Governmental Ethics Commission

Opinion No. 2002-09

Written April 18, 2002, to Kelly Levi, Campaign Manager, Stovall/Glasscock Republican Leadership 2002, Topeka.

This opinion is in response to your letter of April 15, 2002, in which you request an opinion from the Kansas Governmental Ethics Commission concerning the Campaign Finance Act (K.S.A. 25-4142 *et seq.*). We note at the outset that the Commission's jurisdiction concerning your question is limited to the application of K.S.A. 25-4142 *et seq.* Thus, whether some other statutory system, common law theory or agency rule or regulation applies to your inquiry is not covered by this opinion.

Factual Statement

We understand that you request this opinion in your capacity as Campaign Manager for the Stovall/Glasscock Republican Leadership 2002 campaign (S/G Campaign). You have explained that in July of 2001, Kent Glasscock (Glasscock) announced his candidacy for Governor, appointed a treasurer, and transferred the funds remaining in his Glasscock for State Representative campaign account into his new Glasscock for Governor campaign account.

In November of 2001, Carla Stovall (Stovall) and Glasscock announced their candidacy for the offices of Governor and Lieutenant Governor respectively. At this time, Stovall transferred the \$4,184.06 in campaign funds remaining in her Stovall for Attorney General campaign account to the S/G Campaign account and Glasscock transferred the \$129,737.74 remaining in his Glasscock for Governor account to the S/G Campaign account.

On April 15, 2002, Stovall announced her intent to withdraw as a Gubernatorial candidate.

Question

May the campaign funds contributed to the Stovall/Glasscock for Governor campaign be used in any subsequent Glasscock for Governor campaign?

Opinion

The Kansas statutes establish that the candidates for Governor and Lieutenant Governor are to be nominated and elected jointly. (K.S.A. 25-4003). In addition, K.S.A. 25-4144 provides that the candidate for Governor shall

carry out the requirements and responsibilities of the candidate campaign under the Campaign Finance Act, for the "pair of candidates." The Commission notes that the Kansas Campaign Finance Act contemplates that the candidates for Governor and Lieutenant Governor are in fact separate candidates running a joint campaign. They are not considered a single candidate.

K.A.R. 19-22-1 discusses the transfer of funds from one campaign account to another. It states in pertinent part "... the carryover of funds or inventory by a candidate, [or] candidate committee ... or the transfer thereof to a bona fide successor committee or candidacy does not constitute a contribution."

Pursuant to this regulation and previous opinions of this Commission (see Commission opinions 1997-03, 1997-16), it is clear that candidates may transfer campaign funds to a bona fide successor committee or candidacy without consideration of the campaign contribution limits. Therefore, a candidate for Governor or a candidate for Lieutenant Governor may transfer their share of the joint campaign funds to their bona-fide successor campaign.

In determining their proportionate share, the Commission now determines that the duty is upon the treasurer (see Commission opinion 1993-40) to make a good faith estimate of what portion of the campaign funds belong to each candidate. For guidance, the Commission notes that this determination could be based upon the percentage of the amount brought to the campaign by each party, a percentage based upon the amount of campaigning each of the two parties did, a classification of which contributions were intended for each candidate, or on any other reasonable basis upon which the treasurer can discern what portion of the money belongs to each of the candidates. It is possible that each candidate could get one-half of the money if the treasurer objectively and in good faith believed that the contributions were intended to equally support both candidates, or that a combination of these rationales could be applied.

It should be noted however, that in most situations, one candidate could not take all of the money even if the two candidates were in agreement. K.S.A. 25-4157a(c) prohibits one candidate from giving contributions to another candidate. It states in pertinent part: "No candidate or candidate committee shall accept from any other candidate or candidate committee for any candidate for local, state or national office, any moneys received by such candidate or candidate committee as a campaign contribution."

Therefore, when one member of the Governor/Lieutenant Governor team leaves the campaign, the treasurer must determine the proportionate share of the campaign funds to which each candidate is entitled. If one of the candidates does not wish to transfer this money to a successor campaign account, he or she must follow the prescriptions in K.S.A. 25-4157a(d) with regard to the disposal of campaign funds upon the termination of a campaign.

