**Notice of Proposed Nursing Facility Medicaid
Rates for State Fiscal Year 2020;
Methodology for Calculating Proposed Rates, and
Rate Justifications;
Request for Written Comments;
Notice of Intent to Amend the Medicaid State Plan**

Under the Medicaid program, 42 U.S.C. 1396 et seq., the State of Kansas pays nursing facilities, nursing facilities for mental health, and hospital long-term care units (hereafter collectively referred to as nursing facilities) a daily rate for care provided to residents who are eligible for Medicaid benefits. The Secretary of Aging and Disability Services administers the nursing facility program, which includes hospital long-term care units, and the nursing facility for mental health program. The Secretary acts on behalf of the Kansas Department of Health and Environment Division of Health Care Finance (DHCF), the single state Medicaid agency.

As required by 42 U.S.C. 1396a(a)(13), as amended by Section 4711 of the Balanced Budget Act of 1997, P.L. No. 105-33, 101 Stat. 251, 507-08 (August 5, 1997), the Secretary of the Kansas Department for Aging and Disability Services (KDADS) is publishing the proposed Medicaid per diem rates for Medicaid-certified nursing facilities for State Fiscal Year 2020, the methodology underlying the establishment of the proposed nursing facility rates, and the justifications for those proposed rates. KDADS

and DHCF are also providing notice of the state’s intent to submit amendments to the Medicaid State Plan to the U.S. Department of Health and Human Services’ Centers for Medicare and Medicaid Services (CMS) on or before September 30, 2019.

I. Methodology Used to Calculate Medicaid Per Diem Rates for Nursing Facilities.

In general, the state uses a prospective, cost-based, facility-specific rate-setting methodology to calculate nursing facility Medicaid per diem rates, including the rates listed in this notice. The state’s rate-setting methodology is contained primarily in the following described documents and authorities and in the exhibits, attachments, regulations, or other authorities referenced in them:

A. The following portions of the Kansas Medicaid State Plan maintained by DHCF are being revised:

1. Attachment 4.19D, Part I, Subpart C, Exhibit C-1, inclusive;

The text of the portions of the Medicaid State Plan identified above in section IA.1, but not the documents, authorities and the materials incorporated therein by reference, is reprinted in this notice. The Medicaid State Plan provisions set out in this notice appears in the version which the state currently intends to submit to CMS on or before September 30, 2019. The Medicaid State Plan amendment that the state ultimately submits to CMS may differ from the version contained in this notice.

Copies of the documents and authorities containing the state’s rate-setting methodology are available upon written request. A request for copies will be treated as a request for public records under the Kansas Open Records Act, K.S.A. 45-215 et seq. The state may charge a fee for copies, in accordance with Executive Order 18-05. Written requests for copies should be sent to:

A.1 Attachment 4.19D, Part I, Subpart C, Exhibit C-1: Methods and Standards for Establishing Payment Rates for Nursing Facilities

Under the Medicaid program, the State of Kansas pays nursing facilities (NF), nursing facilities for mental health (NFMH), and hospital long-term care units (hereafter collectively referred to as nursing facilities) a daily rate for care provided to residents who are eligible for Medicaid benefits. The narrative explanation of the nursing facility reimbursement formula is divided into 11 sections. The sections are: Cost Reports, Rate Determination, Quarterly Case Mix Index Calculation, Resident Days, Inflation Factors, Upper Payment Limits, Quarterly Case Mix Rate Adjustment, Real and Personal Property Fee, Incentive Factors, Rate Effective Date, and Retroactive Rate Adjustments.

1) Cost Reports

The Nursing Facility Financial and Statistical Report (MS2004) is the uniform cost report. It is included in Kansas Administrative Regulation (K.A.R.) 129-10-17. It organizes the commonly incurred business expenses of

(continued)

providers into three reimbursable cost centers (operating, indirect health care, and direct health care). Ownership costs (i.e., mortgage interest, depreciation, lease, and amortization of leasehold improvements) are reported but reimbursed through the real and personal property fee. There is a non-reimbursable/non-resident related cost center so that total operating expenses can be reconciled to the providers' accounting records.

All cost reports are desk reviewed by agency auditors. Adjustments are made, when necessary, to the reported costs in arriving at the allowable historic costs for the rate computations.

Calendar Year End Cost Reports:

All providers that have operated a facility for 12 or more months on December 31 shall file a calendar year cost report. The requirements for filing the calendar year cost report are found in K.A.R. 129-10-17.

When a non-arms length or related party change of provider takes place or an owner of the real estate assumes the operations from a lessee, the facility will be treated as an ongoing operation. In this situation, the related provider or owner shall be required to file the calendar year end cost report. The new operator or owner is responsible for obtaining the cost report information from the prior operator for the months during the calendar year in which the new operator was not involved in running the facility. The cost report information from the old and new operators shall be combined to prepare a 12-month calendar year end cost report.

Projected Cost Reports:

The filing of projected cost reports are limited to: 1) newly constructed facilities; 2) existing facilities new to the Medicaid program; or 3) a provider re-entering the Medicaid program that has not actively participated or billed services for 24 months or more. The requirements are found in K.A.R. 129-10-17.

2) Rate Determination

Rates for Existing Nursing Facilities:

Medicaid rates for Kansas NFs are determined using a prospective, facility-specific rate-setting system. The rate is determined from the base cost data submitted by the provider. The current base cost data is the combined calendar year cost data from each available report submitted by the current provider during 2016, 2017, and 2018.

If the current provider has not submitted a calendar year report during the base cost data period, the cost data submitted by the previous provider for that same period will be used as the base cost data. Once the provider completes their first 24 months in the program, their first calendar year cost report will become the provider's base cost data.

The allowable expenses are divided into three cost centers. The cost centers are Operating, Indirect Health Care and Direct Health Care. They are defined in K.A.R. 129-10-18.

The allowable historic per diem cost is determined by dividing the allowable resident related expenses in each cost center by resident days. Before determining the per diem cost, each year's cost data is adjusted from the mid-

point of that year to November 30, 2019. The resident days and inflation factors used in the rate determination will be explained in greater detail in the following sections.

The inflated allowable historic per diem cost for each cost center is then compared to the cost center upper payment limit. The allowable per diem rate is the lesser of the inflated allowable historic per diem cost in each cost center or the cost center upper payment limit. Each cost center has a separate upper payment limit. If each cost center upper payment limit is exceeded, the allowable per diem rate is the sum of the three cost center upper payment limits. There is also a separate upper payment limit for owner, related party, administrator, and co-administrator compensation. The upper payment limits will be explained in more detail in a separate section.

The case mix of the residents adjusts the Direct Health Care cost center. The reasoning behind a case mix payment system is that the characteristics of the residents in a facility should be considered in determining the payment rate. The idea is that certain resident characteristics can be used to predict future costs to care for residents with those same characteristics. For these reasons, it is desirable to use the case mix classification for each facility in adjusting provider rates.

There are add-ons to the allowable per diem rate. The add-ons consist of the incentive factor, the real and personal property fee, and per diems to cover costs not included in the cost report data. The incentive factor and real and personal property fee are explained in separate sections of this exhibit. The rate components are explained in separate subparts of Attachment 4.19D of the State Plan. The add-ons plus the allowable per diem rate equal the total per diem rate.

Rates for New Construction and New Facilities (New Enrollment Status):

The per diem rate for newly constructed nursing facilities, or new facilities to the Kansas Medical Assistance program shall be based on a projected cost report submitted in accordance with K.A.R. 129-10-17.

