**Notice of Commencement of Negotiations for
Construction Manager At-Risk Services**

Notice is hereby given of the commencement of negotiations for construction management at-risk services for the construction of a new School of Pharmacy building on the University of Kansas, West Campus area in Lawrence. The construction manager will provide at a minimum the following services: preconstruction budgeting, cost estimating, scheduling, constructability reviews and value engineering studies; divide the project into scopes of work for bidding, prequalify subcontractors and take bids for the work; review bids with the design team and owner to determine bids to accept, prepare cost estimates for the unbid portions and provide a guaranteed maximum price and a bond; and manage construction and track all costs for the design team and owner's review.

Estimated construction cost is \$31,395,000. Total building area is approximately 111,700 square feet. General areas of concern include identification and management of multiple bid packages on an accelerated phased schedule, effective management of construction costs, successfully addressing the owner's project needs and goals, and completion of construction for occupancy by the owner not later than November 2010, and preferably by August 2010. The construction manager's role will be critical in identifying the means, methods and other provisions that will be required to allow this project to be constructed on time and within budget.

Architectural programs and additional information concerning the scope of services are available from Jim Modig, Director, KU Office of Design and Construction Management, (785) 864-3433 or jmodig@ku.edu.

To be considered, five (5) bound statements of qualifications and one (1) PDF file on a CD of the following should be provided: a letter of interest, an SF330 Part I, information regarding similar projects, experience in this type of project delivery system, references from design professionals and owners from previous projects, description of the construction manager or general contractor project management approach, financial statements, bonding capacity including capability of providing a public works bond (K.S.A. 60-1111) and evidence of such bonding capacity (note: failure to present such bonding evidence will deem the firm as unqualified for selection), and an SF330 Part II for each firm. Proposals should be concise and follow the current State Building Advisory Commission guidelines, available to firms at <http://da.ks.gov/fp/> (Chapter 4 of the BDCM). If additional information is needed, contact Phyllis Fast, Division of Facilities Management, Suite 102, Landon State Office Building, 900 S.W. Jackson, Topeka, 66612, (785) 296-5796, Phyllis.Fast@da.ks.gov. Submittals should be received by Phyllis Fast before noon October 24.

(b) All formation samples or drill cuttings normally saved in drilling or recompletion operations and any cores taken shall be retained by the operator for 120 days after the spudding of the well.

(c)(1) Upon request of the Kansas geological survey as specified in paragraph (c)(2), the samples shall be washed and cut into splits or sets. One set shall be placed in labelled sample envelopes and delivered, at the prepaid expense of the operator, to the Kansas geological survey, sample library, Wichita, Kansas. Upon request of the Kansas geological survey, all cores or core longitudinal sections not required by the operator for well evaluation purposes shall be placed in stratigraphic sequence in adequate boxes, labelled with the well name, location, and footage, and delivered, at the prepaid expense of the op-

erator, to the Kansas geological survey, Lawrence, Kansas.

(2) The operator shall be given notice that samples or cores are required by a notice appended to or on a copy of the notice of intention to drill returned to the operator by the conservation division or the Kansas geological survey. Delivery of the processed samples or cores shall be made within 120 days of the spud date or date of commencement of recompletion of the well.

(i) A log American standard code for information interchange standard (LAS) file, using version 2.0 or a newer version; and

(ii) an image file.

If electronic log files are available, these files shall be delivered to the conservation division in lieu of the paper logs required by this regulation.

(2) For good cause shown, an extension of 60 days may be granted by the supervisor of the production department or the supervisor's designated agent for the submission of the required information. The request for extension shall be submitted in writing and received before the expiration of the 120-day period.

(3) The conservation division shall deposit the information with the Kansas geological survey.

(4) Failure to deliver the information to the conservation division shall be punishable by a \$500 penalty and operator license review.

(e)(1) If a written request for confidentiality is made to the conservation division within 120 days of the spud date or the date of commencement of recompletion of the

well, all information, samples, or cores filed as required in subsections (c) or (d) shall be held in confidential custody for an initial period of one year from the written request.

82-3-108. Well location; exception. (a) General setback requirement. Except as provided by subsection (b) or (c), an oil well or gas well shall not be drilled nearer than 330 feet from any lease or unit boundary line.

(b) Setback requirements for eastern Kansas.

(1) An oil well that is drilled to a total depth of less than 2,000 feet and is drilled in one of the following counties shall not be drilled nearer than 165 feet from the nearest lease or unit boundary line: Allen, Anderson, Atchison, Bourbon, Brown, Cherokee, Coffey, Crawford, Douglas, Elk, Franklin, Greenwood, Jackson, Jefferson, Johnson, Labette, Leavenworth, Linn, Lyon, Miami, Montgomery, Neosho, Osage, Shawnee, Wilson, Woodson, and Wyandotte.

(2) An oil well that is drilled in Chautauqua County and is drilled to a total depth of less than 2,500 feet shall not be drilled nearer than 165 feet from the nearest lease or unit boundary line.

(c) Well location exception. A well location exception may be granted to permit drilling within shorter distances than those provided in subsection (a) or (b), whichever is applicable, and to the acreage attributable and assigned allowables, if these exceptions are necessary either to prevent waste or to protect correlative rights. In granting the exception, the acreage attributable to the well and the assigned allowables shall be considered.

