**USDA-Natural Resources
Conservation Service****Notice of Meeting**

The State Technical Committee (STC) will meet from 9 to 11:30 a.m. Wednesday, October 16, at the Holiday Inn, 1616 W. Crawford, Salina, to discuss the Wetland Reserve Program and the Forestry Incentives Program. The STC will initiate subcommittees to work on major topic areas.

As a result of the Federal Agriculture Improvement and Reform Act of 1996 (FAIRA) (1996 Farm Bill), the State Technical Committee was formed to provide leadership and direction within the State of Kansas relating to the specific conservation programs and to provide input and guidance on how conservation programs will be administered.

For more information, contact Dan Lawson, USDA-Natural Resources Conservation Service, 760 S. Broadway, Salina, 67401-4642, (913) 823-4508, fax (913) 823-4540.

**Notice of Commencement of
Negotiations for Engineering Services**

Notice is hereby given of the commencement of negotiations for engineering services for the planning, design and construction administration of the reconstruction of the elevated-deck access driveway at the University of Kansas Medical Center hospital. A structural condition analysis report has been made and is available. The project is to repair and reconstruct the existing drive constructed in the 1970s.

For information regarding the scope of services, contact Tom Doyle, Acting Director, Design and Construction Management, University of Kansas Medical Center, (913) 588-5300.

If interested, an original and six copies of the SF 255 form (plus relevant attachments of information regarding similar projects) should be submitted. These submittals should be concise, relevant to the project and follow the State Building Advisory Commission guidelines for submittal. Copies of the guidelines have previously been distributed to firms; if copies of the guidelines are required, contact Gary Grimes, Division of Architectural Services, 625 Polk, Topeka, 66603, (913) 233-9367. Submittals not complying with the guidelines will be returned without consideration.

Expressions of interest and the SF 255 submittals should be received by Gary Grimes by 5 p.m. October 25.

Request for Comments

The Kansas Department of Health and Environment is soliciting comments regarding a proposed air quality Class II operating permit. Ashland Chemical Company has applied for a Class II operating permit in accordance with the provisions of K.A.R. 28-19-540. Ashland is a chemical distribution facility. Emissions of volatile organic compounds (VOCs) and hazardous air pollutants (HAPs) were evaluated during the permit review process. The purpose of the Class II operating permit is to limit the potential-to-emit (PTE) of VOCs to below 100 tons per year, of any individual HAP to below 10 tons per year, and of total HAPs to below 25 tons per year.

Ashland Chemical Company, Dublin, Ohio, owns and operates the stationary source located at 5420 Speaker Road, Kansas City, Kansas.

A copy of the proposed permit, permit application, all supporting nonconfidential documentation and all information relied upon during the permit application review process is available for public review during normal business hours at the Department of Air Quality, Wyandotte County Health Department, 619 Ann Ave., Kansas City, Kansas, and at the Bureau of Air and Radiation, Kansas Department of Health and Environment, Building 283, Forbes Field, Topeka. To obtain or review the proposed permit and supporting documentation, contact David Orvis at the Wyandotte County Health Department, (913) 573-6700, or Connie Carreno at the Kansas Department of Health and Environment, (913) 296-6422. The standard departmental cost will be assessed for any copies requested.

Direct written comments or questions regarding the proposed permit to David Orvis, Department of Air Quality, Wyandotte County Health Department, 619 Ann Ave., Kansas City, KS 66101. Written comments must be received by the close of business November 12 in order to be considered in formulating a final permit decision.

A person may request a public hearing be conducted on the proposed permit. The request for a public hearing shall be in writing and set forth the basis for the request. The written request must be submitted to Connie Carreno, Bureau of Air and Radiation, Kansas Department of Health and Environment, Building 283, Forbes Field, Topeka, 66620, not later than the close of business November 12 in order for the Secretary of Health and Environment to consider the request.

Public Notice

The Havana Bridge over the Grand River in Gentry County, Missouri, is available for adaptive reuse (NRHP eligible). It is a good example of a Camelback through truss. The bridge is a steel, pin-connected, eleven panel truss built in 1895. It is 160 feet long, 14.9 feet wide and 15 feet high. The party accepting ownership will be responsible for dismantling, transporting and preserving the removed structure.

For further information, contact Mark S. Huck, Harrington & Cortelyou, Inc., 127 W. 10th, Kansas City, MO 64105, (816) 421-8386, by December 16.

Doc. No. 018231

State of Kansas

Social and Rehabilitation Services

Public Notice

The State of Kansas has submitted the Kansas State Plan for Administration of the Block Grant to States for Temporary Assistance for Needy Families (TANF). TANF replaces the federal Aid for Dependent Children (AFDC), Job Opportunities and Basic Skills (JOBS), and Emergency Assistance (EA) programs. TANF will provide assistance to needy families with (or expecting) children and provide parents with job preparation, work and support services to enable them to leave the program and become self-sufficient.

Copies of the plan are available by contacting the Department of Social and Rehabilitation Services at (913) 296-3349. Comments should be sent to the Department of Social and Rehabilitation Services, TANF Plan, Room 651-W, Docking State Office Building, 915 S.W. Harrison, Topeka, 66612. Comments also may be faxed to (913) 296-0146.

Notice of Hearing on Proposed
Administrative Regulations

A public hearing will be conducted at 11 a.m. Monday, December 16, in the SRS Board Room, sixth floor, Docking State Office Building, 915 S.W. Harrison, Topeka, to consider the adoption of an amendment to an existing rule and regulation on a permanent basis, which will be effective 15 days after publication in the Kansas Register. Telephone conference will not be available.

This 60-day notice of the public hearing shall constitute a public comment period for the proposed regulation. All interested parties may submit written comments prior to

or during the public hearing to Hope Burns, Office of the Secretary, Docking State Office Building, Room 603-N, Docking State Office Building, 915 S.W. Harrison, Topeka, 66612. All interested parties will be given a reasonable opportunity to present their views; it may be necessary to request each participant to limit any oral presentation to five minutes. Optional changes in regulations related to federal programs are subject to approval by the U.S. Department of Health and Human Services.

Copies of the regulation and the economic impact statement may be obtained by contacting Hope Burns at (913) 296-3969.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulation and economic impact statement in an accessible format. Requests for accommodation should be made at least five working days in advance of the hearing by contacting Hope Burns or by calling the Kansas Relay Center at 1-800-766-3777.

The adoption of the regulation will take place at 9 a.m. Thursday, December 19, in the SRS executive conference room, 603-N, Docking State Office Building. Telephone conference will not be available.

A summary of the proposed regulation and the economic impact follows:

Article 4.—PUBLIC ASSISTANCE PROGRAM

30-4-50. Assistance eligibility, general. This regulation makes permanent the temporary regulation pertaining to time limits of assistance adopted September 25, 1996. This regulation is amended to deny assistance under the ADC, APW, EA or family GA programs when an adult member has received assistance under one or more of these programs for any 60 calendar months beginning on and after October 1, 1996.

Federal Mandate: The change to affect a time limit is required under the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (Public Law 104-193), which is the new comprehensive federal welfare reform program.

Economic Impact: The change to limit assistance when an adult in the family has received assistance for 60 months has no discernible economic impact at this time. Since no family will lose assistance under this provision until at least five years and it is not possible to determine how families will initially react to this change, no fiscal impact can be determined.

Other Methods: The agency discussed other methods of achieving the purpose of this regulation, but has no authority under Public Law 104-193 to have program provisions contrary to the federal requirement. Failure to comply with the provisions of the law could result in loss of federal dollars of 5 percent of the grant for the assistance program.

Rochelle Chronister
Secretary of Social and
Rehabilitation Services

Department of Transportation

Notice to Consulting Engineering Firms

The Kansas Department of Transportation is seeking qualified consulting engineering firms for the projects listed below. Responses must be received by 5 p.m. October 31 for the consulting engineering firm to be considered. Seven signed copies of the response should be mailed to Neil R. Rusch, P.E., Assistant to the Director, Division of Engineering and Design, Room 1084-West, Docking State Office Building, 915 S.W. Harrison, Topeka, 66612-1568. Responses shall be limited to four pages.

Project No. 635-105 K-4890-01
Wyandotte County

The scope of services is to develop construction plans for surface and shoulder rehabilitation of 3.7 km of I-635 from K-32 north to 0.5 km north of US-24. Fifteen associated bridges with various treatments are included in the project.

Project No. 128-45 K-2098-01
Jewell County

The scope of services is to develop construction plans for the replacement of Oak Creek Bridge 021, 13.81 km south of the Kansas/Nebraska state line.

Project No. 135-87 K-6370-01
Sedgwick County

The scope of services is to develop construction plans for surface and shoulder rehabilitation of 4.7 km of I-135 from the north end of the viaduct north to the 6L/4L divided. Twelve associated bridges with various treatments are included in the project.

Project No. 635-105 K-6371-01
Wyandotte County

The scope of services is to develop construction plans for surface and shoulder rehabilitation of 4.7 km of I-635 from 0.5 km north of US-24 northeast to the Missouri River Bridge. Eight associated bridges with various treatments are included in the project.

Project No. 50-28 K-6374-01
Finney County

The scope of services is to develop construction plans for the reconstruction 16.1 km of US-50 from 1.4 km east of Garden City east and southeast to the Finney County line. The replacement of the Arkansas River Drainage Bridge 003 is included in the project.

From firms expressing interest, the Consultant Selection Committee will select a list of the most highly qualified (not less than three, not more than five) and invite them to attend the individual interview conference. At this time, the consulting firms can more thoroughly discuss their experience related to the type of projects at hand. Firms not selected will be notified by letter.

The Consulting Negotiating Committee, appointed by the Secretary of Transportation, will conduct discussions with the firms invited to the individual interview conference. The committee will select the firm to perform the professional services required for completing the advertised project. After the selection of this firm, the remaining firms will be notified by letter of the outcome.

It is the policy of KDOT to use the following criteria as the basis for selection of the consulting engineering firms:

1. size and professional qualification;
2. experience of staff;
3. location of firm with respect to proposed project;
4. work load of firm; and
5. firm's performance record.

Executive Appointments

Executive appointments made by the Governor, in some cases by other state officials, are filed with the Secretary of State's office. The following appointments, which are effective immediately unless otherwise specified, were recently filed with the Office of the Secretary of State:

Agriculture Advisory Board

Nadine Griffin, 1322 Deer Road, Abilene, 67410. Term expires January 11, 1999. Succeeds Verlyn R. Engler.

Kansas Arts Commission

Burton M. Pell, Pell and Pell, Inc., 3309 E. 13th, Wichita, 67208. Term expires June 30, 2000. Succeeds Jill Warford.

Denice Stephens Morris, 321 S. Denver, El Dorado, 67042. Term expires June 30, 2000. Succeeds Luci Tapanhonso.

Rosalie E. Summers, 916 Club View Drive, Dodge City, 67801. Term expires June 30, 2000. Succeeds Ted Carlson.

