Notice of Public Forums

Two public forums are scheduled to receive input from the public on the development of the Child Care and Development Fund (CCDF) state plan. The forums will be January 16 and April 24 at 1:30 p.m. at Staff Development, Topeka State Hospital grounds, 300 S.W. Oakley, Topeka. The state plan describes the policies and guidelines that Kansas will use to implement welfare reform. The plan will be completed and submitted for approval by June 30.

**Notice of Commencement of
 Negotiations for Engineering Services**

Notice is hereby given of the commencement of negotiations for "on-call" civil and structural engineering services for Kansas State University. The selected firm will provide services for small projects at the university.

For information regarding the scope of services, contact Jerry Carter, Director of Facilities Planning/University Architect at Kansas State University, (913) 532-6377.

If interested, an original and six copies of the SF 255 form (plus relevant attachments of information regarding similar projects) should be submitted. These submittals should be concise, relevant to the project and follow the State Building Advisory Commission guidelines for submittal. Copies of the guidelines have previously been distributed to firms; if copies of the guidelines are required, contact Gary Grimes, Division of Architectural Services, 625 Polk, Topeka, 66603, (913) 233-9367. Submittals not complying with the guidelines will be returned without consideration.

Expressions of interest and the SF 255 submittals should be received by Gary Grimes by 5 p.m. January 31.

Board of Healing Arts

Notice of Hearing on Proposed Administrative Regulations

A public hearing will be conducted at 10 a.m. Friday, March 21, at the office of the Kansas State Board of Healing Arts, Hutton Building, 235 S. Topeka Blvd., Topeka, to consider the adoption of a proposed rule and regulation relating to the short-term treatment of obesity.

This 60-day notice of the public hearing shall constitute a public comment period for the purpose of receiving written public comments on the proposed rule and regulation. All interested parties may submit comments prior to the hearing to the Board of Healing Arts at the address above. All interested parties will be given a reasonable opportunity to present their views, orally or in writing, concerning the adoption of the proposed regulation during the hearing. In order to give all persons an opportunity to present their views, it may be necessary to request each participant to limit any oral presentation to five minutes.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulation and economic impact statement in an accessible format. Requests for accommodation should be made at least five working days in advance of the hearing by contacting Pamela Dawes at (913) 291-3684. Handicapped parking is located at the west end of the Hutton Building, and the northwest entrance to the building is accessible.

A summary of the proposed regulation and its economic impact follows.

K.A.R. 100-23-1. This regulation describes the manner and relevant time limitations for prescribing amphetamines and sympathomimetic amines in schedules II, III and IV of the controlled substances act for short-term treatment of obesity. There is no economic impact on state agencies or on the general public.

Copies of the proposed regulation and the associated economic impact statement may be obtained by contacting Betty Johnson, Kansas State Board of Healing Arts, 235 S. Topeka Blvd., Topeka, 66603, (913) 296-3680.

Board of Emergency Medical Services

Notice of Hearing on Proposed
Administrative Regulations

A public hearing will be conducted at 9 a.m. Monday, March 24, at Butler County Emergency Medical Services, 701 N. Haverhill Road, El Dorado, to consider the adoption of proposed changes in existing regulation K.A.R. 109-8-1 of the Board of Emergency Medical Services.

This 60-day notice constitutes a public comment period for the purpose of receiving written public comments on the proposed regulation. All interested parties may submit written comments prior to the hearing to Bob McDaneld, Administrator, Board of Emergency Medical Services, 109 S.W. 6th, Topeka, 66603-3826. Copies of the proposed regulation and the economic impact statement also may be obtained by contacting the administrator.

All interested parties will be given a reasonable opportunity at the hearing to present their views orally on the adoption of the proposed regulation. In order to give all parties an opportunity to express their views, it may be necessary to request each participant to limit oral presentations to five minutes.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulation and economic impact statement in an accessible format. Requests for accommodation should be made at least five working days in advance of the hearing by contacting Bob McDaneld at (913) 296-7296 or (913) 296-6237 (TDD). Handicapped parking is located at the south end of the building, and the south entrance to the building is accessible to individuals with disabilities.

This regulation is proposed for adoption on a permanent basis. A summary of the proposed regulation and its economic impact follows.

109-8-1. Examinations. Changes desired in this regulation establish a maximum of three attempts in both the written and practical skills portions of the examination for candidates seeking certification as a first responder and emergency medical technician.

The other change desired in this regulation establishes the Board of Emergency Medical Services as the sole administrator of the initial certification examination for candidates completing a board-approved initial course of instruction.

Economic impact to the individual seeking certification from the Board of Emergency Medical Services will be unchanged, as the fees for examination and certification will remain the same. Additionally, there will be no economic impact to training programs or to the Board of Emergency Medical Services. Other governmental units, private citizens and consumers will not be affected by these changes.

Bob McDaneld
Administrator

Doc. No. 018604

(Published in the Kansas Register January 16, 1997.)

**Notice of Redemption
to the Holders of
City of Sabetha, Kansas
Electric Utility Revenue Bonds
Series 1991
Dated April 1, 1991**

Notice is hereby given that pursuant to Section 302 of Ordinance No. 1193 of the City of Sabetha, Kansas, all of the outstanding Electric Utility Revenue Bonds, Series 1991, of the city, maturing March 1, 1998, and thereafter, will be redeemed and prepaid on March 1, 1997 (the redemption date) prior to their respective maturities subject to the provisions and limitations set forth herein.

Principal Amount	Maturity Date	Interest Rate
\$ 150,000	March 1, 1998	6.40%
160,000	March 1, 1999	6.50
170,000	March 1, 2000	6.60
185,000	March 1, 2001	6.75
1,110,000	March 1, 2006	7.20 (Term Bond)

The principal amount of the above described Series 1991 Bonds shall become due and payable on the redemption date at a redemption price equal to the prin-

cipal amount thereof, plus accrued interest thereon to the redemption date, without premium.

On March 1, 1997, provided that funds are on hand to pay the specified redemption price, all Series 1991 Bonds will be due and payable at the principal office of the Kansas State Treasurer, Topeka, Kansas, and from and after the redemption date, the interest on the Series 1991 Bonds will cease to accrue. It is requested that all Series 1991 Bonds be surrendered at least two weeks in advance of the redemption date.

Under the provisions of the Interest and Dividend Tax Compliance Act of 1983, paying agents making payments of interest or principal on corporate securities or making payments of principal on municipal securities may be obligated to withhold a 20 percent tax from remittances to individuals who have failed to furnish the paying agent with a valid taxpayer identification number. Holders of the Series 1991 Bonds who wish to avoid the imposition of the tax should submit certified taxpayer identification numbers when presenting the Series 1991 Bonds for payment.

Dated January 16, 1997.

Beverly A. Baker, City Clerk

Doc. No. 018612

(Published in the Kansas Register January 16, 1997.)

Summary Notice of Bond Sale

City of Wichita, Kansas

\$16,770,000

Aggregate Principal Amount

General Obligation Bonds

Series 746 and Series 747

(General obligation bonds payable from
unlimited ad valorem taxes)

Subject to the terms and conditions of the complete of-
ficial notice of sale dated January 7, 1997, the City of
Wichita, Kansas, in connection with the city's hereinafter
described series of general obligation bonds, sealed, writ-
ten bids for the purchase of each of the series of bonds
shall be received at the office of the mayor, first floor, City
Hall, 455 N. Main, Wichita, Kansas, until 10:30 a.m. Tues-
day, January 28, 1997. All bids shall be publicly opened
and read aloud on said date and at said time and place.
The bids will be considered and the bonds will be
awarded by the city council in the city council chambers,
City Hall, at 11:30 a.m. January 28, 1997.

No oral or auction bid for the bonds shall be consid-
ered, and no bid for less than the entire principal amount
of a series of bonds shall be considered. Bids will be ac-
cepted only on the official bid forms which have been
prepared for each series of bonds, and which may be ob-
tained from the office of the director of finance. Bids may
be submitted by mail or may be delivered in person, but
must be received at the place and not later than the date
and time hereinbefore specified. Each bid shall be accom-
panied by a good faith deposit in the form of a certified
or cashier's check drawn on a bank located within the
United States and made payable to the order of the city,
or in the form of a financial surety bond payable to the
order of the city and meeting requirements therefor as set
forth in the official notice of bond sale, and shall be in an
amount equal to 2 percent of the principal amount of the
series of bonds for which the bid is submitted.

Description of the Bonds

The Series 746 Bonds will be issued in the aggregate
principal amount of \$11,235,000; shall be issued as fully
registered bonds in the denomination of \$5,000, or any
integral multiple thereof not exceeding the principal
amount maturing in each year; shall bear a dated date of
February 1, 1997; and shall mature serially on September
1 in each of the years and principal amounts as follows:

(continued)

Maturity Schedule—Series 746 Bonds

Principal Amount	Maturity Date
\$ 510,000	1998
540,000	1999
565,000	2000
595,000	2001
625,000	2002
660,000	2003
695,000	2004
730,000	2005
770,000	2006
810,000	2007
850,000	2008
900,000	2009
945,000	2010
995,000	2011
1,045,000	2012

The Series 746 Bonds shall bear interest at the rates specified by the successful bidder, and interest shall be payable semiannually on March 1 and September 1 of each year, commencing March 1, 1998.

The Series 747 Bonds will be issued in the aggregate principal amount of \$5,535,000; shall be issued as fully registered bonds in the denomination of \$5,000, or any integral multiple thereof not exceeding the principal amount maturing in each year; shall bear a dated date of February 1, 1997; and shall mature serially on June 1 of the years and principal amounts as follows:

Maturity Schedule—Series 747 Bonds

Principal Amount	Maturity Date
\$540,000	1998
555,000	1999
555,000	2000
555,000	2001
555,000	2002
555,000	2003
555,000	2004
555,000	2005
555,000	2006
555,000	2007

The Series 747 Bonds shall bear interest at the rates specified by the successful bidder, and interest shall be payable semiannually on June 1 and December 1 of each year, commencing December 1, 1997.

Paying Agent and Bond Registrar**Payment of Principal and Interest**

The Chase Manhattan Bank, N.A., New York, New York, shall serve as bond registrar and paying agent for the bonds. Interest will be payable by check or draft of the paying agent mailed to the registered owners of the bonds. Principal will be payable upon surrender of bonds to the paying agent.

Redemption

Certain of the bonds are subject to redemption as set forth in the official notice of bond sale.

Delivery

The bonds, duly printed, executed and registered, shall be delivered at the expense of the city to the successful

bidders on or about February 27, 1997. (Reference is made to the official notice of bond sale for additional information regarding delivery.)

Legal Opinion

Hinkle, Eberhart & Elkouri, L.L.C., Wichita, Kansas. All fees and expenses of bond counsel shall be paid by the city. (Reference is made to the official notice of bond sale and the city's preliminary official statement for additional information regarding legal matters.)

Security

The bonds and the interest thereon constitute general obligations of the city, and the full faith, credit and resources of the city will be pledged to the payment thereof. (Reference is made to the official notice of bond sale and the city's preliminary official statement for a further discussion of the security for the bonds.)

Ratings

The city's outstanding general obligation bonds issued since 1975 have been rated "Aa" by Moody's Investors Service, Inc. and "AA" by Standard & Poor's Corporation. The city has applied to both of said rating services for ratings on the bonds described herein.

Financial Matters

The city's equalized assessed tangible valuation for computation of bonded debt limitations is \$1,862,267,898. The total outstanding general obligation bonded indebtedness of the city, at February 1, 1997, will be \$298,825,000. This amount does not include the within described bonds.

Official Statement

The city has authorized and directed preparation of a preliminary official statement in connection with the bonds. Said preliminary official statement is in a form "deemed final" by the city for purposes of the Securities and Exchange Commission Rule 15c2-12(b)(1), but is subject to revision, amendment and completion in the final official statement. Not later than seven business days after the date of the sale of the bonds, the city shall furnish the successful bidder with a reasonable number of copies of the final official statement, without cost.

Continuing Disclosure

The city has adopted an ordinance establishing a master undertaking to provide ongoing disclosure concerning the city in connection with its general obligation bonds for the benefit of owners of the bonds, as required under Section (b)(5)(i) of Securities and Exchange Commission Rule 15c2-12. A copy of the ordinance is included as an appendix to the official statement.

Additional Information

Copies of the official notice of sale, official bid forms and preliminary official statement may be obtained from the city's Department of Finance, City Hall, 12th Floor, 455 N. Main, Wichita, KS 67202-1679, Attn: Kelly Carpenter, Assistant Director of Finance, (316) 268-4584.

By Pat Burnett, City Clerk

Doc. No. 018606

(Published in the Kansas Register January 16, 1997.)

Summary Notice of Bond Sale
\$374,000
City of Cunningham, Kansas
General Obligation Bonds, Series 1997
(General obligation bonds payable from
unlimited ad valorem taxes)

Sealed Bids

Subject to the notice of bond sale dated January 13, 1997, sealed bids will be received by the clerk of the City of Cunningham, Kansas (the issuer), on behalf of the governing body at City Hall, 119 N. Main, P.O. Box 188, Cunningham, KS 67035, until 5 p.m. January 27, 1997, for the purchase of \$374,000 principal amount of General Obligation Bonds, Series 1997. No bid of less than 100 percent of the principal amount of the bonds and accrued interest thereon to the date of delivery will be considered.

Bond Details

The bonds will consist of fully registered bonds in the denomination of \$5,000 or any integral multiple thereof, except one bond in the denomination of \$9,000. The bonds will be dated February 1, 1997, and will become due on August 1 in the years as follows:

Year	Principal Amount
1998	\$ 9,000
1999	15,000
2000	20,000
2001	20,000
2002	20,000
2003	20,000
2004	25,000
2005	25,000
2006	25,000
2007	30,000
2008	30,000
2009	30,000
2010	35,000
2011	35,000
2012	35,000

The bonds will bear interest from the date thereof at rates to be determined when the bonds are sold as hereinafter provided, which interest will be payable semiannually on February 1 and August 1 in each year, beginning August 1, 1998.

Paying Agent and Bond Registrar
 Kansas State Treasurer, Topeka, Kansas.

Good Faith Deposit

Each bid shall be accompanied by a good faith deposit in the form of a cashier's or certified check drawn on a bank located in the United States of America or a qualified financial surety bond in the amount of \$7,480 (2 percent of the principal amount of the bonds).

Delivery

The issuer will pay for printing the bonds and will deliver the same properly prepared, executed and registered without cost to the successful bidder on or before February 13, 1997, at such bank or trust company in the

contiguous United States of America as may be specified by the successful bidder.

Assessed Valuation and Indebtedness

The equalized assessed tangible valuation for computation of bonded debt limitations for the year 1996 is \$1,346,162. The total general obligation indebtedness of the issuer as of the date of delivery of the bonds, including the bonds being sold, is \$474,000.

Approval of Bonds

The bonds will be sold subject to the legal opinion of Gilmore & Bell, P.C., Wichita, Kansas, bond counsel, whose approving legal opinion as to the validity of the bonds will be furnished and paid for by the issuer, printed on the bonds and delivered to the successful bidder as and when the bonds are delivered.