Department of Health
and EnvironmentNotice of Hearing on Proposed
Administrative Regulations

A public hearing will be conducted at 1:30 p.m. Wednesday, July 10, in the Azure Conference Room on the fourth floor of the Curtis State Office Building, 1000 S.W. Jackson, Topeka, to consider the adoption of amended hazardous waste management regulations. The regulations are proposed for adoption on a permanent basis. A summary of the proposed regulations follows.

K.A.R. 28-31-1. General provisions. This regulation is proposed to be amended to include the adoption of federal hazardous waste regulations from July 1, 1996 to July 1, 2000, and federal transportation regulations from October 1, 1996 to October 1, 2000. This adoption of the federal regulations will replace and update the adoptions that were previously included in many of the separate Kansas regulations in this package. The following language is proposed for addition to the regulation:

"environmental appeals board" shall be replaced with "secretary,"

and

"generators of more than 100 kg but less than 1,000 kg of hazardous waste in a calendar month" shall be replaced with "generators of 25 kg or more but less than 1,000 kg of hazardous waste in a calendar month."

Other minor changes are proposed to improve the clarity and organization of the regulation.

K.A.R. 28-31-2. Definitions. This regulation is proposed to be amended to reference rather than adopt the

(continued)

federal regulations contained in 40 CFR Part 260, subpart B. Other minor changes are proposed to improve the clarity and organization of the regulation.

K.A.R. 28-31-3. Identification and listing of hazardous waste. This regulation is proposed to be amended to reference rather than adopt the federal regulations contained in 40 CFR Part 261. Other minor changes are proposed to improve the clarity and organization of the regulation.

K.A.R. 28-31-4. Standards for generators of hazardous waste. This regulation is proposed to reference rather than adopt the federal regulations. Subsections (g) and (h) have been amended to more closely match the federal requirements of 40 CFR 262.34 (accumulation time). Other minor changes also are proposed to improve the clarity and organization of the regulation.

K.A.R. 28-31-6. Standards for transporters of hazardous waste. This regulation is proposed to be amended to reference rather than adopt the federal regulations contained in 40 CFR Part 263. Other minor changes also are proposed to improve the clarity and organization of the regulation.

K.A.R. 28-31-8. Standards for hazardous waste storage, treatment, and disposal facilities. This regulation is proposed to be amended to reference rather than adopt the federal regulations contained in 40 CFR Parts 264 and 265. Subsection (f) is proposed to be amended by the addition of specific language concerning environmental sampling. Other minor changes are proposed to improve the clarity and organization of the regulation.

K.A.R. 28-31-8b. Standards for the management of hazardous waste and specific types of hazardous waste management facilities. This regulation is proposed to be amended to reference rather than adopt the federal regulations contained in 40 CFR Part 266 and by describing the types of facilities covered by the regulation.

K.A.R. 28-31-9. Hazardous waste storage, treatment and disposal facility permits. This regulation is proposed to be amended to reference rather than adopt the federal regulations contained in 40 CFR Part 270 and Part 124.

K.A.R. 28-31-10. Hazardous waste monitoring fees. This regulation is proposed to be amended by increasing the annual monitoring fee for hazardous waste transporters from \$250 to \$300. A new monitoring fee of \$100 per year is proposed for Kansas generators. Other minor changes are proposed to improve the clarity and organization of the regulation.

K.A.R. 28-31-10a. Off-site hazardous waste treatment fees. This regulation is proposed to be amended to correct a citation for K.S.A. 65-3431. Other minor changes are proposed to improve the clarity and organization of the regulation.

K.A.R. 28-31-11. Hazardous waste perpetual care trust fund fees. This regulation is proposed to be revoked.

K.A.R. 28-31-14. Land disposal restrictions. This regulation is proposed to be amended to reference rather than adopt the federal regulations contained in 40 CFR Part 268.

K.A.R. 28-31-15. Universal waste. This regulation is proposed to be amended to reference rather than adopt the federal regulations contained in 40 CFR part 273.

K.A.R. 28-31-16. Used oil. This regulation is proposed to be amended to reference rather than adopt the federal regulations contained in 40 CFR Part 279. A new subsection (e) is proposed to be added to this regulation. The new subsection would prohibit the disposal of used oil by discharge into any sewer, storm drainage system, surface or groundwater, or by deposit on or under land. Other minor changes are proposed to improve the clarity and organization of the regulation.

The adoption of the federal regulations will not impose a cost on the regulated community since the federal regulations must already be complied with. Other changes addressing administrative procedures and clarification of existing regulations will have no economic impact on the regulated community.

