Direct written comments or questions regarding the proposed permit to Michael J. Parhomek, KDHE, Bureau of Air and Radiation, 1000 S.W. Jackson, Suite 310, Topeka, 66612-1366. In order to be considered in formulating a final permit decision, written comments must be received before the close of business May 12.

A person may request a public hearing be held on the proposed permit. The request for a public hearing shall be in writing and set forth the basis for the request. The written request must be submitted to Christy Thurman, Bureau of Air and Radiation, not later than the close of business May 12 in order for the Secretary of Health and Environment to consider the request.

The U.S. Environmental Protection Agency has a 45-day review period, which will start concurrently with the 30-day public comment period, within which to object to the proposed permit. If the EPA has not objected in writing to the issuance of the permit within the 45-day review period, any person may petition the administrator of the EPA to review the permit. The 60-day public petition period will directly follow the EPA's 45-day review period. Interested parties may contact KDHE to determine if the EPA's 45-day review period has been waived.

Department of Transportation

Notice to Consulting Engineers

The Kansas Department of Transportation is seeking qualified consulting engineering firms for the project listed below. A response may be submitted by e-mail to neil@ksdot.org or seven signed copies of the response can be mailed to Neil Rusch, P.E., Assistant to the Director, Division of Engineering and Design, KDOT, Eisenhower State Office Building, 700 S.W. Harrison, Topeka, 66603-3754. Responses shall be limited to four pages and must be received by noon April 24 for the consulting engineering firm to be considered.

From the firms expressing interest, the Consultant Selection Committee will select a list of the most highly qualified (not less than three and not more than five) and invite them to attend an individual interview conference. At this time, the consulting firms can more thoroughly discuss their experience related to the type of project at hand and will be expected to discuss, in some detail, their approach to this project and the personnel to be assigned to the project. Firms not selected to be short-listed will be notified by letter.

The Consultant Negotiating Committee, appointed by the Secretary of Transportation, will conduct the discussions with the firms invited to the individual interview conferences. The committee will select the firm to perform the professional services required for completing the advertised project. After the selection of this firm, the remaining firms will be notified by letter of the outcome.

Regional Transportation Study

The Kansas Department of Transportation is seeking proposals from qualified firms to conduct a study of a five-county area in northeast Kansas including Douglas, Johnson, Leavenworth, Miami and Wyandotte. The planning partners are KDOT, KTA, MARC, Lawrence-Douglas County Metro Planning Commission, and the five counties and key cities in the area.

The goal of the study is to develop an integrated approach to transportation planning for the region. It will be conducted in two phases.

Phase 1 will include an:

- Identification of the significant developments in the five-county area and determine how these developments are impacting the regional transportation system.
- Examination of the state highway system and the local roads that perform regional traffic services. This (continued)

examination should estimate future traffic and determine the capacity of the existing highways in this region to carry projected traffic. Freight is becoming an increasingly important component of traffic issues and needs to be specifically addressed as part of this study as well.

Identify transportation needs across all modes (including transit) before prioritizing more detailed work to be done in Phase 2.

Phase 2 of the study will include:

- An identification of corridors for future improvement. This could include an identification of existing corridors where capacity needs to be added or where technology solutions can be applied. It also could include an identification of new corridors that need to be added to the transportation system and a planning level identification of future right-of-way needs.
- Initial screening of costs associated with the transportation improvements needs and priorities of the region.
- The development of an implementation toolbox that includes financing mechanisms and land use regulatory techniques that will help local governments preserve future transportation options

There are a number of studies and design projects within the five-county area that are currently underway or complete. It is important for the study to be coordinated with those efforts. Some notable examples are:

- · Statewide Freight Plan
- Statewide Truck Weigh Station Relocation & Modernization Study
- Metropolitan Transportation Plans
- I-435 from K-10 to \hat{I} -35 PE Only Study
- I-70/K-7 Interchange PE Only Study
- I-35 Southwest Johnson County Interchange PE Only Study
- K-7 Corridor Management Plan
- South Metro Connection Study
- I-70 Interchange at Leavenworth County Road 1
- K-10 Transportation Study
- Kaw Connects Study
- Johnson County Arterial Roadway Network Plan
- I-35/US-69 MIS, and
- South Lawrence Trafficway

Firms are invited to be creative in their approach to this study. KDOT and its partners will be open to new ideas and fresh approaches. Public and stakeholder involvement will be a significant part of the scope and is absolutely critical to the success of this study.

Phase 1 of the study should be completed in 12 to 18 months.

It is KDOT's policy to use the following criteria as the basis for selection of the consulting engineering firms:

- 1. Size and professional qualifications;
- 2. experience of staff;
- 3. location of firm with respect to proposed project;
- 4. work load of firm; and
- 5. firm's performance record.

which can be given effect without the invalid provisions or application. To this end the provisions of this section are severable.

