Office of the Governor

Executive Order 06-03

WHEREAS, the Director of the Kansas Water Office has informed me, pursuant to K.S.A. 74-2608, of the continuing presence of drought conditions within the state; and

WHEREAS, reservoir levels and streamflow across northwest Kansas continue to reflect the multi-year drought impacting that region, and drought conditions in southeast Kansas in late 2005 and abnormally dry conditions in many areas have been developing over the last four months; and

WHEREAS, the Kansas Emergency Management Act (K.S.A. 48-924 et seq.) states that the Governor shall be responsible for meeting the dangers to the state and its people from disasters, including drought.

NOW, THEREFORE, pursuant to the authority vested in me as Governor of the State of Kansas, I hereby:

- 1. Declare a Drought Warning or Drought Watch for the counties identified below; and
- 2. Authorize and direct all agencies under the jurisdiction of the Governor to implement the appropriate Watch or Warning level drought response actions assigned to them in the Operations Plan of the Governor's Drought Response Team.

Public Notice

The state of Kansas Medicaid agency is shifting a portion of the rate increases previously given to hospitals for inpatient and outpatient services as a result of the provider assessment program to the HealthWave 19 managed care organizations effective March 1, 2006. This shift in funding will result in a decrease in the rates paid for both inpatient and outpatient services under the fee-forservice program and an increase in the rates paid to the managed care organizations. The original provider assessment payments were only made to fee-for-service hospitals. This redistribution of the funds to include both the fee-for-service hospitals and managed care organization should allow for equivalent increases in the rates to both fee-for-service hospitals and hospitals paid by the managed care organizations. This is not expected to have any impact on overall Medicaid expenditures.

For any comments or additional information, contact Rita Haverkamp, Division of Health Policy and Finance, Room 900-N, Landon State Office Building, 900 S.W. Jackson, Topeka, 66612-1220.

Department of Transportation

Notice of Public Auction

The Kansas Secretary of Transportation will offer for sale at public auction at site at 2 p.m. (Mountain Time) Thursday, March 23, the following tract of land (former highway rest area near Weskan):

Tract 696-01—A tract of land located along Highway 40, approximately 4.2 miles east of the Colorado/Kansas line, in the North Half of Section 3, Township 14S, Range 42 West of the the 6th P.M., of 1.84 acres, more or less.

This is an improved site, with water, sewer and electricity, with access from Highway 40 or from Chesley Road on the east. It includes several small picnic areas with shelters. A complete legal description is available on request.

The appraised value is \$7,500, and the minimum acceptable bid is \$5,000.

An inspection of property will take place at 1:30 p.m. on the day of sale.

Terms of Sale:

A cashier's check for \$500, representing 10 percent of the minimum acceptable bid, is due at the time of the sale. The balance of the purchase price must be paid by cashier's check on or before April 24, 2006. The successful bidder will receive a bill of sale on the day of the sale and a quit claim deed after the balance is paid. If the balance of the purchase price is not paid on or before April 24, 2006, the 10 percent down payment will be forfeited to the seller.

The seller reserves the right to reject any and all bids and is not responsible for accidents. For additional terms and information, contact the Bureau of Right of Way at (877) 461-6817.

Sold Subject to the Following:

The tract will be sold subject to the easement for the right of ingress and egress, reconstruction and maintenance of all existing utilities and appurtenances thereto, as well as the following restrictive covenant: Grantees, for their heirs and assigns, do hereby covenant and agree, said covenant to run with the land, that the land conveyed herein shall not be used for billboards, signboards or other outdoor advertising purposes.

The prospective buyer is encouraged to research the chain of title of the tract.

The Kansas Department of Transportation makes no representations concerning the condition, value or suitability of use for this property or the improvements, attachments, fixtures, apparatuses and appliances thereof, if any. The property and said improvements, etc. will be sold in the present "as is" condition, without warranties or guarantees of any kind.

The Kansas Department of Transportation ensures the acceptance of any bid pursuant to this notice will be without discrimination on the grounds of sex, race, color, religion, physical handicap or national origin.

Request for Comments

The Kansas Department of Health and Environment is soliciting comments regarding a proposed air quality operating permit. SPX Cooling Technologies has applied for a Class I operating permit renewal in accordance with the provisions of K.A.R. 28-19-510 et seq. The purpose of a Class I permit is to identify the sources and types of regulated air pollutants emitted from the facility; the emission limitations, standards and requirements applicable to each source; and the monitoring, record keeping and reporting requirements applicable to each source as of the effective date of permit issuance.

SPX Cooling Technologies, 7401 W. 129th St., Overland Park, owns and operates a manufacturing facility of component products for cooling towers located at 1200 W.

Marley Road, Olathe.