State Board of Cosmetology

Glenda Cafer, State Corporation Commission, 1500 S.W. Arrowhead Road, Topeka, 66604. Term expires July 1, 1999. Reappointment.

Sandra Gasser, 11905 W. 67th Terrace, Shawnee Mission, 66203. Term expires July 1, 1999. Succeeds Cindy Martin.

Rogene Handlon, 2835 S.E. Pennsylvania Ave., Topeka, 66605. Term expires July 1, 1999. Ex-officio member; new position.

State Board of Healing Arts

John Gravino, 2716 Palmer, Lawrence, 66047. Term expires June 30, 2000. Reappointment.

Kansas Advisory Committee on Hispanic Affairs

Edmee E. Fernandez, 110 W. 15th, Emporia, 66801. Term expires June 30, 1998. Succeeds Tina Delarosa.

Kansas Humanities Council

Eleanor R. McCoy, 1009 Windsor Road, Chanute, 66720. Term expires June 30, 1999. Succeeds Sally S. Luallen.

Morey Sullivan, 5408 S.W. 12th Terrace, Topeka, 66604. Term expires June 30, 1999. Succeeds Angela Bates.

Carol G. Sweat, Route 2, Box 13, Wallace, 67761. Term expires June 30, 1999. Succeeds Paul Hawkins.

Kansas Law Enforcement Training Commission

Allen Bachelor, 504 Crestwood Road, Salina, 67401. Term expires July 1, 2000. Reappointment.

Ray Classen, 2805 S. Kansas Road, Newton, 67114. Term expires July 1, 2000. Reappointment.

Lee Doehring, 3629 Winchester Drive, Leavenworth, 66048. Term expires July 1, 2000. Reappointment.

Ronald Pickman, 611 Harrison Ave., Goodland, 67735. Term expires July 1, 2000. Reappointment.

Martin Luther King, Jr. Celebration Committee

(Members serve at the pleasure of the Governor.)

Rep. Lisa Benlon, 7303 Earnshaw, Shawnee, 66216. Reappointment.

Ardie Davis, Director of Advocacy, Department on Aging, Docking State Office Building, Room 150-S, 915 S.W. Harrison, Topeka, 66612. Succeeds Delbert Gross.

Laverne Norwood, 1025 New York, Lawrence, 66044. Reappointment.

Linda Ramirez, Department of Human Resources, 401 S.W. Topeka Blvd., Topeka, 66603. Reappointment.

Leo Taylor, Chair, 2632 S.E. Granger, Topeka, 66605. Reappointment.

Ottis Vann, 1975 Hazlett, El Dorado, 67042. Reappointment.

State Examining Committee for Physical Therapy

Michael Chapman, 3104 Rimrock Drive, Lawrence, 66047. Term expires June 30, 2000. Succeeds Jane Mobley.

Joint Committee on State Gaming Compacts

Sen. Mike Harris, 9829 Harvest Court, Wichita, 67212. Appointed by the President of the Senate. Succeeds Sen. Mark Parkinson.

State Board of Technical Professions

Howard H. Depew, Route 1, Box 116A, Benton, 67017. Term expires June 30, 2000. Reappointment.

Arthur Griffiths, 6101 Bella Road, Wichita, 67204. Term expires June 30, 2000. Succeeds Darrell Hammond.

Joseph A. Johnson, Schaefer, Johnson, Cox, Frey & Associates, 220 S. Hillside, Wichita, 67211. Term expires June 30, 2000. Succeeds Joe Carmichael.

F. Glenn Phinney, 8310 Connell, Overland Park, 66212. Term expires June 30, 2000. Succeeds Harry Perry.

Richard Porter, 3309 W. 7th, Reading, 66868. Term expires June 30, 2000. Succeeds Richard Sternadori.

Donald E. Rathbone, 2813 Brad Lane, Manhattan, 66502. Term expires June 30, 2000. Succeeds Fortunato Bonilla.

Terry S. Uhl, 9921 El Monte Lane, Overland Park, 66207. Term expires June 30, 2000. Reappointment.

Kansas Workforce Investment Partnership Council

Jill Crumpacker, P.O. Box 4354, Topeka, 66604. Serves at the pleasure of the Governor. Succeeds Peter R. Latessa.

Secretary of State

Notice of Hearing on Proposed
Administrative Regulations

A public hearing will be conducted at 10 a.m. Thursday, December 12, in the conference room of the Secretary of State's Office, Room 231-N, State Capitol, 300 S.W. 10th Ave., Topeka, to consider proposed Kansas Administrative Regulations pertaining to voter registration. These regulations are proposed for adoption on a permanent basis.

K.A.R. 7-23-2, Registration records: Eliminates the requirement that county election officers keep a file of original registration records alphabetically. Also repeals subsection (c) because it is no longer necessary. This regulation will cause no economic impact on governmental agencies or the general public.

K.A.R. 7-23-4, Notice of places and dates of registration: Clarifies who may apply for voter registration at agencies defined as voter registration agencies by the National Voter Registration Act. Also provides public notice of how and when voters who have changed addresses or names may update their registration records with the county election officer. This regulation will cause no economic impact on governmental agencies or the general public.

K.A.R. 7-23-8 is being revoked. This revocation will cause no economic impact on governmental agencies or the general public.

K.A.R. 7-38-1, National Voter Registration Act; systematic list maintenance; national change of address files: Deals with confirmation mailings pursuant to checks of the national change of address files. Also prescribes requirements for using the national change of address files to update voter registration lists maintained by county election officers. This regulation will cause minimal economic impact on governmental agencies and the general public.

K.A.R. 7-38-2, National Voter Registration Act; reporting requirements: Deals with recordkeeping and reporting requirements. This regulation will cause minimal economic impact on governmental agencies and the general public.

This 60-day notice of public hearing shall constitute a public comment period for the purpose of receiving written public comments on the proposed regulations. Comments may be submitted prior to the hearing to Barb Nemeck, Kansas Administrative Regulations Editor, Office of the Secretary of State, 2nd Floor, State Capitol, 300 S.W. 10th Ave., Topeka, 66612.

All interested parties will be given a reasonable opportunity at the hearing to present their views. It may be necessary to request each participant to limit any oral presentation to five minutes. Any person requiring visual or communication aid or assistance, building access assistance or other similar assistance should contact this office so appropriate arrangements can be made.

Copies of the regulations and the economic impact statement may be obtained at the address above or by calling (913) 296-2114.

(Published in the Kansas Register October 10, 1996.)

Summary Notice of Bond Sale
\$640,000

City of Holcomb, Kansas

General Obligation Sewer Improvement Bonds
Series A, 1996

**(General obligation bonds payable from
unlimited ad valorem taxes)**

Sealed Bids

Subject to the notice of bond sale dated October 2, 1996, sealed bids will be received by the clerk of the City of Holcomb, Kansas (the issuer), on behalf of the governing body at City Hall, P.O. Box 69, Holcomb, KS 67851, until 7:30 p.m. October 23, 1996, for the purchase of \$640,000 principal amount of General Obligation Sewer Improvement Bonds, Series A, 1996. No bid of less than 98.5 percent of the principal amount of the bonds and accrued interest thereon to the date of delivery will be considered.

Bond Details

The bonds will consist of fully registered bonds in the denomination of \$5,000 or any integral multiple thereof. The bonds will be dated October 1, 1996, and will become due on October 1 in the years as follows:

Year	Principal Amount
2002	\$ 25,000
2003	25,000
2004	25,000
2005	105,000
2006	115,000
2007	120,000
2008	225,000

The bonds will bear interest from the date thereof at rates to be determined when the bonds are sold as hereinafter provided, which interest will be payable semiannually on April 1 and October 1 in each year, beginning April 1, 1997.

Paying Agent and Bond Registrar

Kansas State Treasurer, Topeka, Kansas.

Good Faith Deposit

Each bid shall be accompanied by a good faith deposit in the form of a cashier's or certified check drawn on a bank located in the United States of America or a qualified financial surety bond in the amount of \$12,800 (2 percent of the principal amount of the bonds).

Delivery

The issuer will pay for printing the bonds and will deliver the same properly prepared, executed and registered without cost to the successful bidder on or before November 20, 1996, at such bank or trust company in the

(continued)

contiguous United States of America as may be specified by the successful bidder.

Assessed Valuation and Indebtedness

The equalized assessed tangible valuation for computation of bonded debt limitations for the year 1996 is \$5,725,380. The total general obligation indebtedness of the issuer as of the date of delivery of the bonds, including the bonds being sold, is \$2,185,000.

Approval of Bonds

The bonds will be sold subject to the legal opinion of Gilmore & Bell, P.C., Wichita, Kansas, bond counsel, whose approving legal opinion as to the validity of the bonds will be furnished and paid for by the issuer, printed on the bonds and delivered to the successful bidder as and when the bonds are delivered.

Additional Information

Additional information regarding the bonds may be obtained from the clerk, (316) 277-2265, or from the financial advisor, Kenneth E. Smith, 150 N. Parkwood, Wichita, KS 67208, (316) 683-6338.

Dated October 2, 1996.

**Unified School District No. 349
Stafford County, Kansas (Stafford)
General Obligation School Building Bonds
Series 1996**

**(General obligation bonds payable from
unlimited ad valorem taxes)**

Sealed Bids

Subject to the notice of bond sale dated October 10, 1996, sealed bids will be received by the Clerk of Unified School District No. 349, Stafford County, Kansas (Stafford) (the issuer), on behalf of the governing body at the office of the Board of Education, 418 E. Broadway, Stafford, KS 67578, until noon, October 17, 1996, for the purchase of \$3,700,000 principal amount of General Obligation School Building Bonds, Series 1996. No bid of less than 100 percent of the principal amount of the bonds and accrued interest thereon to the date of delivery will be considered.

Bond Details

The bonds will consist of fully registered bonds in the denomination of \$5,000 or any integral multiple thereof. The bonds will be dated October 15, 1996, and will become due on September 1 in the years as follows:

Year	Principal Amount
1998	\$ 75,000
1999	120,000
2000	125,000
2001	135,000
2002	145,000
2003	150,000
2004	160,000

2005	170,000
2006	180,000

2009	210,000
2010	220,000
2011	235,000
2012	245,000
2013	260,000
2014	275,000
2015	295,000
2016	310,000

The bonds will bear interest from the date thereof at rates to be determined when the bonds are sold as hereinafter provided, which interest will be payable semiannually on March 1 and September 1 in each year, beginning March 1, 1997.

Paying Agent and Bond Registrar

Kansas State Treasurer, Topeka, Kansas.

Good Faith Deposit

Each bid shall be accompanied by a good faith deposit in the form of a cashier's or certified check drawn on a bank located in the United States of America or a qualified financial surety bond in the amount of \$74,000 (2 percent of the principal amount of the bonds).

