Notice of Proposed Nursing Facility Medicaid Rates for State Fiscal Year 2007;

Methodology for Calculating Proposed Rates, and Rate Justifications;

Notice of Intent to Amend the Medicaid State Plan; Request for Written Comments; and Notice of Intent to Publish Final Rates

Under the Medicaid program, 42 U.S.C. 1396 et seq., the state of Kansas pays nursing facilities, nursing facilities for mental health and hospital long-term care units (hereafter collectively referred to as nursing facilities) a daily rate for care provided to residents who are eligible for Medicaid benefits. The Secretary of Aging administers the nursing facility program, which includes hospital long-term care units, and the Secretary of Social and Rehabilitation Services administers the nursing facility for mental health program. Both secretaries act on behalf of the Division of Health Policy and Finance (DHPPF), the single state Medicaid agency. As required by 42 U.S.C. 1396a(a)(13), as amended by Section 4711 of the Balanced Budget Act of 1997, P.L. No. 105-33, 101 Stat. 251, 507-08 (August 5, 1997), the Secretary of Aging and the Secretary of Social and Rehabilitation Services are publishing the proposed Medicaid per diem rates for Medicaid-certified nursing facilities for state fiscal year 2007, the methodology underlying the establishment of the proposed nursing facility rates, and the justifications for those proposed rates. SRS and KDOA also are providing notice of the state's intent to submit proposed amendments to the Medicaid State Plan to the U.S. Department of Health and Human Services' Centers for Medicare and Medicaid Services (CMS) on or before September 30, 2006.

I. Methodology Used to Calculate Medicaid Per Diem Rates for Nursing Facilities

In general, the state uses a prospective, cost-based, facility-specific rate-setting methodology to calculate nursing facility Medicaid per diem rates, including the rates listed in this notice. The state's rate-setting methodology

is contained primarily in the following described documents and authorities and in the exhibits, attachments, regulations or other authorities referenced in them:

A. The following portion of the Kansas Medicaid State Plan are maintained by DHPPF:

Attachment 4.19D, Part I, Subpart C, Exhibit C-1, inclusive.

The text of this portion of the Medicaid State Plan identified above in Section IA.1, but not the documents, authorities and the materials incorporated therein by reference, is reprinted in this notice. The Medicaid State Plan provision set out in this notice appears in the version that the state currently intends to submit to CMS on or before September 30, 2006. The proposed Medicaid State Plan amendment that the state ultimately submits to CMS may differ from the version contained in this notice.

Copies of the documents and authorities containing the state's rate-setting methodology are available upon written request. A request for copies will be treated as a request for public records under the Kansas Open Records Act, K.S.A. 45-215 et seq. The state will charge a fee for copies. A.1 Attachment 4.19D, Part I, Subpart C, Exhibit C-1: Methods and Standards for Establishing Payment Rates for Nursing Facilities

Under the Medicaid program the state of Kansas pays nursing facilities (NF), nursing facilities for mental health (NFMH), and hospital long-term care units (hereafter collectively referred to as nursing facilities) a daily rate for care provided to residents who are eligible for Medicaid benefits. The narrative explanation of the nursing facility reimbursement formula is divided into 12 sections. The sections are: Cost Reports, Rate Determination, Quarterly Case Mix Index Calculation, Resident Days, Inflation Factors, Upper Payment Limits, Quarterly Case Mix Rate Adjustment, Real and Personal Property Fee, Incentive Factors, Rate Effective Date, Retroactive Rate Adjustments, and Comparable Private Pay Rates.

1) Cost Reports

The Nursing Facility Financial and Statistical Report (MS2004) is the uniform cost report. It is included in Kansas Administrative Regulation (K.A.R.) 30-10-17. It organizes the commonly incurred business expenses of providers into three reimbursable cost centers (operating, indirect health care and direct health care). Ownership costs (i.e., mortgage interest, depreciation, lease and amortization of leasehold improvements) are reported but reimbursed through the real and personal property fee. There is a nonreimbursable/nonresident-related cost center so that total operating expenses can be reconciled to the providers' accounting records.

All cost reports are desk reviewed by agency auditors. Adjustments are made, when necessary, to the reported

(continued)

costs in arriving at the allowable historic costs for the rate computations.

Calendar Year End Cost Reports:

All providers that have operated a facility for 12 or more months on December 31 shall file a calendar year cost report. The requirements for filing the calendar year cost report are found in K.A.R. 30-10-17.

When a non-arms length change of provider takes place or an owner of the real estate assumes the operations from a lessee, the facility will be treated as an ongoing operation. In this situation, the related provider or owner shall be required to file the calendar year end cost report. The new operator or owner is responsible for obtaining the cost report information from the prior operator for the months during the calendar year in which the new operator was not involved in running the facility. The cost report information from the old and new operators shall be combined to prepare a 12-month calendar year end cost report.

Projected Cost Reports:

The filing of projected cost reports are limited to: 1) newly constructed facilities; 2) existing facilities new to the Medicaid program; or 3) a provider re-entering the Medicaid program that has not actively participated or billed services for 24 months or more. The requirements are found in K.A.R. 30-10-17.

2) Rate Determination

Rates for Existing Nursing Facilities

Medicaid rates for Kansas NFs are determined using a prospective, facility-specific rate-setting system. The rate is determined from the base year cost data submitted by the provider. The current base year is 2001.