A copy of the proposed permit, permit application, all supporting documentation and all information relied upon during the permit application review process is available for a 30-day public review during normal business hours at the KDHE, Bureau of Air and Radiation, 1000 S.W. Jackson, Suite 310, Topeka; and a copy of the proposed permit can be reviewed at the Johnson County Environmental Department, 11180 Thompson Ave., Lenexa. To obtain or review the proposed permit and supporting documentation, contact Rasha Allen, (785) 296-1693, at the KDHE central office; and to review the proposed permit only, contact Mike Boothe, (913) 492-0402, at the Johnson County Environmental Department. The standard departmental cost will be assessed for any copies requested.

Direct written comments or questions regarding the proposed permit to Rasha Allen, KDHE, Bureau of Air and Radiation, 1000 S.W. Jackson, Suite 310, Topeka, 66612-1366. In order to be considered in formulating a final permit decision, written comments must be received before the close of business March 20.

A person may request a public hearing be held on the proposed permit. The request for a public hearing shall be in writing and set forth the basis for the request. The written request must be submitted to Sherry Walker, Bureau of Air and Radiation, not later than the close of business March 20 in order for the Secretary of Health and Environment to consider the request.

The U.S. Environmental Protection Agency has a 45-day review period, which will start concurrently with the 30-day public comment period, within which to object to the proposed permit. If the EPA has not objected in writing to the issuance of the permit within the 45-day review period, any person may petition the administrator of the EPA to review the permit. The 60-day public petition period will directly follow the EPA's 45-day review period. Interested parties may contact KDHE to determine if the EPA's 45-day review period has been waived.

Any such petition shall be based only on objections to the permit that were raised with reasonable specificity

during the public comment period provided for in this notice, unless the petitioner demonstrates that it was impracticable to raise such objections within such period, or unless the grounds for such objection arose after such period. Contact Jon Knodel, U.S. EPA, Region VII, Air Permitting and Compliance Branch, 901 N. 5th St., Kansas City, KS 66101, (913) 551-7622, to determine when the 45-day EPA review period ends and the 60-day petition period commences.

Notice Concerning Kansas/Federal Water Pollution Control Permits and Applications

In accordance with Kansas Administrative Regulations 28-16-57 through 63, 28-18-1 through 15, 28-18a-1 through 32, 28-16-150 through 154, 28-46-7, and the authority vested with the state by the administrator of the U.S. Environmental Protection Agency, various draft water pollution control documents (permits, notices to revoke and reissue, notices to terminate) have been prepared and/or permit applications have been received for discharges to waters of the United States and the state of Kansas for the class of discharges described below.

The proposed actions concerning the draft documents are based on staff review, applying the appropriate standards, regulations and effluent limitations of the state of Kansas and the Environmental Protection Agency. The final action will result in a Federal National Pollutant Discharge Elimination System Authorization and/or a Kansas Water Pollution Control permit being issued, subject to certain conditions, revocation and reissuance of the designated permit or termination of the designated permit.

Facility Description: The proposed action is to reissue an existing permit for an existing facility treating a combination of domestic and industrial wastewater. The facility has the capability to discharge to either the Kansas River or the Missouri River but is required to use the Missouri River outfall when available. The facility also has a number of internal monitoring points. The facility is a mechanical treatment plant consisting of grit removal, primary clarification, pure oxygen CMAS secondary treatment and final clarification. Sludge is dewatered on a belt filter press and is either incinerated or hauled to a solid waste landfill. There are 64 CSO's in the collection system. The proposed permit includes limits for biochemical oxygen demand and total suspended solids, ammonia, fecal coliform, total residual chlorine (if used), whole effluent toxicity testing, a priority pollutant scan and pH. Monitoring of total recoverable arsenic, cadmium, hexavalent chromium, chromium, copper, lead, nickel, silver, zinc, and phenolic compounds, oil and grease, surfactants, total phosphorus, nitrate, nitrite, total Kjeldahl nitrogen, total nitrogen, rainfall and effluent flow also will be required. Testing at the final outfall and internal monitoring locations is required to assure proper operation of the facility under various operating conditions. Contained in the permit are a number of schedules of compliance: Evaluate disinfection alternatives and complete various disinfection upgrades, update progress on implementation of the approved nine minimum controls, continue construction/implementation of Phase I of a four-phase construction program to implement the Long Term Control Plan, and provide a plan and schedule to upgrade the facility for nutrients removal. Facility Description: The proposed action is to issue a new permit for operation of a new nonoverflowing lagoon wastewater treatment facility, with land irrigation, treating primarily process wastewater. This is a natural gas transmission pipeline company that uses reverse osmosis (RO) treated water to produce an amine solution to remove CO2 and H2S from natural gas. The saturated solution is then routed through an amine regenerator and glycol dehydrator and finally the gases are vented to a flare. No compressors or boilers are used on site. All pipeline liquids (oil residues, water condensate, etc.) are treated in scrubbers. These liquids are collected in a storage tank and shipped off-site for proper disposal. About 4,320 gallons/day of the RO concentrate is directed to a double synthetic-lined with an intermediate leak detection system holding pond, and irrigated on adjacent cropland or transported to a municipal wastewater treatment facility. The permittee shall be required to sample wastewater from the final cell and soil annually prior to any land application. Domestic waste is directed to a septic tank lateral field system. Discharge of wastewater from this treatment facility to surface waters of the state of Kansas is prohibited by this permit.