Be it enacted by the Legislature of the State of Kansas:

- (3) "Licensed motor carrier" means any person that holds a certificate of convenience and necessity, a certificate of public service, private carrier permit or an interstate license as an interstate exempt carrier from the state corporation commission, or is required to register motor carrier equipment pursuant to 49 U.S.C. §14504 14504a.
- (4) "Motor vehicle" means any automobile, truck-trailer, semitrailer, tractor or any other self-propelled or motor driven vehicle used upon any of the public highways of Kansas for the purpose of transporting property.

- (b) For purposes of the employment security law, it is hereby declared to be the policy of this state that, consistent with requirements of 49 C.F.R.§376.12(c)(1), an independent contractor relationship between an owner-operator and a licensed motor carrier may exist when the licensed motor carrier complies with the applicable statutory and regulatory requirements governing a licensed motor carrier's use of leased vehicles in the transportation of property. To that end, in determining whether an employment relationship exists between a licensed motor carrier and a driver, the fact that the licensed motor carrier, pursuant to a lease agreement, requires the driver to comply with applicable provisions of the regulations of the state corporation commission, federal motor carrier safety administration or other federal agency having jurisdiction of motor carriers shall not be considered as the licensed motor carrier's exercise of control over the driver.
- Sec. 2. K.S.A. 2007 Supp. 66-1,115 is hereby amended to read as follows: 66-1,115. It shall be unlawful for any private motor carrier to operate as a carrier of property or passengers within this state either in intrastate commerce or in interstate commerce without first having obtained from the commission a license or permit or *without being* registered pursuant to 49 U.S.C. 14504 federal statutes. An application shall be made to the

(continued

commission in writing stating such information as the commission may request. Upon receipt of such information and on compliance with the rules and regulations and payment of fees, the commission shall issue a license or permit to such applicant.

466

- Sec. 3. K.S.A. 2007 Supp. 66-1,116 is hereby amended to read as follows: 66-1,116. - (b) It shall be unlawful for a public motor carrier of property, of household goods or of passengers or a private motor carrier of property which is exempt from federal regulations, to operate in interstate commerce within this state, without having furnished the commission, in writing such information as the commission may request covering observance of state police regulations and the payments of the fees. This act shall apply to all persons and motor vehicles engaged in interstate commerce only to the extent permitted by the constitution and laws of the United States.
- Sec. 4. K.S.A. 2007 Supp. 66-1,128 is hereby amended to read as follows: 66-1,128. (a) Except as provided in subsection (c) or pursuant to 49 U.S.C. 14504 federal statutes, no certificate, permit, or license shall be issued by the commission to any public motor carrier of property, household goods or passengers or private motor carrier of property, until the applicant has filed with the commission a liability insurance policy approved by the commission, in such reasonable amounts as the commission determines by rules and regulations is necessary to adequately protect the interest of the public with due regard to the number of persons and amount of property involved. Such amounts shall not be less than \$100,000 for personal injury or death to any one person in any one accident, \$300,000 for injury or death to two or more persons in any one accident and \$50,000 for loss to property of others in any one accident, which liability insurance shall bind the obligors to pay compensation for injuries to persons and loss of or damage to property resulting from the negligent operation of such carrier.
- (b) The liability insurance policy required to be filed by any resident applicant shall be in an insurance company or association authorized to transact business in this state. Such policy of any nonresident applicant may be afforded by an insurance company not authorized to do business in this state which has given the commissioner of insurance of this state a power of attorney authorizing such commissioner to accept service on its behalf of notice or process in any action upon such policy. Such company not authorized to do business in this state shall have on file with such commissioner a form as prescribed by subsection (b) of K.S.A. 40-3106, and amendments thereto. A certificate of any insurance company or association, in a form approved by the commission certifying that there is in effect the liability insurance required by this section, may be filed in lieu of the insurance policy itself. In the event such certificate is filed, such company shall furnish to the commission upon its request a duplicate original of the insurance policy and all endorsements thereon. No other or additional bonds or licenses than those prescribed in this act shall be required of any motor carrier by any city or town or other agency of the state.
- (c) Any public motor carrier of property, household goods or passengers or private motor carrier of property in whose name more than 25 motor vehicles are registered may qualify as a self-insurer by obtaining a certificate of self-insurance from the commissioner of insurance. Upon application of any such carrier, the commissioner of insurance may issue a certificate of self-insurance, if the commissioner is satisfied that such carrier is possessed and will continue to be possessed of ability to pay

- any judgment obtained against such carrier arising out of the ownership, operation, maintenance or use of any motor vehicle registered in such carrier's name.
- (d) Upon notice and a hearing in accordance with the provisions of the Kansas administrative procedure act, the commissioner of insurance may cancel a certificate of self-insurance upon reasonable grounds. Failure to pay any judgment against a self-insurer, arising out of the ownership, operation, maintenance or use of a motor vehicle registered in such self-insurer's name, within 30 days after such judgment shall have become final, shall constitute reasonable grounds for the cancellation of a certificate of self-insurance.
