Notice to Private Activity Bond Applicants

Applications for allocation of 1999 Private Activity Bond (PAB) authority are now being accepted for qualified uses, as defined by the Internal Revenue Code of 1986, and amendments thereto.

The State of Kansas currently receives \$150 million of federal authority for the issuance of PABs on an annual basis. Historically, the primary uses of this federal authority have included "qualified small issue bonds" used for construction and equipping of manufacturing facilities and beginning farmer programs; "exempt facility bonds" used by for-profit entities providing a public benefit, i.e., certain waste treatment facilities, qualified residential rental facilities, etc.; and "qualified mortgage bonds" issued to benefit first-time homebuyers. Allocations awarded by the Secretary of Commerce and Housing are subject to the provisions of K.S.A. 74-5060 *et seq.* and the limitations of the state volume cap.

Fees associated with private activity bond application and issuance are as follows:

(1) Application fee—A nonrefundable fee must accompany the application before the request can be processed. The application fee is determined as follows.

- \$250 allocation request up to \$5,000,000
- \$500 allocation request from \$5,000,001 to \$10,000,000

- \$1,000 allocation request of \$10,000,001 and above

(2) Issuance Fee—An issuance fee for allocation amounts utilized, other than "Qualified Mortgage Bonds," shall be due and payable to the Kansas Department of Commerce and Housing at bond closing. Issuance fees shall be determined as follows.

- | Allocation Used | Fee |
|--|------------------------|
| • \$0 - \$2,000,000 | 5 basis points (.05%) |
| • \$2,000,001 and Above | 10 basis points (.10%) |
| • "Qualified Mortgage Bond" programs will be assessed a fee equal to .5% of the mortgage loan amount upon issuance of each mortgage loan assisted through the program. | |

Issuance fees shall be remitted within 30 days of bond closing.

Checks for both the application fee and issuance fee should be payable to the Kansas Department of Commerce and Housing Bond Fee Fund.

U.S. Environmental Protection Agency

Public Notice

The Environmental Protection Agency (EPA) is giving public notice of a draft permit for Lafarge Corporation that is available for review and comment. The draft permit gives the requirements for the combustion of hazardous waste in cement kilns and decontamination of any hazardous waste spill at the site. The Lafarge Corporation burns hazardous waste, coal, used oil, natural gas and other nonhazardous waste materials in two cement kilns at its facility on South Cement Road in Fredonia, Kansas. Lafarge conducted a combined certification of compliance test and a trial burn September 19-28, 1995.

The purpose of this testing was for Lafarge to demonstrate to the EPA and the Kansas Department of Health and Environment that the standards of the Boiler and Industrial Furnace (BIF) rule were being met while hazardous wastes were burned in the two cement kilns. The standards of this rule control the emissions of (1) organic chemicals, including dioxins and furans, (2) carbon monoxide and total hydrocarbons, (3) hydrogen chloride and chlorine gas, (4) particulate matter, and (5) metals.

The EPA has evaluated the results from the testing and found that Lafarge meets the requirements of the above-mentioned BIF standards. Operating conditions for the cement kilns and related process equipment were prepared based on the limits demonstrated during the trial burn and the results of the site-specific risk assessment. The draft permit shows the allowable operating conditions for the two cement kilns, for the facility, and for the removal of spills.

Comments on the draft permit may be sent to the U.S. Environmental Protection Agency, Region VII, Chief, RCRA Permitting and Compliance Branch, 726 Minnesota Ave., Kansas City, KS 66101.

The draft permit, permit application, trial burn results, risk assessment results, administrative record, statement of basis and fact sheet are available for review at the Fredonia County Library, 807 Jefferson St., Fredonia, 66736. The library hours are Monday through Thursday, 10 a.m. to 8 p.m.; Friday, 10 a.m. to 6 p.m.; and Saturday, 10 a.m. to noon. A public forum will be held from 1 to 5 p.m. February 11 and a public hearing will be held at 7 p.m.

