Board of Emergency Medical Services**Notice of Hearings on Proposed Administrative Regulations**

The Kansas Board of Emergency Medical Services is conducting three public hearings to consider the adoption of amendments to permanent Kansas administrative regulations 109-5-4 and 109-6-2, in addition to the administrative regulations published in the April 1, 1999 issue of the Kansas Register. The public hearings will be held at 1 p.m. Tuesday, June 15, in Centennial Room C, Pozez Education Center, 1505 S.W. 8th, Topeka; at 1 p.m. Thursday, June 17, at the Butler County EMS, 701 N. Haverhill Road, El Dorado; and at 1 p.m. Saturday, June 19, at the Conference Center, Hays Medical Center, 2220 Canterbury Drive, Hays.

The adoption of the proposed changes to these regulations are not required by federal law nor is the board participating in or implementing a federally subsidized or assisted program relating to these proposed regulation changes.

This notice constitutes the initiation of a 60-day public comment period for the purpose of receiving written public comments on the proposed regulations. Written comments may be submitted to David Lake, Administrator, Kansas Board of Emergency Medical Services, 109 S.W. 6th, Topeka, 66603-3826.

Individuals will be given a reasonable opportunity to orally present their views at any of the public hearings. A written summary of their testimony should be provided. Oral presentations may be limited to five minutes, depending on the number of individuals desiring to provide testimony.

A complete copy of the proposed regulations and the economic impact statement may be obtained from the Kansas Board of Emergency Medical Services, (785) 296-7296 or (785) 296-6237 (TTY). Any individual with a disability may request accommodation in order to partici-

pate in the public hearings and may request the proposed regulations and economic impact statement in an accessible format. Requests for accommodation should be made at least five days in advance of the hearing by contacting David Lake at (785) 296-7296.

The following is a summary of proposed changes to permanent Kansas administrative regulations 109-5-4 and 109-6-2 and their economic impact.

109-5-4. Regaining expired certification. The proposed changes to this existing regulation will require a specific refresher curriculum be successfully completed and competency evaluated prior to being eligible to regain an expired certification as a first responder, EMT or MICT.

The estimated economic impact on other governmental agencies or units, persons subject to the proposed changes of this regulation, and the general public involves additional costs to the person subject to the proposed changes of this regulation to obtain and successfully complete the refresher course. These refresher courses are not conducted on a regular basis. The individual may have to travel to attend a refresher course. Depending on the level of the refresher course, the course fees and travel expenses will vary. The economic impact to the individual could be as high as \$500 for the MICT and \$250 for the first responder and EMT. Last year, approximately 85 people let their certification expire and chose to regain the certification. Consequently, the total economic impact on all individuals affected by the proposed changes to this regulation is \$21,250 to \$42,500.

There is no fiscal impact to the board because of the changes to this regulation.

109-6-2. Renewal of attendant and instructor-coordinator certificate. The purpose of the proposed changes to this permanent regulation is to bring the board into compliance with the Kansas Administrative Procedures Act as it relates to certification renewal processes. 1998 Senate Bill 535 eliminated the 30-day period after December 31 to correct problems with applications for certification renewal that were received before December 31. This regulation will reinstate that period before the certification will expire.

The economic impact on those persons subject to the regulation, local units of government and the general public is one of a cost savings. The local unit of government will benefit from not having to replace an individual attendant on an ambulance service or first responding organization simply because there was a problem with completeness of their application for certification renewal. This could mean no lost work time for the individual and a higher degree of readiness of the EMS system to assure the provision of manpower. These costs are unknown.

There is no fiscal impact on the board because of the proposed changes to this regulation.