The cost information from the projected cost report and the first historic cost report covering the projected cost report period shall be adjusted to November 30, 2019. This adjustment will be based on the IHS Global Insight, National Skilled Nursing Facility Market Basket Without Capital Index (IHS Index). The IHS indices listed in the latest available quarterly publication will be used to adjust the reported cost data from the midpoint of the cost report period to November 30, 2019. The provider shall remain in new enrollment status until the base data period is re-established. During this time, the adjusted cost data shall be used to determine all rates for the provider. Any additional factor for inflation that is applied to cost data for established providers shall be applied to the adjusted cost data for each provider in new enrollment status.

Rates for Facilities Recognized as a Change of Provider (Change of Provider Status):

The payment rate for the first 24 months of operation shall be based on the base cost data of the previous owner or provider. This base cost data shall include data from each calendar year cost report that was filed by the previous provider from 2016-2018. If base cost data is not

available, the most recent calendar year data for the previous provider shall be used. Beginning with the first day of the 25th month of operation the payment rate shall be based on the historical cost data for the first calendar year submitted by the new provider.

All data used to set rates for facilities recognized as a change-of-provider shall be adjusted to November 30, 2019. This adjustment will be based on the IHS Index. The IHS indices listed in the latest available quarterly publication will be used to adjust the reported cost data from the midpoint of the cost report period to November 30, 2019. The provider shall remain in change-of-provider status until the base data period is reestablished. During this time, the adjusted cost data shall be used to determine all rates for the provider. Any additional factor for inflation that is applied to cost data for established providers shall be applied to the adjusted cost data for each provider in change of provider status.

Rates for Facilities Re-entering the Program (Reenrollment Status):

The per diem rate for each provider reentering the Medicaid program shall be determined from a projected cost report if the provider has not actively participated in the program by the submission of any current resident service billings to the program for 24 months or more. The per diem rate for all other providers reentering the program shall be determined from the base cost data filed with the agency or the most recent cost report filed preceding the base cost data period.

All cost data used to set rates for facilities reentering the program shall be adjusted to November 30, 2019. This adjustment will be based on the IHS Index. The IHS indices listed in the latest available quarterly publication will be used to adjust the reported cost data from the midpoint of the cost report period to November 30, 2019. The provider shall remain in reenrollment status until the base data period is reestablished. During this time, the adjusted cost data shall be used to determine all rates for the provider. Any additional factor for inflation that is applied to cost data for established providers shall be applied to the adjusted cost data for each provider in reenrollment status.

3) Quarterly Case Mix Index Calculation

Providers are required to submit to the agency the uniform assessment instrument, which is the Minimum Data Set (MDS), for each resident in the facility. The MDS assessments are maintained in a computer database.

The Resource Utilization Groups-III (RUG-III) Version 5.20, 34 group, index maximizer model is used as the resident classification system to determine all case mix indices, using data from the MDS submitted by each facility. Standard Version 5.20 (Set D01) case mix indices developed by the Centers for Medicare and Medicaid Services (CMS) shall be the basis for calculating facility average case mix indices to be used to adjust the Direct Health Care costs in the determination of upper payment limits and rate calculation. Resident assessments that cannot be classified will be assigned the lowest CMI for the State.

Each resident in the facility on the first day of each calendar quarter with a completed and submitted assessment shall be assigned a RUG-III 34 group calculated on the

resident's most current assessment available on the first day of each calendar quarter. This RUG-III group shall be translated to the appropriate CMI. From the individual resident case mix indices, three average case mix indices for each Medicaid nursing facility shall be determined four times per year based on the assessment information available on the first day of each calendar quarter.

The facility-wide average CMI is the simple average, carried to four decimal places, of all resident case mix indices. The Medicaid-average CMI is the simple average, carried to four decimal places, of all indices for residents, including those receiving hospice services, where Medicaid is known to be a per diem payer source on the first day of the calendar quarter or at any time during the preceding quarter. The private-pay/other average CMI is the simple average, carried to four decimal places, of all indices for residents where neither Medicaid nor Medicare were known to be the payer source on the first day of the calendar quarter or at any time during the preceding quarter. Case mix indices for ventilator-dependent residents for whom additional reimbursement has been determined shall be excluded from the average CMI calculations.

Rates will be adjusted for case mix twice annually using case mix data from the two quarters preceding the rate effective date. The case mix averages used for the rate adjustments will be the simple average of the case mix averages for each quarter. The resident listing cut-off for calculating the average CMIs for each quarter will be the first day of the quarter. The following are the dates for the resident listings and the rate periods in which the average Medicaid CMIs will be used in the semi-annual rate-setting process.

<u>Rate Effective Date:</u>	<u>Cut-Off Dates for Quarterly CMI:</u>
July 1	January 1 and April 1
January 1	July 1 and October 1

The resident listings will be distributed to providers prior to the dates the semi-annual case mix adjusted rates are determined. This will allow the providers time to review the resident listings and make corrections before they are notified of new rates. The cut off schedule may need to be modified in the event accurate resident listings and Medicaid CMI scores cannot be obtained from the MDS database.

4) Resident Days

Facilities with 60 beds or less:

For facilities with 60 beds or less, the allowable historic per diem costs for all cost centers are determined by dividing the allowable resident related expenses by the actual resident days during the cost report period(s) used to establish the base cost data.

Facilities with more than 60 beds:

For facilities with more than 60 beds, the allowable historic per diem costs for the Direct Health Care cost center and for food and utilities in the Indirect Health Care cost center are determined by dividing the allowable resident related expenses by the actual resident days during the cost report period(s) used to establish

(continued)

the base cost data. The allowable historic per diem cost for the Operating and Indirect Health Care Cost Centers less food and utilities is subject to an 85% minimum occupancy rule. For these providers, the greater of the actual resident days for the cost report period(s) used to establish the base cost data or the 85% minimum occupancy based on the number of licensed bed days during the cost report period(s) used to establish the base cost data is used as the total resident days in the rate calculation for the Operating cost center and the Indirect Health Care cost center less food and utilities. All licensed beds are required to be certified to participate in the Medicaid program.

There are two exceptions to the 85% minimum occupancy rule for facilities with more than 60 beds. The first is that it does not apply to a provider who is allowed to file a projected cost report for an interim rate. Both the rates determined from the projected cost report and the historic cost report covering the projected cost report period are based on the actual resident days for the period.

The second exception is for the first cost report filed by a new provider who assumes the rate of the previous provider. If the 85% minimum occupancy rule was applied to the previous provider's rate, it is also applied when the rate is assigned to the new provider. However, when the new provider files a historic cost report for any part of the first 12 months of operation, the rate determined from the cost report will be based on actual days and not be subject to the 85% minimum occupancy rule for the months in the first year of operation. The 85% minimum occupancy rule is then reapplied to the rate when the new provider reports resident days and costs for the 13th month of operation and after.

5) Inflation Factors

Inflation will be applied to the allowable reported costs from the calendar year cost report(s) used to determine the base cost data from the midpoint of each cost report period to November 30, 2019. The inflation will be based on the IHS Global Insight, CMS Nursing Home without Capital Market Basket index.

The IHS Global Insight, IHS Global Insight, National Skilled Nursing Facility Market Basket Without Capital Index listed in the latest available quarterly publication will be used to determine the inflation tables for the payment schedules processed during the payment rate period. This may require the use of forecasted factors in the inflation table. The inflation tables will not be revised until the next payment rate period.

The inflation factor will not be applied to the following costs:

- 1) Owner/Related Party Compensation
- 2) Interest Expense
- 3) Real and Personal Property Taxes

6) Upper Payment Limits

There are three types of upper payment limits that will be described. One is the owner/related party/administrator/co-administrator limit. The second is the real and personal property fee limit. The last type of limit is an upper payment limit for each cost center. The upper payment limits are in effect during the payment rate period unless otherwise specified by a State Plan amendment.

