Kansas Development Finance Authority

Notice of Hearing

A public hearing will be conducted at 9:00 a.m. Thursday, June 21, 2018, in the offices of the Kansas Development Finance Authority (K DFA), 534 S. Kansas Ave., Suite 800, Topeka, Kansas, on the proposal for the K DFA to issue its Agricultural Development Revenue Bonds for the projects numbered below in the respective maximum principal amounts. The bonds will be issued to assist the borrowers named below (who will be the owners and operators of the projects) to finance the cost in the amount of the bonds, which are then typically purchased by a lender bank who then, through the K DFA, loans the bond proceeds to the borrower for the purposes of acquiring the project. The projects shall be located as shown:

Project No. 001011 Maximum Principal Amount: \$42,000. Owner/Operator: Dani and Becky Martin; Description: Acquisition of 26 acres of agricultural land and related improvements and equipment to be used by the

owner/operator for farming purposes (the "Project"). The Project is being financed by the Lender for Dani and Becky Martin (the "Beginning Farmer") and is located at Section 36, Meridian Township, McPherson County, Kansas, approximately 3 miles east of Hesston, Kansas and 3 miles north on Meridian Road.

Project No. 001013 Maximum Principal Amount: \$229,200. Owner/Operator: Shane and Melissa Schaake; Description: Acquisition of 191 acres of agricultural land and related improvements and equipment to be used by the owner/operator for farming purposes (the "Project"). The Project is being financed by the Lender for Shane and Melissa Schaake (the "Beginning Farmer") and is located at Section 19, Township 7, Range 9 (88 Acres) and Section 30, Township 7, Range 9 (112.52 Acres), approximately 3 miles west of Westmoreland, Kansas off of Westmoreland Road.

The bonds, when issued, will be a limited obligation of the K DFA and will not constitute a general obligation or indebtedness of the state of Kansas or any political subdivision thereof, including the K DFA, nor will they be an indebtedness for which the faith and credit and taxing powers of the state of Kansas are pledged. The bonds will be payable solely from amounts received from the respective borrower, the obligation of which will be sufficient to pay the principal of, interest and redemption premium, if any, on the bonds when they become due.

All individuals who appear at the hearing will be given an opportunity to express their views concerning the proposal to issue the bonds to finance the projects, and all written comments previously filed with the K DFA at its offices at 534 S. Kansas Ave., Suite 800, Topeka, KS 66603, will be considered. Additional information regarding the projects may be obtained by contacting the K DFA.

District 1: Douglas, Jefferson, and Lyon

District 2: Marion and Republic

District 3: Ellis

District 4: Crawford and Montgomery

District 5: Comanche, Cowley, Kiowa, Pawnee,
and Rice

District 6: Clark, Ford, Grant, Gray, Haskell, Meade,
and Ness

Counties may continue to apply for an LRSP. Our goal is that approximately twenty LRSPs will be programmed each year until all counties desiring a plan are accommodated. In the future, projects based on LRSPs will be given priority or may be required for HRRR funding.

State of Kansas

Department of Transportation

Request for Proposals

Introduction

The Kansas Department of Transportation (KDOT) in cooperation with Kansas counties is interested in contracting with a consulting firm pre-qualified in categories 212–Highway Design–Minor Facility and/or 231–Traffic Control Analysis and Design to provide services to develop a Local Road Safety Plan (LRSP) for each county in Kansas that desires to participate in the LRSP program within the next 5 years. (We have developed LRSPs for 4 counties that participated in the pilot LRSP project. With 101 counties remaining, LRSPs will need to be developed for approximately 20 counties per year for the next 5 years.)

Project Background

Kansas' Strategic Highway Safety Plan (SHSP) has found that in the five-year period between 2009-2013, 48 percent of fatalities and 55 percent of disabling injuries occurred on roads owned by local public authorities. The SHSP goal is to halve fatalities and serious injuries on all public roads in the state over a 20-year period ending in 2029. With limited funds, a county needs a plan to effectively make an impact on their crash statistics. The intent of this Request for Proposal (RFP) is to develop a Local Road Safety Plan (LRSP) for each county. KDOT has completed a pilot project for four counties and has developed the template to use for all future LRSPs for all Kansas counties.

