K.A.R. 51-9-7. Fees for medical and hospital services. The proposed change to this regulation is made in accordance with K.S.A. 44-510i(c)(2), which requires the schedule of maximum fees to be revised as necessary at least every two years by the director of Workers Compensation to assure that the schedule is current, reasonable and fair. The fee schedule establishes the maximum fees for medical, surgical, hospital, dental, nursing, vocational rehabilitation, or any other treatment or services provided or ordered by health care providers and rendered to employees under the Workers Compensation Act.

### Behavioral Sciences Regulatory Board

# Notice of Hearing on Proposed Administrative Regulations

The Behavioral Sciences Regulatory Board will conduct a public hearing from 10 to 11 a.m. Wednesday, September 26, in the board conference room at 712 S. Kansas Ave., Topeka, to consider adopting proposed amendments to permanent rules and regulations for psychology, social work, professional counseling, master's level psychology, and marriage and family therapy.

This 60-day notice of the public hearing constitutes a public comment period for purposes of receiving written public comments on the proposed amendments. All interested parties may submit written comments prior to the hearing to Phyllis Gilmore, Executive Director, Behavioral Sciences Regulatory Board, 712 S. Kansas Ave., Topeka, 66603-3817. E-mail comments may be directed to phyllis.gilmore@bsrb.state.ks.us. All interested parties will be given a reasonable opportunity to present their views orally at the hearing. In order to give all parties an opportunity to present their views, it may be necessary to request each participant to limit any oral presentation to five minutes.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulations and economic impact statements in an accessible format. Requests for accommodation should be made at least five working days in advance of the hearing by contacting Phyllis Gilmore at (785) 296-3240 or the Kansas Relay Center at (800) 766-3777. There is designated accessible parking on Kansas Avenue, and the front entrance of the board office also is accessible.

Copies of the full text of each regulation and the economic impact statement may be reviewed or obtained at the board office and are available on the board's Web site at www.ksbsrb.org (under public information). The following is a summary of the proposed amendments and economic statement. The board does not have a less costly or less intrusive method for achieving the stated purpose of each regulation.

K.A.R. 102-1-13, 102-2-3, 102-3-2, 102-4-2 and 102-5-2 contain the fee requirements for all licensees of the Behavioral Sciences Regulatory Board. The amendments are to enable implementation of House Bill 2182, which was passed by the 2007 Legislature. House Bill 2182 created a temporary permit to allow a professional licensed in another state to temporarily practice in Kansas, thus placing that individual under the jurisdiction of the Behavioral Sciences Regulatory Board while he or she is temporarily practicing in Kansas.

Economic Impact: For any permits issued there would be a positive fiscal impact to the Behavioral Sciences Regulatory Board from the proposed regulation changes due to the increased revenues generated by the new fee. However, the board does not anticipate the issuance of a large number of permits.

# Notice of Hearing on Proposed Administrative Regulations

A public hearing will be conducted at 9 a.m. Wednesday, September 19, in the third floor conference room, Kansas Insurance Department, 420 S.W. 9th, Topeka, to consider the adoption of proposed changes in an existing rule and regulation.

This 60-day notice of the public hearing shall constitute a public comment period for the purpose of receiving written public comments on the proposed rule and regulation. All interested parties may submit written comments prior to the hearing to Deletria Nash, Kansas Insurance Department, 420 S.W. 9th, Topeka, 66612-1678, via facsimile at (785) 291-3673, or via e-mail at dnash@ksinsurance.org. All interested parties will be given a reasonable opportunity to present their views orally on the adoption of the proposed amendments to the regulation during the hearing.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulation and the economic impact statement in an accessible format. Requests for accommodation should be made at least five working days in advance of the hearing by contacting Deletria Nash at (785) 296-4140 or via e-mail at dnash@ksinsurance.org. Any individual desiring a copy of this regulation and/or the policy and procedure that is being adopted by reference, if applicable, may obtain a copy from the department's Web site at www.ksinsurance.org (under the Legal Issues link) or by contacting Deletria Nash. The charge for copies is 50 cents per page.