Raising the hazardous waste monitoring fee for hazardous waste transporters from \$250 to \$300 will result in a \$50 per year increase for approximately 225 transporters for a total increase in revenues from transporters of $(\$50/\text{transporter}/\text{year}) \times (225 \text{ transporters}) = \$11,250/\text{year}$.

Imposing the new hazardous waste monitoring fee on all Kansas generators will result in a \$100 per year increase in cost for each Kansas generator. There are approximately 4,000 Kansas generators listed in the RCRA information database. Of these 4,000, a number are no longer Kansas generators. It will be a year or two before a more reliable number of Kansas generators will be known. The high estimate of total revenue that could be received is \$400,000/year. The actual number of Kansas generators is probably closer to 2,500, so it is unlikely that more than \$300,000 per year will be collected from Kansas generators.

The time period between publication of this notice and the scheduled hearing serves as the required public comment period of at least 60 days for the purpose of receiving written public comments on the proposed regulation. All interested parties may submit written comments prior to the hearing to George McCaskill, Department of Health and Environment, Bureau of Waste Management, 1000 S.W. Jackson, Topeka, 66612-1366. All interested parties will be given a reasonable opportunity to present their views orally on the adoption of the proposed regulations during the hearing. In order to give all parties an opportunity to present their views, it may be necessary to request that each participant limit any oral presentation to five minutes.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulations and regulatory impact statements in an accessible format. Requests for accommodation should be made at least five working days in advance of the hearing by contacting George McCaskill at (785) 296-1606, fax (785) 296-8909. **Notice of Hearing on Proposed
Administrative Regulations**

A public hearing will be conducted at 1:30 p.m. Monday, July 8, at the Department of Agriculture, 109 S.W. 9th, fourth floor, Topeka, to consider the adoption of new regulations of the chief engineer, Division of Water Resources, Kansas Department of Agriculture.

This 60-day notice of the public hearing shall constitute a public comment period for the purpose of receiving written public comments on the proposed rules and regulations. All interested parties may submit written comments prior to the hearing to the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, 109 S.W. 9th, 2nd Floor, Topeka, 66612-1283. All interested parties will be given a reasonable opportunity to present their views orally on the adoption of the proposed regulations during the hearing. In order to give all parties an opportunity to present their views, it may be necessary to limit any oral presentation to five minutes.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulations and economic impact statement in an accessible format. Requests for accommodation should be made at least five working days in advance of the hearing by contacting Denise Rolfs at (785) 296-3710.

These regulations are proposed for adoption on a permanent basis. A brief summary of these regulations and the economic impact statement is set forth below. For a complete understanding of each regulation, it is necessary to review the full text.

K.A.R. 5-15-1 through K.A.R. 5-15-4, minimum desirable streamflow. K.A.R. 5-15-1 and K.A.R. 5-15-4 provide that if the streamflow at an MDS gage falls below the MDS streamflow trigger values for a period of seven consecutive days, then administration of groundwater and surface water rights junior to April 12, 1984, may take place. They also set forth procedures for notification of water right owners at times of MDS administration. K.A.R. 5-15-2 provides for MDS agreements that will allow diversion of water by junior water rights under certain circumstances during MDS administration. K.A.R. 5-15-3 provides that if streamflows have recovered for a period of 14 consecutive days, or other criteria are met, MDS administration may cease.

These regulations will reduce the administrative costs of administering MDS flows and provide an economic benefit and an incentive to conserve water for the water right owners by giving them the option of diverting water under some circumstances while MDS administration is taking place, while providing the same overall protection of MDS flows during the period of administration.

Copies of these proposed rules and regulations and their economic impact statement may be obtained by contacting Denise Rolfs at the address and phone number given above. The full text of the hearing notice (which includes a brief summary of the regulations and the ec-

onomic impact statement), the revised draft regulations and the economic impact statement can be found on the Department of Agriculture's Web site at <http://www.accesskansas.org/kda> (click on the button on this page entitled "DWR proposed regulations").

At this time, the consulting firms can more thoroughly discuss their experience related to the type of project at hand and will be expected to discuss, in some detail, their approach to this project and the personnel to be assigned to the project. Firms not selected to be short-listed will be notified by letter.

The Consultant Negotiating Committee, appointed by the Secretary of Transportation, will conduct the discussions with the firms invited to the individual interview conferences. The committee will select the firm to perform the professional services required for completing the advertised project. After the selection of this firm, the remaining firms will be notified by letter of the outcome.