The Local Road Safety Plan concept is designed to build on the foundation established by the SHSP. These plans will provide the basis for systemic implementation of safety measures across the entire jurisdiction. Development of an LRSP will be advantageous for the county in securing future safety funds since the systemic identification of crash problems, identified roadway risk factors, and potential countermeasures will be a focus of Kansas' local safety programs in the future. Local jurisdictions will also be able to use the information to meet

their road safety planning needs. The Local Road Safety Plan should be a document that identifies several proactive measures, based on current crash trends, which will increase the overall safety for roadway users. The consultant will develop, for each county, a prioritized list of proposed safety improvements.

Key reference documents include the following documents:

- FHWA, Developing Safety Plans: A Manual for Local Rural Road Owners
- FHWA, Systemic Safety Project Selection Tool
- FHWA, Improving Safety on Rural Local and Tribal Roads
- The LRSPs developed for Barton, Butler, McPherson, and Stafford Counties

Schedule/Deadline

A pdf of the interest response must be emailed to KDOT.LPePlans@ks.gov by 3:00 p.m. (CST) June 21, 2018. Evaluation and shortlisting to three (3) firms will occur on or about June 29, 2018 after which time all firms that submitted will be notified of the shortlisting. Requests for Proposals, from the shortlisted firms, will be requested July 2, 2018 to be due July 27, 2018. Ranking and selection should occur by August 3, 2018. Negotiations with the most highly ranked firm to commence on or about August 6, 2018. An agreement should be in place September 7, 2018.

Project Scope

The LRSPs will include all major collectors and all other paved roads under the county's jurisdiction except subdivisions with speed limits lower than 35 mph. The plan will include recommendations for safety improvement projects based on risk factors and high accident locations, if any. Low-cost systemic safety measures will be emphasized in the recommendations. More extensive improvements should be recommended only where systemic measures would not adequately address the risk. The final product will provide a prioritized list of safety improvements with a rough estimate of costs. The prioritization will be based on crash history and risk factors.

Tasks:

1. Project Management

Perform day to day project management of this contract, including submission of monthly invoices/progress reports. Attend a monthly conference call to discuss project status. Attendees for each call are anticipated to be KDOT, the project representative for each county and any sub consultant(s) on the project. A total of ten (10) conference calls are anticipated per year. Coordinate and provide guidance to sub consultants on tasks to be performed by sub consultants.

2. Crash Analysis

Crash records (accident reports) for LRSP routes in the county will be furnished by the county for the most recent five years. Review the circumstances of the crashes to aid in the identification of potential countermeasures and any high accident locations.

3. Data Collection/Analysis

Collect attribute data that can be used to identify risk factor rankings for intersections, segments, and curves. Data collection will be conducted to determine if an approved risk factor identified in Task I is present, and initially, this will be limited to prescreening the LRSP routes using readily available data sources (e.g., existing KDOT and county mapping or GIS records, existing aerial photography, Google, Bing, etc.). Each LRSP study route will then be driven once to collect additional limited field data that can be used to determine the presence of an approved risk factor. Video data may be collected as part of this effort. More detailed data for roadway and shoulder characteristics (e.g., width, slope, superelevation, etc.) may need to be collected later for the 10 recommended safety projects for each county to prepare preliminary improvement scopes and cost estimates. It is anticipated that a separate conference call with KDOT and each county will be held to discuss risk factors and finalize data collection methods.

The following information is relevant to support the systemic technical analyses:

- Intersections
 - Geometry on major and minor legs (turn lanes, radii, etc.)
 - Traffic control devices (signal, stop control including sign size, etc.)
 - Distance to the previous STOP sign
 - Skewed approaches
 - Proximity to horizontal or vertical curve
 - ADT
 - Rural/urban
 - At-grade railroad crossing
 - Presence of development
 - Presence of a severe crash
- Segments (usually between major intersections)
 - Terminal points
 - Paved or gravel
 - Width of roadway
 - Shoulder material and width
 - Edge condition
 - Existing signing and pavement marking
 - Curve density
 - Adjacent land use and entrances
 - Proximity of fixed objects
 - ADT
 - Rural/urban
 - Presence of a severe crash
- Curves
 - Curve radius
 - Presence of an intersection (in curve)
 - Presence of a visual trap (e.g., road, trees, or utility poles on tangent extended)
 - Advance warning signs (including Chevron)
 - Proximity of fixed objects
 - ADT
 - Rural/urban
 - Presence of a severe crash