February 11. Places for the forum and hearing will be announced in the January 10, 1999, publication of the *Wilson County Citizen* newspaper.

Interested persons may obtain more information concerning this notice by contacting Tim Foster of the EPA, (913) 551-7398, or David Cox of the Kansas Department of Health and Environment, (785) 296-6537.

Department of Revenue

Revenue Ruling 19-1998-2

Issue: Construction and application of the sales tax exemption for non-profit organizations that provide non-sectarian comprehensive multidiscipline youth development programs and activities.

Relevant Statute: K.S.A. 79-3606(ii)

K.S.A. 79-3606(ii) extends a sales tax exemption for sales and purchases by non-profit organizations that provide or sponsor "nonsectarian comprehensive multidiscipline youth development programs." The department previously required organizations that claimed this exemption to establish their non-profit status by providing an exemption letter secured from the Internal Revenue

Service in accordance with I.R.C. Sec. 501(c)(3). The department will no longer require this I.R.S. letter as a condition for qualifying as a "non-profit organization" under K.S.A. 79-3606(ii). This means that the exemption will now extend, for example, to local Boy Scout packs that have not secured formal letter rulings from the I.R.S., as well as to the statewide Boy Scout councils that have. When an organization claims sales tax exemption under one of the other subsections of K.S.A. 79-3606 that requires 501(c)(3) status, the department will continue to require an I.R.S. letter as a condition for establishing sales tax exemption. This revenue ruling is effective upon publication.

**Temporary Administrative
Regulations**

Article 20.—CHEMIGATION

4-20-15. Agronomic application rates. The agronomic application rate for swine waste shall be the amount of waste required for plant nutrition and for the holding capacity of the surfaces or soils to which swine waste is applied, as determined by sound agronomic methods. Sound agronomic application rates shall be determined in consultation with Kansas state university. Sound agronomic methods may include the rate derived from completion of the worksheet and calculations from the form prescribed by the secretary of agriculture in K.A.R. 4-21-1. This regulation shall take effect on and after January 1, 1999. (Authorized by K.S.A. 2-3305, as amended by L. 1998, ch. 143, sec. 25; implementing L. 1998, ch. 143, sec. 6 and sec. 24; effective, T-4-12-29-98, Jan. 1, 1999.)

Article 21.—NUTRIENT UTILIZATION PLANS

4-21-1. "Nutrient utilization plan" defined; amendments to the plan. (a) A swine facility that has an animal unit capacity of 1,000 or more swine and whose manure or wastewater is applied to land shall prepare a nutrient utilization plan, for review by the secretary of agriculture. The plan shall be on a form prescribed by the secretary and shall be a plan that forecasts nutrient management from the date of submission through the next five years. The plan shall be updated annually and made available to the secretary of agriculture upon request. The form required to be completed pursuant to this subsection is the "nutrient utilization plan worksheet" dated December 15, 1998, which is adopted by reference.

(b) Whenever the term "waste" is referred to in these regulations, it shall mean swine manure, swine wastewater, or swine manure and swine wastewater mixed together.

(c) Changes in conditions that warrant amendments requiring the secretary's approval to a facility's plan shall include any of the following:

(1) Additional land to which waste will be applied is not described in an approved plan.

(continued)

(2) A procedure will be used that is not described in an approved plan.

(3) Land described in an approved plan is no longer available for nutrient application.

(4) A phosphorus soil test result exceeds the phosphorus holding capacity of the soil as follows:

(A) When the average annual rainfall is less than or equal to 22 inches, all of the field has a slope of five percent or less, and the soil test result using the Bray or the Mehlich testing method for phosphorus ("P") for the field exceeds 200 ppm or exceeds 76 ppm of "P" using the Olsen testing method;

(B) when the average annual rainfall is less than or equal to 22 inches, any part of the field has a slope of greater than five percent, and the soil test result using the Bray or the Mehlich testing method for "P" exceeds 150 ppm or exceeds 57 ppm of "P" using the Olsen testing method;