Owner/Related Party/Administrator/Co-Administrator Limits:

Since salaries and other compensation of owners are not subject to the usual market constraints, specific limits are placed on the amounts reported. First, amounts paid to non-working owners and directors are not an allowable cost. Second, owners and related parties who perform resident related services are limited to a salary chart based on the Kansas Civil Service classifications and wages for comparable positions. Owners and related parties who provide resident related services on less than a full time basis have their compensation limited by the percent of their total work time to a standard work week. A standard work week is defined as 40 hours. The owners and related parties must be professionally qualified to perform services which require licensure or certification.

The compensation paid to owners and related parties shall be allocated to the appropriate cost center for the type of service performed. Each cost center has an expense line for owner/related party compensation. There is also a cost report schedule titled, "Statement of Owners and Related Parties." This schedule requires information concerning the percent of ownership (if over five percent), the time spent in the function, the compensation, and a description of the work performed for each owner and/or related party. Any salaries reported in excess of the Kansas Civil Service based salary chart are transferred to the Operating cost center where the excess is subject to the Owner/Related Party/Administrator/Co-Administrator per diem compensation limit.

The Schedule C is an array of non-owner administrator and co-administrator salaries. The schedule includes the calendar year 2018 historic cost reports in the database from all active nursing facility providers. The salary information in the array is not adjusted for inflation. The per diem data is calculated using an 85% minimum occupancy level for those providers in operation for more than 12 months with more than 60 beds. The Schedule C for the owner/related party/administrator/co-administrator per diem compensation limit is the first schedule run during the rate setting.

The Schedule C is used to set the per diem limitation for all non-owner administrator and co-administrator salaries and owner/related party compensation in excess of the civil service based salary limitation schedule. The per diem limit for a 50-bed or larger home is set at the 90th percentile on all salaries reported for non-owner administrators and co-administrators. A limitation table is then established for facilities with less than 50 beds. This table begins with a reasonable salary per diem for an administrator of a 15-bed or less facility. The per diem limit for a 15-bed or less facility is inflated based on the State of Kansas annual cost of living allowance for classified employees for the rate period. A linear relationship is then established between the compensation of the administrator of the 15-bed facility and the compensation of the administrator of a 50-bed facility. The linear relationship determines the per diem limit for the facilities between 15 and 50 beds.

The per diem limits apply to the non-owner administrators and co-administrators and the compensation paid to owners and related parties who perform an admin-

istrative function or consultant type of service. The per diem limit also applies to the salaries in excess of the civil service based salary chart in other cost centers that are transferred to the operating cost center.

Real and Personal Property Fee Limit:

The property component of the reimbursement methodology consists of the real and personal property fee that is explained in more detail in a later section. The upper payment limit is 105% of the median determined from a total resident day-weighted array of the property fees in effect April 1, 2019.

Cost Center Upper Payment Limits:

Schedule B is an array of all per diem costs for each of the three cost centers-Operating, Indirect Health Care, and Direct Health Care. The schedule includes a per diem determined from the base cost data from all active nursing facility providers. Projected cost reports are excluded when calculating the limit.

The per diem expenses for the Operating cost center and the Indirect Health Care cost center less food and utilities are subject to the 85% minimum occupancy for facilities over 60 beds. All previous desk review and field audit adjustments are considered in the per diem expense calculations. The costs are adjusted by the owner/related party/administrator/co-administrator limit.

Prior to the Schedule B arrays, the cost data on certain expense lines is adjusted from the midpoint of the cost report period to November 30, 2019. This will bring the costs reported by the providers to a common point in time for comparisons. The inflation will be based on the I IHS Global Insight, National Skilled Nursing Facility Market Basket Without Capital Index.

Certain costs are exempt from the inflation application when setting the upper payment limits. They include owner/related party compensation, interest expense, and real and personal property taxes.

The final results of Schedule B are the median compilations. These compilations are needed for setting the upper payment limit for each cost center. The median for each cost center is weighted based on total resident days. The upper payment limits will be set using the following:

Operating	110% of the median
Indirect Health Care	115% of the median
Direct Health Care	130% of the median

Direct Health Care Cost Center Limit:

The Kansas reimbursement methodology has a component for a case mix payment adjustment. The Direct Health Care cost center rate component and upper payment limit are adjusted by the facility average CMI.

For the purpose of setting the upper payment limit in the Direct Health Care cost center, the facility cost report period CMI and the statewide average CMI will be calculated. The facility cost report period CMI is the resident day-weighted average of the quarterly facility-wide average case mix indices, carried to four decimal places. The quarters used in this average will be the quarters that most closely coincide with the financial and statistical reporting period. For example, a 01/01/20XX-12/31/20XX financial and statistical reporting period would use the

facility-wide average case mix indices for quarters beginning 04/01/XX, 07/01/XX, 10/01/XX and 01/01/XY. The statewide average CMI is the resident day-weighted average, carried to four decimal places, of the facility cost report period case mix indices for all Medicaid facilities.

The statewide average CMI and facility cost report period CMI are used to set the upper payment limit for the Direct Health Care cost center. The limit is based on all facilities with a historic cost report in the database. There are three steps in establishing the base upper payment limit.

The first step is to normalize each facility's inflated Direct Health Care costs to the statewide average CMI. This is done by dividing the statewide average CMI for the cost report year by the facility's cost report period CMI, then multiplying this answer by the facility's inflated costs. This step is repeated for each cost report year for which data is included in the base cost data.

The second step is to determine per diem costs and array them to determine the median. The per diem cost is determined by dividing the total of each provider's inflated case mix adjusted base direct health care costs by the total days provided during the base cost data period. The median is located using a day-weighted methodology. That is, the median cost is the per diem cost for the facility in the array at which point the cumulative total of all resident days first equals or exceeds half the number of the total resident days for all providers. The facility with the median resident day in the array sets the median inflated direct health care cost. For example, if there are eight million resident days, the facility in the array with the 4 millionth day would set the median.

The final step in calculating the base Direct Health Care upper payment limit is to apply the percentage factor to the median cost. For example, if the median cost is \$80 and the upper payment limit is based on 130% of the median, then the upper payment limit for the statewide average CMI would be \$104 (D=130% x \$80).

7) Quarterly Case Mix Rate Adjustment

The allowance for the Direct Health Care cost component will be based on the average Medicaid CMI in the facility. The first step in calculating the allowance is to determine the Allowable Direct Health Care Per Diem Cost. This is the lesser of the facility's per diem cost from the base cost data period or the Direct Health Care upper payment limit. Because the direct health care costs were previously adjusted for the statewide average CMI, the Allowable Direct Health Care Per Diem Cost corresponds to the statewide average CMI.

The next step is to determine the Medicaid acuity adjusted allowable Direct Health Care cost. The facility's Medicaid CMI is determined by averaging the facility average Medicaid CMI from the two quarters preceding the rate effective date. The facility's Medicaid CMI is then divided by the statewide average CMI for the cost data period. Finally, this result, is then multiplied by the Allowable Direct Health Care per diem cost. The result is referred to as the Medicaid Acuity Adjustment.

The Medicaid Acuity Adjustment is calculated semi-annually to account for changes in the Medicaid CMI. To illustrate this calculation, take the following situation: The facility's direct health care per diem cost is \$80.00, the Di-

(continued)

rect Health Care per diem limit is \$104.00, and these are both tied to a statewide average CMI of 1.000, and the facility's current Medicaid CMI is 0.9000. Since the per diem costs are less than the limit the Allowable Direct Health Care Cost is \$80.00, and this is matched with the statewide average CMI of 1.0000. To calculate the Medicaid Acuity Adjustment, first divide the Medicaid CMI by the statewide average CMI, then multiply the result by the Allowable Direct Health Care Cost. In this case that would result in \$72.00 (0.9000/1.0000 x \$80.00). Because the facility's current Medicaid CMI is less than the statewide average CMI the Medicaid Acuity Adjustment moves the direct health care per diem down proportionally. In contrast, if the Medicaid CMI for the next semi-annual adjustment rose to 1.1000, the Medicaid Acuity Adjustment would be \$88.00 (1.1000/1.0000 x \$80.00). Again the Medicaid Acuity Adjustment changes the Allowable Direct Health Care Per Diem Cost to match the current Medicaid CMI.