The initial prescreening will include estimating ADT information using the best information available

rather than collecting count data. Aerial photography will be used for intersection approach angle, and entrance locations, and to verify relevant segment and curve data (e.g., pavement and shoulder width, proximity of fixed objects). General assessments will be made for assessing the presence and proximity of fixed objects (e.g., little to none, moderate, prevalent, etc.), shoulder characteristics, curve superelevation, and if possible, edge condition. The limited field data collection drive through will be used to supplement the readily available data sources. It is anticipated this will be required for intersection sight distance (cursory assessments only, such as adequate or limited), and to verify or obtain pertinent intersection, segment or curve information (e.g., edge condition, pavement width, shoulder width and slope, curve superelevation, existing signing). Data collected as part of previous studies on the LRSP routes, such as a Practical Road Safety Assessment or a Traffic Engineering Assistance Program study, will be supplied by KDOT or the county and may also be used as part of this task. The attribute data will be stored in a database to facilitate viewing and processing.

4. List of Safety Strategies/Countermeasures
 - a. Utilize the KDOT Bureau of Local Projects (BLP) list of safety strategies and countermeasures for each of the risk factors. Primary references for countermeasures include NCHRP 500 series reports, NHTSA's Countermeasures That Work, FHWA's Towards Zero Deaths (human factors strategies), FHWA's Proven Safety Countermeasures, and FHWA's Crash Modification Factors (CMF) Clearinghouse. Other references may be used in coordination with KDOT and/or county approval.
 - b. KDOT BLP will provide a table with a brief description, an opinion of the probable cost to implement, and the expected effectiveness (CMF if available) for each of the safety strategies and countermeasures identified.
5. Safety Workshops
 - a. Develop, promote, and lead one safety workshop in each county. Local participants will be determined by the project representative for each county (e.g., county road and bridge supervisor, public works director, etc.) in coordination with the KDOT project manager. It is anticipated that participants will include county commissioners and key stakeholders from the county's engineering, education, enforcement, and emergency services communities. The purpose of the workshop is to educate stakeholders on the magnitude of the issues and the effectiveness of possible solutions, present the results of the crash and roadway data analysis, and obtain feedback on specific locations of concern as well as potential strategies/countermeasures.
 - b. Prepare workshop invite and agenda in advance of the meeting. These materials will focus on communicating the intent of the workshop. Sub-

(continued)

mit to KDOT and the counties for review and approval prior to submitting it to participants. The project representative for each county will be responsible for booking a meeting room and sending out the invite/agenda to participants.

- c. Prepare and distribute notes/minutes from the workshop. Final documentation will be distributed after comments from attendees have been received. A follow-up meeting will be conducted with each county's project representative, as well as other core decision makers or stakeholders, to review and discuss engineering projects developed for their county. It is anticipated that the meeting will occur in conjunction with Task 6 services.
6. Identify Short List of Critical Strategies/Countermeasures
- a. Prepare a list of priority safety strategies and countermeasures that are recommended for implementation on the LRSP intersections, segments, and curves. Safety strategies and countermeasures provided by KDOT BLP as part of the Task 3 services will be used as a starting point and refined to include those that have been demonstrated to effectively reduce the identified priority crash types. Low-cost systemic improvements will be emphasized, along with proven, practical, and easily implementable solutions. These may be tailored to each county depending on findings from the crash and roadway data analysis.
 - b. Submit list of priority safety strategies and countermeasures developed in Task 5a to KDOT and each county for review and approval. One conference call will be held with each county to discuss review comments.
7. Identify Safety Projects

Safety projects will be identified for a total of 10 locations in each county.

