A public hearing will be conducted at 9 a.m. Wednesday, April 25, in the third floor conference room, Kansas Insurance Department, 420 S.W. 9th, Topeka, to consider the adoption of proposed changes in an existing rule and regulation.

This 60-day notice of the public hearing shall constitute a public comment period for purpose of receiving written public comments on the proposed rule and regulation. All interested parties may submit written comments prior to the hearing to Rebecca Sanders, Kansas Insurance Department, 420 S.W. 9th, Topeka, 66612-1678. A copy of the complete text of the regulation and the economic impact statement may be obtained by contacting Rebecca Sanders. A summary of the regulation and its economic impact follows.

K.A.R. 40-1-42. Diskette filing and filing quarterly financial statements. This regulation sets out the requirements for filing quarterly and annual financial statements. The amendments add health maintenance organizations and nonprofit dental service corporations to the filing requirements. It also removes the requirement of all companies subject to this regulation of filing printed quarterly and annual statements with the Kansas Insurance Department. Entities such as health maintenance organizations and nonprofit dental corporations have filed quarterly and annual statements with the department and the National Association of Insurance Commissioners prior to this amendment. This amendment codifies the manner in which annual and quarterly statements are to be filed. Companies are still required to file quarterly and annual statements with the National Association of Insurance Commissioners. The department will obtain quarterly and annual financial information from the National Association of Insurance Commissioners as needed. The economic impact on the companies and the department is positive. Companies do not have to continue to file a printed statement every quarter and annually with the department, and the department will not need to file and maintain quarterly and annual statements on each company.

## Notice of Hearing on Proposed Administrative Regulations

A public hearing will be conducted at 10 a.m. Monday, April 16, in the third floor conference room, Kansas Insurance Department, 420 S.W. 9th, Topeka, to consider the adoption of proposed changes in an existing rule and regulation.

This 60-day notice of the public hearing shall constitute a public comment period for purpose of receiving written public comments on the proposed rule and regulation. All interested parties may submit written comments prior to the hearing to Rebecca Sanders, Kansas Insurance Department, 420 S.W. 9th, Topeka, 66612-1678. All interested parties will be given a reasonable opportunity to present their views orally on the adoption of the proposed regulation during the hearing.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulation and economic impact statement in an accessible format. Requests for accommodation should be made at least five working days in advance of the hearing by contacting Rebecca Sanders at (785) 296-7811.

A copy of the full text of the regulation and the economic impact statement may be obtained by contacting Rebecca Sanders. A summary of the regulation and its economic impact follows.

**K.A.R. 40-1-46. Privacy of consumer financial information.** This proposed regulation adopts by reference Articles I, IV and VI of the National Association of Insurance Commissioners model regulation governing the privacy of consumer financial information.

This regulation governs the treatment of nonpublic personal financial information about individuals by all licensees of the Kansas Insurance Department. This regulation requires a licensee to provide notice to individuals about its privacy policies and practices. It also describes the conditions under which a licensee may disclose nonpublic personal financial information about individuals to affiliates and nonaffiliated third parties and provides methods for individuals to prevent a licensee from disclosing that information.

This regulation applies to nonpublic financial information about individuals who obtain or are claimants or beneficiaries of products or services primarily for personal, family or household purposes from licensees. This regulation does not apply to information about companies or about individuals who obtain products or services for business, commercial or agricultural purposes.

This model was adopted after Congress passed in 1999 the Financial Services Modernization Act, also known as the Gramm Leach Bliley Act (PL 102-106), which eliminated many of the barriers to access of information between banks, securities firms and insurance companies. Title V of the Act requires states to issue regulations and to enforce privacy requirements upon insurance companies. Section 507 of the Act provides that Title V is a federal floor and enables states to provide greater consumer protection than the federal regulations.

K.S.A. 40-2404(15) makes it an unfair trade practice to disclose nonpublic personal information to a nonaffiliated third party contrary to Title V of the Gramm Leach Bliley Act. This statute also authorizes the Commissioner of Insurance to adopt rules and regulations necessary to carry out this section.