Additional Information

Additional information regarding the bonds may be obtained from the clerk, (316) 298-3077.
 Dated January 13, 1997.

City of Cunningham, Kansas

Doc. No. 018615

State of Kansas

Department of Health and Environment

Notice of Hearing on Proposed Administrative Regulations

The Kansas Department of Health and Environment will conduct a public hearing at 10 a.m. Monday, March 17, in the conference room at the Surface Mining Section Office, 4033 Parkview Drive, Frontenac, to consider changes to the regulations for the Kansas Mined-Land Conservation and Reclamation Act, K.S.A. 49-401 et seq. The changes to the regulations are required by the U.S. Department of Interior, Office of Surface Mining Reclamation and Enforcement.

Summary of Proposed Regulations

Article 1.—Describes general requirements of the KDHE to regulate the coal mining conducted in the state.

Revoked: 47-1-1, 47-1-10
 Amended: 47-1-3, 47-1-4, 47-1-8, 47-1-9 and 47-1-11

Article 2.—Provides the definitions used through the remaining regulations.

Revoked: 47-2-14
 Amended: 47-2-21, 47-2-53, 47-2-53a, 47-2-58, 47-2-64, 47-2-67, 47-2-74, 47-2-75

Article 3.—Describes the permitting requirements for a surface coal mining and reclamation permit.

Amended: 47-3-1, 47-3-2, 47-3-3a, 47-3-42

Article 4.—Describes the procedures and requirements for a public hearing.

Amended: 47-4-14a, 47-4-15 through 47-4-17

(continued)

Article 5.—Article 5.—Describes the procedures for the issuance of civil penalties.

Amended: 47-5-5a, 47-5-16

Article 6.—Describes the procedures and requirements for permit review.

Amended: 47-6-1 through 47-6-4, 47-6-6 through 47-6-10

Article 7.—Describes the procedures and requirements for coal exploration.

Amended: 47-7-2

Article 8.—Describes the procedures and requirements for bonding of coal mining permits.

Amended: 47-8-9, 47-8-11

Article 9.—Describes the performance standards for the surface mining and reclamation of coal.

Amended: 47-9-1, 47-9-2, 47-9-4

Article 10.—Describes the permitting requirements for an underground coal mining and reclamation permit.

Amended: 47-10-1

Article 11.—Describes the procedures and requirements for the state to aid coal mining operations that produce less than 300,000 tons of coal using the Small Operators Assistance Program.

Amended: 47-11-8

Article 12.—Describes the procedures and requirements for determining if lands are unsuitable for surface coal mining.

Amended: 47-11-8

Article 13.—Describes the procedures and requirements for the training, certification and responsibilities of blasters and operators.

Amended: 47-13-4 through 47-13-6

Article 14.—Describes the procedures and requirements to limit employee financial interests.

Amended: 47-14-7

Article 15.—Describes the procedures and requirements for the inspection and enforcement of coal mines.

Amended: 47-15-1a, 47-15-3, 47-15-4, 47-15-7, 47-15-8, 47-15-15, 47-15-17

Article 16.—Describes the procedures and requirements for the establishing and operation of the Abandoned Mined-Land Program.

Amended: 47-16-1 through 47-16-8

New: 47-16-9 through 47-16-11

Environmental Benefit

The existing laws contained within K.A.R. Chapter 47 deal with the protection of the environment during active coal mining operations and reclamation. The proposed regulation changes will benefit the environment by making the administration and enforcement of the existing laws ensuring environmental compliance more effective.

General Public

The proposed regulation changes will not impose any new costs on the general public.

Industrial and Agricultural

The proposed regulation change in K.A.R. Chapter 47, Article 9, requesting revegetation data submitted yearly, would involve minor costs for coal operators. These costs would include the handling and mailing of the revegetation data. Since the information is collected yearly anyway, and is currently submitted at the time of request for bond release, these costs would be insignificant and could be of great cost savings at the time of bond release. The other proposed regulation changes should not have a significant cost effect on the coal industry.

The proposed regulation changes will not impose any new costs on other industries or on agriculture.

State Agencies

The proposed regulation changes will have no real impact on any state agencies. The KDHE, Bureau of Environmental Remediation, is already responsible for the implementation of K.A.R. Chapter 47, and the regulation changes proposed will have little or no effect on the expenditures of the bureau.

Counties and Municipalities

The amended regulations should have no effect on the revenues of the counties, cities or municipalities in the state. These regulation changes should impose no new functions or responsibilities on counties, cities and municipalities which will increase their expenditures or fiscal liability. The regulation changes should create no net change in revenues, expenditures or fiscal liability above or below those experienced over the past few years.

The time period between the publication of this notice and the scheduled hearing constitutes a public comment period for the purpose of receiving written comments prior to the hearing. All interested parties may submit written comments to the Kansas Department of Health and Environment, Surface Mining Section, 4033 Parkview Drive, Frontenac, 66763. All interested parties will be given a reasonable opportunity to present their views orally during the hearing. In order to give all parties an opportunity to present their views, it may be necessary to limit each oral presentation to five minutes.

Copies of the proposed regulations and the economic impact statements may be obtained from Murray J. Balk, (316) 231-8540. A copy will be available for inspection at the Kansas Department of Health and Environment, Surface Mining Section, Frontenac.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulatory changes in an accessible format. Requests for accommodation should be made at least five working days in advance of the hearing by contacting Sheila DoByns of the Surface Mining Section Office, (316) 231-8540.

James J. O'Connell
Secretary of Health
and Environment

Doc. No. 018605

State of Kansas

Department of Transportation

Notice to Consulting Engineers

The Kansas Department of Transportation is seeking qualified consulting engineering firms for the projects listed below. Responses must be received by 5 p.m. February 6 for the consulting engineering firm to be considered. Seven signed copies of responses must be mailed to Neil R. Rusch, P.E., Assistant to the Director, Division of Engineering and Design, Room 1084-West, Docking State Office Building, 915 S.W. Harrison, Topeka, 66612-1568. Responses shall be limited to four pages.

From the firms expressing interest, the Consultant Selection Committee will select a list of the most highly qualified (not less than three, not more than five) and invite them to attend the individual interview conference. At this time, the consulting firms can more thoroughly discuss their experience related to the type of project at hand. Firms not selected will be notified by letter.

The Consulting Negotiating Committee, appointed by the Secretary of Transportation, will conduct discussions with the firms invited to the individual interview conferences. The committee will select the firm to perform the professional services required for completing the advertised project. After the selection of this firm, the remaining firms will be notified by letter of the outcome.

Project No. 4-99 K-6407-01, Wabaunsee County

The scope of service is to replace Bridge (044) over Mission Creek and Bridge (045) over Higby Creek, 13.13 km and 14.68 km northeast of the junction of K-99.

Project No. 7-11 K-6408-01, Cherokee County

Project No. 96-11 K-6429-01, Cherokee County

The scope of service is to replace Bridge (037) on K-7 over Cherry Creek, 0.66 km south of K-102 and Bridges (052) and (053) on K-96 over Cherry Creek, 8.96 km and 9.24 km east of the Labette County line.

Project No. 9-66 K-6410-01, Nemaha County

The scope of service is to replace Bridge (011) over the South Branch of the Black Vermillion Drainage, 6.08 km east of the Marshall County line.

Project No. 9-3 K-6411-01, Atchison County

The scope of service is to replace Bridge (029) over Grasshopper Creek, 2.9 km east of the Jackson County line.

Project No. 18-81 K-3433-01, Riley County

The scope of service is to replace Bridges (026) and (027) over K-113 in Manhattan.

Project No. 73-52 K-6430-01, Leavenworth County

The scope of service is to replace Bridge (013) over Three Mile Creek, 0.48 km north of K-92 in Leavenworth.

Project No. 148-79 K-6422-01, Republic County

The scope of service is to replace Bridge (034) over East Creek, 12.7 km east and north of US-81.

Project No. 160-63 K-2620-01, Montgomery County

The scope of service is to replace Bridge (019) over the Verdigris River Drainage, 2.06 km east of US-75.

It is the policy of KDOT to use the following criteria as the basis for selection of the consulting engineering firms:

1. size and professional qualifications;
2. experience of staff;
3. location of firm with respect to proposed project;
4. work load of firm; and
5. firm's performance record.

E. Dean Carlson
Secretary of Transportation

Doc. No. 018595

State of Kansas

Department of Health and Environment

Request for Comments

The Kansas Department of Health and Environment is soliciting comments regarding a proposed air quality operating permit. Phillips Pipe Line Company has applied for a Class II operating permit in accordance with the provisions of K.A.R. 28-19-540. Emissions of volatile organic compounds (VOCs) and hazardous air pollutants (HAPs) were evaluated during the permit review process. The purpose of the Class II permit is to limit the potential-to-emit for these pollutants to below major source thresholds.

Phillips Pipe Line Company, Bartlesville, Oklahoma, owns and operates the petroleum liquid storage and pipeline transportation facility located at 2029 Fairfax Trafficway, Kansas City Kansas.

A copy of the proposed permit, permit application, all supporting nonconfidential documentation and all information relied upon during the permit modification review process is available for public review during normal business hours at the KDHE, Bureau of Air and Radiation, Building 283, Forbes Field, Topeka, and at the Wyandotte County Health Department, Department of Air Quality, 619 Ann Ave., Kansas City. To obtain or review the proposed permit and supporting documentation, contact Michael E. Lewis, (913) 573-6700, at the Wyandotte County Health Department, or Connie Carreno, (913) 296-6422, at the KDHE. The standard departmental cost will be assessed for any copies requested.

Direct written comments or questions regarding the proposed permit to Michael E. Lewis, Wyandotte County Health Department, Department of Air Quality, 619 Ann Ave., Kansas City, KS 66101. Written comments must be received by the close of business February 17 in order to be considered in formulating a final permit decision.

A person may request a public hearing be conducted on the proposed permit. The request for a public hearing shall be in writing and set forth the basis for the request. The written request must be submitted to Connie Carreno, Bureau of Air and Radiation, Building 283, Forbes Field, Topeka, 66620, not later than the close of business February 17 in order for the Secretary of Health and Environment to consider the request.

Request for Comments

The Kansas Department of Health and Environment is soliciting comments regarding a proposed air quality construction permit. CertainTeed Corporation has applied for an air quality construction permit in accordance with the provisions of K.A.R. 28-19-300 to construct a new glass melt furnace and a new wool fiberglass insulation manufacturing line. Emissions of volatile organic compounds, hazardous air pollutants, oxides of nitrogen, sulfur dioxide, carbon monoxide, particulate matter, particulate matter with a diameter of 10 micrometers or less, and lead were evaluated during the permit review process.

CertainTeed Corporation, Blue Bell, Pennsylvania, owns and operates the stationary source located at 103 Funston Road, Kansas City, Kansas.

A copy of the proposed permit, permit application, all supporting nonconfidential documentation and all information relied upon during the permit modification review process is available for public review during normal business hours at the KDHE, Bureau of Air and Radiation, Building 283, Forbes Field, Topeka, and at the Wyandotte County Health Department, Department of Air Quality, 619 Ann Ave., Kansas City. To obtain or review the proposed permit and supporting documentation, contact Michael E. Lewis, (913) 573-6700, at the Wyandotte County Health Department, or Connie Carreno, (913) 296-6422, at the KDHE. The standard departmental cost will be assessed for any copies requested.

Direct written comments or questions regarding the proposed permit to Michael E. Lewis, Wyandotte County Health Department, Department of Air Quality, 619 Ann Ave., Kansas City, KS 66101. Written comments must be received by the close of business February 17 in order to be considered in formulating a final permit decision.

A person may request a public hearing be conducted on the proposed permit. The request for a public hearing shall be in writing and set forth the basis for the request.

The written request must be submitted to Connie Carreno, Bureau of Air and Radiation, Building 283, Forbes Field, Topeka, 66620, not later than the close of business February 17 in order for the Secretary of Health and Environment to consider the request.

James J. O'Connell

Request for Comments

The Kansas Department of Health and Environment is soliciting comments regarding a proposed air quality operating permit. The City of Gardner has applied for a Class II operating permit in accordance with the provisions of K.A.R. 28-19-540. Emissions of oxides of nitrogen, carbon monoxide and sulfur dioxide were evaluated during the permit review process. The purpose of a Class II permit is to limit the potential-to-emit for these pollutants to below major source thresholds.

The City of Gardner owns and operates the municipal power plant located at 1150 E. Santa Fe, Gardner.

A copy of the proposed permit, permit application, all supporting nonconfidential documentation and all information relied upon during the permit application review process is available for public review during normal business hours at the KDHE, Bureau of Air and Radiation, Building 283, Forbes Field, Topeka, and at the Johnson County Environmental Department, 11180 Thompson Ave., Lenexa. To obtain or review the proposed permit and supporting documentation, contact Douglas S. Warren, (913) 296-6281, at the KDHE central office, or Mike Boothe, (913) 492-0402, at the Johnson County Environmental Department. The standard departmental cost will be assessed for any copies requested.

Direct written comments or questions regarding the proposed permit to Douglas S. Warren, KDHE, Bureau of Air and Radiation, Building 283, Forbes Field, Topeka, 66620. Written comments must be received by the close of business February 17 in order to be considered in formulating a final permit decision.

A person may request a public hearing be conducted on the proposed permit. The request for a public hearing shall be in writing and set forth the basis for the request. The written request must be submitted to Connie Carreno, Bureau of Air and Radiation, not later than the close of business February 17 in order for the Secretary of Health and Environment to consider the request.

Request for Comments

The Kansas Department of Health and Environment is soliciting comments regarding a proposed air quality Class II operating permit. Farmland Industries, Inc. has applied for a Class II operating permit in accordance with the provisions of K.A.R. 28-19-540. Farmland Industries, Inc. manufactures and packages animal and poultry feed as well as dog and cat food. Emissions of particulate matter (PM₁₀) were evaluated during the permit review process. The purpose of the Class II operating permit is to limit the potential-to-emit of PM₁₀ to below 100 tons per year.

Farmland Industries, Inc., Kansas City, Kansas, owns and operates the stationary source located at 6833 Griffin Road, Kansas City, Kansas.

A copy of the proposed permit, permit application, all supporting nonconfidential documentation and all information relied upon during the permit application review process is available for public review during normal business hours at the Department of Air Quality, Wyandotte County Health Department, 619 Ann Ave., Kansas City, and at the Bureau of Air and Radiation, Kansas Department of Health and Environment, Building 283, Forbes Field, Topeka. To obtain or review the proposed permit and supporting documentation, contact Roylene A. Cunningham at the Wyandotte County Health Department, (913) 573-6700, or Connie Carreno at the Kansas Department of Health and Environment, (913) 296-6422. The standard departmental cost will be assessed for any copies requested.

Direct written comments or questions regarding the proposed permit to Roylene A. Cunningham, Department of Air Quality, Wyandotte County Health Department, 619 Ann Ave., Kansas City, KS 66101. Written comments must be received by the close of business February 17 in order to be considered in formulating a final permit decision.

