USDA—Natural Resources Conservation Service**Notice of Kansas Technical Committee Meeting**

The Forestry Title of the 2008 Farm Bill requires the Kansas Forest Service (KFS) to conduct an assessment of the forestry and agro-forestry resources of Kansas using Geographic Information System (GIS) analysis tools. A long-term strategy for protecting and managing forest and agro-forestry resources will be created based on the assessment.

The assessment focuses on three national themes: (1) Conserve Working Forest Lands, (2) Protect Forests from Harm and (3) Enhance Public Benefits from Trees and Forests. There are 11 objectives under the national themes. GIS data layers associated with each objective identify forest conditions, trends, threats and priority areas. The assessment will be similar to the Forest Stewardship Spatial Analysis Project (SAP), which may be viewed on the Web at <http://www.kansasforests.org/rural/forest-stewardship/index.shtml>.

It is imperative that the KFS receives stakeholder input on the forest resource assessment and long-term strategy. A State Forest Resource Assessment and Strategy meeting has been scheduled for Tuesday, October 27, at the Natural Resources Conservation Service (NRCS) Conference Center, 747 Duvall, Salina. The meeting will begin at 10 a.m. and adjourn by 3 p.m.

The KFS hopes to be able to provide lunch to participants as a sign of its gratitude for their participation. For this reason, please contact Patricia McCaffrey at (785) 532-3301 or by e-mail at pmccaffr@ksu.edu by October 26 if you are able to attend the meeting.

In preparation for the meeting, participants are asked to review the preliminary draft of the assessment at www.kansasforests.org. The KFS also encourages and values input from persons unable to attend the meeting.

For more information, contact Bob Atchison, KFS, Rural Forestry Coordinator, at (785) 532-3310 or by e-mail at atchison@ksu.edu.

Persons requiring special accommodations to attend this meeting should contact Troy J. Munsch, Assistant State Conservationist for Programs, USDA—NRCS, 760 S. Notice to Consulting Engineers

The Kansas Department of Transportation is seeking qualified consulting engineering firms for the project listed below. Seven signed copies of the response can be mailed to David Nagy, P.E., Assistant to the Bureau Chief of Design/Contracts Engineer, KDOT, Eisenhower State Office Building, 700 S.W. Harrison, Topeka, 66603-3754. Interest responses shall be limited to four pages and must be received by noon October 14 for the consulting engineering firm to be considered.

Firms not prequalified with KDOT must submit seven copies of KDOT Form 1050 to become prequalified. The form is available at www.ksdot.org/divengdes/prequal.

From the firms expressing interest, the Consultant Selection Committee will select a list of the most highly qualified (not less than three and not more than five) and invite them to attend an individual interview conference. At this time, the consulting firms can more thoroughly discuss their experience related to the type of project at hand and will be expected to discuss, in some detail, their approach to this project and the personnel to be assigned to the project. Firms not selected to be short-listed will be notified by e-mail and/or letter.

The Consultant Negotiating Committee, appointed by the Secretary of Transportation, will conduct the discussions with the firms invited to the individual interview conferences. The committee will select the firm to perform the professional services required for completing the advertised project. After the selection of this firm, the remaining firms will be notified by letter of the outcome.

**69-6 KA-1553-02 & 69-19 KA-1554-02
Bourbon and Crawford Counties**

This project will evaluate past studies, project area issues and regional development; review current transportation needs; identify a study corridor; determine a preferred alignment; select the roadway type (four-lane freeway or expressway); determine the environmental classification; and make recommendations to determine the next step in the project development of this 11.5-mile corridor from Fort Scott to Arma.

It is KDOT's policy to use the following criteria as the basis for selection of the consulting engineering firms:

1. Size and professional qualifications;
2. experience of staff;
3. location of firm with respect to proposed project;
4. work load of firm; and
5. firm's performance record.

The firm's accounting systems must have the following capabilities before the firm may be awarded a contract:

- Valid, reliable and current costs must be available within the system to support cost and pricing data;
- capability to provide a means of measuring the reasonableness of incurred costs;
- capability to identify and accumulate allowable costs by contract or project records that will reconcile with the general ledger; and

- ability to provide supporting documentation of actual expenditures for each billing, based on costs.