This regulation in essence mirrors the federal privacy regulations governing federally regulated banking and securities entities.

Adoption of this regulation in Kansas gives insurance companies guidelines to ensure compliance with Title V of the Act and protects consumers by setting out what insurance companies must do to ensure that consumer nonpublic information is protected. Insurance regulation is the job of the state regulator, and this regulation ensures that mandate is carried out.

This regulation will impose no additional costs on Kansas insurers than what the federal law requires. The principal cost of the regulation will be to implement the notice requirement, particularly the annual notice, required under Tile V of the Act. However, the regulation permits regulated entities to comply with these provisions through varying methods, which may vary in cost depending upon the regulated entity's business practices and business structure. In addition, there is tremendous variation in the size of different regulated entities. Both factors will impact the actual costs of implementing the requirements of this regulation and the federal law, making actual cost difficult, if not impossible, to estimate. In implementing similar regulations in compliance with the Act, the federal banking regulators estimated that the initial burden of developing the required notices would require the expenditure of an average of 45 work hours for each licensee. The Kansas Insurance Department estimates the cost to comply with this regulation by insurers and licensee to be less than what is estimated by the federal banking regulators. Insurers and other licensees of the department are generally more familiar in developing the types of notices that the regulation requires to be sent to consumers and customers than financial institutions. As a result, the average expenditure of time would be less than what was estimated by the federal banking regula-

The Kansas Insurance Department also believes that the additional postage incurred by the regulated entities in providing initial and annual notices, where such notices are required, will be minimal because the regulation provides the flexibility for regulated entities to include the required notices in mailings that are already being made. Further, regulated entities may reduce costs, through the use of information technology, including, in some instances, the provision of notice by electronic mail.

The promulgation of this regulation will increase the regulatory responsibilities of the Kansas Insurance Department, but the department believes that those regulatory responsibilities can be handled with present staff and budget.

There are no additional costs imposed on local governmental entities or state agencies.

Kathleen Sebelius Kansas Insurance Commissioner

A copy of the complete text of the regulation and the economic impact statement may be obtained by contacting Rebecca Sanders. A summary of the regulation and its economic impact follows.

K.A.R. 40-1-30. This regulation sets out the circumstances where subrogation and salvage can be treated as assets on financial statements. The Kansas Insurance Department is proposing that this regulation be revoked. The National Association of Insurance of Commissioners is revising the Accounting Practices and Procedures. K.S.A. 40-225 requires insurance companies to prepare their financial statement in accordance with the National Association of Insurance Commissioners Accounting Practices and Procedures. The revised standards, effective January 1, 2001, address the treatment of subrogation and salvage on financial statements; therefore, this regulation is no longer necessary. The impact on companies is neutral or nonexistent because Kansas Insurance Department

guidelines previously provided to the companies are consistent with the revised National Association of Insurance Commissioners Accounting Practices and Procedures.

A copy of the complete text of the regulation and the economic impact statement may be obtained by contacting Rebecca Sanders. A summary of the regulation and its economic impact follows.

K.A.R. 40-1-43. Reinsurance trust instruments. This regulation was amended to reflect changes in the enabling statute, K.S.A. 40-221a, which is the Kansas statute governing reinsurance agreements. This statute was amended in 1998 where the term "policyholders" was deleted from the statute. This regulation governs reinsurance trust agreements. To maintain consistency between the statute and the regulation, the Kansas Insurance Department is proposing the term "policyholders" be deleted from K.A.R. 40-1-43. The other proposed changes are grammatical and style changes recommended by the Department of Administration. The economic impact is at most minimal or nonexistent. The Kansas regulation is now consistent with the National Association of Insurance Commissioners' model law governing reinsurance agreements, and most companies are already complying with the model law.