(C) when the average annual rainfall is greater than 22 inches but less than 30 inches, the slope for all of the field is less than five percent, and the soil test result using the Bray or Mehlich testing method for "P" for the field exceeds 150 ppm or exceeds 57 ppm of "P" using the Olsen testing method;

(D) when the average annual rainfall is greater than 22 inches but less than or equal to 30 inches, the slope of any part of the field is greater than five percent, and the soil test result using the Bray or Mehlich testing method for "P" for the field exceeds 100 ppm or exceeds 38 ppm of "P" using the Olsen testing method; or

(E) when the average annual rainfall is greater than 30 inches, the slope of any part of the field is greater than five percent, and the soil test result using the Bray or Mehlich testing method for "P" for the field exceeds 100 ppm or exceeds 38 ppm of "P" using the Olsen testing method.

(d) Swine facilities required by law to prepare nutrient utilization plans shall submit any other amendments necessary to facilitate approval as requested by the secretary of agriculture.

(e) Any amendment described in subsection (c) or subsection (d) of this regulation to the plan shall be submitted to the secretary of agriculture and approved by the secretary before the application of swine waste. This regulation shall take effect on and after January 1, 1999. (Authorized by K.S.A. 2-3305, as amended by L. 1998, ch. 143, sec. 25, implementing L. 1998, ch. 143, sec. 6 and sec. 24; effective, T-4-12-29-98, Jan. 1, 1999.)

4-21-2. "Field" defined. A field is defined, for purposes of preparation of a nutrient utilization plan, as an expanse of land devoted to one particular crop or tillage condition at a time and managed uniformly. A field shall also be the area identified by section, township, and range and outlined on a site map contained in a filed nutrient utilization plan approved by the secretary of agriculture. This regulation shall take effect on and after January 1, 1999. (Authorized by K.S.A. 2-3305, as amended by L. 1998, ch. 143, sec. 25; implementing L. 1998, ch. 143, sec. 6 and sec. 24; effective, T-4-12-29-98, Jan. 1, 1999.)

4-21-3. Soil samples. (a)(1) All soil samples taken by a swine facility required to complete a nutrient utilization

plan shall be composite samples and shall be representative, at the time they are taken, of the soils and of the nutrient values in the field from which the samples are taken. A swine facility required to complete a nutrient utilization plan shall assure that the samples taken to complete a nutrient utilization plan are taken in accordance with this regulation.

(2) A representative number of cores, with each core taken to a depth of 24 inches, shall be collected for each field. Two composite samples shall be made from the cores collected for each field. One composite sample shall consist of the top six inches of the cores for each field. The other sample shall be the remaining six to 24 inches of the cores for each field. Phosphorus, copper, nitrate-N, chloride, and zinc shall be tested from the combined top six inches of the cores taken from a field. Nitrate-N and chloride shall be tested from the combined six to 24 inches of the cores taken from a field. The core composite portions of any sample, when mixed together, shall represent the field at the depth from the cores.

(b) Soil samples required by this regulation shall be taken no less than immediately prior to any application of swine waste, but are not required to be taken more frequently than annually. The person who takes a soil sample to comply with these regulations shall certify that the sample is representative of the soil and of the nutrient values of the field being tested.

(c) A copy of the certification of each composite soil sample and the laboratory results for each sample shall be maintained in the office of the swine facility and made available to the secretary of agriculture or designee upon inspection. The certification, at minimum, shall show the date the sample was taken, the numbers of cores taken from each field, the approximate locations in the field from which cores were taken, the depth or depths of the cores that constitute the sample, the name of the person who took the sample, and the date the sample was delivered to a laboratory. The certification required by this regulation shall be on a form prescribed by the secretary.

