## Notice to Consulting Engineers

The Kansas Department of Transportation is seeking qualified consulting engineering firms for the projects listed below. Responses must be received by 5 p.m. March 12 for the consulting engineering firm to be considered. Seven signed copies of the response should be mailed to Neil Rusch, P.E., Assistant to the Director, Division of Engineering and Design, KDOT, Room 1084-West, Docking State Office Building, 915 S.W. Harrison, Topeka, 66612-1568. Responses shall be limited to four pages.

From the firms expressing interest, the Consultant Selection Committee will select a list of the most highly qualified (not less than three, not more than five) and invite them to attend an individual interview conference. At this time, the consulting firms can more thoroughly discuss their experience related to the type of project at hand and will be expected to discuss, in some detail, their approach to this project and the personnel to be assigned to the project. Firms not selected to be short listed will be notified by letter.

The Consultant Negotiating Committee, appointed by the Secretary of Transportation, will conduct discussions with the firms invited to the individual interview conferences. The committee will select the firm to perform the professional services required for completing the advertised project. After the selection of this firm, the remaining firms will be notified by letter of the outcome.

**Department of Human Resources  
Division of Workers Compensation**

**Notice of Hearing on Proposed  
Administrative Regulations**

A public hearing will be conducted at 1 p.m. Thursday, April 23, in Hearing Room 2 in the lower lobby of the Mercantile Bank Building, 800 S.W. Jackson, Topeka, to consider the adoption of proposed changes in existing rules and regulations of the Department of Human Resources, Division of Workers Compensation.

This 60-day notice of the public hearing shall constitute a public comment period for the purpose of receiving written public comments on the proposed rules and regulations. All interested parties may submit written comments prior to the hearing to the director of the Division of Workers Compensation, 800 S.W. Jackson, Suite 600, Topeka, 66612-1227. All interested parties will be given a reasonable opportunity to present their views orally on the adoption of the proposed regulations during the hearing. In order to give all parties an opportunity to present their views, it may be necessary to request that each participant limit any oral presentation to 10 minutes.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulations and economic impact statements in an accessible format. Request for accommodation should be made at least five working days in advance of the hearing by contacting Phillip Harness at (785) 296-4000 or (785) 296-5044 (TTY). Handicapped parking is located on the second level of the Mercantile Bank building enclosed parking, and the west entrance to the building is accessible to individuals with disabilities.

These regulations are proposed for adoption on a permanent basis. A summary of the proposed regulations and their economic impact follows.

**51-1-22.** In 1993, the legislature amended K.S.A. 44-567 to eliminate the employer's ability to shift liability to the Workers Compensation Fund for a subsequent injury to a handicapped employee on claims arising after July 1, 1994. The Form 88 was used by employers to list the names of handicapped employees in order to establish knowledge that the employee had a preexisting impairment. As noted, liability can no longer be shifted to the workers compensation fund in such circumstances and there is no longer a reason to file such forms with the division of workers compensation. There is no significant economic impact to state agencies, employees or the general public.

**51-2-4.** The regulation currently provides that the director shall make a determination of the accuracy of a reporter fee if the accuracy is challenged. The proposed amendment would insert language making the request one to determine whether the fee is reasonable. Secondly, the determination whether the fee is reasonable is to be made by the administrative law judge. The 1993 reform legislation provides that such factual determinations are the province of the administrative law judge. Any change in the fee costs would be borne by the court reporter or the respondent, depending on whether the fee is increased or decreased.

**51-2-5.** The director is authorized to appoint special administrative law judges to conduct hearings. In 1993, the legislature mandated that in the trial of a workers compensation claim an additional proceeding, a prehearing settlement conference, be conducted. The proposed amendment of this regulation establishes a fee for a special administrative law judge to conduct such prehearing settlement conference. In addition, the hourly rate and total fee for preparing and rendering a final award is increased. The amount of time that it takes to read the transcripts and prepare an award may take longer than the three hour maximum allowed under the current regulation. The 1997 legislature mandated that, with the exception of settlement hearings, the fees of special administrative law judges be paid by the division of workers compensation. This proposed change would increase the fees to be allowed a special local administrative law judge. It is anticipated that the use of special administrative law judges will annually cost the division of workers compensation approximately \$9,000.

**51-3-1.** The regulations currently provide for four modes of terminating a workers compensation claim. An additional method is provided so that the parties may voluntarily dismiss the claim. This will conform a workers compensation proceeding with any other administrative or legal proceeding wherein the claim may voluntarily be withdrawn. The availability of a dismissal by the parties should have no economic impact.

