Notice of Available Grant Funding

Grant funds are available from the federal Violence Against Women Grant Program for the fiscal year October 1, 1997 through September 31, 1998. The purpose of this grant program is to fund units of state or local government and private not-for-profit organizations to develop strategies to combat violent crimes against women.

The allocation of grant awards must reflect that 25 percent of each federal fiscal year grant award will be allocated to each of the following areas: law enforcement, prosecution/courts, nonprofit victim service providers and discretionary funds. Federal S.T.O.P. Violence Against Women grant funds cannot be used to supplant state and local funds that would otherwise be available for targeting violent crimes against women.

Applications can be obtained by contacting the Office of the Attorney General, 2nd Floor, Kansas Judicial Center, 301 S.W. 10th, Topeka, 66612-1597, (785) 296-2215 or 1-800-828-9745.

Department of Credit Unions

Notice of Hearing on Proposed Administrative Regulations

A public hearing will be conducted at 10 a.m. Wednesday, October 8, in the Kansas Department of Credit Unions' conference room, Suite B, American Home Life Insurance Company Building, 400 S. Kansas Ave., Topeka, to consider the adoption of proposed temporary and permanent rules and regulations by the administrator of the Kansas Department of Credit Unions.

This 60-day notice of public hearing shall constitute a public comment period for the purpose of receiving written public comments on the proposed regulations. Comments may be submitted prior to the hearing to John P. Smith, Administrator, Kansas Department of Credit Unions, Suite B, 400 S. Kansas Ave., Topeka, 66603.

All interested parties will be given a reasonable opportunity at the hearing to present their views. Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulations and economic impact statements in an accessible format. Requests for accommodation should be made at least five working days in advance of the hearing by contacting John P. Smith, (785) 296-3021.

K.A.R. 121-6-1 and 121-6-2 are authorized by K.S.A. 17-2260 and implement K.S.A. 17-2221. K.A.R. 121-6-1 defines "place of business" for credit unions. K.A.R. 121-6-2 prescribes the method for credit unions to report semiannually their places of business.

Federal law does not mandate the regulations.

The regulations will impose a small additional cost for credit unions for the personnel time to prepare and transmit the report. The benefit of the reporting will be more timely and accurate information regarding places of business of credit unions. These reports will improve the department's ability to examine and monitor credit unions.

Copies of the regulations and their fiscal impact statement may be obtained by contacting the Department of Credit Unions.

Doc. No. 019486

State of Kansas Consumer Credit Commissioner

Amended Administrative Interpretation No. 1004 Guaranteed Auto Protection (GAP)

On October 20, 1994, Administrative Interpretation No. 1004 was issued to provide the guidelines that must be followed to exclude the cost of Guaranteed Auto Protection (GAP) from inclusion in finance charges. GAP is a financial product that provides contractual assurance there will be no deficiency balance against a consumer in the event physical damage insurance does not pay the consumer's debt in full when the consumer has experienced a total loss of the consumer's vehicle.

The Consumer Credit Commissioner has determined that with the amendments made to Section 226.4(d)(3) of Regulation Z on October 21, 1996, the charges for GAP products can continue to be excluded from the finance charge in Kansas provided the following conditions are met:

- The GAP agreement must clearly disclose in writing:
 - that the coverage is not required by the creditor; and
 - the cost of the product.
- The agreement must provide for the consumer's signature or initials indicating an affirmative written re-

quest for coverage after receiving the above disclosures.

3. The GAP agreement also must:
 - a. follow the loan if the loan is sold or assigned with no subrogation rights against the consumer;
 - b. have a 30-day unconditional consumer right to cancel with a full refund of the purchase price of the agreement, provided no loss has occurred under the agreement;
 - c. provide credit for the consumer's physical damage insurance deductible, up to a maximum amount of not less than \$500, when calculating the amount of any deficiency;
 - d. provide coverage for all physical damage claims that constitute a total loss under the physical damage insurance coverage; and
 - e. include as the only reason for nonpayment the consumer's failure to maintain physical damage insurance coverage on the vehicle.
4. Each creditor or such other entity acting on the creditor's behalf shall notify the Consumer Credit Commissioner of its intent to offer this product in Kansas. This notification shall include a copy of each type of GAP agreement that will be used. Any changes to such agreements must be submitted to the commissioner prior to its implementation.
5. Each creditor or such other entity acting on the creditor's behalf shall maintain such records that will:
 - a. clearly identify the purchaser of this product;
 - b. identify the number of contracts written and cost paid by the consumer; and
 - c. identify the total dollar amount and number of claims paid.

These records shall be provided to the commissioner upon written request. Individual contract records shall be maintained for a period of not less than three years following the expiration of the GAP agreement. Records regarding company performance shall be maintained indefinitely.

The price charged for GAP shall be subject to the principles of unconscionability expressed in K.S.A. 16a-5-108. Additionally, there must be a reasonable expectation that the condition will exist where the loan balance will exceed the fair market value of the vehicle at some point in time during the life of the loan to offer GAP to the consumer.

