## Notice to Consulting Engineers

The Kansas Department of Transportation is seeking qualified consulting engineering firms to perform bridge designs as needed statewide. Two to four firms will be selected. Responses must be received by 5 p.m. December 12 for the consulting engineering firm to be considered. Seven signed copies of responses must be mailed to Neil R. Rusch, P.E., Assistant to the Director, Division of Engineering and Design, Room 1084-West, Docking State Office Building, 915 S.W. Harrison, Topeka, 66612-1568. Responses shall be limited to four pages.

The firm will be required to provide the following services:

1. expansion device replacement;
2. back wall repairs;
3. bridge rail rehabilitations;
4. bridge redecking; and
5. other structural repairs as required.

From the firms expressing interest, the Consultant Selection Committee will select a list of the most highly qualified (not less than three, not more than five) and invite them to attend the individual interview conference. At this time, the consulting firm can more thoroughly discuss its experience related to the type of project at hand and will be expected to discuss, in some detail, its approach to this project and the personnel to be assigned to the project. Firms not selected will be notified by letter.

The Consulting Negotiating Committee, appointed by the Secretary of Transportation, will conduct discussions with the firms invited to the individual interview conferences. The committee will select the firm to perform the professional services required for completing the advertised project. After the selection of this firm, the remaining firms will be notified by letter of the outcome.

It is the policy of KDOT to use the following criteria as the basis for selection of the consulting engineering firms:

1. size and professional qualification;
2. experience of staff;
3. location of firm with respect to proposed project;
4. work load of firm; and
5. firm's performance record.
