Department on Aging

Request for Proposals

The Kansas Department on Aging is accepting proposals for special project grants for the Prevention of Elder Abuse, Neglect and Exploitation (PEANE). The proposals should provide either education/training; research for the prevention of elder abuse, neglect and exploitation; or a study of the nature or extent of financial exploitation of older individuals.

Only applicants requesting \$6,000 or less for a project will be considered. The grant period is from June 1, 2002 through May 31, 2003. Any Kansas public agency or private not-for-profit corporation registered with the office of the Secretary of State may apply for these funds.

Contact Yvonne Viator (785) 368-7324 or (800) 432-3535 to request a PEANE application. To apply for a PEANE grant, submit an original and three copies of the application (also include proof of tax-exempt status) to the Kansas Department on Aging, 503 S. Kansas Ave., Topeka, 66603-3404, by 5 p.m. Monday, April 22.

Notice to Consulting Engineers

Consultant engineering firms not currently qualified that would like to become qualified to perform engineering services for the Kansas Department of Transportation are requested to submit information to KDOT. Firms that wish to become qualified must submit seven copies of DOT Form No. 1050, Consulting Engineering Qualification Questionnaire, to Neil Rusch, P.E., Assistant to the Director, Division of Engineering and Design, Kansas Department of Transportation, Room 1084-West, Docking State Office Building, 915 S.W. Harrison, Topeka, 66612-1568. The DOT Form No. 1050 is available on KDOT's Web site at <http://www.ink.org/public/kdot/divengdes/prequal/>. Also available on the same site is KDOT's "Listing of Professional Services for Consultant Qualifications" categories booklet, which states the minimum requirements for prequalification.

Questions on prequalification can be directed to Neil Rusch at (785) 296-2270.

Proposals will be issued upon request to all prospective bidders who have been prequalified by the Kansas Department of Transportation on the basis of financial condition, available construction equipment and experience. Also, a statement of unearned contracts (Form No. 284) must be filed. There will be no discrimination against anyone because of race, age, religion, color, sex, handicap or national origin in the award of contracts.

Each bidder shall file a sworn statement executed by or on behalf of the person, firm, association or corporation submitting the bid, certifying that such person, firm, association or corporation has not, either directly or indirectly, entered into any agreement, participated in any collusion, or otherwise taken any action in restraint of free competitive bidding in connection with the submitted bid. This sworn statement shall be in the form of an affidavit executed and sworn to by the bidder before a person who is authorized by the laws of the state to administer oaths. The required form of affidavit will be provided by the state to each prospective bidder. Failure to submit the sworn statement as part of the bid approval package will make the bid nonresponsive and not eligible for award consideration.

Plans and specifications for the projects may be examined at the office of the respective county clerk or at the KDOT district office responsible for the work.

Opinion 2002-1

Public Records, Documents and Information—Records Open to the Public—Definitions; Electronic Mail Between City Council Members. John T. Bird, Hays City Attorney, Hays, January 3, 2002.

The Kansas Open Records Act (KORA), K.S.A. 45-215 *et seq.*, applies to computer records as well as paper records. A record created by use of electronic mail (e-mail) may be subject to the KORA if the electronic record in question meets the definition of "public record" found in K.S.A. 45-217. Whether e-mail communications between or involving individual city commissioners are "public records" will depend upon whether such e-mail communications are "made, maintained, or kept by or [are] in the possession of a public agency," and whether any of the exceptions to the definition apply. The statutory definition of the term "public agency" includes political and taxing subdivisions and their officers or employees. However, the definition of a "public record" excludes records that are "made, maintained or kept by an individual who is a member of . . . the governing body of any political or taxing subdivision." Thus, if a specific e-mail communication is not made, maintained or kept by the city, but rather is exclusively made, maintained or kept only by the individual city commission members, it is not a "public record" as defined by K.S.A. 45-217. The result would be the same if the city commissioners were passing handwritten or typed notes or letters to each other. The electronic nature of the record does not change the rules under the KORA. If a particular record does meet the definition of a "public record," it would then become necessary to determine whether any mandatory or discretionary closure provision may be applicable to that particular record. Opinion 2002-2

Constitution of the United States—Searches and Seizures—Random Drug Testing of City Employees. Louie L. Barney, Arcadia City Attorney, Pittsburg, January 28, 2002.

In the absence of evidence that the City of Arcadia has a special need to conduct random drug and alcohol testing of all city employees, the city's drug and alcohol testing program violates the Fourth Amendment to the United States Constitution. Cited herein: U.S. Const., Amend. IV. MF

Legislature—State Governmental Ethics—State Officer or Employee Defined; Kansas Judicial Council Employees.

Courts—Judicial Council—Duties of Judicial Council; Application of State Governmental Ethics Law to Judicial Council Employees. Carol Williams, Executive Di-

rector, Governmental Ethics Commission, Topeka, January 28, 2002.

An employee of the Judicial Council exercises duties that pertain to the functions of the judicial branch and, when so engaged, is not a "state officer or employee" for purposes of K.S.A. 46-221. Opinion 2002-4

State Boards, Commissions and Authorities—Behavioral Sciences Regulatory Board—Powers, Duties and Functions of Board; Subpoena Power. Mark Stafford, General Counsel, Kansas Board of Healing Arts, Topeka, January 28, 2002.

Under subsection (e) of 45 C.F.R. § 164.512, a professional licensing board must provide prior notice to the client or patient, or attempt to secure a qualified protective order, before a health care provider may disclose health information records pursuant to a licensing board-issued investigative subpoena. Under subsection (d) of 45 C.F.R. § 164.512, these preliminary steps are not required prior to the issuance of a subpoena for investigative purposes by the Behavioral Sciences Regulatory Board or the Board of Healing Arts. As long as a licensing board-issued subpoena complies with statutory requirements regarding grounds for disciplinary action, relevancy and particularity, either board would be able to access health information records concerning an individual that are maintained by a health care provider. Mentally Ill, Incapacitated and Dependent Persons; Social Welfare—Reporting Abuse, Neglect or Exploitation of Certain Persons—Mandatory Reporting of Domestic Violence. Paul J. Morrison, Johnson County District Attorney, Olathe, January 28, 2002.

K.S.A. 39-1431, as amended by L. 2001, Ch. 154, § 4, does not mandate the reporting of domestic violence incidents unless the adult victim of the abuse is incapable of caring for himself or herself and is dependent upon others to provide those services that are necessary to maintain both physical and mental health. Moreover, K.S.A. 21-4213, which requires reporting certain wounds to law enforcement, applies regardless of the circumstances under which the wounds were inflicted. Criminal Procedure; Kansas Code of Criminal Procedure—Arrest—Jurisdiction of Certain Law Enforcement Officers. Larry Welch, Director, Kansas Bureau of Investigation, Topeka, January 28, 2002.

K.S.A. 22-2401a authorizes local law enforcement officers to provide law enforcement assistance on federal enclave property when requested to do so by the appropriate federal entity or agency with jurisdiction over the federal property in question. While liability is always a fact specific issue, in general and in most situations, we believe that if a local or state law enforcement officer acts within the scope of the officer's duties in accordance with a request for assistance from and an agreement with the proper federal authorities, the Kansas Tort Claims Act would cover such actions and officer. Constitution of the State of Kansas—Apportionment of the Legislature—Reapportionment of Senatorial and Representative Districts; Election; Vacancy in the Office of State Senator. Representative Michael R. O'Neal, 104th District, Hutchinson, February 1, 2002.

The reapportioned senatorial districts set forth in the reapportionment plan adopted in 2002 are effective at the time of election of state senators in 2004. Should a vacancy occur in a senate seat during the time following passage in 2002 of a reapportionment plan and prior to the election of state senators in 2004, the committeemen and committeewomen of the senatorial district as it existed prior to adoption of the reapportionment plan are to be convened to elect a person to fill the vacancy. Opinion 2002-9

State Boards, Commissions and Authorities—State Board of Technical Professions—Geologists; Qualifications for Licensure; Title, Use of. Stan Peterson, Arch., Chairperson, Kansas Board of Technical Professions, Topeka, February 1, 2002.

Use of the title "geologist" signifies a state-sanctioned professional who is licensed to practice geology. It is currently not unlawful for a geologist licensed in Kansas to use the titles "licensed geologist," "registered geologist," or "professional geologist" unless the Kansas Board of Technical Professions makes a finding that the use of

these titles is misleading and adopts a regulation to prohibit use of such titles. The use of the titles in question involves commercial speech that is protected by the First Amendment. Thus, if use of the titles is found by the board to be misleading, any restriction on the use of the titles will be subject to constitutional scrutiny requiring that the state justify the need for such regulation by showing how it is reasonably related to preventing the public from being deceived and misled. Any regulation that either prohibits or limits constitutionally protected commercial speech is subject to greater constitutional scrutiny than a regulation that merely requires additional disclosure be added to the commercial speech. In other words, the state has less of a burden to show the need for the regulation if the regulation does not prohibit or limit but instead requires that those using the titles add additional disclosures. This analysis also would apply to use of similar titles in other technical professions. Cited herein: K.S.A. 74-7001; K.S.A. 2001 Supp. 74-7003; 74-7005; U.S. Const., Amend. I. GE

Schools—Organization, Powers and Finances of Boards of Education—Interlocal Cooperation Agreements; Education Service Center; Authority to Perform Certain Functions. Senator John L. Vratil, 11th District, Leawood, February 14, 2002.

An education service center may purchase a private business for the purpose of providing accounting, Internet and support services to school districts and other governmental entities, provided the purchase and provision of services are in furtherance of the operation or administration of the educational programs of the center. An education service center may provide similar services and products as are provided by private business to school districts and governmental entities that are not members of that education service center, including entities that are located outside the State of Kansas, upon the terms and conditions as the center deems to be in its best interests. Taxation—Listing Property for Taxation—Owner, Lessee or Operator of Dock to Notify Assessor of Watercraft and Owners. Jan Satterfield, Butler County Attorney, El Dorado, February 19, 2002.

K.S.A. 79-338 requires the owner, lessee or operator of any watercraft dock to furnish a list of all watercraft docked there, as well as a list of the names and addresses of the owners of the watercraft, for purposes of property tax assessment. The lists are to be provided to the county clerk or assessor of the county in which the dock is located. This requirement to list watercraft applies to any person or entity that owns, leases or operates the dock, regardless whether that person or entity has control, possession or ownership of the watercraft docked there. Opinion 2002-12

Counties and County Officers—County Commissioners; Powers and Duties—Rearrangement of Commis-

sioner Districts; Compact and Equal. Randall W. Weller, Paradise City Attorney, Hill City, February 19, 2002.

