Monitoring for temperature, chlorides, total phosphorus, Kjeldahl Nitrogen, Nitrate, Nitrite, stream flow and effluent flow will also be required. Chronic whole effluent toxicity testing will be required annually. A priority pollutant scan will be required to be conducted once between January and June 2007. The permit requirements are pursuant to the Kansas Surface Water Quality Standards, K.A.R. 28-16-28(b-f), and Federal Surface Water Criteria and are water quality based.

Persons wishing to comment on or object to the draft permits and/or permit applications must submit their comments in writing to the Kansas Department of Health and Environment if they wish to have the comments or

objections considered in the decision making process. Comments or objections should be submitted to the attention of Glenda Newquist for agricultural permits or applications, or to the permit clerk for all other permits, at the Kansas Department of Health and Environment, Division of Environment, Bureau of Water, 1000 S.W. Jackson, Suite 420, Topeka, 66612-1367.

All comments regarding the draft permit or application notice postmarked or received on or before August 17 will be considered in the formulation of final determinations regarding this public notice. Please refer to the appropriate Kansas permit number (KS-AG-02-163/170, KS-02-113/115) and name of applicant/application as listed when preparing comments.

If no objections are received during the public notice period regarding any proposed permit, the secretary of Health and Environment will issue the final determination regarding issuance or denial of the proposed permit. If response to this notice indicates significant public interest, a public hearing may be held in conformance with K.A.R. 28-16-61 (28-46-21 for UIC). Media coordination for publication and/or announcement of the public notice or public hearing is handled by the Kansas Department of Health and Environment.

For agricultural permits and applications a copy of the permit application, supporting documentation, and a KDHE developed fact sheet, if appropriate, is available for anyone to review at the appropriate district office.

Request for Comments

The Kansas Department of Health and Environment has prepared a draft combined Kansas Water Pollution Control general permit and National Pollutant Discharge Elimination System general permit for the discharge of hydrostatic test water from new pipelines and storage tanks, and/or existing pipelines and storage tanks exposed to crude oil and refined petroleum products or natural/liquified petroleum gases. This permit, when approved, will replace the current general permit for similar discharges scheduled to expire December 31, 2002.

A general wastewater permit is provided for those entities engaged in similar activities and discharging the same types of wastewater. The wastewater from these types of activities has a low public health and environmental risk. A general permit is placed on public notice once during the life of the permit and then is made available, without further public notice, to entities for activities which meet the requirements of the permit. The permittees are also required to meet all other federal, state and local requirements.

The draft permit covers discharges of hydrostatic test water from new pipelines and storage tanks, and/or existing pipelines and storage tanks exposed to crude oil and refined petroleum products or natural/liquified petroleum gases. The draft permit does not cover hydrostatic test activities on Indian lands. To be covered under the draft permit, the permittee is required to complete and submit the Notice of Intent along the first year's permit fee of \$60.00 and receive a signed and dated permit from KDHE. The issued permit will be for the specified activity for the named permittee and the specified planned discharge locations.

The draft permit contains limits for oil and grease, pH and total suspended solids and monitoring for flow and total iron for all discharges plus chemical oxygen demand, naphthalene and benzene limits for pipelines and storage vessels exposed to petroleum products.

Copies of the Notice of Intent application, instructions, draft permit and other supporting documents may be requested by writing: Kansas Department of Health and Environment, Bureau of Water - Technical Services Section, 1000 S.W. Jackson, Suite 420, Topeka, 66612-1367.

Persons wishing to comment on the draft permit must submit written comments to the address above by August 18.

The Kansas Department of Health and Environment has prepared a draft National Pollutant Discharge Elimination System permit for the City of McPherson to discharge treated wastewater into the Little Arkansas River via Turkey Creek.

The proposed permit is based upon an average design discharge flow of 2.0 MGD into the Little Arkansas River via Turkey Creek. This wastewater treatment facility is a mechanical treatment plant consisting of aerated grit removal, three unit sequencing batch reactors, reaeration of effluent, UV disinfection, and aerobic digestion, and gravity belt thickening of the sludge. A portion of the treated wastewater is used to irrigate a park and a golf course. The facility receives domestic wastewater from residential and commercial areas and industrial wastewater from local manufacturers. The proposed permit includes limits for biochemical oxygen demand, total suspended solids, ammonia, fecal coliform, dissolved oxygen and pH. Monitoring for temperature, chlorides, total phosphorus, Kjeldahl nitrogen, nitrate, nitrite, stream flow and effluent flow will also be required. Chronic whole effluent toxicity testing will be required annually. A priority pollutant scan will be required to be conducted once between January and June 2007.

Copies of the city's application, draft permit, fact sheets and other pertinent documents may be requested by writing the Kansas Department of Health and Environment, TSS - Permit Clerk, Bureau of Water, 1000 S.W. Jackson, Suite 420, Topeka, 66612-1367. Appropriate copying charges will be assessed for each request.

Persons wishing to comment on the draft permit must submit written statements to the above address by August 18.

Notice is hereby given that the Kansas Department of Health and Environment is soliciting comments regarding a proposed air quality operating permit. Mid Continent Market Center has applied for a Class I operating permit in accordance with the provisions of K.A.R. 28-19-510 et al. The purpose of a Class I permit is to identify the sources and types of regulated air pollutants emitted from the facility; the emission limitations, standards and requirements applicable to each source; and the monitoring, record keeping and reporting requirements applicable to each source as of the effective date of permit issuance.

Mid Continent Market Center, Kansas Gas Service, P.O. Box 871, Tulsa, OK 74102-0871, owns and operates Minneola natural gas compressor station located at Section 13, Township 29 South, Range 25 West, Ford County, Kansas.

A copy of the proposed permit, permit application, all supporting documentation, and all information relied upon during the permit application review process are available for a 30-day public review during normal business hours at the KDHE, Bureau of Air and Radiation, 1000 S.W. Jackson, Suite 310, Topeka, 66612-1366 and at the KDHE South Central District Office, 130 South Market Street, 6th Floor, Wichita, KS 67202-3802. To obtain or review the proposed permit and supporting documentation, contact Julie Ingoli, (785) 368-6683 at the KDHE central office, or David Butler, (316) 337-6020 at the KDHE South Central District Office. The standard departmental cost will be assessed for any copies requested.

