual interview conference. At this time, the consulting firms can more thoroughly discuss their experience related to the type of projects at hand. Firms not selected will be notified by letter.

The Consultant Negotiating Committee, appointed by the Secretary of Transportation, will conduct discussions with the firms invited to the individual interview conference. The committee will select the firm to perform the professional services required for completing the adver-

tised project. After the selection of this firm, the remaining firms will be notified by letter of the outcome.

It is the policy of KDOT to use the following criteria as the basis for selection of the consulting engineering firms:

1. size and professional qualifications;
2. experience of staff;
3. location of firm with respect to proposed project;
4. work load of firm; and
5. firm's performance record.

Notice to Consulting Engineering Firms

The Kansas Department of Transportation is seeking qualified consulting engineering firms to perform surveys as needed in all six districts. Two to four firms will be selected for each district. Please specify the districts for which you are requesting to perform surveying services. Responses must be received by August 29 for the consulting engineering firm to be considered. Seven signed copies of responses must be mailed to Neil R. Rusch, P.E., Assistant to the Director, Division of Engineering and Design, Kansas Department of Transportation, Room 1084-W, Docking State Office Building, 915 S.W. Harrison, Topeka, 66612-1568.

The firm will be required to provide the following survey services:

1. flagging of proposed right of way;
2. staking center line for geotech investigations;
3. supplemental surveys to original surveys;
4. land surveying of right of way and installation of right of way markers;
5. cross sectioning of roadway and/or borrow locations;
6. re-establishing section corners and control points; and
7. similar surveying services.

From firms expressing interest, the Consultant Selection Committee will select a list of the most highly qualified (not less than three, not more than five) and invite them to attend an individual interview conference. At this time, the consulting firms can more thoroughly discuss their experience related to the type of project at hand and will be expected to discuss, in some detail, their approach to this project and the personnel to be assigned to the project. Firms not selected to be short listed will be notified by letter.

It is the policy of KDOT to use the following criteria as the basis for selection of the consulting engineering firms:

1. size and professional qualifications;
2. experience of staff;
3. location of firm with respect to proposed project;
4. work load of firm; and

Animal Health Department

Notice of Hearing on Proposed
Administrative Regulations

A public hearing will be conducted at 10 a.m. Wednesday, October 16, in the Kansas Animal Health Department's conference room, Anchor Savings Building, 712 S. Kansas Ave., Suite 4-B, Topeka, to consider the adoption of a proposed permanent rule and regulation of the Kansas Livestock Commissioner, Animal Health Department.

This 60-day notice of the public hearing shall constitute a public comment period for the purpose of receiving written public comments on the proposed rule and regulation. All interested parties may submit written comments prior to the hearing to Debra Duncan, Animal Facilities Inspection Director, Animal Health Department, 712 S. Kansas Ave., Suite 4-B, Topeka, 66603. All interested parties will be given a reasonable opportunity to present their views orally on the adoption of the proposed regulation during the hearing. In order to give all parties an opportunity to present their views, it may be necessary to request each participant to limit any oral presentation to five minutes.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulation and economic impact statement in an accessible format. Requests for accommodation should be made at least five working days in advance of the hearing by contacting Debra Duncan at (913) 296-2326. Handicapped parking is located in front of the Anchor Savings Building, and the front entrance of the building is accessible. Summaries of the proposed regulation and its economic impact follow.

K.A.R. 9-26-1, Euthanasia methods, is a new regulation. L. 1996, Ch. 151 requires use of the most current, approved euthanasia methods established by the American Veterinary Medical Association Panel on Euthanasia. K.A.R. 9-26-1 adopts by reference the 1993 euthanasia guidelines of the AVMA panel, which are the most current guidelines. The AVMA report refers to "acceptable" and "conditionally acceptable" methods of euthanasia. K.A.R. 9-26-1 requires use of only those methods listed as "acceptable" except when a licensee obtains approval by the Livestock Commissioner to use a "conditionally acceptable" method.

K.A.R. 9-26-1 will have no economic impact on the Animal Health Department. Small city pounds or other licensees who currently euthanize animals by shooting them with guns or by captive bolt will be required to select an approved method of euthanization or apply for approval of the Livestock Commissioner to use a conditionally acceptable method. Euthanization by a veterinarian using an approved method is expected to cost \$6 per animal. A review of current licensees indicates that fewer than 10 of the 133 licensed pounds or animal shelters will be affected by this regulation, and approval to use a conditionally accepted method for those licensees in very small communities will be given serious consideration. No economic impact on other governmental agencies or the general public is anticipated.