The member districts of a board of county commissioners must be drawn such that the districts are as compact and equal in population as possible. There is no requirement that the districts be comprised of contiguous area. Under the facts and circumstances presented, the member districts drawn by the Board of County Commissioners of Russell County comply with state law. Public Health—Healing Arts—Kansas Healing Arts Act; Practice of Certain Naturopaths Permitted Without Approval by Board; Certain Activities Prohibited; Who May Enforce. Representative Gwen Welshimer, 88th District, Wichita, February 20, 2002.

The Board of Healing Arts is authorized to enforce K.S.A. 65-2872a, the naturopath statute. Additionally, upon request of the board, the Attorney General or the appropriate county or district attorney may initiate an enforcement action in relation to the naturopath statute. Neither a professional naturopath association nor a lawfully practicing naturopath has standing to enforce the naturopath statute. Cited herein: K.S.A. 65-2857; 65-2864; 65-2866; 65-2872a. CN

Public Records, Documents and Information—Records Open to the Public—Municipal Court Records; Expunged Criminal Arrest and Conviction; Release of Records to Criminal Justice Agencies. Blaise Plummer, Emporia City Attorney, Emporia, February 26, 2002.

Pursuant to K.S.A. 2001 Supp. 21-3110a, it is our opinion that information contained in expunged municipal court records may be legally provided by a municipal court clerk to any entity that meets the definition of "a criminal justice agency" as set forth in K.S.A. 2001 Supp. 22-4701 when that criminal justice agency has a legitimate need for such information. Persons wishing to comment on or object to the draft permits and/or permit applications must submit their comments in writing to the Kansas Department of Health and Environment if they wish to have the comments or objections considered in the decision making process. Comments or objections should be submitted to the attention of Shonda Domme for agricultural permits or ap-

plications, or to the permit clerk for all other permits, at the Kansas Department of Health and Environment, Division of Environment, Bureau of Water, 1000 S.W. Jackson, Suite 420, Topeka, 66612-1367.

All comments regarding the draft permit or application notice postmarked or received on or before April 20 will be considered in the formulation of final determinations regarding this public notice. Please refer to the appropriate Kansas permit number (KS-AG-02-063/074, KS-02-032/035, KS-ND-02-006/008) and name of applicant/application as listed when preparing comments.

If no objections are received during the public notice period regarding any proposed permit, the Secretary of Health and Environment will issue the final determination regarding issuance or denial of the proposed permit. If response to this notice indicates significant public interest, a public hearing may be held in conformance with K.A.R. 28-16-61 (28-46-21 for UIC). Media coordination for publication and/or announcement of the public notice or public hearing is handled by the Kansas Department of Health and Environment.

State of Kansas

Department of Health
and EnvironmentNotice of Hearing on Proposed
Administrative Regulations

The Kansas Department of Health and Environment, Division of Environment, Bureau of Air and Radiation, will conduct a public hearing at 10:30 a.m. Tuesday, May 21, in the Kansas City-Wyandotte County Health Department auditorium, 619 Ann Ave., Kansas City, Kansas, to consider the adoption of a proposed new air quality regulation K.A.R. 28-19-714, "Solvent metal cleaning," and the revocation of existing K.A.R. 28-19-75, "Solvent metal cleaning." In essence, the new K.A.R. 28-19-714 will replace the existing K.A.R. 28-19-75, while lowering the volatility level of solvents used in certain metal parts cleaning operations. A summary of the proposed actions and the associated economic impact follows.

Proposed New K.A.R. 28-19-714. The State of Kansas is required under the federal Clean Air Act and its regulations to implement air pollution control measures that will achieve and maintain air quality in the state within the ambient air quality standards established by the EPA. The Johnson and Wyandotte counties in the Kansas portion of the Kansas City Metropolitan Area (KCMA) air quality control region have experienced problems complying with the federal ambient air quality standard for ozone. In order to meet the requirement that the state maintain ozone levels within the national standards in the KCMA, KDHE is proposing a new regulation to replace the existing solvent metal cleaning regulation for Johnson and Wyandotte counties. This new regulation will retain the existing requirements and also will implement new limits on the volatility of solvents used for the affected processes. This limit will reduce the emissions of volatile organic compounds from motor vehicle fuel. Volatile organic compounds are precursor pollutants that aid in the formation of ozone in the lower atmosphere. By limiting the solvent volatility, and thus the emissions of volatile organic compounds, the state anticipates that this control measure will improve compliance with the national ambient air quality standard for ozone in the Kansas City metropolitan area.

Economic impacts associated with the rulemaking actions are expected to increase solvent costs by \$0.90 per gallon.

Copies of the proposed new regulation and the economic impact and environmental benefit statements may be obtained by contacting the Kansas Department of Health and Environment, Bureau of Air and Radiation, at (785) 296-6428. Questions pertaining to these proposed amendments should be directed to Ralph J. Kieffer at (785) 296-6428 or to Chuck Layman at (785) 296-1579.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulations and the economic impact and environmental benefit statements in an acces-

sible format. Requests for accommodation should be made at least five working days in advance of the hearing by contacting Ralph J. Kieffer.

Request for Comments

The Kansas Department of Health and Environment is soliciting comments regarding a proposed air quality construction permit. Mulvane Municipal Power Plant #2 has applied for an air quality construction permit in accordance with the provisions of K.A.R. 28-19-300 for a power plant. Emissions of oxides of nitrogen (NOx), sulfur dioxide (SO₂), carbon monoxide (CO), volatile organic compounds (VOCs) and particulate matter (PM) were evaluated during the permit review process.

The City of Mulvane Municipal Power Plant #2, Mulvane, owns and operates the stationary source located at 10220 E. 111st, Mulvane, Section 28, Township 29 South, Range 2 East, Sedgwick County, Kansas, at which the three reciprocating engines generating electricity are to be constructed.

A copy of the proposed permit, permit application, all supporting documentation and all information relied upon during review of the permit application is available for public inspection for a period of 30 days from the date of publication during normal business hours at the KDHE, Bureau of Air and Radiation, 1000 S.W. Jackson, Suite 310, Topeka, and at the Wichita-Sedgwick County Department of Community Health, 1900 E. 9th, Wichita. To obtain or review the proposed permit and supporting documentation, contact Rick Bolfig, (785) 296-1576, at the KDHE central office, or Randy Owen, (316) 268-8448, at the Wichita-Sedgwick County Department of Community Health. The standard departmental cost will be assessed for any copies requested.

Direct written comments or questions regarding the proposed permit to Rick Bolfig, KDHE, Bureau of Air and Radiation, 1000 S.W. Jackson, Suite 310, Topeka, 66612-1366. In order to be considered in formulating a final permit decision, written comments must be received by the close of business April 22.

A person may request a public hearing be held on the proposed permit. The request for a public hearing shall be in writing and set forth the basis for the request. The written request must be submitted to Connie Carreno, Bureau of Air and Radiation, not later than the close of business April 22 in order for the Secretary of Health and Environment to consider the request.

Request for Comments

The Kansas Department of Health and Environment is soliciting comments regarding a proposed air quality operating permit. Northern Natural Gas Company has applied for a Class I operating permit in accordance with the provisions of K.A.R. 28-19-510 et seq. The purpose of a Class I permit is to identify the sources and types of regulated air pollutants emitted from the facility; the emission limitations, standards and requirements applicable to each source; and the monitoring, record keeping and reporting requirements applicable to each source as of the effective date of permit issuance.

Northern Natural Gas Company, Liberal, owns and operates a natural gas compressor station located at Section 14, Township 32 South, Range 36 West, Stevens County.

A copy of the proposed permit, permit application, all supporting documentation and all information relied upon during the permit application review process is available for a 30-day public review during normal business hours at the KDHE, Bureau of Air and Radiation, 1000 S.W. Jackson, Suite 310, Topeka, and at the KDHE South Central District Office, 130 S. Market, sixth floor, Wichita. To obtain or review the proposed permit and supporting documentation, contact Michael J. Parhomek, (785) 296-1580, at the KDHE central office, or David Butler, (316) 337-6020, at the KDHE South Central District Office. The standard departmental cost will be assessed for any copies requested.

Direct written comments or questions regarding the proposed permit to Michael J. Parhomek, KDHE, Bureau of Air and Radiation, 1000 S.W. Jackson, Suite 310, Topeka, 66612-1366. In order to be considered in formulating a final permit decision, written comments must be received by the close of business April 22.

A person may request a public hearing be held on the proposed permit. The request for a public hearing shall be in writing and set forth the basis for the request. The written request must be submitted to Connie Carreno, Bureau of Air and Radiation, not later than the close of business April 22 in order for the Secretary of Health and Environment to consider the request.

The U.S. Environmental Protection Agency has a 45-day review period, which will start concurrently with the 30-day public comment period, within which to object to the proposed permit. If the EPA has not objected in writing to the issuance of the permit within the 45-day review period, any person may petition the administrator of the EPA to review the permit. The 60-day public petition period will directly follow the EPA 45-day review period. If the EPA waives its 45-day review period, the 60-day public petition period will start directly after the 30-day public comment period. Interested parties may contact KDHE to determine if the EPA's 45-day review period has been waived.

Any such petition shall be based only on objections to the permit that were raised with reasonable specificity during the public comment period provided for in this

notice, unless the petitioner demonstrates that it was impracticable to raise such objections within such period, or unless the grounds for such objection arose after such period. Contact Gary Schlicht, U.S. EPA, Region VII, Air Permitting and Compliance Branch, 901 N. 5th St., Kansas City, KS 66101, (913) 551-7097, to determine when the 45-day EPA review period ends and the 60-day petition period commences.

Notice of Hearing on Proposed
Administrative Regulations

A public hearing will be conducted at 10 a.m. Tuesday, May 21, in Room B, SRS Organizational Development, 2650 S.W. East Circle Drive, Topeka, to consider the adoption of amendments to existing rules and regulations on a permanent basis effective July 1, 2002. Telephone conference will not be available.

This 60-day notice of the public hearing shall constitute a public comment period for the proposed regulations. All interested parties may submit written comments prior to or during the public hearing to Hope Burns, Office of the Secretary for SRS, Room 603-N, Docking State Office Building, 915 S.W. Harrison, Topeka, 66612. All interested parties will be given a reasonable opportunity to present their views, but it may be necessary to request each participant to limit any oral presentation to five minutes. Copies of the regulations and the economic impact statements may be obtained by contacting Hope Burns at (785) 296-3969.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulations and economic impact statements in an accessible format. Requests for accommodation should be made at least five working days in advance of the hearing by contacting Hope Burns or by calling the Kansas Relay Center at 1-800-766-3777.