Direct written comments or questions regarding the proposed permit to Julie Ingoli, KDHE, Bureau of Air and Radiation, 1000 S.W. Jackson, Suite 310, Topeka, 66612-1366, (785) 368-6683. In order to be considered in formulating a final permit decision written comments must be received no later than the close of business on August 19.

A person may request a public hearing be held on the proposed permit. The request for a public hearing shall be in writing and set forth the basis for the request. The written request must be submitted to Connie Carreno, Bureau of Air and Radiation, not later than the close of business August 19 in order for the Secretary of Health and Environment to consider the request.

The United States Environmental Protection Agency (USEPA) has a 45-day review period, which will start concurrently with the 30-day public comment period, within which to object to the proposed permit. If the USEPA has not objected in writing to the issuance of the permit within the 45-day review period, any person may petition the administrator of the USEPA to review the permit. The 60-day public petition period will directly follow the USEPA 45-day review period. If the USEPA waives their 45-day review period, the 60-day public petition period will start directly after the 30-day public comment period. Interested parties may contact KDHE to determine if the USEPA 45-day review period has been waived.

Any such petition shall be based only on objections to the permit that were raised with reasonable specificity during the public comment period provided for in this notice, unless the petitioner demonstrates that it was impracticable to raise such objections within such period, or unless the grounds for such objection arose after such period. Contact Gary Schlicht, USEPA, Region VII, Air Permitting and Compliance Branch, 901 N. 5th Street, Kansas City, Kansas 66101, (913) 551-7097, to determine when the 45-day USEPA review period ends and the 60-day petition period commences.

Notice of Hearing on
Proposed Administrative Regulations

A hearing will be conducted at 9 a.m. Wednesday, September 18, in Room 401, Kansas Department of Agriculture, 109 S.W. 9th, Topeka, to consider the adoption of proposed changes in existing rules and regulations of the agricultural chemicals, commercial fertilizers, pesticides and soil amendments regulations.

This 60-day notice of the public hearing shall constitute a public comment period for the purpose of receiving written public comments on the proposed rules and regulations. All interested parties may submit written comments prior to the hearing to the Secretary of Agriculture, 109 S.W. 9th, 4th Floor, Topeka, 66612. All interested parties will be given a reasonable opportunity to present their views orally on the adoption of the proposed regulations and the quarantine rescission during the hearing. In order to give all parties an opportunity to present their views, it may be necessary to request that each participant limit any oral presentation to five minutes.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulations and economic impact statements in an accessible format. Requests for accommodation should be made at least five working days in advance of the hearing by contacting Leslie Garner at (785) 296-4623, fax (785) 368-6668. Handicapped parking is located at the southwest corner of 9th and Jackson, and the north entrance to the building is accessible to individuals with disabilities.

These regulations are proposed for adoption on a permanent basis. A summary of proposed regulations and their economic impact follows.

K.A.R. 4-1-17. Registration fee. This proposed regulation increases the pesticide product registration fee to \$150.00 as approved in Senate Bill 438. The last increase to this registration fee was in 1987.

K.A.R. 4-4-2. Inspection fee. This proposed regulation decreases the amount of the fertilizer inspection to \$1.67, to allow the regulation to be in concurrence with K.S.A. 2-1205.

K.A.R. 4-13-9. Report of address, name, or personnel change by business. The proposed change increases the uncertified applicator registration to \$15.00 as approved in Senate Bill 438. The last increase to this registration fee was in 1982. This proposed regulation also extends the notification period for license modifications or change in service personnel from 10 to 30 days to allow the businesses greater flexibility.

K.A.R. 4-13-20. Pesticide business license, renewal, and uncertified employee fees. This proposed regulation increases the pesticide business license fee to \$140.00 as approved in Senate Bill 438. The last increase to this registration fee was in 1987. This proposed regulation also increases the fee to \$15.00 for each uncertified individual employed by the applicant as approved in Senate Bill 438.

K.A.R. 4-13-21. Government agency registration and renewal fees. This proposed change increases the government agency registration fee to \$50.00 as approved in Senate Bill 438. The last increase to this registration fee was in 1982.

K.A.R. 4-13-22. Application fee for commercial applicator's certification. This proposed change increases the pesticide commercial applicator's certification to \$50.00 as approved in Senate Bill 438. The last increase to this certification fee was in 1982.

K.A.R. 4-13-23. Examination fees. This proposed change increases the examination fee for the pesticide commercial applicator's certification to \$50.00 as approved in Senate Bill 438. The last increase to this examination fee was in 1982.

K.A.R. 4-13-24. Certified private applicator's certificate fee. This proposed change increases the pesticide private applicator's certification to \$25.00 as approved in Senate Bill 438. The last increase to this certification fee was in 1982.

K.A.R. 4-13-33. Pest control technician registration and renewal fees. This proposed change increases the pest control technician registration fee to \$40.00 as approved in Senate Bill 438. The last increase to this registration fee was in 1987.

K.A.R. 4-19-1. Registration fee. This proposed change increases the registration fee and renewal fee for each soil amendment to \$60.00 as approved in Senate Bill 438. The last increase to this registration fee was in 1982.

These rule changes will not significantly increase nor decrease revenues of cities, counties or school districts. It does not impose functions or responsibilities on cities, counties or school districts.

Notice of Hearing on Proposed
Administrative Regulations and Proposed
Permanent Quarantine Rescission

A hearing will be conducted at 9 a.m. Thursday, September 19, in Room 401, Kansas Department of Agriculture, 109 S.W. 9th, Topeka, to consider the adoption of proposed changes in existing rules and regulations of the plant pest, honeybee and livestock remedies regulations. A hearing also will be conducted in the matter of the proposed rescission of the Exterior and Interior Japanese Beetle, *Popillia japonica* Newman quarantine issued January 28, 1994, within the United States, Canada and Kansas. The Japanese Beetle is now in the pest freedom regulation.

This 60-day notice of the public hearing shall constitute a public comment period for the purpose of receiving written public comments on the proposed rules and regulations and quarantine rescission. All interested parties may submit written comments prior to the hearing to the Secretary of Agriculture, 109 S.W. 9th, 4th Floor, Topeka, 66612. All interested parties will be given a reasonable opportunity to present their views orally on the adoption of the proposed regulations and the quarantine rescission during the hearing. In order to give all parties an opportunity to present their views, it may be necessary to request that each participant limit any oral presentation to five minutes.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulations and economic impact statements in an accessible format. Requests for accommodation should be made at least five working days in advance of the hearing by contacting Leslie Garner at (785) 296-4623 or fax (785) 368-6668. Handicapped parking is located at the southwest corner of 9th and Jackson, and the north entrance to the building is accessible to individuals with disabilities.