U.S. 54 Corridor.

U.S. 54, from west of Pratt east to the existing four-lane section east of Kingman

The scope of services is to provide for the preliminary engineering, environmental documentation, public involvement, access concept and a corridor management plan for the corridor. The actual design will be developed in several segments.

K-8243-01 is from west of Pratt, east through the proposed interchange with existing U.S. 54 east of Pratt. The design will be to freeway standards. Plans will be developed through the right-of-way acquisition stage. Plan completion is scheduled for fiscal year 2004.

K-8243-02 is from the proposed interchange with existing U.S. 54 east of Pratt east to the Pratt-Kingman county line. The design will be a four-lane upgradeable expressway. Construction plans will be developed for the entire project length; however, actual construction will be limited within funding constraints. Construction is scheduled for fiscal year 2009.

K-8244-01 is from the Pratt-Kingman county line, east 5.8 miles to west of the Byron Walker Wildlife Area. The design will be a four-lane upgradeable expressway. Construction plans will be developed for the entire project length. Construction is scheduled for fiscal year 2008.

K-8244-02 is from west of the Byron Walker Wildlife Area, east to west of the west junction of K-14. The design will be a four-lane upgradeable expressway, except through the Byron Walker Wildlife Area. Plans will be developed through the right-of-way acquisition stage. Plan completion is scheduled for 2004.

K-8245-01 is from west of the west junction of K-14, east to the existing four-lane section east of Kingman. The design will be a four-lane upgradeable expressway. Plans will be developed through the right-of-way acquisition stage. Plan completion is scheduled for 2004.

KDOT will provide all required surveys and geotechnical work for the corridor. The selected consultant will be required to subcontract a minimum of 30 percent of this project.

KDOT recently completed the U.S.54/U.S. 400 Location Design Concept Study from Mullinville to Kingman. A copy of this report is available upon request.

It is KDOT's policy to use the following criteria as the basis for selection of the consulting engineering firms:

- Size and professional qualifications;
- Experience of staff;
- Location of firm with respect to proposed project;
- Work load of firm; and
- Firm's performance record.

If in a management unit there are an unlimited number of resident permits that may be used to take only antlerless deer, the secretary, in the secretary's discretion and in accordance with rules and regulations, may authorize the issuance of an unlimited number of nonresident permits that may be used to take only antlerless deer.

(o) The secretary shall issue nonresident deer permits pursuant to subsection (m) to landowners and tenants applying for such permits, except that the total number of nonresident deer permits of each type specified by rules and regulations that may be issued to landowners and tenants for a deer season in a management unit shall not exceed 50% of the total number of nonresident deer permits of such a type authorized for

such season in such management unit. A nonresident deer permit obtained by a landowner or tenant shall retain the permit's original designation, except that such permit shall be transferable, with or without consideration, to any resident or nonresident through the secretary at the request of the landowner or tenant. A landowner or tenant purchasing a nonresident deer permit pursuant to this subsection shall pay the established fee for a nonresident deer permit.

The provisions of this subsection shall expire on June 30, 2004.

(p) No big game permit issued to a person under 14 years of age shall be valid until such person reaches 14 years of age, except that a person under 14 years of age may be issued a wild turkey permit, and a person who is 12 years or 13 years of age may be issued a permit for a big game species other than wild turkey. Such permits shall be valid only while the person is hunting under the immediate supervision of an adult 21 years of age or older, to: (1) Take big game using a firearm; or (2) take big game using a bow, if the person submits to the secretary evidence satisfactory to the secretary of completion of a bow hunting safety education course.

(q) A big game permit shall state the species, number and sex of the big game which may be killed by the permittee. The secretary may furnish an informational card with any big game permit and, at the conclusion of the open season, each permittee receiving such card shall return the card to the department, giving such information as is called for on the card.

(r) The permittee shall permanently affix the game tag to the carcass of any big game immediately after killing and thereafter, if required by rules and regulations, the permittee shall immediately take such killed game to a check station as required in the rules and regulations, where a check station tag shall be affixed to the game carcass if the kill is legal. The tags shall remain affixed until the carcass is consumed or processed for storage.

(s) The provisions of this section do not apply to big game animals sold in surplus property disposal sales of department exhibit herds or big game animals legally taken outside this state.