The commissioner continues to find value in this GAP product and is willing to allow exclusion of its cost from the finance charge provided the requirements of this interpretation are met. Failure to meet these requirements will require that the cost for the product be included in the finance charge and disclosed accordingly.

Commissioner

Administrative Interpretation No. 1006 Mortgage Broker Fees

Recent changes in disclosure requirements by the federal Truth-In-Lending Act (hereinafter referred to as "Regulation Z") relating to mortgage broker fees has raised questions pertaining to the treatment of these fees by this office, specifically pertaining to K.S.A. 16a-2-401 as it relates to prepaid finance charges. Since the term "origination fee" used in K.S.A. 16a-2-401 is not defined in the Kansas Uniform Consumer Credit Code, there is the question of whether mortgage broker fees are included in this term and are subject to inclusion in the 3 percent limitation permitted by the code.

Prior to the September 30, 1996, changes in Regulation Z, specifically in 15 U.S.C. § 1605 and 12 C.F.R. 226.4, which now require all mortgage broker fees to be included in the finance charge, the position of this office was that mortgage broker fees were permitted additional charges as long as they were payable to a third party not related to the creditor, authorized by the borrower and documented in the loan file. The subsequent position of this office now must take into consideration and answer the question whether mortgage broker fees should be included in permitted origination fees.

The Attorney General's Office has been asked to assist this office in determining the legislative intent regarding which prepaid finance charges should be included in the permitted origination fee. Their research concluded that a mortgage broker fee is not the kind of origination fee that the Kansas Legislature had in mind when it enacted and revised K.S.A. 16a-2-401.

Conclusion: Properly disclosed and documented mortgage broker fees are not included in the origination fees referred to in K.S.A. 16a-2-401 and are a prepaid finance charge that may be charged in addition to the origination fee.

(b) Paper stencils and skin scribes shall be single use and shall be disposed of immediately following service.

(c) The practitioner shall remove the tip of each body pencil used during a tattoo service, shall disinfect the body and tip of the pen, and shall sharpen the tip to remove the exposed edge.

(i) A sanitary covering shall be placed over designs and adhered to the skin with suitable skin tape.

69-15-28. Preparation and aftercare of treatment area on client. (a) Permanent color technicians and tattoo artists shall cleanse the client's skin, excluding the areas surrounding the eyes, by washing with an EPA-approved

germicidal solution applied with a clean, single-use paper product, before placing the design on the client's skin or beginning tattooing work.

(b) If the area is to be shaved, the licensee shall use a single-use, disposable safety razor or sterilized straight-edged razor, and then rewash the client's skin.

(c) Substances applied to the client's skin to transfer the design from stencil or paper shall be single use.

(d) Aftercare shall be administered to each client following service, as stated in K.A.R. 69-15-27. (Authorized by and implementing L. 1996, Ch. 138, Sec. 7; effective Aug. 22, 1997.)

(b) Each technician shall cleanse the client's skin, excluding the areas surrounding the eyes, by washing it with an FDA-registered antiseptic solution applied with a clean, single-use paper product before and after piercing the client's skin.

(c) All substances shall be dispensed from containers in a manner to prevent contamination of the unused portion. Single-use tubes or containers and applicators shall be discarded following the piercing service.

(d) Any type of marking pen used by the technician shall be applied on cleansed skin only or shall be a surgical marking pen sanitized by design, including alcohol-based ink pens. The technician shall remove the tip of each body pencil used during a piercing, shall disinfect the body and the tip of the pencil, and shall sharpen the tip to remove the exposed edge.

(e) Use of styptic pencils or alum solids to control blood flow shall be prohibited.

(f) Aftercare shall be administered to each client following service. Aftercare shall consist of both verbal and written instructions concerning proper care of the pierced area. Instructions shall specify the following information:

(1) Care following service;

(2) possible side effects; and

(3) restrictions.

(g) Technicians who have open sores or bleeding lesions on their hands shall not have client contact until the lesions have healed to the scab phase. Each technician shall cover them with protective gloves or impervious bandages prior to contact with clients.

Each applicant for license renewal who wishes to have the required 20 hours of continuing education waived due to impairment of the applicant, as defined in K.S.A. 47-846(c) during the prior license year shall submit a written request to the board.

(a) An assessment or assessments of the licensee's degree of impairment shall be submitted to the board. The assessment shall be made by a designee of the board or by one or more appropriate, qualified professionals chosen by the licensee and approved by the board. Notice of Hearing on Proposed Administrative Regulations

A public hearing will be conducted at 11 a.m. Saturday, October 11, in the conference room, 3601 S.W. 29th, Topeka, to consider the adoption of proposed revisions and revocations to existing rules and regulations and the adoption of one new rule and regulation of the Kansas Dental Board.