The regulations are proposed for adoption on a permanent basis. A summary of proposed regulations and their economic impact follows.

K.A.R. 4-14-1, 4-14-2, 4-14-3, 4-15-1, 4-15-2, 4-15-3 and 4-18-1. The proposals revoke obsolete regulations.

K.A.R. 4-15-4. This regulation defines the live plant licensing exclusions for the sale and distribution of live plants in Kansas.

K.A.R. 4-15-5. This regulation establishes the live plant dealer license fee at \$50 and provides a licensing requirement modification for persons or businesses offering live plants as advertising or for promotional purposes.

K.A.R. 4-15-6. This regulation establishes a \$5 fee on each live plant dealer license to be deposited in the plant pest emergency response fund. In addition, the regulation provides a mechanism for removing the fee when the fund balance reaches the \$15,000 maximum balance.

K.A.R. 4-15-7. This regulation defines the live plant dealer licensing exemptions. Persons who sell only Kansas-grown plants and have annual retail sales of less than \$10,000 are exempt from licensing requirements.

K.A.R. 4-15-8. This regulation establishes an inspection fee of \$30 per hour plus mileage for inspection of live plants and other regulated articles. A mechanism for determining mileage charges is specified.

K.A.R. 4-15-9. This regulation establishes fees for the certification of various plants, plant products, bees, bee-keeping equipment, and other regulated articles that are being shipped from Kansas to another state or foreign country.

K.A.R. 4-15-10. This regulation establishes pest freedom standards for live plants sold or shipped into Kansas. These standards specify threshold or tolerance levels of a number of pests commonly found in the state.

K.A.R. 4-15-11. This regulation establishes a procedure for initiating the process for the assessment of a civil penalty.

K.A.R. 4-15-12. This regulation establishes a procedure that can be used by any person to answer a complaint.

K.A.R. 4-15-13. This regulation describes the criteria used in determining the dollar amount of a civil penalty.

K.A.R. 4-15-14. This regulation provides for an informal settlement of a complaint.

These rule changes will not increase nor decrease revenues of cities, counties or school districts. It does not impose functions or responsibilities on cities, counties or school districts.

Copies of the regulations and their economic impact statements may be obtained by contacting the Department of Agriculture at the address and phone number listed above.

Notice of Hearing on Proposed
Administrative Regulations

A public hearing will be conducted at 2 p.m. Tuesday, September 17, at 109 S.W. 9th, fourth floor, Topeka, to consider the adoption of new regulations of the chief engineer, Division of Water Resources, Kansas Department of Agriculture.

This 60-day notice of the public hearing shall constitute a public comment period for the purpose of receiving written public comments on the proposed rules and regulations. All interested parties may submit written comments prior to the hearing to the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, 109 S.W. 9th, 2nd Floor, Topeka, 66612-1283. All interested parties will be given a reasonable opportunity to present their views orally on the adoption of the proposed regulations during the hearing. In order to give all parties an opportunity to present their views, it may be necessary to limit any oral presentation to five minutes.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulations and economic impact statement in an accessible format. Requests for ac-

commodation should be made at least five working days in advance of the hearing by contacting Annita Meyer at (785) 296-4621.

The regulations are proposed for adoption on a permanent basis. A brief summary of these regulations and the economic impact statement is set forth below. For a complete understanding of each regulation, it is necessary to review the full text.

K.A.R. 5-3-26. Closed townships in Pawnee and Buckner drainage. K.A.R. 5-3-26 closes certain townships in the Pawnee and Buckner drainage basins to new appropriations of water and provides that all new applications for a permit to appropriate water that are pending on the effective date of the regulation shall be dismissed.

Persons or entities needing a water right in this area will have to purchase an existing water right. Because so many site specific factors affect the cost to purchase a water right that cost cannot be accurately estimated.

K.A.R. 5-16-1 through K.A.R. 5-16-7. Multi-year flex accounts. K.A.R. 5-16-1 through K.A.R. 5-16-7 are being proposed to implement the provisions of K.S.A. 2001 Supp. 82a-736 that allows water users to deposit water into multi-year flex accounts and utilize the water by means of a term permit over a five-year period with no annual limitation on the quantity of water used.

K.A.R. 5-16-1 sets forth definitions to be used in the multi-year flex account statute.

K.A.R. 5-16-2 sets the application fee for a flex account and a term permit at \$400.

K.A.R. 5-16-3 establishes the procedure for obtaining a flex account and a term permit to exercise the flex account by filing an application.

K.A.R. 5-16-4 specifies conditions that will be placed on the term permit.

K.A.R. 5-16-5 specifies the method for calculating the amount of water that can be placed in a flex account.

K.A.R. 5-16-6 sets forth additional conditions that will be placed on a term permit.

K.A.R. 5-16-7 sets forth the conditions under which base water rights may be utilized if the term permit is no longer in priority to be exercised.

If 200 applications are filed, it will generate \$80,000 of revenue to the agency. The cost of processing the application and monitoring and enforcing compliance with the permits will equal or exceed \$400 during the five-year period the term permit is in effect.

For a more complete statement of the economic impact of these proposed regulations, see the economic impact statements.

Copies of the proposed rules and regulations and their economic impact statement may be obtained by contacting Annita Meyer. The full text of the hearing notice (which includes a brief summary of the regulations and the economic impact statement), the revised draft regulations and the economic impact statement, can be found on the department's Web site, <http://www.accesskansas.org/kda> (click on the button on this page entitled "DWR proposed regulations").

Notice of Hearing on Proposed
Administrative Regulations

A public hearing will be conducted at 9 a.m. Thursday, September 26, in Room 108, Landon State Office Building, 900 S.W. Jackson, Topeka, to consider the adoption of proposed rules and regulations of the Kansas State Board of Technical Professions.

This 60-day notice of public hearing shall constitute a public comment period for the purpose of receiving written public comments on the proposed regulations. All interested parties may submit written comments prior to the hearing to the Board of Technical Professions, Suite 507, Landon State Office Building, 900 S.W. Jackson, Topeka, 66612. All interested parties will be given a reasonable opportunity to present their views orally on the adoption of the proposed regulations during the hearing. In order to give all parties an opportunity to present their views, it may be necessary to request each participant to limit any oral presentation to five minutes.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulations and economic impact statements in an accessible format. Requests for accommodation should be made at least 10 working days in advance of the hearing by contacting Betty L. Rose, executive director, at (785) 296-3053.