- a. Prepare risk factor ranking criteria for intersections, segments, and curves.
- b. Calculate risk factor scores for intersections, segments, and curves.
- c. Provide list of the results of the risk factor ranking summary for intersections, segments, and curves to KDOT and the project representative for each county for their future use.
- d. Develop project selection decision trees for use in the development of recommendations for intersections, segments, and curves that have the highest risk factor rankings. Priority strategies and countermeasures developed as part of the Task 5 services will be used as part of this task.
- e. Develop a prioritized list of safety improvement locations for no more than the top ten intersection, segment, and curve projects (for a total of 10 projects in each county). Locations with the same risk factor scores in a particular category (intersection, segment, or curve) will be reviewed with the project representative for each county to determine the ten locations to be used.
- f. Submit list of safety improvement locations developed in Task 6e to KDOT and each county for

review and approval. It is anticipated that the follow-up meeting identified in Task 4c will take place as part of this task to discuss review comments. Final approval of prioritized projects will come from KDOT and each county.

- g. Develop unique project sheets for the approved safety improvement locations which depict project type, location, proposed improvements, and an opinion of probable project cost. It is anticipated that these project sheets will provide sufficient information for the counties to apply for High Risk Rural Roads Program (HRRR) or Highway Safety Improvement Program (HSIP) funding but will not include costs for Rights of Way and Utility Adjustments, if applicable.
8. Local Road Safety Plan Document
- a. Develop a Local Road Safety Plan document for each county. The document is anticipated to include the following items:
 - i. Executive summary which includes the prioritized list of safety improvement projects for the top ten intersection, segment, and curve projects.
 - ii. Documentation and technical appendices supporting the selection of risk factors (outcome of Task 1), priority strategies (outcome of Task 5) and priority locations (outcome of Task 6).
 - iii. Project sheets for the 10 approved safety improvement projects which depict project type, location, proposed improvements, and an opinion of probable cost.
 - b. Submit draft LRSP document to KDOT and each county for review and approval. It is anticipated that a separate conference call with each county will be held to discuss review comments.
 - c. Revise draft LRSP document and submit final to KDOT and each county.
 - d. Prepare a summary memorandum for KDOT which lists our suggestions for completing future LRSP documents.

Deliverables

The following deliverables are anticipated to be submitted as part of this scope of services:

1. Pdf version of the final LRSP document for KDOT and each county.
2. Two (2) bound copies of the final LRSP document for each county. It is anticipated that there will be approximately 200 sheets maximum in each final report.

(Authorized by K.S.A. 2017 Supp. 74-8710 and 74-8748; implementing K.S.A. 2017 Supp. 74-8710; effective, T-111-2-2-17, Nov. 9, 2016; amended, T-111-5-14-18, March 14, 2018.)

111-601-24. Wagers. (a) The minimum and maximum bets allowed shall be determined by the casino shift manager or higher ranking casino official for each three-card poker table.

(b) The table limits shall be and remain conspicuously posted on a sign at each table. Any wager made by a player that is less than the stated table minimum that is not rejected by either the dealer or table games supervisor or higher ranking casino official, prior to the commencement of play shall be treated as a valid wager. Any wager made by a player that is above the stated table maximum that is not rejected by either the dealer or table games supervisor or higher ranking casino official, shall play up to the posted maximum and the balance shall be returned to the player and not considered as part of the valid wager, subject to the following:

(1) If a wager appears to be over the table maximum and cards have already been dealt, the dealer shall announce that all chips play to the table limit.

(2) If the wager wins, the dealer shall segregate the maximum payoff on the table.

(3) If the wager loses, the dealer shall segregate the maximum wager on the table and return all chips over the maximum to the player.

(c) A player shall not be allowed to play more than one hand.

(d) A player can make two wagers plus a pair plus wager.

(e) Wagers, play, and payouts shall be made as follows:

(1) An "ante wager" is a mandatory wager made by each player. Each player must make an ante wager by placing one or more gaming chips in the designated ante betting area prior to any cards being dealt. Each player shall make an ante wager if the player wishes to be in direct competition with the dealer.

(2) The players and the dealer receive their cards. Each player may elect to fold or play against the dealer. If the player elects to fold, the ante wager is forfeited. If the player elects to compete with the dealer, the player shall place a wager in the designated play betting area (a "play wager"). The play wager shall be equal to the ante wager.

(3) If the dealer has a qualifying hand (a "qualifying hand" means a queen high card or better hand) and the player's hand outranks the dealer's hand the player is paid odds of 1 to 1 on the ante wager and the play wager.

