Request for Comments

The Kansas Department of Health and Environment issued a permit on May 14, 1990, to Clay County to operate a municipal solid waste landfill in the NW of Section 30, Township 07S, Range 03E, approximately 2 miles northwest of Clay Center. Thirty-two acres are permitted for waste disposal. The permit was amended on April 22, 1994, due to changes in state and federal regulations, to include special conditions referencing a schedule of compliance that required the county to submit several items including updated design, closure and operating plans, groundwater monitoring, and financial assurance. Clay County subsequently submitted the required information, which was approved by KDHE. Therefore, KDHE is providing public notice of its intent to issue an amended permit to Clay County that references the approved information and removes the special conditions of the 1994 permit.

A copy of the administrative record, which includes the draft amended permit and all information regarding this permit action, is available for public review August 23 through September 23 during normal business hours, Monday through Friday, at the following locations:

Anyone wishing to comment on the draft permit information should submit written statements postmarked not later than September 23 to Phil Rosewicz (KDHE). After consideration of all comments received, the director of the Division of Environment will make a final decision on whether to issue the permit. Notice of the decision will be given to anyone who submitted written comments during the comment period and to those who requested notice of the final permit decision.

Notice Concerning Quality Enhancement
Wage Pass-Through Program

Up to \$179,335 has been appropriated for the Quality Enhancement Wage Pass-Through program for Class 2 (private) Intermediate Care Facilities for Persons with Mental Retardation (ICFs/MR). ICFs/MR electing to participate in this program can increase salaries or benefits or both for those employees providing direct care and support services to ICF/MR residents. The amount approved shall not exceed \$4 per resident day. Funding for this program is only assured through fiscal year 2000.

Applications will be sent to all ICFs/MR on September 2. ICF/MR providers wishing to participate in the program will submit a complete application to SRS on the prescribed forms.

The applications received by 5 p.m. September 17 will be designated primary applications. If the total dollar amount of all requests from primary applications is below the available funding, all providers will receive 100 percent of the requested funding.

If the total dollar amount of all requests from primary applications is above the available funding, all primary applicants will be funded at a prorated reduction so that the estimated fiscal impact of the program does not exceed the available funding.

All applications received after September 17 will be designated as secondary applications. Secondary applications are only used if step one of the primary applications is used, i.e., all primary applications are funded and there is still available funds remaining. The selection process for the secondary applications is on a first-come, first-served basis. Once the funding is used the process stops.

Time line for Implementing the Wage Pass-Through:

- August 19, 1999: Notice is published in Kansas Register, all ICFs/MR are individually notified in writing, and public comment period begins.
- August 31, 1999: End of the public comment period.
- September 2, 1999: Notice of final methodology, rate and justification is submitted to Secretary of State for publication in the Kansas Register.
- September 2, 1999: Application packets and state plan provision are mailed to ICFs/MR.
- September 9, 1999: Notice of final methodology, rate and justification is published.
- September 17, 1999: Initial applications for primary group must be received by 5 p.m.
- September 24, 1999: SRS sends out rate notifications to providers.
- October 1, 1999: Earliest date wage pass-through rates take effect.

The earliest that a provider can receive the wage pass-through per diem will be for dates of service beginning October 1, 1999. If the effective date is on or before the 15th of the month, the payment increase will begin on the first of that month. If the effective date is on or after the

(continued)

16th of the month, the payment increase will begin on the first of the following month.

The following information will be requested on the application form:

- Facility name, address, telephone number and provider number
- Effective date for implementing the wage pass-through program
- The number of Medicaid residents at the time of the application
- Amount of per diem funding requested for the pass-through up to \$4 per resident day
- Current Medicaid rate and private pay rate
- Enhanced Medicaid rate and private pay rate on 9/1/99
- Authorized signature and date

Providers participating in the quality enhancement wage pass-through will be required to submit quarterly reports at a time and on forms specified by SRS.

The following are the eligible position classifications for the quality enhancement wage pass-through per diem: habilitation personnel, restorative-rehabilitation aides, certified nurses aides, certified medication aides, plant operating and maintenance personnel, nonsupervisory dietary personnel, laundry personnel, housekeeping personnel, or nonsupervisory activity staff. The following are the eligible uses for the quality enhancement wage pass-through per diem for the above position classifications: increase salaries, increase benefits, or hire new staff. Quality enhancement wage pass-through may not be used to increase management compensation or facility profits.

The documented quarterly cost for the wage pass-through program shall be divided by total resident days for all payer sources during the reporting period to determine the per diem cost for each resident. The Medicaid portion of the reimbursement of the total costs will be for the Medicaid resident days. The quality enhancement wage pass-through per diem will be added to the calculated Medicaid rate that is in effect from October 1, 1999 through June 30, 2000. The per diem wage pass-through will reimburse facilities while the enhanced costs are being incurred. The pass-through is not subject to cost center limits or the 95 percent minimum occupancy rule. When the actual cost for the wage enhancement is reported on a quarterly basis, it will be divided by the actual resident days to determine the allowable per diem cost. The costs incurred using the pass-through will be included in the Medicaid cost report base. Providers will be held to the lower of the calculated Medicaid rate or the private pay rate in the agency register.

Providers that increase wages, benefits and/or hire new staff on July 1, 1999, but before October 1, 1999, in anticipation of being a successful applicant for the quality enhancement wage pass-through shall be able to use those increases to document the use of the wage enhancement when the rates are effective on October 1, 1999. However, there will not be a retroactive rate increase for those days prior to October 1, 1999, that the wage increases impact. Providers assume the risk of increasing wages, benefits

and/or hiring new staff before they know the outcome of the application selection process.

The quarterly reports shall be audited by SRS and KDOA staff to ensure the wage pass-through moneys were used to increase salaries, benefits and/or to hire new staff in the eligible personnel classifications. Expenditures reported for other uses or money used to increase facility profits are not allowable and will be recouped on the final accounting. The final accounting will take place after the report for the quarter ended June 30, 2000, is submitted and reviewed by the agency staff. Providers will not have the wage pass-through per diem lowered or funds recouped following the review of the quarterly audit reports. The reports will be reviewed for accuracy and records will be kept to identify moneys that were not spent in the quarter for which the audit report covered. The final settlement will come after the last quarterly audit report is received for the quarter ended June 30, 2000. If a provider did not use all of the Medicaid moneys received for the wage pass-through enhancements, the moneys not used for the enhancements will be recouped. Providers may voluntarily withdraw from the quality wage enhancement pass-through program by notifying SRS. If a provider terminates, they shall be required to submit an audit report for the last quarter in which they participate. The report may be for a partial quarter. The agency shall recoup funds that were received, but not documented as being used for the intended purpose, from the provider for that period in which they participated.

If a facility receiving the wage pass-through has a change of provider, the new provider shall be responsible for notifying the agency that they want to be terminated from the program. Otherwise, the new provider shall be required to submit the quarterly audit reports to document the use of the funds for the intended purpose and shall be responsible for the final settlement. If the new provider decides to terminate participation, the old provider shall be responsible for any overpayment unless the 60-day notice of change of provider was not given. If the 60-day notice is not given, the new provider assumes the responsibility of any overpayment to the old provider.

Comments regarding the proposed program should be submitted to the Commission on Substance Abuse, Mental Health, and Developmental Disabilities, 5th Floor, Docking State Office Building, 915 S.W. Harrison, Topeka, 66612, by August 31.
