State of Kansas Kansas Development Finance Authority

Notice of Hearing

(Editor's Note: This notice, first published in the October 22, 2009 Kansas Register, is being republished to reflect a change in the amount of the bond.)

A public hearing will be conducted at 9 a.m. Thursday, November 5, in the offices of the Kansas Development Finance Authority, 555 S. Kansas Ave., Suite 202, Topeka, on the proposal for the KDFA to issue its Agricultural Development Revenue Bond for the project numbered below in the respective maximum principal amount. The bond will be issued to assist the borrower named below (who will be the owner and operator of the project) to finance the cost in the amount of the bond, which is then typically purchased by a lender bank who then, through the KDFA, loans the bond proceeds to the borrower for the purposes of acquiring the project. The project shall be located as shown:

Project No. 000771—Maximum Principal Amount: \$247,000. Owner/Operator: Donald J. Becker; Description: Acquisition of 139 acres of agricultural land and related improvements and equipment to be used by the owner/ operator for farming purposes. The project is being financed by the lender for Donald J. Becker and is located at Section 34, Township 4, Range 18, Brown County, Kansas, approximately 2.5 miles east of Everest on State Highway 73.

The bond, when issued, will be a limited obligation of the KDFA and will not constitute a general obligation or indebtedness of the state of Kansas or any political subdivision thereof, including the KDFA, nor will it be an indebtedness for which the faith and credit and taxing powers of the state of Kansas are pledged. The bond will be payable solely from amounts received from the respective borrower, the obligation of which will be sufficient to pay the principal of, interest and redemption premium, if any, on the bond when it becomes due.

All individuals who appear at the hearing will be given an opportunity to express their views, and all written comments previously filed with the KDFA at its offices at 555 S. Kansas Ave., Suite 202, Topeka, 66603, will be considered. Additional information regarding the project may be obtained by contacting the KDFA.

On-Call Value Engineering Statewide

The consultant will provide value engineering (VE), the systematic application of recognized techniques by a multi-disciplined team to identify the function, the worth, the alternatives through the use of creative thinking, and the necessary functions to accomplish the original purpose of the project. The results are reliability and lowest life-cycle cost without sacrificing safety, quality and environmental attributes of the project.

The FHWA requires VE (see Part 627 of Title 23 of the Code of Federal Regulations) on qualifying design-build projects, all federal-aid highway funded projects on the NHS with an estimated total cost of \$25 million or more, a bridge project with an estimated total cost of \$20 million or more, or any project designated by the Secretary of Transportation.

Firms not prequalified with KDOT must submit seven copies of KDOT Form 1050 to become prequalified. The form is available at www.ksdot.org/divengdes/prequal.

From the firms expressing interest, the Consultant Selection Committee will select a list of the most highly qualified (not less than three and not more than five) and invite them to attend an individual interview conference. At this time, the consulting firms can more thoroughly discuss their experience related to the type of project at hand and will be expected to discuss, in some detail, their approach to these types of projects and the personnel to be assigned to the project. Firms not selected to be shortlisted will be notified by letter.

The Consultant Negotiating Committee, appointed by the Secretary of Transportation, will conduct the discussions with the firms invited to the individual interview conferences. The committee will select the firm to perform the professional services required for completing the advertised project. After the selection of this firm, the remaining firms will be notified by letter of the outcome.

It is KDOT's policy to use the following criteria as the basis for selection of the consulting engineering firms:

1. Size and professional qualifications;

2. experience of staff;

3. location of firm with respect to proposed project;

- 4. work load of firm; and
- 5. firm's performance record.

The firm's accounting systems must have the following capabilities before the firm may be awarded a contract:

• Valid, reliable and current costs must be available within the system to support cost and pricing data;

- capability to provide a means of measuring the reasonableness of incurred costs;
- capability to identify and accumulate allowable costs by contract or project records that will reconcile with the general ledger; and
- ability to provide supporting documentation of actual expenditures for each billing, based on costs.