The allowable expenses are divided into three cost centers. The cost centers are Operating, Indirect Health Care and Direct Health Care. They are defined in K.A.R. 30-10-18.

The allowable historic per diem cost is determined by dividing the allowable resident-related expenses in each cost center by resident days. The allowable historic per diem cost may be adjusted by an inflation factor. The resident days and inflation factors used in the rate determination will be explained in greater detail in the following sections.

The inflated allowable historic per diem cost for each cost center is then compared to the cost center upper payment limit. The allowable per diem rate is the lesser of the inflated allowable historic per diem cost in each cost center or the cost center upper payment limit. Each cost center has a separate upper payment limit. If each cost center upper payment limit is exceeded, the allowable per diem rate is the sum of the three cost center upper payment limits. There also is a separate upper payment limit for owner, related party, administrator and co-administrator compensation. The upper payment limits will be explained in more detail in a separate section.

The case mix of the residents adjusts the Direct Health Care cost center. The reasoning behind a case-mix payment system is that the characteristics of the residents in a facility rather than the characteristics of the facility should determine the payment rate. The idea is that cer-

tain resident characteristics can be used to predict future costs to care for residents with those same characteristics. For these reasons, it is desirable to use the case mix classification for each facility in adjusting provider rates.

There are add-ons to the allowable per diem rate. The add-ons consist of the incentive factor and the real and personal property fee. The incentive factor and real and personal property fee are explained in separate sections of this exhibit. The add-ons plus the allowable per diem rate equal the total per diem rate.

Rates for New Construction and New Facilities

The per diem rate for newly constructed nursing facilities, or new facilities to the Kansas Medical Assistance program, shall be based on a projected cost report submitted in accordance with K.A.R. 30-10-17.

The cost information from the projected cost report and the first historic cost report covering the projected cost report period shall be adjusted to the base-year period. This adjustment will be based on the Data Resources, Inc., National Skilled Nursing Facility Market Basket Without Capital Index (DRI Index). The DRI indices listed in the latest available quarterly publication will be used to adjust the reported cost data from the midpoint of the cost report period to the midpoint of the base-year period. The provider shall remain in new enrollment status until the base year is reestablished. During this time, the adjusted cost data shall be used to determine all rates for the provider. Any factor for inflation that is applied to cost data for established providers shall be applied to the adjusted cost data for each provider in new enrollment status.

Rates for Facilities Recognized as a Change of Provider

The payment rate for the first 24 months of operation shall be based on the base year historical cost data of the previous owner or provider. If base year data is not available the most recent calendar year data for the previous provider shall be used. Beginning with the first day of the 25th month of operation, the payment rate shall be based on the historical cost data for the most recent calendar year submitted by the new provider.

All nonbase-year cost data used to set rates for facilities recognized as a change-of-provider shall be adjusted to the base-year period. This adjustment will be based on the Data Resources, Inc., National Skilled Nursing Facility Market Basket Without Capital Index (DRI Index). The DRI indices listed in the latest available quarterly publication will be used to adjust the reported cost data from the midpoint of the cost report period to the midpoint of the base-year period. The provider shall remain in change-of-provider status until the base year is reestablished. During this time, the adjusted cost data shall be used to determine all rates for the provider. Any factor for inflation that is applied to cost data for established providers shall be applied to the adjusted cost data for each provider in new enrollment status.

Rates for Facilities Re-entering the Program

The per diem rate for each provider reentering the Medicaid program shall be determined from a projected cost report if the provider has not actively participated in the program by the submission of any current resident service billings to the program for 24 months or more.

The per diem rate for all other providers re-entering the program shall be determined from the base-year cost report filed with the agency or the most recent cost report filed preceding the base year.

All nonbase-year cost data used to set rates for facilities re-entering the program shall be adjusted to the base-year period. This adjustment will be based on the Data Resources, Inc., National Skilled Nursing Facility Market Basket Without Capital Index (DRI Index). The DRI indices listed in the latest available quarterly publication will be used to adjust the reported cost data from the midpoint of the cost report period to the midpoint of the base-year period. The provider shall remain in re-enrollment status until the base year is re-established. During this time, the adjusted cost data shall be used to determine all rates for the provider. Any factor for inflation that is applied to cost data for established providers shall be applied to the adjusted cost data for each provider in new enrollment status.

3) Quarterly Case Mix Index Calculation

Providers are required to submit to the agency the uniform assessment instrument, which is the Minimum Data Set (MDS), for each resident in the facility. The MDS assessments are maintained in a computer database.

The Resource Utilization Groups-III (RUG-III) Version 5.12b, 34 group, index maximizer model is used as the resident classification system to determine all case-mix indices, using data from the MDS submitted by each facility. Standard Version 5.12b case mix indices developed by the Health Care Financing Administration (now the Centers for Medicare and Medicaid Services) shall be the basis for calculating facility average case mix indices to be used to adjust the Direct Health Care costs in the determination of upper payment limits and rate calculation. Resident assessments that cannot be classified will be assigned the lowest CMI for the state.

Each resident in the facility on the first day of each calendar quarter with a completed and submitted assessment shall be assigned a RUG-III 34 group calculated on the resident's most current assessment available on the first day of each calendar quarter. This RUG-III group shall be translated to the appropriate CMI. From the individual resident case mix indices, three average case mix indices for each Medicaid nursing facility shall be determined four times per year based on the assessment information available on the first day of each calendar quarter.