Request for Comments

The Kansas Department of Health and Environment is announcing its intent to issue an air quality construction permit to the Coleman Company, Incorporated, for operations at its Beacon facility, located at 5605 N. 119th St. West, Maize. The proposed construction permit authorizes Coleman to modify production process(s) and building(s) and to install a vapor combustion system (enclosed flare) at its Maize facility. The permit is to be issued in accordance with the provisions of K.A.R. 28-19-17 (Prevention of Significant Deterioration (PSD)), which adopt the federal standards, procedures and requirements of 40 CFR 52.21 by reference. These air quality regulations apply to major stationary emission sources located in areas designated as attainment under the federal Clean Air Act (CAA). Attainment areas are areas where the air quality meets or is better than the national ambient air quality standards (NAAQS).

Coleman's Beacon facility fabricates and fills small propane bottles. Propane has been identified as a regulated volatile organic compound (VOC) under the provisions of K.A.R. 28-19-7. The Beacon facility has the potential to emit (PTE) more than 250 tons of propane per year. Stationary sources having a PTE greater than 250 tons of a regulated pollutant per year are classified as major sources. The Maize area is designated as an attainment area under the CAA. K.A.R. 28-19-17 requires that a pre-construction review be completed prior to the construction of a major source or any major modifications to a major source located in an attainment area. The pre-construction review requires identification and use of the best available control technology (BACT) for each pollutant emitted above PSD significance levels for each emission unit and an evaluation of the impacts, if any, that emissions from the proposed activity may have on the ambient air quality, visibility, vegetation and soils.

VOC (propane) emissions from the proposed activity were evaluated during the permit review process. The review indicates installation of BACT at Coleman's Beacon facility will reduce VOC emissions from 1,145 to 135 tons of propane per year. BACT for the Coleman plant consists of modifications to the plant buildings and process modifications to enable the VOCs to be collected and directed to a vapor combustion control device (enclosed flare), which is designed to destroy 98 percent of the cap-

tured VOCs. Byproducts from combustion of the VOCs (carbon dioxide and water) will be discharged to the atmosphere.

There should be no significant impact on local plants, vegetation and soils due to the installation and operation of the proposed activity; rather, there should be reduction of emissions currently being emitted.

Comments may be submitted on this proposed permitting action during the comment period, April 15 - May 17. Comments should be submitted in writing to Connie Carreno, KDHE, Air Permit Section, Bureau of Air and Radiation, Forbes Field, Topeka, 66620. A public hearing may be requested on this proposed permitting action. The request for a public hearing should be submitted in writing and should identify the reasons why a public hearing is being requested.

A copy of the proposed permit, permit application, supporting documentation and information relied upon during the permit application review process is available for public review during normal business hours, 8 a.m. to 5 p.m., at the KDHE, Bureau of Air and Radiation, Building 283, Forbes Field, Topeka; and from 8 a.m. to 12:30 p.m. and 1 to 5 p.m. at the Maize City Hall offices, 123 Khedive, Maize. Questions about the draft permit should be directed to John Ramsey at (785) 296-1992. To review the proposed permit and supporting documentation, or to obtain copies, contact Connie Carreno, (785) 296-6422, at the KDHE central office, or Angie Hermann (316) 722-7561, at the Maize City Hall offices. The standard departmental cost will be assessed for any copies requested.

Notice of Hearing

A public hearing will be conducted by the Kansas Department of Health and Environment at 7 p.m. Tuesday, May 18, at the Andale Co-op, 143 N. Colorado, Colwich, to receive comments prior to final action on the proposed issuance of an air quality construction permit. KDHE is proposing to issue the permit, in accordance with the provisions of K.A.R. 28-19-17 (Prevention of Significant Deterioration (PSD)), which adopts the standards, procedures or requirements of 40 CFR 52.21 by reference.

The permit authorizes Western Resources to install and operate three simple cycle gas turbines, relocate a diesel engine, and construct a storage tank to store No. 2 fuel oil at the Gordon Evans Energy Center in Colwich. The facility is owned and operated by Western Resources Inc., Topeka.

Two of the three General Electric gas turbines each have 85.4 megawatts (MW) baseload generating capacity and the third has a 171.7 MW baseload capacity. All of the turbines are natural gas fired, each having a limit of

1000 hours burning No. 2 fuel oil as a backup. The diesel engine to be relocated drives a 2.8 megawatt generator.

