This 60-day notice of the public hearing shall constitute a public comment period for the purpose of receiving written public comments on the proposed rules and regulations. All interested parties may submit written comments prior to the hearing to Larry Froelich, Executive Secretary, Board of Pharmacy, Room 513, Landon State Office Building, 900 S.W. Jackson, Topeka, 66612. All interested parties will be given a reasonable opportunity to present their views orally on the adoption of the proposed regulations during the hearing. In order to give all parties an opportunity to present their view, it may be necessary to request that each participant limit any oral presentation to five minutes.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulations and economic impact statements in an accessible format. Requests for accommodation should be made at least five working days in advance of the hearing by contacting Karen Hollon on the consumer toll-free number, 1-888-RX-BOARD (888-792-6273), or in Topeka at (785) 296-6504.

These regulations are proposed for adoption on a permanent basis. A brief summary of each proposed regulation and economic impact follows.

K.A.R. 68-5-1. Definitions. This regulation was changed to add definitions to the following terms used in regulations: "beyond-use date," "medication order" and "prescriber." Beyond-use date is the term to indicate to consumers a time beyond which the contents are not recommended to be used.

There is no anticipated economic impact on the public, registrants, the Board of Pharmacy or other governmental agencies.

K.A.R. 68-7-11. Medical care facility pharmacy. This regulation was changed to reflect the same language to describe what information the pharmacist is to place on prescription labels to be consistent with other pharmacy regulations. Also, a "beyond-use date" will be placed on the label of interim supply of prepackaged medications for emergency outpatient services.

There is no anticipated economic impact on the public, the Board of Pharmacy or other governmental agencies. Registrants may require some costs in changing computer programs (if applicable), but these costs are unable to be identified by the Board of Pharmacy.

K.A.R. 68-7-12. Responsibility of pharmacist-in-charge in other than a medical care facility pharmacy. This regulation was changed to describe what information the pharmacist is to place on prescription labels and labels for prepackaged drugs. A "beyond-use date" and the contents in terms of weight, measure or numerical will not be required on the labels.

There is no anticipated economic impact on the public, the Board of Pharmacy or other governmental agencies. Registrants may require some costs in changing computer programs (if applicable), but these costs are unable to be identified by the Board of Pharmacy.

K.A.R. 68-7-14. Prescription labels. This regulation was changed to describe what information the pharmacist is to place on prescription labels. A "beyond-use date" and the contents in terms of weight, measure or numerical will not be required on the prescription label.

There is no anticipated economic impact on the public, the Board of Pharmacy or other governmental agencies. Registrants may require some costs in changing computer programs (if applicable), but these costs are unable to be identified by the Board of Pharmacy.

K.A.R. 68-7-16. Labels for prepackaged or repackaged drugs. This regulation was changed to describe what information the pharmacist is to place on labels for prepackaged or repackaged drugs. A "beyond-use date" and the contents in terms of weight, measure or numerical will now be required on the labels.

There is no anticipated economic impact on the public, the Board of Pharmacy or other governmental agencies. Registrants may require some costs in changing computer programs (if applicable), but these costs are unable to be identified by the Board of Pharmacy.

K.A.R. 68-7-18. Health departments and private not-for-profit family planning clinics. This regulation was changed to describe what information the pharmacist is to place on labels for prepackaged drugs. A "beyond-use date," the contents in terms of weight, measure or numerical, and the manufacturer's or distributor's names (or abbreviation) will be required to be placed on the labels.

There is no anticipated economic impact on the public, the Board of Pharmacy or other governmental agencies. Registrants may require some costs in changing computer programs (if applicable), but these costs are unable to be identified by the Board of Pharmacy.

K.A.R. 68-9-2. Automated drug delivery systems. This regulation is a new regulation. Mechanical devices are being used to dispense and distribute drugs. The regulation lists what the pharmacist is responsible for to ensure that devices are accurate, stocked properly and able to maintain patient confidentiality.