A person may request a public hearing be conducted on the proposed permit. The request for a public hearing shall be in writing and set forth the basis for the request. The written request must be submitted to Connie Carreno, Bureau of Air and Radiation, Kansas Department of Health and Environment, Building 283, Forbes Field, Topeka, 66620, not later than the close of business February 17 in order for the Secretary of Health and Environment to consider the request.

Request for Comments

The Kansas Department of Health and Environment is soliciting comments regarding a proposed air quality Class II operating permit. Swift-Eckrich, Inc. has applied for a Class II operating permit in accordance with the provisions of K.A.R. 28-19-540. Swift-Eckrich, Inc. processes meat into a variety of meat products. Emissions from the products of combustion, generation of smoke and storage tank losses were evaluated during the permit review process. The purpose of the Class II operating permit is to limit the potential-to-emit of oxides of sulfur (SO_x).

Armour Swift-Eckrich, Downers Grove, Illinois, owns and operates the stationary source located at 4612 Speaker Road, Kansas City, Kansas.

A copy of the proposed permit, permit application, all supporting nonconfidential documentation and all information relied upon during the permit application review process is available for public review during normal business hours at the Department of Air Quality, Wyandotte County Health Department, 619 Ann Ave., Kansas City, and at the Bureau of Air and Radiation, Kansas Department of Health and Environment, Building 283, Forbes Field, Topeka. To obtain or review the proposed permit and supporting documentation, contact Stephanie Hirner at the Wyandotte County Health Department, (913) 573-6700, or Connie Carreno at the Kansas Department of Health and Environment, (913) 296-6422. The standard departmental cost will be assessed for any copies requested.

Direct written comments or questions regarding the proposed permit to Stephanie Hirner, Department of Air Quality, Wyandotte County Health Department, 619 Ann Ave., Kansas City, KS 66101. Written comments must be received by the close of business February 17 in order to be considered in formulating a final permit decision.

A person may request a public hearing be conducted on the proposed permit. The request for a public hearing shall be in writing and set forth the basis for the request. The written request must be submitted to Connie Carreno, Bureau of Air and Radiation, Kansas Department of Health and Environment, Building 283, Forbes Field, Topeka, 66620, not later than the close of business February 17 in order for the Secretary of Health and Environment to consider the request.

Notice of Hearing

A public hearing will be conducted by the Kansas Department of Health and Environment at 7 p.m. Monday, February 17, at the Andover United Methodist Church, 1429 N. Andover Road, Andover, to receive comments on the proposed issuance of an air quality permit. KDHE is proposing to issue the permit in accordance with the provisions of K.A.R. 28-19-300 (construction permits and approvals; applicability), authorizing Sherwin Williams to mix liquid and solid paint ingredients at a facility owned and operated by Sherwin Williams at 630 E. 13th, Andover. Emissions of volatile organic compounds and hazardous air pollutants were evaluated during the permit review process.

A copy of the proposed permit, permit application, supporting documentation and information relied upon during the permit application review process is available for public review during normal business hours at the KDHE, Bureau of Air and Radiation, Building 283, Forbes Field, Topeka, and at the KDHE south central district office, 130 S. Market, sixth floor, Wichita. To obtain or review the proposed permit and supporting documentation, contact Connie Carreno, (913) 296-6422, at the KDHE central office, or David Butler, (316) 337-6020, at the KDHE south central district office. The standard departmental cost will be assessed for any copies requested.

State of Kansas

Department of Health
and EnvironmentNotice Concerning Kansas
Water Pollution Control Permits

In accordance with state regulations 28-16-57 through 63, 28-18-1 through 4, 28-16-150 through 154, 28-46-7, and the authority vested with the state by the administrator of the U.S. Environmental Protection Agency, draft permits have been prepared for discharges to the waters of the United States and the State of Kansas for the class of dischargers described below. The determinations for permit content are based on staff review, applying the appropriate standards, regulations and effluent limitations of the State of Kansas and the EPA, and when issued will result in a state water pollution control permit and national pollutant discharge elimination system authorization subject to certain conditions.

Public Notice No. KS-AG-97-6/20

Name and Address of Applicant	Legal Description	Receiving Water
Ron Nickelson Route 1, Box 194 Penokee, KS 67659	NE/4, Sec. 22, T9S, R24W, Graham County.	Solomon River Basin

Kansas Permit No. A-SOGH-S005

This is an existing facility for 700 head (280 animal units) of swine.

Wastewater Control Facilities: Wastewater will be impounded for subsequent application to agricultural land for beneficial use. Wastewater storage capacity is provided, which meets or exceeds KDHE minimum requirements.

Compliance Schedule: None, existing controls adequate.

Name and Address of Applicant	Legal Description	Receiving Water
Lance McKinney d/b/a McKinney Farms 5702 N. West Road Newton, KS 67114	NW/4, Sec. 25, T22S, R1W, Harvey County	Little Arkansas River Basin

Kansas Permit No. A-LAHV-S025

This is an existing facility for 400 head (160 animal units) of swine.

Wastewater Control Facilities: Wastewater will be impounded for subsequent application to agricultural land for beneficial use. Wastewater storage capacity is provided, which meets or exceeds KDHE minimum requirements.

Compliance Schedule: A livestock waste management plan for the facility shall be developed. The plan shall cover, but not be limited to, the following items: handling and disposal equipment for both solid and liquid wastes, land application practices used to protect against runoff and leaching, waste application rates based on crop nutrient utilization, and identification of adequate land areas for application of all wastes. Detailed guidance and requirements will be provided by the department. A plan shall be submitted to the department within six months following receipt of detailed requirements. The approved plan will become part of this permit.

Public Notice No. KS-EG-97-002/004

In accordance with K.A.R. 28-46-7 and the authority vested with the state by the administrator of the U.S. Environmental Protection Agency, a draft permit has been

prepared for the continued use of the wells described below within the State of Kansas.

Name and Address of Applicant	Well Location
North American Salt Co. Hutchinson Facility 1800 Carey Blvd. Hutchinson, KS 67501	
Well Identification #85 KS Permit No. KS-03-155-067	SW¼, NE¼, SE¼, S17, T23S, R5W, Reno County 1538' fsl and 1088' fel from SE corner of Section
Well Identification #97 KS Permit No. KS-03-155-070	NE¼, SW¼, SE¼, S17, T23S, R5W, Reno County 1238' fsl and 1688' fel from SE corner of Section
Well Identification #107 KS Permit No. KS-03-155-071	SE¼, SW¼, SE¼, S17, T23S, R5W, Reno County 300' fsl and 1750' fel from SE corner of Section

Description: This is a salt solution mining operation. The injection fluids consist of fresh water only.

Written comments on the draft permits must be submitted to the attention of Lisa Duncan for agricultural permits or to the permit clerk for all other permits, Kansas Department of Health and Environment, Division of Environment, Bureau of Water, J Street and 2 North, Forbes Field, Building 283, Topeka, 66620. All comments post-marked or received on or before February 14 will be considered in the formulation of final determinations regarding this public notice. Please refer to the appropriate public notice number (KS-AG-97-6/20, KS-97-003/008, KS-ND-97-004/007, KS-EG-97-002/004) and the name of applicant as listed when preparing comments.

If no objections are received during the public notice period, the Secretary of Health and Environment will issue the final determination. If response to this notice indicates significant public interest, a public hearing may be held in conformance with state regulation 28-16-61 (28-46-21 for UIC). Media coordination for publication and/or announcement of the public notice or public hearing is handled by the Kansas Department of Health and Environment.

The applications, proposed permits, including proposed effluent limitations and special conditions, fact sheets as appropriate, comments received, and other information are on file and may be inspected at the Kansas Department of Health and Environment offices, Building 283, Forbes Field, Topeka, from 8 a.m. to 5 p.m. Monday through Friday. The documents are available upon request at the copying cost assessed by KDHE. Additional copies of this public notice also may be obtained at the Division of Environment.

James J. O'Connell
Secretary of Health
and Environment

Doc. No. 018608

State of Kansas

Department of Credit Unions

Permanent Administrative
Regulations

Article 4.—TRUST SUPERVISION

121-4-1. Definitions. For the purposes of this article, the following definitions shall apply: (a) "Account" means the trust or other fiduciary relationship which has been established with the corporate credit union.

(b) "Collective investment fund" means funds held by a corporate credit union as fiduciary and invested collectively in either of the following types of funds:

(1) a common trust fund maintained by the corporate credit union exclusively for the collective investment and reinvestment of moneys contributed to the fund by the corporate credit union in its capacity as trustee; or

(2) a fund consisting solely of assets of retirement, pension, profit-sharing, stock bonus or other trusts, if all such assets are only from retirement, pension, profit-sharing, stock bonus or other trusts that provide the corporate credit union with a certification of exemption from federal income tax under the internal revenue code.

(c) "Corporate credit union" means a corporate credit union as defined in K.S.A. 17-2231 which has been authorized by the administrator, pursuant to K.A.R. 121-4-2, to exercise fiduciary powers.

(d) "Fiduciary" means a corporate credit union undertaking to act alone or jointly with others primarily for the benefit of another in all matters connected with its undertaking as trustee.

(e) "Fiduciary powers" means the powers of a trustee to act as specified in the instrument establishing the trust.

(f) "Fiduciary records" means all documents which are written, transcribed, recorded, received or otherwise come into possession of a corporate credit union and which are necessary to preserve information concerning the acts and events relevant to the exercise of fiduciary powers by a corporate credit union.

(g) "Investment authority" means the responsibility conferred by action of law or a provision of an appropriate governing instrument to make, select or change investments, review investment decisions made by others, or to provide investment advice or counsel to others.

(h) "Investment discretion" means the authority of a corporate credit union, as trustee, to determine what securities, property, or other investments will be purchased or sold by or for an account.

(i) "Security" means any interest or instrument commonly known as a "security," whether in the nature of debt or equity.

(1) The term security includes the following:

(A) any stock, bond, note, debenture, or evidence of indebtedness; or

(B) any participation in or right to subscribe to or purchase any of these instruments.

(2) The term "security" does not include:

(A) any deposit or share account in a federally or state-insured bank or credit union;

(B) any loan participation;

(C) any letter of credit or other form of corporate credit union indebtedness incurred in the ordinary course of business;

(D) currency;

(E) any note, draft, bill of exchange, or banker's acceptance which has a maturity at the time of issuance of not more than nine months, exclusive of days of grace, or any renewal of such an instrument with a maturity which is likewise limited;

(F) units of a collective investment fund; or

(G) U.S. savings bonds.

(j) "Trust committee" means:

(1) the board of directors of the corporate credit union; or

(2) any committee of the board charged, by the board of directors, with the responsibility for administration and supervision of the trust activities of the corporate credit union. The trust committee may assign authority to other committees or individuals, as necessary and appropriate to carry out the committee's responsibility. (Authorized by and implementing K.S.A. 17-2214; effective Jan. 31, 1997.)

121-4-2. Authorization. (a) Upon application to and approval by the administrator, any corporate credit union may exercise fiduciary powers with respect to any trust established by or for the benefit of one or more shareholders of the corporate credit union.

(b) A trust may be and remain a member of a corporate credit union if:

(1) The persons eligible for membership in the corporate credit union include trusts for which the corporate credit union exercises fiduciary powers;

(2) the corporate credit union is the trustee for the trust;

(3) the instrument creating the trust irrevocably waives the right of the trust, as a member of the corporate credit union, to vote at any meeting of members and irrevocably instructs the trustee to not vote for or on behalf of the trust at any meeting of members; and

(4) the trust is admitted into membership by and complies with any membership requirements of the corporate credit union. (Authorized by and implementing K.S.A. 17-2214; effective Jan. 31, 1997.)

121-4-3. Administration of fiduciary powers. (a) The board of directors of each corporate credit union shall be responsible for the proper exercise of fiduciary powers by the corporate credit union.

(1) The board of directors of each corporate credit union shall be responsible for all matters pertinent to the proper exercise of fiduciary powers, including determining policies, investing and disposing of property held in a fiduciary capacity, and directing and reviewing the actions of all officers, employees, and committees utilized by the corporate credit union in the exercise of its fiduciary powers.

(2) In discharging this responsibility, the board of directors may assign the administration of any of the corporate credit union's fiduciary powers to any designated officer, employee, or committee. The board of directors shall make such an assignment by action of the board duly entered in its minutes.

(3) A corporate credit union shall not accept an account without the prior approval of the board, or the board's designee. Each corporate credit union shall make a written record of the acceptance of each account and of the relinquishment or closing of any account. Each corporate credit union shall, upon the acceptance of an account, promptly verify that assets received have been properly placed on accounting records and documented. The board shall ensure that at least once during every calendar year, and within 15 months of the last review, all assets held in fiduciary accounts where the corporate credit union has investment discretion, are reviewed to determine the advisability of retaining or disposing of such assets.

(b) The trust committee of each corporate credit union shall:

(1) consist of at least three directors;

(2) keep minutes of its actions, and if not comprised of the entire board of directors, periodically report its actions to the board of directors; and

(3) ensure that each officer and employee exercising investment discretion is bonded.

(c) Each corporate credit union exercising fiduciary powers shall designate, employ or retain legal counsel who shall be readily available to review fiduciary matters and to advise the corporate credit union.

(d) Each corporate credit union exercising fiduciary powers shall adopt written policies and procedures to ensure that each decision or recommendation to purchase or sell any security complies with the applicable federal and state securities laws. Such policies and procedures shall ensure that the corporate credit union does not use material inside information in connection with any decision or recommendation to purchase or sell any security. (Authorized by and implementing K.S.A. 17-2214; effective Jan. 31, 1997.)

121-4-4. Books and accounts. (a) Each corporate credit union exercising fiduciary powers shall retain fiduciary records which shall be kept separate and distinct from other records of the corporate credit union.

(b) Each corporate credit union shall keep an adequate record of all pending litigation to which it is a party in connection with its exercise of fiduciary powers.

(c) Each corporate credit union shall keep a record of all written complaints and related correspondence concerning any account.

(d) Each corporate credit union shall retain the records required by this article for such periods of time as shall be specified in a records retention policy adopted by the corporate credit union and approved by the administrator. (Authorized by and implementing K.S.A. 17-2214; effective Jan. 31, 1997.)

121-4-5. Audit of trust activities. (a) At least once each calendar year, each corporate credit union's supervisory committee shall cause an audit to be made of the books, records, funds and investments held in accounts. The audit shall be made by an independent certified public accountant. The supervisory committee shall make or cause to be made such supplementary audits as it deems necessary or as may be ordered by the administrator. A

report of each audit shall be provided to the board of directors.

(b) Each account subject to this article shall be exempt from the certification requirements of K.S.A. 17-2211(e). (Authorized by and implementing K.S.A. 17-2214; effective Jan. 31, 1997.)

121-4-6. Funds awaiting investment or distribution. (a) Funds in an account which are awaiting investment or distribution shall not be held uninvested or undistributed any longer than is reasonable for the proper management of the account.