Delivery

The issuer will pay for printing the bonds and will deliver the same properly prepared, executed and registered without cost to the successful bidder on or before November 13, 1996, at such bank or trust company in the contiguous United States of America as may be specified by the successful bidder.

Assessed Valuation and Indebtedness

The equalized assessed tangible valuation for computation of bonded debt limitations for the year 1996 is \$14,007,467. The total general obligation indebtedness of the issuer as of the date of delivery of the bonds, including the bonds being sold but excluding temporary notes to be retired in conjunction therewith, is \$3,700,000.

Approval of Bonds

The bonds will be sold subject to the legal opinion of Gilmore & Bell, P.C., Wichita, Kansas, bond counsel, whose approving legal opinion as to the validity of the bonds will be furnished and paid for by the issuer, printed on the bonds and delivered to the successful bidder as and when the bonds are delivered.

Additional Information

Additional information regarding the bonds may be obtained from the clerk, (316) 234-5255, or from the financial advisor, Ranson & Associates, Inc., 250 N. Rock Road, Suite 150, Wichita, KS 67206-2241, Attention: Stephen E. Shogren, 1-800-345-2363.

Dated October 10, 1996.

(Published in the Kansas Register October 10, 1996.)

Summary Notice of Bond Sale
\$426,500

Jackson County, Kansas
General Obligation Bonds, Series 1996A
(General obligation bonds payable from
unlimited ad valorem taxes)

40,000

2005

40,000

2006

Payment of Principal and Interest

The Kansas State Treasurer will serve as the bond registrar and paying agent for the bonds, and the principal of the bonds will be payable upon surrender at the paying agent's principal offices in the City of Topeka, Kansas. Interest will be paid by the mailing of a check or draft of the paying agent to the registered owners of the bonds.

Security for the Bonds

The bonds and the interest thereon will constitute general obligations of the county, and the full faith, credit and resources of the county will be pledged to the payment thereof. The county is obligated to levy ad valorem taxes without limitation as to rate or amount upon all of the taxable tangible property within the territorial limits of the county for the purpose of paying the bonds and the interest thereon.

Delivery of the Bonds

The bonds, duly printed, executed and registered, will be furnished and delivered at the expense of the county to the successful bidder, or at its direction, on or before November 10, 1996, at such bank or trust company or other qualified depository in the State of Kansas or Kansas City, Missouri, as may be specified by the successful bidder. Delivery elsewhere will be made at the expense of the successful bidder.

Legal Opinion

The bonds will be sold subject to the legal opinion of Jonathan P. Small, Chartered, Topeka, Kansas, bond counsel, whose fees will be paid by the county. Bond counsel's approving legal opinion as to the validity of the bonds will be printed on the bonds and will be delivered to the successful bidder upon delivery of the bonds. (Reference is made to the official notice of bond sale for a discussion of tax exemption and other legal matters.)

Financial Matters

The county's 1996 equalized assessed tangible valuation for computation of bonded debt limitations is \$59,747,317. The county's outstanding general obligation bonded indebtedness as of the date hereof totals the principal amount of \$1,502,332, which includes the bonds described herein and temporary notes in the principal amount of \$110,832, which will be paid off from the proceeds of the bonds described herein.

Additional Information

For additional information regarding the county, the bonds and the public sale, interested parties are invited to request copies of the complete official notice of bond sale, and the official bid form, all of which may be obtained from the county clerk at the address and telephone number shown below.

Dated October 10, 1996.

 Fax (913) 364-4202

Doc. No. 018254

Bond Sale Particulars

Subject to the terms and conditions of the complete official notice of bond sale dated October 10, 1996, of Jackson County, Kansas, in connection with the issuance of the county's General Obligation Bonds, Series 1996A, as hereinafter described, sealed, written bids will be received at the office of the county clerk at the Jackson County Courthouse, 400 New York St., Holton, KS 66436, until 11 a.m. October 21, 1996, for the purchase of the bonds. All bids will be publicly opened, read aloud and tabulated on said date and at said time and will thereafter be immediately considered and acted upon by the governing body of the county.

No oral or auction bids for the bonds will be considered, and no bids for less than the entire series of bonds will be considered.

Bids will be accepted only on the official bid form which has been prepared for the public bidding on these bonds, and which may be obtained from the county clerk. Bids may be submitted by mail or may be delivered in person, and must be received at the place and not later than the date and time hereinafter specified. Each bid must be accompanied by a good faith deposit in the form of a certified or cashier's check drawn on a bank located within the United States, made payable to the order of the county, and which must be in an amount equal to 2 percent of the principal amount of the bonds.

Details of the Bonds

The aggregate principal amount of the bonds is \$426,500. The bonds will be dated as of October 1, 1996, and will be issued as fully registered bonds in the denomination of \$5,000, except for one bond maturing in 1997 in the denomination of \$6,500, or integral multiples in excess thereof not exceeding the principal amount of bonds maturing in any year. The bonds will bear interest, payable as hereinafter set forth, at the rates specified by the successful bidder for the bonds. Certain of the bonds are subject to redemption prior to their maturities as provided in the complete official notice of bond sale.

Interest on the bonds will be payable semiannually on April 1 and October 1 in each year, commencing April 1, 1997, and the bonds will mature serially on October 1 in each of the years and principal amounts as follows:

Principal Amount	Maturity Date
\$46,500	1997
45,000	1998
45,000	1999
45,000	2000
45,000	2001
40,000	2002
40,000	2003
40,000	2004

Request for Comments

The Kansas Department of Health and Environment is soliciting comments regarding a proposed air quality operating permit. Lies Ready Mix has applied for a Class II operating permit in accordance with the provisions of K.A.R. 28-19-540. Emissions of PM-10 were evaluated during the permit review process. The purpose of a Class II permit is to limit the potential-to-emit for these pollutants to below major source thresholds.

Lies Ready Mix, Wichita, owns and operates a portable concrete batching facility.

A copy of the proposed permit, permit application, all supporting nonconfidential documentation and all information relied upon during the permit application review process is available for public review during normal business hours at the KDHE, Bureau of Air and Radiation, Building 283, Forbes Field, Topeka, and at the Wichita-Sedgwick County Department of Community Health, 1900 E. 9th, Wichita. To obtain or review the proposed permit and supporting documentation, contact Cheryl Evans, (913) 296-6438, at the KDHE central office, or Fred Spencer, (316) 268-8448, at the Wichita-Sedgwick County Department of Community Health. The standard departmental cost will be assessed for any copies requested.

Direct written comments or questions regarding the proposed permit to Cheryl Evans, KDHE, Bureau of Air and Radiation, Building 283, Forbes Field, Topeka, 66620. Written comments must be received by the close of business November 12 in order to be considered in formulating a final permit decision.

A person may request a public hearing be conducted on the proposed permit. The request for a public hearing

shall be in writing and set forth the basis for the request. The written request must be submitted to Connie Carreno, Bureau of Air and Radiation, not later than the close of business November 12 in order for the Secretary of Health and Environment to consider the request.

12,500,001 to 15,000,000	2,300.00
15,000,001 to 17,500,000	2,475.00
17,500,001 to 20,000,000	2,645.00
Over 20,000,000 bushels	add \$ 290.00

for each 2,500,000 bushels or fraction thereof

(b) The charge for amending a warehouse license shall be \$100.00.

(c) The charges for each special or requested examination of a warehouse shall be:

(1) \$30.00 per hour for each examiner with a minimum of four hours shall be charged;

(2) subsistence expenses for each examiner; and

(3) mileage expenses which shall be charged, per mile driven, at the rate per mile determined by the secretary of administration pursuant to K.S.A. 75-4607 or amendments thereto.

(d) The license fee shall be the applicable amount shown in the fee schedule plus \$350 for each functional unit. (Authorized by and implementing K.S.A. 34-228, as amended by 1996 House Bill 2641; effective, E-67-18, Sept. 13, 1967; effective Jan. 1, 1968; amended, E-69-7, May 28, 1969; amended Jan. 1, 1970; amended May 1, 1982; amended May 1, 1985; amended May 1, 1986; amended May 1, 1987; amended, T-88-16, July 1, 1987; amended May 1, 1988; amended Oct. 22, 1990; amended March 23, 1992; amended June 7, 1996; amended Oct. 25, 1996.)

Gary M. Bothwell
Director

Doc. No. 018242

State of Kansas

State Corporation Commission

Permanent Administrative
RegulationsArticle 3.—PRODUCTION AND
CONSERVATION OF OIL AND GAS

82-3-101. Definitions. (a) As used in these regulations:

(1) "Acreage factor" means the quotient obtained by dividing the acreage attributable to a well by the basic acreage unit. The basic acreage unit shall be defined by the commission or as promulgated in the basic proration order for the common source of supply in which the well is located.

(2) "Allowable" means the amount of oil or gas authorized to be produced by order of the commission.

(3) "Allowable period" means the time in which the allowable may be produced.

(4) "Alternate cementing materials" means materials used in lieu of portland cement blends, as prescribed by commission order, dated March 29, 1985, Docket No. 34,780-C (C-1825).

(5) "Artesian pressure" means groundwater under sufficient hydrostatic head to rise above the rock unit containing the aquifer.

(6) "Assessment" means any charge against the parties involved in any hearing, application, investigation, or the enforcement of an order, and the assessment on natural gas and oil produced to pay the costs associated with the administration of the oil or gas conservation act.

(7) "Attributable acreage" means the acreage assigned to a well in accordance with the well spacing program for each of the prorated fields.

(8) "Burn pit" means a surface pond used for the temporary confinement of oil leakage at a lease site or of materials commonly known as tank bottoms, basic sediment, bottom sediment, bottom settlings, or paraffin, for the purpose of burning such contents.

(9) "Casing" means tubular materials used to line a well bore.

(10) "Casing-head gas" means gas produced that was in solution with oil in its original state in the reservoir.

(11) "Cement" means portland cement or a blend of portland cement used in the oil and gas industry to support and protect casing and to prevent the migration of subsurface fluids by the formation of an impermeable barrier.

(12) "Course ground bentonite" means a non-treated swelling sodium montmorillonite which exhibits the following properties:

(A) a moisture content between 13 and 17 percent by dry weight;

(B) a clay aggregate particle size between $\frac{3}{8}$ and $\frac{7}{8}$ of an inch;

(C) a PH of 9 or less; and

(D) an inert solid percentage of less than 0.15 percent.

(13) "Combination well" means a well that produces both oil and gas, excluding casing-head gas, from the same common source of supply.

(14) "Commingling" means the mixing of production from more than one common source of supply.

(15) "Commission" means the state corporation commission.

(16) "Common source of supply" means each geographic area or horizon definitely separated from any other area or horizon which contains, or appears to contain, a common accumulation of oil, gas or both.

(17) "Confining layer" means a formation which serves as a barrier between water, oil or gas bearing formations.