The adoption of the regulations will take place at 11:30 a.m. Thursday, May 30, in the SRS executive conference room, 603-N, Docking State Office Building. Telephone conference will not be available. A summary of the proposed regulations and the economic impact follows:

Article 4.—PUBLIC ASSISTANCE PROGRAM

30-4-90. Eligibility factors specific to the GA program. This regulation is being amended to implement a 24 calendar month lifetime limit on receipt of benefits under the GA program. This regulation has been further amended to clarify medical terminology and make other technical corrections.

Economic Impact: This change will result in a state general fund savings of \$1,238,802 for the GA cash program and \$3,100,000 for the medical benefits provided with those cash benefits under the MediKan program. Ap-

proximately 653 consumers will lose both cash and medical coverage.

Bearer of Cost: None

Affected Parties:

1. This change will eliminate cash and medical benefits for 653 consumers effective July 1, 2002, as they will exceed the 24-month time limit in July. Such consumers may not have any other resources to meet basic maintenance or health needs.
2. This change will impact numerous community agencies throughout the state as demands for their services will increase in order to fill gaps in meeting day-to-day needs of these consumers.
3. This change may place an increased burden on mental health and other medical providers to serve these consumers without compensation.
4. This change will have a moderate impact on SRS staff regarding actions necessary to terminate coverage and provide further case management for those still on assistance.

Other Methods: The agency reviewed other methods of reducing budgetary expenses in light of the shortage of estimated funding needed to provide current services in FY 2003. This change is being made along with a number of other significant reductions to address the allocation deficit. Agency decisions were made based upon its mission to protect children and promote adult self-sufficiency. The GA program was intended to meet the temporary needs of disabled adults while they were awaiting Social Security disability approval. Only those with disabilities likely to meet Social Security criteria qualify for GA, and most Social Security claims decisions are rendered within a 24-month time period. This change was made to reflect that and to prevent more significant cuts to direct services including total elimination of the program.

Article 5.—PROVIDER PARTICIPATION, SCOPE OF SERVICES, AND REQUIREMENTS FOR THE MEDICAID (MEDICAL ASSISTANCE) PROGRAM

30-5-101. Scope of chiropractic services. With the new HIPAA regulations, this regulation is being revoked because the local code is no longer available. This code cannot crosswalk into a CPT code because there is not a CPT code available for this service. With no crosswalk available and the code not being billed, the decision was made to noncover this local code and delete this service.

Economic Impact: None

Bearer of Cost: None

Affected Parties: Medicaid recipients.

Other Methods: There were no other appropriate methods for the desired outcome.

30-5-300. Definitions. The proposed policy change would allow consumers who turn 65 years of age while on the physically disabled waiver to remain on the waiver past age 65.

Federal Mandate: This regulation change is not federally mandated.

Economic Impact: No impact.

Bearer of Cost: None.

Affected Parties: Some adult consumers.

Other Methods: There were no other appropriate methods for the desired outcome.

Article 6.—MEDICAL ASSISTANCE PROGRAM— CLIENTS' ELIGIBILITY FOR PARTICIPATION

30-6-88. Disabled individuals with earned income; determined eligibles. This regulation is being added to provide medical coverage to disabled individuals between the ages of 16 and 65 who are working and whose income and resources are within required levels. A monthly premium shall be required for persons whose income exceeds 100 percent of the federal poverty level.

Economic Impact: The change will affect approximately 1,000 individuals on an annual basis and result in an increase in expenditures of approximately \$4.4 million (\$1.7 million state general funds).

Bearer of Cost: The taxpayers of the State of Kansas will bear the cost of this program through increases in state funding.

Affected Parties:

1. This change will have a moderate impact on SRS staff due to an increase in workload to serve these additional consumers.
2. This change will benefit approximately 1,000 consumers as they will be able to obtain or retain health coverage even though employed.

Other Methods: No other methods were considered as the Legislature appropriated funds to plan for implementation of this program.

30-6-103. Determined eligibles; protected income levels. This regulation is being amended to adopt an income level of 300 percent of the official federal poverty income guidelines for determining eligibility under the provisions of K.A.R. 30-6-88.

Economic Impact: See the economic impact statement for K.A.R. 30-6-88.

30-6-107. Property exemption. This regulation is being amended to adopt a \$15,000 resource limit for determining eligibility under the provisions of K.A.R. 30-6-88.

Economic Impact: See the economic impact statement for K.A.R. 30-6-88.

30-6-109. Personal property. This regulation is being amended to exempt individual development and individual training accounts from consideration in determining eligibility for medical coverage.

Economic Impact: See the economic impact statement for K.A.R. 30-6-88.

30-6-112. Income exempt from consideration as income and as a cash asset. This regulation is being amended to exempt earnings deposited in an individual development account for determining eligibility under the provisions of K.A.R. 30-6-88.

Economic Impact: See the economic impact statement for K.A.R. 30-6-88.

Article 10.—ADULT CARE HOME PROGRAM

30-10-6. Admission procedures. This regulation describes admission procedures for nursing facilities. The

(continued)

proposed amendment to this regulation is a technical change to update the reference cited regarding assessments.

Economic Impact: The proposed change is not required by federal regulation. Assessment for appropriateness of services is required by federal law and this regulation meets that requirement. There are no costs to the agency or other governmental units, private citizens or other consumers associated with this amendment.

Other Methods: No alternatives were discussed.

30-10-11. Personal needs fund. This regulation deals with requirements of nursing facilities regarding residents' personal needs funds. The proposed amendment is being made since the Medicaid nursing facility program does not have authority over the nursing facilities' actions regarding a personal needs fund of a resident that was not a recipient of medical assistance.

Economic Impact: There are no costs to the agency or other governmental units, private citizens or other consumers associated with this amendment.

Other Methods: Rewriting section (h)(2) to mirror the language used in section (h)(1)(B) was considered but rejected due to the agency's lack of authority over the affairs of residents that are not recipients of medical assistance.

30-10-15a. Reimbursement. This regulation explains reimbursement for nursing facility providers. The proposed amendments clarify the computation of the allowable therapy expenses for the cost report period.

Economic Impact: There are no costs to the agency or other governmental units, private citizens or other consumers associated with this amendment.

Other Methods: Leaving the regulation unchanged was considered, but it was determined that clarification was needed.

30-10-15b. Financial data. This regulation states the requirement for the reporting of financial data for nursing facility providers. The intentions of the proposed amendments include removing an unnecessary reference to reimbursement for fixed assets and clarifying who is responsible for ensuring that the cost report information is submitted.

Economic Impact: There are no costs to the agency or other governmental units, private citizens or other consumers associated with this amendment. This change will allow providers operating a chain of nursing facilities to avoid having all of their Medicaid payments suspended when one nursing facility in the chain fails to submit its cost report data. Payments will only be held for the nursing facility that did not submit the cost report, not the entire chain.

Bearer of Cost: None

Other Methods: Leaving section (e)(2) as it was effective January 1, 1999, was considered but rejected since this language could be interpreted to mean that payments be suspended for an entire chain when only one facility fails to submit cost report data.

30-10-17. Cost reports. This regulation explains the cost reporting procedures for nursing facilities. The proposed amendments to the regulation include clarifying who is responsible for ensuring that the cost report information is submitted by the due date.

Federal Mandate: The proposed amendment is not mandated by federal regulations.

Economic Impact: There are no costs to the agency or other governmental units, private citizens or other consumers associated with this amendment. This change will allow providers operating a chain of nursing facilities to avoid having all of their Medicaid payments suspended when one nursing facility in the chain fails to submit its cost report data. Payments will only be held for the nursing facility that did not submit the cost report, not the entire chain.

Bearer of Cost: None

Other Methods: Leaving section (f)(1) as it was effective January 1, 1999, was considered but rejected since this language could be interpreted to mean that payments be suspended for an entire chain when only one facility fails to submit cost report data by the due date.

30-10-18. Rates of reimbursement. This regulation explains rates of reimbursement for Medicaid nursing facilities. The proposed technical amendment is the addition of section (i) that provides a means for nursing facilities to acquire greater compensation for certain ventilator dependent residents and several changes throughout the regulation to allow for the implementation of the revised nursing home reimbursement system. The proposed amendment also includes a change in wording in section (h), replacing the phrase "approved reserved" with "reserve."

Economic impact upon SRS: The proposed amendment for ventilator dependent patients is expected to save SRS as much as \$480,000 in state general funds due to the reduced hospitalization of ventilator dependent patients that meet the criteria of the regulation. The changes to the nursing facility reimbursement system are intended to be essentially budget neutral. It is anticipated that the changes may increase the nursing facility-mental health program expenditures by \$40,000 state general funds.

Affected Parties: It is anticipated that Kansas Department on Aging expenditures will increase approximately \$240,000 to \$400,000 in state general funds due to the addition of the provision for ventilator dependent residents. This estimate allows for 6 to 10 qualifying residents per year, with an average daily cost of \$274 per resident. The changes that have been made to implement the revised reimbursement system are intended to be budget neutral. The reimbursement system contains measures that will allow KDOA to make these changes and still operate within budget restrictions.

Other Methods: The Department on Aging and the Department of Social and Rehabilitation Services considered not changing this regulation, but determined that this amendment will be advantageous to consumers, state and federal governments, and nursing facility providers. Not changing this regulation would continue to make it difficult to place ventilator dependent residents. Because the residents have such extremely high care costs, many facilities in Kansas have been reluctant to accept such patients. There have been a few instances where residents have gone out of state to receive the services that they required. The changes that have been made to the reimbursement system have been made to accomplish several objectives. Those objectives include removing the 85 percent occupancy rule from those costs most directly related to patient care, making the system more sensitive to case mix, providing for greater control of inflationary increases, and revising the property component of the re-

imbursement system. Leaving the current reimbursement system in place was considered but rejected.

30-10-19. Rates; effective dates. This regulation states the procedures for determining effective dates for nursing home reimbursement rates. Changes were made to provide for the adjustment of those rates based on changes in each provider's case mix.

Economic Impact: This change will not increase or decrease costs but will allow reimbursement rates to more precisely reflect the level of care being provided in each facility. For some providers, rates will increase; for some providers, rates will decrease.

Bearer of Cost: None

Other Methods: Leaving the regulation unchanged was considered but rejected because this provision will strengthen the reimbursement system.

30-10-21. Reserve days. This regulation states the reserve day policy for the Medicaid nursing facility program. Section (g)(1) has been deleted. This removes the requirements that a certain occupancy level be maintained before reserve days will be paid.

Economic Impact: This change will increase the number of reserve days that are billed. It also will decrease the number of full days that are billed. The net result of this will likely be cost neutral to both the agency and the nursing facility providers. This change will not affect the costs to other governmental units or private citizens.