(1) Each corporate credit union exercising fiduciary powers shall adopt and follow written policies and procedures intended to provide a rate of return on investment of funds in an account that is:

(A) prudent given the rate of return available for trust-quality, short-term investments; and

(B) consistent with the requirements of the governing instrument and local laws.

(2) These policies and procedures shall take into consideration all relevant factors, including the following:

(A) the anticipated return that could be obtained while the cash remains uninvested or undistributed;

(B) the cost of investing the funds;

(C) the anticipated need for the funds; and

(D) the costs and operational complexities of implementing and maintaining the investments for the corporate credit union.

(b)(1) Any corporate credit union may invest funds it holds in trust which are awaiting investment or distribution in the share or share certificate accounts of the corporate credit union when:

(A) the trust is a member of the corporate credit union; and

(B) the instrument creating the trust does not prohibit such an investment.

(2) Except as provided in paragraph (3), the maximum amount of funds in an account that may be invested in share or share certificate accounts of the corporate credit union shall be an amount equal to the insurance coverage provided by the national credit union share insurance fund for such accounts.

(3) If the instrument creating the trust expressly authorizes investments in such share and share certificate accounts and also specifies the maximum amount or percentage of trust assets that may be invested in such share and share certificate accounts, the corporate credit union may invest an amount up to the maximum amount specified in the instrument creating the trust. (Authorized by and implementing K.S.A. 17-2214; effective Jan. 31, 1997.)

121-4-7. Investment of funds held as fiduciary. Funds held in an account shall be invested in accordance with any one or more of the following:

(a) the instrument establishing the fiduciary relationship;

(b) any and all applicable Kansas statutes and regulations, including K.S.A. 17-5004, and K.A.R. 121-4-10 and amendments thereto. (Authorized by and implementing K.S.A. 17-2214; effective Jan. 31, 1997.)

(continued)

121-4-8. Self-dealing. (a) Unless lawfully authorized by the instrument creating the relationship, by court order, or by the laws of the state of Kansas, a corporate credit union shall not invest funds from an account in stock or obligations of, or property acquired from any of the following:

(1) the corporate credit union, or its directors, officers, or employees, or from individuals associated with such persons;

(2) organizations in which there exists an interest which might affect the exercise of the best judgment of the corporate credit union in acquiring the property; or

(3) affiliates of the corporate credit union, or their directors, officers or employees.

(b) Except as provided in subsection (c), property held by a corporate credit union as fiduciary shall not be sold at private sale or transferred, by loan, or otherwise to any of the following:

(1) the corporate credit union, or its directors, officers, or employees, or any individual associated with such persons;

(2) organizations in which there exists an interest which might affect the exercise of the best judgment of the corporate credit union in selling or transferring the property; or

(3) affiliates of the corporate credit union or their directors, officers or employees.

(c) Subsection (b) shall not apply to the sale or transfer of property if:

(1) lawfully authorized by the instrument creating the relationship, by written direction from the person or persons holding the power to amend or terminate the trust, by court order or by the laws of the state of Kansas;

(2) the corporate credit union has been advised by its counsel, in writing, that it has incurred as fiduciary a contingent or potential liability and the corporate credit union desires to relieve itself from liability. Such a sale or transfer may be made with the approval of the board of directors. In all such cases the corporate credit union shall reimburse the account in cash, at no loss to the account, upon the consummation of sale or transfer; or

(3) the sale or transfer is in accordance with paragraph (b)(8)(B) of K.A.R. 121-4-10 and amendments thereto.

(d) Except as provided in subsection (b) of K.A.R. 121-4-6, a corporate credit union shall not invest funds in an account by the purchase of shares, share certificates, or other obligations of the corporate credit union or its affiliates, unless authorized by the instrument creating the relationship, by court order, or by the laws of the state of Kansas.

(e) Any corporate credit union may sell assets in one account to itself as fiduciary in another account if the transaction is fair to both accounts and is not prohibited by any governing instrument.

(f) Any corporate credit union may make a loan to an account from the funds belonging to another account, when the making of these loans to a designated account is authorized by the instrument creating the account from which the loans are made.

(g) Any corporate credit union may make a loan to an account and may take as security assets of the account, if

the trust is a member of the corporate credit union and the transaction is fair to the account.

(h) A corporate credit union shall not permit any of its officers or employees to act as a co-fiduciary with the corporate credit union in the administration of any account. (Authorized by and implementing K.S.A. 17-2214; effective Jan. 31, 1997.)

121-4-9. Custody of investments. (a) Each corporate credit union shall keep the investments of each account separate from the assets of the corporate credit union, and shall place the investments in the joint custody or control of not less than two of the officers or employees of the corporate credit union designated for that purpose by the board of directors.

(b) Any corporate credit union may permit the investments of an account to be deposited elsewhere. In such cases, the corporate credit union shall obtain a written agreement from all depositories, other than the federal reserve bank.

(c) Each corporate credit union shall either:

(1) keep the investments of each account separate from those of all other accounts, except as provided in K.A.R. 121-4-10 and amendments thereto; or

(2) identify each investment as the property of the relevant account. (Authorized by and implementing K.S.A. 17-2214; effective Jan. 31, 1997.)

121-4-10. Collective investment. (a) Funds held by a corporate credit union as fiduciary may be invested collectively:

(1) in a common trust fund maintained by the corporate credit union exclusively for the collective investment and reinvestment of moneys contributed to the common trust fund by the corporate credit union in its capacity as trustee; or

(2) in a fund consisting solely of assets of retirement, pension, profit-sharing, stock bonus or other trusts, if all such assets are only from retirement, pension, profit-sharing, stock bonus or other trusts that provide the corporate credit union with a certification of exemption from federal income tax under the internal revenue code.

(b) Collective investment funds, as defined in subsection (b) of K.A.R. 121-4-1, shall be administered as follows:

(1) Each collective investment fund shall be established and maintained in accordance with a written plan, referred to in this regulation as the plan, which shall be approved by a resolution of the corporate credit union board of directors and filed with the administrator.

(A) The plan shall contain appropriate provisions not inconsistent with the rules and regulations of the administrator as to the manner in which the fund is to be operated. The plan shall include provisions relating to:

(i) the investment powers and the investment policy of the corporate credit union with respect to the fund;

(ii) the allocation of income, profits and losses;

(iii) the terms and conditions governing the admission or withdrawal of participations in the fund;

(iv) the auditing of accounts of the corporate credit union with respect to the fund;

(v) the basis and method of valuing assets in the fund, setting forth criteria for each type of asset;

(vi) the minimum frequency for valuation of assets of the fund;

(vii) the period following each such valuation date during which the valuation may be made which shall not exceed 10 business days, except in unusual circumstances.

(viii) the basis upon which the fund may be terminated; and

(ix) any other matters as may be necessary to define clearly the rights of participants in the fund.

(B) Except as otherwise provided in paragraph (b)(15) of this regulation, fund assets shall be valued at market value unless that value is not readily ascertainable, in which case a fair value determined in good faith by the fund trustees may be used.

(C) The corporate credit union shall make a copy of the plan available for inspection at its principal office during all business hours, and upon request, shall furnish a copy of the plan to any person.

(2) Property held by a corporate credit union in its capacity as trustee of retirement, pension, profit-sharing, stock bonus, or other trusts may be invested in collective investment funds, subject to the provisions herein contained pertaining to such funds.

(3) All participants in the collective investment fund shall be on the basis of a proportionate interest in all of the assets. In order to determine whether the investment of funds received or held by a corporate credit union as fiduciary in a participation in a collective investment fund is proper, the corporate credit union may consider the collective investment fund as a whole and shall not be prohibited from making the investment because any particular asset is non-income producing.

(4) At least once every three months, a corporate credit union administering a collective investment fund shall determine the value of the assets in the fund as of the date set for the valuation of assets.

(A) A participation shall not be admitted to or withdrawn from the fund except:

(i) on the basis of the valuation; and

(ii) as of the valuation date.

(B) A participation shall not be admitted to or withdrawn from the fund unless a written request for or notice of intention of taking such action has been entered in the fiduciary records of the corporate credit union on or before the valuation date and approved in the manner prescribed by the board of directors. No requests or notices may be canceled or countermanded after this valuation date.

(C) If a fund described in paragraph (a)(2) of this regulation is to be invested in assets which are not readily marketable, the corporate credit union may require a prior notice of withdrawal. The required notice shall not exceed one year.

(5)(A) At least once during each 12-month period, each corporate credit union administering a collective investment fund shall cause an adequate audit to be made of the collective investment fund by auditors responsible only to the supervisory committee of the corporate credit union. If the audit is performed by independent public accountants, the reasonable expenses of the audit may be charged to the collective investment fund.

(B) At least once during each 12-month period, each corporate credit union administering a collective investment fund shall prepare a financial report of the fund. This report shall be based upon the above audit and shall contain a list of investments in the fund showing:

(i) the cost and current market value of each investment;

(ii) a statement for the period since the previous report showing each purchase, and its cost;

(iii) a statement for the period since the previous report showing each sale, and its profit or loss, and any other investment changes;

(iv) income and disbursements; and

(v) an appropriate notation as to any investments in default.

(C) The financial report may include a description of the fund's value on previous dates, as well as its income and disbursements during previous accounting periods. Predictions or representations as to future results shall not be made. In addition, as to funds described in paragraph (a)(1) of this regulation, neither the report nor any other publication of the corporate credit union shall make reference to the performance of funds other than those administered by the corporate credit union.

(D) The corporate credit union shall furnish a copy of the financial report, or shall give notice that a copy of the report is available and will be furnished without charge upon request, to each person to whom a regular periodic accounting would ordinarily be rendered with respect to each participating account. A copy of the financial report may also be furnished to prospective beneficial owners. The corporate credit union shall bear the cost of printing and distributing these reports. In addition, a copy of the report shall be furnished upon request to any person for a reasonable charge. The corporate credit union may publicize the availability of the report for any fund described in paragraph (a)(1) of this regulation solely in connection with the promotion of the fiduciary services of the corporate credit union.

(E) Except as provided in this regulation, the corporate credit union shall not advertise or publicize its collective investment fund or funds described in paragraph (a)(1) of this regulation.

(6) When a participation is withdrawn from a collective investment fund, distributions may be made in cash or ratably in kind, or partly in cash and partly in kind; provided that all distributions as of any one valuation date shall be made on the same basis.

(7) If, for any reason, an investment is withdrawn in kind from a collective investment fund for the benefit of all participants in the fund at the time of the withdrawal and the investment is not distributed ratably in kind, it shall be segregated and administered or realized upon for the benefit ratably of all participants in the collective investment fund at the time of withdrawal.

(8)(A) A corporate credit union shall not have any interest in a collective investment fund other than in its fiduciary capacity. Except for temporary net cash overdrafts or as otherwise specifically provided in this regulation, a corporate credit union shall not lend money to a fund, or sell property to, or purchase property from a

(continued)

fund. Assets of a collective investment fund shall not be invested in stock or obligations, including share and share certificate accounts, of the corporate credit union or any of its affiliates except that funds awaiting investments or distribution may be invested in such share and share certificate accounts. Subject to all other provisions of this regulation, funds held by a corporate credit union as fiduciary for its own employees may be invested in a collective investment fund. A corporate credit union shall not make any loan on the security of a participation in a fund. If the corporate credit union acquires an interest in a participation in a fund due to a creditor relationship or other factors, the participation shall be withdrawn on the first date on which such a withdrawal can be effected. An unsecured advance to an account holding a participation shall not be deemed to constitute the acquisition of an interest by a corporate credit union until the next established valuation date.

(B) Any corporate credit union administering a collective investment fund may purchase from the fund, for its own account, any defaulted fixed income investment held by the fund, if in the judgment of the board of directors, the cost of segregating the investment would be greater than the difference between its market value and its principal amount plus interest and penalty charges due. If the corporate credit union elects to purchase the investment, it shall make the purchase at the investment's market value or at the sum of its cost, accrued unpaid interest, and penalty charges, whichever is greater.

(9) Except in the case of collective investment funds described in paragraph (a)(2) of this regulation, the following requirements shall apply.

(A) Funds or other property shall not be invested in a participation in a collective investment fund if as a result of the investment the participant would have an aggregate interest in excess of 10 percent of the then market value of the fund. In applying this limitation, if two or more accounts are created by the same person or persons, and at least one-half of the income or principal of each account is payable or attributable to the use of the same person or persons, those accounts shall be considered as one.

(B) An investment for a collective investment fund shall not be made in stocks, bonds or other obligations of any one person, firm or corporation if, as a result of such investment, the total amount invested in stocks, bonds, or other obligations issued or guaranteed by that person, firm or corporation would exceed 10 percent of the then market value of the fund. This limitation shall not apply to investments in direct obligations of the United States or other obligations fully guaranteed by the United States as to principal and interest.

(C) Each corporate credit union administering a collective investment fund shall maintain, in cash and readily marketable investments, a percentage of the assets of the fund which is sufficient to provide adequately for the liquidity needs of the fund and to prevent inequities among fund participants.

(10) The reasonable expenses incurred in servicing mortgages held by a collective investment fund may be charged against the income account of the fund and paid

to servicing agents, including the corporate credit union administering the fund.

(11)(A) Any corporate credit union may transfer up to five percent of the net income derived by a collective investment fund from mortgages held by such fund during any regular accounting period to a reserve account unless the transfer would cause the amount in the reserve account to exceed one percent of the outstanding principal amount of all mortgages held in the fund. The amount of such a reserve account, if established, shall be deducted from the assets of the fund in determining the fair market value of the fund for the purposes of admissions and withdrawals.

(B) At the end of each accounting period, the corporate credit union shall charge all interest payments which are due but unpaid with respect to mortgages in the fund against the reserve account to the extent available and credited to income distributed to participants. If such interest payments are subsequently recovered by the fund, the reserve account shall be credited with the amount so recovered.

(12)(A) Each corporate credit union administering a collective investment fund shall have the exclusive management thereof.

(B) The corporate credit union may charge a fee for the management of the collective investment fund provided that the fractional part of the fee which is proportionate to the interest of each participant shall not, when added to any other compensations charged by a corporate credit union to a participant, exceed the total amount of compensation which would have been charged to the participant if no assets of the participant had been invested in a participation in the fund.

(C) The corporate credit union shall absorb the costs of establishing or reorganizing a collective investment fund.

(13) A corporate credit union administering a collective investment fund shall not issue any certificate or other document evidencing a direct or indirect interest in such fund in any form.

(14) A mistake made in good faith and in the exercise of due care in connection with the administration of a collective investment fund shall not be deemed to be a violation of this regulation if promptly after the discovery of the mistake the corporate credit union takes whatever action may be practicable in the circumstances to remedy the mistake.

(15) Short-term investment funds established under subsection (a) of this regulation may be operated on a cost basis, rather than market value basis, for purposes of admissions and withdrawals, if the plan of operation satisfies each of the following conditions.