There is no anticipated economic impact on the public, registrants, the Board of Pharmacy or other governmental agencies.

Copies of these regulations and economic impact statements may be obtained from the Kansas State Board of Pharmacy.

K.A.R. 91-22-19. This regulation requires that service of an order or notice be made pursuant to the Kansas Administrative Procedure Act.

K.A.R. 91-22-22. This regulation requires that hearings before the Professional Practices Commission be conducted in accordance with the Kansas Administrative Procedure Act.

A summary, and the full text, of each of the proposed new licensure regulations is provided in this notice, along with a summary of the economic impact of each regulation. The repeal of the existing certification regulations is not expected to have any economic impact upon the State Board of Education, local school districts or other governmental agencies, or upon businesses or individuals, since these regulations are being replaced by the licensure regulations.

S.B.R. 91-1-200. This regulation provides definition of terms. This regulation is intended to clarify terms used

throughout the remaining substantive regulations. No economic impact is anticipated for the State Board of Education, school districts or other governmental entities, or private businesses or individuals.

S.B.R. 91-1-201. This regulation establishes the types and levels of licenses to be issued by the state board. This regulation replaces regulations that established the kinds of certificates previously issued by the state board. No economic impact is anticipated for the State Board of Education or school districts. Based on a survey of institutions of higher education, estimates of the economic impact they will incur as they adapt their programs to meet new requirements range from no financial impact to \$250,000. Excluding the extremes, the average economic impact will be about \$67,419. The length of time required to complete an education program should not change. Therefore, there will be no economic impact on individuals.

S.B.R. 91-1-202. This regulation establishes the endorsements that may be attached to a license. Each license will have one or more endorsements that specify the teaching fields in which the license holder is qualified. This regulation replaces certification regulations that specified the type of endorsements that could be attached to a certificate. No economic impact is anticipated for the State Board of Education or school districts. Based on a survey of institutions of higher education, estimates of the economic impact they will incur as they adapt their programs to meet new requirements range from no financial impact to \$197,000. Excluding the extremes, the average economic impact will be about \$37,768. The length of time required to complete an education program should not change. Therefore, there will be no economic impact on individuals.

S.B.R. 91-1-203. This regulation establishes the requirements for issuance of an initial license. This regulation replaces certification regulations that established requirements for issuance of a certificate. The state board will incur costs to validate assessments that will be administered to applicants seeking an initial license. These assessments will include a subject matter assessment and a performance assessment. The cost of validating the subject matter assessment is \$500,000. The cost of the performance assessment will range from \$100,000 to \$3 million, depending on whether the board adopts an existing assessment that just requires validation studies or whether it chooses to develop a new assessment. Based on a survey of institutions of higher education, estimates of the impact they will incur as they adapt their programs to meet new requirements range from no economic impact to \$82,000. Excluding the extremes, the average fiscal impact will be about \$14,709. The length of time required to complete an education program should not change. Therefore, there will be no significant economic impact on individuals. Under the current system, individuals must pay for four precertification examinations. Under the new licensure system, they will still be required to pay for the subject and teaching knowledge assessments. However, costs of the assessments should be comparable to those required for the precertification exams, with no significant additional cost.

S.B.R. 91-1-204. This regulation establishes the requirements for licensure of out-of-state and foreign applicants. This regulation replaces certification regulations that established requirements for certificates for out-of-state and foreign applicants. No economic impact is anticipated for the State Board of Education or school districts. Based on a survey of institutions of higher education, no economic impact was anticipated for those institutions. Because the requirements for initial licensure for out-of-state and foreign applicants are substantially the same as under the prior certification regulations, no economic impact is anticipated for individuals.

