The Kansas Department of Health and Environment is soliciting comments regarding a proposed air quality operating permit. Bunge North America (OPD West) Inc. has applied for a significant modification to its Class I operating permit in accordance with the provisions of K.A.R. 28-19-510 et seq. The purpose of a Class I permit is to identify the sources and types of regulated air pollutants emitted from the facility; the emission limitations, standards and requirements applicable to each source; and the monitoring, record keeping and reporting requirements applicable to each source as of the effective date of permit issuance.

Bunge North America, Inc., 11720 Borman Drive, P.O. Box 28500, St. Louis, Missouri, owns and operates an existing soybean processing and oil extraction facility located at 701 E. 6th Ave., Emporia, Kansas. The draft modifications would not authorize any new emissions of air contaminants. The purpose of this modification is to in-

corporate amendments to the monitoring and reporting requirements, as required by Consent Decree in Civil Action No. 2:06-CV-02209. Under the Consent Decree, a final VOC SLR limit must be incorporated into Bunge's operating permit. The requested modification would incorporate this VOC SLR limit on the soybean oil extraction process. A new construction permit also is being issued in order to incorporate the requirements of the Consent Decree.

A copy of the proposed permit, permit application, all supporting documentation and all information relied upon during the permit application review process is available for a 30-day public review during normal business hours at the KDHE, Bureau of Air and Radiation, 1000 S.W. Jackson, Suite 310, Topeka; and a copy of the proposed permit can be reviewed at the KDHE Southeast District Office, 1500 W. 7th, Chanute. To obtain or review the proposed permit and supporting documentation, contact Gerald McIntyre, (785) 296-8548, at the KDHE central office; and to review the proposed permit only, contact Doug Cole, (620) 431-2390, at the KDHE Southeast District Office. The standard departmental cost will be assessed for any copies requested.

Direct written comments or questions regarding the proposed permit to Gerald McIntyre, KDHE, Bureau of Air and Radiation, 1000 S.W. Jackson, Suite 310, Topeka, 66612-1366. In order to be considered in formulating a final permit decision, written comments must be received before noon September 15.

Any member of the public may request a public hearing be conducted to receive comments on the proposed issuance of the draft air quality permits. Written requests to hold a public hearing should be sent to the attention of Christy Thurman at the address listed above or by fax to (785) 296-7455 and must be received by noon Monday, September 15.

The U.S. Environmental Protection Agency has a 45-day review period, which will start concurrently with the 30-day public comment period, within which to object to the proposed permit. If the EPA has not objected in writing to the issuance of the permit within the 45-day review period, any person may petition the administrator of the EPA to review the permit. The 60-day public petition period will directly follow the EPA's 45-day review period. Interested parties may contact KDHE to determine if the EPA's 45-day review period has been waived.