All interested parties will be given a reasonable opportunity to present their views orally on the adoption of the amended regulations during the hearing. In order to give all parties an opportunity to present their views, it may be necessary to request each participant to limit any oral presentation to five minutes.

The revisions to regulations are proposed for adoption on a permanent basis and are submitted by the Kansas Dental Board under its general rule making power. A summary of the proposed regulations follows.

The following regulations are proposed for revocation:

K.A.R. 71-1-16. This regulation defines certain dental operations and services set out in K.S.A. 65-1423(g) as functions which shall not be performed by unlicensed persons. They include removal of or addition to the hard or soft tissue of the oral cavity, diagnosis of or addition to the hard or soft tissue of the oral cavity, correction of malformation of teeth or of the jaws, and general or local anaesthesia of any nature in connection with a dental operation. These prohibitions were included in K.S.A. 65-1423 by action of the 1997 Legislature. The revocation will have no fiscal impact on the Kansas Dental Board.

K.A.R. 71-1-17. Nitrous oxide/oxygen; unlicensed. This regulation requires a dental assistant not licensed by the Kansas Dental Board to complete an approved course of instruction before engaging in the administration and monitoring of nitrous oxide/oxygen. Requirements for the administration of nitrous oxide were included in revisions to K.S.A. 65-1423 by the 1997 Legislature. The revocation will have no fiscal impact on the Kansas Dental Board.

K.A.R. 71-3-3. Authorized dental hygienist duties. This regulation defines the range of services which may be lawfully provided by a licensed dental hygienist. The range of services authorized for a dental hygienist was included in K.S.A. 65-1423 by action of the 1997 Kansas Legislature. The action will have no fiscal impact on the Kansas Dental Board.

The following amendments to regulations are proposed:

K.A.R. 71-5-3. Level I permit requirements. This regulation is amended to require the issuance of permits to dentists for the administration of conscious sedation in the dental office from annual to biennial, in odd-numbered years, with a due date of July 1. This amendment will have no fiscal impact on the Kansas Dental Board.

K.A.R. 71-5-4. This regulation is amended to require a permit for the administration of deep sedation and general anaesthesia by a dentist to be renewed biennially, in odd-numbered years, with a due date of July 1. The amendment will have no fiscal impact on the Kansas Dental Board.

(continued)

K.A.R. 71-1-3. Examinations required by the board. The regulation approves only the results of the Central Regional Dental Testing Service, Inc. clinical examination. The amendment proposed would give the board authority to approve and accept the results of more than one clinical examination. There would be no fiscal impact on the agency.

New regulation 71-1-19 will prorate fees for persons being licensed after the first day of January. The regulation is needed to stabilize the fee fund due to biennial renewal of licenses. There would be minimal fiscal impact on the agency.

The period prior to the public hearing will permit a time for written public comments on the proposed regulations. All interested parties may submit written comments prior to the hearing to the Kansas Dental Board, 3601 S.W. 29th, Suite 134, Topeka, 66614.

Copies of the proposed regulations and fiscal impact statements may be obtained by contacting Carol Macdonald at the Kansas Dental Board, (785) 273-0780.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulations and economic impact statements in an accessible format. Requests for accommodation should be made at least five working days in advance of the hearing by contacting the Kansas Dental Board at (785) 273-0780 or the Kansas Relay System at 1-800-766-3777.

Kansas Commission on Governmental Standards and Conduct

Advisory Opinion No. 97-22

Written July 8, 1997, to Thelma Hunter Gordon, Secretary of Aging, Kansas Department on Aging, Topeka.

This opinion is in response to your letter of June 17, 1997, in which you request an opinion from the Kansas Commission on Governmental Standards and Conduct concerning the state level conflict of interest laws (K.S.A. 46-215 *et seq.*). We note at the outset that the commission's jurisdiction is limited to the application of K.S.A. 46-215 *et seq.*, and whether some other statutory system, common law theory or agency rule and regulation applies to your inquiry is not covered by this opinion.

Factual Statement

We understand you request this opinion in your capacity as the secretary for the Department on Aging. You advise us that House Bill 2064, which became law on July 1, 1997, amends the state level conflict of interest laws (K.S.A. 46-215 *et seq.*).

Question

Based on House Bill 2064, you ask us the following questions:

1. Is it permissible for the department's employees to accept gifts for speaking engagements or attending meetings when the value of the gift is unknown?

2. Does the answer to the first question change if the donor contracts with the agency as opposed to a consumer group?

3. Organizations occasionally provide a small gift for their members and guests at dinner meetings. Since everyone attending the event receives the same gift, is this exempt as not being related to state employment?

4. There are volunteer positions of part-time, unpaid non-employees doing state work. Must these volunteers adhere to the state's ethics policies?

5. A former employee of a newspaper often received free or discounted entertainment tickets that had been provided to the newspaper owner, and continued to occasionally receive them after leaving that employment. May the employee still receive the tickets after becoming a state employee?