(4) If the player's hand ties the dealer's qualifying hand, both the player's ante wager and play wager are a push or tie, and no amount is paid to the player or taken by the dealer.

(5) If the dealer's hand does not qualify (is ranked less than queen high), the player is paid odds of 1 to 1 on the ante wager and the play wager is a push.

(6) If the dealer's qualifying hand outranks the player's hand, the player loses and the ante and play wagers are collected accordingly.

(7) If the dealer has a hand higher than the player's hand, it has no effect on the ante bonus if the player has placed a play wager and has a qualifying hand for the ante bonus. Ante bonuses pay odds as follows:

Straight	1 to 1
Three of a kind	4 to 1
Straight flush	5 to 1

(8) Each player may also elect to make a pair plus wager by placing one or more gaming chips in the designated pair plus betting area prior to any card being dealt. The pair plus wager shall not be less than the table minimum, nor greater than the table maximum. The "pair plus wager" is an optional wager on the outcome of the player's hand against a posted scale of payouts without competition against any other hand.

(9) Each player and dealer receives their cards. The player may elect to fold or play. If the player elects to fold, the pair plus wager is forfeited. If the player elects to compete with the dealer, the player shall place a wager in the designated play betting area.

(10) If the dealer has a hand higher than the player's hand, it has no effect on the pair plus wager, if the player has placed a play wager and has a qualifying hand for the pair plus payout.

(11) The pair plus payout odds will be as follows:

Pair	1 to 1
Flush	3 to 1
Straight	6 to 1
Three of a kind	30 to 1
Straight flush	40 to 1

(12) Six card bonus wager:

(A) An optional six card bonus wager may be placed by a player in the designated area of the table game layout. The six card bonus wager is considered an optional side wager and is comprised using the player's three cards and the dealer's three cards to form the player's best five card poker hand.

(B) An additional six card bonus wager may be made as a tip for the dealer.

(C) Payout odds on a winning six card bonus wager will be:

(i) If the player's five card hand contains three-of-a-kind, 5 to 1;

(ii) If the player's five card hand contains a straight, 10 to 1;

(iii) If the player's five card hand contains a flush, 15 to 1;

(continued)

(iv) If the player's five card hand contains full house, 25 to 1;

(v) If the player's five card hand contains a four-of-a-kind, 50 to 1;

(vi) If the player's five card hand contains a straight flush, 200 to 1;

(vii) If a player's five card hand contains a royal flush, 1,000 to 1.

(D) A six card bonus wager will win if the player's five card hand contains a three-of-a-kind, straight, flush, full house, four-of-a-kind, straight flush or a royal flush.

(E) A six card bonus wager will lose if the player's five card hand does not contain a three-of-a-kind, straight, flush, full house, four-of-a-kind, straight flush or a royal flush.

(13) Before each hand is dealt, the dealer shall inform the player(s) that wagering is closed by announcing there will be no more bets.

(14) All wagers shall be made by placing gaming chips on the appropriate areas of the layout. Verbal and/or cash wagers shall not be accepted.

(15) Once the first card of any hand has been dealt, no player shall handle, remove, or alter any wagers that have been made until a decision has been rendered and implemented with respect to that wager except as explicitly permitted by these rules. (Authorized by K.S.A. 2017 Supp. 74-8710 and 74-8748; implementing K.S.A. 2017 Supp. 74-8710; effective, T-111-2-2-17, Nov. 9, 2016; amended, T-111-5-14-18, March 14, 2018.)

111-601-25. Shuffle, dealing, play, and payment of wagers. (a) The cards will be shuffled by an auto shuffle machine.

(b) The cards are placed into the shuffler without a player cutting them. The shuffler will complete the shuffle. Players will never cut the cards.

(c) After the dealer has announced that no more bets can be made, the dealer shall activate the shuffle machine which shall deal out three consecutive cards for each player at the gaming table, including the dealer. Beginning with the player to the extreme left of the dealer and rotating to the right, the dealer shall fan out each player's cards face down in front of the player's bet.

(d) Once each player and the dealer have received their cards, the shuffle machine shall count the remaining cards to verify that the deck contained 52 cards.

(e) Once the machine has completed the count, the dealer removes the remaining cards from the shuffler and places them in the discard rack.