The facility-wide average CMI is the simple average, carried to four decimal places, of all resident case mix indices. The Medicaid-average CMI is the simple average, carried to four decimal places, of all indices for residents where Medicaid is known to be a per diem payer source on the first day of the calendar quarter or at any time during the preceding quarter. The private-pay/other average CMI is the simple average, carried to four decimal places, of all indices for residents where neither Medicaid nor Medicare were known to be the per diem payer source on the first day of the calendar quarter or at any time during the preceding quarter. Case mix indices for ventilator-dependent residents for whom additional reimbursement has been determined shall be excluded from the average CMI calculations.

The resident listing cutoff for calculating the average CMIs will be the first day of the quarter before the rate is effective. The following are the dates for the resident listings and the quarter in which the average Medicaid CMIs will be used in the quarterly rate-setting process.

<u>Rate Effective Date:</u>	<u>Cutoff Date:</u>
July 1	April 1
October 1	July 1
January 1	October 1
April 1	January 1

The resident listings will be mailed to providers prior to the dates the quarterly case-mix adjusted rates are determined. This will allow the providers time to review the resident listings and make corrections before they are notified of new rates. The cutoff schedule may need to be modified in the event accurate resident listings and Medicaid CMI scores cannot be obtained from the MDS database.

4) Resident Days

The allowable historic per diem costs for the Direct Health Care cost center and for food and utilities in the Indirect Health Care cost center are determined by dividing the allowable resident-related expenses by the actual resident days during the cost report period used to establish the base year rate. The allowable historic per diem cost for the Operating and Indirect Health Care Cost Centers less food and utilities is subject to an 85% minimum occupancy rule. The greater of the actual resident days for the cost report period used to establish the base year rate or the 85% minimum occupancy based on the number of licensed bed days during the cost report period used to establish the base year rate is used as the total resident days in the rate calculation for the Operating cost center and the Indirect Health Care cost center less food and utilities. All licensed beds are required to be certified to participate in the Medicaid program.

There are two exceptions to the 85% minimum occupancy rule. The first is that it does not apply to a provider who is allowed to file a projected cost report for an interim rate. Both the rates determined from the projected cost report and the historic cost report covering the projected cost report period are based on the actual resident days for the period.

The second exception is for the first cost report filed by a new provider who assumes the rate of the previous provider. If the 85% minimum occupancy rule was applied to the previous provider's rate, it also is applied when the rate is assigned to the new provider. However, when the new provider files a historic cost report for any part of the first 12 months of operation, the rate determined from the cost report will be based on actual days and not be subject to the 85% minimum occupancy rule for the months in the first year of operation. The 85% minimum occupancy rule is then reapplied to the rate when the new provider reports resident days and costs for the 13th month of operation and after.

5) Inflation Factors

An additional 12 months of inflation will be applied to the allowable reported costs from the calendar year end

(continued)

2001 cost reports. The inflation will be based on the Data Resources, Inc., National Skilled Nursing Facility Market Basket Without Capital Index (DRI Index).

The DRI Indices listed in the latest available quarterly publication will be used to determine the inflation tables for the payment schedules processed during the payment rate period. This may require the use of forecasted factors in the inflation table. The inflation tables will not be revised until the next payment rate period.

The inflation factor will not be applied to the following costs:

- 1) Owner/Related Party Compensation
- 2) Interest Expense
- 3) Real and Personal Property Taxes

The inflation factor for the real and personal property fees will be based on the Data Resources, Inc., National Skilled Nursing Facility Total Market Basket Index (DRI Index). An additional 12 months of inflation will be applied to the real and personal property fees in effect June 1, 2006.

6) Upper Payment Limits

There are three types of upper payment limits that will be described. One is the owner/related party/administrator/co-administrator limit. The second is the real and personal property fee limit. The last type of limit is an upper payment limit for each cost center. The upper payment limits are in effect during the payment rate period unless otherwise specified by a State Plan amendment.

Owner/Related Party/Administrator/Co-Administrator Limits:

Since salaries and other compensation of owners are not subject to the usual market constraints, specific limits are placed on the amounts reported. First, amounts paid to nonworking owners and directors are not an allowable cost. Second, owners and related parties who perform resident-related services are limited to a salary chart based on the Kansas Civil Service classifications and wages for comparable positions. Owners and related parties who provide resident-related services on less than a full-time basis have their compensation limited by the percent of their total work time to a standard work week. A standard work week is defined as 40 hours. The owners and related parties must be professionally qualified to perform services that require licensure or certification.

The compensation paid to owners and related parties shall be allocated to the appropriate cost center for the type of service performed. Each cost center has an expense line for owner/related party compensation. There also is a cost report schedule titled "Statement of Owners and Related Parties." This schedule requires information concerning the percent of ownership (if over 5%), the time spent in the function, the compensation, and a description of the work performed for each owner and/or related party. Any salaries reported in excess of the Kansas Civil Service-based salary chart are transferred to the Operating cost center where the excess is subject to the Owner/Related Party/Administrator/Co-Administrator per diem compensation limit.

The Schedule C is an array of nonowner administrator and co-administrator salaries. The schedule includes the

base year historic cost reports in the database from all active nursing facility providers. The salary information is not adjusted for inflation. The per diem data is calculated using an 85% minimum occupancy level for those providers in operation for more than 12 months. The Schedule C for the owner/related party/administrator/co-administrator per diem compensation limit is the first schedule run during the rate setting.