(18) "Conservation division" means the division of the commission in charge of the administration of the oil and gas conservation acts, the protection of fresh and usable water, well plugging, salt water disposal, enhanced recovery and surface ponds.

(19) "Core" means a continuous section of formation recovered during drilling.

(20) "Core hole" means a hole drilled with the intention of collection of geologic information by the recovery of cores.

(21) "Correlative rights" means the privilege of each owner or producer in a common source of supply to produce from that supply only in a manner or amount that will not:

(A) Injure the reservoir to the detriment of others;
(B) take an undue proportion of the obtainable oil or gas; or

(C) cause undue drainage between developed leases.

(22) "Day" means a period of 24 consecutive hours.

(23) "Deliverability" means the amount of natural gas, expressed in Mcf per day, which a well is capable of producing into a pipeline, while maintaining a back-pressure against the well head. The amount of back-pressure to be maintained and the test procedure shall be specified by the commission in the basic proration order for the common source of supply in which the well is located.

(24) "Department" means the Kansas department of health and environment.

(25) "Dike" means a permanent structure constructed at or above the surface of the earth totally enclosing production facilities or lease equipment which is used to temporarily contain fluids resulting from oil and gas activities and which were discharged as a result of unforeseen circumstances.

(26) "Director" means the director of the conservation division of the commission.

(27) "Discovery well" means the first well completed in a common source of supply which is not in communication with any other common source of supply.

(28) "Disposal well" means a well into which those fluids brought to the surface in connection with oil and natural gas production are injected, for purposes other than enhanced recovery.

(29) "Division order" means a dated, written statement, duly signed by the owners and delivered to the purchasers, certifying and guaranteeing the interests of ownership of production and directing payment according to those interests.

(30) "Drilling time log" is the chronological tabulation or plotting of the rate of penetration of subsurface rocks by the rotary bit.

(31) "Emergency pit" means a surface pond used to temporarily contain fluids resulting from oil and gas ac-

tivities which were discharged as a result of unforeseen and unavoidable circumstances.

(32) "Enhanced recovery" means any process involving the injection of fluids into a pool to increase the recovery of oil or gas.

(33) "Enhanced recovery injection well" means a well into which fluids are injected to increase the recovery of hydrocarbons.

(34) "Exploratory hole" means a hole drilled for the purpose of obtaining geological information in connection with the exploration for or production of oil or gas.

(35) "Field" means a geographic area containing one or more pools.

(36) "First purchaser" means the person holding the division order and issuing checks to pay any working or royalty interest.

(37) "Fluid" means a material or substance which flows or moves in a semi-solid, liquid, sludge, or gas state.

(38) "Freshwater" means water containing not more than 1,000 milligrams of total dissolved solids per liter. This upper limit is approximately equivalent to 1,000 parts of salt per million or 500 parts of chlorides per million.

(39) "Gas" means the gas obtained from gas or combination wells, regardless of its chemical analysis.

(40) "Gas" (cubic foot) means the volume of gas contained in one cubic foot of space at a standard pressure base and at a standard temperature base. The standard pressure base shall be 14.65 pounds per square inch absolute, and the standard temperature base shall be 60 degrees Fahrenheit.

(41) "Gas-oil ratio" means the ratio of gas produced, in cubic feet, to one barrel of oil produced during the concurrent period.

(42) "Gas" (sour) means any natural gas containing more than 1½ grains of hydrogen sulfide per 100 cubic feet or more than 30 grains of total sulphur per 100 cubic feet, or gas which is found by the commission to be unfit for sale due to its hydrogen sulfide content.

(43) "Gas well" means a well that:

(A) produces gas not associated with oil at the time of production from the reservoir; or

(B) produces more than 15,000 standard cubic feet of gas to each stock tank barrel of oil from the same common source of supply, as measured by the gas-oil ratio test prescribed by and reported on the form prescribed and furnished by the commission.

(44) "Hardship well" means a well authorized by commission order to produce at a specified rate because reasonable cause exists to expect that production below the specified rate would damage the well and cause waste.

(45) "Illegal production" means any production in violation of the statutes, rules, regulations or orders of the commission.

(46) "Liquid" means a solution or substance, excluding gas, which flows freely at standard temperature and pressure.

(47) "Minimum well" means any oil well which has a productivity of 25 barrels or less per day.

(continued)

- (48) "Mousehole" means a service hole drilled at a slight angle and normally about 30 feet deep on those wells drilled by rotary tools.
- (49) "Mud-laden fluid," as the term is commonly used in the industry, means any commission-approved mixture of water and clay or other material which will effectively seal a formation to which it is applied.
- (50) "Multiple completion" means the completion of any well so as to permit production from two or more common sources of supply with the common sources of supply completely segregated.
- (51) "Oil" (crude) means any petroleum hydrocarbon which is produced from a well in liquid phase and which existed in a liquid phase in the reservoir.
- (52) "Oil" (pipeline) means oil free from water and basic sediment to the degree that it is acceptable for pipeline transportation and refinery use.
- (53) "Oil well" means a well that produced one stock tank barrel or more of crude oil to each 15,000 standard cubic feet of gas, as measured by the gas-oil ratio test prescribed by and reported on the form prescribed and furnished by the commission.
- (54) "Open flow" means the volume of gas which a gas well is capable of producing at the wellhead during a period of 24 hours against atmospheric pressure, computed according to the standard procedure approved by the commission.
- (55) "Overage" or "overproduction" means the oil or gas produced in excess of the allowable.
- (56) "Person" means any natural person, corporation, association, partnership, governmental or political subdivision, receiver, trustee, guardian, executor, administrator, fiduciary, or any other legal entity.
- (57) "Pipeline" means any pipes above or below the ground used or to be used for the transportation of oil, gas, or liquids.
- (58) "Pool" means a single and separate natural reservoir of oil or gas characterized by a single pressure system.
- (59) "Producer" means any person who owns, in whole or in part, a well capable of producing oil or gas or both.
- (60) "Production" means produced oil, gas, condensate, or casing-head gas.
- (61) "Productivity of a well" means the daily capacity of a well to produce oil or gas.
- (62) "Productivity of a pool" means the sum of the productivities of the wells completed in the pool.
- (63) "Proration" means the regulation of the amount of allowed production to prevent waste, undue drainage between developed leases, unratable taking, or unreasonable discrimination between operators, producers and royalty owners who are within a common source of supply, that would favor any one pool as compared to any other pool in this state.
- (64) "Purchaser" means any person who purchases production from a well, lease or common source of supply.
- (65) "Rathole" means the service hole drilled at a slight angle and normally about 40 feet deep on those wells drilled by rotary tools.
- (66) "Reasonable market demand" means the amount of crude petroleum or natural gas which must be produced to satisfy current rates of consumption.
- (67) "Recompletion" means that when a well is reworked for the purpose of developing new zones after its initial well completion.
- (68) "Reserve pit" means a surface pond used to store spent drilling fluids and cuttings transferred from working pits.
- (69) "Seismic shot hole" means the bore hole in which an explosive is detonated for the purpose of generating a seismic signal.
- (70) "Sensitive groundwater area" means a geographic area designated by the commission as having hydrogeologic, climatic, soil and other characteristics that make the area's fresh and usable groundwater vulnerable to pollution from oil and gas activities.
- (71) "Service well" means a well drilled for:
- (A) The injection of fluids in enhanced recovery projects;
 - (B) the supply of fluids for enhanced recovery projects; or
 - (C) the disposal of salt water.
- (72) "Shortage" means the amount by which the oil or gas legally produced and sold or removed from the premise is less than the allowable.
- (73) "Solid" means a material or substance which does not flow freely at standard temperature and pressure.
- (74) "Special order" means an order which is directed to specifically named persons or to a group which does not constitute a general class and which is dispositive of a particular matter as applied to a specific set of facts.
- (75) "Spill" means any escape of salt water, oil, or refuse by overflow, seepage or otherwise from the vicinity of wells, tanks, pipelines, dikes or surface ponds involved in the exploration for and gathering of oil and gas and the drilling, production, lease storage, treatment, abandonment and postabandonment of oil and gas wells.
- (76) "Spud date" means the date of first actual penetration of the earth with a drilling bit.
- (77) "Storage oil" means produced oil confined in tanks, reservoirs, or containers.
- (78) "Storage oil-lease" means produced oil in tanks, reservoirs, or containers on the lease where it was produced.
- (79) "Storage well" means a well used to inject or extract natural gas for storage purposes.
- (80) "Stratigraphic hole" means a hole, normally of small diameter, drilled through subsurface strata for exploratory purposes, with no intent to produce hydrocarbons through the hole being drilled and does not utilize a detonated explosive for generating a seismic signal.
- (81) "Surface casing" is the first casing put in a well which is cemented into place. It serves to shut out shallow water formations. It also acts as a foundation or anchor for all subsequent drilling activity. For purposes of compliance with K.A.R. 82-3-106, additional strings of casing, which are set and cemented in a well bore below the lowest fresh and usable water strata, shall be deemed to be surface casing.
- (82) "Surface pond" means any constructed, excavated or naturally occurring depression upon the surface of the earth.

(83) "Tertiary recovery process" means the process or processes described in K.S.A. 1994 Supp. 79-4217.

(84) "Treatment pit" means a surface pond used for the collection or treatment of fluids resulting from oil and gas activities.

(85) "Undue drainage" means the uncompensated migration of either oil or gas between developed leases within the same common source of supply caused by the unratable production of some well or wells located there.

(86) "Usable water" means water containing not more than 10,000 milligrams of total dissolved solids per liter. This upper limit is approximately equivalent to 10,000 parts of salt per million or 5,000 parts of chlorides per million.

(87) "Waste oil" means any tank bottom, basic sediment, cut oil, reclaimed oil from pits, ponds or streams, dead oil, emulsions, or other types of oil not defined as pipeline oil.

(88) "Waterflood" means the process of injecting fluids into one or more wells to enhance the recovery of oil.

(89) "Wellhead working pressure" means the static pressure in the annulus while flowing through the tubing, or static pressure in the tubing while flowing through the annulus, except in cases where the casinghead is not in open communication with the producing formation because of the presence of a packer or other obstruction in the annular space between casing and tubing. In these cases, the wellhead working pressure shall be determined by adjusting the observed tubing pressure for the effect of friction caused by flow through the tubing, or by using a bottom-hole pressure bomb and correcting back to wellhead conditions.

(90) "Well log" means the written record progressively describing the well's down-hole development.

(91) "Well history" means the chronological record of the development and completion of a well.

(92) "Working pit" means a surface pond used to temporarily confine fluids or refuse resulting from oil and gas activities during the drilling or completion of any oil, gas, exploratory, service or storage well.

(93) "Workover pit" means a surface pond used to contain fluids during the performance of remedial operations on a well at any time after its initial completion.