There is no anticipated economic impact on the Board of Technical Professions or other governmental agencies. (See fiscal impact statement for economic impact on the public.)

The following is a brief summary of the substance of the proposed regulations:

Article 8.—EXAMINATIONS

K.A.R. 66-8-4. Land surveyor examinations. In subsection (c), the language has been revised to clarify that the board may accept the results of previous examinations as transfer credit. In new regulation 66-11-1b, the board creates a description for "intern land surveyor." Subsection (d) of 66-8-4 has been rewritten to designate the examination and experience requirements that have to be met before an individual may be admitted to the professional land surveying examination.

Article 9.—CURRICULUM

K.A.R. 66-9-5. Surveying curriculum approved by the board. The board has added another educational option that the board may consider in order for an applicant to qualify for licensure as a land surveyor.

Article 10.—EXPERIENCE

K.A.R. 66-10-1. Architectural experience of a character satisfactory to the board. The adoption of a document by reference has been updated to the current version of the publication.

K.A.R. 66-10-9. Engineering experience of a character which is satisfactory to the board. The experience credit has been modified so that only work that has been performed after graduation will be accepted by the board.

K.A.R. 66-10-10b. Surveying experience required of a graduate in a four-year related science curriculum other than land surveying or engineering. This is a new regulation that allows the board to review the educational qualifications of a graduate with a four-year degree in a related science curriculum.

K.A.R. 66-10-13. Geology experience of a character that is satisfactory to the board. The experience credit has been modified so that only work that has been performed after graduation will be accepted by the board. Also, the language in subsection (d) that is no longer valid after July 1, 2002, has been removed.

**Article 11.—INTERN ENGINEER CERTIFICATION
AND ADMISSION TO THE FUNDAMENTALS
EXAMINATIONS**

K.A.R. 66-11-1a. Intern geologist defined; K.A.R. 66-11-1b, Intern land surveyor defined. These two new regulations create an "intern geologist" and "intern land surveyor" designation. This is similar to what already exists for professional engineers.

K.A.R. 66-11-5. Admission requirements for fundamentals of land surveying examination. This is a new regulation that establishes the education and experience requirements that have to be met before a candidate may take the fundamentals examination for land surveying. This examination must be passed before the intern certificate can be issued.

**Article 14.—CONTINUING EDUCATION
REQUIREMENTS**

K.A.R. 66-14-6. Exemptions. This regulation is being modified so that new licensees are not required to report continuing education for their first renewal cycle. Subsection (c) and (d) clarify that 30 professional development hours are required before an individual may return to practice a technical profession. It also clarifies that while on an exemption for license renewal, the individual may not practice a technical profession.

Other various changes that are grammatical, appropriate to format, or updated to the most current form of the statute have been made.

Copies of the full text of the regulations and the fiscal impact statements may be obtained by contacting the executive director of the Board of Technical Professions at the address and phone number given above.

Article 5.—STATE REHABILITATION
TAX CREDIT PROGRAM

118-5-1. Definitions. For the purposes of this article, these terms shall have the following meanings. (a) "Certification" means the process whereby the reviewing entity determines that a historic structure is a qualified historic structure or that a rehabilitation plan is a qualified rehabilitation plan, or both.

(b) "Qualified expenditures" means any of the following:

(1) For rehabilitation of income-producing properties that qualify for the federal rehabilitation tax credit program, the costs and expenses incurred by a qualified taxpayer, as defined in L. 2001, ch. 108, sec. 1 and amendments thereto, in the restoration and preservation of a qualified historic structure pursuant to a qualified rehabilitation plan, which are defined as qualified rehabilitation expenditures by section 47 (c) (2) of the federal internal revenue code as in effect July 1, 2001, and hereby adopted by reference;

(2) for rehabilitation of income-producing properties that do not qualify for the federal rehabilitation tax credit program, the costs and expenses incurred by a qualified taxpayer in the restoration and preservation of a qualified historic structure pursuant to a qualified rehabilitation plan. These expenses shall be deemed to have been incurred when the project is certified by the reviewing entity as a completed qualified rehabilitation; or

(3) for non-income-producing properties, the costs and expenses incurred by a qualified taxpayer in the restoration and preservation of a qualified historic structure pursuant to a qualified rehabilitation plan. These expenses shall be deemed to have been incurred when the project is certified by the reviewing entity as a completed qualified rehabilitation.

(c) "Reviewing entity" means the state historic preservation officer or the local government official who signs an agreement with the state historic preservation office to carry out review procedures. (Authorized by and imple-

menting L. 2001, ch. 108, sec. 1; effective, T-118-9-5-01, Sept. 5, 2001; effective Aug. 2, 2002).

118-5-2. Authorizing a local government as a reviewing entity. An agreement authorizing a city or county to make recommendations and to carry out review procedures under the state rehabilitation tax credit program may be entered into by the state historic preservation officer if the state historic preservation officer determines that the city or county has enacted a comprehensive local historic preservation ordinance, established a local historic preservation board or commission, and is actively engaged in a local historic preservation program. The agreement shall specify the authority delegated to the city or county by the state historic preservation officer, the requirements for those performing the responsibilities, and the manner in which the city or county will report its decisions to the state historic preservation officer. (Authorized by and implementing L. 2001, ch. 108, sec. 1; effective, T-118-9-5-01, Sept. 5, 2001; effective Aug. 2, 2002.)

118-5-3. Certifications. (a) Before a rehabilitation plan may be certified by the reviewing entity as a qualified rehabilitation plan, the structure shall be certified as a qualified historic structure. Except as otherwise specified in these regulations, part 1 of the rehabilitation certification application shall be used by the reviewing entity to determine whether a structure can be certified as a qualified historic structure.