(f) The dealer then announces that the players may look at their hands.

(g) Players then decide if they wish to play or fold.

(h) If a player folds, the dealer collects the ante wager, placing it into the tray and collects their cards. The cards are counted and placed in the discard rack.

(i) The dealer shall verify that all remaining players, if any, have made the proper play wager.

(j) The dealer then turns over the dealer's cards and creates the best three card poker hand.

(k) If the dealer does not have a qualifying hand the dealer announces the dealer has no qualifying hand and pays all outstanding player wagers.

(l) If the dealer does have a qualifying hand, the dealer compares his hand to each player's hand individually

and the highest three card poker hand wins. All winning wagers are paid. All losing wagers are collected. As the cards are removed they are counted and placed in the discard rack. The dealer compares, pays, and collects wagers right to left.

(m) The dealer must spread the cards, take all losing wagers and pay all winning wagers and then place the cards in the discard rack on each hand before the dealer goes to the next player. (Authorized by K.S.A. 2017 Supp. 74-8710 and 74-8748; implementing K.S.A. 2017 Supp. 74-8710; effective, T-111-2-2-17, Nov. 9, 2016; amended, T-111-5-14-18, March 14, 2018.)

If the dealer does not hold a hand with at least a three card flush containing a 9 or higher ranking card, the player's ante wager shall automatically be paid at odds of one to one and the player's raise wager shall be returned to the player as a draw (tie).

(2) A player placing a flush bonus wager shall be paid at the following odds:

(k) Notwithstanding the payout odds set forth in (j) above, the aggregate payout limit on all winning wagers for any hand shall be \$25,000 or the maximum amount that one player could win per round when betting the minimum wager, whichever is greater. The aggregate payout information shall be displayed at the high card flush table. Notice of Hearing on Proposed Administrative Regulations

The Kansas Department of Health and Environment (KDHE), Division of Environment, Bureau of Waste Management, and the KDHE Division of Public Health, Bureau of Community Health Systems, will conduct a public hearing at 10:00 a.m. Thursday, September 27, 2018, in the Flint Hills Conference Room, third floor, Curtis State Office Building, 1000 SW Jackson, Topeka, Kansas, to consider the adoption of proposed new regu-

(continued)

lations K.A.R. 28-35-800, 28-35-802, 28-35-803, 28-35-804, and 28-35-805 regarding naturally-occurring radioactive material (NORM) and technologically enhanced NORM (TENORM).

A summary of the proposed regulations and estimated economic impact follows:

Summary of Regulations:

K.A.R. 28-35-800. Definitions. Defines terms that are used in the proposed regulations, including coal combustion residuals (CCR), natural background radiation, NORM, NORM waste, purposeful dilution, reasonably maximally exposed individual, TENORM, and TENORM waste.

K.A.R. 28-35-802. Exemption of NORM or TENORM. Specifies the conditions that must be met for NORM/TENORM to be exempt from the licensing, registration, and recordkeeping requirements of the KDHE Radiation Control Program.

K.A.R. 28-35-803. Classification and exemption of NORM and TENORM waste. Specifies the conditions that must be met for NORM/TENORM waste to be excluded from classification as low-level radioactive waste and to be exempt from the licensing, registration, and recordkeeping requirements of the KDHE Radiation Control Program.

K.A.R. 28-35-804. Determination of exemption and classification. Specifies the methods that must be used to determine whether or not NORM/TENORM, including NORM/TENORM waste, meets the classification and/or exemption conditions of K.A.R. 28-35-802 or 28-35-803.

K.A.R. 28-35-805. Purposeful dilution. Establishes a prohibition against deliberately diluting NORM/TENORM for the purpose of rendering the material exempt from regulation unless the dilution is approved by the secretary of KDHE.

Economic Impact:

Cost to the agency: KDHE Radiation Control staff may need to evaluate requests and demonstrations submitted by the regulated community regarding classification, exemptions from Radiation Control Program requirements, alternate methods of determining exemption or classification requirements, and purposeful dilution. KDHE may provide some technical assistance, maintain certain records, and perform other information management regarding NORM/TENORM management and disposal. These duties will be absorbed by existing staff. There is no added costs to the agency.