Facility Description: The proposed action is to reissue the permits for Class III salt solution mining wells at the locations described above. The fluids to be injected consist of fresh water and weak brine. Injection is to be made into the Hutchinson Salt member of the Wellington formation. Mining shall not extend into the upper 40 feet of the salt member. The maximum operational injection pressure is not to exceed 250 pounds per square inch at the wellhead. The monitoring and operation of these wells shall meet the requirements that apply to Class III Injection wells under K.A.R. 28-43-1 through 28-43-11 and the Kansas Underground Injection Control Regulations, K.A.R. 28-46-1 through 28-46-52.

Name and Address of Applicant

FI Kansas Remediation Trust 4400 College Blvd., Suite 350 Overland Park, KS 66211

Facility Name: former Farmland Industries Nitrogen Plant, Lawrence, Kansas

Well and Permit Number Location

1 through 6 and SW½, NW½, SW¼, Section 4, Township infiltration trench KS-05-045-001 SW½, NW½, Section 4, Township 13S, Range 20E, Douglas County, KS

Facility Description: The proposed action is to issue an Underground Injection Control Area - Class V Injection Well permit for a remediation project that includes the use of injection wells number 1 through 6 and an infiltration trench. Injection is above the Tonganoxie Sandstone for the two shallow wells through screens from 6 to 8 feet below ground level and into the Tonganoxie Sandstone overlying the Weston Shale member for the four deep wells from 11 to 25 feet below ground level. The permittee is authorized to inject potable water obtained from the city of Lawrence. The water is injected to remediate the soil and aquifer to reduce high pH levels at the site. The maximum wellhead injection pressure limit for this project is 5 psig. The maximum rate of flow for the project is 252,000 gallons per week. The construction, monitoring and operation of these wells shall meet the requirements that apply to Class V Injection wells under K.A.R. 28-46-1 through 28-46-42 and K.A.R. 28-30-1 through K.A.R. 28-30-10.

Persons wishing to comment on the draft documents and/or permit applications must submit their comments in writing to the Kansas Department of Health and Environment if they wish to have the comments considered in the decision making process. Comments should be submitted to the attention of the Livestock Waste Management Section for agricultural-related draft documents or applications, or to the Technical Services Section for all other permits, at the Kansas Department of Health and Environment, Division of Environment, Bureau of Water, 1000 S.W. Jackson, Suite 420, Topeka, 66612-1367.

All comments regarding the draft documents or application notices received on or before March 18 will be considered in the formulation of the final determinations regarding this public notice. Please refer to the appropriate Kansas document number (KS-AG-06-022/030, KS-06-019/024, KS-ND-06-003, KS-EG-06-007/014) and name of the applicant/permittee when preparing comments.

After review of any comments received during the public notice period, the Secretary of Health and Environment will issue a determination regarding final agency action on each draft document/application. If response to any draft document/application indicates significant public interest, a public hearing may be held in conformance with K.A.R. 28-16-61 (28-46-21 for UIC).

All draft documents/applications and the supporting information including any comments received are on file and may be inspected at the offices of the Kansas Department of Health and Environment, Bureau of Water. These documents are available upon request at the copying cost assessed by KDHE. Application information and components of plans and specifications for all new and expanding swine facilities are available on the Internet at http://www.kdhe.state.ks.us/feedlots. Division of Environment offices are open from 8 a.m. to 5 p.m. Monday through Friday, excluding holidays.

Order a custom-made loose-leaf binder for the Kansas Register!

Custom-made binders are available to attractively hold up to a year's worth of your copies of the Kansas Register for permanent use. The high quality, durable

casebound swinge-hinge binders are manufactured by ABZ Binder. (A swinge-hinge binder has more capacity and allows for easier interfiling than standard ring binders.) The three-inch binder features dark blue supported vinyl covering and gold imprinting, with a label holder on the spine.

\$15 each, includes shipping and handling.

(Kansas residents must include an additional \$1.08 state and local sales tax.)