The Colwich area is designated as an attainment area under the Clean Air Act, which means that the air quality meets or is better than the national ambient air quality standards (NAAQS). Any major source or a major modification to a major source has to undergo a pre-construction review as required by the PSD regulations. Ambient impact, visibility and impact on plants, vegetation and soil must undergo analysis. Best available control technology (BACT) must be applied to control pollutants that are above significant emission levels.

Emissions of oxides of nitrogen, sulfur dioxide, volatile organic compounds, carbon monoxide, particulate matter, particulate matter of less than 10 microns diameter, sulfuric acid mist and lead were evaluated during the permit review process. The emissions from the proposed modification are as follows:

	Emissions	
	Uncontrolled Tons per year	Controlled Tons per year
Oxides of nitrogen (NO _x)	6,730	802
Sulfur dioxide (SO ₂)	1,435	105
Volatile organic compounds (VOC)	329	35
Carbon monoxide (CO)	1,459	661
Particulate matter (PM)(PM ₁₀)	631	185
Sulfuric acid mist (H ₂ SO ₄)	122	10
Lead (Pb)	0.1	0.1

The emissions of oxides of nitrogen from the turbines are controlled to the BACT level by state of the art burner technology. The emissions of sulfur dioxide is controlled to the BACT level by limiting burning of fuel oil to low sulfur No. 2 fuel oil. The relocated diesel generator will use low sulfur fuel oil as BACT. Emissions of sulfuric acid mist is controlled by using low sulfur No. 2 fuel oil. Emissions of carbon monoxide, volatile organic compounds and particulate matter (PM/PM₁₀) are to be controlled using good combustion practices as BACT. There is negligible consumption of the allowable increment of oxides of nitrogen and sulfur dioxide from this installation. There is no significant impact on plants, vegetation and soil due to the installation and operation of the proposed activity in the area. There will be an increase in local work force during the construction phase, but the increase will be temporary.

A copy of the proposed permit, permit application, supporting documentation and information relied upon during the permit application review process is available for public review during normal business hours at the KDHE, Bureau of Air and Radiation, Building 283, Forbes Field, Topeka, and at the Colwich City Hall. To obtain or review the proposed permit and supporting documentation, contact Connie Carreno, (785) 296-6422, at the KDHE central office, or Mary Alice Carlile, (316) 796-1025, at 310 S. 2nd, Colwich, 67030. The standard departmental cost will be assessed for any copies requested.

Request for Comments

The Kansas Department of Health and Environment is soliciting comments regarding a proposed air quality construction and operating permit. Duke Energy Field Services has applied for a construction and a Class II operating permit in accordance with the provisions of K.A.R. 28-19-300 and K.A.R. 28-19-540 respectively. Emissions of oxides of nitrogen (NOx) were evaluated during the permit review process. The purpose of a Class II permit is to limit the potential-to-emit for these pollutants to below major source thresholds.

Duke Energy Field Services, Denver, Colorado, owns and operates a natural gas compressor station located at S28-T32S-R34W, Seward County, which has two existing engines and a new engine that will be installed.

A copy of the proposed permit, permit application, all supporting documentation and all information relied upon during the permit application review process is available for public review during normal business hours at the KDHE, Bureau of Air and Radiation, Building 283, Forbes Field, Topeka, and at the KDHE southwest district office, 302 W. State Bank Commissioner

Notice of Hearing on Proposed
Administrative Regulations

A public hearing will be conducted at 10 a.m. Friday, June 18, in the conference room of the Office of the State Bank Commissioner, Suite 300, Jayhawk Tower, 700 S.W. Jackson, Topeka, to consider the adoption of Kansas administrative regulations 17-24-1 and 17-24-2. The regulations are proposed for adoption on a permanent basis. Temporary regulations also were submitted.