These regulations establish legal equipment, taking methods, and possession requirements for game birds; rabbits, hares and squirrels; and furbearers and coyotes, respectively. In response to Exective Order 00-03, several provisions in each of these regulations are proposed for consolidation and clarification, including updating language or making language consistent with other regulations. The only substantive regulatory changes proposed in these amendments would address the use of bait visible to birds, and prohibitions on possessing, transporting or selling live furbearers and coyotes.

Economic Impact Summary: Depending on the alternative chosen, prohibitions concerning live furbearers or coyotes may have an unknown impact on certain trapping practices. Otherwise, the proposed amendments are not anticipated to have any economic impact.

**K.A.R.** 115-4-2 and 115-4-4. These proposed new regulations would address general tagging and permit requirements, and legal equipment and taking methods, respectively, for big game species. These regulations are a consolidation of current regulations in response to Executive Order 00-03.

Economic Impact Summary: The proposed amendments are not anticipated to have any economic impact.

**K.A.R.** 115-4-11. This regulation would address big game permit applications. The proposed amendments would consolidate provisions from current regulations in response to Executive Order 00-03. They also would establish a point system for mule deer permit applications and would simplify landowner and tenant permit applications.

Economic Impact Summary: The proposed amendments are not anticipated to have any economic impact.

**K.A.R.** 115-4-13. This regulation defines deer permits. The proposed amendments would eliminate primary-secondary permit distinctions, separate white-tailed and mule deer permits, combine firearms and muzzleloader white-tailed deer permits, and make other related changes.

Economic Impact Summary: The proposed amendments are not anticipated to have any economic impact.

K.A.R. 115-4-1, 115-4-3, 115-4-5, 115-4-7, 115-4-8, 115-4-9, 115-4-10 and 115-4-12. The provisions from each of these current big game regulations are proposed for consolidation into other regulations, as noted above. Consequently, each of these regulations are proposed for revocation.

Facility Name: Gilbert & Mosley Remediation Site

Kansas Permit No. I-AR94-PO80 Federal Permit No. KS0092762

Legal: NE1/4, S5, T28S, R1E, Sedgwick County

Facility Description: The proposed action is to issue a new permit for the discharge of process wastewater. This facility is for a ground-water cleanup project consisting of 13 extraction wells located throughout downtown Wichita. The groundwater is contaminated primarily with chlorinated volatile organic chemicals and is treated by an air stripper. The maximum flow rate is 1.66 MGD. The proposed permit includes limits for tetrachloroethylene, trichloroethylene, cis-1,2 dichloroethene, vinyl chloride, 1,1-dichloroethylene, trichloromethane, benzene and pH. Monitoring for chlorides, sulfates and effluent flow also is required. The permit requirements are pursuant to the Kansas Surface Water Quality Standards, K.A.R. 28-16-28(b-f), and Federal Surface Water Criteria, and are water-quality based.

Persons wishing to comment on or object to the draft permits and/or permit applications must submit their comments in writing to the Kansas Department of Health and Environment if they wish to have the comments or objections considered in the decision making process. Comments or objections should be submitted to the attention of Dena Endsley for agricultural permits or applications, or to the permit clerk for all other permits, at the Kansas Department of Health and Environment, Division of Environment, Bureau of Water, J Street and 2 North, Forbes Field, Building 283, Topeka, 66620.

All comments regarding the draft permit or application notice postmarked or received on or before March 17 will be considered in the formulation of final determinations regarding this public notice. Please refer to the appropriate Kansas permit number (KS-AG-01-043/045, KS-01-006/007) and name of applicant/application as listed when preparing comments.

If no objections are received during the public notice period regarding any proposed permit, the Secretary of Health and Environment will issue the final determination regarding issuance or denial of the proposed permit. If response to this notice indicates significant public interest, a public hearing may be held in conformance with K.A.R. 28-16-61 (28-46-21 for UIC). Media coordination for publication and/or announcement of the public notice or public hearing is handled by the Kansas Department of Health and Environment.