The Schedule C is used to set the per diem limitation for all nonowner administrator and co-administrator salaries and owner/related party compensation in excess of the civil service based salary limitation schedule. The per diem limit for a 50-bed or larger home is set at the 90th percentile on all salaries reported for nonowner administrators and co-administrators. A limitation table is then established for facilities with less than 50 beds. This table begins with a reasonable salary per diem for an administrator of a 15-bed or less facility. A linear relationship is then established between the compensation of the administrator of the 15-bed facility and the compensation of the administrator of a 50-bed facility. The linear relationship determines the per diem limit for the facilities between 15 and 50 beds.

The per diem limits apply to the nonowner administrators and co-administrators and the compensation paid to owners and related parties who perform an administrative function or consultant type of service. The per diem limit also applies to the salaries in excess of the civil service-based salary chart in other cost centers that are transferred to the operating cost center.

Real and Personal Property Fee Limit

The property component of the reimbursement methodology consists of the real and personal property fee that is explained in more detail in a later section. The upper payment limit will be 105% of the median determined from a total resident day-weighted array of the inflated property fees.

Cost Center Upper Payment Limits

The Schedule B computer run is an array of all per diem costs for each of the three cost centers-Operating, Indirect Health Care and Direct Health Care. The schedule includes the base year cost data from all active nursing facility providers. Projected cost reports are excluded from the database.

The per diem expenses for the Operating cost center and the Indirect Health Care cost center less food and utilities are subject to the 85% minimum occupancy. All previous desk review and field audit adjustments are considered in the per diem expense calculations. The costs are adjusted by the owner/related party/administrator/co-administrator limit.

Prior to the Schedule B arrays, the cost data on certain expense lines will be adjusted for historical and forecasted inflation, where appropriate. This will bring the costs reported by the providers to a common point in time for comparisons. The historic inflation will be based on the DRI Index for the cost center limits effective July 1, 2006. This historic inflation factor will adjust costs from the midpoint of each providers cost report period to December 31, 2005, for the Schedule B processing.

Certain costs are exempt from the inflation application when setting the upper payment limits. They include owner/related party compensation, interest expense, and real and personal property taxes.

The final results of the Schedule B run are the median compilations. These compilations are needed for setting the upper payment limit for each cost center. The median for each cost center is weighted based on total resident days. The upper payment limits will be set using the following:

Operating	110% of the median
Indirect Health Care	115% of the median
Direct Health Care	120% of the median

Direct Health Care Cost Center Limit:

The Kansas reimbursement methodology has a component for a case mix payment adjustment. The Direct Health Care cost center rate component and upper payment limit are adjusted by the facility average CMI.

For the purpose of setting the upper payment limit in the Direct Health Care cost center, the facility cost report period CMI and the statewide average CMI will be calculated. The facility cost report period CMI is the resident day-weighted average of the quarterly facility-wide average case mix indices, carried to four decimal places. The quarters used in this average will be the quarters that most closely coincide with the financial and statistical reporting period. For example, a 01/01/20XX-12/31/20XX financial and statistical reporting period would use the facility-wide average case mix indices for quarters beginning 04/01/XX, 07/01/XX, 10/01/XX and 01/01/XY. The statewide average CMI is the resident day-weighted average, carried to four decimals, of the facility cost report period case mix indices for all Medicaid facilities calculated effective each payment rate period.

The statewide average CMI and facility cost report period CMI are used to set the upper payment limit for the Direct Health Care cost center. The limit is based on all facilities with a historic cost report in the database. There are three steps in establishing the base upper payment limit.

The first step is to normalize each facility's Direct Health Care inflated per diem cost to the statewide average CMI. The following will describe the normalization process. A facility has an average inflated per diem cost of \$60 (A) and a facility cost report period CMI of 1.4000 (B). The statewide average CMI is .9500 (C). First, divide the statewide average CMI (C) by the facility cost report period CMI (B) (.9500/1.4000=.68). Second, the quotient is then multiplied by the average inflated per diem cost (A) to determine the normalized inflated cost at the statewide average CMI ($\$60 \times .68 = \40.80). Normalizing each facility's cost to the statewide average CMI ensures a level comparison of direct health care costs can be made when setting the upper payment limit.

The second step is to array the normalized inflated costs, based on the statewide average CMI, to determine the median. The median is located using a day-weighted methodology. That is, the median cost is the per diem cost for the facility in the array at which point the cumulative total of all resident days first equals or exceeds half the number of the total resident days for all providers. The

facility with the median resident day in the array sets the median inflated direct health care cost. For example, if there are 8 million resident days, the facility in the array with the 4 millionth day would set the median.

The final step in calculating the base Direct Health Care upper payment limit is to apply the percentage factor to the median cost. For example, if the median cost is \$45 and the upper payment limit is based on 120% of the median, then the upper payment limit for the statewide average CMI would be \$54 ($D=120\% \times \45).

Once the base limit for the Direct Health Care cost center is established at the statewide average CMI, the base limit is adjusted by each facility's cost report period CMI to determine a facility-specific Direct Health Care cost center upper payment limit. The following will describe the facility-specific upper payment limit process. A facility has an average facility cost report period CMI of 1.4000(A). The statewide average CMI is .9500 (B). First, divide the facility cost report period average CMI (A) by the statewide average CMI (B) ($1.4000/.9500=1.47$). Second, the statewide average CMI limit D (\$54) is multiplied by the quotient to determine the upper payment limit for the facility ($\$54 \times 1.47=\79.38). In the example above, the facility inflated Direct Health Care cost was \$60, which is less than the upper payment limit of \$79.38 for a facility average CMI of 1.4000.