K.A.R. 17-24-1 establishes a basic disclosure to consumers required to be made by persons and businesses engaged in mortgage business activity in Kansas. Adoption of this regulation will result in no new economic impact on a government agency, regulated entities or the public, as this disclosure has been required pursuant to statute since 1996.

K.A.R. 17-24-2 changes the fee to be paid for applying for and renewing a certificate to conduct mortgage business in Kansas. The new regulation is necessary to recoup the costs associated with regulating mortgage business companies doing business in Kansas. Since 1996, when the office of the State Bank Commissioner assumed regulatory authority over those persons and companies engaged in mortgage business in Kansas, the industry has grown dramatically. The OSBC now regulates approximately 500 persons and/or companies engaged in mortgage business in Kansas. Approximately 67 percent of these 500 companies do business in Kansas, but do not have offices in this state. In order to properly regulate these 500 companies and respond to consumer inquiries, the OSBC is proposing to change the current fee structure. Under the new regulation, a certificate to conduct mortgage business will last for two years instead of one, but an application fee for an original certificate will be \$600 and a renewal fee will be \$400.

The OSBC believes proposed regulation 17-24-2 is necessary to carry out its statutorily defined responsibilities under Kansas law. The OSBC has analyzed the fixed labor costs and other costs of regulating mortgage business activity in Kansas and believes the new regulation will help recoup actual costs involved in the regulation of mortgage business activity in Kansas.

In 1998, the OSBC received approximately \$50,000 in fee income from mortgage registrants. The OSBC estimates the new regulation will generate approximately \$100,000 per year in fee income. The OSBC believes adoption of this regulation will result in additional costs to the regulated entities, but will not result in any new direct economic impact on the general public.

A copy of the proposed regulations and the economic impact statement may be obtained by contacting Ezra Ginzburg, Staff Attorney, Office of the State Bank Commissioner, 700 S.W. Jackson, Suite 300, Topeka, 66603, (785) 296-2266. The standard departmental cost will be assessed for any copies requested.

This 60-day notice of hearing shall constitute a public comment period for the purpose of receiving public comments on the proposed regulations. Written comments

should be submitted prior to the hearing to Judi Stork, Acting State Bank Commissioner, at the address listed above. Interested persons will be given reasonable opportunity at the hearing to present their views and arguments on the adoption of the proposed regulations; however, presentations should be in writing whenever possible.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulations and economic impact statement in an accessible format. Requests for accommodation should be made at least five working days before the hearing by contacting Ezra Ginzburg at (785) 296-2266, fax (785) 296-0168.

A player can win one time in the play area.

Game 2 is a bonus game. If a pig symbol is revealed, the player wins \$25.00 instantly. A player can win two times on this ticket. (Authorized by K.S.A. 1998 Supp. 74-8710(b), (c) and (i); implementing K.S.A. 1998 Supp. 74-8710(b), (c) and (i), and K.S.A. 74-8720(b) and (d); effective, T-111-4-2-99, March 19, 1999.)

(1) Filing a plan of conversion containing:

(A) A description of the structure, forms and allocation of the proposed consideration to the policyholders, the projected range of the number of shares of capital stock, if any, to be issued by the new stock insurer or parent company of the new stock insurer, or any other company, and such other proposed conditions and provisions as determined by the mutual insurer not to be inconsistent with this act. As used in this act, "parent company" means any company which on or after the effective date of the conversion owns, directly or indirectly, 51% or more of the capital stock of the new stock insurer;

(B) a description of any amendments to the insurer's articles of incorporation;

(b) Plan of conversion in which policyholders exchange their membership interests solely for subscription rights. A mutual insurer seeking to convert to a stock insurer pursuant to this subsection may do so by:

(F) a provision which sets the purchase price per share of capital stock equal to any reasonable amount;

(C) a provision that any person or group of persons acting in concert shall not acquire, in the public offering or pursuant to the exercise of subscription rights, more than 5% of the capital stock of the converted stock company, except with the approval of the commissioner.