(b) Any term not defined in this definitional section shall be interpreted to be consistent with its common use in the industry or as set forth in K.A.R. 82-3-700 for cathodic protection boreholes. (Authorized by and implementing K.S.A. 55-152, 55-171, 55-172, K.S.A. 55-602, 55-704, K.S.A. 55-604, 55-901, 74-623; effective, T-83-44, Dec. 8, 1982; effective May 1, 1983; amended, T-84-19, July 26, 1983; amended May 1, 1984; amended May 1, 1985; amended May 1, 1986; amended, T-87-46, Dec. 19, 1986; amended May 1, 1987; amended May 1, 1988; amended May 8, 1989; amended April 23, 1990; amended July 29, 1991; amended March 20, 1995; amended Oct. 25, 1996.)

82-3-103. Notice of intention to drill; penalty. (a)

(1) Unless otherwise provided by K.A.R. 82-3-115a, or K.A.R. 82-3-701, the owner, operator, or any other person responsible for a drilling operation shall submit written notice of the intention to drill to the conservation division for permit approval before the commencement of drilling operations for:

(A) Exploratory holes;
(B) a well to be drilled for the discovery or production of oil, gas or other minerals, including reentry of a previously plugged and abandoned well;

(C) a service well;

(D) a storage well; or

(E) a stratigraphic or core hole.

(2) Time for filing. The applicant shall file the notice with the conservation division at least five days before any drilling is commenced.

(3) Form and contents. The notice shall be on a form prescribed by the commission. The notice shall be filled in completely and signed by the person providing the notice. The notice shall contain the following:

(A) The operator's name, address, and commission license number;

(B) the contractor's name, address, and commission license number;

(C) the date on which drilling is anticipated to begin;

(D) the lease name, quarter section, section, township, range, county, and the distance of the proposed drilling location from the section's nearest corner, in exact footages;

(E) the distance to the nearest lease or unit boundary line;

(F) the estimated total depth of the well;

(G) the type of drilling equipment to be used;

(H) the depth to the bottom of the deepest freshwater at the drill site;

(I) the depth to the bottom of the deepest usable water formation at the drill site;

(J) for each exploratory hole, the estimated depth to water in each hole and to the top of the uppermost confined aquifer;

(K) for each well to be drilled into a common source of supply subject to a basic proration order of the commission, a plat map showing that the well will be properly located in relationship to other wells producing from the common source of supply, both within the area subject to proration and within one mile of the boundaries of the prorated area for gas wells and within one-half mile of the boundaries of the prorated area for oil wells;

(L) for each well to be drilled in locations not subject to a basic proration order, a plat map showing the well location; and

(M) any other information which may be requested by the commission.

(b) District office notification. Before spudding the well, the operator shall notify the appropriate district office. Failure to notify the appropriate district office before spudding the well shall be punishable by a penalty of not less than \$250 and not more than \$1000.

(c) Surface casing, cementing. The conservation division shall give surface casing and cementing requirements to the operator along with the approved notice of the intention to drill. Unless otherwise provided, inadequate installation of or failure to install surface casing or failure to complete alternate II cementing pursuant to K.A.R. 82-3-106 shall each be punishable by a penalty of up to \$5000.

(continued)

(d) Commencement of drilling. Drilling shall not commence until after commission approval has been received. The operator shall post a copy of the approved notice of intent to drill on each drilling rig. Drilling without an approved notice of intent to drill shall be punishable by a \$1000 penalty.

(e) Plugging instructions. The conservation division shall give preliminary plugging instructions to the operator along with the approved notice of intention to drill.

(f) Expiration of approval. The approval of the notice of intent to drill shall expire six months from the date of approval.

(g) Extension. A six-month extension of the approval may be granted by the director if a written request is filed with the conservation division before the expiration date of the notice of intention to drill. Only one six-month extension shall be granted.

(h) Division of water resources information. The operator may be required by the commission to designate on the written notice of intention to drill, the source of drilling water and the vested right or permit file number assigned by the division of water resources of the state board of agriculture. (Authorized by K.S.A. 55-152; implementing K.S.A. 55-151, 55-152, 55-164; effective, T-83-44, Dec. 8, 1982; effective May 1, 1983; amended May 1, 1985; amended May 1, 1987; amended May 1, 1988; amended April 23, 1990; amended Feb. 24, 1992; amended March 20, 1995; amended Oct. 25, 1996.)

82-3-700. Definitions. (a) As used in these regulations for cathodic protection facilities:

(1) "Annular space" means the space between the surface casing and the borewall or the space between two or more strings of surface casing in a cathodic protection borehole.

(2) "Aquifer" means any geologic formation capable of yielding water in sufficient quantities that it can be diverted for beneficial use.

(3) "Aquifer completion" means a cathodic protection borehole that is installed in an aquifer.

(4) "Bedrock" means shale, limestone, sandstone, siltstone, anhydrite, gypsum, salt or other consolidated rock material that may occur at the surface, or underlie unconsolidated material.

(5) "Bentonite cement" means a mixture weighing not less than 14.1 pounds per gallon consisting of fresh water, Portland cement and four to eight percent of sodium bentonite clay additive or an equivalent as approved by the Director.

(6) "Bentonite clay grout" means a mixture weighing not less than 9.4 pounds per gallon consisting of fresh water and commercial grouting or plugging sodium bentonite clay containing high solids such as those manufactured under the trade name of "Volclay grout or Hole-Plug" or an equivalent as approved by the Director.

(7) "Cathodic protection borehole" means any excavation penetrating the water table of an aquifer that is drilled, cored, bored, washed, driven, dug, or otherwise constructed for the intended use or purpose of installing equipment to prevent electrolytic corrosion of metallic equipment or facilities.

(8) "Cathodic surface casing" means the first nonmetallic casing put in a cathodic protection borehole with

the annular space grouted from the bottom of the cathodic surface casing to land surface which serves to shut out shallow water formations and also acts as a foundation or anchor for all subsequent drilling activity.

(9) "Concrete" means a mixture consisting of one 94 pound bag of Portland cement and an equal volume of sand having a grain size diameter not larger than 0.080 inches to five or six gallons of fresh water.

(10) "Groundwater management district (GMD)" means a continuous area which overlies one or more aquifers, together with any area in between, which is organized for groundwater management purposes, pursuant to K.S.A. 82-9-1020 et seq.

(11) "Grout" means concrete, neat cement, bentonite clay grout, bentonite cement or other material approved by the Director that is used to create a permanent impervious watertight bond.

(12) "Multiple aquifer completion" means a cathodic protection borehole that penetrates more than one aquifer as established by the KCC.

(13) "Neat cement" means a mixture consisting of one 94 pound bag of Portland cement and five or six gallons of fresh water.

(14) "Pitless casing adapter" means a non-metallic assembly of parts installed in the cathodic surface casing to permit the installation of a conduit through the wall of the cathodic surface casing and sealed (including cables) to prevent the entrance of any fluids or contaminants. (Authorized by and implementing K.S.A. 55-152; effective Oct. 25, 1996.)

82-3-701. Intent to drill cathodic protection boreholes; notification; penalty; exemption. (a) Except as set forth in section (b) or (g) of this regulation, each owner, operator, or persons responsible for drilling a cathodic protection borehole shall submit written notice of the intention to drill to the conservation division for permit approval before the commencement of drilling operations.

(1) Time for filing. The applicant shall file the notice with the conservation division at least 60 days before any drilling is commenced.

(2) Form and contents. The notice shall be on a form prescribed by the commission. The notice shall be filled in completely and signed by the operator or the operator's agent. The notice shall contain the following:

(A) The name and address of the owner and, if different from the owner, the operator, and operator license number;

(B) the date on which drilling is anticipated to begin;

(C) the well name or number designation, quarter section, section, range, township, county and the distance of the proposed drilling location from the section's nearest corner, in exact footage;

(D) the estimated total depth of the borehole;

(E) the type of drilling equipment to be used;

(F) the depth to the bottom of the deepest freshwater at the drill site;

(G) the depth to the bottom of any usable water formation at the drill site;

(H) requirements for surface ponds, application, closure;

(i) at the time the intent to drill is filed, the operator, owner, or agent of the owner shall notify the conservation

division of the surface pond planned for construction; and

(ii) the operator shall submit an application for surface pond and pit closure form, if the proposed cathodic protection borehole will penetrate a mineralized aquifer or known pollution site; and

(I) any other information requested by the commission.

(b) Each owner, operator, or persons responsible for drilling a cathodic protection borehole within the boundaries of the equus beds groundwater management district #2 and the big bend groundwater management district #5, shall not be subject to K.A.R. 82-3-701, and shall apply for directly with the appropriate groundwater management district and obtain a permit to drill and construct a cathodic protection borehole. The application shall be on the appropriate groundwater management district's forms, in accordance with its standards and policies.

(c) Each groundwater management district shall submit copies of every cathodic protection borehole application upon which action has been taken under (b) to the production department of the conservation division.

(d) District office notification. Before drilling a cathodic protection borehole, the operator shall notify the appropriate district office.

(e) Emergency situations. Except in areas described under (b) of this regulation, the applicant may submit written requests to the director of the conservation division for exception to the 60-day intention to drill filing period in emergency situations. Such requests shall document why the emergency exists.

(f) Drilling cathodic protection boreholes without an approved notice of intent or without being granted an exception shall be punishable by a penalty of up to \$1,000.00.

(g) Exemption. No permit shall be required for distributed anode systems, shallow "single bell hole" galvanic anode systems or individual anode installation systems that are less than 25 feet in depth or do not penetrate an aquifer. (Authorized by and implementing K.S.A. 55-152; effective Oct. 25, 1996.)

82-3-702. Construction of cathodic protection boreholes, measurements, logging, reports, penalty. (a) Except as set forth in section (b) each owner, operator or persons responsible for the construction of a cathodic protection borehole shall use a driller who is licensed by the commission under K.S.A. 55-155 or a water well contractor licensed by the Kansas department of health and environment under K.S.A. 82a-1201 et seq.

(b) Each owner, operator, or persons responsible for the construction of a cathodic protection borehole located in groundwater management district #2 or groundwater management district #5 shall be subject to the appropriate groundwater management district's standards and policies, and shall be exempt from this regulation.

(c) In other areas the operator shall construct cathodic protection boreholes in the following manner.

(1) Total depths of borehole and the bottom of the cathodic surface casing shall not exceed the depth permitted on the approved intention to drill.

(2) The diameter of the borehole for cathodic surface casing installation shall be at least six inches larger than the nominal diameter of the cathodic surface casing.

(3) In aquifer completions, cathodic surface casing shall extend from the surface to 20 feet below the top of the aquifer.

(4) In multiple aquifer completions, the cathodic surface casing shall extend from the land surface through the aquifers and 20 feet into shale or other impermeable bedrock.

(5) Exceptions to the surface casing depth requirements may be granted by the director of the conservation division upon written request.