7) Quarterly Case Mix Rate Adjustment

The allowance for the Direct Health Care cost component will be based on the average Medicaid CMI in the facility. The first step in calculating the allowance is to determine the lower of the inflated Direct Health Care cost or the facility's specific Direct Health Care upper payment limit. Using the example in the Upper Payment Limit section, the Direct Health Care cost of \$60 was less than the upper payment limit of \$79.38 for an average CMI of 1.4000.

The next step is to determine the Medicaid acuity adjusted allowable Direct Health Care cost. The Medicaid CMI is divided by the facility cost report period CMI. Using the example above, if the Medicaid average CMI is 1.6000, it is divided by 1.4000 to arrive at a quotient of 1.1400 ($1.6000/1.4000$). The lower of the inflated per diem cost or the facility-specific Direct Health Care upper payment limit is multiplied by the quotient to determine the Medicaid acuity adjusted allowable Direct Health Care cost. In the example, the allowable Medicaid acuity adjusted Direct Health Care cost will be \$68.40 ($\60×1.1400).

For illustrative purposes, if the facility-specific upper payment limit had been \$55 for an average CMI of 1.4000, the Medicaid rate would have been calculated using the upper payment limit since it was lower than the cost of \$60. In this situation, the allowable Medicaid acuity adjusted cost would be \$62.70 ($1.1400 \times \55).

The Direct Health Care component of the Medicaid rate is adjusted quarterly for changes in the Medicaid CMI. Using the first example above, if the average Medicaid CMI increases from 1.6000 to 1.7000 the following quarter, the allowance for the Direct Health Care cost would increase from \$68.40 to \$72.60. The first step is to divide

(continued)

the new average Medicaid CMI by the facility cost report period CMI established for the rate year (July 1 through June 30) to determine the new quotient ($1.7000/1.4000=1.2100$). The lower of the facility-specific Direct Health Care upper payment limit or the inflated Direct Health Care per diem cost is multiplied by the new quotient to determine the Medicaid allowance. ($1.21 \times \$60 = \72.60).

Conversely, if the average Medicaid CMI decreases from 1.6000 to 1.5000 the following quarter, the allowance for the Direct Health Care cost would decrease from \$68.40 to \$64.20. Again, the first step is to divide the new average Medicaid CMI by the facility cost report period CMI established for the rate year (July 1 through June 30) to determine the new quotient ($1.5000/1.4000=1.0700$). The lower of the facility-specific Direct Health Care upper payment limit or the inflated Direct Health Care per diem cost is multiplied by the new quotient to determine the Medicaid allowance ($1.0700 \times \$60 = \64.20).

8) Real And Personal Property Fee

The property component of the reimbursement methodology consists of the real and personal property fee (property fee). The property fee is paid in lieu of an allowable cost of mortgage interest, depreciation, lease expense and/or amortization of leasehold improvements. The fee is facility specific and does not change as a result of a change of ownership, change in lease, or with re-enrollment in the Medicaid program. The original property fee was comprised of two components, a property allowance and a property value factor. The differentiation of fee into these components was eliminated effective July 1, 2002. At that time each facility's fee was re-established based on the sum of the property allowance and value factor.

The property fees in effect on June 1, 2006, were inflated with 12 months of inflation effective July 1, 2006. The inflation factor was from the Data Resources, Inc.-WEFA, National Skilled Nursing Facility Total Market Basket Index (DRI Index). The providers received the lower of the inflated property fee or the upper payment limit.

For providers re-enrolling in the Kansas Medical Assistance program or providers enrolling for the first time but operating in a facility that was previously enrolled in the program, the property fee shall be the sum of the last effective property allowance and the last effective value factor for that facility. The property fee will be inflated and then compared to the upper payment limit. The property fee will be the lower of the facility-specific inflated property fee or the upper payment limit.

Providers entering the Kansas Medical Assistance program for the first time, who are operating in a building for which a fee has not previously been established, shall have a property fee calculated from the ownership costs reported on the cost report. This fee shall include appropriate components for rent or lease expense, interest expense on real estate mortgage, amortization of leasehold improvements, and depreciation on buildings and equipment. The process for calculating the property fee for providers entering the Kansas Medical Assistance program for the first time is explained in greater detail in Exhibit A-14 (K.A.R. 30-10-25).

There is a provision for changing the property fee. This is for a rebasing when capital expenditure thresholds are met (\$25,000 for homes under 51 beds and \$50,000 for homes over 50 beds). The original property fee remains constant but the additional factor for the rebasing is added. The property fee rebasing is explained in greater detail in Exhibit A-14 (K.A.R. 30-10-25). The rebased property fee is subject to the upper payment limit.

9) Incentive Factors

An incentive factor will be awarded to both NF and NF-MH providers that meet certain outcomes measures criteria. The criteria for NF and NF-MH providers will be determined separately based on arrays of outcomes measures for each provider group.

