A copy of the proposed permit, permit application, all supporting documentation and all information relied upon during the permit application review process is available for public review during normal business hours at the KDHE, Bureau of Air and Radiation, Building 283, Forbes Field, Topeka, and at the KDHE Southeast District Office, 1500 W. 7th, Chanute. The written request must be submitted to Connie Carreno, Bureau of Air and Radiation, not later than the close of business July 12 in order for the Secretary of Health and Environment to consider the request.

Churches and Other Religious Organizations

The 1999 Kansas Legislature enacted Senate Bill 45, which amends several provisions in the Kansas sales tax law. Most of the changes in the bill become law on July 1, 1999; however, a number of changes are effective upon the law's publication in the Kansas Register. Some of these changes benefit churches and other religious organizations.

This notice provides information on how the Department of Revenue will implement the amendments that affect religious organizations that became law on May 27, 1999. The department will issue additional directives in June to implement other sales tax changes effective July 1, 1999.

Last year, the 1998 Kansas Legislature exempted sales of property and services to religious organizations, when such purchases are used exclusively for religious purposes. This year, the Legislature expanded this exemption to include sales of tangible property and services to contractors who use such purchases to construct buildings or make other improvements to real property owned by a religious organization and used exclusively for religious purposes. This does not exempt the purchase of any construction machinery, equipment or tools. In addition to enacting this exemption, the 1999 Legislature directed the department to implement refund procedures to refund the sales tax religious organizations paid indirectly through their contractors on or after July 1, 1998.

To qualify for this refund, the religious organization's contractor must have paid Kansas sales tax on purchases used to improve the organization's real property and the real property must be used exclusively for religious purposes. What constitutes being "used exclusively for religious purposes" is discussed in Kansas Department of Revenue Notice 98-05, at subsection III. This notice is available from the department's Taxpayer Assistance Centers and is published in its Policy Information Library, which can be found on the department's Internet address www.ink.org/public/kdor.

- *Purchases delivered or service performed on or after May 27, 1999*—To claim indirect exemption for purchases made by their contractors on or after May 27, 1999, a religious organization must complete a "Request for Project Exemption Certificate" (Form PR-76) and mail or fax it to the department. Religious organizations may use existing project exemption application forms until revised forms that specifically mention religious organizations are available. A project exemption certificate is a type of exemption certificate that is issued by the department or under its authority that exempts purchases made by contractors doing qualifying work for a qualifying entity. Religious organizations must take the following steps to obtain and use a project exemption certificate: (1) The church or other exempt religious organization must complete Form PR-76 and submit it to the Department of Revenue by mail or fax; (2) the department will review the completed application

form and approve or deny it; (3) if approved, the department will issue a project exemption certificate to the church, which contains a project number; (4) the church or religious organization would reproduce this certificate and provide a copy to the general contractor, who in turn would provide copies to all its subcontractors on the project; (5) contractors and subcontractors would provide a copy of the project exemption certificate to suppliers when purchasing materials and supplies for the project; and (6) suppliers should retain the project exemption certificate in their files and place the project exemption number on each sales invoice in lieu of collecting Kansas sales tax.

- *Purchases delivered or service performed between July 1, 1998 and May 27, 1999*—To claim refunds for purchases delivered or services performed on or after July 1, 1998, and before May 27, 1999, religious organizations must contact their contractors and subcontractors and jointly complete refund forms provided by the Department of Revenue. The form must be completed and signed by both the contractor and the religious organization. This requires providing a description of the project, the dates the project was performed, and supplying copies of the vendor invoices showing the amount of Kansas sales tax that the contractor paid to the vendor. Contractor/retailers who accrued tax on a project must provide a statement or other documentation showing the amount of tax accrued and the reporting period during which it was accrued. To qualify for a refund, the sale must have been made during or after July 1998. Retail sales are considered to be made when the seller delivers an item to the buyer or when the services are performed. The documentation provided must reasonably establish delivery or contract performance occurring on or after July 1, 1998.

The 1999 Kansas Legislature enacted this refund provision to benefit religious organizations whose building costs were affected because their contractors could not claim an exemption when purchasing building materials and supplies. Application for refunds must be jointly signed by the religious organization and by the contractor who paid the tax or by the contractor/retailer who accrued it. Refund checks issued by the Department of Revenue will be made payable to the religious organization.

Class II and Class III Railroads

The 1999 Kansas Legislature enacted Senate Bill 45 relating to several Kansas tax laws. Some of the amendments benefit Class II and III railroads, as classified by the Federal Surface Transportation Board. Most of the changes in the bill become law on July 1, 1999; however, some changes are made effective upon the law's publication in the Kansas Register on May 27, 1999. This notice discusses how the Department of Revenue will implement the bill's sales tax amendments that affect Class II and III railroads and which became law on May 27, 1999.