(d) Application for well location exception. If an exception to this regulation is desired according to subsection (c), an application shall be submitted to the conservation division. The application shall contain the following:

(1) A brief explanation of the exception or exceptions requested;

(continued)

(2) the proposed location of the well, including the distance to the nearest lease or unit boundary line;

(3) a list of the following:

(B) each unleased offset mineral owner whose property boundary is located less than the minimum distance required by subsection (a) or (b) from the proposed locations; and

(C) the applicant's lessor or lessors, if the applicant operates any lease that will be situated less than the minimum distance required by subsection (a) or (b) from the proposed well location;

(4) the acreage attributable to the well; and

(5) the allowable requested.

(e) Additional application requirements. Each application submitted under subsection (d) shall be accompanied by the proposed notice of the intention to drill and a plat, drawn to the scale of one inch equalling 1,320 feet, that accurately shows the following:

(1) The property on which the well is sought to be drilled;

(2) all other completed, partially drilled, or permitted wells on the property; and

(3) all adjacent properties and wells.

(f) Notice; protest. Notice of the application shall be provided to all parties specified in paragraphs (d)(3)(A), (d)(3)(B), and (d)(3)(C) of this regulation and shall be published as required by K.A.R. 82-3-135a(d). If a protest is filed in accordance with K.A.R. 82-3-135a(e), the application shall be set for hearing by the commission.

(g) Approval of intent to drill. Upon the issuance of a written permit by the conservation division for the well location exception, the proposed notice of intention to drill shall be approved in accordance with K.A.R. 82-3-103, if all other applicable requirements for approval have been met.

(h) Allowable required. Each operator of any well drilled nearer than the minimum distance required by subsection (a) or (b) from any lease or unit boundary line without a previously obtained well location exception shall be prohibited from producing either oil or gas until an appropriate allowable is determined.

(i) Factors considered for allowable. Whenever authority is granted to drill a well at a location other than a location specified by this regulation, the allowable shall be determined by the conservation division for the protection of the correlative rights of all persons entitled to share in the common source of supply in accordance with K.A.R. 82-3-207 and K.A.R. 82-3-312. (Authorized by K.S.A. 55-152; implementing K.S.A. 55-152, 55-603, 55-605, 55-703a, 55-706; effective, T-83-44, Dec. 8, 1982; effective May 1, 1983; amended May 1, 1984; amended, T-85-51, Dec. 19, 1984; amended May 1, 1985; amended May 1, 1986; amended May 1, 1987; amended May 1, 1988; amended April 23, 1990; amended Jan. 14, 2005; amended Oct. 24, 2008.)

82-3-111. Temporarily abandoned wells; penalty; plugging. (a) Temporary abandonment approval or plugging required. Within 90 days after operations cease on any well drilled for the purpose of exploration, discovery,

service, or production of oil, gas, or other minerals, the operator of that well shall perform either of the following:

(1) Plug the well; or

(2) file an application with the conservation division requesting temporary abandonment authority, on a form prescribed by the conservation division.

(b) Approval of temporary abandonment. No well shall be temporarily abandoned as described in subsection (a) unless first approved by the conservation division. If the operations on any temporarily abandoned well or other inactive well are not resumed within one year after the application has been approved, the well shall be deemed a permanently abandoned well, and the operator of the well shall comply with regulations of the commission relating to the plugging of wells. Upon application to the conservation division before the expiration of the one-year period and for good cause shown, the period may be extended by the conservation division for one year. Additional one-year extensions may be granted by the conservation division. A well shall not be eligible for temporary abandonment status if the well has been shut in for 10 years or more without an application for an exception pursuant to K.A.R. 82-3-100 and approval by the commission. The failure to file a notice of temporary abandonment shall be punishable by a \$100 penalty.

(c) Right of denial. After an application for temporary abandonment has been filed, the well shall be subject to inspection by the conservation division to determine whether its temporary abandonment could cause pollution of fresh and usable water resources. If necessary to prevent the pollution of fresh and usable water, temporary abandonment may be denied by the conservation division, and the well may be required to be plugged or repaired according to the direction of the conservation division and in accordance with its regulations.

(d) Plugging of temporarily abandoned wells. At the expiration of any approved temporary abandonment period, each well temporarily abandoned shall be plugged, repaired, or returned to operation in accordance with applicable regulations.

(e) Certain wells exempted. The requirements of this regulation shall not apply to any well that meets all of the following criteria:

(1) The well is fully equipped for production of oil or gas or for injection.

(2) The well is capable of immediately resuming production of oil or gas or of injection.

(3) The well is subject to a valid, continuing oil and gas lease.

(4) The cessation period for the well is less than 365 consecutive days.

(5) The well is otherwise in full compliance with all of the commission's regulations.

(f) Post-exemption requirements. The date on which a well ceases to qualify for the exemption specified in subsection (e) shall be deemed to be the date operations ceased on the well, for purposes of subsection (a). (Authorized by K.S.A. 55-152; implementing K.S.A. 55-152 and 55-164; effective, T-83-44, Dec. 8, 1982; effective May 1, 1983; amended May 1, 1984; amended May 1, 1985; amended April 23, 1990; amended Jan. 25, 2002; amended Oct. 24, 2008.)

(4) The applicant shall file a memorandum of notification with the register of deeds in each county where the project is located, setting out the information contained in the published notice. The applicant shall provide proof of this filing to the conservation division before the application may be approved and a permit issued.