6. Employees of your agency are often asked to serve on committees or boards that relate to their areas of interest. Are there conditions where it is permissible to have the department's employees serving on these committees and boards?

Opinion

The commission first notes that House Bill 2064, which became law on July 1, 1997, applies to all classified employees in the civil service, and to those unclassified employees in the executive branch whose compensation is subject to approval by the Governor pursuant to K.S.A. 75-2935b. All other unclassified employees in the civil service fall under the provisions of K.S.A. 46-237. This opinion only applies to those state officers and employees who fall under the provisions of House Bill 2064.

House Bill 2064 in pertinent part states:

(b) No person subject to the provisions of this section shall solicit or accept any gift, economic opportunity, loan, gratuity, special discount or service provided because of such person's official position, except:

(1) A gift having an aggregate value of less than \$40 given at a ceremony or public function where the person is accepting the gift in such person's official capacity; or

(2) gifts from relatives or gifts from personal friends when it is obvious to the person that the gift is not being given because of the person's official position; or

(3) anything of value received by the person on behalf of the state that inures to the benefit of the state or that becomes the property of the states; or

(4) contributions solicited on behalf of a nonprofit organization which is exempt from taxation under paragraph (3) of subsection (c) of section 501 of the internal revenue code of 1986, as amended.

As a general rule, classified employees and unclassified employees, whose salaries are subject to the governor's approval, may not accept a gift unless one of the four exceptions listed above applies.

The answer to your first three questions depends on the speaking engagement or meeting. If the event is a "ceremony" or a "public function," then the employee could receive a gift under \$40 if it is accepted in his or her official position as a state employee. Without more factual information, we cannot determine whether or not the events you describe are a "public function."

Turning to your fourth question, the state level conflict of interest laws only apply to state officers or employees

as defined by K.S.A. 46-221. House Bill 2064 does apply to all members of boards, commissions and authorities of the executive branch of state government, regardless of whether or not they meet the definition of "state officer or employee." Since the positions you describe are unpaid, and the volunteers are not in the Kansas civil service, the ethics laws would not apply to them.

In answer to your fifth question, subsection (b) applies only to gifts that are "provided because of such person's official position." Therefore, so long as the employee is receiving the tickets because of his or her former position in the private sector, and not because of his or her position with the state, the employee may accept the tickets.

In answer to your sixth question, state employees may serve on committees and boards, so long as they do not participate in the making of contracts on behalf of the state with these committees or boards (see K.S.A. 46-233) and as state employees they do not license, inspect or regulate the committees or boards (see K.S.A. 46-286).

In closing, we again note that this opinion only applies to classified employees and those unclassified employees whose salaries are subject to approval by the Governor.

Advisory Opinion No. 97-23

Written July 8, 1997, to Wayne L. Franklin, Secretary, Department of Human Resources, Topeka.

This opinion is in response to your letter of June 16, 1997, in which you request an opinion from the Kansas Commission on Governmental Standards and Conduct concerning the state level conflict of interest laws (K.S.A. 46-215 *et seq.*). We note at the outset that the commission's jurisdiction is limited to the application of K.S.A. 46-215 *et seq.*, and whether some other statutory system, common law theory or agency rule and regulation applies to your inquiry is not covered by this opinion.

Factual Statement

We understand you request this opinion in your capacity as the secretary for the Kansas Department of Human Resources. In light of the new ethics legislation, House Bill 2064, you request guidance concerning several issues facing employees of your agency.

Questions

1. May a state employee accept samples of products from vendors such as books, training materials and computer equipment?
2. May a state employee accept a meal from a vendor even if the vendor is not currently selling anything?
3. May a state employee who makes speeches and presentations accept plaques, pens, coffee mugs and certificates?
4. If there is a true and honest friendship between a lobbyist and a state employee, and the lobbyist invites the employee to see a sporting or entertainment event, may the employee attend the event?

Opinion

The commission first notes that free gifts or meals given to classified employees, unclassified employees whose salaries are subject to the Governor's approval and all members of boards, commissions and authorities are subject to the provisions of House Bill 2064, which became

law on July 1, 1997. Free gifts or meals given to all other unclassified state employees are subject to the provisions of K.S.A. 46-237. This opinion only addresses the provisions of House Bill 2064. Any unclassified employee whose salary is not subject to the Governor's approval would have to request an opinion on these issues based on K.S.A. 46-237.

Section 4 of House Bill 2064, subsections (b), (c) and (e), in pertinent part state:

(b) No person subject to the provisions of this section shall solicit or accept any gift, economic opportunity, loan, gratuity, special discount or service provided because of such person's official position, except:

(1) A gift having an aggregate value of less than \$40 given at a ceremony or public function where the person is accepting the gift in such person's official capacity; or

(2) gifts from relatives or gifts from personal friends when it is obvious to the person that the gift is not being given because of the person's official capacity; or

(3) anything of value received by the person on behalf of the state that inures to the benefit of the state or that becomes the property of the state; or

(4) contributions solicited on behalf of a nonprofit organization which is exempt from taxation under paragraph (3) of subsection (c) of section 501 of the internal revenue code of 1986, as amended.