S.B.R. 91-1-205. This regulation establishes renewal requirements for all types of licenses. This regulation replaces certification regulations that established renewal requirements for certificates. No economic impact is anticipated for the State Board of Education or school districts. Based on a survey of institutions of higher education, no economic impact is anticipated for those institutions. Licensure renewal requirements are significantly the same, so there will be no additional costs for individuals. Also, there can be savings for nonpracticing individuals renewing a license because they will have access to renewal based, in part, on inservice activities. They can save the cost of the college credit hours that they replace with inservice activities.

S.B.R. 91-1-206. This regulation establishes guidelines for professional development plans that are used in renewing a license. This regulation implements the provisions of 91-1-205, which require professional development plans for renewal of a license. No economic impact is anticipated for the state board, governmental agencies, private businesses or individuals. In addition, since all school districts are currently required by law to offer professional development, this regulation should have no economic impact on school districts.

S.B.R. 91-1-207. This regulation provides for renewal of certificates issued prior to July 1, 2003, the effective date of new licensure regulations. The regulation provides for the transition from the prior certification system under the former regulations to the licensure system established by these regulations. No economic impact is anticipated for the State Board of Education or school districts. Also, during the transition from certificates to licenses, the renewal requirements will remain the same. Therefore, no economic impact is anticipated for individuals, or for other governmental agencies or private businesses.

S.B.R. 91-1-208. This regulation establishes specific application procedures when applying for a license. The regulation replaces the prior regulation containing requirements for issuance of a certificate. No economic impact is anticipated for the State Board of Education, school districts, other governmental agencies or private businesses. For individuals, the procedures are substantially the same as under the prior certification regulation. Therefore, no economic impact is anticipated for individuals.

S.B.R. 91-1-209. This regulation specifies the process for adding additional endorsements to an existing license. No economic impact is anticipated for the State Board of

(continued)

Education, school districts, other governmental agencies or private businesses. For individuals, the procedures are substantially the same as under the prior certification regulation. Therefore, no economic impact is anticipated for individuals.

S.B.R. 91-1-210. This regulation allows for a license extension based on military service. This regulation replaces a certification regulation that dealt with renewal of a certificate based on military services. No economic impact is anticipated for the State Board of Education, school districts, other governmental agencies or private businesses. For individuals, the procedures are substantially the same as under the prior certification regulation. Therefore, no economic impact is anticipated for individuals.

S.B.R. 91-1-211. This regulation establishes a licensure review committee to review qualifications of individuals who do not satisfy all requirements for licensure. This regulation replaces a certification regulation, which established a certification review committee that served the same function as the new committee created by this regulation. No economic impact is anticipated for the State Board of Education, school districts, or other governmental agencies or for private businesses or individuals.

A copy of each of the proposed regulations and its economic impact statement may be obtained by contacting the secretary of the State Board of Education, 120 S.E. 10th Ave., Topeka, 66612, prior to the date of the hearing.

All interested persons will be given a reasonable opportunity at the hearing to present their views or arguments, either orally or in writing, in regard to the proposed regulations. In addition, the period of public notice hereby provided constitutes a public comment period for the purpose of receiving written public comments on the proposed regulations. Such written comments may be submitted to the secretary of the State Board of Education at the above address. The hearing shall be conducted in compliance with the public hearing procedures of the State Board of Education.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulations and economic impact statements in an accessible format. Requests for accommodation should be made at least five working days in advance of the hearing by contacting Lanny Gaston at (785) 296-3906 or (TDD) (785) 296-8172.

Permanent Administrative Regulations

Article 7.—RULES FOR RACING

112-7-21. Paddock to post. (a) Each horse in a race shall carry a conspicuous saddlecloth number and a head number corresponding to the horse's number on the official program. In the case of a coupled entry, each horse making up the entry shall bear the same number as the first part of the entry and also a distinguishing letter immediately following the number on the head and saddlecloth. In the case of a field, the horses comprising the field shall bear an individual number or a particular number immediately followed by a distinguishing letter.