Other Methods: Leaving the regulation unchanged was considered but rejected because the precedent of approving additional reserve days had been established.

30-10-23a. Non-reimbursable costs. This regulation describes nonreimbursable costs for nursing facility providers. In section (a)(10), the phrase "and oxygen concentrators, tanks, and cylinders" has been added. Section (a)(14) has been deleted. In new section (a)(17), the phrase "as defined in 30-10-1a" has been added.

The change to section (a)(10) was made to clarify that oxygen-related equipment such as concentrators, tanks and cylinders are nonreimbursable costs. The deletion of section (a)(14) was made to make barber and beauty expenses an allowable cost. The addition to section (a)(17) was made to reference the addition of a definition in K.A.R. 30-10-1a.

Economic Impact: The estimated fiscal impact of the change to section (a)(14) is an increase in costs to the agency of \$81,306. This estimate was derived from cost report data for calendar year 1999. Each facility's barber and beauty expenses (which are currently nonreimbursable) were compared to their barber and beauty shop revenues. For each facility where expenses exceeded its revenues, the difference between the expenses and revenues was allowed. The total of these allowed expenses was multiplied by the ratio of Medicaid resident days to total resident days. This determined the Medicaid share of any expenses that are not offset by revenues. Finally, this Medicaid share was increased by 12 percent to inflate these expenses forward to the midpoint of the FY 2002 rate setting period. Costs for nursing facility providers and their residents will decrease by the same amount that agency costs increase, \$81,306. There will be no costs for other governmental agencies or units, or other consumers.

The other changes to K.A.R. 30-10-23a will not affect costs for the agency, other governmental agencies or units, private citizens or other consumers.

Other Methods: Leaving the regulation unchanged was considered, but it was decided that the quality of care of the nursing facility residents would be enhanced with this change.

30-10-24. Compensation of owners, related parties, and administrators. This regulation states limits for compensation to owners, related parties and administrators in the nursing facility reimbursement system. The proposed changes update the regulation to changes being proposed in K.A.R. 30-10-18. These changes are only to correct references to terms that have been changed.

Economic Impact: This change will not have a fiscal impact.

Other Methods: Leaving the regulation unchanged was considered but rejected because this regulation would not be aligned with K.A.R. 30-10-18 without the proposed revisions.

30-10-25. Real and personal property fee. This regulation covers the property component of the nursing facility reimbursement system. The changes revise this component by eliminating the property value factor, delinking the property component from the plant operating cost center, and establishing an upper payment limit for the property component.

Economic Impact: This change is tied to revisions in K.A.R. 30-10-18. The net impact of all the changes will be budget neutral.

Other Methods: Leaving the regulation unchanged was considered but rejected because this change will strengthen the nursing home reimbursement system.

30-10-27. Central office costs. This regulation explains the allocation of central office costs for the nursing facility reimbursement system. References in this regulation have been revised to reflect changes in other regulations.

Economic Impact: This change will not have a fiscal impact.

Other methods: Leaving the regulation unchanged was considered but rejected because this regulation would no longer be aligned with other regulations for the nursing facility reimbursement system.

30-10-29. Reimbursement for 24-hour nursing care. This regulation describes reimbursement for 24-hour nursing care and was written to create a pass-through for expenses related to the implementation of the 24-hour nursing requirement for nursing facilities. The provision expired for requests received after December 29, 1995, and is therefore obsolete. The entire regulation is being deleted in order to remove a regulation that is no longer applicable.

Federal Mandate: All nursing facilities are required to provide 24-hour nursing care.

Economic Impact: There are no costs associated with this change to the agency or other governmental agencies or units, or to private citizens or other consumers.

Other Methods: No alternative methods were considered.

State of Kansas

Department of Wildlife and Parks

Public Notice

The Kansas Department of Wildlife and Parks has reached agreement for the purchase of a tract of land in Pratt County. The parcel consists of approximately 160 acres (SE/4 of S33-T27S-R15W). The tract was appraised at \$75,000 and will be purchased for \$57,000, with the landowner retaining CRP payments for the term of the current CRP contract. This tract will be part of the Texas Lake Wildlife Area and will remain on the county tax rolls.

Doc. No. 027688

State of Kansas

Department of Human Resources
Division of Workers CompensationNotice of Hearing on Proposed
Administrative Regulations

A public hearing will be conducted at 9 a.m. Friday, May 24, in Hearing Room 2 in the lower lobby of the US Bank Building, 800 S.W. Jackson, Topeka, to consider the adoption of new regulations and changes to existing regulations of the Division of Workers Compensation.

This 60-day notice of public hearing shall constitute a public comment period for the purpose of receiving written public comments on the proposed regulations. All interested parties may submit written comments prior to the hearing to the director of the Division of Workers Compensation, 800 S.W. Jackson, Suite 600, Topeka, 66612-1227. All interested parties will be given a reasonable opportunity to present their views orally on the adoption of the proposed regulations during the hearing. In order to give all parties an opportunity to present their views, it may be necessary to request that each participant limit any oral presentation to 10 minutes.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulations and economic impact statements in an accessible format. Requests for accommodation should be made at least five working days in advance of the hearing by contacting Philip Harness at (785) 296-4000 or TTY (785) 296-5044. Parking for individuals with disabilities is located on the second level of the US Bank Building's enclosed parking, and the west entrance to the building is accessible to individuals with disabilities.

These regulations are proposed for adoption on a permanent basis. A summary of the regulations and their economic impact follows.

K.A.R. 51-2-6. This new regulation requires that an interpreter be provided at workers compensation hearings for any party who is hearing or speech impaired or whose primary language is other than English, and that the cost of the interpreter not be assessed against the person needing the interpreter.

No economic impact is expected from this regulation since it is already the general practice to provide inter-

preters at workers compensation hearings with the cost of the interpreter assessed against the insurance carrier.

K.A.R. 51-3-1 to 51-3-4. These regulations will be amended to remove the term "settlement agreement" from conjunction with the term "final receipt and release of liability" to conform the terms in the regulations to the terms used in K.S.A. 44-527.

No economic impact is expected from this amendment.

K.A.R. 51-9-12 to 51-9-14. These regulations will be revoked since they have been superseded by K.S.A. 44-510i and 44-510j.

No economic impact is expected by this revocation.

K.A.R. 51-9-15 to 51-9-16. K.S.A. 44-557a requires the director of workers compensation to maintain a database of workers compensation claim characteristics and costs. K.S.A. 44-557a also requires insurance carriers, self-insured employers, group-funded workers compensation pools, vocational rehabilitation providers and health care facilities to submit to the director amounts paid or charged on workers compensation claims. These new regulations will specify when, by whom, and in what form medical cost data shall be submitted to the director.

The medical cost data will be collected electronically by the Department of Health and Environment at a cost to the Division of Workers Compensation of \$102,100 in fiscal year 2002 and \$92,500 per year thereafter. Insurance carriers, self-insured employers, group-funded workers compensation pools, vocational rehabilitation providers and health care facilities will bear the cost of gathering and sending the data to the Department of Health and Environment.

K.A.R. 51-10-6. This regulation will be revoked because it has been superseded by K.S.A. 44-513a.

No economic impact is expected by this revocation.

K.A.R. 51-17-1. This regulation will be revoked because it prescribes a method for time computation that conflicts with the method of time computation in K.S.A. 60-206.

K.A.R. 51-24-1. This regulation will be amended to state that the Division of Workers Compensation's rehabilitation administrator shall act as coordinator between the parties seeking a vocational assessment and any state or federal vocational rehabilitation agency, not just Kansas vocational rehabilitation agencies. This amendment will conform the regulation to the rehabilitation administrator's duties under K.S.A. 44-510g.

No economic impact is expected by this amendment.

K.A.R. 51-24-3 to 51-24-4. These regulations will be amended to permit a qualified vocational rehabilitation vendor to operate out of a home office and require any qualified vocational rehabilitation vendor to provide a statement that the vendor will adhere to the workers compensation schedule of medical fees.

No economic impact is expected by this amendment.

Copies of the regulations and their economic impact statements may be obtained from the Division of Workers Compensation at the address and phone numbers listed above.

Board of Regents

Notice of Hearing on Proposed Administrative Regulations

A public hearing will be conducted at 10 a.m. Wednesday, May 22, in the Board of Regents' conference room, 1000 S.W. Jackson, Suite 520, Topeka, to consider the adoption of a new rule and regulation and the revocation of another regulation relating to the Board of Regents' authorization of postsecondary institutions to confer academic degrees.

This 60-day notice of the public hearing shall constitute a public comment period for the purpose of receiving written public comments on the proposed rules and regulations. All interested parties may submit written comments prior to the hearing to Robin Kempf, State Board of Regents, 1000 S.W. Jackson, Suite 520, Topeka, 66612-1368. All interested parties will be given a reasonable opportunity to present their views orally on the adoption of the proposed regulations during the hearing.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulations and economic impact statements in an accessible format. Requests for accommodation should be made at least five working days in advance of the hearing by contacting Robin Kempf at (785) 296-3689.

Copies of the regulations and the economic impact statements may be obtained by contacting Robin Kempf. A summary of the proposed regulations and the economic impact follows:

Article 16.—AUTHORIZATION OF INSTITUTIONS OF POSTSECONDARY EDUCATION TO CONFER DEGREES

Revocation of K.A.R. 88-16-1a. K.A.R. 88-16-1a defines a number of terms used in article 16 including various levels of academic degrees. These definitions will be amended and replaced by proposed K.A.R. 88-16-1b, described below.

Proposed K.A.R. 88-16-1b. This regulation would establish new degree definitions applicable to Article 16. Substantive differences in the new regulation include:

- Three new definitions of degrees: an associate in general studies, a first professional degree, and an honorary degree.
- A new definition of an "academic year" that is used as a standard measurement of study to be incorporated into the definition of all degrees.
- Some additional requirements for three degrees: a bachelor's degree would require at least 54 semester credit hours in upper-division courses, a master's degree would require a research thesis or other demonstration of mastery, and a doctor's degree would require passage of a comprehensive or similar professional exam.
- Some lessened requirements for two degrees: the associate in arts and the associate in science degrees would require 30 semester credit hours in general education, down from the former requirement of 45 semester credit hours.

Economic Impact: The adoption of this regulation would result in no economic impact on governmental agencies or units. The cost borne by the institutions subject to the proposed regulations would be that there might be some degrees that they currently offer in Kansas that would not meet the proposed definitions. These programs would need to be restructured when the institutions apply for a renewal of degree-granting authority. Similarly, the cost borne by the general public would be that they might not have access to the degree programs offered by private or out-of-state institutions that don't meet the proposed definitions. Neither of these costs is quantifiable, but both are mitigated by proposed definitions of new degrees that weren't offered before.