(d) Samples shall be taken by the secretary of agriculture or designee when, at that individual's discretion, an inspection requires a sample. Each sample shall be taken by the secretary of agriculture or designee to be tested as required by this regulation and by K.A.R. 4-21-4. A composite soil sample taken by the secretary of agriculture or designee shall be presumed to be representative of the soil and nutrient values sampled. Whether a sample is representative shall be within the sole discretion of the secretary of agriculture, and the secretary's determination of whether a sample is representative shall be final. This regulation shall take effect on and after January 1, 1999. (Authorized by K.S.A. 2-3305, as amended by L. 1998, ch. 143, sec. 25; implementing L. 1998, ch. 143, sec. 6 and sec. 24; effective, T-4-12-29-98, Jan. 1, 1999.)

4-21-4. Soil tests. The composite soil samples from each field tested shall be analyzed for the following nutrients in the manner prescribed by this regulation.

(a) The test for nitrate-N shall follow the directions in chapter five of the north central regional research publication no. 221 (revised January 1998), "recommended chemical soil test procedures for the north central region," on pages 17 through 19.

(b) The test for phosphorus shall follow the directions in chapter six of the north central regional research publication no. 221 (revised January 1998), "recommended chemical soil test procedures for the north central region," on pages 21 through 26. Calcareous soils shall follow the directions for the Olsen phosphorus test on pages 25 through 26. For non-calcareous soils, the test shall follow the directions for either the Bray test, on pages 21 through 22, or the Mehlich test, on pages 23-24. Calcareous soils are defined as soils having a pH above 7.0 that effervesces when a drop of six moles of hydrochloric acid is placed on it.

(c) The test for copper shall follow the directions for diethylenetriaminepentaacetic acid (DTPA) extraction in chapter nine of the north central regional research publication no. 221 (revised January 1998), "recommended chemical soil test procedures for the north central region," on pages 41 through 42.

(d) The test for chlorides shall follow the directions for the mercury (II) thiocyanate method in the north central regional research publication no. 221 (revised January 1998), "recommended chemical soil test procedures for the north central region," on pages 49 through 50.

(e) The test for zinc shall follow the directions for DTPA extraction in chapter nine of the north central regional research publication no. 221 (revised January 1998), "recommended chemical soil test procedures for the north central region" on pages 41 through 42.

(f) The authorized representative for the laboratory at which the sample was tested shall certify that the sample was tested according to the procedure set forth in this regulation and that the results of the test are an accurate test of the sample. The laboratory's certification shall show the date the sample was received, the date the sample was analyzed, the signature of the laboratory's authorized representative, and the results of the analysis for each chemical in each sample analyzed. This regulation shall take effect on and after January 1, 1999. (Authorized by K.S.A. 2-3305, as amended by L. 1998, ch. 143, sec. 25; implementing L. 1998, ch. 143, sec. 6 and sec. 24; effective, T-4-12-29-98, Jan. 1, 1999.)

4-21-5. Agreements to apply swine waste. All agreements for the application of swine waste on land owned by a person or persons other than the swine facility that is required to prepare a nutrient utilization plan shall be in writing. This regulation shall take effect on and after January 1, 1999. (Authorized by K.S.A. 2-3305, as amended by L. 1998, ch. 143, sec. 25; implementing L. 1998, ch. 143, sec. 6 and sec. 24; effective, T-4-12-29-98, Jan. 1, 1999.)

4-21-6. Record keeping. (a) A swine facility that is required to prepare a nutrient utilization plan shall keep records required by the law for the five years immediately preceding the date of the then-current inspection or for the years the swine facility operates after the effective date of this regulation. A swine facility shall not be required by the law for more than five past years.

(b) Book values that are generally recognized as based on sound agronomic calculations may be substituted for actual values in preparing a nutrient utilization plan except for soil samples and for the tests results of soil sam-

ples. Actual values shall be used for soil samples and for the test results of soil samples if the swine facility is in existence at the time of the sampling and if the date of the sample is on or after the effective date of this regulation.

(c) All records required to be kept by L. 1998, ch. 143 and by K.A.R. 4-21-1 et seq. and K.A.R. 4-20-15 shall be made available to the secretary of agriculture upon request. This regulation shall take effect on and after January 1, 1999. (Authorized by K.S.A. 2-3305, as amended by L. 1998, ch. 143, sec. 25; implementing L. 1998, ch. 143, sec. 6 and sec. 24; effective, T-4-12-29-98, Jan. 1, 1999.)