(c) No person subject to the provisions of this section shall solicit or accept free or special discount meals from a source outside of state government, except:

(1) Meals, the provision of which is motivated by a personal or family relationship or provided at events that are widely attended. An occasion is "widely attended" when it is obvious to the person accepting the meal that the reason for providing the meal is not a pretext for exclusive or nearly exclusive access to the person;

(2) meals provided at public events in which the person is attending in an official capacity;

(3) meals provided to a person subject to this act when it is obvious such meals are not being provided because of the person's official position; and

(4) food such as soft drinks, coffee or snack foods not offered as part of a meal.

(e) No person subject to the provisions of this section shall solicit or accept free or special discount tickets or access to entertainment or sporting events or activities such as plays, concerts, games, golf, exclusive swimming, hunting or fishing or other recreational activities when the free or special discount tickets or access are provided because of the person's official position. The provisions of this subsection shall not apply to persons whose official position requires or obliges them to be present at such events or activities.

In applying this language, those state employees subject to House Bill 2064 cannot, as a general rule, accept free gifts or meals unless one of the exceptions as set out above applies.

Therefore, state employees may not accept samples of products from vendors unless the samples are given at a ceremony or public function, received by the employee on behalf of and for the benefit of the state or becomes state property.

Turning to your second question, a state employee may not accept a free meal from a vendor unless the meal is

(continued)

given at a "widely attended" occasion, provided at a public event, or when it is obvious the meal is not provided due to the employee's official position.

Subsection (b)(1) applies to your third question. So long as the plaque, pen or coffee mug is in an aggregate value of less than \$40 and given at a ceremony or public function, the state employee could receive the gift.

The answer to your fourth question depends on whether a personal relationship exists between the lobbyist and the state employee and also whether the personal relationship is the sole motivating factor for providing the tickets. K.A.R. 19-40-3a sets out a series of seven factors to determine whether or not a gift is provided to a state employee based solely on a personal relationship.

In closing, the commission again wants to note that this opinion applies solely to classified employees, unclassified employees whose salaries are subject to approval by the Governor, and members of boards, commissions and authorities. Unclassified employees whose salaries are not subject to approval by the Governor are subject to the provisions of K.S.A. 46-237, which are not covered in this opinion.

Advisory Opinion No. 97-24

Written July 8, 1997, to Michael B. Rees, Chief Counsel, Kansas Department of Transportation, Topeka.

This opinion is in response to your letter of June 12, 1997, in which you request an opinion from the Kansas Commission on Governmental Standards and Conduct concerning the state level conflict of interest laws (K.S.A. 46-215 *et seq.*). We note at the outset that the commission's jurisdiction is limited to the application of K.S.A. 46-215 *et seq.*, and whether some other statutory system, common law theory or agency rule and regulation applies to your inquiry is not covered by this opinion.

Factual Statement

We understand you request this opinion in your capacity as chief counsel for the Kansas Department of Transportation (KDOT). You advise us that the Kansas Highway Advisory Commission is an advisory board to the Secretary of Transportation, and is charged with keeping informed of various regional transportation issues. The commission anticipates a trip to Garden City, Kansas, and will be the dinner guests of the local Chamber of Commerce. You anticipate there being 12 commissioners, four other KDOT personnel, two legislators and 15 members and guests of the chamber. The commission members have also been invited to play golf at no cost to the members.

Question

Is it permissible, under House Bill 2064, for the commission members to receive a free meal and golf from the Garden City Chamber of Commerce?

Opinion

House Bill 2064, which became law on July 1, 1997, applies to your question. That enrolled bill in pertinent part states:

- (a) The provisions of this section shall apply to:

(6) all members of boards, commissions and authorities of the executive branch of state government.

(c) No person subject to the provisions of this section shall solicit or accept free or special discount meals from a source outside of state government, except:

(1) Meals, the provision of which is motivated by a personal or family relationship or provided at events that are widely attended. An occasion is "widely attended" when it is obvious to the person accepting the meal that the reason for providing the meal is not a pretext for exclusive or nearly exclusive access to the person;

(2) meals provided at public events in which the person is attending in an official capacity;

(3) meals provided to a person subject to this act when it is obvious such meals are not being provided because of the person's official position; and

(4) food such as soft drinks, coffee or snack foods not offered as part of a meal.

(e) No person subject to the provisions of this section shall solicit or accept free or special discount tickets or access to entertainment or sporting events or activities such as plays, concerts, games, golf, exclusive swimming, hunting or fishing or other recreational activities when the free or special discount tickets or access are provided because of the person's official position. The provisions of this subsection shall not apply to persons whose official position requires or obliges them to be present at such events or activities.