(A) Investments shall be limited to bonds, notes or other evidences of indebtedness which:

(i) are payable on demand, including variable amount notes; or

(ii) have a maturity date not exceeding 91 days from the date of purchase. However, 20 percent of the value of the fund may be invested in longer term obligations.

(B) The difference between the cost and anticipated principal receipt on maturity shall be accrued on a straight-line basis.

(C) Assets of the fund shall be held until maturity under usual circumstances.

(D) After effecting admissions and withdrawals, not less than 20 percent of the value of the remaining assets of the fund shall be composed of cash, demand obligations and assets that will mature on the fund's next business day.

(c) In addition to the investments permitted under subsection (a) of this regulation, funds or other property received or held by a corporate credit union as fiduciary may be invested collectively, to the extent not prohibited by applicable federal or state law or regulation, as follows:

(1) Such funds or property may be invested in shares of a mutual trust investment company, organized and operated pursuant to a statute that specifically authorizes the organization of such companies exclusively for the investment of funds held by corporate fiduciaries, commonly referred to as a "bank or trust company fiduciary fund."

(2) Such funds or property may be invested in the following:

(A) a single real estate loan;

(B) a direct obligation of the United States or an obligation fully guaranteed by the United States; or

(C) in a single fixed amount security, obligation or other property, either real, personal or mixed, of a single issuer. However, the corporate credit union shall not participate in such loans or obligations and shall not have an interest in any investment therein except in its capacity as fiduciary.

(3) Such funds or property may be invested in a common trust fund maintained by the corporate credit union for the collective investment of cash balances received or held by a corporate credit union in its capacity as trustee which the corporate credit union considers to be individually too small to be invested separately to advantage.

(A)(i) The total investment for such fund shall not exceed \$100,000.

(ii) The number of participating accounts shall be limited to 100.

(iii) No participating account may have an interest in the fund in excess of \$10,000.

(B) In applying these limitations, if two or more accounts are created by the same person or persons, and at least one-half of the income or principal of each account is presently payable or attributable to the use of the same person or persons, such accounts shall be considered as one.

(C) A corporate credit union shall not establish or operate a fund under this paragraph for the purpose of avoiding the provisions of subsection (b) of this regulation.

(4) Such funds or property may be invested, in the case of trusts created by a corporation, its subsidiaries and affiliates or by several individual settlors who are closely related, in any investment specifically authorized by court order, or authorized by the instrument creating the fiduciary relationship. An investment shall not be made under this paragraph for the purpose of avoiding the provisions of subsection (b) of this regulation.

(5) Such funds or property may be invested in such other manner as shall be approved in writing by the administrator. (Authorized by and implementing K.S.A. 17-2214; effective Jan. 31, 1997.)

121-4-11. Location of trust documents. (a) Each corporate credit union shall maintain all records required by this article and the original governing instruments establishing a fiduciary relationship with the corporate credit union at one site, which shall be either:

- (1) the main office of the corporate credit union; or
- (2) another site approved by the administrator.

(b) For purposes of examination, the corporate credit union shall make available original governing instruments and other records as deemed necessary by the administrator to complete an examination. (Authorized by and implementing K.S.A. 17-2214; effective Jan. 31, 1997.)

John P. Smith
Administrator

Doc. No. 018603

State of Kansas

Board of Emergency Medical Services

Permanent Administrative Regulations

Article 1.—DEFINITIONS

109-1-1. Definitions. The following words and phrases shall have the following meanings as used in these regulations. (a) "Emergency care" means the services provided after the onset of a medical condition of sufficient severity that the absence of immediate medical attention could reasonably be expected to:

- (1) place the patient's health in serious jeopardy;
- (2) seriously impair bodily functions; or
- (3) result in serious dysfunction of any bodily organ or part.

(b) "Public call" means the request for an ambulance to respond to the scene of a medical emergency or accident by an individual or agency other than:

- (1) a type I or type II ambulance service;
- (2) the Kansas highway patrol or any law enforcement officer certified as an attendant who is at the scene of an accident or medical emergency;
- (3) a physician who is at the scene of an accident or medical emergency; or
- (4) an attendant who has been dispatched to provide emergency first response, and who is at the scene of an accident or medical emergency.

(c) "Air medical advisor" means a physician as defined by K.S.A. 65-6112 who is:

- (1) trained and experienced in care consistent with the air ambulance service's mission statement; and
- (2) knowledgeable in altitude physiology and the complications which may arise due to air medical transport.

(d) "Continuing education" means a formally organized learning experience that has education as its explicit principal intent, and is oriented towards the enhancement of emergency medical services practice, values, skills, and knowledge.

(continued)

(e) "Prior-approved continuing education" means the following:

(1) single program material submitted by a provider to the board that is reviewed and subsequently approved by the administrator in accordance with criteria established by the board, and assigned a continuing education number;

(2) any continuing education offered by a provider with approved-provider status; or

(3) academic emergency medical services courses taken for credit or audited.

(f) "Retroactively-approved continuing education" means materials submitted for continuing education credit by the attendant after attending the workshop, conference, seminar, or other offering that is reviewed and subsequently approved by the administrator in accordance with criteria established by the board.

(g) "Providers of continuing education" means individuals, groups, professional associations, schools, institutions, organizations or agencies approved by the administrator to offer continuing education programs on either approved-provider status or single program-provider status.

(h) "Approved-provider status" means the provider has been approved by the board to provide any continuing education program. Approved-provider status may be granted for a one-year probationary period to new applicants. After completion of the probationary year, approved-providers may re-apply for approval biennially.

(i) "Single program-provider status" means the provider has been granted approval to offer a specific continuing education program utilizing the national highway traffic safety administration department of transportation training objectives, as in effect on June 1, 1993, for the certification level for which the training program is intended.

(j) "Training officer I" means a person who has been approved by the board as a single program-provider to coordinate attendant continuing education training programs for EMS services, utilizing the national highway traffic safety administration department of transportation training objectives, as in effect on June 1, 1993, for the level of certification for which the training program is intended. Training officer I approval by the board shall be contingent upon successful annual completion of a training officer program approved by the board and appointment annually by the local appointing authorities as determined by the board.

(k) "Training officer II" means a person who, in addition to having the approval as a training officer I, has been approved by the board to coordinate and instruct first responder initial courses of instruction.

(l) As used in K.S.A. 65-6133, unprofessional conduct, as applied to attendants, means conduct which violates those standards of professional behavior which through professional experience have become established by the consensus of expert opinion of the members of the emergency medical services profession as reasonably necessary for the protection of the public. Such conduct shall include the following:

(1) performing acts beyond the activities authorized for the level at which the individual is certified;

(2) failing to take appropriate action to safeguard the patient;

(3) falsifying a patient's or an ambulance service's records;

(4) verbally, sexually, or physically abusing a patient;

(5) violating statutes, rules or regulations concerning the confidentiality of medical records or patient information obtained in the course of professional work;

(6) diverting drugs or any property belonging to a patient or an agency;

(7) providing patient care while under the influence of alcohol or illegal drugs;

(8) making a false or misleading statement on an application for certification renewal or any agency record; and

(9) engaging in any fraudulent or dishonest act which is related to the qualifications, functions or duties of an attendant.

(m) As used in K.S.A. 65-6133, unprofessional conduct as applied to instructor-coordinators, means the following:

(1) engaging in behavior that demeans a student. Such behavior shall include ridiculing a student in front of other students or engaging in any inhumane or discriminatory treatment of any student or group of students;

(2) verbally or physically abusing a student;

(3) failing to take appropriate action to safeguard a student;

(4) falsifying any document relating to a student or the emergency medical services agency;

(5) violating any statutes or regulations concerning the confidentiality of student records;

(6) obtaining or seeking to obtain any benefit, including a sexual favor from a student through duress, coercion, fraud, or misrepresentation, or creating an environment which subjects a student to unwelcome sexual advances which includes physical touching or verbal expressions;

(7) conducting class lessons while under the influence of alcohol or illegal drugs;

(8) reproducing or duplicating a state examination for certification without board authority;

(9) engaging in any fraudulent or dishonest act which is related to the qualifications, functions, or duties of an instructor-coordinator; or

(10) willfully failing to adhere to the course syllabus.

(n) As used in K.S.A. 65-6132, incompetence, as applied to an operator, means an inability to provide the level of service required for the class of permit held.

(o) As used in K.S.A. 65-6133, incompetence, as applied to instructor-coordinators, means a pattern of practice or other behavior that demonstrates a manifest incapacity or inability to instruct.

(p) As used in K.S.A. 65-6133, incompetence, as applied to attendants, means a demonstrated lack of ability, knowledge, or fitness to perform patient care according to applicable medical protocols or as defined by the authorized activities of the attendant's level of certification.

(q) "Type I ambulance service" means a ground-based service which provides emergency response and advanced life support, as described in the authorized activ-

ities of mobile intensive care technicians in K.S.A. 65-6119.

(r) "Type II ambulance service" means a ground-based service which provides emergency response and basic life support, as described in authorized activities of emergency medical technicians in K.S.A. 65-6121. A Type II ambulance service may provide advanced life support when staffed with:

- (1) emergency medical technicians-intermediate;
- (2) emergency medical technicians-defibrillator;
- (3) mobile intensive care technicians;
- (4) licensed professional nurses;
- (5) registered physician's assistants; or
- (6) physicians.

(s) "Type V ambulance service" means an air or ground-based ambulance service which provides critical care transport, as defined in K.A.R. 109-1-1, and is not subject to public call.

(t) "Air ambulance" means a fixed-wing or rotorwing aircraft which is specially designed, constructed or modified, maintained, and equipped to provide air medical transportation of patients.

(u) "Instructor-coordinator" means any of the following individuals who are certified to instruct and coordinate attendant training programs:

- (1) emergency medical technician;
- (2) emergency medical technician intermediate;
- (3) emergency medical technician-defibrillator;
- (4) mobile intensive care technician;
- (5) physician; or
- (6) licensed professional nurse.

(v) "Administrator" means the administrator of the emergency medical services board.

(w) "Site coordinator" means a person supervising, facilitating, or monitoring students, facilities, faculty or equipment at a training site.

(x) "Air medical personnel" means the attendants listed with the air ambulance service, specialty patient care providers specific to the mission and the pilot or pilots necessary for the operation of the aircraft.

(y) "Critical care transport" means transport by a type V ambulance of a patient who receives care commensurate with the scope of practice of a physician or a licensed professional nurse. (Authorized by K.S.A. 1995 Supp. 65-6110; implementing K.S.A. 1995 Supp. 65-6110, 65-6111, 65-6132, 65-6133; effective May 1, 1985; amended May 1, 1986; amended, T-88-12, May 18, 1987; amended, T-88-24, July 15, 1987; amended May 1, 1988; amended July 17, 1989; amended March 16, 1992; amended Jan. 31, 1994; amended Jan. 30, 1995; amended Jan. 31, 1997.)

109-1-2. Medical advisor. Each air ambulance service shall have an air medical advisor who is responsible for advising the air ambulance service on policies and procedures which assure that the appropriate aircraft, medical personnel, and equipment are provided during air ambulance transport. When necessary, the air medical advisor may designate another licensed physician to perform the air medical advisor's duties. (Authorized by K.S.A. 1995 Supp. 65-6110; implementing K.S.A. 65-6126; effective Jan. 31, 1997.)

Article 2.—AMBULANCE SERVICES; PERMITS AND REGULATIONS

109-2-1. Service director. Each operator shall designate a person as the service director. The service director shall be responsible for the operation of the ambulance service, and shall be available to the board regarding permit and regulatory matters. (Authorized by K.S.A. 1995 Supp. 65-6110; implementing K.S.A. 65-6127; effective May 1, 1985; amended July 17, 1989; amended Jan. 31, 1997.)

109-2-2. Application for permit and permit renewal. (a) Each application for a permit shall be submitted to the administrator.

(b) Each application for renewal of a permit shall be provided to the administrator no later than 30 days before expiration of the permit.

(c) If the application is incomplete, the applicant shall be notified by the administrator as to what additional information is necessary. If the applicant has not responded within 10 days of the request for additional information, the applicant shall be notified by the administrator that the application is considered withdrawn.

(d) Each applicant shall apply for only one permit for each ambulance service the applicant operates. That permit shall indicate the level of service for which the permit is issued. (Authorized by and implementing K.S.A. 1995 Supp. 65-6110, K.S.A. 1995 Supp. 65-6111, 65-6127, and 65-6128; effective May 1, 1985; amended July 17, 1989; amended Jan. 31, 1997.)

109-2-3. (Authorized by and implementing K.S.A. 1984 Supp. 65-4318; effective May 1, 1985; revoked Jan. 31, 1997.)

109-2-4. Display of permits, licenses, and certificates. (a) Each operator shall prominently display the ambulance service permit at the service's administrative office.

(b) Each operator shall maintain a current list of the service's attendants, and shall maintain a current copy of each attendant's certification or renewal card.

(c) Each ambulance shall have the ambulance license prominently displayed in the patient compartment. (Authorized by and implementing K.S.A. 1995 Supp. 65-6110, 65-6111, K.S.A. 65-6127 and 65-6128; effective May 1, 1985; amended July 17, 1989; amended Jan. 31, 1997.)

109-2-5. Ambulance service operational standards. (a) Each ambulance service in a county which has been assigned to the emergency medical services communications system by the board and which operates ambulances that are required to have direct, two-way radio communications shall fully participate in the operation and maintenance of that communications system.

(b) No person who boards an ambulance shall carry on board or wear any firearm, whether concealed or visible while the ambulance is operating in any patient transport function within the state. However, the prohibition shall not apply to law enforcement officers as defined in K.S.A. 74-5602 or corrections officers as defined in K.S.A. 75-5202.

(continued)

(c) Smoking shall be prohibited in the patient and driver compartments at all times.

(d) Each operator shall clean and maintain in good, working order the interior and exterior of the ambulance and any medical supplies and equipment within the ambulance, except when the vehicle has been placed "out of service."

(e) Each operator shall use freshly laundered linen or disposable linen on cots and pillows, and the linen shall be changed after each patient is transported.

(f) When an ambulance has been utilized to transport a patient known to have an infectious disease, the operator shall disinfect the ambulance, any equipment used, and all contact surfaces according to the service's infectious disease exposure plan. The operator shall place the ambulance "out of service" until a thorough cleansing is conducted.

(g) Each operator shall place in cabinets or properly secure all equipment in the patient compartment while the vehicle is in motion.

(h) Each ground ambulance shall receive a mechanical and safety inspection prior to December 1st of each year. Each operator shall provide a report of the inspection results to the board on forms provided by the administrator. An operator shall correct all deficiencies determined by the inspection prior to submitting the inspection form.

(i) Each operator shall submit the mechanical and safety inspection forms to the board with the application for ambulance vehicle licensure or renewal.

(j) Each operator shall park all ground ambulances in a completely enclosed building with a solid concrete floor. Each operator shall maintain the interior heat at no less than 50 degrees Fahrenheit. Each operator shall ensure that the interior of the building is kept clean and has adequate lighting. Each operator shall store all supplies and equipment in a safe manner.