Copies of the proposed regulation and the associated economic impact statement may be obtained by contacting the Kansas Animal Health Department.

Department of Revenue

Revenue Ruling 19-1996-1

Issues:

I. Must sales tax be paid on purchases of tangible personal property at retail, where the purchase was made with the proceeds of a local government's industrial revenue bond (IRB) issuance?

II. Must sales tax be paid on "lease payments" made by a company to a local government pursuant to an IRB-related lease agreement?

Relevant Law:

K.S.A. 79-3603(a) and (h)

K.S.A. 79-3606(b) and (d)

K.S.A. 79-3640

K.A.R. 92-19-55

Brief Discussion:

I. If tangible personal property is purchased at retail entirely with the proceeds of an IRB issuance, the transaction is exempted from sales tax. If property is purchased at retail in part with the proceeds of an IRB issuance, the transaction is subject to sales tax. However, for that fraction of the property purchased with IRB proceeds, sales tax may be refunded.

II. Determination of sales tax applicability to "lease payments" by a company to a local government, or a local government's trustee, pursuant to an IRB-related lease agreement will be made on a case-by-case basis. Sales tax will not be collected where 1) the economic reality of the transaction is that the "lease payments" are made in consideration of financing rather than in consideration of a lease or sale of tangible personal property, and 2) the transaction is in fact treated by the company as a loan or financing transaction for federal income tax purposes.

Discussion:

I. Sales Tax on Purchases of Property Utilizing the
Proceeds of an IRB Issuance

If tangible personal property is purchased at retail, whether by a company, a company's contractor, or a trustee in an IRB arrangement, entirely with the proceeds of a local government's IRB issuance, the transaction is exempted from sales tax under K.S.A. 79-3606(d). If such property is purchased at retail in part with the proceeds of a local government's IRB issuance, the transaction is subject to sales tax. However, for that fraction of the property purchased with IRB proceeds, sales tax may be refunded under K.S.A. 79-3640. If tangible personal property is purchased at retail by a local government and such property is intended for resale or for lease to another party, then it is not a sale at retail and no sales tax is imposed under K.S.A. 79-3603.

(continued)

(Published in the Kansas Register August 15, 1996.)

II. Sales Tax on Lease Payments Made Under an IRB-Related Lease Agreement

The determination of whether sales tax must be collected on "lease payments" by a company to a city or county under an IRB arrangement will be made on a case-by-case basis. In each case, the economic reality of the "lease agreement" will first be reviewed to determine whether payments under that particular agreement are made in consideration of a lease or sale of tangible personal property, or are made in consideration of financing. If payments are consideration for a sale or lease by a local government of tangible personal property at retail to a company, then sales tax will be collected in accordance with K.S.A. 79-3603(a) or K.S.A. 79-3603(h), respectively. However, to the extent lease payments are instead simply a financing transaction, no sales tax is imposed under K.S.A. 79-3603.

Several provisions of a lease agreement will be reviewed in determining whether the payments thereunder are in consideration of financing rather than property. These provisions include, but are not limited to, those which establish the company's payment amounts and schedule. Are the payments and terms established in a manner calculated to cover the value of tangible personal property purchased by the company from the local government, or are the payments and terms calculated to ensure the local government's ability to pay maturing principal of, and interest on, IRBs which generate a pool of proceeds used as a source of financing for the company's purchases? Other provisions which will be reviewed include those characterizing the local government's title interest in the property purchased with the proceeds of the revenue bonds. Under the terms of the agreement, does the local government have the benefits and burdens of ownership of the property, or does it hold title in the property only as security for the financing?

In addition to considering the economic reality of the lease agreement, the company's actual treatment of the agreement for federal income tax purposes also will be considered by the department in determining the applicability of sales tax provisions. Department regulation K.A.R. 92-19-55 states that "Except as provided in subsection (k), sales tax shall be imposed on the operation of [a lease or rental] contract, regardless of what the transaction may be called or termed." The exception in subsection (k) states that "Any transaction or series of transactions which is in the form of a lease, but is treated as a loan or financing transaction for federal income tax purposes, shall be treated in a similar manner for sales tax purposes." Therefore, in determining whether lease payments under an IRB lease agreement are a financing arrangement, which would not be subject to sales tax, or a sale or lease, which could be subject to sales tax, the department will consider whether the company treated the lease payments as a loan or financing transaction for federal income tax purposes.

Request for Comments

The Kansas Department of Health and Environment is soliciting comments regarding a proposed air quality general Class I operating permit, which has been developed for natural gas processing plants in accordance with the provisions of K.A.R. 28-19-510 *et seq.* and K.A.R. 28-19-400 *et seq.* Emissions of oxides of nitrogen, sulfur oxides, carbon monoxide, particulate matter with an aerodynamic diameter less than or equal to 10 microns, hydrogen sulfide, volatile organic compounds and hazardous air pollutants were evaluated during the permit review process.