(b) A qualified rehabilitation plan shall mean a plan that complies with the secretary of the interior's standards for rehabilitation, 36 C. F. R. Part 67, as in effect July 1, 2001, which is hereby adopted by reference except for 36 C.F.R. 67.7 (b) (8). Except as otherwise specified in these regulations, part 2 of the rehabilitation certification application shall be used by the reviewing entity to determine whether the plan for a proposed project involving a qualified historic structure constitutes a qualified rehabilitation plan. Part 3 of the rehabilitation certification application shall be used by the reviewing entity to determine whether the applicant completed the rehabilitation as presented in part 2 of the application, which shall have been previously approved. (Authorized by and implementing L. 2001, ch. 108, sec. 1; effective, T-118-9-5-01, Sept. 5, 2001; effective Aug. 2, 2002.)

118-5-4. Application. (a) Applicant criteria. (2) Each applicant seeking the state rehabilitation tax credit shall be either the owner or long-term lessee of the property in question. Lessee expenditures shall qualify if the term of the lease is more than the recovery period of the building for depreciation as set forth in IRS regulation 26 C. F. R. 1.48-12(c)(7)(v), as in effect July 1, 2001, and hereby adopted by reference.

(b) Application procedure.

(1) Each application shall be made on forms available from the reviewing entity according to instructions accompanying the application.

(2) Each request for certification shall be sent to the reviewing entity.

(3) Only complete applications shall be reviewed by the reviewing entity.

(continued)

(4) The review of each submission of a rehabilitation certification application shall be concluded within 30 calendar days of receipt of each complete, adequately documented application. If adequate documentation is not provided, the applicant shall be notified of the additional information needed to undertake or complete the review.

(c) Application, part 1.

(1) Except as specified in K.A.R. 118-5-5(b), to submit a request for certification of a structure as a qualified historic structure, each applicant shall complete part 1 of the rehabilitation certification application provided by the reviewing entity, according to the instructions accompanying the application. The applicant shall submit the application to the reviewing entity.

(2) Part 1 of the rehabilitation certification application may be submitted before submitting part 2 or at the same time as submitting part 2 of the application. However, certification of the qualified historic structure shall be required before certification of the qualified rehabilitation plan.

(d) Application, part 2.

(1) Except as specified in K.A.R. 118-5-7(a)(2), to submit a request for certification of a qualified rehabilitation plan, each applicant shall complete part 2 of the rehabilitation certification application, on a form provided by the reviewing entity and according to the instructions accompanying the application. The applicant shall submit the application to the reviewing entity.

(2) Part 2 of the rehabilitation certification application may be submitted when the applicant submits part 1 of the application. However, certification of the qualified historic structure shall be required before certification of the qualified rehabilitation plan.

(3) Before part 2 is reviewed, the applicant shall submit a fee to the reviewing entity, as specified in K.A.R. 118-5-10.

(4) Each applicant seeking the state tax credit but not the federal rehabilitation tax credit shall submit part 2 of the application and receive the approval of the reviewing entity or state historic preservation office before commencing work.

(5) Each applicant seeking both the federal and state credit shall comply with the requirements set forth in IRS regulations 26 C.F.R. 1.48-12, as in effect July 1, 2001, and hereby adopted by reference.

(e) Application procedure, part 3.

(1) Each applicant shall complete part 3 of the rehabilitation certification application.

(2) The tax credit shall not be claimed until the project has been certified as having been completed according to the qualified rehabilitation plan certified by the reviewing entity. To request final certification of a qualified rehabilitation plan, the applicant shall complete part 3 of the rehabilitation certification application, on a form provided by the reviewing entity and according to the instructions accompanying the application, and submit it to the reviewing entity.

(3) Part 3 shall not be submitted for review until the rehabilitation project detailed in part 2 is completed. (Authorized by and implementing L. 2001, ch. 108, sec. 1; effective, T-118-9-5-01, Sept. 5, 2001; effective Aug. 2, 2002.)

118-5-5. Standards for certifying a qualified historic structure. The following standards for certifying a qualified historic structure shall be applied by the reviewing entity.

(a) Structures, both income-producing and non-income-producing, for which the federal rehabilitation tax credit is not sought but for which only the state tax credit is sought shall be listed on the national register of historic places or the register of Kansas historic places, or shall be certified as located in and contributing to a district listed on the national register of historic places or the register of Kansas historic places before commencing the project.

(b) Structures that are individually listed on the national register of historic places or the register of Kansas historic places shall be deemed already certified as qualified historic structures. An applicant whose structure is already listed on the register of Kansas historic places or national register of historic places shall not be required to complete part 1 of the application.

(c) An applicant who is also applying for the federal rehabilitation tax credit program shall not be required to complete part 1 of the application process for the state rehabilitation tax credit program.

(d) Structures located within districts listed on the register of Kansas historic places or the national register of historic places, both income-producing and non-income-producing, for which the federal rehabilitation tax credit is not sought but for which only state tax credit is sought shall be certified as qualified historic structures within historic districts as specified in K.A.R. 118-5-6. Each applicant for a project involving one of these structures shall be required to complete part 1 of the application for the state rehabilitation tax credit program. (Authorized by and implementing L. 2001, ch. 108, sec. 1; effective, T-118-9-5-01, Sept. 5, 2002; effective Aug. 2, 2002.)

118-5-6. Standards for certifying a qualified historic structure within a historic district. Each structure for which certification is sought that is located within a district listed on the register of historic Kansas places or national register of historic places shall be reviewed by the reviewing entity to determine if the structure contributes to the historic significance of the district by applying the following standards for evaluating significance within a registered historic district:

(a) A structure contributing to the historic significance of a district shall be defined as one that by location, design, setting, materials, workmanship, feeling, and association adds to the district's sense of time and place, and historical development.

(b) A structure not contributing to the historic significance of a district shall be defined as either of the following:

(1) One that does not add to the district's sense of time and place, and historical development; or

(2) one in which the location, design, setting, materials, workmanship, feeling, and association have been so altered or are so deteriorated that the overall integrity of the building has been irretrievably lost.

(c) A structure that has been built within the past 50 years shall not be considered to contribute to the significance of a district unless a strong justification concerning

the structure's historical or architectural merit is given or the historical attributes of the district are considered to be less than 50 years old.

(d) If a rehabilitation tax credit is sought, a certification of significance shall be made based on the appearance and condition of the property before the rehabilitation was begun.

(e) If a nonhistoric surface material obscures a facade, the applicant may be required to remove a portion of the surface material before requesting certification so that a determination of historic significance can be made. After the material has been removed, if the obscured facade has retained substantial historic integrity and the property otherwise contributes to the historic district, the structure shall be determined to be a qualified historic structure. (Authorized by and implementing L. 2001, ch. 108, sec. 1; effective, T-118-9-5-01, Sept. 5, 2001; effective Aug. 2, 2002.)