A summary of the proposed regulation and its economic impact follows:

K.A.R. 40-2-30. Military sales practices. This regulation adopts the department's "Policy and Procedure Relating to Military Sales Practices" dated June 26, 2007. The departments's Policy and Procedure adopts, by reference, the National Association of Insurance Commissioners' model regulation regarding sales practices to active duty service members of the United States Armed Forces. The Policy and Procedure has been modified to reflect specific reference to Kansas laws.

The regulation applies to the solicitation or sale of life insurance and annuity products to military personnel. It outlines practices that are false, misleading, deceptive and unfair as it relates to these individuals.

The fiscal impact on the insurance industry is unknown given that this regulation is based on a model regulation that was only recently adopted; however, the fiscal impact likely will be minimal given that this proposed regulation will be very similar to that of other states. There will be a positive fiscal impact on consumers, specifically military personnel, while there will be little fiscal impact on the Kansas Insurance Department and other governmental agencies.

# Permanent Administrative Regulations

# Article 12.—WATER RIGHT TRANSITION ASSISTANCE PILOT PROJECT PROGRAM

- **11-12-1. Definitions.** (a) "Active vested or certified water right" means a vested water right or currently certified appropriation water right that was put to lawful beneficial use in at least six out of the last 10 calendar years, including any water use that occurred before certification.
- (b) "Chief engineer" means the chief engineer of the division of water resources, Kansas department of agriculture.
- (c) "Commission" means the state conservation commission.
- (d) "Consumptive use" means the gross diversions minus the following:
  - (1) The waste of water, as defined in K.A.R. 5-1-1; and
- (2) the return flows to the source of water supply in the following ways:
  - (A) Through surface water runoff that is not waste; and
  - (B) by deep percolation.
- (e) "Dry land transition plan" means a plan submitted by an applicant describing how the use of dry land crops or permanent vegetation, including warm season grasses and cool season grasses, or both uses, will be established on land that was previously irrigated. If permanent vegetation will be established on land that was previously irrigated, the plan shall meet the following requirements:

- (1) Specifically describe the amount and timing of any irrigation that will be necessary to establish this cover; and
  - (2) not exceed three calendar years.
- (f) "Eligible water right" means a water right that meets all of the following criteria:
- (1) The water right is an active vested or certified water right that has not been abandoned and is privately owned.
- (2) The water right has been verified by the chief engineer as being in an area that is in need of aquifer restoration or stream recovery and is closed to new appropriations of water by the chief engineer, except those for domestic use, temporary permits, term permits for five or fewer years, and small use exemptions for 15 acre-feet or less, if the use, permit, or exemption does not conflict with this program.
- (3) The state's dismissal of the water right would have a net reduction in consumptive use of the aquifer or stream designated for restoration or recovery by the chief engineer.
- (4) The point of diversion is located within an eligible area.
- (g) "Fair market value" means the value of a water right that is the difference between the price of irrigated cropland and the price of nonirrigated cropland, as observed by the marketplace. The fair market value shall be determined from the appraised market value, water ratio tables, appraised agricultural use values, and any other data developed regarding the property value of irrigated cropland, nonirrigated cropland, and grassland by the applicable county appraiser's office and the Kansas department of revenue's division of property valuation.
- (h) "Local entity" means any political subdivision chartered to address water conservation.
- (i)(1) "Partial water right" means either of the following:
- (A) A portion of a water right that will be formally reduced from a water right by the chief engineer upon approval of an application for enrollment based on the agreement of all of the owners of the water right; or
- (B) a portion of a water right that has been formally divided by the chief engineer and will be dismissed upon approval of an application for enrollment based on the agreement of all of the owners of the water right.
- (2) For a partial water right to be deemed an eligible water right, the partial water right shall be associated with a portion of the distribution system, a point of diversion, a place of use, or a type of use that is being physically discontinued. Before enrollment of the partial water right, the chief engineer shall determine the historic net consumptive use that was associated with each portion of the beneficial use of the water right being considered. At the time of enrollment of the partial water right, the owner shall reduce the quantity remaining under the portion of the water right not being enrolled in the water right transition assistance pilot project program and any overlapping water rights to the net consumptive use requirement associated with the remainder of the operation. A partial water right shall not be deemed an eligible water right if there is no physical change in the operation, including discontinuing a point of diversion, discontin-