8) Real and Personal Property Fee

The property component of the reimbursement methodology consists of the real and personal property fee (property fee). The property fee is paid in lieu of an allowable cost of mortgage interest, depreciation, lease expense and/or amortization of leasehold improvements. The fee is facility specific and does not change as a result of a change of ownership, change in lease, or with re-enrollment in the Medicaid program. The original property fee was comprised of two components, a property allowance and a property value factor. The differentiation of the fee into these components was eliminated effective July 1, 2002. At that time each facility's fee was re-established based on the sum of the property allowance and value factor. The providers receive the lower of the inflated property fee or the upper payment limit.

For providers re-enrolling in the Kansas Medical Assistance program or providers enrolling for the first time but operating in a facility that was previously enrolled in the program, the property fee shall be the sum of the last effective property allowance and the last effective value factor for that facility. The property fee will be inflated to 12/31/08 and then compared to the upper payment limit. The property fee will be the lower of the facility-specific inflated property fee or the upper payment limit.

Providers entering the Kansas Medical Assistance program for the first time, who are operating in a building for which a fee has not previously been established, shall have a property fee calculated from the ownership costs reported on the cost report. This fee shall include appropriate components for rent or lease expense, interest expense on real estate mortgage, amortization of leasehold improvements, and depreciation on buildings and equipment. The process for calculating the property fee for providers entering the Kansas Medical Assistance program for the first time is explained in greater detail in K.A.R. 129-10-25.

There is a provision for changing the property fee. This is for rebasing when capital expenditure thresholds are met (\$25,000 for homes under 51 beds and \$50,000 for homes over 50 beds). The original property fee remains constant but the additional factor for the rebasing is added. The property fee rebasing is explained in greater detail in K.A.R. 129-10-25. The rebased property fee is subject to the upper payment limit.

9) Incentive Factors

An incentive factor will be awarded to both NF and NF-MH providers that meet certain outcome measures criteria. The criteria for NF and NF-MH providers will be determined separately based on arrays of outcome measures for each provider group.

Nursing Facility Quality and Efficiency Incentive Factor:

The Nursing Facility Incentive Factor is a per diem amount determined by four per diem add-ons providers can earn for various outcomes measures. Providers that maintain a case mix adjusted staffing ratio at or above the 75th percentile will earn a \$3.00 per diem add-on. Providers that fall below the 75th percentile staffing ratio but improve their staffing ratio by 10% or more will earn a \$0.50 per diem add-on. Providers that achieve a staff retention rate at or above the 75th percentile will earn a \$2.50 per diem add-on as long as contracted labor costs do not exceed 10% of the provider's total direct health care labor costs. Providers that have a staff retention rate lower than the 75th percentile but that increase their staff retention rate by 10% or more will receive a per diem add-on of \$0.50 as long as contracted labor costs do not exceed 10% of the provider's total direct health care labor costs. Providers that have a Medicaid occupancy percentage of 65% or more will receive a \$0.75 per diem add-on. Finally, providers that maintain quality measures at or above the 75th percentile will earn a \$1.25 per diem add-on. The total of all the per diem add-ons a provider qualifies for will be their incentive factor.

The table below summarizes the incentive factor outcomes and per diem add-ons:

Incentive Outcome	Incentive Add-Ons
CMI adjusted staffing ratio ≥ 75th percentile (5.18), or CMI adjusted staffing < 75th percentile but improved ≥ 10%	\$3.00 \$0.50
Staff retention rate ≥ 75th percentile, 72%	\$2.50
Contracted labor < 10% of total direct health care labor costs or Staff retention rate < 75th percentile but increased ≥ 10%	
Contracted labor < 10% of total direct health care labor costs	\$0.50
Medicaid occupancy ≥ 65%	\$0.75
Quality Measures ≥ 75th percentile (640)	\$1.25
Total Incentive Add-on Available	\$7.50

The Culture Change/Person-Centered Care Incentive Program:

The Culture Change/Person-Centered Care Incentive Program (PEAK 2.0) includes six different incentive levels to recognize homes that are either pursuing culture change, have made major achievements in the pursuit of culture change, have met minimum competencies in person-centered care, have sustained person-centered care, or are mentoring others in person-centered care.

Each incentive level has a specific pay-for-performance incentive per diem attached to it that homes can earn by meeting defined outcomes. The first three levels (Level 0 – Level 2) are intended to encourage quality improvement for homes that have not yet met the minimum competency requirements for a person-centered care home. Homes can earn the Level 1 and Level 2 incentives simultaneously as they progress toward the minimum competency level.

Level 3 recognizes those homes that have attained a minimum level of core competency in person-centered care. Level 4 and Level 5 are reserved for those homes that have demonstrated sustained person-centered care for multiple years and have gone on to mentor other homes in their pursuit of person-centered care. The table below provides a brief overview of each of the levels.

Level and Per Diem Incentive	Summary of Required Nursing Home Action	Incentive Duration
Level 0 The Foundation \$0.50	Home completes the KCCI evaluation tool according to the application instructions. Home participates in all required activities noted in "The Foundation" timeline and workbook. Homes that do not complete the requirements at this level must sit out of the program for one year before they are eligible for reapplication.	Available beginning July 1 of enrollment year. Incentive granted for one full fiscal year.
Level 1 Pursuit of Culture Change \$0.50	Homes should submit the KCCI evaluation tool (annually). Home submits an action plan addressing 4 PEAK 2.0 cores in Domains 1-4. The home self-reports progress on the action planned cores via phone conference with the PEAK team. The home may be selected for a random site visit. The home must participate in the random site visit, if selected, to continue incentive payment. Homes should demonstrate successful completion of 75% of core competencies selected. A home can apply for Levels 1 and 2 in the same year. Homes that do not achieve Level 2 with three consecutive years of participation at Level 1 may return to a Level 0 or sit out for two years depending on KDADS and KSU's recommendation.	Available beginning July 1 of enrollment year. Incentive granted for one full fiscal year.
Level 2 Culture Change Achievement \$1.00	This is a bridge level to acknowledge achievement in Level 1. Homes may receive this level at the same time they are working on other PEAK core areas at Level 1. Homes may receive this incentive for up to 3 years. If Level 3 is not achieved at the end of the third year, homes may start back at Level 0 or 1 depending on KDADS and KSU's recommendation.	Available beginning July 1 following confirmed completion of action plan goals. Incentive is granted for one full fiscal year.
Level 3 Person-Centered Care Home \$2.00	Demonstrates minimum competency as a person-centered care home (see KDADS full criteria). This is confirmed through a combination of the following: High score on the KCCI evaluation tool. Demonstration of success in other levels of the program. Performing successfully on a Level 2 screening call with the KSU PEAK 2.0 team. Passing a full site visit.	Available beginning July 1 following confirmed minimum competency as a person-centered care home. Incentive is granted for one full fiscal year. Renewable bi-annually.

Level 4 Sustained Person-Centered Care Home \$2.50	Homes earn person-centered care home award two consecutive years.	Available beginning July 1 following confirmation of the upkeep of minimum person-centered care competencies. Incentive is granted for two fiscal years. Renewable bi-annually.
Level 5 Person-Centered Care Mentor Home \$3.00	Homes earn sustained person-centered care home award and successfully engage in mentoring activities suggested by KDADS (see KDADS mentoring activities). Mentoring activities should be documented.	Available beginning July 1 following confirmation of mentor home standards. Incentive is granted for two fiscal years. Renewable bi-annually.