(b) Each trainer shall have the entered horse in the paddock no fewer than 15 minutes before post time. The trainer shall attend the horse in the paddock and be present to supervise its saddling unless the trainer has obtained the permission of a steward to send an assistant trainer or another trainer as a substitute. Each horse shall be saddled in the paddock unless permission has been granted by the stewards to saddle elsewhere.

(c) Each blanket and bandage except any bandage that will be worn during a race shall be removed immediately upon arrival in the paddock. If weather conditions dictate, blankets may be worn after saddling with the permission of the paddock judge.

(d) The stewards may permit a horse to be led directly to the post and to be excused from the post parade.

(e) Each lead pony and each rider shall be permitted to enter the saddling paddock or walking ring only after the stewards have given permission.

(f) The post parade shall not last longer than 14 minutes after the horses enter the racetrack, except in cases of unavoidable delay. When the horses reach the post, they shall be started without unnecessary delay.

(g) After the horses enter the racetrack, no jockey shall dismount and no horse shall be entitled to the care of an attendant without the permission of the stewards or the starter. Each horse shall be free of all hands other than those of the jockey, lead pony rider, assistant starter or header before the field is dispatched by the starter. In case of accident to a jockey or to the horse or equipment, any steward or any starter may permit the affected jockey to dismount and the horse to be cared for during the delay and also may permit any other jockeys to dismount and any other horses to be attended during the delay.

(h) Each horse shall carry its assigned weight from paddock to post and from post to finish. If a jockey is thrown on the way from the paddock to the post, the horse shall be remounted, and if reasonably possible, returned to where the jockey was thrown and shall proceed over the route of the parade to the post.

(i) If the jockey sustains an injury on the way to the post that requires substitution of another jockey, the horse shall be returned to the paddock. Another jockey shall mount and then ride the horse over any uncompleted portion of the exact route of the parade to the starting point.

(j) If a horse leaves the course while proceeding from paddock to post, the horse shall return to the course at the nearest practical point where it left the course. It shall then complete its parade to the post from the point at which it left the course.

(k) No person shall willfully delay the arrival of a horse at the post.

(l) The use of any mechanical device applied to a horse's ears at the starting gates shall be strictly prohibited. This prohibition shall include twitches, tongs, pliers, or any device designed to hold fast or squeeze the skin or other tissues.

(m) The use of a buggy whip, flexible cane, or any similar device to assist the loading of a horse into the gates shall be limited. If, in the opinion of the commission veterinarian or the stewards, there is excessive use of this device, the commission veterinarian or stewards shall order that the use of the device be stopped immediately. Any person using the device in excess shall be subject to disciplinary action at the discretion of the stewards.

(n) Only the jockey shall be permitted to strike a horse to assist in starting. (Authorized by and implementing K.S.A. 1998 Supp. 74-8804; effective, T-112-2-23-89, Feb. 23, 1989; effective June 19, 1989; amended, T-112-8-13-92, Aug. 13, 1992; amended, T-112-12-10-92, Dec. 10, 1992; amended Feb. 15, 1993; amended Feb. 11, 2000.)

(1) The names of both the consignor and the consignee;

horsemen's group is elected, and ending on September 30 of the next even-numbered year or until the member's successor has been duly elected and recognized by the commission after the commission is presented with a petition in accordance with subsection (k) of this regulation.

(h) To be eligible to vote in the election process at the racetrack facility where the recognized horsemen's group is to serve, a voter shall have been licensed as a horse owner or trainer and have raced at that racetrack facility during the year preceding the election year.

(i) The procedure for conducting an election of a recognized horsemen's group shall be as follows:

(1) On August 1 of each even-numbered year, a notice of elections to be held for a recognized horsemen's group for the racetrack facility in question shall be posted conspicuously by the commission or its designee, if any, pursuant to K.S.A. 74-8802(gg), and amendments thereto. The notice shall be posted throughout each racetrack facility, including the following:

(3) Nominating petitions shall be made available by the commission or its designee, if any, pursuant to K.S.A. 74-8802(gg), and amendments thereto, for distribution to any eligible voter upon request in the Kansas racing and gaming commission office. The nominating petitions shall be in a form approved by the commission for the purpose of nominating individuals to stand for election to a recognized horsemen's group. The nominating petitions shall contain a statement signed by the nominee that the nominee agrees to perform the following:

- (B) be reasonably available to attend meetings of the recognized group for which the nominee is standing for election;
- (C) bargain in good faith as a member of the recognized group for which the nominee is standing for election; and
- (D) obtain the signature of 10 other eligible voters on the nominating petition.