(6) All cathodic surface casing shall be non-metallic and shall have a standard dimension ration (SDR) of 26 or less. The SDR shall be calculated by dividing the cathodic surface casing's outside diameter (OD) by its minimum wall thickness (MWT) ($SDR = OD/MWT$), as prescribed by the American society for testing and materials (ASTM) standard F-480.

(7) The operator shall install centralizers along the entire length of the cathodic surface casing at intervals of not greater than 40 feet, starting at the bottom of the casing.

(8) The operator shall grout the annular space by either using a tremie pipe or by following the instructions of individual grout manufacturers. The grout shall be allowed to set undisturbed for at least 24 hours, or for the length of time recommended by individual grout manufacturer's instructions. Any variation shall be subject to commission approval. Bentonite clay grout shall not be used where a mineralized aquifer or aquifers transect the borehole.

(9) The operator shall not make any openings through the cathodic surface casing, except for the installation of a pitless type casing adapter.

(10) The operator shall not use products designed for drilling purposes that contain organic polymers either as drilling mud or grout.

(11) The operator shall install anodes and anode conductors in the borehole beginning at least five feet below the bottom of the cathodic surface casing.

(d) Depth measurement. The operator shall measure each borehole to determine the cathodic surface casing depth and the total depth of the borehole. The operator shall record each measurement.

(e) Logging. The operator shall log each cathodic protection borehole as follows:

(1) The operator shall collect and record drill cuttings at intervals not greater than five feet and more frequently, if needed to produce an accurate lithologic or driller's log of the entire borehole; and

(2) the operator shall record any electrical surveys, logs, or other geophysical readings of the borehole and make them a part of the permanent record.

(f) Final report. The operator shall submit a final completion report within 60 days of start date to the production department of the conservation division. The report shall include all electrical or geophysical readings or logs, as required by the commission.

(g) Penalty.

(1) Failure to construct a cathodic protection borehole in accordance with these regulations shall be punishable of up to \$2500.

(continued)

(2) Failure to submit the final report in accordance with section (f) of this regulation shall be punishable by a penalty of \$100. (Authorized by and implementing K.S.A. 55-152; effective Oct. 25, 1996.)

82-3-703. Surface construction requirements, appurtenances, vault and below ground construction, penalty. (a) Except as set forth in section (b), all surface construction features of a cathodic protection borehole shall be designed in such a manner as to minimize physical damage to the installation, prevent entry of fluids and contaminants and prevent unauthorized access.

(1) The operator shall equip the surface access to each borehole with a waterproof cap, cover or equivalent housing.

(2) At the land surface contact, the cathodic surface casing or vault cover shall be designed to deter unauthorized access.

(b) Each owner, operator, or person responsible for the construction of a cathodic protection borehole located in groundwater management district #2 or groundwater management district #5, shall be subject to the appropriate groundwater management district's standards and policies, and shall be exempt from this regulation.

(c) Vent pipes shall remove gases from the borehole and shall terminate at least one foot above the highest flood elevation and at least three feet above land surface.

(d) The top of the cathodic surface casing shall terminate at least three feet above land surface, except as set forth in sections (e) and (f).

(e) In cases where the top of the cathodic surface casing terminates below land surface in a vault, the following construction features shall be required:

(1) The operator shall install a water resistant and structurally sound vault to house the top of the cathodic surface casing.

(2) The vault and cover or lid shall be strong enough to support vehicular traffic where such traffic may occur.

(3) The operator shall set the top of the vault in such a manner so that surface fluids are directed away from the vault.

(4) The cathodic surface casing shall contact the vault to form a water resistant and structurally sound seal and connection.

(f) In cases where the borehole and cathodic surface casing are grouted, the operator shall place grout at least five feet below the bottom of the cathodic surface casing, with grout extending into the cathodic surface casing at least 10 feet in total thickness.

(g) Cathodic surface casing installations that terminate and are buried below land surface shall meet the same water resistance and structure integrity requirements as vaulted-type construction described in section (e) of this regulation.

(h) The operator shall mark all above ground installations with the commission borehole permit number which shall be protected from possible damage and easily visible.

(i) Exceptions to this regulation may be granted by the director of the conservation division upon written request.

(j) Failure to construct the surface installation in accordance with this regulation shall be punishable by a pen-

alty of up to \$500. (Authorized and implementing K.S.A. 55-152; effective Oct. 25, 1996.)

82-3-704. Plugging methods and procedures for cathodic protection bore holes, site restoration, submission of plugging report, penalty. (a) Except as set forth in section (b), the operator, owner, or agent of the owner shall plug each cathodic protection borehole in accordance with the following procedures:

(1) Seventy-two hours before actual plugging, the operator, owner, or agent of the owner shall contact the appropriate conservation division district office for plugging instructions and approval;

(2) before actual plugging, the operator shall remove any cables, anodes, vent pipe, anode conductor or other materials originally installed in the borehole to a level necessary to insure that the borehole is properly plugged and to facilitate proper plugging;

(3) the operator shall cut off cathodic surface casing at least three feet below land surface;

(4) the operator shall plug each borehole with grout from at least five feet below the bottom of the cathodic surface casing to the top of the cathodic surface casing. The operator shall place grout with a tremie pipe or other method approved by the appropriate conservation division district office where the facility or borehole is located;

(5) where subsurface pressures cause artesian flow, the operator shall maintain a pressure sufficient for placement of the grout plug long enough for the plug to set; and

(6) the operator shall fill any vent pipe not removed from the borehole with grout.

(b) Each owner, operator or persons responsible for the plugging of a cathodic protection borehole located in groundwater management district #2 or groundwater management district #5 shall be subject to the appropriate groundwater management district's standards and policies, and shall be exempt from this regulation.

(c) Site restoration. The operator shall restore each former cathodic protection borehole site, as close as practical to pre-drilling condition.

(1) The operator shall backfill and compact each borehole from three feet below land surface to land surface with clean topsoil.

(2) The operator shall remove from the site any cables, anodes, vent pipe, anode conductor, surface casing sections or other material installed at the surface or in the borehole.

(d) The operator shall submit a final plugging report to the production department of the conservation division within 60 days after plugging has been completed, on forms prescribed by the commission.

(e) Each groundwater management district shall submit copies of cathodic protection borehole plugging reports to the production department of the conservation division.

(f) Exceptions to this regulation may be granted by the director of the conservation division upon written request.

(g) A cathodic protection borehole shall be considered abandoned if:

(1) It has not been used for one year and the owner has not provided a written request to the director for tem-

porary abandonment status pursuant to K.A.R. 82-3-111; or

(2) it is contaminating or threatening to contaminate a fresh water aquifer.

(h) Failure to comply with the provisions of this regulation shall be punishable by a penalty of up to \$1,000. (Authorized by and implementing K.S.A. 55-152; effective Oct. 25, 1996.)

Notice Concerning Kansas Water Pollution Control Permits

In accordance with state regulations 28-16-57 through 63, 28-18-1 through 4, 28-16-150 through 154, 28-46-7, and the authority vested with the state by the administrator of the U.S. Environmental Protection Agency, draft permits have been prepared for discharges to the waters of the United States and the State of Kansas for the class of dischargers described below. The determinations for permit content are based on staff review, applying the appropriate standards, regulations and effluent limitations of the State of Kansas and the EPA, and when issued will result in a state water pollution control permit and national pollutant discharge elimination system authorization subject to certain conditions.

Public Notice No. KS-AG-96-625/654

Name and Address of Applicant	Legal Description	Receiving Water
Ben Bearce Bearce Enterprise, Inc. Route 1, Box 5 Robinson, KS 66532	NW/4, Sec. 9, T3S, R18E, Brown County	Missouri River Basin

Kansas Permit No. A-MOBR-S002

This is an existing facility for 950 head (380 animal units) of swine.

Wastewater Control Facilities: Wastewater will be impounded for subsequent application to agricultural land for beneficial use. Wastewater storage capacity is provided, which meets or exceeds KDHE minimum requirements.

Compliance Schedule: None, existing controls adequate.

Name and Address of Applicant	Legal Description	Receiving Water
Cedar Ridge Farms, Inc. Quentin Ensz 7680 N.W. 120th Potwin, KS 67123	SW/4, Sec. 34, T23S, R4E, Butler County	Walnut River Basin

Kansas Permit No. A-WABU-S002

This is an existing facility for 975 head (390 animal units) of swine.

Wastewater Control Facilities: Wastewater will be impounded for subsequent application to agricultural land for beneficial use. Wastewater storage capacity is provided, which meets or exceeds KDHE minimum requirements.

Compliance Schedule: On December 1 of each year water pollution control facilities shall have a minimum of 120 days of wastewater and rainfall storage available. The uppermost two feet of the storage structures are reserved for structure protection and are not to be considered for storage.

Name and Address of Applicant	Legal Description	Receiving Water
Whitewater Feeder Pig Wes Miller, Mgr. 12418 N.W. 100 Whitewater, KS 67154	SE/4, Sec. 11, T24S, R3E, Butler County	Walnut River Basin

Kansas Permit No. A-WABU-S005

This is an existing facility for 650 head (260 animal units) of swine.

Wastewater Control Facilities: Wastewater will be impounded for subsequent application to agricultural land for beneficial use. Wastewater storage capacity is provided, which meets or exceeds KDHE minimum requirements.

Compliance Schedule: On December 1 of each year water pollution control facilities shall have a minimum of 120 days of wastewater and rainfall storage available. The uppermost two feet of the storage

structures are reserved for structure protection and are not to be considered for storage.

Name and Address of Applicant	Legal Description	Receiving Water
Robert Hefley Hefley Farms, Inc. Route 2, Box 384 Baxter Springs, KS 66713	NE/4, Sec. 30, T34S, R24E, Cherokee County	Neosho River Basin

Kansas Permit No. A-NECK-F004

This is an expansion from 40,000 turkeys (720 animal units) to 54,000 turkeys (972 animal units).

Wastewater Control Facilities: Wastewater will be impounded for subsequent application to agricultural land for beneficial use. Wastewater storage capacity is provided, which meets or exceeds KDHE minimum requirements.

Compliance Schedule: None, existing controls adequate.

Name and Address of Applicant	Legal Description	Receiving Water
Clifford Raile Route 1, Box 389 St. Francis, KS 67756	NE/4, Sec. 32, T2S, R41W, Cheyenne County	Upper Republican River Basin

Kansas Permit No. A-URCN-H001 Federal Permit No. KS-0086070

This is an existing facility for 3,500 head (1,400 animal units) of swine.

Wastewater Control Facilities: Wastewater will be impounded for subsequent application to agricultural land for beneficial use. Wastewater storage capacity is provided, which meets or exceeds KDHE minimum requirements.

Compliance Schedule: On December 1 of each year the concrete manure pit(s) shall have a minimum of 120 days of storage available.

Name and Address of Applicant	Legal Description	Receiving Water
Bruce Steffen 917 1st Road Manchester, KS 67463	SW/4, Sec. 33, T10S, R2E, Clay County	Smoky Hill River Basin

Kansas Permit No. A-SHCY-S009

This is an existing facility for 800 head (320 animal units) of swine.