118-5-7. Requirements for certifying a qualified rehabilitation plan. (a) (1) For projects on structures, both income-producing and non-income-producing, for which the federal rehabilitation tax credit is not sought but for which only the state tax credit is sought, a qualified rehabilitation plan shall be certified before the applicant commences work on the structure. The applicant shall submit part 2 of the application for the state rehabilitation tax credit.

(2) An applicant who submits part 2 of the federal historic preservation certification application shall not be required to submit part 2 of the application for the state rehabilitation tax credit program.

(b) The following requirements shall be applied to specific rehabilitation projects in a reasonable manner, taking into consideration economic and technical feasibility.

(1) The structure shall be used for its historic purpose or shall be placed in a new use that requires minimal change to the defining characteristics of the structure and its site and environment.

(2) The historic character of the structure shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize the structure shall be avoided.

(3) Each structure shall be recognized as a physical record of its time, place, and use. Changes that create a false sense of historic development, including adding conjectural features or architectural elements from other buildings, shall not be undertaken.

(4) Most structures change over time; however, those changes that have acquired historic significance in their own right shall be retained and preserved.

(5) Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize the historic structure shall be preserved.

(6) Deteriorated historic features shall be repaired rather than replaced. If the severity of deterioration requires replacement of a distinctive feature, the new feature shall match the old in design, color, texture, and other visual qualities and, if possible, materials. Replacement of missing features shall be substantiated by documentary, physical, or pictorial evidence.

(7) Chemical or physical treatments, including sandblasting, that cause damage to historic materials shall not

be used. The surface cleaning of structures, if appropriate, shall be undertaken using the gentlest means possible.

(8) New additions, exterior alterations, or related new construction shall not destroy historic materials that characterize a structure. The new work shall be differentiated from the old and shall be compatible with the massing, size, scale, and architectural features to protect the historic integrity of the structure and its environment.

(9) New additions and adjacent or related new construction shall be undertaken in such a manner that if removed in the future, the essential form and integrity of the historic structure and its environment would be unimpaired.

(c) All elements of the rehabilitation project shall meet the secretary of the interior's nine standards for rehabilitation adopted by reference in K.A.R. 118-5-3 (b); portions of the rehabilitation project not in conformance with the standards shall not be exempted. An owner undertaking a rehabilitation project shall not be held responsible for prior rehabilitation work that is not part of the current project, or for rehabilitation work that was undertaken by previous owners or third parties.

(d) Conformance to the standards shall be determined on the basis of the application documentation and other available information by evaluating the structure as it existed before the commencement of the rehabilitation project, regardless of when the structure becomes a certified historic structure.

(e) If necessary documentation is not provided, review and evaluation shall not be completed, and a denial of certification shall be issued on the basis of lack of information. Because the circumstances of each rehabilitation project are unique to the particular historic structure, certifications that have been granted to other rehabilitation projects shall not be deemed relevant and shall not be relied on by applicants as relevant to other projects.

(f) A project shall not be certified as a qualified rehabilitation until the project is completed and so designated by the reviewing entity. A determination that the completed rehabilitation of a structure not yet designated a qualified historic structure meets the secretary's standards for rehabilitation shall not constitute a certification of rehabilitation.

(g) A rehabilitation project for certification purposes shall encompass all work on the interior and exterior of the qualified historic structure or structures and the site and environment, as well as related demolition, new construction, or rehabilitation work that may affect the historic qualities, integrity of the site, landscape features, and environment of the certified historic structure or structures.

(h) For rehabilitation projects involving more than one certified historic structure in which the structures are judged by the reviewing entity to have been functionally related historically to serve an overall purpose, including a mill complex or a residence and carriage house, rehabilitation certification shall be determined based on the merits of the overall project rather than for each structure or individual component. For rehabilitation projects in which there is no historic functional relationship between or among the structures, the certification decision shall be

(continued)

made for each separate certified historic structure regardless of how they are grouped for ownership or development purposes.

(i) Demolition of a structure as part of a rehabilitation project involving multiple structures may result in denial of certification of the rehabilitation plan. In projects in which there is no historic functional relationship between or among the structures being rehabilitated, related new construction that physically expands one certified historic structure undergoing rehabilitation and, therefore, directly causes the demolition of an adjacent structure shall result in denial of certification of the rehabilitation plan unless a determination has been made that the building to be demolished is not a certified historic structure. In rehabilitation projects in which the structures have been determined to be functionally related historically, demolition of a component may be approved if one of the following conditions is met:

(1) The component is outside the period of significance of the structure or district.

(2) The component is so deteriorated or altered that its integrity has been irretrievably lost.

(3) The component is a secondary one that is deemed to lack historic, engineering, or architectural significance or does not occupy a major portion of the site, and persuasive evidence is present to show that retention of the component is not technically or economically feasible.

(j) In situations involving rehabilitation of a certified historic structure in a historic district, the rehabilitation project shall be reviewed by the reviewing entity first as it affects the certified historic structure and second as it affects the district. A certification decision shall be made by the reviewing entity accordingly.

(k) Upon the reviewing entity's receipt of the complete application describing the rehabilitation project, a determination of whether the project is consistent with the standards for rehabilitation shall be made by the reviewing entity. If the project does not meet the standards for rehabilitation, the applicant shall be advised of that fact in writing and, if possible, shall be advised of necessary revisions to meet these standards.

(l) Once a proposed or ongoing project has been approved, the applicant shall promptly submit to the reviewing entity, in writing, any substantive changes to the rehabilitation plan that the applicant proposes to make. The applicant shall be notified by the reviewing entity, in writing, of whether the proposed changes to the rehabilitation plan may be certified.

(m) If a proposed, ongoing, or completed rehabilitation does not meet the standards for rehabilitation, an explanatory letter shall be sent to the applicant.

(n) Each applicant shall submit part 3 of the rehabilitation certification application for the state rehabilitation tax credit program as specified in K.A.R. 118-5-4. (Authorized by and implementing L. 2001, ch. 108, sec. 1; effective, T-118-9-5-01, Sept. 5, 2001; effective Aug. 2, 2002.)

118-5-8. Rehabilitation project phases. (a) There shall be no phased projects under the state rehabilitation tax credit program. For purposes of the state rehabilitation tax credit program, each phase of a phased federal

rehabilitation tax credit project shall be considered a separate project.