Senate Bill 45 contains sales tax exemption and refund provisions that benefit Class II and III railroads. These provisions are part of the tax incentives the 1999 Kansas Legislature enacted to help alleviate the grain storage and shipping problems Kansas farmers and agribusiness have experienced at harvest in recent years. Section 6 of the bill provides an exemption as follows:

(ddd) on and after January 1, 1999, and before January 1, 2000, all sales of materials and services purchased by any class II or III railroad as classified by the federal surface transportation board for the construction, renovation, repair or replacement of class II or III railroad track and facilities used directly in interstate commerce. In the event any such track or facility for which materials and services were purchased sales tax exempt is not operational for five years succeeding the allowance of such exemption, the total amount of sales tax which would have been payable except for the operation of this subsection shall be recouped in accordance with rules and regulations adopted for such purpose by the secretary of revenue.

For purposes of implementing this provision, the term "railroad track and facilities" shall mean property normally located within a qualifying railroad's right-of-way, including but not limited to: rails, ties, ballast, joint bars, tie plates, spikes, culverts, steel, concrete or stone materials, switches, switch stands, switch points, frogs, switch ties, bridge steel, watchmen's shacks, signals, signal towers, and loading and unloading facilities. The term "railroad track and facilities" shall not include repair equipment, tools, office buildings, office equipment, warehouses, motor vehicles, and other property and equipment not normally part of the railroad track and

other fixed facilities incorporated into the railroad's right of way. This exemption and refund provision do not extend to purchases made by contractors hired by a qualifying railroad. Repair parts and services for rolling stock used in interstate commerce continue to be exempted according to K.S.A. 79-3606(y).

The provisions in Section 6 (ddd) of Senate Bill 45, quoted above, became law on May 27, 1999. This means Senate Bill 45 provides for refunds for the period from January 1, 1999 to May 27, 1999, and for exemptions for the period from May 27, 1999 through December 31, 1999. To claim exemption on purchases delivered or services performed on or after May 27, 1999, qualifying railroads should complete an exemption certificate and provide it to their vendors. These certificates are available from the Department of Revenue as Form BT/st-28, or may be issued by a qualifying railroad in accordance with K.A.R. 92-19-25b. Each such certificate shall inform the vendor the exemption expires after December 31, 1999.

To claim a tax refund of sales tax on purchases of property delivered or services performed made between January 1, 1999 and May 27, 1999, qualifying railroads must request refunds through their vendors in accordance with K.A.R. 92-19-49a.

Purchases are considered to be made when the seller delivers an item to the buyer or when the services are performed. This means that purchases entitled to exemption may have been paid for after May 27, 1999. Refunds may also be claimed for purchases made through December 31, 1999, if a qualifying railroad fails to claim exemption at the time of purchase and has paid sales tax to the vendor.

Kansas Farmers and Grain Elevators

The 1999 Kansas Legislature enacted Senate Bill 45, which relates to several Kansas tax laws. Among the amendments are tax incentives enacted to encourage construction and repair of grain storage facilities to help alleviate the grain storage and shipping problems experienced by Kansas farmers and agribusiness at harvest in recent years. Most of the changes in Senate Bill 45 become law on July 1, 1999; however, some changes take effect upon the law's publication in the Kansas Register on May 27, 1999. This notice discusses how the Department of Revenue will implement the tax incentives for grain storage facilities that become law on May 27, 1999.

Section 6 of Senate Bill 45 provides the following exemption:

(eee) on and after January 1, 1999, and before January 1, 2000, all sales of materials and services purchased for the original construction, reconstruction, repair or replacement of grain storage facilities, including railroad sidings providing access thereto.

For purposes of implementing this provision, the term "grain storage facilities" shall include, but not be limited to, grain elevators, grain storage bins, silos and corn cribs. Storage pits that were designed and constructed for temporary grain storage also shall qualify under this provision. Grain bins and corn cribs are normally built on a slab or otherwise affixed to real estate. Grain bins are typically cylindrical enclosures constructed of corrugated metal. To qualify as a grain storage facility, the structure in question, other than a silo, should be designed primarily for grain storage. Accordingly, barns, equipment sheds, feeders, feeding bins and portable equipment do not qualify for exemption or refund under this provision. "Purchases" are considered to be made when the seller

delivers an item to the buyer or when the services are performed.

- *Purchases delivered or services performed on or after May 27, 1999*—To claim exemption on purchases that are made on or after May 27, 1999, the purchaser of materials or services used to build a qualifying grain storage facility should complete an exemption certificate and provide it to his or her vendor. These blank certificates are available from the Department of Revenue as Form BT/st-28, or may be prepared in accordance with the directives in K.A.R. 92-19-25b. The exemption certificate must identify the location and the owner of the grain storage facility that is being constructed or repaired.
- *Purchases delivered or services performed before May 27, 1999*—To claim a tax refund of sales tax paid on purchases of property or services made between January 1, 1999 and May 27, 1999, the person or business who purchased materials or repair services for a grain storage facility may request a refund of taxes paid by submitting a refund request to his or her vendor in accordance with K.A.R. 92-19-49a. Refunds may be claimed for purchases made through December 31, 1999, if a purchaser failed to claim exemption at the time of purchase and paid sales tax to the vendor. Where a contractor is involved, the refund request provided to the department by the vendor must be signed by the vendor, the contractor, and the owner of the storage facility.
