State Conservation Commission

Notice of Hearings on Proposed
Administrative Regulations

The State Conservation Commission will conduct two public hearings to consider the adoption of proposed permanent regulations of the Irrigation Transition Assistance Program (ITAP). The first hearing will be at 9 a.m. Tuesday, December 21, in the State Conservation Commission's conference room, 109 S.W. 9th, Suite 500, Topeka. The second hearing is scheduled for 6 p.m. Tuesday, December 21, at the Highland Hotel and Convention Center conference room, 3200 10th St., Great Bend.

This 60-day notice constitutes a public comment period for the purpose of receiving written public comments on the proposed regulations. Comments may be sent prior to the hearing date to the State Conservation Commission, 109 S.W. 9th, Suite 500, Topeka, 66612-1299.. All interested parties will be given an opportunity to address their views during the hearing. The State Conservation Commission will consider all written and oral comments submitted by interested parties as a basis for approving, amending and approving or rejecting a proposed regulation.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulations and economic impact statements in an accessible format. Requests for accommodation should be made at least five working days in advance of the hearing by contacting Scott Carlson at (785) 296-6803.

The regulations proposed for adoption address the expenditure and accountability of State Water Plan Special Revenue Funds and, if available, federal funds. The proposed regulations address the administration of a grant program targeted to retire irrigation water rights.

The Irrigation Transition Assistance Program (ITAP) is a result of 2004 Kansas legislative action that directed the State Conservation Commission to develop Kansas administrative regulations under the authority of K.S.A. 2-1915 and 2-1919 to receive and disburse irrigation assis-

tance grant funds providing an incentive for water right holders to transition from irrigated to dry land production or permanent vegetation. Grantees would have their contracted water right(s) permanently dismissed. The goal of the program is to provide another tool in meeting the water management goals of the state and local units of government in restoring stream flows and reducing aquifer decline in priority areas. Funding for the ITAP could either be federal, state or local.

The proposed regulations, **K.A.R. 11-11-1 through 11-11-7, Irrigation Transition Assistance Program**, address the eligibility requirements and contracting procedures between the State Conservation Commission and applicants. The economic impact on other governmental agencies may require increased costs associated with application review and prioritization. The general public would be impacted positively through implementation of this program by contributing to extending the life of the High Plains Aquifer.

A copy of the full text of the regulations and economic impact statements may be obtained by contacting the State Conservation Commission office at (785) 296-3600.

Facility Location: 100 Factory St., Lewis, KS 67552

Facility Description: The proposed action is to reissue a pretreatment permit for this facility. This facility manufactures hydraulic cylinders. The cylinder rods are chrome plated. After assembly, the steel and cast metal cylinders are cleaned in a three-stage conversion coating (iron phosphating) operation, with the final stage being an acid etching solution, to prepare the surface for paint. All process wastewater from the three outfalls is treated in a clarifier and sent to an evaporation system, so no regulated wastes are discharged to the sanitary sewer. The proposed permit includes limits for total toxic organics, cadmium, chromium, copper, lead, nickel, silver, zinc, total cyanide and pH. The monitoring of flow also will be required. The permit limits are pursuant to state and federal pretreatment requirements.