4-20-11. Civil penalties. (a) The process for issuance and processing civil penalties shall follow the procedure established in K.A.R. 4-13-60 through 4-13-65, except for all of the following:

(1) The provisions of K.A.R. 4-13-62(b) shall be replaced by the provisions of subsection (b) below.

(c) Beginning January 1, 1999, and concluding January 31, 1999, the lottery will conduct a "Starburst" promotion in the Topeka, Wichita and Great Bend regions. The 20 lottery district managers identified by number in subsection (a) will call upon one of the five retailers identified in subsection (a) on each day for the week on Monday through Friday to assist the retailer in placing a "Starburst" decal on a visible wall or counter for every winning instant or on-line ticket that is sold or claimed by that retailer that is a \$10.00 winner or above. Each "Starburst" placed should contain, where possible, the name of the winner, the amount won, and the ticket itself.

For every 25 winning "Starbursts" placed in a visible location at the retail establishment, that retailer will be entered into a regional drawing for a prize from the lottery. The regional grand prize is a television set, second prize is a combination CD/radio/tape player and third prize is a CD player.

(e) During the week preceding the start of the promotion, an information sheet will be provided for all participating retailers so that they may all start on the same day. "Starbursts" will be provided by the lottery. The regional drawings for the grand prize, second prize and third prize will be conducted at each of the regional offices on February 1, 1999. In this instant game, the retailer validation code is a three-letter code printed and appearing in three of eight varying locations among the game symbols. The codes and their meanings are as follows: FRE = Free Ticket; TWO = \$2.00; FIV = \$5.00; TEN = \$10.00; FTN = \$15.00; FTY = \$50.00; FHN = \$500.00.

(f) "Bar code" means the 16-digit bar-coded number appearing on the back of each ticket. (Authorized by and implementing K.S.A. 1997 Supp. 74-8710; effective, T-111-12-18-98, Nov. 20, 1998.)

111-4-1379. Determination of instant prize winners. An instant prize winner is determined for this instant game when the player removes or "scratches off" the removable layer of material covering the play area to reveal the six game symbols and captions. This is a match three of six game. If three of the six concealed prize amounts match, the player wins the amount shown. No ticket will be eligible to win more than one prize. (Authorized by K.S.A. 1997 Supp. 74-8710(b), (c) and (i); implementing K.S.A. 1997 Supp. 74-8710(b), (c) and (i), and K.S.A. 74-8720(b) and (d); effective, T-111-12-18-98, Nov. 20, 1998.)

111-4-1380. Number and value of instant prizes. (a) There will be approximately 1,800,000 tickets ordered initially for this instant game. The expected number and value of the instant prizes are as follows:

Match	Prizes	Expected Number of Prizes in Game	Expected Value in Game
3 - FREE's	Free Ticket	216,000	\$0
3 - \$2.00's	\$2	72,000	144,000
3 - \$5.00's	\$5	40,800	204,000
3 - \$10.00's	\$10	12,000	120,000
3 - \$15.00's	\$15	6,600	99,000
3 - \$50.00's	\$50	6,600	330,000
3 - \$500.00's	\$500	30	15,000
		<u>354,030</u>	<u>\$912,000</u>

(b) The executive director may terminate the sale of tickets prior to the complete sale of all tickets. In this event, the number and value of prizes will be approximately proportional to the number of tickets actually sold. The odds of winning a prize in this game are one in 5.08.

(c) All prizes are subject to deductions provided by law.

(d) Additional ticket orders shall have the same prize structure, the same number of prizes per prize pool of 300,000 tickets and the same odds as were contained in

the initial ticket order. (Authorized by K.S.A. 1997 Supp. 74-8710(b), (c) and (f); implementing K.S.A. 1997 Supp. 74-8710(b), (c) and (f), and K.S.A. 74-8720; effective, T-111-12-18-98, Nov. 20, 1998.)