Wastewater Control Facilities: Wastewater will be impounded for subsequent application to agricultural land for beneficial use. Wastewater storage capacity is provided, which meets or exceeds KDHE minimum requirements.

Compliance Schedule: On December 1 of each year the concrete manure pit(s) shall have a minimum of 120 days of storage available.

Name and Address of Applicant	Legal Description	Receiving Water
Kenneth Schurle 2105 20th Road Green, KS 67447	SW/4, Sec. 28, T7S, R4E, Clay County	Lower Republican River Basin

Kansas Permit No. A-LRCY-S024

This is an existing facility for 200 head (80 animal units) of swine.

Wastewater Control Facilities: Wastewater will be impounded for subsequent application to agricultural land for beneficial use. Wastewater storage capacity is provided, which meets or exceeds KDHE minimum requirements.

Compliance Schedule: On December 1 of each year water pollution control facilities shall have a minimum of 120 days of wastewater and rainfall storage available. The uppermost two feet of the storage structures are reserved for structure protection and are not to be considered for storage.

Name and Address of Applicant	Legal Description	Receiving Water
Steve Peterson 1626 18th Road Clay Center, KS 67432	NW/4, Sec. 35, T7S, R3E, Clay County	Lower Republican River Basin

Kansas Permit No. A-LRCY-S012

This is an existing facility for 1,600 head (640 animal units) of swine.

Wastewater Control Facilities: Wastewater will be impounded for subsequent application to agricultural land for beneficial use. Waste-

water storage capacity is provided, which meets or exceeds KDHE minimum requirements.

Compliance Schedule: On December 1 of each year water pollution control facilities shall have a minimum of 120 days of wastewater and rainfall storage available. The uppermost two feet of the storage structures are reserved for structure protection and are not to be considered for storage.

Name and Address of Applicant	Legal Description	Receiving Water
Oakland Pork Charles M. Richard Route 2, Box 33 Miltonvale, KS 67466	NE/4, Sec. 29, T8S, R2W, Cloud County	Solomon River Basin

Kansas Permit No. A-SOCD-S003

This is a new facility for 1,790 head (716 animal units) of swine.

Wastewater Control Facilities: Wastewater will be impounded for subsequent application to agricultural land for beneficial use. Wastewater storage capacity is provided, which meets or exceeds KDHE minimum requirements.

Compliance Schedule: None, existing controls adequate.

Name and Address of Applicant	Legal Description	Receiving Water
Decatur County Feed Yard, Inc. Route 3, Box 9 Oberlin, KS 67749	W/2, Sec. 1, T2S, R29W, Decatur County	Upper Republican River Basin

Kansas Permit No. A-URDC-C002 Federal Permit No. KS-0115690

This is an existing facility for 24,000 head (24,000 animal units) of cattle.

Wastewater Control Facilities: Wastewater will be impounded for subsequent application to agricultural land for beneficial use. Wastewater storage capacity is provided, which meets or exceeds KDHE minimum requirements.

Compliance Schedule: None, existing controls adequate.

Name and Address of Applicant	Legal Description	Receiving Water
Double D Hogs, Inc. Jeff Dohrman 2425 4th Road Bushton, KS 67427	NW/4, Sec. 34, T17S, R10W, Ellsworth County	Lower Arkansas River Basin

Kansas Permit No. A-AREW-S001

This is an existing facility for 700 had (280 animal units) of swine.

Wastewater Control Facilities: Wastewater will be impounded for subsequent application to agricultural land for beneficial use. Wastewater storage capacity is provided, which meets or exceeds KDHE minimum requirements.

Compliance Schedule: None, existing controls adequate.

Name and Address of Applicant	Legal Description	Receiving Water
K & T Trucking Ralph Klinge and Charles Taylor P.O. Box 821 Dodge City, KS 67801	SE/4, Sec. 31, T26S, R24W, Ford County	Lower Arkansas River Basin

Dodge City, KS 67801

Kansas Permit No. A-ARFO-T002

This is an existing truck wash facility for 20 trucks/weekly.

Wastewater Control Facilities: Wastewater will be impounded for subsequent application to agricultural land for beneficial use. Wastewater storage capacity is provided, which meets or exceeds KDHE minimum requirements.

Compliance Schedule: The truck washing facility shall be utilized to wash 20 cattle trucks weekly. Any time adequate storage cannot be maintained by irrigation and evaporation or creates odor complaints from adjoining neighbors, the operation shall be discontinued and a new operational plan submitted.

Name and Address of Applicant	Legal Description	Receiving Water
Sundstrom Farms, Inc. 2057 Sandcreek Terrace Ottawa, KS 66067	SE/4, Sec. 17, T16S, R19E, Franklin County	Marais des Cygnes River Basin

Kansas Permit No. A-MCFR-M004

This is an existing facility for 500 head (700 animal units) of dairy cattle.

Wastewater Control Facilities: Wastewater will be impounded for subsequent application to agricultural land for beneficial use. Wastewater storage capacity is provided, which meets or exceeds KDHE minimum requirements.

Compliance Schedule: The wastewater management plan developed by the designer and approved by the department shall be adhered to as a condition of this permit. The plan calls for nutrient analysis of both liquids and solids with applications to meet crop nutrient needs.

Name and Address of Applicant	Legal Description	Receiving Water
Glenn Coberly Feedlot HCR 1, Box 25A Gove, KS 67736	NE/4, Sec. 3, NW/4, Sec. 2, T15S, R28W Gove County	Smoky Hill River Basin

Kansas Permit No. A-SHGO-C006 Federal Permit No. KS-0118567

This is an existing facility for 2,999 head (2,999 animal units) of cattle.

Wastewater Control Facilities: Wastewater will be impounded for subsequent application to agricultural land for beneficial use. Wastewater storage capacity is provided, which meets or exceeds KDHE minimum requirements.

Compliance Schedule: Dewatering and disposal activities of the water pollution control facilities shall begin prior to December 1 of each successive year allowing adequate storage capacity for future runoff accumulations from the 10yr/24hr. rainfall event in the immediate area for the open lot runoff.

An additional two feet of storage capacity must be provided for structural stability of the water pollution control facilities.

A livestock waste management plan for the facility shall be developed. The plan shall cover, but not be limited to, the following items: handling and disposal equipment for both solid and liquid waste, land application practices used to protect against runoff and leaching, waste application rates based on crop nutrient utilization, and identification of adequate land areas for application of all wastes. Detailed guidance and requirements will be provided by the department. A plan shall be submitted to the department within six months following receipt of detailed requirements. The approval plan will become part of this permit.

Additional storage capacity shall be required in the #1 lagoon or a method of diverting extraneous drainage from entering the #1 lagoon. Plans for the additional storage in the #1 lagoon or a plan for diverting extraneous drainage shall be submitted to this office within a year of the effective date of this permit. This is a compliance condition of this permit and must be met.

Name and Address of Applicant	Legal Description	Receiving Water
Leslie M. Kurr 4109 S. West Road Newton, KS 67114	NW/4, Sec. 2, T24S, R1W, Harvey County	Little Arkansas River Basin

Kansas Permit No. A-LAHV-B003

This is an existing facility for 800 head (800 animal units) of cattle.

Wastewater Control Facilities: Wastewater will be impounded for subsequent application to agricultural land for beneficial use. Wastewater storage capacity is provided, which meets or exceeds KDHE minimum requirements.

Compliance Schedule: On December 1 of each year water pollution control facilities shall have a minimum of 120 days of wastewater and rainfall storage available. The uppermost two feet of the storage structures are reserved for structure protection and are not to be considered for storage.

Name and Address of Applicant	Legal Description	Receiving Water
Triple S Pork Sid Nattier 7803 S. Woodlawn Road Newton, KS 67114	SE/4, Sec. 11, T23S, R2W, Harvey County	Lower Arkansas River Basin

Kansas Permit No. A-LAHV-S019

This is an existing facility for 400 head (160 animal units) of swine.

(continued)

Wastewater Control Facilities: Wastewater will be impounded for subsequent application to agricultural land for beneficial use. Wastewater storage capacity is provided, which meets or exceeds KDHE minimum requirements.

Compliance Schedule: None, existing controls adequate.

Name and Address of Applicant	Legal Description	Receiving Water
Rhodes Farms William K. Rhodes 7621 Wellman Road McLouth, KS 66054	NE/4, Sec. 14, T10S, R19E, Jefferson County	Kansas River Basin

Kansas Permit No. A-KSJF-M002

This is an existing facility for 90 head (126 animal units) of dairy cattle.

Wastewater Control Facilities: Wastewater will be impounded for subsequent application to agricultural land for beneficial use. Wastewater storage capacity is provided, which meets or exceeds KDHE minimum requirements.

Compliance Schedule: On December 1 of each year water pollution control facilities shall have a minimum of 120 days of wastewater and rainfall storage available. The uppermost two feet of the storage structures are reserved for structure protection and are not to be considered for storage.

Name and Address of Applicant	Legal Description	Receiving Water
Robison Feedlot Jack W. Robison Box 361 Edria, KS 67342	NW/4, Sec. 19, T34S, R20E, Labette County	Neosho River Basin

Kansas Permit No. A-NELB-H002 Federal Permit No. KS-0119407

This is an existing facility for 2,700 head (1,080 animal units) of swine.

Wastewater Control Facilities: Wastewater will be impounded for subsequent application to agricultural land for beneficial use. Wastewater storage capacity is provided, which meets or exceeds KDHE minimum requirements.

Compliance Schedule: None, existing controls adequate.

Name and Address of Applicant	Legal Description	Receiving Water
Albert Merrick 597 16500 Road Mound Valley, KS 67354-9210	SE/4, Sec. 28, T32S, R18E, Labette County	Neosho River Basin

Kansas Permit No. A-NELB-F001

This is a new facility for 54,000 head (972 animal units) of turkeys.

Wastewater Control Facilities: Wastewater will be impounded for subsequent application to agricultural land for beneficial use. Wastewater storage capacity is provided, which meets or exceeds KDHE minimum requirements.

Compliance Schedule: A livestock management plan for the facility shall be developed. The plan shall cover, but not be limited to, the following items: handling and disposal equipment for both solid and liquid wastes, land application practices used to protect against runoff and leaching, waste application rates based on crop nutrient utilization, and identification of adequate land areas for application of all wastes. The waste management plan shall be based on accepted principles, methodologies and data for waste characteristics and crop utilization. The plan shall be submitted to the department within six months following receipt of detailed requirements. The approved plan will become part of this permit.

Name and Address of Applicant	Legal Description	Receiving Water
Meyer Pig Ranch Douglas C. Meyer 17949 242nd Tonganoxie, KS 66086	NW/4, Sec. 13, T11S, R20E, Leavenworth County	Kansas River Basin

Kansas Permit No. A-KSLV-S009

This is an existing facility for 750 head (300 animal units) of swine.