Nursing Facility Quality and Efficiency Incentive Factor:

The Nursing Facility Quality and Efficiency Outcomes Incentive Factor is a per diem add-on ranging from \$0.00 to \$3.00. It is designed to encourage quality care and efficiency. The incentive factor is determined by six outcome measures: case-mix adjusted nurse staffing ratio, operating expense, staff turnover rate, staff retention rate, occupancy rate, and survey performance. The most recent cost report data for each provider will be used to determine the outcome measures except for the staff turnover and retention rates, which will be determined from 2004 cost report data. Each provider is awarded points based on their outcome measures, and the total points for each provider determine the per diem incentive factor included in the provider's rate calculation.

Providers may earn up to two incentive points for their case-mix adjusted nurse staffing ratio. They will receive two points if their case-mix adjusted staffing ratio equals or exceeds 4.28, which is 120% of the statewide NF median of 3.57. They will receive one point if the ratio is less than 120% of the NF median but greater than or equal to 3.93, which is 110% of the statewide NF median. Providers with staffing ratios below 110% of the NF median will receive no points for this incentive measure.

Providers also may earn up to two points for their occupancy outcome measures. If they have total occupancy greater than or equal to 90% they will earn one point. If they have Medicaid occupancy greater than or equal to 60% they also will earn one point. Providers that meet both of these criteria will receive a total of two incentive points for occupancy outcomes, and providers that fail to meet either criterion will receive zero points for occupancy.

The incentive points awarded for survey performance also will range from zero to two points. Two points will be awarded to providers that have no health survey deficiencies on all surveys included in the review. Providers that have no more than eight health survey deficiencies, nor any one health survey deficiency rated higher than an "E" on the CMS scope and severity chart, on each survey included in the review will earn one incentive point. All other providers will receive zero incentive points for survey results. The surveys included in the review will be the most recent annual survey conducted for each provider prior to December 31, 2005, and any complaint survey conducted between January 1, 2005 and December 31, 2005.

Providers also may earn one point for each of the following outcomes measures: low operating expenses, low staff turnover, and high staff retention. Providers with per diem operating expenses below 90% of the statewide median per diem operating expense, \$19.60, will earn one point. Providers with direct health care staff turnover below 74%, the statewide median staff turnover rate, will earn one point as long as contracted labor costs do not exceed 10% of the provider's total direct health care labor costs. Finally, providers with staff retention rates above the statewide median staff retention rate of 64% will earn one point.

The table below summarizes the incentive factor outcomes and points:

Quality/Efficiency Outcome:	Incentive Points:
1) CMI adjusted staffing ratio \geq 120% (4.28) of state median, or CMI adjusted staffing ratio between 110% (3.93) and 120%	2, or 1
2) Total occupancy \geq 90% Medicaid occupancy \geq 60%	1 1
3) No health survey deficiencies during review period, or No deficiency > "E" or more than 8 deficiencies/survey	2, or 1
4) Operating expenses < 90% of state median, \$19.60	1
5) Staff turnover rate < state median, 74% Contracted labor < 10% of total direct health care labor costs	1
6) Staff retention > state median, 64%	1
Total Incentive Points Available	9

The Schedule E is an array containing the incentive points awarded to each provider for each quality and efficiency incentive outcome. The total of these points will be used to determine each provider's incentive factor based on the following table:

Total Incentive Points:	Incentive Factor Per Diem:
Tier 1: 7-9 points	\$3.00
Tier 2: 5-6 points	\$2.00
Tier 3: 4 points	\$1.00
Tier 4: 0-3 points	\$0.00

Nursing Facility for Mental Health Quality and Efficiency Incentive Factor:

The Quality and Efficiency Outcomes Incentive plan for Nursing Facilities for Mental Health (NFMH) will be established separately from NF. NFMH serve people who often do not need the NF level of care on a long-term basis. There is a desire to provide incentive for NFMH to work cooperatively and in coordination with Community Mental Health Centers to facilitate the return of persons to the community. The outcome measures for FY06 for NFMH will be the same as regular NF with the exception of occupancy rate.

The Quality and Efficiency Outcomes Incentive Factor is a per diem add-on ranging from \$0.00 to \$3.00. It is designed to encourage quality care, efficiency and cooperation with discharge planning. The incentive factor is determined by six outcome measures: case-mix adjusted nurse staffing ratio, operating expense, staff turnover rate, staff retention rate, occupancy rate, and survey performance. Each provider is awarded points based on their outcome measures, and the total points for each provider determine the per diem incentive factor included in the provider's rate calculation.

Providers may earn up to two incentive points for their case-mix adjusted nurse staffing ratio. They will receive two points if their case-mix adjusted staffing ratio equals or exceeds 3.32, which is 120% of the statewide NFMH median of 2.77. They will receive one point if the ratio is less than 120% of the NFMH median but greater than or equal to 3.05, which is 110% of the statewide NFMH median. Providers with staffing ratios below 110% of the NFMH median will receive no points for this incentive measure.

NFMH providers also may earn one point for their occupancy outcomes measure. If they have total occupancy less than or equal to 93.7%, the statewide median for NFMH, they will earn one point.

The incentive points awarded for NFMH survey performance also will range from zero to two points. Two points will be awarded to providers that have no health survey deficiencies on all surveys included in the review. Providers that have no more than eight health survey deficiencies, nor any one health survey deficiency rated higher than an "E" on the CMS scope and severity chart, on each survey included in the review will earn one incentive point. All other providers will receive zero incentive points for survey results. The surveys included in the review will be the most recent annual survey conducted for each provider prior to December 31, 2005, and any complaint survey conducted between January 1, 2005 and December 31, 2005.