Nursing Facility for Mental Health Quality and Efficiency Incentive Factor:

The Quality and Efficiency Incentive plan for Nursing Facilities for Mental Health (NFMH) will be established separately from nursing facilities. Nursing Facilities for Mental Health serve people who often do not need the NF level of care on a long-term basis. There is a desire to provide incentive for NFMHs to work cooperatively and in coordination with Community Mental Health Centers to facilitate the return of persons to the community.

The Quality and Efficiency Incentive Factor is a per diem add-on ranging from zero to seven dollars and fifty cents. It is designed to encourage quality care, efficiency and cooperation with discharge planning. The incentive factor is determined by five outcome measures: case mix adjusted nurse staffing ratio; operating expense; staff turnover rate; staff retention rate; and occupancy rate. Each provider is awarded points based on their outcomes measures and the total points for each provider determine the per diem incentive factor included in the provider's rate calculation.

Providers may earn up to two incentive points for their case mix adjusted nurse staffing ratio. They will receive two points if their case mix adjusted staffing ratio equals or exceeds 3.88, which is 120% of the statewide NFMH median of 3.23. They will receive one point if the ratio is less than 120% of the NFMH median but greater than or equal to 3.55, which is 110% of the statewide NFMH median. Providers with staffing ratios below 110% of the NFMH median will receive no points for this incentive measure.

NFMH providers may earn one point for low occupancy outcomes measures. If they have total occupancy less than 90% they will earn one point.

NFMH providers may earn one point for low operating expense outcomes measures. They will earn one point if the per diem operating expenses are below \$26.56, or 90% of the statewide median of \$29.51.

NFMH providers may earn up to two points for the turnover rate outcomes measure. Providers with direct health care staff turnover equal to or below 42%, the 75th percentile statewide, will earn two points as long as contracted labor costs do not exceed 10% of the provider's total direct health care labor costs. Providers with direct health care staff turnover greater than 42% but equal to

(continued)

or below 55%, the 50th percentile statewide, will earn one point as long as contracted labor costs do not exceed 10% of the provider’s total direct health care labor costs.

Finally, NFMH providers may earn up to two points for the retention rate outcomes measure. Providers with staff retention rates at or above 84%, the 75th percentile statewide will earn two points. Providers with staff retention rates below 84% but at or above 60%, the 50th percentile statewide, will earn one point.

The table below summarizes the incentive factor outcomes and points:

Quality/Efficiency Outcome	Incentive Points
CMI adjusted staffing ratio ≥ 120% (3.88) of NF-MH median (3.23), or CMI adjusted staffing ratio between 110% (3.55) and 120%	2, or 1
Total occupancy ≤ 90%	1
Operating expenses < \$26.56, 90% of NF-MH median, \$29.51	1
Staff turnover rate ≤ 75th percentile, 42% Staff turnover rate ≤ 50th percentile, 55% Contracted labor < 10% of total direct health care labor costs	2, or 1
Staff retention ≥ 75th percentile, 84% Staff retention ≥ 50th percentile, 60%	2, or 1
Total Incentive Points Available	8

Schedule E is an array containing the incentive points awarded to each NFMH provider for each quality and efficiency incentive outcome. The total of these points will be used to determine each provider’s incentive factor based on the following table.

<u>Total Incentive Points:</u>	<u>Incentive Factor Per Diem:</u>
Tier 1: 6-8 points	\$7.50
Tier 2: 5 points	\$5.00
Tier 3: 4 points	\$2.50
Tier 4: 0-3 points	\$0.00

The survey and certification performance of each NF and NFMH provider will be reviewed quarterly to determine each provider’s eligibility for incentive factor payments. In order to qualify for an incentive factor payment a home must not have received any health care survey deficiency of scope and severity level “H” or higher during the survey review period. Homes that receive “G” level deficiencies, but no “H” level or higher deficiencies, and that correct the “G” level deficiencies within 30 days of the survey, will be eligible to receive 50% of the calculated incentive factor. Homes that receive no deficiencies higher than scope and severity level “F” will be eligible to receive 100% of the calculated incentive factor. The survey and certification review period will be the 12-month period ending one quarter prior to the incentive eligibility review date. The following table lists the incentive eligibility review dates and corresponding review period end dates.

<u>Incentive Eligibility Effective Date:</u>	<u>Review Period End Date:</u>
July 1	March 31st
October 1	June 30th
January 1	September 30th
April 1	December 31st

10) Rate Effective Date

Rate effective dates are determined in accordance with K.A.R. 129-10-19. The rate may be revised for an add-on

reimbursement factor (i.e., rebased property fee), desk review adjustment, or field audit adjustment.

11) Retroactive Rate Adjustments

Retroactive adjustments, as in a retrospective system, are made for the following three conditions:

A retroactive rate adjustment and direct cash settlement is made if the agency determines that the base year cost report data used to determine the prospective payment rate was in error. The prospective payment rate period is adjusted for the corrections.

If a projected cost report is approved to determine an interim rate, a settlement is also made after a historic cost report is filed for the same period.

All settlements are subject to upper payment limits. A provider is considered to be in projection status if they are operating on a projected rate and they are subject to the retroactive rate adjustment.

II. Medicaid Per Diem Rates for Kansas Nursing Facilities

A. Cost Center Limitations: The state proposes the following cost center limitations which are used in setting rates effective July 1, 2019.

Cost Center	Limit Formula	Per Day Limit
Operating	110% of the Median Cost	\$40.11
Indirect Health Care	115% of the Median Cost	\$54.40
Direct Health Care	130% of the Median Cost	\$129.48
Real and Personal Property Fee	105% of the Median Fee	\$10.01

These amounts were determined according to the “Reimbursement Limitations” section. The Direct Health-care Limit is calculated based on a CMI of 1.0314, which is the statewide average.

B. Case Mix Index: These proposed rates are based upon each nursing facility’s Medicaid CMI calculated as the average of the quarterly Medicaid CMI averages with cut-off dates of January 1, 2019 and April 1, 2019. The CMI calculations use the Kansas Medicaid/Medikan CMI Table. In Section II.C below, each nursing facility’s Medicaid average CMI is listed beside its per diem rate.

C. Rates: The following list includes the calculated Medicaid rate for each nursing facility provider currently enrolled in the Medicaid program and the Medicaid case mix index used to determine each rate.

III. Justifications for the Rates

1. The proposed rates are calculated according to the rate-setting methodology in the Kansas Medicaid State Plan and pending amendments thereto.
2. The proposed rates are calculated according to a methodology which satisfies the requirements of K.S.A. 39-708c(x) and the DHCF regulations in K.A.R. Article 129-10 implementing that statute and applicable federal law.
3. The State's analyses project that the rates:
 - a. Would result in payment, in the aggregate of 95.04% of the Medicaid day weighted average

inflated allowable nursing facility costs statewide; and

- b. Would result in a maximum allowable rate of \$234.29 (for a CMI of 1.0314); with the total average allowable cost being \$192.09.
 - c. Average Payment rate July 1, 2019 \$192.09
 - d. Average payment rate July 1, 2018 \$190.24
- | | |
|-------------------|--------|
| Amount of change | \$1.85 |
| Percent of change | 0.97% |
4. Estimated annual aggregate expenditures in the Medicaid nursing facility services payment program will increase approximately \$4.41 million.
 5. The state estimates that the rates will continue to make quality care and services available under the Medicaid State Plan at least to the extent that care and services are available to the general population in the geographic area. The state's analyses indicate:
 - a. Service providers operating a total of 323 nursing facilities and hospital-based long-term care units (representing 96.42% of all the licensed nursing facilities and long-term care units in Kansas) participate in the Medicaid program;
 - b. There is at least one Medicaid-certified nursing facility and/or nursing facility for mental health, or Medicaid-certified hospital-based long-term care unit in 100 of the 105 counties in Kansas;
 - c. The statewide average occupancy rate for nursing facilities participating in Medicaid is 81.23%;
 - d. The statewide average Medicaid occupancy rate for participating facilities is 57.05%; and
 - e. The rates would cover 95.23% of the estimated Medicaid direct health care costs incurred by participating nursing facilities statewide.
 6. Federal Medicaid regulations at 42 C.F.R. 447.272 impose an aggregate upper payment limit that states may pay for Medicaid nursing facility services. The state's analysis indicates that the methodology will result in compliance with the federal regulation.