In applying this language to your question, the commissioners could not accept the meal from the chamber unless one of the exceptions in subsection (c) applied. In our opinion, the event you describe is not "widely attended" in that there is a "pretext for exclusive or nearly exclusive access" to the commissioners by the chamber. In addition, the meal at the country club is not a "public event." Therefore, the commissioners could not accept the free meal from the chamber.

The commissioners could not accept the free golf under subsection (e) unless their "official position requires or obliges them to be present at such event." Based on the information you provide, it does not appear to us that the commissioners, in that capacity, would be "required or obliged" to be present for a round of golf. Therefore, the commissioners could not accept the free golf from the chamber.

In closing, we note that while you did not seek guidance as to the other KDOT personnel who would be part of the trip, this opinion would apply to them if they were in the classified service or in the unclassified service and their salaries were subject to approval by the Governor. Unclassified employees whose salaries were not subject to approval by the Governor are under the provisions of K.S.A. 46-237, and a separate opinion would need to be requested concerning their ability to receive the free meal and golf.

Advisory Opinion No. 97-25

Written July 8, 1997, to Steve A. Stackhouse, Director, Law Enforcement Division, Kansas Department of Wildlife and Parks, Pratt.

This opinion is in response to your letter of June 16, 1997, in which you request an opinion from the Kansas Commission on Governmental Standards and Conduct

concerning the state level conflict of interest laws (K.S.A. 46-215 *et seq.*). We note at the outset that the commission's jurisdiction is limited to the application of K.S.A. 46-215 *et seq.*, and whether some other statutory system, common law theory or agency rule and regulation applies to your inquiry is not covered by this opinion.

Factual Statement

We understand you request this opinion in your capacity as the director of the Law Enforcement Division of the Kansas Department of Wildlife and Parks. You advise us that it is a fairly common practice for eating establishments to offer a small discount on meals for law enforcement officers. You further advise us that conservation officers are full-time law enforcement officers for the Department of Wildlife and Parks, and are authorized to enforce all state laws. The eating establishments sometimes advise the officers that there is a discount, and sometimes the meal is automatically discounted without the officer's knowledge. You informed the commission's staff by telephone that all conservation officers are classified employees in the civil service.

Question

Under the newly amended state level conflict of interest laws, K.S.A. 46-215 *et seq.*, is it allowable for uniformed conservation officers to accept discounted meals?

Opinion

The commission first notes that conservation officers, as classified employees in the civil service, are subject to the provisions of House Bill 2064, which became law on July 1, 1997. That enrolled bill in pertinent part states:

(c) No person subject to the provisions of this section shall solicit or accept free or special discount meals from a source outside of state government, except:

(1) Meals, the provision of which is motivated by a personal or family relationship or provided at events that are widely attended. An occasion is "widely attended" when it is obvious to the person accepting the meal that the reason for providing the meal is not a pretext for exclusive or nearly exclusive access to the person;

(2) meals provided at public events in which the person is attending in an official capacity;

(3) meals provided to a person subject to this act when it is obvious such meals are not being provided because of the person's official position; and

(4) food such as soft drinks, coffee or snack foods not offered as part of a meal.

In applying this language to your question, the conservation officers could not, as a general rule, accept free meals or discounted meals unless one of the four exceptions listed above apply. Thus, if the meal discounts are being provided to the officers due to their official positions, rather than by any personal or family relationships, made available to all members of the public or provided at public events, the officers could not accept the meal discounts.

In your opinion request, you advised us that eating establishments sometimes automatically discount the meal without informing the officer. In situations such as this, if the officer suspects the meal was discounted, he or she should question the eating establishment as to whether the meal had been discounted, and if so, pay the full price.

In closing, we note that the Kansas Law Enforcement Training Center has informed us that under the Law Enforcement Code of Ethics, law enforcement officers swear to "never accepting gratuities" in their official positions.

Advisory Opinion No. 97-26

Written July 8, 1997, to Jerry Hover, Director of State Parks, Kansas Department of Wildlife and Parks, Pratt.

This opinion is in response to your letter of June 11, 1997, in which you request an opinion from the Kansas Commission on Governmental Standards and Conduct concerning the state conflict of interest laws (K.S.A. 46-215 *et seq.*). We note at the outset that the commission's jurisdiction is limited to the application of K.S.A. 46-215 *et seq.*, and whether some other statutory system, common law theory or agency rule and regulation applies to your inquiry is not covered by this opinion.

Factual Statement

We understand you request this opinion in your capacity as the director of state parks for the Kansas Department of Wildlife and Parks. You advise us that at conferences and seminars, door prizes are often presented to the attendees. The recipients are randomly selected, and the only requirement is that they attend the conference.