(k) Each licensed ambulance shall meet all regulatory requirements for the ambulance license type, except when the operator has notified the administrator that the ambulance is out of service.

(l) An operator may apply for a temporary license for an ambulance. Each temporary license shall be valid for 60 days and may be approved for additional time by the administrator.

(m) If an operator has only one licensed ambulance, and this ambulance is out of service for more than 24 hours due to mechanical failure, maintenance, or repair, the operator shall notify the administrator and submit an alternative plan for providing ambulance service for the operator's primary territory of coverage. The alternative plan shall be subject to approval by the administrator and shall remain in effect no more than 15 days from the date of approval.

(n) Each operator shall have a telephone with an advertised emergency number which is answered by an attendant or other person designated by the operator 24 hours a day. Answering machines shall not be permitted.

(o) Each operator shall maintain a place of business at an identified street address where the permit is posted and service records are kept.

(p) Each operator shall maintain a current call schedule or duty roster which demonstrates compliance with

K.S.A. 65-6135. The duty roster shall reflect appropriate staffing for the service and ambulance type as defined in K.A.R. 109-2-6 and 109-2-7.

(q) A patient care report form shall be completed for each patient receiving pre-hospital assessment, care or transportation either to or from a medical facility. Each operator shall furnish a completed copy or copies of each patient care report form to the board on request.

(r) Each operator shall maintain a daily record of each request for ambulance response. This record shall include the date, time of call, scene location, vehicle number, trip number, patient's name, agency or person calling, nature of call and disposition of each patient.

(s) Each operator shall maintain a copy of each patient care record for a period of not less than three years.

(t) An attendant shall leave a copy of the patient care report form for each patient transported by ambulance at the hospital receiving the patient.

(u) In the event that an attendant is unable to complete a patient care report form before leaving the receiving hospital, an attendant shall provide a copy of the patient care report form to the receiving hospital within 24 hours of the patient's arrival.

(v) Each publicly subsidized operator shall provide the following statistical information to the board before March 1st of each calendar year:

(1) the number of emergency and non-emergency ambulance responses and the number of patients transported for the previous calendar year;

(2) the operating budget and tax subsidy;

(3) the charge for emergency and non-emergency patient transports, including mileage fees; and

(4) the number of full-time, part-time, and volunteer staff.

(w) Each operator shall provide a quality improvement program which establishes medical review procedures for monitoring patient care activities. This program shall include policies and procedures for reviewing patient care report forms. Each operator shall review patient care activities on at least a quarterly basis each year to determine whether the service's attendants are providing appropriate patient care.

(1) Review of patient care activities shall include quarterly participation by the service's medical advisor in a manner that assures the medical advisor is meeting the requirements of K.S.A. 65-6126.

(2) Each operator shall, upon request, provide documentation to the administrator or the administrator's designee demonstrating that the operator is performing patient care reviews.

(3) Each operator shall maintain documentation of all medical reviews of patient care activities at least two years.

(4) Each operator shall have the duty to report to the board any finding that an attendant or other health care provider functioning for the operator:

(A) acted below the applicable standard of care, and because of such action, had a reasonable probability of causing injury to a patient; or

(B) acted in a manner which may be grounds for disciplinary action by the board or appropriate licensing agency.

(x) Each ambulance service operator shall develop and implement operational protocols which shall have a table of contents and address policies and procedures for each of the following topics:

- (1) radio and telephone communications;
- (2) inter-hospital transfers;
- (3) emergency driving and vehicle operations;
- (4) do not resuscitate orders (DNR) and living wills;
- (5) multiple victim and mass casualty incidents;
- (6) hazardous material incidents;
- (7) infectious disease exposure;
- (8) crime scene management;
- (9) documentation of patient reports;
- (10) consent and refusal of treatment; and
- (11) any other procedures deemed necessary by the operator for the efficient operation of the ambulance service.

(y) Each air ambulance service operator shall develop an air safety training program for all regularly scheduled air medical personnel by July 1, 1997. The program shall be tailored to the air ambulance service's specific needs and approved by the service's air medical advisor. The program shall include the following:

- (1) air medical and altitude physiology;
- (2) aircraft orientation, including specific capabilities, limitations, and safety measures for each aircraft used;
- (3) depressurization procedures for fixed-wing aircraft;
- (4) safety in and around the aircraft, including FAA rules and regulations pertinent to safety for all air medical personnel, patients, and lay individuals;
- (5) rescue and survival techniques appropriate to the terrain and the conditions under which the air ambulance service operates;
- (6) hazardous scene recognition and response for rotorwing aircraft;
- (7) aircraft evacuation procedures, including rapid loading and unloading of patients;
- (8) refueling procedures for normal and emergency situations; and
- (9) in-flight emergencies and emergency landing procedures.

(z) Each air ambulance service operator shall maintain documentation demonstrating the initial completion and annual review of the air safety training program for all regularly scheduled air medical personnel, and shall provide this documentation to the board on request.

(aa) Each air ambulance service operator shall, by July 1, 1997, provide an informational publication which promotes the proper use of air medical transport. This publication shall be provided, on request, to all ground-based ambulance services, law enforcement agencies, and hospitals which use the air ambulance service. Each manual shall address the following topics:

- (1) availability, accessibility, and scope of care of the air ambulance service;
- (2) capabilities of air medical personnel and patient care modalities afforded by the air ambulance service;
- (3) patient preparation before air medical transport;
- (4) landing zone designation and preparation;
- (5) communication and coordination between air and ground medical personnel; and

(6) safe approach and conduct around the aircraft.

(bb) Each ambulance service operator shall develop and implement medical protocols.

(1) Each operator's medical protocols shall receive annual written approval by the emergency committee of the county medical society.

(2) In those counties where there is no emergency committee of the county medical society, medical protocols shall be approved by the medical staff of the hospital to which the ambulance service primarily transports patients.

(cc) Each operator's medical protocols shall include treatment procedures for the following medical and trauma-related conditions:

- (1) diabetic emergencies;
- (2) shock;
- (3) environmental emergencies;
- (4) chest pain;
- (5) abdominal pain;
- (6) respiratory distress;
- (7) obstetrical emergencies;
- (8) poisoning;
- (9) seizures;
- (10) cardiac arrest (code blue);
- (11) burns;
- (12) stroke (CVA);
- (13) chest injuries;
- (14) abdominal injuries;
- (15) head injuries;
- (16) spinal injuries;
- (17) multiple systems trauma;
- (18) orthopedic injuries;
- (19) drowning; and
- (20) anaphylaxis.

(dd) Each service operator shall make available a current copy of the service's operational protocols and medical protocols to any person listed as an attendant on the service's attendant roster. (Authorized by and implementing K.S.A. 1995 Supp. 65-6110, 65-6111, K.S.A. 65-6113, 65-6128 and 65-6130; effective May 1, 1985; amended, T-88-24, July 15, 1987; amended May 1, 1988; amended Aug. 27, 1990; amended Aug. 16, 1993; amended Jan. 31, 1997.)

109-2-6. Classes of ambulance services. Permits shall be issued for three classes of ambulance service. These classes shall be known as type I, type II, and type V.

(a) Each type I service operator shall:

- (1) provide advanced life support as described in K.A.R. 109-1-1;
- (2) have at least one licensed ambulance which meets all requirements of K.A.R. 109-2-8. Each type I service operator may also operate type II ambulances;
- (3) maintain a staff of currently certified mobile intensive care technicians and emergency medical technicians which is adequate to meet all applicable requirements of K.A.R. 109-2-7; and
- (4) have a method of receiving calls and dispatching ambulances which ensures that an ambulance leaves the station within an annual average of five minutes of the time an emergency call is received.

(continued)

- (b) Each type II service operator shall:
- (1) provide basic life support;
 - (2) have at least one licensed ambulance which meets all requirements of K.A.R. 109-2-8;
 - (3) maintain a staff of currently certified emergency medical technicians which is adequate to meet all requirements of K.A.R. 109-2-7; and
 - (4) have a method of receiving calls and dispatching ambulances which ensures that an ambulance leaves the station within an annual average of five minutes of the time an emergency call is received.
- (c) Each type II service operator may provide advanced life support as described in K.S.A. 65-6123, 65-6120 and 65-6119 when approved by medical protocols or when in direct voice contact with a physician or a licensed professional nurse who is authorized by a physician.
- (d) Each type V service operator shall:
- (1) provide "critical care transport" as defined in K.A.R. 109-1-1;
 - (2) not be subject to public call, as defined in K.A.R. 109-1-1 (b);
 - (3) have at least one ground or air ambulance which meets all requirements of either K.A.R. 109-2-11, K.A.R. 109-2-12 or K.A.R. 109-2-13 as applicable;
 - (4) license only type V ambulances;
 - (5) license rotorwing aircraft, fixed wing aircraft or ground-based vehicles as ambulances;
 - (6) have a staff which is adequate to provide the level of care described in paragraph (l) of this subsection and as described in K.A.R. 109-2-7;
 - (7) have a method of receiving and relaying calls that ensures that any request for emergency response is immediately and properly relayed to the nearest type I or type II ambulance service; and
 - (8) have all air and ground ambulance inter-facility transports reviewed and approved by the service's medical advisor prior to transport, or conducted in accordance with the service's medical and operational protocols. (Authorized by K.S.A. 1995 Supp. 65-6110; implementing K.S.A. 1995 Supp. 65-6110, K.S.A. 65-6128, and 65-6135; effective May 1, 1985; amended May 1, 1987; amended, T-88-24, July 15, 1987; amended May 1, 1988; amended July 17, 1989; amended Jan. 31, 1997.)

109-2-7. Ground and air ambulance staffing. Licenses shall be issued for three types of ambulance vehicles and aircraft. These ambulances shall be known as type I, type II, and type V. Each ambulance shall be staffed in accordance with these regulations.

(a) Each type I service operator shall staff each type I ambulance with at least two attendants during patient transport.

- (1) At least one attendant shall be one of the following medical personnel:
- (A) a mobile intensive care technician;
 - (B) a physician;
 - (C) a registered physician's assistant; or
 - (D) a licensed professional nurse.
- (2) The second attendant may be any of the following:
- (A) an emergency medical technician;
 - (B) an emergency medical technician-intermediate;

- (C) an emergency medical technician-defibrillator;
- (D) a mobile intensive care technician;
- (E) a physician;
- (F) a registered physician's assistant; or
- (G) a licensed professional nurse.

(b) Each type I and type II service operator shall staff each type II ambulance with at least two attendants during patient transport.

(1) At least one attendant shall be an emergency medical technician.

(2) One of the following shall be in the patient compartment during patient transport:

- (A) an emergency medical technician;
- (B) an emergency medical technician-intermediate;
- (C) an emergency medical technician-defibrillator;
- (E) a physician;
- (F) a registered physician's assistant; or
- (G) a licensed professional nurse.

(c) Each type V service operator shall staff each type V ambulance with a driver or pilot and at least two medically trained persons, one of whom shall be a physician or a licensed professional nurse. Additional staffing shall be commensurate with the patient's care needs as determined by the service's medical advisor or as described in the service's medical protocols. The medical personnel shall remain in the patient compartment during patient transport.

(d) At least one of the medical personnel on each type V ambulance shall have completed and be current in "Advanced Cardiac Life Support (ACLS)," as in effect on January 1, 1997, which is adopted herein by reference, or the equivalent, as approved by the board.

(e) When performing neonatal or pediatric missions, at least one of the medical personnel on each type V ambulance shall have completed and be current in "Pediatric Advanced Life Support (PALS)," as in effect on January 1, 1996, which is adopted herein by reference, or the equivalent as approved by the board.

(f) When responding to the scene of an accident or medical emergency, not including transports between medical facilities, at least one of the medical personnel on each type V ambulance shall have completed and be current in one of the following programs as in effect on January 1, 1996, which are adopted herein by reference:

- (1) "Advanced Trauma Life Support (ATLS)";
- (2) "Flight Nurse Advanced Trauma Course (FNATC)";
- (3) "Trauma Nurse Core Course (TNCC)";
- (4) "Pre-Hospital Trauma Life Support (PHTLS)"; or
- (5) an equivalent course as approved by the board. (Authorized by K.S.A. 1995 Supp. 65-6110; implementing K.S.A. 1995 Supp. 65-6110 and K.S.A. 65-6135; effective May 1, 1985; amended May 1, 1987; amended, T-88-24, July 15, 1987; amended May 1, 1988; amended Aug. 27, 1990; amended Feb. 3, 1992; amended Jan. 31, 1997.)

109-2-8. Standards for type I and II ambulance vehicles and equipment. (a) Each ambulance shall meet the vehicle and equipment standards that are applicable to that class of ambulance.

(b) The patient compartment size shall meet or exceed the following specifications:

- (1) headroom: 60 inches; and
- (2) length: 116 inches.
- (c) Each ambulance shall have a heating and cooling system which is controlled separately for the patient and the driver compartments. The air conditioners for each compartment shall have separate evaporators.
- (d) Each ambulance shall have separate ventilation systems for the driver and patient compartments. These systems shall be separately controlled within each compartment. Fresh air intakes shall be located in the most practical, contaminant-free air space on the ambulance. The patient compartment shall be ventilated through the heating and cooling systems.
- (e) The patient compartment in each ambulance shall have adequate lighting so that patient care can be given and the patient's status monitored without the need for portable or hand-held lighting. A reduced lighting level shall also be provided. A patient compartment light and step-well light shall be automatically activated by opening the entrance doors. Interior light fixtures shall be recessed and shall not protrude more than 1½ inches.
- (f) Each ambulance shall have at least two 80 amp/hr batteries and a 165-amp alternator. All conversion equipment shall have individual fusing which is separate from the chassis fuse system.
- (g) Each ambulance shall have lights and sirens as required by K.S.A. 8-1720 and K.S.A. 8-1738.
- (h) Each ambulance shall have an exterior patient loading light over the door which shall be activated both manually by an inside switch and automatically when the door is opened.
- (i) The operator shall mark each ambulance licensed by the board as follows:
 - (1) The name of the ambulance service shall be in block letters, not less than four inches in height, and in a color that contrasts with the background color. The service name shall be located on both sides of the ambulance, and shall be placed in such a manner that it is readily identifiable to other motor vehicle operators.
 - (2) Any operator may use a decal or logo which identifies the ambulance service in place of lettering. The decal or logo shall not be less than 10 inches in height, and in a color that contrasts with the background color. The decal or logo shall be located on both sides of the ambulance and shall be placed in such a manner that it is readily identifiable to other motor vehicle operators.
 - (3) Any ambulance initially licensed by the board before January 1, 1995 which is identified either by letters or a logo on both sides of the ambulance shall be exempt from the minimum size requirements as indicated in paragraphs (1) and (2) of this subsection.
- (j) Each type I and type II ambulance shall have a two-way radio communications system which is readily accessible to both the attendant and the driver. This system shall be capable of providing direct communications between dispatch and medical control at a hospital.
- (k) An operator shall equip each ambulance as follows:
 - (1) a Halon or ABC fire extinguisher with at least five pounds of dry chemical, which shall be placed in the driver compartment, and shall be easily accessible from an outside door;

(2) a second fire extinguisher which is either a Halon fire extinguisher with at least five pounds of contents, or an ABC fire extinguisher with a minimum of five pounds of dry chemical. The fire extinguisher shall be placed in the patient compartment or in an outside compartment and shall be easily accessible to an attendant;

(3) one battery-operated hand lantern with a power source of at least six volts or two flashlights, each having a minimum of two "C or D-cell" battery capacity;

(4) one four or six-wheeled, all purpose, multi-level cot with an elevating head and at least two safety straps with locking mechanisms;

(5) one urinal;

(6) one bedpan;

(7) one emesis basin or convenience bag;

(8) one complete change of linen;

(9) two blankets;

(10) one waterproof cot cover;

(11) one pillow; and

(12) a "no-smoking" sign posted in the patient and driver compartments.

