Department of Health  
and EnvironmentNotice of Hearing on Proposed  
Administrative Regulations

A public hearing will be conducted at 1 p.m. Wednesday, March 18, in the MTAA conference room in the Air Terminal at Forbes Field, 6700 S. Topeka Blvd., Topeka, to consider the adoption of new regulations and proposed amendments to existing regulations of the Division of Environment.

The new and amended regulations are proposed for adoption on a permanent basis. A summary of the proposed regulations and their environmental and economic impact follows.

**28-29-12. Notification of closure, closure plans, and long term care.** The change proposed for this regulation corrects the long term care period set forth in the regulation for a solid waste disposal area to 30 years. There is currently a conflict between the regulation, which requires 10 years of post-closure care, and K.S.A. 65-3406(a)(18), which sets 30 years as the minimum period of post-closure care. This amendment will not have a direct impact on public health or the environment and will have no economic impact.

**28-29-27. Medical services waste.** The proposed new citation concerning disposal of medical waste would replace K.A.R. 28-29-23, standards for solid waste processing facilities and disposal areas, with K.A.R. 28-29-109, the proposed new special waste regulation. The paragraph concerning containers of medical services waste is proposed to be amended to eliminate conflict between this regulation and the federal regulations. References to Kansas statutes have been updated. This amendment will not have an impact on public health or the environment and will have no economic impact.

**28-29-108. Operating standards.** This regulation establishes operating standards for municipal solid waste landfills (MSWLFs). A proposed new subsection provides operators of landfills that have received a small landfill

exemption with a mechanism to seek approval from KDHE for operating flexibility to adjust for special circumstances unique to small communities. It will allow landfills that have a small waste stream and are located in areas of limited rainfall to reduce their operating expenses, while maintaining adequate protection of human health and the environment.

New language is proposed for the sign that is required to be posted at the entrance of MSWLFs in accordance with proposed new regulation 28-29-109. Only minimal cost to change signs for landfills accepting predetermined classes of special waste are anticipated.

**28-29-109. Special waste.** Current regulations require landfill owners or operators to track the disposal of commercial or industrial solid wastes, including sludges, banded wastes and special wastes. K.A.R. 28-29-108, operating standards, provides for the tracking of these wastes and the issuance of disposal authorizations by the department.

This proposed new regulation clarifies the departmental requirements for the disposal of special wastes and the procedures for obtaining special waste disposal authorizations.

This regulation also defines four predetermined classes of special waste and provides the mechanism allowing individual landfills to accept these wastes without individual disposal authorizations from the department. Participation in this program will be voluntary. It will be a service the landfills can provide their customers, while removing the department from the disposal authorization process for four common and fairly routine special wastes.

This regulation will not have a direct impact on public health or the environment, and will have an economic impact in terms of man hours only on facilities that choose to participate in this voluntary program.

The time period between publication of this notice and the scheduled hearing serves as the required public comment period of at least 60 days for the purpose of receiving written public comments on the proposed regulation. All interested parties may submit written comments prior to the hearing to George McCaskill, Department of Health and Environment, Bureau of Waste Management, Forbes Field, Building 740, Topeka, 66620. All interested parties will be given a reasonable opportunity to present their views orally on the adoption of the proposed regulations during the hearing. In order to give all parties an opportunity to present their views, it may be necessary to request that each participant limit any oral presentation to five minutes.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulations and regulatory impact statements in an accessible format. Requests for accommodation should be made at least five working days in advance of the hearing by contacting George McCaskill at (785) 296-1606, fax (785) 296-8909.

Complete copies of the regulations and the corresponding economic impact statement may be obtained by contacting the Bureau of Waste Management, (785) 296-1606.

and Environment

### Real Estate Appraisal Board

#### Notice of Hearing on Proposed Administrative Regulations

This 60-day notice of public hearing shall constitute a public comment period for the purpose of receiving written public comments on the proposed regulations. All interested parties may submit written comments prior to the hearing to the Kansas Real Estate appraisal Board, Columbian Title Building, 820 S. Quincy, Suite 314, Topeka, 66612. All interested parties will be given a reasonable opportunity to present their views orally on the adoption of the proposed regulations during the hearing. In order to give all parties an opportunity to present their views, it may be necessary to request each participant to limit any oral presentation to five minutes.

Requests for accommodation should be made at least five working days in advance of the hearing by contacting Michael Haynes at (785) 296-0706.

The proposed regulations are for adoption on a permanent basis. A summary of the proposed regulations and their economic impact follows.

**117-5-1. Provisional classification; education and examination requirements.** This amendment outlines the education and examination requirements needed to become a provisional licensee. There would be no economic impact to applicants, appraisers, the public or state agencies.

**117-5-2. Provisional classification; supervised experience requirements.** This new regulation will require that each provisional licensee be supervised by either a state licensed or certified appraiser. The regulation also will outline the steps that are involved in logging and submitting experience to the board. This regulation also defines the term "good standing." There would be no economic impact to the applicants, appraisers, the public or state agencies.

**117-5-3. Provisional classification; scope of practice.** This is a new regulation intended to clearly outline the scope of practice for a provisional licensed appraiser. There would be no economic impact to the applicants, appraisers, the public or state agencies.

Copies of the regulations and their economic impact statements may be obtained by contacting the Kansas Real Estate Appraisal Board, (785) 296-0706.