Wastewater Control Facilities: Wastewater will be impounded for subsequent application to agricultural land for beneficial use. Waste-

water storage capacity is provided, which meets or exceeds KDHE minimum requirements.

Compliance Schedule: On December 1 of each year water pollution control facilities shall have a minimum of 120 days of wastewater and rainfall storage available. The uppermost two feet of the storage structures are reserved for structure protection and are not to be considered for storage.

Name and Address of Applicant	Legal Description	Receiving Water
Walnut Hill Farms, Inc. David Thiel 27192 227th St. Easto, KS 66020	SE/4, Sec. 17, T9S, R21E, Leavenworth County	Kansas River Basin

Kansas Permit No. A-KSLV-S012

This is an existing facility for 360 head (144 animal units) of swine.

Wastewater Control Facilities: Wastewater will be impounded for subsequent application to agricultural land for beneficial use. Wastewater storage capacity is provided, which meets or exceeds KDHE minimum requirements.

Compliance Schedule: On December 1 of each year the concrete manure pit shall have a minimum of 120 days of storage available.

Name and Address of Applicant	Legal Description	Receiving Water
Vering Land & Pork, Inc. Greg Vering 1325 8th Road Marysville, KS 66508	NE/4, Sec. 6, T3S, R7E, Marshall County	Big Blue River Basin

Kansas Permit No. A-BBMS-S023

This is an existing facility for 1,638 head (375 animal units) of swine.

Wastewater Control Facilities: Wastewater will be impounded for subsequent application to agricultural land for beneficial use. Wastewater storage capacity is provided, which meets or exceeds KDHE minimum requirements.

Compliance Schedule: None, existing controls adequate.

Name and Address of Applicant	Legal Description	Receiving Water
Dale Ade & Larry Norberg 2661 12th Ave. Lindsborg, KS 67456	NW/4, Sec. 15, T17S, R3W, McPherson County	Smoky Hill River Basin

Kansas Permit No. A-SHMP-B001

This is an existing facility for 125 head (125 animal units) of cattle.

Wastewater Control Facilities: Wastewater will be impounded for subsequent application to agricultural land for beneficial use. Wastewater storage capacity is provided, which meets or exceeds KDHE minimum requirements.

Compliance Schedule: None, existing controls adequate.

Name and Address of Applicant	Legal Description	Receiving Water
David L. Yost Route 2, Box 19 Moundridge, KS 67107	SW/4, Sec. 1, T21S, R2W, McPherson County	Little Arkansas River Basin

Kansas Permit No. A-LAMP-M023

This is an existing facility for 35 head (49 animal units) of dairy cattle.

Wastewater Control Facilities: Wastewater will be impounded for subsequent application to agricultural land for beneficial use. Wastewater storage capacity is provided, which meets or exceeds KDHE minimum requirements.

Compliance Schedule: None, existing controls adequate.

Name and Address of Applicant	Legal Description	Receiving Water
Larry Dahlsten 922 Shawnee Road Lindsborg, KS 67456	NW/4, Sec. 34, T17S, R4W, McPherson County	Smoky Hill River Basin

Kansas Permit No. A-SHMP-S003

This is an existing facility for 420 head (168 animal units) of swine.

Wastewater Control Facilities: Wastewater will be impounded for subsequent application to agricultural land for beneficial use. Waste-

water storage capacity is provided, which meets or exceeds KDHE minimum requirements.

Compliance Schedule: On-December 1 of each year water pollution control facilities shall have a minimum of 120 days of wastewater and rainfall storage available. The uppermost two feet of the storage structures are reserved for structure protection and are not to be considered for storage.

Name and Address of Applicant	Legal Description	Receiving Water
Emma Creek Farms, Iric. Jim Schmidt 717 29th Ave. Canton, KS 67428	SE/4, Sec. 26, T20S, R1W, McPherson County	Little Arkansas River Basin

Kansas Permit No. A-LAMP-M027 .

This is a new facility for 420 head (300 animal units) of dairy cows.

Wastewater Control Facilities: Wastewater will be impounded for subsequent application to agricultural land for beneficial use. Wastewater storage capacity is provided, which meets or exceeds KDHE minimum requirements.

Compliance Schedule: The waste management plan developed by the designer and approved by the department shall be adhered to as a condition of this permit. The plan calls for nutrient analysis of both liquids and solids with applications to meet crop nutrient needs. If wastes are not analyzed for nutrient content, solids shall be applied at not greater than 7.8 ton per acre.

In the event the liquid level infringes upon the uppermost 3.5 ft. of the earthen retention structure, dewatering equipment shall be obtained through purchase, rental or custom agreement. It shall be capable of pumping at least 65 gpm and dispersing the wastewater over 80 acres of land suitable for waste application. Written verification of the acquisition shall be submitted to the department.

Name and Address of Applicant	Legal Description	Receiving Water
Tom Toll Farms Thomas Toll Route 2, Box 45 Lindsborg, KS 67456	NE/4, Sec. 34, T17S, R4W, McPherson County	Smoky Hill River Basin

Kansas Permit No. A-SHMP-B004

This is a new facility for 800 head (800 animal units) of cattle.

Wastewater Control Facilities: Wastewater will be impounded for subsequent application to agricultural land for beneficial use. Wastewater storage capacity is provided, which meets or exceeds KDHE minimum requirements.

Compliance Schedule: None, existing controls adequate.

Name and Address of Applicant	Legal Description	Receiving Water
Richard Bratton 32945 W. 383rd Osawatomie, KS 66064	Sec. 3, T19S, R22E, Miami County	Marais des Cygnes River Basin

Kansas Permit No. A-MCMI-S002

This is an existing facility for 550 head (220 animal units) of swine.

Wastewater Control Facilities: Wastewater will be impounded for subsequent application to agricultural land for beneficial use. Wastewater storage capacity is provided, which meets or exceeds KDHE minimum requirements.

Compliance Schedule: None, existing controls adequate.

Name and Address of Applicant	Legal Description	Receiving Water
Kim-Mac Farm Randy McCabe Route 1, Box 113 Elk City, KS 67344	SW/4, Sec. 16, T31S, R14E, Montgomery County	Verdigris River Basin

Kansas Permit No. A-VEMG-S025

This is an existing facility for 1,500 head (600 animal units) of swine.

Wastewater Control Facilities: Wastewater will be impounded for subsequent application to agricultural land for beneficial use. Waste-

water storage capacity is provided, which meets or exceeds KDHE minimum requirements.

Compliance Schedule: None, existing controls adequate.

Name and Address of Applicant	Legal Description	Receiving Water
Cranston Farms, Inc. HC 1, Box 200 Brewster, KS 67732	SW/4, Sec. 4, and NW/4, Sec. 9, T10S, R36W, Thomas County	Saline River Basin

Kansas Permit No. A-SATH-C002 Federal Permit No. 0093220

This is an existing facility for 7,500 head (7,500 animal units) of cattle.

Wastewater Control Facilities: Wastewater will be impounded for subsequent application to agricultural land for beneficial use. Wastewater storage capacity is provided, which meets or exceeds KDHE minimum requirements.

Compliance Schedule: A livestock waste management plan for the facility shall be developed. The plan shall cover, but not be limited to, the following items: handling and disposal equipment for both solid and liquid wastes, land application practices used to protect against runoff and leaching, waste application rates based on crop nutrient utilization, and identification of adequate land areas for application of all wastes. The waste management plan shall be based on accepted principles, methodologies and data for waste characteristics and crop utilization. The plan shall be submitted to the department within six months following receipt of detailed requirements. The approved plan will become part of this permit.

Public Notice No. KS-96-262/265

Name and Address of Applicant	Waterway	Type of Discharge
City of Corning City Hall P.O. Box 96 Corning, KS 66417	Vermillion River via Vermillion Creek	Treated domestic wastewater

Location: NW¼, NE¼, NE¼, S30, T19S, R5W, McPherson County

Facility Descriptions: The proposed action in the public notices listed above as KS-96-266 through 269 is to re-issue existing permits for operation of existing wastewater treatment facilities treating domestic wastewater. The facilities consist of discharging wastewater treatment lagoons. The proposed permits contain a schedule of compliance requiring each permittee to obtain the services of a KDHE-certified operator or upgrade the classification of the current certified operator. The effluent limitations are pursuant to Kansas surface water quality standards, K.A.R. 28-16-28(b-f), and federal surface water criteria, and are technology based.

Public Notice No. KS-96-270

Name and Address of Applicant	Waterway	Type of Discharge
Coastal Ref. & Marketing Park City Project 1100 E. 21st Wichita, KS 67214	Little Arkansas River via drainage canal	Treated groundwater from remediation project

Kansas Permit No. I-LA19-PO01 Federal Permit No. KS-0087297

Location: SW¼, S8, T26S, R1E, Sedgwick County

Facility Description: The proposed action is to re-issue an existing permit for operation of an existing air stripper treating water from a groundwater remediation project. Hydrocarbon contaminated groundwater is pumped and treated in an air stripper prior to discharge to Little Arkansas River via a flood control canal. The maximum discharge is about 0.288 million gpd. The effluent limitations are pursuant to Kansas surface water quality standards, K.A.R. 28-16-28(b-f), and federal surface water criteria, and are water quality based.

Written comments on the draft permits must be submitted to the attention of Lisa Duncan for agricultural permits, or to the permit clerk for all other permits, Kansas Department of Health and Environment, Division of Environment, Bureau of Water, J Street and 2 North, Forbes Field, Building 283, Topeka, 66620. All comments postmarked or received by November 8 will be considered in the formulation of final determinations regarding this public notice. Please refer to the appropriate public notice number (KS-AG-96-625/654, KS-96-262/270) and the name of applicant as listed when preparing comments.

If no objections are received during the public notice period, the Secretary of Health and Environment will issue the final determination. If response to this notice indicates significant public interest, a public hearing may be held in conformance with state regulation 28-16-61 (28-46-21 for UIC). Media coordination for publication and/or announcement of the public notice or public hearing is handled by the Kansas Department of Health and Environment.

The applications, proposed permits, including proposed effluent limitations and special conditions, fact sheets as appropriate, comments received, and other information are on file and may be inspected at the Kansas Department of Health and Environment offices, Building 283, Forbes Field, Topeka, from 8 a.m. to 5 p.m. Monday through Friday. The documents are available upon request at the copying cost assessed by KDHE. Additional copies of this public notice also may be obtained at the Division of Environment.

James J. O'Connell
Secretary of Health
and Environment

Doc. No. 018235

INDEX TO ADMINISTRATIVE REGULATIONS

This index lists in numerical order the new, amended and revoked administrative regulations and the volume and page number of the *Kansas Register* issue in which more information can be found. This cumulative index supplements the index found in the 1996 Supplement to the *Kansas Administrative Regulations*.