**51-3-5.** This regulation is retitled to accurately reflect the subject matter. In addition, reference to the director is deleted to reflect that since the amendments to the act in 1993 the administrative law judge is the fact finder on claims and litigation material should go to the administrative law judge without unnecessary duplication to the director. This proposed amendment should have a slightly favorable economic impact to the litigants as submission letters will be sent only to the administrative law judge and not duplicated to the director.

**51-3-5a.** In 1993, the legislature amended K.S.A. 44-534a to change the procedure utilized to file for a preliminary hearing on a workers compensation claim. The statute clearly delineates the procedure to obtain a hearing and does not need further clarification or explanation by regulation. The proposed amendment of this regulation eliminates reference to the old procedure and amends the remainder of the regulation to comply with K.S.A. 44-534a, as amended. Other governmental units, private citizens and consumers will not be affected by this change.

**51-3-6.** The 1993 reform legislation created a workers compensation board to review decisions of the administrative law judges and eliminated district courts from the review process. The proposed amendment of the regulation is to delete references to the district court. Other governmental units, private citizens and consumers will not be affected by this change.

**51-3-8.** The 1993 reform legislation amended K.S.A. 44-520 to eliminate the issue of prejudice by failure to receive notice. Accordingly, the question regarding prejudice is eliminated from the regulation. In addition, if the parties have not agreed upon a functional impairment rating, the administrative law judge may refer the injured worker for an independent medical examination. An ad-

ditional question number 20 is added to determine if the parties have agreed upon the functional rating. Lastly, some spelling and grammatical errors are corrected. There is no significant economic impact to state agencies, employees or the general public.

51-3-17. In 1993, the legislature enacted K.S.A. 44-5,120, which defines certain fraudulent and abusive acts. The activities proscribed by this regulation are covered by the statute which renders the regulation unnecessary. There is no significant economic impact to state agencies, employees or the general public.

51-4-1. Supreme Court Rule 116 establishes the procedure for an out-of-state attorney to appear before an administrative tribunal. The regulation is not necessary because it does not clarify or explain the Supreme Court rule which is applicable to all attorneys practicing law in this state. There is no significant economic impact to state agencies, employees or the general public.

51-7-5. K.S.A. 1997 Supp. 44-510e provides that permanent impairment of function shall be determined by using the fourth edition of the American Medical Association Guides to the Evaluation of Permanent Impairment, if the impairment is contained therein. This regulation determines the percentage of impairment for the loss of testicles, and such impairment is addressed by the fourth edition of the guides. The statutory change supersedes and eliminates the necessity for the regulation. There is no significant economic impact to state agencies, employees or the general public.

51-7-6. K.S.A. 1997 Supp. 44-510e provides that permanent impairment of function shall be determined by using the fourth edition of the American Medical Association Guides to the Evaluation of Permanent Impairment, if the impairment is contained herein. This regulation determines the percentage of impairment for the loss of a kidney, and such impairment is addressed by the fourth edition of the guides. The statutory change supersedes and eliminates the necessity for the regulation. There is no significant economic impact to state agencies, employees or the general public.

51-7-8. The proposed amendment to this regulation deletes the method of computing the monetary award for a section of the statute that was ruled unconstitutional. *Stephenson v. Sugar Creek Packing*, 250 K. 768, 830 P.2d 41 (1992). The additional deletions are necessary to conform to statutory changes enacted regarding computation of permanent partial disability and listing a shoulder as a scheduled injury in 1993. There is no significant economic impact to state agencies, employees or the general public.

51-8-2, 51-8-3, 51-8-4, 51-8-5, 51-8-6, 51-8-7, 51-8-9. K.S.A. 1997 Supp. 44-510e(a) and K.S.A. 1997 Supp. 44-510d(a)(23) provide that permanent impairment of function shall be determined by using the fourth edition of the American Medical Association Guides to the Evaluation of Permanent Impairment, if the impairment is contained therein. These regulations determine the percentage of impairment for the loss of sight, and such impairment is addressed by the fourth edition of the guides. The statutory change supersedes and eliminates the necessity for the regulation. There is no significant economic impact to state agencies, employees or the general public.

51-8-10. K.S.A. 1997 Supp. 44-510e(a) and K.S.A. 1997 Supp. 44-510d(a)(23) provide that permanent impairment of function shall be determined by using the fourth edition of the American Medical Association Guides to the Evaluation of Permanent Impairment, if the impairment is contained therein. This regulation determines the percentage of impairment for the loss of hearing, and such impairment is addressed by the fourth edition of the guides. The statutory change supersedes and eliminates the necessity for the regulation. There is no significant economic impact to state agencies, employees or the general public.