If the proposed general Class I operating permit for natural gas processing plants is issued, a major air emission source which qualifies may submit an application to operate under the terms of the general permit. If KDHE approves the application and authorizes the major source to operate in accordance with the terms of the general permit, then those emission units, emission points and other sources of emissions located at the major source which are specified in the application and which are addressed in the general permit will have satisfied the requirements of Title V of the federal Clean Air Act and the Kansas program approved thereunder.

Authorization to operate under the terms of the general Class I operating permit issued by KDHE will state the name and address of the entity authorized to operate under the terms of the general Class I operating permit; shall include a list of all emission units, emission points and other sources of emissions located at the major source which are authorized to operate under the terms of the general Class I operating permit; and shall specify which provisions of the general permit apply to the various emission units, emission points and other sources of emissions.

Each month the name and location of any major source which has been authorized to operate under the terms of the general Class I operating permit will be published in a newspaper of general circulation in the area within which the major source is located and in the Kansas Register. The notice will solicit comments from interested persons and will state that copies of the permit application, authorization and other supporting documentation regarding the relevant major source will be available for

review at the central office of the Bureau of Air and Radiation and the appropriate district office or local agency. A list of all major sources within the state which are authorized to operate under the terms of the general Class I operating permit will be maintained at the KDHE Topeka offices.

A copy of the proposed general Class I operating permit, proposed permit application and instructions and proposed authorization format is available for public review during normal business hours at the following locations:

- KDHE, Bureau of Air and Radiation, Building 283, Forbes Field, Topeka, 66620; Contact Person: Mike Stewart, (913) 296-1994
- North Central District Office, 2501 Market Place, Suite D, Salina, 67401; Contact Person: Rick Brunetti, (913) 827-9639
- Northeast District Office, 800 W. 24th, Lawrence, 66046; Contact Person: Pat Simpson, (913) 842-4600
- Northwest District Office, 2301 E. 13th, Hays, 67601; Contact Person: Rick Robinson, (913) 625-5663
- South Central District Office, 130 Market, 6th Floor, Wichita, 67202; Contact Person: Dave Butler, (316) 337-6020
- Southeast District Office, 1500 W. 7th, Chanute, 66720; Contact Person: Lynn Ranabargar, (316) 431-2390
- Southwest District Office, 302 W. McArtor Road, Dodge City, 67801; Contact Person: Wayne Neese, (316) 225-0596
- Johnson County Environmental Department, 11180 Thompson Ave., Lenexa, 66219; Contact Person: Mike Boothe, (913) 492-0402
- Wichita-Sedgwick County Department of Health, 1900 E. 9th, Wichita, 67214; Contact Person: John Stark, (316) 268-8449
- Wyandotte County Health Department, 619 Ann Ave., Kansas City, KS 66101; Contact Person: Bruce Andersen, (913) 573-6700

To obtain or review the proposed permit, proposed application forms and instructions, and the proposed authorization format, contact the person listed for the appropriate office. The standard departmental cost will be assessed for any copies requested.

Direct written comments or questions regarding the proposed permit to Mike Stewart, KDHE, Bureau of Radiation (listed above). Written comments must be received by the close of business September 16 in order to be considered in formulating a final permit decision.

A person may request a public hearing be conducted on the proposed permit. The request for a public hearing shall be in writing and set forth the basis for the request. The written request must be submitted to Connie Carreno, KDHE, Bureau of Radiation, not later than the close of business September 16 in order for the Secretary of Health and Environment to consider the request.

(continued)

The United States Environmental Protection Agency has 45 days after receipt of the proposed general Class I operating permit within which to object to the proposed general permit. If the EPA has not objected in writing to the issuance of the general permit within the 45-day review period, any person may petition the administrator of the EPA within 60 days after the expiration of the 45-day review period to make an objection. Any such petition shall be based only on objections to the permit that were raised with reasonable specificity during the public comment period provided for in this notice, unless the petitioner demonstrates that it was impracticable to raise such objections within such period, or unless the grounds for such objection arose after such period.

A copy of the general Class I operating permit, copies of the application forms and instructions, and a copy of the authorization format is being submitted to the EPA simultaneously with publication of this notice. Contact Gary Schlicht, U.S. EPA, Region VII, Air Permitting and Compliance Branch, 726 Minnesota Ave., Kansas City, KS 66101, (913) 551-7097, to determine when the 60-day petition period commences.