Cost to regulated community: These regulations create no new capital or annual operating costs for generators or handlers of NORM/TENORM, including NORM/TENORM waste. The regulations formalize (legalize) NORM/TENORM historical disposal practices for wastes that contain low levels of NORM/TENORM. Any waste that would be prohibited for disposal by land burial in Kansas because it exceeds the exemption limit is already subject to a landfill disposal ban.

Costs to other governmental agencies or units: These regulations will not result in added costs to other government agencies.

The time period between the publication of this notice and September 28, 2018, constitutes a public comment

period of at least 60 days for the purpose of receiving written public comments on the proposed regulations. **Notice of Hearing on Proposed
Administrative Regulations**

The Kansas Department of Health and Environment (KDHE), Division of Public Health, Bureau of Family Health, will conduct a public hearing at 10:00 a.m. Wednesday, August 22, 2018, in Room 530, Curtis State Office Building, 1000 SW Jackson, Topeka, Kansas, to consider the adoption of proposed new maternal and child health regulation K.A.R. 28-4-95, regarding a fee for fingerprint-based background checks for required individuals working, residing, or regularly volunteering in child care facilities.

A summary of the proposed regulation and estimated economic impact follows:

Summary of Regulation:

K.A.R. 28-4-95. Fee for fingerprint-based background checks. This regulation creates a fee fund for fingerprint-based background checks for required individuals in child care facilities and complies with K.S.A. 65-516, as amended by 2018 HB 2639, and the background check requirements of the federal Child Care and Development

Block Grant Act of 2014.

Economic Impact:

Cost to the agency: The provisions of 2018 HB 2639 establish a child care criminal background and fingerprinting fund administered by KDHE. Fees submitted by applicants and licensees and KDHE's payments for the background checks will be processed through that fund. The KDHE Child Care Licensing and Registration Information System (CLARIS) will interface with the Kansas Department of Aging and Disability Services (KDADS) KanCheck system to enable KDHE to receive the results of the required background checks. Costs to KDHE include establishing the fee fund and the policies and procedures. Costs will be absorbed in the ongoing KDHE budget.

Cost to licensees: The proposed regulation requires applicants and licensees to submit a non-refundable fee to KDHE for each individual who is required to complete a fingerprint-based background check. The fingerprint check will be completed for each individual initially and once every five years thereafter. Currently, the cost for each individual will be \$48 based on the fees charged by the Kansas Bureau of Investigation (KBI), the Federal Bureau of Investigation (FBI), and the KDADS KanCheck system maintenance fee. In the final rules of the federal block grant, 45 CFR 98.43(f) states that "Fees that a State, Territory, or Tribe may charge for the costs of processing applications and administering a criminal background check as required by this section shall not exceed the actual costs for the processing and administration."

Costs to other governmental agencies or units: The KBI and FBI will have ongoing costs for processing fingerprint-based background checks. KDADS will have ongoing costs for maintenance of KanCheck, an integrated system for requesting and receiving results of fingerprint-based background checks.

The time period between the publication of this notice and the scheduled hearing constitutes a 60-day public comment period for the purpose of receiving written public comments on the proposed regulation. All interested parties may submit written comments prior to 5:00 p.m. on the day of the hearing to Mary Murphy, Kansas Department of Health and

Environment, Bureau of Family Health, Administration and Policy, 1000 SW Jackson, Suite 200, Topeka, KS 66612-1274, by email to Mary.Murphy@ks.gov, or by fax to 785-559-4244. During the hearing, all interested parties will be given a reasonable opportunity to present their views orally on the proposed regulation as well as an opportunity to submit their written comments. In order to give each individual an opportunity to present their views, it may be necessary for the hearing officer to request that each presenter limit an oral presentation to an appropriate time frame.

Complete copies of the proposed regulation and the corresponding economic impact statement may be obtained from the KDHE Child Care Licensing website, at <http://www.kdheks.gov/bccclr/index.html> or by contacting Mary Murphy at Mary.Murphy@ks.gov, 785-296-1270, or fax 785-559-4244. Questions pertaining to the proposed regulation should be directed to Mary Murphy at the contact information above.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulation and the economic impact statement in an accessible format. Requests for accommodation to participate in the hearing should be made at least five working days in advance of the hearing by contacting Mary Murphy.