NFMH providers also may earn one point for each of the following outcomes measures: low operating expenses, low staff turnover, and high staff retention. Providers with per diem operating expenses below \$15.87, 90% of the statewide median per diem operating expense for NFMH, will earn one point. Providers with direct health care staff turnover below 46%, the statewide median staff turnover rate for NFMH, will earn one point, as long as contracted labor costs do not exceed 10% of the provider's total direct health care labor costs. Finally providers with staff retention rates above 68%, the statewide median staff retention rate for NFMH, will earn one point.

The table below summarizes the incentive factor outcomes and points:

Quality/Efficiency Outcome:	Incentive Points:
1) CMI adjusted staffing ratio \geq 120% (3.32) of state median, or CMI adjusted staffing ratio between 110% (3.05) and 120%	2, or 1
2) Total occupancy \leq 93.7% (NFMH median)	1
3) No health survey deficiencies during review period, or No deficiency > "E" or more than 8 deficiencies/survey	2, or 1
4) Operating expenses < 90% of NFMH median, \$15.87	1
5) Staff turnover rate < NFMH median, 46%	1
6) Staff retention > NFMH median, 68%	1
Total Incentive Points Available	8

The Schedule E is an array containing the incentive points awarded to each NFMH provider for each quality and efficiency incentive outcome. The total of these points will be used to determine each provider's incentive factor based on the following table:

Total Incentive Points:	Incentive Factor Per Diem:
Tier 1: 7-8 points	\$3.00

(continued)

Tier 2: 5-6 points	\$2.00
Tier 3: 4 points	\$1.00
Tier 4: 0-3 points	\$0.00

10) Rate Effective Date

Rate effective dates are determined in accordance with K.A.R. 30-10-19. The rate may be revised for an add-on reimbursement factor (i.e., rebased property fee), desk review adjustment or field audit adjustment.

11) Retroactive Rate Adjustments

Retroactive adjustments, as in a retrospective system, are made for the following three conditions:

A retroactive rate adjustment and direct cash settlement is made if the agency determines that the base year cost report data used to determine the prospective payment rate was in error. The prospective payment rate period is adjusted for the corrections.

If a projected cost report is approved to determine an interim rate, a settlement also is made after a historic cost report is filed for the same period.

All settlements are subject to upper payment limits. A provider is considered to be in projection status if they are operating on a projected rate and they are subject to the retroactive rate adjustment.

12) Comparable Private Pay Rates

The last factor considered in determining a provider's Medicaid per diem payment rate is their private pay rate. Providers are reimbursed the lower of the calculated Medicaid rate or their private pay rate. The agency maintains a registry of private pay rates. It is the responsibility of the providers to send in private pay rate updates so that the registry is updated. When new Medicaid rates are determined, if the private pay rate reflected in the registry is lower, then the provider is held to that private pay rate until the provider sends notification that it has a higher private pay rate.

Case Mix Adjustments to Private Pay Rates:

Private pay rates submitted to the agency are adjusted up if a provider's average private pay/other CMI is lower than its Medicaid average CMI. This is accomplished by multiplying the provider's average private pay rate in the private pay registry by the ratio of their Medicaid average CMI to their average private pay/other CMI. This ensures that providers' Medicaid rates are not limited to a lower private pay rate that may be attributed to the lower acuity of the private pay residents. There is no adjustment to private pay rates if the facility's Medicaid average CMI is less than its average private pay/other CMI. There also is no adjustment to private pay rates if the facility's total Medicaid rate is less than its average private pay rate.

II. Proposed Medicaid Per Diem Rates for Kansas Nursing Facilities

A. Cost Center Limitations: The state proposes the following cost center limitations that are used in setting rates effective July 1, 2006.

Cost Center	Limit Formula	Per Day Limit
Operating	110% of the Median Cost	\$22.81
Indirect Health Care	115% of the Median Cost	\$37.54
Direct Health Care	120% of the Median Cost	\$69.66

Real and Personal Property Fee	105% of the Median Fee	\$7.41
--------------------------------	------------------------	--------

These amounts were determined according to the "Reimbursement Limitations" section. The Direct Healthcare Limit is calculated based on a CMI of 0.9197, which is the statewide average.

B. Case Mix Index. These proposed rates are based upon each nursing facility's Medicaid average CMI calculated with a cutoff date of April 1, 2006, using the July 1, 2006, Kansas Medicaid/Medicaid CMI Table. In Section II.C below, each nursing facility's Medicaid average CMI is listed beside its proposed per diem rate.

III. Justifications for the Proposed Rates

- The proposed rates are calculated according to the rate-setting methodology in the Kansas Medicaid State Plan and pending amendments thereto.
- The proposed rates are calculated according to a methodology that satisfies the requirements of K.S.A. 39-708c(x) and the DHPF regulations in K.A.R. Article 30-10 implementing that statute and applicable federal law.
- The state's analyses project that the proposed rates:
 - Would result in payment, in the aggregate of 92% of the Medicaid day weighted average inflated allowable nursing facility costs statewide; and
 - Would result in a maximum allowable rate of \$140.42, with the total average allowable cost being \$133.02.
 - Estimated average rate July 1, 2006 \$119.09
Average payment rate July 1, 2005 \$112.63
Amount of change \$6.46
Percent of change 5.74%
- Estimated annual aggregate expenditures in the Medicaid nursing facility services payment program will increase by approximately \$21 million.
- The state estimates that the proposed rates will continue to make quality care and services available under the Medicaid State Plan at least to the extent that

care and services are available to the general population in the geographic area. The state's analyses indicate:

- a. Service providers operating a total of 301 nursing facilities (representing 96% of all the licensed nursing facilities in Kansas) participate in the Medicaid program, while an additional 41 hospital-based long-term care units also are certified to participate in the Medicaid program;
 - b. There is at least one Medicaid-certified nursing facility and/or nursing facility for mental health, or Medicaid-certified hospital-based long-term care unit in each of the 105 counties in Kansas;
 - c. The statewide average occupancy rate for nursing facilities participating in Medicaid is 85%;
 - d. The statewide average Medicaid occupancy rate for participating facilities is 56%; and
 - e. The proposed rates would cover 93% of the estimated Medicaid health care costs incurred by participating nursing facilities statewide.
6. Federal Medicaid regulations at 42 C.F.R. 447.272 impose an aggregate upper payment limit that states may pay for Medicaid nursing facility services. The state's analysis indicates that the proposed methodology will result in compliance with the federal regulation.

IV. Request for Comments; Request for Copies

The state requests providers, beneficiaries and their representatives, and other concerned Kansas residents to review and comment on the proposed rates, the methodology used to calculate the proposed rates, the justifications for the proposed rates, and the intent to amend the Medicaid State Plan. Persons and organizations wishing to submit comments must mail, deliver or fax their signed, written comments before the close of business Friday, May 26, to:

SENATE BILL No. 352

AN ACT concerning the uniform commercial code; relating to secured transactions; amending K.S.A. 2005 Supp. 84-9-705 and repealing the existing section.

Be it enacted by the Legislature of the State of Kansas:

Section 1. K.S.A. 2005 Supp. 84-9-705 is hereby amended to read as follows: 84-9-705. (a) **Pre-effective date action; one-year perfection period unless reperfected.** If action, other than the filing of a financing statement, is taken before this act takes effect and the action would have resulted in priority of a security interest over the rights of a person that becomes a lien creditor had the security interest become enforceable before this act takes effect, the action is effective to perfect a security interest that attaches under this act within one year after this act takes effect. An attached security interest becomes unperfected one year after this act takes effect unless the security interest becomes a perfected security interest under this act before the expiration of that period.

(b) **Pre-effective date filing.** The filing of a financing statement before this act takes effect is effective to perfect a security interest to the extent the filing would satisfy the applicable requirements for perfection under this act.

(c) **Pre-effective date filing in jurisdiction formerly governing perfection.** This act does not render ineffective an effective financing statement that, before this act takes effect, is filed and satisfies the applicable requirements for perfection under the law of the jurisdiction governing perfection as provided in K.S.A. 84-9-103 prior to the effective date of this act. However, except as otherwise provided in subsections (d) and (e) and (f) and K.S.A. 2005 Supp. 84-9-706, and amendments thereto, the a financing statement ceases to be effective at the earlier of:

(1) The time the financing statement would have ceased to be effective under the law of the jurisdiction in which it is filed; or

(2) June 30, 2006.

(d) **Continuation statement.** The filing of a continuation statement after this act takes effect does not continue the effectiveness of the financing statement filed before this act takes effect. However, upon the timely filing of a continuation statement after this act takes effect and in accordance with the law of the jurisdiction governing perfection as provided in part 3, the effectiveness of a financing statement filed in the same office in that jurisdiction before this act takes effect continues for the period provided by the law of that jurisdiction.

(e) **Application of subsection (c)(2) to transmitting utility financing statement.** Subsection (c)(2) applies to a financing statement that, before this act takes effect, is filed against a transmitting utility and satisfies the applicable requirements for perfection under the law of the jurisdiction governing perfection as provided in K.S.A. 84-9-103 prior to the effective date of this act only to the extent that part 3 provides that the law of a jurisdiction other than the jurisdiction in which the financing statement is filed governs perfection of a security interest in collateral covered by the financing statement.

(f) *Subsection (c)(2) does not apply to a financing statement that was filed in the proper place in the state before July 1, 2001, pursuant to K.S.A. 84-9-401, as such section existed immediately before July 1, 2001, and for which the proper place of filing in the state was not changed pursuant to K.S.A. 84-9-501, as such section existed on July 1, 2001.*

(g) **Application of Part 5.** A financing statement that includes a financing statement filed before this act takes effect and a continuation statement filed after this act takes effect is effective only to the extent that it satisfies the requirements of part 5 for an initial financing statement.

Sec. 2. K.S.A. 2005 Supp. 84-9-705 is hereby repealed.

Sec. 3. This act shall take effect and be in force from and after its publication in the Kansas register.

in an amount determined by the state board of education as provided in this subsection. The state board of education shall:

(1) Determine the amount of the assessed valuation per pupil (AVPP) of each school district in the state and round such amount to the nearest \$1,000. The rounded amount is the AVPP of a school district for the purposes of this section;

The state aid percentage factor of a school district is the percentage assigned to the schedule amount that is equal to the amount of the AVPP of the school district, except that the state aid percentage factor of a school district shall not exceed 100%. The state aid computation percentage is 5% for contractual bond obligations incurred by a school district prior to the effective date of this act, and 25% for contractual bond obligations incurred by a school district on or after the effective date of this act;

(6) multiply each of the amounts computed under (5) by the applicable state aid percentage factor; and