In order to provide all parties an opportunity to present their views, it may be necessary to request that each participant limit any oral presentation to five minutes.

Any individual with a disability may request an accommodation in order to participate in the public hearing and may request the proposed regulations and economic impact statements in an accessible format. Requests for accommodation to participate in the hearing should be made at least five working days in advance of the hearing by contacting Athena Andaya at 785-368-8401 (or TYY 1-800-766-3777). The public entrance to Memorial Hall is accessible. Handicapped parking is located in front of Memorial Hall.

Summaries of the proposed regulations and their economic impact follow. (Note: Statements indicating that a regulation is "not anticipated to have any economic impact" are intended to indicate that no economic impact on the Office of the Attorney General, other state agencies, state employees, or the general public has been identified.)

Copies of the proposed regulations and the Economic Impact Statement for the proposed regulations can be viewed at the following website: <http://www.ag.ks.gov/regulation-hearings>.

K.A.R. 16-18-1 provides definitions of terms used in the new Article 18 regulations. This regulation is not anticipated to have any economic impact on the Office of the Attorney General.

K.A.R. 16-18-2 establishes the Elder and Dependent Adult Abuse Prevention Council (Council) and provides for the selection of the members of the council by the attorney general. The Council replaces the Senior Consumer Protection Advisory Council and focuses the Council on its statutory duties. Further, the regulation requires the council to meet at least quarterly and to maintain minutes of its meetings.

K.A.R. 16-18-3 requires the council to advise and make recommendations to the ANE unit and the attorney general to assist the ANE unit with the statutory duty of the ANE unit pursuant to K.S.A. 2018 Supp. 75-723, and amendments thereto. The council would comply with the Kansas Open Meetings Act and the Kansas Open Records Act. Further, the council would have the authority to request legal counsel and any other staff for its support from the attorney general. Finally, the council would be required to submit an annual report to the attorney general on its work, recommendations and anticipated activities.

(Authorized by K.S.A. 2018 Supp. 39-708c; implementing K.S.A. 2018 Supp. 39-708c and K.S.A. 2018 Supp. 39-709; effective May 1, 1981; amended May 1, 1983; amended, T-85-26, Oct. 15, 1984; amended May 1, 1985; amended May 1, 1986; amended May 1, 1987; amended May 1, 1988; amended July 1, 1989; amended Oct. 1, 1989; amended Jan. 2, 1990; amended, T-30-6-10-91, July 1, 1991; amended Oct. 1, 1993; amended July 1, 1996; amended March 1, 1997; amended May 3, 2019.)

Be it enacted by the Legislature of the State of Kansas:

Section 1. On and after July 1, 2019, K.S.A. 2018 Supp. 8-1001 is hereby amended to read as follows: 8-1001. (a) Any person who operates or attempts to operate a vehicle within this state may be requested, subject to the provisions of this article, to submit to one or more tests of the person's blood, breath, urine or other bodily substance to determine the presence of alcohol or drugs. The testing shall include all quantitative and qualitative tests for alcohol and drugs. The test must be administered at the direction of a law enforcement officer, and the law enforcement officer shall determine which type of test is to be conducted or requested.

(b) (1) One or more tests may be required of a person when, at the time of the request, a law enforcement officer has probable cause to believe the person has committed a violation of K.S.A. 8-1567(a), and amendments thereto, or to believe the person was driving a commercial motor vehicle, as defined in K.S.A. 8-2,128, and amendments thereto, while having alcohol or other drugs in such person's system, or to believe the person is under the age of 21 years and was operating or attempting to operate a vehicle while having alcohol or other drugs in such person's system; and one of the following conditions exists: (A) The person has been arrested or otherwise taken into custody for any violation of any state statute, county resolution or city ordinance; or (B) the person has been involved in a motor vehicle accident or collision resulting in property damage, personal injury or death.

(2) The law enforcement officer directing administration of the test or tests may act on personal knowledge or on the basis of the collective information available to law enforcement officers involved in the investigation or arrest.

(c) When requesting a test or tests of breath or other bodily substance other than blood or urine, under this section, the person shall be given oral and written notice that:

(1) There is no right to consult with an attorney regarding whether to submit to testing, but, after the completion of the testing, the person may request and has the right to consult with an attorney and may secure additional testing;

(2) if the person refuses to submit to and complete the test or tests, ~~or the person's driving privileges will be suspended for a period of one year;~~

(3) if the person fails a test, the person's driving privileges will be suspended for a period of ~~at least either 30 days and up to~~ or one year;

~~(3)(4)~~ refusal to submit to testing may be used against the person at any trial or hearing on a charge arising out of the operation or attempted operation of a vehicle while under the influence of alcohol or drugs, or both; and

~~(4)(5)~~ the results of the testing may be used against the person at any trial or hearing on a charge arising out of the operation or attempted operation of a vehicle while under the influence of alcohol or drugs, or both.

(d) When requesting a test or tests of blood or urine, under this section, the person shall be given oral and written notice that:

(1) If the person refuses to submit to and complete the test or tests, ~~or the person's driving privileges will be suspended for a period of one year;~~

(2) if the person fails a test, the person's driving privileges will be suspended for a period of ~~at least either 30 days and up to~~ or one year;

~~(2)(3)~~ the results of the testing may be used against the person at any trial or hearing on a charge arising out of the operation or attempted operation of a vehicle while under the influence of alcohol or drugs, or both; and

~~(3)(4)~~ after the completion of the testing, the person may request and has the right to consult with an attorney and may secure additional testing.

(e) Nothing in this section shall be construed to limit the right of a law enforcement officer to conduct any search of a person's breath or other bodily substance, other than blood or urine, incident to a lawful arrest pursuant to the constitution of the United States, with or without providing the person the advisories authorized in subsection (c), nor limit the admissibility at any trial or hearing of alcohol or drug concentration testing results obtained pursuant to such a search.

(f) Nothing in this section shall be construed to limit the right of a law enforcement officer to conduct or obtain a blood or urine test of a person pursuant to a warrant under K.S.A. 22-2502, and amendments thereto, the constitution of the United States or a judicially recognized exception to the search warrant requirement, with or without providing the person the advisories authorized in subsection (d), nor limit the admissibility at any trial or hearing of alcohol or drug concentration testing results obtained pursuant to such a search.

(g) A law enforcement officer may direct a medical professional, as described in subsection (h), to draw one or more samples of blood from a person to determine the blood's alcohol or drug concentration:

(1) If the person has given consent, with or without the advisories in subsection (d), and meets the requirements of subsection (b);

(2) if law enforcement has obtained a search warrant authorizing the collection of blood from the person; or

(3) if the person refuses or is unable to consent to submit to and complete a test, and another judicially recognized exception to the warrant requirement applies.

(h) If a law enforcement officer is authorized to collect one or more tests of blood under this section, the withdrawal of blood at the direction of the officer may be performed only by: (1) A person licensed to practice medicine and surgery, licensed as a physician assistant, or a person acting under the direction of any such licensed person; (2) a registered nurse or a licensed practical nurse; (3) any qualified medical technician, including, but not limited to, an advanced emergency medical technician or a paramedic, as those terms are defined in K.S.A. 65-6112, and amendments thereto, authorized by medical protocol; or (4) a phlebotomist.

