Governmental Ethics Commission

Opinion No. 2007-10

Written August 23, 2007, to all interested persons:

Pursuant to K.S.A. 46-254, the Kansas Governmental Ethics Commission takes this opportunity to issue its opinion regarding lobbyist reporting of meals provided to officers and employees of the executive branch of state government.

Opinion:

K.S.A. 46-237a, as amended by L. 2007, Ch. 121, §1, restricts the acceptance of meals by officers, employees and members of boards under the executive branch of state government as follows:

- (a) The provisions of this section shall apply to:
- (1) The governor;
 - (2) the lieutenant governor;
 - (3) the governor's spouse;
 - (4) all officers and employees of the executive branch of state government; and
 - (5) all members of boards, commissions and authorities of the executive branch of state government.

...

(c) No person subject to the provisions of this section shall solicit or accept free or special discount meals from a source outside of state government, except:

- (1) Meals, the provision of which is motivated by a personal or family relationship or provided at events that are widely attended. An occasion is "widely attended" when it is obvious to the person accepting the meal that the reason for providing the meal is not a pretext for exclusive or nearly exclusive access to the person;
- (2) meals provided at public events in which the person is attending in an official capacity;
- (3) meals provided to a person subject to this act when it is obvious such meals are not being provided because of the person's official position;
- (4) food such as soft drinks, coffee or snack foods not offered as part of a meal;
- (5) any meal the value of which is \$25 or less;
- (6) meals provided to a person when the person's presence at the event or meeting at which the meal is provided serves a legitimate state purpose or interest and the agency of which such person is an officer or employee authorizes such person's attendance at such event or meeting; and
- (7) meals provided to the governor's spouse and members of the governor's immediate family at the event or meeting at which the meal is provided serve a legitimate state purpose or interest. . . . (Emphasis added.)

Due to the addition of subsections 5, 6, and 7 to K.S.A. 46-237a(c), which took effect on July 1, 2007, questions

have arisen regarding whether meals provided by lobbyists to executive branch officers and employees must be included on reports filed by lobbyists.

A lobbyist is required by K.S.A. 46-269(b) to report "the aggregate amount or value of all expenditures made . . . by the lobbyist or by the lobbyist's employer for or in direct relation to lobbying. . . ." Additionally, K.S.A. 46-269(c)(1) requires itemization of certain expenditures for gifts, entertainment or hospitality provided to officers and employees of the legislative and judicial branches of state government.

The Commission determines that if a meal is provided in relation to lobbying an executive branch officer or employee or their spouse, the lobbyist must include the expenditure for the meal in the aggregate amount for food and beverage provided in direct relation to lobbying. Because the requirement for itemizing expenditures in K.S.A. 46-269(c)(1) applies only to officers and employees of the legislative and judicial branches of government, meals provided to officers and employees of the executive branch and their spouses should be included in the unitized total for food and beverage on the Lobbyist Employment and Expenditure Report.

Opinion No. 2007-11

Written August 23, 2007, to all interested persons:

Pursuant to K.S.A. 25-4159, the Kansas Governmental Ethics Commission takes this opportunity to issue its opinion to clarify questions regarding the use of personal and campaign addresses and email communications under the Campaign Finance Act, K.S.A. 25-4142 *et seq.*

Questions:

1. May legislators and other state and local officers include their campaign or personal website, email, or postal addresses in newsletters or other communications that are generated or distributed using public funds, machinery, equipment or supplies?

2. Can a website, email or other internet communication constitute political advertising subject to the disclosure statements required by K.S.A. 25-4156, as amended by L. 2007, Ch. 196, § 4?

Opinion:

Regarding the first question, K.S.A. 25-4169a prohibits the use of public funds, equipment or supplies to expressly advocate the election or defeat of any candidate as follows:

- (a) No officer or employee of the state of Kansas . . . shall use or authorize the use of public funds or public vehicles, machinery, equipment or the time of any officer or employee of . . . such governmental agency . . . to expressly advocate the nomination, election or defeat of a clearly identified candidate to state or local office. . . .

The prohibitions of K.S.A. 25-4169a apply only to express advocacy. K.S.A. 2006 Supp. 25-4143(h) defines the phrase "expressly advocate the nomination, election or defeat of a clearly identified candidate" to mean:

- . . . any communication which uses phrases including, but not limited to:
- (1) "Vote for the secretary of state";
 - (2) "re-elect your senator";
 - (3) "support the democratic nominee";
 - (4) "cast

your ballot for the republican challenger for governor"; (5) "smith for senate"; (6) "Bob Jones in '98"; (7) "vote against Old Hickory"; (8) "defeat" accompanied by a picture of one of more candidates; or (9) "Smith's the one."

It is our opinion that a website, email or postal address expressly advocates the nomination, election or defeat of a candidate if that address contains words meeting the definition of express advocacy pursuant to K.S.A. 2006 Supp. 25-4143(h). Therefore, including a campaign or personal website, email or postal address in a communication generated or distributed using public funds, machinery or equipment is a violation of the Campaign Finance Act if that address expressly advocates for or against a candidate. Official state or local office website, email or postal addresses issued and maintained by a state or local government would not be considered express advocacy.