- uing a type of use, converting to a more efficient system, irrigating less water-intensive crops, or reducing the size of the place of use or the number of irrigated acres.
- (j) "Program" means the water right transition assistance pilot project program.
- (k) "Water right" means any vested right or appropriation right under which a person may lawfully divert and use water. A water right is a real property right appurtenant to and severable from the land on or in connection with which the water is used. The water right passes as an appurtenance with a conveyance of the land by deed, lease, mortgage, will, or other voluntary disposal, or by inheritance. (Authorized by and implementing K.S.A. 2006 Supp. 2-1930; effective Aug. 3, 2007.)
- **11-12-2.** Eligible areas. (a) Each eligible area shall meet either of the following criteria:
  - (1) The area meets the following conditions:
- (A) Is closed to further appropriations except for domestic use, temporary permits, term permits for five or fewer years, and small use exemptions for 15 acre-feet or less, if the use, permit, or exemption does not conflict with this program; and
- (B) is designated by the chief engineer as being in need of aquifer restoration.
  - (2) The area meets the following conditions:
- (A) Is within a stream reach that the chief engineer has closed to further appropriations except for domestic use, temporary permits, term permits for five or fewer years, and small use exemptions for 15 acre-feet or less, if the use, permit, or exemption does not conflict with this program; and
- (B) is designated by the chief engineer as being in need of stream recovery.
- (b) Each eligible area shall also meet the one of the following criteria:
- (1) The board of the groundwater management district has designated the area as a target or high-priority area, and this designation has been approved by the chief engineer.
- (2) Outside a groundwater management district, the chief engineer has designated the area as a target or high-priority area. (Authorized by and implementing K.S.A. 2006 Supp. 2-1930; effective Aug. 3, 2007.)
- **11-12-3. Application and review.** (a) The application period for the program shall be September 1 through November 15.
- (b) Notification of the program shall be published in the Kansas register.
- (c) The program procedures and application forms shall be available at the commission office and at conservation district offices.
- (d) Each application shall be submitted on a form supplied by the commission. The application shall include all of the following:
- (1) The name, address, and telephone number of the owner of the water right;
- (2) the water right file number and the priority date of the water right;
  - (3) the location of the point of diversion;

(continued)