(4) Nominating petitions for election to a recognized horsemen's group shall be returned to the Kansas racing and gaming commission office in Topeka by 12 o'clock noon of the third Friday following the first Monday in August following the posting of the notice of election required by paragraph (i)(1) of this regulation.

(5) After the close of the nominating period prescribed in paragraph (i)(4) of this regulation, the nominating petitions shall be reviewed by the commission staff or its

designee, if any, pursuant to K.S.A. 74-8802(gg), and amendments thereto, in accordance with procedures approved by the commission to confirm the following:

(A) That the signatures on the nominating petitions appear on the list of eligible voters in the records of the Kansas racing and gaming commission; and

(B) that the required number of signatures of eligible voters has been received by each nominee.

(6) Once the nominating petitions have been processed by the commission staff or its designee, if any, pursuant to K.S.A. 74-8802(gg), and amendments thereto, a ballot shall be prepared by the commission, which shall include the following:

(A) A list of names of the duly nominated persons standing for election to the recognized group;

(B) a serial number;

(C) a statement that the voter shall vote for no more than five nominees;

(D) a statement that the five nominees receiving the highest number of votes from those voting in the election shall be elected to serve as the recognized horsemen's group for the racetrack facility at which the election is being conducted for the term provided in subsection (g) of this regulation;

(E) a statement that if one or more of the members elected to the recognized horsemen's group resigns or for any other reason fails to complete the term of service as provided in subsection (g) of this regulation, then the member or members shall be replaced by the nominee or nominees having received the next highest number of votes from those voting in the election. The nominee or nominees shall serve out the remainder of the term of any member or members who failed to complete the member's or members' term; and

(8) Ballots shall be returned to the Kansas racing and gaming commission office in Topeka by 12 o'clock noon of the third Friday following the first Monday in September following the posting of the sample ballot as required by paragraph (i)(7)(A) of this regulation.

(9) On the Wednesday following the deadline set out in paragraph (i)(8) above, the commission chairman, executive director, and general counsel shall convene an

open meeting at the commission offices and count the ballots.

(10) In the event of a tie in the number of votes received by one or more nominees, lots shall be cast to settle the election results.

(11) Ten days following the counting of the ballots or as soon thereafter as the commission meeting schedule will permit, a certificate of election shall be executed by the commission to each of the five nominees receiving the highest number of votes designating those nominees as duly elected members of a recognized horsemen's group having been elected in accordance with this regulation.

(j) Within 10 days following the counting of the ballots in any election held pursuant to this regulation, any commission staff member, nominee, or eligible voter may file a sworn complaint with the commission concerning the conduct in any election held pursuant to this regulation. A hearing shall be commenced by the commission upon the receipt of a complaint, in accordance with the Kansas administrative procedure act, K.S.A. 77-501 *et seq.* The filing of a complaint with the commission concerning the

conduct in an election held pursuant to this regulation shall not impair or inhibit the duly elected recognized group from functioning pending resolution of the complaint.

(k) No election for a recognized horsemen's group that is conducted within 24 months of a prior election shall be recognized by the commission, except upon the filing of a petition with the commission to conduct a new election, signed by at least 30 percent of the number of eligible voters that actually voted in the preceding election.

(l) Upon receipt of a petition for a new election signed by the required number of voters set out in subsection (k) above, an election for a new recognized horsemen's group shall be conducted by the commission as soon as practicable in accordance with this regulation.