(Published in the Kansas Register March 21, 2002.)

**Summary Notice of Bond Sale
City of Nickerson, Kansas
\$552,000**

**General Obligation Water System Bonds
Series A, 2002**

**(General obligation water system bonds payable
from unlimited ad valorem taxes)**

Details of the Sale

Subject to the terms and conditions of the complete official notice of bond sale dated as of March 4, 2002, of the City of Nickerson, Kansas, in connection with the city's General Obligation Water System Bonds, Series A, 2002, hereinafter described, written bids for the purchase of the bonds shall be received at the office of the city clerk at City Hall, 15 N. Nickerson St., Nickerson, KS 67561, or by telefacsimile (if accompanied by a timely delivered original executed bid form and the required good faith deposit or evidence of surety bond) at (620) 422-5252, until 7 p.m. Monday, April 1, 2002. All bids shall be disclosed publicly and tabulated or compared on said date at 7 p.m. at Nickerson City Hall and shall thereafter be immediately considered and acted upon by the city.

No oral or auction bids for the bonds shall be considered, and no bids for less than 100 percent of the total principal amount of the bonds and accrued interest to the date of delivery shall be considered.

Bids shall be accepted only on the official bid form that has been prepared for the public bidding on these bonds, which may be obtained from the city clerk or the city's financial advisor. Bids may be submitted by mail, delivered in person, or submitted by telefacsimile at (620) 422-5252, but only if the city or the city's financial advisor is in possession of both an original executed bid form and the required good faith deposit or evidence of surety bond. All bids must be received at the place and not later than the date and time hereinbefore specified. Neither the city, its bond counsel, its financial advisor, nor any officer or employee of the city shall be deemed to have any liability whatsoever in connection with the failure of any electronic or telefacsimile equipment or any other occurrence resulting in disqualification or failure by the city to receive a bid. Each bid shall be accompanied by a good faith deposit in the form of a certified or cashier's check drawn on a bank located within the United States and made payable to the order of the city, or in the form of a financial surety bond payable to the order of the city and meeting requirements therefor as set forth in the official notice of bond sale, and shall be in an amount equal to 2 percent of the principal amount of the bonds.

Details of the Bonds

The bonds to be sold are in the aggregate principal amount of \$552,000, and shall bear a dated date of April 15, 2002. The bonds shall be issued as fully registered bonds in the denomination of \$5,000, or any integral multiple thereof not exceeding the principal amount of the bonds maturing in any year, except for one bond in the denomination of \$7,000 maturing October 1, 2004. The bonds shall bear interest, payable as hereinafter set forth, at the rates specified in even multiples of 1/8th or 1/20th of 1 percent by the successful bidder for the bonds.

Interest on the bonds shall be payable semiannually on April 1 and October 1 of each year, commencing April 1, 2003, and the bonds shall mature serially on October 1 in each of the years and principal amounts as follows:

Maturity Schedule

Principal Amount	Maturity Date
\$17,000	2004
20,000	2005
20,000	2006
20,000	2007

35,000	2018
40,000	2019
40,000	2020
40,000	2021
45,000	2022

Redemption of Bonds

Certain of the bonds are subject to optional redemption prior to their maturities as set forth in the official notice of bond sale. Additionally, a bidder may elect to have all or a portion of the bonds shown in the above maturity schedule issued as term bonds, which would be subject to mandatory redemption requirements. (Reference is made to the official notice of bond sale for complete details regarding redemption of the bonds.)

Payment of Principal and Interest

The Kansas State Treasurer shall serve as the bond registrar and paying agent for the bonds, and the principal of the bonds shall be paid upon surrender at the paying agent's principal offices in the City of Topeka, Kansas. Interest shall be paid by the mailing of a check or draft of the paying agent to the registered owners of the bonds.

Book-Entry Option

The successful bidder may elect to have the bonds registered under a book-entry-only system administered through the Depository Trust Company, New York, New York (DTC).

Security for the Bonds

The bonds and the interest thereon constitute general obligations of the city, and the full faith, credit and resources of the city will be pledged to the payment thereof. The bonds shall be payable as to both the principal of and the interest thereon from ad valorem taxes levied without limitation as to rate or amount upon all of the taxable tangible property within the territorial limits of the city for the purpose of paying the bonds and the interest thereon.

Delivery of the Bonds

The bonds, duly printed, executed and registered, shall be furnished and delivered at the expense of the city to

the successful bidder, or at its direction, on or about April 18, 2002, at such bank or trust company or other qualified depository in the contiguous United States, as may be specified by the successful bidder. Delivery elsewhere shall be made at the expense of the successful bidder.

Legal Opinion

The bonds will be sold subject to the legal opinion of Triplett, Woolf & Garretson, LLC, Wichita, Kansas, bond counsel, whose fees will be paid by the city. Bond counsel's approving legal opinion as to the validity of the bonds will be printed on the bonds and delivered to the successful bidder upon delivery of the bonds. (Reference is made to the official notice of bond sale for a discussion of tax exemption and other legal matters.)

Financial Matters

The city's current equalized assessed tangible valuation is as follows:

Assessed Tangible Valuation of Taxable Tangible Property	\$3,150,628
Taxable Value of Motor Vehicles	847,040
Assessed Tangible Valuation for Debt Limit Computation	<u>\$3,997,668</u>

K.S.A. 10-308 provides that the authorized and outstanding bonded indebtedness of any city shall not exceed 30 percent of the assessed valuation of the city. As of April 15, 2002, the city's gross outstanding debt, including the bonds, will be \$762,000. The city's total indebtedness subject to debt limitation, as of April 15, 2002, will be \$210,000, which is 5.25 percent of the assessed valuation of the city.

Official Statement

The city has prepared a preliminary official statement relating to the bonds, copies of which may be obtained from the city or the city's financial advisor. The preliminary official statement is in a form "deemed final" by the city for the purpose of Securities and Exchange Commission Rule 15c2-12(b)(1), but is subject to revision, amendment and completion in the final official statement. Upon the sale of the bonds, the city shall furnish the successful bidder with a reasonable number of copies of the final official statement, without additional cost, upon request. Copies of the final official statement in excess of a reasonable number may be ordered by the successful bidder at its expense.

Continuing Disclosure

Securities and Exchange Commission Rule 15c2-12 provides that brokers, dealers and municipal securities dealers must comply with certain requirements before acting as an underwriter in a primary offering of municipal securities with an aggregate principal amount of \$1,000,000 or more.

The bonds described herein will be offered in a primary offering with an aggregate principal amount of less than \$1,000,000. Accordingly, in the opinion of bond counsel, the offering and sale of the bonds described herein does not constitute an offering as defined by the rule, and the requirements of the rule do not apply to brokers, dealers and municipal securities dealers acting as underwriters in connection with the bonds described herein.

Additional Information

For additional information regarding the city, the bonds and the public sale, interested parties are invited to request copies of the complete official notice of bond sale and the official bid form and the city's preliminary official statement for the bonds, all of which may be obtained from the city clerk at the address and telephone number shown below or from the financial advisor, Jerry D. Rayl, Davidson Securities, a division of Gold Capital Management, Inc., 245 N. Waco, Suite 525, Wichita, KS 67202, (316) 265-9411.

Permanent Administrative Regulations

Article 3.—PRODUCTION AND CONSERVATION OF OIL AND GAS

82-3-400. Injection allowed only by permit; penalty. (a) Authority to inject. Injection shall be permitted only after both of the following conditions are met:

(1) The operator has filed an application for injection authority with the conservation division in accordance with K.A.R. 82-3-401 and provided notice in accordance with K.A.R. 82-3-402.

(2) The conservation division has issued a written permit granting the application.

(b) Penalty for unauthorized injection. The failure to obtain a written permit from the conservation division before beginning injection operations shall be punishable by a penalty of \$1,000 for first-time violators, \$5,000 for second-time violators, and \$10,000 and operator license review for third-time violators. In addition, each injection well found to be operating without a conservation division permit shall be shut in until compliance is achieved. (Authorized by K.S.A. 55-151, 55-152, K.S.A. 2000 Supp. 55-164, as amended by L. 2001, ch. 5, sec. 191; implementing K.S.A. 55-151, K.S.A. 2000 Supp. 55-164, as amended by L. 2001, ch. 5, sec. 191; effective, T-83-44, Dec. 8, 1982; effective May 1, 1983; amended May 1, 1984; amended May 1, 1986; amended, T-87-46, Dec. 19, 1986; amended May 1, 1987; amended May 1, 1988; amended May 8, 1989; amended April 23, 1990; amended April 5, 2002.)

82-3-401. Application for injection well; content. (a) Application form; content. The original and two copies of each application shall be signed and verified by the operator, and filed with the conservation division on a form approved by the commission, and shall provide the following information:

(continued)

(1) The name, location, surface elevation, total depth, and plug-back depth of each injection well;

(2) a plat showing the location of all oil and gas wells, including producing wells, abandoned wells, drilling wells and dry holes within a ½-mile radius of the injection well, and indicating producing formations and the subsea top of the producing formations;

(3) the name and address of each operator of a producing or drilling well within a ½-mile radius of the injection well;

(4) the name, description, and depth of each injection interval. The application shall indicate whether the injection is through perforations, an open hole, or both;

(5) the depths of the tops and bottoms of all casing and cement used or to be used in the injection or disposal well;

(6) the size of the casing and tubing and the depth of the tubing packer;

(7) an electric log run to the surface or a log showing lithology or porosity of geological formations encountered in the injection well, including an elevation reference. If such a log is unavailable, an electric log to surface or a log showing lithology or porosity of geological formations encountered in wells located within a one-mile radius of the subject well;

(8) a description of the fluid to be injected, the source of injected fluid, and the estimated maximum injection pressure and average daily rate of injection in barrels per day;

(9) an affidavit that notice has been provided in accordance with K.A.R. 82-3-402;

(10) information showing that injection into the proposed zone will be contained within the zone and will not initiate fractures through the overlying strata that could enable the fluid or formation fluid to enter fresh and usable water strata. Fracture gradients shall be computed and furnished to the conservation division by the applicant, if requested by the conservation division;

(11) the applicant's license number;

(12) any other information that the conservation division requires; and

(13) payment of the application fee required by K.A.R. 82-3-412.

(b) Applications for dually completed wells. In addition to the requirements set out in subsection (a), applications for dually completed injection and production wells shall show that the producing interval lies above the injection interval. Before a well is dually completed, the applicant shall demonstrate that the well has mechanical integrity as specified in K.A.R. 82-3-407 from a point immediately above the producing interval to the surface.