(b) A separate rehabilitation certification application shall be required for each phase of a project that is certified through the federal rehabilitation tax credit program as a phased project. The qualified rehabilitation expenditures for each phase shall equal or exceed \$5,000. (Authorized by and implementing L. 2001, ch. 108, sec. 1; effective, T-118-9-5-01, Sept. 5, 2001; effective Aug. 2, 2002.)

118-5-9. Review. (a) (1) The owner, or duly authorized representative as appropriate, may appeal any denial of certification made according to this article. Each appeal shall be submitted in writing and received by the division director of the cultural resources division of the Kansas state historical society, within 30 days of the owner's receipt of the decision that is the subject of the appeal. The appellant may request an opportunity for a meeting to discuss the appeal, but all information that the appellant wishes the division director to consider shall be submitted in writing.

(2) The record of the decision in question, any further written submissions by the appellant, and other available information shall be considered by the division director. The appellant shall be provided with a written decision as promptly as circumstances permit.

(b) In considering each appeal, alleged errors in professional judgment or alleged prejudicial procedural errors by cultural resources division officials may be taken into account by the division director. The division director's decision shall consist of either of the following:

(1) A reversal of the appealed decision; or

(2) an affirmation of the appealed decision.

The division director's decision may be based in whole or part on matters or factors not discussed in the decision appealed. Authorization to issue the certifications specified in this article shall rest with the division director if the division director determines that the requested certification meets the applicable statutory standards set forth in this article. (Authorized by and implementing L. 2001, ch. 108, sec. 1; effective, T-118-9-5-01, Sept. 5, 2001; effective Aug. 2, 2002.)

118-5-10. Fees. (a) The fees specified in subsection (b) shall be charged for reviewing rehabilitation certification applications.

(b) Payment shall not be made until requested by the reviewing entity. A certification decision shall not be issued on an application until the appropriate remittance is received. Each fee shall be nonrefundable.

Amount of qualified expenditures	Fee amount
\$5,000 - \$25,000	\$100
\$25,001 - \$50,000	\$200
\$50,001 - \$100,000	\$350
\$100,001 - \$500,000	\$500
\$500,001 - \$1,000,000	\$750
over \$1,000,000	\$1,000

(c) Each rehabilitation of a separate qualified historic structure shall be considered a separate project for purposes of computing the fee. (Authorized by and implementing L. 2001, ch. 108, sec. 1; effective, T-118-9-5-01, Sept. 5, 2001; effective Aug. 2, 2002.)

Notice of Available Funding

The Kansas Department of Transportation, Office of Public Transportation, is accepting funding requests for the next two years under 49 U.S.C. § 5310 and 49 U.S.C. § 5311, including funding for intercity bus transportation, under the Federal Transportation Equity Act for the 21st Century (TEA-21) for transportation services.

KDOT also is accepting requests for state funding made available under the Comprehensive Transportation Program (CTP) for rural transportation providers.

Under 49 U.S.C. § 5310, funding is made available for the purchase of vehicles and equipment for services to the elderly and persons with disabilities. 49 U.S.C. § 5311 provides operating assistance and/or vehicles for transportation services to the elderly, persons with disabilities and the general public.

Eligible applicants for 49 U.S.C. § 5310 Federal Transit Administration grant funds must be private, nonprofit organizations that have been incorporated and registered with the Secretary of State to do business in Kansas. Applicants for a 49 U.S.C. § 5311 grant must be local units of government, Indian tribes, private nonprofit organizations or private operators contracting through any of these parties. Applicants also must be registered with the Secretary of State to do business in Kansas. All applicants must be an active member of their Coordinated Transit District (CTD) in order to receive federal and/or state transit funding.

A total of approximately \$912,819 in 49 U.S.C. § 5310 funds and \$3.58 million in 49 U.S.C. § 5311 funds will be available for FFY 2002. Similar funding amounts also will be available in FFY 2003. The federal share of eligible capital cost will not exceed 80 percent of the net cost of each project, and the grant applicant share shall be 20 percent of the net cost. The federal share of operating cost will not exceed 50 percent of the net cost of each project. The grant applicant share will be not less than 50 percent of the net cost.

State funds in the amount of \$2.24 million for rural transit providers are available for state fiscal year 2003 for those who are currently in the 49 U.S.C. § 5310 or 49 U.S.C. § 5311 program or are eligible to be in either of those programs. Applications must be returned to the appropriate CTD on or before August 1. Persons interested in applying should contact Kelly Broxterman, Kansas Department of Transportation, Transportation Planning, 217 S.E. 4th, Topeka, 66603-3504, (785) 291-3030.

Attorney General**Opinion 2002-25**

Soldiers, Sailors and Patriotic Emblems—Flag and Patriotic Emblems—Flag and Flagpole for Every Schoolhouse; Display; Instructions Relating to Flag Etiquette. Senator Christine Downey, 31st District, Inman; Representative Bonnie Sharp, 31st District, Kansas City; Representative Carl Krehbiel, 74th District, Moundridge, May 17, 2002.

K.S.A. 2001 Supp. 73-707 requires the proprietor of any private or parochial school in this state to provide a suitable flag of the United States of America, with staff or flagpole, for every schoolhouse under the control and supervision of such proprietor. The proprietor of a private or parochial school complies with this obligation to display the flag of the United States when the flag is included among the flags of several nations, provided that each flag is approximately the same size, mounted on a separate staff, and is equidistant from ground level. A separate flag is not required for each building. Rather, one flag may be located in such a manner that it serves as the flag for more than one building, especially in those circumstances in which the flag is centrally located in a place of prominence and the buildings served by the flag are in close proximity. Automobiles and Other Vehicles—Driving Under Influence of Alcohol or Drugs; Related Provisions—Tests for Alcohol or Drugs; Consent Implied; Authority to Conduct Warrantless Search Subsequent to *State v. Murry*. Thomas J. Drees, Ellis County Attorney, Hays, May 20, 2002.

State v. Murry does not stand for the general proposition that law enforcement officers are authorized to obtain a warrantless extraction of blood once a person suspected of driving under the influence has refused, pursuant to K.S.A. 8-1001, to consent to a blood test. The statute currently authorizes additional testing after refusal only if the certifying officer has probable cause to believe that the person operated a vehicle while under the influence *and* in such a manner as to have caused the death of or serious injury to another person. Counties and County Officers—Fire Protection—Governing Body; Powers; Tax Levies; Use of Proceeds; Installation of Fire Hydrants. Senator James A. Barnett, 17th District, Emporia, May 20, 2002.