51-9-5. The title of this regulation is changed to accurately reflect the subject matter. The language regarding refusal to submit and encouraging cooperation was eliminated because current statutes provide for penalties for refusal to submit to an examination and another regulation mandates that the parties cooperate. The deleted portion of this regulation did not explain or clarify the statutory provisions. Other governmental units, private citizens and consumers will not be affected by this change.

51-9-10. The proposed deletions to this regulation are primarily to correct grammatical deficiencies and conform the terms to the current statutory standards. Other governmental units, private citizens and consumers will not be affected by this change.

51-9-11. The proposed deletion to this regulation provides that the fact finder required to determine the reasonable cost of transportation shall be the administrative law judge. The 1993 reform legislation provided that the administrative law judge make factual determinations in workers compensation cases. Other governmental units, private citizens and consumers will not be affected by this change.

51-9-12, 51-9-13, 51-9-14. These new proposed regulations are required by K.S.A. 44-510. The regulations establish the procedures to be followed to resolve disputes regarding excessive medical fees or unjustified treatment and provide a hearing and review procedure in accordance with the statutory requirements. These are new regulations required by K.S.A. 44-510 and *Beisel v. Boeing Military Airplanes*, 23 Kan. App.2d 572, 932 P.2d 1050 (1997); they could have an economic impact upon a health care provider as the statute may preclude the collection of an unpaid fee or require the repayment of a paid medical fee. Conversely, should the repayment be ordered, or the bill collection precluded, a favorable economic impact would be bestowed upon the respondent/payor. In addition, the Division of Workers Compensation refers complaints for utilization and peer review to an approved contractor, which costs the division approximately \$100,000 per year.

51-10-6. The proposed amendment to this regulation deletes references to director and inserts administrative law judge as the fact finder. There is no significant economic impact to state agencies, private citizens or consumers.

51-12-2. This is a proposed new regulation. The requirement to post notice is currently located in the regulation covering elections and is more appropriately located in a

(continued)

separate regulation. In addition, the reform legislation of 1993 mandated that certain information be disseminated to employers and employees. That information is detailed in the forms identified by this proposed regulation. There should be no new economic impact. The Division of Workers Compensation has been furnishing Form 40 notices for several years. The division spends approximately \$600 per year to print the Form 40s. The second paragraph of the regulation deals with the statutory requirement of the employer to provide Form 27 to injured workers. The division currently furnishes those forms to self-insured employers; all insured employers are to receive those from their insurance carrier. The division currently spends approximately \$300 per year on the Form 27/270 (Spanish version). The requirement of furnishing both of these forms came about as a result of the 1993 statutory reforms to the workers compensation act.

**51-13-1.** The proposed amendment to this regulation deletes the references to posting notice as previously discussed. Grammatical corrections also were made to the regulation. There is no significant economic impact to state agencies, employees or the general public.

**51-15-2.** The proposed amendment is to change the title of Article 15 from second injury fund to workers compensation fund in order to conform to statute and the subject matter of the regulation contained in that article. There is no economic impact to state agencies, employees or the general public.

**51-17-2.** This new proposed regulation provides for facsimile filing directly to the division of workers compensation and establishes standards and procedures. The proposed regulation is patterned after Supreme Court Rule 119, which provides for facsimile filing to district courts. Members of the public may find that the regulation saves mailing expenses and/or if the motion for review is filed on the last possible day, it would save drive-up expenses to the division's main office or the division's field offices.

**51-18-2.** The proposed amendment to this regulation deletes reference to the director and inserts workers compensation board in order to conform to the statutory changes enacted in 1993. Additional language is inserted regarding facsimile filing of a request for review by the workers compensation board. There is no significant economic impact to state agencies, employees or the general public.

**51-18-3.** This new regulation provides that applications to the board for review from a preliminary hearing should specify the issues to be considered and the jurisdictional basis for the appeal. The addition of a jurisdictional basis on an application for review results in an economic impact of the attorney's time in adding, and researching, additional language justifying the jurisdictional basis for the appeal.

**51-18-4.** This new regulation provides a briefing schedule for the parties after an application for review is filed with the workers compensation board. A summary calendar also is established to expedite the decision making process for certain cases. Any economic impact would arise as a result of the decision whether to file a brief by a party. While the regulation does not require a brief to be filed, it does provide a schedule if briefs are filed. The

filing of a brief would increase the litigation cost of the case. A summary calendar would eliminate the time spent scheduling hearings and would mean a cost saving to the parties because the legal expense of oral argument would be eliminated and there would be a cost savings to the division because board members and their staff could devote the time to other matters.

**51-18-5.** This new regulation provides a procedure for extensions of time for the performance of any act required by any person regarding review by the workers compensation board. Other governmental units, private citizens and consumers will not be affected by this change.