(c) Applications for simultaneous injection wells. In addition to the requirements set out in subsection (a), applications for simultaneous injection wells shall demonstrate all of the following:

(1) The injection will not adversely affect offsetting production or endanger fresh and usable groundwater.

(2) Injection pressure is limited to less than the local injection formation fracture gradient.

(3) The injection well is continuously cemented across the injection and producing intervals.

(4) The well demonstrates mechanical integrity as specified in K.A.R. 82-3-407.

(d) Disposal zone. If the application is for disposal into a producing zone within a ½-mile radius of the applicant's well, the disposal zone shall be below the oil-water contact or 50 feet below the base of the producing zone. For the purposes of this subsection, "disposal zone" means the stratigraphic interval that contains few or no commercially productive hydrocarbons and that is salt-water bearing, and "producing zone" means the stratigraphic interval that contains, or appears to contain, a common accumulation of commercially productive hydrocarbons.

(e) Design approval. Each applicant desiring design approval shall place the words "design approval" at the top of the application for injection operations. The design approval application shall be subject to the requirements set forth in subsection (a) of this regulation, K.A.R. 82-3-402(a), and K.A.R. 82-3-403(a).

(f) Well modifications. Significant modifications to the type or construction of the injection well shall not require an application, but shall require notice as specified in K.A.R. 82-3-408. However, if the modifications include an increase in injection rate or pressure or an additional perforation or injection zone, neither of which is expressly authorized by the existing permit, an application for injection shall be filed.

(g) Multiple enhanced recovery wells. Applications may be filed for more than one enhanced recovery well on the same lease or on more than one lease. The applicant shall provide the requested information for each well included in the application. (Authorized by K.S.A. 55-901, as amended by L. 2001, ch. 5, sec. 198, 55-151, and 55-152; implementing K.S.A. 55-151, 55-901, as amended by L. 2001, ch. 5, sec. 198, and 55-1003; effective, T-83-44, Dec. 8, 1982; effective May 1, 1983; amended May 1, 1984; amended, T-85-51, Dec. 19, 1984; amended May 1, 1985; amended May 1, 1986; amended, T-87-46, Dec. 19, 1986; amended May 1, 1987; amended May 1, 1988; amended May 8, 1989; amended April 23, 1990; amended May 3, 1993; amended April 5, 2002.)

82-3-401a. (Authorized by and implementing K.S.A. 1991 Supp. 55-152 and 55-901; effective May 3, 1993; revoked April 5, 2002.)

82-3-401b. (Authorized by K.S.A. 55-901 and 55-152; implementing K.S.A. 55-164, 55-152, and 55-1003; effective March 19, 1999; revoked April 5, 2002.)

82-3-402. Notice of application; objection. (a) Each applicant shall give notice of the application either to those persons listed in K.A.R. 82-3-135a(c) or according to the provisions of subsection (b) below. Notice shall be mailed or delivered on or before the date the application is filed with the conservation division. Notice of the application shall be published in at least one issue of the official county newspaper of each county in which the lands involved are located.

(b) Area notice. In lieu of the notice requirements of K.A.R. 82-3-135a(c), an applicant may provide area notice utilizing the following procedure;

(1) The application shall state that area notice in accordance with this regulation is being utilized and shall

state the approximate maximum number of injection wells that will ultimately be utilized within the project boundaries.

(2) The applicant shall notify each of the following parties whose acreage lies partially or fully within a ½-mile radius of the project boundaries, by mailing or delivering a copy of the application and notice:

(A) Each operator or lessee of record;

(B) each owner of record of the mineral rights of unleased acreage; and

(C) each landowner within the project boundaries.

(3) Notice of the application shall be published in at least one issue of the official county newspaper of each county in which the affected acreage is located, which shall be defined as a ½-mile radius around the project boundary, and shall contain the following:

(A) The name of the operator of the enhanced recovery project;

(B) the legal description of the project acreage;

(C) the proposed maximum injection rate and pressure;

(D) the proposed injection formation or formations and approximate depth;

(E) a statement indicating that no wells will be used for injection that are closer to lease or unit boundary lines than allowed by field or general state spacing rules unless further notice is given; and

(F) the approximate maximum number of injection wells that will ultimately be utilized in the project.

(4) The applicant shall file a memorandum of notification with the register of deeds in each county where the project is located, setting out the information contained in the published notice. The applicant shall provide proof of this filing to the conservation division before the application may be approved and a permit issued.

(5) Notice of application for additional injection wells added to a project shall be published in at least one issue of the official county newspaper of the county or counties in which the well is located, if the well exceeds the required distance from lease or unit boundary lines as provided by field or general state spacing rules.

(6) The applicant shall provide notice of application for each additional injection well that is located less than the required distance from the lease or unit boundary lines, under the field or general state spacing rules. A copy of the application shall be mailed to each offsetting operator or unleased mineral owner whose acreage is adjacent to any additional injection well that does not exceed the required distance from the lease or unit boundary lines under the field or general state spacing rule. Notice of the application shall be published in at least one issue of the official county newspaper of the county in which the well is located.

(7) The publication notice provided for in paragraphs (b)(5) and (6) of this regulation shall contain the following information:

(A) The name of the operator;

(B) the location of proposed injection wells;

(C) the proposed maximum injection rate;

(D) the proposed maximum injection pressure; and

(E) the proposed injection formations and approximate depth.

(8) Each application for any significant modifications to the injection permit, including increasing pressure or rate and changing or adding injection formations, shall require the notice set out in paragraphs (b)(2), (3), and (4) of this regulation.

(c) Objection to application. Objections or complaints shall be filed within 15 days after the notice is published. The complaint or objection shall conform to the requirements of K.A.R. 82-3-135b and shall state the reasons why the proposed plan, as contained in the application, may cause damage to oil, gas, or fresh and usable water resources. (Authorized by K.S.A. 55-151, 55-152, 55-901, as amended by L. 2001, ch. 5, sec. 198; implementing K.S.A. 55-151, K.S.A. 55-152; effective, T-83-44, Dec. 8, 1982; effective May 1, 1983; amended May 8, 1989; amended April 5, 2002.)

82-3-403. Permitting factors; application approval.

(a) Permitting factors. When a permit authorizing injection is issued, the following factors shall be considered by the conservation division:

(1) Maximum injection rate;

(2) maximum surface pressure, formation pressure, pressure at the formation face, or all of the above;

(3) the type of injection fluid and the rock characteristics of the injection zone and the overlying strata;

(4) the adequacy and thickness of the confining zone or zones between the injection interval and the base of the lowest fresh and usable water; and

(5) the construction of all oil and gas wells within a ¼-mile radius of the proposed injection well, including all abandoned, plugged, producing, and other injection wells, to ensure that fluids introduced into the proposed injection zone will be confined to that zone. If deemed necessary by the conservation division to ensure the protection of fresh and usable water, this radius may be determined pursuant to 40 C.F.R. 146.6(a)(2), as published July 1, 2000, which is hereby adopted by reference.

(b) Conditions for simultaneous injection. Simultaneous injection may be permitted if, in addition to the requirements of subsection (a) above, all of the following conditions are met:

(1) Injection will not adversely affect offsetting production or endanger fresh and usable groundwater.

(2) Injection pressure is limited to less than the local injection formation fracture gradient.

(3) The injection well is continuously cemented across the injection and producing intervals.

(4) The well demonstrates mechanical integrity.

(c) Protection of fresh and usable water. Before any formations may be approved for use, determinations shall be made that these formations are separated from fresh and usable water formations by impervious beds to give adequate protection to the fresh and usable water formations.

(d) In reviewing applications for injection wells, the protection of hydrocarbons and water resources and oil and gas advisory committee recommendations concerning safe depths for injection for all producing areas in the state shall be considered by the conservation division.

(e) Minimum depth for injection. If no additional information, including well logs, formation tests, water

(continued)

quality data, and water well data, is made available by the operator, table II, "established minimum depths for disposal wells," revised August 1, 1987, and hereby adopted by reference, shall be used by the conservation division in determining the minimum depth for the injection of saltwater.

(f) For all injection well applications that require well-head pressure to inject fluids, filed on and after December 8, 1982, the operator shall inject the fluids through tubing under a packer set immediately above the uppermost perforation or open-hole zone, except as specified in K.A.R. 82-3-406. A packer run on the tubing shall be set in casing opposite a cemented interval at a point immediately above the uppermost perforation or open-hole interval.

(g) Design approval. If the application requests design approval, approval of the design of the proposed well may be obtained before actual construction of the well.

(1) Each applicant shall be notified by the conservation division of its approval of the well design if both of the following conditions are met:

(A) All requirements set forth in K.A.R. 82-3-401(a), K.A.R. 82-3-402(a), and K.A.R. 82-3-403(a) have been met.

(B) The design of the proposed well will protect fresh and usable water.

(2) Upon completion of each well, the applicant shall submit a copy of the well completion report, on the form furnished by the commission, to the conservation division. The application for the injection of fluid into the proposed well for injection purposes shall be approved, if there are not significant differences between actual construction and the approved designed construction of the proposed well and if the mechanical integrity of the well has been tested according to K.A.R. 82-3-407.

(h) Emergency authority. Emergency authority to inject or dispose of fluids at an alternate location, if a facility is shut in for maintenance, testing, or repairs, or by order of the commission, may be granted by the conservation division. (Authorized by K.S.A. 55-151, 55-152, 55-605, 55-901; implementing K.S.A. 55-151, 55-605, 55-901, 55-1003; effective, T-83-44, Dec. 8, 1982; effective May 1, 1983; amended May 1, 1984; amended April 23, 1990; amended April 5, 2002.)

82-3-404. Notice of commencement and discontinuance of injection operations; cessation of production from dually completed well; penalty. (a) Immediately upon the commencement of injection operations, the applicant shall notify the conservation division of the date of commencement.

(b) Within 90 days after permanent discontinuance of injection operations, the operator of the project shall notify the conservation division of the date of the discontinuance and the reasons for discontinuance, and shall follow the provisions of K.A.R. 82-3-111.

(c) Cessation of production from dually completed well. Upon cessation of commercial production from the producing interval of a dually completed injection well, the injection authority shall be canceled by the conservation division unless the operator, through the filing of a modification, shows all of the following:

(1) The perforations at the producing interval are sealed.

(2) The casing above the injection packer has mechanical integrity according to K.A.R. 82-3-407.

(3) The tubing-casing annulus is filled with a corrosion-inhibiting fluid.