- (4) documentation of the annual water usage, in acrefeet, for the previous 10 years;
- (5) the authorized annual quantity of water associated with the water right;
- (6) the bid price expressed on a per-acre basis, which shall include the number of acres in the water right;
- (7) if the land is going to be planted to permanent cover, a dry land transition plan;
- (8) documentation that verifies historical crop information for the previous 10 years;
- (9) documentation of the normal rate of diversion during the normal irrigation season. If the documentation is not based on data from an accurate water flowmeter, the results of a certified well flow rate test conducted no more than six months before the application date by a person or entity approved by the chief engineer and in a manner prescribed by the chief engineer shall be used for this documentation; and
- (10) a copy of all applicable county appraiser's information content sheets for all parcels where the water right being offered for sale authorizes irrigation.
- (e)(1) Upon the commission's receipt of each application, it shall be reviewed for completeness by the commission. If the application is not complete, the missing information shall be provided by the applicant to the commission not later than December 1.
- (2) After the application is determined to be complete, the application shall be provided by the commission to the chief engineer to determine the eligibility of the water right.
- (f) Upon completion of the review by the chief engineer, the following certifications shall be requested by the commission from the chief engineer:
- (1) A statement indicating whether the water right is an eligible water right;
- (2) the average annual historic consumptive water use associated with each water right or portion of a water right for a representative past period, which shall normally be the six calendar years before the effective date of these regulations;
- (3) the potential impact of dismissing the water right on aquifer restoration or stream recovery; and
- (4) any other additional documentation necessary to quantify or qualify the water use reports.
- (g) The applications shall be prioritized for payment by the commission based on criteria that include the following:
- (1) The timing and extent of the impact of the application on aquifer restoration or stream recovery;
- (2) the impact on local water management strategies and on target or high-priority areas designated by the board of each groundwater management district and by the chief engineer; and
  - (3) the priority date of the water right.
- (h) Each applicant shall be notified by the commission of the approval or the disapproval of the program application no later than January 15 of the year following the date on which the application is filed. If an application is not approved, the application, water right dismissal form, and all other related documents shall be considered void and shall be returned to the applicant.

- (i) Any application meeting the requirements of this article may be approved contingent upon funding and the receipt of official documentation by the commission that the water right has been dismissed by the chief engineer and its priority has been forfeited.
- (j) The negotiations between owners and lessees regarding program participation shall not involve the commission.
- (k) No more than 10 percent of a county's irrigated acres shall be eligible for the duration of this program.
- (l) There shall be no financial contribution requirement for a local entity. However, financial contributions by a local entity may increase the priority of an application.
- (m) Each program application that does not meet the requirements of these regulations shall be rejected by the commission. (Authorized by and implementing K.S.A. 2006 Supp. 2-1930; effective Aug. 3, 2007.)
- **11-12-4. Payment.** (a) The application approval and payment amounts shall be based on the following:
  - (1) The priority date of the water right;
- (2) the calculated quantity of the historic consumptive water use of the water right;
- (3) the impact of the water right's dismissal on aquifer restoration or stream recovery;
- (4) the amount of monetary contributions from a local entity or the applicant, or both;
  - (5) the applicant's bid price;
- (6) the appraised agricultural use value and fair market value as determined by the applicable county appraiser's office and the Kansas department of revenue's division of property valuation; and
- (7) the terms of any request to continue irrigating on a limited basis to establish permanent vegetation.
- (b) The maximum amount paid by the commission for the retirement of a water right authorized for irrigation shall not exceed the fair market value by more than 20 percent.
- (c) Each water right owner shall sign a water right transition assistance grant agreement before payment is made by the commission. Each grant agreement shall include the following provisions:
- (1) The price to be paid by the commission to the water right owner for the dismissal of the subject water right and the terms of payment;
- (2) the date on which the agreement will become effective:
  - (3) the file number of the water right to be retired;
  - (4) one of the following statements:
- (A) The approval is conditional on documentation being provided to the commission indicating that the chief engineer has dismissed the water right and ordered its priority to be forfeited; or
- (B) the approval is conditional on documentation being provided to the commission indicating any terms of the chief engineer to continue irrigation on a limited basis, not to exceed three years, for the purpose of establishing permanent vegetation. The documentation shall include the date on which the water right dismissal will become effective and its priority will be forfeited; and
- (5) if the point of diversion is located within a groundwater management district, a provision that any remain-

ing water user charges assessed by the district before the water right is dismissed will remain the sole responsibility of the owner of the water right.

