These regulations are proposed for adoption on a permanent basis. A summary of the proposed regulations and the economic impact follows:

Article 28.—RETAIL DEALER INCENTIVE

Adoption of K.A.R. 92-28-1. Definitions. This regulation includes the definition of "quarter" for the Kansas Retail Dealer Incentive and is supplemental to K.S.A. 79-34,170.

Economic Impact: The Department of Revenue assumes that the Kansas Legislature has or will consider and take appropriate steps to manage the "potential" financial impacts upon other government agencies due to the funding of this incentive. There would be a positive financial impact upon private business or individuals due to the economic development incentive being provided to retail dealers in Kansas, as well as due to potential job growth. The Kansas Retail Dealer Incentive is for the selling or dispensing of renewable fuels and biodiesel. For renewable fuels, if a distribution percentage of the retailer's total gasoline gallonage in comparison to renewable fuels gallons meets a certain percentage, an incentive of \$.065 is provided. If the disparity is 2 percent or less, \$.045 per gallon is allowed. The renewable fuel threshold in order to receive the incentive starts at 10 percent for 2009 up to 25 percent in 2025 (the renewable percent increases 1 percent each year). For biodiesel, the incentive is calculated by using the retail dealer's biodiesel gallonage in comparison to the total diesel and biodiesel gallonage. Similar thresholds apply, starting with 2 percent in 2009 up to 25 percent for 2025. If the thresholds are met, the incentive rate is \$.03 per gallon.

Adoption of K.A.R. 92-28-2. Filing of quarterly reports; deadline. This regulation includes the filing of quarterly reports and deadlines for the Kansas Retail Dealer Incentive.

Economic Impact: The Department of Revenue assumes that the Kansas Legislature has or will consider and take appropriate steps to manage the "potential" financial impacts upon other government agencies due to the funding of this incentive. There would be a positive financial impact upon private business or individuals due to the economic development incentive being provided to retail dealers in Kansas, as well as due to potential job growth. Adoption of K.A.R. 92-28-3. Record requirements. This regulation includes record requirements for the Kansas Retail Dealer Incentive.

Economic Impact: The Department of Revenue assumes that the Kansas Legislature has or will consider and take appropriate steps to manage the "potential" financial impacts upon other government agencies due to the funding of this incentive. There would be a positive financial impact upon private business or individuals due to the economic development incentive being provided to retail dealers in Kansas, as well as due to potential job growth. Adoption of K.A.R. 92-28-4. Funds erroneously paid; informal conferences. This regulation includes the Kansas Retail Dealer Incentive requirements if funds are erroneously paid, including the informal conference process.

Economic Impact: The Department of Revenue assumes that the Kansas Legislature has or will consider and take appropriate steps to manage the 'potential' financial impacts upon other government agencies due to the funding of this incentive. The renewable fuel threshold in order to receive the incentive starts at 10 percent for 2009 up to 25% in 2025 (the renewable percent increases 1 percent each year). For biodiesel, the incentive is calculated by using the retail dealer's biodiesel gallonage in comparison to the total diesel and biodiesel gallonage. Similar thresholds apply, starting with 2 percent in 2009 up to 25 percent for 2025. If the thresholds are met, the incentive rate is \$.03 per gallon.

These regulations are expected to cause no economic impact on other governmental agencies. The private businesses and individuals outlined in K.A.R. 22-6-1 through 22-6-26 will have to pay the appropriate fees for the licensing or storage of fireworks. These regulations and fees do not impact the retail point of sale of consumer fireworks at their stands, tents or building. The Kansas State Fire Marshal's Office will receive revenues from the licensing of the fireworks and also will bear all the expenses for the administration of the regulations and the program.