**51-18-6.** This new regulation provides for the dismissal of an application for review by the workers compensation board upon the agreement of all parties to the review. The regulation also provides that the appellant notify the board if the matter is settled. While the application itself would not mandate any economic impact, obviously if a case were settled prior to board review, it would not only save the board the time which would otherwise be dedicated to the case, but also the parties.

**51-19-1.** The proposed amendment deletes reference to district court, director and examiner and substitutes the appropriate reference to the division and administrative law judge to make the regulation conform with the current statutes. Other governmental units, private citizens and consumers will not be affected by this change.

**51-21-1.** The proposed amendment to the title of this regulation is to make the title conform to the subject matter of the regulation. Other governmental units, private citizens and consumers will not be affected by this change.

**51-24-1.** The proposed amendment to this regulation deletes those portions of the regulation that refer to statutory procedures that were abolished in the reform legislation of 1993. While the regulation has no economic impact, it should be noted that the 1993 reform made vocational rehabilitation discretionary, rather than mandatory, and there were significant cost savings to employers.

**51-24-2.** The deletion of this regulation is proposed because the reform legislation of 1993 repealed the section of the statute that the regulation implemented. While the regulation has no economic impact, it should be noted that the 1993 reform made vocational rehabilitation discretionary, rather than mandatory, and there were significant cost savings to employers.

**51-24-7.** The deletion of this regulation is proposed because the reform legislation of 1993 repealed the section of the statute that the regulation implemented. While the regulation has no economic impact, it should be noted that the 1993 reform made vocational rehabilitation discretionary, rather than mandatory, and there were significant cost savings to employers.

Copies of the regulations and their economic impact statements may be obtained from the Division of Workers Compensation, 7th Floor, Mercantile Bank Building, 800 S.W. Jackson, Topeka, 66612-1227, (785) 296-4000.

**Department of Health  
and Environment****Notice of Availability of General Permit**

The Kansas Department of Health and Environment has available a general permit (General Permit No. G-HydroT-9707-1; Kansas Permit No. I-AANN-PKNN; Federal Permit No. KS-G67NNNN) for the discharge of hydrostatic test water from new pipeline or storage tanks and used pipeline and storage tanks that were exposed to crude oil, refined petroleum products, liquified petroleum gases and natural gas or mixtures of these products.

A general permit applies to a group or class of dischargers with similar activities and types of discharges. Since the requirements of each permit are identical for all members of the group or class, the general permit is placed on public notice one time and can be issued thereafter without further public notice. The referenced general permit was public noticed September 18, 1997, and is now available for issuance to eligible applicants.

Applicants seeking a general permit for discharging hydrostatic test water to surface waters of the state are required to submit a notice of intent (NOI) and the \$60 annual permit fee to KDHE. If the discharge meets the requirements of the general permit, KDHE will provide the applicant a general permit pursuant to Kansas surface water quality standards, K.A.R. 28-16-28(b), and federal surface water criteria. The discharges are allowed into all surface waters of the state, except KDHE retains the right to determine, on a case-by-case basis, the suitability of this general permit to cover such discharges to those waters classified as outstanding natural resource waters, critical water quality management areas and special aquatic life use waters as defined in the Kansas Administrative Regulations, Chapter 28, Article 16. If the discharge does not meet the requirements of the general permit, the applicant will be required to obtain an individual

permit to discharge the hydrostatic test water at the stated discharge location.

Applications for a notice of intent (NOI) are available from, and correspondence concerning the general permit should be provided to, the Kansas Department of Health and Environment, Bureau of Water—Technical Services Section, Permits and Compliance, Forbes Field, Building 283, Topeka, 66620-0001, (785) 296-5519.

Runoff from the waste concrete and stormwater runoff in the scatter area is drained to a holding pond at the south end of this containment area. Any excess water from this area is directed to the truck wash water treatment system. The permit requirements are pursuant to Kansas surface water quality standards, K.A.R. 28-16-28(b-f), and federal surface water criteria.

Facility Description: The proposed action is to re-issue an existing permit for discharge of contact and noncontact cooling water. The principal activity of this facility is the extrusion of polypropylene into twine. Groundwater is utilized from an on-site well for the following purposes: 1. Approximately 98,700 gallons per day (gpd) of contact cooling water is used to cool plastic filaments as they are extruded. 2. Approximately 45,400 gpd of noncontact cooling water is used to cool various equipment. A water balance indicates 100 gpd of water is lost to evaporation, 59,200 gpd is recycled for reuse and 84,800 gpd is discharged to the receiving stream. No cooling water additives are used and the contact cooling water does not come into contact with any liquids, oils or other contaminants. The permit requirements are pursuant to Kansas surface water quality standards, K.A.R. 28-16-28(b-f), and federal surface water criteria.