(1) The operator shall equip each type I and type II ambulance with the following internal medical systems:

(1) an oxygen system with at least two outlets located within the patient compartment and a minimum of 3,000 liters of storage capacity. The cylinder shall be in a compartment which is vented to the outside. The pressure gauge and regulator control valve shall be readily accessible to the attendant from inside the patient compartment; and

(2) an electrically-powered suction aspirator system with an airflow of at least 28 liters per minute and a vacuum of at least 300 millimeters of mercury. The unit shall be equipped with large bore, non-kinking suction tubing and semi-rigid, non-metallic oropharyngeal suction tip;

(m) The operator shall equip each type I and type II ambulance with the following medical equipment:

(1) a portable oxygen unit of at least 300 liter storage capacity complete with yoke, pressure gauge, and flowmeter. The unit shall be readily accessible from inside the patient compartment;

(2) a portable, self-contained battery or manual suction aspirator with an airflow of at least 28 liters per minute and a vacuum of at least 300 millimeters of mercury. The unit shall be fitted with large bore, non-kinking suction tubing and a semi-rigid, non-metallic oropharyngeal suction tip;

(3) a hand-operated, adult bag-mask ventilation unit which shall be capable of use with the oxygen supply;

(4) a hand-operated, pediatric bag-mask ventilation unit which shall be capable of use with oxygen supply;

(5) oxygen masks in adult and pediatric sizes;

(6) nasal cannulas;

(7) oropharyngeal airways in adult, pediatric, and infant sizes;

(8) a blood pressure manometer with extra large, adult, and pediatric cuffs and a stethoscope;

(9) an obstetric kit with contents as described in the service's medical protocols;

(10) sterile burn sheets;

(11) sterile large trauma dressings;

(continued)

- (12) assorted sterile gauze pads;
- (13) occlusive gauze pads;
- (14) soft roller, self-adhering type bandages;
- (15) adhesive tape at least one inch wide;
- (16) bandage shears;
- (17) one liter of sterile water, currently dated;
- (18) one liter of sterile saline, currently dated;
- (19) a bite stick; and
- (20) oral glucose or an equivalent high sugar substance.

(n) The operator shall equip each type I and type II ambulance with the following patient-handling and splinting equipment:

- (1) a long spine board, complete with accessories;
- (2) a short spine board, complete with accessories;
- (3) a set of extremity splints including one arm and one leg splint;
- (4) rigid cervical collars in small, medium, and large sizes;
- (5) foam wedges or other devices which serve to stabilize the head, neck, and back as one unit; and
- (6) patient disaster tags.

(o) Each operator shall demonstrate to the satisfaction of the administrator that the ambulance service either provides vehicle extrication and rescue services or that a fully equipped rescue vehicle or rescue service which provides the same services is immediately available to the operator.

(p) The operator shall equip each type I and type II ambulance with the following blood-borne and body fluid pathogen protection equipment:

- (1) latex or vinyl gloves;
- (2) two sets of protective goggles or two chin-length clear face shields;
- (3) filtering masks which cover the mouth and nose;
- (4) two non-permeable, full length, long sleeve protective gowns;
- (5) a leak-proof, rigid container clearly marked as "contaminated products," for the disposal of sharp objects; and
- (6) a leak-proof, closeable container for soiled linen and supplies.

(q) The operator shall equip each type I ambulance with the following equipment:

- (1) a monitor/defibrillator;
- (2) a drug supply as listed in the service's medical protocols;
- (3) macro-drip and micro-drip administration sets;
- (4) IV solutions in plastic bags or plastic bottles as listed in the service's medical protocols;
- (5) assorted syringes and 14-22 gauge needles;
- (6) endotracheal tubes in adult, child, and infant sizes; and
- (7) a laryngoscope with adult and pediatric blades.

(r) Each type I and type II ambulance service operator shall develop a list of supplies and equipment which is carried on each ambulance. This list shall include the supplies and equipment required by the board for the vehicle license type, and any additional supplies or equipment necessary to carry out the patient care activities as indicated in the service's medical protocols.

(1) Each operator shall receive annual written approval by the emergency committee of the county medical society for the list of supplies and equipment carried on each ambulance.

(2) In those counties where there is no emergency committee of the medical society, the operator shall receive annual written approval for the list of supplies and equipment carried on each ambulance by the medical staff of the hospital to which the ambulance service primarily transports patients.

(3) Each operator shall submit the list of supplies and equipment carried on each ambulance to the board each year with the operator's application for an ambulance service permit.

(s) If an operator's medical protocols or equipment list are amended, a copy of these changes shall be submitted to the board by the service operator with a letter of approval as indicated in subsection (r) of this regulation within 15 days of implementation of the change. Equipment and supplies obtained on a trial basis or for temporary use by the operator need not be reported to the board by an operator. (Authorized by and implementing K.S.A. 1995 Supp. 65-6110; effective May 1, 1985; amended, T-88-24, July 15, 1987; amended May 1, 1988; amended July 17, 1989; amended Aug. 16, 1993; amended Jan. 31, 1997.)

109-2-9. Variances. (a) Variances from specific sections of these regulations may be granted to applicants when:

(1) local conditions are such that the operator, attendant, instructor-coordinator or training officer affected by the regulation cannot meet the regulation's requirements; and

(2) when it is determined by the board that granting a variance will not:

- (A) violate Kansas statutes;
- (B) endanger the public's health and welfare; or
- (C) deviate from the spirit and intent of the regulation for which the variance is requested.

(b) Each variance request shall contain the following:

- (1) the name and address of the applicant;
- (2) a statement of purpose;
- (3) expected benefits to the public;
- (4) the period of time the variance is required;
- (5) the number of units or persons involved; and
- (6) supportive data which demonstrates that the variance will not endanger or increase the risk to public health or safety.

(c) Instructor-coordinators and training officers who request a variance shall establish that the variance will not jeopardize the quality of instruction.

(d) Periodic evaluations of the variance after it is granted may be conducted by the board.

(e) A variance may also be granted by the board upon showing that:

(1) there are unusual facts or circumstances which make strict compliance with the regulation from which the variance is sought impractical or unduly burdensome to the applicant;

(2) strict compliance with the regulation from which the variance is sought would cause a hardship to the applicant without equal or greater benefit to the public;

(3) issuance of a variance would not otherwise violate Kansas law, endanger or tend to endanger the public health and safety, or constitute a serious hazard or inability to provide needed services to persons who may use the applicant's services; and

(4) the applicant is otherwise in compliance with the requirements of these regulations.

(f) Conditions upon the applicant may be imposed by the board as it deems necessary to protect the public health and safety. In the case of instructor-coordinators and training officers, conditions may be imposed by the board so as to not jeopardize the quality of the instruction. These conditions may include duration requirements and alternative requirements. (Authorized by and implementing K.S.A. 1995 Supp. 65-6110 and 65-6111; effective May 1, 1985; amended July 17, 1989; amended Jan. 31, 1997.)

109-2-11. Standards for type V ambulance vehicles and equipment. (a) Each type V ground ambulance shall meet the vehicle and equipment standards which are applicable to that class of ambulance.

(b) The patient compartment size shall meet or exceed the following minimum specifications:

(1) headroom: 60 inches; and

(2) length: 116 inches.

(c) Each ambulance shall have a heating and cooling system which is controlled separately for the patient and the driver compartments. The air conditioners for each compartment shall have separate evaporators.

(d) Each ambulance shall have separate ventilation systems for the driver and patient compartments. These systems shall be separately controlled within each compartment. Fresh air intakes shall be located in the most practical, contaminant-free air space on the ambulance. The patient compartment shall be ventilated through the heating and cooling systems.

(e) The patient compartment in each ambulance shall have adequate lighting so that patient care can be given and the patient's status monitored without the need for portable or hand-held lighting. A reduced lighting level shall also be provided. A patient compartment light and step-well light shall be automatically activated by opening the entrance doors. Interior light fixtures shall be recessed and shall not protrude more than 1½ inches.

(f) Each ambulance shall have a at least two 80-amp/hr batteries and a 165-amp alternator. All conversion equipment shall have individual fusing which is separate from the chassis fuse system. Each ambulance shall have a 110-volt power source adequate to power all equipment which may be carried.

(g) Each ambulance shall have lights and sirens as required by K.S.A. 8-1720 and K.S.A. 8-1738.

(h) Each ambulance shall have an exterior patient loading light over the door which shall be activated both manually by an inside switch and automatically when the door is opened.

(i) The operator shall mark each ambulance licensed by the board as follows:

(1) The name of the ambulance service shall be in block letters, not less than four inches in height, and in a color that contrasts with the background color. The service

name shall be located on both sides of the ambulance, and shall be placed in such a manner that it is readily identifiable to other motor vehicle operators.

(2) Any operator may use a decal or logo which identifies the ambulance service in place of lettering. A decal or logo shall not be less than 10 inches in height, and in a color that contrasts with the background color. The decal or logo shall be located on both sides of the ambulance and shall be placed in such a manner that it is readily identifiable to other motor vehicle operators.

(3) Any ambulance licensed by the board before January 1, 1995 which is identified either by letters or a logo on both sides of the ambulance shall be exempt from the minimum size requirements as indicated in paragraphs (1) and (2) of this subsection.

(j) The operator shall equip each type V ground ambulance with a direct, two-way radio communications system which is readily accessible to both the attendant and the driver. This system shall be capable of providing direct communications between dispatch and medical control at a hospital.

(k) The operator shall equip each type V ground ambulance with the following:

(1) a Halon or ABC fire extinguisher with at least five pounds of dry chemical, which shall be in the driver compartment and shall be easily accessible from an outside door;

(2) a second fire extinguisher which is either a halon, a CO₂ or an ABC fire extinguisher with at least five pounds of dry chemical. The fire extinguisher shall be placed in the patient compartment or in an outside compartment and shall be easily accessible to an attendant;

(3) one battery-operated hand lantern with a power source of at least six volts or two flashlights, each having a minimum of two "C or D-cell" battery capacity;

(4) one four or six-wheeled, all purpose, multi-level cot with an elevating head and at least two safety straps with locking mechanisms or an isolette;

(5) one urinal;

(6) one bedpan;

(7) one emesis basin or convenience bag;

(8) one complete change of linen;

(9) two blankets;

(10) one waterproof cot cover;

(11) a "no smoking" sign posted in the patient and driver compartments; and

(12) one pillow.

(l) The operator shall equip each type V ground ambulance with an internal medical system which includes:

(1) an internal oxygen system with at least two outlets located inside the patient compartment and with at least 3,000 liters of storage capacity. The cylinder shall be in a compartment which is vented to the outside. The pressure gauge and regulator control valve shall be readily accessible to the attendant from inside the patient compartment; and

(2) an electrically-powered suction aspirator system with an airflow of at least 28 liters per minute and a vacuum of at least 300 millimeters of mercury. The unit shall be equipped with large bore, non-kinking suction tubing and a semi-rigid, non-metallic oropharyngeal suction tip.

(continued)

(m) The operator shall equip each type V ground ambulance with the following:

(1) a portable oxygen unit of at least 300-liter storage capacity complete with yoke, pressure gauge, and flowmeter. The unit shall be readily accessible from inside the patient compartment;

(2) a portable, self-contained battery or manual suction aspirator with an airflow of at least 28 liters per minute and a vacuum of at least 300 millimeters of mercury. The unit shall be fitted with large bore, non-kinking suction tubing and semi-rigid, non-metallic, oropharyngeal suction tip;

(3) medical supplies and equipment which includes:

(A) airway management equipment, including tracheal intubation equipment, adult and pediatric bag-valve mask, and ventilatory support equipment;

(B) a cardiac monitor/defibrillator and an extra battery or power source;

(C) advanced cardiac life support drugs and therapeutic modalities, as indicated by the service's medical protocols;

(D) neonate specialty equipment and supplies for neonatal missions and as indicated by the service's medical protocols;

(E) advanced trauma life support supplies and treatment modalities, as indicated in the service's medical protocols; and

(F) a pulse oximeter and an intravenous infusion pump; and

(4) blood borne and body fluid pathogen protection equipment as described in K.A.R. 109-2-8.

(n) Each type V ground ambulance operator shall develop a list of supplies and equipment which is either carried on the ambulance or immediately available for use as each mission requires. This list shall include the supplies and equipment required by the board and any additional supplies or equipment necessary to carry out the patient care activities as indicated in the service's medical protocols.

(1) Each operator shall receive annual written approval from the emergency committee of the county medical society for the list of supplies and equipment carried on each ambulance.

(2) In those counties where there is no emergency committee of the county medical society, the operator shall receive approval for the list of supplies and equipment carried on each ambulance by the medical staff of the hospital to which the ambulance service primarily transports patients.

(3) Each operator shall submit the list of supplies and equipment carried on each ambulance to the board each year with the service's application for an ambulance service permit.

(o) If an operator's medical protocols or equipment list are amended, the operator shall submit these changes to the board with a letter of approval as indicated in subsection (n) of this regulation within 15 days of implementation of the change. Equipment and supplies obtained on a trial basis or for temporary use by the operator need not be reported to the board by the operator. (Authorized by and implementing K.S.A. 1995 Supp. 65-6110; effective

May 1, 1987; amended July 17, 1989; amended Jan. 31, 1997.)

109-2-12. Standards for rotorwing ambulance aircraft and equipment. (a) Each air ambulance operator shall comply with all Federal Aviation Regulations as contained in 14 C.F.R. Parts 91 and 135, as in effect on January 1, 1996, which are adopted herein by reference.

(b) Each air ambulance operator shall obtain a valid standard airworthiness certificate for each aircraft licensed by the board. The operator shall submit a copy of the airworthiness certificate to the board when applying for the air ambulance license.

(c) Each air ambulance operator shall ensure that the aircraft's flight controls, throttles, and radios are physically protected from any intended or accidental interference by the patient, air medical personnel, or equipment and supplies.

(d) The aircraft design shall not compromise patient stability during any part of flight operations. The aircraft shall have an entry that allows loading and unloading of the patient without maneuvering the patient more than 45 degrees about the lateral axis and 30 degrees about the longitudinal axis, and does not compromise the functioning of monitoring systems, intravenous lines, or manual or mechanical ventilation.