Questions

Based on this factual situation, you ask us the following questions:

1. May the employee accept this type of gift or prize?
2. Does it matter if the gift is more than \$40.00?
3. Does it matter if the employee is attending the conference at state expense?
4. Does it matter if the employee is attending the conference at personal expense, but is being paid a salary by the state while attending?
5. Does it matter if the employee is attending the conference at personal expense, and is not being paid a salary by the state while attending?
6. May the employee accept a door prize and donate it to the state without stating that the employee is accepting on behalf of the state?
7. May the employee accept free tickets to a sporting event that are given to all attendees of a conference when the event or other entertainment occurs during the conference and is attended by most of the participants?

Opinion

The commission first notes that gifts to classified state employees and unclassified state employees whose salaries are subject to approval by the Governor fall under the provisions of House Bill 2064, which became law on July 1, 1997. Gifts to unclassified employees whose salaries are not subject to approval by the Governor fall under the provisions of K.S.A. 46-237.

House Bill 2064 in pertinent part states:

(b) No person subject to the provisions of this section shall solicit or accept any gift, economic opportunity, loan, gratuity, special discount or service provided because of such person's official position, except:

- (1) A gift having an aggregate value of less than \$40 given at a ceremony or public function where the person is accepting the gift in such person's official capacity; or

(continued)

(2) gifts from relatives or gifts from personal friends when it is obvious to the person that the gift is not being given because of the person's official position; or

(3) anything of value received by the person on behalf of the state that inures to the benefit of the state or that becomes the property of the state; or

(4) contributions solicited on behalf of a nonprofit organization which is exempt from taxation under paragraph (3) of subsection (c) of section 501 of the internal revenue code of 1986, as amended.

(e) No person subject to the provisions of this section shall solicit or accept free or special discount tickets or access to entertainment or sporting events or activities such as plays, concerts, games, golf, exclusive swimming, hunting or fishing or other recreational activities when the free or special discount tickets or access are provided because of the person's official position. The provisions of this subsection shall not apply to persons whose official position requires or obliges them to be present at such events or activities.

In applying this language to your questions, as a general rule gifts cannot be accepted by state employees subject to this law unless one of the four exceptions are set out above applies. The commission believes that while a state employee may be attending a conference or seminar in the capacity as a state employee, so long as the door prize is given after a truly random selection, the prize would not be "provided because of such person's official position" (subsection (b)). Thus, the answer to your first five questions is that the employee may accept the door prize so long as it is given after a truly random selection.

The answer to your sixth question is that the employee may accept the prize and donate it to the state without stating the employee is accepting the gift on behalf of the state. However, stating that the employee is accepting the prize on behalf of the state would remove any appearance of impropriety.

The answer to your seventh question is similar to the answer to your first five questions. In situations where the tickets are not being "provided because of the person's official position," the tickets may be accepted.

For those unclassified employees whose salaries are not subject to the Governor's approval, K.S.A. 46-237(a) would apply to your questions. That subsection in pertinent part states:

(a) No state officer or employee . . . shall accept or agree to accept any . . . gift . . . having an aggregate value of \$40 or more . . . from any one person known to have a special interest, under circumstances where such person knows or should know that a major purpose of the donor is to influence such person in the performance of their official duties or prospective official duties.

In applying this language to your questions, so long as the door prize was given after a truly random selection, the gift would not be given as a "major purpose" to "influence such person" in the performance of his or her state duties. Therefore, the employee could accept the gift under any of the circumstances you describe.

In closing, the commission does note that while receiving randomly drawn door prizes may not be a violation of the law, there could be circumstances where an appearance of impropriety would exist. The commission suggests that while state employees who receive a gift

under these circumstances are not legally mandated to do so, that any door prizes over \$40 be donated to the state.

Advisory Opinion No. 97-27

Written July 8, 1997, to Michael B. Rees, Chief Counsel, Kansas Department of Transportation, Topeka.

This opinion is in response to your letter of June 23, 1997, in which you request an opinion from the Kansas Commission on Governmental Standards and Conduct concerning the state conflict of interest laws (K.S.A. 46-215 *et seq.*). We note at the outset that the commission's jurisdiction is limited to the application of K.S.A. 46-215 *et seq.*, and whether some other statutory system, common law theory or agency rule and regulation applies to your inquiry is not covered by this opinion.

Factual Statement

We understand you request this opinion in your capacity as chief counsel for the Kansas Department of Transportation (KDOT). You advise us that House Bill 2064, which became law on July 1, 1997, amends K.S.A. 46-233 by increasing the amount of time a state officer or employee must wait before seeking employment with an entity he or she participated in the making of a contract with on behalf of the state.

Questions

Based on the language of that amended statute, you ask us the following questions:

1. A construction contract between the state and contractor "A" becomes final on December 31, 1997. The employee involved in the making of the contract retired on July 1, 1997. When could the employee be hired by:

- Contractor "A";
- a supplier to contractor "A" of highway construction materials;
- an association of highway contractors, of which "A" is a member;
- an association of materials suppliers to which the supplier in (b) belongs?

2. A contract between KDOT and another governmental entity (either state or local) becomes final on December 31, 1997. The employee involved in the making of this contract retires July 1, 1997. When could the employee accept employment with the governmental entity?