State Departments; Public Officers and Employees—Public Officers and Employees; Open Public Meetings—Closed or Executive Meetings; Personnel Matters of Nonelected Personnel; Municipal Judges.

Cities and Municipalities—Municipal Courts; General Provisions—Municipal Judge; Appointment. Blaise Plummer, Emporia City Attorney, Emporia, June 13, 2002.

Based upon the facts provided, it is our opinion that the municipal court judge in the City of Emporia is treated more like an independent contractor and not a public employee, and is a public official with a term of office who exercises a great deal of sovereign and unsupervised discretionary authority. Thus, it is our opinion that such a judge is not “personnel” as that term is used in the Kansas Open Meetings Act, and discussions of a body subject to the Kansas Open Meetings concerning a candidate for that position should take place openly and not in an executive session under K.S.A. 75-4319(b)(1). Public Records, Documents and Information—Records Open to the Public—Custody Time Records.

Criminal Procedure—Criminal History Record Information—Release of Records Concerning Time in Custody. Paul J. Morrison, Johnson County District Attorney, Olathe, June 13, 2002.

Records concerning “custody time,” *i.e.* records that disclose the actual amount of time a specific individual has been incarcerated, that are in the possession of a county sheriff’s office, qualify as public records as defined by K.S.A. 45-217(f). Because public agencies that possess custody time information may obtain, handle or create records containing that type of information in different ways, the facts of each situation will dictate what laws may apply to require, restrict or allow providing access to or copies of the records containing custody time information. If the “custody time” information is contained in a report made to or obtained from a central repository under the Criminal History Record Information Act, that type of information and record is closed in many instances, and records of that type should only be made available to entities as set forth in that Act and related regulations. If “custody time” information is contained in a police blotter or a court record, that type of record is not considered criminal history record information and is presumptively open under the Kansas Open Records Act. Roads and Bridges—General Provisions—Laying Out, Altering or Vacating Roads; Prescribed Width of County Roads.

Roads and Bridges—County and Township Roads—Declaration of Minimum Maintenance Roads. Michael L. Goodrich, Cherokee County Counselor, Columbus, June 18, 2002.

A board of county commissioners has discretion to determine whether a county road is opened pursuant to K.S.A. 68-101 *et seq.* In laying out and opening a county road, a board of county commissioners must satisfy applicable statutory requirements and specifications, including the width requirements of K.S.A. 68-116. A road used primarily for access through a residential area may be declared a minimum maintenance road. Senator Jay Scott Emler, 35th District, Lindsborg, July 1, 2002.

Bethany College is not an accommodations broker, a business, or a hotel, motel or tourist court under the definitions in the transient guest tax statutes. Consequently, Bethany College is not required to collect a transient guest tax from overnight guests who stay at its dormitories in conjunction with summer conventions or conferences. **City of Olathe, Kansas
Division of Engineering**

Notice to Bidders

Sealed bids will be received at the office of the City Clerk, City Hall, 100 W. Santa Fe, in Olathe, Kansas, until 9 a.m., August 16, 2002, for the construction of 2002 Westview Neighborhood Sidewalk Improvements, Project No. 33200c.

All bids that have been duly received will be publicly opened and read aloud. The work consists of the following:

Installation of 3,460 L.F. of 5' concrete sidewalk and 1,389 S.F. of concrete sidewalk ramp, including minor existing sidewalk removal, minor curb and gutter replacement, along with installation of 627 S.Y. of sodding, and together with all other incidental and related work.

Contract documents including drawings and specifications are on file at the office of the City Engineer of Olathe, Kansas, and are open for public inspections. Copies may be obtained at the office of the city engineer, for \$25, none of which will be refunded.

The entire title of this project must appear on the outside of the bid envelope submitted to the city clerk's office.

A satisfactory bid bond executed by the bidder and an acceptable surety, in an amount equal to 5 percent of the total bid for work, shall be submitted with each proposal.

The successful bidder will be required to furnish and pay satisfactory performance and payment bond or bonds.

Attention is called to the fact that not less than the minimum salaries and wages as set forth in the contract documents must be paid on this project, and that the contractor must ensure that employees and applicants for employment are not discriminated against because of their race, color, religion, sex, or national origin. Contractors must comply with Title 29 relating to the employment of apprentices in accordance with requirements published by the United States Department of Labor as contained in the contract documents.

Bidders are informed that the prime contractor and subcontractors are required to comply with Section 109 of the Housing and Community Development Act of 1974, Title VI of the Civil Rights Act of 1964, Executive Order 11246, and Section 3 of the Housing and Urban

Development Act of 1968. Contractors responsibilities under these laws are outlined at Title 24, CFR Part 1 and Part 570 relating to non-discrimination in federally-assisted programs of the Department of Housing and Urban Development; Title 24, Part 130 relating to equal employment opportunity under HUD-assisted construction contract; and Title 24, Part 135 relating to employment opportunities for businesses and lower income persons in connection with assisted projects.

The prime general contractor, and subcontractors where appropriate, under the terms of the contract, shall be required to comply with the following requirements prior to issuance of a construction work order:

- (A) Maintain an affirmative action file detailing efforts to meet affirmative action hiring responsibilities and utilize minority firms as subcontractors and supplier;
- (B) Submit a copy of their affirmative action plan to the city for review and HUD concurrence;
- (C) Provide a preliminary statement of work force needs by category for the project and goals for minorities; and
- (D) Attend a scheduled pre-construction conference for orientation on HUD equal opportunity and labor standards requirements.

The city of Olathe, Kansas, reserves the right to reject any or all bids or to waive any informalities in the bidding.

Bids may be held by the City of Olathe, Kansas, for a period not to exceed 60 days from the date of the opening of bids for the purpose of reviewing the bids and investigating the qualifications of bidders, prior to awarding the contract.

Effective April 24, 2000, all bidders shall submit in writing to the Director of Human Relations an affirmative action program. No contract will be awarded to any company that has not been issued a Certification of Compliance by the Olathe Human Relations Commission within the past twelve months. A copy of the required form is included in the contract documents. Questions concerning the forms and information required to complete the form should be directed to the City of Olathe Equal Opportunity Office at (913) 254-3694.