State of Kansas

Department of Health
and EnvironmentPermanent Administrative
RegulationsArticle 19.—AMBIENT AIR QUALITY STANDARDS
AND AIR POLLUTION CONTROL

28-19-350. Prevention of significant deterioration (PSD) of air quality. (a) PSD requirements. The requirements of this regulation shall apply to the construction of major stationary sources and major modifications of stationary sources as defined in 40 C.F.R. 52.21 in areas of the state designated as attainment areas or unclassified areas for any pollutant under the procedures prescribed by section 107(d) of the federal clean air act, 42 U.S.C. 7407(d).

(b) Adoption by reference; exceptions.

(1) 40 C.F.R. 52.21, as revised on July 1, 2007, is adopted by reference, except as specified in paragraphs (b)(2) and (3).

(2) The following subsections of the federal regulation adopted in paragraph (b)(1) are excluded from adoption:

- (A) Plan disapproval, 52.21(a)(1);
- (B) stack heights, 52.21(h);
- (C) air quality analysis, 52.21(m)(1)(v);
- (D) visibility monitoring, 52.21(o)(3);
- (E) public participation, 52.21(q);
- (F) environmental impact statements, 52.21(s);
- (G) disputed permits or redesignations, 52.21(t);
- (H) delegation of authority, 52.21(u); and
- (I) permit rescission, 52.21(w).

(3) The following subsections of the federal regulation adopted in paragraph (b)(1), which are subject to a federal court order of stay or remand or have been vacated, are excluded from adoption:

(A) Routine maintenance, repair, and replacement:

- (i) The second sentence of 52.21(b)(2)(iii)(a);
- (ii) 52.21(b)(55-58); and
- (iii) 52.21(cc); and

(B) recordkeeping requirements for projected actual emissions: the clause "in circumstances where there is a reasonable possibility that a project that is not a part of a major modification may result in a significant emissions increase" in 52.21(r)(6).

(c) Provisions adopted by reference; term usage. When used in any provision adopted from 40 C.F.R. 52.21, each reference to "administrator" shall mean the "secretary of health and environment or an authorized representative of the secretary," except for the following:

(1) In subsections 52.21(b)(3)(iii)(a) and 52.21 (b)(48)(ii), "administrator" shall mean both the "secretary of health and environment" and the "administrator of USEPA."

(2) In subsections 52.21(b)(17), 52.21(b)(37)(i), 52.21(b)(43), 52.21(b)(48)(ii)(c), 52.21(b)(50)(i), 52.21(b)(51), 52.21(g), 52.21(i)(6-8), 52.21(l)(2), and 52.21(m)(1)(vii-viii), "administrator" shall mean only the "administrator of USEPA."

(d) Internal references. The following federal regulations and appendices as revised on July 1, 2007, which

are referred to in the federal regulation adopted in paragraph (b)(1), are hereby adopted by reference:

- (1) 40 C.F.R. part 51, subpart I; and
- (2) 40 C.F.R. part 51, appendices S and W.

(e) Definitions. For the purposes of this regulation, the following definitions shall apply:

(1) "Act" shall mean the federal clean air act, 42 U.S.C. 7401 et seq.

(2) "Class I, II or III area" shall mean a classification assigned to any area of the state under the provisions of sections 162 and 164 of the act, 42 U.S.C. 7472 and 7474, and amendments thereto.

(3) "State" shall mean the state of Kansas, unless the context clearly indicates otherwise.

(f) Ambient air ceiling protection. In relation to ambient air ceilings, the following requirements shall apply:

(1) Except as stated in paragraph (f)(2) of this regulation, a permit shall not be issued for any new major stationary source or major modification as defined in 40 C.F.R. 52.21(b) if the source or modification will be located in an attainment area or an unclassifiable area for any national ambient air quality standard and if the source or modification would cause or contribute to a violation of any national ambient air quality standard. A major source or major modification shall be considered to cause or contribute to a violation of a national ambient air quality standard if the air quality impact of the source or modification would exceed the following levels at any locality that does not or would not meet the applicable national standard:

Pollutant	Averaging Time				
	Annual	24 hrs.	8 hrs.	3 hrs.	1 hr.
Sulphur dioxide	1.0 µg/m ³	5 µg/m ³	-----	25 µg/m ³	-----
PM ₁₀	1.0 µg/m ³	5 µg/m ³	-----	-----	-----
Nitrogen dioxide	1.0 µg/m ³	-----	-----	-----	-----
Carbon monoxide	-----	-----	0.5 mg/m ³	-----	2 mg/m ³

(2) A permit may be granted for a major stationary source or major modification as identified in paragraph (f)(1) of this regulation if the impact of the major stationary source's or major modification's emissions upon air quality is reduced by a sufficient amount to compensate for any adverse impact at the location where the major source or modification would otherwise cause or contribute to a violation of any national ambient air quality standard. Subsection (f) shall not apply to a major stationary source or major modification with respect to a particular pollutant if the owner or operator demonstrates that the source is located in an area that has been identified as not meeting either the national primary or secondary ambient air quality standard for that particular pollutant.

(g) Stack height requirements. K.A.R. 28-19-18 through K.A.R. 28-19-18f, regarding stack height requirements, shall apply to the sources subject to this regulation.

(h) Application required. Each application for a PSD permit shall be submitted by the owner or operator on the forms provided or approved by the department. K.A.R. 28-19-300 through K.A.R. 28-19-304, regarding construction permit and approval requirements, shall apply to the sources subject to this regulation.

(i) Impact on federal class I areas; notification required. If the emissions from any proposed major stationary source or major modification subject to this regulation

will affect any air quality-related values in any federal class I area, a copy of the permit application for the source or modification shall be transmitted by the secretary or an authorized representative of the secretary to the administrator of USEPA through the appropriate regional office. The administrator, through the appropriate regional office, shall also be notified of every action taken concerning the application.

(j) Permit suspension or revocation. Any permit issued under this regulation may be suspended or revoked by the secretary upon a finding that the owner or operator has failed to comply with any requirement specified in the permit or with any other statutory or regulatory requirement. This subsection shall not be interpreted to preclude any other remedy provided by law to the secretary.

(k) Public participation requirements. In addition to the requirements of K.A.R. 28-19-204, the following public participation requirements shall be met before issuance of the permit:

(1) The public notice shall include the following:

(A) A statement specifying the portion of the applicable maximum allowable increment that is expected to be consumed by the source or modification; and

(B) A statement that the federal land manager of any adversely impacted federal class I area has the opportunity to provide the secretary with a demonstration that the emissions from the proposed source or modification will have an adverse impact on air quality-related values in the federal class I area.

(2) A copy of the public notice shall be mailed to the following:

(A) The applicant;

(B) the administrator of USEPA through the appropriate regional office;

(C) any state or local air pollution control agency having jurisdiction in the air quality control region in which the new or modified installation will be located;

(D) the chief executives of the city and county where the source will be located;

(E) any comprehensive regional land use planning agency having jurisdiction where the source will be located; and

(F) any state, federal land manager, or Indian governing body whose lands will be affected by emissions from the new construction or modification.

(3) In addition to those materials required to be available for public review at the appropriate district office or local agency, a summary analysis and discussion of those materials as they relate to establishing compliance with the requirements of this regulation shall be made available for public review.

(4) Copies of all comments received and the written determination of the secretary shall be made available for public inspection at the appropriate district office or local agency. (Authorized by K.S.A. 2008 Supp. 65-3005, as amended by L. 2009, ch. 141, sec. 23; implementing K.S.A. 2008 Supp. 65-3005, as amended by L. 2009, ch. 141, sec. 23 and K.S.A. 65-3008; effective Nov. 22, 2002; amended June 30, 2006; amended Oct. 23, 2009.)

Order a custom-made loose-leaf binder for the Kansas Register!

Custom-made binders are available to attractively hold up to a year's worth of your copies of the Kansas Register for permanent use. The high quality, durable casebound swinge-hinge binders are manufactured by ABZ Binder. (A swinge-hinge binder has more capacity and allows for easier interfiling than standard ring binders.) The three-inch binder features dark blue supported vinyl covering and gold imprinting, with a label holder on the spine.

\$15 each, includes shipping and handling.

(Kansas residents must include applicable state and local sales tax.)