3. An employee is involved in making a variety of contracts with a diverse group of business organizations. Does K.S.A. 46-233, as amended, apply to an employee seeking employment with the following:

- Trade organization such as the Kansas Contractors Association or Kansas Asphalt Pavers Association, assuming the contract was with such an organization;
- local units of government?

4. Does being an expert witness for a private employer constitute being an employee, independent contractor or subcontractor?

Opinion

K.S.A. 46-233(a)(2), as amended by House Bill 2064, Section 2, in pertinent part states:

. . . whenever any individual has participated as a state officer or employee in the making of any contract with

any person or business, such individual shall not accept employment with such person or business as an employee, independent contractor or subcontractor until two years after performance of the contract is completed or until two years after the individual terminates employment as a state officer or employee, whichever is sooner. . . .

K.S.A. 46-223 defines "person" as the following:

"Person" means an individual, proprietorship, partnership, limited partnership, association, trust, estate, business trust, group, or corporation, whether or not operated for profit, or a governmental agency unit, or subdivision.

K.S.A. 46-230 defines "business" as the following:

"Business" means any corporation, association, partnership, proprietorship, trust, joint venture, or a governmental agency unit, or a governmental subdivision and every other business interest, including ownership or use of land for income.

In applying this language to your first question, the employee could not accept employment with contractor "A" until two years after he or she had terminated state employment. The employee could accept employment with a supplier to "A" immediately; however, the employee could not directly subcontract with or be employed as an independent contractor with "A" for two years after terminating state employment. The employee could immediately accept employment with an association that "A" or a supplier to "A" belongs to, so long as the employee had not participated in the making of a contract on behalf of the state with the association.

Turning to your second question, both "person" and "business" are defined to include governmental agency units and subdivisions. Therefore, the employee could not accept employment with any governmental agency unit or governmental subdivision, that he or she participated in the making of a contract with on behalf of the state, for two years after terminating state employment. This answer also applies to part (b) of your third question.

In answer to part (a) of your third question, both "person" and "business" are defined to include "association." Therefore, the employee could not accept employment with any association that he or she had participated in the making of a contract with on behalf of the state, for two years after terminating state employment or two years after performance of the contract is completed.

The commission believes that an expert witness is an "employee, independent contractor or subcontractor" as that phrase is used in K.S.A. 46-233. Therefore, a state officer or employee could not receive any compensation as an expert witness from a "person" or "business," with which he or she participated in the making of a contract, for two years after terminating state employment or two years after performance of the contract is completed.

In closing, the commission notes that under K.S.A. 46-233(d), the prohibitions set out in this opinion do not apply if the state contract was let after competitive bidding, or the state contract was for property or services for which the price or rate is fixed by law.

Advisory Opinion No. 97-28

Written July 8, 1997, to Margaret Fast, Water Resource Planner, Kansas Water Office, Topeka.

This opinion is in response to your letter of June 30, 1997, in which you request an opinion from the Kansas Commission on Governmental Standards and Conduct concerning the state conflict of interest laws (K.S.A. 46-215 *et seq.*). We note at the outset that the commission's jurisdiction is limited to the application of K.S.A. 46-215 *et seq.*, and whether some other statutory system, common law theory or agency rule and regulation applies to your inquiry is not covered by this opinion.

Factual Statement

We understand you request this opinion in your capacity as water resource planner for the Kansas Water Office. You advise us that your agency is holding the State Water Plan Vision Summit on November 13, 1997. The purpose of the summit is to take a focused look at water issues that will be important to the future of Kansas. This will be a one-day meeting with invited speakers. The target audience is a wide variety of governmental and private sector individuals and organizations. You are planning for an audience of 200 to 300 people.

Question

Is it permissible, under the state level conflict of interest laws, for the Water Office to solicit donations from organizations and corporations to cover the cost of the meals and breaks during the summit?

Opinion

K.S.A. 46-236 applies to your question. That section in pertinent part states:

No state officer or employee . . . shall solicit any economic opportunity, gift, loan, gratuity, special discount, favor, hospitality, or service from any person known to have a special interest, under circumstances where such officer, employee . . . knows or should know that a major purpose of the donor in granting the same could be to influence the performance of the official duties or prospective official duties of such officer, employee.

K.S.A. 46-228 defines "special interest" in pertinent part as the following:

"Special interest" means an interest of any person . . . in the action or non-action of any state agency or state officer or employee upon any matter affecting such person as distinct from affect upon the people of the state as a whole.

In applying this language to your question, employees of your agency would be prohibited from soliciting donations from organizations and corporations that meet the definition of "special interest." Organizations and corporations would have a "special interest" in the Water Office if your agency had regulatory or inspection authority over them, or if they had a matter before your agency that did not affect the general public as a whole. Organizations and corporations that do not have a "special interest" could be solicited for donations.