The second question concerns the application of K.S.A. 25-4156, as amended by L. 2007, Ch. 196, § 4, which defines corrupt political advertising as follows:

Corrupt political advertising of a state or local office is:

...

(C) publishing or causing to be published any brochure, flier or other political fact sheet which expressly advocates the nomination, election or defeat of a clearly identified candidate for a state or local office, unless such matter is followed by a statement which states: "Paid for" or "Sponsored by" followed by the name of the chairperson or treasurer of the political or other organization sponsoring the same or the name of the individual who is responsible therefor.

The provisions of this subsection (C) requiring the disclosure of the name of an *individual* shall not apply to *individuals* making expenditures in an aggregate amount of less than \$2,500 within a calendar year. . . . (Emphasis added.)

The question has arisen whether the disclosure requirements of this statute apply to a website, email or other internet communication that expressly advocates for or against a candidate. In Opinion No. 2004-02 we considered whether material posted on a website was published, and stated as follows:

The American Heritage Dictionary defines the word "publish" as: "1) To prepare and issue (printed material) for public distribution or sale. 2) To bring to the public attention: announce." *The American Heritage Dictionary of the English Language*, Fourth Edition Copyright 2000 by Houghton Mifflin Company. The Commission now determines that information posted on a website has been brought to the public's attention and therefore, has been published. Consequently, such material requires a "paid for by" disclaimer if the material expressly advocates the nomination, election or defeat of a clearly identified candidate for state or local office.

It is our opinion that an email or other internet communication that expressly advocates will be considered political advertising if it is published. K.A.R. 19-20-4 clarifies that business cards, door hangers, postcards and fund-raiser invitations are subject to the disclosure requirements of K.S.A. 25-4156, as amended by L. 2007, Ch. 196, §. 4. Both the statute and the regulation were enacted before the widespread use of political internet communications; however, we believe the same analysis

used for communications written on paper and distributed by hand or through the postal service should be used for internet communications to determine whether they constitute political advertising subject to the disclosure requirements of K.S.A. 25-4156, as amended by L. 2007, Ch. 196, § 4. Therefore, an email or internet communication expressly advocating the nomination, election or defeat of a clearly identified candidate for a state or local office may be published political advertising depending on its breadth of distribution. If the email or other internet communication is distributed so that it is brought to the public's attention, it will require a "paid for" or "sponsored by" disclosure statement. It should be noted that these requirements do not apply to *individuals* who spend less than \$2,500 within a calendar year.

State of Kansas
Department of Health and Environment
Request for Comments

The Kansas Department of Health and Environment has received a permit modification request to expand the Sumner County construction and demolition landfill operating under KDHE Permit 199. Since August 2006, the landfill, transfer station and waste tire monofill authorized by Permit 199 have been operated by the city of Wellington, and an application has been submitted to KDHE to transfer Permit 199 from Sumner County to the city. Thus, a permit issued to expand the landfill also would

recognize operation of the landfill, transfer station and waste tire monofill by the city of Wellington and be issued to the city. The landfill is located at 320 S. West Road, south of Wellington, in the Southwest Quarter of the Northwest Quarter of Section 25, Township 32 South, Range 1 West. Only construction and demolition wastes, as defined by Kansas statutes, would be allowed for disposal into the landfill. The landfill's proposed expansion will increase the disposal area from approximately 4 acres to 10 acres. With an estimated additional 253,600 cubic yards of capacity, the expanded construction and demolition landfill's estimated life is about 20 years.

The Sumner County commissioners have certified that the application described herein is consistent with the county's solid waste management plan and local land use restrictions or zoning. KDHE has reviewed the application and found it to be in conformance with state solid waste statutes and regulations.

KDHE is providing public notice of its intent to approve the proposed landfill expansion and permit transfer. However, a final decision to approve the expansion has not been made, and KDHE will consider information gathered during the public comment period before making a final decision. A copy of the administrative record, which includes the permit application, engineering drawings, draft permit and other information with respect to this permit action, will be available for public review until October 1, during normal business hours, at the following locations:

Kansas Department of Health and Environment
Bureau of Waste Management

City of Wellington Administration Center

Wellington, 67152
Contact: Gerald Dawson
(620) 326-7831

Additionally, the application form is available for public viewing on the Internet at <http://www.kdheks.gov/waste>. Anyone wishing to comment on the proposed facility should submit written statements by 5 p.m. October 1 to Charles Bowers of KDHE at the address listed above, by facsimile to (620) 431-1211 or by e-mail to cbowers@kdhe.state.ks.us. Comments postmarked by October 1 and received within one week thereafter also will be considered.

After consideration of all written comments received during the public notice period, KDHE will make a final decision on whether to issue the permit modification. Notice of the decision will be given to the applicant, to anyone who submitted written comments during the comment period, and to those who requested notice of the final permit decision.