- (d) Payment shall be made in equal annual installments, not to exceed 10, or in one lump sum payment. If annual payments are selected, the payments shall be made by March 1 in each year following the year in which the first payment is made. The following factors shall be considered by the commission when determining which payment schedule to use:
  - (1) The number of eligible applicants; and
  - (2) the amount of program funds for that year.
- (e) If a dry land transition plan has been approved or if there is a standing crop at the time of application approval, payment shall not be made until after irrigation from the subject water right has permanently ceased. (Authorized by and implementing K.S.A. 2006 Supp. 2-1930; effective Aug. 3, 2007.)
- **11-12-5.** Transition to dry land. (a) If land that will no longer be irrigated is to be planted, under this program, to permanent vegetation including warm or cool season grasses, the chief engineer may be requested by the commission to condition the dismissal of the associated water right to allow limited irrigation of the land for up to three years to establish this cover.
- (b) The applicant shall submit a dry land transition plan to the commission if land is to be planted to warm or cool season grasses or other permanent vegetation. A dry land transition plan may be disapproved by the commission and modifications to any dry land transition plan may be required by the commission if the plan does not meet the requirements for soil erosion prevention practices in section IV of the "Kansas field office technical guide" as adopted by reference in K.A.R. 11-7-14. (Authorized by and implementing K.S.A. 2006 Supp. 2-1930; effective Aug. 3, 2007.)
- **11-12-6. Dismissal of water right.** (a) Each water right for which payment is received from the program shall be dismissed by the chief engineer, and the priority of the water right shall have been forfeited.
- (b) The chief engineer shall be requested by the commission not to appropriate or reappropriate any additional water in an eligible area if payments have been made for the program in that eligible area, except for the following, if the use, permit, or exemption does not conflict with this program:
  - (1) Domestic use;
  - (2) temporary permits;
  - (3) term permits for five or fewer years; and
  - (4) small use exemptions for 15 acre-feet or less.
- (c)(1) Each well associated with the water right being dismissed shall be reconditioned according to Kansas department of health and environment standards and specifications to meet the requirements for one of the following:
  - (A) Plugging as an abandoned water well;

- (B) placing on inactive well status; or
- (C) physically retrofitting to domestic use.
- (2) The documentation for the well plugging, well capping, or domestic well retrofitting shall be provided to the commission before the grantee receives the first payment. The requirements specified in this subsection shall be temporarily waived if a conditional water right is approved by the chief engineer under a dry land transition plan.
- (d) For wells approved to continuing operating under a dry land transition plan, each well associated with the water right being dismissed shall be reconditioned according to Kansas department of health and environment standards and specifications to meet the requirements for one of the following, within 60 days of the last time that the permanent vegetation is irrigated:
  - (1) Plugging as an abandoned water well;
  - (2) placing on inactive well status; or
  - (3) physically retrofitting to domestic use.
- (e) For the purposes of these regulations, if a partial water right is dismissed on one common well that continues to lawfully appropriate water for any other beneficial use except domestic use, the grantee shall not be required to recondition the well as an abandoned well, place the well on inactive status, or physically retrofit the well to domestic use according to Kansas department of health and environment standards and specifications.
- (f) For the purposes of subsections (c), (d), and (e), "Kansas department of health and environment standards and specifications" shall mean the following:
  - (1) K.A.R. 28-30-1 through 28-30-10; and
- (2) K.A.R. 28-30-200 through 28-30-207. (Authorized by and implementing K.S.A. 2006 Supp. 2-1930; effective Aug. 3, 2007.)
- **11-12-7. Petition for reconsideration.** (a) Any water right owner may request reconsideration of any decision of the commission by filing a petition for reconsideration.
- (b) Each petition for reconsideration shall be submitted in writing to the commission within 30 days of the commission's decision and shall state why the commission's decision should be reviewed and why the decision should be modified or reversed.
- (c) The petition for reconsideration shall be reviewed by the commission during the next scheduled commission meeting. Whether the decision should be affirmed, modified, or reversed shall be determined by the commission. The commission's final decision shall state each reason for this determination.
- (d) The decision of the commission shall be considered the final agency action if no petition for reconsideration of that commission decision has been received by the commission after 30 days from the date on which the decision was made. (Authorized by and implementing K.S.A. 2006 Supp. 2-1930; effective Aug. 3, 2007.)