(d) The failure to notify the commission of commencement or permanent discontinuance of injection operations shall be punishable by a \$100 penalty. (Authorized by K.S.A. 55-152, 55-156, 55-157, K.S.A. 2000 Supp. 55-164, as amended by L. 2001, ch. 5, sec. 191, and K.S.A. 55-901, as amended by L. 2001, ch. 5, sec. 198; implementing K.S.A. 55-156, 55-157, K.S.A. 2000 Supp. 55-164, as amended by L. 2001, ch. 5, sec. 191, and K.S.A. 55-1003, as amended by L. 1986, ch. 201, Sec. 2; effective, T-83-44, Dec. 8, 1982; effective May 1, 1983; amended May 1, 1984; amended, T-87-46, Dec. 19, 1987; amended May 1, 1987; amended April 23, 1990; amended April 5, 2002.)

82-3-405. Casing and cement. Injection wells shall be cased and the casing cemented so that damage will not be caused to hydrocarbon sources or fresh and usable water resources. Steel surface casing shall be set and cemented in the following manner:

(a) In existing wells to be converted to injection use, all additional casing that is next to the bore hole shall be cemented by circulating cement to the surface from a point at least 50 feet below the base of the lowest known fresh and usable water. If cement fails to circulate to the surface, staged squeezes shall be required to protect and isolate fresh and usable water resources. Cementing shall be completed with a Portland cement blend, except as provided by K.A.R. 82-3-106(d)(3).

(b) The operator shall notify the appropriate district office before the cementing of the additional casing. A backside squeeze, the uncontrolled placement of cement in the annular space between the surface casing and the production casing from the surface down, shall be permitted only upon request to the appropriate district office. Each request shall be granted only upon the approval of the cement evaluation method to be utilized and submitted as verification of cement placement.

(c) An exception to the cementing requirements of subsection (a) may be granted by the director or the director's designee. A written request for exception shall be submitted to the conservation division and shall include cement evaluation logs demonstrating that the proposed alternate process adequately protects fresh and usable water resources. The alternate process shall be proposed to be performed between the casing and the borehole at a point at least 50 feet below the base of the lowest known fresh and usable water resources to ensure protection of fresh and usable water resources.

(d) If the injection zone lies stratigraphically above the Wellington salt and the wellbore has penetrated into or through the salt, a cement plug of at least 50 feet in length shall be placed in the borehole or casing below the injection zone and above the salt. However, if the plug is inside the casing, the annular space between the casing and the well bore shall be protected with cement through the same interval. (Authorized by K.S.A. 55-152, 55-157, and 55-901, as amended by L. 2001, ch. 5, sec. 198; implementing K.S.A. 55-1003, 55-152, and 55-157; effective, T-83-44, Dec. 8, 1982; effective May 1, 1983; amended May

1, 1984; amended May 1, 1985; amended May 1, 1987; amended May 8, 1989; amended April 23, 1990; amended April 5, 2002.)

82-3-406. Injection well tubing and packer requirements. (a) Each well permitted after December 8, 1982 shall meet one of the following requirements:

(1) The well shall be equipped to inject through tubing below a packer.

(2) A packer run on the tubing shall be set in casing opposite a cemented interval at a point immediately above the uppermost perforation or open-hole interval. The annulus between the tubing and the casings shall be filled with a corrosion-inhibiting fluid or hydrocarbon liquid.

(3) With the prior approval of the conservation division, packerless or tubingless completions may be authorized under the provisions of subsection (b) or (c) of this regulation.

(b) Injection through tubing without a packer may be authorized by the conservation division if the following requirements are met:

(1) Surface wellhead injection pressure shall not exceed zero psig.

(2) The tubing shall be run to a depth equal to or below the uppermost perforation or open hole of the injection interval.

(3) The annular space between the tubing and the casing shall be filled with a corrosion-inhibiting fluid or hydrocarbon liquid that has a specific gravity less than 1.00 and that is displaced and maintained at a point within 50 feet of the bottom of the tubing.

(4) Each wellhead shall be equipped with a pressure observation valve on the tubing and the tubing-casing annulus.

(5) A positive annulus pressure shall be maintained and monitored.

(6) Annulus pressure and injection surface pressure shall be monitored and recorded monthly and kept by the operator for five years.

(7) All pressure readings recorded shall be taken during actual injection operations and under static conditions.

(c) Injection without tubing may be authorized by the conservation division if all five of the following requirements are continuously met during the life of the well:

(1) The casing shall be cemented continuously from setting depth to surface.

(2) Surface wellhead injection pressure shall be recorded monthly and kept by the operator for five years.

(3) All pressure readings recorded shall be taken during actual injection operations.

(4) Mechanical integrity tests shall be performed at least every five years by running a retrievable plug to a depth of no more than 50 feet above the uppermost perforation or open hole of the injection zone or by another method approved by the conservation division.

(5) It shall be the sole responsibility of the operator of the tubingless completion to maintain the well so that the mechanical integrity tests can be performed as specified, or the well shall be immediately plugged and abandoned by displacing cement from the bottom of the well to the

surface. (Authorized by K.S.A. 55-152, 55-901, as amended by L. 2001, ch. 5, sec. 198; implementing K.S.A. 55-152, 55-901, as amended by L. 2001, ch. 5, sec. 198, 55-1003; effective, T-83-44, Dec. 8, 1982; effective May 1, 1983; amended May 1, 1984; amended, T-87-46, Dec. 19, 1986; amended May 1, 1987; amended April 23, 1990; amended April 5, 2002.)

82-3-407. Mechanical integrity requirements; penalty. (a) Each injection well shall be completed, equipped, operated, and maintained in a manner that will prevent pollution of fresh and usable water, prevent damage to sources of oil or gas, and confine fluids to the interval or intervals approved for injection.

An injection well shall be considered to have mechanical integrity if there are no significant leaks in the tubing, casing, or packer and no fluid movement into fresh or usable water. Mechanical integrity shall be established on each well by one of the following:

(1) Pressure tests. The annulus above the packer, or the injection casing in wells not equipped with a packer, shall be pressure tested at least once every five years under the supervision of a representative of the operator. The date for this test shall be mutually agreed upon by the operator's representative and a representative of the commission. Test results shall be verified by the operator's representative. A minimum of 25 percent of the tests conducted each year shall be witnessed by a representative of the commission. The test shall be conducted in accordance with subsection (b). Injection wells within tubing shall be tested in accordance with K.A.R. 82-3-406.

(2) Alternate tests. Alternative test methods approved by the commission, including radioactive tracer surveys and temperature surveys, may be used to establish mechanical integrity if conditions are appropriate. The test shall be run at least once every five years under the supervision of a representative of the operator. The date for this test shall be mutually agreed upon by the operator's representative and a representative of the commission. Test results shall be verified by the operator's representative and shall be interrupted as specified in commission-approved procedures. A minimum of 25 percent of the tests conducted each year shall be witnessed by a representative of the commission.

(3) Monitoring. Once a month, the operator shall monitor and record, during actual injection, the pressure or fluid level in the annulus and any other information deemed necessary by the conservation division. An annual report of information logged shall be submitted to the conservation division in accordance with K.A.R. 82-3-409.

(4) Dually completed injection wells. For dually completed injection wells, the testing requirements shall include the following:

(A) The operator shall determine the fluid level in the annular space in the production casing and the fluid level within the injection tubing. All fluid level determinations shall be performed under static well conditions. The minimum shut-in time shall be 24 hours before determining the fluid level. Fluid level tapes shall be submitted as verification of measurements.

(continued)

(B) The operator shall measure and report the oil-to-water ratio of produced fluids from the well. In the case of gas wells, the operator shall report changes in monthly production volumes.

(C) The fluid level determination and oil-to-water ratios shall be performed once every three months during the first year of the well's five-year test cycle, and then once a year for the next four years. The repeat test cycle of quarterly reports for one year and annual reports for four years shall begin on the five-year anniversary of the first fluid level test.

(b) Before operating a well drilled or converted to injection after December 8, 1982, an operator choosing to use a pressure test for the initial mechanical integrity test shall perform the test in the following manner:

(1) Wells constructed with tubing and a packer shall be pressure tested with the packer in place. A fluid pressure of 300 psig shall be applied. If the operator requests a pressure in excess of 300 psig on the injection application, a test pressure up to the requested pressure may be required. The duration of the test shall be at least 30 minutes. Maintenance of the fluid pressure during the test shall provide assurance of the integrity of the injection casing.

(2) For wells constructed with tubing and no packer, a retrievable plug or packer shall be set immediately above the uppermost perforation or open hole zone. A fluid pressure of 300 psig shall be applied. The duration of the test shall be at least 30 minutes. Maintenance of the fluid pressure during the test shall provide assurance of the integrity of the injection casing.

(3) For wells constructed with tubing and no packer, a method of pressure testing known as fluid depression may be conducted with prior approval and under guidelines established by the appropriate district office. The fluid in the well shall be depressed with gas pressure to a point in the wellbore immediately above the perforations or open hole interval. The minimum calculated pressure required to depress the fluid in the wellbore shall be no less than 100 psig.

(4) For simultaneous injection wells, the following requirements shall be met:

(A) Mechanical integrity shall initially be demonstrated at a pressure of 300 psig before installation of downhole simultaneous injection equipment and shall be demonstrated in the same manner each time that the downhole simultaneous injection equipment is removed; and

(B) after the initial mechanical integrity test, the operator shall monitor the well once each month and record the oil-to-water or gas-to-water ratio. The operator shall report the oil-to-water or gas-to-water ratio to the commission within 30 days for the first month and then annually at the time of filing the annual report according to K.A.R. 82-3-409. The operator shall immediately report an oil-to-water or gas-to-water ratio at or in excess of 10% over the prior month's ratio to the appropriate district office.

(5) In lieu of paragraph (b)(3), the casing may be tested before perforating, upon approval of the conservation division. A fluid pressure of 300 psig shall be applied. If the operator requests a pressure in excess of 300 psig on the

injection application, a test pressure up to the requested pressure may be required. The duration of the test shall be at least 30 minutes. Maintenance of the fluid pressure during the test shall provide assurance of the integrity of the injection casing.

(c) The operator of any well failing to demonstrate mechanical integrity by one of the above methods shall have no more than 90 days from the date of initial failure in which to perform one of the following:

(1) Repair and retest the well to demonstrate mechanical integrity;

(2) plug the well; or

(3) isolate the leak or leaks to demonstrate that the well will not pose a threat to fresh or usable water resources or endanger correlative rights.

(d) Mechanical failures or other conditions indicating that a well is not, or may not be, directing the injected fluid into the permitted or authorized zone shall be cause to shut in the well. The operator shall orally notify the conservation division of any of these failures or conditions within 24 hours of knowledge of any failure or condition. The operator shall submit written notice of a well failure to the conservation division within five days of the occurrence together with a plan for testing and repairing the well. Results of the testing and well repair shall be reported to the conservation division, and all information shall be included in the annual monitoring report to the conservation division. Any mechanical downhole well repair performed on the well that was not previously reported shall also be included in the annual report.