(i) When so directed by a law enforcement officer through a written statement, the medical professional shall withdraw the sample of blood as soon as practical and shall deliver the sample to the law enforcement officer or another law enforcement officer as directed by the requesting law enforcement officer as soon as practical, provided the collection of the sample does not jeopardize the person's life, cause serious injury to the person or seriously impede the person's medical assessment, care or treatment. The medical professional authorized herein to withdraw the blood and the medical care facility where the blood is drawn may act on good faith that the requirements have been met for directing

the withdrawing of blood once presented with the written statement provided for under this subsection. The medical professional shall not require the person that is the subject of the test or tests to provide any additional consent or sign any waiver form. In such a case, the person authorized to withdraw blood and the medical care facility shall not be liable in any action alleging lack of consent or lack of informed consent.

Such sample or samples shall be an independent sample and not be a portion of a sample collected for medical purposes. The person collecting the blood sample shall complete the collection portion of a document, if provided by law enforcement.

(j) If a person must be restrained to collect the sample pursuant to this section, law enforcement shall be responsible for applying any such restraint utilizing acceptable law enforcement restraint practices. The restraint shall be effective in controlling the person in a manner not to jeopardize the person's safety or that of the medical professional or attending medical or health care staff during the drawing of the sample and without interfering with medical treatment.

(k) If a law enforcement officer is authorized to collect one or more tests of urine, the collection of the urine sample shall be supervised by: (1) A person licensed to practice medicine and surgery, licensed as a physician assistant, or a person acting under the direction of any such licensed person; (2) a registered nurse or a licensed practical nurse; or (3) a law enforcement officer of the same sex as the person being tested. The collection of the urine sample shall be conducted out of the view of any person other than the persons supervising the collection of the sample and the person being tested, unless the right to privacy is waived by the person being tested. When possible, the supervising person shall be a law enforcement officer. The results of qualitative testing for drug presence shall be admissible in evidence and questions of accuracy or reliability shall go to the weight rather than the admissibility of the evidence. If the person is medically unable to provide a urine sample in such manner due to the injuries or treatment of the injuries, the same authorization and procedure as used for the collection of blood in subsections (g) and (i) shall apply to the collection of a urine sample.

(l) No law enforcement officer who is acting in accordance with this section shall be liable in any civil or criminal proceeding involving the action.

(m) If a law enforcement officer has probable cause to believe that the person has been driving a commercial motor vehicle, as defined in K.S.A. 8-2,128, and amendments thereto, while having alcohol or other drugs in such person's system, the person shall also be provided the oral and written notice pursuant to K.S.A. 8-2,145, and amendments thereto. Any failure to give the notices required by K.S.A. 8-2,145, and amendments thereto, shall not invalidate any action taken as a result of the requirements of this section. If a law enforcement officer has probable cause to believe that the person has been operating or attempting to operate a vehicle while having alcohol or other drugs in such person's system and such person was under 21 years of age, the person also shall be given the notices required by K.S.A. 8-1567a, and amendments thereto. Any failure to give the notices required by K.S.A. 8-1567a, and amendments thereto, shall not invalidate any action taken as a result of the requirements of this section.

(n) The person's refusal shall be admissible in evidence against the person at any trial on a charge arising out of the alleged operation or attempted operation of a vehicle while under the influence of alcohol or drugs, or both.

(o) If a law enforcement officer had probable cause to believe the person had been driving a commercial motor vehicle, as defined in K.S.A. 8-2,128, and amendments thereto, and the test results show a blood or breath alcohol concentration of 0.04 or greater, the person shall be disqualified from driving a commercial motor vehicle, pursuant to K.S.A. 8-2,142, and amendments thereto. If a law enforcement officer had probable cause to believe the person had been driving any motor vehicle, the person fails a test, as defined in K.S.A. 8-1013(h), and amendments thereto, or the person refuses a test, the person's driving privileges shall be subject to suspension, or suspension and restriction, pursuant to this section, in addition to being disqualified from driving a commercial motor vehicle pursuant to K.S.A. 8-2,142, and amendments thereto.

(p) Failure of a person to provide an adequate breath sample or samples as directed shall constitute a refusal unless the person shows that the failure was due to physical inability caused by a medical condition unrelated to any ingested alcohol or drugs.

(q) It shall not be a defense that the person did not understand the written or oral notice authorized by this section.

(continued)

(r) No test results shall be suppressed because of irregularities not affecting the substantial rights of the accused in the consent or notice authorized pursuant to this act. Failure to provide any or all of the notices set forth in subsection (c) or (d) shall not be an issue or defense in any action other than an administrative action regarding the subject's driving privileges.

(s) Nothing in this section shall be construed to limit the admissibility at any trial of alcohol or drug concentration testing results obtained pursuant to a search warrant or other judicially recognized exception to the warrant requirement.

(t) Upon the request of any person submitting to testing under this section, a report of the results of the testing shall be made available to such person when available.

(u) This act is remedial law and shall be liberally construed to promote public health, safety and welfare.

Sec. 2. K.S.A. 2018 Supp. 8-1012 is hereby amended to read as follows: 8-1012. (a) ~~Any person who operates or attempts to operate a vehicle within this state is deemed to have given consent to submit to a preliminary screening test of the person's breath or saliva, or both, subject to the provisions set out in subsection (b):~~

~~(b)—A law enforcement officer may request a person who is operating or attempting to operate a vehicle within this state to submit to a preliminary screening test of the person's breath or saliva or oral fluid, or both, if the officer has reasonable suspicion to believe the person has been operating or attempting to operate a vehicle while under the influence of alcohol or drugs or both alcohol and drugs.~~

~~(c)—At the time the test is requested, the person shall be given oral notice that: (1) There is no right to consult with an attorney regarding whether to submit to testing; (2) refusal to submit to testing is a traffic infraction; and (3) further testing may be required after the preliminary screening test. Failure to provide the notice shall not be an issue or defense in any action. The law enforcement officer then shall request the person to submit to the test.~~

~~(d)—Refusal to take and complete the test as requested is a traffic infraction:~~

~~(b) If the person submits to the test, the results shall be used for the purpose of assisting law enforcement officers in determining whether an arrest should be made and whether to request the tests authorized by K.S.A. 8-1001, and amendments thereto. A law enforcement officer may arrest a person based in whole or in part upon the results of a preliminary screening test. Such results shall not be admissible in any civil or criminal action concerning the operation of or attempted operation of a vehicle except to aid the court or hearing officer in determining a challenge to the validity of the arrest or the validity of the request to submit to a test pursuant to K.S.A. 8-1001, and amendments thereto. Following the preliminary screening test, additional tests may be requested pursuant to K.S.A. 8-1001, and amendments thereto.~~

~~(e)(c) Any preliminary screening of a person's breath shall be conducted with a device approved pursuant to K.S.A. 65-1,107, and amendments thereto. Any preliminary screening of a person's oral fluid shall be conducted in accordance with rules and regulations, if any, approved pursuant to K.S.A. 75-712h, and amendments thereto.~~

Sec. 3. K.S.A. 2018 Supp. 8-2118 is hereby amended to read as follows: 8-2118. (a) A person charged with a traffic infraction shall, except as provided in subsection (b), appear at the place and time specified in the notice to appear. If the person enters an appearance, waives right to trial, pleads guilty or no contest, the fine shall be no greater than that specified in the uniform fine schedule in subsection (c) and court costs shall be taxed as provided by law.

(b) Prior to the time specified in the notice to appear, a person charged with a traffic infraction may enter a written appearance, waive right to trial, plead guilty or no contest and pay the fine for the violation as specified in the uniform fine schedule in subsection (c) and court costs provided by law. Payment may be made in any manner accepted by the court. The traffic citation shall not have been complied with if the payment is not honored for any reason, or if the fine and court costs are not paid in full. When a person charged with a traffic infraction makes payment without executing a written waiver of right to trial and plea of guilty or no contest, the payment shall be deemed such an appearance, waiver of right to trial and plea of no contest.