(e) The operator shall ensure that the patient compartment is configured in such a way that air medical personnel have adequate access to the patient in order to begin and maintain both basic and advanced life support. The operator shall ensure that the air ambulance has adequate access and necessary space to maintain the patient's airway and to provide adequate ventilatory support by an attendant from the secured, seat-belted position within the air ambulance.

(f) Each air ambulance operator shall ensure that the aircraft is climate controlled for the comfort of both the patient and air medical personnel. The air medical crew shall take precautions to prevent temperature extremes that could adversely affect patient care.

(g) Each aircraft shall have at least one stretcher installed and secured in the patient compartment according to FAA part 135 guidelines, and which meets the following requirements:

(1) accommodates a patient who is in the 95 percentile for an adult male, six ft. tall, 212 lbs. or 96.2 kg;

(2) is capable of elevating the patient's head at least 30 degrees for patient care and comfort; and

(3) has two patient securing straps.

(h) Each air ambulance operator shall ensure that all equipment, stretchers, and seating are so arranged as not to block rapid egress by air medical personnel or patients from the aircraft. The operator shall ensure that all equipment on board the aircraft is affixed or secured in either approved racks or compartments or by strap restraint while the aircraft is in operation.

(i) The aircraft shall have an adequate interior lighting system so that patient care can be given and the patient's status monitored without interfering with the pilot's vision. Red lighting or a reduced level of lighting shall also be provided for the pilot and air ambulance personnel.

(j) The aircraft shall have an electric inverter or appropriate power source which is sufficient to meet the

requirements of the complete specialized equipment package without compromising the operation of any electrical aircraft equipment.

(k) When an isolette is used during patient transport, the operator shall ensure that the isolette is able to be opened from its secured in-flight position in order to provide full access to the infant.

(l) The aircraft shall have an external search light which shall be:

(1) at least 400,000 candlepower illumination at 200 feet;

(2) separate from the aircraft landing lights;

(3) moveable 90 degrees longitudinally and 180 degrees laterally; and

(4) capable of being controlled from inside the aircraft.

(m) Each rotorwing aircraft shall have a two-way radio communications system which is readily accessible to both the attendants and the pilot, and which meets the following requirements:

(1) allows communications between the aircraft and a hospital for medical control;

(2) allows communications between the aircraft and ground-based ambulance services;

(3) allows communications with air traffic control; and

(4) allows the attendant to communicate at all times with medical control exclusive of the air traffic control system.

(n) Each air ambulance operator shall ensure that each air ambulance shall have on board, at all times, the following safety equipment:

(1) at least one 2-½ pound Halon fire extinguisher. The fire extinguisher shall be accessible to both the pilot and the air medical personnel in the patient compartment. The air ambulance operator shall ensure that each fire extinguisher is fully charged with a valid inspection certification;

(2) one battery-operated, hand-held lantern with a power source of at least six volts or two flashlights with a minimum of two "C or D-cell" battery capacity;

(3) appropriate survival equipment for the mission and terrain of the service's geographic area of operations; and

(4) a "no smoking" sign posted in the patient and pilot compartments.

(o) Each air ambulance operator shall ensure that each rotorwing air ambulance is equipped with an internal medical system which includes the following equipment.

(1) Each rotorwing air ambulance shall have a gaseous or liquid medical oxygen supply which is sufficient to provide the patient with up to 15 liters per minute flow for the specific mission and duration of the flight, and is contained in at least two separate containers, one of which shall be portable.

(A) The air ambulance operator shall ensure that the oxygen delivery system, all necessary regulators, gauges and humidity accessories are available to the air medical personnel during in-flight operations.

(B) The air ambulance operator shall ensure that oxygen flow meters and outlets are padded, flush mounted, or located to prevent injury to air medical personnel.

(2) Each rotorwing air ambulance shall have two suction apparatus, one of which shall be electrically pow-

ered, with wide bore tubing, a large reservoir and various sizes of suction catheters. One suction unit shall be portable. The second may be either portable or built into the aircraft. Both suction units shall have an air flow of at least 28 liters per minute and a vacuum of at least 300 millimeters of mercury.

(p) Each air ambulance operator shall equip each rotorwing air ambulance with medical supplies and equipment which includes the following:

(1) airway management equipment including tracheal intubation equipment, adult and pediatric bag-valve masks and ventilatory support equipment;

(2) a cardiac monitor/defibrillator and an extra battery or power source;

(3) advanced cardiac life support drugs and therapeutic modalities as indicated by the air ambulance operator's medical protocols;

(4) neonate specialty equipment and supplies for neonatal missions as indicated in the service's medical protocols;

(5) advanced trauma life support treatment modalities as indicated in the service's medical protocols;

(6) a pulse oximeter and an intravenous infusion pump; and

(7) blood borne and body fluid pathogen protection equipment as described in K.A.R. 109-2-8 (p).

(q) Each air ambulance operator shall comply with the requirements described in K.A.R. 109-2-11 (n) and (o).

(r) Each air ambulance operator shall ensure that all medical equipment is maintained according to the manufacturer's recommendations and does not interfere with the aircraft's navigation or on-board systems. (Authorized by and implementing K.S.A. 1995 Supp. 65-6110; effective May 1, 1987; amended July 17, 1989; amended Jan. 31, 1997.)

109-2-13. Standards for fixed-wing ambulance aircraft and equipment. (a) Each air ambulance operator shall comply with all Federal Aviation Regulations as contained in 14 C.F.R. Parts 91 and 135, as in effect on January 1, 1996, which are adopted herein by reference.

(b) Each air ambulance operator shall obtain a valid standard airworthiness certificate for each aircraft licensed by the board. The operator shall submit a copy of the airworthiness certificate to the board when applying for the air ambulance license.

(c) The operator shall ensure that each air ambulance is multi-engined and meets the following requirements:

(1) rated for instrument flight (IFR);

(2) equipped with an emergency locator transmitter (ELT);

(3) certified and equipped for known icing conditions; and

(4) pressurized during patient transports according to the service's medical and operational protocols.

(d) Each air ambulance operator shall ensure that the aircraft's flight controls, throttles, and radios are physically protected from any intended or accidental interference by the patient, air medical personnel, or equipment and supplies. The pilot or pilots shall be sufficiently isolated from the patient care area to minimize in-flight distractions or interference.

(continued)

(e) The aircraft design shall not compromise patient stability during any part of flight operations. The aircraft shall have an entry that allows loading and unloading of the patient without maneuvering the patient more than 45 degrees about the lateral axis and 30 degrees about the longitudinal axis of the patient, and does not compromise functioning of monitoring systems, intravenous lines, or manual or mechanical ventilation.

(f) Each air ambulance operator shall ensure that the patient compartment is configured in such a way that air medical personnel have adequate access to the patient in order to begin and maintain both basic and advanced life support. The operator shall ensure that the air ambulance has adequate access and necessary space to maintain the patient's airway and to provide adequate ventilatory support by an attendant from the secured, seat-belted position within the air ambulance.

(g) Each air ambulance operator shall ensure that the aircraft is climate controlled for the comfort of both the patient and air medical personnel. The air medical crew shall take precautions to prevent temperature extremes that could adversely affect patient care.

(h) Each aircraft shall have at least one stretcher installed and secured in the patient compartment according to FAR part 135 guidelines, and which meets the following requirements:

(1) accommodates a patient who is in the 95 percentile for an adult male, six ft. tall, 212 lbs. or 96.2 kg;

(2) is capable of elevating a patient's head at least 30 degrees for patient care and comfort; and

(3) has two patient securing straps.

(i) Each air ambulance operator shall ensure that all equipment, stretchers, and seating are arranged so as not to block rapid egress by air medical personnel or patients from the aircraft. The operator shall ensure that all equipment on board the aircraft is affixed or secured in either approved racks or compartments or by strap restraint while the aircraft is in operation.

(j) Each air ambulance operator shall ensure the aircraft has an adequate interior lighting system so that patient care can be provided and the patient's status monitored without interfering with the pilot's vision. The air ambulance operator shall ensure the aircraft cockpit is capable of being shielded from light in the patient care area during night operations. Red lighting or a reduced lighting level shall also be provided for the pilot and air ambulance personnel.

(k) The aircraft shall have an electric inverter or appropriate power source which is sufficient to meet the requirements of the complete specialized equipment package without compromising the operation of any electrical aircraft equipment.

(l) When an isolette is carried during patient transport, the air ambulance operator shall ensure that the isolette is able to be opened from its secured in-flight position in order to provide full access to the infant.

(m) Each fixed-wing air ambulance shall have a two-way radio communications system which is readily accessible to both the attendants and the pilot, and which shall meet the following requirements:

(1) allows communications between the aircraft and a hospital;

(2) allows communications between the aircraft and ground based ambulance services;

(3) allows communications with air traffic control; and

(4) allows an attendant to communicate at all times with medical control exclusive of the air traffic control system.

(n) Each air ambulance operator shall ensure that the air ambulance shall have on board, at all times, the following safety equipment:

(1) at least one 2-½ pound Halon fire extinguisher. The fire extinguisher shall be accessible to both the pilot and air medical personnel in the patient compartment. The air ambulance operator shall ensure that each fire extinguisher is fully charged with a valid inspection certification;

(2) one battery-operated hand-held lantern with a power source of at least six volts or two flashlights with a minimum of two "C or D-cell" battery capacity;

(3) appropriate survival equipment for the mission and terrain of the service's geographic area of operations; and

(4) a "no smoking" sign posted in the patient and pilot compartments.

(o) Fixed-wing ambulance aircraft shall have on board patient comfort equipment including:

(1) one pillow;

(2) two complete sets of linen;

(3) two blankets;

(4) one waterproof cot cover;

(5) one urinal;

(6) one bedpan;

(7) one emesis basin or convenience bag; and

(8) potable water.

(p) Each air ambulance operator shall ensure that each fixed-wing air ambulance is equipped with an internal medical system which includes the following equipment.

(1) Each fixed-wing air ambulance shall have a gaseous or liquid medical oxygen supply which is sufficient to provide the patient with up to 15 liters per minute flow for the specific mission and duration of the flight, and is contained in at least two separate containers; one of which shall be portable.

(A) The air ambulance operator shall ensure that the oxygen delivery system, all necessary regulators, gauges, and humidity accessories are available to the air medical personnel during in-flight operations.

(B) The air ambulance operator shall ensure that oxygen flow meters and outlets are padded, flush mounted, or located to prevent injury to air medical personnel.

(2) Each fixed-wing air ambulance operator shall have two suction apparatus, one of which shall be electrically powered, with wide bore tubing, a large reservoir and various sizes of suction catheters. One suction unit shall be portable. The second may be either portable or built into the aircraft. Both suction units shall have an air flow of at least 28 liters per minute and a vacuum of at least 300 millimeters of mercury.

(q) Each air ambulance operator shall equip each fixed-wing air ambulance with medical supplies and equipment which includes the following:

(1) airway management equipment including tracheal intubation equipment, adult and pediatric bag-valve masks and ventilatory support equipment;

- (2) a cardiac monitor/defibrillator and an extra battery or power source;
- (3) advanced cardiac life support drugs and therapeutic modalities as indicated by the operator's medical protocols;
- (4) neonate specialty equipment and supplies for neonatal missions as indicated by the service's medical protocols;
- (5) a pulse oximeter and an intravenous infusion pump;
- (6) blood borne and body fluid pathogen protection equipment as described in K.A.R. 109-2-8 (p).
- (r) Each fixed-wing air ambulance operator shall comply with the requirements described in K.A.R. 109-2-11 (n) and (o).
- (s) Each air-fixed wing air ambulance operator shall ensure that all medical equipment is maintained according to the manufacturer's recommendations and does not interfere with the aircraft's navigational, radio communications or other on board systems. (Authorized by and implementing K.S.A. 1995 Supp. 65-6110; effective Jan. 31, 1997.)

109-2-14. Temporarily certified attendants. No operator shall be allowed more than one temporarily certified attendant for every 10 currently certified attendants who are listed on the service roster. (Authorized by and implementing K.S.A. 65-6129; effective Jan. 31, 1997.)

Article 3.—STANDARDS FOR AMBULANCE ATTENDANTS, FIRST RESPONDERS, AND DRIVERS

109-3-1. Standards for ambulance attendants and drivers. Each attendant and driver shall be at least 18 years of age. (Authorized by and implementing K.S.A. 1995 Supp. 65-6110; effective July 17, 1989; amended Jan. 31, 1997.)

Article 4.—AIR AMBULANCE SERVICE

109-4-1. (Authorized by and implementing K.S.A. 1988 Supp. 65-6110; effective May 1, 1986; amended July 17, 1989; revoked Jan. 31, 1997.)

109-4-2. (Authorized by and implementing K.S.A. 1988 Supp. 65-6110; effective May 1, 1986; amended July 17, 1989; revoked Jan. 31, 1997.)

109-4-3. (Authorized by and implementing K.S.A. 1988 Supp. 65-6110; effective May 1, 1986; amended, T-87-7, May 1, 1986; amended May 1, 1987; amended July 17, 1989; revoked Jan. 31, 1997.)

Article 14.—DO NOT RESUSCITATE IDENTIFIERS

109-14-1. Certification of entities which distribute DNR identifiers. (a) An organization that distributes "Do Not Resuscitate" identifiers, as defined by K.S.A. 65-4941 and amendments, may be certified by the board if the organization:

- (1) applies to the board for certification upon a form approved by the administrator;
- (2) has been in operation for at least five years as a distributor of DNR identifiers;
- (3) establishes exclusive title to the design or logo of the DNR identifier;
- (4) maintains a 24-hour, toll-free, staffed telephone line to verify the identity of a patient in possession of a DNR identifier;
- (5) agrees to distribute DNR identifiers that are inscribed with the letters "DNR" or "Do Not Resuscitate," the patient's name, a patient identification number, and the toll-free telephone number of the organization issuing the DNR identifier; and
- (6) agrees to distribute the DNR identifier only upon receiving a copy of a properly executed DNR directive in substantially the same form as required by K.S.A. 65-4942 and amendments. (Authorized by and implementing K.S.A. 1995 Supp. 65-4946; effective Jan. 31, 1997.)

INDEX TO ADMINISTRATIVE REGULATIONS

This index lists in numerical order the new, amended and revoked administrative regulations and the volume and page number of the *Kansas Register* issue in which more information can be found. This cumulative index supplements the index found in the 1996 Supplement to the *Kansas Administrative Regulations*.

AGENCY 1: DEPARTMENT OF ADMINISTRATION

Order a custom-made loose-leaf binder for the Kansas Register!

Custom-made Kansas Register binders are now available. These binders will attractively hold up to a year's worth of your copies of the Kansas Register for permanent use. They are high quality, durable casebound Swing Hinge® binders made by McBee Loose Leaf Binder Products. (A Swing Hinge® binder has more capacity and allows for easier interfiling than standard ring binders.) The three-inch binders feature dark blue supported vinyl covering and gold imprinting.

\$12 each, includes shipping and handling.

(Kansas residents must include an additional \$.74 state and local sales tax.)

Clip and mail