(e) If the district office has approved the use of any chemical sealant or other mechanical device to isolate the leak before use, the injection pressure into the well shall not exceed the maximum mechanical integrity test pressure. Additionally, the well shall demonstrate mechanical integrity on an annual basis for the duration the well is completed in this manner.

(f) Each operator choosing a pressure mechanical integrity test on a well permitted for injection before December 8, 1982 or on a well having passed an initial pressure mechanical integrity test as specified in subsection (b) shall conduct the test in the following manner:

(1) Wells located in areas having saltwater-bearing zones with sufficient bottom-hole pressure to sustain a static fluid level at or above fresh or usable water bearing zones shall be pressure tested as specified in paragraphs (b)(1) and (2), except that the maximum required test pressure shall be limited to 300 psi.

(2) Wells located in areas without saltwater-bearing zones with sufficient bottom-hole pressure to sustain a static fluid level at or above fresh or usable water bearing zones shall be pressure tested as specified in paragraphs (b)(1) and (2), except that the maximum required test pressure shall be limited to 100 psi.

(3) For wells constructed with tubing and no packer, a method of pressure testing known as fluid depression may be conducted with prior approval and under guidelines established by the commission. The fluid in the well shall be depressed with gas pressure to a point in the wellbore immediately above the perforations or open hole interval. The minimum calculated pressure required

to depress the fluid in the wellbore shall be no less than 100 psi unless otherwise approved by the appropriate district office.

(g) No injection well shall be operated before having passed a mechanical integrity test. The operator's failure to test a well to show its mechanical integrity or to report the oil-to-water or gas-to-water ratio as required under paragraph (b)(4)(B) above shall be punishable by a \$1,000 penalty, and these wells shall be shut in until the required test has been passed or the reports have been furnished. (Authorized by K.S.A. 55-152, K.S.A. 2000 Supp. 55-164, as amended by L. 2001, ch. 5, sec. 191, K.S.A. 55-901, as amended by L. 2001, ch. 5, sec. 198; implementing K.S.A. 55-152, K.S.A. 2000 Supp. 55-164, as amended by L. 2001, ch. 5, sec. 191, K.S.A. 55-901, as amended by L. 2001, ch. 5, sec. 198, and K.S.A. 55-1003; effective, T-83-44, Dec. 8, 1982; effective May 1, 1983; amended, T-87-46, Dec. 19, 1986; amended May 1, 1987; amended May 8, 1989; amended April 23, 1990; amended April 5, 2002.)

82-3-408. Duration of injection well permits; modification penalty. (a) Permits authorizing injection into wells shall remain valid for the life of the well, unless revoked by the commission for just cause.

(b) Modifications of any injection well permit may be made only upon application to the conservation division. Each application shall be submitted on the form furnished by the conservation division. The applicant shall give notice of the application to modify according to the provisions of K.A.R. 82-3-135a(c).

(c) An operator shall not be required to file an application to modify any injection well permit but shall file with the conservation division a notice of modification on a form furnished by the conservation division for permit modifications for one or more of the following purposes:

- (1) The operator seeks to decrease the maximum injection pressure.
- (2) The operator seeks to decrease the maximum injection rate.
- (3) The operator seeks to add or delete leases disposing into the well but will not exceed the maximum authorized injection rate and pressure.

(d) The failure to obtain conservation division approval of any modification to an existing injection well, other than the modifications designated in subsection (c), before resuming injection operations, or the failure to notify the conservation division under subsection (d) shall be punishable by a \$1,000 penalty. (Authorized by K.S.A. 55-152, K.S.A. 2000 Supp. 55-164, as amended by L. 2001, ch. 5, sec. 191, K.S.A. 55-901, as amended by L. 2001, ch. 5, sec. 198; implementing K.S.A. 55-1003, K.S.A. 55-152, K.S.A. 2000 Supp. 55-164, as amended by L. 2001, ch. 5, sec. 191, and K.S.A. 55-901, as amended by L. 2001, ch. 5, sec. 198; effective, T-83-44, Dec. 8, 1982; effective May 1, 1983; amended May 1, 1985; amended, T-87-46, Dec. 19, 1986; amended May 1, 1987; amended May 8, 1989; amended April 23, 1990; amended March 19, 1999; amended April 5, 2002.)

82-3-409. Record retention; annual report; penalty. (a) Each operator of an injection well shall perform the following:

(1) Keep current, accurate records of the amount and kind of fluid injected into the injection well; and

(2) preserve the records required in paragraph (a)(1) above for five years.

(b) Each operator of an injection well shall submit a report to the conservation division, on a form required by the commission, showing for the previous calendar year the following information:

- (1) The monthly average wellhead pressure;
- (2) the maximum wellhead pressure;
- (3) the amount and kind of fluid injected into each well; and
- (4) any other performance information that may be required by the conservation division.

The report shall be submitted on or before March 1 of the following year.

(c) The failure to file or timely file an annual injection report shall be punishable by a \$100 penalty. (Authorized by and implementing K.S.A. 55-152, K.S.A. 2000 Supp. 55-164, as amended by L. 2001, ch. 5, sec. 191; effective, T-83-44, Dec. 8, 1982; effective May 1, 1983; amended May 1, 1984; amended May 8, 1989; amended April 5, 2002.)

82-3-410. Transfer of authority to inject; penalty.

(a) Authority to operate an injection well shall not be transferred from one operator to another without the approval of the conservation division. The transferring operator shall notify the conservation division in writing, on a form prescribed by the commission and in accordance with K.A.R. 82-3-136, of the intent to transfer authority to operate an injection well from one operator to another. In addition to the requirements of K.A.R. 82-3-136, the written notice shall contain the following information:

- (1) The name and address of the present operator and the operator's license number;
- (2) the name and location of the well being transferred;
- (3) the order or permit number and date of the order or permit authorizing injection;
- (4) the zone or zones of injection;
- (5) the proposed effective date of transfer;
- (6) the signature of the present operator and the date signed;
- (7) the name and address of the new operator and the operator's license number; and
- (8) the signature of the new operator and the date signed.

(b) The transferring operator may be required by the conservation division to conduct a mechanical integrity test as a condition of the transfer.

(c) Failure to notify the conservation division of a transfer in accordance with this regulation shall subject the operator to penalties under K.A.R. 82-3-136(e). (Authorized by K.S.A. 55-152, K.S.A. 2000 Supp. 55-164, as amended by L. 2001, ch. 5, sec. 191, and K.S.A. 55-901, as amended by L. 2001, ch. 5, sec. 198; implementing K.S.A. 55-152, 55-1003; effective, T-83-44, Dec. 8, 1982; effective May 1, 1983; amended May 1, 1986; amended May 1, 1987; amended April 23, 1990; amended April 5, 2002.)

82-3-411. Authorization for existing injection wells. Each injection well authorized by order of the com-

(continued)

mission on or before December 8, 1982 shall be considered an existing injection well. Injection shall be prohibited in any existing well unless the operator had filed, on or before May 1, 1983, an inventory of existing injection wells on the form prescribed by the commission. (Authorized by K.S.A. 55-152, 55-901, as amended by L. 2001, ch. 5, sec. 198; implementing K.S.A. 55-152, 55-901, as amended by L. 2001, ch. 5, sec. 198, 55-1003; effective April 5, 2002.)

82-3-412. Assessment of costs. An assessment to pay the costs incurred by the conservation division in reviewing, processing, and approving each injection application shall be payable upon the filing of an application as follows:

(a) Enhanced recovery injection wells.

(1) A fee of \$200 shall be assessed to each applicant for injection authority to cover the review only of the initial pilot well. A fee of \$100 shall be assessed on each additional well included in the initial injection application except where the well depth of each additional well is less than 1,000 feet. Each additional well having a depth of less than 1,000 feet shall be assessed a fee of \$50.

(2) A fee of \$100 for each well shall be assessed to each applicant for any modification to the initial injection well permit or permit adding an injection well or wells except where the well depth of each additional well sought to be modified in the initial order or permit is less than 1,000 feet. Each modification adding an injection well having a depth of less than 1,000 feet shall be assessed a fee of \$50 for each added well.

(3) A fee of \$100 shall be assessed to each applicant for any modification to the initial injection well order or permit seeking to make a significant change in the construction of an injection well, to add an injection well to an authorized waterflood, or to increase either the maximum injection pressure or the maximum injection rate.

(4) A fee of \$50 shall be assessed for any other modification of the initial injection order or permit. However, no fee shall be assessed for those modifications specified in K.A.R. 82-3-408(c).

(b) Injection wells.

(1) A fee of \$200 shall be assessed to each applicant for injection authority.

(2) A fee of \$100 shall be assessed to each applicant for any modification to the initial injection order or permit seeking to make a significant change in the construction of the injection well or to increase either the maximum injection pressure or the maximum injection rate.

(3) A fee of \$50 shall be assessed for any other modification to the initial injection order or permit. However, no fee shall be assessed for those modifications specified in K.A.R. 82-3-408(c).

(c) Fee nonrefundable. Once paid, each fee shall be nonrefundable. (Authorized by and implementing K.S.A. 55-152, 55-176, as amended by L. 2001, ch. 5, sec. 192, and 55-901, as amended by L. 2001, ch. 5, sec. 198; effective April 5, 2002.)

I, Ron Thornburgh, Secretary of State of the State of Kansas, do hereby certify that the following bill is a correct copy of the original enrolled bill now on file in my office.

Ron Thornburgh
Secretary of State

(Published in the Kansas Register March 21, 2002.)

Substitute for HOUSE BILL No. 2625

AN ACT concerning state representative districts; providing for the reapportionment thereof; repealing K.S.A. 4-3,601 through 4-3,728.

Be it enacted by the Legislature of the State of Kansas:

Section 1. In accordance with section 2 of article 2 of the constitution of the state of Kansas, the state of Kansas is divided into 125 single member state representative districts. Such districts are reapportioned in accordance with section 1 of article 10 of the constitution of the state of Kansas.

Order a custom-made loose-leaf binder for the Kansas Register!

Custom-made binders are available to attractively hold up to a year's worth of your copies of the Kansas Register for permanent use. The high quality, durable casebound swinge-hinge binders are manufactured by ABZ Binder. (A swinge-hinge binder has more capacity and allows for easier interfiling than standard ring binders.) The three-inch binder features dark blue supported vinyl covering and gold imprinting, with a label holder on the spine.

\$15 each, includes shipping and handling.

(Kansas residents must include an additional \$1.02 state and local sales tax.)