(c) The following uniform fine schedule shall apply uniformly throughout the state but shall not limit the fine which may be imposed following a court appearance, except an appearance made for the purpose of pleading and payment as permitted by subsection (a). The de-

scription of offense contained in the following uniform fine schedule is for reference only and is not a legal definition.

Substitute for Senate Bill No. 69

AN ACT concerning electric utilities; requiring a study of electric rates; relating to the legislative coordinating council; state corporation commission.

Be it enacted by the Legislature of the State of Kansas:

Section 1. (a) To provide information that may assist future legislative and regulatory efforts to craft forward-looking electric policy that leads to regionally competitive electric rates and reliable electric service, the legislative coordinating council shall authorize a study of the retail rates of Kansas electric public utilities. Such utilities shall include electric public utilities as defined in K.S.A. 66-101a, and amendments thereto, electric cooperative public utilities exempt from state corporation commission jurisdiction pursuant to K.S.A. 66-104d, and amendments thereto, and the three largest municipally owned or operated electric utilities by customer count.

(b) (1) To conduct the study, the legislative coordinating council shall select one or more independent organizations, and notwithstanding the provisions of K.S.A. 46-1202, and amendments thereto, such selection shall be made by an affirmative vote of at least five members of the council including at least one affirmative vote from a member of the minority party, that have experience with evaluating electric utilities and include input from residential, commercial and industrial customers, electric utilities and other energy stakeholders.

(2) To facilitate this study, any organization selected by the legislative coordinating council may request data from any electric utility identified in subsection (a) and must allow at least 14 days for the utility to respond. Prior to making a request for information of any electric utility, any organization selected by the council shall enter into a confidentiality agreement with the electric utility to assure nondisclosure of confidential business information.

(3) The state corporation commission shall assist any organization hired by the legislative coordinating council by sharing subject matter knowledge regarding Kansas electric utilities and assisting with the procurement of any necessary information requested by such organization. Such requests shall be subject to the provisions of the Kansas open records act, the judicial review act, the Kansas administrative procedures act and any other law or regulations applicable to the state corporation commission. Any dispute regarding the provision of information, including the establishment of reasonable protections for the treatment of confidential information, shall be decided by the commission.

(4) The study shall be completed and delivered to the state corporation commission in two parts. The first part of the study shall be comprised of the issues identified in subsections (c)(1) and (2) and shall be completed and made available on the commission's website by January 8, 2020, and the second part of the study shall be comprised of the issues identified in subsection (c)(3) and shall be completed and made available on the commission's website by July 1, 2020. The commission shall submit the first part of the study to the house committee on energy, utilities and telecommunications and the senate committee on utilities by January 14, 2020, and shall submit the second part of the study to such committees by January 12, 2021.

(5) The costs of the study shall be paid by the state corporation commission from an assessment of expenses pursuant to K.S.A. 66-1502, and amendments thereto, upon the utilities that are subject to the

study, regardless of whether such utilities are subject to the jurisdiction of the commission.

(c) The study authorized by the legislative coordinating council shall address:

(1) The effectiveness of current Kansas ratemaking practices, including whether:

(A) Current ratemaking adequately attracts needed utility capital investments and adequately discourages unnecessary capital investments in Kansas;

(B) current ratemaking appropriately balances utility profits with the public interest objectives of achieving competitive rates over time while providing the best practicable combination of price, quality and service;

(C) Kansas electric public utilities are currently recovering from Kansas retail electric ratepayers the full or partial cost, including a return on investment, of any investments that are no longer fully used or required to be used in service to the public within the state of Kansas, including, but not limited to, generation capacity investments;

(D) the investments that Kansas electric public utilities have made in electric transmission and renewable generation resources have contributed, and to what extent, to the obsolescence of all the other generation facility investments of such utilities;

(E) allowing Kansas investor-owned electric public utilities to recover costs through surcharges and riders, without a comprehensive ratemaking process, has unnecessarily contributed to rising wholesale and retail electricity prices;

(F) the current ratemaking processes for Kansas electric cooperatives and municipal utilities are in the public interest; and

(G) electricity providers in surrounding states are subject to similar state laws, regulations and oversight to such requirements in Kansas;

(2) options available to the state corporation commission and the Kansas legislature to affect Kansas retail electricity prices to become regionally competitive while providing the best practicable combination of price, quality and service, including reviewing whether:

(A) Capital expenditures and operating expenses of Kansas electric public utilities can be managed to achieve and sustain competitive retail rates while maintaining adequate and reliable service;

(B) any performance-based regulation, economic development initiatives, price-cap regulation or other non-traditional ratemaking methods should be considered to reduce retail electric rates or the level of increase of any rate;

(C) competitive markets for retail electricity can benefit all Kansas consumers;

(D) further investments in energy efficiency and renewable energy, including revenue decoupling and renewable energy incentives, can benefit all Kansas consumers;

(E) securitized ratepayer-backed bonds can benefit utilities and ratepayers by reducing investment risk, facilitating the recovery of certain stranded costs from under-utilized or otherwise obsolete generating and other facilities and lowering retail electric rates, and assisting in the transition to new technologies, including a review of whether securitized bonds could be effectively utilized by Kansas utilities;

(F) Kansas sales tax, property taxes, assessment rates and other fees and taxes on utilities are comparable to other states in the region and how such taxes and fees impact the competitiveness of utility rates;

(G) Kansas electric utilities and the state corporation commission can reduce the cost impacts of decisions of the southwest power pool by advocating for certain positions through the southwest power pool's stakeholder and regional state committee processes, including an identification of current and future issues most likely to impact Kansas retail electric rates;

(H) any other regulatory actions are available to the state corporation commission to manage or reduce retail electric rates; and

(I) legislative enactments can address retail electric rate escalation in Kansas; and

(3) other consequential issues materially affecting Kansas electricity rates, including:

(A) Whether any costs incurred by Kansas electric public utilities to build and operate electric vehicle charging stations, including any necessary upgrades to distribution infrastructure, are recovered from ratepayers not using electric vehicle charging services;

(B) how rates for electric vehicle charging services should be designed to ensure such rates are just and reasonable and not subsidized by other utility customers;

(C) the potential effects of deregulating electric vehicle charging services in Kansas, including whether deregulation would ensure that

(continued)

electric vehicle charging services are not subsidized by public utility ratepayers not using electric vehicle charging services;

(D) whether Kansas consumers could benefit from improved access to advanced energy solutions, including micro grids, electric vehicles, charging stations, customer generation, battery storage and trans-active energy;

(E) the extent to which transmission investments by Kansas electric public utilities have impacted retail rates, including any incremental regional transmission costs incurred by Kansas ratepayers for transmission investments in other states, and whether such costs have been fully offset by financial benefits such as improved access to low-cost renewable energy and wholesale energy markets;

(F) the costs and benefits incurred by Kansas ratepayers for transmission investments in Kansas, used to export energy out of Kansas;

(G) how rate increases or the associated rising costs of Kansas investor-owned electric public utilities impact the retail electric rates of Kansas electric cooperatives and municipal utilities;

(H) whether retail electric rates in Kansas are a material barrier to economic development in Kansas;

(I) the impact of contract rates with commercial and industrial customers and economic development rates on other customer classes, including whether expanded utilization of such approaches can benefit all customers over time;

(J) whether Kansas electric public utilities recover their costs of serving customers from each customer class on the basis of cost causation;

(K) how cyber and physical security and grid stabilization efforts have affected, or are projected to affect, electric public utility rates;

(L) the value of a utility integrated resource planning process that requires state regulatory approval; and

(M) economic analysis of the price fluctuations of generation fuels on the cost of electricity.

Sec. 2. This act shall take effect and be in force from and after its publication in the Kansas register.
